Robbery and Fire in **Tippecanoe** Store

Fire of almost certain incendiary origin threatened to destroy the Floyd Moriarity store at Tippecanoe early Sunday morning. A passing motorist noticed a light which he at first thought might be the light from an oil heater, but upon giving further thought he returned to the scene where he was met by Percy Fuller who was leaving town for an early morning trip. Aid was summoned from the surrounding neighborhood. Upon gaining entrance to the store a bucket of water extinguished the blaze.

Sheriff Chas. Keller, was called nd it is reported that there was a es in the cash drawer of nickels ! dimes but the other change had a untouched. It may have been, coording to the sheriff, that the

sulprit had dropped a lighted match , while making the robbery.

It is peculiar that not all the money was taken from the cash drawer, which leaves one to doubt as to whether the robber accidentally or purposely set fire to the store. So far as is known at this time no clue to the robbery and fire have been found.

THE BIBLE

This book contains the mind of God, the state of man, the way of salvation, the doom of sinners, and the happiness of believers. Its doctrines are holy, its precepts are binding, its histories true, and its decisions are immutable. Read it to be wise, believe it to be safe, and practice it to be holy. It contains light to direct you, food to support you, and comfort to cheer you.

It is the traveler's map, the pilrim's staff, the pilot's compass, the

Mi oldier's sword, and the christian's charter. Herein Paradise is restored. heaven is opened, and hell is disclos-

ed. Christ is its grand object, our good its design, and the glory of God its end. It should fill the memory. rule the heart, and guide the feet. Read it slowly, frequently, and prayerfully. It is a mine of wealth,

a paradise of glory, and a river of conducive to the gambling habit.

pleasure. It is given you in life, will In Fairness to be opened in judgment, and remembered forever. It involves the greatest responsibility, will reward the highest labor, and will condemn all who trifle with its sacred contents. It offers protection for infancy, happiness for childhood, inspiration for youth, strength for maturity, assurance for old age, comfort for death, and salvation and riches and glory and reward for eternity.

Author unknown.

CARD OF THANKS

I wish to thank my friends, neighbors and the Mentone Fire department for their kindness and assistance when my dwelling was destroyed by fire on the farm known as the Milburn place.

Mrs. Levi Eaton.

Big Drug Store Installs Reproducer

Shafer and Goodwin owners of the Big Drug Store on the Corner in Mentone, recently installed a beautiful new reproducer in their store. The machine is quite novel in that

a person who wishes to invest five cents in good music, has at the turn of a dial a choice of twelve recordings. Upon selecting the music the dial is turned to a corresponding number, the five cent piece inserted and things start. The proper recording moves over into position, the needle sets properly and the music begins. When completed the operation is reversed and the machine is ready for another customer. We are told that if the operator does not like the recording after it starts a button can be pressed which will stop the music and return the five cent piece.

We mention this at length because this is one vending machine in which Inventory Being Taken. the operator is sure of something, that is, music of his choice. It is in no way a gambling device and if a good tune is worth five cents the operator as well as the management is repaid. We cannot say as much for a great many such devices intended to relieve people of their money, and

Town Council

In our last issue under the caption "Town Council Makes Important Decision", we stated that the town coun cil had decided not to install a fire signalling system in the central office. The article created much havoc and comment in local circles.

We tried to explain in the article that we had obtained our information from the fire chief. The information which the fire chief gave us did lead us to make the statement. However, it now appears that only two of the councilmen were present and no official action could be taken. However, the situation was discussed and in fairness to councilman Bunner, let us say that in conversation with him concerning the subject after our last issue he stated that he has favored such a signalling system for a long time. An interview with councilman Bunner led us to believe that he is wide awake to the best interests of the town, and so far as he is concerned he is ready and willing to proceed further in the plan.

But let us get back to our subject. Until the town council does install a signalling system it is fair to us to state the decision of the town board is not to install the system. Whenever the board does install the system then it appears that our original information did not have the sanction of the town council, unless we take it that the board's decision as first stated was to not install the system but later changed.

With it now known that the board is a majority in favor of the project no doubt at an early date the council will take steps to put forward this improvement in our fire department.

The April first inventory at the NICA is now in progress. In itself it is a big job but coupled with it is the heavy rush of the spring business.

Inventory is taken every ninety days at the NICA. At these times a full and complete check of all mer-

chandise on hand is made. There are literally thousands of different items to be listed. The inventory is taken to keep a direct check on the progress of the business. All items are priced at cost or market value, whichever is lower. Anyone familiar with inventories will realize that in this manner the stock of merchandise is always equal to or more than its represented value. Consequently the stock of merchandise is always a sound asset.

Contrary to many businesses there is comparatively little merchandise at the NICA which is obsolete or a drag to the business

Stockholders should appreciate this effort on the part of the executive board to keep this business on a safe and sound basis.

Clutter Stationed at Columbia City

W. C. Clutter, a member of the state police force, will soon move with his family to Columbia City where he will be headquartered. It is believed that Seargent Sut lin. in charge of this district will bve from Columbia City to Ligonier where the barracks for this district are located.

Clutter will probably be teamed with officers from Fort Wayne it is believed. In the past he has been working with Bemenderfer of Rochester. The News is glad to know that Clutter is making good in this work.

New Driver on **Clark's Truck**

Linus Borton who recently moved from the Blue farm west of town to the Lee property which he recently purchased on North Broadway, is now driving the grocery truck for Clark's Store.

This service brings the store to the farmer's door, a service which appears to be of mutual benefit.

Northern Indiana CoOp. Association, Bulk and Retail Stations, Mentone

Take Oath on Ant Hill The Juangs, literally "leaf-wearers." a jungle tribe of Orissa. India, take their most sacred oaths on an ant bill or tiger skin.

Kenosha Once Southport

Kenosha, Wis., which received its city charter in 1850, was called Soutiport for the first 18 years of its existence.

A Barcarel

A barcarolle (Italian and French, littie boat) is a boat song made popular by Venetian gondoliers; also any musical composition which suggests the characteristic manner and rhythm of the Venetian boat song, such as the "Barcarolle," from "Tales of Hoffman," by Jacques Offenbach.

Cossack Post in U. S. Army

A Cossack post consists of four men. It is an observation group similar to a sentry squad stationed far from its base but it employs only one sentinel. The idea of this system was taken from the Russian army. The Cossacks were the pick of the Russian cavalry.

Tie Sapling: to Mark Trails Ethiopian natives sometimes mark trails by tying knots in flexible saplings.

The Louvre

The Louvre is the former royal palace in Paris, now used as an art museum.

The Tailor Bird

The tailor bird derives its name from the practice of stitching leaves together to support and hide the nest.

Water Surface of Great Lakes Lake Superior has a water surface

Lake Superior has a state Huron. of 31.810 square miles; Lake Huron. 23,010 square miles; Lake Michigan. 22,400; Lake Erie, 9.940, and Lake On tario, 7.540.

From Louisiana Purchase

The states that were formed from the Louisiana purchase were Louisiana. Missouri, Arkansas, Iowa, Minnesota, North Dakota. South Dakota, Nebrasta, Oklahoma and most of Kansas. Colorado, Wyoming and Montana.

Action of Oil Glands

The oil glands in the skin of the face normally remain active many years more than those of the hands. Undoubtedly this is due to the added layers of fatty tissue on the face. Hands become leaner with the years and this reduces the fat and so the natural oil which tends to keep skin supple.

Invented Nail-Making Machine

Up to the beginning of the Nineteenth century nails were made by hand as a household industry in various countries. The credit of inventing nail-making machinery appears to belong to the United States, a patent having been granted in 1786 to Ezekiel Reed of Bridgewater, Mass. About the beginning of the Nineteenth century machines were generally introduced into England. The first English patent was granted to John Clifford in 1790. The first handmade wire nails were made in the United States in 1850 Shortly afterward French machines were imported, but American-made ones soon superseded them.

Flattery

A man who solemnly declares that he is superior to the influence of flattery is flattering himself

School Within English Church

The Latitudinarians was a school within the English church in the inter half of the Seventeenth century. The school was represented by Cambridge university divines, of whom the chief were Wichcote. Smith. Cudworth and More. These divines songht to wed philosophy to religion on a basis of reason.

King Cole Did Exist

There was a King Cole, who was more than a legend and a character out of a Jingle, according to the old chronicles. He is supposed to have reigned in Britain during the Third century A. D. One version of his story asserts that he was the father of St. Helena, who died about 323, and who was the mother of Constantine the Great, Roman emperor who made Byzantium his capital and for whom it was thereafter called Constantinople.

FAMOUS APPLE IS TRACED TO RUSSIA

More than a century ago a fort, trading post, and chapel were established by a group of Russians at Fort Ross on the northern coast of Sonoma county, says a California writer in the Philadelphia Inquirer.

For years an old orchard planted by the Russians at Fort Ross has received little attention, but now a movement is on foot to mark the site with a monument to California agriculture.

For among the trees planted was an apple. Its fruit was greenish velthickly striped with bright red.

From this parent stock, agriculturists believe, sprang the vast acreages of Gravenstein apples, most famous of Sonoma county fruits. Also in all probability the state's first prunes, a Hungarian variety, the trees of which remaining in the old orchard still bear fruit. California's first cultivated cher ries and pears were also set out by the Russians at old Fort Ross.

If the proposed monument becomes a reality an effort will be made to preserve the old orchard, ke ping its old trees properly trimmed and cultivated.

Millions in China Hear

the Same Popular Name Perhans it is just as well that the vast majority of the 385.000,000 Chinese are illiterate, from the point of view China's post office. For when, say, 384,000,000 of them learn to write and receive letters a bit of bother will ensue over the Changs and Wangs, who are the Celestial republic's equivalent of our Smiths and Joneses

Britain contains considerably fewer than 1,000,000 people named Smith Jones, observes a writer in Pearson's Weekly, but a Chinese government department has estimated that there are about 25,000,000 Changs Wangs, and about 16,000,000 Lis and and Chaos.

China actually has only 400 surnames for all the 385,000,000 inhab-itants so even if these names are fairly divided, there would be nearly a million holders of each.

One of the text books for Chinese schoolboys is a little manual containing all the 400 names grouped in fours. which have to be learned by heart. Youths asked their name will sometimes mention the enfire group-as though a British youth replied Smith-Carter-Tomkins-Henderson-to indicate that he is a scholar, who has learned them all.

Fish Like Liver

In a government tish hatchery at Antigonish, Nova Scotia, some interest ing experiments with speckled trout fingerlings are being carried out. There are a hundred fingerlings being studied. all of them the progeny of selected parents. When first put on the scales these tiny fish weighed a total of 15 ounces. In less than 11 months their combined weight was 7,000 ounces, or an average of 70 ounces each. They had been fed mostly on beef fiver. Under natural conditions trout do not

attain seven-ounce weight in less than two and a half years. Hatchery stock is used for re-stocking angling and commercial waters, and the importance of improvement in fish strains is apparent .- Tit-Bits Magazine.

World's Largest Truck

The world's largest truck, which is called "Kathleen Mayourneen" by its Liverpool owners, has benu used to transport, over a considerable dis-tance, a steam locomotive and a 70ton whale. Katle is 72 feet long, has 14 wheels, can carry 130 tons, travels at six miles an hour and is steered by four men, two in front and two in the rear, all connected by telephone.-Collier's Weekly.

Piece of True Cross Stolen

Priceless religious relics valued at more than \$700,000 have been stolen from Pamplona cathedral, Spain. I: is believed the thieves escaped over the frontier. A portion of the True Cross is among the loot. The culprits succeeded by making themselves familiar with the cathedral routine and obtaining keys to open the treasure chests. Chalices, crosses and gems were taken by the thieves.

Denmark's Three Parts

There is a popular saying that Den mark is divided into three parts-butter, bacon and eggs. It has three million cattle, five million pigs and twenty two million hens, but only three and one half million Danes to take care of them all.

Nurses as Walkers

Several nurses in a certain hospital were interested in knowing just how far their duties carried them during the day. They used a pedometer. One nurse reported that she did ten miles in one day, while another claimed fifteen miles.

Uniform Weather Maps

Weather maps will look the same the world over and be universally understood, when the various countries put into use symbols adopted at an international meeting of meteorologists.

Placements

"Do you think woman's place is in the home? "Yes," said Miss Cayenne, "so long

as man holds his place on the doorstep to keep the bill collectors at bay."

Small Flat

Mother-And how do you like your little flat? Newly Married Daughter - Well,

there's no room for complaint, mother.

Plank Flooring

Plank flooring is made of wooden boards. A plank is a piece of wood more than 1½ inches and less than 4½ inches in thickness and at least 6 inches wide.

Prehistoric Temple on Island

Varnish

Once the most powerful city in Greece, Sparta probably now is the most beautiful. Few ruins of the ancient capital remain, but its location on the broad plain of the Eurotas, under the foothills of Mount Taygetus, still is supreme.

Original "Lone Welf"

Lone Wolf was a Kiewa chief who led a hostle faction of his tribe on the warpath in 1874. He was quickly defeated and, with a number of follogers, was deported to Florida, where he remained in military confinement for three years.

Blue Ivory's Source Blue lvory comes from the tusks of mammoths found imbedded in the soil of northern Siberia. The bue color is due to the metallic salts which have penetrated them in the course of centuries.

Incorporated Towns

The term incorporated town refers to that small number of communities which are governed by special charter granted before 1870. There are a few of these towns still in existence. They usually have a form of government similar to that of villages.

CLUB MEETING

The Mentone Literary Club entertained the Sidney Reading Club at the home of Mrs. T. J. Clutter Friday afternoon, March 27.

The program consisted of songs by Frances Clark and very fine papers were read; first "Recent Progress in Aviation" by Mrs. Charles Dickey second "Religions of the Orient" by Mrs. Floyd Stenens, and third "Biography of Gen. Ben Wallace" by Mrs. Granville Deaton.

Those present in addition to those mentioned on the program were: Mrs. C. B. McConnel, Mrs. Frank Summe, Mrs. James Palmer, Mrs. Calvin Cutler, Mrs. Hershal Hunter, Mrs. J. E. Scott, all of Sidney. Those belonging to the Mentone Literary Club were Mary Boggs, Dora Taylor, Fern Carter, Fay Bunner, Elanore Manwaring, Lucille Graffis, Lois Fenstermaker, Ottie Walburn, Alice Weisert. Orpha Blue, Bessie DeWitt, Viola Snyder, Pearl Lackey, Zadie Kesler and the hostess Emma Cluter.

New Furniture and Rugs at the I. F. Snyder Furniture Store, Mentone, Indiana.

Weiner Roast

The Co-workers Class of the Palestine Christian church enjoyed a weiner roast Wedneyday (hg) t. Mer. 25th. By 7:30 over a score of young people had gathered at Shirey's landing on Palestine Lake and soon had a fire blazing in the stone fireplace. Everyone was in fine spirits for it was an ideal night for a weiner roast not too hot, ngt too cold; and there was just a hint of spring in the air.

After two or three exhaustive games which developed several enormous appetites those weiners certainly tasted good. After exhausting the food supply the remainder of the evening was spent in games, contests and listening to the radio.

Those present were: Mr. and Mrs. Carl Mahoney, and family: Owen Horn, Junior Smythe, Grace Baugher, Geneyia Horn, Margurite Huffer, Carrol Eiler, Miles Morrison, Fernitush, Irene Loehr, George Houck, Gail Morrison, Paul Carter, Henrettz Castle, Gereldine Loehr, Richard Morrison, Jessie Rush, Max Hire and Eldon Horn.

Fish Known as Garibaldi

The Garibaldi (Hypsypops rubleunda) is a fish most frequently seen through the famous glass bottomed boats at Catalina Island. Nearly a foot long, the fish, when full grown, is a pure bright scariet. It is most abundant in the coral reefs of the ironles.

Fast Mail Service

In a check-up recently made by postmasters Gast of Akron and Rickel of Mentone, it developed that mail post marked 9, a. m. at Akron reached Mentone at 11:40 a. m., onlytwo hours and forty minutes later.

It is explained that there is aStar Mail Route from Akron via Rochester to Plymouth which makes connection at Argos with the Nickel Plate. Hence the fast service. If this continues it might be that Uncle Sam would be competing with the telephone companies in some parts of the country.

Chevrolet Dealer After Business

We are always glad to see our local business men out after business. One example of this is that Dale Wallace of the local Motor Inn Garage and Chevrolet Sales Service.

Recently Dale opened up a show room in the library building which adjoins the garage. The past week a beautiful Neon sign advertising Chevrolets was placed on display in front of the garage. And Dale is really selling cars, too.

The General Motors 'Corporation has placed a yearly advertising contract with the News and we are glad to do our little bit in carrying the messages to the public.

Nickel Plate Road **Repairing Cut**

Ŷ

Dynamite cut which is located near the Lattimer farms between Mentone and Burket is receiving reconditioning treatment this spring. The NKP recently brought into the siding in Mentone a large surfacer and ditcher to be used in the work. From Chicago to Ft. Wayne the Nick el Plate is chiefly a freight road. From the greater number of trains passing through town it is evident that business with them is better.

D. A. R. Meeting

The Anthony Nigo Chapter of the D. A. R. met at the home of Mrs. Ethel Nellans on Tuesday evening, March 24th.

Responses to roll call were American Architecture. The life of Andrew Jackson was reviewed in a very interesting manner by Mrs. Mary Boggs.

Mrs. Helen Brown prepared a paed by the hostess.

Poultry medicine at the Co-Op.mill.

ATTENTION **Hog Raisers!**

You have been looking for an easier method of expelling worms from hogs, one that is not so expensive and without starving. Now we have it. It is called "ACORN HOG WORMER." This wormer is used in feed or swill. and acts easily, gently, and does not in any way injure the hog or decrease its food consumption. It is different from other methods, such as using a capsule filled with poison, or the uncertain drench method.

ACORN HOG WORMER does the work thoroughly, is much easiar to give, and is preferred by thousands of hog raisers.

Add one tablespoon of Acorn Hog Wormer for each 125 pounds of body weight in feed or swill, repeating on the second day. It is advisable to use Acorn Hog Wormer periodigally to prevent recurrence. The cost of worming by this method is very small. Fifty cents will worm about 1000 pounds and \$1.00 will worm about 2500 pounds. FOR SALE BY

A Delicate Subject

There are times when silence is golden. Perhaps this is one of the times. But we are led to observe a little because of an incident which happened last week.

Someone gave a "hot tip" to a reporter for one of the county newspapers concerning an alleged injustice to two of our local teachers. The article was "hot" and created a lot of local sentiment. The matter was taken up a day later by the othounty new proor an attempt made to smooth down the ruffled feathers. It is not the purpose of

 the News to take sides in the question. Aside from the news value of the story it is nobody's business what any corporation or division of a commonwealth does concerning its employees.

Much damage has been done as a result of the publication of the incident. Neither the teachers nor the trustee are helped any by the discussion publicly of business which is private in nature. Under the alledged conditions it appears that no

amount of petitioning by interested groups can change the situation. A local sorority is put under a cloud so to speak. If the sorority to clear its name tells the story as it knows

- it, it will violate the rules of secrecy which make it valuable as a sorority. In other words it would appear that the usefulness of the sorority as far
 as the local chapter is concerned is
- greatly impaired. This is extremely to be regretted inasmuch as the sor-
- ority as a whole is high and moble in purpose, but through someone's hot tip it is revealed that the local chapter has had a fight within its membership and the high idealism of
- the sorority has been greatly sacrificed. One thing which we notice is ap-

parently overlooked is the fact that the trustee of a township has a right

to employ whomever he pleases as long as they are available applicants for the job of teaching. It follows that he has a right to dismiss teachers at the end of any term without cause if he so desires, if tenure has not been attained.

The county paper takes it for granted that because of a local fight in a sorority to which the wife of the local trustee belongs the trustee has released two of the teachers

taking part in the sorority fight. In the way of general comment, teaching is an art as well as a profession. There used to be a code of ethics in the teaching profession.

When faced with the greatest test of His life the Greatest Teacher said: "If it be possible let this cup pass from me, but nevertheless not my will but Thine be done". And finally as the end came, "Father, forgive them for they know not what they do". Humility the first requisite of the Great Teacher. Charity or love, the foundation of our religion, the foundation of our schools, the foundation of our sororities,---blasted and instead, stuife and dissention.

It is too bad that the incident came up for public attention. Inasmuch as there are many angles to the case true facts will never be known by the general public. The best thing to do is just forget it, and hope that such conditions do not exist again. Teaching has an idealism which does not permit of the common, blatant type of publicity recently given it through the press. In an effort apparently to put over a political jibe the county paper did incalculable damage to our local school system. This we regret.

BRIDGE CLUB

Isabel Johns entertained the bridge club at her home last Thursday, April 9. Four tables of bridge progressed with Ottie Walburn winning first prize and Fern Carter, second. Those present were: Nellie Reed, Hazel Lynn, Fay Bunner, Turl Nelson, Edna Burns, Lois Fenstermaker, Ottie Walburn, Ruby Smith, Mildred Preisch, Goldie Warner, Elanore Manwaring, Vere Songer, Helen Greu lach, Emma Clutter, Fern Carter and the hostess Isabed Johns.

Invented the Camera

It is believed that the camera was invented by Giovanni Battista della Porta in the Sixteenth century, though the principle was actually known before.

The county paper takes it for ranted that because of a local fight a sorority to which the wife of For More Business

Looking forward to increasing business the NICA has recently purchased a new Jeager Cement Mixer as a companion to the one already owned by 'he association, to take care of the increasing business in the building department.

Last fall a new Ford V-8 truck was purchased, but business is increasing so rapidly that it was deemed advisable to buy another truck. Upon due consideration the Board decided to purchase a new Chevrolet Truck from Dale Wallace, local dealer and incidentally a heavy advertiser in the News.

Business is good with the NICA even running ahead of the same time last year.

Rebekahs Entertain

On the last meeting nightin March the Evening Star Rebekah Lodge entertained the Rebekahs and their families. Refreshments were served and a very pleasant evening was enjoyed by all present.

YARD CLEANING TIME HERE

With the approach of spring weath er comes the problem of what to do with the ashes, cans and rubbish which accumulated during the past winter. Nothing presents a nicer appearance than will kept yards. But in this locality we have always had the problem of having a handy place to dispose of ashes and tin cans. The founders of our town neglected to pick a location among lakes and swamps but rather picked out a site on good fa ming land.

Perhaps somewhere within reasonable distance of Mentone there is a location which might be leased or bought for a reasonable sum, in which the citizens of Mentone might well invest

It appears to us that it would be a project well worth the attention of our local civic organization. At any rate, anyone having suitable ground

for this project will confer a favor by getting in touch with the News. Just mail your suggestion or communication to the Co-Op. News in Mentone.

New Co-Operative To Be Formed

O. B. Deaton Addresses Meeting

The following article clipped from the Bourbon paper will be of interest to our readers:

"A committee of farmers met last Monday night to formulate plans for calling together a number of other farmers on the following Tuesday night to consider the creation of a co-operative buying and selling organization for this place to be conducted along the lines of the co-operative organization of Mentone, which has proven a satisfactory venture for the stockholders, some of whom are from this section. The organization was addressed by Orrin Deaton who formed the Mentone organization. J. O. Johnson, of Millwood, is one of the prime movers in the proposed formation and says that farmers are very much interested in the matter. Perhaps by the next issue of this paper we shall be able to tell you more facts in the matter".

Death of Mrs. Mary B. Jones

Death took Mary B. Jones of two miles south-west of Burket, Tuesday afternoon after an illness of thirteen years. For the past five weeks nephritis and anemia had rendered her condition hopeless.

For perhaps thirty years she had resided with her husband on a farm near Burket.

Surviving relatives are: the husband, Mr. Clem Jones; two children, Ivan Jones of Burket and Mrs. Goldie Ring of near Claypool; one brother, Alexander Cook of near Akron. Funeral services were held Thursday afternoon at the Burket U. B. church. Burial was at the Palestine cemetery.

The Mohammedan Calendar The Mohammedan calendar dates from July 16, 622 A. D., the day of the Hegira.

Sugar Most Valuable Of all the foods known to man. sugar is one of the least expensive and the greatest source of energy. It yields 1.820 calories of energy per pound, Statistics reveal that the people of the United States consume over one hundred pounds of the staple a year. This valuable food is more ensily digested than almost any other food, the simple process which transforms the raw sugar as eaten into human energy being completed within periods ranging from ten to thirty minutes after being swallowed.

Morocco Leather Goods

Much of the morocco leather goods on European markets comes from Kano, a city in northern Nigeria. British West Africa.

The mill buys wheat, oats, corn. Poultry medicine at the Co-Op.mill.

Seed Corn Situation Bad

The seed corn situation is becoming alarming. Farmers find that prac tically none of last year's crop will grow. Ears that look fine will not germinate.

It is high time that farmers make It is high time that farmers make a rigid test of their seed corn. It would be well to test every ear and not less than five grains from different parts of the ear, and then retest just before planting.

Farmers who depend on the "I think it will grow" plan this year will find themselves sadly out of luck. It takes only a small percentage of bad grains to create a great shortage in the harvested crop. Farmers can spend their time to no better advantage now than being sure of their seed corn.

If poor seed creates a short crop of corn which is high in price, then any farmer knows or ought to know what that will mean with an increased supply of hogs. Test your seed corn by all means.

Illiterates in America

Number Over Four Million Elliteracy is commonly understood to mean the inability of adults to read, write or both. In some countries the basis of the calculation is the number of men and women married who cannot sign the register; in others the ability of army recruits to read; there is therefore no trustworthy method of making comparisons between different countries on this question.

In the United States, a person is technically called illiterate by the census bureau if over ten years of age and unable to read and write.

Recent figures for the United States are those of the 1930 census. At that time the total number of illiterates in a population of 98,723,047 (ten years of age or over) was 4,283,753.

Of the total, the native white illiterates numbered 1,103,134, foreign born, 1,304,084, and negroes, 1,513,892.

Old Shoes Worth \$50

A leading department store was asked by an old client-a woman-to credit a pair of shoes, unused and in the same box they were originally delivered to her. The shoes were found to be a pair of high ones bought twenty years ago for \$25. The store gladly credited the pair of unused shoes, as they had a museum value. As such they are worth \$50 today.-Wall Street Journal.

Leap Year Law in 1228

An act, passed in 1228, by the Scottish parliament, was to the effect that in every Leap year any maiden could propose to the man of her choice; and, further, that the man so honored was bound, under threat of a fine, to accept. Only if he could definitely prove himself to be already "bespeken" could he escape either a fine or his fate.

NO FOOLIN'! Uncle Sam KNOWS why Tydol is different

You can't fool your Uncle Sam. He found out that Tydol Gasoline also contained a special lubricant and carbon-solvent. So Uncle Sam

taxes Tydol twice ... once as a gasoline and once for the lubricant it contains. But you pay nothing extra for Tydol, the lubricating gasoline that cleans up and speeds up your motor's valves . . . gives you

Assistant Manager Purdue Chick Show

Ernest W. Anderson, son of Mr. and Mrs. Ora C. Anderson of Anderson Farm near Rochester, has been honored at Purdue University by being elected to assistant manager of the 1936 Purdue Egg and Baby Chick Show to be held at the University

- May 6, 7, and 8. Mr. Anderson will be remembered by his community acquaintances as having taught in the Talma High School from 1927 to 1930. Also he was actively engaged in the
- 4H Club for five years, two years in the Fig Club and three years in the Calf Club.

Today Mr. Anderson is a Junior at Purdue University. He is specializing in Poultry Husbandry. On the

campus "Ernie" is well known and well liked. His many and varied ac-

tivities and interests run something as follows: he is a member of the Acacia fraternity, the Purdue Pistol Team, the Agricultural Society, and the Cosmopolitan Club; he is the Poultry Editor of the Purdue Agriculturist; he is a Playshop assistant; and he is an advanced Military student. In scholarship, Ernest is rated as a distinguished student, the aim and desire of those who go to college for knowledge. And now he has been given the second highest office in the Purdue Egg and Baby Chick Show.

As formerly, this annual show will be held during the annual 4H Club Roundup, May 6, 7, and 8, at Purdue University. Entries in this show are free and are open to anyone. For information about the Purdue Egg and Baby Chick Show, write to L. O. Buxton, Purdue University, Poultry Building, Lafayette, for a 1936 catagogue of the show.

Estremadura Historic

Estremadura, an inland province of Spain, produced many of the men who became famous for conquest and exploration in the West Indies, Mexico and South America, says the Washington Post. Among them were Francisco Pizarro, who conquered Peru; Pedro de Valdivia, who gave Chile to the Spanish crown; Hernando Cortez, who subdued Mexico; Vasco Nunez de Balboa, who discovered the Pacific ocean: Sebastian de Benalcazar, who won Colombia and Ecuador; Hernando de Soto, who discovered the Mississippi, and Diego de Almago, the partner of Pizarro in plundering the Incas.

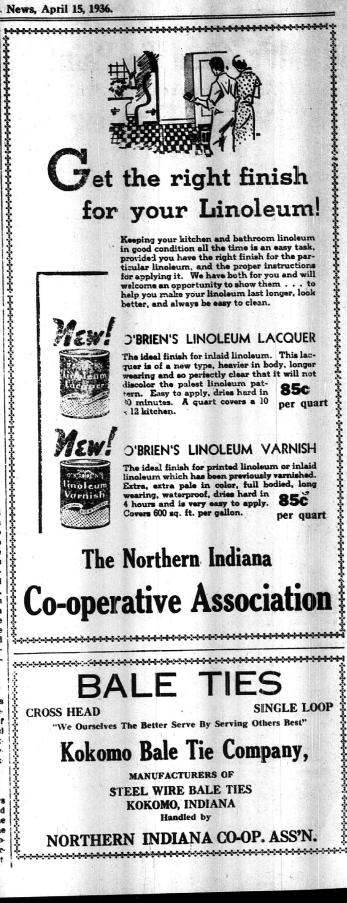

Old Chisholm Trail

The old Chisholm trail was named after a half-breed Cherokee Indiau by the name of Jesse Chisholm, who first used the trail in the 1860s to transport supplies for trading with the Indians. It came into prominence as a cattle trail when Joseph McCoy established a cattle market on the old Kansas Pacific railroad at Abilene, Kan., in 1867. Hundreds of thousands of head of cattle were driven north over this trail. Strictly speaking, the real Chisholm trail extended from the southern line of Oklahoma, at the Red River crossing, up through Indian territory, and entereed Kansas near Caldwell, Kan.

Animals have Stomach Stones "Stones," comparable to gallstones in a human being, are found quite frequently lodged in the stomachs of horses and cows. They are formed through an accumulation of indigestible material and sometimes reach several pounds in weight.—Collier's Weekly.

Vegetable Dyes Disappear

The Forest Products Laboratory says that in earlier times stain extracted from walnut hulls was used to some extent as a dye material. With the coming of mineral dyes, however, domestic dyes of vegetable origin practically disappeared from the market

SOCIETY ENTERTAINS

The Woman's Missionary Society of the Palestine Christian church entertainde the Palestine Methodist Ladies Aid at a tea given in the church, Thursday afternoon, April 9. The following songs were sung by

the congregation: "I'll Go Where You Want Me To Go," and "Blest Be The Tie That Binds," after which Mrs. J. S. Brackbill, state secretary, from Kendallville, Indiana, gave an isteresting as well as impressive talk on missions.

After the devotional service was closed, all gathered in the basement where sandwiches, muffins, and tea were served. The room was decorated throughout with orchid and white, and bouquets of spring flowers and small Easter basket favors ornamented the table.

Those who enjoyed the afternoon were: Josie Smythe, Hattie Clark, Amanda Huffer, Edna Mahoney,i Maudie Clark, Mary Huffer, Marguerite Huffer, Arvilla Fisher, Ethel Rush, Nora Huffer, Mrs. J. S. Breckbill, Jennie Andrick, Mrs. A. Altenburg, Blanche East, Miss Florence L. Boszor, Carrie Wiltrout, Ada Brown, Catherine Vandtrmark, Ssta Vandermark, Edna Jones, Belle Morrison, Clara Vorhis, Buthene Smythe and son Don, Nettie Bowser, Manta Bear, Dora Creviston, Ella Stickler, Agnes Surguy, Elizabeth Longacre, Naomi See and children, Lucille Fisher and daughter Valaria, Jennie Sloan and son Oliver, Frances Plew and son Robert, Elva Rush and Alice Dunnick.

Reducing Gold Chloride

When a solution of gold chloride is reduced to gold under carefully controlled conditions the metal is formed in particles whose diameter is of the order of a millionth of an inch. Such particles, writes Dr. Thomas M. Beck, in the Chicago Tribune, are entirely too small to settle out of solution within any measurable time interval. Moreover, they possess electrical charges, quite small ones, but sufficient to prevent them from sticking together and forming larger particles.

Strange Burial Custom The Toradjas, a primitive race of Celebes, have strange burial customs. The body remains in the house for two years, until the death rites have been completed, and then it is placed in a tomb, cut in the side of a moun-tain, the entrance of which is forever guarded by a lifelike effigy. Inci-dentally, the Toradjas are the only people whose holy men are known to dress in women's clothes.-Collier's Weekly.

Henrietta Cloth

Henrietta cloth is a lightweight wool dress fabric similar to cashmere, but more lustrous in finish. Originally it was made with silk warp.

Special Egg Show Edition--See Pages 2-3

Great Oaks From Little Acorns Grow

Time flies as we grow older, but it was only a short time ago, perhaps less than twenty-five years when a merchant in a general store sold out to his partner in business and went for a vacation.

He had a brother in Colorado and while visiting him this ex-merchant became enthused with the idea that eggs could be grown on a commer-

cial scale. And so returning to his home town he started in the poultry business. Well do we remember when he had some young chickens shipped in in coops, and the chickens because of the rainy weather got wet. What a bedraggled bunch they

were. As we remember it now, many of them died. But after a few years of hardship White City Egg Farm got under way.

We can see them yet, the people on Sunday afternoon walking out the railroad to White City, where A. C. Manwaring, the father of the egg producing business in this community always welcomed and showed them around. Long before the business was a success, C. L. Manwaring joined with his father in the business and when the father passed on the son went ahead to carry on the

husiness. And not many miles away a young school teacher had been trying to make a success of the purebred hog business. It appears that back at the time when hogs were 20 to 22 cents a pound and then dropped to a lower price, the hog business was

not so hot. And so this young teach er together with his brother cleaned out the 100 foot hog house and bought 3000 baby chicks. To the average man this in itself spelled doom,

for 3000 baby chicks in one building was an unheard of thing at that time. And so it was that the partnership of Creighton Brothers was formed, with Russell Creighton in charge of production and Hobart

Creighton in charge of sales, etc. And a few miles away about this time or a little earlier, a young man employed in the Chicago Weather Bureau felt that the poultry industry was a good thing and so the Hoosier Leghorn Farm under the management of F. L. Kesler was formed.

Twin Pines Farm, owned by H. V. Nellans, and the Beeson Poultry Farm as well as many others grew into existence about this time.

But with all these poultry farms forming it was necessary to dispose of the eggs. Each producer did what he could, most of them shipping by railway express to New York at about \$1.50 per case. But after a while the idea was evolved that by putting all the eggs together it might be cheaper. And so a representative of the railroad was called in and made arrangements for a much cheaper rate provided a full car could be shipped. But a full car of

eggs at that time was surely a stumper. Somehow it was done, however, and at a saving of about \$1.00 per case.

It was then discovered that if eggs were to be shipped by the car load it would require many cases. And so for a time White City supplied a great many of the cases as well as some of the feed.

Finding the co-operative shipping of eggs was successful, it was suggested that co-operative buying of feeds would be beneficial. And as a result the Northern Indiana Co-Operative Association was formed. To many people it was a wild idea and it was freely suggested that-never would a wheel be turned. However, with about \$3500 paid in the wheels did turn and today it is an organization worth perhaps \$50,000 try. and doing last year \$250,000 worth of business.

Things that then seemed impossible, today are a reality. The dreams and the visions of the old and the young have come true, not without hardships. But perseverance and dogged determination have made it will really be worth your while.

Mentone a place on the map.

The Mentone locality puts Kosciusko county in the lead in the state of Indiana in egg production. The territory served by the Egg Shippers and by the NICA is now recognized as one of if not the largest egg producing sections of the Middle West.

And now an Egg Show, the largest of its kind in the United States is being planned for April 29 and 30. Speakers of national importance are to attend. Three hundred and fifty dollars in prizes is to be given away. Everyone interested in the success of the poul ry business and the welfare of his community should attend.

Take your friend and neighbor and attend and witness another step in putting Mentone on the map as far climbed one round more in the ladas the rest of the nation is concern- der of education. ed.

The Egg Show To Be Big Affair

With the announcement of the program and premium list of the Mentone Egg Show it is evident that this is to be a big event. It is seldom that such prizes as \$10 for 1st in almose all classes prevails. Such a prize is worth working for. And in the Grade School Class, with a \$35.00 bicycle for first prize and a \$25.00 wrist watch for second prize, every farmer boy or girl of the grades included could well afford to make an entry. Besides every entry will receive some token for the en-

If the egg producers will make the entries this will be truly a great show. Speakers of national reputation have been obtained. The WLS show in the afternoon and night is well worth attending. So plan to spend your time at these sessions for

Local School Closes

This week marks the end of another school year for the local school. Graduation exercises were held Thursday evening at the Baptist church with Supt. Harry E. Lewallen delivering the address.

It is natural for people to look at the finished product rather than the product in the making, and often times we lose sight of the youngsters who do not graduate but simp-Their ly advance another grade. struggle and hardships have perhaps been as great or greater than those of the graduating class. Our wish is that their work shall not have been in vain and that they all have

Twenty-five young men and women have advanced in our educational system to the point where they are to commence life in the world for themselves. What to do is the problem with many. And as the days and months go by the realization will come that high school is a preparation in how to live and a background for a further education in the school of life. The great education will come from now on out.

So the News at this time wishes to extend congratulations to this fine body of young men and women. And our sincere hope is that in time to come their conduct and accomplishments will be a source of pride to the school and the ones who have in most cases sacrificed that this educaion might be possible.

At this time we are unable to say as to the personnel of the faculty The for the coming school year. best information we have is that there will be three or four changes. And so books and pencils are laid away until another September day.

TO CHICAGO ON BUSINESS

Forest Kesler and J. Preisch were in Chicago Wednesday in the interest of the Northern Indiana Co-Op. Association.

Northern Indiana Co-Op. News, April 24, 1936.
