## Good News! Better days coming soon

Although the nationally known ground hog, "Phil", of Punxsutawney, PA., officially did see his shadow Feb. 2, the official Hoosier ground hog, Henrietta, who is housed at the Indianapolis Zoo, did not. There was no way a ground hog could have seen his shadow in northern and central Indiana Monday because of the dense fog.

According to the editor's mother, Harriet Stoudt, of Kewanna, a robin has been spotted in that neighboring community by two different observers. Remembering also, that Shirley Gray of Akron, had pansies blooming in January; can spring be far away? Keeping a positive attitude, one can accept the fact that Feb. 4 officially marks the mid point of winter.

## Gagnon elected chairman

Marvin Gagnon was elected president of the Akron Chamber of Commerce at the January 26 meeting. Also named as officers were Randall Leininger as vice president, and Ann Sheetz as secretary-treasurer. Jon Good was elected as a new, board member to replace Kent French.

The board is optimistic about the year 1987 and is looking forward to community growth in Akron.

The complete board consists of Marvin Gagnon, Randall Leininger, Jon Good, Jack Miller, Dick Day, Harvey Arthur, George Stephen, Terry Randall, Ann Sheetz, and Ralph Shewman.

## Accident near Claypool

A semi-tractor trailer jack-knifed near Claypool on State Road 15 last Thursday. Because of the slick conditions, a car crashed into the trailer.

Jerry J. Hartley, 45, Marion, was traveling north on the state highway when a semi, driven by Peter V. McDonald, 36, Jacksonville,

Fla., slid out of control and jack-knifed. Hartley was treated at KCH for abrasions to the head and a bruised shoulder. After treatment he was released.

State police reported the highway was closed for more than two hours in order to clear the vehicles from the road.

## Letters to the Editor

Dear Editor,

You've heard it said many times, but it's true. Their future is up to us, and we haven't a moment to lose. We must act now to improve our education and insure the hopes of a bright future for our children.

As chairman of the Indiana House of Representatives' Committee on Education, I have taken a hard look at the Hoosier educational system. Changes must be made to better prepare our children for the future and restore public confidence in the system today.

In his State of the State Address, Governor Robert Orr presented recommendations for upgrading the state's education system which include adding 10 days to the school year, evaluating teacher performance and changing the school funding formula to reward schools that excel.

While the legislature must review these proposals thoroughly, I commend the Governor for his stand.

The cornerstone of Governor Orr's education package is accountability. Since nearly half of all state taxes go to local schools, state government has a duty to insist on accountability.

The insistence that our children get the best education possible can restore public confidence in the system and make Indiana a beacon for the rest of the nation.

For more than a year now, Superintendent of Public Instruction H. Dean Evans and hundreds of others have been working to put this education package together. Now Republicans and Democrats alike will need to work together. Indiana cannot afford to make education a partisan issue.

A united effort can make our schools and our society stronger, more vital. In our commitment to address this problem of national magnitude, Indiana will shine as the state that has the vision and courage to meet the future.

As we look for change in our education system, we would be remiss in ignoring the impact education has on our state economy. The success of our economy is tied directly to the success of our schools.

Since 1981, Indiana has taken great strides to provide programs spurring economic growth, but we still have much to do. To realize the task Indiana and the nation faces, one need only look at these facts:

- In 1986, America lost 170,000 manufacturing jobs.
- From 1981 to 1985, U.S. agricultural exports fell by 29 percent. Indiana exports fell by 36 percent.

- From 1977 to 1983, U.S. employment in export-related industries increased slightly; it fell by 13 percent in Indiana.

Meanwhile, nations around the world are winning big from exports.

- In 1985, Japan sold 11 million cars worldwide. America sold 8 million.

- Japan leads the world in production of autos, steel, ships, cameras, consumer electronics, machine tools, robots and public transportation.

What's more, Japan has become a role model for Taiwan and South Korea. Also making economic headway are: Hong Kong, Malaysia, Indonesia, Singapore, Thailand and China.

To survive in a world battling for economic success, Indiana must be able to provide two basic resources: a highly educated work force and a premier technological base.

These require an investment in elementary and secondary education, universities, and in science and technology. I believe Hoosiers, recognizing the challenge facing our state, will say "yes" to an investment in better education and "yes" to a stronger Hoosier economy.

Phil Warner,  
Chairman of IN. House Education Committee

## A new beginning....

By: J.D. Moore

### You're On Your Way

Having taken the first step toward attaining your desired weight (as we discussed last week) you have gone one week down the road. Many times the first and second weeks are the hardest when initiating a weight reduction program.

We have all heard that habits are hard to break. It also applies to our eating patterns. Have you ever been so caught up in something you were doing, that time flew by and before you knew it the afternoon was gone and you realized you hadn't snacked? Yes...it has happened to me and I didn't starve to death like I thought! As others, I figured doing without snacks I was sure to die of starvation. Rest assured, you'll live through it and feel better in the end!

By now, one week down the road, my cupboards have been searched high and low for a perfect low calorie snack to hold me over until breakfast. With calculator in hand and calorie counter by my side, careful considerations have been made so I won't go over my calories allotted. Every now and then an evening goes by, as it will for you, without a thought of snacking. One suggestion for a low calorie snack is a rice cake (35 calories each). Another is diet gelatin (8 cal. per serving) as well as raw vegetables. Be sure and keep to one helping, anything is fattening if enough is eaten. The idea is to reduce; cutting down - not necessarily cutting out.

Be proud of yourself. Dieting or a reduction of calories is a difficult thing to do. However the weight never seems to disappear quickly enough. You have to remember the best way isn't always the fastest. Stay on a balanced diet and check with your doctor.

Here is a list of foods and servings recommended daily for a balanced diet: Meat and cheese, 2-3; breads and cereals, 2-3; vegetables, 3-5; fruits, 2-4; milk products, 2-3.

Next week: Meal planning and calorie counting.

Until then...don't give up! Take it one day at a time and soon your hard work will pay off. (Excuse me while I nail my cabinet doors!)

Calorie Counter	Description
20	Carrots, diced and cooked, 1/2 cup
15	1/5 Head of lettuce
25	Onions, 6 green, w/tops
60	Peas, green, cooked, 1/2 cup
15	Pepper, green, 1 med.
90	Potato, baked or boiled, 1 med.
110	Pot. chips, 10 med.
155	Pot., french fried, 10 med.
95	Potatoes, 10 med., french fried, frozen and oven heated.
115	Potatoes mashed, 1/2 cup.
240	Pot., pan fried, 1/2 cup.

We wish to thank our many friends, neighbors and relatives for honoring us at our 50th anniversary open house and for the lovely gifts and the beautiful cards. A special thanks to our daughters, Carol and Colleen, for hosting the event and to all who helped them.

Robert and Treva Whittenberger

There are four age divisions. The three youngest winners will go to Southern California on the Fourth of July weekend to represent Indiana in the National Finals of the All American Miss Pageant at the Disneyland Hotel in Anaheim. ## Lady Vikes defeated

Tippecanoe Valley had a poor first half while Northfield had a great first half, leading to a 52-49 victory for Northfield Friday.

Northfield captured the Three Rivers Conference championship with a win. Valley ended with a 6-1 loop, 12-3 overall, capturing second place.

Northfield jumped to a 17-8 lead in the first quarter and Valley trailed 28-18 at the half.

Valley rallied in the second half, coming within two in the final 60 seconds with two Jody Yochum free throws. But Northfield won the game from the charity stripe, canning 8-of-14 attempts during the period. Valley had only eight free throw attempts.

Lori Gray and Darci Jordan

each scored 10 points to lead the Lady Vikings.

Tippecanoe Valley's girls' basketball team suffered its third straight close defeat Saturday, as the Vikings fell behind early and never caught up in a 45-40 setback to LaVale.

The Vikings finished the regular season 12-4 and 6-1 in the Three Rivers Conference.

The game was unusual in that the host Vikings didn't shoot a free throw the entire game, prompting Schuler to say it was the first time he had ever been involved in a game that such a situation occurred.

Jody Yochum scored 14 and Leslie Miller tallied 10 for the Vikings. B.J. Ross grabbed four rebounds for the Vikings.

Members of the Akron seventh grade girls basketball team are (front row) Carrie Fisher, Kendra Howard, Heidi Blue, Tina Feldman, Amber Arnett and Karen Engle. Back

row: Anna Shoemaker, Sheri Dunn, Shannon Merley, Tina Ruff, Sheena VanCleave, Leann Madeford and Coach Hunn. (NEWS Photo)

### BASEBALL

by Pete Fritchie

WASHINGTON, D.C.—Is the day of baseball's super salaries for free agents over? That's what it looks like, with no huge salaries having been offered by Major League clubs to top free agents who became available recently.

As this is written Lance Parrish, reportedly offered a million dollars by Detroit, is without a club. He made the unfortunate remark that he wouldn't be playing with Detroit again this coming season.

Even if he didn't intend to, such a remark wasn't in his interests; other clubs then knew he was eager to leave; perhaps could be had for less than Detroit's offer. (Detroit is suffering

this year from having peeled out a fat \$1.4 million or so to Kirk Gibson last year. That left players like Jack Morris and Lance Parrish expecting the same thing.)

By the time you read this Parrish might have signed with another club. On the other hand, if he doesn't get offered more than a million, he might eat his words and re-sign with Detroit. Jack Morris resigned with the Tigers after seeking greener pastures and not finding them. He got a two-year contract at more than a million a year.

It—and it's not certain yet—Parrish returns to Detroit, that may be the signal baseball's free-agent madness has peaked.

## Akron defeats Mentone

The 8th grade girls were victorious over Mentone at the Mentone gym 35-25. The game was broadcast over the Warsaw radio station.

Akron again had outstanding rebounding to keep them ahead in the game, 53-30. Akron shot only 20% from the field which hurt their offensive effort, but would not give up in their effort to come out on top.

Leading scorer for Akron was Amy Peterson with 12. Bridget Gearhart and Cherie French each contributed 6 points. Amy French had 4 points with Cheri Tucker and Lael Leininger adding 3 each. Kim Willard added 1 from the foul line. Playing but not scoring were Kerrie Cumberland, Gena Miller, and Felicia Backus. Rebounding was led by Peterson with 12, and snaring 8 steals. Bridget Gearhart had 11 rebounds and 8 steals.

Mentone scorers were

Lanfesty with 16, England 4, Walters 3, and Newsome, 2.

## Valley wins over Cass

Five members of the Tippecanoe Valley High School basketball team scored in double figures Saturday in a 71-55 victory over visiting Lewis Cass.

Dale Miller led Valley with 20 points and 20 rebounds. He was followed by John McDaniel and Dion Anglin with 13 points apiece. Steve Clappitt with 11 points and Pete Terpstra with 10 as Valley improved its record to 7-6.

Valley, which trailed 14-10 at the end of the first period, took control of the game by outscoring Cass 20-13 and 23-6 in the middle quarters.

The Valley junior varsity team won 44-40 in overtime. Craven Lynn scored 13 points for the winners.

## Freshman boys lose

Tippecanoe Valley's freshman boys basketball team lost both games with visiting Plymouth in action Tuesday.

The Viking Green team lost to the Pilgrims, 40-21, while the Viking Gold dropped a 14-8, two-quarter contest to Plymouth.

Greg McCleese and Brian Johnson each had seven points for the Viking Green.

## Christmas wedding

Dorothy Hathaway married Chris Cullison December 23, 1986, at the Burket United Methodist Church with the Rev. Donald Poyser officiating.

She is the daughter of Perry and Linda Hathaway, Claypool. He is the son of Steve and Margaret Cullison of Mentone.

The couple were married during the double ring ceremony with 100 guests present. The couple chose to be married on December 23 because it marked the silver wedding anniversary of the groom's parents.

Red poinsettias, red bows, candles, and Christmas wreaths with lights decorated the church. Beth Fugate, Mentone, provided music on the harp and Phil King of Mentone was soloist. A variety of Christmas music and "Security" were chosen by the couple.

The bride's ivory gown featured a netted pearl yoke, pleated bodice and a netted cummerbund. The bride chose a velvet hat with a veil attached in back. She carried an ivory Bible with ivory ribbon enhanced by roses and red and pearl beads.

Debbie Gibson of Corydon, a friend of the couple, was matron of honor. Bridesmaid was Charolette Pflum, Connersville, and the junior bridesmaid was Laura Lash, Mentone, niece of the bride. They wore dark green silk blouses with below the knee black velvet skirts. Black velvet hats enhanced their attire. Each carried a red candle arrangement.

Serving as best man was John Gibson, Corydon, a friend of the couple and Blain Egolf, Churubusco, was the groomsman.

Donald Hathaway and Doug Hathaway, brothers of the bride, Claypool, and Charles Cullison and Jamie Cullison, brothers of the groom, Mentone, were the ushers.

A reception followed in the church reception hall. Marjean Hathaway, aunt of the bride, Kathie Beery, Marcia Martin, and Norma Prater, all friends of the bride were the servers. Sister and brother-in-law, of the bride, Tom and Diane Watson, Roswell, GA, were in charge of the guest book.

The bride, a 1983 graduate of Tippecanoe Valley High School, will graduate from Purdue in 1987 with a degree in apparel technology.

The groom, a 1981 graduate of Tippecanoe Valley High School, will graduate from Ball State University in 1988 with a degree in industrial education.

Chris and Dorothy Hathaway Cullison are at home at 1822B W. Jackson, Muncie, Indiana.

My truly sincere thanks to Rev. and Mrs. Dave Collett, friends, and neighbors for all your prayers, cards, flowers and food during my convalescence in Woodlawn Hospital, and recuperating in my home.

Bernice L. Smith

In loving memory of William "Bill" Kreighbaum who passed away Feb. 5, 1984.

Many, many times I've needed you.

A million times I've cried.

If love could've saved you,

You never would've died.

It broke my heart to lose you,

But you did not go alone.

For part of me went with you,

The day God called you home.

He saw you getting tired,

When a cure was not to be.

He closed His arms around you,

And whispered, "Come to me."

For all you went through,

He saw you needed rest.

God's garden must be beautiful,

For He only picks the best.

Loved and missed very much,

## Views On Dental Health

H. RAY HAZEN,  
D.D.S., M.S.D., P.C.

### MISSING REAR TEETH

If all of the rear teeth on one side of your jaw are missing you may opt for a partial denture instead of a span of empty gum. Your dentist will have to rely on your front teeth for support in making such a partial denture. He'll also have to make maximum use of your gums and supporting bone to give the denture stability.

Even though this kind of partial denture is not as stable as the kind that hooks onto or is permanently affixed to supporting teeth on both sides of a tooth void, it is certainly preferable to the alternative of full dentures. The remaining natural teeth can continue to provide strength in chewing food and help maintain the shape of the face.

Without the help of supporting teeth in the rear to hold this type of partial denture in place, there is more pressure on gums and ridges. A certain amount of shrinkage is a natural occurrence. This means the partial denture will have to be adjusted from time to time. This will probably include relining to compensate for changes in your gums to make it fit securely. But, it is certainly better for your health, your appearance, and eating to have teeth rather than uncovered gums.

Prepared as a public service to promote better dental health. From the office of: H. RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St. Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545.

## Miller rejoins Mentone Board

Jim Miller has rejoined the Mentone Town Board. As the precinct committeeman, Miller was responsible for appointing a replacement for himself after resigning from the town board position.

In the two month period, however, Miller had no success in finding a replacement.

As a result of Miller's efforts, he decided the only possibility of filling the vacancy was to go back to the board as his own replacement.

Miller commented it would be difficult for just two members of the board to make the decision to solve the wastewater problem.

Miller's decision earlier to resign had come about because to solve the problem of polluting Yellow Creek would involve putting the town into financial hardship. He said he could have chosen one plan which would have meant no expense for himself, and thus that caused a conflict for him.

The town was given an extension until June of this

year to submit a Municipal Compliance Plan to the state. The deadline to eliminate illegal connections to the existing storm sewer system is July 1, 1988.

An ad hoc advisory committee is trying to locate viable alternatives by researching plans and financial resources adopted by other communities. They may be discussing options at the special meeting Feb. 16.

Mrs. Boardman was elected president of this year's town board.

The board voted Monday to keep the present salaries for the town marshal and water superintendent. They had requested raises for 1987. The board did okay extra pay for the men for their work in snow removal.

Each sixth, seventh, and eighth grade player will be taking pledges from those willing to sponsor him. The pledges will be based on the number of baskets the player makes during the Shoot-a-Thon, with a maximum of 300 baskets made. Once the Shoot-a-Thon is completed, the player will collect the pledges and turn the money in to the director of the Shoot-a-Thon, eighth grade coach, Robert Hinkle.

The player turning in the most pledge money will receive an indoor/outdoor MacGregor basketball. The

## Letters to the Editor

Dear Editor:

Cigarette smoking is one of the most important public health problems we face today. The Surgeon General has determined that secondhand smoke, the smoke from the burning end of a cigarette, can have adverse effects on health, especially among children and adults with chronic lung and heart disease.

The American Lung Association of North Central Indiana committed to the prevention and control of lung disease supports mandatory restriction of smoking in public places and recognizes the right to those with lung disease and nonsmokers to breathe air free of cigarette smoke. A recent Gallup Poll indicated that 62% of adults believe that smokers should refrain from smoking in a public place.

The Indiana General Assembly has the opportunity this session to protect nonsmokers from secondhand smoke in the state of Indiana. Thirty-six states have already addressed this serious health hazard with legislation to protect nonsmokers. You can help Indiana become thirty-seven by asking your state senator and representative to support a restriction of smoking in public places. The toll free telephone number for the House of Representatives is 1-800-382-9841 and for the Senate, 1-800-382-9467.

Sincerely,  
Jon Kubley, M.D.  
President

### Meal Planning and Calorie Counting

I've often wondered how many people make a menu each week. I first started using a menu after making two different trips in town for ingredients to make cookies. After the second time I decided there had to be a better way. Later when trying to fix different foods while on a weight reduction plan it came in handy. I was always sure of something with fewer calories and not being caught with only fattening things to eat.

If you shop once a week for groceries, perhaps a 7-day menu will work. Keep a pad and pencil handy and your food groups nearby. As you plan your meals be sure to jot down any items you don't have in the house. Be sure to include plenty of carrots, celery, raw cauliflower, etc. for emergency snacking.

Besides each food you will eat write the number of calories. Add the calories at the end of each meal to help you keep track. Sometimes adjustments can be made in your lunch so you can have more for your evening meal. This also helps you learn how much food adds up to 1,000 or 1,200 calories. It's surprising how a few items such as donuts and lasagna, pie or ice cream add up. When you have only 1,000 to 1,200 calories to eat, you learn to choose them wisely. (You'll be surprised how full you feel after measuring out your food and preparing it and having it look attractive.)

Other important factors, although they may not seem so, are color, texture and variety. Anyone who has tried reducing their weight knows how boring the same foods can be. However, with the aid of a menu you will be able to rearrange your foods and add crispy items with soft ones, tart foods with bland, and brighter foods with some of lesser color. When served on a plate, arrange the foods in an attractive manner, use a place mat, always eat at a table or food bar and eat slowly. Concentrate on the food you have in your mouth and really taste it. (Don't be distracted by reading material or a television, etc.) Enjoy not only the appealing plate of nutritious food, but also the beginning of a successful weight loss program. And just think...YOU did it!

(Next week - How to burn up the rest of those calories!)

The egg producers of this community met in the Agriculture room of the school house Thursday night to make plans of the annual Egg Show to be held in April. The group unanimously voted Ora Beeson as chairman and Royce Tucker Secy.-Treas. of the group. By motion it was decided that the chairman should appoint committees to take care of the various details connected with an enterprise of this kind. This show will undoubtedly be the largest and best of its kind in the middle west. Extensive plans are being made to obtain the best of entertainment. The banquet committee is planning to make enough table space to seat five hundred poultrymen and their wives, a gain of one hundred over last year, and everyone connected with the show has his shoulder to the wheel in an endeavor to make this show a great success.

Twenty neighbors pleasantly surprised Mr. and Mrs. John Fenstermaker at their home Wednesday, February 17, with an oyster supper. ### ABOUT YOUR HOME

by April Rhodes

Baking soda is very effective for smothering small fires. Keep a large box (sealed in plastic bag to waterproof) in each room.

Don't forget to put out seed, bread crumbs and rendered suet for the birds when the ground is covered with snow.

Whole cloves sprinkled on linen shelves prevent damage by moths and give a pleasant aroma in your closet.

Another fuel-saving idea: If you don't have storm windows, staple clear plastic over your windows to reduce heat loss.

## Legend of Lovers

### Lane told

By: J.D. Moore

Valentine's Day is near and our thoughts turn to our loved ones and days gone by.

The community has an out-of-the-way country road more commonly known as Lover's Lane. No directions are necessary for its whereabouts...we all remember where it is.

As the holiday draws near, husbands give much thought to gifts for their wives.

However, an evening reminiscing about Lover's Lane would be a romantic surprise. Being married a short time or many, many years has nothing to do with romance. Romance is what you make it...and Lover's Lane has made its own over the years.

How can you forget the evenings where the only place to be alone was at Lover's Lane? The evenings of the submarine races? (Did you ever wonder how a submarine could submerge in a swampy area?) How many evenings were spent sharing hopes and dreams for the future that lay ahead? Do you remember bushwacking when others would sneak up on you with their lights turned off and all of a sudden pull up along side your car? How many of you remember Lover's Lane as a kind of meeting place for several couples after the movies?

Today, only a couple houses are situated on Lover's Lane, both of them quite near the one end. Many a couple fell in love and spent time at Lover's Lane. Many of those couples have children of their own by now who might be asking, "Mom, why do they call this Lover's Lane?" as they bike down what is an enjoyable path during the spring and summer months.

How times change...or do they? Love has a tendency to change over the years as the people themselves change. Love also grows when nourished over the years and means more and more with the passing of time. As you look in on your children remember back a few years. After the children return to their homes, sit back and remember each other as newlyweds. As the grandchildren leave with their parents, look at one another as you once did at Lover's Lane...you may be older but somehow the wrinkles and thinning hair disappear in the eyes of the one you love.

To those couples who may have spent earlier times at Lover's Lane, why don't you nourish your love this Valentine's Day with shared thoughts of the past and watch your love blossom. To all of you...Happy Valentine's Day.

### Me and My Old Valentine

We've been sweethearts a long, long time, me and my old valentine.  
We're not as young as we used to be, but I still love him and he still loves me.  
And money can't buy one memory - from me and my old valentine.

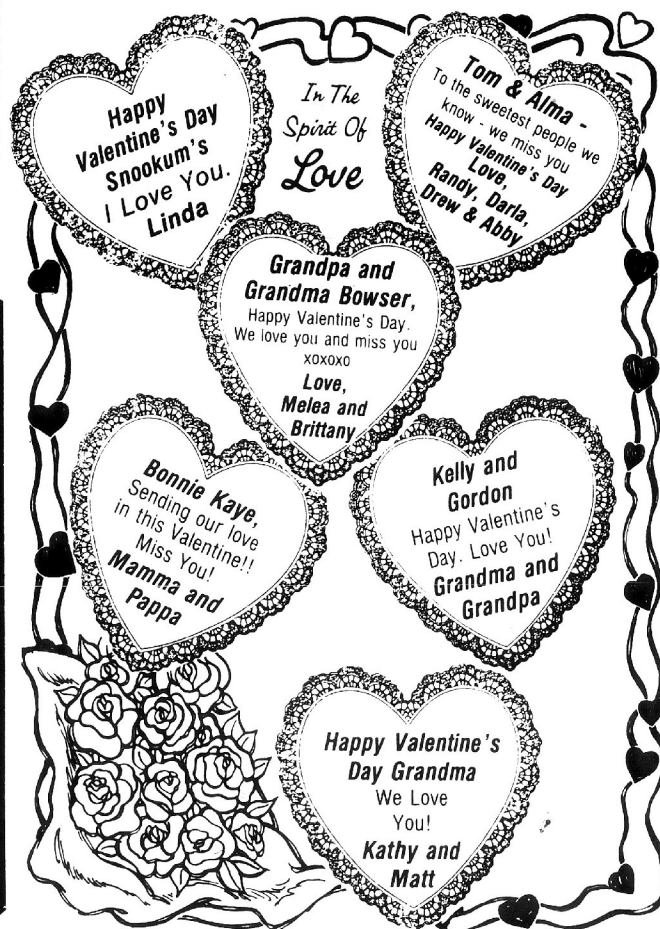

We've left a lot of good days behind, me and my old valentine.  
Time has changed the way we look, and the lessons we've learned would fill a book, since those first shy vows we took - but we're still each other's valentine.

We've had some pretty hard knocks along the line, me and my old valentine.  
But he's put me first for all these years, and shared my joys and wiped my tears.  
And no matter what happens down through the years - he'll always be my valentine.

Sometimes when I look at his thinning hair, I see the curls that once were there.  
They've been replaced by lines of care, but you bet, he's still my valentine.  
And I guess that when he looks at me, he sees the girl I used to be.  
I was young and pretty and fancy-free - when first I was his valentine.

We've been sweethearts a long, long time, me and my old valentine.  
We were just kids when first we met, a sunshiny day I'll never forget.  
Our children are grown, but we're sweethearts yet - me and my old valentine.  
No, I can't say everything's been fine for me and my old valentine.  
But we'll hold tight to each other's hand; stay together and do the best we can.  
You can have your jewels and palaces grand - I'll stick with my old valentine!

## INTS FOR HOMEOWNERS INSULATED GARAGE DOORS SAVE FUEL

Whether it's the winter chill or summer heat you want to avoid, insulation helps to keep your home at a regulated temperature. Similarly, a thermal efficient garage door can go a long way in saving you energy and money inside the home. Learning what's available may help keep your budget on target.

If, as in many houses, your garage is attached to your home, lots of hot or cold air, depending on the season, enters the garage and ultimately your home. This may drive up your energy bills.

Garage doors come in all sizes and designs. The heart of one insulated garage door is a firmly-bonded polyurethane core. The cavity between steel skins and the struts are filled with polyurethane to make it very strong, as compared to its weight. The door features a non-conductive thermal break between outside and inside steel skins, virtually stopping hot or cold outside air from entering the garage. A factory-installed bottom seal prevents air from seeping out at one of the most critical points.

## Corporation announces record quarter results

Assets for the corporation at year-end were \$1,550,810,000, an increase of 36 percent from the 1985 level of \$1,137,142,000. Deposits, surpassing the billion dollar mark for the first time in the company's history, were \$1,253,989,000 at December 31, 1986 as compared to \$928,047,000 at the end of 1985, an increase of 35 percent. "1986 was a very good year for the corporation. Its member banks contributed with strong performances," said Robert J. DeLaney, Jr., chairman, president and chief executive officer of Lincoln Financial Corporation. The combined efforts of all of the member organizations are significantly strengthening Lincoln Financial Corporation's position as the financial services leader in northern Indiana.

## Mentone Reading Club

Members of the Mentone Reading Club held their January meeting at the home of Jerry Smith. Detective Sgt. Burdell Blackburn, in charge of the Juvenile Division of the Sheriff's Department, spoke on "Working With Today's Troubled Youth", part of his position being to give presentations throughout the county to schools and adults. Det. Blackburn said he can talk to the young people, but found it more difficult to talk to their parents.

Although drugs are a major problem in this county, alcohol was the No. 1 problem in 1986. Of the 2,220 in jail last year, 250 under the age of 21 were booked on alcohol related charges and 11 under 18 for drugs. He stated no one 'starts' with cocaine or heroin, they start with alcohol or marijuana and parents must be aware of these problems.

The major problem with youth today is lack of discipline and lack of respect. Discipline is simply a 'system of rules' and respect means 'to show consideration'. He reminded his audience that parents, church, and school had all lost the youth before they became a police matter. Fifteen years ago authorities were dealing with 15 and 17 year old youths, now the age is as low as 7 to 9.

All drugs are a depressant, he stated, though they may have a fake high it is followed by even lower depression. 97% are good kids, but peer pressure will often get them involved with drugs or alcohol. Some symptoms for parents to watch for are if the child changes friends, wants to be alone, has up and down moods, grades fall, and never wants to be at home. Too much permissiveness and affluence are contributing factors, and he suggested asking your child 'Would you rather be dead than square?'

The business meeting was conducted by President Pro Tem Sue Pyle. Officer reports were given by Pat Gross and Esther Romine, who also reported on the club trip.

The club voted to sponsor an award for the Mentone Elementary Science Fair, and will decide what category to honor at the next meeting.

Refreshments concluded the evening, served by the hostess and Sue Pyle. The next meeting will be held February 11, at the home of Elaine Fugate.

## "Hoosiers" receives award recognition

"Hoosiers," the film that showcases the state of Indiana, the citizens, and the love of basketball, is being heavily promoted within the film industry for Academy Award recognition.

Hemdale Film Corp., the company that produced "Hoosiers," has been running full-page ads in "The Hollywood Reporter" and "Variety" as part of a campaign to promote "Hoosiers" to the Academy of Motion Picture Arts and Sciences.

The movie "Hoosiers" was released in Indiana this past November and in 94 West Coast theatres on Jan. 16. To date, the week-long West Coast run has grossed \$625,000 and \$2,425,000 total including Indiana sales.

Besides the possible academy award nominations, one of the film's stars is also in the spotlight. Dennis Hopper has already received

industry attention for his portrayal of Shooter in "Hoosiers." Hopper won the Los Angeles Film Critics Award for his supporting roles in both "Hoosiers" and "Blue Velvet." In addition, he had been nominated for two Golden Globe Awards by the Hollywood Foreign Press Association. He received one nomination for "Hoosiers" and another for his role as Frank Booth in "Blue Velvet."

Mark Marzouk, president of the Hollywood Foreign Press Association, said, "This marks the first time an actor has received two separate nominations in the same category in the award's 44 year history."

The success of "Hoosiers" has been significant both economically by creating 300 short-term jobs, and socially by generating a feeling of pride and enthusiasm throughout the entire state.

## Old Grads reunion set

Members of Psi Kappa Chapter of Kappa Delta Phi Sorority have set the date of Saturday, May 9, 1987, as "Old Grads Day." All graduates of Akron High School will be invited to make reservations for a dinner and program. Due to the remodeling and building construction at the Akron School site, the classmates will gather at Tippecanoe Valley High School.

There is extensive planning and much expense incurred in sponsoring this non-profit civic project. Club members feel that this reunion is an important time in the lives of Akron High School graduates as it presents the opportunity for these school friends to gather, socialize and reminisce about their school days. Approximately 1,500 invitations are being mailed this year.

Any contributions from individuals or businesses to help defray the expenses of promoting Akron High School's "Old Grads Day" would be appreciated. Please make checks payable to Psi Kappa Chapter and send it to Mrs. Judy Paige, Treasurer, Post Office Box 206, Akron, IN 46910.

### Our Valentine

Some fashion a dream of verse and art

And send it by cupid's wing

Some wrap their love in a paper heart

And tie it with rose-colored strings.

We made a heart of love and faith.

That needs no fancy bows to bind.

We shaped a heart of happy years.

And the years have etched a dear design.

## Boys Basketball Review

Last second shots, first to send the game into overtime, then to win the contest, enabled South Bend LaSalle to tip Tippecanoe Valley, 71-70 in overtime Saturday night.

Dale Miller scored for Tippecanoe Valley to make it 70-68 Vikings with two seconds left in the game, LaSalle got the ball the length of the court to Swann, who threw in an off-balance shot from the right corner as time expired.

Both teams had chances to score in overtime, but only LaSalle could cash in on Spriggs' free throw with two seconds remaining. A final Valley chance from mid-court at the buzzer failed to score.

Miller finished as the game's top scorer with 22 points, while Chris Zolman added 18 and Dion Anglin 14 for the 8-7 Vikings.

Valley returns to action Friday, hosting Bremen.

The Tippecanoe Valley High School basketball team pulled away in the third quarter and captured a 60-54 Three Rivers Conference victory at Eastern Tuesday, February 3.

Valley trailed by one point at the end of the first and second quarters. The Vikings outscored Eastern 21-10 in the third period for a 50-40

lead, and they stayed in control in the fourth quarter to raise their records to 8-6 overall and 4-2 in the TRC.

Dale Miller led Valley with 17 points and 11 rebounds. He was followed by Chris Clark with 14 points and Pete Terpstra with 10. John McDaniel had nine assists for the Vikings.

Valley won the game with its field goal shooting. The Vikings sank 26 of 50 shots for 52 percent and they outscored Eastern 52-36 from the field.

Valley also won the junior varsity game 53-22. Craven Lynn led the Vikings with 10 points.

## Taylor wins Regional

A lot of hard work and many hours of diligent practice has brought top honors to these Valley wrestlers. Jerry Rose participated at the Goshen regionals as did John Taylor. Taylor will advance to the semi-state competition to be held this Saturday. Coach Heinold, Jerry Rose, John Taylor and Coach Randall are pictured. (NEWS Photo)

Tippecanoe Valley's John Taylor won the wrestling regional at Goshen High School Saturday, February 7. John, a 155 lb. senior, was the only wrestler to pin all three of his opponents. John pinned Folker from Goshen in 1:51 of the first period then in the semi-final round, pinned Freil from Jimtown in the second period.

In championship finals, John met Tim Roahrig from Plymouth. Roahrig was the regional champion in 1986. He had a record of 27 wins and one loss until Taylor pinned him in the final period of the championship match. Roahrig has given John his only loss of the season last week at the Warsaw sectional.

Taylor is the first regional champion Tippecanoe Valley has ever had. Ray Fenix, "Rattlesnake Ray", was a second place finisher in 1983.

With only two wrestlers competing, Valley placed 8th in the 16 team field at Goshen. Jerry Rose, a 177 lb. senior, placed fourth. Jerry finishes his season with a

record of 23 wins and 4 losses. Rose was the Knox tourney champion, third at the Bremen tourney, and third in the Three Rivers Sectional Championship.

John Taylor's record stands at 23-1-1 which includes being this year's Knox tourney champion, Bremen tourney champion, TRC champion, second in the

sectional, and now regional champion. He has pinned a total of 18 opponents.

John will now advance to the Semi-State at Goshen this Saturday, Feb. 14. The first round will start at 9:00 a.m.

## Lady Vikes lose in overtime

The Lady Vikings fell short in overtime action with Wawasee in the Warsaw sectional, Thursday, Feb. 5.

The Lady Vikings led Wawasee by 10 points at the end of the third quarter in a first-round game. Then came the fourth period and Wawasee, coming alive on offense and defense, rallied to send the game into overtime. Valley eventually dropped a 46-45 decision and finished its season with a 12-5 record.

Valley was ahead by two points with 20 seconds left in regulation. The Lady Vikings missed a free throw, however and Wawasee was able to tie the game 41-41. Wawasee outscored Valley 5-4 in overtime. The Lady Vikings had the ball for the final nine seconds but they were unable to get a last shot off.

Lori Gray led Valley with 17 points and Jody Yochum added an excellent all-around effort with 11 points, 12 steals and four assists. Leslie Miller had nine points and eight rebounds.

Both teams made 17 field goals. Wawasee sank 12 of

18 free throws and Valley made 11 of 19 freebies.

The Lady Vikings have represented the community with good playing and good

sportsmanship during this year's season. They should be proud of themselves even though disappointed by this sectional defeat.

### Views On Dental Health

H. RAY HAZEN,  
D.D.S., M.S.D., P.C.

FOLLOWING  
THE CONTOUR

When you have a crown made to protect a tooth that's been badly damaged by decay, your dentist will pay special attention to the relationship of the surrounding teeth and how they follow the lines of your lips.

He'll also study the natural color of your teeth. When the crown is made, it can be covered with a natural-looking material, such as acrylic or porcelain. This is important when the crown is on one of your front teeth. When you open your mouth to speak or smile, you'll feel cosmetically secure if the tooth has a natural look.

Your dentist will also spend a lot of time shaping the crowned tooth so the contour will look natural as well as perfectly matching the shade of your other teeth. It should also properly support the shape of your lips. Care will be taken so that your face will keep its natural look and not change in any way.

Your dentist is not only concerned about the good health of teeth and gums. He's concerned about your personal appearance, too.

## THEN/NOW!

Here are a few cold facts about the history of man's most common disease: the common cold.

THEN: Through the centuries people have tried a variety of ways to cure or prevent colds, from wearing garb around their necks to "hardening" themselves by taking cold baths. Nothing really worked.

NOW: Today, science has come up with a new way to help modern man feel less uncomfortable when sick with a cold. A unique, pleasant-tasting cough-control product can now provide as much as eight hours of relief from the cough that so often accompanies colds. It's called Mediquell Chewy Cough Squares, which contain dextromethorphan hydrobromide. Usually, this medicine must be given in liquid form, but Warner-Lambert Company's Mediquell comes in chewy squares made without the unpleasant tastes often associated with liquids. Taking such a medicine, it would seem, would be a lot more pleasant than taking a cold bath. Or wearing garlic.

## Older adults need accurate assessments

by Bill Brooks

Grandma may like a few glasses of wine now and then, or may misuse her tranquilizer but this does not necessarily mean she is an alcoholic or drug abuser.

But, if a pattern develops, grandma needs an assessment, an evaluation of her alcohol/drug habits.

This is becoming more and more important in our society as the total of senior citizens rises. Social scientists tell us the percentage of older adults in the U.S. will increase in the next decade and even into the next century. Our nation has developed many "miracle drugs" for its citizenry who wholeheartedly back a "feel-good" philosophy through liquids, pills, etc. Got a headache? Take an aspirin. Stomach ache? Swallow this. Nervous? Take that.

Substance abuse centers such as Koala are working more closely with nursing homes, retirement centers, social agencies, and families to help older adults. Most of these patients are still abusers when they come to us for treatment but many are only misusers on an infrequent basis.

A perfect example of this involves a woman we'll call Clara. Her family noted some erratic behavior by her. A son, looking for reasons, found she was taking a tranquilizer and her supply was almost used up. Clara's behavior changed soon after a death in the family. She also had a slight tremor from a medical condition which she tried to conceal from family and friends. The tranquilizer helped on this.

Getting a consent to talk with her pharmacist and doctor, our treatment people found the prescription level and learned that Clara did not exceed it by much. Interviewing the family and getting Clara's trust concluded the research on her chemical substance use. The Koala "Social detectives" then concluded that Clara was not a drug abuser, nor an alcoholic. She was misusing her prescription drug.

Clara did, indeed, need some education on her self-esteem issues and some guidance on the use of tranquilizers and her trembling but she did not need inpatient drug abuse treatment.

All this evidence was presented to her family physician and her family so they can monitor her needs and solitary lifestyle with knowledge and caring instead of guesswork and fear.

Older adults who ARE admitted to treatment are researched by reputable substance abuse centers to the extent of asking family members to bring in all drugs the patient has been taking. This means an accurate assessment of the patient can be conducted.

People with diabetes, for example, who neglect regular taking of insulin are often diagnosed by family members as "drunk or drugged up."

Koala Center, Lebanon, has developed a unique and specialized older adults program. A person over 60 responds differently to alcohol and other drugs than younger persons. Combination of chemicals, including prescriptions, can cause devastating results to these folks.

Just because grandma or grandpa is forgetful and "acting" senile, does not mean senility has set in. An accurate assessment is the answer.

(Questions on alcoholism, drug abuse? Call Koala's free, 24-hour Helpline at 1-800-622-4711).

## FFA Week, Feb. 21-28

Nearly one-half million members of the Future Farmers of America will be involved in promoting the FFA, vocational agriculture, and the agricultural industry across the nation during FFA Week, February 21-28, 1987. National FFA Week is being sponsored nationally by Kaiser Agricultural Chemicals/Estech through the National FFA Foundation.

During the week, over 8,300 FFA Chapters throughout the U.S. and its territories will be organizing activities to create awareness of FFA vocational agricultural educational programs through this year's theme for FFA Week - "Leaders For The New Fields Of Agriculture".

FFA was organized in 1928 to promote leadership, co-operation and citizenship among high school students. National FFA Week has been celebrated since 1950. While most of FFA's operating budget is generated by the members themselves, the organization needs the support of corporate sponsors to produce additional programs.

Paul L. Collins, Vice President of Marketing of Kaiser Agricultural Chemicals/Estech - Midwest, stated "With programs like the FFA, American agriculture's future looks bright. That's extremely important when you think of what agriculture means to our economy and our personal lives."

The poise and self assurance these young people gain through their FFA leadership training is outstanding."

Kaiser Agricultural Chemicals/Estech has been serving the agricultural industry for 107 years. The company owns and operates 12 fertilizer manufacturing facilities and distributes its branded farm products through 250 company and dealer-owned farm centers. Besides Certified Harvest King® and Treasure® fertilizers for agriculture, Kaiser Agricultural Chemicals/Estech produces Vigoro® and Gro-Tone® lawn and garden fertilizers for consumers use, Woodace® products for nurseries and landscapers, and Par Ex® professional fertilizers for golf courses.

## FACTS & FIGURES

Eighty-six million barrels of oil. That's how much energy was saved in one year by one company's systems that convert waste material into energy.

That 86 million works out to a savings of about \$3 billion, estimates Combustion Engineering, Inc., a leader in energy technology worldwide.

An increasing number of communities and corporations are turning to such companies to help them turn their useless trash into useful energy.

## IT'S A FACT!

There may be a robber in your home that you're not aware of. If your house has old windows, they could be stealing your valuable heat. As much as 40 percent could be simply slipping out the cracks or through the glass and frame.

One way homeowners are arresting this energy thief is with aluminum replacement windows. Many think it's the best buy, since wood warps, rots and shrinks and vinyl plastic is not as strong as aluminum and can warp away from the weather stripping.

## Special Olympics to be held in South Bend

The world's largest athletic event for mentally retarded citizens will be held July 31 - August 8, 1987 on the campuses of the University of Notre Dame and Saint Mary's College and throughout the South Bend area. The VIII International Summer Special Olympics Games will feature 4,700 athletes from more than 60 countries and the 50 states.

The 1987 International Games will include 14 sports with the following classifications:

- \* Eight Official Sports - Athletics (track and field), aquatics (swimming and diving), basketball, bowling, gymnastics, soccer, softball and volleyball.

- \* Six Demonstration Sports - Cycling, equestrian, roller skating, table tennis, tennis and weightlifting.

Medals will be awarded for official sports, and the '87 games will mark the first time medals will be presented in demonstration sports.

Competition between evenly matched teams and individuals will be determined by divisioning efforts for all events. Athletes are given a skills test by their coaches, then ranked by the venue committees to ensure that they are placed in evenly matched divisions. Special Olympics competition is exciting to watch, as athletes of equal skills exercise the talents they have developed.

Special Olympics provides year-round training and athletic competition for mentally retarded individuals. They develop their physical fitness and prepare to participate in school and community sports programs. These Special Olympics express courage, experience joy and participate in the sharing of gifts, skills and friendship with the families of other athletes and their communities.

In addition, there will be five Exhibition/Clinics conducted during the 1987 International Games. They include canoeing, rowing, sailing, synchronized swimming, and team handball. The Exhibitions/Clinics are considered educational in nature, while also providing athletes and coaches with excellent instruction in these infant Special Olympics sports.

The VIII International Summer Special Olympics Games, July 31 - August 8, will include 5,700 athletes and coaches participating in 14 sporting events (eight official, six demonstration) at the University of Notre Dame and Saint Mary's College. The 1987 International Games will involve more than 60 countries, the 50 states, and U.S. territories in the most vigorous athletic competition yet for mentally retarded individuals.

The VIII ISSOG will be the largest worldwide amateur sporting event of 1987. The ambitious \$4.8 million budget is being raised outside the South Bend area but will be spent locally. This is being accomplished by selling sponsorships to corporations and civic groups. Major sponsors include Civitan International (\$5,000 member service organization

pledging \$1.6 million and more than 1,000 volunteers), Hardee's, AT & T, Coca-Cola USA, Communications Workers of America (CWA), Gates Chevrolet, IBM, Independent Grocers Alliance (IGA), Kellogg Company, Knights of Columbus, Lilly Endowment, Red Lobster, St. Joseph Bank & Trust, State of Indiana, and United Commercial Travelers

(UCT).

Special Olympics is the largest worldwide program for mentally retarded citizens. More than one million athletes compete annually, guided by the Special Olympics oath: "Let me win, but if I cannot win, let me be brave in the attempt"; and the words - skill, courage, sharing, and joy.

## GTE gets \$1 increase

On February 4, the Public Service Commission of Indiana authorized GTE to increase Intrastate Access Charges by \$1 per month. Effective February 4, that charge will be \$2.74 per month. The increase applies to residential and single-line business customers of GTE in Indiana.

Access charges are the

fees now paid by customers to offset fees once paid by long distance companies to subsidize local rates. The Federal Communications Commission (FCC) earlier ordered a shift of those charges to local customers, and the Indiana commission has followed the FCC's example.

## DAR announces area essay winners

A large crowd was in attendance to hear the winning DAR American History Essays read at the Anthony Nigo DAR meeting held at Teel's restaurant on Feb. 8th.

Mrs. Elaine Fugate called the meeting to order with the opening ritual, the singing of the Star Spangled Banner and the group reciting the Preamble to the Constitution. The President General's message was read by Mrs. Cara Lyn Tucker.

Mrs. Wayne Smalley, historian, then called upon 9 students from the schools to read their winning essays. This year's topic was: "A Letter to the Editor, September 1787" with the writer assuming the role of one of the 39 signers of the Constitution urging the ratifi-

cation of the Constitution and explaining the reason for such action. With this year being the 200th anniversary of this great document, the subject was very appropriate.

## Letters to the Editor

### To the Editor:

Surely there is agreement about the need for attention to our nation's deteriorating highways, and surely there is agreement that gasoline taxes which Hoosier taxpayers have already paid should be returned to our state as soon as possible for addressing these needs.

Yet we are faced with a situation where Congress is acting at a snail's pace on authorization of funds for our country's highways. Because Congress cannot get a highway bill passed 10,000 jobs in our state are threatened, and motorists are subjected to untold numbers of unnecessary jams and jolts.

To the credit of our new House Speaker, Jim Wright, the Surface Transportation Act (H.R.2) was introduced in the House on the first day of business this year. H.R. 2 would authorize over \$91 billion for highway construction and repair over the next five years. Some \$292 million would be allocated for Indiana in fiscal year 1987 alone.

This bill passed the House without amendment on January 21st and was sent to the Senate. Unfortunately, the bill has faced rougher sledding there as it has been embroiled in the controversy over a higher speed limit. In essence, our highway tax dollars are being held captive by Senators who want to use the highway bill to resolve an issue which, although important, shouldn't be tied up with this essential bill.

I agreed with Governor Orr this past October when he protested the Congress adjourning without passing this needed highway legislation. It can take three months or more for funds, once authorized by Congress, to show up in Indiana as construction project starts on our highways. Clearly, action to pass H.R. 2 is long overdue.

As a new Member of Congress, I want to do everything possible to see that tax dollars paid by Hoosier taxpayers are spent as they are intended to be spent -- in this case, to fix our ailing roads and bridges. I hope that H.R. 2 will soon be on its way to the President so that Indiana is able to move forward with needed highway repairs this summer.

Sincerely,  
Jim Jontz  
Member of Congress

## A new beginning...

"And to the left 2-3-4-5-6-7-8"

So far we have discussed having a positive attitude, food groups, menu and meal planning as well as calorie counting. Now...on to the dreaded subject of exercise.

In all honesty it takes a combination of calorie reduction and exercise to be successful in your endeavor. (I heard those "Oh No's!" out there!) Exercise not only will assist in burning up calories, but will also tone your body and many times the improvement will be noticed a lot sooner than with reducing alone. (I've heard there can be flabby thin people as well as heavy ones.)

Before using this article for the bottom of your bird cage, let's keep an open mind. There are many ways to get exercise and with a positive attitude and patience you will find the right type for you.

Some ways of exercising are: health clubs, aerobic classes, exercise shows on television, video programs, cassettes and neighborhood work-outs. Whatever method you choose, give it a good try and don't forget your jump rope, bicycle, walking and jogging as well as any equipment you might have at home. Sometimes when the urge to snack grabs you, hop on that bike and remember...bathing suit weather is just around the corner! You see, by starting this early you have given yourself plenty of time to lose weight and tone up with no need for dangerous crash dieting.

Burn-off rates: 2-3 calories per minute - playing cards, sweeping the floor, ironing, clerical work, 3-4 calories per minute - walking 2 mph., biking 5 mph., bowling, 4-5 calories per minute - mopping floors, mild calisthenics, 5-6 calories per minute - biking 8 mph., badminton, social dancing, 6-7 calories per minute - ice skating, roller skating, jumping rope, vigorous calisthenics, biking 10 mph. 7-8 calories per minute - tennis, biking 11 mph., shoveling loose snow, 8-10 calories per minute - climbing stairs, shoveling heavy snow, and jogging 5 mph. (Ben Gay, please.)

Give it a try. Start small and work your way up to more strenuous activity. You may feel more energetic than you think! Good luck! (Yes...I'm headed for the bike!)

NEEDS A COOK

Man can live without radio, TV, and books,  
But modern man still can't live without cooks,  
Who else would he gripe at,  
When his day is a flop,  
And his blood pressure is up,  
Nearly ready to pop?

It's raw and it's cold  
He can yell at the cook,  
It's dried up and burnt,  
Cook, just take a look.

A hard working man  
Needs a good meal to eat,  
But to rid his frustrations,  
Growling at the cook can't be beat.

## Akron Carnegie Library

New books available at the Akron Public Library are:

**Doctor At Large**, by Morris Gibson - Morris Gibson knows people: how to care for them, as a doctor, and how to listen to them as a writer. In this, his third book, he shows again the warmth and charm that make him both a dedicated physician and a master storyteller.

**John Ransom's Andersonville Diary**, by Ransom, with introduction by Bruce Catton - One of the best first-hand accounts to come down to us from the Civil War; uncommonly rich in the love of life. A tale of adventure, suspense, of fierce hate and great love.

**The Hornes, An American Family**, by Gail Buckley - Through the story of her own extraordinary family, Lena Horne's daughter, Gail Buckley, enables us to see how America's black middle class evolved, flourished, and in time waned in significance as a new black consciousness emerged.

**America I Love You**, by Peter Potter - A tribute to America through patriotic orations, articles and letter to help us appreciate America. **Unto the Hills**, by Billy

Graham - An inspiring, comforting, and challenging collection of daily readings of thoughts excerpted from works of the world's most known and loved evangelists.

**Doctor, Matilda's In Labor!**, by James A. Porter - Animal lovers will delight in reading the tales related by Dr. Porter of his veterinary practice with his furred, feathered, and scaled patients.

**In the Season of the Wild Rose**, by Clara Rising - This novel will take its place alongside the classic works of American historical fiction. It brings to life the families of the South who endured, the women who sacrificed their husbands and sons, and the men who fought, and dreamed of home, and believed until the last in a code of honor.

**The Place of the Swan**, by Lola Irish - The second book in a trilogy of colonial Australia. With backgrounds as diverse as the bustling streets of Sydney, the lawlessness of the gold fields, and fertile countryside. The saga of Raunie Lorne and Brick O'Shea and their stormy romance and marriage.

I would like to take this opportunity to thank all of my dear friends who sent cards, flowers, food and especially their prayers after my tragic accident.

A special thanks to the EMT's, Bill and Miriam Boardman, Barb Holloway and Jay Teel. Also a special thank you to Drs. Haymond and Wilson and the nurses at K.C.H.

May God bless each of you.

Very Sincerely, Jeannine Nellans

## Views On Dental Health

H. RAY HAZEN, D.D.S., M.S.D., P.C.

PRECISION  
REMOVABLE  
DENTURES

If you need a partial denture to fill a gap caused by lost teeth, you may want to consider the precision removable denture.

In this technique, the supporting teeth on both sides are crowned. The partial denture hooks INTO the crowned teeth rather than around them. Located on the back of each supporting crown is a "female" attachment. That's what the "male" attachment on the partial denture hooks into. No wire clasps are needed to hold the denture in place. There'll be nothing for anyone to see when you open your mouth except the teeth that now fill the gap that used to make you feel self-conscious.

That's an advantage for you. There's also an advantage for your dentist. By crowning the supporting teeth he can shape them for the best possible fit for your partial denture. That's an advantage for you, too. A good fit not only gives the denture stability, it gives you comfort and good appearance. It is also the most secure type of partial to use for a long span of missing teeth.

Prepared as a public service to promote better dental health. From the office of: H. RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545.

## J. Taylor defeated at semi-state

Valley high school wrestling came to an end for the season Saturday when John Taylor was defeated in semi-state competition.

Taylor lost his first 155-pound match to Bob Johnson of Wes-Del. Johnson, the top ranked 155-pounder in the state, won on a technical fall at 4:36.

It was only the second loss of the season for Taylor, who finished with a 23-2-1 record. The senior was the first Valley wrestler ever to win a regional championship. Taylor won a Three Rivers Conference championship this season and finished second in the sectional.

## Volunteers sought for Program

The week of February 15-21 is Big Brother/Big Sister Appreciation Week. The local chapter - Big Brother/Big Sister of Fulton County, is proud to be a part of the services that are offered to the youth of our county. Our task is to match one child from a single parent home with a suitable adult volunteer who will give a few hours each week to become this child's friend.

Since our first match in December of 1984, we have been able to provide matches for 24 youth of our county. The average length of active matches is 12.2 months, which is very good for the shortage of our agency. Several matches have been ended but almost 50% because of the moving out of the county of the youths or the adult volunteer.

We hope you will find the desire to support your local Big Brothers/Big Sisters in one or more of the ways described above. If you have any questions or want more information, please call 223-5329 or our BB/BS office. Please remember: Little People Need Big People!

## Wise host Merry Mollys

by Fay Whetstone

February 9th found the Merry Molly's at the country home of Sandy Wise for our monthly meeting.

Beth Holt read "Winter Valentines and Ermine Wraps" for meditation.

"Heart of My Heart" was sung for the song of the month, lead by Sandy Wise.

Linda Cochran talked about "Easy House Plants" for her Garden Remarks.

Health and Safety by Shirley Blackburn consisted of the three warning signs of early Diabetes, which are excessive thirst and hunger, frequent urination and fatigue.

Johanna Peters read from some old Household Digest for Cultural Arts. Do you know that by rubbing celery over your hands, you can get rid of onion odor? Do you know that vinegar will remove stains from metal?

Roll call was answered by "How or for what reason do you admire President Washington and President Lincoln." Honesty, determination and overcoming lack of education, were the most prevalent answers.

The Merry Mollys are planning a Valentine Card Shower for Mrs. Joseph

Slone, who is in Mason Health Care Center at War-saw.

Remember the Blood Mobile, which will be at Tippecanoe Valley High School on March 19. They will need volunteers and money at that time.

We elected the following new officers, who will take office on July 1st. They are: President, Alice Keirn; Vice-president, Arlene Casner; Secretary, Eva Belle Smith; and Treasurer, Sandy Wise.

We closed the business with the Club Prayer Song, He Leadeth Me.

The highlight of the evening was auctioning off the beautifully wrapped Valentine packages, made by all the members. Bidding was quite lively and soon all were sold. The prize for best decorated went to Eva Belle Smith.

Ruth Tucker won the door prize and Orelha Stiffler got a birthday gift from her Secret Pal. Several others received Valentines from their Secret Pal. Several

Next month we will meet with Barb Romine on March 9th.

## Jontz holds town meeting

Fifth District Congressman Jim Jontz discussed federal funding possibilities with Mentone Town Board member Jim Miller at Saturday's town meeting. (NEWS Photo)

Fifth District Congressman Jim Jontz was in Mentone early Saturday morning to hold his first town meeting in the rural community since being elected in November. Jontz hopes to hold town meetings in all the county seats located in the Fifth District in these early months of his term. Since the Kosciusko County seat is not in the Fifth District, Jontz chose Mentone for the meeting site.

Although there were not many people at the town meeting, Congressman Jontz did face issues presented to him by those representing the agricultural and business realms of the community. As

Barry Capper told Jontz, "you are the only lobbyist I can afford". Jontz pledged his support to the issues and concerns of all who were present.

Jim Miller, representing the Mentone Town Board, questioned Jontz about the wastewater issue facing Mentone. Although Jontz admitted he knew very little of the situation, he stated he would look into the situation and promised the help of his field representative, Mike Busch, to work with the board in resolving their questions about the project.

Jontz also told those present he would check on the progress of the possi-

bility of Mentone receiving a grant to help with the funding of the wastewater project.

## Mentone to resolve questions

Commonwealth Engineers is on the way out of Mentone. After investigating other engineering firm possibilities Mentone Town Board members decided to sever relations with Commonwealth Engineers, Inc., Indianapolis, the town's engineering consultant for more than 10 years.

Board president Miriam Boardman said she expects the board to set a date at the next meeting to accept bids from engineering firms. The board hopes to resolve questions about financing, and choose a manufacturer before the board meets with the State Environmental Protection Agency, April 1.

The first cost estimate for a new sewage system was also released Monday night. Although officials did not actually endorse an estimate by Airvac, Rochester, for \$1.8 million, board members reacted favorably. The \$1.8

## Akron Board meets

A satisfactory report was received by the Akron Town Board concerning the town wells. An inspection report by the Layne-Northern Co. was accepted by the board. The wells are inspected annually. It was also reported that the wells have been lubricated and re-packed.

In plans for the new Akron Fire Station, Bob Peterson reported he had a favorable report from the FHA on the financing of the new building. In other business concerning the fire station, an agreement with Henry Township firemen was signed for the year 1987. Also, Mike Gearhart was given permission to order 100 feet of large diameter hose to put on the town fire

## Burket woman escapes serious injury on ice

A Burket woman escaped serious injury and possible death when she fell through the ice on a pond located behind her home.

Cheryl Murphy ran onto the partially frozen pond in an attempt to rescue her small Shih-tzu dog who had fallen into an open pool of water.

As Murphy reached for the dog, the dog leaped forward into the water and the ice beneath Cheryl gave away.

Rescuers were contacted by Tom Hoffman, who was told about the situation by a nephew staying at the Murphy home. Volunteer firemen from Burket, Silver Lake EMS, and a conservation officer assisted in the rescue Saturday morning.

During the episode, Murphy swam to an aerator located in the center of the pond, which keeps the pond from freezing over com-

pletely. Because of the numbness in her muscles, Cheryl found it impossible to release herself from the aerator when the rescuers did arrive. Murphy estimates the ordeal covered a time period of approximately 45 minutes before being rescued. The near-tragedy began about 11:00 a.m.

Before reaching the aerator, Murphy tossed the dog on the ice, and he safely reached shore.

## Pictures sought

Pictures of Akron's fire department through the years are being sought by the Akron Carnegie Library.

## Letters to the Editor

### Dear Friends and Family:

Greetings from tropical Haiti! While all of you have snow to shovel once again, we're only now becoming comfortable with the heat. The highs are in the lower 80's now (Fahrenheit, of course). Although we do miss the familiar cold at times (like at Christmas), it is also nice to have unending summer for a change. Spending Christmas playing volleyball outdoors and going to the beach will remain a special memory for us.

We've been in Haiti now since mid-August of 1986, soon after graduating from Goshen College in June. We spent the first six weeks in the capital city of Port-au-Prince studying the language Haitian Creole which we now use daily. It came fairly easily to us as it is similar to French which we had both studied before. Then we moved to Les Cayes, a city on the southern peninsula, where we plan to live for the remainder of our 3-year term with MCC. We rent a nice little tin-roofed house with a livingroom, kitchen, bedroom, and bathroom; an extra little building out back serves as a storage area. Surprisingly, it even has the familiar shape of a house trailer. It's no more or less than we need so we're very satisfied with it. Being in a city, we were able to install water and electrical systems, so that we now have the luxuries of indoor running water, electricity, and indoor plumbing which have made our adjustment here considerably easier.

We have very friendly neighbours who have been extremely helpful in learning Creole and becoming sensitive to the Haitian culture and way of life. One of our neighbours and good friends is Marie Victoire Simon, a middle-aged woman who helps us by making our dinner at noon (usually Haitian food which we enjoy very much), doing our laundry (all by hand), ironing, and cleaning, etc. Having a "servant" was a difficult cultural idea to accept for us as it seemed to necessitate one-way rather than mutual servanthood, but we have found ways to honour Marie by respecting her wisdom and advise, trusting her fully, and treating her as the close friend she is to us. We have also made many friendships with our music students and fellow choir members which has helped make life here very enriching.

Our work here in Haiti is to train Haitian Christians to lead music in their churches. Originally, the 4-semester course in music literacy (how to read and write music) that we teach in Creole (a 90-minute class weekly, 14 weeks per semester) was part of the general requirements of a Bible school program to train Haitian pastors.

It has been difficult at times being so far from all of you. At times we question whether God really wants us to serve here in Haiti instead of at home. But again and again we have received confirmation that this is our calling for the present time. We look forward to seeing all of you again, but also wish to serve as best we can while we're here. Life for us here has not been a constant struggle by any means. MCC provides well for our needs, and we receive great satisfaction from the eager interest and progress of our students.

If some of you are interested in visiting Haiti while we're here, we would welcome you to come. Our immediate families can help with questions regarding details. We look forward to a visit from Kathleen's mother and brother Sam in March '87.

Thank you for your thoughts and prayers. Write us when you get a chance. We'd love to hear what's happening with you currently, too.

Sincerely,

## A new beginning...

By: J.D. Moore

### Could This Be Me?

Several years ago, my youngest son, C.J., felt he didn't need to read. My dad and Doug's mother were big readers and I also loved to read when I had the time. My oldest son, Chris had a book in his hand three-fourths of the time whether it be a comic book or an encyclopedia. Somehow I thought C.J. would learn to enjoy reading. Then one day I found a book about a diet camp for children. I took the book home and read it and chuckled through the whole thing. The children tried to sneak candy bars in the camp in their trunks, they attended camp dances only for the sake of refreshments and for carrot sticks and celery pieces. Scenes were described in detail of kids who were sure they would never survive the ordeal of losing weight and the notorious weigh-in sessions once a week. After reading the book, I mentioned to C.J. some of these things and he took an interest in the book. Eventually he decided to skim thru the book and has in the last several years read the book several times, each time enjoying it as much as the first.

It didn't hit me until recently why such a book would hold interest. There were scenes in that book that described what your average person would go through and a person could relate to it. The kids would talk about the foods fixed at home and what they missed. (We have been known to do that on occasion.) While the kids in the book attended exercise class they would wonder if they would have to be carried out on a stretcher. (I believe that thought has crossed my mind while riding my bike.) Every time the kids had something wrong with them one declared it to be a "clear-cut case of malnutrition". (I've thought I was starving to death, too!) One boy announced he was going to eat potato chips when he left camp, another boy said "I remember potato chips" (I remember potato chips too!) Then there was the tense moment when one of the kids was worried about overdosing...on carrots! (You don't suppose it could happen, do you?) One of the girls in the story was told she was as wide as a truck. (I vaguely remember someone threatening to put a "Wide Load" sign on the back of my bike one summer. It wasn't funny then, and I still fail to see the humor. Can I help it if the seat is so small?)

Throughout the book, junk food was mentioned continually as the main thing the kids ate. It was also stressed that there was a great deal of snacking along with second and third helpings of the right foods. This all brought to mind that one helping is plenty (reasonable sizes of course) and junk foods rarely have any advantage due to salt, oil, sugar and cholesterol levels. I guess we never get over being like the kids at the camp for slimming down, but we can recognize the mistakes made in the past and keep trying to improve on the way we eat. Anyone who has tried and been successful in the past has to remember how much better she feels and for those of you who haven't managed to succeed yet, keep trying, don't give up, no bag of potato chips or candy bar is worth it. If you have a difficult time sticking to or getting started on a reduction plan, seek help from someone who will be a help to you and support you when the going gets rough and be careful of those who will tempt you with desserts.

32 YEARS AGO

Earl Boggs, trustee; Mr. Walter Kent, principal, and Mrs. Dan Urschel, of Mentone, were in Buffalo, New York recently making arrangements for the April 20th dedication services for the Lawrence E. Bell Library at the Mentone School. The library was made possible by a \$5000 gift from Mr. Bell, president of the Bell Aircraft Corporation and a former Mentone citizen. Mr. Kent states that they are adding about 150 books each week and now have about one thousand volumes. Morrison Rockhill, of Warsaw, accompanied the group to Buffalo.

Mr. and Mrs. Joe Miller moved from the Curtis Nellans farm to their home south of town last week.

Remember March 29 and 30! These are the two days that the Mentone Minstrels will present the first Minstrel Show to be held in Mentone for many years. The show is sponsored by the Parent Teachers Association of Mentone. The entire proceeds will go to the Music Department of the Mentone School. The school music instructor, Mr. Dale Whitehead, is the chorus director for the show. Members of the chorus are: Kenneth Romine, Roy Cox, Earl Bruner, Jr., Wayne Bowser, Ray Eckert, Ivan Tucker, Carroll Eiler, Charles Eaton, Eldon Horn, Zanna "Skeets" Hammer, Leslie Grant, Skinny Gross, Abe Hoogenboom, Vance Johns, Lester Blackburn, Monroe Romine, Lyman Mollenhour, Albert Henderson Sr., Ned Miller, Bob Holloway, Dave Gosser, Jr., Larry McKinley, Albert Henderson, Jr., Tim Utter, Bill Nellans, Dick Tombaugh, and Duane Eckert. The pianist Jalaine Smythe, Elwin Teel will accompany the piano and chorus on the drums. Vance Johns will sing "Ole Man River" as only Vance can sing it. This highlight in the show is almost worth the price of the admission alone, according to the director, of the show, Louis "Peanuts" Breeding of Warsaw. Another special feature will be a saxophone solo, by Willard Snapp, last year's music instructor.

IT HAPPENED IN MENTONE  
TAKEN FROM THE NORTHERN INDIANA CO-OP NEWS  
MARCH 11, 1942  
45 YEARS AGO

Old Man Winter went on a rampage Sunday evening and by the time he called a halt to his March blitzkrieg almost every one was holed up or stuck on the highway. The fall of snow wasn't so great, but high winds drifted the north and south highways shut. Highway snowplows shoveled banks of snow higher than a man's head when opening some of the bigger drifts. Many cars and trucks stalled and the Mentone schools were closed two days waiting for safe driving for the school buses. Main highways were coated with ice and many cars and trucks lined U.S. 30 between here and Chicago Sunday night and Monday.

Mrs. Mahlon Jefferies was taken to the McDonald Hospital at Warsaw Monday after she suffered a fractured left arm in a fall at her home.

The season of "41-42" has come and gone and in this, my last column I would like to give a few facts on the boys who have made it successful. The first team won fifteen out of their twenty-one starts, scoring 591 points to their opponents' 503. High point honors went to John Tucker with an even 200 points in 21 games or an average of about 9½ points per game. Miles Igo came in a good second with 120 points in 18 games. Free throw honors were taken by Emery Mosier with 26 made out of 37 attempted, or a percentage of .703 which is a very good for one taking that number of tries. The squad's free throw totals stand at 227 made out of 514 tried for a percentage of .442...bv Bob Anderson.

Private William A. Sarber, who has been stationed at Fort Monmouth, New Jersey for the past four months, recently visited his parents, Trustee and Mrs. Earl F. Sarber, of Seward Township. While here Bill called on Mentone relatives.

Mrs. John Nuell was brought home from the Rochester Hospital Monday afternoon after being confined there for nearly five weeks with pneumonia.

A new roof and new windows are assured for the Prill School, a restored one-room school in Henry Township, the result of a well-attended fish fry and bake sale that netted almost \$500. Akron has a difficulty to over which very few towns or cities now days have to experience and that is a shortage in labor. The Akron Basket Factory which is now owned by W.C. Redmon and Sons and which is managed by W.S. Grepke is starting to advertise in other towns and cities for laborers. They have issued a call for 50 women or girls. The price is the same as is paid by any factory and good money can be made. It will take two or three weeks to really learn to make baskets with speed and to turn out first class work. It seems strange that people outside of Akron come here for work while people in Akron say they are unable to find work. With a clean and up to date factory and the same wages that are paid other place the factory should be able to get plenty of help. Apply at once. Get a job while you can.

### A Friend Is Someone Special

A friend is someone special.

For in the passing of a day, They cheer our hearts with little things,

With friendly words they say.

A friend is someone special.

They know when to "just be there",

To listen quietly to troubles,

Or help chase away some care.

A friend is someone special.

With little things they say and do,

## Friends of Library asset to year's success

Friends of the Akron Library headed by Mrs. Mary Lukens, President and Mrs. Sarah Jane Sutton, Secretary-Treasurer, has been an asset in various ways during the year.

Pre-School Story Hours have been conducted three times during the year in a series of five or six weeks. Members of the Friends conducted the story hours with the assistance of the Librarian.

Members did typing for displays during the Sesquicentennial. One member donated Christmas trees for the Library.

The Friends contributed

money towards the new Reader/Printer that was purchased this year for the Library.

Articles have been loaned to the Library for use in the Display case.

The yearly book sale held in conjunction with the 4th of July Celebration plus dues which are \$2.00 per family, or \$1.00 individual is the principal way funds are raised.

Dues for 1987 will be collected this spring. If you do not belong now, but would like to join, see Sarah Jane Sutton at the Town office or inquire at the Akron Library.

## Church holds Friendship Banquet

The Akron Church of God Youth recently held their 4th Annual Friendship Banquet in the church fellowship hall. Hundreds of hours were involved in the preparation, as the fellowship hall was transformed into a southern mansion setting, complete with front porch, benches, trees and other appropriate decorations.

About seventy youth and counselors attended the banquet under the theme "An Evening In The South". Mrs. Betty Van Camp, a gospel singer from Nashville, Tennessee, provided the entertainment. The church's Marionette Circle catered the buffet meal.

As a part of the banquet activities the 1987 Royalty was crowned. The Royalty Court included: Queen, Janie Roser; King, Andrew Wood; Princess, Jenny Eriks; Prince, Eric Perry; Pages, LeAnn Gaerte and Ryan Black.

The banquet was under the direction of Associate Pastor Terry L. Canfield and committee chairperson, Donna Loer.

Part of the royalty court for the Akron Church of God Friendship Banquet were Eric Perry, prince; Janie Roser, queen; Andrew Wood, king; and Ryan Black, page.

Many hours of work went into changing the church fellowship hall into a southern estate for the Akron Church of God Friendship Banquet.

## Views On Dental Health

H. RAY HAZEN, D.D.S., M.S.D., P.C.

WHEN DENTURES  
NEED A CHECKUP

For most people, it takes a while to get used to wearing full dentures. Once they achieve a degree of comfort and usefulness, you may think you no longer need help from your dentist. Far from true!

The tissues on which dentures rest are changing constantly. Usually the ridges that support dentures recede and shrink, causing the dentures to loosen. When this happens, your dentures will have to be adjusted to fit properly again, or remade.

Dentures have to be kept clean and free of deposits or they can have an adverse effect on the health of the mouth. This is another reason for yearly checkups. A minor irritation can cause infection and inflammation of the gums.

Like any device that is subject to constant wear, it has to be properly maintained. Occasionally dentures must be relined, and if your mouth undergoes major changes, it may be necessary for you to be fitted with new dentures. Full dentures solve the problem of missing teeth, but they need periodic checkups, just like real teeth do.

Prepared as a public service to promote better dental health.

## Deadline for grants fast approaching

The March 1 deadline for applying for state higher education grants and the new Lilly Endowment Educational Award Program (LEAP) grants is less than one week away.

Applicants must file a completed Financial Aid Form (FAF) by the deadline to be eligible for consideration for either the Indiana Higher Education Grants or the new LEAP Grants.

FAFs are available from high school guidance counselors, college financial aid offices and SSACI.

The amounts of state and LEAP grants vary with financial need and an applicant's choice of school. Eligible applicants with the greatest financial need who are planning to attend or

attending most private colleges are expected to receive a state grant of up to \$3,468 for the 1987-88 academic year. State grants for students with the greatest financial need who are attending or planning to attend one of the public universities are expected to range from \$944 at the Indiana Vocational Technical College campuses to \$1,362 at the Bloomington campus of Indiana University for 1987-88.

The new LEAP grants, made

possible by a multi-year, \$50 million grant from The Lilly Endowment Inc., will provide applicants with resources over and above the state grants.

Eligibility for the state and LEAP grants is contingent upon filing the FAF by March 1. SSACI urges parents and students to complete the form and mail it to the College Scholarship Service, CN 6309, Princeton, NJ 08541 no later than the deadline.

## Valley Viking Basketball Review

### Valley 68, Oak Hill 59

Tippecanoe Valley defeated Oak Hill 68-59 in overtime on Friday night's thrilling game.

The win lifts TVHS to 11-7 overall and 5-2 in conference play, while the loss leaves Oak Hill with the same conference mark, 5-2, and an 11-8 overall record.

Dustin DuBois netted a 17-foot jumper, his fifth long range shot without a miss, as the Vikings took a 54-52 lead to start the extra three minutes. Chris Zolman, silent up to this point with six points, completed two three-point plays in leading a Viking offensive onslaught that saw the hosts outscore the Eagles 16-7 during the extra period. Dion Anglin and Dale Miller added four points during the Viking outburst.

Valley forced the overtime by holding the ball for the last 1:30 of regulation in an attempt to take the last shot. The strategy paid off, but a John McDaniel shot was hurried and missed as the buzzer sounded, forcing the final three minutes.

DuBois carried the hot hand into the fourth quarter, netting a 17-footer to give the hosts a 52-50 edge with two minutes remaining. John Lewis sank two free throws to tie the game and set up the exciting finish.

Anglin paced a balanced Viking attack with 18,

followed by Miller and Zolman with 12. Miller also had 10 rebounds. DuBois and McDaniel each finished with 10, with McDaniel, the Vikings' record holder for assists in one season, dishing out a game-high nine.

Price, who fouled out halfway into overtime, led all scorers with 24.

### Valley 69, Plymouth 48

During Saturday night's basketball action, Tippecanoe Valley improved its record to 12-7 by defeating Plymouth 69-48.

Dale Miller scored 26 points for the Vikings while Chris Zolman added 12 points. Dion Anglin scored 11 and John McDaniel added ten points.

The Vikings who led 36-31 at half-time, outscored Plymouth 16-7 during the third quarter. Valley also outscored Plymouth in the final quarter 17-10.

Miller led Valley to a 33-27 advantage in rebounds with 11. Zolman added nine rebounds and McDaniel led the Vikings with 11 assists.

Sarasota, Fla.—One of the first signs of spring is Major League baseball's spring training—in Florida and the West.

In this city the Chicago White Sox train, and the new ownership almost took the team to another spring training site, or so it's said. They didn't because the city decided to put up the necessary millions to build a new facility.

The Sox had been playing in Payne Park for many years, which they inherited after the Boston Red Sox moved away. Now they will have a fine new park to play in—in one or two years. And the Sox will stay in Sarasota.

The Sox are now selling tickets to spring games—\$6 a seat in a box. The first game is March 8th, against nearby-training Pittsburgh in Bradenton. They'll play eighteen exhibition games at home, the last being April 5th.

points and pulled down 10 rebounds, but the Valley Green Team lost 56-37 and finished with an 8-11 record.

The Valley Gold Team, which finished with a 5-5 record, got 11 points and 12 rebounds from Aaron Broford in a 45-36 loss. Jamie Goings and Stan Miller added nine points apiece.

When the new park is ready, seating more fans, those eighteen games each spring (or about that) will bring in real money. A few years ago spring receipts amounted to very little. Now the Major League clubs are looking to a total attendance of 100,000 for spring games, in new parks.

## Pre-school testing offered in the area

Free pre-school testing will be conducted by staff members of Manitou Training Center in four Fulton County sites on March 4, 5, and 6. The free developmental screening test will be for children from birth to 4 years. Children eligible for Kindergarten will not be included.

Tests in language, self-help, social, academics, and motor skills will be conducted by speech therapists, social workers and teachers from the pre-school staff. The purpose of these screening sessions is to give parents the opportunity to discover if their children are talking, walking or learning like other children their age.

Since last year's district testing was so successful, Manitou Training Center will again offer this free service throughout Fulton County. Parents are advised to note the time and place for testing in the area nearest their home. The 4 sites for this Spring pre-school testing by Manitou Training Center Pre-School are at Fulton, Leiters Ford, Akron, and Rochester.

On Wednesday morning, March 4th in the Fulton area, the testing will be at the Fulton Library, following the Story Hour (10:30 to 12:30).

The second day of testing will be Thursday, March 5. Dr. Helen Grant is providing office space at her Leiters

Ford office adjoining the Leiters Ford Bank. The testing time Thursday at Leiters Ford is 9:30 to 11:00.

The testing team will then travel to Akron for a session at the Akron Library for the hours of 1:00 to 2:00.

On Friday morning 9:00 to 11:00 the Manitou Pre-School will be open for testing only. The address is 330 Lucas St., Rochester (Across from McMahan-O'Conner Construction Co.).

This testing service is offered free of charge to all Fulton County families. Any questions may be directed to Manitou Training Center, phone 223-6963.

in total costs include plans to extend service outside city limits.

Three months ago, Commonwealth suggested the sewage project for only the town could cost close to \$3 million.

The Airvac firm is an air vacuum system which is designed for small communities and uses two - four - and six inch pipelines and has a seven mile pumping capacity. The system utilizes small collection tanks that are connected to as many as eight customers and eventually feed into one pumping station.

Board members were also optimistic about working with a company located less than 15 miles away.

Mentone and other communities were given an ultimatum by state and federal officials to construct sanitary sewage collection and treatment facilities or eliminate the illegal connections to the existing storm sewer system before July 1, 1988.

Upgrading the sewage treatment facilities have been discussed for nearly 14 years, but have been bogged down at federal, state and local levels. The board president has high hopes in receiving a \$400,000 grant for the town from the Department of Commerce. The town may also be eligible for a 40-year low interest loan through FHA.

Remaining costs of the project would be included in monthly sewage bills and would not be figured into property taxes, Boardman said.

In other business, Boardman said the board has decided to restrict garbage collection to one company, Millwood Sanitation, Bourbon, who was the lowest bidder and began service several weeks ago.

## Tax help available

Volunteers trained by the Internal Revenue Service will be available at sites throughout the state.

Persons seeking assistance may call the IRS Tax Information Service at 1-800-424-1040 and ask for the location of an AARP tax aide site near them.

## Mark hosts meeting

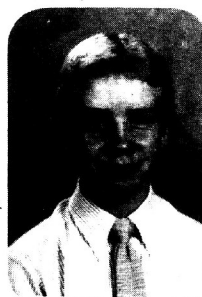

The Women's Fellowship of the Akron Church of the Brethren met in the home of Lavon Mark for the February meeting.

Betty Meredith led devotions, her topic was "Forgive and Forget." She stressed that we haven't really forgiven a wrong until we have forgotten it. She read one of Cleda Zunkel's poems, and the Lord's Prayer was said in unison.

Kay Brouette conducted the business meeting. Betty Meredith gave a report on the material aid. Lavon Mark displayed books to read, and several get well cards were signed.

A Valentine exchange was enjoyed by the group. Mrs. Mark served delicious refreshments in keeping with Valentine's Day to the eleven members present.

truck. This would help in having more water to use in case of fire.

The board has also signed a resolution which changes Wen Products from an Urban Development area to an Economic Revitalization area. The state statute required the changes.

In other business the board heard a suggestion from a local citizen to make Rural St. one-way from the school house to Mishawaka St. to try to relieve part of the congestion in the area. The board is considering the proposal.

The first post cards were issued in 1869.
