Seek new Fulton Co. hospital

Members of the Woodlawn Hospital Board of Trustees met with the Fulton Co. Board of Commissioners Monday to discuss a new hospital. They were told to take their plans to the Fulton Co. Council.

Hospital trustees, in presenting the idea to the commissioners, said a decision should be made and stressed that delays could hamper the community's chances for financial aid and keep the hospital from accreditation.

Woodlawn Hospital administrator Don Logue said an up-to-date hospital would be an incentive for doctors to come to a community and said the board is not trying to replace the hospital because it is overloaded or filled to capacity all the time, but that they are trying to replace an old, wornout, obsolete unit.

The hospital board reportedly made the decision to build a new

hospital in October after reviewing a survey of the present and future needs of Fulton Co. as compiled by Hewitt and Royer hospital construction consultants of Kansas City, Mo.

Estimated cost of the new hospital on a new site was listed at \$2,850,000.

The construction company offered two alternatives:

1. Construction of an addition to the north wing of the present hospital at a cost of \$2,850,000.

2. Establishing a "minimal program making maximum use of existing facilities" by remodeling and renovation plus building a smaller addition. Estimated costs was \$1,970,000, plus cost of additional land and demolition of the 1935 portion of the hospital.

State ready to approve TVSC projects

The office of the State Superintendent of Public Instruction is ready to approve the high school building projects at Akron and Mentone as submitted by the Tippecanoe Valley school board on Dec. 3, it was learned this week in a letter from that office.

Approval will be given, the letter stated, if certain additions to locker and shower rooms are made at Mentone and Akron, if agricultural rooms and gymnasiums for physical education purposes are added to each and if two science rooms—one for physics and chemistry—are included in both schools. It also stipulated that a general shop be included in the Mentone facility similar to that provided in the Akron facility and that both sites must meet minimum standards.

The letter, written by Roger Birdsall, Assistant Superintendent of Public Instruction, concluded by saying that the department was of the opinion that it was not the most desirable program for the provision of good, sound high school programs in TVSC.

The projects submitted by the board on a 3-2 vote called for new academic and shop facilities for Akron grades 10, 11 and 12 and remodeling of gymnasium and shower facilities and extension of the present gymnasium. The facilities were also to include principal's office, guidance room, health room, teacher's room, storage and work area, education materials center (library), English and speech room, social studies room, math room, two general classrooms, science room, commercial-typing combination, homemaking room with one teacher department, language room, art room, general shop, agriculture room, music room and any facilities that the state desired to have added or deleted.

The second project, for Mentone, included new academic classrooms for grades 10, 11 and 12 and a new cafeteria. These facilities would include a principal's office, guidance room, health room, teacher's

room and storage and work area, educational materials center (library), English and speech room, social studies rooms, math room, three general classrooms, science room, commercial-typing com-

bination, homemaking room with one teacher department, language room, art room, agriculture room, cafeteria, music room and any facilities required by the state to be added or deleted.

Historical Society museum opens Saturday

Fulton County Historical Society's depot museum on Race St. in Rochester will open to the public Saturday, January 8, and will be open from 2 to 5 p.m. each Saturday and Sunday afternoon from now on.

Displayed will be a large array of items from Fulton County's past, ranging from a tin lantern made in 1840 to a nine-foot long model train made in the 1940s. Old toys, handmade baby clothes, books, sword, 1900 valentines, Aladdin lamp, ox-box keys, and many other items of historical interest will be displayed.

It Was The Methodist Church Basement

Several people called to identify the picture printed in last week's NEWS that had been found in the walls of the King Memorial Home. All said it was the basement of the United Methodist Church, and Mrs. Pearl Lackey, librarian, said a story in the previous week's paper had said a social was going to be held in the church and tickets were being sold for 20 cents each.

Miss June Aughinbaugh, in a letter to the editor on the editorial page, offers more possible explanations about the picture.

More volunteers are needed to host the museum. People willing to serve should visit the museum on opening day to receive instructions.

Items may be donated or lent to the museum. They can be taken to the museum or arrangements can be made with Mrs. Jack Lybarger for pickup. She can be called at 223-5089 after 3:30 p.m.

Mrs. Shirley Willard, FCHS president, this week listed the following items that had been donated or loaned:

A wall telephone and switchboard used in Ft. Bryan, Ill. about 1900 is being loaned by James Schultz.

The Civil war diary of Cpl. Wm. B. Zeller is being loaned by his grandson, J. A. Williams.

Cecil McCrosky donated an 1899 Evangelical Sunday School quarterly and 1891 Pentecostal hymn book.

Dale Welty gave an 1876 Indiana atlas and Willis Bowen gave World War I newspapers. O.A. Bixler donated an 1899 catalog of tools.

Kate Morris Jennings gave an Akron Old Grads directory from 1897-1962. Mrs. John Crowell donated a spelling board that is 85 years old.

Atin horse-drawn cart and toy steam engine made in 1900 and belonging to Kenneth Oliver

was donated by his daughters, Dora Oliver Flores and Martha Oliver Honeycutt.

Mrs. Paul Adamason donated several items belonging to Eula Ewing (Mrs. Dee) Berrier, including 1895 bisque doll, wedding dress, Rochester College pennant and memorabilia, turn-of-the-century valentines and Christmas cards, Manitou Ripples for years 1914-15 and 19, 1833 Fulton Co. at-

las and pictures of the old McKinley school.

Lois Wagoner donated kitchen table and chair, 1880 veterinary book, secretary's book of Mt. Olive threshing ring, pioneer rag doll, Atlas canning jar with bale top, salt celler, black plush muff and wrap-around, Aladdin lamp, hand wash board, Civil War pictorial history book, etc.

Lemke Named Gifts Chairman

George H. Lenke, Jr., president of Da-Lite Screen Co., has been named chairman of the Initial Gifts Division of the Founders' Fund

campaign for Kosciusko Community Hospital, according to an announcement made this week by Robert D. Maish, campaign general chairman.

As head of the division, Lenke will assemble a group of individuals who will solicit members of the KCH corporation and board of directors as well as the medical profession throughout the county, the first step in gaining financial support for the program to help finance the building of a new hospital estimated to cost \$6,500,000 to be located on a 25-acre site donated by a group of physicians. The hospital will have 113 patient beds and an obstetrical suite with 16 bassinets.

Who's On Third?

Lester Crabbs, Rochester, has been appointed acting bailiff of Fulton Circuit Court to serve during the absence of former Akron resident Clair Moore who has been ill for the past month and is a patient at the Veterans' Hospital in Indianapolis.

Kenneth Luckenbill, R. 1, Akron, was named as chairman of the Fulton Co. commissioners this week and in Kosciusko county Glen Lowman, R. 2, Akron, was named as chairman of the commissioners.

The First National Bank of Rochester, after 105 years on Main St., moved a block east and occupied a handsome new building at Madison and Ninth Streets last Friday.

Of the 136 persons appearing to make donations, at the recent visit of the area Bloodmobile in Warsaw, was one, determined lad who was especially anxious to contribute. Although he was too light to meet the requirements of 130 pounds when he made his first appearance, he came back later after having fortified himself by drinking water and pop and filling his pockets with heavy material in hopes in being accepted. While everyone appreciated his efforts to donate, it could not be allowed, but the nurse on duty encouraged him to increase his weight by exercise and proper nutrition.

Thursday's strong winds left area residents exhausted after three such blows and brought two limbs down onto electrical lines in the Akron area, causing the town and surrounding area to lose its power for an hour and 40 minutes.

Congressman John Brademas and six other members of his education subcommittee, Reps. James G. O'Hara, James H. Scheuer, Alphonzo Bell, Earl Landgrebe, Orval Hensen and John Dellenback, are spending ten days in the U.S.S.R. taking a look at educational institutions, visiting Leningrad, Moscow, Novosibirsk, Tashkent and Samarkand. In addition to seeing what the Russians are doing in education, they want to test the waters before President Nixon's visit to Moscow next May, according to Brademas.

New and rigid federal control laws concerning the use of the feed additive, di-ethylestilbestrol, DES, went into effect January 1, according to Don Frantz, Kosciusko county extension agent.

All cattle now going to market for slaughter must have been taken off any feed containing DES at least seven days prior to marketing. A certificate stating that the drug laws have been complied with must accompany the livestock.

ODDS and ENDS

BY ANN SHEETZ

By the time the last Christmas present had been unwrapped, the boys had placed their orders for next year and had made suggestions for their birthdays. They then retreated to their rooms to try out their various gifts.

After our teen-ager had constructed a skull replica and a model airplane, listened to his radio and new records, he returned to the living room to watch television.

After the seven-year-old had convinced his father to construct his model airplane, had gotten his father and brother to help him with his new rock tumbler and had lined up a complete road-building department, he confiscated all the empty boxes, Scotch tape and string. When that ran out, he reverted to some scratch pads that he used to roll his own toy cigarettes that he carefully arranged in one of the empty boxes. He spent

most of Christmas vacation rolling cigarettes.

We finally convinced him that seven-year-olds didn't normally go around rolling cigarettes and that those scratch pads weren't meant for that kind of thing, so why didn't he try one of his new toys. He took the hard hat from the road construction set, lined it with bits of paper containing information about a club he hoped to form and set off selling memberships at four cents apiece in hopes of getting enough money to build a go-cart.

The only reason I tell you all this, this far past Christmas and at a time usually reserved for breaking New Year's resolutions, is because it suggests a resolution to be made for next Christmas: Nothing but old boxes, a lot of paper and good strong string. Throw in a bit of Scotch tape and get the TV fixed and you have the makings of some dandy Christmas gifts.

The main problem is that I'm pretty soft-hearted, and, for that matter, so are all the relatives who helped give the boys all those presents, so I suppose that's just one more resolution to break. But at least I kept it this long, and that's something of a record.

Besides, it's more than a month until the first birthday.

What's The Matter With Mrs. Craig

A Nashville, Tenn., paper recently carried a news story about Mrs. Lila Craig, age 81, who had not missed church attendance for 1,040 Sundays—a perfect record for 20 years. It makes one wonder, what is the matter with Mrs. Craig?

Doesn't it ever rain or snow in her town on Sunday?

Doesn't Mrs. Craig ever have company on Sunday?

Doesn't she ever go anywhere on Saturday night so that she gets up tired on Sunday morning?

Doesn't she ever have headaches, colds, nervous spells, tired feelings, poor breakfasts, sudden calls out of the city, business trips, Sunday picnics or reunions?

Doesn't she have any friends who invite her to go on weekend trips?

Doesn't she ever sleep late on Sunday mornings?

Doesn't she read the Sunday paper?

Doesn't she ever become angry at the minister or Sunday School teacher?

Doesn't she ever get her feelings hurt?

Doesn't she have a radio or TV set so she can stay home and hear some good sermons?

WHAT'S THE MATTER WITH MRS. CRAIG???

EDITOR'S NOTE: This letter adds further detail to the information submitted by Mrs. Lackey that appears on the front page.

Dear Editor:

Our son and brother, Sp4 Terrell Runkle, who is serving with the United States Army in Germany has written to say how thankful he is to his friends, relatives and everyone who remembered him with cards at Christmas time.

He says it was nice to be remembered and that although he could not be home for the holidays, it made it a lot easier knowing so many cared enough to send a card.

We are also very grateful to everyone for making his Christmas a lot merrier.

God bless all of you. Mr. and Mrs. Gerald Runkle and Mr. and Mrs. C. E. Beaird and family.

Our readers will find an advertisement elsewhere in this paper signed by Willie and Clair Moore. They have been selling daily newspapers about town for a long time, and are bright, clever lads, honest and square in their dealings and have made friends by their courteous conduct. They want 25 new subscribers now to the Indianapolis Daily News and they should be able to get these very easily. See their ad for further particulars.

Our friend, Samuel L. Smith, early last Friday morning after a drive through the fresh air when the thermometer registered 10 below 0, and called for three receipts--one for his own wheel, one for his daughter, Mrs. C.C. Dukes, at Warsaw, and one for their son, Ross L. Smith, Portland, Oregon. We certainly appreciate Sam's big heart. We often wished that this family had raised fifteen or twenty sons and daughters instead of only two. It would have been money in our pocket.

Mesdames E.O. Strong and A.B. Slaybaugh went to Goshen Thursday to attend the fat poultry show.

Walter Whittenberger of Larwill was an over-Sunday guest with his uncle Thomas Whittenberger and two daughters last Sunday.

While Rev. Frank Crabill was delivering the evening sermon at the Church of God last Sunday night someone stole the clock off of the dash board in his car. The theft was not discovered until the services were over. It is not known if this is the same "gang" who removed the cap from his gasoline tank a few weeks ago or if they are the ones who took the candy and cigarettes from the White Star Filling station. The fact that so many small acts have been committed leads one to believe that there is a group of lawbreakers around here.

It Happened In Mentone

Taken from the January 5, 1938, issue of the Northern Indiana Co-Op News:

Beta Epsilon chapter of Psi Iota Xi sorority were guests at a holiday buffet supper at the home of Mrs. Emma Clutter. Assistant hostesses were Helen Hoffer, Jessie Rush and Pauline Riner.

If the administration can't find out how to get the national budget out of the red we would suggest that it call in the wife of a man who has raised a family and educated them and bought a home on a salary of a hundred dollars a month.

The gossip, as a rule, prides himself upon his honesty, and would perhaps resent bitterly being charged with theft, but gossip who robs another of his reputation or attempts to undermine him with vicious lies, is a more contemptible and cowardly thief than the man who holds his fellow up at the point of a gun. The latter act requires some degree of courage. A gossip is always cowardly.

Mrs. E. S. Lash were Sunday dinner guests at the home of Mr. and Mrs. Raymond Lash and daughters Eleanor and Ruth

and son Phillip.

The Misses Kathleen and Mildred Anderson, Mr. and Mrs. Ira Anderson, all of Evanston, Ill., and Dr. Wendell Anderson of Martinsville spent the Christmas holidays at the home of their parents, Dr. and Mrs. F. D. Anderson in Mentone.

Mr. and Mrs. Howard Horn are parents of a son, Lester H., born at Woodlawn hospital Dec. 31.

Miss Martha Goshert is spending a few weeks with friends in Fort Wayne, but plans to make her home with her sister, Mrs. J.M. Freische, in Owosso, Mich.

28 marriage of their

Mentone Methodists Will Present "Like A Mighty Army"

On Sunday, January 9,
at the Mentone United
Methodist Church, dur-
ing the 7 p.m. evening
service, a dramatic 55-
minute color film, con-
sidered by many nation-
al church leaders of all
denominations to be one
of the greatest religi-
ous films produced in
the last three years,
will be shown. It is the
true story, dramatically
told, of the mobiliza-
tion of a typical church
for the spiritual battle
of the 70's under the
leadership of Dr. James
Kennedy, who today has
become one of the out-
standing pastors in the
nation and a noted auth-
or in great demand th-
roughout the U.S. as a
speaker before various
national denominational
conventions and work-
shops on evangelism.

In nine years, the
Coral Ridge Presbyter-
ian Church of Ft. Laud-
erdale, Fla. has grown
from 17 to a membership
of over 2,000. Each
week, more than 300 of
its members are engaged
in a program of lay ev-
angelism that has made
it one of the fastest
growing churches in the
world. This is due
largely to the unwaver-
ing devotion of Dr. Ken-
nedy who has recaptur-
ed the Biblical concept

that the primary task
of the church is "every
member evangelism."

The concept of a
whole church being moti-
vated and mobilized is
put forth in the film
in a dynamic and power-
ful presentation. This
dramatic true story of
the Coral Ridge Presby-
terian Church and its
pastor, Dr. Kennedy,
portrays the most rev-
olutionary technique
for mobilizing the ch-
urch to be discovered
in the 20th century.

The general public is
invited to see this re-
markable film of God at
work, says the Rev. L. E.
Todd, pastor of the
church.

Indian Pastor To Speak At Family Night

All members and fri-
ends of the Mentone Uni-
ted Methodist Church
are invited to bring a
basket of food and hear
Rev. Lovely Wallace at
the Family Night Hour
at 6:30 p.m. Friday,
January 7.

Rev. Lovely Wallace,
Cherokee Indian pastor
of the Marble City Meth-
odist Indian Church in
Oklahoma, will speak
and share the honors
with his sister, Lucille
Keith, who will travel
with him. Together, they
make a colorful and dra-
matic team as they
share their faith in
Christ and relate the
problems facing their
people today, said the
Rev. L. E. Todd, pastor
of the church.

Marble City was the
site of last summer's
district work camp where
Mr. and Mrs. Jim Whet-
stone, Miss Cindy Whet-
stone, Miss Peggy Whet-
stone, Mr. and Mrs. Paul
Haist and Mr. and Mrs.
Hap Utter assisted in
the construction of a
badly needed new church
for the Indian congre-
gation.

Hammer Critical After Being Struck By Car

Charles Hammer, 56, R. 5, Warsaw, was listed in critical condition last week at Ft. Wayne Lutheran Hospital. He was struck by a car a week ago Tuesday while attempting to cross East Center St. at the intersection of Indiana St. in downtown Warsaw.

According to witnesses, Hammer had started across the street when he had a green light, but the light changed as he was crossing. An auto driven by Elmore N. Ausherman, 61, R. 7, Warsaw, eastbound on E. Center St., had just pulled out to pass some trucks in the right lane of traffic. According to police, when the light turned green for eastbound traffic, Ausherman proceeded into the intersection and his car struck Hammer. Witnesses said Ausherman did not see Hammer approaching as his vision was blocked by the trucks in the right lane.

Two witnesses said Hammer was knocked across the street and also struck by a westbound auto, which then backed up and left the scene of the accident. Damage was estimated at \$40 to the Ausherman car.

Hammer suffered a skull fracture and possible internal injuries in the accident and was taken to Murphy Medical Center and later transferred to Ft. Wayne's Lutheran Hospital.

At last report, Mr. Hammer was somewhat better and no longer required oxygen.

BABYSITTING HEN has adopted this litter of Dalmation puppies at the Richard Whittenberger farm.

This Old Hen Loves Pup-Sitting

By Ann Sheetz

Baby sitters and child care centers are frequent topics of discussion among mothers and most of them admit that good sitters are hard to find.

Not so for Queenie, a registered Dalmation at the Richard Whittenberger farm, R. 2, Akron. Queenie's four puppies are watched round-the-clock by an old White Rock hen who actually sits on them.

The unlikely arrangement began almost a week ago when the hen started sitting on the puppies, which were born shortly before Christmas. The arrangement is almost a sign of truce between the hen and the dog since Queenie's favorite food is raw chicken, according to the Whittenbergers. Actually, they in turn, have been sitting with Queenie while her owner, their son Steve, is teaching school at Roanoke.

The hen is so fierce in her loyalty to the litter of pups that when we went to get a picture of her, she didn't move a feather when the dog house was moved so we could get a better view. She sat right there, feathers and wings fluffed over the fat puppies until they were barely visible. In order to see the still white puppies (they get spots later), we had to make

the hen move, which she did very reluctantly and then only a few inches. As soon as the picture was taken, she snuggled down on top of the puppies again and paid no more attention to us.

And what is Queenie doing while all this sitting is being done for her? Part of the time, she snuggles into a nest of hay she built in the building that houses her dog house. The rest of the time she runs around with another dog, barking at visitors, chasing imaginary intruders. She does go visit the puppies at feeding time, but even then the hen is not far away. In fact, the Whittenbergers report they have found mother, baby sitter and the four puppies all in the small dog house at the same time. One time it was so crowded and the hen was confused so she just sat on Queenie's back while she waited for the puppies to eat.

No one knows how long this unlikely arrangement will continue or if Queenie will tire of it and try to eat the baby sitter. In any event, there remains one question—Will the puppies learn to cluck or will the hen take up barking?

Unearned money is seldom spent wisely.

FUNERAL PROCESSION makes its way around Broadway and then east on main street in Mentone while the mourners walk ahead of the horse-drawn hearse. This picture and two other views of the same scene were found by Elmer Sarber while going through his mother's house. He does not know the date the picture was taken nor whose funeral it was. Does anyone else? As a clue, another view of the same scene clearly shows the old school that is located where Dr. Wilson's office and the Bell Memorial Library now stand and it does not show the Church of Christ which is now located just north of the buildings shown here on Broadway.

It Happened In Mentone

Taken from the January 12, 1938, issue of the Northern Indiana Co-Op News:

Friends and neighbors of Mrs. Mahala Meredith surprised her on her ninety-sixth birthday last Monday by giving her a card shower.

The shower bath was invented by a man whose wife was always bawling him out for leaving a ring around the bath tub.

Miss Eunice Reed and Mrs. Thelma Yeager, teachers at Angola, were week-end guests at the home of Mr. and Mrs. Robert Reed.

Dr. Donald VanGilder went Sunday night to In-dental meeting this week.

Mr. and Mrs. Fred Swick are spending some time in Florida with friends and relatives.

60 YEARS AGO

The schools at Beaver Dam were compelled to close down this week on account of the extreme cold weather. For ordinary weather, the heat radiation has been sufficient to heat the elegant new building, but for a long stretch of zero weather, it has been found that more must be installed and that is being done this week.

Henry Whistler of near Chili was in the other day to rent his allegiance with this paper and we appreciate him.

Why ride in an open buggy and freeze when you can ride in a "Storm Buggy" and enjoy comfort in the storm or cold. W. C. Miller.

The annual report of the county Recorder shows some amazing details by the figures contained in the report it is shown that the farmers of this county in the past year went in debt to the extent of \$200,000, while the residents in the cities of the counties paid off one thousand dollars more than debt incurred during the year.

Adam Waschter came over from Mentone Wednesday evening to get some winter clothes. With the thermometer at zero and below 10 to 20 degrees put his summer wear to the bad.

The ordinary farmer family uses a large amount of flour annually and that it takes lots of bread baking is conclusively proven by Mrs. Jacob Harman, north of Roann. There are seven in the family at the present time and Mrs. Harman bakes and used in the family during the year ending December 31, 1911, 488 loaves of bread and 552 pies. This looks to us like a tremendous big job for a woman to face at the beginning of the year, but it is only one item that she has before her every year. Of course this Harman family is not so large now by three as it formerly was. Three have married or are away from the parental home. If they were present and were as hearty and robust eaters as those at home and it is fair to presume they are, the consumption of bread, pies and other items of culinary art would be three-tenths larger than above stated. And this family is probably only the average of the farmer Hoosier family.

Iris Shamp, daughter of Mrs. George McMillen, and Ray Smith of Mentone were married Monday afternoon at Rochester by Rev. H. B. Gleason. The bride formerly worked at Warsaw. Mr. Smith is working for the White Star Egg Company at Mentone.

County Auditor Robert Shafer is the first to report seeing a robin redbreast, this year. The harbinger of spring was seen yesterday morning perched in one of the trees on the Turner sisters property, corner of Pontiac and 10th Streets, Rochester.

The Public Library Board, at the regular meeting, Monday night of this week, re-elected the officers of last year: Mrs. George Baum, president; Deborah Strong, vice-president; F. M. Pressnall, secretary.

Two members of the Rochester volunteer fire department have resigned because the city council has placed them on a flat \$60 a year salary rather than a fee of \$2.50 for their services at each fire.

Revenge Hits Bulldogs

By Alan Welch

Fans that saw the first clash between Mentone and Kewanna this year knew that the rematch would have to be a thriller. That's just what it was last Saturday night as the host Kewanna Indians pulled a 64-51 win that was much closer than the final score indicated.

From what early glimpses of the first quarter looked like, it appeared that Mentone wasn't going to have a ghost of a chance to win over Kewanna again this year. With 3:27 to go in the first quarter, Kewanna had a 14-2 lead. Then Mentone started to move and look like the team they had had the potential to be all year. At the close of the opening stanza, Mentone had closed the gap to 5, 16-11. The Bulldog onslaught continued as the visitors soon had moved into a 16-16 tie. Kewanna had another burst of points which pushed their lead to 21-16 before Mentone started another drive which brought them leads of 28-22 and 30-25 before the determined Indians pulled to within one at 31-30 at halftime.

Most of the third quarter was played on even terms, with the lead see-sawing back and forth before Kewanna jumped ahead slightly. This quarter was played mostly without either team really having possession of the ball very much as play got out of hand with both teams scrambling after loose balls almost constantly. Near the end of the quarter, Mentone lost (via the foul route) Gary Sponseller who, along with Tim Smith, was credited with several key steals. to 68% (17/25) from the charity stripe. The deficiency that counted the most for Mentone was in the field goal shooting, where Mentone came up with 17/54 for 31.5% to 22/60 for 36.7%.

The top scorer for the evening was Kewanna's 6-4 guard, Mike Clude, who managed to get 32 points. Perkins contributed 12 and Ginn 10 for the Indians. Mentone was led by Tim Peflone who had 16 points, eight on free throws, and Gary Sponseller with 12. Also deserving recognition is the Mentone Pep Block which came up with a spectacular performance.

The B-team from Mentone also achieved revenge with a 48-38 stomping of their counterparts. They were led by Randy Hardesty with 15.

Mentone has it rough next week-end when it takes on NLC contender Wawasee on Friday night at Mentone, then travels to tough John Glenn on Saturday night in a game played at Walkerton.

Hosts Las Donas Club Meeting

Monday evening, the business meeting of the Akron Las Donas Junior Womens Club was held in the home of Mrs. Randall Leininger.

The meeting was brought to order by the president, Mrs. David Wallin, by reading various thank you notes and letters of interest to club members.

The members decided to have another art contest at school again next year. The judges felt, and members too, that it was helpful in bringing interest in the art field.

A letter was read concerning the Heart Fund with members voting to collect for the fund on February 14.

Election of officers was conducted and a short discussion of numerous issues took place.

The meeting was closed with the club collect.

Mrs. Smith Hosts Friendly Neighbors

Mrs. M.O. Smith hosted the Friendly Neighbors Extension Homemakers Club at her home Thursday afternoon.

The Get-Together song was sung by the group and a poem and meditations were presented by Mrs. C. O. Mollenhour.

Mrs. Oral Welsh read an article telling how green tomatoes are chemically colored red and sold on the market as ripe tomatoes.

The lesson, "How To Pot and Care For Gloxinia Bulbs," was given by Mrs. Kyle Gibson.

Mrs. Everett Beeson discussed ways of making yeast breads and served rolls she had made during the social hour.

Eleven members answered roll call and joined in singing the club prayer song and repeating the Collect to close the meeting.

"take what you want—use efficiently what you take" is rephrasing dinner table advice popular with parents and applying it to conserving electricity. While there's no shortage of electricity here, no one wants you to waste it. Consider these saving ideas:

household engineering Organize the refrigerator so all family members can find what they want without groping while warm air replaces cold. Plan your laundry to cut down on partial loads. Some engineering jobs are major, such as relocating the electric water heater so water doesn't cool off enroute to the places it is used most. Since they don't need a flue, electric water heaters can go anywhere.

keep equipment in good working order Not only repaired but clean. Even light bulbs. Use a soft cloth to dust. If they must be washed, remove from socket and wipe with a slightly damp cloth. Be scrupulous about changing furnace filters (every 30 to 60 days) and emptying the lint filter on the clothes dryer (after every load).

be alert for energy losses A dripping hot water faucet empties a 60 gallon heater five times a month even if it drips only 90 drops a minute. Fireplace dampers left open and unsealed attic doors are escape hatches for heated air.

rethink some practices There are those who leave lights on with the argument that it is more costly to turn them on than leave them on for short periods. Not quite true: Turning lights on and off may shorten bulb life but it conserves electricity. Even the time honored practice of turning the thermostat way down at night doesn't always save. It takes additional heat to warm up areas that cool down by morning. A maximum turndown of 5 degrees is recommended.

School Board Hears 2-School Project Questions

The agenda for Monday night's Tippecanoe Valley school board meeting contained only seven items and this business was transacted in a little over an hour and a half.

Superintendent Robert Forbes presented a financial report showing \$1,423,685.56 in all funds with \$1,330,485.60 of this placed on investment. He said this year-end report did not reflect the Kosciusko County distribution.

Byron Doran, Burket, spoke during the time allowed for audience participation and asked the board if it was true that the two-school plan would offer no courses not now offered and if the plan actually duplicated facilities. Mr. Forbes replied yes to both questions, saying the curriculum would have to be what the state calls a "restricted" curriculum or would have to be offered to a smaller number of pupils. He said two schools would duplicate facilities. Doran called the estimated cost of \$4,326,800 a conservative figure and noted that the plans did not provide for parking facilities, football or auditorium. He said he felt the two-school plan with its duplication of facilities would cost the taxpayers an extra \$1.5 million dollars. Saying he felt this was too high a cost, he asked the board to reconsider the project.

Asked by board president Maurice Coplen if he had a preference for locating one high school, Doran replied that he did not.

Board members signed a 90-day teaching contract for Charles Light in the amount of \$3,520.50. Mr. Light, a graduate of Ball State University, will teach at Talma. The board also approved adding intramural sports to Robert Hinkle's teaching contract and approved extending Jane Hall's contract to full time. She had been teaching on a 3/5 basis at Mentone and will continue to do so, teaching the remainder of the year at Talma.

The board approved selling the building trades house located in

the Saner addition at Akron to Glenn H. Gary for \$20,644 and agreed to consider Carl Whetstone and Mrs. Kenneth Bush for bus driver positions when routes are open in their areas.

Coplen was elected president of the board of finance and Dr. Donald J. VanGilder was

elected secretary. The function of this board is to designate the depositories for corporation monies.

Dr. John McKee moved that the school board's policy on selling be amended to permit students to sell advertising for school year

Notice To All Residents Of Town Of Akron

For the recorded information of all residents of Akron, the hours published in last week's Akron/Mentone News were set up by Mrs. York in an attempt to accommodate the most persons.

The due date for water and sewage bills being the 10th of the month following issuance of bills was initiated on last October's billings by the previous board and was brought to the attention of the public for your benefit. Your bill has been so marked since October but many persons have failed to observe this on their water billing.

Water bills 90 days over-due will be shut off.

Signed: Town Board
Ronald Fenimore, Dr. Chas. Miller,
John Zimmerman

Dear Editor:

The first week of the General Assembly was one of many committee hearings and the passage of six tax bills out of the House of Representatives. This tax package which included two control bills (one on a local level and one of a state level) and a 4% sales tax, with all food relieved of the sales tax and 25% of the sales tax collections to be deposited in the property tax replacement fund. Another bill reduced the present corporate gross income tax by 5% and another bill would raise the adjusted gross income on a graduated basis from 2% to 5%, depending on individual income. An additional bill would distribute money raised under the previous bills mentioned amounting to a reduction of your property taxes by 2%.

A further area of interest is the matter of reassessment. I sponsored a bill which will take the reassessment schedule back to every eight years and also other measures whereby more time will be allowed

for preparation of the training of assessors, make-up of the assessing book and more time to review the assessments after they have been completed. We feel that the public can exert more pressure on public officials if the reassessing is undertaken in the same year throughout the state. I also agree that many counties using professional firms were dissatisfied with the results. Additional emphasis and a change in the law allowing local governments to pay more for their own people to do their own reassessing would be helpful. Ralph R. Heine
State Representative

Wawasee Stops Bulldogs

By Alan Welch

Powerful Wawasee survived a last quarter rally by host Mentone last Friday night to preserve a 17-point, 76-59 win, the Warrior's seventh in a row.

Mentone did a fairly good job for most of the first half in halting the high-scoring Wawasee offense but Wawasee was having one of its better defensive nights which succeeded in limiting the Bulldogs to just eight points in the first quarter and 22 points in the first half while scoring 20 points in the first quarter before exploding out to 40 points at halftime after a relatively low scoring first six minutes of the second quarter. The Warriors found their 40-22 advantage by blocking numerous shots and controlling the boards gaining better part of their final 41-32 rebound edge.

The Warriors continued to utilize their tenacious zone defense in the third quarter to pull away from the smaller Bulldogs and it appeared for a while that it might have been better for Mentone to have stayed in the dressing room at halftime. Wawasee had pulled away into a 59-32 third quarter and lead. The Bulldogs worked themselves into a 20-point hole early in the fourth quarter 64-32 before the long overdue Bulldog rally started. Mentone had soon cut the deficit to a "mere" twenty points but then the Bulldogs became stymied and the deficit staved right around twenty points for quite a while before Mentone cut the Warrior lead to 17 at the buzzer.

The biggest difference in the contest was Wawasee's ability to hit field goals. Mentone connected on only 21 of 61 shots for 35% while Wawasee hit on 32 of 62 for 54%. Mentone out-shot the visitors from the free throw line, 62% to 54%, hitting 17 to 12 for the Warriors. Errors were even with 17 apiece.

Mentone was led by Tim Peffley with 20 points and Gary Welborn with 18. Gary Sponseller contributed 14. Hamilton and Hughes were

the leading Warrior scorers with 17 and 17 apiece. Gary Welborn also pulled off 16 rebounds.

The Mentone B-team came very close to winning its game, but Wawasee took only its second lead of the game at the 0:45 mark of the final quarter and held on for the exciting 38-37 win.

Mentone Drops 9th Straight Game

By Alan Welch

The Bulldogs traveled to Walkerton last Saturday night to take on the John Glenn Falcons and returned the loser of a very rough and emotional 76-45 game.

Mentone kept the first period pretty close as the period closed with Glenn on top by four, 13-9. Glenn pulled away in the second quarter and kept it up the rest of the way. Mentone, who has been having problems with its offense lately, fell behind at halftime, 36-18. By the end of the third quarter, the Falcons had pulled out into a 53-34 advantage. Glenn slipped away quietly in the last quarter, one marred by fouls, injuries and a technical and ended up with a big 76-45 win.

Even though Mentone got off 19 fewer shots they had a 46% shooting average from the floor, hitting of 18/51 while Glenn had 30/70 for 43%. Glenn cashed in on 72% of its free throw (16-22) while the Bulldogs

had 56% (9-16). While both teams pulled off 29 rebounds, the Falcons had 13 fewer errors, 16 to 29.

The Falcon's Bruce Dayhuff was held five below his scoring average netting 26 points. The Bulldogs were again led by Tim Peffley; this time he had 14. Tim Smith and Gary Welborn shoved through 12 apiece for the Bulldog effort.

The Mentone B-team came through with another thriller, winning a 52-48 decision.

Mentone will attempt to break its nine-game losing streak this weekend, traveling to Triton on Friday night to look for the first Bulldog road win since November of 1970. The Bulldogs entertain Concord on Saturday night, hoping for revenge of a holiday tourney loss.

Fashion Esprit for Spring—

The Cotton Feel '72

For spring '72, American designers are pursuing the mood of today's nature-conscious environment in style.

And they're turning to cotton as the fiber of nature that best depicts the mood. They like its "feel"—its styling potential and inherent suppleness, and, above all, its dye-ability, work-ability, and wear-ability.

Trend-setting spring looks for the natural fiber include such new fabrications as Cotton 365 fabrics for year 'round wear; soft, uncrushable corduroy-seersucker combinations; random-cut cotton velvets; and the new alliances of cotton knits with wovens.

These innovational looks for cotton have been translated into clothes deftly tailored to contemporary lifestyles and jet-propelled environmental changes.

Fashion becomes an ecology-minded memo to wear—with prints, appliques, embroideries, needlepoint, and stenciling as mediums for the message in sportswear, separates, and accessories.

Printed cottons are as often inspired by Oriental colorations as by the abstract in geometric art form. Many offer a whimsical touch of nostalgia or a prophetic view of the futuristic.

Silhouettes are individually keyed, and lengths are a matter of mood or personal preference.

Dresses and ensembles by day are quietly turning to softened shapes or clear, uncluttered classic lines.

LADYLIKE—Fashion in the classic manner is beautifully depicted in this double-breasted coat of jacquard-woven cotton.

Clothes for p.m. pursuits project the romance of supple, sinuous knit fabrications as well as colorful outbursts in ultra-modern or humor-struck prints.

Sportswear classics are in full swing for spring, with short and long pantsuits paving the way to town or travel plans.

The "jeaning of America" has spread beyond our borders to Mexico, South America, Europe, and the Far East.

Cotton denim jeans have become a mobile art form. Young fashion motivators around the world fringe, fray, and convert jeans into signature fashion statements by silver studwork, grommet-patternings, and hand-painted designs.

As contemporary tempos quicken, man instinctively is returning to nature... and fashion this spring is return-

ing to nature's fresh, comfortable feel: the cotton feel.

FOR SPRING'S FREE SPIRITS—Designer Anne Fogarty chooses tie-dyed cotton knit as the happy medium for depicting fashion as an art form. The closely shirred Empire bodice tops a free-swirling skirt in muted shades of blue and white.

Leap Year Calls for A Real Vanilla Cake

"The way to a man's heart is through his stomach," smart gals know, so this is certainly the year to offer him this beautiful heart-shaped cake—made "from scratch". Be sure you give it the enticing fragrance of pure vanilla extract—nothing says old-fashioned goodness more than real vanilla.

FEEDING BABY

Foods for babies and juniors can be prepared economically and quickly right along with a family dinner with the help of a blender. This allows for a greater variety of flavors, textures and consistencies.

The choice of baby's food or the introduction

of new food should be determined by the doctor.

Baby vegetables, meats or poultry can be prepared by adding one-fourth cup milk or bouillon, one cup well drained cooked vegetables, meats, or poultry cut in 1/2 inch cubes and a dash of salt in the blender container. Grate until smooth (about 30 seconds). Test for smoothness by rubbing a small amount of food between your fingers.

When feeding your baby, put as much food as he will eat at one feeding in a bowl. Never feed him directly from the jar of baby food. Saliva from the baby's mouth will break down the starch in the baby food and cause it to be thin and watery.

Apple Cobbler Rates A's

"A is for apple" is one of the basics of nursery school learning. ... And one of the basics of home baking is fruit cobbler - apple in particular. Here's one of the easiest, tastiest apple cobbler recipes ever.

Apple-Raisin Cobbler starts with canned apple pie filling. Raisins contribute natural sweetness, while grated lemon peel heightens the overall flavor. The topping couldn't be simpler. A mixture of complete pancake mix and sugar is sprinkled over the fruit, then melted butter is drizzled over the top.

Serve the warm cobbler topped with vanilla ice cream and you'll rate A's for approval!

APPLE-RAISIN COBBLER

Makes 6 servings

One 1 lb. 5-oz. can apple pie filling	3/4 cup complete pancake mix
1/2 cup dark seedless raisins	1/4 cup firmly packed brown sugar
1-1/2 teaspoons grated lemon peel	1/4 cup butter or margarine, melted

Heat oven to moderate (375°F.). Combine pie filling, raisins and lemon peel in 8-inch square pan; blend well. Place complete pancake mix and sugar in small bowl; blend well. Sprinkle evenly over apple base. Drizzle with melted butter. Bake in preheated oven (375°F.) 35 to 40 minutes. Serve warm with vanilla ice cream.

Take your problems to Church this week -

KEYS THAT UNLOCK PEACE OF MIND AND SPIRIT

It's not just a passing fad among college and university students that has caused today's campus to go religious for student body and faculty alike. Not all, but more and more students are attending church, to acquire the key that will open to them deeper understanding of life and its ultimate meaning. As one result churches in college towns and cities have found it necessary to increase the number of services held. As another result, national magazines are featuring articles on the subject.

If students and teachers of science, business and the professions are turning to the Church for the key that unlocks understanding of what "life is about," then surely its keys are worth trying by all of us.

In these days of anxiety and tumult wouldn't it profit each and every one of us to look to the church of our choice for the key that unlocks faith and its resulting courage, serenity and peace of mind and heart?

A police detective in a northwestern state telephoned a local woman and told her that her 17-year-old son's missing jacket had been found. "I'll be right down to pick it up," she told the officer. "One problem ma'am," the detective replied. "We found some marijuana in a pocket." After a moment of silence, the woman said, "Come to think of it, I don't know if that's my son's jacket or not."

Give Plants House Cleaning

Now that the holiday rush is over, we can all catch our breath says Area Extension Agent, in Landscaping Lawrence L. Hoyle, and give our house plants a good housecleaning.

Here's how: a mild soap or detergent solution and soft cloth or sponge will do the job. After a thorough cleaning job, the leaves will be shiny and attractive, and the plant health improved. Remove the dust and other foreign matter that has collected on the leaves. This dirt cuts down on the amount of light that a leaf can receive. Winter months are the hardest on plants because cloudy, short days, limit the amount of growing a plant can do.

Light is necessary for plants to manufacture food and without it they starve.

Take your problems to Church this week -

A GILT-EDGED INVESTMENT

"My church is by far the best investment I hold. Its book value is above any market quotation, yet it may be possessed for the asking, and the investor may have any church of his own selection.

"My church is always above par in prosperous times, never below in times of deep depression, in fact it is then that its true worth becomes more evident and discernible. In times of deep and profound joy, such as a wedding or the birth of a child, it is more precious to me than all my monetary or time investments. In sorrow, and in times of trips through the 'valley of the shadow' it is a rock that sustains me.

"Its stock pays dividends in peace of mind, in divine guidance, spiritual stability, moral courage and strength. It rewards three-fold my activities in its behalf. My investment in my church shall be a joy forever.

"Without reservation I recommend the Church of your preference as an investment in gilt-edge security."

NEW BOOKS

AKRON CARNEGIE LIBRARY

MESSAGE FROM MALAGA by Helen MacInnes. The author was fashioned a strikingly new, intriguing intricate, and breathless adventure with the lives of many in the balance and the security of nations at stake. As always, her story concept and thematic conflicts are built upon current factual evidence. Readers will find the author at her superb best.

ONE WAY TO CHANGE THE WORLD by Leighton Ford. Built upon Ford's much publicized address to the 1969 World Congress of Evangelism in Minneapolis, this work is a powerful expression of the zeal for a new society which is gripping evangelical Christianity today.

THE GREAT FIRE: CHICAGO 1871 by Herman Kogan and Robert Cromie. Using more than 200 illustrations gathered from scores of public and private collections and archives, "The Great Fire" is a visual testament to those days in 1871 when a determined populace struggled in the face of disaster to save, and then resurrect, their city. "The Great Fire" captures vividly the feeling of the city and the way the historic events actually happened.

FROM HERE TO OBSCURITY, A LOOK AT THE CHANGES IN AN UNCHANGING CAR, 1909-1927. Those to whom "restoration"

is a word denoting a serious attempt to return a car to its pristine factory-issue will find these pages a truly significant contribution to their effort. Those whose curiosity is active will find an aid which is unmatched. Even those who have never had a Model T will find hours of pleasure in watching successive changes appearing in the Model T Ford.

A ROSE FOR VIRTUE by Norah Lofts. This novel is based on the life of Hortense de Beauharnais, stepdaughter of Napoleon Bonaparte. Hortense was thirteen when her widowed mother, Josephine, married Napoleon, and all the drama, romance and tragedy which swirled about that amazing and complicated man fills her story. It is a moving tale of human frailty and fate in which the author carefully traces the events that brought Hortense to the throne of Holland and to ultimate disaster. This is a vivid portrait of Napoleonic France and a woman who became a reluctant partner in its glory and an innocent victim of its hatred and intrigues.

Record Gas Sent Out During Cold

A record distribution of gas was noted this week-end throughout the upper third of the state, according to Dean H. Mitchell, Chairman and Chief Executive Officer, Northern Indiana Public Service Company (NIPSCO).

During a 24-hour period of Arctic weather ending at noon Sunday, Mitchell said the utility's 430,000 gas customers used 1.27 billion cubic feet of gas--to break the last mark by nearly 50 million cubic feet--as temperatures dropped to an average reading of -10 degrees in the 30 counties served by NIPSCO. An average reading of -13 was recorded during the 24 hours at the utility's plant in East Chicago.

Thomas R. Howarth, NIPSCO manager of gas operations, said the peak was met with flow gas from five regular pipeline supplies and from gas stored underground at Royal Center and Terre Haute, Ind., Herscher, Ill. and lower Michigan.

Howarth said the last such record was 1.22 billion cubic feet recorded in the 24-hour period ending at noon, February 2, 1971.

Odd Terms Are Used For Firewood

Fireplace users can know more about the amount of wood they buy. Here are some tips offered by Area Extension Agent Lawrence L. Hoy-le.

It is a good idea to know what you are buying. Some firewood sellers may offer such "measurements" as face cord, rick, rack, rank, stack, truckload or "pile" and buyers often believe they are getting a cord.

A "cord" is defined as "the amount of wood which is contained in a space of 128 cubic feet." This is a neatly piled rank of wood four feet high, four feet wide, and eight feet long.

A face cord is a neatly piled rank of wood four feet high and eight feet long and as wide as the lengths of the sticks of wood. If the sticks are 16 inches long, you have one-third cord of wood, says Hoy-le.

Some tree surgeon companies sell firewood by the pound rather than by the cord. Their price should be comparable even though the method of measurement is different.

It pays to know the amount you agreed to

buy. It is also important to know the kind of wood you are buying and how dry it is. A year is the minimum drying time. Generally, the hard hardwoods burn better, hotter and longer than the softwoods and soft hardwoods.

THANK YOU

THANKS, AGAIN: My radiation therapist, after giving up last spring, repeatedly says my recovery has been so wonderful. My cancer surgeon, who didn't dare to remove the extensive tumor, repeatedly expresses amazement at the speed and extent of my recovery. Today he said to plan ahead as if no cancer had ever been there!

It humbles me to have this kind of recovery. God has been so merciful in this. But, why say STILL. I am thankful. Also, so much credit goes to each of those who wished as well and earnestly joined in prayer. So - Thanks, again.

School Board

Cont. from page 1
books and the motion passed unanimously.

Richard Goshert reviewed a letter received earlier this month by Forbes from Roger Birdsell, Assistant Superintendent of Public Instruction, in which Birdsell indicated the two-school project would be approved but that it was not the best one for TVSC in that it allowed for duplication of facilities and would cost too much per pupil. He had copies of the letter and a list of estimated costs passed out to members of the audience. After reviewing the figures, he said the only thing wrong with having one school was that the town of Akron would lose its school, "Akron's a nice town, with nice people," he said, "but it should not expect the rest of the corporation to keep its school by supporting the two-school policy." He moved that the two-school policy be dropped.

The motion died for lack of second and on a motion by Dr. McKee, the meeting adjourned.

Farmers State Bank Elects Officers

The 79th annual stockholders' meeting of the Farmers State Bank, Mentone, was held recently, following a dinner at Teel's Restaurant in Mentone.

Forrest Miner, president of the bank, gave the financial report showing that deposits had increased to over ten million dollars with total investments increasing to \$11,122,000. He also pointed out that capital and reserves now total over one million dollars which gives the bank a capital to deposit ratio of well over the state average. It was pointed out also that as a matter of interest, that the bank was now paying their depositors a total of over \$1,000 per day on their savings.

President Miner also told stockholders that new equipment had been purchased for the bookkeeping department and that on-premise check printing equipment had been purchased and that in his opinion the bank is one of the most modern and well equipped banking facilities to be found, and the stockholders were invited to join the directors, officers and employees of the bank in promoting the services of the bank to their acquaintances.

After the financial report, an election of directors was held for the coming year. All directors were retained and they are Floyd L. Tucker, Chas. L. Manwaring, Forrest D. Miner, O.D. McFadden, Donald E. Poulson and Thomas M. Fugate.

The officers of the bank are Forrest D. Miner, president; Thomas M. Fugate, vice president; Chas. L. Manwaring, vice president; Larry D. Pyle, cashier; and Iris M. Anderson, assistant cashier.

Dave Moore In Play

Sunday was the seventh and final performance of A Shot In The Dark at the Richmond Civic Theater. A comedy in three acts, the play tells of a parlor maid accused of the death of her boy friend. An adaptation from an original French play, "L'Idiot", it is a murder mystery in the tradition of Perry Mason.

Mr. and Mrs. John Moore and family saw the Sunday afternoon performance in the Silbiger Theater.

New Budget Will Cost You \$1,116.14

The new federal budget beginning next July 1 will cost Indiana taxpayers nearly \$5.9 billion as their share of the U.S. government, according to the Indiana State Chamber of Commerce which notes that amount is five times as much as the state's own budget for the same period.

President Nixon proposed a budget of \$246.3 billion in his message to Congress Monday.

This figure was analyzed by Edward J. Bowman, director of the Indiana State Chamber's Taxation Department, using a formula worked out by the Council of State Chambers of Commerce.

Bowman's analysis disclosed that Indiana's share of the U.S. budget will be \$5,886,570, 000 or 2.39 percent of the total. This share is .06 less than Indiana's 2.45 percent share

of the current (1972) budget. However, Hoosier taxpayers will have more to pay because the budget total is larger.

Analysis reveals the new budget will cost Hoosiers \$1,116.14 for each man, woman and child in Indiana.

This per-person figure compares to \$1,081.20 for fiscal 1972 and \$955.26 for fiscal 1971. The constant rise illustrates the constant increase in federal spending, according to the State Chamber's executive vice president, John V. Barnett.

"President Nixon's 1973 spending estimate of \$246.3 billion may be considered by some to represent a relatively modest increase of \$9.7 billion over the current budget," Barnett said. "But remember, the 1972 total exceeded the 1971 outlay by \$25.2 billion.

Dear Madam:

The picture which you showed. Like others I did not know who it was or when it was. But we are dealing with something that might be of the heart. Who knows that Bertha Sarber kept the pictures all these years. Maybe they were pictures which Mrs. Sarber found when she moved into the home which she left. If I were to guess. The men in the lines are about 40 in number and it was unusual for men at any funeral to march as these men did, indicating that the man, I take it to be a man, was of importance in the community.

I am approaching 72 years of age. The Church of Christ bears or did bear the date 1909. The picture was taken with a camera of the era before that of film and I suspect by Ora Doddridge who had a studio where the south part of the Frank Mfg. Co. is or in the building which now lodges the tavern.

Ora Doddridge was the eldest of the three photographers and there was Mable Smith who had a studio over the present tubs and washers across the street from you. Then there was Scott Pontius who also was a photographer. But of the three, I would put my money on Ora Doddridge as she was the oldest of the three. The picture was taken from the band stand or the hotel, but I think it was the band stand which stood on the corner from which the picture was taken. It was taken when the sun stood high and bright about 2:30 to 3:00 p.m. directly west down Main Street. One must rea-

lize that the buggies and horses, the hearse, the men, all are gone. It is as if a great street sweeper had swept away everything.

We can be reasonably sure that the procession came from the Old Baptist Church, turned east on Main Street to go under the Viaduct to avoid train traffic and was moving slowly which was the belief in those days. The Preacher, with the long coat, and his companion with his hands behind him walked ahead of the hearse. This hearse evidently preceded the next hearse which was bought in Cincinnati for \$1200 and which I bought of Kenneth Riner for \$3 at election time 30 or more years ago.

Miss Aughinbaugh had Mable O.K. but as I recall, it must have been Mable Smith as she was the photographer and not Mabel Doddridge as Mabel's mother was Ora Doddridge, and she was the photographer. That is in the other picture. The picture of the Methodist church basement. I came to Mentone in 1906 and it seems I remember a lot of things but the funeral escaped me. There are so many things to tell, but I must pause. You might get some help from the Tri-County Gazette which should be with Mrs. Lackey in the Bell Library and was the fore-runner of your paper.

The Hogs Of Horseshoe Bend

"Years ago, in a great horse shoe bend down the river, there lived a drove of wild hogs. Where they came from no one knew, but they survived floods, fires, freezes, droughts and hunters. The greatest compliment a man could pay to his dog was to say that he had fought the hogs in Horseshoe Bend and returned alive. Occasionally a pig was killed by dogs or a gun—a conversation piece for years to come.

"Finally a one-gallused man came by the country store on the river road and asked the whereabouts of these wild hogs. He drove a one-horse wagon, had an axe, some quilts and a lantern, some corn and a single barrel shotgun. He was a slender, slow moving, patient man—he chewed his tobacco deliberately and spat very seldom.

Several months later he came back to the same store and asked for help to bring out the wild hogs. He said he had them all in a pen over in the swamp.

"Bewildered farmers, dubious hunters and storekeepers all gathered in the heart of Horse Shoe Bend to view the captive hogs. They wanted to know how he had captured them.

"It was all very simple," said the one-gallused man. "First I put out some corn. For three weeks they would not eat it. Then some of the young-uns grabbed an ear and ran off into the thicket with it. Soon they were all eating it. Then I commenced building a pen around the corn, a little higher each day. When I noticed that they were all waiting for me to bring the corn and had stopped grubbing for acorns and roots, I built a trap door."

"Naturally," said the patient man, "they raised quite a ruckus when they seen they was trapped, but I can pen any animal on the face of the earth if I can jist get him to depend on me for a free handout."

Interesting, isn't it, how a story can emphasize a point?

A visit to Russia to study schools turned into a spy-drama as the Bible-toting Congressman from Indiana was interrogated for two hours about his alleged "subversive" activities in the Soviet Union. The charge? Distributing Russian language Bibles to eager Russian people.

The Congressman, Earl F. Landgrebe, R-Ind., said in a visit with area newsmen Friday that he regretted his involvement in the Bible-passing incident had overshadowed the real purpose of the visit. He was in Russia as a member of the Select Sub-Committee on Education that is headed by Congressman John Brademas, D-Ind., So. Bend.

Landgrebe said he had checked with the U.S. State Department first and had been told there was nothing wrong with taking Bibles to Russia. The suitcase containing 200 booklets of the Gospel of St. Matthew, 50 booklets containing the four Gospels and 30 complete Bibles, all printed in Russian, was never opened by customs officials. He left a carton of Bibles in Helsinki, taking the rest to Russia where he gave them to people in his hotel, in restaurants and on the street. He reported one woman wept on receiving her copy.

At the time he was detained, fellow committee member Congressman John Scheuer, D-N.Y., was held by secret police and charged with encouraging Russian Jews to emigrate to Israel and Rep. Alphonso Bell, R-Calif., another committee member, was accused by aiding Zionists. Scheuer was expelled from Russia although the family he had visited had already asked for permission to go to Israel. Landgrebe said the three were not charged with anything, the accusations being made in the communist

press after they left. School Size

Of his visit to the Soviet schools, the real reason for the Select Sub-Committee's trip, he said, "I do not feel that the Russian system of education is as advanced as the American people have been led to believe." He noted Russians are doing just the opposite of the American educators concerning school size. Instead of building ever bigger schools, they are going to smaller schools. "In fact," he said, "they cannot understand our interest in larger schools. They feel that experience has shown that smaller schools, closer to the homes of the students are more conducive to good education. Their goal is to get all schools down to a maximum of 1,200 students and preferably down to 1,000 as a maximum."

He noted that Russia is planning to adopt the U.S. system of ten year compulsory schooling and that the Russians introduce foreign language in the students' early years.

Taxes and low pay are big problems in Russia, he noted, but he also noted that because of a police-state-type system, there is no crime on the streets and noted that nothing was ever taken from his room. He noted, too, the lack of pornography and drugs and said no books are available except scientific and other specialized material.

Landgrebe said there is no population explosion in Russia. One of the guides told him, "Would you want to bring a child into this kind of atmosphere?" He noted, too, that young couples must live with the parents of one of them, sometimes for a year or more, while waiting for housing to be available. They can apply for apartments only after they are married.

He noted that woman's lib is an accepted way of life. Women are free, he said, to get up at 6 a.m. to sweep the streets, run street cars, etc. The women get a full year off to have a child and then must return to work.

He said there is nothing being done in the way of conservation and that ecology is an unheard-of word.

"I'd Go Today"

One of his guides was enthusiastic about communism. A factory manager, he told Landgrebe about the outstanding gains being made by the Communists. As they parted, Landgrebe, who owns and operates a moving and trucking firm, shook hands with the man and patted him on his strong back, saying,

"If you ever want a job, come over and I'll give you one moving piano." The man's former tone changed completely and he said sadly, "I would gladly go with you now if I only could leave this country."

Landgrebe said he felt the trip had been of great value and that he sensed a natural affinity between the American and Russian people. He said, "If those of us who are anti-communist leave the gathering of information on Russia to those who are too easily swayed by the communist propaganda, the American people will not receive a balanced report on which to make their judgements."

Make Religion Meaningful

He concluded his remarks by urging those present to join in a fight to make religions more meaningful. "Let's quit making churches social clubs," he said, "and start studying the word of God. We must preserve this great republic of ours." He urged the people of his district to remember the Russian citizens in their prayers and said, "We should pray not only for peace between our countries, but for freedom for the people of Russia who so much want it and want to be our friends."

It Happened In Mentone

Taken from the January 26, 1938, issue of the Northern Indiana Co-Op News:

All Mentone was shocked Sunday morning, January 23, when it heard of the death of its friend and doctor, G. C. Taylor.

A group of friends and neighbors belled Mr. and Mrs. Milo Fawley on their anniversary Tuesday night. Present were Mr. and Mrs. John Fenstermaker, Mr. and Mrs. Vern Blue, Mrs. Lulu Blue, Mr. and Mrs. Herschel Fenstermaker and children, Mr. and Mrs. Ray Terry, Mr. and Mrs. Clarence Leininger, Mr.

months old son with a complete set of false teeth? The child is the youngest person on record to wear a dental plate.

Mr. and Mrs. Loyal Haney are moving soon to the Lyde Williamson farm north of Burket, recently vacated by Mr. and Mrs. John Fisher.

Mr. and Mrs. Clarence Leininger and Mr. and Mrs. Deloise White were guests at a birthday dinner in honor of Earl Besson at the latter's home near Mentone Friday night.

Is one security

light Enough?

Often times the security light near the garage doesn't light the house. Or the security light in the barnyard doesn't light the equipment shed. Or the security light over the driveway doesn't light the yard, where the children play.

The solution? A second security light. Same low rate as the first—only \$3 a month—including maintenance and electricity. Double your security with two security lights from your rural electric cooperative.

Report From the General Assembly

By Ralph Heine

The week of January 24th was, at times, hectic. Manipulation of parliamentary procedures, political strategy, and a few "hot issues" in committee, as well as on the house floor, resulted in a very busy week. The full crew law was not voted out of committee, failing in the last vote by a tally of 8-7. Another house bill that ran into a snag, House Bill 1082, would have

lowered the age of all laws from 21 to 18 years of age. This is rather alarming to me since it has very broad implications, which in many cases, would be detrimental to the young adult. Many present laws include an age stipulation for protection of young people. Although our youth may feel they have less freedom under various circumstances, they are in essence being protected under the law.

The House passed several legislative measures of interest this past week. One will establish an advisory council to the state tax board for advisory purposes on matters of re-assessment and other matters of concern to the tax board. Another bill passed the House, allowing our Vietnam veterans a bonus for service during their tour of duty overseas.

In addition, House Bill 1135, legislation allowing the Sunday sale of liquor, was defeated in committee this morning. Yesterday, a bill was passed out of the House to further clarify the private music, dance, etc. teacher with

reference to licensing (House Bill 1149.) Such private instructors were never included in the original bill, but this will further clarify their elimination from the law.

Feed Handling Tops Farmer Discussion

The importance of feed in livestock production will be emphasized in "Dollars and Sense of Feed Handling" at an all-day meeting Wednesday, February 2, 9 a.m. to 4 p.m. This farmer oriented meeting at the Whitley Co. 4-H Building, Columbia City, will be filled with talks, demonstrations and displays dealing with feed handling and processing on the farm.

Dr. J. W. Uhrig, Purdue Agriculture economist, will discuss the theme "Dollars and Sense of Feed Handling." Dr. Wayne Perry, Purdue animal nutritionist, will relate the opportunities for "Feed Mixing On The Farm."

Bruce McKensie, Purdue agricultural engineer, will discuss systems, layout and safety with equipment. "Safety Signals" for better commun-

ication and safer equipment operation will be discussed by Bill Huffner, REMC. The state REMC group will also demonstrate the effects of high voltage and some of the dangers.

A farmer panel with slides will discuss

their systems and answer questions about their operation.

Industry representatives will display feed distribution equipment, feed mills, feeders and other associated equipment.

Lunch will be served.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

Poly unsaturated has become a household term in the last few years. With the concern over cholesterol and its relationship with coronary heart disease, homemakers are becoming concerned with fats and their function in the diet.

Fats are needed in the diet to furnish energy to the body. It is recommended that the diet consist of twenty to thirty per cent fat. At the present time our diets consists of a larger percentage than the recommendation suggests.

A saturated fat contains as many hydrogen atoms as it can hold. A poly unsaturated fat lacks hydrogen atoms. A saturated fat is a solid at room temperature while poly unsaturated fats are naturally liquid at room temperature but many of them have hydrogen forced into them so that they become solids.

Saturated fats from animal sources are associated with cholesterol. Butter, lard, and egg yolks are high in cholesterol. Plant sources such as corn oil, soybean oil, and cottonseed oil are unsaturated and low in cholesterol.

Cholesterol does serve many useful purposes in the body. Vitamin D is formed from sunlight with the help of cholesterol. It is also used in the formation of bile acid and the sex hormones.

The problem with cholesterol is that the body also produces it and it seems to produce varying amounts. Cholesterol production increases during rapid weight gain, with diabetes, during low thyroid activity and during other stress periods.

Cholesterol has been associated with the hardening of the artery walls. This hardening has also been found to contain protein, calcium and iron. More research needs to be done to find the exact cause of coronary heart disease. Unless your doctor has put you on a specific diet, moderation is the key. Eat a well balanced diet consisting of fats, protein and carbohydrates and watch your weight.

Mrs. Gross Hosts Anthony Nigo, DAR

Mrs. Loren Gross was hostess for the January meeting of Anthony Nigo Chapter, DAR.

Mrs. Gross, regent of the chapter, opened the meeting in regular form.

One guest, Mrs. Richard Whittenberger, was present.

During the years Mrs. Linn has collected many campaign post cards, buttons, etc. used by the candidates running for president, many of which carried their personal slogans and pictures. As Mrs. Linn spoke, it was easy for members to comprehend how America's destiny has been affected and shaped to a great extent through the ideals and merits of each president of the United States.

Eaton To Show Musical Slides

Rev. Claude Eaton,
founder and pastor of
Trinity Fellowship of
Rennselaer, will pre-
sent a message at the
Mentone United Methodist
Church Sunday evening,
January 30, using an
unusual combination of
interesting nature
scenes in beautifully
colored slides synchro-
nized with a taped com-
mentary with musical
background. Those who
have seen the presenta-
tion report it to be a
very challenging and
heart warming experience
that leaves many deeply
moved. This same pre-
sentation was given at
the Green Lake, Wisc.,
convocation for the
training of the United
Methodist co-ordinators
for the Lay Witness
teams, and has been used
in Methodist churches
throughout Illinois,
Michigan, Wisconsin,
Ohio and Indiana.

Mr. Eaton, prior to
organizing Trinity Fel-
lowship, pastored Metho-
dist churches through-
out northern Indiana at
Culver, Lowell, Terre
Haute, Grace and South
Bend Lowell Heights. He
has used his hobbies in
photography and in elec-
tronic tape recording to
devise a variety of ap-
proaches to present the
message of Jesus. He
recently returned from
a trip to LaCrosse, Wis.
where he spoke to the
Business Men's Associa-
tion and will return to
speak to the Minister's
Association about plans
for a community crusade.

Trinity Fellowship is
non-denominational it-
self, but inter-denom-
inational in its work-
ing with churches
of all faiths. All of
its members are listed
as Lay Witnesses with

More electric power can help turn back the tide

A tide of millions of tons of pollutants is being dumped into the air we breathe, the water we drink and the communities we live in. Is your electric company a part of this pollution? Yes, but only a small part. We're working at elimination of smoke and soot at our plants, but some invisible gases such as sulphur dioxide can't be trapped with existing equipment. New equipment, now being developed, will be installed when it's perfected. Meantime, for every pound of pollution electric generation causes, electricity powers the equipment to remove tons of pollutants from the air and water. Huge electric motors pump waste through treatment plants, to clean the water before it returns to our rivers and lakes. Purification of water for drinking takes millions more kilowatts. Electric air filtering equipment in thousands of factory, school and hospital stacks trap smoke before it fouls the air. In recycling waste products, electrically powered machines shred and compress trash, cans and junk into reusable raw material. More electricity, not less, is needed to help solve our pollution problems.

OLIVE BETHEL MISSIONARY SOCIETY

The Olive Bethel Mis-sionary Society met Thursday afternoon. The meeting opened with the song, "Send the Light". There were six members and one child present.

The secretary and treas-urer's reports were read and approved. Roll call was answered with a scripture verse.

The devotions, from the book, "Never Lose Heart" were presented by Marie Dawson. The most pressing need of each one of us is to be able to face life with-out losing heart. In the midst of a time when all our resources are being severely tested we need a steady inner strength to enable us to stand up to life in an upset world. Life's full of interruptions great and small, signif-icant and insignificant come almost daily. Life's interruptions are inevitable, and how to

handle them in such a way that we make the most of them is a com-mon problem. Changes in our lives or inter-ruptions are often the golden gates to a more glorious life of service to others, more than we dreamed of. Learning to handle life's inter-ruptions often turn out to be a blessing in dis- guise. Prayer was given by Rev. Helterbride.

The lesson "Africa" was presented by Zelda White. Africa is a na-tion with many problems. Most of its population is under the age of 25. Can it meet the educa-tional, religious, and working needs of its young people. The rest of the afternoon was spent in needlework.

Triton Stomps Mentone

By Alan Welch

The visiting Mentone Bulldogs fell into an early hole to go along with rebounding problems to lose their 10th str-aight game, 93-41, to Triton.

When you jump into an early 19-0 pit and your opponent hits 11 of his first 12 shots from the field, there can be lit-tle to hope for on that particular night for your team. Mentone had just those problems last Friday night plus the untimely loss of start-ing guard Tim Smith with a sprained ankle early in the first quarter, a rebounding deficit of 65-19, plus an opposing player by the name of Rhodes who poured in a school record of 41

points. Despite being down 28-3 and 52-20 at the first two stops, Mentone still kept up the morale and kept the game not completely bor-ing. Triton kept on rolling, however, and pushed to leads of 71-29 and 93-41 in the final two quarters.

Mentone had only jun-iior guard Gary Sponseller in double figures with 12 points. Follow-ing red hot Rhodes in scoring for Triton was Sharpe with 13. Sellers had 11.

Triton left the game with a 9-3 record.

The Mentone B-team kept the trip from be-ing a total loss with a win. They recovered from a 7-1 first quar-ter Triton lead for their second consecutive vic-tory.

The B-team fell after winning two of their last three, 47-25.

* Mentone's next oppo-nent is visiting Manches-ter on Friday. The Squires are having prob-lems of their own, having a 2-12 record.

Six Suspended

Five juniors and one senior have been temp-orarily suspended from the Manchester Squire basketball team. Three of the six are members of the starting line-up. Also suspended was sen-iior manager David Wen-del. Coach Karl Merritt said the suspensions were for "violations of the High School Athlet-ic Council.

Manchester will play Mentone Friday night on the Bulldogs' floor.

Concord Does It Again

By Alan Welch

No matter how easy the score makes the Concord-Mentone game last Sat-urday night look, any of the players will tell you that Concord had to work hard to manage a 69-45 win over the fall-ing Bulldogs.

Despite a bruising edge in rebounds, 52-27, Concord got most of its final winning margin in the second quarter after jumping ahead to 18-11 lead at the end of the first eight minutes. Shortly after the second period opened, Concord opened up a scoring bar-age and had a 33-15 lead before the first half ended at 39-20.

In the third quarter, the visiting Minutemen outscored the Bulldogs by two to increase their lead to 54-33. An un-successful attempt at a rally was started in the final quarter which brought the Bulldogs to within 15 but finished the game out on a hot streak in the last min-ute, outscoring the hosts 11-2 and brought home a second win over their smaller counter-parts, 69-45.

Contributing to Men-tone's woes in their latest contest was icy shooting; they were out-shot from the free throw line 73% to 58% and what shots that weren't blocked only went in 24% of the time to 42% for Concord.

Mentone put two men in double figures this time around. Tim Peff-ley and Gary Sponseller led Mentone with 11 each while Gary Welborn pull-ed off 10 rebounds. The Minutemen were led by Doug Ganger who had 22 points and 21 rebounds, 17 in the first half.

Akron Tops CMA 82-68

The Akron Flyers de-feated visiting Culver Military Academy 82-68 Saturday night after scoring 34 points in the fourth quarter.

Akron led at the end of the first quarter, trailed at half-time and at the end of the third quarter but put on the scoring burst in the fourth quarter that made the difference.

High man for the Fly-ers was Jack Fetrow with 23. Don Coplen had 15, and Larry Hunter and Bob Bussard scored 13 and 12 points respect-ively.

Heading CMA's scoring was Randy Scott with 35.

The CMA b-team won the opening game, 57-49.

The Flyers will host Southwood Friday night.
