SOME ONE HAS A COMPLAINT, it would seem, judging the message painted on the front of the Beaver Dam School. The message, as it reads on the building, is: "Sbend-thrift Forbs Folly + Rubber Stamp Board." Although the spelling is poor, the person or persons who did it are after-dark painters as the writing appeared sometime Wednesday morning. Also noted is another broken window, evidence of other vandalism at the school. The school, damaged by fire in January, was recently sold and is to he removed from the grounds.

Don't String Too Many Lights Together

Don't string more than two sets of Christmas tree lights together, suggests Bruce McKenzie, Extension agricultural engineer at Purdue Uni-

versity. The string closest to the outlet must carry the electric current for all strings connected to it. Since the wiring used in tree lights is a11 used fragile, you are expec-ting too much when you connect more than two strings, explains Mc-Kenzie.

However. he says you may plug several strings of lights into one extension cord, assuming that you've chosen a good quality cord.

A Tribute To Mrs. Rosa Kinsey One of Our Oldest Citize by Garrett H. Phillips

Ten years after the close of the Civil War, a little girl was born on the prairies of Ind-iana. Life at that time was somewhat different than now, but people busy and school was an important factor in the life of the early pioneers. The girl grew and became a beaut-iful young lady, with a were young lady, with a sense of humor, and rare with that beautiful something that only a few people possess. She people possess. She early loved the church with all that it stood for and became a regulfor attendant. ar

Marriage came and then her young family. Time moved on and the beautiful white began to come in her hair. As the automobile came, she started to drive. . .and did so until her last sickness. Even at 94 she could still drive to church and to town. She loved the Women's Society of Christian Service, and often had the pro-gram. She became one of the most interesting of all the conversationalist could tell of all the wonderful things around

Mentone. After awhile she be came somewhat a legend, yet she was real! She was alive! People cal-led on her to get their spirits revived. She helped her friends. She made new friends. She kept the love of her family. She celebrated her ninety-fourth birth-day in August.

It looked as though she would always be with us. Then suddenly a light stroke. Even then that strong prairie spirfought it fought on. But as weeks went by, we the knew that all ready on her brow rested the breath of the eternal the eternal Then the word morning. Then the word that she had slipped a-way. Still we all knew she was not gone, but that strong spirit, that faithful life, that smishe that keen sense of le, humor, those interesting stories would always be a part of each of us

AKRON-MENTONE NEWS er 5, 1968

Our national pastime, criticism, is fast be-coming a crutch for all the ills of the univer-se. If we don't like what we read in the newspapers or hear on rad-io and television news casts, are we to cure the world of wars, crime etc. by repeated denunciations of the news media?...

News informs, without regard to the reaction of the reader. If Mr. Jones murders his wife should a reporter tell the story, or should he list the names of all men who did not murder their wife? Should newspapers publish death notices and obituaries, a list of those who or have not died? Should news men tell of earthquakes or list all pla-ces untouched by them? ces Should news men report riots in the streets or lists of places where we didn't riot?....

When newspaper headlines scream of war, crime, death and des-truction, could it be a accurate report fairly and a word to the wise? and a word to the wise: Can we recognize the urgency of the world situation, or shall we wait until the water reaches our chins?...

to those who slip a self-addressed stamped envelope in their gift bundle. Marty, a World War II Air Force veteran, says he knows from experience what entertainment means to troops away from home. "Laughter in a hospital ward can often do more than wonder drugs!", he says. His "Give a Lift with a Gift" campaign is an off-shoot of his nightclub acts, where he always asks his audience to send books or records to American servicemen in hospitals. Books, records, playing cards, stationery and games are all great gifts for men recuperating in military hospitals, says Marty.

Friendship Acres Are Designated

Friendship Acres Chair-man Roy Kumler of Grass Creek has announced that six additional residents six additional residents of Fulton county have signed for the "Friend-ship Acres" program. He reports that this raises the total signers in the county to 18 residents. The 1968 signers are: Henry Twp., Joseph Kroft, Byron Kindig and George Sheetz; Richland Twp., Clarence Hiatt; Aubbeen-aubbee Twp., Ralph Stav-

aubbee Twp., Ralph Stay-ton; Union Twp., Robert McKinney and Grover Met-zger; Rochester Twp., Wm. Belcher and George Bearss; Liberty Twp., Dwight Rouch, Wm. Kietzman and Clarence Reed; Wayne Twp., Leroy Crip-pen, Robt. Thomas, Har-old Showley, Floyd Thom-as, Estel Champ and the

Harrold Farms. A "Friendship Acre" is a plot of land from which the harvest is sold and proceeds given to CROP (Christian Response to Overseas Poverty). There are at present 2236 Friendship Acres in 10 states and 129 counties. A signer agrees, said Kumler, to give a minimum contri-bution of \$25.00 to CROP. Some signers choose to give grain or meat com-modities to CROP rather than a cash contribut-

ion. Other residents of Fulton County who are interested in joining the program should contact Chairman Kumler at Grass Creek by calling 526-2762.

Hoffer told investi-gating officers that two men appeared at his Huffman Lake home about 8:45 p.m. and tied and gagged him, his wife and four children. The two later forced Hoffer and his nine work old cont his nine year old son, Brett, to accompany them to the Atwood branch bank. He said his son and one of the men stay-ed in the car and that he was warned his son would be killed if there was trouble.

After taking the money the two men drove the Hoffers back home where they were bound and gag-ged along with other members of the family. other

Mentone Lions See Rose Bowl Program

Members of the Mentone Lions Club met Tuesday evening at Teel's Rest-aurant. Dr. Wymond Wilaurant. Dr. Wymond Wil-son presented a program and commentary on the 1968 Rose Bowl Parade, and members enjoyed the colorful slides and de-tailed description of each float and entry. The meeting opened with the singing of "A-merica" led by Lion Roy Cox and the invocation Given by Lion George

tox and the invocation given by Lion George Welch. During the bus-iness meeting it was an-nounced that Ladies Night will be held Tuesday evening, Dec. 10. It was also announced that a guest and member-ship night will be held on Tuesday, Jan. 14.

Hoffer, a former man-ager of the Atwood bran-ch who was recently recently transferred to the main branch at Etna Green. main had had continued to work at Atwood on Friday night and Saturday morn-ing. He could give of-ficers no clue as to how the men left the scene. An audit conducted on Wednesday set the offi-cial loss at \$4,037.

Rochester Schools Face **Injury Suit**

Two suits totaling \$7,200 has been filed in Fulton circuit court by Donald Beattie Jr_{\bullet} , Rochester, against the Board of Trustees of the Rochester Community Schools.

Beattie alleges the board was nelgigent in allowing a "defective and dangerous" door mat to be in use at the the entrance of the south Columbia Elementary

Columbia E lementary School Building. The complaint states that his daughter, Cyn-thia, then 11 years old, on Nov. 28, 1966 trip-ped on the door mat and fell through a window fell through a window glass. It states that Cynthia suffered a sev-ere cut on the inside of her right leg, was hospitalized an extend-ed time and will require plastic surgery to re-move the scar.

plastic surgery to re-move the scar. Beattie seeks judgment for \$3,300 for past and future medical bills. The other suit filed on behalf of Cynthia seeks a judgment of \$3,000 for personal injuries.

Can Penguins fly?

Can Penguins fly? While Penguins cannot fly in the air, they do, however, "fly" in the water, at speeds up to 30 miles an hour. While swimming, they can dive with a thrust of their flippers and travel 30 feet underwater before surfacing. Pen-guins differ from most other birds in that their feathers cover the body completely and are so small they look like scales. Densely packed together, the feathers shed warm. Penguins spend most of their lives in the water.

Why do you blow out the candles on your birthday cake?

When your between the candles on your birthday cake, you are following a very old custom. People used to believe that by blowing out birthday candles they were blowing away all the bad luck of past years. That is why there is a candle for every year.

which products are purchased on world markets. The truth is that U.S. soy-beans are harnessed with an inflexible pricing structure — due mainly to a high price support base. As a result, U.S. soybean oil is failing to com-pete where it was once "king." Oilseed production in foreign countries has been increased and is taking over the markets. "The world is looking else-where for its edible oil supply." the European buyers said. And current statistics prove it — already the U.S. has lost 12 percent of its export business in eastern Europe and the Middle East. "American farmers must re-

Soybeans are America's "Cinderella Crop," Dr. Burline, an agronomist at the University of Illinois, tells leading European soybean buyers. More than 146 of the foreign soybean buyers toured major Midwest soybean areas and were guests of the University's Agricultural Experiment Station. The European buyers warned of loss of key world soybean markets unless U.S. restores price flexibility.

level is a major influencing factor on the price level of oils throughout the world." says Jan Randag, London-based Senior Vice President of the International Association of Cord Combara

International Association of Seed Crushers. "A too-high price level for U.S. soybeans provides an in-centive to increase production of competitive oilseeds else-where," he points out. "We have little choice but to buy from those who are the cheap-est."

from those who are the cheap-est." Randag was spokesman for more than 140 soybean buyers and their wives who recently completed a tour of Midwest-ern soybean producing areas. The group combined the tour with the International Associa-tion of Seed Crushers Congress in Washington, D.C. Because of the soybean price dilemma, as pointed out by the European buyers, many soy-bean industry leaders are ad-vocating the immediate reduc-tion of soybean price support levels to \$2.06 per bushel. This 45-cent reduction would give U.S. soybeans the necessary price flexibility to compete, they say. Such a support level would put U.S. soybean oil on world markets at 7 cents per pound — enough to make it fully competitive again. These same U.S. soybean leaders point out that a re-duced soybean price support does not set a fixed price for the growers' soybeans. Rather, it permits soybeans to trade above this price. as determined by the demand for soybean products on world markets. They feel increased world de-mand would increase soybean movement and keep farmers' prices at profitable levels.

HAPPIEST SEASON OF THE YEAR

Christmas Carols, sung by sweet young voices, are songs of joy. Joy is expressed in the lyrics, there is joy in the singing, joy in hearing them sung. This is the happiest season of the year for Christendom. "Joy to the World" is expressed by more people at Christmas time than any other period of the year. They become infected with the happy spirit of the season.

It is also true that you may experience happiness and gladness the year 'round through regular attendance at, and devotion to the church of your faith, for it teaches and emphasizes one all import-ant truth,—"there is more joy in giving than in receiving." You need but look around you for testimony that the lives of many noble people are enriched and brightened because of this fact, stressed and proven by the Church. In the spirit of Christmastide your Church stands ready to rejoice with you the year around, to help you build a happier and better life for you and your family.

Hospital Program Is Approved

Members of the Kosciusko county board of commissioners accepted and unanimously approved a 10-point program sub-mitted by a citizen's study group that has been searching for a solu-tion to the county's long-standing community hospital controversy.

The program recommends establishing a tax-exemt voluntary community hospital corporation, ap-proved as such by the IRS and dedicated to owning and operating an ac-credited hospital facility.

It also recommends that its board of directors be composed of people sufficiently interested sufficiently interested in community health and welfare, chosen to re-present all geographic areas of the county. Also, that the corporate structure of the Kosci-usko Community Hearital usko Community Hospital, Inc. be used as a ve-hicle to accomplish this. And, further, that the board of directors as constituted now, will be replaced with new members from all area of the county and city. The only member of the citizens' study the citizens' study group who cast a dis-senting vote was Forest Miner of Mentone.

Urge Glove Consumers To "Buy American"

At its recent annual meeting in Chicago, the board of directors of the 66-year-old Work Glove Manufacturers Association reviewed the status of the work glove industry in th is country and concluced that the best interests of the nation and of its citizens would be served by a "Buy Ameri-can" policy and adopted a resolution calling upon all consumers to buy only American-made buy work gloves. It was pointed out that during the last few

years, cheap work gloves manufactured abroad have been entering this coun-try in ever-increasing quantities and that al-most all of these cheap imported work gloves are produced in nations having wage scales so low they might be classified as "slave wages." Not-ing that the standard of living in the U.S. does not permit any domestic manufacturer to offer such ridiculous wages to its workers, the Associ-ation said the effect these imports is to of deny employment to the people of this country who might otherwise pro-duce goods for domestic consumption. It said a continued trend could compel American work glove manufacturers to glove close their doors, put-ting thousands of Amerworkers out of a ican job. Current law requires

The Birth of Jesus Predicted AND in the sixth month the angel Gabriel was sent from God unto a city of Galilee, named Nazareth, to a virgin espoused to a man whose name was Joseph, of the house of David; and the virgin's name was Mary. And the angel came in unto her, and said, Hail, thou that art highly favored, the Lord is with thee: blessed art thou among women. And when she saw him, she was troubled at his saying, and cast in her mind what manner of salutation this should be. And the angel said unto her, Fear not, Mary: for thou hast found favor with God. And, behold, thou shalt conceive in thy womb, and bring forth a son, and shalt call his name JESUS. He shall be great, and shall be called the Son of the Highest; and the Lord God shall give unto him the throne of his father David: and he shall reign over the house of Jacob for ever: and of his kingdom there shall be no end. Then said Mary unto the angel, How shall this be, seeing I know not a man? And the angel answered and said unto her, The Holy Ghost shall come upon thee, and the power of the Highest shall overshadow thee: therefore also that holy thing which shall be born of thee shall be called the Son of God. And, behold, thy cousin

Elisabeth, she hath also conceived a son in her old age; and this is the sixth month with her, who was called barren. For with God nothing shall be impossible. And Mary said, Behold the handmaid of the Lord; be it unto me according to thy word. And the angel departed from her.

-St. Lake 1:26-38

The Birth of Jesus

AND it came to pass in those days, that there went out a decree from Caesar Augustus, that all the world should be taxed. (And this taxing was first made when Cyrenius was governor of Syria.) And all went to be taxed, every one into his own city. And Joseph also went up from Galilee, out of the city of Nazareth, into Judea, unto the city of David, which is called Bethlehem (because he was of the house and lineage of David), to be taxed with Mary his espoused wife, being great with child. And so it was, that, while they were there, the days were accomplished that she should be delivered. And she brought forth her firstborn son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn. -St. Luke 2:1-7

Dear Friends, While I was in Bible College, I was told ov-er and over again of the increase in comprehen sion in learning through eyes over that of ears. This truth brought home to me the was in a new way during my recent visit through N. recent visit through N. Africa. I had heard many tell of the count-ry and the people, even seeing pictures, but never really realized what it was like until I saw it for myself. The poverty of the country is pathetic. A missionary told me that in N. Africa there are only two classes of neo-

in N. Africa there are only two classes of peo-ple--the rich and the poor, the poor natural-ly being in the major-ity. From what I saw, I would guess this to be true. I never case be true. be true. I never ceased to wonder at the fact that the cafes were al-ways full of men all day long just sitting pass-ing the time of day. I was told that the major-jobless! Even the worst "shack" in America would seem nice in comparison with some of the mud-walled and floored homes I was in. Not a chair I never ceas-I was in. Not a chair in sight, an old blank-et or cushions for sleep ing, a courtyard, a suitcase or sofor stor-ing clothes would be the extent of their worldly goods. Rarely does an goods. Rarely does an Arab have more than a couple of rooms for a family of 6-10 people.

My mind, which has been oriented to the need of cleanliness and

sanitation, was shocked with all the filth. It makes you wonder how the present number of children even manage to reach adulthood. Men on the street will serve on the street will serve tea, etc. to one, douse the glass up and down a few times in cold, clear water and serve the next client. The people are constantly spitting on the sidewalks and you never know when a lucky shotwill hit your foot! Small children don't wear diapers or panties, just go regardless of the place or the company --less washing for the the place of the company --less washing for the mother, I guess. The children are always fil-thy and it seemed that the flies just sat a-round their eyes and nose and neither the child nor the mother, ever bothered to brush them off. Can under -stand why so many small children have eye dis -eases. eases.

Another area is the fatalism seen in the wofatalism seen in the wo-men of N. Africa. Over and over again I met girls in their early or middle teens who had been "shut-in" by the family. The family feels that these girls are of marriageable age and they must start looking for a husband for her. for a husband for her. A man does not want a girl that other men have seen. I never ceased to marvel at the way these girls seem to resign themsel-ves so quickly. Insecticides **Pose Threat To Nature**

The need for knowledge of the ecology of forested areas is becoming increasingly evi-dent as man intensifies his use of forested lands for wood products, watersheds, wildlife habitat, and recreation. Parallel needs for knowl-

edge of the ecological effects of insecticides and pesticides are also obvious following the widespread use and misuse of chemicals. Many scientists have voiced concern over the use of insecticides preceding knowledge of the total effects of the substances on the environment, especially upon the species for which the control is being sought.

The use of radionuclide-labeled insecticides, such as malathion and DDT, allows the detection of the pesticide more readily than chemical techniques. As use of pesticides increase, redistribution of the substances becomes critical. Ohio State University, which is studying radio-nuclide tracer techniques for evaluating the effects of these chemicals on the ecology of chemicals on the ecology of marsh wildlife for the Atomic Energy Commission, has found there is evidence that some organisms store large amounts of poisons that later may become toxic to them-selves and their predators. Fish resources are also threatened by leaching and runoff of toxicants from wa-

Thus the use of nuclear energy by conservationists is increasing, and through radio-nuclide tagging of particular ecology systems it is be-coming possible to unravel the movements of the animal the movements of the animal kingdom.

was the night before Christmas, when all through the house

Not a creature was stirring, not even a mouse; The stockings were hung by the chimney with care, In hopes that St. Nicholas soon would be there;

The children were nestled all snug in their beds, While visions of sugar-plums danced through their heads; And Mamma in her 'kerchief, and I in my cap, Had just settled our brains for a long winter's nap,—

When out on the lawn there arose such a clatter, I sprang from my bed to see what was the matter: Away to the window I flew like a flash, Tore open the shutters and threw up the sash.

The moon on the breast of the new-fallen snow Gave the lustre of midday to objects below; When, what to my wondering eyes should appear, But a miniature sleigh, and eight tiny reindeer,

With a little old driver, so lively and quick, I knew in a moment it must be Saint Nick. More rapid than eagles his coursers they came, And he whistled, and shouted, and called them by name:

"Now, Dasher! now, Dancer! now, Prancer and Vixen! On, Comet! on Cupid! on, Donder and Blitzen! To the top of the porch! to the top of the wall! Now, dash away! dash away! dash away all!"

As dry leaves that before the wild hurricane fly, When they meet with an obstacle, mount to the sky, So up to the house-top the coursers they flew, With a sleigh full of toys—and St. Nicholas too!

And then, in a twinkling, I heard on the roof, The prancing and pawing of each little hoof. As I drew in my head, and was turning around, Down the chimney St. Nicholas came with a bound.

He was dressed all in fur, from his head to his foot. And his clothes were all tarnished with ashes and soot! A bundle of toys he had flung on his back, -And he looked like a pedlar just opening his pack;

His eyes -- how they twinkled! his dimples, how merry! His cheeks were like roses, his nose like a cherry! His droll little mouth was drawn up like a bow, And the beard of his chin was as white as the snow....

The stump of a pipe he held tight in his teeth, And the smoke, it encircled his head like a wreath. He had a broad face, and a little round belly, That shook, when he laugh'd, like a bowlful of jelly.

He was chubby and plump: a right jolly old elf; And Haughed, when I saw him, in spite of myself. A wink of his eye, and a twist of his head, Soon gave me to know I had nothing to dread.

He spoke not a word, but went straight to his work. And filled all the stockings—then turned with a jerk. And laying his finger aside of his nose, And giving a nod, up the chimney he rose.

He sprang to his sleigh, to his team gave a whistle, And away they all flew, like the down off a thistle. But I heard him exclaim, ere he drove out of sight, "Happy Christmas to all! and to all a good night!"

Good wishes from your friends at the electric company.

Cardboard Castle Is Easy to Make for Holiday Fun

"Too pretty to throw away." On Christmas Eve or Christmas morning, as beau-Christmas morning, as beau-tifully-wrapped packages are opened, this remark is likely to be often repeated. The Commission put into effect its Radiological Assis-Plan established in tance 1958 to protect the publ health and safety from the accidental loss or release of radioactive material. In England, on the day after Christmas, clergy-men used to open the church alms-boxes and church alms-boxes and distribute the money to the needy. Later, it became customary to give boxes of money on that day to people who had served you during the year. December 26 is still known as Boxing Day in Britain. bassadors to the United States and their staffs to an interna-tional toy-in. The children, from 63 coun-tries, jetted from Washington to New York for the day of play, chaperoned by members of The Hospitality and Infor-mation Service, a volunteer or-ganization of 400, whose spon-sors are the wives of Cabinet members and Washington, D.C. Commissioners. "Can we play with every-thing"? one little boy asked, looking over the more than 2,000 toys, games and decora-tions. Yes they could — and they did. Later, the items in Playtime, U.S.A. were donated to charity.

S.N. Shesler We are approaching Christmas Day. As a Chri-stian people we should all be shouting happy. Peace is being restored to the world, the sword has been laid down and the powerful guns have been spiked. Our boys are coming home in dro-ves by the thousands. This should be a happy season. But it is not. So many of our people are in sorrow. Death is loose on earth and walking up and down seeking what man, what wo-man, what child it may kill. Scores of homes are in sorrow because the flu has taken loved ones. This is why we cannot appreciate this Yuletide season and the blessing of the recent Armistice, the return of our boys and the oth-er good things of life, as we would love to do as a great loving people as a great loving people

Candy Through The Ages

Candy--that wonderful sweet treat, has a his-tory as full of fascin-ating problems as a box of chocolate has fillings. It all began thousands

of years ago in ancient Egypt when according to the punsters, mummiss and dads gave good chil-dren a honey-based confection made with nuts. figs and spices.

Urientals, however, came up with another sweet thought--assorted fruits preserved in ho-ney solution. In the Midda

americans, of course, got into the act. By the middle of the 19th century 380 well estab-lished small factories insned small factories were offering a variety of lozenges, stick can-dy and jujube paste. This last is obsolete today, but two new confections took its place --the lollipop and chew-ing gum, and each creat-ed its own industrial problem.

Lollipops (which were originally known as "suckers") attained wide distribution when a ma-chine for their manufac-ture came out in 1908. The firm which introdurne rirm which introdu-ced it, was worried. "It makes almost 21,000,000 lollipops a year. That's more than we can possib-ly sell," they complain-ed. ed.

Shortly after the Curt-iss brothers concocted the first sample of chewing gum on a Franklin stove, they had a real problem. What to name problem. What to name it? Consequently Amer-ican jaws began rhymically moving to a product which was called every-thing from "Licourice thing from "Licourice Lulu", and/or "Four in Hand" to the patriotic,

According to researchers from Shulton, Inc., the French visit all their friends on this holiday and the Mexicans hold a festive fiesta.

New Year's Around The World

While you may raise your glass of champagne from France and sing Auld Lang Syne when the the clock strikes 12 on New Year's Eve, your Japanese counterpart may be sipping cola from America while singing Otanjobi Omedeto Gozai-masu (Happy Birthday to --for the stroke of hight means it's You midnight means it's everyone's birthday. A public relations girl at the Shulton Com-

pany has sent in (In the hope of getting her company's name publici-zed in these columns) a whole set of facts on how New Year's is celebrated throughout the world.

In ancient China, people took a different approach to the First ople approach to the first Day. They cleaned house, paid debts and closed their shops. Then they shot off firecrackers... i who can ever forget New Year's in Chinaand town of any big Ameri-can city, with its col-orful procession of pal procession of pa-dragons breathing cheer to everyone? old Japan, New 's was a time for per good che Tn Year's Year's was a time for everybody to don new clothes, take three day off from work and visit their friends. Each gatepost would be adorn-

ed with green pines and bamboo. And over each door would hang red lobsters, crabs and scar-let tangerines, stand-ing for long life and

happiness. Gypsies in Spain used to marry on New Year's Eve. The 18th century writer George Borrow tells us that a main feature of the bridal ceremony was the feasting associated with it. Once the Gypsy couple took their vows, guests swirled down sherry and ate and sang and anceds throughout the night throughout night

throughout the night and day. Not to be outdone, It-alians just consider January 1st as part of their Yuletide festival, and so revel until Twel-fth Night, 12 days after Christmas. In France, New Year's Day is so New rear's Day 15 so singular that adults let Christmas pass by and exchange presents on January 1st.

The abcient Egyptians, Phoenicians and Persians began their year at the autumnal equinox (Sep-tember 21) and the Gre-eks until the fifth century B.C. at the winter solstice (December 21.) The ancient Romans once celebrated the beginning of the year on December 21st, but Caesar by the

adoption of the Julian postponed calendar

Though wining, dining and merry-making have been traditional ways to celebrate New Year's to celebrate New Feal a each country has its own technique. In Swit-zerland, not only people get all fired up, but also cannon: the peace-ful Swiss shoot off all their cannon at midnight, Shaking and breaking is a popular technique in Italy, where New Year's is welcomed not only with dancing, but also by throwing old china with dancing, but also by throwing old china into the fireplace! A-merica's colorful tech-nique of painting the town red is matched a-head of time by women who shampoo color into their hair.

But coloring hair for New Year's isn't new. In the 1800s, while Na-In the 1800s, while Na-poleon was polishing his waltzing technique with Josephine, French-women sometimes spent an entire day dyeing their tresses for ele-gant parties.

the other side of On un the other side of the ocean, however, rites marking the beginning of the new year were also practiced by many North American Indian groups, but the time for such ceremonies varied. For the Seneca, an Iro-quois group of the Eastern Woodland, the New Year begins in February; for the Eskimo, in the for the Estimo, in the fall; for the Northwest California tribes, late in July; for the Hopi, in November; and for other Pueblo Indians, at

the winter solstice. New Year's observances among the Indians varied among the Indians varied from area to area. The Seneca rites, for in-stance, last a total of seven to eight days. On the first day all fires are putout and the ash-es scattered. New fire s made and a white dog

bulb snatcher's bonus:

To remove a broken light bulb without taking the chance of cutting yourself on jagged edges, press a large cork against the shat-

tered base of the bulb and unscrew it easily.

dispose of disposal aroma:

To keep the waste disposal really clean, once a week give it a good squirt of liquid detergent and a little hot water. Let it run for a few minutes with the water turned off. As soon as the foam dies down, repeat and later flush with cold water.

look ma, no lumps!

Lumpy paint can be easily strained without pouring it from can to can by cutting a piece of screen wire slightly smaller than the

diameter of the paint can. Then, by simply dropping it onto the surface of the paint, and pushing it gently to the bottom all of the paint will be above the screen and the lumps underneath.

dip tip: Serve ice cream at a party without the last minute rush. Prepare individual servings ahead of time in muffin tins lined with a double-thickness of cupcake papers. Store the entire tin in the freezer until serving time.

comfort resolution:

Resolve that early in 1969 you'll call Public Service Indiana and arrange for a quick, no-obligation estimate of the cost of enjoying electric heat in your home.

prevent stick-ups:

Glasses may be stacked without fear of sticking together if a tooth-pick is placed between each tumbler.

Let The Day's Spirit Not Be Forgotten When The Morrow Dawns

Lighted candles, holly, pine cones and needles—beautiful decorations that somehow touch a responsive chord in all men, for they are symbols of good will.

The inspiration of Christmastide is always enobling, stirring men to good deeds and to truly brotherly relationships with their fellow men. He, whose birth the season marks, would wish it so—and He would also wish us all to continue living in His spirit of love even after our calendars tell us the Christmas season is past.

An idea carried from the former EUB so-ciety encourses apob ciety encourages each member to read at least four books during the year. World Day of Prayer will be March 7. The church kitchen can

use towels, it was noted. Mrs. Pearl Lackey read the selection by Hayward Brown, "We Too Are Bid-den." The twenty seven den." The twenty seven members present enjoyed the reading entitled, "Jesus, My Son," by Hel-en Rayburn Caswell giv-en by Mrs. Jerry Hudson, who protrayed Mary, the Mother of Jesus, remin-iscing with John. Mrs. Garrett Phillips sang intermittently through-out the selection, "In-fart Holy.". "Never Was fant Holy," "Never Was A Child So Lovely" and "I know Not How That Bethlehem's Babew accom-panied by Mrs. Ruth Urschel.

Tom Fugate con-Mrs. cluded the program with "A Christmas Prayer For You," and Mrs. Ruth Ur-schel played Christmas carols as everyone en-joyed singing. Refreshemnts in the,

Christmas colors were arranged buffet style on the table centered with white poinsettias and candles. Mrs. Goldie Mollenhour poured tea and coffee, assisted by Mrs. Herman Olsen and Mrs. Carl Whetstone.

JOLLY GOOD NEIGHBORS HOLD CHRISTMAS PARTY

The Jolly Good Neigh-ors held their annual Christmas party at Teel's Restaurant in Mentone. The site of gaily decor-ated tables and then happy faces of friends helped put everyone in

halped put everyone in a holiday mood. A welcome was given by Mrs. Dorthis Stegner and Mrs. John Rose. Mrs. Deverl Jamison returned thanks before the deli-cious smorgasboard meal.

Entertainment was giv-en by Mrs. Willard West and her two daughters.

A short business meet-ing followed. Then came the time to pass out the gifts and reveal the Secret Pals.

Everyone received some-thing equally beautiful-ly or useful. Everyone then went their separate ways with thoughts of how to make cì. ly E next year even better.

Scientists Find-

Grizzlies Hold Own

MENTONE

0

Montana University's Cooperative Wildlife Research Unit has been investigating the grizzly bear through the use of radio-telemetry to determine whether this vanishing species is increasing, holding its own, or whether the population is decreasing. Of particular interest to the scientists are the age at which the female bear matures and breeds, survival of the offspring, living area required for a single grizzly, and winter

denning conditions. This Atomic Energy Commission-sponsored study has been quite successful and it has already been determined that the

grizzly is holding its own in Yellowstone, and the species may actually be increasing slightly.

NEWS

The Atomic Energy Commission has a direct interest in the grizzly bear studies, since this is a major species. The Com-mission wants to know how these animals live, breed, act and react in a normal environment before investigating whether radiation can threaten the species by disrupting the life cycle. This work is also receiving support from the National Science Foundation and the National Geographic Society.
