Chamber Elects

The directors of the Mentone Chamber of Commerce met at Peterson's Restaurant Thursday noon, and the following officers were elected:

H. V. Johns, president.

Kenneth Romine, vice president.

Raymond Cooper, secretary.

John Miller, treasurer.

This week letters were mailed to merchants and interested individuals in the community to invite them to join the organization. An effort was made to send an invitation to all possible or potential members, but if one was missed, this is your invitation to join. The membership is \$10 per year.

**QUOTE OF THE MONTH
YOUR TOWN — AND YOU**

By R. W. Glover

If you want to live in the kind of town

That's the kind of a town you like—

You needn't slip your clothes in a grip

And start on a long, long hike.

You'll find elsewhere what you left behind.

For there's nothing that's really new,

It's a knock at yourself when you knock your town,

It isn't your town—it's you!

Real towns are not made by men afraid

Less somebody else gets ahead. When nobody shirks and everyone works

You can raise a town from the dead!

And if, while you make a worthwhile stake,

Your neighbor can make one too—

Your town will be what you want to see—

It isn't your town—it's YOU.

**LOCAL STUDENTS HEAR
INDIANAPOLIS SYMPHONY**

To Hold Tag Day

On Saturday, April 19, 1958 the High School Band will canvas the community in an attempt to raise funds for its treasury. The money will be used to pay for awards, additional music, repairs to instruments, expenses to contests and trips and possibly a starting fund for new uniforms or additions to the old ones.

On Sunday afternoon, April 20, the Spring Concert will be held at 2:30 p. m. in the gym with the Jr. Band, High School Chorus, and High School Band participating. Admission, Adults 50 cents, Children 25 cents. The Art Department will also present an Art Display for viewing.

New Daughter

A daughter was born to Mr. and Mrs. Ellis Shepherd Sunday at the Woodlawn hospital. The baby weighed 9 pounds 4 ounces and was named Pamela Ann. The grandparents are Mr. and Mrs. Ranel Shepherd of Claypool and Mrs. Fred Horn of Mentone.

ENTERS MAYO CLINIC

Mrs. Dwight Reichard entered the Mayo clinic at Rochester, Minn., Wednesday morning for observation. Her father, William Schooley, drove the auto which took her to Minnesota. Her sister, Mrs. Mildred Neer, also accompanied her.

HOME FROM HOSPITAL

Gyle Gibson was a Mentone visitor Wednesday after being released from the Memorial hospital at South Bend Friday. Mr. Gibson underwent surgical relief for a kidney ailment.

BAND AT CONTEST

At the Northern Indiana School Band, Orchestra, and Vocal Association District Contest held at Concord Schools, Elkhart, Indiana, March 29, 1958, Mentone High School received a III or good rating.

**GRADUATES FROM BEAUTY
COLLEGE**

Mitie Meredith graduated from Warren's Beauty College last Thursday. She is staying at home with her parents, Mr. and Mrs. Frank Meredith for a few days. She is then going to go to South Bend where she will be employed as a beauty operator in a Beauty Salon.

Coach Resigns

H. Earl Boggs, trustee of Harrison township, announced Tuesday that he had received a resignation letter from Abe Hoogenboom, who has been athletic coach at Mentone the past six years.

Mr. Hoogenboom recently announced to the editor that he had been offered a position as second team coach at the Concord high school, Elkhart county, but at that time no definite decision had been reached.

Mentone's teams, under Mr. Hoogenboom, has had some very good years, winning the sectional and county titles, and during the six years, the first and second teams have won 76 more games than they have lost.

**Enjoy Extended
Trailer Trip**

Mr. and Mrs. Rea H. Ward arrived home Friday evening, March 28, after traveling over 9,000 miles. They left home last October 16 in their Liberty house-trailer.

They stopped at the following places either to visit friends and relatives or go sight-seeing or both. Beginning with a two day stop at Fort Wayne, then on to Cleveland, Schenectady, and down to Ramsey, N. J. Here they made side trips over to New York City, and also to Hazelton, Pa. From here they went on, with stops at Baltimore, Washington, D. C. and Petersburg, Va. From Petersburg they made a side trip over to historic Jamestown and Williamsburg. Then down to Goldsboro, N. C. with a side trip to Kinston to call on Dale Kessler, son of Mr. and Mrs. Dewey Kessler. From here they drove out to the coast stopping at Myrtle Beach, S. C. and following the coastal highway through Charleston and Savannah. At Savannah they drove over to Road 301 and into Florida on November 16. They visited many places in Florida but located for the winter at Osprey. They report a trip with mostly fine highways, and crossings of famous bridges, exhibitions, of great engineering and technological skills. Though the winter weather of Florida was unusual this year, they had an enjoyable time, but are glad to be back in Indiana.

**Dies At
South Bend**

Mrs. Elia Rapp passed away at the Frame Nursing Home, South Bend on March 28. She had been in the Home since the death of her husband one year ago.

She was born August 14, 1872 to Amasa and Mary Garwood on the Garwood farm one mile northeast of Mentone. Three sisters, Mrs. Allen Nelson, Mrs. Clea Borton and a brother, Joshua Garwood preceded her in death.

She was married to Elia Rapp October 22, 1902. They began housekeeping in Knox, Indiana, moved to LaPorte and then to New Carlisle where they built and operated their own grocery, until illness forced retirement.

The past 35 years they have lived in South Bend.

The funeral was held Monday, March 31 and burial was in South Bend.

ENGAGED

Mr. and Mrs. Emanuel Ware want to announce the engagement of their daughter, Sharlene Faye, to Gerald Lee Ross, son of Mr. and Mrs. Mace Warren.

Gerald is a graduate of Farmington Community High School, Farmington, Illinois. He was recently discharged from the Air Force after serving a four year term. Gerald is now employed at the Mid-West Spring Factory in Mentone.

Sharlene is a senior in the Mentone High School.

The date set for the wedding is June 28.

War Mothers Meet

Mrs. Maude Romine was hostess to the Mothers of World War II, who recently held their monthly meeting with Dora Norris, president, presiding.

The meeting opened by the presentation of the Flag, pledging allegiance, singing one verse of our National Anthem and prayer by the Chaplain, Bertha Meredith.

Sixteen members answered roll call. The Secretary's report was read and accepted. The Financial Secretary's and Treasurer's reports were given. All bills and communications were disposed of.

Dora Norris was elected as delegate to the State convention which is to be held in Elkhart, April 18th, 19th, and 20th, Edith Young as alternate.

The April meeting is to be held with Mrs. Myrtle Davis. The report of the District Convention which was held at Rochester was given by various members attending.

Ethel Whetstone and Lavern Horn were appointed to see about sending the Christmas Cards to Korea.

Plans were made for the bake sale to be held Saturday, April 5th. Dues and birthdays were paid by several.

Edith Scott and Emma Cook won the contest prizes. The meeting was closed by repeating the mother's creed in unison, prayer by the Chaplain, singing "God Bless America" and retiring of the colors. A social hour followed. The hostess served dainty refreshments.

Report Farm Income Up

Average realized net income of Indiana farmers was higher in 1957 than in 1956, up from \$2,453 in 1956 to \$2,504 in 1957, according to J. K. McDermott, Purdue University agricultural economist. This is an increase of ten percent.

When the changes in inventories on farms were considered, the average total net income per farm was only \$2,316 in 1956 and was up to \$2,560 in 1957.

Realized gross income was up from \$7,463 in 1956 to \$7,760 in 1957. This figure includes income from marketing and government payments, plus an allowance for the use of farm produce and rental on farm homes.

A total of 26 states had the same or lower average net farm income in 1957 than the year before.

Nineteen states had more of an increase in 1957 than did Indiana.

According to United States Department of Agriculture economists, total realized gross farm income in 1957 for the nation amounted to 34.4 billion dollars, almost the same as in 1956. Production expenses, however, set a new record 22.9 billion dollars, compared to 22.6 billion dollars in 1956. But this is not the whole story.

In 1956 farmers ended the year with a 500-million dollar decline in farm inventories, while in 1957 they had a 600 million dollar gain

in inventories. Total net income therefore, was up from 11.6 billion dollars in 1956 to 12.1 billion dollars in 1957.

"THIS IS DAYBREAK"

The cast for the presentation of the Easter drama, "This is Daybreak" at 9:30 Easter Sunday morning in The Mentone Methodist Church will be:

The Youth, Miss Donna Kay VanGilder; The Roman Soldier, Denton Abbey; Pilate's Wife, Mrs. Robert Hoover; Simon Peter, Mr. Robert Hoover; Mary Magdalene, Mrs. Frank Smith; Mary, Mother of Jesus, Mrs. Robert Whetstone; Cleopas, Gene Marshall; Joel, James Tibbetts; Reader, to be selected.

What each of these characters have to say about the impact of the events of the crucifixion and the resurrection will leave an eternal message with all who will hear them.

CARD OF THANKS

We would like to take this means to express our heartfelt thanks for all the get well cards and flowers we received during Mahlon's sickness.

Weeding With Chemicals

"Weeding with Chemicals" is the title of a new publication, ID-1, at Purdue University.

The publication, authored by Oliver C. Lee, Purdue botany and plant pathologist, and Dr. G. F. Warren, Purdue horticulturist, gives recommendations for the use of 21 different herbicides that are now available for weed control.

Several of the materials described are selective and can be used to kill weeds in certain

crops. Chemicals are also available for the control of weeds in lawns, in ponds and lakes as well as many horticultural crops.

Recommendations for the use of Randox (ODAA) for the control of giant foxtail in corn and soybeans are given. Other new herbicides are dalapon for grass control and amino triazole for the eradication of Canada thistle. This chemical may be used as a preplanting treatment before planting corn.

Mimeo ID-1, "Weeding with Chemicals," is free to Indiana residents who request it from their county extension office or from the department of agricultural publications, Purdue University, Lafayette.

To Attend Convention

Ronald Severns and Melvin Keplinger will represent the Mentone F. F. A. Chapter at the

State F. F. A. convention on April 3-5, which will be held at Purdue University.

They will receive the Hoosier State Farmer degree which will be the first time such an award has been made to any Mentone F. F. A. Member:

It brings greater honors as well as additional responsibilities to themselves and the Mentone Chapter.

They have received this award because they have held the two local chapter degrees and have

been active members in the local chapter work. They have in operation an outstanding program of supervised farming and have been regularly enrolled in a Vocational Agriculture class for the last 3 years.

Psi Iota Xi Sorority Meets

Beta Epsilon Chapter of Psi Iota Xi met April 1st at the home of Miss Barbara King. 15 members answered roll call. The Secretary's and Treasurer's reports were read and approved. Three bills were presented and granted. Corresponding secretary read an invitation from Theta Chapter to attend their 50th birthday celebration to be observed April 27th at New Castle, Indiana. Mrs. Harold Utter gave a report on the Symphony at Indianapolis, March 23rd. 19 students and 6 adults were guests of Beta Epsilon Chapter.

A report was given by Mrs. Forrest Miner on the results of the Sample Fair held March 29th at the Legion Home. The meeting was closed by repeating the ritualistic closing. Mrs. Jerome Kralis will be hostess April 15th for a bridge party.

NEW VENTURE FOR VICTORY CRUSADE

Don J. Odle, coach at Taylor University, has announced that five members have already been named for the 1958 Venture for Victory crusade to the Orient this coming summer. They are: Ed. Beck, University of Kentucky, "Tink" Van Patton, Temple University; Jack Mount, University of Southern California, and Jack King and Roger Jenkinson of Taylor University. Two more players are to be selected. The team will leave the states about June 8 for a two month tour of Korea, Japan, Formosa, Hong Kong, South Viet Nam, Singapore, Indonesia and the Philippines.

Last summer the group traveled extensively in Central and South America, playing 72 games and conducting 192 religious services in churches, schools, orphanages and during intermissions at the basketball games.

SHOPPING ISSUE

Another issue of the Mentone Shopper was mailed to area postal patrons Tuesday. Many local merchants had their advertisements in it, hence some will be found missing in this issue of the News.

TO HAVE EASTER EGG HUNT

The Burket Volunteer Firemen will sponsor their annual Easter Egg Hunt, April 6th starting about 2:00 at the Burket School. Children up to and including ages 11 and 12 can participate.

LIBRARY NOTES

Where is the Mentone Library? On the South side of Main St., between Meyer's Grocery and Dr. Urschel's Clinic.

What is the charge for library service to anyone living outside Harrison, Etna and Franklin townships? 25c for 3 months - \$1.00 per year.

What are some of the newer books in the Library? "The Princess of Monaco" by Gant Galtner is the warm, appealing story of the former Grace Kelly.

"Please don't eat the daisies", by Jean Kerr and "Where did you go? Out. What did you do? Nothing", by Robert Smith are hilarious, laugh-out-loud books.

"The miracle at Kitty Hawk", contains the letters of Wilbur and Orville Wright.

"Old Yeller" by Fred Gipson is now being shown in movie theatres.

"The popular Commencement Book", by Effa Preston will be useful to High School Seniors.

CARD OF THANKS

Dr. and Mrs. Dan Urschel want to thank everyone who helped to make their 25th Anniversary Open House such a happy occasion.

A THANK YOU

I wish to thank the Mentone Fire Department for putting out the grass fire at my home recently.

Winners In Americanism Essay Contest

Janet Besson and Jim Manwaring were the local winners in the Americanism Essay Contest sponsored by the Mentone American Legion Auxiliary. Miss Besson was the Junior Hi winner and Mr. Manwaring was selected as the high school winner. This is a national contest and these winning essays are entered in the state contest.

The essays are judged on the choice of subject matter, organization of subject matter and correct usage. Judges were Mrs. Ora McKinley, Mrs. Bernice Rush and Mrs. Chester Smith.

All those in the English departments of the Mentone school participated in the contest, with Mrs. Caldwell in charge in the high school and Ken White in the Junior Hi english.

Mrs. Bernice Jones is president of the Mentone Legion Auxiliary, which sponsored the contest locally.

The winning essays were as follows:

I SPEAK FOR AMERICA

The Bill of Rights, which our country adopted in 1791, says every man has the freedom of religion, speech, press and assembly.

Our Government can not establish and make one national religion. We the people have the right to attend the church of our choice.

We also have the right to speak what we wish. That doesn't mean to yell fire when there isn't any, but does mean we can speak about our president and government, whether we think they are doing their job in a way that would be prosperous to our nation.

The people of America are allowed to meet and discuss the problems of our government. People in other countries do not always have the freedom of assembly as we do here. If they are caught holding a meeting they are punished very badly and sometimes they may take their lives.

We take for granted, many times, the freedoms we have, but what would this country be like if we were not allowed to have the freedoms we do.

The people of America have the right to vote as they wish. We have two national parties, the Republicans and the Democrats, and we are allowed to vote for our choice.

In this time and age of "Sputnik" the United States is even more important. We are running a race between Russia and our own country.

What would this world come to if someone came in and tried to set up a dictatorship in the next ten to twenty years. People often take for granted that nothing will ever happen like that. People say that our country is a

very free country where we have the land of plenty.

Our country is the greatest in the minds of all people in other foreign countries and in our own, we hope, for there are always a few who think something should be done differently.

Right now there might be a party forming. They will set up a lot of strict laws in themselves.

They won't tell anyone about their plans. The party might go on like this for several years without anyone knowing about them. In time they would acquire many members, maybe even enough to over-run our government we have today.

If you tell it to people they don't believe, they think it is a bunch of nonsense someone thought up trying to scare them.

I hope, and so does everyone else, that it will not happen to the United States of America.

This country in which we live today is the greatest. If all people think and believe this we truly will have the greatest country on earth and if the people, all working together, keep the United States as it has been it will bear the title "The United States of America."

JANET BESSON

I SPEAK FOR AMERICA

I speak for America as a democracy and a freedom loving country.

When I speak of a freedom loving country I mean a country where one may choose his own religion, and speak as he wishes with no fear of Secret Police. Many freedoms which we enjoy are not found in other countries of the world.

Every four years we here in America elect a president from several candidates of several parties by popular vote of the people. The man we elect as president is not a dictator but a leader. He cannot tell the people what they can and cannot do.

The Preamble of our Constitution starts out like this, "We the people—". Does that mean anything to you? What does that mean? To me it means that

you and I; the people, have some say so in the government. It assures me that we have a freedom of religion and speech, freedom from search and many other freedoms which our forefathers have written. The constitution which they wrote and adopted back in the 18th century still stands today with only twenty-two amendments having been added. It is a document that many millions of people study and get to know each year.

How many people in Russia have radios, electric refrigerators, electric stoves, electric toasters and television sets? Not very many. But here in America there are not very many families who do not have those appliances.

In America you are not forced to work in salt mines and other dirty places where they beat you even if you fall over from exhaustion.

Almost every family here in America have an automobile and many families have more than one.

We have a system of courts here in America where an accused person is considered innocent until he is proven guilty and he shall enjoy the right to a speedy and public trial by an impartial jury.

There are many colleges where one may go and take up what-

ever he wishes if he is qualified here in America.

One must take into consideration the public libraries and the thousands of books that are available to the public.

In how many countries can a person go down to the corner drug store and get a soda? In America you can get a soda at almost anytime in almost every city and town in the United States.

Compare the transportation in our country with that of other nations. How many other countries have as many railroads and airplanes as does America?

We have a superb banking system where we can save money.

In summary no nation can compare with America. America

has more and better natural resources, a better government that is fully run by the people.

The End

Sorority Offers Scholarships

Beta Epsilon Chapter of Psi Iota Xi, through its National organization of 90 chapters is offering 2 scholarships to Indiana, Illinois, and Ohio high school girls. The scholarships will enable them to spend one week next July at a Pre-college Institute at Purdue University speech and hearing clinic. The workshop is being financed by a \$1700 grant to Purdue from the Psi Iota Xi philanthropic fund.

The Pre-College Institute is designed as an active recruitment program to help meet the critical shortage of speech and hearing therapists. Through the novel workshop, potential college students will be familiarized with the speech and hearing profession, the employment possibilities, and the training necessary.

Twenty-four carefully selected girls completing their junior year in high school, living in and near communities where Psi Iota Xi Chapters are located, will be awarded the scholarships. The girls will live in the Purdue Union Building with all expenses paid from July 7-11, attending lectures in the mornings and serving as cadet clinicians in the afternoons. The scholarship winners will assist Purdue faculty therapists in the treatment of the more than 100 handicapped children attending the summer speech and hearing clinic held each summer on the Purdue campus. It is believed the workshop will serve to interest prospective technicians in this field by the observation of therapy techniques used with every variety of speech and hearing handicapped children, in a situation which simulates the public school therapist's program.

Application blanks will be sent out March 1, 1968 on which qualifications for the scholarships will be listed. The application blanks will be sent to High school principals, speech and hearing therapists, and all Psi Iota Xi chapters.

Psi Iota Xi has gained wide recognition for its assistance to speech and hearing handicapped children since its introduction to this field in 1938 when the sorority granted \$10,000 to Indiana University for a traveling speech and hearing clinic.

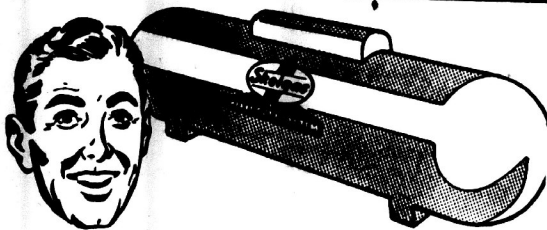

For more complete information on the Pre-college Institute at Purdue, Mentone high school girls completing their junior year this spring, may contact Joan Miner, President of the Beta Epsilon Chapter of Psi Iota Xi or Eula Smith, local chairman of the workshop project.

Mr. and Mrs. Henry Utter of Wabash spent the week end visiting Mr. and Mrs. Russell Eber.

Baptist Choir To Present Easter Cantata

A cantata of the victorious Saviour, "Hallelujah What A Saviour", will be presented by the choir of First Baptist Church at the 7:30 service on Sunday evening, April 6th. This cantata was written by John W. Peterson, and features some of the most beautiful Easter music. The choir will be under the direction of Everett Rathfon, Choir Director at First Baptist Church. Mrs. Roy

Cox will be the organist, and Miss Leah Nell Lemler, pianist. Mr. Fred Burklin, a member of the church who is a native of Germany and now a student at Grace Seminary, will read the narration.

The following special numbers will be sung in the course of the presentation of the cantata:

"Behold We Go Up to Jerusalem" (tenor solo), Mr. Roger Goodman; "Blessed Is the King of Israel" (soprano solo), Mrs. John Fredrick; "My House Shall Be Called A House of Prayer" (tenor solo) Mr. Jim Unzicker; "Tis Midnight On the Olives Branch" (alto solo), Mrs. Fred Lem-

ler, (trio), Shirley Goodman, Barbara Unzicker, and Janice Davis; "Behold I Bring Him Forth To You" (baritone solo), Mr. Roy Cox; "He Carried The Cross For Me" (tenor and alto duet), Roger Goodman and Mrs. Harry Goehring; "Father, Forgive Them" (tenor solo), Mr. Harry Goehring.

CELEBRATES 7TH BIRTHDAY

On Saturday, April 5th, Debbie Bowser was honored with a birthday party at her home.

Those present were Peggy Whetstone, Sharon Lewis, Nancy Jo Kurn, Marsha Goodman, Lu Ann Sarber, Marcia Owens, Linda Fawley, Julia Olson, Victoria Lee Bowser and Leah Nell Lemler.

Delicious refreshments and games were enjoyed by all.

Flying Club Lowers Costs

At the regular monthly meeting of the Mentone Flying Club, held at Dr. Wilson's office Friday evening, it was proposed to make it possible for interested persons to take flying lessons in the club plane without a full membership. Membership is \$165 initiation and dues of \$5 per month. Those who would like to fly can now engage in the sport by paying a \$25 starting fee and dues of \$10 per month. Under this program one-half the monthly dues and the starting fee, up to a total of \$65, can be applied toward a full membership at any future time.

All the members of the Flying Club have now taken their solo flights and they are now building up time and attempting to pass the CAA tests for a private pilot license.

Allen Herendeen, manager of the Mentone airport, has started construction of a new hangar building, 56 x 31 feet. The cement block structure will also have an office and repair shop. It is to be located at the south end of the runway, near the highway. The runway is to be extended south to the highway, and there will be a parking space for motorists.

Value Of Corncobs, Sawdust

Lafayette, Ind. One problem that is bound to arise on farms this time of year is the fertilizer problem. How can farmers reduce their fertilizer bills? Can farmers use corn cobs and sawdust successfully as fertilizer? What value do these products have on soil improvement?

Cobs, sawdust and shavings all have considerable advantages over straw as bedding, but when it comes to the comparison to fertilizers it becomes a different story.

According to Helmut Kohnke, Purdue University agronomist, when cobs, sawdust or shavings are dry they will absorb about four times their weight in liquid manure when used as bedding. A ton of this material will absorb about 75 pounds of nitrogen and about 75 pounds of potash from cow manure and will be worth about \$15 (figuring the market prices for fertilizer materials).

A tone of manure produced with cobs or sawdust does not make as large an increase the first year in crop production, as does straw, but the residual effect is usually larger. The microorganisms that decompose the sawdust tie up a large portion of the nitrogen. Later, when these microorganisms die and decompose, the nitrogen in their bodies return to an available form suitable for plant growth.

The long time effect on soil fertility by using these materials is usually beneficial. The time needed before this effect is realized is shortened if the materials are allowed to decompose first. If the materials were decomposed before used as bedding there would be little benefit from using the materials in the first place. However, when these materials are used as bedding they will absorb enough manure to aid in their decomposition. The bedding will not tie up much soil nitrogen—the material that aids in the break-down of the particles.

When these bedding materials have been spread on the field there will be little depressing effect on the crops, because the time required for decomposition will be less. These materials will decompose faster if there is some commercial nitrogen applied at the same time. Any depressing effect that the application of cobs may have on crops will be eliminated by the addition of 25 to 30 pounds of nitrogen to each ton of the waste materials.

WE CAN COUNT ON THE WEEKLIES

The American Press states that: "the continuation of country weeklies is one of the few things we can count upon in this troubled world." Here are some of the reasons why.

People who read metropolitan

dailies do so as a matter of duty in order to get the "big news." But, if they live in a suburban town or rural area, they read their country weekly because they want to. It gives the local stories that mean something in their lives.

Respected weeklies have survived every crisis which ever hit this country because merchants in small towns will continue to advertise in their local weekly come depression or prosperity. It is a sure way of bringing in customers.

Circulation of weeklies is going up because there are more people living in the suburbs and in the country. Big city papers are doing well to keep even.

More and more weeklies are being published successfully right in the heart of metropolitan cities to fill the insatiable demand of people for local and neighbor-

hood news and advertisements of neighborhood stores.

The nation's thousands of home town newspapers are heading for their biggest period of growth, influence and responsibility. They are champions of the idea that the individual must own property and get ahead according to his

ability in a free economy to retain the priceless right of political self determination under a representative form of government. The free press is our best defense against tyranny. —Industrial News Review.

Driving Not Same On Toll Roads

Emergency stops on the Indiana toll road will be answered promptly by roving maintenance patrols if motorists pull into the right emergency lane, raise the car hood, and attach a handkerchief to the left front door handle or radio antenna, according to Capt. Alva R. Funk, commander of the Indiana state police toll road district.

Motorists have a "100 percent probability of being involved in an accident if they stop their autos on the traveled portion of the road," Capt. Funk warned.

After raising the hood and placing the handkerchief, the motorist should wait in the car, and the toll road distress signal will be answered in a matter of minutes, he added.

Both the Chicago Motor Club and Funk suggested the following for motorists traveling on toll roads and superhighways:

—Before starting a trip, get a good night's sleep, check the car's mechanical condition, fill the gas tank and carry such travel essentials as a flashlight, jack, pliers, open-end wrench, chemical fire extinguisher, first-aid kit and trouble light.

—To guard against highway hypnosis, keep the eyes roving, frequently check the dashboard panel, occasionally glance at the rear-view mirror, vary the speed of the auto from time to time, engage in conversation, listen to stimulating music and keep fresh air in the car.

—Avoid long periods of driving. Stop at least every two hours. A motorist's efficiency wanes after five or six straight hours of driving, regardless of his capabilities.

—Use the rear-view mirror constantly, watching for the car which seems to come from "nowhere."

—Eat lightly on a trip as overstuffing brings on drowsiness. Wear loose-fitting clothing to combat that choked, listless feeling.

—If a motorist must stop, he should pull well off the driving surface. A stalled car should be guided off the travel portion of the road while still in motion. Motorists should never alight from a car on the traffic side.

—Night driving calls for a speed of 10 miles an hour under the daylight speed. Remember to dim lights when approaching a vehicle as the glare from the driver's rear-view mirror may blind him temporarily.

—Signal before pulling out to pass or cutting in on traffic, and allow plenty of room for these maneuvers. It is easy to miscalculate on a toll road or superhighway.

—Drive by the clock, not by the pace of other cars. An experienced, long-distance driver sticks to averages, and sets a pace that will get him to his destination in a reasonable time.

—Drive sensibly on access roads, and use to advantage the speed-changing lanes which are available for safe entries and exits. Entering a high-speed highway from a standing start is hazardous.

In bad weather, remember that safe braking distance and vision are reduced. Efficient windshield wipers and lights are essentials when visibility is lessened by storms.

Drowsiness or highway hypnosis is brought on by driving at fixed speeds over long stretches of straight road with no curves, intersections or oncoming traffic to keep the driver alert, according to Matthew C. Sielski, director of the Chicago Motor Club's Safety and Traffic Engineering department.

"There is no one panacea for highway hypnosis," Sielski said. "It's a combination of little things a motorist does that will keep him alert and make his trip a safe one."

Trees Are Profitable

Private land owners—industries and individuals—planted almost a billion trees in the United States last year. This year, under the impetus of the Soil Bank's Conservation Reserve program, designed to encourage retirement of farmland from production of surplus crops, even more trees will be planted. The 1958 terms of the Conservation Reserve provide special financial incentives to farmers who contract to plant trees on some or all of their crop land.

Trees are a profitable farm crop, says Ed Lott, Purdue University extension forester. Properly managed, trees will yield a substantial annual income after initial establishment and Conservation Reserve payments under a 10-year contract have run out. United States Department of Agriculture experts predict a rising increase in demand for timber—25 to 40 percent more will be needed by 1975 to meet the needs of a growing population.

Farmers and other land owners who are interested in joining this general movement to replant America's forests and thereby replenish a dwindling national resource should get in touch with their county agricultural agent or local Agricultural Stabilization and Conservation Committee, suggests Lott.

Myron Dean Kiser and son, Stephenson of San Lorenzo, California, called at the Ora Tucker home Sunday afternoon.

Lima Beans Need Shade

A good lima bean supply can be harvested this summer if gardeners pay attention to where they plant the crop according to W. B. Ward, Purdue University extension horticulturist.

When lima bean plants grow a lot of foliage but set few pods, chances are there is too much direct sunshine on the blossoms.

When the bean blossoms are exposed to the hot afternoon sun, pollination does not occur.

To increase the yield of bush lima beans, Ward recommends that the crop be planted next to rows of corn or some other tall plants in order to give the beans some shade and protection from the direct rays of the sun.

If the rows in the garden run north and south, the lima beans should be planted on the east side of the corn rows. When the rows of corn run east and west, the beans should be planted on the north side, thus providing good shading and cooler temperatures.

Varieties of bush lima beans recommended are Fordhook 242, Thorogreen and Triumph. The bean seed should be planted after the danger of frost is over.

Ward suggests that the seed be planted six to eight inches apart in the row. Soil over the seed should be kept loose to prevent damage to the new plant as it emerges.

Elwin Teel and children visited his mother, Mrs. Neva Teel Saturday afternoon.

3 big reasons why you won't want to miss ...

CHEVY'S APRIL SALES SPECTACULAR!

1 SPECTACULAR STYLE—Proved by leading fashion designers!

The smartest look on the road! That's Chevrolet in all 17 glamorous models. And proved, too. For Chevrolet's sculptured elegance and gracefully sweeping lines captured the imagination of world-famous designers, inspiring a fabulous collection of women's fashions.

2 SPECTACULAR PERFORMANCE—Proved on a round-trip run over the Andes!

From coast to coast across South America, up over the Andes from Buenos Aires to Valparaiso, and back again in just 41 hours and 14 minutes! Chevy went all the way with the hood sealed shut, without a drop of water or oil added—experiencing every extreme driving situation you can think of for 1,900 straight miles. Chevrolet proved its sure-footed roadability and boundless V8 energy, with the Automobile Club of Argentina certifying the results.

3 SPECTACULAR VALUE—Your Chevrolet dealer's ready to prove it!

He'll show you that Chevy's the only completely new car in its field, today's biggest dollar buy. Yet prices begin right at the bottom of the ladder. See him this month for sure!

You'll get the best buy on the best seller!

Poultrymen On TV

"Today's housewife gets eggs produced in large, neat new hen houses, not from barnyard flocks," said Paul Jackson, County Agricultural Agent, Warsaw, Indiana.

"And the eggs are kept in coolers, under sanitary conditions, to insure freshness," continued Kirk Livengood, Tippecanoe, Indiana, and Jim Vannice of Warsaw, Indiana.

The occasion was Wayne Rothgeb's Farm Program on Port Wayne's TV Station, WKJG. All three guest speakers are members of the Kosciusko County Poultry Association. They pointed out the great progress being made in bringing high quality eggs to the Housewife.

This TV program is just one in a number of activities of the KCPA in promoting eggs. Egg carton inserts, signs, egg recipe booklets are also being distributed.

This year's officers heading this group of progressive poultrymen are President, Robert Ferguson, Warsaw; Vice-President, Carroll Eiler, Atwood; Secretary-treasurer, Harrison Bornmann.

BEAVER DAM

School News

By Sherry Babcock

Students and Teachers enjoyed their Easter vacation last Friday and Monday.

Beaver Dam Track Team plays Atwood at Beaver Dam this afternoon. We all hope the Beavers win their first meet of the season. Good Luck Boys!

Next Thursday they go to Leesburg for a Track meet a 3:30.

Our Spring Musical will be held at the Beaver Dam school next Wednesday at 7:30.

Friday, April 18th will be Pre-

school day at Beaver Dam. We are inviting all Pre-schoolers and their parents to attend school from 9:00 to 12:00. They will be our guests for lunch at noon. This short time at school should prove to be a real value to those who will be entering the first grade next fall. A student in order to enroll next fall in the first grade should be 6 before October first of 1958.

The Junior-Senior Banquet will be held this Saturday night.

Grade cards will be distributed next Wednesday evening. Everyone is looking forward for good grades.

WAYNE SHOLTEY WINS TRACTOR DEMONSTRATION

Wayne Sholtey of Milford was this week's demonstration winner in the 4-H Tractor Maintenance Club. Using toy model tractors Wayne demonstrated how tractors could be caused to tip over by hitching the load too high. He also demonstrated the danger of running power take off shafts unshielded.

Ray Clark of Silver Lake demonstrated the proper procedure to drain and replace tractor crankcase oil, and Howard Shull of Claypool gave an illustrated talk on tractor tire care.

Purdue farm safety specialist Dick Willsey demonstrated how gasoline vaporizes, collects in low spots and explodes. Mr. Willsey stated that on a pound for pound basis gasoline has more explosive power than dynamite and should be handled with respect at all times. He also showed the boys how high speed, rough ground,

sharp turns, and slopes could cause a tractor to roll over.

Charles Decker, Herbert Moore, Lee Norris and county agent Paul Jackson assisted with the meeting.

REVIEW OF "BRIDGE TO THE SUN"

W. S. C. S. of the Mentone Methodist Church will meet Thursday, April 17, 7:45 p. m. at the church. Please notice change of place. Mrs. Russell Simmons, Warsaw, will review the book, "Bridge To The Sun." There will also be special music. Genevieve Nelson is program chairman and Arleida Wilson, hostess chairman. We urge your attendance.

LEMMON NAMED TELEPHONE MANAGER

Tony E. Lemmon has been named district commercial manager of the North Manchester exchange of General Telephone, according to an announcement by C. B. Hansen, division manager.

Lemmon succeeds Norman E. Watson, who has been transferred to the company's headquarters in Fort Wayne, where he will serve as public office supervisor.

During his six months with the company, Lemmon has served in the Fort Wayne office as collection clerk, commercial service representative and commercial survey representative.

An Army veteran, Lemmon is married and has two daughters, ages 3 and 4. His family will join him after suitable housing is arranged.

IN THE LONG, LONG AGO—Eba Bayne recently brought us this old print of the students who were attending the Guy School, two and one-half miles northeast of Mentone, now on the Charles Eaton place. It was then known as old No. 11. George McKrill, now with the Lake City Bank at Warsaw, was the teacher. The identifications are as follows:

Front row—Lydia Ellis, Ray Goodman, Ora Ellic, Riley Shoemaker, Odith Eaton, Delphia Shoemaker, Grace Kist. Second row—Lloyd Zent, Thomas Clark, Roy Kist, Carl Underhill, Ora Beeson, Ivy Shoemaker, Orville Kist, Eba Bayne. Back row—Fred Doran, Arthur Goodman, Flavie Underhill, Anna Lee, George McKrill (teacher), Blanche Kist, Elmer Beeson, Nora Beeson.

Highway Safety With Tractors

The number of farm tractors traveling on Indiana's highways will increase many-fold during

the next few weeks, according to Dick Willsey, Purdue University farm safety specialist.

Almost all of these tractors, while traveling on the highway, are nothing more than "sitting ducks" to the fast moving automobiles that travel highways ev-

ery day. A farm tractor moving at the rate of eight to ten miles an hour is about the same as standing still when compared with an automobile moving 60 to 70 miles an hour.

Accidents involving farm tractors and automobiles, or trucks, are not unusual on our Indiana highways. In view of this, Willsey warns all farmers to use extra caution while driving back and forth to the field this spring—especially in the early spring when the days are shorter, and farmers are working longer hours, returning home after dark.

Before going out on the highway with a tractor or some self-propelled piece of machinery Willsey suggests putting a red flag on the tractor to attract motorist's attention. If the red flag is attached to a pole mounted above the tractor it will aid

motorists in seeing the tractor in hilly areas.

Willsey adds that if farmers have to travel on the highway very often a special light should be attached to the rear of the tractor. It is illegal to use a "plow light" on the rear of a tractor while traveling on the road after dark. These "special" lights are available at machinery dealers. To avoid being a "sitting duck" on the highway, Willsey suggests that farmers drive their tractors on the berm of the road whenever possible. It may take a few more minutes to get home but it is cheap insurance that the farmer will get home safely.

Willsey cautions that operating tractors at excessive speeds on

roads increases the chances of overturn—this hazard is increased when the rear wheels of the tractor are set in. Row-crop tractors, with narrow front ends are especially likely to upset.

How to Select A Hybrid

"When selecting a hybrid, first decide from experience what growth period (maturity or earliness) is suitable for the field you will plant. This depends on the location of your farm and on the soil type, the soil condition, and the expected planting date.

"Next, among hybrids with this growth period or a slightly shorter growth period, choose one which has a consistently good performance record.

"Select hybrids by specific No. rather than by brand name alone. Performance tests show that no one has a monopoly on superior hybrids and that not all hybrids of a seed producer are equally good.

After choosing a hybrid, buy seed of good quality.

"Before growing a large acreage of a promising hybrid, it is well to try it on a small area be-

side a kind which has done well on your farm in previous years."

The suggestions above come from Paul L. Crane and A. J. Miles, Purdue University agronomists. More information on Dent Corn hybrids may be obtained in Research Bulletin 608, "Performance of Dent Corn Hybrids in Indiana, 1953-57." This publication, free to residents of Indiana, is available from the agricultural publications office at Purdue or from county agents.

Theodore Thompson of Claypool, Indiana says, "For some time I had been thinking about using butane gas. So I got in touch with Mr. Dwight Bechtol of Burket, Indiana, who sells butane and talked it over with him.

So two years ago I made the change over on my Minneapolis U. Tractor using a complete factory charge over. I farm two hundred acres and find that my tractor uses less fuel per hour with butane.

It has more power, idles nicer and has better governor action.

"I also find by using butane my fuel bills are a lot less than when I was using regular gas. It is also a saving on oil. Only changed oil once all last summer."

Basketball Camp For Young Boys

Coach Marion L. Crawley of the Lafayette Jefferson Bronchos and Athletic Director Don J. Odle of Taylor University, have an-nounced plans for their second annual Junior Basketball Camp. This camp, to be conducted at Taylor University, Upland, In-diana, is held for boys between the ages of ten and fourteen. Last year approximately one hun-dred and sixty boys were enrolled in the camp. As a feature of the program they heard Elmer Mc-Call, coach of the South Bend Central State Champions, Coach Woody Weir of Marion, Coach John Freidinberger of Mississ-inewa, and "Coach of the Year" Paul Harper of Nobleville, plus two outstanding coaches from Pennsylvania and New York.

A competent staff will again head the two, one week sessions,

beginning on Sunday, August 10 to 16 and August 17 to 24.

The aspiring young athletes will be taught the fundamentals of the game in two two hour ses-sions daily. A citizenship hour will be conducted each morning with an FBI agent, a state troop-er, a judge and a scientist, talk-ing to the young boys about prob-lems in life greater than basket-ball.

Each boy is given a chance to play on a league basketball team, go swimming, participate in the talent contest, along with many other interesting activities.

For further information, write to Box 163, Upland, Indiana.

Farmers seeding birdsfoot tre-foil this spring should use five pounds of the Empire variety with three pounds of timothy, say Purdue University agrono-mists. But be sure to inoculate the trefoil seed with specific trefoil inoculum. Spring oats make an excellent nurse crop for trefoil, provided the oats are grazed or cut for silage to re-move competition for sunlight. Trefoil is a permanent pasture legume and should not be seeded on rotation land.

BEAVER DAM School News

By Sherry Babcock

Sgt. Martin of the Marine Corps recruiting station at Fort Wayne talked to the Junior and Senior boys Tuesday.

The April Farm Bureau meeting will be held next Tuesday evening at Beaver Dam School.

Gilead and Akron will be here at Beaver Dam next Tuesday evening after school. The results of Beaver Dam, Akron, and Atwood Track Meet is:

Akron 40; Beaver Dam 36½; and Atwood 36½.

Approximately 28 girls and 8 adults will leave Beaver Dam at 10:00 to attend the Home Show at Indianapolis Saturday. Mrs. McFadden is our Home Economics Instructor.

The Beaver Dam Junior Class is putting on a play, which is entitled "A Ready Made Family." It will begin Thursday and Friday nights, April 24th and 25th at 7:30.

The following pupils are in the play: Margaret Baugher, Marilyn Horn, Dona Kelley, Pat Hollo-

way, Carolyn Miller, Carol Welty, Bill Whetstone, Bob Stackhouse, Mike Summe and Max Ummel.

Last Saturday evening the Junior and Senior reception was held at Fort Wayne. The juniors, seniors, and teachers ate at the Hobby House and saw the movie, "The Bridge on the River Kwai." All had a good time.

Wet Corn Possibilities

We are approaching the crucial season for corn in cribs, according to Purdue University agricultural engineers.

Farmers who thought their corn was dry enough to store should make frequent checks to see that the corn is not spoiling. If farmers have corn with more than 17 percent moisture now, they should give serious consideration to some methods of removing the danger of corn spoilage.

According to the engineers, the following considerations should be evaluated.

Can all the doubtful corn be fed before it spoils?

Is the corn low enough in moisture to allow moving to a smaller crib or cribs?

Can corn be shelled and dried in a commercial dryer?

Should the farmer haul the corn to the elevator for drying?

Should the farmer store the corn at the elevator?

Can existing cribs be fixed to unheated drying systems?

In some situations where the corn is not too much above the

danger point in moisture, the corn may be re-elevated and mixed and put in a narrow crib. Moldy, soggy ears may be sorted out along with the shelled corn, husks and other debris which will allow more ventilation. Even after the corn has been mixed and moved, frequent moisture checks should be made. If the moisture content is not below 15½ percent by May 1, additional measures should be considered.

High moisture corn can still be dried mechanically if the cribs can be fixed to make this type drying economical.

If storage space is available, some of the high moisture corn could be shelled and dried in batch dryers. This practice, however, may be more attractive to hog feeders than cattle feeders.

Since there is corn in cribs that may spoil, a moisture check is a non-cost investment that could pay big dividends.

Growth of willows and other brush in drainage ditches should be prevented by the use of chemical sprays, say agricultural engineers at Purdue University. The capacity of a drainage ditch may be reduced 50 percent by a heavy growth of brush.

Your First Ride In A Jet Plane; It Won't Be Long In Coming

The big public fanfare hasn't broken yet, but jet travel for U. S. airline passengers is just around the corner, according to the editor of Changing Times, the Kiplinger Magazine. In less than a year the first U. S. jet commercial planes will be in service, and in a year and a half nearly one third of all U. S. passengers will be flying in jet planes.

From Chicago, it will be one hour and 40 minutes to New York; three hours 50 minutes to Los Angeles, two hours 50 minutes to Miami. The New York to San Francisco traveler will be able to leave at 5 p. m. dine on the plane and arrive in time for a show or an evening on the town.

You'll cruise in lavish comfort at between 550 and 600 miles per hour. Your swept-winged plane will swoosh through the air at 30,000 feet, high above weather and turbulence. Your sensation will be one of vibrationless ease, disturbed only by the subdued whish of the jet exhausts. Many of the planes will carry up to 155 passengers—almost twice the number who fly on the mammoth DC-7's.

The major jets in the sky will be the Douglas DC-8, Boeing-707 and Convair-880. Some will be for short and medium-range trips. Others, such as the Boeing Inter-continental, will span the oceans. So fast and so large will be these planes, a single one will do the work of four passenger trains or 60 buses.

Once the airlines recover the billions spent on the new planes, any economies may show up on the fares you pay. New jets will be able to fly passengers at a lower cost than existing planes because of their speed and capacity.

About 66,000,000 passengers will fly in jets and other planes in 1960. Airlines will chalk up close to 35 billion passenger miles. For an eye-opening comparison, note the 1950 figures: 17,000,000 passengers; 8 billion passenger miles.

Mr. and Mrs. M. O. Smith arrived home Sunday afternoon after spending the winter in Florida.

Library News

At last, spring is here and everyone is busy. If you are building a new bird house this year, the Mentone Library has books containing plans and layouts for wren houses, woodpecker houses and a robin nesting shed.

We also have layout and plans for playground equipment and poultry house and farm equipment.

For the gardener, we have many books including "The gardener's A B C of pest and disease."

The Housecleaner will find "How to clean everything", by Alma Moore very useful. Also of interest are our many books on home decoration and the Popular Mechanics booklet on "Do-it-yourself Built-in furniture."

Reading Club Meeting

The Mentone Reading Club met at the home of Mrs. Emma Clutter on Wednesday evening, April 2. Assistant hostess was Miss Von Jenkins.

Following the business session, the program committee had charge. The chairman, Mrs. Bernice Rush, read an article, "Preserving Our Heritage," dealing with conservation, by Mrs. Marion T. Weatherford.

Mrs. Maude Snyder then presented four of her students in a musical program. Sue Shoemaker sang, "Ole Man River," Marilyn Horn sang "Rain," Billy Yantiss played two piano solos. They were "Griegs Concerto in A Minor" and "Solfiegietto," by Bach. Carol Rathbun sang, "Chimes of Spring," as the concluding number.

The May meeting will be a pot-luck supper at the home of Mrs. Charles Manwaring.

Purdue University agronomists recommend that some potash be included in the row fertilizer for corn where soil tests show less than 150 pounds of available potash. Where soil tests are above 150 pounds, all the needed potash can be supplied in broadcast applications.

Growing Of Salad Crops

Ingredients for fresh, crisp salads can be grown in the home garden this spring, even though the amount of space is limited.

W. B. Ward, Purdue University extension horticulturist, says radishes, kohlrabi and garden greens such as kale, lettuce, mustard, spinach and endive may be planted as early in April as the soil can be prepared. Even beets and turnips, if not intended for use as root crops, will make excellent greens for appetizing salads.

Radishes will be ready for use in 20 to 25 days and some of the greens can be harvested in 35 to 45 days after planting.

Gardeners will have the best success with greens grown on a well-fertilized soil. From six to eight pounds of fertilizer—such as 10-10-10—should be spread per 100 square feet and plowed or spaded under.

A week or so after the plants are well established, the vegetables can be "side-dressed" by spreading a handful of fertilizer every 8-10 feet along the row and about two inches away from the plants.

Although early spring vegetables are not often seriously damaged by insects, a "One Package" or "All Purpose" dust or spray will provide excellent control of the garden pests.

John A. Elkins, 54, a lifelong resident of the Tippecanoe community, died unexpectedly in his home at 10 a. m. Thursday of a coronary occlusion.

Local News

Those from Mentone who attended the County Federation of Clubs at Pierceton on Wednesday were: Mrs. Denton Abbey, Mrs. Bernice Rush, Mrs. Earl Shinn, Mrs. Vance Johns, Mrs. Don Bunner, Mrs. Charles Manwaring and Mrs. F. B. Davison.

Mr. and Mrs. Sheridan Snyder of Flint, Michigan, spent the week end with Mrs. Maude Snyder.

Mrs. Dorothea Cullum, Franklin Park, Illinois, is visiting at the Artley Cullum home.

J. S. Johns is visiting at the home of his son, H. V. Johns, this week.

Motorists should make all turns with both hands on the wheel, the Motor Club says. Hand signals should not result in one-armed turns, and should be terminated just prior to the turn.

When parking a car, the Motor Club says a motorist should apply the parking brake; put the gearshift lever or selector in the reverse or parking position; turn off the ignition switch; take out the ignition key; roll up the windows; lock the car and take the keys with him.

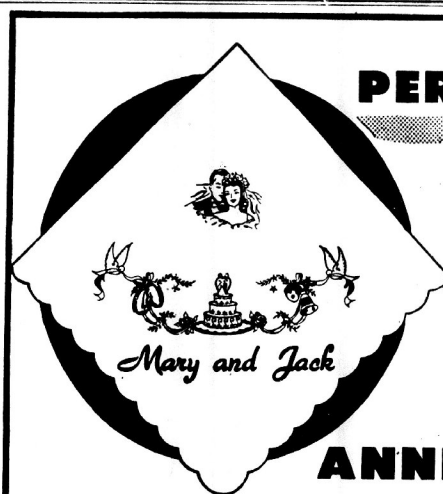

Fertilize the garden soil before plowing or spading, say Purdue University horticulturists. Three to four inches of good manure plus six to eight pounds of a 1-1-1 ratio commercial fertilizer plowed under will benefit all vegetable crops.

Grasses and legumes should be seeded together, according to Purdue University agronomists. You'll get higher yields of better quality forage, control erosion and control weeds. There's less danger from bloat, less danger from heaving damage to alfalfa and you'll get a longer grazing season.

Silage Making Practices

Spring is just around the corner and Indiana dairymen must decide whether to make their meadow and some of the cereal grains into silage. According to D. L. Hill and C. H. Noller, Purdue University dairy scientists, this decision should be made now.

The dairymen point out that the fundamental objective for making green crops into silage is to retain the nutrients in a palatable condition. Too often the benefits from making green silage are not obtained because of poor fermentation or excessive storage losses.

Research in the Purdue dairy department, as well as that by other agricultural experiment stations, reveals that the losses in silage making may be in staggering proportions. It is true that many tons of valuable feed are literally "gone with the wind" or "down the drain." And just as serious as the losses—the cows do not like that which is left. Any one, or all of these losses may occur.

There is a "tax" which must be paid for using a process where there is a fermentation. If a poor fermentation should develop, the "tax" is much greater. There are losses resulting from surface spoilage, heating and moldy silage. Another loss is that which leaves the silo through run-off. Total losses may range from eight to 50 percent of the forage dry matter put into the silo. Sometimes the entire amount of silage is spoiled and cannot be fed.

Hill and Noller say that the basic rule in making silage is the exclusion of air. This rule is violated most frequently. It is a serious violation. Air is the enemy of good silage. The more surface exposed, the greater the total loss. Surface losses are greatest in open stack silos. Losses can range from 25 to 50 percent. Bunker and trench silos have an average loss of 12 to 25 percent, upright silos have two to five percent loss and no loss in the airtight silos. The depth of the surface spoilage is not a true measure of the total amount of spoilage. There is more loss than can be seen. Experimental work indicates that one foot of spoilage on the surface may represent two to three feet of the original green crop. In the horizontal silos, which are exposed to the drain, the passage of water thru the spoiled layer reduces the palatability of the silage below. Reduced palatability is reflected in lower consumption. Surface losses can be eliminated by the proper use of airtight and watertight covers.

Hill and Noller recommend that dairymen plan well ahead if they make silage, and follow these rules:

Harvest the crop early when the nutritive value is high.

Use fine chop, fill rapidly and

How To Help Your Daughter Become A Happy Adult

If you want your daughter to grow up to be a happy successful woman, your influence had better make itself felt now if you want it to be effective, according to the editors of Changing Times, the Kiplinger Magazine. In a copy-righted article, "Help Your Daughter Plan Ahead," the editors give some tips to anxious mothers and fathers on raising teen-aged girls.

During her teens, a girl is a bundle of contradictions, the editors point out. Outwardly independent, she is inwardly baffled and frightened by what lies ahead. So the confidence your daughter needs to take any new situation in stride has to be developed. And this requires the tact and patience of a master diplomat.

Beware of being over protective and overbearing. She must learn to think for herself. Don't push her to join a club or dictate who her friends should be.

Open up her own capacities and interests to her. Show her that you are pleased with her and her regard for herself will grow.

Don't be overcritical of her mannerisms, language or dress.

pack well to eliminate the air.

Control fermentation by using an additive when necessary.

Seal the silo to keep air out, and prevent surface spoilage.

Remember times change. She will have to grow up, not in your world, but hers.

Induct her into the arts of cooking, housekeeping, dressing, conversing, dealing with men, caring for children. Give intelligent attention to what she says about books, politics, people—don't make her feel that she's "nothing but a girl."

Help your daughter set goals. Your job is not to yank her back to earth from her dreams of fame or glamor, but to help her understand that her life can be meaningful.

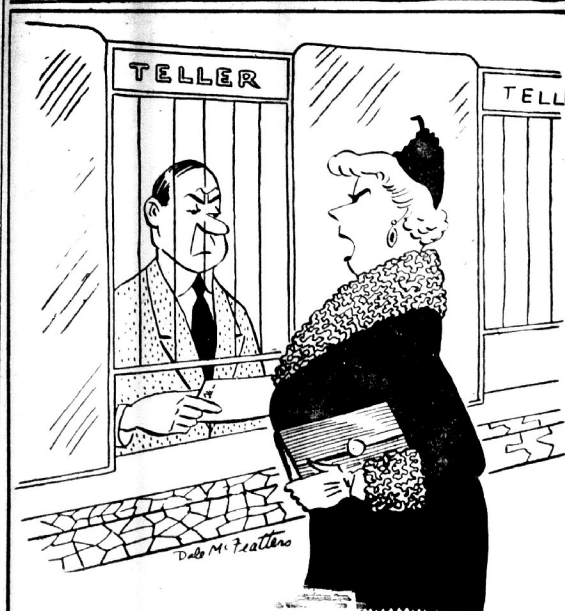

This means she must become an adult woman who has the ability to love and work whether the work is in her home or office or both. To help her learn how to love, there must be plenty of it around your house. And, to help her learn how to draw satisfaction from her work, lead her toward understanding of her role as a woman.

Point out that she doesn't have to compete with men to prove she's as good as they are. Help her learn that becoming a wife and mother is the healthy and happy fulfillment of her nature.

Motorists should watch children in their car lest they accidentally trip the door handle and fall out of the moving vehicle, the Motor Club says. On long trips planned entertainment for children is recommended.

Merry Molly's Club Meets

Merry Molly's Home Demonstration Club met Monday evening at the home of Mrs. Dale McGowen with Mrs. Robert Hilschman acting as co-hostess.

The meeting was opened by giving the pledge to the flag and club creed and singing "America the Beautiful." Meditation was given by Mrs. Al Runhells. Mrs. Don Bennett gave the health and Safety report. The song of the month, "When You Wore a Tulip" was sung by the group.

Program planning was given by Mrs. Robert Hilschman and Garden lesson by Mrs. Herschel McGowen.

Mrs. Glen Mellott, president, presided at a short business session, plans were made for the club trip on Wednesday. A bulb exchange was enjoyed by all. Mrs. Dale McGowen received a gift from her Secret Pal Mrs. Donald Bennett and Mrs. Jerry Hudson won the door prizes.

Delicious refreshments were served to 15 members and one guest, Mrs. Kenneth Bush.

The May meeting will be held at the home of Mrs. Glen Puterbaugh.

Friendly Neighbors Meet

The Friendly Neighbors Home Demonstration Club met at Pete's Restaurant on April 3rd. Mary Shirey opened the meeting with

the pledge to the flag and club creed. Maude Romine led in singing "America the Beautiful" and "When You Wore a Tulip." Goldie Jefferies gave the meditation.

Health and Safety remarks were given by Altha Harold on Home Hazards. Helen McGinnis led in a discussion on Program planning for the Club. The lesson on gardening was presented by Rhoda Jones and Dora Whetstone.

Roll Call was answered by 19 members giving their favorite colors.

Refreshments were served in an easter atmosphere by the hostess, Myrtle Wentzel assisted by Mary Welch.

On Tuesday, April 15th, the Club celebrated their anniversary with a trip to South Bend. Delicious dinners were enjoyed at Marks Restaurant, after which the members attended the Granada Theater where the academy award winning movie, "The Bridge Over the River Kwai" was being featured. Needless to say a good time was had by 19 members.

Methodist Church News

"The Spirit-level Family" will be the title of a 29-minute, color film that will be shown at The Mentone Methodist Church at the 9:30 service of Divine Worship this next Sunday, April 20th. The adult choir will sing an anthem.

This film is being shown in conjunction with the observance of the annual "Every Member Canvass." Sunday will be known as "Bridge-builders' Day", because members and friends of the local Methodist Church will be given an opportunity to build a bridge of pledges covering 52 weeks of Christian ministry through their church. The proposed local expense budget for the next Conference Year beginning June 1st amounts to \$13,328.00, and the benevolence budget will be \$2,245.00.

The visitation-phase of the Every Member Canvass will begin Sunday afternoon at 2:00 o'clock. Mr. Ralph Mollenhour is the chairman of this program, and the director of the canvass. He will be assisted by members of The Board of Stewards and the staff which is selected by it. Announcements of the results of the canvass will be given on "Victory Sunday", April 27th, at the 9:30 service of Divine Worship.

Co-directors of The Every Member Canvass are: Mrs. Herschel Teel and Mrs. Albert Hatfield. Chairman of The Finance Commission responsible for preparing the proposed budgets and for making sure that members and friends of the church have an opportunity of underwriting those budgets with pledges each year is Mr. Harold Utter.

According to Federal-State statisticians at Purdue University, growers in Indiana intend to plant 950 acres of onions for dry onions in 1958. This compares with 850 acres planted and 800 acres harvested in 1957.

**Furel Burns
Buried Today**

Furel R. Burns, 65, who formerly operated a bakery in Mentone and who helped organize the First National Bank in Warsaw in 1937, died at 6:30 Monday morning at his home in No. Manchester. Death was due to lung cancer.

Mr. Burns had resided in No. Manchester since moving from Mentone 16 years ago. He operated a bakery there prior to his retirement. He was a member of the Methodist church, Masonic lodge, Scottish Rite and Mizpah Shrine, Eel River Shrine club, and Rotary. He was also an organizing member of the Tribe of 20 club, a bakers' organization.

The deceased was born Aug. 15, 1892, at Akron, the son of David H. and Aretta (Masteller) Burns. August 18, 1915 he was married in Rochester to Edna Taylor, who survives.

Other surviving relatives are a daughter, Mrs. Carlyle K. (Jean) Paulus, Elmhurst, Ill.; and three grandchildren.

In 1952 Mr. Burns helped establish the Commercial Investments firm in Warsaw. He has since been a director of that firm as well as a director in the bank which he helped organize.

Funeral services were held at the Bender funeral home in No. Manchester at 2 p. m. today (Wednesday) with Dr. Orrin Manifold and Dr. V. F. Schwalm officiating. Burial was in the Oddfellow cemetery at Rochester.

Honorary pallbearers were A. I. Nelson, Donald Vanderveer, Reub Williams, William Hadley, Russell Spears, William Nye, James Mitchell, Ross Sittler, Mrs. Walter and W. Robert Hall.

AUTO HITS CHURCH

An auto, driven by Mrs. Kenneth Barkman, Mentone, ran into the Pilgrim Rest Baptist church, located on the curve of Road 19 at the Tippecanoe river, Monday morning. Due to the dense fog she was unable to see the turn and the auto continued ahead towards the church. There was only minor damage to the auto and an estimated \$600 damage to the church building. Mrs. Barkman suffered only bruises.

Mrs. Dorothea Cullum called on Mrs. Edith Rose Saturday afternoon.

Parents of Twins

Twin girls were born to Mr. and Mrs. Ted Ward at the Woodlawn hospital Friday morning. Tamera Sue weighed six pounds two ounces and Debra Lou balanced the scales at four pounds 14 ounces. Grandparents are Mr. and Mrs. Ralph Ward of Mentone and Mr. and Mrs. Leslie Lockridge of R. 5, Warsaw. The twins and Mrs. Ward arrived at their Crystal Lake home Tuesday afternoon.

**Jolly Janes
Club Meets**

Mrs. Emma Clutter was hostess to the Jolly Janes Home Ec. club Monday evening. Mrs. Del Bryant, vice president, led in the pledge to the flag and "America" was sung.

"Church Etiquette" was the subject of meditations Mrs. Raymond Lewis gave. The song of the month, "When You Wore a Tulip," was sung.

The lesson on program planning was given by Mrs. Del Bryant. This change of times, with more senior citizens and more children, making less middle-agers, and faster modes of travel and quick ways of doing everything, more and longer schooling being taken by our children and more wanting college education, more wives working, all makes these changing times. Different subjects for lessons were suggested.

President Mrs. Dick Gross conducted a short business meeting with the usual secretary's and treasurer's reports. Roll call was given by giving a favorite childhood poem by the 12 members present. A congratulation card was signed and sent to Mrs. James Miller. A contest was given by Mrs. Raymond Lewis with Mrs. Clayton Meyers winning the prize. Mrs. Al Hatfield won the door prize.

Delicious refreshments were served by Mrs. Clutter, assisted by Mrs. Harold Utter.

CLUB CALENDAR

Mentone H. D. Club will meet at 1:30 p. m. on Thursday, May 1st, at the home of Mrs. Agnes Rans. Don't forget your baby picture.

The Mentone Merry 4-H'ers will meet Monday evening, April 28th at 7:00 at the School house.

Methodists Elect

The annual Fourth Quarterly Conference of the Methodist church of Mentone was conducted Sunday night, April 13th, in the local church under the direction of the Warsaw District Superintendent, Rev. O. Wayne Paulen of Warsaw. One of the functions of this annual business meeting of the church is to elect officers for the new conference year, which will commence June 1. Following are some of the persons elected:

Denton Abbey and Everett Long, trustees.

William Hudson, Violet Long, Gene Marshall, Arvilla Teel and Arleda Wilson, stewards.

The trustees and stewards are to serve with those who were also elected for three year terms in 1956 and 1957.

The following committee chairmen were named for the commissions:

Mr. and Mrs. Raymond Cooper, membership and evangelism.

Mrs. Miles Manwaring and Mrs. F. B. Davison, Education.

Mrs. Herman Olson, Missions. Harold Utter, Finance.

ATTENTION SENIORS!

This year the Mentone Library has a book which should be helpful to all who are planning school commencement activities. "The Popular Commencement Book" contains valedictories and salutations; Class prophecies, histories, poems, wills, songs and yells and program material for Class Day.

Anyone who is taking part in the Mermaid Festival this spring will find that Vaughn's "Parade and Float Guide" will solve most of their problems. It contains diagrams and layout plans for float frames, illustrated plans for decorating parade floats including specific directions and short cuts, directions for wiring and lighting floats, and also a chapter on staging parades.

HOME FROM HOSPITAL

Roy Maxwell is now at his home after an extended stay in the Rochester hospital. He came home Friday and still very weak but improving.

IN HOSPITAL

Mrs. Donald Boggs, who was injured in an automobile accident recently, is a patient at the Lutheran hospital, Fort Wayne. Her room is 214.

Parents of Son

A son, Kevin Wayne was born April 5th to Mr. and Mrs. Paul O. Fritz of Michigan Center, Michigan. Mr. and Mrs. Rea H. Ward are the maternal grandparents.

**WOMEN TO HEAR
FASHION AUTHORITY**

Mrs. Gene Sarber, President of the Kosciusko County Home Demonstration Council announces that the club members and their friends will have an opportunity to attend a special discussion on home sewing by Mrs. Janie Scott, from the Simplicity pattern Company at the Rainbow Room, Westminster Hotel, Winona Lake on Tuesday, April 29, 1958 at 1:00 p. m. D. S. T. This meeting is open to all women who sew.

Mrs. Scott's talk will include a demonstration of how to determine the correct pattern size for various adult figures—the prime requirement for making a well-fitting garment. Incidentally, Mrs. Scott is herself an example of perfect half size figure.

Other subjects of interest to be included in her discussion will be styles becoming to various figure types and suitable fabrics and colors for each. Diagrams and charts will illustrate some of the features Mrs. Scott will point up. She will also show new types of fabrics and will give suggestions for accessorizing your wardrobe.

APPLY FOR LICENSE

Arden J. Harrold, Mentone TV repairman, and Marie Catherine Sturgeon, a Rochester student, have applied for a license to marry.

**Goodwill Drive
On May 24**

Miss Audrey Miller, local agent for Goodwill Industries, has announced Saturday, May 24, as the date for the fifth annual Audrey Miller clothing drive for Goodwill.

Many articles are needed by Goodwill which is a non-profit organization for the handicapped. Articles are repaired and made resalable by the handicapped employees and are then sold in Goodwill stores making it possible to pay their salaries, thus making them independent rather than dependant upon others.

All types of clothing from shoes to hats are needed—even clean rags are acceptable. Toys, dishes, costume jewelry, utensils, knickknacks and small electrical appliances are also needed. Again we're sorry that we are not able to accept furniture due to the distance and expense involved.

Anyone needing bags should contact Audrey Miller, phone HY-8-6669, Tippecanoe.

**CASTALDI PLACES SECOND
IN STATE K. C. CONTEST**

David Castaldi, son of Mr. and Mrs. Lawrence Castaldi, 1201 South Edgewood street (Warsaw), placed second in the state oratory contest sponsored Saturday in Indianapolis by the Knights of Columbus Council of Indiana.

The top award went to Joe Richards of Mishawaka. David, a Warsaw high school senior, was awarded a \$50 savings bond for his speech titled, "All Men Are Created Equal." Castaldi has been outstanding on the regional and state level. His coach is Mrs. Herbert Petrie, director of speech activities at the high school.—Warsaw Times-Union.

The father of David, Lawrence Castaldi, is at the head of the Midwest Spring Mfg. Co., Mentone.

**BURKET LIONS
PLAN PROJECTS**

Seventeen members were in attendance at the Burket Lions club Tuesday evening. This included a number of new members.

During the business session, the nominating committee made its report on the officer candidates who are to be voted upon during May. Preliminary plans were made for two projects.

Refreshments were served following the meeting.

Demonstration Club News

The Home Demonstration Council met recently at the Women's Building, Warsaw. Fairgrounds with Mrs. Gene Sarber presiding. Committee reports were approved and the following business approved:

Reservations are due for the Home Demonstration Luncheon May 8th at the Eskimo Inn, Winona Lake. Send money to Mrs. Frank Pfahler, R. No. 5, Warsaw. Program Planning reports are due May 1. Please contact your Vice-President. The following were appointed to Christmas Workshop Committee: Mrs. H. A. Ganger, Mrs. Charles Adams, Mrs. Lawrence Yeiter, Mrs. Don Watkins, Mrs. Dale Berry, Mrs. Arden Warner, Mrs. William Knapp, and Mrs. Robert Warren. Mrs. Gordon Brubaker's name is

being submitted as a candidate for member of the State Executive Board of the Indiana Home Demonstration Association. Each club is a member of this organization by virtue of its state dues. Drawings for Fair Exhibits—August 4-9 were as follows:

Pattern Alteration—Palestine Homemakers, Jolly Dozen, Monroe Hilltoppers, and Live and Learn.

Family Market Basket—Lake Jackson, Merry Mollys, Lamp-lighters, and Palestine Busy Bees of '53.

Salads—Kopy Kats, Mentone, Homemakers Study and Monroe.

Getting Along with Teenagers—Jolly Good Neighbors, Modern Homemakers, Jolly Homemakers and Oswego.

Home-made Toys—Ladies of the Lake, Jolly Janes, Jackson Junior, Leesburg Homemakers and Mommies of '56.

Each club was asked to consider sending one or two delegates to Purdue Summer Conference in June. It will be time and money well spent. All will stay together in a dorm. There will be later publicity. Watch the papers for the notices regarding Women's Patterns Demonstration at Rainbow Room, Westminster Hotel, Winona, Tuesday, April 29 at 1:00 p. m. Bring your friends. It's free.

Mrs. Robert Ferguson, Chairman of the Senior Citizens Committee reported that the group had voted to let each club handle the problem in its own community.

The group agreed to sponsor a have a Senior Citizens Exhibit of their handicraft and perhaps to

run a contest to pick a Mr. and Mrs. Senior Citizen for Pioneer Days. These projects will be discussed further on April 30 at the next group meeting.

PLAY AT BEAVER DAM SCHOOL

The Beaver Dam Junior Class is putting on a play, which is entitled "A Ready-Made Family." It will begin Thursday and Friday nights, April 24th and 25th at 7:30 p. m. There will also be a "baby sitting service."

4-H Judging Teams Win Two Firsts

The Beaver Dam Agriculture 4-H Club had two first place teams in the county judging contest. They placed first in livestock and in poultry.

Having placed first in the county they are now eligible to advance to the district contest to be held at Waterloo.

Although there are a few girls on the teams, it is classified as a boys 4-H club. All are from 14

to 17 years of age and are students at Beaver Dam high school.

Gerald Smalley is leader of the club, with Philip Lash as coach for the livestock judging and Max Nellans coach for the poultry judging team.

The livestock photo was taken in the Latimer barn and the one of the poultry team in the storage room at the Nellans Poultry farm.

LIVESTOCK JUDGING TEAM—Left to right, Susie Barber, Sherry Babcock, Burl Blosser, Diana Ballenger, Philip Lash and Wilbur Latimer.

POULTRY JUDGING TEAM—Left to right: Roger Nellans, Carol Welty, Phyllis Ummel, Martin Valentine and Max Nellans.

Control Of Plant Disease

The many trade names used for plant disease control chemicals have caused considerable confusion to most laymen. Most trade names of fungicides have little significance and usually refer to brand names used by the manufacturer.

Fungicide, according to Purdue University plant pathologists, is a term applied to chemicals used for the control of many common plant diseases. These specialists point out that fungicides will not cure sick plants. Most of the fungicides are protectants, and will prevent plant disease infec-

tions if applied before the plant gets sick and if used frequently enough at the correct dosage and at the correct time.

The simplest way for the layman to classify chemicals for plant disease control is according to their use. Seed protectants are chemicals applied to seeds as dusts or "slurries" to prevent seedling blights, root rots and damping off. Most packaged flower and garden seed is already treated with these chemicals.

Foliage and blossom protectants are applied as dusts or sprays to prevent leaf spot and blossom blight diseases. Very few flowers and vegetables can be raised without the help of these fungicides. However, these chemicals are quite specific for certain di-

seases and directions on the package should be followed.

Fruit protectants are used for the prevention of fruit blemishes and harvest rots of fruits and vegetables.

Eradicants are used for apple scab and peach brown-rot blossom blight. These are about the only plant diseases that can be eradicated once they have established themselves. Only a very few fungicides can do this job.

Antibiotics are quite expensive and must be used strictly according to directions. So far, antibiotics are effective only against some bacterial diseases and will not control disease caused by fungi.

Soil fumigants are chemicals in a gas form, or water soluble form used for the eradication of soil borne diseases. They cannot be used in the vicinity of growing plants. They must be applied at least two weeks before seeding or planting. The middle of October is the best time to use

soil fumigants.

General purpose spray and dust formulations are the most common fungicides. These preparations contain chemicals in the correct proportions for the control of most of the common diseases of fruits, flowers and vegetables. Most gardeners find the preparations the most convenient.

There are more than 250 "trade name" fungicides suggested for plant disease control. The best method of choosing a fungicide is to contact a seed dealer, or the county agent. They will have publications recommending fungicides for specific plant diseases.

The Motor Club says there are six principal factors that affect driving speed and must always be taken into account: other traffic, road surfaces, weather conditions, degree of darkness and illumination, condition of car, and the driver's own condition—physical, mental and emotional.

Seward Farm Bureau Meets

The Seward Township Farm Bureau met at the Franklin School on April 15. The meeting was opened by group singing. Mrs. William Kneller from Lake Township played the piano and Delford Nelson led. Devotions were given by Mrs. Murphy. Phillip Murphy then played a cornet solo, "America the Beautiful." "He's Got the Whole World in His Hands" was sung by Patsy Baker, followed by an article "Contentment", read by Mr. Baker. Jackie Pfeiffer played a piano solo consisting of three songs, "Moonlight and Roses," "I've been Working on the Rail-

road", and "The Kiss". A poem "Be the Best of Whatever You Are", was read by Gary Pfeiffer. Phillip Murphy then concluded the entertainment with a cornet solo, "Abide with Me."

Mrs. Murphy, S & E Leader, announced that there was to be a Community Leaders Conference in Fort Wayne, and anyone wanting to go should contact her. Meeting time in the future was discussed. No definite conclusion was decided upon, so it was left for the chairman to decide. Mr. Murphy announced that Lake and Franklin townships will meet with us for a picnic in August. No definite location has been decided upon. The Secretary & Treasurer's report was read and approved. Delford Nelson and Howard Sil-

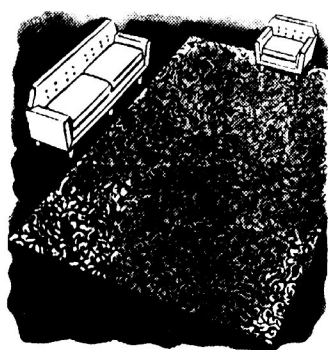

veus discussed a few topics in connection with policy development. Delford then told of his trip to Washington, D. C., on the "Food Comes First" convention, followed by slides of the trip. He stressed the importance of eating plenty of eggs, meat, vegetables and drinking plenty of milk to good health; also the importance of our young people participating in Farm Bureau and other community affairs. Door prizes were won by Will Steller, Glen Montel, and Gladys Pfeiffer. The meeting was adjourned followed by refreshments of cookies, coffee, and chocolate milk, served by committee.

Swine Breeders Promoting Sales

The Indiana Swine Breeders Association is developing plans for holding a series of four 4-H and F.F.A. Pig Promotion Sales during the month of May. Sale points include Alexandria, Greencastle, Lafayette and Rushville. The sale for Northeastern Indiana will be held at the 4-H Club Building, Alexandria, Madison County, 8:00 p. m., May 23, according to M. E. Cromer, Delaware County Agricultural Agent.

Cooperating swine breeders and commercial hog producers are contributing pure-bred gilts and barrows farrowed since February 1, for the encouragement of 4-H and F. F. A. Pig Club Work. The returns from the Sale goes to the advancement of the Swine Production and Marketing Program, sponsored by the Swine Breeders Association of Indiana, including the respective Breed Associations.

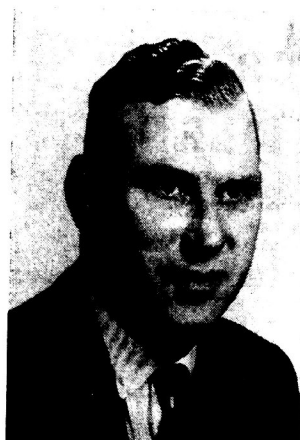

Monday evening Mr. and Mrs. Willard Zolman, and Mr. and Mrs. Alfred Mock of North Webster were supper guests of Mr. and Mrs. Carl Zolman and sons.

Fast Time Starts Sunday

There'll likely be a number of bleary eyed folks doing a fast shave Sunday morning when the new "summer time" goes into effect in most of Indiana's counties. Indiana law indicates that Daylight Saving Time shall be in effect beginning at midnight Saturday, April 26 until midnight on Saturday, September 27.

Some 18 counties on the eastern edge of Indiana, under local agreement, have chosen to remain on Eastern Standard Time the year around, so the change to daylight time will not affect them.

Spittle Bugs Damaging Hay

Spittle bugs are working on clover and alfalfa now reports County Agent Paul Jackson. The spittle masses created by the bugs are now about a quarter of an inch in diameter and sprays should be applied to infected fields before further damage occurs. Unless controlled the bugs can reduce hay and pasture yields a fourth to a third of the crop's potential.

The Purdue entomology department reports the over wintering population of spittle bugs is heavier than for several years. Since a major infestation is likely, careful examination of clover and alfalfa fields should be made now and spray applied to infest-

ed areas.

The food and drug administration has cleared Lindane, BHC, Methoxychlor and Heptachlor for use on forage crops when it is used according to directions. Lindane should be applied at 1 1/4 pints of 20% emulsion per acre. Do not pasture or cut for hay for 30 days after application. Two pints of 11% BHC are effective, but the forage must not be pastured or cut for hay for 40 days. Methoxychlor sprayed forage may be cut or pastured seven days after application. Two quarts of 25% Methoxychlor are required for control. If Heptachlor is used, apply 2 pints of 25% and wait 7 days before cutting or pasturing.

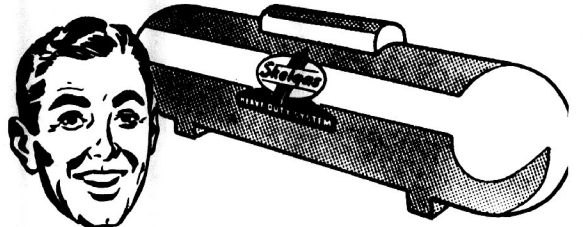

Steven and Becky Dodson of Park Ridge, Illinois, are spending two weeks with their grandparents, Mr. and Mrs. Rea H. Ward. Their parents, Mr. and Mrs. Raymond M. Dodson, flew out to San Francisco to attend a Convention of Chemical Scientists.

Sunday afternoon callers of Mr. and Mrs. Donald Horn and family were Mr. and Mrs. Howard Clipp and daughter, Mr. and Mrs. Billy Clipp of Elkhart and Mr. and Mrs. Howard Horn.

Gives Tips On Tree Planting

Tree seedlings must be kept moist from the time they leave the nursery until they are planted. Ed Lott, Purdue University extension forester reminds Indiana land owners who have ordered trees to be delivered in time for spring planting this year.

A good root system is essential to successful planting and, unless care is taken, roots dry out very rapidly and are injured, warns Lott.

With an upsurge of tree planting under the Soil Bank Conservation Reserve plan and other state and federal programs to encourage rebuilding of forest reserves, many land owners without previous experience will be planting trees this spring. Lott advises these new foresters that seedlings should be watered immediately when they arrive from the nursery and planted as soon as possible. Stored in a cool place

and kept moist, they will remain in good condition for several days.

Seedlings that must be kept for more than 4 or 5 days should be "heeled in" in moist soil. To do this, dig an open V-shaped trench. Then open the bundle of trees and spread the roots out along one side of the trench. Fill in with soil so all roots are covered and drench with water. Stamp down the soil for a firm covering and keep moist until plantings.

On planting day, be sure to keep the roots covered with a damp material like wet moss, or keep them submerged in a puddle or bucket. Never allow the roots to be exposed to sun or wind, even for an hour.

County agents or local foresters will give advice about the best methods for planting trees on your land, says Lott. They may also tell you where tree planting machinery can be rented or contract planters contacted.

Before driving through a flooded area, you should see if other drivers are getting through and wait until the vehicles ahead are reasonably sure of getting thru; then proceed in low gear and maintain an even speed, avoiding lurching, the Motor Club says.

Fast driving on country roads is a dangerous pastime for motorists, the Motor Club says. Back roads may not be in good repair, or they may have blind corners and slippery, oiled blacktop or gravel surfaces. Fast drivers, unaccustomed to a back road, also may not see either stop or warning signs.

MERRY 4-H CLUB MEETS

The Mentone Merry 4-Hers enjoyed the "Share the Fun Festival" at the West Wayne School at Warsaw Tuesday evening. Those attending were Sandra Nelson, Elaine Manwaring, Louise Cox, Nani Wallis, Lorna Tridle, Jeanne Mollenhour, Linda Barkman, Linda Smith, Dana Sarber, Janice Mollenhour, Lu Ann Sarber, Patsy Smith, Mrs. Gene Sarber and Mrs. Marion Smith.

MERRY MOLLY'S ENJOY SOUTH BEND TRIP

The Merry Molly's Home Dem. Club enjoyed a club trip last Wednesday to South Bend. A tour was taken through WSB-TV studio and the Goodwill Industries which was very interesting. A delicious dinner was enjoyed at Smith Cafeteria. The members making the trip were, Mrs. LaMar Leffert, Mrs. Al Runnels, Mrs. Glen Mellott, Mrs. Herschel McGowen, Mrs. Harold Horn, Mrs. Carl Whetstone, Mrs. Gene Sarber, Mrs. Donald Bennett, Mrs. Clayton Holloway, Mrs. Jerry Hudson, and Mrs. Marion Smith.

National Home Dem. Week

National Home Demonstration Week will be observed in Kosciusko County May 4-10, according to Mrs. Ruth McCleary, county home demonstration agent. There are now 67 home demonstration clubs in the county with 1353 members.

Special activities planned during National Home Demonstration Week will include: Luncheon for all members, Eskimo Inn, 12:30 p.m. Thursday, May 8.

The aim of home demonstration work is primarily educational. Voluntary local leaders are trained and assisted by home demonstration agents who are in continual touch with sources of

the latest research information in homemaking. The agents provide professional guidance for the entire program.

Local leaders serve in several different ways—they may be project or organization leaders, and each contributes in some way to the development of better homes and communities. In Kosciusko County there are 125 local leaders. Officers of the County Home Demonstration Council are: Mrs. Eugene Sarber, President; Mrs. Dean Brown, 1st Vice President; Mrs. Raymond Helser, 2nd Vice President; Mrs. Howard Menzie, Secretary; Mrs. Jacob Tusing, Assistant Secretary; Mrs. Gerald Ballenger, Treasurer; Mrs. Dean Parker, Assistant Treasurer; Mrs. Kip Sullivan, Junior Past President.

Today's home demonstration program gives assistance to families in adjusting to the changing times. Programs based on family living include: Help to families in planning and managing family resources; family living education; and health education and safety. Consumer information is provided also, particularly in relation to foods, clothing, and household equipment.

About 70,000 women in Indiana are enrolled in more than 2800 home demonstration clubs and received the educational benefits offered. There are nearly 68,000 organized groups in the United States, Hawaii, Alaska, and Puerto Rico.

Homemakers wishing to contact the local home demonstration agent may do so through the county extension office.

CARD OF THANKS

I wish to thank all who gave me the beautiful plants and cards, and to Rev. Persons for his visits and prayers, and to the school for the card shower on my birthday, while I have been confined to my home the past eight weeks by illness. Thanks again.

Charles Shoemaker is shown here with the new Propane Parmall that he got and used last year. He says he just finished draining his last season oil. He did not drain during the season and had to add very little to it. The oil drained out was in good condition yet.

Charles says he also likes the saving in fuel cost.

Last Saturday Charles finished plowing 44 acres (government measure). The fuel cost him \$14.14 or approximately 32 cents per acre.

BEAVER DAM

School News

By Sherry Babcock

Last Saturday 26 girls went with the Home Ec. teacher, Mrs. McFadden, to the home show at Indianapolis. We left at 10:00 and returned at 7:30 that evening. Other drivers were Mary Tucker, Edith Barber, Helen Welty, Wanda Swick, Alberta Hanson, Boyd Reutebuch, and Mr. and Mrs. Ronald Malott.

Don't forget the junior play on Thursday and Friday nights, April 24 and 25, at 7:30. The title is "A Ready-Made Family."

Tuesday evening Beaver Dam was host at a track meet with Akron. The results were: Akron 47, Beaver Dam 43.

Marianne Tipmore, daughter of Mr. and Mrs. Floyd Tipmore, will represent Beaver Dam at the county spelling bee Saturday at Warsaw. The contest will be at 9:30 over WRSW. We hope everybody will be able to listen to it.

Next Tuesday after school Sidney will be here for a track meet.

The honor roll for the fifth grading period is as follows:

Seniors—Eleanor Shively*, Pat Engle, Joyce Hathaway, Karen Latimer, Wayne Cumberland.

Juniors—Marilyn Horn, Margaret Baugher, Carol Welty, and Dora Mae Kelley.

Sophomores—Phyllis Ummel, Roger Nellans and Janet Welty. Freshmen—Jean Swick, Diana Ballenger.

Seventh Grade—Sonia Smith, Helene Welty, Linda Smalley.

*Indicates all A's.

Those having perfect attendance for the fifth grading period were:

Jo Ann Pites, Karen Latimer, Eleanor Shively, Jo Ann Tucker, Larry Bibler, Wayne Cumberland, John Davis, Orvin Thompson, Margaret Baugher, Marilyn Horn, Carol Welty, Paul Shoemaker, Merle Warren, Bill Whetstone, Nancy Shively, Phyllis Ummel, Janet Welty, Howard Adams, Kurt Shoemaker, Marlin Valentine, Dick Woods, John Ault.

Charles Engle, Howard Jones, Sherry Babcock, Diana Ballenger, Rita Davis, Mary Golden, Jean Swick, Sue Welty, Roger Bucher, Jerry Lackey, Monty Lackey, Rita Lockridge, Betty Lou Smith, Ned Heighway, Carl Marshall, Mercedes Murcia, Sonia Smith, Helene Welty, Thomas Adams, Richard Crall, David Haney, Kent Jefferies, Joe Shively, Dick Sittler, Darrell Valentine.

COUNTRY NEIGHBORS MEET AT CHAMBERLIN HOME

The Country Neighbors Club met at the home of Mrs. Eleanor Chamberlin on Monday, April 21. The meeting was called to order by the president, Eleanor Hoover. The pledge to the flag and club creed were repeated in unison. Eleven members responded to roll call by previously assigned topics. The secretary's and

treasurer's reports were read and approved. Isabell Peterson read an article, "Hero Worship," for devotions.

During the business meeting it was voted to buy materials and start making aprons for another apron sale.

Mr. John Moyer, from the Laketon Nurseries, was the guest speaker. He stressed several important steps in landscaping and told of different sprays for use on shrubs, trees, etc. He told of a plan, over a period of three years, that you may add to your landscaping. He also stated that it was best to have two or three nice shrubs in your yard rather than several spindly ones.

Two contests were conducted by Kathryn Teel. Dorothy Herendeen, Bessie Gross and Mabel Norris were the winners.

Delicious refreshments were served by the hostess.

Mrs. Raymond Lash was a guest.

The May meeting will be guest night at Pete's Restaurant.

TALMA MOTHER-DAUGHTER BANQUET

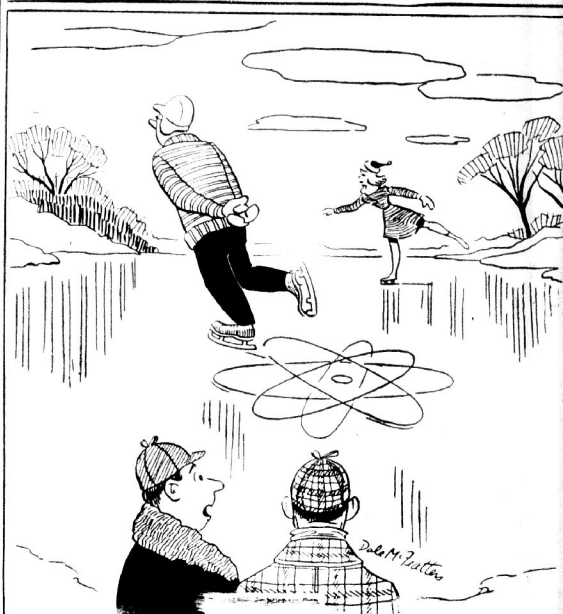

The mother-daughter banquet of the Talma Methodist church will be held in the church dining room on Thursday evening, May 1 at 6:30 p. m. with a pot luck supper.

A Vote For J. D. GEIGER

FOR

S H E R I F F

ON REPUBLICAN BALLOT

IS A VOTE FOR —

1. A **TRAINED** police officer who is qualified, experienced, and **CAPABLE** of performing the duties of the sheriff's office.

Schooled in police work and law enforcement procedures at Indiana University. Trained and schooled in specialized fields such as photography, fingerprinting, and drunk-o-meter operations.

2. A **former state trooper** who has served the people of Kosciusko County for over **6 years**.

For more than six years I have had the opportunity to serve the people of Kosciusko County as an Indiana State Trooper, by investigating traffic accidents, burglaries, thefts, and by giving whatever other assistance I was called upon to give throughout the entire county.

3. A **candidate who seeks the Nomination on Own Merits**.

Since I am the one running for Sheriff I feel that I should run entirely on my own merits and not on the strength of others for what they may do for me. Consequently, I have not promised anyone a deputy's job so that I may be entirely free to select the best possible deputies that may be available and free from obligation to or control by any individuals or groups.

4. A **Police Officer Who Will Give PROMPT and Efficient Service With A Trained Staff**.

If elected I will use my knowledge and training in police work to train my deputies so that the entire staff of the Sheriff's office can render prompt, efficient, and capable service when called upon by anyone in the county. I feel that if something arises that makes it important enough to call the sheriff, a citizen expects and should receive courteous and capable service **WITHOUT DELAY**.

Uses For Oat Crop

There is considerable interest in using the oat crop as a silage and for a pasture crop according to G. A. Williams, Purdue University dairyman, and L. H. Smith, Purdue agronomist.

Two years results on experimental plots at Purdue indicate that yields as high as 18 tons of green forage per acre may be produced with the Bentland variety oats. Clintland and Newton, although somewhat better grain producers, do not yield as much forage as the Bentland variety.

As a pasture crop, oats should be grazed when the heads are just emerging from the boot. With this plan 50 acres can give 50 cows a grazing season for 50 days.

When heavy grain crops are produced, legume stands may be seriously delayed, or even smothered out.

The removal of the grain crop as silage, or pasture, will improve conditions for the development of the legume stand.

In the use of oat silage, some farmers have not secured satisfactory results. They have found it less palatable for dairy cattle than either corn or grass silage. Timing is important. For the best results, the oats should be cut in the early heading stage, although they can be harvested as late as the early dough stage.

The specialists point out that the older the oats, the finer oats should be chopped and the more oats should be packed in order to exclude air. It is generally advisable to use an additive or a conditioner at silo filling time.

Dairymen who will be in need of a green forage crop, or pasture, in late spring or early summer months will find oats a palatable and productive source of feed for the dairy herd, whether it is used as a silage or as pasture.

Motorists should be increasingly alert for children playing on streets during the coming warm months, the Motor Club says. Besides the cyclists, roller-skaters, and wagon-coasters who may get in the way of traffic, dangerous childhood distractions include chasing a ball, flying a kite, running a race, and other diversions.

Motorists should not become fearful if their car stalls on the roadway, the Motor Club says. An upset driver may step into the path of traffic or commit other unsafe acts. But frustration usually is unfounded, for the club says 94.5 percent of its 1957 emergency calls were completed on the road by its affiliated service stations.

Methodist Youth Conference

Methodist Youth from the sixty-nine churches comprising the Warsaw District of the North Indiana Conference will be converging on Osceola Sunday afternoon April 27th, 2:30 to 5:30 (DST), for their annual Spring Convention. The main feature of the afternoon's program will be an hour's performance by the North Manchester College A Cappella Choir under the direction of Prof. Clyde Holsinger.

The business of the afternoon will be conducted by Mr. Steve Smith of Albion, the district youth President. Prayer will be offered by the district Vice President, Miss Sylvia Kintzel of Warsaw. A brief meditation will be offered by Miss Margie Evans of Mishawaka, who is Chairman of the Christian Faith Program in the district. Attendance for the day and the MYFund pledges for the Conference Year 1958-59 will be taken by Mr. Jeffery Sherman of Elkhart, the district youth Secretary-Treasurer, and by Miss Maxine Williams of Mishawaka, who is Chairman of the Christian Outreach Program Area in the District. In charge of the overall youth work of the district is Rev. Milton G. Persons of Mentone.

High production per cow plays an important role in increasing herd income during periods of declining prices, say Purdue University dairymen. This can be successfully accomplished by

breeding cows that have the ability to produce milk at high levels and by feeding and caring for them in a way that will enable them to produce up to the maximum of their inherited abilities.

When buying grass seed and other seeds, be sure to read the label to determine what you are getting, purity and germination, say Purdue University horticulturists.

After last year's wet summer and wet fall the supply of soil nitrogen is well below average. Purdue University agronomists suggest topdressing wheat with a limited amount of nitrogen—25 to 30 pounds on heavy soils, 30 to 50 pounds on sands—should produce profitable increases. Mar. is a good month for doing it where the ground gets dry enough for tractor use.

S. Whittenberger Dies Sunday

Samual R. Whittenberger, 84, R. 1, Akron, died at 11:20 p. m. Sunday at the Woodlawn hospital. Death, from a cerebral hemorrhage, came after an eight-day illness.

Born Feb. 6, 1874 in Henry township, he was the son of Reuben and Hester Miller Whittenberger. He was married at Rochester in 1895 to Daisy Pearson who died in 1955. Mr. Whittenberger, a retired farmer, had spent his entire life near Akron.

Surviving are one son, Ralph, R. 1, Akron; four grandchildren, and eight great-grandchildren. One son, Cleo; two sisters, and two brothers preceded him in death.

Funeral services were held at 1:30 p. m. Sunday at the Sheetz funeral home, Akron, with Rev. D. L. Slaybaugh, assisted by Rev. Harold Conrad, officiating. Burial was in the Akron cemetery.

Talma Man Dies Thursday

Vincen Elmer Teeter, 88, died Thursday afternoon at his farm home south of Talma. He had been in failing health for several years.

Born Jan. 16, 1870, in Kosciusko county, he had lived in Fulton county since 1911, moving there from Beaver Dam. His first marriage was on Aug. 14, 1891, to Laura Ellen Coplen, who preceded him in death. His second marriage was Sept. 16, 1916, to Anna Fern Alderfer, who survives. His parents were Peter and Elizabeth Shoup Teeter.

Mr. Teeter was a member of the Yellow Creek Baptist church. Surviving in addition to the wife are three sons, Robert of Rochester, French of Hot Springs, S. D. and Cle of Plymouth; one daughter, Mrs. Loy (Ruth) Fisher, Hartford, Michigan; one step-son, Ray Alderfer, Plymouth; one step-daughter, Mrs. Paul (Dorothy) Fisher, Watervliet, Mich.; one brother, William Teeter, of Belleville, Ohio; one sister, Mrs. Gaylord Banks, Lexington, Ohio; 11 grandchildren, and 10 great-grandchildren.

Funeral services were held Sunday at 2 p. m. at the Zimmerman Bros. funeral home, Rochester, with Rev. Delbert Rueberg of Huntington officiating. Burial in the Sycamore cemetery.

May Is Mental Health Month

May is Mental Health Month, and the initial effort of the local committees sponsoring the program, will be a showing of the Movie, "The Key," at the Warsaw High School, beginning at eight o'clock on Wednesday, May 7th. It is free and everyone is invited to attend.

The film portrays the hopeful advances being made in the fight against mental illness, tells the plight of those mentally ill for whom this hope is not yet a reality, and makes a plea for action to give all the mentally ill the best chance for recovery. Mental health is classified as America's No. 1 health problem.

Melvin Slater, Northeastern Mental Health district representative, will be guest speaker.

Harrison Joins School Survey

H. Earl Boggs, trustee of Harrison township, has announced that they have decided to be included in the school surveys to be conducted by representatives of either Purdue or Indiana University men. The cost will be approximately \$1 per student, according to Trustee Boggs.

The survey gives facts of the location of the children, hazards coming to and from school, the needs of the school and the facilities available.

HOME FROM HOSPITAL

Mrs. Byron Nellans returned to her home Wednesday from the Woodlawn hospital at Rochester where she was taken Saturday. She was under oxygen to get relief from Rose fever.

APPLY FOR LICENSE

Charles Allen Ross, 20, Route 5, Warsaw, and Janet Pearl McCarty, 20, Bourbon, have applied for a license to marry.

STYLE SHOW MAY 2nd

Spring week end will be the theme of a style show to be presented by the Mentone Home Ec. Department at 8:00 p. m. Friday May 2nd in the Gym. Mrs. Chester Smith says there will be about fifty local models and nearly one hundred costumes. The public is invited.

Mother Dies At Goshen

Mrs. Luella M. Shively, 77, formerly of near Etna Green and mother of Mrs. Melvin Cain, died Monday morning at the Goshen hospital. Recently Mrs. Shively had been living with her children. She had been in ill health since April 18.

Mrs. Shively was born March 8, 1881, in Marshall county. She spent her entire lifetime in the Etna Green area. Jan. 3, 1901 she was married to Ira C. Shively, who died in 1949.

Surviving are three sons, Floyd of Bourbon, Carl and John both of Etna Green; four daughters, Mrs. Melvin Cain of Mentone, Mrs. Emerson Cain and Mrs. Donald Hartzell, both of Etna Green, and Mrs. Erma Berkey, of Goshen; two brothers, Harvey and Owen Yarian, both of Bourbon; 17 grandchildren and four great-grandchildren.

Funeral services will be held at 2 p. m. Thursday at the Sandridge church, near Etna Green. Rev. Arthur Dodge will officiate. Burial will be in the Sandridge cemetery.

New Arrivals**DORSEY**

Government Freezes Yankus' Bank Account

Dowagiac, Michigan — Stanley Yankus, Jr., a Pokagon township farmer who is at odds with the federal government for growing too much wheat, was in Uncle Sam's tightening grip today.

Federal agents froze Mr. Yankus' bank account of \$3,403.50 Thursday. Armed with a garnishment, the agents appeared at the Dowagiac National Bank in what was the first action taken against Mr. Yankus since he and the government first crossed paths four years ago.

Mr. Yankus said he simply did not know what he was going to do. He wrote a check in payment for chicken feed Thursday for \$767 which will probably bounce.

Annually Mr. Yankus markets approximately 53,000 dozen eggs and is the largest egg producer in the county. Four years ago he received notification that the federal government was fining him for growing too much wheat on his 100-acre farm.

Every year since, Mr. Yankus has been fined for growing too much wheat. But he has refused to pay the fines on the grounds that his constitutional rights have been infringed upon. The unpaid fines amount to \$3,848.

The Agricultural Adjustment act of 1938 is the law the government charges Mr. Yankus has violated. Under the provisions of the act farmers are bound to abide by acreage allotments established by the agricultural stabilization and conservation committee.

Mr. Yankus says he has never signed any agreement with the government and has never received any subsidy. In addition, the farmer says, he uses all the wheat he grows as feed for his laying hens.

The 39 year old farmer, his wife and two school age sons do all the work on their farm. The

National Home Dem. Week

"Highway Safety Begins at Home" will be the slogan of almost 70,000 Hoosier women this coming week.

Safe driving campaigns will highlight National Home Demonstration Week, May 3-10, as Indiana home demonstration club members carry out an attack against careless driving.

Nine district driving contests will be held over the state with the club women, winners of county driving contests, testing their skills and abilities. Then district contest winners will compete in the state safe driving contest to be held at Purdue University on June 9th in connection with the Indiana Homemaker's Conference. State Police are cooperating in staging the driving contests.

Emphasis upon safer driving

should be taught in the home, says Miss Janalyce Rouls of the Purdue University home economics extension staff. Miss Rouls, secretary-treasurer of the Indiana Home Demonstration Association, points out that "The home is the center from which radiate the attitudes, the habits, and the traits of human character" which shape the fate of future travelers.

"The kind of training children receive in the home determines in large measure the kind of drivers they will be on the highway. If parents think it is 'smart' to evade traffic laws, their children imitate.

"Another way the home influences driving is through the physical and emotional conditions created there. The person who is anxious, greatly worried, in a fit of anger, or in poor physical condition does not keep his mind on driving or walking carefully."

Surprise Party

A birthday surprise and a handkerchief shower were held for former chief telephone operator Olive Frye now of Bourbon, last Wednesday evening at Shari's Restaurant in Plymouth. Those present of the operators of Mentone switch board who attended were: Mrs. Harold Horn, Mrs. Robert Smith, Mrs. Elwin Teel, Mrs. Howard Horn, Mrs. Earl Davis, Mrs. Ellis Hill and Mrs. Floyd Nicodemus of Bourbon.

Baptist Children's Home

Rev. Ernie Francis, Superintendent of the Indiana Regular Baptist Children's Home, will be the guest speaker at First Baptist Church on Sunday evening, May 4th at 8:00 o'clock. Rev. Francis will also show colored slides picturing the progress that has been made in the construction of the \$60,000.00 housing unit for the Children's Home which is being built near Kouts, Indiana. The establishment of this children's home has been abundantly blessed of the Lord, and in the very near future should be a home for about twenty-three children who have no home of their own. The home now has pledged support for the amount of \$850 per month for the operation of the home, and to date \$26,000.00 has been raised and spent on the construction. An additional \$29,000.00 is needed to complete construction. Mr. LeRoy Norris of Mentone is the Chairman of The Board of Directors of the home. The public is invited to attend this service and see evidence of the Lord's blessing upon this work of faith.

Keith Besson spent the week end at home with his family, and friends and returned back to his school Sunday evening.

Beef Cattle Feeding Experiments

Tranquilizers fed steers implanted with stilbestrol and fed terramycin caused an improvement in daily gain and feed efficiency in experiments at Purdue University.

This was reported Friday at the annual Indiana Cattle Feeder Day.

W. M. Beeson, head of animal nutrition work at Purdue, told cattlemen that "steers receiving hydroxyzine (2.5 mg. per head daily) along with stilbestrol and terramycin gained 14 percent more than those not receiving it and required nine percent less feed per unit of gain."

Beeson reported further that: "Stilbestrol implanted steers (36 mg.), fed terramycin (80 mg. per head daily), gained 16 percent more on four percent less feed than steers not treated. Differences in daily gain were highly significant.

"Feeding either reserpine, Rauwolfia or hydroxyzine without stilbestrol and terramycin had no significant effect on gain or feed efficiency in steers."

Beeson said that at the end of the experiment information would be secured on dressing percentage and carcass grade of the steers used in the experiment.

Beeson and other Purdue animal husbandmen reported on results of several experiments this morning at the University's livestock research barn.

T. W. Perry, Purdue animal husbandmen, told the group that "pelleting of a complete mixed fattening ration resulted in a 24 percent decrease in daily feed consumption" of beef calves.

Calves fed pelleted rations required 13 percent less feed per pound of gain than those whose ration was unpelleted, he said. Even though a \$3 per ton pelleting cost was assessed to the pelleted ration the most economical gains were made by the calves which received it.

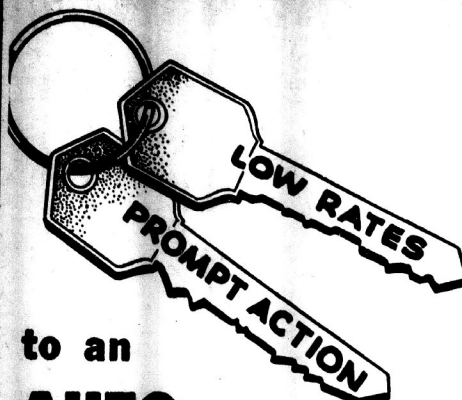

Another report set out that cattle fed on high urea supplement (58 percent) gained "significantly less" than steers fed on a 32 percent supplement and required 18 percent more feed per pound of gain.

Donald Webb, who conducts research at Purdue's Lynnwood Farm, Carmel, reported that steers fed an antibiotic, even though their protein supplement consumption was controlled, "produced carcasses which graded higher than those from any other lot."

"... this is the first time carcasses from cattle that were not fed protein supplement completely free choice graded higher than—or even as high as—carcasses from cattle fed supplement free choice without an additive to control supplement intake," Webb said.

Cattle which received sorghum silage produced efficient and economical gain, M. T. Mohler, Purdue animal husbandman, told the cattle feeders. The economy of the sorghum silage gains is because of the greater yield of green material per acre in comparison with the pounds of grain produced per acre, he explained.

Attend Spring Convention

Approximately five hundred and fifty young people of The Warsaw District Methodist Youth Fellowship attended the Spring Convention in the Osceola Church Sunday afternoon, April 27th. The North Manchester College A Capella Choir was the main feature of the afternoon's program.

During the business meeting the following District Officers were elected: Miss Sylvia Kintzel, Warsaw, President; William Van Kuren, Osceola, Vice President; Miss Gretchen Persons, Mentone, Secretary-Treasurer. Elected to the Program Area Chairmanships were: Miss Sue Warstler, Elkhart, Christian Faith; Miss Nancy Albert, Leesburg, Christian Witness; Miss Sharon Burger, Mishawaka, Christian Outreach; Miss Jane Basset, White Pigeon, Michigan, Christian Citizenship; Larry Lehmer, Stugis, Michigan, Christian Fellowship. Sub-district Chairmen elected were: Miss Nancy Bowman, East Group; Joe Glosson, Osceola, North Group; Gary Culp, Nappanee, Central Group; and Dave McCleary, Rt. 3, Warsaw, South Group.

PAY SPRING TAXES

A spring tax installment of almost three million dollars (\$2,990,278.09) in real estate and personal property taxes was paid this week by Northern Indiana Public Service Company, Dean H.

Mitchell, NIPSCO president, has revealed.

"The payment represents an increase of \$405,000.54 over last year's installment," Mitchell said. "making us one of the largest single taxpayers in the state of Indiana."

J. S. Lessig, Warsaw district manager, said that local taxes paid by the utility in Kosciusko County amounted to \$67,969.09 of which \$29,378.92 went to the city of Warsaw.

CELEBRATES 6th BIRTHDAY

A birthday party was given in honor of Kem Coleman's 6th birthday Saturday at the home of Pearl Tucker.

Games and ice cream and cake were enjoyed by all.

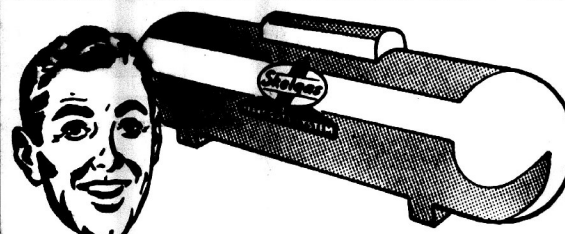

Those present were Brett and Krisie Miner, Susie Shirey, Susie Romine, Darlene and Duane Igo, Sara Jo Smith, Debbie Cooper, Stevie Fawley, Bryant Nellans, Lisa and Brett Boggs, Pam Coleman, Mrs. Marie Coleman, Mrs. Robert Boggs and Mrs. Don Coleman.

Interplant Vine Crops

Home gardeners who find a lack of space a problem can harvest three or four crops from the same areas where one grew before by interplanting such vegetables as squash, pumpkin, cucumber and muskmelons in the same rows and at the same time as when sweet corn is planted.

W. B. Ward, Purdue University extension horticulturist, points out that sweet corn is a comparatively shallow-rooted plant in comparison with the vine crops. There will be but little competition for nutrients in the soil among the plants, and the vine crops will not interfere severely with cultivation.

The corn plants will furnish shade for the squash, muskmelon and cucumber plants and protect

blossoms from the hot summer sun. There will be better pollination of the vine crops due to a lower atmospheric temperature.

The crops can all be planted early in May.

Two or three grains of sweet corn seed should be planted per hill 30 inches apart, and the rows can be narrowed to 30 inches. At least two rows of sweet corn should be made in the same planting to get the desired pollination of the corn.

Ward suggests planting four or five varieties of sweet corn with different dates of maturity in order to have roasting ears over a longer period of time. North Star, Sunup, Hoosier Gold, Golden Cross Bantam and Victory Golden are all good varieties and will mature from 70 to 90 days in the order listed.

Good varieties of cucumbers include Marketer, Straight Eight and the new Smoothie. Hale's Best 36, Hearts-of-Gold and Pride of Wisconsin are recommended muskmelons. Acorn, Buttercup, and Butternut are excellent varieties of family size squash.

A vine crop can be seeded between every second or third hill of corn in a row. Only one plant of the vine crops should be left in each space. The plants will not cross pollinate and can be planted in any order.

Early planted potato plants are very susceptible to serious damage from the potato flea beetle and the potato leafhopper. Purdue University horticulturists suggest that a combination fungicide and insecticide spray or dust should be applied when the young plants are only an inch or so tall. The control program should be repeated about every week for maximum yields of quality potatoes.

Marketing Guides

Many areas of business have declined still further in recent weeks, according to Purdue University agricultural economists.

Industrial production has fallen further; inventory liquidation is continuing at a rapid rate; retail sales have been seasonally weak.

Unemployment increases, however, have slowed substantially. Though much of the decline may be over, there is no real evidence that the bottom has been reached, the economists say.

Total personal incomes have dropped only about one percent since last August and are expected to continue near current levels for several more months.

It is very likely that the indexes of farm prices, all wholesale prices and consumer prices will all decline somewhat in the months ahead. Farm prices have risen six percent since January. Much of this increase can be attributed to very sharp rises in fruits and vegetables and substantial rises in meat animal prices. The economists assert that many of these prices are expected to weaken as the year progresses.

Corn prices are expected to increase only modestly from mid-April levels.

Wheat prices are expected to drift lower as the new harvest approaches.

Hog prices are likely to average \$1-2 lower for the May-August period than the average a year ago (\$20.16 at Indianapolis). Increased farrowings (December to February) are expected to substantially increase marketings after June this year. Prices are likely to average lower for July and August than for May and June. The hog production cycle has

Memorial Poppies Made by Disabled

Memorial poppies which will be worn here on Poppy Day, May 24th, have been received by Post 425 Unit of the American Legion Auxiliary from the veterans hospital (or work room) at Marion where they were made by disabled veterans. The little red flowers were being made ready for distribution by volunteer workers of the Auxiliary.

"The Memorial poppy is a crepe paper replica of the wild European poppy which bloomed in profusion on the world war battlefields and cemeteries in France and Belgium," Mrs. Mervin Jones, Auxiliary President, explained. The World War I poem, "In Flanders Fields", told the world about these poppies, and soon

after that war the poppy became the memorial flower for the war dead throughout the English speaking world.

"Making the flowers provides interesting and beneficial employment for thousands of veterans in hospitals and convalescent workrooms throughout the country," continued Mrs. Mervin Jones. "The Auxiliary provides the materials and pays them for the poppies they make. The work is considered valuable as occupational therapy and also gives the encouraging experience of earning money again."

"Disabled veterans of three wars, the two world wars and the Korean Conflict, made poppies for the Auxiliary this year."

Mentone Ladies Report On National D. A. R. Convention

Mrs. Frank Smith and Mrs. Ray Linn from the Anthony Nigo Chapter D. A. R. of Mentone have returned from Washington, D. C. where they attended the 67th Continental Congress National Society of D. A. R.

They reported some of their activities along with D. A. R. news as follows:

Arriving at the Mayflower Hotel Saturday morning, April 12th spent rest of day at stores in down town area. In the evening attended Rodgers and Hammerstein's "South Pacific", the new Josh Logan production in TODD-AO. On Sunday morning worshiped in National Presbyterian Church. (Church our president attends). Sunday evening made couple of tours of interesting places, including the Carlyle House, Alexandria, Va., one of the most historic homes in America. The building and furnishings are completely original.

On Monday evening Mrs. Fred-eric Groves, President General, D. A. R. opened our 67th Con-gress and gave her address "The Fruits of Freedom." Jill Visnak, a young girl from California gave "I Am the Flag" in a very forc-ible and inspiring manner.

Music was furnished by the United States Marine Band.

Seven numbers were rendered by Sp/2 Thomas S. Vasiloff, bar-itone, United States Army and Sp/2 Paul W. Lyddon, accom-panist, United States Army.

On Tuesday Mrs. Linn was hostess in the Indiana Room. A tour of the White House was made by the Daughters and very much enjoyed it being the first time in history that the red ropes were taken down and restrictions removed. This was at the request of Mamie, a D. A. R. member. Some of the Ladies sat in the chair President Eisenhower had vacated 15 minutes earlier, others sat on divans because, as they said, "their feet hurt." We roamed around asking questions ga-lore learning that just one of the huge crystal chandeliers has over 5,000 pieces and they are washed in ammonia water, a guard from Elkhart, Indiana stated.

Tuesday evening a dance was given in honor of the pages at the Mayflower Hotel. Mrs. Smith attended and was very lovely in a purple chiffon gown with or-chid chiffon shirred front.

Wednesday State Regents gave reports. Indiana won second prize for Good Citizens, received hon-orable mention in Press Rela-

tions and medal for D. A. R. magazine.

Indiana donated \$1,000 toward furnishing our Tammara Cottage. Mrs. Cory of Indiana gave \$100 Since the Anthony Nigo Chapter was on the honor roll the past year Mrs. Linn was privileged to wear the gold ribbon bar and will present it to Mrs. Eldred Paulus, Regent at the May meet-ing.

On Thursday, Fantasy of First Ladies—a pageant was enjoyed. Pages of the Continental Con-gress were used as models. They wore beautiful gowns of their day.

First Ladies: Caroline Scott Harrison, Martha Curtis Wash-ington, Elizabeth Kortright Mon-roe, Louisa Johnson Adams, An-gelica Johnson VanBuren, Jane Findlay, Harriet Lane, Mary Todd Lincoln, Grace Goodhue Coolidge.

Friday, State Regents and State Vice Regents were installed. At this time Mrs. John Bell, State Regent of Indiana and Mrs. A. T. Wallace, State Vice Regent were installed. After the singing of "Blest Be The Tie That Binds," the Benediction and Retiring of the colors the 67th Continental Congress adjourned. Around 30 proposed Resolutions were offi-cially acted upon and released to the President. Mrs. Linn, serv-ing as a Delegate had voting pow-er at all times.

Tuesday, April 22nd Mrs. Frank Smith and Mrs. Ray Linn went to Indianapolis. Mrs. Smith was installed as Northern District Di-rector and Mrs. Linn received her instructions as State Chairman of Program for this administra-tion.

Bureau Women Sponsoring Tour

Indiana farm women, planning to join the Colonial Capital Tour to Washington, D. C., and historic Virginia, are getting their homes organized so that other hands may take over. The Tour leaves Indianapolis June 16 and returns five days later.

Conducting the excursion and in charge of arrangements is the Hoosier Travel Service. The Women's department of the Indiana Farm Bureau is sponsoring it. J. P. Claypool, assistant manager of the travel service, will personally conduct. Reservations are not limited to women; men and children may also take the trip.

Travelers will go by rail and by air. Plans include sightseeing in the nation's capital, in Richmond, Williamsburg and Jamestown. They will also be shown the homes of Robert E. Lee, George Washington, Thomas Jefferson and James Monroe.

These Hoosier tourists will see

the Bull Run battlefield and take the Sky Line drive in Shenandoah National Park. They will drink tea and eat gingerbread in the former home of George Washington's only sister.

Besides farm women and their families, school teachers and young women who hold town jobs are finding this trip attractive. The Hoosier Travel Service, 130 East Washington Street, Indianapolis, has printed folders which give complete details.

ATTEND MEN'S APPAREL CLUB SHOW

Raymond Cooper and David Cooper of the Coopers Store, of Mentone, attended the Men's Apparel Club of Indiana, Inc., Summer and Fall Market, now in progress at the Claypool Hotel, Indianapolis. Over 200 lines of men's and boys' apparel and accessories are on display.

"Events of this sort," the Coopers said, "are helpful to merchants like ourselves in obtaining the newest and best items for our customers."

Boys' League Active Again

The Mentone Boys' League Association has been organized again this year to furnish a supervised and healthful sports program. This program will include boys from ages eight to and including 14 (however, the boy must not be 15 before Aug. 1 or be eligible for high school baseball this fall). This program will also include a girls' softball team and a boys' high school baseball team.

This is the third year for the Mentone Boys' League Association program which promises to be bigger and better than ever due to the more inclusive program. It is estimated that it will cost the association about \$800 or possibly a little more this year. To carry out the above-mentioned program, they will need your financial help. The committee states it will appreciate all you can do to help them and the youth of the community. They suggest you fill out the form below and mail it to Clayton Myers, secretary of Mentone Boys' League, Mentone, or personally contact Mr. Myers.

Am sending \$..... to help with the summer program.

MRS. ORA BEESON

Mrs. Ora Bloggett of Warsaw called Sunday afternoon at the Ray Dillingham home.

Dale Wallace of Mentone and Chesteen Chapel, of Silver Lake, were at Terre Haute Sunday attending a semi-annual meeting of the Indiana Radio Club council. Both men are "ham" operators.

Children should never be allowed to stand in a moving automobile, the Motor Club says. A sudden stop may cause a youngster to fall and injure himself. An adult motorist or passenger may be prepared for a sudden stop, but children generally may not anticipate such a maneuver.
