**NATIONAL ELECTION
NEXT TUESDAY**

It is anticipated that the election next Tuesday will bring forth more voters than in any election in the past. The interest centers mainly upon the presidential contest, and the results may confound even the most expert of the experts. State and county contests, likewise, are being watched with keen interest.

The interest of the citizens is an indication that too many have found in times past that after the election they have too late realized that their failure to vote has left them with too many undesirables in responsible positions.

An election in America is a time when the citizen can have a little to say about their quality of leadership—and in this day and age, leadership is of vital importance. Party lines may be important, but quality of leadership—and moral integrity—are far more important.

Polling places in Mentone will be at the Miller Auto Store (the former library building) and the school. Polls will be open from six until six, central standard time (7:00 a. m. to 7:00 p. m. EST.)

**MENTONE WINS
FIRST GAMES**

The Mentone basketball boys opened their 1960-61 season at Mentone Tuesday night with a pair of wins over the Bourbon high school boys.

Mentone had a 41-25 lead at the half and went on to win 78 to 62. The second squad came up with a 32 to 16 win.

The complete schedule will be found elsewhere in this issue.

**COUNTY TAXES
DUE MONDAY**

Monday, Nov. 7, is the last day to pay county taxes without a penalty being added to your obligation.

CALENDAR

Eastern Star, Mon., Nov. 7.—Visiting Matrons and Patrons night, at the Lodge hall at 8:00.

J. O. Y. Circle, Tuesday afternoon, November 8, at 1:30 p. m. at Mrs. Bernice Rush.

Mothers of World War II will meet Wednesday evening, Nov. 9, 7:30 with Dora Whetstone.

Mentone H. D. Club meet Thursday, Nov. 10 at Mrs. Elmer Sarbers.

**LIONS PARTY
A SUCCESS**

The members of the Mentone Lions Club were hosts to a Halloween party last Saturday night, and awarded prizes to the best in each category among the masqueraders. About sixty of the youngsters, all in costume, paraded before the judges.

Prizes for the largest family group went to four in the Bules and Eckert families.

Johnny and Bob Romine won in the best couple category, and Steve Lewis and Ken Romine walked off with the silver dollars for bridal couples.

The best tramp was Connie Grossman, and Debbie Kay Livengood was chosen as the best clown.

Terry Hammer came up with the ugliest prize while Susie Shirey, disguised as a grandfather clock, was winner for the most unusual.

One-year-old Robin Secrist performed admirably as the youngest masked, while Virginia Goodman was the oldest person in costume.

The Lions club presented 160 small gifts to the masqueraders and to the youngsters in the audience.

Merchants contributing to the gifts were: Walburn Insurance, Hammer Insurance, Frank & Jerry Grocery, Valentine Elevator, Northern Indiana Cooperative Association, Red Comb Pioneer Mill, Farmers State Bank, Coopers' Store, Denton's Drug Store and Lemler's Grocery.

The regular Lions Club fish fry preceded the Halloween party and the club appreciated the fine response of the citizens.

**MENTONE BOOSTERS
ELECT OFFICERS**

The Mentone Athletic Boosters club representatives met at the school Friday night and elected the following officers: Loran Tridle, president.

Jack Newcomb, vice president. Gilbert Griffis, secretary and treasurer.

This is the second year for the Boosters' Club and its aims is to promote athletic activities here, and to provide the best in sportsmanship for fans and participants. Memberships are now being sold and the group will meet the third Monday night of each month.

The club will sponsor the dances to be held following the home games.

COUNTERPOINT

By the Editor's Wife

Cooks, how do you feel about "a person" who has very real likes and dislikes in food? Is it easier to cook for "a person" who does like ground beef (and gravy) but dislikes chicken, salmon, pie, cake, and vegetables? At our house "this person" feels that the only good thing about pumpkin pie is the generous dab of whipped cream on top; and his favorite vegetable is gravy. Too, why spoil ice cream with cake? And if one must have vegetables, let's make it lettuce.

Recently on Lions' club night (when I would be eating alone) I prepared salmon cakes, which is one of my favorite foods. This fact did not escape the editor's attention, for one cannot hide salmon. He used to say that he could tell at Rush's corner if we were having salmon.

There are over 18 million acres of farm land in Indiana, the average size farm being a little over 145 acres. More than 75,000 farmers own their farms; 29,000 are part owners; and 22,000 rent farms.

Now is the time to get your bird feeder ready for winter use. If you are fixing a feeder for the birds for the first time, remember to put it up off the ground so that it won't be an "easy mark" for cats; and put a cover over it for protection from the weather. If you want to use cracked corn and grain, be sure they are ground fine enough. We poured bacon drippings into aluminum pans, which when hardened, made fine eating for the birds. It's a hobby that grows on one.

Have you discovered the psychiatric value of your button box, ladies? Once in a while I need an odd button, and reach for my button box, which holds a collection of many years. Seems to me, my collection started with some my grandmother had. By "collection" I mean a general confusion of unclassified and unrelated buttons, from here and there. In my search, it is necessary to handle and sort; to study and reminisce . . . "this button with the tag-end of red tape was on one of Jody's sunsuits . . . Where did that old shoe-button come from? There's that broken string of red amber beads . . . no won-

**REORGANIZATION
PLANS SELECTED**

Mrs. Dan L. Urschel announces that the Kosciusko County Committee for School Reorganization voted on its Preliminary Plan on Tuesday night, November 1. The vote was 6-3 in favor of a plan which provides for three school corporations in the county.

The central unit is composed of Wayne and Prairie townships.

The north unit is composed of Tippecanoe, Turkey Creek, Van Buren, Plain, and one-half of Jefferson townships. (Scott and the other half of Jefferson are in the Nappanee school district, and Etna township will be in a unit with two Marshall county townships.)

The south unit is composed of Washington, Monroe, Jackson, Clay, Lake, Seward, Harrison, and Franklin township.

Names of the new corporations, manner of selection and number of school board members in each new district is still to be decided, along with presentation of necessary figures of present and proposed school corporations to be included with the preliminary.

This Preliminary Plan will be sent to the State Committee for School Reorganization for approval before the comprehensive plan is completed.

More information as to valuations and size will be given in next issue.

der so many shirt buttons are missing, they're all in here . . . I must get all these old old buttons together—ha! Celluloid coat buttons, now it's plastic . . . Wish there were some way to use that darling mother-of-pearl buckle, and on and on. One loses present problems and pressures via the button-box therapy. (I seldom do find the button I need.)

We enjoyed the children who came to "trick or treat." It was interesting to watch them as they came in hesitantly and silently, shining eyes through peep holes betraying their pent-up excitement. Then, the release of happy jabber when they could lift their masks, and claim their treat. Such nice manners, too!

We enjoyed this: Who said opportunity only knocks once? Television is giving us a second chance to see movies we missed 20 years ago.

**PUBLIC INVITED TO
P.T. A. MEETING**

The public is given a special invitation to attend the Mentone Parent-Teacher meeting to be held in the band room of the school next Wednesday night, November 9 to hear a panel discussion concerning the progress in school reorganization. Participants will be Mrs. Dan Urschel from the county committee and the representatives of the Harrison township citizens' committee: Kenneth Romine, James Beeson, Mary Hammer, Richard Manwaring and Eddie Creighton.

This will be an exceptional opportunity for the citizens to learn, first-hand, of the progress of the reorganization committee and to get any questions answered which you may have in mind. The committee desires to arrange school facilities that will best serve the interests of all patrons, and the members welcome your assistance in trying to satisfactorily attain this goal.

**SIXTIETH WEDDING
ANNIVERSARY**

Family Finances

by John Roberts

Are you one of the fortunate persons who will have enough cash to buy Christmas gifts? You will if you have a Christmas Club savings account. Having the cash is, like almost every other good thing, the result of thoughtful planning and action.

During November many banks will make payments to their 1960 Christmas Club depositors and will begin their 1961 clubs. Now is the time for you to open such an account so that you will have the money to meet all or part of your next year's Christmas expenses.

Here's the way to go about it. Inquire at your local bank about its Christmas Club program. Decide how much money you will want to spend next Christmas. Divide that amount by the number of payments in your bank's Christmas Club program. Then open an account and make regular deposits. This is an easy and practical way to be financially prepared.

Tax Gains Thru Private Ownership

"Payment of \$3,614,000 in real estate and personal property taxes this week by Northern Indiana Public Service Company raised the firm's total property tax contribution to Indiana's schools, cities, towns, and counties for the year to more than seven million dollars," Dean H. Mitchell, NIPSCO president, said today.

"The November installment of \$3,614,583.73, added to the spring payment of \$3,614,583.73, brings the company's total state and local property tax bill for

1960 to \$7,229,167.46." Mitchell said, "making NIPSCO one of the largest tax paying utilities in the state of Indiana."

The company's tax payments this year are \$786,269.04 higher than in 1959.

Stanley W. Evans, Warsaw district manager, said that total local taxes paid by the utility in Kosciusko County in 1960 amounted to \$178,956.20, of which \$76,308.50 went to the city of Warsaw.

Tax payment checks were sent to NIPSCO district managers well ahead of the November 7 deadline to make sure county treasurers received them in plenty of time.

A LOOK AT OUR FREEDOMS

(From the pen of an alarmed American)

Let us all look at the freedoms given us by our illustrious forefathers—the Constitution, the Bill of Rights, and later the American Creed, which was adopted in 1918. They gave us a land of great opportunity where each person can worship God according to his conscience, dream, plan, work, thoughts, and aspirations in his vocation, limited only by his ability. These things were not given us on a silver platter, not without great suffering and many deaths. Our forefathers and mothers came to this land of virgin forests, large rivers, mountains, prairies, and hostile Indians because they wanted to worship God as they pleased and be free from bondage and excess taxation. Many died from hardships, or were killed by hostile Indians or during the Revolutionary War, but others fought on to establish this nation of ours based on freedom and justice for all.

Many of our boys died on the battlefields in many lands to protect this freedom we hold so dear. Shall we let their deaths be in vain? These documents (our Constitution and our Bill of Rights) guarantee American citizens freedom of speech, freedom to worship in any church

of their choice, freedom of the press, freedom to work at any place a person so desires, freedom to move one's person or family from place to place without interference by the government, to seek employment and to work at the occupation of one's choice, all without hindrance from anyone. Other freedoms include equality of all citizens before the law and special privileges for none, protection of every citizen's rights to hold, bequeath or otherwise dispose of property, to work and produce, engage in business, buy and sell without interference by other persons or by the government, encouragement of thrift, and the right to climb the economic ladder in competition, unhampered by the government and restricted only by the rule that all dealings be honest and above board, maintaining the Republican form of government with the power of Federal government limited as specified in the Constitution, all other powers being reserved to the States or to the individual citizen. Also, freedom to operate any business without coercion, freedom to be man or bureau, a right for trial governed by law instead of by one's peers as a jury, a right to be judged innocent un-

til proven guilty, and the encouragement of and respect for education and learning.

Now let us look at some of the things which have caused us to lose our freedom. Our children have not been taught the fundamentals that have made America great. They have no textbooks which emphasize the importance of the American Constitution, the Bill of Rights, and our freedom guaranteeing these rights. Our system of free enterprise has been ridiculed by our teachers in the higher institutions. The teachers insist they do not have the time to teach these fundamental truths all our children should know. Our people in the last 25 years have shown a desire for security rather than freedom. This has been growing at a rapid pace, with all politicians promising the people more and

more. The people seem to have been drugged by all these promises of security until they have now reached the stage of apathy and dependence. Awaken, Americans, you are paying for this so-called security with your own money and you only receive about 40% of what you pay in. You are gradually losing your freedom.

The Russian people under Communism have total security. Do you want this type of security?

61st CHICAGO STOCK SHOW

Largest of the nation's agricultural shows, the International Live Stock Exposition, will celebrate its 61st anniversary in Chicago November 25 to December 3.

It will be held in the 13-acre International Amphitheater and a wide area of the nearby Chicago Stock Yards. The management anticipates animal listings for the show will reach the 10,000 mark by the time a final tally is made after the close of entries November 1.

Prominent live stock breeders and feeders from near and far, boys and girls from farm and ranch, and leading horsemen will combine to send their best specimens to the competitions of the Chicago Exposition that annually determines the crowning championships of the year among 38 different breeds of farm animals that will be on featured display.

BIG CATTLE SHOW

All breeds of dairy cattle, as well as beef cattle, will be seen in competition at the Exposition this year, according to show officials, following its merger last year with the International Dairy Show. It is now the nation's leading show of both purebred beef and dairy cattle.

New ideas for 1961 farm practices will be depicted in a much enlarged farm equipment show at this year's Exposition over any past year, the management reports.

It will reveal the newest in farm tractors, including the largest one ever built for farm use. It weighs 13 tons. The latest in automatic feeding equipment and new stock handling systems will also be features of the farm equipment show at the Chicago livestock exposition.

TO FEATURE RODEO

Championship rodeo competition will be an added feature of the International Horse Show this year. Six contest events will be staged at each of the 14 Horse Show-Rodeo performances, November 25 to December 3, saddle bronc riding, steer wrestling, bareback bronc riding, calf

roping, girl's barrel racing, and exciting contests where cowboys will test their skill and stamina to stay aboard hard bucking, fast whirling and always dangerous Brahma bulls.

Exposition officials predict an attendance of more than 400,000 visitors. Past surveys reveal visitors to the Exposition come from all the states, Canada and many foreign countries.

New Classes In B.F. & B.L.

Plans are completed for a second series of Better Farming and Better Living classes to be held November 15, 22 and 29 according to Frank H. Miller, assistant county agent.

Enrollment is about completed but a limited number could be accepted at this date. Enrollment is to be held to 2025 families.

The Better Farming and Better Living program is an effort on the part of the extension service to help farm families. Farm and home problems are studied and plans are worked out to increase income and family satisfaction.

It is hoped that the program will serve as one way for the farm family to do something for themselves to combat the tremendous competition in farming during this area of the farm price squeeze.

Better Farming and Better Living is designed to get farm families to think about their resources in relation to the farm business and aid them in farming plans for the future.

Miller and Home Demonstration Agent, Mrs. Ruth McCleary who helps with the local program feel an interesting program has been set up for the November series of meetings.

ADVERTISE! IT PAYS!

Farmers To Study Problems

Farmers attending the forty-second annual convention of the Indiana Farm Bureau in the Murat Theater, Indianapolis, November 9-11 will get down to "bread and butter" problems during the second forenoon.

After a short general session opening at nine o'clock (CST), there will be five concurrent meetings on various segments of farming interests.

George Doup, president of the organization, will address the general session, as will Glenn W. Sample, vice-president. The group engaged in raising field crops will meet in the Athenaeum, across the street from the theater, at 10 a.m., CST.

Harold Jordan, general manager of the Indiana Farm Bureau Cooperative Association, will talk about "Bargaining for Grain Producers." Warren Collins, American Farm Bureau, will discuss national legislation affecting field crop producers. K. E. Beeson, Purdue University agronomist, will report on recent research in soybean uses.

ANNUAL SOIL CONSERVATION MEETING

Indiana Soil Conservation District Supervisors will meet at Purdue University Nov. 13-14 for their 18th annual meeting.

Registration and general sessions for the annual event, sponsored jointly by the State Soil Conservation Committee and the State Association of Soil Conservation District Supervisors, will take place in Purdue's Memorial Center. Luncheon and banquet sessions will be in Purdue's Memorial Union.

Grain Storage Stocks High

Stocks of old crop corn, wheat, oats, rye and barley in all storage positions Oct. 1 set record high levels in Indiana, according to state-federal agricultural statisticians at Purdue University.

Soybeans and sorghum grain stocks, however, dropped below year ago levels.

The statisticians reported the following stocks:

Old corn totaled 92.9 million bushels, 14 percent more than the amount on hand a year earlier. Farms stocks of 14.7 million

bushels accounted for 16 percent of the total and were 36 percent larger than a year ago.

Wheat totaling 20.3 million bushels, 40 percent larger than Oct. 1, 1959. Farm stocks were 35 percent of the total and 29 percent above a year earlier.

Soybeans totaled 543,000 bushels, only 26 percent of the amount in storage a year ago. Off-farm stocks were 363,000 bushels, compared to 1,144,000 bushels Oct. 1, 1959.

Oats amounted to 38.7 million bushels, about 43 percent larger than a year ago.

Rye at 800,000 bushels was nearly 40 percent more than Oct. 1, 1959.

Barley stocks of 1.1 million bushels was about one-fourth as much as on hand a year earlier.

PRAY FOR AMERICA

You are invited to attend a
special prayer meeting which
will be held at First Baptist
Church of Mentone at 8:00 p.m.

on Monday evening, November 7.
The purpose of this prayer meet-
ing will be to pray for Ameri-
ca.

We will ask you to join us
in praising and thanking God
for granting to us as a nation
nearly 200 years of political
freedom and religious liberty.
We will confess to God our na-
tional sins, such as—unbelief,
greed, immorality and intem-
perance. We will petition God
for his will in the outcome of
the coming national elections.
We feel that in the coming elec-
tion our people face one of the
most serious decisions in the
history of our nation. This de-
cision should not be made with-
out much prayer. We urge you
to come and pray with us. Pray
for America.

Time Change In Twelve Counties

Time moved back an hour in twelve Indiana counties yesterday, as they returned to Central Standard Time. Their time changed coincident with Chicago's return to Central time. In much of the nation the change from daylight time is the last Sunday in October, instead of the last Sunday in September as provided in Indiana law.

Much of Indiana including Wabash, Kosciusko and counties to the east and northeast, are on Daylight time throughout the year, regardless of the state law.

Counties that changed Sunday include: Lake, Porter, LaPorte, St. Joseph, Newton, Jasper, Starke, Marshall, Pulaski, Cass, Miami, Carroll, Howard, Clinton and part of White County.

The counties that changed at the end of September were Fulton, Posey, Vanderburgh, Warrick, Spencer, Perry, Crawford, Harrison, Floyd, Gibson, Pike, Dubois, Orange, Washington, Vigo, Clay, Owen, Monroe, Scott, Knox, Daviess, Martin, Lawrence, Sullivan, Green, Vermillion and parts of Jackson, Parke, Fountain and Warren.

Year round Daylight Time this fall spread to include Lafayette, Crawfordsville, Greencastle, Attica and Rockville.

WAS EDISON CORRECT?

Thomas A. Edison is credited with making the following statement:

There is far more danger in a public monopoly than there is in any private monopoly, for when the government goes into business it can always shift its losses to the taxpayers. The government really never makes ends meet, and that is the first requisite of business. It just mixes a little business with a lot of politics.

FORMER TALMA
LADY DIES

Funeral services were held Wednesday at two p. m. (Nov. 2) in the Talma Bible Church for Mrs. Ida (Tippy) Scott, 83, former resident of Talma, who died in her home in Springfield, Mo., after a two year illness.

The deceased was born near Talma Sept. 7, 1877, the daughter of Edmond and Emma (Fix) Tippy of Talma, and was the widow of Dr. J. C. Scott.

Surviving are one son, Walter Scott of Springfield, Mo., two grandchildren, and five great-grandchildren; one sister, Mrs. Eva Fore of Rochester, and several nieces and nephews. Two brothers, two daughters and two sisters preceded her in death. Rev. C. A. Underwood of Rochester officiated and burial was in the Reichter cemetery near Talma.

GIRL SCOUT TROOP No. 30
WINS AWARD

Girl Scout Troop No. 30 won the award for the best World Friendship Group at the Juliette Lowe Centennial Celebration at Winona Lake Saturday night. Mrs. Harriet Abbey and Mrs. Ruth Tucker are the Troop leaders. Girls were costumed in native dress worn by foreign girls where there are Scout troops.

TO ORGANIZE GIRLS'
4-H HOME ECONOMICS

All girls in the community who are interested in belonging to the 4-H Home Economics club this year are urged to attend an organization meeting on Tuesday, November 15th from 7:00 to 8:30 in the Home Ec. room of the school. Girls who will be ten years of age during the calendar year of 1961 are eligible to become members.

Mrs. Carpenter, Vocational Home Ec. Teacher will be the leader of the club. Mrs. Miles Manwaring will be her assistant.

HAS SURGERY

Richard Webb of Mentone, underwent surgery for bone grafting Monday at Carlisle, Pa. He expects to remain in the Carlisle hospital for about two weeks.

Mr. Webb suffered a badly injured leg in a truck accident a number of months ago, and the bone around a metal pin used to hold the bone together did not heal properly.

COUNTY GOES
REPUBLICAN

With the exception of one office, all those elected in Kosciusko county Tuesday were republicans. The lone exception was Dr. Joe Mishler of Piercetown who was elected county coroner.

A total of 20,022 people in the county voted in the election and in the Mentone-Harrison precinct (Mentone school) all registered voters except five exercised their franchise.

One of the voters in the above precinct sacrificed his ballot to express his sentiments, and in bold letters printed across the top: "GOD HELP US!"

Charles A. Halleck led the ticket in the county balloting (with the exception of the presidential race) with a total of 12,333 votes. George F. Bowers of Valparaiso, a democrat opposing Mr. Halleck for congress, polled 7,023 votes.

Other unofficial vote tabulations were:

For Joint Senator—Paul M. Bilby (R), Warsaw, 12,101; Jas. J. Overholt (D), North Manchester, 6,924. In Wabash county the vote of Bilby 9,216 and Overholt 5,825. Bilby's plurality in both counties, 8,568.

For State Representative—George L. Fisher (R), 12,208; Henry O. Faulkner (D), 6,735. Fisher's plurality 5,545.

For County Clerk—T. Ethna Scott (R) of Mentone, 11,698; Burl Silver (D), No. Webster, 7,261. Miss Scott's plurality 4,437.

For County Treasurer—Mrs. Glenn Carpenter (R), Warsaw, 11,073; Paul E. Conkle (D), also of Warsaw, 7,904. Mrs. Carpenter's plurality, 3,169.

For County Coroner—Joe Bill Mishler (D), Piercetown, 10,339; Kenneth W. Breeding (R), also of Piercetown, 8,792. Mishler's plurality, 1,547.

For County Surveyor—Charles Brower (R), North Webster, 11,979; John W. Roadruck (D), of Palestine Lake, 7,008. Brower's plurality, 4,971.

For County Commissioner, of the Northern District—Ray Ferverda (R), Milford, 11,164; Everett W. Smith (D), North Webster, 7,782. Ferverda's plurality, 3,382.

For County Commissioner, of the Southern District—Raymond P. Lash (R), Mentone, 10,903; Worby Klinker (D), Silver Lake, 8,116. Lash's plurality 2,787.

In the county, Crawford W. Parker led the democrat, Matthew Welsh, for governor, but Welsh was the only democrat to win a state office.

COUNTERPOINT

By the Editor's Wife

The writer of this column wishes to share a most interesting letter with the readers:

Dear Mrs. Cullum:

I was interested in reading your comments concerning the "Old Button Box" — knowing full well of the psychiatric value and the lessening of tensions and problems as one dissects articles found in the old button box. For many years I have collected antique buttons and have gone through dozens of old boxes. I found they contained just about everything from a wad of chewing gum, razor blades, discarded shoe laces, button hooks, marbles, a doll arm or leg, fishing hooks and twine, all of which I patiently waded through in quest of that ever-elusive good button.

When I began to classify and mount my buttons as to religions, mythology, operatic, story, animals, birds, insects, transportation, military, uniform, paper weights, state seals, lustres, enamels, Kate Greenaway, calicoes, and many others, it was then that I became really interested in the lowly button and the part it played in history, art, education, romance and in many other ways.

There is a wealth of knowledge in collecting old buttons.

Sincerely,

HAZEL B. LINN

Thank you, Mrs. Linn for this informative letter. Someone is likely to get the urge to begin collecting buttons, and Mrs. Linn is the person to contact for information on this subject. You will be fascinated and amazed by her fabulous button collection.

Goldie Kesler called to tell us of a unique Halloween experience she had.

Six little masked "people" came to her home to trick or treat. She gave them candy kisses as the treat and then said, "Does everyone have kisses?" Six little heads nodded in agreement.

She continued, "But I didn't get any kisses."

In a flash, two little masks were lifted, four little arms went up, and Goldie received some very special kisses.

Somehow or other I've lost a week out of my calendar—missed my Reading Club, thinking it was to be this week. One should do more than keep track

MENTONE REGAINS
SILVER HORSESHOE

The Mentone Bulldogs regained the "silver horseshoe" as they pumped through 24 of 34 shots from the foul line and came from behind in the last quarter to defeat North Webster by a 50-44 score.

Coach Paul Bateman's netters were led in the scoring by Bill Nellans who netted 21 points, 11 of them coming from the charity stripe, while Jerry Gullett and Bill Weaver were high for the losers with 16 and 15 points respectively.

At the half way mark Mentone found themselves trailing 15-23. During the third quarter the Trojans' lead was narrowed to 1 point, 28-29. Through the fourth quarter the host school was outscored 21 to 15 to find themselves behind 6 points when the game ended.

As you went to the polls today to vote, were you aware of a feeling that you were, in a small way, playing an important part in a segment of history? —A segment which may be looked back upon, by future generations, as the beginning of the end of freedoms, freedoms which we had always enjoyed, and, heaven forgive us, taken for granted!

We enjoyed this: A mother and her small daughter were attending a symphony concert. During a vigorous movement, the little girl, who was watching the conductor, whispered: "Mama, what makes the man so mad? They're playing as fast as they can, aren't they?"

MENTONE NATIVE
DIES TUESDAY

Jess Darr, 77, of south of Syracuse, died about 3 a. m. Tuesday at the home of a son Everett in Syracuse.

Mr. Darr, a retired caretaker, had been ill with a heart condition for the past year.

He was born near Mentone, April 5, 1883; the son of Thomas and Elizabeth (Phebus) Darr. He had resided most of his life in the Syracuse community. He married Stella Wogoman. She preceded him in death in 1951. He was a member of the Evangelical United Brethren church in Syracuse.

Surviving in addition to the son, Everett, are a daughter, Mrs. Thelma Weimer of Elkhart; two brothers, Otis of Mentone and Tom Darr of Sarasota, Fla., four grandchildren and seven great-grandchildren.

A daughter, Mary, six brothers and a sister preceded him in death.

Rev. Harlan Smith will conduct services in the Syracuse Church of the Brethren at 2 p. m. Thursday. He will be assisted by Rev. Lavon Symensma. Burial will be in the Syracuse cemetery. Friends may call at the Harris Funeral Home until Thursday noon.

New 'Phone Equip- ment at Tippecanoe

New type automatic equipment
was placed in service at Tippe-
canoe by General Telephone
Monday to enlarge and improve
their facilities for customers
there.

Service for the more than
200 telephones was affected by
this conversion. The new equip-
ment installed was made by
the Leich Electric Company.
It is an all relay type of switch-
ing equipment.

The new addition to the tele-
phone company building was

completed earlier this year.
Since then technicians from the
Leich Electric Company have
been working to install the
equipment as quickly as pos-
sible.

In assigning new numbers in
Tippecanoe, the latest innova-
tion in Telephone numbering
was used. This new system is
known as All Number Calling,
or ANC.

This system is rapidly re-
placing the type of numbers
currently in use throughout the
country. The purpose is to de-
velop a nationwide method of
numbering which will be with-
out duplication.

Family Finances

Don't let the hidden dangers in your Thanksgiving turkey turn a happy occasion into an unpleasant time of sickness. Sickness certainly isn't fun, and it can also be an expensive drain on the family income.

The hidden danger is in the stuffing. Although some of us think this is the best part of the bird, it can also be an unexpected source of food poisoning if improperly handled.

Here are some hints on how to avoid this hidden danger:

—Stuff the bird just before roasting time, never ahead of time.

—Never partially roast a turkey one day and then leave it out of the refrigerator overnight to be completed on the following day. It's better to get up early on Thanksgiving morn to cook the turkey.

—Remove the stuffing from the turkey as soon as possible after the meal is over, and refrigerate the bird and the stuffing separately.

Feeder Cattle Numbers Down

Indiana cattle feeders have cut down their operations this fall.

Cattle and calves on feed total 110,000, 20 percent fewer than a year ago, report state-federal agricultural statisticians at Purdue University. The Oct. 1 total also is seven percent smaller than two years ago.

Cattle on feed three months or longer are 31 percent fewer than those on feed less than

three months. The longer fed cattle, however, made up 41 percent of the total. But there were 42 percent fewer of them than a year ago.

Indiana farmers marketed 89,000 red cattle during the last three months. This was 14 percent fewer than during the same quarter of 1959. Fifty-five percent of the Oct. 1 cattle in feed lots will be marketed during the next three months. The remaining 50,000 cattle will be sold after Dec. 31.

Grape Vines Productivity

If you are planning to propagate some of your own grapes to increase your plantings next year, you should note the productivity or yield of your vines during the harvest season.

Jerome Hull, Jr., Purdue University extension pomologist, advises that vines propagated by cuttings from a normal grape vine with a record of relatively high yields produce good crops of large clusters themselves. Vines propagated by cuttings from low-yielding vines exhibit the poor producing qualities of the parent vine.

Grape vines can easily be propagated from cuttings made of the previous season's growth. Cuttings may be obtained from

the prunings anytime during the dormant season. However, if cuttings are taken early, the wood has less chance of being winter injured. Select well-matured wood at least one-third of an inch in diameter.

The basal cut should be made just below a bud. For most varieties, select canes with joints three to five inches long and cuttings which contain at least three buds. With weak-growing varieties, such as the Delaware, use wood with shorter joints and leave more buds per cutting. To facilitate handling and bundling, make the cuttings of approximately the same length.

Following the cutting, Hull suggests these steps:

Tie the cutting in small bundles with all the buds pointing in the same direction.

Tie the bundles with cord which will not rot readily.

Store bundles, prior to planting, in a well-drained trench or cool cellar and cover them with soil, sand, sawdust or similar material to prevent the cuttings from drying.

Plant the cuttings in a row four to six inches apart next spring, leaving one bud above the ground.

The following spring the young plants may be transplanted to permanent location.

Cuttings should be planted before any growth of roots or shoots occur on them.

Even seasoned drivers may not know all they should about careful passing, says the Chicago Motor Club. When you are going to pass, it is essential that you know how to judge the distance and the speed you'll need to get safely around the car ahead. For instance, to pass an auto doing 45 miles per hour, you should do 60 mph. And you'll need about one-quarter of a mile to make the safe passing maneuver. After you have passed the car ahead, guard against a tendency to slow down too quickly.

Indiana's 1960 potato crop is expected to total 1,332,000 hundredweight according to state federal agricultural statistics at Purdue University. The 1960 crop amounted to 1,390,000 in

The Chicago Motor Club advises motorists to remember that on wet or slippery pavements it takes a greater distance to stop your car. Always allow plenty of space between your car and the car ahead. In this way, you'll be able to stop gradually during slippery driving conditions.

Indiana growers produced an estimated 42,000 tons of sweet corn for processing in 1960, report state-federal agricultural statisticians at Purdue University. Production is down 12 percent from last year.

It sows are gleaming the corn fields, make sure they get enough protein supplement to balance their rations, advise Purdue University animal scientists.

Children with Asthma Attend Sahuaro School

Tucson, Ariz.—Sahuaro school operated here by the National Foundation for Asthmatic Children, is the only school of its kind that provides educational facilities on its grounds for the first eight grades.

The program for boys and girls between the ages of six and 12 years is provided for two groups, namely: those requiring total financial assistance and those whose families contribute a small part of the cost as determined by the family's income.

"We feel it is much better to provide education for these children at the school," A. B. Sieh, national executive director of the foundation, declared. "It enables us to keep the children together and spares them the problem of competing with well children in the public school system. We seek to make them forget they have asthma, and we do not want them to be brought in contact with well children at this time."

"It is our goal to have them become well and happy in their way and become strong enough to meet the competition of the world later on."

Tucson, Ariz. — Little Jane Moth, Pecatonica, Ill., is one of 62 needy asthmatic children taking advantage of the care and medical treatment at the national headquarters' school of the National Foundation for Asthmatic Children here. Every child who attends the school is given the opportunity to learn to swim, which is a vital part of the rehabilitation program for the asthmatic child. The Foundation is supported by public contributions and accepts youngsters of grade school age from various sections of the country.

Senator Lauds Sahuaro School To U.S. Congress

Tucson, Ariz.—Arizona's bright and healthful climate, as well as the medical and teaching staffs at Sahuaro school for asthmatic children here, are given due credit in a speech by Sen. Barry Goldwater from this state as recorded by the Congressional Record.

Sen. Goldwater, a member of the board of directors of the National Foundation for Asthmatic Children, which operates Sahuaro school, points out that upwards of 30 million citizens of the United States suffer sufficient impairment of one kind or another to prevent realization of their complete potential hopes. Of these, he said, five million are, or will be, asthmatic.

More than 87 per cent of the boys and girls from a score of states in the nation are able to return home to stay after an average sojourn of two years at Sahuaro school.

"The National Foundation for Asthmatic Children, supported by contributions, pays total expenses of approximately 70 per cent of all pupils and partial costs for the remaining 30 per cent," he declared.

"Generosity of the American people has enabled this agency to progress well, and the National Foundation for Asthmatic Children will continue to provide care for as many boys and girls as possible."

HERE! EASIER GOING FOR THE DRIVER AND THE LOAD, LONGER LIFE FOR THE TRUCK!

'61 TORSION-SPRING CHEVROLETS

If you don't think scrapping the front axle has made a world of difference, you haven't driven a Chevy in a while. A few minutes behind the wheel and you can feel why drivers are happier and breakable loads are better protected. But the biggest advantage of all, you'll realize, is that the truck itself (sheet metal, tires, chassis components, *everything*) takes less abuse. With independent front suspension soaking up road shock and vibration, the truck lasts longer, goes extra thousands of miles before trade-in time. Add that to what everybody's always known about Chevy dependability and you find yourself looking at the soundest truck investment you could bet your business on.

CHEVROLET

A panel and two pickups that put a thrifty air-cooled engine in the rear, the driver up front and as much as 1,900 pounds of load space in between! That's more capacity than a conventional half-tonner. Yet these Corvaire 95's are nearly two feet shorter from bumper to bumper. Highly maneuverable. Built to last and bound to save on a busy schedule!

BEAVER DAM SCHOOL NEWS

The November P.T.A. was held Monday evening. A film, "Willie and the Mouse," was shown after which a panel discussion was held on "Homework." Those on the panel were Mrs. Richard Whittenberger, George Cumberland, Fred Haney, and Mrs. Clyde Holsinger. Joe Boggs was the moderator.

After the panel discussion a film, "Eyes That Learn," was shown. This film contained information about our controlled reader that we have purchased. A large number of people were on hand and all felt that it was a very fine meeting.

Our basketball team has been defeated by Milford and Gilead. This Friday night (Nov. 11) we will play at White's Institute. The B-team game will begin at 7:00. Admission prices to their home game will be 60c and 25c. Everyone should go and back the team.

Next Friday night (Nov. 18) the Beavers journey to Leesburg. Game time will be 7:00. All students planning to attend should buy a 40c ticket at the school.

The bus drivers drew to see which away games they would drive to. Robert Jones will drive to the White's Institute and Leesburg games.

The Junior High students chose their yell leaders Monday. Seven girls tried out. They were: Melody Ballenger, Buni Barber, Carol Baumgartner, Diane Cumberland, Mary Lou Horn, Diane Lowman and Sharon Whittenberger. Mary Lou Horn, Diane Lowman, and Sharon Whittenberger were selected to lead the yells for the 1960-61 basketball season. Good luck, girls.

The Farm Bureau will meet at the school next Tuesday evening.

Mr. Malott attended the county principals' meeting at Warsaw Thursday afternoon.

The county choral festival will be held at Pierceton on Sunday afternoon, November 20. Admission will be 60c and 30c. If you enjoy hearing good music, you should plan to attend.

This Sunday evening, Nov. 13, from 8:00 to 9:00 p.m. CST a one-hour television documentary "The Influential Americans:

Teachers," will be televised. The entire program has been filmed in elementary and secondary schools (and at the MPATF Purdue headquarters) across the country. It will report some of the remarkable experiments currently being undertaken to solve the tremendous problems facing American educators today. A substantial part of the show will deal with the Midwest Program on Airborne Television Instruction and MPATF's TV teachers. Remember the date: Sunday evening, Nov. 13, 8:00 CST.

Better Prices In Prospect

Hog prices likely will hit their seasonal lows in November, assert Purdue University agricultural economists. Despite a bigger fall pig crop, prices are expected to rise to \$17-\$19 levels next summer.

However, stronger beef cattle prices by early or mid-winter are in prospect. The economists describe the year ahead as "one when cattle in feed lots should be pushed toward market as rapidly as possible."

A moderate rise in corn prices is expected after the harvest rush. Soybean prices are likely to rise more than storage costs from harvest to next April. Oats prices probably will strengthen before spring too. Lay in soybean oil meal supplies before Christmas, the economists suggest.

Dairymen will benefit from the raising of dairy price supports to \$3.22 for milk of average test. Manufacturing milk prices are expected to go up from eight to 12 cents per hundred weight above last year. Fluid milk prices also will strengthen.

As Thanksgiving approaches,

turkey prices will increase slightly. Another small price increase is a good bet for the Christmas market, the economists say.

November and December will bring further broiler price declines as a result of heavier supplies.

Apple prices probably will continue at substantially higher levels than a year ago.

The economists say they expect further weakness in the price of land which must be sold in the next few months.

HELPS EQUIP MERCY SHIP

Announcement that Orthopedic Equipment Co. of Bourbon, Indiana, has joined "Project Hope", a non-governmental undertaking to share American medical skills and techniques with peoples of other nations, is made by Frank Saeman, president of the Bourbon firm, which has associate plants in England and West Germany.

Contributions of orthopedic and fracture equipment were made by his firm to the "Hope" Ship which recently sailed from San Francisco for southeast Asia. The ship originally commissioned at Brooklyn Navy Yard as the USS Consolation, a Navy Hospital ship, was equipped originally with many items supplied by the Bourbon company.

The ship was recently taken from the mothball fleet, and has been staffed by 15 doctors, 20 nurses, two dentists and 20 auxiliary personnel, and is dealing with medical personnel of the nations visited. Project "HOPE" will visit only those countries to whom it has been invited.

Various instruments and items for internal fixation were shipped by Orthopedic Equipment to San Francisco where the ship began its experiment in international health cooperation.

The project name "HOPE" stands for "Health Opportunities for People Everywhere" and developed from President Eisenhower's people-to-people concept.

Mr. Saeman is owner of plants in Mentone and Syracuse, also.

Jon Cullum of Indianapolis, visited at the parental Artley Cullum home Saturday. Miss Lois Myer, a teacher at North Manchester, was an afternoon guest.

EIGHT DEER, TWO ELK

Recently a party of hunters returned from a hunting trip at Ten Sleep, Wyoming with a total of eight deer and two elk. Those in the party were Dr. and Mrs. Wymond Wilson, Mr. and Mrs. Dale Sinclair, Mr. and Mrs. Harold Utter, all of Mentone, Wilbur Wilson of Huntington, Joe Wolfe of Edin, Ohio and Norman Drudge of Warsaw.

Mrs. Wayne Kirkham of Greencastle, visited Wednesday afternoon with Mrs. Tom Harman. Mrs. Kirkham and boys are spending a few days visiting with her mother, Mrs. Edith Ummel, of Beaver Dam.

Elwin Teel was taken to the Woodlawn hospital at Rochester Tuesday afternoon in the Johns ambulance. Elwin is still bothered with a serious case of ulcers.

Mr. and Mrs. Doyle Baum and Kelly of Fort Wayne, visited with friends and relatives in Mentone Sunday.

Mr. and Mrs. John Fenstermaker and Mr. and Mrs. Orval Slife of Claypool, visited Sunday in Plymouth with their brothers, Charles and Harvey Miller. The wives of Harvey and Charley are both sick at this time.

Mr. and Mrs. Wayne Tombaugh and Mr. and Mrs. Artley Cullum were guests at the H. V. Johns home at a dinner, Tuesday evening.

Mrs. Edith Darr, who is bedfast at her home because of illness, remains about the same.

Newly transplanted trees should be wrapped with commercial bore wrap, burlap or aluminum foil, say Purdue University entomologists. This prevents sun scald on the trunk and subsequent borer attack.

HAS SONG IN RECORD ALBUM

A song written by Dolly Curran of Tippecanoe, is one of 26 in the "Music of America" album on Record LP No. 6400. The singing on most of the records is done by Mr. Tony Rogers of Hollywood fame and a singer with the Anson Weeks orchestra for many years.

Gene Brooks of Nashville, Tenn., composed the lyrics for Mrs. Curran's song, "Oh, Lordy! Hear My Plea."

Mrs. Curran and her husband, "Singing Jack," operate the Tippecanoe Gift and Mirrorette at Tippecanoe.

MRS. WITHAM RETURNS FROM CALIFORNIA

Mrs. Thomas Witham has returned to Atwood following a four and one-half week visit in Sonora, Calif., with her son in law and daughter, Mr. and Mrs. David Hudson, and her new grandson, Bradley David Hudson, who was born Oct. 5. He weighed seven pounds, six ounces.

Mrs. Hudson is the former To-mahine Witham of Atwood. Mr. Hudson, son of Mr. and Mrs. Roe Hudson, of North Vernon, Ind., is employed by the U. S. Forest Service at Sonora.

Proclaiming Vet Day!

Orin Nowlin of Seymour, Department Commander of the Indiana American Legion, at left, looking on as Governor Harold W. Handley signs the proclamation designating November 11th as annual Veterans Day. The governor's proclamation called on all Indiana citizens to give statewide expression to high and enduring Hoosier esteem for all men and women of this state who had worn the uniform of the United States in time of war. He reminded all Hoosiers that the 1959 General Assembly had enacted a law declaring November 11th of each year as a school holiday in order that all pupils and students could take part in appropriate patriotic observances of Veterans Day. He furthermore called on all Indiana citizens to proudly display the American Flag on November 11th. He urged that places of business, unless necessary to the immediate health and welfare of the citizens of the State be closed in commemoration of Veterans Day. He also urged that all citizens in paying tribute to the men and women who have served in the Armed Forces, re-dedicate themselves on Veterans Day to the preservation of the American ideals of freedom, justice and democracy which the nation's veterans have so valiantly defended.

21 HEAD HI GRADE HOLSTEIN CATTLE—21

Milking herd of 15 cows. The foundation of this herd originated from 3 heifers purchased from the dispersal sale of the registered high producing Amadi herd who had used nothing but Newman sires for years.

I continued the use of Newman sires and the blood of the following sires is represented in my herd, Dictator, Major Lieutenant, Emperor, Leader, Lancelot and Maud, also Towerline Rag Apple and Osborne Lackmar.

Through the blending of these sires my herd, under normal care 12 cows averaged 12000 lbs. of milk with a 3.8 B.F. test for 1959.

Six cows are 3yrs. old, 4 are past 2 yrs old, two are 4 and three are 6 yrs. old with one heifer coming 2 yrs. old and to freshen in Jan. Have 3 fresh cows, 3 to freshen in Nov., 2 each in Dec. and Jan., one in Feb., 3 in March, 1 in April and 1 in June.

Have 5 heifers from 6 mos. to 1 yr. old, 2 weaned heifer calves. I have never been bothered with Mastitis, all udders and quarters are good, have never had a positive or suspicious cow for over 12 years I have been dairyming. In brief, I would say they are away above the average herd.

All will be Bangs and T.B. tested and three cows are vaccinated.

FEED

NATIONAL CIVIL DEFENSE DAY

Wednesday, December 7, has
been designated as National Civil
Defense Day, by Civil and De-
fense Mobilization Director Leo
A. Hoegh.

Keynoting its theme, "Peace
Through Preparedness," Direc-
tor Hoegh urged home-owners
to build fallout shelters.

"Fallout shelter protection for
every American—in his home,
on his farm, in his office, in his
plant—is the best single de-
fense measure for the greatest
number of our people," he de-
clared.

Director Hoegh points out that
thousands of American home-
owners are building their fall-
out shelters, but others hesitate
to do so, for one reason or ano-
ther.

"It is to those citizens that this
Civil Defense Day message is
aimed," Director Hoegh said.
"Civil Defense Day is tied in
with the observance of Pearl
Harbor Day—and with a good

reason. The reminder of what
happened to Pearl Harbor in
1941 should spur all Americans
to be prepared with home shel-
ters. The price of peace, it has
been said, is eternal vigilance."

The construction of fallout
shelters to ensure the survival
of millions of Americans if nu-
clear attack comes, is reduced
to practicable steps in OCDM'S
32-page illustrated booklet,
"Family Fallout Shelter." The
booklet describes plans for sim-
ple, inexpensive shelters, and
details the emergency food, wa-
ter, and other essential supplies
for two weeks which should be
stored in every home. A bat-
tery radio is an essential item
for survival because civilians
would need it to listen for Civil
Defense emergency instructions
via CONELRAD at 640 or 1240
on the dial.

The booklet can be obtained
free from State or local civil
defense offices, or by writing
to Box Home Shelter, OCDM,
Battle Creek, Michigan.

Before driving your car early in the morning, says the Chicago Motor Club, take time to clear moisture and frost from the windshield and rear window. Good visibility is essential to safe driving.

Improperly functioning milking machines can cause mastitis, explain Purdue University veterinarians. They recommend periodic checking to insure proper vacuum, pulsations and good operating condition of all parts.

Traffic is certain to be heavy following that big November football game, cautions the Chicago Motor Club, so remember to take it easy on the way home. Don't let the results of the game affect your safe driving habits. Even more important that the score of the game is the safety score you record on the way home.

WHY NOT HAVE THE BEST?

EVERYBODY would use the best product they could lay their hands on if they thought the price was right. The oil you have in your crankcase right now is the best you can get. The RECLAIMO refiner-filter will clean it up and maintain it a stable, efficient lubricant forever. The AVERAGE motorist will pay for a RECLAIMO and have twenty dollars earned in savings on oil and filter cartridge replacements alone at the end of two years. During the third year Mr. Average Motorist will spend around \$4.60 adding oil and changing the RECLAIMO repack, and end the year with better than a 100 per cent profit on his original investment. Why use your expensive engine to manufacture driveway dust-laying compound? Get the best for less. Install RECLAIMO. Remember, you're paying for one anyway. Ask to see one today.

LILLIAN EATON
DIED TUESDAY

Mrs. Lillian D. Eaton, aged 88 years, died at the Prairie View Nursing home in Warsaw Tuesday afternoon. A lifetime resident of this area, Mrs. Eaton had been ill for some time.

Mrs. Eaton was born in Harrison township Aug. 16, 1872, the daughter of Frederick and Mary (Dawson) Tinkey. She was united in marriage to Levi A. Eaton, and was a member of the Palestine Christian church.

Survivors include a half-sister, Mrs. Bonnie Latta of Warsaw, three granddaughters, Mrs. Dale (Frances) Plew of Piercetown, Mrs. Max (Jessie) Hire of Pacific Palisades, Calif., and Mrs. George (Fern) Houck of Warsaw. Two daughters preceded her in death.

Funeral services will be held Friday afternoon at two o'clock in the Reed funeral home, and burial will be in the Palestine cemetery.

PICTURE PROOFS THURSDAY

An announcement from the Woltz Studios, Des Moines, Iowa states that their representative will be in Mentone Thursday, Nov. 17, from 4:30 until 5:00, to show proofs of the pictures taken of the children recently. They will be at the Legion Hall.

MAKES TRIP WITH GIDEONS

Zanna Hammer of Mentone, returned home Wednesday after a trip into Kentucky with a group of Gideons. They left on Sunday and attended the Kentucky State Convention at Covington, and then went on to Prestonburg (Floyd County) and distributed over six thousand New Testaments to school children in grades five to twelve.

Others in the party were Emerson Ward, Sherman Fisher, Sam Rhodes and Jay Vanderkolk of Warsaw and Eddie Finker of South Whitley.

NEW ARRIVALS

A daughter, Lori Kay, was born to Mr. and Mrs. Royal Baum Thursday at the Murphy Medical Center at Warsaw. The young lady weighed nine pounds and one ounce.

A seven pound ten and one-half ounce son, Mark Allen, was born to Mr. and Mrs. Martin Rooy of R. 5, Warsaw, on Sunday. Grandparents are Mr. and Mrs. George Mollenhour of Palestine and Mr. and Mrs. Theodore Rooy of South Bend.

A son was born to Mr. and Mrs. Jacob McClone, Jr., Monday. Grandparents are Mr. and Mrs. Henry Secor of Palestine and Mr. and Mrs. Jake McClone of Mentone.

COUNTERPOINT

By the Editor's Wife

Read a statement in my philosophy book which you might like to ponder on a bit. It is, "In order for innocence to achieve a full possession of itself, it must be exposed to evil. It is out of the conflict between innocence and evil that innocence may emerge in a fully realized and self-possessed state we call virtue. Evil, therefore, does not have independent existence, but is a necessary aspect of the full realization of good." You take it from there.

Planted tulip bulbs Saturday, with the help of Tim and Lisa. Something is wrong with my schedule, for I'm sure that the ground was frozen when I planted bulbs before. Still have several dozen to get into the ground, so cold weather may catch me yet. If there are some vacancies next spring when there should be tulips, we can always figure that "somebody" got a bulb planted upside down.

Has the "Christmas spirit" caught you yet? Friends of ours have their shopping done, gifts wrapped and ready. Somehow or other, I can't get enthused about Santa Claus until I've disposed of Mr. Gobbler.

"November is an in-between season. There are days of cold, driving rains, snow squalls and stinging sleet."

"November is the end of a farm season. Barns are filled with good timothy and clover; woodsheds have high tiers of solid wood; farm cellars are full of garden vegetables and fruits; and shelves are laden with colorful canned goods." — Haydn Pearson.

We enjoyed this: "Could you give me some pointers on how to run a newspaper?" asked the journalism student.

"You came to the wrong person," answered the editor, "ask one of my subscribers."

CALENDAR

COUNTY FIREMEN
TO MEET HERE

The members of the Kosciusko County Firemen's Association will meet at the Mentone American Legion Home on Thursday evening at 7:30.

RACKING UP A
FAST BUCK

Otes Fultz of Logansport ended up with a big 10-point buck deer as he was driving along State Road 14, about two miles east of Silver Lake last Thursday evening.

Mr. Fultz was driving along seemingly all by himself when out of nowhere there was a big noise and he thought his car had blown to pieces. He managed to keep the car out of the ditch and then investigated, only to find a very dead buck deer—and the whole right side of his car mashed in. He never saw the animal, which evidently hit at the right front fender and then into the center of the car.

In cases of this kind, an autoist cannot keep the deer but Conservation officers permitted him to keep the head.

SHORTHAND CLASS

The shorthand class will start at 7:30 Tuesday evening at the Northern Indiana Co-Op. There will be ten participating. Anyone else who would like to take part could still do so by calling Mrs. Jerry Hudson or Mrs. Kenneth Leiter. Mrs. Cletus Griffith will be the teacher.

AUSTIN BORTON
BURIED SUNDAY

Services were held Sunday at 2 p.m. in the Reed funeral home for Austin M. Borton, 68, of Mentone.

Mr. Borton died in the Murphy Medical Center Friday at 11:30 a.m. Death resulted from a stroke. He had been ill for the past five months.

A lifetime resident of this area, he was born December 19 1891, the son of Linus and Mary Borton. He married Edna Coplen, who survives.

Surviving in addition to the widow are a son, Keith, of Grand Prairie, Texas; a daughter, Mrs. William (Rosemary) Jacob, of Warsaw; a brother, Linus, of Mentone; and four grandchildren.

Burial was in the Mentone cemetery.

SPECIAL GREETING
FROM PRESIDENT

Mrs. Leo Valentine is the recipient of a birthday greeting, which is very unusual and also one she will always treasure as a souvenir.

Last month many citizens of this area sent a birthday greeting to President Eisenhower, all of whom received beautifully engraved reply cards from the President's office. Mrs. Valentine, however, received a reply worded differently than most in that her birthday was the same date as the President's.

Mr. and Mrs. Jake Smith Married Fifty Years

Mr. and Mrs. Jake Smith of Burket, will celebrate their golden Wedding Anniversary Sunday, Nov. 20th. Open house will be held at the home of their daughter, Mrs. Anna Williamson, southwest of Burket, from 2:00 to 4:00 p. m.

Mr. and Mrs. Smith were married Nov. 18, 1910 and have

lived in and around the Burket community most of their life. They are the parents of three children: Mrs. Williamson, Wesley F. (Bill) Smith of Peru, and Jacob Floyd, deceased. They have four granddaughters, one great-granddaughter and two great-grandsons.

FAR EASTERN VISITORS TO MIDWEST'S "EGG BASKET"—A group from Malaya and Japan recently inspected the modern hatching facilities of Manwaring Leghorn Farms here in our "Egg Basket of the Midwest." The group was impressed with the high degree of efficiency, cleanliness and mechanization they saw at the Manwaring Hatchery. Here, Richard Manwaring, of Manwaring Leghorn Farms, points out the operation of one of his hatchery's egg incubators as Mr. and Mrs. T. Durant of Kuala Lumpur, Malaya (left) and T. Ohtsu, president, Kyodo Shiryu Co. Ltd., Yokohama, Japan; G. Abe, technical service director, Kyodo Shiryu Co., and S. Eguchi, director, Dawe's Laboratories (Japan) Ltd., Tokyo, (right) look on. Accompanying the visitors was I. Olcott, Far East Division, Dawe's Laboratories, Chicago.

Jolly Janes Meet

The Jolly Janes met for their November meeting at the home of Mrs. Russell Eber. Mrs. Tom Harman served as co-hostess for the evening.

Mrs. John Ellsworth, the Health and Safety leader, gave a report on "Poison in the Home" and "Hazards in the Medicine Cabinet."

Mrs. Harold Markley displayed a lovely pheasant feather hat which she had made herself, and she then showed the group how to proceed with such a project—the main thing needed is dry feathers, (not scalded ones, which some husbands are not aware of!) The Ladies enjoyed this lesson very much and are all hoping for such a hat.

Pumpkin pie, nuts and mints and coffee were served to sixteen members present. Mrs. Morris Bitzer has recently become a new member of the Jolly Janes and we do welcome her.

The door prize winner was Mrs. Harold Markley. Birthday gifts were received by Mrs. Frank Hardesty, Mrs. Albert Hatfield, Mrs. Delford Nelson and Mrs. Raymond Lewis.

Panel Discussion At P. T. A.

The November meeting of the Mentone P. T. A. was held at the school, Wednesday evening, November 9, with a good group attending. President Jean Pritchard opened the meeting and then introduced Jim Mikel, a high school student, who gave his reading from the Bible, Genesis 1 and 2.

The membership committee reported on their progress, which was 194 members enrolled in P.T.A. already this year. The second grade was first with the most parents enrolled, first grade was second, and the third grade, third.

Entertainment was by the first grade who sang, "Turkey Gobbler" and "Thanksgiving

Day." Miss Janice Davis was their accompanist.

The grade count was then won by the first grade with Mrs. Florence McKinley, their teacher.

A panel discussion on the School Reorganization was held with Delford Nelson as Moderator. Panel members were Dick Manwaring, Mary Hammer, Kenneth Romine and Eddie Creighton. Mrs. Dan Urschel briefed the group on what the county committee has accomplished thus far and what is planned for the near future. Questions were also asked by several interested P. T. A. members and guests.

Plans were completed for the P.T.A. penny supper which will be held Saturday evening, November 19.

Roasting The Turkey

(From the Poultry and Egg National Board).

Today's high quality birds make it easy for even the inexperienced to have excellent results. If the turkey purchased carries specific instructions for handling and cooking (on the wrapper or insert sheet), follow those recommendations. True roasting is slow cooking by dry heat on a rack in an open pan. And no water, no cover nor searing is required. Variations of this method also give satisfactory results. Whatever the method, always complete roasting in one continuous cooking period.

Follow these simple steps for open-pan, low-heat roasting . . .

1. Have bird completely clean. Rinse with cold water. Pat dry.
2. Preheat oven to 325°F (slow).
3. Rub cavity of bird lightly with salt. Do not salt, if stuffed.
4. Fill wishbone area (neck) with stuffing, if used.
5. Fasten neck skin to back with skewer.
6. Stuff cavity lightly, if stuffing is used.

7. Push drumsticks under band of skin at tail; or tie them to tail.

8. Place turkey on rack in roasting pan. Brush skin with fat. Place in oven.

9. If desired, baste or brush occasionally with pan drippings, especially any dry areas. Baste quickly in order not to lose oven heat. When turkey is 2/3 done, cut cord or band of skin at drumsticks.

10. Continue roasting until done. Turkey is done when meat at thickest part of drumstick feels very soft when pressed with protected fingers.

This timetable is a guide to the approximate total time. TIMETABLE-325°F (slow) oven Purchased ready-to-cook weight

For stuffed turkeys*
6 to 8 lb 3½ to 4 hours
8 to 12 lb 4 to 4½ hours
12 to 16 lb 4½ to 5½ hours
16 to 20 lb 5½ to 7 hours
20 to 24 lb 7 to 8½ hours

*Shorten time ½ to 1½ hours for unstuffed turkeys . . . the shorter time for birds up to 12 pounds and the longer time for birds over 12 pounds.

Family Finances

by John Roberts

There are several things which every householder can do to increase the efficiency and economy of his heating system during the winter months.

—Have your heating system cleaned and checked by a competent service man. Have him make necessary repairs promptly.

—Find out if you are using the proper grade of fuel oil or coal. A cheaper grade may not necessarily be the most economical if it's going to cause damage to the system.

—Eliminate unnecessary air leaks by installing weather stripping, storm doors and storm windows. Insulation is also desirable.

—Cover your windows at night by pulling the shades or draperies. They prevent much loss of heat.

—Don't block registers with furniture or cover radiators with draperies.

—Maintain a steady temperature. Health, efficiency and economy are aided by keeping a steady temperature of 70° to 72°. If you do turn the thermostat down at night, don't turn it below 65°.

Install electric heating cables in poultry houses to prevent frozen water pipes. Some poultrymen use part of the cable to wrap the pipe and the remainder in the water trough itself. Hens will drink more water if the chill has been removed, say Purdue University poultrymen.

Seward H. D. Club Meets

The Seward Home Demonstration Club met Wednesday, November 9, at 1:30 p.m. with Mrs. Frank Nelson in Palestine. The meeting was opened by the group repeating the club creed and giving the pledge to the flag. Mrs. Charles Umberger gave as meditation poems, "Now and Then," "Wishing," and "What to Be Thankful for." Mrs. Nelson gave the lesson, "Effective Speaking" and had members give one minute speeches which were checked on points brought out in the lesson. Mrs. Carl Thomas gave a report on interesting classes in sewing which she is attending at night school in Warsaw.

The secretary-treasurer's report was given by Mrs. Thomas. Roll call, "A Disappointing Recipe," was answered by the group. Mrs. Wilbur Latimer, in her health and safety remarks, reminded everyone to keep medicine out of reach of children, not to give one person's medicine and prescriptions to another without the Doctor's permission.

During the business session, vice-president Mrs. Earl Lowman discussed lessons for next year. The ladies also voted to buy gifts for mentally ill patients for Christmas. The meeting closed by the group singing the club prayer song. The auction was conducted by the

president, Mrs. Longbrake. Refreshments were served to fifteen members and three children.

The next meeting will be held December 7 with Mrs. Kenneth Miller of south of Burket. It will be the Christmas meeting with a carry-in dinner at 12 o'clock.

After gladioli corms have been dried and shucked they should be dusted with DDT to prevent thrip buildup during storage. Purdue University entomologists say they should be placed in a box or paper sack and sprinkled with a three to five percent DDT dust. Shake the corms to deposit the dust evenly and then store them.

ATTENDED SHORT COURSE

An announcement from Dr. Salsbury's Laboratories, Charles City, Iowa, states the firm recently held a four-day short course on poultry diseases and management. At the conclusion of the course each student received a certificate signifying his satisfactory completion of the Poultry Short Course. Among the 38 students was Allen G. Shirey of Mentone, a salesman for the Haynes Milling Company.

Purdue University agricultural engineers point out that farmers cannot afford the inconvenience and hazards of inadequate barn lighting. A 100 watt lamp runs for 10 hours on two cents worth of power.

The county music teachers will have the annual county choral festival this Sunday at Pierceton. Admission price will be sixty and thirty cents. If you enjoy good music, you will not want to miss this program.

The Beavers lost both games to White's Institute last Friday. Tomorrow night they journey to Leesburg. The B-team will begin at 7:00. As of yet neither team has broken into the victory column.

Mr. England attended a meeting Wednesday afternoon to complete plans for the teachers' workshop to be held at Milford on Saturday, December 3.

Mr. Malott attended a meeting at Mentone Thursday afternoon. Final plans for the four-way tournament were discussed. The principals of the four participating schools met.

Next Tuesday evening the Beavers will play at Talma. The B-team game will begin at 7:30. They do not sell student tickets ahead of time. George Cumberland will drive the players' bus.

There will be no school on Thursday and Friday of next week. This will be the annual Thanksgiving vacation.

Purdue University animal scientists suggest to beef cow herd owners that they start now to find bulls for use next spring.

Winter Courses At Purdue

Purdue University will offer three winter courses in agriculture from Jan. 3 to Feb. 2, 1961, according to V. C. Freeman, associate dean of agriculture and director of resident instruction. Students may study general agriculture, animal science or dairy production.

Regular fees, including general service, medical and infirmary, recreation facilities and convocations and lectures, total \$36. Total costs for Indiana residents, including room, board, books and incidental expenses, will range from \$225 to \$275. A total registration fee of \$129.75 is charged out-of-state residents.

Applicants for admission must be at least 18 years old and have a good elementary school education. Persons 20 or older with practical farming experience or other agricultural work will derive the greatest benefit from the winter courses.

Registration will start at 9 a.m., Tuesday, January 3, in Room 108, Smith Hall. No entrance examination is required. Students successfully completing any one of the three plans of study will receive a certificate.

The general agriculture course, Freeman explains, is designed to provide useful information and practical answers for renters, owner-operators and landlords. It also offers excellent opportunities for personal contact with men who later will be outstanding Corn Belt farmers.

Subjects ranging from dairy, sheep, swine and beef production to pastures and forage crops are included in the animal science curriculum. Knowledge obtained in classroom discussions will be observed in practice at nearby Purdue farms.

Modern methods of production and management of a dairy enterprise will be emphasized in dairy production classes. A field trip to inspect dairy herds and study up to date dairy farm practices is planned.

Further information about the 1961 winter courses can be obtained from county extension offices or by writing V. C. Freeman, Agricultural Hall, Purdue University, Lafayette.

Tucson School Assures Maximum Recovery for Asthmatic Children

Tucson, Ariz.—Sahuar school for asthmatic children, operated here by the National Foundation for Asthmatic Children, carefully screens applicants for admission to insure maximum recovery for those accepted, according to A. B. Sieh, national executive director.

Describing formation of the National Foundation for Asthmatic Children, Sieh continued, "Several years ago the management of one of the private schools near Tucson, which provided a place for children with asthma, began to think in terms of a foundation. In course of time, a plan was evolved to provide a place where asthmatic children from families of low income could be sent for treatment."

"In 1954, the National Foundation for Asthmatic Children started its program for the rehabilitation of asthmatic boys and girls at Sahuar school near Tucson. The school was to provide a program for the rehabilitation of children with intractable asthma. It would combine all known means and methods of treatment in a setting with home atmosphere and group living."

More than 87 per cent of children receiving resident care at the school can return home to stay after a two-year sojourn, Sieh added. He described admission procedures as follows:

"Our first contact with the asthmatic child is usually through the family doctor who, in most cases, sends in the medical report. Regional allergy consultants throughout the United States co-operate in screening children for the school."

"No child is accepted until he has been confirmed by a regional consultant. A number of children who have been examined have been found not to have had the advantages of thorough, consistent treatment in their own localities. They have been refused admission."

"The application must be from a family of low income and must include a social service report from a private or public welfare agency. These agencies have co-operated in helping the families while the child is at Sahuar school and have been invaluable in helping the child adjust himself to his home upon his return."

"Children from six to 12 years of age are admitted because of the desire to deal with reversible asthmatic changes, and because experience at Sahuar school substantiates the conclusion of the medical staff that this age bracket is one of greatest response and recovery."

Sieh pointed out that the foundation, supported by public contributions, pays total expenses of 70 per cent of pupils and bears partial cost of the remainder.

MENTONE DEFEATS LEESBURG FRIDAY

The mighty Mentone Bulldogs breezed by Leesburg with a 13-4 first quarter lead and went on to outscore the Blue Blazers 59-34, Friday night.

The outcome was fairly well apparent after the second period when Mentone recorded a 34-15 lead. When the third period buzzer sounded it was Mentone by 42-22.

Allen Creighton led the Bulldog scoring with 18 points and was followed by Bill Nellans with 13. Bob Anderson was high for the Blazers with 8 points. Leesburg played without the services of Jerry Kammerer who sprained an ankle in practice before the game.

Coach Paul Bateman's hoopsters are now 3-0 for the season.

A SAD TAIL

Dr. Orville McFaddon, one of Mentone's airplane pilots and owners, met with a sad experience at the Mentone Airport Sunday.

Orville was pulling his plane from the hangar when it bounced just high enough for the high point of the tail to catch on a roof support. The vertical fin was torn loose from the fuselage and the aft portion of the tail assembly was buckled. The repair job will amount to \$750, according to preliminary estimates.

Winter Care Of Market Hogs

Shelter, water and feed are important in efficient winter market hog production.

James Foster and Richard Hollandbeck, Purdue University extension swine specialists, say each factor must be considered if hogs are to make the greatest gains during cold weather. It is neither necessary nor recommended that hogs be kept in a tightly closed building. They will stay healthier and freer of respiratory diseases if provided dry and draft-free sleeping quarters with ample bedding. The specialists point out that ground corn cobs make a suitable bedding for shoats.

Even during the coldest period of winter, water is an im-

portant part of the ration. Hogs will drink about two pounds of water for each pound of feed eaten, the specialists say. Clean, fresh water which will not freeze can be provided with automatic fountains or other types of waterers.

Pigs weighing under 100 pounds and not on pasture should receive 16 percent total protein in their ration. The protein content can be reduced to 14 percent for hogs over 100 pounds. Foster and Hollandbeck add that hogs should have access to a self-feeder or box containing salt and a mineral mixture at all times.

Examine grain in storage and continue with a monthly observation to detect possible buildup of stored grain insect pests, recommend Purdue University entomologists. If they are found, fumigate for control.

Home Ec. Officer Training School

The 1961 officers of the Kosciusko county home demonstration clubs will attend a training school for all presidents, vice-presidents, secretaries and treasurers at the Women's Building, Friday, November 18, from 9:30 - 3:00. All clubs from Active Ladies through Lamplighters will report in the morning and Leesburg Homemakers through Willing Workers in the afternoon. Only those who are holding the office for the first time are expected to report.

Mrs. Ruth McCleary, Home Demonstration Agent, will discuss the general Extension program and policies of home demonstration clubs. Those assisting with the group discussions are: Mrs. Francis Reece, Claypool; Mrs. Jacob Tusing, Jr., Milford; Mrs. Dale Cauffman, Claypool; Mrs. Amer Koontz, Sidney; Mrs. Otho Piper, Warsaw; Mrs. Floyd Faurate, Piercet and Mrs. Wm. Sadler, Warsaw.

Winterize Gasoline Engines

Taking time to prepare farm gasoline engines for winter will cut maintenance costs and insure smooth running engines next spring, reminds Les Hill, Purdue University extension agricultural engineer.

Engines on combines, forage harvesters, balers, irrigation

pumps, lawn mowers and garden tractors need special attention before winter comes. If no manufacturers' manual containing instructions on how to prepare the engine for winter storage is available, Hill suggests these protective measures:

Clean excess dirt and grease from the engine and ignition wires.

Run the engine until it's warm, drain and refill with new oil. Replace the oil filter.

Remove the air cleaner cup, clean and refill with new oil.

Run the engine until the new oil circulates throughout it.

Drain and flush the cooling system, leaving drain cocks open after flushing.

Drain the fuel tank and run the engine to remove fuel from the lines and carburetor.

Remove spark plugs and pour a tablespoonful of lubricating oil in each cylinder. Turn engine two or three times to distribute oil over piston and cylinder walls; then replace spark plugs.

If your engine operates with a battery ignition system, remove the battery and store it in a cool, dry place where temperatures will remain above freezing. During the winter check water level and state of battery charge.

Cover the exhaust pipe, crank case breather and air cleaner intake.

If the engine is air cooled, remove chaff and dirt from around the cylinder and head cooling fins.

And, finally, store the engine inside a building or protect it with a suitable covering.

THANK YOU

Come and worship with us in
sermon and song. We welcome
you to all of the services. Come
and bring a friend.

The Chicago Motor Club points
out that directional signals are
great aids in informing other
drivers of your intention to
turn. But if the turn is gradual,
be sure your flashing lights
are off after the turn. Never
have your directional signals
flashing after you have com-
pleted your turning maneuver.

BIBLE CONFERENCE AT TALMA CHURCH

Rev. Lester E. Pipkin of Brad-
ley, West Virginia, will be con-
ducting a Bible Conference at
the Talma Bible Church, No-
vember 27 through December 4.
Week day services will begin
at 7:00 slow time. Sunday serv-
ices will be at 9:30 a.m., 10:30
a.m. and 7:30 p.m.

The week of meetings has
been designated as "The New
Life Bible Conference." Rev.
Lester Pipkin is the founder
and president of the Appala-
chian Bible Fellowship of Brad-
ley, West Virginia. He is a grad-
uate of the Pastor's Course of
the Moody Bible Institute and
did undergraduate work at Beth-
el College, St. Paul, Minnesota,
the University of Minnesota and
the University of Denver. He
received his bachelor of Arts
degree at Bemidji State Teach-
ers College at Bemidji, Minne-
sota, and has done graduate
work at Marshall College and
received his B. D. degree from
Bethel Theological Seminary in
St. Paul, Minnesota.

For eight years, he was en-
gaged in pastoral ministry. For
three years he was Dean of the
Southland Bible Institute, and

for two years an Instructor in
Bible at Oak Hills Christian
Training School in Bemidji,
Minnesota. He has been asso-
ciated with the Appalachian
Bible Fellowship since its found-
ing in 1950.

He is married and has five
children. Mrs. Pipkin also teach-
es in the Bible Institute which
is one of the several ministries
of the Fellowship.

Friendly Neighbors Meet

The Friendly Neighbors Home
Demonstration club met with
Marie Deaton for their Novem-
ber meeting.

The history of the song of the
month, "O God, Our Help in
Ages Past," was read by Stella
Studebaker, and then sung by
the group.

Goldie Mollenhour read for
meditation two poems entitled,
"Let's Pause," and "Just Neigh-
bors."

Fourteen members answered
roll call with facts about past
presidents, typed and handed
out by the hostess.

Jerry Nellans gave the lesson,
"Herbs, Spice and Everything
Nice."

The regular business session
was conducted by the President,
Myrtle Wentzel. A contest con-
ducted by Thelma Eaton was
won by Oattie Walburn.

Goldie Jefferies won the door
prize. Tasty refreshments were
served by the hostess and co-
hostess, Goldie Jefferies.

The Chicago Motor Club cau-
tions that bad manners can be
fatal if they occur behind the
wheel of a car. The discourteous
driver who tries to get away
with something in traffic, too
often succeeds only in hurting
himself and innocent victims.
Traffic control begins at your
wheel. Common courtesy pays
off in safe driving.

FARMERS CONCERNED WITH SCHOOLS, PROFITS, NATIONAL PROGRAM

The more than 200 official delegates, elected to represent the membership in the annual business session at the Indiana Farm Bureau Convention which ended last Friday, spoke out for amendment of the 1959 School Reorganization Act and tighter local control on the ever increasing welfare program.

On the national farm front, they proposed a food insurance reserve program which would retire 70 to 80 million acres voluntarily for five years or longer and would withhold Commodity Credit Corporation stocks from the market except in case of an emergency, and use them when possible for payment for retiring these acres.

Re-elected first vice president was Glenn W. Sample, Zionsville; second vice president, Mrs. Guy E. Gross, Churubusco. Delegates elected to go to the national convention in Denver next month are: Phillip Brucker, Winamac; Ralph Heine, Columbia City; Harvey Bupp, Morocco; Don Simpson, Springfield; Robert L. Overpeck, West Lebanon; Malcolm Singer, Vallonia; Richard Plummer, Van Buren; Lowell G. Taylor, Owensville; President George Doup, Columbus, and Mrs. Gross.

An ominous note was sounded by two headline speakers on the general program. Dr. Charles Malik, Beirut, Lebanon, former president of the United Nations, warned that the west is growing soft and lax. "The spiritual climate without which communism could not arise, and if it arose could not prosper, includes three elements: secularism, material-

ism, and collectivism," he declared. "Secularism and materialism both conspire to the destruction of the human person. If there is no God (secularism), if there is imprinted on man nothing eternal, nothing divine, why should he be respected in himself? His value then is only the value of a number, a unit in a big mass."

Charles B. Shuman, president of the American Farm Bureau in an address before the convention, issued a similar warning of the dangers to our freedom. "In communist countries the lines are drawn. But it is not so here," he said; "but it is going on in the threat of big government to man's individual enterprise. . . . There are three categories of people: (1) those who favor increased government control; (2) opponents of this increase in government; (3) the many in between who do not know the struggle is going on," he added.

Mentone H. D. Club Meeting

The Mentone Home Demonstration club met in the home of Mrs. Esther Sarber for the November meeting. The meeting was opened by the vice-president, Eloise Long. Olive Tucker led the group in the Pledge to the flag and Bertha Meredith led the club creed. Genevieve Warren read the history of the Song of the Month, "O God, our help in Ages Past." The meditation was given by Pearl Horn. "Markin' Time" and

"What Is a Grandmother," were the selections used. The secretary and treasurer's reports were read. President Esther Sarber conducted the business session. It was voted that the ladies buy a gift for a patient at the state school at Ft. Wayne.

New leaders were selected for lessons for next year. The club decided to have their Christmas dinner at the Sunny-mede at Warsaw. The lesson on Christmas ideas was given by Olive Tucker and Genevieve Warren. They showed several articles they had made and explained how to make them.

Blanche Whitmeyer received a gift from her Cheerio Pal. Melissa Unzicker won the Mystery Package. The meeting was closed by singing the club prayer song.

There were sixteen members present. The hostesses were Esther Sarber and Pearl Horn.

B. D. Better Daughters Meet

The Beaver Dam Better Daughters met November 1 at the school house where the meeting was called to order by the secretary, Betty Smith.

The American and 4-H pledges were led by Bea and Patty Walsh.

The secretary and treasurer's reports were read and approved.

This being the first meeting of the new year the installation of officers was held. Rita Lockridge, the new president, then took over the meeting.

The health and safety report

was given by Jody Horn on "Polio."

Demonstrations were given by: Betty Smith, Christmas tree sleigh; Rita Lockridge, Making Salads More Attractive, and Jennie Lou Hudson on table decorations.

Refreshments were served to 13 members, five guests and one leader.

Good Attendance At Merry Mollys Meeting

All the members of the Merry Mollys Home Ec. Club met on Monday evening at Peterson's Restaurant.

Mrs. Roger Wrigley and Mrs.

Albert Hire became new members.

For our Health and Safety lesson Mrs. Harold Horn had a quiz on "How much do you know about diseases."

We voted to give the Kindergarten Association \$5.00.

For our lesson Mrs. Gene Sarber showed and told us how to make Christmas decorations. We all made a porcupine, by using styrofoam balls, toothpicks and spray-on snow.

Refreshments were served by the hostess and co-hostess, Mrs. Harold Horn and Mrs. Clayton Holloway.

Wednesday evening our club will have its 11th anniversary supper at the Westminster Hotel at Winona Lake.

**LILLIE JONES
DIES SATURDAY**

Mrs. Lillie M. Jones, 88, of this place, died at six o'clock Saturday morning in the Murphy Medical Center at Warsaw. A lifetime resident of the Mentone area, she had been ill for the past four years.

Mrs. Jones was born April 28, 1872, the daughter of Alfred and Lugarda Keesecker. She married Thomas Jones who preceded her in death. She was a member of the Mentone Baptist Church.

Surviving are a son, Foster, of Lakeville; four daughters, Mrs. Verne (Lenora) De Camp and Mrs. Miles (Josephine) Koser, both of Warsaw, Mrs. Robert (Daisy) Bunch of Grand Rapids, Michigan, and Mrs. Harry (Georgia) Cole of Fort Wayne; eight grandchildren 11 great-grandchildren, and one great-great-grandchild. Three daughters preceded her in death.

Funeral services were held at the Reed funeral home Tuesday afternoon at two o'clock and burial was in the Palestine cemetery.

**BERT BLAKELY
BURIED TUESDAY**

Albert J. (Bert) Blakely, 63, former resident of Talma, died at 11:30 a. m. Saturday in the Memorial Hospital, South Bend. He had been in failing health for six months but a patient at the hospital only a week.

Mr. Blakely moved from the Talma area to Bristol to be a collector on the Indiana toll road at the Elkhart station.

He was born Aug. 10, 1897, near Chicago and March 6, 1925, at Chicago, he married Dessie Gertrude Jefferies who preceded him in death. He was a member of the Grace Methodist church, Masonic lodge, Shrine and Scottish Rite.

Surviving are three sisters, Mrs. Kathleen Meril, Chicago; Miss Eileen Blakely, New York City, and Mrs. George Ream, San Diego, California.

Funeral services were held at the Zimmerman Brothers funeral home, Rochester, at two p.m. Tuesday, with Rev. George Nulph of the Emmanuel Baptist church of Plymouth officiating. Burial was in the Reichter cemetery.

**NEW PASTOR AT
CHURCH OF CHRIST**

Harold R. Driskell, shown here, will begin his work as pastor of the Mentone Church of Christ Sunday, Nov. 27.

Mr. Driskell, who comes from Pauling, Ohio, has been preaching for seven years. He will be accompanied by his wife, Jean, and two children, Tina, aged one and one-half years, and Billy who is six months old.

The Mentone Church of Christ has been without a regular minister since Ralph Burris moved to a new charge.

**"AUNT MAGGIE"
TEEL DIES**

Miss Margaret Teel, aged 95 years and known to everyone in this community as "Aunt Maggie," died of complications on Monday at the home of her niece, Mrs. Goldie Kesler, in Mentone. She had been in failing health the past five years.

Born south of Mentone July 24, 1865, she was the daughter of David and Caroline (Jefferies) Teel. A lifetime resident of this community, she made her home with the Kesler family for many years. She was a member of the Mentone Church of Christ. She is survived by a number of nieces and nephews.

Harold Driskell, minister of the church, conducted funeral services at the church Wednesday afternoon at two o'clock. Burial was in the Sycamore cemetery with the Johns funeral home in charge.

Ray Maxwell remains about the same.

COUNTERPOINT

By the Editor's Wife

Just as one is apt to let the symbol of Christmas, Santa Claus, get in the way of the true meaning, so is one inclined to let the stuffed turkey and a groaning table express Thanksgiving in our thinking.

It takes a great deal of mental effort to push aside the many temporal blessings, (for which I am truly thankful), to establish the one thing above all others, for which I am most thankful. After careful thought I can say, without question, that I am thankful for peace of mind and serenity of spirit, because of a faith and belief in a loving Heavenly Father, in whose care we have placed our lives.

Mrs. Zoa Ward sent us this clipping, which we appreciate. It was taken from the Mangum, Oklahoma newspaper.

Miss Ura Foster, a teacher at Mangum's Edison grade school, noticed that one of the youngsters, David Kirtley, was not taking part in the morning flag salute. She asked him if he didn't know the words.

"Yes, ma'am," the ten-year-old replied. "But I'm a democrat, and the flag salute says 'I pledge allegiance to the flag of the United States of America, and to the republicans for which it stands!'"

Growing a beard for personal reasons is one thing, but growing one to enhance your portrayal of the "fourth wise man" in a Christmas play is another. Jon is in the latter position. He gets many curious stares and not-so-funny accusations (even from four-year-old Lisa). He is to be best man at a wedding on Thanksgiving day, and I'm wondering what the groom-to-be will say when he sees Jon!!! This might be a case of the best man being left at rehearsal.

We enjoyed this: "I hear the bank is looking for a cashier."

"But I thought they just hired one a month ago."

"They did. That's the one they're looking for."

Mr. and Mrs. Roger Goodman have recently purchased the home of Mr. and Mrs. Doyle Baum, located east of town on road 25. The Baums have been in Fort Wayne several weeks, where Doyle is attending Indiana Technical College.

**ERNEST IGO
DIES SUDDENLY**

The citizens of this area were shocked Tuesday when they heard of the sudden death of Ernest W. Igo. He entered the Woodlawn hospital at Rochester Monday suffering from a number of boils, and died of a heart attack at 10 a. m. Tuesday.

Mr. Igo, who was 58 years of age, resided on a farm one mile south of Sevastopol where he moved a number of years ago after selling his Mentone grocery. He was born April 2, 1902 to Omer and Minnie (Black) Igo and lived his entire lifetime in this area, with the exception of four years spent at Bourbon. He was married to Lena Tucker, who survives, along with three sons, Miles of Burket, Ned of Mentone and Barry at home; one daughter, Mrs. Wayne (Shirley) Smalley of Beaver Dam Lake; one brother, Lewis, of California; five sisters, Mrs. Icie Taylor of Plymouth, Mrs. Elmer (Othello) Huffman of R. R. Claypool, Mrs. Roy (Nellie) Walters of R. R. Akron, Mrs. Floyd (Fro) Tucker of Mentone, and Mrs. Art (Lillian) Anglin of Clunette, and five grandchildren.

Funeral services will be held at the Reed funeral home Friday at 2:00 p. m. with Rev. Daniel Slaybaugh of Akron officiating. Burial will be in the Nichols cemetery.

NEW ARRIVALS

Mr. and Mrs. Timmy Utter are the parents of a son, Allen Russell, weighing five pounds, two ounces, born Sunday at the Murphy Medical Center. Grandparents are Mr. and Mrs. Jack Slaybaugh and Mr. and Mrs. Harold Utter.

Mr. and Mrs. Carey Landis are the parents of a son, Wayne Lee, weighing eight pounds, twelve ounces, born Monday at the Wabash hospital. They are in room no. 306.

FRIDAY AND SATURDAY**

As was announced in our last issue, the official opening of Don's Flower Shoppe at Etna Green, will be this Friday and Saturday, Nov. 25 and 26. The shop, formerly operated as the Johnston Greenhouse, was recently purchased by Donald Waggoner.

There will be free door prizes and a rose for each lady visiting the shop.

**BENEFIT FISH FRY
DECEMBER 10**

A number of organizations in Mentone announce that a benefit fish fry will be held on Saturday, Dec. 10, for the Elwin Teel family. Mr. Teel has been seriously ill in the Woodlawn hospital for some time, and the people of the community felt that they would appreciate the opportunity of lending aid to the family. Mr. Teel has always been active in the American Legion, is currently listed as local chairman for Civil Defense, and has worked on many other community programs.

Be ready to cooperate with these organizations in any way possible to help make the fish fry a financial success.

A report from Teel Wednesday afternoon stated that Mr. Teel had partaken of his first solid food Tuesday and has indicated improvement the past three days. His trouble is an ulcer located in such a position that an operation has not been considered advisable.

**WILBUR COCHRAN SHOWING
MUCH IMPROVEMENT**

Wilbur Cochran, 64, formerly of Burket who was reported seriously ill in Washington, D. C. in our last issue, is reported to be much improved. High blood pressure caused ruptures in the blood vessels near the neck.

Mr. Cochran is quartermaster for the national association of Veterans' of World War One.

**SEVEN CHOSEN
IN CONTEST**

Senior girls from the following schools have been selected by their faculty and class members to represent their respective schools in the D. A. R. Good Citizens' contest. They are:

Nancy Irwin, Atwood.
Janice Davis, Mentone.
Betty Clark, Silver Lake.
Diana Ballenger, Beaver Dam.
Alice Frantz, Claypool.
Elva Graber, Etna Green.
Judy Hackworth, Sidney.

These girls are completing questionnaires which will be judged and the winning entry sent to the State D. A. R. Good Citizen Chairman. A state Good Citizen will then be selected from the county winners.

The Anthony Nigo Chapter of Mentone annually sponsors this contest in the above mentioned schools.

MENTONE WINS FOURTH GAME

Coach Paul Bateman's mighty Mentone Bulldogs rode to win number four without a loss by stopping Tippecanoe's Police Dogs 76-65 in a roughshod contest at the Mentone gym Friday evening.

Mentone jumped off to a 18-9 first quarter lead and kept in front from 8 to 14 points most of the way.

Bill Nellans copped scoring honors for the winners with 22 tallies while team-mate Bob Griffiths was right behind with 18. Morlan and Hasse had 15 and 13 each for Tippy.

Mentone led by a 38-29 half-time score, stretched it to 61-47 at the end of three quarters, and soon iced it up.

GIFTS FOR MENTALLY ILL

The Romine Electric here have agreed to serve as a depot for Christmas gifts collected for patients in our state mental hospitals.

Mrs. Earl Shinn, who is in charge locally of the Christmas gifts collection, announced that all individuals and organizations interested in purchasing and wrapping gifts for patients may pick up at this depot a

tag for the gift and a list of suggestions of what to buy.

December 1st has been set as the deadline for collection of gifts. As soon as the gifts accumulate they will be delivered to the Fort Wayne State School for distribution to patients in mid-December.

A quota of four hundred men's gifts and four hundred women's gifts as well as two hundred optional gifts has been set for this area by the Indiana Association for Mental Health. Officers of the state voluntary health organization announced that last year there was a shortage of men's gifts. Last year most female patients received at least three gifts, and men patients received one to two gifts each.

The annual Christmas gift collection program of Kosciusko county chapter of the Indiana Association for Mental Health is one of many programs that county chapters undertake to further the mental health program in Indiana.

The Mentone Reading Club with Mrs. F. B. Davison is purchasing personal gifts for the patients. This done by the School sending the patient's name and what he or she has requested for Christmas.

Family Finances

Could you prove that you are you? Could you prove your age beyond any doubt? Could you prove that you are an American citizen? These are very serious questions, and the proof isn't always easy to establish. There are apt to be many times during your life when you will have to offer such evidence—for example, when you want a passport or are applying for Social Security benefits.

A birth certificate (preferably the original) is the best kind of evidence. Baptismal certificates and such items as naturalization, immigration and military-service records are also acceptable.

Collect and save all records and documents which might help you in this regard. Keep them in a safe place, such as a safe deposit box.

For further information on how to establish proof of whom you are, how old you are, etc., ask your local Social Security Administration office for their form Inst. OA-C9.

Busters To Sell Candy

The Burket Busters 4-H club met in the Burket gym at 7:30 p.m., November 10.

They accepted three joint leaders into their club. They are Don Kuhn, Virgil Hauptert and Eldon Swick.

They also decided to form judging teams. After the meeting, candy was distributed to the members. They also set up two teams to sell candy against each other. The winning team in the sales race will be given an ice cream and cake party.

The meeting was adjourned by the vice-president, Jerry Newton.

The Busters say they are sorry to report that Stanley Newton, their leader for the past two years has resigned and Don Kuhn is taking his place as leader.

Tractor Talk

CHANGE SPARK PLUGS IN SETS

"Mixed salads are fine, but mixed spark plugs may provide a serious case of tractor indigestion."

These words of caution come as a result of recent field investigations revealing that many farmers, when they encounter spark plug misfiring, frequently change only one spark plug to correct the trouble.

While this practice may temporarily restore performance, it is not recommended for the following reasons:

- (1) Uneven spark plug gaps may result in rough idle.
- (2) Mixing plugs may result in uneven power distribution from the cylinders.
- (3) Will disrupt maintenance schedule (the farmer won't remember which plug he put in at what time).
- (4) Other plugs may be "borderline" and wasting gas and power without the farmer knowing it.
- (5) Low voltage requirements at the one plug (new) may rob voltage from the other plugs—especially if a carbonized path in the cap allows voltage to track from one insert to another (the new plug may get plenty of voltage while the plug next to it may get too little).

Champion advises playing it safe when it comes to replacing spark plugs. Replace all plugs every 250 hours for maximum tractor performance.

Girl Scout News

The past few weeks have been busy ones for the Girl Scouts of Troop 30.

October 28 the Scouts held their Hallowe'en party, with Patrol 1 in charge of entertainment and Patrol 2 serving refreshments.

November 14 we made 60 favors for the Alfran nursing home. Cindy Whetstone, Connie Teel and Gloria Tucker helped deliver these favors on Nov. 18.

For the past few days we have been selling nuts and we will soon be selling Girl Scout Calendars.

Extra Tractor Tire Wear

Whether a farmer gets extra service from his tractor tires depends on him, points out Les Hill, Purdue University agricultural engineer.

Tractor tires will have maximum life, says Hill, if the tractor operator will regularly check inflation pressure, use adequate weight to reduce slippage and avoid large, sharp objects.

Hill suggests checking tire inflation with a gauge every two weeks. Usually rear tires are found underinflated; front tires are often over-inflated. Because of higher horsepower, recommended pressure for rear tires has been increased from 12 to 14 pounds for most tractors.

Reducing slippage decreases field time. Slippage exceeding tire wear and saves fuel and 15 percent is considered excessive. Adding 200 pounds to the tractor usually increases the tractor's ability to pull by 100 pounds.

Hill says many Indiana farmers have found dual rear tires satisfactory when using trail type plows, discs, anhydrous applicators and planters.

Don't hesitate to debeak lay-ers should cannibalism threaten to become troublesome in your flock, say Purdue University Poultry scientists.

Gaining On Brucellosis

Cattle raisers should continue to vaccinate their calves against brucellosis, recommends Dr. F. A. Hall, Purdue University extension veterinarian.

Hall says the campaign against cattle brucellosis in Indiana is well along. The state became a modified certified brucellosis area last September. A further boost can be given to maintain or improve the situation if cattle raisers will continue to vaccinate against this disease.

Vaccination should be done when calves are between 120 and 240 days of age.

When calves are properly vaccinated, a satisfactory immunity which will give protection against the disease for several years is established. However, the resulting positive blood test reaction is most likely to clear up and remain negative to this test before the animal reaches two years of age, Hall points out.

Want to Own A Walnut Grove?

So you'd like to own a walnut grove!

Jerome Hull, Jr., Purdue University extension pomologist, says fall is a good time to plant locally gathered seed walnuts. You don't have to hull them. Just dig a hole about two inches deep, drop in a nut and tramp dirt over the hole. Squirrels may get some of the nuts, but others will grow into young trees next spring.

Hull recommends for planting sites deep, rich and moist soil. These may be in stream bottoms, coves and lower slopes. Protected areas are best. avoid fence rows or eroded areas, he advises.

Walnuts for planting should come from large, well-formed trees. Large open-grown trees usually produce nuts of better quality than crowded woods-grown trees, according to Hull.

Purdue University agronomists say fescue pasture can be saved for later in the season by using small grain stubbles, corn stalks and other available pasture.

BEAVER DAM SCHOOL NEWS

The Beaver Dam teachers have selected Diana Ballenger, daughter of Mr. and Mrs. Gerald Ballenger, as our good citizen. Diana has taken a test that will put her in competition with other Good Citizen contestants.

The Beavers lost to Leesburg last Friday night, 52-36. For awhile it looked as though they might pull out their first win of the season. Tuesday evening the Beavers journeyed to Talma. Due to the time difference, the B-team game started at 7:30.

Next Friday night Claypool will play at Beaver Dam. The B-team game will start at 7:00. Students may secure tickets at school for forty cents. All tickets sold at the door will sell for sixty cents. The doors will open at 6:15.

Rev. R. P. Poland, pastor of the Assembly of God church in Warsaw, spoke to the students in the upper six grades Wednesday afternoon.

All the students in the upper six grades and the teachers exchanged names for Christmas Wednesday morning. Their Christmas exchange will be done on December 22.

The second grading period will end this coming Monday. Grade card distribution will be on Monday, December 5.

The Beaver Dam teachers will be attending the county teachers' institute next Saturday, December 3. This institute will be held at Milford from 8:30 to 2:30. Mr. England will be chairman of the group of sixth grade teachers and Mr. Malott will be chairman of the principals' section. Both groups will meet in the afternoon. Dr. Raymond Struck, athletic director at Hanover College, will speak to the group in the first general morning session.

Mrs. Umbower, Mr. England, Mrs. Bogue and Mrs. Lyman have missed school recently.

The menu for Wednesday included the following: Turkey and dressing, sweet potatoes, cranberry salad, celery and carrots, hot rolls, milk, and ice cream.

Recently Dr. John Johnson and Mrs. Nancy Dilling were here to give hearing and vision tests. Mrs. Wayne Baumgartner, Mrs. George Cumberland, Mrs. Kenneth Horn, and Mrs. Paul McFarland came to school to help with the giving and recording results from the tests. We wish to express our thanks to them for this assistance.

NEIGHBORS PICK CORN

Saturday, November 19, the members of the I. O. O. F. lodge of Tippecanoe and neighbors of Robert Hibschanman picked fifty acres of corn. Mr. Hibschanman had just recently undergone spinal surgery. There were nine pickers, twenty wagons and three elevators in use. Dinner was served to thirty men. Many of the ladies carried in dishes of food for the noon meal.

Those helping were: Dale Hawley, Glen Mellott, Monroe Romine, Clayton Holloway, Joe Blackford, Chuck Lozier, Fred A. Mellott, Steve A. Mellott, Robert Ross, David G. Romine, James A. Romine, Hershel McGowen, Nilas Sill, Hody Fenshtemaker, Ralph Warren, Raleigh Sellers, Glen Cole, Bert Holloway, Walter Rackeweg, Marvin Romine, Everett Besson, LaMar Leffert, Orvel Whitsell, Max D. Holloway, Everett Welborn, James O. Unzicker and Louis Weisert.

The ladies who helped prepare and serve the dinner were Mrs. Raleigh Sellers, Mrs. Clayton Holloway, Mrs. Ralph Warren and Bonnie.

STUDY COURSE ON COMMUNISM

The Anthony Nigo chapter of the D. A. R. met at the home of Mrs. Fred Surguy on November 15 for their November meeting with eighteen members present. Mrs. Sherman Bybee was co-hostess. The meeting opened in ritualistic form. Mrs. Kenneth Riner read the president General's message.

National Defense News, given by Mrs. Frank Smith, was a report on a new organization called the "National Committee to Abolish the Un-American Activities Committee," formed last August. This new organization is a front. A good portion of its funds and workers come from another organization with the innocent-sounding name of "Citizens Committee to Preserve American Freedoms." But this organization is under control of the Communist Party according to J. Edgar Hoover. These groups, along with the Emergency Civil Liberties Committee, work ceaselessly to discredit and if possible abolish the F. B. I., the House Un-American Activities Committee and the Senate Internal Security Committee.

Slides were shown by Mrs. Smith and narrated by Cara Linn Tucker on Tamasee and

Kate Duncan Smith schools. Other slides were shown of dresses worn by Caroline Scott Harrison, first President General.

An interesting and instructive demonstration of gift wrapping was given by Mrs. Arthur Brown.

Mrs. Wayne Smalley read the resolution passed by the National D. A. R. on Food and Drug Additives.

The study course on Communism will start on January 9 at the Public Library at 8:00 p.m. and continue for five meetings on successive Monday nights. The cost for study course material is two dollars. The meetings will last approximately one hour and a half. This course is open to the public with Mrs. Frank Smith in charge and anyone interested should call Mrs. Smith or Mrs. Pearl Lackey before December 10 to provide time for the study course material to be ordered.

The meeting closed by reading the American Creed in unison.

Purdue University agronomists suggest to farmers that they take samples of soil before it freezes. County agricultural agents have mailing boxes, sampling instructions and field record sheets.

Asthmatic Children Get Round-the-Clock Medical Care at Sahuaro School, Tucson

Tucson, Ariz.—Around-the-clock medical care is provided for the more than 60 resident asthmatic boys and girls at Sahuaro school, operated here by the National Foundation for Asthmatic Children, according to R. W. F. Schmidt, president.

The program is individualized to the child's particular needs and continues on an all year basis, he said.

"Internists, allergists, pediatricians, psychiatrists, psychologists, dentists and social workers are provided for the care of the asthmatic child at Sahuaro school," Schmidt declared. "A group of consultants in other specialties provides additional care as the need arises."

"Each child is carefully examined and a plan of treatment is worked out to meet his or her individual needs. The youngsters, aged six to 12 years, attend school and live in dormitories right on the premises. Medical care is constantly available as needed. Many children need specific injection therapy following skin testing, and various types of medicine. Others must be treated with steroids from time to time. Still others may need psychiatric and psychological guidance," Schmidt declared.

He said registered nurses are on duty at all times and that rounds of the dormitories, each of which is supervised by a house mother, are made throughout the night. Once every six weeks a report is submitted to the child's home-town doctor, social agency and parents concerning the youngster's physical condition and social adjustment. Sahuaro school, which has a lengthy waiting list of children from throughout the nation, is supported by public contributions which are deductible, Schmidt said.

Beaver Dam 4-H Agriculture Club

The Beaver Dam 4-H Agriculture Club met Nov. 16 at the school house. The meeting was called to order by the president, Roger Nellans. Pledges to the American and 4-H flags were led by Buni Barber and Dick Harrold. The secretary's and treasurer's reports were given by Diana Ballenger and Jean Swick. Songs were led by Linda Smalley.

Election of officers was next on the program. The results are as follows:

President, Darrell Valentine.
Vice president, Diana Ballenger.
Secretary, Sue Welty.
Assistant, Jean Swick.
Treasurer, Betty Smith.
Assistant, Helene Welty.
Song leader, Linda Smalley.
Health & Safety, Paul Bucher.
Assistant, David Norris.
Reporter, Lyle Welty.
Assistant, Melody Ballenger.
Recreation, Kent Jefferies.

4-WAY TOURNAMENT AT MENTONE

Representatives of the Beaver Dam, Silver Lake, Akron and Mentone schools met at Mentone Tuesday and drew up plans and regulations for a four-way basketball tournament to be held at the Mentone gym Dec. 22 and 23. Team drawings will be made Dec. 15 at the Beaver Dam high school.

A second team tournament of the same four schools will be held at Silver Lake on Jan. 9 and 16, 1961.

WIN IN COUNTY CROP JUDGING

The 4-H and FFA Crops Judging contest was held this past week, with 10 teams in Kosciusko county participating. The contest consists of the identification of crop and weed seeds, corn grading, judging of grain samples, and a written quiz.

First place was won by the Mentone FFA team, composed of Steve Mikel (high individual in the county), Jim Mikel (second in the county), Fred Mellott (fourth in county), Steve Mellott (fifth in county). Jim is a Junior, Steve and Fred are Sophomores, and Steve Mellott is a freshman in high school.

Second place went to Claypool.

The Mentone FFA will receive a nice trophy for winning and will compete in the district contest in the spring.

Merry 4-Hers Elect Officers

The Mentone Merry 4-Hers held their first meeting and elected their officers for 1961. They chose Sandra Eckert, president; Elaine Manwaring, vice president; Vickie Bowser, treasurer; Susie Witham, reporter; Jenny Bryan, health and safety; Beverly Hurst, games; Sharon Lewis, song leader, and Patsy Smith, devotions.

The club will meet the third Tuesday evening of each month. Everyone is looking forward to a busy 1961, with new projects. Some of the girls have been in 4-H for several years.

Lovely refreshments were served to the 36 girls present, by our leaders, Mrs. Miles Manwaring and Mrs. Arthur Carpenter, the Home Ec. teacher.

SUSIE WITHAM, Reporter.

The forage intake of dairy cows can be increased by feeding less at a time but feeding more times during the day, according to Purdue University dairy scientists.

DEKALB'S CORN CROP REPORT MAP—1960

(Based on reports of observers of the DeKalb Agricultural Ass'n., Inc.)

The 1960 corn crop which started out slowly and grew through a rather cool summer, was able to ripen quite fully in a long, warm fall. Before planting, subsoil moisture supply had been excellent nearly everywhere. At harvest, the corn crop showed an excellent over-all balance of production. There was no single large area of drought damage such as often occurs. The condition of the crop improved steadily from the time of the first U. S. D. A. estimate of 4.07 billion bushels on July 1st until it reached the 4¼ billion mark in October. States with much above average production were Ohio, Indiana, Nebraska, Kansas, Missouri, Michigan and South Dakota in the corn belt and Georgia and North Carolina in the south. Iowa and Illinois, which produced ¾ of the nation's crop had production slightly above average, with Iowa leading on total bushels.

Easy way to do your new-car sampling—

Drive Chevy once around the block at your Chevrolet dealer's one-stop shopping center!

Just drop in and take a drive in one of the 30 spanking new '61 models your Chevy dealer now offers under the same roof. With every drive, your dealer is giving away free Dinah Shore Christmas records while they last. So hurry! And you'll find that here's the easy, one-stop way to shop for the car you want. There's a model to suit almost any taste or need—at a price to suit almost any budget. There's a whole crew of new Chevy Corvairs, including four family-lovin' wagons. New Biscaynes—the lowest priced full-size Chevrolets. Popular Bel Airs. Sumptuous Impalas. And America's only true sports car—the Corvette. Come on in and pick your new car the easy way—on a one-stop shopping tour!

New '61 Chevrolet IMPALA SPORT SEDAN

You'll see five models in the '61 Impala series—the most elegant Chevrolets of all. They're sensationally sensible from their more parkable out size to their remarkably roomy in size. And note that trim new roof line.

New '61 Chevrolet 2-DOOR BEL AIR SEDAN

These beautiful Bel Airs, priced just above the thriftiest full-size Chevrolets, bring you newness you can use. Roomier dimensions reach right back to the easier loading trunk that lets you pile baggage 15% higher.

New lower priced '61 CORVAIR 500 CLUB COUPE

See what Corvair's got in store for you in '61! Thriftier sedans and coupes with nearly 12% more room up front for luggage. That rear engine's spunkier, too, with a gas-saving new axle ratio to go with it.

New '61 Corvair 700 LAKEWOOD STATION WAGON

There's room for almost everything but antifreeze in these new one-and-only 6-passenger Lakewoods. And they're the only wagons with lockable trunk under the hood. Be sure to see the new Greenbriers, too.

New '61 Chevrolet 2-DOOR BISCAYNE 6
NOW — Big-Car Comfort at Small-Car Prices

These new Biscayne 6's* — the lowest priced full-size Chevrolets—let you save money in a big way, yet give you a full measure of Chevy's new roominess — such things as higher easy chair seats, larger door openings, more leg room in front, more foot room in the rear.

ATTEND PERU CONFERENCE

M. O. Mentzer, secretary of
the Mentone Chamber of Com-
merce, and Artley D. Cullum,
editor of the News, spent all day
Thursday in Peru where they
attended the State Industrial
Expansion Conference.

Speakers from both state and
national level spoke on such
subjects as financing for indus-
trial expansion, selection of suit-
able sites, site preparation, how
to develop a community indus-
trial survey, how to find and
handle prospects, and the as-
sistance possible from state de-
partments.

It was learned that all cities
and groups were encountering
similar difficulties in their
quest for new industry for their
localities, and that many dis-
appointments were encountered
along the way. However, seldom
is a community favored with a
new industry without some ef-
fort and preparation on the part
of the citizenry.

Needless to say, very few lo-
calities looked with favor on in-
dustry that was seeking any-
thing more than a healthy cli-
mate, industrially and socially.
Stable industry wants more than
a plot of ground, adequately
served with transportation, utili-
ties, labor, etc. They want to be
sure the citizens want industry
and will be boosters and not
knockers. No group or organiza-
tion can persuade industry to
locate in a community where
remarks of the business people
and other citizens are unfriend-
ly or even intimate of dissatis-
faction.

And almost without exception,
industry will not locate in an
area that is not properly zoned.
The reasoning is two-fold in that
industry is assured that nearby
land will be available for expan-
sion, and also that it will not be
placed into living areas where
some operation of the plant
could become objectionable in

residential areas.

The lesson of the day seemed
to be: Prepare to aid industry
or prepare to exist without it.

NOTICE TO TAXPAYERS OF ADDITIONAL APPROPRI- ATIONS

Notice is hereby given the
taxpayers of Harrison Township,
Kosciusko County, Indiana, that
the proper legal officers of said
municipality at their regular
meeting place, on the 30th day
of November, 1960, will consid-
er the following additional ap-
propriations which said officers
consider necessary to meet the
extraordinary emergency exist-
ing at this time.

Respiratory diseases of swine commonly occur during early winter. Purdue University veterinarians suggest providing dry, bedded areas. Signs of the disease should be investigated by a veterinarian.

Always use water of room temperature for watering house plants, Purdue University horticulturists say. Most plants except cacti, require water twice a week. Water them from the tops.

Purdue University agricultural engineers suggest farmers check shelled corn in storage for indications of spoilage. "Off" odors or warm discharge air from the fan are danger signs. Crusting on the top surface indicates the grain is not cooled out.

NEWS? Ph. ELmwood 3-3985

Tree Damage By Borers

To homeowners troubled by borers attacking transplanted trees, Don Schuder, Purdue University research entomologist, suggests the adage "An ounce of prevention is worth a pound of cure." Proper treatment, selection and transplanting will prevent subsequent trouble.

Some tree species, such as white birch and the European mountain ash, are almost certain to die from borer attack within a few years. Unless a homeowner realizes he will have to spray them annually, he shouldn't purchase them, says Schuder.

Schuder suggests selecting instead such trees as sweet gum, sugar maple or pin oak, which usually are less susceptible to borers.

Choose a tree that is fully branched, straight trunked and growing vigorously. Beware of trees having a small ball of earth or from which leaves have fallen prematurely. It is safer to buy a tree from a local nursery where it will be dug and planted almost at once. "Shipped in" trees may have been dug for several weeks.

When a tree is transplanted, its trunk should be wrapped with a strip of burlap or special borer paper available from local nurserymen or hardware dealers. This wrapping should be applied spirally from the soil line to the lower branches and secured with twine. The covering prevents sunscald and subsequent borer attack.

Schuder says the wrapping should be left on the tree at least until the second summer after planting. Check the twine holding the wrapping several times a year—it may become too tight as the tree grows and expands, he explains.

Purdue University dairy scientists say the most practical time to dehorn heifer dairy calves is when they are younger than four months.

Where a heavy growth of corn stalks remains in the field, apply 60 to 90 pounds of nitrogen this fall if corn is to be grown on the same ground next year, say Purdue University agronomists.

DHIA records are more accurate now that the new electronic data processing system is being used, point out Purdue University dairy scientists. County agents have detailed information on this improved method of keeping herd records.

BENEFIT FISH
FRY DEC. 10

A benefit fish fry will be held at the Mentone gym on Saturday night, Dec. 10, for the benefit of the Elwin Teel family. Mr. Teel has been confined to a hospital for some time, and a number of Mentone organizations are sponsoring the fish fry to lend financial assistance to the family. (It was reported Wednesday that Mr. Teel continues to improve.)

The organizations cooperating in the benefit are: Mentone American Legion and Auxiliary, Psi Iota Xi Sorority, Mentone Lions Club, Mentone Fire Department, Mentone Chamber of Commerce and Mothers of World War II.

SON ARRIVES
IN AUTO

Mr. and Mrs. Gael Johnson, who live southeast of Mentone, were treated to an experience early this morning that many married people have feared in times past — the arrival of a new baby before the hospital was reached.

Mr. and Mrs. Johnson left for the Woodlawn hospital at Rochester, and when it was indicated they would never reach the hospital in time, they started for Mentone and Dr. Wilson's clinic. Danny Joe was too impatient, and was born in the auto when it was about a mile west of Mentone on Road 25. He was wrapped in a towel and was in good condition when examined by Dr. Wilson about two a. m. After the examination mother and new son were taken to the hospital in the Johns ambulance, and this afternoon everyone concerned appeared to be doing fine. Danny Joe weighed seven pounds, twelve ounces.

Grandparents are Mr. and Mrs. Clyde Johnson of Mentone and Mr. and Mrs. Lawrence Heisler of Etna Green.

CHICKENS LOST
IN FIRE

Fire of unknown origin destroyed 4,000 baby chicks for the Nellans Poultry Farm Friday at the Dale Nellans farm, just south of Sevastopol.

The young chickens were in a large barn used for brooding purposes, and although the fire did little damage to the structure, the chicks were lost. The Mentone and Burket fire departments responded to the call.

BROTHER DIES
IN FLORIDA

Lex Mollenhour, brother of Ed Mollenhour of Bourbon, died at his Tampa, Florida home on Nov. 23.

Mr. Mollenhour was born in Sevastopol Dec. 10, 1874 and was married to Grace Moyer in 1905 at Wakarusa, Ind.

For a number of years he and his brother Roy had a barber shop there and then lived on a farm three and one-half miles northwest of Wakarusa until he moved to Tampa in 1947. He was a member of Bible Temple at Tampa.

Survivors are his wife, Grace; one daughter, Beatrice Codner of Franklin, North Carolina; the brother, Edward of Bourbon, and one grandson, Eugene Codner of Memphis, Tenn.

He was buried Saturday, Nov. 26 in Tampa Garden of Memories cemetery.

—CHRISTMAS MAILINGS—

In order to assure delivery by Christmas patrons are urged to plan their mailings according to the following schedules:

Distant States by Dec. 10

Ind. & Nearby States by Dec. 17

Local Mailings by Dec. 23

The attention of mailers is also called to the fact that greeting cards for Canada and Mexico require surface postage of 4c, whether sealed or not. Also that parcels may be marked "Do Not Open Until Christmas" and may contain written messages providing they are endorsed "Letter Enclosed;" the postage being paid for the letter on the OUTSIDE OF THE PACKAGE.

COUNTERPOINT

By the Editor's Wife

Trust you had a nice Thanksgiving, with your family about you to share it.

This storm blowing in from the southwest reminds me that I have one hundred crocus bulbs to get into the ground before it freezes.

Bumped into some sound (?) philosophy from six-year-old Timmy. In speaking of a boy, he said, "He's the toughest 'cause he can run the fastest." I have yet to learn, "run which way" — to or from the enemy.

Now, I can think seriously about Christmas, that Thanksgiving is past. Somehow or other, just before Thanksgiving, I seem to feel that I have plenty of time, but right after Thanksgiving, I begin to feel "panic" about getting everything done.

At a recent dinner meeting of civic planners, as the minister was giving thanks, there were several smiles when he said, "Lord we thank thee for the fluid." (It was a "slip," but there had been both food and fluid.)

Kitchen tip: Before baking apples, pierce the skin in several places with a fork. This prevents the skin from bursting.

Read recently that kangaroo steaks are now on the menus in Australia. Seems there is an over-population of these marsupials.

We enjoyed this: On Main street of a small town, a car screeched to a stop at an intersection, barely missing a white-haired old lady. Instead of giving the driver a tongue lashing, she recovered herself quickly, smiled sweetly and pointed to a pair of baby shoes dangling from the rear-view mirror.

"Young man," she asked, "why don't you put your shoes back on?"

NEW TEACHER

Burl Faurote, of Warsaw, is now teaching Arithmetic, English and Biology, taking the place of Mr. Roop who was a replacement teacher, teaching under a special permit. Mr. Faurote is also the seventh grade sponsor.

TO SPONSOR 4-H
GRAIN SHOW

The 1960 County 4-H Grain Show, sponsored by the Northern Indiana Co-Operative Association of Mentone and the Kosciusko County Farm Bureau Co-op., will be held December 1-5 in the Munson Motor Sales showroom at Warsaw.

Previous grain shows have been held in the basement of the First National Bank, which furnishes the display trays. Due to remodeling and the need for a space more available to the public, Munsons have offered their showroom.

The exhibits will be brought in before 4:00 p. m. on Thursday, Dec. 1, judged on Friday, and remain over the week end on display. Exhibits are to be removed by 12:00 noon on Monday, Dec. 5.

Classes will include Junior Class of Market shelled corn (for 1st and 2nd year members), Senior class of Market shelled corn (for all members over 3rd year), ten ear sample market corn, soybeans, wheat, oats, hay and potatoes.

The judge for the grain show will be Prof. R. E. Mulvey, of the Agronomy Department, Purdue University.

TOWN WELL
IS COMPLETED

The new town well has been completed at a depth of better than 100 feet. It tested out at about 600 gallons per minute and samples of the water have been sent to the State Board of Health for analysis.

A well house is now being constructed and work has started on the laying of additional water mains.

CALENDAR

JOY Circle will meet with Mrs. F. B. Davison on Tuesday, Dec. 6 at 9 a. m.

Mentone Reading Club, Wednesday evening, Dec. 7, at the home of Mrs. Allen Shirey. Mrs. Don Wentzel, co-hostess. Members are to bring old jewelry and small jewelry boxes, for Mental Health project.

Mentone Home Demonstration Club meet at the home of Bertha Meredith Dec. 8, before 11:30 a. m., to go for a Christmas dinner at the Sunnymede at Warsaw.

WAYNE NELLANS
IN HOSPITAL

Wayne Nellans, 42, was taken ill while working at the dressing plant Tuesday forenoon and taken to the office of Dr. Wilson. Although Mr. Nellans was able to enter the clinic on his own power, he seemed reluctant to talk. He agreed to be taken to the Woodlawn hospital at Rochester. Indications were that he was suffering from a blood clot that could cause a loss of motion, and it was decided to take him to the Park View Memorial Hospital in Fort Wayne on Wednesday morning. He was able to get up and down and to walk, and spoke intelligently although he was still reluctant to speak. He was taken to Fort Wayne in the Johns ambulance.

NEW SON

Mr. and Mrs. Charles Urschel are the parents of a son, David Allen, born at the Chicago Lying-In Hospital Monday night. He weighed seven pounds, seven ounces.

Mr. and Mrs. Samuel Burris of Crete, Nebraska and Dr. and Mrs. Dan L. Urschel of Mentone, are the grandparents.

GET DEER

Henry Konneck, with a party of other hunters, returned from a Michigan deer hunt last week. Two deer were killed, but the meat spoiled in the hot weather.

Harold Markley, John Boganwright, Ralph Warren and Lawrence Kindig were hunting in Brown county and Mr. Markley was the fortunate hunter, getting a nice deer.

WINTER AGAIN

If you are spending the winter in Florida, here's good news. Winter arrived in full fury on Tuesday, with high winds, quite a bit of snow and temperatures below the 30s.

SAUSAGE AND PANCAKE
SUPPER AT BURKET

The Burket Lions Club is advertising a sausage and pancake supper Saturday, Dec. 3, at the Burket gym.

CHRISTMAS LIGHTS ARE UP

Mentone took on that Christmas look Monday when the decorations were put up.

SERIOUSLY ILL

First In State Soil Contest

A Clay county father-son combination won the 1960 State Soil Conservation contest, Charles McKee, extension soil conservationist at Purdue university, announced last week. Winners are Peter Zurcher and his son, Leiland, Clay City.

The annual contest is sponsored by the Baltimore and Ohio Railroad in cooperation with the Soil Conservation Service, the State Association of Soil Conservation Districts, the Purdue agricultural extension service and the State Soil Conservation committee.

The Zurchers, also first-place winners in the central Indiana area, operate a 30-cow high producing dairy herd on a 180-acre farm. They followed a good conservation rotation system, crop residue management and fertilization programs. The Zurchers established a surface drainage system for 40 acres of imperfectly drained cropland through land smoothing and shallow surface drains. They built a half-mile diversion ditch to divert surface water from a low field. These farmers also use rotation-

al grazing, make annual applications of fertilizer and yearly cuttings of grass silage from their 65 acres of high producing pastures. They maintain natural waterways in all sloping fields in permanent sod.

Second place in central Indiana went to George M. Stevens and Willard Rude, Liberty.

First place winner in northern Indiana was Glen McDonald, Route 1, Nappanee. Calvin Ott, Route 2, Albion, was runner-up.

In southern Indiana Arthur Bierman, Route 1, Floyd Knobs, took first and Rollie Hendrix, French Lick, was second.

Family Finances

Christmas shopping is expensive and time consuming. Therefore, every gift should be carefully chosen. Consideration ought to be given to the wants and needs of the person to whom the present is to be given, as well as to the cost and quality of each gift.

Here is a checklist (the six P's) which might help you do your Christmas shopping. A gift should be:

- (1) Practical — it should be something which the recipient can use.
- (2) Personal — it should be in keeping with the recipient's personality.
- (3) Pleasing — it should be something which the recipient would like.
- (4) Permanent — it should last as long as possible (even perishable items).
- (5) Priced appropriately — it should be a worthy expression of the giver's feelings toward the recipient.
- (6) Prompt — it should be delivered or mailed in time to get to the recipient on or before Christmas.

WHY put off till next year what you can do right now?

PREVENT engine condensation buildup.
PREVENT excess fuel dilution.
PREVENT sludge accumulation.
PREVENT acid formation.

HOW? Only one way — RECLAIMO.

THE ounce of prevention Guaranteed.

Good-Bye Guns?

By Louis F. Lucas,
Executive Director, National
Rifle Association of America

During the next few months the U. S. Congress and the legislatures of each of the fifty states of our Union except Kentucky, Mississippi, and Virginia are scheduled to convene in regular session—43 in January, 2 in February, one in April, and 2 in May. This situation is certain to produce a bumper crop of proposed bills to control the ownership and use of firearms.

Firearms legislation is a problem for shooter-sportsmen and all gun owners. Anti-gun laws can destroy our enjoyment in the use of firearms. In fact, they can take away our guns. It behooves us, as thinking citizens, to understand something of the problems that create proposed gun laws and to learn to separate the good legislation from the bad.

There are many groups and interests which originate firearms legislation. Some are attempting to assist law-enforcement personnel in catching and convicting law violators. Others are seeking to disarm the criminal by statute or to reduce gun accidents through tight controls over the possession and use of private firearms. In spite of the painful history in every country where it has been tried, there are those who still believe, or pretend to believe, that there should be some form of national or state firearms registration in the United States.

A realistic evaluation will show that most firearms legislation is of insufficient value in the prevention of crimes or accidents to justify the inevitable restrictions which such legislation places upon law-abiding citizens. The desire to see our laws adequately enforced is not justification for any bill which circumvents due process of law in order to obtain convictions more easily or which can make a prudent, law-abiding citizen an unwitting violator. A permit to purchase or possess will not prevent firearms from coming into the hands of criminals. A firearms registration law will not disarm the criminal, and its honest proponents do not claim that it will.

The objectionable feature of most proposed firearms legislation is the wrong emphasis. It is aimed at regulating guns in the hands of law-abiding citizens rather than at severely punishing criminals who use them. No legislation can prevent gangsters and other dangerous criminals from securing and using firearms, but proper legislation with adequate enforcement and appropriate judicial implementation can make it to the interest of criminals not to use them, and can send to prison for long periods those caught doing so.

When some form of firearms control measure is under con-

sideration in the legislature of a state, individual influence can be considerable. Each member of a legislature is a private citizen who has been elected to a trying and time-consuming job. On legislation that is proposed for consideration, most legislators welcome the opinion and advice of anyone whose knowledge and experience on a particular subject are greater than his own. In any event individual citizens should assume the burden of making known their opinions and reasons for or against any piece of legislation. They must help in separating the good bills from

the bad.

The ultimate responsibility for bad firearms laws cannot rest on those who make the laws if the shooter-sportsman and gun owners, the individual voting Americans, are indifferent or if they are silent before the threat of disarmament by persons with other interests. Let's face it! "Be it enacted" may mean good-bye guns!

Purdue University horticulturists say a few prunings from an apple tree left around the base of the plant often will prevent rabbits from peeling bark from the trunk.

HERE! THE TRUCKS THAT RIDE SMOOTHER, WORK HARDER, LAST LONGER!

Just a year ago, Chevy came up with independent front suspension and has already put some 300,000 Chevrolet trucks with it out on jobs.

The ride that results from Chevy's suspension design is making life a lot easier for drivers. (Just ask them.) It's taking better care of loads, the fragile kind that cost somebody money if they are bounced around. Chevy's ride also enables truck owners to revise their buying habits and work their trucks longer before they trade. This follows naturally. The trucks take less of a beating. There's less stress on sheet metal. Less abuse to tires. Less pounding that wears out parts before their time. The upshot of it is, you either save money or earn more of it or both. And you couldn't ask a truck to do more than that. See your dealer.

The Claypool teams will play at Beaver Dam Dec. 2. The B-team game will start at 7:00. Doors will open at 6:15.

The Burket junior high teams will play at Beaver Dam next Wednesday or Thursday after school.

Sidney will play at Beaver Dam Friday, Dec. 9. The B-team game will start at 7:00. Doors will open at 6:15.

Our next PTA meeting will be held on Tuesday evening, Dec. 13. This will be the annual Christmas program. Please mark this date on your calendar so that you will be able to attend.

The general science classes are making plans for a trip to Chicago on Saturday, Dec. 17. Mrs. Annabel Bogue is the science teacher.

The school paper came out Tuesday. This is being done by members of second-year typing class. Mrs. Marie Holsinger is the sponsor.

Mr. and Mrs. Fred Neer of Warsaw, Mr. and Mrs. Bob Parker and family of Bourbon and Mr. and Mrs. Dwight Reichard of Mentone had Thanksgiving dinner with Mr. and Mrs. William Schooley.

Mrs. E. D. Anderson spent from Wednesday until Sunday last week with Mr. and Mrs. Howard Newton and family in Hammond. Thursday afternoon she called on Mrs. Kathleen Campeljohn and children at Michigan City.

CARE Opens Holiday Drive

To Send 4 1/4 Million Food Crusade Packages

Thanksgiving marks the start of intensive deliveries in the annual CARE Food Crusade, Norman Ross, member of the Midwest CARE committee, stated today as he opened the agency's holiday season fund drive to share America's farm abundance.

"The 1960 appeal," Ross explained, "aims to send 4,225,000 packages to the hungry in 20 countries as personal food-for-peace gifts from Americans. Each parcel will bear the name and address of donors who give one dollar per package to CARE, 1 South State St., Chicago 3, Ill.

Foods are mainly flour, milk powder and corn meal from U. S. stockpiles. However, CARE buys meat, margarine, rice and other items needed in various areas, then balances contents and weights accordingly. Typical packages provide 432 half-pints of milk for school lunches, or 21 to 26 pounds of assorted foods for a family.

CARE'S staff abroad will channel the gifts to refugees, disaster victims, under-nourished children, the aged, jobless and sick in critical areas of Asia, Europe, Latin America and the Middle East.

Though peaked from Thanksgiving through Christmas, deliveries continue monthly as part of a year-long CARE plan to bring U. S. surpluses to thirteen and a half million people in 27 countries. Host governments cover much of the costs.

The Food Crusade alone will help feed over three-and-a-half million people for one to twelve months.

Incorporate Farm Business?

The incorporation of a farm business is highly desirable on some farms and equally undesirable on others, points out A. M. Nichter, Purdue University Agricultural economist, in Mimeo EC-205, published by the Agricultural Extension Service.

Mimeo EC-205 explains that any business worth \$500 or more and having at least three stockholders can be incorporated.

On behalf of incorporation, the mimeo explains that transfer of

ownership to next of kin, for example, is made easier, liability of shareholders is limited to the value of their shares, and owners in the corporation may realize benefits such as workmen's compensation and hospitalization insurance as employees.

Added costs including legal fees to incorporate, annual report charges, more "red tape" in operation and possible increased income taxes are arguments against farm incorporation.

A copy of Mimeo EC-205, "Incorporating the Farm Business," is free to Indiana residents who ask for it by name and title in writing to the Office of Agricultural Publications, AES Building, Purdue University, Lafayette, Indiana. A postal card is sufficient. Or a copy can be obtained from the office of county agricultural agents.

Celebrated Golden Wedding Nov. 20

Mr. and Mrs. Jake Smith celebrated their golden wedding on Nov. 20. The family, consisting of Mr. and Mrs. Smith, their daughter Mrs. Anna Williamson, their son, Mr. and Mrs. Wesley F. Smith and daughters Julie, Jo and Kim, a granddaughter, Mr. and Mrs. Don Kuhn and children David, Pamela and Gary and Mrs. Bea Rossitor had dinner at Horn's Sunnynede and returned to the home of Mrs. Williamson for open house from 2 to 4 p. m.

A brother of Mr. Smith called from Concordia, Kansas during open house to congratulate them. Mr. Smith's aged father of Goshen was able to be with his son and wife on their golden wedding day.

Mrs. Kuhn and Miss Julie Smith, granddaughters, served cake, punch, mints and nuts to the many friends, neighbors and relatives who called to help make it a memorable day.

Guests were present from Chicago, South Bend, Goshen, Warsaw, Mentone and Burket and from the state of Ohio.

NOVEMBER MEETING

On Monday evening, Nov. 28, the Be-About Missionary Group met at the home of Mrs. James Gates. The president, Mrs. Wayne Bowser, conducted a short business meeting after which the group wrapped gifts for the people at the county home. Plans were made to visit there. Bandages were rolled and packed to send to Eppy Hospital in Africa.

Delicious refreshments were served to the Mrs. Tobie Blacklock, David Pephony, Ed Bach, Ervin Wagner, Raymond Lewis, Everett Besson, Wayne Bowser, Morris Bitzer, Everett Welborn, Jim Miller, Kermit Zent, Lee Norris and Kenneth Romine.

GOLDEN WEDDING FAMILY DINNER

Married fifty years, Mr. and Mrs. Lloyd Teel of 1208 W. Main St., Fort Wayne, Ind., will celebrate their golden wedding anniversary Sunday, Dec. 11th. A family dinner will be held at the home of their daughter, Mrs. Hugh Kesler of 6119 Dartmouth Drive, Fort Wayne.

Mr. and Mrs. Teel were married Dec. 14, 1910 and lived in the Mentone vicinity 26 years before moving to Fort Wayne.

They are the parents of five children: Mrs. Anna Kesler, Mr. Ondis Teel, Mrs. Mary Moore, Mr. Richard Teel and Mrs. Eula Ferckel. They have eight granddaughters, 3 grandsons, two great-granddaughters and two great-grandsons.

ADULT FARMER CLASS TO HEAR OUTLOOK FOR '61

The Mentone Vocational Agriculture instructor announces that the first meeting of the Adult Farmer Classes will be held Wednesday, December 7 at 7:30 p. m. in the Agriculture room.

This meeting will be held as an organization meeting to plan the remainder of the meetings, which will start in January. In addition, there will be a discussion of the 1961 Agriculture Outlook.

If you have some particular area that you would like to have covered this year, you will want to be sure and attend this meeting.

Some of the topics that will be brought up are, "Minimum Tillage," "Economics of Fertilization," "New Varieties" and others.

At the close of 1959, the U.S. active aircraft fleet numbered 70,747, a slight increase over the preceding year's total of 69,718, with some shifts in composition of the fleet. Scheduled and noncertificated air carrier planes accounted for 2,020 of the total, about 140 more than in 1958.

MENTONE BULLDOGS STILL UNDEFEATED

The Mentone Bulldogs remained the only undefeated team in the county as they stopped Argos by a 61-44 score at the Mentone gym Friday night. They are now 5-0 for the season.

Argos led 12-8 at the end of the first period but the Bulldogs bounced back to lead by three, 26-23, at the half. They then finished off their visitors in the third quarter by taking a 49-34 advantage.

Mentone had four cagers in double figures with Bob Griffis leading with 18 points. Thompson was high for Argos with 12 points.

ROUGH DAY FOR SIGNS

Workmen were installing a new sign for the Lemler Market Monday, and had just gotten the sign above the awning and ready to fasten when it began to rain, causing a delay in operations. Before long a gust of wind blew it down, over the awning and into the street, putting a dent in the awning and one auto parked along the curb.

The sign went back for repairs.

WRONG NAME

The photo above was printed in our last issue, identified as the daughter of Mr. and Mrs. Max Blackburn. As near as we are able to determine by the identifications supplied by the photographers, it is Crystal Ann, daughter of Mr. and Mrs. Gerald Ross.

BIRTHDAY THURSDAY

We have learned that Mrs. Emma Yocum will celebrate her 97th birthday Thursday, Dec. 1. Although she and her sister live rather secluded in their home, Mrs. Yocum still remains very mentally alert.

The sister, Mrs. Pearl Kertzer, who lives with her, is 93 years old. She is in a wheel chair, but does the cooking, as well as sewing and writing of poetry.

EXCERPTS FROM INDI- ANA AERO-NOTES

The Indiana Aeronautics Com-
mission issues a monthly bul-
letin to Indiana pilots, and the
last release carried a number of
statements of general interest,
such as:

Chicago Midway, the world's
busiest airport, handled 431,600
aircraft arrivals and departures
during 1959, an average of 1,182
per day.

The total number of instru-
ment approaches made in 1950
was 288,160 (at all U. S. airports
instrumented for such approach-
es); and in 1959, 915,668. Of
these, in 1950, 15,443 approach-
es were made by general avia-
tion; in 1959, 122,776. Is instru-
ment flying here to stay?

In 1959 there were 9,728 ac-
tive pilots in Indiana. This total
is composed of 4,405 private,
2010 commercial, 112 airline
transport, 3,177 students, and 24
other pilot categories.

Fifteen years ago it was un-
usual to hear of a company
which in the process of a new
plant site selection, expressed
a need for nearby airport facili-
ties. The field of business avia-
tion had not grown to its present
proportions at that time.

Now, however, the reverse is
the case, and in many instances
the decision by a company to
favor one community over an-
other when they seemingly have
otherwise equal facilities, often
hinges on the airport.

What 100 new factory work-
ers meant to their community
(per U. S. Chamber of Com-
merce):

296 more people
112 more households
51 more school children
\$590,000 more personal in-
come per year
\$270,000 more bank deposits.
107 more passenger cars reg-
istered.
4 more retail establishments
\$360,000 more retail sales per
year.

WORDS OF THANKS**CARD OF THANKS**

I wish to thank all my friends who remembered me with cards, letters and flowers during my stay at the clinic and hospital at Rochester, Minn. All were deeply appreciated.
ED SEVERNS

THANKS TO ALL

We wish to extend to our neighbors and friends our sincere thanks for the many deeds of kindness and expressions of sympathy during the death and burial of our husband and father.

THE IGO FAMILY.

THANK YOU

Thanks for the cards, calls and gifts for our birthdays.
Mr. and Mrs. William Cook.

SINCERE THANKS

We wish to express our sincere thanks to the Mentone and Burket Fire Departments for their prompt and efficient efforts at our recent fire.

NELLANS POULTRY FARM

THANK YOU

We want to thank everyone for the thoughtful words and many acts of kindness bestowed upon us during our recent hour of sadness.

Goldie Kesler
Rex and Freda Witham and Family.
Bob and Ellen Flenar and Family.

THANK YOU

The Mentone K. A. wishes to express its appreciation and many thanks to the following clubs and businesses for their generous contributions:
