Two Minute Sermon

By
Thomas Hastwell

WHAT OTHER SECURITY HAVE I? In Matthew is found the injunction "Lay up not for yourselves treasures upon earth—but lay up for yourselves treasures in heaven—for where your treasure is there will your heart be also."

Time and again in the history of the individual life and in the history of mankind events have happened that have proved the wisdom of Christ's teachings and his commands. The truth of the above injunction, was, I think, demonstrated to many who have placed their trust in material things and worldly possessions. When the depression cruelly swept away from them, they were left bewildered and helpless, not knowing what to do, confidence shaken, and faith all but gone. It should serve as a warning and a reminder to us all, who, by some fortunate quirk of fate, escaped this fate of many. We should remember that while this misfortune passed our door this time it might not another time. This being true it behoves every one to ask himself in all sincerity the question: Where am I laying up my treasure? Is it on earth where moth and rust corrupt, and where depressions and reverses may sweep it away, or do I have also another treasure to which I can turn in faith if these things should be taken away.

HOROSCOPE

APRIL 2, 3, 4—You would make a good editor, accountant or critic. You have a leaning toward the mysterious. You are impulsive and aspire to better things. You are a good thinker and a splendid reasoner. Kindness, sympathy and loyalty make you a valued friend. You like intellectual, good society but are irked by meaningless patter.

APRIL 5, 6—You are self-willed and obstinate in the extreme. You are convinced you can never be wrong and have supreme faith in your own judgment. You have splendid intuitive ability and your undertakings usually turn out O. K. You are a splendid worker and alert and will not permit a shirker to work under you. You have a very fiery disposition and will fight to any extreme to gain what you term your own rights.

APRIL 7, 8—You have a forward look and are ever alert for opportunities to better yourself and those about you. You are strong willed with a fine intellect and good mechanical ability. You are civic minded in contrast to a love of home. People trust you and come to you for advice.

World's Archery Record

The National Archery association says: "In August, 1939, Ken Wilhelm of Yermo, Calif., shot an arrow 579.7 yards, the shooting being done in what is known as regular style—that is, by holding the bow in one hand and drawing the string with the other hand. On the same day, Mr. Wilhelm shot an arrow 856 yards, using the 'free style' method. In shooting the free style method, Mr. Wilhelm lay on his back with the bow strapped to his feet and drew the string with both hands. Both distances were measured by a surveyor. They are the longest flight shots of which we have any authentic record."

Stack Those Dishes

Dr. D. E. Bearman, addressing the American Pressive Chiropractic association at Los Angeles, Calif., bluntly told housewives how to do their work, if they want to avoid ills that result purely from the nature of their work and their wrong way of doing it. His panacea was "rest more, eat five small meals a day instead of three big ones, pile up your dishes for the entire day and then do them at one dish-washing session."

CHICKEN DEATHS CAN BE TRACED

Immediate Post Mortem Will Aid in Finding Disease.

By DR. F. R. BEAUDETTE

Immediate post mortem examination of all chickens and other birds that die is the only means of knowing the causes of death. Records at the New Jersey agricultural experiment station indicate that over a period of years one can learn to expect certain diseases to occur at certain seasons of the year, but occasionally a new disease appears.

In general, however, pullorum disease and bronchitis come in the spring and are followed by coccidiosis and parasite problems. In the fall paralysis, pox and the respiratory infections appear. In mid-winter the mortality goes down and the diseases are of a miscellaneous character.

Birds are subjected to diseases caused by viruses, bacteria, fungi, protozoa, nutritional deficiencies and various external and internal parasites. These diseases are as numerous and as complicated as are the diseases of other species of animal or man, and, for this reason, their solution is equally as difficult. In fact, there exists in chickens or birds a disease to parallel almost any disease in any other animal. Thus, chickens have malaria, tuberculosis, typhoid, tumors and pox, all of which are adapted to the bird. At the same time, they have a few diseases actually acquired from other animals such as swine erysipelas and tularemia.

However, chickens are the least source of infection for other animals or for man among all of the food-producing animals. Moreover, an egg from a healthy hen is bacteria-free which makes it the only food of animal origin of that nature.

Expert Advises Culling

All 'Counterfeit' Cows

If all the "counterfeit" cows, or animals which do not live up to high standards of efficiency, were sent to the butcher, a surprising improvement in dairy farm income would be noted, says E. J. Perry, extension dairyman at the New Jersey College of Agriculture, Rutgers university. Not only would there be no surplus milk, but there also would be more land to devote to more profitable farm commodities.

"The part that efficient cows play in building dairy farm security cannot be overemphasized," Mr. Perry

points out. "It is well known that 10 good cows will yield more profit than 20 average cows, and the 10 will place less milk on the market. For instance, 10 cows averaging 8,000 pounds of milk will produce 80,000 pounds of milk in a year, while 20 cows averaging 5,000 pounds each, will have a total yield of 100,000 pounds. The feed cost for the two kinds of cows will not be very different.

"When several cows of average rating or below are mingling with efficient cows in a herd, the tendency is to keep more cows in order to obtain the income needed. The poor cows eat up some if not all of the profit which the good cows may have made.

Separator Losses

How many dollars' worth of butterfat are you losing each year in the skimmilk from your separator? A sample taken to your local creamery or cream station can be tested. The cow tester is glad to render this service also. If operating efficiently, the average farm separator should not leave over 0.05 per cent butterfat in the skimmilk. Better let your dealer do your separator adjusting. Some chaps professing to fix any bowl may leave your machine in such shape that as much as one-tenth of your butterfat will be lost.

Caring for Colt

A little attention given to the feet of colts and young horses may make a difference in the value of the horse when ready to work. When colts' feet are allowed to become uneven and crooked, it is almost sure to affect the feet and legs permanently. Keeping the feet trimmed and shaped up properly allows normal development of the legs and prevents defects in the feet and legs. Poorly shaped feet and crooked legs that have resulted from neglect can be corrected in some measure by proper trimming of the feet.

'Battle of Barbary'

Wages in Mid-West

No one ever knows, when a species of plant or animal is introduced from one region to another, what the result will be.

Now, in the middle western and north central states, war is being waged on a plant, introduced from New England by the earlier settlers. The barberry bush is ornamental, its seeds attract birds, and only in recent years has it been discovered that fungus causes stem rot of wheat, oats and barley.

One-Man Pest Scourge

Fifteen-year-old Fred McIntire, Smithfield, W. Va., high school sophomore, has been awarded the conservation commission's prize as the best vermin killer in West Virginia. The one-man scourge on pests won a year's scholarship to a business college for bagging 1,785 snakes, 10 cats, 61 rats, 18 crows, a weasel and a turtle.

Garden Week In Virginia

Historic Fredericksburg, home town of the Washingtons, on Route No. 1 between Washington and Richmond, invites you to come to Virginia during Garden Week, April 22 through 27. The Garden Club of Virginia is sponsoring a tour of more than 100 homes and gardens for the benefit of the garden at Kenmore, Fredericksburg, Va., home of the patriot Col. Fielding Lewis and his wife Betty, only sister of George Washington. For this reason old Fredericksburg will relive its colonial life. This is the land which the D. A. R. helped to secure by contributions and sale of Mary Washington's Gingerbread Mix.

Plantation life will be relived, depicting colonial hospitality. You will be greeted by descendants of the house, served tea and gingerbread by costumed ladies while colored spirituals entertain you.

In the simple home of Mary, the mother of Washington, she, in her legendary purple cloak will receive Lafayette in the boxwood garden.

The old market square will come to life again with an exuberance of color and activity. 18th Century booths of flowers, fruit and Virginia crafts will be sold by costumed market women. Colored people pushing carts and calling their wares—old wagon loads of vegetables and stalls of blossoming plants will be interspersed with crated chickens, ducks and fat little pigs.

In the store windows the Daughters of American Revolution will display a collection of famous papers and documents.

In the evenings there will be various forms of entertainment—a Colonial Reception at Kenmore, a typical religious drama by the colored people, as well as a Colonial Ball.

Potatoes' Record Price

The wholesale price per bushel of potatoes in 1919 rose to \$2.84. This is the highest price on record.

Cellar Stairs Safety Hint

Cellar stairs deserve more consideration than they have been receiving. Despite the fact that cellar stairs bear more heavy loads than other stairs in the house, they are frequently constructed in a careless manner. While cellar stairs need not be finished as well as the main stairs, they should be given as much consideration as far as safety and use are concerned. A railing and adequate head room are the two main factors to remember.

Unexpected Indian Income

Navajo Indians are getting income from an unexpected source. A deposit of clay on their reservation, valuable in petroleum refining, is being mined under a royalty agreement.

BIT O'NEWS

Several years ago an employee of the Pittsburg-Corning Glass Company was reprimanded when caught smuggling home a hollow glass brick manufactured by the company, in which he had cut a slot that he might use it for a coin bank. The company caught the idea and last year sold over 2,000,000 of these glass brick banks.

The use of snake venom to relieve pain is increasing. It is injected into the blood stream in a very dilute form. Some of the disorders in which snake venom has been used with satisfactory results are neuralgia, neuritis and arthritis. The poison is secured from snakes raised for this purpose on snake farms.

Milk for Children

Mothers should remember that milk is one of the best protective foods for the children. A quart a day usually is not too much for a child, or an adult, though the latter may prefer just a pint a day. Most children like to drink milk, but if they do not, it may be supplied in the form of custards, or with chocolate added for a chocolate-milk drink.

Employment in Oregon

Statistics of the Oregon state employment service challenged the assumption that a man over 45 can not get a job. Its age extremes for placements last year were from six to seventy years. The six-year-old "supered" in a street scene in the filming of "Abe Lincoln of Illinois."

Yellow Oil Stations

A large oil company painted yellow its filling stations in China. The error was corrected when it was learned that, in China, yellow is the color of mourning.

DOUBLE TROUBLE

A pair of slightly muddled men found the temperature one evening much too frigid despite their warm interiors. Veering up to a hotel desk, one of them said to the clerk: "Shay, we wansh a bed with two rooms in it."

Said the harassed clerk: "I'm a busy man. I can't be annoyed. What you want is a room with two beds in it."

This apparently met with the approval of the guests, for ten minutes later they were still fully dressed and horizontally reclined in one of the two single beds.

"Psst, Bill, there's somebody in my bed."

"Is there? There's somebody in mine, too."

Silence.

"Psst, Bill, let's kick 'em out of our room."

"Okay."

Loud noises.

"Hey, Bill, I kicked mine out."

"Did you? That blighter kicked me out."

"Okay, pal, you come and sleep with me."

First Book Published in U. S.

The first full-sized book published within the boundaries of what are today the United States was Stephen Daye's "The Whole Booke of Psalmes Faithfully Translated into English Metre," issued in 1740 by the Cambridge Press, Cambridge, Mass.

Excluded Evidence

In a case in which a man was accused of forgery, the counsel for the defense drew from a witness the following statement:

"I know that the prisoner cannot write his own name."

"All that is excluded," said the judge; "the prisoner is not charged with writing his own name, but that of some one else."

Ignorance Is Bliss

Mrs. Newlywed was feeling and looking very gloomy.

"What's the trouble, dear?" her friend inquired.

"Oh—my husband has been out all the evening and I haven't the faintest idea where he is."

"Oh, you shouldn't worry about that. You'd probably be twice as miserable if you did know!"

ANNIVERSARY MEETING OF READING CLUB

The Mentone Reading Club celebrated its sixth anniversary at the home of Mrs. F. R. Burns with Mrs. H. A. Weissert and Mrs. Cora Van Gilder assisting.

During the business session the following officers were nominated and elected to serve the club for the ensuing year: Mrs. E. G. Harrison, president; Mrs. Walter Bowers, first vice president; Mrs. Phillip Blue, second vice president; Mrs. Conda Walburn, secretary; and Mrs. Elmore Fenstermaker, treasurer.

After the election of officers, Mrs. Cora VanGilder extended greeting and welcome to members and guests and invited the past presidents to favor the club with memory talks. The first president, Mrs. Stanley Boggs, spoke of the ambitious efforts and aims of the club and its successful growth.

Mrs. Dora Taylor, the next president to serve, expressed her enjoyment of the club in the years past, and spoke most highly of the newly elected officers. Mrs. F. R. Burns, next president in line, called to memory that during her year of service the club entertained the County Federation of Clubs. In closing her remarks she said, "Life is not a goblet to be drained but a measure to be filled." Other presidents who had served could not be present.

Mrs. H. V. Johns delightfully entertained with a humorous reading entitled, "Johnny Takes An Auto Ride."

Mrs. Mary Bushong, a guest speaker was then introduced and in a capable manner gave a most interesting description of the native, economic, industrial and political life of the republic of Haiti and Santo Domingo. A song, "God Be With You Till We Meet Again" concluded the program.

The guests were then invited to the dining room which was beautiful with its arrangement of flowers and lighted gold candles. A large birthday cake artistically decorated in gold and white was served by the president of the club, Mrs. C. G. Carter and the club's first president, Mrs. Stanley Boggs served coffee. The guests served themselves ice cream, nuts and mints.

Twenty members and six guests were present to enjoy this delightful evening.

During the social hour articles of handiwork made by the blind, were placed on sale by Mrs. Walter Bowers.

The Ladies Aid of Beaver Dam met Thursday afternoon with their president, Mrs. Nellie Heighway.

Mrs. Esta Vandermark Entertains Palestine Pals

The Palestine Pals, a ladies organization of the Methodist Church, met Thursday, March 28, at the home of Mrs. Esta Vandermark for an all day meeting. A delicious pot luck dinner was served at noon. In the afternoon a business meeting, devotional period and auction was held. Three new members, Mrs. Reda Shanes, Mrs. Fannie Clark and Mrs. Marjorie Bradway were welcomed into the society.

Those present included Evelyn Shilling, Edna Jones, Carrie Wiltrout, Ada Brown, Blanche East, Glea East, Cora East, Rosa Hipsher, Reda Shanes, Fannie Clark, Marjorie Bradway, Hazel Uplinger, Eva Downing, Marie Baugher, Bonnie Secore, Irene Black, Louise Jones, Ruth Howard, Ruth Hipsher, Louise Summe and son, Elizabeth Mackey, Faye Stickler, Kate and Esta Vandermark.

The next meeting will be Thursday April 25, at the home of Evelyn Shilling.

DON'T NEGLECT FUNDAMENTALS IN YOUR NEW HOME

1 This is a corner of the foundation and footings. Your whole house rests upon it. It can never be replaced.

2 This is the same foundation with timber skeleton now in place. Again here is a part of your home that can never be replaced.

3 Here is a rough window opening from the inside. Notice how the framing members are doubled all around the opening. Dark shaded portions show insulation in place between the studding.

Glitter of Gadgets Often Distracts Builder From Quality Where It's Needed Most

Are you building a house for the first time? Then chances are you are in kind of a daze. There are so many things to decide, so many things to buy, so many more things you want and can't buy because there is just so much money. Now there's nothing less glamorous than the concrete footings and foundation. One doesn't show them off to one's friends, but if you skimp on either, you'll be busy for years to come trying to cover up cracked walls that all your friends will see.

Don't Skimp on Framework

Likewise the timber skeleton or frame of your house is going to be all covered up, but if you skimp on it you'll have sagging floors that squeak at every step.

And how about those great big holes in the wall, the rough window

openings. You can buy windows and window frames to fill these holes pretty cheap. And you'll pay for them for years to come in heat lost, drafty floors and wet walls. Or, you can buy carefully designed, precision built and factory fitted windows and window frames complete with weatherstripping that will be a joy and a comfort every year that you live in your house. Yes and you'll find that the extra cost was money well spent because of heat bills repair bills and redecorating bills saved.

Can't Replace Windows

Good windows are a permanent part of your walls. They protect your investment in insulation and quality construction. Any home without weathertight windows is only one-half insulated. So when you build, get down to fundamentals. Always remember—you can add the gadgets any time, but you can't replace footings or timbers or windows. They've got to be good right from the start.

Newfoundland's Discovery

The discovery of Newfoundland is generally credited to the Italian, Giovanni Caboto, who became known as John Cabot. He found it in 1497.

Two Dozen Children

The twenty-fourth child has been born to Arthur P. Morel of Berlin, N. H. It is a 12-pound son. He has 12 children by his first wife and 12 by his second—all but four living.

Housekeeping Hint

If you'll put two rubber-headed tacks into the wall, or on the bottom of the frame on the back of a picture when it is hung, dust will not collect and mark your wall or wallpaper.

U. S. Tree Planting Now Tops Billion

Reforestation Program Is Going Forward.

WASHINGTON.—The U. S. forest service carried forward the national reforestation program last year by planting 125,951,000 trees.

During the year the service planted 131,707 acres of burned over and cut over land in trees, an average of 950 trees per acre. The average cost was one and a quarter cents a tree.

During the past five years federal agencies under direction of the forest service have planted more than 1,000,000,000 trees in the reforestation of 807,093 acres in the national forests.

The forest service estimated that about 3,500,000 acres in the national forests still are in need of planting to bring the land into production for timber and to protect watersheds.

The three species most commonly planted last year were the longleaf pine, 28,598,000; jack pine, 22,975,000; and the Norway pine, 22,814,000. Others included the shortleaf pine, 8,419,000; slash pine, 7,833,000; northern white pine, 7,749,000; ponderosa pine, 7,237,000; and white spruce, 7,236,000.

Smaller quantities of Douglas fir, western white pine, Jeffrey pine, loblolly pine, cedar, Engelmann spruce, Sitka and blue spruce and hardwoods such as black locust, oaks, black cherry, yellow poplar, and cucumber magnolia were planted.

The largest planting in any one state was on the Huron, Manistee, Ottawa, Marquette and Hiawatha national forests of Michigan with 31,498 acres, or nearly one-quarter of the national total. Wisconsin was second with 16,633 acres and Mississippi third with 12,922 acres. In Pennsylvania, 1,036 acres were planted.

Mummies 7 Centuries Old Found in Indian Cave

TUCSON.—Three perfectly preserved mummies, complete with the feathered robes and trappings in which they were interred during the Thirteenth century, have been discovered in northern Arizona by University of Arizona scientists.

Headed by Dr. Emil Haury of the university staff, a party made the discovery in virtually unexplored regions of the northeastern section of the state while searching for evidence and remnants of the great Pueblo culture of 700 years ago.

The mummies were found in a holy shrine called the Painted Cave, apparently a place of worship for the Pueblo tribesmen.

The bodies—one of a woman and two of children—were wrapped in robes of turkey feathers and ornately colored blankets.

Despite the fact that the

mies were almost seven centuries old, Dr. Haury said some of the feathered robes "were almost perfectly preserved." One, he said, still was soft and silky to touch.

Salmon Fins Clipped to Check Their Wanderings

SEATTLE, WASH.—There will be a new chapter soon to the saga of the little fishes that swam and swam all over the dam.

But all their swimming will be done with clipped fins—because the Washington State Fisheries department has found it advisable to remove fins of many young salmon to obtain a complete and accurate check on the heralded wanderings of salmon.

Hatchery men who removed the fins used different combinations to determine where the fish were spawned and released. Sometimes they clipped the dorsal fin, sometimes the dorsal and adipose, and sometimes one or both of the ventrals.

London Girls Are Paying To Join Mayfair Corps

LONDON.—In Mayfair is the headquarters for the war's most extraordinary regiment. It consists of girls who have paid to join up, bought their own uniforms and supplied their own cars.

It calls itself the Women's Mechanized Transport corps and the only qualification for joining is money. Members are determined to be useful and will offer their services as drivers to French civil authorities.

Hobby Becomes Vocation

CLEVELAND, OHIO.—For 30 years, while working at his trade of carpenter, Michael Hylan followed his hobby of royal embroidery. Now his hobby makes him a living, while he can't find work as a carpenter.

Pocket Radio Built For Police on Beat

DETROIT.—The policeman who walks his beat in suburban Lincoln park soon will be radio-equipped.

A pound-and-a-half portable radio set has been developed by Patrolman Thomas Groat of the Lincoln park department, and his fellow officers who walk beats will carry the sets in their uniform pockets to receive orders from headquarters.

JESSIE RUSH, Editor and Mgr.

A reader of this paper, well known for his industrious habits, said yesterday: "There are plenty of places in the Bible where the sinner is assured that he will be forgiven, but there is no place in the Bible where God says he has any use for a lazy man."

The man who doesn't advertise likes to point to the time honored saying, "the world will beat a path to the doorway of the man who makes a better mousetrap." He overlooks the fact that before the world can do anything toward beating a path it has to know about the mousetrap, and also the name and address of its maker. It takes advertising to spread that news these days.

One person in six receives some sort of aid from the government. Ten years ago but one person in a hundred received aid.

We saw a local woman furious yesterday. She had just received a letter from her husband who had been absent from home about a week. When he left home the family dog was slightly ill from having eaten something that upset his stomach. The husband was concerned about the state of the dog's health when he left and devoted most of his letter to instructions as to how the ailing animal should be cared for. He closed his letter, "—be sure to write me and tell me how the pooch is, and by the way how are you?"

Hitler has given a new meaning to the word culture. It includes ruthlessness, disregard of the rights of others, lack of regard for humanity, complete lack of the truth, ethics, pledges, treaties and promises. Under it the desire of the dictator becomes the right of the dictator.

By the way—the French line of defense between Germany and France, known as the Maginot line, is named for Andre Maginot who built the defense while minister of war to France.

One of the local high school boys in defending the intelligence of high school students yesterday said: "Smart, of course we're smart, haven't you noticed that the teachers all have to go to summer school to keep up with us?"

The American Museum of Natural History uses small beetles brought from Africa to cleanse the skeletons of small animal. The perfect cleansing of these delicate skeletons, always a difficult job, is accomplished in a few hours by the Dermestes beetles who do a very thorough job.

In the day of our grandfathers a neutral was not troubled much because of his warring neighbors, but these times there is almost as many problems to being a neutral as there is to being a combatant.

"I am the forgotten man," we were told yesterday, "forgotten by everyone except the tax collector."

Nothing is more fickle than the crowd. The crowd yells itself hoarse when a big bruiser steps into the prize ring and lays out a dozen or more contenders for the title, but the moment another bruiser comes along and floors the popular idol the crowd one and all deserts him and gives its plaudits to the victor. The friends that the champion has are the most fickle friends in all the world unless it is the social climbers. Quick as a cheering crowd is to drop its hero, it isn't half as quick as is the social climber who drops the human step ladder she has been using to elevate herself the moment the unfortunate step ladder no longer is useful to her.

"He is so dumb," a high school girl told us recently while speaking of a local high school lad, "that he played hooky from school one Saturday."

**MRS. LINN HOSTESS TO
MENTONE D. A. R.**

Tuesday afternoon, March 26, the Anthony Nigo chapter D. A. R. of Mentone met at the home of Mrs. Hazel Linn, for their regular monthly meeting. Mrs. Yolanda Riner was assistant hostess.

Roll call was responded to with "My Favorite Heirloom" with interesting results.

Mrs. F. R. Burns gave a comprehensive report on the D. A. R. State Council meeting held at the Claypool Hotel, Indianapolis, Ind., on March 12.

Mrs. Hazel Linn gave a paper on Old Buttons. Her talk was embellished by specimens of different type buttons from her own collection. Mrs. Linn has made antique collecting a hobby for several years.

Lunch box refreshments were served by the hostesses to the members present.

Robert Steller To Fill Vacancy On Newspaper

Beginning next week, the Co-Op News will have a new editor and manager. Robert Steller of South Whitley, Ind., will fill the vacancy created by the resignation of Miss Jessie Rush, who has been on the newspaper for the past five years.

Mr. Steller is a graduate of South Whitley high school and has been employed by the Syracuse-Wawasee Journal and in several printing establishments in Indiana and Michigan. He is an experienced shop man, and comes to Mentone with splendid recommendations. Anything that you can do to help the new editor get acquainted with the fine people in our little city, will be of mutual benefit to you and the newspaper.

While "Bob", as he wishes you would call him, is getting acquainted, he will appreciate all items and announcements that are brought or called-in over the telephone.

Mr. Frank Flory Dies Saturday

Mrs. Frank Flory died at two a. m. Saturday morning, at her home one mile northeast of Tippecanoe. Death was due to a cerebral hemorrhage. Mrs. Flory became ill Monday night while attending a meeting of the Tippecanoe Progress Club held at the home of Mrs. Harvey Elliott.

She was born April 26, 1890, the daughter of Harry and Margaret Brosius and had spent her entire life in the Tippecanoe vicinity.

Surviving relatives include her husband, Frank; three sons, Frank Jr., Arnold, and Marion; two daughters, Mrs. Elsie Coleman of Mishawaka, and Mrs. Robert Cooper of Sidney; and a son and daughter, Leo and Edna, at home; six grandchildren; her father, Harry Brosius; and one step-sister, Mrs. Herman Lemler of Bourbon.

Funeral services were held at two o'clock Monday at the home near Tippecanoe. Burial was at Summitt Chapel.

MRS. BERT BUSENBURG DIES AT TALMA MONDAY

Mrs. Bert Busenberg, 58, died on Monday, April 1, at nine a. m. at her home near Talma following an illness of the past few years due to arthritis. Her condition became serious within the past month.

She was born in Fulton county, April 3, 1882, and had lived in that vicinity the entirety of her life. She was a member of the Christian church at Talma. Her husband preceded her in death three years ago.

Surviving relatives include the daughters, Mrs. Peter Blue, Mentone, Lois at home, Mrs. Mabel Igo of Elkhart, Retha of South Bend, and Opal of Elkhart; two sons, Ernest of Fort Wayne, and Esco of Elkhart; one sister, Mrs. Mary Wise of Akron; two brothers, Gano Batz of Culver and Fred Batz of Leiter's Ford; one aunt, Mrs. Elmer Rathfon of Mentone, several grandchildren and one great-grandson.

Funeral services were held Wednesday afternoon at the Christian Church in Talma with Rev. Perry officiating. Burial was made at Sycamore.

Musicale To Be Given At Burket High School Gym

A musicale in five scenes, depicting the progress of American music from the time of the Indians, will be presented Friday night, April 12, at the Burket high school gymnasium. Elaborate costumes and beautiful pageantry, coupled with music by the Burket band, go together to make a splendid program. The cast is headed by Ina Mae Rapp, Hubert Rickel, Hene Sarber and Carl Eberman. Admission is 10c and 25c. The musicale is under the direction of Miss Delta Deane Doran.

ATTEND FUNERAL

Mrs. Walter Hutchison and Mrs. Edna Carey attended the funeral services of Mrs. Alonzo Lehman, Thursday, at Warsaw.

MRS. ERNSBERGER ILL

Mrs. Ralph Ernsberger is confined to her home with tonsillitis.

LLOYD K. PIERCE, 38 KILLED AT FT. WAYNE

Lloyd K. Pierce, 38 year-old aviator, was killed at the airport at Fort Wayne, Friday, while instructing a government student. Mr. Pierce became widely known in Mentone when he attended the Mentone Fair in his plane and took up passengers from Tucker's field. Mr. and Mrs. Pierce lived at the Don Ernsberger home during their stay in Mentone, and made many acquaintances.

The accident occurred when an object struck the plane while the pilot was instructing a student in the technique of a right-hand spin. Both student and pilot baled out, but Pierce's parachute failed to open. Pierce, who held a contract for teaching government students, had been instructing air-minded youths for several years. He is survived by his wife, his parents of Cromwell, Ohio, and three sisters.

Committees For Egg Show Meet

The committees in charge of arrangements for the Mentone Egg Show which will be held for three days starting Wednesday, April 24, met at the Mentone school last Friday evening to make final plans and arrange the many detail pertaining to the staging of their fifth annual show.

Forest Kesler, general chairman, heard reports of the various committees who are responsible for program, banquet, publicity, decorations, egg queen candidates and premiums.

The reports given show that practically all work has been completed by the committees with the exception of the decorations. Materials for this purpose are at hand and ready to be placed, it was announced by C. D. Meredith, chairman of the decoration committee. This work will be done during the first part of the week in which the show is held.

Written invitations to enter eggs for judging at the show will be mailed to several hundred egg producers in the community a few days before the entry date. These invitations will bear announcement of the prizes offered so that interested persons may be sure to know the importance of having their entries on hand promptly for acceptance in the competition.

The premium committee submitted the complete list of premiums offered this year. The list will be found on the outside page of this issue.

SUFFERERS ARM INJURY IN AKRON TUESDAY

Charles Severns, sixteen-year-old son of Mr. and Mrs. Ralph Severns, was taken to the Woodlawn hospital Tuesday with a badly torn left arm. Crossing a street in Akron while returning to school at noon, the boy failed to see an approaching car driven by John Gray. The door handle of the car caught the muscle of his left arm, tearing it badly. He also received a deep scalp wound, and it is believed he may be suffering internal injuries. His parents, and grandparents, Mr. and Mrs. Oliver Severns, are in constant touch with hospital officials at Rochester, as the patient remains in a serious condition.

Put Him Wise

Nurse hurried into the nursery. "Tommy," she cried to a small boy on the floor, "come and see what the doctor has brought your mother—a pretty little daughter, and your sister." "Yes," said Tommy, "and I expect she blames me." "What do you mean?" asked nurse wonderingly. "Well, the doctor wouldn't have known where we lived if I hadn't had the measles last year."

Small Talk

A young school teacher entered the bus and sat down. She looked at the gentleman across from her and smiled very sweetly. He looked puzzled. Realizing that she didn't know him, she stammered:

"Oh, sir, please forgive me. I thought at first you were the father of one of my children."

At the next corner she left the bus.

"May I ask how old you are?" said the vacationist to the old villager.
"I be just a hundred."
"Really? Well, do you suppose you'll see another hundred?"
"Well, I don't know. But I be stronger now than when I started on the first hundred."

Accidents Are Reduced By Non-Skid Pavement

ST. LOUIS.—Traffic accidents at busy intersections have been reduced here more than 50 per cent as a result of special non-skid pavements, according to Frank J. McDevitt, director of streets and sewers.

McDevitt said non-skid paving of intersections was inaugurated after tests showed a car with average tires required 134 feet to stop on ordinary sheet asphalt, while only 57 feet were required to stop on non-skid pavement.

The non-skid preparation was developed at the city asphalt plant.

Improve Butterfat Yields

In 10 years members of dairy-herd improvement associations throughout the country have so improved their herds that the average yearly butterfat production of association cows has increased about 30 pounds, reports Dr. J. F. Kendrick of the federal bureau of dairy industry. This increase in production, brought about by culling out poor producers, by feeding the remaining cows according to production, and by better selection of dairy sires, has increased returns to association members by about \$8,000,000 a year.

Lights of New York

by L. L. STEVENSON

Right now \$109,000,000 worth of British and French liners are lying idle in the port of New York. The Atlantic's largest luxury greyhounds, the Normandie and the Queen Mary, are tied up to their midtown Hudson river piers where they have been ever since the outbreak of the war in Europe. The Mauretania joined them after she had completed her fourth wartime crossing. The Ile de France was a member of the company until a little more than three months ago when she was moved over to Staten island. Thus 240,000 gross tons of shipping doing nothing save enjoying the safety of a neutral port. It may be remembered that the German luxury liner, Bremen, instead of seeking safety here, made a dash for it and after various adventures reached the homeland. Thus the Bremen is not a part of a maritime display eyed by New Yorkers as well as tourists.

Since an idle ship does not mean an end of expense it's a costly show for owners and two governments. The Herald Tribune recently published figures which showed that at the present rate, maintenance of the Queen Mary and the Normandie required an outlay of \$375,000 a year each or more than \$1,000 a day. Numerous items are included in the expense. For instance, the matter of pier rental. The city of New York built and owns the big piers used by the big liners and those where the Normandie and the Queen Mary are berthed cost approximately \$200,000 a year. For the pier at Tompkinsville, Staten island, where the Ile de France is laid up, the rental is \$15,000 a month. In addition, the French line paid \$30,000 for dredging. With the Queen Mary, the Mauretania and the Normandie tied up, their piers can't be used by other ships. So more expense.

Skeleton crews are maintained on the idle ships. Instead of 1,394 officers and men, the Normandie now has only 130, and the crews of the other ships have been reduced proportionately. The other members have been shipped home. But even skeleton crews have to be paid and fed. Under a British admiralty ruling they are on navy pay and rations, which means on average of \$15 a month and 40 cents a day for food. Even that runs into money. But while the number of crew members has been decreased, the number of private police has been increased because of the danger of sabotage. And the lines have to pay.

Most of the men remaining on the ships are middle-aged and a number are veterans of the former World war. Each day one-third are

given shore leave. One of the heaviest expenditures for recreational activities by the French line was for gramophone records. The older members of the crews are using them to learn to speak English.

While the Normandie seems to be more or less of a fixture, there are always rumors that the Queen Mary is about to leave port and try to reach England with a heavy cargo. Months ago, the big ship was painted a dull gray and on occasions there is activity in the way of moving freight abroad. But the Queen Mary stays right where she tied up on September 4 the day after war was declared. There is also speculation as to whether the Mauretania will make more trips. During the other World war her predecessor carried 70,000 troops including 33,000 members of the A. E. F.

The Chelsea piers, along the Hudson in the Twenties, are now the most active in the city. Before the big midtown piers were built to accommodate the giant liners, the Chelsea piers handled just about all the transatlantic traffic. Of late years they have been used only by smaller ships and freighters. Nowadays they are the landing places of vessels of belligerent nations as well as neutrals. Thus guns and camouflage. United States ships that ply the Atlantic have huge American flags painted on their sides, a strange decoration but full of meaning in these times of trouble for mariners.

MADE FOR THE JOB

He was undersized, meek, diffident, and subdued, and he had applied for a job as night-watchman. "Yes," said the manager, dubiously, "but the fact is we want someone who is restless and uneasy, especially at night. Someone who thinks the worst of everybody, and whose suspicions are seldom allayed. Someone who sleeps with one eye open. Someone with remarkable hearing who starts at the slightest sound. Someone who is always listening, thinking there are bad characters around. We want a large, aggressive, intrepid, and dangerous person, bad-tempered and revengeful. The kind of person, in short, who, when roused, is a fiend incarnate." "All right," said the little man as he walked away. "I'll send the wife."

"Poor fellow!" she murmured. "I suppose you want a spoon and a glass of water?"

The tramp shook his head. "No, mum," he replied. "I wouldn't trouble you for that. But the medicine 'as to be took after meals, and I was wondering if you'd got one of them handy?"

Two Minute Sermon

By

Thomas Hastwell

A PRACTICAL RELIGION: From time to time we meet up with those persons who are constantly worrying about something. Sometimes it is one thing and sometimes another. Some times it is over something that has happened, and sometimes it is over something that they fear is going to happen. They make themselves and everyone about them miserable with their worries.

In contrast to these there are the people who live a peaceful and a serene life. They are concerned about everything that merits concern but do not worry about it. If one's religion is going to be a practical thing in his life it should serve in just such emergencies. It should be able to quiet worry, and fretting and bring in its place faith and trust and peace, and inward quiet and calm. The religion of Christ, if given a chance in the lives of people, will do just this thing. It will do away with needless fretting and worry and in their place will come inward peace, and quiet, and calm, and the better, and happier living that these things always bring.

Infantile Paralysis Epidemic

The greatest infantile paralysis epidemic in history hit the United States in 1916, when 30,000 cases were reported, with nearly one-third in New York city. Although this total has never been exceeded, many countries have reported record epidemics in recent years.

War Brings Up Channel Tube

Tunnel Project Is Again Considered by France and Britain.

LONDON.—Work on a railroad tunnel beneath the English channel, suspended nearly 60 years ago, may be resumed after the war.

Anatole de Monzie, French minister of public works, declared in the French chamber of deputies that construction of the tunnel would be one of the first public works undertaken when peace comes.

The war has served to focus attention anew on the project as a possible national defense measure—to provide a life line safe from plane and submarine attack by which food may be sped to this island and by which troops may be sent to France.

More than a mile of the tunnel was bored some six decades ago before construction was halted in 1882 by Joseph Chamberlain, father of Prime Minister Neville Chamberlain and then president of the board of trade.

Halted by Injunction.

Chamberlain obtained a permanent injunction to restrain the Channel Tunnel company from boring any further toward the French coast without parliamentary sanction.

Regularly since then, advocates of the tunnel have attempted unsuccessfully to obtain this sanction. The present prime minister only last year said he did not believe that the tunnel would provide any extra protection to the food supply of the country in the event of an air attack.

However, Winston Churchill wrote in 1936 that such a tunnel would be of incalculable value in wartime. And De Monzie in his French chamber speech said:

"We see now the great international need of the tunnel."

A tunnel linking England and France first was proposed in 1802 by a French engineer named Mathieu, but it was not until 1872 that the first channel tunnel company was formed.

Work Begun in 1881.

The first actual work was started by the South Eastern Railway in 1881. Later that same year, the Submarine Continental Railway company was formed with a capital of \$1,250,000 and took over the work, absorbing the original Channel Tunnel company.

Work continued until Chamberlain obtained his injunction. The construction company still is in existence, though it reverted to its original name of the Channel Tunnel company in 1897.

The nearest that the tunnel company came to obtaining official approval since the suspension of work was in 1930, when a parliamentary committee voted in favor of the

project. It was rejected in the house of commons, however, by a seven-vote margin.

The cost of the tunnel has been estimated by M. Dautry, chairman of the French Channel Tunnel committee, at \$120,000,000. Under his plan, the tunnel would stretch beneath the channel for 20 miles, with its lowest section 300 feet below sea level.

Since British and French experts have estimated receipts the first year would total nearly \$15,000,000, Dautry said, the tunnel would be self-supporting.

Picture Address Letter

Reaches Its Destination

OGDEN, UTAH.—The mail must go through—even though it lacks an address.

To prove that nothing feazes United States mail carriers, R. A. Garner, directory clerk of the Ogden post office, delivered a letter whose only address was a portrait of the high school girl for whom it was intended.

When the letter arrived Garner reasoned that the picture on the letter was of a girl about high school age. He went to school officials, who recognized her and called her to receive it.

The letter was for Lois Behling, of Ogden, and the creator of the novel system of addressing was J. P. Bartlett, formerly of Ogden, but now attending school in Chicago.

Miss Behling said the sender "must have mailed it that way for a joke—he knows my address."

It consists of special photo-electric cells that will pick up the invisible infra-red rays which can penetrate the thickest of fog banks. The rays then will be changed into a continuous moving picture of the landmarks and dangers lying ahead.

In The Lions Den—

Forty members of the Mentone Lions club met in regular session at the Mentone Methodist church Wednesday evening and enjoyed a novel program of entertainment furnished by the club membership.

Only those who had part in the program had any knowledge of what it would be previous to their performance. Lion Dale Kelley was chairman of the special program. He was assisted by Lions Glen Longenecker and Walter Bowers.

Lion H. V. Johns directed the membership in several old favorite songs to lead the program off to a good start. Lion F. R. Burns then gave a short talk explaining the operation of the social security laws in relation to the small town business man.

A humorous debate followed the subject which was, "Resolved, That A Bald Head Is A Sign of Greater Intellectual Ability Than A Heavy Beard."

Lions H. V. Johns and E. G. (Pat) Harrison presented the two-minute affirmative arguments and Dale Kelley and Glen Longenecker the negative. Judges were A. I. Nelson, R. E. Riner and F. R. Burns.

This event was the high point of the program for laughs, keeping the audience in a continuous uproar for several minutes. The judges decided for the negative team.

Lion K. A. Riner provided an interesting talk on U. S. currency and the detection of counterfeiting.

Lion Elmore Fenstermaker, who is an ardent amateur radio fan, told of his experiences in the field of short wave radio broadcasting.

Lions Jack VanGilder and Maurice Dudley were called upon without warning to give two-minute talks on humorous subjects which provided more laughs for their fellow members.

Special guests for the evening were: Lions Robert Russell, Harold Tower and Howard Lute of the Rolling Prairie, Ind., club. Lion Dale Kelley had as his guest Carl Gochenour, Mentone grade school teacher.

Lion President, E. E. DeWitt, who presided, announced that on the next meeting night, April 17, the club will be entertained by a quartet from Warsaw and by a special showing of a traffic safety moving picture through the courtesy of the Indiana state police department. Officer Clayton Clutter will present the feature.

Do you ever worry about the time when all our gasoline will be gone with the exhaust? Don't, for the geologists now report that, during 1939, there were 2,400,000,000 (billions) barrels of brand-new, proven reserves of crude oil discovered or developed in new and old U. S. oil fields. This is virtually twice the amount actually produced last year, which means they're finding it faster than we're burning it.

Already plans for 1941 model automobiles are in the air, with manufacturers getting together with tool makers. Rumors that Ford will finally come out with its long-reported six-cylinder job are revived.

We seem to be living in a "conditioned" age. Business, air, food, water, light, windows, autos, clothes—even our mental processes—come in for "conditioning" nowadays. Scientists have been studying indoor-outdoor light variables to find the perfect balance between too much and too little light for homes, offices, factories. Lately artificial lighting makers have been joined by the glass makers with a new light-conditioning glass called thermolux. Like auto safety plate glass, it is a "sandwich" in form, with a thin layer of glass fibres between two panes. The fibres bend the rays of daylight so that a room is evenly lighted through out. A fact known only to lighting experts is that a transparent glazed area becomes a black, light-absorbing surface at night, "eating up" part of the artificial illumination. The new glass reflects this light instead of absorbing it, making it possible to have more and better illumination with less actual wattage of electric bulbs.

Because of the abnormal appetite of a few for alcohol, all those who desire rubbing alcohol for the purpose for which it is intended are going to be inconvenienced with burdensome detail whenever they buy a bottle of it.

One way to live dangerously is to go over the hills in the middle of the road. This course if persisted in long enough is bound to eventually get results.

It is one of the cruel facts of life that it is next to impossible for a man, once he loses his stake to beat back. Even the same formula that

he used to work up doesn't seem to work a second time.

A profitable service in many towns in a tree planting service which sets out large trees. Such companies are equipped with a truck with a power winch strong enough to lift and carry large trees with considerable earth about the roots. By this way new homes can be set out to the large trees and twenty years growing time saved.

The maximum amount of insides, according to a local filling station operator, is shown by the fellow who buys his gas at a cross roads pump and then drives into the town station whenever he wants air in his tires or his windshield washed.

Some one who makes a note of such things has discovered that Adolph Hitler refers to himself once in every fifty-three words he utters in a speech. Mussolini uses the word "I" once in every eighty-three words. President Roosevelt ranks third with one "I" in every 190 words, Winston Churchill one in 169, Premier Daladier one in 234 and Minister Chamberlain one in 249.

The shiniest crowns in the hereafter should go to the men and women who have lived their lives with naggers. The fellow who said "Hell! bath no fury like a woman scorned," had a few things to learn.

NEW NUMBERS GAME

When sales of those miniature auto license plates used on key chains last month from 65,000 to 135,000 the manufacturer was pleased, but puzzled. Now the secret is out—collegians have abandoned their goldfish-eating fad and are now making a hobby of wearing the tiny replicas in many ways. Miss Donna Lewis appeared on the university of Southern California campus one day wearing a necklace and bracelet of these tabs bearing the car-license numbers of her boy friends. The fad caught on in a hurry, and the plates began appearing as hat ornaments, show buckles, lapel clips and even as "handles" on hookless fasteners on sports wear. Now, it has leaped cross-country to campuses of West Virginia, Rochester, Miami and Stephens college in Missouri. New York designers are now planning lines of merchandise featuring the little plates.

Candidates Are Named For Egg Show Queen

The committee in charge of the selection of candidates for queen of the Mentone Egg Show announces that all five candidates have been named by egg shippers of Warsaw, North Manchester, Claypool, Burket and Mentone.

Miss Marilyn Mowrey, who is employed by Ward's Jewelry store in Warsaw has been selected as Miss Warsaw by the Bashore Feed Store, agents handling the carload shipments of eggs from that city.

Miss Georgia Ulmer of North Manchester was chosen by McClure & Son of that city as Miss North Manchester. Miss Ulmer is employed as a bookkeeper at the Indiana Lawrence State Bank.

Miss Jeanette Stiver, who is a high school student in Claypool, will represent the shippers of that vicinity as Miss Claypool. Homer Graffis is the shipper's agent in Claypool and assisted in the selection of Miss Stiver.

Miss Delta Deane Doran, music instructor in the Burket school will enter the contest as Miss Burket. E. B. Williamson, shipping manager in charge of the Burket car assisted in selecting Miss Doran.

Mentone's candidate, selected by the egg queen committee, composed of Hobart Creighton, chairman, C. L. Manwaring and Joe Clark, county agent, will be Miss Gloria Hammer, a student at Mentone high school.

On Tuesday of this week the five candidates were taken to Chicago to present a special broadcast over radio station WLS to advertise the Mentone Egg Show.

On Friday they will go to Fort Wayne where they will appear at the noon hour over WOWO for the same purpose.

The queen will be selected from the evening of Wednesday, April 24, by a committee of three unacquainted with any of the girls. The selection will be made as part of the program of the egg show and will be

Rosella Lewallen, 85 One of Oldest Set of Twins in U. S., Dies

Rosella Lewallen, aged 85 years and nineteen days, died at her home in Mentone, Tuesday, after a brief illness. She had been in excellent health and spirits just a few days before. Death was due to chronic heart trouble and complications of old age.

Mrs. Lewallen was one of the oldest set of twins in the United States. Mrs. Stella Dillie, her twin sister, of Akron, survives. She and her sister were active in the annual twin reunion.

The deceased was born March 20, 1855, north of Palestine, the daughter of William and Eliza Sarber. In 1873 she was united in marriage to Edward L. Meredith, who preceded her in death in 1898. In 1915, she became the wife of John Lewallen, who survives. She was a member of the Mentone Methodist church.

Surviving relatives include the husband, John Lewallen, her twin sister, Mrs. Stella Dillie of Akron; and another sister, Mrs. Edith McFarland; seven children, Mrs. C. C. Kirkpatrick of Delphi; Mrs. Allen Dillie of Mentone, Mrs. Sam Harshberger of Columbia City, Mrs. Mildred E. Clark of Anaconda, Montana, Mrs. P. T. Hass of Fort Wayne, L. P. Meredith of Fort Wayne, and W. K. Meredith of Claypool. One daughter, Mrs. Iva Reome, preceded her in death.

Funeral services were held Thursday afternoon at two o'clock at the Palestine Christian church with Rev. E. E. DeWitt of the Mentone Methodist church officiating. Burial was in the Mentone cemetery.

POSTMASTERS ORGANIZE

A county organization of postmasters was planned Tuesday night at the home of Postmaster and Mrs. E. R. Bowen in Warsaw. The evening was spent discussing postal problems and in organization details. Officers elected for the new organization were Roy Bowen, president; Lloyd A. Rickel, vice-president; Walter R. Meinert, secretary-treasurer.

Refreshments were served to Mr. and Mrs. Lowell B. Pontius of Claypool, Mr. and Mrs. Walter Meinert of Silver Lake, Mr. and Mrs. J. Ray Smith of Piercetown, Mr. and Mrs. Jacob Height of Etna Green, Mr. and Mrs. Lloyd Rickel of Mentone, Mr. and Mrs. Earl Coplen of Burket, Eugene W. Felkner and son of Milford, Mrs. Blanche Anglin of Leesburg, Leo B. Whitehead, Syracuse, and Mr. and Mrs. Bowen and son, Dean.

SUFFERS BROKEN BACK IN ACCIDENT NEAR HAMLET

Mrs. Dean Nellans suffered a broken back and other injuries in an auto accident near Hamlet, Ind., early Friday morning. Mrs. Nellans and her husband, Mr. Dean C. Nellans, were enroute to Chicago when their car skidded on the icy pavement, and rolled down an embankment. One other passenger, Mrs. Golda Kohl, suffered three broken ribs, and facial lacerations. Mrs. Kohl and Mrs. Nellans were taken to the Park View hospital in Plymouth. Mr. Nellans escaped injury. The 1939 Chevrolet in which the party was riding was damaged beyond repair.

Mrs. Nellans was enroute to Chicago with a load of dressed poultry and pastries for private customers whom she supplies every two weeks. Mrs. Kohl, who accompanied Mr. and Mrs. Nellans, is a sister of Dr. F. B. Davison of Mentone.

CLARENCE TAYLOR, JR. INJURED BY TRACTOR

Clarence Taylor, son of Clarence Taylor of Etna Green, was injured by a tractor on the Ora Beeson farm last week. The lad was adjusting a manure spreader behind the tractor when the wheel lugs caught his clothing, throwing him to the ground. He suffered skin lacerations, but the tractor did not pass over him as was previously reported. He is convalescing nicely at his home near Etna Green.

WILL MOVE HOUSE

Marshall Eaton has purchased the house that stands on the Emmanuel Leckrone farm east of Silver Lake, back toward the center of the section, and is planning to move it to his farm, south of Silver Lake, formerly the Sam Bashore farm, on which place the dwelling burned to the ground last week. The Merl Wilson family, who lived there, were away from home at the time of the fire, and are living now on the Bob Reed farm. The personal belongings of the Wilsons were a total loss.

Cheating Death

Death from hunger and thirst was averted by Thomas Hamilton, age 51, after being lost three days in grass 15 feet high near Perth, Australia. He reached a telegraph line, shot off one insulator and severed the wire with a second bullet. The repair crew, which arrived from Broome, 60 miles away, found him exhausted in a hole which he had dug with his hands in search of water.

SURPRISE MRS. CARLES ON HER BIRTHDAY

A group of neighbors, friends and relatives surprised Mrs. Frank Carles on her birthday last Tuesday. The party arrived at noon with a splendid birthday dinner, complete with a cake and candles. It was indeed a surprise to Mrs. Carles and the group enjoyed a pleasant day. Mrs. Carles received several lovely gifts and her children presented a lovely bouquet. Those present were Mr. and Mrs. Harley Towns of Warsaw, Mrs. Carrie Towns and Mrs. Trella Holderman of Tippecanoe, Mrs. Forest Knepper of Etna Green, Mrs. Ethel Kennard, Mrs. Marvin Shively and daughter, Mrs. Charles Heisler, of Etna Green, Mrs. Nora Huffer, Mrs. Ella Stickler and Mrs. Josephine Smythe of Palestine.

OTTERBEIN GUILD MEETS

Miss Zeta Sands entertained members of the Otterbein Guild Tuesday evening at her home in Burket. The subject for the evening was "Growing Toward the Ideal Christian-like Islands of the Seas," and Donnie Holloway presided at leader.

Those present were Violet Jones, Goldie Taylor, Mildred Kurtz, Margaret Secor, Maxine Secor, Wanda Eaton, Doris Bruner, Patty McIntyre, Doris Foltz, Geraldine Nine, Edythe Cochran, Mary Holloway, Donnis Holloway, Marilyn Kiefer, Mrs. Hattie Kiefer and the hostess, Miss Zeta Sands.

MISSIONARY MEETING AT SANKA VORHIS HOME

The Missionary Society of the Palestine Christian church met at the home of Mrs. Sanka Vorhis for an all day meeting, Thursday. About fifteen members and guests enjoyed the cooperative dinner at the noon hour. Mrs. Nora Huffer was in charge of the devotional period that followed. A short memorial was held for Mrs. Florence Norwood, a former member. The remainder of the day was spent in quilting.

Wars Ball Up Foreign Trade

United States Loses Normal Exports, but Gains on Tanks and Planes.

WASHINGTON.—War is playing havoc with international trade. As hostilities continue on two continents, trade experts are kept busy revising trade reports.

"Uncle Sam's current export-trade reports reflect rising orders for tanks and airplanes instead of apples and wheat; lumber instead of pork; machinery instead of tobacco," says the National Geographic society.

"Great Britain is shifting her orders for raw materials and food-stuffs to regions within the empire wherever possible, concentrating on such surplus items as Australian wool, meat, and dairy products; New Zealand's butter, cheese, and lamb; Canada's copper, lead, lumber, and bacon. Germany, cut off by allied blockade from the usual flow of overseas supplies, is seeking her necessities from nearby continental sources.

"In some cases one war's trade has slowed down that of another. Japan's supplies of chemicals and minerals, for example, needed to carry on the Chinese war, have been inconveniently reduced or cut off altogether from a Europe conserving its own war materials. The blockade against the Reich has curtailed Japan's delivery of Manchukuoan soy beans in exchange for machinery, chemicals, and construction materials. Embargoes by western belligerents against Japan's toy exports and other wartime non-essentials have blocked the outlets for a large share of Nippon's foreign trade.

Upsets Trade Streams.

"Neutrals as well as belligerents have inaugurated various national economic policies that have upset former international trade streams. Turkey, for instance, by failing to renew her clearing agreement with Germany, has discontinued a large business amounting roughly to half of the nation's foreign export commerce. Following recent international financial and commercial arrangements, Turkish exports, such as dried fruits and tobacco, are now postmarked for the allies.

U. S. Tobacco Goes to Turkish Leaf.

"American tobacco is an economic casualty of this new trade movement from Turkey to Great Britain. By eliminating purchases of United States tobacco in order to 'smoke Turkish,' England has at one stroke dried up at its source an annual shipment across the Atlantic of more than 200,000,000 pounds of tobacco. Other commodity upsets resulting from British war economy have occurred in the exports of such American food products as apples, pears, and wheat, now replaced by crops of the empire.

"On the other hand, since the outbreak of European hostilities, increased sales to Great Britain and France of American airplanes, iron and steel products, oil, chemicals, and rubber, have given impetus to new trade currents that offset (in dollars at least) the lost farm-product markets. In December, 1939, total United States exports advanced some 37 per cent over those of the preceding December.

Widespread Dislocations.

"Manufacturers around the globe are feeling the strain of war-born trade dislocations. Italy's artificial fiber producers, for instance, are facing a problem of diminished cellulose supplies usually imported from Finland and Sweden.

"The disruption and rerouting of commodity lanes has sometimes resulted in specific local gains. Such is expected from the shift of cacao markets, offering new sales opportunities in the United States for Latin America's cacao-producing countries, notably Brazil and Ecuador.

"In British Malaya, India, and the Netherlands Indies, where war has hammered other normal sources of supply, improved markets are now reported for United States specialties, such as machinery, iron and steel, radios and other manufactured goods.

"Following the co-ordinated-economy agreement, the United Kingdom and France are giving preferred treatment to allied products and services.

"Canada is buying more cotton textiles from the United States, less from Great Britain, as the mother country concentrates on war-materials production. The United States is taking more newsprint from Canada, as shipments from Europe have decreased.

"With Germany's overseas commerce practically at a standstill, the trade of the Western hemisphere as a whole has undergone a dramatic change, in kind and direction. England has taken over much of the Reich's Latin American business, while in the first three months following the European war declaration, Uncle Sam's sales south of the Rio Grande increased by some 40 per cent."

Sky Pilot Really Is Pilot

FUNERAL SERVICES FOR J. H. SCHOOLEY

Funeral services for John Henry Schooley, 77, were held at the Schooley home near Etna Green, Thursday afternoon at two o'clock. Mr. Schooley passed away at his home Tuesday evening after a long illness due to paralysis. Rev. Jaycox and Rev. Ralph Bourne of Etna Green officiated at the funeral services. Burial was in the Harrison Center cemetery.

Mr. Schooley was born February 25, 1863, at Etna Green. On January 2, 1934, he was united in marriage to Leola Elder at Rochester, Ind. He was a farmer and carpenter by trade.

Surviving relatives include a brother, Frances Martin Schooley, 80, Denver, Colo., and the widow. One brother, Frank Schooley, formerly of Warsaw, preceded him in death four years ago.

WILL SPEND \$5,000,000.00 FOR AUTO MOTORING

Recreational motor travel in 1940 is expected to exceed that of any former year in the nation's history. Mr. and Mrs. Motorist will spend over five billion dollars for their transportation, lodging and amusement as they wend their way across the highways during the months of pleasure-motoring that lie ahead.

This forecast and estimate comes from the Chicago Motor club where pre-season inquiries for touring information are greater this spring than they have ever been.

Troubles abroad plus the greater freidity of travel at home and the second edition of Wo'ld's Fairs on both coasts are the primary factors in the increase, motor club officials report.

Concealing Bad Room Proportions

Wall and ceiling tints to conceal bad proportions and accent the feeling of space are now being generally used by home owners. Light colors, those mixed with white, tend to create a feeling of space and should be used as groundwork when this effect is sought. A gray background throughout the house, brightened with light shades of yellow, pale green, coral, or similar tints, will give a sense of space, and normally dark rooms will appear brighter. If the house is too large and appears empty, the action should be reversed. Dark shades, warm glowing colors, should be used to draw together an oversized room.

MENTONE LADIES ATTEND MEETING OF D. A. R. TUESDAY

On Tuesday evening, April 9th, twelve ladies from Mentone attended the celebration of the silver jubilee of the Tippecanoe River chapter of the D. A. R. at Bourbon. Ten members of the Agnes Pruyin Chapman chapter, Warsaw, and 11 members of the Wythowgan chapter, of Plymouth, were also guests.

Mrs. LaFayette LeVan Porter, state regent elect and Mrs. F. R. Burns, state treasurer elect, were the speakers of the evening. A huge birthday cake, beautifully decorated in honor of the occasion, was an attraction of the lovely banquet served during the meeting.

Those from here who attended were: Mrs. F. R. Burns, Helen Brown, Hazel Linn, Orpha Blue, Ethel Nellans, Bernice Rush, Mary Boggs, Ernie Manwaring, Emma Pontius, Eileen Fenstermaker, Emma Yocum and Mrs. Raymond Baer.

VISITS DAUGHTER

Mrs. Rose Boggess visited her daughter and family, Mr. and Mrs. C. H. Kern and son, Jimmy, at their home in Mishawaka a few days last week.

COUNTY MAY MOVE TO TOP IN CHICK RAISING

Kosciusko county, generally reputed the second county in the United States in size of the chicken and egg business, may move to the top in the chicken business, according to incomplete records turned in so far to the county assessor for this spring. This year's assessment now indicates an increase of about 22 per cent in the chicken valuation in this county.

Alameda county, California, is first county in the United States in chicken production, but Kosciusko county has been running a close second. Certain it is that the poultry, small chick and egg business is one of this country's biggest revenue getters. With some of the largest and heaviest producing hatcheries in the country located in this county, day-old chicks are shipped to many parts of the United States from Kosciusko, while each Saturday many thousand dozens of eggs leave Kosciusko county for the New York market.

U. S. Is Becoming Scientific Center

Nine Nobel Prize Winners Now Located Here.

BERKELEY, CALIF.—As a result of the war and unsettled conditions in Europe, the United States has attracted the top rank scientists of the world, and is becoming not only the haven for science but the world center of it, officials of the University of California agree.

This is indicated, it is pointed out by the fact that five of the last six Nobel prize winners in physics are working in the United States, while the records of the Nobel foundation show that several prize winners in other years also are carrying on in this country.

Two of the last six winners, Dr. Enrico Fermi of Columbia university and Dr. Ernest Lawrence of California, are working in the campus of the University of California, Dr. Fermi is the holder of the Hitchcock professorship and Dr. Lawrence heads the university's radiation laboratory.

Facts and figures on the Nobel prize winners in physics, as gathered by Prof. Raymond T. Bridge, reveal the impressive part that this country is playing in the development of physics studies.

Nine of the Physics Nobel prize winners are in the United States.

The five of six latest winners include Carl D. Anderson and V. G. Hess, both of the California Institute of Technology, who won the prize jointly in 1936; Dr. Clinton J. Davisson of the Bell Telephone laboratories, who shared the prize with Dr. George P. Tompison, noted British physicist in 1937, and Dr. Fermi and Lawrence, who won the prize in 1938 and 1939 respectively.

The other four winners working in this country are Dr. Albert Einstein, compounder of the Einstein theory of relativity, now at the Institute for Advance Study of Princeton university, winner of 1921; Dr. Robert A. Millikan, University of Chicago, winner in 1923; Dr. James Franck, Johns Hopkins university, winner in 1925 with Dr. Gustav Hertz of Germany, and Dr. Arthur H. Compton, University of Chicago, winner in 1927 with Dr. Charles Rees Wilson, another noted British physicist.

Altogether, 46 scientists in many countries, have won the Nobel prize in physics, the first being William Konrad Roentgen, who created the Roentgen ray.

Double Delight Melon

A new variety of melon developed by Arthur Combe, of Ogden, Utah, is a double delight—it features also the flavor of ice cream. Somewhat like a cantaloupe, and good to eat, the melon will be commercially used to flavor ice cream and other food products.

Plane Industry Sets U. S.

Record for '39 Exports

WASHINGTON.—Harry L. Hopkins, secretary of commerce, announced that exports of aeronautical products during 1939 set a record for the industry, topping the 1938 figures by 86 per cent and those of 1937 by 197 per cent. France and Great Britain headed the list, accounting for 66 per cent of the 1939 total of \$117,081,212, which was in itself 32 per cent of all aeronautic exports ever sent from this country.

France was the leader of the 91 nations buying aviation products from the United States last year, spending \$42,484,742. France's total expenditures for similar purposes in 1938 were \$278,775. Great Britain ran second with \$34,484,800. Her 1938 expenditures were \$3,916,117.

Twelve hundred planes were exported last year. Their total value was \$66,386,866. Other exports included 1,880 engines, worth \$14,120,035; parachutes and parts valued at \$775,389, and aircraft and engine parts, instruments and accessories worth \$35,798,922.

London Drops to Third

Place Rank Among Cities

LONDON.—Evacuation and war conditions have robbed London of its title of being the world's biggest city.

Before the war, the populations of the world's largest cities were London, 8,202,818; New York, 6,930,446; Tokyo, 6,000,000; Berlin, 4,250,000. But London now is in third place with a population of barely 5,000,000.

Some 12,000 people have moved from one suburb alone; 15,000 from another; 18,000 from another. And there are still 464,000 mothers and children living in country areas.

The governor of the Gas Light and Coke company, Sir David Milne Watson, says there has been a decrease of 1,503,000 customers in London since war began. Taking an average of two people to a home only, this accounts for fully 3,000,000 people.

Dutch Seaman Learns

English in Hospital

SEATTLE.—It looked like misfortune to Antone Steenberg, Dutch seaman aboard the Holland-American liner Orechtdyk, when he fell 35 feet from a painting scaffold into the ship's engine room.

But after 15 weeks in a hospital here, he was ready to admit he actually fell into a knowledge of the English language.

Nurses taught him the language. "It didn't take me long to learn," Steenberg said. "I had to speak English or not at all."

One of the differences between a
dictatorship and a democracy is that
under a democracy one can criticize
the government, even unjustly, and
no one does anything about it. Under
a dictatorship the same criticism
would result in the secret police

taking them away to a concentration

there are persons living in this coun-

Two Minute Sermon

By

Thomas Hastwell

TO LIVE IS TO FIGHT: To live
is to fight. It is the law among the
animals of the jungle, the birds of
the air, the denizens of the sea, and
even in the vegetable kingdom. The
law of the human race is the law
of struggle. Without it there is no
success, no achievement, no accom-
plishment worth while. When man
ceases to struggle he is on the way
to extinction. With man it is not the
same physical encounter found in the
jungle. It is a struggle for accom-
plishment, for achievement to do a
good job of living, to build a life up
to the best that in one lies. It is a
struggle that does not end as long
as life lasts. Some look forward to
the time and even pray that it be
hastened when struggle and effort
shall no longer be necessary. This
should not be the prayer of any
man. The prayer should be that one
have the strength and the courage
and the faith to fight the good fight,
to keep the faith. This is the life
that God intends every man to live,
because only in the living of a vic-
torious life can man approach the
future confidently and unafraid.

SURVEY SHOWS VARIANCE IN GASOLINE PRICES

Gasoline prices in the United States
on March 1 varied from less than
fourteen cents to more than 25 cents
per gallon according to a survey re-
leased by the Chicago Motor club
this week.

Illinois and Indiana cities compare
favorably with the national average
of 50 population centers included in
the test.

The total of federal, state and lo-
cal taxes ranges from three to eight
cents per gallon. In Illinois it is four
cents and in Indiana, five cents. The
national capital wins low tax honors
with a three cent addition and several
states are included in the eight
cent class. Highest total cost was at
Boise, Idaho, with a sales price of
25.1 cents, and the lowest was at Wi-
chita, Kansas, with a price of 13.1.

On the last night of the show, Friday, April 26, the queen will be officially crowned by Lieutenant Governor Henry Schricker, and will preside over the program presented following the banquet served on that evening.

The four runners-up will serve as princesses of the queen's court and will occupy places on the stage on either side of the queen's throne.

Aged Palestine Man Struck by Automobile

Lyman Dunnick, 72-year-old resident of Palestine, is in a critical condition at the McDonald hospital in Warsaw after being struck by an automobile driven by Harold Stickler of north of Palestine, during a snowstorm Friday evening. The aged man suffered a badly broken right arm, a severe gash on the head, and shock.

Dunnick stepped into the path of the Stickler car in trying to avoid being struck by an automobile coming from the opposite direction. Stickler, who witnesses said was driving very slowly, was absolved of blame. Emergency treatment was given by Dr. Clutter of Mentone. Mr. Dunnick is well known in this locality.

Mentone Invites You to Visit Her Stores

We have been so busy familiarizing ourselves with the mechanical equipment in the office that we could not take time off to visit all the business places in town as we desired. However, we did manage to get a "once-over" of a few of the Mentone stores and must say that we found those that we called on far above the average in a town of this size both as to complete stocks and reasonable prices.

The Big Drug Store with its large clean stock and modern display windows is unsurpassed by any drug store in the county and is certainly a credit to Mentone. Then there is the Farmers State Bank, acknowledged to be one of the best banks in the state, together with the other business places which give service and quality at reasonable prices.

As the business places in Mentone are now making a special effort to enlarge their trade area, it should be of interest to all of our readers who do not trade in Mentone, to give the merchants a trial and we are quite sure goods, service, and prices will be found to compare favorably with surrounding trading points.

Why not make a list of grocery needs when you bring eggs to the car, leave the list at one of our stores to be filled—or better yet, bring the "Missus" along and let her do the shopping while you are at the car. We are positive you will be well pleased.—Editor.

Balloons in Warfare

The French were probably the first to recognize the value of balloons for war purposes, a special study being given to the subject during the French revolutionary wars. Reconnoitering balloons were subsequently used in the French campaign in Italy in 1859. During the siege of Paris (1870-71), communication was effected between the besieged and the provinces by means of balloons carrying pigeons which were liberated to bring back news. Military balloons were used in the United States by the Federals during the Civil war.

Esta V. Blue, 55, Commits Suicide

This community was shocked Saturday afternoon to learn of the suicide of Esta Vern Blue, 55, well known farmer of south of Mentone, around 2:30 p. m. He was found shortly afterwards by Mrs. Blue and her nephew, John Miller, who had made a short business trip to Mentone.

Mr. Blue had evidently finished shaving in a small, enclosed well-porth off the kitchen of the home, when he became despondent and shot himself through the heart with his shotgun. He had been in ill health for some time and this was attributed by Coroner L. A. Laird, as the motive. A note reading, "Too much for me," was found at the scene. He was prominent in conservation activities and well known throughout the vicinity.

The deceased was born in Franklin township, near Mentone, June 5, 1886. He had lived near here all of his life.

Surviving are the widow, and one sister, Mrs. Delta Miller, of Mentone.

Funeral services, under the direction of the Johns funeral home, were held Tuesday with Rev. E. E. DeWitt officiating. Interment was in the Mentone cemetery.

ATTEND FEDERATED CLUB MEETING IN LEESBURG

Mrs. T. J. Clutter, Mrs. Walter Bowers and Mrs. John Moore, of Mentone, attended a meeting of the County Federation of Clubs at the Methodist church in Leesburg, Tuesday afternoon. A luncheon was served at the noon hour by the ladies of the church.

Mr. Lester Young, of Warsaw, who was the main speaker, gave an interesting account of his experiences in Europe at the outbreak of the war. During the business session, the following officers were elected: Mrs. Frank Sanders, Warsaw, president; Mrs. Royce Clover, Piercetown, first vice-pres.; Mrs. J. E. Scott, Sidney, second vice-pres.; Mrs. T. J. Clutter, Mentone, secretary-treasurer.

READING CLUB MEETS WITH MRS. LACKEY

The Mentone Reading club held a reciprocity meeting last Wednesday at the home of Mrs. Walter Lackey, with Miss Francis Clark and Mrs. Trella Tombaugh assisting. Fifteen members of the reading club and 18 members of the Economics Club, who were guests, were present.

On the afternoon's program were Mrs. Stanley Boggs, who gave an interesting talk on Central America; Miss Francis Clark, who gave a piano solo, "Whispering Wind"; a reading "Seventeen," by Miss Leininger; violin solo, "Serenade Patine," Rowena Lackey, accompanied by Mrs. Lackey at the piano; a brief discussion on home economics by Lois Moore; two piano solos, "Love Dream" and "Minuet" by Carol Rose Weissert; and concluding, a humorous reading, "The Widow's Mites," by Mildred Kurtz. After the program, dainty refreshments were served by the hostesses.

BRIDAL SHOWER FOR MISS JESSIE RUSH

Miss Jessie Rush, of near Mentone, was the guest of honor at a linen shower given Friday afternoon at the home of Mrs. Isaac E. Hire, at The Breakers, Winona Lake, Indiana. Sixteen friends of the bride-elect were present. The afternoon was enjoyed with appropriate games and contests, after which, dainty refreshments in keeping with the occasion, were served. Miss Rush received many lovely pieces of linen.

Those present were Mrs. J. M. Preisch, Mrs. Dale Flew, Mrs. Fred Rush and Miss Martha Goshert, all of Menone; Mrs. Robert Whiteneck, Mrs. Zeldon Lipley, Mrs. Robert Knily, Mrs. Don Baum, Mrs. Fred Douglas, Mrs. Marie Hankins, Mrs. A. V. Hayes, Mrs. Wm. Chinworth and Mrs. Phil Banks, all of Warsaw; Mrs. Lacy Cook of South Bend, Ind., the guest of honor, Miss Rush, and the hostesses, Mrs. Isaac Hire.

Paul Smith and family of North Manchester, visited his parents, Mr. and Mrs. Ora Smith, Sunday.

ANNUAL EGG SHOW DATES FROM 1935

1940 Event Scheduled For
April 24, 25, 26.

In the early spring of 1935, two egg producers near Mentone struck up a conversation about the egg business in this section. They were Royse Tucker and Cecil Long, both of whom had seen the industry grow larger year by year in and around Mentone until, on the day they were talking about it, they stood in a refrigerator car being filled with hundreds of cases of fresh eggs from their own farms and those of their neighbors. Another carload like it would go out yet that week to the eastern markets. It was a lot of eggs from such a small community and it was just beginning to grow.

During the conversation between the two friends, they decided that there should be something done to advertise these facts and to stimulate interest in quality production among the producers. They agreed that an egg show might be the answer so they began then and there to plan one.

They called in another friend, Everett Rathfon, who liked the idea at once and the three of them took the initiative for the first annual Mentone egg show. It was held for one day and drew considerable attention from both the other producers and the general public.

Since then the show has been repeated yearly with increasing size and popularity until it has become a three-day event and this year it is receiving national publicity through press and radio.

Enlarges Building

Russell Eber has added another story on his what-not shop, on North Broadway. This is becoming quite a manufacturing concern of which most Mentone residents know little.

Mr. and Mrs. Eber have been almost day and night for the past year in order to fill orders for the many novelties they manufacture. With this enlargement it will provide much extra room, and we expect to see Russell adding some help before long.

Rural Mail Carriers Convene in Mentone

One hundred and eighty-four members and guests of the Indiana Rural Letter Carriers association and the Ladies' Auxiliary, of the First, Second and Third congressional districts of Indiana, held a joint convention, Saturday, April 20, at the Methodist church in Mentone. Registration and visiting began at 2:30 p. m., followed by round table discussion and election of officers.

The meeting was called to order at 4:00 p. m., by the president, Clyde Delano, Piercetown. After the singing of America, the invocation was offered by C. G. Vincent, minister of the Mentone Church of Christ. Miss Geraldine Imhoff of Akron rendered two vocal solos accompanied by Mrs. Frank Meredith of Mentone. A very hearty welcome was extended by Rev. DeWitt, president of the local Lions club. Responses were given by Elmer D. Gordon, rural carrier of Rochester, and Mrs. Robert S. Sanger, of Elkhart, past president of the Ladies' Auxiliary. The remainder of the afternoon was devoted to business and a discussion of roads by Dewey Grant.

The meeting adjourned for a delicious dinner prepared and served by the ladies of the Methodist church to the 184 members and guests.

The evening session was called to order by the district president who introduced toastmaster Vern Yoder, to preside over the program as follows:

Violin solo ----- Rowena Lackey, Mentone
Address ----- Chas. A. Halleck, Congressman
Guitar Music ----- by son of Chas. Pence, rural carrier, Columbia City.
Introduction of officers of Ladies' Auxiliary—
Address ----- Dan Slaybaugh, postmaster, Akron.

REVIVAL AT BAPTIST CHURCH

Norman Vernon, young evangelist from the Moody Bible Institute in Chicago, will conduct a young peoples' campaign at the Baptist church, starting Monday, April 28, and ending the following Sunday.

Rev. Barnaby, pastor of the church, extends a cordial invitation to all, especially the young people, to attend these meetings.

EGG QUEEN CANDIDATES BROADCAST OVER WLS

Tuesday of last week, the five candidates for queen of the Mentone Egg Show, accompanied by representatives of the program and publicity committees, presented a quarter-hour broadcast over radio station WLS, Chicago, and were also special guests of the National Broadcasting company on the "Club Matinee" program, at NBC studios, heard from coast to coast and in Canada.

Friday, the five young ladies, who represent the egg shippers of Warsaw, North Manchester, Claypool, Burket and Mentone, were heard during the noon hour over station WOWO at Fort Wayne.

SAFETY IS WATCHWORD WHEN CROSSING STREET

Pedestricide is the word used by an officer of the Chicago Motor club to express voluntary suicide on the part of persons on foot.

"It takes the form of crossing a street in the middle of the block, dodging into the street from between parked cars, crossing an intersection against the red light, or a number of other deliberate though unintentional attempts to end one's life," he explains.

And the ironic part is that during the past year nearly 10,000 fatalities would have come under this classification had it been included in accident statistics.

China's 'Grand Old Man'

Li Hung Chang was known as the "Grand Old Man of China." He played the most important part in China's affairs for over 40 years, representing his government and extending its foreign relations with skill and wisdom. He held the highest official rank of any man below the emperor, first grand secretary of state. When, in 1899, he returned to China after a visit to the United States, he received the order of the Double Dragon, a distinction seldom conferred upon any one not a member of the royal family.

A WANT AD WILL SELL IT

Results received by small "wanted" or "for sale" ads published in the Co-Op News are surprising to most people who have not tried this inexpensive method of selling or buying small articles around the home or farm.

These ads cost only 1c a word (25c minimum), or three insertions for the price of two and their selling power makes this cost very small. So, if you have something that you wish to sell, or buy, let a want ad sell it for you. Ads may be brought to the News office not later than Saturday forenoon to insure publication in the following Wednesday's issue, or will be taken by telephoning 38.

A new mercerized cotton hose has been developed by the Department of Agriculture which cannot be distinguished from silk at a distance of several feet. The new type of hosiery will be made by the Gotham Silk Hosiery Co., and will sell for 99 cents a pair. The product should materially increase consumption of cotton in this country.

Mr. and Mrs. William Norris, two daughters and granddaughter, were supper guests of Rev. and Mrs. Horace Barnaby, Friday evening.

CONSERVATION CLUB WILL BEGIN ACTIVITIES SOON

The Mentone Conservation club have their three rearing ponds and brooder houses in readiness for the summer's activities, reports Phillip Blue, president of the local group. The club will obtain bass, bluegill and rock bass fry this spring and care for them until they are large enough for release, later in the year.

The two brooder houses have been cleaned and repaired in order to accommodate 200 quails and 200 pheasants which the local organization will receive from the Indiana Department of Conservation.

CHEVROLET'S PRODUCTION PASSES 700,000 MARK

Chevrolet's domestic production passed the 700,000 mark, it was announced here by M. E. Coyle, General Manager of Chevrolet Motor Division.

TESTING BRAKES OFTEN ADVISED AS GOOD IDEA

On long drives during wet weather it is a good idea to test your brakes occasionally to see that they are in good working order, Harold Treichel, head of the Chicago Motor emergency road service department, advised motorists recently.

"While most brakes are constructed so that water cannot easily reach the lining, constant driving in rainy weather may allow a certain amount of moisture to get into the brake structure causing inefficiency," he explained. "This faulty condition is particularly dangerous in an emergency when poor brake action can mean tragedy."

An ice cream will appear on the market the coming summer with a cottonseed meal base and cottonseed oil instead of butter fat. In other words it will contain no cream at all. It was invented by Prosper A. Ingels, a Dallas, Texas, pastry chef. It is said to have a taste between coffee, maple and vanilla.

Once Social Lion Turns Out to Be Clever Trickster

Australian Society's Prince Charming Sentenced to English Prison.

LONDON.—Seated at the back of the court of London sessions the other day was a fashionable Australian woman now approaching middle age who was there to hear a prison sentence imposed upon the man who, 20 years ago in Sydney, was her Prince Charming. He is Gerald ("Gerry") Riviere, 46 years old, calling himself a salesman, alumnus of toughest prisons in Great Britain and the Continent, known to police as the Prince of Tricksters.

Riviere was accused of obtaining by false pretenses a handbag, a pair of binoculars and two cigarette cases. The value of the articles was \$250 but Riviere pleaded guilty and asked that the court take into consideration no fewer than 27 other cases involving \$1,350.

Detective Sergeant William Skardon told the court of some of Gerry's previous convictions and the judge sentenced him to nine months' imprisonment. Already he has spent a quarter of his life behind the bars.

Australia at His Feet.

And his woman admirer of 20 years ago had the mortification of watching him walk once more down the steps to the cells.

"Gerry had all fashionable Australia at his feet," she said to a reporter after the hearing. "He was very young and tremendously good looking, with blond hair and the most winning smile."

"His manners were perfect. He gave the most charming dinner parties in the hotel. People were proud to accept his invitation."

"One young actress—she is now famous on the London stage—fell in love with him. But Gerry proposed to the daughter of Sydney's wealthiest bookmaker and was accepted."

But the woman from Australia did not know that even then Riviere had been twice convicted in English courts.

He was born at Southend-on-Sea of respectable parents, and was given a good education. He first fell into the hands of the police when he was 18 years of age, and was bound over for stealing five £10 (\$50) bills. In the following year he was given 12 months' Borstal treatment for obtaining \$2,500 worth of jewelry by fraud.

Relatives Fed Up.

On his release his relatives washed their hands of him and packed him off to Australia.

It was then that he learned the mechanics of the confidence trickster's trade. He became friendly

in secret with "Capt." Bigger and "Bludger" Bill, two notorious international crooks.

Even at the time of his engagement and when the women of Sydney were falling in love with him Riviere was working in secret with his acquaintances of the underworld. It was not until long after their marriage that his wife discovered him to be a trickster.

He has robbed people of thousands of pounds. He has practiced the confidence trick in every corner of the globe. Scotland Yard regards him as one of the slickest "con" men who ever passed through their hands.

Of All Vacation Spots, He Picks the City Dump!

OKLAHOMA CITY, OKLA.—There are hundreds of pretty places Harry Converse of Pipestone, Minn., could have gone on his winter vacation. But he picked Oklahoma City's dump.

The 64-year-old sportsman kills crows as a hobby. The black pests are plentiful at the dump.

"I hate crows," he explained between shots. "Statistics prove that 64 per cent of our wild duck eggs are destroyed yearly by crows. I guess my two weeks' stay will cost me \$250, but it's worth it."

Warm Greeting Cools; He's Pal of Old Bill

OKLAHOMA CITY, OKLA.—A friendly gleam came into the eyes of Police Captain Marvin Murray when the prisoner he was questioning said he was from Waynoka, Okla.

"Well, well," said Captain Murray. "So you're from Waynoka. Do you know old Bill So-and-so?" "Do I know old Bill?" said the prisoner. "I should say I do know old Bill."

"Lock him up," said Murray. "Anyone who knows Bill ought to be in jail for life."

Vagrant Goes to Jail; Trapped by Own Diary

MAUCH, CHUNG, PA.—Joseph Wisneski, a vagrant, has given up keeping a diary.

Wisneski was arrested for disorderly conduct and sentenced to 30 days in jail. A diary he was carrying contained a note for the previous month which read:

"I beat up a cop in Easton."

An investigation revealed that the note was correct, and he faces new charges after serving his sentence here.

Study any man who is a failure and the reason for it may be easily found. He may be lacking in energy, purpose, vision, a definite goal. He may be a careless or sloppy worker, never doing anything thoroughly. Whatever the reason, he will seek an alibi. He will lay his failure to some cause outside himself. Here lies his greatest weakness. He should look the facts in the face, admit that the fault is with himself and proceed to put his own house in order by correcting one fault at a time. Any man who will look the facts in the face and correct one fault at a time can change his lot from futile failure to purposeful, worth while, and satisfying accomplishment.

SUFFERS STROKE OF APOPLEXY

Mr. Ed Jones suffered a stroke of apoplexy Tuesday evening, April 16, at his home as he was finishing his evening's meal. Unable to arise from the table, his condition was quickly discovered and a local physician was summoned.

Mr. Jones is reported to be in a serious condition.

NEIGHBORING EDITOR IS BACK AT WORK

Charles Lamoree, editor of the Silver Lake Record, is back on the job after having been under the weather for some time. "Chick" remarked that it was sort of deflating to find that, after having been at home for a couple of weeks, everything down town was going along its blithesome way and nicely under control without him.

First Oil Well

Probably the first oil well in America was drilled in 1829 near Burkesville, Ky. However, this well was being drilled for salt brine and the discovery was accidental, the oil being allowed to flow into the Cumberland river. The well drilled by Col. Edwin L. Drake near Titusville, Pa., in 1859 is considered the first well to be drilled for commercial purposes. It came into production on August 27, 1859, a date now observed as that of the start of commercial production of oil in the United States.

FINNISH AID HITS \$3,391,000 ACCORDING TO RED CROSS

World assistance for Finland's recovery problems and urgent medical needs of 40,000 wounded soldiers continued as latest information from the international Red Cross at Geneva revealed that 25 Red Cross societies have contributed \$3,391,894—exclusive of hundreds of tons of drugs, clothing and hospital supplies.

Reports received by the American Red Cross show that contributions to the stricken nation were led by the sister Scandinavian society of Norway and the strong Belgian Red Cross. Both societies have contributed more than a million dollars each for purchase of relief supplies to aid refugees and the wounded.

The peril of uncontrolled agricultural production is clearly shown by events in this country following the World War. As a result of the war and the demand for more wheat, 40,000,000 new acres were brought into production in this country. As a result of this and several other things, surpluses were built up, and for lack of demand, prices went down and the farm depression came. A glutted market in any line means a lower price level.

THINGS TO WATCH FOR--

A carpeting material that glows brightly in a darkened room when subjected to special ultra-violet rays . . . designed particularly for theaters. New type cotton full-fashioned stockings, developed in cooperation with Department of Agriculture . . . good enough to sell for 99 cents in some styles. A midget air conditioning unit, called odor-absorber, for eliminating unpleasant gases, fumes and smoke . . . useful in the kitchen when you're frying onions and fearful some guests might drop in afterward. Nylon, the much-discussed synthetic hosiery fabric, being tried out for a line of men's socks, and also, in combination with lastex, for women's girdles. Guest towels that are made of disposable tissue, but printed in colors and quaint designs fully as attractive as the cloth versions, and with extra little pockets to hold special lipstick wiper-offers.

ROAD COST \$52,000 PER MILE

Probably the most exclusive highway in the world is the bit of road on Lanai Island in the Hawaiian group which accommodates only 30-ton loads of pineapple.

This road, cut into steep lava bluffs 16 years ago, was built at a cost of \$52,000 per mile, according to the Chicago Motor club travel bureau. The roadway extends from the coast back into the interior.

Henry Miller Dies at Home of His Sister

Henry Miller, 77, died Tuesday morning, April 16, at 3 o'clock at the home of his sister, Amanda Miller, one-half mile west of Claypool. A stroke, suffered one week ago, was the immediate cause of his death.

The deceased was born in Starke county, Ohio, on April 10, 1863. He had lived in Claypool for the past few years, moving there from Kansas.

Surviving relatives include one son, Earl Miller, Wyoming; one brother, Hudson Miller, east of Claypool; and four sisters, Elizabeth Sigley and Amanda Miller, both of Claypool, and Clara Hoagland of N. Manchester.

Funeral services, under the direction of Tucker funeral home, Claypool, were held Thursday at 2 p. m., at the Claypool United Brethren church, Rev. Wilson, pastor, officiating. Interment was made in the Eel River cemetery, Packerton.

Isle of Evil Spirits

Jim Walton, director of the General Samuel Dale Historical society, says the Indians really pulled a smart trick when they sold Manhattan island to the Dutch for \$24. Walton says that the Indian name was Ma-Na-Hatta and it was the place where the spirits of the wicked were punished through infinity. He says it is certain that no Indians lived on the island at the time of the transaction, as the souls of all criminals executed by the Indians were consigned to Ma-Na-Hatta. Walton credited this information to the fragmentary papers of Gen. Samuel Dale, who died in 1841.

Arizona's Painted Desert

The Painted desert is an area of plateaus and low mesas in north central Arizona. It extends from the top of the Marble canyon of the Colorado river southeastward along the east side of the Little Colorado for about 100 miles. The desert lies at an altitude of about 5,000 feet. Its vast areas of rocks, mostly Triassic shales and sandstones, exhibit a great variety of colors, including red, pink, purple, chocolate, lavender, pale green and gray, whence the name painted.

All registration plates for automobiles in the United States are made by convicts in penal institutions.

Current Wit and Humor

GOOD ODDS

Willie was a born gambler. Many times his schoolmates had to part with their weekly pennies through being foolish enough to bet with him.

His father determined to break him of the habit. He interviewed his schoolmaster one day, and said: "I want to cure my boy of his betting habits, so if you can get him to bet with you, and you are certain he'll lose, take him on; then, when he loses his money, he'll be sorry for himself."

The master consented. Next day Willie said to him, "I'll bet you six-pence you've got corns, sir!"

"Good!" thought the master. "I know I haven't, so he's sure to lose." Aloud he said, "Right, Willie. I'll bet you I have no corns." And he removed his shoes and proved it.

"You've won," said Willie, and paid up.

Next day the master met Willie's father, and said, "Well, I won six-pence off your boy. He bet me I had corns, and I showed him he was wrong."

"What! The young beggar bet me half a crown he'd get you to show him your bare feet, and he's won!"

JUST CROOKED IS RIGHT

Teacher—Well, if the world is neither round nor flat, as you think, Willie, what can it be?

Pupil—Just crooked, pa says.

Trusting Judgment

"No," said the rich man to the penniless young officer who asked for the hand of his daughter, "I have not the slightest objection to your asking my daughter to marry you."

"Thank you, sir," said the young man.

"You go and ask her," continued the girl's dad. "I won't interfere. I've given her a good education and taught her to read the newspapers, and if she doesn't know enough to say 'No'—well, she doesn't deserve better luck."

Cat Language

Fish—They say the English language has 82 sounds.

Tish—Is that all? That's a surprise to me.

Fish—Why, isn't that enough?
Tish—I suppose it is, but if that is a fact, then the cat next door must know ten foreign languages besides.

Rare Gifts

Neighbor—Your husband strikes me as being a man of rare gifts.

Mrs. Dip—You've said it—"rare gifts!" Why we've been married high on 30 years and he hasn't made me three presents in all that time.

Faulty System

Mother—Well, Tommy, dear, I'll bet you're glad school is over. And just what did they teach you this year?

Tommy (sadly)—Not much; I've got to go back next year.

GOT AN OCCASIONAL KICK

Friend—I suppose you enjoy your daughter having so many young men coming to see her?

Dad—Oh, I get a kick out of it now and then.

Who Knows?

Willy—Now that you're married I suppose you will take out an insurance policy.

Nilly—Oh, no! I don't think she's going to be dangerous.

Why an Exception?

Wanda—Do you think it unlucky to marry on Friday?

Sally—Why should Friday be an exception?

Party Success

Munhall—Was your bachelor party a success?

Ziegler—Was it? Man alive, we had to postpone the wedding for a whole week.

Prospector 'Worked'

John Oldag, old-time prospector, reached Marysville, Calif., with his pockets lined with gold nuggets ranging in value from \$3.50 to \$11.50. Remember when it was common practice to drink sassafras tea in the spring to thin the blood? In some sections druggists used to buy sassafras bark by the hundred pounds.

Virginia Relief Funds

In Virginia, state relief funds are granted to counties on a population bases, but county officials must match every state dollar with 60 cents of county funds.

Two Minute Sermon

By

Thomas Hastwell

GOD MEASURES THE MAN: The prophet Amos spoke out against those of his time who accumulated great riches and lived in fine houses and oppressed the poor. It was not the purpose of Amos to condemn the possession of wealth but rather the misuse of it. There was nothing wrong in the acquisition and the possession of wealth today. In the parable of the talents we are plainly taught that God expects man to make all that he can honorably make. God will not condemn anyone for the acquisition of, or possession of money, but he does hold responsible, men, for the wrong use of money. It is a common fault when this theme is discussed for us to think that God's condemnation against the misuse of money is directed only against those of large means. This is not true. The man with an income of only twenty dollars a week may be just as guilty of the misuse of money as the man with an income of a thousand dollars a week. It isn't a question of how much money one

Most people do not believe that the machine age is responsible for all the loss of jobs in this country. For every man that used to be employed in a livery stable, there are twenty employed in garages.

has, but to what use he puts that which he does have. The man of small means may be just as selfish, just as greedy, just as hard, as the man of great riches. God measures the man, not the money.

In The Lions Den—

Sixty-one members and guests of the Mentone Lions club met in regular session last Wednesday evening at the Mentone Methodist church for a bountiful dinner and a lively meeting.

Special guests introduced were: Lion President Ralph Mason; Zone Chairman, Paul Smith, Lions Rittenhouse, Cook and Berkypile, from Bourbon; Pres. Ames, Deputy district governor Walter Bouse, and Lion Sennell from Argus; Lion Warner of Silver Lake; Lion Pres. Frank Merkle of Claypool; Robert Steller, new editor of the Co-Op News; and State Police officer Clayton Clutter, who exhibited several reels of moving pictures on safe driving and state police training during the evening.

These motion pictures are the property of the state police department and have been shown throughout the state in various meetings. They were much enjoyed by the club membership.

A male quartet from Warsaw, composed of P. D. Parks, Frank Rarick, Fred Strause and C. Davis, sang a number of songs which proved to be a high grade of entertainment and they were forced to return for many encores.

Two committees were appointed for special duties in the near future. One, an Arbor Day committee consisting of Charles Manwaring, chairman, H. V. Johns, C. O. Mollenhour, E. G. Harrison, F. R. Burns and F. B. Davison, was appointed for the purpose of arranging to transplant needed shade trees to Mentone streets from nearby woodlands.

The other, known as a Memorial Day committee with Robert Reed as chairman, Dale Kelly, Bill Lackey, Ralph Arnsberger, Maurice Dudley and Adam Bowen, was assigned to the job of marking all unnamed graves of soldiers buried in the Mentone cemetery.

Lion president E. E. DeWitt announced that Judge Sloane of Warsaw will address the club at its next regular meeting. Lion H. A. Nottingham will also present a special project for consideration. Victor Lane.

Mr. and Mrs. James Mentzer and son, Jackie, and daughter, Marianne, of Marion, spent Sunday with Mr. and Mrs. M. O. Mentzer.
