## Drive-In Opening To Feature Dance Lands

Mr. and Mrs. Ed Souther have announced the Grand Opening of their new drive-in restaurant which will be known as the Riverside Danceland and Drive-In. The restaurant will have an inside dining area and is located near the Tippecanoe River on State Road 110 just west of State road 25, 5 miles east of U. S. 31.

The restaurant is part of long range plans of the Southerns to

create a summer resort out of their 60 acre tract of land. Eventually they hope to have several cabins along the river, a bowling alley, miniature golf and possibly a swimming pool.

The Southerns moved to the Tippecanoe area after having lived in Gary for a number of years. Mr. Souther was a crane operator in Gary and Mrs. Souther operated a beauty shop. They still own two apartment houses in the Chicago area and formerly operated filling stations for eleven years.

The Southerns have two children, Mrs. Larry Imboden of California, and David, 19, a graduate of Triton High School. The opening dates of the drive-in will be June 4, 5, and 6. The Southerns have announced that music will be furnished for dancing on Friday and Saturday nights by the Playboys and No-nards orchestra.

The restaurant will employ five people on a full time basis and will hire extra help from time to time.

"Those who are wise shall shine like the brightness of the firmament; and those who turn many to righteousness, like the stars for ever and ever."—Daniel 12:3, (RSV)

My doorbell rang, and when I answered it, a careworn, bright-faced boy looked up at me and said, with pride in his voice, "I represent my father." He told me what his father's business was and how he would like to serve me. He did not apologize nor hesitate; his message was clear.

How much more should we, children of the heavenly King, make it clear that we represent our Father, and tell others that He would like to claim each heart and life for His own?

Daily, in our work, our neighborhood, on the bus or waiting for it, we meet and talk with many who do not know the Lord. At least some of them are longing for some way to life themselves out of their dreary, purposeless existence. Are we keen to make known to them the joy we find in our relationship with the Father?

**PRAYER:** Father forgive our selfishness, our slowness to share what is the most glorious thing in our lives. May we be sensitive to the needs of others and alert to point to them the way. In the name of Christ, who is the way, the truth, and the life.

Amen.

## Parson Jones Speaks

Dear Mr. Publisher

Big city preaching ain't ever dull, that's for sure. Since I moved from my little country church to this city congregation I've had troubles by the litter. My latest little flare-up is over the race issue. Back in the country this didn't present much of a problem cause we didn't have many negroes to deal with—so we worried about more pressing problems like the tater-bugs. You talk about organization! Mr. Publisher, them tater-bugs is organized to the gills. They demonstrated in every tater patch there was.

But, like I said Mr. Publisher, my problems in the city are a site more complicated than spraying tater-bugs. When I first come to this church the deacons told me not to mention race cause they had already had two wars over it, and had finally established a 38th parallel. In other words, Sir, our church has declared itself neutral in all controversial matters.

Well, Sir, I wasn't here but one week when a delegation of my folks come to me and told me if I didn't start preaching about the race issue they was gonna leave the church. You know how us preachers are, Mr. Publisher—we don't wanta loose anymore members than we absolutely got to, especially if they have a little money. Fact is, some of these folks who claim the church is dragging its feet in dealing with every day problems has already left the church. I saw where the thing could lead to a mass migration, like the birds flying South in the winter—only it don't look like these people-birds are coming back.

After considering this thing from the religious side I tackled it from the political side. I come to the conclusion that I oughta preach on the race situation. Last Sunday I done just that. I tried to make it broad enough to hit everybody without being personal enough to rile anybody. Something went wrong.

The group in our church that's against integration sent a delegation to my office on Monday. They looked like dragons with smoke pouring out their nose holes. They swore that their group was gonna leave the church cause I had violated the 38th parallel and preached on the race issue. So now this element is pulling a mass migration. Mr. Publisher, the hole thing looks hopeless. It looks like everybody is gonna leave the church for one reason or another. One group is gonna leave if you do and the other is gonna leave if you don't. Now Sir, how do you solve that one?

You wouldn't happen to know where we could sell some good empty church buildings cheap, do you. It looks like this is what

its coming to unless I can find some way to talk out of both sides of my mouth at the same time.

So long from your confused friend.

Yours truly,  
Parson Jones

## Local Girl To Enter Peace Corps

by Dorothy Blalock

Miss Donna Van Gilder, Mentone High School graduate, who graduated May 31 from Manchester College with Distinction, has been accepted for Peace Corps training.

For years she has been concerned by the impression other countries are getting of the U.S. because of untrained, unthinking, careless U.S. citizens assigned or stationed there. Desiring to help combat wrong ideas of the U.S. forces on these countries by unscrupulous people, she wants to serve her country by promoting understanding and knowledge of the U.S. She feels this can best be accomplished in the social, cultural and economic program set forth by the Peace Corps.

Donna Kay also has a desire to better understand the people of other countries, particularly

Donna Van Gilder

South America, as she wants to be a teacher of Spanish eventually.

By working with the Peace Corps for their two-year period, she hopes to help the South Americans help themselves through the medium of teaching. At the same time she will be increasing her own understanding of them and their ways and customs.

Donna Kay will leave for the University of New Mexico, at Albuquerque, on June 16 where she will begin three months of rigorous training in preparation for the mountainous life of her assigned country Columbia, South America.

While at the University she will begin the day at 5:30. At 6:00 the training starts with calisthenics, followed by classes in the Spanish language, American Diplomacy and Democracy, History of South America, (Columbia, in particular), Communistic Methods and Ideology and its Infiltration and American History and What Democracy Means. She will also spend a good deal of time learning to climb mountains.

She will come home on September 11 for one week before beginning her duties with the Columbia Rural Community Action and Health program. Her duties are not definitely known yet, but there is a possibility that she might teach Health, Safety, and Sanitation, in Spanish, or teach English, to the rural mountain folk.

## Certain Power If Used

Having the Greatest Of All Books in your home, yet having it in the bookcase unused, may be likened to a house wired for electricity but in which the connection switch has never been thrown to make use of this source of power. The family Bible is a perpetual source of spiritual light and understanding, but to be of value its power must be released through reading, study and application.

Many benefits accrue from its use. It can teach you the part that you play in the universal plan, once you feel certain and sure of yourself in whatever you have to do. It is the best and surest of all cures for negativism (dark thoughts which tend to freeze personality.) To study this Book is to learn to live vigorously and through your Church affiliation and instruction to acquire a fellowship that is spiritually alive. In proof of these statements consider the many lives that have benefited and been transformed through the power of the Holy Scriptures.

## A Column of News By And For All Girl Scouts Of The Mentone Community

Brownie Troop 142 pantomimed "The Brownies" last week in their meeting. The cast was as follows: MaryLisa Owens, Betty-Leslie Senff, Father-Nancy Ettinger, Granny-Kim Bush, Tree-Marla Leffert, Tree-Sharon Burkett, Owl-Mrs. McGowen. Following this play, the girls also made gifts for Father's Day.

Brownie Troop 108 did some handcraft work by making spatter vases.

An Investiture Party will be held this week for all of the girls in 108 and 142. This will be held at the Ettinger home.

The Junior Troop #25 divided their girls into two groups, which will be known as Group A and Group B. This arrangement will probably be for the summer only, but because of the number of girls, it was necessary to do this. Mrs. David Cooper and Mrs. Tom Harman will meet with each group alternately, every other week. Patrols were designated and patrol leaders chosen. A safety check for bicycle riding was held for the girls who had their bikes at the meeting. Some of the girls are working on the Cyclist Badge, and this was one of the requirements for it. The meeting was closed with the singing of

Taps.

A meeting of Cadette Girl Scouts was held in Elkhart Saturday. Mrs. Cooper accompanied Debby Cooper, Marcia Owens, Honey Hudson, and Diane Melton. This all day meeting was held in McNaughton Park. There were 90 some Cadettes attending from all of the Indiana Lakeland Girl Scout Council.

He will then be employed with the Hartford Insurance Company.

## Lawn tamer

For complete lawn and garden care,  
nothing's as great as a Gravelly.

The Gravelly Tractor wends its way across any lawn to make a jewel out of a jungle. Although mowing will probably be the lion's share of the Gravelly's contributions to your well-being, it works with a total of 49 attachments to make your life easier. It will dig seed beds, plow, haul, and even plow or blow snow from in-the-way to out-of-the-way. It eats up work... out

front, for safety's sake. Come in, or call for free demonstration. You can be a Lawn Tamer, easily, with our Budget Plan.

## Mentone Methodist Officers Installed

Sunday, June 6th was Officers' Recognition Day at the Mentone Methodist Church. This was for the new officers who were elected for the new church year which begins in June. Twenty nine officers answered the roll call given by Rev. Campton.

The officers came forward to the altar where they were greeted by Rev. Campton who expressed to each one his appreciation for their willingness to accept the responsibility for the church's program. The officers then sang a hymn, "Take My Life and Let It Be" as their dedication for the task ahead.

Rev. Campton asked God's blessing on them as they began the new term of office. The congregation expressed their willingness to cooperate and assist the officers.

## Fashion Clinic Discussed At Meet

The Jolly Workers Girls 4-H Club met at the home of Becky Weiland June 2. The meeting was opened by Karen Moriarty, the president. Pledges to the 4-H and American flags were led by Mary Tevault and Michele Moriarty. Dues were paid and the group discussed the fashion clinic for modeling to be held at 9:30 a.m. June 17 at the Plymouth junior high school. Also discussed were sewing meetings with Mrs. Grossman at the school. The meeting was turned over to the vice president, Janet Moriarty, who asked for demonstrations by Donna Baker on how to make egg nog.

The health and safety lesson was a group discussion with each giving a rule on water safety.

Songs were led by Elaine Grant and recreation was led by Becky Weiland.

Refreshments of cup cakes and fruit drink were served by Becky Weiland and Mary Tevault.

## Today's MEDITATION from The World's Most Widely Used Devotional Guide

### The Upper Room

Thursday, June 10, 1965  
Read John 20:19-29  
(Christ) breathed on them, and saith unto them, Receive ye the Holy Ghost, John 20:22.  
Thomas was not with the other ten disciples when Jesus appeared among them the first night following His resurrection. Therefore, when the disciples later told Thomas that Jesus was alive, he did not have the faith to believe without first seeing and touching the risen Lord.  
The next Sunday, the disciples were again gathered together, and this time Thomas was with them. Jesus appeared as before, and confronted Thomas. Upon seeing the living Lord, Thomas cried out, "My Lord and my God."

This disciple has often been referred to as "doubting Thomas." However, he displayed no less faith than any person who fails to submit his life to the ruling presence of the Holy Spirit. This divine power which God sent to aid His children enables us to dispel fear and unbelief. When we are acquainted with the immeasurable grace and mercy of Christ, we humbly cry, "My Lord and my God, how great is Thy love!"

**PRAYER:** Heavenly Father, we Thank Thee for Thy loving and tender care and provision for our lives. We thank Thee for the Holy Spirit sent to guide and direct us. Bless us in all that we do. May we do it for Thy glory and for the Master's sake. Amen.  
**THOUGHT FOR THE DAY**  
The counsel of the Holy Spirit is the beacon light for our lives. Claudia M. Higgins, Credit Union Manager (California)

## Parson Jones Speaks

Dear Mr. Publisher

Last Sunday I preached on eternity and I had only 8 minutes to do it. My wife said it sounded like a religious version of Readers Digest. She allowed as how the dollar had shrunk considerably, but she didn't know that eternity had got caught in the inflation too. I assured my spouse that it wasn't the eternal that had been cut short but my preaching time.

It's so, Mr. Publisher - they've just about replaced my sermon with causes of all kind. Last Sunday we had reports from the finance committee and the Women's ping pong society. There was also a short announcement by a Father's Day group, plugging cigars and Hallmark cards. By the time I got thru telling where folks could get there polio shots, time had just about swallowed up eternity. Anyhow, the request for time to plug causes is growing each year, so it looks like us preachers might as well try to work 'em in some way.

Like Columbus, I think I've discovered something. I was watching Jack Scar the other night on television and was deeply impressed. His show was about 90% commercials and 10% program. Mr. Scar would make a few cutting remarks and then say, "and now a word from our sponsor." The announcer would then sell everything from songs to sourkraut.

Mr. Publisher, that arrangement will work wonders in our church. First off we'll name our program "sin-busters." I'll talk for a few minutes and then say "and now a word from our sponsor". A fella on the other side of the room will start plugging the finances of the church. After a few enthusiastic remarks he will shout, "and now back to 'sin-busters'." I'll talk a few more words and then switch it over to the ladies aide society. The benefits of this approach are too numerous to mention - but I will anyhow.

First of all, folks won't get so bored with the sermon. Some smart fella once said that a speech oughten to be any longer than the tails endurance. This way they wouldn't get too long a dose at a time. Second, you'd get a chance to plug all the causes that come along. All the committee chairmen could serve as announcers, and get a spot to plug their pets.

Thirdly, that way it would be hard to keep track on how long

the minister preached, cause it would be all broke up. Finally folks would be more likely to listen to it, cause it would remind 'em of T.V. and most people will watch T.V. no matter what's on.

I gotta sign off now and work on my sermon. Next Sunday I'm gonna preach on the thought provoking subject, "Everybody Has To Be Someplace All The Time."

Yours truly,  
Parson Jones

## Atwood Plans Centennial Parade

A big parade is planned by residents of the Atwood community on June 12 to honor the 100th birthday of Atwood. The parade will begin at 2 p.m. with parade formation being planned for 1 p.m.

Prizes will be given to the first four places in the following categories: Old machinery, horses or pony drawn vehicles, riding horses, riding ponies, comedy, and floats.

Every old car which enters the parade will be given a centennial plaque.

Prizes will be awarded immediately after the parade at the judge's stand.

Right now, it's illegal for a man to appear on the streets without a beard and to enforce the law a jail has been provided.

## WELCOME VISITOR

What interests the readers of weekly newspapers?

The Suburban Press Foundation conducted a survey to find the answer to that question, and Editor & Publisher has printed the results. They cast a revealing light on the wants of the millions of people who live in the small towns and the countryside.

As one would expect, local news led the field in readership, with 92.9 per cent of those polled saying they always read it; 6.5 per cent saying they read it sometimes; and only 0.6 per cent confessing they never read it.

Next—and close behind—came editorials and local columns. A mere 0.7 per cent said they never read these.

Third in reader interest was advertising. Only 2.7 per cent say they never read it. All the rest said they always or sometimes read it.

Actually, the whole weekly paper is very thoroughly read. Even the poorest read classification—sports news—drew a combined "always" and "sometimes" readership of 89.1 per cent.

The weekly paper is one of the most welcome of visitors to rural homes. It says for seven days, not just one. And the whole family has a lasting and hearty appetite for just about everything in its columns.

Gas Dryers now have a "dryness" control that actually measures moisture content of clothes... and shuts the dryer off when they reach the degree of dryness you have selected.

Clothes come out of the dryer "just right" for ironing... whether its a load of wash 'n wear or regular cottons or woolens.

It's another good reason modern homemakers choose new, improved Gas Dryers!

THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Daniel 3:9-18; Hebrews 11:32-40

Our God who we serve is able to deliver us... But if not, be it known unto thee, O King, that we will not serve thy gods, nor worship the golden image.—Daniel 3:17-18.

A DECREE went out to the people of Babylon that they should bow down and worship the golden image Nebuchadnezzar set up. Those who did not obey would be cast into the midst of a burning fiery furnace.

Shadrach, Meshach, and Abednego had been assigned to positions of responsibility in the province. They were young and ambitious, and the best way for them to advance would have been to gain the favor of the king. But they loved their God more than personal gain. To be true to God, they could do no other than defy the king's decree.

Therefore, in accordance with the penalty for violation of the decree, the faithful, courageous young men were bound and placed in the furnace. God did not prevent them from entering the burning fiery furnace, but he delivered them from the fire. Their astonishing deliverance so impressed the king that he favored them in the province.

**PRAYER:** Our Father, we thank Thee for great biblical characters who remained true to Thee. May we so live that when the greatest test comes we can confidently believe Thou wilt deliver us. In Thy Son's name we offer our prayer. Amen.

### Perfects Tiny Hearing Aid

A remarkable tiny hearing aid has been perfected by a man who has been hard of hearing for nearly ten years.

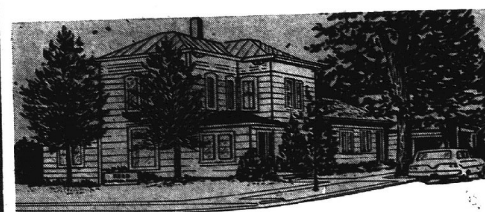

This small device has no dangling cords or separate transmitting units and represents a new unusual resign idea in a product to restore natural hearing.

It was developed especially for those persons who can hear but can't understand. This new hearing instrument provides "ear-level" hearing with the wearer picking up speech, sounds, television and radio at his ear.

Due to the use of transistors, the user cost is extremely low. The instrument weighs only 1/4 oz. It is about the size of a sewing thimble — hardly noticeable yet powerful.

## Flag Day Picnic Ends DAR Chapter Year

The Anthony Nigo Chapter, Daughters of the American Revolution held their June meeting at Mentzer Memorial Park with DAR families as guests.

Small American flags placed on picnic tables, decorated with red, white, and blue made an attractive setting for the chapter's final meeting of the year.

Mrs. Paul Shireman, chapter regent, welcomed the special guests, Mr. and Mrs. Lawrence Guenin of Lafontaine, and Mr. and Mrs. Myron Blue and family of Bourbon, and also chapter families. The invocation was given by Mrs. Max Smith.

Following the picnic lunch, Mrs. Shireman led eighteen members in the opening ritual service. The Combined Chapter Luncheon meeting to be held September 20 in North Manchester, with Dr. Manasseh Cutler chapter as host was announced by the regent. Members are urged to attend since Mrs. Maxwell M. Chapman, state regent will be present at the meeting.

Mrs. Shireman reported a blue ribbon had been awarded the Anthony Nigo Chapter by the National Program Committee for the chapter's outstanding 1964-1965 year book. She thanked the local program committee for its help in achieving this honor, and also expressed appreciation for the cooperation of committee chairmen and members during the two years she served as chapter regent. The national defense report, given by Mrs. Frank Smith, concerned the responsibility every American has of displaying our national flag in the proper manner.

Mrs. Guenin, Northern District Director, installed the new officers with Mrs. Wayne Smalley as regent. Committee chairmen for the coming year were named by Mrs. Smalley and September 17 was the tentative date set

for the fish fry.

DAR Resolutions on Panama Canal-Guantanamo Bay and the support of the Immigration and Nationality Act were read by Mrs. Charles Tucker.

Musical entertainment by the Blue family was enjoyed by the group and Mrs. Guenin gave an interesting talk on Flag Day and the American Flag. She read "What Is A Flag?" and continued with a brief history of the flag. In closing, she stressed the need for Americans to dedicate themselves to the one nation, under God" and the high ideals of liberty, and justice for which our country stands.

Hostesses for the meeting were Mrs. Wayne Smalley, Mrs. James Wells, Jr., Mrs. Glenn Clauss and Mr. Carl Metheny.

The next meeting will be held September 14.

### PROTRUDING EARS

THE child with abnormally protruding ears is a subject for ridicule in his early formative years. In time the child comes to believe that such a deformity makes him an oddity; and he is likely to spend much of his time shunning social contacts.

Fortunately there is now a surgical correction for ear deformity. This technic called otoplasty can change the pattern of a person's life, and the child need no longer suffer the teasing which so often leads to a detrimental personality change.

The details of the method of correction vary, depending on the special problems of each case. Therefore the patient must be studied and the principles of surgery followed as applicable to the individual.

Most otoplasty operations for protruding ears are not performed until the ear is fully developed, which usually occurs at about the age of five years.

The desired result is an ear that appears normal, and modern surgery is making this possible.

those Washington oglers, that people can still make decisions for themselves; and that they don't always decide social matters in the same manner."

## Heart Association Issues New Statement On Diet And Heart Disease

An eight-point program of dietary control has been recommended to the American people June 5th by the American Heart Association as a possible means of lowering the risk of heart attacks.

Saying that diet is one of the more important factors contributing to heart attack risk, the Association called on the public to:

- \* Eat less animal (saturated) fat;
- \* Substitute vegetable oils and other polyunsaturated fats for animal fats whenever possible;
- \* Eat less food rich in cholesterol
- \* If overweight, reduce caloric intake;

Other recommendations emphasized that is important to:

- \* Apply these dietary principles early in life;
- \* Make sound food habits "a family affair";
- \* Seek professional advice if needed to avoid nutritional deficiencies when changing the diet;
- \* Adhere consistently to the altered dietary patterns.

The Association's action came as its Board of Directors authorized for publication a statement, "Diet and Heart Disease." The new statement replaces one issued in January 1961. It differs from the older statement in calling for "substitution wherever possible" rather than "reasonable substitution" of polyunsaturated for saturated fats and in recommending, for the first time, reduced intake of cholesterol-rich foods.

Scientific evidence has been growing, the statement says, that "appropriate dietary control may contribute to the retardation or prevention of coronary heart disease" the basic of most attacks.

For example:

\* Studies of population groups in the U.S. and elsewhere have shown a relationship between the level of cholesterol and other fats in the blood and the incidence of coronary heart disease. Population with low blood fat levels have a lower incidence of coronary heart disease than populations with higher levels.

\* A relationship has been demonstrated between the diet habitually eaten and the concentration of cholesterol and other fats in the blood.

\* In most person (but not all) the level of cholesterol and other fats in the blood can be decreased and maintained "at a lower level by conscientious and long-term adherence to a suitable diet."

The recommendation that overweight people cut their caloric intake is based on an indirect rather than a direct relationship between obesity and coronary disease. Obesity aggravates two conditions — hypertension and diabetes — which have been identified as coronary risk factors. Therefore, the statement says "it is reasonable to strongly recommended control of weight as

well as careful management of high blood pressure and diabetes."

The statement notes also that other factors, such as cigarette smoking and lack of exercise, may increase the risk of heart attack.

## Miss Senff Weds Mr. Berkeypile

Miss Barbara Jane Senff became the bride of Mr. John Wayne Berkeypile Sunday afternoon at the Tippecanoe Primitive Baptist Church. Parents of the couple are Mr. and Mrs. Delbert Senff, R. 2, Bourbon, and Mr. and Mrs. Arnold Berkeypile, 317 Marlow Place, Plymouth.

Elder Elias Sarber, an uncle of the bride, performed the double ring ceremony before an altar graced with white gladioli on either side of the pulpit.

Vocal music was presented by Miss Jeanne Crauder, Mrs. Carolyn Sarber, Merle Sarber, Leon Sarber, and Miss Susan Alderfer. They sang "Laban," "Because," "I Love You Truly," and "Bridal Chorus."

Given in marriage by her father, the bride appeared in a full length wedding gown of daisy eyelet nylon. The fitted bodice had a scalloped neckline and long sleeves ending with bridal points and tiny buttons at the wrist. The satin brocade skirt was straight in front with full gathers on each side forming a train in back. The waist was accented with a large bow in back. Her headpiece was a miniature crown of pearls holding a ballerina length veil of soft nylon illusion. She carried a cascade arrangement of yellow roses with greenery.

Mrs. Allen Shireman, R. 2, Bourbon, sister of the bride, was the matron of honor. She wore a yellow cotton embroidered dress with a headpiece made of the same material in the shape of a flower. She carried a cascade arrangement of white carnations.

Miss Wanda Senff and Miss Bonnie Jean Senff, sisters of the bride, were bridesmaids. They wore identical street length dresses of mint green. Their headpieces were similar to the matron of honor's and matched their dresses. They carried white carnations in a cascade arrangement.

Alfred Berkeypile was the best man and Jerry Senff and Rex Senff were groomsmen. Allen Shireman was the usher.

Miss Judy Ann Culy was the flower girl. She wore a dress of yellow embroidered material fashioned with puff sleeves and a rounded neckline. She carried white carnations in a basket.

A reception was held following the ceremony in the Bourbon Park pavilion with approximately 150 guests present. The decorations were yellow and green, in keeping with the bride's color motif. Serving were Mrs. Ernest

Baker, Mrs. Melvin Truex, Miss Carol Holdeman, and Mrs. Jerry Senff. Miss Shirley Sarber was in charge of the guest book and the gifts were handled by Miss Kay Farrell.

The bride chose a white cotton suit with a navy blouse for her going away outfit. The couple took a short trip to southern Indiana and are at home at R. 2, Argos.

The bride is a 1965 graduate of Triton High School and is employed by Kroger in Plymouth. The bridegroom is a 1965 graduate of Plymouth High School and is employed by Hatfield Auto Parts in So. Bend.

#### SPRING TACKLE "TRAINING"

Anglers can take a tip from the pre-season warmups and training now underway in the baseball camps.

Seeing that equipment functions perfectly is just as important to a fisherman as good physical condition is to a touted 20-game winner or the team's "big stick."

Getting gear in shape after a winter's layoff is vital to the success of early trips afloat, state the folks at Mercury Outdoors. If you don't, you're likely to discover all sorts of problems... and all at the wrong time.

While most of us were admonished to prepare our gear last fall, such good advice has a strange habit of falling on closed ears... particularly if the geese were flying. So haul out the tackle box NOW, while you have the time!

Thoroughly clean rods, re-lubricating according to the maker's specs... but use grease sparingly. Check lines for signs of weakness; snip off 10 feet of monofilament, if you haven't already done so. Remedy that fly line from the reel and hang in loose coils, if only for a short period.

Lures should be touched up with paint, if needed. Hookhooks to a little sharpness. Polish spoons and spinners like new. If they don't take a bright shine, replace them.

Though reels are the most critical elements in tackle, inspect rods carefully. Look for loose wrappings, ferrules and reel seats. Observe carefully the condition of the tip where the line runs against the guide; any indication of fraying calls for immediate replacement.

Plenty of soap and water, mixed with a generous portion of old-fashioned "elbow grease," will do the job on most other tackle by the Mercury folks.

Spring conditioning prevents excuses. Get started now!

Mrs. Jim Miller read poems "Just Like Dad" and "Dad's Goin'" for meditation.

Mrs. Baker of Warsaw demonstrated how to use "Resuscitator Annie", a dummy used for mouth to mouth resuscitation. Several members also tried using the dummy.

Mrs. Elias Bazzini showed slides taken on their trip to Guatemala last summer. Delicious refreshments were served to 18 members and four guests.

## Club Hears Credit Information

The Mentone Home Demonstration Club met June 10 at the home of Mrs. Agnes Rans. Mrs. Smith, vice president, opened the meeting with the pledge to the flag and the group sang "America, the Beautiful". The history of the song of the month, "Beautiful Dreamer," was given by Mrs. Gates who also gave meditation using poems, "Bridge of Life" and "My Gardens."

Health and safety remarks on sunburn were given by Minnie Busenburg.

Mrs. Blanche Whitmyer gave

the lesson on spending the family income. She brought out facts about credit.

The secretary's and treasurer's reports were read and accepted. Sixteen members answered roll call by telling their most cherished possession.

The meeting closed with everyone repeating the club creed. The hostess and her assistants, Mrs. Adleson and Mrs. Gates, served delicious refreshments.

## Parson Jones Speaks

Dear Mr. Publisher

I'm in hot water again and I can't even swim in cold water. Last Sunday during the sermon I told a joke and the young folks laughed out loud. One ole sister was so shocked that her teeth fell out on the floor. After the service most of the grown people dodged me like I had the leprosy. When I got home the phone was bouncing up and down. One of my deacons allowed as how I had done committed the unpardonable sin - telling jokes in church. When I told him I thought a good joke was good most any place you told it he hung up. Anyhow by the next time you hear from me I may be a has-been preacher. (That is as low as you can go and still be a U.S. citizen.)

Ain't it a pucking shame, Mr. Publisher, how everybody's losing their sense of humor. Even the funny papers ain't funny no more. Pore ole Dick Tracy spend all his time inventing new gadgets like TV wrist watches. They've got comics like Payton Place, that show how miserable life can really be. Then there's Ben Casey. He's in the funny sections now, cutting out gall bladders and snapping off peoples' heads.

I'll declare if it ain't getting to the place where the funny page is about as sad as the front

page.

Another problem about getting folks to laugh now-a-days, Mr. Publisher, is that everybody's skin-skinned they won't allow a joke told on them. The colored folks cry "discrimination," the Jews "antisemitism," the Catholics "bigots," the Protestants "blasphemy," and the white folks "communist". Everybody so dadburned over whelmed by his own importance that he can't take a little funny crack about him. Pretty soon, the whole world will be made up with nothing but "bawlers". We'll walk around everywhere we go with a crying towel. We'll be dead with emphasis on the dead part.

Mr. Publisher, I always looked upon humor as one of God's best tools. It's a ego buster. I got a feeling that the Almighty would be a little better pleased with a few more laughs in Church and a few less sour looking faces. Its like my ole lady said, "Christianity got started in a maturity ward - not a funeral home." If I had my way I'd fix it where everybody would get at least one good belly laugh each Sunday. Wouldn't it be funny if we found out you could laugh the Devil out of a fella a hole lot quicker than you can scare the hell out of him.

I gotta close now. By the way, do you know what the chicken said to the rooster as the farmer walked across the yard? "There's the guy I'm laying for."

Parson Jones

## Odds And Ends

by Ann Sheets

Once in a while some brave soul asks me why I'm getting so gray, and I always give him or her some flip answer about the high degree of thinking I do or even hint that it might all be an optical illusion.

The truth is, of course the little gray hairs are there and they're being joined by others just like them. No optical illusion they and not too much of a scar from high thinking. They're coming from the realization that instead of having two sons as I always supposed, I really gave birth to a squirrel and a mountain goat.

Todd, the squirrel, had so filled the toy room with rocks, stones, and assorted "scientific" apparatus it became a threat to mankind. We redecorated it a few weeks ago in a burst of housecleaning frenzy and it so astounded him that he moved the rest of the stuff to the basement and his tree house. We then tickled the unfinished room which has been a collecting area for years and years and he, under the guise of destroying the old blind rollers, broken tables and chairs and what-have-you, put all that in his tree house. Now he won't play in the tree house. He says there's not enough room but he still won't throw away a thing. Guess I'll have to start cleaning tree houses when I spring clean.

Doug, the goat, can't walk, but can he ever climb. He can scale the kitchen table, an end table or the arm of a chair as if it were nothing. Moving his feet back and forth in front of him is too great a challenge and he folds like an accordion. But, he'll walk around everything holding on with one finger until he sees something to scale and then he becomes a ball of deranging.

He also eats leaves. Todd inveigled me into a game of catch a few nights ago and in a few minutes he taught me he could throw a lot harder than I could and found out I couldn't run any better than I ever could, which was not at all. I did notice while running that Doug

seemed to be eating something and he obligingly spit it out for me. An apricot leaf. The next evening it was a clover leaf and the following night he settled for a weed. Yesterday I saw him eyeing my best plant which is located high on a shelf. It's easy to see he's planning to kill two birds with one stone and climb up and eat the thing.

In the meantime, I'd better sign off. The mountain goat is rocking his crib, it's time for the squirrel to get up and get ready for Bible school, and their old gray-haired mother needs to do something about those old gray hairs.

## LINDA LOU BEIGH INSTALLED AS WORTHY ADVISOR

Linda Lou Beigh, daughter of Mr. and Mrs. Leonard R. Beigh, was installed as Worthy Advisor of Akron Assembly #91, International Order of Rainbow for Girls, Saturday, June 5 at the Akron Masonic Temple.

The installing officers were Linda Nicodemus, Worthy Advisor; Shelia McCloudhugh, Marshall; Roxie Arnold, Recorder and Keeper of the Book & Pen; Rev. Claude Fawns, Chaplain; Thelma Kuhn, Pianist; and Gail Hammond, soloist. The officers, after repeating the Lords Prayer, were escorted in the Assembly room where they signed the Book of Times.

The East was decorated with Linda's motto, "God is Always With You," in lavender letters. At the base of the pedestal, draped in lavender and white, were her symbols, the open Bible and Cross. The West held her watchwords, "Faith, Hope, and Charity," also in lavender. At the base of the pedestal was a log with lavender and yellow roses vining over it.

ers, "All the Flowers in Gods World" symbols, "Open Bible and Cross."

Linda introduced her family, her parents, Mr. and Mrs. Leonard R. Beigh; Grandmother, Mrs. Arlie Beigh; Aunt, Bernice Beigh. She also introduced Eugene Marshall, Grand Usher of O.E.S. Grand Chapter, and his wife, Frances.

Linda thanked her two cousins, John Rhoades and David Beigh for their help as ushers.

Roxie Arnold, Jr. past Worthy Advisor, was escorted to the altar to sign the Bible, while Gail sang, "Climb Every Mountain."

She was then escorted through the Garden of Memories where every color station gave her a Rainbow flower and a verse to go with it. She was then escorted to Hope, Worthy Associate Advisor, and Charity, then to the East where Linda presented Roxie with a gift from the Assembly, a beautiful Rainbow pen.

Mrs. Maby was conducted to the East, where she presented the Majority Degree to Mary Alice Maby, Linda Bouse, and Shelia McCloudhugh. They were presented their diplomas and a gift from the Assembly.

The guests were invited to the dining hall for refreshments after the retiring march. The table was decorated with Linda's colors. A beautiful cake, made by her Aunt Bernice, of an open Bible with her motto on it with a yellow background. Lavender candles in yellow flowered and silver candle holders were placed on each side of the cake, which was served to 75 guests.

## Enrolled In Preacher's License School

Robert Ray Adams, 401 So. Franklin St., Mentone, is one of thirteen Hoosiers who are charter members of an experimental two-week training school likely to become the first hurdle for careers in the Methodist ministry.

Traditionally in Indiana the first step to becoming a Methodist minister has been to gain a license. It permits lay preaching. The license is acquired by passing tests on certain assigned books.

According to Dr. Robert Eccles, professor of philosophy and re-

ligion at DePauw, under the new venture the licensing process will be placed in a "school framework."

The curriculum includes daily lectures on theology and church history, the Bible, Methodist discipline and the work of the ministry. Examinations and term papers figure in too as well as regular chapels planned by the ministers.

The summer session is being supported by and operated under the direction of the Methodist Church's three jurisdictional conferences in the state.

## How To Be A Good Passenger

Back-seat driving—done intelligently—can be a big help to the actual driver of the car, according to the Chicago Motor Club.

Here are some hints from the motor club on how to be a good automobile passenger:

1. Never startle the driver. Don't shout "Look" to call the driver's attention to a beautiful sunset or some scenic attraction. As his involuntary reflexes snap his head around at your exclamation, the car ahead may suddenly slow down or another car may pull out from a side road.

2. Don't irritate the driver by continuously pointing out hazards, traffic signs and driving conditions that are perfectly obvious to him. Unless a real emergency is present, wait a few moments before pointing out that the speed limit has been reduced or that there is a stop sign ahead. Only if you're reasonably certain some point has escaped the driver's attention should you sound off.

3. Learn to read maps. If possible, take the full responsibility for navigating on long trips.

asleep. Stay awake and keep the driver company—or he may join you in slumber, with disastrous results.

Read road signs and other bits of interesting information aloud. Don't just point them out to the driver and cause him to take his eyes off the road.

4. On long trips, don't fall asleep. Converse with the driver, but don't argue, shout or get him angry.

6. Be helpful. Light his cigarette, tune the radio, unwrap the candy bars. If the driver tries to do two things at once, they may be the last things he ever does.

7. Too many people take driving for granted. It's a full-time job for one man, but if the passenger will think of himself as a co-driver, he will make motor-ing easier for everyone.

## Warm Up Gradually And Quit Early Warns Heart Association

Mr. Middle-Aged American has two weeks of pay coming to him this summer, and he is planning to live it up every day.

He will try to cram an entire summer's worth of activity into his 14 days before settling back into the old leather-upholstered seat of being a spectator. He is going to get his money's worth—even if it kills him.

Vacations are for fun and games, the Indiana Heart Association agrees, but reckless playing, like reckless driving, can have its tragic consequences. A few simple summer safety precautions can give Mr. Vacationer his money's worth of enjoyment with a bonus of better health.

Rule Number One: You are not as young as you once were. And in all probability you are not in top condition either, which is even a bigger handicap.

No one is suggesting that you are ready for the rocking chair routine. Physical activity is good for you—in gradually increasing doses. If you use your pre-vacation weekends for warm-up activity you will have a good head start. And you will find that each day's round of activity gives you an extra reserve for a longer next session.

Rule Number Two: Know when you have had enough—and quit. "Just one more" race to the float or another game of basket ball can push you to the edge of collapse, especially if one of your youngsters is setting the pace. On a very hot day, with high humidity, there is danger

of heat exhaustion or heat stroke, even for the young athletes who overexert.

Knock off when you feel tired, and don't be ashamed to admit it. In very hot weather, play only during the cooler hours of the day, and for briefer periods; to offset loss of salt through heavy sweating, sprinkle more salt on your food.

You have pushed yourself too far if:

You are out of breath and your heart is still pounding several minutes after exercise.

Marked weakness of fatigue is still present an hour or two later.

Rule Number Three: Over-eating adds to the heart's work. Overeating followed by exertion is asking for trouble. The Indiana Heart Association reminds you that professional athletes eat lightly before they go into action.

Rule Number Four: If you have or suspect you have any degree of cardiovascular disability, see your doctor before you go on vacation. He will recommend limits and prescribe medication where needed.

Follow this advice and you will have a good vacation and will be around this winter to talk about it.

Have fun.

## Odds And Ends

by Ann Sheetz

The invitation couldn't have come at a more inopportune time, but it was there. A shower was to be held for an old friend, and I was invited and wanted to go. A glance at my wardrobe showed nothing suitable and I didn't even have to check my wallet to know there was nothing in there that would remedy the situation. I did, however, have a large collection of patterns and in checking them over I came across a misleading little number that said it only had four main pieces and was simple as pie.

I managed to work the material and a zipper into the budget and then I threw myself into my work. The dress cut out nicely but I found I'd used all the material and didn't have any left for the belt. That, plus I didn't have any innerfacing material. So, next day I got the inner facing and 8c worth of material, enough for the belt.

The innerfacing fit fine and the dress was really going good until I started sewing. Then for some reason I sewed the center back to the left shoulder. It took quite a bit of picking but I got that out and finally sewed the right seam. That seam fell out. Somewhere along the line the sewing machine's tension had become undone. First it was too loose and then too tight. Todd had swiped my little screwdriver so I had to work with a paring knife which didn't work at all. After that the tension (mine) was pretty bad but I gamely sewed only to sew the right side to the wrong side. That did it and off to bed I floundered.

The next evening the pieces were still incorrectly joined but finally yielded to being picked out and put together right. Now I had an ungainly looking so-called garment. The sleeves and side seams had to be sewed together but not until the sleeves were lined with bias tape. Then wait another day and get tape and then back to work again.

## State Fair Rodeo To Feature TV Stars

The biggest and most belligerent: Brshamas, the saltiest broncos, the wildest steers, and the most evasive calves...all are being sorted out and slated for a trip to Indiana to test the skill of America's best professional cowboys at the big rodeo in front of the Grandstand.

Tommy Steiner's World Championship Rodeo will be a feature attraction at the 1965 Indiana State Fair. Appearing with the rodeo will be three of TV's top rated cowboys stars,

The dress balked at every turn but finally on Saturday morning after I'd located the last bit of facing material in the bottom of the toy basket as well as the 8c worth of belt material, I managed to get everything done. Several errands took me away from home all afternoon and it was 6 p.m. before I got the hem in. The shower was at 7:30 in Kewanna, a distance of 27 miles from our house. By 6:30 the hem was in and the dress pressed and by 7 I grabbed my gift and made a rapid departure.

I arrived late, of course, and made a grand entrance in my new dress which had hiked up to my knees. Looking around I decided that was more fashionable anyway and sat down in relief.

A friend whispered, "I like your dress," and I brightened immeasurably. "Really?" I said. "I made it myself," the last in a conspiratorial tone.

"Was it hard?" she whispered back.

"No, not at all," I lied, "only four main pieces - just simple as pie...."

'Little Joe Cartwright' of NBC's Bonanza and 'Doc Adams' and 'Festus Haggen' of Gunsmoke's television show fame. 'Little Joe' will appear at four shows, August 28 and 29, while 'Festus' and 'Doc' will round out the schedule with two shows daily on August 30, 31, and September 1.

Rodeo fans will see such thrilling competitive events as bull riding, calf roping, saddle bronc riding, steer wrestling, a cowgirls' barrel race, and many other events where top national cowboys have a chance to earn money and RCA (Rodeo Cowboy Association) sanctioned points toward national championships.

Rev. Verdean Owens, assisted by Rev. A. E. Woodcock, performed the double ring ceremony before an altar decorated with vases of white gladioli, blue California daisies and pink carnations. A pair of seven branch candelabra, palms, and a wedding arch decorated with blue and white daisies completed the altar decorations.

Mrs. John Bundy, organist, presented a musicale which included "Air" by Tchaikowsky, "The Swan" by Saint Saens, Processional "Trumpet Voluntary". A harp solo was played by Prof. Lillian Phillips of Ball State University and Vicki Lynn White of Ball State University presented a violin solo.

John Bundy sang a solo, "Jesus Shepherd Be Thou Near."

The bride and groom sang a duet, "If God Left Only You" and "Thou Art My God."

The bride, given in marriage by her father, chose a light ivory peau de soie gown which featured a portrait neckline and long sleeves that extended to bridal points over the hands. The bodice was touched with alencon lace. The bouffant skirt extended from a basque bodice, high-lighted with two bows in the back which extended into a chapel trail. A bouffant illusion veil was secured to a crown of pearls. She carried a cascade arrangement of white roses, white carnations of ivy and white satin garlands of ivy and white satin streamers.

Gratia Ann Waskon, sister of the bride, served as matron of honor. Bridesmaids were Misses Emma Perry of Bourbonnais, Ill., Judy Thomas and Melanie Hamilton of Richmond and Nancy Fanning of Tippecanoe. They wore identical two-toned taffeta gowns styled with a fitted sapphire bodice having elbow length sleeves edged by Swiss lace of the same color. The waistlines were accented by the lace and narrow taffeta bands ending in small back bows. The controlled floor length skirts were of the light blue taffeta. Their sapphire taffeta bow hats were worn with

short veils.

Keith Cook served as bestman. Ushers were Robert Thomas, Jerri Gurtner, Paul Hartman and David Spittal. Brad Davis was the ring bearer.

Loretta Sue Fanning was flower girl wearing a dress styled like those of the honor attendants.

A reception was held at the Student Center of Ball State University for 250 guests after the ceremony. White gladioli, blue daisies, and blue satin bows decorated the white table cloth. The bride's cake was a traditional tiered cake and the groom's cake was chocolate decorated with a musical theme.

The bride chose a black sleeveless sheath with a black net over coat for her going away dress. The couple will be at home in New Baltimore, Mich. after September 1 when they will return from a musical tour of Europe.

Read Ephesians 2:1-10

Keep in the love of God, and

wait for the mercy of our Lord

Jesus Christ, to bring you to

eternal life. Those whom you

pity in their uncertainty save,

snatching them out of the fire.

—Jude 21-22 (Godspeed)

In writing his classic little

book "The Greatest Thing in the

World," Henry Drummond gave

us one of the most powerful an-

alyses of love ever written.

To some missionaries leaving

for their fields of work, he said:

"You can take nothing greater

...than the impress and reflection

of the Love of God upon

your own character. That is the

universal language... From the

day you land, that language of

Love, understood by all, will be

pouring forth its unconscious

eloquence. It is the man who is

the missionary, it is not his

words. His character is his mes-

sage."

One ingredient of God's love

is His compassion. His pity. His

mercy. As we turn to Christ

daily and ask for this quality for

ourselves, we grow in compas-

sion; and the spiritually needy

around us will come to us, sen-

sing our care. We are able to

lead them to Christ, who can

satisfy their every need.

PRAYER: Our Father, may we

have divine compassion for

others—compassion which will

draw them to Thee for new life,

new decision, new service. May

our hunger to serve Thee never

diminish until Thy will rules in

the hearts of all men and na-

tions. Through Christ our Re-

deemer. Amen.

THOUGHT FOR THE DAY

"The one great need in our

Christian life is love, more love

to God and to each other."

(Amy W. Barton, Secretary

of District of Columbia)

## Parson Jones Speaks

Dear Mr. Publisher

Have you seen the newest translation of the Bible? Its called the RHV. That stands for the Revised Hollywood Version. This translation has been out for a long time, even though folks ain't heard of it. Most of the Bible Movies are based on it. That's the reason its awful hard to recognize some of the stories when Hollywood gets through with 'em. When folks like Liz Taylor and Ingrid Birdman helped to translate this RHV you can understand what the 10 Commandments will look like by the time they reach the screen. And, when you see Moses in one picture leading the children of Israel to the promised land, and in another movie as a alcoholic, this RHV gets a little heavy on the stomach.

But Hollywood ain't the only group translating the Good Book. They've got so many different translations that its hard to know which one to pick. Pretty soon they'll have a Bible Supermarket where you can get all different brands of the Scriptures. We used to have the King James and the American Standard version. Now we got RSV, ARV, NEB, WT, MT, SGT, and the Good Lord knows how many others. Hezekiah used to say that he thought every denomination oughta have its own translation. That way they could prove their own points a hole lot better.

Mr. Publisher, from what I can see here in our church we don't need no more translations of the Bible. It ain't the Good Book that needs revising - its the people. The Lord wrote the Bible so's He could revise us sinners. Well sir, its a pretty hard job changing sinners. Its about like turning a pole cat into a kitty cat. Us wicked folks have been reading the Bible for along time and we finally came to the conclusion that something had to change. We translated the Bible Mr. Publisher, it ain't helped much, cause it don't make no difference what you call sin and hell they just keep hanging around. Its just like my wife said. She allowed as how you do away with Hell that only leaves nothing and nothing is worse than Hell.

Mr. Webster who writes dictionaries says that translate means "to remove to another position". It looks to me like its the people who need to move, not the Good Book. So, I propose that we call a halt to this new version fad, and get on with the real business at hand - changing sinners. Lets get a N-BV - that's the New Birth Version. Lets worry less about the Gospel according to St. Luke, and more about the Gospel according to Hezekiah, and Joe Blow.

Well, I gotta sign off and work on translating myself.  
Yours truly,  
Parson Jones

## Strawberry Plants Need Care

Lafayette, Ind. When your strawberry plants stop producing this spring, mow off the leaves, recommends Don Scheer, Purdue University extension horticulturist.

This is the first step toward a good 1966 strawberry crop.

You can mow the old strawberry bed with your power lawnmower at a height of about 1½ inches. This will remove leaves, but allow crowns to remain. Rake up and burn the old leaves.

After removing the leaves, chop out most of the plants to leave narrow rows eight to 10 inches wide. Go into these remaining rows and thin so there is a plant about every eight inches.

Scheer says this thinning eliminates crowding and disease. It simply allows your strawberry bed to have a new start.

The final step in rejuvenating your strawberry plants is to apply fertilizer. Use two pounds of 12-12-12 or similar analysis fertilizer per 100 square feet.

## Social Security Information

## Mrs. Harriett Bonine Dies At Age 89

Mrs. Harriett Bonine, 89, whose family was one of the pioneers in settling Newcastle township, died Tuesday at the Miller Nursing Home in Rochester.

Mrs. Bonine had been in ill health the past year. She was born Oct. 8, 1875 in Newcastle township, the daughter of George and Jane Wright Perschbacher. She married Wyle Bonine June 6, 1910, and he preceded her in death Dec. 5, 1949.

Mrs. Bonine's grandparents were among the first settlers in Fulton county and her mother was the first white woman born in Newcastle township. Her father moved to that community as a child in 1883.

Mrs. Bonine was active in the work of the St. John Lutheran church and was organist there for over 30 years. She and her husband operated the Arlington Hotel from 1909 to 1929.

## Is This A Good Advertisement? →

If your advertising could be printed in a special kind of invisible ink that became visible between 5:00 and 5:01 Tuesday and then disappeared, the chances are you wouldn't think such an ad was worth much. You'd only reach a small fraction of the total newspaper's audience—those who happened to be reading the newspaper Tuesday afternoon at precisely the time your ad appeared, and who in fact happened to be turned to the page your ad was on at that precise moment.

And yet this is what happens to advertising in media other than newspapers. A survey showed that 75 per cent of all shoppers check the newspaper ads before making their main shopping trip.

Newspaper messages are available at the convenience of the customer. He doesn't have to be at a certain place at a particular time of day or night to get the message.

Perhaps equally important—he looks at newspaper advertising because he wants to. It is never an unwanted interruption.

## Thanks Doc, For Leaving Your Gate Open

by Dorothy Blalock

Beginning in June, the street past Dr. and Mrs. Davison's home is more frequently and slowly traveled. Doctor's roses are well-worth a round-about trip home.

Paul's Scarlet Climbers bloom

in profusion on the arch over the often opened gate, varicolored tea roses flank the house, and behind the white fence are more roses.

The roses are a lift to the spirit and an encouragement to would-be gardeners. Again we say, "Thanks Doc for leaving your gate open."

Read Matthew 17:14-21  
Which of you by taking thought can add one cubit unto his stature.—Matthew 6:27.

The little boy jumped down from his chair at the dining room table and ran to stand beside his father. Stretching his frame as far as he could, he asked, "Am I big enough now, Daddy?"

This was a daily ritual, for the father had promised him a dog when he became big enough to own one. The boy did not think of this as being something in the far distant future—it was something attainable right away. He was not growing by being anxious; he was growing by eating plenty of nourishing food each meal, and he wanted a daily check on his progress.

Jesus Said: "Ask, and ye shall receive," "but sometimes we are not big enough for what we ask. Let us not waste our time in anxieties, but have faith in God and continue our spiritual growth. We can measure our progress, not by asking, "Am I big enough now, Father?" but by the way we measure up to the fullness of Christ.

PRAYER: Our heavenly Father, may we be thankful each day to receive what that day provides, content in the knowledge that Thou art our guide in all of life.

Through Christ our Lord. Amen.

### THOUGHT FOR THE DAY

Oh, that my spiritual growth today may measure up to what God expects!

## Parson Jones Speaks

Dear Mr. Publisher

It's round-up time in Texas. Believe it or not, its also round-up time at our church. Only thing is, we're out trying to chase in our inactive Sunday School members instead cows. Course, we did find some of 'em as stubborn as bulls.

This year we had a sight of inactive Sunday School students. One of the main reasons we always count the ones present is cause it don't take as long as it does to check the absent. We don't have as much trouble with the kids as we do the adults. Just about every home we went into the grown folks allowed us how Sunday School was kids stuff.

One place I went the man of

the house swore he wasn't gonna stoop to such religious kid-stuff. I stayed at his place 30 minutes but he didn't say but this one sentence the hole time. He was too busy watching Mighty Mouse on TV. Every once in a while he would jump up and down and holler when something exciting happened to Mighty Mouse.

One inactive member I had to track down on the golf course. "Kid stuff", that's what he kept telling me Sunday School was. I followed him after he hit the ball and helped him for 2 hours to hunt it in the woods. He would hit the little ball again and we would chase it down. going over the course with this fella and seeing him in action, it was easy to see why such a mature man would object to coming to Sunday School.

One couple was getting ready

to go to a bridge party when I got there. They told me they didn't mind their kids coming to church to study the Bible but they had far more important things to do. Well sir, I reckon sitting for hours and looking at little pieces of paper is a pretty soul-shaking thing. Come to think of it you don't see too many kids playing bridge. I ain't figured out yet whether its because playing cards is so grown-up or whether kids have just got better sense.

Mr. Publisher, I reckon you can see I don't go for all this kidstuff baloney. Adults need Sunday School a sight more than kids. Fact is, I'm not too sure that we don't buy the play pens and pacifiers for the wrong group. It we could only teach about Mighty Mouse, golf and bridge at Sunday School instead of about God I reckon we would get more adults to come. Then when we died we could all go to the golf course and spend eternity.

I better close before somebody accuses me of calling golf and card playing kid-stuff. That's the unpardonable sin.

## Peace Corps To Test On July 10

An opportunity for local area residents to offer their abilities to the Peace Corps will come at 9 A.M., Saturday, July 10, at the So. Bend post office, room 209, Window 15.

The opportunity is the Peace Corps Placement Test, which is not passed or failed and you can't study for it. It measures general aptitude and the ability to learn a language. If, for example, test scores indicate limited language acquiring ability, the Peace Corps tries to place the applicant in an English-speaking area. The test is used by the Peace Corps only as a tool in the matching of Volunteers and jobs. The Peace Corps application is the most important indicator of suitability for Peace Corps service. It must be filled out and brought to the exam unless previously submitted.

Applicants should plan on about one and a half hours at the testing centers, unless they wish to take the Spanish or French language achievement test, which requires an additional hour.

A BALCONY SCENE enacted daily in Chicago may never excite Shakespeare buffs but it's still one of the hottest acts in the city. The performers are three flamecutting machines turning out precision-cut steel parts on a balcony built by a metalworking company during World War II when space and building materials were at a premium. The machines, designed by National Cylinder Gas, Chicago, operate high above the production floor on a continuous rail more than 134 feet long, one of the longest in the world.

# How repeal of the excise tax will affect your telephone bill

Federal Excise Tax reduction has just been approved by Congress and signed into law by the President. The result: Substantial savings for all telephone customers.

The 10% tax on telephone service will be lowered to:

3% .....	on January 1, 1966
2% .....	on January 1, 1967
1% .....	on January 1, 1968
None .....	on January 1, 1969

In essence, this means your telephone bill (long distance service) will eventually be reduced.

General Telephone has pointed out, on frequent occasions in the past, that the tax was inequitable (tax not levied on other utility services) and has been removed.

We are pleased that Congress has voted to repeal the tax, and . . . . . we're happy to announce that savings will be passed on to you, our customers.

## GRASSROOTS OPINION

**ST. LOUIS, MO., LABOR TRIBUNE:** "A recent Associated Press release from Moscow told of the sad tale of Aleve Medushenko, a self-taught village fiddler... An examination of the rich-toned instrument Alex played for 43 years carried the following inscription: 'Nicolo Amati, Cremona, 1645.' Thus it was learned that Aleve's violin was a priceless Amati—the teacher of an ever more famous violinmaker—Stradivarius. So, for art's sake, the U.S.S.R. took Alex's fiddle away and put it in a museum where it can be looked upon but not played. Now, had Alex lived in our communist called rotten 'capitalistic' America, he would have kept his violin, and probably been featured on TV as 'Al and His Amati' at a weekly four figure salary; or sold the instrument for a 'hundred grand' or more, minus the 25 per cent capital gains tax, and lived comfortably ever after."

**LITTLE VALLEY, N.Y., HUB:** "President Johnson has asked all citizens to stay at home this year and 'see America' in order to get a better balance of payments and less outflow of gold. But the President's daughters have stated they will tour Europe this summer... Will someone please explain this for us?"

**LONDON, OHIO, MADISON PRESS:** "Obviously, each generation should pay its own way in life. It is grossly unfair for one generation to pass laws that impose staggering burdens on the next generation. In the case of war, in which a country is fighting for its life, one can understand the accumulation of debt. But for a country to go

deeper into debt, when it is at a peak of prosperity, is a cruel and unfair act directed at the young."

**NORWALK, CONN., HOUR:** "More than 350 Americans have been killed in Viet Nam, and the total grows almost daily... In the last three years, exports by America's allies to the Viet Cong aggressors have increased 25 per cent, and their purchases from North Viet Nam have nearly doubled... What the United States needs more than sympathy is allies. Perhaps the welcome announcement by Australia that is sending 800 troops to help U.S. combat forces will cause some soul-searching among those who peak one loyalty but practice another."

### FARM NOTES

More than 203,000 feeder pigs were shipped into Indiana during the first five months of 1965, according to the Indiana state Veterinarian. This is 30 per cent fewer than during the corresponding period of last year.

Hoosier watermelon growers will have 6,200 acres for harvest this year, report state-federal agricultural statisticians at Purdue University. This is a five per cent acreage increase over 1964.

When soybeans seeding is greatly delayed, solid seedlings often outyield row seeding, say Purdue University extension agronomists. Seed one and a quarter bushels of beans an acre when a wheat drill is used.

Indiana peppermint growers indicate they will harvest 5,800 acres, five per cent more than the 1964 acreage, according to state federal agricultural statisticians at Purdue University. Spearmint acreage for harvest will be 2,000 acres, 13 per cent fewer than last year.

Required tests and vaccination for show animals should be completed well in advance of the exhibit date, remind Purdue University extension veterinarians.

### Grain Bins To Be Sold

A total of 61 surplus Government-owned grain bins are to be sold in Fulton, Jasper and Benton Counties by auction on Thursday and Friday, July 8th and 9th, reports Leonard C. Pound, Chairman of the Indiana ASC State Committee. Sales will be held at 10 o'clock on July 8 at Rochester and at 2 o'clock at Kewanee.

A portion of the bins will be dismantled for sale. Mr. Pound pointed out that the dismantling of bins affords buyers from distant points the opportunity to obtain bins with a minimum of time and travel. THIS SHOULD BE OF PARTICULAR IMPORTANCE TO OUT-OF-STATE BUYERS.

Persons desiring to inspect this property prior to the date of sales may do so by making arrangements with the ASCS county offices in Fulton, counties.

Anyone desiring additional information on this sale or future sales of surplus CCC bins should keep in touch with the local ASCS county office at 513 Main St. Rochester, Indiana.

## Newcomb-Davenport Vows Said

Miss Kathleen Ann Newcomb became the bride of Donald R. Davenport Sunday afternoon in the Walnut Church of the Brethren. Parents of the couple are Mr. and Mrs. Alvin Newcomb, R. 2, Rochester, and Mr. and Mrs. Raymond Davenport, Plymouth.

The Rev. Russel Good of Argos performed the double ring ceremony before an altar graced with palms and baskets of summer flowers.

Mrs. Veulah Hoover, grandmother of the bride, was the pianist, and she accompanied Mrs. Norma Weaver and Jim Winenger, aunt and uncle of the bride, as they sang "God Gave Me You", "As We Travel Through Life Together" and a prayer version of "On Promise Me." Mrs. Hoover also played "The Holy Hour," excerpts from Tchaikowsky Concerto No. 1, and "Thou Sublime Sweet Evening Star" from the Tannhauser opera.

The bride, given in marriage by her father, chose a gown of chantilly tiered lace which featured a scalloped sabrina neckline, long sleeves ending in bridal points, and a chapel train. Iridescent sequins edged the tiers of lace. She carried a cascade arrangement of carnations and white roses. Her veil of silk illusion was held with a tiara of limestones and pearls.

Mrs. Barbara Winenger, Miss Jean Midaugh, and Miss Janeen Newcomb were the bride's honor attendants. They wore dresses of Nile green peau de soie and reembodyered lace.

Dick Davenport was the best man. Other attendants were Wendell Macfee and Jack Newcomb. Tim Weaver was ring bearer and Terry Newcomb and Cecil Davenport were the ushers.

A reception was held in the church basement immediately following the ceremony. A four tier square wedding cake was featured on a green and white table. Cut glass and crystal candelabra completed the decorations. Serving at the refreshment table were Miss Ann Burroughs, Mrs. Alfred Winenger, and Miss Carolyn Winenger. Others assisting were Misses Bonnie and Mary Winenger, Mrs. Mary Ault, Mrs. Alberta Midaugh, and Mrs. Marcie Becker. Miss Diane Weaver was in charge of the guest book. Jean Midaugh, Janeen Newcomb, Barbara Winenger and Diane Weaver assisted at the gift table.

The bride chose a dress of blue and white whipped creme crepe for her going away outfit. Following a trip to Niagara

Falls the couple will be at home at R. R. 2, Plymouth.

The bride is a graduate of Talma High School and is employed at Hart Schaffner and Marx in Rochester. Mr. Davenport is a graduate of Plymouth High School and is employed by Elcar Coach in Bourbon.

## Vacation Cut Short

Mr. and Mrs. Dewey Whetstone, daughter, Mrs. Doris Leslie and her boys, Bruce and Larry left early Saturday morning for Diamond Lake at White Cloud, Michigan, at the edge of Manister Forest. They planned to do a lot of fishing but due to high wind and storms there were no fish. Damage from high winds was reported in the near vicinity and Mr. Whetstone saw two funnel clouds which did not touch ground.

Three-year old Larry ran a high fever and became quite sick, having to be taken to the doctor while there. All returned to Mentone. Wednesday Larry is much better.

## Certain Power If Used

Having the Greatest Of All Books in your home, yet having it in the bookcase unused, may be likened to a house wired for electricity but in which the connection switch has never been thrown to make use of this source of power. The family Bible is a perpetual source of spiritual light and understanding, but to be of value its power must be released through reading, study and application.

Many benefits accrue from its use. It can teach you the part that you play in the universal plan, once you feel certain and sure of yourself in whatever you have to do. It is the best and surest of all cures for negativism (dark thoughts which tend to freeze personality.) To study this Book is to learn to live vigorously and through your Church affiliation and instruction to acquire a fellowship that is spiritually alive. In proof of these statements consider the many lives that have benefited and been transformed through the power of the Holy Scriptures.
