School budget passed, plans asked

The Tippecanoe Valley School Corporation's proposed 1971 budget was adopted by the board at a meeting held Thursday evening. No one was present to protest the budget.

School Superintendent Robert Forbes said the proposed rate of \$3.80 (\$2.98 for general fund and 82 cents for cumulative building fund) is the lowest of 35 corporations in the area and in the state only ten have lower rates while 270 have higher rates, when the cumulative fund is added to the total.

Ned Miller, a member of the audience, said he was not certain having the lowest rate was a necessarily good thing if the children were not getting the proper education.

Terry Erwin, a former teacher at the Mentone school, appeared to ask the board why he had not been paid the additional fee granted annual staff

directors, and after an executive meeting the board told him it would study the matter more fully and let him know the decision. Erwin said he had been named to the job by the school

principal and had worked all year with the staff.

Bids for fuel oil and gasoline were opened as was one for coal that

Banking School Graduates

Thomas M. Fugate, of the Farmers State Bank, Mentone, and J. Randall Leininger, of the Akron Exchange State Bank, Akron, were among 1,148 student bankers from 39 states and several foreign nations who have just completed the annual two-week residence session of the 26th annual Graduate School of Banking at the University of Wisconsin in Madison, Aug. 17-28.

LOMPOC, CALIF.---Captain William E. Smith, son of Mr. and Mrs. Ernest Smith of Akron, Ind., recently helped launch a U.S. Air Force Minuteman II intercontinental ballistic missile from Vandenberg AFB, Calif.

Captain Smith was a member of the Whiteman AFB, Calif., missile combat crew which fired the Minuteman II.

The launch was one in a series of operational testing missions conducted by the Strategic Air Command (SAC). The missile, selected at random from those on alert at Whiteman was transported--with its maintenance and launch crew--to Vandenberg.

The crews operated from the Vandenberg control center where they monitored the missile in an alert status. When the launch message was received from SAC headquarters, the crews reacted, launching the missile as they would from their home base in a combat operation.

Captain Smith, a 1954 graduate of Akron High School, received his B.S. degree in business education in 1965 from Ball State University, Muncie, Ind. He was commissioned there upon completion of the Air Force Reserve Officers Training Corps program. His wife is the former Carol A. Smith.

HILLIS BILLBOARDS GOING UP—One of the first billboards in the 1970 congressional campaign was erected this week by the Hillis for Congress committee backing the candidacy of Elwood Hillis, Kokomo attorney, for election to the U. S. House of Representatives in the Fifth District. The board pictured above was put up on U.S. 31, just north of the Howard-Tipton county line.

LETTERS TO THE EDITOR

Dear Editor:

The ad of the Fulton County REMC in last week's issue of your fine paper was one of the most spurious and vicious I have ever read.

It is utterly impossible to process your own beef and have T-bone steaks at 79¢ per pound.

The ad infers that markets make \$1.10 per pound profit on steaks.

If machines get too powerful, we can organize them into committees and that will do them in.

School's Open Safety Week

Youngsters in Indiana will be returning to school early in September and the Chicago Motor Club, in conjunction with Gov. Edgar D. Whitcomb, has designated a special "School's Open Safety Week."

This year, Tuesday, September 8, through Monday, Sept. 14, has been officially proclaimed "School's Open Safety Week."

Many Indiana state, county, municipal, civic, police and school officials are joining the club's 23rd annual School's Open Safety campaign. Gerald W. Cavanagh, president of the Chicago Motor Club, noted that this cooperation has been an important factor in reducing, by 50 per cent, the accident rate for children since the club founded the lifesaving School Safety Patrol movement in 1920.

As Gov. Whitcomb observed in his proclamation, "the travel of our children to and from school is subjected to increasingly hazardous conditions from which there must be greater protection. This is the 50th Anniversary of the lifesaving School Safety Patrols, a movement pioneered by the Chicago Motor Club and now international in scope; and it is essential that during the school year the School Safety Patrols in Indiana be aided by our citizens everywhere in making streets safer for our youngsters."

In observing that more than 19,000 lives have been saved in Indiana and Illinois since 1920 through the efforts of the Patrol, Cavanagh emphasized the parental responsibility for pedestrian safety.

He stressed the need for parents to educate their children in the

This is ridiculous and an insult to our local butchers. If it were possible some one in this highly competitive field would be cutting the price to at least 99¢ per pound and still have a nice profit.

Just this summer Sylvia Porter in her syndicated column reported after a thorough survey you could not save any money in processing your own beef.

This columnist reported that waste fats and bones could account for at least 70% loss in select hind quarters of beef.

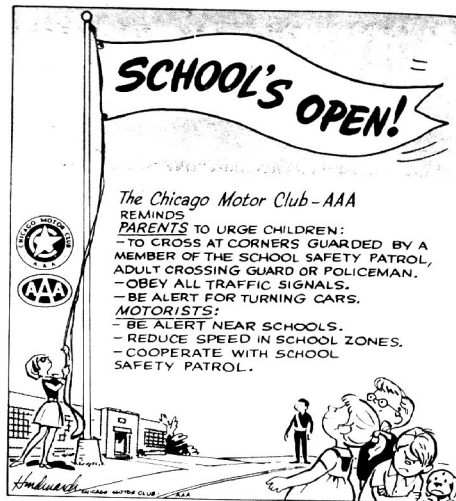

If the writer of the REMC ad could be at his local meat market and see the hundreds of pounds of suet, fat and bones carried out by the

fertilizer company he would realize how false his statements are.

We have a comparatively new federal bureau in Washington to protect innocent consumers from this misleading advertising.

I am forwarding a copy of the ad to this bureau and hope that the Fulton County REMC will have to print a correction and apology to your readers.

Sincerely,
George Clark

ODDS and ENDS

By Ann Sheetz

The generation gap at our house is filled with great bunches of knotted string, broken toys, a 12-year old collection of rubber balls, broken kites, ball bats and gloves, old magazines and catalogues, 500 piece puzzles with only 495 pieces remaining, Tinkertoys orphaned from their sets, Erector sets without any nuts, games without the instructions, science kits with only half the chemicals. We call it the toy room. Strictly off limits for adults, it was originally intended that the doors could be closed when company came and no one would have to see how we really lived. In more recent years, however, the doors haven't closed because they were needed to hold up other collections.

All generation gaps must be bridged sometime. George Washington had to tell his father who cut the cherry tree. Elizabeth Taylor has to tell her children she plans to re-marry. Admittedly less monumental that either of these, the toy room nevertheless was a gap that needed bridging and hard

hearted Mama was the one who chose to do it.

Sounding more like a drill sergeant than a loving mother, I yelled until everyone cleared the area and then dove into the accumulated debris with brooms and more determination than I really felt. Hours later, heaping baskets of broken toys, dirt, corn cobs, all sorts of thing I shuddered to think that we had given refuge to, were ready for burning, and the boys were re-invited for the carry-out detail.

Tired, dirty and disgusted, I lined them up for a chewing out that would widen any generation gap, and pointed to the toy box. "Do you see that? It's to keep toys in. Take good care of it. Keep it clean. Try to show some responsibility. I won't have to have to clean up after you." Etcetera and more etcetera with an emphasis on hysteria.

Doug, looking as concerned as a six-year old collector of junk can look, rubbed his chin and said, "That's probably true."

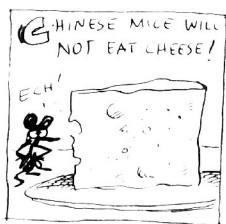

I didn't know whether to laugh or cry, hug him

or hit him, so I compromised by riding bicycle with them and thinking there must be more ways of bridging the generation gap than by cleaning and yelling.

Sounds good now, but their closet is a mess, and if I have to clean that stronghold of broken models and outgrown clothing, I fear for the delicate bridge spanning the generation gap. As long as it doesn't become an open chasm instead of a mere gap, a little yelling can't hurt that much. At least they'll know we're still paying more attention to them than to the generation gap.

TEMPE, ARIZ., NEWS: "The Doves. Ah, they are so strange! Nothing is more anathema to young people today than the military. Yet Army-Navy stores are doing a brisk business selling military apparel to them! College students...and hippies are becoming a growing clientele for surplus military gear outlets, reports The Wall Street Journal. So great is the demand that genuine military surplus has become scarce, and many stores are stocking 'imitation surplus' made in—(where else?)—Japan!"

"Well, that makes me 8 up on you -- yes, sir, there's nothing like playing with a salesman with brains!"

Our little sister village thirteen miles to the south of us, Chili, enjoyed a red letter day last Saturday. The crowd was estimated to reach possibly 8,000 to 10,000 people, the major portion of which was handled by the Winona Interurban. It was a big day for the people of Chili. It is reported that about fifty pockets were picked that day and Alex Hoover was one of the victims. Mrs. Anna Catherine Yeagley was the oldest person there. She is 83.

Last Sunday afternoon Akron citizens were alarmed again by the cry of "fire!" The stream of dark smoke ascending upward soon located the disaster. It was the little stable on W. O. Strong's property where John Kennedy lives. Men, boys and ladies hustled to the scene but all too late. The structure was doomed from the onset, together with an old buggy, a new one horse wagon and roofing tools belonging to John Kennedy. Nothing could be saved.

About one year ago Miss Helen, daughter of Mr. and Mrs. Thomas Waite, lost her finger ring in Yellow Creek lake. Then she hunted and friends assisted in hunting at the time, yet all to no avail. The ring sank in a foot of water and she had to give it up as lost. Last week the family were at the lake again, and Helen, remembering her lost treasure, waded into the water at the identical spot, refusing to accept of the idea that it was lost forever. Just a little search this time, one year after it was lost she found it. She sprang out of the water like a flash, rejoicing that she had regained the lost ring, bright as the day it fell from her hand. This is a true story and we regard it as a latter day miracle.

While Prof. J.W. Nichols and his father-in-law, A. J. Kirch, of St. Marys, Ohio, were leisurely driving along on the roads two miles east of town the other day, strangers in an auto drove up behind their buggy and tore off a wheel. Neither of the buggy occupants were hurt, and the autoists immediately put spurs to their machine and hiked out.

Deaf Man Designs Tiny Hearing Aid

OFFERS FREE MODEL

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

This small device has no dangling cords or separate transmitting units and represents a new unusual design idea in a product to restore natural hearing.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "ear-level" hearing with the wearer picking up speech, sounds, television and radio at his ear. Due to the use of transistors, the user cost is extremely low.

A true life actual size replica of one of the smallest all-in-the-ear hearing aid ever made will be given absolutely free to anyone sending in this advertisement while supply lasts. So we suggest you write for yours now. No obligation whatsoever. Write to A. J. Wilder, 809 Steuben St., Wausau, Wis. 54401. Adv.

Take your problems to Church this week — millions leave them there!

Fear Must Be Conquered

Fear is likely to be the most common reaction to that which is unknown. He that would become a deep sea diver must first learn to conquer it, for there is much that is unknown about the deep.

As fear would be a great handicap for a diver so it is for the most satisfactory and successful life. The person who learns to drive fear and resentment from his heart and mind early in life has progressed far toward accomplishing a successful life—and successful does not mean the accumulation of material things.

The Church, if used regularly and for the noble purpose for which it was designed, will help anyone cleanse his or her heart of fear and its twin companion, resentment.

Going Away Party Honors Pastor

Pastor and Mrs. Baldwin were pleasantly surprised at the close of the Sunday morning services as they were presented gifts from Wade Holloway, on behalf of the members of the church, in appreciation for the many hours of hard work that the Baldwins have done in the 5 years they have served the Akron Church of the Brethren. Just prior to this, Pastor Baldwin presented the congregation two books containing all the bulletins and special programs during the time he has served here. Kenneth Ryman accepted this gift, which will be placed in the Church library.

A farewell dinner was attended by nearly 70 members and friends. After the meal they opened their gifts; cuff links and tie clasp for Pastor Baldwin, and a silver bud vase for Mrs. Baldwin. They also received a photograph album containing pictures of the choirs, classes and many special occasions of the church during their time here. They expressed their thanks for the gifts and their opportunity to serve the church.

On behalf of the church, Lloyd Weaver expressed thanks for their service and wished them many happy years

in the future.

Norman Tinkey took pictures that the Baldwins will be able to add to their album.

The Church will welcome Pastor and Mrs. Charles Zunkel on September 6th.

was determined unsatisfactory. Bids granted were for fuel oil at 11.45 cents per gallon, Standard Oil, the only bidder, and gasoline, 23.85 cents per gallon, Standard Oil. Utter's Service, Mentone, bid 24 cents. Both bids in-

cluded eight cents tax. The board approved the purchase of a site in the Saner addition at Akron for this year's building trades class to build a house. Also discussed was the possibility of closing the road between the school buildings at Akron from 8:30 a.m. until 3:30 p.m.

Board members voted

to advertise for the conversion of the heating plant to Akron to natural gas and executed a quit-claim deed to the land at the site of the former Beaver Dam school house to the Beaver Dam Community Corporation.

Arnold Shepherd's name was approved as a possible bus driver.

Board members voted to hire Frederick Rakestraw of the Chipman, Chipman and Rakestraw Law Firm, Plymouth, as the school attorney. He will attend meetings and will be paid \$25 per hour.

Nelly Robinson was hired as a library aid at the Mentone school.

The last item of business, "Other Business", saw Richard Goshert, the board member who advocates a single high school for the corporation, challenge his fellow board members to do "something" about the problems that have existed since the Beaver Dam school was destroyed by fire, saying, "Classrooms are grossly overcrowded, high school curriculum is incomplete, teachers are teaching

out of their subject areas, and operation costs are too high under the present system."

Board President Ralph Davis said he did not wish to comment and Dr. Donald VanGilder said he thought people had "spoken loud and clear" in the past two elections that they preferred to continue the present two school arrangement with high schools at Mentone and Akron.

Maurice Coplen said he favored retaining two schools but said he was not satisfied with the present conditions at Akron and Mentone and agreed the board should be on the move, and he then made a motion that was seconded by Dr. Van Gilder that the superintendent be instructed to prepare several proposals for future expansion that the board could study.

Forbes said that since the board has resumed its two-school policy on July 1, he was bound to this policy and any plans would have to be for a two-school arrangement. He also stated the situation was more acute at Akron and that additions to the present buildings were not the answer.

Previously, state departments have denied requests by the corporation that did not call for a single high school.

In the discussion that followed on building new facilities for 10, 11 and 12 at Mentone and Akron or a new middle school, board members agreed they should have a more flexible plan to present to the state which must approve the building plans.

Local Counties Low In Voter Percentages

Fulton county ranked 36th and Kosciusko county ranked 68th among Indiana counties in the percentage of registered voters who cast ballots in the May 7 primary election this year, according to a survey taken by the Indiana State Chamber of Commerce.

The unofficial survey, compiled with the assistance of county clerks

and from newspaper accounts, showed 1,285 Democratic ballots cast in Fulton county and 2,421 Republican ballots for a total of 3,706 or 36.01 percent of the registered voters.

The survey showed 1,723 Democratic ballots cast in Kosciusko county and 5,572 Republican ballots, for a total of 7,295 or 28.30 percent of the registered voters.

Statewide results showed the total primary vote to be 786,313, far below the record total of 1,179,607 set in 1968 and even below the 1966 primary vote of 877,509. The aggregate percentage of voter participation was 28.32, the worst in 20 years since the State Chamber first began the survey in 1950.

Figures show that almost 72 out of every 100 registered voters stayed away from the polls on May 5.

Fulton Co. Measles Immunization Set

October 1 will mark the beginning of a campaign in Fulton County to protect expectant mothers against one of the most feared killers and cripples of unborn children German measles. Clinics at the schools throughout the county will offer vaccinations to all children between the ages of 5 and 12 years. The campaign is being sponsored by the Fulton Co. Health Department and the Fulton Co. Medical Society.

In recent years, German measles has probably afflicted more children than have scarlet fever, polio, regular measles,

chickenpox and mumps combined. Infants and young school children (from kindergarten to fourth grade) are the most common spreaders of the disease. Mass immunization of children is crucial to the success of the campaign.

German measles is usually a mild, easily treatable disease. But when it attacks women during pregnancy, often its effect on their unborn children is tragic. In addition to miscarriages and infant deaths, it can cause blindness, deafness, brain

Something Worth Thinking About

A reader found this wonderful article by Hal Southern, and we are pleased to share it with our readers:

Some day in the not too distant future, historians and scientists will look at the physical and written remains of our present-day civilization and shake their heads in total disbelief, unable to comprehend how an advanced culture such as ours could totally disintegrate in a mass of crime, social strife, wars, welfarism and total lack of involvement of the people in their own destiny.

You would think, that in our present state of confusion, both national and international, we would take heed of the lessons of history. History does repeat itself and we are going through a phase of permissiveness, self-gratification, racial disintegration, violence and moral destruction that can only lead to self-destruction on a scale unparalleled in history.

Isn't it about time we stand up and be counted? Do we want the kind of a country where it is considered square to be patriotic, stupid to be honest, insane to follow the Golden Rule, where you are considered Establishment if you work hard, raise a family and pay your bills? Is it wrong to be clean, literate, thrifty and have a short haircut? Is it wrong to like country music, tunes that have a melody, lyrics that say "I love you," rhythms that want to make you dance with a partner, or are we square because we don't like ear-shattering, wild, psychedelic sounds with obscene lyrics and clothes to match?

This nation wasn't made great by unwashed lazy hippies, crybaby welfarism or racial minorities begging for a handout. This nation was built on the honest hard work, thrift, guts, desires and needs of

Irish, Jew, Negro, Mexican, Chinese and endless other people. Common people who had the guts to be uncommon, people of all races, creeds and nationalities, people with one common bond—freedom. In their hearts they must have known that America was the last stand for the individual, the last chance to justify man's existence on earth.

Is it wrong to ask that our communications media be a little more impartial in its treatment of things patriotic? All too often, it seems that some radio stations, for instance, will not play anything they label as patriotic or controversial, but will turn around and play protest and anti-establishment records all day long. Is it controversial to say on record that you like being an American, are proud to be an American and that you will fight to the death for the chance to continue being an American?

Why should Capitalism, Free Enterprise and Conservatism be dirty words? Is it so wrong to want to make a profit on honest endeavors? What is wrong with making money and reinvesting it in a strong America? This great nation wasn't built on a cradle-to-the-grave philosophy, nor will it survive with the government always acting as a big brother. Remember, Uncle Sam is your uncle—not your Dad!

Well, I insist on being counted. I'm four-square for Mon, Apple Pie, the Bible and the Flag. I'm for free enterprise, capitalism, do-it-yourself guts, less government in private enterprise and, last, but never least, I'm for freedom, a kind of freedom the whole world envies, a freedom that makes people all over the world risk their lives to achieve, a freedom that allows us the strength to have in-

scribed on the Statue of Liberty:

Give me your tired, your poor,

Your huddled masses yearning to breathe free The wretched refuse of your teeming shore.

Send these, the homeless, tempest-tossed to me.

I lift my lamp beside the golden door!

Do Unto Your Child As You Would Have Him Do

This list that was prepared for the Concord Community Schools originally appeared in the Association for Childhood Education International, 1966, and gives food for thought for us parents who seek to have our sons and daughters become men and women of character and integrity.

KINGSBURG, CALIF., RECORDER: "The realization is rapidly growing throughout the country that all the nation's domestic ills cannot be solved by Washington, but this realization apparently has not yet dawned on many college teachers and authors of textbooks." This is a conclusion of a 26 member Advisory Commission on Intergovernmental relations which issued a report on 'Federalism and the Academic Community.' The report covers political science courses offered in colleges and universities throughout the country. The survey concluded there is an urgent need for colleges to reexamine political science programs and to strengthen curriculum in local government, state government, and intergovernmental relations.

If a child lives with FAIRNESS, He learns justice. If a child lives with SECURITY, He learns to have faith. If a child lives with APPROVAL, He learns to like himself. EDITORIALS

Very shortly—October 4 to 10—the U.S. will observe National Newspaper Week. The theme this year will be, "American Newspapers—200 Years of Freedom—1770's to 1970's." Just to read those words denoting the theme of Newspaper Week should be enough to warm the heart of Mr. Average U.S. Citizen. During the year, editors duly take notice of many worthy and memorable observances. But, they cannot be blamed for calling attention, with a certain degree of pride, as well as humbleness, to their own special Week.

The fact that after 200 years personal liberty under representative government still prevails

is due, in no small part, to the "eternal vigilance" of a free press. The community newspaper—and there are over 10,000 of them—is an institution that lends permanence and tangibility to individual rights as nothing else can. Every nation has its national observances. In most, however, there is no occasion to celebrate a National Newspaper Week. Where there is no free press, the less said about the newspaper, the better. Yes, National Newspaper Week is a heartwarming reminder that we have lived in freedom for 200 years and that the community newspaper has played no small role in preserving that freedom.

When a car is pulling away from the curb, a motorist about to park in that space should wait behind the car and not in front of it, says the Chicago Motor Club. By waiting in front of the space, a motorist forces the driver pulling away to cross the center line or to enter the fast moving lane of traffic before he reaches a safe speed.

60 YEARS AGO

Akron turned out about 150 people last Friday evening and sent them to Mentone to help boost the splendid homecoming of Mentone friends. The Citizens band went along on the special car furnished by the Winona people and who assisted materially in the Mentone band concert. There was nothing particular on the program for the night, excepting the concert and the fireworks, and the great crowds enjoyed the evening marching back and forth on the splendid sidewalks, and taking a turn once in a while on one of the merry-go-rounds, eating popcorn races, candy and taking a "soft" drink at the town pump. Mentone is a lively town, filled up with good people and a set of business men united in one common band to boost their town commercially and socially. We are glad to have been there and to meet so many of Mentone's people. A prominent feature of the well-attended event was the catching of a wild pony. But they failed to get it. Another prominent feature was the bull fight. Not a bull was on the ground, but men concealed in cattle hides done the fighting and furnished the fun.

Messrs. Charley Davis, Justin Curtis and A. A. Gast have purchased a silo filler with which they will fill their silos this year with the growing crop of corn. It is a pretty expensive machine and has power to throw the corn and stalks after it has it chopped into small pieces, up a distance of thirty or forty feet over the top of and into the silo.

Meet Ford's new Pinto. The little carefree car.

If you have the questions, Pinto has the answers.

Q. What do you mean, "carefree"?

A. Pinto's designed to free you from car cares, big and little. Cares about high prices and big gas bills. Cares about parking. Cares about service and reliability. Power and stability. Quiet and roominess.

Q. You say Pinto is little. How little?

A. Pinto is only 3 inches longer than VW. But its turning circle is actually a little less, so Pinto can slip easily into tight parking spaces.

Q. And inside?

A. Pinto gives you more interior roominess overall than Volkswagen. And getting in and out is easier because Pinto's doors are a good half-foot wider.

Q. What about price?

A. Pinto is priced like the little economy imports, too.

Q. What about power?

A. Pinto delivers 75 horsepower and averages over 25 miles per gallon in simulated city/suburban driving. The engine is front-mounted and exceptionally quiet for a car in this class. Pinto is the only American economy car equipped with a 4-speed, fully synchronized transmission at no extra cost.

Q. What else is standard equipment?

A. High Back bucket seats. Direct-Aire ventilation with upper-level fresh air outlets. Heater/defroster with 3-speed fan. Two-speed electric windshield wipers. Electric windshield washers. Your choice of 15 exterior colors. And more.

Q. How about optional extras?

A. Pinto offers a 100-hp engine and 3-speed automatic transmission. Front disc brakes. Even built-in air conditioning. Tinted glass. Vinyl roof. "Flipper" rear quarter windows. Fold-down rear seat. Bumper guards and side molding with vinyl inserts to protect the paint. More than most imports offer—at prices economy-car buyers can afford.

Q. Reliability?

A. Pinto's engine has already logged 50 million owner-driven miles. And the strength of some of Pinto's parts makes ordinary little economy cars look puny by comparison. Parts like the starter motor, ball joints, rear wheel bearings are heavy duty. Craftsmanship? Pinto is the only American car with hand-matched transmission gears.

Q. What's Pinto like out on the road?

A. Pinto has a wider stance than any economy import, for better stability in turns and gusty crosswinds. For more road feel, and more

precise handling, Pinto has rack & pinion steering—like Porsche and Jaguar—something you won't find on any other American car.

Q. Tell me about service.

A. Pinto is so simple you can do much of the maintenance yourself, if you like. The Owner's Manual shows you how. And Pinto's free Do-It-Yourself Key helps you perform minor service functions.

Q. Suppose I don't service Pinto myself?

A. You still save when your Ford Dealer does it. For example, Pinto needs an oil change half as often as the leading import. And a chassis lube only one-sixth as often.

Q. Sounds great—where can I test-drive Pinto?

A. Your nearest Ford Dealer. And if you have any more questions, he can answer them.

It Happened In Mentone

Taken from Sept. 6, 1939 issue Northern Indiana Co-op News.

From a modest beginning in April 1931, the Northern Indiana Co-operative Association has grown to a point where it is virtually impossible to manufacture enough Banner Mash in twenty-four hours to serve their customers in the same period. For months they have been operating a night shift but have found that this has not solved the problem. After due consideration, the Board of Directors has decided to build a new elevator between the present elevator build-

ing and the hardware building. The structure will be 36' x 40' and will contain the latest milling equipment available. Banner Mash will be made here exclusively, and all custom work will be done at the old elevator. General Manager, Oliver Teel, stated that the changes and improvements would be completed before the first of next year.

Sam Blue, son of Mrs. Orpha Blue, is expected to return to his home this week for a brief visit before resuming his studies at Indiana university law school. He has been employed at Yellow Stone National Park this summer.

Miss Orpha Davis, daughter of Mr. and Mrs. Chas. Davis of near Warsaw, and Mr. Earl Leedy, son of Mr. and Mrs. Boyd Leedy of Warsaw, were quietly united in marriage Saturday afternoon at the home of Rev. King in Warsaw.

Fall Is Time To Kill Weeds

Fall is the best time for general treatment of lawn seeds, says Lawrence L. Hoyle, Area Extension Agent in Landscaping. When the weeds are killed in the fall, lawn grasses fill the vacant space before crabgrass germinates the following spring. Also, desirable plants susceptible to 2, 4-D injury (most flowers, vegetables, shrubs and trees) are less likely to be injured in the fall than in the spring or summer, he says.

Some broadleaf weeds are not killed with 2, 4-D. These are ground ivy, Common chickweed, meadow chickweed, mouse-ear chickweed, white clover, wood sorrel, and yarrow. Such lawn pests are more sensitive to 2, 4-D and silvex. If you have these weeds, use 2, 4-D and silvex at the rate suggested on the container label.

Annual grasses are those that must grow from seed each year, points out Hoyle. Crabgrass, foxtail, barnyardgrass and goosegrass are annual grasses found in lawns. Herbicides that control crabgrass usually give some control of the other annual grasses.

Pre-emergence herbicides should be applied before crabgrass first germinates. This is before April 10 in Northwest Indiana.

Materials containing Azak, Bandane, Benefin, Betasan, Dacthal, and Tupersan have controlled crabgrass in several years of study. Betasan is the safest of the materials to use on bentgrass turf.

Purdue Courses Offered At Warsaw

Registration for Purdue University college credit courses in Warsaw will be conducted in the commons area at Warsaw Community High School on Wednesday, September 16, at 6:30 p.m. Classes will begin Monday, September 21. Officials have noted that an increase in operational costs will make it necessary to have an average of seventeen students in each class to offer a course. The continuation of the program at Warsaw will be determined by the fall registration.

Courses given this fall include Unit Record Data Processing on Monday evenings, elementary psychology on Wednesday and English composition on Tuesday.

Three additional courses will be offered in the spring: Introduction to Literature, Child Psychology and Industrial Supervision.

The evening classes offer area residents an excellent opportunity to earn transferable college credits with a minimum amount of time and money. Course costs are \$20 per credit hour, and most courses are three credit hours. Students may enroll in all three courses if they so desire.

Anyone desiring to enroll for the college courses must be present for registration on September 16. Additional information may be obtained by calling Wm. Crosier, co-ordinator of the Purdue Extension program in Warsaw, at 267-5174.

Fish Eradication Program To Begin At Silver Lake

A fish eradication program at Silver Lake and North and South Little lakes on Sept. 22 has been announced by Rick Peterson, State Fisheries biologist for fish management in District 2 in Indiana.

The eradication program will consist of applying a chemical called Rotenone to the surface of the lakes that will render the fish unable to use the oxygen in the water. The fish will start dying about one half hour after the chemical is applied. The chemical is 100 percent effective and all the fish in the lakes will be killed.

According to Peterson the water will remain safe to drink and for swimming. The chemical has no effect on humans or any animals except pigs. If pigs drink water containing this chemical they may become very ill or die. Humans plants and animals are not affected by its presence, however.

The fish that die off will be safe to eat if they are washed off and Peterson said anyone is welcome to collect the fish as they die and take them home, up to the legal limit.

The lake will be restocked, according to Peterson, this fall with large mouth bass and next spring with bluegills and other game fish.

The reason given for the eradication is an overpopulation problem with crappies that was first noticed by state biologists in 1965. At that time they assumed the problem might be corrected by nature but further tests in 1969 revealed that the problems had increased and was resulting in an overpopulation of stunted

crappies, carp and gizzard shad and cutting out other fish. In order to eliminate the un-

desirable species and allow bass and other game fish to grow, all the fish had to be eradicated, Peterson said.

CHEVY'S NEW LITTLE CAR IS OPEN FOR BUSINESS.

We call it Vega.
We also call it "the little car that does everything well."
Because it does.

Everything? Everything.

Vega moves well, stops well, steers well, rides well, handles well, responds well, passes well, travels well, parks well, wears well, and is priced well under what you'd expect to pay for such a talented little car.

In our highway tests, Vega has been getting gas mileage in the neighborhood of the little imports, which isn't a bad neighborhood.

Yet unlike your average little car, ours steps right out when you step on the gas.

The engine is a specially designed overhead cam four with a lightweight aluminum alloy block. It turns slowly and quietly at turnpike speeds, with power to spare.

Disc brakes are standard in the front. So are bucket seats, except on the truck.

How we doing so far?

Numbers speak louder than words.

The wheelbase is 97 inches.
Total length is just under 170 inches, or nearly four feet shorter than a full-size Chevrolet.

Height of the coupe is just 50 inches, nine inches lower than the leading import.

Width: a nice stable 5½ feet.
Weight: 2,190 lbs. for the sedan.
Engine displacement: 140 cubic inches.

Fuel economy: about 25 mpg, with the standard engine and transmission, in our highway tests.

Horsepower: 90. You can order 110. (80 and 93 hp, SAE Net.)
Seating capacity: 4 adults.

What it all adds up to is a lot of little car.

Three cars and a truck.

Vega turned out so well that we couldn't turn out just one.

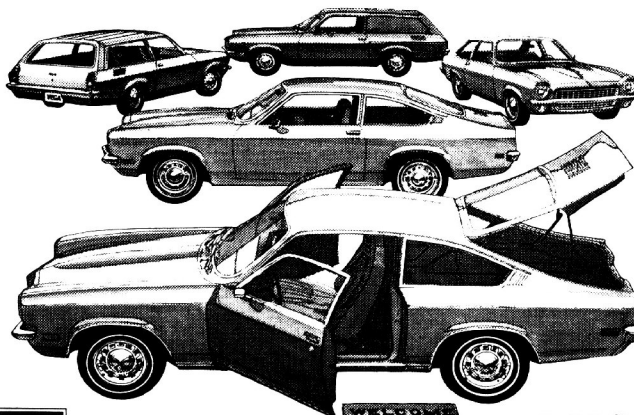

So we're turning out four: the sporty little hatchback coupe shown open and closed in the foreground below; the sedan, on the right; the Kamback wagon, on the left; and the little panel truck, in the rear.

Oh, and a special GT version of the coupe and wagon which we'll show you later on.

September 10th is Opening Day.

All 6,300 Chevrolet dealers are handling Vega, so you shouldn't have to go very far to see and drive one.

Chevy's new little car is open for business. Look into it.

News Of Interest To Homemakers

by Ann Hancock, Area Extension Agent
Kosciusko County *

The Panel of American Women

"Children are not easily put off with vague answers—not when they can flip a switch and see the reality of war, hunger and hate. Brotherhood takes on a new dimension today." This statement was made by a member of the Panel of American Women. The panel is composed of "just women", most of them housewives. They do not quote statistics or national trends. They talk frankly from their hearts concerning such problems of today as racial and religious prejudice, inter-marriage, crime and drugs. The panel is made up of women representing the Catholic, Jewish, Negro and White Protestant viewpoint. The purpose of the panel is to get people to think. "If you're not part of the problem today, you're a part of the solution," stated one of the panelists. "Think about that."

HEAR: The Panel of American Women, Monday, September 28, at 8 p.m. at the Women's Building, Fairgrounds. Donations 50c. Sponsored by the Extension Homemakers of Kosciusko County.

COUNTY CHORUS: The first meeting this fall of the County Chorus will be held September 14 at 7:30 p.m. at the R.E.M.C. Building. They will meet the second and fourth Tuesdays.

PARTY DECORATIONS: A mistake was made in last week's announcement of the Party Decorations special interest lesson. It will be held on Sept. 23 only from 2 until 8 p.m. It will not be held on the 22nd and 23 as was stated last week. It is open to the public. Come and get some ideas for decorations.

DATES: September 9, Achievement Committee meeting, 1 p.m. at the Women's Building.

September 14 and 15, Homemakers Camp, Camp Mack, Milford.

September 16, President's Council, registration, 11:15 to 11:45 Women's Building.

September 21, Knitting Orientation meeting, 8 p.m., Women's Building.

September 23, Party Decorations Special Interest lesson 2 to 8 p.m., Women's Building.

September 28, Panel of American Women, 8 p.m., Women's Building.

BISCUIT ROLLS: Makes about 3 dozen rolls
3½ to 4½ cups unsifted flour, 1 tablespoon sugar, 1½ tsp. salt, 2 tsp. baking powder, 1 package active dry yeast, 1 cup milk, ½ cup water, 2/3 cup shortening. In a large bowl thoroughly mix 1½ cups flour, sugar, salt, baking powder and undissolved active dry yeast.

Combine milk, water and shortening in a saucepan. Heat over low heat until liquids are warm. (Shortening does not need to melt.)

Gradually add to dry ingredients and beat 2 minutes at medium speed of electric mixer, scraping bowl occasionally. Add ½ cup flour, or enough flour to make a thick batter. Beat at high speed 2 minutes, scraping bowl occasionally. Stir in enough additional flour to make a soft dough. Turn out onto a lightly floured board; knead about 20 to 25 times to form a round ball.

Roll dough out to 1/2 inch thickness. Using a 2-inch biscuit cutter, cut dough into circles and arrange in 3 ungreased 8-or 9-inch round cake pans. Cover; let rise in warm place, free from draft, about 1 hr.

Bake in a hot oven (400°F) about 20 minutes or until done. Remove from pans and cool on wire racks. Best when served hot.

"Fall Is Color!"

Every season has its special colors and believe me, Fall 1970 is no exception. As the American designers see it, the colors to wear are rusts, browns, beiges, red-browns, and on through red-purples. Every one is vibrant. The fabrics are fabulous—textures and tweeds that are beautifully suited to the new mid-length. It feels like fall just to look at them, as I did recently at the American Designers' Show in New York.

Now where does your makeup fit in? The transition can be as gradual as you'd like it to be. But color is on its way! Many new lip and nail shades are transparent, which means that the color is soft, subtle and totally flattering. The shade that looks like 1920's ruby red in the tube is actually just a glistening bluish of color on your lips. Try it, and I think you'll find it's totally right for you, now.

Your eyes, too, must be accentuated as you go into fall. Try the new smudge effect—rich brown or deep plum shades applied over eyelids and up, extending out along the crease. You can even experiment with that same smudge underneath your lower lashes. Extend blusher from side of nose to temples. Practice until you've found your own interpretation of today's new way with color. Glamorous, elegant—what a great way to face fall!

Work without vision is slavery. Vision without work is a daydream. Vision with work equals success.

Corned Beef Sparks Salad

Hearty and flavor-rich, the lean corned beef that comes in cans gives a decided lift to salads, making them fully satisfying main dishes with a bonanza of flavor.

Here is a handsome molded salad that combines the flaked meat with a delightfully seasoned blend of tomato soup, cream cheese, celery and mayonnaise. It's a luncheon main course *par excellence* when accompanied with tender hot rolls and iced tea or coffee, and followed with fruit-sauced cake squares.

Corned Beef Salad Loaf

2 envelopes unflavored gelatin
½ cup cold water
1 can (10¼ oz.) condensed tomato soup
2 pkg. (3 oz. each) cream cheese
1 cup mayonnaise
1 tablespoon Worcestershire
¼ teaspoon garlic salt
1 can (12 oz.) corned beef, unchilled
1 cup finely chopped celery

Soften gelatin in cold water. Add soup; heat over low heat until gelatin is dissolved. Beat cream cheese until light. Gradually beat in hot soup, adding about ¼ cup at a time, until smooth. Blend in mayonnaise, Worcestershire and garlic salt. Chill until mixture is the consistency of unbeaten egg whites. Coarsely flake corned beef; fold, with celery, into gelatin mixture. Turn into 1½ quart mold or loaf pan and chill until firm. Unmold and serve on lettuce; garnish as desired with chilled fresh vegetables: cucumber slices, cherry tomatoes, whole green beans, etc. Makes 6 servings.

Have A Bright Future - Even In The Rain!

You can actually look forward to those cloudy skies in the bright and lively look of this year's rainwear. The new line is really "wild" and most interesting are the animal prints, outstanding in design and color, which remind us of tigers and zebras.

These easy-wear, easy-care coats show a variety of lengths, colors and materials — there's a style to fit every personality and occasion.

You will see new interest added in the rounded collars, large patch pockets, and wide belts. The apron and shield fronts are especially eye-catching.

Roudebush Urges P.O.W. Release

U. S. Rep. Richard L. Roudebush (R-Ind.), Republican nominee for the U.S. Senate, today endorsed Project P.O.W., a petition-signing program to demand release of U.S. Prisoners of War in Vietnam.

Congressman Roudebush said: "The purpose of Project P.O.W., being conducted nation-wide, is to obtain millions of signatures on petitions to present to the Paris Peace talks on October 7th. This action may not cause the North Vietnamese to release our boys, but it will show the determination of the citizens of this country in support of our troops.

We daily hear of the inhumane treatment that

over 1400 of our brave American fighting men are receiving in the steaming jungles of No. Vietnam as prisoners of war. Whether Hoosiers agree with the Southeast Asian Policy or not, we do support our fighting men. And we demand humane treatment being accorded to them by their captors.

The Veterans of Foreign Wars is declaring the week of September 20-26 as 'V.F.W. Freedom Signature Week.' I strongly hope the many mayors of Indiana will declare this week as 'Freedom Signature Week' and I also urge all Hoosiers to support this effort."

Roudebush is a Past National and State Commander of the V.F.W., and has been a strong supporter of Veterans legislation in the U.S. Congress the past 10 years.

Dairymen Told School Milk Program Will Be Continued

More than 20,000 dairy farmers from 20 states saluted Clifford Hardin, secretary of agriculture, with a standing ovation Friday night at the Chicago Stadium when he announced that the national special school milk program would continue. Hardin, speaking at the first annual meeting of Associated Milk Producers, Inc. (AMPI), said that the Nixon administration, just hours earlier, authorized approving the full \$104 million to provide milk for the nation's school children this year.

The news came as a relief to AMPI members, since the Nixon administration drastically cut Congressionally approved spending for the school milk program a few months ago.

A total of 23,500 dairy farmers and their families from the Gulf of Mexico to the Canadian border arrived in Chicago on Friday in 58 chartered planes, 346 chartered buses, six special trains, plus private transportation to attend the convention of the one-year old cooperative. The consolidation of around 40 cooperatives makes AMPI the largest milk marketing cooperative in the nation. The Chicago convention is the largest group of farmers, representing a single commodity, to ever gather in the history of American agriculture.

Speakers at the meeting included Sen. Edmund Muskie, Col. Jack Reilly, Chicago's director of special events, and William Knox of Ft. Atkinson, Wis., editor of Board's Dairyman. A message was received from President Nixon in which he said he hopes to meet soon with board members and representatives of AMPI at the

Social Security Aids Students

Over 7 million young Americans age 18 to 22 will return to classrooms this fall. Social security benefit checks will be going along with more than 500,000 of these students, Don R. Zimmerman, Social Security District Manager in So. Bend, said recently.

These 500,000 students receive cash social security payments totaling some \$45 million each month. They are the dependent children of workers who have retired, died or become severely disabled. Their student benefits continue until they turn 22 if they remain unmarried and in school full time.

As a matter of fact, Zimmerman added, social security benefits paid to students add up to more than the scholarships at all the colleges and universities in the country.

"Too often, many families look at social security as a program that provides money only for retirement. But, last year, more than a quarter billion dollars a month was paid in benefits to nearly four million children, from pre-schoolers to college seniors," the district manager said.

If a student believes he may be eligible for benefits, he should apply at the South Bend Social Security office. He will need to supply the following information: name and address of the school, date of attendance during the past year (for any retroactive benefits), any student identification card, number of credit hours carried (for college, junior college and university students), number of clock hours scheduled to attend (for high school or vocational school pupils), and date of return to school full time (if near the end of the current school year).

Daily World Attacks Roubidush

Congressman Richard L. Roubidush, Republican candidate for the U. S. Senate, this week commented on the recent article in the communist newspaper "The Daily World" that attacked Roubidush for his stand against communism. The article (Aug. 19, 1970 issue) criticized Roubidush for being on the House Internal Security Committee and made light of F.B.I. Director J. Edgar Hoover for lauding Roubidush on his "anti-communist work."

Roubidush opposes aid to communist countries and believes that our Internal Security laws should be tightened, a stand attacked by the Daily World.

The Daily World, on the other hand, lauded the record of Roubidush's opponent.

Roubidush said, "It is common knowledge that communism's main goal is world domination—a philosophy that is incompatible with the beliefs of all of us who cherish our freedom so dearly."

"I introduced H. R. 14864, which passed the House. The purpose of the bill was to stop known communists from working in our strategic defense areas. I also introduced H.R. 14893 a measure which would not allow people from this country to travel to Cuba to help harvest the sugar cane crop," Roubidush said. "And I will continue to oppose a philosophy of government that condemns religious worship, free enterprise and individual freedom, as I am sure the great majority of Hoosiers oppose such a philosophy."

"Until the communists are willing to sit down at the negotiating table in Paris and resolve the South East Asian conflict with meaningful negotiations; and until we get word that North Vietnam is treating American prisoners of war more humanely, they will continue to hear strong opposition from Roubidush," he concluded.

dist Church was given in memory of Ernest H. Branning by Mr. and Mrs. Karm Grimm, Pittsburg, Pa., and Mr. and Mrs. Zanna Hammer, Mentone.

Mr. and Mrs. W. E. Fowler, Mentone, are understandably proud of their beautiful flowers. Last week they found a stalk of phlox with one lavender and one white bloom and think surely it must be unusual. It was pretty too!

John Miner lost the Republican nomination for sheriff of Wabash Co. but his wife will be on the ballot this fall as the Democratic candidate for the office.

Junior Miss Contest Open

Character, personality, intelligence, talent and poise are the qualities that will be used as the basis for selection of Warsaw's Junior Miss. Judges are now being selected to evaluate the contestants on this criteria, according to the Warsaw Jaycees.

Senior girls in Kosciusko county are eligible to participate. They will be contacted by Warsaw Jaycee representatives to familiarize them with the program. The Warsaw Junior Miss Pageant will be held at the Wagon Wheel Playhouse on September 19. Playhouse manager Tom Rowland will direct the stage production of the pageant which will feature the local contestants.

An orientation tea will be held September 13 at 3 p.m. at the United Telephone Co. building, U.S. 30 East, to familiarize the girls with judging procedure and the week's schedule of events. All high school senior girls in Kosciusko County are invited to participate, and everyone is invited to attend.

Your Gas Bill Will Stink

Your service bill from Northern Indiana Public Service Company will literally stink this month. The September bills contain a special edition of the company's monthly insert "Kupplings," which explains the uncommon odor of natural gas and its significance to the customer.

The company emphasized that a sample of the odorant is contained in the insert and not natural gas itself.

damage and malformations of the heart, bone and liver.

A National Foundation-March of Dimes report estimates that in the last (1964) major epidemic, German measles caused abnormal pregnancies in 50,000 women, killed 30,000 unborn babies. The 20,000 who survived were afflicted by a variety of birth defects.

"Epidemics usually occur six to nine years apart," according to Dr. B. K. Stinson, Fulton Co. Health Officer, "so another should be on its way soon. This time, though, thanks to newly developed vaccines, we can help prevent a repetition of the 1964 tragedy." He added that medical authorities stress that the mass immunization of children is by far the most effective way of achieving that result.

The exact dates of the school clinics will be announced later.

Sewer Construction Begins At Akron

Construction of Akron's sewage treatment plant began Monday, thus ending 46 years of discussion regarding the need of such a system.

Merrill Kendall, clerk treasurer, said he had been told the State Board of Finance had approved a \$60,650 grant Friday. The Town Board had previously received a \$121,300 federal grant and had sold \$315,000 in bonds to pay for the \$496,950 project.

Kendall said the work would be supervised by Mr. Lally, an engineer from Michigan City, who will ascertain that all construction is according to specifications.

Other Indiana towns receiving state grants were Elkhart, Fortage, Ossian, Butler, Colfax, Atlanta, Avilla, Clayton, Lagrange, Oxford, Waynetown and Wolcottville. The grants ranged from Lagrange's \$3,875 to Elkhart's \$1,075,000.

Goshert Named Council Vice-Chairman

Richard L. Goshert, Claypool, appointed last year by Governor Edgar D. Whitcomb to the Indiana State Advisory Council for Vocational and Technical Education, has been elected vice chairman of the Council.

As a member of the Advisory Council, Goshert has participated in hearings around the state

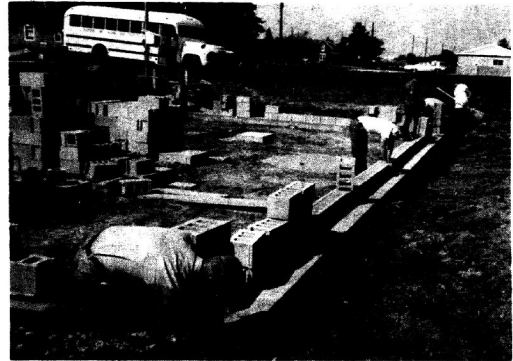

held during the past year to determine the effectiveness of vocational education programs underway and to identify the need for additional programs. The 16-member Council will submit its report on October 1 to the U.S. Commissioner of Education and to the National Advisory Council Appointed by the President.

Goshert, vice president of the Burket Elevator, is a member of the Tippecanoe Valley school board.

Demo Candidate For Superintendent Of Public Instruction To Speak At Kewanna

The Democratic candidate for State Superintendent of Public Instruction, John Loughlin, will speak in Kewanna Monday, September 21.

Loughlin, known for

BUILDING TRADES, a three-year old course in the Tippecanoe Valley School Corporation, is popular with the students and with residents of the area who can follow construction of a house from the foundation to finished product. This year's classes have already begun work on a modern ranch-style home in the Saner addition at Akron. Under the direction of teacher Raymond Pontius, the house is the combined effort of Mentone and Akron students. Mentone has the morning session with Akron students working in the afternoon. This is the second year that students from the two schools have combined forces in erection of a house. The first year of the course saw construction of houses at both Akron and Mentone, but the school board has determined that more of the actual work in building a house can be done by the students if only one house is built. Also added last year was the auto mechanics class, which is taught at Mentone in the remodeled bus shed. Akron students attend this class in the morning and Mentone students use the facility in the afternoon. This arrangement allows for the transfer of students between the schools and utilization of the same tools and facilities by both schools.

WINS SILVER TRAY: Miss Sharon Harrold was the winner of the 1970 silver tray that is awarded by the Indiana Angus Auxiliary. The tray is awarded on the basis of showmanship, placings at cattle shows and ownership of Angus cattle. The entrants achievement records in 4-H and school and community activities are also evaluated. The tray was presented to Sharon at the Indiana State Fair by Mrs. Walter Harner of Washington and Mrs. Russell Thompson, Bloomfield.

his statement, "The office of State Superintendent of Public Instruction should be removed from the battlefield of partisan politics," will address a meeting of local citizens in the Kewanna gymnasium at 8 p.m.

Loughlin has taught mathematics in So. Bend for 13 years and holds a master's degree in secondary education from Indiana University. As a State Representative in the 1969 General Assembly, Loughlin was voted Outstanding Freshman Democratic Legislator.

We Get Letters

Dear Madam:

I was really saddened today learning of the death of Ware W. Wimberly, the inactive minister of the Wabash Presbyterian Church. Just recently I received a pleasant and interesting letter from him in reply to some information I had asked for. The memories of this church, my fellowship and association was and is very precious to me.

Dr. Charles Little ministered there in his forty-ninth year when he passed away. He baptized me. For twenty three years from childhood I attended services in this church. My uncle Clarence E. Fowler also delivered many sermons at this church.

Of the founders and original members consisting of seven members five were of the "Fowler Family." My great-grandfather Isaac Fowler was an ordained elder in the Presbyterian Church. These same Fowlers organized the first church in Rushville, Indiana, coming there from Virginia, later settling in Wabash territory. Thanking you so very much.

Accident Report

On Friday evening, a southbound car driven by Mrs. Virginia Tyler, So. Bend, was hit from the rear by a car operated by Donald B. Caldwell, Akron. The accident occurred on Main Street in Rochester near Seventh as Mrs. Tyler was slowing for traffic ahead of her, police said. Caldwell was charged with following too closely and was cited into Rochester City Court on Sept. 21. Damage to the Tyler car was set at \$200 and to the Caldwell car at \$100.

Outlook Speaker

Frank Miller, Area Extension Agent, will be discussion leader for the Annual Outlook Meeting, it was announced today by Area Extension Agent Robert Cox. The meeting will be at 8 p. m. EDT on Sept. 24 at the North Miami High School.

The 1970 supply of both corn and soybeans will be in close balance with future needs. Late plantings and the southern corn leaf blight have reduced corn crop prospects. Hog prices have fallen sharply with large expansion planned. Increased feed costs and higher feeder cattle prices will reduce feeding margins. For a detailed discussion of these major agricultural commodities, farmers are urged to attend the meeting.

In addition to the short-range outlook for general business and major farm commodities, special emphasis will be given to the outlook for farming for the next several years, particularly for real estate prices and net income.

The national economy is recovering, partly due to real growth and partly due to inflation. The objective of recent fiscal and monetary policy was to slow down inflation. Cox, in making these statements, asked questions that will be discussed. What has been the impact and what are future prospects? What adjustments in business plans are indicated? What does this mean to agriculture?

Questions about wages, employment levels, and effects of government fiscal and monetary policy will be dealt with at the Outlook Meeting. Any individual with an interest in Indiana agriculture will find useful information at this meeting and is invited to attend, Cox said.

Mrs. Gearhart Hosts Fellowship

Mrs. Arlene Gearhart was hostess to the Women's Fellowship of the Akron Church of the Brethren for the September meeting. Program books were given out for the new year. The sec'y's report was read by Mrs. Edna Mae Shewman. Several items of business were discussed by the president, Mrs. Norma Weaver.

One of the "HWI FRIENDLY ONES" Judy Day - HWI LUCAS PAINT and Finishing Products Expert

One of my customers says, after 20 years of married life he's found out it's true, two can live as cheaply as one. He figures that he and his wife live just as cheaply at home as his daughter does at college.

The army has opened a new crisis command far below the mail entrance to the Pentagon where 100,000 peace marchers demonstrated in 1967. If you can't lick them, go underground.

What ever happened to the basement? In a department store it's called the budget floor; in church it's called the undercroft; and at home it's known as the recreation room.

Building a dreamhouse can be a nightmare. . . . Painting your home can be a nightmare, unless you are an expert or have the help of an expert. Judy Day (the "HWI FRIENDLY ONE" is HWI LUCAS PAINT and Finishing Products Expert in Akron) can't come out and help you do your painting. . . . but she does the next best thing, she helps you to find the right paint and materials for your painting chore. It's a wise person who brings his problems to an expert. . . . Nuff sed. . .

mess it up"

by Danny
Jones, age 6

Strange, isn't it? It's always the other guy who makes the mess. The same with pollution. But finger-pointing won't solve the problem simply because it's everybody's problem. We all are guilty of adding to the clutter in our "living room" so we all must be part of the solution. Maybe part of the solution is letting everyone know that he can help. To help make our youngsters aware that pollution is everyone's problem, we're offering a free coloring book. Pick up a copy at your nearby Public Service Indiana office.

Remember the princess who was so delicate she could feel a pea even through layers of mattresses? A fairy tale, certainly, but the moral of the story is that she didn't check with us first for a mattress so firm she could feel nothing but solid comfort, great support and years of good sleeping. If the lump in your mattress is ruining your sleep, a visit to the sleep department here will remedy the situation.

Appellate Court Finds In Favor of Leachman

The Indiana Appellate Court on September 8 affirmed that James Leachman, a teacher in the Tippecanoe Valley School Corporation who was dismissed from his position on Nov. 22, 1963, did

not receive a fair and impartial hearing when he was dismissed as a teacher.

The court's decision upheld a Nov. 8, 1968 decision by Judge Roy Sheneman of the Marshall Co. Circuit Court.

Leachman was originally assigned to teach English at Akron High School but requested that he be permitted to teach social studies. After the school principal received a number of complaints from parents regarding the type of extra reading Leachman was assigning, he directed Leachman to use no supplementary material without his permission. Leachman, however, continued to use the material and defended its use in court. He also testified that he had been notified that his contract was cancelled and then was told that it was re-instated provided he taught in another of the corporation's schools, which he refused to do.

A hearing on his dismissal was held, but he and his attorney said they were given no opportunity to present their case and that Leachman was never given an opportunity to testify. Leachman later filed a complaint for breach of contract, seeking payment for the balance of his contract. The suit originated in the Kosciusko Co. Circuit Court and was later venued to the Marshall Co. Circuit Court. Upon the decision of that court, the school board voted to appeal the decision, but it was not until this month that the higher court acted on the case.

Leachman later filed a complaint for breach of contract, seeking payment for the balance of his contract. The suit originated in the Kosciusko Co. Circuit Court and was later venued to the Marshall Co. Circuit Court. Upon the decision of that court, the school board voted to appeal the decision, but it was not until this month that the higher court acted on the case.

In making the ruling in favor of Leachman, Judge White said, in an opinion quoted in an Indianapolis paper:

Appellee recovered judgment for breach of teaching contract. The appellee contracted to teach in schools at such places as designated for annual salary. Appellee wrote letter stating that he could teach literature and social studies, but that his training was not adequate for teaching English other than speech and literature. He was assigned to teach social studies and later was called upon to teach 9th and 10th grade English. He assigned reading not on approved list of materials, and it was not until after he was re-assigned that he was told books had to be approved by principal.

After his reassignment he wrote a letter that he was considering resignation and then he was notified his contract was cancelled. Then later he was notified the cancellation was rescinded and he had been reinstated and then he was notified of hearing as to termination of his contract, on grounds of incompetency and insubordination. The superintendent then wrote to his draft board notifying them of the terminating, and appellee's attorney then wrote letter concerning the demands of appellee, but received no reply and hearing was held and efforts of appellee's attorney to introduce evidence was rebuffed, and the testimony introduced was recitation of the superintendent's experience with appellee. There was no evidence that any further action was taken or notice given after the hearing and the vote of dismissal in his presence. Later the board made payment of back pay due and appellee requested no judicial review of hearing. He then filed complaint for breach of contract. The recovery allowed by court was for remainder of school year and he was not permitted to teach. Appellee had right to teach and be paid for school year unless he is properly charged with good cause for cancellation and good cause shown at hearing. The Administrative Adjudication Act is applicable only to agencies of statewide government and does not include local school boards. The evidence is sufficient to sustain implied finding that the procedure provided by contract for removal was not followed, and this amounts to gross abuse of discretion. The plaintiff submitted all evidence necessary for court to review the school board's action to determine whether it was good defense, and this evidence

Everyone is welcome to attend.

Charles Zunkel Is New Brethren Minister

Charles E. Zunkel

began his work as the part-time pastor of the Akron Church of the Brethren on September 1, replacing Rev. J.F. Baldwin who has retired.

Pastor and Mrs. Zunkel, the former Clela Shull, moved to semi-retirement at No. Manchester in mid-August, having purchased the Wilbur Barnhart home at 401 Woodland Drive. They came from the Crest Manor Congregation in So. Bend. Previous pastors were at Pleasant Hill, Danville and Lima, Ohio; Michigan City, Ind.; Wenatchee, Wash. and the Mill Creek Congregation of Northern Virginia.

In addition to these thirty-two years of pastoral ministry, Rev. Zunkel was for ten years the Executive Secretary of Ministry and Home Missions for the Church of the Brethren at the denominational headquarters at Elgin, Ill. In this work, he was "pastor to the pastors" of the denomination, having responsibility for the calling, welfare and placement of the pastors, as well as the supervision of the home mission work carried on by the Brotherhood. This covered work in the United States, Canada, and Puerto Rico.

On hand to assist will be the Jubileers, the Conveyors, Miller Accordinaires, and Gospel Echoes.

work for the denomination, he was also a member of the Department of Ministry of the National Council of Churches, of its Home Mission Division, its Town and Country, City Church and Evangelism Departments, and of its Indian American Work. During this time, he pioneered in establishing work for the Brethren among the Navajo Indians at Lybrook, New Mexico. Another new phase of work was to develop and give leadership to Church Extension, the development of new congregations.

For twenty-five years, he was a member of, or an employee of the Brotherhood's General Board. In 1959-60, he was Alternate Moderator of the denomination and during 1960-61 was its moderator.

The Zunkels have two children and seven grandchildren. Their son Wayne and daughter Carolyn, along with Pastor and Mrs. Zunkel are all graduates of Manchester College. Wayne is now the pastor of the Elizabethtown, Pa. Church of the Brethren and a member of the Church's General Board. Carolyn is the wife of a medical doctor, Robert L. Parker, who is currently on the teaching staff of the Public Health Department of Johns Hopkins Medical School. For the past three years, he has been doing research for Johns Hopkins in the villages of Northern India.

Mrs. Zunkel was a public school teacher for two years before her marriage. While her husband was engaged in denominational work, she was active in National Women's work, serving for six years as Central

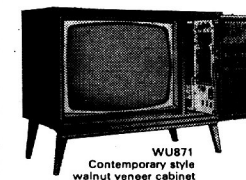

Regional President of Women's Work. She was the church's denominational delegate to two assemblies of Church Women United and was one of eight Brethren representatives to the National Council of Churches for three years. She has also served on the standing committee for the denomination.

Pastor Zunkel received his B.D. degree from Bethany Theological Seminary in Chicago and later was honored by his Alma Mater with a D.D. degree.

WHY YOU SHOULD DEPOSIT CHECKS promptly

It is unwise to hold checks long because they may be lost or destroyed, or the person who made out the check may die, or perhaps stop payment. Also, the writer of the check has difficulty in balancing when checks are outstanding.

So, for your own sake and that of the check writer, deposit or cash all checks you receive without undue delay.

No service charges on checking accounts.

Seward Club
Hears Lessons

The Seward Home Extension Club met at the home of Mrs. Lester Bruner with Mrs. Bruner and Rella Hatfield as hostesses.

Mrs. Wm. Kassen, vice president, opened the meeting. The pledge, and creed were given in unison. Mrs. Cliff Ehrenman gave the history of the song of the month, "Day is Dying in the West". Mrs. Donald Smalley read "Canning Thoughts" and "Tomorrow" for meditation. Mrs. Vernon Meredith gave health and safety tips on vitamins and Mrs. Lester Bruner gave garden remarks on the subject of male pellets and tulips. The lesson on flower arrangements was given by Mrs. Vernon Meredith. Roll call was answered by sixteen members and one guest, Mrs. Earl Louman of Arizona, on a school experience I remember. The president, Mrs. Wilbur Latimer, conducted the business part of the meeting and the club trip was announced to be taken September 30 to join a Warsaw club and go to Detroit, Mich.

An auction was held and the meeting was then closed with the club prayer song.

Respirators Urged For Picking Blighted Corn

Farmers and grain handlers are advised and cautioned to be especially careful in handling this year's corn crop according to Don Frantz, Area Extension Agent. The use of respirators during harvest and handling is strongly recommended.

Reuter's News Service reported that physicians at Iowa State University Medical Center are checking reports of numerous cases of respiratory distress in persons harvesting blighted corn. Donae's agricultural news has previously reported the possibility

Art Carnival Is Successful

The third annual Rochester Carnival of Arts was termed a "Grand Success" Monday by the sponsoring Fulton County Art Colony after more than a thousand persons toured the exhibits that covered part of the court house lawn and part of East Eighth street. Ninety-seven exhibitors displayed many works of art.

Local residents who placed were:

Landscapes: Joy Groninger, R. 2, Macy, honorable mention.

Graphics: Nancy Luckenbill, Akron, first. Portraiture and Animates: Nancy Luckenbill second.

High School Students: Marna Stephen, Akron, first.

Mrs. Lloyd Rouch won the painting given by the Fulton County Art Colony.

The "People's Choice" award for the art work voted the favorite by the spectators went to 10-year old Lori Wonder of Rochester for her still-life of flowers.

In many offices, the early bird starts the coffee pot."

Robbins Is Outlook Speaker

The annual Outlook for agriculture meeting will be held Thursday evening, September 24, at the Milford Elementary

School in Milford. The starting time is 8 p.m. according to Don Frantz, Extension Agent.

Dr. Paul Robbins, a member of the agricultural economics department at Purdue, will present the outlook for the coming year.

The price prospects for the months ahead are uncertain, said Frantz, and the corn blight has made an accurate forecast of this year's crop difficult. He also noted that there is an increase in pork supplies

feed cattle. Dr. Robbins will analyze these and other supply and demand factors for the coming year.

and that prices are slipping. Cattle feeder prices are high and beef cattle men may prefer to sell corn rather than

Kosciusko Cuts 2 Cents On Budget

Members of the Kosciusko Co. Council made a cut of \$17,003 from the county's proposed 1971 budget that was submitted for review this week. The budget approved is \$44,223 higher than this year's and shows pay increases for most of the county offices and increases in the highway department.

Cuts were made in the health department and in the sheriff's department where the salary of a seventh deputy was refused.

Welfare and health funds have their own tax rates, and highway funds do not require a county tax levy.

Mothers seek play equipment

Members of the Tippecanoe Valley school board Monday night heard complaints from several Mentone school mothers protesting the lack of playground equipment and other recreational facilities at the school. Mrs. Frank Manwaring, spokesman for the group, said the equipment had been removed last year because some of it was considered unsafe but that none had been added to replace it. She said she felt this was as important to elementary age students as physical education and team sports were to secondary students. She asked that the board take immediate action on the matter.

After much discussion, the board at the close of the meeting voted to have the superintendent take a survey of all the playground equipment in the corporation and report at the next meeting, which will be Oct. 19.

The board let a contract for boiler conversion at the Akron school to Power Plant Services Inc. of Ft. Wayne. That firm's bid of \$16,600 for converting the Akron heating system from coal to natural gas was the only one received.

Superintendent Robert Forbes explained the point factor involved in determining the corporation's state aid, and some discussion was held regarding a tour of the Akron High School and Talma School facilities that was made Monday by board members, Forbes and State Superintendent of Public Instruction.

Through the program, all boys who attend the Akron School will be given the opportunity of joining one of the Akron scout units.

All boys who are not

Mr. Swope will be assisted by Mr. Dean Rager, Mr. Terry Walgamuth, Cubmaster of Pack

3445 and Mr. Bob Halpeny who is the assistant scoutmaster of Troop 445.

Explorer Post Officers will be present to explain the Exploring Program to young men 15 years or older.

It was at this location that he won his first national championship in 1966.

Herendeen sustained a broken leg in the mishap. The plane has been dismantled and sent to Long Beach, California.

Herendeen's address is Room 352, Washoe Medical Center, Reno, Nev.

Blue was elected president of the board.

The Youth League was formed in 1966 with 73 boys participating. During the past summer, 227 boys and girls participated in the program.

The facilities have also grown during this

time, starting with the two-acres purchased from Reth Rogers and laid out into two ball fields in 1966. During the next summer, outdoor lights were added, making night games possible.

In 1968, another one-half acre was purchased and the south field was enlarged. In 1969, one and one-half acres were purchased from Herbert Adams. This additional property was made into a playground for small boys and girls and was aided by playground equipment from the Beaver Dam school. A 40 x 64 foot building was erected and it has been used for youth meetings and recreational activities during the winter.

Rural Society Problems

Someone asked a successful farmer how he liked the trend to large scale farming. "The farming is all right," he replied, "but there's hardly anybody to talk to when I drive into town on Friday night." Machinery can be substituted for people on the modern farm. But there is no substitute for people in the make-up of a community.

That's the problem facing us in the next 10 or 20 years. Today, for the first time in a generation, city people are talking about how they are getting fed up with the traffic and bad air and wondering how they can get back to the country.

What will it take to stop migration to the metropolitan areas and hopefully, encourage people who want to return to the country?

Jobs, of course. We know now that those jobs will not be on the farm because farming has changed permanently. The fact that a farmer today can turn out eight times as many goods as his grandfather makes it clear there will be fewer farmers.

What we need is a movement of industry, business, government, and other services into the countryside. But every little town can't expect to get a factory, office building or research laboratory.

WHAT IS NEEDED is for villages, towns, and small cities to get together and cooperate in the development of natural economic areas of several counties. The natural boundaries of such a new and larger community would be fixed by an hour's drive to work.

Jobs are necessary to hold young people and to stop the migration of families who are giving up farming. Jobs are even desirable for active farmers. Full-time farmers cannot have a full set of community services unless there are nonfarm people to help support them.

Furthermore, farmers,

their wives, and children may at times want some work off the farm. The time is soon here when all small farmers and even some grain farmers with good-sized operations will be moonlighting. The two-pay-check family is becoming an American way of life. Farmers' wives are really not different from wives living in town. They like to work and they like the extra income.

GOOD SCHOOLS are an absolute necessity for the rural community of the future. Unless there are good schools, young parents will not stay. Unless the schools turn out educated and trained people to work in factories and service enterprises, these businesses will not stay.

Churches, recreational facilities, and transportation are equally necessary. These add up to livability in a community. Educated, ambitious young families insist on this livability, and industries that are considering moving into the countryside know they must have it or they cannot hold good help.

Anyway you slice it, the quality of livability in a community adds up to high taxes. An old idea that is being thoroughly discredited is that factories are hunting for communities with low taxes. Industry has learned they cannot keep good employees, especially employees in management and research, in a community with poor schools and services.

ONE OF THE FATAL mistakes often made by small communities looking for industry is to stress low taxes or to insure lower taxes for the future by skimping on community development.

It would be far better to work hard toward shifting the tax base away from real estate to other kinds of levies. Better this than getting along without the things that are absolutely necessary to

keep the community growing instead of shrinking. In this search farmers can expect to get real help from the nonfarm resident who is living in a small town or on an acreage in the country.

During the next 10 years, most rural communities will be deciding whether they will grow and live, or shrink and die. Farmers have a real stake in this decision. Farmers should join with townspeople to figure the best way to keep their own community on the map.

EDITORIALS

Much of the news is sad this week. Accidents have plagued area residents. A 43-year old mother is injured when struck by a car. An 80-year old man is killed when his car was struck by a train. A father of nine is injured when he falls from his house roof. A champion acrobatic pilot is injured when his plane crashes. Sad news, bad news? Yes. Accidents are always bad

news, but the significant thing is that they happen to all ages and that no one plans to remove all the cars and trains and planes and roofs because someone was hurt on them. Playground equipment for several hundred school children, however, is a different thing.

The argument against playground equipment is that someone might get hurt on it. Quite likely. It would be unlikely, in fact, that there could be a piece of playground equipment built that someone could not get hurt on. You can get hurt anywhere—our son broke his leg on the way to the library but we didn't ask that books be banned. Students can get hurt in chemistry labs but no one has completely removed that equipment. Basketball has a way of breaking bones, pulling ligaments and tendons, but perish the thought that anyone would dare tamper with that sacred sport. No, it is the elementary children who have to give up their playground equipment, equipment that was removed and piled behind the bus shed where they still play on it in a far more dangerous condition that it was when it was on the school ground.

How sad it is that mothers have to plead for their children to have the equipment and materials necessary to build strong bodies as well as strong minds. Equipment and materials that should be taken for granted.

To The Editor

Dear Sir:

The "Letter to the Editor" from George Clark, which you recently printed has been forwarded to me. As the writer of the REMC advertisement that he questions, I am surprised that Mr. Clark arrived at his interpretation.

The purpose of the ad is to remind the reader of the savings he can enjoy by buying a whole or half-beef, and having it processed for freezing. Here in Indianapolis, people are buying beef, having it processed, for an average cost ranging from 60¢ to 70¢ per pound. Often the statement is made "My T-Bones or my Porterhouse only cost me 65¢ a pound." Obviously, the hamburger also costs 65¢ a pound.

However, Mr. Clark has taken exception to the ad which says that the owner of an electric freezer can enjoy T-Bone steak for 79¢ a pound. We originally intended to say 69¢ and purposely added another 10¢ so no one could take exception to the statement.

That's the thinking behind the advertisement referred to by Mr. Clark.

I certainly did not mean to infuriate him nor offend the fine butchers here in Indiana. In fact, we have had butchers in the Indianapolis area use similar approaches to advertise and sell the beeves which they wanted to slaughter and sell whole.

I hope that this letter explains the advertisement to his satisfaction.

Sincerely yours,
Mel Cranfill

A Request

Many of our school systems of today claim the District of Columbia with its Potomac River basin for, health and beauty and honest business aim. I'm looking for another way and that Four square on which to build our Nation's capitol and thoroughfare. Both East and West coasts are subject to dense smog for hours at a time, preventing work and vision of fruit, vegetables and the warm sunshine. May I suggest the state of Arizona with its natural culture and growing promotion as the best state in the Union! Some day may we see our goal and example, say the things and act the part of honor, for God's lovely creation.

"The organization of our press has truly been a success. Our law concerning the press is such that divergencies of opinion between members of the government are no longer an occasion for public exhibitions, which are not the newspapers' business. We've eliminated that conception of political freedom which holds that everybody has the right to say whatever comes into his head." — Adolf Hitler.

Do parents give too much?

The WAKARUSA TRIBUNE

Nobody needs to be told that many teenagers are in trouble. Instead of building a stronger, better society, they seem intent on tearing it apart. This, in turn, has caused agonized parents to ask, "where have we failed?"

Now comes a noted pediatrician and practicing physician, Dr. Edwin F. Patton, who declares that parents of teenage and youthful failures have been leaping to the wrong conclusions. The problem, he says, is not because parents have done too little for their children, but that they have done too much.

"Most parents," Dr. Patton recently told Parade Magazine, "feel that if they provide their children with an easy life in a comfortable home, food, health care, indulgent discipline, casual exposure to basic education, and a world of fun, they have fulfilled all the requirements."

"The present vogue is for the parents to make life as soft as possible for their young, to spare them from onerous experiences of all kinds, to remove all obstacles from their paths."

And that, in Dr. Patton's opinion, is the worst thing that parents can do. The

reason, he said is that in so doing, parents deprive children of "the very things most essential to the formation of character and the development of the ability to cope. Kids who grow up living the life of a free-loader expect it to continue permanently. So it can be a rude shock for them to realize that instead of privileges and provisions, they have duties, obligations, and responsibilities."

The answer, Dr. Patton insists, is that children must be made to learn that "life is a ruthlessly competitive barter in which the individual has to deliver things if he wants things in exchange; that what a person gets out of life is pretty much measured by what he puts into it; that enjoyment must be earned; and that the only true and enduring satisfaction comes through constructive accomplishment."

Dr. Patton has a lot going to back him up. The youth who accidentally killed themselves in New York recently were making their bombs in a \$250,000 house. If Dr. Patton is right, the reason for their demise is not because they were given too little, but because they were given too much.

1971. You've changed. We've changed.

Chevrolet

Worth seeing. Worth owning.
Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

High School Day Set October 17

A greater emphasis on the career opportunities stemming from a college education will be presented to thousands of high school upperclassmen at Purdue University's annual High School Day Saturday, Oct. 17.

To tailor the professional career presentations to the particular interests to high school juniors and seniors, they'll be presented in three simultaneous morning sessions running from 10:30 to noon. The sessions will replace a general morning welcoming session, which in the past has dealt with generalities of college life.

The schools of Engineering, Technology and Industrial Management will join in one session in Elliott Hall of Music to tell about the sort of lifework their graduates can expect.

In Loeb Playhouse, Humanities, Home Economics and Nursing will explain the variety of careers their training points toward.

The session in the South Ballroom, Purdue Memorial Union, will provide views of the future that can be expected by graduates of Science, Agriculture, Pharmacy and Veterinary Medicine.

The afternoon sessions from 1:30 to 3 p.m., will be divided by individual schools, with academic advisors explaining the kind of high school preparation needed and the kind of coursework to be expected after enrollment.

Reservations for the event should be made in the office of Principal Forst Dunnuck by Oct. 7.

The program is arranged for high school juniors and seniors, whether or not they plan to enroll at Purdue. Parents, teachers and school counselors are also invited. About 3,000 persons have attended in recent years.

All Purdue schools and departments cooperate with the Office of Admissions in the program. Coordinator is William J. Murray, assistant director of admissions.

He who is good at making excuses is seldom good for anything else.

The Indiana Nut Grower's Association, which is affiliated with the Northern Nut Grower's Association, met Sunday for their fall meeting at the Pope farm near Marion. Mrs. Frank Dawson accompanied Mr. and Mrs. Richard Graves to the meeting as they are all members of the Association. A carry-in dinner was enjoyed at noon, with the majority of the food being very rich with different kinds of nuts. A tour of the farm was taken after lunch with discussions of fertilizing and spraying and grafting of the trees. One of the main objects of the Association is to propagate the raising of different nuts to our northern climate. Several varieties of pecans can now be raised in southern Indiana and Illinois. English walnuts and Chinese Chestnut are also being raised in the north. There are about five hundred members in Indiana, with a number from California, Kentucky, Illinois, Iowa and Ohio who attend the Indiana meet. Next spring the Association will meet with James D. Smith at Rochester.

when your daughter goes away to college, you certainly don't lose a daughter but you may lose an electric hair dryer—and gain a chance to pick out the kind you want.

your own way of doing things should dictate the choice of any appliance, especially one that helps your own good grooming. Do you set your hair just once a week? A hard-top dryer that gives beauty shop drying might be your choice. Or do you reset between shampoos? A dryer that produces mist makes resets speedy and enduring. Or does only the top or new "neck bangs" need recurling? Some models have a system for spot drying. Do you like to move around a bit while hair is drying? A bonnet type is the answer.

more electric combs are being produced now that men are wearing longer hair. They dry as they style. Think how marvelous one would be to guide a child's hair into a natural but neat style.

electric hair dryers, curler sets, combs and razors have made appliance owners of teenagers—even pre-teens. Start them off right not only to insure good service from curler sets bought with babysitting money but the electric toasters, fry pans and washers they will own as adults. Teach them to read use-care booklets before trying out new possessions.

Make sure the books are in the sets they buy. And follow such common sense rules as:

set dryers and curler units on a flat surface (unless it is a dryer designed to be worn over shoulder). Not only are they designed to be operated that way but shattering falls can be avoided.

keep them clean. Some dryers have filters or water containers that need occasional cleaning and all appliances deserve wipe-offs.

unplug after using—and by grasping the plug; don't yank the cord!

HELPING DEDICATE A NEW FLAG were Mark and Tim Swick, left, and Tom Lowman, all Boy Scouts from the Burket area who are students at Talma Junior High School.

Flag Ceremony Conducted At Talma

Constitution Day ceremonies at the Talma Jr. High School included a special flag raising ceremony with the entire student body and the school band participating.

The flag at the school is flown night and day, with a spotlight highlighting the nighttime display.

The old flag had become worn and stained, and it was felt that Constitution Day would be an appropriate time to dedicate a new flag.

School principal Marion Acton told the students that Constitution Day commemorates the signing of the constitution. He said the signing climaxed a four month session of debates in Independence Hall in Philadelphia with George Washington presiding at the sessions. The convention proposed to ensure the rights that the Declaration of Independence had declared inalienable. The Constitution became one of the most important documents in history and has served as a model for nearly every country that has adopted a constitutional form of government.

He also noted that Citizenship Day is celebrated in the U. S. on Sept. 17 each year. He said citizenship means full membership in a country and that the word comes from the Latin word civitas, meaning citizens united in a community.

What Is Good Citizenship?

Acton said, "The citizens of a country guide the destiny of the nation. The freedoms that persons in the United States receive from the Bill of Rights belongs to all. But it is the faith and the beliefs of the citizens that keep the spirit of this liberty alive and let all benefit from it."

Rights and Duties

Citizenship, he said, involves both civic and political rights, as well as civic and political duties. A person possesses civic rights, such as the right to worship as he pleases, from the day he is born. In turn, each citizen owes allegiances to his country. It is his civic duty to support his government, obey its laws and defend his country.

He continued, "A citizen can do much to improve his community. He can contribute to the general welfare by sacrificing personal advantages to the common good of all."

Students study current affairs and American history and government as part of their classroom activities. You take part in bands, clubs and teams outside the classroom. You learn to work together in a friendly, democratic and cooperative manner. Outside of school you help in community projects."

Akron GAA Elects New Officers

Activities of the Akron G.A.A. were started Wednesday, Sept. 9th.

Fifty girls attended the meeting. Officers were elected and they are as follows: Janet Sheetz, president; Julie Harshman, vice-president; Patty Hoffman, secretary; Ruby Smith, treasurer; and Deanna Saner, reporter. The G.A.A. sponsor is Alberta Davis and they will meet once a week after school.

Through the year, they will participate in many sports such as hockey, ping pong, badminton, volleyball, basketball, bowling and others. The G.A.A. will compete against other schools and also compete in several tournaments. The G.A.A. is a club in which girls become better sportsmen and increase their athletic ability.

Zunkel Installed As Minister

Installation services were conducted Sunday, September 20, by the Rev. E. Paul Weaver, Middle Ind. Dist. Executive Secretary of the Church of the Brethren, installing Rev. and Mrs. Charles Zunkel. Rev. Zunkel is the new minister of the Akron Church.

Rev. Weaver's sermon subject for the morning worship hour was "The Minister in Today's World."

A fellowship dinner was held following the morning services to welcome Pastor and Mrs. Zunkel into the church.

Home Delivery Service Extended By Post Office Department

Congressman John Brademas (D-Ind) announced Wednesday that over one hundred Kosciusko County families will be provided with mail delivery services for the first time under a recent order from the Post Office Department.

The order benefits persons served by post offices that do not have city delivery services, in Claypool, Mentone and Pierceton. The new Post Office order provides delivery service for persons who live at least a quarter mile away

NEW BOOKS AKRON CARNEGIE LIBRARY

A TASTE OF TREASURE by Gordon Ashe. Here is a tale of suspense, drama, rousing action and a charming love story.

WHERE THE WINDS SLEEP by Neil P. Ruzie. The author traces the history of man's colonization of the moon from 1975 to 2045; why we went to Luna, how we lived there, and what we gained. His story is not science fiction but extrapolated science; based on the most current programs of NASA, it is a true projection of what we can expect from our life on this other world: the economic advantages of manufacturing and mining; the ability to do scientific research impossible on earth; the use of the moon as an astronomical observatory and as a stepping stone to the planets.

PRAYERS TO PRAY WITHOUT REALLY TRYING by Jeanette Struchen.

TELECOMMUNICATIONS by Ronald Brown.

NO TIME FOR LOVE by Emilie Loring.

CALICO PALACE by Gwen Bristow. This is a story of men and women who lived in California at the time of the Gold Rush. They were not the forty-niners but were the people who were there when it all began. They were the forty-eighters. They were part of it all from the beginning, and they laid the foundation of the golden empire before the first forty-niners got there. Some of them could not meet the demands of this strange new world, and crumpled up before it; others grew stronger, and shared the greatness of the country they had helped to build. Calico Palace tells about them all.

ANOTHER PART OF THE HOUSE by Winston M. Estes. "Good times are just around the corner", the catch phrase of the Depression Years, offered the promise of better days which never seemed to come. And yet the best days of all, the days of a family bound together by love regardless of adversity - these are the days portrayed in this vital and penetrating novel of family life in the Texas Panhandle in the 1930's.

from the post office, instead of a half mile limit previously in effect.

The new order makes eligible for delivery service ten new families in Claypool, thirty-five in Mentone and sixty-six families in Pierceton.

MSG Recognized As Safe

The Food and Drug Administration has released a report on the safety of MSG (monosodium

glutamate) but it will not be used in baby foods since it has not been found to benefit infants. This ends several months of research concerning the safety of this food additive.

Monosodium glutamate is derived naturally for an acid in protein foods and it is used by food processors to restore flavor and by homemakers as a flavor enhancer. Its safety has rarely been questioned until the cyclamate incident.

If MSG is contained in a processed food, it will be stated on the label so those who want to avoid it can. Accent, which is a brand name for monosodium glutamate, and other brands will continue being sold to the consumer.

Take your problems to Church this week -

When Our Ship Comes In

Remember, as a child, how keenly you looked forward to that day mother so often talked about "When Our Ship Comes In."

Perhaps there was something you especially wanted, or there may have been some problem or severe hardship the family had to face, or perhaps there were dreams you longed to have come true, then mother would express the cheerful hope that all would be well "When Our Ship Comes In."

When one abandons the hope of seeing his ship—when faith dies—then we are old, whether we be thirty or ninety.

Your church can be a great influence in keeping alive faith—in hope that dreams will come true. Avail yourself of its aid. Attend regularly and your dreams, although they may change with the years, will nevertheless come true and YOUR SHIP WILL COME IN.

Rev. Huffaker To Be Burket Evangelist

Perry L. Huffaker, a former Burket High School teacher, will lead evangelistic services at the Burket United Methodist Church from October 4 to October 11.

Mr. Huffaker, now a retired minister living in Englewood, Ohio, was the high school coach and taught history, economics and music at Burket from 1924 to 1928 and was responsible for instilling a love of music in his students.

After leaving Burket, he taught in the South Bend schools until 1935 and then went into the ministry at Hagerstown, Md.

The nightly programs will begin at 7:15 p.m. with informal music. A children's story time with colored pictures and a hymn sing will be held at 7:30 p.m. and the evening worship will be at 8 p.m.

Rev. Huffaker describes his ministry as "a ministry of music" and each of the meetings will feature many hymns and special music.

He spent 31 years in the pastoral ministry and held pastorates in Pennsylvania, Ohio and Indiana. He spends his winters in Sebring, Fla. where he is the minister of music in the Sebring Church of the Brethren.

Rev. and Mrs. Huffaker have been abroad in their work and in 1958 they conducted the summer work camps in Europe for the Brethren Service Commission. While there Rev. Huffaker directed the music for the 250th anniversary of the Church of the Brethren which was held at Swarzenau, Germany. He is also a composer and arranger of many of the hymns found in the Brethren hymnal.

Rev. Donald Poyser, the church's minister, and members of the congregation urge everyone to attend this series of meetings.

The next meeting will be a Halloween party on October 23rd.

Denny Motor Sales, Inc.

In this day and age when so many companies are offering automobiles for sale and each has such a wide selection of models to choose from, it is very difficult for an individual to decide where to go for a new car. All the companies advertise that their cars are the best, but who is to say what car is. Obviously so, all the cars on the market today must have their good points or they wouldn't have survived the ups and downs

of the business. We therefore can conclude that the real difference in buying the car is who the dealer is you buy it from.

The ideal dealer to buy a car from offers a fair price on the new unit as well as an honest dollar for the car you trade in, however, the most important factor is the service that one receives on his new car year after year.

The writers of this 1970 Review would like to point out a dealer

that considers the most important part of selling a car the quality

service he can offer you after the sale. We are talking about the Denny Motor Sales Inc. at 424 S. Wabash in Wabash, phone 563-1177, dealers for the famous Oldsmobile, Buick, G.M.C. Trucks, and Opel automobiles. See them today for a new or quality used car and you'll see why we say "Customer Consideration" is their byword.

struction Richard Wells. Wells was reported to have said he would make a report on the schools within ten days.

At a previous meeting, school board members had asked Superintendent Forbes to present plans for a two-school system. He presented plans for constructing a new high school facility at Akron that totaled \$1,350,000 but did not have additional plans available for Mentone. Other alternates were discussed but no action was taken.

Dr. Donald VanGilder also presented a plan. It called for two high schools, one at Akron and one at Mentone. No actions were taken on this plan, either.

Superintendent Forbes reported that enough adults had signed up for a welding class to warrant the course. The first meeting will be next Tuesday, Sept. 29, at 7:30 p.m. in the auto mechanics shop in the remodeled bus shed at the Mentone school.

Newly appointed school board attorney Frederick Rakestraw attended the meeting and discussed the results of the Leachman case with the board. After much discussion, the board voted 3-2 (Dr. D. J. VanGilder and Philip Lash voting no) to have Rakestraw appeal the appellate court decision that was explained in detail in last week's issue of the NEWS, and, if necessary to appeal it to the Supreme Court.

Board members present were Richard Goshert, Philip Lash, Dr. VanGilder, Ralph Davis and Maurice Coplen.

Mrs. Donald (Doris) Yarian, 43, Mentone, was unconscious Tuesday morning when she was admitted to Murphy Medical Center after being struck by an automobile near the Zimmer Mfg. Co. in Warsaw.

Investigating officers said Mrs. Yarian apparently walked into the path of an auto driven by Windell Slone, 19, R. 1, Warsaw, during an early morning rain. Slone told officers he was

unable to stop in time to avoid hitting Mrs. Yarian.

She is listed in fair condition.
