that millions might be reached for Christ.

Now, in many of our churches - both Protestant and Catholic Christians, churches and Christian groups are participating in the NOON PRAYER CALL, a united effort to join in prayer that 1973 might see millions reached for Christ.

This NOON PRAYER CALL is the first step of an interchurch effort known as Key '73. The movement, made up of over 140 denominations and Christian groups has set out to reach every person in North America with the message of Christ in 1973.

Join with us...

A special television program in connection with Key 73 will be seen nationwide Saturday night, January 6. It will be shown locally on Channel 16 at 7 p.m. and on Channel 33

This documentary film is a study of Christians making up the North American church. The film makers show viewers people who have found deep meaning and purpose in life by putting faith into action.

From Jacksonville, Florida, to Vancouver, British Columbia, viewers can see Christians living their faith in different ways. These are real people, expressing their faith without the use of cliches. They are not super-saints, but in the process of serving others in Jesus' name, they are growing themselves.

The pastors of the Henry Township Ministerial Association urge all residents of the Akron area to see this film.

editorial in the Bureau News -- the official newsletter of the American Farm Bureau Federation--carries some startling facts. The Farm Bureau is the larfarm organization in the U.S., represent-ing in excess of two million member families. The editorial reviews late studies by the U. Department of Agri culture on rising farm lvity. They reproductivity. They re-flect an achievement that, as the editorial points out, equals and in some ways surpasses

.. the much publicized

"...the much publicized space exploration."

To start with, farm output per man in 1970 was 357 percent of 1950. In 1971 one U.S. farmworker produced enough for 47 other people-seven of whom lived abroad. This contrasts with enough output by one U.S. farmer for himone U.S. farmer for him-self and 15 other people self and 13 other people in 1950. How have these great boosts in farm productivity been ac-complished? According to Farm Bureau News, "Improved and larger

planting equipment, a-long with mechanical harvesting, reduced the man hours required to produce 100 bushels of corn from 40 hours in 1950 to seven in 1971 1950 to seven in 1971.
Adoption of new technologies increased crop
output per acre over 55 percent between 1950 and 1971. Livestock labor efficiency also bene-fited during the two decades. Total hours of labor to produce meat, milk and eggs fell from 5.5 billion in 1950 to 2.3 billion in 1971. 2.3 billion in 1971.
Poultry and egg production doubled while labor needs in the poultry industry declined more than two thirds."

If it had not been for If it had not been for the soaring productivity of U.S. agriculture, the food outlook for this country and the world today would be anything but cheerfulto say nothing of prices. How many of us realize that this abundance is solely the prodance is solely the pro-duct of the private property, free market, that much of depends upon is scorned in and yet our own country and in most other countries by the advocates of stat-

"A bad start makes for a good ending," a friend once told me.

That bit of advice plus Mark Twain's oft-quoted comment, "Life is one darn thing after another," were with me often this week-end as tried to un-decorate the house, get the boys recuperated from their colds, fought a sinus infection, with a typewriter that likes to lock, a car likes to lock, a car that likes to smoke and dreamed of a camera that I didn't feel good enough to use even if I had had it. In short, the year got off to a bad start. Things have

to get better.
That's probably what
the people who filed all the insurance claims with one of the major companies thought, too, if the list sent us by the company is indicative of the way some other people ruined otherwise normal days.

For instance, before a West Virginia man could say "peanuts", an elephant passing by in a parade reached into the crowd and hurled the man through a nearby store window.

False teeth wearers suffered their share of indignities with one having his teeth stolen a woodchuck and another having his flush-ed down his hostess's toilet by her child.

One of the wildest cases happened in Pennsylvania when a woman seeing a familiar looking pair of legs pro-truding from beneath the family car, announclunch was ready and ed an affectionate ed added wifely pat. The startmechanic, however, was not her husband and thrown into total confusion, he lurched, sl-amming his head against the car and knocked himself cold. He came to on a stretcher and, redfaced, began to explain. The ambulance attendants laughed so hard they dropped the stretcher and the man added

broken arm to his fractured dignity.

A man in Cleveland was browsing in a discount store when a boa constrictor slithered of its cage in the store's pet department and mistook the man's leg for a warm vine.

A Florida man returned to his hotel room a bit inebriated and an unsteady step toward the bed. His body followed his foot-right duct of the private property, free market, free enterprise system that much of depends upon the system that much of depends upon the system that much of depends upon the system that much of the system that muc after a good beginning like that, we can't help wondering if he didn't come to some bad end.

Getting Out Of Hand!

An item in U.S. News and World Report makes An item in U.S. News and World Report makes one wonder what professional government bureaucrats think of the U.S. public that employs them. Under the title "Trends In Labor," U.S. News points out that, "The State of Florida convinced the Federal Pay Board that it would lose..employees to private industry unless it was permitted to give them raises exceeding the regular guidelines." Apparently, only the private sector of our nation is expected to follow wage-price guidelines, while government is free to do as it chooses.

When bureaucrats start considering themselves.

When bureaucrats start considering themselves when pureaucrats start considering themselves superior to the private citizen, they should remember who pays their salaries—the voting, taxpaying public. If government employees thought a bit more about where their money thought a bit more about comes from, they might exercise more thrifft. This would be a giant step toward controlling the high cost of government, deficit spending and the inflation that is plaguing the pocketbook of every American.

DALLAS (Special)—Cotton Country is producing great fashion impact for spring-summer '73 with a tuned-in, turned-on cast of new fabric classics.
California, Texas, and New York designers are turning to corduroy, denim, chambray, prints, and knits for brilliant interpretation of the upcoming season's newest fashion looks.
Cotton corduroy—in the fashion spotlight by popular demand—is super-charged for local sports or peripateit globe-trotters. It stars in new pastels, frothy ice cream tones, the brightest brights, and the whitest whites. In addition are unusual prints on transeasonal pin-wale, mid-wale, wide-wale, ribless, and sculptured corduroys. It takes another woman...

who's been through it...to help the woman who has just had breast surgery for cancer. That's the heart of our Reach to Recovery program.

Once the physician requests this humanitarian service, our volunteer starts helping while the patient is still hospitalized.

The volunteer's appearance and attitude give reas-surance of being a "whole" woman. She teaches special exercises. She provides kits with helpful aids to recovery. She answers the many personal questions a woman might not even ask her doctor...or her husband.

If you need the help of the woman who's been through it, ask your doctor to ask us for this service.

Take your problems to Church this week-

Why Not Give It A Trial?

"Look Sis! He seems so real-just like He might be getting ready to speak."

He does speak. Since the day He stood in the Temple, a boy of twelve, He has been speaking to men, telling them to LOVE ONE ANOTHER. He speaks to men, wherever they may be. But many do not heed His words. So terror, cruelty, hate, greed and destruction stalk through the world. Others say, "Oh, that love business sounds wonderful but it isn't practical. It is a beautiful theory but in this old world you've got to get yours while the getting is good."

But is it just a beautiful theory? Isn't it about time man awakened to the fact that through following the "practical way", he is sealing his own doom, that despite all his modern inventions, senseless, ruthless wars still threaten his very existence.

There is more than a good chance that "LOVE ONE ANOTHER" is a sure practical way of life. He is still speaking! Perhaps He has the right answer! It's worth a trial!

THE DAWN'S EARLY LIGHT by Walter Lord. This is the story of blunders and coups, of cowardice and courage - all the components of war. But above all, it is a story of an America we often forget today; a small young and not always wise country stressible. wise country struggling against the most powerful nation in the world. Things were dark that summer of 1814, but in a sudden, dramatic turnabout a whole new sense of national identity emerged from the smoky haze of what Francis Scott Key so lyrically called "the dawn's early light."

He estimated cost of the building, equipment and exterior facilities, including carpet, at \$4,340,000 and said the architect-engineer fees would be approximately \$260,000. He estimated attorney fees, contingencies, land, etc. would cost another \$85, 000 and interest during construction another \$165,000. He noted some of the latter could be regained through investment during the build-ing period. His esti-mate totaled \$4,850,000 mate totaled \$4,850,000 for the structure that will be located on an 80-acre farm recently purchased from the Gus Mollenhour family. The site is at the southwest

corner of SR 19 and Kos-ciusko Co. Road 800 So. Brown further project-ed that a building cor-poration would have to poration would have to raise \$3 million to finance the school, estimating TVSC would have \$1,850,000 in school funds through December 1974. The \$3 million amount was disputed by TVSC superintendent Poration of the state of the TVSC superintendent Ro-TVSC superintendent is bert Forbes. Estimates did not include moveable equipment and did not include another \$150,000

in building alternates.
In addition, Brown estimated outside alternates could total another \$960,000. Included in this total and included in the plans presented were a swimming pool, baseball field pool, baseball field and light, black-topped road between parking lot and sewage treatment plant, baseball field, tennis courts and lights as well as football field, lights, bleachoreboard. He said that in event the pool, which would be attached to the one-story school, was not build, that area should have to be black topped.

Board member Dr. John Kee questioned the McKee cost of blacktopping the

parking lot, wondering if stone or gravel could not be used instead of not be used instead of the higher priced as-phalt and also question-ed black-topping the road to the sewage tr-eatment plant. He also asked about burglar and fire alarms on the sch-ool and was told there were none. The build-sing was described as were none. The build-ing was described as

Also questioned by both Dr. McKee and fellow board member Richard low board member Richard Goshert was the lack of a cover on the 60-inch culvert that empties into an open ditch at the corner of the two roads. Both felt that for the sake of safety as well as appearance, as well as appearance, the ditch should be covered. The architect said this could be done but it would be expensive.

The plans showed details of a filtration plant, all plumbing and electrical work and materials. As shown, the building was all brick, concrete and steel. All floor surfaces were carpeted or had terrazzo finish with the excep-tion of the boiler room which was concrete and the gymnasium with eithwood or tartan floor. Both floors will be bid with the final decision

on the gym floor to be made later. Carpeted areas in-cluded the halls, some classrooms, the dressclassrooms, the dress-ing area and pool deck. The latter was reported to be a safety feature, preventing falls on wet surfaces. Actual shower room areas and the pool would have ceramic tile.

parking space for 882 cars in the back. He estimated parking could be increased to 1,000 for special events by using drive-way areas.

Brown estimated an 8-10% increase in cost if for some reason the building could not be completed in 1974. Target date for occupancy of the new school has been set for September, 1974.

The board took no action on the plans Tuesday night, members say-ing they wanted more time to study the plans and specifications be-fore signing their apfore signing their ap-proval. Brown will re-turn to the next regularly scheduled meeting Monday, January 15, with a revised set of plans, and the board indicated approval probably would be given then. Members be given then. Mempers also said they hoped to reach a decision by that time as to the method of finance--public or private holding company. Interviews have been conducted with representatives of each, they said.

Thousands of Ancient Indian Relics Unearthed by Amateur Who Receives Strange Guidance

More than 2,000 rare relics, artifacts and tools of ancient American civilizations have been unearthed by Kenneth Pennington, an amateur archeologist who may receive mystic guidance from his ancestors.

Pennington, an artist at Rock City Gardens near Chattanooga, Tenn., has been doing weekend digging in Georgia, Alabama and Tennessee during the past six years. The odds against an amateur achieving his success in exploration are extremely high. Although he attributes his luck to many long hours of study and hard work. Pennington also thinks he gets strange help from the past.

The voices from the near Desiration of the past.

The voices from the past? Pennington believes he may have Cherokee blood in his veins, and before each "dig," he offers his ancestors "thanks" in the form of a ritual and prayer song, composed by himself.

Often he gets overwhelming urges to dig in particular areas. Once, within minutes after singing his prayer, he exposed the

Pennington's ecriest experience came after bringing home two dirt-encrusted skulls, each several thousand years old. In a dream that night, he pictured one of the skulls with decorations on its forehead. The next morning he cleaned the relic and found strange, diamond-shaped markings on the forehead. The cause of the markings is still unexplained.

Mr. and Mrs. Charley Smoker southwest of town have a family of five girls and a baby boy a few months old. It takes considerable baking to run a family that size and the elder girls in the family became interested in the number of loaves of bread and ples baked. So, they kept tab beginning January 1, 1912, for the entire year, marking down every baking. At the end of the year, they found they had baked 423 loaves of bread and 405 pies. These were not four cent loaves or bun-size loaves, but great big round loaves. Beware Fly-By-Night Repairmen Attorney General Warns

Indiana Attorney General Theodore L. Sendak this week warned Hoosier consumers to be on the alert for fly-by-nights posing as furnace re-pairmen. He stated that with the coming of the most severe months of winter, consumers may be approached by persons seeking to collect money for services not performed, or for ser-vices that are not necessarv

Sendak said often a deceptive scheme begins when a so-called "furnace man," who is not called to the home, knocks on the door and offers to clean the furnace for the state of the furnace for the state of the furnace for the state of nace free, or for a nominal fee. Once he gets to the heating plant, he may claim that he flues discovers holes, burned or crack-ed pots, or that deadly fumes are escaping and an entire new furnace must be installed im-mediately. Unless the consumer obtains another opinion from the local building inspector or another regular furпасе repairman, he may be deceived.

My trip to the Holy Land was very exciting as it gave me the chance to see how other people to see how other people live. There were many interesting things which we were privileged to see. A few which have really stuck in my mind are: Getting to walk through the market place of Old Jerusalem, which is quite an experience. Just the way they sell Just the way they sell their products is so very different. They have small little stalls in a back-alley type street with their merchandise displayed for the customers. These the customers. These streets are very, very narrow, and besides the shops, people live here too. This is all inside Old Jerusalem's walls.

Nomadic tribes (Bedouins) are very preva-lent in Israel. While uins) are very preva-lent in Israel. Sentenced On Drug Charge

Gerald Douglas Owens, 21, R. 2, Silver Lake, was sentenced to one to ten years with the Indiana Department of Corrections, fined \$100, ordered to pay court costs and remanded to Kosciusko Co. sheriff David Andrews for execution of the sentence Friday. Friday.

Records showed that Owens was booked at the Kosciusko Co. jail on Sept. 13, 1972 on char-ges of selling a dangerous drug (cannabis) and assault and battery. He was arrested by Silver Lake Marshal Hayden New-

The charges were later The charges were later changed to one count of sale of marijuana and one count of possession of less than 25 grams of the drug. On Dec. 8, 1972, Owens pleaded guilty to the charge of possession and entered

a not guilty plea to the sale count.

Owens was given a credit of seven days on his sentence by Kosciusko Superior Court Judge Allan A. Rasor, who told Owens that he could not suspend his sentence since the pre-sentence since the pre-sentence investigation report filed by the probation department and certified as correct by Owens disclosed that the defendant had committed a burglary and had actually sold drugs although he was allowed to plead guilty to the possess-ion charge.

old and New -- when recruiters and support personnel assigned to the Navy Recruiting District Indianapolis shifted to winter uniforms this year, many of them became walking examples of the sea service's new look in official apparel. In anticipation of a sweeping uniform change to be completed by 1975, Navymen assigned to recruiting duty have been authorized to wear the new dress blues being modeled here by Journalist Third Class Thomas N. Lauchner (center.) Warsaw recruiter Walter E. Weyer, a communications technician first class, is shown at right wearing the traditional Navy blues, complete with the well-known white hat. The new uniform replacing Weyer's is is similar to that worn by Navy officers and chief petty officers, as shown by Chief Fire Control Technician Charles L. Ott, recruiter-in-charge of the Warsaw Navy Recruiting Branch Station. The only differences between the two are in type of hat devices and style of buttons. Navymen not assigned to the recruiting command may make the switch to the new uniform this year; the change over is mandatory in 1975. (Navy photograph by Chief Journalist John D. Burlage)

THERE is quite a bit you can do to avoid "winter skin." First, you must understand what causes it. Cold, dry weather outdoors and dry, overheated indoor air are major culprits. Cold wind, excessive used seeds of second wind. major culprits. Cold wind, excessive use of soaps and detergents and too frequent bathing in very hot water also take a vold. Of course, aging and heredity have an effect on skin that is not helped by unfriendly weather.

In the wintertime, take fewer, faster baths—don't use hot, hot water and you won't wash all the moisture out of the outer layer of your skin.

If your skin feels dry, use moisturizing creams or lotions on it

turizing creams or lotions on it every day. These emollient prep-arations make the skin soft and arations make the skin soft and pliable by retarding the evapora-tion of moisture from it.

Apply body lotion after every bath and each night before you go to bed. Don't forget to put it on your arms and legs too—they prob-ably need it more than any other part of you. Bath oils also help, and they will keep your skin from itching. itching.

The daughter of Mr. and Mrs. David Phillips, Rochester, she receives treatment at Kokomo Orthopedic Clinic for internal tibial torsion and antiversion of the left femoral neck. She has been wearing the twister cable braces shown in the picture since Jast June and has improved to the extent that she needs to wear them only at night. Despite her birth defect, Ginger is active, playing a lot with her brothers, David, 2, and Mark, 1. The March of Dimes supports intensive research. FULTON CO. MARCH OF DIMES POSTER CHILD: Fourlot with her brothers, David, 2, and Mark, 1. The March of Dimes supports intensive research, medical services, professional education and community service programs throughout the year, according to Mrs. Stephanie Janicek, county March of Dimes chairman. "Our aim is to eliminate birth defects completely," she said. An estimated quarter million infants are born with birth defects each year in the United States. About 6,800 such children are born annually in Indiana.

TVSC board approves school plans

Still working with September 1974 as the target date for conducttarget date for conducting classes in the new Tippecanoe Valley high school, TVSC board members Monday night moved closer to realization of this goal by approving building plans and specifications, authorizing Everett I. Brown, the architectural firm the architectural firm designing the school, to file plans with pro-per state officials for approval and approving a notice to bidders.

The notice to bidders, which will not be printed until next week, specifies bids will be opened at 3 p.m. Thurs-day, February 22, in the Mentone school gymmas-

In a short but busy session, board members also decided to finance the school through a the school through a public holding corporation, tentatively named the Tippecanoe Valley School Building Corporation. Board attorney Frederick Rakestraw of Rochester was asked to check with the secretary of state to be certain no other building corp-oration had a similar

Five people will be named to the holding company, and Rakestraw urged the board to do this as soon as possible. He said the purpose of the holding company would be to legally en-able the school board to build the new high school. It would sell bonds to finance the school construction and would ultimately own the site and building which the school board would buy back on a lease-rental agreement financed by property taxes paid into a debt service cumulative building fund.

Rakestraw added that it would be helpful if the school board and the holding company worked in cooperation with one another.

At a special meeting last week, Kenneth Brown, a representative of Everett I. Brown, estimated \$3 million would have to be financed. He estimated total cost of the building, equipment and exterior facilities at \$4,340,

On a motion by Philip Lash, the board voted to ask Brown to submit a detailed estimate of the cost of the project with interest, additives and deductives listed

The board also authorized Brown to submit plans and specifications to 100 bidders and approved payment of a \$143,853.75 bill from

Actual name of the new school has not been de-cided. It is now shown as Tippecanoe Valley High School in the architect's plans and draw-ings but board members have expressed a desire to discuss a different name for the school.

School Superintendent Robert Forbes presented a year-end financial report that showed \$1,743, 775.54 in all funds with \$1,325,000 of this placon investment.

THE EQUAL RIGHTS AMENDMENT

Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex.

The Indiana State Legislature will be asked sometime during its cursometime during its cur-rent session to ratify the proposed Constitu-tional amendment to gu-arantee equal rights for men and women.

states--Twenty-two Alaska, California, Colorado, Delaware, Hawaii, Idaho, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Nebraska, New Hampshire, Nebraska, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Is-land, Tennessee, Texas, West Virginia and Wisconsin-have already ratified the Equal Rights Amendment. Already a matter of

eady a manda the discussion, the strong much Amendment Head supporters, including Indiana Senator Birch Bayh, author of the Bayh says and imit will in no way im-pair the basic rights of any American but will prevent the use of legal impediments to perpetuate discrimination on the basis of sex. He the basis of sex. He says it will mean He says it will mean equal pay for equal work, mean men and wo-men found guilty of sim-ilar crimes receive similar punishments.

However, many people-especially

on the matter, and some states--Connecticut and Oklahoma--have refused to ratify the measure.

Legal scholars have suggested the consequences of the Amendment, should it be ratified by the necessary two-thirds of the states, are rather extreme.

They say all existing state laws relative to working hours (which they say are less for women), working condi-tions, divorce, support, etc. would be wiped

They say, too, that women would be forced to register for any any draft at age 18, required to serve in all kinds of military units in-cluding combat duty. Bayh says those women who are physically or mentally unqualified or qho are conscientious objectors or who are exempt because of their responsibilities, e.g., certain public officials or those with dependents will not have to serve. He says mothers will not conscripted their children.

Opponents to the amendment say seduction laws, statutory rape laws prohibiting laws. obscene language in the presence of women and all prostitution laws will be invalidated.

Opponents of ERA say there can be no differ-ences under the law in especially women--are roles for men and women having second thoughts within the family on the

basis of sex; women may basis of sex; women may become obligated for furnishing one-half of the family support. In rebuttal, the Citizens' Advisory Council on the Status of Women says ERA Status of Women says ERA would not deprive women of any enforceable rights of support and it would not weaken the father's obligation to support the family.

The legal scholars say all men's clubs and lodges would be required to admit women and all women's clubs would all women's clubs would

all women's clubs would required to admit men. They also say the rights of privacy due to sex could not be respected under the terms of ERA while the amendment's author says all states would continue to have the power to require segregation of the sexes for regulatory purposes with respect to such facilities as sleeping quarters at co-

In addition, Bayh says state laws that special restrictions on the property rights of married women would be nullified. A married nullified. A married woman would be permitted to manage or own pro-perty in the same man-ner as her husband. She would also be able to enter into contracts or run her business as freely as a member of the male sex.

He also says ERA would take women out of home. "It definitethe home. ly would not require both the husband and wife to become wage earners," he says.

Both sides of this amendment feel strongly about their position.

Now is the time for those of us-all of us-who will be affected by this amendment to pause to decide: "Is this what rison dormitories and prison dormitories and is it too much?"

Capitalistic Breadbasket

only the U.S. can produce the agricultural abundance that will give Soviet citizens the higher food production that Soviet leaders have that soviet leaders have promised. According to late reports, even U.S. help may fall short of staving off a shortage in Russian food supplies. It is said that the Soviet Union is sufthe Soviet Union is suffering the worst farm crisis since 1963. The grain harvest is likely to fall 30 million tons short of planned pro-duction. This means less bread, less feed for livestock and less meat.

I remember some time ago, people lined up on both sides of the street to watch the parades and naturally I was leading every parade proudly waving in the breeze. When your daddy saw me coming, he immediately removed his hat and placed it against his left aced it against his left shoulder so that his hand was directly over

was directly over his heart...remember? WHAT HAPPENED? I'm still the same old flag. Oh, I have a few more stars since you were a boy. A lot more blood has been shed since those parades of long ago.

ago.

But now I don't feel as proud as I used to. When I come down your street, you just stand there with your hands in your pockets and I may get a small glance and then you look away. I see children running around shouting..they shouting..they don't seem to know who I am. I saw one man take off his hat and look around. He didn't see anybody else with theirs off so he quickly put his back on.

Is it a sin to be PAT-RIOTIC anymore? Have you forgotten what I stand for and where I've been? Anzio, Guadalcan-al, Korea and Vietnam. Take a look at the Me-Take a look at the Me-morial Honor Rolls sometime, of those who nevcame back to keep this republic free..one nation under God..When you salute me, you are saluting them.

Well, it won't be long until I'll be coming down your street again. when you see stand straight, place your right hand over your heart .. and I'll salute you, by waving back ...and I'll know that YOU REMEMBERED.

Mentone is nearly up to its new water works system and the ordinary citizen of that spruce little city is feeling as if he lived with his family in the King's city. The Gazette says: Work on the water plant is still going forward. The mains are all laid and the work of putting the engine and pumps in position and making the connections is progressing. The work is now mainly on the inside of the building and it is expected that everything will be ready for turning the water into the mains by the middle of next week.

Serve Refreshments Tuned to Season

Whenever a winter celebration is in order, serve hot mulled wine or cider with cheese puffs and Stag Horns, an unusual fried doughnut-type bun.

Stag Horns

4 cups flour ½ cup sugar 1 egg

34 cup corn starch 4 teaspoons baking powder

1 cup dairy sour cream 1 quart corn oil (about) 1 cup margarine

1 cup margarine

1 quart corn oil (about)

Sift together flour, corn starch and baking powder. With a spoon, blend margarine and sugar. Beat in egg and sour cream. Gradually stir in dry ingredients. Knead dough on floured surface 3 minutes or until no longer sticky. Working with half the dough at a time, roll into a rectangle ½-inch thick. Cut X x 4-inch strips. Slit each down the center stopping ½ inch from end. Spread ends apart to form horns. Cut 3 diagonal 3/16-inch notches into side of each horn to form points of horns. Pour corn oil into sturdy flat bottomed kettle or deep fryer filling utensil no more than ½ full. Heat over medium heat to 376°F. Fry strips, a few at a time, 2 to 3 minutes until golden brown. Drain on absorbent paper. Cool. Roll in a sugar-clinamon mixture made by mixing ½ teaspoon cinnamon with ½ cup sugar. Makes about 3½ dozen.

News Of Interest To Homemakers

BY ANN HANCOOK Area Extension Agent, Kosciusko County

Our society has become one of working women. Each day more and more wives and mothers enter the work world. It has gotten to the point where a woman who does not work away from home is ashamed. Recently I asked a homemaker what type of work she did and she apologetically replied "I'm just a housewife." I wonder if she has ever thought about what it means to be "just a housewife". be

The Insurance Insti-ite suggests that it tute would cost eight to ten thousand dollars a year to pay for all the ser-vices that a wife and mother performs. Today's homes are often min-iature businesses with the homemaker responthe homemaker responsible for much of the services in its operation. Men who manage the operation of a business are referred to as plant managers, perhaps a better term for homemakers would be homemanagers.

Home management is a demanding job, particularly for the young homemaker. Even with the increased use of many work saving appli-ances, she still finds herself extremely pres-sed to get all of her jobs done. Perhaps this is due to the increased standards of creativity, neatness and community

involvement.

In looking at role of the homemanager, consider the many positions that she must assume. The obvious tasks include: chef, nurse, interior decorator, laundress, purchasing agent, seamstress, and chauffeur. Also she must be the secretary-treasurer for the family and see that bills are paid, letters are written, Christmas and special occasion cards get mailed, and keep of family activ activities and appointments. When children are involved she serves as a counselor, teacher, super-visor, and mediator. mediator. And when business customers are brought home for dinner, she serves as a hostess and companion for her husband.
The last but not the

Reading Club Hears Renneker Describe Work At Riverwood

"The 'name of the game' is to get involved in people-oriented programs," said William Renneker in his talk to the Mentone Reading the Mentone Reading Club. Members met at the home of Mrs. Wayne Tombaugh to learn more about Riverwood Ranch, but were given much to think about as to what causes problems with so many young people in the busy world of today. Some particular areas of pressure and trouble are in the deprivation of family relationships, many moves, no purpose or guidance as to the goals for life, and need goals for life, and need for identification with parents, he said. "We don't know our brother," he concluded, leaving members and guests im-pressed with his dedication, philosophy and

Prayer was offered by

PrayerZelda White.
Devotions were given Prayen, "Faith by Marie Dawson, "Fait To Face Life's Finale" Mrs. Dawson stated that he who fears death has missed the point of life. If you are to have a faith to face the inevitability of death, you must first

have a zest for living. She went on to say that there is no state of being which we call death in our Christian faith, there is life and life hereafter and that which we call death is only a door through which we pass from our life here to more life beyond.

The rest of the afternoon was spent with needlepoint.

A team contest was started that will last for three months. The losing team will entertain the team that loses the most weight.

The best loser for the month will receive a free hair style.

for each pound not lost that was pledged and an award of \$2 will be giv-en to each member los-ing ten or more pounds at the end of the three months.

The club is planning a visit from a TOPS member from another chapt-er to give her success story on how she reached her goal with a loss of over 90 pounds and how much happier it has made her life. She gives TOPS credit for helping

her attain her goal. Newly revised by-laws

were given each member.
The leader, Doris Newton, gave a list of dieting tips by Dr. Solomon and also gave a cal-orie count of many foods from the Brand Name cal-orie counter book. The members were surprised to learn that a frozen dinner of frankfurters and beans has a calorie count of 685 and a frozen fish dinner has a calorie count of 333.

Anyone having a weight problem or who wants to maintain his or her present weight, is invited to join TOPS. Informa-tion can be obtained by calling 353-2984.

Akron Cemetery Board Lists Year's Report, Asks Volunteers

Paul Studebaker, sex-ton at Mt. Hope Cemetery, Peru, spoke to members of the Akron Cemetery Association at its January 8 meeting, giving pointers on hand-ling of cemetery business.

Velma Bright, secretary, gave a year-end report. It was noted many contributions were given during the past year that enabled the year that enabled the board to pay all upkeep expenses during 1972. The board expressed ap-preciation for these contributions and the hope that they would continue to be received during the coming year in order that the ceme-

Miss Sills, the mother of two children with birth defects, is personally involved with this severe health problem that strikes a quarter of a million babies every year in our country.

During the past year she has met with Mothers' March volunteers from coast to coast, visited March of Dimes Medical Service Programs and research scientists supported by the voluntary health organization, donned a hospital gown to see firsthand the lifesaving skills of an intensive care nursery for seriously ill newborns, and marched in the front ranks of a fund-raising Walk-a-thon. Many Mothers' March supporters also work throughout the year on health education and community service programs with medical and nursing spokesmen in their areas. Prevention of birth defects is their uniting concern. A major way to help achieve this ultimate goal is by assisting in every way possible to upgrade the delivery and quality of medical care.

When they are on the march
every January, through neighborhoods in their towns and
cities, these women (and men
too) are anxious to share information about progress in
overcoming our most serious
child health problem.
As in the past, Marching
Mothers this year will do more
than appeal to their fellow
citizens for funds. They are
offering every home they visit
a flyer describing the free
March of Dimes Family Medical Record. A coupon is attached for the family to send
to their local chapter office for
a full-size copy of the Record.

With this form, a couple can with this torm, a couple can begin a comprehensive health history of every member in the family and keep it up-to-date. The information has increasing value over a period of time be-cause it reflects the health pat-tern of an individual and his family.

tern of an individual and ns family.

As progress develd ain understanding genetic mechanisms and environmental factors, scientists are better able to relate the interaction of inherited traits with infections, medications, X-rays, drugs and other influences before and after birth. These can be significant factors for a couple to consider when they are plan-

ning to raise a family.

The Family Medical Record also includes the immunization schedule for children recommended by the American Academy of Pediatrics.

Not only is the Record an aid to physicians in diagnosis and treatment, it is also a memory saver in filling out various documents, such as school and travel records, health insurance forms, and passports.

Marching Mothers hope to see the Record widely used, so that as many families as possible can begin keeping information important to the health and well-being of our future generations.

The Mind of a Murderer

Lawmakers, who law-abiding that themselves citizens, presume that if a law were passed taking guns away from the people it would be obeyed--and it would be far as law-abiding citizens are concerned. citizens are concerned.
But neither party in
this case really understands the mental processes of the criminal,
and here is the great
weakness of gun controls.
A shocking illustra-

tion of how wide of mark gun control laws are when it comes to curbing the criminal is described in "The American Rifleman." The story tells of a 31-year old man who is a pro-fessional killer. He came from a family of lawbreakers. Until he was jailed, he and a partner were highly successful in their pro-fession. During a kill-ing spree, they murdering spree, they murdered six people in Salt Lake City with a knife and a pistol. The two murderers were saved from the official Utah firing squad by the generous mercy of the Supreme Court of the United States. Discussing murder was like a basemurder was ball game to them. One of them remarked, "You'-re born to die. There's way you can escape All I did was help " On the subject of it. controls, he said,
w you take the guns
y from the citizen,
Il make it a little away it'll harder for us to get them, but it'll make it a damm sight harder on because

are they want to go about ding it legally. We'll just that go steal it..."

go steal it..."

This is the mind of a murderer at work. It remained untouched by restricting freedom of the law-abiding to bear arms.

THE cause of stuttering has been

THE cause of stuttering has been classified as physical in nature, it its true cause is not known.

Many great men have been stutterers. Aristotle, Charles Darwin and Sir Winston Churchill all suffered from this affliction.

Stuttering usually begins between the ages of two and six and takes the form of a chronic spasm or book that prompts the excessive repetition of sounds.

The child's effort to avoid his stuttering is expressed in such reactions as closing his eyes, dilating his nostrils or slight breathing abnormalities.

Stutterers are usually aware of tension in other parts of the body during the stuttering phase.

Stuttering is sometimes reduced or even eliminated with repeated reading of a certain passage or even eliminated with repeated reading of a certain passage or uring gr ou p reading or singing and when a masking voice drowns out the stutterer's hearing of his own voice.

Family, friends and teachers are usued to the other cassurance and affection.

Stutterers are usually normally intelligent, and often more intelligent than nonstutterers.

To the Editor:

The inauguration cere-mony for President Nixon had an air on solemm dignity, impressive, in-spiring and thrilling. There were no quipps or wisecracks to distract from the serious aspect of the occasion. There was no discrimination of race, color, nationality or religion. A Negro lady gave a fine rendition of our national arthur al anthem. Peace

the world was stressed, no one's character was no one's character was defamed. President Nix-on asked "God's" help on asked and +1 the prayers of all people in his task a-head. Which will not be easy. I am thankful I am an American serving my country faith-fully and well. Never denouncing my native denouncing my native land or its laws, having laws, ... fifty two alive. struggled years to stay alive. With God's love and grace my life has been spared thus far. The Fowler family has serv-ed in the military service in the Revolution-ary War, the War of 1812 and down to myself in the smiles of friends he World War I and our son could have had if he had in the Korean War. was his, and it had cost
same? him nothing.

Thereafter, wherever he went, he walked head downward, eyes glued to wherever the ground, searching for further treasure. During his lifetime he found 313 pennies, 61 nickels, 22 dimes, 14 quarters, 7 half dollars one and one lonely paper dollar -- a total of \$16. 38.

The money cost him nothing--save that he missed the fiery splend-or of 25,550 sunsets; the glow of millions of stars on innumerable stars on innumerable nights; the singing of the birds in the trees;

The question was given out last Sunday night at Epworth League: Would there be any need for charity and thanksgiving, free dinners etc. if Akron were a town in Heaven? Why or why not? Included in the statements made was: "We cannot bring up our children to the highest standard of Christian living if we allow our boys to go to shows and to play basketball during the revival meetings or to the Passtime restaurant. Passtime, sounds very pleasing to the ear. But stop and consider the value of time. Time is so precious there is never one moment of time

We saw some fine coops of poultry at the Interurban station early Tuesday morning. They were the property of Milo Bryant, W. N. Bacon, Tom Waite and A. A. Gast. They were shipping to the Peru poultry show that is on this week. This exhibition from Akron will awaken Miami county to our importance in the poultry area and the poultry raisers over there will attend our show in February as a compliment.

All criminal suspects will be the first state arrested in Indiana will soon have their pictures taken "in living color" thanks to a Statewide effort by the Indiana State Police.

During the next few During the next few months, according to an announcement by State Police Superintendent Robert K. Konkle, special color "mug" cameras will be installed in each of Indiana's 92 county iails

county jails.
"This is another eff-ort to reduce the costs of law enforcement while at the same time increas-ing the uniformity and efficiency of law en-forcement services," he said.

The cameras and central print processing equipment being install-ed at State Police headquarters in Indianapolis have been purchased with federal grant, monies through the Indiana Cr-iminal Justice Planning Agency. Konkle said Indiana

to take a uniform approach to color identification photography. Until now, he added, State Police and other larger state law en-forcement agencies have utilized black-and-white photography but there has been no program encompassing all police departments.

The new cameras, call-i "Mug-O-Matic", proed "Mug-O-Matic", pro-duce top quality photo-graphs. Automatic fea-tures of the equipment enables any person to operate them without without previous training.

Indianapolis 500 race driver Lloyd Ruby says: "On and off the track, I've driven just about everything on four wheels. And this '73 Ranger is the top performing, smoothest riding pickup you could own."

Ford's exclusive Twin-I-Beam front suspension helps each wheel step over bumps in-dependently. Cushions out teeth-rattling jars and jolts.

Tough? This pickup is a bear for punishment. The hood and side panels are doublewall reinforced for extra strength.

If you like, you can also get an optional 360 V-8 engine with 4-wheel drive that will take you over country you wouldn't want to walk through.

Is this Ford pickup as great as we say it is? Pick yourself up and head for your nearest Ford Dealer for a test drive.

## News Of Interest To Homemakers

BY ANN HANCOOK Area Extension Agent, Kosciusko County

Sergeant Thomas Jack, blic Information Of-Public ficer for the Indiana Police, recently spoke to a group of Extension Homemakers con-cerning "Self Protection For Women". Sergeant Jack began the program by asking two questions,
"How many of you left
home this afternoon without locking your house?"
A surprisingly large
percentage of the audience were guilty of this offense. The next question was "How many of you locked your car rs when you parked outside?" Very few of the women had locked their cars. The best defense against crime is not to put yourself in a dangerous situation. Unlocked doors are open invitations to criminals.

A alone in an automobile is especially dangerous. Sergeant Jack suggested that if at all possible take someone with you. If you must travel alone be sure and lock all your car doors. A member of the audience asked what a woman should do if she has car trouble. Sergeant Jack sug-gested raising the hood and waiting in the car with the doors locked. It is not wise to get out and walk.

Women living in small towns such as Warsaw often get a false sense security. They think that crimes only happen in large metropolitan areas. Sergeant Jack emphasized that there are potential criminals everywhere. Every fourteen minutes there is a forceable rape somewhere in the United States.

Judo is not necessary to be able to protect yourself. Some of the best defenses come as standard equipment on women. Most women can run faster than men and scream louder. A1so long fingernails, high heel shoes, big purses can be used to scratch, kick and strike long the assailant.

In summary he stated that there are several important things to reare several member to help prevent crimes. Your number defense against crime is prevention. Stay out of dangerous situations. Become familiar with some type of weapon so that you can protect your life if

#### Linda Cumberland Reaches PAC Goal

The Pounds Away Club was called to order Wednesday evening in the library basement.

Joan Hoffman was named Queen of the Week with six pound loss.

Four more ladies re-ceived charms for reaching their halfway point to their goal. They were Donna Loer, Shirley Bickel, Winifred Summe, and Marvus Zimmerman.

The high point of the evening was the announcement that Linda Cumberland had reached her goal. A trophy will be ordered and presented to her at a later date.

A Valentine contest for the month of Febru-

ary will be started the first of the month. The name of the contest is
"Take A Heart, Save A
Heart and Lose Weight".
The members were divided into two teams and for every six points ed into two teams and for every six points awarded, a heart will be given. The ways in which the teams can earn points are by staying for the meeting, weighing in, losses, etc.

New members are al-

ways welcome.

farmers are to be included in a national survey to determine current trends in farm production expenses. Purchasing patterns have changed rapidly in recent years and the survey will indicate the kinds of amounts of goods and services now bought to raise crops and livestock.

Earl L. Park, Statistician in Charge of the Indiana Crop and Livestock Reporting Service for the U.S. Department of Agriculture, said the local producers will be visited starting in February and asked to report their 1972 farm production expenses. All information will be confidential and only regional and national confidential and only regional and national summaries will be re-

summaries will be re-leased.

Mr. Park added that the survey will play a major role in helping farm program planners, farm groups and other agricultural analysts to have a better under-standing of where farmstanding of where farmers stand in the Nation's economic picture.

Farmers buy consider-ably more fuel, ferti-lizer and machinery but less labor and differ-ent chemicals than sevent chemicals than several years ago. However, the size of this substitution of capital for labor is not adequately known. The annual farm expenditure survey will shed light on the situation. Information on production expenses also plays an important part in figuring the monthly index of prices paid by farmers published by USDA, and in determining net farm income. farm income.

TVSC Building Cont. from page 1

Robert Forbes, superintendent of the Tippecanoe Valley schools, said Friday approval of part of the \$1.5 million special appropriation asked for in December has been received.

He said the State Board of Tax Commissioners had approved \$210,-000 to be used for architects' fees. He said the remaining \$1,290,000 will be held in abeyance until approval has been received for the final

plans.
In December the TVSC board adopted a resolution appropriating \$1.5 million in the cumulative building fund for a new school to be constructed on the Mollenhour farm at the corner of SR 19 and Kosciusko Co. Road 800 So. At a hearing in Warsaw, several TVSC patrons remonstrated.

No action had been taken on the appropriation until Friday.

Car Stolen, Recovered

A 1965 red Rambler, which was stolen from Walter Zimmerman's R. 1, Akron, residence sometime Wednesday night, was recovered in Michigan City Friday afternoon. Authorities held two 17-year old boys found in the car. They said an abondoned car was found on Ind. 14 near the Zimmerman home the same day the stolen auto was reported. Investigation showed the

A 15-year old South Bend boy, suspected of stealing Zimmerman's car, was lodged in Fulton county jail Saturday afternoon after being apprehended in Michigan City Friday afternoon.

abandoned auto had been stolen in Fort Wayne.

The boy appeared in Fulton juvenile court Monday and admitted being an accessory to the theft. He was placed on probation six months after testifying he aided another youth to escape punishment for the theft. Judge Wendell C. Tombaugh ordered the boy to make \$33.40 restitution and spend three days in juvenile detention in the county jail. Three days credit was given for time already spent in detention.

#### **Accident Report**

Minor damage was listed Friday night when vehicles driven by Joe Fisher, 17, Silver Lake, and Perry Jeffries, 62, Ft. Wayne, bumped on SR 14 in Silver Lake.

A crash on SR 15 two

A crash on SR 15 two miles north of Silver Lake Friday evening resulted in minor injuries to Bert Cochren, 73, Claypool, and Frances Bell, 31, R. 2, Claypool. Damage was listed at \$750 to the Cochren auto and \$600 to the Bell vehicle.

Earl C. Martin, 59, R. 1, Claypool, was admitted to Murphy Medical Center Saturday morning for treatment of injuries he suffered in a single-truck crash on SR 15 in Silver Lake. He sustained facial lacerations, bruises and contusions when he was pinned in his pickup truck for a short period of time after his truck ran off the right side of the highway, struck a utility pole and crashed into a tree before overturning. Estimated damage of \$1800 was reported to the truck and \$150 to a utility pole. State police, Silver Lake Marshal Hayden Newhouse and Melvin

Jordan of the Akron police department investigated.

Ida R. Lahman, 62, Akron, lost control of her
car because of the icy
conditions of the road,
according to officials,
and struck a fence on
the Norman Tinkey farm
north of Akron Sunday
evening. The Lahman car
was damaged \$225 and \$50
damage to four rods of
Tinkey's fence was estimated.
