Davis Resigns Water Works Job

Edward Davis, superintendent of the Mentone Water Works for the past eight years submitted his resignation at the monthly meeting of the Mentone Town Board Monday night. His resignation will be effective September 1.

Davis is leaving the Mentone post to accept the position of superintendent of water works and sanitation for the city of Bedford in southern Indiana.

At the present time Davis is state certified in the water field with an FT-10 grade. Davis and his family will move to Bedford before school starts.

Davis is the son of Mrs. Hilda Davis of Claypool and is a graduate of Akron High School.

T.V.S.C. Asks \$3.98 Levy

The budget, as approved by members of the Tippecanoe Valley School Corporation, at the Monday night meeting of the board will ask for a \$3.98 tax levy to provide for the education of the corporation's children. An eighty five cent cumulative building fund is included in this amount. The complete budget can be found in this week's News.

A public hearing on the budget will be held in the office of the superintendent of schools in Mentone on August 27. All taxpayers are urged to attend and express views on the proposed rate.

Business transacted at the meeting included a financial re-

port by Superintendent Robert Forbes, and the signing of teacher and janitor contracts.

The resignation of Martha Mendenhall, English teacher at Beaver Dam was read and regret was expressed at her leaving.

David Seifer, a student at Grace College doing graduate work, was hired on a half-time basis to teach music at Burket and Mentone. Mrs. Phil Parker, Akron, will teach music on a half time basis at the Akron grade school. She had previously signed to teach in all schools, but was forced to work on a half-time basis for health reasons.

The board voted to pay Mrs. Horn, the Franklin township girl's 4-H leader \$150 for her services this year. The board presently has no policy for this year although they will pay all leaders \$150 next year. Mrs. Horn was the only unpaid leader in the corporation.

The contract of Lyle Keith Edensburn was approved for the position of principal at Akron High School. Mr. Edensburn began his new duties Monday.

John Miller, Akron, was hired for a janitor's job at Akron, replacing Mrs. Lee Becker. Lee Becker is the other Akron janitor. George Miller was hired as janitor at Burket.

Ben McCoughan was hired as a bus driver.

Reports on the remodeling at the corporation schools were given by Forbes who also reported purchasing 170 stacking chairs for the Mentone cafeteria, ten new typewriters for the various schools, and 25 chairs and some tables for the kindergarten at Burket. Two hundred and thirty five lockers were purchased for the Talma school at \$5 each. The typewriters were purchased at a special price of \$155 each. It was reported that the painting and redecorating at Mentone were progressing very well. The extensive work done at Akron was reported to be in very slow progress.

Readiness Tests To Be Administered To Mentone And Burket First Graders

All first grade students who will be attending Mentone or Burket school during the approaching school year are to have taken a school readiness exercise and must have their school enrollment completed before school begins.

Those students who are to take the readiness test for the second time are to take it at this date.

Parents of students who are planning to enroll in the first grade for this coming school year are reminded to contact the schools immediately if their child has not already been enrolled.

Boating Tips...

Making your boat fast to a dock shouldn't cause knotty problems, if you know the most versatile knot of all—the bowline. Its chief advantages, say the Mercury boating authorities, are that it's easy to tie, won't slip and can be loosened easily. Here's how to fashion one: make a loop in the "standing part" of the line as shown. Pass the end up through the loop, around the standing part, then return it down through the loop. Tighten by pulling on the free end—loosen it by tugging at the rope where it circles the standing part of the line. It's the best knot devised for any situation where you need a temporary loop in the end of a line.

Letter Received From Mentzer

The following letter was received this week by Denton Abbey from James Mentzer, son of the late Mahlon Mentzer. Mr. Mentzer has offered to assist Mentone in further development of the Mentzer Memorial Park.

July 29, 1964

Mr. Denton Abbey
Chairman of the Park Board
Mentone, Indiana

Dear Denton:

I wanted to express my own appreciation and that of the rest of the family to you and the members of your board for the very wonderful program in which the park was dedicated to Dad. I know how much effort you and many others have put in on this project and I am sure all the people in town are grateful for what has been done.

I talked to the executive secretary of our YMCA about skating rinks because the thought occurred to me that it would be very difficult to maintain ice on top of black asphalt paving. The rays of the sun on black absorb so much heat that the ice holds up only during extreme cold weather. The fellow with whom I was talking tells me that there is a paint that can be used to give this a light color to minimize the problem.

I would like to confirm to you the offer I made, to make a sum of up to \$1,000 available for further improvement of the park on a matching fund bases Thur, for whatever amount is raised I will see that a like amount, up to \$1,000, is provided. I would think that this should be enough to provide at least one, and possibly two, tennis courts that could be adapted for ice skating.

Thanks again for the fine work you have done and for your remarks on the occasion of the dedication. Incidentally, I would like for you to send me a copy of your remarks, if you can.

Sincerely, James S. Mentzer

1. To make your rooms cool and inviting this summer you can try any one of a number of things. If it's color you want, try icy blues and greens, or large areas of snowy white. Window shades or blinds, bare wood floors, and lots of living greenery all help. Awning-striped slipcovers, and stripe-trimmed white draperies of muslin make the above room seem cool on the hottest July day. Organdy curtains reduce the glare of sunlight, and small cotton scatter rugs complete this inexpensive transformation.

ANCIENT THEMES REVIVED FOR FAIR

A unique style in Mexican silverware is being introduced in the Mexican Pavilion at the World's Fair in New York.

Inspired by the art of the highly advanced Indian civilizations of Mexico, the pre-Columbian award-winning style that has seldom been seen outside of Mexico, is being shown in a specially created collection of nineteen pieces donated to the Mexican National Tourist Council.

Typical of the exhibit are the fish vase with jadeite eye shown here and the carved silver and onyx candle holder. The collection of plates, trays, candelabra, bowls, pitchers, vases, etc., is the creation of the Tane S.A. group of silversmiths, founded in Mexico in 1954.

The Tane group consists of about fifty artists, designers, sculptors and silversmiths, working collectively with each specialist contributing to the finished work of art.

Odds And Ends

by Ann Sheets

The circus was in town, we had free tickets, and besides Todd could hardly contain himself for excitement. Doug didn't give planned to spend the evening with Grandma and Grandpa.

On arriving at Grandma and Grandpa's niece and nephew Tammy and Greg welcomed us in their usual way, a squeal and a running leap. Tammy, aged four, was invited to accompany us to the circus. She accepted, oulled on a sweater, and was ready. Greg, aged three, did not approve. Greg was invited, he accepted, put on his sweater and we were off (!?)

From grandparents house to town is two miles. First half mile, three beaming faces aged six, four, and three smiled excitedly. Second mile and a half the three year old face smiled while six and four argued which was best, men or women. Issue settled as draw when disrupted by the Editor.

The car doors opened, three flew out, two ran towards the tent, the other one went the opposite direction. Three year old Greg, built like a football player, had changed his mind. And his mind was changed! Tears flew and he was mightily unhappy. I tried, Loren tried, but nothing could charge his mind. On the other hand, nothing could change the minds of Todd and Tammy who were half way to the big top. Somehow we carried a boy who had suddenly sprouted eight arms and legs into the tent still screaming.

What an evening, we thought. Then he grabbed Loren and yelled, "There's an elephant!" All was well. He enjoyed it, we enjoyed it, and peace, smeared with cotton candy, settled again. Until on the way home when the men and women fight broke out again.

Asked what they most liked about the circus Greg said, "elephants"; Tammy said "clowns"; Todd said, "women".

Today's MEDITATION

from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday, August 6, 1964

Read Matthew 20: 26-27

Who so ever will be great among you, let him be your minister; and who so ever will be chief among you, let him be your servant. (Matthew 20: 26-27)

How often we imagine that our pettiness and meanness are from without, like briar scratches! How sure we are that big people, important occasions—even grand temptations!—would make us bighearted and highminded! We forget that the most distinguished personages of His day in His obscure land won footnotes in history only because their very littleness blinded them to His greatness.

Christ's inner quality is displayed in the big moment before Pilate. We find it most clearly expressed, however, in the small moment with the children, with the widow and her mite, the epileptic boy, the tawdry, evasive woman at the well.

We are not small or weak because others give us no chance for greatness. Jesus worked daily with the same lowly, rejected material that surrounds us day by day. It could not hide His glory.

PRAYER: O Lord, may I stop blaming others for my unforgiveness, my neighbors for my spite, children for my tantrums, society for these thorns and thistles in my heart. Purge! Prune! Uproot! Burn! Make the tree good, Lord—the tree, my life. In Christ's name. Amen.

THOUGHT FOR THE DAY

We are not small or weak because others give us no chance for creative work for God.
Roy DeLamotte (Georgia)

KINGS REDEEMER WINS AGAIN

At The Turn Of The Century

Miss Mabel Smith of Mentone is visiting at the home of her grandparents, Mr. and Mrs. Leonard and other Akron friends.

The Syracuse Register takes this optimistic view of the situation: "We sometimes put on a long face and look as though we hadn't a friend in the world, just because some person has found fault with something he saw in our paper. But why feel so badly? The merchant doesn't please all his customers; the postmaster, too, is kicked and cursed because he makes mistakes; the station agent is frequently backed up in the corner by some old woman, and given to understand this and that and numerous other things; the barber is censured for his dull razor; the baker is accused of making sour bread and some people declare that he puts too much wind in his buns; the butcher is forever reminded of his tough meat and dirty sausage; the grocer charges poor accounts to good customers so as to "even up" and even the preacher finds it hard work to please all his congregation with his best sermon. The only good person is the one who is doing the kicking.

Wednesday afternoon a gang of gypsies drove into Akron coming from Mentone. Part of them went into camp northeast of town a mile and rest of them went into camp west of town near James Curtis'. About dusk in the evening the constable from Mentone came armed with a warrant for the arrest of two of the women. They were charged with slander in circulating the report that a married man of their gang had eloped with another woman, also a gypsy. With the assistance of the Akron constable the arrest was made and the entire camp departed for the high court of Mentone, leaving only a watcher at the boiling supper kettle in the camp.

For six years Prof. Bowman has had charge of the Mentone schools and was engaged for another year, but his popularity had reached So. Whitley. The school board needed just such an educator, advanced the wages and he accepted and Mentone loses him.

Aerobatic Team Will Perform

The world's first supersonic aerobatic team — the famous United States Air Force Thunderbirds — will perform at Bunker Hill Air Force Base at Peru on Saturday, August 8, at 1 p.m. Gates at the base will be open to the public from noon to 3 p.m. for the air show. The planes used will be North American F-100 Super Sabres.

The Thunderbirds perform what amounts to an aerial ballet as they maneuver their jet fighters like a precision drill team. A preplanned sequence of loops, rolls, wiffertills, corkscrew changeovers and cloverleaf turns is climaxed by the group's famous "bomb burst" in which four planes climb vertically in diamond formation and break away to the four points of the compass.

The air show is being held in conjunction with Peru's three-day Circus City Festival.

PARSON JONES SPEAKS

Dear Mr. Publisher

I guess you read where them two race driver got killed. Rufe went to see that thing and said it was one of the most exciting events he ever saw. He allowed as how it was more thrilling than the time he saw a fella fall off the high wire at a circus. Ole Rufe took about half our Sunday School class hour telling about what a good time he had. The other half hour was spent discussing how the early Christians were killed in the Roman arenas.

Hezekiah said he couldn't see how them pagan people could be so cruel - burning Christians and feeding 'em to the lions. Brother George hollered his agreement and Rufe said "Amen" to his agreement. The class got all riled up over the unfriendly attitude of the early folks. This shore is a peculiar world, ain't it Mr. Publisher?

We're supposed to be fine Christian people who have out-

grown all this pagan foolishness, but we still dress up our devilment and call it entertainment. We don't put people in with wild lions like they used to. Now-a-days we put 'em in cars and see if they can kill each other. Folks set on the side-lines and hope they'll have a pile-up so they'll get their money's worth. The Good Books says "Thou shalt not kill", but church members will pay to see some pore guy risk his neck in a flying filver.

Us modern pagans have more ways of enjoying other people's suffering. Ole Hezekiah will go to a boxing match and set there and grumble until one fighter knocks the daylites out of the other. Last year he got mad when the referee stopped a fight because one a boxers was hurt too bad. The pore fellow was tore up so much that they had to give him plastic surgery and put in a new eyeball. But Hezekiah said they cheated the public by stopping the fight.

My Madam's a little on the blood-thirsty side too. She likes to go to the circus and see all a these dare-devil acts. Most of the

acts in a circus are made up of fools who have no more nerve than they have sense. The only ones that don't risk their lives are folks they call clowns. It looks to me like they give the name to the wrong people. (I wonder if they sold popcorn in the early days when they burned Christians. If so, I reckon, it must seemed a little like our circus.)

Mr. Publisher, I thank God I'm not as other folks are. I like to see two good teams of clean cut kids butting one another's heads. There ain't nothing like a good tackle where you can hear bones rattling all over the football field. Its so heart-warming to hear the school kids holler, "hit him again, harder, harder", and then hear 'em applaud a player who is carried out with a broken leg. (We give scholarships to college for this sort of thing.)

Well, I gotta go now. It's time for my prayers. I'm gonna thank God that I was born in this enlightened age. So long.

Yours truly,
Parson Jones

Karen Schulenburg — Michael Nelson Wed

Miss Karen Schulenburg and Michael Nelson were united in marriage on July 19, 1964 in the Emanuel Lutheran Church at Tipton. Rev. Carl Benning performed the double ring ceremony before an altar graced with palms, candelabra, and bouquets of white satin bows marked the family news. Nuptial music was presented by Prof. Alfred C. Koester, organist from Valparaiso University, and Mrs. John Leininger, soloist from Tipton.

The bride is the daughter of

Mr. and Mrs. Walter Schulenburg of Tipton, and parents of the bride groom are Mr. and Mrs. Dewell Nelson of Burket.

Given in marriage by her father, the bride wore a gown of white organza and chantilly lace, fashioned with a molded bodice, short sleeves, scooped neckline edged with scallops and fastened at the back with a bow to dramatize the bustle effect at the chapel train. The controlled skirt and chapel train were accented with chantilly lace motifs. Her

tiera of lace and pearls held a three tiered bouffant veil of imported silk illusion. She carried a bouquet of white orchids surrounded by white stephanotis with streamers of white satin tied in lovers knots.

Miss Linda Schulenburg attended her sister, as maid of honor and wore a floor-length gown of carousal apricot silk organza over polished cotton. Styled with a scoop neckline, the bodice topped a controlled skirt which was accented at the waistline by a contour cummerbund and self bow at the back. A matching double bow which secured a circular veil adorned her head. She carried a cascade arrangement of gladiolus in shades of apricot with ivy and streamers. The bridesmaids, Miss Darla Sue Nelson, sister of the groom; and Miss Ina Schulenburg, sister of the bride, wore gowns and carried bouquets identical to the honor attendant.

Jerry Nelson, Claypool, attended his brother as best man while Elray Schulenburg, Tipton; Charles Tucker, and Archie Leckrone, both of Mentone; and Garwin Eaton, near Burket, served as ushers.

A reception followed at the Lutheran School with Mrs. Carlos Beckover in charge and Mrs. Richard Riedel, Burket; Miss Ann Schulenburg registered the 250 guests.

The bride's table, covered with a linen table cloth used at the wedding of the bride's grandmother, and a white net over satin table skirt, held a four-tiered wedding cake decorated with delicate apricot rose buds and topped with a miniature bride and groom. White tapers lighted the table.

The bride is a 1960 graduate of Tipton High School and of Valparaiso University in 1964. She is a first grade elementary teacher at Akron. Her husband graduated from Burket High School in 1954 and served 4 years in the U.S. Army and is now engaged in farming.

Mrs. Nelson chose a pale yellow whipped cream dress for her wedding trip to Michigan.

The couple is now at home on one of the Nelson farms near Burket.

Pamelia Hammer Engaged

Mr. and Mrs. Zanna Hammer announce the engagement of their daughter Pamela Ann Hammer, to Clifford William Fiscus, son of Mr. and Mrs. Clifford Fiscus, 4044 Devon Drive, Indianapolis, Indiana. She is a senior at the Indiana University School of Nursing and will be graduating in June of 1965 with a Bachelor of Science Degree in Nursing. He

is a senior at the Indiana University School of Medicine and will graduate in June of 1965. He was graduated from Indiana University. He is a member of the Delta Upsilon social fraternity and also a member of the Nu Sigma Nu medical fraternity. No date has been set for the wedding.

Travel Trailers And Campers To Be Shown

45 manufacturers will be displaying approximately 125 varieties of travel trailers and campers at the Bock Industries Courtesy Park on the corner of Nappanee Street (St. Rd. 19) and Mishawaka Road during the I.M.H.A. Mobile Housing Show next week in Elkhart. Dealer days are August 18 through the 21. The public is invited August 22 and 23.

This display is promoted and organized by the individual exhibitors. Travel trailer manufacturers from Indiana, Michigan, Wisconsin, Iowa, Illinois, Ohio, Oklahoma, and Tennessee will be represented.

This display is promoted and opportunity for the public to view the recreational and vocational aspects of the mobile industry, along with the mobile housing units on display at the big I.M.-H. A. show at North Side Gym.

According to Marshall Gene Norton there have been several stones damaged in the cemetery recently. The Marshall has ordered several boys out of the cemetery lately but is not getting co-operation from them.

Norton feels that with a nice park and play grounds for the children to play in there is no need for the children to play in the cemetery. The cemetery requires a lot of hard work to keep it looking nice and is a place to be respected, not played in.

The Marshall has advised that signs will be posted shortly that no children will be allowed in the cemetery unless they are with their parents.

Odds And Ends

by Ann Sheets

I read this week where the police in Ottawa, Canada have had to post extra men to guard the tree the late President Kennedy helped plant a few years ago. It seems souvenir hunters have been helping themselves to bits of bark and twigs and the poor tree is almost as bare as old Mother Hubbard's cupboard.

This must be the beginning of a new status symbol. I can see it now. The fellow who used to invite the girl up to his apartment to see his etchings now slyly asks her to come see his bark collection. Next to the Kennedy bark lies the bark from the first tree he fell out of when a boy. Then there is a sliver of the tree Columbus carved his first boat out of. There is bark from the tree John Adams sat on after being chased by George Washington's dog. Bark from the tree which later became a pencil used in writing Roosevelt's first inaugural speech is featured.

I guess bark collecting is no sillier than collecting empty baby food jars. We specialize in those. They're so handy looking with the new screw tops and there must be dozens of uses for something that size. I hope so because we have dozens of them not being used.

Loren collects empty coffee cans. They might be handy to keep spare parts in. So far, no time to sort the spare parts; result, a lot of empty coffee cans.

Todd hoards coupons. Any kind of coupons. From cereal boxes, magazines, newspapers, anything that can be clipper and mailed. He rarely mails any except for the time he haunted the post office for months waiting some stickers for his bike. Mostly he saves. He buys his own cereal, not for the contents but for the coupons.

My collection is perfectly normal if collecting old magazines is normal. My reading time is limited and it's a shame to throw out a magazine that isn't quite read or that might have something needing to be re-read or an idea worth copying some years from now.

Maybe it would be better if we all threw out our collections and tried collecting bark. That way we could have one collection in common - termites.

LOCAL BUSINESS

The local retailer can be a major force in the increase in the wealth and welfare of his community.

In fact, to be successful in modern business, the retailer necessarily becomes a primary factor in community progress. A suburban retail association lists some of the merchant's contributions as follows:

1. Sales efficiency. To stay in business the merchants must continuously seek more effective methods of distribution. This leads to cheaper prices for everyone.

2. Increased motivation. Retail advertising is the most important factor in the immediate purchase of new products which reduce labor and make living more pleasant and healthful.

3. "Creation of a trade center. A community is unified by its trading center. Take away the progressive stores and the citizens focus their interest and spend their money at more distant centers.

4. "Promotion of stronger institutions. The merchant knows that good schools, stable government, and recreational and cultural facilities affect his own business, because happy, informed and active people are his best customers."

Retail advertising which is the best mirror of the nature of a trading center, then, does more than sell goods from day to day.

Advertising of good merchants is the repository of stimuli which keeps a community alive.

1965 Wheat

Program Announced

Details of the 1965 Voluntary Wheat Program were announced today by the U. S. Department of Agriculture. Operation of the program in general will be about the same as that for the 1964-crop year. Although some program provisions are modified, participating farmers can get about the same returns as from the 1964 Program.

The principal changes, compared with 1964 Program provisions are:

1. Domestic certificates will be worth 75 cents per bushel (were 70 cents), and export certificates 30 cents per bushel (were 25 cents).

2. Price support national average loan rate will be \$1.25 per bushel (was \$1.30).

3. Program participants can qualify for domestic certificates on 45 percent and export certificates on 35 percent of the normal production from their allotment (were 45 percent each).

4. Wheat and feed grain (including oats and rye) acreage substitution will be possible (none in 1964).

5. If diversion in addition to the required minimum is at least 10 percent of the farm's 1965 allotment, payment on such additional diversion will be made on 50 percent of the farm's normal production times the county loan rate on all of such added acres diverted to conserving use. No payment will be made for applying conserving use to the minimum qualifying acreage equal to 11.11 percent of the 1965 allotment. (Payment in 1964 was at 20 percent for all acres diverted to conserving use.)

6. A producer can program loan and certificate allocation benefits if he exceeds his acreage allotment by not more than 50 percent on any farm in which he has an interest and stores under bond the wheat from the excess acreage, meanwhile carrying out conserving use requirements of the program (not provided in 1964.)

The 1965 Program for wheat will be entirely voluntary. As in

1964, there will be no marketing quotas or marketing quota penalties for the 1965-crop. Further, those overplanting their acreage allotment in 1965 will not lose wheat acreage history for future years.

A producer may become a program participant by signing up and meeting the applicable program provisions. A participant can become eligible for price support loans, diversion payments, and certificates with fixed cash values.

Soybean Support Rate Is Set

Prices for 1964 crop soybeans in Fulton county will be supported at \$2.25 per bushel for soybeans grading No. 2 containing 13.8 to 14 percent moisture, Melvin R. Myers, Jr., chairman of the Fulton County A.S.C.A. committee announced this week. This is the same rate as the 1963 rate.

Applications for price support can be made at the ASCS county office through Jan. 31, 1964. The loan maturity date will be July 31, 1965.

Mentone Meeting 1914 Style

Last Sunday was a banner day for Mentone. The men's meeting in the afternoon, called to be held in the baptist church had to be adjourned and the Albert Tucker dooryard, front porch and street was confiscated by and with the consent of Mr. Tucker. The audience and numbering anywhere from 300 to 400 men then adjourned the latter place. Some had chairs and other seats, but most of the men pulled their coats made cushions of them on the grass and fixed themselves for a good time.

Glee Club songs, duets and solos furnished rich, uplift entertainment and brought forth A-mens and applause. All this while awaiting the Claypool delegation of 100 men who came about 3:00 o'clock, joining the audience as they came singing.

By this time the crowd was estimated by several to be 500 or more and it was a great sight and evidenced a powerful men's movement for better things on Sunday for men than baseball, fishing, hunting and other worldly, but not uplifting recreations. Claypool is a strong moral factor. We have never seen a bunch of men, great or small in numbers better equipped. They have the talent for song, speech and enthusiasm that wins the heart.

From Argos comes the army from Mageddon. Rev. McNeeley, loved and liked wherever he goes, sang a touching song, that by his age, pathos and spirit sent prayer to the hearts of men. Mr. Sarber, a recent tabernacle convert and a former enthusiastic sinner, delivered a splendid speech, telling his experience, that evidenced a steadfast purpose in his life to turn like Saul of Tarsus to Paul of Argos.

Akron was well represented with visitors and by speeches, and while several of Akron's men spoke, Charley Flagg stirred the boys from Argos who knew him for years when he wasn't practicing religion. The Argos boys cheered him and like him better than ever for his manly stand. Rev. Stephens was received joyfully. There was very evidence that there were men in every crowd present that loved him. His sermon was touching and an uplift. He was made to promise that he would give two days each to Mentone, Akron and Claypool before he commenced his regular year's campaign.

MENTAL ILLNESS

The general practitioners is increasingly active as a participant in the fight against mental illness. Surveys show that much mental disorder in first observed in the consulting room of the general practitioner.

Organic confusion, depression, schizophrenia, retardation, character disorders, and above all the anxieties often show themselves in physical signs and symptoms. An appreciation of emotional factors can preclude the possibility of treatment for organic disturbance trouble is entirely physical.

As far as the patient is concerned, the general practitioner is customarily available in location and in time. Another advantage is the continuity of contact and knowledge achieved, as the doctor is close to the patient's home environment and, along with the visitors to whom the troubled perclergyman, is one of the first ad-

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday August 13, 1964

Hereunto were ye called: because Christ also suffered for us, leaving us an example that ye should follow his steps. (I Peter 2: 21)

One day I painted with water colors an ocean scene of seagulls whirling above dark blue water.

The seagulls I painted were not so lovely as God made them. Somehow I did not capture the sparkle and churning of real water. But I tried.

Christians are trying to live as Christ lived. Sometimes the paint brushes of our lives are not so accurate as they should be—our hands are not so kind as His, our words are not so wise, our voices are not so gentle. But we try.

When one looks at my attempts at painting the seascape, he sees blotches, mistakes, and misplaced dabs of paint. As God looks at the life I am living for Christ, He sees blotches, mistakes, misplaced dabs of judgment. But I know He looks beyond my actions to my motives, beyond my weakness and limitations to my heart and attitudes.

PRAYER: Lord, help us today to paint our pictures right—the pictures we are painting on the canvas of life. Guide our hands, feet, hearts, and minds, O Lord, so that the Christ-directed colors will be bright and the picture true and clear when it is finished. We ask in our Savior's name. Amen.

THOUGHT FOR DAY

Will the picture I paint by my life today witness to my faith in Christ?
Dorothy Boone Kidney (Maine)

CHURCH FEATURES PROGRAM

The Center E. U. B. Church located one mile north of Silver Lake on State Road 15 will have a "Hi-Way of Music" program Saturday evening August 15 at 8:00 p.m. There will be quartets, trios, soloist, and instrumentals from Chicago, Warsaw, North Manchester, and Silver Lake, plus congregational singing. Everyone is invited for an evening of religious recreation and praise.

Mr. and Mrs. Clifford Bolinger of Atwood and Mrs. Judd Marshall called at the home of Mr. and Mrs. Joe Miller Sunday evening.

At The Turn Of The Century

The Bourbon News says there was a woman in Bourbon last week, claiming to be from Evansville, and with a baby in her arms she solicited alms from the citizens. It has subsequently developed that the baby was rubber and that on entering a place of business she would squeeze the inanimate being and it would set forth a lusty yell.

The Pierceton Record tells the following on a citizen of that locality: "A tin peddler drove out into the country recently and made a deal with a farmer wife. The peddler beat the woman out of 11 cents on her old rages and 17 cents on her old rubber and scrap iron. She worked off on peddler two dozen rotten eggs at 14 cents per dozen and put two pounds of hen feathers in a sack of goose feathers that she sold for 40 cents per pound. The question for our youthful mathematicians to decide is which one was ahead of the trade.

The girl who poses as a flirt is the girl whose name may be heard where men congregate and the beer and wine flow profusely. At such gatherings the girl whose name and actions are above reproach is never mentioned. But the girl who gads the streets, loafs at the corners in noisy debate with men or hangs around in the way at places of who seems to think the world and strangers especially are dying for the love of her, who attracts the attention of strange men at every opportunity and who is flip with her tongue when conversing with male friends—that is the girl whom the community mentions with a sneer and whose actions are made the topic of lustful conversation when the red wine runs and corks pop from the bottles.

Painting the wagon wheels

with building hot tar will save bills at the blacksmithy, and keep water and air from every crack and crevice, thus keeping the wheel strong for years or a lifetime.

The world is full of anti's now. The latest is an anti-osculating society, to be plain and easy—an anti-kissing society. Oh, for a thousand tongues to object to such an anti. We object in the interest of those who do want to kiss some sweet body.

With The Sick

Chet Creakbaum was transferred to the Veterans Hospital in Fort Wayne last Friday. His address is: Room No. 4E 787, 4th floor east, Veterans Hospital, Ft. Wayne. His condition remains about the same.

Elery Nellans was taken by ambulance to Murphy Medical Center Saturday morning suffering from a heart attack.

PARSON JONES SPEAKS

Dear Mr. Publisher:

I hope you're in good health. I'm feeling on top a the world now since I've had a medical check-up. My wife finally made me go to the doctor cause I was always having symptoms of heart disease and cancer. Course it ain't no wonder I thought I was coming down with something with all the chronic ailers we got in our Church. Two-thirds of 'em swears they got cancer and the other third is waiting on a heart attack. Ole Doc Charge Wright said I was disgustingly healthy. He allowed as how my trouble might be my teeth, so I hauled it on over to my dentist. According to him my teeth was in good shape except for one cavity. While he was grinding out the hole a good idea come to me. What I thought about was how music relaxes a fella, and gets his mind settled. All the time the dentist was grinding my molar there was music coming in over a speaker. It didn't take all the pain away but it shore did help.

He asked me if I didn't think it was a good idea - and said it was something new they was trying.

I told him "shucks, that wasn't new - the Church had been doing it for years". And you know one thing Mr. Publisher, its so. Every Sunday while we're taking up the offering we have some music. The choir always sings its prettiest piece at this time. Most folks don't know it but this is to get people's minds off their money. They hear that pretty music and their hands slide in their pockets and drop the money in the plate before they know what they're doing. It works wonders. A couple Sundays we left off the music and offerings dropped off. So we always have music during the offering if we don't have it no other time.

We started doing this six years ago after I made a trip over to Rufe's house. Him and his wife was in the barn milking their cows. Rufe said they give more milk that way. Well sir, I know if it worked on Rufe's cows it oughta work at our little Church - so that was the beginning.

Yes sir, we got the pain outa grinding, the work outa milking,

and the cross outa giving.

Maybe the Church oughta start giving tranquilizers before the sermon. Oh, not to the members! To the preacher! I

I've got to go. Time for choir practice, and we got a special to learn . . . We're gonna sing, "Perfect Peace."

Come, and don't forget your cushion.

Yours truly,
Parson Jones

Today's MEDITATION

from
The World's Most Widely Used
Devotional Guide

The Upper Room

THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday, August 20, 1964
Read Luke 8:4-5

Neither is he that planteth any thing, neither he that watereth; but God that giveth the increase. (1 Corinthians 3:7)

The wife of a young pastor sat at a conference vesper service only half listening to the speaker. She had come tired and worn out after a particularly strenuous year working with her husband, in the small city parish he served. She was discouraged and disillusioned; they worked so hard, it seemed, and accomplished so little.

Suddenly, the words of the speaker broke through her train of thought. "This parable of the sower is what I call 'The Parable to the Disillusioned' he said. 'It offers a word of encouragement for those who feel that what they are doing is not achieving any results'."

The speaker went on to say that ours should be the business of sowing—sowing among the rocks, sowing among the thorns, sowing on the good ground—sowing everywhere. The results are not for us to worry about. Those we should leave to God. Ours is the job of sowing.

PRAYER: O God, keep me from becoming discouraged because I see no results. Keep me sowing, sowing and trusting to Thee to bring forth the harvest to Thy glory and for Jesus' sake. Amen.
THOUGHT FOR THE DAY
When we are diligent in sowing the seed, we can trust God to bring the harvest.

Florence H. Wayman (Wisconsin)

Surface, and Linda Williams. Adults, who served as cooks and counselors, were: Lucille Surface, Marguerite Campton, and Rev. Campton.

The total enrollment for the camp was 335 youth and 105 adults.

"Did you waste the day or lost it, was it well or poorly spent, Did you leave a ray of sunshine or a Scar of discontent,

As you close your eyes in slumber Do you think that God would say

You have earned one more tomorrow
By the work you did today?"

PARSON JONES SPEAKS

Dear Mr. Publisher

You shoulda' been in our men's Bible Class this past Sunday. We shore had a dilly. Hezekiah was teaching the class and the lesson was on the family. Ole Hez got along pretty good until he got to that place where the Bible says the husband is the head of the family. You know how hen pecked Hezekiah is, so I didn't know what in the dickens he was goona say. Well sir, he hauled off and said the Good Book was right - the husband was supposed to be the head of the house. Big Slim spoke up and asked him if it was that way over at his house. Hezekiah swallowed two or three times and come up with a weak eye. Everybody in that class knew that the only house ole Hez was head of was the dog house. When his wife says jump he says "when and how far?"

The whole class agreed that the men folks oughta be head of the family, but most of 'em thought that this wasn't the things was a goin' - by a long shot.

I kinda went along with the group, Mr. Publisher, there's too many women a wearing the britches to suit me. It ain't no wonder there's so many divorces. Two folks trying to head up one home is bound to lead to some kinda war. Now wouldn't it be a mess if we had two presidents? Suppose they had two fellas a calling the plays on the same football team. What I'm trying to say Mr. Publisher is that final authority is gotta rest somewhere. It we leave that up to the women folks to decide I know what's gonna happen. The Good Book knew this kinda' thing was bound to come up so it was wrote down for everybody to see - the husband was to be the head of the house.

The Bible also says that the younguns are supposed to obey their parents. Now the way I see it, Mr. Publisher, the reason so many younguns ain't listening to their parents is cause they see their mamas ain't listening to their daddys. And they tigger if the Good Book ain't binding on the one hand there ain't no use to worry about it on the other.

Mr. Publisher I told the Men's Class what I'm telling you, and they went home and told their wives. It's really been on ever since. Brother George's wife told me to stick to my preaching and stop meddling. She said it wasn't the preacher's job to go around trying to change things. I ain't seen a single husband out this week. I understand their wives is making 'em stay in as punishment. I don't know what the world's coming to.

Well I better sign off now cause my wife is bellering for me to come and wash the dishes. If I don't she'll cut my allowance off next week.

Yours truly,
Parson Jones

Odds And Ends

THE IMMORTAL HOT DOG

The hot dog has long been an American institution, and in all likelihood it is destined for immortality. It is inextricably related to fun-whether that fun consists of sports, picnics, carnivals, fairs, or a still newer American institution, the backyard barbecue.

The hot dog's history is full of nostalgia. According to some accounts, it made its first appearance in 1871 at a Coney Island refreshment center and was an immediate hit. It solidified its popular standing at the Chicago Columbia Exposition of 1893 where Little Egypt was the headliner. Then came 1904 and the St. Louis Exposition—and the everlasting marriage of the wiener and the elongated bun. This happened after a peddler, finding that the "red hots" were too hot to handle, provided his customers with white gloves. But profits fast disappeared with the gloves so he hit on the idea of a bun to fit the meat.

The hot dog was off and running. It soon became a familiar sight at carnivals, exhibitions and circuses throughout the Midwest. Later it formed its loving association with baseball—a game which seems to demand that we grasp a hot dog in one hand and something cool and bubbly to

dring in the other.

The hot dog has just about everything. It's succulent and cheap, and nothing does more to happily perfume the air, whatever the season. Now, we learn it is rapidly establishing itself abroad—one more of America's contributions to an older world!

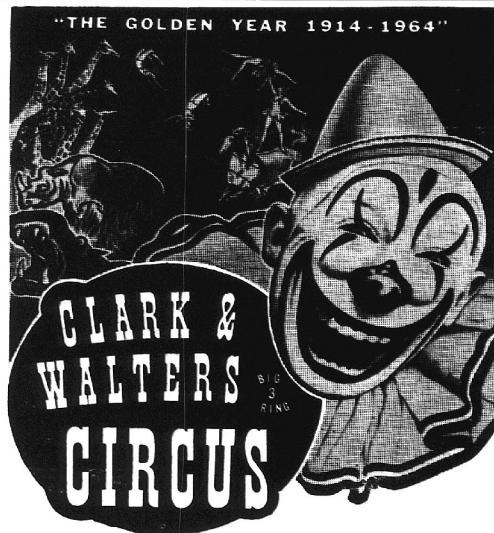

The above was taken from the Industrial News Review, owned and edited by E. Hafer and Sons, Portland, Oregon. We certainly agree with its views that the hog is an American institution that is here to stay. What else chars so perfectly in a bon fire or fills in so fast for a hurried lunch or supper? We had one once in Germany that was at least 18 inches long and the bun was only three inches long. It was quite a feat but we wrapped the hot dog around the bun and ate it that way. Just as good as the American way only a lot less bun!

"Certainly, I know how to read a compass... We just follow the needle and we come to the north pole."

Hidden Power

We take our - - - seeing, hearing, feeling, as a matter of course until we are suddenly confronted with the loss of one. It is then that we realize how dependent we are upon them.

With those who have patterned their lives on the theory that these senses are the sum and total of power in life, the realization that he or she has suffered a permanent loss of one comes as a terrible shock - - - an almost unbearable experience. However, at a time of such disaster the person who has discovered a source of power, which does not come by the aforementioned senses, has a bulwark that is of tremendous aid in such a crisis. Going to church regularly helps in developing this power which is not seen, felt, heard or tasted. Attend the church of your choice regularly as a means of developing that reservoir of strength so badly needed in any dark hour.

1965 Wheat Program Announced

The 1965 Voluntary Wheat Program in general will operate about the same as the 1964-crop Program. Melvin Myers Jr., Chairman, Agricultural Stabilization and Conservation (Fulton, County.) Committee, has announced. While some provisions have been modified for 1965, he said, participating farmers can get about the same returns as from the 1964 Program. Some farmers may get more by using new options that will enable many producers to adapt the program more closely to their farming operations.

The principal changes, compared with 1964-Program provisions, are:

1. Domestic certificates will be worth 75 cents per bushel (were 70 cents), and export certificates will be worth 30 cents per bushel (were 25 cents.)

2. Price support national average loan rate will be \$1.25 per bushel (\$1.30.)

3. Program participants can qualify for domestic certificates on as much as 45 percent and export certificates on as much as 35 percent of the normal production from their allotment (were 45 percent each.)

4. Wheat and feed grain - including oats and rye - acreage substitution will be possible. (There was no provision for substitution in the 1964 Program.)

5. If the grower underplants his 1965 wheat allotment by at least 10 percent and devotes those acres to an approved conserving use - in addition to the 11.11 percent minimum diversion - payment on such additional diversion will be made at 50 percent of the county loan rate on the farm's normal production of such additional acres diverted to conserving use. Maximum diversion for payment can be 20 percent of the allotment or enough additional acreage within the allotment to make a total of 15 acres. No pay-

ment will be made for diverting to an approved conserving use the minimum diverted acreage, equal to 11.11 percent of the 1965 allotment. (Payment in 1964 was at 20 percent for all acres diverted to conserving use.)

6. A producer can qualify for loans and certificates even though he exceeds his acreage allotment by not more than 50 percent on any farm in which he has an interest if he stores the wheat from the excess acreage under bond and carries out conserving-use requirements of the program. (This provision was not included in the 1964 program.)

The chairman pointed out that the sign-up for the 1965 Wheat Program in predominantly winter wheat areas will be held in ASCS County office(s) from August 24 through October 2. The Program Sign-up in spring seeded areas will take place early next year at the same time as that for the 1965 Feed Grain Program.

County Agent Notes From Your

The seed cleaners operated by the Kosciusko County Seed Improvement Ass'n will start on their wheat cleaning and treating runs on August 24. Dale Spenseller will operate on the west side of the County, Tony Heiman will work the east side. Schedules are being sent to farms throughout the county and arrangements can be made either directly with the operators or with committeemen for the Association in your township.

There were 2743 exhibits by 4-H club members at the Fair this year. There are more than a normal amount of entries for the State Fair with all exhibits except livestock due on the dates August 24 and 28. Most will be consolidated at the County Extension Office and taken as a group.

Jack Hart will be working at the State Fair Boys Camp most of the Fair dates this year.

The corn aphid problem has been serious in some fields this year. Aphids are plant lice and have been a problem for many years. There are many kinds and they are usually identified by the kind of plant they feed on. The potato aphid for example was written in agricultural writings as far back as 1770. There are

melon aphids, cotton aphids, cabbage aphids and a dozen other kinds.

We were aware of the corn leaf aphid problem early this time, but did not recommend any chemical control because it appeared that the corn generally was early enough to get ahead of serious trouble. Some of the later planted fields however did get hurt.

Aphids can be effectively sprayed but when we do this we also kill their worst enemy and our best friend, the lady-bug or ladybird beetle. These beetles have built up into big numbers this fall and this should help give good control for a year or two. When the aphids have been reduced then the Lady-bugs will strave and then the aphids can build back up again. This is an example of one of nature's cycles.

Timing is very important in insect control. This year we did not get the good rain that would have controlled them had it come at the right time. The hardness of these insects is evidence by their ability to reproduce. The eggs are laid on some perennial plant and in the spring they hatch. As the weather warms they grow quickly to full size but never grow wings. They are all females and have the same ability to reproduce directly. This is why we have aphids in clusters on plants as generation after generation is produced.

At some other time during the season all the aphids that are born have wings. These can fly and can lay eggs for the next year and there are some males among this generation. It has been found that as the weather grows colder the winged generations are born.

The complex life patterns of many of these insects are puzzling and fascinating. It makes control difficult and extermination impossible.

At The Turn Of The Century

The cider mills are running and the early apples are made into cider and new apple butter will be plentiful.

An exchange says this week than an editor died of starvation and an angel was sent down to escort his soul to a place of everlasting bliss. We have never seen in print where angels were sent after druggists, dry goods merchants, shoemakers or butchers. Only editors are granted escorts. Either editors are so dependent by life long circumstances that they never could find the way to eternal bliss, or they

have a special stand in somewhere. Then, too, merchants become shrewd in driving bargains on their stale wares during a life time that they could argue their way through if there were a thousand cross-roads on the way to bliss and devils at every one of them. Merchants learn to argue their point.

"A live grasshopper will eat a dead grass hopper," says the New York Tribune. "A Missouri farmer mixed Paris green and bran together and let a grasshopper eat it. He died. Twenty ate him up. They died. Four hundred ate those twenty, and they died. Eight hundred ate those four hundred and they died. A hundred and sixty thousand ate those eight thousand, and died, and the farmer was troubled no more. In its flight from the far West the name of the statistician of this story has become separated from his figures.

A young bachelor sheriff was called upon to serve an attachment against a beautiful young widow. He accordingly called upon her and said, "Madam, I have an attachment for you." The widow blushed and said his attachment was reciprocated. "You mistake me," said he, "you must

proceed to court." "I know it is leap year but I prefer you do the courting," replied she, "Mrs. P." continued the sheriff, "this is no time for trifling; the justice is waiting." "Oh, I would rather have a parson, if you don't mind."

A party of Silver Lake people were picnicing at Yellow Creek lake last week and the girls were throwing stones at the boys in a boat when on of the boys picked up a shot gun supposed to be loaded with blank cartridges and began to fire to frighten the girls. The result was that some 30 or 40 shot lodged in one girl's foot causing a very ugly wound.

Park Board Seeks To Raise \$1,000 To Get \$1,500

As many of you know, following the dedication of the park, Jim Mentzer offered to give the Park Board \$1,000.00 if the people of Mentone would subscribe a like amount. Since Jim's letter of intent was published in the Mentone News a few weeks ago another distinguished citizen has come forward with a second offer.

Chet Manwaring informs me that he will give an additional \$500.00 to the Park if the folks of this town raise the necessary funds to match Jim's offer. Simply by raising \$1,000.00 we can now obtain a total of \$1500.00.

The Park Board, at its August 17th meeting, felt that these offers were most generous and should be accepted by the town of Mentone. Therefore, steps have been taken to contact the various service clubs in order to plan methods of raising the \$1,000.00.

The Park Board hopes that the money will be available through these offers to finish the skating rink, start work on the ball field across the creek and sponsor some activities at the Park. It has been the consensus of opinion of the Board and interested citizens of our town, that the Park could best be utilized if some kind of programs could be undertaken that would appeal to various age groups.

The Park Board also voted to erect some kind of a stone memorial that any gift of a hundred dollars or more might be acknowledged, and the donors

name so inscribed if they wished.

As we to to press we are glad to announce that a check for \$100.00 has already been received to apply on the fund of \$1000.00.

CHESTER, S. C., REPORTER: "Even while farm program costs soared, the farm population dropped about 13 per cent to 13.8 million. With about \$7.7 billion of our tax money poured into the program in the last fiscal year, it figures out that per capita costs of the program now stand at about \$558. On a family basis—figuring four to the family—than \$2,200 per farm family in this would be an average of more the country. Despite such whopping allocations to our farmers, most of whom labor long and hard and have substantial land and equipment investments, government officials sometimes talk about the poverty that exists in rural America. This has its interesting aspects, as often the same people who defend this farm program turn around and contend a little federal money would eliminate poverty in other areas of our national life."

RANDOM LAKE, WISC. TIMES: "They found 40 microphones in the U.S. Embassy in Moscow. We knew that our statesmen talked a lot but we didn't know that they needed that extensive an electronic network to pick up all the loose talk. Wonder if they caught any sweet talk between the secretaries and their bosses? Probably not. No American abroad would do anything naughty, would they?"

LOCAL BUSINESS

A furniture store in Ambler, Penn., frequently runs advertising which is designed to promote all local retail firms—even competitors.

Such advertising is done on the belief that general activity in a trade center is good for all retailers as well as the community as a whole.

It has been proven that the large store which advertises heavily automatically helps to support nearby specialty shops and services. Thus, the best location for a small gift shop may be in the shadow of a large department store.

Studies made of retail trade decline in cities where strikes closed newspapers indicate that specialty shops which did little or no advertising suffered almost as much as the nearby big advertisers.

It was evident that the downtown traffic created by regular newspaper advertisers helped to keep the entire trade center alive.

The most dangerous competition for the local merchant is not his next door neighbor. The biggest threat is the competitor in a distant trade center.

Or, in many cases, when advertising is not used, trade for all local retailers is lost because customers are not stimulated to buy anywhere.

At The Turn Of The Century

In the face of the heaviest corn crop American has ever produced corn slipped up in price over two cents last Monday and Tuesday. The cause for the advance in price given was that speculators had sold short millions of bushels in the aggregate and were compelled to bid up to cover their shortage. It seems that Kansas and Nebraska farmers are in position financially to hold their crop and won't sell until it reaches a paying price. This causes the advance. The influence of the farmer's easy financial condition is felt in all the markets and is likely to keep the new crop up to the present prices and by some speculators it is admitted that corn will go higher even to forty cents.

Recipe for hoe cakes: 1 cup good cornmeal, 2 cups hot cream, 1 teaspoonful sugar, ¾ teaspoon full salt. Place in a double boiler two cups cream and place in lower boiler. In the mean time oil well with melted butter two pie-tins. Place tins where they will keep warm. Mix cornmeal, sugar and salt together. Arrange to have oven hot. Now place the upper boiler containing the cream where cream will boil. When cream boils up well pour it over the corn meal mixture quickly and beat rapidly using a batter whip. When thoroughly mixed put out in pans using a large granite spoon, forming oval shaped cakes about four inches long and two inches wide. Put in oven quickly as possibly and bake until somewhat brown on top.

We always feel sorry for a girl who is stuck on a fellow who will spend a dollar for ice cream and chocolate drops and three for a Sunday buggy ride for her, on a six dollar a week salary. Somehow we see visions of bare-footed children, a frousy headed woman over a wash tub, tin cans for dishes and a combination of corncob pipe and a man in the kitchen corner. The young man who lives within his means while single usually has means after he's married.

The local Farmers Home Administration county committee reviews applications by farmers and other rural families for six different types of agricultural, housing and water loans made in Kosciusko County. In addition, the committee advises with the county supervisor regarding the adapting of national loan policies to local conditions.

During the past fiscal year ended June 30, a total of \$199,590 in Farmers Home Administration loans were made through the agency's local county office. Each loan is accompanied to the extent necessary by technical farm and financial management assistance.

County Supervisor Smiley says that Mr. Biltz's practical farming experience will enable him to make a real contribution to the county committee's actions when they review loans applications.

Suzann Kay Parker Weds Roger Eugene Nellans

Mrs. Roger Eugene Nellans

Miss Suzann Kay Parker, R. R. 3, Springhill Acres, Warsaw, and Roger Eugene Nellans, R. R. 1, Mentone exchanged wedding vows Sunday evening, August 16 in the E. U. B. church at Claypool.

Parents of the couple are Mr. and Mrs. S. L. Parker, Warsaw and Mr. and Mrs. Max Nellans, Mentone.

Mrs. Jay Swick, organist, and Miss Carol Lu Stubbs of Hagerstown, the vocalist, provided nuptial music.

The Rev. Wayne Johnson of the Athens E. U. B. church performed the double ring ceremony before an altar banked with palms, candelabra, and baskets of white gladioli and pale green figi mums. The pews were marked with white bows and ivy.

The bride, given in marriage by her father, was lovely in a sheath gown of white peau de soie which was fashioned with a bateau neckline. The bodice featured rose point lace sleeves cuffed in peau de soie at the elbows. The oval neckline was low cut at the back and was encircled with all over rose point lace which cascaded into a court train edged with peau de soie. A miniature water fall crown of pearls and crystal held her two tiered French illusion veil. She carried a colonial bouquet of Stephanotis with green velvet

streamers. Miss Barbara Heckman, Claypool, served as maid of honor and Miss Eilene Weck of Urbana was the bridesmaid. The attendants wore identical floor length empire sheath gowns featuring velvet bodices of bittersweet and crepe skirts of champagne. Wedding ring crowns of matching velvet held their butterfly veils. They carried rosette arrangements of cut lemon leaves and streamers.

Miss Rhonda Morris was the flower girl. She wore a floor length gown of bittersweet taffeta and champagne which was fashioned after the attendants' gowns. She scattered orange blossom petals and huckleberry leaves.

Blaire Metzger, Claypool, the ring bearer, wore a black tuxedo. Stanley Pequignot, Piercetown, was the best man. Stephen Parker, brother of the bride, was the head usher and attended the bridegroom. Ushers were John Coldren, Portland, Joe Crouch, Piercetown, and Tom Leavell, Rochester. They all wore black tuxedos.

A reception for two hundred and fifty guests followed the ceremony and was held in the church social rooms. Assisting at the serving table were Barbara Shonk, Lafayette, Mrs. William Thomas, Atwood, Mrs. Max Zorn, Claypool, and Mrs. Kurt

Shoemaker, Warsaw. Carol Carter, No. Manchester, registered the guests.

The serving table was decorated with crystal candelabras with candles in shades of bittersweet and apricot and arrangements of roses and ivy. The four tiered wedding cake was decorated with apricot roses, gold leaves and pillars.

All of the grandparents of the couple are living and they were honored guests at the wedding and reception. They are Mr. and Mrs. William Riley, Silver Lake, Mr. and Mrs. Foster Parker, Claypool, Mr. and Mrs. Karl Ulmer, No. Manchester, and Mr. and Mrs. Herschel Nellans, Mentone.

Diane Wiley, Portland, Judy Grossnickel, Kalamazoo, Mich., Claudia Wolf, No. Manchester, Jan Issac, Marion, and Jane Ann Kimes, Claypool displayed the gifts.

Following a wedding trip to Miami Beach, Florida the couple will be at home at Warthin Apartments, Apt. 306, 440 No. Winona Street, Indianapolis. The bride, a graduate of Claypool High School, attended Manchester College and is enrolled at Butler University, Indianapolis. Today's MEDITATION

from The World's Most Widely Used Devotional Guide

The Upper Room
© THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday, August 27, 1964
Read Luke 14: 27-35

Whoever doth not bear his cross, and come after me, cannot be my disciple. (Luke 14:27)

One fine summer day I was bathing in one of the lovely bays in the Channel Islands. Lying on my back and enjoying the cool of the water and the warmth of the sun, I did not notice that I was drifting out to sea. When I did look around, I quickly turned over and swam in sheer panic as hard as I could. As I lay gasping for breath on the shore, I realized vividly the danger of drifting.

This is not only true of bathing but of life itself. It is possible to drift on the tide of other people's convictions, but have no firmly held ones of our own, all our ideas and attitudes being secondhand. When life's testings comes in sickness, sorrows, temptations, or just in accepting the easygoing standards of a comfortable society, we succumb.

Jesus calls us not to drift but to decide. When we definitely take Him as our Master and walk in His way, nothing can shake us; we become people of convictions and not of opinions.

PRAYER: O God, save us from the danger of drifting. Give us grace to choose Christ as our Savior and Lord. Help us this day to renew our vow of loyalty that we may serve Thee faithfully. We ask it in the name of our Master. Amen.

THOUGHT FOR THE DAY

Christ calls us to be deciders and not drifters.

PARSON JONES SPEAKS

Ole Will Rogers used to say all he knew was what he read in the papers. Well sir, I can go along with that remark half-way. Half of what I know I read in the newspaper and the other half happens down here at our little church.

I'll tell you what I mean. I reckon you read in the paper about that stop-Goldwater campaign. It seems like a hole mess a folks banded themselves together to side-track Goldwater. Why, some politicians that didn't have nothing in common at all joined hands to get rid of their common enemy. That was about all you saw in the papers. You'd think it was the first time anything like that ever happened.

That's the newspaper side of the story. The other half I learned from my little congregation. I believe these politicians got their idea from our flock. Years ago Ellie Nicklesinger started a "stop the preacher" campaign that has inspired lots of other groups. In 1928 our church had a preacher by the name of Noah Rainwater. Ellie didn't like him cause he chewed tobacco, so she organized a group to "stop Rainwater". They worked day and nite, leaving no stones unturned until they had run the pore ole critter off. They found one some years later that the reason ole Noah chewed tobacco was to curb his appetite.

They didn't pay him enough to eat 3 meals a day so him and the madam and his 8 younguns all chewed tobacco sos they wouldn't get hungry. Not only that, it was mighty good for worms.

In 1935 Ellie headed up another "get rid of the preacher" campaign. They had a little problem though, cause they had trouble getting together on the reason for running him off. Ellie headed one group that claimed the preacher was too old and didn't have enough energy. Hezekiah's wife was chairman of the folks that swore the preacher was too young and didn't have any sense. Well, this split weakened the group and played both ends against the middle. Finally they come up with a charge they could all agree on. They claimed that Rev. Bill Scrapple was preaching over everybody's head. Well sir, I don't doubt it - low down as his members was.

The next "stopping" campaign was in 1943, during the war. Rev. Loudenoorn was preacher at the time. Ellie and her little posse stopped Loudenoorn with the charge that he was a draft dodger and unpatriotic to this country. There wasn't a word of truth in it: I reckon that's the reason everybody believed it. Anyhow, they got rid of him.

There ain't been another campaign since that time, but I got a sneaking suspicion that there's one on the way now. I been noticing a crowd over at Ellie's

house right often. And, when Ellie gets a group together at her house they're stirring something smelly.

I got to go now Mr. Publisher, and organize a counter-campaign. Besides I've gotta go to the store and find something to get rid of a hornets nest I got. So long.
Yours truly,
Parson Jones

Odds And Ends

by Ann Sheets

It seemed like a quiet Sunday afternoon. Doug was asleep. Loren was out with the tractor mowing weeds. Todd was playing with two neighbors in his tree house, the five by five house he and his dad built on top of a large stump by the barn. All was quiet and I had time to collect my thoughts and wash the dinner dishes in peace. It was the calm before the storm.

Blood curdling shrieks came from the tree house. Todd had not been on his best behavior earlier, and I decided this was another of his bits of funny business and went on with the dishes. The howls became louder and two wide eyed little girls came out of the tree house to get me.

Todd, to show his audience how masculine he was, had taken a small metal barrel to the tree house with him and had somehow or other gotten fast in it with one leg doubled back under him at an odd and dangerous looking angle. He was scared to death and was hysterical. He bawled, yelled, and fought like a wild man. I didn't know one 59 1/2 pound six year old could pack such a wallop. I tried to make him lie flat on the floor of the tree house so he could rest and get his breath back before attempting to get him out. He yelled, "You don't ever want me out of here" and nearly turned end over in attempting to get out, banging the barrel as he went.

The girls went to get Loren. They couldn't find him. They went back. I fought with Todd, tried to get his leg out, and he turned red as a beet and the perspiration streamed down his back and legs until it shown in the sun. He wouldn't let me put my hand in to try to push his leg back. He just beat the barrel up and down and yelled.

The girls were on their way back, obviously without Loren. I was now in the tree house trying to help. No luck. I could visualize having to call all sorts of help to get him out of the barrel.

Suddenly, he twisted around, came loose, quit crying, brushed off his pants legs, tied his shoe, and said "Thank Mom" and went on playing. I went in the house and was sick in my stomach.

Mrs. Dick Hostess To "The" Club

The Talma Demonstration Club, met with Mrs. Sid Dick for their August meeting. The meeting was opened by singing America, repeating the pledges to the flags and club creed. Devotions were given by Mrs. Dick reading Chapter 13-1 Corinthians. Mrs. Walters Jordan gave the history of the song of the Month "Coming Thro The Rye" and led the group in singing it. They also sang Happy Anniversary to Mrs. Lewis Johnson. Roll call response was a TV Star I'd like

to see in person. Tickets were distributed for the fish fry on Sept. 18 at the Whitmer Gym. Proceeds will go to the community building fund at the new fair grounds. The president, Mrs. Johnson and her committee reported on the Achievement Day meeting they attended on July 21. Congratulations were extended to Mrs. Merle McGowen for winning two ribbons at the Open Class exhibit at the Rochester 4-H Fair.

The meeting closed with the club prayer, followed by a white elephant sale with Mrs. E. C. McGowen as auctioneer. The door prize was won by Mrs. Mel McGowen. The next meeting will be in the home of Mrs. Jordan.

UNINVITED GUESTS

EVERYONE said it was a most successful picnic. Two days later, they weren't so sure.

Most of the picnickers noticed small, red eruptions appearing on their legs. They also became aware of a terrible itching that increased as more "spots" appeared.

The cause of all this trouble was the common chigger or harvest mite. Of microscopic size, the chigger inhabits open fields, underbrush, berry patches and the leaves of small trees. It attaches itself to the skin and can even penetrate through clothing of ordinary thickness.

While chigger bites are usually below the knees, they can occur higher and often do if one happens to sit or stretch out on the ground where chiggers abound.

There are repellents that can be applied to the body to minimize the likelihood of being bitten by chiggers.

People are pestered by a variety of parasites.

Scabies is an infestation often called "the itch," and the head louse infests the scalp. Then there are common fleas, ticks and bedbugs. Mosquitoes, gnats and flies produce irritating bites and can transmit certain diseases to man.

1-ARTFUL ENTERTAINING !!!

1. For a household that likes to entertain a lot, this dining room picture wall will make your buffet dinner look like a work of art. Best of all, it won't tax your energy or budget. Simply affix a peg-board to your wall (it need only be shelf level) by means of firing strips, and finish by painting it to match the scheme of your room. Your lumber dealer will furnish any further information, as well as the

necessary peg-board, hardware picture hooks, shelf brackets. You can now change your picture as often as you like without marring the walls, and since the shelf only rests on the brackets it too can be removed whenever desired.

2. For a party put a server or table at right angle to your chests and create a dining ell as shown above. It not only makes a friendly setting for a group of

holiday guests, but simplifies the serving of coffee and drinks.

3. Make a focal point of a buffet table by using outside champagne glasses as fruit compotes for the centerpiece. Try lemons (they strike a nice color note) or any fruit arrangement in a hurricane globe, or glass flower vase. Flowers in a bread or wine basket add a fresh spring touch.
