Fish renovation begun in area lakes

The Indiana Department of Natural Resources carried out a fish renovation project on Hill and Diamond Lakes Monday and Tuesday.

Originally scheduled for September 12, the work was temporarily delayed because of objections. Public reaction as a result of the temporary delay was overwhelmingly in favor of the planned project, according to the department. The favorable re-

action of the people is a substantial vote of confidence for the department's fish management program.

On Monday, all desirable species of fish that could be collected were taken to the state's fish hatchery and returned to the lakes as a part of the re-stocking program.

Tuesday's work involved eradicating with rotenone the entire fish

population of both lakes. Rotenone is a well-established fish toxicant that has a low toxicity to humans and other animals that are not gill breathers.

Salvaged fish will be returned to the lake and additional stockings of largemouth bass, bluegills and channel catfish will be stocked this fall.

Fishing will be allowed

Letters To The Editor

The NEWS welcomes letters for publication but prefers that they be kept under 200 words. The letters need not express the views of this paper; however, they should not be libelous or in poor taste. Anonymous letters will not be published. The name of the writer must appear with his letter.

Dear Editor:

Even though I regard Mr. Golden as a personal friend and a fine Christian gentleman, I must take exception to his recent letter in the Mentone-Akron News (issue of Sept. 20, 1973) that the church started at Pentecost. It would seem that the author in making his point left out too many questions that need to be answered.

If the church of the One Body of which Christ is the Head, started at Acts 2, then why were no Gentiles admitted to the church for some 8-10 years? Peter finally went to Cornelius, and frankly admits that he was the first to go to the Gentiles. Acts 15: 7.

If the Church started at Pentecost and it was one body why were the Gentiles grafted into the church instead of being members? Why was it necessary that they partake of Israel's blessing? Romans Ch. 11.

If the church started at Pentecost, why was it necessary for the Jews to keep the law while the Gentiles only had to abstain from fornication and meats sacrificed to idols etc? Acts 15:20.

If the church started at Acts 2, why in the books of Acts does each major speech start with the words, "Ye men of Israel," or "Men and Brethren?" (Incidentally, this happened 12 times the number of Is-

rael). Why weren't the words Lew and Gentile used: or church members: or people in general? Why did Paul during the time of Acts always go to the Jews first and then turn to the Gentile?

If Peter had the Keys to the Kingdom, how did he get anyone into the church? Incidentally, Peter only wrote two Epistles, while Paul wrote 14; seven to Jew and Gentile, and the last seven to Gentiles. It would seem he had eminence over Peter to be so honored in the Bible?

Did Peter make a liar out of God by preaching the church to those about him when God had made a solemn vow to Himself, that unto the seed of Abraham would be given the land and the Kingdom? Gen. 15:18 If the Church of the One Body, started at Pentecost, why does Paul, who was commissioned by the risen Lord himself to preach the gospel, confess before King Agrippa, "That for the Hope of Israel he was accused?" Acts 26: 6-7, also Acts 28:20.

If the church started at Pentecost, why does Paul say in I Cor. 15:8 "And last of all He (Christ) was seen of me as one born out of due time?"

If the church was one body, why were there diversities of gifts and contention? 1 Cor. 12: 4 also 12:30 and 31.

If the Church of the One Body began at Pentecost, why does Paul some 30 years later in Ephesians chapter 3, state that he was the prisoner of Jesus Christ

and that by revelation Christ made known unto him the Mystery of the One Body and that the Gentiles should be fellow-heirs and of the same body? "Unto me, who is less than the least of all the saints, is this grace given that I should preach among the Gentiles the unsearchable riches of Christ.

He repeats the same commission in Col. 1:25-26.

Are we to call Paul a liar for what he had been commanded to preach? Are we to call Peter a fraud for preaching the Church, when Christ gave him the Keys to the Kingdom and God promised Abraham and his seed the land?

If the church started at Pentecost, why did Paul at the end of Acts after going to Rome and expounding the Scriptures to the Jews and they agreed not among themselves, pronounce this solemn warning? "Be it known therefore unto you, that the Salvation of God is sent unto the Gentiles and that they will hear it."

If the church started at Pentecost, it doesn't appear to me that it was One Body with all members equal. It appears there was division and the members unequally yoked.

If the Gentiles had to be grafted in. If they had to partake of Israel's blessing. If the Gentiles were only second best. If the Jews had to obey the laws and the Gentiles did not. If there were diversities of gifts. If the Jews were allowed in the Temple and the Gentiles kept out in the court then it was

a church of little charity. An unequal church. A church divided. A church of strife.

Isn't that what we see today among the churches?

Committees Named At Meeting

Committees to gather information for the 1974 community calendar to be sold by members of the Las Donas Women's Club were appointed at a recent meeting in the home of Mrs. John Zimmerman.

Discussion also continued on the need for safety patrol at the library crossing for the grade school children. A committee was asked to seek information on the subject.

As part of the Federation's project, 1974-75 pocket date calendars will be sold.

Plans for a Nov. 17 benefit fish fry in the Lions Den were also discussed.

Priscilla Burdge Heads KDP

Priscilla Burdge was installed as president of Akron's Kappa Delta Phi sorority by Bonnie Gearhart at the first fall business meeting of that organization.

Also installed by Mrs. Gearhart were Joyce Stephen, vice president; Polly Finney, secretary; Margaret Straley, treasurer; Marvus Zimmerman, monitor; Vivian Dudley, mistress of ceremonies; Marilyn Adams, guard, and Bonnie Bickel, historian.

Members agreed to give a donation to the Community Service drive and to pay registration fees for the Girl Scout leaders and troop committee members. The sorority is sponsor of Akron's Girl Scouts.

Two of the high points of the service came when Rev. Fawns was asked to baptize and dedicate the infant son of Pastor and Mrs. Lester Taylor and when he was asked to sing with the Men's Chorus, a group with whom he often sang when he was pastor. After 29 years, eight of the original chorus members were present.

The Fawns enjoyed a day of meeting and greeting old friends, and Ray Fawns was requested to reminisce about the couple's various experiences during their sojourn in Geneva, a town noted as the original home of noted writer Gene Stratton Porter. Her former home, where she wrote her first 12 books, is now a state memorial site and is

The Fawns report that in addition to this, the town and community have gone on an improvement and development spree. A large lake and smaller lakes, washes for the Wabash River, have been constructed. Those lakes are surrounded by beautiful homes and cottages. There is also a golf course, bird and wildlife sanctuaries and parks as well as nearby Amish Village.

The Fawns report Geneva has become one of the attractive spots of the state and many people visit there during the summer season.

Margaret Young re-creates

By Ann Sheetz

Margaret Young has re-created the inaugural gowns of all but six U. S. first ladies, duplicating style, color and fabric on small dressmaker dolls, each of which has hair the same color as its real life counterpart.

This has been no small task, and it has required a great deal of research and study as well as creativity.

Mrs. Young, whose R. 1, Roann, home is filled with dolls she has dressed, spent a year of research before beginning the inaugural project. After reading all the books she could find in the local library, she sent to the state library and finally to the Smithsonian Institution for complete descriptions of the dresses.

The first four presidents did not have inaugural balls. It was the indomitable Dolly Madison who first attended a ball in honor of her husband's inauguration. She and the next 11 first ladies had their gowns sewn entirely by hand. After that, the gowns were machine

stitched, but not until much after the Civil War were domestic fabrics used. Prior to that time, all fabrics were ordered from China or Japan.

Styles of the times can be followed through the gowns. For instance, short skirts were new the year Calvin Coolidge took office, and his wife Grace became the first and only first lady to wear a short dress to her husband's inauguration. Mrs. Warren Harding's white satin dress was the only one with sides cut up to reveal her ankles. Andrew Johnson's daughter served as his hostess, appearing at her father's inaugural ball in a fantastic 4' by 8' white camel fur cape that she ordered from Arabia.

Mrs. Young learned all the inaugural gowns in the Smithsonian are not originals, although they are exact copies, because the gowns not already donated at the beginning of the Civil War were given for war relief. Unlike modern first ladies who wear their gowns

only once before donating them, earlier presidential wives wore their gowns many times, one being observed in her inaugural gown seven years later.

Because of its experience in duplicating gowns, the Smithsonian advised Mrs. Young to "age" her fabrics by dipping them in tea or otherwise discoloring them. She did not follow these instructions, preferring to make them as pretty as they originally were.

No novice at dollmaking, Mrs. Young has worked with dolls the past five years. In addition to the first ladies, she has also created many storybook dolls and larger character dolls. The latter are unique creations using ordinary dolls' heads and arms that are placed on weighted detergent bottles for non-tip bodies. She can even slit the bottles to create legs on her farmer and clown dolls. No detail is too slight for her attention, and she once added cuttings from her granddaughter's hair

THE VIRTUES OF BEING SMALL

Size is a relative thing . . . but as banks go, we're pretty small. To your advantage.

David was pretty small too . . . but when he fought on his home grounds he was unbeatable. We think we are, too. Being small, we can concentrate on serving our own community and its people. Being small, we have time for the personal touch. Being small, we don't get bogged down in bureaucracy—and you can get a decision from us easily.

We think our size is an asset; it keeps us close to our customers, and to our community—and it guarantees to you that we care about you and give you the best service possible. Remember, you're an important part of us.

history with dolls

to give a doll a more realistic appearance. Presidents' wives have matching, lace-trimmed underwear, all of which she makes by hand. Husband Floyd has contributed to one doll's realism by carving a corn cob pipe from an ice fishing cork.

Hampered only by lack of space, Mrs. Young plans to continue making dolls and is now doing research on Belle Starr and Calamity Jane. And there are still the two Mrs. Wilsons to be dress-

ed if the right velvets --white and black--can be found. After that? Historical personalities, show business people, writers--the possibilities are endless but she is ready to research and continue the quest for the right fabric and the right effect as she continues to make history come alive.

Diplomacy is telling your girl she's cool, not that she doesn't look so hot.

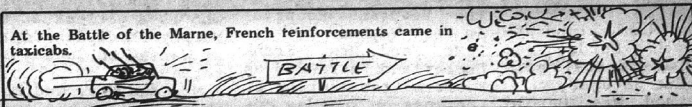

MARGARET YOUNG hand sews lace to fabric that will become dainty undergarments for first ladies. The dolls' undergarments match their dresses. Betsy Ross doll can be seen in the background.

GOWNS WORN BY FIRST LADIES have been duplicated by Margaret Young. She matched fabric, design and hair color with the original. Note that only one wears a short dress and that one wears a huge fur cape. NEWS photos.

Today,
a remarkable
new carpet is
creating a whole
new standard
of luxury for
your home.

It's Grand Noble™ by Armstrong... like no other carpet you've ever experienced.

Walk barefoot on it, and you'll love the extravagantly "silky-soft" feel. The fibers are densely packed together, so you walk only on the very tips... where they're the softest... the most luxurious.

As you move around this extraordinary carpet, the fibers play tricks with light and shadow. As with the finest velvets, the colors subtly, magically change their value as you move.

The dramatic designs have a deep three-dimensional look made possible only by Armstrong's exclusive new Sculptron™ embossing process. You must actually see and feel this carpet to appreciate its rich look of true luxury.

To make sure you get a padding equal to the carpet itself, Grand Noble is backed with an especially thick, high-density foam-rubber padding... to deeply cushion every step you take.

Enjoy Grand Noble wall to wall, as an elegant room-size rug, or as an accent rug with a luscious, thick fringe. Whichever way you choose, you must experience it yourself... because there's no way to truly reproduce its luxury on paper.

Grand Noble Collection
The new carpet masterpiece from
Armstrong

You may call it carpet if you wish. We think you'll call it incredible.

WE'VE HAD A STRIKE— WE HAVE A PLAN!

The plan — "**Operation Normal**" — is geared to expedite recovery and correct as soon as possible any difficulties you, our customer, may have experienced during the strike.

Now that we are returning to normal operations, we request that you bear with us awhile longer.

Recovery from a ten-week work stoppage is a complex task. To be exact . . . we currently have a backlog of over 19,000 requests for new telephone installations and service changes. This sizable backlog is *not* overwhelming . . . **BUT** . . . total recovery will take several weeks, we are sure.

We believe you will appreciate the fact that the end of a strike situation does not mean *instant* return to normal operations. We are faced with the typical difficulties of a post-strike period which any company would encounter.

We developed "**Operation Normal**" in an effort to show you that the "*spirit of service*" on the part of employees and management is still the important part of our business.

Rainbow Hears Invitations

Akron Rainbow met for the last meeting of the month recently.

After the formal opening the business was transacted and minutes were read and approved. An invitation was read for an installation at

NEW BOOKS

AKRON CARNEGIE LIBRARY

THE MUSIC WITHIN by Elizabeth Bortonde Trevino. Set in Mexico at the time of World War II, The Music Within is a tale of ambition and pride, of love and death that takes the reader from the poorest Mexican peasant home to the palaces of the rich.

THE HYPERACTIVE CHILD by Paul H. Wender, M.D. The first book for parents about the single most common behavioral disorder seen by child psychiatrists, this is a reassuring, authoritative analysis of hyperactivity - its nature, causes and treatment - by an eminent specialist in the field.

HOUR OF GOLD, HOUR OF LEAD by Anne Morrow Lindbergh. These are the diaries and letters of Anne Morrow Lindbergh 1929-32.

HIDE AND SEEK by Jessamyn West. In pursuit of solitude, Jessamyn West recently lived by herself for three months on a remote bank of the Colorado River. Hiding? Yes, in a way. Seeking? Of course, but the quest was uncertain. This is the account of her experiences, observations and thoughts during those months.

YELLOWHAWK by Jane Stuart. These are musings of Rhoda Miller, in her first year of teaching at Yellowhawk. A young woman whose antennae are as sensitive as her eyes are sharp, Rhoda's thoughts about, and observations of, her fellow teachers, her students and the townspeople who are the fathers and mothers and aunts and cousins of the schoolchildren shape the novel.

FOREVER ISLAND by Patrick D. Smith. The theme of this novel is the clash of two attitudes toward the natural world. Speaking perhaps for many of us, Charlie demands to know by what right the developers lay claim to the swamp. "The land" he says, "belongs to those who love it." There is also a warm, human story here, as Charlie teaches his grandson Timmy about the swamp and its creatures.

Mexico September 29. A letter was read from "Super Mom" and the Grand Worthy Advisor, Sue Ellen.

The girls made plans to have a hayride and Halloween party October 26 at Mom Bouse's home. The girls are to meet at the drug store in Akron at 7:00 p.m.

The refreshment committee for the party consists of Angie and Cindy Hartzler, Sherri Bickel, Deena Jones and Melanie and Deena Turner.

A decorating committee was also appointed with the following girls being named: Debbie Ramsey, Shelly Bickel, Sherri Miller, Debbie Zimmerman and Sharon Wright.

After the discussion of the hayride, the following girls were installed, Sharon Wright as treasurer, Deena Jones as Fidelity, Cindy Hartzler as Outer Observer and Sherri Miller as Rose Lecturer.

After the formal closing, refreshments were served in the dining room by Sherri Bickel.

The next meeting will be Oct. 9 at 7:00. All Mason and Eastern Star members are welcome to attend.

Las Donas Club Completes Halloween Party Plans

Mrs. Marvin Gagnon and Mrs. Maurice Murphy were hostesses for the recent meeting of Akron's Las Donas Women's Club when plans were completed for the annual Halloween contest at the school gym. Cash prizes will be awarded in 12 categories, and door prizes will be given children and adults.

The community calendar was typed and made ready for publication. Copies of it will be sold in the near future.

Mrs. John Gray and Mrs. Dave French were welcomed as new members.

Also present were Mrs. Robt. Shafer, Mrs. John Zimmerman, Mrs. Charles Miller, Mrs. Allen Heltzel, Mrs. Dave Atkinson, Mrs. John McKee, Mrs. Robt. Cumberland, Mrs. Wm. Gagnon, Mrs. Robert Ogle and Mrs. Rod Connery.

A man rarely succeeds at anything unless he has fun doing it.

WCTU Plans Meeting

The Akron Women's Temperance Union will meet at the library at 5:30 p.m., October 9.

A pre-supper session will consist of reports on departments and devotions and will end at approximately 6:30.

A carry-in supper will then be hosted by Mrs. Margaret Slaybaugh and Mrs. Nellie Slusser.

Mrs. B.B. Whitacre of Kokomo, state president of the W.C.T.U., will be the guest speaker of the evening meeting starting at 7:30. Mrs. Janice Stubblefield will be in charge of devotions and a special number by Mrs. Frank Bowman accompanied by Fern Bowen will be featured.

LTL Meets

The Akron L.T.L. met with their leader, Gloria Bowen, at the library basement Friday night.

Lori Powers served as president, Cathy Carr as song leader and Dwayne Moudy as flag-bearer.

After the Bible story and a movie entitled, "Drug Abuse - One Town's Answer", games were played and refreshments served to 20 members.

The next meeting will be a Halloween party on October 26.

37. If redeemed on January 1, 1984, or thereafter on or before July 1, 1989;
27. If redeemed on January 1, 1990, or thereafter on or before July 1, 1995;

Each bid must be for all of said First Mortgage Bonds and must state the rate or rates of interest which the bonds are to bear, stated in multiples of 1/8th of 1%. No rate shall exceed 6 3/4% per annum. Not more than three different interest rates shall be specified in any bid, but a rate may be repeated without being considered a different rate. The difference between the highest and lowest rates specified in the bid shall not exceed 1/2%. Bids specifying two or more interest rates shall also specify the amount and maturity of the bonds bearing each rate, but all bonds maturing on the same date shall bear the same rate. Bids shall set out the total amount of bonds to be delivered under the terms of the bonds and the net interest cost on the bonds covered by the bid. No bid for less than the face value of said bonds including accrued interest from the date thereof to the date of delivery, will be considered. The bonds will be awarded to the highest qualified bidder who has submitted his bid in accordance herewith. The highest bidder will be the one who offers the lowest net interest cost to the Corporation, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid on the bonds. The right is reserved to reject any and all bids. If an acceptable bid is not received for the First Mortgage Bonds on the date of the hearing herebefore fixed, the sale may be continued from day to day thereafter, during which time no bids for less than the highest bid received at the time of the advertised sale will be considered.

Each bid must be enclosed in a sealed envelope addressed to the Corporation and marked on the outside "Bid for First Mortgage Bonds", and must be accompanied by a certified or cashier's check in the amount of \$26,000 payable to the Corporation as a guaranty of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. The checks of the unsuccessful bidders will be returned immediately following the award of the First Mortgage Bonds.

The successful bidder shall make payment to the First National Bank of Rochester, Indiana, as Trustee, for the bonds and accept delivery thereof from the Trustee within five days after being notified that the bonds are ready for delivery, at such bank in the City of Chicago, Illinois, or at the City of Indianapolis, Indiana, as the successful bidder may designate. The First Mortgage Bonds will be ready for delivery within 30 days of the date of sale, if the Corporation fails to have the bonds ready for delivery prior to the close of banking hours on the thirtieth day after the date of sale, the bidder or any secure the release of his bid upon request in writing, filed with the Corporation.

The unqualified approving opinion of Ice Miller Donahoe & Ryan, bond counsel of Indianapolis, Indiana, together with transcript of the proceedings relating to the issuance of the bonds, printed bond forms with the legal opinion printed thereon, and closing papers in the usual form

showing no litigation questioning the validity of the bonds, will be furnished to the successful bidder at the expense of the Corporation.

Rochester Middle School Building Corporation was organized for the purpose of erecting and leasing a school building to Rochester Community School Corporation. All action has been taken and the bonds are issued in compliance with the provisions of the Indiana Code of 1971, Title 21, Article 3, Chapter 11, formerly Chapter 273 of the Acts of 1947. The bonds will be secured by a trust indenture to The First National Bank of Rochester, Indiana, and will be subject to the terms and provisions of said indenture.

The property to be covered by the indenture has been leased for a period of 27 years to the aforesaid Rochester Community School Corporation at an annual rental of \$214,000 plus the payment of all taxes and assessments, which rental is payable semi-annually on June 27 and December 27 in each year, commencing with the completion of the school building to be erected thereon. All bidders shall be deemed to have agreed to the provisions of the above mentioned trust indenture, lease and the provisions of the aforesaid Indiana Code of 1971, Title 21, Article 3, Chapter 11.

Said bonds constitute an indebtedness only of Rochester Middle School Building Corporation, payable in accordance with the terms of the above mentioned indenture and the provisions of the aforesaid Indiana Code of 1971, Title 21, Article 3, Chapter 11. Under the provisions of the governing statute, the First Mortgage Bonds and the interest thereon are exempt from all taxation in Indiana, except, however, in the case of taxes, in the opinion of bond counsel, under the existing federal statutes, decisions, regulations, and rulings, the interest on the First Mortgage Bonds is exempt from federal income tax.

Rakestraw of the Law firm of Brown, Brown & Rakestraw Post Office Box 524, Rochester, Indiana 46767, attorney for the Corporation; or Mr. Loren Betz, Superintendent of Rochester Community School Corporation, Rochester, Indiana 46767.

If bids are submitted by mail, they should be addressed to the Corporation, attention of Rex L. Bost, Post Office Box 108, Rochester, Indiana 46767.

Dated this 2nd day of October, 1973.

In loving memory of Richard E. Doud who passed away October 3, 1971.

Some say time heals all sorrow And helps us to forget But time so far has only proved How much we miss him yet.

MELON BUSTERS: Butler University's Miss Watermelon Bust, Loretta Richard, right, joins three other contestants in eating a melon. The others are, from left, Colleen Busses, Carmel Ruth James, Indianapolis, and Susie Boggs, a junior from Mentone. Miss Richard a 36-26-36 senior majoring in speech, said she did not object to the cheers, yells and whistles that threatened to disrupt the contest, the protests coming from four sororities that called the event sexist, saying it demeaned women. "I'm proud to be a female," she said.

Brownies, for second and third grade girls, will meet on Tuesday and Wednesday evenings after school in the Lions' Den.

The Junior troop, for girls in grades four, five and six, will meet Monday afternoons at the Lions' Den.

Cadet Scouts, for girls in grades seven, eight and nine, will meet Thursday afternoons.

Papers will be given to all second and third graders interested in becoming Scouts. These should be returned to the school.

All troops will meet next week and any interested girls may attend.

HEALTH HINTS

BY ELDON RAGER, R. Ph.

When a child has speech or reading difficulties, he should be checked for hearing loss at as early an age as possible. Don't blame the problems on stubbornness or stupidity, or hope the child will "grow out of it." Seek help while the disorder can be most easily corrected.

State Tax Board makes local rate cuts

The State Board of Tax Commissioners' field representatives wielded a sharp knife in cutting many local rates during last week's tax hearings.

Local option tax returns, federal revenue sharing and increased county wealth from a higher than ever assessed valuation were cited as reasons for the cuts.

Franklin township's general rate was reduced four cents from seven, although remaining rates were unchanged—one cent for poor, six for fire and three for recreation.

Also dropping to three cents was Harrison township's general rate, down five cents from eight. A once-cent rate for poor relief was approved, but the recreation rate was cut from

one cent to nothing. The fire rate will be 13 cents per hundred dollars assessed valuation.

Lake township taxpayers will pay seven cents for the general township fund, down from the advertised nine, with no poor tax, five cents for fire and two for recreation.

Also receiving a cut was the Tippecanoe Valley School Corporation rate. It will drop to \$2.97 for general in addition to 82 cents cumulative building fund. A \$3.10 general rate had been advertised.

Bell Memorial Library had its rate set at nine cents, down from an advertised 12.

Burket's town rate was set at 76 cents, down from the \$1.10 advertised rate.

Etna Green's 1974 rate was set at \$1.47, down considerably from the \$3.24 advertised rate.

Trick or Treat Night Is October 31

Trick or treating will be limited to Wednesday, October 31, only in both Akron and Mentone, according to action taken by the town boards in each town.

Each town board said tricksters out before that night will be picked up and the curfew will be enforced for the entire month of October.

Finds Old Paper

Preparing for a sale of her possessions, Mrs. Eva Huffer found a copy of the SEVASTOPOL NEWS, a paper unique in that it was written in pencil by its editor, Ralph Doran. Published Dec. 20, 1912, the paper described in great detail some of the lighter moments at the Sevastopol school.

Included were such gems as: Zelma Meredith plays tricks on our teacher by eating candy in time of school and says it is for her cold. It looks to me as if she would be getting better pretty soon.

Under a Daffodils col-

umn, he wrote: If Chas. Leininger should be sick, would it make Bernice Blue? If our arithmetic teacher would be Blue would our music teacher be Strong?

Akron Volunteer Group to patrol streets

A volunteer group of Akron citizens has been formed to patrol the town to curb the repeated break-in attempts and to curtail vandalism during the Halloween season.

Formed by vote of the directors of the Akron

Chamber of Commerce with the co-operation of Fulton Co. sheriff Homer Carr, the group is now working, driving their own cars.

Only newspapers will be acceptable as no provision has been made for magazines.

IN HONOR OF NATIONAL 4-H WEEK, Mentone Merry 4-H Club members spent Saturday morning decorating windows in the Mentone business district. This one, at the Towne Hall Shoppe, shows some of the work done by members this year. Others show the artistic ability of members with bold colored designs proclaiming the desirability of 4-H.

Akron Band To Give Halftime Performance

The 65-member Akron High School band under the direction of Dale Pace will open its 1973-74 music year Saturday, October 20, by presenting a half-time show at the home game of the Logansport Lancer semi-pro football team. Game time is 7:30 p.m. in the Logansport High School stadium.

The half-time show will consist of several tunes written and recorded by the rock group, "Chicago."

The high school band is part of the school music program that also includes a 38-member junior high school band and a 25-member elementary band.

In addition, Pace directs the 50-member high school chorus, a high school swing choir and pep band.

Fans desiring to see the Oct. 20 football game and band performance will be allowed in free if they follow the

fan buses which will depart from the school at 5:30.

The Akron Music Booster organization will contact all band and chorus parents for membership dues this month. Mrs. Dean Rager is membership chairman.

Akron Leaf Pick-Up Described

Due to inquiries regarding leaf pick-up in Akron, the town board said this week the town cannot afford to haul all residents' leaves to the county land fill north of Rochester, but that leaves will be picked up and disposed of locally providing they are bagged separately.

Residents are reminded no trash or garbage should be included in the leaf bags.

Ron's Garage Withdrawn From Inspection Program

Following complaints about inspection work done at Ron's Garage, Akron, the Indiana State Police, assisted by Akron Marshal Ed Hauser, conducted an investigation, using an undercover car in a spot check.

As a result of the investigation, State Police Sgt. Jack Rich said Ron's Garage has been withdrawn from the state vehicle inspection program. Also assisting were State Police Sgt. Joe Reese,

Letters To The Editor

The NEWS welcomes letters for publication but prefers that they be kept under 200 words. The letters need not express the views of this paper; however, they should not be libelous or in poor taste. Anonymous letters will not be published. The name of the writer must appear with his letter.

It is that time when my friends and acquaintances are thinking of leaving for a warmer climate and mostly to Florida. After driving over the state several times and seeing many of the attraction, such as Busch Gardens, Cape Canaveral, the Everglades, Ringling Bros. Museum, the regatta at Cypress Gardens with Ed McMahan, the Bok Tower and the many beautiful lakes and dog races, I feel most of you have seen these interesting points. But, have you ever eaten at the Kapok Tree Inn? If not, you should for it is such an exotic place with wonderful food. It is located near Clearwater on No. Haines road. It is medium-priced, served family style and is extravagantly decorated.

Mr. Bumgardner and his wife, June, fed two and one-half million people at their four inns last year. He has inns at Maderia Beach, Bumgardners in Clearwater, and the Peter Pan in Urbana, Md. He is now building an inn in Ft. Lauderdale and has land for one at Daytona Beach.

The decor of the Kapok Tree Inn is along the pattern of Pennsylvania and European lines besides the Corinthian columns, there are Mexican hanging lamps, wall panels from a Scottish castle, Italian Renaissance engravings, Haitian masks and drums, a Panamanian Indian canoe, hanging planters of plastic flowers, antique Czechoslovakian grape lights, a French gold leaf statue, a fountain from Chambersburg, Pa., and a fountain from Hanover, Pa. The palm tree columns were inspired by the kitchen of Queen Victoria's summer place. A chandelier came from a theater in Harrisburg, Pa. The Florida room decor was inspired by a museum ceiling in Dublin.

The Kopak Tree is in a beautiful rural setting filled with greenery and many impressive trees. On the site was a nursery and a friend of the owner brought two Kapok trees from India and one was planted inside and one outside. The outside one died and the inside one grew, and the nursery man was so impressed with the gorgeous red-orange blooms that he tore down the

greenhouse to give it room to grow.

The Kapok Tree Inn has eight dining rooms and shops selling all kinds of gifts and a huge sky light arcade, so that even if the restaurant is closed, tourists and visitors can see the sights there.

Mr. Bumgardner started by building an inn with 200 seats, designing it himself; today, it seats 1600 and he has fed as many as 8,000 in a day. He is now able to seat 3,000 in his restaurants at one time and his payroll includes 722 people. Through his study of people's eating habits, he has found the green vegetable most often called for is peas, because they are green. And the next best is beets because they are

red. In one year he bought and served 135,660 pounds of peas, and in 1972 the Kapok Tree Inn alone served 350,000 pounds of chicken. The purchasing agent says she keeps 90,000 steaks on hand all the time.

The Bumgardners with the help of their sons keep busy. The business has gone public, meaning shares are available on the market. Their system of bookkeeping is so rigid they know when a waitress takes home a pound of butter. His advertising program is a small arrow-shaped sign on an ornate lamp post on the gulf to Bay Blvd. in Clearwater that says "Kapok Tree Inn." Look for the sign and go and enjoy yourself.

Sincerely,
Clara Yeaman

Tree Lawn Survey Complete

The third of a series of articles aimed at helping Akron residents improve their trees has been prepared by Pike Lumber Co., Inc. and is published as a public service. The series is a part of an evaluation program undertaken by the town this summer with the assistance of Pike foresters and Purdue extension specialists.

The survey of trees on or affecting the Akron tree lawn is complete. The species, size, quality, and location of 655 trees have been individually recorded. A total of 42 different species are present with the major trees being Silver Maple, Sugar Maple and Norway Maple.

Sugar Maple is one of the best home shade trees. The leaves turn yellow to orange to red in the fall and can be kept growing vigorously with proper watering and fertilizer.

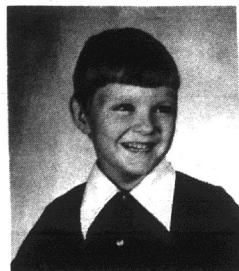

If faster growth is desired, a Tulip Poplar, the Indiana state tree, is a good shade tree. The yellow autumn color, the symmetrical cone-shaped top, and the brightly colored tulip-shaped flowers in June are pleasing. Examples can be seen at Dean Baker's home, the third house east of the intersection of Maple and Rochester Streets on the south side. The two young Tulip Poplar trees in front are excellent although planted closer than the recommended 40 foot spacing. A larger Tulip Poplar can be seen on the east side of the Baker residence.

In order to give trees around a home a natural occurring appearance, plant in numbers of one, three, or five and avoid straight lines or rows except on the tree lawns.

'Good Old Days' Not So Good

Recently an old factory building outside Edinburgh, Scotland, was demolished. In the office area workmen found a listing of work rules issued in 1852:

1. Godliness, cleanliness, and punctuality are the necessities of a good business.
2. This firm has reduced the hours of work and the clerical staff will now only have to be present between the hours of 7:00 A.M. and 6:00 P.M.
3. Daily prayers will be held each morning in the main office.
4. Clothing must be of a sober nature. The staff will not disport themselves in raiment of bright colors.
5. Over shoes and top coats may not be worn in the office, but neck scarves and headwear may be worn in inclement weather.
6. A stove is provided for the benefit of the staff. It is recommended that each member bring four pounds of coal on cold days.
7. No member may leave the room without permission from Mr. Rogers. The calls of nature are permitted and clerical staff may use the garden.
8. No talking allowed during business hours.
9. The craving of tobacco, wines or spirits is a human weakness and as such is forbidden.
10. The partaking of food is allowed only between 11:30 A.M. and noon, but work will not, on any account cease.
11. Members of the staff will provide their own pens.
12. Mr. Rogers will nominate a senior clerk to be responsible for the cleanliness of the office. All boys and juniors will report to him 40 minutes before prayers and will remain after closing hours for similar work.

The owners recognize the generosity of the new labor laws, but will expect a great rise in output of work to compensate for these near Utopian conditions.

Maybe in 120 years from now our present working days will be referred to as the "good old days."

A number of ladies, mothers, met about three weeks ago at the home of Mrs. A. L. Weaver, the M. E. Parsonage, and organized a "Mothers Club." Mrs. H. G. Young was elected president; Mrs. Maude Jones, secretary and Mrs. Weaver as critic. The other officers elected were forgotten by our reporter. The name of the club suggests the line of work that will be taken up by these ladies. Meetings are held on Friday afternoon of every second week, the last being at the home of Mrs. Geo. K. Mentone Personal ITEMS OF THE WEEK

Mr. and Mrs. Lyle Long and daughter Jennifer of Lisle, Ill., were week-end guests of Mr. and Mrs. Everett Long.

On October 1 and 2, Mrs. Frank D. Smith and Mrs. Ray Linn of the Anthony Nigo Chapter DAR, Mentone, attended the DAR state conference at the Atkinson Hotel in Indianapolis. They were joined on Tuesday by the regent, Mrs. James Bittling, Warsaw, and her mother, Mrs. Earl Davis, Tippecanoe.

Hazel Linn was pleasantly surprised on her 39th (?) birthday at the recent DAR rummage sale at Brown's Jewelry Store. While a customer kept Mrs. Linn busy, a "sneaky" group of her friends had assembled and rolled out a refreshment table. How did the fire start?

If every family will practice Fire Prevention: remove newspapers and rubbish; have the furnace and pipes cleaned; see that hot pipes and chimneys are insulated from combustible partitions and ceilings; plan with your children how they can escape from each room in the house - then one or more fire tragedies with loss of life may be avoided this winter.

"District 18 Winners Circle" Honors Mrs. Broady

"District 18 Winners Circle" was the theme of the recent reception honoring Nancy Terrell Broady, Grand Adah of the Order of Eastern Star in Indiana.

Mrs. Broady greeted more than 400 guests, each of whom had been presented blue ribbons labeled "Nancy-Grand Adah", against a mural of horses grazing in an open field with a lake and trees in the background. Green grass

carpet with hitching posts marked the area and pink rose bushes and evergreen shrubs accented the mural. Her husband, Larry, helped greet guests.

Refreshments were served from a table with a blue cover centered with a blue glass basket with pink roses.

The East was decorated with the Worthy Grand Matron's motto, "The Soul of Man Is The Candle of the Lord." On a

Bible made of white pom poms were the words of her scripture for the year, "And God said 'Let there be light' and there was light." A doll dressed in a duplicate of the official dress accented the decorations.

A dedication ceremony for six children followed the dinner, and 50-year gold awards were presented to Vera Butt and Mary Hayward, both members of the Akron chapter.

The opening was in charge of Akron officers with Virginia and John York presiding.

The Worthy Grand Matron was presented at

the altar and welcomed. Escorted through an arch formed by the Happiness Roses of the 18th district, she received a red rose from each.

The Worthy Grand Patron was welcomed and escorted through an arch of banners held by the Worthy Patrons of the 18th district.

Rochester chapter 70 assumed the stations and initiatory work was exemplified under the direction of James and Donna Newcomb, Worthy Patron and Worthy Matron.

Gilead Chapter 246 had the closing ceremony with Glendon Hanco presiding.

Talks were given by

the Worthy Grand Matron and the Worthy Grand Patron and the District Deputy. Honorary memberships were presented by Mrs. Broady to the former.

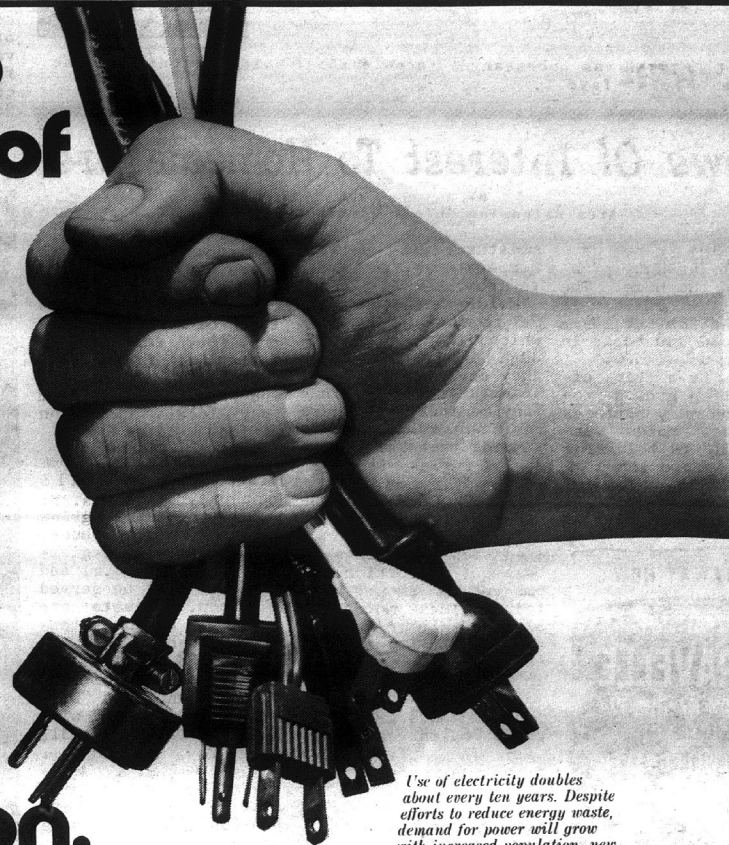

After the closing the Grand Gleaners served refreshments from a decorated chuckwagon.

Home made ice cream was served at the home of Mrs. Broady's parents, Mr. and Mrs. Edgar Terrell, by Nancy's Lemon Squeezers and Lemon Drops.

There's no shortage of electricity here. There won't be if we can raise money to grow on.

Use of electricity doubles about every ten years. Despite efforts to reduce energy waste, demand for power will grow with increased population, new uses for electricity and the environmental cleanup.

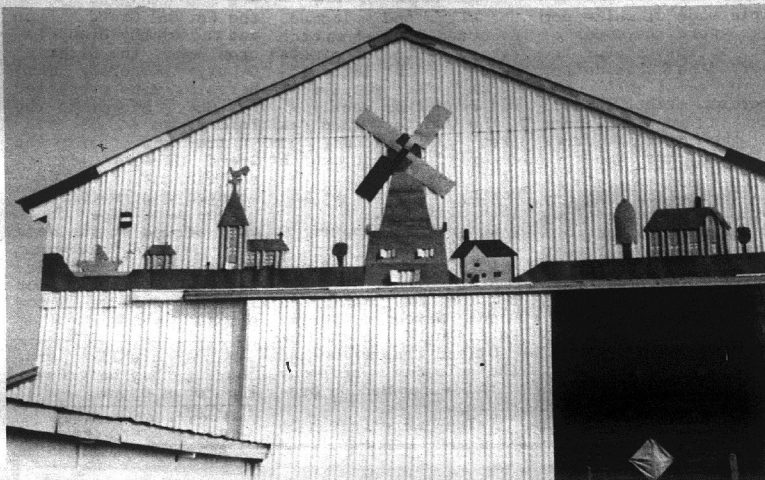

Within ten years, we must add as much new generating capacity as we now have in our entire system. If we don't, power will be in short supply.

Such growth requires lots of capital—\$442 million in the next five years alone. It must come from investors willing to let us use their money for a satisfactory return on the investment.

Only with rates that cover operating costs and produce a competitive return for investors can we attract enough capital to do the job. With all costs going up, the price of all kinds of energy must inevitably rise if you are to have the power you need.

CAREFUL CUTTING was necessary to create this colorful Dutch scene on the Peters' farm.

News Of Interest To Homemakers

BY ANN HANCOCK
Area Extension Agent, Kosciusko County

The rainy damp days of fall bring many problems to the home. The dampness often causes damage to fabrics, leather, wood and books in the form of mildew.

Mildew is a thin, often whitish growth produced on many surfaces by molds. Molds are simple plants belonging to the group known as fungi. Though always present in the air, molds that cause mildew need

moisture and certain temperatures in order to grow.

Molds that cause mildew grow on anything from which they can get enough food. In homes they develop most often on natural fabrics since many manmade fibers are resistant to mildew.

Molds that cause mildew flourish wherever it is damp, warm, poorly aired, poorly lighted - cellars, in crawl spaces, in closets, on draperies and rugs in basement recreation rooms and on shower curtains. These molds are also likely to grow in a newly built home because of the moisture in the building materials.

As the molds grow they cause considerable damage. They often leave a musty odor and discolor fabrics often causing rot.

To prevent mildew get rid of dampness. Soil on articles can supply sufficient food for mildew, so clean all clothing and household articles before storing.

Mildew should be removed as soon as it is discovered. The procedure varies with the type of surface covering. For further information, request a copy of "How to Prevent and Remove Mildew" from your local Extension Office.

ATTENTION EXTENSION HOMEMAKERS - The Fall Luncheon, Wednesday, Oct. 31, at the Shrine Building, Fairgrounds, will begin with registration at 11:15 a.m. and the meal will be served at noon. Tickets are available at the Extension office.

DIABETES SERIES - A special series of four classes entitled "Diabetes Food and You" will be October 17, 24, 31, and Nov. 7, at 1:30 p.m. at the R.E.M.C. building. For further information contact the extension office, phone 267-8971.

Bernard Peters re-creates a Dutch scene

By Ann Sh

Although he loves his adopted country very much, his devotion to his native land has prompted Bernard Peters to re-construct a bit of the Netherlands on his Harrison township farm.

Visitors to the farm, located north of Harrison Center Church, are enchanted with a working windmill recently installed beside a farm pond. A colorful Dutch scene has been added to a machine storage, the buildings, windmills and trees cut from colored sheet metal and attached to the building. Another windmill in the yard and pots of colorful flowers are reminiscent of the beautiful Netherlands countryside.

Peters and his wife, residents of the United

States since 1949, and their children, all born in this country, have lived on the farm since 1955 although the touches of Dutch have been added more recently.

Peters conceived the idea of building the large mill this spring when he and his son Tony visited his mother and four brothers and three sisters in the Netherlands. They saw restored windmills, now mostly owned by the government since they no longer serve their original purpose, and Peters wondered, "Why not one at home?"

On his return to the States, he dismantled a windmill that had lost its fan and moved it beside a recently created pond north of his house. Rebuilding it, he added

DUTCH WINDMILL in a peaceful tree-sheltered setting by a pond has been added to the Bernard Peters farm in Harrison township. Note the jug of flowers and the bench under the tree.

ates a bit of the Netherlands

By Ann Sh... eetz

blades more nearly like those found on Dutch windmills and closed in the sides, forming a small room that is complete with windows and door--and tables and chairs, an addition made by his children who viewed the building as a possible play house.

A colorful addition to the farm, the windmill can be put into operation in event of power failure although its blade seldom turns since it was wired into a nearby tree to keep it from turning too rapidly. Peters says the mill more nearly resembles those used in his native country to grind feed although they can also be used to pump water.

The area around the mill and the pond has been landscaped to include a rustic fence, jugs of flowers and a bench under a spreading shade tree. Jugs of flowers and wooden shoes have been added inside the windmill, giving its windows a cheerful appearance.

Evenings are pleasant times at the Peters farm and the family enjoys watching the pond with its hundreds of gold fish that come to the

surface, forming an almost solid red blanket. Worried lest winter be hard on the fish, Peters will give fish to anyone wanting them.

Not certain what his next project will be, Peters sums up his attempts to re-create a bit of the Netherlands by saying, "The United States is better, but the Netherlands is not too bad, either. This way, we can have a little bit of each."

And, thanks to his craftsmanship, so can the rest of us.

Kosciusko Co. 4-H Gets It All Together

By Keith Carrington, Extension Agent, Youth

In Kosciusko Co. we can be proud to say we have a strong 4-H Club Program. People from all across the county with many different interests find ways to work together. That is through 4-H--People get it together.

Remember Share the Fun last spring where 4-H'ers, leaders and parents amassed their talent. That took a lot of cooperation. Or what about 4-H camp, Purdue Roundup, demonstration contest or electric workshop--4-H'ers, Jr. Leaders and Leaders "Get It All Together" so others might learn and grow from them.

Really, that is what 4-H is all about - "Getting It All Together."

Take one part of youth interest, let the hands develop projects, add

friends and leaders, shake in a little love-one-another and gently blend until firm. Then add a cup of leadership training and a handful of encouragement and we have a "4-H'er gotten together."

Kosciusko has right at 900 of these 4-H'ers, led by 70 blenders and hundreds of encouragers. All of these people are "Getting It All Together" with 4-H.

Take your problems to Church this week —

THE TIE THAT BINDS

From seed time to harvest the farmer is constantly thrown in contact with the forces of nature. He must use these forces to aid him or he must provide bulwarks against the destructive effects of these forces. Shocks of corn fodder must be bound closely with a strong tie. Thus, from his daily observance of material things he sees the need of strong ties of fellowship with his neighbors.

The neighborhood church is the tie that binds the people of his community into one common band. The farmer profits by regular attendance at the church of his choice. It brings him a richer, fuller life in things not materialistic but just as essential. That which is good for the farmer is good for the urban dweller! Wherever you live attend your church regularly.

Mentone Merry 4-H Girls Plan Fall Events At Meeting

The October meeting of the Mentone Merry 4-Hers at the Youth Building was called to order by Diana Peters. Singing was led by Sheryl Stokes. The 4-H pledge was given by Carol Yates and the American pledge by Beth Fugate. Roll call was "my favorite Halloween treat."

This month's chap-ones were Mrs. Baum and Mrs. Dickerhoff. Reports were read and approved.

Folios and literature were passed out to new members; award pins were given to all members, and girls were reminded all 4-H building fund money should be turned in.

During new business, girls were told winners of the window painting would be announced Thursday and that the Atwood Never Quitters had declined an invitation extended for a Halloween party on October 19 at 7:30 at a place to be announced later.

Girls voted to have two projects, one this year and one during the spring. The fall project will be the sale of posters.

Girls attending next month's meeting should take typing paper and colored pencils.

A special guest will visit the club next month.

Discussion concerning changing the meeting time to 6:30 instead of 7 was followed by the reading of a letter of thanks to all who helped at Cardinal Learning Center.

At a county junior leader meeting Monday, several of the local girls ran for office. Lynne Knoop was elected vice-president.

The girls voted to clean the windows Friday.

Poinsettia Proclamation Issued In Akron

Whereas, the Mothers of World War II, Inc., organized for the purpose of co-ordinating their interests and energies both as mothers of sons and daughters in the military service, and as citizens of our glorious nation for all inclusive programs of service, and,

Whereas, because they realized the need, though great, during days of war, would continue during long days building for an enduring peace, and those days would be filled with problems or rehabilitation among the sons and daughters, who are living sacrifices upon the altar of freedom; and

Whereas, Funds are needed to promote and supplement this program

of rehabilitation, the cooperation of every citizen is needed for finance this,

Now, Therefore, I Willis Bowen by the authority vested in me as Clerk-Treasurer of Akron do here designate October 12, as Poinsettia day in Akron, Indiana, and do sincerely urge our citizens to pause and share for a moment the long dreary days of our sacrificed youth, and avail themselves of the opportunity to brighten those days through financial support of the rehabilitation program for the Mothers of World War II, Inc., on Poinsettia Day.

TVHS colors to be green and gold

Tippecanoe Valley High School's colors will be green and gold as a result of action taken Monday evening by members of the Tippecanoe Valley school board. The choice was based on the fact that each of the five schools comprising Tippecanoe Valley--Akron, Beaver Dam, Burket, Mentone and Talma--had once used one of the colors.

In addition, board members voted to allow Superintendent Robert Forbes and a representative group of faculty members to choose three pairs of possible school songs and mascots to present for board approval.

Forbes reported work on the new high school is still on schedule, saying the September, 1974 date is still a fairly reasonable expectation. He reported two steel crews are working, and pre-cast work is set to begin Monday with brick layers moving in as soon as possible. Roofing of two sections is expected to begin November 5, he said.

Two AHS Students Earn All A's

Two students at Akron High School topped the first six weeks honor roll by earning all A's during that period. They were Mitch Harris and Ron Newlin.

Students earning all A's and B's during the same period were Tricia Dilts, Debbie Dotson, Mark Harris, Mike Norman, Kathy Utter, Linda Earl, Anne Leininger, Phyllis Schreckengost, Charlotte Strong, Marga Thomason, Dana Weaver, Holly Long, Glenda Mark, Doris Sitts, Patsy Flohr, Vicki Kline, Sherri Miller, Sheila Shewman, Renee Brucker, Lorie Crippen, Patty Doering, Susan Eryman, Scott Kline, Ann Lash, Sherri Miller, Bobbie Pendell, Teresa Petrosky, Mary Jo Schultz, Darrell Shepherd, Susan Spice, Alan Sterk, Kerry Waymire, Kent Adams, Chris Baker, Janet Bowen, Kevin Deardorff, Lee Dittman, Greg Leininger, Betsy Mathias, Renee Murray, Jeannette Ogle, Andrea Ooley, Peggy Parker, Lori Smalley, Stephanie Stewart and Terri Walgath.

Two Rates For TVSC

The recent cut of the Tippecanoe Valley School Corporation tax rate from \$3.10 to \$2.97 by the State Board of Tax Commissioners applies only to Kosciusko Co., creating an unusual situation in which there will actually be two rates for the same taxing unit. The Kosciusko Co. rate was cut because the tax board felt the local option tax would offset the difference and residents of that county will actually pay the same as those in

Fulton Co. but the money will come from two taxes. Fulton Co. residents of the corporation will pay the \$3.10 rate since that county did not adopt the local option tax.

Explaining the joint rate to school board members Monday evening, Superintendent Robert Forbes said the tax board did not change any budgeted figure but had made corrections in adjusted income used as a basis for figuring the rate.

Akron Plans New Well

Workmen from Layne-Northern Co. were in Akron Wednesday afternoon making preliminary measurements for a new well. The well, approved by Town Board members Tuesday night, will be capped pending future need.

Plans to extend water lines to the lift station were also discussed.

They replace Bob Hill, Kenneth Romine and Rodney Gible on the board. A meeting of the directors will be called shortly to elect a successor to out-going president Jerry Secrist.

Mr. and Mrs. Chick Herendeen and Dr. Lyle Davis described the activity at the Mentone airport in recent months, and Dr. Davis, president of the Mentone Flying Club, said the club would match funds with the Chamber in paying off the runway project begun several years ago.

Herendeen noted the runway should be sealed

and suggested this could be another community improvement project.

This prompted a discussion of other projects needed in the community and resulted in an open invitation being extended any area resident who wished to make a suggestion to any C of C member.

Jeff Shoemaker and Brian Powell Are a Running Pair--In More Ways Than One

By Bill Ludwig
Ball State University

"In many ways our ability seems to be pretty close," Jeff Shoemaker commented about himself and his Ball State University cross country teammate, Brian Powell.

A look at the results of the Cardinal cross-country meets might just prove the "pretty close" an understatement.

Shoemaker, a Mentone native, and Powell, who hails from Elk Grove Village, Ill., are both freshmen who have established themselves as number four and five runners for the Cardinals.

The pair have been so close in the four Cardinal meets prior to Oct. 9 that only two runners have separated them, both in the Bowling Green-Eastern Michigan meet. Powell nosed out Shoemaker in the Cards' first meet against Miami (O.) and Louisville, while Shoemaker edged Powell by one place in the West Virginia-Ohio State meet.

Last Saturday against Cincinnati in a six mile race, the two finished together with the same time.

But that is not where the similarity ends. Powell and Shoemaker are roommates. Previously, Shoemaker had a broken leg while Powell had the beginnings of a stress fracture. And both had other ideas than that of running cross country.

Shoemaker, a 1973 graduate of Mentone High School, earned four letters in track and three in cross country. A member of National Honor Society, he won the sectional two-mile title and placed fourth in the regional.

Shoemaker did not start as a distance runner. "I used to be a hurdler," he said, "but I was more of a natural in cross country. I walked on and was second man."

As a result, Shoemaker has only run two and one-half years, with time off for a broken tibia in his junior year. "It's (running) still kind of new to me. I really enjoy it," he said.

On making the top five for the Cardinals, Shoemaker said, "I was just looking forward to being able to say I was on Ball State's team. It's

an honor and a surprise to be in the scoring."

Powell was a 1973 graduate of Elk Grove High School, where he lettered three times in both track and cross country. He was held out his senior track season with the beginning of a stress fracture in his leg, but in the cross country season before that, he had placed 29th in the state meet at three miles.

Powell's first love, however, is baseball. "My freshman year I was going to go out for baseball, but I had early success with track and stuck with it." He still keeps in contact through his collections of baseball cards.

"It's a new experience being on a winning team," Powell commented about Ball State, who is currently 6-1. "It's also an experience being on a team with runners who are better than you."

Close running is an asset in cross country where grouping is a necessity. With Shoemaker and Powell returning for three more campaigns after the 1973 season, Cardinal fortunes should be in for a treat.

Mrs. Laura Vandermark and Mr. and Mrs. Eddie Jones returned Sunday from a four-day trip to Nashville, Tenn., where they attended the Grand Ole Opry.

There was a motion carried at the library board meeting last Monday evening to settle the location of the building at the special meeting next Monday evening. Promoters of every site must come prepared to put up or shut up, on that date as the hammer will fall and the building will locate. That's business, but we still stand personally for the Shriver location. We believe it's the best site and that every other or personal interest should stand gratefully to aside.

DAR Chapters Have Joint Dinner Meeting

A chicken and salad smorgasboard highlighted the October meeting of Anthony Nigo and Tippecanoe River chapters of the Daughters of the American Revolution when the two chapters met at Teel's Restaurant, Mentone. Baskets of flower arrangements and gourds decorated the tables as provided by the committee in charge, Mrs. Wayne Smalley, Mrs. Frank Smith, Mrs. John Frederick, and Mrs. Paul Shireman, all members of hostess Anthony Nigo chapter.

Mrs. James Bitting, regent, opened the meeting according to ritual and welcomed guests. A DAR resolution was given by Mrs. Shireman and Mrs. Smalley read the message from Mrs. Donald Spicer, President General, which honored former Presidents General.

Many worthwhile projects have been accomplished under their leadership, such as the completion and maintenance of the three buildings that comprise the National Headquarters; the DAR Museum and DAR Library; the work with conservation and preservation; the Valley Forge Bell Tower; the nucleus of the Army Nurse Corps, and the service to the nation during national emergencies and the present "Gift to the Nation."

Mrs. Charles Tucker, chapter chairman of National Defense, introduced the evening's speaker, Lt. Dennis Gauci of Grissom Air Force Base, a graduate of the Defense Information School, who said they have a responsibility not only to defend but to inform the public of their function. The Department of Air Force provides slides to emphasize national defense capabilities with charts comparing the U.S. and Soviet sea-launched ballistic missiles and land launched ballistic missiles, and the number of manned bombers maintained by the U.S. Lt. Gauci stated the B-52 bombers will in time be phased

out by the development of the B-1. How much should be spent on defense? The largest increase, he stated, has been in personnel, as increased pay to civilian levels is necessary to keep quality personnel. The Air Force has many other projects such as working with NASA on the Space Shuttle. Monday spent for military research and development has spinoff benefits in such varied fields as computers, batteries, miniaturization, metallurgy, laser, TV solid state, and much more. He concluded the talk with an invitation to tour Grissom Air Force Base to see how the Air Force works. He answered questions from the audience.

The next meeting of the Anthony Nigo Chapter will be Nov. 13 and members are reminded to take Christmas gifts for DAR schools.

Mentone Library is Reading Club program topic

"Our Mentone Library" was the program topic at the annual October buffet dinner of the Mentone Reading Club. Twenty-one members and seven guests, Mrs. Kenneth Romine, Mrs. David Bowser, Mrs. Jim Miller, Mrs. George Reed, Mrs. Madelyn Fisher, Mrs. Eleanor Hoover and Miss Rosalind Mentzer, attended the meeting at the home of Mrs. Frank D. Smith. Assistant hostesses were Mrs. Mary Cox and Mrs. Bill Ettinger.

Mrs. Tom Fugate gave a fried history of the library, and Mrs. David Bowser described the work done by library personnel, noting the responsibility incurred working on a limited budget and the satisfaction derived from working with books.

The Bell Memorial Public Library was dedicated to the memory of the parents of Lawrence Bell on April 24, 1960. It serves the town of Mentone, Harrison, Franklin and Seward townships and is entirely supported by taxes from these units, receiving no income from Lawrence Bell's es-

tate. Income from taxes for the next year will include \$4,069 from Harrison, \$2,370 from Franklin, \$1,253 from the town of Mentone and \$1,450 from Seward township. The latter is a flat grant; Harrison and Franklin each have a seven-cent rate and Mentone has a nine-cent rate per hundred dollars of assessed valuation.

Mrs. Bowser said the total budget for next year will be \$9,747, leaving a deficit of \$600.

She said that as of January, the library had 12,539 juvenile books and 9,414 adult books, a total of 21,953. During 1972, the library loaned a total of 28,806 books, 19,000 of which were juveniles. During the same time, 451 books were purchased and 464 books were either lost or removed from the shelves because of poor condition or because they had not been circulated for five years. Any books removed that are still in good condition are given to the Salvation Ar-

my or to Cardinal Learning Center. Mrs. Bowser said \$3,000 is allowed in the budget for books, with the average cost being \$5 or \$6. She said 450-500 books are purchased each year.

The library subscribes to 24 magazines and periodicals, some given as gifts, such as the DAR magazine, which is given by Anthony Nigo Chapter, DAR. In addition, the library has approximately 3,000 pamphlets on many subjects that are used primarily by high school and college students for reference work, reports, term papers, etc. Materials in this line may be obtained free of charge, except for postage, from the Indiana State Library. Also on file are 400 records, most of them quite old children's records. There are also some classical and Christmas records donated by recording companies.

The only newspaper subscribed to is the NEWS, and the library has bound copies of it dating to 1885.

The Burket school is furnished 450 books each month of the school year.

Mrs. Bowser said because of extremely limited income to carry on the services provided by the library in so many areas, many items are in dire need that cannot be included in the budget, such as new shelves, outside book return box, copying machine, typewriter and spotlight for the American flag.

The program aroused a great deal of discussion, and the president, Mrs. Fugate, appointed a Library Project committee to investigate and propose to the Reading Club a need that might be underwritten by the group and asked the secretary, Mrs. Sm-

ith, to compile this article for the NEWS in which the plight of the Bell Memorial Public Library could be brought to the attention of residents of the townships served by it.

Reading Club members were reminded the November meeting will be a daytime tour of Mentone businesses with a go-Dutch lunch at Teel's at 12:30. They were reminded to take a favorite Christmas art object to the December meeting.

Mrs. Larry Pyle reminded members the first edition of the Bi-Centennial plate is still available but that the mold will be broken at the end of the year, and the price will automatically be raised with the second plate of the series of four then going into production.

Thousands of smart homemakers have given up major oven cleaning for good. They chose a new Gas Range with a continuous cleaning oven.

Continuous cleaning goes to work the minute you start using the oven to bake, broil or roast. Food and grease splatters clean away gradually as the oven is used... almost like magic!

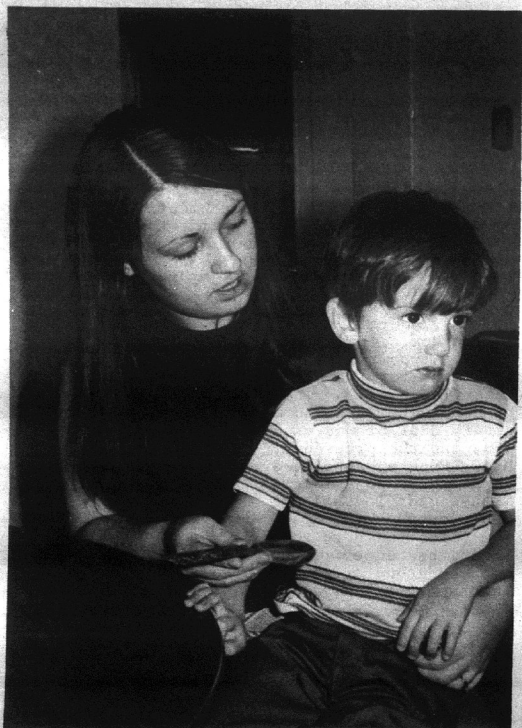

With all its work-saving features, a modern Gas Range gives you a better deal.

The Continuous Cleaning Oven Story

A continuous cleaning gas oven has specially coated oven liners which assist in soil removal during normal baking, broiling or roasting operations. The result is that most splatters will disappear as you cook. Major spillovers should be wiped away.

JOYCE MOORE discusses the merits of a Norwegian spoon with young son Chris, who appears not too concerned about his mother's growing collection, although he has been known to call her attention to spoons in catalogs and stores.

Joyce Moore records history with spoon

By Ann Sheetz

More than 100 people could stop by Joyce Moore's Akron home for coffee or dessert before she ran out of spoons.

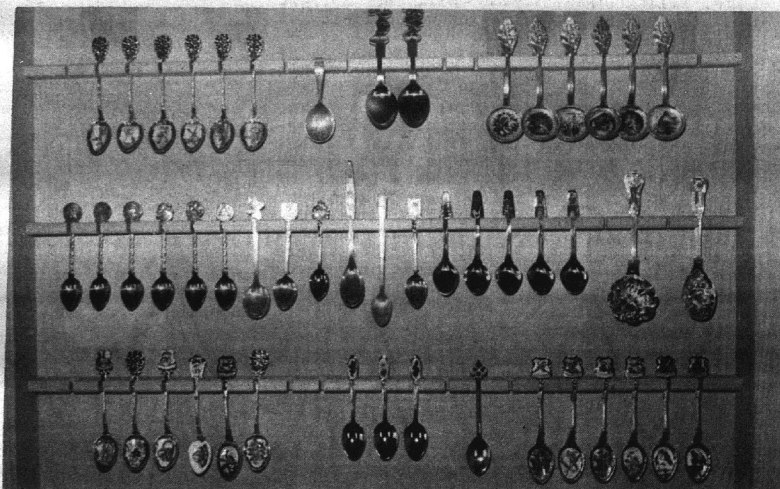

Spoons, mostly silver-plate demitasse-sized ones, fascinate Mrs. Moore, and in the past four years she has acquired 110 of the small--averaging three to six inches long--utensils.

On display in a variety of wall shelves are spoons that commemorate

special events such as the Apollo space missions and Fulton County's Round Barn Festival as well as dated Christmas spoons, spoons with fictional characters like the Road Runner, Mickey and Minnie Mouse, flower of the month spoons, state and zodiac spoons. There are spoons from Portugal, England, Norway and Holland. One set honors each of the American presidents except Nixon, although

space has been allotted him in the special display case. These spoons are each five inches long and have engravings of the president's likeness on the handle. Important events in his career are engraved in the bowls.

Although she prefers silverplate, she notes spoons are available in sterling silver, gold-plate and porcelain and that they can cost as little as one dollar and

LIGHTED CABINET houses this display of unique spoons. Larger spoons on the second row have gold embossed bowls. Mickey and Minnie Mouse are in center top.

It Happened In Mentone

Taken from the Oct. 18, 1944 issue of the Northern Indiana Co-Op News:

Guy J. Ochampaugh and Mrs. Bessie Matthews and granddaughter, Dorothy Sue Matthews, all of Mishawaka, Mr. and Mrs. Franklin Newton and children Frances and Edie and Mrs. Tessie Newton of Mentone were Sunday dinner guests of Mr. and Mrs. E. Earl Shirey and family of near Palestine.

Barry Igo had his tonsils and adenoids removed Monday at Woodlawn hospital, Rochester.

Mr. and Mrs. Oscar Roose and daughter Helen of Plymouth spent Sunday afternoon with Mrs. Verl Roose.

Mrs. Myrtle Davis received a cablegram from her son, Seaman Emory L. Davis, sending birthday greetings to her and a brief message: "Safe

and Well." He was unable to state his present location.

Mrs. Cora VanGilder, Mrs. Goldie Mollenhour, Mrs. Ora McInley, Mrs. Mary Shirey, Mrs. Ilene Fenstermaker and Mrs. Bobbie Wallace attended "Friends Night" at the Masonic Temple in Warsaw Tuesday.

On Tuesday evening about 20 young people met at the Fred Lemler home and surprised Phyllis on her birthday. Bunco was played during the evening and was followed by refreshments of fruit salad and cake. One surprise feature for the whole group was the disappearance of the

party napkins and tablecloths, maneuvered by Hallows'eners, no doubt. A "belated" theatre party topped off the evening for the group.

as much as \$25. And, although some of the commemorative spoons will probably become more valuable in later years, she notes old spoons are not extremely valuable. She has read of a few rare ones made in the 1800s that are worth \$75, not a big price increase compared to the rate other collectibles appreciate in value.

"You don't collect to get rich, anyway," she says. "You collect because you like spoons."

Her advice to would-be collectors is to get spoons that are dated or have historic significance although she says it is fun to add souvenir spoons from vacation places or from organizations such as Rainbow or TOPS.

"Spoons are not just decorative, they're useful," she says, pointing out they can be used to serve sugar, salt, cranberries, or nuts in addition to being handy eating utensils.

Mrs. Moore favors collecting spoons because they require little care other than occasional polishing, they are inexpensive, take little space, make good conversation pieces and can be sold and traded with other collectors. And they're fun.

Because they are all of these, they have provided a stimulus for research into their history. For instance, the first commemorative spoon was made in the late 1800s with Niagara Falls engraved on it; the first slotted spoon was intended for use by priests in lifting dead flies out of the communion wine.

Collecting becomes an open sesame into research, work and the sheer joy of finding an absolutely new and unique spoon.

Miss Knoop Talks To Beaver Dam Club

Mrs. Bucher and Alta Hudson gave citizenship remarks. Mrs. Bowen reported on food labeling.

Thirteen members and three guests were present.

Once again the American farmer is being made the villain in a period of rising costs. It's easy to blame the farmer for higher food prices and overlook the complexity of factors that have combined to boost the grocery bill.

One group which defends the farmer is the organization of local, independent community banks throughout the nation, the Independent Bankers Association of America (of which we are a member). We know the farmer's prob-

lems. We know his income still seriously lags behind national growth. We know he is being made a whipping boy. Because we know this, we say so: Here, at home, where we share his problems, and through the IBAA, in Washington.

For generations the American independent bank and the farmer have worked together for a common prosperity, a common effort to serve the nation. Let's keep it that way . . . after all, the farmer is an important part of us.

everything in building materials. It may be truly said that this firm is a valued asset to the community.

One of the most important features of any house, store or other structure is that it will stand the wear of the years. The same is true of the reputation of any business firm, and that is why the Frantz Lumber Company enjoys an ever increasing volume of business and popularity.

Forbes said the football field will not be able to be seeded this year and that work on the swimming pool will be delayed, pending construction of the rest of the school.

Forbes said he still has no commitment for oil to heat the school, noting heat would need to be provided by Dec. 15 for the plasterers to begin their work.

A financial report by Forbes showed \$1,493,120.74 in investments with a total of \$1,694,884.22 in all funds.

Harriet Jameson was approved as a bus driver in her area, and a contract for nine months for Charles Fellers, building trades instructor, was approved. Also approved was a two-third time contract for Charlene Bradley, an elementary teacher.

In other board action, members voted to allow Mentone students to have commencement on Sunday, provided it be in the afternoon. This action followed a request that

Sunday commencement be allowed to give relatives from a distance an opportunity to attend. Board members hesitated to make the change since board policy forbids any Sunday activity except church or baccalaureate services. Dr. John McKee voted against the policy change.

The next regular meeting will be November 19 at 7:30 p.m. in the superintendent's office, Farmers State Bank Building, Mentone.

in which Mrs. Pyle suggested the Chamber consider assisting the Reading Club obtain needed new equipment for the Bell Memorial Library.

Phyllis Bowser questioned the location of the Bell memorabilia and was told it was stored. A committee composed of Bill Westerman, Zanna Hammer and Jim Miller was appointed to investigate the possibility of providing some form of permanent exhibit of the air-space-re-

lated items left the town by the late Lawrence D. Bell.

Discussion also focused on the possibility of attaching a new building or addition to the Bell Library to house the collection.

Library board members were introduced and a special plaque in appreciation of Pearl Lackey Egolf's many years of service to the community as librarian was presented her by Robert O. Jones of the library board and Jerry Secrist.

Eileen Bowser, a 12-year employee of the library who will be unable to succeed Mrs. Egolf because she does not have two years of college, reported Madeline Fisher, a master degree teacher, will assume the position, working in the library the required period of time to qualify for a librarian's license.

APPLE BUTTER cooked in an open kettle drew interested spectators Thursday afternoon when Mary Ann King and Jeannette Mollenhour took turns stirring in the King back yard. Anyone wishing to do the same thing can, provided they first locate 20 gallons of cider, 8 gallons of apples cut fine, 15 pounds of sugar and a tablespoon of oil of cinnamon--and a 30-40 gallon copper kettle. The batch was expected to produce 12 gallon of homemade apple butter. More detailed instructions can be obtained from Mrs. King.

ODDS and ENDS

By Ann Sheetz

My family greeted with mixed emotions the news that I intended to spend the week-end at a writer's conference.

"It'll be good for you, sort of a vacation," Loren said. Translated, that meant he wanted to tear apart an old press and without me there to demand prompt meal times, he and the boys would be free to wade into the ink-soaked machine with abandon.

"What'll you do?" the 15-year old asked.

"Learn to take better pictures, write better stories, be more creative..."

"You gotta go to a conference for that? Can't you just try harder here?"

"Attend the governor's press conference, visit the statehouse, tour Indianapolis," I continued.

"Maybe you'll see a farm implement dealer," he said. Be sure to leave plenty of snacks."

The nine-year old was not as easily convinced. "You gonna go by yourself?" he asked.

"I'll drive carefully, keep my doors locked and my windows closed," I answered.

"Better tell the hotel not to take any calls for you except from your husband and boys," he added.

"Don't worry," I reassured him. "Nobody'll get me."

"Just remember," Loren reminded him. "We can tear apart that old press while she's gone."

"Yeah!" the boy answered, his face lighting. "How soon you leaving, Mom?"

The week-end was all I'd hoped it would be; the sessions and tours were informative, the people I met intelligent, well-informed and highly creative. It was a heady experience. I could hardly wait to share the excitement with my family.

A row of inky shoes and a pile of absolutely filthy clothes gave mute testimony their week-end had been perfect. They were ready to hear about mine.

"What'd you do?" the 15-year old asked.

"Learned to take better pictures, write better stories, be more creative..."

"Gee, you mean you did everything they said you would?" he asked, his disappointment so obvious he didn't even ask about the farm machinery.

"Well, we didn't have any riots or anything like that," I answered.

"Did you meet the governor?"

"Yes," I answered, adding, "and not only that, I was on television."

"How'd you do that?"

"Attended the governor's press conference, sat there listening to everyone else and somehow got on TV, that's how," I replied.

"Didn't you have to sing or anything? The nine-year old asked.

He knows I can't sing; I tried to change the subject. "I met a woman who had written 112 books."

"If you'd write even one book, you might be able to buy me a pair of cowboy boots," he said.

"Did you miss me?" I asked Loren. He didn't hear. He was busy trying to get ink out of his hair and from under his fingernails.

"Sure, we missed you, Mom," said the 15-year

old, "but you could have stayed longer. We aren't out of snacks yet."

"It doesn't sound like you had any trouble," the nine-year old said, "so I guess you could go again." Then, looking at his ink-soaked shoes, he added, "I think you'd better. Maybe you could learn to write a book because I sure could use some cowboy boots."

I hated to tell him I had not attended a single session on learning to write a book, but the way his shoes looked, I figure I'll either have to find a do-it-yourself course or go to another workshop...if we don't run out of old presses or snacks first.

"QUOTES"

"One of the evils of democracy is that you have to endure the man you elected, whether you like him or not."

Will Rogers

It Takes All Kinds!

No matter what the President of the United States says, and regardless of the rhetorical shot and shell hurled across the aisles on the floors of Congress, the fact that a law is passed decreeing that such and such shall be done to solve a problem does not mean that the problem is then automatically solved.

A few years ago, the federal government declared a war to the death against poverty. Tens of billions of dollars were spent. Some good was done, but poverty still survives and it always will, since it is impossible to make every living human being want to work and live in a way that a majority think is suitable. Some people just don't want to be tied down with a steady job, no matter what it pays. Others like a few chickens roosting in the parlor--it's easier to gather the eggs or catch a lazy layer for the pot. Some people are different and that makes the world go round. It also means there will always be those considered to live in poverty no matter how many tax dollars are thrown at the problem.

Dear Editor:

Recently several old films taken by Armour's Creamery in the 1930-50 era were viewed by the Fulton Co. Historical Society. There were many people in these films, not just at Armours, but also at the 4-H fair and other places in the county. Shown in the films are all the grocery stores in Rochester in the 1940's, open house at Armours in 1947 (?) and the people who attended, Harry Rosensbury's and Andy Rent-schler's farms and cattle, Bob Moore and his Chester White hogs, building the fish hatchery in Richland township, Kewanna school children and an unidentified farm with mules and goats, 1949 auction at sale barn featuring Arke of WLS to raise money for 4-H building, Si Deeb's FFA field trip to Metea, dress revue at 4-H fair in 1950s, picnic for Armours employees at the river.

If you went to any of these doings, be sure to go see the films next time they are shown. You may recognize your own father in one, as I did, and many friends. The films belong to Mrs. Melvin Sweeney, and she is happy to lend them to be shown at clubs and gatherings in the county. The films were discarded when Armours closed here and were res-

cued from a trash barrel by a friend of the Sweeneys.

Which prompts me to suggest two things: when a company has something old to get rid of, please contact the Historical Society rather than throwing it away. And, if anyone has found any old films or public records, please let us know. They're yours as long as you want them, but when you no longer have room or desire for them, the museum will provide a good home. Shirley Willard, pres. Fulton Co. Historical Society

To the Editor:

Due to conditions and circumstances over which we have no control and are not at fault, we are unable to assemble ourselves at the house of prayer as we did very faithfully in time past, which causes us to be very unhappy.

To us there is a great and wide difference in claiming and professing to be religious and professing to be a Christian. As one minister states the just Sunday Christian. That it takes more than just going to church once on Sunday to be a true Christian. This we firmly believe.

Some have a religion of financial gain. Some in a daily routine of life. You hear some say I do this or that or thus and so religiously. These things become an obsession with them. The scripture state, "There are those who use the church as a cloak

to hide behind." "That the rich man is wise in his own conceit, but the poor that has understanding searcheth him out. The traveller was beaten and robbed. The two supposed to have compassion and care for him passed by on the other side. The one supposed to be his enemy comforted and cared for the wounded traveller taking him to the inn and paying for his needs. Who then is your friend and neighbor? My conscience will not permit me to change my belief my Christian way to life and living. To condone and comfort myself to things I see and know to be wrong and not Christian just so I could say we are the very best of friends. To us that is neither true friendship or love for anyone. God is not deceived, neither is he mocked. We profess to be Christians.

Thank you.
The W. E. Fowlers

Numerous instances of cars passing school buses while the buses are stopped have been reported. So far, none of the children have been struck, but drivers should remember that it is necessary to stop when the buses engage their blinking lights.

Old October

by JAMES WHITCOMB RILEY

Old October's purt nigh gone,
An' the frosts is comin' on a
Little heavier ever' day—
Like our hearts is—thataway!
Leaves is changin' overhead
Back from green to gray and red,
Brown an' yellor; an' th' stems
Is loosenin' on th' oaks an' e'ms;
An' the balance of th' trees
Is gettin' balder ever' breeze—
Like the heads we're scratchin' on!
Old October's purt nigh gone.

I love old October so,
I can't bear to see her go—
Seems to me like losin' some
Old-home relative er chum—
'Pears like sorta settin' by
Some old friend 'at sigh by sigh
Is passin' out o' sight
Into everlastin' night!
Hickernuts a feller hears
A-rattlin' down is more like tears
Drappin' on th' leaves below.
I love old October so!

Can't tell what it is about
Old October knocks me out!
I sleep well enough at night
And got the blamsted appetite
Ever mortal man possessed—
Last thing et, it tastes th' best!
Walnuts, butternuts, pawpaws,
'Iles an' limbers up my jaws
Fer real service, sich as new pork,
Spareribs—sausage, too!
Yit fer all, there's somethin' 'bout
Old October knocks me out!

The Akron Free Library site has been settled, was settled at a special meeting Monday evening, October 20, at one of the most spirited meetings and at which there was more at stake than almost any other meeting ever held in Akron. The East End Livery barn, old land mark was selected. The location of this prominent edifice was narrowed down to two different sites--the Shriver lots being out of the question for immediate use, leaving only the Brethren lot at \$500, in the north part of town and the livery barn lots at \$1500. Since the site had to be furnished free of all incumbrances to the board before a claim could be made on the Carnegie Company for the donation of \$12,500, the purchase price must be made up by private contributions. The location selection had been dragging along through several meetings and it seemed that no conclusions could be reached. It was thought by some at least, that the sum of \$1500 could not be raised by subscription, but that site had warm and ardent friends. No greater work for Akron has ever been accomplished and a few more such efforts will begin to make getting for Akron easy. She will be her own magnet and will draw and attract other interests. All hail to the noble men and women who worked so hard and so persistently to secure the site. And we are requested to say that there is no feeling in the matter. All join us in saying that our library is admirably located.

David Bright has purchased Lew Wade's property in the north part of town and in turn Lew Wade purchased Stant Thompson's property on Main street during the past week. We presume possession will be given soon as we are informed that Mr. Thompson has purchased a restaurant business in Rochester and will locate there permanently.

MARY THOMAS carefully cuts weeds in this patch south of Mentone. Leather gloves and sharp shears are necessities.

Mary Thomas creates beautiful

By Ann S

Christmas starts coming in October for Mary Thomas because that is when the weeds she uses to create small Christmas trees are dry enough to cut.

For the past 25 years, customers at the Thomas service station in Argos have followed the progress of Mrs. Thomas' craft projects as she alternates from filling cars with gasoline to

crocheting afghans and shawls for friends, to making small magnetic mice from seashells or tiny animals from fried marbles.

"Mary's always busy," her friends, the Con Singpiels, told me. Former Akron residents who now live across the street from the Thomas-es, they pointed with pleasure to many gifts

DECORATED tree was once a collection of weeds. Addition of tiny lights and ornaments makes it a striking decoration for the oncoming holidays.

THE VIRTUES OF BEING SMALL

Size is a relative thing . . . but as banks go, we're pretty small. To your advantage.

David was pretty small too . . . but when he fought on his home grounds he was unbeatable. We think we are, too. Being small, we can concentrate on serving our own community and its people. Being small, we have time for the personal touch. Being small, we don't get bogged down in bureaucracy—and you can get a decision from us easily.

We think our size is an asset; it keeps us close to our customers, and to our community—and it guarantees to you that we care about you and give you the best service possible. Remember, you're an important part of us.

beautiful trees from weeds

By Ann S. Heetz

Mrs. Thomas had given them. Mrs. Singpiel, confined to a wheelchair, showed the warm shawl Mrs. Thomas made her, adding, "and she gave me a white one, too--for Sunday."

The weed project is relatively new. Mrs. Thomas and her sister, a Hill Lake resident, saw trees for sale that had been made from a thistle-type weed and were fascinated by them. Finding the weeds to make their own trees proved difficult, and it was not until they had thoroughly scoured the area that they located several patches of the tough weed. No one seems to know its exact name. Most frequently heard comments are, "It's sure mean stuff out in a field" or "it has to be some kind of thistle."

Whatever it is, Mary

Thomas located a patch of the weed south of Mentone, and it was there I first met her as she carefully harvested the thorny pods. Leather gloves and sharp shears were essential, and she regretted the warm day had forced her to abandon slacks for shorts. Those weeds are very treacherous.

Wearing gloves and working with careful respect for the weed's sharp needle-like thorns Mrs. Thomas fastens the pods to large styrofoam cones. The completed trees are sprayed with dark green paint that not only makes the trees look real, but stays the drying of the weeds. Painted trees are given to special friends as gifts. These can be decorated with strings of tiny lights and other ornaments.

ADDING FINISHING TOUCHES to a tree of weeds, Mrs. Thomas trims another pod before adding it to the spiny collection of weeds already mounted on a styrofoam cone base.

Police Report

Thieves struck in the area repeatedly last Sunday and Monday with more than \$6,100 in merchandise being taken.

On Sunday night, the Kerlin Tractor Sales, north of Silver Lake on SR 15, was broken into and more than \$1,000 in hand tools taken. Tri-State Harvestore, just south of Kerlins, was entered but nothing was taken. On Monday night, the Kerlin sales were again entered. This time, two small riding tractors and one large farm tractor plus more

hand tools were taken. Loss Monday night was estimated at \$5,000. Sgt. Ronald Robinson of the sheriff's department said the farm tractor was driven through a field behind the Kerlin place, through a fence and onto the Pennsylvania R.R. tracks where it became bogged down. It was recovered.

On Monday night, the Burket Elevator was entered and \$100 in merchandise was taken. At about the same time, the Occidental Chemical Plant in Burket was broken into and a portable radio and one dollar in change were taken.

Billy C. Little, 22, Burket, was ticketed for failure to yield the right-of-way following a two-car accident in Palestine Thursday morning. According to investigating officers, Little's car pulled onto SR 25 from a side street and struck the side of a car driven by Constance L. McAlpine, 55, R. 1, Mentone. No injuries were reported, but damages of \$300 to the McAlpine car and \$175 to the Little auto were reported.

Charges of fleeing a police officer were filed last week-end against Charles D. Amburgy, 41, Mentone.

News Of Interest To Homemakers

BY ANN HANCOCK
Area Extension Agent, Kosciusko County

It's turkey time! With Thanksgiving just around the corner, turkey becomes a popular meat. Turkeys and turkey parts are available the year round, but most homemakers prepare them as a special treat during the holiday season.

Turkeys are available in a variety of sizes. A larger turkey is usually more economical since there is more meat and less waste. A short turkey with a broad breast gives more meat than a long, narrow bird of the same weight. Any left over turkey can be frozen for future use.

You must plan ahead to get your turkey thawed in time. There are two methods of thawing recommended. The faster method is to thaw the turkey in its original wrapping in cool water. Change the water frequently. A small bird will thaw in 1-3 hours and a large bird in 6-8 hours. If you have room in your refrigerator, your turkey can be thawed there. Keep the turkey in its original wrapping. This method requires two to four days depending on the size of the bird.

In preparing stuffing, prepare one half cup per pound of turkey. Remember that stuffing expands in cooking, so don't fill the cavity too full. Home stuffed turkeys should be cooked immediately. It is unsafe to stuff your turkey the day before you plan to cook it. After cooking, the dressing should be removed from the cavity and refrigerated as soon as possible.

There are several methods of cooking reco-

mended - breast up, breast down, and foil covered, among others. Use the method that you prefer.

Turkey is an economical meat. It may be cooked and served many ways - salads, sandwiches, creamed dishes, soups, and casseroles. Don't limit your turkey Plan to Thanksgiving. Plan to serve turkey the year-round.

OLD-FASHIONED BREAD STUFFING

1 quart diced celery, 1 cup finely chopped onion, 1 cup butter or margarine, 4 quarts bread cubes, firmly packed (2-4 day-old bread) 1 tablespoon salt, 2 tsp. poultry seasoning, 1/2 tsp. pepper. 1 1/2 cups broth, milk or water. Cook celery and onion in butter or margarine over low heat, stirring occasionally, until onion is tender but not brown. Meanwhile, blend bread cubes and seasonings. Add celery, onion and butter or margarine; toss lightly to blend. Pour the broth, milk or water gradually over surface of bread mixture, tossing lightly. Add more seasoning as desired. Makes enough stuffing for neck and body cavities of a 14 to 18 pound ready to cook turkey. NOTE: Extra stuffing may be baked in loaf pan or casserole during the last hour of turkey roasting. Baste with pan drippings if desired.

COUNTRY-STYLE HOT DOG RELISH

4 cups onions
4 cups cabbage
12 green peppers
10 green tomatoes
1/2 cup salt

2 T. mustard seed
1 T. celery seed
1 1/2 T. tumeric
6 cups sugar
4 cups vinegar
2 cups cold water
Grind first four ingredients together using a food grinder or blender. Drain, sprinkle with salt; and let stand overnight; rinse and drain. Combine remaining ingredients. Pour over vegetable mixture; heat to a full boil. Boil 5 to 10 minutes. Place in clean, hot jars and seal. Makes about nine pints.

Craft Needs Told At Meeting

Mrs. Sue Young, recreation director of Miller's Merry Manor, Warsaw, was special guest of the Seward Home Extension Club recently. She listed many throw-away items members could save for craft projects there. Club members made plans to help with the Friday Bingo party and to sponsor of the monthly birthday parties in 1974. A constant need for volunteers for Bingo parties was reported.

Alice Golding gave meditation, and Mrs. Frank Nelson, accompanied by Mrs. Robt. Igney, led the club song after giving its history.

"No Fault Insurance" was the subject of Mrs. Frank Nelson's lesson. She urged members to learn all they can about the new insurance plans and what they as individuals want.

Thirteen members answered roll call with "a superstition I have." Mrs. Ted Thompson, Mrs. Robert Igney, Mrs. James Rose and Mrs. Vernon Meredith went on the county extension trip to the Covered Bridge Festival on Oct. 17.

Since the last meeting, 17 members and three guests toured Heckman Bindery at No. Manchester and drove through the college area and around Peabody Home, crossing the covered bridge. They also went to Don Gearhart's collectibles and antiques where they spent an hour before going to Roann and across another covered bridge to Stockdale Mill and then south to Rich Valley for the evening meal at the Country Village party room.

Need For Trees Is Universal

The interest shown in about the need to improve the community's image by planting trees is universal, according to a wire service story describing Vienna, Austria's "Day of the Tree." Everyone in Vienna, especially children, is invited to help plant 3,000 deciduous trees, 500 conifers and 2,000 blooming bushes and evergreens.

"The Day of the Tree" is designed to instill greater awareness of the beauty and importance of all growing things in children and adults. Altogether, during the year, some 24,000 trees will be added to Vienna's parks and gardens.

MINISTERS OF SOME OF THE PARTICIPATING CHURCHES met recently at the Akron Church of God. From the left, they are the Rev. Walter House of the Mentone United Methodist Church, the Rev. J. D. Partners Will Continue Feeling

Cont. from page 1
and Marcella Meredith, treasurer.

The Crusade, the combined efforts of many

churches in the Tippecanoe Valley area, has been hailed by most of those attending as a re-awakening to the joyous-

ness of Christianity. In order to preserve this feeling of joy and of community, Partners was formed by the Bowdoin-Sowder team, the first chapter begun by the team since the local Crusade was the first one in which Herbert Bowdoin and Jimmy Sowder had worked together.

Information was given to individuals who went forward during the meetings and to those who served as counselors with the idea that after seven or eight weeks of follow-up, the new organization would begin regular meetings.

Further details about the organization and its meeting dates will be announced after the follow-up period.
