Unofficial totals compiled by the NEWS on election night show the following vote breakdown. The registered voters in each precinct are shown in parentheses.

Soil Stewardship Week May 7-14 In Churches

"Creative Conservation" is the theme for Soil Stewardship Week, May 7 through 14.

Soil Stewardship Week will be observed by pastors and congregations throughout the area. Ministers' booklets and litany sheets have been distributed to 85 churches by the Ladies Auxiliary of the Kosciusko Co. Soil and Water Conservation District.

The material is prepared for use in all faiths by a national committee composed of Right Rev. John George Weber of the National Catholic Rural Life Conference; Rev. Harold S. Huff of the United Methodist Church; Rev. Harry A. McCanna of the National Church of the Churches of Christ in

the USA; Osgood Mannison of the Lutheran Council in the USA; Rev. Roy W. Owen of the Southern Baptist Convention and the Rev. Daniel O. Parker of the United Church Board of Homeland Ministries.

The following poem is imprinted on each litany sheet.

CONSIDER CONSERVATION
It's the will and the skill of responsible man
To protect and use wisely the treasures of land..

The waters and wild-life, the forests and fields,
Plus the bounty of beauty God's countryside yields.

It's the fight against ignorance, waste and greed

To save the resources that all men need.

It's the foe of erosion, forest fire and flood--

Three agents of ruin, pollution and mud.

It's the vision and work, to add something good

To the home, to the farm, to the whole neighborhood.

It's new lawns and new gardens; a lake built to please;

It's roadsides with grass and hilltops with trees.

There's a lot to be done for the state of our living

But each gain requires YOUR share of self-giving.

Consider conservation. Consider it well.

Car Hits Deer

Charles E. Clawson, 39, R. 1, Mentone, escaped injury last week when his car struck and killed a deer six miles west of Warsaw on SR 25. Clawson told officers that at about 3:40 a.m. three deer leaped upon the road in front of his car. In trying to avoid them, he struck and killed one deer, then veered into a fence on the Russell Huffer farm. The car received \$400 damage with \$40 damage estimated to a fence. Deputy Sheriff Richard Mikel investigated.

Hospital vote "no" by 87

The vote on Fulton County's hospital referendum showed 2927 no votes and 2840 yes.

The results of the referendum are not binding on the County Council, whose decision it still is as to whether

the county should build a new hospital on a new site to replace the present Woodlawn Hospital.

The referendum was approved by the Woodlawn hospital board as a means to determine the interest in a new medical facility.

Kathryn Teel Gets Kosciusko GOP Treasurer Nod

Kathryn Teel, R. 1, Mentone, won the Republican nomination for Kosciusko Co. treasurer Tuesday, defeating Mrs. Idle Armey, Richard McCleary and T. Ethna Scott.

She received 2911 votes to Mrs. Armey's 2116, McCleary's 1492 and Miss Scott's 1249.

Tax Deadline Is Extended

The first Mondays in May and November don't loom quite as threatening on the calendar as they they do--but the tenth days of those months have gotten a bit blacker with the change of deadline for payment of personal property and real estate taxes.

The 1972 session of the Indiana General Assembly changed the deadline dates for payments to May 10 and Nov. 10, giving taxpayers a bit more time to make payment.

Fulton Co. Goes For Wallace

Fulton County voters cast 1208 votes for George Wallace Tuesday, giving him an edge over Hubert Humphrey's 1092, and Edmund Muskie's 287.

Miss Hoffman is a graduate of Akron High School.

Akron Old Grads Write Letters

Kappa Delta Phi sorority, Akron, sponsors of the May 13 Old Grads reunion, has received many letters from AHS graduates, including the following:

Dear Class of 1912 and Other Friends:

Was in hopes I could meet with you all May 13, but guess I had better not undertake it. I am truly sorry for I would like so much to meet old classmates and other friends of Akron.

I wish you all a very happy evening together and hope you enjoy good health for a long time yet. If any of you get to Elkhart this summer, would be very happy to see you. Mary can tell you how to find me. Your old friend and Classmate, Winifred Case Wakeman 1210 Burr Oak Apts. Apt. A Elkhart

At the present time it doesn't look like I'll be able to attend this year's reunion. We are scheduling a work load of six days a week, ten hours a day, for three months.

I am enclosing a small check to help cover some of your expenses.

Thank you for all your hard efforts in this project and I hope it is a big success. Marion Gagnon 151 Maple Drive Hendersonville, Tenn.

Enclosed you will find my check for two reservations. Thanks again for making this reunion possible. It takes a lot of hard work, but I'm sure all of us that live out of town are very appreciative of all your efforts and hard work.

See you May 13. Sincerely, Helen Bemenderfer Parker R. 4, Box 365 LaPorte, Ind.

Would very much like to attend, but my condition will prohibit this. If any of my old friends can stop in - or write - I'd be so happy to hear from them. Goldia Bright Class of 1915 Rochester Nursing Home Rochester, Indiana

Wonderful! Wonderful! Thanks so much for having another reunion. I know it is a terrific job. You deserve a standing ovation-plus.

We sure plan to be there, God willing. We pray all your planning and preparations will be without any undo incident. God bless you all, Elsie Ramsey Christman Class of 1933

To My Fellow Graduates Of 1939:

I'm very sorry I can't be with you this year. I was hoping I could

make it but we were in Indiana last year.

I have lived in Phoenix for twenty-five years. I am married and have one daughter who is married and lives in Arizona and has one child.

My husband works as an engineer for Mountain Bell Telephone Co. He has been there for 25 years. I work for a gas and electric company as accounting specialist. I have worked there for 16 years.

In 1960 we went to Hawaii for our vacation.

In 1968, another couple and us took our truck and campers to Alaska. We certainly had an experience. We hope to go again when we can spend more time there.

I would enjoy hearing from any of you who would care to drop me a line.

Elizabeth Mallott Bridegroom 5201 W. Camelback Sp. AP 246 Phoenix, Ariz. 85031

Thanks for the invitation to attend the Old Grads reunion, but too many miles separate us but please greet those who are near enough to be there for me and I want to say that in my opinion "Our class of 1916 were tops."

Cleo Robbins Acridge 6117 W. Friar Dr. Glendale, Ariz.

Dear Mrs. Jennens, A little note to reply to the Old Grads invitation—which incidentally precipitated a lot of nostalgic thoughts. We built your house or at least started it and my Dad's untimely death changed a lot of our plans. I remember your Dad. I used to help Earl Barr drive cattle—he was another "buyer." What a time those wheel-dealers would have out here where egg ranchers, dairies, cattle raising and such are done in the thousands.

Sorry I won't be able to attend the reunion. My vision is impaired due to cataracts and I don't travel well. I would love to know all about the Old Grads. Amy Davis is with her niece in Indianapolis. She had a stroke. We saw her occasionally when she lived in San Diego.

Thanks for the invitation, Byron Snider, M.D. 16429 Ramoda Drive San Diego, Calif.

Lions Sell Candy For Cancer Control

In their continuing fight against cancer, the 62 Lions Clubs of District 25-G, located in St. Joseph, Marshall, Elkhart, Kosciusko, Miami, Fulton and Wabash counties, are preparing to conduct their second annual candy sale from May 6 through May 22.

The entire project is for the purchase of an amazing new cancer treatment machine, the 35-MEV Linear accelerator, which the Lions of Indiana have pledged to purchase at a cost of \$750,000. It is to be housed in facilities now being constructed at the Indiana University Medical Center in Indianapolis.

The 35-MEV Linear Accelerator is designed to treat large numbers of people who could never before be treated with X-rays. No matter where the cancer lies, this super machine can reach the cancer, painlessly, without excessively damaging the underlying tissues.

The super life-saving machine is 35 times more powerful than the existing Cobalt machines. It has the advantage of not only producing X-rays, but a new treatment ray known as an electron beam which is intensely powerful and can be directed at the cancer and then stopped before striking vital organs. This machine will also be an important research tool available to all physicians when not in use as a life-saving cancer machine.

Some 2,900 Lions of District 25-G will be asking for a dollar donation for a bag of candy. Persons who have an opportunity to help will assure themselves of the availability of the services of the 35-MEV Linear Accelerator should they or their loved ones ever need treatment.

The use of the machine will be available to all patients without regard to their ability to pay for its use.

DAR Chapters Hold Joint Meeting In Honor of Good Citizen Girls

The April combined meeting of Anthony Nigo Chapter of Mentone and Agnes Pruyn Chapman Chapter of Warsaw was held at the Westminster Hotel at Winona Lake recently with the Good Citizen award-winning girls and their mothers as guests.

A smorgasbord dinner was enjoyed. Invocation was given by Mrs. Ruth Bartol of the Warsaw chapter.

Mrs. Yeager gave the national defense topic, "National Survival at Stake." She said communism continues to spread in the world each year. Russia's naval power is greater than the United States. Its goal was and is to take over our country. Meetings with the U.S. are just a farce to keep up the pretense of peace while they increase their power.

The Mentone representative was Cynthia Wise, and the Warsaw representatives were Theresa Bernard and Barbara Rush, who was also the county winner.

An unusual program was given by Mrs. Ruth Urschel of Mentone, chair-

man of the Christian Social Relations of WS-CS, Northern District of Indiana. Her topic was "Patriotism" and she explained her attendance at the National Legislative Training Center last summer. The three major topics discussed were drugs, welfare and war.

The next meeting of Mentone's Anthony Nigo Chapter, DAR, will be at the home of Mrs. David McGuire, Warsaw, on May 9. The program will be a report on Continental Congress.

That last Saturday was a strenuous inpour of eggs at Strong's Sanitary grocery goes without saying by the multitudes that thronged the store that day. Eggs came by pailsful, basketsful, tubsful and barrels, all selling at 19c per dozen. In all there were about nineteen hundred dozen delivered at this popular grocery that day and for which Mr. Strong paid out in cash or trade the princely sum of \$361. It is fair to presume that there were marketed at the other places that buy eggs their usual allowance. Mr. Roy Hoover won the prize with a basket of eggs containing 86 dozen and seven, and was the winner of the prize--a handsome set of dishes, which he prizes very highly. Mrs. Windbigler brought 40 1/2 dozen and R. N. Gast brought 47 even dozen, both of which are quite large consignments, were the largest excepting the winner.

It appears that some of the boys about town have been repairing to the old town cemetery and engaging in play there. They play leap-frog and such other games that are more or less injurious and destructive. We do not think the lads mean any harm, but those who have friends resting there do not take kindly to the habit the boys have in sometimes congregating there. Parents should look to this matter a little and see that their sons are taught to hold a cemetery more sacred than to use it as a playground.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

Dollars spent for good eating are dollars well spent. Or are they? Do you sometimes wonder if you make the best use of your food money? With the wide array of products now available on the grocers shelves, it is sometimes difficult to make a wise choice.

How much should you spend for food? There is no dollars and cents answer to this question. You should spend enough to give your family nutritious meals they enjoy eating. A good diet depends on the foods you select, not the amount of money you spend.

To help you estimate how much you might reasonably spend, the U.S. Department of Agriculture have figured the costs of three basic food plans. Weekly food bills for a family of four with the low cost plan add up to \$25 to \$35 depending on the

ages of the children. Comparable costs for the moderate-cost plan are \$30-\$45 and for the liberal plan \$40 and up. Remember this figure does not include paper products, soap, pet foods, and cigarettes. The U.S.D.A. has found that these items account for over twenty cents, of every dollar spent in super markets.

HOMEMAKERS CONFERENCE

June 14, 15 and 16 is Homemakers Conference at Purdue University. All homemakers in the state are invited to attend. Topics for the conference include: The Consumer and Indiana Law, Think Metric, The Detergent Dilemma, The Abortion Issue and many others. If you would be interested in attending on Wednesday, June 14, and would like to ride on a bus, please notify the Extension Office. If we receive enough interest we will

THE JUBILEERS GOSPEL SINGERS will appear at the Talma Bible Church on May 6 at 7:30 p.m. This group has devoted their lives to spreading the gospel throughout Indiana and parts of Michigan. Members are Cal and Helen Knapp, Marianne Myers, all of Angola, and Beverly Sponhauer, Ligonier. The Jubileers recently made their third L.P. record in Nashville which will be released in mid-May. Also appearing will be the Rories and the Ryors, gospel singing families from Osceola. The public is invited to attend this worship service.

Catholics-Protestants Join In Worship Sunday At Akron Church

Capuchin Novices of the Saint Felix Friary at Huntington will join with the congregation of the Akron United Methodist church in an ecumenical worship service this Sunday morning at 10:30. The inter-faith congregation will celebrate their unity in Christ through personal testimony and contemporary hymns. Following the worship service, the congregation will have a carry-in dinner at the church annex at 12 noon. They hope in this way to foster a better understanding and appreciation of each other, typifying the growing Protestant-Catholic sense of unity and cooperation. The public is invited to join in this service.

In explaining ecumenism, the Rev. John E. Moore, pastor of the church, says, "We are hearing a great deal about ecumenism in church circles these days. This is a strange-sounding word to many, who wonder what it is all about. It comes from an ancient Greek word meaning 'the whole in-

habited world," and is used by Christians to refer to the fellowship of Christians of all lands and all churches as the "one body of Christ" (to use Saint Paul's expression).

The Capuchin Novices are a group of young men belonging to the world-wide Order of Friars Minor, Capuchin, founded by Saint Francis of Assisi in the 13th century. They have come to Saint Felix Friary for their first year in the Capuchin Franciscans, spent in intensive prayer, reflection and spiritual growth. In August, the Novices will make their first profession of the vows of poverty, chastity and obedience, following which most of them will go to the Capuchin Seminary of St. Mary in Crown Point to continue their college studies. The Novices vary in age from 18 to 24 years and come from Canada, New Jersey, New York, Wisconsin, Illinois, Indiana and Michigan.

Truth For Today Will Observe 24th Anniversary

The Truth For Today Bible Class will celebrate its 24th anniversary Sunday, May 7, at the home of the teacher, Oscar M. Baker, who lives on CR 100S, the first house west of 600W, seven miles from Warsaw and seven miles from Mentone. Speakers will be Garrett Hazekamp of Miskegon, Mich., Harry Myers, Linton, and Mr. Baker. Sessions will be held at 10:30 a.m. and 2 p.m. Lunch will be a carry-in with beverages and service furnished. The public is invited.

Mr. Baker is also editor of the Truth For Today magazine which now covers all the states and 43 foreign countries. The purpose of the class and the paper is to search and see what the Bible has to say for itself without any reference to traditions, creed or preconceived notions of men. The Bible is not to be used as a proof text for any doctrine, but as a source of information, says Mr. Baker, who asks, "Are you interested in the dispensation of the mystery?"

WCTU Plans Mothers Tea

Mrs. Dora E. Whetstone, 82, Mentone, was dead on arrival at Murphy Medical Center Friday afternoon. Death was attributed to complications following an illness of several months.

A lifetime resident of the Tippecanoe and Mentone communities, she was born Sept. 14, 1889 in Marshall Co., the daughter of Henry A. and Amanda Munch Eaglebarger. She was preceded in death by her husband, Abe Whetstone. Mrs. Whetstone had operated the EC Coin Laundry in Mentone since 1964.

A member of the Mentone United Methodist Church, Mrs. Whetstone was also a member of the War Mothers, the Tippecanoe Rebekah Lodge and the Home Ec club.

She is survived by one son, Vinson Goodman, Mentone; a brother, Joe Eaglebarger, Argos; one sister, Mrs. Fern Coar, Etna Green; seven grandchildren; 13 great-grandchildren and several great-great-grandchildren in California. She was preceded in death by three daughters and two sons.

Funeral services were conducted Monday afternoon in the Mentone United Methodist Church with the Rev. L. E. Todd officiating. Burial was in the Harrison Center cemetery. The King Memorial Home was in charge of the arrangements.

TVSC board votes 4-1 for 1 school, location not selected yet

By a 4-1 vote in a special meeting Monday night, members of the Tippecanoe Valley school board agreed to build one high school, to be located on a site to be purchased within one mile of the center point between Akron and Mentone.

This decision, a reversal of previous board policy calling for two high schools, one at Akron and one at Mentone, came after a long discussion and two executive sessions.

The motion to build one high school was made by the board president, Maurice Coplen, who said he called the meeting because he felt it was time to discuss issues without "campaign speeches" and said that the outcome of the election last week in which board members favorable to one high school were elected could be interpreted as being a vote against two new high schools or for one new high school. He said it would be impossible to get everyone, school board members included, to view the matter the same way but that he felt not much had been accomplished in the two years he had been on the board. "This," he said, "was not my intention," and he listed as alternatives: 1) Stay as we are 2) build two new high schools to state specifications (noting that the board did not request all the items the state had asked them

to include in two schools) or 3) build one new high school.

Coplen's motion was seconded by Richard Goshert after he left the room to confer with someone in an adjoining room.

A roll call vote showed Coplen, Goshert, Dr. John McKee and Philip Lash voting yes and Dr. Donald J. VanGilder casting the no vote.

Coplen, Lash, McKee and VanGilder have always favored maintaining two high schools. VanGilder was defeated last week in his bid for reelection by Dr. Wymond Wilson, a proponent of the one-school plan. Goshert has always voted for one school and was re-elected for a second four-year term last week.

Much of the discussion centered on location of the school, costs, which were estimated by board members to range from

\$3 to \$5 million to more than \$6 million (VanGilder) and curriculum and depth of the curriculum.

Dr. McKee said he doubted the savings that had been projected by Goshert in past meetings could be realized, saying he expected football would be added with additional coaches and that more administrators would be needed.

Dear Editor:

When I returned to Indiana for spring vacation from the high school where I teach in Honduras, Central America, I thanked God I was back in my homeland where public issues are resolved at the polls rather than in armed conflicts in the streets and where the ordinary citizen is not intimidated for pursuing his convictions in an honorable way. Such thoughts provided tranquility for a mind tormented by the memory of six unarmed peasants being shot down in cold blood because they had colonized two uncultivated acres of the thousands of acres of the property of a powerful feudal landlord. (This occurred in Honduras one month ago). How relieved I felt to return to that land whose streets are "paved with gold," according to many of my acquaintances from south of the border.

Then came the painful realization that home town, U.S.A., is not always the idyllic paradise I've envisioned, far removed from chicaneries I thought only existed in the underdeveloped countries, but sometimes it becomes the playground for the puerile ploys of political potentates. That new realization came to me with two post-midnight telephone calls on Tuesday, May 2, in the form of obscenities alluding to my father's defeat in the school board election. With the second such call I recognized the voice of a childhood playmate of mine, a former neighbor. I did not have the opportunity to thank him for his surreptitious strategy of hit and run, because once again he "hit and ran."

Rather than call back my aforementioned "well-wisher" to congratulate him on his sense of propriety, I have decided to thank him publicly in this letter. I should also like to invoke him to use his influence in the community to retain a course in U.S. History in the curriculum of the new school or schools, as the case may be, provided such important courses as "advanced forward passes" and "underwater basket-weaving" not be eliminated. May I further suggest that my "gentleman" caller enroll in that history course to learn a basic premise he obviously

missed in school: The greatness of our republic lies in its inscrutable ability to incorporate in its melting pot all citizens, even the most uncouth late night anonymous callers such as he.

Sincerely,
Donna VanGilder dePineda

Dear Editor:

Muncie is a beautiful little town with its river making its silent way through the town. As I stand in my yard, three crab apple trees send out their bloom and I doubt that Heaven can surpass its beauty. Spring is here as little radishes and lettuce, as well as green onions lift their heads to the sun. Yesterday I picked a tulip for my wife and place two yellow dandelions in the vase. Everyone that came in remarked of the beauty and the depth of color.

The green grass, the smell of new turned earth, the tiny purple violets, the budding of the trees, taking down storm windows, and the smell of new paint and the children picking up around the Center. The high school boys from Southside raking the yard across the alley. The children planting over \$100 worth of seed and the community planting 300 little trees. New lights and sign at the store across the way. The beautiful blooming house plant that some-

one brought. The girl last Sunday giving the Children's Sermon telling us about the earth worms. The girl bringing a group to watch my small garden grow.

The whole world is alive. All the above from Muncie!

I was there and I am glad.

Can You Guess?

It costs nothing, but creates much. It enriches those who receive without impoverishing those who give. It happens in a flash and the memory of it sometimes lasts forever. None are so rich they can get along without it, and none so poor but are richer for its benefits.

It creates happiness in the home, fosters good will in a business, and is the countersign of friends.

It is rest to the weary, daylight to the discouraged, sunshine to the sad, and Nature's best antidote for trouble.

Yet it cannot be bought, begged, borrowed or stolen, for it is something that is no earthly good to anybody until it is given away.

What is it? IT'S A Smile!!

A former editor of a country newspaper asks, "What makes 'good' communities?" Writing to a friend, he says, "Now any observer knows that there are...towns and counties where folks get along, where the casual visitor can hear that so-and-so is a useful citizen and not a son-of-a...where people seem to be helpful to each other. The carpenter tells any inquirer how to cut a rafter, the trapper shares his favorite bait, the ones who can write or talk do so on request. Of course, such a community character is not always unanimous; there are always those women who run the errand girl down with their tongues and men who run her down with their legs, but if most are tolerant the community may survive with the strength that can make it valuable."

Yes, it takes more than payrolls and town boosters to make a good community. It takes a breadth of vision in the ranks of its citizens--a desire to be above petty-talking meanness. As the former editor implies, it takes considerable striving to be a good community.

Jefferson Davis is remembered for the unique position he holds in American history as the first and only Confederate President, a man of forceful dignity, grave, sober, philosophical. This novel is the story of that youthful time and that love.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

There are several thousand kinds of species of wild mushrooms. Some are extremely poisonous, the majority of these are unattractive for eating because of poor flavor or texture or small size. And a few types of mushrooms are not only edible but delicious. Fortunately some of the wild mushrooms that are easiest to identify are also among the choicest for eating.

There are several folk rules that claim to distinguish edible from poisonous mushroom. These rules have evolved from experience with wild mushrooms, chiefly in European countries, where for centuries people have gathered and eaten many kinds of wild mushrooms. Each of these rules have some validity in a given area, where only one or a few kinds of poisonous

mushrooms occur, but generally they are without value and should not be depended on. There is no test other than eating to determine whether to unknown mushroom is edible. This means that anyone who gathers mushrooms must be able to identify every specimen picked.

The morel is the most common edible wild mushroom. It is four to eight inches high and the cap is light tan to brown, the stem white and both cap and stem are hollow and brittle. They appear this time of year especially with abundant rain. They can be found in wooded areas, pastures and lawns. They freeze well for future use.

Other types of edible mushrooms include: inky caps, shaggy mane, oyster mushroom, fairy ring mushroom, and meadow mushrooms.

Nutritious And Economical Cheese Stuffed Hot Dog - Potato Casserole

Delicious, attractive dinners can be economical if you plan them around hot dogs. They combine so well with other foods that variety in hot dog meals is limited only by the imagination.

This great American favorite is nutritious and inexpensive, contains a healthy 12.4% protein when cooked, and is low in carbohydrate (1.6%). Like most processed meats, hot dogs are government inspected.

Cheese stuffed hot dog-potato casserole is a good example of creative cooking with hot dogs. Cleverly arranged in a casserole, this combination makes an irresistible good hearty dinner.

Cheese Stuffed Hot Dog-Potato Casserole

6 hot dogs
6 strips process American cheese, cut 3 1/2 by 1/2 by 1/4 inches
6 slices bacon
6 servings hot seasoned mashed potatoes
2 eggs, slightly beaten
3 tablespoons instant minced onion, fresh
minced chives or thinly sliced green onion
5 to 6 drops hot red pepper sauce
2 packages (10 ounces each) frozen green peas, cooked, drained, buttered and seasoned, optional

Split hot dogs lengthwise, not quite through. Place a strip of cheese in cut of each hot dog. Cook bacon slowly until done, but still limp. Wrap a slice of bacon around each stuffed hot dog. Combine potatoes, eggs, instant onion, chives or green onion and hot red pepper sauce; mix. Spoon potato mixture over bottom of well-buttered shallow 2-quart casserole. Arrange franks down center of potatoes. Bake in 400°F. oven until hot dogs and potatoes are hot, cheese melted and bacon crisp, 12 to 15 minutes. Just before serving, spoon peas around edge of casserole. Yield: 6 servings.

remembering the "good of days" is one thing. Returning to them is another. Who wants to go back to the time—

When a boy had to remember to empty the drip pan under the ice box before he went to bed?

When Dad had to pump the water for his bath and carry it to the stove to be heated?

When Mom filled the kerosene lamps, trimmed the wicks and washed the glass chimneys every morning?

Then electricity came—and it was such a wonder that Penn Central put on special trains to take sightseers to view the lighted streets of Menlo Park, N.J. Before we could take it for granted, there were some years of finishing the last chapter of a book before 11 p.m. because that's when the power went off. Or watching the newspaper for the notice that the power would be turned on for daytime ironing.

You don't have to be an antiquarian to remember when frozen food storage was an extra deep shelf under the ice cube trays... When a clothes dryer was a wooden rack... When you had to light the water heater before a bath or wait until the furnace had a chance to heat the water in the tank... When you toasted bread under the broiler and raced to get it out before it resembled charcoal.

It would be hard to talk the nostalgic into dumping out the geraniums planted in that big copper tub and using it again to boil clothes on wash day. Or playing the old tunes on a wind-up phonograph. Or taking the flat iron down from the bookshelf to plant petticoats. Ah, memories!

Mrs. Gibson told how to acclimate plants grown inside the house to the out of doors weather by doing it by degrees. She also told how pinching off first buds and flowers of newly started plants would pay off in growth and production later.

The subject of Mrs. Herman Olson's lesson

was color patterns in the home. She showed pictures of different rooms with different colors and designs. A discussion followed.

Mrs. C. O. Mollenhour had charge of the installation of officers of the club. Mrs. Monroe Romine is president and Mrs. Herman Olson is vice-president. Mrs. Allen G. Shirey is secretary and Mrs. Don Bunner is treasurer.

School Boards May Be Insured

Indiana Attorney General Theodore L. Sendak ruled Friday that school boards may buy insurance coverage with public funds to protect their members from being sued personally in civil suits arising from their board membership.

Sendak's reply came upon a request from a state examiner of the State Board of Accounts which audits the financial records of state and local governmental units, including schools and must determine which expenditures are legal and which are in violation of a state law or regulation.

Sendak said, "The General School Powers Act grants authority to the governing body of a school corporation to purchase insurance, payable from public funds, which covers employees' personal--civil--liability suits arising from acts committed while within the scope and course of their employment."

Sendak's opinion said this 1965 law "provides specific authority for a school corporation to insure the school corporation, members of the governing body, employees, contractors or agents of the school corporation from an liability, risk, accident or loss related to any school property, school contract, school or school related activity. This authority includes, but is not limited to,

the purchase of insurance protecting such persons against false imprisonment, false arrest or for acts committed in the course of their employment."

The subject of liability insurance has been discussed at Tippecanoe Valley school board meetings but no action has ever been taken.

500 Pole Position At Stake Saturday

The frantic search for additional speed at the Indianapolis Motor Speedway will reach its climax Saturday when drivers engage in a record-breaking battle for the No. 1 starting berth in the 56th annual 500-mile race or May 27.

Most contenders for the coveted pole position, which is worth approximately \$20,000, believe the present one-lap and four-lap records of 179.354 and 178.696 miles an hour will be broken by at least 10 miles an hour. Five former pole position winners and six other veterans who have earned front-row positions here on one or more occasions are expected to lead this assault.

Former pole position winners hoping to repeat are A.J. Foyt and Marvin Andretti (twice each), Al Unser, Joe Leonard and Peter Revson, who was the 1971 "dark horse" winner of that honor at record speeds. Bobby Unser, Mark Donohue, Johnny Rutherford, Jim Hurtubise, Gordon Johncock and George Snider also are former winners of front row positions on hand to try again.

They'll be sharing the spotlight with several other veterans, who have turned in fast practice laps, and such promising newcomers

Mike Hiss, first 1972 rookie to pass the required 100-mile familiarization test in preparation for the 500-mile race on May 27, removes the "rookie stripes" from the wing of his car with the help of Chief Steward Harlan Fegler.

as Mike Hiss, Swede Savage, Sam Posey and George Eaton. Attention also will be centered on John Mahler, an outstanding 1971 "rookie" who did not participate in the race after earning a starting spot. His car owner, Dick Simon, whose qualifying speed was not among the 33 fastest, was given permission by USAC officials to replace Mahler on Race Day.

Time trials will be resumed Sunday at noon, following three hours of practice when the gates are opened at 9 o'clock, and drivers also will be given an opportunity to earn starting positions on the week-end of May 20-21. The fastest 33 will form the Race Day lineup behind the Hurst/Olds pace car.

MARYSVILLE, WASH., GLOBE: "A good gauge of the effectiveness of an elective official is the frequency in which he opens his mouth during the first few months in office. As with all new jobs, it takes time to learn the ropes. After several years of watching the performance of elected officials, we have come to the conclusion that those that exercise the most restraint at the beginning of their terms have been most effective in the long run."

53% Vote In Fulton County Primary Election

Fulton county's record turnout at the polls last Tuesday showed that 53 percent--5,955--of the eligible voters exercised that privilege.

Merrill Kendall, the county clerk, said the hospital referendum and school board elections in Newcastle, Henry, Liberty and Wayne townships were the main factors in the large voter turnout.

He said 277 of the 542 registered voters in the under-21 age bracket voted, 51 percent. The young people split down the middle on party preference with 139 Democratic votes and 138 Republican.

A total of 124 of the 542 were under 18 years of age and were permitted to vote because they will be 18 by the time of the general elections in November. Of the 124, 80 voted--64 percent. These 80 were not allowed to vote on the hospital referendum.

Henry Precinct 1 had the best turnout of voters with 64 percent, 443 of the 694 eligible voting. Henry 3 was second with 61 percent, and Rochester 2, 6 and 7 each had 58 percent. Newcastle township had 57 percent.

The voting statistics as compiled by Kendall show:

Precinct	Eligible	Voted	Percent
Henry 1	494	309	61

Mother-Daughter Tea Is Planned At Mentone Church

A mother-daughter tea
is planned by members
of the Mentone United
Methodist Church on Friday
evening, May 19, at
the church.

The welcome and re-
sponse will be a three-
generation effort.

A talent program and
salad bar will also be
provided.

Mentone VBS Theme Is "We Worship God"

"We Worship God" will
be the theme of the Men-
tone United Methodist
Vacation Bible School
to be held June 5-9.
Classes are planned for
preschoolers up through
sixth graders. Co-dir-
ectors of the school are
Mrs. Paul Knoop and Mrs.
Tom Fugate. Daily mis-
sionary offerings will
be received and sent to
"Napo" Napoleon Etienne
in Haiti for support of
mission school teachers.

Pre-enrollment begins
Sunday, May 14, and con-
tinues until the opening
of Bible School. All
children in the commun-
ity from four years of
age through the sixth
grade are invited to at-
tend the school.

For The Fun Of It

A business associate of ours handed us a card
with an idea which we think bears repeating--
with tongue in cheek!

"Rule No. 816--Relating To New Ideas"
"WHEN CONFRONTED WITH A NEW IDEA YOU ARE MORE
CERTAIN OF BEING RIGHT IF YOU VOTE AGAINST IT."

"REASONS"
1. It may not be a good idea--they seldom are.
2. Even if it is a good idea the chances are
that it will never be put to the test.
3. Even if it is a good idea and even though
it is tried out, the chances are that it won't
work the first time.

4. Even if it is a good idea and even though
it is tried out and even if it succeeds, there'll
be plenty of time for thinking up alibis."

THEREFORE:
"WHEN CONFRONTED WITH A NEW IDEA YOU ARE FAR
MORE CERTAIN OF BEING RIGHT (OR AT LEAST SAFE)
IF YOU TAKE A VERY DEFINITE AND POSITIVE STAND
AGAINST IT."

WHAT OTHERS ARE SAYING

"We spend \$40,000 on
each baby and we make
our last payment on our
child's education just
in time to hear him lash
out against our mater-
ialism."

This declaration by
Prof. Florence Kerck-
hoff, director of child
development laboratories
at Purdue University,
started a soul-searching
debate on child rearing
at Purdue's second an-
nual Women's Day.

Prof. Herckhoff told
more than 100 Purdue
alumnae who returned for
the day long affair that
many of today's adoles-
cents and young adults
are not involved and re-
sponsible.

Church of God Begins

The Akron Church of
God, in a business ses-
sion last Thursday eve-
ning, authorized the
construction of a new
educational unit to be
attached to the present
church structure. The
two-story building will
measure 90' x 67'. The
lower level will house
a number of children's
classes and the upper
level will be a multi-
purpose facility for
adult classes and fel-
lowship. Also included
will be administration
offices.

Associated Engineer-
ing of Indiana is serv-

ing as the church's ar-
chitect. William Cunt-
er, a representative of
the firm, has been work-
ing with the congrega-
tion.

The construction date
has not yet been set,
but it is hoped that
construction will get
underway in the early
summer.

The church trustees
who serve as the build-
ing committee include
Lloyd Saner, Hugh Wilder-
muth, Cecil Shoemaker,
Charles Smoker, Charles
Swick, Gary Brown and
Larry Klein.

Church of God To Honor Mother of Year

The Mother of the Year
award will be given at
the Akron Church of God
this Sunday in the 10:25
worship service.

This is the 16th year
the award has been giv-
en. Bonnie Bickel was
Mother of the Year in
1971.

In the worship hour,
Pastor Thomason will
speak concerning, "How
To Have A Happy Home."
Special music will fea-
ture the Sanctuary Choir,
and the newly formed
Junior Choir. Both of
these are under the dir-

ection of Ray Bradway.

In the 7:30 service,
the film, "God Loves
People" will be shown.
This is a recent Ken
Anderson production and
is shown in living col-
or. At this time also,
a Family of the Year
award will be given as
the church seeks to mag-
nify the importance of
the Christian family.

Pastor Thomason states
the public is cordially
invited to attend these
services.

New Honors and Recognition Offered in 4-H Beef Program

SPECIAL - More than 8,500 4-H members are expected to earn recognition in the 1972 national 4-H beef program, reports the National 4-H Service Committee, Chicago.

In announcing the new program of awards sponsored by Celanese Chemical Company, the Committee notes that six national scholarship awards of \$700 each will be presented. A winner from each state will receive an expense-paid trip to the 51st

National 4-H Congress, Nov. 26-30, in Chicago. And up to four medals of honor will be awarded in each county.

Beef project enrollment figures recently released by the Cooperative Extension Service, which supervises 4-H, show over 152,000 participants. One of the most popular 4-H animal projects, enrollment is keeping pace with the need for producing the best quality beef possible for America's discriminating consumer.

Boys and girls enrolled in the program learn how to select the best kind of cattle and maintain rapid, efficient gains. They also fit and show at fairs, and learn to judge live and dressed cattle as part of the program activities.

Like most 4-H members, young people enrolled in the beef program are looking for career ideas and greater involvement in leadership development as well as fun and recognition.

The 4-H'ers are encouraged to try the most modern practices recommended by the state agricultural colleges and adopted by commercial breeders and feeders who frequently serve as volunteer 4-H leaders.

Reflecting his company's support of the 4-H beef program, Tom C. Addison, director, Agricultural Products, Celanese Chemical Company, a divn. of Celanese Corporation, said:

"We at Celanese are most pleased to join the ranks of the other outstanding companies that annually sponsor various 4-H programs. We believe the 4-H organization can be almost unique in the outstanding contributions it makes to youth. We look forward to a continuing and constructive relationship."

Information about the local 4-H beef program and related activities is available from the county extension office.

Time To Prune Flowering Shrubs

Spring flowering shrubs should be pruned immediately after they have finished flowering, according to Lawrence L. Hoyle, area extension agent in landscaping.

The primary purpose of pruning flowering shrubs is to keep them young and actively growing. If one or two of the older canes are removed to the ground each year, the shrub may be kept open and bushy.

The "hair cut" style of pruning destroys the vigor and the natural form of the shrub.

For more information on pruning, write for a free mimeo entitled "Pruning Trees and Shrubs" from the Cooperative Extension Service, Post Office Box 259, Crown Point, Ind. 46307

School Board Votes One School

Cont. from page 1

Goshert said, "Our sole purpose is not to save money but the best utilization of money," at which he was asked to estimate the cost of a building. He estimated, \$3 million, and McKee retorted it would be more like \$5 million, a figure also estimated by Coplen and Iash and described as more than adequate by Goshert. Superintendent Robert Forbes said he had not had time to compute the cost of a 9-12 high school but would estimate \$3.5 to \$5 million, depending what was put into it.

Forbes also said he was not prepared to answer a question posed by a board member as to the school's size. He did not know if it would need to house grades 9-12 or 10-12 but said he thought "we can get by with 10-11-12." He said Talma Jr. High School and the relocatable classrooms at Akron would be discontinued and he would have to compute the effect of those 400 students in the present buildings and the curriculum to determine the size of building necessary. He said, on being questioned by McKee, that there would be advantages to having the ninth grade in the school because of some course duplications and because of sports.

Board members tentatively agreed to meet on SR 19 at CR 800 after 5 p.m. Friday to look at possible sites.

Forbes suggested the board take an architect along to look at sites, but no action was taken. Neither was action taken on a suggestion by McKee that a project manager be hired to supervise the actual construction. He said he did not think the super-

intendent could administer the schools and supervise a building program at the same time and cited a report in a manual prepared for the State Superintendent of Public Instruction that a savings could result if a professional project manager were used.

Forbes told McKee the corporation did have a consultant and an architect-engineer and said he had supervised building programs and administered schools at the same time before and could do so again with the aid of the consultant and architect.

Coplen asked board members to visit five other schools within a 30-mile radius of TVSC before committing themselves to a building program.

After adjourning to meet in regular session Monday night at 7:30 p.m. in the superintendent's office, several irate residents of the corporation demanded to know why the board had selected the general location of half-way between Akron and Mentone. They were told it was done in an attempt to be fair to everyone, a reply that angered the group into fist pounding fury and brought forth a burst of invectives as to the board members' mental stability and willingness to consider the students in the Atwood area. Asked if they desired to have the school built in Mentone, several replied that it should be built in the "fairest" location considering geographic and population centers. The corporation's population center was described by one man as constantly moving north. He said it showed no sign of ever going south.

As the barrage of remarks, questions and insults continued, board members left the room

leaving some to mutter additional invectives and others to wonder at the final outcome of a battle that has raged for ten years since the corporation was formed from five township schools in two counties.

Receives Accounting Award At BSU

John M. Romine, Mentone, a junior at Ball State University, has been selected to receive the \$500 Haskins and Sells Foundation Award for the 1972-73 academic year.

Haskins and Sells is a national public accounting firm that each year presents this special award to the Ball State senior majoring in accounting who has the highest scholastic ratio at the end of the junior year.

Finish Assessing Now - Tuesday Is Too Late

Henry township trustee Norman Burkett reminds residents that Monday is absolutely the last day for assessing. He will be in his office every day from 8 a.m. until 4 p.m. and until noon Saturday. A penalty plus interest will be assessed anyone not completing the assessment forms by Monday.

Fulton Co. Council Will Decide Hospital Issue May 30

The Fulton County Council will meet at 9 a.m. Tuesday, May 30, to decide if it will authorize a letter of intent that would indicate its willingness to appropriate local funds for a new hospital.

The letter is needed in order for the hospital trustees to obtain Hill-Burton federal funds to go with local money for building a new hospital.

Jesse Brown, acting county attorney, told the Council Tuesday that such a letter would not commit the Council to appropriate the local funds. He said it would indicate the Council would obtain the local funds if such money is available.

The May 30 meeting will be open to the public and spectators will be welcome to make any comments desired before the Council makes its decision.

TVSC teachers ask salary increase, Board approves Akron gym repair

Teachers in the Tipp-ecanoe Valley School Corporation have asked for a five percent per teacher annual pay increase.

The request came at Monday night's school board meeting and was made by Billie Davis, TVSC classroom teacher representative. Accompanied by members of the salary committee, Davis said the increase would fall under the 5.5% limit set by the Wage Stabilization Board last fall. He stressed that this was not an "over-the-board" salary increase but one that, would benefit all the teachers. The pay increase would raise the starting salary from \$7,005 to \$7,355 and would raise beginning master degree teachers from \$7,425 to \$7,795 with the top for a master teacher with 21 years' experience being \$11,985. The teachers also asked increased, fringe benefits, increased pay for extra-curricular activities and the addition of sabbatical leave for any teacher under 60 who has completed ten consecutive years of teaching in TVSC. This leave would permit a teacher to engage in full-time professional study, research or educational travel, or any combination of these. Teachers taking sabbatical leave would be expected to return to regular service for two school years in TVSC. A teacher on sabbatical leave would retain his tenure rights while on leave and would receive seniority and salary increment for the period of the leave in addition to being paid one-half of the salary he would have received had he remained on active duty.

The board did not reach a decision on the proposal during its executive session but indicated a decision would be made at the June 5 meeting.

Attending the meeting, in addition to the teachers, were almost 80 residents of the corporation. Because the superintendent's office could not accommodate so

many spectators, the meeting was moved to the Mentone school study hall and members of the audience were given an opportunity to address the board members.

Eddie Creighton, speaking on behalf of the Atwood-Warsaw area residents, noted that the TVSC district extends

60 YEARS AGO

Henry Harsh and Earl Leininger have each bought a lot of Jno. T. Ginn in the eastern part of town and rumor has it that each will build a new house thereon beginning very soon.

Charley Bowman, eldest son of Mr. and Mrs. Wid Bowman, with his wife has moved in with his grandma, Mrs. S. K. Cook, and they will take care of her.

The Town Board session was rather a quiet one last Monday evening. There were several persons present, who object to paving--probably on account of lack of drainage--some say, rather have water works first. As we understand it, the surface drainage proposition goes with the pavement, the same as with more gravel on the street. The Board is taking the matter slowly, watching the treasury and guarding the interests of all of us, but we trust they will press forward in this matter until we get better streets in the main square whether that be pavement, stone or the same old sand.

The prospects are now that Akron will be a mighty busy place pretty soon or by July 4. What with the building of another railroad track, building a new school house, paving some of the most central streets and a lot of other improvements, dirt will fly. And so will the money. Labor will be well fed.

The mumps are yet besieging the faces of some of our handsomest daughters about town and even our stalwart young men are some of them out of facial balance. But all jaws are working.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County

Fit not durability, is the most important consideration when buying children's shoes. Because young feet grow so quickly, children under 12 years often outgrow their shoes before they wear them out.

Practically all children are born without foot problems, yet fifty percent develop some form of foot trouble by age ten. Many adult foot problems can be traced to outgrown, hand-me-down, and improperly fitted shoes that have forced pliable, young feet out of shape.

Substitute good quality canvas shoes for more expensive leather, shoes during warm, dry weather. They will not harm healthy feet, and the flexibility of sneakers provides the muscles of your child's foot freedom to develop naturally.

Avoid slip on styles such as loafers. Not only is there a tendency for them to break down quickly at the heel but people tend to buy them too short and too tight in an effort to keep them on the feet. Hence they are quickly outgrown.

When you shop, buy shoes that fit. Don't try to get your money's worth by letting your child grow into a pair of shoes. A correctly fitted shoe is 1/2 to 3/4 inch longer than the longest toe.

Cowboy boots and high heeled shoes are expensive and impractical

for children. Heels should not exceed 1/2 inch in height for children under age six.

It is false economy to save outgrown shoes for younger children. Hand-me-downs can force your child's soft, pliable foot to assume the shape of the shoes and the foot shape of the first wearer, causing possible problems later.

A good shoe is surable yet flexible and should stay securely on the foot.

Drusilla Whittenberger Dies In Crash

Mrs. Drusilla Ann Morgan Whittenberger, 23, Warsaw, was dead on arrival at Whitley County Hospital Thursday evening after the car she was driving went out of control and rolled over several times in the median strip of U.S. 30, one-half mile east of Columbia City.

Mrs. Whittenberger died of a broken neck, crushed chest, fractured pelvis and internal injuries sustained when she was thrown from the careening auto. Police said Mrs. Whittenberger, a teacher at Wolf Lake Elementary School, was westbound on U.S. 30 in the passing lane when the left front wheel of the car dropped onto the left berm. She lost control of the car after bringing it back onto the highway and skidded broadside for a considerable distance before the car left the road and plunged into the median strip where it rolled over several times.

Investigating officers said the use of seat belts would have prevented the fatality and reduced her injuries. The auto was a total loss.

The daughter of Lloyd and Drusilla Carter Morgan, Mrs. Whittenberger was born March 15, 1949 in Plymouth. She had lived in Akron for 18 years, moving with her husband following their October, 1971, marriage to Warsaw.

to within one mile of the largest area employed and within two miles of Warsaw. He said he did not think the board had considered this area, which he described as having great population growth, when it made its decision last week to locate a consolidated high school within one mile of a center point between Akron and Mentone. He said he thought this had been done to appease residents of the two towns and asked the board to give his area more consideration. He suggested an impartial, outside firm be called in to make a study and make recommendations concerning location.

Another member of the audience, Larry Floor, Akron, asked why it was necessary to combine two counties in one school corporation and was told this was a decision that had been reached ten years ago by the voters.

Charles Price and Oliver Ogden presented plans for Akron gym repair and the board, after making some alterations, authorized advertising for bids for general, mechanical and electrical work. It was emphasized that this was repair work only and did not involve any remodeling. It was noted the gym will be lighted with mercury-vapor lights, increasing from eight

to 37 foot candles of light intensity. Bids will be opened at the June 5 meeting and the work is to be completed by September.

Richard Goshert, saying he approved the one-school plan but not necessarily the location, moved to instruct the superintendent to present two or more parties or firms at the next meeting whose duties it would be to evaluate and recommend a building site. The motion failed for lack of second. In making the motion, Goshert said he thought it would be foolhardy for the board to attempt to select a location by themselves. He also emphatically stated he was not promoting locating the school in Mentone.

School board president Maurice Coplen said a site had not been selected although some of the board toured the general area last Friday night. He recommended having representatives from the State Board of Health accompany the board on further site tours.

The newly reorganized Akron Cemetery Association, Inc. this week reissued its plea for funds, saying any contributions, large or small, will be welcomed.

The cemetery board recently increased the price of lots to \$250 for a twenty foot lot and \$125 for a ten foot lot. The increase in rates and the plea for funds were made necessary because of the rise in cost of labor and

maintenance.

Officers are Ralph Shewman, president; Ed Gray, vice president; Velma Bright, secretary-treasurer; Mrs. Art Craig, Randall Leiningner, Earl Kuhn, Earl Hoffman, Lonzo Meredith, Dick Day and Ralph Tucker, board of directors.

Contributions may be mailed to the Secretary-Treasurer or left at the Akron Public Library or at the Akron Exchange State Bank.

The Vacation Reading Club for children will begin at the Akron Carnegie Public Library on Friday May 26th. Any child of school age may participate. The children may start on May 26th or any day after that. The theme of the club this year will be "Modern American Explorer". Upon the completion of two books the child receives a white map of the fifty states and a mode of transportation. Beginning with the third book, colored stickers are added and after eleven books are completed the entire map will contain all of the fifty states in color. Upon completion of eleven books a pin will also be given. A child may read as many or as few books as he chooses.

Anyone interested in securing more information may do so by contacting the Librarian.

Plane Hits Fence

An emergency landing in a wheatfield Sunday afternoon resulted in minor injuries to Warsaw attorney James Snodgrass, 63, and his wife, Mary, 55, and minor damage to their airplane, a Cherokee-Arrow Piper.

Snodgrass had just taken off from the Mentone airport when he observed his propeller rotation was running too fast. As he circled to return to the airport, the propeller slowed and then the engine failed.

Snodgrass took the plane down for an emergency landing, and it traveled 66 feet on the ground before striking a fence, causing the front nose gear to buckle, and continued another 84 feet before coming to a stop in a field on the Joe Peterson farm on the Fulton-Kosciusko Co. line.

Snodgrass suffered a cut above his left eye and Mrs. Snodgrass sustained a bruised thumb.

Damage to the fence and field was \$100. The plane's propeller, both wings, nose gear and front fuselage were damaged but the extent is not known.

Assisting with the investigation are the FAA and the Fulton Co. sheriff's office.

Herb King, son of Mr. and Mrs. Darrell King, Mentone, attended a 4-H meeting at Warsaw Tuesday night for boys having rabbit projects and he won a registered California rabbit.

Mentone Man Faces Charges In Fatal Crash

Martin J. Shepherd, 25, Mentone, was charged with driving under the influence of intoxicating beverages and causing the death of another in an indictment by the Whitley Co. Grand Jury last week.

The indictment was delivered in connection with a car-truck crash near Larwill on May 14 in which 11-year old Edward Dean Tolson, son of Mr. and Mrs. Samuel Tolson, Piercetown, was killed.

Shepherd sustained minor injuries in the crash that killed the Tolson boy and injured five other passengers in a car driven by Mrs. Harold Lehman, So. Whitley, the boy's aunt.

The felony charge against Shepherd carries a one-to-five year prison sentence and a fine. Shepherd has been released from the Whitley Co. jail on \$2,000 bond and is awaiting arraignment and trial in that county.

Shepherd has retained Max Reed, Warsaw, as his attorney. John White-leather Jr. is the Whitley Co. prosecutor.

ODDS and ENDS

BY ANN SHEETZ

"I know what a generation gap is," our eight-year old announced as he lounged in a lawn chair, carefully snipping the legs off an old pair of jeans for his first cut-offs of the season.

"You do?" I answered absently as I raked soil over newly planted flower seeds. "What is it?"

"Oh, you know," he said, "it's like Todd and I are the younger generation. You and Dad are the older generation. The difference is the generation gap."

"That's right," I said, wondering where he had learned that as I continued planting.

"There's one thing I don't know much about, though," he said, leaning forward seriously.

My breath stopped. He knows the stork didn't bring him, I thought, but he doesn't know the more technical details. Here it comes. "What's that?" I asked, my voice barely audible.

"I don't know a thing about Shakespeare," he said sadly.

My sigh of relief was so great it blew away some of the flower seeds but after I had regained my composure, I asked, "What did you want to know about him other

than the fact he was a famous writer who lived many years ago?"

"Oh, what kind of stuff he wrote and about Romeo and Juliet and things like that," he answered.

"He wrote a lot of hard to understand things," I replied. "I had to read some of his works in college and I didn't like them."

"If I have to read Shakespeare in college, I'm going to quit," he announced.

"It's not that bad," I said, adding, "if you want to, you can read some of the things he wrote. We have several of his books in the house. Help yourself."

The subject was dropped, but after supper and a shower, he helped me select his first book of Shakespeare and followed me around the house for help with words like Mr. Mustard-Seed and Mr. Pease-Bottom.

He became so engrossed in Shakespeare that he took the book along when we went to visit friends, announcing immediately upon our arrival, "I read Shakespeare."

He clutched Shakespeare in his hand all the way home, even after

he fell asleep, and it was the first thing he looked for in the morning.

This would be a wonderful time for me to brag about our second-grader who reads Shakespeare, but, alas, the generation gap wasn't as wide as he thought and I saw him quietly slip the book back on the shelf.

He didn't like it any better than I did.

AKRON CARNEGIE LIBRARY

"Diving for Sunken Treasure" by Jacques-Uves Cousteau----The author describes his own expedition to the famous Silver Bank, a coral reef in the Caribbean, where the crew of the Calypso searched a centuries-old shipwreck for the secrets of its past and the fortune in silver and gold it might still contain. Into the account of these discoveries, Cousteau weaves the tales of the men whose traces he is following. Here is a uniquely colorful chapter in the history of seaman ship.

Here they are many based on people who lived--generation after generation, founding a new faith, seeking freedom in the new world, achieving a unique peace with the Indians, subduing the wilderness, struggling with the agonizing issue of slavery experiencing triumphs of faith and deeds and defeats by nature and human frailty.

"Save Your Health and Your Money" by Patrick J. Doyle, M. D.-----A doctor tells what you can do about today's high health costs.

"Who's Who in the New Testament" by Ronald Brownrigg

"Who's Who in the Old Testament together with the Apocrypha" by Joan Comay.

Today Mr. Welk is one of the richest, most popular ballroom mass-tros in the world.

Talma 8th Grade News

By Amy Bowser

School is out! Can you believe it? It seems like we only started. Well, we're now official members of Mentone High School!

With final exams and tests, cleaning out books, handing in books, final papers and all that jazz, we've been pretty busy. The Home Ec classes gave the home ec room a good scrub down. You should have seen the dirt! Wow! In math, we're finishing probability. In English we're giving book reports and in history we are going through the final three chapters like mad-men, Mr. Pratt as the biggest mad-man of them all!!

The past three years at Talma have been fun years. We may all say bad things about Talma, but I'm sure we all have some memories from Talma that will last us a lifetime.

This is my last report and I may say it's been fun writing these for the paper and may I express my thanks for you reading them.

See ya.

Let Us Give Thanks To God For These Men

By Eula Smith

Each year at the Memorial Service at the Mentone Cemetery, a list is read of veterans buried there. What thoughts go through your mind as the 61 Civil War men are named?

Let's consider one of these--John Smith.

He was born Nov. 12, 1841 in Union Co., Pa. His family moved to this community in 1849. Probably their log cabin was built near Norman Yeates' home.

Along with several other men from this area, he enlisted in Co. F, 74th Indiana Infantry. They were in the fighting at Chickamauga and Lookout Mountain at Chattanooga. After this,

they participated in Sherman's march to the sea.

After the war, he married Silence Raber who was the last survivor of a Marshall Co. pioneer family. Two of her brothers, also of Co. F, 74th Indiana, died in 1863.

In the years that followed, they built the house and barn where Arthur Golden lives and raised a large family there.

He died Feb. 10, 1904. At that time, several of his comrades were alive to honor him.

Let us give thanks to God for John C. Smith and all those who have served our country.

John C. and Silence Smith

This Was News

60 YEARS AGO

A pretty affair was given Wednesday evening by a number of Rochester school teachers at the home of Mrs. Atwell Seigfried, complimenting Miss Nellie Stevenson, whose marriage to Earl Leininger of Akron will take place this summer. The house was prettily decorated in green and lavender. When the hour for refreshments arrived other guests were discovered in the dining room. Upon pulling the ribbon attached to a place card, Miss Stevenson drew from under a mound of lilacs a package containing a beautiful set of table linen and other useful articles.

There is evidence from all over the state that there is an emphatic dry sentiment growth among the people of Indiana as well as nationally.

The Mentone merchants have applied themselves in a new and novel innovation. They will make a great public auction the first one to be pulled off next Saturday, May 25. In this sale all the merchants put up a lot of goods. They are sold to the highest bidder regardless of bid. Even the milliners take part in the scheme and they each put up a half dozen trimmed hats, ready to wear at a moment's notice. The restaurants put up lemons and oranges and the blacksmith put up whiffle trees, and so on down the line every merchant or business man has his "kit" in the ring, until we strike the undertaker. There are no coffins listed.

Ten years ago Reuben Waechter commenced working on the sawmills of this place, commencing with V. J. Lidecker. Recently, he resigned and will now take Billie Bowman's place with F. Stoner and Co. at the elevators.

The new high school building is being located in the north end of town. Work will begin on it soon. We can refer to it as the north end school building. Proper.

A town of 800 to 1,000 people that don't support a lively, spirited newspaper is generally one without paint on their dwellings, and old goods on the shelves creased and shelf worn.

Take your problems to Church this week —

The Power Of Faith

The macaw, a large handsome species of the parrot family, can be taught to mimic the talk of humans and to utter whole phrases or sentences. These words spoken by the macaw, however, will have no effect on the bird's future life any more than a hill that echoes spoken words will be affected by them.

But human beings repeating often certain phrases and sentences, either mentally or aloud, can overcome inferiority, fear and other obstacles to success. Faith is the greatest power in the world and psychiatrists have testified to the fact that certain positive passages from the Bible, repeated to crowd out negative thoughts, can condition the human mind so that confidence and faith may develop within an individual. They cite such passages as "If ye have faith . . . nothing shall be impossible to you", as most powerful and practical truths.

Attending church regularly will materially aid one dogged by inferiority and fear and will help that person to crowd out complexes with the mighty power of faith for church with its environment and fellowship is a nurturing ground of faith.

IN MEMORY

In loving memory of Glen K. Hatfield, who passed away, May 31, 1971.

Some say time heals all sorrow and helps us to forget. But time so far has only proved how much we miss him yet.

We never knew that hearts could ache with such bitter pain.

Long for a vanished face, to hear his voice again. We never knew that nights could be so lonely, cold or dim.

But we have learned so many things from our loss of him. When the family gets together, there is one face we fail to see.

One chair that will always be unfilled. And it fills our hearts with sadness, thinking of the way it used to be.

God gave us strength to face our grief and courage to stand the blow.

But what it meant to lose him, no one will ever know.

Sadly missed by wife and children

Fourth Grade Learns History From Field Trips

The fourth grade students of the Akron Elementary School are getting some Indiana history information outside the classroom as well as in class.

In March, the 96 students visited the Fulton Co. Circuit Court in Rochester and heard the judge, Wendell Tombaugh explain the workings of the courts.

They next visited the Fulton County jail with Sheriff Homer Carr conducting a tour and an-

swering questions.

Dean Baker, a representative from Pike Lumber Co., Inc., gave an interesting and informative talk to the classes about the local lumber industry which has been in Akron since 1904.

A field trip in May concluded the local history trips with students visiting the Frances Slocum grave, Mississinewa Dam, Seven Pillars and the historical museum at the Peru library.

American Strength Stems From Differences, Dr. Bowen Tells Akron Graduates

"America's strength springs from its tradition as a nation where men are free to be different," Akron High School's senior class was told Monday night by Dr. Otis R. Bowen, Speaker of the Indiana House and Republican candidate for governor. Dr. Bowen spoke at commencement exercises for the 1972 graduates.

"We live in trying times," he said. "Each day, we are faced with the bitter reality of hatred pitted against hatred, race against race, youth against maturity, man against fellow man. Each day, we come away shaking our head and asking, 'What went wrong?'"

"We must all resolve that hatred shall have no place in the lives

of men who have honest differences of opinion. We must seek to put an end to a cancerous bigotry which closes minds to the true worth of others."

"We must once again realize that the strength of America has always stemmed from the differences between its people--not differences which breed suspicion, mistrust and prejudice but differences which meld strength with strength, hope with hope and aspiration with aspiration."

Dr. Bowen said Americans are proud of the nation's industrial capacity "but somehow we are at a loss on how to deal with certain of the spinoff problems--such as environmental control and technological unemployment."

"The trying problems of today's society should not," he said, "be permitted to divide Americans into 'warring camps of selfish interest.'"
