Republicans From the White House and State House to the Court House

Richard M. Nixon

President-Elect

Edgar D. Whitcomb
Governor-Elect

The Republicans made it almost a clean sweep Tuesday by electing a president, a governor, and state and county officials. The Democrats won the Senate seat as Birch Bayh was re-elected, and John Brademas, incumbent Third District Congressman, defeated Will Erwin for the House seat.

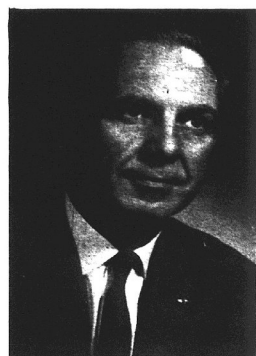

Elsewhere, it was all Republican and for the first time in eight years, the state will have a Republican governor, as well as a full slate of Republican officials.

Richard L. Roudebush, Noblesville, was elected to his fifth term in Congress. Representing the Third District, of which Fulton county is now a part, Roudebush has represented three different Congressional districts because of reapportionment.

State representatives Thames Mauzy, Ralph Heine, and Arthur Coblentz were re-elected, defeating Gary Nordmann, the only Democratic candidate seeking the office.

John Augsburger will represent Kosciusko, La Grange, Noble and Steuben counties as state senator while Leo Sullivan, Peru, will represent Fulton, Cass and Miami counties, having defeated incumbent Robert Peterson.

Republicans also elected county officials in Kosciusko and Fulton counties.

Mrs. John McKee, chairman of the kitchen tour committee, is shown in her own kitchen as she explains the kitchen tour project. A new idea in fund-raising, it will include visits to ten Akron kitchens, one to which will be a pioneer kitchen. Other stops will include new homes and older homes with remodeled kitchens. The tour will be held on Saturday, November 16, originating in the annex of the Akron United Methodist Church.

Kitchen Tour Planned by WSCS

Something new in the way of fund-raising projects will be held in Akron on Saturday, Nov. 16, as members of the Akron United Methodist WSCS plan a "Kitchen Tour."

Mrs. John McKee, chm. of the project, announces that the tours will be in progress from 9 a. m. until 11 a. m. and from one p. m. until 3.

Anyone interested in attending may purchase a ticket at the Methodist church annex prior

to beginning the tour. Ten homemakers will open their kitchens to guests for the day. Of interest will be kitchens in old homes that have been remodeled as well as kitchens in new homes. Also featured will be one pioneer kitchen.

Cookies, candy, yeast and quick breads, Christmas decorations and noodles will be for sale in some of the kitchens.

A supper in the church annex will climax the day and tickets for this may be purchased from any WSCS member. Baked goods will also be on sale at the supper.

Wayne Cook Buys Beaver Dam School

Wayne Cook, R. 2, Akron, bought the Beaver Dam school house for \$500 at Saturday's auction.

Under terms of the agreement Cook will have a reasonable length of time—one year, in which to level the building and bury the area under a four-inch layer of top soil. After this is done, the school board will decide on disposition of the land.

The sale Saturday, conducted by Arnold Van Lue, realized a total of \$3,787. After expenses were allowed, the corporation received a total of \$3,320.70 for the building and contents.

No School Monday

Students in the Tippecanoe Valley School Corp. will receive a one-day holiday Monday, November 11, Veteran's Day. Classes will resume on Tuesday, November 12.

Plan Preliminary Sewage Survey At Mentone

Clyde Williams and Associates were named Monday night to make a preliminary survey of sewage needs for the town of Mentone. The Mentone town board reached the decision after hearing an explanation of the company's services from a representative.

Also present at the meeting was Eugene M. Borden, of Borden Bros., a sanitary firm located in Goshen. He explained his company's system of trash and garbage pick-up. Board members later decided to advertise for bids for such a pick-up for the town.

Larry Creakbaum, Indianapolis, a legal resident of Mentone, offered his services to the town as a consulting engineer.

Darrell King was re-appointed to the aviation board for another four-year term.

WHAT OTHERS ARE SAYING...

"Why don't you newspapers write about the nice things," said a nice lady on the phone, "and not about those bad things all the time?"
What nice things? we asked.

"Well," she said, "for instance I think it was very nice for Mr. Nixon to call on Mr. Humphrey and congratulate him on his nomination."

Yes, we agreed, that was nice.

"And of course, Mr. Humphrey had called on Mr. Nixon and congratulated him on his nomination. That was nice, too."

So it was, we said.
"And Mrs. Humphrey and Mrs. McCarthy were very cordial to each other when they met at a luncheon. They even toasted each other with champagne."

So they did.

"And President Eisenhower is getting better."

Yes, that was good, too.

"And wasn't it fine the way the Czechs resisted the Russians?"
Yes, indeed. But, we asked this optimistic lady, where did she learn all these pleasant things?

"Why, in the papers, of course." Pause. "Oh dear, what have I done?"

She had amused us, that's what she had done....

To The Editor

While adults are displaying a very morbid form of behavior throughout our country today as a result of their marches, protests, and mass destruction of private and public property, we wonder why our youth are not completely confused as to law and order, peace and turmoil, and what is right and what is wrong.

I sincerely believe that I have just witnessed the most sane Halloween in my short life span. I heartily congratulate the youth of our community (School area) for the excellent behavior displayed over Halloween.

It has been my constant belief that most of our youth today are extremely well behaved in view of what they experience and witness in our present society. All news media depict the bad in our younger generation and I, for one, agree that some of our youth can be placed in this category. But is it fair to condemn all for the actions and behavior of the small minority.

We at the Mentone School are very pleased with the behavior of our students both in school during the school day and before and after school hours. Our community should be proud of our youth and should extend a pat on the back to the boys and girls who have enough common sense and decency to respect others property. A thank you from all concerned should be extended to the town marshal and town board for their interest and cooperation.

Again let me repeat that I am highly elated with the behavior of our boys and girls, especially over this past Halloween and I hope that others in the community feel and express themselves to our up and coming generation with a word of praise and encouragement instead of the constant degrading and ridicule. Sincerely Ernest Holcslow Principal, Mentone High School

Dear Editor:
"My Reflections on Armistice Day"
Captian John F. Fowler, whose commission was signed by Patrick Henry, served in the "Army of Virginia" during the Revolutionary War. He was my great-great-grandfather. His son, Isaac Fowler, my great-grandfather, served in the War of 1812 at the age of sixteen years. I served in the Army of WW.I in the army of occupation in Germany also.

I have a medal from the U. S. Army for faithful

and dedicated service with five bars for combat in five offensives. Also a medal of recognition from my home county of Wabash for faithful and dedicated service in time of war. Our son, H. K. Fowler, served 14 months in Korea, was on Heart Break Ridge and Pork Chop Hill with the 2nd Infantry Division.

My good and faithful wife had three brothers in W. W. I with active combat service in France. All three are long since passed away. Mother also had a brother in WW II, also passed, on. Two of her grandfathers were injured in the war of 1861-1865, an uncle in the Philippines in 1898. Several nephews are now in service, and one served in WW II.

I have an honorable discharge from the U.S. Army as an enlisted man. It states "Character Excellent." No AWOL. That's the kind of life I have lived before our children and what I call true friends.

"Good name in man and woman, dear my Lord, is the immediate jewel of their souls: Who steal my purse steals trash; tis something, nothing; Twas mine, tis his, and has been slave to thousands: but he that filches from me my good name robs me of that which not enriches him, and makes me poor indeed."

From Shakespeare

It is my humble opinion and conviction war does not accomplish anything. It brings death, destruction and sorrow. Our family "In Christian Faith" dedication and love of country have been proven by deeds and acts of faithful service.

Thank you.
W. E. Fowler

The compressor was stored west of Akron with other NIPSCO equipment and was painted yellow with the numbers 5177-52 on its sides. It was valued at \$1500 to \$2000.

Things have changed in the past quarter of a century. Three score years ago the average boy would go out on Sunday, climb a tree and partake of a few quarts of mulberries, and top off with a pocketfull of green apples and salt. The next morning his mother diagnosed his troubles as worms, and he was compelled to swallow a half bottle of vermifuge, and a quarter of a pound of Epsom salts and was turned loose in the cow pasture until supper time, when he would come in for a square meal all right. Now, if a boy complains of a stitch in his side he has appendicitis and is hustled off to a hospital, starved within an inch of his life, half a dozen surgeons each take a whack at him with pearl handled knives, and he is turned over to his friends or the undertaker.

Growers are cheating themselves if they market their crops at below the Commodity Credit Corporation loan levels, according to Clem Good, chairman, ASCS county committee, said this week. The price support commodity loan program was developed as a means of helping farmers sell their crops at a time when market conditions are most favorable, the chairman said, and that time normally is not at harvesttime when supplies are ample and prices are likely to be down.

Loan rates for 1968 crops, which are adjusted for individual crops according to grade and quality, are: Soy Beans \$2.52 and Corn \$1.08.

SEWING MACHINE ARTISTRY—Stitch a pretty picture to hang on your wall or give for Christmas. This unusual wall-hanging of cotton homespun was created by Talon's Department of Design with single fold bias tape and mercerized cotton thread. Flower centers are thread pompons, and the bowl and leaves are outlined and shaded on the machine with free-motion stitching.

Stitch A Picture For Holiday Giving

You can be artistic with your sewing machine and create a wall-hanging that's handsome enough to give for Christmas or put in the holiday bazaar.

The basic design is done with free-motion machine stitching which requires no attachments. Strips of cotton bias tape and fluffy pompons made from cotton thread complete the picture.

To make the hanging, cut two 20 x 21-inch rectangles from cotton homespun. Across the top of these pieces, cut out four 2 x 3-inch sections evenly spaced. These will form loops for the rods.

On right side of one fabric piece, sketch flower arrangement design. The bowl and leaves are outlined and shaded with free-motion stitching.

To adjust your machine for free-stitching, set stitch regulator in neutral position; remove presser foot; and lower feed dog. Clamp fabric in an embroidery hoop, centering portion to be stitched in the hoop.

Each time you begin to sew, draw bobbin thread through fabric. Hold thread ends, lower presser bar and needle into fabric, and then stitch slowly at an even rate while moving hoop back and forth. Coordinate machine speed with movement of hoop. This method allows stitching to be made in any direction—in straight or curved lines.

Flower stems are made from single-fold cotton bias tape. Fold tape in half, wrong sides together, and pin into position. Blind-stitch stems to fabric.

Flower petals also are made from single-fold tape. For each petal, cut a 1½-inch strip of tape and press bottom fold out flat. Hold tape horizontally, wrong side towards you, and overlap folded edges to form a cone. Gather bottom raw edges and secure stitches. Arrange five petals at end of each stem to form flower, and sew in place.

Flower pompon centers are made from cotton mercerized thread. One spool makes two centers.

Before making pompons, cut about 40 inches of thread from spool and fold in half repeatedly for pompon ties. Then slash spool lengthwise with a razor blade, cutting through all layers of thread. Remove thread from spool in one complete section and tie securely.

THE BIBLE SPEAKS

by Stanley W. Day
CONVERSION NO. 7

The acts of the Apostles is the only book in the New Testament with examples of conversion.

If one would learn what to do to become a Christian, he must study Acts and learn what the apostles preached and what the people did in turning to God. One can follow these examples and be absolutely safe, because they occurred under the preaching of inspired men.

Now let us notice one of these conversions. On the first Pentecost following the resurrection of Christ, Peter preached Christ to a great multitude, and three thousand souls were converted to Christ and added to the church (Acts 2).

One asks, "Did the Holy Spirit convert these people?" All should agree that he did, but how did he do it? The answer is, through Peter's preaching. It was the word of God, preached by the Spirit through the apostle, which led them to become Chris-

tians. To those assembled Peter proclaimed the good news of the crucified and risen, Lord. This proclamation caused many of them to be "pricked in their heart," convicting them of their sin of crucifying the Son of God (Acts 2:36-37). It was faith in the truth that Peter preached which caused them to ask, "Men and brethren, what shall we do?" Guided by the Holy Spirit, Peter answered: "Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost" (Acts 2:38).

Thus, be believing in Christ, these people turned to the Lord in heart; by repenting of sins, they turned to him in their conduct; and by being baptized, they turned to him in relationship.

Here's Solution To Holiday Space Problems

If you have a space problem in your house, sofa beds may be the answer.

With this dual-purpose furniture, even small home owners and apartment dwellers can keep their cool when unexpected guests arrive for the holidays.

Of course, sofa beds don't actually stretch space. They just seem to. With modern styling, they are no longer the heavy, cumbersome pieces they used to be.

Sofa arms have been slimmed down and the bulkiness reduced, so the sofa or couch takes up a minimum of floor

space. In fact, these pieces so cleverly conceal comfortable cotton and innerspring mattresses, you'd never guess they lead a double life.

There are various types of two-in-one furniture. Convertible sofas, for example, are available in either love seat size or davenport width. The convertibles are made with the mattress folded under the seat which pulls out to form the bed. In this type, the sofa back drops down level with the seat to make a double bed.

The studio couch, on the other hand, converts to a twin bed when you pull the lower

section out and up to seating level.

Then there's the single sleeper, really a refinement of the old daybed, but much more streamlined in design. It's equipped with a long, narrow cushion called a bolster. Finally, there's the chair bed. This is just for occasional use, although it's as comfortable as sofa bed styles.

Best of all, today's sofas and couches made with cotton and innerspring mattresses are every bit as comfortable as a regularly equipped bed. You can obtain as fine a mattress as you want in a dual-purpose

sofa or couch. The best buy is an innerspring mattress cushioned with cotton. It has firmness and controlled resiliency. A big person or a lightweight can relax and get the right amount of buoyancy.

Moreover, cotton cushioning has a natural ventilating system that conducts heat and moisture away from the body. You stay comfortable all night long.

With sofa beds, you can put out the welcome mat for overnight guests—thanks to the ingenuity of the furniture and bedding industries.

WITH GUESTS IN MIND—Even a small living room (8 x 9 feet) can accommodate overnight guests for the holidays with this versatile sofa bed. Covered in wide wale black cotton corduroy, it fits in nicely with a bold color scheme of red, black, and white. Colors in the poppy-printed wallpaper are echoed in white corduroy draperies with red trim, and extra seating is provided by large square floor pillows in red and black corduroy. Photographed at the Chicago Merchandise Mart.

THREE-IN-ONE—Living, dining, and sleeping is provided for in the same room, thanks to a space-saving sofa bed. Equipped with a cotton and innerspring mattress, the unit affords comfort and resiliency for easy sitting and restful slumber. Cheerful floral-printed cotton adorns the sofa bed and makes tie-back ruffled curtains. The reproduction of an old iron Franklin stove does even better than a fireplace. Photographed at Chicago's Merchandise Mart.

Post Office Announces Special Christmas Ship For Vietnam

Tons of St. Nick's gifts will be going to members of the Armed Forces in Vietnam by special ship this year, thanks to a joint Pentagon-Post Office venture.

A fast U.S. cargo ship will be designated the "1969 SANTA CLAUS SPECIAL", sailing from Oakland, Calif. next month with Christmas parcels. To meet the sailing deadline and assure pre-

holiday delivery of gifts sent with surface postage, items should be mailed by November 9.

They should be marked "SANTA CLAUS SPECIAL" just below the stamps.

The "SANTA CLAUS SPECIAL" will sail during the latter half of November and stop at Da Nang, Qui Nhon, Cam Ranh Bay and Saigon, Vietnam. It takes approximately three weeks for a fast

ship to cross the ocean.

All gifts should be packed in strong containers with adequate cushioning and correctly addressed, including APO and FPO numbers.

Deadlines for all Armed Forces overseas areas are: Surface Transportation, November 9; S A M (Space Available Parcel Airlift), November 23; PAL (Parcel Airlift) Nov. 30; Airmail, December 11.

The term "Armed Forces Overseas" includes personnel of the Armed Forces, members of their families, and U.S. civilians employed overseas who receive their mail through an APO or FPO, New York, San Francisco or Seattle.

Sewing For The Bazaar?

Every woman needs a little something to carry a lot of things in, and a roomy cotton tote bag is the answer.

Make one for yourself to find out how easy it is, and then stitch up several for Christmas gifts or bazaar items.

All it takes is a yard-length of any bright, colorful cotton fabric; some cotton cording for a drawstring; and bits of fringe, fabric scraps, and buttons for trimming.

Cut a 18x36 rectangle for the bag. Fold fabric in half, right sides together, and seam on each side. To give the bag a squared-off base, make an inverted tuck at the bottom. Do this by turning the bag inside out, folding the bottom up one inch, and stitching in place.

Make a casing for the drawstring by turning the open end of the bag under about two inches and hemming. Then

make another row of stitching an inch higher to slip the cord through.

There are dozens of ways to decorate the carry-all bags. For example, add a simple flower design to a bright yellow cotton duck bag by appliqueing on red petals and green leaves cut from fabric scraps. Sew on a big white button for the flower center.

Or applique the bag with a design appropriate to its use. Mark a shoe tote, for instance, with a shoe applique cut from contrasting cloth. Appliques are easy to add with a zigzag machine stitch.

On printed cotton totes, keep trims simple. Circle the bag with a single row of thick cotton fringe, flat braid, or jumbo rick-rack.

Choose washable cotton trims so the bag can be popped into the washer with other household cottons to keep it looking fresh and bright.

COTTON CARRY-ALL—Every woman needs a little something to carry a lot of things in, and a roomy tote bag is the answer. Floral-printed cotton duck is circled with a row of thick white fringe for decoration, and cotton cording makes a handy drawstring.

Indiana has just experienced one of the hardest fought election campaigns in its history.

Throughout the campaign the views of the candidates were candidly brought to the voters through the state's newspapers, television stations, and radio stations.

The voters have made their decisions, and thanks to the fine job performed by the state's communication media, there was a chance for those decisions to be based on knowledge of the candidates and the issues.

The record turnout on election day is a tribute to the fine job performed by the state's communications media.

Indiana is indeed fortunate in having such dedicated editors, reporters, cameramen who are concerned about bringing a true picture of the campaign to the voters. Candidates and the voters both benefit from a conscientious press.

We would like to thank you for your assistance during this senatorial campaign and wish you continued success.

Cordially,
 Michael J. Quinn
 Wm. D. Ruckelshaus

The Akron Exchange Bank had sent on trial a new adding machine that will add correctly any amount from two up to nine billion. Akron has a night watch, a town windmill, a fire engine, horsecart and 800 ft. of good fire hose. All this has cost money to buy it and takes money to keep the property in repair and pay the night watch his wages, nearly nine dollars per week. We believe that up to this time less than twenty persons have borne this expense--some say that most of it has been borne by more than twelve men--There should be some means provided so that all property should bear its share in these public expenses, the same as it bears its share in other public taxation for local and state government.

Farmers Union To Petition For Major Tax Change

Petitions are being circulated throughout the state which call for switching a major portion of public school costs to non-property taxes, according to Harold Wright, president of Indiana Farmers Union. Mr. Wright also indicated many other groups had voiced an interest in the effort.

The farm leader stated that property taxes in excess of 800 million dollars was squeezed out of taxpayers in 1968, of which over 60% is being used for the financing of public schools, and that substantial property tax replacement must be made or we will lose the incentive for home and business ownership. Mr. Wright predicted a 40% increase in property taxes during the next four years, unless the method of financing schools is changed.

Mr. Wright indicated property owners were fed up with lip service to property tax relief and he felt a petition asking for a drastic change in school financing was one way of showing the elected legislators and other state officials of wide-spread support for a change.

The petition calls for a 50% increase in the adjusted gross and sales taxes and proportionate increases in corporation taxes, to be used as an appropriation for distribution to schools.

Indiana Farmers Union has historically wanted at least 75% of the total cost of public schools to come from tax sources other than the property tax. The organization claims farmers must pay property taxes at the disparity ratio of 7 to 1 as compared to the average non-farm home owner living in the same taxing district and that farmers and home owners are the two major groups of our society that cannot to any extent, incorporate their property taxes into the price of their product or their labor and pass them along to the consumers.

Mr. Wright pointed out that the property tax structure is basically fitted for an agricultural state but that In-

diana is ranked the eighth industrial state in the nation. He compared the tax situation to "trying to launch a space ship using a corn cob fire for the fuel."

Willard L. Walls, administrator of the Vehicle Inspection Department stated that establishments desiring to become Official Inspection Stations by Jan. 1, 1969 should have their applications in no later than Nov. 20, 1968. Applications received after Nov. 20, 1968 will be processed as rapidly as possible, he said.

\$50,000 Suit Is Filed

Robert A. Osburn, R. 2, Akron, has filed a \$50,000 damage suit in Kosciusko Circuit Court against his brother-in-law, Carl R. Blackburn, R. 5, Warsaw.

The suit followed a shooting incident earlier this year in which Osburn was wounded five times in his legs and left foot by bullets from a .22 caliber revolver fired by Blackburn.

The shooting occurred at the farm of the defendant's late father and was the result of a family quarrel.

Blackburn was tried in Kosciusko Circuit Court last month of a charge of aggravated assault and battery. The trial ended in a "hung jury" and no verdict was returned.

Osburn seeks the damages for loss of income, medical expenses and permanent injuries.

Newsman Leads Scout Explorers River Trip

BLUFFTON, INDIANA — They're remodeling and refurnishing the "Scimitar", whose home port of Bluffton is some 150 miles inland.

The land-locked raft-houseboat, built by the Scouts of Bluffton's Explorer Post 2144, is being readied for its 1969 trip down the Ohio and the Mississippi to New Orleans.

Last summer the 3 1/2 ton raft took its crew of 18 Scouts and their four adult leaders to Tiptonville, Tennessee, on the Mississippi — a trip of approximately 600 miles.

An abandoned rock quarry near Bluffton, flooded by rains and sewage, is the testing basin for the 16 by 30 foot craft, on which the Scouts erected the enclosed galley, storage area and pilot house.

The forty-four 55-gallon drums which provided flotation, are being replaced by steel pontoons, according to Explorer Advisor Mike Thoele, of the news staff of the Bluffton News-Banner.

The twin outboard motors are being replaced by an inboard power plant, and paddle wheels.

And, Thoele said, he hopes to add an LP-gas refrigerator to the galley equipment, which already consists of a full-sized LP-gas kitchen range, including an oven. "Chief" of the galley was Bob Spaulding, a former Navy quartermaster and veteran camp cook, and one of the four adult leaders aboard the Scimitar.

The Scimitar, after its "maiden cruise" on the quarry pond, was disassembled and trucked to Marion, Indiana, where it was launched on the Ohio.

Next year, said Thoele, it is planned to truck the raft to the Ohio river at Evansville, Indiana.

The LP-gas equipment was furnished by the Blue Flame Gas Corporation of Bluffton, which also trucked the Scouts' vessel from Bluffton to Marion, and from Tiptonville back home.

Chuck Finn never had it so good.

Roudebush Seeks Gun Control Defeat

NOBLESVILLE, IND.— Congressman Richard L. Roudebush (R-Ind.) this week vowed that he will continue his battle to oppose gun control legislation.

"This is a phony proposal," Roudebush said, adding:

"This gun control issue came about because of the Great Society's inability to halt crime and violence in this country. But this isn't the way to solve the problem.

"The way to halt the national crime wave is for the administration to announce to one and all that every law is going to be enforced, and all violators will be

arrested and the Attorney General will prosecute to the limit of the law," Roudebush commented.

"The way to solve the crime problem is to punish the guilty, not the innocent," Roudebush said.

Statewide Search For Young Farmer Begins

NO. MANCHESTER--A four month search throughout the state to select the Indiana Outstanding Young Farmer of 1968 gets underway this month, according to an announcement by Karl Messmore and David Krieder, co-chairmen of the Indiana Outstanding Young Farmer committee.

Jaycee chapters throughout Indiana will hold local farmer recognition programs in their communities and will submit recipients of local honors for state level competition. Indiana's Outstanding Young Farmer will be named at a banquet to be held in No. Manchester on March 1. The program is co-sponsored by the Indiana Jaycees and Central Soya and its Master Mix feed dealers.

The chairmen said that the winner of the state program will be entered in the National Outstanding Young Farmer Program to be held this year in St. Paul, Minn.

To be eligible for the award, a farmer must be between 21 and 35 years of age, an actual farmer or ranch operator, and derive a minimum of two-thirds of his income from farming. Entrants are selected on progress in their agricultural careers, soil and natural resource conservation practices and civic and social contributions to their community, state and nation.

"We are expecting a record number of entries for the state program this year," the men commented. "A much stronger effort is being made to have more of our clubs select a local Outstanding Young Farmer. We naturally are hopeful that our state winner will be one of the four chosen for national honors this year."

Last year, Morris E. Odle of Linden was Indiana's entry in the National Outstanding Young Farmer Program. The last Hoosier to receive the national title was Marvin Dillman of Twelve

Mile. He was one of four chosen in the 1963-64 program. William W. Erwin of Bourbon received similar honors in the 1957-58 contest.

Neighbors Pick Corn

Friends and neighbors of Omer Leininger, R.2, Akron, picked 30 acres of corn for him Monday. Mr. Leininger is still recuperating from a recent back operation.

Corn pickers were furnished by Lee Marsh, Russel Bacon, Paul Kindig, and Ned Smith.

The Case Of The Disappearing Cars

One minute the car is there the next minute it has disappeared. This was the experience of more than 650,000 motorists last year.

By the 1970's experts predict that over one million cars will vanish annually if the present rate of theft increase continues.

Who performs these feats and puts so many thousands on foot until their cars are recovered or replaced? Law enforcement officers say there are two types of auto thieves.

The first type steals because he has the opportunity and wants a joy ride. He is usually under 18 years of age, some are even under 10 years of age. They make a car disappear when some careless owner leaves the key in the ignition. (Last year 80% of cars stolen were left unlocked; more than 40% had been left with keys in the ignition. The owners literally gave their cars away!)

The other type of car thief is the professional. He makes his living by making cars vanish, often stripping the parts and selling them. His profession costs the public over \$200 million yearly.

How can motorists solve the case of the disappearing cars? The Allstate Insurance Company suggests:

—Always remove the key from under the ignition, even when making a quick stop at the corner store.

—Lock the doors and close all of the windows including the vent windows.

—Luggage and other articles of value attract attention, so lock them in the trunk.

This is who to see for a good deal on auto insurance.

This is who to see for the same good deal on life and homeowners insurance.

See him now!

Earthquake Brings Memories of Past Tremors

Saturday's earthquake evoked memories of past tremors. One of the most interesting was one that Clancie McSherry, Mentone found in an old history book. It described the Great Earthquake of 1811, which shook the Mississippi valley to its center, vibrated along the courses of the rivers and villages, and passing the center of the Alleghany mountains, died away along the shores of the Atlantic Ocean.

People described having seen undulations of the earth that resembled waves, increasing in elevation as they advanced, and when they had attained a certain height, the earth would burst, and vast volumes

of water and sand and pit coal, would discharge as high as the tops of the trees. In the precess lakes were formed, some of which were shallow, others so deep that conists could see lifeless trees under water.

The noise was described as being so intense that it frightened man and beast equally. Birds lost all power to fly and retreated to the "bosoms of men, their fellow sufferers in this general convulsion." A bursting of the earth just below the village of New Madrid arrested the mighty Mississippi in its course and caused a reflux of the waves. There were two shocks

reported-- one horizontal and one perpendicular.

Houses crumbled and trees wove together.

The book says, "In the midst of those scenes of terror, all, Catholics and Protestants, praying and profane, became of one religion and partook of one feeling. The cattle much terrified, crowded about the people seeking to demand protection or community of danger."

The people, says the book, had the general impulse to run, but at every step were thrown to the ground.

The people, described as "unlettered backwoodsmen," were unanimous in agreeing that the earth had swallowed men and houses in chasms that occurred frequently within intervals of half a mile.

The people of the area passed the winter in bark booths and camps, like those of the Indians, of so light a texture as not to expose

the inhabitants to danger in case of their being thrown down. The people along the river had much to eat as many of the boats of provisions were broken up in the quake and the supplies of bacon, meat, butter, apples, etc. was taken by the people.

The general government passed as act allowing the inhabitants of the country to locate the same quantity of lands that they possessed there in any part of the territory where the lands had not yet been covered by any claim. These claims passed into the hands of speculators and were never to any substantial benefit to the possessors.

While Saturday's quake bore no resemblance to this one, it was something that had not happened in these parts since 1937. Saturday's quake was felt by many local people and was un-noticed by others.

Bayh urges abandonment of Electoral College

Sen. Birch Bayh, D-Ind., citing what he called "the near brush with catastrophe" in Tuesday's election, said this week that the country should elect its president by direct, popular vote.

Bayh, re-elected in last week's election, is chairman of the Senate constitutional amendments subcommittee. He said plans have been made for a new round of hearings early in the new Congress and that he hopes to build up grassroots support for aban-

doning the Electoral College system.

Bayh says he feels Congress and the public have been awakened to the need for a change after Tuesday's election in which third-party candidate George C. Wallace threatened to keep either of the major party candidates from capturing a majority of the electoral votes.

Bayh's committee, a unit of the Senate Judiciary Committee, held meetings earlier in the

KEEPING CURRENT

fluffier and puffier

The next time you serve rice, put a dry slice of bread in the serving dish before adding the cooked rice. It'll absorb that last little bit of moisture and your rice will be as fluffy as can be.

just like a miracle

... That's what everyone says about their electric self-cleaning oven. And it's true! It is miraculous the way even the dirtiest oven becomes sparkling bright with no more effort than the twist of a dial. See the new '69 models of clean, safe, electric ranges at the Appliance Dealer's now.

good grip, good deal

Handiest gadget we know of for opening jar lids and performing other slippery jobs in the kitchen and work shop is a rubber disk called a Mystic Gripper. Penny Power will send you one—absolutely free! Phone your nearest Public Service office or drop a card to Penny Power, 1000 East Main Street, Plainfield 46168. Offer ends November 30, 1968.

grate gimmick

If you are tired of skinning your knuckles on a grater, stick a corn-cob holder into the nubbin of what you are grating. Better yet—your electric blender can do many grating chores easiest of all.

One nice thing about middle age spread is that it tends to bring folks closer together.

how unsalting

If you should happen to add too much salt when seasoning a stew or soup, put in a raw potato. This will absorb a great deal of the extra saltiness.

BEFORE: Miller's Hardware building was razed by Secrist and Sons to make way for the new drive-up facility opened this week by the Farmers State Bank, Mentone. The hardware is now located in the building formerly occupied by the Northern Indiana Co-op hardware.

DURING: During the remodeling procedure, many sidewalk superintendents watched the progress as the old building came down. The roof was left, however, and the front was bricked in to give the facility under roof protection. Banking officers noted that it is one of the few banks in Indiana to have an under-cover drive-up facility.

Northern District Director Addresses Anthony Nigo Chapter DAR And Guests

Mrs. Charles Miller, Ft. Wayne, Northern District Director, was the guest speaker at Tuesday night's meeting of the Anthony Nigo Chapter DAR. Mrs. Miller used the origin of Thanksgiving as the basis of her talk and described the early feasts enjoyed by the Pilgrims as three days of eating and merry-making. She also noted that the Pilgrims did not live in log cabins as is commonly assumed but lived in stone houses.

The meeting was held at the Wagonwheel Restaurant in Warsaw and the local chapter hosted members of the Manitou Chapter, Dr. Manassah Cutler Chapter and Agnes Pruyn Chapman Chapter. The serving tables were beautifully decorated in keeping with the autumn and Thanksgiving season by a committee consisting of Mrs. Ray Linn, Mrs. Frank Smith, Mrs. Loren Gross, Mrs. Wayne Smalley, and Mrs. Max Smith.

Mrs. Charles Tucker read the president general's message, which was also pertinent to Thanksgiving. Mrs. Fred Surguy read a DAR resolution concerning freedom of the press and its importance as well as the need for preserving honest and impartial reporting.

Burns of No. Manchester who is seeking election as honorary vice president general; Mrs. Miller and her mother; Mrs. William Nice, Warsaw, state treasurer; Mrs. Geo. Nye, Warsaw regent; Mrs. Paul Kite, No. Manchester regent; Mrs. Mary Manwaring, Warsaw; and Mrs. Loren Sheetz.

Terry Hammer Addresses Mentone Lions Club

Terry Hammer, a senior at Mentone High School, presented the program at the Tuesday evening meeting of the Mentone Lions Club, which was held in Teel's Restaurant. He was introduced by program chairman Kenneth Romine. He gave an interesting program of slides taken while he was on an European concert tour with the School Band and Chorus of America last summer.

The program followed the business meeting and dinner, which was opened by the singing of "America" and the pledge to the flag led by Lion Roy Cox. Lion George Welch gave the invocation.

A guest, Fred Hurd, a teacher at Mentone High School, was introduced. During the business meeting committee reports on the Halloween parade and fish fry and the house number project were heard.

National Book Week November 17 - 23

National Book Week will be observed November 17-23, 1968. "Go Places With Books" is the theme of Book Week.

This would be a good time to visit the Akron Public Library and discover the many things available at the Public Library. There are old books and new books for all ages. There are records available for loan. The Library subscribes to many of the leading periodicals and these are also available for loan. Visit the library and you will find something that will appeal to your particular interest.

The following new books are on the shelves of the Akron Public Library:

"Many a Green Isle" by Agnes Sligh Turnbull --- This is a warm and charming story but it is more than that; for it has in it a profound conception of life's values which will make readers grateful to the author for having written it.

"Hunter's Green" by Phyllis A. Whitney --- A novel of suspense.

"The New Year" by Pearl S. Buck --- The author has written her most searching, most poignantly moving novel of East and West.

"Seven Minus One" by Carl L. Chappell --- The story of Astronaut Gus Grissom.

"Fund Raising for the Small Organization" by Philip G. Sheridan --- Dozens of practical, proven money-raising projects for the small club or organization with step by step instructions that assure success.

The Association of American Railroads commented, "Secretary of Transportation Alan S. Boyd saluted America's railroads as pioneers

'in many fields of safety' and hailed their mounting safety efforts over the years."

Congressman Wendell Wyatt of Oregon said that he agrees with FBI Director J. Edgar Hoover that adequate force must be used by police, to stop riots and civil disturbances.

Mr. Erwin N. Griswold, Solicitor General of the United States, commented, "...When society operates with only normal aberrations, the law can be made to bring the non-conformists into compliance. But when there is mass resistance to the law, we need other tools, other sanctions if organized society is to survive."

"Westmoreland, the inevitable General" by Ernest B. Furgurson --- This is a biography of General William Childs Westmoreland, former U. S. Commander in Vietnam and now the Army Chief of Staff in Washington.

"The Mothers of American Presidents" by Doris Faber.

"Training You to Train Your Cat" by Leon F. Whitney --- A noted veterinarian shows with photos and step-by-step instruction how you can train your cat easily, permanently and with kindness.

"Handicap Race" by Dorothy Clarke Wilson --- This is the inspiring story of Roger Arnett. This is a story of courage in the face of pain, of poverty, of fear. It is the story of a brave man who learned that a handicap race was one in which you ran and ran until you couldn't go any further, and then kept running some more.

The following books can be obtained at the Bell Memorial Public Library:

Fiction: RED CASTLE WOMEN by Margaret Widdemer A novel of a haunting legend, a mysterious heritage and a threatened marriage.

PRESERVE AND PROTECT by Allen Drury. A novel of politics.

SONG OF THE YOUNG SENTRY by David Westheimer A fast-moving, dramatic, funny and poignant novel about allied prisoners in World War II.

Non-fiction: THIS STRANGER, MY SON: A MOTHER'S STORY by Louise Wilson. The deeply moving account of a mother's devoted efforts to raise her "lost" child.

TODD by David Melton. The beautiful moving story of how one family rescued their little boy from a world of brain-damaged children.

THIS RAW PEARL by Pearl Bailey. This story of the famous singer, actress and comedienne is also a story of struggle and conflict, disappointment and fulfillment.

Homemakers will be interested in the new McCalls's Sewing Book and

A TREASURY OF KNITTING PATTERNS by Barbara Walker.

For the younger reader we have colorful new copies of several old favorites such as:

TREASURE ISLAND by Stevenson; CALL OF THE WILD by London; SWISS FAMILY ROBINSON by Wyss; PINOCCHIO by Collodi; and 20,000 LEAGUES UNDER THE SEA by Verne.

And for the even younger (and some of us older, too) we have ten paperback and two hard-back PEANUTS books.

School Board Buys Buses, Hears Report

Members of the Tippecanoe Valley school board Monday night authorized the purchase of three new school buses after hearing bids from a number of body and chassis companies.

Bids opened were from Kerlin Ford, Thomas Body Co., Bahney Chevrolet Sales, Leonard Supply, Imperial Equipment, and Carpenter Body Co.

Kerlin bid \$4,115.36 each on the chassis, allowing a deduction of \$25 each for multiple orders. On the Thomas Body he bid \$4,115.36 each, \$4097.50 each for two or \$3,997.50 each for three.

Bahney Chevrolet bid \$4,088.55, \$4,068.55 and \$4,058.55 each for one to three busses.

Superior Body, bid by Leonard Supply, was for \$4,566.88 for each body.

Imperial Equipment, manufacturers of Blue Bird bodies, bid \$4264.70 each for one or more.

S. E. Merriman of Ft. Wayne, bidding on Carpenter bodies, quoted prices of \$4250, \$4210, and \$4170 plus \$20 extra for extra rubber at the wheel guard.

After discussion, the low bids on each were accepted. The bodies will come from Thomas and the chassis will be supplied by Bahney Chevrolet. All prices bid were delivered prices.

A group of Beaver Dam residents, Dorris Harold, Dick Whittenberger, Paul McFarland, and Phillip Lash, with Harold as spokesman, asked for and received permission to use a school bus to transport children to the Holiday on Ice show in Ft. Wayne. The children, all members of the Beaver Dam 4-H clubs, will be accompanied by their leaders.

School superintendent Robert Forbes reported that the sale of Beaver Dam school and equipment had been completed and that the buildings had been purchased by P. G. Cook who will be given approximately one year to level the buildings and bury them under a 4-inch layer of top soil to be free of noxious weeds. The area will

then be seeded.

Confirming purchase orders for materials being used in the Building Trades Program were issued, and diplomas for Thomas Lee Landis and Sandra S. Hopkins were negotiated. Both had taken GED tests to complete their high school education.

Other matters discussed by the board included tires, transfer of accounts, and a joint meeting to be held at the Morris Inn in South Bend on December 17.

Members voted a 3% salary increase for the school clerks and re-affirmed an earlier decision to file an appeal on the James Leachman case which was heard recently in Marshall Circuit court.

All five school board members, Ralph Davis, O. L. McFadden, David Burkett, Donald Van Gilder, and Richard Goshert, as well as the superintendent of schools were present.

Stucker To Move Machinery; May Close Alley

The condition of the Akron parking lot was the chief subject of discussion at Tuesday night's meeting of the Akron Town Board. It has come under fire in recent months for the accumulation of old machinery that lines its edges. Town Board member Jack Stucker, owner of the machinery, told his fellow board members he would have the machinery removed either this fall or by early spring. He said that he would move the machinery to grounds he owns that now have the remains of an Akron Fair barn. In order to do this, he said, he would need to hire a bulldozer to make an entrance to the new facility. This would all be done on land that he owns. In the process of doing this, he said, it would be necessary to close the alley between Ogle's Standard Service and the Vern Royer building.

The town parking lot was defined as a 2-acre tract of land that begins at approximately the south edge of the telephone company's block house. The rest of the ground now used as parking lot facilities actually belongs to the owners of the buildings facing the main street.

In other board actions, it was noted that NIPSCO had paid \$86.40 for repair to a damaged water main. It was also decided to have Lane-Northern clean one of the wells.

A change in the method of distributing water

er department funds was approved and the hourly rate of town employees was raised from \$1.50 to \$1.60 per hour.

Early Deadline Set For Next Paper

There will be an early deadline for all news and advertising copy for next week's edition of the NEWS because of the Thanksgiving holiday.

All news and advertising copy will have to be at either the Mentone or the Akron office by 5 p.m. MONDAY, NOVEMBER 18, to ensure its being printed in the November 28 issue.

The paper will be printed and mailed on Wednesday although it will be put in the mail too late for anyone to receive it that night. It should, however reach each of the subscribers in Friday's mail.

Both offices of the NEWS will be closed for the balance of the week, as is the custom, to give employees a short fall vacation. Both offices will open as usual on Monday, December 2, for business.

Don't Forget Turkey Day

Don't forget to deposit your turkey day coupons you received in last week's paper. The drawing will be held on Saturday, November 23, at each of the participating merchants. This is a good opportunity to take advantage of the many specials offered by local merchants.

NEW BOOKS

AT THE BELL MEMORIAL
PUBLIC LIBRARY

For all of you Antique lovers, we have two new books which should be of interest to you. **The Complete Antiques Price List** by Ralph and Terry Kovel. This is a guide to the 1969 market for professionals, dealers and collectors. It contains the latest prices of all categories of antiques from auction sales, dealer catalogs and other reliable sources. **The American Heritage of American Antiques.** For the antique bugs, this volume provides the largest and most varied collection of artifacts brought together between the pages of one book from the Revolution to the Civil War,---with the added dividend of sparkling historical commentary.

Other interesting non-fiction: **The National Parks by Freeman Tilden.** For the armchair traveler, a book on the national parks, with information and evaluation on all of our parks, monuments, and historic sights and buildings--including two hundred and twenty-five magnificent photographs. **Linkletter Down Under by Art Linkletter.** This is the author's story of his adventures as owner of a huge tract of barren land east of Perth, Australia. Written with wit and humor and with cartoon illustrations.

We have some real good new fiction. (I know because I've read them myself): **Testimony of Two Men by Taylor Caldwell.** A major novel of love, death, redemption and the rise of modern medicine against nineteenth-century opposition and ignorance. **The Hurricane Years by Cameron Hawley.** The story of a successful corporation executive in his mid-forties who is abruptly struck down by a heart attack. Prodded by his doctor, he is impelled to appraise himself as he has never done before, to search his past for the cause of his attack and to find a clearer and safer path to a more satisfying future. **The Brink by Dan Gallery.** This is a novel of a dramatic episode in the Polar Seas which almost starts World War III. Incidentally, this book was written by the man who captured a German submarine in 1944, the first enemy warship taken by the United States since 1815. This submarine, the U-505, is on display at the Museum of Science and Industry in Chicago. Some of you may have seen it.

Now, how about a couple of good mysteries to read on one of these cold, gloomy fall days? **Woman on the Roof by Hignon Eberhart** is a good one and if you want one that will make your hair stand on end, try **reading Progeny of the Adder by Leslie Whitten.**

To The Editor

A letter to my children
Dear Children:
To be ninety years old
perhaps you will say
Is a long time on this
earth to stay
But your life is like
a vapor, it soon
passes away
I think of the mistakes
and blunders I've made
While you were growing
up and with me stayed
I always prayed while
you were small, the
Lord would spare me
to you all, until you
were no more under my
care

I am still here so He
answered my prayer
There were heart aches
and tears, also joy
and laughter
All down through the
years

I wish I would have
been more understanding
and patient and
kind

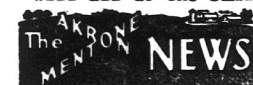

It takes a lot of patience
to rear a family of nine
Now you have all flown
your nest, and you
need me no more
But I need you more
than ever before
My body is weak and my
steps are slow
I need your help wherever
I go

I have many things to
be thankful for although
I cannot work anymore.

For the right use of
my mind I am thankful
too

I do not want to be a
burden to any of you,
Many things have happened
since on this earth I trod

I am glad I made my
peace with God
I hope and pray you
will all do the same

What's your favorite holiday pie? Pumpkin or mincemeat? With the aid of commercially-frozen pies, it's a simple matter to offer your guests a choice of both.

Packed in their own aluminum pie pans, frozen pies are complete and ready to bake. No additional embellishment is required, but many people like to individualize them by adding a special topping.

Final flourish for the illustrated frozen pumpkin pie is whipped cream flavored with ground nutmeg and garnished with bits of crystallized ginger and chopped pecans.

Pumpkin Pie With Ginger Whipped Cream

- 1 frozen pumpkin pie
- 1 cup (½ pint) heavy cream
- 1 tablespoon confectioners' sugar
- ¼ teaspoon ground nutmeg
- 2 tablespoons crystallized ginger
- 2 tablespoons finely chopped pecans

Bake pie according to package directions. Cool thoroughly. Whip cream until stiff, adding sugar and nutmeg. Pipe rosettes of whipped cream around outer edge of pie (or drop from teaspoon in small mounds). Sprinkle cream with ginger and pecans.

Makes enough topping for an 8, 9 or 10-inch frozen pie.

THANKSGIVING

Over the years we have accepted everything we have for granted and have never taken time to see just why we are celebrating Thanksgiving. We are granted here in America many, many freedoms, that only our beautiful land can offer. Let us look over a few of the thankful freedoms:

- Freedom of Worship
- Freedom of Speech
- Freedom from Want
- Freedom to Govern
- Freedom from Fear

We are thankful for these freedoms and countless others. Among the many, your cooperation over the past year and your patronage. Our sincerest wishes for a happy Thanksgiving, with Thanks for the freedom we enjoy and a perpetual prayer that you and all Americans may enjoy them forever.

Students Become Involved In School Affairs At Talma Junior High School

Student involvement is taking on a new dimension at Talma Jr. High this year. The school has always had a student council to govern student affairs, but this year the student council has taken on the responsibility for the sponsorship and production of school programs. The student body, which has a record enrollment of 310 students, has enjoyed three programs so far this year.

The initial program was a short musical provided by the seventh grade band under the direction of Mr. Kenneth Bush.

The second program was an excellent puppet show put on by the nationally known Stevens Puppets. The production was John Ruskin's Classic, "The King of the Golden River." The show was enjoyed by all and at the conclusion there was an informative demonstration about the operation of the puppets.

The most recent undertaking of the student council was a special program that honored the Nation's war veterans. Mr. Roy Meredith, assistant superintendent of the Tippecanoe Valley School Corporation, was the featured speaker. His talk was a refreshing appeal for students to be proud of their country and community.

Leading the student council this year is president Scott Slaybaugh, while Hal Hoffman and Pam Wagner serve as vice-president and secretary-treasurer respectively. The sixth grade representatives are Linda Decker, Dan Warren, Cathy Lester, Mark Wise and Judy Lacky. Guiding the affairs of the seventh

grade are Jerry Hudson. Greg Shireman, Belinda Larrew, Jeff Tilden, Ken Howard and Steve Kamp.

Mr. Marion Acton, Principal, has extended a welcome to parents and friends to visit the school and its programs.

Take your problems to Church this week -

A giant radio telescope picked up bursts of static from a galaxy 2000 light years away. In them, scientists discovered these simple words:

"Earthmen, your planet is in danger. As your morals decay, your great cities slowly crumble. You will see wars and civil strife."

"But we offer you hope," the ancient message continued. "A new world. We can give you knowledge and bring you the peace for which you have searched so long . . ."

Science-fiction?

Not entirely.

There is a message that originated in a distant place over 2000 years ago. It describes the world as it is today, and it offers hope for the future.

The Bible, inspired by God, is a very real message, one that you can begin reading today. Then go to church on Sunday and meet the Author there.

SERVICES

Talma Church Plans Special Thanksgiving Services

A special Thanksgiving service will be held on Sunday evening at the Talma United Methodist Church. A carry-in supper will be served at 6:00 p.m. and will be followed by devotions.

Mrs. Sid Dick and Mr. Charles Good will be teachers for an old-fashioned spelling and ciphering match to be held during the evening.

An old fashioned pie supper will be enjoyed at the close of the evening.

UNION THANKSGIVING SERVICES are planned by the Mentone United Methodist Church. The services will be held in a Pilgrim setting shown being erected in the church yard. It will have a log cabin, rail fences, shocks of corn, pigs, goats, dogs, opossums and racoons to make up the outdoor setting. Refreshments of hot chocolate, coffee, home made rolls and donuts as well as turkey bits will be served by Pilgrims and Indians. The Indians and Pilgrims will also sing special numbers. The services will be held at 9 a.m. Thursday, November 28, and are open to everyone. Visitors are advised to dress warmly and men are invited to bring their guns and coon hounds. Big wood fires will be provided for warmth.

National Safety Council Launches Program To Cut Tractor Accidents

The National Safety Council is launching a Tractor Overturn Prevention and Protection (TOPP) program, a nationwide, all-out attack on farm tractor upset accidents.

Statistics gathered by the privately supported non-profit organization show that each year more than 600 persons in the United States are killed in farm tractor upset accidents. An additional 5,000 are injured.

Leon J. Urban, manager of the Council's Farm Department, estimates that three of four persons now killed in tractor upsets could be saved if their tractors were equipped with protective frames or crush-resistant cabs and safety belts.

Urban suggests buying equipment equipped with the protective frame, using a seat belt, and following these rules:

1. Read and be familiar with the instruction manuals for your equipment.
2. Keep yourself in good physical and mental condition by getting enough rest, dressing comfortably, working at a pace within your physical abilities, and taking mid-morning and mid-afternoon rest breaks.
3. Avoid operating on steep slopes, and stay clear of ditches, embankments and the like.
4. Drive slowly on rough or muddy surfaces

and slopes, or when visibility is poor—such as when moving in high grass.

5. Reduce speed when turning or near ditches.

6. Keep guards and shields in place, and shut off the power before unclogging or servicing machinery.

7. Avoid dropping a wheel off on a soft shoulder or in the ditch.

8. Keep children off and away from farm machinery.

9. Don't use boy-sized tractors for man-sized jobs.

10. When on the road, display the Slow-Moving Vehicle (SMV) emblem. It is becoming universally recognized as designating a vehicle, such as a farm rig, traveling at less than 25 miles an hour.

Neighbors Pick Belgh's Corn

Men of the Beaver Dam United Methodist Church and neighbors of Leonard Belgh, R.2, Akron, picked 24 acres of corn on Veteran's Day.

Leonard had surgery in August for an injured shoulder.

Cornpickers were furnished by Loren Cumberland, Bob Heighway, and George Sheetz. Others helping and furnishing equipment were Leonard Swick, Orval Swick, Dorris Harrold, Dick Boganwright, Wayne Baumgartner, Gerald Clinker, Mort Haney, Eldon Cumberland, Harold Markley, Terry Swick, Eddie Swick, and Greg Shireman.

The noon meal was prepared and served at the Belgh home by the Busy Beavers Class. Those helping were Mrs. Leonard Swick, Mrs. Dorris Harrold, Mrs. Dick Boganwright, Mrs. Wayne Baumgartner, Mrs. Loren Cumberland, Helen and Linda Belgh. Those sending food were Mrs. Richard Whittenberger and Mrs. Walter Weber.

DID YOU KNOW?

Mrs. Anna M. Prater, 36, R. 1, Akron, and her daughter, Linda, 16, received cut foreheads on Friday evening when a car driven by the husband and father, Kyle, 38, collided almost head on with a truck on a bridge near Akron. The Prater 1964 Chevrolet skidded on the wet bridge and collided with a northbound 1966 Dodge three-quarter ton truck operated by Howard Boone, 43, R. 1, Akron. Damage to the car was set at \$300 and to the truck at \$500, according to the sheriff's office.

Senior Citizens Day A Success

Senior Citizens Day was observed last Sunday at the Church of the Brethren. There was a good attendance at the morning service. During Sunday school, Loren Baker of Waterford, California and Miss Corene Hobbyre of San Francisco, Calif., spoke to the young people and Jr. High telling of their experiences as Brethren Volunteer Workers during the past two years in Poland, Germany and Cyprus.

About 70 were present for the evening service. Of these, 12 were Senior Citizens. They were guests of honor and were seated at a table decorated in keeping with the reason and occasion. An excellent program of miscellaneous "Family Talent" was enjoyed by all. Senior Citizens present were: Mr. and Mrs. Fred Walgamuth, Mr. Alvin Tridle, Mrs. Amanda Murphy, Mr. and Mrs. Leonard Miller, Mr. and Mrs. Fred Holloway, Mr. and Mrs. Wm. Hively and Mr. and Mrs. J. F. Baldwin.

Las Donas Club Begins Community Building Project

Plans for a community building for Akron were begun Monday night at a meeting of the Las Donas Jr. Woman's Club. Mrs. Gary Luckenbill, club president, will head a committee to begin preliminary work and contacts, and fund raising projects will begin.

The club recently completed a project to enlarge facilities at the town park. Help was received from many other community organizations, it was noted in a report.

Other plans made by the club include a bazaar to be held December 7 and a Christmas party set Dec. 16.

Mrs. Kenneth Hartzler, a member of the club,

gave a demonstration of bow techniques to be used on Christmas packages. The hostesses, Mrs. Loren Sheetz, Mrs. Don

Nicodemus, Mrs. Donna Thompson and Mrs. Linda Davis, served refreshments at the close of the evening.

Roberts Buy Claypool Elevator

Announcement has been made of the purchase of the Claypool Elevator by Roberts Lumber, Hardware and Grain. The Roberts firm now owns

mills in Akron and Mentone.

The mill at Claypool will open for business on December 2.

General Telephone Co. Asks Charge Adjustment

General Telephone Co. field a revised tariff with the Indiana Public Service Commission this week for an adjustment in one-time charges for

installing, moving, and certain kinds of specialized communications equipment.

Carl J. Lohman, division manager, said the charges apply only to customers who order a new installation, a move, or a change of their telephones.

Lohman said that with the cost of premise visits at all-time high, the tariff filing proposes that those customers who are responsible for these visits contribute a larger share of the cost. The new charges will be more in line with these higher costs, though they still will not equal them, he said.

He said a number of other telephone companies in Indiana and elsewhere have filed similar adjustments in these one time charges in recent months.

Under the revised tariff, charges for installing a main telephone would increase \$2.50 for residential customers and \$6.00 for business customers; change or relocation charges would increase \$5.00 for residential customers and \$4.00 for business customers.

Akron Library Entertains Children

Akron Grade School children and their teachers were entertained at the Akron Carnegie Public Library on Tuesday and Wednesday during National Book Week. The films "Rumpelstiltskin" and "Heidi" were shown. New books were sent to each room at school and the children were given favors of bookmarks and candy.

The results of the study will not be binding on the commissioners and they will neither have to follow or act upon any of the recommendations.

The groups is composed of John Snell, chairman, Warsaw; attorney Phillip J. Harris, representing Kosciusko Community Hospital Inc.; Mrs. Robert K. Moore, representing the Area Health Facilities Planning Council; Dr. Robert Pullman, representing the administrative staff of Murphy Medical Center; and Dr. Thomas Keough, representing the Murphy Medical Center medical staff.

Homemaking Skills Send Coeds to 4-H Congress

Mary Lou Swanson

Linda Cleland

"A Commitment to Responsibility," the theme of the 1968 National 4-H Congress, has also been the theme of two Hoosier 4-H girls who have been rewarded with a trip to the congress at the Conrad Hilton Hotel in Chicago, Dec. 1-5.

Mary Lou Swanson, 18, the daughter of Mr. and Mrs. Edwin Swanson of West LaFayette, is sponsored on her trip by Montgomery Ward. Tupperware is sending Linda Cleland, 19, the daughter of Mr. and Mrs. Glenn Cleland of Rochester.

Miss Swanson, a freshman elementary education major at Purdue University, has taken 4-H Home Economics projects for the past nine years. During this time she has preserved 1,555 jars and packages of food, created more than 100 craft articles, sewn two dozen garments, made many home furnishings articles and restored four antique furniture pieces.

She said her greatest rewards in 4-H work have been learning to cook, to make her own clothes, and to work with and encourage younger 4-H Club members.

Miss Cleland, a sophomore at Ball State University, where she is a home economics major, has earned the 4-H Key Club award, a 4-H Fair scholarship for achievement, and county achievement trophies in recognition of her outstanding work in the home management project.

Miss Cleland has prepared some 3,000 tasty dishes, about 1,000 meals, and given scores of demonstrations on how she does these things.

Both girls were selected for the state honors by the Purdue University Cooperative Extension Service.

Deadlines For Domestic Christmas Mailings Set

In order to assure delivery by Christmas, patrons are urged to plan their parcel and greeting card mailings according to the following schedule:

Alaska and Hawaii by December 2, when sent by SURFACE MAIL and by Dec. 16 when sent by AIR MAIL
Distant States by Dec. 9
Nearby States by Dec. 9
Local Mailing by Dec. 23

The postage rates on greeting cards sent as first class mail will be 6¢ per ounce or fraction thereof. The postage rate on unsealed greeting cards sent as third class mail will be 6¢ for the first two ounces and 2¢ for each additional ounce or fraction thereof. It is suggested that greeting cards weighing one ounce or less be sealed and sent first class mail. Undeliverable first class will be forwarded if necessary, or, returned to the sender providing the return address is shown on the envelope.

The name and address of both the Sender and Addressee should be enclosed in each parcel to permit identity in case of damage or loss of the outside address. The attention of mailers is also called to the fact that parcels may be marked

"Do Not Open Until Christmas" and may contain written messages providing they are endorsed "Letter Enclosed" the postage being paid for the letter on the OUTSIDE OF THE PARCEL. Patrons are urged to use their ZIP CODE number as of their return address. Christmas time provides an excellent opportunity for everyone to advise their once-a-year correspondents of their correct address and Zip Code number.

65 YEARS AGO

There are a lot of old bachelor men about town that should heed a warning. They should awaken to the truth. A leap year is rapidly approaching—less than 40 days left in the year that men can choose. Will you pop now and get the ultimatum from a lady of your choice, or wait until after January 1st, and be popped and take your chances? There are bachelor ladies less than ten miles away whom we have heard, have said that they would never, never, never, let another leap-year slip by without each getting a man. They already look under the bed before retiring in the hopes of finding a man there. If they continue to fail in this, they will go out after him in a real way. Bachelor men had better warm up to the question and pop quick.

Last year a Silver Lake girl made her affianced promise to buy her a carriage after their marriage. He kept his word, and now she makes him take turn about with her pushing it.

The old M.E. church is now resting on a temporary foundation on Gilead avenue. Mr. Cuffle expects to put it in shape as rapidly as the weather will permit in order to open up a new furniture stock in it.

Flet Kroft, the genial thresher, has been again selected as one of the three threshermen from Indiana to attend and assist in a big test threshing "bee" at Port Huron, Michigan.

Rev. Miller is engaged in a revival meeting at Highlands north of town.

The east end liberty barn has been a veritable poultry barn this week. Rev. John M. Fox had it full of turkeys and chickens which he bought for the Hazelett Bros.

Turkeys sold for 14 cents this week in this market. Fresh bread at the Corner Grocery - only 4c per loaf.

Miss Lollie Cover expects to go to Indianapolis Friday where she accepts a position in the insane hospital which she secured about a month ago.

50 YEARS AGO

Mr. E. A. Gast perpetrated a surprise on his friends about town the other morning by telling one or two intimates that he had purchased the Warsaw Union at Warsaw. Mr. Gast is one of Fulton county's most versatile, capable young men and enters the field of local journalism with a wide business experience, besides a thorough business and college education.

The carbuncle on Lew White's neck just below his left ear and a little back of the ear is growing better. He walks with a little more vim now than for nearly two months.

A good substitute for a leaking hot water bottle, is a cloth bag filled with heated shelled corn. The corn may be used several times and holds the heat well.

When using the telephone, close your eyes, and there will be a sense of relaxation, also a clearer understanding of the message.

Howard Slaybaugh had his cow barns all wired this week for using electricity. The electricity will not only be used for lighting purposes, but he expects to be milking his cows very soon by electricity, probably next week. Certainly this is an advanced age. The scheme promises to be interesting and no doubt there will be plenty of visitors at evening milking time when the public shall know certainly that the installment has been perfected and in working order. No doubt his cows will get a little up on themselves by reason of being pailed that way.

25 YEARS AGO

Dr. Bowers has sold his house on East Rochester street to Cloyde Leininger and bought the Mary Jane Smith property from Mr. Leininger.

Wayne Hoffman acted as corporal for a group of ten men who left Rochester Monday morning for the induction center at Fort Harrison. Abe Martin and Gerald Kamp of Akron were in the group, which also included Myron Berkheiser, Rochester grocer, and Wayne Outcalt, manager of the Rochester airport.

Mrs. Gertrude Strong left Monday to spend the winter with her daughter and son-in-law, Mr. and Mrs. Wendell Godwin, at Hutchinson, Kansas.

ODDS and ENDS

In interviewing some out-of-towners-returned to-the-local-scenes people this summer, we asked them where they were from and they replied, tongue-in-cheek, "Right here in River City, mam."

Right here in River City is a pretty good place to be, sir if the performance witnessed at Rochester this week is any indication, because there's where the talent is. Anyone who saw the outstanding production of "Music Man" will also agree that the talents of River City are indeed great.

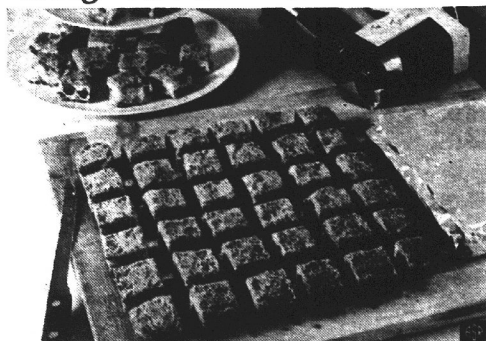

Local people composed the cast, did the choreography, provided the music, created the unusual sets and did it in a very professional manner.

From Akron came Pat Parker and her daughter Sandra who did an outstanding job at Marian, the librarian, and Nancy Luckenbill who helped

create the sets. A Mentone area resident, Janice Perry, was a member of the chorus, and many people familiar to both areas had other active roles.

It was not only a tribute to the talents of River City but a tribute to small town living as the audiences

Here's Two-In-One Recipe To Bake A Big Batch Of Christmas Cookies

Cookies in two different, delicious flavors, both chocolate and butterscotch, are done all in one mixing and baking with this handy holiday recipe that calls on the convenience of semi-sweet chocolate and butterscotch morsels.

CHRISTMAS COOKIE TWINS

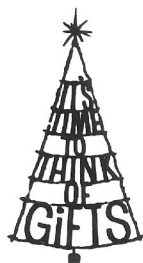

Crumb Layers:

1 cup fine dry bread crumbs 1 teaspoon cinnamon
 1/2 cup sugar 1/2 cup butter or margarine, melted
 Combine bread crumbs, sugar and cinnamon. Add butter, mix well. Use one half crumb mixture to line bottom of 2 greased 8 x 8 x 2-inch pans or a 9 x 13 x 2-inch pan.

Chocolate Butterscotch Batter:

1 cup butter or margarine 1 6-ounce package (1 cup)
 1/2 cup sugar semi-sweet chocolate
 2 eggs morsels
 1 teaspoon almond extract 1 cup California walnuts, divided
 1 1/2 cups sifted all-purpose flour 1 6-ounce package (1 cup)
 1/2 teaspoon salt butterscotch morsels

Cream together butter and sugar. Beat in eggs, one at a time, add almond extract, beating until very light and fluffy. Sift in flour and salt; stir until blended. Divide mixture in half. To one half of mixture add semi-sweet chocolate morsels and 1/2 cup walnut halves. To other half, add butterscotch morsels and remaining walnuts. Spoon chocolate mixture over crumbs in one baking pan, spreading gently to cover. Spoon butterscotch mixture over crumbs in other pan and spread gently. (If one pan is used, spread chocolate mixture over one half of crumbs and butterscotch over other half.) Sprinkle tops with remaining crumb mixture, pressing in lightly. Bake in a moderate oven (350°F.) 35 to 40 minutes. Cool. Cut in 1 1/4-inch squares. YIELD: Approximately 6 dozen cookie squares.

Take your problems to Church this week -

The Church As A Harbor

Harbors are indispensable to all craft that ply large bodies of water, whether they be pleasure yachts or large cargo ships. From the time men first ventured to sea, harbors have spelled shelter, a haven—safety for the sailor and his craft. Many a mariner's life has been spared, in times of terrific storm, when by good fortune his vessel was able to reach port.

The Church might well be compared to a harbor, for when the storms of life rock the very foundation of a man's or woman's life through grief, ill health or mental torture the Church can and will serve as a harbor—a haven. It will aid a life to regain its even keel—to meet and weather all rough storms.
