Chicken Barbeque To Be Held At Park July 31

A general dinner meeting of the Mentone Chamber of Commerce was held Monday evening, May 3rd. Thirty two members were present.

Gaylord Toll gave a report of the progress on the scholarship committee. Applications are now being accepted. The winner will be announced at graduation and presentation will be made at the next general meeting.

Names of 1965 committee chairman and co-chairmen were read by President Darrell King.

The duties of the various committees were explained.

Due to the success of the Chicken Barbeque held at the Park last summer, it was voted to have another chicken barbeque at the park on July 31st. Gerald Romine was appointed committee head and Gaylord Toll, co-chairman.

Various committee reports were heard. In order to make early plans and do a better job of decoration, 1965 Christmas decorations were discussed.

A committee was appointed to investigate and build a float to be used on various occasions during the summer. An advertising committee was also ap-

pointed to promote the theme "Mentone, the Egg basket of the Midwest" in connection with the float.

Mentone Police Dept. Asks Your Co-operation

The marshal has informed us that the speed laws in Mentone are very much abused, and since the children are out playing more and will be out of school soon he is asking your co-operation in obeying the traffic laws. The marshal also advises that there will be a "crack down" on all speeders and disregarding of stop signs.

Baptist Church News

Sunday evening was the end of the two week Revival services conducted by Evangelist Joe Day of South Bend. Mrs. Day brought "magic" object lesson before most of the evening messages.

Special music brought by distant talent were instrumental music by Sam and Jim Horn, (sons of Mr. and Mrs. Paul Horn, formerly of Mentone,) and Mike Gobel of the Plymouth Bible Church, duets by Mr. and Mrs. Ted Stavehahl of Talma Bible Church, and a young women's vocal trio or the Bible Baptist Church of Huntington.

Local soloists were Mrs. Brad Moore and Mr. Jim Unzicker. Vocal duets were brought by Mr. and Mrs. Everett Rathfon and Mr. and Mrs. Marion Acton. The mens' quartet consisted of the Misters Leroy Cox, Brad Moore, Everett Rathfon and Jim Unzicker. Trumpet duets were given by Dave Norris and Dan Addleman. The pianist was Janet Beson, the organists were Louise Cox and Mr. Bruce Miller.

Every evening the choir supported the song leader, Pastor Howard Addleman. One evening a guest song leader was Dr. Aaron Blossom of the Hillcrest Baptist Church of Rochester.

The meetings were well attended with increased attendance each night with the exception of one night. The highest scoring "Andrew" of the "Operation Andrew" project, in which three of four "volunteers" were chosen to invite guests, was Mr. Boyd Blue. He won a year's subscription to the Moody Monthly magazine. Second place winner was Dan Acton who received the gift of a book.

DAILY VACATION BIBLE SCHOOL

Evangelist and Mrs. Joe Day will return during June 13-18 when Mrs. Day will conduct the Daily Vacation Bible school to be held at the church. The closing demonstration evening of the Bible School will be held on Sunday night June 20 instead of Friday. Evangelist Day will bring the closing message.

The Baptist Church is continuing the "Operation Andrew" plan during May and June. Young people of camp age, from eight through high school will be the "Andrews". Four will be chosen each week to invite attendance at Thursday prayer service and the Sunday services. The young person with the most "guests" during his week will be given a week free at the Crystal Lake Baptist Youth Camp.

GIRL SCOUT NEWS

Troop 108, with their leaders, Mrs. Howard Allen and Mrs. Ora Carmean took a field trip to the Post Office last week. Postmaster Kenneth Romine guided the girls on this tour. All of the Brownies of this troop were present for this very interesting trip.

Troop 142 of Brownies helped celebrate National Library Week by visiting the Mentone Public Library. The librarian, Mrs. Lackey, showed the girls many interesting phases of the work in a library. A few of the girls took out library cards, which they hadn't previously done. Mrs. Lackey also had prepared refreshments for the girls, which they enjoyed at the close of this field trip. Mrs. Wm. Ettinger and Mrs. Dale McGowen accompanied their troop.

During their regular business meeting, Troop 142 voted to give Carolyn Jackson a pair of Scout knee socks, as part of her wardrobe for Round-Up. Miss Jackson spoke to the girls at the Mother and Daughter Banquet in March during Girl Scout Week.

A combined party for Troops 108 and 142 will be a Mother and Daughter Tea on May 11, from 3:30 to 5:00. This will also be honoring the 3rd graders who will be flying up to the Junior Scout Troop.

When we fed 'em Pioneer Pig Tasties, little pigs ate like hogs

Recently we conducted Preference Trials with baby pigs, using Pioneer Pig Tasties and other pre-starters. It was strictly "no contest." The pigs ate five times as much Pig Tasties as they did other feeds. Pigs are ready to eat this highly palatable pre-starter by the time they're 7 days old. High in milk products, vitamins, proteins and carbohydrates, Pig Tasties are easy for baby pigs to digest. But best of all, baby pigs like the taste of Pig Tasties. This balanced feed gets them off to a fast start, keeps them eating like hogs. Feed Pig Tasties to your little pigs and they won't be little for long.

Mentone Does Well In County Track Meet

Mentone placed fifth in the Kosciusko County Track meet at Pireceton with 19 points. Six points were gotten in the mile relay with a third place finish. This time was a new school record of 3:49.8 replacing the old record of 3:52 made in 1963. These boys were Dan Murcia, Rex Bowser, Rex Yarian, and Ernie Murcia.

Another school record was set by Rex Yarian when he was in a 4-way tie for first place. Rex cleared the bar at 11' 7". Ernie Murcia broke his own school record in the 220 yd. dash when he won his trial heat on Thursday in 23.6 seconds. In the finals Ernie gathered in a 4th place finish and Rex Bowser got a fifth place in the same race.

In the shot put Bill Sisk grabbed a third place while Dyrell Hackworth grabbed a fourth. Ernie Murcia also got

a fifth in the 100 yd. dash. Most of the points scored will be back in another year, so it is hoped Mentone might be a threat in the County at that time.

Thursday, May 6, 1965

Read I John 2:1-14

He that saith he is in the light, and hateth his brother, is in the darkness even until now. — I John 2:9.

Members of a devout and devoted family were not experiencing the real joy and satisfaction from their life that they thought was possible.

Each day they would ask the Lord, in prayer, to make them more aware of the needs of others in the world. Yet even this unselfish petition did not yield them peace of mind or satisfaction.

One day they discovered the reason for this. They were sympathetic and mindful of the needs of others in the world—and this was commendable. But they were blind to the needs of those closest to them, their own family.

If we are going to witness for Christ, we must first have Christlike regard for members of our own families.

PRAYER: Our Father God forgive us if we have such an absorbing interest in ourselves and our families that we have no thought or interest in helping others. Forgive us if we have concern for others to the neglect of those nearest and dearest to us. Help us so to live that our lives may be an influence for good to all people. For Jesus' sake. Amen.

THOUGHT FOR THE DAY

Parson Jones Speaks

Dear Mr. Publisher:

Me and the madam just got back from our Wednesday nite prayer meeting and Bible study. I was always taught that the Bible was a book of miracles and I'll shore go along with that point of view. Some folks won't allow no miracles in the Scriptures cause they figure if they can't do the impossible they ain't gonna let God do it either. So, I don't agree with them people that say the Bible ain't a Miracle Book.

But, Mr. Publisher, I think we done gone one step too far. Us modern folks have added an-

other miracle to the Holy writings. We can make God take opposite sides of the same question. I'll show you what I mean.

Theres a site a folks who believe in segregation. They say that the whites and the blacks ain't got no business mixing. Then theres another group that favors intigration. According to them, its wrong to separate the races. Wellsir, I don't reckon its unusual to have two sides to the same question, but the peculiar thing about it is that both sides try to prove their point from the Bible. The thing I'm wondering, Sir, is how can God be for segregation, and agin it at the same time? Either the Almighty is mixed up or else somebody reading the Bible is.

Then, theres the labor unions. Some folks use the Bible to support labor unions. While they're running around quoting Scripture for 'em another group is quoting Scripture agin 'em. I often wonder, Mr. Publisher, if this is the same thing as creating God in your own image.

Lotsa socialists use the Bible to prove that its the best way of life. They claim that the early Church owned everything in common. On the other hand them that believe in democracy also support their way from the Good Book.

Them thats for war and them thats against, swear that "the Bible says so". Some folks drink liquor and back it up by the Scriptures, while others in town say its wrong from the same book. Some don't have no opinions at all, which they claim they get from the Bible too.

Now Mr. Publisher, it getting all this stuff outa one and the same book ain't a miracle I don't know what is. It looks to me like too many people are telling the Good Book what it oughta say, instead letting it tell them. We got one fella in our Church that thinks up a good idea, then he looks for a text in the Bible to prove it.

A body has to be mighty sharp these days, cause if he don't somebody will pass some bad stuff on him. I got a counterfeit five dollar bill the other day. Theres a hole lot more counter-

fit stuff going around that folks pass off as from Scripture. Its for sure that God can't be for and agin something at the same time. So, we gotta decide which one sounds more like God and make a choice between 'em.

Come see us.
Yours truly,
Parson Jones

Mrs. Goldstein Entertained DAR Chapters

The Anthony Nigo chapter, of Mentone, and the Agnes Pruyn Chapman chapter, Daughters of the American Revolution, of Warsaw, were hosts at a dinner meeting held April 27 at the Westminister Hotel for nine Good Citizen girls, their mothers, and DAR members and guests. The Good Citizens winners represented area high schools in the Good Citizen Contest, which is

sponsored annually by the chapters.

The tables for the smorgasbord dinner were attractively decorated with spring flowers, candles, and ivy.

Mrs. Paul Shireman, Anthony Nigo chapter regent, and Mrs. William Nice, regent of the Agnes Pruyn Chapman chapter welcomed the guests. Mrs. Thomas Fugate gave the invocation.

Following the dinner, Mrs. C. R. Collins, Good Citizens chairman of the Warsaw chapter, presented gold pins and certificates to Jane Ashley, of Pierceton, Donna Stevens, of Leesburg, Becky Hoerr, of Milford, Geri Bauer, of Syracuse, and Melinda Watson, of North Webster. Cheryl Chance, of Warsaw, was unable to attend.

Mrs. Charles Tucker, Good Citizen chairman of the Anthony Nigo chapter, read a tribute to the mothers and presented the pins and certificates to Diane Barnhart, of Mentone, Carol Ann Werner, of Silver Lake, and Jane Kimes, of Claypool. Each girl then told of her plans for the future.

The program was presented by the Agnes Pruyn Chapman chapter. Mrs. Curtis Myers, accompanied at the piano by Mrs. Robert Loop, sang a folk hymn entitled, "Wondrous Love."

Mrs. Byron Shoemaker introduced the guest speaker, Mrs. Samuel Goldstein, of South

Bend, a representative of B'nai B'rith, and International Jewish fraternity.

Mrs. Goldstein displayed a large collection of dolls representing many famous persons of the past and present and gave an interesting biography of each one. She emphasized the one characteristic shared in common, their efforts to serve all mankind in accordance with the principles of democracy.

The doll collection included Abraham Lincoln, Eleanor Roosevelt, Jackie Robinson, Albert Einstein, Sister Elizabeth Kenny, Jonas Salk, Ralph Bunche, Marco Polo, Clara Barton, St. Francis of Assisi, Emma Lazarus, Stephen Foster, Simon Bolivar, Albert Schweitzer, Jane Addams, George Washington Carver, Mahatma Gandhi, and Tom Dooley.

The committee in charge of the decoration included Mrs. Hazel Linn, Mrs. Frank Smith, Mrs. Loren Gross, and Mrs. Pearl Lackey.

It is expected that pilots from throughout the country will attend the event and to compete for prizes awarded in several

categories of aircraft competition. Trophies will be awarded in several categories of aircraft for the pilot coming the longest distance, for the oldest airplane, the oldest pilot, and the best constructed home-built aircraft.

WOWO personalities will be featured in remote broadcasts from the fly-in throughout the day and "pans" call for WOWO "Topcat" John Cigna to sky-dive from an airplane during the affair. Cigna, so far, has been tight-lipped on whether he will actually take the plunge.

Americans View Their Mental Health

Beginning today, this newspaper will begin a series of five articles on how Americans view their own mental health. This authoritative series was prepared by a special task force of the Indiana Mental Health Planning Commission.

The Planning Commission, appointed by former Governor Matthew E. Welsh in December 1963, has undertaken an in-depth study of State-wide mental health problems.

Under the chairmanship of Thomas W. Einford, Indianapolis, more than 60 representatives from state agencies, professional organizations and voluntary citizens' organizations, 11 special task forces and 12 regional committees will select wide mental health goals and establish priorities for attaining them.

In planning what has to be done to solve the problems of mental illness, many questions needed to be asked and answered. Among them:

How well or badly adjusted do people consider themselves to be? Are we happy or unhappy, worried or unworried, optimistic or pessimistic in our outlook? What troubles us, as we see ourselves?

And what do people do about their troubles? Do we solve our problems by ourselves or do we learn to live with them? Do we turn to someone for help?

To be sure, answers to such questions as these about psychological well-being are only one measure of "mental health" or "mental illness" since the individual might see his troubles or lack of them quite differently from the way the professional sees them.

Yet such answers have value because in a democracy, the needs of the people—as they themselves feel them, come to understand them, and express them—ultimately determine the ways in which organized efforts

will be made to meet these needs.

Bunker Hill Slates Armed Forces Day

Crew members will be on hand to answer questions about the various aircraft.

Other displays and demonstrations will include such Air Force equipment as survival gear, A KC-135 boom, jet engines, a B-58 escape capsule, drag chutes and parachutes, personal flying gear, generators and turbines.

There will be sandwiches, soft drinks and other snacks available at food stands stationed within the display area.

There will be continuous entertainment from 11:50 a.m. to 3:30

p.m. Members of the base Judo Club will demonstrate combative measures, and sentry dogs and their handlers from the Combat Defense Squadron will go through their training program. Other shows will include performances by the military band, Black Horse Troop Lancers, equestrian jumping team, fourgun drill team and infantry honor guard from Culver Military Academy. Three Shrine units, the "Little 500" midget racing unit from Huntington, the Murat Shrine Temple Highlanders from Indianapolis, and the Third Wheel Patrol from Logansport, will perform. An Air Force ROTC drill team from Purdue University will complete the entertainment. Arrangements have been made to move inside in case of bad weather.

All visitors are urged to view the displays in the morning as the gates will close just 10 minutes after the last group finishes performing.

In the Mentone School, Vocational Agriculture has been a part of the curriculum since the late 1930's, with an F.F.A. charter being issued from the state in 1950 to the local F.F.A. chapter. Since that time, local members of the F.F.A. chapter have won many recognitions for outstanding performances in areas both directly and indirectly associated with agriculture.

F.F.A. has one basic purpose of the total vocational agriculture program. It is an intra-curricula activity having its origin and root in a definite part of the school curriculum—vocational agriculture.

F.F.A. has one basic purpose in its existence, and that is to assist boys enrolled in vocational agriculture to better prepare themselves along whatever line they may choose, to take their

place in any community as a respected citizen not only willing, but also capable of serving in positions of leadership as their

training and experiences justify.

Mentone To Have Tornado Warning System

Mentone, along with many other communities, has become aware of the need of a warning system to be used at times of tornado warnings and other times of emergency. As a result, a series of alarms have been planned to be used at these times.

Monday night, May 17, will be the first trial of the alarm system. At seven in the evening, the fire alarm will sound for one minute and be silent one minute. This will be repeated until the alarm has sounded three times.

If there should be tornado warnings Monday night the alarm will be repeated every five minutes until the all clear

signal is given. Residents will know when the threat is past as the alarm will stop sounding.

Little League To Have Tryouts

The Little League board members met Monday evening at the school house. There will be tryouts on May 24th at 6:00 p.m. for boys entering the 3rd, 4th, 5th, and 6th grades. The next night on May 25th at 6:00 p.m. there will be tryouts for boys entering the 7th, 8th, and 9th grades.

The boys are to bring \$1.00 on tryout night for their insurance. They are also to bring their ball suits from last year if they still have them. They will be re-assigned to them, but this will account for all suits out.

The new diamond is now underway.

Walter Weirick Rites Held

Walter E. Weirick, 83, R. 2, Warsaw died Friday, May 7, at the Allan Nursing Home where he had been a patient for several months.

Mr. Weirick was born June 27, 1881 in Burket to Napoleon and Sarah (Everett) Weirick. He was married on May 2, 1903 to Eunice Sarber, who predeceased him in death Nov. 9, 1957. He was a retired farmer and railroad employee, and a member of the Palestine Christian Church.

Surviving are three daughters, Mrs. Madeline Bybe of Mentone, Mrs. John (Kathryn) McSherry of Knox, and Mrs. Richard (Julie) Ludwig of Chicago; four sons, Melvin and Wilson, both of Warsaw, Robert of Silver Lake, Carl of Leesburg; 10 grandchildren and four great-grandchildren.

Services were conducted Monday in the McHattin Funeral Home with Rev. Louis Engle officiating. Burial was made in the Palestine cemetery.

This same series of alarms will be used in the future for all tornado alerts and other alerts. It is hoped that this advance warning system will enable residents to seek shelter in their basements or other areas of shelter in time to avoid personal injury.

Mailbox

Improvement Week

Each spring the Post Office Department designates a week during which patrons on rural routes are encouraged to examine and improve, where necessary, the appearance of their mailboxes. This year the week of May 17 to 22 has been selected. The purpose of Mailbox Improvement Week is to call attention to the need for providing mail receptacles which are conveniently located, neat in appearance, safe to use, and which protect the mail from the weather.

Boxes and supports should be kept painted and free from rust. The name of the owner should be shown on the side of the box visible to the carrier as he approaches, or on the door where boxes are grouped. The assigned box number may be shown.

HOW MUCH LONGER

In the words of the Citizens Public Expenditure Survey, Inc., the federal wartime excise taxes "burden consumers and hamper economic progress. They should have been repealed a long time ago."

These taxes constitute a 10 per cent import on handbags, luggage, cosmetics, toiletries and various other items, few of which can be considered luxuries in a high-income economy. A similar tax applies to communications services, which are absolute basic necessities.

There is small doubt that most of the taxes will be replaced at long last, and others reduced. The Administration has called for that, and congressional sentiment seems highly favorable.

The question is "When?" And it is not a small question. For consumers will delay their purchases of the affected items while awaiting repeal. The result is to needlessly curtail production and sales, putting an unwelcome damper on employment and economic activity.

This is a case where Congress should move without delay.

When we fed 'em Pioneer Pig Tasties, little pigs ate like hogs

Recently we conducted Preference Trials with baby pigs, using Pioneer Pig Tasties and other pre-starters. It was strictly "no contest." The pigs ate five times as much Pig Tasties as they did other feeds. Pigs are ready to eat this highly palatable pre-starter by the time they're 7 days old. High in milk products, vitamins, proteins and carbohydrates, Pig Tasties are easy for baby pigs to digest. But best of all, baby pigs like the taste of Pig Tasties. This balanced feed gets them off to a fast start, keeps them eating like hogs. Feed Pig Tasties to your little pigs and they won't be little for long.

mighty fine sounding words to my wear ears. Sir, I've been working so hard of late til the ole lady said I should apply to join the dumb animals association. They've got unions for everybody in this country except wives, servicemen, and preachers.

I went to Dr. Adnoise the other day and he allowed as how if I didn't slow down my ulcers were gonna start ulcerating again. And when my stomach ulcerates it don't fool around. On top a that my nerves have got so bad that one a my eyes jumps up and down all day long. I done got slapped by two women who thought I was winking at 'em. When I tried to explain to 'em by saying that winking at them was the farthest thing from my mind, that made 'em even madder. The Dr. told me that this eye twitch was a psychological thing that had a hidden meaning - namely that I was trying to close my eyes to the world. (I reckon a running nose would signify that a fella was trying to run away from his problems.)

Anyhow, I told my folks at the church what ole Dr. Adnoise had told me. Their hearts were moved by the hole thing and they swore with one record and the swore with one accord that I oughta slow down and take it easy.

One lady pointed out that if I killed myself by overwork it was the same thing as suicide. I told her I was much obliged for the concern. As she was leaving she gave me the names of 5 alcoholics she wanted me to try and help.

My head usher was awful interested in my condition. He told me the best thing to do was follow his example. He never overworked, and he never worried. All I had to do was to unload some a my work on other folks. Right before he left he asked me to pick up all the hymnals, cut out the lights, and sweep the floor before I left. What he said shore made a sight of sense.

The choir director was another one that was shook-up over my bad health. She said that a good singer always had to rest her voice to keep it from blowing a fuse and I was gonna have to follow the same sound advise. As a matter of fact she had a friend laid up in another town

that hadn't taken care of herself that she wanted to visit, and she wondered if I could look after the choir for a couple weeks tile she could get back.

It shore is funny, Mr. Publisher, that everybody wants me to rest and take it easy, and then they turn around and give me more work to do.

I'm just glad the Lord don't make the sun stand still no more like he did in Joshua's day, cause if He did I'd just have to work that much longer.

Gotta close now - my hand has gone to jumping.

Yours truly,
Parson Jones

Lafayette, Ind. Entries will be accepted after May 15 for the 1965 Hoosier Beef Show at the Indianapolis Stock Yards, and the first 125 steers will be accepted before entries close.

The show will be July 22, with carcass judging July 27 at the Higrade Food Products Corporation coolers in Indianapolis. Indiana owned and bred steers from purebred sires are eligible.

An auction of all steers at 1 p.m., July 22, precedes on-foot judging at 6 p.m. This will allow a comparison to be made between selections of buyers and judges. Steers will be judged loose in pens and placed on a holding ration until they are slaughtered prior to the carcass show.

The carcasses will be judged on the basis of dressing percentage of the steers, loin eye area, fat covering and quality and conformation of the primal cuts.

County Extension offices have entry blanks, or they can be obtained from Purdue University's animal sciences department or the Indiana Livestock Marketing Institute, 1501 Kentucky Ave., Indianapolis 46221.

J. T. Frost, Purdue University animal scientist, will be head judge for the on-foot classes, and will join E. A. Kline, Iowa State University meats professor, and Robert Braunschweig, vice-president and director of meats for the Kroger Co., Cincinnati, Ohio, for carcass placings.

More than \$1,000 in cash, plus trophies, awaits the winners. Show sponsors are Purdue, Hy-

grade Food Productions Corporation, Indianapolis Stock Yards and the Indiana Livestock Breeders Association.

Modern Music Masters Charter Chapter Here

The national office of Modern Music Masters, the Nation Music Honor Society, takes great pleasure in announcing the chartering of Chapter 807 at Mentone High School under the sponsorship of Kenneth Bush.

The chief aims of the society are to foster greater interest in band, orchestral and choral performance and to provide wider opportunities for personal musical expression. Students are selected for the honor of membership in "Tri-M" on the basis of musicianship, scholarship, character, cooperation, leadership and service to the school, church and community. Ability and scholarship in both music and academic subjects, solo or ensemble performance and cooperation with teachers and follow students, are basic requirements. These high standards serve to challenge the students to greater effort and achievement and to spur them on in the pursuit of excellence.

There is nothing so detrimental to true Christian character and a growth in grace as the constant entertaining of evil thoughts.

Shower Honors

Mrs. Knisely And Baby Son

On May 1st a Mother Goose baby shower in honor of Mrs. David Knisely and son, Bradley Allen, was given at the home of Mrs. Charles Tucker assisted by Mrs. F. B. Koenig and Mrs. Golda Mollenhour.

The guests were given name cards with various nursery rhymes on them. Introductions were given and each recited their nursery rhyme of forfeited 10 shiny pennies into baby Brad's piggy bank.

Upon arriving the guests were given baby pictures and they were to write captions for them. All were very original and brought many laughs. They were then given a show representing "the old women in the shoe" with partial lines of Mother Goose rhymes to identify.

A missing word contest was then enjoyed by all. The story was entitled "My World and Me" by Bradley Allen Knisely. It was written as if from the baby's point of view and about his first week in this world.

Many lovely gifts were then opened by Mrs. Knisely. These were placed throughout the house with the last group being in a cradle decorated in pink and blue. This cradle was used by the great grandmother, Mrs. Mollenhour, when she was a baby.

The guests then enjoyed refreshments served by Mrs. Dale Wallace from a table decorated in pink and blue with a rock-a-bye-baby tree as a centerpiece. Assisting with the refreshments in addition to the hostesses were Mrs. Allen G. Shirey and Mrs. Lloyd Bowerman.

Attending were the Mesdames David Knisely, Dale J. Wallace, Golda Mollenhour, F. B. Koenig, Lloyd Bowerman, Jerry Ryman,

No wheels! Toro's new Flymo handles like no other mower can... because it floats on air! A light push and Toro's Flymo floats across lawns. It goes where you want it to go. Side to side. Straight ahead. It's as safe and easy to use on hills as it is on level lawns. No discharge chute — clippings and debris are deflected downward into the grass beneath the housing.

Flymo cuts a 19" swath, and features a fast starting 2 1/2 hp engine. **FLOATS ON AIR.** A whirling impeller spins a ring of air that supports the Flymo only 1/2" above the ground. Height of cut is easily adjusted for 1/2, 1 and 1 1/2 inches.

Americans View Their Mental Health

EDITOR'S NOTE: Growing public concern over mental health has resulted in great progress during recent years. The Indiana Mental Health Planning Commission, which is split into 12 regional committees involving more than 1,000 civic leaders, is charged with developing a plan of action to improve mental health and retardation services on the community level. The commission has provided this five-part series in an effort to help each of us understand our own mental health.

The average American has a definite view of his own mental health. And he's usually the first to admit he's got problems.

A grass roots poll taken recently revealed that a major portion of the population believes itself to have mental or emotional disturbances or distress.

Exactly what symptoms trouble Americans were reported by the University of Michigan's Survey Research Center, selected for the task by the Joint Commission of Mental Illness and Health established by Congress.

The study not only confirmed certain views commonly held by the experts, but also revealed some aspects of human behavior that "come as news."

The Commission wanted to know how well or badly adjusted Americans consider themselves to be.

Also, are they happy or unhappy, worried or unworried, optimistic or pessimistic? Do they feel strong or weak, adequate or inadequate?

And what do people do about their troubles? Do they solve them alone, learn to live with them or turn to someone for help?

If they feel the need for help, where do they turn?

Nearly 25 per cent of Americans admitted that at some point in their lives they had felt on the verge of a nervous breakdown. The most common reason they gave were death of a loved one and tensions connected with their jobs.

Money and other material and economic considerations (or the lack of them) are one major source of happiness and unhappiness. But it's not a life of luxury which fills the American dream. Most view money more modestly, in terms of material comforts, an adequate living and the security it can buy.

On the other hand, roughly the same proportion of people regard their children as one of their primary sources of happiness. Another one out of five sees marriage as the wellspring of happiness, or the family in

general.
All in all, say the pollsters, it is clear that well over half the population finds its greatest happiness in the home, a state that is strongly enhanced by economic security.

But the meaning of happiness and unhappiness for Americans is not the same as the meaning of worry.

Talks with the average man on the street revealed that most people (about 90 per cent) say that they are very happy or pretty happy, but, at the same time, one out of four admits he worries a lot or all the time.

Two out of five worries blame money for their troubles.

Research collaborators noted several interesting differences between these two states of mind.

Unhappy people are pessimistic about the future and the possibilities of change; they are apathetic and have a lack of psychological resources. The worrier, however, is likely to be more optimistic about the future; he believes things can change for the better and acts accordingly; he is active and positive in his approach to life.

A surprising note was the discovery that not even one person out of 10 (in 1960) expressed a concern over community, national or world problems. International tensions, fear of atomic extinction and the anxious atmosphere of a troubled world seem outside the realm of personal involvement.

(Next week: A look at marriage)

Ernie Welborn Is Top "Andrew" For Week

Ernie Welborn is the top scorer for the first week of "Operation Andrew", a contest being conducted among the Baptist young people. Four "Andrews" are given the opportunity to invite as many guests as possible to the prayer meeting service on Thursday evening and the Sunday evening service. Ernie had 58 guests present. The other three "Andrews" were John Romine, Sherry Lewis, and Debbie Bowser.

At the end of the two month period the highest scorer will receive a week free at the Chrystal Lake Youth Camp. This week Joanna Newton, Chuck Swihart, Janeci Bach, and Dennis Block are "Andrews."

Akron High School Student Admits Mailing Bomb Threat

A 16-year old Akron girl was taken into custody Monday morning after admitting she mailed a letter which said a bomb would go off in the school building either Friday or Monday. The letter was postmarked in Athens and was received by school authorities on Saturday.

the day following the first date mentioned in the letter.

Akron police, the county sheriff's department, state police, a Bunker Hill Air Force bomb disposal unit and Fulton County Civil Defense workers worked Sunday in checking the building for a bomb.

Each student was checked as he entered the building on Monday morning, including the girl taken into custody.

The half-page letter was worded in large hand lettering and was sent to state police laboratories for an analysis of the handwriting. The officers also compared samples of Akron students' writing to the note before questioning the students.

The girl confessed shortly after noon on Monday and was taken to Fulton county jail where she is being held for questioning by Juvenile Court. She appeared in Juvenile Court Tuesday morning and was returned to the jail after preliminary questioning.

Forbes Reports Schools Are Running Satisfactorily

Superintendent of schools Robert Forbes reported to board members of the Tippecanoe Valley School Corporation Monday night that all was well in the corporation with all schools operating smoothly and efficiently.

The board met in regular session Monday evening, and, along with Forbes' report, other action included making the school lunch program an extra curricular activity rather than putting it under the supervision of the school board. A recent law was passed stating that school boards would supervise the lunch program but a contradictory law gave the boards an option to keep the lunch program as an extra curricular activity under the direction of the individual schools.

Minutes of a previous meeting were read revealing that Morris Alger, principal of the Akron Grade School, had requested a transfer to the Beaver Dam Jr. High School. An opening exists at Beaver Dam due to the resignation as principal of Fred Haney, Sr. Mr. Haney will remain in the school as a teacher.

It was brought out that bus

drivers will be under contract this year instead of just being hired as had been done in the past. The contracts will be drawn up in the near future.

These students pictured here were the winners of the PTA academic awards presented at the last meeting of this year. "There is a lad here who has five barley loaves and two fish; but what are they among so many?"—John 6:9 (RSV)

The Galilean woman prepared two fish, baked five barley loaves, and packed them as a picnic lunch for her boy. It was his cherished provision for his time of need.

As Jesus spoke to the multitude on the Galilean hillside that day, the lad listened attentively. When Jesus wanted to feed the multitude, the boy was willing to offer his package of lunch to the Lord. The result was that the private provision which was enough for one tired and hungry boy was multiplied in the hands of the Lord to feed five thousand hungry persons. The fragments left over, which Jesus ordered gathered up, filled twelve baskets.

The little that we are able to put in the hands of the Lord can also become a blessing to many beyond our knowing. But many of us are keeping things today for strictly personal use when the Lord has need of them to bless other persons.

PRAYER: Lord, we pray for faith that prompts us to entrust all we are and have to Thee. Help us to put on Thine altar our carefully kept so-called securities. In the Master's name. Amen.

THOUGHT FOR THE DAY

Today I will offer the Lord what He requests of me.

P. C. Krikorian, Physician (Lebanon)

We Get Letters . . .

Dear Members of the American Legion Auxiliary:

The can of Christmas candy which you sent to me at Camp Zama, Japan was forwarded and arrived here at Geissen, Germany this week. Hence, the delay in your receiving this thank you letter for the Christmas candy. It has traveled more miles than around the world, but is still in good condition. Wrapping the home made candy in aluminum foil helped to keep it from drying out so it is still very delicious. Thank you for making the candy and sending it to me.

November 24, 1964 I left Camp Zama, Japan after being there for five years. I had accepted a transfer to Geissen, Germany in the menu planning office of Quartermaster Field Activity, position similar to the one I had in Japan. There was a thirty day leave enroute which I spent in Indiana and Illinois with relatives and calling on friends. It was quite enjoyable to be back home despite the icy streets and near zero temperature.

Spring has arrived in this part of Germany. The past two weeks there have been several warm, sunny days with bright blue sky. The farmers are plowing in their fields, some with horses, the city dwellers are working in their garden plots and everywhere the forsythia, pansies, daffodils, and hyacinths are blooming. There are many apple, cherry and peach trees in this area; in another two weeks their delicate pink blossoms will make a sharp contrast to the bright green of the clover and wheat fields and the brown plowed earth.

The farmers live in quaint villages with narrow streets and houses built with only a narrow sidewalk between the house and the street. In some areas one sees the farmer driving a team of horses hitched to a wagon or a manure spreader going from the village to his farm. In the larger towns and cities, especially in the newer sections, there are well kept lawns with flowers and shrubs in front of the houses. Most German housewives have potted house plants in the windows of their homes.

I bought a Volkswagen so I can get out and drive through the country and villages. The highways and autobahns are very well marked, numbers on the highway correspond to those on the road maps so one can drive without the fear of getting lost. I am planning to enjoy the next two years in Germany and the opportunity to travel in Europe. After that I hope I can live in Indiana.

Yours sincerely,

Bernice L. Anderson

GIRL SCOUT NEWS

The Brownie Scouts recently entertained their mothers at a Tea which was held in their respective scout rooms. Troop 108 girls presented each mother with a gift that girls had made. These were coupon books, filled in with different household chores, and then signed by the daughter. The third graders who will soon be flying up to the Junior Scout Troop were presented gifts from their leaders, Mrs. Howard Allen and Mrs. Ora Carman. Girls receiving these Girl Scout purses were: Candy Smythe, Cindy Allen, Lisa Harman, Cheryl Clappitt, Barbara Johnson, Lynn Knoop, Clara Overmyer and Brenda Wolford. Kool-aid and cookies were served by the Brownies to the following mothers who were present; Mrs. Lewis, Mrs. Myron Coplen, Mrs. Tom Harman and Mrs. Sam Golden.

Troop 142 with their leaders, Mrs. Wm. Ettinger and Mrs. Dale McGowen also entertained mothers and guests. These included; Mrs. Lamar Leffert, Mrs. Sam Ware, Miss Maude Graham, Mrs. David Burkett, Mrs. Albert Hiers, Mrs. Eldon Senff, Mrs. Kenneth Bush, Mrs. Alton Perry, Mrs. Frederic Morgan, Mrs. Jerry Carey, Mrs. Joe Good, Mrs. Walter Kelly, plus several younger brothers and sisters. Two new girls attended for the first time. They were Tammy Grimm and Jane Perry. Top attendance awards were given to Nancy Ettinger, Leslie Senff, Kim Bush, Kris Bush and Sheryl McGowen.

Later that evening, a Fly-Up Supper was held at the Ettinger home for the third grade girls who will soon be leaving the Brownies. Those enjoying this lovely meal were Mrs. Dale McGowen, Sheryl McGowen, Kris Bush, Kathy Greer, Jessica Gross, Debra Kelly, Lyn Metheny and Cindy Carey.

Brenda Wolford was recently invested as a Brownie in Troop 108 by her leader, Mrs. Allen. The Troop Committee for this group also held a meeting to plan their summer program. Attending this were; Mrs. Rodney Gible, chairman, Mrs. Kenneth Anglin, committee member and Mrs. Allen. Mrs. Sam Golden was unable to attend.

The Junior Troop meeting last week found 35 girls in attendance, as the third graders from the Brownie Troops were visiting for the day. These girls will be flying up into this Junior Troop the last of May. The opening was group singing, led by Betty

Ettinger. Following this, the patrols met and several Brownies were assigned to sit in on these, as this part of a scout meeting is new to them. Several girls worked on their badges during the hour. The closing was held outdoors with group participation in games.

Girl Scout uniforms for all ages—Brownies, Juniors and Cadettes, are needed at this time. There are several girls who will either be joining as new scouts or who will be going into another age group, so many uniforms can be used. If you have such, will you please call Mrs. David Cooper, EL 3-3125 or Mrs. Wm. Ettinger, EL 3-3055.

Parson Jones Speaks

Dear Mr. Publisher:

As you know Spring has now jumped upon us. Everywhere you look birds are either pulling worms out of the ground or else they're singing sweet melodies. My wife tells me that humans got their idea for singing from the birds. I don't know whether that's so or not, but one thing I

can say for sure — the singing our choir does is for the birds. That is, with the music leader I got at my church, it would be better if I got a mocking bird to do the job. (That way folks could say, "that choir director they got sure is a bird.") Another thing Mr. Publisher, a bird knows his music pretty good and is always practicing.

Folks wouldn't come as near picking a fight with a bird as

they would a human cause somebody might call 'em a coo-coo. Add to that the fact that you could hire one for chicken feed, and you've got a pretty good deal. If you got the right bird for the job, why before long the hole congregation would be crowing over how much better the singing was. It would be a sound investment to say the least.

Until we can find a feathered friend for the job, we'll have to go on using the choir the way it is, dragging instead a leading. There is one other possibility.

I was looking at that "sing along with Mitch" program on TV and it gave me a good idea. Maybe you've heard how they do that show. The singing is taped ahead of time, so when they appear on television, why the folks just move their mouths without really singing. I think they call this kinda thing a pantymine. Now what I was wondering Mr. Publisher is why wouldn't that arrangement work in a church like mine where we've got so many untalented volunteers for the choir? We could play a record of some hifalootin choir and have our singers move their mouths without really singing. Course we'd still have to have choir practice so's folks could learn how to move their mouths at the right time. You'd also have to train 'em to repeat a line or two, in case the record got stuck. The way I see it Sir, under this system every church could have a first-class choir. It's just another lesson on how to succeed without really trying.

Oh, one thing I almost left out is that the organist wouldn't have to play either. She could just use a box with a key-board on it.

Anthony Nigo Chapter D.A.R.

Hears Mrs. Burns

The May meeting of the Anthony Nigo Chapter of the Daughters of the American Revolution was held at the home of Mrs. Charles Tucker with Mrs. James Randall as co-hostesses.

The regent, Mrs. Paul Shireman, led the Ritual opening and welcomed the twenty members and the three guests; Mrs. Edna Burns, Mrs. Sally Heighway and Mrs. Golda Mollenhour.

Mrs. Dale Cook read the inspiring farewell message from Mrs. Duncan, retiring President General of the D.A.R. Mrs. Wells brought the National Defense message, "Inflation Can Happen Here." Our Government has fallen into the dangerous habit of allowing deficits to pile up while spending more and more. Such trends are dangerous to both our prosperity and our security. The resolution for the month was read by Mrs. Yolande Riner.

Mrs. Furl Burns of North Manchester was the speaker of the evening. She gave a good report of the Continental Congress of the D.A.R., recently held in Washington, D.C. She reported that the publicity and the public attitude toward the D.A.R. were the best she had ever known. One speaker likened the D.A.R.'s to "a breath of fresh air".

The theme of the Congress was: American values, past and present. The President General

of the D.A.R. emphasized that like the North Star, always constant, the real American values do not change. "It still takes self-denial and sacrifice to build a great nation and keep it great."

At the close of the program, guests and members were invited to the dining room which was lovely with floating candles lighting the tastefully arranged table where delicious refreshments were served.

The next meeting will be a Flag Day Picnic at 1:00 P.M., Sunday, June 13th, at the Mentzer Park, Mentone with the D.A.R. families as guests. Members will please notify the hostess, Mrs. Wayne Smalley, on or before June 6th of the number of guests they expect to bring.

The tornado warning system was tested satisfactorily in Mentone on Monday night by members of the Mentone fire department. The only change made from the previously announced system is that the alarm sounds at 30 second intervals rather than in one minute intervals.

The all clear notice remains the same as announced in the News last week: the warning simply stops sounding. There is no special alarm used for the all clear.

Memorial Day Services Planned Here

In Flanders Fields

In Flanders fields, the poppies grow
Between the crosses, row on row
That mark our place, and in the sky
The larks still bravely singing, fly
Scarce heard amid the guns below.
We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved, and were loved, and now we lie
In Flanders fields.
Take up our quarrel with the foe:
To you from falling hand we throw
The Torch: be yours to hold it high!
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

Neighbors Say 'Phooey' To Blocher's 'Wild' Hogs

Two unidentified hunters are shown with a Florida range hog which they shot on the farm of Walter Blocher, east of Silver Lake. Blocher's neighbors complained about the hunting operation in Kosciusko circuit court this week and Blocher has promised to halt the hunting on September 30.

Neighbors of Walter Blocher who lives east of Silver Lake have complained in Kosciusko circuit court that Blocher's "wild hogs" are a menace to the neighborhood and as a result Blocher has promised to be rid of all of them by midnight September 30.

Blocher has imported range hogs from northern Florida to his farm for the past two years and has conducted hunts for hunters who pay for the privilege of stalking the elusive hogs. The hogs were once domesticated according to Blocher but have been let run wild until they are pretty mean.

Neighbors who complained about the hogs were Guy and Leone Aker, Russell Bauer, Dr. Elbie Herendeen, Junior Rule, and Guy and Ruth Cripe. They charged Blocher's hogs with breaking the fence between properties, damaging crops, and breeding their sows causing "oad" litters. They further charged that the hogs were a menace to their property and possibly a threat to the lives of their families.

Blocher plans to continue the hunts until the end of September and will voluntarily end them at that time. He has also promised to repair the neighbor's fences.

The neighbors testified that the fences were strong enough to prevent domestic hogs from breaking through but that they were not strong enough to prevent the wilder, nastier tempered range hogs from breaking through. Blocher replied, "Hog-wash", to charges from his neighbors that he sprinkled the hogs with buckshot on turning them loose for the hunts.

Blocher has made trips to Florida almost weekly since beginning his hunting operation. On each trip he transports almost sixty hogs from Florida to his farm in an enclosed trailer. He uses dogs in rounding up the hogs and in the hunting operations.

Vacation Reading Club To Begin

The regular Vacation Reading Club of the Bell Memorial Public Library will begin this year on Monday, May 31st. The Library will be open this summer from 1 p.m. to 5 p.m. Monday through Friday, and 1 p.m. to 6 p.m. on Saturday.

All school children who were in grades one to five this year are invited to join the club. There are no dues and no club meetings.

The theme this summer is "Let's be Book-Worms." Children register at the Library, choose the books they wish to read and take home slips for their parents to sign. When the slips are returned, the child receives credit points according to the difficulty of the book.

He then chooses an attractive card and uses his points to earn colored stickers for his card. When the card is completed, his name will be put on the Honor Roll in the Lobby of the Library. At the end of the summer, prizes will be given to those in each grade who receive the most points for their reading and to the champion and reserve champion readers of the entire club.

"Do join the fun children. Come to the Library and 'Let's be Book-Worms' says Mrs. Lackey the librarian.

A Column of News By And For All Girl Scouts Of The Mentone Community

In the article last week, several mothers names were omitted from those who attended the tea in Troop 108. These were Mrs. Lewis Johnson, Mrs. Kenneth Anglin, Mrs. Cecil Mason, Mrs. Rodney Gibble and Mrs. Don Smythe.

Troop 108 had their regular business meeting last week and talked over plans for Fly-Up. Safety precautions for a tornado warning were discussed by the girls. The meeting ended by playing games outside. Each 3rd grader was given the honor of choosing a favorite game to play.

Troop 142 played games and sang songs that had been learned during the past year. Mildred Bellamy was welcomed into the group.

A Neighborhood Meeting was held last Wednesday afternoon in the Scout Cabin on Center Lake. Those attending from Mentone were Mrs. Denton Abbey, Mrs. Wm. Ettinger, Mrs. Dale McGowan, Mrs. Frederic Morgan, Mrs. Eldon Seniff and Mrs. Howard Allen. The traveling statuette, given for having the largest number in troop representation, was again award-

ed to a Mentone group. Troop 142 of Brownies had four present and so brought home the bronze trophy.

Summer meetings for both Brownie Troops will continue all through June, except during camp week. There will be two July meetings, on the 13th, for an all day cook-out, and on the 27th. There will be no meetings at all for Brownies during August.

The Junior Troop with their leader, Mrs. David Cooper and Mrs. Tom Harman, enjoyed a cook-out at the Mentzer Memorial Park last Thursday after school. A typical girl scout meal was cooked, which consisted of Hobo Stew, S'mores and kool-aid. Twenty five hungry girls consumed this in short order.

Several of the girls in this troop were working on Troop Dramatics Badge, and they presented a play for the pleasure of the rest of the group. This play was a few scenes from the life of Juliette Gordon Low, founder of the Girl Scout movement.

The remainder of the late afternoon was spent in recreation.

Cadette Troop #30 went to Foo and Faye's restaurant recently to enjoy an evening out together as a closing on this year's activities. Mrs. Denton Abbey, their leader, accompanied the girls. This group will also be participating in a Rededication Service when the 6th grade girls from the Junior Troop will be joining them as Cadettes. These new girls are Debby Cooper, Honey Hudson, Serita Secrist, Diana Melton and Joyce Stadvahl.

Parson Jones Speaks

Dear Mr. Publisher:

I run into a mighty funny fella the other day. He just wandered into my office and said he needed help. He looked like he had pretty good clothes on so I asked him if he had a job. That man looked me right straight in the eye and told me he was a professional bum. Well sir, that shook me up how a fella could be so honest about being a bum. He pointed out that the president's new poverty program had thrown the spot light on him and lent dignity to his profession. He claimed that being pore now-a-days was kinda like a status symbol. As a matter of fact he was expecting the President to drop in to see him any day.

Ain't it a shame, Mr. Publisher, that going around with your hand stuck out has finally become respectable? Oh, I ain't kicking pore folks, cause my maw and paw was pore as Job's turkey. They weren't ashamed for having much, but they was too proud to beg. A man oughta always be ashamed of getting something for nothing cause the Good Book says that we should "earn our bread." The way I look at this fella who hit me up for a hand-out, he had never heard about "earning" anything. Him and millions like him figure the world owes 'em 3 square meals a day.

If I can get up enough nerve I'm gonna write the President and tell him about the anti-poverty program they had in the Bible. Back in them days they had what they called the "gleansers program." Here's the way it worked: Folks were required by law not to pick their crops clean. A man who was cutting his wheat had to leave a little bit standing. If a fella had apple trees he had to leave a few hanging. Them that had tatter patches left a bushel or two in the ground. Now, the pore folks could have some of these left overs, but there was one catch to it. Them that got the wheat had to cut it and thrash it themselves. Them that got apples had to pick 'em, and them that wanted tatters had to dig 'em. Yes-sir, folks back then had to work up a sweat to get in on the welfare program. This set-up didn't make too many bums outo people and it didn't get bogged down with red tape. Another thing when a fella got outa work, and went into this ole timey poverty program he didn't get outa practice on how to sweat.

Personally, I doubt if the President will take to the plan, cause it ain't designed to get too many votes. There's so many folks in the pore class that they form a pretty good pressure group. It wouldn't surprise me if a fella could get elected president by running on the welfare ticket.

The public is invited to enjoy a good meal while participating in the worthwhile endeavor. Tickets are \$1.25 for adults and 75c for children and can be purchased from most Akron businessmen or at the door.

The Beaver Dam E.U.B. Church and its members are assisting the Akron Chamber of Commerce and will also have tickets available.

A spell down was conducted by the fourth, fifth, and sixth grade teachers with Janet Robinson from the sixth grade as winner. A surprise program was given in honor of Mrs. Moriarty and Mr. McIntyre who are both retiring. They were given seats of honor and then crowned king

and queen by first graders Jimmie Ellinger and Rachel Sill. Americans View Their Mental Health

EDITOR'S NOTE: Growing public concern over mental health has resulted in great progress during recent years. The Indiana Mental Health Planning Commission, which is split into 12 regional committees involving more than 1,000 civic leaders, is charged with developing a plan of action to improve mental health and retardation services on the community level. The commission has provided this fivepart series in an effort to help each of us understand our own mental health.

The most common single source of worry today among American men and women from all ages and backgrounds is financial insecurity.

Almost one out of every three persons believes that money can buy happiness.

But is it not great riches or luxuries which cash in on the American dream, say pollsters from the University of Michigan's Research Center who made a recent nationwide survey on what Americans think of their mental health.

Happiness is just a thing called "having enough money, being free from debt and having a nice home.

People in the middle income group report the most financial worries. They have enough to get by but not security, and, therefore, they have strongest desire for higher incomes.

Those in the low income brackets are more resigned to their financial fate and are even apathetic about the chances of raising their economic station in life.

Attitudes of American man toward their jobs are caused by several factors, including the status their work carries, their income, their education and their age.

As expected, men with jobs that society regards highly also tend to be well-educated and higher salaried.

Men in these higher status jobs not only get a boost in ego from their work but actually seek such gratification.

Because of this, they experience greater frustration when these needs are not met.

At the other end of the workman's ladder, the pollsters discovered that the dissatisfaction expressed by men with the less desirable jobs does not center on the lack of individuality, interest or creativity in these jobs as

was previously supposed.

Many observers had assumed that the invasion of the machine in industry and office work had brought with it so much drudgery and alienation of the worker from the product of his work he had become psychologically maladjusted.

As a result, many attempts have been made to provide these workers with other emotional outlets and to cater to their psychological needs.

But men in lower job echelons

throughout the country showed less frustration and distress from their work than was expected.

Possibly their distress has found other outlets, say the pollsters, or perhaps the industrial programs designed to meet their emotional needs are successful. Or, perhaps their aspirations in these areas are not as high as was once supposed.

Overall unhappiness caused by a job is usually the plight of the young and better educated than the older or less-educated worker.

(Next week: A look at stress)

Once again we pay Memorial Day tribute to America's war dead. They laid down their lives so that we may be free. Let us hope that the world will achieve a lasting peace.

Clinker - Valentine Vows Spoken

Following a wedding trip to the Smoky Mountains, Mr. and Mrs. Darrell R. Valentine are now residing in their newly furnished home at 3018 Stinson Drive, Fort Wayne. The bride is the former Diane Sue Clinker, daughter of Mr. and Mrs. Worby Clinker, Silver Lake, and Mr. and Mrs. Leo Valentine. Mentone are parents of the bridegroom.

The candlelight double ring marriage ceremony was performed, May 9, by Rev. Clyde Trumbauer, Rosnoke and Rev. Grover Tipton, pastor of the South Pleasant Methodist Church

near Silver Lake. The altar of the church was centered with the cross and flanked with beauty baskets of white snapdragons and candelabra. White satin bows marked the pews.

Mrs. Wesley Bullis, Akron and Mrs. Rex Clinker, sister in law of the bride, presented a program of nuptial music, which included "My Hero," "Be My Love" and "The Wedding Prayer."

Given in marriage by her father, the bride chose a floor length gown of imported Chantilly lace and pure silk organza. The lace bodice was fashioned

with a scalloped scoop neckline, traced with seed pearls and elbow length sleeves. The detachable organza train was edged with scalloped lace and swept to a chapel length. Her shoulder length veil of silk illusion was caught to a crown of pearls and crystals. She carried a white Bible topped with yellow roses and stephanotis and ivy.

Mrs. Alan Olson, Murcie served her sister as matron of honor. She appeared in a slim floor length gown of yellow pure silk chiffon and crepe. The chiffon bodice was fashioned with an oval neckline and long sleeves. A band of yellow satin marked the empire line. A yellow flower with a bouffant veil and matching accessories completed her ensemble. She carried a cascade arrangement of tangerine carnations.

Identical ensembles were worn by bridesmaids Mrs. Dennis Burnworth, Columbia City, Mrs. George Blocher and Miss Beverly Caudill, Fort Wayne. Miss Brenda Clinker, flowergirl niece of the bride, was attired as the other attendants, but carried a petal filled basket.

Marlin Valentine, Bluffton served his brother as best man. Ushers Paul Bucher, Anderson, George Blocher, Fort Wayne, Rex Clinker, Silver Lake, and Alan Olson, Muncie, Randy Clinker, nephew of the bride was ring-bearer, and candles were lighted by Gary and Terry Hostetler. Piercetown. The gentlemen of the party were all in formal attire, with white carnation boutonnieres.

A reception for 175 guests immediately followed the exchange of vows in the church annex. The serving table was surrounded with white nylon and swagged with similax, centered with a white five tiered wedding cake, accented in yellow and tangerine. Hostesses were Miss Janet Schultz and Miss Sherry Leakey of Fort Wayne, Mrs. Jim Caupp, Churubusco and Mrs. Richard French. Others assisting were Misses Betty Fisher, So.

Whitley, Linda Bucher, North Manchester; Beth Bucher, Indianapolis; Mrs. Charles Lynch, Mrs. Maurice Walther, and Mrs. Harold Swihart all of Silver Lake.

Mrs. Marlin Valentine was in charge of the guest register.

For traveling, the bride chose a tangerine wool ensemble with matching petal hat, and the yellow rose corsage from her bridal arrangement. She is a graduate of Silver Lake High School and Ravenscroft Beauty College, Fort Wayne. Mr. Valentine graduated from Akron High School and attended International Business College, and is employed in the Audit Department of Fort Wayne National Bank.

A rehearsal party was given on Saturday evening at Steer Inn by Mr. and Mrs. Leo Valentine for the wedding party.

OPEN MEMORIAL DAY 8 A.M. until 10:00 A.M.

A one car accident north of Akron at 6:30 a.m. Monday injured Miss Ginger L. Walters, R. R. 1, Mentone. Miss Walters was driving south in her 1961 Chevrolet and lost control of her car 2 1/2 miles north of Akron. The car went 153 feet alongside the roadway, and broke off a General Telephone company pole, and went through a fence owned by Forrest Kamp, traveling 102 feet inside the field before stopping. The car is pictured here in the field where it came to rest. Miss Walters told investigating officers that an unidentified oncoming car forced her off the highway. Damage was estimated at \$650 to the car, \$100 to the telephone pole and \$15 to the fence and posts. Miss Walters suffered a bruised left arm and a slight cut on the inside of her upper lip.

Gomer Pyle And George Gobel To Star In Indiana State Fair Show

Jim Nabors, better known as Gomer Pyle to his TV audience, will star in the first week-end Coliseum show of the 1965 Indiana State Fair, August 28 and 29. He will have as his special guest star one of the great comedians of this generation, "Lonesome" George Gobel. Their four shows will be at 5:00 and 8:00 p.m. on Saturday and 2:00 and 7:30 p.m. on Sunday.

Nabors has a natural gift for comedy and has surprised and won over guest appearance audiences with his powerful oper-

atic singing voice. As "Gomer Pyle USMC," Jim plays the role of a naive, easy-going raw recruit who seems to have two left feet, much to the consternation of his drill instructor.

Gobel will bring to the show both witty humor, done in a frozen-faced style, and singing and guitar playing talent that was developed while working at WLS in Chicago.

Also scheduled for this big entertainment feature is Dick and Deede, sometimes referred to as the number one boy-girl recording duo in America. They reached the number one position in America charts and "top five" throughout the world with their "The Mountain's High."

Reserve seat prices range from \$3.50 to \$2.00. Information about the show and ticket order blanks can be obtained by writing. Tickets, Indiana State Fair, Indianapolis, Indiana 46205.

The 1965 fair is scheduled to run 11 days, August 28 through September 7.

What Does Memorial Day Mean To You?

On May 30, 1868, the first Memorial Day was observed. No, it wasn't a big occasion when the local grocer had to stock up on hot dogs and hamburger, rolls and bottles of coke so celebrators could enjoy the first bar-b-q of the season. And the local Legion Hall didn't have to stock up on cold beer so thirsty marchers could "re-fortify."

Instead it was a day when Union Army survivors decided to pay tribute to their civil war comrades who had fallen in battle. It was a patriotic holiday requiring nothing more than a true heart, a heart that beat for God and country, man and principle. It was a day set aside to remember and to pay respect to those who had died for these things.

People from all walks of life, farmers and their wives, business men and their ladies, boys and girls went to the cemetery and placed flowers on the veteran's graves, while some prayed individually. Some formed in groups and had the preacher pray with them. No matter how they did it, they meant it. They knew what this day was for and they kept it holy.

As time passed and wars increased: Spanish-American, World War I, World War II, and the Korean War; veterans were and still are honored on Memorial Day by a few. And as the number of wars increased, so did the pomp and ceremony of the day. But perhaps this is fitting. The larger the number willing to take the time and effort to show their appreciation for what has been done for us all, the better it is.

Yet, on the other end of the spectrum there is something that bothers us considerably. It is the passerby or spectator who stand on the sidelines and casually views the procession. He shows no more interest than a gazing cow glancing up at a passing butterfly. And those who attend services at the local monuments or cemeteries are often no better, and maybe even worse.

We have noticed at the services the only groups to bow their heads as the clergy prayed were the Boy and Girl Scouts and the 4-Hers if perhaps they were present. The adults were standing in small groups visiting. They had no idea, we're sure, what was being said or if it mattered, why they were even there. Their children or others, showed the same respect they did. The boys would wrestle on the grass or ride their bicycles in and out of the marchers standing at rest, and the little girls skipping through a game of tag.

As the various organizations later passed in view, it was more than shocking to observe the number of men and women who did not stand at attention as the flag went by, or couldn't rise from the easy chairs they had brought along, or the men who didn't lift their hats.

Did our men fight for nothing or our boys and girls die in vain we wonder. Memorial Day is a very sacred day for us. Let us one and all come out to the services this year and show our love and respect not only to those who gave their lives, but also to those who fought and returned to help us carry on for that which is just and right, and those who will never be able again to en-

Talented Rookies Challenge Veterans in Monday's "500"

An outstanding group of talented rookies will match skill with their more experienced rivals in the 49th annual 500-mile race at the Indianapolis Motor Speedway next Monday.

Several of the newcomers, headed by Mario Andretti, already have earned a sizeable part of the cash prizes offered for the fastest qualifiers during the Official time trials. Now they have their eyes on the Race Day purse of approximately \$500,000 and they have had ample time to become familiar with the challenging two-and-a-half-mile course.

The five-foot six-inch Andretti, who performed exceptionally well in the only two previous USAC championship events this season, started the record-breaking spree on the first day of time trials by establishing a new one-lap and four-lap marks of 152.465 and 158.849, respectively. Later in the day his performance was exceeded by Jim Clark, A. J. Foyt and Dan Gurney; but Mario is confident he can run with the best of them.

Billy Foster and Gordon Johncock also appear to be formidable contenders in their first "500" appearance against such veterans as the all-time trio already mentioned and Rodger Ward, Parnelli Jones, Len Sutton, Lloyd Ruby and Don Branson. It will be a distinct surprise if Foyt's race record of 147.250 is not shattered.

Mario Andretti (left), fastest rookie qualifier for this year's Indianapolis "500," discusses race day strategy with veteran Dan Gurney.

Speedway officials anticipate a crowd of more than 250,000 spectators and all gates to the grounds will be opened at 5 a.m. (EST). Pre-race ceremonies will get under way at 9:30 a.m. with a parade of bands headed by Purdue University's famous marching unit. Celebrities from the entertainment world and 1966 Festival Queen Suzanne Devine will circle the track in Plymouth convertibles at 10 a.m.

Thousands of multi-colored balloons will float skyward during the traditional presentation of "Back Home Again in Indiana."

Speedway President Tony Hulman will deliver the command, "Gentlemen, Start Your Engines," and the field will begin the parade lap in time to cross the starting line at exactly 11 o'clock.

P. N. Buckminster, vice president of the Chrysler Corporation, will drive the Plymouth Sports Fury pace car with Mr. Hulman as his only passenger.

Notes From Your County Agent

It's time to plant new roses now and prune the old ones.

Dig large holes for the new plantings, about twice as wide and twice as deep as the spread of roots. Adding soil with organic matter such as peat moss, mix in two or three pounds of 12-12-12 or a similar analysis fertilizer per 100 square feet of rose bed.

To plant, hold the rose bush with one hand so the bud union is two inches below the soil line. Add handfuls of the soil-peat moss with the other hand, working the soil around the roots gently until the soil is within three inches of the top of the hole. Then add water to settle the soil. Later, add more topsoil and finish by adding a mulch on top of the soil after you plant.

First step in pruning old bushes is to remove dead wood. Cut back one inch into the green live wood when you cut off dead wood. Don't worry if most of the wood is dead and you have to almost cut the whole bush to the ground. It will usually produce good roses and grow satisfactorily of only one or two inches of stem are alive about the graft

union. Remove weak canes, mechanically injured wood, and diseased and interfering canes too, so that only the best is left.

It's time to plant strawberries. After you're prepared the soil for the patch, work in five pounds of 5-20-20 analysis fertilizer per 100 feet of row before planting. Strawberries are heavy feeders and the fertilizer will help them get a good start.

Set the plants 16 to 24 inches apart in the row and allow three to four feet between rows. The plant crown should be flush with the soil surface and soil well pecked around the roots.

Water the strawberry plants after they are set out to give them the best start possible.

However, before you actually get to the planting job, selection of virus-free varieties is an important consideration.

The horticulturists recommend Sparkle, Vermillion or Surecrop, all well adapted to home planting. They are resistant to Red Steele root disease, and are more vigorous and will generally produce better than other varieties.

At least once a year in this column we have recommended that you review your insurance program. The tornado losses

have proved this to be good advice. Most farm policies are inadequate and would not begin to recover actual cash costs and would not come close to replacement costs. We know that replacement insurance is not available in most cases but we also know that the losses sustained by some farms a couple of weeks

ago will mean the end of the thorough review and up-dating line. The recommendation of a ought to be followed.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Thursday, May 27, 1965

Read Mark 12:28-34
Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength: this is the first commandment. And the second is like, namely this, Thou shalt love thy neighbor as thyself—Mark 12:30-21

Walking down the street, a man came upon six children, all about five years old. They were crying as they sat on the sidewalk with their feet in the gutter and their heads bowed in their hands.

The man stopped to see if he could be of any help. He stooped down and asked them if they were hurt. They said no. Then he asked them why they were crying if they were not hurt. One little girl raised her head and said, "Tommy hurt himself. We love him and we are crying because he is hurt."

We live in a world of unrest and conflict, of hunger and need. We are failing as Christians unless we feel the hurt of our fellowman, as these children felt the hurt of their little friend, and show our compassion and cry out against the wrongs.

PRAYER: Most gracious Father, as we go about our daily tasks, we pray for Thy spirit to be in us, for Thou art love. Teach us to cultivate that love in our own hearts so that others may see Thy love. Thy compassion, expressed through us. In the spirit of Christ. Amen.

THOUGHT FOR THE DAY
Let us love our fellowmen enough to suffer with them in their pain.

Maxine F. Wallace, Postmistress Tennessee

BLOCHER'S HOGS

Cont from page 1

The Blocher operation has received much publicity in the two years it has been providing recreation for hunters willing to pay \$40 to \$60 for the hunting day and hog. He has been featured in a Chicago newspaper after that paper's editor and sportswriter hunted on the farm and more recently was the featured subject of a Sunday afternoon television program.

The operation is estimated by Blocher to net him about \$1500 income per month.

Hunters have used bows and arrows and guns in hunting the hogs. These weapons also brought complaints from the neighbors who testified that the arrows landed in their fields.
