TVSC board re-instates 2 schools

NEW BOARD MEMBERS SWORN IN: Ralph Davis, far right, president of the Tippecanoe Valley School board, is shown swearing in new board members, Maurice Coplen, Newcastle Township, and Philip Lash, Franklin Township. Dr. John McKee, a third board member elected in the May primary election, will not be seated until next year at which time he will replace Davis on the board.

Motions to rescind motions occupied much of the new school board's time at last night's re-organization meeting of the Tippecanoe Valley School Board.

New board members who were sworn in were Maurice Coplen of Newcastle township and Philip Lash of Franklin township. A third board member, Dr. John McKee, will succeed Ralph Davis next year.

Ralph Davis was re-elected president of the board, and Maurice Coplen was elected vice president. Dr. Donald VanGilder was re-elected secretary. The board renamed Judith Hively as treasurer and set her bond at \$100,000.

Dr. VanGilder moved that a motion made by Dr. O. L. Mc Fadden at the March 16 meeting be rescinded. This motion asked that Akron and Mentone high schools be combined into one for the 1970-71 school year. Van Gilder also moved that the superintendent, Robert Forbes, be instructed to proceed with plans to maintain a 4-year high school at Akron and at Mentone. The motion carried 4-1 with Richard Goshert Seward township, opposing it. He read the following prepared statement in defense of his vote:

"I am entering for the official record an objection to the motion to revise the decision of one high school of the previous school board. I wish my objections to be entered in the exact words stated:

1. I am reminding the school board that only one township of the five

townships voted for two high schools.

2. I wish to remind the school board that it requires several more personnel to operate the same curriculum in two high schools than it would one high school. The cost of this additional personnel, if this motion is passed, will be approximately \$60,000 per year (an additional 25¢ on the tax rate.)

3. I wish to advise the board that they run the risk of the loss of state aid in the amount of between \$300,000 to

\$400,000 a year (an additional \$1.50 or more on the tax rate.)

4. We can have one high school without additional buildings, at the same time relieving over-crowding and save the additional teachers salaries necessary for two high schools.

5. My conclusions are a. We do not need any new buildings to have one high school. b. We can relieve over-crowding by operating one high school in TVSC. c. We can save \$60,000 in operating expenses by having one high school. d. A vote to return to two high schools is a vote to go backward in education; at the same time costing the taxpayer money."

Dr. VanGilder answered Goshert by saying that he expected Goshert to cooperate with the rest of the school board and said there was no need to discuss the pros and cons. He said the people had expressed themselves "loud and clear" about what they wanted.

Dr. Van Gilder also made a motion to rescind a motion made at the last meeting at which time Greg Shireman, son of Mr. and Mrs. Paul Shireman, was given permission to attend Rochester High School in order that he might take

Draft Board At Warsaw Resigns

The entire Kosciusko Co. draft board has resigned because of what they term "unworkable and unenforceable" rulings by the Supreme Court in regard to the definition of conscientious objectors.

The court's ruling says a draft-age youth may qualify as a conscientious objector if he "deeply and sincerely holds beliefs which are purely ethical or moral...which impose upon him a duty of conscience to refrain from participating in any war at any time..." Before the ruling, conscientious objection generally had been based on formal religious training.

Members of the draft board are Charles O. Wainwright, chairman; C. Fred Beeson, Wendell L. Gusler, L. Russell Bolinger and Herbert Creamer. The local appeal agent Edward B. Funk also signed the letter of resignation.

The board's feeling is that the ruling permits anyone to avoid the draft. Said Bolinger, "It's like they can thumb their nose at you and say they aren't going to go. You can't get the bite on anybody now. I don't know how we're going to get anybody drafted."

Plaque Dedication Is Set Sunday

On Sunday, July 5, a dedication ceremony will be held at the Akron park for a plaque that is being donated by the Kappa Delta Phi sorority. The plaque commemorates the donation of the ground to the town of Akron by the D. A. Pike family.

The ceremony will be held at 3 p.m. in the park with Rev. Claude Fawns in charge. The public is invited to attend.

Akron plans gala 4th

For 134 years, the 4th of July has marked another birthday for Akron. This year's birthday will be celebrated in the traditional manner with a parade, entertainment and fireworks.

The giant parade will begin at 11 a.m. Saturday morning, making its way from Pike Lumber Co. through the business district to the intersection and then north to the school grounds.

Highlighting Saturday's parade will be Debbie Jackson, "Miss Dominion of Canada."

Prizes will be awarded for the best floats.

A ball game between Akron area boys and members of the Lafayette Jeff baseball team will be held immediately after the parade.

A teen hop will be held in the school gym from 3 to 6 p.m. with music being provided by December's Children, a rock group.

A local talent program headed by Vicki Baber and Rodney Helser will be presented in the school gym from 8 to 10 p.m. Titled "Cabaret on Broadway," it will feature local people in a variety of roles made famous on Broadway.

Food stands will be located on the grounds for the convenience of people who plan to stay for the day.

The traditional fireworks display in the evening will climax the day. It is planned that this display be held immediately after dark.

Dr. Charles Miller is chairman of this year's event. The Akron Chamber of Commerce sponsors the yearly affair.

Parade Entries Can Still Be Made

Entries for Saturday's 4th of July parade can still be accepted and should be made to either Dr. Charles Miller or Tom Hauptert.

Girl Scouts Will March

All four of Akron's Girl Scout and Brownie troops will meet in uniform at the Lions Den at 10 a.m. Saturday, July 4, to march in the parade.

Variety Show Has New Directors

Some changes have been made in the variety show planned for the 4th of July celebration in Akron.

Originally under the direction of Rodney Helser and Vicki Baber, it is now under the direction of Lee Jennings of Rochester, Nancy Luckenbill, Jane Smith and Sandra Parker, all of Akron.

Mrs. Phil Parker will accompany the musicians.

People from Rochester, Akron and Roann will participate in the show that is set to begin at 8 p.m. Saturday evening.

Members of the cast and the directors of the show promise an entertaining two hour program. Admission is free.

Ray Reker, conservation officer of Fulton County for the past 18 years, ended his service Wednesday with retirement.

Kay Lewis Enlists In Women's Army

Miss Kay L. Lewis, 18, who has resided with her aunt and uncle, Mr. and Mrs. Earl B. Lewis, R. 2, Warsaw, has been accepted in the Women's Army Corps and has departed by jet aircraft to Fort McClellan, Ala. for her basic training. A 1970 graduate of Mentone High School, she requested a career in the administration field and will receive this training upon completing her basic training. She was active in the Menton Spanish club, Projection Club and taught Sunday School at a local church.

Blood Bank Set July 10

The Fulton County Blood Bank collection day will be Friday, July 10 from 11 a.m. to 5 p.m. at the American Legion Home in Rochester.

The following quotas have been set: Henry township, 21 pints with Mrs. Doin Smoker as chairman; Newcastle, 6 pints, Mrs. Delbert Nutt, chairman; and Liberty township, 15 pints, Mrs. Al Gundrum, chairman.

Due to the usual severe summer shortage, this will be a crucial day for the blood bank.

When a wild anarchist buys a town lot he subsides into moderate socialist. When he builds a house on the lot he fades into a conservative citizen. When he builds a house on it and transforms the house into a home, he's apt to join the republican or democratic party and begins to question the wisdom of strikes. Many local persons feel that the school reorganization law is causing our community to move too rapidly in making a decision on consolidation. They point out that consolidation was moving along rapidly in many places (they cite Gilead, Macy, Grass Creek and Fulton as examples) and that the entire school setup would have been better if a slower and more natural course had been followed. The law was placed on the books at the last session of the General Assembly with great lobby pressure being presented by Robert Wyatt and the State Teachers Association. Small schools are to be forced out of existence by the law and only units of 1,000 pupils or more will be established. It is a belief of the educationists that the larger schools will be less expensive to operate and that the pupils will get a better education in them. Many local communities who have been proud of their schools and who have used them as meeting places for all cultural interests will not long be able to continue this. The grade schools will be left for awhile, but the high schools are to be moved soon.

WITHOUT RESERVE by Sheila Burnford. This book is about making friends with trappers, fishermen and priests; with nomadic wild rice harvesters; with children and dogs—and even a possible shaman or two, for the remote Reserves of the Cree and Ojibwa Indians of Ontario Province are scarcely touched by modernity. For years Mrs. Burnford, often accompanied by the artist Susan Ross, has visited this region and these people. She closes the book with a wise and moving plea for understanding of these vulnerable people, whose ancient values have meaning for us all.

SOCIAL SECURITY Question Box.....

Q: I filed a claim in January 1970 and state I would stop work as of May 31, 1970. I have never received any payments. Why?

A: If you file your claim more than 3 months prior to the month you actually want benefits to start you must complete a Reporting Card given to you at time of filing. Show the last month of work for over \$140 and total estimate for the complete year. Benefits should then start.

Q: I received a billing notice from Medicare and it is \$5.30 per month. Do I now

have more coverage? If not, why is my premium more?

A: There is no change in Medicare coverage. However due to increased medical costs, the Medicare premium had to be increased. It increased for all beneficiaries as of July 1, 1970.

Q: My teenage son is going to enroll in a Drivers Training Course in summer school. He says he has to have a social security card in order to obtain a beginners permit. Is this true?

A: The State of Indiana does require the

individual to give his social security number before either a beginners permit or a drivers license is issued. Issuing a social security card may take up to three weeks if the individual previously had a card and has no record of the number.

Law Officer Of The Year Is Honored

**DEPUTY CHIEF
RAYMOND STRATTON**

Indianapolis Deputy Chief of Police Raymond J. Stratton was named this week as the Indiana American Legion's "Law Officer of the Year." The award, named the "Lewis-Schmidt Law Officer Award", was authorized by the 1968 Department Convention of the American Legion and commemorates the memory of two outstanding law officers, the late Milo Lewis, Pulaski Co. Sheriff, and Carl Schmidt, retired Chief of Detectives of the Indianapolis Police Department. Both were slain, Lewis while on duty and Schmidt following his retirement. The Legion honor is given to "the law officer who through devotion to duty best exemplifies the traits which the public has come to expect of its law enforcement officers."

Much ability is lost to the world, for lack of a bit of courage.

For women only!

...Who says so?

Mother, does that stalwart breadwinner—your husband—believe that so long as he can occasionally break out a tray of ice cubes, that everything is okay in the kitchen?

Why not ask your appliance dealer for the names of two or three families who have recently purchased a refrigerator, a freezer, or combination unit. Take your husband to talk

to the *men* in those families. Believe us—he will find that men get just as much pride and enjoyment out of a new refrigerator as do their wives. Sometimes even more.

Then, as the two of you drive to the appliance dealer's, you might gently insist on getting an automatic ice maker. We guarantee your husband will love it!

Pass The Salt And Pepper

Food additives have come into the spotlight since cycamates and monosodium glutamate have received so much publicity. Additives have been used for centuries but it was not until recently that the public has become aware of them. Additives are defined as "a substance or mixture of substances, other than the basic foodstuff which is present in a food as a result of any aspect of production, processing, storage or packaging. There are two basic types of additives. First is the intentional which is added on purpose to perform specific functions. Salt is an example of an intentional additive. Secondly, is the incidental additive which has no function in the finished product. An example of this would be chemicals sprayed on crops.

Every homemaker uses food additives such as salt, pepper and other spices. Manufacturers of food products use additives for more functional purposes than just flavor enhancers. Many additives are used to increase the nutritional value of certain foods. Iodine is added to table salt which increases its nutritional worth and prevents goiter. Other examples are: Enriched bread, fortified milk and margarine.

Additives are also added to maintain the appearance, palatability and wholesomeness of foods. Antioxidants are used to retard spoilage in such foods as shortening, frozen fruits and bread. If it weren't for the use of antioxidants in cake mixes the shortening would become rancid.

Other additives include coloring agents (maraschino cherries), bleaching agents (for white flour), anticaking agents (for free flowing salt), and many more.

The use of additives is controlled by the Food and Drug Administration. We, the consumer are protected by constant checking and rechecking of additives by the F.D.A. And if they find that an additive could be harmful, it is taken off the market. Additives are making a tremendous contribution in providing us with a food supply that is plentiful, convenient, delicious, nutritious, varied and above all, safe.

Turn Loose With Tuna Mousse When The Weather Waxes Hot

Tuna Mousse is terrific when it's torrid outside. It makes a refreshing main dish that is easy to prepare. Light as Tuna Mousse looks and tastes, it is high in nutrition because canned tuna in vegetable oil is comparable in complete protein to lean meat. Have you gotten on to tuna's money-saving ways in your meals? Canned tuna costs so little, it is one of the very best bargains in protein foods today. Many families are serving tuna twice a week to keep up nutrition and flavor in their meals at modest cost.

Tuna Mousse

- 1 envelope unflavored gelatin
- 1½ cups cold chicken broth, divided
- 1 tablespoon lemon juice
- 2 cans (6½ or 7 ounces each) tuna in vegetable oil
- ¼ cup diced celery
- ¼ cup diced green pepper
- 1 cup heavy cream, whipped

Sprinkle gelatin on ½ cup of the chicken broth in saucepan to soften. Place over low heat, stirring constantly, until gelatin is dissolved. Remove from heat; stir in remaining 1 cup broth and lemon juice. Chill until mixture is the consistency of unbeaten egg white. Mix in tuna, and celery and green pepper. Fold in whipped cream. Turn into a 4-cup mold; chill until firm. Unmold to serve.

Yield: 6 servings.

BAKED BACON FOR A CROWD

With tomatoes coming on, it is a good time to serve BLT's (bacon, lettuce and tomato sandwiches). If you are serving more than two people, frying that much bacon is a real chore. It is especially difficult to keep it all warm and crisp until the last piece is fried. Try baking the bacon the next time. It is much faster and you don't have grease all over the range. Set the oven at 400° and place the bacon in the drip pan of your broiler or in a jelly roll pan. Separate the pieces of bacon to form a single layer. If the bacon is too cold to separate, place the entire pound in the oven for five minutes until it's warm enough to separate without tearing. Cook for fifteen minutes or until it reaches the desired crispness. Drain it on paper towel and serve. And you have BLT's for a crowd without all the mess.

Another idea to save time is bake the bacon ahead of time. Bake an entire pound, drain on paper towels. Wrap the desired number of pieces in foil and store in the refrigerator. To heat, place the foil packet in a skillet, open the foil and heat for two or three minutes. And you have hot bacon for a quick breakfast.

Recipe:

- Carmel Corn
 - 2 Tablespoons light corn syrup
 - 1/3 cup water
 - 2 cups brown sugar
 - ½ pound butter
 - 5 quarts popped popcorn (salt if desired)
- Cook the ingredients to 275°. Remove from the heat and add 1/2 teaspoon soda. Stir and pour over popcorn.

Club Has Picnic

The Beaver Dam Home Demonstration Club held their June meeting last Wednesday evening with a picnic supper at the home of Mrs. Elmer Dickey with Mrs. Ralph Tucker as co-hostess. Eleven members enjoyed the evening at the cabin near their pond. The meeting opened with the singing of America the Beautiful, the pledge to the flag and repeating the club creed.

Mrs. Willis Bowen gave the devotions using the topic "Be Kind to Somebody Today." Health and Safety remarks were given by Mrs. Waldo Adams, telling what to do for stiff and aching muscles.

On October 28, Achievement Night will be a style show of clothing made by the club members. County Camp will be September 14 and 15 at Camp Mack, near Milford, using the theme "Gay Dutch Days."

Thank you cards were read from Mrs. Harvey Smith and Mrs. Eva Huffer. Mrs. Frank Hudson and Mrs. Dickey received birthday gifts from their secret pals, and Mrs. Stella Swick, Mrs. Irvin McHatton and Mrs. Richard Whittenberger received hostess auction gifts.

The club trip to Amish Acres in August was discussed and raffle tickets for the county fair were sold. Club closed with the prayer song and the collect. Bingo was enjoyed during the social hour.

The next meeting will be with Mrs. Vesta Creakbaum on July 8. This is a change of place.

"Beauty on the Job"

Peggy is a secretary and a very well paid one. She likes her job—her boss considers her an asset to the firm. He knows that she makes a good impression, and he's glad to have her greet his most important clients.

What separates Peggy from other secretaries? She's learned one of the basic facts of office life: appearance is as important as typing and shorthand speeds. Often it's more important!

We can all learn something from Peggy. Peggy does her homework. She sets aside fifteen minutes every evening—sometimes a little more—to tend to all the little things that add up to good grooming. She spot-cleans her dresses, to save cleaning bills. She presses her clothes before she wears them... keeps her shoes polished, heels in good condition. She sews on buttons, shortens or lengthens her hems as the styles change... makes sure her stockings and lingerie are fresh and ready to go.

Too good to be true? Not if you've ever tried it for one full month. By then, attending to the details is second nature—a good habit that's part of you. It does take a little extra concentration and effort at first... but those extra minutes every evening add up to a bandbox look every single day.

Your appearance is really the outward expression of your inner feelings about yourself. Does it truly express you?

Know Your Newspaper Better

Good for All Your Ills!

We frequently receive advertisements that promise almost everything and anything... to cure all your troubles... to bring you easy money... to make you rich quick...

But We Don't Print Them!

Our newspaper is opposed to printing advertisements that are fraudulent or misleading or that seek money without giving comparable value. Every year, we turn down many dollars worth of business, in your interest.

And It Doesn't Hurt a Bit...

... because it's the right thing to do. Our conscience alone wouldn't let us do otherwise. Most of our readers would ignore such ads, but some wouldn't... and usually those who can least afford it are the ones who lose. We intend to maintain this policy, permanently!

Jolly Good Neighbors Meet

A foolish superstition was the answer to roll call at the June meeting of the Jolly Good Neighbors extension club held Wednesday afternoon at the Steer Inn, with Mrs. Ernest Jamison acting as hostess, assisted by Mrs. Jay Leiter.

The meeting was called to order by the vice-president, Mrs. Perry Hathaway, and opened with the group singing America the Beautiful, followed by the pledge to the flag and the club creed. After Mrs. Gerald Parker read the history of the song of the month, "Blest Be the Tie That Binds," everyone joined in singing it. For her meditation topics, Mrs. Jay Leiter read an article by Billy Graham, followed by two poems. She also gave the citizenship report. Health and Safety remarks were given by Mrs. Eugene Polk; and garden hints by Mrs. Lawrence Hudson.

Mrs. Perry Hathaway presented the lesson on selecting patterns, with very interesting demonstrations.

After reporting on recent county presidents' council meeting, and conducting the business session, the club president, Mrs. Wilbur Repine, closed the meeting by having all stand and repeat the club collect.

Refreshments were served to 22 members, one guest and five children. The door prize was won by Mrs. Repine.

The July meeting will be a picnic at Center Lake.

Lions Collect Clothing For Peru

The Silver Lake Lions Club building will be open Monday, July 6, from 1 to 4 p.m. to receive clothing and blankets for Peru earthquake victims.

Owen Frey, president of the club, said members preferred only clothing that is in "good condition." The clothes and blankets are to be flown to Peru sometime after the collection by Lions International.

The club building in Silver Lake is located three blocks east and a block north of the intersections of roads 15 and 14. Signs leading to the clubhouse will be posted, Frey said.

WOW - is that big!

The little guy looks awfully tiny along side the massive 450 lb. front wheel of the circus parade wagon.

The entire wagon weighs 8 tons. It is the Pawnee Bill handwagon No. 80 built in 1903. It is one of over 80 colorful circus wagons on display at the Circus World Museum in Baraboo, Wisconsin.

The Museum is alive, animated and devoted to the collection, display and dissemination of history of circuses of the world.

Producers who earn payments in the voluntary feed grain and wheat programs will receive payment computation statements along with their payment drafts.

Farmers installing cost-sharing practices under the Agricultural Conservation Program (ACP) were reminded today that they should not make any changes in performance standards unless they consult their County ASCS office.

Farmers who have contributed to stabilizing markets for food and fiber to the conservation of soil and water resources by taking part in the 1970 Wheat and Feed Grain programs are receiving their program payments earlier this year than ever before, according to Clem Good, chairman of the Fulton Co. ASC committee. He said the first batch of payments began July 2, and additional payments will continue to be made as rapidly as farmers certify compliance with program requirements and as fast as individual farm records can be processed and checks returned to ASCS county offices for distribution to farmers. "Because of the excellent cooperation between farmers and their local ASCS office, 60 percent of the participating producers in Fulton Co. will receive their payments on or about July 10, Good said.

Accident Report

No injuries were reported Monday evening when vehicles operated by Lee Shepherd, 37, R. 2, Silver Lake, and Ernest Dudson, 19, Martin, Ky., collided two miles north of Silver Lake on SR 15. Total damage was set at \$300.

It's next to impossible for any teen-ager to realize, that, in another 20 years, he (she) will be as dumb as his (her) parents are NOW.

Deaf Man Designs Tiny Hearing Aid

OFFERS FREE MODEL

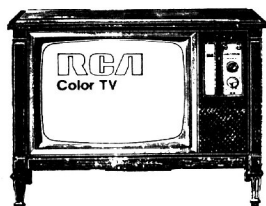

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and represents a new unusual design idea in a product to restore natural hearing.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "near level" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low.

A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatsoever. Write to: A. J. Wilker, 809 Steuben St., Wausau, Wis. 54401. Adv.

Take your problems to Church this week — millions leave them there!

A Wonderful Ally

"On my honor I will do my best:
To do my duty to God and my country, and to
obey the Scout law;
To help other people at all times;
To keep myself physically strong, mentally awake,
and morally straight."—Boy Scout Oath.

A big order for a boy but a very worthy one. It would be difficult to estimate the value of the Boy Scout movement in building citizens. May the movement live forever.

There are times in many lives when super-human effort is needed to do one's duty to God and Country and to keep morally straight. Sometimes power that is beyond one's best is needed. If a Scout through regular attendance at church has learned how to contact that power—and the church does that for many—he has a strong ally that will help him keep his oath.

WSCS

The June meeting of the W.S.C.S. of the Akron United Methodist Church was held in the annex Thursday evening with the president, Mrs. Ernest Smith in charge and conducting the business session. Devotions were given by Mrs. Marvin Heltzel, followed by Mrs. Willis Bowen giving the topic on American Indians. The hostesses, Mesdames Harold Gearhart, Ralph Davis and Ott Groninger served refreshments.

Omega Club Tours Dam

The Omega Community Club took a short trip last Thursday. They first went to the Cambridge Inn Cafeteria at Huntington for dinner, and did a little shopping at the shopping center there. Then they went to the Salamonie Dam, over past Somerset and the relocated cemeteries. They also stopped to visit a former club member, Mildred Butts; and then went on to the Mississinewa Dam. The group plans another outing in July.

LTL Meets

The L.T.L. met on Friday night at the Library basement with their leader, Gloria Bowen. Sharon Wright served as president, Shelly Wright was secretary, and Mary Jo Schultz led the songs. Dennis McKee played a special number on the piano. A missionary story was given by the leader, and a film "Let's Take the High Road" was shown. Charlotte Schultz and Sharon Wright helped with the refreshments. There were 24 present.

DEATHS

Kinley

Marilyn M. Kinley, infant daughter of Terrance and Kay Watrous Kinley, R. 6, Rochester, died shortly after birth Wednesday at Woodlawn hospital. She was the great-granddaughter of Mr. and Mrs. Fred Kinley, Silver Lake.

Other survivors are the maternal grandparents, Mr. and Mrs. James Watrous, R. 1, Kewanna; paternal grandfather, Doyle E. Kinley, R. 1, Denver; paternal great-grandmother, Mrs. Alda Cramer, Toledo, Ohio; paternal great-grandmother, Mrs. Emma Walters, R. 1, Denver.

Funeral services were conducted Friday morning at Rochester and burial was at Denver.

Bahney

Mrs. Leah Bahney, 86, a lifetime resident of the Akron community, died of complications at 7 p.m. Friday at Woodlawn Hospital in Rochester where she had been a patient for three months.

The daughter of John and Susan Kreamer Martin, she was born Nov. 17, 1883 in Akron. In 1906 she was married to Charles Bahney who preceded her in death in 1949. She was a member of the Akron Church of God.

Surviving is one sister, Mrs. Floyd (Mary) Boschet, Rome City; one nephew and three nieces. Funeral services were conducted Monday morning at the Haupt Funeral Home with Rev. J. D. Thomason officiating. Burial was in the Akron cemetery.

How Far Is Enough?

Many are the parables that lie exposed in the routine happenings of our daily lives!

For example, my son and I, who are both ardent collectors of Indian artifacts, were hiking the hills last summer looking for arrowheads. The field we were searching was in summer fallow and had been badly washed by our latest rain. Every step we took impressed our footprints clearly in the earth.

He went one way and I went another but eventually I ran across his footprints moving at right angles to me. I followed them for a few yards but when they swung off to the left, I kept going straight. I had taken only a step or two beyond where his prints veered off when I spied a perfect and beautiful white arrowhead an inch and a half long. It

was a lovely specimen—a fitting reward for an afternoon of tramping. My son was delighted that I found it but regretted he had not taken the step or two more that would have made it his prize.

The parable? My son had been going in the right direction but he hadn't gone quite far enough. Isn't that a parable of so many people's lives? I have known persons and so have you who never quite reap life's rewards because they never go far enough in the right direction. They are "moral" people, they are "good" people, but they are not particularly happy people. Mostly their footsteps stop short of the reward in life they seek.

I believe this to be true especially in religion. Many people get so little from their "religion" because they do not go far enough with it. The wonderful and exciting reward of a spiritually balanced life escaped them because they never go far enough in worship, in study, in service.

In times of stress many of them think that their "religion" has let them down when in reality they have never gone far enough to find the real thing.

AKRON

Mesdames Scot Stinson, Ethel Hire and Dean Newcomb of Rochester and all former residents of Akron, called on Mrs. C.E. Day Sunday afternoon.

Mrs. R. R. Obenchain Sr., and Mrs. R. Johnson of Evanston, Ill., were Friday afternoon guests of Mrs. C. H. Yeaman.

Mrs. John Stauffer of Etna Green, Mrs. C. H. Yeaman and her house guest, Mrs. V. S. Weeks spent Monday in Goshen at Greencroft Manor with Mrs. G.D. Stauffer and Mrs. Robert (Kathryn) Burns.

Mr. and Mrs. Forest Grogg of Rochester spent Sunday afternoon with Mr. and Mrs. Dow Landis. Other guests were Miss Carolyn Metzger of Francisville and friend of Ft. Wayne.

Blood Program Is Outlined

Jerry Smith, newly appointed administrator of the Ft. Wayne Regional Red Cross Blood Center, spoke at the District Two Blood Program meeting held at LaGrange.

Mr. Smith, who retired in 1965 from a military career, with the rank of Lieutenant-Colonel, served as an infantry officer in the European theater and Korea with his last assignment being Director of Personnel Services for the fourth army at Ft. Sam Houston.

He joined the Red Cross program in 1967 when he became supervisor of donor recruitment in St. Louis and an administrative

assistant of the midwestern area Red Cross office.

He spoke to the group regarding the newest trends in blood program and stressed the importance of consistently meeting the established quotas. Donor recruitment methods were discussed and the Kosciusko Co. Chapter Chairman, Dwight Bechtol, spoke to the group about the "Teen Age Donor" and displayed the "Teen Gallon Donor Awards" presented to the Mentone, Wawasee and Pierceton High Schools, as well as the newly inscribed Gallon Donor Rolls now on display at the Kosciusko Co. Headquarters.

Attending from Warsaw were Mrs. Inez Devenney,

Executive Director; Dwight Bechtol, Chapter Chairman; and Mrs. Lee Pattison, Chairman of Office Volunteers. The counties represented in the district are Steuben, Elkhart, Kosciusko, Noble, DeKalb, Whitley, and LaGrange.

Attend Square Dance Convention

The 19th National Square Dance Convention was held in Louisville, Ky., last Thursday, Friday, and Saturday, with over 19,000 in attendance. Participants came from Hawaii, Guatemala, Canada, Saudi Arabia, several European countries and from every state in the U.S. Over four thousand attended from Indiana, among them being Mr. and Mrs. Bob Sixby, Mr. and Mrs. Henry Thompson, Mr. and Mrs. Carl Overmyer, Mr. and Mrs. Don Upp, Mr. and Mrs. Down Nicklous and two children, all from Rochester; from Kewanna were Mr. and Mrs. Bob Mastellar and daughter, and Mr. and Mrs. Joe Newman; from Star City were Mr. and Mrs. Tom Blinn, and Mr. and Mrs. Jim Carpenter. Attending from Akron were Mr. and Mrs. Allen Keirn, who made the trip with former Akron residents, Mr. and Mrs. James VanCuren, who now live in Ft. Wayne.

The Rochester area group is called the "Swinging Dudes." Each state had some insignia so that they were recognizable to other people at the convention.

Louisville hotel clerks were bewildered and the police officials were relieved, for they did not know of a single convention who caused any trouble. One of the desk clerks at the Seelbach Hotel said, "There is always a bad pea in every pod," but in the same breath he said that although the Seelbach Hotel was filled with square dancers, he had not seen one "bad pea"; no drunks, nor even half-drunks. "They have been very enjoyable," he said.

Most conventioners who have come to Louisville have been well-mannered, but sometimes conventioners in any city will tear drapes, break mirrors and chairs and do many damaging things. A lot of people mistakenly think that square dancing is a sport, when it is really classified as "Christian fellowship." "Drinking is not allowed before nor during the dancing," said Mr. Keith, the vice-chairman of the square dancing program. "If they have a few drinks under their belt, they will not understand what the caller is saying."

The chief of police in Louisville said, "No extra policemen were needed for the convention." The next National Convention will be held in New Orleans.

Dr. Uphouse Named

Dr. Norman Uphouse, Director of Teacher Education, Grace College and Seminary, Winona Lake, will serve as chairman of the Kosciusko Co. Chapter of the American Red Cross for the next fiscal year.

He was elected at the annual meeting of the chapter held recently at the Shrine Building at the Kosciusko County fairgrounds. Dr. Uphouse has served as both first and second vice-chairman for the chapter, has been active in the local chapter for over ten years. He is an eight-gallon blood donor. Mrs. Uphouse, a Licensed Practical Nurse, has assisted at the visits of the Red Cross Bloodmobile unit in Kosciusko Co. and with other Red Cross programs. Their daughter Deborah has been active in the safety service programs of Red Cross as an instructor in both Water Safety and First Aid. Her husband, Capt. David E. Wingard, a helicopter pilot stationed at Ft. Belvoir, Va. since his return from Vietnam, is being reassigned to Ft. Knox, Ky.

The Uphouses have two other daughters, Hannah, a senior at Biola College, LaMarada, Calif., and Abby, a sophomore in the Warsaw Community Schools.

Other officers elected at the dinner meeting were Guy E. Hygema, of Warsaw, first vice chairman; Tom Prickett, Syracuse, second vice chairman; Dwight Bechtol, retiring chairman, will be treasurer; Mrs. Jesse Finke, assistant treasurer, and Mrs. Frank Greco will serve as secretary.

Recognition for outstanding service rendered the community by their cooperation with and interest in the programs carried on by the American Red Cross was given to those who have made valuable contributions to the Kosciusko chapter.

These included the family of the late Paul A. Oberli, who made the present chapter headquarters possible; Joe Ettinger, for his many years of devoted service to the chapter; Mrs. R. P. Gast and Mrs. Ed Lambert for carrying on the

successful ditty bag operation "Shop Early" for the soldiers in Vietnam; Curtis Garber, Fred Gresso, Mrs. Donald Synder of the Warsaw Times-Union and station WRSW; Mr. and Mrs. Arch Baumgartner, publishers of the Mail Journal and Pierceton Press and Mrs. Ruth Summers of the Pierceton Press; and Loren Sheetz of the Akron Mentone News for their coverage of Red Cross activities.

Argos Little League

The Argos Chamber of Commerce in conjunction with the Argos Little League has set the week of June 29 to July 4 for the first annual "Little League on Parade" week.

Climaxing the week will be a parade on July 4 and the semi-finals and finals of the championship tourney. A garden tractor pull will be featured in the afternoon with two contests for men and one for women. Trophies will be awarded in each.

There will be a fireworks display at 9:30 p.m.

The Mentone Youth League met Nappanee in the tourney Tuesday evening.

Good Thought

Every time Russia makes an advance in space, or whatever, there is new talk that the communists are about to "overtake" us. Let's put that in perspective.

If we wanted to match the Soviet economy we'd have to:

Tear down 60 per cent of our steel mills.

Demolish 60 per cent of our homes.

Rip up two thirds of our railroad tracks.

Destroy nine out of every 10 telephones.

And reduce our standard of living a full 60 per cent.

Maybe we should spend less time worrying about their system and concentrate on preserving ours.

GRASSROOTS OPINION

HOLLIDAYSBURG, PA., PRESS: "The poverty pleaders are getting wide coverage from the news media these days, and most of the stuff is badly slanted. We hope readers and viewers are wise enough to discern this."

FARIBAULT, MINN., NEWS "Shoplifting isn't a 'game' or anything very funny. It's a crime and a very serious crime. When a shoplifter steals for 'kicks' he risks a criminal record that may haunt him throughout life. It may bar his entry into a business or profession. It may be the start of a life of crime. He may find the door closed to a position of trust in city, state or federal government. His stupid act will bring shame to his parents, to his brothers and sisters and his friends. Stealing is foolish business. Its costs are high in shattered reputations and loss of personal happiness and respect."

NORWALK, CONN., HOUR: "The automobile, while the family's great advantage in a moving fast world, still is a powerful instrument of death and destruction, statistics tell us. Consideration for the other driver can help."

FREMONT, IND., REPUB-LICAN: "We little fellows have discovered that the big fellows can lose money for us faster than we can lose it for ourselves."

ROUCEVERTE, W. VA., NEWS: "....governments profit and can under-charge and drive private competitors out of business. While the government should provide services which private business cannot, such as law enforcement and national defense, it should not be allowed to compete with private business and thereby threaten the survival of the free enterprise system which has produced this country's unparalleled economic wealth."

Mentone plans 2-day festival

Plans are nearing completion for a two-day Mentone Community Festival that will feature everything from a pancake and sausage supper to a fly-in from a band concert and tractor pull to chicken barbecue and a BB gun shoot and that will include a parade, a greased pig contest, an antique sale, and a square dance as well as

other favorite pastimes. A drawing for prizes and a gospel sing and a teen dance will climax the two-day event.

The first activities will begin at 5:30 p.m. Friday, July 17, and will continue until the end of the teen dance on Saturday, July 18. A complete schedule of events will appear in next week's paper.

Paul Haist and Robert Hibschan, general chairmen of the day, hope that Saturday, July 18, can also become an Old Grads day for all alumni of the Mentone school.

PREVENT FOREST FIRES was the title of the Las Donas Jr. Woman's Club float that won the \$70 first prize Saturday.

Mentone Board Approves New Signs

Members of the Mentone town board decided Monday night to install two-way and four-way stop signs at several streets that have become traffic control problems and also decided to proceed with placing blacktop on alleys as far as funds will permit.

A warning was issued to property owners who have vacant lots and who

are not keeping the weeds mowed. Officials said that if necessary, the town will have the work done and the cost will be added to the taxes of the owner. The board said it will do its part to clean the town of weeds by hiring someone to mow weeds on the side streets, it was stated.

Because of an increase in vandalism within the town, steps are being taken to "crack down" on the offenders and

Pam Abbey In Snow White

Pamela Abbey, Mentone, daughter of Mr. and Mrs. Denton Abbey, is a member of the cast of Snow White to be presented July 9, 10 and 11 by the Indiana Central College Players. Phyllis Shipley, R. L. Camby, will portray Snow White.

Curtain time for the drama will be set at 8 p.m. because of its special appeal to children.

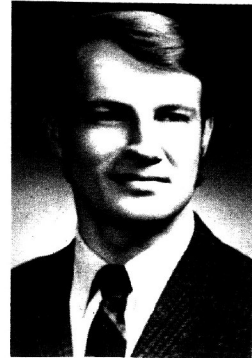

Miss Abbey is also business manager and is in charge of the costumes.

Appointed To Draft Board

George Welch, a teacher in the Mentone school, has been named to the Kosciusko Co. draft board. The county had been without a draft board since June 25 when all five members of the old board resigned.

Also named to the board were Mrs. Arlene Koors, Warsaw bank employe, and Chester Zorn, Piercetown factory superintendent.

Gail Hammond Enters Peace Corps

Gail W. Hammond, son of Mr. and Mrs. Fred Hammond, R. 2, Akron, will leave July 12 to enter the Peace Corps. He will train for two months in Hilo, Hawaii and will go to Thailand at the end of September to begin his two years of service.

A 1966 graduate of Akron High School, he is a 1970 graduate of Manchester College. He has been active in the Akron Church of God and other community activities.

4th of July Is A Success

It didn't rain, but the skies looked threatening all day, scarcely dampening the enthusiasm of the thousands of people who lined the streets of Akron for that town's annual 4th of July parade and celebration of Akron's 134th birthday.

Highlighting the parade and making appearances throughout the day was Miss Debbie Jackson, Miss Dominion of Canada. Also in the parade were a number of candidates including Edmund Hillis who was named last week to run for the Congressional seat now held by Richard Roudebush.

The Las Donas Club won the first place award for its float that featured a giant Smokey bear and a "save our environment theme," one that was extensively used by other units in the parade.

Other floats winning prizes were Kappa Delta Phi sorority's "Save Our Water Ways" float, 2nd; Sonoco Products Co.'s U.S. flag float, 3rd;

Winners Named

Winners of the kiddie contests at Saturday's 4th of July celebration were:

Sack over the head race: Hal Gall and Mary Beth Gast; Paper Race: Mark Stout and Angela Thompson; Chicken Race: Bobby Moyer, Mark Weller, Scott Cumberland, Mike Smith and Hal Gall.

Bubble Blowing: Greg Gearhart and Lana Tinkley; Three Legged Race: Kenny Ballee and Elven Holloway, 9 and under, and Hal Gall and Greg Bussard, over 9; Girls Three Legged Race: Linda Westerman and Angela Thompson, under 9; Teresa Petrosky and Sherri Miller, over 9.

One Legged Race: Max Huffman, Marka Weller, and Sheila Cumberland.

Whistling Contest: Hal Gall and Sandra Gall.

Balloon Blowing: Max Huffman.

Egg Throwing: Paul Howard and Rick Gall and Marsha Weller and Shelly Bickel.

and Akron Rainbow Girls float exemplifying the club's motto, 4th. A miscellaneous prize of \$15 was given to an Et-na Green parade entry.

The Akron boys beat the Lafayette Jeff team in the baseball game.

Entertainment by the Country Travelers and Decembers Children was featured in the afternoon and early evening.

Hometown talent was on parade in the variety show presented in the gym. Participating were a number of local, Rochester and Roann area residents who presented a variety of songs and skits.

Assisting with the variety show were Miss Sandra Parker, Miss Jane

Smith and Mrs. Nancy Luckenbill, all of Akron, and Lee Jennings, Rochester.

Prize drawings by various organizations saw the following winners:

From the War Mothers, a picnic table to Mrs. Ed Shewman; a lawn chair to Gary Huppert and a fishing rod to Mrs. Chas. Moore.

From the Las Donas Jr. Woman's Club, a girl's bicycle to Linda Cumberland and a boy's bicycle to Eric McKee.

From the Akron Rainbow Girls, a quilt made by Margaret Thompson of Canterbury Manor, to Mrs. Merrill Kendall.

A giant fireworks display concluded the day.

Miss Debbie Jackson, Miss Dominion of Canada, made her first U.S. appearance Saturday at the 4th of July parade.

BUD HILLIS, named on Thursday as the Republican candidate for the congressional seat now held by Richard Roudebush, visited the Akron 4th of July celebration and is shown participating in the parade.

LETTERS TO THE EDITOR

Dear Editor:

The lament is often heard that many people will not help with community projects. My experience with our 4th of July celebration indicates that this is not true.

There are many unsung heroes in the production of this event. Many tasks are done by people who have not even been asked. In addition, these tasks are done without their receiving even so much as

a Thank-You. I will not attempt to list all of the individuals who helped me make this year's celebration a success, in spite of my inept leadership. To do so would require a very long letter and, inevitably, someone would still be left out. I want to take this opportunity for thanking all who helped. The experience has been so rewarding that I am willing to try the job again next year!

Sincerely,
Dr. C. E. Miller

MENTAL HEALTH MATTERS

Stanley F. Yolles, M.D., Director
National Institute of Mental Health

Mental Health Centers

The community role in improving mental health among Americans has grown steadily from its beginning in 1963, aided up to mid-1969 by \$292.2 million in Federal funds and some \$595 million from state and local tax funds and private sources to develop community mental health centers.

These local centers total 400 and when completed will serve more than 26 percent of the U.S. population. At the end of 1969, Kentucky ranked highest in population to be served (82.5 percent), followed by North Dakota, South Carolina, Washington, D.C., Colorado, and Maine.

In 1963, Congress authorized Federal aid to establish the centers under the Community Mental Health Centers Act. This provides for financial grants to public and nonprofit organizations and agencies for expanding facilities and services.

States and localities share the costs also. Some centers are located in general hospitals; and many of the community programs are developed through

affiliation of various local agencies.

Each center, whether urban, rural, or suburban, serves an area of from 75,000 to 200,000 persons.

A wide range of community-based psychiatric services is provided by the centers. These include inpatient and outpatient treatment, partial hospitalization, emergency services, and consultation and education to community agencies and caregivers.

All 50 States, and Puerto Rico and Washington, D.C., have received funds to build new centers or expand existing facilities, and to help staff the centers for a beginning period of operation. Nearly 200 of the centers have begun accepting patients.

For a list of centers in your State, or information on how a community mental health center can come into being, write to the Division of Community Mental Health Service Programs, National Institute of Mental Health, 5454 Wisconsin Avenue, Chevy Chase, Maryland 20015. There is no charge.

Named

John J. Newman, Brookville, has been appointed Field Agent for the Indiana Division, Indiana State Library. Mr. Newman, a former high school history teacher, has an M.A. degree in history from Indiana University. He began full time duties June 1. He explained the goals of the Indiana Division and his position as follows: The Indiana Division has a continuing program of acquiring Hoosier materials to serve its many and varied patrons.

The Division is particularly interested in manuscript material that will interpret the lives and events of the average Hoosier as well as those of prominence. In addition to writing about famous men, researchers are becoming increasingly aware of the reactions of the common man to such famous men and of historical events which occur about them. Therefore, the Indiana Division would like to acquire records or photographs of people participating in the events of daily living.

CHETEK, WISC., ALBERT: "Teen-agers are upset these days because they are living in a world dominated by nuclear weapons—and adults are upset because they're living in a world dominated by teen-agers."

BELTON, TEXAS, JOURNAL: "One senator severely criticized the President's welfare proposals which would require all able-bodied persons to work if work is available. The critic said such a procedure might cause a welfare recipient to perform work which is 'demeaning.' Now wouldn't that be too bad! Personally, I do not think one kind of work is any more demeaning than another, because I do not particularly like any kind. Although I began working at age 12, it has always offended my sensibilities and I have never emotionally adjusted to it."

22 Ways To Destroy A Country

MINNEAPOLIS, MINN. - "Tax the churches and force thousands of them out of existence" is but one of twenty-two ways "to destroy a country," according to DECISION, publication of the Billy Graham Evangelistic Association.

The February issue of the magazine also listed in the editorial the other methods to destroy a country:

+ "Affirm man's animal origin, nature and functions to the exclusion of everything else, and ridicule all references to his spiritual qualities.

+ "Inculcate general disrespect for any kind of authority by urging people to obey their own impulses in the name of freedom.

+ "Hamper the enforcement of criminal code with decisions that slow down the judicial process and make it difficult to arrest, convict and sentence a culprit for an offense against society.

+ "Create general distrust of law enforcement officers, whether local police, sheriff's deputies, state troopers or federal agents.

+ "Import vast supplies of hallucinogenic drugs and make them readily available to the youth of the land; then provide them with plenty of money with which to buy them.

+ "Take military training out of the liberal arts colleges, thereby establishing a gulf between the soldiery and the citizenry that will make them try to cancel out each other.

+ "Divide the country into ethnic groups and then incite insurrections by each group with the intent to launch a general civil war.

+ "Loosen all restraint on the entertainment media so that sexual license may be presented to the public in its rawest form.

+ "Use the mass media to make all normal marriages appear dull and unconventional, and all forms of adultery and perversion to appear interesting and exciting.

+ "Corrupt the youth of the land by permitting pornography, obscenity and general immorality to be indulged in freely without fear of arrest or prosecution.

+ "Conduct a war in a far distant country in such a way that it will prove highly unpopular and sow deep disunity throughout the land.

+ "Encourage subversives who advocate the violent overthrow of the government to sponsor disorderly protests, incite riots and damage public and private property with immunity.

+ "Spit pedal all discussion of loyalty, responsibility, patriotism, duty and sacrifice in order that freedom of dissent may be established.

+ "Convince minority elements in the population that justice can

never be secured by them through due process of law, but only by armed revolution.

+ "Foster loopholes in the law that will permit economic combines and 'defense' manufacturers to pilfer large sums of money from the public purse.

+ "Develop an unbalanced economic system that will make the rich richer and the poor poorer.

+ "Split the older and the younger generations by encouraging them to distrust each other and to condemn each other's institutions.

+ "Lull the intellectual leadership into believing that communism is no threat; that the tyranny evident in present-day Czechoslovakia, Tibet and other occupied lands is not an inherent part of the Marxist philosophy and could 'never happen here' under a Communist government.

+ "Pollute the air, the streams and lakes, and erode the land until the environment is so poisoned that life can no longer be enjoyed.

+ "Discourage the practice of prayer and Bible reading by forbidding it in the public schools.

+ "Indoctrinate the public into believing that Jesus Christ is a myth, Christianity a byword for an ancient superstition, and the church an institution that mankind has outgrown."

The editorial concluded with a passage from 2 Chronicles 7:14 on "how to heal a country".

"If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

NEW BOOKS

BELL MEMORIAL LIBRARY

New books at the Bell Memorial Public Library include:

Fiction:

THE SECRET WOMAN by Victoria Holt. Victorian England and the So. Seas are the setting for this novel of suspense.

CALICO PALACE by Gwen Bristow. This is a story of a young girl's adventures during the great Gold Rush.

THE CALLAHAN'S GAMBLE by Francis Ames. A sequel to That Callahan Spunk, this new novel tells the further adventures of a pioneering family as they make a last desperate attempt to wrest a living from the harsh Montana land they have come to love.

Non-Fiction: THE COURAGEOUS AND THE PROUD by Sergeant Samuel Vance. This is the personal account of a black soldier in Vietnam, where, in a white man's army, to be equal the black must prove himself superior.

CHINA AS I SEE IT by Pearl S. Buck. Using the writings of Europeans who can still go to China, and Chinese-Americans in secret correspondence with their relatives in China, Pearl S. Buck has written a concluding chapter in her efforts to help American people understand the Chinese better.

Love of money may be the root of evil, but lack of it makes many root, too.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

Phosphates in detergents and soaps are major pollutants, consequently homemakers have been inquiring about the phosphate content of the detergents they use. Consumers have shown

that they are concerned but this concern will not cause results unless pressure is put on the manufacturers.

Newspapers and magazines have published lists showing the approximate percent of phosphate in different detergents. Detergents are divided into mild and heavy-duty products. The mild ones are designed for light cleaning and are used for hard washing, for these lightly soiled garments phosphates are not required. The heavy-duty detergents, however, need phosphates to remove heavy soil. Heavy-duty, powdered detergents contain 30-40% phosphates. So actually when you consider the total amount of phosphate added to waste water in relation to the manufacturer's suggested amount of detergent to use per load, there

is probably not much difference in which heavy-duty detergent used.

The voice of the consumer is a powerful tool. If we put enough pressure on the manufacturers they will develop a non-polluting ingredient as effective as phosphate. The future of our rivers and streams is in the balance. Take a few minutes to write a letter to your congressman or a manufacturer of detergent expressing your feelings. After all, we want to leave our children a world worth living in.

RECIPE: Cheese Ball: 1 pkg. 8 oz. cream cheese, 1 small jar Kraft Old English cheese, 1 small jar Kraft Olive pimento cheese, 1 teaspoon onion juice, 1 teaspoon Worcestershire sauce, garlic powder. Combine all

ingredients, chill slightly, form into a ball. Roll in crushed pecans or parsley.

ARMED SERVICES ***** NEWS

Rodney Leroy Severns, son of Mr. and Mrs. Benjamin O. Severns, Box 27, Athens, has enlisted in the United States Air Force. According to Technical Sergeant Edward Grazier, local Air Force Recruiter, Severns selected the Mechanical Enlistment Aptitude Area for his term of enlistment. The new airman enlisted during ceremonies conducted in Indianapolis on July 1 and is presently undergoing basic military training at Lackland Air Force Base, San Antonio, Texas. Airman Severns tentatively plans to continue his education under the United States Air Force's "Operation Bootstrap Educational Program." He was previously employed by Farm Bureau Co-operative Inc. in Rochester.

Lions Elect International President

DR. ROBERT D. McCULLOUGH

Dr. Robert D. McCullough of Tulsa, Oklahoma, was elected President of Lions International at the Association's 53rd Annual Convention in Atlantic City, New Jersey, July 1-4. Serving as the 54th President of the world's largest humanitarian service organization, McCullough leads some 932,000 members in 24,400 clubs located in 146 countries and geographic areas throughout the world.

Lions International is best known for its aid to the blind and sight conservation activities, international relations programs, and its many community service projects. "Involvement Now" will be the primary theme during Dr. McCullough's 1970-1971 Presidential Year. The importance of taking an active interest in the welfare of the community and the necessity for increased international understanding will both be emphasized.

THANK YOU

The members of the 4th of July Committee want to express our appreciation to everyone who helped make our Founders Day Program a success. We especially want to thank everyone who participated in the Parade, the members of the Chamber of Commerce, and all other organizations and individuals who cooperated so splendidly in this community project. Without this willingness to contribute time and effort, loan and donate material and equipment, and lend support in many other ways this annual event would be impossible. Thanks again.

"This is where I live"

by Joey Miller, age 5

This is the way Joey sees his world. Probably because he's heard so much about Pollution, Population Explosion, Survival. Big, scary words for a 5-year-old. But he knows what they mean. And he's concerned. So are we. That's why we've spent—and will continue to spend—millions of dollars to clean up the air at our generating plants. And that's why we've published a children's coloring book to help make the coming generation aware that improving our environment is everyone's business. Attend Grand Assembly Session

Mrs. George Maby and daughters, Mary and Joyce, spent last week in southern Indiana visiting Mrs. C. J. Dougherty and son, Mike, in Odon, and attending the 30th Indiana Grand Assembly, International Order of the Rainbow for Girls at Vanderburgh Auditorium, Evansville.

On Wednesday evening Joyce attended "Some Enchanted Evening" dinner honoring the Grand Officers and Grand Helpers, in the Executive Inn. Mrs. Catherine Neese, Mother Advisor of Greenwood Assembly No. 78 served as chairman.

"The Peaceful Heart" Grand Session was called to order Thursday evening by Mrs. Hazel Thompson Coats, Supreme Inspector in Indiana, Supreme Patriotism of Supreme Assembly, International Order of Rainbow for Girls, and Past Grand Matron, Indiana Grand Chapter, Order of Eastern Star. Miss Christina Anne Neese of Greenwood Assembly No. 78 was presiding Grand Worthy Advisor and Joyce Maby was Grand Immortality.

Friday sessions were devoted to the business of Grand Assembly, Worthy Advisor's reports and election of new officers for the coming year. Miss George Ann Griffin of Evansville Assembly No. 3 was elected Grand Worthy Advisor.

Saturday afternoon a most impressive memorial service "The Rainbow Garden of Tomorrow" was conducted under the direction of Miss Beulah Hall, Grand Choir Director. Installation of the newly elected and appointed Grand Officers followed.

Saturday night "Under the Toadstool" banquet honored Christina Anne

Neese, presiding Grand Worthy Advisor, and her Grand Officers. "A Midsummer Night's Dream" Ball held in the Gold Room of the Auditorium honored the newly installed Grand Worthy Advisor, George Ann Griffin, and her Grand Officers.

Church services were held in the auditorium Sunday morning with music furnished by the Rainbow Grand Choir, and "The Peaceful Heart" Grand Session closed with the Sunday dinner served in the Gold Room.

Mrs. Romine Hosts Club

Mrs. Monroe Romine entertained the Friendly Neighbors Extension Homemakers Club at her home Thursday afternoon.

The president, Mrs. Everett Beeson, opened the meeting with the singing of "America, the Beautiful" and repeating of the pledge to the flag and the club creed.

Mrs. Kyle Gibson read an article entitled "One Nation Under God" and then led the singing of "God Bless America."

For meditation, a story, "Old Glory Stars and Stripes," was read by Mrs. C. E. Walburn.

The case of the invisible rays, a very short story about the use of Vitamin D and the lack of it in the diet was presented by Mrs. Herman Olsen.

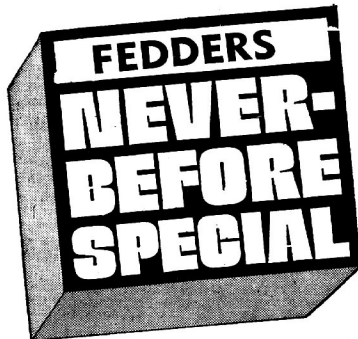

Mrs. M. O. Smith told of the poisonous acids in the leaves of rhubarb and the need of rest periods in the fall for thrifty begonias.

A very complete lesson on the selection of patterns was given by Mrs. Kyle Gibson and Mrs. Herman Olsen.

Nine members answered roll call with a participative response.

After the business session, the president gave a report of the president's council meeting, spoke about the county fair, the Christmas bazaar and gave dates to remember.

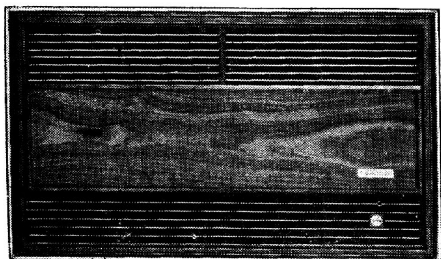

The club adjourned after singing the club prayer song and reciting the collect.

Riley-Conner Vows Are Repeated

The United Methodist Church at Akron was recently the scene of the marriage of Miss Angela Sue Riley and Rod Conner. The Rev. Claude Fawns officiated at the double ring ceremony and Mrs. Philip Parker, organist, provided music. The bride is the daughter of Mr. and Mrs. Ray Riley of Akron. Parents of the bridegroom are Mr. and Mrs. Harold Conner of Akron.

Miss Sharon Harrold attended her cousin as maid of honor and Judy Conner, sister of the bridegroom, was bridesmaid.

The bridegroom was attended by his brother, Dean Conner, and the other attendant was John Gray. The ushers, uncles of the bridegroom, were Dan Feller, Kokomo, and Larry Feller, Peru.

Following the ceremony the couple greeted their guests at a reception in the church annex.

Both Mr. and Mrs. Conner are graduates of Akron High School. Mr. Conner is employed at

R.R. Donnelly at Warsaw. Following a weekend honeymoon trip the newlyweds are at home in Akron.

Attend Meeting

Attending the 67th annual convention of Psi Iota Xi sorority recently were Mrs. Curtis J. Riner and Mrs. Ronald O. Russell, members and official delegates of Beta Epsilon chapter, Mentone.

They heard reports of the activities of the 128 active and 20 auxiliary chapters in a five state area. The president reported that approximately \$195,000.00 was contributed by Psi Iota Xi chapters during the year for civic projects and of this amount more than \$28,000 was spent on cultural projects and more than \$57,000 was spent on speech and hearing projects.

All things are difficult before they are easy.

LEGAL NOTICES

ORDINANCE NO. 6-9-70-3

An Ordinance regulating the connection to and use of public and private sewers and drains, the installation and connection of building sewers, and the discharge of water and wastes in the public sewer system of the Town of Akron, Indiana, and providing penalties for violations thereof.

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE TOWN OF AKRON, INDIANA:

Section 1. Unless the context specifically indicates otherwise, the meaning of terms used in this ordinance shall be as follows:

(a) "Sewage works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.

(b) "Superintendent" shall mean the Superintendent of the municipal sewerage works of the Town of Akron, Indiana, or his authorized deputy, agent or representative.

(c) "Inspector" shall mean the person or persons duly authorized by the Town, through its Board of Trustees, to inspect and approve the installation of building sewers and their connection to the public sewer system.

(d) "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface and storm wastes as may be present.

(e) "Sewer" shall mean a pipe or conduit for carrying sewage.

(f) "Public sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.

(g) "Combined sewer" shall mean a sewer receiving both surface runoff and sewage.

(h) "Sanitary sewer" shall mean a sewer which carries sewage and to which storm, surface, and groundwaters are not intentionally admitted.

(i) "Storm drain" (sometimes termed "storm sewer") shall mean a sewer which carries stormwater, surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.

(j) "Sewage treatment plant" shall mean any arrangement of devices and structures used for treating sewage.

(k) "Industrial wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business, as distinct from sanitary sewage.

(l) "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from waste handling, storage, and sale of produce.

(m) "Properly shredded garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (1/2) inch in any dimension.

(n) "Sanitary building drain" shall mean that part of the horizontal piping of the sanitary drainage system inside the walls of any building, which receives the discharge from soil or waste stacks and branches and conveys the same to a point three feet above the building walls where it connects with its respective building sewer.

(o) "Building sewer" shall mean the extension from the building drain to the public sewer, or other place of disposal.

(p) "B.O.D." (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20° C, expressed in milligrams per liter.

(q) "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

(r) "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

(s) "Natural outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or groundwater.

(t) "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

(u) "Slugs" shall mean any discharge of water, sewage, or industrial waste which, in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than twenty-four (24) hours more than five (5) times the average twenty-four (24) hour concentration of flows during normal operation.

(v) "Person" shall mean any individual, firm, company, association, society, corporation, or group.

(w) "Shall" is mandatory; "may" is permissive.

(a) It shall be unlawful for any person to place, deposit, or permit to be deposited in any unsanitary manner on public or private property within the Town, or in any area under the jurisdiction of said Town, any human or animal excrement, garbage, or other objectionable waste.

(b) It shall be unlawful to discharge to any natural outlet within said Town, or in any area under the jurisdiction of said Town, any sewage or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this ordinance.

(c) Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage.

(d) The owner of all houses, buildings, or properties used for human occupancy, employment, recreation or other purposes, situated within the Town and abutting on any street, or on any lot or tract of land which there is now located a public sanitary or combined sewer of the Town, is hereby required at his expense to install suitable soiliet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this ordinance, within ninety (90) days after date of the issuance of this ordinance, provided that said public sewer is within one hundred (100) feet of the property line.

Section 3.

(a) Where a public sanitary or combined sewer is not available in the provisions of Section 2 (d), the building sewer shall be connected to a private sewage disposal system complying with the provisions of this section.

(b) Before commencement of construction of a private sewage disposal system the owner shall first obtain a written permit, signed by the Superintendent. The application for such permit shall be made on a form furnished by the Clerk-Treasurer, which the applicant shall complete by any plans, specifications and other information as are deemed necessary by the Superintendent. A permit and inspection fee of five dollars (\$5.00) shall be paid to the Clerk-Treasurer at the time the application is filed.

(c) A permit for private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Superintendent. He shall be allowed to inspect the work at any state of completion, and the applicant shall notify the Superintendent when the work is ready for final inspection. Before any underground portions are covered, the inspection shall be made within forty-eight (48) hours of the receipt of notice by the Superintendent.

(d) The type, capacities, location, and layout of a private sewage disposal system shall comply with all recommendations of the State Board of Health of the State of Indiana. No permit shall be issued for any private sewage disposal system employing subsurface soil absorption if the area of the area of the lot is less than ten thousand square feet. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

(e) At such time as a public sewer becomes available to a property owner by private sewage disposal system as provided in Section 3 (d), a direct connection shall be made to the public sewer in accordance with this ordinance, and any septic tanks, cesspools and similar private sewage disposal systems shall be abandoned and filled with suitable material.

(f) The owner shall operate and maintain the private sewage disposal facility in a sanitary manner at all times, at no expense to the Town.

(g) No statement contained in this section shall be construed to interfere with any additional requirements that may be imposed by the Health Officer.

(h) When a public sewer becomes available, the building sewer shall be connected to said sewer within ninety (90) days and the private sewage disposal system shall be cleaned of sludge and filled with clean bank-run gravel or dirt.

Section 4.

(a) No unauthorized person shall uncover, make any connections with, or operate, in any manner, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Clerk-Treasurer.

(b) There shall be two (2) classes of building sewer permits: (1) for residential and commercial service, and (2) for service to establishments producing industrial waste. In either case, the owner or his agent shall apply for such permit on a form furnished by the said Town. The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the Inspector. A permit and inspection fee of five dollars (\$5.00) for residential or commercial building sewer permit and ten dollars (\$10.00) for an industrial building sewer permit shall be paid to the Clerk-Treasurer at the time the application is filed.

(c) All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the Town from any loss or

damage that may directly or indirectly be occasioned by the installation of the building sewer.

(d) A separate and independent building sewer shall be provided for every building except where one building stands at the rear of another or an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining lot. In the case of a driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

(e) Old building sewers may be used in connection with new buildings only when they are found, on examination by the said Inspector, to meet all requirements of this ordinance.

(f) The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town. In the absence of such provisions in the applicable code, the materials and procedures set forth in the appropriate sections of the A. S. T. M. and W. P. C. F. Manual of Practice No. 9 shall apply.

(g) Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved pump and discharged to the building sewer.

(h) No person shall make connection of roof downspouts, exterior foundation drains, araway drains, or other sources of surface water, or surface water to a building sewer or building drain which in turn is connected to a public sewer.

(i) The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A. S. T. M. and W. P. C. F. Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedure and standards must be approved by the Superintendent before installation.

(j) The applicant for the building sewer permit shall notify the said Inspector when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the said Inspector or his representative.

(k) All excavations for building sewer installation shall be adequately guarded with barricades and lights as to the protection of the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the process of installation shall be restored in a manner satisfactory to the said Town.

Section 5.

(a) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, surface drainage, uncontaminated cooling water, or unpolluted industrial process wastes to any sanitary sewer.

(b) Stormwater and all other unpolluted drainage waters are inadmissible to such sewers as are specifically designated as combined sewers or storm sewers, or to any sewer not approved by the said Superintendent. Industrial cooling water or unpolluted process waters may be discharged, on approval of the said Superintendent, to a storm sewer, combined sewer, or natural outlet.

(c) No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

(1) Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

(2) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or otherwise create any hazard in the receiving waters of the sewage treatment plant.

(3) Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

(4) Solid or viscous substances in quantities or of such size capable of causing obstruction in the flow of sewage, or of other interference with the proper operation of the sewage works, such as, but not limited to, ashes, clinders, sand, mud, straw, shavings, metal, glass, rags, feathers, and other debris. (5) Groundwater, hair and fleshings, entrails and parrot dishes, cups, milk containers, etc., or other whole or ground by garbage grinders.

(d) No person shall discharge or cause to be discharged the following described substances, materials, wastes, or wastes, or any combination thereof, to any sewer, or to any natural outlet, in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment

process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of the wastes, nature in relation to flows and velocities in the sewers, materials of construction of the sewers, nature and extent of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

(1) Any liquid or vapor having a temperature higher than one hundred fifty degrees (150°) F (65°) C.

(2) Any water or waste containing fats, wax, oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two degrees (32°) and one hundred fifty degrees (150°) F (0 and 65° C).

(3) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor or three-fourths (3/4) horsepower or greater shall be subject to the review and approval of the Superintendent.

(4) Any waters or wastes containing strong acids or strong alkalis, or concentrated plating solutions whether neutralized or not.

(5) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such extent that any such material received in the composite sewage at the sewage treatment plant exceeds the limits established by the Superintendent for such materials.

(6) Any waters or wastes containing phenols or other taste or odor-producing substances, in such concentration as to exceed the limits which may be established by the Superintendent as necessary after treatment of the composite sewage, to meet the requirements of the State, Federal, or local health department of jurisdiction for such discharge to the receiving waters.

(7) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

(8) Any waters or wastes having a pH in excess of 9.5.

(9) Materials which exert or cause:

(i) Unusual concentrations of inert, suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

(ii) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

(iii) Unusual B.O.D., chemical oxygen demand, or chlorides in such quantities as to constitute a significant load on the sewage treatment works.

(iv) Unusual volume of flow or concentrations of wastes constituting "slugs" as defined herein.

(v) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment works, or which are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over the discharge to the receiving waters.

(e) If any waters or wastes are discharged, or are proposed to be discharged, to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 5 (d) of this ordinance, and in the judgment of the Superintendent may have deleterious effect upon the sewage works, processes, equipment, or receiving waters, or otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

(1) Reject the wastes;

(2) Require pretreatment to an acceptable condition for discharge to the public sewers;

(3) Require control over the quantities and rates of discharge; and/or

(4) Require payment to cover the added cost of handling and treating the wastes not covered by existing rates or sewer charges under the provisions of Section 5 (j) of this ordinance.

If the Superintendent permits the treatment or equalization of waste flows, the design and installation of the plans and equipment shall be subject to the review and approval of the Superintendent and subject to

the requirements of all applicable codes, ordinances, and laws.

(f) Grease, oil, and sand interceptors shall be provided when, in the opinion of the said Inspector, they are necessary for the proper handling of liquids or wastes containing excessive amounts, or any flammable wastes, sand, or other harmful ingredients. Except that for private living quarters of dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent, and shall be located as to be readily and easily accessible for cleaning and inspection.

(g) Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

(h) When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial or commercial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances as may be required to facilitate observation, sampling, and measurement of the wastes. Such manholes, when required, shall be accessible and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

(i) All measurement, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater" published by the American Public Health Association, and shall be determined at the control manhole, or, upon suitable samples taken from said control manhole. In the event that no special manhole has been constructed, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life and limb of property. The particular analyses involved will determine whether a twenty-four (24) hour composite sample or a grab sample is appropriate or whether a grab sample or samples should be taken. Normally, not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas the pH is determined from periodic grab samples.)

(j) No statement contained in this section shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be handled by the Town for treatment, subject to payment therefor, by the industrial concern.

Section 6. No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is part of the municipal sewerage works. Any person violating this provision shall be subject to immediate arrest and to prosecution under charge of disorderly conduct.

Section 7.

(a) The Superintendent, Inspector, and any duly authorized employees of the Town shall, upon proper credentials and identification shall be permitted to enter all properties for the purpose of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this ordinance. The Superintendent or his representatives shall have no authority to inquire into any private property, including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the maintenance and operation of the sewers or waterways or facilities for waste treatment.

(b) While performing the necessary work on private properties referred to in Section 7 (a) above, the Superintendent or duly authorized employees of the Town shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for any injury to the Town's employees and the Town shall indemnify the company against loss or damage to its property. The Town's employees and the company shall be held harmless for personal injury or property damage sustained against the company and growing out of the sampling and testing operation, except as such may be caused by negligence or failure of the company to maintain safe conditions as required in Section 5 (h).

(c) The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town intends a duly negotiated easement for the purpose of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work on any on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

lating any provision of this ordinance except Section 6 shall be served by the Town with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The officer shall, within the period of time stated in such notice, permanently cease all violations.

(b) Any person who shall continue any violation beyond the time limit provided for in Section 8 (a) shall be guilty of a misdemeanor and on conviction thereof shall be fined in an amount not exceeding Ten Dollars (\$10.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

(c) Any person violating any of the provisions of this ordinance shall become liable to the Town for any expense, loss, or damage occasioned the Town by reason of such violation.

Section 9. All ordinances or parts of ordinances in conflict herewith are hereby repealed. The invalidity of any section, clause, or provision of this ordinance shall not affect the validity of any other part of this ordinance which can be given effect without such invalid part or parts.

Section 10. This ordinance shall be in full force and effect from and after its passage, approval, recording, and publication as provided by law. Passed and adopted by the Board of Trustees of the Town of Akron, Indiana, on the 30th day of June, 1970.

BOND SALE NOTICE TOWN OF AKRON, INDIANA

Sealed proposals will be received by the Clerk-Treasurer of the Town of Akron, Indiana, in the Town Hall in said town, until 2:00 P. M. (EDT) on the 4th day of August, 1970, for the purchase of the following described revenue bonds of said town:

Sewage Works Revenue Bonds; Total issue \$315,000; Dated August 1, 1970; Denomination \$1,000 or \$5,000; the option of the purchaser; Interest not to exceed 8% per annum (the exact rate or rates to be determined by bidding) payable on February 1, 1971, and semi-annually thereafter on dates payable as to principal; Principal and interest payable at the Akron Exchange State Bank, Akron, Indiana, or at the option of the holder at The Indiana National Bank, Indianapolis, Indiana. Fixed maturities on August 1 in the years and amounts as follows:

Years	Amounts
1972	\$ 5,000
1973	10,000
1974-1977 inclusive	15,000
1978-1982 inclusive	20,000
1983-1984	25,000
1985-1987 inclusive	30,000

The bonds maturing on August 1, 1981, and thereafter, are redeemable at the option of the Town on February 1, 1981, or any interest payment date thereafter, in whole or in part, in their invoice maturity order, at face value, plus the following premiums:

- 4% if redeemed on February 1, 1981, or thereafter prior to or after August 1, 1984;
2% if redeemed on February 1, 1985, or thereafter prior to maturity;

plus in each case interest to the date fixed for redemption, provided notice of such redemption shall be given at least thirty days prior to the redemption date by one publication in a newspaper published in Fulton County and of general circulation in the Town of Akron and in a newspaper or financial journal of general circulation published in the City of Indianapolis, Indiana.

Each bid must be for all of said bonds and must state the rate or rates of interest, not exceeding 8% per annum, in multiples of 1/8 or 1/10 of 1%. Not more than three different interest rates shall be named in any bid, and bids specifying two or more interest rates shall also specify the amount and maturities of the bonds bearing each rate, but all bonds maturing on the same date shall bear the same rate. A rate may be repeated without constituting a different bid. The interest due on any bond or any interest payment date shall be represented by a series of interest coupons. The difference between the highest rate and the lowest rate specified in a bid shall not exceed 2%. The award will be made to the highest qualified bidder complying with the terms of sale and offering the lowest net interest cost to the Town, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any. It is requested that each bid show the net interest cost to final maturity and the net effective average interest rate. No bid for less than the par value of said bonds, including accrued interest from the date thereof to the date of delivery, will be considered. Each

bid shall be enclosed in a sealed envelope addressed to the undersigned Clerk-Treasurer, and marked on the outside "Bid for Sewage Works Revenue Bonds," and must be accompanied by a certified or cashier's check in the amount of \$3,500, payable to the Town of Akron, as a good faith deposit to secure the bidder against any loss resulting from the failure of the bidder to comply with the terms of his bid. The successful bidder shall make payment for the bonds and accept delivery thereof within five days after being notified that the bonds are ready for delivery, at such bank in the City of Indianapolis as he shall designate in writing to the Clerk-Treasurer. Checks of unsuccessful bidders will be returned immediately following the award of the bonds. The bonds will be ready for delivery within approximately thirty days after the date of sale. The failure of the successful bidder to pay for and accept delivery of the bonds as herein provided shall constitute default and entitle the Town to retain such check and the proceeds thereof as its agreed liquidated damages.

The unqualified approving opinion of Ice Miller Bondi Byers, counsel of Indianapolis, together with the printed bonds, a transcript of the proceedings had relating to the issuance of said bonds, and the usual certificates showing no litigation pending in said town. No additional bids will be considered. The right is reserved to reject any and all bids if an acceptable bid is not received at the time herein fixed, the sale will be continued from day to day thereafter without further advertisement for a period of thirty days, during which time no bid which is lower than the highest bid received at the time of the advertised sale will be considered.

Said bonds are being issued for the purpose of financing, together with federal and state grants in aid of construction, the cost of the sewage works to be constructed, owned and operated by the Town of Akron, pursuant to Ordinance No. 6-9-70-1, adopted by the Board of Trustees of said town on the 30th day of June, 1970. A copy of said ordinance, and the engineering and financial data, may be examined in the office of the Clerk-Treasurer in said town. All bidders shall be deemed to be advised of the provisions of said ordinance, as to the extent and character of the sewage works on account of which said bonds are being issued, and the revenues estimated to be received therefrom. Said bonds are being issued under the provisions of said act, the bonds herein offered, and all acts supplemental thereto, and pursuant to the provisions of said act, and they will not constitute an indebtedness of the Town within the provisions and limitations of the constitution of the State of Indiana.

Further information relative to the sewage works project may be obtained upon application to the undersigned Clerk-Treasurer or to James McQueen, P. O. Box 5, Plymouth, Indiana 46563.

Dated this 1st day of July, 1970.

Taking The Hell Out of Living

Whoever it was who said, "Hell is other people," obviously was a man of experience.

He had learned, as we all do, the worst pains of life stem from interpersonal relationships. No hell could be worse than the misery we suffer through conflict or rejection.

Who has not known the deep hurt resulting from the opposition or hatred of others? Who has not known the bleak loneliness of being rejected?

Our worst moments are those when anger or dislike or misunderstanding separates us from the love and esteem of others.

This is true especially when the other is a member of our own family. Yet, the hell of broken bonds within the home is familiar to most of us—husband against wife—father against son—brother against brother.

Somehow, in many homes, dissensions, strife, lack of communication, and rejection of each other is the order of the day. There is an atmosphere of tension and strain almost unbearable. The members of that family actually live in a sort of hell.

It is hard for individuals to live together in any society. All our built-in prejudices erect barriers between us. The sort of home we came from—the kind of values we were taught—tend to divide us. We use the yardstick of our own limited understanding to measure the worth of others and thus exclude them if they do not think and act as we do. How unfortunate

that so much of life is ruined simply because our different backgrounds make friendship so difficult.

But, there is a better way—a way of love, of understanding, of acceptance. A way which knows how to forgive the frailties of husband or child or wife or neighbor. A way which has the power to replace hatred with love, and conflict with peace. In short, a way that can take a lot of the hell out of living. It is God's way. And it is available to everyone who sincerely seeks it. Its doorway is as close as your nearest place of worship.

Burket W S C S Has Meeting

Members of the Burket WSCS met recently at the church. The spiritual leader, Mrs. Riley Parker, led devotions, after which the group joined in singing "My Country 'Tis of Thee" and

"America, the Beautiful".

Mrs. Ruth Urschel, a district W.S.C.S. officer, presented an informative and enjoyable talk on her recent trip to WSCS International Assembly at Houston, Texas.

A storm during the talk caused the electricity to go off, but members reported this seemed to make the message more meaningful.

A fresh fruit salad was served from a watermelon basket by the hostesses, Mrs. Garvin Eaton, Mrs. Guido Davis, Mrs. Riley Parker and Mrs. Claude Swick.

Special Service Set By Brethren V.B.S. Classes

The Church of the Brethren will have their closing D.V.B.S. program Sunday at 7:30 p.m. The main feature of the evening will be a picture of Nigeria, Africa entitled, THE NEW NIGERIA. Mr. Yedima, a native of Nigeria and a senior at Manchester College, will be present to explain the picture of Nigeria. Mr. Yedima plans to be a doctor and eventually return to minister to his own people.

The children will also have a part in the program and display some of their class work.

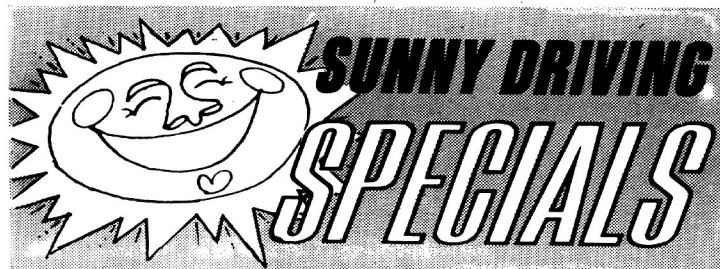

It Isn't Your Town - - It's You

If you want to live in the kind of town like the kind of town you like, You needn't slip your clothes in a grip and start on a long, long hike.

You'll only find what you left behind. For there's nothing that's really new. It's a knock at yourself when you knock your town. It isn't your town—it's you.

Real towns are not made by men afraid, Lest somebody gets ahead, When everybody works and nobody shirks, You can raise a town from the dead.

And if while you make your personal stake, Your neighbor can make one too, Your town will be what you want to see, It isn't your town, it's you.

Silver Lake Area News

Roving over the countryside around the Silver Lake community, I wondered where everyone could be going in such a hurry. Like everyone else, they had great plans for the 4th of July weekend. Disappointed somewhat with the weather being on the cool side Saturday, the good old sun, not letting us down, later came out to everyone's delight. Here are just a few of the good times some of our people in the community had:

Mr. and Mrs. David Kinsey and family of Bloomington, Ind., were weekend guests of Mr. and Mrs. Jim Leiter and daughters. Mrs. Kinsey and children spent the 4th visiting relatives at Akron, at the homes of her aunts, Mrs. Chas. Moore and Mrs. Neil Kuhn.

Mrs. Helen Kinsey, a former resident of Silver Lake, now of Warsaw, had her son, Mr. David Kinsey, visiting her on the 4th.

Mrs. Arley Ring celebrated her 83rd birthday, Friday, July 3, with her immediate family, Mr. and Mrs. Clifford Ring and granddaughters. The following friends and relatives visiting her also were: Mrs. Florence Bunch, her mother, Mrs. Lightfoot; Mr. and Mrs. Chet Bashore, Mrs. Vernon Bechtelheimer, Mr. and Mrs. Foster Parker, and Mrs. Glenna Rousch.

Mr. and Mrs. David Baker were Sunday evening guests of Mr. and Mrs. Rex Clinker.

Mr. and Mrs. Lewis Fruit and David, are back at their home in Silver Lake after spending several days at their trailer on Big Chapman Lake.

Mr. and Mrs. Charles Surlovd, of Los Angeles, Calif., left this week after having spent three weeks in the area visiting relatives and friends. She is the former Rita Grubb.

Mr. and Mrs. Larry Puls spent the holiday weekend in Wentzville, Missouri, visiting Mr. and Mrs. Dan Zile.

Mr. and Mrs. Vernon Bechtelheimer of Venice, Fla., are visiting relatives and friends in this area. They are parked at Walsh Trailer Court.

Dr. and Mrs. P. H. Pierson, Mike and Diane, of Eugene, Oregon, are visiting with his parents in Anderson and friends in the Silver Lake and Warsaw areas.

Mr. and Mrs. Dave Williams visited recently with Mr. and Mrs. Dan Zile at Wentzville, Missouri, while enroute to their new home in Denver, Colorado. She is the former Sally Grubb.

The Silver Lake Camping Club, the Wagon Dragons, spent the 4th of July weekend at Pike Lake, with the following families camping:

Mr. and Mrs. Ronnie Richards, Mr. and Mrs. Herschel Taylor, Mr. and Mrs. Frank Jones, Mr. and Mrs. Bill Summe, Mr. and Mrs. Estil Collins, Mr. and Mrs. Oliver England, Mr. and Mrs. Joe Spacy. Guests attending were Mr. and Mrs. Oliver England, Mrs. Carol Robins and Mr. and Mrs. (Red) Zimbleman. An added attraction to the Wagon Dragons camping was a surprise carry-in supper honoring Mr. and Mrs. Joe Spacy, who were celebrating their 25th

wedding anniversary. They were married July 3, in the No. Manchester Methodist Church by Rev. Jones, now pastoring in New Haven, Ind. Mrs. Spacy is the former Kathryn Wright of Silver Lake.

Mr. and Mrs. Clifford Ring and granddaughter, Jo Lane Leiter, spent several days visiting points of interest in Indiana.

Mr. and Mrs. Jim Leiter, Susan and Sarina, spent several days before the 4th enjoying the sun at Salamonie Reservoir.

Serita Leiter Is NEWS Correspondent

Mrs. Jim Leiter is now the NEWS correspondent for the Silver Lake area. The former Serita Ring, daughter of Mr. and Mrs. Clifford Ring,

she is the mother of three daughters, 12, 11 and 8, and has been active in community affairs, recently serving as the census enumerator for the area.

Anyone having news items may call her. She will also sell subscriptions and advertising.

Summit News . . .

Mr. and Mrs. Harvey Arthur and daughters, Mr. and Mrs. Elwood Arthur spent the weekend at Lukens Lake camping.

Mr. and Mrs. Dean Bammerlin and family, Mr. and Mrs. Keith Butt, and Mr. and Mrs. Lyle Butt and sons were Sunday guests of their mother, Mrs. Vera Butt.

Mr. and Mrs. Lyle Bammerlin and Beth attended the Fites reunion at the Akron Park Sunday.

Mrs. Vera Butt, Mr. and Mrs. Lyle Bammerlin and Beth called on Mrs. Ruth Bammerlin, who is recovering from a leg infection, on Sunday evening.

Mr. and Mrs. Harvey Arthur and daughters enjoyed a cook-out Sunday evening at the home of Mr. and Mrs. Wendell Scott and sons. Others enjoying the cook-out were Mr. and Mrs. Larry Sheetz and sons, and Mr. and Mrs. Sam Cannedy and sons.

Day

Mrs. Mae Day, 93, a lifetime resident of Akron, died Sunday morn- ing at her residence. She had been in failing health for several years.

The daughter of Will- iam and Clarissa McQuern Wood, she was born Aug. 31, 1876 in Fulton Co. She was married to Chas. E. Day, who died in 1946.

A member of the Akron United Methodist Church, the W.S.C.S. of the church and the Rochester DAR chapter, she was an honorary member of the Akron Woman's Club.

Surviving are two sons, Joe Day, Akron, and Earl Day, West Hol- lywood, Fla.; two grand- children, Dick Day, of Akron, and Pat. Quinn, West Hollywood, and four great-grandchildren.

Funeral services were conducted Tuesday after- noon at the Hauptert Fun- eral Home with Rev. John Moore and Rev. Claude Fawns officiating. Bur- ial was in the Akron cemetery.

Gill

Wilbur J. (Doc) Gill, 75, Warsaw, died Satur- day evening at Murphy Medical Center where he had been a patient one week.

Mr. Gill was an auc- tioneer for many years and operated the former Gill's Grill and Gill's Motel in Warsaw in ad- dition to being Justice of the Peace. He was a past member of the Am- erican Legion and was a member of Mizpah Shrine and Scottish Rite of Ft. Wayne. He was a veteran of World War I.

The son of John and Florence Alspaugh Gill, he was born June 18, 1895 at Silver Lake. He married the former Dor- othy L. Hoppus on Aug. 3, 1919, and she sur- vives with two sons, Wil- bur J. Gill, Saratoga, Calif., and Robert A. Gill, San Jose, Calif.; a brother, Calvin R. Gill, Plymouth, and two sisters, Mrs. Joe (Chloe) Schilling, Plymouth, and Mrs. Percy (Ruth) Ring, Silver Lake. Two broth- ers and a sister preced- ed him in death.

Funeral services for Mrs. Gill were conduct- ed Wednesday afternoon at Warsaw. Burial was in the Oakwood cemetery.

The trouble with being a good sport is that you have to lose to prove it.

Grass

William H. Grass, 75, R. 2, Warsaw, died Fri- day morning at Murphy Medical Center.

Born May 16, 1895 in Marshall Co., he was a lifetime resident of the Mentone area.

Surviving are his wife, the former Nellie Myers, whom he married July 27, 1915; a son, Lloyd Grass, Plymouth; a daughter, Mrs. Harvey (Wilma) Grosvenor, of Plymouth; two brothers, John Grass, Elkhart, and Russell Grass, So. Bend; two sisters, Mrs. Rosa Widner, So. Bend, and Mrs. Howard Smith, Ft. Wayne; two grand- children and two great-grandchildren.

Funeral services were conducted Sunday after- noon at the King Memor- ial Home, Mentone, with T. R. Jones officiat- ing. Burial was in the Sycamore cemetery, lo- cated southwest of Men- tone.

Henry

Mrs. Burley Vance Hen- ry, 85, a resident of the Silver Lake commu- nity since 1918, died Thursday at the Prairie View Rest Home where she had resided the past three years.

Born Sept. 6, 1884 in Starke Co., she was the daughter of Daniel and Catherine Bolinger Van- ce. In 1903, she was united in marriage to L. O. Henry, who preceded her in death in 1963. She was a member of the Seventh-day Adventist Church.

Surviving are a daugh- ter, Mrs. Robert (Anna) Lehmer, Silver Lake; and a brother, Leyman Vance, Claypool; three grand- children and two great-grandchildren. One son preceded her in death.

Funeral services were conducted Friday after- noon in Silver Lake and burial was at the Lake- view cemetery.

Sediment Polluting Water Bodies

Four billion cubic yards of sediment is polluting our nation's rivers, lakes, and other bodies of water each year. This fact was stated by Harold Wilson, President of the Indiana Association of Soil and Water Conservation Districts, during a recent discussion of environmental problems facing our state. He points out that aside from reducing the amount of water which can be stored in lakes and reservoirs, sediment also poses a serious threat to public health and safety. In support of this fact Wilson warned that sediment could carry other harmful pollutants into public water supplies to interfere with water treatment operations and increase purification costs.

He said that local soil and water conservation districts have,

for the last 30 years, assisted rural land owners to reduce pollution through good land use and erosion control measures. Unfortunately, during this time, little attention was given to erosion associated with suburban development. Facts indicate that sediment coming from development areas may be as much as 500 times greater than from areas of comparative size in rural locations.

Wilson stated that in many locations, Indiana SWCD's are joining with county commissions and other local public bodies to develop and carry out an erosion control program for developing urban areas. He feels that many of the conservation methods used to stop erosion on farm lands can also be used to keep soil in its place in suburbia and urban Indiana. Wilson referred to a recent guide called COMMUNITY ACTION GUIDEBOOK FOR SOIL EROSION AND SEDIMENT CONTROL. This publication prepared by the National Association of Counties Research Foundation offers excellent suggestion for organizing a sediment control effort at the county level. It cites many examples of successful ventures of this type in other states, which could well serve as patterns to use in Indiana.

Wilson indicates that, in every case, strong emphasis is placed on local leadership and citizen participation. He feels this is right because a quality environment in Indiana can only be gained by everyone working together to plan and carry out what is needed through strong local leadership.

Former Resident Named To Live Savers Club

Larry Tad Henderson, a former Akron area resident and husband of the former Patricia Burkett, has been admitted to membership in the Fort Wayne-Allen Co. Life Savers Club. An employee of Indiana and Michigan Electric Co., he is the 55th member of the exclusive organization that is sponsored by the Ft. Wayne Chamber of Commerce Public Safety Committee. Raymond W. Brandt,

chairman of the committee, said Henderson and his wife were returning from a Wisconsin vacation where they discovered a lineman employed by Northern Indiana Public Service Co. who had received a severe shock while working 45 feet above the ground. Rescue workers had been unable to free the man from the utility pole.

Henderson used a hook ladder to climb to the man, secured him to the pole to prevent him from falling. He then called for a bucket truck to remove the injured man. When it was discovered no truck was immediately available, Henderson improvised a rope harness and with the assistance of NIPSCO workers and firemen, lowered the man to the ground. The injured man was admitted to Parkview Hospital at Plymouth where he was treated and released a few days later. He suffered electrical burns.

Henderson, who lives near Leo with his wife and daughters, said, "My greatest fear was that he would fall. He was standing on cleats with his right arm through a crossbrace,

without a safety belt. While climbing up to him he told me he could not hold on, so I talked to him as I went up." The rescue operation took about 30 minutes.

Henderson was a lineman with Rural Electric Membership Corp. for seven years and had received training in handling linemen emergencies. He now works in the sub-station division of I & M.

Mentone plans 2-day festival

Two days of sidewalk sales and contest coupled with a homecoming will lend a festival-like atmosphere to Mentone this weekend when the annual Mentone Days celebration is moved uptown and new events are added to it.

The celebration was moved to the uptown area to give visitors a better opportunity to participate in the events. One new feature that will please antique buffs is the antique row sale that will be held on North Broadway. A number of area dealers will have merchandise for sale at these booths.

Opening Friday's festivities will be a pancake and sausage supper, a band concert and a tractor pull.

On Saturday there will be a pony pull, a chicken barbecue, a ball game, a fly-in and a greased pig contest.

A complete schedule of events and their locations can be found in an advertisement in this week's paper.

Senior Pictures To Be Shown At Akron High

Seniors at Akron High School will meet at the high school from 6:30 until 8:30 p.m. Thursday, July 30, to place orders for their class pictures. The photographer, Mr. Waltze, will also be present.

Committee chairmen are the following:

Pancake and sausage supper, Gerald Romine and Chet Smith, co-chairmen; Booths, Zanna Hammer and Darrell King; Square Dance, Jim Tibbets; Concert, Darrell King and Herb Linn; tractor pull, Rick Doud; chicken barbecue, Jim Gates; kiddie parade, Dave and Ray Cooper; pony pull, Joe Heddington and Mark Surface; greased pig contest, Tom Alvey and John Feldman; fly-in, Chick Herenden.

Rev. Don Poyser is in charge of the gospel singing and Wayne Baker is in charge of sound equipment. Wm. Ettinger is chairman of the drawing.

No Queen Contest This Year

Announcement was made this week that the Miss Fulton County queen contest has been abandoned by the fair board because of lack of entries.

President of the fair board Richard Burkhardt said: "It is with deep regret that we announce that there will be no queen contest this year. We had only five entries and this is not enough to be representative of the county or to justify the time, effort and expense of a contest."

Burkhardt said the addition of talent to the requirements this year had created a stumbling block for the entrants. The change allotted 30 percent importance on talent while reducing the swimsuit to 10 percent.

The change was made to comply with the state fair requirements. The winner of the county contest represents the county in the state contest.

It is hoped that the contest can resume next year. No replacement has been arranged for the queen contest on the 4-H fair calendar. The contest was to be July 25 and the fair is set for July 26 - August 1.

Waymire Killed In Vietnam

The Vietnam war has claimed the life of another area serviceman, Specialist Fourth Class Michael Karl Waymire, 21, R. 2, Macy, who was killed Sunday in Phu Bai, Vietnam, when his night defensive position came under attack.

He had been in Vietnam since March. He joined the army in July, 1968, and at first he was in an infantry outfit but he later transferred to a supply division. He was employed as a mechanic at Bahney Chevrolet Sales in Akron before he entered the army.

The son of Vernon and Martha Karl Waymire, he was born June 12, 1949 at Wabash. His marriage to the former June Radene Murphy was Nov. 30, 1969 in Chili.

A lifetime resident of the Macy area, he was a 1967 graduate of No. Miami High School and had participated in MYF, 4-H, band and had ranked in the upper third of his class scholastically. He was a member of the Chili United Methodist Church.

Surviving are his wife and parents; grandparents, Mr. and Mrs. Vern

Waymire, Rich Valley; three brothers, Kurt, Max and Kerpny, all of R. 2 Macy.

Funeral services for Sp/4 Waymire were conducted Tuesday afternoon at the Chili United Methodist Church. Burial was in the Gilead cemetery.

Named To BSU Roll Of Honor

Several students from this area have been named to the Registrar's Roll of Honor for the spring quarter at Ball State University, according to Dr. Leo M. Hauptman, registrar.

They are Sharon Leckrone, Akron; Steven E. Cain, R. 6, Rochester; Rebecca M. McDaniel, Atwood; John M. Romine, Mentone; and Marlene A. Brallier, R. 5, Warsaw.

To qualify for this honor a student must have earned a grade ratio of 4.0 or straight A's for the quarter with a load of 12 or more hours.

THE MENTONE AIRPORT RUNWAY FUND gets a \$600 boost as Darrell King, right, president of the Mentone Flying Club, presents a check for that amount to Paul Haist, president of the Mentone Chamber of Commerce. The check represents the profits from the Flying Club's recent chicken barbecue.

Tax Rate Is Set

Tax rates for the last of Fulton county's governmental units, Henry and Newcastle townships and the town of Akron, have been certified by the State Tax Board.

Henry's rate was set at \$5.49 per \$100 assessed valuation, down 83 cents from the \$6.32 of 1968, payable in 1969. Newcastle's was set at \$5.43, down 90 cents from \$6.33. Akron's was set at \$7.35, down 95 cents from \$8.30.

County treasurer Henry Skidmore said tax duplicates will be in the mail next week for residents of the two townships and the town and that deadline for paying the first installment of taxes will be 15 days from postmark.

Rates for Henry, Newcastle and Akron were delayed because they are in the cross-county Tippecanoe Valley School Corporation with three Kosciusko county townships. The TVSC rate

was not set until last week. It had been delayed because of an appeal on the school general fund proposed rate of \$3.525. The State Tax Board upheld the appeal, cutting the rate to \$3.12 because of underestimation by the school board of December taxes and miscellaneous revenue.

The spring installment of taxes that Henry, Newcastle and Akron residents will pay soon is the one normally due the first Monday in May.

Certification of all rates in Fulton county, as well as many other Hoosier counties, was delayed because of problems related to the reassessment of real estate earlier in the year.

ODDS and ENDS

By Ann Sheetz

It's a medical fact that a pound of body fat equals 3500 calories. To lose that pound of fat, a person must burn up that many calories. It sounds simple and there are a lot of ways it can be done so it's not surprising in our calorie conscious culture that someone would search for methods that will do it faster than others. The makers of a new series of charts have been successful in their search.

For instance, they have discovered that skating burns 600 calories per hour while watching television uses only 25 and walking upstairs and down uses 800 of those weight-putters on while playing cards uses only 25.

Our family is no different than any other family. We all weigh too much. Three of us, mama and the two little Sheetzs, worry about this fact and we read everything and try most of it. We won't discuss the fourth member who blithely ignores all our efforts unless it is to occasionally laugh at our feeble attempts to keep physically fit and slim and trim.

Looking over a new chart, it was easy to see why I am in the shape I am. My favorite activities require little energy: Eating 50; Reading 25; Sewing 50; Typing 50. I could see that I could eat little except lettuce and possibly half an apple to keep my calorie intake-outgo in balance. More drastic measures were needed. I ignored such obvious items as bed making (300), gardening (250), calisthenics (500), running fast (900) and studied the sports.

The only thing I do worse than sports participation is singing and that takes only 50 calories an hour but swimming (rapidly) takes 800 and dancing a fast step takes 600. I can't do either of those so I worked down the list to walking leisurely (200) and walking fast (300). I like these, but the problem is where to walk? The fields are too full of pollen and the roads are too full of people who think my car has broken down and insist on driving me back home. Finally, I saw it. The perfect solution: Cycling slowly (300) or strenuously (600).

I got a bicycle. Saturday was the first time the three of us had an opportunity to try to burn up any calories. Feeling like a mother hen, I insisted the boys follow me. It soon became apparent they were burning up 600 calories an hour while I huffed and puffed to burn up 300. Todd would yell,

"Doug, quit hitting the rear of my bike," and Doug would shout back, "Go faster." Todd would growl, "I can't if I have to stay behind her." And I snapped back, "If you're going to fight, we can't come any more."

The return trip was better. I let them lead the way at 600 calories an hour while I trailed along at my 300 speed. It was then I noticed a hawk circling lazily in the sky and his mood seemed to match my own, prompting an outburst of song. Cruising happily along, burning 350 calories an hour (much better than a mere 300), I didn't let my lack of ability slow me for a second. "Up a lazy river---how happy we would be." There were a lot of blank spaces because I didn't know the words but the rest didn't sound too horrible as my bike eased its way up and down the hills. I noticed we picked up two more riders so that there were now five of us burning up untold numbers of calories and feeling a bit like the Pied Piper, I congratulated myself on our choice of reducing aids.

Soon, however, four bikes parked themselves across the road, and with hardly a second to spare I finally stopped my brute with the hand brake. Being used to a coaster brake and making the change to a hand brake is difficult, and I was proud that I hadn't hit any of the four young cyclists. One look at them and I knew everything wasn't completely right with the world.

Todd, as the oldest, was the spokesman, "Mom, if you're going to sing, you can't go with us anymore."

"Not at all?" I asked, the lazy river drifting away.

"Not at all," he said. "You're a good mother, but one thing you have to admit is you sure can't sing."

Burning only 300 calories an hour and feeling slightly deflated, I creaked back home.

Next time, I wonder if they'd care if I hummed? It's not listed on the calorie chart but it ought to be good for something until I get good enough on my bike to burn up 600 calories an hour.

SPACE and AERONAUTICS

A YEAR AGO
WASHINGTON—A year ago, July 20 at 10:56 p.m. EDT, to be precise, Astronaut Neil Armstrong placed his left foot on the surface of the Moon and uttered the now-famous words for all the world to hear, "That's one small step for a man, one giant leap for mankind."

Eighteen minutes later Astronaut Edwin "Buzz" Aldrin joined Armstrong on the lunar surface and together they read the plaque which remains on the Moon. Inscribed are these words: "Here Men From the Planet Earth First Set Foot Upon the Moon, July 1969, A.D. We Came In Peace For All Mankind."

July 1969, A.D. Anno Domini for the year of Our Lord—how will that year be recorded by the historians? Does that time, so precisely marked by that first footprint on the Moon, end one age for man and herald the beginning of a new one?

Historians have devised ways to reckon time and bracket eras and periods into neat packages. Religious historians use the Latin, Anno Mundi, for the Age of the World and the years in our time are Anno Domini years.

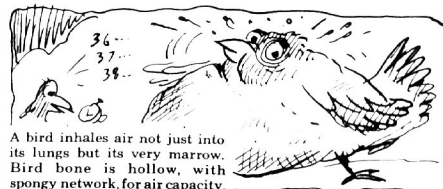

There have been other categories like the Prehistoric Age, the Age of Exploration and more recently the Machine Age, the Atomic Age and the Space Age.

But whatever the age or the period or the method of reckoning time, throughout the history of man he has always had his eye on the Moon, wondering about its

mysteries and dreaming one day to explore it. Now, just a year ago, man has done this, and this great dream and aspiration long held by man has been realized.

So now there are all those aeons before the lunar landing by man, and that short one year since this epochal event, the time when man left Earth and physically extended his influence to another planet.

We simply take note of the first anniversary of man's landing on the Moon. But some historians, exercising their prerogative to mark that very precise date—July 20, 1969 A.D.—more auspiciously for the history books of tomorrow, may well devise another way of reckoning time after this event. Thus, it is not unlikely that our scholars may record time from the manned lunar landing at 1 A.L. for 1 Anno Adventis ad Lunam, which roughly translated from our even rougher Latin means the first post lunar year. Latin scholars may argue with our Latin, but historians will not quarrel with the fact that on July 20, 1969 at precisely 10:56 p.m. Eastern Daylight Time, an era ended for man and a new one began.

SWCD Members Plan 4-H Tour

The Board of Supervisors of the Kosciusko Co. Soil and Water Conservation District held their July meeting at the conservation office at Warsaw.

The tour for 4-H club members with conservation projects is planned for July 15. A bus will leave the courthouse at 9 a.m. to view conservation practices on the farms of Guy Cripe, Rex Parker, Fred Leasure and Perry Hathaway. A picnic lunch will be enjoyed at the Fred Leasures beside their farm pond. Homemade ice cream will be served at the Hathaways before the group returns to the starting point at 3 p.m.

The District has received applications from 19 boys who will attend McClure and Olive Lake Conservation camps. They are David Maxwell, Nathan Clark, Jeffrey Barnett, Mark Sand, Gary Snook, Tom Lowman, Timothy Swick, Mark Swick, Carl Diehl, David Bartley, David Conley and Rich Henrikson, all attending McClure, and Brian Tucker, Ted and Tom Taylor, Dan Mast, Don Buhrt, Tony Hoover, and Ron Beer, all going to Oliver.

Hereford Picnic Attended By Local People

The Northern Indiana Hereford Association held its meeting and picnic recently at the Shafer Lake home of Mr. and Mrs. Oscar Baer.

Paul Brucker, president, presided at the meeting in which the future sale was discussed and the sale date was set for Sept. 12 at the Marshall Co. fairground at Argos.

All members were given sale bills to distribute for the sale. Attending the picnic with guests were Mr. and Mrs. Keith Vance, Peru; Mr. and Mrs. Geo. Greives and family, Chalmers; Mr. and Mrs. Geo. Miller and family, Lebanon; Mr. and Mrs. Gilbert Beach and family, Granger; Dr. and Mrs. David Bechtel and son, Goshen; Mr. and Mrs. Russell Easterday, Culver; Mr. and Mrs. Dee Nellans, Argos; Mr. and Mrs. Ralph Nelson, Walton; Mr. and Mrs. Carl Nelson, Mr. and Mrs. Larry Mason and family, Walton; Mr. and Mrs. Larry Taplor and son and Mr. and Mrs. Dan Auld, Walkerton; Russell Boggs of Plymouth; Mr. and Mrs. Gale Laudale, Bremen; Mr. and Mrs. Paul Brucker and family, Rochester and the host family, Mr. and Mrs. Oscar Baer and son.

and the SCS personnel were enthusiastic in their reports of a joint meeting with the Cass Co. Michigan district. They enjoyed a tour of the Russ State Forest where research is conducted by Michigan State University and had a dinner at a Cassopolis restaurant with the Cass Co. SWCD as hosts. An impromptu program was presented by the local group before returning home.

Dave Harman, a student trainee with SCS and, District Conservationist Joe Wilson attended a meeting concerning the Wabash River Basin. There is a study underway designed to develop full potential of all water resources in the basin. The Eel River, which runs through the southeast corner of the county, is included in this study.

In a report of SCS activities, Conservationist Wilson told of assistance given to Wawasee Prep in planning an athletic field. A geology review of the county was conducted July 7 and 8 by soil scientists and geologists from Purdue University, Soil Conservation Service and members of the Indiana Geological survey team.

Larry Staley, a soil scientist who has been working in a Pennsylvania district, will move to this area later this month and will be assigned to the Warsaw office until the Kosciusko Co. soil survey is completed.

One cooperator, Russell Harman, Plain Twp., was accepted.

The next meeting will be held one week later, on Tuesday, August 11.

That man Johnson may carry the pugilistic belt a long time. He seems to be a mighty powerful man, but too many people including Jeffries believed him to be an awkward black man and that Jeffery science would put him out of the ring...The Monticello Herald says The prize fight is over, and the sporting world is chagrined at the result. They bet mostly on the wrong man, the odds being 10 to 6 in favor of Jeffries up to the hour of battle....If Johnson's victory has checked the ardor of humanity for seeing each other slugged and battered, the fight was not an unmixed evil, and such seems to be the tendency at the present time. Whether the appetite for such brutal exhibitions continues or not, it is likely that this country has seen its last big prize fight. Nevada was the last ground they had to stand on, and after this year even that State will be closed to them.

It will be remembered that the Board of Commissions of Fulton county, some months ago contracted with the United States Voting Machine Company to supply this county with twelve voting machines, which are to be used at the next November election. The company will deliver the machines to their destinations during the month of August, and then the business of educating the voters in the use of the device will begin in earnest.

This town abounds almost everywhere with electric wires, but we cannot use a bit of electricity to run our fans in the business rooms. Enterprise should develop a scheme so that we could have daylight electrical service in Akron. Uses for electricity would soon multiply and in two years time we would wonder how we ever got along without day service, we would see how slow we are.

A large barn on the Walter Haines farm west of Claypool, with a lot of new hay and some harness burned to the ground early Wednesday morning. The fire was thought to have started from cigarettes left by a tramp who slept there Tuesday night.

One of the oldest churches in this part of the state burned to the ground Saturday morning at Green Oak, four miles south of Rochester. It was known as the Green Oak community church, and was built 65 years ago. Services had only been discontinued a few days ago. It is thought the fire started from an incinerator placed at the back of the church lot for the convenience of tourists who often used the yard as a camping spot. The church was rifled of rugs and furniture by vandals a few weeks ago.

Akron school patrons voted 149 to five last Wednesday night to join the Kosciusko county school corporation which is proposed for the southwestern part of the county. The new corporation would include Etna, Harrison, Franklin, Seward and Prairie townships in addition to the local corporation and would be much larger in enrollment and have ample resources to build a new high school building. Under this plan there would be approximately 2,250 students with a property valuation of \$25,000, 000. Total debt at present would be \$300,000 of which nearly one-third would be Henry township's. The results of the meeting held here under direction of the local committee will be given to the county committee and they will make final plans for the entire county. Then this proposal will be submitted to the state group for final ratification or voting.

But whatever the age or the period or the method of reckoning time, throughout the history of man he has always had his eye on the Moon, wondering about its

mysteries and dreaming one day to explore it. Now, just a year ago, man has done this, and this great dream and aspiration long held by man has been realized.

So now there are all those aeons before the lunar landing by man, and that short one year since this epochal event, the time when man left Earth and physically extended his influence to another planet.

We simply take note of the first anniversary of man's landing on the Moon. But some historians, exercising their prerogative to mark that very precise date—July 20, 1969 A.D.—more auspiciously for the history books of tomorrow, may well devise another way of reckoning time after this event. Thus, it is not unlikely that our scholars may record time from the manned lunar landing at 1 A.L., for 1 Anno Adventis ad Lunam, which roughly translated from our even rougher Latin means the first post lunar year. Latin scholars may argue with our Latin, but historians will not quarrel with the fact that on July 20, 1969 at precisely 10:56 p.m. Eastern Daylight Time, an era ended for man and a new one began.

SWCD Members Plan 4-H Tour

The Board of Supervisors of the Kosciusko Co. Soil and Water Conservation District held their July meeting at the conservation office at Warsaw.

The tour for 4-H club members with conservation projects is planned for July 15. A bus will leave the courthouse at 9 a.m. to view conservation practices on the farms of Guy Cripe, Rex Parker, Fred Leasure and Perry Hathaway. A picnic lunch will be enjoyed at the Fred Leasures, beside their farm pond. Homemade ice cream will be served at the Hathaways before the group returns to the starting point at 3 p.m.

The District has received applications from 19 boys who will attend McClure and Olive Lake Conservation camps. They are David Maxwell, Nathan Clark, Jeffrey Barnett, Mark Sand, Gary Snook, Tom Lowman, Timothy Swick, Mark Swick, Carl Diehl, David Bartley, David Conley and Rich Henrickson, all attending McClure, and Brian Tucker, Ted and Tom Taylor, Dan Mast, Don Buhr, Tony Hoover, and Ron Beer, all going to Oliver.

Hereford Picnic Attended By Local People

The Northern Indiana Hereford Association held its meeting and picnic recently at the Shafer Lake home of Mr. and Mrs. Oscar Baer.

Paul Brucker, president, presided at the meeting in which the future sale was discussed and the sale date was set for Sept. 12 at the Marshall Co. fairground at Argos. All members were given sale bills to distribute for the sale.

Attending the picnic with guests were Mr. and Mrs. Keith Vance, Peru; Mr. and Mrs. Geo. Greives and family, Chalmers; Mr. and Mrs. Geo. Miller and family, Lebanon; Mr. and Mrs. Gilbert Beach and family, Granger; Dr. and Mrs. David Bechtel and son, Goshen; Mr. and Mrs. Russell Easterday, Culver; Mr. and Mrs. Dee Nellans, Argos; Mr. and Mrs. Ralph Nelson, Walton; Mr. and Mrs. Carl Nelson, Mr. and Mrs. Larry Mason and family, Walton; Mr. and Mrs. Larry Taplor and son and Mr. and Mrs. Dan Awald, Walkerton; Russell Boggs of Plymouth; Mr. and Mrs. Gale Laudale, Bremen; Mr. and Mrs. Paul Brucker and family, Rochester and the host family, Mr. and Mrs. Oscar Baer and son.

and the SCS personnel were enthusiastic in their reports of a joint meeting with the Cass Co. Michigan district. They enjoyed a tour of the Russ State Forest where research is conducted by Michigan State University and had a dinner at a Cassopolis restaurant with the Cass Co. SWCD as hosts. An impromptu program was presented by the local group before returning home.

Dave Harman, a student trainee with SCS and, District Conservationist Joe Wilson attended a meeting concerning the Wabash River Basin. There is a study underway designed to develop full potential of all water resources in the basin. The Eel River, which runs through the southeast corner of the county, is included in this study.

In a report of SCS activities, Conservationist Wilson told of assistance given to Wawasee Prep in planning an athletic field. A geology review of the county was conducted July 7 and 8 by soil scientists and geologists from Purdue University. Soil Conservation Service and members of the Indiana Geological survey team.

Larry Staley, a soil scientist who has been working in a Pennsylvania district, will move to this area later this month and will be assigned to the Warsaw office until the Kosciusko Co. soil survey is completed.

One cooperator, Russell Harman, Plain Twp., was accepted.

The next meeting will be held one week late, on Tuesday, August 11.

That man Johnson may carry the pugilistic belt a long time. He seems to be a mighty powerful man, but too many people including Jeffries believed him to be an awkward black man and that Jeffries science would put him out of the ring...The Monticello Herald says The prize fight is over, and the sporting world is chagrined at the result. They bet mostly on the wrong man, the odds being 10 to 6 in favor of Jeffries up to the hour of battle....If Johnson's victory has checked the ardor of humanity for seeing each other slugged and battered, the fight was not an unmixed evil, and such seems to be the tendency at the present time. Whether the appetite for such brutal exhibitions continues or not, it is likely that this country has seen its last big prize fight. Nevada was the last ground they had to stand on, and after this year even that State will be closed to them.

It will be remembered that the Board of Commissions of Fulton county, some months ago contracted with the United States Voting Machine Company to supply this county with twelve voting machines, which are to be used at the next November election. The company will deliver the machines to their destinations during the month of August, and then the business of educating the voters in the use of the device will begin in earnest.

The Corl piano agency has retired from Akron and went to Mentone.

This town abounds almost everywhere with electric wires, but we cannot use a bit of electricity to run our fans in the business rooms. Enterprise should develop a scheme so that we could have daylight electrical service in Akron. Uses for electricity would soon multiply and in two years time we would wonder how we ever got along without day service, we would see how slow we are.

A large barn on the Walter Haines farm west of Claypool, with a lot of new hay and some harness burned to the ground early Wednesday morning. The fire was thought to have started from cigarettes left by a tramp who slept there Tuesday night.

One of the oldest churches in this part of the state burned to the ground Saturday morning at Green Oak, four miles south of Rochester. It was known as the Green Oak community church, and was built 65 years ago. Services had only been discontinued a few days ago. It is thought the fire started from an incinerator placed at the back of the church lot for the convenience of tourists who often used the yard as a camping spot. The church was riddled of rugs and furniture by vandals a few weeks ago.

Akron school patrons voted 149 to five last Wednesday night to join the Kosciusko county school corporation which is proposed for the southwestern part of the county. The new corporation would include Etna, Harrison, Franklin, Seward and Prairie townships in addition to the local corporation and would be much larger in enrollment and have ample resources to build a new high school building. Under this plan there would be approximately 2,250 students with a property valuation of \$25,000, 000. Total debt at present would be \$300,000 of which nearly one-third would be Henry township's. The results of the meeting held here under direction of the local committee will be given to the county committee and they will make final plans for the entire county. Then this proposal will be submitted to the state group for final ratification or voting.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

See You At The Fair!!!

In three short weeks it will be County Fair time again. The Kosciusko County Fair will be held August 3-8. The Women's Department at the Fair is always a welcomed addition to the fair exhibits. Although the Women's Department is sponsored by the Extension Homemakers Clubs any woman in Kosciusko County is eligible to enter a garment or product.

The Women's Department consists of the following categories: needlework, clothing, baking and candy, canned foods and garden flowers. All exhibits should have been made during 1969 or 1970 with the exception of old coverlets.

To enter an article in the Women's Department competition, you will need to fill out an entry blank which can be found in the 1970 fair catalog. Catalogs are available at the county extension office in the courthouse basement.

Entries for the Women's Dept. must be made between 10 a.m. and 6 p.m. on Monday, August 3. All judging will take place on Monday night starting at 6 p.m. For more information concerning the fair, contact the Extension Office.

WHAT IS BLOOM? The silvery grey look that chocolate sometimes gets is called "bloom." Such chocolate is perfectly good to eat and the "bloom" will disappear as soon as the chocolate is heated, as in cooking. When chocolate is stored at high temperatures, the cocoa butter in it rises to the surface. When cool air blows across the chocolate after exposure to high temperature, the

cocoa butter in it sets and appears to "bloom."

TOFFEE BARS: 1 cup butter, 1 cup brown sugar, 1 teaspoon vanilla, 2 cups sifted flour, 1-

6 oz. pkg. chocolate bits. Cream butter and brown sugar. Add vanilla, flour and chocolate bits. Stir. Spread in an ungreased 15 1/2 x 10" jelly roll pan. Bake at 350° for 25 minutes.

Miss Ruff Weds Tom Ervin

The marriage of Miss Barbara Ruff and Tom Ervin was solemnized recently at the home of the bride's parents, Mr. and Mrs. Alvin Ruff, with Rev. Claude Fawns officiating.

Wanda and Donna Ruff, sisters of the bride, were the flower girls. Another sister, Mary, served as maid of honor.

The bridegroom's brother, Don Ervin, was the best man.

A reception followed the wedding ceremony. Assisting were Margaret Benson, Judy Freels, Carrie Swihart, Ruth Osburn, Mrs. Claude Fawns and Marlene Ervin.

Mrs. Benson made the punch and the four-tier wedding cake was made by Larry Ervin.

Bruckers Host Reunion

A carry-in dinner was enjoyed Sunday at the home of the Paul Bruckers by members of the Brucker family.

Present were Mr. and Mrs. Reynald Danti, Paul Danti and son, Mr. and Mrs. Chas. Brucker Jr. and Mr. and Mrs. Jay Reinhold, all of Montevideo; Mr. and Mrs. James Perry and son of South Bend; Mr. and Mrs. Lawrence Perry and daughters of Kewanna; Mr. and Mrs. Robt. McKee of Anderson; Mr. and Mrs. Ed Rabin, Ft. Wayne; Mr. and Mrs. James Reinhold and daughters of Winamac; Mr. and Mrs. Chas. Brucker Sr., Winamac; Mr. and Mrs. Harry Schaffer, Chicago, and Mr. and Mrs. Paul Brucker and daughters.

Mrs. Creakbaum Is Club Hostess

The Beaver Dam Extension Homemakers Club met Wednesday evening, July 8, at the home of Mrs. Vesta Creakbaum with Mrs. Faye Smith as co-hostess. With the president, Mrs. Willis Bowen, presiding "America the Beautiful" was sung and the pledge to the flag and the club creed were given.

Mrs. Creakbaum gave devotions and, due to the absence of the song leader, Mrs. Bowen read the new song "One Nation Under God" to be sung to the tune of "The Battle Hymn of The Republic." The song stresses our devotion and dedication to God and country.

"Vitamin Line Up" was the Health and Safety remarks by Mrs. Waldo Adams and Mrs. Dow Landis gave remarks concerning general garden problems.

The club will visit Amish Acres on August 12, with members meeting at the home of Stella Swick in Mentone at one o'clock. A dinner at Raymond's Restaurant near Wakarusa will follow the tour of Amish Acres.

The meeting closed by singing "God Bless America" and repeating the Collect. Auction gifts were given to Mesdames Waldo Adams, Dow Landis and Vesta Cole. Mrs. Frank Hudson received the birthday auction. A social hour followed with refreshments being served by the hostesses.

T.H.E. Club Has Picnic

Members of the T.H.E. Club enjoyed a carry-in dinner recently at the Rochester City Park. The table was decorated with fresh summer flowers. Mrs. Roy Calvert acted as hostess.

The afternoon session was brought to order by Mrs. Lewis Johnson, the president, with an article by Captain Stubby. A welcome was extended to three guests, Mrs. Sid Dick, Miss Barbara Johnson, and Miss Laura Lee Parks.

"America" was sung by the group, followed by the pledge to the flags and the club creed. "My favorite magazine" was the answer given by ten members to roll call.

Mrs. Leroy Grossman gave an article entitled "Improving the Pastor's Preaching" for devotions and "The Vitamin Line-Up" was the theme of the health and safety remarks given by Mrs. Elgie Vandermark.

Mrs. Jack Parks gave the song of the month and led the group in singing "Battle Hymn of the Republic." An anniversary was celebrated by Mrs. Calvert.

The president reported on the council meeting she had attended and gave the list of lessons and activities planned for the coming year.

A trip to Ft. Wayne to visit different points of interest is being planned by Mrs. James Johnson and Mrs. Calvert for the August club meeting. The group is to meet at the Talma School at 7:30 a.m. on August 13.

The door prize was won by Mrs. E. C. McGowen. The meeting was closed by repeating the collect.

For entertainment, Mrs. Calvert conducted a game of name the states and name the company. Mrs. Parks was the winner of both. Dirty bingo was enjoyed and a sing-along was accompanied by Mrs. Merle McGowen on the guitar.

Campers To Meet

The Fulton County Campers Association will camp at Camper's Roost Campground at Plymouth on July 18 and 19. Each family should plan to fix its own supper on Saturday evening, and an ice cream social will be held at 7 p.m. Families with freezers should take them with ingredients for ice cream and everyone else should take cake and pies.

All campers in the area are welcome to join the group.

THANK YOU

A special thanks to all my friends, relatives and neighbors for their many prayers, cards, letters, flowers, gifts and visits while I was in the hospital 32 days and since returning home. They were deeply appreciated.

A special thanks to Rev. Don Poyser, the Burket United Methodist Church and the Mentone Chapter of Eastern Stars. May God bless each and everyone.

Mrs. Leo (Bernice) Valentine

NEW BOOKS

AKRON CARNEGIE LIBRARY

The following new books are available at the Akron Carnegie Public Library.

TUNE IN TOMORROW by Mary Jane Higby. Here is the behind-the-mike story of that fabulous era in the audio medium, written by one of its prime participants, Mary Jane Higby, for eighteen years the star of "When a Girl Marries." For those who used to sit glued to their crystal sets, waiting for "the next thrilling adventure of"—and for those who rejoice in the fun of a good story well told—Tune in Tomorrow or How I Found the Right to Happiness With Our Gal Sunday, Stella Dallas, John's Other Wife, and other sudsy radio serials is the antidote to the tame fare now being broadcast.

MALE MANNERS by Kay Corinth and Mary Sargent. This is the young man's guide to dating, good looks, making friends, getting into schools, clubs, activities, talking easily, job hunting, traveling, cars and more.

THE SWIFT RUNNER by Frank O'Rourke. This is the story of Doc Neely's gang, the most unlikely band of criminals the West has ever seen. This is a funny and, when you least expect it, touching tale of the last days of the American West.

MARRY IN HASTE by Jane Aiken Hodge. Set in the beginning of the nineteenth century against the colorful background of Regency England, this romantic novel of adventure is the absorbing story of a desperate man and woman caught by the shifting forces of danger as Napoleon pursues his grand scheme of Empire.

LAWRENCE AND OPPENHEIMER by Noel Pharr Davis. This is the fateful story of Ernest Lawrence and Robert Oppenheimer—the two giants of twentieth century American physics—whose association began in productive harmony, climaxed in world-shattering achievement, and ended in rancor that split the nation's scientific community and swayed the entire course of United States atomic policy.

Another worry of the average businessman—the number of unemployed people on his payroll.

Mrs. Goshert Hosts Seward Club

The Seward Home Extension Club met at the home of Mrs. Roy Goshert. Hostesses were Mrs. Goshert and Mrs. Alton Bruner, with 15 members and one child present.

Mrs. Wm. Kassen, vice president, called the meeting to order. The song of the month, "God Bless America" was sung and the pledge was given. Mrs. Cliff Eherenman presented the history of the song of the month. Mrs. Eherenman also read "So Swift the Way and So Short the Way" for meditation. Mrs. Vernon Meredith gave Health and Safety remarks on the case of "Pine Needle Soup" and Garden remarks on how to build a rock garden by Mrs. Lester Bruner.

Roll call was answered by giving an "American Freedom I Appreciate." Mrs. Sam Secor presented the lesson on "Citizenship." Mrs. Kassen conducted the business part of the meeting.

The meeting closed with the club prayer song and the club collect.

Refreshments were served by the hostesses. The August meeting will be a picnic at the home of Mrs. Wm. Kassen.

Few people ever reached the mountain top, just by thinking about it.

Reid-Sausaman Vows Said

Miss Sharon Marie Reid became the bride of Mr. Robert F. Sausaman Jr. recently in a ceremony performed at the Shoaff Park Baptist Church in Fort Wayne. Rev. Clinton S. Foraker, pastor of the church, officiated before an altar that was flanked with lighted candelabra and vases

of stock and mums. A brass arch draped in ivy completed the altar decoration.

Parents of the couple are Dr. and Mrs. Donald B. Reid, Columbia City, and Mrs. Robert F. Sausaman Sr. and the late Mr. Sausaman, Akron.

The matron of honor was Mrs. Roger Miller, Columbia City. Bridesmaids were Mrs. Gary Cannava, Kokomo, Miss Dawn Hotchkiss, Elkhart, Miss Connie Filbert, LaPorte, Miss Suzie Eidsen, Ft. Wayne, Miss Ruth Hinton, Louisville, Ky., and the junior bridesmaid was Miss Mary Sausaman, Akron, sister of the bridegroom.

Robert Louis Litzner-ski, So. Bend, a fraternity brother of the bridegroom, was bestman. Groomsmen were Steven Sausaman, Louisville, Ky. and Larry Sausaman, Akron, brothers of the bridegroom; Jerry Porter, cousin of the bridegroom, and Eric Krall, both of Indianapolis; Albert Jarvis, Binghamton, N.Y., and Robin Young, Aberdine Proving Grounds, Aberdine, Md. Ushers were Conrad Dal-kowski, Toledo, Ohio, and Philip Gray, Akron.

Chris Alan Miller was the ringbearer, and Lisa Johnson was the flower-girl. Both are from Columbia City.

Bridal music was provided by Mrs. Harold Copp, organist, and Mrs. Wm. Johnson, soloist, both of Columbia City.

A wedding reception at the N.W. Holiday Inn at Ft. Wayne followed the ceremony. Serving were Miss Kathie Method, Columbia City, Mrs. Phyllis Hand, Ft. Wayne, and Mrs. Jerry Parker. Guests were registered by Mrs. Phyllis Hand.

Assisting with the gifts were several of the bridesmaids and Mrs. Jerry Porter, Indianapolis.

The bride is a graduate of Columbia City Joint High School and attended Manchester College and Indiana University. The bridegroom is a graduate of Akron High School and the Purdue University School of Pharmacy. He is employed as a pharmacist at Key Pharmacy, Columbia City.

Mrs. Robert F. Sausaman Sr. entertained members of the bridal party at a rehearsal dinner at the N.W. Holiday Inn at Fort Wayne.

Jolly Janes

The July meeting of the Jolly Janes Home Demonstration Club was held Monday night at the home of Esther Romine, Mentone, with Kate Whetstone as co-hostess.

A picnic supper was enjoyed with Grace Lewis giving the meal time prayer. After the carry-in meal, the meeting was opened by singing "America, the Beautiful" and with members reciting the club prayer song and the club creed.

Members joined in singing the song of the month and then heard meditations from Kate Whetstone.

The lesson, "Selecting Patterns", was given by JoAnn Welch and Phyllis Bowser. They told members the new pattern sizing is more like ready-made sizes.

Roll call was answered by each member bringing a recipe for a grab bag.

During the business meeting, it was voted to donate \$5.00 to Jeri Pritchard, Mentone's fair queen candidate.

After the meeting was closed, members gave going away gifts to Linda Hurd who will move to Las Cruces, New Mexico on August 10.

Stringtown Club

The Stringtown Club met Thursday evening at the home of Mrs. Leah McIntyre. There were nine members and one guest, Mrs. Carl Leininger, present. Betty Carr, president, conducted the business meeting.

Ruth Mathias won the door prize and roll call was answered with "My Grandmother's Maiden Name." Maxine Heltzel and Blanche Wells received gifts from their Mystery Pals.

Kathy Blalock Describes Life At Girls State

Kathy Blalock, daughter of Mr. and Mrs. Tobie Blalock, R. 1, Mentone Mentone High School's delegate to the 1970 Hoosier Girls State, wrote the following account of her trip:

I arrived Sunday at Hoosier Girls' State held at Indiana University in Bloomington, excited, and a little scared about the events in the week to come. Seven hundred and twenty nine girls representing their schools from all over the state were divided into 20 "cities". My city was Galka City, named in honor of Mrs. Ted Galka, president of Indiana's American Legion Auxiliary. Each floor of the dorms in Foster Quadrangle was called a "city". My city was on the eighth floor of Harper Hall. There were 38 girls on the floor, two to a room.

We met for city and county meetings a number of times up until Wednesday, learning about government and how it is run. Each girl ran from some office. I ran for County Prosecuting Attorney. Primary elections were on Wednesday afternoon. I didn't make it, but each girl was given a job within her city, so no one was left out. I helped the traffic commissioner in making signs for our city. Since we were divided into two parties, the Nationalist and The Federalist, we each had our separate conventions, also on Wednesday. Thursday we voted on the final can-

didates. This time we got to use the voting machines which were fun. After the voting was over, everyone was united again as one body.

It wasn't all work, but the serious part that I enjoyed the most was watching the Senate in action. They discussed very interesting subjects.

Saturday night we had a talent show. This was enjoyed by all. The Boys State Governor, Lt. Governor, and the outstanding citizen of Boys State were guests at the talent show. All the girls enjoyed seeing some boys at last!

This was a week that will influence my life in making me more aware of my duties as a citizen of my town, county, state and country. I met many girls and hope to have formed a few lasting friendships. I appreciate the American Legion Auxiliary's sending me to Hoosier Girl's State.

Navy Chaplain Will Speak At Burket Church

Lt. Gerald L. Cook, Chaplain of the U.S. Naval Corp School at Great Lakes, Illinois, will be the guest speaker at the Burket United Methodist Church Friday evening, July 17, at 8 p.m.

Chaplain Cook, a dynamic speaker, will relate what God is doing on the compound at Great Lakes and will also tell some of his experiences on the battlefields of Vietnam. He plans to bring some waves and sailors with him who will give testimonies of their Christian experience.

The Jubileers of Syracuse will furnish the special music. Members of the church and their pastor urge everyone to attend this special service. A special welcome is extended to parents of servicemen.

Whenever a person tells you that money will accomplish ANYTHING, you can be sure of one thing—he doesn't have any.

I Want To Be Free

"I want to be free." The hunger song of our age. The voice of youth raised against the restraints imposed upon them by parents, school and the system. The articulation of a yearning deep in the souls of us all—a hungering to live a life apart from the pressures and demands of society—a deep-rooted desire to determine our own destinies without reference to anyone or anything.

But for all its intensity only an ideal rather than a realizable goal.

The youth grows up. He is allowed to do his own thing. He is permitted to indulge his own desires, make his own mistakes, seek his own destiny. But is he free?

Not really. No more so than when his parents were calling the tune. Now there is a different tune caller but the song is the same. And every man dances the waltz of conformity.

If he refuses to dance with the establishment, he is forced to swing with the anti-establishment. He is left or right or new left or new right. Maybe he conforms in the middle. But conform he will. Even the hippies conform to hippie society.

While he may think he is making his own decisions, he is deciding under pressure from outside. He is not even able to decide freely how to cut his hair, what kind of clothing

to wear, or what kind of toothpaste is the sexiest.

He is bombarded from morning to night with ideas and slogans and sales pitches. He is manipulated by the cleverness of advertisers and hucksters. He is at the mercy of public opinion or the pressures of his own group.

Any decision he makes is made under duress. Thus it is not a free decision. It is a decision of conformity. Conformity to the loudest voice, the smoothest pitch, the brightest promise.

You want to be free? Conform to Jesus Christ. The life style he makes possible is truly free.

Mission Society Hears Devotions

The Olive Bethel Missionary Society met Thursday for the July meeting. There were seven present and four children.

Devotions, a chapter from the book, "Time Out Ladies" written by Dale Evans, was presented by Marie Dawson. Roll call was answered with a scripture verse and the meeting was dismissed by Mrs. Albert Duke. The rest of the afternoon was spent in needlework.

Good intentions do not help much, if you are on the wrong road.

Muncie Woman Forced To Drive Abductor To Silver Lake Area

Kosciusko county police officers are investigating the abduction of a Muncie woman, Margaret Marie Huffman, who was forced to drive a man from Muncie to a rural area south of Silver Lake where she was released unharmed early Friday.

She said that as she drove to her Muncie home after studying at the library at Ball State University, a man, described as a Negro between 25 and 30 with a handkerchief covering his face, jumped in her car and poked a gun in her ribs, saying, "You are going to take me north. I am supposed to meet someone."

She said when they approached County Road 1200 the man told her to turn off and drive west. She said they

drove a short distance and the man told her to stop. She said they waited in the auto for about 15 minutes when she saw a car approaching from the east which blinked its headlights.

She said the man then forced her to get out of her car and toss the car keys over into a farm field. She said he then struck her on the side of the head and knocked her to the ground at the back of her car. She said the man then entered the other vehicle and it sped off.

Mrs. Huffman walked to the Terry Bouse farm and called her husband in Muncie and notified authorities. The sheriff, after a brief search, found the keys to the Huffman car. She was returned to Muncie by her husband.

Selected As One Of Top Airmen

Chief Master Sergeant Bennie M. Bauman, son of Mr. and Mrs. Wm. L. Bauman, R. 2, So. Whitley, has been selected as one of the U.S. Air Force's 12 Outstanding Airmen for 1970. Sgt. Bauman, a computer systems analyst with the Air Force Accounting and Finance Center in Denver, competed with 23 Outstanding Airmen for

1970 from other separate operating agencies and major air commands at USAF level. He will now join the other 11 Outstanding Airmen as honored guests at the Air Force Association's annual convention Sept. 20-23 in Washington, D. C.

A graduate of South Whitley High School, he is one of the few enlisted men in the Air Force to earn the Legion of Merit Medal, one of the nation's highest decorations. He was awarded the medal for his work as a member of a team headquartered at Lowry AFB, Colo., which trained intelligence personnel of the Army, Navy and Air Force in the processing of intelligence data by computer. He and his wife have four sons.

LEGAL NOTICES

ORDINANCE NO. 6-9-70-3

An Ordinance regulating the connection to and use of public and private sewers and drains, the installation and connection of building sewers, the discharge of waters and wastes in the public sewer system of the Town of Akron, Indiana, and providing penalties for violations thereof.

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE TOWN OF AKRON, INDIANA:

Section 1. Unless the context specifically indicates otherwise, the meaning of terms used in this ordinance shall be as follows:

(a) "Sewage works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.

(b) "Superintendent" shall mean the Superintendent of the municipal sewerage works of the Town of Akron, Indiana, or his authorized deputy, agent or representative.

(c) "Inspector" shall mean the person or persons duly authorized by the Town, through its Board of Trustees, to inspect, approve, and install of building sewers, and their connection to the public sewer system.

(d) "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface and storm waters as may be present.

(e) "Sewer" shall mean a pipe or conduit for carrying sewage.

(f) "Public sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.

(g) "Combined sewer" shall mean a sewer receiving both surface runoff and sewage.

(h) "Sanitary sewer" shall mean a sewer which carries sewage and to which storm, surface and groundwaters are not intentionally admitted.

(i) "Storm drain" (sometimes termed "storm sewer") shall mean a sewer which carries surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.

(j) "Sewage treatment plant" shall mean any arrangement of devices and structures used for treating sewage.

(k) "Industrial wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business, as distinct from sanitary sewage.

(l) "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.

(m) "Properly shredded garbage" shall mean the waste from preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles are carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (1/2) inch in any dimension.

(n) "Sanitary building drain" shall mean that part of the lowest horizontal piping of the sanitary drainage system inside the building, which receives the discharge from soil or waste stacks and branches, and conveys the same to point three (3) feet outside the building walls where it connects with its respective building sewer.

(o) "Building sewer" shall mean the extension from the building drain to the public sewer or other place of disposal.

(p) "B. O. D." (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20° C, expressed in milligrams per liter.

(q) "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

(r) "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

(s) "Natural outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or groundwater.

(t) "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

(u) "Slug" shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes more than five (5) times the average twenty-four (24) hour concentration of flow during normal operation.

(v) "Person" shall mean any individual, firm, company, association, society, corporation, or group.

(w) "Shall" is mandatory; "may" is permissive.

(a) It shall be unlawful for any person to place, deposit, or permit to be deposited in any unsanitary manner on public or private property within the Town, or in any area under the jurisdiction of said Town, any human or animal excrement, garbage, or other objectionable waste.

(b) It shall be unlawful to discharge any natural outflow of water, said Town, or in any area under the jurisdiction of said Town, any sewerage, or any other waste, except where suitable treatment has been provided in accordance with subsequent provisions of this ordinance.

(c) Except as hereinafter provided, it shall be unlawful to construct or maintain any private sanitary sewer, cesspool, or other facility intended or used for the disposal of sewage.

(d) The owner of all houses, buildings, or properties used for human occupancy, employment, recreation or other purposes, situated within the Town and abutting on any street, or right-of-way, or other public place, in which there is now located a public sanitary or combined sewer of the Town, is hereby required at his expense to install suitable sanitary facilities therein, and to connect such facilities directly with the public sewer system, in accordance with the provisions of this ordinance, within ninety (90) days after date of official notice to do so, provided that said public sewer is within one hundred (100) feet of the property line.

Section 3.

(a) Where a public sanitary or combined sewer is not available under the provisions of Section 2 (d), the building sewer shall be connected to a private sewage disposal system complying with the provisions of this section.

(b) Before commencement of construction of a private sewage disposal system, the owner shall first obtain a written permit signed by the Superintendent. The application for such permit shall be made on a form provided by the Superintendent, which the applicant shall supplement by any plans, specifications and information as are deemed necessary by the Superintendent. A permit and inspection fee of Five Dollars (\$5.00) shall be paid to the Clerk-Treasurer at the time the application is filed.

(c) A permit for private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Superintendent. He shall be allowed to inspect the work at any state of completion, and in any event, the applicant for the permit shall notify the Superintendent when the work is ready for final inspection, and before any underground portions are covered. The inspection shall be made within forty-eight (48) hours of the receipt of notice by the Superintendent.

(d) The type, capacities, location, and layout of a private sewage disposal system shall comply with all recommendations of the State Board of Health of the State of Indiana. No permit shall be issued for a private sewage disposal system employing subsurface soil absorption facilities where the area of the lot is less than ten thousand square feet. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

(e) At such time as a public sewer becomes available to a property served by a private sewage disposal system as provided in Section 3 (d), a direct connection shall be made to the public sewer in compliance with this ordinance, and any septic tanks, cesspools and similar sewage disposal facilities shall be abandoned and filled with suitable material.

(f) The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the Town.

(g) No statement contained in this section shall be construed to interfere with any administrative requirements that may be imposed by the Health Officer.

(h) When a public sewer becomes available, the building sewer shall be connected to said sewer within ninety (90) days and the private sewage disposal system shall be cleaned of sludge and filled with clean bank-run gravel or dirt.

Section 4.

(a) No unauthorized person shall uncover, make any connections with, or use in any manner, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Clerk-Treasurer.

(b) There shall be two (2) classes of building sewer permits: (1) residential and commercial service, and (2) for service to establishments providing industrial wastes. In either case, the owner or his agent shall make application on a special form furnished by the said Town. The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the Inspector. A permit and inspection fee of Five Dollars (\$5.00) for a residential building sewer and Ten Dollars (\$10.00) for an industrial building sewer permit shall be paid to the Clerk-Treasurer at the time the application is filed.

(c) All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the Town from any loss or

damage that may directly or indirectly be occasioned by the installation of the building sewer.

(d) A separate and independent building sewer shall be provided for every building, except where one building stands at the rear of another on an interior lot and no private sewer is available or can be construed to be available, in which case an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building, and the whole considered as one building sewer.

(e) Old building sewers may be used in connection with new buildings only when they are found, on examination and test by said Inspector, to meet all requirements of this ordinance.

(f) The size, slope, alignment, materials of construction of a building sewer, and the method of its use in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the requirements of the Building and Plumbing code or other applicable rules and regulations of the Town. In the absence of code provisions or in amplification thereof, the materials and procedures set forth in appropriate specifications of the A. S. T. M. and W. P. C. F. Manual of Practice No. 9 shall apply.

(g) Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In buildings in which any building drain is too low to permit gravity flow to the public sewer, a sanitary building sewer by such building drain shall be lifted by an approved means and discharged to the public sewer.

(h) No person shall make connection of roof downspouts, exterior foundation drains, gutters, or other sources of surface runoff or groundwater to a building sewer or building drain, which in fact is connected directly or indirectly to a public sanitary sewer.

(i) The connection of the building sewer into the public sewer shall conform to the requirements of the Building and Plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A. S. T. M. and W. P. C. F. Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedure for connection must be approved by the Superintendent before installation.

(j) The applicant for the building sewer permit shall notify the said Inspector when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the said Inspector or his representative.

(k) All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored to former satisfactory to the said Town.

Section 5.

(a) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, sub-surface drainage, unpolluted industrial water, or unpolluted industrial process waters to any sanitary sewer.

(b) Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as such. Sewers or storm sewers, or to a natural outlet approved by the said Superintendent. Industrial cooling water or unpolluted process waters may be discharged, on approval of the said Superintendent, to a storm sewer, combined sewer, or natural outlet.

(c) No person shall discharge or cause to be discharged any of the following described wastes or wastes to any public sewers:

(1) Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

(2) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, or create any hazard in the receiving waters of the sewage treatment plant.

(3) Any waters or wastes having a pH lower than 5.5, or having any other corrosive properties capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

(4) Solid or viscous substances of any size or such size capable of causing obstruction to the flow in sewers, or interference with the proper operation of the sewage treatment plant, such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunchmanure, hair and fleshings, entrails and parts of fishes, cups, milk containers, etc., either wholly or ground by garbage grinders.

(5) No person shall discharge or cause to be discharged the following described substances or materials, waters, or wastes, if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment

process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, or property, or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewer, nature of the sewage treatment process, capacity of the sewer, and the character and treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

(1) Any liquid or vapor having a temperature higher than one hundred fifty degrees (150°) F (65°) C.

(2) Any water or waste containing fat, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) pounds per day, or containing any material which may solidify or become viscous at temperatures between thirty-three (33°) and one hundred (100°) degrees (150°) F (0 and 65°) C.

(3) Any garbage that has not been properly shredded. The installation and operation of garbage shredding equipment with a motor or three-fourths (3/4) horsepower (0.76 hp metric) or greater, shall be subject to the review and approval of the Superintendent.

(4) Any waters or wastes containing strong acid iron pickling wastes, or concentrated solutions of caustic soda, or other solutions which are neutralized or not.

(5) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances, or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage, at the sewage treatment works exceeds the limits established by the Superintendent for such materials.

(6) Any waters or wastes containing phenols or other taste or odoriferous substances, or such concentrations exceeding limits which may be established by the Superintendent as necessary after treatment of the composite sewage, to meet the requirements of the State, Federal, or other applicable jurisdiction for such discharge to the receiving waters.

(7) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

(8) Any waters or wastes having a pH in excess of 9.5.

(9) Materials which exert or cause:

(i) Unusual concentrations of inert, suspended solids (such as, but not limited to, fillers, line slurries, and line residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

(ii) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

(iii) Unusual B. O. D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

(iv) Unusual volume of flow or concentrations of wastes constituting "slugs" as defined herein.

(10) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(e) If any waters or wastes are discharged, to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 5 (d) of this ordinance, and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard, the Superintendent shall constitute a public nuisance, the Superintendent may:

(1) Reject the wastes;

(2) Require pretreatment to an acceptable condition for discharge to the public sewers;

(3) Require control over the quantities and rates of discharge and/or

(4) Require payment to cover the additional cost of handling and treating the wastes or sewer charges under the provisions of Section 12 of this ordinance.

If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plans and equipment shall be subject to the review and approval of the Superintendent and subject to

the requirements of all applicable codes, ordinances, and laws.

(f) Grease, oil, and sand interceptors shall be provided when, in the opinion of the said Inspector, they are necessary for the proper handling of such wastes containing grease in excessive amounts, or any flammable wastes, sand, or other materials which are such that such interceptors shall not be required for private living quarters of dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent, and shall be located as to be readily and easily accessible for cleaning and inspection.

(g) Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

(h) When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, testing, and measurement of the wastes. Such manhole, then required, shall be accessible to the Superintendent, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

(i) All measurement, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, and shall be done at a control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been provided, the control manhole shall be considered to be the nearest downstream manhole in the public sewer system at which the building sewer is connected. Sampling shall be carried out by the owner or his representative to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls or a premise is appropriate or whether a grab sample or samples should be taken normally, but not always, B. O. D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH shall be determined from periodic grab samples.)

(j) No statement contained in this section shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby industrial waste of unusual strength or character may be accepted by the Town for treatment and disposal, and therefore, by the industrial concern.

Section 6. No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, or remove any part of the structure, appurtenance, or equipment which is a part of the municipal sewerage works, or any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

Section 7.

(a) The Superintendent, Inspector, and other duly authorized employees of the Town bearing proper credentials for identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing with the provisions of this ordinance. The Superintendent or his representatives shall have no authority to inquire into any processes, manufacturing, surgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

(b) While performing the necessary work on private properties referred to in Section 7 (a) above, the Superintendent or duly authorized employees of the Town shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury dealt to the Town's employees and the Town shall indemnify the company against loss or damage to its property by Town employees and against liabilities and demands for personal injury or property damage asserted against the company and its employees or agents, as such may be caused by negligence or failure of the company to maintain safe conditions as required in Section 5 (h).

(c) The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said premises, and entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

Section 8.

(a) Any person found to be vio-

lating any provision of this ordinance except Section 6 shall be served by the Town with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

(b) Any person who shall continue any violation beyond the time limit provided for in Section 6(a) shall be guilty of a misdemeanor and on conviction thereof shall be fined in an amount not exceeding ten dollars (\$10.00) for each violation each day in which any such violation shall continue shall be deemed a separate offense.

(c) Any person violating any of the provisions of this ordinance shall become liable to the Town for any expense, loss, or damage occasioned the Town by reason of such violation.

Section 9. All ordinances or parts of ordinances in conflict herewith are hereby repealed. (a) shall be null and void, and no provision of this ordinance shall not affect the validity of any other part of this ordinance which can be given effect without such invalid part or parts.

Section 10. This ordinance shall be in full force and effect from and after its passage and adoption by the Board of Trustees of the Town of Akron, Indiana, on the 30th day of June, 1970.

BOND SALE NOTICE
TOWN OF AKRON, INDIANA

Sealed proposals will be received by the Clerk-Treasurer of the Town of Akron, Indiana, in the Town Hall in said Town, until 2:00 P. M. (EDT) on the 4th day of August, 1970, for the purchase of the following described revenue bonds of said Town:

Sewage Works Revenue Bonds;
Total Issue \$315,000; Dated August 1, 1970; Denomination \$1,000 or \$5,000 at the option of the purchaser; Interest not to exceed 8 1/2 percent (the exact rate or rates to be determined by bidding) payable on February 1, 1971, and semi-annually thereafter; Registrable as to principal and interest payable at the Akron Exchange State Bank, Akron, Indiana, or at the option of the holder at the Indiana National Bank, Indianapolis, Indiana; Fixed maturities on August 1 in the years and amounts as follows:

Years	Amounts
1972	\$ 5,000
1973	15,000
1974-1977 inclusive	15,000
1978-1982 inclusive	20,000
1983-1986 inclusive	20,000
1987-1988 inclusive	30,000

The bonds maturing on August 1, 1981, and thereafter, are redeemable at the option of the Town on February 1, 1981, or any interest payment date thereafter, in whole or in part, in their inverse numerical order, at face value, plus the following premiums:

4% if redeemed on February 1, 1981, or thereafter on or before August 1, 1984;
2% if redeemed on February 1, 1985, or thereafter prior to maturity;

plus in each case interest to the date fixed for redemption, provided notice of such redemption shall be given at least thirty days prior to the redemption date by one publication in a newspaper published in Fulton County and of general circulation in the Town of Akron and in a newspaper or financial journal of general circulation published in the City of Indianapolis, Indiana.

Each bid must be for all of said bonds and must state the rate or rates of interest, not exceeding 8 1/2 percent, in multiples of 1/8 or 1/10 of 1%. Not more than three different interest rates shall be named in any bid, and bids specifying two or more interest rates shall also specify the amount and maturity of the bonds maturing at each rate, but all bonds maturing on the same date shall bear the same rate. A rate may be repeated without constituting a different interest rate. The interest due on any bond or any interest payment date shall be represented by a single interest coupon. The difference between the highest rate and the lowest rate specified in a bid shall not exceed 2%. The award will be made to the highest qualified bidder complying with the terms of sale and offering the lowest net interest cost to the Town, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any. It is requested that each bid show the net interest cost to final maturity and the net effective average interest rate. No bid for less than the par value of said bonds, including accrued interest from the date thereof to the date of delivery, will be considered. Each

bid shall be enclosed in a sealed envelope addressed to the undersigned Clerk-Treasurer and marked on the outside "Bid for Sewage Works Revenue Bonds," and must be accompanied by a certified cashier's check in the amount of \$3,500, payable to the Town of Akron, as a good faith deposit to secure the Town against any loss resulting from the failure of the bidder to comply with the terms of his bid. The successful bidder shall make payment for the bonds and accept delivery thereof within five days after being notified that the bonds are ready for delivery, at such bank in the City of Indianapolis as he shall designate in writing an acceptable Treasurer. Checks of unsuccessful bidders will be returned immediately following the award of the bonds. The bonds will be ready for delivery within approximately thirty days after the date of sale. The failure of the successful bidder to pay for such check and the proceeds thereof as its agreed liquidated damages.

The unqualified approving opinion of Ice Miller Donadio & Ryan, bond counsel of Indianapolis, together with the original and true transcript of the proceedings had relating to the issuance of said bonds, and the certificates showing no litigation pending or threatened at the time of the delivery of the bonds, will be furnished to the purchaser of the successful bidder. No additional bids will be considered. The right is reserved to reject any and all bids received at the time herein provided, the sale will be continued from day to day thereafter without further advertisement for a period of thirty days, during which time no bid which is lower than the highest bid received at the time of the advertised sale will be considered.

Said bonds are being issued for the purpose of financing, together with federal and state grants in aid of construction, the cost of the sewage works to be constructed, owned and operated by the Town of Akron, pursuant to Ordinance No. 6-9-70-1, adopted by the Board of Trustees of said Town on the 9th day of June, 1970. A copy of said ordinance, and the original and true transcript of the proceedings had relating to the issuance of said bonds, will be examined in the office of the Clerk-Treasurer in said Town. All bidders shall be deemed to be advised of the provisions of said ordinance as to the extent and character of the sewage works on account of which said bonds are being issued, the service to be rendered thereby, and the revenues estimated to be received therefrom by the Town of Akron, and the bonds herein offered, and any bonds hereafter issued ranking on a parity therewith, will be payable solely from the net revenues of the sewage works on account of which the bonds are being issued, and they will not constitute an indebtedness of the Town within the provisions and limitations of the constitution of the State of Indiana.

Further information relative to the sewage works project may be obtained upon application to the undersigned Clerk-Treasurer, or Umberto J. McGee, Esq., Box F, Plymouth, Indiana 46563.

Dated this 1st day of July, 1970.

Top Demo Leaders In Warsaw

Indiana's top Democratic leaders were in Warsaw Tuesday in the second day of a week long tour of Indiana's 92 counties. Meeting with party leaders from Kosciusko, Fulton, Wabash, and Whitley counties were Democratic State Chairman Gordon St. Angelo and State Vice Chairman Mrs. Judy Burton.

Whetstone Reunion Is Planned

The annual Whetstone reunion will be held at the Mentone Youth League pavilion on Sunday, July 26.

Mrs. Dora Whetstone, president of the family organization, reminded all persons knowing themselves to be related to the Whetstone family to attend the pot luck dinner at noon. They should take table service.

A program and fellowship period will follow the noon meal.

Reunion

The Lem Hamilton Family Reunion was held this year at the home of Mr. and Mrs. Ezra Hamilton. There were 35 present. In the afternoon, election of officers was held; elected president was Ezra Hamilton; vice-president, Carl Doub; and secretary - treasurer, Peggy Herendeen. Ice cream and cake was served in the afternoon and gifts given for the oldest man, which was Ezra Hamilton, and a gift for the youngest child went to Michelle Herendeen. Next year the reunion will be held at the home of Mr. and Mrs. Carl Doub.

CALENDAR

SUNDAY, JULY 19
4-H Horse and Pony Picnic dinner for all members and guests at Rochester fairgrounds at 10:00 a.m. Bring horses and ponies.

Officers and delegates from the four county area who attended included Kosciusko Co. Chairman Jack Summe, his vice chairman Nellie Reed; Fulton Co. Chairman Fred Rakestraw; Wabash Co. Chairman Robt. Mitten, his vice chairman Augusta Boisson; and Whitley Co. Chairman Willis Goble and his vice chairman Mildred Wagoner. Mrs. Burton is the Fulton Co. and Fifth District Vice Chairman.

Abbeys Visit Daughter

Mr. and Mrs. Denton Abbey, Mentone, spent the weekend in Indianapolis where they attended the Saturday evening performance of "Snow White" presented by the Indiana Central College Players. Their daughter, Pam, portrayed one of the maids of honor to Snow White. She was also manager and in charge of making the costumes.

On Sunday afternoon, the Abbeys attended a reception at Switzer Center for the members of the "Hamlet" cast and their families. The cast will fly to Great Britain on July 15 where they will perform the play in the Lake district of northern England and southern Scotland. They will give 15 performances of "Hamlet" in fourteen days and at one location they will be substituting for a professional cast for one performance. On July 19 they will be honored by a reception held by the Lord Mayor of Kendall.

While in England, the players will have the opportunity to visit Stratford-On-Avon, the home of Shakespeare. They will have four days in London before returning to the United States on August 4.

Another excellent survival kit is a well-filled wallet.

State Fair Plans Announced

Comedian Bob Hope will star in the first free major show to be held at the Indiana State Fair on Monday, August 31, at 8 p.m. Gates will open at 6 p.m. with seats available at no cost (non-reserved). The free show offering is being introduced on an experimental basis in response to public interest so the fair board can compare results with similar attractions at neighboring state fairs.

Star of the Labor Day weekend show will be Buck Owens, country music star, and the stars of "Hee Haw."

COURT NEWS

The news item in last week's paper concerning a sentence and fine for Chas. Amburgy, Mentone, was incorrect. It had been taken from records on one year ago. The publishers of this paper apologize to Mr. Amburgy for this reportorial error.

In recent Warsaw city court action, Francisco Gamaz, 20, Mentone, was fined \$30 and sentenced to 60 days in the Indiana State Farm for failure to carry registration. Charges of disorderly conduct and illegal possession against him were dismissed, and a fine and cost totaling \$28 on a charge of failure to have vehicle safety inspected was suspended.

Among persons recently forfeiting proxy bonds in Rochester City Court was Diana S. Bussard, 19, Akron, who was cited for speeding.

Ardith J. Seeley, R. 1, Silver Lake, has filed suit in Kosciusko court action for divorce from Franklin Seeley. She says they were married on Aug. 9, 1968 and separated June 20, 1970. There are no children. She seeks restoration of her former name, Ardith J. Rager.

TVSC hires coaches, principal

Akron Principal

Forst Dunnuck
New Principal
Akron High School

Randall Hart Sheets, 26, who has been assistant coach at DeMott for the past four years, was hired Monday night by the Tippecanoe Valley School board to be head coach at Mentone High School. Sheets, who is married, will also coach baseball and golf. His salary will be \$9,435.

Hired as assistant coach was Robert Igney, 52, East Lansing, Mich., a former professional basketball player and a member of a Purdue team that won the Big Ten championship. Igney was formerly head coach at

Kendallville and Lebanon and has recently been in business. His salary will be \$9,910, and he will also be track coach.

Forst Dunnuck, 37, R. 1, Etna Green, was hired as Akron High School principal. He will replace Lyle Edenburn who recently resigned to accept a similar position at Northfield High School. Dunnuck has been guidance counselor at Akron for a number of years. His salary will be \$16,500.

The board also heard a request for a janitor salary increase and approved a bus driver contract for Richard Gross of Mentone. They approved pay raises for the school clerks.

Mentone Days Are Successful

There was something for everyone Friday and Saturday in Mentone as the Mentone Days Festival held forth under clear skies and pleasant weather.

A new feature this year, the dunking tank, drew interested spectators to watch local business men take their turns at being dunked.

Also new this year was a pancake and sausage supper. It and the chicken barbecue on Saturday were held at the drive-in bank and both were well-attended.

Antique row, a line of tables full of antiques and collectibles, drew interested viewers and buyers.

Sidewalk days, sponsored by each merchant, seemed well-attended.

This year's program was moved to the downtown area from the park so that people could attend both the sidewalk sales and the events.

ANTOINE DERAMECOURT, 16, a French student whose Mentone visit is sponsored by the Mentone Lions Club, left, and his first host, Zanna Hammer, pause to study the gifts on display at the Towne Hall Shoppe as Antoine begins his American visit. He toured Midwest Spring Tuesday afternoon and today was to visit Manwaring Leghorn Farms. After visiting the Hammers for three weeks, he will go to the home of Mr. and Mrs. Ron Russell for three weeks. The Hammers said they would be happy to have anyone interested in meeting Antoine call at their home. He speaks limited English and is not fluent enough to address large groups. He has already expressed a liking for waterskiing and steaks as he and his host family get acquainted.

PLAQUE IS DEDICATED: Dedication services were conducted recently at the Akron park for a plaque that was donated by Kappa Delta Phi sorority. The plaque reads: Pike Memorial Park. The original land and shelter building materials dedicated to the advancement of the community they loved in memory of D. A. and Eva B. Pike by their family, 1955. Rev. C. M. Fawns conducted the service. The plaque is mounted on a large boulder that is secured in a concrete base at the foot of the flag pole in the circular drive.

ANOTHER BOOST FOR THE RUNWAY came this week when Don Muehlhausen, left, presented a check for \$400 to Darrell King, president of the Mentone Flying Club, for use on the runway project at the airport. This donation, with the Flying Club's recent \$600 donation from proceeds at the chicken barbecue, will lower the indebtedness on the all-weather strip another \$1,000. The all-weather strip, installed last year as a Chamber of Commerce project, has enabled more local residents and businesses to utilize year-round benefits from the field and the Chamber of Commerce feels it will be an added incentive for new businesses locating in the area. Mentone is one of the few small towns in the nation to have its own all-weather strip and is also one of a very small number that paid for the improvements itself rather than using government funds.

THIS IS HOW YOU DO IT, Darrell King, back to camera, explains to Bob Hoover who holds three balls just before letting fly with a direct hit that sent Bob Hibschan sputtering into the water. The dunking tank was a popular new feature at this year's Mentone Days celebration.

OUTDOOR LIVING FUN—This family-size camping trailer contains a lounge area, dinette, kitchen, and sleeping space for up to eight people. Modern trailers like this one tow easily and smoothly, and can be set up at the camp site in about five minutes. The cotton canvas tent provides greater weather and heat resistance.

Live It Up

Go Modern— Go Camping

Camping isn't the rough-and-ready sport it used to be. Today's improvements in camping equipment have made outdoor vacationing comfortable and inviting. Moreover, basic camping gear is versatile, durable, and doesn't cost a fortune to buy.

Just remember: the secret is to keep it simple—it's hard to relax with a lot of gadgets.

To get the utmost enjoyment from the sound of rushing mountain streams or the taste of freshly-picked huckleberries, get squared away first on basic equipment and those extras you really need.

Besides the family car, a tent is the "must" item. If you haven't paid attention to tents lately, you're in for some surprises. The old stand-by types that took two men and a boy to put up are gone. So are the drab, windowless, stuffy tents that offered little more than plain shelter.

Now tents offer new window and door designs, easier han-

dling, and greater protection from sun, rain, and insects. They can be pitched in a matter of minutes and come in all sorts of colors—chestnut, green, sun gold, silver blue, and red.

Nearly all tents are made of cotton fabrics, generally known as canvas. Cotton canvas is favored because it permits air to circulate freely throughout the tent. This insures comfort and prevents moisture from forming and dripping down inside.

Cotton canvas also withstands lashing winds and rain, and actually gains 25 percent in strength when wet. Special finishes give it even greater resistance to the elements.

Besides a car and a tent, you'll need cooking and sleeping equipment. Then you can add such accessories as knapsacks, portable refrigerator, folding bathtub, binoculars, etc.

Take only what you need and you'll have a grand time as a modern pioneer-camping family.

TENTING TONIGHT—Good tenting and good camping go together. The grown-ups find the model at left perfectly suited to their needs. Made of cotton canvas, it's simple to pack and easy to erect. Big picture windows provide four-way ventilation. The compact tent at right gives the youngsters their own special home away from home. Folding stoves and picnic table add further pleasure to the outdoor life.

Accident Report

A new truck operated by Tommy Herendeen, 29, R. 1, Claypool, was damaged \$500 early Tuesday morning when it struck and killed two steers on County Rd. 700 West two and one-half miles south of Burket. He told investigating officers that he was enroute home from work at R.R. Donnelly when the cattle appeared in front of his vehicle on the highway. He said he was unable to stop in time to avoid striking the animals, which were owned by Paul Bunyea, R. 1, Claypool. The cattle were valued at \$450.

ODDS and ENDS

By Ann Sheetz

Once, in what seems an eternity ago, I thought 4-H stood for head, heart, hands and health. For ten years I repeated the motto at weekly meetings and had a ball all year working on projects for the fair.

Now I am a parent of a 4-H member and this last week, this countdown week, before the fair, seems to give new meaning to the old 4-H motto, and we find ourselves harried that there is not more time to get ready. Todd, why didn't you tell us before you needed 50 feet of wire to make a trouble light? What will you display it on? A board? Will the paint dry in time?

Hurried. No matter how early in the year we started it seems we're never early enough. For instance, last year, we needed pictures of fish and they didn't arrive in the mail until the night before the exhibit was due at the fair. This year we determined to be wiser and saved bird pictures all year only to find in this countdown week that we have no cardinal. We have found ourselves eyeing all the Cardinal oil signs very hungrily.

Harassed. Todd has been saving rock specimens all year but he hasn't labeled them. We now have two tables full of rocks, fossils and books describing them. Only do they really describe the rocks that we have or are these some we haven't found yet? Does this black and white picture of quartz really look like this rock? Is this a rock or did six-year-old Doug sneak another of his jokes into big brother's collection? (It can be done. He found a "fossil" that turned out to be a rusty bolt that had settled in clay for so long it actually looked like a fossil.)

Helpless. We urged him to try these projects, thinking they

would give him something to do this summer. Now we find that 4-H also means helping parents and we feel like we have regressed twenty years and are no smarter for the intervening years.

All in all, this is a rough week. There is plywood to cut and posters to make and mount and cover with plastic, a trouble light to finish and a nervous boy to get to the fairgrounds in time to enter his projects. If it weren't for the harried, hurried, harassed and helpless feeling it might seem hilarious, happy, healthy and hopeful. Now we just hope our head, hands, heart and health hold out one more week.

Mentone is stroking its beard and searching its brain for an excuse to have a homecoming week with a big doings.

Wilbur Craig has secured a good position as conductor on the city electric line of Logansport. This is a nice boost for the young man and we trust he will take good care of it.

Our old friend, Caniel Whittenberger, has not lost his interest in livestock growing. His eyes twinkle when he notices the pigs tails curl and their jowells make double chins. The other day he sold to Harter, Kindig and Co. six pigs that were about eleven months old for \$159.82—that would make our eyes twinkle too. It makes them twinkle when we buy over the block.

Mr. and Mrs. Stant Thompson moved Thursday from rooms over the Wilhoit meat market to the late Jessie Burns property in the residence district at the north edge of town.

Don Noyer threshed his wheat crop yesterday, raised on the Mrs. Brundige farm, but we go to press too soon to get the yields. But Don expects big bushels.

Dr. John Petry sends us a wheel as his renewal for another year's subscription, and which will help pay for the fine bath tub in the basement of this establishment.

We have a first class bath tub in operation in the basement of this office at the service of the public. Water cold or hot as desired. Price, 25c. S.N. Shesler

For women only!

...Who says so?

Mother, does that stalwart breadwinner—your husband—believe that so long as he can occasionally break out a tray of ice cubes, that everything is okay in the kitchen?

Why not ask your appliance dealer for the names of two or three families who have recently purchased a refrigerator, a freezer, or combination unit. Take your husband to talk

to the men in those families. Believe us—he will find that men get just as much pride and enjoyment out of a new refrigerator as do their wives. Sometimes even more.

Then, as the two of you drive to the appliance dealer's, you might gently insist on getting an automatic ice maker. We guarantee your husband will love it!

Mr. and Mrs. Hershel McGown attended the funeral of Mrs. McGown's step-father, Earl Fry, at Colfax, Saturday.

Lum Smith, Rochester, called on his former

neighbor, Ora Tucker, Saturday. Mrs. Frankie Spitler and daughter called Sunday.

Mrs. Howard Holbrook spent Sunday afternoon with her mother, Mrs. Chloe Griffis.

Mrs. Lois Perkins and Mrs. Mabel Igo spent a few days in Ft. Wayne last week with Mrs. Bee Hand.

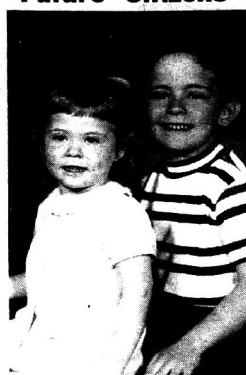

Chris Stine of Warsaw spent Sunday night and Monday with his cousins, Lisa and Laura Cochran.

Mr. and Mrs. Mark Surface and Mr. and Mrs. Herbert Adams spent Sunday in Dwight, Ill. with the Robert Adams family. Mrs. Surface remained a few days to help care for the new grandson.

Recent callers at the home of Mrs. Minnie Busenburgh were Mrs. Mary Johnson and Ramond Busenburgh and Rev. and Mrs. Ron McDugle and son.

The ambitious farm boy trades the peace and quiet of the farm for the noise and dirt of the city, so he can earn money enough to return to the peace and quiet of the farm.

Scout Leaders Are Needed

The Akron Girl Scouts need leaders! Anyone having any spare time once a week from 3:30 to 5:00, should consider helping these girls. If you have a daughter in the Junior or Cadette age group, your help is needed.

Also, any mothers who do not have girls in these age groups are reminded that their help would also be appreciated.

School will be starting soon, and if you like working with girls contact Mrs. Dick Day at the Day Hardware.

It's a very rewarding experience, say women who have been leaders.

J.P. Court News

The following drivers recently appeared in Abe Caldwell's Akron Justice of the Peace Court and were fined on the following counts:

Jesse Cox, Akron, paid \$37.25 for reckless driving.

Charles Bailey, Rochester, minor in possession of alcohol, \$37.25.

Robert Holloway, Kewanna, minor in possession of alcohol, \$42.25 and operating a car left of center, \$32.25.

Richard L. Slaybaugh, Rochester, speeding, \$32.25.

Orville Resse, Akron, speeding, \$27.25.

John R. Savage, Akron, disregarding stop sign, \$27.25.

Robert N. Cheeney, of Plymouth, failure to regard turning device, \$27.25.

Gary Howes, Silver Lake, minor in possession, \$42.25.

Warrants were issued for the arrests of Clarence E. Thews who had been charged with driving with a rejected inspection sticker, and William Eugene Ritchie, Elwood, no operator's license. Each failed to appear in the court.

MENTONE

On the evening of July 17, the Mentone Girl Scouts gathered in the backyard of the home of Debra Blackburn for a one-night campout.

First tents were put up. Then a camp fire was built. A hike was taken around the farm. Then we played some games. After dark we explored a haunted house.

We had a snack about eleven o'clock of so-mores, chocolate little Debbie's and grape and strawberry Kool-Ade. We went to bed about 12:30.

We got up in the morning about 6:30. A camp fire was built for breakfast. We had bacon, doughnuts, and Tang.

The tents were taken down and camp broke up around 10 a.m.

Thirteen girls and two leaders were present. Reporter,
Debra Blackburn

"KNOCK IT OFF"

The list of sound purposes for which we make loans goes on and on. In fact if you furnish ANY sensible need, we'll provide a loan that will fit it to a "T". Regardless of the type of loan, costs are always low, service is prompt, friendliness and helpfulness permeate the relationship. Repayment terms are fitted to your requirements, and everything is very confidential. We want to drive home this point: When you think of borrowing, think of us. And remember: We not only lend money, we also lend a helping hand. Make us prove it!

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

"Gay Dutch Days" Is Camp Theme

"Gay Dutch Days" is the theme of this year's Homemakers Camp. The camp is open to any Extension Homemaker in Elkhart and Kosciusko Co. Camp will be held Sept. 14 and 15 at Camp Mack in Milford, Indiana.

The theme of the camp will be carried out with demonstrations, skits and a party. I will give a demonstration on Pennsylvania Dutch Cookery on Tuesday, September 15, at 11 a.m. A discussion of "Amish People" will be held that evening and a Dutch Party hosted by our county. Also the Cardinal Learning Center Bell Ringers

will play before dinner. A tour of Amish Acres will highlight Tuesday's activities. And Lois Gotwals, area extension agent, will give a preview of the fall fashions.

The camp fee is \$6.40 for a full time camper. This includes the registration fee and meals. Part time campers have special rates for attending only one day or part of a day. Campers are asked to bring scissors, needle and thread for crafts and a costume for the Dutch Party. Registration blanks are available at the county extension office.

RECIPE OF THE WEEK: I received this recipe when I attended the Golden April Club. I hope you enjoy it:

FRUIT COCKTAIL CAKE—2 cups flour, 1½ cups sugar, 2 eggs, 1 teaspoon soda, 1 teaspoon vanilla, 1 small can fruit cocktail (juice, too). Combine all ingredients, pour into a 13 x 9 inch loaf pan. If desired, sprinkle brown sugar and pecans on top. Bake at 350° for 30 to 40 minutes. While the cake is baking, combine: ¾ cup evaporated milk, 1 teaspoon vanilla, 1 cup sugar, 1 stick margarine. Bring to a boil. Then pour sauce over the cake as soon as it is done.

DATES: July 31, Clean-Up Women's Building for the fair.

August 3-8, Kosciusko County Fair.

Rainbow Girls Plan Theatre Party

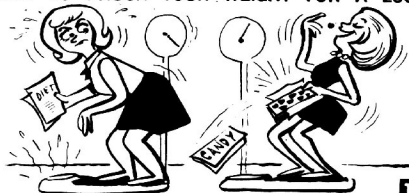

Marjorie Kendall, worthy advisor, presided at the stated meeting of Akron Rainbow Assembly. It was voted to attend the performance of "Mame" at the Wagon Wheel Playhouse at Warsaw, Monday, July 27, at 7:30 p.m. The girls may invite a guest. Final reservations must be in to the Mother Advisor no later than Friday, July 24.

The Rainbow float took fourth place at the Akron July 4 parade. Girls on the float were Sue Johnson, Marjorie Kendall, Deena Turner and Debra Hunter. The float was taken to the Roann parade July 11. Girls on it were Debra Hunter, Janet Sheetz, Mary Sausaman, Michelle Leavell and Sherri Miller.

The Bingo Game at the Akron celebration was a success and the girls wish to thank everyone who helped them.

HOW TO KNOCK YOUR WEIGHT FOR A LOSS

Do you know that eating candy provides you an easy way to reduce?

Listed below are two simple steps that could result in a worthwhile weight loss every week.

STEP 1

About half an hour before each meal eat a piece of candy. This can be a hard candy, chocolate or any type of confection you desire.

It is a known fact that candy raises the blood-sugar level, making it an excellent

fatigue fighter. In addition, candy depresses the appetite making it an important reducing aid.

STEP 2

After each meal eat a piece of candy instead of higher calorie dessert. An after dinner mint pattie, for example, could become your regular dessert.

By following this second step you will find that your physiological need for sweets is adequately filled by this simple procedure.

Sound too simple to work? It's just that simple. Try it.

TEA, ACCORDING TO A CHINESE LEGEND, WAS DISCOVERED IN 2700 B.C. BY EMPEROR SHEN-NUNG.

"First Aid For Nails"

What shape are your nails in?

Household chores, typing, gardening, you-name-it—they all take their toll on your fingernails. You're fortunate if you have any to polish when a big evening comes along.

Solution — a regular manicure routine, plus daily care.

1. Remove polish with cotton balls (cotton-tipped stick for sides of nails). Don't leave the solvent against your nails too long—it can be drying.

2. Use an emery board for filing your nails rather than a metal file. File from side to center, in one direction only. Oval shapes are prettiest — and not too long, please.

3. Now wash nails in warm, soapy water and push back cuticle in the cuticle remover.

4. You're ready for polish when the surfaces of nails are clean and the cuticle is smooth. (If your nails split, stop here — apply polish the next morning.)

5. Apply base coat — let it dry thoroughly — then apply two coats of polish, allowing them to dry thoroughly between applications.

It takes six months for one nail to grow out completely, so all your good work will bear fruit in time. In the meantime — take care! Never dial a phone with your fingernails — use a pencil. Learn to type with the balls of your fingers and wear rubber gloves when you're doing housework.

It only takes a little effort — the results are ten times beautiful!

NEW BOOKS

BELL MEMORIAL LIBRARY

New books at the Bell Memorial Public Library: COUNTDOWN by Frank Slaughter. This novel looks into the private lives of the men who publicly probe the mysteries of outer space. The setting is a giant aerospace complex dominated by the launching pads of Cape Kennedy.

A MORE PERFECT UNION by Robert Stapp. A pseudo-historical novel set in 1981 and based on the premise that in order to avoid the Civil War, Abraham Lincoln allowed the South to secede, and that for 120 years two separate nations—the United States and the Confederacy—have developed side by side.

LONESOME TRAVELER by Weldon Hill. This is the heartwarming story of a fourteen-year old boy whose loyalty and perseverance never fail him as he travels 700 miles one summer to see his mother.

Non-Fiction:

A CHILD'S MIND by Muriel Beadle. With emphasis on how a child learns rather than how he should be taught to learn, this is a survey

of all that is known about how children learn during the earliest years of life—the critical years before a child goes to school.

A GREAT FALL by Mildred Savage. A suspenseful and very personal account of a brutal murder and the two extraordinary trials that followed it.

WILL ROGERS by Donald Day. Full of wit, anecdote and personalities, this profound American commentary is the first full scale portrait of one of our most beloved countrymen.

Silver Lake Area News

Mrs. Jim Leiter

As we go into a fresh new week all washed and cleaned by the recent welcome rains and all counting our blessings, here is a little news around our town and community.

Mrs. George Mosier of Dewart Lake has been visiting the Harvey Anglin residence the last week.

Mr. and Mrs. Harvey Anglin spent Sunday visiting Mr. Anglin's aunt, Mrs. Elzie Stackhouse, of Nappanee and stopped in at Leesburg to see Mrs. Millard Stoekey.

Mr. and Mrs. Tom Ault were the hosts to a roasted pig supper whose guest list included: Mr. and Mrs. Kenny Kerlin and sons, Mr. and Mrs. Ted Kerlin and family, Mr. and Mrs. Gene Arnold and family, Mr. and Mrs. Bill Kneiler, Dr. and Mrs. H.B. Liebegood, Mr. and Mrs. Rex Shilling and family, Mr. and Mrs. Dean Zellers, Mr. and Mrs. Hubert Hammons, Mr. and Mrs. Jack McDonald and sons, all from the Silver Lake community. Also, Mr. and Mrs. Richard Morris and family, Mr. and Mrs. Don Ault and family, Mr. and Mrs. Joe Ault and family, Mr. and Mrs. Walter Drudge, all of the Claypool area; Mr. and Mrs. Rex Woodruff and family of Warsaw; Mr. and Mrs. Dail Barber of Beaver Dam; Mr. Lynn Ruckman of Columbia City. A good time was enjoyed by all with the meeting of old and new friends.

Mr. and Mrs. Dick Clement of Silver Lake gave a party for their son, Troy, who celebrated his 3rd birthday. Those attending the party were: Mrs. Clement's parents, Mr. and Mrs. Donald Baker and sons, Mr. and Mrs. Kenneth Murphy of Warsaw, and Troy's sister, Wendy. A cook-out was enjoyed by all.

Mr. and Mrs. Galen Wolf of So. Whitley were honored on their 25th wedding anniversary by their daughter and husband, Mr. and Mrs. Terry Bouse. Those attending were Mr. and Mrs. Wolf's brothers, sisters and families. Mr. and Mrs. Galen Wolf were married at the home of Mrs. Wolf's parents,

Mr. and Mrs. Edgar Sherbahn of So. Whitley.

Mr. and Mrs. Mitchell Bradford, Michael, Jeanne and Bobbie Jo, have recently moved into the Sam Hopkins residence.

Mrs. Mary Sandlin left for Florida recently with her granddaughter and husband, Mr. and Mrs. Joe Hogan of Warsaw.

Mr. and Mrs. Roy Bouse were Saturday evening visitors of Mr. and Mrs. Ernest Brooks.

Mr. and Mrs. Chester Bruce had Mr. and Mrs. Fred Bruce for dinner Sunday.

Mr. and Mrs. Darrel Bruner and daughters, Mr. John Parker and Miss Debbie Groninger, Mr. and Mrs. Steve Parker went to the Warren Dunes and Deer Forest recently. Everyone had a good time and even had a picnic in the rain.

Mrs. Clifford Ring and granddaughter, Susan Leiter, spent several days last week at the home of Mr. and Mrs. David Kinsey and family of Bloomington.

Miss Margaret Allen was the honored guest at a birthday party July 19, given at her home by her parents, Mr. and Mrs. Derwood Allen and sister, Janet and brother, Steven. The following guests attended the celebration: Linda Bradford, Virginia Howard, Sara Thompson, Cathy Zimmerman, Vici Jones, Dan Kerlin, Marlin Carr, Richard and Morris Jones, Joe Fisher, and Mr. and Mrs. Frank Jones.

Mr. and Mrs. Jim Lotz recently visited several points of interest in Chicago area while on vacation.

Mr. and Mrs. Derwood Allen celebrated their 16th anniversary on July 17. They are the parents of three children, Margaret, Janet and Steven. Mrs. Allen is the former Ann Latta, daughter of Mr. and Mrs. Graham Latta. Mr. and Mrs. Allen were united in marriage by the late Father Reddington of the Sacred Heart Church in Warsaw. Mr. and Mrs. Allen and their children celebrated the event at the Foo and Fay Restaurant in Syracuse.

The Little League had a game despite the rain Sunday with the Sox playing the Cubs with the final score being Cubs 9 and Sox 6. A minor accident occurred when Steve Bradford and Michael Jones collided which resulted in Mike Jones receiving four stitches.

Mr. and Mrs. Otto Bradtmueller and four children of Ft. Wayne were Sunday afternoon

guests of Mr. and Mrs. Wayne Leiter and family.

Mrs. Roy Bechtelheimer, Mrs. Richard Kerlin, Kris and Kelly, and Mrs. Jesse Lynch spent Thursday in Ft. Wayne shopping and visiting the Franke Park Zoo.

Mrs. Rex Lynch entertained on Sunday with a birthday dinner. Present at the dinner were Mr. and Mrs. Charles Lynch and family, Mr. and Mrs. Roy Bechtelheimer, Mr. and Mrs. Richard Kerlin and sons, Mrs. Jesse Lynch and Mrs. Jack Merritt. The honored guests were Mr. Rex Lynch, son Eddie and daughter, Jane Ann.

Mr. and Mrs. Mac Summe were recent Sunday evening dinner guests of Mr. and Mrs. Lester Wade of Ft. Wayne.

Mr. and Mrs. Mac Summe were Saturday and Sunday guests of Mr. and Mrs. Russell Sunday and the Chief LaFontaine Saddle Club at their Annual Benefit Horse Show, which is held at the saddle club's grounds on Salamonie Drive, south of Huntington.

Mr. and Mrs. Howard Summe of So. Bend were Thursday callers at the Zetta Summe, Mac Summe and George Summe homes.

Mr. and Mrs. Jim Marsh, the former Elizabeth Ann Wimer, lost their little baby girl last week. Those wishing to send cards may send them to 10804 Trafion Dr., Upper Marlboro, Maryland. 20870.

The annual South Pleasant Church Picnic was held at the church Sunday due to the rain.

Mr. and Mrs. Merl Rowland attended the barbecue in Mentone Saturday evening and then visited Mr. and Mrs. Ellis Hill.

On Sunday, Mr. and Mrs. Max Rhodes of Elkhart called on Mr. and Mrs. Merl Rowland. Tuesday afternoon callers were Mr. and Mrs. Don Cinninger of Decatur, Michigan.

Mr. and Mrs. Allen Olson, Ft. Wayne, attended the South Pleasant Church picnic Sunday.

Amy and Julie Olson are visiting their grandparents, Mr. and Mrs. Worby Clinker.

Leroy Scherer gave an outing and steak dinner Sunday at Chain-O-Lakes State Park for Mr. and Mrs. Carlyle Grimm and daughter, Edward Scherer and family, Earl Scherer and wife and Lewis Scherer, who is visiting from Georgia.

Bell Award Is Given

The Grover E. Bell Award, one of the nation's most coveted aviation awards, was recently presented to the U.S. Army Aviation Materiel Laboratories, Ft. Eustis, Va., "for research and development during 1969 leading toward the development of advanced helicopters."

The Award, which includes a plaque, a check for \$250 and a citation, was created in memory of one of the early pioneer aviators by his brother, Lawrence D. Bell, for the purpose of fostering and encouraging research and experimentation in the important field of helicopters.

The plaque carries profiles of the two brothers, both natives of Mentone, with this inscription: "In memory of an early pioneer who gave his life to aviation July 4, 1913. U. S. Aviation Materiel Laboratories for outstanding contribution to helicopter development 1969."

Grover Bell, the older brother of Lawrence Bell, founder of Bell Aircraft Corporation and donor of the funds used to build the Bell Memorial Library in Mentone, was killed in an airplane crash at the start of his aviation career.

OBITUARIES

Smalley

Earl D. Smalley, 57, 1628 Meadowbrook Drive, Elkhart, was dead on arrival at Elkhart General Hospital early Sunday. He was the owner of Smalley's Kentucky Fried Chicken at Elkhart.

Take your problems to Church this week -

The Great Are Humble

"Roll on, thou deep and dark blue ocean, roll!" Men need to pause and think occasionally in the presence of that which strikes awe into their hearts. It will help them to get over the false idea, prevalent in recent times, that "I am the master of my fate; I am the captain of my soul." No man is either master of his fate or captain of his soul: Nor will any appear truly masterful till he is bowed in the deepest allegiance of his life before man's true Master. Man is essentially dependent, not independent. He is strong only when he leans upon his God in trust and obedience.

You Only Go Around Once

"You've got to grab
all the gusto you can
get—you only go around
once in life."

A beer commercial but
it reflects the philo-
sophy of millions.

And what a philosophy.
It slew the Greeks. It
killed the Roman Empire.
Its insidious poison
eats away at the vitals
of our nation. It is
the theme song of the
grabbers—those who in-
terpret life in terms
of what they can wring
out of it.

The poor want wealth.
Women want equality.
The rich want whatever
they can get to dispel
their sense of meaning-
lessness. Only God
Himself knows what
youth is grabbing for.
Joe Doakes drinks his
beer, watches his color
TV and just wants. All
hang poised to pounce
on whatever can give a
moment's satisfaction—
an hour's gratification—
a day's fulfillment.

Is that what is wrong
with our nation? Have
we become completely
absorbed with self? Are
we so greedy for things,
for sensations, for hap-
penings we devour life
like some malignant
cancer feeds upon a
body?

Whatever happened to
that other philosophy?
The one which teaches
men the purpose of life
is to give. The one
which leads men to serve
mankind. The one which
dedicates itself to
creating a finer life
for all. The one which
tries to leave the world
a better place—not a
shambles. Never has the

world needed this phil-
osophy more.

If we go on as we are,
we can grab ourselves
out of existence. We
can consume to the point
of no return. We can
take until there is no-
thing left to take. We
can destroy America and
with her the last best
hope for humankind.

Someone needs to tell
the beer huckster and
the people who dig his
philosophy, "You're out
of it, man. Grabbing
is for the birds."

The AKRON MENTONE NEWS

Combining The Akron News and The Mentone News

The Old-Time Melodramas at the Henry Ford Museum in Dearborn, Michigan recreate the fun and excitement of the century-old traditions of the American theater for today's audiences. Authentic costumes and settings like those shown above are carefully researched to insure accuracy. Four plays from early American dramatic literature will be presented by the Greenfield Village players this summer through September 12.

"Is everything turned off?" Asking that traditional question before you leave the house tranquilizes a trip's start. Just what electrical appliances need turning off depends on how long you are going to be gone:

refrigerator. If you are going to be gone less than a month, check the keeping time of perishables and clear out the ones that won't make it until you return. Milk keeps about five days; eggs, two weeks; fresh meat, four or five days; ground meat, poultry or fish, a couple of days; fruits and vegetables, a week. Turn off the automatic ice maker. If you are going to be gone more than a month, turn off and clean out the refrigerator. Turn off water supply to the ice-maker and prop the doors open.

freezer. If you are going on a lengthy trip, have a neighbor check it periodically to see that it hasn't accidentally turned off.

dishwasher. Leave the door open.

disposal. Run all garbage through and rinse with cold water for a couple of minutes. If you don't, strange odors might greet you when you come home.

automatic washer. Clean out filter. Shut off faucets to prevent pressure building up on valves and pull the plug.

dryer and electric range. If you are going on a long trip, pull the circuit breaker or fuse.

small appliances. Unplug—particularly ones like toasters and television sets that heat. Some you'll want to take with you. Electric coffee makers, irons and hair curlers are excellent traveling companions.

Let your freezer welcome you home. A ready-to-heat casserole for supper and frozen waffles and sausage for breakfast could eliminate the search for an open grocery store after a long trip. Use an electric blender and chocolate syrup to make dry milk a treat for the children.

IN MEMORY

IN MEMORY: In loving memory of Ulaia Colleen Konkie who passed away July 21, 1968.

God knew she was suffering, That the hills were hard to climb, So he closed her weary eyelids, And whispered, Peace be Thine.

DID YOU KNOW?

John Yantiss, Tippecanoe, a graduate of Taylor University, was a member of the Singing Wheels bicycle group that made its way thru the state Wednesday. Gov. Whitcomb planned to ride with the group at Seymour. Also in the group was Paul Neff, Macy, a nephew of Mrs. Earl Shinn, Mentone.

Future Citizens

John Allen, 18 months, son of Mr. and Mrs. Darrell H. King, Mentone.

HUMOR IN THE NEWS

Joseph Jasinski has made a name for himself in St. Louis by turning out family coats of arm painted on plaques to go over the door of homes in residential areas. He says "people have money to dress up their property and they want something more than an ox bow to put on the front of their homes."

Fred Haller of Pittsburg bought a 1909 Chalmers and installed a modern V-8 engine in it. Motorists smile at the old touring car ambling along the highway but their eyes pop when he steps on the gas and goes whizzing past them.

Prize Winners Are Listed

Merchandise prize winners at the drawing held in Mentone Saturday evening included:

Dick Shipley and Jeffery Boogs, \$2.50 each from Hammer Ins.; Linda Hibschan and Susan Hibschan, \$5 each from Boggs and Nelson; Mary Jane Cutter, \$5 from Gates Heating; Stan Nice, free car wash from Mentone Body Shop; Todd Utter, \$5 in trade from Deluxe Cleaners.

Don Smythe, \$5 in trade from Linn's Sinclair and JoAnn Ralson and Iris Anderson, \$5 each from Mentone Service Center; Harold L. Shaffer, \$5 in trade at Utter's.

Also, John Bowerman, set of spark plugs from Scott's Garage; Charles Gradeless, free plane ride at Mentone Airport; Randy Haist, interest for one day at 8% interest on \$45,000 (\$10).

Also, Mrs. J. H. Burtner, \$5 trade at Broadway Tavern; David Reese, Kermit Zent, Jack Adams, Kathy Caulter, and Sharon Romine, chicken dinners at Teels Restaurant; Joe Kelly, \$5 from Doud Livestock; Guy Baker, 1/4 inch drill from Miller Hardware.

Becky Hunter and Eldon Horn, rugs from King's Furniture; Gerald Romine, shampoo from Rick Barber Shop; Lena Igo, shampoo from Rick's Barber Shop.

Lynn Phillips, ladies pendant watch from Towne Hall Shoppe; Emma Lou Hiers, 2 gallon outside paint from Romine Electric.

Vicky Horn, table lamp from Coopers; Rita Price, John A. King and Kent Riner, year's subscription to Akron/Mentone News.

Also, Maxine Haney, Denise Cooper and Roseanna Coplen, 2 cans each of polish from Baker's TV; Don Randall, 6 qts. oil from Lewis Motors; Dorothy Henendeen and Mike Baker, \$5 trade each at Frank and Jerry Grocery; Franzil Baum, \$5 from Frank Mfg.

W.W. Mote, \$5 trade at L & B Foods; Sharon Lewis, football from J and J Sales; Donna Romine, merchandise from Bernice's Beauty Shop.

The grand prize winner of the television set was R. D. Onken, Argos. The set was given by the Mentone Chamber of Commerce, Chet Smith, Corner Drugs, Ettinger Machine Co. and Lake Trail Cafe.

Kiddie Parade Winners

The kiddie parade, directed by Raymond and David Cooper, drew 36 entries. Winners were chosen in each division as follows:

Bicycles: Andy Shoemaker, Joy Lucht, Jennifer Manwaring.

Tricycle: Cindy Niccum, Jeff Webb and Joey and Mark Hughes.

Pets: Danny Johnson, Shasta Johnson, Kelly Anderson.

Tractor Pull

Winners in the light-weight division of the tractor pull were Rick Doud, David Sheetz and Denny Kamp, all of Akron.

Heavy-weight winners were Monte Rans and Jeff Craig, both of Akron, and Scott Shoemaker, of Mentone.

Pony Pull

Winners in the pony pull contest included:

Light weight, Glen Richards, Churubusco; middle-weight, Bob Fowler, LaFountain; and heavy-weight, Joe Heddington, Mentone.

There were fourteen entrants in this contest. Each of the winners received a trophy.

Greased Pig

Randy Grimm, son of Mr. and Mrs. Dick Grimm, Mentone, and David Bellamy, son of Mrs. Ethel Jackson, were winners in Saturday's greased pig contest. The pigs were furnished by Butler Johnson of Tippecanoe. Each of the boys received a football as a prize.

Wig Winners

Mentone's newest, and not yet opened business, Towne House Beauty Salon, had a wig drawing Saturday with Pat Shoemaker winning a wiglet and Debbie Reed winning the wig.

Mow Weeds!

Members of the Akron Town Board said Tuesday night at their regular meeting that any property owner not mowing his weeds by August 10 will have the cost of the mowing added to his tax statement. The town will have the weeds mowed after that date.

In other board action, the members discussed the proposed 1971 budget which will be advertised in August. A hearing on the budget will be held August 31.

Area Students Earn Top Grades

Area students continue to win honors at their schools of higher learning.

At Anderson College, Wanda Leone Thomason, daughter of Rev. and Mrs. J. D. Thomason, Akron, was among nearly 500 students named to the Dean's List for the second semester. To be eligible students must maintain a 3.0 grade average on a 4.0 scale.

Among the 2,388 students earning the distinguished student rank at Purdue university were the following area students: Daniel Antonio Murcia, R. 1, Mentone; Kerrick Alan Deardorff, Mark DuWayne Flohr, both of R. 1, Akron; and Erich Emil Drochner, Tippecanoe.

To earn this distinction, students must have a grade index of at least 5.5 (B plus) out of

TVSC
Cont. from page 1

after detailed examination of the proposed amounts, a budget that totals \$1,420,941 was adopted by the board for advertisement. There will be a hearing on Aug. 27 at which time any of the proposed amounts could be cut. This year's proposed budget is \$8,000 lower than last year's. The rate would be \$2.98 plus the cumulative building fund for a total of \$3.80.

Ministers Have Family Picnic

The Henry Township Ministers' Association had a family picnic at the Akron Park last Friday evening. Those in attendance were Mr. and Mrs. Claude M. Fawns, Mr. and Mrs. J. F. Baldwin, Mr. and Mrs. Wayne Johnson, Mr. and Mrs. John Moore and children, and Mr. and Mrs. J. D. Thomason and children.

After eating, they discussed briefly some plans for cooperative activities during the coming year. All expressed appreciation of and best wishes to the Baldwins, who are retiring. J. D. Thomason was elected to serve as president of the group, and John Moore as secretary. The next meeting was set for Tuesday, September 22.

Sing Out Warsaw To Entertain At Mentone Youth League Picnic

Parents, relatives, friends and neighbors are invited to the annual Mentone Youth League picnic to be held at 1 p.m. Sunday, August 2, at the Mentone Youth Park. Parents are asked to bring a covered dish.

The picnic climaxes another successful ball season in which more than 210 boys and girls participated.

Highlights of the afternoon will include the picnic, the presentation of trophies, a performance by the nationally-known Sing-Out Warsaw group, a watermelon feast by the Mentone Fire Department and softball games involving youth and adults.

The Youth Park consists of two complete ball diamonds, one lighted; a playground, a tennis court; a concession stand, and the recently-completed pavilion for year-around activities. The public is invited to attend and to see the facilities available for year-around activities of the youth of the community.

Board members and officers will be present

to answer questions and to hear suggestions for improvements or additions.

GRAND CHAMPION STEER at the Fulton County 4-H Fair was shown by Stephanie Hartzler, daughter of Mr. and Mrs. Steve Hartzler, R. 1, Akron. She is shown receiving the championship trophy from Bob Leavell, representing Hales and Hunter, Mentone. She also was named grand champion in the foods division and her brother and sister, Mark and Melinda, were named champion showmen in the junior and senior classes of beef judging. Fire Destroys McCloughan Home

Fire of an undetermined origin swept the Ben McCloughan home near Akron early Friday morning, causing what firemen estimated as "at least \$10,000 damage."

Mr. and Mrs. McCloughan were awakened by the sound of the blaze and escaped without injury. They saved some of their furniture but the home was listed as "almost a total loss."

Firemen from Akron and Rochester responded to the alarm.

Parade Launches 4-H Fair

The Fulton Co. 4-H Fair opened Sunday afternoon with a parade that included several local winners.

First place in the 4-H floats division went to Richland township's 4-H group; 2nd to Henry Twp.

and third to Burton Busy Bees.

Akron Rainbow placed first in the Other Floats category and Sonoco Products Co., Akron, was second.

The Akron marching unit won first in the General category.

DUKE AND DUCHESS of the Fulton County 4-H Fair now in progress at Rochester are Bob King of Liberty township and Stephanie Hartzler of Henry township. Gospel Sing Is Kosciusko Fair First

New at the Kosciusko County Fair this year will be a gospel sing to be held August 2 from 6 to 9:30 p.m. on the fairgrounds. In event of rain the sing will be held in the Warsaw High School Auditorium.

Participating in the sing will be many well-known groups, including the Jubilee Quartet of Syracuse, Conveyors Quartet and Jubilee Trio of Marion; The Gospellers of Kokomo, Dale Miller accordionaire of Shipshewanna and the Hart family of Marion.

A free will offering will be received.

IRENE HAMMER, who spent last week with Mr. and Mrs. Cliff Eherenman of Burket, shows her hostess the sweater she made during her stay. Mrs. Hammer, a teacher and principal of a school for slow learners in Kiel, Germany, is participating in the Host Program that enables foreign teachers to visit the United States to become acquainted with the schools and the people. She previously had visited in Madison, Wisconsin and planned to visit a family in Cleveland, Ohio before returning to Germany. Fluent in English, she said she had not used the language in 25 years, although she noted that all students in her country must begin studying English by the time they are in the fifth grade and expressed surprise that foreign languages are not required subjects in the United States.

ODDS and ENDS

By Ann Sheetz

Nearly everyone knows what Ralph Nader and his Raiders did to the auto industry, but not many people know that he is preparing to launch an investigation into 4-H fairs. Although we suspect the rumor of his proposed 4-H investigation was started by a father heard to mutter, "4-H stands for bad, hooked, hoodwinked and hornswaggled," it will be interesting to watch Nader investigate the time-honored tradition of a 4-H fair.

How will a man who decided that American cars were unsafe at any speed manage to duck through the beef barn without being branded in some way? He's certain to pick up a souvenir that will get him barred from the home-making exhibits.

Once there, how will he cope with a mother who is telling the county agent for the umpteenth time, "Mary Lou's dress is better than the one that won the purple ribbon. And she did all her own work. I know for a fact that other girl can't sew a stitch and I'll bet her mother was the judge."

EDITORIALS

Beginning next week, newspapers in Indiana, both weekly and daily, start publishing proposed budgets for the coming year as prepared by various taxing units, such as towns, townships, school corporations, counties and libraries.

This publication, often in fine print, is regulated by the legislature, which recognizes not only the right of the taxpayer to know what he's paying for but also that such publication is an added assurance against malfeasance in handling funds.

This week, readers have the opportunity to learn how the school corporation spent its tax money during the past fiscal year. This published annual report of income and expenditures is also required by law.

If you are an "interested taxpayer," as the law refers to you in the conclusion of the printed report, and want to know how your money is being spent, read the budgets for the taxing units as they appear in this paper. You can understand them with a little study and you can compare the amounts proposed by different units for the same fund.

Remember, too, that you can attend the public hearing on such budgets and can assume the role of an "aggrieved" taxpayer, as it states, if necessary to dissent.

If he manages to evade her, he's likely to run into a father whose son's electricity project didn't fulfill the judge's fondest desires and who is muttering, "He was clobbered and the whole place is for the birds."

While Nader is trying to figure out what in the name of safety that stands for, he's likely to get hit in the side of the head with a well-directed squirt from a water pistol. Some traditions don't change and the water tank that filled water pistols twenty years ago for a generation of well-behaved youngsters now fills water pistols for the young hoodlums of today. If he complains, he'll be pitched out bodily by parents and children, bridging the generation gap to present a united front.

Confused by the activity in the 4-H building, he will investi-

gate the commercial building, where, if he has any curiosity, he will stop to register for all the free prizes and will be given literature telling him why X shoes are better than Z shoes and why gas is better than electricity, why vinyl will outlast aluminum and why Q clothes are better than M. The Democrats will give him balloons and the Republicans will give him pins and he'll become so confused that, stuffed with hot dogs cooked on a stick, caramel corn, cotton candy and warm pie from one of the church stands, he'll probably get on the Ferris Wheel to get an over-all view of the fair, and it is safe to predict that by the time he gets down, the 4-H fair, great tradition that it is, will be blackballed along with the auto industry as being "Unsafe At Any Speed."

Generation Gap, Ha!

Young people today say that they feel the older generation does not understand their problems. They say that they are frightened because of world conditions. They also say that we are fighting a senseless war in Vietnam.

So what's the difference between now and 10, 20, 30 or 50 years ago?

Do the young people today think that they have a monopoly on problems, that the older generation sailed along in a steady breeze of glorious surroundings, never troubled with the problems of earning a living, fighting a war of making a successful stand in life?

Can they possibly feel that we weren't scared to death of what the future held in store during the times of two world wars and a Korean conflict? What do they believe was the reaction of thousands of young people throughout the U.S. when President Roosevelt made the terrifying announcement over radio that the Japanese had bombed Pearl Harbor?

Do they believe for a minute that we wanted those wars anymore than they want the one in which our troops are now engaged?

Perhaps the whole situation is created by lack of good history courses which explain what real oppression can mean and why America was settled and why it has grown so much in the name of freedom.

America's forebearers came to these shores seeking freedom of speech, freedom of religion and they have had to fight for it every step of the way. Freedom will be

ours only as long as we protect the right to have it.

SOCIAL SECURITY Question Box

Q: I have both parts of Medicare. I'm interested in obtaining additional health insurance coverage. Can you explain the various supplemental plans advertised in the papers?

A: While we can help you with Medicare questions, we are not able to advise you regarding any private supplemental plans. Why not write to the company doing the advertising.

GRASSROOTS OPINION

ALTOONA, PA., MIRROR: "People expecting something for nothing have always been around, all around the world. But only here...has it ever been seriously suggested that they all had a 'right' to anything for nothing, let alone a 'right' to a guaranteed annual income which amounts to nothing less than everything for nothing."

NEW HOLSTEIN, WISC., REPORTER: "You don't realize it, because it has become so much a part of our life, that we are paying taxes twice and three times on some projects, sales, transactions, what have you. Even at that I had rather be taxed in the USA than live in freedom (allegedly) in Russia or under communism. You never know how valuable you prize your freedom until you lose it."

TIPTON, IOWA, CONSERVATIVE: The idea that any family with a yearly income of \$8,400 could be poor is of somewhat recent origin. As a matter of fact, the amount that a family can earn and be in poverty increased \$1,000 last year, according to the Department of Labor."

GOTEBO, OKLA., RECORD-TIMES: "One man tackles the hard job first and keeps on until he completes it. He succeeds, goes up the ladder and pays taxes to help support the government by income payments. Another man does the easy job first and sidesteps the hard one. He fails in business or loses his job and the government helps support him out of the first man's taxes. Nevertheless, most of us would rather be the first man."

Once upon a time, people saved their money, thinking it would be worth more, later.

The town of Burket will be incorporated. At a special election held on Tuesday 74 voted "Yes" on the ballots and 38 voted "No". This made a total of 112 casting ballots. It was stated today that there are 122 qualified voters in the town. Most of the other ten were away from home on Tuesday. Two voters were challenged and one was allowed to cast a ballot and the other did not vote. It is said there are 288 persons living within the limits of the town. The election was ordered by the county commissioners following the filing of a petition by Homer McGinley and other residents of the town.

The overhead crossing for the Erie west of Laketon is completed so far as the bridge work is concerned, and people can drive through on the road if they want to stand a few bumps. For years this was one of the most dangerous railway crossings in the country, for the reason that the highway passed under one track and crossed the other a few feet away with a grade crossing. There was comparatively little traffic on this road partly for that reason.

Awarded Air Medal

Sgt. David Stults, who received his discharge from the U.S. Army on July 22, recently received the Air Medal for Valor with a "V" device.

Husband of the former Kathy Blackford of Tippecanoe, Sgt. Stults entered the army in August of 1968 and took his basic training at Ft. Leonard Wood, Mo., Ft. Ord, Calif. and Ft. Benning, Ga. and Ft. Jackson, So. Carolina before being sent to Vietnam in July of 1969. He served in Vietnam for eight months in the infantry and four months as a helicopter mechanic in the 199th Light Infantry Brigade.

His citation said he distinguished himself by heroism while participating in aerial flight on May 21, 1970 while serving as door gunner with Headquarters and Headquarters Co. On that date, he was one of the crew members par-

ticipating in a night hawk mission when his helicopter came under enemy ground fire while flying at low level. Immediately and without regard for his personal safety, Sgt. Stults engaged the enemy ground units despite the intense hostile fire directed toward him. His alert and aggressive actions were responsible for the destruction of two enemy supply trucks and two enemy soldiers, thus earning him the respect and admiration of all with whom he served. Sgt. Stults' heroic actions were in keeping with the highest traditions of the military service and reflected great credit upon himself, his unit and the United States Army.

25th Anniversary To Be Honored

Mr. and Mrs. Vernon Derring, R.R. 1, Akron, will observe their 25th wedding anniversary Sunday afternoon, August 2, after 2 p.m. at their home. They ask that gifts be omitted.

They are the parents of three children, Mrs. Russell (Cathy) Koppang, North Sutton, New Hampshire; Della, at home; and Dotty, a junior at Purdue.

Parents of the couple are Mrs. Bredella Shireman and the late William F. Merley of Akron and Mrs. L.H. Hill of Chattanooga, Tenn., and David E. Derring of Cockysville, Maryland.

Character is like a tree and reputation like its shadow. The shadow is what we think of it; the tree is the real thing.

Is the Longuette For You?

Lafayette, Ind.—Longuette is not a simple dropping of the hemline, says Mrs. Jean Goodrick, Extension clothing and textile specialist at Purdue University. Proportion is the key to providing this total head-to-toe silhouette—proportion that requires careful balance.

The Longuette silhouette is characterized by a small, neat shoulder with a high armhole, a well-defined waistline, a smooth hipline and a graceful sweep to the hem. Described another way, it is said to fit close to the bust, waist, and hips while it swings free at the hem to allow the wearer to take long strides.

In keeping with the silhouette, snug body tops may be worn with the gently flared midlength skirt. (The skirt is often pleated, slit or left unbuttoned part way up from the hemline.) These body tops may be a skinny-rib sweater, a turtle neck shirt in wool jersey, a skinny matte jersey top with a cowl neckline, or a turtle neck body sweater. The snug body tops and the long skirts with a graceful sweep to the hemline suggest a trend toward a triangular silhouette.

An increase in length may result in the need for horizontal division of the total silhouette. Belts not only provide a dividing line but also draw interest to the well defined waistline. Waist cinchers may often be wide and elasticized. Hosiery is expected to be a primary accessory

of Longuette. Bridging the distance between the lower extremity of the midlength skirt and the platform shoe, the hosiery will need to carry more weight than that of most nylon sheets. Opaques and textured hosiery in coordinating wardrobe colors are suggested to complete the costume look. Boots may also be used effectively with the long, full-skirted silhouette.

To decide if Longuette is suitable for you, examine the proportions of your body structure in view of the proportions of the Longuette silhouette. Some fashion authorities maintain that each person should feel free to choose the silhouette and hem length that is most compatible with the individual figure. Fashion should not dictate that a style be worn by all.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

Kosciusko Co. Fair Women's Department

Don't miss the Women's Department at the Fair! Some of Kosciusko County's best baked and canned foods, most beautiful needlework and crafts, and home grown flowers will be on exhibit. Although the Extension Homemakers sponsor the exhibits any women in Kosciusko County can enter an article. Other displays in the

building include booths put up by some of the Extension Homemakers Clubs illustrating lessons that they have had throughout the last year. Also a display of the special interest lesson topics has been added this year. Special interest lessons are all open to the public so this will give everyone an idea of the wide range of topics studied.

The Extension Homemakers will have a raffle booth in the building. The first prize is a beautiful hand made quilt, second prize an Afghan, and third prize a pillow. The money that is raised will be used to make improvements on the Women's Building. Tickets can be purchased at the Fair.

Pamphlets and bulletins from the U.S. Department of Agriculture and Purdue University will be made available to the public in the Consumer Information Booth. Also information will be available to any homemaker interested in joining an Extension Homemakers Club.

So don't miss the Women's Building at the Fair. We'll see you at the Fair!

DANISH APPLE DESERT:
½ cup flour, 1 teaspoon baking powder, pinch of salt, ¾ cup sugar, 1 cup unpeeled apples, diced; ½ cup black walnuts, cut fine; 1 egg slightly beaten. Sift all dry ingredients, add apples and egg. Spread in a greased glass pie pan and bake at 400° for 25 to 30 minutes. May be served with whipped cream.

DATES: July 31, 9 a.m. Clean up the Women's Building for the Fair. We need all the help we can get!

August 3-8, Kosciusko County Fair.

Morgan-Moriarty Vows Said

Miss Janet Elaine Moriarty, Tippecanoe, and James Eugene Morgan, of Akron, exchanged vows Sunday evening, June 28, at the St. Michael's Catholic Church in Plymouth with Rev. Casimir Moskwinski officiating at the double ring ceremony before an altar decorated with baskets of yellow roses and daisies and yellow ribbons.

Providing wedding music were Mrs. Helen Shorter, Plymouth, the organist, and Gail Hammond, Akron, vocalist. Parents of the couple are Mr. and Mrs. William Moriarty, Tippecanoe, and Dr. and Mrs. Lloyd Morgan, Akron.

Julia Anne Moriarty, cousin of the bride, was the maid of honor. Karen Elaine Moriarty, sister of the bride, and Margie Fites were bridesmaids.

Angela Renee Hisey, cousin of the bride and daughter of Mr. and Mrs. Robt. Hisey, Rochester, was flower girl.

Rodney E. Conner, Akron, was best man. The groomsmen were Steven Robinson, cousin of the bridegroom; Richard J. Moriarty, brother of the bride, and Lloyd Morgan Jr., brother of the bridegroom. They also served as ushers.

Ring bearer was Jamie Braddock Morgan, nephew of the bridegroom.

Following the wedding ceremony, a reception was held in St. Michael's School Hall for approximately 100 guests.

Assisting with the serving were Patricia Keene and Andrea Cowen, cousins of the bride, and Mrs. George Weimer and Mrs. Harold Keene, aunts of the bride.

Miss Drusilla Morgan, sister of the bridegroom, registered the guests. Michelle Moriarty, sister of the bride,

and Sharon Lopossa and Karen McCormick recorded and opened the gifts.

The couple's wedding trip was to Denver, Col. and Estes Park, Colo.

They are now living in Davenport, Iowa where Mr. Morgan, a graduate of Akron High School, is attending Palmer College of Chiropractic and Mrs. Morgan, a graduate of Triton High School, will attend Marycrest College. She formerly attended Indiana State University where she majored in elementary education.

Flower Show Is Set Wednesday

The Manitou Garden Club's 9th annual flower show, "Open the Gate To Summer Fragrance," will be held Wednesday, August 5, at the First Baptist Church Fellowship Hall in Rochester.

The public is invited to view the exhibit from 2:30 until 8 p.m.

There is no admission charge.

Wins Scholarship

Miss Brendalee I. Loer, R. 2, Warsaw, daughter of Mrs. Constance B. Loer and a graduate of Akron High School, was recently awarded a scholarship by members of the Warsaw Business and Professional Women's Club. She plans to major in elementary education at Manchester College.

By letting the grass grow under your feet you get into mower trouble.

Golden Anniversary To Be Honored

Mr. and Mrs. Charles J. Good, R. 5, Rochester, will celebrate their Golden Wedding anniversary Sunday, August 9, at an open house to be held from 2 to 5 p.m. in the Talma United Methodist Church. Friends and relatives of the couple are invited to attend. The couple requests that gifts be omitted. They were married August 9, 1920. They are the parents of three children, James, Elkhart; Joe, Mentone; and Mrs. Tom (Rosalie) Welsh, South Bend, and they have seven grandchildren. Mr. Good is a retired school teacher, having taught for 41 years.

Special Sermon Series Begins

Divine healing and laws of health will be the basis of a series of sermons by Pastor J. F. Baldwin of the Akron Church of the Brethren, beginning Sunday, August 2. Anointing with oil in the Name of the Lord with several miracle healings will be presented.

The pastor will present two personal experiences of being healed when doctors said there was no hope. The messages will include many suggestions that will help you feel younger, be freer from aches, pains, anxiety, fear and sickness. To hear these messages and to act upon them will help you to live longer, and to be healthier, happier and freer of fear, anxiety and worry concerning the future. The public is invited to attend these services at 10:30 a.m. each Sunday morning.

Akron W.S.C.S. Has Indoor Picnic

The W.S.C.S. of the Akron United Methodist Church met for their annual picnic Thursday evening, but due to the weather, the meeting was held in the Annex, with fifteen members and five guests. The business was conducted by the president, Mrs. Ernest Smith. Several thank-you notes were read and Mrs. Earl Kuhn gave a report on the Lucile Raines Home at Indianapolis. This is a home for girls away from home and at the present time, there are forty-three girls residing there. Miss Priscilla Mitchell gave a very interesting report on her week spent at the Youth and Mission Camp at Battle Ground. The fiscal year for the W.S.C.S. will now be from January 1 to December 31. Serving dinners for the Lion's club has been discontinued, and the funeral dinners will be served by the committee which is selected for each month. The Lay Witness program will be held in Akron on September 25, 26, and 27. Lunches and dinners will be served to those attending the meetings by the W.S.C.S. under the chairmanship of Mrs. Ray Riley. Hostesses for the evening were Mesdames Joe Day, Frank Taylor, Otis Craig and Earl Hoffman.

Entertained With Hawaiian Luau

Pat, Donna and Hal Hoffman, children of Mr. and Mrs. Robert Hoffman of Yellow Creek Lake, entertained the Church of God Youth Fellowship and their guests at an Hawaiian Luau Sunday morning following church services.

The boat-house was decorated in an Hawaiian style and on arrival each appropriately attired guest was presented a lei. After the noon meal the group enjoyed badminton, horseshoes, and swimming. A weiner-roast was enjoyed before departure.

Special Program Set At Beaver Dam

"The New Creations", a singing group of young people, from the Richmond area and under the direction of Ernest Highway, formerly of Beaver Dam, will present a special musical program on Friday evening, July 31, at 8:00 p.m. This youth group has its own radio program at Richmond each week. They will be staying at Quaker Haven at Dewart Lake for a few days and will present a program at several of the surrounding churches. Performances include vocal solos, duets, small groups and instrumental selections. They are accompanied by a piano, drums, trumpets and a bass violin. Their music is contemporary, yet inspirational. Tim Cummings of Richmond is the general manager, sponsor and master of ceremonies. The public is invited and urged to feel welcome to attend this special program.

Have Picnic

Mrs. Ray Rosbrugh was hostess and Mrs. Gerald Parker was her assistant, at the Jolly Good Neighbors extension club picnic held recently at Center Lake. Mrs. Deverl Jamison asked the blessing. After the noon meal the meeting was called to order by the vice president, Mrs. Perry Hathaway; the group then joined in singing "America the Beautiful", followed by the pledge to the flag and repeating of the club creed. Mrs. Gerald Parker gave the history of the song of the month, "One Nation Under God", then led the group in singing it. The meditation topic, titled "The Missing Ingredient" was presented by Mrs. Ernest Banghart. Garden remarks were given by Mrs. Lawrence Hudson. Roll call was answered by each member contributing something of interest to the meeting. The president, Mrs. Wilbur Repine, conducted the business session, then closed the meeting by having all repeat the club collect. Mrs. Ray Hathaway and Mrs. Lawrence Hudson won the door prizes. There were 18 members, one guest and 10 children present. Mrs. John Rose will be hostess to the club in August.

Silver Lake Area News

Mrs. Jim Leiter

Mr. and Mrs. Max Deaton entertained recently at a birthday surprise supper in honor of Pauline Krichbaum. Those present at the party were Russell and Pauline Krichbaum, Jerry Lee, Jayne Ann and John Deaton, Tom Stoops, Mary Ann Shull. Shelly and Kathy Hoffman called on her also.

Mrs. Maude Geiger of Milford called Tuesday at the Mildred Timmerman residence. Mrs. Geiger is a former resident of Silver Lake.

Mr. and Mrs. Gilbert Smith had visitors, Mr. and Mrs. Walter Roberts, from No. Webster recently.

Mr. and Mrs. Dan Anglin and family called Thursday evening at the home of Mrs. Anglin's parents, Mr. and Mrs. Gilbert Smith. Mrs. A. L. Pyle from Albion, Mrs. Smith's sister, called also that evening.

The Center Methodist Church children's Sunday school had a picnic Sunday evening at Warvel Park. The children had a contest recently and the losers were hosts at the picnic. Games and prizes were enjoyed by all that attended.

Mr. and Mrs. Robert Wimer of Leslie, Arkansas, were overnight guests of their son, Bobby, and Mrs. Alta Alexander on Friday night. They were enroute home from a visit

east with their daughter, Mr. and Mrs. Jim Marsh of Washington, D. C. and Mr. Wimer's sister in New Jersey. Before leaving on Saturday, they had breakfast at the parsonage with Pastor and Mary Cohee.

Mr. and Mrs. Percy Ring had a visit Wednesday from their daughter, Evelyn Dick of Talma. Sunday callers were Mr. and Mrs. Ed Kreis, Mr. and Mrs. Carl Homan, Miss Cecil Kissinger, Mr. and Mrs. John Shepherd and sons, John and James.

Rev. and Mrs. B. Rodgers will be going to the Adult Camp at Fairmount in August. Several members of the Westlyn Methodist Church will also be going for an outing and fellowship.

The Rev. Veirde and Elva Seybold family have moved into the Faith United Methodist parsonage. They have four children—Timothy in the 8th grade, Mary in the 7th, Nathan in the 5th and Jocelyn, who will be in kindergarten.

Rev. Seybold graduated from Yale Divinity School in Connecticut, did graduate work at Christian Theological Seminary in Indianapolis. We are happy to have this fine new family in our community.

Miss Jo Lane Leiter spent the weekend with her aunt and uncle and son, Mr. and Mrs. Chas.

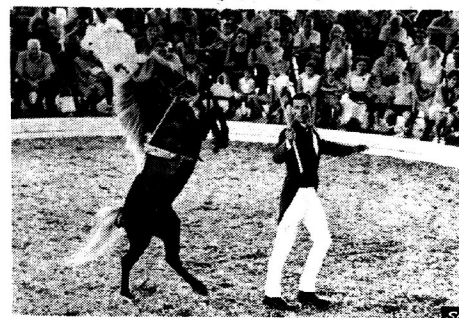

Moore and Joe, of Akron. They went camping at Broken Arrow Campgrounds.

Mr. and Mrs. Neville Nickerson and sons visited his parents, Mr. and Mrs. Gene Dickerson, at Selborne, Indiana.

Mr. and Mrs. Floyd Drudge will be moving to Brookville, Indiana, to live with their oldest daughter on August 8.

The Silver Sixties Home Economics Club held their annual club picnic this year at the Dave Baker residence. A cook-out and games were enjoyed by the following couples: Mr. and Mrs. Jim Lotz, Mr. and Mrs. Terry Bouse, Mr. and Mrs. Rex Clinker, Mr. and Mrs. Doug Jackson, Mr. and Mrs. Leroy Bishop, Mr. and Mrs. Lewis Fruit, Mr. and Mrs. Lowell Lindsey, Mr. and Mrs. Hubert Neeley, and Mr. and Mrs. Tom Waite. Mr. and Mrs. Arley Ring had Mr. and Mrs. Clifford Ring as dinner guests on Sunday.

Dancing Pony!

Dancing across the show ring, Boots struts on his hind legs under the guiding hand of John Herriott, animal trainer at the Circus World Museum in Baraboo, Wisconsin.

Boots is one of a group of 12 matched ponies that perform daily. Acting like a group of well trained soldiers, the ponies gallop around the ring, reverse direction, canter by fours and then by sixes, waltz and do many other tricks responding only to the soft command of Mr. Herriott to the delight of children of all ages.

News Briefs

Denzel D. Nelson, a semi-retired Burket businessman, has filed for the post of southern district county commissioner of Kosciusko Co. He will face Glenn N. Lowman, R. 2, Akron, in the November election.

Lowman defeated Harvey B. Anglin, Silver Lake, for the Republican nomination in the May primary.

INDIANAPOLIS: GOP State Young Republican Chairman Paul Johnson announced this week that Al Capp, nationally famous syndicated cartoonist, will be the featured keynote speaker at the 7th annual State YR Convention to be held at the Indianapolis Stouffer Inn, July 31 through Aug. 2. Capp is the creator of the Lil' Abner comic strip.

Another form of wastefulness is expenditure of words beyond the income of ideas.

Deaf Man Designs Tiny Hearing Aid

OFFERS FREE MODEL

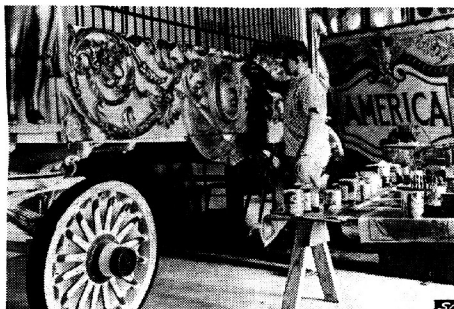

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and represents a new unusual design idea in a product to restore natural hearing.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "ear-level" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low.

A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatsoever. Write to: A. J. Wilder, 809 Steuben St., Wausau, Wis. 54401. Adv.

Shades of 1900!

The only place in the world where old circus wagons are restored is at the Circus World Museum in Baraboo, Wisconsin.

Here craftsmen ply trades that were commonplace at the turn of the century - wheelwrights, woodcarvers, painters and strippers work as an unusual team of artisans. Their job is to keep the collection of over 80 circus wagons in tip top shape.

Seen above is Ernie Zimmerly, the wagon superintendent at the Museum, carefully applying the gold to carvings that are almost 90 years old.

It Happened In Mentone

From the June 23, 1937 issue of The Northern Indiana Co-op News

Dr. Dan Urshel, M.D. and his family moved from their home in Warsaw to the office and apartment formerly occupied by Dr. Yocum. He formerly had an office in Warsaw and Mentone both, but in the future he will confine his practice to the Mentone vicinity exclusively.

The Tomaguh Furniture Mart have arranged a very pleasing window display. They have built a plywood background about four feet high, finished it and backed it with wall board to give it enough body to stand alone. It conceals the back part of the store from pedestrians and gives a natural roomy effect to their furniture display.

Miss Mary Jane Borton and Little Larry Borton, son of Mr. and Mrs. Geo. Borton, visited the air tour in Rochester last Thursday afternoon.

Mr. and Mrs. Lowell Dock of Warsaw have moved to Mentone. Mr. Dock is employed at the Burns Bakery, having replaced Mr. Paul Smith who was transferred to No. Manchester a few weeks ago.

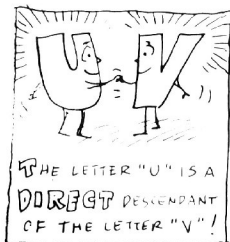

Mr. and Mrs. Russel Fleck of Mentone and Mr. and Mrs. Don Poulson of Etna Green have returned from a ten-day vacation in Proctor, Minn.

Mrs. Vern Egolf and Mrs. Firman Eckert entertained twenty-eight guests at the home of the latter in Atwood Tuesday evening with a pound shower for their sister and brother-in-law, Mr. and Mrs. Clifford Ring. Before her marriage recently, Mrs. Ring was Miss Helen Kruter.

Whetstone Reunion

Descendants of the John Whetstone family and other families enjoyed a reunion Sunday at the Mentone Youth Pavilion with family members present from Ohio, Illinois, Fort Wayne, Mishawaka, Valparaiso also enjoying a carry-in dinner.

After a short business session, a travelogue of So. America, showing their industry, agriculture and mode of living was shown as were moving pictures of the 100th birthday of Tom Whetstone.

The home of Mr. and Mrs. Earl Shinn in the northeast section of town was badly damaged by fire Tuesday night about midnight. The blaze of an unknown origin started in the kitchen and spread quickly. Mrs. Shinn was awakened by the odor of smoke and upon investigating the cause, awakened her husband and the children, the latter going to the home of a neighbor. Psi Iota Xi Sorority was having a party at the Reed home and upon the receipt of a telephone

call, hurried across the street, turned in the alarm and kept the siren going until the truck left the station. The Fire Chief was in Ohio, attending a fireman's convention, and several other firemen were in boats on various lakes of the county impatiently awaiting the midnight hour to open the fishing season. However, willing volunteers filled the vacancies on the squad and the home of brick construction, was saved from complete destruction.

Mrs. Nicholson Heads Ike Medallion Sales In Indiana

Mrs. Roberta Nicholson of Fulton County has been selected as the Indiana State Sales Representative for the Eisenhower Commemorative medal, announced A. Clayton Unger, National Sales Manager of the Eisenhower Medals, Division of Spec Corporation in Naperville, Illinois.

Mrs. Nicholson was the Fulton County project chairman for the Eisenhower medal sales campaign last fall and is the Republican candidate for County Recorder in the November general election.

She, her husband Howard and three children—Judith 19, Kitt 16, and Bill 15, reside in Rochester, Indiana. Mr. Nicholson is a salesman and manager of the glass and glazing department of the Kokomo Glass Shop in Kokomo, Indiana.

The sale of the Dwight D. Eisenhower silver commemorative medallion, featuring Ike as President on one side and as general on the other, will start this week. Sale of the medals will be sponsored by the Indiana State Federation of Republican Women's

Clubs with Mrs. Margaret Burkett, Republican Vice-Chairman of Fulton County as the state project chairman.

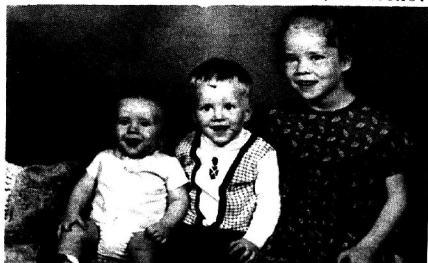

Indiana is the second state to offer these medallions. Fulton County was the first county to offer these medallions in Indiana in October, 1969 under the sponsorship of the Fulton County Federation of Republican Women's Club. The original issue was released in Illinois. The issue limit of the 99.99% pure silver medallions which will be limited to 20,000 for Indiana. They will be sold through banks and savings & loan associations.

Start Your Own Saloon

If you can't refrain from drinking, start a saloon at home. Be the only customer and you won't have to buy a license.

Just give your wife \$12 for one gallon of whiskey. There are 128 snorts in a gallon. Buy your drinks from your wife at 40 cents per and in four days when the gallon is gone, she will have \$39.20 in the bank and \$12 to start business again.

If you live ten years and continue to buy booze from your wife and then die with snakes in your boots, your wife will have \$35,750.40 in the bank. This is enough for her to bury you decently, buy a house, bring up the children, marry a decent man, and forget she ever knew you.

NEW BOOKS

AKRON CARNEGIE LIBRARY

The following new books are on the shelves at the Akron Carnegie Public Library.

CHRISTIAAN BARNARD,

ONE LIFE by Dr. Christiaan Barnard and Curtis Bill Pepper. How will Christiaan Barnard be remembered when the first human heart transplant becomes a footnote to medical history? With rare candor and insight, the surgeon—and the man—speaks for himself. Direct and unsparing, he reveals his agonizing personal decisions, conflicts, mistakes and hopes in this remarkable book that intimately exposes one of the most articulate, ingenious, and controversial figures in medicine today.

AND NOT TO YIELD by James Ramsey Ullman.

MY DEAR COUSIN by Peggy Hoffman.

This is the dramatic and tragic love story of Lydia Hollingsworth, a Baltimore belle, in the first half of the 19th century, and Augustus John Foster, a British Ambassador to the United States. Their story is played out against a vast background of life in both England and America before, and after the War of 1812. The scenes are exceptionally vivid and reconstruct convincingly, not only life in Washington, D.C. and Baltimore, but also the confusion and misunderstandings that caused the second war between England and the United States.

THE LATE LIZ by Elizabeth Burns. "The Late Liz," now reissued with a new introduction by the author, is Gertrude Gehanna's own shocking story of the damage money, high living and alcoholism did to her life. Writing under the pseudonym of Elizabeth Burns she set out to convey to others like herself the strength she found to help her in her despair: an unshakable new faith in God.

INSTALLATION SERVICES FOR ALL GROUPS by Amy Bolding.

There are installation services for men and women, boys and girls. Most of them have a religious theme, but many could be used for service clubs, garden clubs, or mission or civic organizations.

ARMED SERVICES ★★★★ NEWS

U. S. ARMY, VIETNAM (AHTNC) July 6—Specialist Four Donald K. Doolittle, 18, son of Mrs. Martha M. Doolittle, R. 1, Roann, Ind., recently received the Army Commendation Medal in Vietnam.

Spec/4 Doolittle received the award for heroism in action while engaged in military operations against a hostile force in Vietnam.

The specialist entered the Army in August, 1968, completed basic training at Ft. Lewis, Wash., and was last stationed at Ft. Bliss, Tex. He is a door gunner in Company C, 228th Aviation Battalion of the 1st Cavalry Division (Airmobile).

He is a 1968 graduate of Bethel High School in Spanaway, Wash.

FT. KNOX, KY. (AHTNC) July 2—William R. Lynn, son of Mr. and Mrs. Robert O. Lynn Sr., Roann, Ind., was promoted recently to Army sergeant, while serving with the 5th Training Brigade, U.S. Army Training Center at Ft. Knox, Ky.

Sgt. Lynn is a supply sergeant in Company E of the brigade's 17th Battalion.

The sergeant's wife, Becky, lives in Warsaw.

Marine Private Steven C. Anglemeyer, son of Mr. and Mrs. Kenneth Lester, R. 5, Warsaw, was graduated from basic training during ceremonies at the Marine Corps Recruit Depot in San Diego July 8, 1970. He will now report to the Infantry Training Regiment at Camp Pendleton, Calif.

Sp/4 David Bowen, son of Mr. and Mrs. Paul Bowen, is home on a 3-week leave. He recently graduated from an advanced course in radio repair, and was promoted to the rank of Sp/4, which is equivalent to the rank of Cpl. On August 12 he will fly to Seattle, Washington, and from there will fly to Camp Holloway, Vietnam.

Bruce J. Leslie, son of Mr. and Mrs. George Rowe, Mentone, entered the U.S. Army recently and is taking basic training at Ft. Knox, Ky. His address is:

Pvt. Bruce J. Leslie
308-62-5836
