

Egg Festival June 8, 9, 10

The Mentone Egg Festival, the community's annual salute to the chicken and egg that made it the "Egg Basket of the Midwest", will be June 8, 9 and 10.

Since the early days when farmers pooled their egg shipments in train car lots, the egg festival has grown into one of the area's biggest events.

Special attractions are planned and many merchants will have either sidewalk or inside sales to go along with the celebration. All

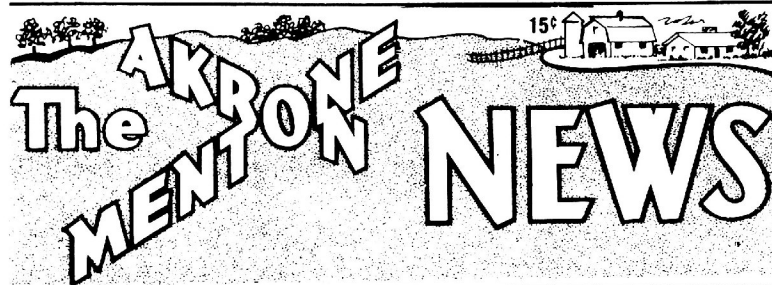

events and activities have been coordinated by the greater Mentone Chamber of Commerce, sponsor of the Egg Festival.

Carnival rides, flea markets, concession stands, and many other events with "Egg-related" names such as the "Little Chick and Mr. Rooster" title for cuties under six years of age will again be held.

The events schedule for Thursday, June 8 include carnival rides, flea markets and concession stands. Free entertainment for the night

is scheduled as: 7-7:30 p.m. - "Thunder Chicken" will parachute to the grade school grounds; 7:45-9 p.m. - TVHS musical variety show and introduction of the Egg Festival Queen candidates on Main Street; 9 p.m. - a magic show will be performed by Thunder Chicken.

A complete schedule and special advertisements calling attention to the three-day event will be included in next week's NEWS, to be mailed Wednesday, June 7.

Akron Senior housing proposed

Ron Fenimore, president of the Akron Town Board, has announced the possibility of constructing an apartment complex for persons 62 years or more of age in the town of Akron.

Fenimore said the proposed

complex is for sixteen one-bedroom apartments and will be erected by a private investor if there is sufficient community interest to show the need for such a project.

The Akron Board is assisting in

the project by taking a survey of the need, and request that all interested parties respond by mailing in the survey form on page 2. This is a preliminary survey only and not a binding contract in any way.

Bike-a-thon was big success

Mark Fugate, pictured above, son of Mr. and Mrs. Tom Fugate of Mentone, was one of the two top riders at the cystic fibrosis bike-a-thon, Saturday, May 27. Mark rode twenty-one miles in hot, muggy weather to help less fortunate children.

Shane Gamble, son of Mr. and Mrs. Vic Gamble of Mentone, was the only rider on a tricycle at the "Breathe of Spring" bike-a-thon. Shane peddled five miles on his bike to raise money for the cystic fibrosis foundation.

Sound Off!

"There is a house two blocks north of the Legion Home in Mentone that is very run down. The windows are out and the grass hasn't been mowed this year. I think the Town Board should take action!"

"To Bob DuBois: Thank you for the last four years. I wish you could have gotten the new job!"

"We were very disappointed that Akron did not have any Memorial Day services and our disappointment was even greater when we saw that the cemetery wasn't even mowed. What has happened to Akron's patriotism?"

Local banker attended Washington meeting

Robert Taylor, Vice President and Cashier of the Akron Exchange State Bank, was in Washington, D.C., last week as a part of a delegation of 25 bankers representing bankers of the State of Indiana.

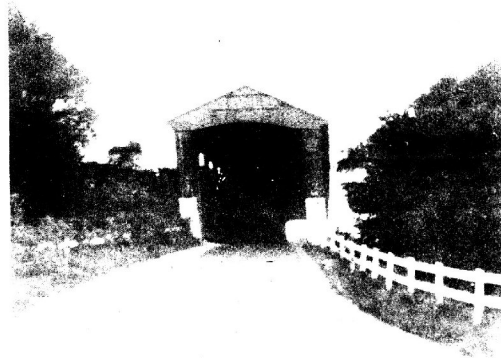

Mr. Taylor is currently chairman of the Agricultural Committee of the Indiana Bankers Association, and in this capacity serves in the concerns of Indiana Agricultural bankers—as these concerns relate to legislation being enacted on state and national levels—as this legislation affects agri-business organization, agri-financing, and the continued profitability of agriculture.

While in Washington, Mr. Taylor had an opportunity to review the current House and Senate bills that directly or indirectly influence agri-business. He also sat in on briefings of the American Bankers Association; Federal Deposit Insurance Corporation; the Conference of State Bank Supervisors; the Comptroller of the Currency; and the Federal Reserve.

Mr. Taylor observed that one of the most frequently expressed concerns of bankers is the increased amount of government regulation and paperwork involved in processing agricultural loans as well as all types of loans. Re-

cognized, there is no substitute for good sound loan documentation, but some of the legislation enacted in the last decade has brought about banking regulations which has created excessive paperwork - to the extent that processing time is increased dramatically - and to the point that days and days of delay result. As a consequence customer servicing efficiency is hampered materially. Customers become frustrated and sometimes even infuriated. The excessive paperwork contributes to higher costs of servicing as well.

Picture that tells a story

Roads go ever on and on,
Over rock and under tree,
By caves where sun has never shone,
By streams that never find the sea;

Over snow by winter sown,
And through the flowers of June,
Over grass and over stone,
And under mountains in the moon.

Fourth of July shaping up

The theme of this year's Akron Fourth of July parade will be "Famous Americans."

First place trophies will be offered in band and baton categories.

Prizes for floats include a \$75 first, \$50 second, and \$30 third in each of three categories - local,

out-of-town, and novelty units. Other prizes to be offered include \$35, \$25, and \$15 in children's floats and a first place trophy for commercial floats.

Cars, bikes, horses, and "cutie floats" will be judged separately and everyone will receive a plaque.

The Fourth of July committee will sponsor a Horse Show June 18 at the Akron Grade School grounds.

Proceeds from the PHBA, PHEI, NAPI, ISHA approved show will help finance the July 4th celebration and fireworks.

The Akron Queen contest will be held again this year. Entry blanks may be picked up at Akron Supermarket or at the Akron Exchange State Bank.

A Hot Air Balloon has been contacted by Akron Exchange State Bank and other new attractions are being planned. An entry form for anyone wishing to enter a float in this year's parade is provided in the advertisement on page three of this week's NEWS.

Any local group or organization wishing to participate, please contact Marvin Gagnon, this year's committee chairman.

It's festival and celebration countdown time in both Mentone and Akron this week as the town's begin their final preparations for the Mentone Egg Festival next week, and the Akron Fourth of July celebration next month. Both events are shaping up to be the best and biggest ever by all reports we've received.

It gives one a good feeling to see so many different individuals, clubs, civic groups, and business organizations get together on these projects, and work so hard to produce town events the size of the Egg Festival and Fourth of July celebration.

We're with you in hoping the weather cooperates!

There have been several reports in Mentone recently of a "Chicken on the loose" running free through the streets, alleys and yards of town residents. No one seems to know where it came from, or where it's going for that matter. (It may have jumped out of a poultry truck passing through town, but no one is sure.) So, if you happen to find some feathers on your porch one morning, rest assured that the Indians aren't on the warpath again. Only a free-thinking chicken on the move.

Akron residents should be sure to read this week's story on the possibility of a senior citizen apartment house being built in town.

Although it is just in the preliminary "taking stages", we encourage all concerned to complete the survey form on this page and return it as soon as possible to the Akron Town Board. The private investor, who at this time desires to remain anonymous, appears to be extremely generous as it is not often a town the size of Akron is fortunate enough to be considered as a site for a needed facility such as this.

The NEWS welcomes letters from its readers so long as they deal with subjects of general community interest. The NEWS reserves the right to reject letters in poor taste and to edit them without changing the writer's original meaning.

Thank You

DEAR EDITOR:

The first Tippecanoe Valley cystic fibrosis bike-a-thon was held Saturday, May 27, with 38 riders from pre-school ages thru high school ages riding. Cyclists left the high school parking lot at 10 a.m. and rode from five miles to twenty-one miles.

The weather was hot and the roads were bumpy, but fun was had by all. The biggest thrill was to see these young people doing their best to help less fortunate

children. These children were riding so that their friends might breathe.

To all of the committees who did a superb job so that this community project would be a success - thank you, from the cystic fibrosis foundation and the bike-a-thon chairman, Bedelia Weirick.

Signed,
Bedelia Weirick

Hammer's attend banquet

Mr. and Mrs. Skeets Hammer of the Hammer Insurance Agency, Mentone, were among those who attended the annual award meeting of Meridian Insurance of Indianapolis at French Lick. The event was held in honor of the more than 100 independent agents who met certain established production and profit goals for 1977 and were named Pacemaker 500 agencies.

President Harold C. McCarthy welcomed the agents at the Wednesday evening banquet and noted that Meridian Insurance is proud of its agency representation. He commended the agents for their professional approach to servicing the insurance needs of their customers.

Frost dates vary

Farmers may be wondering if the late spring predicates an early fall frost. They remember 1974 when rains caused late planting and frost arrived early. The summer drought was also a major problem.

Purdue meteorologists checked on frost dates of 12 years when corn had to be planted late due to 6 inches or more of rain in May. In seven of the 12 years frost occurred before the average date. The small sample of years produced an average frost date of October 6 compared to October 11 for the long period average.

In Rochester for the years 1950 to 1974 there was a 50% chance of the fall temperature reaching 32 degrees before October 9.

Pike's purchase tree farm

Pike Timberlands, Inc., subsidiary of Pike Lumber Company, Inc. of Akron announce acquisition of the Ross Tree Farm, R. 2, South Whitley, Ind. The sellers of the fifty-five acre tract, the Donald Ross family, arranged the sale tailored to their desires and those of Mr. Ross' late father, Lloyd Ross, in an attempt to perpetuate this outstanding example of Northern Indiana upland forest. David Atkinson, Pike Timberlands' representative, stated, "That Pike was aware of the Ross' extreme interest in conservation and that Pike would manage the forest for the perpetual production of fine hardwoods."

Northern Indiana conservationists and foresters recognize the north part of the Ross woods as an outstanding example of mature Beech - Maple forest type and the south half as a 90 year old stand of Tulip Poplar and associated species which is second to none in the Midwest. This magnificent stand of Poplar was the result of a clearcut made about 1890, according to the late Lloyd Ross and his brother, Rudy, also of R. 2, So. Whitley. Although the same techniques of harvest will not be used, Atkinson did state that the over-mature, suppressed and damaged trees will be removed in an orderly fashion and in a manner to regenerate a new crop. Some outstanding individuals will be excluded from any harvest under Pike's "Superior Tree Program". This program

is an effort to select some of the outstanding trees on Pike's thirty-one tree farms in Indiana, Michigan and Ohio as examples to the public of what Central States forestlands are capable of and as a genetic reserve of outstanding trees for future scientific forestry research and tree improvement.

Local people will recognize the Ross woods as being a famous Maple sugar camp operated by the Rosses for many, many years. Although the old camp has deteriorated in recent years, the new owners would like to open this camp again each season as a matter of historical interest in that community.

The forest products grown on the Ross Tree Farm and other company and managed private lands are remanufactured on Pike's sawmill and sold through their distributing yard to furniture manufacturers throughout the United States, Canada, and West Germany. The Pike family started sawmilling on the Wabash River in 1860 and fourth and fifth generation family members still own and operate the mill on its present location in Akron. Pike representatives report that they are anxious to acquire or manage good quality hardwood forests for a continuing source of raw materials for their plant.

Arlo Friesner, Mentone Fire Chief, states that the new telephone directories are in error when they advise calling certain numbers in case of fire. Those numbers will bring the department but the response won't be as prompt as it would be if you call the telephone operator giving your name, the location and nature of the fire. The operator then will notify all the firemen by telephone. Many times the major percentage of the firemen are at the station ready to board the truck when the siren blows.

In case of fire, don't call a number - just give the operator the information and she will handle the message in the shortest time possible.

TVHS Girls' Tennis

The 1978 Tippecanoe Valley Girls' Tennis team finished their season on Monday, May 22, by being eliminated in the second round of the Peru sectionals. Five girls had made it through Saturdays first round, which in itself is an accomplishment. The losing scores were all respectable scores showing that their opponents had to work hard to win each set.

Over the total season the team won 146 games to their opponents' 769 which means the average loss was 4.6. In considering some of the schools the team played that is a good average. Their final record was 2-8. Team triumphs were over Manchester (4-1), and Triton (5-2). Other schools played were Wabash, Whitko, Warsaw, Rochester, Columbia City, Culver Girls Academy and Bremen.

There are only three seniors not returning next year and even though the team will miss their experience, the 10 sophomores, eight freshmen and three juniors should provide some good experienced team depth of their own.

60 YEARS AGO

The graduating class of the Akron high schools of 1918 leaves a very neat gift to the Red Cross society of this place. The class had \$103.61 left over in its treasury, a balance from the receipts of the several entertainments they gave during the senior year. The impulse back of this donation is certainly worthy of favorable comment. It brings to our mind the fact that these students while happy in their school work and employed every moment of time at student work, yet they had time and incentive to think upon the sacrifices being made by young men in the war that their sympathy was aroused. They are thinking on great problems, world wide. That was the incentive that prompted the gift. It is great and will buy comfort for many a poor fellow in camp or trench. The Red Cross society appreciates the gift and accepts.

Soldiers are being moved eastward pretty rapidly this week. Five train loads went through Akron Tuesday and two or three trains Wednesday. This means that transports over the sea are plentiful and that the food problem has been overcome, and transport is suffering again.

10 YEARS AGO

Walter Zimmerman is guarding a mushroom at his father's place which promises to break all records as mushrooms go for growth. About three weeks ago the Zimmermans noticed the mushroom growing on a stump leading into the cellar. Since then it has continued to grow, and Sunday it measured eight inches tall, and about six inches in diameter. The fungus is of the sponge variety, and seems to disprove the theory that mushrooms don't grow after springing from the ground.

Mrs. Jesse Lynch and daughter, Helen, visited Sunday and Monday with her father, Bert Young, Disko.

A dance revue, given by pupils of Donabelle Fenimore, will be presented at eight o'clock Tuesday evening at the high school gym.

Mrs. N. Claire Moore will be the accompanist.

Mrs. Dale Leininger and her sister, Esther Dunlap and Mrs. Sam Merley were in Ft. Wayne Monday.

Lieut. Otto Groninger is home on a two weeks leave. For the past six months he served aboard the aircraft carrier, the Midway, in the north Atlantic. When he returns to the east coast he will be stationed ashore.

Ronald Martin, 17, and Jerry Bickel, 16, were injured in an accident Saturday afternoon when the car Martin was driving over-turned at the S. S. Hoffman curve, south of town. Martin was taken to Woodlawn Hospital where it was found he had multiple bruises and abrasions. Bickel was less seriously injured. The car left the road, skidded into a concrete post, and turned completely over. One of the boys was able to get out unaided, but the other had to wait until a door was cut open before being removed. The car was a complete wreck.

Mr. and Mrs. Claude Billings celebrated their twenty-fifth wedding anniversary Tuesday in Washington, D.C.

Joyce Kroft placed second in the high jump event Saturday when she and her GAA teammates and their sponsor, Alberta Davis, attended the State Track Meet at Gary. Fifty eight schools participated in the event. Joyce's winning jump was measured at 5'1". The win climaxed a four year high school record that has included many athletic wins.

Mr. and Mrs. Harvey Arthur and two daughters spent the weekend at Goose Lake. Mr. and Mrs. Ralph Alderfer were supper guests Sunday night.

Mrs. Ethel Black attended the wedding of her niece, Linda Smalley, daughter of Don Smalley, to Mitchell Tucker Sunday afternoon.

Banker. . .

Bankers are very concerned about this and are attempting to get some things changed; but supplemental effort is going to have to come from farmers and other customers as well. A letter to your legislators stating the facts is still one best way to get some of these things changed.

An interesting comparison was made by a Washingtonian which Mr. Taylor wishes to pass along: "A Republic type government is like a ship - everything is all right until you strike a reef - then you sink." Whereas, "a Democratic government is like a raft - it never sinks but you're always got your feet wet."

It seems our nation's democracy has its feet wet with inflation. This subject is uppermost in bankers' and other people's minds. We recognize clearly the personal and professional stake we have in finding a national solution to this most difficult problem. If we don't bring inflation under control, all our efforts to secure a level playing field for banking or to plan for our personal futures are about as significant as rearranging deck chairs on the Titanic.

Why, then, if the seriousness of this problem is so well recognized, is its solution so elusive?

One reason involves the actions of the Federal Government and our own efforts to influence those actions. We Americans

have become experts at pleading the case for our own special interests, but no one speaks out for the nation as a whole. Farmers want price supports, students want education loans, older Americans want larger Social Security payments—even bankers want loan guarantees for high risk loans. The result is a ballooning budget.

The battle of the federal budget has always been a battle of the sum versus the parts, and the parts have always won.

There are signs that may be changing. Chairman Miller of the Federal Reserve Board says he will do his part in holding monetary growth within necessary limits. And the President's recent announcement on reducing the size of the proposed tax cut shows a renewed commitment to budgetary restraint.

These developments are encouraging for two reasons: Their impact on our economy, and their impact on what people expect. And the latter may be the more important. If people expect inflation to continue, their own efforts to protect themselves against rising prices will simply aggravate the problem. Changes in government policy are needed to change our inflationary expectations. But government cannot do the job alone. We all must help.

We must elect and re-elect public officials who show the courage to confront the federal budget as a whole and who will not cave in to the demands of

its parts.

There is no single answer to this problem. It is the most complex and difficult issue our nation faces today, precisely because it pits the short-term interests of individual groups against the long-term interests of the nation as a whole. We have all had conversations where we lament the ravages of inflation, but where we also wind up saying, "If only they would do something about it."

All of us have to be the catalyst that can crystallize this widespread despair over inflation into a coherent, effective program. We are challenged to make that commitment.

Nearly 20 years ago when he was president of Sun Oil Co., Robert Dunlap spoke some words that have meaning for us today. "I hope that succeeding generations cannot say of us that we lived in a grab bag era of American history: out for what we can get today, unrooted in the past, uncommitted in our philosophy, unsure of our own capabilities, and unconcerned as to our responsibility for the future. I hope we cannot, and will not, let freedom slip through our fingers because we didn't understand or didn't care."

This fight against inflation is truly a fight for freedom—freedom from the tyranny of ever-rising prices and the certainty of increased government involvement in our economy that will surely result from continuing inflation. It is a fight we

must make—and win! With your help, we can make a difference.

To conclude, it was a very educational insight into the way our national system works. Despite all of our nation's problems, America is still the best place on earth to be.

Family Life

by Renee Norlander

The hot season is fast approaching and I saw something last week on the Main Street of Mentone that is prompting me to "Sound Off" right here. It was at least 75 degrees with little wind, and very hot. Inside a car, parked on the street, were two small black poodles barking frantically. Only one of the windows was cracked about one inch. The inside heat in that car must've been unbearable. I could hardly stand getting in my own car, even when the windows were left wide open. If those dogs were laying on their sides, frothing at the mouth when their owners returned, I can only say, "How would you like to be locked in a car in that heat?" I've read many stories of people even leaving their children in cars in hot weather — and many have died! It can happen in a matter of minutes.

All I can say is, if you want your child or pet alive when you return, leave them home or take them with you!

Summer Reading Club in Akron

The Summer Reading Club is in progress now at the Akron Carnegie Public Library. Any child of the community is invited to participate.

The theme being used this year is WILD HORSE ROUND-UP.

After reading two books the child receives a chart for the Wild Horse Round-Up. A horse is added for each book read thereafter. After the child has completed eleven books the child receives a badge and a plastic horse. The

club will end around the end of July with a party for all who have participated.

The children who were in kindergarten this past year also have a reading club. When they return a book their name is entered on the honor roll. A star is given for eleven books and they will be given a special party around the end of July.

Anyone wanting more information should inquire at the library.

Eight vie for Queen of Mentone Egg Festival

Eight young ladies will be vying for the title of Queen this week during the Mentone Egg Festival. The winner and two runners-up will be announced Saturday evening during the tractor pull in downtown Mentone.

The public will get a chance to meet the contestants and their sponsors on Thursday evening at 7 p.m. before the band concert on Main Street. At 8:30 p.m., also on Thursday, a reception will be at the Town Hall

for the girls, their parents, and sponsors. The public is invited to attend.

The girls have been busy with different activities raising money for their 'penny-a-vote' towards becoming queen. Each will be working hard during the festival also, to raise more pennies. The girl with the most pennies earned will become queen.

Prizes for the queen and the first and second runners-up include trophies, donated by Farmers State Bank, Savings Bonds of \$100, \$75, and \$50, donated by the Mentone Chamber of Commerce; and a crown for the queen, donated by the Town Hall Shoppe. Each candidate will also receive a gift.

The newly chosen queen will later be sponsored by the Mentone Chamber of Commerce as a contestant for Queen of the Lakes in the Mermaid Festival.

The queen's float in Saturdays parade is furnished by the Chamber of Commerce.

attractions, many of the merchants in Mentone will be having sidewalk sales as well as many special sales on merchandise in the stores.

By Bob Norlander

If you've just returned from a 10-year trip, you'll find words just don't mean the same things they used to. That's what Hank Hogan points out in the Observer and Eccentric Newspapers.

Hogan makes his point with poetic examples like these:

Language has
"gone to pot"

Remember when "hippie" meant big in the hips.
And a "trip" involved travel, in car, planes or ships.
When "fix" was a verb that meant mend or repair.
And "be-in" meant simply existing somewhere.
When "neat" meant well organized, tidy and clean.
And "grass" was a ground cover, normally green.
When lights and not people were "turned on" or off.
And the "pill" might have been what you took for a cough.
When "joint" was a place where the gang used to go.
And money was money, not "green stuff" or "dough".
When "camp" meant to quarter outdoors in a tent.
And "pop" was what the weasel went.
When "groovy" meant furrowed with channels and hollows.
And "birds" were winged creatures like robins and swallows.

When "square" meant a 90 degree angled form,
When "fuzz" was a substance that's fluffy like lint.
And "bread" came from baskets, and not from the Mint.
When "roll" meant a bun, and "rock" was a stone.
And "hangup" was something you did with the phone.
When "chicken" meant poultry and "bag" meant a sack.
And "junk" trashy castoffs and old bric-a-brac.
When "jam" was preserves that you spread on your bread.
And "crazy" meant balmy, not right in the head.
When "cat" was a feline, a kitten grown up.
And "tea" was a liquid you drank from a cup.
When "swinger" was someone who swung from a swing.
And a "pad" was a soft, sort of cushiony thing.
When "way out" meant distant and far, far away.
And a man couldn't sue you for calling him "gay."
When "dig" meant a shovel and spade in the dirt.
And "put on" was what you would do with a shirt.
When "tough" described meat too unyielding to chew.
And "making a scene" was a rude thing to do.
Now words once so sensible, sober and serious
Are making the freak scene like psycho-delirious.
It's groovy, man, groovy - but English it's not
Methinks that our language has gone to pot.

Sound Off!

"I'm complaining about all of the cats digging in our garden. We have quite a garden and I'm sick of all the stray cats around town."

"We enjoy the paper - you've improved it. We've read it ever since it started."

"So glad others noticed the cemetery. People pay to have it taken care of. What happens to the money? I know several who had to take their mowers out to mow their lots. It is a disgrace to cemetery board. People won't donate when they don't keep it up."

We, the Akron Cemetery Board, are citizens who do a great amount of work without pay. We just try our best to keep the cemetery looking as good as we possibly can with what money we have to operate on. We have had many compliments in the past. We had a great disaster happen just three days before Memorial Day. The cemetery had been mowed three times all over plus a lot of extra filling, cleaning, etc. The cemetery was mowed the fourth time with trim mowers and our big mower broke down. Repairs were not available. Two trips were made to Ft. Wayne to obtain parts on Friday, May 26, without success. We were very disappointed. We have worked so very hard the past few years and are so proud of our accomplishments. We are happy to go into detail about our finances, operations, etc. to anyone who cares enough to investigate. We advertised our bi-annual meeting for May 15 and asked for interested lot owners to attend. Everyone on the Board was present but not one lot owner showed up. We would appreciate participation from the person who wrote to Sound Off complaining about the looks of the cemetery. The Cemetery is a community project and we hope for more participation from the lot owners. In the future please direct criticism to any of the board members. Thank You."

Town Board accepts street repair bid

The regularly scheduled monthly meeting of the Mentone Town Board was called to order at 7:30 p.m. Monday, June 5, with all members present. Minutes of the May meetings were read by Clerk-Treasurer, Kate Whetstone, and approved as read.

Under "old business" the Board discussed the disposal of garbage within the city. All agreed that they would continue with Lake-Land Disposal System, and pay them hourly, but a monthly cost bid would be requested. No other bids for disposal have been received.

Robert Whetstone, Mentone, asked that a larger waste container be placed in Metzger Park, as he has been taking the overflow to his home to burn. Frank Hardesty, president of the board, responded that the board would see what they could do, but said that Mentone's garbage problem is bigger than we are.

Bids for street repairs in Mentone were opened, and taken under advisement. Two responding companies offered bids, and they were: McMahan-O'Connor Construction Company, Inc. of Rochester, and Jansma-Coursey Asphalt, Inc. of Etna Green. In later discussion, the Board elected to give the contract to Jansma Coursey, with the motion being made by Gerald Romine, and seconded by Hardesty and Wayne Tombaugh.

Dan Richard, representative for the Kosciusko County Area Planning Commission was present, and asked the Board what their reasons were for wanting to withdraw from the Commission. He stated that he was not present to pressure them, but was interested in their feelings on the subject.

Hardesty responded stating that, "We are a small town, and we feel we know our town best ... we feel you have some ordinances that do not apply to Mentone..."

Richards explained that the Planning Commission would support Mentone's ordinances even if they were not county-wide, and stated that the Com-

mission only gives recommendations to the town boards, but does not make final decisions on cases within city limits.

Jo Gamble, area resident, recommended that Mentone continue to be a member of the Commission. She stated that "it does not hurt us at all". The board has not made a final decision to withdraw, and chose to have further investigation and discussion before a final decision is made.

In other action, the board chose to invest insurance money, received for the town truck that was damaged in a recent accident in time certificates until they make the decision of whether to repair the old truck or buy a new one.

\$2400 received from MVH, Motor Vehicle Highway Dist. Fund, was put into a special fund for the construction or improvements of streets or alleys contractual, and will be appropriated at a later date.

A request from General Telephone of Indiana for two underground cables was granted and the board also decided to have

three street lights put in at the west edge of town, and one at the east edge. A letter will be sent to NIPSCO with the request. There is no charge for the installation.

Gerald Romine reported that he has received several complaint calls regarding the unkept condition of a house on N. Franklin St. Marshall Earl Beattie was asked to send a letter to the owner asking that the place be cleaned up. Upon receiving the letter, the owner will have 15 days to act accordingly.

Because the next regular meeting date falls on the 3rd of July, the board chose to have the meeting a week later, on Monday, July 10. It will begin as usual at 7:30 p.m. in the Town Hall.

With no further business the meeting was adjourned.

A large bank barn on the Frank Royer farm, two miles east of Akron, caught fire on Sunday evening at 8:30 and burned to the ground. The loss was estimated at between \$2,000 and \$3,000. Some new hay was destroyed by the fire, but all livestock was removed safely. The barn was a comparatively new one, as it had been built about ten years ago. Many people were attracted to the scene of the fire by the bright blaze which lit up the sky for miles around.

MERLIN'S KEEP by Madeline Brent. This is another novel of romantic suspense.

THE BEST PLACE TO BE by Helen Van Slyke. This is the story of Sheila Callahan, the widow, with the all-too-familiar problems, that uniquely affect a woman suddenly left alone. In the days ahead, she struggles with the need to earn a living, to cope with the possessiveness of a teen-age son, the hostility of a dropout daughter, the disapproval of her own mother with whom she yearns to establish a deep understanding.

IMPRUDENT LADY by Joan Smith. This is a novel of Regency England.

THE GOLDEN TORRENT by Jean Davison. This is a novel of romantic suspense.

BEL RIA by Sheila Burnford. This story begins on the dusty roads of Western France, crowded with refugees and strafed by German Stukas, in the almost fatal summer of 1940. Among those the Germans kill is a silent, crafty Gypsy woman. Among the abandoned is her little performing dog. In their effort to understand him, the people are, variously, changed. The dog, who is their magnet, remains mysteriously until the deeply affecting end of his story.

HOW TO LIVE DANGEROUSLY by Joan Fleming. Here is a new novel of suspense so interesting that one owes it to oneself to read it.

Family Life

by Renee Norlander

With high school graduation just behind them, many area young people are making decisions on what they want to do with their lives.

Marry? Have children? What to do about a career? These are some of the most important questions they are probably asking themselves.

And what can a parent do in trying to give good, sound advice? How can we help our younger children prepare for making career plans?

Below are some tips from the U. S. Department of Health, Education and Welfare. They may give you some well needed advice right now.

—Encourage your child to think about what he wants to be when he grows up.

—Don't discourage your child from planning on a particular career at an early age.

—Try to eliminate sex bias in thinking about your child's future career.

—Don't hesitate to give your child your opinion when he asks what he should be when he grows up.

—Tell your child about the work you do.

—Encourage your child to ask others about their jobs.

—Take your child on field trips to see people at work at their jobs.

—Help your child explore hobbies and other activities that are productive and useful.

—Encourage your child in his school work and help him to understand how important it is.

—Encourage your child to visit with counselors and teachers to discuss career plans.

—Remember that college is no longer a route to assured occupational success. Discuss the varieties of training available.

And most of all, remember that your child does need your counseling and advice. His choices will affect you, and you should take part in this important decision. It is your responsibility.

Growing vegetables in limited space

by Patricia Braman

If you want the satisfaction of growing your own vegetables but don't have a lot of space, grow them in containers. All you need is enough sun and space for a good sized container.

Most vegetables grow well this way. Just look for the varieties that have been hybridized for container growth, or those that can be adapted to confined quarters. Some crops like corn produce large root systems and need a very large container. Other plants such as pole beans, cucumbers, and tomatoes will need to be supported.

Container vegetables are pretty agreeable and make few demands when it comes to location. Absolute requirements are five hours or more of full sun, enough space to set the container, and adequate air circulation.

Once you meet these demands, you can put the containers anywhere - patio, deck window box, walkway. If you don't have any available ground space, you can grow vegetables in hanging baskets.

Drainage can be a problem with this kind of gardening. With

smaller containers, whenever possible use drip saucers to catch excess water. A large container without a saucer might be better off being slightly elevated rather than sitting directly on a solid surface like a cement or brick patio. If the container stays in contact with a solid surface, water can accumulate, causing root rot.

A six inch diameter pot with a soil depth of eight inches is the minimum size for vegetables. This size is good for lettuce, herbs, peppers, radishes. Root crops, such as beets, carrots, radishes, and turnips, need depth and enough surface space to fill out to their mature size.

Low-calorie formula available

The U.S. Department of Agriculture's Women, Infants and Children (WIC) food program now gives doctors the option to prescribe low-calorie infant formula for infants and children, Assistant Secretary of Agriculture Carol Tucker Foreman said today.

Ms. Foreman said WIC program rules have been amended to allow infants over six-months old to get low-calorie iron-fortified nutritional beverages instead of regular formula, if prescribed by a doctor. Children over one-year old who are still drinking infant formula because of special dietary needs could also get the low-calorie formula with doctor approval.

"We have received a number of requests to authorize a lower-calorie nutritional beverage for infants and children," Ms. Foreman said. "We have decided that a low-calorie formula should be provided under certain conditions."

The WIC program provides special foods and nutrition education to low-income pregnant and breastfeeding women, infants and children up to five-years old who show signs of poor nutrition. WIC currently serves more than 1.1 million participants nationwide.

The rule authorizing the formula substitutes is scheduled to appear in the June 2 Federal Register.

Increase to be reviewed at hearing

The Public Service Commission will consider evidence presented by Public Service Company of Indiana in regard to the utility's requested rate increase on June 19, 1978. The hearing will take place at 9:30 a.m., in room 907 of the state office building, Indianapolis. At this time the public counselor and any intervening parties will have the opportunity to cross-examine the utility's witnesses. On July 24, 1978, the public and intervenors will present their technical evidence. This hearing will also begin at 9:30 a.m. and be held in room 907 of the state office building.

PSI is asking the commission to approve \$75.3 million in additional annual revenues. This is an 18% overall increase.

An average residential customer using one thousand kilowatt-hours of electricity a month is currently paying \$38.21 including the fuel adjustment charge. Should the new rates be approved, he would pay \$45.51.

Field hearings are being arranged in Lafayette and Terre Haute, as well as either in New Albany or Jeffersonville. However, times and places have not been firmly set. The Public Service Commission last approved a rate increase for Public Service Company of Indiana on Oct. 7, 1975.

If you want to save your gowns...

Do you plan to keep your wedding gown? "If so, store it carefully," advises Lois M. Gotwals, Purdue University extension clothing specialist.

Clean the gown even if you don't believe it was soiled, says the Purdue specialist. Too often wedding gowns, stored without cleaning, mysteriously appear soiled after storing. Method of cleaning -- laundry or dry cleaning -- depends upon the washability of the fabric and trims, sewing techniques used and the intricacy of the pattern design.

To home launder the gown, first remove non-washable trim. If the gown is made of fragile fabric such as lace, be sure to wash with the gentle cycle. Do not use fabric softeners, starch

or fabric finish. Rinse the gown well. After drying, let the gown hang for at least a day before storing. If the gown is dry cleaned, allow it to air for at least a day to remove all solvents and odor, suggests Gotwals.

For flat storage, select a large container to limit the number of folds to be made in the gown. Wood and cardboard contain traces of acid which, over a long period, can cause fabric deterioration; therefore, a white sheet or unbleached muslin should be used as a protective lining. Wash lining material several times to remove all fabric finishes. An extra length of liner fabric should be placed over the gown to act as a dust protector. If fabric liners are used, they should be re-

moved every six months and washed to remove acquired acid.

An alternative to fabric liners is a paper, "Permalife," which is available from some jewelry stores and from some specialty firms. Replace the paper every five years to assure its acid absorbency.

Before arranging the wedding gown in the container, place the lining material along the inside folds of the gown. Also cushion sleeves, any other folds and all fabric details with rolls of the lining material. Fold the gown as little as possible since every fold weakens the fabric. A fold pressed sharply is even more damaging.

Store your carefully packaged

gown in an area free of moths and silverfish and with a relative humidity as low as 50 percent to inhibit the growth of molds. Fluctuations in temperature and humidity can cause deterioration of the fabric.

Properly packaged and stored, your gown could be used by your children, grandchildren and even great-grandchildren.

Donations soar above expectations for CF

Joe Arney, son of Mr. and Mrs. Larry Arney, shared honors as top rider in the Cystic Fibrosis bike-a-thon on May 27, riding a grueling twenty-one miles in sweltering heat. Joe raised \$77.70 for the CF Foundation.

Bikers relax at one checkpoint with refreshments served by the Mentone Lions Club. Marshall Earl Beattie was also on hand to make sure all bikers were safe.

Bedelia Weirick, left, chairman of the bike-a-thon, checks with Cindy Norris and Tanya Morris on the progress of riders. As of June 6, \$575.96 had been turned in by riders, with almost 1/3 of the riders still not having turned their money in.

Aquatic Club intersquad meet results

Thursday, June 1, the Tippecanoe Valley Aquatic Club, "Jaws" had their summer intrasquad meet. Jaws has about forty swimmers this summer and twelve of them are new swimmers.

The parents had a chance to learn some of the responsibilities of running a meet and the swimmers got a taste of what a swim meet is like. Following the meet, which was shortened somewhat, the team's new coach Dave Krieger had an opportunity to meet the parents of the swimmers and to express his philosophy concerning age-group swimming.

The next meet for the club will be at Manchester on June 17. Warm-ups will begin at 9 a.m.

Egg festival is big success

Clear skies, warm weather and hard work all came together this past weekend to produce "one of the best" Mentone Egg Festivals ever celebrated according to longtime observers.

The three-day event, annually held in Mentone to salute the industry that has made the town "the Egg Basket of the Midwest," attracted hundreds of spectators, some from as far away as New Mexico, it was reported.

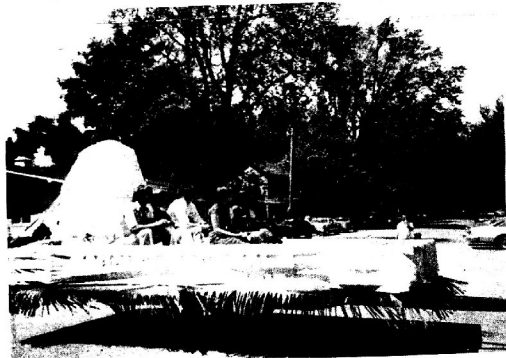

On Saturday evening, during the tractor pull, 18 year old Vicki Arnett was crowned the 1978 Egg Festival Queen. Vicki is the daughter of Clyde and Rebecca Arnett, R. 5, Warsaw. First runner-up was Nina Davis, 16, and second runner-up was Sharon Surface, also 16. Nina is the daughter of Eugene and Janet Davis, R. 2, Bourbon, and Sharon is the daughter of Phil and Beverly Surface, Mentone.

Judges had their work cut out, but finally selected little Sherry Baumgartner and Eric Secrist as "Little Chick" and "Mr. Rooster" for 1978. Sherry is the daughter of Mr. and Mrs. Jerry Baumgartner of Akron, and Eric is the son of Mr. and Mrs. Steven Secrist, Mentone.

The Mentone "Good Egg" award, given to an individual who is nominated for the civic service he or she has performed for the Mentone community, ended in a tie this year. Named as co-winners were Harry Sullivan and Jim Miller.

The tractor pull contest, held Saturday night next to the Farmers State Bank building, attracted 25 drivers who competed by pulling a "dead sled loaded with lead". The first place winner was Ken Killip who pulled a 385% over his tractor weight.

The annual parade which started at the town park and proceeded downtown had several winners in different categories. In the "Military" groupings, the Ladies Legion Auxiliary from Piercetown, and the Warsaw VFW captured first place honors. The Farmers' Mutual Relief Association won the top award in the "Adult Horse Group" and pony car rider Phillip King was named winner in the "kid's horse group."

1978 Egg Festival parade marshalls were Eric Alspaugh, Jeff Lockrone, Ray Secrist, Mona Haag, Robin Secrist, and Cathy Welch.

Sound Off!

"The Akron Town Office should have a drop box for us to pay our water bills."

"I want to know why there are no pedestrian crossings on 19 and 25 in Mentone?"

"To the lady at the grocery store who thinks all food stamp recipients are bums and don't work at all. A person can be working and still be eligible for the food stamp program. It's hard enough these days with the high cost of living without having snobs cut you down because you happen to have a low income. I for one, don't buy pop and candy with my food stamps. So lets bear it for these people who are trying to make this a better life for our children."

Vicki Arnett

1978 Egg

Queen

The winner of the "marching unit" award went to the Warsaw Sons of the Legion. The "Tots on Wheels" first place went to Eric Secrist, who was also named "Little Rooster".

Out of the several float entries, the judges selected three as being the best in the spirit of this year's parade theme "Youth on Parade." First place went to the Mentone Youth League float, second place was awarded to The First Baptist Church Bible School float, and the Girl's 4-H float was selected as third place winner.

Many civic groups, and individuals worked hard to put together this year's festival and the results can only be summed up as a "big success".

Judging team places 10th

The Tippecanoe Valley FFA poultry judging team placed 10th in the State FFA Poultry Judging contest held recently at the State Fair grounds in Indianapolis.

The team was paced by Donald Hathaway who placed 17th high individual of all FFA and 4-H team members competing.

Also judging for Tippecanoe

Valley were Ronnie Opple, Scott Kauffman and Dan Roberts. The team was coached by Forrest Kantner, Tippecanoe Valley FFA advisor.

Each team in the contest judged laying hens, candled eggs, graded broken out eggs and graded dressed broilers.

Kids and adults alike tried their skill at the many carnival booths set up in downtown Mentone last weekend during the Egg Festival.

Akron surveys for complex

Ron Fenimore, president of the Akron Town Board is asking area residents to complete and return the survey form that was published in the June 1 issue of the NEWS.

The preliminary survey is being taken to determine if the need exists for an apartment complex for persons 62 years or more in the Akron area. A private investor has offered to construct a complex with sixteen one-bedroom apartments if there is sufficient community interest to show the need for such a project.

Applications for rural carrier accepted

The United States Postal Service has announced an examination for substitute rural carrier of record at the Mentone, Indiana post office. Interested applicants should contact the postmaster at Mentone for full particulars, application forms, etc. Applications will be accepted until 4 p.m. on June 20, 1978.

The Akron Board is assisting in the project by taking this survey of the need, and urge all interested parties to respond by mailing in the survey form.

For convenience, the form is published again on page 2 of this week's NEWS.

Old book sale

The Akron Carnegie Public Library will have an old book sale at the Akron 4th of July festivities.

If anyone has any old books that they want to discard, the library would appreciate receiving them.

Franklin advisory board to meet

Franklin Township Advisory Board meeting will be Saturday, June 24, at 9 a.m. for preparation of budget at the Township Trustee's office.

Everyone welcome, especially senior citizens, according to Don Smalley, Trustee.

King wins in judging contests

Herb King

Herb King, of the Tippecanoe Valley FFA chapter, was the 11th high individual in the State wide FFA-4-H livestock judging contest held recently at Purdue University. Herb was required to judge and give oral reasons for his placings on two classes each of hogs, beef and sheep. Each class consisted of 4 animals.

Also, as part of the contest, Herb was required to judge three classes of eight breeding animals. In these classes, the four best animals were to be kept for breeding purposes and the other four animals were to be culled and sent to market.

All judging was based on visual observations and appropriate data for each class. Herb was second high individual in the contest in placing the classes correctly.

On June 10, Herb also won first place in individual judging at the "Iowa Classic" Berkshire show and sale in Gilmour, IA.

Out of 30 contestant judges, Herb scored the highest score - 185 points out of a possible 200 in four classes of breeding. His team, the "Indiana Junior Berkshire Association", placed second in judging. Teammates were Mark Bontrager of Walkersburg, and Mark Goodnight of Frankfort.

Herb is pictured to the left with the gavel he won for 1st place, and plaque for 2nd place.

At the Indiana Berkshire Association on Sunday, June 11, Herb again won top score in the junior division, and his father, Darrell, won top honors in the mens division. This contest involved all of the Berkshire breeders in Indiana.

Winners announced

Winners in the Valley Furnishings drawing Saturday, June 10, were:

1st prize - Lenore Lewis - a lamp;
2nd prize - Chris Eaton - an electric clock;
3rd prize - Peg Severns - a lounge pillow; and
4th prize - Sue Pyle - a lounge pillow.

Jack and Rita Simpson are owners of Valley Furnishings, formerly King's Furniture, of Mentone.

And then there was the woman who shot her husband, just for fun. For the fun he'd been having with other women.

Akron has two boys touring England with saber and gun, Paul Whitcomb and Charles Cuffel.

Dr. P. L. Ferry is laying down a lucrative practice and giving his service to his country. He is going to the boys who have given their life to the cause of freedom, to administer to them, alleviate their suffering. It is them that he wants to reach. They need him. He not only makes a great sacrifice himself, but his family is making an equal sacrifice. His family gives him, his services to them, to the boys in the trench, bleeding and wounded. The family will be deprived of his care, comfort and council during his absence. They, too, make a sacrifice for the sufferer at the front. But after all none go to war but who leaves dear ones behind, who make make this or similar sacrifice for their country. We only hope they will not be long absent and return covered with honors.

It Happened In Mentone

Taken from the June 20, 1951 issue of The Northern Indiana Co-Op News:

The Erm McGowen home, north-west of Mentone, suffered considerable damage in Tuesday evening's lightning storm. There was no fire, but it's hard to believe some of the things the "fire from the sky" did while galloping across

round inside the house. It was worse than a bunch of neighborhood kids in an old house.

Mr. and Mrs. Fred Lemler and daughter, Leah Nell, and Mr. and Mrs. Cliff Martin returned last week from a 6400 mile trip in some of the western states.

In a very impressive ceremony on Wednesday evening, Oliver Teel installed the new officers

of the Mentone Lions Club. Raymond Cooper succeeded Richard Manwaring as president.

Father's Day guests at the M. O. Mentzer home were Miss Roselyn Mentzer of Lansing, Michigan Mr. and Mrs. James Mentzer and children of Chicago and Mr. and Mrs. Kenneth Foulke and children of South Bend.

Newsview

By Bob Norlander

Everyone who watches the cop shows on TV knows what criminals are doing to businesses these days. It's a jungle out there: holdups, burglaries, shoplifting, and a tidal wave of bad checks.

What the networks aren't showing is the far more damaging crime wave being inflicted on business - and ultimately the consumer. We can't know if that's because the networks think such offenses aren't dramatic enough, or if it's just that they don't want to offend the viewer.

Burglary, for instance, cost honest folk \$2.5 billion last year, according to the American Management Associations. That's bad news. Hardly worse, however, than the news that their own employees pilfered 2 to 4 times that much from U.S. firms.

Forged checks cost only half as much, nationwide, as embezzlement by companies' own managers and workers. Securities thefts and frauds cost 10 times as much as the cruder but less profitable crime of credit-card fraud.

Overall, stealing by the victims' co-workers and business associates was several times as costly and effective as that by heavy-handed hoodlums.

It makes one think about the cries for law and order. If half of the white-collar thugs were thrown into the house-gow, the country would have the biggest construction boom in its history - building jails.

Family Life

by Renee Norlander

Not often enough, but once in a while, I think about how safe my family's important papers, documents, etc. are. I've never really known what I should keep in a safe deposit box and what I can keep at home. I always get confused, especially when I know that our safe deposit box would not be readily accessible to Bob or I in case of our deaths.

The other day, I came across a brochure sent to me by the Consumer Information Center. This brochure, prepared by the U. S. Department of Agriculture, has some helpful advice on what to do with documents, etc....

Perhaps, as I, you need it. It details what to keep, and where to keep it.

A guideline as to what should be in a safe deposit box is: Put it in if you can't replace it or if it would be costly or troublesome to replace. Items such as: birth certificates, citizenship papers, marriage certificates, adoption papers, divorce decrees, wills, death certificates, deeds, titles to autos, household inventory, veterans papers, stocks and bond certificates, and important contracts.

In your active files at home, you should keep: tax receipts, unpaid bills and paid bill receipts, current bank statements, current cancelled checks, income tax working papers, employment records, health benefit information, credit card information, insurance policies, copies of wills, family health records, manuals and warranties, receipts of items under warranty, education information, inventory of safe deposit box and key, loan statements, loan payment books and receipts of expensive items not yet paid for.

Many of us never really think about the problems that could arise if these important papers were destroyed or lost, so it's very important that we all keep track of what's what. It may save us a lot of trouble!

I want to commend the Mentone Chamber of Commerce and the Egg Festival Committees on the fine job they did this year.

This was Bob's my first festival, and we really enjoyed ourselves. The parade was terrific, the atmosphere was fun, and my first tractor pull was great! Congratulations to all!

Deaf Man Designs Tiny Hearing Aid

OFFERS FREE MODEL

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and is worn completely in your ear.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "near-level" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low.

A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatsoever. Write to Hear, Box 360, Garrett, IN 46738.

IN MEMORY

In loving memory of my wonderful mother, Hazel Study, who left us one year ago - June 15, 1977.

You bade no one a last farewell, You said goodbye to none. The heavenly angels gathered near, And a loving voice said, "come." What would we give if we could say "Hi Mom," in the same old way. Dear Lord please take this message, To our loved one up above. Tell her how much we miss her, And give her all our love. Altho her soul is now at rest And free from care and pain, The world would seem like Heaven, If we had her back again. MRS. JACK (MARJORY) SAUSAMAN.

the high school.

In other action, the board approved extension of five school administrators contracts with salary increases varying from 5% to 5 1/2%.

New park is built on old Beaver Dam school site

From the earliest pioneer days the people of Franklin Township have been careful to provide an education for their children and youths. At first schools were held in pioneer homes and log buildings. Then only the children of those families who did subscribe to a private school could get an education. There were at the very beginning perhaps a dozen of such schools. In the 1850's a change in state school law made it possible for the Board of Township Trustees to build buildings and hire teachers by levying a Township-wide tax on all citizens. These were one room frame buildings and lasted perhaps twenty years.

They were replaced about 1871 to 1888 by one room brick buildings. Nine of such were constructed, Jennings being the first and Lincoln the last. Others were Jay Bird, Wertenberger, Tucker, Sarbers, Blacks, Sevastapool and Beaver Dam. Gradually over the years these buildings wore out and the pupils in them were moved to larger schools. These were Beaver Dam and Sevastapool which in 1901 were two room and two story buildings. Later all the township children were transported to Beaver Dam where both elementary and high school courses were offered. Thus the Beaver Dam School located on this site became the single school for all of Franklin Township.

Now only a memory is the Beaver Dam School. The building was demolished after a fire swept through the school in 1968.

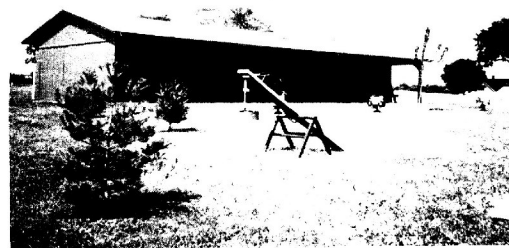

In January of 1968 a fire started in the gymnasium part of the Beaver Dam School which was being used as a Junior High School. This was the end of classes for the school and children were transferred to Akron and Mentone.

After the building has been leveled it was offered "for sale" by the Corporation. Fifteen concerned people of the community donated \$100 each to secure the purchase price of \$1500.00. On September 18, 1970 Articles of

Incorporation were filed with the recorder of Kosciusko County. This was the formation of Beaver Dam Community Corporation, a non-profit organization dedicated to the memory of the Beaver Dam community.

Since that time the membership has grown to twenty-one members. Their first project was to build a monument containing the cornerstone and cement plaque commemorating the new gymnasium addition of the Beaver Dam School. This project was helped immensely by the contributions from the Beaver Dam Alumni Association.

As time progressed a Beaver Dam Memorial Park Board was established. A partially enclosed pavilion with picnic tables has been built, playground equip-

ment and outdoor toilets installed, bar-b-que grills made available as well as a horseshoe court and baseball diamond for entertainment.

All people are invited to make use of this Park and if you desire to reserve the pavilion for a family gathering contact either Paul Shireman (893-4081) or Mrs. Wayne Szalloy (491-2494).

Old book sale

The Akron Carnegie Public Library will have an old book sale at the Akron 4th of July festivities.

If anyone has any old books that they want to discard, the library would appreciate receiving them.

Superintendent Dr. Lloyd Harrell will receive a salary of \$30,500 from the corporation; TVHS principal Loran Skinner, \$24,500; Akron principal Mark Barker, \$19,000; Mentone principal Jack Fisher, \$20,000; and Oliver England, principal at Burket, \$18,500.

Board member Vernon Meredith requested that the new salaries be read aloud stating "this is the taxpayers money".

Other board highlights:

--The board approved an across the board salary increase of 7% for 37 non-certified personnel.

--The superintendent recommended that the board approve and sign contracts of all teachers and instructors involved in this year's summer program. The summer school program includes driver education, summer band, remedial math-reading-speech, health, and recreational courses.

1,263 students are enrolled in the 1978 program. Board member Don Shewman observed that some driving instructors were assigned more hours than others and asked "why not equalize hours" to which the superintendent responded by saying "it could be done". He went on to explain that the schedules were assigned based on completed forms teachers submitted at the end of the school year. The teachers indicated on the form what class they would prefer to teach and hours desired to work. After further discussion, the board approved the summer program by a 3-2 vote. Board members Everett Beeson, Don Snipes, and Vernon Meredith approved, while members Kindig and Shewman opposed signing the contracts.

--The board approved hiring the following teachers: Carol Clark for primary reading at Mentone; Robert Hunt for elementary at Mentone; Betty Gambel for English at TVHS; and Michael Sipe, social studies and JV basketball coach at TVHS. A motion made to assign Rudy Glinge of Warsaw the new freshmen basketball coach at TVHS failed due to lack of a second from a board member.

--Dr. Harrell had recommended the hiring of two new teachers for Mentone to replace duties of other teachers whose assignments had been shifted after they were given "the opportunity to make the decision," according to the superintendent. The recommendation was withdrawn after board members stated they had received some complaints from teachers claiming they were not notified of the changes.

--The new house in Mentone built by TVHS Building Trades students under instructor Ken Murphy, was sold by auction, to coach Michael Sipe for \$42,500.

--The board approved joining the Northern Indiana Regional Service Center for an annual cost of \$2,200. Dr. Harrell pointed out that the films and filmstrips provided through the program was well worth the cost of participation.

--Bus routes were altered somewhat to allow Burket School to have identical operation hours with the other schools in the corporation.

--The board listened to a complaint from a Mentone Couple who requested that transportation be provided for their daughter to the Cardinal Center. The board assured them that something would be done by the next board meeting to provide a suitable solution to the problem.

Akron Town Board met Tuesday

All members of the Akron Town Board met Tuesday, June 20, in the town office for their regular monthly meeting. Discussion centered around complaints about water bills, trash collection, sidewalk improvements, and budgeting concerns.

Ed Hauser appeared before the board to request that the town consider purchase of a new or used radar gun to assist officers in speed control. Hauser explained that current radar equipment in use is almost impossible to repair and maintain as the original manufacturer is no longer in production. The board advised that they would contact a supplier and investigate prices.

Other Akron board action:
--The board asked town personnel to remove the old antique building

that stands across the street from the telephone building. Other town priorities may delay the destruction of the building, but the board said it would be removed in the near future.

--Several ideas were discussed by board members for development of a new sidewalk program for next year in Akron. Problems in funding and implementing a fair and equitable plan lead members to take the problem under study for the time being.

--Discussion regarding complaints from some citizens that their trash wasn't being picked up was held. Town employees said that in many

cases cars or trucks are parked in front of the trash and it is then blocked from view. Also, some trash is too large for the compactor to accept without damage to the machinery.

--Board president Ron Fenimore said he would contact officials involved with recreational programs to discuss problems and complaints the board has received regarding drinking, broken glass, speeding cars, and noise at the ball parks.

--The board will investigate the possibility of spraying the ball diamonds with a bug repellent if they

can contract a county truck at a minimal cost.

--The board is beginning serious consideration of the new budgets and are reviewing a preliminary draft to be acted upon in the near future.

Many people have asked us who is drawing the cartoons we have lately been publishing in THE NEWS.

Melea Dittman, Akron, is the girl who has been providing the original drawings for us. Melea is married, has two children (Shannon, 2, and Travis, 4 months) and draws mainly as a hobby. Ron, her husband, works at Sonoco in Akron.

If you have a humorous idea for a cartoon, please let us know and we'll pass it on to Melea.

Teacher remembered

DEAR EDITOR:

The final school bell of the day brings the cry, "Good-by, Teacher, until tomorrow."

Today we said good-by to Eleanor Chamberlin, and we said it with all the love and respect that the word TEACHER can inspire.

To those that she taught and to those that she worked with, her memory will always be a sweet joy.

She taught little ones with the philosophy that she had "heaven in her hands." She taught for tomorrow and the hearts of children.

Eleanor worked among teachers displaying an example of professionalism. She was quick to encourage and help - always doing more than was expected of her. As a friend, she had the gift of listening patiently and advising truthfully. Her example in and out of the classroom was inspiring.

Life will not be as full without her, but we take comfort in knowing that many lives are richer and

fuller because of her.

"Good-by Teacher, until tomorrow."

—Name withheld by request.

Alumni invited

Dear Editor:

The Fulton County Historical Society is inviting former Akron High School basketball players, cheerleaders, student managers and fans to the historical replay of the 1947 and 1953 Akron vs. Fulton games in the old Fulton County Tourney. The replay will be the concluding event of the Round Barn Festival July 9 at 4 p.m. in Whitner gym, now owned by the Family Y.

We have been unable to locate Ralph Clawson and Annabelle Phillips (1947) and Harry Carlton (1953). Would you please print this letter in the NEWS and ask that anyone who knows the addresses of the three above persons contact me at the Civic Center Museum, 7th & Pontiac, Rochester, or call Mrs. Tom Haupt, Akron.

Thank you very much.

Bergland news conference

Secretary of Agriculture Bob Bergland will hold a news conference on Friday, June 23, beginning at 9:45 a.m. in Room 204-A, in the Dirksen Building that is located at 219 So. Dearborn, Chicago.

The conference will precede the Secretary's speech before the Chicago Ag Economic Club.

Prizes for lucky winners

Hundreds of marked ping pong balls will be tossed out to spectators along the parade route during this year's Fourth of July celebration in Akron.

Each ball will have the name of an Akron area business marked upon it, and lucky people who catch them may return the ball to the business marked on it for a prize.

New books at Akron library

New books received at the Akron Carnegie Public Library include the following:

PRESERVING YOUR PAST by Janice T. Dixon and Dora D. Flack. This is a painless guide to writing your autobiography and family history.

THE TENTH LIFE by Richard Lockridge.

THE JOURNEY by Cecilia Sternberg. As the train carrying Cecilia Sternberg, her husband Leopold and daughter Diana speeds through France, a journey into exile begins. Their beloved Czechoslovakia has fallen completely under Russian domination. Through the efforts of their intimate friend the family faces a new world in which they will suffer poverty and adversity. Now, in this warm and vibrant memoir, the author brilliantly recreates the vanished world of European aristocracy.

ONE SMART INDIAN by Robert J. Seidman. This book is epic in scope; its protagonist a true tragic hero. The narrative flows smoothly between the subtly realized Indian world and

the strident activities of civilization. This story vividly portrays a time when the American frontier overran the mystical preserve of the Cheyenne.

BECAUSE HE LIVES by Gloria Gaither. God's plan for our lives is within reach of this very moment. This is the real excitement of the Gaither message that finds its joyful expression in song after song. Now you can share the reason behind their enthusiasm for yourself.

CASTLE HERITAGE by Elisabeth Barr. This is a novel of suspense.

THE LIGHT AND THE GLORY by Peter Marshall and David Manuel. Never before has the saga of the founding of America been told from the point of view that God had a plan for this country, and that He intervened repeatedly to ensure that it had a chance of coming to pass. This is the story of the discovery of that plan, and how it dramatically affects the conventionally view of our nation's history and purpose.

It Happened In Mentone

Taken from the June 27, 1951 issue of *The Northern Indiana Co-Op News*.

Nine Lions club members and two guests enjoyed a six-hour tour through the Standard Oil refinery at Whiting Wednesday as the guests of Ned Miller, local Standard Oil agent. A fine meal was given the visitors at the noon hour, and each were given a souvenir box of candles, which were made in the shape of little chickens. The plant and storage facilities cover 1100 acres now and almost a thousand more acres have been purchased for additional plant and storage. In addition to "gas and oil" the refinery utilizes every element of the crude oil, and candles are just one of the other products they produce.

Over sixty were in attendance at the first reading program held at the library last Thursday. The surprise portion of the program was given by Miss Linda Lou Lukens, who gave a number of readings and showed her "story book" dolls. She also tap danced.

Mr. and Mrs. Clayton Holloway and sons left on Wednesday for a weeks trip to Niagara Falls, New York City and Washington, D.C.

Elza Melton was having a lot of fun catching bluegills at Palestine Monday when a three and one-half pound bass decided to run away with the red worm he had on his hook. The cane pole held up long enough to land Mr. Bass anyway, but it's tough when a guy like that tries to spoil his fishing.

Mentone Police Report

Geare and Sharon Booth, 111 E. High St., Mentone, were arrested by Marshal Earl Beattie on June 13 at 6:30 p.m. on a body attachment warrant for failure to appear in County Court on June 6, as ordered by the Court.

Richard Gross, owner of Mentone Body Shop, reported on June 14 at 7:15 a.m. that an unknown person threw a chunk of cement through a window of a car, owned by Jo Gamble of Mentone, that was parked at his garage waiting for repair. A green Plymouth was also damaged.

On Tuesday, June 13, at 2:35 p.m., Evelyn K. Gradeless, 57, R. 5, Rochester, fell asleep at the wheel of her car and hit a parked auto owned by Maurice J. Peterson, R. 2, Rochester, on E. Main St., Mentone. Estimated

repair to the Gradeless auto was \$550, and to the Peterson auto was \$600. Gradeless was not ticketed.

An accident occurred on State Road 25 East, 300 feet east of County Road 950 West, on Friday, June 16 at 10:05 p.m. when an auto driven by Peter R. Hine, age 29, R. 1, Pierceton, collided with an auto driven by Roger E. Tracy, age 16, of Cedar Rd., Tippecanoe. The Hine auto was headed east on 25 when it "sideswiped" the Tracy auto traveling west on 25, and then hit a sign post rented by Farmer's State Bank of Mentone, owned by Vavado Signs of Argos.

Estimated repair to the Hine auto was \$750; to the Tracy auto was \$1,000; and to the sign was \$850.

Hine was arrested for public intoxication, and he received minor injuries in the accident.

Open house - Air show, July 9

Grisson Air Force Base will soon welcome those "Magnificent Men and Their Flying Machines" at the Base Open House and Air Show on Sunday, July 9. The show is free to the public.

The prime attraction is the Air Force Thunderbirds. Since their beginning in 1953, the world famous flying acrobats have performed 2,150 aerial demonstrations in America and 45 foreign countries. This year alone, the team will be appearing in 78 different cities. To meet these commitments, the Thunderbirds travel an average of 200 days a year from their home at Nellis Air Force Base, near Las Vegas, Nev. Flying at speeds up to 700 miles per hour with less than three feet separation between the aircraft, their pilots are considered the elite of the Air Force.

Also planned for the Open House are many static ground displays of aircraft from the Air Force and other military services. An airpower demonstration by Grissom's 434th Reserve Tactical Fighter Wing also is being planned, as well as a helicopter air assault demonstration performed by the U.S. Army. The Open House will begin at noon and last until 5 p.m. Grissom is located 15 miles north of Kokomo on U.S. 31.

Deaf Man Designs Tiny Hearing Aid OFFERS FREE MODEL

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and is worn completely in your ear.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "ear-love" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low.

A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatsoever. Write to Hear, Box 360, Garrett, IN 46738.

Going back to school

Have you been thinking about going back to school -- but aren't sure how to go about it? Whether you want to take a few courses because you like a subject, want to learn a trade, or maybe even get that diploma you started years ago, there are programs available for you.

And the Department of Health, Education and Welfare has put some suggestions down on paper. For your free copy of Educational Opportunities for Older Adults, just send a postcard to the Consumer Information Center Dept. 689F, Pueblo, Colo. 81009.

First you need to sit down and figure out what it is you really want. Pick something because you like it, and you'll have a much better chance of being motivated to really get a lot out of the class.

Once you have a general idea of what it is you'd like to do, you can start looking for the courses to put your plans into action.

Places to look for the courses you want include:

- Adult education programs, sponsored by local public school systems.

- Courses and special activities in vocational, technical, and high schools.

- Courses in community colleges and universities for a modest fee or without charge.

If financing is a problem, you'll be glad to know that the federal government also sponsors several loan, scholarship, and work-study programs to help people enrolled in post-high school vocational, certificate, and degree programs.

You can get information on these sources of assistance from the financial aid officer in the school you want to attend, or from the Division of Student Support and Special Programs, Bureau of Postsecondary Education, Office of Education, Department of Health, Education and Welfare, 400 Maryland Ave.,

SW, Washington, DC 20202.

The publication also includes a listing of other federal programs to help you go back to school, complete with where to write and phone numbers to call.

There's also a listing of non-government sources of information on education for people ready to move on and explore new things, or broaden a background.

Parade to highlight Fourth

With the recent annual horse show now history, members of Akron's Fourth of July Committee are turning their attention to Tuesday's all-day celebration of the nation's and the town's birthdays.

Activity will begin at 11 a.m. with a gigantic parade that will use "Famous Americans" as its theme. Governor Otis Bowen and Dr. Charles Herrick, Akron, are co-marshalls for the parade. Floats will vie for prizes in each of three categories - local, out of town, and novelty. Youth floats will compete for \$35, \$25, and \$15 awards and a trophy will be given to the first place commercial float.

The parade will assemble at Pike Lumber Company, then will

move north to Rochester St., and then west to the blinker lights where it will turn north, concluding at the school grounds where winners will be announced and a full agenda of activity will be launched.

A baseball game between TVHS and a Lafayette Pony League team will begin at 1 p.m. followed by a garden tractor pull, "Cutie Contest", and horse shoe pitch at 2 p.m.

The cutie contest is sponsored by the Las Donas Club and will be in the junior high gym.

From 5 to 7 p.m. at the school there will be music and entertainment provided by the TVHS swing band and choir. At 6 p.m. parachutists will jump, featuring

a multi-person free-fall.

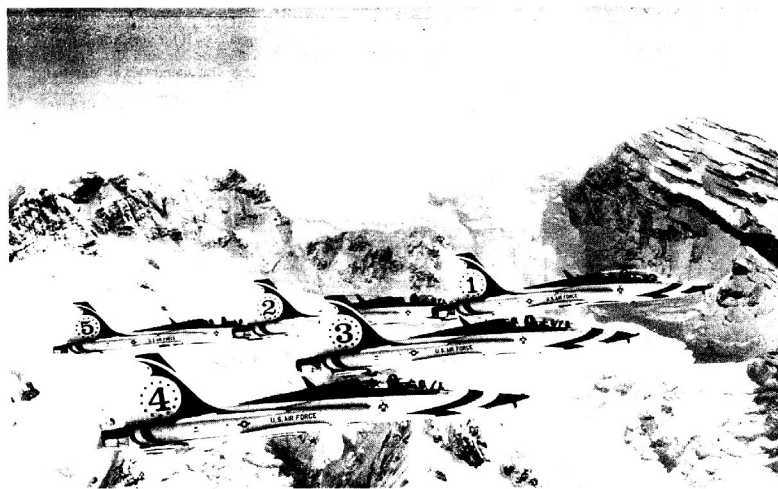

Winner of the penny-a-vote contest for Miss Akron will be crowned at 7 p.m. by last year's queen, Lisa Sterk.

Also on tap are an old book sale at the library, and special prizes for ping pong balls that will be marked with Akron merchants names. The ping pong balls will be tossed out along the parade route.

From 7:30-9:30 p.m. The American Travelers will perform musical entertainment. The day will conclude at dusk.

A full agenda is included in the committee's full page ad on page 8 of this week's NEWS.

Thunderbirds to perform at Grissom

PICTURED IN THE WEDGE formation, the Thunderbirds are shown flying cross-country to one of their show sites. Spectators will recognize this formation during the Thunderbird performance when the team demonstrates the beautiful wedge roll during the July 9 open house at Grissom Air Force Base.

Sound Off!

"Why can't something be done about all the broken glass in the Akron town parking lot?"

"I don't live on East Walnut St. in Akron but I do sympathize with those residents who have to tolerate the sticky (like glue) tar which is on the top surface of the street on hot sunny days and it is just the beginning of summer."

"If people are going to have garage sales, why can't they be more specific on directions on how to find their homes? Especially those that live around the lake."

Deadline nears to enter parade

Entries are now being accepted for the annual 4th of July parade in Akron. This year's theme is "Famous Americans" with the parade beginning at 11 a.m. Grand marshalls for the parade are Dr. Charles L. Herrick and Gov. Otis Bowen.

Anyone interested in entering the parade should contact Marvin Gagnon, chairman of the parade, at 893-4313 in the daytime and 893-4285 in the evening.

Marvin Gagnon, chairman of the 1978 Fourth of July Committee, points out one of the many signs posted in Akron to map out Tuesday's parade route.

That's because he's still listed as just "Michael W. Leon" in the telephone directory. There's no mention of his wife Joan. Nor their three teenagers. After all, don't they deserve their own listings?

Well now you can let everybody know about the great things happening in your life with the new edition of your telephone directory. It's going to press soon. So if you're about to make any changes or add a dual name listing, now's the time to do it.

By Bob Norlander

There's good news, at last, from Britain, where a classical flute player has the country by its ears.

James Galway's flute has become box-office magic a rare phenomenon in an age when most mass-market cultural heroes are keening singers or guitarists who have almost mastered three chords.

Galway, former principal flutist with the Berlin Philharmonic, is credited with doubling flute sales in Britain.

His concerts are sellouts, his record sales exceeded 75,000 last year and James Galway t-shirts sell briskly.

Maybe something revolutionary is happening to pop culture and we don't know what it is. Maybe, soon, teenagers will storm a Bruckner festival or groupies will pursue a concertmaster into his dressing room.

Galway will give some concerts in the U. S. next year. It would be nice, after all those amplified guitars, to be electrified by a flute.

Bourbon plans for celebration

The "Old Town Pump Days" will be celebrated in Bourbon on Friday and Saturday, July 14 and 15, with many varied events this year.

During the two day celebration there will be sidewalk sales, arts and crafts exhibits, athletic tournaments, parades, bingo, tractor pull, band concert, contests, and a dance.

Most of the events will take place in downtown Bourbon. The outdoor film festivals, however, will begin at dusk each evening behind Yarian's. Bingo will be played at the fire station, and pancake breakfasts will be served at the Methodist Church. Friday dinner will be at the Masonic Temple, and a chicken bar-b-q will be at the American Legion on Saturday. The pet parade will begin at 2 p.m. on Friday, and the Old Town Pump Days parade is Saturday at 4 p.m.

Thanks to Mentone

DEAR EDITOR:
On behalf of the millions of children suffering from lung-damaging diseases and the Indiana State Chapter of the Cystic Fibrosis Foundation, I say "thank you" to the citizens of Mentone.

A total of \$1,026.61 has been raised to support the Indiana programs of assistance and education to help national programs of research and care which ultimately benefit all the children with lung-damaging diseases.

We can be encouraged because our dollars are helping research surge to find a control or cure for cystic fibrosis and to develop better care for children with other lung-damaging diseases. We can also be encouraged because CF children are living longer, more productive lives, and the children with diseases like asthma, chronic bronchitis, bronchiectasis, recurrent or persistent pneumonia, and childhood emphysema, are being treated with increasing effectiveness.

Our progress is worthy of recognition and pride and we thank our friends in Mentone for helping make it possible. At the same time, we ask renewed dedication to the continuation of this fight against lung-damaging diseases in our children.

Bible Schools

TO THE EDITOR:
The past two weeks have been the time when churches have their Bible Schools. I have worked in three - each one different -

each one good. The director is always a leader in the community and has a special love of children. Some ministers work in vacation school and some don't; but the ones that don't sure miss something beautiful.

Sunday Schools have been on the decline. One reason is that church tried to run them like school, and the children rebelled. In New York City, I ran the Bible School for six weeks each summer. There wasn't anything in the city for the children to do.

My craft department was run by an alcoholic lady, but she was sober every day for Bible School. Ten Jewish ladies, one black, one West Indian, one Puerto Rican made up my staff. They furnished their own materials. One girl broke her arm. She didn't know where her mother was, so I signed to get her taken care of. I told her mother that night I was sorry. Her mother said, "Rev., I'm so glad she is going each day, for she sat in the apartment all summer with nothing to do."

Children! How can we miss in the next generation with such beautiful young life? In more than 100 Vacation Bible Schools I can truthfully say I was there and I was glad. Bless every minute anyone gives for our children to make a better Mentone and a better world. Vacation Bible School!

INDEPENDENCE DAY

1978

Some people call me Old Glory, others call me The Star Spangled Banner, but whatever they call me, I am your flag, the flag of the United States of America . . . something has been bothering me, so I thought I might talk it over with you . . . because you see, it is about you and me. I remember some time ago people lined up on both sides of the street to watch the parade and naturally I was leading. I was leading every parade, proudly waving in the breeze. When your Daddy saw me coming, he immediately removed his hat and placed it against his left shoulder so that his hand was directly over his heart . . . remember?

And you, I remember you. Standing there straight as a soldier. You didn't have a hat, but you were giving the right salute. Remember little sister? Not to be outdone, she was saluting the same as you with her right hand over her heart . . . remember?

What happened? I'm still the same old flag, oh, I have a few more stars since you were a boy. A lot more blood has been shed since those parades of long ago.

But now I don't feel as proud as I used to. When I come down your street and you just stand there with your hands in your pockets and I may get a small glance and then you look away. Then I see children running around and shouting . . . they don't seem to know who I am . . . I saw one man take his hat off then look around. He didn't see anybody else with theirs off so he quickly put his back on. And what about that night at the baseball game when they played the Star Spangled Banner and I waved so proudly in the breeze. Nobody bothered to sing. They stood up alright as a sort of mild patriotic gesture but then they talked among themselves about the game, about the weather. But they didn't sing. I felt hurt. Is it a sin to be patriotic anymore? Have you forgotten what I stand for and where I've been? Anzio, Guadalcanal, Korea and Viet Nam. Take a look at the memorial honor rolls sometime, of those who never came back to keep this Republic free . . . One Nation Under God . . . When you salute me, you are actually saluting them. I may not be coming down your street for a long time. It seems that patriotic parades are a thing of the past. But when I do . . . Won't you do me a favor? Stand up straight, place your right hand over your heart . . . and if they play the Star Spangled Banner, sing out loud and clear . . . I'll salute you, by waving back . . . Show me that you remember.

Proud of America

These Akron area business people invite you to join the festivities Tuesday and remind everyone of the importance of reflecting on the true meaning of patriotism as the nation begins its 203rd year and the town enters its 143rd year.

Family Life

by Renee Norlander

One other morning I sat watching the Donahue Show (my favorite!), and listened to an author talk about the lack of feelings in men. She had interviewed dozens of men, and found that most of them do not discuss their feelings or emotions with anyone.

Now all of us know about women - gab, gab, gab! Right?! We've all heard the chiches - "women are so emotional" or "they cry their hearts out". And the backyard fence was designed exclusively for talking over.

As I listened, I realized that some of what I was hearing was really true. I can't remember the last time I heard men discussing their feelings or problems. Oh, they talk about their problems at work, or how rotten the Vikings played last night, but true, gut discussions. Never!

Now I can't believe that God made us so differently. We all have hearts, and souls, and brains, and nerves, and emotions. So what makes women want to discuss their feelings, and men hold it all in.

One word sums it up for me - "macho". That masculine need to be strong, brave, and proud, but never, ever weak or vulnerable. Men must defend themselves, and never let another person know they feel afraid or weak or sad.

It really is too bad! Women live longer than men. Too many wives spend the last years of their lives alone, and not because they want to.

I really believe that if men could release their frustrations and anger through talking, they might live longer. Wars might be avoided. Crime decrease. Alcoholism vanish.

I know that I am going to try to raise my son to be a feeling, emotional human being. I don't want him to live up to an image created by the Joe Namath's of the world. I don't want him to get into fist fights with friends because he can't "talk" to them. I want him to be able to say he's sorry, to be able to cry if he's hurt.

Perhaps it's too late for the men in our society to learn to talk and to be real friends, but it's not too late for our children. The word "macho" is unfair. And so is "sissy". I want my son not to be an adjective, but a "real" human being!

New team records set at Jaws meet

The Rochester Royals visited the Tippecanoe Valley Aquatic Club pool on Tuesday, June 20. The final score was Jaws 157, Royals 235.

Under new coach Dave Krieger, the team has been working hard and the results are beginning to show. Nineteen new TVAC team records were set at the meet. In addition to the team records, twenty-nine of the Jaws swimmers had "personal best" times. Of the nineteen records, eight of them were in the relays. Individual record setters were: Sam Manwaring in the 8-under 25 free; Deron Manwaring, 50 free; Angie Evans, 50 back; Randy Paris, 50 fly, 9-10 age group. Randy also set the 50 fly record in the 11-12 age group. Two other records were set in 11-12, Julie Manwaring in the 50 free and Shawn Cumberland in the 50 breast. In the 13-over age group Brett Cumberland set a record in the 100 breast, Joel Smith in the 100 free, 100 back and 100 fly, and Cyndi Daniel in the 100 free.
