Last week Joe Baker and his boys spent a lot of time digging a hole big enough to bury a 275-gallon gasoline storage tank at their farm. They finally had a hole big enough for the thing, rolled it in the hole and proceeded to throw the dirt back in the hole around the tank. It

was completely buried except for a small spot at one end where some pipe connections were to be made. The other morning, after the all-night rain, the Bakers looked out the window and saw the tank resting serenely on top of the level ground. The rain was so heavy the tank just naturally floated out of the ground again.

The next time the boys get the hole dug and the tank buried they plan to hook on a few anchors.

**WHY ARRANGE A
FUNERAL IN
ADVANCE?**

George E. Deaton

Pre-arrangement is done for peace of mind, economy, and the grief-relief that pre-arrangement provides.

Peace of mind.

Knowing that the task is done is a blessing to many. Your family won't have to do it for you. You'll be secure in the knowledge that both you and your family are assured that all is under control.

Economy

No extra, unwanted frills, if you so designate. Or, if you prefer, an elaborate, full-service funeral, with all the special touches you'd like - at today's agreed-in-advance price. The amount, held in a trust for your funeral expenses, can even earn interest until needed, if you so arrange it.

Grief-relief

Making funeral arrangements under the stress of bereavement, in the midst of emotional chaos, can be devastating to a widow. By pre-arranging a funeral, you can relieve her of some of the grief, letting her concentrate on family matters of equal importance. For full details on pre-arranged funerals, stop by or call us anytime. No obligation, of course.

Plan August wedding

Sharon Hudson - John Wright

Sharon L. Hudson, R. I. Etna Green and John M. Wright, Winona Lake are planning an August 3rd wedding.

Miss Hudson is the daughter of Don and Betty Hudson of Etna Green. She will graduate from Tippecanoe Valley High School in 1986. Her fiancé is the son of Charles and Jean Wright of Everett, Pennsylvania. He is a 1980 graduate of Everett High School and is currently a Senior at Grace College, Warsaw.

Perry E.H.A. meets

The Perry Home Improvement E.H.A. met with Lucille Personett in her home. Alice Teel presided.

Ruth Bammerlin led as the group sang "The Old Rugged Cross" and "Happy Anniversary" to Alice Teel and to our guest, Freida Awker of Roann.

For her devotions Alice Teel read a poem "If God Should Go On Strike", then she spoke of the importance of a smile. None can be rich without a smile and no one can be poor with it. She closed with prayer.

Lucille Personett gave the lesson "Cushions and Pillows." Pillows are both useful and decorative. The appearance of a room changes as pillows are used. They vary in design, color, fabric composition and in shape. Pictures shown illustrated this.

Marie Coon for the Health and Safety lesson spoke of good health habits. Every person needs three well balanced meals daily. We should watch our weight, exercise, have regular sleep-

ing hours and avoid harmful drugs and smoking.

Sherri Moore substituted for Marie Berger who is in Florida as she gave the Citizenship lesson. She read the beautiful prayer that opened the first session of our United States Congress.

The incoming president, Marjorie Miller, made the appointments of the officers for the new club year.

The meeting closed with union reading of the Home Economics prayer.

Refreshments and visits were enjoyed. Freida Awker was today's Lucky Lady. Others present were Marie Nestleroad, Marie Long, Nelle Loughheed, Emma Burns, Helen Miller, Aurell Musselman, Pauline Miller and Neva Robison.

Tactless

"Whenever I look at you," said the young man to his fiancé, "I think of those marvelous glamor girls you see in the pictures."

"Do you really?" said she, very highly pleased.

"Yes, but what's the use? A fellow like me has to be satisfied with what he can get."

STUDY CIVIL WAR: Over the past few weeks, the Akron eighth grade social studies classes have been studying the American Civil War.

To enhance the class' understanding of the war; Keith Mims, Sara Miller and Brenda Goss put together a display depicting many battlefields of that war. In many cases, the actual battle sites have been preserved as national monuments.

Judges needed for 4-H projects

Persons interested in becoming judges of 4-H projects are invited to participate in the 10th Annual Area VI and VIII Spring Project Clinic for judges and leaders. The Clinic will be held on Saturday, April 13, 1985 at the South Wayne Junior High School in Indianapolis. The sessions will begin with registration at 9:30 a.m. and close at 3:45. Participants will have the opportunity to select four project areas for an update.

The workshops are designed to upgrade 4-H judging and to train prospective 4-H judges. A person wishing to become a judge should be knowledgeable in the subject area. Names of those attending the workshop will be added to a 4-H judges' list that is distributed to the area extension offices.

Goals of the all-day session are to develop a positive philosophy of judging, make 4-H judges more aware of their responsibilities to the 4-H members and to learn how to adjust expectations and criteria to the different age levels of the 4-H members. Also discussed will be standards of judging in specific project areas.

Projects to be included in the training selection include Basic Crafts, Wildlife, Clothing, Cats and Small Animals, Posters, Forestry, Foods, Photography, Needlecraft, Achievement Books, New

Revue and Woodworking.

Registration fee for the Clinic which includes lunch, is \$7.50. Reservations are due in the Johnson County Extension Office, P.O. Box 128, Franklin, Indiana 46131 by Friday, April 5. More information about this clinic may be obtained by calling the Fulton County Extension Office at 219-223-3397.

National Award Winner

NICK WAECH

The United States Achievement Academy announced this week that Nick Waech has been named a 1985 United States National Award winner in History and Government.

This award is a prestigious honor very few students can every hope to attain, in fact, the Academy recognizes less than 10% of all American high school students.

Nick, who attends Mentone Jr. High School was nominated for this National Award by Mr. Phil Pratt, a social studies teacher at the school. Nick's picture and biography will appear in the United States Achievement Academy Official Yearbook, published nationally.

Nick is the son of Victor and Diana Welch. Grandparents are Martha Waech of Mentone and Water Marohn of Plymouth, Indiana.

Pinewood Derby Winners

WINNERS PICTURED left to right are: Ryan Gast, Scott Backus, Dustin Petrosky and Steve Hogue.

The Akron Cub Scout Pack #3245 held their annual Pinewood Derby races last Saturday, March 23 at the Akron Junior High School gymnasium.

There were thirty Cub Scouts and five Tiger Cubs entered in the derby.

The winner of the Tiger Cubs was Rich Burdge. Winners of the Cub Scouts were Scott Backus - Wolf Den, first; Dustin Petrosky - Wolf Den, second; Steven Hogue - Wolf Den, third and Ryan Gast - Bear Den, fourth.

The top three boys received trophies and every-

one participating received ribbons.

The four top Cub Scouts will participate in the Chief Logan District Pinewood Derby, held in Winamac at the Eastern Pulaski School on April 20th.

A trophy was given for the best design and appearance of their racers, with Ryan Gast winning in the Bear Den for the best appearance and Justin Murphy winning for the best design. In the Webelos Den, Dustin Caudill won both design and appearance. All the cars were very competitive and there were several close races.

Research SIDS

Parents who have experienced a sudden, unexplainable infant death are urged to contact the University of Nebraska SIDS Project to participate in a research survey.

"We have found over the past ten years that SIDS is a devastating crisis for families," Dr. John DeFrain, SIDS Project director, said. "The more we know about what is happening in SIDS families, the more we can be of help by building a caring, supportive community."

Besides parents, the researchers would like to send anonymous questionnaires to grandparents, and, possibly, surviving brothers and sisters. All participants will be sent complete results of the study.

Over the years more than 400 parents have participated in this study. Suicidal thoughts, divorce, relocation, alcohol and drug abuse, violence, and all pervasive guilt are very common among these families, DeFrain said. "The average parent takes roughly three years to return to 'normal' though life never really is the same after a SIDS death."

On Faith

It's often difficult to maintain one's faith. In today's fast-moving world, faith in moral principles, in the future of our country, in the goodness of fellow citizens, and in ourselves, is a vital asset.

For peace of mind, happiness, and an understanding of life and what can be accomplished, faith is a key. If you have little, think about it.

Golden Thoughts

Kindness is a language which the blind can see and the deaf can hear.

All the beautiful sentiments in the world weigh less than a single lovely action.

One of the finest lessons people can learn in life is to be able to disagree without being disagreeable.

There is something good in all weather. If it doesn't happen to be good for my work today it's good for some other man's today, and will come around for me tomorrow.

Look back often to see what made our country the great nation it is today.

Instead of allowing yourself to be unhappy just let your love grow as God wants it to grow.

Seek goodness in others. Love more persons more. Love them more impersonally, more unselfishly, without thought of return. The return never fear, will take care of itself.

Senior citizens come join us for a well-balanced meal and fellowship. Blood pressure clinic will be held Thursday, April 11. Also all April's birthdays will be celebrated at the same date. For your meal reservations please call 893-7204 the day before you plan to join us between the hours of 9 a.m. - 12:30 p.m.

REPUBLICAN OFFICIALS visiting Fulton County for the annual LINCOLN Day dinner last Thursday were (left to right) Marge O'Laughlin, Indiana courts clerk, George Rouch, Vice Chairman of the Fulton County Republican Central Committee, Kathryn Hartzler, chairlady of the Fulton County Republican Central Committee, Indianapolis Mayor Richard Hudnut, 5th District GOP Chairman, Don Heckard and Wesley Bucher, State GOP Secretary.

Republicans hear Mayor Hudnut

Indianapolis Mayor Richard Hudnut last Thursday addressed over 200 Fulton County Republicans at the annual Lincoln Day dinner at Rochester High School.

Hudnut used as his main topics during the talk, President Reagan and Abe LINCOLN, using many of President Lincoln's statements made while he was in office, to point out the philosophy of the Republican Party is the philosophy of its founder - Lincoln, who said "you can't help anybody by doing for them what they should do for themselves."

Hudnut pointed out that his philosophy is the right way to save the American economy.

Hudnut said that the Reagan administration has a free-enterprise philosophy which really believes that we must help people who need help without making them depend upon the government; initiating private-se-

ctor activity, private sector investments and private sector enterprises. He stated that he believes a lot of farmers would like to make it in the free-enterprise system without as much help and interference from the government as they've had during the past.

Hudnut said he believes the administration has brought about an economic revival for the country which includes 25 straight months of economic growth and during the last two years has created 17½ million new jobs, adding that in the last three years, inflation has been held at its lowest point in 17 years.

President Reagan, he said has restored the confidence in the White House and the Republican Party, noting that Reagan was re-elected overwhelmingly in 1984 because he carried forth the belief in the GOP - Growth, Opportunity and Progress.

Board orders street repair this spring

Street repair was one of the main subjects of discussion at the regular session of the Mentone Town Board as they met Monday, April 1.

Repairs to be done of the streets and alleys in town will begin with one of the most heavily traveled of alleys, the one behind the fire station, north of the railroad tracks as it is the one in the most need of attention. This alley will be paved with a hot seal mix since previous attempts at paving with chip 'n seal have not been successful because of the heavy traffic. The alley behind the drug store, Elm Street near Cargill's and the street near the corner at Frank and Jerry's grocery will also be repaired.

The town has \$11,000 available for street repairs at this time. A list of the streets and alleys needing work is available to contractors interested in bidding on the jobs. This list may be obtained by contacting one of the town board members or Clerk Kate Wheistone.

The board decided to use limestone to fill-in the street in front of Secrist Builders, upon a request for repairs by Steve Secrist. There has not been any work done of that street since 1979 when it was deemed to be the town.

Cemetery Fund

Board members asked that anyone interested in helping with financing the cemetery reconstruction work may send donations to the town board designating their contribution for the "Cemetery Fund."

Water tower repair

Board members voted to have the interior portion of the town's water tower recoated this summer. This will entail pumping water direct from the well so as not to disturb the natural water supply while the work is being completed in the tower.

Delinquent water bills

Delinquent water bills are constantly a source of concern to the town board members. The amount in

arrears for the last quarter totals a lofty \$2,158.95.

No cable

Due to the lack of interest by residents of Mentone for the installation of cable television, the Dowden Communications people have now given up their idea of establishing this service for the town. Dowden noted this fact to town board members recently after taking a survey of the town for the purpose of establishing interest.

The next meeting of the board will be Monday, May 6 at 7 p.m. in the town hall.

Silver Lake home destroyed

It was believed a wood-burning stove was the cause of a fire that destroyed an unoccupied home on Dixie Drive on the north side of Silver Lake last Wednesday afternoon, however, the fire is still under investigation.

An estimated \$20,000 damage was done to the house owned by Charles Kreider, Rt. 2, Silver Lake, who was preparing to move into the home.

Silver Lake firemen were summoned to the home around 12:15 p.m. and battled the flames for nearly four hours. They were assisted by Claypool firemen.

Trustee assistance considered income

Beginning May 1, township trustee assistance received by an individual will be considered as income in determining the eligibility and benefit level of food stamp applicants and participants. Counties in Indiana have been ordered to take this assistance into account when figuring eligibility by the U.S. Department of Agriculture, Food and Nutrition Service.

This directive will adversely affect a number of food stamp applicants and participants in Indiana. Food stamp households receiving township trustee assistance may have their benefits reduced or may become totally ineligible for the food stamp program.

The Indiana State Welfare Department, food stamp division, has contested the implementation of this direc-

tive through all available administrative avenues. At this point in time, however, Indiana must either implement the directive or suffer federal fiscal sanctions.

Braves fire to save grandson

"The heroic rescue of her 11 month old grandson, Mark, seriously burned and nearly cost the life of Ella Burnett, age 50 of 501 Pine Street, here in Akron, Indiana.

At 1 a.m., Monday, March 25, the house across the street from Ella burst into flames with its occupants, Ella's daughter, husband and family, fleeing the house to Ella's home across the street.

When it was discovered the 11 month old grandson, Mark, was still in the house, Ella made a run into the blazing inferno, wrapping the child in a blanket and bringing him out unharmed.

After 10 days in the Burn Unit of Fort Wayne's St. Joseph Hospital, Ella is recuperating at her home and needs your visitation."

Life's Gift

Life is a wonderful gift, my friend, whatever the age we're living in.

Listen not to those who say "Oh for the dreams of yesterday."

Never since the world began, did time stand still for any man.

The greatest minds have failed to reach the wisdom that the seasons teach.

There is a harmony in things, that only growing older brings.

Happiness is learning how to value what is here and now.

No winter bird, no golden leaf, had not the summer been so brief.

The Akron Keen-Agers had a potluck dinner Friday, April 5. Stated menu was served also. Tables were decorated for the Easter occasion. Zella Bowman played the piano. A sing along was enjoyed by all. Meals were served early so all could attend the Good Friday church services. I want to thank Geraldine Hill and Mary Mitterling for staying and being the clean up crew. Thursday, April 11 blood pressures will be taken through the services of Ruth Bammerlin. All Aprils birthdays will be celebrated at this date. Senior Citizens for your meal reservations please call 893-7204 the day before you plan to join us between the hours of 9 a.m. - 12:30 p.m. daily Monday through Friday except for holidays.

Scheduled menus for the week of April 15 through April 19 are:

Monday - Ham slice, macaroni and cheese, creamed slaw, applesauce, white bread, milk.

Tuesday - Baked chicken with gravy, whipped potatoes, broccoli with cheese sauce, hot dinner roll, fruit jello with cookie, milk.

Wednesday - Ham loaf, baked potatoes, creamed corn, sliced tomatoes, dinner roll, milk.

Thursday - Spaghetti and meatballs, tossed salad with carrots, bread, mixed fruit salad, milk.

Friday - Swiss steak with gravy, whipped potatoes, creamed corn, brown bread, fresh fruit, milk.

THE AKRON U.M. NURSERY SCHOOL students and parents and teachers enjoyed a skate morning last week as they attended the Eastlake Skate Center at Warsaw. Kevin Cooksey celebrated his birthday with the group who enjoyed cup cakes, cookies and punch. The telephone number at Tippecanoe Valley has been changed to 353-7031. The change was the result of the installation of new equipment which should improve telephone service and reduce costs.

pership are excluded from this, since that goes toward dues for years to come.

Regarding the land FCHS purchased for the Trail of Courage Rendezvous, the board voted to have Don Shriver plant oats, clover, alfalfa and timothy on a share-crop basis. The oats will be harvested by the middle of July, leaving the grass to make a good ground cover for the parking lot. They also voted to deny access to Dave Reed across the property, fearing that such access would lead to further problems. Reed owns the loop of land surrounded by the river and adjacent to the FCHS land.

The Sesquicentennial T-shirts, silk screened by Topps Garment Factory of Rochester, are now on sale in the Civic Center Museum for \$6 each.

Carl Davis resigned as Newcastle Township representative on the Board of Directors, citing poor health and age as his reasons. The group voted to make him the first member of the "100 Club" even though he will not be able to work 100 hours in 1985. Davis has donated hundreds of hours to FCHS since 1975, having constructed the original booths for the first Trail of Courage and helped build the Pioneer Woman's Log Cabin Museum.

The annual membership drive was kicked off with a pep talk by president Shirley Willard. "Be proud of the Fulton County Historical Society," she said. "We have accomplished so much, working together; other counties envy us. Let's continue to work together, invite new members, and eventually build a new museum."

Willard thanked Bob and Laura Kern for donating a pole barn at the former Ralph Bryant farm. Crews of volunteers tore it down and salvaged five loads of tin and old boards to make booths at the Trail of Courage. Thanks to these volunteers for responding to the call for help March 16 and 19.

Howard LaHurreau, a Potawatomi Indian from Fort Wayne, told of the Indian trade networks before Columbus "discovered" America. Educated at the University of Mexico, LaHurreau brought many new insights to the civilization that existed before the "official arrival" of the white men. Many artifacts indicate that Europeans, Africans and Asians traded with the American Indians long before 1492.

Andrew Kuhn, Grass Creek, donated a collection of arrowheads, handsomely

mounted in a glass-front box. These Indian rocks were found by him in Cass and Fulton counties.

Refreshments were served to 40 people by Carl and Ruth Davis, Alice and Ruth Tetzlaff.

The next meeting will be April 29 at 7:30 p.m. Tonia Weller, Rochester, will demonstrate and tell about "Weaving in Pioneer Days."

Adams named chair of Bike-a-thon

The Central Regional Office of St. Jude Children's Research Hospital announced that Mr. Greg Adams has agreed to chair the St. Jude Children's Research Hospital Bike-a-thon in Akron.

St. Jude Children's Research Hospital was founded by entertainer Danny Thomas. The institution opened its doors to the public in 1962 to combat catastrophic diseases which afflict our children. St. Jude Hospital is non-sectarian, non-discriminatory, and provides total medical care to over 4,200 patients.

At St. Jude, scientists and physicians are working side by side seeking not only a better means of treatment, but also the causes, cures

and prevention of these terrible killers.

All findings and information gained at the hospital are shared freely with doctors and hospitals all over the world. Thanks to St. Jude's, children who have leukemia, Hodgkin's disease, sickle cell anemia, and other child killing diseases now have a better chance to live.

The Bike-a-thon program is dedicated to "Jaime." Jaime is from Ohio and was diagnosed with leukemia in May of 1983, and began treatment at St. Jude Children's Research Hospital. Today, her cancer is in remission and she is doing quite well. Jaime is a living example of the progress and success of the research, patient care, and educational programs of this internationally recognized hospital.

We sincerely appreciate the concern that Mr. Adams has for our work and we hope

the citizens of Akron will support the Bike-a-thon this spring to help provide the funds that are needed to preserve the world's greatest asset... "Our Children."

More ill health is caused by too much food than too little.

Some people once thought they could ensure an abundant crop by putting a leafy branch in the furrows of the corn field.

Some people thought that they could ensure more milk from their cows if they put green branches around their houses.

Lakeland Mortgage Corp. formed

Kenneth L. Rucker will be returning to the employ of Lakeland Financial Corporation in April. Rucker will become President of Lakeland Mortgage Corp. a new wholly owned subsidiary of Lakeland Financial Corporation, which is the holding company that owns the Lake City Bank. The Lakeland Mortgage Corp. will offer a wide range of mortgage programs, including FHA, VA, graduated payment, fixed, and adjustable rate conventional mortgage loans. These mortgage loans will be made and qualified for sale into the secondary market. The corporation is developing various sources for sales to assure local mortgage loan customers a wide and diversified choice in mortgage financing. The new company

will be headquartered in the "Carter House" 110 South High Street, Warsaw, next to the bank's downtown drive-in. There will also be an office on the north side of Indianapolis on State Highway 431.

Rucker worked thirteen years as the head of the Mortgage Loan Department of Lake City Bank before joining the Federal National Mortgage Association in Chicago as Senior Marketing Consultant. Joining him at Lakeland Mortgage Corp. will be James Bumgardner former Vice President in charge of mortgage lending at Lake City Bank. Paula Plaia who recently was the Manager of Mortgage Marketing at an area financial institution has joined the Corporation as a Vice Presi-

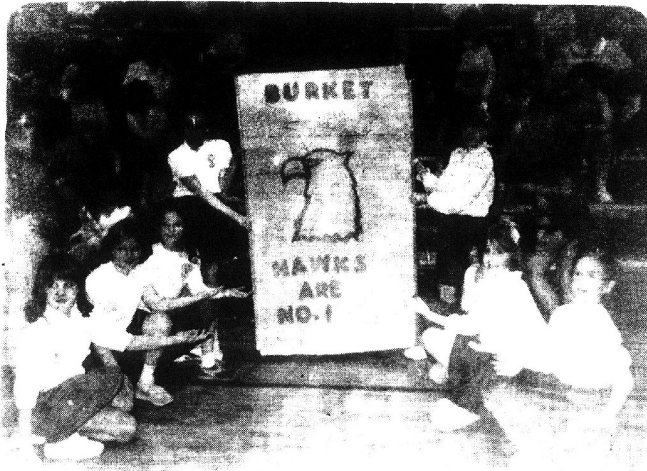

dent and provides many years of expertise in the secondary market area.

The Mortgage Department of Lake City Bank will be directed by Nancy Amundgaard, Assistant Vice President. This bank department will continue to service the \$37 million of existing mortgage loans, and will generally only originate those mortgages to be retained by the bank and not sold into the secondary market. The Mortgage Loan Department of the bank will be re-located to the lower level of the main office building.

Some people used to be very careful not to build their houses with upside down posts, lest the spirit of the post-wood resent the indignity.

Burket 3 to 1 over Mentone in annual games

The first game of the annual Mentone-Burket basketball games was won by the Burket 4th grade girls, defeating the Mentone girls 20-14. The Burket 5th grade girls took their game also, defeating Mentone's 5th by 23-8. Trophies were

awarded the winners.

In the boys tilt, the 4th grade at Burket defeated Mentone's 4th grade boys 12-6. In the last game of the evening, Mentone's 5th took Burket's 5th grade boys 19-15,

winning the trophy for the school and upsetting Burket's so far perfect record during the evening.

In cheerleading competition, the trophies were to Mentone's 4th grade squad and to Burket's 5th grade squad.

Henry Twp. Trustee defends Trustee system

Recently a letter written by a local lady and Henry Township Trustee Jean Conner, Akron appeared in the South Bend Tribune in answer to attacks on the Trustee system in the state of Indiana.

The first letter attacking the system appeared in the Tribune's Michiana Point of View column on January 23rd and was written by Wendell W. Walsh, an attorney and member of the St. Joseph County Poor Relief Task Force.

Mr. Walsh's letter attacked the Trustee system in the state which includes a total of 1008 trustees, calling them "overseers of the poor", stating that the system had its roots in Elizabethan England in the 16th century, and making the statement that little has changed since that time. He wrote that "trustees remain, essentially, lords over the poor of their townships."

Township trustees weed out greedy from the poor and needy

I too, have read with interest articles appearing in Michiana Point of View and Voice of the People dated Jan. 23 and Feb. 1, and I'm wondering how these people would feel if they were sitting behind my desk. I sure do have questions for them and a lot of food for thought.

Much has been said about the poor and needy - but what about the greedy? How many of you have been told an untruth? How many of you liked it? How did you react? How many of you know persons (especially the younger 20s-30s age bracket) on welfare living better than you? How many of you have questioned applicants with the smell of alcohol on their breath and a cigarette in their hand? Do you as taxpayers want to buy these items? Where is the money, coming from? Do you as taxpayers want to buy more groceries when some applicants are already receiving as much as \$300 a month in food stamps? Some eating better than you? Do you like them buying hamburger for a dog or dogs because dog food is a no-no as far as food stamps are concerned? Should they even be allowed to have dogs or cats while receiving food stamps? Do you like to see them driving a late model car and dressing better than your family? And before you get to irate at these questions, let me add that these have all been asked of me as a township trustee.

I've seen them eating in restaurants, getting their rent paid through HUD, utilities compensated through Project Safe, or Public Service Indiana Helping Hand, pre-natal and post-natal care for babies (formula, check-ups, shots, etc.) through WIC Programs, free lunches in our schools, trustees paying book rental, various churches donating clothing, food, utility bills and more I'll not go into. All with your tax money, except churches. It seems like there is a program for everything. And if it's free, where is the incentive to work?

I have been chewed out in person, cussed over the phone, harassed at my home, even when entertaining guests (Yes, I have an outside office and it is marked and hours are posted). I have been stopped on the street or anywhere else I might appear, all from investigations finding applicants had falsified records we are required to keep. The average salary of a Fulton County trustee is \$2,400 per year and includes volunteer fire departments, parks, cemeteries, school board members, line fence disputes, dog claims, assessing of personal property, distributions of cheese, etc., in addition to Poor Relief claims, to name a few of our duties.

Yes, I knew what the job paid when I ran for the office - and it is supposed to be part-time, but I find myself working every day and this includes a lot of weekends. I've been contacted as late as 10 p.m. and as early as 6 a.m., and I'm asking the writers if they would be so willing to have their private time invaded. We do have families and as in most cases they come first, no matter what, and I would guess all of the writers' families come first with them, which is as it should be. Is it any wonder that we have turned into skeptics?

Now, considering all of the above and the rest of Indiana's 1,007 trustees (assuming they have the same problems), how can 40 percent be saved by us as taxpayers by transferring Poor Relief over to the State Department of Public Welfare? I say it isn't so, and who of us in a farm setting wants to be taxed for all large cities? Indianapolis-Marion County had a \$6 million budget for poor relief in 1984 alone. This was reported in your Tribune not too long ago.) You will be paying through the pocketbook and have no say whatsoever as to how the money is spent. Locally you do and

His statements about the weakness of the Poor Relief system, the costs of the system for running the 1008 offices, the comparisons between Poor Relief assistance distribution and the costs for the AFDC program were noted as being an estimated reduction by 40 percent if the program were to be transferred to the Department of Public Welfare.

Mr. Walsh also noted his belief that the inaccessibility of the offices, the offices being poorly marked with no hours noted, and the fact that township trustees were not easily reached, and poorly trained for their jobs, prompted an answer to his letter from Mrs. Conner which appeared in the Tribune's Point of View column in answer.

The following is the reprint of Mrs. Conner's letter, by her permission.

can vote for your choice. Anytime the state or federal government steps in, it always costs the taxpayers. Think about it. We are called grass roots government, and who better than us who reside in the community can best keep tabs on the needs of our own citizens?

As to Wendell Walsh's comment in the Michiana Point of View, record keeping and reporting are mandated by the State Board of Accounts on forms they have prescribed and are subject to audit anytime they see fit, and all Poor Relief claims are on file in the auditor's office of each county and are open to taxpayers and may be viewed during regular business hours. Also, Mr. Walsh, we have to make and advertise our budget a year in advance in two newspapers and a public hearing is held - guess how many taxpayers show up? We are also required to publish in two newspapers our annual report - all receipts - and all disbursements and balances. Of the above two items we make six copies, two for newspapers, one for the auditor of the county, one for the State Board of Accounts, one for the advisory board and one for the trustees records (also open to local taxpayers). Now how much more public can you get?

Walsh further states that township trustees are elected, which everyone knows if they are registered voters, but he also says there is no guarantee that a trustee has any prior experience, training or education regarding working with the poor. By the same token, I say there is no guarantee that a person appointed by whomever would do any better. Do all of us need a college education to deal in a one-on-one situation? Common sense says no.

The documents most of us ask for are merely affirmation of separating the needy from the greedy as I have previously stated, and I would feel I was not protecting the taxpayer if I asked for less. I have a workfare program in our township - yes, it is legal and mandated - and you would be surprised at the number of people you give applications to fill out (thoroughly and truthfully) and upon learning they have to work first, never appear again. In other words, give it to me on a silver platter. And these are able-bodied persons between 18 and 60. (My guidelines. The state's are 18 to 65.) And we do carry work/comp insurance as required by law.

In closing - I truly do help the poor and needy and have no guilty feelings about it; in fact, it makes me humble to be able to ease their burdens. But when people tell me an untruth and I investigate and confront them and they continue to tell an untruth, I cannot legally help them. This is so stated on all applications for assistance and they can be arrested for perjury.

My grandfather told me as a young girl that it only takes one rotten apple to spoil a whole barrel. This true more today than ever before and the taxpayers are fed up. There has to be a stopping place, and I say it should be now. Bigger does not necessarily make anything better and we as a small farming community will surely get lost in the shuffle. As for your taxes going down - forget it. So long as we have citizens who are out for all they can get - free - the bill will go higher. In the meantime, so long as I am trustee, I will continue to investigate each applicant thoroughly. If the truly needy feel abused, it's time for them to stand up against the greedy.

In the event the poor are denied assistance, they have a right to appeal to the county commissioners to overturn the trustee decision. Meanwhile, report to the proper officials, get involved, help us as trustees, the county welfare department or other agencies mentioned here previously, to weed out the greedy. This is the root of the problem and I know all Indiana taxpayers will thank you.

Jack and Jill Nursery School Pre-registration

THE SMILE OF SUNNY THREE YEAR OLDS welcomes Spring to Jack and Jill Nursery School.

Pre-registration for the 1985-86 school year will be held on Monday, April 15, from 9 a.m. - 11 a.m. and 6 - 8 p.m. at the nursery school, located in the basement of the Mentone United Methodist Church. The non-denominational nursery school is the combined effort of the Mentone community and the Mentone United Methodist Church to provide a Christian atmosphere for social, physical, and emotional development of the three and four year old child. All classes begin at 8:45 a.m. and conclude at 11:15 a.m. with the three year olds meeting on Monday and Tuesday and the four year olds meeting on Wednesday, Thursday, and Friday. Class time is spent in both structured and non-structured play at various activity centers. Some of these include puzzles, blocks, paints, a puppet theatre and a housekeeping center. Social skills are fostered with the child by learning how to share, pick up toys and materials, listening and following simple directions. A daily lesson, reciting the Pledge of Allegiance, snack time, story time and the use of the Weekly Readers are part of the structured classroom time. Emphasis is placed on the child as an individual and preparing the child for kindergarten. Learning the child's address, phone number, colors, numbers 1-10, using paste and scissors, and recognizing the alphabet are included in this area. Activities such as games, finger-plays, exercise and outdoor play, as weather permits, help develop gross motor skills. Special activities include short field trips and holiday parties for both classes while the four year olds enjoy hosting a Thanksgiving Feast, Easter Breakfast, and the year end

highlight of graduation, complete with cap and gown.

Parents play an important role in the Jack and Jill program. The past two years they have sponsored bake sales which have enabled the nursery school to purchase a child-sized, four piece house-keeping center and a camera for record keeping and publicity.

Children must be 3 or 4 on or by August 1, 1985 for enrollment and class size is limited. Speech and hearing screening is provided during the school year. For more information call: Jackie Leiter 353-7619 or Janice Koch 223-6553.

The fight for acceptance in "society" is a good one to stay out of.

Ind. State Police Helicopter at Mentone School Monday

Monday, April 15th, the Bell Helicopter used by the Indiana State Police visited Mentone School in conjunction with National Library Week.

The Mentone School Library has an on-going project entitled "Meet Larry Bell." During the past year a field trip to the Bell Museum, films, special speakers and displays have taken place to better acquaint the students with Larry Bell, Mentone native.

The arrangements for the Bell Jet Ranger III helicopter were made with the Indiana State Police. Barry Black, state police pilot, flew the helicopter to the school and landed in the area east of the school. He told the students some of the ways the helicopters are used by the state police. The students viewed the helicopter and asked questions.

The library is known for books, but the main purpose of any library is to provide information. Larry Bell realized that a library was a very vital part of both the school and the community. Thirty years ago on April 20th, he was in Mentone and dedicated the school library. Many of the books that were purchased with the donated funds are still being used today. Also, many of the library tables are still being used.

Ann Chubb, media specialist, made the arrangements for the helicopter visit. Those on the "Meet Larry Bell" committee are: Linda Cochran, Elaine Fugate and Sue Pyle. Marsha Scott took pictures of the event for the project.

Sgt. Black will take the helicopter to other schools in the TVSC: Burket on April 24 and Akron on April 25, landing at these schools at 9 a.m. both days.

Pre-enrollment for Kindergarten at Burket

On April 30, 1985, at 1 p.m., the Burket Elementary School will have pre-enrollment for the 1985-86 Kindergarten Class. The meeting will be held in the kindergarten room.

Mrs. Pat Hoover, the school nurse, will discuss the school's health policies. Mrs. Susan Kinney, the speech and hearing therapist, will also talk to parents. Mrs. Marcia Ousley will discuss the kindergarten program and answer any questions

parents may have.

Parents are reminded to bring their child's birth certificate so that school officials can verify the child's age for the school's records. A child must be five years of age on or before August 1, 1985, in order to attend kindergarten.

Parents who cannot attend this meeting may send in the necessary information with another person. Anyone having questions concerning the pre-enrollment meeting should call the school office.

Marshall resigns at Akron

As of May 2nd, Akron Marshall James Spangle will leave the Akron Police Department and go into private business. Spangle tendered his resignation to the Akron Town Board members on Wednesday, April 10.

This is the second resignation of a police officer from the Akron force in two months. Officer David Kruger resigned on February 19 at the town board meeting, the resignation effective that night.

Lake home destroyed

Akron Volunteer Fire Department made three runs to the Rock Lake home of Roger and Pam Cooksey, Sunday and again two times on Monday. Fire broke out in a wall of the home and was reported Sunday evening at 10:30. Firemen answering the call remained on the scene until 12:45 a.m. Monday. The department was again called to the scene at 3 a.m. Monday morning when the fire blazed again and answered another call at around noon on Monday.

The home was a total loss. No estimate has been given of the damage.

M.S. Group selling geraniums

The Kosciusko County Multiple Sclerosis Support Group is selling potted geraniums in celebration of Multiple Sclerosis Awareness Month. The proceeds will be used to help finance patient service programs and research - at the national level - into the cause and possible cure of Multiple Sclerosis.

The red geraniums being sold locally are a symbol of hope for all persons affected by M.S. and their family and friends. The geraniums will be available in time for Mother's Day so mothers may be remembered while helping fight M.S. at the same time.

the night to a steady drop in temperature, and early Tuesday morning it was cold enough to freeze ice as the mercury stood around the 30 degree mark.

The cold wave swept in on a northwest wind that at times reached gale proportions. Snow started to fall early Monday morning and continued throughout the day, with a veritable blizzard at noon when the air was so filled with whirling snow flakes that objects only a short distance away were obscured. It was one of the worst April storms ever experienced in this section.

Exchange wedding vows

Alice Tyler and Ron Oppe exchanged wedding vows, March 23 in the First Baptist Church.

The bride is the daughter of Mr. and Mrs. Kenneth Tyler, Rt. 1, Kewanna. The groom is the son of Mr. and Mrs. Lorraine Oppe, Rt. 1, Akron.

The Revs. Donald Maughan and Don Poyser performed the double ring ceremony at 7 p.m. The bride was given in marriage by her father.

Pink and burgundy bows decorated the candelabrum and the parents' pews, and mums were at the altar.

Jane Haynes, Akron, was soloist, and Harriet McAllister, Rochester, was organist.

The bride's Victorian gown featured leg-o-mutton sleeves, a stand-up neckline with lace ruffle and an embroidered yoke. The flounce hemline extended to form a chapel train. She wore a large picture hat with a net pouf extending down the back, and carried a cascade of white roses, stephanotis, burgundy accent flowers and greenery.

Audrey Smith, sister of the bride, Marion, was matron of honor, and Linda Burton and Sandy Owens, both of Rochester, were bridesmaids.

The bridal attendants wore taffeta gowns with eyelet bodices, elbow-length puffed sleeves, and with full, gathered skirts that v'd in front and back. The matron of honor's gown was burgundy; Burton's was rosette-colored, and Owens' gown was suede rose. They carried arrangements of rosebuds to match their gowns; crystal chimneys, and candles.

Donald Hathaway, Claypool, was best man. Groomsmen were Brian Adams and Bobby Eriks, both of Akron.

Rich Tyler, brother of the bride, Kewanna; Greg Smith, brother-in-law of the bride, Marion, and Herb King, Mentone, were ushers.

After the wedding, 125 guests attended the recep-

tion in the church hall. Rose and burgundy roses and white lace hearts decorated the three-tiered wedding cake, which was topped by a ceramic bride and groom. Crystal candelsticks and greenery highlighted the base of the cake. The bride's aunt, Karen Sullivan, made the cake, and Peggy Curtis made the mints of burgundy and rose.

Servers were Pam Crispin, Macy, and Peggy Curtis, Kandi Waltz and Tina Wisley, all of Rochester.

The bride is a 1980 Rochester High School graduate. She was active in 4-H and worked in the deli-bakery at Wilt's Food Store on East Ninth Street.

The groom is a 1980 graduate of Tippecanoe Valley High School and is a 1984 Purdue University graduate. He works for Moorman Feeds in Jasper County.

Ron and Alice Tyler Oppe are at home at 124 N. Sparling, Rensselaer.

Local farmer wins steaks from PAG Seeds

Charles Lynch, a Silver Lake area farmer, recently won 40 steaks in a drawing sponsored by PAG Seeds.

Jerry Dohrman, PAG Seeds national marketing manager, said farmers registered for the drawing during recent "Prime Time" meetings sponsored by local dealers.

"We wanted farmers to win a prize that supports what they produce," he said. "And since cattle feeders use a lot of corn in their rations, we thought it was a good idea to give them steaks as a part of our promotional programs. The idea was well-received by farmers."

Dohrman said 7,000 steaks were distributed to 175 farmers throughout the country. The local sponsoring PAG dealer was Dorris Harrold, Akron, Ind.

Named to Dean's list

Randy Mitterling, Saner Drive, Akron has been named to the winter quarter Dean's List at Ball State University.

To qualify for the Dean's List, Randy had to earn a grade point average of 3.6 to 4.0 and carry 12 or more hours of academic work for college credit.

Also qualifying for the list were Michael Hendrickson, Rt. 6, Rochester; Jennifer Hoover, Rt. 1, Rochester, and Misti McCall, Rt. 2, Rochester.

4-H Club meets

Seventeen members attended the third meeting of the Burke County Neighbors 4-H Club. The meeting was called to order at 7:08 p.m. at the home of Elizabeth Williams. The American pledge was lead by Liz Goshert and the 4-H pledge was lead by Janet Lynch. Janet read the roll call and the minutes. Scott Nelson gave the treasurers report and Steve Lynch talked about 4-H camp. The bake sale on May 4 was discussed.

HOW CAN I
HELP THE
NEWLY WIDOWED?

It doesn't matter whether one's husband or wife died after a prolonged illness or whether it was a sudden death. The resulting widowhood is a deep-seated impact which may last for days, weeks, even months.

During this period of initial shock, you must help the widow or widower to be ACTIVE. By occupying his or her time with the important details of "getting things together" for everyday living, he (or she) is forced, thankfully, into activity.

With our professional responsibilities and experience, we as funeral directors can be of immediate help. We assist in processing the many personal papers such as Social Security and V A. We handle literally hundreds of details for the family throughout the total service. And we try to help as best we can with the widow or widower in their emotional adjustments.

One of our chief goals is to bring peace and comfort to the living in their hours of need. If we can help you in this, please let us know.

Letters to the Editor...

Editor:
To The Citizens of Henry Township:

So many of you have asked for the facts and figures on the proposed issuance and sale of bonds for the Akron Carnegie Public Library in the amount of \$115,000 at not more than 10% interest per annum and not to exceed 15 years. Here they are as I know them. The net assessed valuation of Henry Township is \$12,092,530. Approximately 9 million in the Township and 3 million in Akron Town. That is a ratio of 3/4 (Twp) and 1/4 (Akron Town) and almost all signatures on the petition for the sale of bonds are from the town which is leaving Township residents irate to say the least, since they will be paying the most in an increased tax rate.

If the payments were \$5,000 per year on the principal and interest of 10% over a period of 13 years - you would be paying almost \$92,000 in interest alone. Add to this the original \$115,000 and you come up with a total of \$207,000 - which seems a high price to pay for the original "free" grant.

The Library budget for 1985 calls for an operating expense of .307 per \$100 assessment. If the addition is made the projected 14¢ for payment and interest on the bond and a conservative estimate of 10¢ additional for up-keep, utilities and additional equipment and insurance and other incidental expenses would make all taxpayers bill increase to .547¢ or an 80% increase over present taxes and thereafter bonds are paid off you would still have a 30% increase in taxes for operating expenses.

At the present time the Akron Library is the most expensive to operate in Fulton County. Kewanna Library operates on 24¢ and Fulton County Library is operating on .212¢. With 2613 residents in Henry Township according to the 1982 Census we don't need another added tax burden.

The Fulton County Library served all of Fulton County with the exception of Union and Henry Townships for years and total space was not much different than what we already have - so for 2613 residents why do we need

more space? Why should taxpayers be subjected for years to additional taxes to satisfy the whim of a few?

No one is against a ramp to serve the handicapped for around \$10,000, but \$115,000 is way out of line. Also town residents can look forward in the future to a \$80,000 to \$100,000 Fire Truck. The old one is a 1967 model and if the State says you buy a new one, you buy a new one.

The Akron Library has no debt - let's keep it that way.

Critical point reached for major drainage system in Akron area

Dear Editor:

Of vital interest to your readers in the Akron community affected and concerned with health, education, and general welfare, the failure of a major drainage system has reached the critical point. This drainage identified as Bucher Ditch, Arm 3, commonly known as the "High School Ditch" is an over-fifty year old title, the only drainage of the school system in Akron, running westwardly across our 'Possum Hollow' farm through Marie and Lamoin Hand farm into the big open Bucher Ditch, has broken down.

Not only does this public ditch serve the high school, but is the principal drainage of the land through the area it runs. In the last breakdown, apparently west of the town's sewage lagoon road, the water has backed up at the southeast corner of the lagoon into a five acre lake, with 2' of water measured on the only road into the lagoon at the last heavy rain fall. Should additional breakdown in the ditch take place or should the only pressure sewage line running from the town's sewage lift station down by State Road 14 north to the lagoon, which is under water most of the time, get in trouble, it could interrupt the sewage disposal, necessitat-

ing the State Health Department, along with the city, to take quick emergency action. Should such a failure also disrupt the school drainage, the same kind of action could result in a costly emergency move by an outside agency which would cost much, much more than a repair in the county commissioners are now considering and who are awaiting a petition now being circulated to the major landowners affected requesting a prompt public hearing on the matter. This public drainage system was set up several years ago with those having land or property drainage into the ditch paying a yearly ditch maintenance fund which accumulates. Small repairs can be made without a petition or public hearing, but larger repairs must legally go through the petition and hearing process.

Those concerned in the matter should drive back and take a look at this water build-up and if additional information is desired, phone the County Surveyor, Mr. Bob Daake, or Everett Smith, president of the Fulton County Commissioners, both of whom are familiar in detail with this drainage breakdown.

Sincerely,

PIKE LUMBER CO., INC.

IF THE POWER GOES OFF, WHAT SHOULD YOU DO?

Americans enjoy the most dependable electric service in the world. Power failures don't happen often...and they usually don't last long.

But major windstorms and tornadoes can knock out power lines and cause extended outages. The U.S. Weather Bureau says that more tornadoes in Indiana occur in April than any other month. Since PSI operates more than 25,000 miles of power lines, outages can happen.

If your power should go off, this is what to do:

- 1 Check to see if your neighbor's power is off, too. If they have lights and you don't, check to see if any of your fuses has blown or a circuit breaker has tripped.
- 2 If power is off in your entire neighborhood, call your utility at the phone number listed in your directory. Report the outage and give specific information about your location or address.
- 3 Turn off the TV and other appliances until power is restored. Keep your freezer and refrigerator closed as much as possible. (Food in a freezer will keep for at least 24 hours without power.)

A safety tip for everyone: Stay away from a downed power line. Report it to your utility or to the local police or sheriff. If possible, warn others to keep clear until help arrives.

Mentone Chamber hold Easter egg hunt

SEVERAL DOZEN LITTLE YOUNGSTERS hunted several dozen eggs last Saturday during the Mentone Chamber of Commerce Easter egg hunt held at Mentzer Park. All the little ones were looking for the golden prize eggs, but only four were "hidden" in each age group.

Manwaring Leghorn Farms donated the eggs and Chamber members colored them and helped the Easter Bunny hide them early Saturday morning in preparation for the hunt. Winners in the 2 - 4 age group were Jesse Bales, Kyle Thompson of Mentone, Brad Miller of Mentone and the fourth pictured is -- yep, it's Jay again, not a youngster any longer, but a member of the Mentone Chamber.

(News photo)

IN THE 4 - 6 AGE GROUP winning prizes are Cori Harding, Palestine, Kevin Miller, Mentone, Jannell Gross, Mentone and Patricia Lozano, Mentone. Another Chamber member, Darrell King is in back.

(News photo)

Vikings lose to Culver, defeat Northfield

The Vikings came home defeated in their match against the Culver Cavalier baseball team last Tuesday at Culver, 6-4. In Culver's season opener, a three run spurt in the fifth inning proved Valley's defeat. Valley came back in the sixth inning to load the bases, but only scored one run.

Jeff Feldman led Valley

with two hits and two RBI's. Rob Dunnuck took the loss for Valley. Culver's Ryan Stevens picked up the victory by pitching seven innings and giving up four runs on seven hits with four walks and nine strikeouts.

Northfield vs. Valley

In last Wednesday's contest between Valley and Northfield, the Viking squad romped over visiting Northfield. The game was stopped due to darkness in the top of the fifth.

The Valley team during the fourth inning, batted

around twice and scored 17 runs. Normally, a completed game would be one that ended after five innings, or with the home team leading after 4½ innings, but both sides and the umpires agreed to end the game early after the batters and fielders complained of not seeing the baseball in the dark. Northfield began the fifth inning and had scored twice when the game was called for darkness.

Kraig Warren got the win for Valley.

Girls tennis team wins first

The Tippecanoe Valley girls tennis team won a 3-2 victory over the Manchester team last Wednesday at Manchester. Victories in the No. 3 singles and the No. 1 and No. 2 doubles brought Valley their opening win.

Valley's Sue Lafferty de-

feated Kim Long of Manchester at No. 3 singles 8-6, 4-6, and 7-5. The doubles team of Amy Jamison and Mindy Sparrow defeated Becky Reiss and Kristi Parker at No. 1 doubles 6-1, 6-4 and the team of Lisa Kindig and Angie Harsh beat Carla Long and Kathy Felgar 6-1 6-3. Manchester's vic-

tories came in the No. 1 and No. 2 singles. Amy Fahrnow defeated Allison Clampitt 5-7, 7-6, and 6-0 and Michelle Hankee beat Wendy Sparrow 3-6, 6-3, 7-5. Valley's JV team also won 3-1 with Leslie Miller, Leslie VanDeWater and Julie Steininger winning single matches.

Indiana celebrates libraries during National Library Week April 14-20

"Libraries...for a Nation of Readers" is the theme for Indiana's 1985 observance of National Library Week, April 14 - 20, sponsored by the Indiana Library and Library Trustee Association (ILA/ILTA).

All 239 public libraries in the state, in addition to many schools and academic libraries, have been supplied with posters and theme-oriented materials and most are planning special events to mark the week-long celebration. Others may use the American Library Association (ALA) theme, "A Nation of Readers," or create local slogans. The Indiana poster features a bright red map of the state with the national library symbol inside.

"Libraries are the cornerstone of information dissemination in Indiana today," said ILA/ILTA Executive Director Joyce M. Martello. "With our theme, 'Libraries...for a Nation of Readers,' we recognize those libraries for the tremendous public service they offer our citizens. Virtually every kind of information in every subject area is available at little or no cost to individuals, businesses, and organizations through libraries. This kind of service and information is not available anywhere else."

Among services and materials offered through Indiana libraries are access to major newspapers and corporate magazines, government publications, statistics, telephone directories, videotapes, cassettes, computers, posters and art prints, records, films, and programs on practical and recreational topics, in addition to books.

More than 31½ million items were circulated in 1983 to the 5.2 million Hoosiers living in library districts, an average of six items per person. "Libraries are at the heart of our information society," said Martello, "and they are essential to lifelong learning and quality of life in our communities."

National Library Week was first celebrated in 1958 under direction of the National Book Committee, organized by the ALA and the American Book Publishers Council. Americans were urged to "Wake Up and Read!" and President Dwight D. Eisenhower issued a proclamation calling for the "fullest participation" by citizens. Subsequent themes also

focused on reading.

The committee disbanded in 1974 but the celebration continued under direction of the ALA, who began to emphasize libraries and library services through their themes and graphics. Posters issued in recent years have included Miss Piggy, Yoda, Annie, and Snoopy. New for 1985 are posters featuring Bill Cosby, Bette Midler, Sting, and Mikhail Baryshnikov.

Many state associations produce their own library week materials and themes, and public libraries have the option of using these, the ALA materials, or those produced by independent companies. Most libraries mark this week with at least one special event, joining thousands of libraries across the country in recognition of the unique role played by all kinds of libraries.

Indiana Library Association, organized in 1891, includes more than 1,200 librarians and libraries. ILTA, founded in 1901, includes trustees of public library boards.

Church group tours Illinois

A group of 17 adults and three children from the Church of the Brethren journeyed to Illinois recently.

The first stop was a visit at the Bethany Hospital in Chicago. Following a tour of the hospital, an invitation was extended to eat the noon meal at the facility. The greatest impression to us was that the hospital admits any patient, regardless of their ability to pay for their hospital stay. The hospital was located in the poorer section of Chicago in order to reach but and help the needy. The Akron church contributes to the Bethany Hospital.

The next stop was at the Brethren Press at Elgin. Ralph McFadden, a former pastor of the Akron Church, gave a tour of the facility, and Mrs. McFadden opened the gift shop for our convenience.

Last was a tour of the Bethany Seminary at Oak Brook. Several of our former pastors attended classes there.

Those attending the trip were Ralph and Arvella Eiler, Betty Gearhart, Joe and Gladys Kroft, Gary and Maury Laird, Clarence and Layon Mark, Pastor Ingrid Rogers and Angela, Vern and Erda Royer, Ralph and Edna Mae Shewman, Eloyd, Norma, and Danelle Weaver, and Tom and Jill Weaver. Clarence Mark and Ralph Shewman provided the vans for the trip.

The best friends are those who seek nothing.

Club program on Argentina

Argentina was the topic April 4 when Akron Women's Club heard Mr. and Mrs. Fredrico Pederson of Rochester. Mrs. Pederson is the former Linda Lukens, daughter of club member, Mary Lukens.

Describing the recent changes in the South American country such as the election of a president after years of dictatorship, Mr. Pederson said his native country was like a teenager with a new beginning ahead.

While affirming a love of and a hope for his country, Pederson charmed the Akron women by saying that he had lived many places but especially like the mid-west because of the people, the small towns, and the values found here. Mrs. Pederson echoed the sentiments. The couple obviously sees much that is positive in both the U.S. and Argentine cultures. This is evidenced by the fact that they and their children are bi-lingual.

Greeting the club in Spanish, Mrs. Pederson wore black 'gaucho' pants and boots, with a red blouse and silver belt. She shared several photo albums and artifacts to illustrate her program and played tapes of the Tango and other folk music.

'Though Argentina's language is Spanish', Mrs. Pederson stated, 'there is much European influence throughout the country's history. A huge British influence was apparent at the time of the Falkland Islands incident.

English is the second language of Argentinians. And, Argentina is a real bargain for the tourist right now,' she said. Mrs. Lukens had made several trips to Buenos Aires during the eight years the Pedersons lived there. She assisted during the question period, relating amusing incidents.

Bernice Bowen was at the piano for the Invocation Song. Thelma Barnett gave Easter devotions. Angela Wood, TVS senior, had special music and spoke of her experiences at Hoosier Girls State and Indiana Junior Miss.

Call to Indiana Federation of Clubs convention April 21-23 was given. Joanna Van Scoy reported on the Fulton County convention and Evelyn Meredith and Esther Smith reported a successful food sale at the Akron Lions fish fry. Helen Day gave the Community Improvement Committee report. Alma Haupt had the treasurer's report.

Hostesses, Mrs. Barnett, Violet Gagnon and Edith Sheetz served cake and coffee. May luncheon will be Thursday, the second.

Never Borrow Sorrow From Tomorrow

Deal only with the present never stop into tomorrow.

For God ask us just to trust Him and to never borrow sorrow.

For the future is not ours to know and it may never be.

So let us live and give our best and give it lavishly.

For to meet tomorrows troubles before they are even ours.

Is to anticipate the Saviour and to doubt His all wise powers.

So let us be content to solve our problems one by one.

Asking nothing of tomorrow except "Thy Will be done."

"Mother And I"

When I was but a little girl,
and sat on Mothers knee;
I never realized back then -
how much she meant to me.
But now I'm getting older and have children of my own;
And look back or'e the years gone by;
And know, Mothers love made our home.
She always was so loving, and so kind
in everyway;
And I thank my Precious Savior for
her love, day after day.
And I know some day in glory,
Up there in that fair land
I'll be with my "Dear Mother."
Side by side, and hand in hand.

Grants explained to Akron Town Board

Fieldman for the Indiana Department of Commerce, Frank Ryan attended the monthly meeting of the Akron Town Board last week to explain the state's grants for community improvement projects and answer questions about the availability of a grant for a building project.

Grants not available

Ryan explained to town board members Jack Miller, Jerry Hudson and Richard Drudge last Tuesday that his department could not help with a government grant to build a town hall, fire department and community center building combined since no HUD funds can be used for government offices. However, he explained, a CDBG grant could be used to build a fire station.

Ryan went on to explain to board members and several town patrons attending the meeting that he could work with the town to obtain a grant for an industrial park, working along with the county EDC to get matching funds.

President of the Board Jack Miller told those attending that he proposed setting up an economic development committee composed of one member of the town board, one member of the Chamber of Commerce, a banker and two town people. They will represent the town board in working with the Rochester City EDC, the Fulton County EDC, and Ryan.

Ryan outlined some steps for the board to take if they want to undertake a industrial park project; first setting up the committee then working along with the above mentioned committees to get matching funds.

Mr. Ryan noted that for light industry, the minimum acreage would be between 22 to 30 acres of land and said that there are many small industries who would be interested in locating in a small town, noting that he had helped locate Wen Products in Akron.

He said there are several different programs that would generate a sufficient amount of money to help get water, sewer and roads to different small industries - one at a time. He gave the board two different ways to go to get an industrial park started, the first being - one industry at a time - the other he said was a bold move and that was to go after a Community Improvement Program grant, either way, he noted, the town would have to come up with at least 30% of the cost, the grants only covering about 70% of the cost for these services.

Patron Fenimore told Ryan that the town has 20-22 acres to develop which would handle one or two small plants which is probably all that Akron could handle with it's water and sewer system.

Petition filed

A petition to vacate two streets and one alley in the Town of Akron was filed with the Town Board by Pike Lumber Company at the request of owners Howard and Helen Utter during the meeting.

The Utters and attorney Bob Peterson explained to the board the reason for this need to vacate and the legalities needed to do the vacating. Utter explained the reason for the request as the need to expand their production, putting in some manufacturing equipment which would mean an additional 25 employees added over the next twelve months. In order to do this, Pike Lumber needs clear title to the land so they can build.

The three parcels of land which is needed is on Main Street and Cedar Street and an alley all in the southeast part of the town, all of which is abutted by property already owned by Pike Lumber Co. Attorney Peterson said because of this, there should be no problem or question of the vacation of the

Bike-a-thon for C.F. at Akron

The Cystic Fibrosis Foundation will stage a BIKEATHON starting at 9 a.m. on May 11, 1985 at Freezer Fresh, Akron, to raise money to help conquer cystic fibrosis.

Chairperson of the event will be the Rev. Terry Canfield, who will be on hand to welcome participants and award prizes. Prizes will be awarded on May 24, 1985, 2 p.m. at the Awards Celebration. Location to be announced later.

Cystic Fibrosis is the country's number one inherited killer of children and young adults. Every day approximately five children are born with it; every day an average of three die of it. The disease is inherited and incurable. Medical care has quadrupled the life expectancy of CF victims in the past 15 years. Now, about half of today's victims live to be 21.

These giant strides of progress are due to earlier diagnosis and improved methods of treatment, which are developed from a better

understanding of the disease. The Rev. Canfield, chairperson of the event, urges both children and adults to either participate or sponsor a participant in the Akron BIKEATHON.

"Just come to Cooksey Freezer Fresh or phone 893-4121 or 893-7064 to get sponsor sheets," said the Rev. Canfield. The idea, of course, is to get as many sponsors as possible. It's a great way to have fun, and raise money for an important cause.

The Rev. Canfield said that donated prizes will be awarded for Most Sponsors

and Most Miles. T-shirts will be given to participants raising \$30 or more. Registration will begin at 8:30 a.m. at Cooksey Freezer Fresh, Akron.

POOL SCHEDULE

The swimming pool at Tippecanoe Valley High School will be open each Sunday from 2 - 3:30 p.m. and each Wednesday from 7 - 8:30 p.m. unless special events are scheduled.

Sometimes long after the sun has gone,

As we watch at close of day,

The sky is bright with a rosy light,

Mid the evening shadows gray,

Long after a beautiful life has gone

Our lives are bright with a lingering light,

For a true life cannot die,

Let that strong love that bound you close
Still bind you closer now,

And may it bring you peace to know

Love heals the wound somehow,

For those who love so dearly

Are never far apart

And clear enough it is to see

Love heals the troubled heart,

Let loved ones go,

But hold them close

And find your hope and strength

In knowledge that love never fails

And brings you peace at length,

In memory of Zaida White who left us on April 17, 1983 and missed by her husband Charles White and Mr. and Mrs. James Ellison and Charles.

land.

The board set the date for the hearing on Tuesday, May 7 at the town offices. A legal advertisement for the hearing appears in this issue of **The News**.

Resignation

President Miller read to the people attending the meeting and other board members the resignation of Town Marshall James Spangle which will be effective May 2nd. Spangle gave his reason for leaving the department as personal. A motion to accept the resignation was made by Richard Drudge, and carried unanimously.

During other business:

**the board decided to have well No. 3 inspected by the Layne-Northern Co., of Mishawaka and get an estimate on the cost of repairs needed. It was noted that the cost of repair on the pump in well No. 4 at the park area was just completed by that same company at the cost of \$3,559.97.

**President Miller told everyone attending that water and sewage collections had reached the 61.6% mark as of March 20. The amount now in arrears is \$2399 as opposed to the total of \$6200 which was noted previously.

**Miller said there had been complaints about the burned out Akron Feed and Grain Co. Patron Bob Allen asked if the owner could not be requested to fence the premises to keep children off the property. A motion was passed by the board that they contact the owner and ask him to barricade the premises or clean it up.

**Patron Leon Kindig told board members he would not be available to do the mowing for the town in the park area or at the cemetery. The board decided to publish a notice for taking applications for the job, deciding that town employees would have time to mow the cemetery.

**board members discussed a proposal from Charles Miller for doing the testing of waste water and care of the sewer system. Miller offered to do the service for \$220 per month with a \$15 per hour call-in rate and charge of \$39 for the testing. The present employee is Val Duggins who works 25 hours each week for \$600 per month. President Miller noted that he had asked Charles to give a quote on 25 hours per week and he had not done this. The board made the decision to stay with Duggins at the time. A motion was made to this effect and passed unanimously.

**the board heard Mike Stephen ask permission to use the lines in Akron to bury lines for cablevision. He said the cable is buried 18-24 inches deep and will not interrupt phone lines or water lines. Miller said they would check with their lawyer to see if Stephen could do this, as phone, electric and gas lines are public utilities and his is a private utility. He was told that he would have to get the consent of the property owners for easement along property lines.

**heard patron Howard VanScoy's concern about police protection since Marshall Spangle is resigning. President Miller told him the board was open to suggestion. VanScoy asked if the board had anyone in mind for the position and what procedure would be used to hire a Marshall. Miller said he had a lot of people comment that the board should hire one Marshall and a night watchman, then told VanScoy that the board would decide in executive session which route to take.

**heard Fire Chief George Stephen ask the board about painting the fire hydrants in town. Miller told him they had a program for this spring to resal and repaint, but might have to have some help from the volunteer firemen on the painting. He noted that one hydrant would be replaced this summer.

Ask closure of alley

Terry Randall, owner of Viking Foods, approached the board to ask if they would consider closing the south end of the alley, between his place of business and the fire station because of the danger to pedestrians walking along the sidewalk. He noted several times the people had come close to being hit by three vehicles coming down the alley. He said that it is no longer wide enough for thru traffic and anyone driving down the alley is a danger to the children playing or walking in the area including pedestrians.

Miller said that perhaps the South end of the alley could be barricaded so thru traffic would not be permitted, but the town would have to go through the legal process to close that portion.

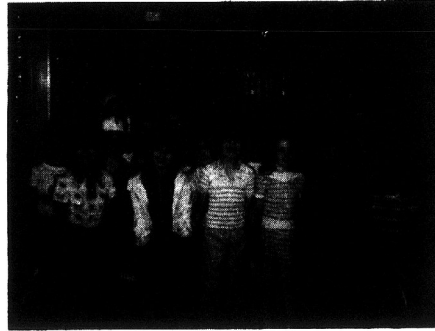

Randall also asked the board's help to solve a problem he has with the delivery trucks backing down the alley to his store, as they turn at the Walnut St. entrance is so narrow, they sometimes have to drive, or will back into the yards bordering the alley. Miller told him they would think on it and try to find a solution to the problem, maybe asking the property owners to sell a portion of their property along the alleyway to widen it.

Next meeting

The next meeting of the board will be Tuesday, May 21 at 7 p.m. in the town offices.

National Consumers Week April 21 - April 27

EDITORS NOTE

As National Consumers Week is now being observed, I thought the following news release from the Attorney General's office in Indianapolis would be of interest to many of our readers. You will find at the end of the article a phone number to call and an address you may write if you have any problems which their office may help you with.

Attorney General Linley Pearson said auto complaints replaced mail order and door to door sales as the number one problem Hoosiers had last year.

Pearson also reported the Consumer Protection Division negotiated or returned almost \$700,000 in refunds to Hoosiers in 1984.

The consumer division's preliminary figures for 1984 show that \$625,756 in mediated settlements for Hoosiers were negotiated by the division.

Another \$66,000 was collected through court judgments and consent decrees, with another \$161,000 in judgments pending collection.

Pearson said auto sales and service provided 16 percent of the 3,100 written complaints filed with the consumer division last year. More than 500 Hoosiers complained about new or used car sales or repairs on their car.

Mail Order problems provided more than 220 written complaints in 1984, while home improvement and remodeling and real estate problems also generated more than 200 complaints to

the office.

Pearson said television and radio repair problems were fifth on the list with more than 150 complaints in 1984, with complaints about household appliances ranking sixth, vacation plans and travel agents were seventh, plumbing complaints brought the eighth highest number, heating and air conditioning complaints ranked ninth and furniture and magazine sales in a virtual tie for the tenth highest number of complaints in 1984.

The attorney general said there were more complaints in 1984 than in previous years on health spas, mobile homes, and recreational vehicles, probably due to more public awareness.

Pearson said the number of complaints on a traditional problem, door to door sales, dropped dramatically in 1984, with only eight written complaints filed with the consumer division.

Pearson credited media coverage of problems associated with door to door sales, home repair and other areas with cutting down the number of problems and providing consumers more information on which to make a decision.

Legislation allowing 72 hours to cancel agreements following an at-home sale also helped stop many problems.

The attorney general's office also dealt with a record number of complaints and filed charges against doctors, nurses, dentists, pharmacists, and chiropractors.

Doctors generated 169

complaints which were investigated by Pearson's office; dentists had 70 complaints lodged against them; 39 complaints were filed against registered and licensed practical nurses; optometrists and pharmacists had more than 35 complaints filed against them; psychologists 32 complaints in 1984; and chiropractors with 14 complaints.

Another profession which generated a high number of complaints were beauty culturists (beauty operators) with 90 written complaints in 1984; auctioneers with 32; and hearing aid salesmen generated 23 complaints last year.

A new category last year, professional fundraisers, had 9 complaints filed. Pearson's office has already investigated a number of professional fundraisers this year, and with new legislation on disclosure and registration requirements, more complaints are expected.

Pearson said people who want to complain should contact his office by telephone at 1-800-382-5516 or write Attorney General Linley Pearson, Consumer Protection Division, Room 215, Statehouse, Indianapolis, Indiana 46204.

Pearson said consumers should make sure they keep copies of any contracts or documents prepared during the problem transaction and include copies of those documents when filing a written complaint with his office.

Passion and defiance
seldom solve a problem.

Donkey basketball at Akron gym

Guess who won the tug-o-war during the donkey basketball game held Sunday afternoon in Akron School gym between the Akron Merchants and some of the faculty from TVSC schools. The faculty won the game 34-30, but there was a little "anything goes" with some double dunking by DuBois and long-long passes between players and rides. The Akron 4th of July Committee sponsored the game to raise money for the 4th in Akron. (News photo)

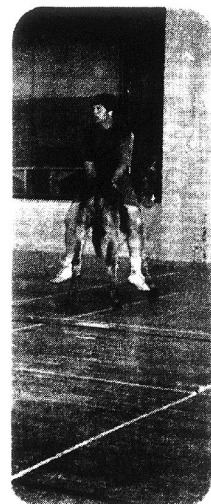

This is typical Harvey Arthur - anyone would know him from this side.

Pioneer Days at Akron School

JOSH MANNS HELPS SUE CLARK AND BETTY BOWEN make funnel cakes for classmates. During the day the students ate a lunch of pancakes and sausage covered with syrup along with apple butter which students all had a hand in making. (News photo)

The Akron 4th graders enjoyed holding Pioneer Day last week to get the feel of the "Good Ole Days" - a special treat for fourth grade students for the last several years. The program for the day included working in their classrooms - pulling taffy, dipping candles, making quill pens and writing on hornbooks and making old fashioned flapjacks called funnel cakes. During the day students observed Frank Miller shoe a horse, attended classrooms at Prill School and had a peek at a Pennsylvania rifle and antique guns owned by Mr. Byron Tinkey, who demonstrated to students how pioneers made bullets and how they used powder horns. Mrs. Shirley Willard of the Historical Society in Fulton County attended class in the afternoon and gave a program on the "Trail of Courage."

To Jog Or Not To Jog

Those who should know, say get out and walk and that's what I try to do. When weather is nice, I take their advice and step off a mile or two. But then comes the rain and I'm grounded again, and forced to stay inside. I must turn my back on that tempting snack; why not go out for a ride? At last! A plan I have tried. I'm taking my walks inside and beginning to feel very smug. The exercise is great, but sad to relate I've worn a path in the rug!

The Akron Keen-Agers honored Mary Mitterling as volunteer of the month. Mary has donated many hours and food to the program. At one time she also managed a nutrition site in another state. We wish her good health and happiness.

I want to thank Zella Bowman for taking my place during vacation. To all my volunteers who helped her in

any way for it is through your efforts this program is working.

Senior citizens come join us for a well-balanced meal and fellowship. Please call 893-7204 the day before, between the hours of 9 a.m. - 12:30 p.m.

Scheduled menus for the week of April 29 through May 3 are:

Monday - Fried chicken, mashed potatoes with gravy, carrots, tossed salad, brown bread, milk.

Wednesday - Beef stew, cole slaw, pineapple slices, biscuit, milk.

Thursday - Salisbury steak, peas, tossed salad, brown bread, butterscotch pudding, milk.

We were disappointed that the T.V.H.S. Drama Club didn't come on Monday.

The April birthday party was attended by Esther Sarber, Annabel Tucker, Francis Olson, Ruth Cullum, Fred Patcha, Bernice Jones, Betty Weiland, Dorothy Enders, Garnet Latimer and Arlene Jefferies.

Eileen Koenig of Etna Green and her daughter are in charge of the April party. Eileen read several appropriate poems then a big knock came on the door and Joy, the Clown, came in with a bag of goodies, stories, poems, songs, etc. This was real good as she did have a message of joy for us. This had to be one of our nicer parties. We do thank Eileen and Cara Lyn Tucker.

We were happy to welcome the Denton Abbeys back after a winter in southern Texas.

Friday evening, the band made it's first appearance since last winter. We're doing two Mother's Day programs, two alumni shows and two others. The band also practiced on Friday.
