1963 OUTLOOK — ADULT FARMER CLASS

Mentone Vocational Agricultural Adult Farmer Class will have its first meeting Monday Jan. 7 at 7:30 p.m. in the Mentone Ag. room.

The topic for the first meeting will be the 1963 outlook. In addition, enrollment and organization of the topics will be on the agenda.

WITH THE SICK

Jay Anderson 2. son of Mr. and Mrs. Dennis Anderson received emergency treatment at Murphy Medical Center at Warsaw on Monday evening.

While playing with a model service station, he fell and the third finger on his right hand became caught and was cut to the extent of the removal of the tip end. Jay is minus the tip of his finger but otherwise fine.

Lon Walters is confined to his home due to a heart condition.

Mrs. Golda Polen of Kewanna, former resident of Mentone and sister of Mrs. Edna Burns, of North Manchester, broke her hip a couple weeks ago and is in the Woodlawn Hospital at Rochester.

DONATE MEDICAL SUPPLIES

More than one-half ton of fine surgical instruments and items used in orthopedic surgery are now included in shipments of medical supplies donated by an Indiana manufacturer for delivery to Cuba.

Orthopedic Equipment Company, Bourbon, lists suture wire, dermatome blades, wire tractors, forceps, bone plates, retractors and similar items of their manufacture included in the shipment. In addition, ladder splints and appliances will complete the assortment specified as desired by the Cuban Families Committee. More orthopedic equipment is produced in Northern Indiana than in any other part of the world, and surgeons everywhere look to Indiana for the finest in such supplies for their professional requirements.

Orthopedic Equipment Company, with headquarters in Bourbon, also has affiliated companies in England and Germany as well as plants in Mentone, Syracuse and Etna Green, producing for the increasing world wide demand for surgical goods.

COUNTERPOINT

By The Editor's Wife

The "country cousins" visited their "city cousins" this past week-end. Lisa and Tim had such fun with Debbie and Steve (whom they hadn't seen in a long time) and Sally and Bonnie, who spent a week here last summer. The grownups had a splendid time, too. (The editor couldn't resist an occasional peek out the window at the low-flying jets coming in for their landing at nearby O'Hare field.)

It's time, again, for that final session with the Christmas cards—to change addresses, add new names, write notes to answer notes, and enjoy each message again. When this is done, Christmas is really over.

As we look back over 1962, we are certain that we would not like a repeat performance.

We have gained insights into many unexplored areas; we have learned the meaning of compassion, and its expression from neighbors and friends; we have sensed sorrow as tragedy has touched the lives of both young and old in our community, and have asked, "What is my part in this, of blame, and of sharing the burden?" We have acquired new friends at home and in far places, and are aware that a true friendship grows and becomes strong only when it is based on trust.

Will 1963 bring more than this?

Hurrah! Progressive education is on its way out in California. The new superintendent of public instruction, Dr. Max Refferty, believes in old-fashioned book learning with a stronger emphasis on subject matter. He calls it "conservative revolution in education" or "education for survival".

Here is what he advocates:

Use of the phonics system in teaching reading; stressing of the great heroes, stories and facts of American history from the first grade; encouraging youngsters to read the children's classics; abandonment of group psychological tests now given in many districts; scrapping of the terms "social studies" and "language arts" and a return

(Continued on page two)

BURKET JR. HIGH ORDERED CLOSED

In a recent letter to Superintendent Robert Forbes by the State Fire Marshall's Department, it was revealed that they have ordered the old building be closed. The complete list of reasons and their opinion follows:

You are hereby notified that an inspection of the above premises has been made and our inspector reports the following recommendations should be complied with:

Remove all flammable material from under west stairway and give general cleaning.

Rewire entire building and rewire to National Code. Remove all old drop cords light fixtures.

Recharge and redatate all fire extinguishers.

Repair all stair steps and banisters.

Replace old battered outside front exit doors with new doors, to open out in line of exit travel with panic release hardware and exit lights.

Replace old type glass panel doors at classrooms with solid panel doors.

Remove all old books, boxes, papers, etc., from old office rooms; 2nd floor. Give a general cleaning.

Repair all loose plaster in building.

Remove all swinging doors at top of outside exit steps.

Install automatic fire alarm system. Do away with hand bell. Replace old loose and defective window sash in the building.

Repair all lightning rods.

Repair all loose brick on building also, repair openings in foundation.

This building has out lived its usefulness. The cost of restoring said building would be impractical and should be replaced and should not be used after this school semester. This building was not to be used after the 1961 semester but order was not complied with.

The new board was sworn in last night. It has not been learned what their reaction to this letter has been.

Bill Lent is sending a fur-lough from Germany with his parents.

Jim Fitzgerald is home on fur-lough during the holidays.

4 NEW ARRIVALS

ONE BORN ON JAN 1

Mr. and Mrs. Burl Blosser are the parents of a five pound 14½ ounce daughter, Teresa Sue born at 6:07 a.m. Jan. 1st at the Murphy Medical Center.

Mr. and Mrs. Edward Blosser who live east of Mentone are the grandparents.

Mr. and Mrs. Jim Gates have joined the ranks of "My Three Sons". Paul Mark, their 3rd son, was born at the Woodlawn Hospital in Rochester, on Sunday morning at 3:55 a.m. The fellow weighed 8 lbs. 10 oz.

Mr. and Mrs. Steve Smith of Goshen are the proud parents of a baby boy born Dec. 26 at Parkview Hospital in Plymouth. The baby weighed 8 lbs. 5 oz. and has been named David Lee. The grandparents are Mr. and Mrs. William Rathbun of Mentone and Mr. and Mrs. Clayton Smith of Albion; great grandparents are Mr. and Mrs. Ralph Wideman of Chapman Lake, and Mr. and Mrs. J. L. Rathbun of Warsaw.

Mr. and Mrs. Bill Whetstone are the parents of an eight pound three ounce daughter, Amy Louise. She was born at 5:00 a.m. on Wednesday morning at the Woodlawn Hospital at Rochester.

Grandparents are Mr. and Mrs. Wilvin Teel.

CALENDAR

Mentone H. D. Club will meet with Mrs. Darrell Tucker Jan. 16th at 1:30 p.m.

DAR meets Jan. 8 at Bank social room, 7:30 p.m. Guest night. Call EL 3-3581 to give number of guests.

Mentone PTA will not have their Jan. 8th meeting due to the county tourney. The regular meeting will be February 13 at the school.

NEW POSTAL REGULATION

Watch out for those small or odd shaped letters and postcards. Starting at midnight of Dec. 31, the Post Office won't accept any letters or cards that are not rectangular in shape and measure at least three by four and one-quarter inches.

The reason: extremely small and odd-shaped mailing items raise havoc with new automated cancelling machines and other mechanized equipment.

COUNTERPOINT, Continued

to teaching of specific subjects such as geography and history; memorization and drill in subjects such as historical dates and names of great significance, the multiplication tables and number combinations, and passages from great works of poetry; and teaching of basic principles of the American free enterprise system.

He is cool toward federal aid to education, strong on local control and believes teachers should be intellectual and cultural leaders in their communities.

Hayden Pearson has this to say about an "Old Fashioned Sleigh Ride":

The sled has high board sides; the floor was covered with sweet smelling clover and timothy hay; horse blankets and buffalo robes were spread over the hay. The bells on the horse's collars made music in the brittle-cold air on a starlit night.

Steel runners squeaked and crunched on the hard packed snow of the two track road.

Not very exciting, perhaps, in

terms of today's commercialized entertainment; but there are those in cities and towns who remember the sleigh rides and the good times on bright moonlight nights before cars and trucks took over.

Send in your comments, clippings, cheers, and criticisms. We appreciate them, and try to use them from time to time.

We enjoyed this:

A man applied for a book-keeping job.

"Where did you get your training?" asked the employer.

"Yale".

"Splendid. What's your name?"

"Yohnson".

OBITUARIES

Dale Bauer Dies Friday

Dale B. Bauer of Chicago, formerly of Warsaw, died Friday in the Cook County Hospital in Chicago.

Mr. Bauer, who had been ill for the past three months and in the hospital for the last two weeks, was born in Mercer, Ohio, Aug. 3, 1910, the son of John and Lucille Bauer. In 1934, he married Marguerite Woodling. Mr. Bauer had been a long time resident of Warsaw before moving to Chicago in 1961. He had been a commercial artist and was affiliated with the First Baptist Church of Warsaw.

Surviving are his wife; two sons, Rodney, who is in the Army, and Joel, who is in the Air Force; one daughter, Mrs. Gerald Carlin, of Claypool; and one grandchild, Mrs. Virginia Peterson of Mentone, is a sister of Mrs. Bauer.

NEWS? Ph. ELmwood 3-3985

Local News

Mr. and Mrs. Kenny Wagner and family of near Crystal Lake were Saturday evening guests of Rev. and Mrs. Bob Morgan.

Recent guests of Mr. and Mrs. Lloyd Bowerman and family were her sister and husband, Mr. and Mrs. Herbert Mitchell and son from Wilmington, Delaware.

Mr. and Mrs. Tom Harman and family, Mr. Jon Cullum and Mrs. Artley Cullum spent the week-end in Franklin Park, Ill., visiting Mrs. Dorothea Cullum and the Paul Cullum family.

Mike, Roslyn and Willard Wagner spent one day of Christmas vacation visiting their grandmother in Warsaw, Mrs. Willard Cain.

Mrs. Nancy Owens is visiting her parents and family, the Sam Wares.

Mr. and Mrs. George Hullinger of Plymouth and Mr. and Mrs. Chas. Hullinger of Argos visited their aunt, Mrs. Hipsher at Palestine on Friday.

John Hipsner and wife visited Mrs. G. J. Hipsher over Saturday. They are from Sheridan, Wyoming.

Mr. and Mrs. Conda Hipsher of Mishawaka, Mr. and Mrs. Donald Hipsher of Bristol, Mr. and Mrs. James Hipsher of Wabash, Mr. and Mrs. Logan Ramsby of Ligonier, and Mr. and Mrs. John Hipsher and Kenneth of Sheridan, Wyo., ate Christmas dinner with their mother, Mrs. G. J. Hipsher Sunday.

Mr. and Mrs. Dan Urschel spent the holidays visiting relatives by air, (when weather permitted) and by car whenever flying was impossible. In New York they visited her sister and family, the Damerells; in Ft. Lee, Va., Mr. and Mrs. Charles Urschel and David; in Grand Rapids, Michigan, Mr. and Mrs. Roger Becklund and Kathy.

Mr. and Mrs. Jack Shinn and family of Ft. Wayne visited with Mr. and Mrs. Earl Shinn and other relatives during the holiday vacation.

Mr. and Mrs. Donald Boyer and girls spent Christmas week in Miami Beach, Florida. They reported the weather as lovely, and swimming great!

Mr. and Mrs. George Hall and family of Warsaw had on New Year's day their Christmas dinner for the Hall family. Those present were Mr. and Mrs. Gerald McHatton, Mr. and Mrs. Don Uray and family, Mr. and Mrs. Charles Green and family, Mr. and Mrs. Sam McClaine and son, Mr. and Mrs. Wayne Heisler, Mrs. Ruby Hall.

When functional kidney disorders cause getting up nights, scanty flow, burning, backache, leg pains, dizziness use easy-to-take BUKETS 4-day treatment. Acts fast to increase and regulate passage. NOW at DENTON'S DRUG STORE.

An Orchid For You— And You—And You

The picture shows one of the orchid plants owned by our local Markley greenhouse.

It is a *Cattleya*; the blooms are orchid colored, and measure from six to eight inches across. This is the second blooming for this plant.

The other plant (not shown) is a *Cymbidium*, and is just now starting to bloom. The blossoms are white with a purple throat, and are smaller, with a grass like leaf.

The orchid is an air plant. In the jungle it attaches itself to the bark of a tree, and sends roots into the air. It gets its food directly from the air.

In the greenhouse, the plant is grown in a moss-like substance. It is watered at least once a day, and the leaves are sprayed. An orchid plant requires a great deal of humidity and has to be fertilized. The night temperature is 65 degree.

The flowers are to be used in corsages, so we were pleased that we could show all (minus one, Esther said) the blooms.

Purdue University poultry scientists point out that placing a piece of corrugated cardboard the size of the nest bottom underneath the nesting material will help reduce the number of cracked eggs.

Purdue University poultrymen recommend removing dust from the wire screen covering ventilation outlets in poultry houses. If neglected, the dust may accumulate enough to reduce seriously performance of the fan.

State Highway Erecting No Passing Signs

The Indiana State Highway Commission has doubled up its defenses to protect motorists from the dangers of passing on hills and curves where sight distances are inadequate.

Thousands of no-passing signs which will warn motorists of hazardous curves and hills, even when snow obscures the yellow lines, have been erected throughout the state by the Indiana State Highway Commission.

Yellow lines have for years been the only indication to motorists of hazardous no-passing zones, and the onset of the snow season each year has often deprived drivers of their only means of warning.

They have erected "Do Not Pass" signs at the beginning of restricted passing zones, while "Pass With Care" signs signal the beginning of safe passing zones.

In all previous winters when snow or ice gathered along the center lines of highways, the motorist on a strange road was left with only his judgement to guide him in passing. With the yellow lines obscured, and winter haze and glare hindering vision, hidden curves and rises have contributed to many a traffic accident.

Clinton Venable, chief of the Traffic Division of the Highway Commission, called the project a "special effort to promote safety on the highways". He said the sign system is virtually completed on the state's primary highway system, and is about half finished on the secondary systems.

Improper passing ranks as one of the major causes of traffic accidents. Winter is the most hazardous driving season. Venable said the no-passing sign project should add significantly

to the safety of Indiana highways.

"We cannot prove that these signs will save a specific number of lives, or that it will reduce traffic fatalities," Venable said. "But our highways will clearly be much safer with the no-passing signs than they have been, specially during the winter. It is a back-up system to the yellow lines which can be obscured by rain, snow, fog, or even wear and tear on the paint line itself."

Although the law requires only marking by yellow lines, they began exercising its option to add signs about a year ago. The project has been put into effect gradually on a highway district level out of existing highway sign funds.

They estimated the project, when completed, would require 50,000 signs over the 11,200 mile highway system. About 8,500 miles of highway—including most of the more heavily traveled roads—have been posted with signs, warning of restricted passing zones.

The signs, lettered in black on white rectangular background, are posted on the right side of the road, five feet from the ground.

The Highway Commission has experimented with the double placement of signs, on both left and right sides of the driver. On State Road 37 between Martinsville and Bloomington, passing signs have been doubled.

Venable concludes from his own experience, however, that the average motorist catches signs out of the corner of his right eye. While driving the experimental stretch, he reports he failed to notice signs on the left side himself until he consciously looked for them. He

said signs on both sides may be used in difficult and hazardous areas, but present emphasis is on the right side placement only. Interestingly, the traffic chief predicted Indiana's requirements for no-passing signs would gradually decrease.

As modern highway design flattens grades and straightens roads, the curves and hills that necessitate no-passing zones will diminish. And of course no such signs are required on four-lane highways where passing is always permitted.

NEWS NOTES from our County Agent DONALD E. FRANTZ

The Governor's address last Thursday night carried over many of the radio stations throughout the state was a statement that pertained more to biology and arithmetic rather than to politics. The biological facts of life and the mathematical question of how to pay for their education will meet head on in the arena of politics. We have reached the point now of deciding which direction we will go. Up to now the property tax has been flexible enough to pick up these increases in costs. It has been stretched about as far as it will go and now something else will have to be done. This is the task of the legislature.

About two-thirds of our col-

lege students are in some one of the state supported schools of Indiana, Purdue, Ball State or Indiana State College. This is expensive, some think it is unnecessary, but the fact is that as the demands for college educations grow, more students will go somewhere to college. The tax question involved is this: will it be a state policy to provide for as many of them as possible to attend a tax supported school or will it be our policy to limit this number and expect the private schools to pick up in numbers.

This question coming at the same time as the problems of property taxes in supporting the local grade and high schools has put the state in a difficult position of raising finances for both the college level of education and the grade and high school level at the same time. To do this and to permit townships and counties to lower property taxes too is a real mathematical puzzle. This is what the Governor is talking about.

We all know what has happened in our local schools. We can see this. The Lincoln grade school, hardly five years old, is too small. It will have to be enlarged before next year. It is the same story over the state.

The same thing is happening in colleges. The four state tax supported colleges had 7,221 freshman in 1950. They had 20,448 in 1962. The private colleges throughout the state had 5,757 freshman in 1950. They had 11,724 enrolled this fall. These are reasons why the col-

lege presidents want more money.

When these figures are projected even further we get more of a jolt. We had 85,695 college students enrolled in Indiana in the fall semester of 1962. This is about twice the population of Kosciusko County. If the present trends are continued we will have somewhere from 146,000 to 185,000 students in college in 16 years from now. The top estimate would mean that we have to increase our facilities to provide for one hundred thousand more students in just 16 years. This is not just fantasy, these people are already born.

Indiana has a good educational system. It is not exorbitantly expensive. The state takes about 34 per cent of our personal income for state tax revenue. There are 41 states who take more. The total property and state tax takes 7 per cent of our personal income, and most of this is for education. There are 44 states who bite harder. It looks like some of the other states have already made some of the moves that are now facing us.

THANK YOU

For all gracious acts of kindness during Maude's illness and death, I am most grateful; and wish to thank Dr. Connell, Rev. Jones, our friends and neighbors.

Mrs. Dick Martin and children of Grand Rapids, Michigan and Mr. and Mrs. Keith Fowler and family of Ft. Wayne had Christmas dinner and gift exchange Sunday with Mr. and Mrs. W. E. Fowler and Mr. and Mrs. Paul Rush and family.

Saturday afternoon Mrs. William Cochran and daughter called on Mrs. Nellie Julian.

Mr. and Mrs. A. A. Rose of Buchanan, Michigan were Wednesday guests of Mr. and Mrs. Garrie Rose, and Monday Mrs. Leonard Bittner of Wabash called at the Rose home.

Mr. and Mrs. Arthur Golden were guests at a Christmas dinner and gift exchange at the home of Mr. and Mrs. Lee Dick Reiken and family in Ft. Wayne Sunday.

The holiday callers of Mrs. Rosa Kinsey were Mrs. Esther Sarber, Mrs. Goldie Kesler and Mrs. Mabel Reese and son, Francis, of Claypool.

Mr. and Mrs. Ed Davis and family spent New Year's eve with Mr. and Mrs. Loyale Karns and family of Urbana.

Mrs. Eve Laird spent Saturday afternoon with Mrs. Tessie Anderson.

Thursday afternoon Mrs. Pearl Horn, Mrs. Goldie Kesler and Mrs. Eve Laird called at the Prairie View Nursing Home to see Mrs. Millie Clark, Mrs. Dora Norris, John Fenstermaker and Mrs. Alfred Teel, to find Mrs. Teel not so well.

Mr. and Mrs. Robert Jones and Mr. and Mrs. Glen Watkins visited Monday with Rev. and Mrs. Berlin Yeager at Syracuse.

Jane Ellen Tucker has been a guest of Sandra Rathbun and family from Friday to Monday afternoon. They attended the tourney Friday and Saturday at Elkhart.

Mr. and Mrs. Jerry Hudson and family were in Indianapolis Sunday.

Thursday evening Mr. and Mrs. Bill Ettinger and family of Piqua, Ohio were guests of Mr. and Mrs. Paul Rush and family.

Floyd Tucker, Jane Ellen Tucker, Jennie and Alice were Monday dinner guests of Mrs. Gilbert Griffis.

Mr. and Mrs. Robert C. Frush of Warsaw were Sunday afternoon callers of Mr. and Mrs. William Rathbun and family.

Mrs. Arlene Walters visited Saturday afternoon with her aunt, Mrs. Samantha Norris.

Mr. and Mrs. Robert Jones called at the home of Mr. and Mrs. Henry Watkins at Bourbon Sunday afternoon.

Mrs. Leonard Bittner of Wabash spent the week end with Mr. and Mrs. Earl Carbiener.

Mr. and Mrs. Jerry Hudson and family and Mr. and Mrs. Bill Hudson and daughters had Christmas with Mr. and Mrs. Frank Hudson on Sunday near Akron.

Mr. and Mrs. Floyd Tucker left Sunday for the remaining winter in Florida.

Dale Eizinger of Rochester called on his parents Sunday afternoon. Sunday evening Mr. and Mrs. Andrew Ritenour and son of near Plymouth called.

Mr. and Mrs. Stanley Newton and family had dinner Thursday with his mother, Mrs. Tessie Anderson.

Sunday a family Christmas dinner and gift exchange was held at the home of Mrs. Jennie Sponseller. They were Mr. and Mrs. Ernest Ford of Hammond; Mr. and Mrs. Bill Griffis and son, Burket; Mr. and Mrs. Larry Boggs and daughter, Palestine; Mr. and Mrs. Gilbert Griffis, Mr. and Mrs. Bob Griffis, Mentone; Mr. and Mrs. Judah Trowbridge, Mr. and Mrs. Don Kuhn and son and Mr. and Mrs. Jay Trowbridge and family of Bourbon.

Mr. and Mrs. William Schooley visited Sunday with her brother and wife, Mr. and Mrs. Walter Fawley, in Elkhart. In the afternoon they called on an aunt, Mrs. Nora Gouchenour, to find her not so well.

Mr. and Mrs. Sam McClaine and son, Ronnie, of Indianapolis, is visiting Mrs. Ruby Hall.

Mrs. Georgiana Teel and Mrs. Della Dillingham attended the funeral of Leslie Lockridge Saturday in Warsaw.

Thursday evening Mr. and Mrs. Joe Frederick and daughters of Elkhart had supper with Mr. and Mrs. Larry Boggs and daughter.

Mr. and Mrs. Howard Severns of Tippecanoe were Friday afternoon guests of Mrs. Minnie Busenbourg.

A dinner and gift exchange at the home of Mr. and Mrs. Earl Boggs was for Mr. and Mrs. Kenneth Boggs and family, Mr. and Mrs. Larry Boggs and daughter and Walter Wilson.

Miss Jennie Linn spent Thursday afternoon with her grandparents, Mr. and Mrs. Byron Linn.

Miss Juanita Warren of Warsaw called at the Etta Halterman home Monday.

Mrs. Hannah Plant and Mr. and Mrs. Harold Michael and family of Sidney were Christmas eve supper guests and gift exchange of Mr. and Mrs. Jerry Hudson and family.

Mr. and Mrs. Glenn Mylin of North Manchester were callers of Mr. and Mrs. W. E. Fowler Friday evening.

Mr. and Mrs. Artley Cullum and son, Jon, and Mr. and Mrs. Thomas Harman and family spent the week end with Mrs. Dorothea Cullum and the Paul Cullum family at Franklin Park, Ill.

Mr. and Mrs. Howard Horn and Jody were Saturday afternoon and evening guests of Mr. and Mrs. Howard Clipp in Elkhart.

Mr. and Mrs. John Oswalt attended a Christmas supper and gift exchange Friday evening at the home of their daughter and family, Mr. and Mrs. Jim Kenney at Elkhart.

Diversified Hog Business

Noah S. Hadley, Purdue University extension agricultural economist, says the farmer who produces his own feed and raises hogs on pasture can compete successfully with the highly mechanized commercial swine producer.

The Purdue economist points out that hog production systems involving complete confinement and highly mechanized equip-

ment permit handling of more hogs by one man.

These systems also involve substantial capital investments and a high level of managerial skill. When these conditions are met, the systems are succeeding and will continue to do so. In fact, the trend toward more confinement feeding by large operators will continue.

The other side of the coin looks like this:

The farmer with less capital and an inclination to expand his business horizontally rather than vertically, the farmer who wishes to take advantage of the

complimentary relationships between crop production and livestock production, the farmer who avoids heavy indebtedness and keeps some slack in his financial line and the farmer who operates in a more conservative way, will be able to compete quite successfully for quite a long time."

Research shows that feed costs are about 85 cents higher per 100 pounds of pork produced on dry lot than for pork produced on pasture. A complete, mixed ration increases feed costs 50 cents to \$1 per hundred pounds of gain over free choice

feeding. Thus, a free choice feeding system on pastures gives a feed cost advantage of about \$1.50 per 100 pounds of gain.

Looking at costs other than feed, the growing acceptance of confinement systems results from:

Higher potential income from land raising corn instead of pasture.

Expected lower labor require-

ments in raising hogs.

Opportunity to systematize hog production.

Reduction of costs in portable fencing and equipment.

Purdue University agricultural economists say Indiana farm land values are expected to strengthen in the year ahead. Hoosier farm land values rose to an estimated average value of \$260 an acre last March.

MORE FACTS FOR SAFER WINTER DRIVING

Always carry a pair of reinforced tire chains. In deep snow or on ice they enable you to go and stop more safely.

● Every winter the National Safety Council's Committee on Winter Driving Hazards studies the effects of snow and ice, and how to drive safely under the worst conditions. Figures above and below are based on results of their tests.

● Packed snow also makes stopping difficult. Regular tires at 30 miles an hour will stop you in 135 feet, snow tires in 117, and reinforced tire chains in 86.

● Reduced visibility is also a major winter driving hazard. Do your windshield wipers give clear, streak-free visibility? If rubber is dead, get live rubber refills. Also check wiper arm tension. It should exert one ounce of pressure for each inch of blade length. If arms are weak, blades smear around rain or road muck, and soon ride over snow or sleet—even with new blades. Make sure defroster works.

● Rising temperature makes ice more slippery. At 30 miles an hour on ice at 0° a car with regular tires requires 256 feet to stop. At 30° this distance increases to 530 feet.

● Also significant is the great effect of speed on braking distances. At only ten miles slower, all of these figures are reduced more than half. At ten miles faster, look out! To cite one example, the average braking distance for regular tires on glare ice is 780 feet at 40 m.p.h.

ABOVE CHART, provided by the Safe Winter Driving League, illustrates test results by National Safety Council's Committee on Winter Driving Hazards. For each "braking distance" above you should add 33 feet, which is distance traveled during average "reaction time," needed to think and get your foot on brake after seeing a reason to stop. Skidding and reduced visibility are major added hazards of winter.

CAN YOU SEE AND STOP IN TIME?

STRICTLY BUSINESS

by McFeatters

"How are you coming with your invisible ray machine, Dr. Laser?"

Control Cannibalism

Use an electric debeaker to remove about one-half of a pullet's upper beak as a means of controlling cannibalistic tendencies without seriously injuring the bird, advises Joe W. Sicer, Purdue University extension poultryman.

However, birds must be debeaked properly if the practice is to be more effective. The debeaker blade must be straight, sharp and heated to a cherry glow, so a clean cut can be made quickly and easily. Few nerves or blood vessels are in the correct area for debeaking. Thus the operation does not interfere with the chicken's normal eating.

The cut should start at the top of the upper beak at a point about half way between the tip of the beak and the nostril. It should be made on a backward slant so that the lower edge of

the upper beak is left about an eighth of an inch shorter than the top of the beak. This makes it difficult for the bird to get a firm enough hold on another chicken to hurt it. The tip of the lower beak should be removed to keep it from growing excessively long, since, with the outer part of the upper beak removed, the lower beak has nothing to wear against. The exposed edges of the beak should be cauterized lightly to guard against bleeding.

Debeak pullets just before they are housed if cannibalism has been a problem. Pullets can be debeaked while egg production is increasing with little danger of hurting production seriously. But the longer the birds have been in production when debeaked the greater the probability that egg production will be set back.

Respiratory diseases in swine are most common during early winter. So, say Purdue University extension veterinarians, provide the hogs with dry bedded areas free from draft.

Care Of Auto In Winter

Winter weather means that many motorists again will be faced with car-starting problems.

The Chicago Motor Club points out, however, that many of these starting problems can be eliminated if motorists take the time to thoroughly condition their cars for the rigors of cold weather driving. The club offers the following suggestion:

Don't grind your starter. Most motorists are unaware that continuous use of the starter for periods exceeding 30 to 45 seconds is detrimental to the battery. The best starting procedure is to make repeated attempts allowing for 30 to 60 second rest periods for the battery between tries. After the car does start, warm up the motor by letting it idle for several minutes. Never race a cold motor.

Avoid constant pumping of the accelerator when the starter is engaged. This only results in flooding the engine, causing difficult starting and heavy battery strain. If the engine floods, always wait several minutes before attempting to start your car again.

To keep your gas line from freezing, add 8 ounces of grain alcohol or approved commercial

equivalent to every other full tank of gasoline.

When standing in traffic, put the car in neutral and step on the accelerator to keep your battery from discharging. This is particularly important during winter months because much of

a motorist's driving is done with lights, windshield wipers, defroster, radio, and heater functioning simultaneously—all combining to put a severe strain on the car battery.

Timber Stand Improvement

Net timber growth in a woodland is greatly accelerated after timber stand improvement—cutting, girdling, frilling or basal spraying—assert E. J. Lott and F. T. Miller, Purdue University extension foresters, in Mimeo F-41.

Published by the Cooperative Extension Service, it illustrates deformed trees, forked wolf trees, hollow trees, climbing vines and undesirable species and recommends the various ways they can be destroyed. It also illustrates sound growing trees and mature harvest trees.

The foresters point out that woods improvement may be done any time during the year, but that is fits best into a farm operation in late fall and winter. Further, it is wise to favor the kinds of trees that do best in your woods; it does not pay to grow crop trees in an unnatural habitat.

Free to Indiana residents, a copy of Mimeo F-41, "Timber Stand Improvement", may be obtained by writing (a postal card is sufficient) the Agricultural Publications Office, AES Building, Purdue University, Lafayette, Ind. Copies are also available at county extension offices. Be sure to request the publication by number and title.

MARKET

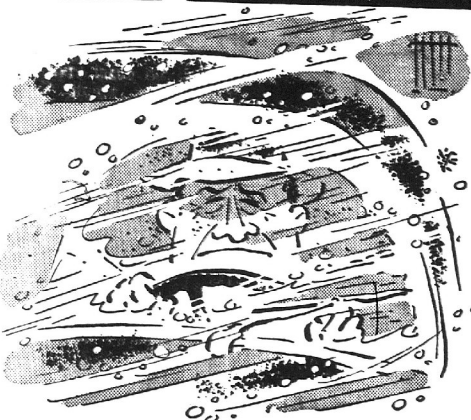

A French-British "Concorde" jet airliner capable of twice the speed of sound may threaten the U.S. hold on the jet market by 1970 if joint plans by the two countries come to fruition. French and British aviation companies, subsidized by their governments up to \$370 million, plan to develop a thin delta wing craft that will whisk passengers from London to New York in less than three hours. The U.S. is concerned, but aviation people here remain interested only in developing a Mach 3 (2,000 mph) plane, calling Mach 2 a strictly "short term answer".

Finding needles in haystacks is child's play compared with isolating the minute traces of impurity that must be eliminated in producing ultrapure hydrogen gas in a Chemtron plant in Dallas, Texas. A chromatographic analyzer that is sensitive to 1 to 2 parts per million of each possible impurity is used. The hydrogen is used in manufacturing and research activities for transistors and other Space Age products.

A gasoline additive has been developed to eliminate smog components from auto exhaust. The chemical compound reacts with unburned hydrocarbons to produce carbon dioxide and water, eliminating carbon monoxide, a major part of smog.

WINTER WOES by Pinson

While driving his car, Mr. Prale,
Hit a cop on his beat near the jail.
The cop said "You jerk!
Your wipers don't work!
Pretty soon you'll be walking...on bail!"

PREVENT THOSE WINTER DRIVING WOES

The National Safety Council says: "Be sure your wiper blades are in good, live condition, and have arm pressure of one ounce per inch of blade length to sweep snow and sleet off instead of sliding over it." Dead blades may make dead drivers. Check defroster, too. You must see a hazard to avoid it.

The death rate is higher than the birth rate in some rural areas of the U.S., areas that are extreme examples of the results of the general exodus from farm to city, reports the U.S. Department of Agriculture. Sixty per cent of 2,400 primarily rural counties in 1950 lost population in the ensuing decade and only 15 per cent absorbed natural population increases and attracted migrants as well. The Rhine River has been

pronounced "one of the dirtiest in the world" by 40 pollution experts from 20 European countries after a 10 day boat trip. The famous river, they judged, can now be used for only two things, shipping and the transportation of refuse to the sea.

Exhaust from the 2,250 tons of fuel the moon rocket Nova will burn could have these effects on our atmosphere, according to the Institute of Aerospace Sciences: (1) A change in the altitude characteristics of sunlight absorption. (2) Increased emission of natural infrared radiation. (3) Changes in atmosphere temperature and composition. (4) Modification of the ionosphere. (5) Changes in atmospheric light phenomena. (6) Increased electron density surrounding bodies re-entering the earth's atmosphere.

The furor over alleged sky-larking by U.S. airline pilots during flight has caused this sign to be posted in many cockpits: "Fly now, play later."

MENTONE AREA SPORTS

Win One—Lose One

Mentone came to the end of its winning streak Saturday night as Elkhart out scored them. From all points of view it was Mentone's bad second quarter, where they scored only 9 points, while Elkhart scored 18. That put the frosting on the cake.

MENTONE vs. ROOSEVELT

In the first game of the Holiday Tourney Mentone squeaked past East Chicago by one point on a free throw by Allen Creighton with 2 seconds to go.

Mentone had its trouble all through the game, inability to hit free throws, poor shooting, and everything that goes with it. This is the fourth game that things have looked like this.

Coach Bateman had another chance to be proud of his bench as several of his boys came in and again started the ball rolling. Zolman and Whetstone hit 8 points that added the spark needed for Mentone to catch fire and eventually win by one.

MENTONE vs. ELKHART

While Mentone showed times like they might be the team of old, they just couldn't keep it going. Paul's subs proved ineffective for him, bad shooting and some ragged play brought Mentone to its knees for the first time this year.

We were especially pleased with the work of Lyle Long in this game as he proved to be the workhorse under the board. He had a little trouble with his shooting and couldn't seem to click, which seemed to be the writing on the wall for all of Mentone's team. Nellans, who ended with 19 points, had trouble all through the game.

We know that Mentone can beat Elkhart if they can come up to their potential. Coach Bateman has some work cut out for him as he tries to get his team to jell.

As we are concluding this sports article for this week, we feel that there might be some room for improvement in some of our fans.

There has been a lot of talk about what's wrong with our team, but as I was sitting in the stands, taking a few pictures and listening to comments, hearing the attitudes of some, so called fans around me, I was wondering if I could be proud of them.

I am sure that if they had their conversations, their emotions and other acts played back before them, they would

truly hang their heads in shame.

The officials always seem to be the blunt of the fans remarks. Many of the fans call plays at the far end of the floor, while the officials are only 10 feet away.

We have a great team. We have some great fans. We have a few fans that need to re-evaluate themselves in order that they can become great. T.W.H.

Sorority Meets

The regular business meeting of the Psi Iota Xi sorority was held in the Bank social room on Tuesday evening.

Hostess for the evening was Annabell Mentzer, who served Riner, Louise Long, Vadis Ward, lovely refreshments to Pauline Bernice Jones, Iris Anderson, Iris Dickerhoff, Mary Utter, Karen Baum, Doris Ross, and Ann Utter.

DETERMINE INHERITANCE

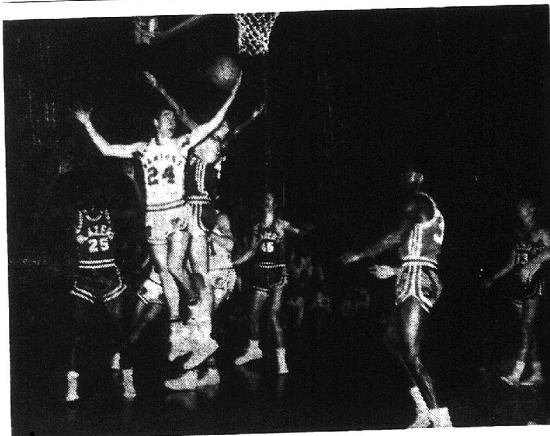

Inheritance has been determined in the estate of William F. Cook, Mentone. Heirs are the wife, Emma, \$743.14; sons, Guilford Cook, Mentone, William Cook, of Plainfield, Pa.; daughters, Kathryn Patanelli, Elkhart, and Marion Kirchoff, of Huntington. Each will receive \$463.10. Mr. Cook was a former Mentone marshal.

When It's Lumber —

Co-Op. Building Dept

Cheering Section in a show of approval as Mentone downs E. Chicago in first game of tourney.

Bill trying an overhand, behind the back, sneak shot in the Elkhart game Saturday night. Elkhart's defense seemed exceedingly hard for Mentone to break. Bill lead Mentone's score with 19.

YOU'RE GOING TO PAY MORE

For the Mentone residents who are employed, Social Security taxes will be 16 per cent higher after Jan. 1st.

Their payments will be at the rate of 3½ per cent of earnings, instead of 3 per cent as it is at present. This applies to the first \$4,800 of wages or salaries. Similar amounts must be paid by their employers.

For self-employed persons, there will be an increase of 7/10 of one per cent. They will be paying 5.4 per cent in the future. Their maximum cost will be \$261 a year, compared with \$216 now.

For employed people, the maximum cost per year will be \$174. It is now \$144.

The average employee in Kosciusko County was taxed an estimated \$77 during fiscal 1961.

Some \$2,430,000 of that total came from local sources. It is expected to reach \$2,819,000 in 1963.

The new jump in the tax rate is in accordance with the planned development of the Social Security system, which calls for periodic increases. The final one is to go into effect in 1968.

That will bring it to 4½ per cent for employee and employer alike. Self-employed people will pay 6.9 per cent.

These rates offer no leeway for any further expansion of benefits such as would be offered through a hospitalization plan.

Should that take place, there would be an additional hike in the rates.

Family Finances

When you're buying a watch, it often pays to spend a little more for one with 17 jewels than to buy one with less jewels. A higher quality watch, with good care, will last years longer, and save you money.

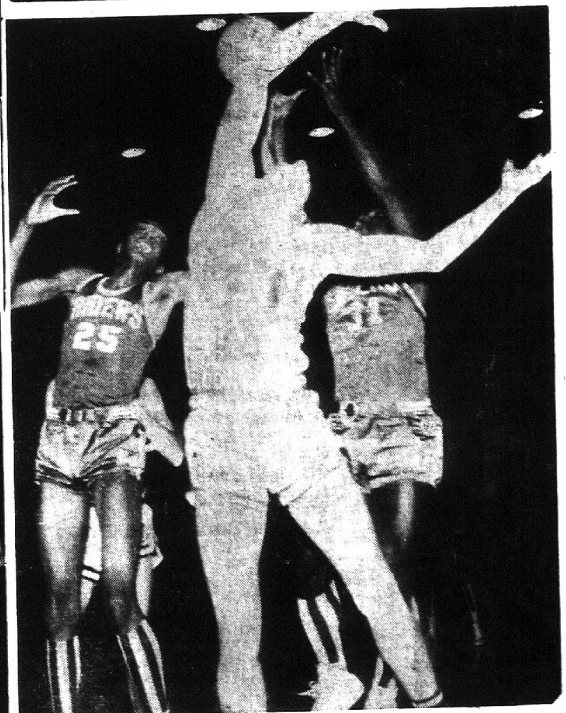

Every watch is a very delicate machine, and your watch will last longer if these rules are followed:

Wind your watch at the same time every day. Letting the watch run down will make it less accurate.

Don't attempt to repair it yourself. Take your watch off when you're washing or cooking, since water or steam can cause severe damage to the parts.

Try to keep your watch out of extreme cold temperatures to avoid damage. Quick changes in temperatures can ruin a good watch.

New watches are well oiled, but you should have a jeweler oil it at least once a year to prevent friction from damaging the moving parts.

Two East Chicago Roosevelt players seemed to have boosted Lyle Long completely out of the play in this picture. Roosevelt's two tall boys are taking the rebound while Lyle heads for the bleachers.

TO CELEBRATE
99th BIRTHDAY

On Sunday the family of Thomas Whetstone will help him celebrate his 99th birthday at the home of Mr. and Mrs. Harry Cole, where he resides.

Mr. Whetstone was born on January 14, 1864 at Wapakoneta, Ohio. He moved with his family to Indiana when only six years of age. He was one of seven children. His sisters were Mrs. Ben Blue, Mrs. Pease Johnson, Emily Morant and his brothers were Marshall, Bert and Abe Whetstone.

He was married to Mary Jeffrey, daughter of George Jeffrey, who died in 1937. He is the father of five children—Vesta Cole, with whom he makes his

home; Zella Hindenlang, of La-Otto, Casel, of Mentone; Phillip, of Warsaw; and Thurl, of Chicago. There are 13 grandchildren, 24 great-grandchildren, and one great, great grandchild.

Tom has lived on the same farm, south of Sevastapol in Franklin Township for 61 years. He is still active, in fairly good health, and his eyesight is good enough that he can read.

The cake for the family celebration will be baked by a granddaughter, Mrs. Harold (Edith) Walters.

We join with the many other friends in our community to congratulate Mr. Tom Whetstone on his special day, and to wish him continued health and well-being.

CLUB CALENDAR

Jolly Janes Home Dem. Club will meet at drug store at 6:15 p.m. Anniversary meeting.

W.S.C.S. meeting is changed from Jan. 17 to Jan. 24 at the home of Evabel Smith.

New School Board Shown Taking Oath

The new Tippecanoe Valley School Board members shown above taking the oath are: Gale Creighton, Secretary; Robert Forbes, School Superintendent; Whitney Gast, Vice President; Edward Bucher, President; Ralph Davis; and Eldon Cumberland, Treasurer. The next meeting will be a special meeting held on January 14, at 7:30 p.m.

TOWN BOARD MAKES
APPOINTMENTS

At the Town Board meeting held last Monday night, the Mentone Town Board made the following appointments:

One year appointments—Supt. of Public Works, Edward Davis; Chief of Police, Gene Norton; Fire Chief, Lyman Mollenhour; Zoning Inspector, Frank Hardesty; Town Attorney, Brooks Pinnick; Cemetery Caretaker, Ben Scarbrough (summer months). Arthur Kendall was appointed to a four year term on the Park Board.

The members elected Dr. O. L. McFadden as President of the Town Board for the coming year. Other members are Harold Utter and Loren Tridle. Merrill Peterson is Clerk-Treasurer.

MARRIAGE LICENSE

A marriage license was issued to Arlo LeRoy Carr, 78, of Claypool, and Sylvia Tucker, 64, of Mentone, recently.

WEEK OF PRAYER
JANUARY 9 - 13Hydroponics Next
Adult Farmer Class

Monday, Jan. 7, the Mentone Adult Farmer class held their first meeting of the year. The topic was the 1963 outlook and was presented by Donald Frantz, County Agent.

This Monday night, the second meeting will be held and the topic will be on Hydroponics or the growing of grass in a tray of water.

The attendance this week was 39 farmers, which is the largest single night meeting for several years. Morris Bitzer, vocational agriculture instructor, extends an invitation to any farmer that is interested in these meetings.

WITH THE SICK

Omer Morrison underwent a hernia operation on Monday at the Murphy Medical Center. Latest report he was getting along satisfactory.

Mrs. Herman Olson is a patient at Murphy Medical Center, where she had major surgery on Tuesday. A report by phone from Rita Rush is she is getting along as well as can be expected.

Robert Hoover suffered a severe heart attack on Wednesday evening, January second, and was taken to the Murphy Medical Center in Warsaw. Mrs. Hoover reported this morning that he is slowly improving and though he is not permitted visitors he does appreciate cards.

Albert Hatfield was dismissed from the Robert Long Hospital in Indianapolis last Friday, but because he was not making the progress expected, had to be taken back Wednesday morning.

COUNTERPOINT

By The Editor's Wife

This year, in addition to the numerous small handy desk calendars, we received an ear muffler of soft sponge for the telephone, to aid in better hearing, and a unique trapezoid shaped (I looked it up) hard plastic measuring cup. Both items work and we are appreciative.

Lisa, Tim, Randy Hardesty and I baked roll-out, cut-out cookies recently. (Randy had brought us some "goodies" and stayed for the fun.)

Grandmother mixed the dough and slipped the cookies into the waiting oven. After the fun was over and the "mess" cleaned up, it dawned on me that children have nearly as much fun cutting out cookies from their clay dough—with one exception—cookie dough tastes much better than clay dough!

"Keeping up with the Joneses isn't half as dangerous as passing Smith on a curve."

(Thanks to Mr. Fowler.)

Uncle Jon, Tim, Lisa, their parents, and a group of young people cleared the snow from a lovely pond north of town, and had a grand skating party last Friday evening. On Sunday afternoon when the Harmans went back to skate, they found complications. Two ice fishermen had taken over the skating pond. Lisa is still sputtering!

Do you disagree about how to spend your money in your home? Mary Feeley, money management consultant, says that the first problem is an understanding of what each wants. She may want a new home, and he may want a retirement fund. Sit down and honestly list your wants, and then work out a budget. Your smaller wants, such as home furnishings, new car, clothes, vacations can be worked out in the same way.

Note on communism: Have you ever heard anyone talk like this?

"People who say communism and socialism are the same are misconstruing the facts. Just because they both have total centralized power and believe the state is more important than the individual; and believe in government control and owner-

OBITUARIES

New Born Son Dies

Paul Mark Gates, eight day old son of Mr. and Mrs. James Gates of Mentone, died of complications Tuesday at the Riley hospital in Indianapolis.

Paul was born in Woodlawn Hospital in Rochester Dec. 31, 1962.

Surviving are his parents; two brothers, Cy and Audi, both at home; maternal grandparents, Mr. and Mrs. M. R. Golden, of Panama City, Florida; paternal grandparents, Mr. and Mrs. C. F. Gates, of Mentone.

Services will be held Thursday at 2 p.m. in the Reed Funeral Home with Rev. Erwin Olson officiating. Burial will be in the Mentone cemetery. Friends may call at the funeral home until the hour of service.

Miss Norris Dies Recently

Last rites and burial were held at 3 p.m. Monday in the Mentone cemetery for Miss Mae Norris, 56, of Fort Wayne, formerly of Mentone, who died Friday at Fort Wayne, where she was a patient for the past year.

Survivors are one brother, Oliver Smith, of Fort Wayne, formerly of Mentone, and two nieces, Mrs. Roger Ooley and Mrs. James Anderson, both of Bourbon.

Thomas A. Darr Buried Saturday

Services were held on Saturday for Thomas A. Darr, 75, of South Bend, at the Welshmer Funeral Home.

He was the brother of Otis Darr of Burket. Also surviving are his wife and two daughters. Burial was at the St. Joseph Memorial Park in South Bend.

L. A. Boganwright Dies Monday

Last rites will be held Saturday at 2 p.m. in the Reed Funeral Home for Leonard Allen Boganwright, 66, of Mentone, who died in Largo, Florida, on Monday.

Mr. Boganwright, who was a retired farmer and had worked for Kralis Brothers Poultry Company, was born in Wyandot County, Ohio, on July 11, 1896, the son of John and Mary (Gill) Boganwright. In November of 1918 he married Treva Harsh. Mr. Boganwright had lived in the Mentone area since childhood.

Surviving are his wife; two sons, Donald, of Three Oaks, Mich., and Richard, of Claypool; two daughters, Mrs. Iris Davis, of Warsaw, and Mrs. James (Lois) Miller, of Mentone; one brother, Harley, of Route 5, Warsaw; and nine grandchildren.

Burial will be in the Mentone cemetery. Friends may call at the funeral home after 7 p.m. Thursday.

MEMORIAM

In loving and cherished memory of our beloved husband and father, J. Arthur Witham, who left us four years ago, Jan 3rd.

My darling, all the dreams I ever had, have vanished in the mists, and I no longer hear your voice, or feel your tender kiss. No other misery can match this feeling of despair, when all around is sadness, and there is no joy anywhere. But just beyond the shadows that hide earth's darkest night, I know you are with the Saviour, where the Lamb is all the light, where cares and toils are ended, and heartaches all are o'er. Some day soon I shall meet you, dear, up there on the golden shore.

MRS. J. ARTHUR WITHAM

"Christmas With Cuban Refugees"

Glen Davis, recent graduate of Indiana University and now student-teacher at Warsaw High School, traveled with thirty-three other college students to Miami, Florida, during the Christmas holidays. Unlike many others who seek the pleasure of Florida's beaches at this season, Glen and his group invested their hours among the many Cubans who have sought refuge from the Castro regime. Their purpose was to share "our most precious possession" with the refugee community—the Bible and its message.

The group was sponsored by Inter Varsity Christian Fellowship, an interdenominational association of Christian college students. Bob Cook, instructor in Spanish at Indiana University, gave birth to the idea. Having received his Masters degree in Spain, Bob has spent much of his time working among the Spanish people. It was with great interest and sympathy, therefore, that he followed the development of the Cuban refugee problem. Feeling that "man's most basic and urgent need is for a right relationship with God", Bob began to stimulate interest in a holiday visit among these homeless people, in order to distribute a letter of welcome, and an opportunity to enroll in a non-denominational course of Bible study without cost.

The interest spread from I.U. to Taylor University, then to Columbia Bible College in South Carolina. A letter written in Spanish was prepared, stating their objective: "... we do not represent any particular religious group whose goal is to win a quota of converts. We are merely an independent group of students who have discovered a truth so valuable to us that we earnestly desire to have the opportunity of sharing this truth with you."

Besides distributing this letter to the some 100,000 refugees, the group organized several worship services, including

the presentation of the Moody Bible film "Dust or Destiny" in Spanish. They were on hand at "Dinner Key" when the attack force refugees returned, talking personally with many of them. They also were there to meet the relatives of these returned prisoners, as they stepped on American soil with only the clothes on their backs. "I've never seen happier people," Glen exclaimed, "or more joyful reunions. It was a blessed thing to see."

Many surprises met Glen during his visit. Instead of the dirty and diseased refugee camps of post war days, Glen found a small city of industrious, clean, and intelligent people. Here are Cuba's most solid citizens, who for generations have been the backbone of the island's education, economic prosperity, and cultural heritage. Some 180,000 refugees have come to Miami, and are being relocated at the astonishing rate

of 20,000 a month. Many of them are professional people who have lost fortunes when Castro took over.

The value of such a project is difficult to ascertain. Perhaps the response of several refugees to the group is a more effective yardstick. Often a handshake would be ignored by the joyful Cubans to be replaced by a jubilant embrace and words of deep gratitude. The group of thirty-three students sought to give their most precious possession, and in turn received a gift of deeper, clearer understanding. As Glen concluded: "They are beautiful people."

Mr. and Mrs. Frank Hardesty and sons had Sunday dinner with her mother, Mrs. Ruth Wynn at Culver.

Ralph Tucker and Albert Tucker called on their parents, Mr. and Mrs. Ora Tucker last week.

Mr. and Mrs. Stanley Sowerwine and family of Eau Claire, Wis., were supper guests on Wednesday of Mr. and Mrs. James Goshert and family.

Dan Davis is spending a few days with his brother and family, Mr. and Mrs. Roscoe Davis at McConnell, Ill.

Otis Friesner of Toledo, Ohio spent the week end with Mr. and Mrs. Arlo Friesner.

Mrs. Howard Holbrook of Warsaw visited Sunday afternoon with her mother, Mrs. Chloe Griffiths.

Rev. and Mrs. Morgan called Friday afternoon at the home of Mr. and Mrs. W. E. Fowler.

Mr. and Mrs. Robert Jones visited Mr. and Mrs. Henry Jones at Millwood Friday evening.

Dan Smith of Chicago visited with Mr. and Mrs. M. O. Smith over the week end.

Mr. and Mrs. Charles Mason of Bloomington visited with Mrs. Ralph Mason of Etna Green and Mr. and Mrs. Max Dunlap of Palestine on Tuesday and Wednesday of last week, after returning from a week's visit with her parents, Mr. and Mrs. John Loneragan and family at White Bear, Minn.

Mr. and Mrs. Harold Linn and daughters of Bourbon and Mr. and Mrs. John Miller and son were Sunday evening supper guests of Mr. and Mrs. Byron Linn.

Mr. and Mrs. Glen Watkins of Bourbon and Mrs. Sherry Thompson and daughter were Thursday dinner guests of Mr. and Mrs. Robert Jones.

Sunday afternoon Mrs. Gilbert Griffiths, Mrs. Larry Boggs and daughter, Mrs. Dorothea Boggs, Mrs. Bill Griffiths, and Mrs. Kenneth Boggs and daughter called on Mrs. Jennie Sponseller of near Bourbon.

Mrs. Daniel Jefferies and Bob Enyeart called at the home of Mrs. Snowden Halterman last week.

Mr. and Mrs. Ed Davis and family visited with Rev. and Mrs. Paul Tinkle and daughters at Warsaw Sunday afternoon.

Mr. and Mrs. Glenn Mellott recently spent a week in Jacksonville, Florida visiting with

her parents, Mr. and Mrs. W. A. Hawley. Linda and Mary Mellott flew down to join the group.

Mrs. Neva Bruner of near Claypool spent Wednesday afternoon with her mother, Mrs. Nellie Julian.

A recent note from the Don Bunnors in Leesburg, Florida is that Don is recovering satisfactorily from a virus infection, which hospitalized him for a short time. He is home now and gaining.

Mr. and Mrs. Floyd Blackwell visited Sunday afternoon with Mr. and Mrs. Max Dunlap.

Mrs. Myrtle Davis had Sunday dinner with her son and family, Mr. and Mrs. Earl Davis of near Tippecanoe.

Mr. and Mrs. Larry Boggs gave a birthday dinner Sunday for their daughter, Jo Ellen, on her 5th birthday with the family attending. Mr. and Mrs. Earl Boggs, Mr. and Mrs. Gilbert Griffiths, Mr. and Mrs. Kenneth Boggs and family and Mr. and Mrs. Bill Griffiths and son. Mr. and Mrs. Bob Griffiths called in the evening.

Mrs. Ned Miller and Mrs. Hazel Linn were in South Bend on Wednesday.

Mrs. Vesta Cole called on Mrs. Edith Rose last week.

Mr. and Mrs. Bob Barnhart of New Haven spent Thursday with her parents, Mr. and Mrs. E. E. Wagner.

Thursday evening Mr. and Mrs. Gilbert Griffiths and Mr. and Mrs. Earl Boggs were supper guests of Mr. and Mrs. Larry Boggs and Jo Ellen.

Reed Riner has returned to Boulder, Colorado, where he attends school, after spending the holidays with his parents, Mr. and Mrs. Kenneth Riner.

The sun is broadcasting to the earth and scientists at Pennsylvania State University are trying to get the message. The university's department of radio astronomy—the study of the sun and other "radio stars" through radio waves emanating from them—gathers information by means of a radio telescope whose 30-foot dish shaped antenna sweeps the heavens. Space scientists believe that a thorough understanding of the characteristics of radio waves accompanying sunspots and solar flares will enable them to predict the occurrence and intensity of sudden ionospheric disturbances which can thoroughly disrupt man's channels of long distance communications.

Two huge manifold welding fittings, made by Tube Turns for a Southern California natural gas company, are believed to be the longest pipeline components of their kind. Each unit is 43 feet long, has a 30-inch diameter and weighs five tons.

They're used as inlet and outlet "headers."

Cotton batting can be made into padding that holds its shape and remains resilient through long use, reports the U. S. Department of Agriculture. Treated with chemicals similar to those that impart wash and wear qualities, the batting can be used to pad furniture, mattresses and seats in autos and planes at far less expense than materials such as synthetic fibers and foam rubber.

A huge motor-generator has been installed at the Argonne National Laboratory, 25 miles southwest of Chicago, as part of one of the world's largest atom smashers. Moving parts alone weigh 276 tons. The entire unit, weighing 540 tons, consists of a 15,500 h.p. motor, a 93-ton flywheel and two 9,600 volt synchronous machines, capable of performing either as motors or generators. The system develops 117 million watts.

Hibernation drugs to enable spacemen to achieve a state similar to that attained naturally by bears and other animals in winter are under development. Hibernating men on an 8½ month trip to Mars would require little oxygen and almost no food. Normal food require-

ments for such a trip would be 1,000 pounds a man.

Yawning signifies diminished oxygen in the brain.

There's a sale on heavy water, reports the Atomic Energy Commission, which has reduced the price from \$28 to \$24.50 a pound. Heavy water, containing more deuterium (heavy hydrogen isotope) than ordinary water, is used in nuclear reactors. The AEC makes it at the Savannah River Plant in Aiken, S.C.

Residence At Twin Pines

Girls wishing to live in the Twin Pines Cooperative House while they are majoring in home economics at Purdue University should make applications now for openings in September, 1963.

Application forms are available from the county extension office, home demonstration agents and home demonstration club presidents.

During January, Indiana's 92 county home demonstration councils each will recommend a maximum of three applicants for Twin Pines and submit the names of any other applicants

as interested in cooperative housing.

Approval of the county home demonstration council and signature of the county home demonstration president are required. Completed forms must be filed at Purdue University by Feb. 1, 1963.

Twin Pines Cooperative House is sponsored by the Indiana Home Demonstration Association and was built to encourage girls to attend college and major in home economics.

Acceptance for residence in Twin Pines is considered the

equivalent of a scholarship, since the residents reduce their living expenses considerably by sharing the costs and work of the house.

Store bread in your freezer or in the freezing compartment of your refrigerator. Freezing will not freshen stale bread; the defrosted bread will have the same freshness as when it was stored, note Purdue University food specialists.

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

Indiana Farm Record Books are available at the County Extension office. We have both the yellow and grey backed books that are very widely used. The 1963 Income Tax Guide has also come in. These were delayed for quite a while in printing but they are here now and will be available at the extension office or any of the county banks.

Farm Science Days at Purdue will be held the week of Jan. 14 to 19th. The program will include many meetings of the agricultural associations of the state. Most of the livestock breed associations will meet during the week as well as the Indiana Farm Management Association. Copies of the program are available at the extension office.

Work on preparing for the Soil Conservation referendum in the ten townships not now included in the district is in progress. The eligible voters list is pretty well prepared. This takes a lot of time but it is nearly completed now.

Those who have title to more than ten (10) acres of land are eligible voters and the big job in the referendum will be to contact everyone to see that they have a chance to vote. This is where help is needed. We would surely appreciate some volunteers.

The Outstanding Young Farmer Recognition banquet will be held Thursday evening, Jan. 10, at Horn's Restaurant. Jim Manwaring is chairman of the Junior Chamber of Commerce Young Farmer program.

Directors of the County Seed Improvement Association will meet Jan. 22 for their annual meeting. Ray Ferwerda is chairman. They found that the demand for cleaning seed oats is way down. The acreage of oats has been reduced by about 10,000 acres in the past five years. However, the acreage of soybeans has increased by almost the same amount. Efforts

and a high level of managerial skill. When these conditions are met, the systems are succeeding and will continue to do so. In fact, the trend toward more confinement feeding by large operators will continue.

The other side of the coin looks like this:

"The farmer with less capital and an inclination to expand his business horizontally rather than vertically, the farmer who wishes to take advantage of the complimentary relationships between crop production and livestock production, the farmer who avoids heavy indebtedness and keeps some slack in his financial line and the farmer who operates in a more conservative way will be able to compete quite successfully for quite a long time."

Research shows that feed costs are about 85 cents higher per 100 pounds of pork produced on pasture. A complete, mixed ration increases feed costs 50 cents to \$1 per hundred pounds of gain over free choice feeding. Thus, a free choice feeding system on pastures gives a feed cost advantage of about \$1.50 per 100 pounds of gain.

Looking at costs other than feed, the growing acceptance of confinement systems results from:

Higher potential income from land raising corn instead of pasture; expected lower labor requirements in raising hogs; opportunity to systematize hog production, employ hired labor in the hog enterprise and increase volume of production; and reduction of costs in portable fencing and equipment.

NEWCASTLE

TOWNSHIP NEWS

Bert Leedy and Dean Mow were business visitors in South Bend Thursday.

Clair Overmyer has returned to his studies at Purdue.

William C. Davidson isn't so well at this time.

Lyman Dawson was a recent business visitor in Indianapolis.

Mr. and Mrs. Lester White, who have been on the sick list, are able to be out and around.

Mr. and Mrs. Oliver Wagoner spent Friday afternoon in Rochester on business.

Mrs. Don Pfeiffer was a visitor

Mr. and Mrs. Kenneth West of Mesa, Arizona were called here by the death of her father, the late Alfred Hooper.

Mr. and Mrs. Dale Wright of Goshen were Monday guests in the home of Mr. and Mrs. Fred R. Miller.

Mrs. Della Shock of Argos was the guest of friends here Sunday. She is a former resident of this community before moving to Argos.

Mr. and Mrs. Rolland Calvert and son were New Year's day guests of her parents, Mr. and Mrs. Herman Alber of near Macy.

Dick Davidson and Clair Overmyer spent Saturday evening in Argos.

Pesticide Conference

An agricultural pesticide conference, stressing the necessity of these chemicals in a modern society, will open the 1963 Farm Science Days program at Purdue University Jan. 14. This two day conference will hear reports on subjects ranging from herbicides for turf to rodent and bird control.

Representatives of the agricultural pesticide industry will open the program and then Eric Sharvell, Purdue plant pathologist, will discuss the plant disease situation. John V. Osum, head of Purdue's entomology department, will conclude the morning session, relating "The Truth About Insecticides".

A panel of entomologists from Purdue and the University of Illinois will open the afternoon session, discussing soil insect control. Panelists are H. B. Petty, University of Illinois, and Purdue entomologists Glen Lehker, George Gould and Dave Matthew.

John Favinger, Indiana state entomologist, will then talk about the Japanese beetle and cereal leaf beetle quarantines in the state. Bill Gusey, U. S. Fish and Wildlife Service at Purdue, will discuss rodent and bird control and Lehker and Matthew will wind up the program with a summary and recommendations.

Oliver C. Lee, Purdue weed specialist, will open the Tuesday, Jan. 15, session, with a discussion of weed problems. W. H. Daniel, Purdue turf specialist, will tell about herbicides for turf. Completing the morn-

ports of new developments in herbicides", by J. L. Williams, Jr., Purdue botanist, and representatives of the chemical industry.

A summary and recommendations on use of herbicides for 1963 will be presented by Warren, Williams, Schreiber and Lee to conclude the conference.

Corn Stalks Protect Soil

Shredding corn stalks after harvest can reduce runoff and check soil erosion losses from sloping fields, points out Harry Galloway, Purdue University extension agronomist.

Shredded corn stalks on slopes of two to four per cent may cut runoff only slightly when heavy rains continue. However, soil loss can be reduced to less than half because the water picks up less soil as it moves across the fields.

A flail type chopper which cuts and spreads stalks evenly does a better job than a disc which cuts them into the soil, exposing more loose dirt.

Grazing stalk fields lessens the soil cover and compacts the surface. Stalks, as left by the picker, give fair soil protection, but a month's grazing may greatly reduce their value as ground cover.

While winter protection is important on sloping crop lands all over Indiana, it is especially needed in the southern part of the state where at least a third of the erosion producing rains fall in the off crop season.

Fertilizing Shrubs

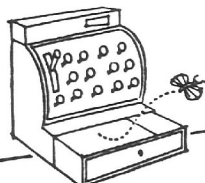

Since shrub roots continue to grow in winter, they should be fertilized now. Fertilizer will stimulate this root growth and an abundance of rich green foliage next spring will result.

Purdue University extension horticulturists recommend fertilizing shrubs before the ground freezes, but after the tops are dormant so top growth won't be stimulated. If top growth is stimulated, it is likely to be winter killed.

Many different kinds of fertilizers can be used. A 10-6-4 or 10-6-8 analysis will do a good job. One pound should be applied per 100 square feet of shrub bed. Spread the fertilizer on the soil surface and hoe gently so you don't disturb the root system. Then water.

Both evergreen and deciduous shrubs benefit from late fall fertilization. Be especially careful not to fertilize broad-leaved evergreens, such as the American Holly, Japanese Holly, Mahonia, and boxwood, too early. They are tender and more likely to winter-kill if the top growth is stimulated, than other shrubs.

Newcastle Outbreak

An unusual increase in the number of cases of Newcastle disease in poultry flocks in north central Indiana has occurred since mid-October, according to Purdue University's poultry diagnostic laboratory and local veterinarians.

Comparative freedom from such losses during the last several years has lulled some poultrymen into easing off their preventive vaccination program. This, coupled with an unusually strong challenge by the caus-

tive agent—due partly to faulty methods of dead bird disposal—led to the flare up of outbreaks.

Most of the trouble, according to Joe W. Sicer, Purdue University poultryman, occurs in flocks of roasters held 4 to 6 weeks or more after their last Newcastle vaccination. Immunity developed from vaccination falls off gradually in strength as time passes. No cases of Newcastle disease have been reported in flocks where the vaccination is not over 4 to 6 weeks old.

So long as the present emergency exists, flock owners in the affected area are urged to vaccinate their chickens against Newcastle at day old, 3 weeks and every 4 weeks thereafter.

This applies to roasters, broilers and growing pullets. Laying flocks previously vaccinated against the disease can be revaccinated at 4 week intervals with little or no danger of hurting egg production.

A vaccine appropriate for the age of bird and method of administration must be used, and directions of the manufacturer must be strictly followed. Vaccination through the drinking water has been satisfactory and saves labor.

Feed must be made easily available to the birds during any period of stress. This is sometimes the key to holding egg production and growth losses to the minimum.

Sicer urges poultrymen to be extra careful to burn or bury deeply birds that die from any cause and to contact their local veterinarian if they suspect Newcastle disease in their flocks.

WINTER WOES by Pinson

A citizen, Worthington Barr,
Went to work without chains on his car,
He slid on the snow,
Which cost him some dough,
Much more than the chains would, by far!

PREVENT THOSE WINTER DRIVING WOES

The National Safety Council says: "Always carry a pair of reinforced tire chains. In deep snow and on ice they help you go and stop more safely." Winter tires aid in mild-to-medium snow, but do not replace need for tire chains in severe snow or ice conditions. Don't be a traffic blocker.

How To Make Good Gravy

Many people think a meal is not complete without a bowl of rich gravy. And good gravy is not difficult to make, points out Marcile Allen, food specialist at Purdue University.

The basic recipe is the same for all types of meat. You can vary it according to your taste—milk gravy, water gravy and broth gravy.

Here is the basic pan gravy recipe:

- 2 tablespoons flour
- 2 tablespoons fat from pan in which meat was cooked.
- ½ teaspoon salt
- 1 cup liquid

Milk is preferred liquid for most gravies; however, you may use water or meat broth. Blend the flour and hot fat and stir while cooking until mixture becomes rich brown. Add liquid and salt. Continue stirring and cooking until mixture boils in about five minutes. This makes four servings of ¼ cup each.

A turkey giblet gravy can be made from the same basic pan gravy by using the drip-

THESE WOMEN!

By d'Alessio

"How many times must I tell you to keep that door shut when I'm opening cans!"

pings and giblet stock for liquid. Prepare the giblets by cooking them slowly in a small amount of water until they are tender. Chop or dice the giblets and add them to the gravy.

use one tablespoon each of flour and fat per cup of liquid.

You can vary the consistency of gravy by changing the proportion of flour to liquid. For a medium gravy use two tablespoons each of flour and fat per cup of liquid. For thin gravy,

Local News

Vicky and Steve Wilson visited several days with their grandparents, Mr. and Mrs. Mott Bryan, while their parents, the Elson Wilsons, of near Warsaw, attended the Rose Bowl festivities. Mr. Wilson was with the Ft. Wayne Shrine Patrol, which rode in the Rose parade. Mr. and Mrs. Wilson also attended the East-West Shrine game and visited Disneyland.

Mr. and Mrs. Tom Harman and family had a chili supper Friday evening for the following folks: Mr. and Mrs. Charles Blankenship of Atwood, Mr. and Mrs. Kenny Wagner and son of Crystal Lake Road, Mr. and Mrs. Ken Pickett and family of Lincoln Park, Michigan, Jon Cullum and Mr. and Mrs. Artley Cullum. The group first spent the evening ice skating.

Mrs. C. O. Eiler moved into the Al McKeighan apartment at the south edge of Mentone Friday. She can be reached at the following number: ELmwood 3-2885.

A note received from Bill Efferman recently expressed his appreciation for the many cards he received this past Christmas.

Mrs. Paul Arbaugh of Warsaw, wife of the technician at the Urschel Clinic, is now employed by the clinic as a secretary.

Mr. and Mrs. Kenneth Pickett and children of Lincoln Park, Michigan, spent last Friday with Mr. and Mrs. Artley Cullum and family. They were enroute from Louisiana, where they had spent the holidays with Mrs. Pickett's family.

The members of the Handcraft Club, of the Tippecanoe-Webster Lakes area, were guests at the Artley Cullum home on Monday.

Miss Janet Reed and Mrs. Dorothy Shaver returned to Cleveland one day last week after spending several days with Mr. and Mrs. Robert Reed.

Auxiliary Meets

Members of local unit 425 of the Legion Auxiliary were guests of the D.A.R. for a special program on Tuesday evening.

Following the meeting, Opal Nellans conducted an informal business meeting at the home of Bernice Jones. Plans were made for several members to attend the district meeting at Warsaw on January 9th.

Thank you notes were read for Christmas gifts received from local service men overseas, veterans' children home at Knightstown and local shut-ins.

CARD OF THANKS

I wish to express my sincere thanks for all the flowers, cards, prayers and visits while in the hospital. It was very much appreciated.

MR. CLYDE BRUGH

ANNOUNCE ENGAGEMENT

Mr. and Mrs. J. H. Carlile, Rural Route 5, Rochester, announce the engagement of their daughter, Phyllis Anne, to Bill Hall, son of Mrs. Willie Hall, Dayton, Ohio.

Miss Carlile graduated from Talma High School and International College, and is a secretary with Marathon Oil Company in Findlay, Ohio. Mr. Hall graduated from Stivers High School and Miami Jacobs College in Dayton, and is an accountant with Marathon Oil Company in Findlay.

The wedding date is Feb. 23 in South Bend.

Mentone Reading Club

Mrs. Paul Rush was hostess to the Mentone Reading Club for the January meeting. Mrs. Wayne Tombaugh was her assistant.

Mrs. Richard Manwaring and Mrs. Loren Tridle were in charge of the program, which had for its topic, "The Enemy Within".

Mrs. Manwaring introduced Mrs. Fred Schlemmer of Bremen, who gave a most comprehensive and authenticated talk on communist infiltration and activities in the United States Government.

Mrs. Schlemmer is State Chairman of National Defense of the D.A.R., and has made the study of communism her business. In her talks before groups, large or small, she urges each one to be actively interested in, and awake to the dangers of communism in this country.

The February meeting will be at the home of Mrs. C. O. Mollenhour.

To prevent drying out and winter injury to young trees, wrap their trunks with commercial tree wrap to a height of three or four feet above the ground, recommend Purdue University extension horticulturists. Start wrapping at the base and work up.

Women's Appearance

Few women are satisfied with their appearance. Each one tries to look attractive, but often the results are not satisfying.

Seeing yourself as you really are, recognizing your good and bad points, should help you to dress more attractively. If you study both your figure and personality type, you can use line, fabric and color to dress yourself attractively and becomingly.

To help you determine your figure and personality type, extension clothing specialists at Purdue University have authored a bulletin, "Your Figure Type". This bulletin describes various physical and personality characteristics that may help you find your own type and the clothes most becoming to you.

Single copies of "Your Figure Type", HE-424, are free to Indiana residents. They are available from county extension offices and the Agricultural Publication Office, AES Building, Purdue University, Lafayette, Ind. Be sure to give both the name and number of the publication in your request. A post card is sufficient.

Don't walk on your lawn any more than necessary during freezing and thawing weather, caution Purdue University turf specialists. Traffic damages the turf as well as compacts soil.

Family Finances

During the winter months, many "do-it-yourself" families will be redecorating rooms. Here are a few tips for making the painting job easier, and getting the most for your money.

Before you paint walls, try putting on a base coat of shellac. This prevents streaks or light spots where the wall might absorb more paint. In the kitchen, be sure to wash the walls and allow them to dry before painting. Paint won't stick to greasy or wet walls.

Before you paint doors or windows, smear a little vaseline on the locks and doorknobs. Paint will then wipe right off and won't mar the hardware.

Paint splatters on the floor can be taken off with nail-polish remover. Let it soak for a few minutes, then rub it off with a cloth and wash the floor with warm suds. Even if the paint has hardened, this treatment will usually remove it without damaging the floor.

Rev. John Parks At Preaching Mission

The Methodist Church in Mentone will hold their Evangelistic Preaching Mission Jan. 13-18 at 7:15 p.m. each evening.

Rev. John Parks from the Logansport Main St. Methodist Church will give the Mission services. He is a native of Hartford City, Ind. Rev. Parks graduated from Purdue in 1950 and graduated from Butler School of Religion in 1959. He holds AB and BD degrees. He entered active ministry in 1954 and has served pastorates in Charlottesville, Atlanta and in Logansport.

There will be a fellowship after the Sunday evening service. Agnes Tibbets will be in charge of the nursery each evening.

Warm up your heart at the prayer vigil, which will be held at 6:45 until time of services each night.

Everyone is invited to this Evangelistic Preaching Mission.

Rev. Glenn Campton will serve as guest minister for the Mission services at Logansport during the week of Jan. 20-25.

Let advertising tell your story to your neighbors and friends.

COUNTERPOINT, Continued

ship of property, banks, agriculture, religion (if any), schools, housing, newspapers, T.V., radio, labor, medicine, and all sources of production; outside of that what is the similarity?"

MORAL: Outside of that, what's left?

We enjoyed this:

They tell the story of the rich but illiterate immigrant who spent much money to educate his son in this country. The son went bankrupt with regularity, and finally pleaded with his uneducated father for the key to success.

"It's like this," the father said. "You young people want to make exorbitant profits. Me—I'm satisfied with a small mark-up. I buy something for \$1; I sell it for \$2. I take my 2 per cent and run."

Don't forget, it now costs 5 cents to send a letter, and a postal card costs four cents instead of three cents.

If you fail to put the correct stamp on your letter, it will come back to you or the person receiving it may have to pay the extra amount.

NO CHARGE
FOR BLOOD

Mrs. Joe Boggs is again in charge of getting appointments for the blood bank which will be in Mentone on Monday, Feb. 4th.

The unit will be at the Methodist Church from 12 to 6. You may make an appointment by calling Mrs. Boggs at EL 3-3929 or the Mentone News office EL-3-3885.

Last year Mentone residents gave a whopping big total of 148 pints. This year they have set their goal at 200 pints.

YOUR RED CROSS
BLOOD
CENTER

NEEDS DONORS

Occasionally someone will make a statement that they have been charged for blood received through the Red Cross blood program. Such statements generally are made because the patient does not understand the various charges on the hospital bill. So far as we have been able to determine, no patient has been billed for blood supplied through the American Red Cross blood program.

BURKET MOTHER
FATALLY INJURED

Mrs. Carl (Doris May) Thomas, 35, of Burket, was pronounced dead on arrival at the Murphy Medical Center in Warsaw Monday afternoon, after her car crashed with a violent impact into the engine of a fast moving Nickel Plate train.

The tragedy occurred at what is known as the Davis crossing in Burket. Mrs. Thomas had delivered her son and a friend to the fire station for a Scout meeting and was returning to her home for a game when the crash occurred.

Surviving are her husband, Carl; a daughter, Ginger, 16; a son, Roger, 6; her parents, Mr. and Mrs. Don Foltz of Nappanee.

Services were held on Thursday at the Burket Methodist Church.

Marti Nelson Named
Homemaker

Marti Nelson is Homemaker of Tomorrow for Mentone High School in the 1963 Betty Crocker search for the American Homemaker of Tomorrow. Having achieved the highest score in a knowledge and attitude test given senior girls on Dec. 4, she now is eligible, along with winners in other high schools, for the title of state Homemaker of Tomorrow.

The state Homemaker of Tomorrow is awarded a \$1500 scholarship by General Mills, sponsor of the program. The runner-up receives a \$500 scholarship. The school of each state Homemaker of Tomorrow is awarded a complete set of Encyclopedia Britannica.

The Homemaker, accompanied by her school advisor, also will join with other state winners in an expense paid educational tour of New York City, Washington, D. C., and Colonial Williamsburg, Va., next spring. During the tour the 1963 All-American Homemaker of Tomorrow will have her scholarship raised to \$5,000, with second, third and fourth place winners being awarded scholarships of \$4000, \$3,000 and \$2,000, respectively.

Basis for selection of local and state winners is a test prepared and scored by Science Research Associates, Chicago. Personal observation and interviews are added factors in determining national winners.

The 1963 Betty Crocker search reached another all-time high in enrollment, with 410,466 girls in 12,964 schools participating. In the program's nine years, nearly three million girls have been enrolled.

WITH THE SICK

Mrs. Dell Leavell was taken to the Woodlawn Hospital in Rochester Friday for treatment.

Albert Hatfield is reportedly holding his own at the Robert Long Hospital in Indianapolis. Up to now he has received 20 pints of blood and is still being fed intravenously. His room number is 6B.

CLUB CALENDAR

W. S. C. S. will meet Jan. 24 at the home of Evabell Smith.

O. E. S. will meet Monday, Jan. 21 at 8 p.m. Past Matrons and Past Patrons night.

COUNTERPOINT

By The Editor's Wife

Budget trouble?

One housewife in a neighboring city wrote the following letter to a money consultant:

Dear Miss _____,

According to my husband, I'm spending too much for food. Our weekly groceries run about \$40, yet we have very simple meals. My husband's take-home pay is \$500 a month, our rent \$100 a month. We have three children, ages from 7 to 11. Can you suggest any ways of feeding the five of us for less money and still have nutritious meals?

Mrs. Emma A.

Here is the consultant's answer:

Dear Mrs. A.,

I will now crawl out on a limb: you're probably spending a lot of money on soft drinks, paper napkins, paper towels, snacks and tid bits, various kinds of jams and jellies, tomato catsup, pickles and drinking straws.

And how did I guess? Well, unless you're different from a lot of mothers of young children, you come out of the supermarket pushing a cart that weighs more than you do—loaded with practically nothing for dinner. Don't misunderstand me—the knickknacks are good to eat and fun to buy. And paper napkins and toweling are mainstays of the American home. But take time out for the next few days, and actually check up on some of these items. A damp sudsy sponge, you know, will often serve as a moppper-upper in place of yards of toweling and a handful of napkins.

Does each child demand a different kind of jam, cereal, or soft drink? I suggest that you're catering to too many different appetites. It's not easy, but try to put the family on a regiment of eating what's put before you. As a wife and mother, you know from experience that a person can learn to eat and like what is on the table. If given a choice of a favorite dish, most mothers couldn't even think of one!

(Concluded Next Week)

It's tax paying time again, but, really and truly, we're glad we live in a country where we are free to earn a living on (Continued on page 20)

GERALD SMALLEY,
YOUNG FARMER

Gerald Smalley of Beaver Dam was named Kosciusko County's "Outstanding Young Farmer of 1962" at the fifth annual awards banquet.

Smalley will be entered in the state competition program to be held in Indianapolis on Jan. 26 during the Indiana Jaycees' mid-year conference. Junior Chamber of Commerce organizations throughout Indiana are in the process of choosing young farmers from various counties who will compete with Smalley for the honor of being Indiana's Outstanding Young Farmer of 1962.

Smalley and his wife, Sherry, reside with their three children near Beaver Dam Lake on a 40 acre farm. In addition to his 40 acres, he also helps operate an additional 280 acres. Although stricken with polio in 1953, Gerald has not let his disability of the right shoulder, arm and hand interfere in the successful operation of his farm.

Gerald, in addition to experimenting with new methods of farming techniques, still finds time to participate in numerous church and community affairs. He is active in the Beaver Dam E.U.B. Church, serving as Sunday School teacher, choir member, youth director and Sunday School superintendent. He also has served four years on the Kosciusko County executive extension committee, Kosciusko County adult leaders organization for six years; Kosciusko County sheep association for two years; and with the County Soil and Conservation district and Farm Bureau for one year. Smalley has served in various offices and positions in all groups.

He maintains an active interest in the youth of his community by serving as a 4-H leader, a coach to all livestock, poultry, and dairy judging teams and in 1961 took the livestock judging team to the national contest (4-H) at Richmond, Va. He still finds time to work in public policy conferences with the County Extension Service.

Smalley's nomination was sponsored by the Farmers State Bank of Mentone.

Mr. and Mrs. Jim Tibbets have purchased the C. O. Eiler property and will be moving into it in the near future.

Bulldogs Victorious

It's never too cold for basketball, which was evident on Saturday night at the Victory Celebration at the Mentone School. The big bon fire was kept ablaze in the zero temperature to celebrate the Bulldogs third victory of the Kosciusko County basketball tourney in four years, a record for the Mentone High School.

The Bulldogs gained the trophy by defeating Silver Lake 89 to 66 in the first game of the tourney at Warsaw on Wednesday evening. The second round was with Claypool on Friday evening with a score of 78 to 67.

The semi final on Saturday afternoon with the Bulldogs opposing the Pierceton Cubs, was one of the most anticipated games of the tourney with a very determined Mentone team showing their true basketball ability with a 16 point margin over the Cubs, 76 to 60.

Mentone started fast with a 6 point lead and was never behind.

The championship game on Saturday night brought the small, but mighty Etna Green Cubs and the determined Bulldogs together for a real thriller. At half time the Cubs were four points ahead, thus touching the right spark of determination in to each of the Bulldog players. With a full court press all the way, and splendid team work of all ten of the Mentone players, victory was once again theirs. The final score, Mentone 61 and Etna Green 54.

Etna Green is to be complimented on their great and determined team and for the sportsmanship shown.

Mrs. Merl Newby
Dies In Florida

Services will be held Saturday for Mrs. Merl (Bessie) Newby, 72, of Fort Wayne, who died in Leesburg, Florida on Monday morning. Mrs. Newby is a sister-in-law of Mrs. Don Bruner of Mentone.

Willard Guy
Dies Monday

Willard Guy, 83, of Route 2, Warsaw, died on Monday at his home after an illness of two years.

Surviving are his wife; one daughter; one sister; one brother, Marion Guy, of Palestine.

Services were held Thursday at the Titus Funeral Home.

COUNTERPOINT. Continued

which to pay taxes. The follow-
ing facts are worthy of consid-
eration, also.

At the beginning of the cen-
tury, pay averaged 10 cents an
hour. Today that is not an un-
common annual increase.

At the beginning of the cen-
tury, the work week was 72
hours. Today 40 hours are not
uncommon, and one union en-
joys a five hour day.

At the beginning of the cen-
tury, there were no paid vaca-
tions, no overtime, and the only
fringes were on surreys.

At the beginning of the cen-
tury, only one family in five
owned its own home. Today
three families in five do.

Only 30 years ago, it took 18
hours of work to buy an electric
iron. Today we buy a better
iron for five hours' work.

Overheard recently:

Lisa was talking to a young
visitor at church. She asked him
if he went to kindergarden. His
astonished reply was, "Are you
kiddin'? I ain't never been in
any kind of a garden!"

To have a happy marriage,
look for a partner with a natu-
rally good disposition. A well
known counselor says there is
no substitute for this. He lists
six traits which go hand in
hand with an unhappy marriage.

1. An unhappy disposition.
2. Such neurotic expressions
as grouchiness, touchiness, or
self-pity.
3. Overbearing determination
to have one's own way.

WANTED

4. Over-critical and inconsid-
erate attitudes.

5. Lack of self-confidence on
the part of the husband. (This
is commoner among wives and
apparently not so disastrous, if
the husband is able to supply
the lack of self-confidence on
his own account.)

6. Too much self-sufficiency,
that is, the tendency to handle
affairs and deal with either
successes or failures alone, with-
out sharing them with others.

Note on communism:

Has the United Nations done
anything effective to halt the
spread of communism? Of course
not. When the U.N. came into
existence, two hundred million
people were under communist
domination. Today the number
has increased to nearly a bil-
lion. And during the time that
the U.N. has had its headquar-
ters on American soil, commun-
ism has advanced to within
ninety miles of our mainland,
with Fidel Castro hurling threats
from Cuba.

—Lifetime, Sept. 14, 1962

We enjoyed this:

A wise teacher sent this note
home at the start of the term:
"If you promise not to believe
everything your child says hap-
pens at school, I'll promise not
to believe everything he says
happens at home."

Letters To The Editor

Dear Tom:

I think we should be particu-
larly proud of our basketball
team this year in view of the
fact that they came through the
County Tournament in the face
of the worst break on the draw
that could possibly have occurred.
On Friday night, Saturday after-
noon, and Saturday night they
faced successfully the three
teams with the best winning
records in the county, except
for their own. Even Silver Lake,
their first opponent, does not
have a bad record.

I was personally very glad
to see them get that kind of a
draw, because I felt that the
harder they had to work the
better it would be for them. As

you remember, in the Sectional
last year, we had a draw which
was as lucky as Etna Green re-
ceived in the County Tourna-
ment this year. I certainly will
not object if we have this kind
of luck again at Sectional time,
but this time, we needed the
most competition we could get.

Yours sincerely,
DAN L. URSCHER, M.D.

FROM ONE CITIZEN TO ANOTHER

It is seldom that I write a
letter for publication but I
hope the Mentone News will see
fit to release this one. First,
because it is about a group of
fine young men, and second,
because it concerns a large seg-
ment of our community.

There has been much dis-
cussion and more said in the
past few weeks about our ball
team than the Cuban situation.
Mainly to the fact that they
have not been playing good ball
and in some respects have let
their community down. Of
course the record they have
made belies this theory. Never-
theless, the criticism persists
that the average fan is not sat-
isfied with the way our boys
have been playing.

I agree that Lyle, probably
feels that he would like to be
10 feet tall at times. That Bill
would like all the hoops to look
like cracker barrels, and that
Allen would like to have three
hands when he is rebounding
under the basket. But this isn't
so and it never will be. The
boys are just human like the
rest of us, and are doing the
best they can with the weapons
they have. If they are operating
under a handicap as poor shoot-
ing in the case of Bill, or re-
bounding as in the case of the
forwards, let us not condemn
the players. I am sure that Bill,
for instance, is not very happy
with the shooting he has had
to endure these past few weeks.
Instead of taking it out on the
boys, we, as adult fans, should
be aware of the fact that they
have been turning in tremen-
dous games in spite of their
temporary slump. This is to
their everlasting credit.

It is easy to win games when

you are hitting 100 per cent
from the floor and rebounding
110 per cent off the backboards,
but when you still win games
without these virtues, it takes
something else. That is what
our boys have, guts and some-
thing from their shoulders up.
I have seen every game this
year, and though I don't con-
sider myself an armchair coach,
I know the boys and Mr. Bate-
man have won their games be-
cause they could adapt them-
selves to different styles of
play when the emergency de-
manded it. Two in question
would be the type of play that
won over Pierceton and Etna
Green. Entirely different, but
the style that was necessary to
accomplish the result. This to
me, puts the boys one up on the
opposition. The heady, variable
type of play they can muster
when the chips are down. I
think we should be grateful and
give the boys a big pat on the
back for what they have ac-
complished in spite of the cross
they have had to bear.

I am sure, if you will allow
me a bit of comparison, that
you would see some startling

changes in Mentone if the adult
fans who complain the loudest
now, worked half as hard
for their church, City Park,
Lions Club or P.T.A., as the
boys do at their basketball. So,
let him who is without sin cast
the first stone.

To the boys, I say well done
fellows, thanks a million for the
good record. We sincerely hope
the second half of the season
sees you back in your old form
and you can win them the easy
way. Good luck, and remember,
that every knock is a boost.

ATHENS DRIVER KILLED

Ernest Nichols, 56, Route 2, Rochester, was killed at 7:15 p.m. Saturday when his farm truck skidded into the path of a train at Athens.

A farmer and livestock raiser, he was returning to his farm east of Rochester when the accident occurred. He resided about two and one-half miles from the accident site.

Mr. Nichols was born in Fulton County, May, 1906, the son of William and Maude (Barr) Nichols. In 1929 he married Helen Bryant. He had been a lifetime resident of Fulton County and was affiliated with the Athens Church of God.

TIPPECANOE D.A.R. WOMEN MEET

The Tippecanoe River chapter of the Daughters of the American Revolution met recently with Mrs. Dorothy Patterson. Mrs. Fred Hall presided and Mrs. Robert Knepper welcomed three new members, Mrs. Gene Lindsey, Mrs. George Slabaugh and Mrs. Mary Klinefelter.

Mrs. Knepper and Mrs. Lewis Erwin were appointed to attend the Continental Congress at Washington D. C. in April. Mrs. Patterson reviewed the book, "Private Yankee Doodle", written by an American revolutionary soldier, Joseph Plumb Martin. Mrs. Slabaugh gave an article, "Patriotism is Not Old Fashioned". Miss Mary Fribble, librarian at the Bourbon Public Library, gave a talk on the functions of libraries. A social hour followed.

OK BUILDING FOR C.A.P.

Warsaw aviation board members at a meeting Thursday evening gave approval to the Optimist Club and the Warsaw Composite Civil Air Patrol squadron to construct a building

for the local C.A.P. unit at the airport north of Warsaw.

The building, estimated cost of \$18,000, will be located between the parking lot at the airport and the first row of hangars. The structure will be 40 x 60 feet and contain offices and a drill area. The building will also serve as a hangar.

SYRACUSE PLANNING 1st COUNTY WINTER CARNIVAL

Kosciusko County's first "Winter Carnival"—featuring a ski show, hockey games, fishing contest and a public dance—is being planned by the Syracuse Wawasee Chamber of Commerce for Saturday and Sunday, Feb. 9 and 10.

At the present time the committee plans to have midget hockey games on Syracuse Lake, with youngsters aged 13 to 16 competing. A sports car race, figure skating and a Saturday afternoon ski show are planned at popular Mount Wawasee, north of Syracuse.

The dance will be held Saturday night at Hoosier Skateland, south of Syracuse.

Officials are seeking a figure of national prominence in the entertainment world to highlight the affair.

KING OF SWING AT CULVER

On Tuesday, Jan. 29, Benny Goodman, music's famed "King of Swing", will play a combined jazz and classical concert at Culver Military Academy.

The Goodman concert is a part of Culver's annual Concert-Theater Series and will be attended by the student body of 850 cadets, faculty, and the general public. The program serves as a replacement for the late actor, Charles Laughton, who was scheduled to appear here next month. Laughton died of

cancer in December. Goodman also will play at a 1 p.m. matinee for 1,600 public school children from Marshall County who are part of the Academy's Program for Education in the Performing Arts. The program is supported by grants from the Morris and Ore Foundations of South Bend and The Culver Educational Foundation.

Purdue University extension horticulturists suggest giving your house plants a quarter turn every time you water them so they will receive equal light on all sides.

Merry Mollys Met Recently

Eighteen members of the Merry Mollys Home Demonstration Club met Monday evening at the home of Mrs. Robert Hibschman, with Mrs. Jerry Hudson as co-hostess.

The meeting was opened with Mrs. Jerry Hudson leading the pledge to the flag, followed by the Club Creed. Song of the month was sung by the group. An interesting lesson was given by Mrs. LaMar Leffert. During a short business meeting Mrs.

Harold Horn appointed her committees for the year. Mrs. Dave Cooper gave a report on the auditing committee. The meeting was closed with the club prayer song.

During the social hour gifts were received by Mrs. Herschel McGowen, Mrs. Glen Puterbaugh and Mrs. Glen Mellott. Games were enjoyed. Mrs. Gene Sarber and Mrs. Dave Cooper entertained. Refreshments were then served. The club will meet Feb. 11 with Mrs. Carl Whetstone.

KimberCHIKS

Be Wise

Which Came First?

The Chicken or the Egg?

Refer your hecklers to the Bible for the answer.

Genesis 1:19 - 24

"And the evening and the morning were the fourth day. And God said 'Let the waters bring forth abundantly the moving creatures that hath life and fowl that fly above the earth in the open firmament of heaven'.

And God created great whales and every living creature that moveth which the water brought forth abundantly after their kind and every winged fowl after his kind and God saw it was good.

And God blessed them saying 'Be fruitful and multiply and fill the water in the sea and let fowl multiply in the earth'.

And the evening and the morning were the fifth day. And God said 'Let the earth bring forth the living creatures after his kind, cattle and creeping things, and beasts of the earth after his kind' and it was so".

This not only proves that the chicken came first—but that the poultry industry is one day older than the livestock industry.

D. A. R.

JANUARY REPORT

The January meeting of the Anthony Nigo Chapter, Daughters of the American Revolution, was held in the social room in the Farmers State Bank of Mentone. The regent, Mrs. Fred Surguy presided. Mrs. Miriam Bogess Kern has been accepted as a new member, transferring from the Mishawaka chapter. Mrs. Surguy appointed Mrs. E. W. Igo, Mrs. Arthur Brown and Mrs. Ray Linn to the officer's nominating committee for 1963-1964.

Mrs. Paul Shireman, treasurer, announced that monetary gifts had been sent to the national committee of national defense, Washington D. C.; the investment trust fund (for maintenance of DAR buildings in Washington D. C.); the art fund; the American Indian scholarship fund; the Kate Duncan Smith DAR School on Gunter Mountain, Grant, Ala.; and to Bacon College for Indians in Oklahoma.

Mrs. Merlyn Holt gave the resolution on UNESCO (United Nations Scientific Cultural Organization), which asks that all Daughters be alerted to oppose to the utmost any action which would in any way, limit the national, state or local agencies in educational matters, or subject our public, private or religious school systems to any control whatsoever by any international body.

Mrs. Dale Cook, national defense chairman, introduced Professor Wayne Snider of Grace College, Winona Lake, who spoke to 42 members and guests prior to the showing of a sound film, "Life Behind The Iron Curtain". He said we must study and read the documents that made America great and as we then come to appreciate that

which God has given to us and also strengthen our faith in God. Our struggle with communism is not with flesh and blood, but with an ideology. He quoted a leading communist as saying, "Americans are only playing church and playing at being Christians". Herein lies one of our troubles . . . we do not have in some cases, the strong church of our early heritage. He suggested reading our precious heritage of freedom and liberty for all mankind.

Suggested reading included J. Edgar Hoover's new book, "A study of Communism"; innumerable printings from the Government Printing office in Washington, D. C.; Dr. Fred Swarts' book, "You Can Trust The Communists" (to be Communists); Cleon Skousens "The Naked Communist". The reading material mentioned is all available at the local library. The chapter and library were praised by Professor Snider for making such material available to the public.

Professor Snider said we must be as dedicated to our task of preserving liberty as the communists are dedicated to their desire to control the world through their conspiracy. We would do well to admonish George Washington's quote at Valley Forge during the American Revolution, when, at the height of battle and in desperate circumstances, said, "Put only Americans on guard to-night". We can save our country by putting only Americans on guard for our freedom.

Professor Snider announced that on Jan. 18 at 7:30 p.m., Mrs. Helen Wood Birnie, of Long Beach, Calif., will speak in McLain Hall Auditorium to the public. In the early thirties, Mrs. Birnie was a leading communist functionary and is well acquainted with the activities of communism. Since leaving

the party she has continuously worked against it. She speaks forthrightly against the false promises held by too many Americans in the belief that communism is an empty stomach philosophy. She does not agree that too much is said about communism. A mother of four children, she feels that far too little is known about its appeal to American youth through its deceitful appeals for academic freedom and its false approach to peace and civil rights.

Hostess, Mrs. Bud Paulus and Mrs. Frank D. Smith, served refreshments to guests, members of the American Legion Auxiliary, and others attending the meeting.

Local News

Mrs. Frances Brown and Mrs. Vesta Cole were callers of Mrs. Edith Rose the past week.

Jane Tucker was a guest of Sandra Rathbun last week during the basketball games.

Mr. and Mrs. Bill Griffis and son and Mr. and Mrs. Bob Griffis had Sunday dinner with Mr. and Mrs. Gilbert Griffis.

Mr. and Mrs. Glen Watkins of Bourbon had dinner Thursday with Mr. and Mrs. Robert Jones.

Mr. and Mrs. Dwight Riechard and Wilson Riechard were Sunday dinner guests of Mr. and Mrs. William Schooley.

Children of Mr. and Mrs. George Hall, Brent, Jo Lynn and Roger of Warsaw spent the week end with their grandmother, Mrs. Ruby Hall.

Mr. and Mrs. Clarence Boganwright, Mr. and Mrs. James Leatheam, Mr. and Mrs. Mervin Myers, Mr. and Mrs. Robert Spiegle, Mr. and Mrs. Vernon Spiegle, Mr. and Mrs. Don Logan, Mr. and Mrs. Shubert Barth, Mrs. Verbie Kreamer and Wilson, Mr. and Mrs. John Foory, Herman Miers, Leo Miers, all from Ohio, and friends from Chicago and Michigan attended the funeral of L. A. Boganwright.

Sunday visitors at the Artley Cullum home were Mr. and Mrs. Rollin Long and son Kenneth of Ft. Wayne; Mrs. George Steinger of Yellow Creek Lake; Mr. and Mrs. Don Burnan and Susan Biggs of Warsaw; Regina Johnson of Springfield, Ohio; Mr. and Mrs. Fred Carey of Tippecanoe Lake; Mr. and Mrs. Tom Harman and family and Jon Cullum.

Mr. and Mrs. C. B. Cole spent Thursday afternoon visiting at the home of Anna Mentzer and M. O. Smith.

A surprise birthday dinner was held Sunday for Bessie Gross at the home of her daughter and family, Mr. and Mrs. George Craige. Others present beside the Craige family were Mr. and Mrs. Harold Wagner and family of Bristol and Mr. and Mrs. Dick Peterson of Mentone.

Mrs. Norman Huffer, Mrs. Morton Huffer and Mrs. Nuell Polk of Warsaw were guests at the home of Mr. and Mrs. M. O. Smith Monday afternoon.

Mrs. Annabel Barnhart of New Haven spent Sunday with her parents, Mr. and Mrs. E. E. Wagner.

Mr. and Mrs. Dick Whittenberger and family, Mr. and Mrs. Joe Fisher and family and Mr. and Mrs. Erwin Thompson and daughter were Sunday dinner guests of Mr. and Mrs. Robert Jones.

Rev. and Mrs. Morgan called Thursday at the home of Mr. and Mrs. W. E. Fowler.

Clair Hall of Bourbon visited Sunday afternoon with his mother, Mrs. Ruby Hall.

Mrs. Clarence Julian of Warsaw was a dinner guest Tuesday of Mrs. Nellie Julian.

Mr. and Mrs. Ted Hight and Children of South Bend were Sunday dinner guests of Mr. and Mrs. Frank Hardesty and sons.

Mr. and Mrs. Conda Hipsher of Mishawaka, Mr. and Mrs. Donald Hipsher of Bristol and Mr. and Mrs. Logan Ramsby of Ligonier were dinner guests for their mother's 80th birthday Sunday.

CELEBRATES 12th BIRTHDAY

Luana Sarber celebrated her twelfth birthday Tuesday evening at the home of her parents, Mr. and Mrs. Eugene Sarber.

Games and contests were enjoyed after which supper was served to the following guests: Sharon Lewis, Susan Tibbets, Debra Bowser, Linda Fawley, Peggy Whetstone, Patty Stouder, Diana Cole, Nancy Keirn, Nancy Campbell, Mary Peters, Jacque Pritchard, Ann Rush and Diana Sarber.

Luana received many lovely and useful gifts.

Seward Home Ec. Met Recently

The Seward Home Demonstration Club met at the home of Mrs. Earl Sarber on Wednesday, Jan. 9. Co-hostess was Mrs. John Zimmerman. Mrs. Gerald Smalley, president, presided. A talk on fire protection was given by Mrs. Alton Bruner, and the lesson was given by Mrs. William C. Kassen. There were 26 members present. The next meeting will be held Feb. 13 at the home of Mrs. Anna Williamson, south of Burket.

Palestine Homemakers Met Friday

The Palestine Homemakers social club met Jan. 11 in Warsaw at the home of Mrs. Vida Horn. A carry in dinner was served to nine members. New officers for the year are: president, Flo Shirey; vice president, Mattie Loher; treasurer, Geraldine Perry; secretary, Edna Jones.

After a short business meeting the afternoon was spent visiting. The next meeting will be Feb. 14 with Edna Jones with a carry in dinner.

Bill Blue of Woodland called at the home of his mother, Mrs. Emma Cook on Friday.

District Meet Feb. 6

The fifth annual meeting of the Kosciusko County Soil and Water Conservation district has been announced for Feb. 6, at the Masonic Temple, Warsaw, at 6:30 p.m., by Loren Decker, vice chairman of the board of supervisors.

Hobart Creighton will be the principal speaker at the banquet and will tell of his observations of food conditions and agricultural production in many countries around the world.

Awards for outstanding work in soil and water conservation will be made by the supervisors, and the Mentone Soils Judging team will be awarded a trophy. Reports on the year's program of work will be given by the Tuttle family of Piercetown.

The tickets are available from any of the board of supervisors, Howard Silveus, chairman; Loren Decker, Leland Kinsey, Robert Norris and Myron Metzger, and associate supervisors, Gordon Tuttle and Howard Workman. They are also available at the Soil Conservation office and at the County Extension office.

Mr. and Mrs. Earl Boggs, Mrs. Mary Boggs and children, Mr. and Mrs. Larry Boggs and daughter and Mr. and Mrs. Bob Griffiths were Saturday evening guests of Mr. and Mrs. Gilbert Griffiths after the ball game.

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

The C.R.O.P. drive in Kosciusko County went pretty well this year. The county had the largest increase of any one in the state compared with last year's figures. We were the 11th in total contributions and had the biggest total in the past 14 years. All townships were in except Van Buren and Jefferson. Etna and Scott were the top contributors. Our total was about \$6,400.

One of the unfortunate things about the program is that too many people do not get a chance to see what the program is doing but from all the reports I am getting they are doing a good job, especially in the areas where there are refugees. It is surprising to hear how they can feed people on six or seven cents a day. Of course, that isn't a blue-plate special, but

it sure beats nothing.

I have had contact with state C.R.O.P. directors in three states and they are all rural ministers. Their intensity and devotion to their job is remarkable. If they have the same calibre people working overseas, we don't have to worry much about getting good return on our money.

Joe Metzger of South Whitley, was the guest speaker at the Outstanding Young Farmer program and did his usual good job with the story of "Pigs for Peace". He certainly has a good word to say for the Peace Corps

and has had the opportunity to appraise their work first hand in several islands and countries.

The annual meeting of the directors of the County Seed Improvement Association will be held January 22nd. Ray Ferverda is chairman of this group.

There were well over a hundred in attendance from six counties at the District Public Policy Conference held last week at Winona Lake. The topic under discussion was the economic growth.

Economic growth, like good

health, is desirable in a community, but there are many differences of opinion as to how it should be obtained. Not everyone is equally interested in seeing their community grow and are therefore less interested in paying the price. The costs of community development may come in many ways. It may mean more school taxes or in fewer parking spaces, both are inconvenient.

The group was most specific in their ideas as to what a community could do to best insure an orderly development and that was to improve the

quality of the educational institutions both for youth and adult groups.

Leaders and workers in the Soil Conservation referendum for the northern 10 townships will meet Jan. 23rd with R. O. Cole, secretary of the state Soil Conservation committee, to get instructions. The meeting will be held at the Lake City Bank at 1:00 p.m. Anyone who wants to do some work in securing the votes is certainly welcome to attend.

NEWS? Ph. ELmwood 3-1985

CHEVROLET...the *Quality* truck!

WALK AROUND IT. SEE THE DIFFERENCES.

Start at the rear of this Fleetside pickup. Grab the tailgate and pull hard. No give. Two wedge latches keep it tight. Now unfasten them and let down the gate. Jump up and down on it. Does it sag? Notice how the chains are wrapped in rubber so they won't rattle or mar paint.

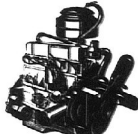

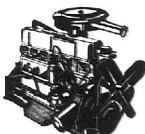

Now look at the lower side panels. Two walls. You might dent the inside one but it won't show through. The floor will never rust. It's select wood, not metal.

Now please sit in the cab a minute. Comfortable? It also is double walled and the roof is insulated. Let's start 'er up and look for a washboard road. Chevrolet coil-spring suspensions fight road shock better than other types, good for the truck, load and the driver.

There are other things. But you can see why this is a truck that does a job without a lot of pampering. It's built right. Which is why it's usually worth more at trade-in. When would you like us to deliver it?

2 NEW 6-CYLINDER ENGINES

New High Torque 230-cu.-in. Six is lighter but more powerful than its predecessor. It is standard in Series C10 through C50 models.

New High Torque 292-cu.-in. Six—most powerful truck 6 Chevrolet has ever built! Standard in Series C60, optional at extra cost in lighter models.

Local News

Mr. and Mrs. James Hipsher of Wabash visited his mother, Mrs. Risa Hipsher Sunday afternoon.

Mrs. Don Pfeiffer and daughter spent Saturday afternoon with Mr. and Mrs. Allen Eizinger.

Martha Jo Whittenberger spent Saturday night with her grandparents, Mr. and Mrs. Robert Jones.

Mrs. Vera Lockridge, Mrs. Bob Lockridge, Mr. and Mrs. Dick Boganwright and children, Albert Tucker and daughter, Jane Ellen were recent guests of Mr. and Mrs. Ora Tucker.

Miss Von Jenkins and Mrs. Bernard Black returned home Thursday after spending two weeks in Florida as guests at the H. V. Nellans home and they also called on other Mentone folks.

Harry Davis and Duane of Silver Lake called at the Howard Horn home Saturday morning.

William Blackburn, Mr. and Mrs. Mark Redinger of near Argos and Leland Kinsey of Silver Lake were callers of Mrs. Rosa Kinsey and Kenneth the past week.

Mr. and Mrs. Russell Golden and sons of South Bend and Mrs. Mary Ault and son were Sunday evening guests of Mr. and Mrs. Arthur Golden.

Health and safety leader, Donna Romine gave suggestions on what to do in case of a fire.

The lesson was given by Betty Boggs and Janice Perry gave a demonstration on the making of yeast rolls.

Refreshments were served to 17 members and three guests, Beth Holt, Mary Ann King and Kathy Wengerd. Judy Johnson and Kathy De Cent were welcomed as new members.

Door prize was won by Beth Holt.

Merry 4-H Club Met Recently

The Merry 4-H Club held its first meeting of the season Jan.

8 in the Home Economics room with nineteen members present. The following officers were elected for 1963:

Pres., Linda Bowerman; vice pres., Gloria Tucker; sec., Susie Witham; treas., Annette Hirschman; song leader, Diane Cole; health and safety, Jacque Pritchard; reporter, Becky Hunter; recreation, Beverly Davis.

The group decided to meet the second Tuesday night of each month. The next meeting will be held Feb. 12 from 7:00 to 8:30 p.m.

Girls wishing to join the 4-H club should contact Mrs. Carpenter at school for an enrollment card. The minimum age is 10 years now or within the calendar year.

EGG PRICES DAILY AT EXTENSION OFFICE

Egg prices on the New York and Chicago markets will be received daily at the County Extension office and will be available to any producer according to Donald E. Frantz, County Extension Agent. The prices will be received about 1:00 p.m. each day.

This service will be continued at the request of the County Poultry Association through February on a trial basis. If there is an adequate demand for the current price information it will be continued. The extension office phone number is 267-8971.

NEW REVENUE ACT EXPLAINED

Under the new 1962 Revenue Act, any institution paying over \$10.00 within any year, in interest or dividends, to any person, must report this information to the Government and the Recipient. Furthermore it must report by your Social Security Number as well as your name. During this year, you may be requested to furnish this number to your institution if you have savings account, time certificate or stock certificates. In case you don't have a number, they will assist you in obtaining one.

Remember, the institution's responsibility ends with their sincere effort to obtain this information. Failure to cooperate on your part, allows the I.R.S. to re-open any of your previous returns. If you have any questions, check with your bank or banker. (The foregoing applies to dividends and interest paid by any organization.

SINCERE THANKS

I wish to express my thanks to all my friends and the Mentone News for their thoughtful remembrances of me in their visits and cards, on my 99th birthday. They were all greatly appreciated.

BLOOD DONORS, Cont.

We have checked many hospital bills where the patient felt that he had been charged for blood. In every case when the bill was checked with the hospital, we found that there had been no charge for the blood itself. Hospitals serviced by the Fort Wayne Regional blood program share in the cost to the Red Cross of collecting, processing, and distributing the blood to the extent of \$4 per bottle, which the hospital pays to the Red Cross. In many cases this charge is shown on the hospital bill. Patients receiving blood from Red Cross blood program do not pay for blood. The blood is a gift of a resident of the community. The cost of collecting, processing, and distributing a bottle of blood in the Fort Wayne Regional blood program is approximately \$6.50 per bottle. This is actual cost in money to the American Red Cross. After the \$4 hospital share is deducted, a balance of \$2.50 remains. This remaining \$2.50 is a cost borne entirely by the American Red Cross. Therefore, when a patient receives a bottle of blood, he not only receives the blood itself free of charge but, in addition, \$2.50 of free service provided by the American Red Cross.

Hospitals must employ competent laboratory technicians to crossmatch each bottle of blood before it is administered. They must pay competent personnel to administer the blood and, in many cases, there is a great amount of laboratory work necessary before a transfusion can be given. The hospital must charge for the services they render. Occasionally, this charge is construed by the patient as being a charge for blood, when actually the charge is for supplies and services rendered to the patient by the hospital.

People who need transfusions certainly want only the greatest assurance that the blood they are receiving has been properly

crossmatched in the hospital laboratory. When they realize that the charge is for service rather than blood, they usually are grateful for the service they have received.

Another fact that is not always recognized is the fact that not all hospitals participate in the Red Cross blood program and that in these hospitals a charge is made for any blood used and frequently replacement is required on the basis of two or more bottles for each one received. In the Red Cross program, patients receiving blood are urged to ask their friends and relatives to make blood donations in order that there may be a supply available for the next patient who needs it. Patients are never "hounded" to make replacements, as it is the policy of the Red Cross to recruit sufficient donors to make up for any blood that is not replaced.

If anyone feels that they have been charged for blood supplied through the Red Cross blood program, we suggest that they consult with the hospital and ask for an interpretation of the charges on the bill. It has been our experience that hospitals are generally willing to discuss these matters with patients, as it gives them an opportunity to eliminate misunderstanding.

Always remember that blood secured through the Red Cross blood program is a gift from someone in the community and that no charge is made for the blood itself, according to Alfred O. Schell, administrative director.

Ladders are sometimes needed quickly in case of fire or other emergencies, so store them where they can be obtained in a hurry, recommend Purdue University farm safety specialists.

If bred sows run in the corn field after harvest, make sure they get from threefourths to one pound of supplement each day, say Purdue University animal scientists.

Mentone High School Bulldogs—True Champions

Captains Bill Nellans and Lyle Long receiving the championship Trophy.

The County Champions—They are shown as they voice their approval of the way every thing went for them during the four games. They perhaps had the hardest row to hoe of any team as far as the luck of the draw goes. Like champions they came through with flying colors.

Giving a helping hand!

Bill Nellans is shown here giving a rubdown to an Etna Green player who suffered a Charley horse. Bill was given the same treatment a little later when he suffered one.

Coach Paul Bateman

The Officials saw this foul.

The community of Mentone can truly be proud of the team that represents them practically every week of the winter months. They showed their ability, endurance and their sportsmanship. We consider them as champions.

We can better analyze the team of this year when we go back to the 1958-59 season when coach Paul Bateman began his reign and started the building process which is now collecting interest. Paul has a five year record of 91 wins and only 20 losses. This includes the County Journey of this year. We break this down to a 18-6 year in '59; 20-5 season in '60; 16-6 in 1961; 24-2 in 1962, and he has a 13 and 1 record this year. Mentone has won the county tourney three times and one sectional during those five years.

The boys too, are a lot to be proud of. They have had some bad publicity, and they have had some steep hills to climb, but they came over the top like winners.

In events like this we too often forget the cheerleaders and the fans. All these are necessary for a winning combination. Many times the cheerleaders work as hard as the players themselves. We cannot forget that winning teams need to have the backing of the home folks. Let's not forget the cheerleaders, student managers, scorekeepers and the fans!

The Mentone News is proud to feature the Mentone Bulldogs in this issue.

Subscription—\$3.00 Per Year

A SHELTER IN TIME OF STORM...

We, the staff of the Mentone News, feel that way towards the Red Cross Blood Program. We hope that on Monday, Feb. 4, from 12:00 to 6:00, you will feel the same way.

In an effort to better acquaint you with the purpose of giving blood, we have printed two letters from people who have needed the services of the blood program. Read them with care.

There's a paper on the table in front of me. The heading, Cleveland Clinic Hospital, Cleveland, Ohio—Re: Mr. Stanley Yeiter—For Insurance purposes only. Down a few lines it reads 8/1 Operation, 8/1 Reopening of thoracotomy for bleeder, 8/2 Emergency thoracotomy for bleeding. During these times, and many times since, we have thanked God for an invention called a Heart-Lung machine. Acting as Mr. Stanley's heart, it circulated precious plasma through his veins, helping him live. Although more blood was needed than expected for this type of operation, the extra units were available. This plasma was made available through the Red Cross Blood Bank.

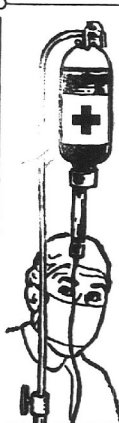

Contrary to some public opinion the 25 pints of plasma, (two for the first unit, one for one thereafter) were "free", the only price being the donation of blood from persons like yourselves. Proof of this is the line on our statement reading—Blood Credits—\$625.00, deducted from the total bill. The cost sometimes confused with plasma is the cost of the expert administering it to the patient.

To keep this service available to people like you and us, the Red Cross needs our support. Only by replacing the blood drawn out will it be available when YOU need it. The person in charge of your local Red Cross Blood Bank will gladly explain how this nation-wide "replacement service" operates.

May Stanley and I again thank the many persons who gave, (some of them twice) and those who offered to give even after our quota was met. May we also urge all who are able to give February 14th, when the Mobile Blood Bank will be located at the Mentone Methodist Church. It will benefit you and your community.

Help—as the Red Cross is replacing all blood used for Albert Hatfield, we in turn would like to replace the blood to the Red Cross. The only way we can do this is through you, the people of the community, when the Blood Bank comes to Mentone on Feb. 4th.

We will be grateful to every-

one who gives blood in his name.

Albert entered the Robert Long Hospital December 17th and may be there for some time yet. So far, it will take 20 units of blood to cover that already used.

Mrs. Hatfield has spent most of the last month at the hospital with her husband and has seen many patients in need of blood and quickly it was always available, thanks to the Red Cross.

Mr. and Mrs. Albert Hatfield

ADULT FARMERS CLASS TO MEET TUESDAY

The Mentone Adult Farmers Class will meet Tuesday night instead of Monday night, during this next week. The topic for Tuesday night will be New Crop Varieties for 1963. This past Monday night, Bob Martin from the Kosciusko County Soil Conservation Service discussed the Soil Conservation district and showed slides of many conservation practices being used throughout the county.

CLUB CALANDER

W.S.C.S. meeting will be Jan. 31 at the home of Mrs. Marion Smith at 8:00 p.m. instead of Jan. 24th.

COUNTERPOINT

By The Editor's Wife

Did you happen to see the TV performance of Leonard Bernstein's Young People's Concert a week ago Tuesday? He introduced four young pianists. Three girls (12, 13, and 14) each played a movement of Mozart's A Major Concerto.

The fourth pianist, 16-year old Andre Watts, played Liszt's Concerto No. 1. Bernstein conducted the orchestra for this.

From my front row living room seat I watched in sheer amazement and pleasure. Such delicacy! Such talent! Tears came, unnoticed, during the superb playing and interpretation of young Watts.

As the camera moved from one young face to another in the audience, you were so impressed with the deep involvement of each listener with the artist. A memorable program! Let's have more like it.

Sincere thanks and appreciation to Mary Esther Romine and Phyllis Bowser who shared their "coffee break" with me last Friday morning. They knew that the house was twice as big, and very quiet after Jon had gone. Their thoughtfulness nearly crumbled my big firm resolve to "keep my chin up" and "carry on".

Here is the conclusion of the letter to the mother with budget problems.

Also, try these economies: make biscuits and cornbread yourself, instead of buying expensive packaged rolls. Investigate the many ways of preparing dried beans and peas—they are so inexpensive. Buy more organ meats, such as kidneys, livers, calf brains. Every meal needn't be a meat meal, so collect some interesting vegetable recipes. Combine left overs for casseroles. Buy in quantity when you can. If the giant economy size packages won't fit onto your kitchen shelves, fill canisters from them, and keep the bulk packages in a closet.

Coincide your meal planning and shopping with the biggest day for food ads in your newspaper. Read food columns for timely specials. Learn to be a watch dog in the kitchen, and refuse to let non essentials clutter up the shelves. Home made lemonade is cheaper than bottled drinks. Powdered milk is

(Continued on back page)

TIPPECANOE VALLEY SCHOOL REQUEST PURDUE STUDY

At a meeting of the Tippecanoe Valley School Board on January 21, 1963 a request was made by the School Board that Purdue University conduct a survey of the Tippecanoe Valley School Corporation for the express purpose of evaluation of the curriculum and educational program of the School Corporation, the building facilities that exist and to make recommendations based on a long term look for the School Corporation.

Dr. A. T. Lindley met with the School Board for approximately two hours and explained to them the advantages that could be expected by having the Corporation surveyed and having recommendations made by Purdue University. He explained that Purdue University does surveys for many Corporations and pointed out that Schools Boards and citizens gain a lot of information from these surveys and avoid errors that otherwise might be made. A. T. Lindley, who is now serving as an instructor at Purdue University and also engaged in field services for Purdue, was formally Superintendent of the Fort Wayne Schools for many years and also Superintendent at Lafayette and Crown Point.

Not Too Cold To Move

Mentone Pallets, formerly Mollenhour Lumber, have moved their operations into the building that was used by Warren Products.

Mr. Wallace stated that they needed the extra space to take care of their increased volume of sales.

They were in the process of moving furnaces and other heating equipment on Monday (13 degrees below zero).

Mid-West Spring has leased the other building for a warehouse.

NEW ARRIVALS

Mr. and Mrs. Lee Meyers, R.R. 2, Warsaw are the parents of a six pound daughter born Wednesday at the Murphy Medical Center.

Grandparents are Mr. and Mrs. Carroll Eiler.

Mr. and Mrs. Robert Swanson are the parents of a son born Wednesday at the Murphy Medical Center.

MENTONE FFA CROPS JUDGING TEAM 1st

On Thursday, Jan. 17, 1963 the Mentone FFA Crops Judging teams participated in the County Crops Judging contest. The Mentone FFA won both 1st and 2nd places in the Contest and both teams will participate in the District contest in Nobel County on May 4.

The placings in the County were: Mentone first and second with 2594 and 2279 points; Third went to Syracuse with 2268 and fourth to Milford with 2189. Claypool came in fifth with 1926.

The first team of Mentone consisted of Fred Mellott (900), Steve Mellott (852), and Steve Mikel (842). These three boys were also 1-2-3 in the county individual standings. The second team consisted of Bob Huffman (830), Russell Adams (731), Larry Secrist (718) and alternate John Tucker. Bob Huffman was fifth and Russell Adams was tenth in the individual standings.

There will be a photo of the boys in next weeks issue of the News.

WITH THE SICK

Mrs. Harry Michaels of southeast of Mentone is in the Murphy Medical Center at Warsaw, where she had surgery on Wednesday.

Albert Hatfield is still in the hospital and his condition remains unchanged. He certainly does enjoy hearing from his friends in Mentone. His address is Robert Long Hospital, Room 6B, Indianapolis, Indiana.

Bruce Smith, 2, son of Mr. and Mrs. John Smith, was admitted to Murphy Medical Center on Thursday.

Mrs. Emma Clutter was admitted to the Murphy Medical Center on Monday, where surgery was performed.

Byron Stouder, 9, son of Mr. and Mrs. Earl Stouder, who live east of Mentone, was treated at the Murphy Medical Center at Warsaw on Friday for a laceration to his left arm. He fell down a stairway at his home.

Mrs. Bessie Wilson, mother of Mrs. Byron Nellans, was admitted to the Murphy Medical Center on Monday for medical treatment.

Mrs. Byron Nellans was admitted to the Murphy Medical Center at Warsaw on Tuesday, where she will have major surgery on Thursday.

Mrs. Donald Horn fell Monday evening and broke her right wrist.

OBITUARIES

Mrs. Meredith Dies Monday

Mrs. Vinson (Emma) Meredith, 89, of New Castle Township in Fulton County, died of complications at 2:30 a.m. Monday in the Parkview Hospital in Plymouth, where she had been a patient for the past six months.

Mrs. Meredith was born in Fulton County Nov. 14, 1873, the daughter of Lewis and Hattie (Bradshaw) Strong. In 1890 she married Vinson Meredith, who preceded her in death in 1951. Mrs. Meredith had been a member of the First Baptist Church in Mentone.

Surviving are one son, Herbert, of Mentone; three daughters, Mrs. A. R. Cormican and Mrs. George Chapman, of Elkhart, and Mrs. LeRoy Cox, of Mentone; two half-brothers, Raymond Norris, of Mishawaka, and Floyd Norris, of Rochester; two grandchildren, and five great-grandchildren.

Services will be held Thursday at 2 p.m. in the First Baptist Church in Mentone, with Rev. Irwin Olson officiating. Burial will be in the Sycamore cemetery in Mentone.

SHOWING IMPROVEMENT

Robert Hoover is improving at the Murphy Medical Center, but will still be hospitalized for a while longer.

NEWS-WORTHY NOTES

From Nearby Areas

STATE PARK SET FOR WINTER WONDERLAND

The second "Winter Wonderland" event at Pokagon State Park, Angola, will be held on Sunday, January 27. Radio station WOWO, in cooperation with park officials, stages this event for its listeners in the Tri-State area of Indiana, Ohio and Michigan. This year extra facilities for parking have been provided. The Indiana State Police, Steuben County Sheriff's Department, the State Conservation Department and the Angola JayCees are all cooperating in this phase of the event.

The ice covered lake in front of the Inn will be used as the arena for most of the staged activities, with the entire park providing a wonderland for individual sports activities. Skating exhibitions by the Ft. Wayne Skating Club, a "broomball" hockey game between WOWO talent and Angola JayCees, a Junior League hockey game, an ice fishing contest are among the "on the ice" treats in store. A snowman building contest, which was one of the most popular events last year, will be repeated again this year, with prizes in various categories. A taste of the Yukon will be provided with husky dog sled teams owned by Dr. Mary Helen Cameron and Dr. Knight Kissinger, on exhibition in the park as well as the old fashioned buckboard sleigh, which provided "Santa's" transportation from the north pole at Christmas. An ice sculpture is promised by students of Tri-State College. Weather permitting, there will be skiing and tobogganing as well as other winter sports.

There is no charge for this event, which starts at approximately 1:30 p.m.

DR. URSCHEL, GUEST SPEAKER

Dr. Dan Urschel, cardiac specialist from Mentone, was guest speaker for the meeting of the Warsaw Business and Professional Women's Club held Jan. 23rd at the Westminster Hotel at 6:30 p.m.

Dr. Urschel spoke on "Cardiac Resuscitation", and told of various methods of reviving the stopped heart.

A graduate of the University of Chicago Medical School and a certified cardiac specialist, Dr. Urschel at the present time is president-elect of the Flying Physicians of America.

CHANGE IN CULVER FUNERAL HOME

Mr. and Mrs. James D. Bonine, of Culver, have purchased the interests of William R. Easterday in the operation of the Easterday funeral home.

Mrs. Bonine is the former Rosalie Beigh, daughter of Mr. and Mrs. Eugene Beigh, of Warsaw.

The Bonines have been associated with the Easterday funeral home, one of the oldest in Marshall County, for the past two and one-half years. They have one child, Cynthia.

LOREN TRIDLE'S PARENTS TO CELEBRATE GOLDEN ANNIVERSARY

Mr. and Mrs. Glenn Tridle, of near Sidney, will be honored by their children at a 50th wedding anniversary open house Sunday Jan. 27, from 2 to 5 p.m. in their home.

Mr. and Mrs. Tridle were married Jan. 25, 1913 in North Manchester by Rev. A. L. Wright. They are members of the El

River Church of the Brethren. The Tridles are the parents of two sons, Loren, of Mentone, and Earl, of North Manchester. They have five grandchildren and one great-grandchild.

Mentone H.D. Met With Mrs. D. Tucker

The Mentone Home Demonstration Club met at the home of Mrs. Dearly Tucker on Jan. 10.

Meeting was called to order. Mary Borton led the pledge to the flag, all repeated the club creed and sang, "America The Beautiful". Blanche Whitmeyer read the history of the song of the month and then led the singing. Agnes Rans accompanied at the piano. Meditation was given by Genevieve Warren. The group gave silent meditation in honor of Opal Tucker. Roll call was made, Genevieve read the constitution and by-laws. Olive took care of old and new business. Esther Sarber was asked to appoint the new president and vice president. She elected Olive Tucker for president and Eve Laird as vice president. Mrs. Eula Smith was welcomed as a new member. The group sang the club prayer and repeated the club collect. Refreshments were served to 14 members and two children. Maude Cox received a mystery package.

Lions Entertain Ladies

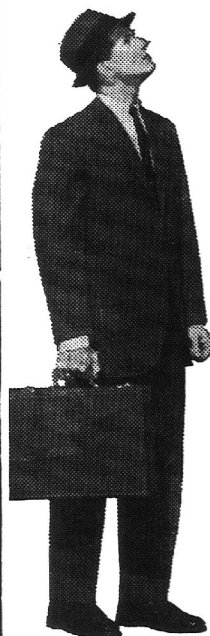

The Mentone Lions Club entertained their ladies on Wednesday evening, Jan. 16, at the M and M Restaurant at North Webster.

The invocation was given by Lion Leroy Norris, followed by a delicious ham dinner.

The meeting was opened by Lion president, Lloyd Bowerman, who welcomed the fifty members, ladies and guests.

Lion Wayne Wertinberger, program chairman, then introduced Nelson Auer of Syracuse, who performed magical entertainment for the group. An enjoyable evening was had by all.

Jolly Janes Celebrate

The Jolly Janes Home Economic Club celebrated their 17th anniversary recently. They enjoyed a dinner at the Winona Hotel.

After dinner the president held a short business meeting. Esther Romine read the history of the song of the month. They all joined in singing, "I Would Be True". Roll call was answered with a response. Reports were read and approved. Mrs. Helen Mollenhour, Pat Shoemaker and Kathrine Peffley were the evening's committee. Mrs. Grace Lewis read a skit on home redecorating. The group joined in singing and contests. There were seven charter members present. Mesdames Helen Mollenhour, Mary Utter, Martha Elsworth, Esther Markley, Grace Lewis, Esther Romine and Phyllis Bowser. Others present were Mesdames Toni Carmean, Mable Bitzer, Leona Eber, Barbara Romine, Becky Gross, Sue Friesner, Fern Reichard, Mary Tridle, Leah Neel Yeiter, Alice Hardesty, Kathrine Peffley, Joan Welch, Ann Cole and Pat Shoemaker.

Gifts were received by Becky Gross and Mary Tridle. Next meeting will be at the home of Mrs. Martha Elsworth.

County S.I.A. Elect Officers

Ray Ferverda of Van Buren Township was re-elected chairman of the Kosciusko County Seed Improvement Association at their annual meeting held Tuesday at the County Extension Office. Other officers re-elected were: Leland Kinsey, Lake Twp., vice chairman; Howard Warner, Monroe Twp., secretary; and, Victor Hillery, Wayne Twp., treasurer.

It was announced that 34,057 bushels of farm seeds were processed last year by Dale Sponseller of Etna Green and Sam Rhoades of Pierceton, operators of the portable cleaners. The chairman also announced that a new cleaner had been purchased and would be in use in

Farmer's New Tax Benefits

Indiana farmers may realize potential benefits from thorough investigation of changes in rules governing their 1962 federal tax liability, points out R. N. Weigle, Purdue University extension agricultural economist.

One of the major changes is in investment credit which permits farmers under certain conditions to deduct directly from their tax bill up to seven percent of the cost of certain new or used property bought this year for use in their business.

New depreciation guidelines are set up, grouping assets into classes and establishing one average useful life for each class. Useful life of these assets is shortened. However, use of these guidelines is optional with the farmer.

Another new rule covers salvage values of items farmers bought after last Oct. 16. For personal property, other than livestock, acquired after that date, salvage value need not be taken into account if it is 10 per cent or less of the cost or other basis of property. If salvage value exceeds 10 per cent, only excess need be taken into account in computing depreciation.

Sound tax management involves accurate and complete farm business records, keeping informed on tax laws, changes in rules and regulations and counseling with a tax consultant.

the east side of the county this year.

The seed cleaners will be started March 18th for cleaning and treating seed oats and will be available on special call prior to that date. They will be used for cleaning and inoculating soybeans in May and June and wheat cleaning and treating will begin in August. Details on scheduling and prices will be announced by the County Extension office.

Tax Deductions

The Chicago Motor Club reminds motorists to include certain car expenses when itemizing deductions on income tax returns. All motorists may deduct the following items:

State automobile license fees; municipal vehicle tax fees; state gasoline taxes (five cents a gallon in Illinois and six cents a gallon in Indiana); casualty losses, not reimbursed by insurance or other means, if not due to willful negligence; interest paid on automobile loans; personal property tax; and state and city sales taxes on automobiles.

If you use your car for business, you may also deduct the following—in whole or part, depending upon the extent of business use:

Motor Club dues; automobile insurance premiums; depreciation; gasoline; oil; lubricating expenses; cost of all repairs; washing and polishing expense; anti freeze and other winterizing service; garage rent; parking charges; and toll road fees.

The Motor Club points out that costs incurred in driving to and from regular places of employment are not deductible for income tax purposes. If you use your car partly for pleasure and partly for business, items in the second group are deductible only in proportion to the amount of use of the car for business purposes.

Take Soil Samples Now

"Take soil samples now because you will probably find ways to improve the plant food condition of your soil," advises Russell K. Stivers, director of Purdue University's soil testing laboratory. "This generally results in better crops and increased profits."

Many farmers have used soil tests to improve their soil. Of those who used the Purdue Soil Testing Laboratory in 1961, approximately two-fifths found

that the soil needed extra phosphate fertilizer and more than three-fifths were low or very low in available potash. About three-fifths of the samples needed lime.

Soils may fall in one of these categories where more than maintenance amounts of phosphate or potash are needed and the only way for most farmers to determine this is to test their soil.

The soil is generally more firm now than in the spring, and spreader trucks can usually broadcast lime and fertilizer without sinking in the mud.

Where corn is to be grown the following year, hay, or pasture sods, or small grain stubble can well receive needed broadcast applications of lime, phosphate, or potash. In addition, there is relatively more time to take soil samples now than in the spring.

Should farmers want to sample their soil now but do not have needed information or materials, contact the county agricultural agent. He has instruction sheets, sample boxes, shipping cartons and necessary forms.

Spring Barrow Show In Feb.

The Hoosier Spring Barrow show, Indiana's premier market hog exposition, will be held Saturday, Feb. 16, and Feb. 23, in Indianapolis.

Purdue University is one of the sponsors of the show, which will open with on-foot judging in the swine barn at the Indiana State Fairgrounds; it will recess until Feb. 23, when the carcass show will be held in the cooler of Hygrade Food Products Corporation on West Washington St.

Only Indiana farmers and hog breeders are eligible to enter animals. However, more than 1,200 barrows are expected to be exhibited. The swine will be shown as single barrows and in truck load lots. A new class has been added for the 1963 show—a truckload of 20 hogs,

instead of 10—each animal must weigh between 190 and 240 pounds.

About \$5,000 in prize money will be distributed in the on-foot and carcass classes. All hogs entered in the show will be purchased by Hygrade and all pork produced will be sold by the Kroger Company.

Grand Champion judges include B. W. Ebbing, Rath Packing Co., Waterloo, Iowa; J. C. Hillier, Oklahoma A & M, and L. F. Tribble, University of Missouri. Selecting the grand champion carcass will be Ebbing, B. C. Breidenstein, University of Illinois, and J. A. Christian, North Carolina State University.

Joining Purdue and Hygrade as sponsors of the show are the Indiana Swine Breeders Association and the Indiana Commercial Pork Producers Association.

Buying Men's Shirts

Buying a man's shirt isn't difficult when you know what features to look for. Fabric should have a firm even weave, be colorfast and controlled for shrinkage. Some fabrics need only minimum care.

Try to fit the pattern and color to the man's figure. A large man looks better in thin stripes, neat checks, neat all-over patterns and soft medium colors. A thin man looks good in large checks, plaids, heavier stripes and medium sized all-over patterns. He can wear a wide range of colors.

You can find more information on the desirable features of construction and tailoring in Purdue University's new extension publication, "Buying Men's Shirts". The bulletin includes tips on laundering care, and how to check a shirt for size.

Single copies of "Buying Men's Shirts", HE-442, are free to Indiana residents. You can get one from your county extension office or from the Agricultural Publications Office, AES Building, Purdue University, Lafayette, Ind.

NEWCASTLE TOWNSHIP NEWS

The Newcastle Township Farm Bureau meeting was held recently at the Talma gym. The business meeting was opened with devotions led by Mrs. Donabelle Pfeiffer. The following officers were elected: president, Walter Safford; vice president, Bernard Rogers; secretary-treasurer, Mrs. Leroy Grossman; woman's leader, Mrs. Clarence Mikesell. A pot luck supper and gift exchange was held. The retiring president, Orley Winger, gave a farewell address.

Clair Overmeyer of Purdue was a guest of Dick Davidson on Saturday evening.

Mrs. Don Pfeiffer and daughter were recent guests of her parents, Mr. and Mrs. Allen Elzinger in Mentone.

The following from the community gave blood to the blood bank at Rochester Tuesday: Mrs. Helen Emmons, Mrs. Lavera Utter, Mrs. Alice Sholts, Claude Jameson, Jr., Noell Simpson, Earl E. Williams and Charles Green.

Mr. and Mrs. Charles Davidson and daughter, Cindy, of Kokomo called on his father, William C. Davidson Tuesday.

Mr. and Mrs. Raymond Walters and family of South Bend were week end guests in the home of Bert Leedy.

Mr. and Mrs. Fred D. Barr spent Sunday in Laketon visiting with their daughter and family, Mr. and Mrs. Ralph D. Chapman.

Dr. Howard Rowe of Rochester was a business visitor here Wednesday.

Mr. and Mrs. Fred R. Miller have received word that their son, Paul Miller, of Phoenix, Arizona has been dismissed from the Veterans Hospital in that city.

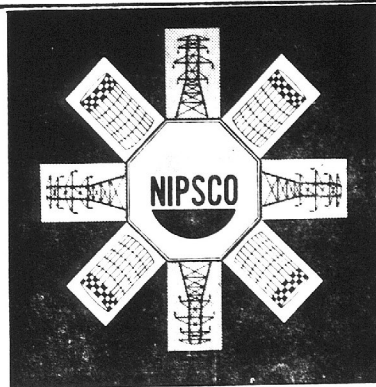

Plans are being completed at this time for the Newcastle Township Farmers' Institute to be held on Thursday and Friday, Feb. 7 and 8. The 40th annual Farmer's Institute will be held at the Talma Community building.

Bert Leedy was a business visitor in Rochester Friday.

PARTY ON 10th BIRTHDAY

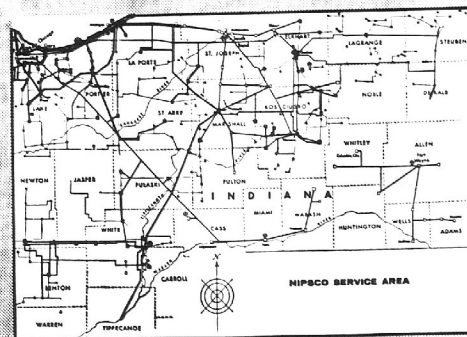

Donald Erwin, son of Mrs. Frances Erwin, celebrated his 10th birthday, Jan. 19, at the home of his grandmother, Mrs. Gordon Young. Those present were Danny Yeater, Judy and Kathy Boyer, Connie, Phil, Lewie Bryer, Sandy and Dennis Young, Dick and David Pike of Rochester, and Ruth, Tommy and Larry Erwin.

Purdue University extension entomologists recommend examining cattle at frequent intervals for lice infestations. Sprays of lindane, toxaphene, methoxychlor or malathion may be used on beef animals. Only rotenone may be used on dairy animals.

and
"modern living"
for
northern
Indiana

Symbol of Service

IN THE HOME AND COMMUNITY

To residents of 250 northern Indiana communities, the NIPSCO symbol represents "modern living" convenience at your finger tips through dependable gas and electric service. Reliability and abundance are assured by an investment of nearly 500 million dollars in facilities maintained by 4,000 experienced employees. Future needs are assured through a continuing building program . . . a multi-million dollar expenditure that helps every NIPSCOLAND community through local payroll dollars, local purchases and taxes.

ON THE FARM

Indiana leads the nation in rural electrification. Every farmer who wants electric power is served. To northern Indiana farmers, the NIPSCO symbol means plenty of dependable electricity at low rates.

Across NIPSCO's 28-county service area, which accounts for 40% of Indiana's annual farm production, nearly 13,000 farmers depend directly on NIPSCO electric power to increase productivity and lower costs. Thousands more who are members of 12 rural electric cooperatives (REMC's) depend on NIPSCO-supplied electricity to help with farm and household chores.

IN INDUSTRY

In NIPSCOLAND there's a plentiful supply of both gas and electricity, which is so vital to growth and progress of industry.

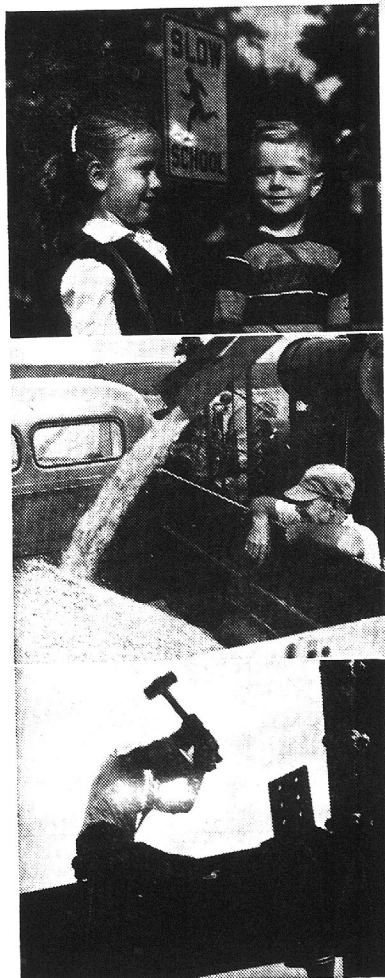

Civic leaders and industrial prospects alike recognize the NIPSCO symbol as a mark of integrity and "willingness to help" in community and industrial development.

NIPSCO's Area Development Program, designed to aid the economic growth of the communities served, assists in the highly competitive effort required to attract new industry and encourages expansion of industries already located in northern Indiana.

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

We will have available on call the New York and Chicago daily egg prices. They will come in at 1:00 p.m., and you can get the quotations by calling the Extension Office, 267-8971. The expense on this is maintained by the County Poultry Association and will be run on a trial basis. If there isn't much interest, it will be discontinued.

Throughout a part of the time that the legislature will be in session we will be devoting space to the tax and legislative questions. Farm people as well as others are going to be affected by legislative changes. We will try to supply some of the background data, as to why the problems have risen.

Of all taxes collected in Indiana, the Federal Income Tax takes the most. Seventy per cent of all taxes paid by Indiana people are federal collections, fourteen per cent are state taxes and sixteen per cent are local or county, city and township. Of the total that the state taxes us, the gross income tax brings in the most, about 78 per cent. Other state revenues are cigarette tax 8 per cent, insurance taxes 4 per cent, alcoholic beverages taxes 3 per cent and inheritance taxes 3 per cent. Other miscellaneous taxes total 4 per cent.

Farm people are primarily concerned with property taxes. Historically, the accumulation of property has been an indicator of ability to pay and because of the nature of farming, farmers must control land in ever increasing amounts. The big push behind property tax increases has been the increased cost of building and operating schools. This problem was postponed for a long time, but it has caught up with us now because of population increases. School building costs fall on property owners and it has come at a time when farm incomes have been depressed. State aid, another term for the use of gross tax money for schools, has paid about a third of the school operating costs which leaves two-thirds of the expense on property.

The problem before the state legislature right now is how to get more money from the state into schools in order to relieve the burden on property.

In the last 15 years, real estate taxes per acre on farm land have gone from an average of 81 cents to \$2.39, just about tripled. The same pattern is true all throughout the midwest. The five corn belt states in our area have gone from 84c to \$2.55 per acre.

Across the country it will range from 15 cents an acre in New Mexico, to an average of

\$10.16 per acre in New Jersey, with an average of \$1.30.

Dates are set for the Hoosier Beef Show at Indianapolis in June. The steers will be placed on the basis of cut on value and must be from registered sires. Cattle must be owned by the entrant before February 1st and any changing ownership after this date is ineligible. The sponsors of this event are Hygrade Food Products, the Indiana Beef Breeders Association and Purdue University.

Entries are also due before

Feb. 1st for the Gold Medal Beef project. Purebred bulls and heifers or steers from purebred sires are eligible. Medal winners in 1962 were Buni Barber of R. 2, Akron; Sharon Harold of R. 2, Akron; Craig Langohr and Bill Langohr of Piercetown; Sonny Nellans of Mentone, and D. C. Harold and family of Akron. This project is to identify the cattle family lines that have the ability to make rapid, low-cost gains.

There may be some discrepancies in the report for CROP for this county. In 1962 we sent

several hundred dollars right after the first of the year. The state CROP director also contributes a hundred dollars in the name of the county making the greatest gain and we got credit for that. These two factors give us a bigger figure than the actual drive results of this fall.

The meeting on Weed and Insect Control will be held on Feb. 5th at the Fairgrounds at 1:00 p.m. Ollie Lee and Dave Matthews of Purdue will conduct this meeting and this will be an excellent opportunity to

get up to the minute information on sprays for weeds and on insecticides. The new weed control bulletin will be available.

Two hog producer meetings are on schedule. The first on nutrition on Feb. 13th, and the second on Economics of Swine Production on Feb. 27th. Dr. James Foster and Noah Hadley will handle these. Both are afternoon meetings at the Fairgrounds.

Forages will be the subject of a beef and dairy meeting on Feb. 12th at the Fairgrounds.

Everything piles up handsomely in a Chevy II including savings

Imagine a low-loading wagon roomy enough to handle most anything you can heft—and still trim enough to slip into cramped parking spots. We imagined it, built it and called it Chevy II. Made it as dependable as a wagon can get. And made it so it'll keep piling up savings over the years. Those show up in the way

JAN. 23, 1963

Statistics On Hwy. Spending Released

Kosciusko County and its incorporated cities and towns received \$780,659.77 for road construction and improvement in 1962 through license fees and other funds paid into Indiana's Motor Vehicle Highway Account by the state's automobile and truck operators.

Statistics compiled by the Highway Planning Survey Department of the State Highway Department show that \$663,938.09 went to the county for this purpose and \$116,721.68 was allocated for road work in these urban areas:

Burket, \$1,803.76; Claypool \$3,147.87; Etna Green, \$3,363.75; Leesburg, \$2,973.76; Mentone, \$5,661.97; Milford, \$8,127.34; North Webster, \$3,440.36; Sidney, \$1,448.58; Piercetown, \$8,259.67; Silver Lake, \$3,259.65; Syracuse, \$11,108.05; Warsaw, \$50,379.75; Winona Lake, \$13,427.17.

The account is collected from the state's motor fuel tax, motor vehicle registration fees, civil penalties, Public Service Commission fees, court fees and state police miscellaneous receipts. The total net receipts of this fund in 1962 were \$6,346,217.46 more than the net of the previous year.

After disbursements to the Indiana State Police (\$5,334,711.21), Office of Traffic Safety (\$60,205.73), Purdue University (\$55,556.60), State Highway Department (\$73,612,487.70), and to the Public Employees Retirement fund (\$73,750.00) the remainder is then allocated to counties on the basis of the number of motor vehicle registrations and miles of roads and to the cities solely on a population basis.

This account is over and above that money going to county treasuries through property tax assessments of motor vehicles. In the case of trucks, this amounted to more than \$25,000,000 last year, and does not include the millions paid on other truck property such as terminals and garages.

Pvt. David L. Janke
RA 16735912, RUSAH,
A.P.O. 851, N. Y., N.Y.

Mrs. Esther Hester and Mrs. Myrtle Lowrey of Warsaw were Sunday dinner guests at the Artley Cullum home.

Jon Cullum returned to Boston last Friday. He plans to enter Boston University for the second semester's work.

NEWS NOTES

from our

H. D. Agent

RUTH McCLEARY

Mrs. Ruth McCleary announces that the lesson on new poultry dishes, which was scheduled for Jan. 25, is to be given by D. D. Jackson, poultry specialist from Purdue University, has been changed to Sept. 20th. Mr. Jackson has been asked by the Department of State to take an assignment in India for three or four months. All who had indicated interest in the topic should re-mark their calendars.

SINCERE THANKS

My sincere thanks to everyone who was so kind to remember me with cards, gifts and flowers, and also for the visits while in the hospital and at home. Thank You.
MRS. HERMAN OLSON

When buying a dress, choose a color that is becoming to you and that will harmonize with your accessories. Purdue University clothing specialists say soft colors are generally more becoming. Bright, harsh colors may emphasize skin defects and aging lines.

COUNTERPOINT, Continued

a wholesome beverage. One drinking straw at a time will serve as well as two. The home made cookie is still a dandy invention. You can probably trim your monthly food bill by about \$30—which will put you on a much more comfortable basis.

The outdoor cook in your family may be doing his broiling without charcoal, using, instead, the heat from the sun. The first solar-grill will be unveiled in a few days. (I know, I know, what about a rainy day? Well, drag out the charcoal grill and use it in the garage.)

Here is a smart wife and mother. She suddenly realized how little her family knew about running the house (grocery buying, changing sheets and linens, caring for appliances, medical appointments, meal planning, etc.). She bought an indexed notebook and began filling in the proper instructions.

Her husband (who found the notebook) is amazed at the responsibility she has in the home. He appreciates her more than ever, and has a sense of security in the indexed information if ever he has need of it.

We enjoyed this:

During the height of an Iowa blizzard last winter, a Des Moines doctor got a call from a man whose wife needed medical attention.

"I'll be glad to come, but I have no transportation," the doctor said. "You'll have to come and get me."

"What?" exploded the caller. "In this weather?"

NELLANS TAKES LEAD IN COUNTY SCORING

Bill Nellans charged to the front of the county scoring this week with his 36 point outing Friday night. He now has an average of 22.5, with total points of 293.

Jerry Ryman moved up in the race with a 14.2 average and a season total of 213 points.

WINTER WEATHER REQUIRES DIFFERENT DRIVING TECHNIQUES!

HERE ARE A FEW SUGGESTIONS FROM THE **CHICAGO MOTOR CLUB...**

- ALLOW EXTRA TIME FOR BAD WEATHER DRIVING.**
- CLEAN SNOW OR ICE FROM ALL CAR WINDOWS BEFORE ENTERING INTO TRAFFIC.**
- USE REINFORCED TIRE CHAINS ON PACKED SNOW OR GLARE ICE.**
- BEFORE YOU LEAVE ON A WINTER DRIVING TRIP CHECK ROAD CONDITIONS ON DAY OF DEPARTURE.**
- TEST HIGHWAY TRACTION OCCASIONALLY BY GENTLY PUMPING THE BRAKE PEDAL.**
- DON'T FOLLOW TOO CLOSELY. IT TAKES FROM 3 TO 12 TIMES AS FAR TO STOP ON SNOW AND ICE.**
- NEVER RUN YOUR ENGINE IN A CLOSED GARAGE. CARBON MONOXIDE IS ODORLESS, TASTELESS, AND DEADLY. WHEN DRIVING ALWAYS KEEP AT LEAST ONE CAR WINDOW PARTLY OPEN.**
- IF YOU SKID—DON'T PANIC! TURN YOUR WHEELS IN THE DIRECTION OF THE SKID. REMEMBER, GREATEST SKIPPING DANGERS EXIST WHEN IT IS JUST COLD ENOUGH FOR WATER TO FREEZE.**

MENTONE WINS EASILY OVER SILVER LAKE

Mentone returned to its old form, for a night at least, as they easily posted their 14th win of the season.

Mentone, using their press, made it a miserable night for Silver Lake.

Bill Nellans scorched the nets for a 36 point evening. Jerry Ryman, Jon Newcomb, Jerry Stouder and Larry Beeson helped out with 17-15-11 and 10 each.

SCORE BY QUARTERS

Mentone	30	46	79	108
Silver Lake	18	34	48	62

The Mentone second team turned in a good game, winning by a score of 60-48.

NEWS? Ph. ELmwood 3-3985

BULLDOGS TO PLAY AT NORTH MANCHESTER

The Bulldogs will travel to North Manchester on Saturday evening, Jan. 26th. Mr. Frederick informed us there will be no advance sale of tickets, as there usually is. Tickets may be obtained at the south ticket booth. Game time is 6:45 p.m.

THANK YOU

We wish to express our sincere thanks to those who helped share our sorrow. Thanks for the expressions of sympathy, the flowers, food and cards.

Record Gas Sendout For NIPSCO

A record gas sendout earlier this month was equaled or possibly surpassed Sunday and Monday of this week according to preliminary figures obtained from Northern Indiana Public Service Company's manager of gas operations, J. M. Pickford.

He said that NIPSCO's firm wintertime customers served by its northwest gas system used an all time high of 458,204,000 cubic feet of gas during a 24-hour period from noon to noon.

"The information we have now indicates that we had about the same or maybe higher sendout for the 24-hour period this past Sunday and Monday, said Pickford.

He explained that field record charts must be gathered and checked to determine the exact sendout for the day. The company's gas operations day runs from noon 'til noon to allow for smoother operations and overlapping of each of the three

eight hour shifts which follow the normal industrial work day schedule.

Customers of NIPSCO's northwest natural gas system have been benefitted this winter from the company's new underground storage field at Royal Centre, Ind., 12 miles northeast of Logansport. Gas has been withdrawn from the 3½ billion cubic foot supply there several times during the past few weeks as temperatures dipped to zero and below.

The northwest system serves customers in and around Hammond, Gary, Michigan City, LaPorte, South Bend, Elkhart, Plymouth, Warsaw, Logansport, Wabash, Peru, Monticello, Kentland and Crown Point.

NIPSCO's previous peak load high for natural gas sendout was reached on Dec. 12, 1962, when customers used 442,477,000 cubic feet of gas. The company's Fort Wayne system customers also used a record 88 million cubic feet of gas on this past Sunday and Monday.

HONORED AT BABY SHOWER

Jacquelin Montel was the honored guest at a shower held recently at the home of Mrs. Don Shepherd, with Mrs. Gary Shepherd as co-hostess.

The guests were Jackie's mother, Mrs. Larry Montel, Mrs. Hubert Keirn, Mrs. Joe Montel, Mrs. Bob Griffiths, Miss Ruth Drudge, Miss Sandy Lackey, Miss Janet Capes and Miss Linda Long.

The baby received many lovely gifts.

TWO MORE VICTORIES
FOR MENTONE

MENTONE - MANCHESTER

Mentone featured a balanced scoring attack Saturday when handing Manchester's Squires their 77-44 loss.

The Bulldogs had no trouble picking up their 16th win in 17 starts, were away from the start and led by quarter scores of 14-4, 35-21, and 55-37.

Allen Creighton and Jon Newcomb paced the Green and White attack with 14 points each. Bill Nellans netted 11, Jim Whetstone and Lyle Long 10 each, and Jerry Ryman 8. Frieiden was tops for Manchester with 14 counters.

The second team had their troubles when they lost 33-28.

MENTONE - CLAYPOOL

Mentone, in a slow first half, came to themselves in the last half of play scoring 58 points to Claypool's 45.

It was Larry Beeson who took game scoring honors with 19 points. Long, Nellans and Parker finished that last 16 minutes with 31 points after hitting only four in the first half.

In the second session Lyle Long and Bill Nellans reentered the lineup, along with Lynn Parker, went to work in its 58 point output to win 99-77.

E. J. McKenzie led Claypool cagers with 16 tallies.

The second team fared a bit better than last Saturday as they won 57-35.

NEPHEW ON RESEARCH SHIP

On January 17th Mr. and Mrs. Floyd Tucker and Mrs. Lena Igo had a most enjoyable and exciting experience, as they had word that the research ship, U. S. Oxford, the only one of its kind, which their nephew, Chief Keith Taylor was on, would anchor in the harbor for five days at Tampa. So they met the ship and he came back with them for a couple of days.

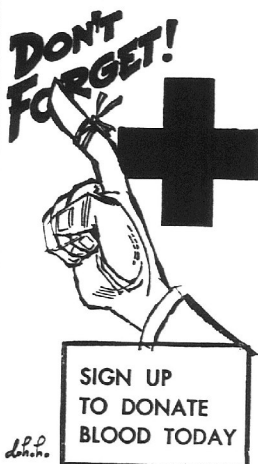

On Saturday they were invited as his guests to eat dinner on the ship and also a tour. Part of the ship they could not see because it was restricted. They had been stationed in the Caribbean waters, and for some time off the coast of Cuba. The ship usually comes into port about once a month for supplies.

Chief Taylor is the son of Mrs. Ocie Taylor of Sevastopol, and has been in service 16 years.

CLUB CALANDER

Reading Club will meet Feb. 6 at 7:45 at the home of Mrs. Chauncey Mollenhour.

BLOOD NEEDED NOW

We want to remind you NOT TO FORGET to sign up for the Blood Bank. There are just a few days left in which to sign up.

The committee is shooting for 200 pints of blood. As of this date there are only 40 people signed up.

I think that we are all getting used to the cold by now, so it won't bother us any to get out and give blood.

People have a tendency to say it won't happen to me. I won't need any blood. However, since the last Bloodmobile was here, 30 local people have needed to borrow blood.

Call, and sign up today. The Number is EL 3-3929.

NEW ARRIVALS

Mr. and Mrs. Harry Meyers are the parents of a daughter, Angelo Jane. Mrs. Meyers is the former Joyce Eiler. They were dismissed from the Murphy Medical Center Saturday.

Mr. and Mrs. Jim Unzicker of Mentone are the parents of an 8 lb. 6 oz. son, Robert Allan, born Jan. 23 at Woodlawn Hospital in Rochester. Mr. and Mrs. Lavern Ladson and Mr. and Mrs. William Unzicker are the grandparents.

Mr. and Mrs. Brook Black, who live south of Mentone, are the parents of an 8 lb. 5 oz. daughter, Cheryl Ann, born Jan. 28 at the Wabash County Hospital. Grandparents are Mr. and Cleo Young and Mr. and Mrs. George Black.

Mr. and Mrs. Royal Baum are the parents of a daughter born Wednesday morning at the Murphy Medical Center. The young lady has not been named at this writing.

COUNTERPOINT

By The Editor's Wife

From my south window this Monday morning, I can see soft white vapor slowly rising from the creek. If it weren't for the piled-high snow and the thermometer which says 16° below, it might be spring! "O wind, if winter comes — — — ?" (And it has.)

Ladies, if your husband is "cooperative, conservative, cautious and emotionally stable", pat yourselves on the back. He belongs to the club of Happy Husbands. (Don't take my word for it. I'm quoting the experts.)

Note on communism. Here are some excellent thoughts by Leslie J. Nason who is Professor of Education at the University of Southern California.

In our concern about being fair and allowing students to hear about the communist system, we are falsely assuming our children are thoroughly grounded in the free enterprise system.

Our students are not prepared to understand a discussion of communism until they have a background of knowledge of our rights and freedoms.

Schools should make sure students really understand the individual rights set forth in the Bill of Rights. These are the things they stand to lose.

Not until our children are secure in this knowledge should they be subjected to the claims of another system. And surveys indicate an alarming percentage of college students are not aware of them.

In our American system we have everything we are willing to go out and get. Communists will promise all the things we think we don't have but, in reality, they give nothing and take everything.

Have been enjoying a tiny bouquet of miniature roses (thanks to Rozella and daughters, and Grandmother Nellans' potted rose bush). Finally found a use for the little crystal condiment jar from Turbac. It makes a perfect vase.

Our Christmas gift from the office was a handsome redwood bird feeder. Have been getting quite impatient to use it. The Editor reminded me that one (Continued on back page)

School Band Contest
Held Jan. 26

The Northern Indiana School Band, Orchestra and Vocal Association contest was held at Plymouth on Saturday, Jan. 26.

The following received first place ratings and will go to the state contest in Indianapolis on Feb. 16.

Becky Knepper, flute solo; Steve Mellott, drum solo; Fred Mellott, drum solo; Cynthia Ellsworth, Marlene Brallier, Ted Shoemaker, Mike Orcutt, Sax. quartet; Fred and Steve Mellott, drum duet; Diane Roberts, Judy Shand, cornet duet.

Others placing first but are not eligible for state competition because of their grade in school and group entered in contest are: clarinet solo, Beverly Hurst; Connie East, Marilyn Taylor, flute duet.

Solos receiving second place: Vivian Hurst, Sharon Lewis, Cynthia Ellsworth, Marlene Brallier, Sue Drudge, Chip Gast.

Ensembles receiving second place are: clarinet duet, Jacque Pritchard, Diane Cole; clarinet quartet, Lloyd Bowerman, Jane Hostetler, Mardene Nellans, Connie Smythe; cornet trio, Dyrell Hackworth, David Norris, Eddy Nellans; clarinet duet, Beverly Hurst, Janet Goshert; flute quartet, Elaine Manwaring, Sandra Nelson; saxophone duet, Sharon Lewis, Luana Sarber; drum quartet, Fred and Steve Mellott, Earl and Anna Berkey; clarinet duet, Lloyd Bowerman, Jane Hostetler; clarinet trio, Sandra Eckert, Judy Decker, Sue Drudge; clarinet quartet, Sandra Eckert, Judy Decker, Sue Drudge, Eldona Antonides.

Third place ratings went to: Luana Sarber, saxophone solo; saxophone duet, Cynthia Ellsworth, Marlene Brallier.

This Saturday, Feb. 2, a group of vocal and piano students will journey to Penn High School in Mishawaka for the piano and vocal contest.

TOPICS FOR 1963 ADULT
FARMER CLASS

Morris Bitzer announced the following topics would be discussed at the 1963 Adult Farmer Class.

Feb. 14—Economics of harvesting corn. Ear vs. shelled.

Feb. 11—Housing and feeding of swine on slat floors.

Feb. 19, Tuesday—Farm chemicals. Claypool High School at 8:00 p.m.

Feb. 26—Liming and fertilizing.

Trip to Central Soya—Decatur. Annual banquet.

New Post Office
In Tippecanoe

The Tippecanoe Post Office staff recently moved into its newly constructed building. The ground where the new building stands was purchased from Mrs. Lulu Ritter last summer by Dale Blackford, who also built and owns the building.

The building, which is made of cement blocks and has a Roman brick front, is 26 feet by 44 feet and has all modern equipment, fluorescent lighting, and gas hot water heat. It is located three quarters of a block north of the center of town on the east side of State Road 331.

The Tippecanoe Post Office had its beginning around 1851 and was located in the old community of Tipp Town, one mile north of the present town of Tippecanoe.

The employees are postmaster, Dale Blackford; Mrs. Dale Blackford; and rural carrier, Edwin Kain, of Plymouth.

WITH THE SICK

Mrs. Lewis Harshbarger of Mentone is in the Murphy Medical Center for observation.

E. E. Wagner is not very well at this time.

Bert McGowen suffered a stroke last Tuesday at his home and was taken to the Parkview Hospital in Plymouth. His condition is listed as poor. He is in room number 212.

Latest admission to the Murphy Medical Center in Warsaw on Wednesday were Lee Borders of Mentone, Jeffry Putterbaugh and Jerry Grubbs.

Dismissed on Wednesday were Mrs. Byron Nellans, Mrs. Bessie Wilson of Mentone and Mrs. Dwight Bechtol of Burket.

Robert Hoover was dismissed from the Murphy Medical Center on Tuesday and is confined to his home.

TO RECEIVE NURSE'S CAP

Miss Pamela Ann Hammer is among the 98 Indiana University School of Nursing students to be awarded their nurse's caps in ceremonies at 8:15 p.m., Friday, Feb. 1, in the Union Building on the I. U. Medical Center campus at Indianapolis.

Pamela is the daughter of Mr. and Mrs. Zanna Hammer of Mentone.

Mr. and Mrs. Hammer and family will be in Indianapolis to attend the ceremonies.

OBITUARIES

Infant Daughter Dies Saturday

Final rites were held at 10 a.m. Monday at the L. J. Bibler funeral home for the infant daughter of Mr. and Mrs. Gerald Fitzgerald, of 2505 Center Street, Warsaw, who died at 4 p.m. Saturday, Jan. 26. The baby was born premature.

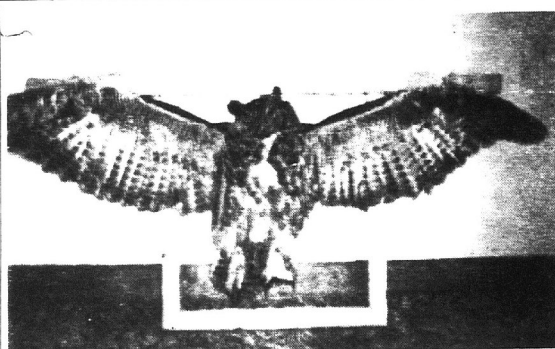

Survivors in addition to the parents include one sister, Kathleen, at home; the maternal grandmother, Mrs. Ralph Penn, of Kalamazoo; and the paternal grandmother, Mrs. Iris Fitzgerald, of Mentone.

Rev. L. T. Reddington officiated at the service. Burial was in the Oakwood cemetery.

Mrs. Lamprecht Dies Sunday

Mrs. Pauline E. Lamprecht, 66, of Plymouth, died at 2:30 a.m. Sunday at the home of her daughter, Josephine Baker, also of Plymouth, after an illness of four months. At one time Mrs. Lamprecht lived near Mentone.

Surviving are a son, Paul, Jr., of Andrews; three daughters.

This big bird has been identified as a Great-Horned Owl, and measured 56 inches from wing tip to wing tip.

Dale Nellans and Roy Engle were "zoomed" by him as they entered a chicken house at the Nellans farm early on December 19. The owl had gained entrance through a broken window and had killed, and was eating, one chicken. Eleven others were dead from a "pile-up".

As the bird flew at the men he was knocked to the floor and then killed. The Great-Horned Owl is protected from hunters but risks his neck when found poaching on pullets, etc.

Mrs. Nellans took this beautiful specimen to Wabash and had it mounted. It now belongs to the Tippecanoe Valley School Corporation, who paid for the mounting.

Mrs. Josephine Baker, of Plymouth, Mrs. Mildred Gray, of Leesburg, and Mrs. Jeanette Thomas, of North Webster; a half brother, Joseph Ritter, of Huntington; four sisters, Mrs. Mary Mulford, Miss Rose Ritter, Miss Edith Ritter and Miss Treases Ritter, all of Ft. Wayne; and seven grandchildren. One son preceded her in death.

Funeral services were held in the Van Gilder funeral home in Plymouth Wednesday at 11 a.m., with Rev. Robert Conley officiating.

Mrs. C. Martin Dies Tuesday

Mrs. Clifford (Eva) Martin died of a heart attack on Tuesday afternoon, Jan. 29 at 4 p.m. at Sidney, Montana. Mrs. Martin was a sister to Fred Lemler of Mentone.

Memorial services are being held on Thursday morning at Sidney, Montana after which the body will be sent to the Beigh's

funeral home in Bourbon. Services will be held on Sunday.

Mrs. Martin was a former resident of Etna Green. Surviving are her husband, daughter, Vernon (Marjory) Young, of Froid, Montana.

Brother Dies In Florida

Word has been received of the death of James L. Smith, 69, of Miami, Florida, on Saturday, January 26.

Surviving are his wife, Frances, of Miami, and a brother, Merrill O. Smith, of Mentone. Jim had spent his boyhood days in Mentone. He had been a patient in the Coral Gables Veterans Hospital in Florida for several weeks. Death was due to cancer.

Services were held in Miami.

Mr. and Mrs. Carl Eherman have purchased the Luther Hawley home on State Road 19 north of Mentone.

ENGAGEMENT ANNOUNCED

Mrs. Edith Ummel, of Route 1, Claypool, announces the engagement of her daughter, Phyllis Evelyn, to Eldon D. Swick, son of Mr. and Mrs. Claude Swick, of Route 1, Claypool.

Miss Ummel is a graduate of Beaver Dam High School and is a Junior at Indiana University School of Nursing. Her fiancé

attended the Burket High School and was employed by the Northern Indiana Cooperative Association in Mentone. He is now serving in the U. S. Army.

No date has been set for the wedding.

A picture doesn't always need to be centered above a piece of furniture, observes home furnishings specialists at Purdue University. Other items present in the grouping may make an "off center" or informal balance more attractive.

Mentone 4-H Met Jan. 22

The January meeting of the Mentone Harrison Hustlers 4-H Club was called to order by the president, Gale Nellans, at 7:00 p.m. on Jan. 22.

The pledges to the American and 4-H flags were led by Mike Hubartt and Christine Hyde. Following the devotions by Lloyd Bowerman we were led in group singing by Miles Nellans. The club dues were set at \$1.00 per year per member. It was decided to sell safety flares for a money making project. We were shown slides of craft project ideas and of the 1962 4-H fair by the leader. The meeting was adjourned after refreshments were served to 29 members and three guests.

Officers for the coming year are pres., Gale Nellans; vice pres., Larry Eiler; sec.-treas., Judy Beeson; reporter, Dave Norris; songs, Miles Nellans; health and safety, Ed Tridle; recreation, Sonny Nellans.

Dave Norris, reporter

Hosts Be-Abouts

Mrs. Everett Welborn was hostess to the Be-About Missionary group of the Baptist Church on Monday evening.

For devotions, Mrs. Charles Hunter read portions of scripture from II Timothy 2:12 and Luke 21:36, in connection with attending services of the church. Several songs were sung.

During the business Mrs. Peffley appointed several committees for the coming year. An offering was taken toward the clothing for Lova Bush, missionary in India. The work hour was spent rolling bandages.

Tasty refreshments were served to Mesdames Wayne Bowser, Stan Yeiter, Charles Hunter, Tobie Blalock, David Peffley, Thomas Nunn, Raymond Lewis, Darrell King, Irwin Wagner and Kenneth Romine.

TIME BOMB

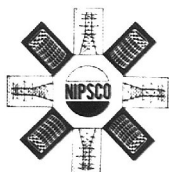

The population explosion is going at a dizzying pace. Its effects are already being felt in Indiana, with proposals for increased taxes to meet soaring public education costs.

Where will the tax money come from for more classrooms? From ALL Indiana citizens, including the five Investor-Owned Electric Companies who, last year, paid more than \$30,420,000 in local and State taxes—the largest such payment ever made by these utilities. This was equal to the amount needed to keep 87,650 children in school one full year.

In addition, the five Electric Companies' Federal income tax provisions in 1962 totaled more than \$54,550,000. This makes the five Investor-Owned Electric Companies the largest supporters of local, State and Federal government services in Indiana.

Christian - Foltz Nuptials Held

Miss Dorothy Kay Christian and Robert M. Foltz were united in marriage recently in a candle-light ceremony at the Mentone Methodist Church with Rev. Glenn Campton performing the nuptial rites before an altar decorated with white snowdrift pom poms, gladiolus and large mums. Wedding music was presented by Miss Janice Mollenhour of Mentone.

The guest book was held by Mrs. Harold Personett of Mentone.

The bride's parents are Mr. and Mrs. C. E. Christian, of Route 2, Bourbon. Parents of the bridegroom are Mr. and Mrs. Wilbert Foltz, of Route 1, Knox.

Given in marriage by her father, the bride wore a gown fashioned of taffeta and trimmed with lace. The sabrina neckline was accented with sequins and seed pearls. The floor length bouffant skirt featured a wide

lace panel. Her veil, of imported silk illusion, fell from a crown of orange blossoms and seed pearls. She carried an all white bouquet in a cascade arrangement of pom poms, roses, centered with an orchid.

The maid of honor was Miss Sue Borton of Elkhart. Miss Karen Heighway of Akron was the bridesmaid. They wore identical sheath dresses of emerald green velvet with white accessories. They carried cascade bouquets of white carnations and holly.

Ray Hewlett of Knox, was the best man and Lewis Vanek was groomsmen. The ushers were Dan Davis of Mentone and Louis Hayes of South Bend.

Serving at the reception held after the ceremony in the church social room, were Miss Mary Ellen Foltz, Miss Myrna Foltz and Mrs. Ray Hewlett of Knox.

The couple will reside on Route 2, Bourbon, following a wedding trip through the southern states.

If you're one of those lucky people expecting an income tax refund this year, here's something you should know about. You can take your refund in United States Savings Bonds. The new tax forms provide a space for you to indicate your preference. With Savings Bonds your refund will be safe—even from you—and will earn a good return at a guaranteed rate. Take your tax refund in safe, sure U. S. Savings Bonds.

Remove Spots From Rugs

Holiday entertaining often takes its toll on rugs. If allowed to set, stains from beverages and food may become permanent.

Elkin Minter, home management specialist at Purdue University, says prompt first aid is necessary.

You can remove most small spots from your rug if you act quickly. Soak up excess liquid, such as spilled water, snow, tea, coffee, or coke. Sponge the area with a towel wrung out in hot water; then use a rug shampoo in a hand applicator according to directions. If cream was used in any of the beverages, wait until the spot dries thoroughly after the sponging and use a dry cleaning fluid on the remaining grease spot.

If an alcoholic beverage is spilled, first sponge the spot with clear water and then with a detergent solution. If the stain is not removed, see a professional cleaner.

Whenever anything is spilled,

dry the rug thoroughly. Even water will spot a rug if it is allowed to permeate the rug backing. If your rug is wet clear through, take it up to dry if at all possible. Or, prop up the wet area and let air from a fan or heater circulate underneath it. Re-lay the rug when it is completely dry.

You can remove candle wax drippings from your rug, too. Scrape off the excess and place a clean white blotter over the spot. Touch lightly with a warm iron. Be sure to use a clean blotter to prevent adding stains. If a spot remains, rub it with a rug cleaning solution, or a dishwashing detergent solution.

Here's SPECIAL NEWS from the U. S. Treasury for all taxpayers expecting a tax refund this year. You can now receive your refund in United States Savings Bonds. If you desire, you'll be given as much of your refund as possible in bonds, with a check to cover the balance. The bonds are absolutely safe, and earn a good, guaranteed return. Put your refund to work for you. You'll be glad you did.

THESE RELIGIOUS MESSAGES ARE SPONSORED IN THE HOPE OF
ENCOURAGING GREATER RECOGNITION OF MAN'S DEPENDENCE
IN HIS CHURCH FOR SPIRITUAL GUIDANCE

He'll need your loving help for so many years to come

A child's world is as far as he can see — as far as he can hear — as much as he has known. You cannot just leave him to his own devices. Providing him with the ordinary creature comforts of home, food and shelter are not enough. You must provide food for the mind as well as the body.

A child's faith and trust are infinitely deep. When he is emotionally upset you must comfort and reason with him. During the formative years of his early teens he should be molded by persuasion and suggestion, that he may grow into a man of erudition and solid worth.

If you guide him along the road that will ultimately lead to good citizenship and right living you have not failed in your duty as a parent. There is no better way than by setting the good example of attending the church of your faith every Sunday, thus instilling the habit of regular church attendance in the formative years — for your child's happier adulthood.

L. H. Meyer, president of General Telephone of Indiana, points to North Manchester which converts from manual to dial operation later this year climaxing the company's drive to be all dial by 1963. Four small exchanges, only recently acquired and involving only 1,000 of the company's 388,000 telephones, will be converted in 1964. Other major offices shown here include Connersville, to be converted in February; Portage (established last year), Angola converted in 1962; Wabash in 1961; Hobart in 1960; and Valparaiso in 1959.

NEWCASTLE TOWNSHIP NEWS

Lavoy Montgomery called on Mr. and Mrs. Herman Alber and family of near Macy on Sunday evening.

Clare Overmyer has returned to his studies at Purdue, after spending the past week with his parents.

Fred R. Miller and Joe Duzan

attended the rabbit supper at Richland.

Mr. and Mrs. Bill Lewis of Rochester were the recent guests of her parents, Mr. and Mrs. Buddie Snipes.

Mr. and Mrs. Rolland Calvert and son spent the week end visiting her brother-in-law and sister, Mr. and Mrs. Jim Mathias and family of near Macy.

Mrs. Fred R. Miller has received word that her sister, Mrs. Dale Wright has been ill at her home in Goshen.

Dick Davidson and David Norris spent Sunday afternoon and evening visiting with Mr. Davidson's sister and family, Mr. and Mrs. Fred Alderfer.

The Talma High School has been reopened after being closed due to the severe weather.

Mrs. Jennie Leach of Rochester has been admitted to the Pontious Nursing Home. Mrs. Leach is a former resident of this community.

Gerald Dowd, who underwent major surgery at the Woodlawn

Hospital at Rochester, is slowly improving.

The special meeting of the local Methodist Church will begin Sunday evening, Feb. 10 to 17. Rev. Roger Boggs, pastor of a church at Parker, Ind. will be the guest speaker.

COUNTY STATISTICS

Statistics released recently by G. J. Aubrecht, district manager of the Chicago office of Dun and Bradstreet, reflect the activity of the business population in Kosciusko County during the past year. Figures obtained from a physical count of the Dun and Bradstreet Reference Book for January, 1963, totaled 784 manufacturers, retailers, and wholesalers in this area as compared to 781 in January, 1962.

The Dun and Bradstreet Ref-

erence Book lists all manufacturers, wholesalers and retailers who seek or grant commercial credit. It does not include some of the service and professional businesses such as beauty and barber shops, security dealers and real estate brokers.

Aubrecht added that during the past year 376 changes were made in the listings of Kosciusko County businesses, including names added, names deleted, and changes in the ratings of continuing businesses. Mentone has 42 businesses listed in the Reference Book.

THANK YOU

We wish to express our thanks to all those who helped us in our time of sorrow. Thanks for all the expressions of sympathy, your prayers, the food, flowers and many cards.
The Emma Meredith Family

Grade 11—Eldona Antonides, Renita Ring, Jim Whetstone.

Grade 10—Arbutus Konkle.

Grade 9—Diane Flenar, Beverly Hurst, Carolyn Warren, James Driver.

COUNTERPOINT. Continued

does not attempt to dig post-holes in this kind of weather, and since this requires a post, we'll wait.

From where I sit, the top of the Leslie house shows a complete white blanket of snow. Doris and Jim must have done a perfect job of insulating.

Clifford Ward wrote some words in a recent column which sounds good. He says that a word that isn't heard much anymore is "honor". The dictionary calls this "a nice sense of what is right, just, and true".

He continues by asking, "What has become of the man whose word was as good as a bond, and whose handshake of agreement was worth as much as the best of written contracts?"

We enjoyed this:

The little girl, watching her mother rub beauty cream on her face, asked, "Mommy, what's that for?"

"It's to make me beautiful, darling," the mother replied.

The little girl watched silently until her mother began rubbing the cream off; then she said, "It didn't work, did it?"

NEWS NOTES

from our

County Agent

DONALD E. FRANTZ

The County Seed Improvement Association directors will increase their services this spring for soybean inoculation. They have two portable cleaners and treaters. Dale Sponseller runs the one on the west side of the county. Sam Rhoades works on the east side.

A few years ago the big job was to clean and treat seed oats, but the acreage has decreased about 10,000 acres in just the past four years. This is just about equal to the increase in soybean acreage so the demand for inoculating beans should go up. Last year there were 34,000 bushels of seed processed. Of this amount, 6,120 bushels were beans that were inoculated.

It is difficult to know exactly what results to expect from seed inoculation on beans, but Virgil Bobeck in Turkey Creek Township ran some very practical tests last year on heavy land. He gained three bushels of beans per acre. The light sandy soil usually gives the best response as they are most usually short in nitrogen.

The date for the annual meeting of the Kosciusko County Soil and Water Conservation District is Feb. 6th. We have tickets and the district board of supervisors also have them.

The Weed and Insect Control meeting will be held Feb. 5th at 1:00 p.m. at the Fairgrounds. Ollie Lee and Dave Matthews will be there to give all the latest information on the new chemicals for weed control and for insects on both crops and livestock.

Mr. Lee is one of the country's best known weed control men. He has served for many years on the mid-west weed control committee. This is the group that does the testing of new chemicals for the experiment stations of the corn belt. Nothing is approved by the colleges without their O.K. With the large amount of money being spent on merchandising these weed control materials, Mr. Lee is a good man to use as the final reference.

Dave Matthews is one of the extension entomologists and is our source of information on bug problems. He is an interesting fellow to work with and always has his bug catching containers with him. If an insect looks a little different to him, he catches it and takes it apart.

The soil conservation referendum is officially under way and if you have your name on the title of a piece of land of over 10 acres, you will be asked to vote.

The question is simply this.

CROPS JUDGING WINNERS

The Mentone team recently received a trophy for winning the county crops judging contest. Shown, left to right, are: Morris Bitzer, vocational agriculture instructor from Mentone; Ray Ferverda, president of the Seed Improvement Association; Fred Mellott, Steve Mellott and Steve Mikel, all of Mentone. The Mentone team scored a total of 2,594 points out of a possible 3,000. The second place team, also from Mentone, scored 2,279 points. The Syracuse team placed third with 2,268 points. The crops judging consists of a 20 question quiz, identification of 20 crop seeds and 20 weed seeds, judging and placing four different classes of grain and determining the United States grade of four samples of market corn. The two Mentone teams will participate in the district judging contest to be held in Noble County on May 4.

(Photo courtesy Times-Union)

Will the Kosciusko County Soil and Water Conservation District be expanded to include all townships? Can the man working here legally be asked to come into the townships that are not now included?

There need not be any great confusion as to what kind of work they do. They assist in conservation of soil and water when requested. Districts have been operating in Indiana since 1937 and Noble and Elkhart counties

have been in effect for a number of years, so if information is really wanted, they will have it.

To make a legal referendum, there must be 60 per cent of the landowners vote. To carry a referendum, there must be a 60 per cent favoring vote.

My principle interest is to get a legal vote recorded. If we have that many, then we are sure to know what people want to do. I hope there is no politics in-

volved. The Soil Conservation service was born under the administration of one party and grew up under the administration of the other.

HEIR NAMED

William Reed, of Mentone, has been named heir to the estate of his mother, the late Mrs. Ethel Reed, of Mentone. The estate has been valued at \$11,769. Mrs. Reed died Dec. 5, 1962.
