the beginning of a new dawn in the outlook on aging. For too long the process and situation of age has been painted in grim colors as if age itself were a disease. I think one of the most significant statements printed above is the summary, that the key to successful aging is successful living. It is our observation that people do not change greatly in old age from what they have been throughout their lifetime. Those persons who had worthwhile values at 30 and 50 still have them at 80; the ones who have been stinkers all of their life are still stinkers well into their 90s. Perhaps the best philosophy for aging is accentulate the positive --eliminate the negative, don't mess with Mr. In-Between.

Practice in preparation for the 58th annual Indianapolis 500-mile race on May 26 is expected to get under way at a much quicker pace than ever before when the track is made available to all 68 entrants for the first time this year on Monday, May 6. The customary 160-miles-an

hour speed limit probably will be lifted for all veteran drivers after only two or three hours of "shake down" runs because the curtailed 1974 schedule permits only five days of practice prior to the traditional speed battle for the coveted pole position on May 11.

This has been done to comply with guidelines established several months ago by the Federal Energy Office and Speedway officials also have announced that the usual two Sundays of time trials have been eliminated. Saturday, May 18, will be the sec-ond time trial day.

"200" last month. Many changes have been made in the Speedway facilities since last year's race for the safety

and convenience of spectators as well as participants. Interior roads have been re-surfaced; the outer retaining wall has been raised to a uniform height of 32 inches; two rows of ground-level seats in front of Grandstand A and the Paddock have been eliminated; 3,600 seats have been added to the Northwest Vista on the No. 4

If your property suffered tornado damage, ffered tornado damage, you may be able to sal-vage more than you first hoped, says Sandra Shhoped, says Sandra Sh-ank, Extension housing specialist at Purdue

University.
Mrs. Shank says that some furniture and bed-ding may be salvaged---even if it has suffered some water damage.

"Take wooden furniture outdoors and remove as many drawers, slides, many drawers, slid and working parts as possible. To do this, remove the back -- cutting it out if you have to -- and push out the drawers. Forcing the drawers from the front may cause more damage,"

ne says. When moving parts are removed, clean off the furniture with a hose. Then take it indoors to dry slowly. Left in the sun, soaked furniture sun, soak will warp.

Fertilizer Shortage May Threaten Corn Yields, Profits

Experts disagree about the extent of N fertilizer shortages in 1974, but all agree: there will be a shortage. How do you ad just your cropping plans to maximize farm profits with less

nitrogen?

A recent cost/yield/profit study in Ohio shows that the best profits, at current corn: soybean price ratios, will come from holding N fertilizer applications at not less than 180 pounds per acre of corn. Since any lower applications of fertilizer will reduce corn yields

and profits, the computer study showed that planting other fields to soybeans will increase net

Rising fertilizer costs have also changed corn/soybean profit ratios in favor of soy-beans. With the average 1974 fertilizer bill expected to be double 1973 costs for the same amount of nutrients, current prices mean potentially higher relative profits from the soy-bean "Cinderella crop" than ever before. ever before.

MY PLATFORM FOR COUNCILMAN-AT-LARGE KOSCIUSKO COUNTY

I recently visited your area and wish to thank you for the courtesy extended to me as a candidate for councilman—at-large.

You will go to the polls May 7, to select three councilman—at-large. I ask that you consider me as one oll your choices.

My platform is:

1. Repeal Local Option Tax. This tax was not needed. There has been no court test to this law. I do not intend using tax funds to fight this tax but believe there will be enough money contributed by local people to do this.

2. Hold Night Meetings. We need evening council meetings so the public can attend. Holding night sessions will also make it possible for more qualified as a solution that will be seeking county funds. I believe these organizations which are receiving or intend seeking county funds. I here there organizations with a receiving or intend seeking county funds. I here these organizations with a receiving or intend seeking county funds should submit to the county commissioners and council monthly financial reports on all members can see the total financial picture of the organization.

Mollenhour Points Out Tips For Burning Manufactured Firelogs

more and more consumers to use manufactured wax wood firelogs instead of natural firewood. However, comments Lyman Mollenhour, chief of the Mentone Fire Department, it is important that consumers read the directions on the manufac-tured logs because, like all fire products, the logs should be used carefully, and they re-quire a break from traditional fireplace hab-

One of the major causes of difficulty consumers experience with manufactured logs is using more than one log at a time or adding a firelog to an existing fire. Virtually all the nationally distributed brands of firelogs put out as much heat as two or three hardwood logs, people can cause dents if they igaccidents if they inite more than one at time. Adding a wax/wood log to an existing fire may result in a flare up or an excessively hot

Another mistake firelog users make is pok-ing or breaking apart the log, Mollenhour the log, Mollennou-the log, Mollennou-tavs. The firelogs are dust and wax, and when they are poked, bits of burning wax may stick to the fireplace tools and drop on the carpet. Poking also may break up the log, creating a larger burning surface and resulting in an in-tense heat flareup.

Food Stamps Explained

There have been some questions as to how long a family has to spend the food stamps that issued during the were emergency issuance. Food stamps are valid as long as a family has them. They do not have to be cashed in any different period. They are redeemable in any certified store anywhere in the United States.
The date on the identification card indicates the last day a family can purchase food stamps without being recerti-fied, according to the fied, according to the Fulton Co. Welfare Dept.

Although the emergency issuance ceased on April 19, many families who were affected by the tornado may still be tornado may still be eligible for foood stamp under the regular application. They must meet the eligibility requirements in regard to re-sources and income. A Α have household cannot have over \$1500 in resources except for those houseof two or holds persons with a member or members age 60 or or memoers age 50 or over, in which case, the resources may not ex-ceed \$3,000. Resources include such liquid assets as cash on hand, in bank or other savings accounts, U.S. Savings Bonds, stocks and bonds, such non-liquid as-s as buildings, exsets as cept for family home, land, and certain real personal property. The following resources are excluded in determining food stamp eligibility: home, one car, and other unlicens-ed vehicle, life insurance policies, income producing real estate, however, the income from such property is considered as income.

All income of a household must be considered verifications are

and verification a necessity.

Typenses deducted include income include such mandatory expenses as local, state and fed-eral income taxes, Sotirement, and union the arresting officer dues, rent or mortgage checks the person's dripayments and all utilities above 30 percent of income after mandatory deducations. than \$10 per month and child care when necessary to work. Receipts for all expenses must be supplied for verifi-cation. For families cation. For families hit by the disaster any costs that are paid above the insurance settlement can be deinsurance above ducted as an unusual ex-pense. This would in-clude any mortgage or loan which had to be secured to rebuild or repair the home. These deducations cannot be made until either payrebuild or ment on a mortgage or loan has been made or a payment on repairs has been made.

Anyone who thinks they

Anyone who thinks they will possibly be eligible should contact the Fulton County Welfare Department and make an application. This not only applies to families in the disaster area but anyone in the counbut anyone in the county who feels they would be eligible for food stamps. The department feels there are still many families who would The department qualify for food stamps who have not applied.

The Food Stamp program is not a Welfare program. It is a food supplement program to up-grade the diets of families whose income cannot meet their food needs and families who have been hit by a disaster who have unusually high medical expenses or who are unemployed because of illness and layoffs. The program is financed by the U.S. Department of Agricult-Food and Nutrition ure Services. In each State a state agency is de-signated and the administrator of the program. In Indiana, the Indiana State Department of Welfare is that agency, therefore, local admin-istration is given to County Welfare offices. Anyone should feel free to come to the local office at 112 E. 8th Street, Rochester, and apply if they think they would qualify for this program.

Number of Drinking Drivers Increases

The number of persons arrested for driving under the influence of alcoholic beverages in Fulton county rose to 118 in 1973, an increase of 40 from the 78 arrested during the previous year, according to James O. Wells Jr., Fulton Co. Prosecuting Attorney. He said of the 118, convictions were obtained on all cases except three that were modified or dis-missed and three now pending. There was no acquittal of any of the cases filed in 1973.

In Fulton Co., he said,

Runkle, popularly known all over northern Miami county, will probably officiate, but as we write, it is not positively known that he can. We found Robert G. Burns on the street last Monday wearing a pair of new crutches, with one foot wrapped up. On Thursday before while about his farm work he stepped on an old piece of fence wire that was sticking up straight about an inch while the rest of it was imbedded solidly in the ground. The wire penetrated his foot a half inch deep back of his two middle toes. The wound is very painful but he says it is getting on towards healing very nicely, which he appreciates.

There has been some effort in the southern part of Seward township, Kosciusko Co., among the school patrons to build a graded school. The promotors of the enterprise are meeting with strong opposition, so strong that the matter is up before the county school superintendent and probably into court. There has been three school buildings condemmed in the south side of Seward township and some of the patrons feel that now is the opportune time to work for a graded school building as there is none of the kind in that township. If new buildings are erected to take the place of those that have been condemmed the grade buildings will be forever sealed. Hence the tension on the matter in that part of township. There has been some effort in the southern matter in that part of township.

Mental Health Group Appeals For Funds, Help

Living on the wards of Indiana's state hospitals are people from local communities who have no one to visit them or to consider their well-being a matter of personal concern. This does not mean the

personnel employed by the state to provide care and treatment neglect them or mistreat them, but simply that employees are not numerous enough to give very personal attention to any one patient.

The same situation applies to mental patients who have been moved out of hospitals into nursing homes or who went directly to such care in the community. They, too, have no personal friends to be concerned about their well-being.

These people need concern and attention as much as the person in the community who is seeking help today for psychiatric ill ness, who may be having trouble finding it because he does not know where to turn for help.

The Mental Health As-

sociation in Kosciusko Co. is a social instru-ment that is trying to something to help se people who have these no place to turn. May 11-14, volunteers will call on individuals urging them to join in their concern for the mental health of the county. In the Mentarea, Gene Hughes In the Mentone area, Gene Hughes is chairman. Dwight Bechtol is chairman for Seward township, and Mrs. Ear1 Middleton is responsible for Clay town-ship. The Mental Health Association is concerned with many educational, supportive, legislative volunteer programs.

The challenge of mental health is vitally important for mental illness is the number one U.S. health problem, including cancer and heart disease. Citizens of Kosciusko Co. are urged to join the fight against mental illness and to promote good mental health for all. Contributions can be sent to the Kosciusko Co. Mental Health Association, R. 8, Wooster Road, Warsaw 46580.

Patty Schultz wondered what would happen if they cross-pollinated Indian corn with field corn. It took almost ten years to get an answer--an Indiana corn with purplish-red kernels and matching fodder that is utilized by Mary Jo in many of her creations.

Mary Jo prefers make dolls in October when the fodder is mature. If it is green, it tends to curl so she waits until after a killing frost to collect her materials, gathering husks and silk at the

same time. The husks can be kept over the winter but they tend to become too dry. They can be dampened but they are still harder to work with than when the growing cycle has stopped.

her corn with small protus-ions at the top, she re-to moves the ear and then ber snips off excess husb na- to form +1 snips off excess husk to form the base of her doll, a full skirt, which is why corn husk dollis why corn husk are always female.

Other husks are shred-ed to form heads and ded to arms and cumberbands to

attach the head to the torso. Arms are reinforced with wire so they can be bent to hold tiny baskets of straw flowers. The baskets are other corn husks, naturally, and the flowers are home-grown and homedried.

Other dolls are given tiny glasses that she forms from bits of wire. One that she especially liked was a school teacher doll, which in turn stirs the imagination to visualize a min-iature classroom with "school marm" and active children.
Making dolls for the

past year, Mary Jo says she is "only a beginn-er." To improve her sne is only a beginn-er." To improve her skills, she reads every-thing she can find about her ancient craft, which coupled with her abili-ty and willingness to share. Should ensure share, share, should ensure her rapid climb from beginner to practicing artisan.

Youth to starve for a cause

The youth of the Akron Church of God will par-ticipate in a Starve-In week-end.

This will be a 24-hour period in which they will gather at the church for a time of games, movies and devotions. The purpose of the event two-fold: to raise money to sponsor an underprivileged child and to give the young people an idea of what it is like for millions in the world who go hungry.

Persons wanting sponsor the young people may do so. The young-sters will be paid for the number of hours they participate without eating with a 24-hour lim-it set. Some people have already agreed to sponsor a young person, the rate varying from ten cents an hour to a dollar. A large portion of the money raised will go to an underprivileg-ed child to be secured a later date. The

to rest of the money will ble go directly to the youth group.
The Starve-In will be-

gin Friday at 5 p.m. and will end at 5 p.m. Saturday with a barbecue. Anyone wanting to as-ist with the project sist with the project should call the Akron

Church of God and leave his or her name.

Know The Persons Your Children Associate By Mrs. R. Allen Keira

The Committee on "Resist Attack, Education" wishes to ad vise that parents should know the persons your children associate with and where they go. Most children are willing to cooperate with their parents if they are treated with trust and understanding. See that understanding. See that your children do not dress in a manner to attract those who need on-ly a little encouragement to attack someone. This is a must for boys girls alike. Try always have them go and to with a friend you know. If your child does not drive and you have to

Promote pick him up, always be estoad a little early. If you have to wait in your car

Starving nets \$650

Youth participating in the Starve-In this past week-end at the Akron Church of God will have raised over \$650 when all money is collected.

An enjoyable time of fellowship and fun was reported by 34 youths and their sponsors dur-ing the 24-hour period from 5 p.m. Friday until 5 p.m. Saturday. There were a lot of tired bones and hollow stomwhen the activity was finally over. Every-one enjoyed a big meal together at the close together at the close of the fasting period, helped by some mothers and the sponsors.

They report all that is left to do is collect the money from the people who sponsored each individual. Patty Gearindividual. Patty Gear-hart had over 60 people sponsor her for over \$65, and Carl Thompson was not far behind with approximately 55 spon-sors and over \$55. Most of the money will

go to support some underprivileged child yet to be chosen. The other portion will go to the youth group for several upcoming activities such as the Internation-Youth Convention in Denver, Colo., the first week in August. Members of the youth

Information For Women Living Alone By Mrs. R. Allen Keirn R. 1, Akron

The committee on "Resist Attack, Promote Ed-ucation" has much litture for women living alone. For instance your name in the telephone directory with initials only, such as "J.A. Doe," rather than Jane Ann Doe, If anyone gets a phone call from someone asking questions about the occupants, do not give any answers.

Just hang up or tell
them you will call your husband or father. it is an obscene call, hang up.

If you are living a-lone, always set your table for a least two persons, then be sure to close all drapes and blinds. Do not follow the same pattern every night. Leave a light burning in your house when you are away but do not leave it in the same window or room every time as someone watching and studying your house for a robbery will know your habits.

Remember people enter omes to rob or attack and beat and rape.

Deaf Man **Designs Tiny Hearing Aid**

OFFERS FREE MODEL

OFFERS FREE MODEL

A remarkable tiny hearing aid has been perfected by aman who has been hard of hearing for nearly ten years.

This small device has no dangling cords or seperate transmitting units and is worn completely in your ear. It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "ear-level" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low. A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be by men ending in this advertisement while supply lasts. So we suggest you write for yours now. Taken from the May 30, 1948 issue of the Northern Indiana Co-Op News: Paul Blue of Warsaw spent Sunday afternoon with his mother, Bessie

The four fire departments from Mentone, Bo-urbon, Burket and At-wood deserve special commendation for their excellent work last Saturday morning when the main barn at the Manwar-ing Leghorn farm caught fire. Because of this splendid fire fighting and cooperation the fire damage was confined to the one building. Loss was estimated at around \$8,000. The worst dam-age was to egg supplies and the electric brooders. Some hay and grain was lost. A six inch

well which had been installed at the farm last fall, was of great value to the firemen. Umpires appointed for

We've watched grow to a sturdy ten-year old whose strong hands are capable of unlimited carpentering and inventing. We should have known when he said he could use it that he was really saying, "I'll work on it."

Well, he's been work-

ing on it for a year now and the health depart-ment still hasn't evicted us, mainly because he can add parts faster than they could carry them away. The once simple building was mov-ed behind the barn and it has grown and grown.
Two wings and an upstairs have been added. ladder was built for cautious trips to the roof. Sliding windows boast faded curtains. A discarded garage door from Grandpa's was cut in half and added. Gifts from many friends are worked into the design. (There have been so many gifts, Todd was prompted to ask what everyone had against us to cause them to give Doug so many

boards and doors.)

Latest addition to the
tree house--it'll always
be called that although it's never been close to a tree--is a pulley system to raise and lowbuilding materials. A Doug Sheetz Original it involves a lot of rope, a pulley from a hay fork, some ladders he built himself and a lot of ingenuity. But it works. It lets him wrecking bars and buckets to the building from a point out in the barn lot. Like the tree house itself, it keeps him busy for hours, his inventive mind constantly looking for new ideas and new ways to modern-

The tree house is charming. Now I know that sounds like proud mother talk, because I know as well as anyone that no self-respecting hobo would move in--even the dog refuses to ent-er--but it has a certain quality about it that makes it precious. From the hundreds of bent nails to the ladder that

is more mobile if Doug crowds too closely.
"Save it," said Doug.
"I can use it."
"Saud unencumbered by plans and rules and limited that a creative person, unencumbered by plans and rules and limited only by his ability to make do with the materials at hand, built the house. It's simple and very humble, but it's his and by being his, it is more than a loose pile of boards and windows. If a man's home is his castle, surely a boy's tree house must be his Tai Mahal. Tai Mahal.

O Beautiful For Spacious Skies

America, The Beautiful-a deeply stirring refrain, a refrain that makes every American's spine tingle and makes him swell with just pride when he sings it. For it sings of the things in America that are grand and fine, the fruited plain, beautiful farms and cities, spacious skies and, above all, freedom. For it is freedom that has made possible the appreciation of all that is fine and beautiful here.

The freedom that has built America, The Beautiful, was not gained in a day. Men and women have died and many people, and many groups have contributed to bring this precious Church has played no small part in the establishment of freedom. It was the desire to worship in a fashion of their own choosing that brought freedom-loving people to America. Let us not forget the Church, lest in so doing we forsake freedom.

MENTONE 'AKRON NEWS May 30, 1974

Take your problems to Church this week -

A beautiful, flower-bordered walk doesn't just happen. It requires skillful planning. Nor does the planning cease with the completion of the walk. If it is to remain a thing of beauty the flower beds must be planned and prepared in advance so as to provide blooming flowers throughout the growing season. It requires constant

care.

A beautiful character, as the walk, doesn't just happen. Sometimes it may be found in environment and family surroundings that makes one wonder how it all came about, but investigation will usually reveal that some powerful influence helped make that character what it is.

A beautiful character can be made by planning and training and the church must not be overlooked in this training for such a character. If you would be like some lovable person you know and would have your children possess the same kind of character DON'T OVERLOOK THE CHURCH!
