# Mentone Board votes to increase water rates

The Mentone Town Board has ask-month. ed the Plymouth accounting firm of H. J. Umbaugh and Associates to submit a request to the Indiana Public Service Commission to allow an increase in town water rates by

The action came as a result of a motion made by Board member Wayne Tombaugh, after the accounting firm had presented a lengthy re-port to the Board, explaining that an increase is necessary to offset a 50% increase in operating costs since 1975.
Gerald Romine seconded Tom-

baugh's motion, and the resolution was carried.

The Mentone Town Board met Monday night in their regular montily session.

The new proposed rate if \$4.90 for a minimum billing of water

Currently, the present rate is \$3. 60 for up to 2,333 gallons per month.

The proposed increase was pre-sented with a state-wide compari-son of 144 towns with similar

populations as Mentone.
An average of \$4.06 for 2,504 gallons monthly usage was found in the study, with a minimum charge of \$9.75 for 5,500 gallons being the highest and \$1.00 for

1,000 gallons, the lowest.

The town of Mentone, for the period of Jan. 1, 1979 through August 31, 1979 shows a deficit of \$3,543.

The deficit comes as a result of

\$29,053 receipts from meter payments and other miscellaneous sources, versus \$32,596 in operating expenses for the first eight

months of the year. Board president Frank Hardesty asked the accounting firm for a es-timated time-table of when the request for an increase would be submitted to the Public Service Com-

The firm said that since the Board had approved their findings, there is a possibility of a December 1979, or January 1980 hearing. Clerk Kate Whetstone comment-

ed that if the increase was approved in January, the increase wouldn't be reflected in customer billing until after April 1, 1980. She also sug-gested that the board consider allowing her to bill monthly on some accounts, rather than quarterly, to help ease the financial burden on some citizens, particularly those on fixed incomes

The Board will wait until after the commission hearing to act on her suggestion.

In other town matters:

- It was reported to the NEWS that town employee Bruce Barker will discontinue service with the town effective October 30.

# Historical Tour slated for October 7 in Warsaw

With the prospect of obtaining the old jail in Warsaw as a second museum, the Kosciusko County His-No. Webster has authentic structorical Society will hold the 5th Historical House Tour on Sunday, October 7, 1979 from 1 p.m. to 6 p.m. as a fund raising event for

this project.

Tickets will be available at all house sites and the courthouse in Warsaw, or Pickwick Corner in Syracuse at the price of \$3 for adults \$2 for students, and children under 12 years of age admitted

A limited number of buses will be available by reservation by calling 219-267-5857, or 219-267-4806, and with the follow up of a check for advance payment. Bus cost is \$1.50 per person.

The tour includes five sites and each is important for special fea-tures. An Italianate style home on Old Road 30 is delightful for the tures of the pioneer period with several buildings to be seen. The Eli Lilly estate on Lake Wawa

see has the first cottage built on the lake in 1886, and a newer summer home built in 1946. With the gardens, and a walk along the lake between the homes this is a special site; an office in Syracuse restored in handsome detail will also hold an antique show for the day; a charming log house on the Tippecanoe River gives one the chance to unwind the experience the life of a settler.

With a simple bazaar, festive music, excellent guides to tell the story of each location this will be an exciting day for all of Indiana.

For further information you may write the society at Box 49, Lees-burg, Indiana 46538. Mrs. Dennert Ware is president of the society.

### My Side by Vern Hucks

Did you ever stop to think about the awesome complications of the SALT II treaty decision which now faces the Senate? I really got to thinking about it last night and it seems to me that, either way they decide, the Congress faces the possibility of costing every man, woman, and child in this country their lives. Think about it. If SALT II is approved, the USSR may devise methods to circumvent detection and build an insurmountable edge in armaments. If SALT II is rejected, the whole arms race may escalate to a disastrous climax. Either way, a wrong decision may be fatal to this country. I'm not sure how I should feel about this problem and if you've got any ideas, I'd love to hear them.

### More on Fluoridation

DEAR EDITOR:

I would like to conclude my letter printed last about the dangers of Fluoridation with the following references from the Cancer Control Journal - Vol. 5, No. 1 & 2. "The plain fact that fluorine is an

insidious poison, harmful, toxic and cumulative in its effects, even when ingested in minimual amouts, will remain unchanged no matter how many times it will be repeated in print that fluoridation of the water is 'safe'." ### Sound Off

"What's become of our Boy Scout troop and scoutmaster? With our mout's vecome of our 150y Scout troop and scoutmaster? With our dig and alcohol temptations we now have, as well as much vandalism, every parent with boys should have the advantage of the good influence of a good boy scout organization near by. The whole community would also benefit. As it is now, we even have to ask Rochester or Mentone scouts or other organizations to pick up our old newspapers. We miss many other good deeds that the boy scouts did in times past, and their presence at many of our good community activities."

EDITOR'S NOTE: The NEWS spoke with Boy Scout District Executive Officer Dewey Jones concerning this Sound Off, and we were assured that although the Akron troop had experienced difficulties in the past, it is now on it's way up. As far as the "paper-drive" comments go, the NEWS ran a front page item on September 20'stating that the Akron troop would be collecting papers on September 29.

# Punt, Pass & Kick winners

The 1979 area Punt, Pass, and Kick competition was held last Saturday at the Tippecanoe Val-ley High School football field. The annual competition is sponsored by South End Motors of Akron. A total of 140 boys and girls participated this year. The youngsters are divided into age groups from 8-13. Each entrant takes one turn at passing, punting, and place-kicking a football. Total distance and accuracy determine the winners.

New Valley area records were set in three age groups this year. Troy Busenburg totaled 150½ feet in the eight year old division, Tim Vuittonet scored 174 feet in the nine year old division, and Chris Clark had 1891/2 feet to win the ten year old division.

Other winners were Don Scott in the eleven year old class(219 ft), twelve year old Steve Lester(232½ ft.), and thirteen year old Scott

Lowe(240½ ft.).
These winners now advance to the next level of competition which will be held this Saturday at Ko-komo Haworth High School at 9:30 am.

by Renee Norlander

I found a lovely recipe for "Soft Spicy Cookies" the other day and they are so yummy during this beautiful cool September weather. Serve them with a mug of hot

spiced apple cider and watch the leaves fall.

The recipe calls for four cups of flour. I had to add almost another whole cup to get the right consistency. Also if you want to use honey instead of sugar, make sure to add another teaspoon of soda.

Also, they are very moist, so make sure you store them with wax paper.

Here it is:

SOFT SPICY COOKIES

1 tsp. allspice 2 c. sugar or 1 c. honey 1 tsp. cloves

2 c. raisins 1 c. shortening

1 tsp. salt 4 c. flour

2 c. hot water 1 tsp. cinnamon

2 tsp. soda

Boil the sugar, raisins, shortening, hot water, salt and spices for 10 minutes. When cool add flour and soda, sifted together. Drop by rounded teaspoonfuls onto greased cookie sheet. Leave space for spreading Bake in 3500 oven until nicely browned. If batter seems too thin, add more flour. Store in tight containers with waxed paper between each layer of cookies. Will keep indefinitely.

If anyone has any fall recipes, bring them in!

The 1979 Tippecanoe Valley Vikings are a football team that is impressive. The Vikes traveled to Whitko last Friday night and for starters, fumbled away the opening kick-off. They survived that but still seemed stale for the entire first half, so stale that they managed to take a 16-0 lead into the locker room with them for half-time. The second half, on the other hand, was well worth the trip to South Whitley.

Gary McKee led the defense this week with an outstanding performance. McKee racked up an un-official 37 tackle points which, if the total holds up should be the season high for any Viking. McKee made 13 tackles, two for losses. Mark Shireman and Herb King each had 8 tackles. One of Shireman's tackles came behind the line and he also blocked one pass while King recovered two fumbles.

The offense was pretty much ground out on the ground again but the passing game was not far behind. Allen Utter led all rushers with 126 yards on 13 carries and the ever present Tim Alspaugh was hot on his heels with 16 carries for 123 yards. David Rhodes hit on five of his nine passes with four of those completions to Joe Harter, Harter and Rhodes teamed for 92 yards and one touchdown. By way of comparison, Whitko completed five of ten passes for a total of one yard. Fumbles plagued the Vikes at Whitko (four fumbles - three losses) and could well prove disastrous against a higher caliber of competition.

For those of you who may be wondering why this year's Viking football team is considered to be so strong, here's some facts that may help clarify matters for you. This year's team contains four (Alspaugh, Jamison, Utter and Harter) of the top eleven all-time Valley scorers. Four (Jamison Alspaugh, Newlin and Harter) of the top six all-time Viking receivers are currently playing. Three of the top seven rushers (Alspaugh, Jamison, and Utter) still play. This year's Valley defense is limiting opposing teams to an average of 2.85 yards per play while the offense is averaging 7.87 yards per play. The Vikings have also scored 230 points compared to 35 for the opponents. Still wonder why they're

# Vikes face Caston at home

The Valley Vikings return to their home field this week to give vet another football lesson to an opponent. The students, pardon me, the opposition this week will be the Comets of Caston. The Comets are currently 4-2 on the season and are coming off a strong win over North White, 28-7. Although Caston has had their pro-blems this season, they have been ranked as high as twelfth in the state and really should'nt be taken lightly. Their main problem would appear to be depth as the entire squad is made up of only 21 play-ers and two of those have been

lost for the season due to injuries. If Caston's stats from the North White game mean anything, they white game mean anything, they live and die by the run. The Comet's amassed 373 yards of total offense, 370 on the ground. Caston's big guns last week were tailback Ken Schneider and 235 pound fullback Ed Robinson who cashing the 241 week weeking. combined for 241 yards rushing. Comet quarterback, Toby Townsend, completed only one of nine passes and had one picked off. Head Coach Dan Drotar acknowledges that they "are a running team and pass very little". Caston normally operates out of a Power-

Caston's defense should pose no real problems for the Vikings as they have soundly defeated two clubs (Triton and Northfield) who present the same look. The Comet's primarily use a split six defense but will slide into a 6-2 or 6-3 from time to time. Caston relies heavily on their linebackers, most notably Monte Pickens (All MidWest Con-ference last year) and Tony Hen-

If you remember back to the 1977 football season, you will recall that the Vikings ran off an incredible string of unscored-on quarters. Caston was the team that broke that string and would like to be the team to knock Valley from the un-beaten ranks. Valley Coach Charlie Smith has other ideas. I noted that, mathematically, Caston still has a shot at the Class A playoffs and Smith laughed and said,

"they still have to play us". Game time is 7:30 at the Valley

# Viking JV's whip Whitko 28-0

The Viking Junior Varsity continued their winning ways on Saturday by shutting out Whitko, 28-0. This victory brought the JV's record to 5-0 on the season. The team is averaging 31 points per game and hasn't been scored on

Jimmie Jones led all rushers with 100 yards on eight carries and two touchdowns. Mark Yates chipped in 64 yards on four attempts, one of them being a 43 yard TD scamp er. Calvin Grossman, defensive tackle, realized a lineman's dream by recovering a fumble in the end zone for six points. The scoring

was rounded out by Doug Dicker-hoff who rushed for two twopoint conversions

Lynn Fuller led the defense in tackle points with 24, followed by Brian Carnes, Scott Bibler, and Doug Dickerhoff with 15, 14, and 13 points respectively. Fuller had eight tackles with two of them be

# Pike Lumber going strong since 1904

by Diane Parker

"When thou art asked to go the mile, go twain." That saying, once coined by an ancient Galielean carpenter, is

That saying, once coined by an ancient Galielean carpenter, is said to be the "formula for success" of the Pike Lumber Company, one of Akron's biggest and most productive businesses.

According to Plant Manager Channing Utter, however, its method of business is a little more complicated than the motto suggests.

Pike Lumber, occupying over 20 acres in Akron, is known as one of the largest intergrated timber-growing, lumber-manufacturing, kim drying and distribution centers in the middle west, employing over 100 workers.

The plant specializes in domestic and export sales of native and foreign Hardwoods; major species being Oak, Ash, Maple, Basswood, Beech, Poplar, Walnut and some popular foreign woods. Although most of the wood is

Although most of the wood is produced at the local facilities, using such equipment as an automated sawmill, combination grading-trimming sorting chain, automatic stacker and unstacker, 20 dry kins, a planning mill and a fleet of rolling equipment, Utter says a company owned subsidiary, Pike Timberlands, is currently operating 35 tree farms in Indiana and Ohio, most of which is well-stocked with large, top quality Hardwood trees (three tracts located near Akron are devoted to experimental, openfield planting of primarily Walnut, Tulip, Poplar and Red Oak).

In addition to timber grown on co.npany land and land managed for other people, Pike also purchases timber and logs from private owners within an operating radius of 150 miles of Akron.

How did Pike Lumber expand? How did it develop into a leading Akron business since its inception in 1904?

According to Howard Utter, company president, who assured his management duties in 1934 after he married the bosses daughter, Helen Pike, the reason is simple: "We work for the customer.

we work for the customer.

"We have no secrets. Our philosophy (if it can be called a philosophy) is simple. (We believe) coworkers are our most important resource; we work for the customer; we give the customer quality, service and an iron-clad guarantee."

County records show the Pike

County records show the Pike family entered the lumber business over 100 years ago when "Uncle" Jonathon Pike bartered with the Minni Indiana for timber.

Miami Indians for timber.
Channing Utter is quick to point out how far the company has come since those meager beginnings.

"In addition to what we have now our future plans call for the construction of two new high production Band Mills -- one in Akron and one at the company's new outpost operation located at Carbon, Indiana."

For those loyal readers who failed to identify the mystery house last week, the home in the picture is now the residence of Mr. and Mrs. Howard Utter. The land on which the house was built was homesteaded by Daniel Whittenberger in 1853 and the house was built in 1858. The couple in the picture are Mr. and Mrs. Daniel Whittenberger. This look back into our heritage comes to you through the courtesy of Mrs. Otis Craig, Akron, great-granddaughter of Daniel Whittenberger.

These smoke stacks have been a familiar part of the Akron skyline for several years at the Pike Lumber plant.

Not only are we faced with voter apthay in the 1980's but we are facing a moral crisis of the first dimension. Much of the problem is due to the dissolution of the family unit, believes George Gallup, of the Gallup poll organization.

What are some of the signs of this dissolution?

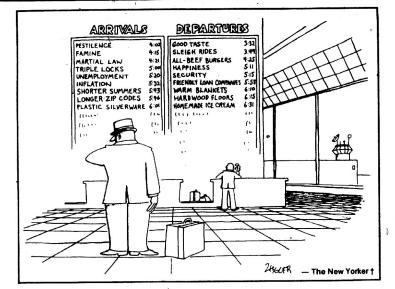

The divorce rate in our nation has doubled in 10 years; two in five children born in this decade will live in a single parent home.

שy their own admission, most of America's teenagers have cheated on a school exam - in fact, as many as six in 10.

\* Hundreds of teachers are physically attacked each month by their students. Thousands of school children are physically abused. A recent Gallup Youth Survey indicated that as many as one teenager in five is fearful of bodily injury during school hours. In fact, a high proportion of the crimes committed in this country are committed by teenagers.

\* Alcohol abuse among teenagers is reaching epidemic proportions, reflecting a growing trend in society as a whole. Here, too, our record is not good when compared with other nations of the world.

Robert Maynard Hutchins, distinguished educator, said "The death of democracy is not likely to be an assassination by ambush. It will be a slow extinction from apathy, indifference, and undernourishment."

### Don't be left out in the cold

All of us know winter is coming. And with its coming will come fuel bills.

For many older, blind and disabled Hoosiers, the means to pay these bills is practically non-existent. That's the reason Indiana - alone of the 50 states - has the State Allowance for Energy (Project SAFE).

This program provides up to \$200 heating fuel and electric bill paying assistance for those who are 65 years of age or older who meet income guidelines. Also eligible are those who are blind and disabled who receive Supplemental Security

Although application for this assistance can be made from now through March, 1980, to receive the complete benefits application must be made by October 31. Every electric utility in Indiana

# WHAT IS A

First, it's the phone company . . . it's General Telephone!

The GTE Phone Mart is a comparatively new idea . . . available to serve you with the most up-to-date communications equipment and service.

Most Marts are conveniently located in shopping areas with adequate parking.

Some have extended hours; we're usually open when you want us to be.

What services can you enjoy at a GTE Phone Mart? Visit your nearest Mart to:

Order new telephone service.

Transfer telephone service from one address to another.

Remove telephones or change service.

Add telephones, or just exchange your telephones for different styles or colors.

Repair telephones (if we have predetermined the problem is with the telephones themselves).

Pay your telephone bill.

In fact, almost any reason you might have to call or visit General Telephone can be a reason to visit a GTE Phone Mart. One of the best reasons...you can save a "trip" charge which means money in your pocket.

It's the place where you can color match (or contrast) with your decorating theme all the beautiful phones you've been hearing about.

And, because most of our phones are leased for a low monthly rate, they remain our property and our responsibility; we service what you lease.

GTE Phone Mart is General Telephone . . . for YOU!

The Disko (Twin Lakes) School, built in 1910, and formerly located one mile east of Disko, was one of the first consolidated systems in the era of little red brick, one room schoolhouses.

In it's earliest days, transporta-tion to and from the school was accomplished by horse drawn hacks, walking, and in the winter,

As area population increased, so did improved roads. Soon, moto-rized vehicles and busses began to appear on the scene.
In the 1920's another consolida-

tion took place, in favor of in-town locations, and the building of small gymnasiums. In a sense, Hoosier Hysteria was born at this

time in the area. Soon, Disko School was sold for demolition during the middle of the depression. It's wing and front section was removed and abandoned for good reason.

# Purdue schedules meetings

Questions of current interest to . Hoosier cattlemen will be discussed at a series of meetings scheduled this month by a Purdue University agricultural economist.

David Petritz, the economist, will discuss the cattle outlook in a meeting Tuesday, October 23, at Teel's Restaurant, Mentone. Dinner begins

Among topics will be the impact of large pork and poultry supplies on beef prices, the likely length of the current recession, how high corn prices will go next spring, and the potential for profit in cattle feeding during the next year.

The center section was built like a fortress, with 13" thick walls of Kokomo brick, and headers tied together every seven courses.
The 12" reinforced concrete floor

was supported from beneath by 13" walls surrounding the boiler and coal room. This structure was essentially fireproof for teacher and student safety. Two acres of land and rubble,

along with a good well and septic system sold for only \$100, to be

remodeled into a private dwelling. Boring window openings and a hole for a chimney through the floor, as well as new plumbing in-stallation, was a challenge for ham-mer and chisel.

Strangely enough, this type of early construction, proved to be almost indestructable during atomic tests at Jackass Flats, Nevada. It withstood the tests better than buildings constructed with reinforced concrete walls

Only a few years a tragic school boiler explosion occured in Texas,

killing over 250 people in Texas. Perhaps, the memory of Disko School dwelling, warm in winter, cool in summer, remains to remind us the value our ancestors placed on human life, safeguarding the lives of future generations

I'd like to make a few changes to the recipe for "Soft Spicey Cookies" that I ran here last week. One of my avid readers called my attention to the fact that the recipe didn't have any eggs in it. I checked the original and it didn't call for eggs but she threw in 2 eggs anyway and reports are that it improved them a lot. Another thing you might do is to substitute some of the shortening with butter but that's up to your taste. Anyway, add some eggs and you have a very good recipe on your hands.

# the side lines by Vern Hucks

The Valley Vikings played Caston last Friday night and somehow managed to come out on the better end of a 46-6 final score. I say somehow because its the truth. Valley Coach Charlie Smith says that if he were an opposing coach looking at Valley's performance on film, he would probably rate them as a fair to mediocre football team. Valley's first offensive series of the second half pretty much typifies the entire game. The first play of the series was an action pass that was dropped, the second and third plays were broken trap plays, and the fourth was another broken play where the quarterback sprinted out the wrong direction and was creamed. The fifth play of the series was a touchdown called back on a clip, the sixth was another dropped pass which could have easily been a touchdown and on the seventh play, the Valley blocking back didn't even touch Caston's defensive end resulting in a loss of yardage. The series ended with Valley in punt formation having only 10 men on the field.

Luckily, there were some things done right. Tim Alspaugh broke the 1000 yard rushing mark for the season with a 125 yard performance on 15 carries. Tim also scored 30 points on 4 TDs and 3 two point conversions to bring his season total to 158 points. The single season record is 170 set by Derek Anglin in 1976. Greg Utter chipped in 77 yards on 9 carries, scoring two touchdowns and one two point conversion. David Rhodes put the ball in the air six times and connected on three with two of them going to Joe Harter for 38 yards. Bill Jamison hauled in the other pass for a 33 yard gain up the middle. In all fairness to Rhodes, his three incompletions were entirely catchable.

Greg Cumberland led the defense with 30 tackle points coming on 8 tackles (four behind the line of scrimmage), 3 assists, and one fumble recovery. Mark Shireman had 27 tackle points and one blocked pass, David Rhodes made two interceptions, and Greg Utter made 7 tackles and also blocked a pass.

Coach Smith blamed Friday's poor performance on poor execution and poor coaching. Smith specified that it was the head coach, not the assistants. Coaching this team at this point of the season has got to be difficult. The really rough part of the regular season is past but every game is still crucial. You want your team to be ready to play but you still want to see them have something left for the play-offs. Ideally, a team should "peak" in the last game of the season but Smith "would like to get a little closer to the peak."

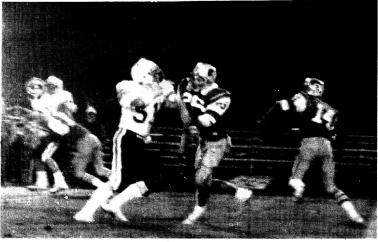

I owe an apology to Valley linebacker and running back, Greg Utter. I inadvertently referred to him as Allen Utter in a picture caption. Although Coach Smith told him that Allen was better looking, Greg maintained that its not a matter of looks but a matter of "studsmanship".

With the football play-offs coming up and basketball season just ahead, many Viking fans are looking for Tippecanoe Valley imprinted apparel. Cooper's Dept. Store in Mentone carries Viking garments and Akron Supermarket in conjunction with Loyd Saner will be offering them on Saturday, October 13.

### Three Rivers clash

# Vikings to travel to Manchester

The Tippecanoe Valley Vikings travel to North Manchester Friday night to take on a team that has had a disappointing season thus far. While Valley sports a perfect 7-0 record, the Squires of Manchester High School are languishing in the TRC cellar at 0-7. Manchester's biggest moment of the 79 season so far has been last week's close loss to Southwood. Squire Coach Led Benton says that his team played well in last week's encounter and will hopefully provide quality competition for the Vikes this week. According to Benton, Manchester's poor showing is a result of lack of talent, lack of skilled people, and attitude problems. Manchester is a young team with only five seniors on the squad.

Manchester's biggest offensive threat is their talented receiver, Keith Sorg. Sorg finished in third place last year in the Three Rivers Conference receiving standings but is being thrown to by a different quarterback this season. Kyle Workman is Manchester's quarterback and although the Squires like to throw, he is only completing about 40% of his passes. Kent Mullenix plays tailback for Manchester and is small, 5'6", 145 lbs., but quick,

running the forty yard dash in a respectable 4.8 seconds. He is only averaging 3 yards per carry probably due to the inexperience of the line blocking for him. Phil Howard, one of the few experienced line people, is a doubtful starter due to a knee

injury.
The Squire defense is plagued by a lack of size across the line. Defensive leaders are Keith Sorg, switching from his offensive spot to deing from his offensive spot fensive halfback, and middle line-backer Barry Benton. Benton's size, 5'7", 165 lbs., tells a lot about the Squire defense.

Coach Benton says that his game preparation will primarily be a matter of working on attitudes. He looks for Valley to make few mis-takes and do nothing tricky. Benton "considers it a privilege to be playing the number 2 team in the state" and has even devised a defense alignment designed to stop the Vikings, a 1-9-1 formation.

"One man on the forty, 9 men on the ten, and one in the end zone praying.

Game time is 7:30 at the Manchester College football field.

# Spikers defeat Manchester

The Viking girls' volleyball team found the going still rocky last week. The team played two matches in a three way tourney with Manchester and Warsaw, winning over Manchester but losing to Warsaw. Valley won the match with Manchester in two games, 15-10 and 15-4. Freshman Ruth Bellamy was the leading spiker For Valley in the tourney. Tammy Walgamuth was top server and Norma Knoop made the most sets. On Monday, the team entertained the Wildcats from Whitko with mixed success. The JVs won, 15-12. 13-15 and 15-8 but the var-

### Northern Pike

### in Bruce Lake

Northern Pike are taking up residence in Bruce Lake in Fulton County. Fishery biologists from the Indiana Department of Natural Resources stocked the lake with pike fingerlings (three to four inches) in 1978, and an additional 8,500 fingerlings were stocked last year. A recent survey yielded eight northern pike, ranging bet-week twenty two and twenty seven inches in length, well above the twenty inch size limit for

"We're pleased with the growth rate of the northerns," says fishery biologist Mike Rowe, "and there are a lot of them waiting to give sport fisherman a good run for their

# Class A play-offs taking shape

The single A playoff picture is be-

ginning to emerge and some old familiar names are popping up. In District 9, Valley 1977 regional opponent, Seeger, is leading the pack along with Whiting. North Judson, Knox, and North Liberty also have shots at a playoff berth. Our own Tippecanoe Valley Vi-kings, have a solid lead in District 10. The Vikes are assured of a playoff spot if they finish the sea-son undefeated. Southwood is a good possibility for playing Valley in the first playoff game but the Knights face a stiff challenge in District 11 leader Eastern, Southwood and Eastern, both 6-1, will meet at Eastern this weekend. Monrovia, Hamilton Southeast, and Oak Hill all have good point potential and are just waiting for another District 11 opponent to fall. Perenial power house and num-ber 1 ranked Lawrenceburg is at the top of the District 12 heap. Their probable first round opponent so far will be Southridge. scotch tape, paper towels, masking tape or even bathroom tissue?
Probably not - even though the ansanswer may be right in our own back back yard.
Sonoco Paper Products, located in Akron on State Road 19 south, manufactures heavy-duty cylinder "cords" from paper in a number of shapes and sizes used for just those purposes - and more.
The local plant is one of nearly 50 company-owned operations nationwide. In addition, Sonoco nationwide nat

nas over 130 subsidiaries and ar-filiates all over the world.

"Besides the plants in this coun-try", says Plant Manager William Lynn, "we have companies in such places as Mexico, Canada, Puerto Rico, Japan, Australia, & New Zealand.

Lynn, originally from North Car-

olina, came to Akron just 18 mon-ths ago from Munroe Falls, Ohio. Sonoco Products, short for "Sout-hern Novelity Company", brought its growing operation to Akron in 1952 to the country of the plant that 1953, taking over the plant that once belonged to Trutemper, a tool company. Today, it has one large

manufacturing building, several storage sheds and about 140 employ-ployees... and it is probably one of the largest spiral cord operations in the world".

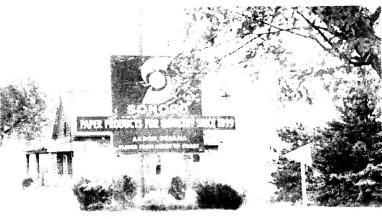

Nationally, the company was founded in 1899 in Hartsville, N. Carolina, where Sonoco's home office is still located.

idual manufacturers learned to make their own, Sonoco Products plants around the country made such familiar household items as Minute Maid orange juice cans, Pr ingles chips cans, and L'eggs panty hose containers.
The local plant makes exclusively

paper "cords", "anywhere from the size of my little finger to one's three feet wide," says Lynn. Those cords are used to wrap tape

round, or paper towels, or plastic

Says Lynn, "It's one of those things that may seem insignificent, but someone's got to make them."

### My Side by Vern Hucks

Determination is often regarded as one of the prime elements of becoming successful. I wonder though if this whole thing can be carried too far. To support my contention, let me tell you the true story of a certain Canadian apple far

It seems that this farmer was picking his crop and had arranged a pulley, rope, and barrel contraption to enable him to pick high up without a ladder. Well, the man hauled the barrel up to the desired height, tied the rope to the trunk. and climbed the tree. After he had picked the barrel full, he climbed down, untied the rope, and thought that he would gently lower the barrel to the ground. Wrong. Failing to anticipate that the barrel now weighed more than he, the farmer was jerked off his feet and spirited up into the tree. On his upward flight, the farmer collided with the barrel, on its way down, and severely damaged his shoulder. Determined not to let go, he suffered the further indignity of haying his fingers jammed into the pulley. In the meantime, the barrel had reached ground level, tipping over and spilling its load. Now empty, the barrel was lighter than the unfortunate farmer and the whole process was begun again, only this time in reverse. Farmer and barrel collided once more injuring the man's leg this trip. Finally, when the poor man reached the ground, he gave up and let go of the rope whereupon the barrel fell, striking him for the third and final time. He was then

Seems to me that this determination thing can be dangerous. You take an awful beating once you start it and if you give up, you catch it even worse. I'm sure going to have to think this one through....maybe.

### Thank you

DEAR EDITOR:

We want to take this time to thank all the workers, who donated a few hours of their time, at the Mentone Community Fair Stand

Without these workers, adults, and kids, we could not operate each

year.

We want to give a special thanks to Jim and Lois Miller for taking the 4-8 shift. These are busy people, and we were glad to have them back again this year.

Also, Guy Alspaugh for helping the Millers' and us, get the fair stand ready to operate.

We had a very rainy fair this year, out we hope the organizations receiving this donation(see page 1) will be able to use it with the thanks from the workers who donated it through their hard work.

We will be needing workers and shift leaders again next year, and hope many of you will again join us in the effort to help the Mentone

Community.

It's alot of fun working with the people of the community in this

Thanks again, and we hope to raise a lot more for the organizations in 1980. -Sincerely,

Ron & Divie Secrist, Fair Stand

### Boy Scout update

TO AKRON CITIZENS: In response to a recent letter in 'SOUND OFF" concerning the local Boy Scouts:

The troop was reorganized in May of this year with Channing Utter and myself, and Dick Bradway as leaders. The boys have worked very hard to make the troop grow and develop over the last 5 months. We attended our first district camp-We attended our first district camparee last month, and the scouts earned a First Place rating in the competition, something the boys and leaders are very proud of. Last month, we held our first paper drive since our reorganization. We wish to thank all the people involved in making it a success and also as in making it a success, and also a big Scout hand shake to the Akron-Mentone NEWS for the front page publicity. We are scheduling another paper drive again for December, and then every two months, there

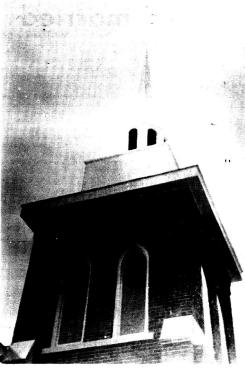

I wish to also take this opportunity to invite any boy between the ages of 11 and 18 to join in making our troop the best ever. We meet every Monday night at 7:00p.m. in the Scout cabin. We go camping at least 1 weekend a month, and are going on our first weekend can-oe trip October 20.

I hope this brings some light to the Akron residents as to what is happening to the local troop. Thank you for this privilege to inform you about the GREATEST EXPERIENCE for boys in the world!

### Burning may harmful leaves

Frank employees honored

The aroma of burning leaves might smell pleasant to some people, but to others it means coughing and the feeling of suffocation. Dr. Thomas Lavelle, Jr., a specialist in pul-monary medicine and a board member of the American Lung Associa-tion, stated that "because of the thousands of people with asthmatic disorders aggrated by air pollution, including smoke from buring leaves we are encouraging people to use al-ternate means of disposing leaves." Dr. Lavelle went on to say that

"environmental smoke does not cause lung disease, but it can cause an increase in coughing, shortness of breath and wheezing for those suffering from asthma and various forms of lung disease . In some instances, a smoke induced bronchial asthma attack necessitates emergency room treatment and/or hospitalization. The situation is amplified when a temperature inversion layer exists." An inversion layer is creat-ed when there is warmer air aloft and cooler air close to the ground. Because of this, the ground level air is trapped and not allowed to move vertically, locking smoke and other pollutent matter close to the ground where we breathe.

Individuals should make note of the atmospheric conditions and refrane from burning when an inversion layer exists.
In order to help eliminate breath-

ing problems for those with lung disease, the American Lung Asso-ciation of North Central Indiana encourages you to use alternatives that are environmentally acceptable. These methods include bagg ing the leaves, mulching, shredding and composting. Shredding, mulching and composting are all excellent ways you can turn leaves into soil

conditioner.

Here are some of the steps in utilizing these methods:

 Shredding - You can shred leaves by simply mowing over them with you lawn mower. Shredded leaves can either be left on your lawn to act as a soil conditioner or used in mulching. Many power mowers today come with a "shredding" attachment.

2) Mulching - Mulching is when

you place whole or shredded leaves around trees and shrubs. This helps retain moisture and helps prevent freezing of the roots.

 Composting - Rake your leaves to an unused corner of your lawn in a six to twelve inch layer. Moisten the leaves by sprinkling them. Then add a few handfuls of fertilizer over the top to speed up decay and add nutrients. Any regular ag-riculture lime could be used also. recuture time could be used also. Continue to layer as mentioned above until all your leaves are layered. Keep the top of the pile flat or slightly concaved to retain most ture. Allow six months to a year for the leaves to decay, then spread the composed leaf mixture around trees, flowers, shrubs or work into

the top soil.

If you chose not to use these methods, you can always bag your leaves and have them picked up. Any other material that is usually burned should be compacted and put out for haul away services.

The Valley Vikings played two different games last Friday. In the scheduled contest, the Vikes slaughtered the helpless Manchester Squires by a score of 66-6. In the second game, they played the officials to a draw. Seriously, combining the 119 yards of penalties against Valley, with the 91 handed out to Manchester, the team in the striped jerseys came away with 210 yards of toal offense and a lot of it was REALLY offensive.

Valley defensive end, DAVID LECKRONE, was ejected from the game on a phantom spearing call and things digressed to a point where the referee was picking up the ball, walking off 15 yards in one direction, then picking up the ball again and walking 15 yards back.

I realize that officials don't get a whole lot of recognition but hogging the spotlight that much is going too far. I commented to one line judge that some of the calls were a little complicated, and he replied "I think that they are pulling them out of their hats.

Enough about the officiating.

I realize that I've used the word "awesome" before in this space, but how else do you describe a football team that racks up 567 yards of offense in one game? The Viking ground game accounted for 365 of those yards with GREG UTTER getting 162 on only 9 carries, an average of 18 yards per carry. TIM ALSPAUGH was "Mr. Consistency again, gaining 132 yards in 14 tries. UTTER'S performance leaves him with a career average -per -carry of 9.71 yards. and he also set a school record with a 93 yard TD jaunt.

ALSPAUGH, who scored 24 points in the evening, broke two school records and now finds himself on the way to a state record. TIM'S season scoring total is now 182 points, breaking the old school record of 170, and his seasons' TD record of 27, betters the old mark by one

Both records had been held by DEREK ANGLIN. ALS-PAUGH needs 60 points to catch the state single season record of 242 scoring points, and with the play-offs just ahead, he just might make it. DAVID RHODES completed 7 of 9 passes for two TD's and 202 yards. RHODES has completed 56.1% of his passes (37 of 66) for 814 yards and 9 touchdowns this year. He has also attempted 7 passes on PAT tries and has been suceccessful on 6 of them.

The Viking defense got in on the scoring parade also, when HERB KING picked up a Manchester fumble and high-stepped 26 yards into the end-zone. MARK SHIREMAN led the defense in tackle points with 25, followed by JERRY PARKER (playing for injured Gary McKee) with 22 and Bill BILL JAMISON with 19. JAMISON also contributed to HERB KING'S second defensive explosion when he tipped a Manchester pass into KING'S hands.

Sour note of the night, was the injury to GREG CUMBER-LAND, one of the finest high school linemen in the state. CUMBERLAND suffered a severe bruise to his lower back when he collided with BRENT ARVEN on a pass rush. According to Coach Charlie Smith, CUMBERLAND will probably be out until at least, the first play-off game.

# LaVille to try Vikings one more time

by Vern Hucks

The LaVille Lancers seem to give the Laville Lancers seem to give the Tippecanoe Valley Vikings all they can handle every time the two meet. Two years ago, Valley won a squeaker over La Ville by the score of 6-0 but La Ville had one touchdown called back. Last year's contest was also won by the Vikes but it took an Allen Utter field goal to clinch an 11-8 victory. Valley allstate quarterback David Rhodes in last season completing only three of eight passes and having three picked

Kick-off is at 7:30 at the Valley. two of those interceptions and bat-ted down one of the other incom-pletions. Dykstra is back again this year and he's still big (6'4" 180 lbs) and he's still good. In fact, Valley Head Coach Charlie Smith says that Dykstra may well be the best safety in the state. Lancer linebacker Phil Cramer is the team's leading tackler and although he's not big for a line-backer(5'8" 170 lbs.), he is quick and he is a banger. LaVille's defensive line is big, averaging 190 pounds across the front five. Dykstra also leads the LaVille off-

# V- ballers drop two

The Tippecanoe Valley girls volleyball team continued their season long tailspin last week, losing to Culver Military academy 15-2 and 15-8, and also dropping a match to Huntington by scores of 15-10 and

The JV'S remained the highlight on the local volleyball horizon de feating Huntington 7-15, 15-6, and 15-9. Kelly Fitzpatrick was the le-ading spiker for the junior varsity, and Ruth Bellamy was the leading

ense at quarterback. LaVille basically uses a veer offense and Dvkstra is adept at running it. He is joined in the backfield by fullback Dan Fietz and tailback Greg Rutzen. Both players have fair size and speed and both know how to run the ball. Fietz has had three games in which he has broken the magical 100 yard rushing figure and Rutzen has man-aged the same feat four times. La-Ville relies on the run and has had success with it averaging over 200 yards per game on the ground.

Academy last week, 13-12. Lancer Head Coach Larry Stillson says that that game was very physical and some of his players are bruised up but injuries should not play a factor in this week's contest. Stillson feels that to beat the Valley, his team has to play a very basic defense and not get caught up in all of the Viking's fakes and misdirections. Offensively, the Lancer's are looking to play ball control because, as Stillson put it, "If we get behind, we're going to get beat."

# Halloween:

An' the Gobble uns 'at gits you, if you Don't Watch Out! J. W. Riley

by Diana Streevey Bucher

This is the time that witches, goblins, black cats and jack o' lanterns make their annual appearance worldwide. Halloween is probably the most eagerly awaited non-religious holiday in the world as far as children are concerned. We are all familiar with our pre-

We are all familiar with our present-day customs; the children dressed up for trick-or-treat, carving pumpkins, pulling pranks. But are you aware that the origins for these customs are hundreds of vears old?

Halloween, or Allhallows Eve, is originally a Christian observance started in the 7th century A. D. With the development of the Roman Catholic Church, customs for the observance of All Saints Day, on November 1, were mingled with the traditions of the ancient Druid festival of Samhain (Summer's End). Druids were priests of an-

# een: pumpkins cient.Celtic tribes both in Gaul sill, and pulled the strin

Druids believed that during the festival of Samhain, spirits of the dead refurned to the homes of their kinsmen. Huge bonfires were lit to guide their spirts home and to ward off the many evil spirits that roamed around on that eventful night. During the Middle Ages, fires were again lit as protection against evil spirts, for everyone knew that witches on broomsticks were going to their Witches Sabbath. So the superstitions of witcher and evil spirits have been passed

(later known as France) and the

British Isles.

down through the ages.
The Irish gave us two of our most popular traditions. Rumor had it that a man named Jack was condemned to walk the earth carrying a lantern until Judgment Day, and so the jack o' lantern was born. In the 17th century, poor people begged in the streets for money to buy things for a feast for All Saints Day, and we had the first trick-or-treaters.

Our customs have changed a lot in the last few years, too. At the turn of the century, children didn't go out for candy or money. They only wore their costumes to parties, where they would bob for apples and eat popcorn and taffy. Pranksters took 'tick-tacks' (notched spools with a tack and string around it), crept up to a window

sill, and pulled the string, making an outlandish noise to scare the occupants of the house. Corn shocks were dragged into the middle of main roads, and it wasn't uncommon to find wood stacked up against the schoolhouse door the next morning, blocking all entry to that revered institution. And never let us forget the best trick, overturning outhouses.

However you chose to spend your Halloween, whether taking your children out to trick-or-treat, going to a party dressed as Caesar, hiding at home with the lights turned out, or making a human sacrifice on a tall hill under the moon; have a nice Halloween!

### Trick or Treat

Mentone Marshal John Hart has reported that Halloween trick-or-treat night in Mentone, will be Wednesday, October 31 from 6 to 8:30 nm

The Akron Town Board has designed one night for Halloween trick or treaters. This night will be Wednesday, October 31, between the hours of 7 p.m. and 9 p.m. Violators will be punished.

Also, anyone apprehended vandalizing property on, before or after Halloween, will be severely punished.

Sorry to hear you are not in the best of health but are not in the best of health but I know that God will bless you both with a long and full life. I think of you often even though I am not considerate enough to always put it on paper. I often think back of my wonderful time in Akron and of all the fine people. Yes, it is a small town but the wonderful people of Akron had such a positive influence on me - at the positive influence on me - at the time and throughout my school time and throughout my school years and later military career.
Please say hello and give my best to Roy Meredith and Grace Waechter. Sorry to have missed the 25th class reunion-doesn't seem that long.

We are enjoying our second year here in Panama and just went through the historic turn over of the Canal Zone - a bit sad but, in the long run, an inevitable event. This has been a good assignment and have learned so much. I was deeply involved in the Jonestown, Guyana tradegy and though un-pleasant, I am proud of the job our military did. ### Objects to policy

DEAR EDITOR:

Traditionally, school systems all over Indiana are dismissing school October 25 and 26 for teachers to attend Teachers Conference on Instruction; except here at Tippecan-oe Valley, school will be in session. Teachers wishing to go to those workshops requested Professional Leave days (two days granted by Board Policy to TVSC teachers to attend professional meetings). These soard rolley to IVSC teachers to adv in the calendar like the other action professional meetings). These school systems in Indiana, should were refused by the Superintendent; they be able to penalize their teachterefore, these teachers are forced to take Personal Leave days (two days granted by the state law to the personal the professional meetings? teachers for personal business). It is TVSC policy to reinburse teachers \$35 for each Personal Day not

used, In essence, TVSC teachers are being "docked" to attend their professional meetings.

Our Principals are presently attending a two day conference at Indianapolis sponsored by the Indiana State Principals Assoc. Why are they allowed to take school days pay to attend their meetings with pay to attend their meetings and teachers are not allowed the same privilege? If our school system Correction, does not have the foresight and consideration to include the two days in the calendar like the other

The second grade students of the Akron Grade School and their teachers, Miss Messer, Mrs. Mart-ens, and Mrs. Ward, were entertained Thursday afternoon at the

Akron Library.

Mr. Powell, a magician from Rochester, entertained with his magic were shown to the children by Velma Pright librarian Refroy Prophysions. Bright, librarian. Refreshments were then served.

The second graders received the special party because they had more children participating in the summer Reading Program at the library than any other grade.

# "Vanity" plates must be purchased by Oct. 31

Commissioner Ralph W. VanNat-ta of the Bureau of Motor Vehicles announced recently that re-reservations of Personalized License Plates purchased last year must be made by October 31, 1979. If a plate is not re-reserved by this date, the initial applicant loses the exclu-sive right to this plate for the 1980 registration year, and the configura-tion becomes available to any individual November 1, 1979.

The Bureau of Motor Vehicles reserves the right to deny any personalized license plate application found objectionable, however, an individual may order almost any letter-number combination provided it does not resemble an existing Indiana license plate con-figuration.

Commissioner VanNatta noted

that the most popular configuration was "...probably initials, with team nicknames, business names and car descriptions following closely behind. However, lately, there has been a light-hearted trend with examples such as: 2TAL4U, IXLR8, and UNOWHO among the plates ordered. There is also a look toward the fuel situation with plates that say IMAGAS and NO-GAS."

The fee for the reservation of Personalized License Plates remains \$40.00, to be paid at the license branch in the county in which the applicant legally resides, at the time of the reservation. This fee is in addition to any excise tax and plate fees incurred at the time of registration.

PAPAYA-KIWI OVEN PANCAKES

5 eggs
1 1/4 cups milk
1 1/4 cups flour
2 ripe Calavo papayas, seeds removed, peeled and sliced lengthwise
2 ripe Calavo kiwifruit, peeled and sliced

Melt 1/4 cup butter in each of two 9-inch pie pans in 425° oven. Meanwhile, whir eggs in blender for 1 minute; add milk and flour, blending until smooth. Pour batter into pie pans, dividing equally. Bake 20-25 minutes, or until pancakes are fluffy and lightly browned.

While pancakes are baking, toss papaya and kiwifruit slices in bowl with lemon juice.

To serve, spoon fruit over pancakes and sprinkle with powdered sugar. Cut pancakes into pie-shaped wedges. Makes 8 servings.

1/2 cup butter or margarine 5 eggs

of 1/2 lemon

Marine Private Phillip Smith, son of Carol Boyer, Box 311, Mentone, has completed training at the Marine Charles Myers

Corps Recruit Depot, San Diego. A 1979 graduate of Tippecanoe Valley High School, he joined the corps in 1979.

### Scott Van Cleave

Pvt. Scott R. Van Cleave, son of Mr. and Mrs. Max J. Van Cleave, R. 1, Silver Lake, recently com-pleted a wheeled-vehicle mechanic course at the U.S. Army Training

Center, Ft. Jackson, S.C.
During the course, students were trained to perform maintenance and assist in the repair of automo-tive vehicles and associated equipment. They became familarized with the functioning of automa-tive wheeled-vehicle components, operating principles of internal

# test equipment.

Navy Senior Chief Data Systems Technician Charles F. Myers, son of Bette Utter, Box 3, Athens, recently visited Rota, Spain. He is a crewmember aboard the

combustion engines, fundamen-tals of fuel and electrical systems,

and the use of organizational and

aircraft carrier USS Nimitz, homeported in Norfolk, Va., and operating as a unit of the U.S. 6th Fleet. His ship recently departed for a deployment in the Mediterranean Sea and the port visit was made as a scheduled stop. During the cruise, she will be participating in various training exercises with other 6th Fleet units and those of allied nations. Additional port visits are scheduled in several Mediterranean

The LaVille Lancers rolled into the Tippecanoe Valley football field last Friday and ran smack into what Viking Head Coach Charlie Smith called "our best defense of the year" Lancer running backs Fietz and Rutzen could only manage 16 yards each and although LaVille's quarterback, Tim Dykstra, had one run of 40 yards, he wound up with 30 net yards on 12 carries. LaVille's option plays were taken away by Viking defenders as Dykstra was only able to pitch out once during the entire game. Dykstra passed 16 times completing 7 for 140 yards. That figure pales a little too when you consider that 95 of those yards came on one play late in the fourth quarter.

The Viking defense was led against LaVille by Bill Jamison. Jamison made 6 tackles from his defensive back position and baffled the Lancer offense by making two of those six behind the line of scrimmage. Herb King made 7 tackles and Greg Utter had 5 tackles, 1 fumble recovery, and blocked one pass. Gary McKee and Mark Shireman also turned in solid defensive performances. Shireman and McKee are currently battling for first place in tackle points for the season.

Tim Alspaugh led the offense again gaining 153 yards in 17 attempts and scoring 24 points. Greg Utter added 129 yards on his 14 carries, one of which was a beautiful 69 yard TD burst early in the third quarter.

David Rhodes only put the ball in the air 6 times but found his receivers on 4 of them. Bill Jamison caught 2 for 33 yards and one TD and Joe Harter snagged the other two for 27 yards. Harter and Jamison were each on the receiving end of two-point conversion throws by Rhodes.

Viking special teams also performed solidly against LaVille. Tim Alspaugh returned 5 kickoffs and punts for a total of 94 yards. Gilbert Martens kicked off a total of 7 times, averaging 44 yards per kick. Two of Martens' kicks were 55 yarders pinning LaVille deep in their own territory. Greg Utter maintained his TRC punting supremacy with one boot of 41 yards. Utter has only had to punt 8 times this season and is averaging roughly 39 yards per kick.

Numbers Dept.

David Rhodes has completed 41 of 72 passes this season for 874 yards, 10 TDs, and 8 of 9 PAT attempts. Joe Harter has caught 16 passes for 373 yards, 4 TDs, and 3 PATs. Bill Jamison has 9 receptions good for 207 yards, 3 TDs and 2 PATs. Jamison has also carried the ball 40 times for 268 yards and an average of 6.7 per carry. Greg Utter is averaging an incredible 9.82 yards per carry on 93 rushes. Tim Alspaugh leads the team with a total of 1,342 yards rushing on 173 carries for an average of 7.76 yards each carry. As a team, Valley has gained an average of 7.6 yards everytime the ball is carried. Scoring wise, Valley is averáging 42.55 points per game while holding their opponents to only 5.89 for an average winning margin of 36.66 points.

# Vikings take to road

"We know that we have to be prepared for North Miami, hopefully we can play well enough to get key people out of the game early. Last year, Mark Shireman was injured on a clip and a little later North Miami went after Chewy (Charles Secrist) on a clea Chewy (Charles Secrist) on a clear out. Five or six North Miami play-ers left their blocking assignments to pile on Chewy and its on the game film." Charles Smith.

The above quote by Viking Head Coach Charlie Smith should give you some idea of the emotional intensity of the annual Valley intensity of the annual Valley-North Miami football clash. This year the situation is the same as the previous two. Valley is a ta-lented powerful team that is head-ed for the play-offs and North Miami is not. The Vikings must look at this game from two diffe-rent perspectives. On the one hand, this same is a tune un for the first. this game is a tune up for the first round of the single A playoffs. On the other hand, with rough play previously a factor between these wo teams, its important to see that no one gets injured on a cheap shot. In addition to winning the game, Tippecanoe Valley has three other objectives that could help make things interesting. Greg Utter needs 87 yards to have a 1000 yard rushing season, David Rhodes needs 126 yards passing to have a 1000 yard passing season, and Tim Alspaugh need 36 points to break the all-time state single-season scoring record. Smith would like to see all three of these men reach their goals and each will probably see enough

playing time to make it.

The Warriors come into Friday's game with a season record of 3-6 after a loss last week to Triton 35-14. Up until recently, North Miami depended on seniors Tom Deniston and Kevin Hostetler at fullback and tailback for their running attack. Both players are injured and are not slated to see action against Valley. Hostetler had accumulated over 600 rushing yards prior to his injury and Deniston had managed over 300 so their absence does . North Miami has had to resort to a passing game in order to compensate for the loss of effective running. Junior quarterback Jeff Laycock, who is playing his first year of football has been throwing the ball well although he has had two bad games back to back. Last week he completed only 4 of 20 passes but still has just over 700 yards on the season. With his height Laycock gives North Miami his receivers: According to North Miami Coach Steve Bryant, Lay cock's receivers dropped several catchable balls last week so the bad game is not entirely his fault.

North Miami will line up defensively in a 5-2 set. Their lack of size is evident when you realize that their nose guard only weighs 140 pounds. The only player of any bulk along the line is 200 pound tackle Mike Peppers. The defensive ends do have fair height, one going 6'4" and the other 6'1".

Bryant, like Smith, claims to be more interested in winning the ball game than with any other records or accomplishments that may be set or denied during the course of the contest. Bryant says that Val-"is the best trapping team I've ever seen." In response to being

asked how his team intended to asked now his team intended to stop Alspaugh in his attempt for the state scoring record, Bryant re-plied, "how can you stop Alspaugh when you've got Utter and Rhodes to contend with?"

Tippecanoe Valley puts the long-

est regular season winning streak in the state on the line Friday night as well as a shot at a third undefeated season. Kick-off is at 7:30 at North Miami and how can you resist a game with so much to offer?

# Lights essential for indoor seeds

With spring and the garden season 30-40 percent, is best. drawing near, thoughts are turning to the starting of seeds for trans-plants. If you have never given this a try, consider it.

Seeds for transplants should be planted indoors 8 to 12 weeks prior to the first frost-free days in your area, says John A. Wott, Pur-due University extension home environment horticulturist.

"Transplants can actually be ec onomical, but you will need to devote some time and space to the project," says the specialist. "A section of the basement or a space bedroom where you can close the heat registers makes an ideal place

heat registers makes an ideal place. Simple fluorescent light fixtures are also needed. Fluorescent tubes take the gloom out of the sunless days of late winter and early spring.

is summer.

A good plant growing system has
4-foot reflectors painted white in-side and is equipped with two or more tubes on 3-inch centers, says Wott. Two-tube rigs concen-

trate intense light in an area about 9 x 42 inches. Researchers have found that, for most purposes, a combination on one "cool white" and one "warm white" tube works

Balancing air temperatures and light intensity is also important, the horticulturist says. Seedlings don't grow well under lights at temperatures of 68 to 72 degrees F. A range of 55 degrees at night to 65 degrees during the day, along with a relative humidity of

Seeds should be planted in flats. The higher soil temperatures needed for sprouting seeds can be created by raising these flats on blocks to within 2 inches of the tubes. After seeds have sprouted, the trays should be lowered to 4 to 6 inches from the tubes.

Ready-made seed starting and plant growing units are usually available at garden centers or nurseries, but many people enjoy con-structing their own.

Standard home or industrial light fixtures will also suffice, says Wott.

*service* 

On October 16, the home of Mary Utter was the scene of a candlelight pledge service for Penny Jones. The service was conducted by Peg Eaton, president of the Beta Epsilon Chapter of Psi

After the service, 15 members and one guest, enjoyed an evening of bridge. Pauline Riner and Iris Anderson won prizes for high scores and Judy Lafferty won the door prize.

November business meeting will be in the home of Louise Long.

These should be suspended from chains for easy raising and lower-ing. For safety, use a 3-prong grounded cord. If your wall socket

grounded cord. If your wan socket is not equipped for a 3-prong plug, an adapter will be necessary. Operating costs are low. You can burn two 40-watt fluorescent tubes 14 to 16 hours daily at a cost of \$2 per month or less. Most seedlings are under lights for two months or less, and in this time you can start a gardenful of transplants, says

Beginners should not start seeds too early, cautions the specialist. A few small pans of seedlings can produce enough transplants to fill dozens of peat pots, styrofoam cof-fee cups, egg cartons and yogurt containers. All of a sudden you have more plants than space under
