MOTHER DIES
LAST WEEK

Mrs. Jennie May Bunker, 82, of North Manchester, mother of Mrs. K. A. Riner, of Mentone, died at 7:45 p.m. Wednesday at the home of another daughter, Dr. L. Z. Bunker, of North Manchester.

Mrs. Bunker, who had been in ill health for the past three weeks, was born at Auburn on March 17, 1880, the daughter of Jacob and Nancy Ann (Huff) Reed. She married Frank H. Bunker on April 19, 1900. He died on March 13, 1937. Mrs. Bunker was a member of the Zion Lutheran church.

Surviving are two daughters, Mrs. Kenneth Riner, of Mentone, and Dr. Bunker, of North Manchester; and one grandson.

Services were held Saturday at 2 p.m. in the Bender funeral home at North Manchester with Rev. H. R. Ogle officiating. Burial was in the Oaklawn cemetery at North Manchester.

Facts About School
Reorganization

Our schools are the responsibility and function of the state; the State Assembly has provided and will continue to provide the conditions under which the public schools of Indiana shall be organized and shall operate.

The Indiana School Reorganization Act of 1959, as amended in 1961, has been fully studied and carried out by the Kosciusko County Committee.

This work has been completed within the allotted time, as prescribed by law.

The people of Kosciusko County have had opportunity to learn, through pre-announced meetings, newspapers, radio programs and local committees, the major provisions of the Reorganization Law and the proposed four-corporation plan as approved by the State Committee on October 16, 1961.

All registered voters will be given the opportunity on May 8, 1962, to vote for or against the proposed plan for the area in which they live.

SOPHOMORE FISH FRY
SATURDAY, APRIL 7

The Sophomore class of the Mentone high school will have their big fish fry at the Mentone gym this Saturday evening, with serving starting at five in the afternoon. See their advertisement in this issue.

To Speak May 1

Herbert Philbrick, noted Communist counter-spy, will speak in Mentone on May 1. Attendance will be limited to about 1,500 persons, so if you hope

to be able to hear this man of "I Led Three Lives" fame, you should get your tickets now. See any member of the sponsoring organizations in Mentone. Tickets are only \$1 each.

MOTHER DIES
AT MACY

Mrs. Donna Collins Reese, 65, mother of Mrs. Wayne Baker of Mentone, died at her home at Macy Thursday forenoon after an illness of two months.

She was born in Fulton county April 13, 1896, to Dora and Ella Barker Collins and spent her entire lifetime in that community. She was married March 10, 1920 in Rochester to Lloyd Reese. Mrs. Reese was a member of the Macy Methodist church.

Surviving are the husband; two daughters, Mrs. Dale (Maxine) Fish, R.R. 3, Rochester, and Mrs. Wayne Baker, of Mentone; four sons, Wayne, R.R. 1, Akron, Gene and Maynard, both of Rochester, and Dick, R.R. 2, Macy; 17 grandchildren; two sisters, Mrs. Goldie Mathais and Sylvia Jewell, both of R.R. 6, Rochester; and several nieces and nephews. The parents and a brother preceded her in death.

Funeral services were held at 2:30 p.m. Saturday in the Macy Methodist church. The Revs. Ronald Harshman, Russell Good and Ed Johnson officiated. Burial was in the Rochester IOOF cemetery.

COUNTERPOINT

By The Editor's Wife

Well, the Martin house is up (way, way up, too). Tom said that we probably won't be bothered by sparrows, as they would need oxygen equipment to nest that high. Now we're waiting for the Martins to find and approve the location.

Saw my first flying squirrels on Tuesday in my sister's yard. They were cleaning out the bluebird house (which had not been occupied last year) and a pair of these small squirrels emerged and found refuge in nearby trees. Their glide from one tree to another resembles a leaf being carried along on the breeze.

Thanks to Rozella Nellans for a lovely bunch of pussywillows, which we are enjoying. One might say that the pussywillow is the "evidence" of spring, for, as Paul says, Hebrews 11:1, "Now faith is the substance of things hoped for, the evidence of things not seen."

Note on communism.

"By this time, one would believe that no intelligent person could possibly be under any illusions about the nature of communism, but many intelligent persons still cherish illusions about it. The Communists say that they want peace, and they mean it, but what they mean by "peace" is a complete removal of any obstruction to communism. To the Communists, the world will be at peace, when all the world is Communist. And when Communists use the word "aggression" they mean anything that stands in the way of communism."

— Clifford Ward

It's good to have money and the things that money can buy, but it's good to check up once in a while and make sure you haven't lost the things that money can't buy.

— George Horace Lorimer.

Note to Parents:

Dr. Paul Popenoe has this to say about scolding.

"It (scolding) does great harm. Many a smug parent who "would not dream" of spanking a child doesn't hesitate to beat him continually with verbal abuse. Both spanking and scolding become mere habits. The body can get used to pain, but the

(Continued on back page)

FIRST TRACK
MEET THURSDAY

The first track meet for this season will be held at Mentone Thursday afternoon, at 4 o'clock with Akron as the contenders.

Other meets scheduled are: April 10, at Milford, with the visitors as Beaver Dam, Silver Lake and Mentone.

April 12 Argos will host Mentone and Knox.

April 17 Leesburg and Sidney come to Mentone.

Mentone goes to Pierceton on April 19, and April 26 Mentone will host the Claypool and Etna Green squads.

Fred Horn, who interviewed the Mentone tracksters this week stated this will be the first year our boys will have the high and low hurdles.

Track practice is just getting underway, and it is difficult to tell just what may be accomplished as far as records are concerned. Allen Creighton, in the broadjump, has made 18-3 which is close to the 18-9 record, and Jerry Blackburn has done 41-6 in the shot put against a 42-9 school record.

Coach Sanders says if he can get Tridle to run a little faster he will be coming close to the mile record.

Indications are Mentone will have good mile and half-mile relay teams.

CHARLES HUBLER
BURIED MONDAY

Charles Hubler, 94, formerly of Mentone, died of complications Friday at 7 p.m. in the Prairie View nursing home in Warsaw, where he had been a patient since July.

Mr. Hubler was born in Marshall county on July 5, 1867, the son of David and Kathryn (Thompson) Hubler.

Surviving are several nieces and nephews.

Services were held Monday at 2 p.m. in the Reed funeral home here. Burial was in the Mentone cemetery.

TOMMIE BLUE BARN BURNS

Fire broke out in the Tommie Blue barn, at the rear of his home in northwest Mentone during the high wind Thursday afternoon, and the structure was practically a total loss before firemen could get the fire completely out. A second floor in the barn made it difficult for firemen to get water to the main part of the fire.

MRS. THOMPSON
DIES THURSDAY

Mrs. Mamie Thompson, 74, of Akron, died of complications at 7 a.m. Thursday in her home.

Mrs. Thompson, a lifetime resident of the Akron community, was born in Fulton county on Jan. 2, 1888, the daughter of Robert E. and Emma (Clevenger) Wolpert. She married John Thompson in 1905. He died in August, 1959. Mrs. Thompson was a member of the Emmanuel Evangelical United Brethren church.

Surviving are three daughters, Mrs. Marjori Davis, of Mentone, Mrs. Emma Hunter, of Silver Lake, and Mrs. Helen Hartzler, of Disko; four sons, Byron, of Route 1, Akron, Edward, of Akron, Norman, of Roann, and Richard, serving with the U.S. Army in Germany; 20 grandchildren and 20 great-grandchildren. Four children preceded her in death.

Services were held Saturday at 2 p.m. in the Akron Church of God with Rev. D. F. Slaybaugh officiating. Burial was in the Akron cemetery.

MAX HUBARTT
BEST SPELLER

Max Hubartt, sixth grader, will represent Mentone in the fifth and sixth grade spelling contest at Warsaw this Saturday, April 7, at 9 a.m. over WRSW radio.

Max was also the final winner in the local contest between the fifth-sixth and seventh-eighth grades.

Max is the son of Mr. and Mrs. Max Hubartt.

WITH THE SICK

Mrs. Ross Scott is convalescing at her home after being dismissed from the hospital Saturday evening.

Mrs. Rosa Kinsey was admitted to the Woodlawn hospital Saturday afternoon.

Ronnie Teel was dismissed from the hospital on Wednesday and is getting along fine.

William Schooley returned to the hospital Monday for a skin graft.

Mrs. William Schooley is slowly improving, but is suffering from a blood clot in her leg.

Delois White of Kokomo had surgery at the St. Joe hospital in Kokomo on Thursday of last week.

**SPRING
BRINGS US
BACK TO EARTH**

The beginning of Spring always reminds us of our farmer-friends and just how many things it takes to make farming profitable . . . Earnest work, good machinery, crop rotation and money.

We know we need your products — perhaps a loan from us will make this a more profitable year for you.

We are always ready to serve you.

Blinding dust clouds kicked up by rocket exhaust could well be the greatest danger that arises as a space vehicle lands on the moon, says the National Aeronautics and Space Administration (NASA). This dust would not only obscure astronaut's vision, but it would jam radar and even the operation of the spacecraft itself. A perplexing problem is selection of the right landing gear for the unknown properties of lunar terrain. Should the moon have a thick layer of soft dust, the scientists say, wide treads or oversize shoes would be the answer.

How many people, all told, have lived on this earth? About 77 billion, estimates the Popu-

lation Reference Bureau. Today's population of about three billion is approximately four per cent of the total.

New silver is produced in the world at the rate of 210,000,000 ounces a year. New commercial uses have been found for it in electronic contact points, in the framework of batteries and in especially light, strong and heat-resisting alloys. The U.S. and Canada are the chief users of silver coins. The federal government has 60,000 tons of silver stored at West Point and San Francisco, enough to make coins for the next 30 years.

Jet Planes would not be possible without the development of high-quality stainless steel arc welding electrodes, reports Alloy Rods Company. The stainless steel exhaust sections of the planes and dissimilar metals in precision jet engines are joined by this advanced method of welding.

Feed youngsters fewer calories per day, advise scientists

of Cornell University. If protein and vitamin consumption are kept at accepted levels, the children will grow to be smaller but longer lived adults.

Flight recorders would be required on many non-airline aircraft if a new Federal Aviation Agency rule is adopted. The FFA seeks improved flight recording because of its value in accident investigations and analysis of in-flight accidents. All turbine powered airline transports and those airline craft that fly above 25,000 feet must now carry the units.

During World War II America produced 41 billion rounds of ammunition, enough to last 40 centuries fired at the rate of 20 rounds a minute.

Traffic accidents on the Island of Bjarkoy, Norway, rose sharply in 1961 to a rate equal to 5,000 accidents per 10,000 registered vehicles, reports the National Safety Council. Here's why: The Arctic island's only car collided with its only truck at a bend in its only road;

Dozing drivers will get a jolt out of a new gimmick designed to confine their sleeping to the bedroom. A blinking dashboard light comes on periodically to check the alertness of the driver. He can turn it off by tapping the horn ring. But if he doesn't, the unit makes its point by: 1—blowing the horn; 2—jolting the car by turning the ignition off and on; 3—all else failing, cutting the engine.

Qualified for the office by Education, Experience, Character and Adaptability. Al Greider Candidate for Kosciusko County Assessor.

ADVERTISE! IT PAYS!

YOUTH TO ATTACK TRAFFIC SAFETY

In a news story in our last issue we mentioned the safety program of the Rural Youth.

This week, James Heaton, the president of the Kosciusko county Rural Youth Club, says "We hope to install a seat belt in each member's car. We hope that by setting this example, we can convince people that our age group is as concerned about safety as our elders."

The seat belts will be ordered through Gordon Brubaker, Farm Bureau insurance agent, and sold to club members at a nominal cost.

Serving on the safety committee also are Justin Kneeland, Richard Stouder and Dan Davis.

DINNER ON 93rd BIRTHDAY

Sunday a dinner was held at the home of Mrs. Alfred Teel for her 93rd birthday. Those attending were Mr. and Mrs. Lloyd Teel, Mr. and Mrs. Hugh Kesler and daughter, Mr. and Mrs. Hal Trump and children, Mr. and Mrs. Ondis Teel and children, Mr. and Mrs. Roy Moore and daughter, Mr. and Mrs. Richard Freckel and daughter, Mr. and Mrs. Dean Teel and son, Mr. and Mrs. Richard Teel and daughter, Mr. and Mrs. Norman Teel, Mr. and Mrs. Stanley Teel and daughters, Mr. and Mrs. Bob Teel, Mrs. Blanche Kesler and Mrs. Nellie Ferckel. They are all children, grandchildren, great-grandchildren & great-great-grandchildren.

GIVEN PARTY ON TENTH BIRTHDAY

Miss Rhonda Kay Yazel was given a party on her tenth birthday Friday afternoon.

Games were enjoyed and refreshments were served by Mrs. Yazel and Mrs. Lantz. Those attending were: Denise McFadden, Suzanne Kralis, Pam Harmon, Elizabeth Smythe, Annette Hibschan, Donita Teel, Susan Romine, Kathy Decker, Kathy Yazel, Sara Jo Smith, Susan Shirey, Kristine Huffer, Karen Kaldyke, Marie Hubbard, Kim Manwaring, Teresa Yazel, Rhonda Yazel, Mrs. Yazel and Mrs. Lantz.

A number of our college students have been visiting home folks during their spring vacation.

FINED

Larry Teel, 20, paid fines and costs of \$72 in Warsaw City Court Monday on three separate charges filed by Warsaw police. He was arrested 7:20 p.m. Sunday.

NEWCASTLE TOWNSHIP NEWS

Mr. and Mrs. Herman Mathews and family called on her mother, Mrs. Helen Emmons.

Mr. and Mrs. Fred Alderfer of near Leiters Ford spent Tuesday visiting her father, William Davidson.

Paul Miller and son Mike of Tiosa called on his parents, Mr. and Mrs. Fred E. Miller Sunday. Bill Rathbun of Mentone called on friends here Thursday evening.

Joe Duzan and Fred Miller spent Thursday forenoon in Rochester.

William Davidson entertained at dinner Sunday, Mr. and Mrs. Dean Stockberger and family of near Rochester and Lavoy Montgomery.

Mr. and Mrs. Lyman Dawson and family spent Saturday afternoon in Rochester.

Mr. and Mrs. Clyde Harvey spent Saturday in Rochester.

The Newcastle township Lions club held its regular meeting on Wednesday evening at the local high school. Plans were made to have a ladies night sometime in April with time and place to be announced later.

The men of the Talma Methodist church met on Thursday evening, March 29, in the church basement. The meeting was opened with prayer by Rev. John Kreig, and several hymns were sung by the group. Bill Rathbun had charge of the program. The secretary and treasurer's reports were read by Sid Alber and approved. After the business meeting, a social hour was enjoyed by all. Sid Alber dismissed the meeting with a prayer.

The Newcastle township PTA will hold its annual penny supper Tuesday evening, April 10, in the Community building. The public is invited to attend.

The Talma Junior class will give their class play entitled, "The Boarding House Reach", at the Community building on Friday, April 6 at 8 p.m.

Mr. and Mrs. Robert Calvert attended a campers meeting at Rochester Saturday evening.

Dick Davidson spent Saturday evening visiting with Clair Omyer.

Mrs. Doran Hostess To Psi Iota Xi

Eighteen members of Beta Epsilon chapter of Psi Iota Xi sorority met Tuesday evening for their regular business meeting with Mrs. Byron Doran at her home near Burket.

The regular business session was conducted by the president, Mrs. Paul Quinn. An invitation was received from the Bloomfield chapter to attend the 59th annual convention on May 25-26 at I. U. Memorial Hall at Bloomington.

A donation of \$50.00 was given to a family that is hospitalized after receiving serious and multiple injuries in an automobile accident.

Plans were discussed and tickets were distributed to each member for the Herbert Philbrick program to be presented May 1 at the Mentone school. We sincerely hope you will attend and enjoy this enlightening address on Communism by Mr. Philbrick.

New officers were elected for the coming year which are as follows: Mrs. Mervin Jones, pres-

ident; Mrs. Dale Cook, vice president; Mrs. Richard Dickhoff, treasurer; Mrs. Byron Doran, secretary; Mrs. Paul Shireman, corresponding secretary; Miss Annabelle Mentzer, conductress.

Other members attending the session were Mrs. Ralph Ward, Mrs. Mott Bryan, Mrs. Iris Anderson, Mrs. Curtis Riner, Mrs. Jerome Kralis, Mrs. Terry Utter, Mrs. Archie Leckrone, Mrs. Jerry Ross, Mrs. Royal Baum, Mrs. Cecil Long, Mrs. Wade Powell and Mrs. Robert Ross.

Refreshments were served by Mrs. Doran. Mrs. Baum received the attendance award. The next meeting will be April 17 with Annabell Mentzer as hostess.

Farm Planting Intentions

Hoosier farmers intend to increase their 1962 acreage of corn, barley, tobacco and potatoes, but to reduce oats acreage, report state and federal agricultural statisticians at Purdue University. They plan no

change in their soybean, sorghum and hay acreage.

The statisticians, reporting March 1 planting intentions of Indiana farmers, said corn acreage would total 4,652,000 acres—eight per cent more than in 1961.

Farmers expect to maintain their soybean acreage at 2,778,000 acres, the same as was planted last year.

On the other hand, prospective plantings of oats total 702,000 acres; this is 15 per cent smaller than the record low acreage of 1961.

The barley acreage planned amounts to 64,000 acres, 10 per cent larger than last year.

Tobacco will be planted on 8,100 acres, seven per cent more than last year. Sorghum acreage will total 21,000 acres, the same as harvested in 1961. Potato planting intentions indicate 7,700 acres, up five per cent from a year ago.

Acreage of hay for harvest is estimated at 1,368,000 acres, the same as last year. Winter wheat acreage, seeded last fall, totaling 1,180,000 acres is 11 per cent smaller than the previous year.

Changes in present planting intentions may result from weather conditions, the economic situation or the effect of the March planting intentions report.

Egg production in Indiana during February totaled 186 million eggs, five per cent below the February, 1961, figure. Both the number of layers and their rate of production declined from a year ago.

February milk production declined one per cent to 234 million pounds. However, produc-

tion per cow climbed four per cent from a year earlier, while the number of milk cows dropped three per cent.

Drilling seed oats at the rate of two bushels an acre has given maximum yields in Purdue University tests, except when seedings were made late in the spring.

Jerry Hudson's "What-Is-It?"

Well you probably didn't have much trouble with last week's "What-Is-It?" If you guessed it as a key chain you were right, or you might have thought it to have been an electric pull chain. Either would have been correct.

This week Jerry Hudson comes up with one that may bother most of us a lot. The crazy thing seldom behaves. It causes us a lot of trouble, winter and summer. It is possible to give many clues, but try this one a bit in the dark.

MARRIED RECENTLY

Miss Nancy Jo Cochran and Jerry Lee Shultz were united in marriage at seven o'clock Saturday, March 24, in the Mount Pleasant Methodist church. Rev. Riley B. Case, pastor of the church, read the nuptial vows.

The bride is the daughter of Mr. and Mrs. Edgar Cochran of Mentone, and the bridegroom is the son of Mr. and Mrs. Edward Shultz of Pierceton.

The bride wore a white acetate nylon waltz length dress with a white hat, with white accessories, carrying white and pink pom-poms.

Connie K. Cochran was the bridesmaid and William R. Cochran was the best man.

Following the ceremony, a reception was held at the bridegroom's home. The couple will reside in Pierceton.

WELCOME HOME DINNER

A welcome home dinner was held for Mr. and Mrs. L. Wayne Kelley on their return home Sunday, April 1st, at the home of their son, Walter J. Kelley.

Those present were Mr. and Mrs. L. Wayne Kelley, Mr. and Mrs. Walter Kelley, Josie, Michael, Debra, Jeffery and Pamela, Mr. and Mrs. Fred Wood, Keri and Mark of Rochester; and Mrs. Jean Sult of Terre Haute.

Afternoon guests were Mr. and Mrs. Harry Sult, Mary Ella and Mrs. Ella Sult, all of Leiters Ford; Mr. and Mrs. Charles Sainer and family of Warsaw; Mr. and Mrs. Ronald Swick and son of Palestine were unable to attend.

NAMED TO COUNTY BOARD

Lester Blackburn, has received notice that he has been given a two-year appointment to the County Extension Board.

The duties of the extension board include: Directing body for the county extension program, consult with Purdue University on matters of personnel,

make and submit the budget for extension work, and assist with program planning and program direction.

Mr. and Mrs. Wayne Tombaugh spent the week end in Madison, Wisconsin visiting Mr. and Mrs. Richard Tombaugh and new baby.

Lawrence Butts, republican candidate for county commissioner of the southern district, and Fred Gilliam, candidate for the middle district, were in town doing a bit of campaigning one day last week.

Cattle Feeders Day, April 27

Latest research results on vitamin A, haylage and high corn silage rations for feeding cattle will be presented at Purdue University's Indiana Cattle Feeders Day, April 27.

The morning session, starting at 9:30, CDT, will be at the Purdue Farm Center, three miles northwest of the campus. The afternoon meeting will be in the Hall of Music on campus.

Purdue animal scientists will present research results including evaluation of sources of vitamin A and their relation to vitamin E, which protects vitamin A, for fattening steer calves and value of airtight haylage compared to haylage stored in conventional silos with full feed and half feed of corn.

Other research reports will deal with the value of a protein block to supplement corn silage feeding, effect of high level zinc and other additives, B vitamins, enzymes and tranquilizers, and value of pelleting high roughage rations for fattening cattle.

Visitors will see cattle used in experiments which will be reported on at the morning session.

At the afternoon session, Dr.

F. N. Andrews, head of Purdue's animal sciences department, will discuss meat animal research and Dr. H. H. Stonaker, Colorado State University animal scientist, will talk about producing beef cattle for the future.

The Indiana Cattle Feeders Association, which sponsors the event with the animal sciences department, will elect officers.

Dry or Liquid Fertilizer

Dry or liquid fertilizers of the same grade or analysis are equally good—neither has an edge over the other as to quantity of available plant food per pound, points out Dr. F. W. Quackenbush, state chemist at Purdue University.

The Indiana fertilizer law, which protects both the industry and the farmer, requires that fertilizers, whether dry or liquid, be labeled as to their analysis and sold on a weight basis. A gallon of liquid fertilizer weighs between 8 and 11 pounds, depending on its analysis.

Bagged fertilizer is required to have the analysis clearly displayed on the container or on a tag attached to the container. Bulk fertilizer, including liquids,

must carry the guaranteed analysis on the invoice or delivery ticket furnished the farmer at the time of delivery.

However, for a farmer to receive maximum protection under this law he must buy fertilizer that is labeled, Quackenbush emphasizes. And the basis for the analysis of fertilizer a farmer should use is found in soil needs and crop to be grown.

Liquid fertilizer is becoming generally available to Indiana farmers on a competitive basis with dry fertilizers. However, it is economically unsound to pay \$200 or \$300 a ton for liquid fertilizer of the same analysis as dry fertilizer selling for \$60 or \$70 a ton.

BIRTHDAY SUPPER

Mr. and Mrs. Earl Shinn entertained at supper Sunday evening Mr. and Mrs. Kenneth Shoemaker and sons, Mr. and Mrs. Jim Miner and family of Etna Green and Ronnie Ward.

The occasion was a birthday surprise party for Mrs. Pat Shoemaker, complete with a beautifully decorated, candle lit cake, prepared by her sister, Mrs. Jim Miner.

Chairman of Flight Safety

Dr. Dan Urschel will be in Atlantic City next week, attending the annual meeting of the Aerospace Medical Association. He is chairman of a section on flight safety, and will present a paper on aircraft accident investigation. This study was based on an investigation of all non-fatal accidents occurring in the state of Indiana in 1960-61, with particular emphasis on the medical or physical causes for such accidents. It was found that current physical condition had very little to do with these accidents, and they were principally caused by poor flight training, poor judgment on the part of the pilot, or by a variety of mechanical factors. It appears to Dr. Urschel that the present physical examination which is required for pilot's license effectively eliminates almost all of the medical situations which might result in dangerous physical incapacitation while flying.

While attending the meeting, Dr. Urschel will travel to Philadelphia to attend some of the sessions of the American College of Physicians meeting. Mrs. Urschel will accompany the doctor on the trip east, and will spend her time in New York with Dr. and Mrs. Charles Urschel and their son.

Attend District FHA District Meeting

The Northwest District of the Future Homemakers of America met for the spring District meeting on Saturday, March 31, in the Purdue Memorial Center in Lafayette. The overall theme was "Youth—Measure Your Values" and the district theme was "Families are Fun; Safety in the Home."

The highlights of the meeting were the election and installation of the 1962-63 officers, displays of historical records by the chapters, and our speakers

of the day, Judy Burton, state president, and Mrs. Watson, state advisor.

Local FHA members attending were Judy Besson, Renita Ring, Jane Tucker, Linda Smith and Mrs. Carpenter.

4-H Share The Fun Contest Held

The Merry 4-H club joined other 4-H clubs of the county to entertain a large crowd in the Madison school Tuesday night.

The local club presented a comedy act, "The Frontier Morician".

Members attending the program were Sharon Lewis, Suzie Witham, Jacque Pritchard, Becky Hunter, Sue Hoffman, Gloria Tucker, Suzan Romine, Lavina, Kay and Donna Bules, Judy Shelton, Pamela Abbey, Sandra Eckert, Louise Cox, Debbie Witham, Diane Cole, Linda Bowerman, Peggy Long and Marlene Brallier. Accompanying the girls were Mrs. Pritchard, Mrs. Lewis, Mrs. Witham, Mrs. Tucker, Mr. and Mrs. Bowerman and Mr. and Mrs. Carpenter.

ENGAGED

The engagement of Diana Kay Ballenger and Larry Wayne Nellans has been announced. Miss Ballenger is the daughter of Mr. and Mrs. Gerald Ballenger and Mr. Nellans is the son of Mr. and Mrs. Wayne Nellans.

Diana, a 1961 graduate of Beaver Dam high school, is a freshman at Indiana University, where she is majoring in elementary education. She is pledged to Pi Beta Phi national sorority.

Larry, who is a graduate of Mentone high school, is a Junior in the School of Business at Indiana University. He is a member of Beta Theta Pi national fraternity.

A late summer wedding is planned.

SPEAKS ON SCHOOL REORGANIZATION

Mrs. Ruth Urschel, a member of the county school reorganization committee, spoke to the Mentone Lions on this important subject at their meeting Wednesday evening, April 4.

A note from the Don Bunnors at Leesburg, Fla., state they expect to head for Mentone soon. They're not tired of the sunshine state but are just getting homesick to see their friends in Mentone.

COUNTERPOINT. Continued

spirit does not harden itself easily against a sharp weapon—the tongue—that cuts a child's sense of self to shreds."

We appreciate what Haydn Pearson has to say about planting trees.

"What does a man plant when he sets a tree? He plants a seed in his heart; for he who plants a tree believes in the continuance of life and faith in the verities that govern our flowering world. When you set a tree you are cooperating with the mysterious forces that govern all life. The small tree you set and nurture represents hope and faith, a belief in the foundations that govern life. Man does not know the answers. He must accept life and live it according to conscience and judgment. When you plant a tree you give expression to hope and faith, the beacons that guide one's footsteps along the trail of years"

—HAYDN PEARSON

We enjoyed this:
"How are you getting along?" the old-time salesman asked the fledgling.

"Terrible," the new man answered. "I have been insulted in every place I made a call."

"That's funny," the old man replied. "I've been on the road for 40 years I've had my samples flung in the street; been tossed down the stairs; and been manhandled by janitors—but insulted—never!"

Your choice of modern or traditional furnishings in your home is a matter of preference. You can find fine carpet designs in either period, say Purdue University home furnishings specialists.

Use a large, firm surface when cutting the pattern for a garment, suggest Purdue University clothing specialists. Place a folding cutting board on top of a card table, use a large table top, or even the floor.

NEWS? Ph. ELmwood 3-3985

CALENDAR

Senior car wash Saturday, April 7.

Jolly Janes H.D. club will meet April 9th at 8:00 p.m.—Note change of place—Mrs. Raymond Lewis.

Merry Mollys Home Demonstration club will meet April 9 at 7:30 with Mrs. Lamar Leffert as hostess and Mrs. Glen Mel-lott co-hostess.

Sophomore fish fry will be held this Saturday.

Mothers of World War II will meet April 11 at the home of Maude Romine.

The Parent-Teacher's Association will meet April 11. The speech and music contest winners will be on the program, after which Open House will be held.

The Mentone Home Demonstration club will meet at the home of Mrs. Ralph (Genevieve) Warren on Thursday, April 12, 1:30 p.m.

Mentone W.S.C.S. Attention! Mrs. J. N. Rodeheaver will take us on a tour of the Holy Land via color slides Thursday, April

12, 8 p.m. at the church. Six neighboring societies will be our guests. All ladies of the church are cordially invited to attend.

NEED TO BE REGISTERED?

Yes, according to state law a person over 21 years of age must be registered in the precinct in which he resides. You may have lost your eligibility to vote if you failed to vote in the last general election

So, if you are a new resident of the township, or failed to vote last election, check on your eligibility.

Wayne Tombaugh, one of the precinct committeemen, will be at his home Fri. evening, Apr. 6 to register voters or answer your questions. Or you may call and make an appointment with him or any other precinct committeeman in your precinct.

April 9th will be your last day to register. You also must be registered to be able to vote in the school reorganization on May 8th.

Married Recently

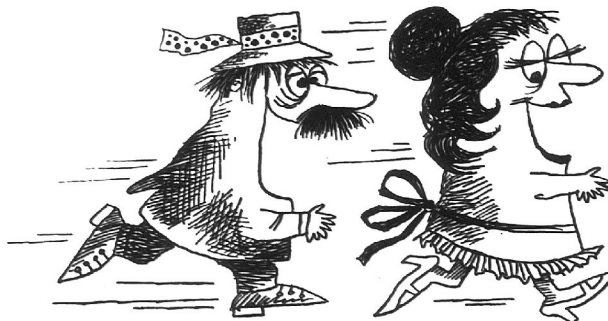

Mr. and Mrs. Dean Holloway, who were married in the Mentone Methodist church on March 19, have established their home on Route 1, Mentone. He is employed at the Lakeside Dairy Farms, Silver Lake.

Mrs. Holloway is the former Sylvia Marie Hite, daughter of Mr. and Mrs. Everett Hite of Warsaw. Parents of the bridegroom are Mr. and Mrs. Glenn Holloway, Mentone.

Rev. Roger Wrigley read the vows at seven o'clock that evening. The bride wore a waltz length gown of blue brocade with matching jacket and a circlet of blue and white rosebuds in her hair. Mrs. Robert Cole and Mrs. Harley Kauffman of Warsaw, cousins of the bride, were the attendants.

Mr. and Mrs. Glenn Holloway gave the wedding supper at their home.

RHODA JONES
DIES SUDDENLY

Mrs. Rhoda Jones, 79, was found dead in her home Wednesday morning, at Sevastopol. Evidently she died of a heart attack some hours before. She had been in poor health for the past two years.

The deceased was born near Mentone June 14, 1882, to L. L. and Mary (Morgan) Mollenhour, and had spent her entire life in this area. In 1905 she was married to Vernon Jones, who died in 1950. She was a member of the Burket EUB church, and the Friendly Neighbors Home Economics Club.

Survivors include three sons, Devon of near Mentone, Mervin of Mentone, and Paul of Elkhart; one sister, Mrs. Minnie Williamson of Burket; three brothers, Harvey Mollenhour of Lakeville; George Mollenhour of Palestine, and C. O. Mollenhour of Mentone; five grandchildren, and eight great-grandchildren.

Funeral services will be held at the Burket EUB church Saturday afternoon at two o'clock, with Rev. Kenneth Hostettler officiating. Burial will be in the Palestine cemetery.

Friends may call at the Johns funeral home after 7:00 p. m. Thursday until noon Saturday.

Facts About School
Reorganization

"To re-organize" or "To keep the present system" is NOT the question to be voted upon May 8. It has already been decided by the General Assembly of Indiana that schools which do not meet the minimum standards of the State Committee must re-organize.

The question for voters on May 8 will be: "Do you favor the plan as proposed for the area in which you live?"

If the plan as presented is not adopted, one of two steps will be taken: (1) The same plan may be presented again later, or (2) another plan of consolidation may be proposed. In some cases the second may be impossible since the surrounding districts may have accepted their plan as proposed for them. If re-organization is not affected on the local level, then re-organization becomes the responsibility of the State.

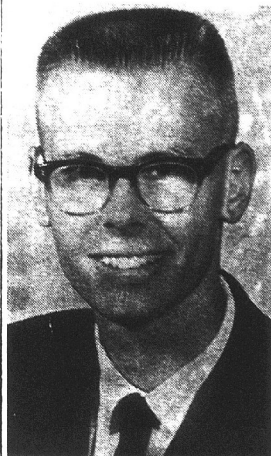

The question is not "whether", but "how?"

It would appear that when a majority of the counties of the state have re-organized accord-

(Continued on back page)

VALEDICTORIAN

Doyle Alden Eiler has been chosen valedictorian of the 1962 Mentone graduating class. He is the son of Mr. and Mrs. Carroll M. Eiler, of R. R. 5, Warsaw.

Doyle Alden Eiler

In his freshman year he presented the state winning poultry demonstration. The following year he was a member of the state winning poultry judging team. As a junior he was the winner of the state FFA poultry award activity, and as a senior he was a district officer in FFA and received the Hoosier Farmer degree.

Doyle is enrolled in the school of agriculture at Purdue.

Conduct Symposium
On Heart Failure

On Wednesday, April 4, Dr. J. Hal Doran of Indianapolis and Dr. Dan Urschel of Mentone conducted a symposium on congestive heart failure at the meeting of the Marshall county Medical Society, held at Plymouth. This program was sponsored by the Indiana Heart Foundation.

Dr. Doran, a prominent Internist and Cardiologist, is the son of Mr. and Mrs. Virgil Doran of Burket, and a graduate of Burket high school. Area basketball fans will remember Hal as an outstanding player, the star of a Burket team which beat a very good Mentone five on their home court in the 1939 season.

On Tuesday, April 7, Drs. Doran and Urschel, along with Dr. E. A. Reed, of Warsaw, will conduct a similar program for the Kosciusko county Medical Society.

COUNTERPOINT

By The Editor's Wife

This week we wish to pay special tribute to our librarian and library board. This has been designated as National Library Week by a special proclamation by President Kennedy and Governor Welsh "to remind Americans that the freedom to read is the privilege and responsibility of a free, democratic society."

The high wind on Monday brought countless small branches down from the willow tree, so I am doing my lawn raking all over again. Our boxelder trees are as untidy as the willow, too.

Last year's small redbud trees are surprisingly sturdy this spring, and certainly would defy anyone daring to set a spade to their roots. Last year's tiny slips of redbud (which Tim and I so carefully guarded) are now the right size for transplanting.

The grosbeaks are still coming to our bird-feeder. We have wondered where they nest, and how long Mother Nature will allow them to stay in these parts. We have enjoyed their visits, but find their sparrow-like chirps a bit unpleasant.

Tom called Tuesday evening to report that the martin "scout" had just alighted on the pole where last year's house had rested, but soon located the new house a little distance to the north. (If the martins do locate our house, they are going to have to dislocate some "squatter" sparrows.)

Note on communism.

The issue will be determined by power of conviction: the conviction of men who fear and love God or the conviction of materialists who detest anything higher than themselves. And if our faith and our culture are to prevail, we must take our stand forthrightly on certainly moral truths and ancient ways.

First, we must stand for the real brotherhood of man, which is possible only under the fatherhood of God.

Second, we must stand for personal freedom, which in essence is the right and duty of moral choice.

Third, we must stand for the Judeo-Christian and classical principle of justice: to each man

(Continued on back page)

SALUTATORIAN

Sandra Sue Miller, daughter of Mr. and Mrs. Ned E. Miller of Mentone, is salutatorian of her graduating class, where she has served as class secretary.

Sandra Sue Miller

Miss Miller served four years in band, chorus, triple trio and pep club; Mentonette staff as a sophomore, and as a junior she was in the class play, homecoming attendant, and assistant store manager. As a senior she was in the Spanish club, Tribune reporter, and annual editor.

She enters Purdue next fall for a major in elementary education.

WITH THE SICK

Mrs. William Schooley was dismissed from the Murphy hospital Tuesday.

Rosa Kinsey is slowly improving.

Sandra Sue Lantz, 8 month old daughter of Mr. and Mrs. Quinton Lantz of Warsaw, was dismissed from the Murphy Medical Center on Friday, and is slowly improving after a seige of intestinal infection.

Mrs. Ransford Peterson had the misfortune of falling and breaking her hip and is confined to the Woodlawn hospital.

Mrs. Respa (Van Doran) Spaulding of Bloomington, formerly of Burket, is in the Memorial Clinic at Indianapolis where she underwent surgery.

WINS FLORIDA TRIP

Mr. and Mrs. Joe Boggs left Thursday for Ft. Lauderdale, Florida. Joe was one of four in Indiana to win an expense-paid 10-day vacation in Florida, by the Pilgrim Life Insurance Co.

MOTHER DIES
IN HOSPITAL

Mrs. Mabel K. Gast, 71, lifetime resident of the Akron community, and mother of Mrs. D. J. Van Gilder, of Mentone, died Tuesday at 3:20 p.m. in Woodlawn hospital. Mrs. Gast had been ill for the past 3½ years and bedfast for the past 17 days.

Mrs. Gast was born May 30, 1890, in Kosciusko county to Elias and Amanda Kistler Leininger. She was a graduate of Akron high school, attended Teacher's college at Winona Lake and taught school. In recent years she was of the Christian Science faith. Mrs. Gast was a charter member of the Akron Mothers Study club and a member of the Two-Ze-Month club. She was married June 22, 1910 to Karl Gast.

Surviving with the husband are two daughters, Mrs. Juanita Bowell, Akron, and Mrs. Barbara Van Gilder, Mentone; three sons, Stuart, Winimac, Charles, R.R. 1, Akron, and Tom, R.R. 2, Akron; 17 grandchildren, and one sister, Mrs. Ida Thompson, Winona Lake. Five sisters and two brothers preceded in death.

Services will be Friday at 2 p.m. in the Tom Hauptert funeral home in Akron with Rev. Wesley Bullis and Mrs. Jeannette Harvout officiating. Burial will be in the Akron cemetery.

FFA In District Contests

The Mentone Crops and Poultry team will go to Lagrange this Saturday to represent the Mentone FFA in the District Contests. Those attending will be Steve and Fred Mellott, Steve and Jim Mikel, crops team; and Fred Horn, Eddie Blosser, Larry East and Bill Kindig, poultry team.

SON IS BORN

Mr. and Mrs. James Estes of Indianapolis are the parents of a nine pound four ounce son, James Stephen, born at 8:55 a. m. Saturday morning at the Murphy Medical Center at Warsaw.

Mrs. Estes and son are now at the parental Arthur Kendall home northwest of Mentone.

MARRIED SATURDAY

Judy McKequire, daughter of Mr. and Mrs. Dale Babcock of Warsaw, and Phillip Nelson, son of Mr. and Mrs. Del Nelson of Burket, were married at 6:30 Saturday evening in the Mentone Church of Christ, with Mr. Frank Binford officiating.

Start A New Lawn

You can start a new lawn now and have a beautiful green lawn by summer. However, you'll need to take special care, say Purdue University turf specialists.

Early fall is the best time to sow a new lawn since cool fall weather favors the bluegrass growth. However, when grass seed is sown in the spring special care is needed to get the lawn off to a good start in order to compete with summer heat, crabgrass and weeds.

Add fertilizer before the lawn is seeded. Turf specialists say the fertilizer will help give the grass a vigorous start. Add 20 pounds of 10-3-7, or similar analysis, fertilizer per 1,000 square feet of lawn area. Mix it well into the topsoil.

After sowing good, high percentage bluegrass seed, rake the seed in lightly, then roll. Mulch if desired. Then, and this is important, keep the soil moist for three weeks after seeding. This will aid seed germination and help get the lawn established quickly.

Demand for electric power in the U.S. in 1980 will be more than three times the amount used today, predicts the Federal Power Commission. The commission estimates that over the next 20 years power requirements will rise to 3 trillion kilowatt-hours annually, compared with 849 billion used in 1960.

Walls of the Atlas rocket, workhorse of America's space program, are made little thicker than ordinary kitchen foil, in order to save weight. When the rocket isn't fueled, it cannot remain upright unless it is filled with a gas such as nitrogen to make it rigid.

Arachnophobia—fear of high places—prevents some motorists from crossing the Delaware Memorial Bridge, the link with New Jersey which is 187 feet above the Delaware River at its highest point. Bridge policemen, who chauffeur the reticent drivers across, say they get an average of one a week, men as well as women.

What makes a new soldier gripe? Poor food, hard training, lack of sleep? None of these, suggests Professor Alvin F. Zander, director of the University of Michigan Research Center for Group Dynamics. The true reason is that the newly uniformed man doesn't like other soldiers. The usual rigors of military life are difficult to bear, but adjustment to various personalities encountered is toughest of all. A step in the right direction, he adds, would be to place together recruits with similar backgrounds and intelligence.

A portable oxygen tent for pets has been developed. Small animals that have breathing difficulties or are suffering from shock or heat prostration can be treated in the NCG "pet tent." It is expected to be especially helpful for newborn litters.

Sad people take longer to get over the flu than happy people. This information comes from Johns Hopkins University School of Medicine where a study of 600 Asian flu victims showed that sufferers with depressed natures were sick for three weeks or longer, whereas happy type folks recovered in three to 14 days.

Two-man version of the Project Mercury space capsule is called Gemini. The 9,000 pound craft, scheduled to fly in late 1963, will orbit the world as long as a week.

If you snore, hold an ordinary wooden tongue depressor between your teeth for 10 minutes after going to bed before settling down to sleep. This simple exercise is recommended by the British Medical Association which sought out Great Britain's snorers to study their sleeping sounds.

Who says we're neglecting peaceful uses for atomic energy? The Atomic Energy Commission reveals that radioisotope techniques have been developed that can detect false age claims on imported whiskey.

Winter pigs should be vaccinated for hog cholera at weaning time or before they get too large, remind Purdue University veterinarians. Breeding stocks should be vaccinated yearly.

WARSAW

Termites Already Swarming

Termites already are swarming in Indiana, report Purdue University entomologists.

Homeowners sometimes confuse them with flying ants. But, the two are easy to tell apart.

Termites have four milky colored wings of equal length and about twice the length of their body. If some of these wings are lying about after the swarm of insects has disappeared, you have evidence the swarmers were termites.

Ants also have four wings, but they are clear like the housefly's and of unequal size and length. Ants also differ from termites in having wasp-like waists.

Another sign of termites is the mud-like shelter tubes they build over foundation walls and wood to find their food supply. These are up to one-fourth inch wide and crumble easily.

Termite infested wood may show little or no evidence on the surface. These insects eat the soft inside grain of the wood. You can test your house for soundness with an ice pick. Start with wooden basement window frames, wooden supports in contact with soil and

the plate on top of the foundation wall, especially one adjacent to a filled porch.

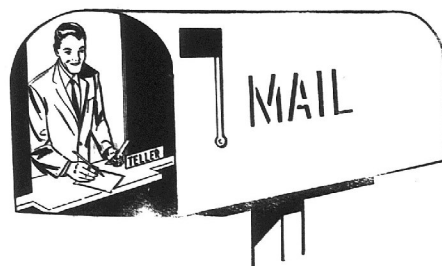

If you have termites, secure the services of a pest control operator who will chemically treat the building and insulate it against further attack. Choose an established firm rather than an itinerant peddler.

Examine frequently the litter around broiler house feeders for wasted feed, advise poultrymen at Purdue University. In spite of low broiler prices and relatively high feed costs, feed waste is still one of the biggest leaks in broiler profits. Common causes of wasted feed are troughs more than one-third full of feed, improperly adjusted hanging feeders and carelessly tended mechanical feeders.

Saturday Mrs. Glen Wagner of Warsaw, Mrs. Frank Spitler and daughter, Angynetta and Mr. and Mrs. Ralph Tucker and Tommy called at the Ora Tucker home.

Mr. and Mrs. Max Dunlap visited Sunday with Mrs. Saddle Black and Mr. and Mrs. Lloyd Rickel.

Mr. and Mrs. Guilford Cook of South Bend called on Mrs. Emma Cook Tuesday.

SINCERE THANKS

We wish to thank our many neighbors and friends for all the acts of kindness shown to us during our time of sickness. And a special thanks to H. V. Johns.

MR. & MRS. Wm. SCHOOLEY

Applying 50 pounds of nitrogen per acre to grass pastures in early spring will permit grazing one to two weeks earlier and may boost forage production 50 to 75 per cent, according to Purdue University agronomists.

Freedom Night Committee Meets

The Philbrick Freedom Night committee and members of sponsoring organizations met at the Legion Home on Monday night, April 9. Much interest in the forth-coming appearance of Herbert Philbrick in Mentone, May 1, at the high school gym, has been manifested and a capacity crowd is anticipated.

The committee urges all who are becoming more and more aware of the fact that we have a serious problem and are desirous of preserving our freedom and of winning the battle against communism to get their tickets now.

As many already know, Mr. Philbrick was for nine years a member of the communist apparatus as a counter spy for the FBI. Ever since his true character was finally revealed some eight years ago, he has been writing, lecturing and making radio and television appearances all over the country in a sustained patriotic effort to alert his countrymen to the atheistic

Red threat that has literally permeated the United States. Since he came up from the communist underground, this dedicated man has traveled hundreds of thousands of miles spreading the Gospel of Christ in opposition to communism. Mr. Philbrick stated in a recent radio interview on the Manion Forum that he has seen a tremendous increase in activity concerning more knowledge of communism and its threat to us. He stated that these interested people are good Americans. They are not extremists; they are not reactionaries; they are good Americans concerned with the preservation of freedom and liberty we have in our country.

Monday night, April 16, the committee will meet again, at the Legion home with representatives from each organization working on publicity and tickets.

Purdue University dairy scientists recommend culling and selling cows which fail to show desired profits. This decision should be based on milk production records.

GOLDEN ANNIVERSARY FAMILY DINNER

Mr. and Mrs. Carl Zolman and sons entertained at a golden anniversary dinner Sunday in honor of Mr. and Mrs. Dallas Zolman of South Bend. Others present for the occasion were Mr. and Mrs. Oevain Feltz and Mr. and Mrs. Charles Kochendef, of Rochester; Mr. and Mrs. Kenneth Kochendef, of Michigan City; Mr. and Mrs. Alfred Mock, of North Webster; Mr. and Mrs. Robert Mock and daughters, of Warsaw; Mrs. Maude Zolman and Mrs. Ethel Graham, of Mentone. The guests of honor were presented with a lovely golden money tree.

ANNIVERSARY OBSERVED

Mr. and Mrs. Garrie Rose celebrated their 55th wedding anniversary Sunday at their home with the guests Mrs. Vira Ward, of Kirklen; Mrs. Ona Ralston, of Bourbon; Mrs. Zoa Warren, of Argos; Mr. and Mrs. Emory Hindenlang, of Laotts and Mr. and Mrs. Harry Cole, of near Mentone.

PATRIOTS' DAY

BELLS ACROSS THE NATION

April 19, the anniversary of the battles of Concord and Lexington has been designated as "Patriots Day" by the American Legion. Admiral Arleigh A. Burke, USN (ret.) heads the committee sponsoring "Bells Across The Nation" to commemorate the first blows struck for freedom in this country. Legion posts in every community are arranging to ring church and school bells for four minutes in honor of those Patriots from 1775 until now who have answered the call to defend our country and fight for freedom. Legion National Commander Charles I. Bacon calls it a "simple but dramatic method of expressing the unity of all Americans in their love for freedom."

To reach a wider range, Mentone's fire siren will sound during the four minutes; once for each of the 13 original colonies who bravely defied a foreign tyrant and established the foundation on which our great country was built. The time is 1:00 p.m., EST. Mentone churches have agreed to ring bells for the full four minutes and others with bells are urged to participate.

The home-spun-garbed Militiamen at Concord were the first of our "citizen soldiers" and have been followed by millions both in and out of uniform right down to those in every walk of life today who are fighting against communism; proving that the same Patriotic spirit lives on and grows stronger.

Knowing the enemy and being adequately prepared for him has been the watchword of patriots throughout history. Timed to fall between Patriots Day and Memorial Day, the Philbrick Freedom Rally here May 1, brings everyone an opportunity to learn more about the "red menace" and "Methods of Combatting Communism", the subject of Mr. Philbrick's lecture at the school gym.

Mentone Legion Post Commander, Paul N. Quinn, stated: "We urge everyone to join in the four minute observance honoring our patriotic forebears and

to attend the Freedom Rally to better prepare ourselves to defend the freedoms we inherited and insure we can pass them on to our children." "To get into the spirit, we recommend re-reading Emerson's "Concord Hymn" which begins:

By the rude bridge that arched the flood,
Their flag to Aprils breeze unfurled,
Here once the embattled farmers stood,
And fired the shot heard the world.

or John McCrae's "In Flanders Field" which ends:

Take up our quarrel with the foe:
To you from failing hands we throw
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders Field.
And of course, Longfellow's "Paul Revere's Ride".

A Statement of Newspaper Policy

Recently one of our readers brought up a question concerning the use of free publicity in our newspapers, and it prompts us to review a few of the facts pertaining to a newspaper's position on such matters.

A clothing store sells clothing, a groceryman sells groceries, an auto agency sells automobiles, and a newspaper sells and distributes advertising space. Seldom, when one buys a shirt, does the storekeeper give one a necktie to go with it, or when one buys a dozen eggs does the groceryman throw in the bacon to go with them.

A newspaper, as one of the most important business concerns in any progressive community, has an obligation to prepare in word-capsule form, a

concentrated picture of the community and its activities that all might have access to this valuable information. The medium of a newspaper is likewise important in the carrying of advertising messages of the business concerns it represents, official legal notices, etc.

A newspaper—if it abides by its public responsibility—must of necessity guard with unwavering diligence against any policy or venture that may prove to be a future detriment to a community. For instance, years ago, we are told, when our mail routes were established, some insisted upon few routes so that rural people would have to come to town to get their mail and hence be prospective business customers. Today we have only one rural route and our rural friends only a short distance

away get their mail through various other towns.

A newspaper is an educational institution. It upholds that which is good and is expected to fairly print all the news—good and bad.

Generally news of charitable, church or public endeavors, is handled without thought of recompense by the publishers, but whenever an event expects money from the public, then that information ceases to be news and is advertising to be paid for like any other service to be found in a community. True, newspapers often give a "necktie" in the form of a news story when an event is represented with a paid advertisement in its issue.

MTS Auto Club's Unique Benefits

Free emergency car rental and long range weather forecasts included with trip plans are among a group of benefits being offered the motoring public, it was announced by the new, nation-wide MTS (Motor Travel Services) Auto club with headquarters in Minneapolis, Minnesota.

Elliott Roosevelt, executive director, said that the club was to be "more than just an auto club." He stated that the organization would feature many personalized services in addition to the usual auto club benefits.

Membership includes tow and emergency service. The trip routing service will include a 30-day weather forecast for the area to be traveled. The forecast will be made by Krick and Associates, weather engineers of Denver.

Other benefits are travel reservation service, foreign tour planning, hunting, fishing and sports planning service and children's camp information.

The club will also provide a residence re-location service, including arrangements for moving of household and personal possessions.

Membership will include bail bond certificate underwritten by National Surety Corporation, authorizing execution of bail bond for certain motor vehicle offenses in an amount not exceeding \$5,000. Also a world-wide accident policy underwritten by Fireman's Fund Insurance Company of San Francisco will be issued to each member with benefits as scheduled up to \$10,000 in the event of accidental death or dismemberment as the result of various types of travel accidents.

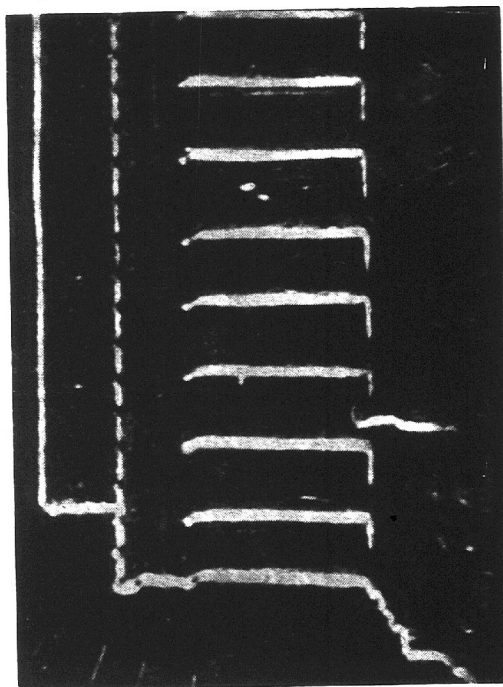

Arrangements have been made with driving instructors throughout the United States to give driver training and improvement courses at reasonable cost to members and their families.

To discourage auto theft, the club provides a \$200 reward for information leading to the conviction of the thief. A reward of \$25 is paid in the case of vandalism. The member is provided with a theft reward sticker for his car.

To aid in the recovery of lost keys or luggage, each member is given a registered number for his key chain and registered decals for his luggage.

Operating under the theory that "the children of today are the drivers of tomorrow," Roosevelt said that the club

Jerry Hudson's "What-Is-It?"

Jerry Hudson, in his "What-Is-It?" last week gave us a picture of the bulb end of a thermometer, but this week he tried to get a picture of about the most worthless thing we have today. It's about like the 5-cent cigar they talked about a generation or two ago. I'll grant I'd get a bit peaved at certain times if one wasn't available, but that may be just because the Cullum name once began with an "M."

You may have to dig a little deep to come up with the right answer this week.

will conduct a comprehensive safety program for youngsters under the driving age. To expedite recovery of lost bicycles, registered decals will be given children of members.

If a member is tried for a motor vehicle violation, and is acquitted, the club provides reimbursement of lawyer's fees up to \$275.

Each member is furnished a Motor Travel Directory listing MTS approved restaurants, motels and other businesses serving the traveler throughout the United States and Canada. Members also receive the club's monthly magazine.

If, as a result of an accident, a member's car cannot be put back in service within 24 hours,

he is given the free use of a rental auto for up to seven days. Roosevelt said that this service will be "particularly beneficial to the on-the-road salesman."

Each member's kit contains full Civil Defense information. The member also receives the MTS Travel Atlas including 60 pages of maps covering the United States, Canada and Mexico.

Attractive savings on records, books, magazines and other products are to be offered club members.

The club has established several hundred sales and service centers in MTS approved establishments throughout the country. "We will soon have a membership office in every city of

5,000 population and over," said Roosevelt.

He pointed out that there is no "entrance fee" and that the yearly dues are \$13.50. He stated that the member's wife could also receive full club benefits, including the accident coverage, for an additional \$2.50.

Applications for membership can be obtained from MTS Auto Club national offices at 1521 Hennepin Avenue, Minneapolis 3, Minnesota.

Reading Club Elects Officers

Mrs. Herman Olson, assisted by Mrs. Allen Shirey, entertained the members of the Reading club at her home on April 14th.

Mrs. Ora McKinley had charge of devotions. Mrs. Richard Manwaring was appointed delegate to the State Convention of Federated clubs at Indianapolis, with Mrs. H. V. Johns, as alternate. Mrs. Wayne Tombaugh and Mrs. Max Nellans gave reports on the county convention. Mrs. Johns will give the memorial at the State Convention. Mrs. Ray Rush and Mrs. Ora McKinley gave very interesting and informative talks on the women of the Bible and the women with whom Christ came in close contact.

Mrs. Dan Urschel gave a talk explaining the vote in the coming elections on the school re-organization plan. The Readers club went on record as approving the proposed County School Re-organization Plan.

Officers for the coming year are president, Mrs. Charles Manwaring; 1st vice president, Mrs. Joe Boggs; 2nd vice president, Mrs. Miles Manwaring; secretary, Mrs. William Cox; treasurer, Mrs. Herman Olson.

NEWS? Ph. ELmwood 3-3985

The Best Buy In Eggs

A neatly packaged, highly nutritious food item comes from the hen, points out Miriam Eads, food specialist at Purdue University.

To get the most egg for your money, she suggests alternating the size of egg you buy, according to the size that is most plentiful.

Normally, large sized eggs give the best value in late winter and spring. While small and medium sizes are better values during summer and early fall.

The specialist recommends figuring the cost per ounce or pound to determine the best bargain. Eggs are sold at a minimum weight per dozen according to the following:

Extra large, 27 ounces; large, 24 ounces; medium, 21 ounces; small, 18 ounces.

However, size does not determine quality, reminds the specialist. A large egg may be AA, B or C quality, the same as a small egg. Top quality eggs graded AA and A are best for poaching, frying and hard-cooking; while B and C quality are best when scrambled or combined with other foods.

The color of the yolk does not influence the nutritional value of the egg. Yolk color is determined by the hen's diet.

A green or dark yolk in a hard-cooked egg is not a sign of poor quality or lower food value. In most cases the color results from a chemical change caused by cooking too long at too high a temperature.

Be Abouts Meet With Mrs. Peffney

The Be About Missionary group met at the home of Mrs. David Peffney for their March meeting. The meeting was opened by singing choruses, and the treasurer's report was given. A letter from Joyce Berkin, a missionary in Germany, announced the birth of a new son. A gift was purchased to send to her, along with some napkin holders which the group made. Cards were sent to the sick and sachets were displayed of the kind which are sent to the patients of the county home on their birthdays.

Mrs. Raymond Lewis showed movies they had taken at Christmas time at the children's home at Kouts, Indiana.

After circle prayer, the group rolled bandages.

Delicious refreshments were served to nine members present.

This is National Library Week

This week the nation is recognizing our public libraries during National Library Week. It is a time when we pause to mention a few of the things which our libraries play in keeping our nation informed and supplied with the aids which assist our citizens in becoming better informed.

Mrs. Pearl Lackey, librarian at Mentone, has provided the News with a few facts relative to the fine library here.

The Mentone library was first proposed by petition April 3, 1916 and started in a room over the Farmers State Bank with a total of 644 volumes, most of which were donated. Mrs. Allen Jefferies was the first librarian. The following year Franklin and Harrison township officials and the Mentone town council voted to issue a tax to support the new library.

In 1936 a library building was purchased on the south side of Main street and it remained in that location until it moved into the new Bell Memorial building in January, 1960, when an open house was held January 23.

The present building was possible by the use of a \$20,000 memorial fund left to the town by the late Lawrence Bell, to honor his parents. Harold Markley was chairman of the town board, and Forest Miner and O. L. McFadden, members, when plans were completed for the building. Robert Jones was the clerk-treasurer. Mr. Bowen, of Claypool, built the building from plans drawn by Hugh Rickel.

The library is now supported by Mentone, Etna Green and Burket, and Harrison, Franklin, Seward and Etna townships.

The library board is composed of: Robert Jones, president; Kenneth Romine, treasurer; Iris Anderson, secretary; Florence McKinley, vice president, and Elaine Fugate.

There are now 14,000 volumes

at Mentone, and the librarians arrange to take books to the Mentone, Burket, Beaver Dam and Etna Green schools.

The library also has a good reference department with recent encyclopedias, current magazines and back files for reference through Reader's Guide, records for teachers, parents and club workers, pamphlet file and picture file. Special requests can be secured within a week from the Indiana State Library.

The past few summers the librarians have sponsored a summer reading program for the children.

Mr. Bell, mentioned above, also gave the Mentone school an excellent library and willed to the Mentone school his personal museum. The library board of the Bell School Library recently made arrangements to have the Bell museum trucked from Buffalo, N. Y. to Mentone. Since there was no extra room in the school building, arrangements were made with the Bell Public Library board to display as much of the material as possible and place the balance in storage.

Visit your library during National Library Week, and get into the habit of making regular visits.

Jolly Janes Meet With Mrs. Lewis

Mrs. Raymond Lewis was hostess to the Jolly Janes H.D. club on Monday evening.

The meeting opened with the pledge to the flag and creed. Mrs. Morris Bitzer gave the lesson on communism, stressing the seriousness of the movement, that we should be on guard at all times.

Four numbers were presented by nine members of the club, who are to sing at the spring luncheon to be held in Warsaw on April 25. A mystery auction was held. Refreshments were served to 17 members and assisted by Mrs. Morris Bitzer.

ADVERTISE! IT PAYS!

FIREMAN HAVE BEEN BUSY

The Mentone fire department was called to the Albert Tucker farm Saturday evening where a large barn burned. (Mr. and Mrs. Tucker were in Mentone at the fish fry when the fire was discovered.)

The loss was estimated about \$35,000 which included a lot of farm equipment, over 3,000 bales of hay, etc. The loss was partially covered by insurance.

Tuesday night the firemen put out a fire in the pump house at the Don Boyer home, east of Mentone. Damage wasn't extensive.

Wednesday morning a fire call was made to the Mentone Lumber Co. where a utility pole was burning. Employees had been burning some grass, and an old canvas on a fence caught fire and then ignited the pole.

Beaver Dam Club Takes Top Honors

Gene Hughes from Atwood, with a reading entitled, "Brotherly Love," and the Beaver Dam Agriculture 4-H club, with a group act entitled, "Scrapbook—Now and Then," took top honors at the 4-H Share-the-Fun contest held at the Madison school auditorium, April 3.

Sixteen 4-H clubs in the county provided 20 acts for the evening. The acts are divided into certain group act categories and the first place act in each moves on to the district contest. Gene Hughes and the Beaver Dam club will participate in the Ft. Wayne district contest in Noble county, April 17th.

The Atwood Neverquitters 4-H club was named alternate in the group act division with their band. Judy Bryan from Syracuse with a variety twirling act was named alternate in the curtain division.

NEWS? Ph. ELmwood 3-3985

NEW DAUGHTER

Mr. and Mrs. James Gawthrop are the parents of an eight pound, one ounce daughter, born Monday afternoon at the Murphy Medical Center. She was named Jennifer Jo. Grandparents are Mr. and Mrs. Del Nelson of Burket and Mr. and Mrs. Harold Gawthrop of Etna Green.

200 At Farm Bureau Rural Urban Dinner

About 200 men and women of the county, representing various vocations and city and county organizations, were the guests of the Kosciusko County Farm Bureau at a rural-urban smorgasbord dinner at the Westminster Hotel at Winona Lake Wednesday evening of last week.

Harold Gawthrop, president of the county Farm Bureau, was master of ceremonies at a program which featured a talk by George Doup of Columbus, state president.

A number of Mentone area citizens attended.

Kitchenware Care

Is your kitchenware bright and shiny, or does it show the effects of poor care?

Elkin Minter, Purdue University home management specialist, says the first step in good care is to know the composition of your cooking utensils, and then learn which cleaners are appropriate.

Aluminum may be damaged by salt and alkalis. To brighten both sides of dark aluminum, immerse the pan in a boiling solution of one teaspoon cream of tartar, or one tablespoon vinegar, to one quart of water for ten minutes. To remove burned food, soak the pan in hot water and scrape with a wooden spoon or plastic scouring pad.

Tarnish on the bottom of a brass, bronze or copper pan is copper oxide and is harmless. But, the specialist warns, green tarnish in a pan is carbonate and is poisonous. To remove tarnish scrub with a soft cloth using salt and vinegar, salt and lemon, or a commercial metal cleaner.

Better grades of enameled cookware resist acids and chipping, observes Miss Minter. To loosen stuck food, soak the pan, or boil three tablespoons soda to one quart of water in it. Use a wooden spoon or plastic scouring pad to scrape the surface.

Glassware and pottery that are used in the oven and on top of the range may break with a sudden change of temperature. Soaking in soda water will remove stubborn food. If you must scour, rub with a paste of whiting and ammonia. It is wise to grease ovenware well before using. The specialist cautions against using these items for deep fat frying.

Iron skillets and dutch ovens should be stored with their lids off. If iron rusts, scour it with fine cleanser or steel wool. Since

alkalies and detergents tend to remove seasoning, use them sparingly. However, the iron can be re-seasoned by rubbing it inside and out with unsalted fat and heating it slowly in the oven. For day to day care, use soap and water, rinse and dry well.

Stainless steel pans may develop a brownish tinge from overheating, notes the specialist. To remove heat spots use a fine abrasive, such as whiting, instead of coarse scouring powders or steel wool. Soak to loosen food and avoid cooking the pans dry.

Farm Bureau Supper At Beaver Dam

Wednesday, April 18, the Harrison, Seward and Franklin Township Farm Bureau will meet at the Beaver Dam school. Supper at 7:00 p.m., and there will be entertainment and a program with District Two field man, Harold Gay. Bring table service and covered dish.

SINCERE THANKS

My heartfelt thanks to all our friends for the many cards, flowers, gifts and prayers following my accident. Your many kindnesses will never be forgotten.

MRS. WANDA SWICK

H.D. Past Officers Club Holds Meeting

The past officers club of the Home Demonstration Council of Kosciusko county met recently at the home of the 1961 president, Mrs. Hobart Creighton, for a co-operative luncheon and business meeting.

The group made recommendations regarding the sending of flowers and cards at the time of death of a member or bereavement in the family. The Home Demonstration Agent reviewed the growth of the home economic extension service during the past year.

Minutes of the 1961 meeting and the treasurer's report of \$10.90 balance was given by the secretary-treasurer, Mrs. Norman Huffer. Officers for 1962 are as follows: president, Mrs. Gordon Brubaker; vice president, Mrs. Wilbur Latimer; secretary-treasurer, Mrs. Paul Kerlin.

Others attending were Mesdames O. B. Clase, Frank Pfahler, Raymond Helser, Eugene Sarber, Charles Manwaring, Lawrence Rife, Clarence Tinkey, Boyce Howard, Ross Sittler, Howard Menzie, William C. Frush, Everett Darr, Merrill Kirkpatrick, and guests, Mrs. Garwin Eaton and Mrs. Goldie Robbins.

Mentone Merry 4-H'ers Meet

The meeting started at 8 p.m., March 10, at the Home Economics room at the Mentone school.

President, Louise Cox, conducted the meeting. The flag pledges were led by Jacques Pritchard and Kay Bules. Songs were led by Linda Bowerman. Roll call was by Sandra Eckert, to the response of my favorite Easter song. A discussion of paying back dues and a system of paying was brought about.

The new business was the decision for whoever talked out of turn to pay a penny. They discussed the coming pot luck supper and silent auction. The program for the night was on the care of clothing and the preserving of them.

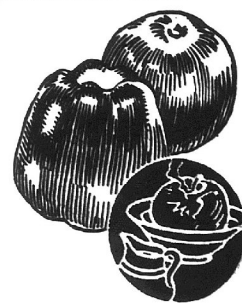

The refreshments were served by Linda Bowerman, Donna Bules and Sue Hoffman. Games were conducted by Susie Witham.

Register at Coopers Store for Ball Band Jet Promotion. Nothing to Buy. For Boys and Girls School Age through Fourteen Years. Eight prizes from our store alone. Five pairs of Binoculars, one Telescope, one Kodak Camera Outfit, one 26" Bicycle.

Drawing each Saturday night at 8 p.m. for Eight Weeks. Beginning this Saturday night, April 7th. See regulations and Register in our Shoe Department.

Qualified for the office by Education, Experience, Character and Adaptability. Al Greider Candidate for Kosciusko County Assessor.

Special Courses For Highway Equipment

Applications are now being received by Purdue University in cooperation with the Indiana State Highway Commission to train technicians for employment with the State Highway Commission. An eight weeks course is being offered.

The special educational program will be offered this summer on the Indianapolis and Ft. Wayne campuses of Purdue University, according to Herbert Asperger, Director of Professional Services for the Indiana State Highway Commission, and Willard Henshaw, Admissions and Registration office at the Indianapolis Center, 1125 E. 38th Street, Indianapolis.

The State Highway Commission has requested the special program to train more than 40 men for jobs within the Highway Commission's various fields in all areas of the state.

Successful completion of the program means a job as computer, draftman, chainman, recorder, etc. with the Highway Commission. Courses include college algebra and trigonometry, elementary and route surveying, and drafting. Students will be in a class eight hours a day for five days a week during the eight week summer session, which begins June 18.

Requirements for entrance are the same as regular Purdue basic requirements: high school graduation, one year each of algebra, geometry, laboratory science and social science; and three years of English. In addition the student should be in the top half of his high school graduating class and have good mathematics grades. He should reach his eighteenth birthday by September.

Housing within walking distance to the Indianapolis Cam-

pus of Purdue is available. The Highway Commission will attempt to assign graduates of the program near their homes. Approximate costs of the program are \$250 for fees, books and instruments; and about \$250-\$300 for room and board.

Inquiries may be addressed to Mr. Willard Henshaw, Admissions and Registration Officer, Purdue University Campus, 1125 East 38th Street, Indianapolis.

Register at Coopers Store for Ball Band Jet Promotion. Nothing to Buy. For Boys and Girls School Age through Fourteen Years. Eight prizes from our store alone. Five pairs of Binoculars, one Telescope, one Kodak Camera Outfit, one 26" Bicycle.

Drawing each Saturday night at 8 p.m. for Eight Weeks. Beginning this Saturday night, April 7th. See regulations and Register in our Shoe Department.

Stew is so good the second day, Purdue University food specialists suggest making a double batch and serving the leftovers shortcake style on hot biscuits.

BURIED SUNDAY

Services were held Sunday at 2 p.m. in the Reed funeral home for Mrs. Ward (Ethel) Meredith, 64, of 609 South Lake street, Warsaw. Mrs. Meredith died Thursday at 2:30 p.m. in the Murphy Medical Center after being a patient there since March 26.

Mrs. Meredith was a long time resident of Kosciusko county. Going to Warsaw after being married June 19, 1916, in Fort Wayne. She was born March 19, 1898 to Fred and Rachel (Seamann) Schenck, in Delphi. She was a member of the Methodist church in Delphi.

Surviving are her husband, Ward; three half-brothers, and a number of nieces and nephews.

Burial was in the Palestine cemetery.

LEAVE FOR WASHINGTON D.C. SUNDAY MORNING

Mrs. Frank D. Smith and Mrs. Hazel Linn, of Mentone, are to leave Sunday morning for our Nation's Capitol where they will attend the Continental Congress of the D. A. R. They will be accompanied by Mrs. E. D. Herendeen of Rochester and Mrs. C. C. Baum of Nashville, Ind.

A special group will be treated to a private tour of the White House Tuesday morning, and the ladies anticipate this will be a very interesting tour.

COUNTERPOINT, Continued

the things that are his own by nature.

Fourth, we must stand for charity: the toleration, the mercy and the giving which are the products of love.

Fifth, we must stand for the wisdom of our ancestors, sound authority and experience, what Edmund Burke called "the bank and capital of the ages."

Sixth, we must stand for variety: for diversity, which includes the right of men and nations to differ and, as Chesterton put it, of "every potty little man to be his own potty little self."

And finally, we must stand for honor and the dignity of man.

This brief catalog of mine does not exhaust the roster of our duties and our first principles, but it may suggest that there are irreconcilable differences between the communists and ourselves.

—Barry Goldwater in "Imaginative Conservatism Answer to Communism."

We enjoyed this:

The pretty secretary arrived for her job an hour late one morning. She was limping, bruised and battered about the face, and had her arm in a sling. Her impatient boss glared at her and then glanced meaningfully at the clock.

"I fell out of the window," she explained.

"And that took an hour?" roared the boss.

Beaver Dam Wins Track Meet Tuesday

Beaver Dam nipped Mentone by one-half point—69 to 68½—and Milford and Silver Lake placed third and fourth with 51 and 24½ points, respectively, in a track meet at Milford Tuesday.

The only double winner was Milford's John Gerber in the broad jump and pole vault. Beaver Dam marked five firsts to Milford's four, with Mentone getting two winners and Silver Lake one.

Judging Teams Place
High At District

The Mentone FFA poultry and crops judging teams both placed third in their respective contests in the district judging contests Saturday.

The top four teams in poultry and the top five teams in crops earn the right to compete in the state contest. The poultry team got a total of 2613 points and the crops team a total of 2611 out of a possible 3,000.

The state contests will be held next fall during the Indiana State Fair.

Facts About School
Reorganization

School reorganization continues to be an important topic as the May 8th primary election nears. The News expects to publish a special issue May 2 to bring additional information to voters who may still be a bit perplexed by the many facts that have been put forth, and the many statements, often misleading or lacking in fact, that have been made by and to our citizenry.

Mrs. Ruth Urschel, local member of the County Reorganization Committee, has made tremendous personal contributions of time and energy as a member of that committee since the county unit was formed to comply with a 1959 act of the Indiana legislature.

The legislative act was passed because Indiana's school system was definitely in need of change. Although aware of the need for changes, most citizens and officials were reluctant to promote such changes without a "demand" thrust by the legislators.

As mentioned in an editorial in the News many months ago, there will be changes that will be difficult for us to accept due to "the way we always did it." There will be need for each of us to accept a few of the things that will be different, but may each of us bear in mind that the only desire of those who are in charge of the changes is that eventually we will have something far better and for the benefit of all.

Changes, too, will not be as drastic as we might surmise. After all, all the present school facilities must be used as much as feasibly possible while plans are devised to further accommodate the long-range plans of all.

CLAYPOOL LADY
BURIED SATURDAY

Mrs. Ina Miller Metzger, 87, of Claypool, died of complications at 10 p.m. Wednesday of last week in the Murphy Medical Center, Warsaw, where she had been a patient for the past two weeks.

Mrs. Metzger, who had been in failing health for two years, was born in Claypool on Feb. 16, 1875, the daughter of Levi and Mary (Tridle) Beigh. She married Frank Miller, of Claypool. He died in 1918. In 1941 she married Emory Metzger who died in 1950. Mrs. Metzger was a member of the EUB church.

Surviving are two granddaughters, Mrs. Edison (Mary) Tucker, of Route 1, Mentone, and Mrs. Joe (Maxine) Ault, of Route 1, Claypool; two stepdaughters, Mrs. Earl Smith, of Route 4, Warsaw, and Mrs. Paul Simpson, of Elkhart; one stepson, Cloyce Metzger, of Claypool; one sister, Mrs. Noah (Erba) Morrison, of Claypool; four great-grandchildren and one great-great-granddaughter. A son, Cloyce Miller, preceded her in death in 1946.

Services were held Saturday at 2 p.m. in the Claypool EUB church. Burial was in the Grace-land cemetery at Claypool.

FFA Trip To
Quincy, Illinois

The Mentone FFA will be leaving Monday morning at 7:00 a. m., April 23, for Quincy, Illinois. The main purpose of the trip is to see the research operations and facilities of the Moorman Feeds research farm at Quincy. The trip will include tours of the dairy, beef and swine research farms and the chemical laboratories where their feed is analyzed and compounded.

The group will stay in a hotel Monday night and view the Mississippi river and some of the boat operations. On Tuesday they will continue their tour and then return to Mentone that evening. The group will be accompanied by Frank Nellans and Morris Bitzer and the bus driver, Larry Boggs.

NEW SON

Mr. and Mrs. Dave Hudson of Willows, California, are the parents of a son, Tod Lyle, born April 8. The mother was formerly Tomoline Witham, daughter of Mr. and Mrs. Tommy Witham, Atwood, who are with her in California at the present time.

COUNTERPOINT

By The Editor's Wife

Well! The old chickenhouse walls are down at last. To those of us who have done little else than watch, it has seemed like a slow process. (Must confess that more than once I have been tempted to "set a match" to the place.) We now have an unhampered view to the west, and of the park along the creek.

The old chicken house has given refuge to a number of family projects, and there are many fond memories. We raised chickens (and cleaned eggs); Jon tried his hand at raising rabbits; we had a cow and calf; we had a pet lamb (Bucky brought problems); the five pet ducks and their ever-increasing problem of trying to swim in one small tub left us in near-hysterics; our horse, which was sold "pronto" when he gave the editor "one wild ride." (Linus Borton was the only spectator other than a couple of wild-eyed "cowboys-to-be.") Yes, the old chicken house may be gone, but certainly not forgotten.

While on our recent vacation trip, we found two small antique crystal pieces at Tubac, Arizona. One is a little vinegar cruet, the other a matching mustard jar. They had been a part of a condiment set which had been held on a crystal caster. When the caster was broken accidentally the dealer sold the several pieces.

Also found an old metal elephant bank. Tim and Lisa have had a great deal of fun putting a penny in the trunk and, by pushing the tail, flipping the coin into the elephant's mouth.

Clipped comment:

Lady driver to friend: "The thing I dislike most about parking is that noisy crash."

Answers to some questions about the proposed King-Anderson bill (Medical Care of the Aged) by Congressman E. Ross Adair:

"First of all, it would not cover all elderly people. Many persons, even now, are not covered by social security. It is reported that there are presently in the United States 4.5 million persons not under social security or paying social security tax-

DIES AT
NURSING HOME

Harry L. Vandermark, 84, of Route 4, Warsaw, died of complications Saturday at 1:30 p.m. in the Prairie View nursing home at Warsaw where he had been a patient for the past three weeks.

Mr. Vandermark, a lifetime resident of Kosciusko county, was born near Palestine on Nov. 13, 1877, the son of Samuel and Alice Vandermark. He married Laura O. Moon on Sept. 5, 1900. She died on June 9, 1951. Mr. Vandermark was a member of the Atwood EUB church, Gleaner Society and was a 50-year member of the Modern Woodman Lodge of America.

Surviving are two sons, Condict, of Leesburg, and Everett, of Route 4, Warsaw; six grandchildren and ten great grandchildren. A daughter, Mrs. Bertha Goshert, preceded him in death in 1929.

Services were held Tuesday at 2 p.m. in the Atwood EUB church with Rev. Raymond Wilson officiating. Burial was in the Palestine cemetery.

Tickets For Herb
Philbrick Program

The committee in charge of the Herb Philbrick "Freedom Night" program to be held at the Mentone school on May 1, report that a number of local business concerns have a supply of \$1 tickets for the program.

They can be secured at the Red Comb Pioneer Mill, Romine Electric, Igo Oil Co., Lemler's Market, Denton's Drug Store, Jones Beauty and Barber Shop, Boardman Chevrolet, Utter's Oil Service, Kralis Bros., Manwaring Leghorn Farm, DeLuxe Cleaners, Frank & Jerry's Grocery, Northern Indiana Cooperative Association, and every member of the organizations who have joined to bring this fine speaker to our community.

es. These would NOT be covered." (More next week.)

We enjoyed this:

A college professor, telling a student that there was no excuse for his poor spelling, said, "You should consult a dictionary whenever you are in doubt. It's as simple as that."

The student appeared confused. "But sir," he replied. "I'm never in doubt."

Citizens' Committee
Favors School Plan

It is the considerate opinion of the Harrison Township Citizens Committee that all voters seriously consider the proposed school plan known as the Tippecanoe Valley School District which is composed of Henry, Seward, Franklin and Harrison townships.

This committee wishes to emphasize that the voters are not voting for or against consolidation. Consolidation is an Indiana state law passed by the General Assembly. The vote is for or against a specific plan.

The Citizens Committee of Harrison township feels that the best available plan is the plan we will be voting on May 8th, and we encourage voter approval of this plan.

CITIZENS COMMITTEE.

FARM BUREAU HOST
TO RADIO, NEWS PEOPLE

Artley D. Cullum, editor of the Mentone News, was among the publishers, radio and TV officials of six counties who were guests of the Indiana Farm Bureau at a dinner meeting at Plymouth Thursday evening.

Harold Gawthrop of south of Etna Green, president of the Kosciusko County Farm Bureau, and Harold Gay of Etna Green, district field man, were among the Farm Bureau officials who participated.

At a discussion meeting following the dinner, C. W. Stall, editor of The Hoosier Farmer, spoke briefly on the Farm Bureau program, and State President George Doup listed a number of areas of public interest in which his organization was working, which included the national farm program, foreign trade, re-apportionment and also school financing.

It was very evident that the farm organization is fundamentally interested in the welfare of all our citizens, not just those of the rural areas. Their efforts, also are of a long-range and fundamentally sound.

NEW SON

Mr. and Mrs. Max Blackburn are the parents of a son, Greg Allen, born April 11 at the hospital at Rochester. He weighed four pounds, eight ounces. Mrs. Blackburn returned home Saturday, but Greg remains in the hospital. Grandparents are Mr. and Mrs. Wm. Blackburn and Mr. and Mrs. Fred Mellott.

Eggs For Astronauts

Why are eggs consistently in the diets of astronauts? As a result of numerous inquiries on this subject, the Poultry and Egg National Board, the egg industry's national organization with offices in Chicago, New York and Atlanta, has issued an authoritative explanation.

Lloyd H. Geil, PENB general manager, noting that Lt. Col. John Glenn had scrambled eggs prior to his history making flight, he said, "Aside from the fact that Col. Glenn, like everyone else, likes eggs for breakfast, there's a more important reason for his eating eggs."

"No one knew what hardships Glenn might encounter in orbit. It was important that he start out with a feeling of having eaten well, but not feeling 'heavy' because of too much food bulk."

"Eggs fit beautifully into this picture. Their protein is top quality and applicable to every one of the complex protein needs of the body. Eggs also contribute to the satisfaction of vitamin needs, and the fat in egg yolk is so finely emulsified

that it is promptly utilized. Because of this energy-building fat, eggs 'stick to the ribs' and create a lasting feeling of satisfaction."

"Yet, their calories are low and their bulk is so small that there is rarely the 'stuffed' feeling that is so apt to follow after bulkier or heavier foods."

"Yes, there was indeed good reason why John Glenn had scrambled eggs before his start into the unknown. The same good reasons apply to all of us every morning. Every new day, for each of us, means a sort of count-down, and a good breakfast with eggs as the main dish means good readiness for what the day may bring."

Increase In Pig Production

Indiana farmers are increasing their spring and summer pig production.

State and federal agricultural statisticians at Purdue University report that 588,000 sows are expected to produce litters this spring. This represents a six per cent increase over the same period last year and two per cent above average.

During last December, January and February 285,000 sows—three per cent more than a year earlier—farrowed. The March through May farrowings are estimated at 303,000 sows, nine per cent larger than the same period last year.

Farmers plan to continue their enterprise expansion with the number of sows to farrow during June, July and August forecast at 335,000. This is a three per cent increase over the same period of 1961.

Hogs on Indiana Farms March 1, totaled 5,261,000, three per cent more than a year ago. Those six months of age or older numbered 1,542,000 or three per cent more than on March 1, 1961. Hogs under six months of age are estimated at 3,719,000—109,000 more than a year ago.

Lettuce and radishes are growing hundreds of feet beneath the surface of the ocean. The undersea "garden" is a tank aboard the USS Robert E. Lee, a Polaris-firing submarine. It supplies one helping of lettuce and a few radishes each week for the 100 man crew to pep up their diet when the sub's tour of duty calls for it to remain submerged for two months at a time. The tank is filled with a chemical solution containing all nutrients necessary for plant growth. Roots are anchored in synthetic sand which is lighter than soil. Fluorescent lamps replace the sun. Carrots were tried, the Navy reports, but proved unseaworthy.

One hundred and fifty Canadian and American war amputees are trying out a new artificial leg with a hydraulic knee mechanism which promises to give them a regular gait. For above the knee amputees, the new control bends the ankle as the person moves forward. The toe clears the ground and walking becomes a smooth motion.

Knives that won't rust or grow dull may soon be on the market. They'll be made from a new nickel titanium alloy

that's impervious even to salt water.

Texas produced more than half the nation's 13 trillion cubic feet of natural gas in 1961. Louisiana ranked second.

Running a medium-sized steel plant is an expensive proposition. These figures are given by the American Iron and Steel Institute for one month's operation: electricity, \$260,000; gas, \$249,000; water, \$45,000; telephone, \$4,400; fuel oil, \$64,000; steam, \$55,000; compressed air, \$13,000; oxygen, \$60,000.

An artificial sun at Holland Color and Chemical Company can duplicate in 100 hours the effect of a year's exposure to noon sunlight on samples of colors or paints.

Pint sized auto muffler has been developed with a spring valve to deaden the sound of exhaust without obstructing its passage. The stainless steel unit, half the size of ordinary mufflers, adjusts automatically as driving conditions dictate. The spring action pulses with engine pressure to open wider as RPM's increase, and close down again as the engine slows to idle.

World's largest nuclear test reactor will take three years to build at an Atomic Energy Commission site in Idaho. The new reactor will have an operating thermal power level of 250,000 kilowatts, compared with 175,

000 kilowatts for the next largest test reactor. Congress has authorized \$40 million for the work.

A fuel oil delivery man in Spokane, Wash. recently mistook an air pipe for a fill pipe and pumped 600 gallons of oil into the owner's fallout shelter!

WINTER DAMAGED WHEAT, GRASS

The 1962 wheat crop in Koscusko County has been about 30 per cent killed by the ice during the winter. This is a summary of a report made by Donald E. Frantz, County Agricultural Agent, of a survey of nearly a hundred farms.

The damage is especially severe in the northern one-third of the county where losses of over half of the crop are common. The southern third reports a loss of about one-sixth of the crop. Many of the fields are being seeded to oats in an effort to get a grass-legume stand or will go to soybeans or corn.

The damage to grass and legume stands seeded in 1961 has also been severe ranging from a 40 per cent estimate in the north of the county to about five per cent in the south. It is believed that established hay fields were reduced by about 25 to 30 per cent in the northern townships. Central and southern townships had little loss of established grass and alfalfa.

"But I assure you, it's O.K.! I'm ASKING you to sign my name to these letters... it's NOT forgery..."

Facts About Fish

Homemakers can choose from a great variety of fish in the markets today, says Marcile Allen, food specialist at Purdue University.

Many types and forms of fish are at the shopper's fingertips: whole—as it comes from the water; drawn—whole fish with insides removed; dressed or pan dressed—whole fish with scales and insides removed, usually with head, tail and fins removed, also

The homemaker may choose a whole or one of the many cuts of fish to fit her family's needs.

Possibly the most popular cut is the fillet, since it contains very few bones. Fillets are the sides of the fish cut lengthwise away from the backbone. Of the two types of fillet, the single fillet is the most frequently

found. It is from only one side of the fish. The butterfly fillet is from both sides of the fish and corresponds to two single fillets held together by uncut flesh and skin from the fish's undersides.

Steaks are cross-section slices of the dressed fish. The specialist notes that usually larger fish are used for making steaks.

Frozen fish also come in stick form. These uniformly sized pieces of fish are cut lengthwise or crosswise from fillets.

To clarify the amount of fish needed for a serving, Miss Allen suggests allowing $\frac{1}{4}$ to $\frac{1}{2}$ pound of edible fish. That means allowing about one pound of whole fish per person; about $\frac{1}{2}$ pound of dressed fish; and $\frac{1}{2}$ pound of steaks, fillets or sticks.

Since fish spoils easily, the specialist recommends handling it with care. Wrap fresh fish

in moisture proof paper, or place it in a tightly covered dish and store it immediately in the refrigerator. Stored in this manner, the odor of fish will not penetrate other foods. If fish cannot be thoroughly refrigerated it should be cooked at once and reheated for serving.

If frozen fish is wrapped in parchment paper or cellophane it is to be used shortly after purchasing, the specialist suggests enclosing it in a second wrapping of paper before placing it in the refrigerator. The additional wrapping prevents the absorption of odors by other foods as the fish thaws.

Purdue University soil conservationists suggest planting a small plot of land to fescue or Reed canary grass for sod to patch waterways in the future.

Veterinarians at Purdue University say to arrange to get cattle dehorned so that the wounds will heal before warm weather and fly time. Dehorn animals as young as possible to minimize shock and hemorrhage.

Harvest forages early for best quality feed. Purdue University dairy scientists point out that alfalfa harvested in bud stage is 20 per cent higher in protein than when harvested in bloom stage.

Examine Grain For Insects

Stored grain insect infestations build up during early spring, reminds Dave Matthew, Purdue University extension entomologist.

All farm stored grain should be examined now to detect infestations of weevils, grain beetles and moths. When present in large numbers, these insects may destroy grain or cereal products in storage. Insect contaminated grain is also unacceptable in food processing industries.

Where infestations occur, fumigate with carbon tetrachloride—carbon bisulfide (80-20) or ethylene dichloride-carbon tetrachloride (75-25) mixture. Fumigants are sold under several trade names and labels. Matthew recommends that fumigation should be done only when the air temperature is above 60 degrees F.

Apply only recommended rates of materials and follow all label safety precautions when using grain fumigants.

Roses Need Pruning Now

Indiana's unusually severe winter may have inflicted more than normal damage on your roses, but chances are they'll come back if you prune them properly now, says Don Scheer, Purdue University horticulturist.

Types that should be pruned prior to blooming are the common hybrid teas, floribundas and grandifloras. Remove dead canes from climbers now; prune old flowering canes after bloom.

Before you prune, remove the mulch gradually and arm yourself with sharp pruning shears and leather gloves.

First, remove the dead wood; cut the cane back an inch into

the green, live wood. Don't worry if you have to cut the bush almost to the ground, Scheer asserts, since it will usually produce good roses if only one or two inches of stem remain above the graft union.

Spindly canes, bent or broken canes and diseased and interfering canes should also be removed.

If the remaining live canes are tall, prune them to approximately a ten-inch height. Your bush will look better if you stagger the height. If possible, you should make the cuts just above a bud that is pointing outward.

This job done, the only other pruning that lies ahead is removal of blooms after they've faded.

That aching back may run in the family. An Ohio State University doctor reports that in one Columbus, Ohio family, the father and 11 of his 12 children suffer from similar backaches. Dr. Benjamin R. Wiltberger, clinical associate professor of surgery, claims that some people inherit a structurally weak back and that a sudden movement can produce a painful slipped disc. So when putting around the house or garden go easy on your back, the doctor warns, since treatment is time-consuming and not always successful without a bone-fusing operation.

Worldwide air travel was the greatest ever in 1961. International and domestic scheduled airlines of 90 United Nations member states carried 112 million people 72 billion passenger miles during the year, reports the International Civil Aviation Organization, a U.N. agency. These figures represent a six per cent gain over 1960, according to ICAO.

American youths should know as much about mathematics, physics and chemistry as they know about driving a car, says Major General John B. Medaris (Ret.), former head of the Redstone missile project. Scientific knowledge won't be confined to research, Medaris says. He believes it will be fundamental to the art of living as man is

STEEL IGLOO fallout shelter, more roomy than corrugated pipe type shelters of steel, could be self-assembled for about \$175 from prefabricated sections available in department stores, building supply outlets and mail order firms. Details may be obtained from civil defense offices supplied with the "Family Shelter Designs" free booklet of the Defense Department's Office of Civil Defense.

to control the machines that are built for him.

A dozen years ago plastic piping was something of a novelty. Today it is finding ever-increasing acceptance in industry and in the home. According to Tube Turns Plastics, more than nine out of ten applications carrying corrosive liquids at temperatures below 225 degrees F. are handled better and more economically by plastic pipe and fittings than by metal or other conventional materials.

Peanut oil can be used as a fuel in an experimental turbine engine for passenger cars. It will also run on diesel oil, gasoline, kerosene, alcohol, jet fuel or furnace fuel.

Cellophane is trying to push cotton out of the top of the pill

bottle. About four million pounds of cellophane will be stuffed into the bottles this year by one leading maker. Adherents claim cellophane protects the pills more efficiently against chipping and breaking.

Tape recorder distress cries are startling starlings who endanger Tennessee Valley Authority high-power lines. Foreign objects on insulator wires may cause a circuit to the ground, permitting a surge of power which can damage equipment and cause power failures. The taped cries are played over portable loudspeakers and starlings evacuate their roosts for a half-mile around. A few repeat performances drive them away for good. How do you get those recorded cries? Just catch

a starling, says the TVA, and turn him upside down.

Buying a new dress? Clothing specialists at Purdue University remind you that a simple dress can be worn for more occasions and for a longer time than one elaborately designed or trimmed.

TALL GRASS

The tallest grass in the world grows to a height of 120 feet! The grass is Bamboo, one of nature's most amazing plants. It provides food, drink, beer, pickles, raincoats, umbrellas, fishing poles and many other objects. Its rate of growth is often an inch per hour!

NEWCASTLE TOWNSHIP NEWS

Dick Davidson and his sister, Mrs. Dean Stockberger, spent Tuesday in Indianapolis.

Mr. and Mrs. Fred Barr were the recent guests of their son-in-law and daughter, Mr. and Mrs. Ralph Chapman and family of Laketon.

Mr. and Mrs. Fred Alderfer and family of Leiters Ford and Mr. and Mrs. Charles Davidson and family were Sunday guests in the home of William Davidson.

Lavoy Montgomery attended a conservation meeting at Rochester Tuesday evening.

Mr. and Mrs. Joe Duzan and daughter attended a saddle club meeting at Rochester Wednesday evening.

Plans are being made for the annual Mother and Daughter banquet to be held next month at the local church.

Lavoy Montgomery spent Sunday evening in Macy visiting at the home of Mr. and Mrs. Herman Alber. Mr. Alber is formerly of this community.

D.A.R. Names Good Citizens

Anthony Nigo Chapter, D.A.R. met at Pete's Lunch on April 10 with Mrs. Miles Manwaring as hostess. The regent, Mrs. Fred Surguy, opened the meeting with the usual ritualistic service followed by the pledge to the flag and the National Anthem.

Mrs. Patricia Leiter, secretary gave her report and conducted the roll call with 22 members responding.

Mrs. Surguy read an invitation from Mrs. E. V. Herendeen, regent of the Manitou chapter, Rochester, to attend the North District meeting on Friday, May 11, at the First Methodist church. Members were asked to call reservations for the luncheon to Mrs. Leiter by April 30.

The chapter voted unanimously to sponsor a new Girl Scout troop in Mentone.

Mrs. Wayne Smalley and Mrs. Charles Tucker, chapter chairmen, discussed the sale of tickets for Philbrick Freedom Night May 1 at the Mentone gym. A full house is expected and they urged those interested to purchase their tickets. Mrs. Surguy

and polished and is the delight of all who have seen it. She stressed that our Washington headquarters should be a pleasure to view.

In the absence of Mrs. Dale Cook, national defense chairman, Mrs. Frank D. Smith gave the national defense report, "The United Nations - A Trojan Horse." The article was composed by the national chairman, Mrs. Elizabeth Barnes. Mrs. Barnes stated that the end objective of communism is the creation of a One World socialist, political, and economic system in which America will be one of the subjugated provinces. The most insidious and most certain vehicles for obtaining this end is the United Nations which was created with this very thought in mind: One World Government, with the force to implement its decisions upon all people... a Godless force that will integrate all continents, destroying national sovereignty and reducing men to serfdom, all under the name of peace. The great mass of people who support this are not communist by any means. But the clarion call of "peace" motivates most of them and they blindly rush in to destroy themselves and their country by promoting "One World Government."

Mrs. Bud Paulus, Chairman of Good Citizens, welcomed four winners of Good Citizen awards;

Miss Maureen Kneeland of Atwood, Miss Helen Scott of Claypool, Miss Mary Ann Metzger of Silver Lake and Miss Janet Benson of Mentone. Mothers of the girls assisted in the presentation of awards and all of the girls deemed it an honor to be chosen a Good Citizen. Requirements for attaining this honor are that girls from the senior class must possess to an outstanding degree the following qualities: Dependability—which includes truthfulness, loyalty, punctuality; Service—cooperation, courtesy, consideration of others; Leadership—personality, self-control, ability to assume responsibility; Patriotism—unselfish interest in family, school, community and nation.

Mrs. Ferd Koenig, program chairman, presented Cindy Stouder, Gail White, Linda Burnett, and Marsha Stouder, a quartette from Etna Green. Accompanied by Nancy Fanning at the piano, they sang "April Showers," "One Little Candle," "Green Cathedral," and "Alexander's Ragtime Band." The girls were all 8th graders and had been singing together since the third grade. John Bowerman and Linda Smythe, Mentone, gave orations entitled "Why" and "The School Program." The program was a delight to all present and the participants outstanding in their ability.

Chapter adjourned to meet on

May 8 with Mrs. Bud Paulus of Rochester. Refreshments were served from a beautifully appointed table by the hostess and her assistants, Mrs. Mary Cox, Mrs. Walter Lackey, and Miss Annabel Mentzer.

WORK DAYS AT CITY PARK

Announcement of work days at the city park were made at the Lions club meeting Wednesday evening.

Saturday, April 21, the baseball backstop will be completed. Sunday afternoon, April 29, the shelter roof is to be completed.

Volunteer workers are needed for both projects.

Band seeding helps small grass and legume plants compete with oats and weeds in spring seedings, remind Purdue University agronomists.

A performance tested bull that gains a pound a day more than a similar bull on the same test is worth at least \$70 more than the slower gaining bull, say Purdue University animal scientists.

Pattern on a wall tends to bring the wall closer, observe Purdue University home furnishings specialists. Pattern in a bedspread or upholstery makes the piece of furniture seem larger and more conspicuous.

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

Manganese deficiencies in soybeans have increased in size of area and in intensity of loss in the past several years. It is a problem in the black land area on the west and north side of the county. On the average, we would say that if the deficiency is serious enough to cause a yellowing of the leaves, then we can expect a yield reduction of 3 to 7 bushels per acre.

There have been many questions about raising the manganese content of the soil by bulk applications. Right now I would say that it isn't practical although it has worked in some cases.

The surest way to correct this deficiency is with a leaf spray. This is about the only plant food that can be effectively fed through the leaves. Manganese sulphate can also be added to row fertilizer. There were cases last year where this could not correct the trouble and spraying had to be done later.

Two items of caution on leaf spraying. One is to use a low pressure sprayer and the other is to be sure all the 2,4-D is cleaned out and it has been neutralized with household ammonia. There were damaged fields last year from too much pressure and from sprayers improperly cleaned.

The oats crop will be delayed over most of the county and usually an early seeding is a necessity. However, the newer varieties and usually better seed bed preparation has changed this some but in general the rule applies.

Oats will respond better to a generous nitrogen supply than almost any other plant. They need about 20 pounds on soybean ground, about 40 on cornstalks.

If it were not for the extra work, the best way to apply nitrogen would be to top dress the oats after it is up a couple of inches.

The reason is weed control. This would mean a couple hundred pounds of 5-20-20 with the seed, then top dressing with about a hundred pounds of ammonium nitrate or 75 pounds of urea later. The big stimulus for early growing weeds would not be put on until the oats was already ahead of them.

We are in the second year of the new dairy testing work with IBM records. A year ago I was told of a dozen reasons why it wouldn't work, we don't hear them anymore.

The present testing program has as its purpose a set of records to show what each cow is doing about making us some money. We are not interested

in finding the highest producing cow or the highest producing herd. We do not publish the reports any more.

The Angus Breeders of the county are beginning work to organize some of the improvement programs within their group. Kosciusko County has a large number of purebred Angus herds. We have 34 on our mailing list and there may be others. They have not been active in the area on a county basis to publicize their livestock.

A committee of Max Nellans, Mentone; Bill Langohr, Piercetown; and, Leon Tucker, Milford,

met with Frank Miller of the County Agents office last week to make some plans for the coming year.

Over 200 people attended the County Farm Bureau public relations program at the Westminister hotel recently. George Doup, state president, spoke. Harold Gawthrop, county chairman, organized the meeting. They have done some outstanding public relations work in the past few years under Mr. Gawthrop's guidance.

A meeting of families in northern Indiana who will have

foreign youngsters in their homes this summer under the International Farm Youth Exchange program was recently held in Warsaw. The IFYE program is financed by the 4-H clubs and they raise enough money to send four from this state each year.

Mr. and Mrs. Bill Kneller of Silver Lake will have one IFYE delegate during July.

To control red mites, paint perches for growing chicks with anthracene oil at least a week before placing them in use, recommend Purdue University poultry scientists.

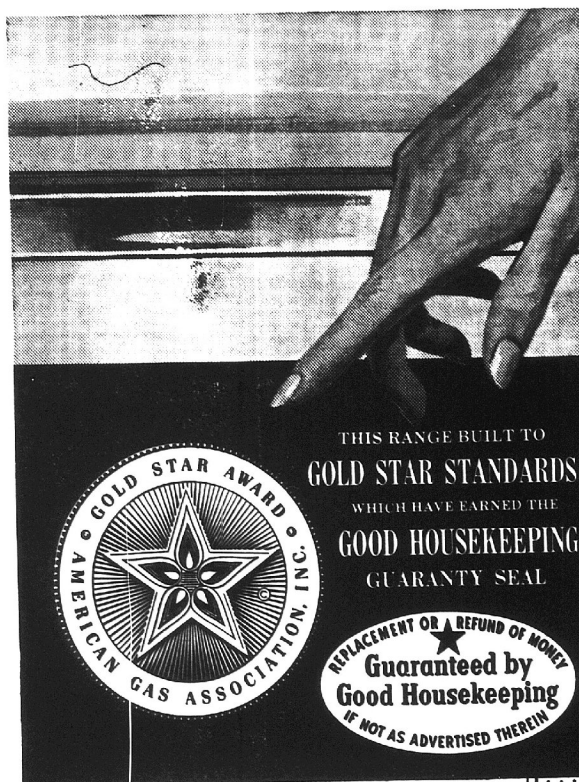

SINCERE THANKS

We sincerely thank the Mentone and Burket Fire Departments for saving our remaining buildings and equipment. Only in times like these do we fully appreciate the time and effort these men put forth.

We also thank our friends, neighbors and relatives for your sympathy and kind words, your thoughtfulness will always be remembered.

ROMAN DINNER AT MENTONE SCHOOL

Forty Latin students of Akron High School and their teacher, Mrs. Grace Waechter, were entertained Friday evening in the Mentone Latin room at an authentic Roman dinner by 41 Mentone Latin students and their teacher, Mrs. Florence Caldwell.

Fourteen Latin II students served as hosts and hostesses to meet and greet the Akron Romans, all in both schools wearing Roman togas. Melissa Bechtol as Caesar's wife, Calpurnia, and James Bryan as Julius Caesar, presided at one table, and Vivian Hurst as Brutus' wife Portia and Steve Miller as Brutus presided at the second table.

A prayer to Lares and Penates (household gods) was given by Tim Wallis after which the first course was served by slaves. The twenty-seven Latin I members were slaves in tunics and barefoot.

Three courses of purely Roman foods were served after each of which fingerbowls and napkins were passed. During the courses slave girls entertained with dancing and singing.

At the close of the dinner a slave auction was held in which slaves Kip Hammer, Mike Ault, Steve Cole, Sue Drudge, Judy Decker, and Jane Tucker were auctioned to the highest bidders by the whip-yielding owner John Loer.

Eddy Nellans and Steve Cole were then forced to perform a

wrestling feat by their owners. Steve Miller and Jim Whetstone, gladiators, performed to the shouts and boos of the crowd. A clever skit of "Reuben and Rachel" was given by Martha Vangilder and Robert Adams. Finally the tragic death of Julius Caesar was dramatized.

All students really enjoyed the evening and went home agreeing that they had learned much about the Roman way of life by living it for a few hours. (They were glad to get back into their American clothes!)

Mentone Club At County Luncheon

Mrs. Dale Cauffman, chairman of the spring luncheon committee has announced the feature speaker for the Kosciusko County Home Demonstration Association luncheon, April 25, at 12:30 p.m., at the Masonic Temple dining room, Warsaw. Mrs. Nora Tze Hsiung Chu will speak on the "Life in Taiwan, China".

Mrs. Chu is interested in the "Warphans" of World War II. She is a graduate of Bernard College and Columbia University, where she majored in educa-

tion, child welfare and sociology. She served as Supt. of Taichung Provincial Children's Home in Taiman. She was alternate delegate of the Republic of China to the 10th conference of the United Nation's Commission Status of Women. She is also consultant for the Family Planning Association of China. She is currently vacationing with her daughter, Mrs. Wm. Li, owner of Pagoda Inn, Fort Wayne, Ind.

Music for the program is being provided by the Jolly Janes club of Mentone with the following members taking part: Mrs. Kenneth Romine, Mentone; Mrs. David Pessley, Warsaw; Mrs.

Delford Nelson, Warsaw; Mrs. Harold Utter, Mentone; Mrs. Frank Hardesty, Mentone; Mrs. Morris Bitzer, Mentone; Mrs. George Mollenhour, Mentone; Mrs. Wayne Bowser, Mentone; and, Mrs. John Ellsworth, Mentone. They will be accompanied by Mrs. Stanley Yeiter, Mentone.

The committee for the arrangements is Mrs. Dale Cauffman, Claypool; Mrs. Loren Cumberland, Claypool; Mrs. Allen J. Roudabush, Milford; Mrs. Robert Swanson, Warsaw; Mrs. Vesta Cauffman, Claypool; Mrs. Robert Boggs, Warsaw; and Mrs. Herbert McCleary, Home Demonstration Agent.

Maintain Grass Waterways

An extension agricultural engineer at Purdue University offers timely suggestions for farmers to follow in caring for grass waterways.

Don Sisson says if water ways—a vital phase of excess water disposal—are to continue to do a good job they'll need maintenance this spring. The cross section should be saucer shaped, and a dense grass sod should be encouraged.

Old, broken tile, causing blow-outs in waterways, should be replaced. The new tile should be placed at one side of and at a depth of at least three feet below the bottom of the waterway. The engineer explains that tile may be needed to drain waterways that remain wet.

Nitrogen fertilizer or manure should be applied to the waterway in April. The area should be mowed or controlled grazing practiced to encourage a dense grass cover. Don't allow grazing on waterways when the ground is soft.

Be on the lookout for small rills or breaks that may start a gully. If any are found, repair them immediately by tamping in grass sod from a fence row or other available sod. If the old waterway has filled with silt and gullies are forming outside the old waterway, you may have to build a new waterway.

Remove corn stalks and other debris that has collected in waterways. And don't use waterways as roadways.

Plows should be tripped and discs straightened when crossing waterways. It is best to plow at right angles rather than parallel to waterways. Too, waterways should be left at least 20 feet wide. A good rule of thumb is to leave the waterway 10 feet wide plus an additional foot for each acre of drainage area.

Beef Show June 13-25

Entries for the 1962 Hoosier Beef Show will be accepted no later than May 15, according to Henry H. Mayo, Purdue University animal scientist. The show will be in Indianapolis June 13 and 25.

The first 125 entries received will be accepted. Entry blanks may be obtained from county extension offices, Purdue University's animal sciences department or the Indianapolis Livestock Marketing Institute, 1501 Kentucky Ave., Indianapolis 21.

The all-Indiana show will open at the Indianapolis Stockyards June 13. Steers will be sold at auction June 14 and on-foot judging will be held June 15. The carcass exhibit will be held Monday evening, June 25, at the Hygrade Food Products Corporation plant in Indianapolis.

Gerald Clodfelter, of Greencastle, will judge the on-foot classes. Vern Cahill, Ohio State University; John Kulak, Yorktown, and Clodfelter will make the carcass placings.

More than \$1,000 in cash, plus trophies from breed associations, Indiana Beef Breeders Association, Indianapolis Stockyards Company and Kroger Company, are offered.

Emphasis in this show is on high quality beef that is not over-fat—the kind most acceptable to consumers, Mayo explains. This type of steer is correlated with the live animal in relation to breeding, feeding, management and age.

A bushel of seed corn of medium flats usually gives about the right population for four acres of highly fertile corn land, advise agronomists at Purdue University. In 40-inch rows this means dropping one grain about six and one-half inches.

Beaver Dam 4-H Meet At School

Thirty six members and seven guests met in the school gym for the Beaver Dam Agriculture 4-H club meeting. The president, Darrell Valentine, was in charge of the meeting. The pledges were led by Betty Bibler and Rickey Smelser. Group singing was led by Buni Barber. The health and safety lesson on how to prevent fires was given by Debbie Walters.

The speaker, Bob Martin, talked on soil conservation and showed films. The leader, Gerald Smalley, gave several reports and announcements.

Change to broiler size feed troughs when chicks are about four weeks old, say poultrymen at Purdue University. Use of chick size feeders after the chicks have outgrown them will cause an inexcusable waste of good feed.

SEE IT IN THE CLASSIFIEDS!
BUY - SELL - RENT - REPAIR

Burket Cheerio

On April 10 the Burket Cheerio 4-H club met at the Burket school cafeteria.

Mrs. Irma Zolman gave a very interesting talk about skin care, hair care and nail care. Sonja Baker gave the health and safety lesson. Marsha and Sonja Sisk gave a demonstration on correctly and incorrectly setting the table. Refreshments were served to the members and leaders. The meeting was then adjourned.

4-H DAIRY ENROLLMENTS DUE BY APRIL 30

4-H club members who are enrolled or wish to enroll in the Dairy project are reminded that Junior and Senior dairy calves are to be enrolled on a yellow state enrollment card before April 30. No dairy enrollment will be accepted after this date.

If you do not have your calf enrolled, see your club leader or Jack Hart, assistant County Agent, and obtain an enrollment card before April 30.

Drainage Outlet Needs

A successful farm water management program depends upon the availability of adequate drainage outlets in most of Indiana.

D. R. Sisson, Purdue University agricultural engineer, says outlet drainage ditches need to be of the proper type. Ordinarily, large tile mains of up to 24-inch diameter cannot be depended upon to furnish adequate drainage for more than 200 or 300 acres. Even then an overflow surface drain may be needed to supplement the large tile.

In the flatter land, watershed areas of over 300 to 500 acres an open ditch drain is the best outlet. These ditches should have the required depth and capacity for farm tile and surface drainage systems.

Maintenance of existing outlet drains has been sorely neglected. Many large tile mains and open drains serving as outlets for several farms need repair. Landowners will both make and save money by annual maintenance rather than to neglect the outlet for 10 years or longer, or until an emergency.

Sisson says groups of landowners should organize mutual community organizations for ditch reconstruction and maintenance projects or organize through Indiana drainage laws.

Indiana drainage laws are badly in need of modernization; but the existing laws could be used more effectively. Only a few groups of landowners have established drainage maintenance districts through the drainage maintenance district law.

Both flooding and poor drainage have been severe in some areas. By approaching these problems on a watershed basis through existing local, state and federal organizations, it is possible to work out a solution to both by storage of flood runoff in retention reservoirs and by down-stream channel clean-out and maintenance. The local

soil and conservation district can furnish assistance in most cases, Sisson advises.

Need Healthy Breeding Stock

Healthy breeding stock is the foundation for producing healthy pigs, points out Dr. K. M. Weinland, Purdue University extension veterinarian.

Hog raisers should exercise their best judgement in selecting breeding stock from their own herds or in purchasing stock.

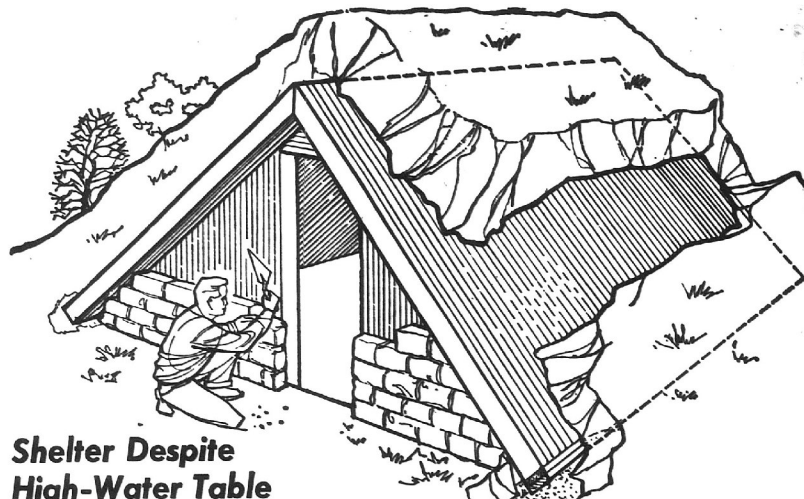

All breeding stock should be tested annually for brucellosis and leptospirosis. These animals should also be vaccinated for hog cholera and erysipelas at least two weeks before breeding. Testing and vaccinating should be done by or under the supervision of a veterinarian.

Health of breeding stock is not the only important factor in producing strong pigs. Bred sows and gilts must be vigorous in order to farrow easily and produce enough milk. Nutrition and exercise also affect their strength.

To prevent infectious disease of baby pigs, such as TGE, keep farrowing equipment and facilities clean. Farrowing quarters should be washed and disinfected at least a week before using. Sows should be washed and sprayed to prevent lice and mange before putting them into farrowing quarters. This also prevents parasitic and bacterial infection in the very young pigs.

Spray Canada Thistle Now

If you spray Canada thistle with Amino triazole two weeks before you disk the field for corn planting you won't have to use the hoe to save the corn from thistles. Amino triazole applied as a pre-plant treatment is very effective, says Oliver C.

Shelter Despite High-Water Table

ABOVE-GROUND SHELTER covered with earth for areas where basements or underground construction are not feasible would provide good fallout protection for up to 10 persons. The shelter, costing \$550 for materials, is one of eight in the "Family Shelter Designs" booklet put out by the Department of Defense, and available to the public at no charge through civil defense offices.

Lee, Purdue University weed specialist.

The first or second week in May, when Canada thistles are six or more inches tall is the proper time to apply Amino triazole. Use eight pounds of Amino Triazole in about 30 gallons of water per acre. Apply with a sprayer that will give good coverage. The plants will pick up

the chemical carrying it to the roots as well as killing tops.

Two weeks or more after spraying, the seed bed may be prepared and corn planted without danger of injury to the corn from the chemical. For further details read the label on the package of Amino Triazole. Such treatments should not be applied prior to planting soy-

beans as label approval for this has not been given.

Review your conservation farm plan before the busy season, advise soil conservationists at Purdue University. Contact local soil and water conservation district supervisors if assistance is needed in any part of your conservation program.

Taxpayers Need Representation!

Republican Candidate for COMMISSIONER SOUTHERN DISTRICT

- Lifetime Farmer
- Have Two Sons: Donnie (Basketball Coach at North Webster)
- Gene (Teaches School at Warsaw Lincoln)

Plant Desirable Shrubs

Spring is a good time to plant most shrubs, according to Purdue University horticulturists. However, before planting, be sure that best varieties are selected.

Desirable shrub varieties cost little, if any, more than poor varieties, take less work, and result in more permanent satisfaction to the homeowner.

Forsythia is one of the best

spring flowering shrubs. There are many varieties available that flower earlier and have larger flowers. However, don't forget the old variety, it's best in most respects.

Another good shrub is Viburnum, or Fragrant Viburnum. It has pink buds and white fragrant flowers in the spring.

Winged Euonymus, or Euonymus Alatus, is beautiful. It is often called the burning bush, due to its bright red fall color. Its twigs have very distinct "wings", which makes this shrub something out of the ordinary in the winter.

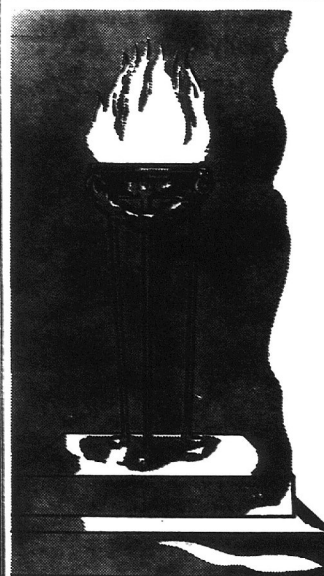

For more information on shrub varieties, write the Agricultural Publication Office, AES Building, Purdue University, Lafayette, Indiana. Ask for Mimeo HO-81-1 "Some Woody Ornamental Plant Materials for Indiana". Single copies are free to Indiana residents.

If ceilings are too low, white or light tones will give an impression of extra height, advise Purdue University home furnishings specialists.

April Meeting Of Mentone P.T.A.

On Wednesday of last week a large group of parents and teachers met in the music room at the Mentone school for the April meeting.

For devotions Brad Moore read Deuteronomy 6:7 and Proverbs 22:6, emphasizing the importance of training and teaching our children. He stressed three basic needs of each individual. (1) Physical, which originates in the home; (2) Mental instruction and guidance in the school. (3) Spiritual needs are encouraged and helped in our churches.

Mr. Bush, music instructor, then introduced several of his music students, who were winners in the state music contest. An alto clarinet solo by Sue Brudge, accompanied by Louise Cox on the piano. A drum quartet, composed of Fred and Steve Mellott, Mike Hawley and Earl Berkey. Sandra Eckert, Judy Becker, Mardene Nellans and Sue Drudge, all freshman girls, presented a clarinet quartet number. Tana Henderson very dramatically presented a reading taken from the book, "Angel Unawares".

The grade count was won by Mrs. Wittkamper's fifth grade. Mr. Wrigley urged all to get out and vote on May 8th. The P.T.A. voted to support the school reorganization plan.

A new slate of officers for the coming year was elected as follows: president, Zana Ham-

mer; vice president, Dean Myer; secretary, Mrs. Roger Robinson; treasurer, Mrs. George Hatfield.

With this the meeting closed and all were invited to visit each room as it was open house. Refreshments were served.

STAG FISH FRY APRIL 27

The Mentone American Legion will hold a stag fish fry at the Legion Home on Friday, April 27. See their advertisement elsewhere in this issue.

Local News

Vickie Witham was admitted to the Woodlawn hospital for a tonsilectomy.

Dale Kelley has returned to Mentone after spending the winter at Bradenton, Fla.

Mrs. Allie Lyons of Attica is spending a few days at the Robert Reed home.

Phil Anderson of Mentone and Larry Long of Etna Green fortunately escaped injury Friday night when an auto wrecked soon after passing their auto. Injured in the wreck were four young men. Kenneth Murphy of R. 4, Warsaw, was the driver of the car which wrecked soon after passing the Anderson auto.

Mr. and Mrs. Monroe Romine and Mrs. Tom Smith had as Sunday guests, the Gerald Romine and Kenneth Romine families.

Hostess To Merry Mollys Home Ec

The Merry Molly Home Economics club met at the home of Mrs. Lamar Leffert. The lesson on how to recognize communism was given by Mrs. Donald Horn. Plans were made for a trip to be taken in June. During the social hour prizes were won by Mrs. Carl Whetstone and Mrs. Glen Puterbaugh. The door prize was won by Mrs. Leffert. Mrs. James Bogue was a guest. Refreshments were served by Mrs. Leffert and co-hostess, Mrs. Glen Mellott.

Special Issue Of News Next Week

The Mentone News will publish a special issue next week, just prior to the primary election to be held May 8th. An effort will be made to distribute them to all the homes in the west and southwest portion of Kosciusko county.

In addition to all available facts we can gather on the school reorganization proposal, merchants and political candidates will avail themselves of the opportunity to gain additional coverage with their messages.

The News publishers extend an invitation to all to use this issue of the News as an advertising medium. Copy for such advertising should be in our office early in the week.

MENTONE PRE-SCHOOL ROUND-UP DAY

The pre-school round-up for the kindergarten and first grade at the Mentone school will be held Friday, April 27.

First graders will come on the bus or parents may bring them in by 8:15.

Kindergarten pupils may come in at 8:20, 9:20, 1:30 or 2:30. Contact Mrs. Wrigley for the time to bring your child in.

HOME DESTROYED BY FIRE

Fire of unknown origin destroyed the three-bedroom home of Mr. and Mrs. Floyd Bradley, in Newcastle township, about 3 a. m. Monday morning.

The family was away visiting in Ohio when the fire started. A motorist noticed the fire in the relatively new home and the Mentone fire department was called, but the home was nearly consumed before firemen were able to get there.

NEW SON

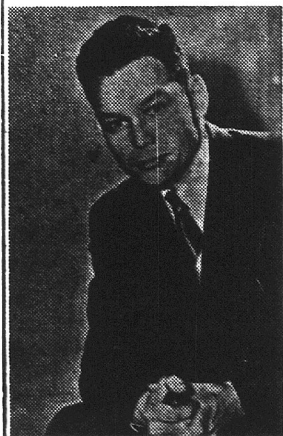

Mr. and Mrs. Will Lawrence, of 5037 N. Damen Ave., Chicago, are the parents of a 6 pound son, John Jay, born April 19 at the Frank Cuneo hospital in Chicago. Grandparents of the new arrival are Mr. and Mrs. Frank Newton, Mentone, and Mrs. John Misak, of Ft. Myers, Florida.

WITH THE SICK

Mrs. William Schooley is improving each day.
Mrs. Rosa Kinsey is slowly improving.

Philbrick To Speak Here Next Tuesday

Herbert Philbrick, famous for his work as a Communist counter-spy for the FBI, will speak in Mentone Tuesday evening, May 1, 8:00 p. m. in the Mentone gym.

Many will know him as the individual involved in the scripts for the TV program, "I Led 3 Lives." His topic in Mentone will be "Techniques for Combatting Communism," and every citizen should hear this informed man.

Tickets are \$1 each and will be available at the door until the seating capacity of the gym is reached. To assure yourself of admission, get your tickets now.

PRESENTED WITH 50-YEAR MASONIC PIN

A. O. Miller, who has been a member of the Mentone Masonic Lodge for 50 years, was presented with a 50-year pin Monday evening, by his son John, in the presence of a number of members of the lodge.

Due to Mr. Miller's health, the presentation was made at his home.

CALENDAR

J.O.Y. Circle work day at the church, Tuesday, May 1, at 9 a.m. Bring sack lunch.

Mentone Methodist Mother and Daughter Party, Thursday, May 3rd., 7:15 at the church. All women of the church are cordially invited to attend. A fine program and social hour has been planned.

Royal Neighbors will meet with Chloe Griffis Thursday evening, May 3. Bring gift for bingo. Notice change of date.

COUNTERPOINT

By The Editor's Wife

More on the King-Anderson Bill (Medical Aid to the Aged) by Ross Adair.

Adair explained that the Administration's proposal which is included in the King-Anderson Bill, also, if enacted, would NOT cover the costs of a doctor's services, whether at home in his office, or in a hospital. Moreover, that it would NOT provide funds for surgical or dental fees. That patients would NOT receive money to pay for medicines used outside hospitals or nursing homes, or for preventive medicine. The Fourth District Congressman explained that:

"To qualify for medical benefits under the King-Anderson Bill, a patient would have to be admitted to a hospital or nursing home. Even under such conditions the program would not pay all his bills. Specifically, the patient would be required to pay \$10 for each of the first nine days of hospitalization, and the first \$20 of the costs of diagnosis. Also, the patient could not select his own doctor."

(If you are concerned, as we were, you will telegraph your Congressman at once, expressing your sentiment AGAINST the passage of the King-Anderson Bill.)

"What Is A Well Educated Man?"

An educated man is a man whose mind is open and whose spirit is free. He is always searching for knowledge, always seeking the truth. He is aware of his own nature and of the nature of his physical and social environment, and he can, because of his awareness, adjust to his environment and contribute to its betterment.

He is learned, but also conscious of the stream of life. He is a proud part of the mass of humanity, and yet aspires to understand it better and to leave it some legacy of material, mind, or spirit.

—Glen T. Seaborg in NEA Journal, April 1962.

Columnist Elmer Roessner, in speaking of President Kennedy's recent wrathful attack on the steel companies had this to say:

"He who rides tiger need never put coin in parking meter."

He goes on to say . . .

(Continued on back page)

County Livestock Judging Champions

The Beaver Dam Livestock judging team won first place in the County contest held recently.

Dick Sittler was high point man with a score of 370. Butch Barber and Darrell Valentine tied for second each with a score of 369.

The team was composed of Dick Sittler, Darrell Valentine, Butch Barber and Dick Harrold, along with their coach and leader, Phil Lash and Gerald Smalley, were presented a trophy from the First National Bank of Warsaw.

The team went on to the District contest held at Lagrange and placed fourth.

Darrell Valentine placed fifth individually out of approximately 90 boys participating, according to club reporter, Butch Barber.

Lions Club Names Officer Candidates

At the regular meeting of the Mentone Lions Club April 18, nominations for officers of the club were made. The committee, composed of Leroy Cox, Paul Rush, Kenneth Romine, Raymond Lewis and Raymond Cooper.

Nominations were:
President, Lloyd Bowerman.
1st Vice President, Zanna Hammer.

2nd Vice President, Verne Wittkamper.

3rd V. Pres., Everett Rathfon. Secretary, Thomas Fugate. Treasurer, Forrest Miner.

Lion Tamer, Ralph Long. Tail Twister, Joseph Boggs. Directors: Wayne Wertenberg and Charles Parks.

NEW SON

Mr. and Mrs. Steven Bayne are the parents of a son, Douglas Dwayne, born Tuesday at the Woodlawn hospital at Rochester. He weighed seven pounds, 12 ounces. Grandparents are Mr. and Mrs. Jim Bayne and Mr. and Mrs. Roy Smith, Mentone.

Among the college students who were home over the Easter holidays were Reed Riner, Tom Wittkamper, Larry Nellans, Diana Ballenger, Janice Mollenhour, Janis Davis and Donna VanGilder.

Mr. and Mrs. Chester Manwaring returned to Mentone Tuesday after spending the winter at Ft. Lauderdale, Florida.

Meeting Of War Mothers

Mothers of World War II met April 11 at the home of Maude Romine. The meeting was called to order by the president, Ethel Whetstone. The altar was prepared by the sergeant of arms. Pledge to the flag, singing and a prayer followed.

Thirteen members answered roll call. The secretary and treasurer's reports were given and approved. One hospital bed and two pair of crutches were loaned. The charter was draped for Rhoda Jones. It will remain draped one month.

The meeting night has been changed back to the second Monday of each month. The meeting was closed with the usual ceremonies.

Eggs are good eating for those on normal diets—for the slender miss who would like to gain weight—for the man or woman on a reducing diet. Eggs provide high quality protein for building and repairing body tissues, and important minerals and vitamins needed to protect health. Serve them often, suggest food specialists at Purdue University.

NEWS? Ph. ELmwood 3-3985

Meeting Of Palestine Club

The April meeting of the Palestine Homemakers club was held in the home of Mrs. Albert Tucker. A potluck dinner at the noon hour was enjoyed by eight members and four guests.

Mrs. Tucker opened the meeting and the pledge to the flag and club creed was repeated by all. Mrs. Jessie Jones gave meditation and Mrs. Wilbur Perry gave the history of the song of the month. Mrs. Mont Lohr presented the lesson on varicose veins. Mrs. George Hipsher and Mrs. Flo Shirey gave the lesson on recreation for family gatherings. Mrs. Jones reported on gardening. The May meeting will be with Mrs. Hipsher.

Cut extra wide seam allowances on fabrics that ravel, advise Purdue University clothing specialists. Some fabrics with special finishes may tear easily, so cut corners and slashes with care.

NOTICE TO THE REGISTERED VOTERS OF ETNA TOWNSHIP, KOSCIUSKO COUNTY, INDI- ANA, OF A SPECIAL ELECTION TO BE HELD MAY 8, 1962.

This notice of a special election is given pursuant to an order of the Marshall Circuit Court, made and entered on May 4, 1962, and, in accordance with statutes of the State of Indiana, made and provided for such instances, and for the further additional following purposes:

1. To afford the registered voters within the boundaries of said Etna Township an opportunity to approve or reject the proposed School Corporation Reorganization Plan which was finally approved by the Indiana State Commission on February 1, 1962.

2. To specifically set forth the boundaries of the proposed Community School Corporation which boundaries are as follows: Bourbon Township and Tippecanoe Township in Marshall

County, Indiana, in their entirety and Etna Township in Kosciusko County, Indiana, in its entirety.

3. To notify the registered voters that the assets of each present school corporation in the community school corporation shall become assets of such corporation, and the liabilities of each present existing school corporation within said boundaries shall become the liabilities of the Community School Corporation. This shall include that the Community School Corporation shall pay to each civil township, civil city or civil town, located therein, which has issued school aid bonds prior to the due date therein amounts bonds, but it shall not apply to school aid bonds issued after July 1, 1961.

4. The name of the Community School Corporation shall be "Tri-Township United Schools Corporation".

5. The number of members comprising the Board of School Trustees shall be seven.

6. The powers of such Board of School Trustees for said Tri-Township United Schools Corporation shall consist of the rights, powers, duties and liabilities vested in Boards of School Trustees of cities of the Fifth Class under the laws of the State of Indiana.

7. The Advisory Boards of each of the townships of Bour-

bon, Tippecanoe and Etna shall each appoint two members and the Board of Trustees of the Town of Bourbon shall appoint one member from among the householders or freeholders of the respective townships and the town.

8. The time of said election shall be from 6:00 A.M. to 6:00 P.M. (Central Standard Time) on said date of May 8, 1962, at the following places:

ETNA TOWNSHIP

1st. precinct—Poulson Display

Room, Etna Green, Indiana.

2nd. precinct—Etna Bank, Etna Green, Indiana.

9. Said special election shall be under the direction of the Kosciusko County Election Board.

Dated April 4, 1962.

Married Recently

In a double ring ceremony at the Mentone Methodist church, Miss Jerilyn Lee Craig became the bride of Richard Lee Peterson. The rites were solemnized at 2:30 p.m. Sunday, April 8, by Mr. Frank Binford before an altar decorated with baskets of white gladioli.

Parents of the couple are Mr. and Mrs. George Craig and Mr. and Mrs. Joe Peterson, all of Mentone.

Given in marriage by her father, the bride wore a gown of lace and nylon tulle over taffeta, styled with a fitted bodice, scalloped sabrina neckline trimmed with pearls and iridescent sequins, long tapered sleeves and a bouffant skirt adorned with pearl and sequin appliques. She wore a veil of silk illusion held by a crown of pearls and sequins and she carried a bouquet of white roses and hyacinths with white satin streamers tied in lovers knots.

Mrs. Larry Simpson, Bourbon, was her sister's matron of honor and Mrs. Robert Burket, Akron, attended as bridesmaid. They wore light aqua gowns styled with scalloped necklines and full skirts with a deeper aqua cummerbund. Their headpieces were white silk organza bows with circular veils and they carried cascade arrangements of white carnations.

Pam and John Craig, twin sister and brother of the bride, were the flower girl and ring bearer. She wore a white dress styled identical to the senior attendants and a matching headpiece and carried a basket of tiny white carnations. He carried the rings on a white satin pillow, trimmed with lace, satin streamers and lily of the valley.

Mrs. Harold Wagner, Union, Michigan, held the guest book and the Misses Karen Kindig, Rochester, and Louise Zent, Mentone, assisted with the gifts.

Marvin Snyder, Argos, brother of the groom, served as best

man and Don Craig, Mentone, brother of the bride, was the groomsman. Ushers were Barry Peterson, Rochester; Jon Smith, Rochester; Larry Simpson, Bourbon; and Don Craig.

Preceding the ceremony the candles were lit by Barry Peterson and Don Craig.

Mrs. Tural Kesler, organist, provided the bridal aires and she accompanied Vance Johns, soloist, as he sang "Because" and "I Love You Truly". He also sang "The Wedding Prayer" as the bride and groom knelt at the close of the ceremony.

The bride's mother was attired in a beige lace dress with other accessories. She completed her ensemble with a green cynbidium orchid. The groom's mother wore a grey suit with red accessories and she chose red carnations. The grandmothers of the couple also wore carnation corsages.

Immediately following the ceremony a reception was held in the church parlors. The serving table was decorated in the bride's chosen colors of aqua and white, held a five tier wedding cake. Assisting with the reception were Mrs. Marvin Snyder, Argos, and the Misses Karen Kindig, Louise Zent and Martha Coplen, Indianapolis.

For a short trip, the bride selected an aqua knit suit with black patent accessories. She wore the white rose corsage from her bridal bouquet.

The couple are residing in Mentone, where Mrs. Peterson is employed at the Farmers State Bank. Mr. Peterson is an employee of Ritzcraft in Argos.

In choosing potatoes for salad, do not pick a "baker". You really need a round potato, say consumer marketing agents at Purdue University. Once the bakers are peeled they break apart in boiling water. The round ones are moist, waxy and firm, making ideal potato cubes for salads.

Elect Officers For County N.F.O. Group

The National Farmers Organization of Kosciusko county held a business meeting Thursday evening, April 19, at the First National Bank building, Warsaw, to elect officers for the coming year. The following persons were elected: county president, Henry Yoder, Jr., Route 2, Nappanee; vice president, Paul E. Schmuker, Route 2, Nappanee; secretary, Stanley L. Rhine, Route 2, Milford; treasurer, James Romine, Route 1, Etna Green. The following trustees were elected for the county: 3 year term, Fred C. Beeson, Route 1, Etna Green; 2 year term, Rudolph Sierk, Route 2, Milford; 1 year term, Marvin Romine, Route 1, Etna Green. Dale H. Gwin, Nappanee, was appointed public relations chairman and Stanley L. Rhine, Route 2, Milford, was appointed publicity chairman.

The N.F.O. is a relatively new organization of farmers with substantial strength in more than 15 midwestern states or the "Bread-Basket of America". It is the fastest growing organization of farmers in the United States. In order to be a member, a person must derive some portion of his income from farming. To qualify as an officer in the organization, a member must

earn over half his income directly from his farm-business. The group has as its goal: "Collective Bargaining For Agriculture." We as producers of agricultural commodities are organizing so that as a group we will be able to put a fair price on the commodities we sell, just as every other business has done for years.

Farming as a business today, is very hard hit by the cost-price squeeze of recent years. Since the farmer is a very large consumer of all manufactured goods, it is essential for the economic well-being of the country that the farmer be financially able to buy the things he needs. This has not always been the case in recent years. Many times the farmer is forced into a buyer's strike and has to get

along with old or make-shift equipment and machinery due to his relatively low buying power in our inflated economy. We feel that this situation must be corrected to insure a stable growth in the business of agriculture as well as the growth of our country as a whole.

Any interested person is cordially invited to contact any officer or member of the group on questions concerning the N.F.O.

Some homemakers don't get the best use out of appliances and supplies because they don't learn how to use them, comment home management specialists at Purdue University. Follow the use and care instructions for maximum efficiency and pleasure from an appliance.

VOTE: Primary Election, May 8

Letter To The Editor

Mentone, Ind., 4-18-62

Regarding Patriots Day, Bells across the Nation, excerpts from the Concord Hymn, and in Flanders Field, I feel it appropriate and propitious that someone should remember the unhappy, unfortunate, and discouraging circumstances the thousands of "Forgotten Men" are confronted with.

The democratic party in convention 1960, deplored these facts and made a solemn and faithful promise to correct these inexcusable conditions. Mr. Kennedy made an elaborate statement and personally declared he would see the forgotten "World War I Veterans" would receive adequate compensation, pension and medical and other benefits.

Mr. Kennedy on the very first opportunity to fulfill these promises repudiated the democratic platform promise, also his own personal promise. The very fact an Honorably discharged veteran has to sign a paupers oath to receive hospitalization, except in what they choose to call Service Connected cases is disgusting, humiliating, and disgraceful in itself. Mr. Kennedy's excuse in refusing to fulfill these promises, "They do not fit in with his plans". Consider the problems these

conditions pose for these men whose average age is 67 years. Billions for peace corps, United Nations, foreign aid, organization of American states, rockets and moon shots, increased pay for federal employees, congressmen and Senators have been prompted to vote themselves a large pay increase, payments to farmers.

Demanding higher pay for labor, and numerous other projects, over seventy four thousand political employees have been added to Mr. Kennedy's administration. All this may be alright? Why discriminate against War Veterans? They get nothing, it does not fit in with Kennedy's plans, he is not in favor of any increased benefits for veterans, he states.

The oldtimers do not look with favor or approve this attitude of self exaltation, aggrandizement, and braggadocio, it has been my experience and observation the men who gave health, arms, limbs, and suffer much do not boast of their service to the country, or have moving pictures made of their lives, while their comrades die in poverty and need of medical care.

I am certain these conditions and facts are not conducive to Patriots Day.

W. E. FOWLER

ADVERTISE! IT PAYS!

NOW...FUN SUN DAYS

at your Chevrolet Dealer's One-Stop Shopping Center

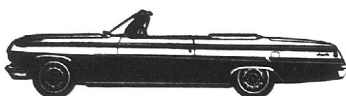

NEW CHEVY II NOVA WAGON

Liveliness and loads of fun at a low, low price!

The buys are warming up with the weather at your Chevrolet dealer's. And what beautiful ways he's got for getting away! Eleven new-size Chevy II models. Fourteen regal Jet-smooth Chevrolets. Plus a nimble crew of sporty Corvairs. So come on in and pick the one for your kind of fun.

Who ever thought a wagon could have such a compact price—and still be so generous with load space. This one's got a longer load floor than any compact—over 9 ft. with second seat and tailgate down. And there are two other just-as-roomy Chevy II wagons to choose from—including America's lowest priced 3-seat station wagon.*

* Based on manufacturers' suggested retail prices.

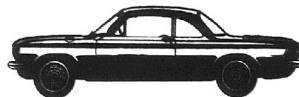

NEW IMPALA CONVERTIBLE—You're in plenty good company if you pick this breezy beauty. It's America's favorite top-down way to travel. With the kind of room, richness and riding comfort that rival the costly cars.

NEW BEL AIR 4-DOOR SEDAN—Get a load of this one's styling and spacious comfort, and you've a good idea why Chevrolet is America's most popular buy. Most popular at trade-in time, too.

NEW CHEVY II 300 4-DOOR SEDAN—Luxury and liveliness never came together so beautifully at such a low price. Room for a full-grown tribe of six. Plus Mono-Plate rear springs and other new ideas that won Car Life magazine's Engineering Excellence Award.

NEW CORVAIR MONZA CLUB COUPE—It's as easy to handle as it is to own. Rally-proved steering and road-clinging traction. And—included in its budget-pleasing price—are front bucket seats, deep-twist carpeting and a whole raft of sporty features at no extra cost.

See the new Chevrolet, Chevy II and Corvair at your local authorized Chevrolet dealer's

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

The annual Cattle Feeders Day program at Purdue will be held Friday, April 27th. The experimental feed lots will be seen starting at 9:00 a.m. and the reports on the tests will start at 10:00.

Some of the test runs this year were on evaluation of sources of vitamin A, levels of corn and supplement with haylage, pelleted rations, tranquilizers and other additives. Other feeding tests include the addition of limestone to silage and a feed lot of bulls to compare rate of gain with steers.

The summer of 1962 may be remembered as the year of the short hay crop. There is a chance of it. Hay fields were badly hurt by ice and nurse crops of wheat and barley were badly damaged too. The oats is getting a late start, all of these are not helpful to grass crops.

There are three possibilities that can help. One is to make oats hay. This is widely used in some communities and it makes good hay if cut right when the heads are coming out. The protein level at that time is about 5 percent which is as good as any grass hay. It goes down very fast as the crop approaches maturity. A grass and legume seeding with the oats taken off that early will make a hay crop the first season if the crop is well fertilized and the rainfall is normal.

A moderate application of fertilizer on an established hay field will also furnish an extra amount of feed. On straight alfalfa or clover, a couple hundred pounds of 0-20-20 or 5-20-20 is good. If the crop is half brome or orchard grass or timothy then a 15-15-15 or some similar analysis would be best.

One other thing to gain in alfalfa and clover is to control these miserable spittlebugs. They can be handled with a spray but it has to be done early in May. We have estimated that many years we lose 10,000 tons of hay in this country by these insects alone.

Over a fifteen year period, nitrogen applied at 20 pounds per acre has increased yields

publicans, those who drink it are Democrats. There is considerable truth in this.

By 1959, the over supply of milk had been pretty well worked out. Milk was nearly on a free market, government purchases of cheese had stopped and purchases of butter had been greatly reduced. It looked like supply and demand had reached a balance. Then the governmental position was reversed and price supports were raised three times in 1960 and 1961. Like any other price increase, this caused production to be increased and we are now back in the same old soup, spending a lot of money supporting dairy prices.

These costs are becoming too high for public acceptance and we may now be asked to accept controls in order to cut the costs of governmental programs.

The reduction in dairy supports could do some dairymen a favor. It could cause them to cull the cows that had just been breaking even.

Horticulturists at Purdue University say when selecting a home site, remember that usable space is more important than actual lot size. Deep lots provide plenty of space for family living

NEWCASTLE
TOWNSHIP NEWS

The annual Mother & Daughter Banquet will be held on Thursday evening, May 3, at 8:30 p.m. at the Talma Methodist church. Mrs. Helen Emmons has charge of the program. Mrs. Nadine Sriver and Mrs. Alice Shott will be in charge of table and coffee. Roll call will be to name your guest.

The Newcastle Lions club will hold their Ladies night dinner at the Court House View at Rochester on Monday, April 30, at 7 p.m. A very good program has been planned.

Mrs. Lillie Myers has returned to her home after spending some time in South Bend.

Mr. and Mrs. Harold Collins and daughter of Rochester were Sunday guests of her parents, Mr. and Mrs. Lester White.

Mr. and Mrs. Steve Coplen and daughter of South Bend were Sunday Easter guests of his parents, Mr. and Mrs. Bill Coplen.

Mr. and Mrs. Harry Sriver and son had as their guests Sunday Mr. and Mrs. Fred Roe of Akron and Miss Janalene Sriver of Muncie.

Mrs. Carrie Miller was the Saturday afternoon guest of her son and daughter-in-law, Mr. and Mrs. Paul Miller of Tiosa.

Mr. and Mrs. Charles Good spent Saturday afternoon in Rochester.

Lester White, who has been confined to his home on account of illness, is slowly improving.

Mr. and Mrs. Fred Alderfer of Leiters Ford called on her father, William Davidson Thursday.

Bert Leedy has returned to his home after visiting with relatives in Hammond.

Mr. and Mrs. Charles Bowersox and family of Washington, D.C., Mr. and Mrs. Dale Wright of Goshen and Mr. and Mrs. Paul Miller and family of Tiosa were the recent guests in the home of Mr. and Mrs. Fred Miller.

Mr. and Mrs. Fred Miller were business visitors in Logansport Monday.

Dick Davidson has accepted a position in Elkhart.

Mrs. Edith Alber of Macy was the guest of Mrs. Joe Weiser, Jr., Wednesday and Thursday. James Dick spent the week end visiting his parents, Mr. and Mrs. Sid Dick.

MINIMUM TILLAGE
DAY APRIL 28

A minimum tillage field day is planned for Saturday, April 28 in cooperation with the Noble County Extension office and Noble County Soil Conservation Service, according to George Dunten, assistant County Agent, Albion.

This field day will be held at the Clif Pettit farm located on U.S. 6, one mile west of the stop light Junction U.S. 6 and 33, south of Ligonier.

Plowing and planting corn

using minimum tillage practices will be demonstrated by several of the implement dealers in Noble County. Both the two-row and four-row corn planting equipment will be demonstrated. Weed control practices will also be demonstrated at this field day.

The field day will start at 10:00 a. m. and continues to about 3:00 p. m. Plan to stop by and observe the first field of corn being planted in Noble County.

Mrs. Warren Hostess To Mentone Club

The Mentone Demonstration club met at the home of Mrs. Ralph Warren Thursday, April 12.

The lessons were given by Olive Tucker and Opal Tucker.

Refreshments were served to the 15 present. Plans were made for the anniversary supper which was held at the M & M restaurant at North Webster. All enjoyed a chicken supper. There were 17 members and six guests present, as follows: Mesdames Flo Shirey, Wymond Wilson, Everett Beeson, Marilyn Horn, Mary Welsh, Buelah Cole.

The triple Trio of Mentone high school entertained with a number of songs. Mrs. Wilson showed pictures of their Hawaiian trip and hunting trip around Big Horn Mountains in Wyoming.

Tana Henderson gave a dramatic reading.

Purdue University's soil testing laboratory reports that about 39 per cent of all soil samples tested last year were low or very low in available phosphate.

NOTICE TO THE REGISTERED VOTERS OF HARRISON TOWNSHIP, FRANKLIN TOWNSHIP, AND SEWARD TOWNSHIP, ALL IN KOSCIUSKO COUNTY, INDIANA, OF A SPECIAL ELECTION TO BE HELD MAY 8, 1962.

This notice of a special election is given pursuant to an or-

der of the Kosciusko Circuit Court, made and entered on January 23, 1962, and in accordance with statutes of the State of Indiana, made and provided for such instances, and for the further additional following purposes:

1. To afford the registered voters within the boundaries of the townships above described an opportunity to approve or reject the proposed school corporation reorganization plan which was finally approved by the Indiana State Commission on October 16, 1961.

2. To specifically set forth the boundaries of the proposed community school corporation, which boundaries are the same as the boundaries for the above townships and sections thereof. Also included is Henry Township, Fulton County, Indiana, a notice of election similar to this to be given to the registered voters thereof under supervision of the Fulton County Election Board. If at a later date New Castle Township, Fulton County, Indiana, shall be certified to the Kosciusko County Reorganization Committee, it will thereupon be accepted and placed with the other townships as a part of the community school corporation.

3. To notify the registered voters that the assets of each present school corporation in the community school corporation shall become assets of such corporation, and the liabilities of each present existing school corporation within said boundaries shall become the liabilities of the Community School Corporation. This shall include

that the Community School Corporation shall pay to each civil township, civil city or civil town located therein, which has issued school aid bonds prior to the due date therein amounts sufficient to pay principal and interest on such school aid bonds issued after July 1, 1961.

4. The name of the Community School Corporation shall be "Tippecanoe Valley School Corporation".

5. The number of members comprising the Board of School Trustees shall be five (5).

6. The powers of such Board of School Trustees for said Tippecanoe Valley School Corporation shall consist of the rights, powers, duties and liabilities vested in Boards of School Trustees of cities of the Fifth Class under the laws of the State of Indiana.

7. The members of the Board of School Trustees shall be elected by said registered voters of Tippecanoe Valley School Corporation, to be held at the regular general election on November 6, 1962. Harrison Township, Seward Township, and Franklin Township, Kosciusko County, Indiana, and Henry Township, of Fulton County, Indiana, shall each elect one member of the Board of School Trustees. If said New Castle Township, Fulton County, Indiana, shall hereafter become a part of the Community School Corporation, it

shall elect the fifth member of the School Board. If said New Castle Township does not hereafter become a part of the Community School Corporation, then, and in such event, one member shall be elected from the district at large, which will comprise all of the townships, other than New Castle Township.

8. The time of said election will be from 6:00 A.M. to 6:00 P.M. (Central Standard Time) on said date of May 8, 1962, at the following places:

SEWARD TOWNSHIP

1st. precinct—Community Building, Burket.

2nd. precinct—Erma Zolman Beauty Shop, Beaver Dam Lake Road.

FRANKLIN TOWNSHIP

1st. precinct—Miller Auto Supply, formerly Mentone Libr.

Building.

2nd. precinct—Beaver Dam School Building.

HARRISON TOWNSHIP

1st. precinct—Atwood Cafe. School Building.

3rd. precinct—Harold Stevens Cottage in Palestine East side State Road 25.

Said special election shall be under the direction of the Kosciusko County Election Board.

Dated this 4th day of April, 1962.

SINCERE THANKS

We wish to thank the members of the Mentone Fire Department for putting out the grass and woods fire at our place Thursday.

Mr and Mrs. Ralph Warren.

NEWS? Ph. ELmwood 3-3885

Minimum Tillage Day, May 10

Minimum tillage practices in planting corn will be demonstrated May 10 at the fourth state minimum tillage field day on the Apple farm in north-eastern Knox county, four miles west of Elnora on State Road 58.

Plowing will begin at 9 a.m., CDT, in a 30 acre field and planting will continue throughout the day. All types of adapted commercially equipment as well as farmer-built equipment will be demonstrated. Some of the planting will be done on land plowed last fall.

Purdue University extension entomologists, agronomists, botanists, economists, soil conservationists and agricultural engineers will attend to answer questions. Equipment will be stopped from time to time in order that the operators may answer questions.

R. B. Apple and his son, Glen, are the host farmers. Farm Implement dealers and seed and fertilizer dealers are cooperating with the Knox county extension office and the Knox county Soil and Water Conservation district and Purdue in the event. Lunch will be available on the grounds.

In event of rain, the minimum tillage field day will be held May 15.

Merry Mixers Meet With Mrs. Coleman

The Merry Mixers Home Demonstration club met April 17, at the home of Arlene Coleman. Peggy Eaton, vice president, opened the meeting with the pledge to the flag and the club creed. Donna Romine gave meditation. The secretary and treasurer's reports were given and approved. Betty Boggs gave the health and safety report. The lesson on communism was presented by Becky Stavedahl. President Barbara Smith then took over the business meeting. We welcomed one new member, Dorothy Hawley. Dorothy Gates was in charge of entertainment. The co-hostess, Janice Perry, served refreshments. Those attending were Shirley Livingood, Barbara Smith, Donna Romine, Becky Stavedahl, Dorothy Haw-

ley, Kay Kindig, Betty Boggs, Peggy Eaton, Mary Hill, Arlene Coleman, Janice Perry and one guest, Pam Coleman.

The next meeting will be May 15 at the home of Judy Rickel.

BIRTHDAY DINNER

A birthday dinner was held at the home of Mr. and Mrs. L. Wayne Kelley in Seavastopol in honor of Mr. Kelley's birthday last Sunday. Those present were Mary Sult and James Chessman of Terre Haute; Mr. and Mrs. Charles Sainer of Warsaw; Mrs. Dora Swick and son of Palestine.

Mr. and Mrs. Fred Wood and children of Rochester called in the afternoon.

Mr. and Mrs. Walter Kelley and family of Etna Green were unable to attend.

MONTHLY POLICE REPORT

During the month of March there were complaints, 6; doors open, 6; criminal arrests, 1; traffic arrests, 3; traffic warnings, 2; funeral traffic, 2; dogs destroyed, 2; accident invest., 1; stolen reports, 1.

Beatrice Keaton of Mentone was arrested by Officer Norton on a warrant of disorderly conduct, signed by Tommy Blue of Mentone. She was assessed a fine and cost of \$17.00 in J. P. Court of C. O. Eiler. She was unable to pay the fine and was required to spend three days in the county jail.

U. E. Fitzpatrick of Burket was arrested by Officer Norton for speeding on March 23. He made a plea of not guilty at that time. Trial was held in C. O. Eiler's J. P. Court on April 12 and Mrs. Fitzpatrick was

found guilty and paid a fine and costs of \$18.75.

Carey R. Sloan of El Segundo, Calif. and Warsaw, was arrested by Officer Norton early Sunday morning, April 15, for driving at an unreasonable speed through the town of Mentone on State Road 25, posted at 20 and 30 m.p.h. The car was pursued 1 1/2 miles west of town at speeds up to 110 m.p.h. Mr. Sloan was cited to appear in City Court at Warsaw on April 20 to answer the charge.

COUNTERPOINT. Continued

"That wasn't the way Confucius put it, but that's the main idea. Once someone mounts a tiger's back, it is difficult to get off to put a coin in a meter or to run off in another direction.

"President Kennedy may have mounted a tiger for his attack on Big Steel. Now, after his clawing victory, he may have difficulty in dismounting. He cannot, for instance, slow down the investigations he launched against the steel industry; he cannot abandon the reprisals he and his party have called for; he cannot get off the tiger."

We enjoyed this:

Teacher (trying hard to unfasten a coat for a little pupil):
"Did your mother hook this coat for you?"

Pupil: "No ma'am, she bought it."

Don't fail to get your ticket NOW for Herb Philbrick lecture on Communism, May 1.

SLOW TO ANSWER

In our last issue your editor failed to give the identification of the Jerry Hudson picture which was printed two weeks ago. It was a tough one, we believe, and the reproduction was not as clear as the original picture submitted by Mr. Hudson. To help in "seeing" what was printed, reach in your pocket and pull out one of those parking meter cheerios, vintage of 1959 and later, and you will see how Jerry took one side of a penny and gave us the works.

Local News

Mr. and Mrs. Bill Griffis, Mr. and Mrs. Judah Trowbridge, Mr. and Mrs. Jay Trowbridge and family, Mr. and Mrs. Gilbert Griffis, Mr. and Mrs. Don Kuhn, Walter Wood and Mrs. Zella Metheny had Sunday dinner with Mrs. Jennie Sponseller, Mr. and Mrs. Larry Boggs, Linda Nees and Bob Griffis.
