AKRON MILL BURNS: An early morning blaze completely destroyed the main building of the Akron Feed and Grain Company in a blaze Monday morning. Fireman from Akron, Mentone, Rochester, Burket and Silver Lake controlled the blaze, containing it in the three-story structure which has been a land mark in Akron for over 100 years. The blaze was reported at approximately 5:30 a.m. by an employee of the Akron Foundry, who spotted it on the way to work.

The mill, located on So. West Street, was a complete loss. Firemen saved the adjoining buildings, an auto parts store to the north of the structure, and a lumber building to the east.

The building was owned by Shannon Buck of Rt. 1, Akron. No cause for the blaze has been determined. (NEWS Photo)

Tony Feldman dies of injuries sustained in car-truck crash

James A. "Tony" Feldman, 19, of Rt. 2, Akron, died Wednesday, January 30, 1985 of injuries sustained in a two-vehicle accident on Friday, Jan. 18, on St. Rd. 114, East of Akron.

Feldman apparently lost control of his auto on the ice and snow covered road and struck a pickup truck driven by Mark A. Milam, 20, Rt. 1, Silver Lake. Feldman died of internal injuries at South Bend's St. Joseph Medical Center at 11:30 a.m. Wednesday.

Milam who suffered from facial lacerations and injuries had been transferred from Woodlawn Hospital to Fort Wayne's St. Joseph's Hospital. He was released from that hospital on Jan. 20.

James A. Feldman

James A. Feldman was born January 28, 1966 in Warsaw to James L. and Sandra L. Denny Feldman, who survive. He was a lifetime resident of the Akron-Mentone area and a

1984 graduate of Tippecanoe Valley High School where he was president of the Future Farmers of America during his senior year. He was employed by R.R. Donnelley and Sons, Warsaw and was a member of the Hillcrest Baptist Church in Rochester.

Surviving with the parents are two sisters, Teresa and Katina, both at home; the paternal grandmother, Linnie Feldman, Mentone; the maternal grandmother Betty Denny and the maternal grandfather, Robert C. Denny, both of Warsaw.

Services were Saturday at 1:30 p.m. in the Hillcrest Baptist Church with the Rev. Olin J. Corbitt officiating. Burial was in the Nichols Cemetery. The King Memorial Home in Mentone was in charge of arrangements. Memorials may be made to the Hillcrest Baptist Church at the King Memorial Home.

Truck-train collision

No serious injuries were reported, but extensive damage was done in a train-truck collision at the Walnut St. and Norfolk & Western railroad tracks early Monday morning in Burket.

Kosciusko County Police reported a Croten Egg Farms semi-tractor trailer driven by Larry L. Heisler, 1630 Lilac Lane, Warsaw, broke a driveshaft as the truck was crossing the railroad tracks. Heisler got out of the truck to get chains and another truck from Croten's to pull the vehicle off the tracks.

Heisler contacted the county police so Norfolk and Western could be contacted but the call was too late as the engineer could not stop the train in time to avoid a collision.

The train, traveling at about 20-40 mph, hit the truck.

loaded semi-tractor trailer, completely destroying it, and sustaining extensive damage to two engines of the train. Two sections of railroad tracks were badly damaged also.

The only person sustaining injuries in the mishap was the engineer of the train, Ron Wyatt, Fort Wayne, who was knocked to the floor of the train at the time of the collision. He was not badly injured.

Seward Club to meet

The Seward Home Extension Club will meet Monday, February 13 at 1:30 p.m. in the social room of the Burket United Methodist Church with JoAnna Engstrom and Connie Burket as hostesses.

What To Do When A Death Occurs Out-Of-Town

If you're involved in arranging for a funeral for someone who dies out of town, you should contact us or another local funeral director who will then make arrangements with a highly qualified mortician wherever the death occurred. (We have many, many personal contacts all over the country through our membership in funeral service organizations.)

We'll take the necessary steps to prepare the body for immediate transportation back home. We will confer at long distance with you or other family members locally to plan for local funeral services. It is important, though, for you to remember to call us or another local funeral home FIRST. Especially under these circumstances, you need to avoid duplication of effort and fees.

If you wish further details on out-of-town arrangements, please contact us.

Views On Dental Health

LARRY W. PAMPEL, D.D.S.

REDUCING
CAVITIES BY 65%

Because studies have shown that the addition of a small amount of fluoride to the water supply can reduce cavities by as much as 65%, some 7,000 communities have chosen to treat their water with fluoride over the past 30 years. Fluoride is the single most effective element we have today for preventing tooth decay.

There are other methods of applying fluoride to the teeth such as: topical application at your dentist's office; at-home application of fluoride gel by a mouthguard type applicator; special fluoride mouth rinses; fluoride tablets; and brushing with accepted fluoride toothpaste. But, as a whole, fluoridated water has proven to be the most effective and simplest application.

Is fluoridation safe? Yes! Literally hundreds of carefully conducted scientific research studies have shown that the use of fluoride at the levels recommended for optimum dental health (about one part per million in water) has no harmful effects. Its use is supported by virtually all national and international health organizations.

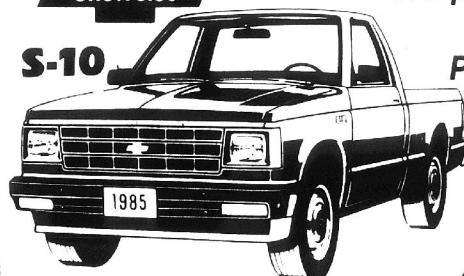

Prepared as a public service to promote better dental health. From the office of: LARRY W. PAMPEL, D.D.S., 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545.

Valley girls in sectional action

In first round action of the Warsaw Girls Sectional Thursday evening, Warsaw topped Triton 56-45 and Wawasee upset Valley 65-42.

Warsaw vs Triton

Triton's lady Trojans came on tough against the Tigers in first quarter action with a record 7 of 11 shots from the floor, putting them on top at the end of the first quarter 16-12. Warsaw responded during second quarter action by putting in six buckets to take a 22-16 lead before the half; only to have Triton fight back with a hitting streak to finish at the half with a score of 28-26.

Beginning the second half, Triton scored first to tie up the score, only to see Warsaw score the next 13 of 15 points, taking a 41-30 lead. Triton's hitting streak cooled off and Warsaw held their lead to 7 points or over

the remainder of the game.

Valley vs Wawasee

Valley ended their season in first round action against third-ranked Wawasee Thursday evening at Warsaw.

Wawasee outscored Valley early in the first quarter action 19-7 and continued pouring on the heat in the second quarter by making 20 points to Valley's 12.

Third quarter action saw Valley make only 9 points to Wawasee's 20 and in the closing time Wawasee scored only 6 points as Valley tried to come back by adding 14 points to their score.

Kathy Helmreich led Valley with 13 points and eight rebounds. Shellie Warren added 10 points. Wawasee's Anita Swope was high point girl with 14 points.

Valley ends its season with a 5-13 record.

Warsaw-Valley tilt completed

Completing a game which began 39 days earlier may not be the way any other coach would choose to keep up the spirit of his team, but anyone would have to agree that the Valley Vikings and Coach Bob DuBois certainly hung in there and gave it a good shot, as they finished their tilt against Warsaw which began Dec. 21st, 1984.

The game on Dec. 21st was postponed because of an electrical failure caused by a storm in the area, resulting in only partial light power at the Valley gym; the decision was made to continue the action at the place it left off on Tuesday, Jan. 22, 1985 -- and that's where it began!

And again

Chad Bibler was at the free throw line for a one-and-one at 4:31 to go in the first half -- score 33-25 in favor of Warsaw.

Bibler hit the first of his

shots Tuesday evening in front of a full house of spectators anxious to see the outcome of the postponed game. During the finish of the first half, the Valley Vikings came to within three points, twice, of the Tigers, but ended the first half at 45-38.

Second half action

With the full support of all the fans, Valley closed the Tiger's advantage to seven points four different times during the last minute and a half of the game. Warsaw led by as much as 12 points during the game, but Valley held them to a seven point win at the end.

Valley had four players in the double figures with Steve Lester and Dale Miller both scoring 14 points, Bibler had 13 and Shawn Cumberland 12. High point man for Warsaw was Grose with 23 points.

waring, Josh Smith and Randy Paris won in 1:53.4. Dan Cave scored 212.55 points in the diving event and Paris won the 100 free-style in 51.6 seconds.

Second place winners for Valley were Paris in the 50 free, Smith in the 100 butterfly, Paul Goodwin in the 400 free, Beery in the 100 backstroke, Manwaring in the 100 breaststroke and the 400 free relay team.

Valley bests Cass 52-47

The Tippecanoe Valley Vikings extended their season record to 8-4 in a win Saturday night over the Lewis Cass Kings.

Applying a full court press and capitalizing on Valley's turnovers, Cass forced the Vikings to change their method of action, which resulted in an overtime.

First quarter action saw the Kings in the lead 16-10, but Valley came back in the second quarter more settled, and cut the lead to two points at halftime, ending 25-23.

Valley missed their first seven shots in the third quarter, allowing Cass to

build their lead to 35-26, only to have Valley come back, showing superior scoring ability and outscore the King's 10-2.

Senior David Hopkins, coming off the bench, opened the final period with a jump shot at the top of the key to give the Vikings the lead for the first time at 38-37. Fourth quarter action saw the score tied with a free throw by Johnson who connected with one shot on a one-and-one tying the score at 43-43. The game was scoreless during the last few seconds, due to good defen-

sive action on the Viking's part, not allowing the Kings a chance at a shot.

Shawn Cumberland's two consecutive buckets from the field, sent the Vikings ahead during the overtime action, leading the team to score eight points without an answering bucket from the opponents. High point man for the game was Shawn Cumberland with fourteen points, Johnson added nine points, Chad Bibler, eight and Hopkins seven points. High point man for the Cass team was Gremelspacher with ten points.

Rochester trips Viking girls

Playing without their lead scorer, Amy Jamison, who had an injury, Valley faced a superior Rochester team as they played their last game of the regular season Monday, Jan. 28 on the Rochester court.

Valley takes a 5-11 season into their first game of the sectional which began Thursday, Jan. 31, against Wawasee, in the Warsaw Sectional.

Kathy Helmreich led in points for Valley with eight.

Score by quarters

First quarter, Rochester led with 16 to Valley's four; second quarter 10-32; third quarter ended 16-44, fourth quarter 24-55.

Henson sets record

Former T.V.H.S. head basketball coach Floyd Henson made Indiana basketball history Saturday evening. Floyd is the first coach to ever win a Sectional in both boys and girls basketball. Henson is coach of the Caston girls basketball which won the Rochester sectional Saturday. He coached the Akron Flyers through a 1974 Sectional victory.

Valley takes Culver 64-54

Valley took the lead late in first quarter action at the Culver gym Friday, but it took until the last quarter to wrap it all up.

Valley led 32-29 at the half, gained a lead of seven points late in the third quarter, and led by 13 points, two minutes to the end.

High point man for Valley was Kenny Johnson with 18 points and 13 rebounds.

Finish season

Akron's seventh grade boys concluded their season by losing to Mentone 48-16 in the opening game of the Mentone Four-Way Tournament held Saturday, Feb. 2.

The Flyers came out cold, unable to connect on several good shots, and saw Mentone take a first quarter lead of 13-2. Akron was able to play Mentone more evenly in the second quarter as the Bulldogs were ahead 21-8 at the half. The third quarter saw Mentone put the game out of reach as they scored 18 points to Akron's two.

Aaron Brofford, Brian Johnson, and Charles Shepherd each scored four points for Akron while Derek Eaton paced Mentone with 16 while Greg McCleese and Steve Dunnuck added eight apiece. Rick Dittman was Akron's top rebounder with eight, while Brofford hauled in seven. Brofford also had

three steals while Johnson and Tom Ruff each recorded two assists.

The flyers were plagued by 24 turnovers in the contest as well as 26 percent field goal shooting. Akron closes its season with a record of 1 win and 11 losses.

8th girls lose

Akron's eighth grade girls lost to North Miami Thursday evening, 25-23.

North Miami's scrappy girls held Akron's team the first half, leading 7-2, first quarter and 13-12 at the half. Akron took the lead in the third quarter 18-17 but were overtaken in the last minutes of play and lost the game 25-23.

Akron's leading scorer was J. Murphy with 14 points and eight rebounds. D. Evans, S. Johnson and L. Bowyer scored three points each.

Lady Flyers win first round

The Akron Eighth grade girls won the first game of the Camelot Tourney defeating South Whitley 26-14 last Wednesday evening.

In pursuit of mild climate and an active lifestyle, an estimated 1.7 million new residents are expected to move to South Florida in the next five to ten years.

Lured south by climate and beaches, active adults will be looking for communities such as Rainberry Bay in Delray Beach, which provide an abundance of on-site recreation: fully equipped clubhouses, swimming pools, whirlpools, shuffleboard courts, jogging and bike paths, outdoor gazebos, landscaped parks, a fully stocked, nine-acre lake with paddleboards and much more.

Free tax assistance available

Free income tax assistance is available to groups of taxpayers at convenient times and locations in the community, the Internal Revenue Service announced.

Known as Community Outreach Tax Assistance, this group assistance program is designed to either help taxpayers prepare their own returns or help them learn about recent tax law changes, according to Indianapolis District Director Paul Williams.

"Community Outreach Tax Assistance is more convenient for taxpayers, because the program is offered at various locations in the community to taxpayers who are unable to seek IRS help during normal business hours," said Williams.

Community Outreach Tax Assistance offers group self-help tax return preparation, where an IRS assistor leads a group of taxpayers through the return line-by-line. Community Outreach Tax Assistance also offers tax information seminars highlighting new tax law or particular aspects of individual, business and farm income tax returns, followed by question and answer sessions.

If you are part of a group and would like to set up a free self-help session or a tax information seminar for your group, call the IRS toll-free at 1-800-424-1040 Ext. 6543. Residents in the Indianapolis area can call locally at 269-6543.

Take a trip to Mentone - - France

During the Centennial celebrations at Mentone, Alabama, an idea was suggested for a trip to Mentone, France, involving residents of the towns in the U.S. named for this resort center on the Riviera. Drew Wolcott a resident of Mentone, Ala., picked up on the idea and is interested in knowing what people in other Mentones in America think about it.

Only in the tentative stage, the trip would also probably include Paris, Rome, Lucerne and Monte Carlo. It

would originate in Atlanta. Pointing out that the project is no foregone conclusion, Drew states, "It depends entirely on whether or not interest is shown. The suggested date is ten days during the last half of June. Meanwhile, the Madison Travel Agency has been asked to collect data on cost and scheduling." If anyone is interested, you may call Drew Wolcott, 634-4711, or write him c/o Mentone Area Preservation Association, P.O. Box 50, Mentone, Alabama 35984.

NIPSCO Sr. Citizens payment plan available

Northern Indiana Public Service Company has a new plan which helps senior citizens solve the problem of end-of-the-month utility bill due dates and first-of-the-month Social Security check arrivals.

"The purpose of the program is to adjust the monthly due date for retired customers on fixed incomes, and alleviate any hardship caused by the bill's due date preceding the receipt of the monthly Social Security check," said Jack W. Stine, NIPSCO vice president of Division Operations.

He said "This plan should help these customers in their household budgeting and avoid deferred payment

charges on their utility bills."

Stine said the program will be offered to retired customers 60 years of age and older, who receive Social Security benefits and who have a NIPSCO account in their name, and whose utility bill payment falls due between (and including) the 21st of the month and 4th of the following month.

Customers can apply at any NIPSCO customer service office, he said. Proof of age is necessary as well as a service address and NIPSCO account number (found on the bill).

A customer can apply by mail by sending copies of their information listed above as well as a telephone number.

Free Shade Trees for your Spring Planting

The National Arbor Day Foundation is giving ten free shade trees to people who join the nonprofit Foundation during February, 1985.

A Sugar Maple, Weeping Willow, Red Oak, Green Ash, Thornless Honeylocust, Pin Oak, Silver Maple, Tulip Tree, European Mountain-ash, and Red Maple tree will be given as part of the Foundation's campaign to encourage tree planting.

These trees were selected because they provide flowers, berries and nuts, in addition to shade and beauty, according to John Rosenow, the Foundation's executive director.

The Foundation will give the ten free trees to members contributing \$10 during February. The six-to-twelve inch trees will be shipped this spring between February 1 and May 31 when conditions are right for planting. They will be sent with enclosed planting instructions, and are guaranteed to grow or they will be replaced free by the Foundation.

To become a member of the Foundation and to receive the free trees, a \$10 membership contribution should be sent to SHADE TREES, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by February 28, 1985.

What Is An Insured?

Insureds are the most important people ever in my business. I am dependent on them.

Insureds are not an interruption to my work, they are a purpose of it. I am not doing them a favor by serving them, they are doing me a favor by giving me an opportunity to do so.

Insureds are not outsiders to my business, they are part of it.

Insureds are not cold statistics or just names on file cards or a ledger sheet. They are flesh and blood human beings with biases, prejudices, feelings and emotions like my own.

Akron Youth arrested for bomb threat

A 16-year-old Akron youth was arrested at approximately 4 p.m. Wednesday by Kosciusko County's Police Department and taken to the county jail where he was booked for making a bomb threat.

At 7:30 a.m. Wednesday morning Tippecanoe Valley High School Principal John Hill received a phone call from a person claiming that there was a bomb planted in the high school building. It notes that it is quite probable that the Big Foot post office will be discontinued and also the Star Route from Athens to Big Foot, when this rural route gets into working order. State panel works on return of abandoned rail lands

Editors Note: Interest is high at the local level in the following article, taken from the Indianapolis Star recently, about the work being done to return the abandoned railroad rights of way ownership to adjoining landowners. Several local people have filed a suit in the Knox court system for clear title to the lands adjoining their properties. No trial date has been set at the present time. The suit is filed against the Indiana Department of Natural Resources and L.B. Foster.

A state legislative committee Wednesday unanimously recommended passage of a bill that would streamline the process of returning ownership of abandoned railroad rights of way to adjoining landowners. If adopted by the Indiana General Assembly, the measure, H.B. 1125, would apply to rights of way obtained by railroads by easement rather than outright purchase.

It also would make government agencies that acquire abandoned railroad property liable for damages caused to adjoining property by persons using the public land.

A vote on the bill was delayed last week to remove objections of railroads and the Indiana Department of Highways. An amended version exempts the highway department from liability.

GFWC plan convention

The General Federation of Women's Clubs Council of Fulton County met January 31 at the Fulton County Library to make plans for the G.F.W.C. convention to be held March 25th. Mrs. Charles Rauschke presided.

The G.F.W.C. convention will be hosted by the Akron Women's Club and held at the Akron Church of God.

The amended version also eliminated a section that spelled out the process by which railroads could sell abandoned land that they had purchased.

Supported by farm organizations, the bill would make governmental agencies responsible for weed control, maintenance of fences and drainage of the abandoned property they had acquired. Also, owners of adjoining land would not be liable for damages or injuries suffered by any person who trespassed directly or indirectly from former rights of way onto their land.

This section was included in the bill to protect landowners from trespassers who legally may be using rail property acquired by such agencies as the Indiana Department of Natural Resources for hiking, bicycling and snowmobiling.

The Legend of the Valentine
The legend says St. Valentine was in a prison cell.

Thinking of his little flock he had always loved so well And wanting to assure them of his friendship and his love.

He picked a bunch of violets and sent them by a dove.

And on the violets' velvet leaves he pierced these lines divine

That simply said "I Love You" and "I'm Your Valentine."

So through the years that followed from that day unto this

Folks still send messages of love and seal them with a kiss.

Because a Saint in prison reached through prison bars one day.

And picked a bunch of violets and sent them out to say.

That Faith and Love can triumph no matter where you are.

For Faith and Love are Greater than the strongest prison bar

The Akron Nutrition Site volunteer of the month award goes to Margaret Eber. She has given many volunteer hours, also donated cakes, fruit cobbler, etc. She will be honored Valentines Day at the nutrition site. Our thanks go out to Zella Bowman for

Geraldine Hill has been working on patterns, plans to make a quilt for the Akron Nutrition Program. The funds from the sale of this quilt will go into the program. If you have any scrap material suitable for a quilt, that you would like to donate please contact Geraldine or bring it in to the Nutrition Site between the hours of 9 a.m. - 12:30 p.m. She would like for the Akron Keen-Agers to help with this project.

There are so many good books to be read and studied that it is strange the time people waste on trash.

Science Fair set at Mentone School

Students at Mentone School are well on their way to planning what project will be used as their entry in the Mentone Science Fair which is set for completion on March 26.

Projects by students in grades 1, 2 and 3 are optional, although many of the students in these grades do participate. Students use both the school library and the Bell Memorial Library at Mentone for researching their projects.

Mr. Bill Leininger, a teacher at Mentone School and co-ordinator for the fair said that school officials are anticipating having at least 500 projects entered in their fourth annual event.

Four students from the elementary grades and eight students at Jr. High level, with the most points on their projects, will proceed to the Regional Science Fair to be held at Fort Wayne.

Judging of the projects entered will be done on Tuesday, March 26 by local individuals and college personnel. The awards program will be held that evening at the school gymnasium beginning at 8 p.m.

Ramsey joins Staff at Woodlawn Hospital

Bette Lynn Ramsey joins the Woodlawn Hospital staff to provide continuing physical therapy services to both hospital patients and outpatients.

A Rochester resident, Ramsey was formerly employed at Logansport Memorial Hospital. A series of events led to her move to Woodlawn: Physical Therapy Associates asked to cancel their contract when it expired in January; Alberto Lopez, the former therapist, took another position at Colusa Community Hospital in Colusa, California; and Mrs. Ramsey had left her job at Memorial for the birth of daughter Rachael in November.

"I'm taking this position because it is part-time and it will work out better with my family responsibilities," she explains. "We have arranged for the physical therapy department hours to be 10 - 2:30 Monday through Friday."

Ramsey is a graduate of Grove City College in Pennsylvania where she earned a Bachelor's in biology before completing the physical therapy program at the University of Florida at Gainesville.

Ramsey has additional technical training in the rehabilitation of stroke patients. "I find these patients especially rewarding to work with. The literature and research shows that physical therapy does make a dramatic difference in both their rate of recovery and extent of rehabilitation," she says.

Ramsey's husband John is the minister at the First Presbyterian Church in Rochester and is also active

at Woodlawn in the hospital's volunteer chaplaincy program. He and Bette Lynn are the parents of three-month-old Rachael. Bette Lynn is also serving in Rochester as the Assistant Girl Scout Leader.

Books at Akron Library

New books available to the public at the Akron Carnegie Public Library are:

The Kennedys, An American Drama by Peter Collier and David Horowitz - The Kennedy family may well be the most photographed, written about, talked about, admired, hated and controversial family in American history. But for all the words and pictures, the real story has not been told until now. Who are the Kennedys? Are they the brilliant, heroic, extraordinary people their admirers believe them to be? Or are they the arrogant, competitive, self-absorbed children of a willful and immensely rich patriarch, as their detractors claim? In fact, they are all of these things and more.

Cry Out by P.E. Quinn - This book takes us inside the terrifying world of an abused child.

Count It All Joy by Grady Wilson - This book contains warm and humorous anecdotes from one of Billy Graham's longtime friends and associate evangelists.

Kate Quinton's Days by Susan Sheehan. The author brings her skills as a storyteller to the issues of health care and the aged through the compelling account of Kate Quinton, an independent and high spirited Irish woman, who in her later years must endure the emotional and physical anguish of illness and dependence on others.

To London, To London by Jane Hinchman - Nineteenth Century England is the set-

ting for this unusual and exciting adventure of love and romance.

Say These Names [Remember Them] by Betty Sue Cummings - This is the first novel ever to be published that tells the story of the Miccosukee Indian women who managed to survive the incredible suffering of the Second Seminole War in Florida. See-ho-kee's story is set against a carefully researched historical background that reveals these terrible wars from the point of view of those Indians who would not surrender to the White Man's plans to ship them all to the alien territories out west. They were pushed farther and farther south until they were in the Everglades, a refuge only because of its uselessness to the white man.

Be just before

Snow blankets area, emergencies called - Police close highways

The snows of last week have finally abated and with the sun shining, the roads becoming passable, and people getting back into the swing of things -- everyone really can be thankful that the emergencies were small and the greatest hardship was being snowed in and unable to move around for a few days.

The winter storm watches issued for Monday of last week might just as well have included the whole week - it just didn't stop. Although the temperatures climbed above the freezing mark on Tuesday morning and the pouring rain melted some

of the snow, the onslaught of the storm didn't hold off long as snow mixed with freezing rain on Tuesday afternoon and gusting winds and blowing snow continued bring everything to a halt.

All schools in both Fulton and Kosciusko counties were cancelled on Monday and Tuesday. A total of nine inches of snow fall was reported for period extending from Monday at 7 a.m. to Tuesday at 7 a.m. Gusting winds ranging to 30 mph blew the snow into great drifts, closing most roads in the county.

Although a traveler's advisory was in effect for the northern third of Indiana, most people went to work on Tuesday, only to find that the way home for some of them was impossible.

Wednesday, cancellations included along with the schools, many businesses, most meetings and some public offices. Postal service came to a halt as the storm kept the mail deliveries to a minimum for several days. Most of the roads in the two counties by Wednesday were impassable as roads were opened to one lane, only to be snowed shut again as the winds increased and more snow fell. Thursday saw snow emergencies declared again to keep people off the roads for emergency vehicles, but little snow fell.

County police were called to investigate several vehicles in ditches and reported several fender-benders, but no serious accidents were reported. Many people who made it to work last week, spent several nights sleeping in different quarters, but most people were safe and warm. Blowing snows continued Thursday morning cutting visibility to zero for travelers who were brave enough to try, although early in the morning, the one lane roads were snowed under again and people were asked to stay off the roads so road crews could continue their work. Snow emergencies continued until Friday with little more snow falling and road crews hauling snow and digging people out.

Snowmobilers were busy making deliveries of groceries to people stranded in the country.

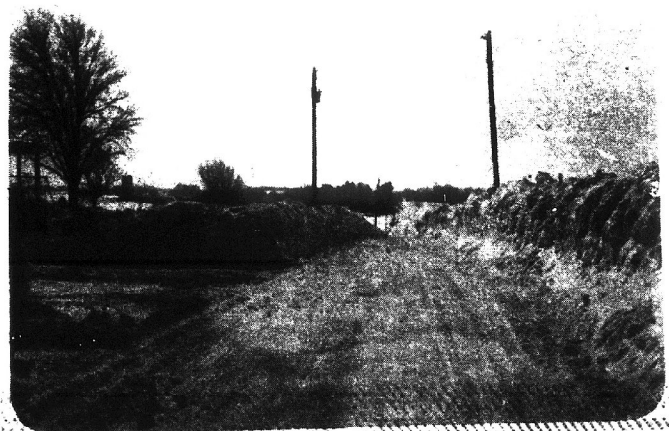

Saturday saw little snow fall, but the wind picked up in the afternoon and closed many roads to traffic once again. Temperatures were in the 30's on Saturday. Sunday saw a reprieve in the weather in temperatures and accumulations of snow, as no snow fell and road crews continued the clean up operations.

Letters to the editor

To the Editor:

On Monday, February 4 about 5:30 a.m., we received a telephone call notifying us that our place of business, Akron Feed & Grain, was on fire. When I arrived at the scene, there were 4 or 5 fire trucks and 25 to 30 firemen hard at work in the sub-zero weather. I stood there with a feeling of numbness and complete despair as I watched our livelihood of 8½ years go up in flames. These firemen kept working, with icicles hanging from their

beards and clothes, as though they had no intention of quitting. I recall looking at my watch about 8 a.m., as the firemen were spraying water on the adjacent buildings, to prevent their destruction. It was at this point that I realized what a sacrifice these firemen from the various fire departments were making. I am sure that most of these men would normally have been at their respective jobs by this time, yet here they were helping us.

We wish that we could thank each fireman personally, for his time and effort. Also, we would like to express our thanks to those who donated sandwiches and drinks for the firemen. We have received many phone calls, letters, and expressions of sympathy and concern. We will always be grateful to everyone who helped us in this time of tragedy.

Sheetz elected to Angus Association

Doug Sheetz, Akron, has been elected to membership in the American Angus Association, reports Dick Spader, executive vice-president of the national organization with headquarters in St. Joseph, Missouri. The American Angus Association, with some 38,000 active life and junior members, is the largest beef cattle registry association in the world. Its computerized records include detailed information on nearly 10 million registered Angus.

New records at Akron Library

New records available at the Akron Carnegie Public Library include:

Brass in Berlin by Canadian Brass; **Great Love Scenes** by Placido Domingo; **Faith Of Our Fathers** by the Mormon Tabernacle Choir; **Vital Signs** by Survivors; **Metropolis** by Giorgio Moroder; **The First Word in Memory** by Janie Fricke; **Condition Critical** by Quiet Riot; **Primitive** by Neil Diamond; **1100 Bel Air Place** by Julio Iglesias; **City of New Orleans** by Willie Nelson; **Friendship** by Ray Charles; **Isolation** by Toto; **Greatest Hits** by Simon and Garfunkel; **First Time** by Duke Ellington.

The world record for hamburger consumption was set back in 1979 by Alan Peterson of Longview, Washington. In half an hour, he managed to wolf down 20 3/4 hamburgers, (weighing 3 1/2 ounces each, for a total of 4 1/2 pounds of meat), plus buns.

The Association records ancestral information and keeps records of production on individual animals for its members. These permanent records help members select and mate the best animals in their herds to produce high quality, efficient breeding cattle which are then recorded with the American Angus Association. Most of these registered Angus are used by the U.S. farmers and ranchers who raise high quality beef for U.S. consumption.

What Is The Value Of A Full-Service Funeral?

Since the beginning of time, man has publicly viewed and buried his dead with dignity and ceremony. Although rituals differ, the funeral service meets the needs of the survivors, the living, as well as providing for the deceased. What are some of these needs and how does a full-service funeral fulfill them?

Realization: First, it declares that death has occurred and it offers testimonial to a life well-lived. Denial of a death is common. The very fact of a funeral and the viewing of the body for casket facilitates the realization of that death.

Emotional expression: The full-service funeral is of deep psychological significance to the living. Sorrow-shared is sorrow-diminished. The full-service and the viewing of the body is the first step toward emotional adjustment after bereavement.

For more information about the full-service funeral, stop by or phone us.

Adopt official Fulton County emblem

Fulton County, along with 13 other counties, was created by an act of the Indiana State Legislature on February 7, 1835. We, the Fulton County Commissioners, feel it is appropriate that we pause and note this 150th anniversary.

Many people of many races have contributed much to Fulton County's growth and development. We wish to express appreciation to all of them, especially to the American Indian, our first inhabitants and ancestors of many of our present residents. Some of our towns and water-ways bear Indian names.

An anniversary is not only a time of looking back and appreciating the past and our forebearers, but it is also a time to plan for the future so that our descendants may have a better place to live and better opportunities.

With this in mind, we proclaim 1985 as Fulton County's sesquicentennial year, and invite all inhabitants to help with the celebration and planning for the future.

We officially adopt the design drawn by Martha Powell Carparell, a descendant of Chief Aubbeenaubee, as Fulton County's sesquicentennial emblem.

On the left, representing 1835, it shows the Potawatomi Indian and his wigwam and the campfire with three logs (official emblem of the Citizen Bank Potawatomi of Oklahoma, whose ancestors were removed from here on the Trail of Death in 1838).

On the right side it shows the present Fulton County Courthouse, the symbol of the white man's system of government and a beautiful example of architecture. The tree in the middle represents growth firmly rooted in the past. As a tree needs big strong roots to withstand the winds of misfortune, so we need family roots and community ties to keep us from being knocked over by hard times and temporary problems.

The tree symbolizes also the raising of crops and reminds us how important farming is to our county, a predominantly rural community. One of our major crops is corn, which the Indians showed the early settlers how to plant.

May God continue to bless Fulton County and help us to be kind to our fellow man, to strive to be the best that we can be, and make good decisions that will cause our county to be a better place in the future.

The gingko tree dates back to the time of the dinosaurs.

In Fashion

Swimsuit designers, not forgetting those with not so perfect shapes, are showing a belted tank-top suit not unlike the fashions of the twenties. Other one-piece suits offer peekaboo bareness, while the princess-styled swimdress flatters up to size 18.

World Day of Prayer is celebrated on Friday, March 1, in churches across the United States and in 170 countries and regions of the world. This 1985 service takes as its theme "Peace Through Prayer and Action." Written by Christian women of India, it calls people the world over to gather for the 98th consecutive year to circle the globe in prayer for peace and is actively become peace-makers. The service seeks to motivate a commitment on the part of participants to become personally involved in the peacemaking process—as individuals and as families within their communities, their nation and the world.

World Day of Prayer is sponsored in the United States by church Women United, an ecumenical movement that brings Protestant, Roman Catholic and Orthodox women together into one Christian "community of caring." "Voice of Democracy" District Winners Honored

WIN VFW AWARDS: Betty Smith (center in the top picture) a student in Tippecanoe Valley High School and Robert Hoffman (center in the lower picture) of Rochester High School received \$250 cash awards and trophies from the Manitou VFW post last week for winning second and sixth prizes respectively in the post-sponsored Voice of Democracy speech contests at their schools. Presenting the awards were state VFW Commander Wayne Smith (pictured left in each picture) and George Love, speech contest chairman. Second District Commander Merl Viney and other district officers were among the crowd of people attending the awards banquet at the Manitou Moose Lodge. (Pictures furnished by the Manitou VFW).

Two local students, one from Tippecanoe Valley and one from Rochester High School, who won the Voice of Democracy contests held at their respective schools, placed at district level in the VFW sponsored contest.

Miss Betty Smith, a Senior at Tippecanoe Valley placed second in the district contest. Robert Hoffman, Rochester High School placed with a sixth. Officials of the contest said they were very pleased with the response from both local schools and interest ran high in the theme for the contest "My Pledge to America."

Students who won with their speeches at their respective schools were: Betty Smith, first; Tiena Fields, second, and Laura Leichy, third at Tippecanoe Valley. Robert Hoffman, first; Anna Maria Arms, second and Missy Gardner, third at Rochester High School.

The sponsoring Manitou VFW post has submitted the

speech by Betty Smith which won second in the district contest, for your pleasure. I am sure as you read this, you will realize what a student this age feels about her country and promises to become.

My Pledge To America By Betty Smith

Look! That little tree is waving at us. Let's go over and hear what this sapling has to say.

"Welcome to the forest. I am an oak tree. My roots are firmly anchored in the soil. I have a straight trunk and my branches are beginning to reach towards the heavens. I want to provide shade for people and a home for birds and animals. I promise to be a sturdy oak tree!"

I am like this young tree. My roots are firmly anchored in the soil of democracy, freedom and justice. Good health and a well-rounded education have given me a

strong trunk. I have branched out in church acti-

vities, 4-H and scout groups, school and community projects, and I am interested in government.

The tree promised to be a sturdy oak tree. To be sturdy elements in the country, young people can develop an awareness of the characteristics needed to become an active citizen.

Young people can pledge their time for service. This includes a variety of activities such as, donating blood during a local red cross drive or spending years in the military service.

Good leaders need patience and enthusiasm to help people work together to reach goals. Young people can use their time and talents for leadership.

For example, one young person organized a leaf rake to help senior citizens in the community. She arranged for several energetic teenagers to meet and rake leaves. She also contacted the senior citizens and asked a farmer to

haul the leaves to his farm. Near the end of the day, when enthusiasm was running low, she used humor to encourage them to finish the yard.

Young people can pledge to be open-minded and willing to learn. They are demonstrating this through the increased percentages of students attending colleges and other post-high school learning institutions. The nation can depend on these people to contribute to the discovery of answers for such problems as, curing cancer, finding alternatives for natural gases, assisting governments in dealing with the increased population, and promoting world peace.

Young people can be good citizens by exercising their right to vote. A knowledge of current events and political issues will help to prepare them for this responsibility.

Citizenship can also be developed on an individual level by learning and practicing such principles as, honesty, respect for authority, and concern for others.

Young people can pledge to conserve natural resources. Again, they can participate at a local level. They can dispose of trash properly and turn off unnecessary lights. On a higher level they can establish wildlife preserves or teach forest safety to children.

Speaking of forests, the young sapling is waving again. Let's hear what it has to say.

"When I was just sprouting from my acorn, I heard a man speaking to a group of young people. He said, 'The past is your heritage, the present is your responsibility, and the future is your challenge!'"

Thank you oak tree. My pledge to America is to be like the tree, with my roots firmly embedded in my heritage, my branches extending to meet today's responsibilities, and my stature increasing to meet future challenges.

No Help, Please

"Did you do these problems at home?" asked the teacher.

"Yes," replied the boy in the sixth grade.

"Then," advised the teacher, "you'll have to ask your father not to help you any more; you're beyond where he left off."

Rev. Terry Canfield Bike-a-thon chairman

The Rev. Terry Canfield has been appointed Chairman of the bike-a-thon in Akron to benefit the Cystic Fibrosis Foundation.

Sibyl Cardiff, Assistant Director of the Recruitment Program, announced the appointment and described this volunteer spirit as vital in helping the Cystic Fibrosis Foundation complete its mission — finding a cure for cystic fibrosis.

Everyone can join in the fun! Participants ask friends, relatives and neighbors to sponsor them by pledging money for each milestone they achieve. Everyone is welcome and encouraged to participate and everyone has a chance to win. Prizes will be awarded based on the amount of money turned in. "At the very least," Cardiff said, "I hope everyone will give generously to sponsor a participant."

Cystic fibrosis — a chronic, degenerative disease that primarily attacks the lungs and digestive system — is the number one genetic kill of children and young adults. "There are some 30,000 kids in this country who deserve, no less than our full-time efforts to help eradicate cystic fibrosis," Cardiff said. "While we go about our business of work and play, these kids are struggling every day just to eat and breathe. The best way to help them is by raising as much money as possible for more research and treatment programs."

Proceeds will help support research to find a cure or control for cystic fibrosis and to help fund a nationwide network of clinics that specialize in diagnosis and treatment, including those located in this area.

Ag Day donor recognition held

INDIANAPOLIS — The Agriculture Day Donor Recognition Ceremony was held this week in Lieutenant Governor John Mutz's office. "Many people help make Indiana Agriculture Day a success each year and this is our way of recognizing the organizations and individuals who support the program financially," said Lt. Governor Mutz, who serves as Indiana's commissioner of agriculture.

The ceremony was coordinated by the State Agriculture Day Committee with assistance from the Indiana Beef Cattle Association, American Dairy Association, Indiana Pork Producers and Indiana Fruit Grower's Cooperative Association. This year's state chairman is Max Crowder of Elanco Products.

Following the ceremony, a round table discussion took place giving donors the opportunity to voice to Lt. Governor Mutz their concerns on current agricultural affairs.

Agriculture Day is an annual event designed to recognize the American farmer as the world's most efficient producer of food and fiber. Agriculture Day activities are currently being planned locally, as well as nationwide, for March 20, 1985.

Some of the tentative plans for this year's celebration include agricultural displays, free food samples, parades, breakfasts, newspaper supplements and billboards.

Agriculture means big business in Indiana," added Lt. Governor Mutz. "Agriculture Day is a celebration for anyone who has ever benefited from agriculture. . . from the farmer plowing in the fields and raising the livestock to the family gathered around the dinner table," said Mutz. He added, "It also signals our commitment to boost the Indiana farmer."

For more Agriculture Day information, contact Roger Stevens, Division of Agriculture, Indiana Department of Commerce, One North Capitol, Suite 700, Indianapolis, IN 46204-2243.

SCUBA DIVERS BEWARE

What does scuba diving have to do with dentistry? If you are a scuba diver, be sure to mention this to your dentist. Ask how the treatment you are having could affect you as a scuba diver. It could save you a lot of unnecessary pain and problems. For example:

If a scuba diver is being treated for root canal therapy which is temporized partially with cotton and he goes diving, complications can result - and most probably will. In diving, the atmospheric pressure changes. In fact, the pressure increases tremendously with each foot you descend. When air is trapped within the cotton fibers in a root canal, the air will expand when the diver surfaces resulting in a whopper of a toothache.

Even a filling which may have an air pocket can cause the diver problems on descent. The pressure is decreased (relative to the outside pressure of the water) and the air pocket is compressed. This could cause pain - and even result in an imploded tooth. In either case, the diver is going to need a dentist in a hurry. This may be a problem, especially if you like to dive off remote islands.

Prepared as a public service to promote better dental health. From the office of: LARRY W. PAMPEL, D.D.S., 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545.

New information for parents on Reyes

In the midst of the flu season, important new information has become available about the development-in-teens and children with flu- of Reyes syndrome, a rare but serious condition that kills 20 to 30 percent of its young victims and leaves many survivors brain-damaged.

The new information comes from a U.S. Public Health Service pilot study of a possible link seen in four earlier state studies between the use of aspirin in treating flu or chicken pox and an increased risk of Reyes syndrome.

The Institute of Medicine of the National Academy of Sciences has reviewed the pilot study and found "strong support" for the link.

Although personnel from the Food and Drug Administration, the National Institutes of Health and the Centers for Disease Control will continue the study through next winter, the Institute of Medicine advised that the federal government not wait to inform and protect the public.

As a result, Health and Human Services Secretary Margaret M. Heckler has asked manufacturers to remove any recommended use in flu and chicken pox from aspirin-containing products aimed at children -- and to add a warning to all aspirin-containing products against use for flu and chicken pox in children and teens.

The pilot study looked at the histories of drug treatments and other factors of 29 young people who got Reyes syndrome last year. Use of aspirin for flu or chicken pox was the common thread shown in 28 of the 29 (whereas ordinarily less than half the young people with flu or chicken pox would be expected to take aspirin.)

Free tax assist

Elderly, low income, non-English speaking and handicapped taxpayers throughout Indiana can receive free tax assistance up to April 15 through two programs sponsored by the Internal Revenue Service.

VITA, the Volunteer Income Tax Assistance program, and TCE, Tax Counseling for the Elderly, both provide trained volunteers to help eligible taxpayers fill out Form 1040EZ, 1040A or a basic 1040. They will also alert taxpayers to the special credits and deductions for which they may be eligible. However, the volunteers do

not handle complicated tax matters.

Taxpayers coming to VITA or TCE sites should bring this year's tax package, all Forms W-2 earnings statements, the interest statements received from banks, a copy of last year's tax return, if available, and any other relevant information concerning income and expenses. Those who received social security or tier 1 railroad retirement benefits in 1984, should also bring their Form(s) 1099.

For information on VITA and TCE sites and times, taxpayers can call toll-free 1-800-424-1040.

U.S. Surgeon General C. Everett Koop, M.D., has said that most childhood illnesses are self-limiting and usually don't require any medication at all. Doctors often suggest that a child with fever simply be made comfortable with cool compresses.

Of course, physicians continue to find aspirin useful and safe for adult, teen and childhood arthritis and other conditions.

Reyes syndrome is a rare condition -- a few hundred cases a year. It was named in 1963 for an Australian pathologist who described it as a swelling of the brain, combined with liver malfunction and blood chemistry disorders leading in most cases to death.

Improved recognition and early treatment of the disease has helped reduce the death rate, but still about one out of four reported cases are fatal.

It is crucial to take action quickly if a child's symptoms occur -- whether or not aspirin or an aspirin-containing product has been used. The first sign is generally persistent vomiting. The young person may be sleepy and lethargic, but still responsive. Within half a day, he or she can become disoriented, combative and delirious.

Untreated, the teenager or child can go into a coma and die.

Thus, Reyes is a medical emergency. A child with Reyes syndrome symptoms must be taken immediately to a hospital, where blood and body fluids can be monitored and a respirator used if breathing fails. Surgery may be needed, in some cases, to relieve pressure on the swollen brain. Therefore, act promptly if you suspect Reyes syndrome.

Farm Bureau Insurance 50th

Farm Bureau Insurance is celebrating its 50th anniversary with Tuesday, February 26, 1985, being one of the year's special days. On this date in 1935, Farm Bureau Insurance was granted its license to do business in the state of Indiana.

Company offices throughout the state will recognize License Day during regular business hours. According to William Baumgartner, agency manager of the Marshall-Fulton-Stark County agency, policyholders and friends are invited to visit the office and enjoy cake and coffee from 3 p.m. to 5 p.m. on Tuesday.

This office opened for business at its present location, State Road 14 West at Bypass, Rochester, in 1980 and provides a complete line of insurance service for families and businesses. Though Farm Bureau Insurance began as a farm-oriented company 50 years ago, it has offered full insurance service to all Hoosier residents for the past 30 years.

Canine cuisine may never be the same since the recent introduction of new Gaius dog food with Cheddar Cheese and Hickory Smoked Bacon Flavor. A unique new taste to delight the pampered palates of pooches around the country.

Never ask for a favor unless you are ready to grant one.

Nature never makes excellent things for mean, or no uses.

Bell Library to hold special fire protection program

Parents of children ages three through kindergarten should mark February 27th on their calendars. At ten o'clock, and again at one o'clock, Steve Shand, of the Mentone Fire Department will present a special fire protection program during Story Hours at Bell Memorial Public Library in Mentone.

Children in stressful fire conditions often fear the fireman in his working gear, resist rescue attempts, and at times, actually hide in closets or under beds.

In addition to seeing a fire fighter in full garb, the children will learn what action to take should a fire occur in their homes.

Madeleine Fisher, Bell Library's director, presents programs of stories and crafts each Wednesday at ten and one.

Kruger resigns Police

Akron's Town Board met in regular session Tuesday, February 19 at the town hall with all members of the board and Clerk Sarah Jane Sutton present.

Reads letter of resignation

The audience participation portion of the meeting started off with a letter of resignation being read by police officer David Kruger. The letter in its entirety follows:

Addressed to: Board of Trustees, Akron, Indiana

Dated 19, February 1985.

Gentlemen:

I have been employed as a member of the Police Department in the Town of Akron since 1 July 1981. During this time, both as Deputy Marshal and as Marshal, I have endeavored to perform in a dedicated manner in order to provide the Town with a Police Department which I felt it deserved, one of which the Town could be proud, and to reflect the professionalism in my job with which I had been imbued at the Indiana Law Enforcement Academy. To this end I have uncomplainingly been available to the public an average of 84 hours a week and have spent several hundred dollars of my own money to provide equipment, reference texts, and other material necessary to my job and for which no Town funds were made available.

However recent events have indicated to me that the desires of the Town as reflected by the comments and actions of the Town's elected Board of Trustees are that a professional Police Department is neither required nor desired.

The Board has made promises which it has not kept. An important one being to meet with the Officers of the Department to discuss comments, problems, and complaints concerning the Department in order that any conflicts or misunderstandings might be resolved. A case in point being the meeting I had with the Board in October 1984 when I was informed that I was being replaced as Marshal by then-Deputy James Spangle. When I asked for a reason the only answer I was given -- and that after considerable delay -- was "...your attitude. And the people of the Town want both of you fired, which we can't do, so we are going to try this reorganization, if Spangle wants to hire you..." When I pressed for specific comments or complaints the Board would not, or could not give me any.

On one occasion a member of the Board told Spangle a deliberate lie concerning my performance of duty -- which would have occurred on my day off -- and that same member, who in his pre-election campaigning stated that he would "...get rid of the Police Department starting with Kruger..." has made other insulting or insinuating remarks in public concerning me personally or my performance of duty. Yet he will not show me the common courtesy nor the courage of his convictions to face me directly with his accusations, be they true or fabricated.

During the last three or four months of my tenure as Marshal members of the Board directed comments or orders concerning the Department directly to the Deputy rather than following the normal protocol of passing them through the Marshal. This was done too frequently to have been coincidental but rather appears to have been an attempt to subvert and undermine the authority of the Marshal.

The members of the Board of Trustees of the Town of Akron have exhibited no real concern or interest in the functioning or operation of the Police Department and leave me with the impression that any knowledge of the Policeman's duties and responsibilities might alter their preconceived ideas of how the job should be done.

This lack of interest in the Police Department and aura of distrust evinced by members of the Board make additional stress to the working conditions which have become personally intolerable. Nothing in these comments should be construed to reflect upon Marshal James Spangle, an officer with whom I have closely worked for almost three years. He is a sincerely dedicated professional Law Enforcement Officer worth far more civil and monetary consideration than he may ever receive from this Administration.

The constraints under which I feel we have to work cause a prostitution of police professionalism and therefore it is with deep personal regret and my sincere apologies to the residents of the Town who have supported my efforts, that to maintain my own self esteem I hereby tender my resignation as Deputy Marshal of the Town of Akron to be effective at 9 p.m. this date, 19 February 1985.

Signed:
David S. Kruger

No other statements were made by either Kruger nor any of the board members and Kruger left the meeting. The board members voted unanimously to accept Kruger's resignation.

Offer trash service

Two employees of the Valley Sanitation Service, R. S. Rochester, appeared before the board to offer their services to the town for trash removal. Charges would remain the same per bag, 50 cents, and they would furnish the tags to patrons. They noted their service would free the town employees several hours each week, plus save on the town trash compactor. Also

Snowmobile problems

Marshall Jim Spangle told the board members he had a lot of problems with snowmobile operators during the recent bad weather, following one person through Pike Lumber yard and through a field and yards on foot when he couldn't catch the person with the police car.

Spangle said the speed limits were not being obeyed, nor were the stop signs being observed, creating a hazard for other vehicles traveling the streets in town.

Board member Richard Drudge said he thought the town board had designated Walnut Street as a "pass-thru" for people to be able to get through town on snowmobiles. Spangle noted that even the town board can not do this without a snow emergency being declared.

President Miller noted that the board should pass some ordinances concerning snowmobiles within the corporate limits.

Spangle said that during bad weather, the law enforcement officer in charge may give permission to operate a snowmobile within town limits only if a snow emergency has been declared. He noted that a town board may make other requirements but cannot supercede state laws.

Trustee Drudge said that people in town who operate snowmobiles need a way out of town, and Marshall Spangle said the town board should get legal advice on the way to handle the matter. Miller reminded him that several times the snowmobile owners in town have been good to deliver medicines and groceries to people stranded in the country, but Spangle again note that you cannot tell them (snowmobilers) to do something against the law.

No Registration

Marshall Spangle told the board that many of the riders had no registration and no numbers on the machines, and some no licenses to drive a snowmobile.

The suggestion was that the town board need ordinances to meet minimum standards of state to cover these requirements, since the town streets are usually cleared enough to get through in vehicles, it is unclear as to how the town can declare a snow emergency. Spangle said that snowmobile owners, if it were checked on a case by case basis might be allowed into town for emergencies.

The board members decided to check with their legal council and determine what can be done with respect to ordinances governing all instances.

Other business

In other business the board:

*decided to repair the dented door on the police car, damaged in a "snow incident" for an estimated \$100 for removing dent and painting.

*okayed a \$25 fee to get license renewal for the police 2-way radio.

*decided to have town pump No. 4 inspected for an estimated \$3,202.50. There may be more cost than the ones estimated after the shaft has been pulled and inspected. President Miller said that the cost for inspection might have been cheaper had there been preventative maintenance on the pumps several years ago. It was noted that pump No. 3 is due for inspection soon.

*shuttled a request for permission for the Class of 1975 to hold a Hog Roast at the City Park from the town board to members of the Park Board.

*gave permission for Val Duggins, who is employed by the town for the purpose of doing the testing on the water samples, etc., to purchase a tool box for the lab, at Day Hardware for \$186.

*noted that Clerk Sarah Jane Sutton would attend a meeting in Logansport on February 26, held by the Indiana Department of Commerce which will review a proposed Final Statement for the Small Cities Community Development Block Grants (CDBG) program. This program is designed to assist small cities in developing suitable housing and living conditions, and to expand economic opportunities. These funds are provided by HUD. Funds total approximately nine million dollars this year for the state of Indiana and recently was the process which the town of Etna Green used to build a new fire station.

*President Miller noted that 52% of the overdue water bills had been paid.

*Board member Richard Drudge said he wanted to personally thank David Kruger and Jim Spangle for installing the heater in the police office and the door windows in the police office and water department office. Hudson and Miller also added their thanks.

*gave permission to Marshall Spangle to approach officials at the high school to select a young person interested in police work as a candidate to attend the workshop held at Plainfield, Indiana by the Indiana Association of Chiefs of Police.

*allowed an expenditure for dues to the F.O.P. and I.C. of P. for Marshall Spangle.

*gave permission to the Citizen's Action Coalition to work in the town of Akron from February 11 to March 31. These people will be cleared through the police and will be taking a survey against dumping toxic wastes. These people may ask the public to donate funds and sign petitions for this purpose. They will be carrying identification cards which the people may ask to see. Marshall Spangle will have a list of the names of the people doing the survey if anyone needs to check with him.

Special note on meter readings

Clerk Sarah Jane Sutton asked that a special note be made by town patrons that the water meters in the south end of Akron were not read this month because of weather conditions. Town employees could not uncover the meters outside, so it was decided to estimate all of the meters in that section. Town patrons in that section of town will have estimated bills until the month of May.

The next meeting of the board will be held Tuesday, March 19th at 7 p.m. in the town hall.

Don't try to get ahead of everyone on the highway or you might be leading the procession horizontally, before long.

Vikings upset No. 17 Oak Hill

The ratings by the Associated Press poll last week, designating Oak Hill as No. 17 in the state didn't mean a thing when Bob DuBois' Valley Vikings took to the floor last Tuesday evening on their home court. Oak Hill received their second loss in regular season and their first TRC loss of conference play.

Valley at the beginning 6-0, then fell behind 20-12 early in the second quarter before coming back to tie Oak Hill 20-20. At half time the score was 35-30 Oak Hill, and they continued to hang on to a 3-point, 45-42 margin, at the end of the third quarter.

At four minutes remaining, Valley tied the game at 50-50. With 2:50 left to play, Valley got the lead for the first time at 53-52 on a three-point play by Shawn Cumberland. Valley's spurt to win began with Dale Miller's tip-in of a missed shot to give Valley a 59-56 lead; with 30 seconds remaining, Shawn Cumberland hit a free throw giving Valley a 61-56 lead, but Oak Hill cut the lead to three points with a field goal. David Hopkins hit two free throws at the 19 second mark to advance Valley once again to a five point margin. On an Oak Hill turnover, Cumberland clinched the victory for the Vikings with two more free

throws with seven seconds remaining.

Valley continues their season with a 11-7 record after this upset of Oak Hill. They end their TRC schedule with a 5-2 record.

Cumberland led the Vikings with 19 points. Miller added 14 points and Chad Bibler and Kenny Johnson both had 10 points.

Lester had three steals and ten assists. Miller and Johnson had seven rebounds each.

The Viking jayvee game ended 47-46 Valley with Steve Clampitt scoring 14 points and Chris Zolman adding another 11 points.

Lady Flyers lose to Warsaw

The Eighth grade girls played a hard fought battle trailing Warsaw 4-3 at the first quarter of action. Warsaw led 17-12 at the half; third quarter Akron came back to take a brief lead 21-20 with a minute and a half to go, but Warsaw then dominated the remainder of the game.

Leading scorers for Akron: L. Bowyer, 13 points and seven rebounds; J. Murphy, five points and nine rebounds; S. Johnson, three points; D. Evans, two points and T. Grogg, two points.

Selfish individuals contribute very little toward a better world.

LEGAL NOTICES

AKRON WATER DEPARTMENT
NOT MEETING FEDERAL STANDARDS
The Akron Water Department water supply failed to meet the monitoring and reporting requirements of the Federal drinking water regulations for the month of December 1984. We are required to have routine water samples from our distribution system analyzed for microbiological contamination. These analyses are necessary to assure that our drinking water consistently meets national health standards established by the U.S. Environmental Protection Agency.

We did not have the required number of samples analyzed during the period described. We regret this omission and will assure that required sampling and reporting of results to the EPA are performed in the future.
