Welch to sign letter of intent

Nevada University at Las Vegas

By Don Hurd

Move over "Lady Luck of Las Vegas," because Tippecanoe Valley's queen of basketball is coming to town. Cathy Welch, all-star girl basketball player of TVHS has announced her intention to sign a national "letter of intent" to attend Nevada University at Las Vegas this week.

Nevada University was highly rated last season in girls roundball competition, and plays one of the toughest schedules in the nation including teams like girls national champion UCLA, Marland, Tennessee and Mont Clair State.

Cathy will receive a track scholarship from Nevada, but will focus her attention around basketball. Nevada is on probation and are not allowed to give basketball scholarships.

Nevada became interested in Welch after she was highly recommended by Michigan City Roger's girls coach Earl Cunningham. Rogers' Kathy Calloway will join Welch at Nevada. Welch said NU uses the "fast break" as their main offensive weapon, and added, "I love the fast break."

During Welch's career at the Valley she compiled a record total of 1238 points in 4 years. That figures out to a sizzling 19.3 points per game. She also has to her credit 721 rebounds while making history at the Valley. Cathy was voted "most valuable player" 4 years in a row, too.

Cathy plans to study Physical Education and coaching at Nevada, and she will leave for school in August, but not before she has a chance to show her talents in the Girls All-Star Basketball game in June.

Cathy is the daughter of George and Joanne Welch of Mentone.

TVHS hosts championship meets

Tippecanoe Valley High School will be hosting three large track meets next week. They are the TRC girls championship on Tuesday, May 9; the TRC boys championship Thursday, May 11, and the 4th annual Viking Relays on Saturday May 13.

In both TRC championships, field events will start at 5:15, trials at 5:30 and finals at 7 p.m.

In the Viking Relays, field relays begin at 6 p.m. with running relays at 7 p.m.

Teams participating in the conference meets are TVHS, Caston, No. Miami, Whitko,

Southwood, Northfield, Manchester, and Triton. The girls championships are considered to be fairly even with Whitko and Manchester being slight favorites.

Gates will open to the public at 5 p.m. for the TRC championships and at 5:30 for the Viking Relays. Ticket prices are \$1 for adults and 50 cents for students.

In the Viking relays, teams participating are Warsaw, CMA, Bremen, Northfield, Whitko, Manchester, Southwood and TVHS. TVHS again will be a strong contender along with Warsaw, Bremen and Manchester.

Alspaugh signs with Valdosta State

Eric Alspaugh, TVHS basketball standout, signed a national letter of intent to attend Valdosta State in Valdosta, Georgia last Thursday, while his parents, Guy and Nancy Alspaugh, and TVHS Coach Floyd Henson (left) looked on. The 6 foot 6 inch TVHS senior averaged 19.9 points and 17.3 rebounds per game this past season which convinced Valdosta coaches to offer Eric the grant-in-aid scholarship.

Tornado test alert for Mentone

A county-wide tornado test alert is planned for today, May 4, in all portions of Kosciusko County by the county's Civil Defense officials.

Sirens will blast for three to five minutes in all towns in the county, and an "emergency operation plan" will go into effect.

According to Mentone's Marshall, Earl Beattie, he will receive a call sometime Thursday that a tornado has been spotted near Mentone, and it will be his responsibility to sound the siren and contact local schools, businesses, etc.

The purpose of the county-wide test is to check the county-wide communications; test various organizations emergency operations, to be able to coordinate all organizations into a single working body providing aid to the public in the event of a disaster; and to educate the public to the county emergency plan and its function during a disaster.

In addition to the CD directors and police, fireman and emergency medical service organizations will be participating in the test.

Town Board acts on necessary road repairs

The Mentone Town Board met in regular session Monday evening, May 1, at the Town Hall. It was reported that several applications have been received for employment on the Mentone Water & Street Departments and will continue to be accepted.

In regards to the request by Sally Smithson for outside dancing in front of the Broadway Cafe, the Board voted against the request. Their decision was based on their feelings that the noise would create a disturbance to residents, and extra policy help would be required.

In other action, the Board members decided to hold a special meeting to set up alternative funds for pollution control, since the Environmental Protection Agency has rejected the latest grant. They also stated that an EPA official would be invited to attend a future board meeting.

Bids for the cost of materials for street repairs will soon be taken as it was discussed that the repairs are immediately necessary. A list of the streets has been drawn up, but the cost is not yet known. Mentone has received \$8,614 for its street and road fund, and the town will be eligible for other governmental monies.

After much discussion, the Board decided not to continue as part of the Area Planning Commission, as they felt Mentone could handle its own needs, and no one knows the town's needs as well as the town representatives themselves. And it was reported that insurance claims for the town's dump truck that was damaged have still not been settled. An insurance adjuster will be contacted.

The wool clip this year is bringing a big round price, paid by the Government. The price is about 65 cents per pound. Growers are urged to put up their wool clean, using only a reasonable amount of smooth twine. Since the Government wants all the wool clip east of the Mississippi river, there will not be much left for the clothes the civilian may wear. It will be used for the soldier boys, for whom Uncle Sam looks out for first, approved by all loyal citizens. The farmer with 100 fleeces of 10 pounds each, to his credit this year will have a nice income from wool alone.

Family Life

The month of May is bicycle safety month, and it is important to all of us that bicyclists know how to ride carefully.

As an automobile driver, I am very concerned when I approach people on bicycles because I never know what they are going to do. They legally should obey the same laws as auto drivers, but many do not. And it really scares me when I see children riding with no hands, etc.

So here are some safety tips, sent to me by Lucille Teel, that will make cycling safer. Perhaps you will read them to your children so they'll be aware, too.

1. Obey all applicable traffic regulations, signs, signals and markings. Also avoid congested and heavily traveled streets.

2. Observe all local ordinances pertaining to bicycles. It is your responsibility to know them and follow them.

3. Keep to the right; drive with the traffic, not against it. Ride single file and stay close to the curb.

4. Be careful of loose sand or gravel on corners. Watch out for other road surface hazards.

5. Be careful of car doors opening or cars pulling out into traffic.

6. Don't carry passengers or packages that interfere with your vision or control.

7. Never hitch a ride on a truck or other vehicle.

8. Most accidents happen at intersections. Be very careful at intersections, particularly when making a left turn.

9. Let motorists know what you plan to do by using hand signals to indicate turning or stopping.

10. If you are going to ride after dark, use maximum protection, use lights and reflectors.

11. Make sure that your bike is safe. Be sure it fits you and see to it that brakes, pedals, lights, reflectors, shifting mechanisms, tires, spokes, handlebars, and all nuts and bolts are checked regularly.

12. Drive your bike defensively. Watch out for the other guy, especially those in cars.

Safe cycling is fun, and every year, more and more people are discovering that bicycling is an economical way to travel and enjoy the fresh air.

But please remember these tips — they may prevent an accident to you or someone you love!!

FCHS utilizes CETA

Comprehensive Employment and Training Act (CETA) participants have been utilized by local governments, schools, hospitals and almost every historical society in Indiana, including Fulton County's.

As an expression of gratitude and for public information, the Fulton County Historical Society compiled a list of all the things CETA employees have done to help preserve local history. FCHS has had two CETA Title VI employees year around since November of 1975, two or more CETA Title I (Occupational Development) some part time and some full time year around, and four or five SPEDY (yet another branch of CETA) workers every summer since June 1975.

With all these tax dollars poured into their projects, what has FCHS been able to accomplish? Plenty, from building a log cabin museum, opening two other museums, publishing ten 40-page booklets of history, to re-enacting a historical event. FCHS is now recognized as one of the fastest growing and most active historical societies in the U.S.

CETA employees, counting all titles, have helped to do the following:
Build the Pioneer Woman's Log Cabin Museum from 1860 logs.
Paint the exterior of Rochester depot museum.

Every summer clean and operate Rochester depot museum and log cabin museum.

Help with cataloging historic items donated to museums.

Arrange all displays in Civic Center museum and get it open to public in fall of 1975.

Set up office for FCHS in Civic Center.

Set up bookkeeping system in professional manner.

Clean and catalog all items in Leiters Ford depot museum and get it open to public for first time in summer of 1977.

Help type and collect stories for publication in FCHS Quarterly and "Fulton County Folks vol. 2," a hard-cover history to appear next year.

Set up professional museum record keeping system like that used in Smithsonian and other big museums.

Help write and print employee policy and museum handbook, reducing to writing all pertinent information on how to run FCHS museums.

Paint museum interiors and redesign office.

Repair and restore old furniture and display in museum.

Draw and paint posters, banners, bulletin boards and signs to advertise Round Barn Festival and Trail of Courage Rendezvous.

Help conceive and start the Trail of Courage Rendezvous to commemorate the courage of the Potawatomi Indians on Trail of Death removal from northern Indiana in 1838.

Help at fund-raising events to support museums.

Answer genealogical inquiries from all over U.S. and Canada. Organize and set up "Genealogical Corner" and genealogy file for research.

Prepare Community Calendar for publication.

Clip county news items from newspapers for historical file.

Decorate a store window downtown with historical motif.

Mail book orders, answer mail, all kinds of typing and filing.

Operate a booth at the 4H fair to acquaint the community with FCHS activities.

Spring calendar available

The new Indiana Spring Calendar of Events is now available free of charge to all interested persons.

The 56-page brochure, which is published by the Indiana Department of Commerce Tourism Development Division, is filled with information about spring activities in Indiana including festivals, events, sports, arts and crafts, galleries, films and lectures, theatre and dance and concerts and opera. In addition the calendar provides information about states beaches, parks, recreation areas, forests, fish and wildlife areas and museums and memorials.

Anyone wishing to obtain a copy of the brochure should write to Lieutenant Governor Robert D. Orr, Spring Calendar, Indiana Department of Commerce, 336 State House, Indianapolis, Indiana 46204 or call 317-633-5737.

It Happened In Mentone

Taken from the May 9, 1951 issue of The Northern Indiana Co-Op News.

A son, weighing nine and one half pounds, was born at 8:55 p.m. Sunday at the McDonald Hospital to Mr. and Mrs. Edward Smelser of near Mentone. Mr. and Mrs. James Gates are the parents of a 7 lb. 10 oz. son born Tuesday, May 1, at the Woodland Hospital. The new baby boy has been named Cy Allen.

Foster Jones, of Warsaw, was the main speaker at the Lions Club meeting held Wednesday evening of last week at the Mentone school, when the ladies of the club members were entertained. Special favors and decorations greeted the ladies as they entered the hall for the banquet dinner. Philip Lash and Dale Kelley, two of the Lions members who are still seeking the favor of the fairer sex, appropriately served on the program committee, with Lion Lash extending the address of welcome. Lioness Roland Ferwerda capably responded. Richard Manwaring, president of the club, was at the officers' table.

Bud Wise, who is stationed at Ft. Knox, was home for the weekend. He had expected to be sent out but is to be there for 14 more weeks.

Based upon the marks of the first three and one-half years of school, Madeline Holt will be valedictorian of the class of 1951. She has an average of A-. The salutatorian will be Jennie Hall with an average of B+. Other high ranking students in the order of rank were Bonnie Emmons, Karen Clark and Jo Cullum.

The last PTA meeting of the year should be as attractive to parents as the panel discussion in January because it is a report of our school year. Mr. Kent will give us a resume of the year. He will discuss in particular the achievement tests which were given at the beginning and the end of the school term. The results of these tests are an accurate index of the educational efficiency of a school. Artley Cullum, president of the school advisory council, will give a report on the proposed school building program.

"I think the Tippecanoe Valley's Spring Concert was a great program last Sunday afternoon. It has to take a lot of hard work, time and cooperation on the part of the students, parents and teachers to put on such a program, and it certainly did show. We all should be proud of our music department."

TVEO and Board reach tentative agreement

The Tippecanoe Valley Educators Organization (TVEO) and the school board trustees have tentatively reached an agreement on a teacher contract for the 1978-79 school year.

Dale Pace, president and chief spokesman for TVEO, announced this week that negotiators have agreed to approximately a seven percent increase in the 1979 salary and extra duty salary schedule.

Negotiations have been going on since February 7 of this year, and the three month period for reaching an agreement was considered short term.

Members of the TVEO team include Lewis Schoemaker, a Men-

tone Junior High School language arts teacher; Miriam Ruppel, an Akron Elementary teacher; Jenny Helfrich, a Mentone Junior High School science and health teacher; Rosemary Bazini, a third grade teacher at Mentone School; Mrs. Jean Smith, a Burket Elementary teacher; and Pace, a choral teacher at Akron and Mentone Junior High Schools, and Tippecanoe Valley High School.

The negotiating team representing the School Board included: Loran Skinner, TVHS principal; Oliver England, principal of Burket Elementary School; Mark Barker, principal of Akron Elementary School; and Jack Fisher, principal of Mentone Elementary School. The trustees also named Dr. Harrell as a spokesman for the school board during a meeting in February.

Appreciates

Akron police

DEAR EDITOR:

I grew up in Akron but left a few years ago. Since leaving, my husband and I have done a lot of traveling. We have been through many small towns but have found few as nice and friendly as Akron. And fewer towns yet that had an active police (active, meaning ones that did more than sit).

In one such town where we camped, the campground was used as a hang-out for the local people. Each night of our stay, we found ourselves trying to sleep in the midst of a beer party. A few people got out of hand. One kid decided to try some wheelies on his motorcycle a few yards from our tent; a little frightening to say the least. We thought we should inform the police but couldn't find them.

We did talk to a man who lived beside the park. He had a few stories to tell himself. It seems the parties were a usual event, every weekend. The police had been informed but saw no need to take action. This man added, the death toll of teenage drivers, due to drunk driving, averages about 12 each year. The town was not any bigger than Akron. This is just an example how important a good police force is.

When I was a kid, we used to try some foolish things but, some how, Ed Hauser would always know what we were up to and straighten us out, much to our dismay. Looking back on all of it, I say, thank you Ed! It hadn't been for Ed Hauser, who took the initiative to do his job the best he knew how, Akron wouldn't be as nice a town as it is. How many lives were saved when Ed arrested a drunken driver or stopped a motorcycle driver who wasn't wearing his helmet? How much property was kept from vandalism because Ed spotted potential troublemakers and escorted them out of town? There are countless things Ed has done to protect

us, our property and our town. Remember also, how many of us have put in a distress call and found Ed right there. He was always there when we needed him and still is.

We all owe Ed a big "thank you" for a job well done. Especially from those of us who have at one time or another been stopped by Ed. We know that he is doing the job that we pay him to do.

Sincerely,
Marion Stephenson

Help save building

AN OPEN LETTER TO THE CITIZENS OF THE COMMUNITY
Mentone Post 425, The American Legion erected a new post home three years ago and had planned to retire the indebtedness with money raising activities.

Some of these were tried at various times but due to insufficient support from both our members and the public we could not stay in a solvent financing state, so with great reluctance the membership has decided to sell the property.

Before this drastic step has to be taken we thought perhaps it could be saved with the help of local organizations, merchants, industries and individuals. If this could be accomplished the property would be given to the community for use as a community building.

We would like to discuss this thought with you by inviting you to a meeting to be held at the post home on Monday evening, 15 May, 1978 at 7:30.

Signed,
Mentone Post 425

Phone company hosted open house

General Telephone Customer Service Supervisor Paul Windbigler, welcomed over 100 people at the new telephone switching facilities in Mentone. The phone company held open house recently to familiarize customers with the modern equipment and broader capabilities now available to telephone subscribers.

Whetstone attends seminar

Kate Whetstone, Clerk-Treasurer of Mentone recently attended a one-day seminar on "Local Government Accounting Fundamentals" conducted by the Academy in the Public Service on May 4 at the Warsaw Holiday Inn.

The seminar was conducted free-of-charge to county, city, and town elected officials from the upper northeastern section of Indiana. Instructed by Dr. Herbert Sim, chairman of the Department of Finance and Business Economics at the University of Notre Dame, "Local Government Accounting Fundamentals" is just one of eight courses offered by the Academy in the Public Service to Indiana's "citizen politicians" - a term used to describe those officials who earn their livelihood in some occupation other than governmental service, and who typically have not received any special training in public administration.

Bike-a-thon plans well under way

The 'Breath of Spring' cystic fibrosis bike-a-thon plans are well under way, according to Connie Haney, publicity chairman for the event, with a poster contest in the elementary schools being held. Ribbons will be awarded to the top poster winners at Mentone, Akron, and Burket.

The purpose of the contest is to inform children of the lung damaging disease, cystic fibrosis, and to promote the area bike-a-thon scheduled for Saturday, May 27, from 10 a.m. until 12:30 p.m.

Divisions for the bike-a-thon have been set as follows: Elementary no. 1 - preschool thru third grade; elementary no. 2 - grades 4 and 5; junior high - grades 6, 7, and 8; senior high - grades 9 thru 12; and adults.

Awards will be given to the rider who earns the most money in each of the five divisions, and to the rider who pedals the farthest. The awards are co-sponsored by the Mentone Lions and Mentone Chamber of Commerce.

Persons wishing to participate may pick up sponsor sheets at all TVSC schools, or in Mentone at the Post Office or the Pill Box; in Akron at Harris Drugs; in Burket at Powell's; and in Atwood, at Henry's Grocery.

Participants must recruit sponsors to donate a minimum of ten cents for each mile they ride, and

money must be turned in by June 6. Registration will take place at Tippecanoe Valley High School on May 27, between 9:30 a.m. and 9:55 a.m. Persons under age 18 must have their parents' signatures on the sponsor sheet.

The planned route for the bike-a-thon is 6 miles long beginning at the high school on County Road 800 South, with two checkpoints where food and drink will be available.

Grades four thru adults will use the designated route, and the younger children will use a special course set up in the tennis courts. Rain date has been set for June 3.

It Happened In Mentone

Taken from the May 16, 1951 issue of *The Northern Indiana Co-Op News*.

Twenty seniors and their sponsors, Mrs. Don Emmons and Mr. Ralph Hoffman returned Saturday evening about 9 o'clock from a six day trip through the south. The group had left the preceding Monday, by Kinsey chartered bus, at 4 o'clock. They spent the first night in Mississippi. They reached New Orleans Tuesday evening and spent Wednesday there. They went swimming in the gulf on Thursday and went over into Florida. They stayed in Nashville Friday night, and Saturday visited Mammoth Cave.

Mr. and Mrs. Roy Meredith and family and Mr. and Mrs. Henry Blesch and daughter were dinner guests of Mr. Meredith's mother, Mrs. Earl Meredith on Mother's Day.

Dr. and Mrs. Donald VanGilder were Sunday guests of her parents, Mr. and Mrs. Carl Gast, at their cottage on Lake Manitou.

Miss Lillie Tucker of Elkhart, Mr. and Mrs. Albert Tucker and family of Warsaw, Mr. and Mrs. Ralph Tucker and family of Akron, and Mrs. Max Smith and Mrs. Robert Smith enjoyed Sunday dinner at the home of their parents, Mr. and Mrs. Ora Tucker.

The Wm. Cook '39 DeSoto was almost totally destroyed Tuesday afternoon when fire broke out in it while he was fishing in the Tippecanoe river west of town. Someone noticed smoke coming from the car and the horn started to blow, but the fire had gained such headway that it couldn't be extinguished. The Mentone fire department arrived in time to save the front part of the car, including the motor and two front tires. Billy's bad luck seems to be coming in bunches, as he had just about recovered from several broken ribs suffered when he fell from the mail pickup standard.

When you handle CB and TV antennas, you could be in for the shock of your life.

The slightest contact between you, your antenna and power lines could be fatal. So, before you put up or move an antenna, here are a few suggestions. Wait for a calm day. Assemble the antenna where you intend to install it. Be sure to ground the antenna properly. Get someone to help you. Look out for power lines attached to poles and to your house. Assume every line is a power line and steer clear. **Make sure you locate your antenna at least twice its total height from any line.** That's 60 feet of clearance for a 30 foot high antenna. And if in doubt call Public Service Indiana—please.

NEW BOOKS

New books received at the Akron Carnegie Public Library include the following:

I HEARD MY SISTER CALL MY NAME by Thomas Savage. This is a magnificent chronicle of five generations of an American ranching dynasty who shared a unity and a heritage which made the family all but impregnable and of the shy beauty named Elizabeth who, by one act, threatened that unity and became a stranger even to herself. It is the story of the two men who married her and of the son who adored her.

THE MORELAND LEGACY by

Diana Haviland. This novel ranges from post-Civil War Charleston to Guided Age New York City to the splendid estates of the Hudson River Valley. Against this background unfolds the story of Denise Chevillon, a willful and fiery Southern Belle, and Jason Moreland, a former slave trader and adventurer turned businessman and politician, whose magnetism and passion are matched by Denise's own.

CRESSIDA by Clare Darcy. High-spirited, independent Cressida, who stubbornly refused to admit where her heart is leading her, is a delightful heroine. Her clashes with the equally witty, determined and stubborn Captain Tossiter are lively and amusing. A glittering background of Regency England and fascinating minor characters add life and color to this engaging love story.

THE ANIMALS COME FIRST by Mary Bowring. The wife of a British country veterinarian tells the warm, touching and funny story of a life shared with some of the most memorable animals you'll ever meet.

WOMAN ALONE, SAILING SOLO ACROSS THE ATLANTIC by Clare Francis. This is not only a sailor's story of courage and adventure but it is also a woman's story—a dramatic account of an epic voyage by a superb young British sailor.

LEARNING TO LIVE WITH CANCER by Kelly M. Sveinson. The author was a young and active businessman when he became a victim of Hodgkin's disease, cancer of the lymphatic system. In this book he draws on his personal experiences which enabled him to beat cancer for more than a decade.

Drama Club features 'Greek Night'

Drama Club members of Tippecanoe Valley High School will be celebrating Friday, May 12, at the TVHS Commons area when they feature their second annual 'Greek Night'. Members only are invited to attend, and all students will be wearing Greek costumes. Director of the event is Beth Barr.

New officers of the club will also be announced at this time. Dinner will be served at 6:30 p.m. and the program will follow at 7:30 with surprise entertainment.

Guests will be Loran Skinner, Mr. and Mrs. Dale Pace, Nancy Yeiter, and Kevin Campbell.

Family Life

by Renee Norlander

This week is national "Be Kind to Animals Week", and I was never happier to see last week that Fulton County has passed an ordinance to control and protect animals in the county, and to provide for the penalties of violators.

Not only does the ordinance specifically state that animals must be properly cared for, but it also states that animals shall not be allowed to run free.

Perhaps to some, this last part seems unreasonable, but stop and think about it.

How many times have you seen a dog or cat lying by the side of a road dead as the result of being hit by a car?

How many times have you been upset because you had to clean up your garbage that a stray pet got into?

Have you ever wanted to leave your home, but were afraid to because a stray Doberman was on your porch?

And how many times have you veered off the road because a dog was chasing your car?

As you can see, there are reasons for keeping pets restrained - even in the country! Not only will it protect the animals from danger, but it may keep passerbys, etc... safe from harm.

As I've stated before, I love animals, and hate to see them mistreated. I'm happy to see that the Commissioners of Fulton County are being responsible in their duties towards animals.

Much is being written about former first lady Betty Ford's dependency on drugs and alcohol.

I must stand up as one who respects this lady very much. She has lived with much stress and strain in the last few years, and also the pain of her arthritis.

I am not one who condones the use of drugs or alcohol to the point of such dependency, but I do admire Mrs. Ford's courage. She has to be brave indeed to announce publicly that she is fighting a battle against the use of both.

I am not sure that many of us would have such conviction. She is to be commended, and wished good luck. She certainly has withstood a great amount of pressures. I can not dislike her for what has happened, and I wish her well!

With the sick

Harley Rogers has had a heart attack and is in the Elkhart General Hospital, Room 2038. He would appreciate hearing from friends in the Akron area.

60 YEARS AGO

The Surgical Dressing room and work will be in charge and under the direction of the following: Monday night, Pearl Bright and Mildred Smith; Tuesday afternoon, Esther Godwin; Wednesday afternoon, Mrs. Joe Hoffman, Mrs. Linc Adams; Wednesday night, Ruby Hoffman, Fern Wilhoit and Goldia Bright; Friday Ruth Waechter, Mrs. Walter Haldeman and Mrs. Ner Kinder.

L. R. Binding, Fulton county's farm agent, says that a man out in Pawnee county, Kansas, followed a threshing machine out there only three weeks and gathered the waste - making \$500. We bet a dollar, it cannot be done in Fulton county, Indiana. We have better machines and better men.

A birth card states that a 9½ pound boy arrived at the home of Mr. and Mrs. P. G. Cook, Edgar, Montana. All interested are doing fine. Bumper crop conditions exist and the little Cook family seem to be in ecstasies and we rejoice with them.

Sam Sriver was in Akron early last Saturday morning to take the car for Elkhart on a visit with his son Edwin who works in a munitions factory in that city. The young man is putting the brass nose on sharpnel shells for the allies as well as for our own boys to use over there, over the sea. The young man is an expert workman on that job and you may know his pay envelope is a fat one.

Adam Harsh has bought Jas. R. Hart's little property on the East road and a stepson will occupy it this summer.

39 YEARS AGO

He will arrive in Washington Friday and will be taken on a sightseeing tour of the White House, Treasury building, G-Men's headquarters, Annapolis, Arlington cemetery, Mount Vernon, Smithsonian Institute, and many other places of interest.

Evan Whallon Jr. is visiting in New York City as a guest of Mr. and Mrs. Jack Sowers, who are taking him to the World's Fair, and other places of interest.

Roland Lee Kuhn spent Saturday night with Mrs. Kuhn at Woodlawn Hospital. He arrived Saturday on the Stork Special and likes Akron and intends to stay. Mr. and Mrs. Earl Kuhn are the happy parents.

25 YEARS AGO

Graduates of Akron High School and their families are marking time until Saturday night when they will meet in the high school gymnasium for their first reunion in thirteen years. Local merchants, who are alumni, are planning to attend after they close their stores.

Members of the 1953 graduating class are: Steve Arter, Jane Bowen, Pat Burkett, Harry Carlton, Walter Cumberland, Ester Dawson, Charlene Dick, Larry Gearhart, Leon Good, Beverly Hartzler, Billie Hively, Emogene Hoffman, Jerry Huffman, Nancy Irelan, Clifford Kindig, Judy Kinney, Harold Leininger, Helen Miller, Donald Moyer, Robert Oliver, Larry Paxton, Jerry Pontius, Charles Ramsey, Jerry Reed, Jack Sriver, James Sriver, Kenneth Swick, Jack Utter, Alice VanLue, Barbara Waechter, Harriet Whallon and Mickey Leavell.

Town board met

Akron Clean-up this weekend

The Akron Town Board met in the regular monthly meeting, Tuesday, May 16 at the town offices. All members were present, except Dr. Chas. Miller, who was unable to attend.

Discussion was held on various town business including plans for this weekend's Akron Clean-Up Days, proclaimed in last month's meeting, for the days of May 19 and 20. The town of Akron will have 2 or 3 trucks on duty those days for pickup and hauling of all trash and debris town citizens want removed. Arrangement may be made for removal of old refrigerators, cars, and similar large items by contacting board members.

Other meeting topics included:

— Lessel Halterman, Macy, addressed the board, proposing various radar equipment for police speed control use, ranging in prices from \$750 to \$2495. Board president Ron Fenimore commented that Akron police officers have "kept the speeding problem pretty much under control" without use of such equipment, but said the members would take the idea under advisement. Mr. Halterman was asked by the board to submit quotes on different types of fire extinguishers for use in city buildings.

— Town Clerk-Treasurer Ernie Smith commented on complaints that were brought to his attention from citizens who believe their water bills are too high in error. Investigations made in the past on similar complaints, Clerk Smith mentioned, have shown that in "9 out of 10 cases," the higher bills were not in error, but to leaky pipes within the customers household, or caused by inefficient automatic water softeners.

— Discussion was held on when road work to patch potholes and bump surfaces would commence and Ron Fenimore said road officials told him work would begin in the Akron area "as soon as warmer weather permits, and things dry up to a workable condition."

— Vernon Waymire brought up the possibility of doing some interior remodeling in the Akron Fire Station, as the station is used by civic groups and election facilities who have expressed to him their requests for improvements. Discussion was held and it was decided that since the station's primary function is to house the fire-fighting equipment and not serve as a Civic Hall, the remodeling was decid-

ed against. A wider garage door, however, is being considered to allow for faster dispatch during an emergency and to accommodate the new fire truck the town has contracted.

— Various methods of re-surfacing the sidewalks in Akron were brought up, but no definitive action was taken until further investigation was made by the board.

— A list of delinquent accounts of non payment of water bills was read by Clerk Smith. Board members will personally contact those on the list who have not made any attempt to pay, and have not contacted the town for explanation of non-payment. Water service disconnection will begin, under town ordinance, if non-payment without satisfactory reason continues.

— Clerk Smith mentioned that complaints of non-pickup of trash on collection days have been voiced to him. Board members agreed that they will contact the proper personnel and discuss ways of improving the service with them.

— Discussion was held and a request was expressed by the board that Akron residents please not dispose feminine hygienic products in the town sewer system as the accumulation of such products clog sewer lines and cannot be properly decomposed in the lift and waste systems.

The Akron Town Board meets the third Tuesday each month in the Town Offices.

What possesses someone to destroy a child's swing set; deface a headstone in a cemetery; steal a basketball net; or write obscene graffiti on any surface that he pleases?

Akron and Mentone, unfortunately, have both been the victims of this type of vandalism by people, or "creatures" we should say, who evidently get their "kicks" out of destroying others personal property or town property citizens have paid for through taxes on their hard earned money.

We can only hope that the stepped-up crackdown and patrol by town police both Mentone and Akron are initiating will curb this type of senseless violence and destruction before it goes any farther.

And if you are the vandal and are reading this, although we seriously doubt you know how to read, we suggest you move to the subways in New York City where you would fit right in. You sure don't seem to enjoy living here.

.....
We're still waiting for someone to bring in that first bunch of mushrooms to our office for the annual photograph. The nasty weather we've been having makes us wonder if mushrooms are shaped like rain umbrellas by coincidence or because they know more than people do!

Help airport

DEAR EDITOR:

For ten years the Mentone community has been very proud of its airport, and its all-weather runway. An original investment of \$17,000.00, this runway would have a conservative replacement value of \$34,000.00.

As most of us know, the runway at the airport is in poor condition because of deterioration of the surface.

The Mentone Flying Club and community members feel we must protect and preserve that investment by re-surfacing the runway. We will then continue to be proud of one of the finest small town airports in the nation.

The cost of this project is approximately \$16,000.00. One

half of this cost would be granted by the state, providing that the other half is guaranteed at the local level. The Mentone Flying Club has made that guarantee, and the guarantee is a part of its voting record. It should also be noted that over half of the needed \$8,000.00 has been pledged by club members as individuals.

Many people in the area, from time to time, do use and enjoy this fine airport free of charge.

In order to complete the financing of the runway re-surface project, a club member will be calling on you within the next ten days. We need your help in maintaining this fine community asset.

Make checks payable to Mentone Runway Fund.

Sincerely,
Mentone Flying Club

Fleetwood is new basketball coach

On a 4-1 vote taken by Tippecanoe Valley School Board members in their monthly meeting Monday, May 15, Roger Fleetwood, Assistant basketball coach at Valdosta State College in Georgia, was selected to succeed Floyd Henson as head basketball coach at TVHS. Fleetwood, 28, is formerly from Nashville, Ind., is married and has a 1½ year old daughter. He plans to move his family to the area in early June.

On a darker side at Monday's session, the board was advised that the Tippecanoe Valley Educators Organization (TVEO) rejected the proposed 1978-79 contract tentatively agreed to previously with negotiators representing the school board.

TVEO president Dale Pace told the board the teachers want a salary increase in line with today's cost of living rather than the seven percent salary increase and extra duty pay negotiated earlier this month. Pace stated that the TVEO and the school board negotiating team consisting of Akron principal Mark Barker, Mentone principal Jack Fisher, Burket principal Oliver England, TVHS principal Loran Skinner and board spokesman Dr. Lloyd Harrell would meet again to continue the collective bargaining process.

Other school board action Monday night:

—Michael Sipe, and Rudy Glingie were recommended by Superintendent Harrell for Junior varsity and freshman basketball coaches, respectively. Until they personally talked to the men, no further board action was taken.

—New Castle Swim Coach David Krieger, 25, was elected to become a swimming instructor and swim coach for the school system.

—Gary Stath, 27, Rensselaer, was hired as the new varsity wrestling coach and science teacher.

—Board members accepted the resignation of science teacher and tennis coach David Creighton.

—Dr. Harrell recommended that school administrators receive an eight percent salary increase, but the board took no action until they further analyzed discussed the salary proposals.

Crusade at

TVHS

A Youth Evangelistic Crusade sponsored by the Henry Township Ministerial Association is slated for June 2, 3 and 4.

The Crusade will feature speaker Charles Shumate and singer Dan Allis.

Youth from all over the Tippecanoe School District will be in attendance. Meetings will be held in the Tippecanoe Valley High School auditorium, starting at 7:30 p.m. Friday and Saturday, and 2:30 Sunday.

Search for "Little Chick" and "Mr. Rooster"

Again this year a search is being made for area contestants to participate in the Little Chick and Mr. Rooster contest at the Mentone Egg Festival.

Rules for the contest are as follows:

1. Contestants must be six years of age or under.
2. Each contestant must ride in the Egg Festival parade on Saturday afternoon, June 10, as a separate entry on a float or similar conveyance. Bicycles, tricycles, or wagons are acceptable.
3. Contestants are asked to follow the festival theme of promoting Mentone as the Egg Basket of the Midwest.
4. Contestants should arrive at Mentzer Park no less than ½ hour before the start of the parade to allow for prejudging by the judges.
5. Announcement of the winners will be made at the conclusion of the parade when the other parade winners are announced.

The two winners will each receive a tricycle. Entries can be made by contacting Lee or Rosemary Bazini at 353-7382 or by mailing the child's name, age, parents name, address, and phone number to Lee Bazini, Box 553, Mentone.

The deadline for entries is June 7.

Theme

chosen for 4th

The theme of this year's Akron Fourth of July parade will be "Famous Americans."

First place trophies will be offered in band and baton categories.

Prizes for floats include a \$75 first, \$50 second, and \$30 third in each of three categories - local, out-of-town, and novelty units. Other prizes to be offered includes \$35, \$25, and \$15 in children's floats and a first place trophy for commercial floats.

Cars, bikes, horses, and "cutie floats" will be judged separately and everyone will receive a plaque.

Entries may be made by completing the entry blank and submitting it to Marvin Gagnon, Akron 4th of July Committee Chairman.

CORRECTION

From information received last week, THE NEWS incorrectly stated that Robin Seerist, TVHS valedictorian would be attending International Business College after graduation. The school she will be enrolled at is Burdett College in Boston where she will major in accounting.

Deaf Man Designs Tiny Hearing Aid

OFFERS FREE MODEL

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and is worn completely in your ear.

It was developed especially for those persons who can hear but can't understand. The new hearing instrument is a tiny "ear key" hearing aid, which wears like a watch, and is controlled by a small radio at his ear. Due to the use of transistors, the user can hear as clearly as before.

A true life-size replica of one of the smallest all-in-one hearing aids ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatever. Write to Hear, Box 350, Garrett, IN 46738.

History of first Memorial Day

Memorial Day, inspired by a dedicated schoolteacher and the anguish of the Civil War, had its beginnings in the cemetery surrounding a peaceful little brick church in central Virginia.

In early June, 1865, exactly one year after Petersburg, Va., was staggered by a surprise Federal attack during the Civil War, Miss Nora Davidson led her students in what has now become a national observance. She

and her students went to the cemetery surrounding the Old Blandford Church to decorate the graves of fallen Confederate soldiers. Each year after that, citizens of Petersburg, led by "Miss Nora" decorated the church's Confederate graves.

One visitor to the church and cemetery, Mrs. Mary C. Logan, wife of Gen. John A. Logan, noticed while passing through the rows of graves "that many of them had been strewn with beautiful blossoms and decorat-

ed with small flags of the dead Confederacy."

On May 5, 1868, her husband, head of the Grand Army of the Republic, issued the order appointing May 30 of that year "for the purpose of strewing with flowers the graves of comrades who died in defense of their country during the late rebellion." This was the first nationally recognized observance of Decoration Day, later renamed Memorial Day.

Not gold, but only man can make
A people great and strong;
Men who, for truth and honor's
sake,
Stand fast and suffer long

Brave men who work while
others sleep,
Who dare while others fly—
They build a nation's pillars deep
And lift them to the sky.

Telephone project begins

Construction crews from General Telephone Company of Indiana recently began work on three cable installation projects at a combined cost of \$67,000 to complete phase three of its Service Upgrading Program, providing Akron rural customers with their choice of one-, two-, or four-party service by the end of this year.

According to Ed Knafel, district service manager for the company, these cable installation projects represent a small portion of the central switching office projects and cable installations required to upgrade the exchange. "Being able to provide all customers in the Akron exchange the opportunity to choose the type of service they desire has required the installation of immense amounts

of telephone cable and switching facilities. By the end of this year, General Telephone will have spent more than \$300,000 during 1977 and 1978 for upgrading projects," said Knafel.

The three cable installation projects currently underway in the Akron exchange will require more than 11 miles of buried and aerial cable. Approximately 4 miles will be used during the first project which involves placing cable along sections of County Roads 50 North, 925 West, 1200 East, and State Road 14. This will provide facilities to upgrade customers in the northeastern portion of the exchange.

The second project will provide for cable along a section of County Road 1075 East and West Rochester Street. New cable plac-

ed during the third project will be placed along State Road 14 west of County Road 1075 East to County Road 800 East.

Knafel said that most of the cable placed during the three projects will be buried to protect it from adverse weather conditions and to maintain the natural appearance of the landscape. He stated that the three projects will be completed this fall.

The projects are part of General Telephone's \$8.5 million expansion and construction program for the company's North Central Division during 1978.

Rod's Barber Shop sold

Rod Bauer, owner of Rod's Barber Shop in Mentone, has announced the sale of the hair-cutting business to Max Flenar.

The shop will now be known as Flenar's Barber Shop and open hours, effective June 5, will be Monday, Thursday, Friday 8 to 5; Tuesday 12-8, and Saturdays 8-4. The shop will be closed Wednesdays.

Akron Cemetery elects directors

The Akron Cemetery Association met in the library recently. Four directors, Ralph Shewman, Dick Drudge, Mike Stephen and Earl Hoffman, were elected to the board. They will begin their terms on Jan. 1, 1979. Ed Gray and Ralph Tucker resigned from the board.

Other members of the board are Velma Bright, Shirley Crag, Dick Day, Lonzo Meredith and Earl Kuhn.

The Cemetery Board will be happy to receive donations again this year. These can be left at the Akron Exchange State Bank or the Akron Public Library. The board reported that they have been able to place all donations in the endowment fund thus far.

Newsview

By Bob Norlander

Since Monday, May 29 is Memorial Day, we thought it would be interesting to reprint the following letter written in 1918 by a Mentone soldier stationed in France during World War I. It gives a brief idea of what our men had to go through back in '18.

Somewhere in France, June 19, 1918.

Dear Father and sisters:—

This has been a dismal old day; it has rained all day. When I hear anyone speak of Sunny France I sure think it is a joke. We can wear a coat all day and wish for about ten more when it gets dark.

It was very quiet here all day until about an hour ago when the shells began to burst about us. A piece of shrapnel hit one of the fellows in my squad on the leg. Did not hurt him; only stung a little. We sure dig for protection when they begin to whiz over our heads. There seems to be more fighting in the air in this section than any place else. Have seen three or four battles overhead here today.

I will be entitled to a seven day furlough about the first of August. If I am not broke I am going to look up the Motor Mechanics and try and see Foster Jones and Doc Cook. If I am as near broke as at present I may spend my vacation with the company. We can't tell over here when we are likely to be paid.

I received three home papers last week and was sure glad to get them. Of course the news was a little old, but it never gets too old for over here. The advertisements even look good. Mentone has a bunch of fellows in the service and I sure feel proud of her. When they all get over here they will know what real soldiering is, but not until then. Hope they can all get some of this experience if they want it, for it is great and will be worth lots to us if we come out alive, and most of us will. I cut out the list of names in the paper and will keep it for reference.

Hope I can spend Christmas at home but am afraid that will be a little soon. Nearly everyone I have talked to over here believe it will be over by then, but we cannot tell. I don't believe the Germans will ever be able to make any more advances, as they have failed in the last two drives. They can never whip us. All we need is men and money over here. Of course it takes lots of money, for this is a moneyed war, but Uncle Sam has that.

I wouldn't mind having a good feed at home, but will get that later. We are fed on French rations here. Hope this finds you as well as it is leaving me.

With love,
Don

Sound Off!

"I've attended many school board meetings but must say I left the last one with mixed feelings. We should be thankful for a dedicated school board (more than can be said for the superintendent). Fulton County residents in the TVSC should be more aware of 'complete' benefits derived from their tax dollars."

Enjoy travel

DEAR EDITOR:

Am enclosing a check for subscription. We used to take the paper but moving to Peru in April 1949 for some reason we let it drop. My neighbor now has been taking it, so she has been passing them on to us. We enjoy reading, we read lots of news, we perhaps wouldn't find out until late, but after our retirement we really enjoy reading all the news and surrounding because I went to Beaver Dam School four years and we lived near Mentone also.

Our daughter Nedra, now 39, has a daughter Pamela and son Chad Christopher, has been married to Buford Gross 20 years last March 26. They own and

operate the Gross Hobby and Craft Store on North Benton St. in Peru. Also, Mr. Gross works as an electrician at General Tire factory as St. Rd. 31 So.

We also have a son born on the 10th of June, 1935, he is a C & O Railroad conductor for 15 years.

After Mr. Harmon serving 19 years for the people of Miami Co., 10 years as deputy and 8 years as sheriff and 6 years with the State Excise office, we are now retired and just enjoy traveling to the many, many places of interest here in the United States and enjoying life together.

Thank you for a good paper.

Sincerely,
Lowell and Gladys Harmon.

P.S. I was a Spurlock of Rochester. Attended the high school there. Left 1931.

Mushroom hunters beware

Going for a mushroom hunt in the woods? You'll especially want to watch out for poison ivy, oak and sumac. But, being out of the woods doesn't make you safe from poison ivy and oak. They can flourish in very dry soil on even the most exposed hillside. Heed the advice of the old saying "leaflets three, let it be," and you'll go a long way in avoiding the nuisance and discomfort these plants can deliver.

Poison ivy and oak grow in three different forms:
--woody vines attached to trees or other objects for support,
--shrubs trailing mostly on the ground, and
--erect woody shrubs that stand without support.

They're most often abundant along old fence rows and edges of paths and roadways. They ramble over walls and climb trunks of trees. Often they grow within other shrubs or vines so that you might overlook them.

Although leaf forms vary, there is one characteristic to watch for--the leaves almost always consist of three leaflets (although some harmless plants have this trait too--seeing this pattern will at least caution you.)

Poison sumac grows as a coarse woody shrub or small tree, and never in the vinelike form of its poison ivy relatives.

It doesn't take much of the poisonous substance to give you

trouble. A small amount can cause severe inflammation of the skin. The poison is easily transferred from one object to another. For instance, clothing may become contaminated and is often a source of prolonged infection. Don't wear contaminated clothing until it is thoroughly washed. And don't wash it with other clothes. Another source of contamination may be the family pet. Dogs and cats may brush against the plants and carry the poison to children

or other unsuspecting folks. The poison can remain on the fur of animals for a considerable time after they've walked or run through poison ivy plants. Animals can be decontaminated by bathing but be careful to avoid poisoning while you're washing them.

And keep in mind that smoke from burning plants carries the toxin and can cause severe cases of poisoning.

Family Life

by Renee Norlande.

Millions of Americans are poisoned by foods prepared at home and eaten at picnics, work or school. The National Sanitation Foundation (NSF) notes that two families of bacteria are the principal villains - salmonella and staphylococci ("staph"). The sickness may only last a day or two and be mistakenly blamed on a "bug", a "virus" or on "indigestion."

Mayonnaise, salad dressing, egg sauces and custards need to be kept cold until just before eating. They are excellent culture mediums in which microbes can multiply and produce intestinal poisons known as enterotoxins.

NSF scientists offer these suggestions:

1. Do not let foods containing moisture or fat stand around for long periods of time in a warm kitchen.
2. Sandwiches, salads and desserts intended for picnics or other away-from-home consumption should be stored in a refrigerator until just before leaving. The same rule applies to meats that are to be cooked at a picnic.
3. Carry picnic meals in a portable food chest which contains ice or frozen freezer cans.
4. When possible, store brown bag lunches in a refrigerator at school or work until just before lunch.
5. Never eat food from a bulging can or a food container that squirts upon opening. The contents may contain C. botulinum, the cause of botulism, and deadliest of all food poisons.
6. Observe this rule about suspicious foods: "When in doubt, throw it out."

NEW BOOKS

New books received at the Akron Carnegie Public Library include the following:

ALL THINGS WISE AND WONDERFUL by James Herriot. The author is a Yorkshire veterinarian who writes about the time of World War II and he had just been inducted into the R.A.F. We meet new folks, each with a story to tell. If ever you have loved a friend, human or otherwise, this is the book for you.

THE GIRL by Catherine Cookson. An internationally beloved story teller presents one of her pluckiest heroines and one of her most dramatic novels.

UNLESS YOU DIE YOUNG by Gladys Hasty Carroll. This is a novel that speaks for the rich and invaluable experience gained through everyday living, for the many rewards and assets accumulated along the way. It is an affirmation of life in all its stages, despite all its painful times.

HE CARES, HE COMFORTS by Corrie Ten Boom. This is the perfect book for those in poor health and for those who want to help them. Whether the problem is death, pain, deformity, worry, shame or abandonment, Corrie offers experiences and Bible passages that share the peace and assurance God has to offer. His spiritual healing is yours for the asking. Let Corrie help you find it for yourself.

FEAST IN THE MORNING by Hugh Preston. John Dudley, Viscount Lisle, was a man content. Well married, a soldier with many battle honors to his credit, and Lord Admiral of England, he stood high in the favor of his king, Henry VIII. No one dared remind him, as some had in his youth, that his father had been beheaded as a traitor. This is his story.

THE HONEYMOON IS OVER by Pat and Shirley Boone. An intimate look at the ups and downs of one of Hollywood's most successful marriages.

CATCHING UP by Charles Velvety. Today, knowing the right things is not simple. There are too many distractions; there is too much to do. One feels the need to catch up - but where to start? This is for the person who is rushed or easily bored yet wants to know what's what from classical philosophy to modern art, without having the encyclopedia thrown at him.
