Pages for Assembly

Pages are volunteers for one day during the session of the Indiana General Assembly. They are excused from school without being counted absent and are awarded a certification of the Indiana General Assembly. cate signed by the Co-Speakers of the House and their sponsoring legislator to commemorate the visit.

Helping deliver messages for the representatives, who must remain on the House floor for debate and vote, and performing a variety of clerical duties for legislative staff are typical Page responsibilities

The experience gives students a chance to observe the General Assembly in action, to meet and work for their elected officials and to tour the State House.

The Best Of **Both Worlds**

After a time at home with a baby and a small boy, I know the feeling of doing housework and having the evening with the family. I also remember having days for special things and having a house that was cleaned up all at the same time. Who needed to be liberated and who on earth would want to work outside the home and give up being organized? Not me. I was there when the boys were sick, when they wanted friends over to visit during the day, there to make cookies in the afternoon and able to make pies from scratch. Some of the things I'd love to do now, but haven't time for. Like I said, who would want to give this up?

For some reason I'm not fully aware of, the majority of women have begun working outside the home. Many women enjoy getting to know new people and the challenge of something different. They also enjoy having time to themselves, which doesn't always happen when they give time to work, children, husbands, family and friends. This leads to mixed feelings.

How do we handle the situation that so many of us are faced with? We become realistic. As times change it becomes necessary for some to work outside the home. Concentrate on the positive points of working giving it your all while you are there...and then leave it behind.

When home, be thankful to be there. Trying to fit chores and family all together is a difficult task and if time can't be found for the family AND housework, then the choice has to be yours. Here is where the rub comes in for many of us. Having once been the organized homemaker and having a mother who spent most of her time at home as a wife and mother, I still think my home should be spotless. I no longer have the flowers in the yard like I wish for, instead I have a neat, trimmed yard which is good enough for anyone. My home is presentable with the most urgent chores being done, sometimes by everyone, but being done nonetheless. Instead of time alone, I enjoy ironing in the bedroom with Collin and his friends setting on the bed telling about their day or doing dishes with Chris working on the bar updating me on his projects. So the bed is wrinkled and the bar cluttered, these are all signs of a busy family.

It still would be nice to have a perfect house, but instead I have an imperfect but happy home. In my book, there's no comparison. Afterall, I'll have time to plant flowers later, more important things are growing now. And, there will be time later for an immaculate house, in fact, I may even wish the clutter back. I don't really want to spread that valuable time I have on such trivial things and risk missing out on the lives of those around me. Afterall, their lives make up my life.

Would I like to stay home? Certainly. Would I like to continue working? Certainly. Confusing, isn't it? Not really. I'm amazed at the working world and learn more about people each day. I'm equally amazed at the changes in my own home. I have learned to laugh at the shelf that has "test dust" inscribed in the dust that wasn't removed and have learned that instead I did something much more important......I spent time with my family.

Having the opportunity to work outside the home enjoying the challenge as well as being a mother who branches out to include time for her family, my final goal is to have time for myself somewhere along the line. I've finally decided that everything can't be done at the same time and having my priorities straight, have made pace with myself. I can honestly say, I have the best of both worlds.

The evening sessions of the recent Akron W.C.T.U. Spring Institute was a very enjoy The evening sessions of the recent Akron W.C.T.U. Spring Institute was a very enjoyable affair. The first part included a piano solo by Cleo Shafer; devotions by Rev. D. L. Slaybaugh based on the second chapter of Titus; a trombone and trumpet duet by the Colbert brothers; and a vocal duet by D. L. Slaybaugh and Harold Conrad. The surprise feature came in the second part of the program. It was a This Is Your Life presentation featuring the Akron Women's Christian Temperance Union as the "honored guest." Velma Bright played the role of Ralph Edwards on the TV program. The following is a sketch of the interesting facts brought out: Our Akron WCTU organization had its beginning across the March Mer. She seems to have been the first president. She must have been a very enthusiastic and civic minded person as she was one of the persons who led the drive to establish a library in Akron and was the first president of the Library Board, she had a portrait of Frances Willard, founder of the National WCTU, hung on the wall of the library. You will also find a portrait of Mrs. Patterson there. No complete records can be found for the period previous to and during

the Prohibition era (1918-1932). A partial list of Charter members has been secured as follows: Mesdames Mark Patterson, W. A. Patterson, W. C. Miller, W. C. Hosman, James Curtis, Ina Brundige, Eli Zartman, Milo Cutshall, G. E. Garwood, W.N. Richter, Dora Bright and Hattie and Debbie Strong. Mrs. W. A. Children were taught to respect the little whit bow as through it were a diamond. Soon after the repeal of the Prohibition law in 1932 there was a re-organization of the Akron WCTU with Mabel Rufe president; Ana McHatton, sccretary and Edella Kreamer treasurer. Officers in 1934-35 were Alice Hand, President; Minnie Helvey, secretary and Blanch Roderick, treasurer. Presidents during the 1940's were Ethel Barnes, Thelma Morrett, Cleo Shafer, Oliver Swick and Blanch Roderick. In 1949 Ola Ballenger, was elected president and served for 9 years. Marie Bright was elected president in 1958. Sometime in the 1930's a Loyal Temperance Legion was organized by Marie Hand. She was followed by Maude Troutman and Doris Arter as leaders, Mrs. Troutman recalls that she had 40 members. A few of them were June Slaybaugh, Patricia Troutman, Shirley Howard, Velma Bright and John and Quentin Hand. Other leaders since then have been Beulah Pratt and Ruth Kroft. HELPFUL ADVICE COMES FROM FAITH AND A POPULAR SONG

As you probably remember, there was a song last fall which became an instant success, and not entirely because it was catchy and cleverly written. What really made it such a tremendous hit was the good advice it contained, simply stated in four words and repeated throughout. It told us not to worry about our problems, giving examples of some of them, but instead to "be happy." Of course, many of our woes require some action on our part to solve them, but just showing our anxiety will only upset those around us. Perhaps the best way to follow the song's advice is to attend our House of Worship and trust the Lord to provide the answers. Worry will not solve any problem, and we should be grateful to that song writer for reminding us of this fact.

I had the topics for this week's article narrowed down to junior leaders or the positive aspects of our youth. It took the fantastic junior leader meeting on March 20th for me to realize that the Kosciusko County 4-H Junior Leaders display the positive aspects of our youth. The positive aspects I see in our junior leaders are their willingness to get involved, try new things, accept responsibility and learn

Junior leaders get involved in their local 4-H clubs and the county 4-H program. In their local 4-H clubs, junior leaders help plan the club's yearly program, serve as officers and on committees, assist the leaders on club activities and assist younger 4-H members on their 4-H work. In the county 4-H program, junior leaders get involved in planning and conducting 4-H Week activities, coordinating the Share-the-Fun, assisting at the 4-H Fish Fry, serving as 4-H camp counselors and assisting at Mini 4-H Day Camps, pre-fair judging, the county fair and County 4-H Achievement Night. Juniors leaders im-prove themselves and our county 4-H program by getting involved.

Getting involved often offers one opportunities to try new things. New ac-tivities that junior leaders are presently developing include a junior leader ex change club, a junior leader pizza/movie night, a county 4-H recreation night, a county 4-H volleyball tournament, an awards program for junior leaders, junior leader big brothers and big sisters and a community service project involving an outdoor education area. The junior leaders will be working cooperatively with individuals from Manchester College on further development of an outdoor education area in Monroe Township. I am very excited about the positive direction that the junior leaders are headed by developing new activities in their organization.

In order for junior leaders to take responsibility for their activities, junior standing committees have been established.

Yes, 4-H is a nonformal education program to help young people learn. Junior leaders allows young people to learn from their involvement in local and county 4-H activities. Another important way for junior leaders to learn is from guest speakers at our monthly business meetings. A magician spoke at our meeting on March 20th. The magician was very interesting and entertaining and shared some tricks of the trade with us.

I commend the Kosciusko county 4-H Junior Leaders for displaying positive aspects of our youth. I truly appreciate the opportunity to work with this outstanding group of young people.

I encourage each junior leader to be an active member in their organization because in the words of Hugh Prater. "There is a time to let things happen and a time to make things happen.

Make your taxes less taxing

Union Station, Q-95, Indiana Department of Revenue and the Internal Revenue Service are sponsoring "Tax Bash" week April 12th-15th, to benefit the Muscular Dystrophy Association. This is your golden opportunity to get even with the tax man at Union Station.

For your \$1.00 contribution, you will

have the chance to soak a state or federal official in the "dunk tank." An officer will also be on hand to answer your questions and hand out tax forms.

On Saturday, April 15, Q-95 will broadcast live from Union Station. Everyone is invited to stay until the midnight deadline and enjoy the festivities. Make this tax season "less taxing" by

celebrating Tax Bash week while helping a great cause! For more information about Tax Bash, call Union Station's information desk at (317) 266-8740.

Estimated Tax Penalty

Hoosier taxpayers who find themselves owing tax on their return for 1988 should owing tax on their return for 1700 shound be aware of a potential penalty. The Tax Reform Act of 1986 requires payment through withholding or estimated tax payments of a least 90% of the total tax liability or 100% of the previous year's

The Federal income tax system is a "pay as you go" system. Taxpayers who receive income not subject to tax with-holding, or income from which not enough tax is withheld, may need to make estimated tax payments.

There are several conditions under which the penalty may be waived, such as casualty, disaster or taxpayer disability. Waivers will be decided on individual cases from information filed on Form 2210, "Underpayment of Estimated Tax by Individuals and Fiduciaries.

Further information is available in Publication 505. "Tax Withholding and Estimated Tax," which can be ordered by calling the IRS toll free at 1-800-424-

Pork Restaurant of the year

Nominations for the National Pork Restaurant of the Year Award for 1989 are now being taken by the National Pork Producers Council (NPPC). The third annual award will be presented this fall, according to NPPC Foodservice Director Larry Cizek.

Nominees will be chosen on the basis of the quality and originality of their fresh pork entrees, as well as the success and creativity of their merchandising and marketing promotions.

The volume on pork sold is not a determining factor.

Producers, packers, processors, state associations and others are encouraged to

submit nominees for the checkoff-funded award. The competition is open to all U.S. restaurants.

Nominations should be sent by June 30, 1989 to: restaurant of the Year, NPPC, P.O. Box 10383, Des Moines, IA 50306.

The initial winner of the award, in 1987, was Ditka's restaurant in Chicago. The 1988 recipient was the Iowa Machine Shed restaurant in Davenport, IA.

"Pork menuing is increasing at the na-tion's finest Restaurants," Cizek said.
"This annual award is designed to encourage more restaurants to feature pork and to acknowledge publicly those that are doing an excellent job of merchandising pork on their menu

The combined meeting of the W.C.T.U. and L.T.L. will be next Wednesday night, 'April 12 at 7:30 p.m. at the Akron Library basement. The L.T.L. members will put on the program, and the Poster Contest will be given for all three divisions. After the meeting, there will be refreshments served, and the posters will be on display to view. All members, parents, and guests are cordially invited to attend.

Ten free Colorado Spruces

Ten free Colorado blue spruce trees will be given to each person who joins The National Arbor Day Foundation during April, 1989.

The free trees are part of the nonprofit Foundation's effort to encourage tree planting throughout America.
"Colorado blue spruces were selected

for this campaign because of their many uses in the home landscape," John Rosenow, the Foundation's executive director, said. "They lend beauty to their surroundings with their silver blue-green

color and compact conical shape. They can be used as individual ornaments, an energy-saving windbreak, privacy screen, or as living Christmas trees

The trees will be shipped postpaid in April or May with enclosed planting instructions. The six to twelve inch trees are guaranteed to grow, or they will be re-placed free of charge.

To become a member of the Foundation and to receive the free trees, send a \$10 membership contribution to Ten Blue Spruces, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by April 30, 1989.

Tax deadline approaches

The Internal Revenue Service has identified a processing problem which could effect your 1985 federal income taxes. If you had taxes withheld from income reported on a Form 1099, you need to verify you were given credit for the withheld taxes. If no credit was allowed, you need to send a claim to IRS by April 15, 1989, stating your name, address, Social Security number, withholding on the original return, correct withholding, and refund due.

Taxpayers must sign and date the form and clearly identify the claim "1985 Tax Withholding" at the top of the page. Copies of Forms 1099 and other withholding documents to substantiate claims should be attached and sent to:

Internal Revenue Service Attn: Problem Resolution Officer Cincinnati, OH 45999

Taxpayers who believe they are eligible for additional credit but do not have copies of their 1985 returns should still file the claim by April 15, 1989. IRS will issue instructions concerning 1986 returns at a later date

The problem was discovered in connection with the document matching program. In this program, the IRS compares the returns taxpayers send to the IRS with information received from third parties, such as Forms W-2, which report wages and Forms 1099, which report income interest, dividends and lump sum pension distributions. The matching program for tax year 1985 is complete and the program for 1986 is in progress. Matching for 1987 returns will begin later this year.

The IRS is changing procedures to be used in the information document matching programs for tax year 1987 and future years to ensure taxpayers will get any refunds which may be due. IRS wants tax-payers to pay only the tax due--no more,

ISTEP writing scores show moderate levels

Results from the second annual ISTEP writing assessment indicate Hoosier students possess moderate levels of writing according to Superintendent o Public Instruction H. Dean Evans.

The writing assessment was administered December 5-7 to approximately 326,500 Indiana students in grades 3, 6, 8, 9 and 11. The writing portion is administered separately from the remainder of the testing program, which was given from March 1-10. Results form the March portion of ISTEP are presently being scored and will be distributed to local school and released to the public later this

On the average, Indiana students obtained scores which ranged form 3.5 to 4.4 on a six-point scale, earning an overall classification of "moderately proficient"

for the second year in a row.

Student writing skill was assessed in two ways, using methods cited by experts as reliable and comprehensive. The first technique, referred to as holistic scoring, determines the overall effectiveness of students' written compositions. The second technique, analytic scoring, examines students' papers in much greater detail, and judges the ability to develop, organize, and focus writing skills proper-

"Although the overall scores from the first two years in writing assessment did not differ meaningfully, this does not necessarily indicate a lack of student im-provement in writing," Evans said. "It is important to note that this year's writing test was given a full three months earlier than last year's test. The effect of the ear lier test date must be taken into account in interpreting the results," he said.

The testing dates were moved to early December by the State Board of Education to allow test results to be received by classroom teachers in time to focus instruction on students' writing needs. The writing test results have no influence or determination of those who qualify for summer school mediation classes

"The advantage of returning test results in time for their immediate use by teachers far outweighs the difficulties created in interpretation of scores from the first to the second year," Evan said. "Future writing assessments are planned for December, which will allow for direct yearly growth comparisons."

Evans reemphasized the importance of

measuring students' abilities to analyze and creatively apply skills and knowledge.

Although such higher order thinking skills are measured by the ISTEP achievements battery, the writing assessment continues to be a unique step in the measure-ments of student ability to formulate and express ideas clearly. It provides informa-tion supplemental to that provided by most statewide, broad-based achievement tests, while providing teachers a valuable tool to assist students in developing important written communication skills. In addition, these scores will help local school officials in their curriculum development and staff development efforts."

Boganwright Retirement

Dick Boganwright will be retiring from the Mentone Post office after 38 years of service, Dick and his wife, Juanita have two children, Teresa Albert and Tim Boganwright.

The employees of the Post office sur-prised Dick with a retirement dinner at Teel's Restaurant in Mentone. Dick said, One of the things I will miss the most is all the people he has met and gotten to know, but he is looking forward to spending more time with his family and working on his farm." Dick's last day will be April 21, so stop in and wish him a happy retirement. (news photo)

Organ donor awareness week

To increase public awareness of the need for organ donations, Organ Donor Awareness Week will be observed nationally from April 23-29, 1989. Locally, the National Kidney Foundation of Indiana and Bob Evans Restaurants are sponsoring the second annual "Gift of Life" 10K run and 5K walk on Saturday, April 22 at a.m. at Fort Benjamin Harrison, Indianapolis.

All proceeds of the run will support programs and services of the National Kidney Foundation of Indiana. The work of this foundation is very important when considering:

* More than 13 million Americans suffer from diseases of the kidney and urinary tract.

* Each year, 80,000 die from these diseases and 100,000 must use some form of dialysis to stay alive.

In Indiana, approximately 200 patients are on a kidney transplant waiting list, yet only 100 will receive a new organ. Statewide, over 2,500 patients are on dialysis.

* Minorities are particularly at risk because of higher rates of high blood pres sure and diabetes which may lead to kidney failure.

* Although minorities comprise 31 per-

cent of all dialysis patients, only 20 percent of minority families agree to donate

* High blood pressure and diabetes, the two major contributing factors to kidney failure, can be treated and prevented.

Local merchants donate books

Akron Concrete Products and Gagnon Chevrolet both of Akron donated books to the Akron 6th grade class. The Way to Go is a book that gives several different stories on how to handle real life situations, in ways that today's young people can relate to.

A new beginning..

Twenty-One And Spinning My Wheels

My brothers each had bikes and were constantly riding up and down the road together or with friends. I didn't ride my bike, I didn't have one, my brothers took me everywhere that was needed on their bikes. So, I never learned to ride a bicycle until much later, at the age of

I often wondered if it was as much fun to pedal the

bike as it was to ride on the cross bar. It was such fun to gain speed and race past the dogs with the wind blowing in my hair. Secretly, I tried a couple of times holding onto the tree in the barnyard trying to balance myself on Tom's bike with no success. Bill's bike was bigger still and I had serious doubts of ever riding a bike alone.

Even my cousins decided to help me learn and bravely propped me onto their bike giving me a push in their driveway. Not having any time in which to practice at their house and no bike at mine, their practice sessions were of little help.

It was only after Chris tried riding his bike with training wheels that the wheels were turning in my head. Embarrassed having no helpful hint to offer, I asked my sister-in-law,

With our kids playing in the yard, Janice rolled a tandem bike into the drive. With Janice on the front and me on the back, we rode down the sloping drive onto the country road. Up and down the road we went. I think back and wonder how on earth she did it!

After several trips, I was encouraged to ride around the house on my nephew's bike with Janice holding me upright all the way. Janice was 27 at the time and must have been in good shape. I was determined and had Janice backing me all the way, literally!

Finally, after braking instructions, I was to try the sloping hill. One small push and I was off. I could hear yelling in the distance and then realized a sapling was in my path! I concentrated so hard on balance I forgot how to steer. Oh well, I stopped.....boy, did I stop!

It got better, though. I ended up purchasing my nephew's bike, took it home and made a concentrated effort to practice on the sidewalk. I don't think too many people realized what was going on except for our landlady and next door neighbors. I was mastering the ride pretty well unless there was a distraction, then I was in trouble.

One afternoon, I was riding past Bob Gray's house on East Walnut where they lived at that time, I suddenly realized people were on their enclosed porch and began veering toward their bushes. As I did so, my toes were scraped on the stones stacked around the bushes making me jerk the handlebars. I instantly landed in their bushes with people leaning over to ask if I was alright. I remember mumbling something about being okay and taking the bike back home in a hurry. I rounded the corner with bloody toes and tearing eyes and hobbled up the steps into the house.

It was worth it. I've put miles and miles on my sister-in-law's old bike with the kids, Doug and by myself. It's great exercise and gives you a chance to strike up a conversation with the kids. I wish I would have had a bike when I was younger and that my folks could have ridden with me, but better late than never.

By the way, the tree lived thru the ordeal as did Janice and I! That's what memories are made of, right?

Children's auditions at Wagon Wheel

Wagon Wheel Theatre will be holding children's auditions for the upcoming summer season on Saturday, May 13, 1989 at 10 A.M.

Only performers between the ages of 5 and 12 years old, who can sing, are invited to try-out for the Artistic Director, Tom Roland.

No appointments will be necessary. Performers should arrive at the Wagon Wheel Theatre at 10:00 A.M. at the stage door with a piano score of their choice. An accompanist will be provided, but will not transpose music into different keys.

Dennis D. Helvey

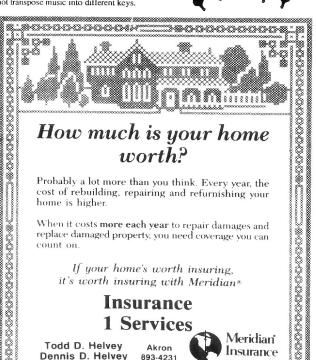

The upcoming show that will be at this time is the: "King & I". Of particular interest, to the director, are roles of Louis, Anna's son and the Prince of Siam, the King's son. These should be two young boys approximately 10-12 years of age.

This is the only audition scheduled for the Warsaw area. The remainder of the casting (including all adult roles) has taken place in Chicago, New York and Los Angeles.

Steve Sheets, son of Mr. and Mrs. Robert Sheets and 15-year old high school sophomore, won top honors at the Regional Science Fair held at Goshen College last week-end. He gained his first prize honor over young scientist from eight counties in northern Indiana and will get to go to the National Contest May 6-9 at Hartford, Conn. Steve's exhibit portrayed the effect of plant hormones on the stimulation of plant growth by using a technique of photomicrography. A year ago Steve won first place honors over 55 entrants at the event which was held at Manchester college. His display that time was on photomicrophy and the effect of gibberellic acid on plant tissues. He received a 10-

volume encyclopedia set for first place.

nd

er,

Ida Byrd died Wednesday, March 29, 1989

Mrs. Rowe served 13 years on the editorial staff of the Warner Press, of which her husband, the late Dr. A. T. Rowe, had been general manager.

Mrs. Rowe was a member of the execu-tive board of the Salvation Army, a board member of the local YWCA and an of-ficer of the Anderson Girl Scout Council.

She was president of the Altrusa Club, the Alcott Club, the Anderson Council of Women and the Madison County Cancer

Mrs. Rowe received the Living Fellowship Award from the Anderson branch of the American Association of University Women, an organization, she served as president and board member.

For her longtime service to the community, the Anderson Exchange Club honored her with the Golden Deeds Award in 1980.

A 1936 graduate of Anderson University, Mrs. Rowe was one of the oldest members of the institution's International Alumni Association. She also received a bachelor of theology degree in 1938.

In 1941, she became one of the first women to receive an honorary degree, the doctor of letters, from Anderson University. Later, the university awarded her its Distinguished Alumni Award. In addition, she earned a master's degree from Northwestern University in 1941.

The Anderson University School of Theology awards a scholarship in her name, and the seminary's Byrd Memorial Library is named in honor of her father, the late G.M. Byrd, and brother, the late Wendell Forest Byrd.

"Ida Byrd Rowe was an enormous influence for good in this community, at Anderson University and across the nation," said Dr. Robert Nicholson, president of Anderson University. "She was an excellent teacher, a skilled writer and editor, and a committed church woman. We will all miss her.

Active in the Church of God, Mrs. Rowe served as a pastor, Sunday school teacher, youth leader, convention speaker, conference leader and editor of children's and youth materials.

She was a member of Park Place Church of God, where she served on the building committee and the board of

Mrs. Rowe was a member of the national founding committee of the Youth Fellowship of the Church of God and was chairman of the committee for Student Scholarships of the church's Women's Missionary Society.

Mrs. Rowe's commitment to young people had a purpose, she said in a 1980 interview. "The thing I aimed at most was to point those young people in a direction, so their lives wouldn't be wasted," she said. "I was eager to get them started on a higher level of living - living for others. Seeing a lot of them going on into ministry or missionary work has made me feel I've had some share in their success.

Survivors include a sister, Mabel DeArment and a brother, Dr. Cecil Byrd. Ida Byrd Rowe lived in Akron from 1920 to 1923.

FAITH REMINDS US THAT WEALTH **ONLY RAISES OUR TAXES**

Since money was invented by Those folks of long ago, We've often seemed to magnify The need for earning "dough." It's handy to a great extent To cure financial ills, As well as for the food and rent, And paying doctor bills. Yet some of us will break our backs To seek excessive wealth. Which only brings a higher tax And undermines our health. It's time we let our faith explain The best of life's reward: That we receive our greatest gain

By trusting in the Lord.

Rough inning for Lady Vikes

The Tippecanoe Valley Vikings girl's softball team lost their opening game Wednesday night against visiting team Rochester.

Valley led 8-7 going into the seventh inning. The Lady Vikings took advantage of four walks and three hit batsman to score five runs in the fifth inning. Rochester came back in he seventh inning scoring 13 runs to give the game a final score of 20-9.
Lisa and Paula Shuey each had two hits

to lead the Vikings.

J.V. Golfers win opener

Valley won the junior varsity golf match with a score of 188 and a medalist round of 45 by Trent Sloan.

Vikings opener ends in tie Ending because of darkness Thursday night, Valley tied 5-5 with Culver after six

Dion Anglin drove in two Valley runs with singles in the first and fourth innings and Scott Warstler tripled in the second inning driving in Scott Smith. The Vikings added two runs in the fifth on a Culver error.

Correction

In last weeks paper there was an error in the time for the Akron Cub Scouts Pinewood Derby.

The correct times are as follows

Akron Safety Week

Last week was safety week at Akron School. It is very important that students be aware of the importance of safe actions. The week was designed to expose the students to a variety of situations where they need to be aware of problems and what they should do in a particular situation.

Bus Safety

The week started off with School bus safety day, students that ride the bus went through bus evacuation procedures. The day also included a coloring contest in grades K-6 with prizes for the best in each class and grade. Movies on bus safety were shown throughout the day.

Bicycle Safety

Tuesday was Bicycle safety day with a convocation that was presented by the Fulton County Sheriff's Department and the Rochester City police. There was also a Tornado drill in the afternoon.

Fire Safety

Wednesday was Fire Safety day, there was a fire house to demonstrate on how and why a person gets out of a burning house, the children had a chance to either escape from either the top floor of a house or on the ground floor.

First Aid Safety

Thursday was First Aid Safety day, Mrs. Hoover presented a basic first aid section to the students on "What to do when someone is injured." There was a first aid convocation in the gym to discuss first aid safety also the EMS was on hand to talk to students. There was a fire drill in the afternoon.

Farm News

If Senate Bill No. 123, sponsored by Wolf, Pease and Simpson, is passed into law, the average cost per acre to the Indi-ana farmer is estimated to be \$.50 per acre. The increase is due to the aviation fuel consumption, pilot time, aircraft maintiance cost, ground crew salaries and additional documentation. Indiana Agriculture Aviation, Inc., the state's association representing aerial applicators in Indiana, is opposed to Senate Bill No. 123 due to increased cost to the farmer which will ultimately increase food cost; technical difficulties which will diminish air safety and in some instances bi in drect violation of Federal Aviation Administration regulations, Part 137.

Due to the above reasons the IAA membership urges individuals who are in the Agri-industry to contact your state representative and state senator immediately to express your views. Questions concerning Senate Bill No. 123 can be directed to the state office of the IAA at 317-894-8484

Purdue University 1988 Test Plot Statistics show that due to the aerial application of pesticides for spider mites, there was a six (6) bushel per acre increase in the yield on an estimated 1.5 million acres of soybeans sprayed in Indiana's fields last year.

At the 1988 average price per bushel for Indiana's soybean crop, the bushels saved translates into sixty-nine million dollars (69,000,00.00) additional gross income for the Indiana farmer through the use of emergency aerial application of pesticides.... A big boost for the Indiana Agri economy.

In the first weekly report of the 1989 season fieldwork was slowed because of wet field conditions throughout most areas of the state. Recent showers have helped relieve deficient soil moisture conditions, especially in southern counties. As of April 2, tilling of land for spring planting crops was 62 percent complete. Last year 68 percent was plowed or tilled and the 5-year average is 59 percent. Most of the tilling was accomplished last fall By area, tilling is 56 percent complete in the north, 71 percent complete in the central counties and 52 percent complete in the south.

Statewide, winter wheat condition is rated 3 percent excellent, 40 percent good, 47 percent fair and 10 percent poor. The 43 percent good or better rating compares with 42 percent good or better last year at this time. The average height of wheat is 4 inches, nearly the same as last years average. Two percent of the wheat has jointed, the same as last year and the 5-year aver-

Oat seeding is off to a slow start with 16 percent for the crop seeded. This is far behind the 25 percent seeded last year and the 5-year average of 33 percent. By area, oat seeding is 13 percent complete in the north, 16 percent complete in the central counties and 26 percent complete in the south. Clover seeding is 47 percent complete, ahead of the 45 percent seeded last year but behind the 50 percent for aver-

Indiana's apple and peach crop survived the winter in good condition, the first bloom of peaches is underway in a

few orchards.
Pasture condition was rated 1 percent excellent, 24 percent good, 53 percent fair, 19 percent poor and 3 percent very

For the week ending Friday, 2.4 days were rated suitable for fieldwork. Topsoil moisture was rated 5 percent short, 54 percent adequate and 41 percent surplus. Subsoil moisture was rated 25 percent short, 62 percent adequate and 13 percent

The students in Mrs. Pam Smith's second grade class at Mentone School presented their play "Peter Rabbit" on Friday, April 7. All the students participated in making scenery and costumes, and each child had a part in the play.

A new beginning..

By: J.D. Moore

What's In A Name?

As many other people, I decided years ago my name should have been something other than what my parents thought. Vowing to name my kids with names that were catchy, but not silly and nothing that could be nicknamed, I intended for them to enjoy their names. Of course, that isn't how it happened.

Joyce is plain and Darlene, my middle name, not a bit exciting either. Besides, when I was in trouble at home, my father would call, "Darlene, come here." And, there's always Joycie. Yuk! My mother liked the names, having named me after a friend of hers, and couldn't understand why the feeling wasn't mutual.

My brother had a narrow escape, though. Tom was adopted when he was five years old with Tom being his given name. Mom and Dad had asked if it would be advisable to change his name with the answer being that it would not. Being curious, I asked what they might have named Tom if given the opportunity. The name would have been Elizer Kaye. (L-ease-er) After the laughter quieted, we realized Mom had been serious. I looked at Tom and chuckled one more time but relieved for his sake the name change hadn't been possible.

Mom also mentioned that had I been a boy I would have been Mom also mentioned that had I been a boy I would have been Stephen Stevie! That is the only

thing that made me feel better about being called Joyce.

Christopher Douglas seemed a good strong name reminding me of Christopher Columbus. What was the worse thing could be called? Chris of course. is toples to the could be called? Chris of course. Wrong, and I was as a pure of the could be called? Chris of course. Wrong, and I was as a pure of the could be called? Chris of course. Wrong, and I was as a pure of the course. baby with lots of black hair thinking he looked more like a Chrissy instead. The poor kid was called Chrissy until he was at least ten years old and I finally, at Doug's request, made a concentrated effort to shorten his name. Being 6'2" and almost 20 years old, he somehow looks more like a Christopher now.

Collin Joseph

Collin Joseph was the second son who can't quite figure out where Collin came from. I explained that it was a clever name, one that also started with a C as did Chris' name and that Joseph was in honor of his grandfather. "But," he pressed, "where did you hear of Collin?" Confessing there had been a character on a soap opera named Collin, it had caught my interest, and besides, who could nickname him with a name like that?

Chris did, that's who. Chris was calling his brother C.J. before two months had passed and most of the time we still call Collin by his initials. Does Collin like his name? No. The name that was supposed to be simple to spell is never spelled correctly and what is worse, is seldom pronounced as we intend being called Collie (as the dog) or Colon (as the organ) which brings raised eyebrows from Collin each time it happens.

What's in a name? Family, a part of a personality (most people tend to look suited to their names) and parents hoping that this time, someone will like their names. Everytime I complain about Joyce I think about being called Stevie, or Elizer Kaye and suddenly I

GUM BOILS OR **ABCESS**

Maybe you've heard an abscess described as a gum boil or gum pimple, but whatever it's called, this infection of the gum may cause severe pain until it is treated by your dentist. Usually when someone has a gum abscess there will be a swelling caused by the inflammation as well as pain and soreness. The cause of the abscess may not be as obvious as the results. This type of mouth infection may originate in the gum or in the tooth above the gumline, or it may have its origin in the nerve and root of the tooth. More certain is the discomfort this condition can cause and the need for immediate dental treatment to prevent the infection from spreading.

One method of treatment is to open up the abscess and drain it. This will result in immediate and grateful relief. Then the cause of the abscess must be treated. An abscessed tooth can often be saved from extration if there is enough bone remaining around the root of the tooth to give it good support.

Prepared as a public service to promote better dental health. From the office of: H RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St., Rochester, Phone 223-3121.

In Memory Of Maurice S. Rogers

One year ago April 23 God took your hand and you

went away.

went away.

He freed you from your pain,
took away all your fears.
Lifted away your burdens,
wiped away all your tears.
Oh, we love you and we miss you but
something we know is true.
One day God will come back again
and take our hand too.
Then we'll be together again
once more.

T.V. Golf Team

The Tippecanoe Valley Golf Team will be trying for its 7th TRC championship in 13 years, including a win in last year's TRC Tournament. The Vikings are returning 4 of its 7 letter winners from last year's team, losing, Senior, Donnie Fellow with a 44.59

average and Troy Eaton with a 47-83, and one player not returning to the team. Returning letter winners, to the Viking line up are Senior, Andy Mikesell with an average of (44.41), Chad Brouyette (44.73), and Troy Busenburg (47.65). Also returning is sophomore Keith Ruberg last year's low medalist with an average of (44.29), a freshman school record

Coach Jon Parker said, "Even though we did not have a player average under 44 last year, I look for the team to surprise some people this year." "Most of the these young men played a lot last summer and Γ m looking forward to a good season this year." "We

have several other players, that are looking to break into the top five this year."

Senior, Craven Lynn and Travis Scott are looking good during the pre-season. Lynn did not play golf last season and Scott averaged 50.73 last year.

"I think our biggest asset this year will be our depth. By the end of the year we should have several players, that can break 80."

This year's team consist of Craven Lynn, Travis Scott, Troy Busenburg, Andy Mikesell, Chad Brouyette, Neil Smythe, John Parker, Keith Ruberg, Brandon Howard, Chris Baker, Trent Slone, Tyson Silveus, Eric Secrist, Todd Biddinger.

FAMILIES AND NATIONS MUST TRY TO BE GOOD NEIGHBORS

> Canada and the United States have always been good neighbors through the years, although as with families who live next door to each other, occasional differences will arise. This is only natural, but nonetheless the "heads" of the families can get together and work out solutions acceptable to both. The friendship is also kept in a healthy state by paying visits to each other at regular intervals, with no barricades to entering each other's territory. Moreover, their "children" play games together, and if they happen to be baseball or hockey, this completes the parallel. The faith that we learn at our House of Worship teaches us to "love thy neighbor," and we pray that this spirit of helpful friendship will for ever transcend that 3,000-mile "property line" across our continent.

The 1989 Girls Softball team is coached by Kevin Deardorff and Scott Tilden. The team consists of 20 girls, 4 seniors, 6 juniors, 3 sophomores and 7 freshmen.

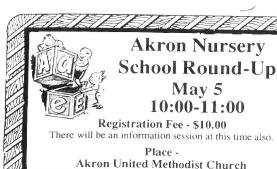

This team has gone through many changes since last year. Everyone, with the excep-

tion of one or two girls, is in a different position, so this leads to some difficulties until they start learning the new positions.

The girls record as of now is 0-3 with losses from Rochester, Goshen and North

They will play again Friday and Saturday at the Akron Park. Game times are Friday at

Fieldwork was virtually at a standstill last week as wet soils kept equipment out of fields in most areas of the state. As of April 9, tilling of land for spring planted crops was 64 percent complete, 3 days ahead of the 5-year average 61 percent, but 10 days behind last year's pace of 73 percent. By area, tilling is 56 percent complete in the north, 75 percent complete in the central counties and 54 percent complete in the south.

Winter wheat condition improved from the previous week with a rating of 4 per-cent excellent, 43 percent good, 49 per-cent fair and 4 percent poor. The 47 percent good or better rating compares with 43 percent last week and 48 percent last year at this time. The average height of wheat is 5 inches, nearly the same as last year and average. Six percent of the wheat has jointed, the same as last year, but ahead of the 5 percent for average. Seeding of oats, at 19 percent com-plete, is far behind the 30 percent seeded

in 1988 and the 5-year average of 47 percent seeded. Clover seeding is 50 percent complete, behind the 60 percent seeded last year and the 61 percent for average. By the area, clover seeding is 48 percent complete in north, 42 percent complete in he central counties and 64 percent complete in the south.

Pasture condition improved from last week with a rating of 3 percent excellent, 38 percent good, 44 percent fair, 13 percent poor 2% very poor. Availability of hay and roughage supplies was rated 1 percent surplus, 61 percent adequate, 32 percent short and 6 percent very short. About 23 percent of the cattle feed is coming from pastures.

For the week ending Friday, less than

one day was rated suitable for fieldwork.

Topsoil moisture was rated 35 percent adequate and 65 percent surplus. Subsoil moisture was rated 10 percent short, 70 percent adequate and 20 percent surplus.

Indiana farmers intend to plant 5.65 million acres of corn in 1989 based on the USDA's Agricultural Statistics Service March 1 survey. If these intentions are realized, corn acreage would increase 9 percent above the 1988 level of 5.2 mil-

The intended Indiana soybean acreage, at 4.45 million acres is up 3 percent from

the 1988 planted total of 4.3 million. The 1989 wheat acreage seeded last fall at 920,000 acres is up to 10 percent from 1988, but the intended acreage seeded to oats, at 200,000 acres, is down 43 percent. Hay acreage for harvest, at 750,000 is expected to be down 20 percent from the 1988 total which included hay cut from set aside acres Tobacco to be harvested in 1989 is expected to total 5,800 acres, up 9 percent from last year.

Nationally, farmers intend to plant 73.3 million acres of corn for all purposes in 1989, up 8 percent form last year, and up 11 percent from 1987. U.S. soybean growers intend to plant 61.7 million acres in 1989, 5 percent above last year and 6 percent higher than 1987.

Akron Round up

Akron School will hold Kindergarten Roundup on Monday, May 1, at 2:00 p.m., in the school cafeteria.

Children who will be five years old on or before August 1, 1989, are eligible to attend kindergarten during the 1989-90 school year.

Parents are reminded to bring their child's birth certificate to Kindergarten Roundup as all children must have a birth certificate to enroll in kindergarten

Due to the informational nature of Kindergarten Roundup, parents are asked not to bring preschoolers. If this is not possible, a nursery will be provided in the school library. The program will last approximately one hour.

Parents who cannot attend or those having questions, may contact the Akron Sc¹ 1 office 1 893-4646 or 893-4633.

Spring fix up ten steps to a new lawn

Chances are your lawn took a beating in last year's drought. If you were allowed to water at all last summer, you probably did so sparingly and may have made things worse. Shallow, sporadic watering encourages weak surface roots that parch and die in summer heat. The result is sparse, patchy grass and an all-out invasion by crabgrass and weeds.

If your lawn appears to be in

reasonably good condition, and weeds are not a problem, fertilize before the first flush of new growth and follow the watering and mowing tips below. But, if more than 25 percent of your lawn is dead or badly damaged, you will need to dethatch and overseed to re-establish healthy turf. Follow these simple steps:

1. Rent a power rake or verticutter. These machines loosen thatch and bring it to the surface where it can be removed with a rake or lawn sweeper. The verticutter actually slices into the existing turf, creating a bed for new seed.

2. Purchase a good quality grass seed

mixture recommended for your area and conditions. Beware bargain seed--it often contains a high percentage of weeds and inert matter

3. Overseed at a rate of 8 to 10 seeds per square inch. The slices made by the verticutter will provide a perfect bed for the new seeds.

4. After seeding, apply a spring lawn fertilizer with crabgrass control to prevent crabgrass from germinating and to feed the developing grass seedlings. The low nitrogen formula is ideal for sprouting seedlings and will provide some immediate greening of the existing grass.

5. Water gently several times daily with 5. water genut several times daily with a lawn sprinkler. The seeded areas should be kept uniformly moist but not sopping. Never let the soil surface dry out completely while the seed is germinating—two to four weeks, or until errors is at least two inches hich. grass is at least two inches high.

6. When new grass passes the two inch mark, it's time to mow. But don't scalp it! Throughout the growing season, adjust mover height to allow for a cut no shorter than 2 inches in spring and fall, and 1 1/2 to 3 inches during the hot weather. The extra length gives the grass some protection form heat and drought and provides more leaf area for nutrient roduction to build strong, healthy turf.

Mowing Tip: Before the mowing

season gets underway, have your mower blade sharpened and then check its condition periodically. A dull blade rips the tops off grass plants giving the whole lawn a sickly, grayish appearance.

7. After six weeks of new growth, it's advisable to feed the entire lawn with a slow-release, high nitrogen (30-4-4) fertilizer.

8. If dandelions and other broadleaf weeds are present, apply a complete fertilizer with weed killer.

9. In the autumn, apply a low nitrogen (10-16-20) fall fertilizer with calcium and sulphur to simulate root development, "winterize" the grass and give it a strong

headstart in spring.

10. When you water, remember, and occasional deep watering is far better for a lawn than a daily sprinkle. Run your sprinkler unit at least an inch of water has been applied over the entire lawn. A cup or can placed in the path of the sprinkler makes a handy water meter.

Community Dialysis Services in Warsaw

Community Dialysis Services is marking its first year of operation in Warsaw, having reaching its three year service goal in its first year! Today, the Lutheran Hospital affiliate serves almost 10% of the Lutheran renal dialysis patients in the northeast Indiana region.

Beginning treatment in February of 1988, the facility was initially slated to serve eight patients during its first year. However, the facility has experienced overwhelming demand and instead, regularly serves 17 patients the level projected for its third year of operation. There's now a waiting list with those people being dialyzed at Lutheran Hospital until they can be accommodated in Warsaw.

"The capacity use of the facility illustrates the great need for a community dialysis center such as ours," said Dr. Robert W. Dettmer, Medical Director for Community Dialysis Services. "In fact, we're currently gauging additional renal dialysis needs and investigation options in order to meet future renal dialysis demand in Warsaw area.'

"It also illustrates the positive relationship among our facility, Kosciusko Community Hospital, and area physicians. And that solid relationship means benefits for all involved, especially the patients."

The renal dialysis facility, established by Lutheran Hospital of Indiana, Inc., is designed to bring renal dialysis treatment closer to home for patients in Kosciusko County and the surrounding area. Lutheran Hospital redesigned the office space, which is leased from Kosciusko Community Hospital, to meet the unique

needs of dialysis treatment.

The center's patients range in age from the center's patients range in age from their early 20s to late 70s. For the facil-ity's nurses, it's a small, but special mix of personalities. "With our facility, we can give individualized care," Jane McLellan, assistant head nurse for Community Dialysis Services, says. "We can sit down with the patients and talk with them. We can really be friends."

Community renal dialysis clinics reduce the vast amount of travel time required to drive to Fort Wayne three times per week for treatment. In addition, the patients are left with greater amounts of time to increase their, and their families', quality of life.

The Akron Town Board Meeting

A special Board meeting was held on March 30, 1989.

The meeting was held for the purpose of accepting final bids on real estate offered for sale. All present had submitted proper bids and were given a chance to raise such bids. After the bidding started Bill Gearhart withdrew his bid on the fire station, Kim Martin did not care to raise his bid so the fire station was awarded to Bart Krajewski for a

Bill Gearhart bid on the water house at \$12,700, and Viking Foods bid was at \$13,000 and was the high bid so the water house was awarded to Viking Foods.

Both men made a 10% deposit as required and Attorney Peterson will proceed with the preparation of final closing. Both Bart Krajewski and Terry Randall expressed their thanks and commented on their plans for expansion for their businesses, Bart for a nice dining room and Terry Randall for a larger grocery store.

The Board heard a request by Max Mclching for an agreement to provide water & sewer utilities for proposed Garden Apartments to be built north of the town maintenance barn, after discussion the request was granted. Plans for this project are on file in the town office. They would include the extension of Virgil Street and access to the apartments, street construction expense to be paid by builder.

Request for the a lease of the old town building, which was recently vacated by the town offices, the request was to lease the building for a year, the Board will hold a public hearing on May 6 after proper advertising for the purpose of making a decision on the proposal to sell or lease the building, any action taken can be advertised on May 10 and 17 with a final decision on May 30 or 31.

Marshal Lawson presented his report and made a request of putting Tim Fleck on full

time as Deputy, he said Tim is doing an excellent job and it would be wise to plan on sending Tim to Marshal training in October since this would be the last one.

Supt. Gearhart presented a request for some larger meters which need to be replaced.

He was given permission to order three one inch meters and two 2 inch, these will replace some that have been stuck for some time.

Jack & Jill Nursery School

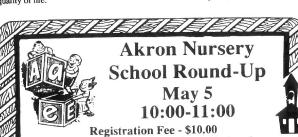

Pre-registration for the 1989-90 school year will be held on Thursday, April 27, from 6:30 - 8:00 p.m. And Friday, April 28 from 8:30 a.m. - 3:00 p.m. at the nursery school, which is held in the basement of the Mentone United Methodist Church.

CAUSE HE'S A FARMER Esther C. Adams In the spring he has hope, With spring work he can cope, As he plows and plants the ground, Working the soil gives him satisfaction unbound, Cause He's a Farmer. There's so much he has to know, What fertilizers to use, seeds to sow. What to buy, when to sell, How to fix everything, and do it well. 'Cause He's A Farmer. He has faith to meet each day, As floods, drouth, frost, hail come his way. He wears overalls, and has callused hands. But he's "The salt of the Earth," in this land, 'Cause He's a Farmer.

Bowl 'Em Over

One of my favorite Saturday shows is bowling. I watch in amazement as the experts compete against each other for fantastic prizes. They make it look so easy, easier than I found it to be.

The first time I bowled, we went with another couple, both of whom were really good at the sport. I, however, felt proper attire would help only to realize the shoes handed me didn't match a thing I had on. I blame those shoes for my lack of concentration, the beginning of the end!

We were then given lanes next to two very serious bowling couples. These people had matching shoes and shirts, color coordinated balls and cute little towels they used for their hands. Before the night was over, I realized I should have had one of those towels,

I quickly found out the balls that were rolled down the lanes were much heavier than appeared on television and the lanes had to be at least twice as long. I'm not sure, but I think the lanes must have slanted downward in our direction because I could hardly roll the ball hard enough to reach the pins at the other end! Oh well, I gave it a try and was going to have fun until I sensed the bowlers next to us becoming annoyed at our laughter.

Another important fact is...don't get nervous without a towel to dry your hands. I really tried to stand at the line, hold my ball in place, swing at my side, hoping to miss MY side, and roll the ball like I should. But, my hands were sweaty, the holes in the ball didn't seem right and with four pairs of eyes starting at me, I took my eight or nine steps to the line and TOSSED the ball down the lane! The thumps could be heard throughout the alley and after the laughter died, I was mortified to face the people next to us.

Trying to seem nonchalent, I glanced over my shoulder to find four very much disturbed people mumbling something about concentration being lost. How could they worry about concentration? I nearly broke my wrist!

Serious Bowler

After instructions from those around me, my turn came all too soon. I stood at the line, knees bent, ball in my hand (which was sweating profusely by now) and my eyes focused on the pins. I carefully chose the guidelines in front of me and tried to concentrate on bringing my arm further back into a full swing behind me therefore rolling the ball smoothly. All this time, I noticed the people next to us had ceased bowling until I was through leading me to believe they wanted me to get my fiasco over with as soon as possible!

I set my jaw, tried ignoring everyone else and did as I was told. As I took my steps, focused on the pins and swung my arm straight behind me, the ball dropped from my hand thumping to the floor with an echo throughout the building.

Here's were it paid to be a good sport and be tough because not only were the ones with us doubled over with laughter, Doug was embarrassed and the serious bowlers next to us had packed up and left looking over their shoulders whispering as they walked from the alley.

The only part of the evening worse than this was leaving. We removed our shoes, returned our balls and had to wait to pay for our games. I secretly was hoping we wouldn't be charged for floor dents, structural damage to the lanes or mental cruelty to the bowlers! Maybe it was my imagination, but I thought I noticed a smirk on a man's face as we exited.

Did I recover? Sure. The next time I go bowling I'm gonna bowl 'em over, or bowl something over, anyway!

A spring dew fish fry

The Kosciusko Community Hospital Auxiliary members are sponsoring a Spring Dew Fish Fry on May 13, 1989, beginning at 4:00 p.m. at the Kosciusko County Fairgrounds.

This year's activities include a fish fry from 4:00 to 8:00 p.m. In addition will be a bake sale and geranium sale.

A beautiful quilt will also be given

away by the Auxiliary. The quilt can be seen at the KCH Gift Shop, and the window at Hull House. The quilt will also be on display at both Owens Supermarkets on April 28th & 29th, and May 5th & 6th. Auxiliary members will be present at Owens to sell quilt and fish fry tickets.

Each year the auxiliary holds the Spring Dew to raise funds to be donated to KCH for special projects. Last year the auxiliary donated \$25,000 to the hospital to furnish the lobby of the new Ambulatory Care Unit; refurbish the Gift Shop, lobby area, third and fourth floor lounges, and the Auxiliary office. These funds were raised through the Spring Dew and also from the net proceeds from the

KCH Gift Shop.

Anyone interested in buying tickets for the fish fry or the quilt can purchase them at the Kosciusko Community Hospital Gift Shop or from any Auxiliary member.

He was born March 19, 1908, in Seward Township, to Harrison and Lydia Belle Dillman Perry. On September 16, 1934, in Claypool, he married L. Jean-Tully, who died September 30,

He lived in the Warsaw area since 1934. He was a member of the First United Methodist Church, Warsaw, and had recently been recognized for 54 years of active service with the congregation and his participation in the men's organiaction there. He was owner/operator of Triangle Service State, Ind. 15S, from 1930-1973.

Surviving are two daughters, Mrs. Thomas (Elizabeth) Keller, Lima, Ohio, and Martha Perry, Phoenix, Ariz.; two grandchildren; two great-grandchildren; five sisters, Mrs. Ivan (Mary) Deaton, Silver Lake, Mrs. Freman (Bernice) Neher and Betty Snyder, both of Warsaw, and Opal Minars and Wilda York, both of Indianapolis. One brother, one sister and one grandson preceded him in death.

Services were Wednesday, April 26 in the First United Methodist Church with the Rev. Charles Ellinwood officiating. Burial was in Oakwood cemetery.

Chamness Funeral Home, Warsaw was in charge of the arrangements.

Travel Opportunities Help Both Nurses And Patients

An innovative program is giving nurses a chance to travel, live in one or more cities every year and have an opportunity to learn new techniques in different hospitals.

Traveling nurses acquire free Club Med vacations in recognition of their dedica-

The program, begun by Traveling Nurse Corps a decade ago, works like this: traveling nurses take tempo-rary assignments, ranging from four to 13 weeks, in the hospitals and locations of their choice. It's an innovative response to the nursing shortage that has kept many nurses in their field by offering them an exciting lifestyle while they remain in the career they love. Nanette Doan, RN, said, "I've worked in hospitals

all over the country and I've lived in places I never thought I'd even visit. By working with different hospital staffs, I've learned more about nursing in the two years I've traveled than I could have in 10 years of only working at one hospital."

To mark its tenth anniver-

sary and to recognize the dedicated service of its traveling nurses, Traveling Nurse Corps is sending hundreds of its travelers to any Club Med they choose. Nurses can easily qualify for a free Club Med vacation by successfully completing as few as three traveling assignments, perhaps one in Florida, one in Califor-nia and one in Hawaii.

Mother's Day

Mothers around the nation should appreciate the contribution of Anna M. Jarvis. Without Jarvis' inspiration, Mother's Day, which is celebrated May 14 this year, might never have existed.

As it happened, Jarvis first arranged for a special mother's service in her Grafton, W.Va., church on May 10, 1908. The service was in honor of her late mother. A simultaneous service was held in what had been her mother's Philadelphia church. Although never a mother herself, Jarvis believed that sons and daughters should pay tribute to their mothers at least once a year. The mother's services spread to more churches the following year.

In 1912, a Mother's Day International Association was founded to encourage greater observance of a special day. This led the Congress in 1914 to designate the second Sunday in May as Mother's Day. In the same year, President Woodrow Wilson issued a proclamation urging people to display the American flag on that day as "a public expression of our love and reverence for the mothers of the country."

Derby Memories

Since the first running of the Kentucky Derby in 1875, it has become one of the most prestigious and time-honored events in horse racing. Held at Churchill Downs in Louisville, Ky., on the first Saturday in May, the race for three-year-olds is the first jewel in racing's Triple Crown.

This year's "Run for the Roses" on May 6 will be the

The first Derby winner was Aristides, owned by H.P. Mc-Grath. Ironically, Aristides had been entered as a pace-setting horse for another of McGrath's entries, Chesapeake. But Chesapeake was so far in the rear when the time came for Aristides to let him pass, there was no hope of him overtaking the pacemaker.

Aristides raced on to victory and a purse of \$2,850. As winner of that first Derby, Aristides will forever have his name next to the current champion above the paddock at Churchill Downs.

Only 10,000 people saw the first Derby, but since 1980, crowds of more than 100,000 have gathered for the race. More than 20 million people watch on television, and countless more listen on the radio.

Personal growth workshop

Tribal Trails Girl Scout Council is inviting the public to attend a Personal Growth Workshop, for adults on Saturday, May 6, 1989, from 9:30 a.m. to 3:30 p.m. in Logansport at the First United Methodist Church, at the corner of 8th and Broadway Streets. The registrations and \$1.00 fee are due a week in advance in the council office. Mail to Tribal Trails Girl Scout Council, P.O. Box 136, Logansport, In., 46947. Sessions being offered are:

Conflict Management - 9:45 - 10:45 a.m. Conflicts can be costly in time and energy. Learn how to let everybody win, how to cool down the situation without saying a word, and how to avoid the anger spiral. (by Molly Haas).

Stress Management - 11:00 - Noon We choose stressful lives because stress is exciting, but too much stress becomes distress. Learn how to manage stress in every situation. (by Molly Haas).

Time Management - 1:00 - 2:00 p.m. Get that time-robbing "monkey" off your back in order to get control of your time. (by Debbie Droste).

Leadership Skills - 2:15 - 3:15 p.m. Bring out the "lead" in your leadership by improving your leadership skills. (by Debbie Droste).

The morning sessions will be presented by Molly Haas, formerly with Four County Counseling Center, and now Manager of Human Resources for Small Parts, Inc. of Logansport. Lunch will be from noon to 1:00 p.m. Participants may bring their lunch or go out. The afternoon sessions will be presented by Debbie Droste, a middle school teacher who was formerly the Personnel Director for the

VA observes National Consumer Week

The U. S. Department of Veterans Affairs, which serves millions of consumers daily, will observe National Consumers Week, April 23-29, says VA Regional Office Director Page Bailey.

Week, April 23-29, says VA Regional Office Director Roy E. Bailey.

The Indiana Regional Office is one of \$8 regional offices within the Veterans Benefits Administration, an arm of the newly created Department of Veterans Affairs which is responsible for administering non-medical benefit programs. "There are nearly 650,000 veterans in the State of Indiana, and a vast majority of them and their dependents are potentially eligible for benefits and services administered through this office, "Bailey said.

The Indiana Regional Office administered more than \$300 million this past year in compensation, pension, education and other direct benefits to Hoosier veterans and their families. "That doesn't include the millions of dollars in home loans that we guaranteed on behalf of veteran home buyers, or the reimbursement we make to employers who have hired Korean and Vietnam veterans under the Veterans Job Training Act," Bailey added.

Bailey urges veterans and their dependents who are interested in learning more about their benefits to contact the VA Regional Office. "Statewide, toll-free telephone service is available, and the number is generally listed in the U.S. Government section of your telephone directory," he said.

FAITH TELLS US TO BE KIND TO ALL OF GOD'S CREATURES

Our world was once filled with the animals and birds of God's creation, but throughout the ages some species have fallen by the wayside while others have managed to remain viable despite all the storms, floods, droughts and earthquakes that nature could inflict upon them. However, our increasing demands for progress and recreation have encroached upon the wilderness areas,

putting our wildlife in greater jeopardy than from all the natural disasters combined. Even those hardy survivors may not be able to withstand the cruel or unthinking actions of human beings. We must act humanely toward them, and by example teach our children to do likewise. The denizens of the wild, as well as the family pets, are all God's creatures, so let's treat them with all due respect and kindness.

"Exile" in concert at the Wagon Wheel Theatre

The Wagon Wheel Theatre proudly presents one of America's most versatile musical groups: Exile. Exile will appear in concert for 2 shows on Saturday, May 20, 1989, at 7:30 and 9:45 p.m. at the intimate theatre-in-the round in

Exile has "done it all" in the world of music! They rose to rock stardom in the late 70's with their number one multimillion selling hit, "Kiss You All Over". Then rejecting the pop move towards high tech sound, the group returned to their country roots in the early 80's. In Nashville, Exile's crossover success was immediate and startling. They quickly produced 9 number one country hits and their numerous albums rocketed to the top of the

Exile's quick acceptance was reflected by their nominations from the Country Music Association as the Vocal Group of the Year in 1985, 1986, and 1987 and for the Instrumental Group of the Year in 1985. Similarly, they have not gone unnoticed by either The Academy of Country Music, which nominated Exile for the top vocal group in 1983, 1984 and 1985, or Radio & Records, which named "It'll Be Me" the 1986 Record of the Year.

Now, in their fifth LP on Epic Records, Shelter in the

Night, Exile takes on an exciting new dimension as they feature a unique blend of southern rock, hearty R & B and all-American pop as well as country music. The result is a sound that is distinctively Exile and that demonstrates they continue to "do it all" in the world of music.

Tickets for Exile are on sale now at the Wagon Wheel Theatre. Reservations can be made by calling (219) 267-

Bev Harder opened the Hilltop Kennel in January, she breeds and boards dogs. She boards dogs at the price of three dollars a day or by week and month.

She breeds Dachshund, cockerspaniel and Bassett Hounds.
Bey said, "I really like what I'm doing, you have to love the dogs like your own and that is the kind of treatment each dog receives when they come and stay at the kennel."

The kennel has indoor and outdoor runs and each dog has his own special toy or

blanket. The kennel is kept at 60 degrees at all times.

Anyone having questions or would like to take a tour of the kennel call Bev and she

Catfish Are Jumpin'— in the Pan

Forget the picture you have in your mind of the catfish. Of the lowly scavenger that was the quarry of old men fishing the muddy depths of the Mis-sissippi River. Cut to a swank French restaurant where an other dish of succulent farmraised catfish meunière has just been served.

Same fish, different worlds. Since the art of raising eattish in farm ponds for market was perfected in the mid-1970s, the cattish's reputation has soured. While a cattish caught in the wild has a distinetly muddy taste, farmraised cattish are praised for their mild flavor and absence of tishy odor. This is because of their controlled environment

The flaky white flesh of farm-raised catlish is tender and nutritious and adapts to many cooking styles, accord-ing to the Catfish Institute in Belzoni, Miss.
The center of the catfish in-

dustry is Mississippi's Delta re-gion, where the economy has been revitalized by the fish farms and fish processing plants. Mississippi provides 85 percent of the nation's farm-raised catfish. Alabama, Arkansas and Louisiana farm cattoo. An estimated 310 million pounds of catfish will be harvested in 1989 alone.

Far from the Delta, the catfish is a favorite in restaurants and on home tables. At the Waterfront Seafood Market in Des Moines, Iowa, farm-raised catfish is featured every night.

Fishing season is upon us

The fisherman who hopes to catch more than occasional straggling bass or walleye will begin by learning something

about the lake.

Step one, is the lake map, hydrographic chart, showing the depths of the lake bottom. More than 2500 Wisconsin inland lakes have been surveyed to date. A new update alphabetical index for these lakes is available.

The listing can be obtained at no charge by sending a self-addressed, stamped (45cents) No. 10 business envelope to: Section, P.O. Box 5096, Madison, Wisconsin 53705.

A week in the Majors A Baseball fantasy

The scene is every baseball lover's dream: the aura of a major league ballpark, filled with the paraphernalia of the game, hearing your name announced as you take the field.

According to an article in the March-April issue of Philip Morris Magazine, men with diverse backgrounds and physical conditions can fulfill the dream of

cal conditions can fulfill the dream of playing major league baseball, if only for one week a year, at the Mickey Mantle-Whitey Ford Fantasy Baseball Camp. "Playing ball like this is a little chance at immortality. When it comes along, you gotta grab it," said Mel Gittleman, a New

Robert Sam Anson, who relives his baseball camp experience in Philip Morris Magazine, grabbed at the chance to be a part of baseball immortality with other businessmen like Gittelman and some former greats of Yankee baseball.

Founded four years ago by Mickey Mantle and Whitey Ford, the camp is held each November at the Kansas City A's spring-training facilities in Orlando, Flor-

At this baseball camp, the men get to experience every aspect of the game, and for these baseball afficionados, that is worth all the scratches and bruises. They can even laugh at their injuries. Instead of calling the camp "Fantasy Baseball," Tom Rone suggested calling it "Fantasy Hospi-

These men who attended the baseball camp didn't have the best physiques or the strongest arms. What they did have was a true appreciation for the game.

After a week of practice, during which the occasional athletes used 440 rolls of tape and four dozen Ace bandages, the campers were ready (psychologically at least) to test their new skills in a major league ballnark

In keeping with the camp's spirit of fun, the men were told that one of the training rules was not to get in bed before 3:00 a.m. the night before the game.

With a few red eyes and much enthusiasm, the campers came to the stadium for the big game. They got the "whole glorious bit"--Yankee uniforms, their names announced over the public address system, the ritual low-fiving, and the Star Spangled Banner.

Before they took the field, their coach gave them one final piece of advice: "Men," he said, "if they get too far ahead, start a fight. There's five times as many of us as there are of them. We're bound to win."

National Arbor Day

Akron 5th grade students planted trees on Arbor Day around the Akron area these students were Darrell Ooley, Anina Gast and Eric Brown.

Arbor Day in Indiana is a growing program with an increasing number of schools, ies, towns and organizations planning observances annually. The Fulton County Soil and Water Conservation District provides a free tree seedling to each 5th grade student in the County. The Manitou Garden Club joins in the effort of individually packaging the trees for each student. We wish to thank Esther Bowen, Mabel Wagoner, Louise Masteller, Martha Hays, Ellen Jana, Mildred Mullins, Lera McKinney, Alice Frederich, Gloria Werner and Marge Lichtenwalter.

Soil and Water Stewardship week

The Fulton County Soil and Water Conservation District will join the nationwide observance of Soil and Water Stewardship Week during the period of April 30th to May 7th, announces Wanda

theme for this year's observance.

Since 1955, the National Association of Conservation Districts has sponsored Soil and Water Stewardship Week, in cooperation with the nearly 3,000 conservation districts, as one way to emphasize the importance stewardship of our basic soil and water resources.

Materials especially designed to carry the 1989, theme of "Renewing The Living Earth" are being distributed to clergymen, lay leaders, civic and educational organizations and to individuals participating in the observance.

Information and materials for the 1989 observance of Soil and Water Stewardship Week are available in this area from the Fulton County SWCD by calling 223-

Consider Renewal

Be still, listen and surely you may hear Mother Earth crying for what she must

Polluted water running through every vein parched, weary land showing the strain. Tree roots clutching at eroding soil Rivers gasping from industries spilled oil. Mother Earth, softly crying in sorrow Knowing there may not be a tomorrow. Visions of nations with people to feed Hungry children reaching out in need Mother Earth giving up in despair Too drained of strength to repair. Yet life-saving methods can be used To restore a land so thoughtlessly abused To begin the replenishment needed now With calloused hands and sweat-stained brow.

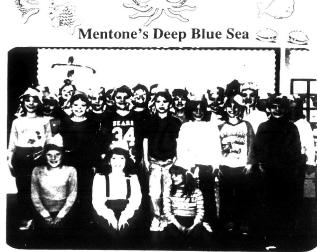

The time is now, renewal must begin Before our natural resources come to an

Garden Tips

By Gordon Graham, grower of the world's largest tomato, listed in The Guinness Book of World Records

Getting Your Garden Off To A Fast Start

In gardening, as in so many things in life, a good start is all important. This is espe-cially true in the case of seedlings you start in your home

The best way I know to give them a good strong start is to apply a good water-soluble plant food once every two or three weeks. Miracle-Gro is the one I like best Apply at at the same strength you'd use for house plants, that is one teaspoon to a gallon of water You'll see what a big difference that feeding makes. And when you transplant those seedlings into your garden you'll want to continue feeding, but you'll now use the regular outdoor rate of one tablespoon of plant food to a

regular outdoor rate of one tablespoon of plant food to a gallon of water.

Lots of folks want the advantage of an instant garden. They get flats of petunias, marigolds, tomato plants, etc at their garden store or nursery. Smart gardeners will start these plants off right with a good feeding of the same water soluble plant food same water soluble plant food when putting them in. Do the same for any shrubs

you put in. And continue feed-ing throughout the growing

season.

Follow this simple feeding schedule and believe me, you'll have a lovely and bountiful garden this season.

Battle of the **Bottle**

Now that prom time and graduation are almost upon us, it might be well to read this impassioned plea from a South Bend mother whose only child was killed by a drunk driver. Known simply as "mother of Ben", she spoke to high school students at Operation Prom's press conference in March of this year.

Her message:

"I really have to be honest and tell you that it's pretty scary standing her in front of you trying to share with you my message, my story.

'As an educator, a teacher, an assistant principal and now a parent coordinator, I have grown used to and comfortable for the most part standing before and talking to large groups of students as well as adults but TODAY is different.

"I have never stood before a group as a mother who has lost her only child, her

only son.
"When Mrs. Stines first asked me if I thought I could come today and talk to all of you from a mother's perspective, my heart plunged. I wanted to say 'No, I just can't' but then she is my friend. A friend who asks so little and gives so much. So hesitating a bit with tear-filled eyes and a quavering voice, I said 'Yes.'

"Mrs. Stines knew perhaps more than I did at the time what it would mean. She said, 'Think about it over the weekend, Shelly. If you change your mind, it's OK.

"I did think about it, almost constantly, that weekend and I kept hearing a silent voice inside me say, 'Come on, Mom. You can do it. Do it for me.' The quiet voice was Benny's and I knew then that I have to do more than just cry for Ben. Some way I have to make his death have some meaning, some purpose. Perhaps today will be the beginning of that if you'll help me.

You are the leaders of your school. You have great influence with your fellow students. I ask you to listen as I tell my story and find in your hearts and minds words that will best convey to your classmates my message during your anti-

drinking and driving campaigns.
"On June 11, 1988, a man chose to drink and drive. With that choice, my son, Bernado Jr. (Benny) and his best friend, Tim, died shortly after being struck down while riding Benny's motorcycle on their

way home to dinner.
"With that choice, I live the loneliness, it happens, it seems unreal. But death has no age limits. Our children are not in-

"I told a friend that I will be so relieved when June 11, 1989, is here. She looked at me strangely and asked me why. I told her that on that day I will know that I was able to survive, to endure the first Thanksgiving, the first Christmas, and New Year, the first birthday, the first Easter, the first Mother's Day without

"Because of one man's choice to abuse alcohol and to drive, Benny's Christmas sock, his Easter basket will forever remain empty. There will be no more Mother's Day cards, no more hugs, no more talks no more 'Oh, come on, Mom' or 'How ya doin', Mom?

"They tell me with time the intensity of the nightmare will diminish but not to ever expect the pain to disappear.

"My message then is to remind you that we all have the power of choice. As the celebration surrounding proms and gradu-ation take place you will have the power to choose to drink and drive or not to drink and drive.

"My message is not only a reminder but a prayer, a hope that you will use your power of choice to celebrate living, not dying. I pray that no student is either the victim or a perpetrator in a mother's nightmare, that you choose not to drink and drive so that you do not rob this world of the greatness you have to offer it, so that you do not rob your parents, your families, your friends of all the love you have yet to give."

If I were one inch tall, I would live in the heater so I would be warm all year lond. If it got to warm, I'd go to the owners refrigerator and get a large ice cube. I would put it in a bowl for two reasons 1. Cool the room. 2. When it melts I'd have water ot drink. The refrigerator would be home with lots of food to eat. As for clothes, I'll get them from teh knitting basket. By Jake Rucoi

If I were an inch tall, Iwould ride a paper airplane just like cousin Dinkey. I would go swimming and float up and let the big people swim under me. If I were in the class-room, I'd run fast to get away from the stinky feet. By Lori Overmeyer

If I were an inch tall, I ... would be the littlest person in the world. I could do lots of little jobs like fix sinks and pipes. I could be a doctor for sick mice. When I got to be 22 years old, I'd marry a girl 11 feet tall. Our picture would come out in the Guinnaes Book of World Records. By Dainon Lowman

....would be a government agent. I would be so small i could get any plans. The President would surely let me live in the White House and eat breakfast with him. I'd ride around in a lambergeny. I'd be like a small town hero. By Brian

If I were an inch tall, Iwould show my little centimeter and a half dog in 4-H. We'd have to watch out for the big people and feet. The showing circle would be a man's wedding ring. By Chris Scott

If I were an inch tall, Iwould get lost in the grass. My horse would be a grasshopper. The rope would be a blade of grass. My dog would be a frog.

One day I was riding my frog when a kid named Jamie came by on her gocart. We hopped on and she noticed me. She wanted to know what happened. I told her I goolfed up on my science project. An errupting volcano hit me and the lava made me so little. By Jonny Hampshire

If I were an inch tall, I would get in my sisters room easily. If I got stepped on I'd be Tim old squash. All of a sudden a bird picked me up and ate me. By Tim Flora
