Food distribution to be held Mar. 19

Surplus American cheese, butter, and other products will be distributed **Thursday, March 19, 1987**, beginning at 10:00 a.m., at various sites in Fulton, Kosciusko, and Marshall counties. Recipients are expected to utilize the distribution site nearest their home.

Recipients are required to show identification, such as a welfare or food stamp card or a driver's license, and bring a container in which to carry the food home. Elderly or handicapped homebound individuals can have someone pick up the products for them by sending a signed authorization and proper identification with the person picking up the food.

Indiana households in the 3-county area qualify, if household income meets guidelines established by the Federal Office of Management and Budget. Household allocation of cheese is based upon family size; all other products are allocated one to a household.

Guidelines for those under

age 60 are: household of one, \$8,040; two, \$10,860; three, \$13,680; four or more, add \$2,820 for each additional person in the household. If the head of the household is age 60 or over, the guidelines are: household of one, \$9,648; two, \$13,032; three, \$16,416; four or more, add \$3,384 for each additional household member.

The distribution site in Henry Township is the Henry Township Trustee Office, 101 East Rochester, Akron.

The distribution sites in Kosciusko County are:

Robert Hoffman's home, Rt. 1, Claypool; Etna Green Fire Department, Etna Green; Silver Lake Fire Department, Silver Lake; King Funeral Home, 101 North Tucker, Mentone; Dail Barber's home, County Road 100 South, Mentone; and Claypool Fire Department, Claypool.

These commodities are donated by the U.S. Department of Agriculture and are not to be sold or exchanged.

Tornado drills set

Tornadoes are a relatively rare and unexpected event. When one occurs, many actions, rarely taken, have to be swiftly and flawlessly executed in order to save lives and reduce injuries.

Many people have to know their job and know it well - Tornado Spotters, who sight the tornado; National Weather Service employees, who operate the radar and issue Warnings; the Indiana State Police Communications Dispatchers, who fan the Warning to County Warning Points; City Police; County Sheriffs; and County Civil Defense personnel who sound sirens, alert schools, hospitals, and pass the Warning on; and the radio and TV announcers who broadcast the Warning.

Indiana is one of the highest ranking states in tornado frequency. The three worst tornado disasters to hit the United States all affected Indiana: the March 1925 Tri-State Tornado, the April 11, 1965 Palm Sunday Outbreak and the April 3, 1974 Super Outbreak.

On March 10th, between 9

and 11 a.m. EST and again between 4 and 6 p.m. EST, the National Weather Service Forecast Office at Indianapolis will initiate a Tornado Warning Exercise message. The test messages will be distributed through the National Warning System Hotline, the Indiana NOAA Weather Wire Service, and the NOAA Weather Radio.

The test messages on Weather Radio and the Weather Wire will be similar to an actual Tornado Warning message. The messages should be read by Radio and TV announcers who are not simulcasting the NOAA Weather Radio or

Emergency Broadcast System (EBS) test warnings.

The morning drill will allow nearly 100% participation by the schools in the state. The afternoon drill will correspond more closely to the time of an actual tornado, allowing agency employees working second shifts, latch key children, business, industry, and the commuting public to participate more realistically in the drill.

Letters to the Editor

OPEN LETTER TO A SMALL COMMUNITY:

...and I use the word **small** in my own terms! O.K.? I've earned the right. Having lived here over twenty years I realize nothing's perfect, including me and mine. We tried. Gave alot.

In the last ten years of my life I've lost everything near and dear to me at least once! Including a good husband, father and brother to death, even my mind twice. Also raised a family in the process. We've had plenty of sickness, hospitals, clinics, emergency rooms, and funerals. After much emotional pain, hurt and grief, worry and exhaustion, I can finally say the light at the end of the tunnel is in view. Most people can't fathom the financial burden involved with a long term illness. We went bankrupt, even before we filed!

I've always given everything I could to help others with problems, my family also is doing all they can to help others. Question: Have you ever once in your life reached out to some one in need? Would You?

We never asked for help. Were you totally blind? Maybe busy with your problems? Whatever. I don't blame or criticize anyone more or less just wonder why?

P.S. I am not **bitter** just **better** for going through it for the most part. And I have a few Christian people to thank which I already have and I hope they are continued to be blessed as they are a blessing to others. Assets to the town, they bloom where ever they go.

Name Withheld

Dear Editor,

We would like to applaud Ms. Ritter, the cheerleaders and all the other people involved in decorating the high school for the sectional. The school looks great! It is a good feeling to see the enthusiasm generated through this type of effort.

Again, congratulations on a job well done!! Go Vikes!

I'll Do It Tomorrow

By: J.D. Moore

After almost arriving at work late due to washing my hair in the morning instead of the night before, my attention is turned to the calendar. March 1-7, National Procrastination Week, it said.

Putting lots of thought behind the meaning of procrastination, I find myself gazing through unwashed windows that evening, something I had been meaning to do but just hadn't gotten around to. No...I surely wasn't guilty of procrastination.

As the hours passed, I decided to visit the grocery. We were out of everything. (Maybe I should have shopped last night before the last minute?)

As I entered the store, I remembered my manufacturer's coupons. They seem like such an ordeal to use. Maybe next week. Yes...next week would be better.

Upon returning home, the groceries were put away.

Then...the never ending ironing! It dawned on me it was never ending because I never finished it! Maybe it's time for a change.

But wait...if there was no procrastination wouldn't it be nice? No long lines at the license branch with people waiting until the last day to purchase plates. The deadlines at newspapers would be a thing of the past, people would bring their news in before the last minute. No more speeding tickets, people wouldn't put off leaving for work until the last minute.

With all honesty, the above account is fictional (except for the windows). However, it has been my experience to find when a person procrastinates, it causes more worry and dread than if the task had been done immediately. Seldom have I found the task as bad as the worry and dread that preceded it.

Now...to those windows.

A big celebration at Akron followed the winning of the sectional tournament at Rochester Saturday night. Approximately 50 cars met the team and took them back to Rochester where they paraded down the main street and past the gym, after which they returned home to be greeted by a large bon fire. The band assembled and the jollyfiers paraded up and down the streets. A delicious chicken supper was prepared and served at the Winona Cafe. Short toasts were given by each of the players. They were: John Ferry, Charles Waite, Stuart Gast, Ralph Davis, Harold Leininger, Ron Fenimore, Wayne Hoffman, James Riley, Robert Striver and Lonzo Meredith.

In order to carry out some wagers made before the playing of the Sectional tournament at Rochester, which required walking to the Regional tourney at Mishawaka. Byron Spittler, Adam Stout and Deloise Keesey left Akron about ten o'clock yesterday. A schedule has been worked out which they are attempting to follow. Their intentions were to be in Mentone shortly after noon and at Bourbon Thursday night but as they are partly facing a strong and cold wind it is doubtful if they will keep on schedule. Spittler made a wager with F.R. Fenimore that if Akron won the sectional he would walk to the Regional tourney at Mishawaka, providing that Fenimore would buy him a new pair of shoes. Monday Spittler got his shoes and began getting the "new" wore off before time for the start. Keesey has a wager with his father, Elmer Keesey. Adam said he would follow along as umpire. The cross country hikers reached Bourbon Thursday night. If Akron wins at Mishawaka which we sincerely hope they do, John Starke is going to buy grease for his paint cart, load Wayne Morris in it, and start for Indianapolis. John hasn't announced his schedule as yet, Morris will wheel Starke back should the boys win at the State, otherwise the cart will be shipped back.

Shade trees for Akron

Due to the inspiration and fine cooperation of each of you, there will be well over 110 shade trees planted in our community this spring.

Although there was a deadline for ordering, there will be extra trees for those who still need them. The Akron Lion Club intends to contact many property owners who have bare lawns that did not get an order in.

March

March is a month of conflicts. The calendar may say that spring officially begins on the 20th, but the weatherman still thinks it's winter. One day the sun shines and the next day the snow is three inches deep. Sure there are certain days that will lighten our hearts, St. Patrick's Day, for example, and the Lenten season brings hope and promise. But after the long months of winter and the false starts of early spring, it can be difficult to shake off the doldrums. So Senior citizens, come join us for a well balanced meal and fellowship. Tuesday, 10th is carry-in dinner. A reminder: bring your own table service. Thursday, 12th all March birthdays will be celebrated at this time. Also blood pressures will be taken by the county health nurse. For your meal reservation, please call 893-7204 the day before you plan to join us, between the hours of 9:00 a.m. - 12:30. Scheduled menu for the week of March 9-13 is:

Monday - Ham and beans, tossed salad, corn bread, pineapple, chocolate cake, milk, coffee.

Tuesday - Carry-in dinner.
Wednesday - Bar-b-que sandwich, vegetable soup, perfection salad, bun, peaches, milk, coffee.

Thursday - Swedish meat balls, peas, carrot/raisin

salad, rice, cherry cobbler, bread, grapefruit juice, milk, coffee.

Friday - Fried chicken, mashed potatoes with gravy, buttered carrots, cranberry salad, bread, milk, coffee.

Akron Carnegie Library

New books available at the Akron Public Library are:

Diary of a Loving Heart, Love's Silent Song, Love Leads Home, and Love is a Gentle Stranger, by June Masters Bacher -- Sagas of romance and courage on the western frontier. From the pioneer west, stories of challenge and the faith that overcomes impossible odds.

A Suitor to Spare, by Janet Templeton - Society's off-season in Victorian London is not an ideal time for husband hunting, yet the resourceful heroine of this delightful historical romance manages to uncover a suitor to spare.

Golden Urchin, by Madeleine Brent - A mesmerizing tale of love and dangerous intrigue in the haunting desolation of Australia's outback.

Bruised Fruit, by Amy Ephron -- A novel set in the sunlit sands of southern California, the author delivers a stunning tale of romance, murder, and suspense.

Queen Dolley, by Dorothy C. Wilson - A biographical novel about the life and times of Dolley Madison, wife of the 4th President of the United States.

A Loss for Words, by Lou Ann Walker - A story of tenderness, warmth, and humanity of a close, loving family in which both parents are deaf; written by their daughter, who became an author and editor, and spends her spare time

working with deaf people in New York.

Cambodian Witness, the autobiography of Someth May - His family numbered fourteen when it left the fallen city of Phnom Penh, but only four of them survived. This book is a tribute to man's capacity to endure the nightmare of history, and to record it so intensely.

First on Everest, the Mystery of Mallory & Irvine, by Tom Hozel - Did Mallory, the expedition leader, reach the highest point on earth almost thirty years before Sir Edmund Hillary's historic climb? They were last seen only 800 vertical feet from the summit of Everest -- mystery and controversy have surrounded their tragic 1924 ascent.

Daffodils in Fulton County

Daffodils--thousands of them--will bloom in and around Fulton County on Friday and Saturday, March 20 and 21. On those days the Fulton County Unit of the American Cancer Society will present the bright spring flowers to everyone who donates funds for cancer research, education, and service. The daffodils, which will be shipped fresh to Fulton County from the Canadian fields where they are grown, have been chosen by the American Cancer Society as a symbol of hope for cancer patients.

The need for additional funds for cancer control is grave because of reductions in federal spending for this purpose.

The American Cancer Society has applications approved for over \$44 million in research projects which cannot be funded for lack of money.

Advance orders may be requested for residents in Kewanna, Akron, Fulton, and Rochester by sending your charitable contribution with the attached order to: The American Cancer Society, c/o Glenda Bode, Rt. 1, Kewanna, IN 46939. The Mentone Nutrition Site had a big week. The band practiced on Monday. In the evening we played for the EMT's at Teels. We also enjoyed dinner with them. It was in honor of the 50th anniversary of Disney's "Snow White and the Seven Dwarfs". We had done this before, but this time we had a few variations. A lovely high school girl, Debra Steffin, played violin in place of Everett Rathfon. John Baker sang a number for him. Everett had undergone surgery and is now home. We thank them. We're not sure our "little Prince" got to go home, as his wife was in the audience. Our "red headed gal" was a shocker, and if you ever see her, you won't forget her - ask Jim Miller! We had a lot of fun EMT's, and thank you for asking us. They never realized the hidden talents among the Senior Citizens.

On Thursday, Bill Fawley of the Harrison Church, was the area minister. We thank him for a fine message. He is a very nice young man. Friday was the "Land-scaping" talk by Victor Virgil. Monday was a film on Communication. Tuesday, March 3, was dirty bingo. Wednesday was game day. The Thursday minister will be Rev. Les Taylor and blood pressures will also be taken. Friday will be a film on "Small Claims Court."

Real Services Nutrition Program invites persons age 60 or older to attend the Meal Site at the Community Room, Fire Station, Mentone. The telephone number is 353-7555. Please make reservations 24 hours in advance.

The menu for the week of March 9-13 is:

Monday - Pineapple juice, pork barbeque rib on bun, potato chips, dill pickle spear, cream style corn, fresh red apple, milk, tea, coffee.

Tuesday - Cranberry juice cocktail, beef and noodles, buttered carrots, creamy cole slaw, dinner roll, margarine, oatmeal cookie, milk, tea, coffee.

Wednesday - Grapefruit juice, creamed chipped beef on biscuit, margarine, buttered peas, cottage cheese on peach half, golden glow salad, milk, tea, coffee.

Thursday - Apple juice, double chicken, scalloped potatoes, steamed broccoli, whole wheat bread, margarine, lemon pudding, milk, tea, coffee.

Friday - Orange juice, chili con carne with crackers, cheese slice, tossed salad with ranch dressing, white bread, margarine, sliced pears, milk, tea, coffee.

*Menu subject to change without notice. Due to the diets of some people, the food is not highly seasoned.

"13" lucky number for Valley Vikings

The Vikings finished their regular season with the area-best record, 13-7. The Vikes won their fifth straight game Friday with a 76-55 victory over John Glenn.

Viking senior Dale Miller led all scorers with 21 points and teammate Pete Terpstra added 15 as Valley overcame two brief scares by Glenn to pull away in the fourth quarter for the 13th win of the season.

Glenn jumped out to a 5-0 lead and closed the first quarter leading 13-12. But an eight-point spurt in the second quarter by Valley turned the tide and the Vikings stretched it to 29-15 late in the second quarter.

Sophomore John McDaniel, Pete Terpstra and Chris Zolman led the Viking charge late in the first half as Valley hit seven of eight shots in one stretch. Terpstra scored 15 including 10 points from the line and had six assists. Scoring seven points, McDaniel also contributed with 13 assists and four steals. Zolman added 12 points.

The Falcons cut the lead to

47-41 in the third quarter, but Valley pulled away in the final quarter, at one point, leading 57-41.

Valley plays again Friday at 6:30 p.m. against Triton in the first round of the Triton sectional.

Akron Flyers split games

The Akron eighth grade Lady Flyers recently won the Camelot Tourney. The team is now preparing for a 4-Way

Tourney to be held at Triton on Saturday, March 7. The Mentone girls will also be competing in that tourney.

(NEWS Photo)

Akron's Lady Flyers won over North Manchester girls 39-13 to avenge last year's loss. The Akron girls played with confidence to out-rebound and hustle the Manchester team. Rebounding was 31-16 in favor of Akron. A well-balanced scoring and team hustle on the part of Akron produced the unbalanced final score.

Leading the scoring for Akron was Amy Peterson with 10. Kerrie Cumberland did an outstanding job coming off the bench to score

8 points and 4 steals. Amy French added 7 points and led the team with 7 steals from her guard position. Cheri Tucker in the center added 6 points and 5 rebounds. Cherie French had 2 points and 5 rebounds. Bridget Gearhart, Lael Leininger and Gena Miller each scored 2. Playing hard but not scoring were Kim Willard and Felicia Backus. The Lady Flyers' record stands at 11-0 with 4 more games to play.

Akron 8th Grade girls

suffered their first loss of the season to Warsaw, 59-48 at Akron. The Akron girls played hard the entire game but could not fight off the scoring effort of Warsaw during the six minute quarters. Akron played even on turnovers and out-rebounded them 10 boards, but could not get the ball to fall for the score when they needed it.

Doing a super job for Akron was Amy Peterson with 21 points and 8 rebounds. Amy French added 8 points. Kerrie Cumberland put in 7 points. Cherie French added 4 points and 7 rebounds. Lael Leininger added 3 points from the

foul line. Kim Willard contributed 2. Gena Miller also had 2 points. Cheri Tucker added 1 point and 7 rebounds. Playing well but not scoring were Bridget Gearhart and Felicia Backus. Akron's record now stands at 12-1.

Wrestling news

There is only one word to describe the Akron-Mentone Jr. High wrestling team; that word is awesome! The team defended that description twice last week in action with Triton and Culver.

One Tuesday the junior high wrestling team defeated Triton 89-48. Marc Randall and Dusty Caudill led the way with two pins each; Jeff Ellenwood, Dillen Talbert, Jason Haines, Matt Taylor, Tony Rodriguez, Pat Jamison, Ed Haines, Terry Runyon, Roger Runyon, and Tim Sleeth all won on pins; Gary Gagnon won by decision, and Caleb Hucks drew a tie.

On Thursday the wrestling team defeated Culver 96-30 at Culver. Winners for Akron-Mentone were Jason Engle - 2 dec.; Greg Prater - pin and major dec.; Jason Haines - sup. dec.; Dusty Caudill, Marc Randall, Ryan Schumacker, and Caleb Hucks - dec.; Terry Runyon, Roger Runyon, Ed Haines, Tim Sleeth and Jeff Ellenwood - pins; Matt Taylor, Todd Rodriguez and Chris Shaffer pin and dec.; and Pat Jamison by default.

TEMPORARY CROWNS

If you'll be waiting for a crown to be fitted to a tooth, chances are you'll be given a temporary crown until the permanent one is ready. The "temporary" will have cosmetic value in maintaining the appearance of your mouth. It will also serve some important functions, such as maintaining the proper space and bite relationships with adjacent and opposing teeth.

Often the temporary crown will be made of acrylic material of the exact shade to match your other teeth. But it is not intended to last very long, only until the permanent crown is in place to give the tooth long-lasting protection.

Sometimes a temporary crown may have to last several months. This can happen if other work has to be completed before the crown is put in place. If this is the case, a longer-lasting temporary crown will be made. This may be made of a heat-processed acrylic, which has a harder, more durable finish than the usual acrylic, or of some other wear-resistant material.

There's a season for everything ... especially on the VanLue farm

To many farm operators the winter and early months of spring provide a time to slow down a bit from the hustle of harvest. Much of a farmer's time is spent in repairing farm machinery and designing the crop plans for the coming season.

Arnold VanLue of Roann, keeps busy most of the year with his auctioneering service. But to this he has added raising sheep as a livestock enterprise, and woodworking as a hobby. By his side in all three angles of his triangle of life is his wife Roma. Roma can be found at Arnold's side at an auction working as clerk, in the sheep barn working as a "midwife" or as a "go-fer".

Roma designed the VanLue's present home and Arnold transformed her blueprint wishes into a family home filled with his artistic woodcraft abilities. Much of the furniture in the VanLue home has been designed and built by Arnold.

One of Arnold's most prized wooden masterpieces is a parlor cabinet which has curved glass doors. Not only did Arnold design the cabinet but he chose the tree in the family woods which was used for the masterpiece.

A unique pie safe is one of Roma's favorite pieces. Most old pie safes have tin inserts in the doors, but Arnold designed ventilated ovals for the door panels. "I have to keep a close eye on this piece," remarked Arnold, "our daughter would like to have this in her home." As Roma added, "We have rotating furniture. I keep some pieces for a while, then they move on to another family member's home. If I'm lucky, I may get some back!" Roma's example of her statement is a beautiful walnut cylinder desk that Arnold built. She has not put any papers in the desk for fear the desk and all might move out!

Arnold has entered much

of his furniture in the Indiana State Fair competitions. He is working on a desk and chair of his own design for this year's state fair. Arnold explains, "The chair design is important -- especially the back of the chair." He added his own explanation, "The back of the chair is what people see when they look at the finished Queen Anne desk grouping. I have spent over 100 hours on the chair work alone."

The year 1979 is a highlight of accomplishments for the VanLues at the Indiana State Fair. Arnold's exhibit in the non-professional class of woodworking brought him the Best of Show Award. Not only did the VanLues celebrate a woodworking award, but they also had the honors of the champion carcass lamb (on the rail), meaning the top meat award.

Little did Roma and Arnold know when they bought their

children two lambs for pets from John Yoder in 1960 it would lead into a business enterprise that would demand their love and dedication.

In 1965 the VanLues purchased a few Suffolk sheep from a neighbor and started

building their own herd. Remodeling barns and utilizing the sheep to help clean up the newly purchased land kept the VanLues busy. Arnold decided to build up his own herd of Suffolk and that he did! Today he has over 190 head of sheep and each day the number grows larger, as early spring means little lambs are being born.

Word of the fine breed of Suffolks offered by the VanLues has spread throughout the state. The VanLue Suffolks are in high demand by 4-H members in the entire state.

Lambs which are born now, will be auctioned April 18th at the Miami County fairgrounds to many hopeful county fair winners.

These are busy days on the VanLue farm with lambs being born daily. When April 18th finally does arrive, Roma and Arnold can stop and release a sigh of relief because their young lambs will be in the hands of new owners readying for the county fairs. But rest for a long period of time will not come, for there is a desk and chair awaiting Arnold's attention in his shop and after the State Fair, the VanLues will be making more hay, working with the sheep in preparation for the next year's lamb crop, cutting wood and having auctions. As for all agricultural businessmen, there is always work on the farm.

Gimmicks That Work...Or Do They?

This column is not meant for everyone this week, only for those of you who find gimmicks such as pictures of fat ladies and pig magnets for refrigerator doors unappealing.

First, the pictures of overweight ladies which are to be hung in various places throughout the house, preferably on the refrigerator door. Now how in the world is this supposed to help a person stay out of the refrigerator? For one thing, it would draw your attention to the very thing you would like to forget about, the refrigerator! Another reason for removing the pig magnet from the door is the visitors in your kitchen. The magnet is a give-away of the struggle you might be having with your weight - not many of you want the whole world to know about your reduction plan! Besides, each time you take something from the refrigerator it doesn't mean you will look like a pig when you have finished eating, therefore each time you open the door a feeling of guilt might come over you. Rely on your own good judgment and take the magnets and pictures down, you can do it yourself.

Articles are climbing to the top of my list of things to avoid. (Not this one of course). Recently I read an article that stated our cravings for sweets stemmed from the cave man. Supposedly they drew pictures of figs, honey and dates on the walls of their caves. Please explain this to me, I fail to see how this has any connection with our eating habits today.

Beware of the put downs. Inevitably you will gain a pound or two. When this happens, don't let anyone tell you over and over again about the weight gain. Remember to get back on your reduction plan and concentrate on the pounds lost as a whole rather than a couple pounds gained. (If you have lost a total of 20 and gained 2 last week, remember you are still 18 ahead!)

Enough of my dislikes, on to one of my favorites...Miss Piggy. Let's face it, this pig has a good self image, something we all would like to have. She doesn't let anyone put her down and seems happy with who she is, obviously takes care of herself and dresses well. (I realize this is a puppet, but what she portrays has good merit. We might all learn something from her.)

Stay on your reduction plan, be good to yourself and the results will be showing.

A thank you to our relatives, neighbors and many friends for helping us celebrate our 50th with beautiful cards, flowers and gifts. A special thanks to our children, Richard, Terry, Janice, Judy and our grandchildren who planned and hosted the event.

Wayne and Mary Lynch

I sincerely thank all my friends, family and everyone for their thoughtfulness, kindness, concerns and prayers while I was in the hospital and during my illness at home. Thanks for the wonderful care received at the Woodlawn Hospital, for the flowers, gifts and the cards, and to the ministers who called on me and everything. All these things were appreciated so much and will never be forgotten. God bless you all.

Akron Women's Club

George M. Cohen's "You're A Grand Old Flag" was one of the patriotic songs in the music program presented by Bernice Bowen and Rozella Tinkey at Akron Women's Club Feb. 5.

Valley Vikings Win Sectional Title

Dreams still come true. If you don't believe in dreaming for a wish to come true, you had better move out of Viking Country. Every boy who has ever played basketball, dreams of winning; in this case, dreaming of winning the Triton Sectional became a reality of the awesome Tiptecanoe Valley Vikings.

To make a dream become reality Bob DuBois' Vikes had to defeat a team that has reigned over this sectional area for four years. And defeat that team they did: the Valley Vikings topped the Warsaw Tigers, 65-56 in an unbelievable display of super basketball playing in the sectional final game.

Valley captured its first sectional title since beating Warsaw in the 1979 finals.

"We just played well; we kept our heads and stayed out of foul trouble. The boys kept their positions and stood their ground," explained DuBois.

Valley wanted to stay with the fast starting Warsaw team during the beginning quarters since the Tigers won their first two sectional games in the first quarters of play. The Valley Vikings managed to play well and outrebounded Warsaw 10-7 in the first half. Even though Valley felt some foul pres-

sure in the first half, the bench came in and relieved the troubled team.

The biggest lead for either team in the first half was four points. There were nine ties. Valley went to the halftime locker room with a 30-29 advantage when Miller scored a tip-in and McDaniel sank a free throw.

Valley attempted to break away in the middle of the third quarter. Miller completed a three-point play for a 41-40 lead and the Vikings unveiled a sustained full-court press. Warsaw turned the ball over on four of its next five possessions and Valley scored six of the next nine points. After a three-point play by Terpstra was answered by Warsaw's Ty Woodruff, Anglin sank a free throw and Miller hit from the baseline for a 47-43 Valley lead. But Warsaw rallied again on free throws by Jeff Anderson and an inside basket by Bair. The teams entered the fourth quarter tied at 47-all. Valley's Dale Miller, who led all scorers with 23 points, sank four straight free throws at the start of the fourth period and Valley never trailed or was tied again.

The Vikings sank 12 of 18 free throws in the fourth quarter, eight of them in the

Mentone project cost cut down

If everything goes smoothly for the town of Mentone, the cost of the waste water treatment project could be cut by as much as 75 to 95 percent of the initial quoted cost.

The cost for the town could be down to \$90,000 - instead of \$3 million as quoted by Commonwealth Engineers - if the town meets the requirements for receiving

funding.

The board has started interviewing other consultant firms for the project since the town severed relations last month with Commonwealth. The Municipal Compliance Plan has to be submitted by April 1, in order to receive grant funding.

According to board president Miriam Boardman, the town will still have to put in

its own lagoon at its own expense, as the alternative grant money will not pay for that.

The Mentone Town Board has accepted the resignation of town marshal Russell Hart who has announced plans to start his own business. The board has temporarily filled the void by paying reserve officers Ed Rock and Steve Shand on an hourly basis.

EMS offer driving course

In the past 2½ years, 506 ambulance accidents have resulted in 135 personal injuries and three deaths. The EMS Commission is concerned with the problem, has taken a good hard look at it, and has developed a program which will address the needs of ambulance drivers.

The program was designed with the overall goals of

reducing both personal hazards and economic losses resulting from ambulance accidents.

The voluntary program involves sixteen (16) hours of driver's training, both classroom and hands-on application.

Each program will be conducted on a local level, with the target of 160 courses throughout Indiana.

After successful course completion, the student will be certified as an EMS driver. Candidates are required to have a valid Indiana driver's license.

NOTICE

The town of Akron plans to flush the hydrants Thursday, March 19, weather permitting.

Good Luck to the Vikings!

Letter to the Editor

Letter to Editor:

Fulton County joined the Arrow Head Resource Conservation and Development area in 1986. The County Commissioners and Extension Board are sponsors along with the SWCD.

Since then, it has been assumed that Fulton County is the same as other member counties in regard to its problems and needs. That's not quite the case. Similar, maybe, but still different.

In order to know for sure what the needs of Fulton County are, we need your input - from your area of interest as well as from your personal point-of-view. Please address your groups and get their input too. Once the needs are known, we can start to work on addressing them.

Many pamphlets have been mailed throughout Fulton County. They will give you some ideas as to what RC&D is and can be. But don't limit yourself to the ideas outlined in it. RC&D can address any need.

Surveys are also being generated in Fulton Co. Please use it to generate some thought and fill it out as it is you'd like. We'd welcome you to write out your thoughts.

Please return your thoughts to us. We need it before March 30th.

RC&D will work only if we make it work. We need your input.

MARCH

March is a fickle month.
Just can't make up it's mind,
To give us lots more winter
Or to leave it all behind.

Now the sun is shining,
Now the wind doth blow,
Now it is cloudy,
Just look at it snow.

Some days it is springtime,
And the frogs will croak,
Next day it is winter,
Spring was all a joke.

GRANDMA'S FLOWER GARDEN

Grandma has a flower garden.
Tis beautiful to see.
It's full of pretty boys and girls.
So lively and full of glee.
The girls are the roses,
The tulips and lilies sweet.
And just to look at them,
Makes Grandma's heart skip a beat.
The boys are strong and handsome
Like hollyhock and marigold.
Just to have them in "Her Garden",
Gives Grandma joy unfold.
How Grandma loves "Her Garden",
It is her pride and joy.
She feels so rich and well blest,
With every girl and boy.

A new beginning...

This Isn't Funny

By now, those of you who have been following this column know that it has been a good long time that we have been reducing together. (Pardon me if I don't use the word "diet"; it is a four letter word and will seldom be used in this column). I've been told there is a funny side to all situations no matter how desperate the situation is. Somehow the funny side of this situation fails to be clear.

If you have been sticking to your reduction plan as I have, there is a definite improvement, however, my disposition is beyond repair. We have covered various subjects to help us on our journey to an improved body, as well as the benefits of exercise, and the hard work is paying off. But really now, we are only human and this human has had all the cottage cheese and pears, raw vegetables and grapefruit she can stand! Every once in a while a person binges and the time has come for yours truly! Pizza is the food that has been lurking in the shadows...and a pizza it will be!

Before eating the pizza, I intend to remind myself how it is to be overweight, how long it has taken to get where I am, and try not to overeat. I remember the days when my cheeks looked like those of a chipmunk with a body to match, the horrible times of shopping with nothing youthful that fit. I'll tell myself a slip is okay as long as it is a temporary slip. Who wants tennis elbow from opening the cupboard doors? One solution to a wide back side would be to walk into a room and back out each time, but the front isn't too great either, after pounds are added! I even remember having fat feet, it seems nothing escapes fat!

This person intends to eat pizza and right away begin her weight reduction plan. How can a person be so careful and feel so much better only to ruin it for the love of food? Not I! I've been there, and never want to be there again. Neither do any of you I'll bet.

If there is a food lurking in your shadows, don't feel guilty, eat a little bit and then continue as you have been doing. Remember, don't let one day ruin months of hard work on your part. One day of overeating doesn't matter, months and years are what hurt. Bounce back and enjoy the new attractive you.

By this time next week, there will be a note on the end of the column letting you know how the binge ended...or if it DID end!

Thad Leininger had his work cut out for him in Indiana. And when he decided to build a small house, he had to build it. Thad's hobby was to build things, and he had a lot of experience.

I want to thank my family and friends who remembered me during my recent hospital stay. The prayers, visits, calls, flowers and cards were very much appreciated. I especially want to thank the Rev. Merlyn Cox, Dick and Mary Dudge and David McNeely.

The Girl Scouts

One of the fine organizations for youngsters in America is scouting—the Boy Scouts and Girl Scouts.

It was March 12, 1912, that Daisy Gordon, and ten other young girls, met in an unused stable of Daisy's aunt, Mrs. Juliette Low, in Savannah, Georgia, and founded the first patrol of Girl Guides in the United States.

The headquarters of the Girl Scouts was moved to Washington in 1915, after other groups began forming. Later it was moved to New York.

Mentone Reading Club

Mentone Reading Club members and guests, Carol Humphries, Eileen Bowser, Louise Kinsey, and Linda Cochran, met Feb. 11 at the home of Elaine Fugate.

Carol Hurst, President, opened the meeting with club pledges and the club Collect. Roll call was taken and minutes of the previous meeting were read by Secretary Pro Tem Rosemary Bazini.

The president announced the County Federation of Clubs Convention date as March 18. She also gave the regular alternate-year reading of the club Constitution and By-Laws.

Sue Pyle announced that the Science Fair Award Plaque sponsored by the Reading Club had been purchased. The club voted to designate the award in the area of Mathematics.

The nominating committee consisting of members Mary Ann King, Jerry Smith, and Carol Hurst will present the slate of officers at next month's meeting.

Following the meeting, a program on "A Flight to Alaska" was given by Marcia Nellans, pilot. Marcia is a member of the 99's Flying Club, so named because of the ninety-nine charter members. The club membership of 6,500, representing 33 countries, includes the late Amelia Earhart, and a tronauts Judy Yeager and Sally Ride. It is primarily an educational organization, which, for instance, gives scholarships, sends speakers to schools, judges regional science fairs in air and space categories, and assists the Red Cross in flying blood to the needy.

In August 1984, Marcia and a friend spent three weeks in Alaska in a plane rented from the Mentone airport. She displayed an aeronautical map of her trip, explaining that with students, actual figuring of altitude, fuel, etc., is done.

She also showed slides of her flight from White Horse to Fairbanks to Mt. McKinley to Anchorage and their eventual return to Edmonton and White Horse, much of it following the Yukon River and the Al-Can Highway, including visits to a hot springs and a gold mine. Since they planned their own itinerary and carried survival gear, they were able to experience and learn much more about Alaskan history, economics, weather, land mass, animal life, and daily life directly from its residents.

Marcia gave delightful insights and fascinating information about the contrasts in life styles depending on the areas involved, the solutions to problems of constructing a

pipe line across the Tundra, and the unimaginable grandeur and beauty of this huge state.

Carol Hurst assisted Elaine Fugate in serving refreshments.

The next meeting will be held March 11 at the home of Pat Gross.

Notice to Mentone residents

Residents of Mentone are being asked to comply with a request by town officials to go with Millwood Sanitation as their garbage pickup service.

The town board decided at the start of this year to restrict garbage collection to one company, and that was Millwood Sanitation. The Bourbon firm was the lowest bidder.

In previous years residents had hired their own firms for garbage removal when the town did not hire for the service and left that responsibility up to citizens. Now that the town has gone back to hiring one company, residents are asked to join that by paying the \$2 a month fee. This only affects residences and not businesses.

Vikes defeat Triton on way to sectional final

The Valley Vikings earned their spot in the sectional finals by defeating Triton 54-36 in Friday night's action.

Chris Zolman, who started at a guard spot for the Vikings, led all scorers with 20 points, most of them on the inside. With the Triton guards standing 5-foot-7 and 5-foot-11, the 6-foot-3 Zolman took advantage of the mismatches to hit on eight of 13 shots and grab six rebounds. Sophomore forward Dion Anglin added 12 points and senior center Dale Miller tallied nine points.

Triton tried to neutralize Valley's inside strength with its perimeter passing on the offensive end. The Trojans used up one to two minutes of the clock almost every time.

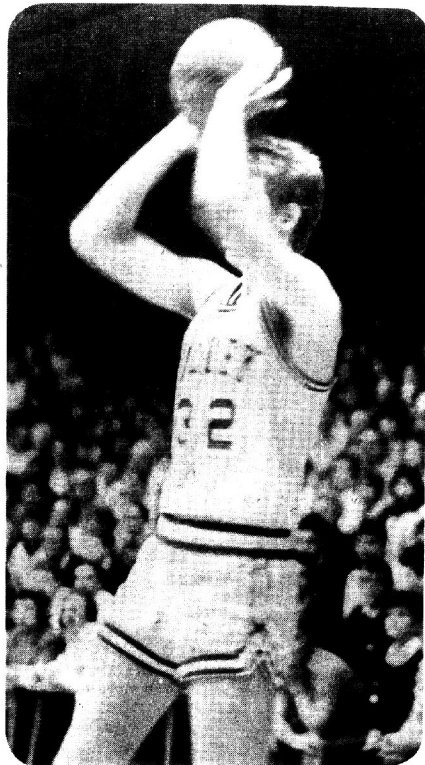

It didn't take long for Valley to take the lead. Led by seven straight points from Zolman, the Vikings scored nine of the first 13 points of the game. Triton eventually cut Valley's lead to one point and, after two free throws by

Anglin, the Trojans tried to hold the ball for the final 1:56 of the first quarter. But John McDaniel intercepted a pass, drove the length of the court for a layup and was fouled with three seconds left. McDaniel completed the three-point play for a 14-8 Valley lead.

The Trojans trailed by just six points, 22-16, at halftime, but they again tried to hold the ball for a last-second shot and failed, turning the ball over with six seconds left.

Valley scored the first four points of the third quarter for a 26-16 advantage and held leads of at least seven points the rest of the way. Valley scored 12 of the last 14 points during the final 3:22 of the game.

The Vikings had only two turnovers on the game and they shot 51 percent from the field (22 of 34) and 71 percent from the free throw line (10 of 14). Valley outrebounded Triton 22-16. Miller had 10 rebounds for the Vikings and Zolman had six.

Continued From Page 1

final 4:37 when they outscored Warsaw 12-5. Sophomores Dion Anglin and Pete Terpstra broke the game open for Valley. Anglin converted on a three-point play and turned an offensive rebound into a basket and Terpstra sank a free throw for a 59-54 lead with 2:09 remaining. Dan Sands scored a quick basket for Warsaw, but the Tigers got only three more possessions in the final minute of play. John McDaniel and Chris Zolman combined for six free throws in the last 56 seconds for Valley.

The Vikings barely trailed in field goal shooting - 20 of 35 for 57 percent, but they sank 25 of 39 free throws to Warsaw's 12 of 16. Miller earned eight of 12 field goals and seven of 10 free throws to lead Valley, and Zolman hit on five of eight shots from the field and five of six from the foul line. Terpstra and Anglin, Valley's sophomore starters, added 11 and 10 points, respectively.

Anglin also had a team-high seven rebounds.

The Valley Vikings know they will meet a tough team Friday night. The Vikes also met a tough team last Saturday night and that did not stop the local team. "The boys are happy they could bring home the sectional title to all their many, many supporters," said the proud coach, as a father would explain. DuBois added, "The team is made up of all good boys, they want their community to be proud of them. They have been true winners all along."

Valley takes a 15-7 record and a seven-game winning streak into Friday's regional at Elkhart. The Vikings meet 20-3 Penn in the second game, scheduled to start at approximately 8 p.m. Penn shocked No. 7 Concord 68-60 in overtime Saturday to win the Elkhart sectional title.

Bremen, 8-14 and the Plymouth sectional champion, meets Westview, 19-4 and the East Noble sectional champion, in Friday's first

game at 6:30 p.m. The winners meet at 7:30 p.m. Saturday for the regional championship.

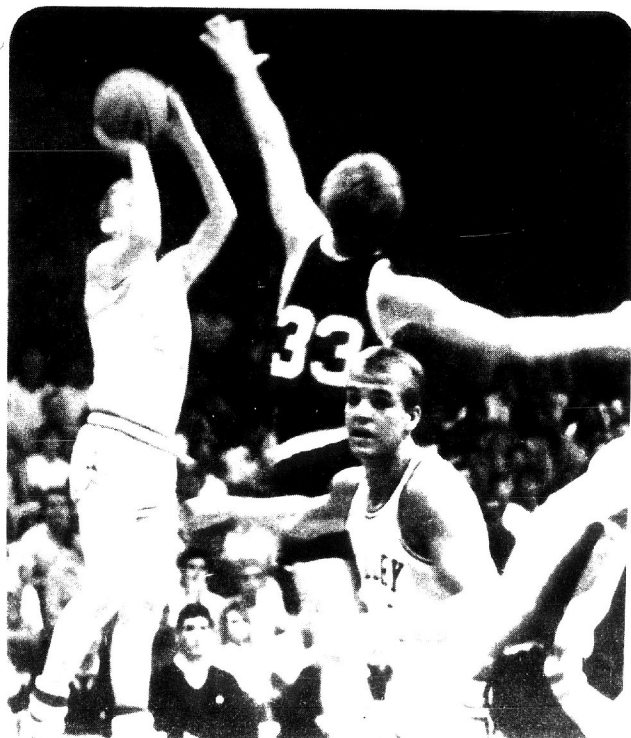

Regional tickets are on sale at the high school for season ticket holders on Wednesday and non-ticket holders on Thursday.

The Truth

"Indeed; and what does she say?" he queried.

"Thank God you're in bed!" was the prompt reply.

Daffodils in Fulton County

Daffodils—thousands of them—will bloom in and around Fulton County on Friday and Saturday, March 20 and 21. On those days the Fulton County Unit of the American Cancer Society will present the bright spring flowers to everyone who donates funds for cancer research, education, and service. The daffodils, which will be shipped fresh to Fulton County from the Canadian fields where they are grown, have been chosen by the American Cancer Society as a symbol of hope for cancer patients.

The need for additional funds for cancer control is grave because of reductions in federal spending for this purpose.

The American Cancer Society has applications approved for over \$44 million in research projects which cannot be funded for lack of money.

Advance orders may be requested for residents in Kewanna, Akron, Fulton, and Rochester by sending your charitable contribution with the attached order to: The American Cancer Society, c/o Glenda Bode, Rt. 1, Kewanna, IN 46939. Presale orders must be received by March 14, 1987. The suggested contribution is \$3.25 for a bouquet of flowers.

H. RAY HAZEN,

**EMPTY CALORIES -
MINUS VALUE**

If you think of your mouth as a haven for strong, healthy teeth, you'll want to keep tooth-damaging foods out - sweets, gummy foods, foods with little nutritional value. They're called "empty calorie" foods.

The bacteria that work hard to destroy teeth, gums, and bone, love empty calories and gummy foods. They turn sugary foods to an acid like substance. They love gummy foods because they're harder to remove when you clean your teeth. And they have a passion for "empty calorie" carbohydrates such as unenriched bread, cereals, and other foods that lack the vitamins, iron, and other minerals your body needs for good health.

Keep the empty calories at bay by limiting the amount of sweets, sticky foods, and low-value carbohydrates you eat. Eat enough fresh fruit and vegetables to give your chewing muscles a good workout. Get enough high protein in meat and vitamin-rich foods to maintain good health.

And protect your dental health with regular checkups.

Prepared as a public service to promote better dental health. From the office of: H. RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545.

Tippy Aquatic Club

The Tippecanoe Valley Aquatic Club, under the direction of Coach Steve Doerscher, is near the end of a very strong winter swim season. About one-fourth of the swimmers will be taking part in the State A meet coming up March 7 and 8 at Notre Dame University. This is quite a comeback for the swimmers since the club is just getting back in full swing after having no organization for one and one-half years.

The Tippecanoe Valley Club consists of girls and boys who are between the ages of five and fourteen. Boys and girls who have been members of the high school team may also swim when their official season is completed.

The team has both a summer and winter program. All youth are invited to swim. The advantage of swimming is that every child has a chance to compete against

children his or her own age.

The summer swim program will start during the first part of May. Beginning swim and other Red Cross Classes will be offered at Tippecanoe Valley during the summer. More details will be announced at a later date.

Parents and members of the community are proud of the school's endeavors and of Coach Steve Doerscher in getting all the programs started again.

Swimmers in the Aquatic Club are: front row, Becky Simons, Elizabeth Stavedahl, Kelly Meredith and Tony Goodwin. Second row, Brandon Meredith, Tonia Stavedahl, Heather Foor, Kristen Deardorff, Rebecca Flora, Kelly Deardorff, and Haley Foor. Third row, Ben Baker, Courtney Whetstone, Aimee Foor and Tom Simons. Not pictured are Brian Hill, Eric Rosenber, Damon Clouser, Gabriel Whetstone, Rick Buroge, Daniel Manwaring and Raphael Julaion. (Photo by Chris Moore)

Members of the boys high school swim team are: front row, Josh Berry, Roy Laughlin, Micah Collect. Back row, Toby Green, Jack Sisk, Paul Goodwin, Derek Manwaring, Bob Lynn and Scott Berry. Not pictured is Chris Paris. (Photo by Chris Moore)

Hanna visits school

Jonathon Haussman is shown practicing good telephone manners while John Hanna listens to him. Mr. Hanna recently visited the Jack 'N Jill Nursery School.

John Hanna visited the Jack and Jill Nursery School of Mentone, on Feb. 28. John works for United Telephone Co. in Warsaw. The Jack and Jill Nursery School has been learning their telephone manners. He also told how to answer the phone when a parent was not available to do so. He

stressed how important it is for children to know his or her own phone number and one other persons phone number. He explained how children should not play with the phone pushing a lot of numbers, and what might happen if they did. He said,

"You might call the North Pole and boy, Mom might not like that!"

Poison Prevention Week March 15 - 21

March 15-21 has been designated Poison Prevention Week. This is a good time to review a few simple guidelines that could prevent a major disaster in your home.

Many people know that cleaning products, insect sprays, and prescription drugs can be dangerous, but what about cosmetics, personal care products, plants, and over-the-counter drugs? How much of a product can be harmful? What should you do if someone is exposed to a poison and, more importantly, what can you do to prevent poisoning accidents from happening?

Many of the answers to these questions can be found by contacting the Indiana Poison Center. Anything can be a "POISON" if used incorrectly or in sufficient amounts. If someone is exposed to anything that could potentially be poisonous, it is best to call the poison center at 1-800-382-9097 to get the answers to your questions.

You can take a big step toward protecting your children and grandchildren from accidental poisoning by following these 10 points:

*Always store household

products and medicines separately, out of the reach of children, and locked up when not in use.

*When using household products or medicines, never leave them out of your sight...not even for a second.

*Keep all products in their original containers with their original labels intact.

*Purchase all medications and household products in child resistant packaging, even if young children only visit your home or you visit homes with young children.

*Always use safety packaging properly...by reclosing the container securely after use.

*Never take medicine in front of children, or call it "candy".

*Keep one bottle of Syrup of Ipecac on hand for each child under five. Use only when instructed to by the poison center or your physician.

*Get a supply of Mr. Yuk stickers and place them on all potentially poisonous products.

*Teach your children that Mr. Yuk means NO!! Do not touch! Do not taste!

School board reluctantly accepts contractor bid

Burton Mechanical, of Rochester, will be doing the sewer system work and electrical work for the Burkett school. Burton's was the only contractor to submit a bid during the rebidding process, according to the Tippecanoe Valley School Board. The project was estimated to cost \$67,000 but the "higher than estimated" bid of \$81,000 was accepted by the board.

The bids were advertised in two sections, one for mechanical and site work and the second for electrical work. Burton Mechanical was the only bidder in the mechanical work portion while no bids were received for the electrical portion.

A representative for the Skillman Corp. met with Burton Mechanical. Follow-

ing that meeting, Burton Mechanical agreed to include the electrical work at no additional charge.

Although the school board held a lengthy debate concerning the matter, they decided they had no option but to accept the bid of \$81,000 with the stipulation that the price would include both the mechanical and electrical work.

Contract manager W. Michael Krassick, of the Skillman Corp., presented three changes which the board voted to approve.

The first was to deduct \$19,000 in expenses at Mentone for the new sewer system. Second was to add \$14,000 for a reverse flow septic system at Mentone. The system would be only temporary but functional.

The third change was made in adding restroom and shower facilities in the coaches offices. The cost is not to exceed \$18,000.

In a pending building project, the board voted to advertise notice to bidders for architectural services for construction of a new roof at the high school. Superintendent Baxter Paige said the roof was only 15 years old, but was leaking in a number of places and has been patched numerous times. The board plans to include additional insulation when the new roof is put on.

In other matters:

*A notice to bidders for elementary equipment and furniture was approved. Bids will be accepted until April 7.

Girl Scouts participate in the "Promise Circle"

The Akron Girl Scouts participated in the worldwide event called the "Promise Circle" which was held Thursday, March 12, at 4:00 p.m. Girl Scout National President Betty F. Pilsbury began the circle in Washington D.C. at 2:30 p.m. by leading Girl Scouts and friends in reciting the Girl Scout Promise. This was done in conjunction with the celebration of the 75th birthday of Girl Scouting in America.

Nearly three million Girl Scouts nationwide, plus those residing overseas, repeated the Promise at the given time in their respective time zones. The recitation moved around the globe, finally closing the circle and symbolizing the unity of Girl Scouts everywhere.

The Akron Scouts made corsages, put on skits and sang songs to celebrate the occasion.

There are several different troops in Akron. Beverly Thompson and Janet Morgan are leaders for Cadette Troop 333 and Junior Girl Scout Troop 331 respectively. The Brownie Troop is led by Candy and Kathy Faught. The new Daisy Troop, which is for kindergarten and first

grade girls, is led by Darlene Drudge. Thompson has been a leader for juniors for seven years and Morgan has been her co-leader for four years.

Past leaders in the scouting program include Melea Dittman, Pam Cooksey, Merlee Fall, Cathie Lukens, Dorothy Martin, Bonnie Bickel, Marilyn Miller, Kate Jennings, Dovie Weida and Donnabelle Hoffman. Many other ladies in the community have also served as leaders over the years.

Business suggestions sought

Members of the Akron Chamber of Commerce, challenged by the number of empty buildings in the downtown business area, are open for suggestions. What types of business would you like to see come to Akron? Which types of stores or shops would you most likely patronize?

If you have any suggestions, tell a Chamber member or drop a note to the Chamber.

Local business completes remodeling

accountant, insurance agency, doctor's office, town offices, antiques, dentist office, barber shop and even home of the Akron NEWS.

A new beginning...

Feeling Good About Yourself

I don't know of anyone who hasn't felt good about themselves after having lost weight. There is a sense of accomplishment and pride. How many of you have felt like you had no control over your eating pattern or felt defeated after you gave in and ate too much? It would seem as if a person's world revolves around food.

The first step in making yourself feel better is to realize that you are once again in control. In past columns I've mentioned the importance of menu planning as a way of controlling what you eat. This has a double benefit - not only are you controlling what you eat, you are controlling what you buy. It seems necessary to see the amount of food and calories that I will be consuming over the course of a day and menu help.

This isn't as complicated as it might seem. All it takes is a little determination and a change in your routine. The time spent on menu planning and calorie counting is minimal and helps a great deal. Besides, this time might have been spent on snacking before, where now you can use your time to your advantage and show yourself that you are in control.

A big help is putting all of your food on a plate at the same time so you can actually see the amount of food to be eaten. If you are a snacker on the run, as I am, a considerable amount of food can be eaten one piece at a time. I've been known to eat cookies while sweeping the floor, brownies while dusting, a piece of cake while fixing supper, etc. Somehow if you could put all this food on one plate it would be much, much more than you expect. Once again, choose your food wisely, count the calories, pay attention to texture and color and eliminate between meal snacks as much as possible.

By organizing your food and helpings, etc., you will be more in control than you ever thought possible and the feeling will eliminate the frustration that comes with yo-yo dieting. (Off again and on again dieting where pounds are lost only to be regained a short time later).

Update on the binge: It did indeed, end. It ended more quickly than I expected. When confronted with the pizza, I found I couldn't eat as much as I thought and immediately I was ready to resume my eating habits as before, and felt better knowing that I was in control once again. Good luck to each of you who will have or have already encountered this hurdle.

Actually, they have won!

It is always hard to lose. And to lose by one point in regional basketball action is very difficult to accept.

I do not view the Tippecanoe Valley Vikings as having lost as a team. They may have come up short in points during a basketball game which caused them to be eliminated from tournament play, but the Vikings have won the respect of myself and several others in this community and other local towns.

The young men of the 1987 Varsity Viking team have been very kind and polite to me whenever I was at the school to take pictures or on any other occasion which they saw me. They have always spoken or given me a smile. Thanks kids, that means alot to a middle-aged mother!

The values of working together as a team as expressed by four team members during a recent sectional interview so impressed an area minister that he used their remarks as a tool to build his "letter to the congregation."

So, young men, you may think you lost; but actually you have won as some may never win.

Parents, coach, and school, be proud of these young men, I am.

New books available at the Akron Public Library are:

Outbreak, by Robin Cook - His most harrowing, most timely novel of medical horror since "Coma". The kind of speculative chiller that will reverberate in the reader's awareness long after the final page is turned.

Gentlemen on the Prairie, by Curtis Harnack - It focuses on a remarkable episode in the settling of the American Midwest, the formation in the 1880's of a colony of upper-class British immigrants who viewed Iowa pioneering as a way of perpetuating the Victorian gentleman's code.

The Lady in the Tower, by Jean Plaiye - She was outrageously strong-willed and unabashedly passionate. Her appeal to men, from stable-boys to monarchs, was overwhelming. Yet she burned with the stubborn ambition that was to ensnare a king.

The United States Navy, 200 Years, by Edward L. Beach - A history of the U.S. Navy from the pen of a highly decorated naval historian and novelist.

Betty, a Glad Awakening, by Betty Ford - Like so many

Americans, Betty Ford suffered from alcoholism and drug addiction. When she faced up to her problem, it took all of the strength and courage that she and her family possessed to be able to deal with it.

Red Storm Rising, by Tom Clancy - A novel by the author of "The Hunt for Red October". Clancy weaves men, planes, ships, missiles and submarines; scenes of large-scale battle and individual acts of heroism; moments of tragedy, joy and endurance into an intricate pattern that dances and whirls before our eyes.

Prescription for Disaster, by Joseph J. Trento - A book about the space program from the glory of Apollo to the betrayal of the Shuttle. Until this book, the full and untold story of why the space shuttle Challenger blew up begins with the earliest days of manned spaceflight.

\$400 rebate. Now Public Service Indiana will pay a \$400 direct rebate when you have one of today's high efficiency heat pumps installed on PSI lines.

10-Year Compressor Protection Plan. Public Service Indiana will also furnish 10-year compressor protection on high efficiency heat pumps installed on PSI lines by an RSES certified technician.

Economical Operation. The ability of today's high efficiency heat pumps to bring heat into your home for heating and removing heat for cooling is unrivaled by any other heating and cooling method. This translates into substantial year-round savings to you.

Year-round comfort. During the winter months, today's high efficiency heat pump will warm you with a constant flow of 90°-95° air. And during the summer, the system produces cool air for whole house comfort.

any kind to create heat in your home or business. No open flame is simply cleaner and safer.

There you are. Economy, comfort and safety. And the only place you'll find it is in today's high efficiency heat pump. Isn't it time you kissed an old flame good-bye?

Heckman to present monologue

The Rev. Robert Heckman, Pastor of the Lydick United Methodist Church, will present a monologue on The Apostle Paul, Sunday, March 29th at 7:00 p.m., at the Mentone United Methodist Church. This program is one in a series of Lenten Worship Services for Atwood, Beaver Dam, Burket, Clunette, Mentone and Talma area churches.

Part of the history of Paul includes facts such as his name at birth was Saul. He was born in Tarsus of Jewish parents and belonged to the tribe of Benjamin. He was given the Greek name of Paul as he began to work with the Gentiles who were coming into the church. Paul was also a citizen of the Roman Empire and he was a Pharisee. He was born into a home of rather wealthy parents. His trade was that of a tentmaker. His education, beyond his early years at home, took place in Jerusalem. He was present at the stoning of Stephan and was active in the persecution of the early church. His conversion took place on the Damascus Road. He then became the great missionary for the early church and its most gifted writer, author of 14 books of the New Testament.

Friends and members are cordially invited to share in this worship celebration.

THUMBSUCKING OR PACIFIER?

If your infant has the thumbsucking habit, should you try to replace this habit with a pacifier?

All babies have a natural instinct to suck. But if the habit lingers beyond infancy, when the primary teeth are beginning to appear, you may want to give baby a pacifier. If you start the pacifier soon enough, just after your child has been weaned and is getting solid foods, your child may never develop the thumbsucking habit.

Pacifiers have proved a lot less harmful to a child's teeth and mouth than sucking thumb or fingers. Thumbsucking may force your child's teeth out of position and narrow the dental arches. This may cause the upper teeth to protrude outward because of a deformation of the supporting bone.

One advantage of the pacifier is that it is made of soft rubber, while thumb or fingers have an unyielding bone inside. They exert much more pressure than a pacifier and are much more likely to cause dental problems.

Prepared as a public service to promote better dental health. From the office of H. RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545

Valley Vikes fall to Penn

The Valley Vikings came up short Friday against the Penn High School basketball team. Although the Vikings did not win the game, they did win the respect and admiration of the spectators for their fine performance with the regional champs.

Miller led Valley with 22 points and the 6-foot-5 senior center grabbed eight rebounds. Zolman, Valley's second-leading scorer with a 15.1 average, was held to a season-low five points. The 6-foot-3 senior forward did have a game-high 10 rebounds.

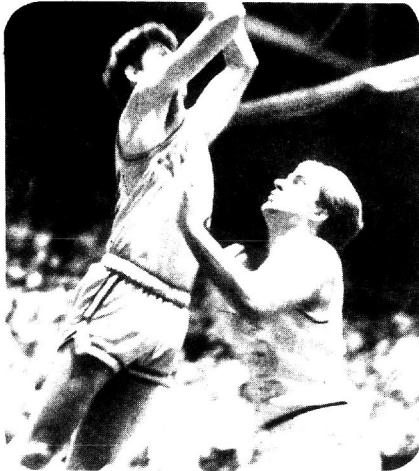

Terpstra added 14 points to the Valley effort, all in the second half. Dion Anglin had seven points and John McDaniel had six. Penn forwards Jeff Wood and Keith Hatkevich scored 12 and 10 points, respectively.

Both teams sank 21 field goals, Valley on 44 attempts for 48 percent and Penn on 51 attempts for 41 percent. The Kingsmen sank 16 of 23 free throws for 70 percent and Valley hit on 15 of 21 for 71 percent.

Neither team played well in the first half. Valley made just seven of 24 shots and Penn 13 of 29. Valley stayed close - neither team led by more than five points - by making eight of 10 free throws.

Valley took its first lead, 22-21, at the 2:16 mark of the second quarter on back-to-back three-point plays by Miller. Creech answered for Penn by scoring four of the next six points, giving the Kingsmen a 26-22 halftime advantage.

Valley scored five unanswered points early in the third period to cut the Penn lead to one point. The Vikings eventually tied the

game three times, the last at 3:30, before Penn scored eight of the next 10 points. Valley entered the final eight minutes trailing 42-39.

Valley took its final lead of the game with a 9-2 run. Terpstra hit from the wing, Miller canned a jumper from the lane and Terpstra added a baseline basket.

Valley's last lead came with 2:55 left in the game when two free throws by Steve Clampitt made it 49-48. Penn scored the next eight points, four on free throws by Creech, and the Kingsmen had their biggest lead of the contest, 56-49, with just 50 seconds left.

Pete Terpstra made a

layup and Dale Miller stole the ball and scored for Valley before Creech tallied what proved to be the winning points on two free throws with 13 seconds remaining. Terpstra sank two free throws with 10 seconds left and, after a missed free throw by Creech, the clock ran out as Terpstra drove for a layup.

With the victory, Penn advanced to Saturday's regional championship game against Westview. Penn won that game to advance to the semi-state.

Retentive memory may be a good thing, but the ability to forget is the true token of greatness.

Viking Boosters

Due to human error, the following businesses were inadvertently omitted from the community support pages for the Valley Vikings during the regional basketball games: Garrett's Sport Saloon, Inc.; Smith Brothers Diesel Injection Service, Inc.; Lewis Motors; Mentone Quick Mart; Insurance 1 Services (Dennis and Todd Helvey); Akron Foundry, Inc.; Morgan's Chiropractic Clinic; Tri-State Harvestore; East Side Service; and Trudy's Beauty Shop.

Everyone in the Tippecanoe Valley School district is proud to be represented by such a fine group of young men and women at the regionals. Good job, kids! You did your best!

ABOUT YOUR HOME

Fall is best for establishing new lawns. However, if the lawn is seeded or sprigged early and watered as needed, spring lawns are successful.

In most areas, March

is an ideal month for planting trees and proper planting rules must be followed if one expects new trees to grow rapidly and straight. Don't skimp on buying reliable trees.

Now is the time to get your lawn mower ready for spring.

There's a Bright New Teacher in Public Service, Indiana.

We envision one 69-county service territory as a community called, "Public Service, Indiana." And to help make it one of the safest, we've recruited a bright, new teacher named, "Louie the Lightning Bug." Louie will appear on television, in newspapers and in person. Louie's message is as simple as it is important: "Always stay away from power lines." If you're interested in additional safety information, please send in the above coupon.

**SPRING
FRIDAY MARCH 20TH
ARRIVES**

Skywarn members needed to aid Civil Defense

Tornado season will soon be upon us and Civil Defense is again calling for the support of Fulton County Skywarn members to be the eyes and ears for the county tornado warning system. Most tornadoes detected before they strike a community are picked up by the eyes of trained volunteer observers - Skywarn volunteers. In that interval of time between a tornado watch and a tornado warning, Skywarn members are the people who detect the funnel cloud and report it so that warning may be given - the gift of time! Civil Defense is asking that all Skywarn members begin their call-in procedures on the first Saturday in April at 2:00 p.m. and continue the call-in procedure each month throughout the tornado season. Civil Defense will be showing its tornado spotting film as a refresher for all Skywarn members or any other organization interested in seeing the film. Skywarn members will be notified of the times and dates of each showing. Anyone interested in becoming a Skywarn member may call Civil Defense at 223-6611. More concern is needed - more trained eyes on the sky.

Reminders:

*Seek inside shelter, preferably in a tornado cellar, underground excavation, or a steel-framed or reinforced concrete building of substantial construction. Stay away from windows. Do not waste time opening windows, seek shelter immediately - the tornado will "open" the windows well before the pressure difference can cause any structural damage.

In cities or towns:

*In office buildings and steel reinforced masonry structures, lie down in an interior hallway on a lower floor, preferably in the basement.

*In factories, post a lookout. Workers should move quickly to the section of the plant offering the greatest protection in accordance with advance plans.

*In homes, the basement usually offers the greatest safety. Seek shelter under a sturdy workbench or heavy table, if possible. In home with no basement, take cover under heavy furniture in the center part of the home. Stay away from windows.

*House trailers are particularly vulnerable to overturning during strong winds. Trailer parks should have a community shelter. Appoint a community leader responsible for constant radio monitoring during threatening weather or during Watch periods.

In schools:

*Whenever possible, go to an interior hallway on the lowest floor. Avoid auditorium and gymnasiums or other structures with wide, free-span roofs, especially those which are not steel and concrete reinforced structures. Students should

assume crouched position on floor along a wall with hands covering head.

In open country:

*If a building is not of reinforced construction, go quickly to a nearby reinforced building, or to a ravine or open ditch and lie flat. Move away from the

tornado's path at right angles. If there is not time to escape, lie flat in the nearest depression, such as a ditch or ravine.

*Keep listening to the radio or television for the latest advisory information. Call the local law enforce-

ment office to report a tornado.

*Remember, Tornado Watch means tornadoes are expected to develop. Tornado Warning means a tornado has actually been sighted.

Letters to the Editor

To: Tippecanoe Valley High School Basketball Fans

We felt we had to take this opportunity to congratulate you for your enthusiasm and support of our basketball team.

Your efforts were evident everywhere - cheering during the games, signs along the routes to the sectional and regional, and participation in the community pep sessions.

A special note of appreciation is extended to the cheerleaders who decorated the building and planned spirit activities. We are grateful to the Kosciusko County Sheriff's Department for making arrangements for the escorts for the team and fan busses to the regional.

In a very real sense all of you contributed to our successful season.

Sincerely,
John Hill, Principal
Victoria Brock, Assistant Principal

Dear Editor:

Thanks to all who came out to the Farm Bureau Ag Day Breakfast held Saturday, March 14. Many people took the time to really look at our agricultural displays and had a chance to visit with friends and neighbors.

Jim Jontz, District 5 Representative stopped in to visit with the people.

Our crowd swelled to about 800, almost double from last year, so thanks to all who patiently waited in line to eat.

Our Farm Bureau members were sure a good crew to work with. Special thanks also go to the Pork Producers for cooking the sausage, Dean's Milk and Krogers for their donations of milk, coffee, juice and bread and Bob Hoppes of Voris Seeds for providing us with pamphlets for one of the displays.

Sincerely yours,
Wayne E. Bode, President

A new beginning...

Three Meals A Day? You Must Be Kidding!

Have you ever noticed we fight the obvious? How many of you have tried fad diets and gained weight back later? All along we have heard about eating three meals a day and eating balanced meals. Did we listen? No. We continued to try the fast way of reducing, only to gain back weight after a temporary weight loss. Once again we would hear about the advantages of eating three meals a day from our mothers who would shake their heads as the latest fad diet circulated the community.

Finally the day came when all the fad diets had been tried with little or no success. The only thing left to do was eat three meals a day and have a balanced diet. (Mothers were smiling). By eating breakfast sensibly, there comes a feeling of control. You know lunch will be at noon and the thought enters your mind, "I can make it until then." Indeed, you make it to lunch time and feeling in control, eat a balanced meal, and set aside time to plan the evening meal. The same basic thing happens at night, you enjoy a balanced meal not depriving yourself of any one thing, and therefore not leaving yourself open for cravings. You make it through the evening without snacking, knowing that in a few hours breakfast will be there. It's as simple as that!

The principle behind this is the fact you know you won't have to do without a meal. If you get up each morning denying yourself meals, it leads to frustration and this leads to cravings and binging. The object is to eat moderately and nutritiously three times a day and not to deprive yourself of anything...merely eat less of it.

One trick in cutting your portions down to size is cut them in half. Take pie as an example. Instead of the regular portion, cut a regular size and then cut it in half. Eat only the half of the regular size piece, you have a little, but not too much, and the situation won't be overwhelming for you. You will be in control. I'm a firm believer that this can reduce the cravings and binges.

The D.A. Pike Lumber Company has opened a new sawmill here during the past few days, and began work this morning on a building to house another branch of their growing business. The new mill is one of the most modern sawing outfits in the middle west and is housed in a 33 by 81 foot building. At present a 100 horsepower motor is being installed and the mill will be in operation in a few days. They plan to do general mill work. The new building will be located on the lot just west of the present retail department of the company. This lot, formerly owned by Ralph Shafer, has recently been purchased by the Pike company and will house dressed lumber, a new department. The Pike company has recently purchased several lots adjoining their property for the purpose of storing lumber and for building purposes. Five trucks have recently been added to the list and things are really humming in that part of town.

Akron Nutrition Site

The Brightening Of The Day
It's doing for others
In any small way,
That makes life worth living

That brightens each day.
It's giving of time
For a cause or a need.
That is greater than self.
That instills a right deed.
It's using one's talent
Doing only the best.
Being willing and ready
At the slightest request.
If kindness is practiced
If care is applied.
Then hearts will be happy
For just having tried.

Tuesday, March 17, St. Patrick's Day. Kenneth Bright presented the Nutrition Site with two dozen green carnations. We all thank you Kenny for the beautiful flowers. Stable rates. Public Service Indiana customers can look forward to stable rates. PSI has already frozen its rates until 1990, and your rates are likely to remain stable well into the 1990s.

Beaver Dam Happenings

This is spring vacation week and the young people are enjoying it. It's just nice getting away from winters daily routine.

The Beaver Dam Ladies Aid held their meeting, at the church, on Wednesday afternoon, March 18th, with Ruth Heighway as hostess. Meeting called to order by President, Faye Smith. Opening song was "How Great Thou Art". Ruth Heighway read devotions from John 19:1-16, and gave prayer. Old and new business was discussed, and cards were sent to the shut-ins. Refreshments were served to Faye Smith, Nina-belle Swick, Lura Cumberland, Lena Igo, Edith Heighway, Doris Haney, Mildred Harrold, Vera Butt, and the hostess, Ruth Heighway.

Mr. and Mrs. Ron Shewman and sons and Jennifer Shewman entertained with a birthday supper for Mrs. Con Shewman, at the home of Mr. and Mrs. Ron Shewman, on Thursday evening. Those present were Mr. and Mrs. Con Shewman and Jennifer, Mr. and Mrs. Bob Heighway, Dennis Wilson, and Mrs. Jerry Parker and son, of Mentone, and the hosts.

Word was received today, of the death of Richard Moore, of Coldwater, Michigan, formerly of this community, and a graduate of Akron High School.

Mr. and Mrs. Robert Follmer, of Niles, Michigan, spent Thursday with Mr. and Mrs. Bob Heighway. Mrs. Follmer and Mrs. Heighway are cousins.

The Talma Homemakers Extension Club met March 12 in the home of Edith Walters. Patten to speak

Evangelist Greg Patton

"Family Survival in the 80's", will be the theme of an exciting series of messages by Greg Patten, an evangelist with a burden for the families of America.

He will be speaking at the First Baptist Church, Harrison at Broadway, in Mentone. The services will be at 7:30 p.m. each night from March 29 through April 3, also at 10:30 a.m. Sunday, March 29.

Greg, a former highly rated rock radio announcer before his conversion to Christ, has been a featured speaker and guest on many radio and television programs throughout America, including WLW-Cincinnati, WXYZ-Detroit, and KMOX-St. Louis.

Pastor Marken invites area residents to join the families of First Baptist Church for these enlightening messages. Nursery will be provided for babies.

Normal?

There's really no such thing as normal weather. The unexpected is indeed normal.

The weather affects just about everyone—and is always a conversational opening. We are able to predict its course today better than ever, but it's still an unknown to some degree.

March is at hand and warmer days are on the way; this summer will undoubtedly be unusually hot in some areas; this will make headlines. That's normal.

Mentone Reading Club

The Mentone Reading Club drove to Warsaw to the home of Lynda Bergin for a program on "Spinning and Weaving". Mrs. Bergin took the club downstairs to "Mom's Room" which she devotes to her hobbies, with walls covered with lovely examples of her work. She began the program with an introduction about spinning in general, then passed samples of wool to spin on fingers. A member of the Lakeland Wool Gatherers,

she explained that raw home-spun wool is elastic, contains lanolin, is water repellent, generates heat, is wrinkle resistant, and an excellent insulator, in fact a miracle fibre.

Mrs. Bergin showed a model how sheep are sheared, and said she obtains some fleece locally but sends away for others with Icelandic and New Zealand wools being favorites. She finds it easiest to wash raw wool 1/2 pound at a time, keeping the water temperature the same for washing and rinsing, and does not agitate the water as it should be clean without removing the lanolin. When dried it is ready to spin or may be combed first, depending on the fleece and the desired result. Carders get the fibres aligned in one direction. Drop spindles were used for centuries, and several types were displayed. The wool may be

dyed and examples of rainbow dyed garments were displayed. Other fibres besides wool may be used, such as mohair (from goats), cotton, dog hair, angora rabbit, or rayon or Dacron.

Following the program, the club returned to Mentone to the home of Mrs. Jerry Hudson. Mrs. John Hurst presided over the business meeting with reports from officers and roll call. The official Call to the Convention was read, to be held in Syracuse, March 18. Mrs. Tom Fugate and Mrs. Hudson were appointed to a Resolutions Committee.

The club voted to support the Blood Bank and Special Olympics with donations. A thank you note was read from the Mentone Science Fair Committee for investing in the Fair. A letter was read from Mrs. Larry Pyle of the Bell Museum Committee stating the annual Arts in the Park would be held July 11 this summer. Mrs. Lee Bazini, Mrs. Larry Kuhn, and Mrs. Hudson were appointed to a committee in charge of a food stand.

Mrs. Darrell King gave the Nominating Committee's slate of officers, which were accepted as follows:

President, Mrs. Jerry Hudson; 1st Vice Pres., Mrs. Kenneth Romine; 2nd Vice Pres., Mrs. Larry Pyle; Secretary, Mrs. Larry Kuhn; and Treasurer, Mrs. Darrell King.

DETECTIVE AT WORK

When your dentist looks into your mouth, he puts all his powers of detection to work. Tooth decay or unhealthy gums are easy to spot. But he has to look closer than the obvious. Mirror, light, x-rays and other instruments help. So do his years of training and practice.

Your dentist is a trained medical observer. He'll be able to spot any suspicious lesions, lumps, discolored areas, or sores that might be malignant. Early detection saves lives.

Lips, tongue, cheeks, any part of the oral cavity are proper sites for inspection. If there's any suspicion of oral cancer, a biopsy or sample of the tissue under suspicion can be sent to a pathologist for examination. In most cases the suspect tissue may be found to be normal and not malignant. It may be just a minor irritation that's causing the problem.

But it's always best to be sure. If there is a problem, it's so much easier to cure if discovered in time. Your dentist is trained to spot other medical symptoms as well as give you the care you need for good dental health.

Prepared as a public service to promote better dental health. From the office of: H. RAY HAZEN, D.D.S., M.S.D., P.C. 1329 Main St., Rochester, Phone 223-3121; 114 Mishawaka St., Akron, Phone 893-4545

My Favorite Teacher

Everyone can remember a variety of experiences from their school days. During my time as a student, I was fortunate to have many fine teachers. Most of these teachers had a positive effect on my life. Each inspired learning and taught me the necessary skills to prepare me to be a life long learner.

However, when I am asked to recall that one teacher who made a significant impact on my life, I immediately refer back to 1929 in Evansville, Indiana. I attended Wheeler School as a sixth grade student. A young woman, named Miss Ruby Strickland was in her sixth year of teaching when I entered her classroom and sat in the second seat from the front. At that time in Indiana, most of the teachers were older and many did not have any teacher training on the

University level. Miss Strickland, however, was young, energetic and was ambitiously pursuing her college diploma while teaching full time.

She was remarkable to me in my limited experience of six years. She continually motivated and inspired the entire class to perform, not just better, but to the very best of their ability. She continually encouraged us to look beyond the classroom - to reach out and learn about a wider environment than Evansville or Indiana.

Miss Strickland has been an active member of the League of Women Voters for many years. Perhaps, this association prompted her to involve us in thinking about public service and the important role each citizen can serve in this field. She literally opened my eyes to possibilities beyond an 11-year olds reach. Looking back, I know now that she was an expert educator, using the Socratic method of

teaching for all students, regardless of age.

Ruby Strickland taught in Ft. Branch and Evansville for 45 years. When she retired in 1968, her colleagues honored her with memories of being the kind of teacher that cohorts often approached for counsel. They related that more of her students return to visit her than any other teacher to their knowledge. She always took a sincere personal interest in each student and continues to take pride in their accomplishments.

Ruby Strickland made a difference in my life. The only thing she did not teach me is to play golf with a low handicap.

Playing Outside? Stay Away From Power Lines!

These are all good tips. Because by staying away from power lines and electrical equipment like substations or transformers, you can avoid being seriously hurt or even killed. more this year than I've learned in 3 years.

The work is fun! She teaches us by doing games. You can tell she's a good teacher, because each week we get 13-21 spelling tests right! Miss Bardon is 25 years old. She went to Michigan State University. She's young and active. She's cool and smart. She comes up with good ideas for learning.

We do most of the work together! That helps a lot of people! I think she really cares about her class!

My Favorite Teachers

The teacher that has influenced me is our Assistant Principal now, his name is Brett Boggs. He taught us how to get our school work in on time, if we really wanted to. And he always made sure we understood something before he let us do it and sometimes in fun ways. He also was a very nice teacher and he understood if we had problems. Mr. Boggs tried to be fair to everyone. He had lots of games and things we could do if we got our work done. Also he liked us to be very organized.

Another nice teacher is Miss Bardon. She also played a lot of games with us and we had a lot of fun. But she taught us when it was time to learn and time to have fun. Miss Bardon had lots of fun ways we could earn class parties and games. She also taught us neat ways of learning math.

The Influential Mrs. Potts
School! So what! Big deal! Who needs it? That is the kind of attitude I had about school. That's a really bad attitude for someone going into sixth grade, but that's exactly how I felt.

Besides, if all else failed, I could have pulled the "my stomach hurts" routine. It had always worked in the past, and I figured it would work a few more times. I could always miss the bus, too.

The first day of sixth grade was the pits. Then to make matters worse, we had a new teacher. New, young teachers always had to be trained by the students, and I thought I was an expert in that department. It didn't take me long, however, to realize that I didn't want to train Mrs. Potts.

She could take the subjects I hated the most and make them an adventure. No matter what we were studying, she could shape and mold it into just enough of a mystery to make me want to discover the clues that solved it.

I was like a blind person who could suddenly see. Mrs. Potts completely turned me around. No longer did I try to think of schemes that would keep me out of school, but I became disappointed when there wasn't school. I became like a starving person who finally got to eat and couldn't get enough. I wanted more!

Mrs. Potts may never know the influence she had on me, but if it hadn't been for her teaching methods, I would still be saying, "Big deal! Who needs it?"

A Special Teacher

This is a true story about a special teacher that helped me during a time when I was afraid to stand in front of the class and speak.

Her name is Susie Kinney. She works with the speech and hearing impaired.

It was through her efforts and on her own time, for no pay, that she was able to give me confidence to speak out. Mrs. Kinney, like Christa

McAuliffe, is a special teacher. Although Christa was from New Hampshire, both believed in bettering America by teaching minors the necessities of life.

Now, because of her belief, I enjoy being in plays,

clubs, and other school activities.

Thank you, Mrs. Kinney for all your help.
