Russ Hart steps in to fill void

Mentone Marshal John Hart formally resigns

In what may be one of the most unusual local instances of familial duty, deputy Russ Hart agreed to fill the vacancy of Mentone Town Marshal created by his son's recent resignation. John Hart formally resigned his position last Monday, April 2, although he quit working for the town about two weeks earlier to accept employment with Niff-Tone Distributors.

Hart resigned because of low salary. During his five-year tenure as Marshal, he'd received a raise every year until this year, when town board members voted to hold all town employee salaries at their 1983 levels. The Marshal's position paid \$12,500, while deputy's job paid \$11,500.

Board members Jim Miller, Wayne Tombaugh and Miriam Boardman praised Hart's job performance, but all stated they understood his reasons for accepting another job. When they asked Hart's father, Russell Hart, if he'd accept the position as Marshal, he agreed to do so.

Board president, Miller moved to

hire Russ Hart as Marshal, paying him the current salary of \$12,500 plus an additional \$1500 annually to cover the extra duties that will be his. (Board members do not plan on hiring a full-time deputy to replace Russ Hart, but will instead use reserve officers.)

Russ Hart's only comment was to state he felt the \$14,000 still wasn't a fair salary considering the extra work that would be his. After some discussion, trustees agreed to pay Hart for time spent in court on town business. Hart will also continue in his capacity as building inspector, and he agreed to take over as Mentone's civil defense director.

On the heels of the personnel change, Hart announced that his son had only last Saturday been named the Kosciusko County Policeman of the Year by the Warsaw chapter of the VFW.

Current reserve officers Jim Lewis and Rick Johnson attended the meeting. Trustees questioned them about their availability and briefly discussed hourly wages. They decided to postpone any

decision about wages until the May meeting.

Board members unanimously decided to contract with Ropes Corporation, Kokomo, and start a water meter replacement program. Last month the trustees listened to representatives from a Rockwell dealer and from Ropes, which handles Neptune meters. Superintendent Rod Holloway commented that Rockwell had been around a long time, but Neptune's meters were easier to change from standard to remote.

After reports from Tombaugh, who investigated Bremen's Neptune system, and Boardman, who investigated Bourbon's Neptune system, members decided to accept Ropes's offer.

Cost of the meters is \$42.50 for the remote-type. The town will purchase 18 meters every three months for one year, so by the end of the year cost will be \$3060 for 72 units. An additional 12 or 13 meters will be received as trade-in for extra lengths of 12 inch pipe originally purchased from Ropes,

bringing the total number of new meters to 85.

Trustees directed clerk-treasurer Kate Whetstone to send an order for 12 meters.

In other business: Town employees will sweep and clean Main Street and Broadway tonight (Wednesday) in anticipation of painting new parking lines on the streets.

Darrel King and Tombaugh are coordinating an effort to clean up the cemetery on April 11 and 18. Several of the older tombstones have fallen or are in danger of doing so, so volunteers are needed to help correct the problems. Volunteers are asked to call Tombaugh at 353-7690 for more details.

Miller reminded town employees and other trustees that the town's backhoe should not be used on private property for water lines and drains. Although in past years the town's equipment and man hours were freely donated, Miller stated he felt the town had more than enough work for employees. Whetstone pointed out that such a

position had already been adopted, although occasional exceptions have been made.

Trustees agreed to hire Billy Steele to read meters for the town. He'll be paid \$1 per meter every quarter.

Members signed ordinance #249 outlining dog and cat control within town limits. (See page 3 for ordinance.)

Board members also signed a contract with the Kosciusko county Sheriff's office for county dispatch services. Cost is \$600 annually plus special telephone fees payable directly to General Telephone.

Members accepted Russ Hart's report for the month of March. It included 1348 miles logged on the police vehicle while answering 20 calls. They included four accidents, two with personal property damage amounting to \$3400 but no injuries, one dog complaint, one public assist, two breaking and entering reports and three title checks.

The next meeting of the board will be Monday, May 7 at 7 p.m. at the town offices.

Happiness

Happiness is like a crystal, fair and exquisite and clear.

Broken in a million pieces, shattered, scattered far and near.

Now and then along life's pathway, Lo! Some shining fragments fall.

But there are so many pieces, No one ever finds them all.

You may find a bit of beauty, Or an honest share of wealth.

While another just beside you, Gathers honor, love, or health.

Vain to choose or grasp unduly, Broken is the perfect ball.

And there are so many pieces, No one ever finds them all.

Yet the wise, as on they journey, Treasure every fragment clear.

Fit them as they may together, Imagining the shattered sphere.

Learning ever to be thankful, Though their share of it is small.

For it has so many pieces, No one ever finds them all.

Tombaugh heads "sister city" drive

[Editor's note: On March 1, the NEWS sent letters to every town in the U.S. named Burkett, Akron or Mentone and requested information and photos for a series of articles. To our chagrin, we still haven't heard from Mentone, AL.]

Wayne Tombaugh has been appointed by the Mentone Chamber of Commerce and the Mentone town board to represent the town in a special project which will continue over the next few months. Tombaugh has already enthusiastically started the drive for Mentone to become the "sister city" of the tiny hamlet of Mentone, Alabama, which will be celebrating its centennial this year.

Postmaster Kenny Romine received a letter dated March 15 from the Reverend Charles W.

McGehee, publisher of the Mentone newspaper, *The Groundhog*. In the letter, McGehee described the Alabama town as a summer resort and retirement community that stands on the west brow of Lookout Mountain, approximately 40 miles southwest of Chattanooga, TN. He added, "We have some of the most beautiful scenery in the southeastern U.S.—mountains, wild rivers, waterfalls, lakes and lots of history."

Tombaugh, as the representative of the town board and the Chamber, is currently speaking with local businesses and preparing a package to send to Reverend McGehee for their centennial. Several businesses have donated items marked with "Mentone, Indiana," and Tombaugh is also collecting mem-

orabilia from our 1982 centennial celebration to send to the Alabama residents.

Tombaugh reports he spoke with McGehee by telephone and invited some of the Alabama townspeople to attend the 1984 June Egg Festival. Several Indiana residents have expressed an interest in attending the "sister city's" centennial celebration, also, so plans are in the works for a possible bus trip. McGehee assured Tombaugh that there are camps and resort areas where people could stay.

If anyone has items pertaining to Mentone, Indiana that they'd like to send to our sister city, they can contact Tombaugh at 353-7690. He plans on sending the package by May 1.

Connie Anderson, Huntington, conducted a Vacation Bible School Workshop for Lucile's Christian Supplies of Akron. Bible School material was displayed and a film entitled "Why Me Lord" was shown Wednesday, March 28 in the Akron Library basement. Here, Anderson and Brenda Malbone look over the various crafts and literature.

As the weather finally is getting warmer, the southern vacationers are returning. We welcome back the Bud Bakers and Roy Adams. More will be returning soon. We missed all of you and we also miss Eva Mae. Barba Hughes is doing very well and we appreciate her also.

This week Mr. and Mrs. James Heaton of Winona Lake came and talked to us about the Council on Aging. They told of their varied services. The Happy Wanderer is one and the van comes to Mentone and area once a week taking you

anywhere in Warsaw for just 25¢. It will pick you up and take you back home after any errands you have. Just call them the day before you ride. Their office is in the Warsaw Park Pavilion and the number is 267-7693. (This is Mr. Heaton's number.)

We had the assistant Pastor from the Fellowship Church at Atwood. He brought a very good message. We also missed Bedi Weirick the few days she was in Tenn.

We're all hoping you are feeling better Eva Mae and the month off will find you back with us.

Woodlawn Notes

As the eyes of the world focus on the upcoming Olympic Games, 1984 becomes the year of the athlete.

While gymnasts are perfecting mid-air tumbles, swimmers backstroking faster, and discus throwers tossing farther, millions of Americans will emulate their heroes and dream of gold medals dangling from their necks.

As the excitement of the Summer Games heats up, more than a few fans will need new jogging suits and expect to start an exercise program with a five mile run.

Enter the American Dietetic Association with its 1984 message for all athletes—Olympic contenders or armchair dreamers—"Everybody Wins With Good Nutrition." Getting in shape not only means flexing muscles; it demands healthy eating habits.

Three simple guidelines may help

you stay ahead of the game:

1. Everybody Wins . . . with a little less salt. Slow down on salt in cooking and at the table. For variety, put a mix of herbs or spices in the shaker. Pep up vegetables with a dash of lemon juice. Go easy on packaged soups, gravies, seasoning mixes, and processed foods like hot dogs, bacon, cheeses and fast foods.

2. Everybody Wins . . . with a little less fat. Trim the fat from meat, poultry and fish. Try a light touch on baked potatoes and salads with chopped chives, basil or dill. Plain low-fat yogurt is a tasty substitute for heavy dressings. Go an extra healthy step by baking, roasting, broiling and poaching foods instead of frying.

3. Everybody Wins . . . with natural sweetness. Satisfy your sweet tooth with fruits, juices and crunchy snacks made of dried fruits and nuts. Less sugar in breakfast cereals, tea, coffee and in all recipes will help lighten the load.

Energy dept. encourages innovators

Under Secretary of Energy Pat Collins announced the launching of a state/federal initiative to recognize innovators of unique conservation and renewable energy projects.

Collins said, "the effort is part of the Technology Transfer '80s program which will spotlight unique conservation and renewable energy projects and then shares these ideas with others. The technology transfer program is an initiative to encourage the sharing of energy-saving accomplishments and tech-

nologies."

Application information for the awards program can be obtained from state energy offices in participating states. There will be three levels of awards in the recognition process.

At the first level, the state will judge the submissions and the governors will make awards for innovative energy-saving projects within their states. Following that, Secretary of Energy Don Hodel will present certificates to state award

winners who have been nominated for national awards. Some projects will be selected for special recognition.

Under Secretary Collins said "projects will be judged on a number of factors including transferability, energy savings, economic impact, job creation, education and innovation. In short, we are looking for innovative projects that can be used by others to save energy or make more efficient use of the energy available."

Group plans genealogy day

The Genealogy Section of the Fulton County Neighborhood Historical Society is planning a trip to the Fort Wayne Library April 14. They will leave the Rochester courthouse at 7:30 a.m. and return about 5:30 p.m. Anyone interested in doing research should call the Historical Society at 223-4436 for reservations.

The Genealogy Section met March 13 and voted to obtain genealogy supplies including census work sheets, family group sheets and pedigree charts. These supplies will be available for members and researchers to purchase.

The guest speaker was Carol Collins, author of Michiana Roots genealogy column in the Sunday South Bend Tribune. Mrs. Collins gave much information on foreign research and going abroad

for research. She stated that in Chicago the tourist bureaus for each country have brochures listing genealogy sources, such as Ireland, England and Germany. These brochures can help in genealogical research even if you don't travel but write to foreign countries.

It was announced that anyone who might have material of genealogy interest that they would like to publish in the Fulton County Folk Finder should contact the publishing committee. The members of this committee are: Alice Tetzlaff, Shirley Willard, Toni Keller and Odessa Greer.

A total of 22 attended the March meeting. The next meeting will be April 10 with Charlet Smith of the Peru library as the speaker. Her topic will be Genealogy Success.

New books at the Akron Public Library are:

Myself my Enemy by Jean Plaidy -- This is the story of a tragic queen told as though by herself, during what is undoubtedly the most turbulent period of English history. Henrietta Maria, whose father was murdered a few months after her birth, grew up in a court of intrigue which was constantly on the verge of conflict until the arrival of the future King of England on a romantic visit to Spain.

The Seminole Seed by Robert newton Pack -- (Kirby Tree is the Seminole Seed.) In this fast-paced tale set in modern Florida, Robert Peck's gift as a storyteller is combined with his insight into the game of tennis. When Kirby's startling mixture of black eyes and golden hair appears on the tennis court, every conflict within and around him converges into the ultimate sporting contest that tennis represents.

That Gentle Touch by Beverly C. Warren -- When 25 year old Nicole Winters begins her new job as veterinarian with old Dr. Carey in Essex Junction, Vermont, she must prove herself to the farmers in this small town. But complications arise concerning an accident, a strange, handsome, dark-haired man and an attractive young

doctor. An exciting contemporary romance.

A Toast To Love by Barbara Stephens -- After earning her Ph.D from Columbia University, 26 year old Paige Avalon accepts a position as an instructor at a college in Texas. She works under Dr. Nathan Buchanan, an elderly black historian, and lives in his spacious ranch home to help him out because of his failing eyesight. Dr. Buchanan's nephew, Kyle, a lawyer, is less than happy with this arrangement, as he knows nothing of his uncle's problem and looks upon Paige as a gold digger, thus the trouble begins.

Summer Song by Miriam Reed -- Alison Windsor faces the difficult task of patching up her life after suffering through a divorce and the death of her father. It is only through enduring an emotional rollercoaster ride that she discovers what she really wants and loves.

Views On Dental Health

Larry W. Pampel, D.D.S., Inc.

Orthodontics for Youth And Adults

Have you noticed the large number of adults that are wearing braces? Isn't it exciting that so many people are taking advantage of orthodontic treatment at ages past the teens? Adult orthodontics is a very valuable treatment in not only helping prevent future dental disease and loss of teeth, but also in creating prettier smiles.

We are receiving many questions from adults who were unable to receive orthodontic treatment as youths. Most have the "braces" to make a prettier smile, by

eliminating crowding and crooked teeth. Others receive treatment simply because they would like to chew better, eliminating headaches, or pain in their jaws. The average length of adult orthodontics is 24 months, depending on the severity of the case. However, this time is considered minimal instead of living with that problem you don't like for the rest of your life.

If you don't like your smile, or have thought of braces at one time, feel free to stop in and we'll answer your questions.

Fulton County Circuit Court

Civil

Bob Horn, Rt. 6, Rochester, was ordered to appear at an April 9 hearing on a motion to enforce a judgment filed by Gary Luckenbill. Luckenbill alleges a \$5,000 judgment he was awarded against Horn in 1980 has not been satisfied.

The court found in favor of defendants Farmcraft Service Inc., Joe Reed and Transamerica Insurance Co., in a suit filed over the assets of the last will and testament of Edith Louise Miles by Elmer and Richard Miles and Miles Farm Inc. The Mileses alleged Farmcraft mishandled the assets.

Doran returns to his roots

Although Dr. Chris Doran intended to open his new dental practice in Mentone on March 5, that unpredictable Indiana weather refused to cooperate. Several inches of snow and severe weather forced Doran to postpone his opening, therefore, until Thursday, March 8 when two patients trudged through the snow for emergency work.

Welcome to Mentone.

None of this is new to Doran, fortunately, as he's a former resident of Burket who graduated from Mentone High School in 1971. His parents, Byron C. (Corky) and Jo Ann Doran still live in Burket.

Doran completed his undergrad-

uate work at DePauw University before moving to the IU Dental School in Indianapolis. After graduating in the summer of 1980, Doran worked for a while as the dentist at the State Farm, a minimum security prison in Putnamville. For the last two years, he's worked in Indianapolis.

When asked why he decided to return to his home town, Doran explained, "I got tired of living in Indianapolis. I wanted to go to a smaller area to settle down. It's the style of life, I guess. I was raised in a small town and I like it."

"There's more opportunity in a small area than in a city," he added. "In a smaller area, a dentist

performs a variety of services, and as a general dentist I like to do that. I don't have much experience with orthodontia, so I'll probably refer some of that work, but other than that I'll be doing everything."

"Basically, I feel like I've just now gotten out of school," he concluded. "I'm happy to get my practice started."

Working with Doran is Pat Powell, receptionist. Their hours are Monday, Tuesday and Friday, 8 a.m. to noon and 1 - 5 p.m., Thursday 1 - 9 p.m. and Wednesday and Saturday 8 a.m. to noon. An open house is planned for sometime in April.

Amid all the strangers scurrying about Viking Foods early this week, it was nice to see a familiar face. Stan Shewman, Akron, worked with the crew from Super Foods to re-set the grocery store. (News Photo)

Twenty-five people representing Super Foods or affiliated companies invaded Akron on Monday and Tuesday this week, April 2-3, to re-set Viking Foods. All 25 people set out to systematically uproot the old shelving system and then rebuild a new, more practical system.

The couple shown above are from Dayton, Ohio, and they reported they travel approximately 18 times a year to re-set stores in Indiana and Ohio. (News Photo)

NIPSCO extends Project SAFE

Northern Indiana Public Service Company will extend its "Eight-Point Winter Protection Plan" to May 1 because of the lingering effects of the cold winter across its service area, Edmund A. Schroer, NIPSCO Chairman and Chief Executive Officer, recently announced.

The winter protection program, which included the state-administered Project S.A.F.E., assists needy customers through the coldest months of the winter by providing bill payment assistance. NIPSCO, in an attempt to provide customers time to resolve any bill payment problems, decided to extend its Winter Protection Program.

"Project S.A.F.E. recipients who receive a disconnection notice and contact the company for assistance will be instructed to seek aid from Emergency S.A.F.E. and/or other assistance programs," Schroer said.

"Every attempt will be made to continue service for those customers who are willing to make a 'good faith' effort to make payments to avoid disconnection of service," the utility chairman said.

Customers identified as hardship cases by labor organizations and/or human needs agencies could continue to be considered for an extended payment agreement, he added.

School News

Principal John Hill recently released the following news items from TVHS departmental heads.

Computer Programming II

The students have just finished working on a program in which they search for a particular word in a sentence or paragraph. There are many applications in which it is required to do such a search. For example, in an information retrieval application in a library, it might be desirable for a user to enter one or words on a computer terminal to determine if the word or words are contained in a paragraph. The program searches the paragraph to determine if the word or words are contained within the paragraph. An appropriate message indicates whether or not the word was found.

Their next assignment will be the study of date files. In many applications, it is advantageous to permanently store data on an auxiliary storage device such as a floppy disk. When this is done, the data can be read from the floppy disk into main computer storage and be processed as required. We are currently studying the statements to record data on a disk and the statements to read the data stored on a disk. The students will then write programs to store and update data in sequential files.

Business

Business Arithmetic students have been reviewing fractions: what is an improper fraction, mixed fraction and a proper fraction. Adding subtraction, multiplying and dividing fractions.

They have worked on ratio and proportion. In the weeks to come they will be figuring wages, time cards, cash record summaries, budget problems and commissions.

They will also be working fractional relationships such as: to find a part of a number, to find the number that is a certain part greater (or smaller) than a given number, to find what part one number is of another number, and to find what part one number is greater (or smaller) than another number.

Typing I students are now applying the knowledge they learned in first semester. Work is assigned for a week and they pace themselves to get the work done.

Business Machines and Secretarial procedures students are working in various office and occupations via packets. Some of the areas include: filing, medical records typing, legal typing, accounting office, apartment complex, airport, etc.

The shorthand class is advancing to speeds of 70-90 words per minute in dictation and transcription.

Office Lab (mostly Angie Thompson) has completed the football keepsake booklet. They are presently being distributed.

Accounting I students are working on their practice set Cycle Center. They are keeping books for a merchandising business that is organized as a partnership. They

will be completing the entire accounting cycle during this exercise.

Accounting II students have begun their second practice set, Film and Flash. In this exercise, the students will be using special journals, including allowance journals. They will be journalizing entries for two months, doing year end financial statements along with adjusting, closing and reversing entries. They will also be working on payroll.

Building Trades

The Building Trades house is going along on schedule. Presently, the students are finishing the drywalling of the houses interior. As could be expected, the students are looking forward to warm weather so work can be completed on the exterior.

A report on the house that was built by last years class is that due to the "super insulation", the bill for one years heat will be less than \$250.

Psychology and Sociology

The Psychology classes are studying neuroses and psychoses along with alcoholism and drug addiction. A field trip will be taken to the Fort Wayne State Hospital and Training Center.

The Sociology classes are doing individual research on topics dealing with various aspects of society.

FFA

Thirteen members of the FFA livestock and dairy judging teams journeyed to West Lafayette recently to participate in the Purdue Invitational judging contests.

The complete results have not been received for all the teams, however, the dairy judging team of Mark Floor, Troy Butt, Chris Schipper, and Phil Claxton placed first among the 63 teams from throughout the state. Butt and Schipper placed fourth and fifth respectively, out of over 250 contestants.

This contest was the first of the judging season and all judging team members are now preparing for the county contest which they hope will give them an opportunity to try for the eventual state championship.

Home Economics

Beginning Clothing and Advanced Clothing classes are both being offered this semester. In Clothing I the students make either a skirt or a pair of slacks of woven fabric. Their next project will be a garment of a different kind. Each student selects their pattern, fabric, and project according to their own needs and abilities. The class is individualized for each student.

Clothing II students must have had Clothing I as a prerequisite. This class is also individualized according to each student's needs and abilities. Students in Advanced Clothing are making blouses, pants, suits, prom dresses, and graduation dresses.

Health and P.E.

The physical education classes have finished a unit in swimming involving safety and rescue skills. Last week both the boys and girls started a unit on the gymnastics

equipment. Some of the equipment being used are the parallel and uneven bars, the balance beam, still rings, vaulting horse, and flying rings. The next activity will be co-ed square dancing, and will begin after spring break.

The Health class will begin studying sports and recreation. One point of emphasis will be hand-eye coordination, therefore the class will attempt to learn how to juggle.

The Co-Ed P.E. class finished up a unit in basketball. They now are on a weightlifting unit which will be followed by two weeks of volleyball.

History

The World History classes are preparing to study W.W. I. and its effect on the world today.

The U.S. History are finishing the chapter on the growth of American Industry. This chapter included such people as Cornelius Vanderbilt, Andrew Carnegie, and John D. Rockefeller.

The students will be selecting their last nine weeks projects. They will have a wide variety of topics to select from. Some of their projects will be drawings, maps, writing reports, and giving oral reports.

Math

The students in Algebra/Pre Algebra have been working on factoring, multiplying, dividing, adding, and subtracting polynomial fractions.

General math students are currently working with fraction. In addition to reviewing how to add and subtract with common denominators, they are also working consumer problems using fraction, doing fraction problems on the computer and using calculators for "everyday" type problems.

Students in geometry have been learning about constructions and locus problems. Now that they are experienced at constructing according to given specifications and describing exactly the points that satisfy given conditions, they are beginning to combine the two. After they have "mastered" constructing loci, they will begin working on determining the areas of different objects.

Foreign Language

The first year Spanish students are learning to use direct object pronouns and are forming commands.

The second year Spanish students are learning to use infinitives after prepositions and the conjugation of irregular tense verbs.

The third year Spanish students are learning relative pronouns and are also reading poetry and studying the culture of the Spanish-speaking republics in the Caribbean Sea.

The French I Class continues to increase their basic vocabulary and are presently learning to use verbs in the past tense. French II students are learning the imperfect tense.

French III students have just completed a study of the French text Le petit prince by Antoine de St. Exupery. They are now reading *Candide* by Voltaire.

French students prepared a

French meal in the home-ec department on March 15 and 16. The menu for French I included hors-d'oeuvres, salad nicoise, vichy-choisse, quiche lorraine, and chocolate mousse. French II and III students prepared salad nicoise with vinaigrette, vichychoisse, quiche, and crepes. We will also be sampling authentic French bread, cheese, and mineral water.

All French students will have the opportunity to again experience French cuisine on April 7, when we plan to visit Cafe Johnell in Fort Wayne.

Science

The Biology I students have finally begun studying multi-cellular organism. They have made there way through the plant kingdom and have begun studying animals. This past week they completed their dissection of the earthworm. The specimens that they will dissect, in addition to the earthworm, are the clam, the fish (yellow perch), and the frog (grass frog). The dissection of each of the specimens centers around identifying the different organs and defining their functions.

The biology II students just completed a unit on genetics. In this unit, the students identified those factors that account for variation within the species (the chromosomes). They also studied the action of the chromosomes within the community. Included in this study were the factors that affect the action of a gene and the results of these types of action on the gene.

The anatomy and physiology students have just completed the chapters on digestion and metabolism. In these two chapters the students were able to examine the process of digestion and what

happens to the end products of digestion during metabolism.

Chemistry students have been working on different bonding theories and molecular structure. They are now concentrating on the basic elements of organic chemistry -- studying carbon compounds, their name and similarities in structure.

The Science 9 classes are studying weather and factors affecting weather. They will learn to read a weather map and hopefully be able to understand the weather charts shown on the news.

English and Journalism

The Saga (yearbook) staff has continued to work very hard on the production of the '84 Saga. They have completed two deadlines, the cover and endsheets have been designed.

The Runic Review (newspaper) staff has just completed its 5th issue of the paper. The students are working on upgrading the quality of articles and design. They plan to send the March issue to Manchester College to be critiqued.

The junior English students are now working on research papers. They have each written their own thesis, a statement they must now support with evidence. The process helps the students with their skills in writing, organization, and critical and analytical thinking.

English 9 students continue their weekly study of vocabulary and spelling. They have recently completed grammar units on subject-verb agreement and complements.

Upon return from spring break they will read two plays, *Romeo and Juliet* and *West Side Story*, in a comparative study. They will then have the opportunity to view the film *Romeo and Juliet* in class.

Mentone, Alabama first in series

The staff of the Akron-Mentone NEWS recently sent letters to several towns around the United States named Akron, Mentone or Burkett, with the hopes we could run an article or series of articles about those towns. To our delight, we've received several replies to our questionnaire, and we will indeed run a series of articles over the next few weeks.

Interestingly enough, we found only three other towns in the U.S. that go by the name of Mentone, and we discovered by the replies that all three towns were named after Menton, France. Mrs. Barbara Creager, Mentone, TX, wrote a letter and informed us she and her husband were leaving for Australia and had made arrangements to have dinner on May 5 with people in Mentone, Australia, which is located just outside Melbourne. She mentioned in her letter that the Australian Mentone was also named after Menton, France, and she promised she'd send information about the town upon their return.

Although we sent letters to six towns named Akron, we received only three replies. Both town historian Dorothy Webster, Akron, NY, and Mrs. Richard Goshert, Akron, PA, very generously sent copies of books about their towns. Akron, NY celebrated their quasicentennial on July 3 - 6, 1974, while Akron, Pennsylvania celebrated their 75th anniversary in 1970. We thank you, ladies, and rest assured we will return your books!

We also received four replies from towns named Burkett or Burkettville, though they weren't as successful as we may have hoped. Robert Broadstone, administrator of the Nebraska Veterans Home, wrote that the Burkett, Nebraska, is simply the name of their post office, having been named for U.S. Senator Elmer Burkett of Nebraska in 1927! The post office is located on the Grand Island Campus of the Nebraska Veterans Home. Thanks, Mr. Broadstone, for setting us straight about that.

Perhaps our favorite reply, however, was the short and sweet reply from Burkeville, Alabama. Our questionnaire was returned with the simple reply, "No schools, no town government, post office was closed. I don't know how it got the name Burkville."

Obviously that town's seen better days!

We mentioned in an article last week that Mentone, Alabama had requested our Mentone to become their sister city for their upcoming centennial celebrations (lasting the entire year of 1984), so we feel it's right that Mentone have the honor of being our first featured town.

Charles White McGehee, Box 437, Mentone, Alabama 35984, is editor of a monthly publication in Mentone named *The Groundhog*. [The *Groundhog* is a lengthy, newspaper-like newsletter of the Mentone Area Preservation Association.] McGehee is coordinating the "sister city" movement with Wayne Tombaugh, and he wrote a long reply to our questionnaire.

Population of Mentone, McGehee writes, is about 450, with "the voting list smaller, the number of mailboxes, town and rural, about 650. There is only one school, Moon Lake Elementary. High School students go down to Valley Head."

Mentone has a mayor and five councilmen, with a full-time policeman and a volunteer fire department and rescue squad. Though the town is small, there are eight churches.

The town was founded in 1884, and McGehee reports there was a real surge of activity in the area in the gay nineties. Mentone was established as a resort area for people from New Orleans, Atlanta and Birmingham, because of its cooler, mountainous climate. Mineral springs near one of the oldest buildings, the Mentone Springs Hotel, were said to have had healing qualities which also attracted visitors.

Visitors still invade the area during the summer, as there are several camps and three charming inns. During the winter, visitors come to use the Cloudmont Ski Run, the southernmost ski run in the U.S.

Again, though the population is small, there are four annual festivals, each of which will be a focal point of their centennial celebration. The spring fest is the Rhododendron Festival, which features the crowning of a local queen, clogging and the big Classic Run from the Hitching Post to the Falls and back. In the summer, a crafts

"Anything Goes" this weekend at Valley

Twenty students at Tippecanoe Valley High School will present Cole Porter's musical comedy "Anything Goes" this Friday and Saturday nights, April 13 and 14, in the high school commons.

The original musical was written in the early '30s and was later revived on Broadway in the late '50s. Book is by Guy Bolton, P.G. Wodehouse, Howard Lindsey and Russell Crouse, all well-known comic writers during that era. The story follows the adventures and misadventures of a group of passengers sailing from America to England on a luxury liner.

Director Dale Pace admitted this musical is different from anything else he's ever tried, "I've done all the standards (South Pacific, Finian's Rainbow, Oklahoma), and I wanted to try something different," he explained. "I selected this because the music is incredible and the play's fun and light and suitable for high school students. You've got to be careful what you pick for students,

because Broadway musicals are written for a more sophisticated area."

Pace also stated the 20-member cast is the smallest cast he's ever had in a musical.

Tickets for "Anything Goes" cost \$2, with all seats reserved. Tickets can be obtained by calling the high school office or contacting Pace directly at 893-7221 or 353-7888. Tickets may also be purchased at the door. Curtain goes up at 8 p.m. both nights.

D.C. seats available

A few seats are available for the May 11 flight to Washington, D.C. Several Valley seniors and sponsors are going.

Total cost for the one day trip is \$140. If you're interested, call Wayne Cumberland or Juna Graham at the high school for information. 353-7888 or 893-7221.

Arson suspected in home burning

Arson is suspected as the cause for a fire last Thursday night which totally destroyed a vacant home west of Silver Lake.

The house, owned by Jay Parker, was valued at \$50,000. When firemen arrived at about 10:30 p.m., massive flames were shooting through the roof, and the house was near collapse.

Arson investigators were expected to inspect the home.

The house, located along County Rd. 500 West, south of County Rd. 1100 South, was being remodeled by Parker by his son, who was going to live there.

Firemen said the home is surrounded by a wooded area, and is difficult to see from nearby roads.

Fourteen volunteer firemen from Silver Lake, Burkett and Akron fought the blaze for two hours.

Egg hunt to be at Akron park

The Akron Chamber of Commerce announced its annual Easter Egg Hunt will be held in the park at 1 p.m. on Saturday, April 21. In the event of inclement weather, the hunt will be held at the Akron gymnasium on the same day and time.

Children will be divided into three age groups, pre-school and kindergarten, grades one through three and grades four and five.

Dale Kelley, principal of the Mentone schools, announced that baccalaureate services will be held Sunday, April 16 at 7:45 p.m. in the Methodist Church. The Reverend Sloan will deliver the sermon.

Commencement services will be held on Friday, April 21 at 8 p.m. in the Baptist Church. Members of the 1944 senior class are: Royal Blue, Joseph Boggs, Donna Rae Clabaugh, Bernard Clark, Georgiana Dillingham, Welcome Junior Fore, Marjorie Haney, Norma Hudson, Ned Igo, Jack Kercher, Ellanora Nantz, Phyllis Lemler, Carol Mahoney, Emery Gene Mosier, Albert Orcutt, Louise Reed, Paul Rush, Esther Jean Secor, Mary Beth Shinn, Maxine Stickler, Lowell Taylor, Robert Max Tinkey, Joe Tucker and James Whetstone.

C.J. Paulus, son of Mr. and Mrs. Cloice Paulus, of Mentone, has completed his course of studies as an aviation mechanic in the Army Air Forces Technical Training School. His graduation from this technical school now fits him for airplane maintenance and he will be sent to some air base where he will assist in keeping American's Flying Fortresses in the air for Allied Victory.

The windstorm Tuesday had a jolly good time for a while in the morning, blowing over trees, buildings and other home and farm

structures.

The roof from the north portion of the barn on the Walter Lackey farm was lifted and dropped on the roof of the chicken house nearby, which contained 1400 young chickens. The heavy timbers crashed through the roof, killing a considerable number of chickens.

The large weeping willow in the yard of the Dan Urschel home was uprooted and blown over.

A large boxelder in front of the Marion Griffiths home was blown west across the street, blocking highway 19.

Another large boxelder, at the Cullum home, weakened and leaned over the house like an experienced WPA worker. With the help of the Mollenhour Caterpillar tractor, it was pulled off the roof and dumped in the yard. (Anyone wanting any wood to cut, just gallop over.)

The Stanley Boggs farm home was messed up considerably, too. The silo fell, the windmill went over into a shed roof and some of the barn roof appendages were removed.

Mrs. Chauncey Mollenhour, Mrs. Vance Jones, Mrs. F.B. Davison and Mrs. T.J. Clutter represented the Mentone Reading Club at the county convention of Federated Clubs held in Syracuse Tuesday.

Mr. John Yoder spoke to the

Mentone juniors will present a three-act comedy, "It Happens Every Summer" on Friday, April 17 at 8 p.m. The play is under the direction of Mrs. Paul Rush, Mentone High School English teacher.

The students and faculty at Talma are very pleased with the fine showing of Susan Zent in the recent spelling bee held at Warsaw. Out of a total of 23 students taking part, Susan was one of the last five to go down.

We are looking forward to our junior high champion going even farther this coming Saturday. The Talmaites will all be pulling for Becky Hunter to continue the fine Talma showing.

Virgil Robbins of Mentone had as Sunday guests Mr. and Mrs. Ronnie Miller and children and Mrs. Marjorie Halterman, all of Fort Wayne.

Mr. and Mrs. Cecil Mason and family, of Akron, have moved to the George Mollenhour property in Mentone. Mr. Mason is a teacher in the Mentone school.

SR 17 closed for repairs

The Indiana Department of Highways (IDOH) will be closing a section of State Road 17 in Cass and Fulton Counties. Beginning April 9, 1984 that stretch of highway from its intersection with S.R. 25 to S.R. 114 will be closed to traffic.

The purpose of this closure is to replace deteriorating drainage

structures. During this closure, traffic will be detoured across S.R. 114 and S.R. 25. Work is expected to be completed and the road reopened by July 1, 1984. Until then, motorists should be aware that this rerouting adds 7 1/2 miles driving distance and make whatever changes might be necessary in their travel plans.

500 Fest begins in new Hoosier Dome

This year the 500 Festival Mayor's Breakfast, which is traditionally the first official event opening the month-long celebration, also will be the first major event to take place in the new 60,000-seat Hoosier Dome in Indianapolis.

Immediately following the May 5 breakfast, which mayors from all over the state will attend, everyone may join a caravan and drive around the famous Indianapolis 500 Mile track prior to opening day ceremonies.

"We are thrilled to death to be the first event in the Hoosier Dome," said breakfast committee chairman Albert R. Dwyer. Dwyer said that the inside of the Hoosier Dome will be decked out with colorful balloons, American flags and red, white and blue streamers. "The decorations will be tying in with the general theme of the 500 Festival this year, which is 'A

Salute to Heritage," he added.

The head table will be graced by the 500 Festival Queen, her Royal Court and 28 Princesses.

Dwyer stressed that the public is invited to attend the breakfast and enjoy the festivities, which will begin at 9 a.m. Tickets are \$12 and may be reserved by calling the Festival Office at One Indiana Square. Reservations must be received by Friday, April 20.

Ladies schedule joint club meet

There will be a combined meeting of the W.C.T.U. and the L.T.L. on Wednesday, April 18 at 7:30 p.m. at the Akron Library basement. The program will be put on by the L.T.L. members, and poster awards will be given. The posters will also be displayed, and refreshments will be served. The public is invited.

LETTERS TO THE EDITOR

Dear Editor:

This area has been filled with Tiger-mania since Warsaw won the semi-state basketball title and then went on to win the state basketball tourney. This brings to our memory the time in 1934 when the Beaver Dam High School basketball team also went to the State finals, but they didn't get to bring home the trophy.

The 1934 Beaver Dam team included the grandfather of Jeff Tucker, a member of this year's Tiger team. Jeff's grandfather is Devon Tucker, and exactly 50 years have gone by between grandson's and grandfather's trips to the state tourneys. Jeff's great-uncle Clair (Bill) McFarland was also on

the '34 Beaver Dam team, while Mrs. Geraldine Warner, a great-aunt, was one of the cheerleaders. It appears the basketball "Hoosier Hysteria" goes down from generation to generation and keeps alive the family tradition of stories that are cherished.

Of course, the Beaver Dam school is gone, now, destroyed by fire several years ago, but it was, and is, a part of the Tippecanoe Valley School system. Many people have forgotten there was a school across the road where the Beaver Dam church still is, but those of us who went there will never forget the school or the basketball fever that was there many years ago.

Mrs. Joanna Miller Olmstead will be toastmistress and music will be furnished by a boys' quartet from Manchester College.

Several people filed their candidacies in Franklin and Henry townships recently. What Should A Child Be
Told About Death?

George E. Deaton

Do you explain Grandpa's death with a fairy tale? Do you say, that God "called him away?"

Or do you answer truthfully, and simply, so that the child may relate his grandfather's death to familiar things: flowers, for example, which live, grow, wither and finally die?

We believe the flower example can be understood by the child because it relates to things he's seen and can grasp. "Flowers," you may explain, "don't live a long time but we like them while we have them. Grandpa lived a long time and you and he had many good times together. But, like the flowers, he too, died. We will remember him with love, won't we?"

The child needs to understand that what has happened is a natural course of events - like the seasons and the rising and setting of the sun. He comes closer to his family through such honest involvement, maturing as he finds his own sadness is shared and understood.

Indiana releases festival map

"Capture the Flavor" is the theme of the new Indiana Festival Map. Lt. Governor John Mutz announced.

"The 1984 Festival Map is the most complete festival guide ever available to Indiana travelers," said Mutz, director of the Department of Commerce. The Tourism Development Division of the Department of Commerce is a co-

sponsor of the map, along with Hoosier Energy Rural Electric Cooperative.

Some of the 1984 events highlighted in the Festival Map include the celebration of Abraham Lincoln's 175th birthday, Benjamin Harrison's 150th birthday and major sesquicentennial celebrations in Madison, Crown Point, Cicero and Fountain City.

Home craftsmen fight back

Farm women looking for ways to earn extra money working at home are joining in a fight to amend a national law prohibiting them from doing so.

Under the Fair Labor Standards Act of 1938, the U.S. Department of Labor regulates homework. It makes it illegal for all Americans to make certain clothing, apparel and crafts in their homes for later sale. Among the prohibited articles are knitted outerwear, embroidery, women's apparel, jewelry, gloves, mittens, buttons, buckles and handkerchiefs.

Hundreds of Indiana Farm Bureau members this week are launching a "legislative tree" campaign and are contacting a legislator to support an amendment that would change this law. This "tree" takes root and branches out when each of the 92 county Farm Bureau women leaders in the state are asked to phone five other people. Each of them, in turn,

phones three additional persons, who go ahead and phone three more. By this system, there are 65 contacts made in each county and 65 made from each county to Washington.

In this case, they're contacting Senator Dan Quayle and asking him to support Senate Bill 2145, which would amend the Fair Labor Standards Act of 1938. Senator Quayle is a member of the Senate Labor and Human Resources Committee.

Mrs. Tom (Carol) Hegel, chairman of the Indiana Farm Bureau women's committee, says Senator Orrin G. Hatch (R-Utah) has introduced a bill, S. 2145, which would amend the Fair Labor Standards Act of 1938 to facilitate industrial homework, including sewing, knitting and craftmaking.

Crop insurance

April 15 is the last day to apply for crop insurance according to Homer Carr, Rochester, Fulton County ASCS office.

Crop Insurance covers unavoidable loss of production resulting from adverse weather conditions, wildlife, earthquake, or fire.

Three coverage levels (50, 65, or

To assist producers, the Federal Crop Insurance Corporation will cost-share up to 30 percent of the cost of carrying insurance. For more information about the program, producers should contact an authorized crop insurance agent.

To select an agent, producers should check the list of agents available at their county ASCS office. Applications should be submitted to the sales agent no later than April 15.

Fulton County Circuit Court

Civil

Woodlawn Hospital filed motions to enforce judgments against the following, alleging that judgments awarded from complaints on account have not been paid: Russell and Phyllis Sue Bradley, \$5,448.05 awarded Feb. 11, 1983; Geraldine Willyerd, \$2,268.51 awarded Aug. 19, 1983; Tommy J. Foster, \$4,841.80 awarded April 20, 1982; Vrena Marie Fry Hecht, \$2,810.01 awarded August 21, 1981; Donald and Lisa Plant, \$2,913.65 awarded Aug. 19, 1983; Duane and Barbara Eckart, \$1,644.53 awarded Jan. 5, 1981. Each person was ordered to appear for April 23 hearings.

The court ruled Dennis F. Dudge was not in contempt of

court for falling \$2,545 behind in child support payments if he pays an additional amount each week toward the back support and completes paying other financial obligations to Peggy J. Jones.

American Fletcher Financial Services Inc., filed a complaint on a promissory note against Russell Dean and Nancy C. Hunter. The suit seeks \$2,373.63 plus court costs.

Marcia R. Laughlin and the State of Missouri filed a complaint under the Reciprocal Support Act against Randal J. Foust, Rt. 1, Akron. The suit contends Foust is \$14,910 behind in child support payments and that he should reimburse Missouri for \$2,088 it has paid to support his minor children.

Fulton County Camp

With summertime on the horizon, (we can hope, anyway) most kids start thinking about some kind of a camp they can go to. There are so many from which to choose ... One boy has a dream of basketball camp or another the hope of softball. Then there's cheerleading camp, 4-H, church, music or almost anything of interest.

There is a special camp located in Central Indiana, back in a 2300 acres of woods. This camp is for two weeks and you have the opportunity to learn photography or crafts, go horseback riding, go fishing, take canoe trips, sing around the campfire and even try Disco dancing or swimming. What's so special about this camp, you ask? Well, all of these campers will be seen either in a wheel chair or walking on crutches.

Camp Riley is currently the only camp in the world set up totally for the physically handicapped between the ages of 8-18, without regard to race, color, religion, sex or national origin.

It doesn't matter that a child wears a leg brace, is confined to a wheel chair, or suffers seizures. Everything at Camp Riley is de-

signed for the handicapped, including specially trained counselors. Most of the counselors come from Indiana University's Schools of Medicine, Nursing and Health, Physical Education and Recreation and there is one professional counselor for every two campers. Emphasis is placed on teaching self-reliance, without pushing beyond a youngsters capabilities, and making the camp a fun and beneficial experience.

A full time physician and registered nurses are on duty round-the-clock. The food is all prepared in the camp cafeteria and can't be beaten anywhere!

This is truly a special camp for the very special "handicapped."

Every year the Epsilon Sigma Alpha Sorority of Fulton County sponsors a camper with the fee fully paid by E.S.A. We would love to be able to send a camper again this year. If there is any handicapped student in Fulton County between the ages of 8-18, who would be interested in attending Camp Riley, please contact Janice Ginn at Rt. 2, Box 319, Rochester or call 223-3297 for more information.

Fulton County

County Court

Christopher A. Powell, 19, Akron, was sentenced to 60 days in Fulton County Jail and fined \$100 plus court costs for minor consuming alcoholic beverages. The court stated it would modify the sentence if Powell shows proof of acceptance to the military services and a date when he is to report for duty.

A battery charge was filed against John Redington, 24, Rt. 1, Akron. County police allege that while Redington was in Fulton County Jail on a theft charge on March 16, he threw a food tray at a county officer.

Traffic

Ryan J. Teel, 21, Akron, pleaded guilty of drunken driving. He was given a suspended 30-day jail sentence, fined \$50 plus court costs, given a 180-day restricted driver's license and placed on probation for a year with the special term that he submit to alcohol abuse treatment at the base where he is stationed with the U.S. Air Force.

Coy Shane Leonard, 20, of 1007 1/2 Jefferson St., Rochester, pleaded guilty of drunken driving. He was given a 60-day suspended jail sentence, fined \$50 plus court costs and his driving privileges were restricted for 180 days.

Leonard was placed on probation for a year with terms that he enter the Fulton County Alcohol and Drug Services Program and pay the program's \$250 fee, and not drink alcoholic beverages or enter any place that serves drinks.

The court withheld sentencing on Leonard's guilty plea to possession of marijuana and agreed to dismiss the charge if Leonard meets terms of probation for a year.

Akron, NY celebrates its past, while Mentone, CA. has interesting similarities to Mentone, Indiana

[Second in a series of articles about towns around the United States named Akron, Mentone or Burket.]

Akron, New York

In reading through the 1974 Quasiquicentennial booklet of Akron, New York, one is struck on how very proud its citizenry is of the small Erie county town.

According to village historian Dorothy Webster, Akron is a village of 2971 people located in the town of Newstead in western New York state. Newstead, including Akron, has a total population of 7231.

Akron was founded in 1829 by Jonathan Russell and was named by the townspeople in 1931. They chose Akron because the village is situated on a high ledge overlooking the valley, and Akron is derived from the Greek "akros," meaning high. Akron was incorporated in 1849, when the town was 20 years old. At that time, 94 families, and a total of 446 people, lived within the village according to the first village census. A major reason the people decided to incorporate was the need to establish public services, such as fire protection, street maintenance and garbage removal.

After a public election, during which 72 yeas were cast against only one nay vote, Akron officially became a town on September 19, 1849. A village board and mayor were elected at that time, and town affairs today are still governed by a board and mayor.

Major businesses in Akron include the Whiting Roll-up Door Co., developer of the first roll-up door in 1953, Perry's Ice Cream Co., a family-owned business started in 1918, the Ford Gum and Machine Co. (remember the 1 cent Ford vending machines?), and AAKron Rule Corp., which manufactures rulers.

Mentone, California

By a strange coincidence, Mentone, California and Mentone, Indiana have an unusual similar interest other than their name: both towns are financially tied to chickens.

Mentone, Indiana, as we all know, is known as the "Egg Basket of the Midwest" and many local people are employed in the egg business. Mentone, California, on the other hand, isn't so much interested in the egg as it is the chicken, as there are several large

poultry plants involved in raising and breeding of the birds.

Which came first, the chicken or the egg, Mentone, California or Mentone, Indiana? We aren't sure. Our Mentone was founded in 1882, but according to former newspaperman Harold Reynolds (publisher of California's The Mentone News from 1939 to 1944), Mentone, California was simply founded in the late 1800s.

The town of 4500 has no governing body, but is managed by its active Chamber of Commerce. The official governing body is the San Bernardino Board of Supervisors (similar to our County Commissioners).

Mentone is a picturesque spot located at the eastern edge of the famous San Bernardino Valley, approximately 66 miles east of Los Angeles, 42 miles north of Palm Springs resort, 34 miles south of Lake Arrowhead and 13 miles west of the San Bernardino Mountains. A pamphlet issued by the Mentone Chamber of Commerce touts Mentone as being within easy distance of mountain, beach and desert places of interest.

Mentone has never been incorporated. While they have a large elementary school, it is part of the Redlands Unified School District. (Redlands is three miles away and is the navel orange capital of the world.) Although poultry is a major industry, growing citrus fruits is the chief industry, followed by poultry raising and then followed by berry raising. Mentone is the home of the Boysenberry.

[Next week: We'll explore the Burketts of America.]

Akron Woman's Club makes contribution

The Akron Woman's Club gave a fifty dollar contribution to the Akron Carnegie Public Library to start a fund for a Microfilm Reader/Copier. The Library has a small microfilm reader but there is no way to copy the articles from the microfilm except in longhand. This is an item that would greatly help in research at our local library. If anyone wants to contribute at any time on this project, donations can be left at the Akron Library.

Good Friday services planned

The Henry Township Ministerial Association and the churches of the Akron area have scheduled a Community Good Friday Service at the Akron United Methodist Church on Good Friday, April 20, from 12:30 to 1:30 p.m. The Reverend Frank Roosa, pastor of the Silver Creek Church of God,

Shelley Utter named award winner in speech and drama

Shelley Utter

The United States Achievement Academy announced that Shelley Utter has been named a 1984 United States National Award winner in Speech and Drama.

This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10% of all American high school students.

Shelley Utter, who attends Tippecanoe Valley High School, was nominated for this National Award by Mrs. Beth Barr, English teacher at the school. Shelley Utter will appear in the United States Achievement Academy Official Yearbook, published nationally.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors, or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a teacher or director.

Shelley Utter is the daughter of Tim and Joann Utter. The grandparents are Jack and Phyllis Slabough of Warsaw, and Harold and Mary Utter of Mentone.

TVHS student returns from state conference

Sharon Walters: Clothing Construction, Bronze metal; Paula Riedel, Entrance Preparation, Silver Metal; Paula Riedel, Child Care Prepared Cooking, Silver Metal; Roberta Ladson, Waiter Waitress, Gold Metal; and Andrea LaMar, Child Care Prepared Storytelling, Gold Metal.

Brenda Wright received one of the three Hortense Hurst Scholarship Awards. The scholarship is given each year to an FHA student who will be majoring in consumer and family sciences in college. Brenda will be attending Purdue University.

Joyce Toetz accompanied these FHA students to Indianapolis.

Precautions for Partial Dentures

A partial denture is a removable appliance that substitutes for one or several missing natural teeth. It is held in place by clasps that grip the natural teeth adjacent to the partial.

Good oral hygiene habits are particularly important for wearers of partial dentures. If food residue and film are allowed to accumulate on clasps (which are food traps) the important abutment teeth may decay. Therefore, partials should be cleaned after each meal and special attention should be given to cleaning the inside of the clasps.

While you're at it, clean your regular teeth to remove any food debris that could accumulate under the cover afforded by the partial denture.

If a partial denture breaks or becomes damaged in any way, it should be taken at once to the dentist for repair. Attempts to wear a damaged appliance can be dangerous. A shift of a fraction of a millimeter in the form of the partial can cause destructive forces on several teeth. Also, an improper amateur adjustment could possibly render the partial completely useless and irreparable by anyone.

Our Towns

Robin Secrist opened the April meeting. We said the pledge of allegiance. Jackie Walton is taking up the dues. We are talking about our back pack, we would like some easy back pack trails. We are copying down some recipes for scouts.

Teresa Bentley and Virginia Wireman will be cooking next week. Robin Secrist has refreshments this week. She led the prayer. Robin also dismissed the meeting.

Population Explosion came to the Zeno Schultz farm near Akron recently when two goats produced a total of seven kids. Shown with the triplets and their proud mothers in the background is Kathy Klein. Mary Jo Schlutz hugs the quads in the foreground while their mother casts a questioning look at the camera. The quads, very rare, are also very lively and each has a name.

What a fish: This 16 pound carp, displayed by Van Lantz was caught in Deep Creek off State Road 110 last week by Mentone teacher Robert Hinkle. Accompanied by Van's cousin, Michael Yazel, the teacher used an ultra-light reel on a six and one half foot pole with a ten pound testline. He used night crawlers for bait.

A Joyous Easter

HAPPY EASTER

Easter, a principal ecclesiastical event of the year, gets its name from Eostre, a Teutonic goddess whose festival was celebrated in the spring.

Her name was given to the Christian festival because, according to legend, she opened the portals of Valhalla to receive the White God and Sun God representing purity and light.

The Christian observance, this year on the 22nd, is a symbol of the Resurrection; it is, however, intertwined with religious customs and observances, dating back hundreds of years before the time of Christ.

The Easter egg became associated with Easter because eggs were forbidden to be eaten during Lent. On Easter Sunday they were traditionally served.

The Easter egg, though, dates back to the Egyptians and Persians, and also the Greeks and Romans, who ate eggs annually at spring festivals.

It's appropriate for Christians that Easter comes in the spring, when the renewal of life is apparent. Sunrise services in our churches--an observance of recent origin in most churches--symbolize the Resurrection at sunrise.

Phil See, Bill Leininger resign coaching positions

Valley takes steps toward feasibility study

With newly appointed member Joseph Crill representing New-castle township, the Tippecanoe Valley School Corporation board once again had a full panel at last Monday's meeting.

On the recommendation of Superintendent Baxter Paige, board president Richard Long and trustees Fred McSherry, Cecil Miller, Jim Royer and Crill unanimously voted to accept the State's recent "Prime Time Legislation" and to interview architects about the possibility of doing a feasibility study of the Akron school. Paige urged the board members to "make a commitment to find a solution and ways to accept the State's offer," although he admitted there was no simple way to implement the prime time Legislation as things stand now. Paige suggested there could be a number of ways to adjust classes to make room for additional teachers/classes, including possibly changing the location of some of the mobile units or possible busing. He warned trustees that if they accepted the Prime Time Legislation, however, "it will be with us for a long time," making it difficult to change direction later.

The feasibility study of the Akron school facility was also accepted at Paige's recommendation. He explained, "The board could start with Akron first—the board shouldn't bite off more than it can chew."

The trustees were unanimous in agreeing the time was right to begin exploring options for a long-term solution to many of the problems faced by the corporation with its elementary and junior high schools.

Trustees accepted the resignation of Bill Leininger, sixth grade teacher at Mentone, as the coach of the girls varsity basketball team. Leininger cited personal reasons for wanting to resign his coaching duties, although he plans to remain at Mentone as a teacher.

Phil See's resignation offered no explanation other than that he'd had a few months to consider the job and he'd decided to resign as coach. He also plans to remain in the corporation as an instructor.

Paige informed the board members that anyone interested in applying for either job could send letters to the office of the Superintendent, Mentone, with May 14 being the deadline for accepting applications.

Trustees granted permission to advertise for the sale of the building trades class house this June. An open house is scheduled for May 13, noon until 4 p.m. and May 14, 6 - 8 p.m. Sale of the home, which is located in Saner Addition, Akron, will be conducted at the June meeting of the board.

Trustees approved and signed contracts for 99 teachers. Three other teachers presently employed by the corporation do not currently

meet qualifications to be retained by the board, but Paige explained their positions will be kept open, giving them the opportunity to meet necessary qualifications by summer's end.

After approving teacher contracts, trustees extended the contracts of principals John Hill, Mark Skiles, Dan Kramer, Oliver England and Ron Leichty by one year each, until June 30, 1986. Although it was not on the agenda for the evening, trustees also voted to extend Paige's contract by two years, to June 30, 1987.

In other business: Board members approved a new North Central Indiana Agreement for a special education co-op with Bremen, Lakeland, Warsaw and Whitko. The five-school co-op currently operates a center in Warsaw, but the new agreement will help control financial arrangements for each member school from major fluctuations.

Board members approved taking coverage from North American Life Insurance Co., Kokomo, for the \$10,000 additional life insurance clause for educators in accordance with the recently approved teacher's master contract. The new provision will give teachers \$20,000 life insurance policies with accidental death and dismemberment clauses, also.

Trustees accepted high school principal Hill's recommendations to change the drivers education

program. Beginning with this summer, students will have the option of taking driver's ed all year round as a community education course (which will also open the course to adults who are already out of school). Instead of driving time for the course being restricted to three weeks of school-year, class-time driving, the driving requirements will now be met after regular classes and on weekends. Cost of the course will be \$100, which will cover teacher salaries, insurance, textbooks and car lease.

Other summer courses approved by the board members were speech and hearing courses, corporation-wide; two sessions each of remedial math and reading at Mentone; one session each of remedial

math and reading at Akron; and vocal and instrumental music for elementary students, grades K - 8.

Summer recreation courses were also approved by the board. (See course listings on page 8.)

Trustees granted the Mentone Chamber of Commerce permission to use the TVHS gym for the NLC/TRC All-Star Basketball game on June 7 and the Mentone gym for Big Time Wrestling on June 9, both in conjunction with the 1984 Mentone Egg Festival.

Joe Mercer was approved as the Junior High track coach for Akron.

The next meeting of the board will be Monday, May 21 at 7:30 p.m. in the administration building.

Nifty 50s theme of 4th

The Akron Fourth of July Committee met recently in the home of chairpersons Ron and Melea Dittman.

The Nifty Fifty's was chosen for this year's theme. So gals let's be getting out our poodle skirts and saddle shoes and guys start greasing back the hair. Anyone having any ideas for this year's annual event may give them to Ron and Melea or any committee members who are Maurice and Jane Murphy, Gary and Susan Renberger, Dick and Judy Day, Shelly Bahney, Terry Grogg, Mike Gearhart, Darie and Merlee Fall, Mr.

and Mrs. Gary Smith and Mike and Ruby Bowers.

Akron C of C sponsors game

The annual Akron Grade School ballgame sponsored by the Akron Chamber of Commerce will be held Thursday, April 26 in the Akron Jr. High gym. Starting time will be 6 p.m. with the doors opening at 5:30 p.m.

The Akron 4th of July Committee will also be having a cake raffle. Admission is 75 cents for students and \$1.25 for adults.

Akron board members consider tower maintenance

**Regular Board Meeting
April 17, 1984
[submitted by clerk-treasurer
Sarah Jane Sutton]**

Minutes were read, approved and signed. Rick Jessup explained to the board that the water tower is in a good condition and with a preventive maintenance program it will last for years. He explained the procedures and answered questions about the coating used and times required to do the work properly. He then presented the board with a bid of \$7295 for both exterior and interior finish with the work guaranteed and he gave them references if they wish to check on them. This is the same company that did the work in 1980.

Clerk read letters from State Highway telling us that the sand on their streets will be removed as soon as possible and the catch basins are cleaned. Also the State Dept. of Highways notified us that we will have to furnish the signs for the new street, Noyer Drive. The state has been notified of this and added it to the town plot map and the mileage for the streets will add 45 miles to total town mileage.

The board voted to give \$200 to Fulton County Sheriff's Reserve for work done by them while Marshall

Kruger was on vacation. He reported that Buck Murphy had worked a total of 50 hours during that time.

Board instructed town employees to pick up the brush. As the weather improves it can be taken to the burning site. They also stated that the town truck is the only one authorized to go back there.

Discussion was held on stop signs to be ordered as the original order was cancelled and a different vendor is being used. Marshall Kruger was instructed to order them from Hall Co. in Bloomington and the clerk was instructed to order the new street signs from the same company as the others so they will be like the other street signs that the Chamber of Commerce had put up. Marshall Kruger informed the board that an ordinance is needed to make the alleys on both sides of the bank one way—the east alley goes north and the west one south. Board will act on this later.

Clerk reported that the fire station door was repaired by the Safe Way Door Co. of Warsaw at a cost of \$47.04.

Further discussion was had on the amount of money being spent each year to repair old water

meters. The cost of such repair in 1983 would have purchased 50 new meters. A motion was made, seconded and carried to have representations of meter companies come to the May meeting so a plan can be formulated on meter replacement. Clerk was instructed to contact Water Products at Wabash and Ropes Co. at Kokomo to have someone from each Co. attend.

Mr. Bill Silvers of Silvers Asphalt of Disko was here and when the question of securing a street sweeper was brought up he said his firm has a sweeper and they will sweep streets for \$30 an hour. It was felt the entire town could be done in less than 8 hours and after discussion the board voted to have the Silvers firm do the work as this is much cheaper than buying any equipment and they need to be cleaned before the dirt gets into the sewer system. Mr. Silvers also told the board he has cold patch for the streets and employees were instructed to get it there as it is only a few miles away at Disko. The truck must be weighed each day to insure accuracy.

Jim Spangle recommended that the town have a rotating light

installed on the compactor for safety when it is stopped in traffic. Employees were instructed to have the warning lights repaired and to keep them in use. Jim also asked permission to work with the County Humane officer and Attorney Peterson to draft a new ordinance for animal control. Dogs and cats have been a problem this spring and we need an ordinance that can be enforced to help control it. Board voted 3 yes to give him permission to do this.

Clerk informed the board that she had done some research on the

insurance policies that the town has and found there are 12 different ones. It is felt that it would be saving money to have insurance in a package deal. Five vehicles constitute a fleet and so she made a list and gave each of the three insurance men in Akron and asked them for their best bid. They will report to the board in May.

Clerk presented the board with a bid from L & S Tank Company in Urbana for work on the water tower. It is for \$5,200 and the board will check their references before

Letter from the editor

To our readers:

I'd like to apologize to all of you for the size of the last two issues of the NEWS. As many of you have already heard, I was involved in a bicycle accident a couple of weeks ago and was unable to work. Despite all the funny comments about "taking off the training wheels too soon," it turned out I was concussed.

Unfortunately that's the reason coverage of some of the town's events during the last two weeks has been sketchy. I especially was disappointed to miss taking photos of Mentone's and Akron's Easter egg hunts last Saturday, but I had to give the doctors one last chance to poke around my head.

But!!! I'm back at work now, albeit I'm taking it a little slowly at first. I'm available again for photos, interviews, stories or whatever, so please call at the office (893-4433) with any news items or requests.

Diana Streevey

I would like to take this opportunity to express my thanks to all our friends and relatives for the encouraging cards, prayers, phone calls and visits while I was a recent patient in the Kosciusko Community Hospital, and since I have been recuperating at home.

I also wish to thank the excellent doctors and hospital Nursing staff for their care and concern. I am sure all of these things contributed to a successful stay in the hospital. May God bestow his richest blessings on all of you.
