4-H Club Picnic.

• The Loyal Workers and the Busy Bees 4H Clubs met Tuesday afternoon at the Mentone High School Building for a picnic.

The girls had originally planned to go to Center Lake, but the sky looked as though you would soon be a ble to swim in your own back-yard instead of having to go to a lake, so it was decided to picnic at the school house.

First the girls gathered into a large circle and samg several 4H songs. After the songs they played several games, among which were: "Three Deep" and "Motion Leader." They especially enjoyed some interesting

relays, some were walking relays and others were passing relays. After these they secured three bean-bags and spent a lot of time trying to put the other side out by hitting them with bean Lags. After all had been "put out" it was the others turn to inside the "hostile" circle and peppered with bean bags. It

ly seemed like there were more nan three bean-bags at times. In f ct they appeared to be coming from all directions at once.

After resting, the girls went into the Cafeteria room and spread the delicious supper. They sang "Blest be the Tie That Binds," then filed along the tables. Everyone forgot their calories and ate a hearty meal.

After supper the girls brought order to the Cafeteria room again and each left, happier, for having been with the girls of the other club.

WEDDING

Greulach-Hutton

Mrs. Carrie Valentine of Warsaw wishes to announce the marriage of her niece, Miss Helen Hutton, also of Warsaw, to Maurice Greulach, of Mentone, who were married Wednesday morning at 8 o'clock at the Meth odist parsonage in Warsaw, by Rev. B. M. Bechdolt.

The bride was beautiful in a silk crepe dress of sea-foam green, trimmed in brown lace, and wore a white hat with a brown band.

The newlyweds left immediately following the ceremony for Cleveland, O., to spend their honeymmoon with the bride's uncle and aunt, Mr. and Mrs. E. C. Vanator. They expect to be gone for several days. Upon their return the couple will be with the bride's aunt in Warsaw for a few weeks before removing to Men tone, where they will reside and where Mr. Greulach is employed as a teacher in the Mentone High School Mrs. Greulach graduated from the Warsaw High School with the class of 1931. Mr. Greulach, a graduate of Mentone High School, also a graduated from North Manchester College, and has taught for several years in Mentone High School. During the summer months he is employed in Warsaw at the Standard Oil Co.

PICNIC SUPPER

Mrs. Chester Manwaring gave a picnic supper last Wednesday evening at Serbundy's landing on Yellow Creek Lake. It was in honor of her daughter Jean's eighteenth birthday. The following friends were present to help Miss Manwaring celebrate and to enjoy the delicious food. The following friends were present: Mrs. Chas. Shafer, Mrs. Cora Van-Gilder and son Jack, Mrs. Orpha Blue, Miss Penelope Shoope, Mrs. D. L. Bunner, Mrs. George Clark, Mrs. Maude Snyder and Miss Evelyn Smith.

Initials on Lincoln Pennies

The initials V. D. B. on some Lincoin head pennies minted in 1909 are those of Victor D. Brenner, the medalist and sculptor who designed the coin. But this part of the design was withdrawn by the Treasury desoon partment and consequently the artist's initials appear on only part of the Lincoln pennies bearing the date 1909. Many thousands of the initialed cents were circulated, however

Crowded Out by Insects

By far the largest part of the earth's human population has been crowded out of the most productive part of the earth's surface, the tropics, chiefly because insects have taken that region for themselves. And even in the less desirable regions we are forced to fight a constant battle for existence against them.

Bowan Reunion

The 12th annual reunion of the Bowen families was held Sunday, July 28, at Warsaw City Park. At the noon hour, after a prayer of thanks given by Mrs. Eliza Bowen, a picnic dinner was served, followed by a social hour and a business meeting, conducted by the president, Russell Huffer.

"Old Copper Nose"

Henry VIII was known as "Old Copper Nose," for the reason that he debased his coins to such an extent that the silver wore off quickly and the sovereign's nose in copper shone right through. Peter the Great, of Russia, put a tax on beards, and, soon, there was a special coin to pay the tax, which came to be known as beardnoney.-Literary Digest.

Horace Greeley's Nomination Horace Greeley was nominated for the Presidency by two parties. In May, 1372, the Liberals, most of whom were anti-Grant Republicans, nominated him at Cincinnati, and in July, 1872, the Democrats met at Baltimore and also nominated him.

Feathers on Indian Bonnets

Among Indiaus of the plains, who are most noted for the wearing of bonnets, the feathers were awarded as an honor, says a writer in the Detroit News. Acting as a messenger, slaving a buffalo, or some other deed might bring the right to wear feathers, one or two, or perhaps five at a time. In at least one tribe it was the custom to give five feathers to any warrior who captured a wounded enemy,

business, various contests After were enjoyed. A very interesting one was held which required each girl to guess the number of beans required to run over a glass filled within approximately one-eighth of an inch of the top with water. were all quite surprised to find that it took 216 beans. The closest guess was 175 beans.

The meeting closed with each girl more anxious than ever before to thoroughly complete her 4H work.

AN UP-TO-DATE SERVICE STATION

The Co-Op's have just completed a crank case drain and greasing pit at their Interurban Service Station, making it the most modern gas station in Mentone. "Service and quality" seems to be the watch word of the N. l. C. A., which probably accounts in a large way for their rapid growth.

All Set For The Big Stock Show

As we go to press everything is in eadiness for Mentone's big stock show. Merry-go-rounds, rides and slides cover the grounds to please the hildren and the live stock is arriving to interest the parents. With fair weather the balance of the week, Mentone will have one of the largest crowds in her history.

The camp consists of one week on the State Fair Grounds with board and lodging furnished, and free instruction and guiding over the Fair Grounds and the city of Indianapolis. Educationally the camp is a golden opportunity for some boy, and accord ing to Mr. N. M. Cook, Voc. Instructortor at Beaver Dam, several boys are ellegible for the erip.

Beginning of Volley Ball

Volley ball was invented in 1895 by William G. Morgan, then physical director of Holyoke (Mass.) Y. M. C. A. He created the game to supply the need for a gymnasium sport that was competitive, yet not combative. A tennis net and a rubber bladder, taken from a basketball, Ware the crude implements originally used. The game was intended for middle-aged men who could not indulge in a strenuous sport like basketball. It is now an "allages" sport, the boys having speeded it up so much that the action is little short of cyclonic. Women also play the game.

Evolutionary Changes

In general it may be said that evolutionary changes are taking place but so gradually among the living animals and plants that they are almost imperceptible. A case in point is the little toe of human beings which seems to be gradually disappearing.

MAGAZINES AND NEWSPAPERS AT BARGAIN PRICES

The Co-Op News Adds Another Money Saving Feature For The Benefit of Its Readers.

This paper has arranged with one of the largest national subscription agencies in the U. S. whereby all of our readers can obtain subscriptions to any magazine or city newspaper at wholesale prices—the reduction in many cases being as much as one dollar on the higher priced publications.

This arrangement will save our readers the trouble of writing a letter to the publisher, the cost of stamp and money order, and at the same time they will receive a substantial reduction on the regular subscription price.

The following list will give you an idea of the savings that are possible by taking advantage of this service. In the near future we will publish a list of several hundred publications giving the wholesale price. In the meantime it will pay you when subscribing to most any magazine or city newspaper to get our price before ordering.

Severest Test for Airplane

The severest test that an airplane can be given is the power dive. The machine is put into a vertical dive from a great height, with power full on. When the greatest possible speed is attained the pilot pulls the plane into level flight. It is a highly hazardbous test for both pilot and plane.

and Neon. Costumes, music and dancing are included in this particular part of the revue. Instead of excelling in one kind

Instead of excelling in one kind of act the Five Cardovas, to be seen along with numerous other acts in front of the Grandstand, do two distinct acts at once, teeter-board and barrel-jumping. They also do a smaller act with three of their company, "comedy knockabouts," a medley of bing-bang nonsense built for Luchs and nothing else.

There will be the Three McDonalds, a trick bicycling act, Florescu, a duel with fate that baffles the imaginat'on, Smith's Diving Ponies, a pair of ponies that actually ascend a steep runway, high into the sky, and dymp, unassisted, into a small tank of water, the Francis Trio, those "Tumbling Tommies" from London and others too numerous to mention.

Robin Greatest Songster Of all the true songsters the familiar robin has one of the most extensive repertoires in the whole of the bird chair, for it can trill out a good half-hour of ringing happy tunes without repeating itself.

Leukemia Similar to Cancer

Luckemia is characterized by an excessive number of immature white cells in the blood. In leukemia, as in cancer, the cells that multiply with such disastrous effect are malignant cells with characteristics of their own that form a new and abnormal growth. The discase further resembles cancer in that it can arise from a variety of causes, the form it takes depending on various factors.

Flourished 4000 B. C.

The people who lived on the mound lepe Gawra-14 miles from the Biblical city of Nineveh-flourished at about 4000 B. C., in the dim twillight of history, says the Philadelphia Record. At the time they were making their painted pottery and carving obsidian, the ancestors of the Greeks were erouched in caves during their own Stone age and only savages were livling in the Americas. It was 800 years before the Egyptiars would begin to think of pilling store on stone to form pyramids.

"Dead" Citizen Leaves Casket for Future Use

Batum.—The vision of a supposedly dead citizen of Batum emerging from a railroad car carrying his casket cre ated first consternation and then loy among his friends here.

The man, an employee of the local meat trust, went to a rest home in another town recently. A few days later his family received a telegram from the auperintendent of the home saying that he was dead.

The family and friends of the man bought an expensive casket, a wreath inscribed "To our dear, untimely departed comrade," and set out for the rest home to arrange his funeral.

When discovered, he was strolling about with an attractive young woman and obviously in the best of health So, with a mixture of joy and chagrin, the "dead man" and his companions boarded a train for home, where the man descended bearing his easket.

Explanations followed. For some strange reason the institution had sent the man's family a telegram saying he was dying—from boredom. A careless telegraph operator dropped the last two words.

Find Short Waves Aids

Treatment of Ailments Vienna.—Short radio waves have proved an excellent remedy to treat various aliments of rheumatic character, says Dr. Erwin Last, head of the department for physical therapy in the Mariabili hospital here.

Following the discovery that short waves frequently caused headaches to some people, experiments were made by physicians to determine the waves influence upon the human body. It soon was found out that short

waves had a beneficial effect upon certain diseases of the skin.

Experiments, carried out by Dr. Last. on which he reports in "Medizinische Klinik," reveal that the short waves also offer an excellent means to relieve and, in many cases, to heal persons suffering from articulation illnesses. In a number of cases th. flexibility of articulations which had become stiff was restored completely. Some of Last's patients were thus enabled to resume their previous work.

CHARLES COX IS FOUND DEAD

Body is Discovered by Neighbor On Farm Near Mentone

Charles Edgar Cox, 73, was found dead Thursday evening, August 8th, about 8 o'clock at his home one and one-half miles west of Mentone, by a neighbor, Ed. Kesler. Mr. Cox, who resided alone, had not been feeling well Thursday and sent word to Mr. Kesler to come and do his farm chores for him. Upon arriving at the Cox residence, Mr. Kesler found him dead.

The decedent was born November 16, 1861, at Romney, Ind. He resided for many years at Hoopeston, Ill., but had made his home on a farm near Mentone for the past 20 years. He was a member of the Mentone M. E. church and of the I. O. O. F., of Bourbon. His wife preceded him in death several years ago.

Surviving relatives include two daughters, Mrs. Gladys Hardy, Warm Springs, Ark., and Miss Bernice Cox, of Fort Wayne; four sons, Orlo Cox, Tippecanoe, Merl Cox and Millard Cox of Chicago, and Wayne Cox, of Fort Wayne; one brother and three sisters in Illinois.

Funeral services were held Sunday afternoon, August 11, at 2 o'clock at the M. E. church in Mentone, burial being made at Plymouth.
