DAYLIGHT SAVING TIME TO BE ADOPTED HERE

Recently the Mentone Merchants' Association went on record as favoring Daylight Saving Time, if the other towns of the county adopted it, and Tuesday evening the Mentone Town Council announced that they were of a like opinion. Consequently, the last full week end in April we will move our clocks ahead one hour—if we want to be on time.

BAND PARENTS MEET

On Tuesday evening the band parents enjoyed a carry-in supper at 6:30 at the school cafeteria.

As the band fund still lacks around \$250 of meeting uniform costs, it was decided to have another penny supper.

Officers for next year were elected as follows:

President—Roland Ferverda.

Vice President—Mrs. Hobart Creighton.

Secretary—Mrs. Vance Johns.

Treasurer—Mrs. Robert Reed.

It was decided to hold an organization meeting for a P. T. A. on Monday evening, April 10, at which time all parents are urged to attend. Watch next week's Co-Op. News for details.

After the business meeting the band parents went to the gym where the band was assembled, and enjoyed several numbers by our band.

TO MAKE STATE-WIDE

AUTO SAFETY CHECK-UP

Hoosier motorists were advised to have their cars conditioned for an intensive statewide safety check emphasis by police during April and May.

In conjunction with plans of local police and sheriffs and state police to check passenger cars for hazardous defects, the Indiana Traffic Safety Commission and the Traffic Safety Council announced that a comprehensive educational campaign will be conducted. Backing the public support drive will be the Indiana and local Junior Chambers of Commerce, the Indiana Inter-Industry Highway Safety Committee, the Indiana Sheriff's Association and the Indiana Association of Chiefs of Police.

All police agencies in Indiana will be working on this program by setting up voluntary check lanes and blockades. A uniform sticker will be issued to all cars passing inspection.

CELEBRATES 80TH BIRTHDAY

Mrs. Alfred Teel celebrated her 80th birthday Saturday, and in honor of the occasion a number of friends called at the Teel home Sunday. Those present were Mrs. Goldie Kesler and Billie and Bobbie of Mentone, and Mr. and Mrs. Lloyd Teel of Fort Wayne, along with three other octogenarians, Maggie Teel aged 83, Mrs. Nettie Moltenhour aged 82 and Alfred Teel aged 89.

We are told Mr. and Mrs. Teel will soon celebrate their 60th wedding anniversary.

MINOR COLLISION MONDAY EVE.

Cars driven by Geo. Traulbee and Gene Creamer came together at the intersection just east of the Co-Op. Hardware late Monday afternoon, with only minor damage to the two autos.

Both men were going east with the Traulbee car in the lead. He attempted to turn north about the same time Creamer decided to go around him. The sides of both autos were considerably dented and bent.

IT CAN HAPPEN HERE

Rev. Gosser was telling us of an incident which, in the re-telling, will do us all some good.

A day or so ago a letter was received by Rev. Gosser in which was a short note and \$3.00. The note said "This money was taken years ago."

One often reads of incidents such as the above, and it is good to hear bright news like the above in days all too full of sordid and evil events.

PARENTS OF SON

Mr. and Mrs. Richard Whittenberger are the parents of a son, Stephen, born at the Woodlawn hospital at Rochester Tuesday.

Maternal grandparents are Mr. and Mrs. R. O. Jones, of Mentone.

LIONS CLUB MEETS.

The Mentone Lions Club met at the school building Wednesday evening.

Following a very delicious supper, a visitor, Mr. Foulks, teacher of voice and hearing in the South Bend schools, gave a short talk. It was voted to contribute \$10 to the cancer fund.

The next meeting, April 20th, the Lions will meet at the usual hour and eat at the band penny supper.

REVIVAL AT HARRISON CENTER

Revival meetings are being held at the Harrison Center E. U. B. church each evening at 7:30 p. m. Rev. John Shroder, the pastor is conducting the services.

HESS-MOORE

On last Saturday afternoon, at 2 o'clock, Miss Mary Alice Moore, daughter of Mr. and Mrs. John Moore of Mishawaka, and John R. Hess, were united in marriage at the home of the bride's parents.

The ceremony was read by Rev. E. E. DeWitt.

The Moores were former residents of Mentone, and Mary Alice is a graduate of Mentone high school. Mr. Hess recently graduated from Indiana University.

The newlyweds are on a trip through the south and to New Orleans. They plan to make their home in Mishawaka where Mr. Hess has a position as an accountant.

ATTEND BAND CONCERT

Our band members and their instructor, Mrs. Bickenstaff, went to Waterloo last Saturday where they entered the band contest, and made a rating of "excellent." The trip was made in a school bus and three cars.

HAVE NEW DAUGHTER

Mr. and Mrs. Doyle Earwood, of Terre Haute, are the parents of a daughter, Christine Diane, born April 4th. Mr. and Mrs. Fred Swick are the maternal grandparents.

CLUB CALENDAR

The American Legion Auxiliary will meet Tuesday, April 12 at 7:30 at the Hall. Initiation.

Jolly Janes Home Economics Club—Monday evening, April 11, at the home of Mrs. Iris Anderson.

Mentone Reading Club—Wednesday evening, April 13 at the home of Mrs. Robert Reed. Reciprocity meeting.

Mentone Home Economics will meet Thursday evening, April 14, at the home of Mrs. Claude Gates. Remember Seed and Bulb exchange.

BROTHER KILLED ON GUAM

On Tuesday, Toby Blaloch received word that his brother, Roy J. Blaloch, had been killed on Guam. Details of the accident have not yet been learned. Roy was nearly 21 years of age and had served in the army 2 years. His parents, who reside at Sevierville, Tennessee, had expected him home soon.

MOTHER DIES AT SALEM

Funeral services for Mrs. Nelson Pollock, aged 59, of Salem, Indiana, were held at the Salem Christian church at 10:30 a. m. Tuesday.

Mr. and Mrs. R. L. Roberts, of Warsaw; Mr. and Mrs. Max Deaton, of Claypool, and Mrs. Dan Smith, of Mentone, were called to Salem Saturday by the serious illness of their mother, Mrs. Pollock, who died before their arrival there Saturday evening. Hers was the first death in a family of 12.

DIES IN ALABAMA

Word has been received of the death of Mrs. Adam (Jennie) Horn who spent the last few years of her life with her daughter, Frances of Montgomery, Ala. She passed away January 31, aged 87 years, 7 months.

Her step-daughter, Hattie, passed away March 7.

Both were buried in Alabama.

VACATION BIBLE SCHOOL

Lloyd Boyll states that plans are well under way for the Church of Christ daily vacation Bible School. This will begin on May 9 and continue for 2 weeks.

Teachers are being selected for the classes and they are working on materials and equipment. Special plans are being made for playground organization. As was the plan followed last year, all children are invited to attend the Bible School.

HAS MAJOR OPERATION

Mrs. Clara Riggs underwent a major operation Tuesday at the McDonald hospital. Mrs. Riggs had only recently returned to her home near Mentone after spending the winter in Westfield, Massachusetts, with her son, O. L. Riggs.

WILDLIFE REFUGES LEASED IN THIRTY HOOSIER COUNTIES

More than 1,300 areas have been leased in thirty Indiana counties by the Pittman-Robertson Project 6-D leaders, for wildlife refuge and sanctuary, according to James A. Hughes, project director of the Division of Fish and Game.

Areas selected are portions of farms (usually non-arable lands such as stream banks, pot holes and wooded or brushy lands) which have not heretofore been closed to hunting and the leases provide that the lessors will continue to permit hunting on the portion of their farm not covered by the lease. The areas leased are closed to hunting, of course.

The acreage covered was \$7,697.90

acres.

Wildlife habitat areas leased during February and March of this year included the following: Lewis and Gertrude Vernet, Piercetown, 5.19 acres.

The farm population of Indiana has been steadily declining. Farm people now constitute less than 20 per cent of the state's total population. Ten years ago the rural population was 25 per cent whereas in 1920, almost one-third of Indiana's people lived on farms, according to Purdue University agricultural economists.

HOW TO FIX IT

By Tom Gregory

IT IS SELDOM SATISFACTORY TO STREW MOTHBALLS IN A DRAWER OR TRUNK LOOSELY WITH THE CLOTHING. YOU CAN EASILY MAKE UP A FEW SLEEVES OR TUBES FROM MESH CLOTH, SUCH AS CHEESE CLOTH, SLIP THE MOTHBALLS INSIDE AND TIE THE CLOTH BETWEEN EACH ONE, CREATING A SORT OF BEAD EFFECT.

THIS WILL MAKE THEM EASIER TO HANDLE AND HIDDEN MOTHBALLS WILL NO LONGER BE A SOURCE OF EMBARRASSMENT WHEN THE CLOTHES ARE PUT TO USE.

INSTEAD OF LEAVING YOUR BOX OF CLEANING TISSUES LYING ABOUT ON A TABLE OR SHELF, HANG THE BOX ON THE WALL IN A CONVENIENT SPOT AND THEN PULL OUT THE TISSUES AS THEY ARE NEEDED. JUST REMOVE PART OF THE HORIZONTAL WIRE ON A COAT HANGER AND PUNCH THE REMAINING SHORT ENDS INTO THE SIDES OF THE BOX NEAR THE TOP.

CHANGE CONFERENCE DATE

The Fourth Quarterly Conference of the Mentone Methodist Church scheduled for Friday evening of this week has been postponed until Wednesday, April 27, at 7:30 p. m. This change has been made to make it possible for Official Board and church members to attend the special service at the Warsaw Methodist church when Bishop Brashares will speak. The special pre-Easter service last Friday was well attended by local residents who heard Indiana's own Bishop Raines.

A special Baptismal Service will be held for infants and children unable to attend the regular Worship Service on Sunday, April 10. This service will

be at three o'clock this Sunday afternoon.

All regular hobby and interest classes at the Methodist church will be cancelled for the week of April 10 to 17 because of Holy Week services.

Palm Sunday will begin the Holy Week services for the Methodists of Mentone community with Baptism and Church Accessions at the worship hour. There will be an evening service at 7:30 and each evening during the week except Saturday.

The high school Chorus under the direction of Mrs. Mary Blickenstaff will sing on Monday evening. Mrs. Walter Lackey will review the book, "The Man Nobody Knows" written by Bruce Barton.

In addition to the Friday evening

service there will be a continuous service from 11:30 a. m. until 1:30 p. m. with local church laymen participating. An invitation is extended to all people of the community to attend this as well as all other services.

Easter Services will begin at 6:30 a. m. with the sunrise service and Church breakfast which follows it. There will be the regular worship service at ten o'clock followed by the Study Class.

Calling all outdoorsmen

By JIM MITCHELL

With lead poisoning taking an annual toll of something over a million waterfowl, finding a way to erase this malady is vital if we are to continue to enjoy decent duck hunting. Possibly you will say that a million ducks is only a drop in the bucket in the over-

all waterfowl picture but, actually, saving only a few thousand ducks each year will, in time, add greatly to the sport.

Some weeks back we reported that a project had been launched at Havana, Ill., by the Illinois Natural History Survey where trained biologists were to conduct experiments with hopes of finding a remedy for lead poisoning. We're happy to bring you up-to-date on these experiments for some progress has been made.

Apparently a diet consisting of a high percentage of corn is a contributing factor in the death of waterfowl from lead poisoning. And since corn

is a major food item in many parts of the nation in their annual migration south, this unquestionably has been a factor in the large number of waterfowl that have died after scooping up the lead pellets from the bottom while feeding in heavily-shot areas.

In the Survey's experiments more than 500 ducks—Pekins, domestic and wild mallards—have been under observation for about eight months. In one test, some Pekin ducks were dosed with as many as 25 No. 4 lead pellets survived when they were fed a balanced diet. But Pekins given the same dose of lead pellets, then fed on corn, died within a few days.

Four No. 6 lead pellets of a commercial shot proved fatal to nine of ten domestic mallards fed on corn. The rate of mortality of wild mallards under similar conditions was even higher than the domestic ducks.

In further tests it was discovered that the addition of magnesium, phosphorus and other metals to the lead

alloy used in commercial shot did not materially reduce the lethal effect of shot pellets. In another test, three of six Pekin ducks died within 16 days when dosed with four No. 4 magnesium-lead pellets and fed on corn. Following this in another experiment, eight of 10 wild mallards died in 12 to 30 days when dosed with a single magnesium-lead No. 6 pellet and fed on corn, and nine of nine died in 12 to 22 days when dosed with two pellets and fed a diet of corn.

Whatever the experiments uncover, it is well to know that "experts" on wildlife are on their toes and battling to keep our outdoors productive in enjoyable and clean sport. And with the cooperation of all sportsmen in worthy projects we need not fear that the outdoors as we know it will vanish.

1st PRIZE, FOURTH NATIONAL POSTER CONTEST
Designed by Elmer Hendrick, Geo. T. Fisher High School, Chicago, Illinois

Accident, A. C. Smith
Chicago, Illinois

APRIL

Issued by CHICAGO MOTOR CLUB

Bike riders are warned to solo for safety's sake in the monthly poster for April, distributed by the Chicago Motor Club in 44,000 elementary school classrooms throughout its Illinois and Indiana territory. Instruction sheets highlighting the danger of multiple riders on bicycles and adapted for different age levels accompany the poster. This was one of a series of winners in the national poster contest for high school students conducted annually by the Chicago Motor Club and affiliated organizations of the American Automobile Association.

TROOPERS TO PATROL FOR INTENTIONAL LAWBREAKERS

State Police troopers will patrol Hoosier highways in unmarked cars in a move against the "intentional violator" of state traffic regulations.

Arthur M. Thurston, department superintendent, disclosed today that several patrol cars without the usual identifying gold stripes on the sides, siren and radio aerial will be operated in each of the 10 State Police districts in addition to the marked cars. The "plain" vehicles will display department insignia only on the right side. However, troopers will wear the regulation uniform, he said.

"Our purpose is to eliminate the intentional violator who comprises the small per cent of drivers responsible for a majority of traffic collisions," Supt. Thurston asserted.

Rural highway fatalities increased five per cent during January and February, over a corresponding period a year ago. At the same time, urban traffic deaths dropped six per cent. A total of 101 rural and 46 urban deaths were reported in the first two months this year.

The State Police official said "the department intends to use every legitimate means to keep the unsafe, negligent driver off Indiana roads." The plain patrol car is legal, he said, and is used in other states and cities over the nation.

How to Make Delinquents

By Judge Philip B. Gilliam, of the Juvenile Family Court, Denver

If the instructions given here are carefully followed, we guarantee that your child will become delinquent and subsequently be tried in a juvenile court. If found not guilty, we will be glad to return him for further training, because we are certain to get him eventually. This formula is almost infallible.

Don't give your son any religious or spiritual training. Merely take care of his bodily needs.

In his presence, don't be respectful of womanhood, or of law and government. Belittle "dames" and the courts, the police, public officials, the school, the church and business. "It's all a racket!"

Never look for the real cause of untruthfulness in your child. You might discover that he learned the art of lying from you.

Never try to answer the endless "Whys" and "Hows" of your children, because it pays to be ignorant.

Be sure to humiliate your child in the presence of his friends. It adds to his respect for you.

If a conflict arises between you and your child, don't try to reason with him. Knock him down. Your father was boss of his home, and the kids may as well learn the hard way.

Don't have any constructive discipline. Disagree with your wife or husband in the child's presence, so the child will not learn on whom to depend.

Be sure to criticize departed guests in the presence of your child.

Never give your child a reason for the commands laid upon him. Let him guess.

Don't consider his educational and emotional development as a parental responsibility. What are the schools for?

Don't let him discuss his plans, problems or pleasures with you. Be too busy, so he won't develop trust in you.

Don't open your home to his companions; they will muss up the place. Don't be concerned as to where he spends his free time.

Don't teach your child to be tolerant toward people who differ from him in race, creed or color. Teaching unfairness toward others will develop a bad citizen.

Don't give him an allowance; he might learn how to save or spend. Don't ask him to give to community needs or service. "Dig down," yourself; that's the easiest way.

Don't be calm and poised. Be shocked and explode when he tells you he has done something wrong. Then he won't confide in you the next time.

Don't make a pal of him. Go alone to your sports and entertainment. He would only be in the way.

Always buy your children the most expensive games and toys, because if you get them something simple they might have to use their own imagination, and who wants that side of a child developed?

Be sure to keep your home from being a center of cheer. Make it a dumping ground for your grouches.

Be sure to forget the promises you make to your child. He will forget the promises he makes to you later.

Never praise your child for any worth while effort; he might try harder to please you the next time.

Never give your child any affection or tell him you love him. You don't want him to think you are a softy.

If you forget all the above, remember this: Be a poor example yourself. Follow the rule: "Do as I say; it's no one's business what I do."

(The original ten rules above were composed by William Q. Harper, director of probation, Westchester county, New York. Others were added by officers of the Juvenile Court, Denver, Colorado.)

Among rural developments important to business are: the enlargement of rural communities, the tendency of breakdown of distinction between rural and urban areas, the increased amount of capital needed for farming, the increased rate of turnover of farmer's money, the prospective increased use of funds for improvements, continued increase in variation in earnings from farm to farm and the growth of governmental influence on rural business, according to L. S. Robertson, Purdue University agricultural economist.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

Operation Salt Lick

From time to time 25-pound blocks of salt are dropped by airplane to otherwise inaccessible deer range by the California division of fish and game, which reports that more than 90 deer were killed on highways and railroad tracks in the rugged Shasta county mountains during a period of six months. The deer linger on tracks and roads, licking salt drippings from refrigerated freight cars and trucks. By placing salt blocks a safe distance from dangerous thoroughfares, the deer are lured from certain death. Late snows and poor road conditions in the area this year prevented normal distribution of salt by automobile.

PRICES MOVE DOWNWARD BUT NO DEPRESSION SEEN

"We will probably look back upon 1949 as the year when the bloom came off the boom rather than a year which ushered in hard times," R. H. Bauman, Purdue University agricultural economist, asserts.

"General price levels in 1949 will likely follow an irregular but moderately downward trend, barring the development of more acute tensions in the international sphere. The post war inflationary tempo has slowed down appreciably, but there is no evidence that this is the beginning of a general business depression," he states.

Bauman says that although the basic economic health of the country is good, a number of soft spots are appearing. Purchasing power of consumers continues at a high level but their more urgent demands in many lines apparently have been satisfied in such items as shoes, textiles, household furnishings and small items of equipment. The "buy now" psychology has shifted at least temporarily to a "let's wait and see" policy.

One of the weakest factors in general demand in 1949 is the prospective drop in the rate of private investment, that is, in expenditures for residential construction, factory buildings and equipment and in inventory accumulation which may be down 10 to 20 per cent. However, offsetting this in part are anticipated large expenditures by

federal, state and local governments. The economist says he "fails to see how any drastic drop in general prices can occur so long as government spends so freely and so long as demand for heavy goods such as steel and automobiles continues."

Demand for agricultural products during the next several months is expected to improve moderately. However, increased market supplies for a number of products will partly offset the somewhat stronger demand. The current year is expected to be another good year for farmers but net income will be down from the last two years and farmers will not be as good customers as they have been, Bauman says.

MENTONE TEAM SECOND IN POULTRY JUDGING

Mentone came out second in the poultry judging contest held at the Nelson Poultry Farm at Burket Tuesday evening. They scored 2,456 out of a possible 3,000 points. Milford placed first with 2,561 points.

The winning Milford team was composed of Floyd Thomas, Arthur Gilbert and Frank Hoover, with Jesse Beer as alternate. The team is coached by Marion Stackhouse.

Mentone's team, coached by Philip Lash, was composed of Forst Dunnuck, Philip Shilling and Floyd Thomas. The Alternate was Lloyd Thomas.

Other teams, their coaches and scoring was:

Warsaw, third, Cloyd Dye coach, 2,378 points.

Pierceton, fourth, coached by Jack Shore, 2,265 points.

Monroe Township, fifth, coached by Amer Koontz, 2,138 points.

Beaver Dam, sixth, coached by Sam Norris, 2,122 points.

High individual scoring was:
Floyd Thomas, Milford, 867.
Arthur Gilbert, Milford, 862.
Forst Dunnuck, Mentone, 850.
Dale Land, Warsaw, 845.

Assistant County Agent Bill Johnson was in charge of the contest.

Crappie Family

The chief difference between the black and white crappie is that the white variety has six spines in the dorsal fin and a plain anal fin while the black has seven spines in the dorsal and a strongly reticulate anal fin. Outside of these two exceptions the two crappies are almost identical in appearance. Each reach a maximum length of 12 inches and weigh slightly more than one pound. Like other members of the bass family, crappie are nesting fish and their spawning habits are similar to those of the bluegills.

LEGION SELECTS BOYS FOR HOOSIER BOYS STATE

At the regular Post meeting Tuesday night, the Mentone American Legion selected the two boys they are going to send to Boys State at Indianapolis June 11 to 18 inclusive.

Forst Dunnuck of Mentone school and Richard Jamison of Burket school were selected. Norbert Darr and William Lowman were packed as alternates.

During the twelve years the Indiana Legion Posts have conducted this Boys State, over 5,000 boys have attended. This year 425 boys will convene there for a full week of work, fun, training and comradeship.

You will hear more about this Americanism program from the Mentone Legion Post and the two boys who attend the school.

ATTENDS COLLEGE OF PHYSICIANS

Dr. and Mrs. Dan Urschel returned to Mentone last Sunday, after spending the previous week in New York City, where Dr. Urschel attended the annual meeting of the American College of Physicians. The College is composed of Specialists in Internal Medicine, and this meeting held at the Waldorf-Astoria Hotel, was attended by some 5,000 members and guests. Of especial interest in the Atomic Age were the reports of the use of numerous radio-active chemicals in the treatment of certain diseases. One of the most successful of these has been radioactive iodine, which is used in the treatment of inward goiter and also in the therapy of cancer of the thyroid gland. Radioactive products have also been used extensively in research, particularly as reported in diseases of the blood. As usual, heart disease occupied a major portion of

the program, and Dr. Urschel attended clinics on this subject at Presbyterian-Cornell Medical Center and at Mt. Sinai Hospital, as well as several group discussions held at the Waldorf-Astoria. Others from this area who attended the meeting were Drs. Culp, Ferguson, and Williams, of the Duemling Clinic and Drs. Nickel and Durrence of the Caylor-Nickel Clinic at Bluffton.

FARM PLANNING HELPS IMPROVE FARM PROFITS

Techniques of agricultural production have developed to the point at which farm planning has become a necessity if maximum returns from farm operations and permanent productivity of the farm are to be realized.

In a discussion on choosing the farm

site in the new Purdue University Extension Service bulletin "Developing the Farmstead," R. B. Hull, extension landscape architect and author of the bulletin, says that the best use of the farmstead is insured by a central location on the farm since this shortens travel to the fields, usually reduces fences and length of lanes as well as water lines from the farmstead

to the fields. Additional considerations in locating the farmstead are accessibility to the highway, location of rough land, attractive outlook and requirements for health, such as water supply and protection which may be supplied by taking advantage of woods to the north and west.

A section of the bulletin on locating the important areas includes the living area with consideration to be given for locating the house, drives, garage, and the electric service. A major portion of the bulletin is given to planning the barnyard buildings and lots, the dairy unit, the beef cattle and hog feeding lots as well as housing for hogs and grain storage. Each unit is analyzed individually by the author.

The 45-page publication is generously illustrated with photographs and diagrams. A feature of the section on remodeling the farm is the aerial view of a farmstead with lines indicating chore routes necessitating a 1000 miles of walking a year. Better planning cut the walking in half. Numerous charts showing possible solutions for improving a number of farmsteads which may serve as guides to the reader who

contemplates changing the farmstead are included in the bulletin. Copies of the bulletin are available, free, from the office of the county agricultural agent or the University.

Mint supply apparently has caught up with demand and production increases are likely to bring lower prices, according to information received at Purdue University from Oregon State College. Oregon is the leading mint producing state. Mint oil production in the United States in 1948 was the largest on record. The increase was in spearmint grown in Indiana and Michigan. Major use of mint oil is in the flavoring of candy and gums, manufacture of which is leveling off.

PRINTED IN THE MODERN PLANT OF THE COUNTRY PRINT SHOP

BUYING HOUSE DRESSES TO GIVE SATISFACTORY WEAR

Before a homemaker buys a ready-made house dress, she should examine the fit, construction, and material, say Miss Meta Martin and Miss Frieda Stoll, extension clothing specialists at Purdue University. They stress that these points are important for a house dress to be attractive, fit comfortably and wear well and that a dress in

which a homemaker spends so many working hours is worth a few extra minutes at buying time.

A study of 46 ready-made cotton house dresses was made by the Bureau of Human Nutrition and Home Economics in cooperation with Purdue University and Ohio State University. The home economists found that price is often a poor indication of quality. Laboratory tests showed particular weaknesses in the stitching of armhole seams and this stitching broke in two-thirds of the dresses when pulled by hand. Two-thirds had noticeably irregular lapels; many of the collarless dresses were finished unevenly and 30 of the 46 dresses studied had from one to ten defective buttonholes.

The homemaker should always try on the house dress before making the purchase. Then she can check for a comfortable fit around the hips, bust and upper arms. The waistline should be at the normal body waistline. The skirt should be a becoming length. The side seams should follow a straight line to the floor. Reaching to an imaginary shelf, she can test for room-

iness in the house dress and when she sits down, she will notice the fit.

Labels should be read for information on color fastness and shrinkage, the Purdue clothing specialists recommend. The seams should be examined to see if there is enough width for outlet if necessary, and for strength of stitching.

Collars or lapels should be examined carefully. They should have neat edges, and be cut and sewn as a matching pair. A belt made of the fabric instead of imitation leather will launder like the dress and it will also wear longer. Few women wear the contrast belt to good advantage. Often the imitation one is too hard and stiff. The buttonholes should be evenly placed on double thickness of fabric and buttonhole stitched close enough for long service.

BOUDREAU PEPS UP WITH A HAMBURGER

Lou Boudreau, player-manager of the world champion Cleveland Indians, takes time out between workouts to pep up his energy with a hamburger and a glass of milk. Lou's favorite sandwich is a hamburger deluxe, prepared like this: Add a teaspoon of grated onion to each tablespoon of softened butter or margarine. Spread on split hamburger bun. Make the sandwich with hot seasoned hamburger, lettuce, and chili sauce or relish.

SPECIAL ORDER OPENS
SEASON FOR FISHING

There will be no closed season this year on pan fish such as red-eared sunfish, bluegill, yellow perch, rock bass and crappie. This good news for fishermen was brought about through the issuance of a director's discretionary order signed by Kenneth M. Kunkel, director of the Indiana Department of Conservation, and H. P. Cottingham, director of the Division of fish and game. The order will continue in effect until December 31, 1949.

The season was open year round last year in order that the Indiana Lake and Stream survey conducted by Dr. W. E. Ricker, Indiana University, might be concluded. Dr. Ricker, following a conference with Mr. Kunkel and Mr. Cottingham, concluded that more time was needed in which to further continue an exhaustive study of the matter. Heretofore the season for fish mentioned above has been closed from

May 1 through June 15. The discretionary order, however, does not affect the closed season on bass, and other game fish not listed.

Dr. Ricker pointed out that during last summer, checks made by his field men of the bluegill fingerling production showed good quantities of young 1948 bluegills present in 25 representative lakes sampled.

However, he explained, that was only one year. The success of the fish hatch varies greatly from year to year. A sudden cool spell after the eggs are laid may kill a great many nests. Only favorable weather can bring off a good hatch even when the supply of breeders is limited. For a completely satisfying test of the open season, Dr. Ricker said he was convinced that it should continue in operation for another year. For best results, he said, the open season should be compared with closed seasons that occur within the same period of years.

To accomplish this, Dr. Ricker said, the season should be declared open for the year. It is planned to follow up with two closed seasons in 1950 and 1951. By thus alternating, the effects of the weather can be averaged. The production of young each year can be estimated by trial seining as was done in 1948. Another and better estimate of the relative productions of open and closed seasons then will be made when these first grow big enough to be caught. The number of fish produced by open seasons can be compared he said, with the number produced by closed seasons. If the open season has a consistently poor record, then

the open season experiment can be considered a failure. If they do as well as in the closed season, he pointed out, then the closed season will be discarded as useless.

"It was decided to issue the discretionary order," Mr. Kunkel said, "in order to encourage the removal from state waters of certain legal sized fish that have reached the age of maturity, thereby providing more natural food for the young of such species produced in such waters or introduced from artificial sources in all areas of the state. Mr. Cottingham and I conferred with other members of the Indiana State Conservation Advisory Committee. The order was issued following a public hearing conducted in this office.

"We wish to make it plain that nothing in this order shall change the laws and/or the rules and regulations governing the size of fish that may be taken or possessed, the daily bag or possession limits pertaining to the above mentioned fish or the method of taking."

LOCAL NEWS

Mrs. George McIntyre is somewhat improved.

Mrs. Myrtle Davis called on Mr. and Mrs. Clarence Leininger Sunday afternoon.

Mr. and Mrs. Clarence Horn and family, of near Rochester, were Sunday dinner guests of Mr. and Mrs. Howard Horn and family.

Devona Lynn, nine-weeks-old daughter of Mr. and Mrs. Robert Flenar, is in the McDonald hospital. She is suffering with a virus infection. Her condition is improved and she is expected to be returned to her home in a day or two.

Mrs. Charles Tucker spent Wednesday afternoon with Mrs. Mildred Flenar.

Mrs. Maggie Dillie has returned to her home in Mentone after spending the past five months in Columbia City.

Lloyd Boyll is spending this week in services at Indianapolis. Mr. Boyll's mother, of Terre Haute, is spending the week here at the Boyll home.

Mr. and Mrs. Gerald Pretz and son and Miss Ruth Moore, of Ft. Wayne, visited relatives and friends here Sunday.

Mr. and Mrs. H. Glen Tunes and daughter Jo Ann, and Mr. and Mrs. F. G. DeWitt spent the week end at the home of their parents, Rev. and Mrs. E. E. DeWitt.

Mrs. Elmer Quier was brought to her home Sunday afternoon from the Woodlawn hospital at Rochester. She is convalescing from a major operation.

Mr. and Mrs. C. E. Jones, of St. Johns, Ohio, spent Friday in Mentone visiting the former's father, E. E. Jones, who was celebrating a birthday.

Guests who helped Rev. Silas Hill to celebrate his birthday were Mr. and Mrs. Fred Lemler and daughter, Leah Nell, and Rev. and Mrs. John Knecht, and baby daughter, Catherine Louise who were dinner guests. Afternoon callers were a daughter, Mrs. Earl Whitman, her husband and daughter Betty of Chicago; also another daughter, Mrs. George Krider, her husband and several members of her family of near Columbia City.

Mr. and Mrs. Noble Ploughe of Tipton County were guests of the Rev. David Gossers this past week-end. Mr. Ploughe is principal of the Jefferson Township grade school at Goldsmith where Mr. Gossers taught Music and Art until coming to Mentone.

Mrs. Jerry Robbins, of northwest Mentone, has been on the sick list.

Mr. Sandler, of Richmond, was Sunday dinner guest of his daughter and family, Mr. and Mrs. Kenneth Horn. Other guests during the afternoon were Earl Sanders and his friend of Elkhart, and Charles D. land.

LIBRARY NEWS

Mrs. Ira Borton conducted the library story hour this week. She read two "Little Brown Koko" stories, one of them an Easter story. The children all love Little Brown Koko and all enjoyed the stories.

Girls, we have the back files of Etude Magazine with music selection of all grades. You may keep them all month.

ARRESTED FOR SPEEDING

State Officer Wallace Manrow arrested Donald Coleman, 18, for speeding in Mentone Tuesday night. He is to appear in a justice of the peace court at Warsaw Thursday evening.

MENTONE DOG DIES OF RABIES

Dr. E. D. Anderson reported Wednesday morning that he was informed by telephone that a dog which he had sent to the State Board of Health for a rabies test had died of that disease.

The dog, owned by Dora Taylor, came ill and she took it to Dr. Anderson for treatment. It died shortly and its head was sent in for a test to determine if it might have had rabies.

It isn't known where the dog may have contacted the disease, but it is apparent that everyone must use extreme caution, as we believe it is possible for almost any animal to carry the disease, even rats and mice.

Health Officer Issues Ultimatum

Dr. T. S. Schultdt, county health officer, under date of March 31, issued an order to all law enforcement officials in the county, as follows:

"In an effort to minimize the chances for rabies in this county, I must insist that all dogs not displaying tags indicating immunization against rabies must be destroyed. Immunization inoculations are good for one year."

TICKETS READY FOR

ALUMNI BANQUET

The Alumni Banquet for the Mentone high school will be held on Saturday evening, April 30, at the Community building.

Tickets are now on sale at the Jones Barber Shop, Lemler Store (see Wayne Bowser), Mentone Lumber Company (see Eileen Bowser), Co-Op Mill (see Jean King), Frank and Jerry Smith Store.

The committee urges that the cards be sent back as soon as possible so as to get an idea of the number expected to attend the banquet. If any graduate did not receive a card, it was an oversight, as all who are eligible are urged to attend.

JUNIOR CLASS PLAY

The Mentone Junior Class wish you to keep in mind the date of their play, "The Ready-Made Family," April 27th at 8:00 p. m.

The cast includes Betty Orcutt, Junior Emmons, Virginia Rush, Norbert Darr, Lois Boganwright, Dave Cooper, Norma Blue, Dave Johns, Carolyn Johnson, and Doris Nelson.

Get your reserved seat from any of the juniors for 50c. General admission 40c.

EASTER BREAKFAST

The Junior Choir of the Methodist Church will sing at the 6:30 sunrise service on Easter morning. Following the devotional service, breakfast will be served in the church dining room. The menu will consist of ham and eggs, rolls, fruit juice, and coffee. The meal will be prepared and served by the men of the church. The following have volunteered to serve: Cooks—C. O. Mollenhour, K. A. Riner, C. E. Walburn, Miles Manwaring, Donald VanGilder, Jack VanGilder, Dan Urschel, Denton Abbey, and Merl Linn; Waiters and Dish-washers—Richard Manwaring, Raymond Cooper, F. B. Davison, Charles Manwaring, John Teel, Allen Herendeen, D. L. Bunner, Philip Blue, Lyman Mollenhour, Don Emmons, Rea Ward, and Elmore Fenstermaker. All people of the community are cordially invited to these services.

IGO — BAKER

On Saturday evening, April 9, at 8 o'clock Ned B. Igo, son of Mr. and Mrs. Ernest Igo, was united in marriage to Mary Elizabeth Baker, daughter of Mrs. Clara Baker.

The double ring ceremony was read at the home of Rev. and Mrs. E. E. DeWitt by Rev. DeWitt.

Mrs. Igo is a graduate of the Beaver Dam school. Ned, who is a graduate of the Mentone school, served with the navy and is now employed with the Cities Service Gas & Oil Company.

The young couple expects to make their home in Mentone.

PARENT-TEACHER ASSOCIATION NEWS

On Monday evening, April 18, at 7:30, a meeting will be held at the school building for the purpose of organizing a P. T. A.

Mrs. Floyd Clark, of Hamilton, Indiana, will be here to help us organize.

Each parent and all other school patrons are urged to attend this meeting.

IN WOODLAWN HOSPITAL

Mrs. Orpha Blue entered the Woodlawn hospital, at Rochester, on Tuesday evening and underwent an operation Wednesday morning.

ANDREW EIZINGER

Andrew Eizinger, aged 86, a long-time resident of Marshall county, died at 4:30 a. m. Tuesday at his home there. He had been ill for the past five years due to complications.

Mr. Eizinger, who resided on a farm near Tippecanoe for 38 years, was born June 13, 1862, in Allen county, the son of George and Rosa (Kaufman) Eizinger. On Nov. 28, 1889, he was married at Etna Green to Lucy Shank, who died in 1944.

Surviving relatives include a daughter, Mrs. Elsie Creakbaum, of Bourbon; two sons, Allen Eizinger, of near Mentone, and Orville Eizinger, of near Tippecanoe; eight grandchildren and 10 great-grandchildren. An infant daughter also preceded him in death.

Funeral services will be held at 2:30 p. m. Thursday at the English Trinity Lutheran church at Fort Wayne, of which he was a member. Dr. Paul H. Krass will officiate. Burial will be in Lindenwood cemetery there. The Johns funeral home is in charge.

MORT C. CREVISTON

Mr. and Mrs. Alva Creviston, of Winona Lake, were called to Muncie by the death of Mont C. Creviston, aged 48, the oldest son of Mr. Creviston. He died early Friday morning at the Ball Memorial hospital in Muncie due to a heart ailment.

Mr. Creviston, who was a distributor for the Marathon Oil Company, was born at Swayzee. He had also resided at Marion, Kokomo and Wabash.

Surviving relatives in addition to his father include his wife, the former Eva Spencer; two brothers, Hester Creviston, of Mentone, and Elwin Creviston, of Fort Wayne; a sister, Mrs. George (Nadine) McIntyre, of Mentone, and four nephews and three nieces, also of Mentone. Funeral services were held on Monday at Marion.

PENNY SUPPER NEXT WEDNESDAY

The Band Parents organization is sponsoring a penny supper to be held at the school building next Wednesday evening, April 20th, serving from five until about eight. There will be chicken pie, meat loaf, pie, cake, fruit salad, rolls and coffee.

This supper is being held to attempt to raise enough funds to complete paying for the band uniforms.

BODY OF LEWIS FAWLEY TO ARRIVE THURSDAY

Last rites for Pfc. Lewis R. Fawley, foster son of Mr. and Mrs. Adam Bowen, of Mentone, will be held at two o'clock Saturday afternoon at the Bowen residence. Rev. Victor Stoner, of Wolcottville, will officiate. Burial will be in the Mentone cemetery beside the body of his father, a veteran of World War I, who died when Pfc. Fawley was but five years of age.

A full military service will be conducted by the Mentone American Legion Post No. 425.

The body will arrive in Warsaw on Thursday evening and will be taken to the Reed funeral home at Mentone where it will remain until Friday afternoon when it will be taken to the Bowen home.

The young man died April 5, 1945, at the age of 23 years, while serving in Germany during World War II with the engineering division of the Ninth army led by General Patton.

He was born July 19, 1920, at Mentone, the son of Everett and Ruth Fawley, and resided there all his life until entering the army. His mother died when he was about three years of age.

In addition to his foster parents, Mr. and Mrs. Bowen, surviving relatives include an aunt, Mrs. Logan Van Doran, of Warsaw; two uncles, Ralph Good, of route two Warsaw, and Russell Good, of Argos; his step-grandmother, Mrs. Jay Fawley, also Merl and Carl Fawley, half-brothers of his father, and Esther Fawley, a half-sister to his father, all of Clarksville, Michigan.

IN McDONALD HOSPITAL

Mrs. Maud Entsminger was taken to the McDonald hospital on Wednesday for observation and medical treatment.

RIGID HEALTH STANDARDS AT INDIANA STATE FAIR

Eating stands of the Indiana State Fair were given a "clean slate" by the Indiana State Board of Health and the Indiana State Fair Board following two years of rigid control by the board.

With ten minor faults, found in last year's stands, being corrected by stand operators, visitors to the Indiana State Fair being held this year Sept. 1 through 9, will eat in comparative cleanliness and safety.

F. M. Overstreet of Columbus, Indiana State Fair Board Member in charge of Concession and Dr. L. E. Burney, commissioner Indiana State Board of Health, screened stand operators on what they expected to erect in

the way of stands for the dispensing of foods.

If the operator failed to meet rigid specifications set up by the Health Board he was refused admittance to the Fairgrounds.

During the 1948 fair the Indiana State Board of Health maintained 6 health inspectors and made 2300 inspections.

Their reports found minor faults with only ten stand operators and they have been notified and declared they intend to correct those faults for the 1949 Fair.

According to information received at Purdue University from the Bureau of Agricultural Economics, the February hatch of 144 million chicks was 47 per cent above last February, for the nation. This followed a record of 80.9 million chicks hatched by commercial hatcheries in January, an increase of 54 per cent above last year.

**UNSTEADY OUTLOOK SEEN
FOR BROILER PRODUCERS**

Indiana broiler producers were urged today to review their production and marketing plans for the next few months in view of expected heavy broiler marketings and uncertain storage demand for broilers during this period, by Purdue University extension poultrymen.

Broiler raisers are producing cur-

rently about 50 per cent more broilers than at this time last year. Despite this large increase, prices to producers have been relatively favorable, largely because of lower feed costs and comparatively small supplies of dressed poultry in cold storage. Although prices advanced during February and March, it should be remembered that this increase was seasonal. Broiler prices have declined recently and are expected to remain unsteady during the coming months. It is also pointed out that no price support for broilers will be available this year.

An excessive supply of poultry is expected in late summer as a result of the large output of broilers together with increased marketings of chickens from farm flocks. Farmers generally have stated their intentions to raise about seven per cent more chickens this year than last.

Poultry marketings are always in excess of current consumption during the late summer and fall months. Normally, the surplus is placed in cold storage for use in later months. Present indications are that buyers may hesitate to put substantial quantities of chicken in storage this year, because of uncertainty as to eventual selling prices. Other factors involved in this situation include probable larger mar-

ketings of hens this fall than last, and intentions of turkey growers to raise about 25 per cent more turkeys this year than last.

**BARGAIN CHICKS NOT
ALWAYS RELIABLE**

A warning against purchasing low price, no-sex-guaranteed chicks offered by various radio stations throughout the Midwest is sounded by the Purdue University extension poultry specialists. A number of purchasers of these chicks have found to their sorrow upon a few week's growth that they have secured 100 per cent light breed cockerels, the Purdue men say. Upon reading and seeing the advertisement, the prospective purchaser finds that the chicks were not guaranteed as to breed, or sex and they have undoubtedly paid twice to three times the normal local price for the same type of chick.

Plenty of good White Leghorn cockerel chicks may be purchased from reliable Indiana hatcheries operating under the National Poultry Improvement Plan at reasonable prices. If anyone is desirous of raising a small number of chicks for their own meat production, these hatcheries would be an economical source. The prevailing price is from \$2.00 to \$4.00 per hundred

for day-old Leghorn cockerels.

The Purdue poultry department strongly recommends that purchasers pay attention to dealers from whom they buy their chicks, and buy National Plan chicks for planned results.

Purchasers may inquire of the local county agent for recommended hatcheries.

Protein for Industrial Workers

According to a New York state nutrition survey, most men industrial workers have all the protein they need daily, while less than half of the women do.

MORE ACCIDENTS ARE IN RURAL AREAS

Slightly more than three out of every

four Hoosier traffic deaths in March occurred in rural areas, Arthur M. Thurston, superintendent of Indiana State Police, announced today, as the current state-wide campaign to "check your car, check accidents" continued into the third week. At the same time, records showed a definite improvement in the urban toll.

Total deaths, numbering 216 for the first quarter of 1949, averaged approximately the same as last year's record of 217 fatalities, he said, despite an increase of more than 13 per cent in vehicular traffic flow on Indiana highways. Supt. Thurston attributed the lack of additional fatalities to the combined efforts of city, county and state officials to cut accidents.

"With the approach of warm weather and summer vacations, an even greater increase in traffic is expected on Indiana highways," Supt. Thurston stated, "Which means that drivers must take extra precautionary measures to insure against untimely losses of lives."

He urged all motorists to check their cars, especially brakes, lights and horns, today, and to accept a personal responsibility to observe all safety rules and regulations in future driving.

The urban death toll in March, 1949, dropped 38 per cent over last year for the same month, while the quarterly total was 21 per cent lower than 1948. There were 62 urban casualties in January, February and March of 1949.

One hundred and fifty-four persons lost their lives in rural areas during the same period. This represented an increase of eight per cent over last year!

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Approximately 1,300 microscopic slides representing about 1,000 newly diagnosed cancer patients have been registered in the Indiana Tumor

Registry since it was instituted in October, 1948, by the Indiana State Board of Health in cooperation with the Indiana Association of Pathologists.

"The registry is for the purpose of seeking information on the types and frequency of cancer," Dr. W. C. Anderson, director, Cancer Activities, Indiana State Board of Health, said today. "With this information we hope to know the extent of the disease. During the first two months of this year, cancer caused 886 deaths as compared to 833 and 747 for the same period in 1948 and 1947. Last year cancer deaths totaled 5,183 as compared to 4,932 in 1947. A record of types and

frequency as recorded in the tumor registry will prove valuable in assisting in the control of the disease."

Another educational activity sponsored for cancer control is one-day institutes for public health, hospital, industrial and school nurses. These meetings have been held at Columbus, Fort Wayne and South Bend, with a meeting at Muncie scheduled for April 14. Preliminary plans have also been made for similar institutes at Evansville and Gary.

The institutes include panel discussions of nursing problems relating to cancer, and the medical aspects of cancer presented by a local pathologist, radiologist and surgeon.

GRAIN DRILL NEEDS**SPRING CHECKING**

A few minutes spent in checking over and preparing the grain drill before starting it this season will pay big dividends when the spring rush comes. Satisfactory operations, light draft, and long life of the drill can be achieved only through recommended lubrication, correct adjustments, and proper maintenance, according to Ray Lien, farm machinery specialist, Purdue University.

Lien advises that before starting the drill, feeding mechanisms should be checked for freedom of operation. Feed shafts should be turned several revolutions with a wrench to be sure they move freely. If the feed shafts are stuck or do not turn easily, they should be checked for foreign particles in the feeds, and lubricated with kerosene until free movement is obtained. Subsequent lubrication of the feeds should be done with kerosene.

Grease and oil should be removed from inside the fertilizer box and, if evidence of corrosion is present, it should be cleaned and a coat of paint applied. All the fertilizer and seed tubes should be removed and cleaned.

Checking the furrow openers for the proper alignment will aid in good penetration, light draft, and proper seed placement.

Old grease and accumulated dirt should be wiped off and a check should be made for worn parts. All moving

parts should be thoroughly lubricated with the recommended type of oil and grease.

When using seed that has been treated, precaution should be taken to keep the feeds clean and free in operation as treated seed may create enough friction to retard the flow, reduce the quantity and require more power.

Likewise, the farmer should check the drill, tighten the nuts and bolts and spread the cotter pins. Any missing drag chains should be replaced to insure even coverage of the seed.

Necessary adjustments must be made to meet the requirements of the crop to be drilled.

Valuable information pertaining to the adjustment and operation of your grain drill can be found in the instruction book. A few minutes reading it over may save you both time and money.

EGGS SOLD AS "FRESH"**NOW MEET REQUIREMENTS**

Mrs. Indiana Consumer will know, from this date on, that the retailer who offers eggs as "fresh" is co-operating with the provisions of the Indiana fresh egg law, if he displays a state permit to sell such eggs. To hold this permit, the eggs must meet state inspection for minimum standards of freshness, E. R. Menefee, marketing specialist at Purdue University, states.

However, if Mrs. Consumer's retailer

is not a cooperator, she may expect to buy eggs "as just eggs" with no assurance of size and quality. Selling such eggs as "fresh" is prohibited by the law enacted by the last session of the Indiana General Assembly.

"We are expecting this program to be very popular among consumers as well as distributors and producers. In the end it will encourage increased consumption of high quality eggs in Indiana," Clarence Schmidt, Crown Point, president of the Indiana Egg Board, said.

"Both producers and distributors have indicated to the board their intentions to co-operate by offering a program assuring egg quality to consumers. We are expecting thousands of independent and chain-store retailers and wholesalers to co-operate by taking out Fresh Egg permits, legally enabling them to offer high quality eggs to their customers," Schmidt explained.

NEWS — PHONE 38

Visitors to England

Every foreign visitor above the age of 16 who is permitted to stay in Britain more than two months is required to register with police. Visitors who are admitted for a stay not exceeding two months usually are not required to register; it is sufficient for them to enter their nationality and other data in the register of the hotel or boarding house at which they are staying. If on landing, however, the visitor's passport is endorsed with a definite direction to register with the police, he should report at once to the police of the district in which he intends to reside.

AUXILIARY MEETS

A business meeting followed by a social hour was enjoyed by the members of the Mentone Legion Auxiliary at the Legion Home.

During the business meeting the following chairman gave a brief report of the work done in their department. Georgia Cochran, Knightstown Home; Arvilla VanGilder, Service Sales, Louise Kinsey, Rehabilitation also Poppy Club Chairman. Arrangements have been made to have a Poppy window display. This will be in one of the Denton's Drug Store windows.

It was voted to give \$5.00 to the Cancer Society.

Hospital day at the Marion Hospital will be on May 8th. Anyone wishing to attend contact Nell Reed. Let's go for this is one way we can let our veterans know they are not forgotten.

At the close of the business meeting initiation services were held for six new members. They were Mrs. Mae Borton, Mrs. Ernest Igo, Mrs. Lewis Harshbarger, Mrs. Richard Manwaring, Mrs. Kathleen Camplejohn and Miss Mary Davis. Initiation service was conducted by the officers of the auxiliary.

The following program was presented by the program committee Helen Mollenhour, Mariam Shinn and Louise Kinsey; Mary Shirey our child welfare chairman gave an outline of the work and purpose of this department. One of its main aims is "To make your community a better place for children to live." Patty Hudson the High school Americanism essay winner read her essay "What Kind of an American Am I?" Wish we could share this essay with all. A vocal solo "I Heard a Forest Praying" by Emma Clutter. Quartet number "Beautiful Dreamer" by Helen Mollenhour, Martha E. Ellsworth, Kate Whetstone and Emma Clutter. Our song of the month "Old Dog Tray" was sung in unison. Piano accompaniment for all numbers was Mrs. Maude Snyder.

Delicious refreshments were served by the refreshment committee: Lucile Teel, Margaret Linn, Opal Nellans and Phyllis Williamson.

SALE APPROVED

Sale of a Mentone property by John D. Widaman, commissioner named as result of a circuit court partition action, to Byron Nellans for \$3,000 cash has been approved in circuit court. The property, two half lots in the northern part of Mentone between Tucker and Broadway streets, was owned equally by Elvia Wilson, the plaintiff and Walter S. Wilson, a defendant.

JOLLY JANES HOME EC. CLUB

The Jolly Janes Home Economics club held its April meeting on Monday evening at the home of Mrs. Iris Anderson.

During the business meeting it was decided to give \$5.00 to the Cancer Fund. A trip to Chicago is planned for May 18.

The lesson on "Food Care and Choosing Correct Shoes" was given by Mrs. Esther Markley.

Mrs. Helen Mollenhour was assisting hostess.

CARD OF THANKS

Mrs. Alice Middleton wishes to thank her friends in Mentone and vicinity for the birthday greetings she received from them on her eighty-eighth birthday. They totaled over one hundred.

FRIENDLY NEIGHBORS

The Friendly Neighbors Home Economics club met at the home of Mrs. Beryl Jefferies on April 7. Assistant hostess was Thelma Eaton.

Meditation was given by Helen Rookstool.

A lesson on "Care of the Feet and Proper Shoes" was given by Marie Denton.

Refreshments in keeping with Easter were served.

Twelve members were present.

The next meeting will be on May 5, at 7:30 at the home of Bernice Ballenger. This will be a Mother's Day program and each member is to bring a guest.

Watch for Rexall 1c sale next week Thursday, Friday and Saturday at Denton's Drug Store in Mentone.

Dr. Dan Urschel attended the Elkhart County Medical Society meeting in Elkhart last Thursday evening. Dr. Ben Goodrich of Henry Rord Hospital presented a paper on Coronary Artery Disease. Dr. Goodrich was one of Dr. Urschel's instructors in heart disease, and following the presentation of the paper, he called on Dr. Urschel for comment.

EVERFAITHFUL CLUB

The April meeting of the Everfaithful club met at the home of Alice Brugh with 15 members and one guest present.

Plans for a club trip were discussed. With the calling of the roll each member handed in seeds, bulbs or a plant which was later auctioned and the proceeds of this auction went into the

club treasury.

The club enjoyed playing buncos with the traveling prize going to Wilma Tucker an April Fool. Later she was given a very lovely gift. Other prizes went to Vera Black first; Lena Igo, second, and most buncos. Very delicious refreshments were served by the hostess. Then each member left with the gardening idea in mind as a result of the day's auction.

CHICAGO "RED" DROPS SUIT AGAINST LEGION MEMBER

Chicago, Ill.—The \$25,000 slander suit brought against Legionaire Stephen Lisowski, 26, by James Balanoff, Jr., 26, self-confessed Communist, has been dropped by the plaintiff in Cook County Circuit Court here. The costs were assessed against Balanoff. The suit grew out of the ousting of Balanoff by the South Chicago Post 493 of The American Legion on November 3, 1947, on the grounds he was a Communist. Balanoff admitted publicly that he was a Communist but sued Lisowski, member of the post, for slander on the charge he had been referred to as a Moscow agent. Lisowski was defended by Attorney Elliodor M. Libonati, department Americanism chairman of the Illinois American Legion. Department Commander William G. Burns and Libonati in commenting on Balanoff's motion to dismiss the suit, said, "This is one of the first instances where an admitted Communist was afraid to present himself before a U. S. Court because

of the pitiless glare of publicity that would be his lot."

ENTERTAIN PSI IOTA XI

SORORITY

Mrs. Curtis Riner, of east of Mentone, was assisted by Mrs. Max Nellans in entertaining the Psi Iota Xi sorority at the recent business and social meeting. In the business session it was decided to contribute \$5 to the Cancer Society. Reports from the Red Cross drive at Mentone, conducted by the sorority, showed that the amount of \$324.39 was collected. Bridge was played during the social hour in which Mrs. William Hudson won first prize. Mrs. Riner was the winner of the door prize. Refreshments in keeping with the Easter season were served by Mrs. Riner and Mrs. Nellans. Others present were: Mesdames Earl Anderson, Lyman Mollenhour, Harold Utter, Ralph Ward, Ralph Mollenhour and Elery Nellans and Miss Annabel Mentzer.

Easter cards, assorted mixed nuts and Easter Candy at Denton's Drug Store in Mentone.

Mrs. Vernon Jones spent last Friday in Warsaw visiting with her aunt, Effie Styles.

Because of an attack of influenza, Rev. Silas M. Hill has been confined to his bed since Tuesday of last week.

Mrs. Ivan Tucker, Mrs. Robert Rieboldt and Mrs. Ira Borton spent Saturday in Stevensville, Michigan at the M. Long Nursery.

HOW TO FIX IT

By TOM GREGORY

HOME OWNERS WHO HAVE CISTERNS WILL FIND THIS SELF-CLEANING STRAINER A SOLUTION TO THE PROBLEM OF KEEPING THE EAVE CONDUCTOR PIPES FROM CLOGGING. CUT AN OPENING IN ONE SIDE OF THE PIPE JUST BELOW THE TIN BAFFLE PLATE SOLDERED INSIDE.

SOLDER SEVERAL STIFF WIRES TO THE OPPOSITE SIDE OF THE PIPE WITH THE FREE ENDS PROJECTING OUT OF THE OPENING AT AN ANGLE. LEAVES AND TRASH WILL SLIDE DOWN THE WIRES AND OUT THE OPENING.

IF YOUR KITCHEN CHIMNEY IS BLOCKED OFF FROM THE WIND BY A HIGHER PART OF THE HOUSE IT ISN'T NECESSARY TO PUT A LONG EXTENSION PIPE ON IT TO PREVENT DOWNDRAFTS. A SHEET-IRON SHELF SUPPORTED ABOUT TWO INCHES ABOVE THE TOP OF THE CHIMNEY IS JUST AS EFFECTIVE AS AN EXTENSION PIPE IN PREVENTING DOWNDRAFTS AND IS NOT SO LIKELY TO BE BLOWN OVER BY HIGH WINDS.

4-H REPORT OF 1948 SHOWS STEADY GAINS

Indiana 4-H clubs can expect sizable increases in all fields in 1949, according to trends revealed in the 1948 Annual Statistical Report of 4-H Club Work in Indiana, made April 1, by Harold Taylor, state leader of club work.

In step with increased enrollment which rose last year to 63,510 boys and girls, were the increases in the number of both adult and junior leaders. A total of 9,515 adults and juniors led clubs in 1948 compared with 8,746 a year ago.

"Improvement in quality of club work was particularly gratifying," Taylor said. "Although the numbers increased, there was a larger percentage of members who completed projects.

The girls do a little better than the boys in finishing a job. Almost one third more counties received plaques for outstanding county programs in 1948, compared with 1947. A total of 44 counties met requirements for the program award," the state club leader reported.

The boys and girls continued to divide their interests among all of the agricultural projects, and every project with the exceptions of poultry and farm management showed larger enrollments than in 1947.

However, the girls shifted their interests slightly, with the largest gains in the baking projects, and the food preparation group was second in favor. The number enrolled in clothing projects dropped slightly for the first time.

UNWANTED WOODY PLANTS KILLED BY NEW CHEMICAL

A new material to be known as 2,4,5-T now joins the family of weed killers. Prof. Oliver C. Lee, weed specialist at Uurdue University, said that the new chemical has shown considerable promise for the killing of blackberry briars, thorn bushes, osage orange sprouts, and general hardwood species not commonly killed by the well known weed killer 2,4-D.

The new chemical will not replace 2,4-D, but its use is suggested on

several woody plants that are not killed by 2,4-D. Lee recommends that the material, 2,4,5-T, be used as a spray at the rate of approximately one quart of the chemical in 20 to 25 gallons of water. Sufficient spray solution should be applied to wet all vegetation. Best results are obtained when spray is applied after leaves appear on the bushes.

ENTOMOLOGISTS FIGHT RED STELE BERRY DISEASE

It may be a bit early for the rest of us to be thinking about those "red-ripe strawberries,"—not so with the Division of Entomology, of the Indiana Department of Conservation.

Within the next two or three weeks representatives of the entomology division will begin an annual Spring inspection of strawberry plants which will eventually be sold. They'll be looking for Red Stele, a serious root disease that seems to have an affinity for strawberries.

Paul T. Ulman, assistant state entomologist pointed out that this disease will infect strawberries growing in wetter-type soils and will eventually completely kill out the plant.

Every effort is being made to prevent the spread of this disease by plant inspection and certification of disease-free stock.

The southeastern section of Indiana seems to be the center of most of the red stele activity, primarily because it is the largest strawberry-producing area, and entomologists have concentrated a great portion of their efforts in that vicinity.

JAP BEETLE POPS UP AT RICHMOND

That deadly and insidious little insect the Japanese Beetle has reared its ugly head at Richmond, Ind., according to officials of the Indiana Department of Conservation.

For the past two weeks James A. Clark and John J. Pavinger, assistant state entomologists have been treating the soil with DDT to kill the grub worms and stamp out the beetle. The entomologists point out that it requires 50 pounds of 50% wettable DDT per acre, to properly treat the infected soil.

The regular trapping program carried out by the state entomologist's office and the U. S. Department of Agriculture, will get underway in July,

at which time officials will determine whether there have been any new infestations and whether the old ones have been stamped out.

The Japanese Beetle was first discovered in Indiana in 1934 and since that time it has been the duty of the entomologist to provide treatment for the beetle in order to prevent a build-up or spread of infestation.

Dangerous Mosquitoes

Over a dozen kinds of mosquitoes, as well as other types of blood-sucking parasites, are capable of transmitting sleeping sickness to horses.

Total Spending Rising

Total spending in the United States is continuing to increase along with personal income. Total spending reached an all-time peak in 1947 of more than \$229 billion and may hit a rate of \$247 billion in the second half of this year. Personal income is likely to climb from \$205 billion a year to a rate of \$211 billion a year for the second half of 1948.

Cables Thanks For CROP Food Trains

BREMEN — Dr. Eldon Burke, supervisor of much of the distribution of CROP Food train commodities received here, today cabled officials of the Christian Rural Overseas program in America that "we are greatly encouraged by the success of your 24 state Christmas trains, composed of 2000 carloads of foodstuffs."

Burke said that most warehouses in Northern Germany were empty and that orphans, widows, refugees, and old people were in greater need than last winter.

He concluded: "Your decision to conduct CROP campaigns in all 48 states in 1949 will certainly help us in rehabilitation and in building for peace."

CROP is sponsored by Catholic Rural Life, Church World Service, and Lutheran World Relief.

Advice for Swimmers

Swimming is fine exercise for those in proper physical condition, but those who are not feeling well should stay out of the water, especially out of deep water. It is wise to wait for a time following meals before entering the water and a person should not swim if overheated. It is dangerous to dive into strange water where depth and condition of the bottom are unknown.

2,4-D RECOMMENDATIONS GIVEN FOR TURF AREAS

If dandelion, buckhorn, or other broad-leaved weeds mar the landscape, a spraying with 2,4-D is in order. Spraying should not be done, until weeds have started to grow or until after first signs of spring weather.

The chemical weed killer is effective in eradicating broad-leaved weeds in turf areas. Prof. O. C. Lee, Purdue University weed specialist, says it will not only destroy the tops but will completely eradicate the roots of the most troublesome weeds. The amount necessary to kill these weeds will not injure bluegrass. Recommendations on an area basis advise three-fourths of a pound of 2,4-D acid. The amount is sufficient to destroy the dandelions and other broad-leaved weeds on an acre of turf.

The average lawn of approximately 10,000 square feet will require about one-fourth pound of 2,4-D or one-half pint of a 40 per cent amine 2,4-D preparation. Either the crystalline or liquid chemical should be mixed with

sufficient water to enable the operator to spread the mixture over the area. If a small sprayer with a commercial nozzle is used, about ten gallons of spray per 10,000 square feet of lawn surface is sufficient. If this amount is used, a solution should be made by mixing one-half pint of a 40 per cent preparation of 2,4-D with ten gallons of water.

When spraying a lawn, caution should be taken to prevent the spray from drifting onto plants or shrubs that may be injured by the weed killer. Drifting can be minimized by applying the spray under low pressure.

Purchase of 2,4-D can be made from most local dealers handling lawn seed and implements.

TWO PAY FINES FOR SPEEDING IN TALMA

Two persons paid fines and costs in Rochester city court for speeding through Talma late Tuesday night.

Edward Rose, 23, was arrested on a similar charge in January, and was fined \$15 and \$10 in cost.

Carol Jean Cooper, 19, who was allegedly chasing Rose in another car, received a \$5 fine and paid \$10 in cost. Both were arrested by State Trooper Wallace Manrow.

Description of a new primary noxious weed for Indiana and warnings to seed buyers and dealers, are included in the new circular, "Inspection of Agricultural Seeds" released by the Agricultural Experiment Station of Purdue University. The circular lists agricultural seeds prohibited from sale, the overall results of sampling of state seed inspectors, explanation of the federal seed act, and results of individual tests. Copies are available from the office of the county agricultural agent.

PLEASANT VALLEY COMMUNITY CLUB

Pleasant Valley Community club met at the home of Mrs. Clyde Harvey Wednesday afternoon. The meeting was opened by singing a group of songs followed by the pledge to the flag.

Roll call was answered by assigned topics by 16 members. Four children were also present.

Five dollars was donated to the cancer fund and a report of the Club Federation was given by Mrs. Kermit Biddinger.

Easter poems were read by Mrs. Devon Eaton and a reading, "My Last Roller Coaster Ride" was given by Mrs. Orval Long. Mrs. Albert Elsert gave a reading "The Old Straw Tick."

A solo, "You Call Everybody Darling" was sung by Gary Harvey and an auction of make and bake articles was held. Dainty refreshments in keeping with Easter were served.

Mastiff on U. S. Stamp

According to some accounts, one mastiff and one spaniel landed from the Mayflower in 1620. On a U. S. Columbian exposition stamp of 1893, Columbus is shown demonstrating to listeners with the aid of a globe. In the foreground lies a mastiff, perhaps the only dog so far honored with a place on a U. S. stamp.

SOCIAL SECURITY PAYMENTS ON NATIONAL AVERAGE

"Retired workers who are entitled to Old-Age and Survivors Insurance receive an average payment of between \$25 and \$26 per month," Gerald Kelter, Manager of the Elkhart Field Office of the Social Security Administration announced today.

"The average payment in the Elkhart, LaGrange, and Warsaw area is about the same as the national average," Mr. Kelter stated.

"During the three months of January, February, and March, more workers in the Elkhart area filed their claims for benefits under the Social Security Act than for any previous three month period in the 10-year history of the local field office."

HOUSES ON THE MOVE

Paul Rhodes, who purchased the Russell Eber home last fall, has the building on its way to a new location about 300 feet northwest of its present location. Workmen are using a winch and steel cable to move the building on planks and rollers. The Ebers plan to build a new home on the spot where the other house once stood.

Roy Rush has the foundation started on a new home just west of the Walter Lackey residence, and Charles Manwaring has a lot of dirt dug out for the basement of his new home, east of town and just off highway 25 south.

ATWOOD DEFEATS MENTONE

The Atwood high school softball boys defeated Mentone Tuesday evening by a score of 8 to 5 in 13 innings. The score was tied at five all when the regular playing period ended.

FISH FRY AT TIPPECANOE

The Tippecanoe Conservation and Gun Club will hold a fish fry on April 20th at the club hall, starting at 7:30.

LIBRARY NEWS

We wish to express our thanks for the many fine books we have received as gifts. Among recent donors are: Larry Manwaring, Miss Jolaine Smythe, Eugene Walk, Lawrence Elick, Mrs. Irvin Nelson and Mrs. Robert Firkins. We also received a work table from Mr. and Mrs. Vance Johns.

In place of the library story hour this week, the first five grades were given an Easter program on Wednesday afternoon. Denton Abbey showed slides depicting the life of Christ, and Mrs. Grace Lewis read the scripture to accompany the slides.

We have a new Cokesbury shower book with much information on weddings, stork and seasonal showers and wedding anniversaries, including invitations, decorations, games and menus.

WHEATON COLLEGE

BAND ON TOUR

The Wheaton College Band is taking an eleven day tour into Canada, according to word received by Mr. and Mrs. Raymond Weirick.

Bedelia Belle Weirick, their daughter, attends Wheaton College and is a member of the band.

On April 18, the Wheaton College Band will give a concert at the Elkhart high school auditorium, at 7:30.

FROM THE VAN CURENS

Dear Mr. and Mrs. Cullum:

We finally arrived in Havana, Cuba. Sure some city. We rode the big sea ship all night. We are staying at the Royal Palm hotel, in the heart of the city. Wish you were here to see it. Our guide took us out in the country today. Sure beautiful.

THE VAN CURENS

CORRECTION

The Church of Christ Bible School will begin on May 16 and continue through April 27.

"READY MADE FAMILY" TO BE PRESENTED

The Junior Class of Mentone are presenting a three act comedy, "Ready Made Family" April 27, at 8:00 p. m. at the community building.

The cast includes: Norma Blue, Begonia; Dave Johns, Nicodemus; Doris Nelson, Agnes Martlyn; David Cooper, Henry Turner; Virginia Rush, Maralee; Junior Emmons, Bob; Betty Orcutt, Gracie; Norbert Darr, Sammie; Lois Boganwright, Doris; and Carolyn Johnson, Aunt Lydia.

In between acts, Lloyd and Floyd Thomas will entertain with several numbers on their Hawaiian guitars.

Reserved seats may be purchased from any of the Juniors for 50 cents; general admission will be 40 cents.

SMITH BROS. TO CLOSE GARAGE

Leroy Cox has purchased the building in which the Smith Bros. have operated a garage the past several years, and Max Smith states that the last open-for-business day will be this coming Sunday.

Mr. Cox plans to use the building for his Plymouth and DeSoto agency.

Mr. Smith, being unable to secure another building, or a suitable building lot, plans to store his parts and equipment until such time as he can either locate a building or find a location in some other town.

SPRING CONCERT ON MAY 6

The annual spring concert of our high school music department is being planned for Friday evening, May 6.

The band and high school chorus, will present a varied program. This will be announced shortly.

CLUB CALENDAR

Mentone Alumni Banquet—Saturday evening, April 30, at the Community building.

The D. A. R. will meet with Mrs. Everett Rathfon on Tuesday, April 26 at 7:30.

The Women's Society of Christian Service will meet for their regular monthly meeting at the Methodist church, Monday evening, April 25, 7:30 instead of Wednesday evening.

ATTENDED LEWIS FAWLEY SERVICES

Those from out of town who attended the funeral service of Pfc. Lewis R. Fawley were:

Robert Hamman, Winimac; Mr. and Mrs. Herbert Hamman, Kewanna; Mr. and Mrs. C. O. Blue and Jane and Janet Boggess of Macy; Levi Henderson of Culver; Mrs. Lizzie Spitler, Ellis Cormican, Mr. and Mrs. Russell Good and Esther Smith of Argos; Mr. and Mrs. V. B. Fisher and Bucky Miller of Tippecanoe; Mr. and Mrs. Elmer Bowen of Bremen; Mr. and Mrs. Lee Blue, daughter Sharon and son Myron and Carol Becknell, of Bourbon; Mrs. Adam Martin of Atwood; Mr. and Mrs. Ernest Neldig and Ralph Burt, also of Bourbon; Homer Warren, of Claypool; Mrs. Neva Teel and John Irvin, Burket; Mrs. Dora C. Weitz, of Fort Wayne; Mrs. Ervin Staton, and Mr. and Mrs. Chas. McPherson and daughter Helen of Mishawaka; Mr. and Mrs. Earl Biffo and family of Osceola; Edward Summe, of Silver Lake; Mr. and Mrs. Wm. Shanes, Ralph Good, Mr. and Mrs. M. G. Fawley, Wm. E. Fawley, Mr. and Mrs. Steve Dasha and son Johnnie and Mr. and Mrs. L. G. VanDor-an, of Warsaw.

HOME FROM HOSPITAL

Mrs. Maud Entsminger was able to be brought to her home Wednesday. She underwent a major operation on last Thursday at the McDonald hospital.

P. T. A. ORGANIZED

At the Parent-Teacher Association organization meeting held this last Monday evening, the following officers were elected:

President, Mrs. Dan Urschel; First vice-pres., Maurice Dunnuck; Second vice. pres., Donald Boggs; Secretary, Mrs. Charles Creighton; Treasurer, Mrs. Conde Falburn.

Regular meetings are scheduled for the fourth Wednesday of each month, from September through April. Various committees will be set up, and our P. T. A. will begin functioning next fall.

Mrs. Orpha Blue, who is a patient at the Woodlawn hospital, will be there for another week.

LIGHTNING GETS "KITTENISH"

Undoubtedly most Mentone citizens will remember the terrific "crack" of lightning last Thursday afternoon, and possibly like most of us, wondered just where it hit.

We still can't tell you exactly every- place it hit, but we have a few citizens who never want it to come any closer. The bolt blew out the stoker controls and radio at the Mentone Lumber Company. Arlo was putting glass in a steel window sash and there was too much fire for him. Another employee had an electric saw jump out of his hand and the electric power lines were putting on a few gymnastics. At Frank & Jerry's grocery a ball of fire seemed to drift down an inside water pipe and disappear in the floor, while Merl Linn, over at the Standard Oil bulk station was just opening a valve when the stroke hit. Merl was some distance from the valve when the noise was over, but unhurt.

We're quite a ways from the Missis- sippi, but to paraphrase, "Lightning, stay way from my door."

NOTICE OF TIME CHANGE

According to word from Bishop Raines, all Methodist churches plan to continue their services on standard time, but each pastor may use his own wisdom in this matter. Rev. Gosser is announcing that, beginning this Sunday, all services will be one hour earlier, on standard time, which means that church will convene at 9 o'clock Central Standard Time. This plan is subject to change.

HENTZE & GAU, INC., WRITE MENTONE EGG OFFICIALS

The local committee in charge of establishing new protective practices for the egg shippers of the area, recently received a fine letter from Hentze & Grau, Inc., one of the New York receivers. The firm states that it is signing the agreement submitted by the local committee and is taking out a bond in Indiana.

An expression of this sort, from one of New York's prominent receivers, is indeed very encouraging to the local committee and shippers. It is a commitment of trust and indicates that the firm's policies are such that they are not hesitant about subscribing to a program for the complete protection of the shipper.

TIME ON OUR HANDS; BUT WHAT TO DO WITH IT IS THE ?

This week end Daylight Saving Time is scheduled to go into effect in all cities of the area (except Fort Wayne and Auburn that have ordinances to start it the last Saturday night of the month.) The general opinion throughout the state is that the faster time is desired, but the fact that the last legislature cut in on its desk-doodling long enough to pass some sort of a complimentary resolution, confusion is abounding on every hand.

As far as we are personally concerned it doesn't make a particle of difference. If I want to quit earlier in the day I just start sooner—or come back and put in six or eight hours after dark. Most industries, too, have no objection to moving their daily work schedules ahead, and the farm folks have been moving their clocks up each summer since grandpa was in kindergarten.

Indications are that the Mentone area will be on Daylight Saving Time, Starting Sunday morning, just like all the other parts of the state and nation.

RUSH-FOWLER

On Sunday afternoon at 2:30 Norma Frances Fowler, daughter of Mr. and Mrs. Ernest Fowler, of North Manchester and Paul Rush, son of Mrs. Ray Rush, of Mentone, were united in marriage. The double ring ceremony was performed in the Congregational Christian Church of North Manchester.

Mrs. Rush is a teacher in the Larwill school and Paul is completing his senior year at Manchester College. They will reside in North Manchester.

FRANKLIN TOWNSHIP FARM BUREAU WILL MEET APRIL 22

Mr. Robert Jones, trustee, announces that the Franklin township Farm Bureau will meet this Friday evening, April 22, at the Beaver Dam gym.

Mr. Glen Whitehead, county superintendent of schools, will be there to explain the new tax legislation and how it may affect township taxes. All farmers and taxpayers are urged to attend the meeting.

In addition to the above feature there will be entertainment and refreshments.

Mrs. Loren Kramer was a business visitor in Rensselaer recently.

Mr. and Mrs. C. M. Walker and son of Indianapolis have returned to their home Sunday.

Mr. Verde Brockey was a business visitor in Rochester Wednesday afternoon.

Mrs. Truster has returned to her home after a visit with her daughter,

Mrs. Gladys Good and family.

Mrs. Ralph Hatfield who has been confined to her home for the past week on account of illness is somewhat improved.

Mrs. Charles Good and son Joe and Miss Ruth Barr spent Friday afternoon in Rochester.

Mr. Devon Eaton spent Saturday morning in Rochester on business.

Mr. W. A. Dick spent Sunday in Mentone and Crystal Lake with relatives.

Mr. and Mrs. Paul Grile of Madison, Ind., were the Sunday guests of Mrs. Grile's sister, Mrs. Charley Green.

Mrs. Harry Wagoner was removed to her home from the Woodlawn hospital in Rochester Saturday afternoon in Zimmerman Bros. ambulance.

Miss Rosie Good of South Bend was Easter Sunday guest of her parents, Mr. and Mrs. Charles Good.

Misses Charlotte Ann and Santa Faye Emmons and Joe Good spent Sunday in Warren.

Miss Shirley Overmeyer spent Saturday in Rochester as the guest of her grandmother, Mrs. Walter Overmeyer.

Leonard Staldine, Skip Janeson, and Dick Duzenburg spent Sunday afternoon in Rochester.

Mr. and Mrs. Rollie Surguy and daughter Jean-Ann of Warsaw were the guests of her parents, Mr. and Mrs. Roy Hubbard.

Trustee Charley Green was a business visitor in Rochester Saturday forenoon.

TO DEMONSTRATE FARM SEWAGE DISPOSAL INSTALLATION

The installation of a sewage disposal system for the farm home including septic tank and absorption field will be demonstrated at the Renee Nine farm two miles south of Atwood near the Tippecanoe River on April 26. The demonstration is being presented through the cooperation of the county health department, State Board of Health and county extension department. Jay Gould, farm editor of Radio Station WOWO of Fort Wayne will serve as master of ceremonies for the demonstration which will start at one o'clock. Activities during the afternoon will include proper setting of farms for the septic tank, proper mixing and pouring of the concrete for the tank, and proper arrangement and laying of the absorption tile field. Sanitary engineers of the State Department of public health will be on hand to present the fundamental requirements for a safe and adequate

Rural disposal system and to answer questions and give attention to any individual problems.

Forms for the tank have been built by the Northern Indiana Co-Op at Mentone in compliance with specifications of Purdue University and the State board of Health and will be available for rental following the demonstration.

Care of Tulips

When tulips are cut for the house, most of the foliage must be retained on the plants. If the blooms are permitted to finish their display in the garden, then the seed capsules should be removed promptly after the petals fall, severing them just above the top leaf.

MILFORD WINS 4-H LIVESTOCK JUDGING CONTEST

The 1949 Kosciusko county livestock judging contest was held April 16 at the farms of L. L. Latimer, Baker Brothers and Don Jones all of near Burket.

Fifty-three boys from eight clubs participated.

The Milford team coached by Marlon Stackhouse with 1140 points was first and consisted of Jesse Beer, Arthur Gilbert and Daryl Johnson, with Bob Clark as alternate. The second place team was coached by Jack Shore and was from Pierceton with 1046 points. This team consisted of Edward Gregory, Bob Caudill, and Harold Sellers with Raymond More as alternate.

Other teams and scores are as follows: 3rd, Beaver Dam, 1012 points, coached by Sam Norris; 4th, Mentone, 975 points, coached by Philip Lash; 5th, Silver Lake, 905 points, coached by Alton Kissinger and Joe Leckrone; 5th, North Webster, 905 points, coached by Robert Taylor; 7th, Sidney, 897, coached by Ralph Spangle, Charles Mishler, and Leon Tucker; 8th, Claypool, 892 points, coached by Robert Plummer.

Individual high scorers were: Jesse Beer, 388 points, Milford; Arthur Gilbert, 377 points, Milford; Raryl Johnson, 375, Milford; Robert Clark, 361, Milford; Edward Gregory, 356 points, Pierceton; Forest Dunnuck, 356, Mentone; Glen Poscharsky, 352, Milford; Bob Caudill, 349, Pierceton; Lee Norris, 349, Beaver Dam; Joan Ummel, 342, Beaver Dam; and John Gardner, 342 points, Milford.

Timothy mixed with legumes gives higher yields than either the legume or timothy when sown alone. Purdue University trials showed that Timothy and alfalfa mixed, yielded 6,600 pounds of dry matter per acre as compared with 1,600 pounds when only timothy was sown. Timothy and ladino mixed gave 6,200 pounds of dry matter as compared with 3,100 pounds for ladino individually. Alfalfa produced 5,700 pounds, respectively, per acre in the trials.

AN INVITATION TO MICHIGAN CITY

As mayor of Michigan City, I cordially invite the people of your community to see the International Friendship Gardens, located 1½ miles east on U. S. 12, and to hear the musicals which will be conducted on the Gardens' island stage this summer.

Something new has been added to the Gardens this year. Associated Bulb Growers of Holland sent 250,000 tulip bulbs to America, and they were divided among three famous American gardens. The Friendship Gardens here got a share. They have been planted profusely in beds throughout the Gardens' area.

"Tulips on Parade," is the first event of the Gardens' season, and will be held May 7 to 29. Next is the gala opening performance July 16; Lucille

Manners, soprano, July 23; Music Festival July 30; Opera "The Mikado" August 6; and a color travelogue "Wings Over Vikingland" August 27.

Here in Michigan City we are proud of the International Friendship Gardens and the beauty of their lovely acres. We'd like you to come and see. In a neighborly spirit of helping to boost the midwest, I am

Cordially yours,
Russell G. Hileman
Mayor of Michigan City, Indiana

PUSH PIGS FAST TO MAKE MOST PROFIT

Farmers who make the most money on their hogs this year will be the ones who push them fast and get them to early market.

Shortcut methods of making hogs out of spring pigs in a hurry are given in an article in the April 16 Prairie Farmer, which tells how successful hog raiser Lee Crawford of Wayne County, Indiana, does it.

Crawford, who has won a number of awards in the National Barrow Show, believes in good breeding and pre-farrowing care, sanitation, and a good balanced pig starter. He is careful to have a good job of castrating and vaccinating done before weaning his pigs, then keeps them on a protein supplement straight through. He provides shade and an ample supply of water at all times.

24-HOUR DELIVERY ON ALL ORDERS

Calling all outdoorsmen

By JIM MITCHELL

A lot of sportsmen this time of year clean their guns thoroughly and put them in storage where the firearms will stay until another game season rolls around next fall.

That's okay. But for the outdoorsmen who never get enough gunning during the regular season, the off-season months offer many grand gunning sports. For instance, there is trap and skeet shooting, both fine sports that will sharpen your ability to hit feathered or furred game with a shotgun. We believe most gunners shoot skeet or trap merely for sport itself, not to improve their gunning skill on game. But for whatever reason, it is grand sport.

And if you do not have access to a skeet or trap range, a hand trap will serve almost as well. We have a little suggestion, too, with hand traps that we picked up from Henry P. Davis, veteran employee of the Remington Arms Co. Henry says that the way to get real enjoyment from shooting hand traps is to go into the same type of cover you hunt and throw the targets in a manner that they will duplicate shots you get at game birds.

Frankly, we never thought of this idea before and almost always we've done our hand-trap shooting out in an open field. This spring, however, we are going into the woods, places where vegetation is dense, and to a lake bank for hand trap sport. And we're going to throw the clay targets in paths that normally would have a quail or pheasant or mallard flying on them.

Unquestionably this method of using a hand trap will add greatly to the sport of making it more like hunting itself. Too, the practice shooting in cover should pay dividends next fall when we try hitting those fast-flying upland game birds that frequently are a problem to outmaneuver.

For sportsmen who don't care for skeet, trap or hand trap shooting there is always crow shooting. We've been an eager crow gunner for two decades and, for the most part, shooting these black devils is almost as much fun as gunning for ducks or upland birds.

The crow is smart and tricky, and a hunter must use all his cunningness in outwitting this bird. That's what gives the sport an A-1 rating. The fact that killing crows is a conservation step, too, adds luster to the game. And for every crow that falls to a gunner there probably will be a game bird or animal added to the wildlife population.

So if you want, go ahead and put your gun in storage. But, remember, there is much off-season gunning that is tops in enjoyment.

WAR SURPLUS CHARCOAL IS FOUND POISONOUS

Some war surplus charcoal originally intended for use in gas mask canisters has found its way into the feed trade of the Middle West.

This charcoal, which was previously treated with silver oxide, silver nitride and copper chloride, renders this material highly toxic to livestock.

KADANS Wants EGGS.

WE PAY THE SAME DAY.

Kadans Farm Products Corp.

15 Harrison St., New York City

Since some charcoal is used in poultry and livestock feeds, dealers are warned by Dr. F. W. Quackenbush, state chemist, and head of the department of agricultural chemistry at Purdue University, to be on the lookout for any of this war surplus charcoal and under no circumstances to use it for poultry feeding.

All known lots of this poisonous material have been packaged in 50 pound bags stenciled "War Department, Pittsburgh Chemical Warfare Procurement Department." Apparently this material is being sold for feeding purposes by brokers who are not informed as to the toxicity of the material.

ORAL WELCH SELLS ANGUS

Oral Welch of Mentone, Indiana, recently sold three purebred Aberdeen-Angus cows to Witham & Bobbs of Warsaw, Indiana.

Tom Fitzgerald was taken back to the hospital one day last week, but planned on coming home this Wednesday afternoon.

Mr. and Mrs. John Lackey and daughter Sue Ann of Warsaw spent Saturday evening in Plymouth.

Oscar M. Baker went to Gila, Illinois Tuesday where he was called to teach that evening in a Bible class. This is

near Effingham where the big hospital fire occurred recently.

Dr. and Mrs. C. O. Jackson, of Champaign, Illinois, and Mr. and Mrs. Robert Firkins, of Mentone, left Thursday for McAlisterville, Pa. to visit relatives. Dr. Jackson will go on to Boston to attend an educational meeting. Mrs. Jackson is a sister to Mr. Firkins.

Incandescent Heat

Heat of the wire inside an incandescent light bulb is between 4,000 and 5,600 degrees Fahrenheit, so intense that it would make brick flow.

THE NORTHERN INDIANA CO-OP. NEWS

Mrs. Granville Horn is visiting now with her son and family, Mr. and Mrs. Howard Horn.

150 HEAD PURE BLOOD TESTED REGISTERED MODERN TYPE HAMPSHIRE HOGS AND PIGS. SELLING AT AUCTION THE NIGHT OF APRIL 28, 1949 AT 7 O'CLOCK,

at the farm, two miles east and one mile north of Silver Lake, Indiana, Kosciusko county, at the junction of state roads 14 and 15.

All mature hogs blood tested with certificate for bangs by licensed veterinarian, taken within thirty days of sale, all hogs double immunized for cholera.

There will be twelve top tried sows sell with litters by their side.

There will be eight top tried bred sows sell that we are keeping the spring litters.

There will be two top herd boars sell and fourteen fall boars big enough for service. There will be twenty eight fall gilts sell that are registered.

As a special inducement to get youngsters started right we will give any 4H or FFA boy or girl present, 5% discount on purchase.

The April issue of the Farm Journal in their important column, spoke the value of these Modern Hampshire hogs when they stated "switch quickly to bacon type hogs as lard will continue cheap."

All pigs are sired by either "HOOSIER GLORY" or "HOOSIER COMPREST," two top boars of the breed.

STATE TAKES PART IN 4-H SOIL CONSERVATION

When Miles Standish came to America the topsoil averaged about nine inches in depth. Today the national average is six inches. Moreover, nature must work 300 to 1,000 years to rebuild each lost inch. In an effort to help save the hundreds of millions of productive acres endangered by erosion and gullying, Indiana has accepted the National 4-H Soil Conservation program for 1949. During the past year an increase of more than 9,000 4-H'ers participated in the nation-wide project, reports the National Committee on Boys and Girls Club Work.

4-H members learn to successfully conserve soil and prevent wastage and deterioration. Because of its wide scope, parents cooperate in a farm-family soil conservation plan. Soil conservationists and county agents give technical assistance. Some of the activities are: to establish a farm nursery; sow fall cover crops; test for limestone, phosphate or potash; construct checks in gullies; sow grass; plant windbreaks; build a dam to hold water for livestock. The Cooperative Extension Service directs the program.

Although individual awards cannot be given all 4-H youth for their work in the project, what they accomplish is a vital contribution to the country's future. However, to those with outstanding records, Firestone Tire and Rubber company presents the following: gold filled medal of honor for county winners; \$50 U. S. savings bond to six top-ranking members in the state; an all-expense trip to the National 4-H Club Congress in Chicago for 16 selected state winners, and eight \$300 scholarships.

MENTONE READING CLUB

The Mentone Reading Club held the April meeting at the home of Mrs. Robert Reed on last Wednesday evening, April 13. This was a reciprocity meeting. The members of the Tuesday Dramatic Club of Warsaw were visitors.

They presented the following program: Piano duet by Helen Smith and

Hilda Hardman; Play, "Yours and mine." Dialogue by Ethel Hatfield and Yvonne Lowman; Vocal solo by Rosalind Smith; Reading by Jennie Bennett; Skit by Ethel Carr and Hilda Hardman.

Following the program the Mentone ladies answered roll call by introducing a member of the Warsaw club.

Assisting hostesses were Maude Snyder, Trella Tombaugh, and Mabel Norris.

SEWING LEATHER ON HOME MACHINE OR BY HAND

Homemakers repairing or making over sports jackets, handbags, belts, straps, or brief cases will find soft leather is easy to sew on the home machine, suggests Miss Frieda Stoll, extension clothing specialist at Purdue University. Thick or hard leather needs to be sewn by hand. The stitches on leather must be right the first time for when stitches are ripped out, they leave their mark.

When stitching soft leather by machine, a larger-sized needle is used than for ordinary sewing and machine stitch is lengthened. The needle holes will not be so close that they weaken or tear the leather. To prevent scoffing by the "feed dog" on the machine, a piece of smooth paper is placed under the leather as it is sewn. After stitching the paper is torn away on one side and then on the other. No small pieces of paper will be left under the stitching.

Thick or hard leathers are sewn by hand using back-stitching. This is strong and resembles machine stitching. Holes for hand stitching may be made by running the leather through an unthreaded machine using a strong needle. Buttonhole twist, heavy-duty

cotton or linen thread is used. To strengthen the thread and keep it from cutting the leather, wax by drawing it over a cake of beeswax.

When damp, hard leather is softer, more flexible, and often easier to work. Sometimes it helps to soak leather and sew it while wet. Wet leather is weaker than when dry and care must be taken not to break or tear it.

Renewer is applied to seams of smooth leather after sewing. Suede dressing may be used on seams of suede. This makes the stitches blend better with the leather.

CARD OF THANKS

We sincerely appreciated the acts of kindness, flowers, cards, and expressions of sympathy tendered us during the funeral and burial of our son, Pfc Lewis R. Fawley.

HOW-TO-FIX-IT

By TOM GREGORY

EVEN IN THIS DELIGHTFUL AGE OF LUXURIOUS BATHROOMS EVERYTHING IS NOT ALWAYS PERFECT. FOR INSTANCE, SOMETIMES THE RUBBER BALL VALVE IN A BATHROOM FLUSH TANK HAS A TENDENCY TO STICK OR DOES NOT CLOSE QUICKLY ENOUGH AFTER BEING TRIPPED. HERE'S WHAT TO DO TO REMEDY THIS: INSTALL A SMALL WEIGHT ON THE BALL STEM, SUCH A WEIGHT CAN BE DEvised BY CLAMPING TWO LEAD WASHERS ON EACH SIDE OF THE EYE AT THE UPPER END OF THE STEM WITH A BRASS BOLT AS SHOWN IN THE ILLUSTRATION.

IF YOU HAVE EVER TRIED TO CLEAN THE DRAIN OF A BATHTUB WITH A PLUMBERS FORCE CUP YOU PERHAPS HAVE FOUND IT EXTREMELY DIFFICULT BECAUSE OF THE DIFFICULTY OF SEALING THE OVERFLOW OPENING OF THE TUB AGAINST THE ESCAPE OF AIR. HOWEVER, IF THE STOPPER IS PUT IN PLACE AND HELD SOLIDLY WITH A HEAVY WEIGHT, THE FORCE CUP MAY THEN BE USED EFFECTIVELY.

The fly control program begins with the spring clean-up. Sanitation continues to be the best and most important step in any fly control program. Cleaning out fly breeding places around the farm before the first of May will save the need for killing a lot of flies later. The flies will just not have a chance to exist.

As the weather warms up, corn that kept well during the cold weather may be found to have moisture enough to rot or mold. Purdue University agricultural engineers suggest that if winter feeding has emptied any crib space, it is good management to move any doubtful corn to the emptied space. This will mix the wetter ears with the drier ears and it will be possible to

remove most of the shelled corn and dirt. Pockets of wet corn may be moved for immediate use.

Patches where the grass is thin are usually caused by lack of plant food in the soil. Such spots should be worked to a depth of several inches with a narrow rake. Some of the newer types of commercial organic fertilizer or well rotted manure may be applied at the time the seed is sown. Nitrogen fertilizers should be applied at least a week or ten days before the grass seed is sown so that the fertilizer may change into available plant food for the seed.

NEWS — PHONE 38

Preservation of Wood

Wood that touches moist earth or wood that becomes wet and cannot dry out quickly sooner or later will rot away. Outstanding wood preservatives to consider for use around the home, farm or small boat include metallic naphthenates, chlorinated phenols and organic mercurials for special purposes. Other wood preservatives, such as creosote, zinc chloride, chromated zinc chloride and numerous proprietary formulas, have been widely used. The newer types of preservatives are not so well known to the public.

Possible Cause of Insomnia

Although it seems like an absurdity, over-much sleep is a possibility. Anyone who needs an unusual amount of sleep each night or awakens still tired after a long night's sleep should seek the reason. Poor sleeping equipment may make it impossible for the sleeper to relax sufficiently to receive the most benefit from hours of sleep. Replacement with new, good quality mattresses and bedsprings is, then, an easy solution to the problem. If this is not the cause, there may be physical, mental or emotional reasons which should be corrected.

NEW CHEMICAL ADVISED IN DAIRY FLY CONTROL

Dairymen are advised to use the new insecticide, methoxychlor, for fly control of milk producing animals and also in dairy barns during the 1949 season, according to a mimeograph "How to Control Flies in barns and Upon Cattle," recently released by the department of entomology, Purdue University.

Prof. J. J. Davis, head of the department said that while DDT has been used for several years to control flies on cattle and in farm buildings, research workers have been aware for some time that milk from DDT sprayed cattle contains small amounts of DDT, usually less than one part per million. No cases of injury to humans are known, either from drinking milk containing DDT or from using the chemical as an insecticide. Also no ill effects have been noticed by custom spray operators and others who daily come in contact with large amounts of the material.

Recent announcement by the Federal Food and Drug Administration, however, state that the presence of DDT in milk is contrary to the Food, Drug and Cosmetic Act. The Administration believes that even small amounts of DDT in milk may, in time, prove harmful to humans. Therefore, in order that dairymen may not encounter difficulties under the Act, Purdue entomologists suggest they use methoxychlor, which is closely related to DDT and will give good fly control, but is more expensive and has less residual action. It is not secreted to any appreciable extent in milk, and according to the Food and Drug Administration "would probably be unobjectionable from the health standpoint."

Prof. Davis points that there are many persons who believe that there is little if any danger of contaminating milk with DDT simply by spraying dairy barns with it. The Food and Drug Administration is concerned only with DDT in milk and if walls and other surfaces can be sprayed without causing contamination in milk there will be no objection to its use. If DDT is used in dairy barns the following

precautions should be taken: sweep or spray down all cobwebs and dust before DDT is applied; apply the spray under low pressure and do not allow it to drip or come in contact with feed, mangers or water.

The mimeograph includes directions for the use of methoxychlor in the dairy barn and for spraying cattle. Copies are available, free, from the county agent's office or the University.

Harry Sullivan's were Sunday dinner guests of the Ward Sullivans at South Bend.

JUNIOR LEADER CONFERENCE AT PURDUE JUNE 6-9

More than 400 junior leaders from Indiana 4-H clubs are expected to attend the eighteenth annual Junior Leader Conference to be held from June 6-9 at the Youth Buildings at the Indiana State Fair Grounds, Indianapolis. The conference theme will be "Better Living for a Better World."

Mrs. Ethel Adams spent Easter with her son and family at Argos, Mr. and Mrs. Loren Adams.

ENTERTAINS QUARTET

The Ambassadors quartet of Asbury college in Kentucky, which sang Easter Sunday at 3 p. m. at Cooks Chapel church, were entertained at lunch following services at the home of Mr. and Mrs. John Lackey. Rev. Norman Culver, pastor of the church, and wife, were also guests.

Mr. and Mrs. Ernest Anderson and family of Lafayette and Miss Bernice Anderson of Indianapolis, spent Sunday with Mrs. Minnie Anderson.

ALL HOME BUILDING

RECORDS BROKEN IN 1948

The homebuilding industry, in constructing over 950,000 homes last year, provided the American people with more new homes in less time than were ever constructed in any country, "Mac" McKinley of the Mentone Lumber Co., commented today in discussing the national housing situation.

The construction of close to a million new homes may not convey the real import of the tremendous job accomplished, "Mac" said, unless the number is interpreted in terms that can be visualized.

If we lined up 950,000 homes, wall to wall, they would stretch farther than from New York to San Francisco and half way to Honolulu in the Pacific, he declared, and that only allows for each dwelling measuring 24 feet long.

Enough homes were constructed last year to house the combined number of families in Detroit, Baltimore, Indianapolis and Atlanta, he continued.

For those who like to think in terms of the wide open spaces, he pointed out, the total population of the 7 mountain states of Montana, Idaho, Wyoming, New Mexico, Arizona, Utah and Nevada could be housed in the homes built in the single year of 1948 by private industry.

Since any individual is usually interested in only one home, it is difficult to really imagine the volume of residential construction taking place

last year in providing close to a million homes, but 950,000 homes normally provide shelter for about 3,230,000 and that is more people than live in many of our largest cities.

In connection with the record number of new homes built last year, he called attention to the fact that the average sales price was under \$8,500 per house or unit. This is a particularly remarkable achievement, he said, in view of the fact that for a portion of the year the building industry was operating under conditions of material and labor shortages.

With practically all building materials now in ample supply, the private construction industry is in the best possible position to fulfill the demands of the American people for new homes.

WISHES TO THANK FRIENDS

David Gosser, son of Rev. and Mrs. Gosser, wishes to thank everyone who remembered him at Easter.

David has had quite a time with rheumatic fever and flu, and is now ill with virus pneumonia. It seems that David has had more than his share but friends do help to compensate for this sort of misfortune.

CARD OF THANKS

I wish to extend my sincere thanks to relatives, friends, and neighbors for their acts of kindness, many cards and lovely flowers I received during my past weeks of illness.

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Children from one to four years of age have a higher mortality in six of the ten leading causes of death in 1948 than any age group from one to nineteen years, according to 1948 death statistics for the 1-19 age group released today by Robert Yoho, acting director, Division of Public Health Statistics, Indiana State Board of Health.

The six leading causes of death in which the mortality is highest in the 1-4 age group are pneumonia and influenza, congenital malformations, cancer, leukemia, measles, and accidents, except motor vehicle accidents. Tuberculosis, nephritis and motor vehicle accidents caused more deaths among young people from 15 to 19 years of age.

"Although diseases of the heart and cancer are considered diseases of old age, they ranked high in the cause of death in the 1-19 age group," Mr. Yoho pointed out. "Cancer and tuberculosis tied as the sixth leading cause of death and diseases of the heart was fourth with its highest mortality rate among

children from ten to fourteen years of age.

"Accidents, with the exception of motor vehicle accidents, took more lives in the 1-19 age group than any of the communicable or infectious diseases, with motor vehicle accidents second," Mr. Yoho said. "The only childhood communicable disease listed among the ten leading causes of death in this age group is measles which is tenth on the list."

DR. URSCHEL GIVES ADDRESSES

Dr. Urschel gave a talk on Heart Disease at the Cass County Medical Society meeting in Logansport last Friday night. Mrs. Urschel accompanied him and attended the auxiliary meeting held at the same time. Inasmuch as this is National Cancer month, Dr. Urschel discussed tumors of the esophagus which cause symptoms similar to heart disease, and described the diagnostic procedures necessary to differentiate such conditions.

On Tuesday evening of this week Dr. Urschel gave a similar talk to the Kosciusko County Medical Society in their regular monthly meeting at Warsaw.

TEST ON HOLSTEIN

Bess Burke Ormsby Ona Fobes, a registered Holstein-Friesian cow owned by Mr. Raymond Vall, Syracuse, Indiana, has completed a 365-day production test of 634 pounds of butterfat and 20851 pounds of milk in Herd Improvement Registry test.

Testing was supervised by Purdue

University in cooperation with the Holstein-Friesian Association of America.

"Bess" was milked 2 times daily and was 6 years, 7 months when she began her test period.

Tippecanoe Conservation club will hold a Fish Fry this week at their club camp on the Tippecanoe River.

Talma Conservation club will hold a Fish Fry in May.

Twelve boxes of mature pheasants were released Monday. Each club in the county received a box.

Building program at Fair Grounds

at Warsaw will start next week with a building 26 by 50 for a fish and game booth for each club in the county a miniature Wild Life Area Wind Break and Forestry display with Fish and Wild Life.

Conservation clubs of the county are planning a big annual auction and fish fry at your camp at McClure lake May 25th. Please keep this date in mind and your presence will sure be appreciated by Chancy Tucker, Claypool chairman.

Your Boys Conservation Camp will open Sunday, July 24th, and run through the 28th. We will have boys from Kosciusko, Fulton, Marshall, St. Joseph, Huntington, Adams, Blackford, and Elkhart counties present. Your conservation clubs feel this is a great movement for better conservation in teaching our youth. Please give this your moral support.

OATS TESTING PLOTS**WERE PLANTED LAST WEEK**

Oats variety and fertilizer plots designed to bring out better oats growing practices for Kosciusko county were planted last week by members of the county extension staff. The plots are located on the farm operated by Oren Taylor east of Warsaw near the North Winona Church of the Brethren. Fifteen different plantings are included in the demonstration plots. Varieties include the Clinton, Clinton 59, Benton, Columbia, Eaton, Beaver, Ajax, and

Kent, and along side the varieties several plots were planted to Clinton oats with each plot receiving different fertilizer treatment. Each plot is seven feet wide and twelve rods long. The fertilizer plots were treated with non-fertilizer, 200 and 400 pounds of 0-12-12 per acre at planting time, and after the oats were up three plots will be top-dressed at the rate of 9, 18, and 36 pounds of nitrogen per acre respectively.

At harvest time a demonstration meeting will be held at the plots, each plot will be combined separately and the yield, moisture content and test weight will be calculated and compared. Farmers interested in oats production are urged to observe the plots during the growing season and to attend the harvest meeting.

The plots were planted by county agent, Paul Jackson; assistant county agent, Bill Johnson; and Ralph Oyler, veterans agriculture teacher at Warsaw, in cooperation with Oren Taylor, operator of the farm.

POPULARITY CONTEST FOR HIGH SCHOOL SENIORS

Every high school student in Mentone will be greatly interested in the Lord and Lady Calvert Popularity Contest, which begins on Monday, April 25. The contest gives high school seniors and juniors the opportunity of voting for the boy and girl in the Senior Class showing the same qualities as Lord and Lady Calvert: courage, integrity and leadership.

Baker and Brown, local sponsors of the contest, will award a 17 jewel Lord Calvert Wrist Watch to the boy who receives the most votes. The winning girl will receive a 17 jewel Lady Calvert Wrist Watch. Presentation of the watches will be made at the graduation exercises.

Ballots are available only at Baker and Brown's.

TALMA SENIORS ARE ON NEW YORK TRIP

The Talma high school senior class is on an eight-day bus trip that is taking them to Pittsburgh, Washington, D. C. and New York.

EASTERN STAR MEETS

The Mentone Eastern Star met on Monday evening for the regular meeting. Mrs. Eileen Fenstermaker, Grand Esther, was honored and given a gift. Following the meeting an auction was held.

Decorations in the dining room were in keeping with the office of Esther and lovely refreshments were served.

MENTONE 4-H CLUB ELECTS OFFICERS FOR 1949

The Mentone 4-H Club elected the following officers: President, Forst Dunnuck; vice-president, Billy Reed; secretary-treasurer, Norbert Darr; song leaders, Larry Yieter and Eddie Creighton; recreation leader, Burdell Blackburn; news reporter, Jon Cullum; health and safety leader, Don Rush.

First year pins were presented to the following: Doyle Baum, Royal Baum, Phillip Carney, Robert Holloway, Merlyn Holt, Lester Horn, Charles Urschel, Kent Lowman, Larry Myers, Robert Myers, and Phillip Shilling.

Third year pins were presented to the following: Charles Beeson, John Davis, David Romine, Floyd Thomas, and Lloyd Thomas.

278 OFFICERS OF 4-H CLUBS TAKE TRAINING

Two hundred and seventy-eight officers of county 4-H clubs were schooled in the duties of their positions at a meeting held at the junior high school building at Warsaw Monday night, it was announced by the county extension office.

Nineteen clubs received awards for 100 per cent attendance of their officers.

Nine girls' clubs received 4-H flag sets for full attendance. These clubs were from Mentone, Milford, Sidney,

Atwood, Beaver Dam, Etna Green, Monroe township, Palestine and Piercetown.

Boys' clubs receiving flag sets were from Sidney, Piercetown, Leesburg, Monroe township, Milford, Claypool and Burket.

Three girls' clubs, West Wayne, Jefferson township and the Warsaw Shamrocks received 4-H mottoes by virtue of having 100 per cent attendance for the second consecutive year.

Instructors for the officers were: Presidents, Elmer Funk, of Warsaw; vice presidents, A. I. Nelson, Mentone, and Paul Jackson, Warsaw; secretaries and treasurers, Mrs. John Pfahler, near Warsaw; reporter, Robert McGlynn, Warsaw; song leader, Mrs. Ross Sittler, Warsaw; recreation leader, Mrs. Ira Moore, Palestine; health and safety leader, Bill Johnson, the assistant county agent, Warsaw.

Prizes and refreshments were furnished by the two Warsaw banks.

"Mixer" games were played before the classes and a social hour was enjoyed to conclude the evening.

The assistant county agent said the attendance was more than double the 1948 figure.

On Wednesday morning the condition of Rev. Hill was somewhat improved. Rev. Hill has been in a critical condition during the past week from flu and pleurisy.

MISS NORMA FOWLER AND PAUL RUSH WED SUNDAY

The Congregational Christian Church was the scene Sunday afternoon at 2:30 o'clock of the wedding of Miss Norma Fowler, daughter of Mr. and Mrs. Ernest Fowler of North Manchester, and Paul A. Rush, son of Mrs. Ray Rush of Mentone. The Rev. Fred R. Conkling read the double ring ceremony, before a background of palms, potted Easter lillies and candelabra. The musical prelude was presented by Miss Charlotte Schutz, organist, and Robert Haney, soloist.

The bride was given in marriage by her father. She wore a gown of white Japanese silk and dotted white marquisette over white taffeta. Her tiara was crocheted by her mother. The bride carried an orchid made into a hand bouquet with streamers. Miss Donna Yentes, maid of honor, wore a dress of the same style as the brides, in delicate green marquisette over white taffeta. She carried a hand bouquet of jonquils. Bill Ettinger, roommate of the groom, served as best man. Ushers were Lloyd Faskick of Greenville, Ohio, and Leo Loeffel of North Manchester.

A reception was held in the church parlor for about 75 guests. Mrs. Leo Leffel, Mrs. Donald Naylor and Miss Virginia Rush served. Mrs. George Needham of Roann, aunt of the bride, played appropriate music during the reception. The bride was graduated from Roann high school and Manchester College. She now teaches in the Larwill school and is a member of Sigma Delta Phi teachers' sorority. Mr. Rush was graduated from Mentone high school, attended Purdue university and is now at Manchester College. The couple will reside in an apartment at 406 North Market Street in North Manchester.

(As we did not have details last week, our article on the above wedding was very brief. We are happy to have a complete article taken from the North Manchester News-Journal for this week's issue of the Co-Op News.)

HOME ECONOMICS DISPLAY

The Mentone Home Economics Club will have a window display of needlecraft and stenciling during the first week of May at the Cox Motor Sales. This is an observance of the National Home Economics Club display week.

LEGION AND AUXILIARY PLAN RECORD POPPY DAY

The American Legion and its Auxiliary are preparing to sell approximately 25,000,000 memorial red poppies on Poppy Day, Saturday, May 28. More than 125,000 women of the Auxiliary have been organized for the big job of selling the poppies in cities and towns throughout the nation. The little red flowers are made by hospitalized veterans. The proceeds are used locally by the American Legion and its Auxiliary in their rehabilitation work.

ELECTED TO NATIONAL OFFICE IN D. A. R.

Mrs. Furl Burns, of North Manchester, was one of the nine vice-president generals elected at the Continental D. A. R. Congress recently in Washington, D. C. This is an outstanding honor and speaks well for Mrs. Burns ability and achievements. The term is for three years.

Mrs. Burns has been serving as state regent for the D. A. R. until a short time ago, when her term expired.

Mrs. Arthur Brown, of the local Anthony Nigo D. A. R. Chapter, was a delegate to the Continental Congress.

SECOND ANNUAL BAND FESTIVAL SET FOR APRIL 29

Every high school band in the county will take part in the second annual band festival to be held at the Warsaw armory on Friday night, April 29, it was announced Thursday. Albert Trestrail, Pierceton band director and chairman of the program committee, said that some 400 students will combine to form one large all-county band. It will play five numbers.

The large ensemble of school bands, as they join together, will play "Processional," "Esprit De Corps," "Now Is the Hour," "On Guard for the U. S. A.," and "The National Anthem." Participating schools and their instructors are Claypool, Gretchen Gierman; Etna Green, Mirabel Reiwoldt; Beaver Dam, Charles Butler; Mentone, Mary Blickenstaff; Sidney, Delta Schutz; Silver Lake, Lois Amis; Leesburg, Carlyle Frederick; Atwood, Marilyn Yohey; Burket, Jacqueline Summers; North Webster, Robert Taylor; Syracuse, Willard Gustafson; Milford, Joseph Judkins; Pierceton, Albert Trestrail, and Warsaw, Basil O'Reilly.

ALUMNI BANQUET SATURDAY EVENING

A fine program is being planned for the Alumni Banquet to be held this Saturday evening, April 30, at the Community building at 8 o'clock, Daylight Saving Time.

Oliver Teel will serve as master of ceremonies.

Around 400 graduates are expected.

All alumni members, whether you received a card, are urged to attend this interesting affair.

LEGION MAKES FINAL SELECTION

Mentone Post 425 of the American Legion are sending Dunnick and Richard Jamison to Indiana Boys State the week of June 11 to 18, both boys having received permission from their parents and passed the physical examination which was given by Dr. Urschel for the Legion Post Committee.

Upon arrival at the location near Indianapolis the 425 boys are assigned to counties and cities and equally distributed to two political parties, the Nationalist and Federalist for election purposes.

State, county, city and precinct officials are elected and the boys perform the duties of their positions during their stay at the Boys State.

Boys in bands or bugle corps take their instruments to Boys State and form their organizations. Ball playing boys form their teams, etc.

There will be a complete athletic program, band, vocal music, speech journalism, law, police school and talent show by and for the boys.

They will be visited by the governor and make a visit to the state capitol building, Indiana World War Memorial and the State and National headquarters of the American Legion.

ATTENDS CONVENTION

Mrs. E. E. Wagner returned home Sunday after attending the state convention of Mothers of World War II at Michigan City.

Mrs. Wagner reports a fine meeting. The group was taken on a tour of the city and nearby Friendship Gardens.

HOLLOWAY

Mr. and Mrs. James Holloway, of Mentone, are the parents of a son born at 2:36 a. m. Tuesday at the McDonald hospital.

MOTHER - DAUGHTER BANQUET

The annual Mother-Daughter banquet will be held at the Methodist church on May 6, at 6:00 p. m. Daylight Saving Time.

This will be followed by a fine program by Mrs. J. N. Rodeheaver of Winona Lake, assisted by Mrs. Raymond Essig, of Warsaw.

The program will be over in time for all the girls and parents who desire to go to the spring concert at the school to do so.

The public is invited to hear Mrs. Rodeheaver.

CONSERVATION OFFICER NAMED FOR THIS COUNTY

Alden Jones, well-known resident of near Beaver Dam, has been appointed conservation officer for Kosciusko county. Mr. Jones' appointment, made by the state conservation department was effective Monday.

Alden has completed three weeks of extensive training at McCormick Creek state park, located 70 miles southwest of Indianapolis.

Prior to his appointment, Jones formed. He is married and the father of three children, Iris, 16, Junior, 14, and Howard Rudolph, eight. Iris is a well-known Beaver Dam high school cheerleader. She and her brother, Junior, are also very active in this county in 4-H work.

Before Jones' appointment, Cletus Cornelius, of near Columbia City, has been serving Kosciusko, Whitley and Allen counties as conservation officer. Cornelius now takes over as the Whitley county officer, and Allen county, too has its own conservation officer.

HAS MAJOR SURGERY

Truman Long is recovering from a hernia operation performed a week ago Tuesday at the Woodlawn hospital.

CLUB CALENDAR

Mentone Home Economics Club Members are to bring their displays to the home of Mrs. Blanche Paulus, Thursday April 28.

Eastern Star meeting May 2nd, 7:45 D. S. T. Mothers' Day program.

J. O. Y. Circle will meet Tuesday, May 3, at 1:30. Come in working clothes.

The Friendly Neighbors Club will meet at Beaver Dam May 5. It will be mothers' night and guest night.

WARNS ON PROPER

USE OF SULFAS

Some poultrymen feel that the sulfa drugs they have used in curing coccidiosis have given unsatisfactory results. Alexander Gordeuk, Extension Poultryman at Purdue University, says that this is not unusual if the drugs have not been used properly.

Gordeuk emphasizes the necessity of using sulfas early in the coccidiosis outbreak. Too often sulfas are given when other treatments have failed or when some of the birds are about dead or too weak to respond to treatment. Birds in the advanced stages of an outbreak cannot be saved by any treatment.

Sulfas do not kill the disease organism themselves. Rather they inhibit their growth so that the body defenses can destroy them. This Purdue poultryman adds that the sulfa drugs used for curing coccidiosis take effect and begin to do some good as early as 4½ hours after the chicken takes some into its body. Upon stopping medication the sulfa level in the blood goes down rapidly. For this reason the manufac-

turer's directions for use of sulfa drugs should be carefully followed. With sulfa it is not true that "if a little is good, more is better." Too much can be given. Likewise too little can be given, and the drug is practically wasted, the Purdue Specialist pointed out.

Gordeuk points out another serious mistake made by many poultrymen. He says that very often extra milk is given at the same time that the sulfa treatment is started. Extra amounts of milk cause a flushing action with the result that much of the sulfa drug is passed out of the body, giving the bird no opportunity to absorb it. In such instances there is a double loss. The drug is wasted and the birds get very little benefit and keep on dying.

INFORMATION AVAILABLE ON NEWCASTLE DISEASE

Due to the wide interest by the poultry flockowners of Indiana in Newcastle Disease, the poultry Extension Specialists at Purdue have compiled in a publication a list of questions most frequently asked about the disease, according to Dr. J. Holmes Martin, head of the Poultry Department. The release is entitled "36 Questions on Newcastle Disease."

Each question has been carefully answered by the extension specialists to include all the latest known practical information. All answers are given from the farmer's point of view. After studying the information available in this release, a flockowner should be able to make a sound decision as to what plan of action he should follow regarding his flock whether it be following an outbreak of the disease, whether it be a vaccination program, or whether it be the production of

hatching eggs.

Copies of "36 Questions On Newcastle Disease" are available free from county

agents in Indiana or the Poultry Department, Purdue University, Lafayette, Indiana.

A LITTLE FLAW—A BIG ACCIDENT

Worn out brakes, inadequate lights and threadbare tires contributed directly to an average of 6 traffic deaths daily during 1948. Have your car checked regularly by a qualified mechanic. Your life may depend on the safety of your car.

Calling all outdoorsmen

By JIM MITCHELL

Most of us are thinking now about warm, sunshiny weather and a trip to our favorite stream or lake, but before passing on to the fishing season we'd like to pass on the most recent figures released by the U. S. Fish and Wildlife Service on waterfowl populations.

It has been reported before that the duck and goose population is up over last last year, and now the federal bureau says this increase is about 12 per cent. That's a healthy gain and the outlook for a longer gunning season and larger bag limit next fall certainly is encouraging.

Of course the regulations next season will depend largely on the summer-time inventory in the north country; however, the optimistic view is not out of place at this time.

Some other interesting facts garnered from the recent report showed that mallards make up almost one-third of the entire wintering grounds waterfowl population in the United States, with the greenhead concentration the heaviest in the Mississippi flyway.

Second most numerous species is the pintail, making up approximately 15 per cent of the entire duck population. More pintails were found in the Pacific Coast flyway.

Other leading waterfowl species in order of numbers are the coot, snow goose, Canada goose, baldpate, blue goose, scaup, black duck, green-winged teal, canvasback and redhead.

A late check of migratory duck stamp sales for the last fiscal year indicates that it may hit the 2,000,000 mark. This is only slightly short of the all-time high set in the 1947 fiscal year.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

MOTHERS OF WORLD WAR II

Mothers of World War II met at the home of the president, Mrs. Esta Vandermark for the April Meeting. Seventeen members answered roll call. Plans for the district meeting to be held in unit 104 in June were discussed. The committee appointed was Mildred Fawley, Helen Mollenhour and Myrtle Davis.

Memorial services were conducted for Anna Bayne and the charter is to remain draped for one month—communications were read. Also the mothers' creed repeated in unison, and

the chaplain dismissed the unit with prayer. Refreshments were served by the hostess with Mara Summy her co-hostess. The next meeting will be held May 11, in the evening at the school building.

The supply of building materials is now at, or close to, substantial balance with demand for most items with only iron and steel products and cement the principal items still in short supply. Production of building materials has been increasing rapidly, with the year 1948 the highest recorded in the 33

year period for which annual indexes have been computed by the U. S. Department of Commerce. Any price declines which may occur will likely be in lumber rather than in other types of building materials.

Linda Kay Davis, small daughter of Mr. and Mrs. Earl Davis, of Tippecanoe, was admitted Monday evening to the Riley Hospital.

Mr. Earl Sanders and Miss Freda Schooley of Elkhart, were Sunday dinner guests of Mr. and Mrs. Kenneth Horn and daughters.

D. A. R.

Mrs. Everett Rathfon was hostess to the members of the Anthony Nigo chapter—Daughters of the American Revolution on Tuesday evening, April 26.

During the business session the following officers were elected for the coming year: Regent, Mrs. Ernest Igo; Vice Regent, Mrs. Frank Smith; Secretary, Mrs. Miles Manwaring; Treasurer, Mrs. Eldred Paulus; Chaplain, Mrs. Emma Gill; Historian, Mrs. Sherman Bybee; Librarian, Mrs. Walter Lackey; and Registrar, Mrs. Stanley Boggs.

Mrs. Arthur Brown gave a report of the Continental Congress which was held in Washington, D. C. last week. Mrs. Kenneth Riner read a very interesting paper on "Herbs of Our Ancestors."

Mrs. Rathfon assisted by Mrs. Sherman Bybee served delicious refreshments. Mrs. Elmer Rathfon was a guest.

Chapter adjourned to meet in May for the Mother and Daughter banquet.

ATTEND P. T. A. MEETING AT FORT WAYNE

Mrs. Dan Urschel and Mrs. Conda Walburn attended the Friday session of Parents and Teachers at Fort Wayne last week.

There was a splendid speech in the afternoon by Dr. Ernest Osborne of Columbia University on parent and Family Life Education. For those of us who are interested in our new P. T. A. what he had to say was important. He repeatedly emphasized the fact that most education takes place in the home, that the parent-child relationship is most important of all. Parents do the first line job and school and Church supplement it. The job of being a parent is a tremendous challenge and the really good parent seeks help in many ways.

In our country we strive to keep human personality at the top of values and our homes are the laboratories of democracy.

POULTRY, EGGS AND CREAM

CORRECTLY WRAPPING**MEATS FOR FREEZING**

Meats stored in freezer-lockers must be properly wrapped in suitable packaging materials if they are to be juicy and full of flavor, says Miss Lois Oberhelman, extension nutrition specialist, Purdue University. Improper wrapping is often the cause for "funny tasting meat," "dry, gray" chicken, or "flavorless" pork.

Chicken should be killed, bled thoroughly, scalded and picked carefully to avoid breaking the skin. Breaks in the skin tend to cause the meat to dehydrate and dry out or develop strong flavors.

Poultry should not be soaked in water to cool it because this soaks out flavors and food value. After thoroughly washing, it is cooled in flat trays in the refrigerator until the animal heat is out. This requires six to eight hours.

When frozen meat has dried out or has a strong flavor, it is usually due to meat standing too long before freezing, incorrectly wrapped, or not the right type of wrapping used.

Dark bones in frozen chicken often occur when very young chickens are frozen. At this age there is a quantity of blood in the bones which causes the darkening. As the chicken gets older there is less blood in their bones and there is less darkening.

Meat and poultry must be wrapped as nearly air-tight as possible in moisture-vapor-proof materials. The packaging materials recommended are aluminum foil or cellophane with locker paper or stockinette.

Enough paper should be used on all packages to permit a wide over-lapping of the edges to make a package as airtight as possible. Large or heavily wrapped packages take longer to freeze than those of medium size with only

enough packaging to protect the food.

When the meat is ready to package it is wrapped in the amounts which can be cooked at one time. As the meat is wrapped, the wrapper is pulled tightly to eliminate as much air as possible between the meat and the wrapping. The two edges of the paper are brought together, folded against the meat with a tight fold, as a druggist wraps the package. The package is sealed, labeled and frozen immediately.

Olympic Games

Modern Olympics, reviving the very ancient games, date from 1896 at Athens. The 14th Olympiad takes its number from the fact that 1948 is the 14th quadrennial year when 1906 is taken as the first. The 6th Olympiad, scheduled for Berlin in 1916, was cancelled because of World War I. The 12th, 1940, originally scheduled for Tokyo, was re-assigned to Helsinki Finland, and later cancelled because of war.

Steel Lost in Strikes

Nearly 20 million tons of raw steel have been lost as a result of major strikes since the beginning of 1946, according to available figures. In terms of finished products, that amount is nearly equivalent to all the steel supplied to the automobile industry in both 1946 and 1947. The total includes more than 1,600,000 tons of ingots lost in March, April and May, 1948, a penalty of the spring walkout of coal miners.

**Perfection HOUSE PAINTS**

For the whitest house you ever saw—USE PERFECTION—it's self-cleaning. PERFECTION paint is 100% Pure White Lead, Zinc Oxide and Titanium pigment. That's the reason it goes farther, covers better, lasts longer, gives years of satisfactory service—and still leaves an excellent foundation for future painting. Your home can be the envy of the neighborhood.

There is no substitute for PERFECTION! Ask your Perfection Dealer for Perfection House Paint by name—ALWAYS.

SPRING FLOWERS BLOSSOM FORTH IN STATE PARKS

As Lady Spring moves northward, Indiana's southernmost state parks are beginning to blossom forth in riotous color, officials of the Indiana Department of Conservation announced today.

The three state parks nesting in the hills of southern Indiana were boasting numerous varieties of wildflowers. They include Lincoln State Park, near Lincoln City; Clifty Falls State Park, near Madison; and Spring Mill State Park near Mitchell.

Among the flowers that had poked their heads above the surface were spring beauties, violets, trillium, blood root and woods anemone.

According to Frank N. Wallace, state

entomologist and unofficial wild flower "expert" for the department, many other species of flowers will soon be in evidence if warm weather continues.

Lincoln state park may be reached over Indiana road 162; Clifty over Indiana road 107 and Spring Mill over 60.

CARD OF THANKS

I wish to thank all the friends who remembered me at Easter and on my birthday with cards, flowers and gifts.

MRS. CLEO TINKEY

Mrs. Ray Meredith and daughter, and Mr. and Mrs. Henry Blesch, of Akron, were Sunday evening callers at the home of Mrs. Earl Meredith.

EWES VERY PROLIFIC

Mrs. Edison Vandermark and Bert Ruckle have a herd of 38 ewes that gave birth to 68 lambs this spring. Included in the group were six sets of triplets.

Sixty-six of the lambs are still living, including five sets of the triplets.

LOCAL STUDENT IN CAST OF NORTHWESTERN SHOW

Robert E. Nelson, son of Mr. and Mrs. A. I. Nelson, of Mentone, will appear in the cast of the 1949 Waa-Mu Show, Northwestern University's annual stu-

dent musical production. This year's show, "What's the Rush," is a musical revue based on the gold rush, uses a money theme, and will be presented for six performances from May 3 through May 7 in Cahn Auditorium on the Evanston campus. The auditorium has a seating capacity of 1208. Present ticket allotments have been completely sold out.

The Waa-Mu Show is planned by the students, and all members of the cast and production crews are students. It is an original revue, with most of the original sketches and music written by students. General Director of the show is Mr. Joe W. Miller, Director of Student Affairs at Northwestern. Student Co-Chairmen of the 1949 production are Nancy Henninger, a senior in the College of Liberal Arts, from Butler, Pennsylvania, and Clifford Mezey, from Detroit, a senior in the school of Commerce.

MOTOR VEHICLES MUST DISPLAY TWO LICENSE PLATES

Indiana State Police today will intensify enforcement of the state law requiring that motor vehicles display two license plates, Arthur M. Thurston, superintendent, has announced.

"During the war motorists acquired the habit of driving with only one license plate," Supt. Thurston said. "Since this conservation measure was dropped two years ago drivers have become lax in complying with the law. Instances have been reported in which persons have used one set of plates on two vehicles."

Orders have been issued to the 10 State Police posts to make arrests when the use of only one license plate is observed. Conviction in such arrests carries a fine of up to \$100 or imprisonment for not more than 10 days for a first offense.

State law requires that license plates be "conspicuously displayed, one in the front and the other in the rear," on vehicles operated or used upon the public highways. Plates must be securely fastened in a horizontal position and unobstructed from view by bumpers, tires, or other accessories.

Some new ideas have been incorporated by the show committee in charge of the 20th annual Hoosier Junior Market Lamb Show to be held in Indianapolis June 16. This year, according to committee rulings, all lambs will be shown natural, not blocked, and a class of ten lambs has been added. Pens of three and five will be as usual. A free noon luncheon will be served for all exhibitors and co-operators.

LOCAL NEWS

Mr. and Mrs. Rayman Hibschan are back home after spending the winter at Mesa, Arizona.

Mrs. Granville Horn is visiting at the Howard Horn home.

Mrs. Myrtle Davis spent Sunday with her son and wife, Mr. and Mrs. Emory Davis of Burket.

Jerry Hudson of near Mentone and a senior at Beaver Dam high school is being seen around town again since his recovery from the mumps.

Vernon Jones is in the McDonald hospital for medical treatment.

Mrs. Myrtle Davis, Mrs. Howard Horn and Mrs. Earl Meredith visited Mrs. Cleo Tinkey Friday afternoon.

Mr. and Mrs. Claude Barkman took Sunday dinner with Mrs. Earl Meredith. In the afternoon the group visited Mr. and Mrs. Alfred Teel who were celebrating their 60th wedding anniversary.

Mr. and Mrs. W. F. Hudson and Mr. and Mrs. Wm. F. Hudson Jr., attended memorial and military funeral services for their nephew and cousin, Pfc. Charles R. Harshman, Veteran of World War II which was held Wednesday at the Wise funeral home in Peru. Young Harshman was killed April 14, 1945 near Graffenhohn, Germany. He was married and the father of a daughter who is now past four years old.

Mr. and Mrs. Fred James of Columbia city, Mr. and Mrs. Sam Rush and daughter Merlene, and Miss Ileen Brunner of Larwill were Sunday visitors at the home of Rev. and Mrs. E. E. DeWitt.

Mr. Mack Hainbaugh and family, and Mr. Delbert Hunter and family attended the funeral of Mrs. Edna Gard at Pontiac, Mich., last Monday. Mrs. Gard was formerly Miss Edna Olinger of Warsaw.

Mr. and Mrs. Kenneth Van Curen and son have returned to our community after spending the winter in the south. Kenneth says he left his rheumatism down there somewhere.

Mrs. U. R. Oldfather and son Ruskin were dinner guests last Sunday in the E. E. Jones home, and in the afternoon Mr. and Mrs. Robert Wissler and daughter Patty, Mr. and Mrs. Wm. Wissler and son David, and Mrs. Irvin Wissler and son Donald all of Ft. Wayne were guests. They also called at the Tom Hainsbaugh home.

Northern Indiana Cooperative Association, Mentone, Ind.
ARTLEY D. CULLUM, Editor and Manager.

PRINTED IN THE MODERN PLANT OF THE COUNTRY PRINT SHOP

DAIRY HERD IMPROVEMENT SETS RECORD

Dairy Herd Improvement Association work reached an all-time peak during 1948, according to a report issued by the Bureau of Dairy Industry. On January 1, 1949, there were 1,787 associations in operation with 35,851 herds consisting of 943,939 cows on test. This represents an increase of 7.7 per cent in the number of herds on test.

Indiana dairymen have done their share in reaching this national record. According to G. A. Williams of the Purdue Dairy Extension Division, on January 1, 1949, eighty-one associations were in operation with 1,474 herds consisting of 26,299 cows on test in Indiana. This is an increase of 99 herds over the preceding year and places Indiana seventh among the states in the number of associations. When the number of herds of fifteen cows or more on test are compared with the number of herds in the state, Indiana shows an average of 35.5 per cent. This average is surpassed only by Utah, Virginia, and Michigan.

The interest which Hoosier dairy-

men are taking in herd testing speaks well for future progress in the state. Membership in one of these organizations offers a number of advantages to those who are anxious to improve their herds. From the monthly visit the supervisor makes to the farm, milk and feed records are secured on each cow. This enables the owner to improve his herd in a number of different ways. Some of these are:

1. More economical production of milk by adjusting feed consumption to production.
2. Compare production of daughters of the herd sire with their dams.
3. Locate and develop cow families within the herd.
4. Provide lifetime production records on every cow in the herd.
5. Supply returns for each dollar invested in feed each month.

Subject to Lead Poisoning

According to Iowa veterinary authorities, hogs being treated for mange may get lead poisoning if sprayed with crankcase oil from motors using ethyl gasoline.

SOME FARM COSTS HIGH BUT FEED PRICES LOWER

Although most cost rates will remain high in 1949 for Indiana farmers as well as others in the nation, feed costs are likely to be down considerably from the 1948 average. As a result, the effect of production costs will vary according to the type of farm operated. Livestock feeders in general will have lower costs in 1949 than in 1948 but operators of other types of farms may have to contend with higher costs, say United States Department of Agriculture economists in "Farm Cost Situation."

According to the USDA report, last year was the first time in 10 years that the farmer costs increased faster than the prices they received for their products. The decline in feed prices in 1948 was steady, and at the end of the year there had been a 30 per cent dip. The dip in feed cost is partly due to the stock of feed grains on January 1 which were the largest on record, both in total and in relation to the number of grain consuming animals on the farm.

The "Farm Cost Situation" states that even though farmers may have higher costs and lower prices in 1949, they will find themselves in an improved financial position. Efficiency in production, larger farm operations with returns maximized, and reduced debts are factors which will help the farm-

ers improve their financial position in 1949.

The quantity of farm machinery purchased by U. S. farmers in 1949 may be slightly below the record purchased in 1948. Supplies of fertilizer are expected to be larger in 1949 than in 1948, and the supply of farm labor this year probably will be somewhat greater than in 1948.

Concluding, the report states that it will continue to be profitable to feed milk cows heavily and to feed other livestock to heavier weights.

Operation Ragweed

Ragweed is responsible for about 80 per cent of hay fever discomfort during the summer. It is combatted in many communities by spraying with 2,4-D, chemical weed-killer.

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Plans for the sixth annual School and Community Workshop in Health Education scheduled for August 12-26 at Indiana University are being made by a Steering Committee composed of representatives of the voluntary health agencies sponsoring the Workshop, with the next meeting of the committee planned for June 2 at the Indiana State Board of Health.

Members of the Steering Committee include: Miss Mary Paxton, Indiana Society for Crippled Children; Ralph Werner, American Red Cross; Miss Betty Malinka, National Foundation for Infantile Paralysis; Jess K. Rash, State Department of Public Welfare; Rollis Weesner, Indiana Cancer Society; Ray Smith, Indiana State Medical Association; Dr. Carolyn Bookwalter, Indiana University; Mrs. Dorothy F. Buschmann, Indiana Social Hygiene Association; Mrs. Clotilde Sanguinet, Indiana State Tuberculosis Association, and Miss Hester Beth Bland, Indiana State Board of Health.

Dr. Willard W. Patty, dean, School of Health, Physical Education and Recreation, Indiana University, and Robert Yoho, director, Division of Health and Physical Education, Indiana State Board of Health, are directors of the Workshop for which the University will offer both graduate and undergraduate credit. Co-operating in the sponsorship is the State Department of Public Instruction.

The Workshop is planned for school, public health and voluntary agency personnel and lay workers in an effort to broaden and stimulate health activities in local communities.

LATE WEATHER ENDS CORN BORER

Late spring weather the last few years has largely controlled the European corn borer in Indiana but if there is an early spring season, and the corn is planted before May 20 corn borer trouble may develop. This is the word from Prof. J. J. Davis, head of the entomology department of Purdue University.

According to Prof. Davis, this year the corn borer population in Indiana is very low, but the borers are present in sufficient numbers to produce a large infestation under proper weather and planting conditions.

Farmers can help control the corn borer by delayed planting of corn. The best time to plant corn is from May 20 to June 5, according to Prof. Davis. He suggests a four point plan to control the corn borer. The plan included the following: plant corn at the right time; clean plowing which will destroy borers which have wintered in stalks; use adapted hybrids which will stand up under corn borer infestations and produce good yields, spray or dust with insecticides if the number of egg masses

on the corn leaves are high enough so that the resulting borers may reduce the value of the crop.

It is seldom necessary to treat corn less than 25 inches tall. Davis warned the farmers not to waste money spraying or dusting corn fields unless it has been an early planted crop and one which warrants the cost of spraying or dusting.

Honeybee Not a Native

The honeybee is not an American native. It followed colonial migration to every part of the United States and Canada. Indians called it the "white man's fly." Colonies are now so thoroughly spread throughout the world that honey and beeswax have a wider geographical range than any other farm crop.

500 RAINBOWS PLANTED IN OLIVER LAKE

Maurice Lung, Superintendent of Fisheries of the Indiana Department of Conservation announced that 500 rainbow trout have been tagged and planted in Oliver Lake in LaGrange county.

These rainbows were planted, Mr. Lung pointed out, since it has definitely been determined that they will survive the summer months in Oliver lake.

Distribution of trout in Indiana lakes and streams has been underway for the past several years, following the continued investigation program being carried on by Skelby Gerking of the Indiana Lake and Stream Survey.

They were all of legal size (from 7 to 9 inches) and were imported from the U. S. Fish and Wildlife Service at Neosho, Missouri.

Fishermen were urged by Mr. Lung to return all tags taken from the trout they catch to the division of fish and game, Indiana Department of Conservation, State Library Building, Indianapolis. They should also send the following information with the tag: date fish was caught; size, and place where it was caught. The facts supplied by Hoosier fishermen who take these rainbows will enable Gerking to carry on the valuable investigation program.

Sweet land of Liberty of thee I sing

1865 1940

GIVE people issues, and you'll not have to sell your souls for campaign funds.

William E. Borah

Idaho's famous senator gave this advice to all political candidates following senatorial investigations of the sensational oil lease scandals of the middle 1920's.

DEER CROSSINGS POSTED

WATCH YOUR SEINING

As a protectionary measure for both motorists and deer all Conservation officers throughout Indiana have been ordered to make an inspection of state roads at points where the animals might dart across a highway. At these locations, the State Highway department has agreed to post signs warning the unwary motorist to slow down.

The order was issued by Col. Millard Davis, superintendent of Conservation officers.

Col. Davis ordered the inspection following reports which reached his office to the effect that quite a number of deer have been killed upon state highways. Several cars have been damaged but as yet no personal injuries to motorists have been received.

A complete survey of deer ranges will be made and conservation officers will

report immediately the number of warning signs necessary to carry out the order.

Col. Davis also instructed his men to pay strict attention to that particu-

lar section of the law governing fishing operation in which it is set out that it is unlawful to take minnows from the first day of May until the twelfth day of June, both dates inclusive.

"THE STORY OF CHRISTIANITY"

A SERIES OF 4 LECTURE-SERMONS ON A LITTLE-KNOWN THEME.

Each Sunday Evening, Beginning May 1, 7:30 CST At the Church of Christ

Speaker, Lloyd A. Boyll

THE PUBLIC IS URGED TO ATTEND

FARM BUREAU CLOCKS WILL NOT CHANGE

In full compliance with the state law, the Indiana Farm Bureau will operate throughout the summer months on official Central Standard Time, according to an announcement by President Hassil E. Schenck. There will be no changing of clocks in this organization.

As advocated many times in its testimony in the recent legislature, the Farm Bureau will inaugurate summer hours by advancing its work schedule one hour starting April 25. Schenck is openly critical of business organizations and other groups who are flouting Indiana's new time law on the flimsy excuse that it is not convenient.

An objective look at the situation," Schenck points out, "leaves the impression that a few business leaders have unfortunately deliberately chosen to be law breakers."

KOSCIUSKO COUNTY 4-H DAIRY JUDGING CONTEST

Held Saturday, April 23 at the Milo Robbins, near Warsaw; Beyers Farm near Warsaw and Korth and Spangle Farm near Leesburg.

Eighty boys and girls participated from twelve of the sixteen 4-H clubs in the county.

First and second place teams will represent Kosciusko County April 30 in

the district contest at Cromwell.

The scores of the teams follow: Warsaw, 751; Milford, 684; Etna Green, 677; North Webster, 671; Claypool, 664; Beaver Dam, 650; Pierceton, 645; Mentone, 630; Sidney, 576; Monroe Twp., 558; East Wayne, 500; Silver Lake, 471.

The Warsaw team members are as follows: Cloyd Dye, Jr., Russel Kistler, Densil Brown and Paul Shue was alternate.

The Milford team members are as follows: Eldon Morehouse, Clifford Poe, Glen Poscharsky and Arthur Gilbert as alternate.

The ten high individuals are as follows: Cloyd Dye, Jr., Warsaw, 257; Russel Kistler, Warsaw, 252; Densil Brown, Warsaw, 242; Paul Shue, Warsaw, 241; Gordon Vanator, Claypool, 239; Alfred Engleberth, North Webster, 237; Donald Swick, Beaver Dam, 237; Max Nifong, Etna Green, 236; Eldon Morehouse, Milford, 234; Clifford Poe, Milford, 234.

Mrs. Julia Fisher returned home Thursday evening from Florida, where she spent the winter.

Mrs. Doris Morehouse is now at the home of her parents, Mr. and Mrs. Dewey Whetstone, coming home Friday. She has been in California for two years.

Don't forget the Methodist's Food sale, of Chicken and noodles, Salad and baked goods at Ray Smith's I. G. A. store next Saturday.
