Judge Obermiller, the 'Spanking Judge', Will Speak At Mentone

Judge William J. Obermiller of the City Court of Whiting, known throughout the country as the "Spanking Judge", will be the guest speaker at the March 9 meeting of the Burket-Mentone-Talma P.T.A.

P.T.A. co-presidents Mr. and Mrs. Jerry Kralis said they felt extremely fortunate to have obtained Judge Obermiller and reported there would be baby sitting facilities available and that a film would be shown for the youngsters.

Judge Obermiller recently spoke before the Kosciusko county teachers, and it was reported by a teacher with 30 years of experience that no one had ever moved so captivated an audience as did Judge Obermiller. The teachers honored him with a standing ovation.

The Kralis' urge everyone in the surrounding communities to attend and further urge that those attending come prepared to ask questions about the problems facing their personal or community life.

All high school juniors and seniors are extended a special invitation to hear Judge Obermiller.

Judge Obermiller has appeared on national TV shows in Hollywood, New York, Cleveland, Dayton, and Indianapolis and has appeared on *City Desk* and *At Random*, both Chicago TV programs.

Articles by the judge have appeared in *Reader's Digest*, *Parade*, *Guideposts*, *Lion's International*, *Hoosier*, and *Petroleum Today*. They have been translated into German, French, Polish, Hungarian and Slovak.

Judge Obermiller has made news many times by sentencing juveniles to receive a spanking at the hands of their parents in court. He has also had brigades of youthful litterbugs patrol the beaches, picking up all refuse, as another means of punishment.

Mr. and Mrs. Kralis and their co-officers feel that man has a

great deal to say to the community. The public is invited to the meeting which will be held at 7:30 in the Mentone Gym.

PATRICIA will be awarded the classroom with the greatest parent participation and refreshments will be served.

Robert Hill Named C of C President

Robert J. (Bob) Hill has been elected to serve as president of the Mentone Chamber of Commerce for the coming year. He replaces Darrell King who has served for the past year.

Other officers elected were Tom Fugate, vice president; Frank Manwaring, secretary; and Macy Nelson, treasurer.

A dinner meeting of all members of the Chamber of Commerce was held Tuesday evening at Lezier's Restaurant. An election of directors was held with Leo Valentine, Frank Manwaring and Allen (Chick) Herendeen being elected to the board. They replace John Miller, Denton Abbey, and Kenneth Romine, outgoing board members. Holdover board members are Tom Fugate, Macy Nelson, Gaylord Toll, Darrell King, Bob Hill, and Raymond Cooper.

Lloyd Bowerman of Hales and Hunter presented the evening's program by relating the feed industry's effect on the financial outlook of Mentone and the surrounding community.

The Chamber of Commerce made a vote of confidence to the Mentone school library for the future housing of the Lawrence Bell memorabilia. Bell left his trophies and other mementoes to the Mentone school when he died. Some of the items are on display at the Bell Memorial Public Library and some of them are stored at the airport. It is desired that they all be housed in one room or building.

Odds And Ends

Snafu, situation normal - all fouled up, seems most often to be the accurate description of our happy little family and our big old house, but we love it, and I never really thought too much about the word normal until Todd came singing and dancing into the house last week after having finally been allowed to ride the school bus for the first time since he got hurt four and one half months ago. "Whoopee!" he shouted, "I can carry my own milk, carry my own lunch tray, play out at recess and ride the bus! I'm completely normal!" Like a normal boy, he overlooked the fact that he still limps and that he's supposed to exercise his leg daily for the next six weeks. He was just happy that he was finally self-sufficient.

He was happy and of course that made us happy and everyone laughed and talked a little too loud which wound Doug's mainspring tighter than a two inch rubber band and he let the dog in who is always happy and full of life to a degree that is a little too wild to be normal. The house was normal again - it was shaking on its foundation until daddy threw the dog out and mother caught the two year old and washed his face for supper, a signal for the eight-year old to go watch television, which was also par for the course and very, very normal.

Normal, I just found from my friend Webster, means conforming with an accepted standard or norm; natural; usual; regular; average. Well, I don't think for a minute that dog is regular or even average, she's not even all there mentally and she conforms to nothing, at least of all any pedigree charts, but then none of our dogs have been noted for their intelligence

so I guess she's about as normal as can be expected.

I wouldn't be a doting wife and mother as all if I didn't think my husband and kids were above average but then that's normal too. They've long since given up on my ever doing anything that is quite normal or regular, i. e. a constant and growing pile of mending that shows no dent and is picking up speed, but for me that's normal.

We try hard to keep regular hours but the harder we try the worse they get and from all I read in the popular magazines, that is normal too.

So, I guess Todd's right. He's normal and the rest of us are too - normal with ourselves and our own way of living. I keep telling myself that everything's normal even when I have to mop up a bottle of catsup dumped on the kitchen floor by Doug or have to exercise my own legs to help Todd with his exercises or make coffee for Loren when I don't drink it or when I swat a broom at the neighbor's dog (four other dogs answer to the name of Tag around here). It's a SNAFU, but like Todd and his leg, it's normal!

With all the big ears and big mouths in the area, I reckon you already heard about our choir director, Miss Ima Byrd, resigning from the Music Committee? You know how they say all musicians are temperamental - well sir, I ain't never seen much difference between that and the devil. As a matter of fact Ima sings better when she's mad. One Sunday she came in all riled up and pouty, and I never heard her sing, "Holy, Holy" so pretty. Course, if the Lord judges the heart I expect her music got canceled out somewhere around the church

Farm Progress Show May Be Held Here In 1967

There is a good chance that the Prairie Farmer Farm Progress Show may be held in Fulton county in the fall of 1967, according to local residents who met at Mentone last Thursday to discuss the possibility.

The meeting was conducted by Darrell King, president of the Mentone Chamber of Commerce, and was attended by

representatives of the Mentone, Jim Meredith, Delbert Hunter Akron, and Rochester Chamber of Commerce, the Fulton county commissioners, the Fulton county highway department, and the REMC board of directors.

The farms which may be involved in the show are located in Fulton county within a few miles of Mentone. The farms are owned by Frank, Ed and

The Farm Progress show is an annual event and is attended by as many as 600,000 people. Accommodations would need to be located within a 50 miles radius of the three-day event. It was noted at the meeting that the food sales at the last Farm Progress Show netted almost \$45,000. Parking requires 120 acres and airports are extremely important.

Crops of corn and soybeans for the demonstration of machinery would involve 600 acres. Adequate roads, power supply, community support, food and lodging facilities all play an important part in the site selection.

The decision on the location will be reached sometime within the next week.

Area Gas Transmission

Project Is Revealed By NIPSCO

According to an announcement by Dean H. Mitchell, NIPSCO chairman and president, the Northern Indiana Public Service Company will contract

For years Miss Byrd has been chairman of our Music Committee. Being in that position she was also in charge of the choir director. Naturally her and the song leader got along fine cause she was both of 'em. It was about like them congressmen being in charge of themselves. In the last two years she's done give herself three pay raises. Now the federal government seems to be able to get along on more out-go than in-come, but we ain't never mastered the secrets of that item yet, so we figured we'd best fire her as chairman.

As you know Mr. Publisher, you don't dare fire nobody in church, cause all the hell that been building up for years will break loose, and its hurts our image among the heathen. So we told her we just wanted her to take a rest for a few years and just be a committee member. That's when the ole gal blowed up. Ima Byrd don't mind being quarterback where she can call the plays and run the ball, but she ain't gonna block so's anybody else can get the glory. She swore if she couldn't be chief she was gonna take her bows and arrows and go home. Being a religious organization, I tried a little religion on her. I pointed out how Jesus had said we oughten to take the chief seat. She allow as how Christ was talking to the Pharisees and not chair directors. I'd about reached the end of my rope so I told her that only babies wanted to sit in high chairs. I realize now that wasn't the most peaceful thing to say. She stomped out of the church and ain't spoke to me since.

At least she's still coming to lead the congregation in worship. Bill Longsnot said she really sung pretty last Sunday. Not only that, she looked like a angel. Say, that gives me a good idea! You don't reckon the Lord could use a good singer up there do you? At least He ought be able to handle her. I'm about ready to give up. I gotta close now. I'm working in my wood shop - building a high chair. By the way, you got any diapers?

a major gas transmission line stretching 19.5 miles between North Manchester and Warsaw as part of the company's \$48.9 million construction program for 1966.

"A 19 mile segment of 16-inch pipe will be built connecting Laketon to Warsaw," Mitchell said, "with 3 1/2 miles of 20 inch line closing the gap between No. Manchester and NIPSCO's regulator station north of Laketon."

The 20-inch portion will connect with a similar size line from No. Manchester and Laud. Plans call for eventual extension of the line to Royal Center.

Work will begin as soon as the Boards of Commissioners note their approval of the project.

Mentone Upsets Claypool In Tourney

The Mentone Bulldogs upset the county champs, the Claypool Knights, in Thursday night tourney action by a 72-61 score. It was the third time the two schools had met in this season and Claypool had been victorious two times.

The Bulldogs defense was so strong that Charlie McKenzie was limited to only 14 points, his lowest output of the season. McKenzie ended the season with a record-breaking 774 point total. The game also marked the end of Claypool's team as Claypool will merge with Warsaw next year.

High for Mentone was Rex Bowser with 24 points and he was followed by Bill Sisk with 17 and Lee Richey with 14.

The Bulldogs led the entire game but really led in converting foul shots into points.

Guest Editorial

We dream of castles in the sky; we build castles in the sand. We dream—but what do we do in reality?

At some crucial point in life we must translate dreams into action or lose our hold upon the covenants, resolutions, pacts and promises of a lifetime.

In cities and towns throughout this country, more than three million young girls are dreaming—and acting. Their dream is expressed in the Girl Scout Promise:

"On my honor, I will try: to do my duty to God and my country, to help other people at all times, to obey the Girl Scout Laws."

The important thing about this promise is that it results in action—action that enriches the community and the nation as well as the individual girl. Just one example of that action is the nationwide Promise of Service that Girl Scouts in every part of the country are making this week in honor of Girl Scout Week and the 54th anniversary of the organization.

Girl Scout Week is a time to acknowledge the organization whose members share an exemplary sense of commitment and to point out that their Promise is the promise—and the hope—of tomorrow.

Read Matthew 13:53-58

The King shall answer and say unto them, Verily I say unto you, Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me. (Matthew 25:40)

The people in Jesus' own hometown Him, and the leaders of the times condemned Him and finally had Him crucified. In spite of all this He said from the cross, "Father, forgive them, for they know not what they do."

How do we respond in our relationships with our fellowmen? Do we as Christians follow in the footsteps of the Master; or do we find gossip, jealousy, and greed so strong that we cannot forgive and love the sinner? Without faith in the example of Jesus of Jesus, we fail to overcome evil with good.

Those who obey God overcome hate and nourish love for the lowly, the unlovely, and the lost. The Lord says, "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

PRAYER: Our Father, we ask Thy forgiveness for the times we have failed to obey Thy commandment to love our neighbors as ourselves. Increase our faith that we may serve Thee better. We ask it in Jesus' holy name. Amen.

THOUGHT FOR THE DAY:

Through obedience to Christ, we find a way to right relationship with God and man.
Glenn L. Kaminsky (Michigan)

TVSC Teachers Ask Pay Raise

A special meeting of the board of the Tippecanoe Valley School Corporation was held Monday evening to hear a report of the teacher's salary committee. The committee was composed of John Hurst, Gene Nelson, Forst Dunnuck, Bill Davis, Jean Kerlin, Phil Pratt, and Mrs. Merdina Bechtol. Mrs. Bechtol was not able to be present.

The committee thanked the board for the fine relationship maintained between the two groups and for the severance pay and insurance benefits which the teachers have received.

John Hurst acted as spokesman for the group and used some of the new visual aid equipment to present the statistics compiled by the committee. He pointed out the rise in food costs, social security payments, and taxes and then presented the board with a proposed pay scale for all teachers in the corporation except for the non-degree teachers. In effect, the proposed pay scale would raise the combined teachers' salaries by \$40,000. The group also asked that the date of pay be changed to either twice a month or to the first Friday following the third Monday of the month.

The board took no action on the proposed pay scale and will discuss it at a later meeting. Further board action included granting five days of sick leave to teacher's aids, accumulating to ten days in a two year period. This plan will go into effect July 1, 1966.

Roy E. Meredith was named co-ordinator and business manager of the programs which come under Title I and II of Law 89-10, Title III of the NDEA act, and of the 1963 Vocational Education Act. These are new programs recently instituted by the federal government.

All the board members were present except Ralph Davis who was ill.

Read Genesis 19:15-26;
Psalm 15

God rescued Lot, who was a good man, shocked by the dissolute habits of the lawless society in which he lived. The Lord is well able to rescue the godly out of trials. (II Peter 2:7-9, NEB)

Compared to Abraham, Lot was a poor example of a godly man. Lot chose the rich land, the Jordan Valley, and finally down in the wicked city of Sodom. Because of the bad company surrounding him, he was exposed to immoral acts and had his life threatened. Sinful surrounding left their impression and tainted the former companion of faithful Abraham.

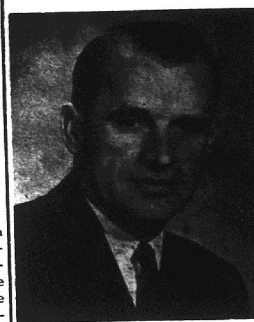

Lot barely escaped the judgment and doom suffered by his relatives and neighbors. What saved him and reinstated him into God's favor was that his soul was vexed at the wickedness all around him.

No matter how deep we have advanced into sin, how steep we may have fallen, there remains hope for us. Once we become sickened by sin, deplore our condition, turn our backs to all evil, and put faith in Christ as Savior, then God can reclaim us.

PRAYER: O God, may we turn away from sin and turn to Christ as our only hope of salvation. Grant us repentance, faith and eternal life. We ask in the Redeemer's name. Amen.

THOUGHT FOR THE DAY:
No matter how sin-stained we are, we can become justified through Christ.

Akron Methodist Church To Hold Revival

The Rev. Dan Bengston, pastor of the Akron Methodist Church, and the Commission on membership and Evangelism, announces that Revival Services will be held nightly in the church commencing on Sunday night, March 20, and continuing through March 27, from 7:00 p.m. to 8:30 p.m.

On Sunday evening, the Rev. Bengston will bring the message; Monday evening, the Rev. Wayne Johnson, pastor of the Athens E.U.B. Church will bring the message; Tuesday evening, the Rev. Carl Brookshire, pastor of the Silver Lake Methodist Church will conduct services. On Wednesday evening, and continuing through Sunday, March 27, the Rev. Harry Hitch, Professor of Sociology at Asbury College, Wilmore, Ky., will bring the message. Rev. Hitch came to us having held pastorates in Ky. and Ohio, and conducts revivals through the year, in addition to his College duties.

The Methodist Church invites the citizens of Akron, and its surrounding communities, to visit with them on these nights of revival meetings. The Rev. Charles, Silver Lake, will lead the congregation in singing. Monday night will be Class night; Tuesday night will be

family night; Wednesday night will be Youth night; the remaining nights will be couples night.

Roll your lawn early or not at all, caution Purdue University turf specialists. Avoid rolling the lawn when the ground is muddy.

Water house plants when the surface of the soil becomes dry, well before the plant wilts. Purdue University extension horticulturists call improper watering one of the most common causes of house plant failure.

INFECTIOUS HEPATITIS
Infectious hepatitis, otherwise known as inflammation of the liver, is found in all parts of the world.

In those areas where sanitary standards are low, hepatitis is more prevalent. As with typhoid fever, epidemics of the infection occur in times of war or at camps where many persons congregate.

Infectious hepatitis is a disease of both children and adults. The severity of the attack varies depending on the amount of damage done to the liver cells by the virus. The first symptoms include fever, loss of appetite, nausea, lassitude, headache, pain in the back and limbs and some gastric upset.

This disease is also called infectious jaundice because bile, a fluid secreted by the liver, is expelled into the blood and tissues and the skin becomes yellow. The average incubation period is about 24 days.

The disease is spread through food and water contaminated by human wastes. Rest is an important factor in treating this disease and community sanitation and personal hygiene will do much to prevent it.

Parson Jones Speaks

Dear Mr. Publisher:

I read in the Good Book where the streets of Heaven are paved with Gold. The Lord must have had a good supply of gold on hand cause with the poor collections most churches get the Almighty couldn't even build asphalt streets. The offerings at our little church have been so small we had to buy a microscope to count it. Don't it make you wonder where all the money is going too?

I got a good idea that most of it is being used to build a road to Hell. Folks give a hole lot of their money to the Devil. He's got a road gang that's melting it down and pouring a big four-lane highway from here to the blasting furnace. People are tromping around all over this gold street and swearing that Heaven is on earth. Ain't it funny, Mr. Publisher, how ole Saten is using this "gold-street" gimmick to confuse people? I just hope he ain't pocketing the real stuff and laying that highway with foolsgold. I reckon we'll have to wait til the world burns up to see if we've been gyped or not.

The Good Lord once said something about "you couldn't love God and money", but from my contracts with people it looks like this is one Scripture that ain't caught on too well. We got one fella in our church that kisses his pay check like

it was a pretty woman. Somebody told me he even sleeps with it. He'd give up his ole lady before he'd part with his pocketbook.

We got some folks that will neglect their homes and let their kids go to the Devil just to get their hands on a little more money. Fact is, I read where this one man that burned himself was really trying to melt his body down and make a gold nugget. Seems he had gone to see the movie "Goldfinger" and "Goldfoot" and he got the idea for a Goldbody. Unfortunately, all the ingredients burned up and he was left holding the ashes. However, this has given the Federal Reserve Board a idea, and I understand they're working on a way to make gold people. This way we wouldn't have all our gold troubles. I shore hope the experiment works cause it will help religion a hole lot. The Bible says we oughta love one another, so if folks are gold this won't be much of a problem.

Well, so much for the money situation. I've gotta close and work on my Sunday sermon. I'm gonna preach on "Perverts." I know that's what they call a man that likes another man, but what do they call one that loves money?

Yours truly,
Parson Jones

Tornado Season Is Here Again; Purdue Offers Rules For Safety

Lafayette, Ind. With the coming of the "tornado season," knowing what to do when a warning is received or a tornado is observed may mean the difference between life and death.

Jan Armstrong, representative of the Civil Defense Committee at Purdue University, advises seeking shelter underground or in a tornado cellar, if at all possible.

If you cannot go underground, take shelter in the southwest corner of the basement or low-

est floor of your home. Persons living in brick or stone houses should seek shelter in a storm cellar or basement of a frame house.

If your home does not have a basement, take cover under heavy furniture against the inside walls of the house. Stay away from windows and doors.

If time permits, open windows on the north and east sides of the house to help reduce damage to the building. Shut off electricity and fuel lines.

Don't seek shelter in auditoriums and large, poorly supported roofs, warns Miss Armstrong.

If you are caught in open country, move at right angles to the tornado's path to get out of its way. Most tornadoes move from southwest to northwest. If there is no time to escape, lie flat in the nearest depression, such as a ditch or ravine.

ACCIDENT PREVENTER

I wish some chap with lot of brains,

And make a record playing thing

That had a brand new quirk.

You'd fasten it inside your car,

And morning, night or noon,

When'er you drive a bit too fast,

'Twill play a different tune.

At forty-five you'll roll along

The record then it plays,

A sort of soothing melody

"Highways Are Happy Ways!"

At fifty-five, a goodly speed,

As down the road you'll roam,

"I'm nothing but a stranger

here

And Heaven is My Home!"

At sixty-five, you'll take a

chance

And hear with certainty,

That old familiar, gospel tune

"Nearer My God to Thee!"

Seventy-five? That's way too

fast!

The player would blare

"Up Yonder, when they call the

roll,

You bet I will be there!"

At eighty-five, if you're that

dumb,

And crave a nice tombstone,

The piece you'll hear at such a

speed,

Is, "Lord, I'm coming Home!"

ODDS and ENDS

The oldest half of the Odds and Ends gang is shown here fighting off the flu bug and sore throats which have laid low the whole family. The younger half recovered first, one enough to tell his teacher that he didn't have the flu at all—just a shot in the hip. The other one feels strong enough to sit on top of the roll desk and smoke his dad's pipe. In other words, they are back to normal and it could be that these sore throats came from yelling at them.

THANK YOU: My sincerest thanks to all who remembered me with their prayers, cards, notes, and acts of kindness during my stay in the hospital and my convalescence at home. A special thanks to the ministers for their calls and to the Brownie, Junior and Cadette Girl Scout troops for their remembrances. May God's blessing rest on each of you.

Who in Hoosier History was a banker in Madison, Indiana, and a founder and principal stockholder of the Second State Bank of Indiana. Although he left the Hoosier state in 1831, he was much concerned about Indiana's part in the Civil War and its monetary troubles. His company loaned Governor Oliver P. GRASSROOTS OPINION

LEXINGTON, S.C., DISPATCH-NEWS: "Charged with the shooting of a white woman civil rights worker, Collier Leroy Wilkins... was found not guilty this time around. The first trial had ended in a hung jury. Now, Attorney General Katzenbach has hinted that Federal legislation may be upcoming to handle any 'marriage of justice'. Will this 'due' process of law under federal jurisdiction cover all state trials? Or just murder trials? Or just those where a civil rights worker is involved? Maybe federal intervention in the courts will come only on trials where the 'unbiased, open-minded' people of the federal government feel there is a miscarriage—what will remain but an eventual federal jurisdiction of all courts? Oh, well, we may just as well give in, everything

else is getting that way, isn't had been forced into retirement at 65 years of age?"

EVERETT, WASH., HERALD: "It's easy to see how Uncle Sam gets some of us stubborn and recalcitrant citizens to do what he wants. He simply holds back Federal funds if we don't. But now about those who don't get any type of government check. How can they be brought into line? Of course they are fewer and fewer every year so maybe this problem will just disappear as the Grand Society encompasses all."

WEST SPRINGFIELD, MASS., RECORD: Don't let age be an excuse for not conquering new fields or furthering the old. In these days a great source of manpower is being lost by forcing 'early retirement' on alert healthy older people in this country. Think for a moment of what older men in our generation such as Herbert Hoover, Bernard Baruch, Winston Churchill, and many others gave to the world long after what industry labels the retirement age. Would not the world have been the loser of these men

This year, again, early hogs have a chance to make most money. If you can make the early market and get in ahead of the seasonal heavy runs that bring prices down, the chances are you'll be money ahead.

TERRE HAUTE, IND., TRIBUNE: "During the autumn of 1943, citizens of the Scandinavian nations worked with resistance leaders to save thousands of Jews from extermination by the Nazis. Today, a generation later, American Jews still remember. A scholarship fund has been established to say 'thank you' in a practical way...the Scandinavian story is a reminder to the world of what morality means. It is a reminder by which all of us can profit."

CLEVELAND, MISS., BOLIVAR COMMERCIAL: "...confidence men approach elderly persons and offer to help them to avoid the 'logjam' for registration for Medicare benefits. This is a score tactic, authorities point out, because no registration logjam is anticipated. Unfortunately, a smooth-talking, well-dressed man who poses as a Social Security agent often has little trouble getting a fee when he proposes such bogus services. The Federal Bureau of Investigation has launched an investigation, as has the Senate Committee on Aging. In the meantime, elderly citizens should remember anyone seeking a pay-off for any Social Security service is probably a phony and certainly breaking the law."

STORM LAKE, IOWA, PILOT-TRIBUNE: "David Lawrence in Des Moines Tribune: Political alliance between the labor unions and the administrations is paying off, and the free-enterprise system is losing its freedom. Meanwhile, the ideologists in Moscow will rejoice that America may be traveling the road to state socialism."

The scholarship muscles into action and will boost the sale of liniment greatly. Players of both teams feel the rough and tumble action is worthwhile, however, since the proceeds of the game will be used to finance the Chamber of Commerce's annual \$200 scholarship. The scholar is given to a senior possessing the qualifications and characteristics which the committee feels is necessary for him to succeed in his chosen field. Judy Decker received last year's scholarship and she is a student at the Purdue extension in Ft. Wayne.

Two regional basketball officials will be present to give authentic, refereeing at Friday night's classic.

Visitors to Mentone are now welcomed by signs at the four entrances to the town. The signs were erected Monday by the Vandaco Sign Co. of Argos.

Read Ephesians 1:3-14

Do you not know that God's kindness is meant to lead you to repentance?

(Romans 2:4, RSV)

A Mother was living in dire poverty, although she had a wealthy son in a foreign land. Finally, the neighbors asked if her son never sent her any money. "No," she said, "never". The only things he has even sent are some green slips of paper which I cannot read. These I have kept in my Bible."

On investigating, the neighbor found money orders totaling a huge sum.

God has sent us His great gift of salvation, but we cannot avail ourselves of the gift unless we repent of our sins. John the Baptist and Jesus both emphasized the necessity of repentance.

Man has a part to play in his salvation. It is to ponder the goodness of God in Christ, and to let it lead him to repentance. It is only the repentant sinner who can know the forgiveness of sins and the fullness of salvation.

PRAYER: Our Father, confronted with Thy great goodness, we see ugliness of our sins, and are truly sorry for them. Wilt Thou wash us thoroughly and cleanse us through Christ Jesus our Lord. In His name we pray as He taught us, "Our Father who are in heaven. Amen."

THOUGHT FOR THE DAY:

My part in the drama of salvation is to repent of my sins.
Robert B. West (Montana)

ODDS and ENDS

Almost always a person has a good feature that makes up for a bad feature or a compensating grace that makes up for a certain ineptitude in some other field. We find, then, artists who can create lovely paintings but who can't carry a tune in a bucket or teachers of poetry who can't make a check book balance.

It's been a known fact for these many years, that I get confused with my hands, never knowing for sure which one is the right one and which one is the left one. My offsetting feature has been that I can read pretty good and can count, like 168 comes right after 167 and things like that.

Lately, I haven't been too sure if reading and counting are too handy or not. I don't really like continued stories or newspaper articles but as I know only too well after nearly three years of makeup work on two weekly papers, sometimes there is no alternative. Now, sometimes we get things a little confused, like saying such and such is continued on the inside and then putting it on the end or like saying it is on the last page when in reality it

shows up on page two. We never know until we're done printing how many pages the paper will have so we can't number the pages, we can only hope they fall into sequence.

As near as I can tell some of the magazines don't know how many pages they will have either and they like some page numbers so well they used the same one ten or twelve times and call it 168a, 168b, etc. This is okay with me but if I'm reading a story that begins on page 69 and which is continued on 168, I get most awful tired trying to find 168 which may or may not come after 167. It depends more on how many page 167's there are or how many 168's follow. I can begin an article on pop art and find myself reading a dissertation on the care and feeding of anteaters if I'm not careful.

And an other thing that never fails to amaze me is the way some magazines lose the index. One of my favorite news magazines needs an index to find the index so thoroughly it is hidden. By the time I find the index I don't need it because I've read everywhere in the magazine getting to it.

The magazines' offsetting features are good entertainment, most of the time, and I might as well resign myself forever to never knowing where I stand readingwise or hand wise.

I have noted, however, that my wedding ring seems to stay on my left hand and that's going to help me find the right direction. Now if I could just find a way to get to page 168 without going through 167 a through z and alternate page 168, life would truly be simple.

Parson Jones Speaks

Dear Mr. Publisher:

Automation is putting lotsa folks out of work. I understand the government is phasing out all bug-makers and horseshoe shoers, and going entirely to automobiles. But buggy-makers ain't the only ones being hurt by this modern generation. Bootleggers are being hit as hard as the coal miners. I understand there is a move afoot to retrain our nation's bootleggers for another profession. I also understand the term "bootlegger" comes from the time when folks had to hide their liquor in their boots. Well sir, folks don't have to hide it any more. Its become one of the countries biggest industries. We done come all the way from the peep-hole bootleggers house to the paper-sack legal liquor stores. Another "forward" move has been spread of cocktail parties. Even ole Daniel Webster don't know where this word come from. Some folks think it started when people sucked booze thru rooster feathers. Be that what it will, a psychiatrist professor in one of our universities has now suggested that we move a head in the brooze business with wim, wigger, and witality. He claims we oughta start teaching our younguns to drink in school. He says if we start cocktailing our off-springs in the first grade they'll grow up as better citizens. Some folks claim he's off his rocker. The truth is he's probably working for the company that produces "Rocking Chair" spirits.

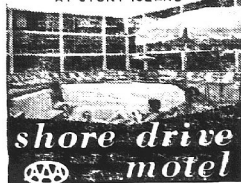

Can't you just see a bunch of kids starting the school day off with a cocktail hour? They wouldn't learn much but they shore would be happy. Course education would cost more because they'd have to have a booze-fee along with a book-fee. I imagine the janitor fee would have to be increased to cover cleaning up the floor from all the sick younguns. It would help the over-population problem though, cause more people would die young from liver trouble.

Mr. Publisher, can't you just

see the teacher announcing that the third grade Alcoholic Anonymous group would meet at 10:00 A.M. in the school cafeteria? If they start this drinking program in the schools I want to get the bromo-seltzer concession stand, cause there will be plenty of headaches and sick stomachs.

I wonder why the cigarette industry ain't thought of a good school training program to teach kids to smoke?

I gotta close now and catch up on my education. Somewhere along the line I have got behind the professors. After all, we want to move ahead. The only thing that bothers me is where does "ahead" lead to.

Yours truly,
Parson Jones

Mass Production Taught At Talma And Beaver Dam

By James McNeely

The seventh grade boys in their industrial arts classes are learning about mass production. Each boy is required to build a lamp during the second semester; and instead of each student building his lamp individually, the entire class has set up a semi-mass production line in order to complete the projects.

Each boy is assigned a particular job each day that he works on for that period. At the completion of the project each boy will be given a lamp.

Teaching mass production techniques to students in industrial arts is a good vehicle in understanding industry. One of the primary objectives of junior high industrial arts is to interpret industry as it is today. Industry throughout uses mass production techniques in the production of their products.

By building a project using mass production techniques, students can begin to appreciate the amount of "lead time" it takes for industry to begin production. (Lead time is the total time to takes to get a product planned and designed, plus the time to get tools and machines ready to make a production run). Large industry can have better than one million dollars invested in lead time alone. Students can also learn how in-

dustry sets up a production run by using flow charts to eliminate lost motion. The seventh grade boys also learn the other important advantages of mass production; such as, reduction of unit cost and the advantage of interchangeable parts.

Industry plays such an important part in our every day lives that we would all know something about it. Keeping with the objectives of junior high education, junior high industrial arts in designed to allow students to explore the different avenues of industrial experiences without going into depth in any one area.

At Beaver Dam School students are allowed to design and build their own projects during the first semester. They learn to make their own mechanical drawing, figure their bills of material, and build their own projects.

This year for the first time, students have a unit in mass production; and, later, in the second semester they will have a unit of study in power mechanics.

Medicare Needs Clarification

From all indications more people in rural areas and small communities are misinformed about Medicare than in the larger cities, according to Herbert O. Bultemeier, district manager of the Social Security Administration.

This observation was made after the Elkhart social security office telephoned a number of beneficiaries who had not returned the card indicating whether or not they wanted to enroll in the medical insurance.

Bultemeier urged all people over 65 who have not yet made their decision to enroll to get factual information by phoning or visiting the social security office. It could be tragic for some elderly people if they missed the March 31 deadline because of misinformation.

In addition to the regular office hours the Elkhart office will be open on Thursday nights, March 17 and 24 until 8:00 p.m. and until 9:00 p.m. on Monday thru Thursday, March 28 thru 31. The office will also be open Saturdays during the morning on March 19 and all day on March 26.

Citizens U.S.A. Is Theme Of Program For Anthony Nigo Chapter D.A.R.

On March 8 the Anthony Nigo Chapter, DAR met at the home of Mrs. Walter Lackey for its monthly meeting. Mrs. Wayne Smalley, Regent, called the meeting to order with the opening ritual and minutes from the previous meeting were read and approved.

Mrs. Ernest Igo read the President General's message in which Mrs. William Henry Sullivan, Jr. expresses the hope that each chapter will be represented at the 75th Continental Congress in Washington, D.C., April 17-22, to fully appreciate and recognize this important milestone in the history of our Society. It is at this time the policy of the Society is determined and plans are presented for the coming year. The Congress Program Committee is planning many special features in observance of the Diamond Jubilee Continental Congress.

Correspondence was read from Mrs. Glenn Wheeler, State Vice Regent. She complimented the program committee and chapter on their DAR yearbooks which she felt were complete in every way.

Mrs. Smalley announced that she plans to attend the State Council Meeting on March 30 at the Sheraton-Lincoln Hotel in Indianapolis. Members needing transportation may contact Mrs. Smalley. Reservation are to be made with Mrs. Ira M. Smyrl, Jr., state corresponding secretary, 1407 Michigan Ave., LaPorte, before March 26.

The Flag Committee Chairman, Mrs. Dale Cook, stated that the flagpole has been erected at the new Town Hall and the committee is now trying to find a suitable outdoor plaque to be mounted at the base of the flagpole. Mrs. Arthur Brown reported she wished to contribute the flag for the new Town Hall in memory of her late husband, Mr. Arthur Brown.

Mrs. James Wells, Jr., the chapter American Indians Chairman, reminded members to take any used clothing for the Indiana in Oklahoma to the Mentone Library.

The Planning Committee for the Northern District Meeting, May 11 at the Steer Inn, re-

ported Anthony Nigo Chapter will be acting as host chapter to 10 area DAR chapters—Agnes Pruyn Chapman Chapter, Warsaw; Desardes Chapter, Knox; Frances Dingman Chapter, Kendallville; LaGrange de Lafayette Chapter, Shipshewana; Manitou Chapter, Rochester; Pokagon Chapter, Angola; Schuyler Colfax Chapter, South Bend; Tippecanoe River Chapter, Bourbon; William Tufts Chapter, Goshen; and Wythougan Chapter, Plymouth. Several honorary guests also will be invited.

Mrs. Walter Lackey, National Defense Chairman, gave a report on "Pattern for Communist Takeover" by Elizabeth Churchill Brown. The article states, "A series of occurrences around the Nation are of minor consequences when taken individually, and of little importance considering the attention given them by the Government. But, taken as a whole and analyzed against the hundreds of available documents on Communist aims, the picture becomes ominous."

Several occurrences which come to mind are the recent blackout in the Eastern United States due to power failure, the Washington-Havana agreements, for three thousand to four thousand Cuban refugees to enter this Country monthly; the Communist-planned massive march on Washington (November 27th) against the war in Vietnam; the infiltration of our colleges, and the civil rights movement.

The Government appears to be taking a realistic view of the blackout. Although officials do not believe it was sabotage, they did "raise the question of vulnerability of the power system to a deliberate attack." Either way, the power breakdown assured the Communists a "dry run" for future tactics.

As for the Cuban refugees, the average American has given little thought to the danger of subversives among them, even though there is a "screening" called for. But, surely, Castro must have other reasons for this massive export of Cubans than merely getting rid of so many mouths to feed.

As to the DuBois Clubs and youth movements, years ago the Communist leader Jack Stachel, prepared the plan for infiltrating American youth, the "main motive" of which was "military." "(1) It aims at the ideological disintegration and demoralization of American youth", (2) Infiltration of all youth organizations, colleges, etc., to stimulate "disaffection and disloyalty to our institutions and recruit members and sympathizers for the Communist movement." This was to be done through the "teaching staff" and "teachers' unions, the movies and through textbooks."

Mrs. Wayne Metheny, Americanism Chairman, introduced the program, "Citizens...U.S.A." a special series of taped recordings produced by the Radio-TV Division of Wichita State University. The material was adopted by Donald Hansen, the university's Director of Radio, from the DAR Manuel for

Citizenship. The series is distributed by the National Society, Daughters of the American Revolution as a patriotic educational program for use especially in schools and radio programs to promote better citizenship. The recordings were heard recently by a number of students in classes at the Mentone High School.

"Every American citizen whether native-born or naturalized should be fully aware of the heritage that is his as a Citizen...U.S.A." was the theme heard at the opening of each section of the program. The most important document in the history of the growth of freedom was the Magna Charta which stated the rights of the English people in 1214. Later when the English kings ignored these great rights, many English people began immigrating to America to escape persecution. These colonists became the founders of our American Freedom.

The colonists chose free competitive enterprise as the economic system under which to earn a living. They knew that this system alone could give them the freedom they desired. Under this system the right to private ownership of personal property and real estate is secured and an open market and active competition are protected.

From the very beginning of this Nation, there have been individuals and groups that have tried to change the form of government, that pay allegiance to a foreign power, and that actively advocate the desirability of overthrowing the whole system of freedoms. To the citizens of today, native and foreign-born alike are entrusted the sacred duties of protecting and preserving this America of ours. Let us do everything within our power to keep our republic, the United States of America, free.

The program closed with the theme, "We, living, are a part of America. Millions yet to be born will be a part of it. Whatever we do with it...whatever we make of it...one thing is certain the suffering and labor have been ours...so much the fulfillment be ours."

The Regent, Mrs. Smalley, appointed Mrs. Everett Rathfon, Miss Annabel Mentzer, and Mrs. C. G. Carter as a nomina-

ting committee for chapter officers of the coming year.

Delicious refreshments were served by the hostess and co-hostesses, Mr. Bernice Rush and Mrs. Loren Gross, to 13 members and one guest, Mrs. Don Beard of South Whitley.

The next meeting will be a joint dinner meeting with Agnes Pruyn Chapman Chapter, Warsaw, April 26 with the Good Citizenship Girls as guests. The meeting place will be announced. Members are asked to make reservations with Mrs. Thomas Fugate before April 15.

A special business meeting was called by the Regent for May 3 in the community room at the Town Hall. An election of officers will be held and reservations for the May 11 Northern District Meeting will be taken at this meeting.

Plan Evangelistic Services At Baptist Church Here

Rev. Chelsea J. Stockwell

Special services will begin at the First Baptist Church in Mentone on Wednesday evening, March 30, at 7:30 p.m. and will continue each night until Easter Sunday, April 10.

Evangelist Chelsea J. Stockwell will be the guest speaker at all the services. He has conducted evangelistic crusades in almost all of the fifty states and in four provinces of Canada. During the early days of his ministry he was the song leader and soloist for such well-known evangelists as Dr. John R. Rice and Dr. Hyman Appleman. Rev. Stockwell is the composer of both words and music of twenty five published gospel songs. He sings many of these songs during a campaign.

Indiana natives, Rev. and Mrs. Stockwell, now make their home in Cedarville, Ohio where their two sons are enrolled in Cedarville College which is one of six GARB approved schools.

The local pastor, Howard O. Addeleman, has known Rev. Stockwell for several years, having had him as the speaker in revival efforts in two former pastorates. He considers Rev. Stockwell one of the finest men he has had the privilege of working with in an evangelistic campaign.

The public is invited to hear Rev. Stockwell speak during these services.

Medicare Forms Available At Post Office

The Mentone Post Office announced today that application blanks for supplemental Medicare benefits are available at the Post Office window.

The application blanks are being made available as the Social Security Administration seeks to contract 3-1 million senior citizens before a March 31 deadline imposed by the Medicare law.

President Johnson has proclaimed March as "National Medicare Enrollment Month." He urged all federal agencies an all citizens to cooperate in enrolling senior citizens in the program.

Initially, some two and one-half million application blanks were distributed to nearly 34,000 main post offices throughout the 50 states. Additional forms are available as needed.

Through direct mailings and other means, the Social Security Administration has had contact with 16 of the 19.1 million citizens who will be 65 or over on

July 1. Of the 16 million who replied, less than one million said they did not want to sign up for the supplemental program.

The supplemental program costs \$3.00 a month and provides doctor bill and other benefits under Medicare.

A copy of the application blank is displayed on the lobby bulletin board of the Mentone Post Office.

Senior citizens who reached 65 before 1966 face a two year delay if they do not sign up by March 31. The application forms are preaddressed to the Social Security Administration in Baltimore, Maryland.

I sometimes wonder if there is any incentive to work, plan and save for a home.

After years of hard work and a home almost completed, the government decided our land was suited for a missile base. Through the regular procedure we were ordered by the US Marshall to vacate and surrender our property, at the command of the government, with no compensation paid to us until after four months had passed. The price was set by the government but no date was set for payment at the time we were ordered to leave.

We were compelled to start all over again, minus funds, seeking a home where we thought it would be a permanent one. Now we are settled in a comfortable home in a beautiful landscaped area and are facing the same situation as before, only much worse, if the Dunes Lakeshore bill passes.

Parson Jones Speaks

Dear Mr. Publisher:

A atheist died our community the other day and we almost didn't know what to do with him. The Christians didn't want him and the Jews wouldn't claim him. None of the cemeteries wanted to bury him. The city fathers thought for a while they were gonna have to put him in the deep freeze. The pore fella didn't believe in Heaven or Hell, so when he expired he didn't have no place to go. We finally sold him to a medical school.

Mr. Publisher, ain't it a shame that folks don't want nobody but their own kind? The white folks want to send the negroes back to Africa and the white folks back to Europe. The "Egg-heads" are trying to put the common folks in work-camps, and the common people are set on sending the "Egg-heads" to the moon.

All this reminds me of the fella in a left-boat who bored a hole in the bottom of the thing. When the other passengers complained, he swore it was nobodies business cause the hole was under his seat. The way I see it, all of us is in the same boat and if we don't learn how to get along with everybody the whole cotton-pickin thing is gonna sink.

The United States is kinda like a chicken - when you chop him up in little pieces, he's gonna die. You gotta keep all his parts hooked together if you except him to hop around. If the Good Lord can put up with atheists and communists, I reckon I can do the same. God made Jews, Catholics, Protestants and all the in-betweens and give 'em permission to walk around on His earth, and I don't read in the Good Book where He has put man in charge of the citizenship program.

The reason most folks don't like to be around them that's different, is that they're scared of their own position. A man that ain't too sure about God is gonna dodge a atheist like a plague. Catholics hide from Protestants and visa-versa, for the same reason. Jews and Protes-

tants side-step one another cause they're "running scared." I'll close by saying that a body don't have to see eye-to-eye to live together. Me and my ole lady is proof of that fact. Everybodies got something in common, even if its just hating one another. Be sure and come to church this Sunday, cause I'm gonna preach on "God so loved the world." I hope to tell 'em who all that includes!

Yours truly,
Parson Jones

GRASSROOTS OPINION

ROCKVILLE, MD., MONTOR: "Believe it or not, Peace Corps officials have started a recruitment drive for foreign workers among members of the communist-backed youth group. Students for a Democratic Society. This is the group behind recent anti-Viet Nam student demonstrations and draft card burnings."

EAST POINT, GA., REPORTER: "It's a strange world: The U.S. Supreme Court has ruled that it is unlawful to require Communists to register as such as heretofore required. Freedom is a great thing—that is what these Communists have vowed to destroy. Yet, we give them every aid and encouragement that is possible."

ONTARIO, CALIF., REPORT: "Much public discussion has centered about the rights and actions of conscientious objectors including the draft card incineration. ARLINGTON, TEXAS, JOURNAL: "There was a happening in Chester, Pa., recently which, in its own small way, is a kind of horror story which tells a lot about how well-intentioned Federal programs can turn into instruments of compulsion that touch individual freedom. Two grade students in Chester were suspended from school for three days. Their only crime was that they brought their lunch from home instead of paying the 35 cents for school-supplied meals. The school board president explained that the school lunch program is subsidized by the Federal government, and for a school to qualify, all the children must participate. The parents of the two boys had refused to go along."

CLAY CITY, KY., TIMES: "We are on a drunken, spending spree which can lead only to disaster. No one wants to work. No one is required to work. There are more government jobs than there are civilian jobs. In fact, the smartest route for the teen-age boy to day is to go into government service—either militarily or through one of the 1,000 and 1 other federal agencies which retire you on pension after 20 years. As a federalist state we are quite young. However, history may one day record that

we fell by the wayside fighting over money—the same way all ancient civilizations have died. Why?"

WEST POINT, MISS. TIMES LEADER: "This country was founded by men and women who were afraid. Wars are won by men who are afraid. Confidence is an ally of defeat. Fear builds muscles. Contentment adds fat. Fear gives drive. Satisfaction hunts the shade."

LITTLETON, N.H., COURIER: "Don't expect the government to reduce highway traffic accidents—it's up to you."

TONGANOXIE, KAN., MIRROR: "Government economists (supposedly drawing fat federal salaries—say there is no present danger of inflation (and if so) the government will step in to prevent it. Anyone can see things are priced two or three times what they were formerly. This is inflation. And instead of preventing inflation, government policies cause it...What we've got left seems to be paper and tin money. Meanwhile the financial pages reassure us constantly that the value of the gross national product keeps going up—up—up...But these potential rates of increase in—say—1970, could be higher figures due to inflated dollars."

WYNNE, ARK., PROGRESS: "The Gad-den, Ala., Times reported so many dropout students had dropped out of some of the poverty program's Youth Corps projects 'it has been rumored that a dropout school for dropouts who dropped out of the dropout school will be started.'—Or why not just drop it?"

CARLSBAD, N.M., CURRENT ARGUS: "This newspaper each day receives mail addressed to former employees, some of whom have (been) gone for years...one letter received from Washington, D.C., was addressed to a young man who moved from Carlsbad a dozen years ago. Another was addressed to a former society editor who has not been on the staff for 20 years. How much money is spent, and how much time wasted, in processing and mailing such literature?"

GOSHEN, IND., NEWS: "Of course the shortage of farm labor is due to Secretary of Labor Wirtz' cutting off of foreign workers, mostly Mexican. He wants American labor used. But if Americans, hypnotized by government checks and handouts,

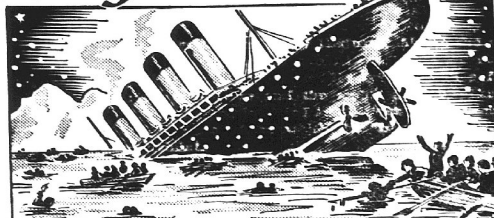

won't work, then who but foreign labor is going to gather the food crops to feed the bums and loafers who are living off the taxpayers? The government is simply going to have to down-trend this war on poverty stuff and tell those who don't want to work to get off the wagon. There is no other alternative."

ATCHISON, KAN., GLOBE: "The fact that more than a million youngsters annually commit acts beyond misdemeanors and are arrested and often sentenced is more than enough reason for universal concern. Add to that another fact, that millions of other boys and girls flirt with dangerous threats to their

moral, spiritual and physical safety, and the problem comes to rest in almost every home in America."

TONGANOXIE, KAN., MIRROR: "One of the best things that can happen to a 14-or-more-year old now that school is out is a part time job, which is also an educational experience in real life. We have listened too much to social planners about the evils of child labor. A worse situation is the evil of idleness for a youngster bubbling over with excess energy. It is very likely that any so-called juvenile problem is due to this situation as much as any lack of parental concern."

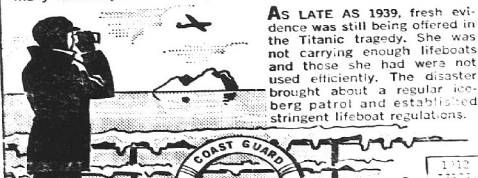

Did You Know?

ON A NIGHT to remember—April 14, 1912—the great liner Titanic sank after crashing into an iceberg in the North Atlantic. It was one of the great sea disasters of all time, with a loss of 1500 lives. The Titanic was believed to be unsinkable; she was carrying 2,200 passengers with many famous persons among them.

AS LATE AS 1939, fresh evidence was still being offered in the Titanic tragedy. She was not carrying enough lifeboats and those she had were not used efficiently. The disaster brought about a regular iceberg patrol and established stringent lifeboat regulations.

THAT SAME YEAR, 1912, the first group life insurance claim check—in the amount of \$1,000—was issued to the widow of a truck driver. The company was then and still is a group employing the driver was then and still is a group policyholder of Equitable Life Assurance Society, the originator of group insurance. Since the payment of that first claim, the insurance industry has paid out more than fifteen billion dollars in death benefits under group life insurance contracts.

PTA Renews Invitation: Join Now!

As 50,000,000 American children move forward in the current school year, their parents and teachers will receive an invitation, issued to the nation, to join the PTA.

The National Congress of Parents and Teachers now has under way its annual membership enrollment, aiming to add new members as it tackles 11 "critical issues" that affect children today—issues such as financing public education, educating for a changing society, helping disadvantaged children, waging the peace and coping with the responsibility of parenthood, including sex education.

This undertaking, to be carried out in a three-year action program, "will tax PTA resources to the utmost," says National PTA President Mrs. Jennelle Moorhead. "It is not too much to say that the outcomes of these issues will have far-reaching, fateful consequences for our nation and its children."

A sample of the PTA's effectiveness in action—specifically, action to help disadvantaged children—was its Books for Ap-

This messenger (she's Celia Richman, a first grader at Ray school in Chicago) has an invitation for the nation: Join the PTA—and help the other 49,999,999 or so children in American schools this year.

palachia program of early 1965, when, in five months, PTA's throughout the country collected more than 1,100,000 children's books and sent them, in bookcase boxes, to the hundreds of barren, one- and two-room schools in the Appalachian mountains.

"This was a special project," Mrs. Moorhead recalls, "and our routine programs can be equally effective in advancing children's

welfare—in home, school, church and community."

While children in school are the focus of all PTA activity, the National Congress of Parents and Teachers works equally hard to keep parents and teachers learning, too, about children.

Children's complaints about school will get an airing in a forthcoming issue of The PTA

Magazine, used as a basic text by PTA-sponsored study-discussion groups in many communities. In other scheduled articles, parents will be given suggestions on how to prepare for a conference with the teacher, as well as challenging views on IQ tests, ability grouping and student cheating.

The PTA's official magazine also provides regular services to thoughtful parents: previews of motion pictures—graded for children, adolescents and adults; reviews of television programs along with names of their sponsors; regular reports on "what's happening in education" and news of medical developments that affect children's health.

All is information that will be used by PTA's as they program their current attack on critical issues. Other matters on that action calendar are equalizing educational opportunity; clarifying the responsibilities for educational decision-making; extending and strengthening community services;

Combating moral, spiritual, and civic apathy; eliminating certain health and safety hazards and safeguarding individual rights and liberties.

Today's MEDITATION

The World's Most Widely Used Devotional Guide

The Upper Room

THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday, March 31, 1966

Read Romans 5:6-11

(1 Corinthians 15:3)

Christ died for our sins.

A man was talking about another who had wronged him:

"Well he hurt me and I'm going to make him pay!" Have we all

not been at moments like this man? When someone injures

us, our first reaction is to get even.

It hurts God when man spurns His love and ignores His will,

but God is forgiving.

Forgiveness means that one is willing to take all of the pain

caused by another into his own heart. If I forgive a wrong done

to me, it means that I take the hurt without demanding that

the offender pay a share, too.

This is what Jesus did on the cross. He took the burden of

man's sin into His own heart. "Christ died for our sins."

There is redemptive power in this. If God were only a judge,

our guilt would bring us to hate Him for exacting the

penalty of justice. But our sin causes Him anguish. We are

confronted by this undeserved, suffering love, and are thereby

led into repentance and reconciliation.

PRAYER: O God, forgive us for the careless thought that our

sin causes pain only to ourselves. Draw us near enough to

the cross that we may be aware of the suffering which our sin

causes Thy searching love. In Jesus' name. Amen.

THOUGHT FOR THE DAY:

Does my life bring pain or joy to the infinite God?

Thomas Amos Will Describe Ethiopia To Methodist Men

Thomas Amos, a teacher at Mishawaka High School, and a former member of the Peace Corps, is well along in his private project to bring three Ethiopian boys to Mishawaka for study in the high school during the next year.

The three boys, named Solomon, Dagne, and Zewdie, were students of Amos during his stay in Ethiopia as a Peace Corpsman from 1963-65. He explains that the three boys came to the school sick and weak from their living conditions and lack of nutritious diet—and discouraged and fearful after living in the big city away from their homes. The boys did well at the school and ranked in the top 10% of their classes. This was a tremendous achievement, considering their cultural backgrounds. However, there were things that they could not teach them in Ethiopia—such as what America is really like, what snow is, what supermarkets are, that we really don't have servants, or that some Americans are poor.

One of the reasons Mr. Amos is bringing these particular students to America is their backgrounds. Foreign students studying in our schools are almost always from wealthy families. He feels that it is important that the "common man" from other countries come to know us, and that we need to become acquainted with them.

Mr. Amos is planning to have these boys live with him, and he will support them while they are here. Many organizations are helping him to raise the money for their transportation to and from this country. U. S. Rep. John Brademas has cited Mr. Amos in the House of Representatives for his mission.

"Hat Auction Featured At T.H.E. Club

An Easter Hat Auction was featured when the T.H.E. Home Demonstration club met in the home of Mrs. Lester White for their March meeting. Each member modeled her own hat original for roll call. The hats were made of useful household articles and were later taken apart and auctioned. The proceeds will be donated to different charities.

The meeting opened by singing "America, the Beautiful" and repeating the pledges to the flag and club creed. For devotions Mrs. Harold Walters read "The Shape of the Cross" and followed with prayer. Mrs. Elgie Vandermark gave the history of the song of the month, "Wearin' of the Green," and led in singing it.

The project lesson, Main Dishes (high in protein and low in calories), was presented by Mrs. Lewis Johnson, after which she passed out calorie sheets, menus for low-calorie diets and booklets on "Spare the Calories".

Mrs. Leroy Gossman, president gave a report on the council meeting she had attended. Coins for Friendship were collected and the club voted to give a donation of \$3 to the country Heart Fund. The Health lesson on "Hearing" was given by Mrs. E. C. McGowen.

Repeating the club collect in union closed the meeting. Mrs.

Vandermark won the door prize. Low calorie refreshments were served by the hostess to nine members and one guest, Mrs. Charles Good.

Mrs. Merle McGowen will be the April hostess and the meeting will feature a flower and bulb exchange.

MONDAY: Hamburger, Gravy, mashed potatoes, perfection salad, fruit, bread, butter, and milk.

TUESDAY: Soup with crackers, Peanut butter sandwiches, pot to chips, apple crisp, cheese slices, milk.

WEDNESDAY: Smokie sausages and sauerkraut, cottage cheese, fruit, celery and carrot sticks, bread, butter, and milk.

THURSDAY: Fried chicken, green beans, tossed salad, relish tray, fruit, ice cream, dinner rolls, and milk.

It is amazing how extremist groups can put together unrelated facts to say things that aren't true.

N F O Hosts

County Businessmen

The Kosciusko County National Farmers Organization (NFO) held a public relations dinner meeting Friday evening March 25 at the Westminster Hotel, Winona Lake, Indiana. A smorgasbord dinner was served to N F O members and Kosciusko County Businessmen who are closely allied to the farming industry. Ministers, insurance men, machinery dealers, feed and elevator men, bankers, and others were represented.

Clarence Duttlinger of Wheatfield, an area grain co-ordinator and former National NFO director of Indiana, and Paul Schmucker of Nappanee, assistant national organizational director were the speakers.

The main topic of discussion was the inter-relation of the farm marketing problem and the local independent business man. Mr. Schmucker stated that of the three major economies, labor, farming and business the farmer alone is asked to sell his product using supply and demand as his basic pricing structure. Supply and demand always effects the economy, but it should not be the sole price determining factor. For example: Farmers would have to produce a shortage to get a fair price. The NFO program is a fair price with plenty, not scarcity.

The gross agriculture income of Kosciusko County totals 30 million dollars annually, with parity presently at about 80%. Full parity of income would be an additional 6 million dollars, it was reported.

DIAL-A-SANDWICH OFFERS IDEAS FOR TEEN AGE SNACKS, SANDWICHES

Dear Cece: Next month my mother is planning to spend several weeks visiting my married sister and her family. I will be in charge of the house while she is gone, and I've told my brother I would pack school lunches for him while mother is away. Naturally I'd like to fix some sandwiches he'll really go for. Do you have any suggestions? Connie.

Dear Connie: You're just the kind of girl we've prepared our Sandwich Dial for. It's filled with new, lighthearted sandwich ideas for lunches and snacks. You'll want to send for a free Sandwich Dial right away, but until it arrives, here's a selection of winning sandwiches to get you started on those lunches:

HERO: Split club rolls. Spread with oregano-flavored butter. Fill with layered slices of salami, cheese and anchovy. Spread with chili sauce.

LONG BOYS: Fill hollowed French rolls with ham or tuna salad. Slice and reassemble for easy handling.

BAGGED BOLOGNA ROLLS: Roll slices of bologna around sweet gherkins. Seal two rolls in a buttered bun.

To save time, you can prepare these sandwiches the night before and keep them fresh in the refrigerator, sealed in a Cut-Rite Plastic Sandwich Bag.

Dear Cece: I'm planning to have my date and another couple back to my house after the prom. It's not a dinner dance so everyone will be hungry and will want more than coffee or hot chocolate. My

mother suggested scrambled eggs and sausage, but I'd like to prepare something that everyone will find interesting. What would be good for four people? Katie.

Dear Katie: Remember that you may be a little tired after an evening of dancing, so don't get carried away and plan something that you'll be too beat to prepare or enjoy. Keep your menu simple, and you'll be glad you invited guests instead of sorry. I'd vote for **EASY CHEESEY LOGS**.

To prepare them, butter halved frankfurter rolls and spread with sandwich spread or butter. Cover with half slices of Swiss cheese and ham. Broil until bubbly. Replace roll top. Two of these should satisfy male appetites, while one may be enough for the girls. I'd serve sweet and dill pickles with the sandwiches and offer your friends a choice of soft drink, milk, or coffee. To make clean-up easy, serve sandwiches on individual snack trays, spread with disposable paper place-mats and use plastic cups for beverages.

Dear Readers: Our Scott Home Service Center has come to the aid of all you who prepare sandwiches to carry, or snacks to serve at home. It's a Sandwich Dial which puts 19 different sandwich ideas at your finger tips. As a bonus, the inside of the folder contains half dozen tips for easier housekeeping, travel ideas and short cuts for various areas around the house and garden. To get a free Sandwich wheel, send me a postcard to the address listed below.

Questions and comments should be addressed to Mrs. Cecelia Allison, Room 1440, 420 Lexington Ave., New York 17, N. Y.

Take your problems to Church this week -

A POOR SUBSTITUTE FOR PRAYER

Are you one of many who "religiously" pick up horseshoes, pins, four leaf clovers, carry good luck charms, avoid walking under ladders and walk out of your way when a black cat crosses your path, yet declare that praying gets you nowhere, that your prayers are never answered and you might as well talk to yourself?

Would you be willing to carry out a program of daily prayer for one year and "stick" to it as you do to your "horseshoe praying" just to determine from which you derive the most benefit?

Prayer has been a godsend to many in time of stress, heavy burdens and seemingly insurmountable problems—George Washington, Abraham Lincoln and Jimmy Doolittle to name just a few. Now one does not have to attend church to derive benefits from praying, but regular church attendance can be an effective school from which to learn how to pray effectively. It should be, for its text is the Holy Bible which relates many instances of prayers answered. Attending church this week is well worth your trial!

Officers Installed By Menotne OES

Chapter 331 OES held a public installation of officers Saturday night in the Mentone Masonic Hall.

The Worthy Matron, Marguerite Campton, conducted the opening with her 1965-66 officers. The Worthy Matron and Worthy Patron were presented their jewels by the chapter and wishes were extended to them from each of their officers.

Installing officers who were escorted east and introduced were Eileen Koenig, Installing Matron, and Ralph Mollenhour, Installing Patron. Other installing officers were Mary Tucker, Marshall; Frances Marshall, chaplain; Lois Davison, organist; Marguerite Campton, soloist. Golda Mollenhour was in charge of the guest book.

Following a short intermission, the 1966-67 officers were escorted into the chapter room and introduced by the marshall, after which they took their obligation around the altar.

The Worthy Matron Elect, Cara Lyn Tucker, was presented at the altar where she made Charles, presented her with a her pledges. Her husband, red rose corsage while the installing soloist sang a lovely song in her honor. Mr. Tucker then escorted Mrs. Tucker through an aisle formed by her officers. She was met in the east by her son Chad who presented her a bouquet of blue and white carnations.

After the investment of his badge, the Worthy Patron, Eugene Marshall, was greeted by Karen McFadden and presented with a boutonniere. He was then honored with a song and escorted by Karen through an aisle formed by fellow Masons.

Other officers installed were Associate Matron, Glenda Starner; Associate Patron, Jerry Weese; Secretary, Betty Goshert; Treasurer, Peggy Eaton; Conductress, Judy McFadden; Associate Conductress, Helen Good; Chaplain, Glenn Campton; Marshall, Helen Mollenhour; Organist, Marguerite Campton; Adah, Beverly Clark; Ruth, Lena Igo; Esther, Miriam Boardman; Electa, Virginia Peterson; Warder, Pauline Riner; Sentinel, Bernard Clark; and Prompter, Frances Marshall.

The new worthy matron explained the theme of the year from a beautifully decorated east. The watchwords are "Friendship and Loyalty", and the word Friendship was draped in large red and white letters across the west. The emblems are the praying hands which were lighted in a white shadow box in the east and the golden chain of friendship which draped the outer edge of the shadow box. Their colors are white with blue and red and were in keeping with the decorations. Also in the east were their flower for the year, two large red roses in a blue vase.

The motto is "Kind words are the music of the world" and the scripture "Thou crownest the year with thy goodness," Psalms 65:11.

The worthy matron then introduced her family and expressed her thanks for the lovely evening. The worthy patron also introduced his family and expressed his appreciation to everyone present for the lovely evening. Remarks were

heard from the audience at this time and the conductress closed the Bible without ceremony.

The conductress escorted the Jr. Past Matron and Patron, Glenn and Marguerite Campton, to the altar for the signing of the Holy Bible. After a short forewell, the officers sang appropriate words to the song "Now the Day is Over".

The meeting adjourned with the singing of the closing ode and the repeating of the Mizpah Benediction in unison. The newly installed officers formed the praying hands around the altar and sang "An Evening Prayer."

Delicious refreshments of tea sandwiches, coffee and tea were served to 75 guests and members present. The tables were decorated with rose garlands and lighted candles. Members of the serving committee were Joan Miner, chairman; Mary Hammer, Pauline Silvius, and Maxine Igo.

Evangelistic Services Planned At Bethlehem

"Christ For Me" will be the theme of the week of spical Pre-Easter meetings which are planned at the Bethlehem Baptist Church. The church is located 3½ miles north of Athens. Services will begin Sunday, April 3 and will conclude on Saturday, April 9.

Rev. Robert Blake, pastor of the Oakdale Baptist Church, Peru, will be the guest evangelist. He is well known for his work in evangelism both in music and preaching and he also has a radio program on the Peru station each Sunday morning at 8:30 a.m.

Each night of the services has been set aside for special em-

phasis. Sunday night is Youth Night; Monday night is Family Night; Tuesday night is Sunday School Night; Wednesday night is Object Night; Thursday night is Bring a Friend Night; Friday Night is Church Officer Night; and Saturday night is Inspiration Night. Special recognition will be given to the areas mentioned on each evening.

Also, there will be congregational singing and special music each night. The meetings begin at 7:30 each evening and everyone is welcome.

Who in Hoosier History is sometimes termed the "Father of Indiana Basketball" or "Mr. Basketball in Indiana." Most certainly, this man and Butler University are synonymous for he figures most significantly in its athletic achievements and in many of its other endeavors. Recently, the University and appreciative people over the name Butler's fieldhouse after state paid him the honor to him; a bronze bust of him will be unveiled next year.

Dr. Robert M. Schneider Seeks Representative Post

Dr. Robert M. Schneider

Dr. Robert M. Schneider, Winona Lake, filed his candidacy Thursday for the Republican nomination for the post of state representative from Fulton, Kosciusko, Whitley, Wabash and Huntington counties.

In announcing his candidacy Dr. Schneider said that his primary reason for running for the

post was that he felt we live in different days than in the past and that we need capable and able leadership in the legislature. "It is time for the common people to get a fair shake," he said. It is his desire to represent all of the people of the district and to report honestly to them actions being taken in the legislature. He further stated he would like to see the majority represented without neglecting the rights of the minority.

Dr. Schneider, 33, lives with wife, Karen Ann, at Winona Lake and maintains offices at his home and in the old telephone building in No. Manchester. He attended Stetson University in DeLand, Florida, graduated from Lincoln College of Chiropractic in Indianapolis, and did graduate work at Baylor University in Waco, Texas. He also studied in Europe for several summers.

He is a member of the Winona Brethren Church and is chairman of the governor's committee for aged and aging of the Northeastern District, a sixteen county area. He is also a member of the Optimist Club of Warsaw and his wife is corresponding secretary for the Young Republicans.

Odds And Ends

For high adventure and cliff hanging thrills, nothing can top going for a drive with the kids. The conversation may not be too stimulating as far as adults go, but it makes about as much sense as some conversations we've heard at "big people parties".

It seems like the evolution from mother's arms to the car seat to the back seat is rapid. From then on, they lean over your shoulder, breathing warmly down your neck, and point out each and every bird, cow, horse, pig, and goat they see. If they mislabel one, you'd better set them straight because you don't want a child who thinks a goat is a horse.

From then on, your conversation sounds something like, "No, no, that is a horse. Get up off the floor. Say kaoww, not sow. Don't open that window and get off the floor."

A conversation with your mate is likely to be interrupted by a

little voice yelling, "A horse! Horse!" And of course it isn't a horse, but you hug the little warrior for trying so hard.

We had this phase of traveling pretty well behind us and had advanced to higher mathematics until recently. It seemed like any ride brought out the urge to count in Todd. He found that as a beginner he could count to 212 between Akron and home, allowing a few minutes for sightseeing. He has now advanced to the thousands since he has learned to count by fives and tens, but we're still kept awake and alert because we must tell him if he missed a number. Invariably, if he misses a number, he starts all over again.

Now, we have started all over again with the dogs and cows and horses. A trip now sounds something like, "You missed 595. Doug, get off the floor. No, 495 doesn't come after 485. Shut the window. That's a horse. Don't hit each other. Horses don't moo. Get off the floor and quit sticking your hand under the front seat. Don't stick your tongue on the window. You missed 12,295."

Those cars with the dividing glass between the front and back seats look awfully interesting, but if we had one we probably wouldn't be nearly as adept at counting as we are. Or we might possibly forget what a horse looks like. The children of some friends recently argued that the seat directly behind the driver was the safest in the event of a tornado. If that's the case, we surely wouldn't want to shower one of them with glass.

You have to take a lot of important things like that into consideration when you're a parent.

Parson Jones Speaks

Dear Mr. Publisher:

It's a good thing its winter time, cause I'm in hot water again. Last Sunday I told my congregation that everything in the Bible wasn't God's Word. I pointed out that sometimes the Devil was talking. Then I told 'em that some of the words come from mean people, and some of it was man's opinion. Well sir, most of the members were so upset that they didn't wait to hear my explanation. Bill Longsnot blew his nose all through the sermon. Grace Senile unplugged her hearing aid, and our choir director, Ima Byrd, got up to get 14 drinks of water. The folks wiggled so much it looked like they were doing one of those teenage dances. Its a good thing we took up the collection before the sermon instead of after it.

The deacons held a meeting right after the service and called me on the carpet. They allowed as how I was trying to tear God down and make Him weak. I defended myself by pointing out that in the first place if its the Good Book. I told 'em in the second place that it didn't do God justice to quote the Devil and claim it was the Almighty's Word. Well sir, the deacons considered the fact that offerings were up last year and that nobody had died in the congregation, so they decided to give me another chance.

Mr. Publisher, I'm gonna stick my neck out again next

Sunday and preach on that text: "Truth". I'm gonna show 'em you gotta be careful how you use the Bible. You take over there in the Book of Job it says, "Curse God and die." Its a cinch the Good Lord didn't make that remark. It was Job's sorry for-nothing wife. In the Psalms it says that God has gone to sleep, but we know that ain't so. Some pore ole mixed up Hebrew come up with that idea. The Book of Ecclesiastes says, "theres a time to kill", but the Almighty said, "Thou shalt not kill". The Bible says that Jesus was the chief of devils, but its a fact this remark didn't come from God. One time Simon Peter made a little speech and when he got through Jesus called him the Devil.

Sir, you can make the Bible say anything you want. I know one woman who took two verses of Scripture, put 'em together and went around preaching; "The Bible says, 'Judas went out and hanged himself - go thou and do likewise.'" I reckon the Lord knew what He was talking about when He said we oughta love Him with our minds. Theres too many ignorant people quoting scripture. The time has now come to hang out the close. Right when you can.

Pastors, Wives

To Meet Here

Last fall twelve area Baptist churches which are affiliated with the General Association of Regular Baptists organized a local church fellowship which is called The Crystal Lake Area Fellowship of Regular Baptist Churches.

Since the organization's formation, the pastors and their wives have been meeting at 9:30 the first Monday morning of each month to conduct business necessary to carry on an active inter-church program. Each family brings a covered dish and the host pastor and his wife provide the meat and beverage for the noon-day meal. Pastor and Mrs. Addleman will host the group this coming month on April 4. It has been the policy of the organization thus far to have a guest speaker present something of special interest to the group involved. Here at Mentone, the visiting evangelists, Chelsea J. Stockwell, will speak on the subject "Desirable Pastor - Evangelist Relationship."

Baptist churches which compose the Crystal Lake Area Fellowship are located in Argos, Bremen, Elkhart, Knox, LaPaz, Mentone, Nappanee, No. Liberty, Plymouth, Rochester, Syracuse and Warsaw. These churches are presently engaged in a six week Sunday School attendance contest which is to climax on Easter Sunday.

DID YOU KNOW?

Mrs. Dottie Rohrer will return to her home in Mentone this week after having spent the winter in Palmetto, Florida. She reports she was slightly injured in a grocery store mishap a week ago, but she is coming along nicely.

By Mary Whitman

There are about 125,000 forest fires a year.

Every tree saved and every tree planted adds greatly to our national wealth, the Department of Agriculture points out. By the year 2,000 more than 300 million Americans will be relying on our national wood supplies.

A child will tell you that a tree is for climbing, for shade, for building a treehouse, for picking fruits and nuts and for playing hide and seek.

Trees also provide us with paper and building supplies, cloth, certain medicines, library paste, sealing wax, synthetic rubber and food.

One of a youngster's great thrills is planting a tree of his own. Some families make it a habit to plant a tree at a child's birth, or an important birthday. Some buy a Christmas tree balled and burlapped and plant it after the holidays.

A fine juvenile book is sure to secure a child's interest in our diverse legacy of redwoods, blue spruces, white birches, oaks, maples and other gracious and majestic trees.

Katherine Carter, who wrote "Trees and How They Grow" for Whitman Publishing Company of Racine, Wis., has filled her book with the kind of lore that all grammar-schoolers enjoy. Did you know that one giant sequoia in California is 2,500 years old? That a ton of wood can be changed to 180 gallons of molasses? Children will also learn from a book of this type how to tell a tree's age, why scientists are trying to solve the chlorophyll mystery, and what makes leaves turn scarlet and gold.

Scout groups, 4-H clubs and school classes often want to form hiking and conservation groups with an adult leader. Juvenile books on nature, trees and plants are handy guides for activity.

Given a book, a spade and adult help, a youngster can learn to plant and provide greenery.

Services Begin At Baptist Church

Special services will begin tonight at 7:30 p.m. in the First Baptist Church and will continue each night through Easter Sunday, April 10. The guest speaker, Evangelist Chelsea J. Stockwell, has given the following emphasis to the services for next week:

Monday, Faithfulness Night; Tuesday, Neighbor Night; Wednesday, Family Night; Thursday, Pack-a-Pew Night; Friday, Sunday School Rally Night; Saturday, Standing on the Promises Night.

During the coming week the evangelist will also conduct a Bible study and prayer time from 10 a.m. until 11 a.m. Monday through Friday.

The church pastor, Rev. Howard O. Addleman, states that the public is welcome at both the morning and evening sessions.

Files For JP

Mrs. Kenneth (Patricia) Shoemaker, Mentone, recuperating in Lutheran Hospital following kidney surgery, filed her intentions to run for Justice of Peace for Harrison Township, last Thursday. She was appointed to the post last year to fill the vacancy created by the death of Clarence Eiler. Her father, Earl Shinn, with the presence of a notary public, secured her signature and presented it in time for the Thursday night deadline. She was released from the hospital Sunday and is continuing her recuperation at her home.
