## Town of Akron hosts retirement open house for "Sparky" Jan. 12

Garland Sparks (Sparky) will be honored at an open house on January 12 at the Akron Lions Den for his 24 years of service to the town of Akron. The open house will be from 2:00 to 4:00 p.m. and refreshments will be served.

Sparky started working for the town of Akron on June 20, 1961. In January of 1971 he became the Water Superintendent for the town. During the time he worked for

the town a new waste water treatment plant was built, a new well field was created by the town park for number three and four wells, water lines were run to the Schuller Apartments and Sainers Addition, and water lines were run to the many additions of Pike Lumber Company. He was in charge of water testing for the state reports. The Town Board and State Officials have all made known how very dependable

he has been at his job.

Previous to working for the town, Sparky was a coal miner in Kentucky. While there he met his wife and they were married.

Sparky and his wife, Jewell, reside in Akron on North Maple Street. They have two daughters; Garnetta, Cole, Texas, and Irene Norman. Akron. They also have three grandchildren. The Sparks attend the Silver Lake Pentecostal Church.

## Valley varsity girls take Rochester Holiday Tourney

Tippecanoe Valley became a first time winner of the Rochester Holiday Tournament in girls basketball with a 42-38 victory over host Zebras in the championship game here Saturday night, Dec. 21.

Earlier in the day, Valley topped Lewis Cass, 47-29, to reach the championship contest.

"Balanced scoring and team defense is what did it for us," said Viking coach Ivan Schuler. "We didn't have any one player who was outstanding, and we didn't have any peaks or valleys in our overall play."

Jody Yochum was the high scorer of the tournament for the Vikings, with 11 points in the first round contest against Lewis Cass, and 10 in

the final against Rochester.

Leslie Miller, meanwhile, led the Valley in the final game with 14 points.

The victories put Valley's record at 7-2, and keeps the team's winning streak going at seven games, the best among area teams.

## Can you return Christmas gifts?

The shirt you received for Christmas doesn't fit and you really didn't need a third pair of slippers.

Can you return those Christmas gifts and get a refund or exchange?

Refunds and exchanges of merchandise are really changes in the contract, or agreement, between the buyer and seller, says Attorney General Linley Pearson.

And returning the merchandise for exchange, credit or refund is generally a privilege rather than a right, he said.

An exception is when you have purchased an item that is defective or was misrepresented. In either case you are entitled to a suitable substitute or a refund, the attorney general noted.

While return policies vary from store to store, they come in three basic forms, Pearson said. Those are:

1. Exchange: Merchandise may be returned and another item of the same kind may be taken in its place.

This privilege is offered when the buyer, for example, has made a mistake in the choice of size or color of the item.

2. Return for credit: When merchandise is returned, the customer is given a credit slip or his account is credited with the amount paid.

The customer may then apply that amount to the purchase of any item in the store.

3. Refund: Under this policy, the customer gets his money back. Retailers who use and advertise this policy effectively guarantee satisfaction with whatever merchandise they sell.

If the returned item had been charged to a credit card initially, the refund may take the form of a credit charged to the same credit card number.

In every case these policies are voluntarily adopted by retailers who wish to provide a high standard of service to their customers. They are not required to do so by law, Pearson said.

Pearson said consumers could avoid problems when it comes to returning items by making it a rule to check the store's return policy before you buy. Some stores have "no return" or "final sale" policies.

If you are in doubt about the policy, have your sales slip marked "on approval," Pearson suggested.

Honest mistakes over items that don't fit, don't serve the purpose for which they were bought or turn out to be inappropriate gifts from a well-meaning spouse or friend entitle you to use a

store's refund policy, providing they have one, Pearson said.

Return privileges are usually extended with the requirement that merchandise be returned within a specified time period and be in new condition, Pearson said.

Stores often require a sales slip or other evidence that the item was actually bought there and not at some other store, the attorney general added.

For some items, such as sales merchandise, the policy may be that all sales are final, he noted. While retailers have the right to adopt such a policy, "final sale" items should be clearly identified or so advertised, he said.

Consumers should be careful not to abuse return privileges, Pearson said. Some shoppers buy casually and return merchandise purchased on impulse, causing an unnecessary amount of sales time and paperwork.

That costs the store money, and ultimately increases the cost of all merchandise in the store to all customers, Pearson said.

It also causes some retailers to adopt less liberal return policies than they might otherwise use, Pearson said.

Good Morning!

We Are In Trouble In Our Community!

After the tragic accident in our town last week with what appears to be the needless loss of a life at a high rate of speed, we need safety action and quick.

At our residence at the north edge of Akron on State Road 19, we have a very serious intersection in which 500 school children from the ages of six to fourteen use the T-intersection by our house and going east a few rods to the school system. In addition, there are approximately fifteen of these youngsters who come from the back side of our town across our yard, crossing State Road 19 to use this intersection to go into their school. Obviously, we know that although we use every precaution in instructing them, children of this age very frequently, without looking, simply cross the highway.

We have an outrageous speeding situation in which it is not uncommon to have cars coming in and going out of town from 50 to 75 miles per hour, and unless this is brought under control, it is only a matter of time until we pick up some dead children at this intersection.

Knowing your desire and your hard work in that direction, we can only urge that you take immediate action to bring this under control and the accident last week is the grim reminder that time has run out.

Should you wish, I would be very happy to have you call me for any further details or cooperation in the matter.

Yours very truly,

# Boys Varsity Basketball

## Northwood

In the Tippecanoe Valley-NorthWood boys basketball game the Vikings edged out the Panthers 49-44 in the duel, that saw turnovers and fouls become the rule, instead of the exception.

NorthWood had 30 turnovers, 10 of which came in the fourth period. Valley was close behind with 29, also committing 10 in the last period.

Foul trouble was another problem for both clubs. NorthWood held the unwanted position of having the most fouls with 22. Valley was again close with 20 personals.

The first quarter was a close one, with neither team ever nearing any type of control. Valley hit only four of 14 from the field, while NorthWood hit three of eight and five and six from the line to pull out a three point lead. Both teams were beginning to play sloppily, with a total of 15 turnovers in the first quarter. The Vikings also fell into foul trouble and, due to this, had to go into a zone defense in the second quarter.

In the third quarter the teams were nearly matched offensively, with 14 points apiece. Both teams played well defensively, not allowing either to gain any momentum.

Senior Chad Bibler was the force on offense that kept Valley from falling behind. He hit four of eight from the field, but shot only two of six from the charity stripe. Bibler scored 10 of Valley's 14 points in the period.

It was very close during the entire game and even more so in the final period. The lead went back and forth, but never did either team have larger than a two basket lead. With three minutes left, the score was tied 40-40.

Individually, Valley had three standout performances. Bibler led all scorers with 16 points and also had eight rebounds. Juniors Chris Zolman and Dale Miller each had nine points. Zolman led everyone with 12 rebounds.

## Whitko

Whitko jumped on the Vikings, at Whitko, with a 21-4 first quarter bulge and the hosts were uncontested the rest of the way to post a 66-48 win in a Three Rivers Conference matchup.

Valley, now 2-2 overall and 1-1 in the TRC, got into trouble by connecting on only one of 12 shots in the opening eight minutes, plus the Wildcats swept the boards for a 13-3 margin. Viking Chris Zolman got his team's only basket of the first quarter with an easy lay-in from an offensive rebound.

Throw out that early disaster and Valley gave up only a one point deficit in the final three periods.

Dale Miller headed Valley with 17 including a fine nine-of-10 effort from the free throw line. Steve Clampitt followed with 14 markers and Zolman added 10. Miller and Zolman paced the Vikes underneath with 11 rebounds. But Whitko took the rebounding edge 46-38.

## Valley Freshman

Tippecanoe Valley defeated Northfield, 58-48, in boys freshman basketball action here Tuesday night, Dec. 17.

Scott Reed led the Viking effort with 16 points and ten rebounds, while Kris Warren added 11 points for the winners.

## Etna Green board balances sewer account

Due to extensive work on the town's sewer system, the Etna Green Town Board was obligated to transfer funds to that account during its year-end meeting Monday night, Dec. 30, 1985.

A total of \$3,220 was transferred from the gasoline, oil and gas heating account, and

deposited into the sewage account. The work on the sewer system in November was approximately \$6,000.

"We also gave Loren Melton (town superintendent) authorization to set up a five-year plan for annual work on the system," reported board member Alice

Anglin.

The board had received an analysis of the work that would need to be done in October of this year, however, during this procedure several additional trouble spots came up. This will increase the time and money that was needed to take care

of the problem areas this year, although the board hopes to head off this type of thing in the future due to the annual cleaning plan.

Along with the transfer of funds, the board also gave a \$125 donation to the Heritage Park Advisory Board. This was done because of the extra work and thorough cleaning the board had done to the premises.

Speaking on behalf of the town board, Ms. Anglin also said, "We would like to express our gratitude to the Senior Womens Our Night Out Club for the Christmas decorations again this year."

The Senior Womens ONO donated the decorations for the Christmas tree in the center of town, along with four wreaths for the light up town.

Ms. Anglin stated, "We are very sorry there was damage done to these decorations by two area youths. We are really sorry this had to happen."

The board also announced they will be meeting in the fire station on Jan. 14 and not at the Heritage Park

## Mentone Nutrition Site

Phone 353-7555

The Mentone Nutrition Site was a busy place during the holidays. The birthday party was December 16, the Christmas gift exchange was on December 23.

The site wasn't closed any time by the bad weather. If the weather does get real bad and the schools close, the site will be closed also.

Madeline Fisher of the Bell Library was with site on Tuesday. She always brings such interesting books. This time she brought some of the depression times. One that she reviewed was the *Pursuit Of The American Dream*. Thank you, Madeline.

T.R. Jones was the Thursday area minister.

The site misses the people who have gone to warmer climates. They also miss the band appearances as the one at Teel's for the Antique Auto Club on December 21 was the last.

Bedi (the site director) had to take a few days vacation. Different people opened the site for her. Mary Ann King took the blood pressures on Friday.

The January birthday party is on the 16th.

## New books at Akron Carnegie

New books at the Akron Public Library are:

**MARTINA** by Martina Navratilova. She writes movingly, honestly, and with fairness about her personal life and the reactions of her parents, teammates, the press, and the public. A book of richness: reflective, complex, funny, honest, and deeply appealing.

**PARGETERS** by Norah Lofis. In this, her final novel, Norah Lofis is at her storytelling best as she presents a colorful and compelling tale of a very special house and the men and women who lived in it during England's Edwardian era.

# GET A HELPING HAND FROM PUBLIC SERVICE INDIANA

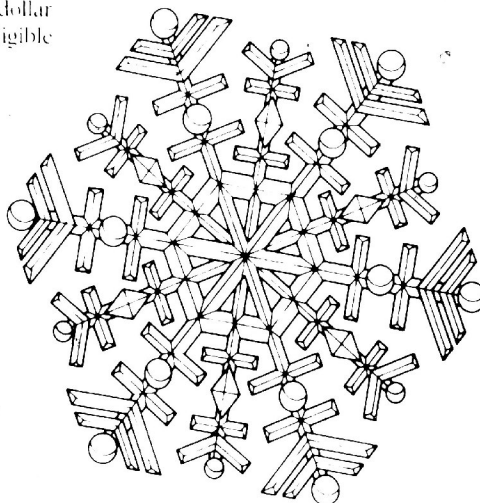

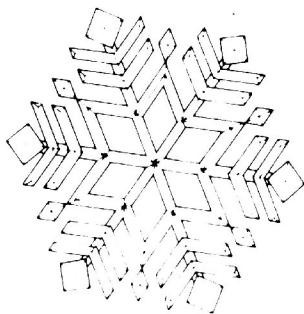

Winter electric bills can be a cold reality for elderly or disabled persons who are needy. That's why the shareholders of Public Service Indiana are contributing to a supplemental assistance fund to help such customers pay these bills.

It's called **The Helping Hand Program** and it's administered by the American Association of Retired Persons.

In January, February, March and April, working through church and community organizations as well as government agencies who sponsor these individuals, PSI will match one dollar for every dollar up to forty made available for an eligible

customer. Over the four-month program such a person could receive up to \$160 in assistance from PSI.

PSI is asking for your helping hand in identifying those in need in your community. Any organization wishing to serve as a sponsor should contact the nearest Public Service Indiana office for further information.

*In Fashion*

There is no reason to sacrifice style to dress warmly this winter. Coats come in many designs and fabrics that spell warmth and comfort.

A car coat comes in lightweight fleece with bright buffalo checks. The full coat is roomier than the classic polo coat and fits comfortably over a cow-neck sweater.

Some wool coats in solids, plaids and checks are water-repellant.

### I'm Getting Younger

Another year has come and gone, and I am getting younger.

Yearning for each coral dawn, with what amounts to hunger.

Becoming more and more aware, of what means most to me, and each new day becomes a prayer of sweet simplicity.

With brand new eyes I now observe, each tiny growing thing.

The graceful flight, the flashing curve of every feathered wing.

And listening to the sound of wind, that whispers through each tree, I feel a surge of joy as if the Master walk with me.

I'm younger than I used to be, and though it may not show, one doesn't have to touch or see a miracle to know.

Life isn't offered priceless, we have to take the lot, but the one's whose faith is real, why time is not!

The Akron Keen-Agers will celebrate all January birthdays Thursday, January 9. Also, at this time we will hold blood pressure clinic through the services of Ruth Bammerlin. A thank you will follow in next weeks paper to all who have donated to the

Area V auction for our matching friends. Senior citizens, come join us for a well balanced meal and fellowship. For your meal reservations please call 893-7204 between the hours of 9:00 a.m.-12:30 p.m. Scheduled meals for the week of Jan. 13-17 are:

Monday: Turkey, glazed carrots, cranberry salad, dressing, pumpkin custard, milk, coffee.

Tuesday: Ham "n" beans, toss salad, pineapple, cornbread, chocolate cake, milk, coffee.

Wednesday: Lasagne, green beans, cole slaw, apple, milk, coffee.

Thursday: B.B.Q. sandwich, broccoli, perfection salad, bun, peaches, milk, coffee.

The happiest person in this community is probably the one who has helped the most people, in one way or another.

\*\*\*\*

Bystanders are those who can do the job better.

Sincere thanks, for all the love and prayers, flowers, visits, cards and food sent by friends through the illness and passing of our father and husband, Ezra Lipply.

## Claypool town board elects new officers

Kenneth Hudson was elected president of the Claypool town board at its first meeting of the year Wednesday night.

Robert Bruce called for the election. Bruce has served as president of the board the past 10 years and said it was time for a change. He has been a board member for the past 14 years, and has two more years to go for his elected term.

After the election, Hudson presided over the meeting at the Claypool Township Fire Station.

Delbert Bolen, who has purchased the lot where the Rex Bradt building was located prior to a fire that destroyed it last fall, told the board that he plans this Saturday to use two semi-tractors, two dump trucks and a payload to clean up the property.

Fire destroyed the Bradt building on Aug. 24 of last year. The rubble left as a result of the fire has been

discussed by the town board at several meetings. Bolen said he wants to build a laundromat on the lot next April, and he will work closely with the board on this project.

Getting the property cleaned was good news. Buck Kreis, town marshal, will close off the one-block downtown area to give the

earth moving equipment room to work.

A contract with NIPSCO was signed which will provide the town with 32 100-watt high pressure sodium overhead lights, and five 150-watt high pressure lights.

Kreis reported that a salt spreader has been purchased, and he will start immediately on some of the ice covered streets.

The next meeting will be held Jan. 22 at the Clay township Fire Station.

## FFA essays show agriculture is active in our community

Following are essays that some of the FFA members wrote and entered in a contest with the Garst Seed Company from Kansas City. They were submitted by Tippecanoe Valley Vocational Agriculture Department, Mrs. Lisa Weitzel.

### Farming is the Best Job In The World

Farming is the best job in the world because people depend on farmers for goods and other equipment. Farming is fun. Farmers supply corn for cows and vegetables for the supermarket.

Farmers don't make the best of money, but they can make their money stretch. Without farmers we wouldn't have meat or vegetables.

Many people depend on the farmers and that makes them feel good because they know that they are needed in the world. Really without farms, there really wouldn't be any food to eat like corn, ham, pork, or any vegetables.

Jerry Kreighbaum  
Age 15

### Living On A Farm

#### Touches All My Senses

Living on a farm touches all my senses because, caring for the animals and seeing the production of their growth. When watching them eat and drink the right grain and stuff. Watching them gain and loose weight. Cleaning the pens for some of the best animals you have and knowing you will be rewarded. Trying to catch little pigs in a large pen. Caring for what happens to the pig or cattle. Trying to make a cow look its best for a show. Trying to sell lots of pigs at one time for the best price possible. Trying to not get attached to the animals. And trying not to get mad at the sell barn when they won't go the right way.

Randy Fields  
Age 15

### "Agriculture And Me"

Without agriculture, life would be boring. Without farms we would have no pigs running around relaxing in the mud or sunbathing. We would see no cute little

calves getting up trying to walk for the first time, or mother hen leading her chicks around. One thing I would really miss is the smell of fresh mowed pure alfalfa hay. I think its best at night or early in the morning. Without agriculture we would not be able to wake up to a fresh cup of coffee in the morning, or that first bowl of cornflakes, to go with your fresh steak and eggs. Think of that nice fresh glass of cold milk you drink everyday! One thing I really enjoy is to watch my field or a field I pass everyday from plowing, to discing, to planting, from sprouting, to harvest. I have a five acre patch of my own. I have taken care of it all summer, so I would be terrible bored without agriculture. As a kid, I always enjoyed to ride around in the country to see the crops and farmers working in the fields when its dark especially combining corn. Now you know how boring my life would be without agriculture. I know yours would be boring to, maybe in a different way but boring.

## Letter to the Editor

Dear Sir,

Five days a week I pick up by younger brother and sister from Mentone Elementary School. I only drive two blocks from work to get there. In that two blocks I have to stop and/or slow down at least four times for the kids walking home from school. Did anyone ever teach those kids about sidewalks? Several times they have made obscene gestures toward me. And they don't bother getting off the road or ever moving to the side of the road when a car comes. Don't those kids realize that when the roads are slick cars can't always stop quickly? Whose responsibility is this? The schools? Or the parents? Obviously whoever it is, isn't doing their job. Is it going to take one of those kids getting hit by a car and possibly killed before someone does something about it?

Sincerely, Donna Fisher

Did you ever 'ake time to realize how good the average person is, and how anxious most of them are to be helpful?

We would like to say "thank you" to our neighbors and friends for their cards, flowers and prayers and the concern and helpfulness given while I was in the hospital and since returning home. Also thanks to the doctors, nurses and hospital staff for their care.  
Cloyde (Gig) and Hilda Leininger

Thanks to all for the visits, cards, flowers, fruit and prayers after my accident. A special thanks to all my family and those who cared for me while I was unable to. God Bless you all.

**Agriculture is Important To Our Country**  
Agriculture is important to our country because farming is one of the largest enterprises in America today. A large percentage of Americans are employed in occupations related to agriculture. Farming helps to support many families throughout America. It helps support not only farmers, but also the people who are not involved with agriculture. This is accomplished by producing food for, not only people in America, but also people throughout the world. The farmer has the responsibility to feed the families of the world. It is an important job, and the American farmer does it well.

**The Best Life**  
Farm life is the best because of all the things you learn on the farm. Some of the things you learn are how to care for animals - feeding, watering, taking care of them when they are sick or having their offspring. Animals can make you feel very important with their response to you. Most people don't give animals credit for being very smart, but they are.

Another important part of farm life is the use of different tools and machinery. One learns to operate all the machinery, as well as fix it when it is broken. The mechanical part of farming teaches you many things that can be used in other occupations.

The most important part of living on a farm to me is the closeness to nature. You can till the ground, put plant food on, plant the seed, and spray for weed control - sit back and watch God do the rest. To me, farming is the Best Life because of everything I learn, as well as a close bond to Mother Nature and my Family.

### Farming Is The Best Job In The World

Farming is the best job in the world because I like to work on a farm. I am going to own a farm when I get out of school. I like animals that are on the farm such as cows, hogs, horses, chickens and cats. I like to watch a tractor turn over the soil. I also like to watch a combine harvest the crops out of the field. I could work for a farmer if I got paid or not. When I get out of school I am not going to be like so farmers and go in debt because they buy all this big stuff. I am going to start out small and work my way up, no matter if it takes all my life to achieve this goal. Some people, even my family, think I am crazy but I am going to be a farmer no matter what.

Henry Smith  
Age 15

**Agriculture is Important**  
Agriculture is important to our country because it provides food, money and jobs to a large portion of our community. Farming provides about 90% of the food we consume. We also export a large portion of the surplus that we can not use. Agriculture is not usually very prosperous, but there is a lot of money changing hands daily. Farming, or farming related jobs employ about 40% of the jobs for people in the United States. We need to have jobs to gain responsibility and a feeling of

achievement. These are a few reasons why agriculture is important. It is not always fun, but without agriculture we could not live. Let's keep it going, and strive for good work to keep America alive.

Chad Bibler led Valley with 25 points and Dale Miller added 20 points and a game-high 10 rebounds. Valley is now 5-3 overall and 3-1 in the TRC.

Pete Terpstra's 13 points led the Valley junior varsity to a 60-36 victory.

## Kosciusko Extension Notes

When most people hear the word "4-H" or see the four leaf clover emblem, they immediately identify with the traditional image of farm kids raising animals to show at the county or state fair. This picture is accurate for some of our 4-H club members, but certainly not all. 4-H includes a wide variety of projects and activities for young people who live in town as well as those on the farm.

Many of our youth here in Kosciusko County 4-H program concentrate on such activities as home gardening, arts and crafts, hand built furniture and even computer programming.

Farm kids are still in 4-H. make no mistake about that. They are still involved in raising prize beef cattle, hog, sheep, horses, rabbits, dairy cattle and goats. Many of these same youth are involved in learning more about corn and soybean production and even beekeeping.

To serve the youth of Kosciusko County, our 4-H program has become very versatile. Hundreds of 4-H club members here participate in

such activities as repairing a lawn mower, bicycle or even a marine engine. Members learn to buy and prepare meats, grow and preserve their own produce, express their creative talents in arts and crafts or perhaps in the performing arts through the 4-H Share-the-Fun Content. 4-Hers in Kosciusko County are involved in nearly 65 different project areas which reflect the four H's: the HEAD for clearer thinking; the HEART for greater loyalty; the HANDS for service; and HEALTH for better living for club members.

The 4-H program is supported by the Indiana 4-H Foundation, the Purdue Cooperative Extension Service, local government, and numerous local businesses and organizations throughout Kosciusko County.

The 4-H Club program is open to all youth ages 7 - 19. For more information about 4-H in your community, please contact the Kosciusko County Cooperative Extension Service at 267-4444. Our office is located in the basement of the County Courthouse in Warsaw.

## Firecall

A two-story frame house about three miles northeast of Akron, occupied by Patty Shafer, caught fire at 1:10 p.m. Tuesday, Jan. 7.

The home sustained smoke damage and considerable fire damage, according to Akron-Henry Township fire chief George Stephen.

The cause of the fire is undetermined; it originated in the chimney.

The house is in Kosciusko County, a mile east of Lowman's Corner and a quarter-mile south of Indiana 14.

No one was home when the fire occurred and no one was injured.

The Burket Fire Department assisted Akron firemen by bringing water.

This opening happens only with much planning and coordination between he and Dr. Steven Musselman with whom he will be associated. Dr. Negreros will practice in Medicine, Surgery, Pediatrics, Obstetrics and Gynecology.

Doctors Negreros and Musselman feel that by this

association they will be able to provide a better service to the Fulton, Kosciusko, Miami and Wabash county area. Because of their locations in Silver Lake and Akron respectively, they are uniquely located to serve a geographical area that is frequently overlooked.

By providing a wide variety of outpatient services, to include a twenty-four hour a day clinic service to begin in February of 86. There will be medical help available twenty-four hours a day at the Akron Community Health Center location. These services will be provided by Doctors Negreros, Musselman and Physician Assistant's Tom Miller and Greg Mellinger.

Dr. Albert Kaltenthaler has

been with the clinic since August and is now providing full pathology service including forensic pathology for which he has received special training. Dr. Kaltenthaler will be joined by Dr. Mirza Ahmad who is board certified in general surgery to help round out the clinic's services.

Dr. Ahmad who has brought vascular surgery to Woodlawn Hospital will spend a day each week in both the Silver Lake and Akron clinics.

In the near future more specialized cardiology services will be available at both clinics, as well as extensive outpatient surgery facilities. Including those that require general anesthesia.

## Mentone marshal and Superintendent get pay raises from town board

Salary increases were given to two of the town's employees, along with appointments to the cemetery, park and zoning boards and the planning commission during the Mentone Town Board meeting Monday night, Jan. 13.

Marshal Russell Hart, and utility Superintendent Rodney Holloway, were each given a \$500 raise for the year of 1986.

Hart had served on the Mentone police force since 1979 when he hired on as deputy. In April of 1984 he became town marshal receiving a salary of \$14,000, which was increased to \$15,000 in 1985 and \$15,500 this year.

Although the board voted unanimously in favor of increasing the salary of both employees, members also explained that future raises would be governed by the economy.

Holloway was hired into his position full-time on Jan. 1, 1984 with a salary of \$11,500, which was increased to \$13,000 in 1985, and \$13,500 this year.

It was also noted that the Town Clerk Kate Whetstone receives a wage of \$1,500

annually and was not given a salary increase.

The board also appointed members to the cemetery and park board as follows: Marion Smith, Rosemary Bazini, Wayne Tombaugh, Agnus Tibbets, Robert Whetstone, Kenneth Boggs and Annabelle Mentzer. Those appointed to serve on the planning commission and zoning board are Eldon Horn, Willard Wagner, Wayne Bowse, Forrest Cantner, Joe Good, Kenneth Romaine, Cher Smith, Jo Gamble, Jim Miller, Marian Boardman and Wayne Tombaugh.

The board was also requested by the Bell Memorial Public Library Board of Trustees to appoint a new board member. This appointment was given to Linda Cochran.

The Mentone Chamber of Commerce President, Ron Sechrist, brought to the board's attention that plans were already being made for this year's Egg Festival. The festival will be held June 5-7 and traffic changes may be made this year.

"We're trying to create business during this time,

and not run it off," said Chamber of Commerce member Darrel King. "We want people to have easy access to the different businesses in town, and not have problems as they have had in years past."

King went on to explain that the State Highway Department made it clear to him that the town will have full authority of the signs and barricades once they place them.

The board announced that

Oak Cable TV Co. has given notification that it will be extending its finances to finish laying the necessary cable for the Mentone area. Oak Cable is presently in town working on these cables and plans to be in the town for several weeks.

The board will be meeting on Feb. 3 at which time there will be a hearing dealing with the vacating of two streets and one alley in Robert Reed's subdivision.

## Tax structure limits Fulton Co. Library service to Union and Henry

The Director of the Fulton County Public Library sincerely regrets that residents of Union and Henry townships cannot borrow materials from the library because of the tax structure. The tax structure is based on dollar amounts contributed to the library support. Union and Henry townships elected not to join with the other townships of Fulton County when the Rochester Library became a county library, therefore this problem was created.

Through a state grant (set up around four years ago, renewable each year) libraries are now allowed to accept patrons from other counties, cities and townships. There are certain policies governing these patrons: (1) any patron with a valid card from his/her home library may check out books only from the Fulton County Library and its two branches; (2) any patron outside the tax structure of the Fulton Co. Library must pay the non-resident

fee of \$20.00 per year in order to borrow any audio equipment, films and video cassettes.

The Fulton County Library welcomes all residents of

Union and Henry townships to visit the library and borrow materials from the library provided the above policies are met.

If you use your car more than half the time for business even if your expenses are fully reimbursed, you can claim an investment credit for that car on your taxes. The credit is figured on the business portion of the cost.

## Vikings defeat Zebras 44-37

The Tippecanoe Valley Vikings held off a last minute comeback attempt to defeat Rochester, 44-37, in boys varsity basketball competition Saturday evening, Jan. 11.

Clutch free throws and a strong bench showing are what Valley coach Bob DuBois credits the victory to. Bibler had nine points and Miller accomplished only four. Senior guard Phil King made up for that lack of scoring with 15 points.

The first quarter epitomized the entire game as neither team led by more than one hoop. Valley kept the game close with King scoring six of their 10 points. Scott King of Rochester answered with six of his team's nine markers as the Zebras hung tough.

The Vikings made a strategic move after the intermission, coming out in a delay game early in the third period.

While Valley spread it out and passed it around, they also managed to score 11 points in the period. The Zebras were allowed only four on one basket and two free throws. Part of Rochester's problem in the quarter was due to the loss of King on fouls midway through the period.

Even though Valley doubled the opponent's score, the Vikings led only 29-25 as the game went into the final period.

The Vikings again came out in delay at the beginning of the fourth quarter, while pressuring Rochester at the other end.

The first basket of the fourth quarter came with 3:36 left on a jumpshot by

Viking Rick Shepherd. After Valley went into a full court press, the ball started to roll in their favor. The lead grew as junior guard John McDaniel hit four of four from the stripe. Shepherd then completed a three point play bringing the lead up to six. Rusty Zimpleman and Andrew Ward came off the bench to score another five points in the last 30 seconds. Time expired leaving Rochester down by seven, 44-37.

## You've Been Doing It All Wrong! Let Our IRA Make It Right.

Remember what a shocking experience last year's tax return was? By the time you finished paying Uncle Sam, you probably had very little left for yourself. Well, you've been doing it all wrong! So let an IRA from Lake City Bank make it right...right now.

At Lake City Bank, we can show you that by opening an IRA, your savings will grow rapidly, earning a high interest rate. That means security for you in the future. And as for right now, you will never pay a cent in taxes on your IRA until you begin withdrawal. Quite a difference from an ordinary taxable savings account.

Deposit up to \$2000 between now and April 15 (or the date you file your taxes) for complete tax benefits. Couples with one non-working spouse can contribute \$2250. Working couples, \$4000. It's the right way to save!

So if you've been doing it all wrong, let an IRA at Lake City Bank make it right for you. Stop in any of our nine offices today for all the details.

### God's Day

This is my day, or so I thought, until a quiet voice admonished me, this day is God's!!

He loaned it to me at the dawn, and fresh and wet with dew, and I must add to it my bit before the shining hours are through.

A kindly word, a loving thought, some straggler helped along the way; a quiet deed of kindness wrought, some child taught how to pray.

And then at quiet eventide, I'll bring it back and pray; that God will lend once again, another shining day.

Senior citizens, come join us for a well balanced meal and fellowship. All senior citizens 60 years of age or older are welcome. For your meal res-

## Etna Green town board

Amendments in this year's contract with Millwood Sanitation Co. were unanimously agreed upon during Etna Green's Town Board meeting Thursday, night, Jan. 14.

However, this contract was not signed by Millwood Sanitation. Instead, company representative Bob Mast told the board the amount was insufficient.

Mast explained to the board that he had suffered unforeseen price hikes.

Board member Janet Ewing stated that the town could sympathize with the position that the sanitation company was in, but did not feel that the town should be put into a "financial crunch at this time".

After an extended discussion on the matter the board agreed to amend the contract for the last six months of the year, explaining to Mast that it wants to see all possible cost increases for 1987 listed in July.

Fire Chief Bill Price announced to the board that he had started proceedings to bring back the original Etna Green fire bell. The bell is now in the Pound Museum in Oswego.

Price has sent a letter to those in charge of the museum requesting the bell, saying, "We the citizens of

Etna Green are interested in our heritage and would like to see the bell come back to the fire station."

Also present at the meeting was Lynne Northern, Co. representative John Wyatt, expressing his concern over continued business with the town.

Town Superintendent Loren Melton assured everyone present that all bids would be considered for any water utility work needing to be done.

The town once again discussed its desire to withdraw from the Public Service Commission of Indiana, as soon as all details could be worked out. The board indicated it does not believe it should pay more than \$1,000 each year to file reports. By law, the town may set up its own utility regulation board and this is what the board tentatively plans to do.

The board also decided to make a change in the present salt and sand distribution for the streets. The board gave permission to Melton to acquire a sand and salt spreader for the dump truck.

Reinstatement of board officers as they were for 1985 was unanimously agreed upon, leaving Barry Cullison as president, again. Also, Pat Walters was appointed Civil Defense director.

## Indiana Historical Society chooses logo and seal

In today's rapidly-changing world, organizations tend to abandon their histories for slick and futuristic images. However, when the staff of the Indiana Historical Society decided to adopt a new logo and revise their seal they took a dramatically different approach. They shunned the current trend toward using images representative of the future, and drew inspiration for their "new" logo and seal from their own rich history.

The origins of the Society's new logo begin 155 years ago at the Society's first meeting. At that founding meeting in December, 1830, Henry P. Thornton served as secretary. As the meeting began, Thornton wrote "Indiana Historical Society" across the top of a clean page. It is an exact replica of this script that has been adopted as the logo for the Society.

The history of the Society was also the inspiration for the organization's new seal. At a Society meeting in 1887 a resolution was passed that the seal of the Society should be an impression of an open book within a circle. Although the seal was adopted, a drawing of it has never been found and was probably never used until this time.

Peter T. Harstad, executive director of the Indiana Historical Society feels that the seal of the book accurately symbolizes the Society's three central programs—library, publications and outreach.

The Indiana Historical Society is a private, non-profit organization founded in 1830 for the purpose of collecting, preserving and promoting Indiana's history. For more information about the Society call (317) 232-1882.

## Area dairy awards

Awards to owners of 210 Superior Indiana dairy herds were announced by the Indiana State Dairy Association.

The ISDA determined these awards in cooperation with the dairy extension division of Purdue University's Department of Animal Sciences.

The 1985 awards, according to Robert E. Jones, Service Coordinator of the ISDA, bring the total number awarded since 1917—the first year they were made—to 12,196.

Merit awards for herds of 15 or more animals include 45

gold and 165 silver. The awards cover production of herds from October 1984 through September 1985.

The award certificates will be presented March 5, 1986, at the 96th Indiana State Dairy Association annual meeting, to be held in Indianapolis.

Recipients, listed by DHI Association, include:

Lor-Ber Dairy Farms #2, Claypool; Myron & Grace Metzger String 1, Claypool, and Myron & Grace Metzger String 2, Claypool.

## Local men go to Germany

Spec. 4 Larry D. Wright and Sergeant Daniel W. Jones, of Akron, have been selected to participate, with more than 240 Indiana Army National Guard soldiers in the active Army's REFORGER training exercise held in Germany in January and February.

They are members of Headquarters Company, 2nd Battalion, 293rd Infantry located in Logansport.

The Indiana Army National Guard soldiers, who depart January 13, will be supporting the active Army by filling vacancies in the active Army units. This three week exercise will also allow the reserve component soldiers to enhance their skills by working with their active Army counterparts.

According to Maj. Gen. Kenneth W. Himsel, com-

manding general for the 38th Infantry Division, "One reason that the Indiana Army National Guard received so many slots for volunteers, is because our soldiers are highly skilled and motivated, and for that reason the regular Army enjoys working with us. Also, we have received favorable feedback in the past from our active counterparts on how well our people have performed."

## Waves on the Ohio

Cruising the Ohio River in the Cincinnati area will take on an all-new meaning in the spring of 1986, according to John Hrehbenyar of Jubilee Riverboats. The introduction of two new boats at Steamboat Landing located about five minutes by car from downtown Cincinnati in Ludlow, Kentucky will occur in April.

The Jubilee Queen, a one hundred-twenty foot long six hundred passenger luxury liner, now under construction at Tucker Marine of Cincinnati, is expected to be launched in the early spring. The second boat is one which has been seen for many years in the Cincinnati area as a working sternwheel towboat. The Captain, an eighty foot vintage sternwheeler of the nineteenth century era, is now being rebuilt and repowered at Steamboat Landing in Ludlow. "True stern-wheelers", Hrehbenyar said, "are a valued relic of an era which is gone but, well remembered by all who love

the river."

The Jubilee Queen and The Captain will, join the fleet now consisting of the Winfred, another rare and historic sternwheeler and the Jubilee, a two hundred twenty five passenger charter boat beginning its second season at Steamboat Landing. The two boats were inspired out of a need to accommodate larger groups which had to be turned away during the nineteen eighty five season, according to Hrehbenyar.

Hrehbenyar, a native of the Cincinnati area and President of the Champion Printing Company of Central Parkway, voiced a lifetime awareness of the vital link between the river and Cincinnati's past. He said it is his desire to make it possible for all who love the river to keep in touch with our history by enjoying a nostalgic cruise powered by true, honest-to-goodness historic stern-wheelers. anna. They are the parents of three married children all living in Fulton County: Mrs. Don (Ann) Bauman, a computer operator in the book-keeping dept. at Woodlawn Hospital; Ron Clawson, a farmer in Newcastle Township, and Mrs. Dennis (Linda) Burton, a registered nurse at Woodlawn Hospital.

## Akron Library

New books at the Akron Public Library are:

**Mary Lou**, by Mary Lou Retten and written with Bela Karolyi, her dynamic Romanian coach who also discovered Nadia Comaneci. This is their story, as only they can tell it. Mary Lou is the bouncy, enormously energetic girl-next-door, from West Virginia. In this book, she talks about her childhood and her career in gymnastics.

**Protecting The President** by Dennis V. McCarthy. The inside story of a Secret Service agent, Dennis shatters the image of 'stone-faced zombies' around the President. Instead he shows us dedication and frailty, humor and disappointment, excitement and tedium, ambition and infighting—all swirling about that one moment in protecting the President.

**The Belchamber Scandal** by Francis Murray. When family disaster overwhelmed Amelia Belchamber and obliged her to make a new life for herself as a governess in the north of England, she was only doing what countless gentlewomen in her desperate position had done before. But Amelia had not counted on a family quite as trying as the Hoggetts. Full of unforgettable characters, lavish period color, stylish wit and a keen sense of high drama, this is a historical

novel from one of today's masters.

**From Sea To Shining Sea** by James A. Thom. This author researches his American historical novels meticulously, traveling, tracking down primary sources, and even walking in the footsteps of his characters. He traveled the entire route of the Lewis and Clark Expedition while writing this novel.

**A Rich Wife** by Barbara Welden. A book of unimagined luxuries and of simple truths that moves from the sumptuous ballrooms of Newport through a world war to the crash of '29. It will surprise and delight anyone who knows that the only real love lies in the richness of the heart.

**Three From Galilee** by Marjorie Holmes. Using her remarkable talent for vividly recreating characters and background, Marjorie Holmes brings Jesus and his parents, brothers and sisters, and friends to life, as if they were live breathing human beings.

**Flaming Tree** by Phyllis A. Whitney. An obscure figure knelt in the shadows, watching the pair running too near the edge of the cliff. For one desperate moment they struggled. And then all was silent, save for the rhythmic pounding of the waves. A haunting, vivid story of mystery and deception, intrigue and romance.

## Letters to the Editor...

### Burton community history needed

Dear Editor:

We are working on a history of the Burton school and church and community, to be published in the next Fulton County Historical Society Quarterly.

We need photos to illustrate it. If you have photos of anything pertaining to the Burton or Germany Station (also called Pershing and Loyal) community, please bring them to the Civic Center Museum, 7th and Pontiac, Rochester. The museum is open Monday through Friday from 9 a.m. to 5 p.m. Or call us at 223-4436. After 5 call me at

home 223-2353.

Does anyone know exactly when the Burton consolidated school opened? Spring or fall of 1912? or was it 1913? The first teachers we have been able to list are for 1913-14: Edna Taylor, grades 1 and 2; Gail Zartman, grades 3 and 4; Estil Ginn, grades 5 and 6, and Hubert Mogle, grades 7 and 8. Was that the first year for Burton or was the school open before that?

We are also compiling histories (memories) of the one-room schools that existed before the consolidated

school. There were seven one-room schools that existed before the consolidated school. There were seven one-room schools in that area in the 1907 Fulton County Atlas: Ernsperger or Tippecanoe, Wildermuth, Burton, North Mud Creek, South Mud Creek, Prairie Union, and Oak Grove.

If anyone has any photos or memories of these schools, please contact FCHS. Photos will be returned to you after being copied.

Thank you,  
Shirley Willard,  
FCHS Editor.

When?

"When did you become acquainted with your husband?" a wife was asked.  
"After I married him," she sighed.

But When

"Deliberation--"Is a diplomat supposed to tell the truth?"

"Oh, yes. But he is often permitted to take his time discovering it."

No One Knows

"Are you listening to the news, dear?"

"No, I heard the news, I'm listening to the meaning of the news."

"What does he say?"

"He says he doesn't know what it means."

## January 31 deadline set for Project SAFE

The final day householders may make application for assistance under the State Allowance for Energy (Project SAFE) program will be Friday, January 31, 1986, according to Jean Merritt, executive director of the Indiana Department on Aging and Community Services, the state agency which administers the program.

Both regular Project SAFE and Emergency Project SAFE will be unavailable

after this date. Demand for Project SAFE assistance has been so great that more than 130,000 households have been assisted.

Because of this overwhelming response and a reduced federal appropriation this year, funds will soon be exhausted.

Additional information for those who have not yet applied or for those who have questions about the program is available. The toll free number is 1-800-622-4973.

## Devotion is Our Guiding Light

It brings us together. It brightens our lives and illuminates our souls with spiritual contentment. Show your faith in your place of worship.

## Share Your Faith With Others

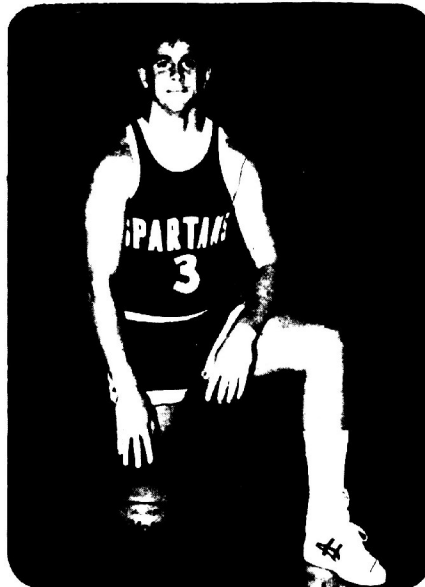

Those who know the joys and importance of prayer also know that there is much to befall by enlightening others. Let your happiness and devotion set an example for all. Worship with friends.

# TVSC approves graduation on May 24 for seniors

Even though it is more than four months away, the Tippecanoe Valley School Board discussed high school graduation for the class of 1986 at the regular board meeting Monday night, Jan. 13.

Superintendent Baxter Paige read a letter from the senior class recommending that the graduation date be set for Saturday, May 24, at 7:30 p.m. Board member Jim Royer said, "It's their graduation," and John Mellott added, "If that's when they want it, I think that's when they should get it." The board then unanimously voted in favor of the proposed date.

Board members also discussed the building project bond issuance and voted in favor of recommending to the holding corporation to apply for a \$3,875,000 bond through the Indiana Bond Bank. Financial advisor Dr. Don Patton made a written recommendation to the board that they apply for the bond through the Indiana Bond Bank rather than from regular bonding institutions.

Paige, who reported for Patton, said there were some advantages to going through the bond bank including the

possibility of getting a lower rate, being able to secure the bond in a shorter period of time and eliminating some of the costs associated with bonding done through a conventional institution.

Paige explained to the members that the Indiana Bond Bank is a new program set up by the state to help organizations get bonds at a reduced cost. He said he believed the program was less than one year old and therefore there were not many other schools who had an opportunity to use the bank.

In other matters:

† The board approved a two day high school ski club trip to Kalamazoo, Mich. The request was made by ski club advisors Wayne Cumberland and John Parker.

† Fred McSherry and Jim Royer were appointed to the board of finance for a one-year term.

† Board members approved maternity leaves for Loretta Deardorff, music teacher at Mentone and assistant for the high school choir, and for Betty Martens, elementary teacher at Akron.

The board approved a request by Burket principal Oliver England to attend the

national Association of Elementary School Principals convention in Las Vegas, Nev., from April 13-18.

† The board approved a request for Wayne Cumberland, high school teacher, to attend the U.S. Marine Corp seminar in San Diego, Calif. from March 17-21 where he will tour the officer's training grounds and observe the applications of science and technology in the services.

The board also heard principal reports:

† Akron honor society students raised more than \$1,400 for a classmate, John Whitaker, who has leukemia.

† Third grade students in the corporation will be attending the annual Shrine Circus on Jan. 31.

† Grade school students will be undergoing achievement and basic aptitude tests in the coming weeks.

† At Mentone, there was a gifted and talented workshop for teachers on Jan. 17.

High School principal John Hill reported the spring musical will be "West Side Story" with auditions and practices starting soon.

† Feb. 11 will be the date of the high school winter band concert.

## TVHS Girls Basketball

Tippecanoe Valley stands with Northfield as the Three Rivers Conference's unbeaten girls basketball teams, after the Vikings downed Oak Hill, 51-45, Monday night, Jan. 13.

The win was the ninth in a row for Valley, and the fourth in as many outings in the TRC.

Valley got balanced scoring again from sophomores Leslie Miller and Jody Yochum, with 12 points each, but the winners needed the career-high 13 markers from Tracy Martin to come up with the victory.

Valley had a hot night shooting, making 21 of 36 field goal attempts for 58 percent. They also out-rebounded Oak Hill, 23-20, but the hosts kept close to the Vikings by using a tight press.

## Perry Home Improvement

The Perry Home Improvement H.E.C. met at the Akron Cafe, for a breakfast together. Neva Robinson asked God's blessing for the meal. Hostess Ruth Bammerlin had made all the arrangements for the meal. She also treated all of her guests with coffee and candy canes. The group moved to Ruth's home and Alice Teel as vice-president conducted the club business.

Marie Nestleroad's anniversary was recognized as Ruth led group singing. Ruth led the devotions by reading an article "Love is the Greatest Power This World Has Ever Known" and led the prayer. Roll response was "My Pet Peeve". For the Health and Safety lesson Sherri Moore explained the new free community service "Lifeline" offered to anyone who needs help. A button worn as a necklace at all times is squeezed by the wearer. This connects to lifeline help which in this area comes from Rochester. Through telephone wires this automatically signals the office of the need for help. From there a call is made to a person of your choosing who will come to your rescue. Then that person sends a signal that help has arrived. This works even if line is busy or electricity is off.

Cards signed by each one present are to be mailed to Marie Coon and to Helen Miller.

Officers elected are: President, Marie Nestleroad; Vice-President, Alice Teel; Secretary, Arlene Gearhart, and Treasurer, Pauline Miller.

Birthday items today were for December and January

dates. Alice Teel received the Lucky Lady gift. February hostess will be Neva Robinson. There will be a Valentine food gift exchange. Others present today were: Emma Burns, Nelle Lougheed, Marie Long, Aurel Musselman and guest Helen Lowe.

## Akron Town Board makes changes in Marshal and Deputy Marshal positions

The Akron Town Board announced changes in personnel for the town marshal and deputy marshal. The town's past deputy marshal, Rodney Fisher, was appointed marshal. Kraig Smith became deputy on January 15, 1986.

The salary ordinance was signed for 1986. The following salaries were approved by the board: general superintendent \$9,000, licensed operator \$8,750, town marshal \$13,250, deputy marshal \$12,750, extra deputies \$5 per hour, town attorney \$500 per year, billing clerk \$4.40 per hour, town board members \$650 per year, town board president \$1,000 per year, clerk treasurer, \$5,200 per year, and extra help minimum wage per hour, \$3.50 per hour.

The board approved to pay one-half of the expense for town employees; Marty Gearhart, Superintendent, and Val Duggans, licensed operator, for this year. Uniform estimates were a total

of \$660 for both men from Cover-all Rental Service.

Board president Jack Miller reported an estimate of \$3,000 to remodel the town's yellow barn next to the trailer court. Labor will be furnished by town employees and extra equipment owned by the town. It is hoped that by doing this some of the extra buildings used by the town will be emptied and one location will be used for all the towns equipment and repairs. In addition to this he also reported that plans were still in the beginning stage for building a new Town Hall that will house the fire department and town offices.

A new hydrant program was approved by the board that will allow the purchase of a repair kit that will allow repair parts for hydrants to be available at all times. A new hydrant wrench was made by employees for \$50 that retail at \$290. The town was borrowing wrenches from other towns when they were in need of one.

It was reported that town employees are working on Saturdays alternately checking for problems that might occur. In other business the board:

Announced that the Ford tractor and equipment has been delivered.

Decided to leave the snowmobile route the same in town. It is Walnut Street for both east and west bound traffic.

Signed the franchise with Valley Cablevision for cable TV.

Was notified that the excess levy fund will be used to reduce the tax rate to 1.772. Last year it was 1.83.

## Women's Fellowship at Brethren Church

Twelve members of the Women's Fellowship of the Church of the Brethren met at the church for the January meeting.

Lana Bowser, president, and Chris Tinkey, vice president, distributed the program books for the new year. The theme for this year is "Jesus is Lord of All." The devotional study book the group will be using is "God Still Loves My Kitchen". District projects are "Aid to Infants", "Micah Mission Relief to Africa", and the "General Micah Mission Fund", which supports missions here in the United States.

"Jesus is Lord of All" was sung in unison. Lavon Mark led devotions, the theme "Delinquent Decorations". Luke 23:42 and Psalms 139 were scriptures she read, then she led the group in prayer.

Several get well cards were signed. Bandages were cut and sewn, and stamps were trimmed.

Edna Mae Shewman, hostess served delicious refreshments at the close of the meeting.

## Share Your Faith With Others

Those who know the joys and importance of prayer also know that there is much to be gained by enlightening others. Let your happiness and devotion set an example for all. Worship with friends.

## Mentone Science Fair starts

Natural Gas Fuel Oil Propane

## Natural Gas Keeps You Warm for Less

As the weather gets colder, you naturally use more energy to keep your home warm. To help you know that natural gas is one of the most cost-effective fuels you can use.

**Compare:** a \$100 NIPSCO residential natural gas heating bill would be about a \$200 fuel oil or propane heating bill.

In fact, NIPSCO's natural gas rates are lower this winter than they were last winter! And our rates continue to rank

among the lowest in the nation.

Still, a good example of how you can save money by using natural gas is by calling NIPSCO for help. NIPSCO can help you solve any problems you may have.

Call NIPSCO at 1-800-444-4444 for assistance before the bill is due.

Clean, reliable, efficient, natural gas costs less when you need it most.

### Morning Meditations

As dawn creep' o'er the face of earth, in shades of pink and red; how much the pleasures of this life, are missed by those in bed!

Our feathered friends from every tree, sing in the glorious day; if you'll from under covers crawl, much joy can come your way.

Get up! Get up! and take a part, and watch the rising sun; Enjoy the great show nature gives and all the day does run.

Reflect this joy as round you go, about your daily task; much happiness you'll bring to all, lost more than they can ask!

Geraldine Hill attended the Area V Council on Aging meeting at Peru Thursday, Jan. 16. Geraldine represented the Akron Nutrition Site. She gives many volunteer hours to this program. Our thanks goes to Evelyn Harsh, Ruth Bammerlin, Margaret Eber, for the baked goods. To Paul and Flo

## County council denies TVHS transfer tuition

Upon advice of its attorney, the Fulton County Council decided Tuesday not to pay student transfer tuition for two students attending Tippecanoe Valley Schools.

In a letter, Jesse Brown stated that Tippecanoe Valley Schools are not entitled to the transfer tuition.

The children are wards of the Fulton County Welfare Department. Brown wrote that although the parents do

not live in the Valley School District, the private home to which the children were assigned is in the district. The foster parents pay the Valley school tax and the children were counted as Valley students for state revenue distribution to the school, Brown said.

Therefore, Valley does not qualify for the tuition payments required of students who do not live in the district, Brown said.

Councilman Steve Hartzler said the amounts involved are \$550 for the fall semester and \$1,100 for the spring semester.

The Council decided to notify Tippecanoe Valley Schools of its decision through a letter which would include the information provided by Brown.

In another matter, Hartzler was elected 1986 council president by a 4-3 paper ballot vote that did not reveal the council members' votes.

Ruby Bowers was unanimously elected vice president for 1986.

Hartzler replaces Marvin Overmyer, who served four years as president. Bowers replaces Hartzler.

In other business: Addition appropriation requests by Civil Defense from the County General Fund received approval. Approved were \$2,194 for the lease of a car and \$534 for insurance.

The following Revenue Sharing requests received approval:

Extension Office - \$16,300 for a computer; Historical Society - \$1,500 for office expenses; Indiana Historic Landmarks Foundation

\$1,500 for a survey; Sheriff - \$23,000 for two new police cars and \$2,000 for new equipment for the cars; Council on Aging - \$3,000 for office expenses; treasurer - \$700 for equipment.

All votes were unanimous except for the Historic Landmark's request. Hartzler voted against it.

Bob McLochlin was reappointed to a one-year term on the Fulton County Alcoholic Beverage Board.

The Council will meet next. The Council met for an informational session concerning a County Option Income Tax.

The Council's next business meeting will be Feb. 25 at 7:30 p.m.

## Letter to the Editor

Dear Editor,

On behalf of the Mental Health Association in Fulton County, I would like to thank our local citizens for their excellent support of the Mental Health Christmas Gift Drive.

This is the highlight of the year for many of our patients at Logansport State Hospital, as many of them are not remembered during the year. We also took gifts to patients at the local nursing homes who have no family contact. We personalized the gifts to their wants and/or needs. What a thrill it was to deliver these gifts in person to each individual.

The monetary contributions were used to purchase the items needed or wanted for local nursing home people to buy items to supplement

larger items for use on wards for state hospital residents. The nursing home staff was most co-operative in providing a list of needs or wishes that their patients desired.

Our project began in October when the RSVP group so efficiently addressed and assembled letters for us. A special thanks to them plus the businesses and churches throughout the county and Rochester where deposit boxes were located, to the ministers for their interest, and the fine publicity which was given by Radio WROL, Shopping Guide News, Akron and Kewanna newspapers and the Rochester Sentinel.

I am especially grateful to the Extension clubs of Fulton County as they sponsored a

Christmas party that included plenty of food, bingo, carols and even Santa made a visit to patients and staff.

Christmas is a time to "Share and Care" and should it be a group or individual who gave a gift, donation or time-you indeed, made someone else's day a brighter one. A big thank you to Hook's Drug Stores for their involvement as State sponsor of the drive.

Being Christmas chairwoman and sharing with the mental patients and nursing home patients makes my own Christmas more meaningful and complete.

Mrs. Nelson Hunter, Jr.

## Girls Varsity Basketball

Rochester bounced back to the .500 mark in girls basketball action here Monday night, and Tippecanoe Valley was the victim of the Zebra effort. Rochester had a 48-39 win over the Vikings.

The win gives the Zebras a 7-7 record, while Valley falls to 9-4.

"We need more intensity, and we need to hit the easy shots," said Valley coach Ivan Schuler. "There were a lot of good shots we missed."

What shots Valley missed early, Rochester capitalized on for a 16-8 lead after one period. Rochester eventually opened up a 14-point lead in the second half before the Vikings, led by forward Leslie Miller, staged a brief rally in the final period.

Miller broke through the defense to lead the Valley with 25 points. Judy Eisenman helped for Rochester with a 15-point effort.

The Vikings were knocked from the unbeaten ranks in the 15-0 Rivers Conference with a 42-42 loss to the Squires. Two outcomes left Northfield at even in the conference standings at 5-5, while Tippecanoe Valley is 5-1 in HRC play.

Valley still can secure at least a tie for the conference title, but to do so must beat Northfield Tuesday night at Northfield.

As for the game Wednesday night, Manchester broke away from a 16-15 halftime lead by outscoring the Vikings 36-27 in the final 16 minutes. "We had good shots again, but just didn't hang them in," said Valley coach Ivan Schuler. "Then we got behind in the fourth quarter and had to go to a 2-2 defense, and they were for free throws."

## Comment On Sports

### BASEBALL \*\*\*

WASHINGTON, D.C. -- The recent signings of Kirk Gibson and Carlton Fisk by the Detroit Tigers and Chicago White Sox are strong indications sanity is returning to Major League baseball.

Both were free agents, who in earlier years would probably have received fabulous offers from clubs spending more than they should. But Detroit's offer of a 3-year pact worth about \$3.9 million to Gibson was not bettered by any other club.

Because Gibson is a young superstar, this is significant. In the case of Fisk, who is 38, one can surmise that his age might have discouraged offers. But Gibson has years to play. He and his agent sought a 5-year pact, at over a million a year.

In the past, however, clubs which went in for

such unrealistic salaries have often been burned. Maybe they have learned their lesson. While pro football average salaries are between \$150,000 and \$200,000, the average among Major Leaguers today is nearing \$400,000. That's just an absurd figure-in view of the sloppy play seen on Major League diamonds these days.

Possibly discouraging offers to Gibson is a history of injuries. Clubs tied to huge contracts think about this. Gibson has missed much of several seasons with the Tigers.

There's no doubt he hustled hard in 1985, knowing he was going the free-agent route. Detroit will be paying him over a million a year starting this year; management hopes he hustles just as hard.

## In loving memory of Tony Feldman

who the Lord called home to Heaven one year ago Jan. 30, 1985

Sad have been the days, nothing is the same

If love could have saved you, you would be with us today

We miss you now, our hearts are full of sorrow

You are not forgotten loved one, or will you ever be

As long as life and memory last, we will remember you

We love you!
