A quota of 150 pints of blood has been set for Tuesday's visit of the Kosciusko Co. Red Cross Bloodmobile to Tippecanoe Valley High School. Anyone 17-66 and in good health can donate. Hours will be from noon until 6 p.m. in the school gym.

The visit will honor Eva Eherenman and Dwight Bechtol, both of Burket, Red Cross volunteers since the program began in 1951. Bechtol is also a nine-gallon donor.

The March 8 visit will be the first this year, the 27th year of the blood program originally implemented by the late Dr. Dan Urschel of Mentone; Mrs. Wm. Long, Kosciusko County chapter executive secretary; the late Fred McKown Sr., blood program chairman, and others.

A special plea has been issued for five pints of type B+ blood.

McSherry farm hailed as oldest

Area residents watching WKJG-TV last Wednesday saw two familiar faces--those of Wilbur and Helen McSherry, who were honored for having the oldest farm in Kosciusko Co. The McSherry farm has been in the

family since 1838 and qualified for a local and state award last year. The television interview came as a result of an AACS-sponsored search for the oldest farm in each of the state's 92 counties.

Akron Lions taking part in nation-wide eye program

I see. You see. Some do not. In order to help those with impaired vision, member of the Akron Lions Club are joining other Lions in Indiana in urging residents to become donors to the Lion Eye Bank.

The eye bank at Indiana University Medical Center is the source of both restored vision and improved sight for many.

Posters made by the high school art department have been placed in store windows to call attention to the value

of donated eyes. Any Lions Club member can tell an interested person how to donate his or her eyes and provide registration cards.

The donation costs

nothing and poses no problem for funeral directors, according to local Lions who urge everyone to sign up during the next two weeks.

Flohr awarded IIA diploma

Michael Flohr of State Farm Insurance Co. was recently awarded the Associate in Management Diploma by the Insurance Institute of America as a result of the successful completion of the Institute's December 1976 examinations.

Flohr, a 1967 graduate of Akron High School and a 1971 graduate of Purdue University, is the son of Mr. and Mrs. Sam Flohr, Akron. He began his insurance career in the statistical unit of management information services in November, 1971. He and his family reside at 119 Meadowbrook Dr., Bloomington, Ill.

The diploma Flohr received is granted to persons who have evidenced completion of the IIA Management Studies Program by passing national examinations covering

Michael Flohr

each of four management courses. However, while 22,270 IIA examinations were written in the past year, only 225 Associate in Management diplomas were awarded country-wide.

Severe weather takes heavy wildlife toll

Death tolls for pheasant, quail and songbirds have been highest among wildlife mortality caused by the severe winter, according to preliminary estimates by the Indiana Department of Natural Resources.

The agency said there had been "higher than normal" wildlife losses throughout Indiana. It

added that because of sufficient winter cover and food, State Fish and Wildlife Area have had a lower mortality than most private land, but even on these areas quail have suffered "substantial mortality and weight loss."

"Intensively farmed areas appear to have been the hardest hit as

good wildlife food and cover are generally lacking when snow and cold persists," department biologists said. The biologists said one large die-off of pheasants "may be tied to winter feeding of grant treated for planting with a fungicide."

"It appears that songbird mortality has been higher than normal, even where bird feeders were maintained," the biologists said. "Scattered reports of dead birds of most resident species attest to a higher than normal kill."

However, the biologists said, "Given good spring nesting conditions, most species should recover their numbers by the end of the summer." They added that planting good winter food and cover materials this spring should help reduce the chances of another large loss next year.

Dear Editor:

The long winter has ground on until we now major in keeping alive, and on hearing the wonderful ways in which most of the people have helped others. Winter, no doubt, will continue. But there will be a change--unless, of course, these are the last days.

In just a few weeks our minds will be thinking of spring. The little fluffy chickens will come out of the egg. The mare will drop her long-legged foal. Birds will be coming home and singing in the tree. My little garden will be planted. Soon little

onions, radishes and lettuce will be peeping through the soil. Then a little later, tomatoes on the vine. Mentone will come alive with flowering bushes and full-leaved trees. School will be out.

We will tell our grandchildren about the winter of 1977. I have fed all who came to my door, fed the birds, watched our son move to Houston, Texas. Preaching on Sunday to those who come. And enjoyed the long rest that was so badly needed. I have watched kids come to practice music from one of the high schools.

It's been a long winter. It's been good. We will all be thrilled with the first pussy-willow...the nest of a new rabbit. Lest we forget! Garrett H. Phillips

Akron Library News

New books received at the Akron Carnegie Public Library include the following:

THEN GOD CREATED GRANDPARENTS AND IT WAS VERY GOOD by Charlie W. Shedd. Charlie Shedd enthusiastically offers advice to grandparents: how you can be good ones, how you can have a good time while you're at it, and why you should be proud of it. Spell it good times shared and communication. Spell it many ways but sometimes spell it "grandpa", "grandma".

THE DREAMING SWIMMER by Elisabeth Ogilvie. Into quiet Appledcross, Maine, comes a stranger to buy the old Darby place. All anybody knows about him is that he is lean, has close-cropped black hair, always wears dark glasses, and has enough money in the bank to pay \$100,000 cash to buy the property. With consummate skill the author weaves ever tighter the web of entrapment. Though spring sunshine begins to warm the Maine countryside, it can do little to dispel the chill of terror the novel's crashing finale brings.

DAVID by Dorothy Landvater. This is a mother's story of her son's recovery from a coma and brain damage.

A BIRD IN THE HAND AND A BEAR IN THE BUSH by Judy Hughes. This is a true and touching story of a remarkable family. It tells how the Hughes became involved in a halfway house for animals on their 175 acre ranch in the coast range of Oregon.

STRANGER AND TRAVELER BY Dorothy Clarke Wilson. This is the story of one of America's first and foremost women achievers. In an era when "ladies did not mix in politics she single-handedly paved the way for far-reaching reform in the treatment of the insane and the retarded.

IF I DIE AT THIRTY by Meg Woodson. Many books

have been written on death and dying, but this one is unique. Centering on the artlessly wise comments and tender, sensitive thoughts of a no-longer-quite-a-child, not-quite-yet-a-woman thirteen years old, it provides an unforgettable glimpse into a young girl's mind as she comes face to face with death.

Taken from the March 1, 1950 issue of the Northern Indiana Co-Op News:

Maude Snyder presented ten students in the music contest at Nappanee. They were Marita Tucker, voice; Marilyn Rathfon, voice; Carol Ann Dickey, voice; Barbara Hoover, voice and piano, and Carol Rathfon, voice. All made splendid ratings.

The Mentone schools closed on Monday due to the coal shortage and until further notice when an adequate supply of coal can be assured will remain closed. Other neighboring schools have been forced to close, too, because of fuel shortages.

New books at the Bell Memorial Public Library include:

THE GRASS IS ALWAYS GREENER OVER THE SEPTIC TANK by Erma Bombeck. Humor in the suburbs.

ROOTS by Alex Haley. **BOOKS FOR COLLECTORS:** The Baskets of Rural America by Gloria Teleki, Canes and Walking Sticks by Kurt Stein, The Comic Book Price Guide by Robert Overstreet, The Poor Man's Guide to Trivia Collecting by John Mebane.

TRAPP'S WAR by Brian Callison. Trapp had once been a British naval officer--of a sort. But, after his career had ended both abruptly and unofficially, his subsequent activities--a bit of piracy here, of smuggling there--did nothing to endear him to his former employers.

It Happened In Mentone

Beaver Dam ended its regular season on a happy note Friday, defeating Gilead 59-43 on the Gilead floor. It was Beaver Dam's 14th victory as against seven defeats, and it marked the team's 10th triumph in the last 11 games, the only loss during the period being to Atwood in the county tournament semi-finals. Big Everett Rookstool added 18 points to his season total, and teammate Donnie Butt was equally impressive with 17.

FCHS changes

museum hours

The Fulton Co. Historical Society museum in the Civic Center, 7th and Pontiac Sts., Rochester, will be open from 10 a.m. to 6 p.m. Saturdays, according to an announcement made this week. Mary Collins, of Kewanna, will be hostess.

The regular 9 a.m. to 5 p.m. hours Monday-Friday will remain in effect, also. However, because of the energy crisis, the depot and log cabin museums at Lakeview Park will not be open until further notice.

Registrar Roll

Braxton Eikenberry looks to future in stained glass

By Ann Sheetz

In the past few years stained glass has moved out of churches and Victorian homes into new houses and eclectic decorating schemes. The credit for much of this change must go to craftsmen like Braxton Eikenberry.

"It's a revival that will continue," he says. And he should know. Last year he designed and made between 30 and 40 windows and cabinet doors for customers in this area. "Interest is just beginning," he predicts, noting that the craft is booming on the west coast and just now making its way to the Midwest.

The rural Miami county glass designer is largely self-taught. "My first designs were strictly by ear," he recalls. He now works with patterns, most of which he creates himself, drawing his inspiration from other windows or from nature. But don't ask him to duplicate someone else's window. "I never copy and I never build two windows alike," he says.

Part of Eikenberry's work is in restoring old windows, but it is the materials for the new ones that add color to his basement workshop. Sheets of glass of every color are neatly arranged

in a work area that contains a post covered with silvery strips of lead and bins of glass chips that will be used in small projects.

"I like to make a lot of small things to take to shows," he says. These include mobiles, jewelry boxes, brilliant butterflies and miniature windows.

Eikenberry estimates he attended 15 or 20 shows last year but plans to limit the number this year. "I'll probably go further away though," he says. "As long as I have to pack my truck anyway, I might as well attend bigger shows. They're no more work than smaller ones."

Eikenberry's goals are much like those of other artists: to develop his craft and to grow. Is his remote location a handicap? "No real problem," he says. "I can deal through the mail or go to a customer's home for a consultation or they can come here."

Now designing windows for several new homes, Braxton Eikenberry's view of the future is rosy--and yellow and green and purple and every other color of the rainbow--as he foresees a continuing revival of interest in the charm and beauty of stained glass. And he's working hard to make his clients' views equally colorful.

BLACK AND WHITE reproduction diminishes the jewel-like colors of this tall stained glass window, displayed here against the texture of the tree and the barn.

ALL STAINED GLASS is not restricted to windows, nor is it limited in the way it can be used, as this arrangement of plants, macrame and glass at the Eikenberry home shows.

Perry Club meets for breakfast

Fifteen members of the Perry Improvement Club met recently at the Snack Shoppe in Akron for breakfast and later went to June Merley's home for their March meeting.

Devotions were given by Betty Keim. Roll call response was by telling a favorite recipe or showing a special cookbook.

Happy Birthday was sung to Helen Byrt and Happy Anniversary was sung to Emma Burns, Marie Crum and Bea Fites.

Mrs. Herman Musselman read thank you notes from Ella Morris, Marie Berger, Marjorie Miller and the family of Charlotte Mathias.

June Merley gave a memorial service for Mrs. Mathias, a former member.

The lesson, "Joy of Being a Homemaker," was given by Helen Miller and Marie Crum. They said, "Homemakers, accept yourself for what you are, discover where you are going and your meaning and purpose for life. There is only one you."

The April meeting will be at Helen Byrt's home.

Members and friends of the congregation are urged to hear him and to hear Pastor Thomason speak at the 7:30 p.m. service in which newly called associate pastor Kin Tippin will be in charge of the music. A fellowship period is planned after the service. It is sponsored by the Service Guild.

surgery January 24 at the Indiana University Medical Center, Indianapolis. This time a bad valve was repaired. But on February 7 the valve tore out and had to be replaced with an artificial micro-valve.

Mark hopes to return home this week to continue his convalescence, but donors can help him by specifying their donation go to replace the blood he used.

Members of the TVHS student council led by Sherri Miller, president; Kirk Robinson, vice-president, and Wayne Cumberland, sponsor, will be in charge of recruitment and arrangements. Students in Juna Graham's intensive office lab will

type schedules and handle registration while other students will set up and dismantle the unit, serve as walkers and assist in the canteen.

Red Cross officials hope adults will participate this year as well as students did last year when 75 of them donated, which coupled with ten donations from school-affiliated personnel, amounted to a whopping 85 of the 119 pints collected.

Kosciusko Co. Red Cross board members Dwight Bechtol, Eva Eherenman, June Reed and Pearl Horn will be in charge Tuesday with churches in the Mentone, Burket and Beaver Dam communities supplying canteen needs.

Akron Bank sets grand opening

The grand opening of the new Akron Exchange State Bank will begin Friday, March 11, and extend through Saturday, March 19.

The opening, which follows by almost three months actual occupancy of the building which was begun last April, will offer gifts for everyone. Details can be found in the bank's ad in this week's NEWS.

The new one-story modern structure is lo-

cated two lots west of the old bank on a site formerly occupied by Stephen's Texaco. One hundred feet long and 45 feet wide, it is situated on four lots,

which permits ample parking space and double drive-up window with room for expansion.

The airy building has five tellers' windows, cont. on back page

Egg Festival applications sought

The Mentone Chamber of Commerce invites applications from citizens and organizations wishing to participate in the 1977 Egg Festival. All applications should

be submitted before April 2 and detail in writing the activity desired. All letters should be directed to Jim Miller.

MENTONE'S POLICE FORCE is headed by Ken Richardson, left, who became marshal February 1, joining him this week as deputy marshal is Mike Dunnuck.

Mentone adds second officer

Mentone now has a two-man police force with the hiring Monday night of Mike Dunnuck as deputy marshal.

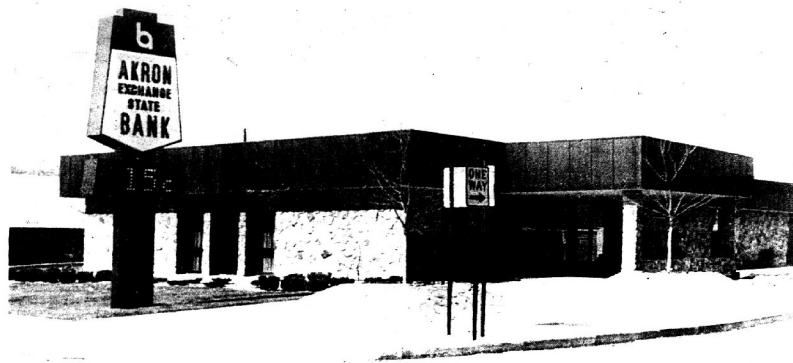

Dunnuck, son of Mr. and Mrs. Devon Dunnuck and a 1974 graduate of Mentone High School, was hired through the CETA program to assist Mentone Marshal Ken Richardson. He and his wife, the former Mary Smith of Akron, reside at Crystal Lake.

Richardson, who joined the force February 1 after the resignation of Gene Norton, is a native of Carroll Co. He graduated from Delphi High School and attended Pasadena City College for three years, earning

a degree in nursing. He also attended UCLA and lived in Mexico for two years where he worked as a medical student.

Richardson's police experience includes two years with the Carroll Co. reserves, six months with the San Diego reserves and three months with the Kosciusko Co. reserves. An active volunteer for the American Red Cross for nine years, he teaches first aid and CPR as well as self defense and will be available to speak to clubs and church groups on drug abuse.

Richardson and his wife, Margaret, and their four children have lived in the Mentone area for two years. They plan to build a house north of town in the near future.

AKRON EXCHANGE STATE BANK will have grand opening beginning Friday.

Dear Mr. Romine:

I am delighted to learn that the town of Mentone, Indiana, is planning to establish a museum honoring their native son, Lawrence D. Bell. Mr. Bell's many contributions to aviation are most worthy of recognition. ODDS and ENDS

By Ann Sheetz

Where two or three are gathered, someone names a committee.

A committee to see if more people can be interested, to serve refreshments, to see why others didn't attend, to determine how much the dues should be.

I'm of the school that believes the camel is a horse designed by a committee and that if God had intended me to serve on a committee He would have made me triplets. This should give you some idea of how I react when named to a committee or explain why, when told to head up a workshop next month, I did it all myself. The only other person I asked to help didn't respond. It was simpler to just dash off some letters or pick up the telephone and do it myself.

But when I went to a meeting Saturday, a number of people, including the president, said, "What are we going to do at the workshop? I can't seem to find anyone who knows."

And there I was--the person who would back the open meeting bill through both houses of the Legislature, the one who hates official secretiveness, who loathes executive sessions--guilty of not sharing the plans except with the members who agreed to serve on panels. Not really secret, but certainly not for everyone to know. I better understood the expression "a two-horned dilemma." If I'd formed a committee, we'd still be meeting. By working alone, the plans are done but no one will know the details until the next bulletin is mailed.

Still, group projects aren't all bad.

I'm currently working with several other people to give our minister input for his Lenten sermons. A committee? Yes, really. But it's the most worthwhile one I've ever served on, although it sounds selfish to admit it. But it's the truth. With nothing to contribute but my ig-

norance, I can only stand to gain by participating.

But what I've gained so far has been the importance of not doing things alone. To paraphrase Ecclesiastes, two are better than one. If they fall, one will lift up the other but if he is alone, who will be there to pick him up? A camel?

TVHS students receive honors

Three Tippecanoe Valley High School students participated in the Feb. 26 state piano and vocal contest at Arsenal Tech High School in Indianapolis, returning with distinction.

Vernon Goodman received

The thought is terrifying. Even more frightening is the realization that I stand alone on the workshop. There will be no one else with whom to share the success--or, even worse, the failure. It's a sobering thought.

Almost as sobering as thinking about our minister having to create a sermon out of hump-backed input.

ed a first on his piano solo, and Ron Kruger and Lori Crippen both received second place awards for their vocal solos.

LETTERS FROM READERS

Dear Editor:

The Laetrile war is raging. The press is carrying much that is said by the opponents. I'd like to respond. Look who is against its use--those who do care for cancer victims but who stand to lose should its use become legal. But Laetrile worked for me after I was given up by American specialists. So I take sides. My family wants its use made legal in Indiana. A bill to do this was passed by the House of Representatives 85-10, but now seems to be stalled in the Senate.

Here is why I'm for this bill. Six years ago I lost 75 pounds. Exploratory surgery revealed extensive cancer from chest cavity into the pelvic area. Outside of removing a kidney it was termed inoperable. I then went the whole route of American therapy--maximum cobalt and chemotherapy. It didn't work. Then illegal non-toxic Laetrile did. But I had to go to a foreign country to be put onto that program. That was most inconvenient.

I'm not just imagining things, for the same Indiana hospital monitored both the failure of conventional therapy and my recovery using Laetrile. Monitoring was done both by X-ray pictures of my dyed lymph nodes and by touch.

Soon after the completion of conventional therapy at the hands of a very skilled radiologist he wrote into my record that it seemed my cancer was completely resistant and that my life span would be relatively short. That was in 1971. Six months later using the Laetrile program I had recovered. No cancer since. The Indiana therapist says my recovery is a miracle. We agree. God worked through Laetrile after not working otherwise.

So, since Laetrile can not harm the body, since the bill in the legislature provides for its use only under the direction of licensed physicians, since going to a foreign country is impractical, and since not one of the many I know who have gone onto Laetrile regret it we urge you to let your State Senator know you would like to see House Bill 1405 passed, and that you would appreciate all the help he could give. For Fulton County contact Hon. Robert Peterson, State Senate, Indianapolis IN 46204. Governor Bowen assured me by letter he would not veto this bill. We need your help getting it passed by the Senate. -Hugh Wildermuth, Akron

60 YEARS AGO

Courtie Weller is moving to Geo. Bolley's farm that he recently got of Mr. Bechtold.

Mr. and Mrs. A. C. Churchill having moved to the old Joe Hoover farm west of town, Mrs. Daisy Goltry is the present owner, so far as we know, it being a part of the late Harrison Graham estate and the title is in court. Abner will now get his mail on route No. 4, from this city. He says that now since moving to that farm that each one of the four rural carriers from Akron has one time been his mail carrier, having lived at some time for a while on each one of the four routes.

Justice S. S. Miller and wife moved into their own property in the north part of town this week, a property that he purchased of Moses Landis. Here, the Squire says, they will eat and worship without fear or favor.

The grade teachers of the Akron schools gathered at the home of Superintendent H. G. Knight and wife Thursday evening of last week as a surprise on him. They brought with them the necessary articles for a taffy pull and a great time was certainly enjoyed. Prof. Knight certainly appreciates the evidences of good fellowship in this event.

John Thompson and family have moved to the old L. R. Dukes farm south of Gilead, which is now owned by Clyde Marine, for whom John will farm this year on a salary. John is a hard earnest worker. He is not afraid of the heavy end, always ready to take hold and we feel that he and his little family will do well.

39 YEARS AGO

Lester Eber was appointed deputy postmaster last week, to replace Wayne Hoffman, who has a new job with the Unemployment Compensation department at Indianapolis.

Dolores Haldeman, daughter of Mr. and Mrs. Lloyd Haldeman, and a senior at Akron High School, has been chosen as one of eight Fulton county high school girls to receive the Good Citizenship Pilgrimage Certificate, awarded annually by the Manitou chapter of the Daughters of the American Revolution. Other Akron girls who have received this honor are: Dorothy Carr, '36; and Florence McBride, '37.

On Sunday Mr. and Mrs. Everett Smith celebrated their fifty-second wedding anniversary at their home south of town. At noon a delicious pot luck dinner was enjoyed by twenty-four guests. Present were Mr. and Mrs. Emmet E. Smith, Mr. and Mrs. Cecil Smith, Mr. and Mrs. C. F. Dale, Mr. and Mrs. Oliver Burns and sons, Mr. and Mrs. Ed Smith and daughter, Richard Coplen, Mr. and Mrs. Wayne Miller, and Mr. and Mrs. Ernest Smith and sons.

Mr. and Mrs. C. A. Nye of So. Bend sold their 20 acre farm west of the Hawn school house last Monday, through the S. N. Shesler real estate agency, to Mrs. U. S. Kroft and her husband, U. S. Kroft. The Krofts will occupy the farm immediately, moving from the old Adam Miller farm north of Akron.

25 YEARS AGO

President Raymond Burkett has announced that the Parent-Teacher association will hold their annual election of officers at the next regular meeting of the group. The meeting will be held in the school building and all members are urged to attend and select the officers for next year. Mrs. Al Mathiesen, Joe Boswell and Mrs. Ben Cook are on the nominating committee.

Friends of Roy Jones surprised him Tuesday on the occasion of his 74th birthday and carried in ice cream and cake for a party on him. Several members of his famous Akron basketball team were present and the score book came in for a lot of looking and comment. Present were Dale Leininger, Whit Gast, Frank Dawson, Forrest Higgins, Estil Bemenderfer, Ralph Shelton and Mr. and Mrs. Claude Billings.

The State Highway Commission, at the request of the local town board, have installed two-hour limit parking signs in the downtown district here. The new signs went up this week and word has been put out that the town ordinance against over parking will be enforced. There is ample parking space in Akron and the two large lots are seldom filled up with cars.

10 YEARS AGO

If you want to get a variety of opinions about a game, ask someone who won the Chamber of Commerce-Faculty game. The score board had a case of bounceitis, and each team staunchly maintains it won. Whichever team really did win did so with a lot of effort, for many long unused muscles were put into action. The Chamber of Commerce team the flashiest in dress, coming on the floor in a variety of grass skirts, dresses, and various amounts of padding and makeup.

**"How can you
still call
electricity
a bargain?"**

Sure electric bills have gone up. One big reason is that almost everyone is using more power. But where is the bargain?

The proof of a bargain is, "What do you get for your money?" Here are some examples.* Six hours of color TV for 4c. Two weeks of dishwashing (12 loads) for 53c. Eight hours of light from a 100-watt bulb for 3c. For the price of a five-pound chuck roast, you can run an average refrigerator for 34 days. You can do five loads of wash for less than the cost of a magazine.

In 1976, Indiana had the 17th lowest average residential electric bills in the U.S. That is, a Hoosier customer paid less for 750 kilowatt-hours (typical monthly use) than consumers in 33 other states.

Think of all the things electricity does for you and how little it costs compared to your total cost of living. That's why we still call electricity a bargain.

*Based on the 1976 average cost of 3.5c per residential kilowatt-hour.

Mentone board accepts resignation

Frank Banghart's resignation as assistant water and street superintendent was accepted at Monday night's town board meeting and will become effective March 21.

The board, in a meeting attended by a number of Mentone residents, also adopted an ordinance to appropriate more federal revenue sharing money and purchased a radar unit for the police car.

Kenneth and Esther Romine appeared to ask the board to write a letter to the area plan commission in relation to an apartment building they plan to erect on Morgan St.

It was noted that Dome's Disposal has had problems with residents not having trash out early enough for pick-

up. The board reminded residents that trash should be placed at the curbs by 7 a.m. Pickup will begin in the east part of town.

A representative of Knapp Construction Co., Rochester, detailed a vacuum system for the town's proposed sewage treatment plant.

A resolution naming Farmers State Bank as depository for town monies was adopted.

68 TVHS students donate blood

Sixty-eight Tippecanoe Valley High School students, 14 teachers and staff members helped assure the collection of 123 pints of blood Tuesday when the Red Cross Bloodmobile visited the school gym. There were 149 persons presenting themselves, 76 for the first time in Kosciusko Co. Forty-six of these gave blood in the name of Mark Sprong, the 17-year-old TVHS junior who recently returned home from his third heart surgery.

Thirty-five TVHS students joined Red Cross personnel and community volunteers in operating the unit, serving as typists, walkers, set-up and dismantling. The Student Council was in charge of scheduling and volunteer assignments. Juna Graham and members of the intensive office laboratory class provided typists.

Eva Eherenman, Red Cross board member, and Dwight Bechtol, a nine-gallon donor and past chapter chairman, were honored and presented pins denoting their service since 1951.

Top donor of the day was Dale Wallace, Mentone, who gave his 40th pint and was presented a five-gallon pin. Two-gallon donors were Fred Mellott, Bourbon, and Larry Mellott, of Etna Green. Assisting in calling donors were Mrs. Garland

Kiefer, Mrs. Jr. Howard, Mrs. Mitchell Tucker, Mrs. Vic Woods, Mrs. Cecil Sayler and Mrs. Donald Smalley.

PIT STOP: Do you think an overhaul would help? Rick Ralston, auto mechanics instructor, joins Wayne Cumberland, physics teacher, in making the determination.

Their assignment: build a mousetrap-p-

What would you do if you were told to build a car powered only by the spring of a mouse-trap?

GREG KINDIG'S record collection is minus two discs but they make good wheels.

physics class solved the problem in a variety of ways, including dropping the course and with such excuses as "the cat got it" or "someone dropped their books on mine."

But four met the challenge, drawing a crowd of interested spectators Wednesday as they tested the vehicles.

It was then that the four different concepts became especially apparent. Equally noticeable was that each could have qualified for a prize of its own if there had been categories for distance, speed, design, etc.

Slowest was Vernon Goodman's fragile chariot with styrofoam wheels as large as a bicycle's. But it went the greatest distance, covering 75 feet and nine inches in 53.5 seconds.

Fastest was Greg Kindig's chariot-styled vehicle that used two 78-rpm records for wheels. It went 32'6" in 14.3 seconds for an average speed of 2.27 feet per second.

Andy Knoop's three-wheeled vehicle involved tires off his sister's doll buggy, a ribbon spool, several pieces of styrofoam, a stick and string. It covered 59'3" in 28.4 seconds to place second in speed at 2.09 feet per second.

No one timed Sherry Snipes's ingenious four-

wheeled license plate that looked like something out of the Stone Age with its styrofoam tires. But it was cute. One idea, four designs. And there could have been others.

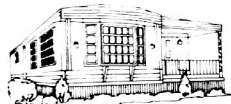

VERNON GOODMAN'S chariot has styrofoam wheels and, while it is slow-moving, it keeps right on rolling.

Said teacher Wayne Cumberland, "It didn't make any difference how the car was built. All that was important was that its only source of

power was a mousetrap. That means they could have backed the car up to a wall and launched it rocket-fashion. All it had to do was move."

Mentone police issued 19 traffic citations this week, 15 of which were for speeding.

Charged with speeding were Larry Fish, Rochester; Darlene M. Lundy, Kokomo; Johnie W. Shepherd, Silver Lake; David L. Martz, Indianapolis; Earl Bays, Claypool; Juan I. Fuentes, Warsaw; Elmon J. Bays, Warsaw; Max L. Grubbs, Leesburg; Gregory L. Leininger, Akron; Isaac Slonaker, Rochester; Mickey R. Abair, Rochester; James E. Lewis, of Leesburg; Woodrow W. Mullins, Warsaw; Donald A. Joe Hopkins, Rochester, was booked at the Kosciusko Co. jail on a public intoxication charge after he crossed the center line several times.

Police investigated one accident. Andrew Knoop, Mentone, was making a turn into the drive at Miller's Hardware when his car was struck on the right side by a car trying to pass on the right. Damages were estimated at \$150 to each car.

The five-year old returning from his first day at school told his mother: "I'm not going back. I can't read and I can't write and they won't let me talk."

Cancer Society Seeks Volunteers

According to Duane Huffer, chairman of the American Cancer Society Crusade, volunteers are needed for this year's drive in April.

"Our volunteers will be visiting their friends, neighbors and business associates with important life-saving information about cancer safeguards and warning signals. At the same time," Huffer said, "They will be asking for support of the American Cancer Society's three-fold program of research, education and service."

He pointed out that some forms of cancer once considered hopeless are now curable, and for the person whose cancer is detected in an early stage, the chances of cure are high.

More volunteers are needed to head up this year's Crusade neighborhood campaign, and persons interested in offering their services may contact the Kosciusko County Unit of the American Cancer Society at 267-6323 in Warsaw.

Volunteers are needed in all the townships also to make this year's educational and fund-raising Crusade the most successful year in ACS history through the door-to-door canvassing. Volunteers are needed throughout the year "Our volunteers drive cancer patients to outpatient treatment centers, teach school children the hazards of cigarettes, and run educational film showings for adults about personal cancer control. These volunteers are homemakers, professional people, young and old. Their ranks include physicians, nurses and educators. Each individual has a reason why he or she volunteers."

Roxana forgot to take snow pictures

ROXANA TELLEZ displays a llama blanket made by mountain people of her native Peru. Miss Tellez, a bilingual secretary, will return home Saturday after spending the past six weeks with the Wayne Reese family.

By Ann Sheetz

While everyone else is glad the big snow of 1977 is now history, Roxana Tellez wishes we would have another blizzard. She didn't get pictures of the last one.

Roxana, a 19-year-old bilingual secretary from Arequipa, Peru, is visiting the Wayne Reese family under the Lions exchange program. She arrived in Akron on January 21, just a few days before the record blizzard blanketed the area. It was the first time, she'd ever seen snow and

Three letters spell Dearl Tucker's life

By Ann Sheetz

Dearl Tucker can't remember much about December 23, 1976. His wife, Olive, remembers he came in the house with a new copy of the Reader's Digest and sat down in his favorite recliner to read. She went to the kitchen to write a letter at the table.

DEARL TUCKER is proof that CPR works. He had no pulse and was not breathing when Mentone EMTs were called to his home December 23. Their prompt action saved his life.

Ordinary events in an ordinary day for the Mentone farm couple.

But then Olive heard something, a sound that drew her to the living room where she found her husband slumped in his chair.

She dialed the Four-Way Emergency Ambulance Service number stuck by the telephone and when Darrell King answered, said, "Come quickly. Dearl's had a heart attack."

King, one of Mentone's 18 certified emergency medical technicians, raced to get the ambulance with Frank Banghart, assistant street

and water department superintendent and then acting marshal, rushing to assist him. King shouted over his shoulder for his wife, Mary Ann, to call other EMTs.

"As soon as I got there, I could see he had what EMTs call the look of a heart victim," King says. Tucker was not breathing. There was no pulse. King grabbed the man by his feet and pulled him out of the chair and onto the floor where he began administering cardio-pulmonary resuscitation (CPR).

Mrs. Tucker called Dr. Wymond Wilson and two oth-

Newcastle building ready

The Newcastle Township Community Building, recently erected on the site of the former Talmach school, is now ready for use.

Members of the building committee at their last meeting approved a list of requirements for the building's use that stipulate no rental fee will be charged to township organizations, clubs or church groups for their regular meetings. Fund raising events by organizations and private parties will be required to pay \$25 rental fee and make a \$10 janitorial deposit, which will be refunded if the building is left in satisfactory condition.

The building is still lacking kitchen facili-

ties but there are tables and chairs to accommodate 200 people.

A flag is available from Rochester mayor Wayne Hittle, but a pole is still needed.

area or indicated on radar. Be prepared to take shelter immediately and keep constant vigil until the warning is lifted.

A tornado watch means conditions are right for severe weather to develop. You can go about your normal business, but keep an eye on the sky and an ear to the radio or TV to receive prompt information.

If the watch changes to a warning, be prepared to act quickly. The weather service suggests all family members know the tornado rules.

At present, northern Indiana does not have a NOAA (National Oceanographic and Atmospheric Administration) weather radio with VHF broadcast capability to give weather warnings, but such

an installation is scheduled for later this year, according to the weather service.

Until that time, residents must depend on radio and TV stations and civil defense sirens as warnings of severe weather.

"SOME GRATITUDE! IT TOOK ME COUNTLESS HOURS TO BUILD UP A COLLECTION LIKE THAT!"

The Light of Sight--March is National Eye Bank Month

Our God-given light of sight may be preserved and restored by a miracle performed through the efforts of the Eye Bank, the first of which was founded in New York in 1946, 44 years after the first successful human corneal transplant, a pioneer project that led the way for other organ transplants.

The Indiana Lions Eye Bank was established in 1958 by the Lions state convention. Its purpose is to supply tissue for transplant, teaching anatomy and techniques to physicians specializing in the field of ophthalmology and research into diseases of the eye.

The clear tissue in

the front part of the eye, called the cornea, and the sclera, the white part, are the only tissues of the eye transplanted at the present time.

All requests for tissue are called in to the headquarters office by the ophthalmic surgeon and the tissue is sent out as soon as that particular tissue becomes available.

New techniques have been developed in the past few years to help save and regain sight. These developments by skilled physicians were possible only through the unselfish generosity of donors and their families.

There are more than 77 eye collection cen-

ters in Indiana actively participating in the Eye Bank program. Each collection center has a chairman and a group of men, called Minute Men, responsible for picking up the kit containing the donor eyes from the surgeon and arranging transportation to headquarters by the quickest possible means.

Collection center chairman and their Minute Men are local representatives of the Lions Eye Bank. They have a supply of brochures and registration cards and are a vital liaison between the centers and headquarters.

Locally, these cards can be obtained in most Akron places of business or from Lions members.

What are memories worth?

Dear Editor:
What is the memory of your grandparents worth to you? Is it worth \$5?

In Fulton Co. there is a group that is trying to preserve the memory of all the old-timers in the county. This group is the Fulton Co. Historical Society.

Last year during the Bicentennial, the FCHS spent \$1300 more than it took in. Obviously, the society and its museums will not survive if this situation continues. The FCHS needs the financial support of a larger percentage of the county's residents.

In 1976 the Society had 400 members; so far in 1977, only 130 people have paid dues. Everyone is urged to join the FCHS and thereby cast a vote for the preservation of county history. A regular membership is \$5 a year and is used in this way: \$3 goes to pay for publishing the Quarterlies, 40-page booklets of local history, and \$2 goes to support the museums. As a member you receive all Quarterlies free, as they are published, and the museums are open free to the general public.

Businesses are also urged to join as sponsoring members. A sponsoring membership is \$10 annually and is tax-deductible. An individual may also join as a sponsoring member.

As rent on the Civic

Center museum, utilities for the Depot and Log Cabin museums and general operating expenses totaled \$4,400 last year, the Historical Society needs more members to make ends meet.

You can join the society by sending \$5 for a regular membership or \$10 for a sponsoring membership or \$50 for a life membership to Fulton Co. Historical Society, Civic Center, 7th and Pontiac, Rochester, IN 46975. All donations and sponsoring memberships are tax deductible as the Historical Society is a non-profit, educational corporation.

Your support is a contribution to the heritage of your county.

Sincerely,
Shirley Willard

er EMTs, Darrell Miller and Kenny Bush, arrived. The three EMTs took turns administering CPR, and Dr. Wilson joined them in the ambulance as they rushed Tucker to Kosciusko Community Hospital with Banghart following in Wilson's car.

Still no pulse. No breathing. The men continued CPR life support techniques until they reached the hospital's emergency room where Tucker's heart was converted to normal rhythm and he was admitted to the intensive care unit.

Two days later, on Christmas afternoon, as his wife prepared to leave after the few minutes she had been allowed with him, she whispered, "Well, I'm going now. Will that be all right?"

"I reckon so," Tucker drawled. Three words. The first he had spoken since he sat down to read his magazine.

"It was the best Christmas we ever had," Olive Tucker says. "Unusual but good."

After that, Tucker made a rapid recovery, although he was in the ICU three different times. He came home on February 7, slightly less than seven weeks after he entered the hospital, his case diagnosed by Dr. Wilson as myocardial infarction and ventricular fibrillation: cardiac arrest.

"CPR saved his life," Dr. Wilson says. "The EMTs did what they were trained to do and they did it well."

Olive Tucker says, "How do you thank the men who've saved your husband's life?"

The question could be, "What would have happened if the town had had no trained EMTs?" Until a year ago, only a handful of persons in the area qualified to administer CPR. Now there are 18 more. On call.

Without CPR, Dearl Tucker would have become another statistic instead of a happy man venturing out for walks and rides. If CPR had not been started within four minutes of the cardiac arrest, there would have been brain damage. If it had not been started within six minutes, he would have died.

It's as cruelly simple as that. Three letters --CPR--spell Dearl Tucker's life.

60 YEARS AGO

A pretty wedding took place at the pleasant farm home of Mr. and Mrs. Jacob W. Smith Sunday, March 4, at one o'clock, Rev. C. W. Spangler officiating, when their daughter Ruth was joined in holy bonds of matrimony with Mr. Lloyd Hileman. The only guests present were the immediate families of the high contracting parties, and Rev. A. A. Knepper, of Urbana, a former pastor and particular friend in the bride's family. An elegant wedding dinner was served after the ceremony. Both these young people have a long list of friends who join in extending the usual congratulations. The happy young couple have gone to housekeeping on the old Henry Hoffman farm now owned by Joseph Hoffman.

Miss Neva Personett has resigned her place at the Thompson restaurant and with her friend Miss Ethel Arter have gone to Woodlawn hospital to take up special work. These are two clever young ladies and will make good, we are sure.

Mr. and Mrs. William Bowles have moved to their little farm home at old slab town and we trust their health and strength will permit them to enjoy this place for years to come. It is a pretty place to live and convenient to the best town in northern Indiana.

After moving out of his old neighborhood to a farm in the Mt. Zion neighborhood Mr. and Mrs. Jacob H. Butler have found that they need this paper in their home. The sheep will then own their lambs forever.

Harley Rogers was named Chairman of the local Boy Scout committee at a meeting which was held Tuesday night at the City Hall in Rochester. Cloyd Leininger and Charles Irelan represented the Akron council at the meeting. At the same time Claude Billings was appointed alternate chairman; Joe Bidwell was appointed Advance chairman; and London Imhoff finance chairman. Three other committeemen are to be selected.

The Akron local of the Pure Milk Association was represented at the annual meeting in Chicago Tuesday. Those who were present included J. W. Swick, president; Cleotis Smith, secretary; Henry Smith, Jay Emahiser, L. M. Marshall, C.H. Murphy, Hollis Heeter, Garrett Ginn, Mrs. C.G. Smith and Mrs. A. E. Stinson. Eleven members and one guest of the Stringtown Friendship Club spent last Thursday with Mrs. John Funk. The women helped Mrs. Funk quilt, and a delicious community dinner was served at noon.

25 YEARS AGO

Mr. and Mrs. Byron Leininger are the parents of a son, born Monday night at Woodlawn Hospital. He has been named Gregory Vincent.

The Roy E. Meredith and William Biddinger dairy herds topped the February list of those members of the Kosciusko county Dairy Herd Improvement Association who have their cows on a testing program. They are milking 14 cows at present and averaged 118 pounds of milk a day. There are 44 members of the group.

The Akron Home Economics Club met in the Library basement. The meeting was opened with the pledge of allegiance and the club creed. Roll call was answered by giving new ways to serve potatoes. The project lesson was given by Mrs. Lester Wood who spoke on the care of clothing. Refreshments were served to 28 members and three children by the hostesses, Mable Hoffman, Esther Fenstermaker and Matilda Doub.

Mr. and Mrs. Willis Pfeiffer, who recently moved into their new home northeast of Akron, were pleasantly surprised Sunday when relatives arrived with a carry-in dinner followed by a miscellaneous shower of gifts for their new home.

The Chamber of Commerce will again sponsor an Easter egg hunt. This year's hunt will be held at the Akron park. Members of the Las Donas Club will dye the eggs which will be hidden by Chamber of Commerce members. Over two hundred children participated in last year's egg hunt, and a like number is expected this year.

Miss Sheila McCloughan, bride-elect of David Busenburg, was honored at a bridal shower given by Betty Jo Houser and Mrs. Vernon Mathias in the Akron Library basement.

North Miami sets kindergarten get acquainted sessions

Dates for preschool roundup at North Miami Elementary School have been set for March 30-31, according to Homer D. Allen, principal.

Allen said a procedure new to the corporation will be followed. Parents of new kindergarten students will accompany

students to school at a prearranged time. Each new student will be paired with a present kindergarten student for approximately one hour. This will help students become acquainted with the teacher and kindergarten procedures, Allen said, and it will free parents to meet together for orientation and enrollment. Parents may then pick up students and return home with them.

The four enrollment times are:

March 30 - 9:30 Parents with last names beginning with letters A-D.

March 30 - 1:30 - E-K
March 31 - 9:30 - L-R
March 31 - 1:30 - S-Z

Requirements for enrollment in the fall include:

1. A child must be five years old on or before

Sept. 1, 1977.

2. A birth certificate or proof of birth must accompany parent.

3. A completed record of immunization must accompany parent and child. In case immunization is not completed now it must be before Sept. 1.

4. Immunization requirements consist of shots for tetanus, whooping cough, diphtheria, measles and Rubella and immunization for polio. A test for tuberculosis is also a state requirement.

Allen advises that it would be helpful for pre-enrollment if parents of students would call or write to the school to give an indication of how many students will be attending March 30 and 31. This should be done prior to March 30. The telephone number is 985-2251.

Home can become cornerstone for family's financial planning

In the past ten years, the average value of a home has increased over 100 percent. By adding the build-up of equity interest and yearly tax savings, it's easy to see why financial experts and homeowners agree that buying a home is one of the soundest investments a person can make.

"Many homeowners have also discovered ways to use their home investments effectively as a cornerstone in their financial planning," reports Larry Nellans, a Warsaw, Syracuse and Plymouth realtor. "The key to these approaches seems to be a more sophisticated attitude towards the home's value."

While it is common for many people to look forward to a day when the mortgage can be paid off, others deal with their home investment as a tangible asset that can be tapped for additional capital, which, in turn, can generate more income or be used to enhance the family's lifestyle.

Currently many home purchases require 20 percent down. The homeowner who wants to maximize his or her investment potential tends to

keep the equity interest at about this level, Nellans reports.

A home owner's equity interest increases through monthly mortgage payments, as well as through the home's growing value on the resale market. It is possible to take advantage of a home's added value over the years by refinancing, or by selling the home at a profit. Some homeowners use this additional capital to buy income producing property, while others use it to upgrade their lifestyle with a new house.

To show how home ownership can aid in financial planning, Nellans offered three examples:

The Jones family purchased a \$20,000 home in 1966.

Then, in 1976, when the home had increased in value to \$43,000, they refinanced it, returning their equity interest to 20%. They used the cash difference for a downpayment on an income-producing rental apartment building.

Engagement Announced

Mr. and Mrs. Ralph Curtis Jr., R. 2, Rochester, announce the engagement of their daughter, Vicki, to Richard A. Harrold, son of Mr. and Mrs. Dorris Harrold, R. 2, Akron.

Miss Curtis is a 1973 graduate of Akron High School and attended Purdue University at Fort Wayne. She is currently employed by Farmers State Bank, Mentone.

Her fiancé is a 1965 graduate of Akron High School and a 1970 graduate of Manchester College. He is an industrial engineer for Sonoco Products in Akron. The couple plans a May 21 wedding.

AKRON/MENTONE NEWS
March 17, 1977

The second family, the Smiths, relocates in new communities every three or four years. Each time they move, they use their profits from the sale of the former home as a 20 percent down payment on a house with a greater market value. Their second home was purchased in 1969 for \$40,000. On their third move in 1973, they purchased a \$68,000 home. Last year they moved for the fourth time, buying a home for just under \$100,000.

The Jackson family, taking a more conservative view, decided to simply let their home's growing value add to their net worth. They, too, bought a \$20,000 home in 1966 and by 1976 noted that it was worth about \$43,000. Monthly mortgage payments and appreciation had increased their equity interest to over 75 percent and deductions for interest payments saved them money on each year's income tax bill.

"Home ownership is a winning investment for the vast majority of people," notes Nellans. "Even the conservative approach of the Jackson family reflects sound

financial planning. Their goal is to own the house free and clear and that's certainly one part of the 'American dream.' The other two families, though, effectively used their initial home investments to create additional income, assets and enhanced lifestyles. These, too, are common aspirations for many Americans."

Akron Library News

PEPPER! by Pepper Rodgers and Al Thomy. Here is the delightful and uninhibited autobiography of a most unusual man—Pepper Rodgers, the colorful college football coach who's become a genuine legend in his own time.

I WISH I COULD GIVE MY SON A WILD RACCOON edited by Eliot Wiggon-ton. Here are the stories of a Cajun trapper from Louisiana, an Eskimo teacher from Alaska, a banjo maker from North Carolina, a fireman from Illinois, and those of over thirty-five others. Their lives reflect the diversity of the American experience, yet at the same time illustrate the common values and beliefs these men and women feel succeeding generations should preserve.

WOMEN OF COURAGE by Margaret Truman. The author uses the lives of twelve American women, some famous and some little known, to explore that most admired of virtues, courage—its

forms, its roots, its limits.

WEATHER WISDOM by Albert Lee. The folklore of weather in America is vast, handed down from the early settlers, the farmers, the sailors, the Indians, the pioneers—and Weather Wisdom explains how this folk wisdom developed and what the facts are behind it.

WHEN HEARTS GROW QUIET by Cleda Zunkel. This is a book of poetry that is an inspiration to anyone who will read it. Mrs. Zunkel is the wife of the former pastor of the Akron Church of the Brethren.

JACK by Frank Walker. This is a splendid dog story. Jack's adventures will steal the heart of every animal lover in the land. His passion and sense of duty are qualities enviable in the human heart, and his story, for young and old alike, is sweet and clean as the Yorkshire air.

CEREMONY OF THE INNOCENT by Taylor Caldwell. The author has written a broad-backed, shattering epic of a woman and a nation—both betrayed by their own misplaced trusts and by a dangerous innocence that had once been their greatest strength.

Ice Cream Parlor Cakes

Are you letting the kids "do their own thing" in the kitchen? Ice Cream Parlor Cakes make a perfect subject for their research. One recipe will serve all their friends and still leave a sampling for mom and dad.

Luckily for those on KP, the "cake pans" are consumed. The batter is made by the quick-mix method using canned milkshake instead of milk. Once baked there are all sorts of ways to decorate. You can frost, add a scoop of ice cream or try both ideas together.

For mom's sake, nutrition is also built in. Enriched flour contains essential proportions of the B-vitamins — niacin, thiamine and riboflavin — as well as the mineral, iron.

Ice Cream Parlor Cakes (26 to 30 servings)

2 cups enriched flour*	1 can (9 1/4 oz.) vanilla or strawberry-flavored milkshake
1 tablespoon baking powder	1 teaspoon vanilla extract
1 teaspoon salt	2 eggs
1 cup sugar	26 to 30 ice cream cones
1/3 cup shortening	

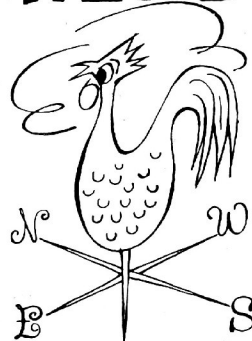

In mixing bowl stir together flour, baking powder, salt and sugar. Blend in shortening and medium speed or 300 strokes by hand. Blend in remaining milkshake, vanilla and eggs. Beat at medium speed 2 minutes or 300 strokes by hand. Place ice cream cones on ungreased baking sheet. Fill each ice cream cone half full of batter. Bake in preheated 350° F. oven 25 to 30 minutes, or until done. Frost as desired.

*Spoon flour into dry measuring cup; level. Or follow directions on bag.

Fashion Fantasies registration due

Future Fashion Fantasies is the theme of this year's fashion clinic sponsored by Area VIII of Indiana Co-operative Extension Service. Fulton Co. will host the clinic Tuesday, March 29, at the community building, 4-H fairgrounds. Highlights of the program will include sewing with synthetics, wardrobe coordinating, accessorizing with scarves, space age textiles, fashion show, exhibits from local merchants and door prizes.

Registration will begin at 8:30 with the program from 9:30 a.m. to 3 p.m.

Lunch will be available at the fairgrounds for \$2.25 by advanced reservations only or persons attending may

eat at a local restaurant or take sack lunches. A twenty-five cent donation will be collected at the door.

Federated Clubs to convene, will hear "the Kentucky Woman"

Members of the Mentone Reading Club will join other members of the Kosciusko Co. Federated Clubs at the 59th annual convention March 23 in the Leesburg United Methodist Church.

The meeting will begin at 4 p.m. with Mrs. Lloyd Jefferies, Rochester, 13th District president, addressing

the group prior to the dinner.

Memorial service for those members who have passed away in the past year will be conducted after dinner.

The program will feature "The Kentucky Woman," who is Nancy Eversole, born and raised on the tales and music of the Kentucky mountains. Accompanied by her mountain dulcimer, she sings and plays music learned from her father as it was passed from one generation to another and that she learned as she traveled through the Appalachian region collecting songs in the true folk tradition.

Reservations should be sent to Mrs. John Naab, R. 4, North Shore Drive, Warsaw, by March 19.

Jack Parks' new kidney removed

For almost four years, Jack Parks has undergone dialysis at his home near Talma, dreaming of the day he'd be called to Indianapolis for a kidney transplant.

The call came at 10:15 p.m. March 4. Parks and his wife hurried to Indianapolis where everything was Go, according to tests that indicated his body would accept a kidney from a 20-year-old man. And his condition was excellent at the end of the six-hour surgery. Needless to say, his spirits were sky high.

However, the dream wasn't to come true and his body rejected the kidney. Infection set in and dialysis resumed. And on Tuesday, the dream faded for now when doctors were forced to remove the kidney. They don't rule out the possibility of another transplant sometime in the future, but there are as yet no indications when such an operation might take place.

Parks is now recuperating from the second surgery and would welcome cards and letters. He may be addressed in care of the Veterans Administration Hospital, 1481 West 10th Street, Indianapolis, IN 46202.

The good feeling of brotherhood you get from the church service is quite lasting—if some stupid blockhead doesn't get in your way when you're pulling your car out of the church parking lot.

What's Cooking?

Q. What is the standard length of time that powdered spices can be stored?

A. Powdered spices lose their potency quickly. The average shelf-life is about one year. Be sure to date your spice jars as to when you purchased them and store in tightly covered, nonabsorbent containers and in a dark and cool area.

Q. My frozen applesauce tends to be runny after thawing. What's wrong with it?

A. Chances are, it was runny to start with or it has gotten more runny during freezing. During freezing, the cells rup-

ture because of the slower rate at which freezing takes place. This produces a runny product. The problem

can be easily solved by stirring the applesauce just prior to serving. This should restore it to its normal appearance.

Q. I have hard water and every time I cook rice in it, the rice comes out discolored. Is there a solution to keeping rice white?

A. To retain the whiteness of rice when cooking in hard water, add 1 tsp lemon juice or 1 T. vinegar to the cooking water.

Utility bills reflect

The severest winter in over 200 years may be winding down but the memory lingers on in higher than normal utility bills.

"Electric bills being received now include any differences between those bills estimated last month and the actual energy used during this harsh winter period," Jim Wilber, Public Service Indiana's Rochester manager said.

He explained that the electric company was forced to estimate many electric meters in the area because of bitterly cold temperatures and drifting snow, which made some roads impassable.

The electric company's estimated bills were based on daily temperatures, previous energy use patterns, and the number of days since the meter was last read.

Long lost ring found

Back in 1962 or 1963--she can't remember for sure when it was--Jean Swick lost her 1961 Beaver Dam High School class ring while she was in Warsaw. Jean, the daughter of Mr. and Mrs. Orville Swick, searched everywhere but the ring remained elusive.

Until this week, that is. Then, Leo Florey, an employee of Miller and Sons of Silver Lake, began some backhoe work on sewers in Warsaw and found the ring, undamaged.

The ring was traced by the girl's initials and the school name and year and returned to Jean, now Mrs. Keith Moore of Swayzee.

There must be something to reincarnation, judging from the way some people come back to life at quitting time.

Church to celebrate 135th anniversary

The Niconza Baptist Church, R.1, Roann, one of the oldest churches in the area, will observe its 135th anniversary Sunday, March 20. The church, located two and one-half miles south of Disko on the county line road, gets its name from the old Indian trading post that occupied the site of the present building.

The church, which began on March 20, 1842 in Benjamin Musselman's sawmill, had nine charter members. Its first pastor was the Rev. David Lewis.

To mark the anniversary, the belfry will be re-opened, and the church bell, which has been silent for many years, will be rung. Dr. Merle R. Hull, Executive Editor of Publications of the General Association of Regular Baptist Churches of Schaumburg, Illinois, will be guest speaker at the 10:30 a.m. and 7:30 p.m. services. Dr. Hull is an editor, author, Sunday school authority and former pastor. Special music will be presented at both services.

The present pastor, the Rev. George A. McCauley, recently assumed the Niconza pastorate, coming here from Milwaukee, Wisconsin, after serving more than 11 years there.

Merry Mollys meet at Simpsons

Sandra Simpson was hostess for the March meeting of the Merry Mollys Home Ec Club.

After members joined in repeating the club creed and singing the song of the month, Dorothy Foltz read meditation entitled "A Miracle Called Spring." Helen Meyer gave health and safety remarks and the garden remarks were by Oretta Stiffler. Pat

Gross and Fay Whetstone gave citizenship and cultural arts lessons.

A lesson on nutrition by Mrs. Foltz concerned information about polyunsaturated and saturated fats. Linda Cochran gave a lesson about energy that made members aware of fuel shortages everywhere.

St. Patrick's Day refreshments were served by the hostess and co-hostess, Mrs. Meyer.

IN MEMORY

In loving memory of Joe Hartzler who left us 7 years ago March 18, 1970.

The sun and moon are shining on a lone silent grave. Beneath is one we dearly loved, but could not save. We tend your grave with loving care because part of our hearts are buried there. Friends may think we have forgotten when at times they see us smile. Little do they know the heartache that our smiles hide all the while. Often we think of you in silence, no eyes can see us weep. But many silent tears are shed while others are asleep.

FIRST of all I want to thank the Lion's Club for the banner I have received, and for finding the home. I want to thank also the Akron Exchange State Bank for sponsoring my trip to Chicago and also to Lion Wildermuth for his hospitality.

Roxana forgot to take pictures

Cont. from page 1
she was so fascinated she forgot to take pictures.

Roxana will return to Peru Saturday, taking with her memories of the big snow and of a country she has grown to love, even if she can't always understand the expressions she hears. "The English we learned in school and the English you talk is different," she says. As examples, she cites, "Oh, for Lord's sake," "Oh my goodness," "Mercy!" "But it's the same with us," she confides. "We use expressions in Spanish that aren't taught in school."

School for Roxana ended two months before she came to the States and included extensive studies in English and Spanish to prepare her for a career as a bilingual secretary for Majes Project, an Arequipa company that makes irrigation pipe. The two months after school were spent in an apprentice program with the company.

Waiting with her job in Peru are her parents--her father is a banker--and two sisters, Anna Maria, 24, and Maria Patricia, 13. "My parents like the name 'Maria'," she laughs. "My full name is Maria Roxana."

Another Maria, Roxana's best friend, Maria Martinez, is now staying with a family near New Paris, and the two recently got together for a day of shopping. Maria Martinez has visited three families while Roxana has spent all her time with the Reeses and their foster daughters Barbara and Theresa Wallace. "This way's better," she says.

Other than work, what

are Roxana's goals for the future? "Saving my money so I can come back here," she says without hesitation.

Beware of politicians who claim they will build you a "pie in the sky." Remember whose dough they will be using.

Newcastle building

Cont. from page 1

Reservations for the building's use may be made by calling Wendell Grass, 223-3036.

Members of the committee are Joe Crill, chairman; Virgil Biddinger, vice chairman; Harriet Jameson, secretary; Linda Erp, treasurer; Grass, David Burkett, Don Craig, Bob Daake, Carl Davis, Delbert Nutt and Scott Stinson.

In addition to the flag and kitchen equipment,

there are other needs to be met, and the committee is still soliciting donations or fund raising events. Persons interested in the April 1 and 2 Wilts benefit days should contact Mrs. Erp. Other suggestions will be welcomed.

79 enroll for adult ed

Seventy-nine residents of the Tippecanoe Valley School Corporation are taking adult education classes this semester, according to a report given at Monday night's school board meeting by superintendent Dr. Lloyd Harrell. He said 49 of these are youngsters registered in baton twirling. Eleven adults are enrolled in cake decorating, ten in small engine and auto tune-up and nine in woodworking and refinishing. Contracts for four adult ed teachers were signed.

Harrell reported the corporation is seeking dance or ballet teachers and trying to determine if there is enough interest to offer such a course. He said plans are underway for a women's exercise class with beginning and advanced tennis to be offered later.

Harrell asked for and received permission to publish an annual district-wide newspaper that he said would be mailed around August 1 to corporation resi-

dents. It would contain calendar, sports schedules, staff listings and possibly a page for each of the elementary buildings, he said, in addition to a review of the past year, explanation or review of new or different policies or programs. He estimated it would cost \$900.

A vocational agriculture council was named with one member from each of the corporation's five townships and two people representing agri-business. Members and the year their term expires are Dr. O. L. McFadden, 1977; Max Weller, 1979; Sid DeVries, 1978; Ross Burdge, 1979; Jim Meredith, 1977; Darrell King, 1978, and Randall Leininger, 1977.

Reports on the holding corporation construction and bond interest sinking fund were given by business manager Robert Forbes, and Harrell read letters from the State Highway Department acknowledging the corporation's expression of concern about the condition of SR 19.

Harrell reported the Northern Indiana Youth Conference, which had previously been given permission to rent the gym for \$250, had declined.

Board approval was given to a cash transfer student, Tammy Howes, whose parents will pay tuition to send her to Valley instead of to the Manchester school system. She lives on a Valley bus line, it was noted.

Forbes reported he and Harrell had checked repairs needed at all corporations schools and prepared a list of priorities that was given

County-wide ambulance service detailed at Akron town board meeting

A county-wide ambulance service with a vehicle based in Akron will become a reality this summer in Fulton Co., according to Robert Kelsey and Robert Kuyoth.

Kelsey, Woodlawn Hos-

pital administrator, and Kuyoth, instructor for the Fulton Co. EMT program, told members of the Akron town board at a recent meeting that a non-profit organization known as "The Fulton Co. Emergency Medical Board, Inc." will be set up to administer the plan. The service will be controlled from headquarters at the hospital in Rochester. The Akron ambulance will be manned by volunteers who have

taken the EMT training course. "The program should be underway in July or August," they said.

In other board action, Marshal Ed Hauser was requested to survey the downtown area to determine how many parking limit signs will be needed to enforce parking limit ordinances, and other problems facing the town, such as water leaks and sewer problems were discussed.

Mentone EMTs will have green lights

Plans for Mentone EMTs (emergency medical technicians) to use green flashing lights on their cars were announced at Monday night's joint business meeting-training session that was attended by 14 members. Other drivers seeing the green lights, which will be put into operation in the near future, will

need to give them the right of way accorded other emergency vehicles.

Harriet Abbey, the training officer, named Gene Hughes to be in charge of a refresher course on ambulance equipment.

Persons interested in taking EMT classes are

urged to contact one of the present EMTs. A new class will begin on March 30.

Akron Auto Parts sets grand opening

Bob Baker and Ray Moody, owners of Akron Auto Parts, have set March 25 and 26 for the grand opening of their

firm, which is located at the south edge of Akron in the former Gil's Auto Parts building. Baker, who has lived

in Huntington the past ten years, has been a mechanic all his life

Mentone dogs present problems

Spring is the time of year that law enforcement officers are faced with complaints about stray dogs, and Mentone marshal Ken Richardson is no exception. He received six calls in one morning this week, but he is stymied in his attempts to hold the dogs for the humane society.

"We have to hold them over night in most cases because we have to notify the humane officer in advance that we have a dog to be picked up," he said. "But this is hard since people complain about the noise the dogs make in the

holding pen down at the park."

Richardson said last year someone kicked in the holding pen, releasing all the dogs that had been confined. "This violates the dog ordinance, and anyone caught

breaking the pen will be arrested," he warned. "It's a law that we have a holding pen." "I need some ideas," Richardson said. "If anyone has any suggestions about dog control, I wish they'd let me know."

Valley exercise class offered

A ladies exercise or recreation class will be offered by the adult education department of Tippecanoe Valley High School. The first session of the eight week course, which will meet on either Tuesday or

Wednesday from 7 to 9 p.m. in the school gym, will be Wednesday, April 8. A \$10 registration fee will be collected at the first meeting.

Registration should be called or mailed to TVHS.

BURKET SCHOOL took home all the trophies Friday night in the annual Chamber of Commerce-sponsored fund game between Burket and Mentone fourth and fifth grade boys' and girls' teams. Also taking home honors for Burket were the cheerleaders, including these fourth graders. Other winning teams and cheerleaders are pictured elsewhere in this week's NEWS.

to board members but not read aloud. Board members were invited to make recommendations as to the order in which the work would be done.

Board member Vernon Meredith asked if consideration had been given to putting mats at the ends of the gymnasium to prevent players from sliding into the walls. He was told the matter would be looked into.

Sale of the balance of used buses was approved as follows: Bus 31 to Silver Creek Church of God for \$1,000 and buses 33, 30, 29 and 27 at \$700 each to Stapleton Auto Sales.

Harrell gave an attendance report that showed enrollment in each of the schools varies from week to week and from semester to semester.

Also approved was Valley's membership in Area Library Services Authority (ALSA) Region II and TVSC media director Ed LaMar as a member of the board. Harrell said membership in ALSA will enable participating public and school libraries in St. Joseph, Elkhart, Marshall and Kosciusko counties to borrow books, cassettes or pictures from member

libraries with transportation paid by ALSA. He said membership can be dropped at any time.

The resignation of two teachers, Sherry Schinbecker and Susan Wagoner, was approved and Mike Wise was recommended as a substitute bus driver to be first in line for a regular route in his area.

A pro-rated substitute teacher contract was approved for Rebecca Thomas, who taught for 19 days during Jerry Eaton's illness. Harrell said this was necessary to comply with a law specifying that a substitute teaching more than 15 consecutive days be paid on a pro-rated schedule.

Board president Fred Kindig moved that Norman Metzger, the only teacher still not on the regular salary schedule, be put on it and given back pay. The motion passed 4-1 with Don Snipes casting the no vote. Kindig also moved that teachers held off the schedule several years ago, even those who have left the corporation, be given back pay, and the motion carried 5-0.

No one in the small audience spoke, and the meeting adjourned at 8:40 p.m.

Laetrile

Dear Editor:

May I say more with reference to the Laetrile bill now before our state senate? Last evening the opponents to the legalization of Laetrile had two hours to state their case. Their motto was "Fight Cancer with Science - Not Emotion". But their presentation was more "emotion" than "science". They used case histories like the ones discounted when presented the week before by those for the bill. So much of their position was their own opinion.

We each want relief from the threat and fact of cancer. May our senators do what is really in the best interest of our health. Of course I believe H.B. 1405 should be enacted. If your senator has not committed himself for the bill please consider it your duty to express yourself.

EMS praised

Dear Ann,

Last week you had such a good story on Pearl Tucker that I had to write back.

I should have done this before, but didn't. All the EMS wants to "Thank" Wayne Tombaugh for a job well done.

Last year the EMS was started and came a long ways. Wayne was president and had a hard job ahead of him.

I think the whole community should be very proud and thankful for this service.

We have the service here that other towns don't know what they will do in January, 1978. I feel sorry for them because it takes a lot of time and work to become an EMT.

We started our lessons back in March 1976 and the state test was given in December. I am glad we have this service. One life saved with this is well worth everything that was done.

Again, I want to thank Wayne for a job well done. He not only did his work as president but helped the other officers, too.

To start a project as big as this was and end up with 18 persons that qualify to administer CPR is wonderful. Think about it.

Thanks, Wayne, and all you EMTs. We are proud of you.
Ex-secretary of EMS

CORN BEEF CASSEROLE

Break up 1 can corn beef. Add 1 can cream of chicken soup, 1 1/2 cups milk, 1/2 lb cheese (diced), 1/2 cup chopped onion. Mix with 8 or 10 oz cooked noodles. Put mixture in a buttered casserole dish and bake 45 minutes at 350°F.

Iodine is one of the few nutrients that produces deficiency symptoms in humans as a result of deficiency in the soil. Indiana is included in the "goiter belt" due to our lack of iodine in the soil.

Although the total amount of iodine in the body is very small, it is found in every living cell. Most of the iodine in our bodies is found in the thyroid gland.

When iodine is lacking in the diet, the thyroid gland overacts to compensate for the deficiency and enlarges. This is known as simple goiter.

People meet their needs for iodine through food and water sources. Near the sea coasts the soil and water are richer in iodine. The best natural food sources are seafood and produce grown in iodine rich soil.

We hoosiers need to be conscience of our daily need for iodine since our soil is low in iodine content. In order to decrease the incidence of simple goiter it was decided to fortify foods with iodine. The problem was to find a food that was universal. Table salt was chosen as the most practical medium. By using table salt you will meet your iodine requirement. The use of iodized salt is the best way of assuring an adequate supply of iodine.

ATHENS SCHOOL was demolished after its consolidation with Akron in the 1940s. --Picture courtesy Akron Library.

Mrs. Burns hosts Perry Club

Emma Burns, assisted by Marie Coon, was hostess for the March meeting of the Perry Improvement Club. Members answered roll call by giving fashion hints.

Devotions were given by Pauline Miller, reading from Luke 6:7-8 and out of a book, "A Daily Guide To Miracles," by the Rev. Oral Roberts telling of the happiness one gets by giving, finding it is more blessed to give than to receive.

The group sang "Happy Anniversary" to Alice Teel.

June Merly presented a memorial for a former member, Bernice Pontious.

Carry Waite of the Rochester Nursing Home was chosen to be remembered and visited by club members with Marie Crum as the leading volunteer.

Members were informed that the April 21 meeting will be at the Masonic Hall in Gilead with members of the Peru Hoosiers Everready Club as guests. Helen Byrt and Marjorie Miller will be hostesses.

Alice Teel, culture chairman, requested the club read more books this year and passed out several.

Ruth Bammerlin and Emma Burns reported on a program they attended at Honeywell Memorial, Wabash, and Mrs. Bammerlin gave a short talk on topics that were discussed at the council meeting in Peru.

It was noted that Al-len Township will have the program for the May 10 achievement day and program booklets will be distributed soon.

At the close of the meeting, the 14 members and one guest, Mrs. Herbert Clemans, Akron, opened shamrocks they had been given at the start of the meeting and read quips or quotes printed in them. Evelyn Shafer had one that said, "This is your lucky day," and she won the Lucky Lady prize.

Police also investigated two accidents.

A vehicle driven by Charles L. Hunter, Mentone, was struck from behind by a vehicle driven by Shirley Norton, Rochester, as Hunter was stopped on SR 25 preparing to make a left turn into his lane. Damage to the Hunter vehicle was estimated at \$275 and to the Norton vehicle at \$200. Mrs. Norton was taken to Woodlawn Hospital by the Four-Way emergency ambulance.

Early Sunday, Mentone police were advised by Akron deputy marshal Charles Clawson of an accident on SR 25 and Oak St. A pickup truck driven by Claude Bradley, Claypool, was westbound on SR 25 when it struck a parked van, pushing it up in the yard of William Ettinger. The truck then slid on SR 25 and came to rest in the side of a car owned by Ettinger. Bradley was taken to the Kosciusko Co. jail by an unknown motorist and then taken by a deputy to the hospital. Damage to the Bradley truck was estimated at \$2,000 with damages of \$900 estimated to the Ettinger van and \$75 to the Ettinger car.

LOOK BEFORE YOU TRIM

Before you trim tree branches, check carefully for power lines nearby.

The slightest contact between the line and you, your tools, or ladder can deal a serious shock.

A further caution—trees themselves can actually become electrified in contact with power lines. You can receive a shock near the point of contact without even touching the line. And in wet weather, the entire tree can carry the electrical current. Just touching the trunk can shock you.

Look before you trim. If in doubt, don't. Call our nearest office for assistance.

TVHS sets Finian's Rainbow

Seniors Brian Welch and Kim Coplen will star as Finian McLonergan and his daughter, Sharon, in the Tippecanoe Valley High School production of "Finian's Rainbow." The musical comedy will be presented at 8 p.m. April 22 and 23 in the high school commons.

The story concerns Finian McLonergan, an Irishman with a "get rich quick" dream who brings his daughter, Sharon, to the mythical Rainbow Valley in Mississippi, USA. Finian believes that if he plants a crock of gold near Ft. Knox it will multiply. In pursuit of the McLonergans is Og, a leprechaun played by Ricky Sitts, who comes to Rainbow Valley to recapture the crock of gold Finian "borrowed" from the Irish leprechauns and fairy folk.

Meanwhile, the residents of Rainbow Valley are caught up in a struggle against Senator Billboard Rawkins as played by Jim Bazini who wants to buy up all their land. The McLonergans soon become involved in the loves and lives of the Rainbow Valley residents.

The cast also features Ron Kruger as Woody Mahoney, Mary Dorsey as Susan Mahoney, Andy Knoop as the sheriff, Dane Jervis as Buzz Collins, Ann Kline as Henrietta and Chuck Hurd as the First Sharecropper.

Other cast members include Paula Bruner, Tim Stokes, Tina Sander, Steve Kruger, Gail Bornmann, Deb Blackburn, Diana Peters, Cindy Pratt, Deb Holloway, Bruce Smith, Lori Crippen, Julie Utter and Sue Kay Standiford.

Lynn Hively and Sherri Miller are pianists for the production which will be directed by Dale Pace and Nancy Yeiter.

Tickets may be reserved after April 9 by calling 353-2065 and 893-7221.

Area residents are urged to attend the service and to note the change of time from the traditional afternoon date.

Newcastle open house set April 3

Open house at the Newcastle Township Commu-

ity Building Sunday, April 3, will give area residents an opportunity to view the building that replaced the former Talma school, which was destroyed by tornado on the same date three years ago.

Coffee, punch and cookies will be served from 11:30 until 4:30,

according to Linda Erp, treasurer. She said anyone desiring to furnish cookies should contact her at 223-6256 or call Mrs. Bob Daake, 223-3411.

Persons desiring tickets for Wilt's April 1 and 2 benefit days should also contact Mrs. Erp.

Mentone sets April 16 clean-up day

Saturday, April 16, has been designated as spring clean-up day in Mentone, according to Frank Hardesty, president of the town board.

He said this will be the regular trash pick-up day but the hauling service will pick up items they ordinarily don't accept.

Assessing reminders made

Area trustees and assessors remind residents that the time to have assessing done is now, and it's also time to pay dog tax.

Personal property to be assessed for 1977 includes trucks with a declared gross weight of more than 11,000 pounds, truck bodies, including pickup campers, trailers, fold-down campers, tractors, buses, snowmobiles, boats, boat trailers and motor and all other vehicles sub-

ject to annual registration and not subject to excise tax, business inventory and equipment.

Dog owners must report their animals to the local assessor for payment of dog tags and receive their 1977 dog tag.

Any improvements made on real estate for the period of March 1, 1976 to March 1, 1977 should be reported, as well as any buildings that have been burned or removed.

Personal property must be reported to the assessor by May 15, as required by law.

Hours announced by local townships include:

Harrison

Harrison Twp. trustee Chester Clampitt Jr. will be at the Mentone Fire Station on Saturdays, April 2 and 9, from 9 a.m. until 4 p.m. through the assessing period, which ends May 15.

Persons desiring additional information or appointment should call Clampitt at 858-2318.

Henry

Clair Ellis, Henry Township trustee, will be in his office Monday, Tuesday, Friday and Saturday from 8:30 until noon and from 1 to 5 p.m. and at other times by appointment. Cards will be sent regarding time schedules, which can be changed if necessary.

Franklin

The Franklin Twp. assessor will be in the Mentone Town Hall Saturday, April 2, and Sunday, April 9, from 9 until noon to assist those people who have not yet reported personal property or paid dog tax.

Also, the trustee's office at the Don Smalley residence will be open each Monday evening during April from 6:30 until 9.

Mentone Good Friday service

The Mentone United Methodist Church will have a Tenebrae service at 12:30 p.m. Good Friday (April 8). The candlelight service dramatizes the suffering,

death and burial of Jesus Christ, and this year's service will feature the testimony of the apostles.

Also planned is a children's service in the church basement.

ODDS and ENDS

By Ann Sheetz

One guy was flagellated by a frozen fowl--and that wasn't all that happened in 1976, according to a list of zany but true insurance claims reported by Aetna Life and Casualty.

Read these accounts and take cheer that not everyone is meeting life sitting down, that there are still a few people willing to do battle for their rights, even when it means having to take the consequences.

Consider first the butcher who found himself the victim of "fowl" play when a disgruntled employee assaulted him with a frozen chicken. Responding in kind, the butcher smacked his employee with a pullet, and a major fracas ensued. Within minutes, the air was full of naked, icy bodies.

The not-so-cold war suddenly ended when the employee stumbled over a petrified rooster and broke his leg.

Then there was the modern-day Minuteman whose Bicentennial zeal went a bit too far. While re-enacting the Battle of Bunker Hill, he got carried away and, with his bayonet, rammed a Redcoat in the rump.

A battle of a different sort erupted in New York, when a woman motorist slowed her car to avoid hitting a pack of stray dogs. The mutts returned her kindness by jumping all over the car and scratching up its paint job.

The cool voice of reason did not prevail in Chattanooga recently, where a gas station owner thought a motorist was taking his advertised "Free car wash with fill-up" too literally.

After topping-off his tank with an 87-cent gas purchase, the man drove into the station's automated car wash, only to be confronted for payment when he emerged.

The motorist refused, one word led to another, and the station owner lowered the overhead doors of the car wash, announcing he intended to keep the driver locked up "until I get what is coming to me." He didn't have long to wait.

The irate customer quickly accommodated him by hopping into his car,

revving up the motor and crashing through the closed glass doors to freedom.

A young Milwaukee citizen sporting a face full of hair had his pride singed recently while consuming a local tavern's house specialty. Drinking a concoction called a "Flaming 151," the flame licked his face and ignited his beard.

A quick-witted bartender, taking his cue from the Three Stooges, swiftly brought the flames under control with a heavy spritz from his seltzer gun.

"The moral of the story," wrote the insurance agent in reporting the claim, "is that people with beards shouldn't drink fire-water."

It Happened In Mentone

Taken from the March 29, 1950 issue of the Northern Indiana Co-Op News:

Charles Urschel went to the state music meet at Indianapolis Saturday where he participated in the state contest. Charles played a trombone solo, "Gaiety Polka" and made a rating of excellent.

The Junior Class of Mentone High School is very busy these days in practicing their play which they will give on Friday evening, April 14.

Mr. and Mrs. Linus Borton and granddaughter, Sue Ann, and Mrs. Mae Borton, spent Sunday in Plymouth with Mr. and Mrs. Vearl Rouse. The occasion was in honor of the birthdays of Mrs. Borton, Mrs. Rouse and Sue Ann.

Mrs. Minnie Anderson, Mrs. Earl Meredith and Bernice Anderson took dinner Sunday at the home of Dr. and Mrs. E. D. Anderson, of Mentone.

The "City Slickers," of Talma, take to the hardwood floor on Friday evening, April 7, when they will meet the "Country Jakes," of the same community. This will prove to be a most spectacular event as the "City Slickers" are hard to beat. The following are the players on this famous team: "Sawbuck"

Kramer, "Speed" Shriver, "Dead Eye" Dick, "Curly" Coplen, Douglas Barr, "Tiny" Miller, "Hot Shot" Hatfield, "Slippery" Green, "Captain" Boling, "Trick Shot" Bowers, "Slim" Holloway, and "Stubby" Overmyer. The line-up will be announced at the game over the P. A. system.

Mr. and Mrs. Robert Snadden, of Woodruff, Wisconsin, were Tuesday overnight guests at the home of Dr. and Mrs. Dan Urschel and family.

Mr. Vernon Shipley has purchased the basement barber shop and has taken possession and is there during business hours.

Bananas are not selling by the dozen any more in most markets. There are some large and some small bananas even on the same stock and this difference in size gave some customers the little end of the bargain. By the pound is the fair way. At Rochester they are quoted at 7c per pound.

Mr. and Mrs. Joseph Tracy moved to their little farm southeast of town this week. They have a pretty location, very convenient to town and when they get all the improvements made they have in contemplation they will have a real paradise for their home. They had already made extensive changes upon the interior before moving in and when the exterior gets in swatting the people most familiar with the place will scarcely know it.

If you expect to use the Akron telephone this year, give your name to Akron Central as soon as possible. We expect to make up and close up the forms Thursday evening, April 6, of next week for the new 1917 directories. If your name is not there, it should be.

During the past week there have been several periods of 24 hours each, when Akron has summer skies, rain, thunder, snow, and hail, yet some of our good people spend money going elsewhere in search of climate.

Chester Utter, chairman of the committee on the sight testing machine, has announced that all board members of the Akron Lions club are urged to attend the board meeting Monday night.

The post office of Akron has been sent a cancellation imprint bearing the words "U.S. Treasury Defense Bond Flag City" to be used in cancelling letters and post cards, according to an announcement made here today by the Indiana U.S. Savings Bond Divisions of the Treasury Department. This special cancellation stamp has been issued in recognition of the honor won by the city in the recent campaign to extend the payroll savings plan for purchasing U.S. Defense Bonds to every possible place of employment in the city. It is anticipated that the first day's envelopes bearing the flag city cancellation will be collector's.

10 YEARS AGO

Akron police this week issued warnings in regard to the use of bicycles and BB or air rifles within the city limits of Akron. Bicycles are not to be parked in front of doors of downtown buildings. Also, it was pointed out, the use of air rifles, BB guns, or pellet guns within the city limits is forbidden and anyone found using such a gun will have it confiscated.

OPEN DATING

Do you pay attention to the "dates" on grocery items? Most foods in a grocery store are dated for freshness. Some manufacturers use code dates that are difficult for the shopper to understand, and they may be misinterpreted as throwaway dates.

"Open dating" means any date on a packaged food that can be read by the shopper. It is a calendar indicating freshness. Some foods that have "open dates" are milk, cottage cheese, bread, meats, refrigerated dough, and cake mixes.

All "open dates" do not mean the same thing - several kinds of dates are used. The four most common kinds of open dates are: 1) "Pack date" - tells when the foods was packaged or processed, 2) "Pull date" or "sell by date" - tells the last day a store may offer the food for sale, 3) "Expiration date" - tells the last day a good should be used, and 4) "Use by date" - tells date the food will still be at its peak of freshness. "Open dating" tells the shopper about the freshness of the product. Look for dates on the food you buy. Buy only fresh foods. Then be sure you take them home and store properly.

Proper storage helps keep food fresh.

4-Phase TV protest slated

It is expected that over a quarter of a million persons will turn off their television sets during the week of April 11-18 as part of a four-phase positive protest being sponsored by the Church of God denomination. The Rev. A. A. Ledford, state overseer of the Church of God in Indiana, has announced that Indiana's 99 churches will join in this effort.

"We believe that it

is time to do something more than just complain about current television programming," Reverend Ledford stated. "We intend to take personal action, beginning in our homes, that hopefully will bring about positive change in viewing habits and eventually in the media itself."

According to the announcement from the denomination's Family Life Commission in Cleveland, Tennessee, the week of non-viewing is the initial phase of a four-phase program to be carried out over a period of ten months. The first part of the program will be followed by an emphasis on family television control. In September, a nationwide survey of viewers will be conducted to determine the ten highest rated programs as well as the ten that are rated the lowest. The sponsors of the ten lowest-rated programs will be written and asked to reconsider their sponsorship of these shows. Finally, in January, if no positive response has been received from the sponsors, a product boycott will be organized as a protest against the sponsorship of undesirable programming. Along with the product boycott, a letter-writing campaign to television networks and to local television stations will be promoted.

The Church of God is one of the several denominations that are planning organized campaigns to stop the proliferation of television programs which emphasize violence and sex.

Salaries and fringe benefits take most of school funds, report shows

An average of 81 percent of the total money spent for public education in Indiana goes for salaries and related fringe benefits. This is one of the facts brought out in the 1977 School Statistical Report compiled by the Indiana Farm Bureau.

Copies of the 101-page book have been mailed to all superintendents of the 305 public school systems in the state, according to William A. Hadley, the organization's local affairs advisor and coordinator of the project. The book is printed annually to help local districts evaluate costs, compare them with similar school systems, and analyze local tax situations and trends.

The average Indiana salary of a beginning teacher was \$8,819, as of January 1. The state's highest salary for a beginning teacher with a B.A. degree is \$9,907 for Duneland in Porter county and the lowest is \$8,150 paid by No. Vermillion school in Vermillion county. Average salary at the end of five years experience for teachers with a B.A. degree is \$10,075, with the maximum, with an M.A. degree at \$15,417.

The state's public school enrollment continues to decrease with 12,041 fewer students this year than last year. Schools with organized corporations numbered 286, while 19 schools operate under a township trustee system

rather than with a school board. In Whitley county, all townships are joined together to form a joint high school but each township retains its own kindergarten through eighth grade schools.

Las Donas Club collects for Heart Fund

Las Donas Club members collected \$180.50 for the Heart Fund at their last meeting, according to a report made March 28 at Diane Tilden's home.

Topics of discussion were again sponsoring a cutie contest for the 4th of July celebration, coloring eggs for the Easter hunt, donating to the senior Bible fund, 4th of July money-making projects and the April 30 bake sale at the Lions Club fish fry.

The next meeting will be April 11 at Alona Leininger's home. Members will meet at 6:30 and each is asked to take one dozen cookies for a visit to a nursing home in Rochester.

Nancy Rhoades presented a program on Haiti, and refreshments were served to seven members and a guest.

The grand total appropriation for each resident ADM (a day's membership), for those students for which the school corporation is financially responsible, averages \$1,152 per student for calendar year 1977, up \$105 over 1976. Or, to look at it another way, appropriations average \$6.60 per student per day in session.

Vitamin lesson is scheduled

The Kosciusko County Extension Program will offer lessons to interested homemakers. The first lesson is entitled "Vitamins - Use, Abuse, and their sources." It will be presented at the County Extension Office, April 6 at 1:00 p.m. and repeated at 7:00 p.m. This lesson will focus on the use of vitamins, clarifying vitamin myths, and getting the vitamins we need.

A Patchwork and Quilting lesson will be offered April 7, 14, 21 and May 5, 1:00 p.m., at the Women's Building, fairgrounds. This workshop will concentrate on patchwork and squares, stars and triangles, circles and curves, applique, and assembling and binding. Those attending the first class on April 7 should bring scissors, pins, needles, ruler, and 2 coordinating cotton blends of 1/4 yard each. The cost of the series is \$5.00 and is offered through the Kosciusko County Extension Homemakers.

Properly cared for fruit trees can provide beauty, shade, and fruit. Following good cultural practices and a proper spray program are important aspects of the care needed. Publication BP-3-1 entitled "Disease Control in the Home Fruit Planting" can be secured at the County Extension Office. The publication makes suggestions on materials to use, as well as when and how to use them on different fruit trees. It also describes commercial and home-made multi-purpose sprays which can control both insects and diseases. Preventive measures are usually best and sometimes the only solutions.

Services were Sunday in Rochester with the Rev. Chester Walther officiating. Burial was at the Plainview cemetery, Macy.

GHOST FOX by James Houston. Sarah Wells, seventeen, is stolen from a New Hampshire farm by a raiding party of Abnaki Indians. problems of mental illness.

TO THE OPERA BALL by Sarah Gainham. The annual Vienna Opera Ball is an evening of enchantment and glowing opulence designed to defy the existence of winter outside its doors. And when two young people fall in love amid its splendors, it seems that they too can share in its magic and defy the rigid social conventions and family pressures to keep them apart. A wonderful rich and compelling love story.

DREAMER BEWARE by Ruth Wissmann. This is a novel of romantic suspense.

WALKS FAR WOMAN by Colin Stuart. Walks Far Woman is unforgettable. She's a Blackfoot grandmother who in the summer of 1946 at a very lively ninety years of age tells her extraordinary adventures from 1874 (When she was eighteen) until 1885 (When the Indian way of life she had known had changed forever).

U.S. defenses invite annihilation,

Snider tells Anthony Nigo Chapter

"It's Your Country, Too" was the national defense topic presented by guest speaker Prof. Wayne Snider of Grace College at a recent meeting of Anthony Nigo Chapter, DAR in the American Legion Home.

"America's national defense program has been virtually at a standstill since the 1972 Strategic Arms Limitations Talks (SALT)," he said. The SALT agreement enabled the Soviet Union to thoroughly modernize its armaments program. Its strategic, naval and general-purpose forces have been updated without major countermeasures by the U.S. and without provable violation of the arms-limitations talks, Snider charged. He said a comparison of strategic defense weapons strength shows Russia surpassing the United States by more than 3 to 1 with the USSR having 14,000 strategic weapons as compared to the U.S.'s 415.

Snider said the Soviet navy has steadily grown with the development of new nuclear submarines, outnumbering the U.S. nuclear subs 3 to 1, thus going far beyond a defensive naval force to become a powerful offensive force.

He also reported Russia is spending 50 percent more for defense than the U.S., building strong civil defense provisions, which include 75 command posts underground and additional shelters for civilians. It makes no effort to keep defense preparations secret. Information regarding Soviet military strength has been easily obtained by the American Security Council for the production of "Price of Peace and Freedom," a 28 minute film now available.

Snider said the present SALT II talks controversy concerns whether a new high-performance Soviet bomber, "Backfire," should be considered a strategic bomber, despite the fact it has features of Mach 2 speed at high altitude, supersonic at low altitude, aerial refueling and the flexibility to perform a variety of missions, including attacks against the U.S. mainland. The Soviet Union insists, Snider said, that the Backfire be excluded from SALT limitations.

"A comparison of the trends in Soviet and American defensive forces shows how the U.S. has almost disarmed its defensive forces," Snider said. "The U.S. has continued to cut its defense spending for development programs for strategic weapons, such as the B-1 supersonic bomber. Present defense

expenditures invite disaster and destruction."

Concluding his talk, Snider quoted Alexander Solzhenitsyn from an address at an AFL-CIO meeting in New York, "At one time there was no comparison between the strength of the USSR and yours. Then it became equal to yours. Now, as all recognize, it's becoming superior to yours. Soon it will be 2 to 1, then 3 to 1. Finally it will be 5 to 1. With such nuclear superiority it will be possible to block the use of your weapons and on some unlucky morning they will declare: 'Attention, we are marching our troops to Europe, and if you make a move, we will annihilate you. And this ratio of 3 to 1 or 5 to 1 will have its effect. You will not make a move.'"

Following Snider's talk, refreshments were served by Mrs. William Cox, Mrs. Kenneth Riner and Mrs. James Tibbets to members and guests, Mrs. Mervin Jones and Mrs. Frank Cumberland.

During a short business session, plans were

discussed for the May 18 Northern District meeting in Mentone.

DAR Good Citizens and Agnes Pruyn Chapman chapter, Warsaw, will be guests at the April 26 6:30 p.m. meeting at Teel's Restaurant. Dinner reservations can be made to Mrs. Ernest Igo.
