**MARRIED AT METHODIST
CHURCH, SUNDAY AFTERNOON**

In a lovely double ring ceremony at the Methodist church Sunday afternoon, July 31st, Miss Jean King, daughter of Mr. and Mrs. George King of Mentone, became the bride of Jack Pritchard, son of Mr. and Mrs. H. O. Pritchard of Marion, Ohio. Rev. David Gosser read the vows before a background of ferns, gladioli, and lighted candles. Mrs. Maude Snyder of Mentone used selections of "Melody of Love," "Indian Love Call," "To A Wild Rose," and the traditional wedding march on the Hammond organ, and H. V. Johns, accompanied by Mrs. Snyder, sang "Oh, Promise Me," "I Love You Truly," and, at the close of the ceremony, "The Lord's Prayer."

The bride's lovely dress, made by her mother, was of white nylon marquisette over satin in ballerina length, with matching elbow mitts. Her veil was of self material and was fastened with rhinestone cups. She carried a bouquet of white roses trimmed with white satin streamers.

Mrs. Dale Tucker of Mentone was the matron of honor. She wore a dress of lavender marquisette over taffeta with a matching veil and mitts. She carried a colonial bouquet of carnations and chrysanthemums.

Maxine Pritchard, sister of the groom, and Violet Witham were bridesmaids. They wore identical dresses of pale green marquisette over taffeta with matching head bands and also carried colonial bouquets of carnations and chrysanthemums.

Louis Harshberger of Mentone was best man, and the ushers were: Dick King, Tom Stanford, and Gerald Romine of Mentone, and W. Windland of Zanesville, Ohio.

Mrs. King wore a dress of navy blue with a corsage of white roses. The mother of the groom wore a dark silk print and her corsage was also of white roses.

Immediately following the ceremony a reception was held in the church basement, with Carolyn Pritchard, Virginia Rush, Mrs. Tom Stanford and Mrs. David Bowser serving at the table.

After their wedding trip, Mr. and Mrs. Pritchard will be at home in Mentone.

**PLAYERS OF NOTE
AT MENTONE FRIDAY**

The South Bend Tribune nine will be in Mentone Friday, August 5 to play ball with the Mentone All-Stars. At present the Tribune team is leading the South Bend AA league by three games and have had just one defeat in this loop. Ike Bierwagen, one of their pitchers, has hurled three

Ike Bierwagen

no-hitters and three one-hitters in this league thus far. Bierwagen is a former Bendix Brakes and Zollner Pistons pitcher. Last year he was with the Zollner team and lost one game in eight starts for them. He pitched Bendix to a world championship in 1941, his first year in big time softball when he came up at the age of 20 and won 30 games and lost one.

The other pitcher, Stan Lipa, also pitched for the Zollner Pistons and has always been considered one of the best change-of-pace artists in the country. His slow ball is really amazing when he has it under control.

The infield is composed of Muggs McGrath at first, Jim Cook at second, and John Bierwagen at short, all of whom played those positions for the South Bend Tommies last year in the National Softball League, plus Herb Summersgill at third, the most promising youngster to come up to the team this year. On the outfield Jim Freil and Don Arnold, two former National Leaguers, and Jim Remble and Larry Myers, covers a lot of ground and packs danger at the plate.

AMATEUR NIGHT, AUGUST 20

Don't forget to get your entry blanks from Denton's Drug Store or the Co-op News office to enter the Amateur Night program being held in Mentone Saturday night, August 20. No entries are to be taken after Saturday, August 13, so hurry! Entry blanks are to be found in this week's issue of the Co-op News.

**EDDIE CREIGHTON ELECTED
CHIEF OF ORDER OF ARROW**

The Order of the Arrow, national camping society of the Boy Scouts of America, held its annual pow wow at Pioneer Trails Scout Reservation last Saturday evening with 80 present. During the business session Eddie Creighton of senior outfit 59, Atwood, was elected lodge chief for the coming year, succeeding Eugene Banning of air squadron 1, Elkhart.

Members of the executive committee for 1950 include John Paul Thomas, Dave Thomas and Joe Lutto from

Robert Chapple from Silver Lake; and Russel Breeding and Earl Reed from Warsaw.

Over forty new candidates were initiated into the scouting organization by a ritual team consisting of Jack Clark, William Thomas, John Thomas and Norman Heaton.

PINK AND BLUE SHOWER

Mrs. Elwin Teel was the guest of honor at a pink and blue shower held by Mrs. Pauline Borton, July 21st. Games and refreshments were enjoyed by all and many lovely gifts were received by Mrs. Teel. Those present were: Mrs. Della Dillingham, Fern Reichert, Clara Parker, Fay Schooley, Dove Kercher, Florence McKinley, Ethel Whetstone, Mary Teel, Emma Cook, Violet Witham and Lonnie, Mildred Friesner, Frances Marshall, Lura Vandermark, Ethel Wagner, Eileen Bowser, Gertrude Hill, Jean King, Freda King, Elizabeth Blue, Maxine Holloway, Opal Nellans, Nell Reed, Wanda Simcoe, Fawn Holloway, Dolly Grubbs and Sue Ann Borton all of Mentone, Rose Holloway of Bourbon, Mrs. George Borton of Huntington, Neva Teel of Burket, and Maxine James of Peru.

YOUTH RALLY SATURDAY NITE

Greater Marshall County Youth For Christ will launch the third of its monthly rallies this Saturday night in the Bourbon High School Auditorium at 8 p. m. with the youth gathering from all over this area for the event.

Ann Wynn, accordionists of Maxinkuckee a favorite in the Singspiration service, will be on the program, as well as Virginia Moyer, talented gospel singer, now of Winona Lake, Indiana, and other instrumental music of the brass variety. Rounding out the rally will be a short clear-cut message from Rinker Simcoe, youth leader from the deep South.

Plans are under way for attendance competition between the high schools from the various towns cooperating, as well as challenge Bible quiz sessions between the youth of various churches. With the slogan "Geared to the times, but anchored to the Rock" as its guiding principle, 90 minute program will be fast moving and interesting all the way.

No admission is charged and the youth extend an invitation to their friends of all ages to attend this meeting.

CLUB CALENDAR

American Legion Auxiliary picnic, Tuesday evening, Aug. 9, 7:00 p. m. on Legion lawn. Potluck. Bring one dish.

FARMERS PURCHASING POWER BACK TO 100

Based on the period of 1910 to 1914, which equals 100, Indiana farmers purchasing power has progressively declined during the past year from 129 in July 1948, to 100 in June 1949, according to "Economics and Marketing Information," a monthly bulletin published by Purdue University. During the same period prices received by Indiana farmers declined from a high of 323 to 244, and prices paid by farmers declined from 251 to 245. While prices received by farmers declined almost one-fourth, prices paid by farmers declined less than 3 per cent causing farmers purchasing power to decline about 22 per cent during the year.

This change in the price structure affecting farmers with respect to what they sell and what they buy leaves them in the same position that they occupied in 1910 to 1914, the period upon which parity prices for farm commodities have been established. If this trend is arrested and the figure remains at 100, farmers, while occupy-

ing a less favorable position than a year ago, are still on a parity with other businesses. It is evident, of course, that farmers will have less money to spend and that debts will be more difficult to pay but farmers operating on an efficient basis can still show a profit.

The Corn-Hog ratio in June was 15.9. This means that 100 pounds of live hogs were equal in value to 15.9 bushels of corn compared to 11.9 bushels for the month of June in the five years of 1935 to 1939. In other words the Corn-Hog ratio was 23 per cent above the pre-war period in June 1949, as compared to 12 per cent below last June. The Whole-Milk Feed ratio is at the pre-war average, down 16 per cent from last June, while the Egg-Feed ratio is almost 30 per cent above pre-war in contrast, to 10 per cent below a year ago. These figures reflect the fact that hog and egg producers are operating at the present time under a more favorable ratio than the milk producers.

FARM PRODUCT PRICES—INDIANA

PRODUCT	June 1949 price	June 1948 price	June 1935-1939 average	June 1949 parity
Crops				
Corn bu.	\$ 1.19	\$ 2.14	\$.69	\$ 1.57

ATWOOD 4-H CLUB MEETS

A Demonstration was given by Sue Hammer on how to cut out a pattern at a meeting held at the Atwood Methodist Church Thursday evening. Roll Call was answered by "Where I Would Like to Live." Achievement Day was discussed and Ruth Elaine Baker, June Geiseking, Tomaline Witham and Shirley Corwin were chosen as a committee for the program. It will be held Wednesday afternoon, August, 10th, at the Atwood E.U.B. Church at 2:00 D.S.T. June Geiseking gave a report on what she did at the Purdue Round-Up. Roberta Sparrow told about the 4-H Camp. Pop was enjoyed by all. Other members present were: Verla Belle Chrisenberry, Sally Williams, Marilyn Oswalt, Vivian Chrisenberry, Jane Chrisenberry and Marilyn Lutes. Mrs. Ted Egolf and Mrs. George Sparrow were the Adult leaders present. The next meeting will be held at the home of Verla Belle Chrisenberry, Tuesday afternoon, August 9th at 2:00 D.S.T.

CROP Milk Reaches Children Overseas

Thousands of refugee children, such as this one being fed by Sister Klara, Lutheran nurse in the Lobe Haus Children's home in Munich; have been supplied with milk through the contributions of American farmers to the Christian Rural Overseas Program (CROP), according to John D. Metzler, national chairman.

In the year ending June 1, CROP handled 75,668,581 pounds of farm commodities, valued at \$6,576,000. Included in this amount were 4,470,000 pounds of milk. Shipments were made to 22 foreign countries.

"Since milk is desperately needed, we shall strive to obtain a larger quantity of it in the 1949 CROP campaign," Metzler said. "In many areas children over nine months still get no milk at all. Younger ones get one-fourth pint a day."

CROP is sponsored nationally by Catholic Rural Life, Church World Service, and Lutheran World Relief.

THE CO-OP. MILL

PREVENTION OF MILDEW

During this hot, humid weather homemakers should be on guard against damage from mildew. It is not the same as a stain because it attacks the fiber and causes it to break down.

Mildew, caused by mold, will grow where conditions are favorable, as in any dark, poorly ventilated place which is warm and damp. Mildew may be found in clothes closets, or in damp clothes rolled for ironing. Sometimes it is found on shoes, luggage, purses, upholstery, rugs or even on mattresses.

Miss Frieda C. Stoll, extension clothing specialist, Purdue University, points out that it is easier to prevent mildew than it is to remove it. She recommends the first step in preventing it is to remove the dampness. This may be done by heating the house for a short time with the heating system. An electric fan may be used to help force out the warm, moist air more quickly after the doors and windows

are opened. Occasionally, if closet doors and dresser drawers are left open, this will help to keep moisture from collecting and will permit air to circulate. An electric fan may be turned on places which do not receive direct sunlight. Even an electric light turned on in the closet will help.

Calcium chloride, a chemical, which may be purchased from departments or drug stores placed in an open container in the closet will absorb moisture in the closet. The closet door should be kept closed to keep out additional moisture. As soon as this chloride becomes liquid, it should be replaced with solid chloride. It also may be used to help dry up basements.

Damp or wet clothing should not be left folded or rolled for any length of time. Soiled clothes should be dried before they are placed in the hamper. Dish towels may be washed and hung to dry after using. If the wet shower curtain is stretched out, instead left sticking to wall or bunched up, it will dry.

Before storing, all fabrics should be washed or dry cleaned. Moulds feed on finishes, hence, it is wise not to

leave sizing or laundry starch in garments.

During hot muggy weather molds may grow in closed clothes bags. Garments stored in closets should be sunned and aired occasionally. Woolen fabrics in garment bags should be checked.

A thin coating of floor wax on leather shoes and soles, as well as, leather luggage will keep moisture out and help prevent mildew.

EGG CARE PAYS WELL

Many Indiana flock owners could increase their returns from the eggs they produce by as much as 25 per cent. Proper care of eggs and selling to a buyer who pays on the basis of grade will make the difference. Alexander Gordeuk, extension poultryman at Purdue, cites the example of a Montgomery County flockowner who produces about six cases of eggs weekly under conditions which have been highly profitable.

This particular flockowner has a

cool, moist egg room and has been able to sell eggs of which over three-fourths have been Grade A. On the week of July 4, he averaged 46 cents per dozen for his eggs sold on a graded basis. His return was \$82.80 for the week. If this same flockowner had sold his eggs ungraded as "current receipts" he would have received 37 cents per dozen during the same week. He would therefore, have realized only \$66.60 or \$16.20 less.

The secret in holding eggs on the farm so as to keep them of top quality is collection several times daily and prompt cooling and storing in a room 60 degrees or lower in temperature which has a relative humidity of 70 per cent or more. No farmer should have any difficulty in selling eggs of the highest quality when he follows these recommendations. The reward in a higher price certainly makes it worthwhile.

Long Time Between Drinks

Camels can drink 12 to 15 gallons of water in half an hour and carry several hundred pounds 300 miles or more without drinking.

PLAN YOUR VACATION

Peace of mind is the Great Father of a happy vacation, says the Chicago Motor Club in a bulletin prescribing advance precautions to assure a vacation free from worry.

The family away on vacation doesn't want to advertise that fact. The club suggests that a neighbor be asked to pick up any circulars and newspapers which may have been tossed on the porch. When left lying there, these announce to all the world, including burglars and vandals, that no one is at home.

Further domestic matters usually forgotten in the shuffle: have arrangements been made for forwarding mail? And the goldfish?

WHEN IN BURKET,

EAT

SPORT CENTER CAFE

Enjoy Free Horseshoe Court

PLAY SHUFFLEBOARD

ICE CREAM

To take out — Sundaes —
Malts

This restaurant inspected and approved by County Health Commission.

Protection against unwanted visitors, are to lock ALL doors and windows securely, draw the shades only part way down, and advise neighbors of your absence. The motor club further cautions against leaving a door key in the usual hidden place. With all this it is still a wise move to have burglary insurance paid up.

To minimize dangers from fire (again check insurance) see that the main power switch at the meter is open and the main gas valve is closed. Remove vases, milk bottles, and glasses from window sills or other places where they could reflect the sun's rays and start fires. No oily rags or rubbish should be left lying around.

Checking the car is a most important step to take immediately before leaving on the trip. Tires, brakes, lubrication, necessary extra equipment such as spare tire, tire jack and wrench, flashlight, tool set—all are musts for thoughtful consideration.

A sound home, a sound car, and above all a sound determination to drive safely are the final steps in guaranteeing a happy vacation complete with peace of mind.

THANK YOU, PATRONS

We want to thank each and every patron for the cooperation and courtesy extended us while we are all attempting to acquaint ourselves with the new telephone numbers. Your cooperation in using the numbers has been appreciated.

87 BOYS ATTEND CONSERVATION CAMP

Eighty-seven boys from several of the neighboring counties had five enjoyable days at the McClure Lake Conservation Club Camp last week. The Etna Green Conservation Club took all honors for the number of boys sent to the camp, with fifteen to their credit. The Lakeville Lions Club sponsored eight boys for second best.

Harold Dawson, of Rochester, was named star camper, with Don Steckbak, of Pierceton, named as alternate. Leonard Gray, of Pierceton, was chosen as star conservationist, with Jim Overmeyer, of Rensselaer, as alternate.

The camp, as usual, had a fine list of instructors and the boys were given a heavy course of instruction in conservation practices, forestry, swimming, gun handling while hunting, and many other allied features of the out-of-doors. Paul Jackson, county agent, was camp manager, with Bill Jackson, assistant county agent, as director. James McAllister, district forester, was his assistant. Jack Pritchard, of Mentone, was in charge of swimming and assisted in the recreational program with the help of many others. Rev. David Gosser, of Mentone, and Rev. Max Smith, of Etna Green, led the vespers programs each evening and Rev. Gosser was on hand all the time to assist in the recreation program.

Vocation agricultural instructors and leaders were present to do their part in making the camp a profitable one. They included: Marion Stackhouse of Milford, Wm. Stotts of Syracuse, and Dick Reed of Pierceton. Vic Feaster, assistant county agent of Marshall county, was on duty all the time to help with the recreational program.

State and federal men who were present to acquaint the boys with the work in their departments were: Henry Cottingham, director of Fish and Game Dept.; Rudy Meyers, zone representative of the division of Education; Wm. Barnes, director of the Pittman-Robertson Wildlife Habitats; James Hughes, project leader of Wildlife Habitats; Roy Cole, Extension

Soil Conservationist; Art Parrish, District Extension Forester; James McAllister, District Farm Forester; Roy Brundage, Research Forester; George Kinsbury, Division of Water Resources, and others.

Hobart Creighton gave the welcoming address Sunday evening and on Thursday evening Gus Groves, of the State Department of Conservation, spoke at the closing ceremonies.

The Burket ladies again handled the cooking at the camp—which is a job when it takes over a hundred pounds of potatoes and fifty to sixty pounds of meat for a day or a meal. Lyndes Latimer had his tent pitched on the grounds and took good care of the "grub" department, and C. O. Mollenhour, "Ped" Koenig, and others were on hand to keep the camp moving along smoothly.

MOLLENHOUR REUNION

The 34th Annual Reunion of the Mollenhour Family will be held at the home of Mrs. H. A. Mollenhour, southeast of Mentone, on Sunday August 7. Mr. C. E. Mollenhour of Bourbon will be the president, and Mr. L. W. Mollenhour of Mentone will be the secretary-treasurer.

SCAFFOLDING IN PLACE FOR BANK REPAIR WORK

Contractors have virtually completed the erection of metal scaffolding in preparation for removing the old outside brick from the Farmers State Bank building and replacing with new brick. The old brick have been loosening and some have fallen out of the wall.

UNABLE TO WORK

Howard Kohr has been advised by his doctor to take a month's vacation from his work since he collapsed a week ago Tuesday, and had to be taken to the McDonald hospital. Howard is suffering from high blood pressure, but is able to be out and around at this time.

LOCAL NEWS ITEMS

Miss Wilhelmina Honig is visiting in the E. H. Kinsey home.

Silas Meredith was admitted to the Woodlawn Hospital in Rochester Monday afternoon for medical aid.

FOR SALE—Sweet corn. Mrs. Garrie Rose, Mentone. 1p

Mr. and Mrs. O. O. Blue called on Mr. and Mrs. Adam Bowen Sunday evening.

Mr. and Mrs. A. O. Fawley, of Warsaw, called on Mrs. Fawley's niece, Mrs. Adam Bowen.

Mr. and Mrs. Raymond Bare spent the week end in Chicago with Mr. and Mrs. I. E. Sundberg.

Mary Louise and Junior Bare spent last week in Goshen with their grandparents, Mr. and Mrs. David Price.

WANTED—Any kind of carpenter or cement work. Ray Eckert, phone Burket 17F14. 1p

FOR SALE — Golden Bantam sweet corn for canning or freezing. Frank Newton, phone Mentone 27F13.

Mrs. Earl Meredith visited a few days last week at the homes of her son, Mr. and Mrs. Roy Meredith and family, at Akron.

Mr. and Mrs. George Borton and sons, Larry and Lynn, of Huntington, and Mrs. Ira Borton of Mentone, spent Sunday at Maxinkuckee Lake.

Mr. and Mrs. Lewis Harshbarger and Mrs. Lavina Shinn were dinner guests at the home of Mrs. Allen Dille on

Monday evening.

Mr. and Mrs. Dean C. Bowen and family from Albion, Michigan, spent Friday with their Uncle and Aunt, Mr. and Mrs. Adam Bowen.

Mr. and Mrs. Floyd Boyll and son, Leonard, and Mrs. Earl Meredith and granddaughter, Marcia were callers at the Galen Laird and Mrs. Ora Anderson homes Monday evening.

Mr. and Mrs. Roy King, of Chicago visited here over the week end and attended the wedding of their niece Jean. Another niece, Barbara Lu King, returned with them for a couple of weeks.

Dale Kelly, Ted Peterson, David Johns, David Cooper, Junior Emmons, and Floyd Nicodemus left Sunday for Lionel Green's Camp on Crow Lake, Ontario for a week's fishing trip. It has been brought to our attention that at least one of the boys neglected to take his vitamin tablets along, which we feel was a big mistake. These portages getting back to Stephens Lake, really call for some capable muscles, in spite of the fact that Lionel carries the motor, packback, and one end of the canoe.

Tommie Blue spent several days last week on a trip to New York City. He made the trip with one of the Mentone freight trucks, and judging by what he has to say, he was very much impressed with New York and the drive through the Pennsylvania mountains.

RECOGNITION DAY AT PURDUE "AG" CONFERENCE

Harry F. Weiland, County FHA Supervisor, Kathleen Seely, County FHA Office Clerk, and 16 Farmers Home Administration families from Elkhart, Kosciusko, and LaGrange Counties went to Purdue last Wednesday, August 3, to attend the Purdue Summer Agricultural Conference at the University.

As a part of the Conference program, August 3 was designated as "Recognition Day" for a selected group of Farmers Home Administration families.

In 1937, the Congress of the United States passed the Bankhead-Jones Farm Tenant Act. This Act made available, to eligible farm families, funds with which to purchase family-type farms. Since 1937, about 70,000 farm families in the nation have purchased farms with financial assistance from the Farmers Home Administration (formerly known as the Farm Security Administration). Approximately 20,000 of these families now have their farms paid for. Their mortgages are paid and they are the proud possessors of deeds to their land.

Mr. Ralph C. Philipps, State Director of the Farmers Home Administration, and his staff thought it would be most appropriate to recognize the accomplishments of the Indiana farm families who, through perseverance, good management and cooperation have paid for their farms out of the income from the farm. Concurring in this, the University offered their facilities and incorporated in their three-day Summer Agricultural Conference program one day, August 3, as "Recognition Day" for the Farmers Home Administration and to do honor to selected farm families who have their farms fully paid for.

For most of these families, it was their first trip to the state agricultural college. They spent a most profitable and enjoyable day. It was estimated that over 1000 people were in attendance when recognition was paid these families by Dillard B. Lasseter, Ad-

ministrator of the Farmers Home Administration, Washington, D. C. and Ralph C. Philipps, State Director, Lafayette, Indiana.

Farm income has increased very materially during recent years. Nevertheless, it is an accomplishment when a farm family can pay for a good farm, out of the income from the farm, in six to ten years. It takes team work on the part of the members of the family, good management practices, and a wise expenditure of money.

Such families are to be congratulated and were entitled to the recognition bestowed upon them by their state and national governments.

The Purdue Hatchery School Aug. 15-19, will train hatchery agents in flock selecting and pullorum testing. The school will meet the requirements of hatcheries that operate under the National Poultry Improvement Plan. Classes will be held from 8 to 5 Monday through Thursday in the Poultry Building on the Purdue campus. Joe Taggart of an Incubator Co., Cincinnati, Ohio, will direct the "Incubation Clinic" on Wednesday. In the evening, a chicken barbecue will be sponsored by the State Poultry Association.

THE NORTHERN INDIANA CO-OP. NEWS

Published Weekly by the

Northern Indiana Cooperative Association, Mentone, Ind.
ARTLEY D. CULLUM, Editor and Manager.

PRINTED IN THE MODERN PLANT OF THE COUNTRY PRINT SHOP

Occasionally there is a bright spot in the outdoor picture, and this time it is the outlook for an improved waterfowl gunning season this fall.

Recently officials of Ducks Unlimited reported as follows: "The waterfowl breeding season is progressing favorably in all parts of the range. June rains alleviated the drought threat over most of the southern prairies (in Canada) removing the danger of any wholesale loss of broods through drying up of sloughs and potholes."

The report continued with this comment: "If the second half of the breeding season (this runs through August 15) continues as favorably as the first half, a successful season is assured."

The wintertime inventory made by the U. S. Fish and Wildlife Service along the Gulf and in Mexico disclosed a 12 per cent overall gain in the waterfowl population. This added to the current report from the north stacks up as an optimistic view of the coming season.

The low waterfowl populations of recent years have had one good effect on hunters, however. There is nothing better than a few lean days in a duck blind to learn how great ducks and geese are in supplying grand gunning sport.

I believe many hunters have learned the lesson against wastefulness. Of course, there always will be that group of gunners who figure "let's get 'em while the getting's good and to heck

with the years ahead!" And it is this group that should draw the concentrated fire of all decent sportsmen who appreciate the waterfowling sport as a sport and not a meat supply.

Anyway, it's nice to learn that the weatherman has changed his routine a bit by giving the birds a break in the plight of the waterfowl and it is a welcome change.

SEED CIRCULAR NOW AVAILABLE

Agricultural Experiment Station Circular 313, "The Indiana Seed Law and How to Comply with it," has been revised and reprinted for distribution from Purdue University.

The circular contains changes for 1948 in the noxious weed list for Indiana. Producers, wholesalers and distributors of agricultural seeds can learn the recent changes in the law they must observe.

Labeling, testing, analysis and tagging individual bags of seed are also explained in the circular.

Producers, wholesalers, distributors and others interested in obtaining the circular may do so by contacting their county agents for free copies. Or copies may be obtained by writing the Purdue Agricultural Experiment Station, Lafayette, Indiana.

Scare earworms from your late-planted sweet corn by using mineral oil containing pyrethrum. George Gould, extension entomologist at Purdue University, suggests applying it with an ordinary oil can. Just inject a few drops of the oil into the tip of the ear just when the silks are wilting, but before they turn brown.

**EASTERN STAR CHAPTER
HOLD INSPECTION**

Mrs. Lucille Geyer, of Sunman, worthy grand matron of the Order of Eastern Star, was the inspecting officer at a joint meeting of the Bourbon,

Breman, and Mentone chapters, held Friday evening at Breman.

The opening ceremony was conducted by the officers of Bourbon Chapter, of which Mrs. Ethel Koontz is worthy matron. Officers of Mentone chapter, of which Mrs. Mary Tucker

is worthy matron, conducted the ceremony in which Mr. Arthur Brown of Mentone was initiated. During the closing ceremonies, at which Jane Crittenden, worthy matron and other officers of the Breman chapter were in charge, talks were given by Mrs. Geyer and other distinguished guests. Preceding the meeting, a dinner was given in honor of Mrs. Geyer. Her colors, green and blue were used throughout the dining room. Smiling daisies were the theme. A three-course dinner was served to the officers and guests of their chapters.

The three chapter Star points, Adah, presented Mrs. Geyer with a gift from the three chapters as she was escorted to the East. Other distinguished guests escorted to the East were: Mrs. David Miller, of Goshen, deputy of district No. 20, Mrs. Condict Smith, of Tucson, Arizona past worthy grand matron, formerly of Warsaw, Mrs. Raymond Woodruff, of Ft. Wayne, and past worthy grand patron, Ray Walters, of Nappanee, the following Grand Star points, Adah, Mrs. Titus Klingman; Ruth, Mrs. Mary McBride; Martha, Mrs. Hester Hoover; Electa, Mrs. Vesta Kalb. Mrs. Ray Walters of Nappanee a Grand representative was introduced from the floor.

TOWNSHIP NEWS

Mr. and Mrs. Robert Calvert and family spent Sunday in Mishawaka with Mr. and Mrs. Harold Myers and family.

Mrs. Charles Good and son Joe spent Friday afternoon in Rochester.

John Lewis has moved to Rochester to make his future home.

Mrs. Ralph Chapman, R.N., assisted at the Woodlawn hospital in Rochester a few days last week.

Mr. and Mrs. Paul Grile of Peru were Sunday guests of her sister, Mrs. Charley Green.

Mrs. Nellie Walker has returned to her home in Indianapolis after spending the week here with her husband, A. E. Walker.

Mr. and Mrs. Loren Kramer spent Saturday evening in Rochester.

Mrs. Frank Bellward, who has been quite ill, is slowly improving at her home.

Miss Pat Myers of Mishawaka is spending the week here as the guest of her uncle and aunt, Mr. and Mrs. Robert A. Calvert.

Dr. Russell Eckhart of Chicago spent the week end here with his wife.

Mrs. Charley Green spent Friday afternoon in Rochester.

Leonard Staldine has accepted a position with the Wilson Coal & Grain Co. at Rochester.

Sonny Green and Bob Duzan spent Friday afternoon in Rochester.

Omer Holloway has resigned his position on the Indiana State Highway Department.

Arnold Snipe has resigned his position at Gary and has taken one with the State Highway Department.

Mrs. Dana Starr and daughter Pat of Mentone spent Wednesday with her mother, Mrs. James Hubbard.

Mr. and Mrs. Jess Miller and son spent the week end in Rochester as guests of her mother, Mrs. Inez Stansbury.

Mr. and Mrs. O. C. Montgomery and Lavoy attended the softball game at Mentone Wednesday evening.

Mrs. Harry Wenger has been admitted to the Woodlawn hospital at Rochester.

Joe Good attended the baseball game at Rochester Sunday.

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Puppet shows for the children will be one of the features of the Indiana State Board of Health exhibit at the Indiana State Fair opening September 1.

"The nationally known Proctor Puppets will give four shows daily in the

east building of the State Board of Health," Robert Yoho, director, Division of Health and Physical Education, said today. "These puppets are not new to Fair goers as they were a popular attraction three years ago. The shows will be based on rabies, food sanitation, dental care and tuberculosis.

"Also exhibited in this building will be displays showing the activities of the State Board of Health of the local level. These exhibits will replace the 70 mm chest x-ray mobile unit which has been at the Fair for the past two years. One tuberculosis x-ray unit will be at the Fair but the other units are so heavily scheduled in the various local communities and state institutions that it is impossible to use more than one unit at the Fair."

In the west building of the Indiana

State Board of Health, sixteen allied public health organizations have engaged space for exhibits. Several new exhibitors are added to the list this year. The sponsoring organizations are: Indiana State Nurses' Association, Indiana Pharmaceutical Association, Indiana Dietetic Association, Indiana Dental Association, State Department of Public Instruction, Indiana Society for Crippled Children, Indiana Cancer Society, National Foundation for Infantile Paralysis, Indiana Council for Mental Health, Indiana Mental Hygiene Council, Indiana Heart Foundation, Indiana Social Hygiene Association, Doctor's Plan and the Indiana State Medical Association.

STATE FAIR BIGGEST EVER

The 93rd renewal of the Indiana State Fair will be held September 1 through 9 this year, opening one day earlier than usual, providing big action-packed days of entertainment.

The total amount of premiums offered this year is \$308,240.83, and incidentally the 83 cents is paid out. This is \$13,000 more than was paid out a year ago.

The first three days of the Fair will be devoted to Youth Activity Days. Opening day, Thursday, will be turned over to the Boy Scouts of America. All Boy Scouts who appear at the gates will be admitted free of charge and their day of entertainment will be capped off with a free fireworks display. Kay Keiser Theatrical agency of Indianapolis is providing the entertainment.

Climax of the three days of Youth Activity will be the 4-H demonstrations and dress revue to be held in the Coliseum at 2:30 Saturday afternoon.

The youth will have had their day and will take their prize stock back home Saturday, except those who have entered their animals in open classes and those with champions who will stay on for the remainder of the fair.

Spike Jones and His Musical Depreciation Revue will open on Thursday night and play concerts Friday and Saturday nights and again on Sunday afternoon.

Irish Horan and His Hell Drivers, automobile thrill show, will open Friday night on the track in front of the grandstand and return Saturday night and Sunday afternoon.

Sunday morning, the Indianapolis Ministerial Association will conduct a Sunday School hour under the direction of the Rev. B. Connor, president of the Indianapolis Ministerial Association.

Saturday afternoon the Grand Circuit meeting will open with horses and drivers going after the more than \$145,000 offered in purses. The Grand Cir-

cuit boys will catch a breather on Sunday and dash back Monday afternoon in their mad pursuit of the cash and trophies that await the winners.

Sam Levy, president of the Barnes & Carruthers Musical Revue, will be working feverishly during Sunday to ready the stage in front of the grandstand for the first presentation of the 1949 State Fair Follies to be held Sunday night. The show will then be held each night throughout the last day of the Fair.

As soon as Spike Jones and his musical crowd are through with the stage in the Coliseum, workmen will begin to ready the arena for the nightly horse show.

The horse show will be held each night thereafter in the Coliseum, presenting for the first time in the history of the Fair, a National Cutting Horse Exhibition. The American Shetland Pony Division will also be showing for the first time in many years at the Indiana State Fair.

In a nation of give-aways, the Indiana State Fair is not without its give-away, also, as free noonday full-length horse shows will be held in the Coliseum.

Judging of livestock will be held each day in the Coliseum and the Radio Center building will be housing many Indiana radio stations who are broadcasting live talent shows from the Center, plus many other stations who will be broadcasting from spots on the fairgrounds.

The Indiana High School Band Contest, always a colorful spectacle, will begin at 10:00 Wednesday morning and feature a parade of more than 30 bands on the track of the fairgrounds.

The Farmers' Day parade will be held on Thursday morning featuring

floats, hobbies and bands.

During the entire nine days, Cetlin & Wilson carnival shows will be showing on the midway.

The mechanical field will be featuring more than 100 exhibitors who will display all the latest in farm machinery and equipment.

When the curtain rings down on the 1949 state fair more than 25,000 exhibits will have been put on display by more than 6,000 exhibitors.

RAISING OF RABBITS TOLD IN CIRCULAR

Pointers for children or adults on how to raise rabbits for fun are again available in a Purdue University circular.

The publication discusses selection of breeds for production of both meat and fur, and selection of equipment for both large and small enterprises. Care of equipment and sanitation practices are also included. Breeding and care of young rabbits and their nutritional needs follow in the Purdue circular.

The rabbit publication is Agricultural Experiment Station circular 283,

"The Production, Feeding and Care of Rabbits." It may be obtained from county agents, or by writing the Purdue Agricultural Experiment Station, Lafayette, Indiana.

NOTICE EGG SHIPPERS

The bonding committee representing Egg Shippers from Northern Indiana requested from all the Northern Indiana Egg Receivers bonds affording protection to such shippers on the following points:

- Failure to pay such persons, partnerships and corporations, represented by the AGENTS, at least the full market value for any eggs received from such persons, partnerships and corporations, such fair market value being based upon prices established by the New York Merchantile Exchange, on the date of the receipt of such eggs in New York.
- Deferred remittances
- Failure to accept eggs upon arrival.

Recently, a number of bonds were received from the various receivers and such bonds with the exception of one issued in behalf of Schonbrun Bros., are being returned to the receivers because such bonds do not afford protection on the above-mentioned points.

As more acceptable bonds are received, notice of such shall appear at each shipping point.

ATTEND JONES FUNERAL

Friends who came from a distance to attend the funeral of Vernon Jones last Wednesday were: Mr. and Mrs. Andy Rine, Mr. and Mrs. Harper Rine, Mr. and Mrs. Roley Rine, and Mr. and Mrs. Esco Jones, all of Ohio; Mr. and Mrs. Dennis Jones and daughter, of Wisconsin; Mr. and Mrs. Russell Slack, of No. Manchester; Mr. and Mrs. Joe Aivlebron, daughter and son, of Chicago; Mr. and Mrs. Harley Emory, of Elkhart; Mr. and Mrs. Delcie Powers, Mr. and Mrs. B. Flitter, of Valparaiso.

INVESTIGATING POSSIBILITY OF SPRAYING ALL OF CITY

The members of the Mentone fire department and the town board are investigating the cost, etc. of spraying the city in an effort to help combat the spread of polio germs.

It hasn't been definitely established but medical authorities believe that flies and insects are greatly responsible for the spread of polio germs and many cities are using DDT sprays in an effort to kill as many of the insects as possible. The fire department boys have volunteered to do the work if arrangements can be made to secure the funds for the necessary insecticide. Town board officials are now investigating to ascertain the best methods, costs, etc. of a project of this kind. Interested citizens could lend moral support to the program by expressing themselves to the members of the town board or fire department.

IN SOUTH BEND HOSPITAL

The condition of Alton Shoemaker, 43-year-old Claypool stock buyer and businessman, was reported slightly improved Tuesday. Mr. Shoemaker was taken by ambulance Sunday to the Memorial hospital in South Bend for an emergency operation. He is the son of Mr. and Mrs. Clement Shoemaker, of Claypool, and the son-in-law of Mr. and Mrs. Chester Tibbets, of southeast of Warsaw.

NO "MENTONE MURMURS" IN THIS WEEK'S ISSUE

Because of Rev. Gosser's being at Epworth Forest and Mrs. Gosser being busy in innumerable ways, "Mentone Murmurs" will not appear this week. We'll all be looking for its appearance in next week's issue.

REPORTS ON BOND DRIVE

A. I. Nelson, of Mentone, who was county chairman of the "opportunity days" drive for the sale of U. S. savings bonds, reports that a total of \$273,803.75 was realized in the campaign.

Mr. and Mrs. Gene Lancaster and children of So. Whitley visited Mrs. Myrtle Reed at the Artley Cullum home Sunday afternoon.

4-H CLUB NEWS

A meeting of the Franklin 49er's 4-H Club was held Thursday evening in Pat Ballenger's home with 13 members present. A discussion on the completion of 4-H projects was led by Iris Jones and the leaders, Emma Jones and Wreatha Ballenger. It was decided by the group to have a picnic Aug. 10 at 5:00 p. m. at Center Lake. The treasurer's report was given by Donna Coplen. A food preparation demonstration, "Cottage Cheese Pineapple Salad," was given by Barbara Kesler and a baking demonstration, "Emergency Cake," was given by Beverley Teel.

The last mystery box of the year was won by Pat Ballenger.

Games were led by Marilyn Rathfon. Refreshments were served by Carol and Beverley Teel.

MRS. IDA R. GRIFFIS

Funeral services for Mrs. Ida R. Griffis, aged 80, of Mentone, were held at 2:30 p. m. Wednesday at the Reed funeral home. Rev. David Gosser conducted the service. Burial was in the Mentone cemetery.

Mrs. Griffis died at 9 p. m. Monday at the home of her son, Milo Griffis, of Mentone. She had been ill for three and one-half years due to carcinoma.

Her husband, Marion R. Griffis, died three years ago.

She was born near Leesburg Feb. 23, 1869, the daughter of James and Rebecca (Summy) Webster, but had lived in the Mentone community most of her life. She was a member of the Mentone Baptist church.

Her son, Milo Griffis, of Mentone, two grandchildren, and four great-grandchildren, are the nearest surviving relatives. A daughter, seven years old, also preceded her in death.

LOY UмбаUGH DIES

Loy Umbaugh, 64 year-old Newcastle Township farmer passed away at the Woodlawn Hospital at 5 a. m. Monday, August 8th. He has been ill for two years.

Born July 25, 1885, in Ohio, he was the son of George and Molly (Hill) Umbaugh. The family moved to a farm residence in Newcastle Township, when he was a child. He was married to Ortha DeWald on Nov. 10, 1910.

A member of the Rochester Lutheran Church, he is survived by his wife, a daughter, Mrs. Esther Jarrett of Richmond, a son Francis at home, two sisters Mrs. George Deamer, Sr. of Rochester, and Mrs. Nora Hahn, of Hutchinson, Kansas.

Funeral services were held Wednesday afternoon, August 10th, at the Rochester Lutheran Church and a Lutheran Minister officiated. Burial was made in the Reister cemetery near Talma.

AMATEUR CONTEST STILL OPEN

If you have forgotten or neglected to get an entry blank for the Amateur Contest to be held here in Mentone on Saturday evening, August 20, you may still do so. An entry blank will be found in this issue of the Co-op News and may be entered at Dentan's Drug Store or the Country Print Shop.

JACK BLUE FIGURES IN AUTO ACCIDENT

Earl Boyer, 54, of Elkhart, was seriously injured early Saturday evening in a two-car collision four miles north of Etna Green on state road 19. Attendants at the McDonald hospital Monday reported that Mr. Boyer has a badly injured chest, lung and possible internal injuries.

The car driven by Boyer collided at the Tyler bridge with an automobile occupied by Jack Blue and Mary Hill, of Mentone. Boyer was accompanied by his wife, Beulah. Jack Blue and Miss Hill were treated at the hospital for minor injuries, then released. Mrs. Boyer escaped injury.

State Officers George Coon and Walter Edell investigated the accident. They estimated damage to the two vehicles at over \$1,600. The entire front end of the Blue car was broken off as it skidded a distance of 229 feet.—Warsaw Times.

MENTONE MERCHANTS TO PLAY BASEBALL SUNDAY

The Mentone Merchants, in response to a challenge put out by the Rochester Moose baseball team, will play at Rochester Sunday afternoon, Aug. 14, at one o'clock in the first of two games scheduled there for the afternoon. Herschel Linn and Ed Creakbaum, who both play on the Moose team, will be in the Mentone lineup for this game.

Later in the season the Moose team will come to Mentone to play the Merchants in their regular game—softball.

Smith

Mr. and Mrs. Marion Smith, of Mentone, are parents of a daughter born last Thursday at the McDonald hospital in Warsaw.

Breeden

Mr. and Mrs. Cliff Breeden, of Hartford City, are the parents of a daughter, born last Friday at the Blackford county hospital. The baby, which weighed eight pounds and seven ounces, has been named Barbara Lee. Mr. Breeden was formerly assistant county agent in Kosciusko county.

LARGE CROWD HERE TO WITNESS BIERWAGEN'S WORK

Ike Bierwagen, famed pitcher on the South Bend Tribune softball team, attracted quite a crowd at the Mentone softball park Friday evening. True to the pre-game build-up, Bierwagen could pitch. He allowed only one hit—a loopier between the pitcher's mound and second by Keny Drudge. The Tribune team won the game two to nothing, which was a very good game.

Tuesday evening of this week, Mentone, playing in a tournament, was eliminated when they tangled with the North Manchester All Stars. Baker, the opponent's pitcher, has made things miserable for the local boys in previous encounters and, according to his own statement, he feels he has had a successful season because he pitched winning games against both the Warsaw AAs and Mentone.

MISSIONARY AT MENTONE BAPTIST CHURCH

On Wednesday afternoon at two o'clock on August 17th Mrs. E. S. Lockerbie of the International Christian Leprosy Mission, will show colored slides of the work. This board, with headquarters in Winona Lake, has workers in China, India and the Philippines. While the meeting is conducted by the Baptist Ladies Missionary Society, with Mrs. Noble Oyler, president, all ladies of the community that are interested are invited to come.

FIRE DESTROYS MCINTYRE BARN

Fire completely destroyed the Geo. McIntyre barn Wednesday afternoon.

It isn't known what caused the fire and no one was home at the time. A passing motorist saw the fire and called the Mentone fire department. Neighbors and firemen managed to remove the livestock and farm machinery, but the flames had too great a start for the firemen to save the structure.

NEW BARBER IN MENTONE

Ed Raymer, of Elkhart, has taken over his duties at the former Tom Wright barber shop. (See announcement elsewhere in this issue).

Mr. Wright has accepted a position at the Mentone American Legion Post.

OFFICIALS MAKE HEALTH INSPECTION OF CITY

Members of the town board and fire department made a thorough inspection of the streets and alleys in Mentone this week and, with but one or two instances, found the city to be in pretty decent shape as far as health conditions are concerned. Most families have regulation covered garbage cans and trash has been disposed of properly. These people are to be complimented, stated the group.

The inspection was made to check on how efficient spraying would be in the city, as this work would be almost useless if raw garbage were left in the open.

There were a few instances where ashes, cans and trash extend into the alleys making it difficult for the fire truck to get through if it became necessary. This can be removed at a small cost as Mr. Sanders is making regular trips to Mentone to haul any trash the citizens have to haul.

It was reported the fire department boys planned to give the city an insect spray treatment Wednesday evening, and another will be made in about ten days. The fire department boys are donating their time, and interested citizens can help defray the cost of the materials if they would like to help in this manner. The total cost is not expected to exceed \$200.00.

The committee reported that another inspection will be made in the near future, and they hope that the citizens will make a special effort to remedy any unsatisfactory conditions on their property.

FIRST BAPTIST CHURCH ON THE AIR

Sunday morning from 10:30 to 11:30 over WKAM—Warsaw—AM station will be heard the complete morning service of the First Baptist Church of Mentone. Some months ago the church voted to consider radio as a means of reaching more people with the Gospel and now they have found an opportunity. They hope the broadcast will be a real blessing to many, especially to the sick and those shut-ins who cannot attend any church. We invite you to listen and enjoy the broadcast. The station is 1220 on your dial.

NOTICE TO TAXPAYERS OF ADDITIONAL APPROPRIATIONS

Notice is hereby given the taxpayers of Mentone, Kosciusko County, Indiana, that the proper legal officers of said municipality at their regular meeting place at 7:30 o'clock P. M., on the 6 day of September, 1949, will consider the following additional appropriations which said officers consider necessary to meet the extraordinary emergency existing at this time.

For Construction of Streets, 2375.00
Taxpayers appearing at such meeting shall have a right to be heard thereon. The additional appropriation as finally made will be automatically referred to the State Board of Tax Commissioners, which Board will hold a further hearing within fifteen days at the County Auditor's office of Kosciusko County, Indiana, or at such other place as may be designated. At such hearing, taxpayers objecting to any of such additional appropriations may be heard and interested taxpayers may inquire of the County Auditor when and where such hearing will be held.

Ancient Greek Book

One of the oldest Greek books is a farm almanac, "The Works and Days" of Hesiod, dating probably from the eighth century B. C. It is addressed to a public of respectable small farmers living on their own land and carrying on with the help of one or two slaves.

BEAN GRADING IS REVISED

A revision in the standards in the grading of soybeans, to become effective September 1, 1949, has been announced by F. E. Robbins, associate professor of crop production in the Purdue University School of Agriculture, who is also a licensed grain inspector. The new revision will affect grain elevator operators and Indiana farmers who will harvest more than one and one-half million acres of soybeans this year.

Under the new standards, both dockage and foreign material in the soybeans will be combined under one specification and will be called "foreign material." This ruling will eliminate dockage entirely.

In his announcement, Prof. Robbins explains; "At present, dockage is recorded in whole per cents only. Under the new standards there will be no tolerance, fractions will be counted, and the entire percentage will be added to what will be called foreign material. For example, if what was formerly called dockage (that passing through an 8/64th sieve) is 2.7 per cent and the foreign material is 1.8 per cent, the two will be added, making a total of 4.5 per cent. The new standard permits three per cent foreign material instead of two per cent in No. 2 soybeans; hence three per cent can be deducted from the total 4.5 per cent, leaving 1.5 per cent. This remaining per cent becomes a degrading factor, and the sample grades No. 4.

Under the new standards, the foreign material allowed has been increased one per cent in each grade, Prof Robbins adds. No. 2 soybeans, if formerly permitted 15 per cent splits, will now be permitted 20 per cent splits, and soybeans, 30 per cent. The damage

remains the same as before. Prof. Robbins added that there is a limitation of two per cent of soybeans of other classes that will be permitted in grade No. 2 yellow soybeans.

Prof. Robbins will conduct eight grain grading schools throughout Indiana during August and September to explain the new standards to grain elevator operators and farm leaders.

SCHOOL FOR HATCHERYMEN

Approximately 90 future poultrymen, flock selecting and pullorum testing agents, are expecting to attend the annual Purdue University Hatchery School to be held August 15-19 at the Poultry Building on the campus. The training school is held each August by the Purdue Poultry Department in cooperation with the State Poultry Association. Those who may have an opportunity to qualify as flock selecting and pullorum testing agents under the National Poultry Improvement Plans.

Students taking the week's course will spend laboratory time on the selection of stock for production qualities, will study breeds and varieties, the control of pullorum disease, and the working of the National Poultry and Turkey Improvement Plans.

An incubation clinic and field trip to observe blood testing methods is

scheduled for Wednesday, when Joe I. Taggart, president of the Chick-Master Incubator Company, Cleveland, will give a lecture on proper operation of mammoth incubators. Thursday's session will deal with the control of various poultry diseases and a discussion of cross-breeding, inbreeding and hybrids.

A chicken barbecue will be held on Wednesday evening, sponsored by the State Poultry Association.

NEWCASTLE TOWNSHIP NEWS

Mr. and Mrs. Verde Brockey were the callers at the home of Lou Grove Saturday and Sunday evening.

Miss Rosie Good of South Bend spent week end here as the guest of her father Mr. Charles J. Good.

Mr. Nelson Overmyer and Miss Olene Barodt spent the week end in Coldwater Mich. as the guests of Miss Barodt's mother.

Mr. Harry Sliver and son Montie and their guests spent Sunday in Chicago, Ill.

Mr. Herman Matthews and Miss Charlotte Emmons attended the 4-H Fair at Rochester, Friday evening.

Mr. and Mrs. Estil Bryant and daughter Jean of near Akron were the Sunday afternoon guests of his mother Mrs. Cora Bryant.

Mr. Robert Calvert has resumed his duties at the Studebaker plant in South after being confined to his

home on account of illness.

Mr. and Mrs. Herman Haines and family of Warsaw were the Sunday guests of his sisters, Misses Alice and Nora Haines.

Mrs. Rus Eckert is spending some-time in Chicago, as the guest of her husband, Dr. Rus Eckert.

Mr. and Mrs. Loren Kramer attended the Rochester Fair Friday evening.

Mr. and Mrs. Virgil Little and family of Logansport and Mr. and Mrs. Joe Little of this place spent Sunday in Mishawaka.

Mr. and Mrs. Charles Miller and family of South Bend and Mr. and Mrs. Red Ritter and daughter of Plymouth were the Sunday guests of Mrs. Maude Kinzie.

Mrs. Frank Arter was the Sunday dinner guests of her daughter Mrs. Roy Hubbard.

Donations to Charity

Seventy-one of the 100 largest manufacturing corporations in the United States gave 16.1 million dollars to charitable and welfare organizations during 1947.

INDIANA AGRICULTURAL EVENTS

Some of the numerous agricultural events scheduled throughout Indiana for the coming months include:

August 11—Jennings County Experiment Farm Fair Day near No. Vernon.

August 15—Artificial Breeding Policy Meeting at Dyersburg.

August 15-19 — Purdue Hatchery School in the Poultry Building.

August 18—State Ton Litter Show at Indianapolis.

August 20—Evansville Ton Litter Show at Evansville.

August 24—Grassland Field Day at Evansville District.

September 10—Boys State Fair Club Camp at Indianapolis.

September 16—Purdue Swine Day at Purdue.

September 19-21—Annual Meeting State Poultry Association at Syracuse.

The 1948 pig crop for the United States is the third largest on record and 15 per cent larger than the 1948 crop. Reports on breeding intentions for the coming fall crop indicate that there will be an increase of 13 per

cent over last year in number of sows farrowing. Thus the total pig crop might be 13 per cent above the 1948 crop and eight per cent above the 1935-39 average. With prospects for heavier marketing from this year's large spring pig crop, hog prices likely will decline more than usual from the early fall high to the winter low, Purdue University agricultural economists point out.

A TRIBUTE TO AA

Fourteen years ago a country doctor, whose career was being wrecked through heavy drinking, found a way out of his "Lost Weekend" through the help of a New York broker, a fellow sufferer who had cured himself through service to others. That meeting resulted in the formation of the national organization we know today as Alcoholics Anonymous. In this fourteen year period, AA

has done what the Chicago Sun-Times, in a recent editorial, calls "one of the most remarkable jobs of our generation." It points out that the rehabilitation of problem drinkers by AA members, each of whom are on call night or day to go to the aid of a victim, is of inestimable value. Each victim saved means a family also saved. Each AA means less work for doctors, hospitals, welfare agencies and even the police. Said the Chicago Sun-Times:

"Moreover, the movement has been one of the greatest single factors in teaching all of us that the evil of drink is not in the bottle. It is in the maladjusted individual who turns to the bottle to escape from real or imagined frustrations.

"A lot of us used to think that if the bottle were removed, the evil would disappear. That's why we tried National Prohibition. Painfully, sometimes bloodily, that magnified our mistake up to a size where all but the most fanatic 'drys' could see it.

"Alcoholics Anonymous goes to the causes of habitual drunkenness instead of trying a futile half-nelson on the effects. That's why AA is with us today while Prohibition isn't."

MENTONE MURMURS

by
DAVID and SALLEY GOSSER

MURMURS is home from the lakes to resume the chores of daily life which we often complain as being monotonous, but which, on the other hand, give us a sense of security through the regularity of our habits and chores. The discipline of meeting

life's problems is essential to the maturity of all individuals, and although it is healthful to "get away from it all," it is necessary to return to daily routine.

MURMURS was impressed by the presentation of the **PASSION OF CHRIST** by the Stevens Players last Wednesday evening at Epworth Forest. Usually given only during the Lenten Season, Mr. and Mrs. Martin Stevens have been touring church camps this summer, and presenting their religious program. Until having seen this unusual program, no person

can realize how the medium of mari-onettes can be used to such lofty purposes. Having seen the Black Hills Players present the *Passion*, the film, *Prince of Peace*, and a Hollywood version of *The Life of Christ*, Murmurs is convinced that our own Hosier talent of Middlebury is superior. The costuming of the one-third life size figures was superb, the lighting excellent and the ability of Martin and Olga Stevens to manipulate and give voice to more than a dozen different Biblical characters was convincing and inspirational.

MAN IS NOT ALONE in his fight against the insect world. On the desk in front of Murmurs is a jar captivat-ing a black and red bug, a sprig of a potato plant, and the remains of the "pupa" of a potato Beetle. The strikingly colored bug was found with its proboscis sunk deep into the back of the pupa of the potato Beetle. There it remained until the life juices of the pupa had been daintily sipped away, and only the dry orange covering remained.

The Etna Green Band made a very nice showing last Saturday evening with its program of more difficult music, but Murmurs still votes for Mentone.

Mentonites vacationing in woody places enjoy the aroma of the out-of-doors, deep pine-scented woods, cool damp crevices where water trickles from rock strata and moss and ferns cling to precarious ledges beyond the reach of human hands. Occasionally our local citizens are successful in transplanting these woodland plants, as Mrs. Lide Williamson and her neighbor Mrs. Meredith have been. Spring and early summer are the seasons when the uncurling fronds are seen to best advantage.

The unusually good growing season has been a boon to flower growers. In addition to the beautiful "glads," zinnias, and phlox of E. H. Kinseys, and Curtis Nellans, attention was called to the Gipsy Lily at Mrs. Mark Burkitt's. Imported from Georgia, the lily gets its name from the riot of color that makes a garden almost do Hungarian Dances. But hobbies are not limited to gardens and flowers, for unusual community in-terests and hobbies are not shown in the newly acquired radio (portable) equipment of "Jiggs" Fenstermaker.

Murmurs is interested in your in-terests and hobbies. That's what makes Mentone "tick."

BOAT RACES AT CULVER SUNDAY

Last minute plans for handling the large crowd of visitors which is expected to attend the fifth annual Lake Maxinkuckee outboard motor races here on Sunday, August 14, are being rapidly whipped into shape by members of the Culver Lions Club, sponsoring organization, under the direction of Morley Skinner, general chair-man.

Among the nationally known drivers expected to compete in the Class A, B, and C races are Chuck Thompson and Bill Christopher of Detroit, Mich.; Harry Nicodemus and his son, Eddie, of South Bend, Ind.; and Leon Guthrie of Cleveland, Ohio.

A full day of activities is scheduled, beginning with a parade of high school bands at 1:30 P. M. Richard Bowles is in charge of the music units which will play in the town park during the afternoon's program. At 2:00 P.M. the eight entrants in the rowboat race will compete for the rowing championship.

Procees of the races will be used for needed life-saving equipment for the community boys and girls activities, according to Hampton Boswell, president of the local Lions Club.

Car Color Preferences

Customers' color preferences vary with economic conditions and by regions. During depression days 60 to 75 per cent of car buyers wanted black or dark blue colors. Today's choices are more flashy; less than 20 per cent order black cars. In the Southwest where the sun is bright vivid colors are preferred.

**TRUSTEE LISTS TEACHERS FOR
BEAVER DAM SCHOOL**

Three new teachers have been added to the teaching Staff of the Beaver Dam School. It is announced by the Twp. Trustee, Robert Jones.

The new Teachers are Mrs. Kissinger Home Economics and Music, from near Silver Lake; Mr. Joe Harvey Physical Education and Social Studies from near Huntington, and Dean Van-Tilbury, fifth and sixth grade from North Manchester

The Beaver Dam school will begin September 2 for organization of classes starting on following Tuesday Sept. 6.

The complete school staff is as follows: Leonard Freed, Principa. and Commerce; Fred Haney, English Coach and History; Eleanor Malo. Mathematics and Science; Joe Harvey and Agriculture; Glendon Umbaugh English, girls Physical Education, and Library Science; Mrs. Kissinger Home Economics and Music

In the grades: Dean Van Tilbury 5th and 6th grades; Mrs. Van Tilbury

3rd and 4th grades.

Mr. Warden Perry our new Janitor is working hard to get the building in order before School starts. The same Bus drivers will haul the pupils again this year: Carl Zolman, route 1; De-veral Jefferies, route 2; DeVerle Whet-stone, route 3; and Paul Cumberland route 4. Paul Cumberland is install-ing the new Non Directional Lighting system which the law requires this year on all Busses. As Trustee of the Beaver Dam School I also, in this item, want to thank publicly the Men-tone Fair Association for the \$275.72 that they gave us to purchase Play Ground equipment with. We have purchased the equipment and expect to have it for the children this school term.

4-H NEWS

On Friday, August 5, a meeting of the Mentone Merry Makers was held in the school house. Martha Creighton in the absence of our president pre-sided over the meeting. A discussion

on the dress revue and plans for achievement day followed a demon-stration on frozen foods was given by Judy Clutter. Afterwards group sing-ing and some games were enjoyed by all.

Refreshments of iced tea, fruit salad,

and cookies were served by Martha and Sheila Fitzgerald. —Judy Clutter

JOLLY JANES HOME
ECONOMICS CLUB

The Jolly Janes Home Economics club met on Monday evening at the home of Mrs. John Ellsworth. Mrs. Harold Markly was assistant hostess.

Nineteen members and one guest were presented to enjoy the lesson on "Upholstery" given by Mrs. Raymond Lewis.

A RHAPSODY OF CATS

By Roundtree

For a thousand times, or more,
I've been counting sheep galore,
Till I found the realms of slumber,
And Morpheus closed the door.

Then a caterwauling kitty.
Broke the stillness without pity,
With its catawampus meows,
Purring out a mousy ditty.

Thus the FELINES of the alley,
Camouflaged a catty rally,
As the furry little kits,
Frolicked in a frisky ballet,
Now, my napping days are over,
And I'll browse no more in clover,
For those cattish imps are planning,
Me to be a sleepless rover.

NOTICE

DURING OUR VACATION

THE NORTHERN INDIANA CO-OP. NEWS

Published Weekly by the

Northern Indiana Cooperative Association, Mentone, Ind.
ARTLEY D. CULLUM, Editor and Manager.

PRINTED IN THE MODERN PLANT OF THE COUNTRY PRINT SHOP

With the peak of the summer's heat playing havoc with fishing in general, it takes a lot of experimenting to land a decent stringer of bass or other fresh water battlers. And you can bet your bottom dollar that the boys who come in with the best catches are the ones who have some special tricks for outwitting the finny gamesters during the hottest days of summer.

I've learned two things about hot weather fishing. First, you've got to know the water you are fishing like your own living room; and, second, it takes a lot more arm power and work on most fishing jaunts to make a fair catch.

When fishing lakes this time of the year that I also fished early in the season, I go to the same spots that produced well on early trips—certain shore lines, brush piles or other cover—and then move out into deeper water from these areas for heat-of-the-day fishing. Seldom do game fish in lakes move far from their choice hiding spots, but as the water warms they will seek cooler places—and the closest places that are available. That's why I always fish the deep water that is adjacent to the spots that produced when the water was cooler early in the season.

Frequently early in the morning or late evening you will find the gamesters feeding in the shallows for food most

always is more abundant in this water. But you'd better try the deep holes when the sun is high overhead.

I've found, too, the artificial lures that produce early in the season often are a complete bust in hot weather. Why I don't know, but in August I carry a tackle box loaded with new lures and if 10 or 15 minutes of fishing in a good spot fails to offer a fish I switch lures until the right one is found.

Almost every body of water needs special tricks in hot weather. And if you're a wise fisherman you will check with the boys having the best luck and find out their methods. It may take a little spying to do it, but the rewards often are rich.

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Dr. W. W. Bauer, director of the Bureau of Health Education, American Medical Association, who has just returned from Europe, has been secured to address the sixth annual Workshop in School and Community Health Education August 12-26 at Indiana University.

New features of the Workshop include lectures by Paul Bausman, Washington, president of the Hoosier State Press Association, and James S. White, director of radio station WBAA, Purdue University, on opportunities for public service with the press, radio and television. A sketch of the outstanding LaPorte City school program will be given and a panel on school administration is another feature.

A model meeting of the Marion County Rehabilitation Case Conference Committee will be enacted with eleven members of the committee participating under the direction of Frederic

Weigle, director, Rehabilitation, Indiana Tuberculosis Association.

Health highlights will be given by Indiana State Board of Health personnel; services for the physically handicapped and the program of the Indiana Social Hygiene Association will be outlined. The rehabilitation work of the American Red Cross and the development of community service in cancer control are also highlights of the two weeks course which is sponsored by Indiana University, Indiana Department of Public Instruction and the Indiana State Board of Health in cooperation with eight sponsoring public health agencies.

Stainless Steel

Stainless steel resists corrosion because of the chromium it contains, thereby lending itself to hundreds of new uses. Louis Nicolas Vauquelin discovered and first described this alloy about 150 years ago. He was an apothecary's apprentice.

SISALATION keeps poultry house, brooder house, or range shelters drier, more comfortable and healthful, all year 'round. Cooler in summer, warmer in winter. Needs no paint. Tough, durable. LOW IN COST. Easy to apply. This is a SISALKRAFT product! We have it.

SEPARATE HENS AND PULLETS

During the next several weeks, pullet flocks will be coming into production on Indiana farms. On many of these farms the old hens will still be on hand and the pullets and hens will be running together. Alexander Gordeuk, extension poultryman at Purdue University, warns that this is a poor practice and points out that pullet flocks should be kept separate from the old hens not only because of health reasons but also because of social (chicken) reasons.

In those instances where flockowners choose to keep both old and young layers at the same time, the pullets should be housed separately or fenced apart. This helps to prevent diseases such as bronchitis, and parasites, such as various kinds of worms, from spreading from the old flock to pullets.

Gordeuk stresses that there is a social order of chickens wherein the older birds might tend to keep the younger ones away from the feed troughs. This is especially important because pullets just beginning to lay must have all the feed they need if they are to produce without losing weight.

Still another reason for separating the flock is that feed requirements are frequently different and the feeding system used for one group might not be the best for the other. In view of these problems, perhaps the best plan would be for the flockowner to replace his entire old flock with pullets every year, the Purdue poultryman suggests. If he must keep old hens, he must keep them separate, Gordeuk emphasizes.

NEWCASTLE TOWNSHIP TEACHERS ANNOUNCED

Trustee Charley Green has announced the following teachers for the Talma School: Ralph Leon Boiling, who graduated from Ball State Teachers College last June with a B. S. degree will handle the coaching duties this fall.

Mrs. Edith Carlson, who teaches music in the Rochester Township schools, will also teach at Talma two days a week this fall. S. H. Brewer is the new Talma Principal. Other members of the Talma teaching staff are: Dessa Fultz, Charles J. Good, Kermit Biddinger, Ruth Keebler, Nadine Sriver and Mary Norris.

The Bus drivers are as follows:

**CHARLES HORN
RUDY GREEN
LAVOY HUFFMAN
LEE SHOEMAKER (new)
WILLIAM T. SNIPES**

The Talma School will reopen on Friday August 26 and there will be 9 months of School this year instead of 8 months.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

"Bunch Disease"

A disease of pecans is known as the "bunch disease", or witch's broom. To combat this disease, pecan growers should cut out all diseased portions of trees infected with it. If a limb has this disease on the end, it should be cut back at the base and the diseased portion destroyed by burning. This is a virus disease and cannot be controlled by spraying.

INSIST ON TESTED CLOTH

There are several reasons why it is difficult for the homemaker to get satisfactory information when purchasing yard goods or ready-to-wear garments.

Mrs. Lottie E. Sumner extension clothing specialist, Purdue University, suggests the homemaker does not ask for and insist upon the informative labeling often enough. Labeling requires a great deal of laboratory testing, and is expensive if she is not interested in it. The manufacturer then is the only one who knows what goes into the fabric or garment. He finds it difficult to use terms the homemaker can understand. If he does not label his merchandise, the sales person has no way of knowing how to answer the homemaker's question.

To give adequate information, the label or tag should state fiber content, color fastness, shrinkage, wearing qualities, special finishes, care and trade name. The homemaker would not be interested in all of these on every product. The same information she should have on draperies would not apply to an afternoon dress.

The homemaker should know the kind of fiber—whether it is cotton, linen, or rayon. If there is a blend or mixture of fibers, it would be helpful to know the percentage. In case of

wool, the Wool Products Labeling Act compels the manufacturer to state on the label the kind of wool as, Virgin, reused or reprocessed.

The term color fastness is generally considered to refer to laundering and dry cleaning. If launderable, the label should state color fast to hand launder or commercial, water temperature and mild or strong soap. If fast color it should be fast to ordinary light or sunlight.

General terms as "preshrunk" and "shrinkproof" are not a guarantee against further shrinkage. Any shrinkage process should give a guarantee on further shrinkage of not more than 2%. More shrinkage than this would affect the garment size. The thread count is an indication of wearing quality.

Label should indicate whether finish is permanent, if permanent to dry-cleaning only, or washing only or for life of fabric.

It is important for the homemaker to know who guarantees the garment or fabric. If satisfied she can repeat her purchase; if not, she knows to whom to direct her complaint.

CARD OF THANKS

I wish to thank all the people for the lovely flowers and cards I received while in the hospital.

Mrs. Merl Linn

CARE OF FIRST CALF HEIFERS

The length of the dry period between the first and second lactation is an important factor in successful herd management. It may exert a greater effect upon the next lactation than do the rest periods of subsequent lactations according to G. A. Williams of the Dairy Extension Division.

When the dry period extends from eight to 12 weeks in length, second calf heifers show an increase the following lactation of approximately twice as much milk and butterfat as do older cows. Although longer dry periods do not exert quite as much influence, the effect is important and should not be overlooked.

It is generally considered that a cow should be dry for a time before calving for the following principal reasons: to rest the organs of milk secretion, permit the nutrients in the feed to be used in developing the fetus instead of producing milk, enable the cow to replenish in her body the stores of minerals which may have become depleted through milk production, and to permit her to build up a reserve of body flesh before calving.

The fact that second calf heifers frequently produce less milk and butterfat the second lactation than do the first is frequently due to no other reason than a lack of a suitable dry period after a large record during the first year.

Dated this 2nd day of August, 1949.

ROUGHAGE CIRCULAR FOR FARMERS AND DAIRYMEN

Farmers and dairymen who are alert to cutting feed costs through feeding quality roughage program for feeding dairy cows that eliminate much feeding of grain. The authors show what can be done by making various roughages the staple diet of the dairy cows. Application of principles discussed in the circular should aid Indiana milk producers in setting up a roughage plan adaptable to their different feeding requirements.

The dairy roughage circular may be obtained from county agents or from the Purdue Agricultural Experiment Station, Lafayette, Indiana.

LOCAL NEWS

Mr. and Mrs. Homer Ball of Charleston, Mo., were afternoon callers on Mrs. Earl Meredith Tuesday.

"Chick" Lamoree is enjoying a week's vacation from his work at the Country Print Shop.

Mrs. Earl Meredith took Sunday dinner with her son and family, Mr. and Mrs. Roy Meredith, of Akron.

Mrs. Ivan Tucker, Mrs. Robert Riedel, Mrs. Garrie Rose and Mrs. Ira Borton visited the flower show in Bourbon Saturday afternoon.

Guests during the week at the A. O. and John Miller home were: Mr. and Mrs. Homer Ball, of St. Louis, Mo., and Dr. Gordon Ball and family, of El Dorado, Arkansas.

Joyce Wheeler, of Guatemala, Central America, is visiting her aunt and uncle, Mr. and Mrs. Ed Dunnuck, of near Mentone. Miss Wheeler is taking a secretarial course at the Bryan college at Providence, R. I.

Mrs. Frances Kehoe and Miss Esther Kehoe returned last Friday evening from a visit with Mr. and Mrs. John Nellans in Hamond, and Mr. and Mrs. Hugh Nellans and family in Westchester, Illinois.

Mrs. Earl Meredith spent last Wednesday in Mishawaka with Mr. and Mrs. Ame Strauss.

Miss Esther Kehoe returned to So. Bend, Sunday after a two weeks vacation with her parents. Mr. and Mrs. Francis Kehoe.

Mrs. F. M. Baker has returned to her home in Bethlehem, Pa., after visiting in Minneapolis, and in Mentone at the home of her niece, Mrs. Ray Linn.

A group of local men including Fred Horn and sons Dewayne, Ralph, Paul, Harold and Richard; Lowell Whetstone, Ernest Dillman and son Richard attended a double header baseball game Sunday at Wrigley Field.

Mr. and Mrs. Monroe Romine and daughter, Janet of near Mentone and Mr. and Mrs. Albert Thomas of North Webster, returned on Wednesday of last week from a 12 day trip into South Dakota, Nebraska, Wyoming, and Colorado.

Mrs. Lydia Ryneanson and Mrs. Mae Borton spent Sunday in Leesburg the guests of Mrs. Ryneanson's sister, Mrs. Eva Irvine. Mrs. Irvine and Mrs. Borton were schoolmates and played together when they were little eight-year-old girls.

★ Buy Co-operatively — And SAVE!

Ronnie Green, of Crow Lake, Ontario, Canada, is spending this week visiting with Dale Kelley. The visiting lad is getting quite a kick out of some of the strange things he sees around here, and is thoroughly enjoying everything except the sweltering heat.

AWARDED PRIZE PICTURES

The Co-Op. News editor was agreeably surprised this week when he received a package of four prize-winning pictures from the Woltz Studios of Des Moines, Iowa.

The Woltz Studios representatives took a number of pictures here some time ago, and their announcement stated the pictures would be eligible for a photo contest. However, being of a skeptical nature, I suspected this to be a rather far-fetched claim and possibly meant competition with other cities.

Local prize winners were: Patty Parker, daughter of Mr. and Mrs. Robert Parker, first. Mickey Horn, son of Mr. and Mrs. Harold Horn, second. Jerry Zolman, son of Mr. and Mrs. Carl Zolman, third. Rebecca Ann Oyler, daughter of Mr. and Mrs. Noble Oyler, fourth.

BLIND EVANGELIST TO SPEAK

Rev. Clyde Rothrick, the Blind Evangelist, of Coldwater, Mich. will tell his life story in the Talma Methodist Church Sunday, August 14th, at 11:30 A. M.

The Evangelist tells in an interesting and stirring manner how he lost his sight when a young man in the west and how God has blessed and kept him through the years. He says, "There is no such word as 'Can't' within the realm of reason, for the man who walks and talks with God."

He'll have with him on the platform his Braille Bible, Braille Writer, Slate, Stylus and other things including his giant English Saint Bernard leader dog, "Major." This is a blue ribbon dog and a product of the Wallstark kennels of Detroit, Mich. and he shows his keenness as he guides his master from the platform to the door and back again.

Everyone is urged to attend this service.

PROBATE WILL, OPEN ESTATE

The will of Ottis V. Jones, who died at Mentone July 24, has been admitted to probate in circuit court and the estate opened, with Rhoda P. Jones, the widow and sole heir, qualifying as executrix. The estate, consisting of personal property, was valued at \$3,000.

AMATEUR NIGHT ENTRY BLANK

Prizes of \$5, \$3 and \$2 will be awarded to first, second and third placings in each of three classifications: (1) Vocal, (2) Instrumental, (3) Novelty.

Below is the entry blank which you are urged to fill out and mail if you wish to enter the Amateur Contest to be held in Mentone on Saturday evening, August 20th.

Prizes are to be awarded, as listed above, and you may be among the winners.

No entries will be received after Aug. 13. Judges' decision will be final.

SOFTBALL TOURNNEY TO CLOSE 1949 SEASON

The Mentone Softball Association has sent invitations to 27 of the major softball teams in neighboring vicinities and plan on getting 16 of these better class teams scheduled for a two-weeks tourney to begin Monday evening, Aug. 29 and to last through the following two weeks.

The softball association feels that this tournament will prove an interesting and fitting climax to a very successful season.

The trophy to be awarded to the winning team is on display at Denton's drug store.

A schedule of the team to play, and when, will appear in the Co-Op. News next week.

MEARLIN S. LUTES DIES VERY SUDDENLY

Mearlin S. Lutes, aged 64, a life-long resident of Atwood, died suddenly at 10:30 Monday at his home there, due to coronary occlusion. He had not previously been ill and was working in the garden when he was taken sick. He came to the house, where he died before medical aid could be summoned.

Mr. Lutes had been employed for 35 years as telegraph operator by the Pennsylvania railroad company.

The deceased was born March 17, 1885, the son of John and Allie (Gerard) Lutes. He and Mrs. Lutes, the former Laura Wray, were married March 4, 1914.

He was a member of the Atwood Methodist church and was affiliated with the Warsaw Masonic lodge.

Surviving relatives include his wife; his mother, also of Atwood; two sons, Forrest, of Atwood, and John, of Mentone; two daughters, Mrs. William Bixler, of near Piercetown, and Mrs. Jack Harter, of Fort Wayne; one brother, Clifford Lutes, of South Whitley, and four grandchildren.

Funeral services were held Wednesday at the Bilby funeral home in Warsaw. Rev. E. H. Saunders, of Piercetown, officiated. The Masonic lodge of Warsaw was in charge of the committal service at Oakwood cemetery.

Dollars are still working for you.

RECOVERING FROM POLIO

Larry Manwaring, six-year-old son of Mr. and Mrs. Miles Manwaring is in the Memorial hospital in So. Bend where he is receiving treatment for polio.

Mrs. Manwaring said that reports from the doctor and the hospital on Tuesday evening said that Larry is very content and very cooperative, which means a great deal to the parents.

Two weeks ago Larry broke his left arm and it has been in a plaster cast. On last Sunday it was discovered that he could not move his fingers. Dr. Elbie Herendeen, of Rochester, who originally treated the broken arm, was called to Dr. Urschel's office. When the cast was removed, it was found that the arm was totally paralyzed. The left leg has been somewhat affected, also. Dr. Urschel said that Larry developed a low-grade fever several days ago. The doctor and parents watched him closely and he apparently recovered from the fever.

Larry has been placed in the isolation ward for a week, but will probably be at the hospital for a month.

MENTONE MERCHANTS vs. MANCHESTER ALL-STARS

This Friday evening the Mentone Merchants softball team will play the Manchester All-Stars at the local softball park.

The Manchester boys have defeated the Mentone team twice this season, so the Merchants really are out to win this game.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Sam Norris announce the engagement of their daughter, Lillie Adeline, to Mr. Jack D. Miller, son of Mr. and Mrs. Joe Miller, of near Tippecanoe.

No marriage date has been announced.

IN WOODLAWN HOSPITAL.

Mrs. Clark Ernsberger is a patient at the Woodlawn hospital where she was taken following a fall from the stairway in her home. Mrs. Ernsberger was dusting at the time of her fall and was on the next to the lower step. Her left hip was broken at the joint.

Mrs. Ernsberger is improving, which news will please her many friends.

CONSERVATION COUNCIL TO AWARD PRIZES AT FAIR

At the Kosciusko County Fair, to be held at Warsaw from Aug. 29th to Sept. 3rd, the Kosciusko County Council of Conservation Clubs will award prizes to youth between the ages of 7 and 18 years for the following displays:

1. Best mounted fish caught in this or adjoining county.
2. Best mounted game bird.
3. Best mounted game animal.
4. Best mounted reptile.
5. Best mounted insect collection.
6. Best outdoor photograph.
7. Best picture of soil erosion or any type of soil conservation.

Displays will be accepted at the new Conservation building at the fair grounds not earlier than 1 p. m. Monday, Aug. 29 and no later than 10:00 p. m. on Tuesday, Aug. 30th.

COUNTY COUNCIL.

MERCHANTS WIN IN FIRST BASEBALL GAME

The Mentone Merchants softball handed themselves an agreeable surprise Sunday afternoon when they accepted a challenge of the Rochester Moose team to a game of baseball. They won 3 to 1. Ed Creakbaum did the pitching for Mentone and allowed but three hits. Rochester permitted Mentone to get five.

On August 27th the Moose team is to play at Mentone in our game—softball.

HIGH SCHOOL SOFTBALL NEWS

The standings in the high school softball league are as follows:

	Won	Lost
Etna Green	6	2
Tippecanoe	6	2
Atwood	5	4
Mentone	4	5
Beaver Dam	2	5
Bourbon	0	5

Bourbon dropped out after the first round in favor of baseball.

Mentone entered in the invitational tourney at Macy Aug. 16-19, with 8 teams, consisting of Deedsville, Twelve Mile, Macy, Bunker Hill, Washington Twp. of Cass county, Mentone and two others. There will be a trophy to the winning team.

FUNERAL DATE ANNOUNCED FOR GEORGE 2nd MEYERS

The family of the late George 2nd Meyers has received notice that funeral services for the World War II victim will be held at the Jefferson Barracks National Cemetery, St. Louis, Mo., on Sept. 3 at 3 p. m.

Those desiring to send flowers can do so by addressing them to: Supt. Louis B. Hellmeyer, care of the above named barracks.

Mr. Meyers lost his life in an airplane crash, and as definite identification was impossible, he and his flying comrades were scheduled to be buried in the national cemetery.

STANLEY BOGGS HOME

Stanley Boggs is now at his home after five weeks spent in the McDonald hospital where he was receiving treatment for asthma.

His many friends will be happy to learn that he is improved.

NEW ARRIVALS

Witham

Mr. and Mrs. Rex Witham are the parents of a son born Sunday morning at the Murphy Medical Center. The baby weighed six pounds and four ounces and has been named Gregory Rex.

Law

The birth of a son to Mr. and Mrs. Glen Law, on August 10, has been reported by attendants at the Woodlawn hospital at Rochester.

Simcoe

Mr. and Mrs. Kenneth Simcoe are the parents of a son born last Saturday at the McDonald hospital at Warsaw. The new baby has been named Kenny Dale, and weighed seven pounds and 12 ounces.

CLUB CALENDAR

American Legion Auxiliary, Tuesday evening, Aug. 23, at 8 o'clock at the Legion Post home.

Psi Iota Xi Sorority party, Thursday evening, Aug. 18, at home of Mrs. Curtis Riner.

Mentone Merrymakers 4-H Club will meet Friday night, August 19, at the Schoolhouse. All members please be present. This is the last meeting before achievement Day.

"Courtesy First"

MENTONE,

INDIANA

I have spent a good many days this summer fishing with "purists" who frown at the mere suggestion of fishing with live bait. And, too, I have had a lot of fun "dunking" live bait with the minnow - frog - grasshopper clan trying to outwit finny gamesters.

Frankly (hold the brickbats, purists) I happen to belong to the school of fisherman who like variety—both in fishing methods and species of fish. And I can see no need for the heated arguments that often develop between the purists and the bait dunkers. It's every man to his own liking, with no questions asked as far as I'm concerned.

This subject, however, has led to numerous discussions recently of zoning certain streams or lakes, with part for the purists and a part for the bait fishermen. In some states certain streams, I believe, are closed to all types of fishing except fly fishing with artificial flies. I have never fished one of these spots.

But I do think the idea of zoning

certain waters has merit—if for no other reason than to keep the purists and live bait fishermen out of arguing distance at least while they are fishing.

In checking the recent winners of a national fishing contest with 17 classifications, 13 prize fish (ranging from bass to trout) were taken on artificial lures while four winners caught their fish with live bait. So I see no reason for the purists to get alarmed; they're taking more than their share of the glory—and big fish.

Maybe all this arguing is what makes fishing such an interesting sport. If everyone liked the same species of fish, the same fishing method and used the same type of equipment it would create a serious problem. So don't worry about the current variety of styles and customs. It's all grand sport.

FIRE WARNING ISSUED BY STATE FORESTER

State Forester Ralph F. Wilcox, today announced that Indiana's fire record thus far, is one that all Hoosiers may well be proud of. There have been fewer fires and less acreage burned off this year, than has been true for many years in the past.

Figures reveal that there were only 238 fires in Indiana so far, with a total of 3,770 acres burned off. Last year, a total of 15,218 acres were destroyed in 460 fires.

Mr. Wilcox pointed out, however, that "the fire danger is approaching its peak and will be most acute this month and next. It is the hope of the Indiana Department of Conservation that no major conflagration will take its toll in the Hoosier state this year."

With the extremely heavy rainfall during the past spring and summer, roadside vegetation, grasses and woodlands have grown by leaps and bounds and are now beginning to dry out. A cigarette, cigar or match, thoughtlessly tossed from a car window might easily be responsible for a fire.

Broken down, the fire report revealed that the average fire burned off a little more than 15 acres. Debris burners were most at fault, causing 121 of the fires, while smokers were responsible for 50 fires. Railroads caused 18, while lightning, hunters,

camp fires, incendiary and miscellaneous causes were responsible for the rest.

Demand for pork during the coming fall and winter months is expected to be from six to twelve per cent less than in 1948. This situation, coupled with an increase in supply and weak lard market, will make for lower average pork prices, Purdue University Agricultural economists say.

Low feeding and watering equipment will assist in training the pullets to use their new furniture in the laying house. It pays to have a range feeder and waterer in the pen for a few days while the pullets become adjusted to the new condition, Purdue extension poultrymen advise.

TREAT PULLETS WITH CARE

A new pullet crop is about ready for housing. The flock owner who produces a profitable flock gives attention to some details to prevent slips that turn profit to loss. Some important points for consideration are given by Alexander Goreduk, extension poultryman at Purdue University.

Old birds are likely to be carriers of disease to which the new pullets are susceptible so sell old hens before housing the pullets. In the few cases where old hen are kept over, they should be separated as widely as possible from the pullets.

After the old litter has been removed, the entire interior of the pen such as nests and roosts should be hosed down. Equipment painted or sprayed with a wood preservative, such as carbolineum, for protection against mite. The interior of the house may be sprayed with a disinfectant although this is not necessary unless there were some diseases

present in the old flock.

It is not necessary to worm the new pullets just on general principles. Unless birds are infested with worms, they should not be treated for worms.

Low feeding and watering equipment will greatly assist in having the pullets learn to use their new furniture in the laying house. Sometimes it pays to have range feeder and waterer in the pen for a few days while the pullets get adjusted to the new conditions.

Place all the pullets showing the same degree of maturity in one pen to help in feeding and management, and to insure better performance from the pullets.

Four square feet of floor area is none too much for heavy breeds. For the light breeds three square feet is generally considered sufficient. Plenty of room reduces the danger of picking and helps in keeping the litter dry.

Use about two or three inches of litter at housing time and add to this from time to time until a six or eight inch litter is built up by late November. A deep, uniform layer of "worked over" litter will stay dry through the winter.

ATWOOD CLUB MEETS

The Atwood Girl's 4-H Club met at the home of Sue Hammer, Tuesday afternoon, August 9th, at 2:00 D. S. T. The meeting was called to order by Tomaline Witham. Roll Call was answered by telling what you would do with \$5,000. The State Fair and Achievement Day was discussed. There is a picnic to be held at Warsaw, Thursday evening, August 18th and go roller skating afterwards. The Atwood Boys' 4-H Club is invited. Everyone was told what to bring. Other members present were: Ruth Elaine Baker, Verla Belle Christenberry, Vivian Christenberry, Roberta Sparrow, Lois Smith, Shirley Corwin. Vera and Norma Geist from Bippus, Marian Shoemaker from South Bend and Mrs. Arthur

Smith were guests. Mrs. George Sparrow was the leader present. Refreshments were served. The next meeting will be held at the Atwood Methodist Church, Thursday evening, August 25th at 8:00 D. S. T.—Ruth Elaine Baker

POLIOMYELITIS

Questions and Answers

(Indiana State Board of Health)

Everyone is interested in the current polio situation and has many questions to ask, especially parents. Dr. L. E. Burney, State Health Commissioner, has prepared from reliable sources answers to the questions most commonly asked. Every effort has been made in the following questions and answers to furnish authoritative information on the subject with the object of relieving undue fear and alarm through the presentation of accurate information and knowledge.

What is poliomyelitis?

A common communicable disease. Poliomyelitis usually runs a mild course, without paralysis. The majority of cases will go unrecognized.

What are the usual symptoms?

Common symptoms are fever, sore throat, headache, stiffness of neck and back, nausea, vomiting, and constipation.

What causes polio?

Poliomyelitis virus. Other diseases caused by viruses are measles, mumps, and chickenpox.

How is polio spread?

By contact with nasal discharges, sputa, and fecal discharges of infected persons. The virus of polio is so widespread that contact with it sooner or later is inevitable. Flies have been found to carry the virus but there is no reliable evidence of spread by insects, food, water or sewage.

5. What is the time period between exposure and onset of the disease?

Usually 7 to 14 days, but may be as short as 5 days or as long as 35 days.

6. How long is the patient contagious?

Probably not longer than 7 days from onset of disease. State Board of Health regulations require 14 days of isolation of the patient.

7. Should families having a member with polio be avoided by neighbors?

No, except children should not come in contact with the patient until 14 days have elapsed since disease began. There is absolutely no reason for adult neighbors to avoid parents of a poliomyelitis patient or refuse to visit their business establishments.

8. Who is susceptible to the disease?

The greatest number of cases occurs among children from infancy through the 9th year. It is rare in babies under 6 months of age.

Average age at time of contracting the disease is higher in rural areas due to postponement of exposure at earlier age.

9. Why don't more grown-ups get the disease?

By the time most people have reached the age of 20, they have developed an immunity through having had the disease in a mild form or

having had repeated contacts with the virus.

10. What is the risk to pregnant women during the polio season.

Some authorities believe pregnant women are more susceptible to polio than non-pregnant women. The difference in susceptibility is not great, if any. Normal babies are born to women having polio during pregnancy or at time of delivery.

11. Do operations bring on polio.

No. Unless an emergency exists, nose and throat operations and dental extractions should be postponed during a high incidence of the disease. Nerve endings exposed by such operations may permit entry of the virus and conceivably cause a more severe form of the disease.

12. Are there any drugs, chemicals, vaccines or sera effective against polio?

No. However research is progressing in this direction.

13. What are your chances of contracting polio?

Indiana has averaged annually six known cases per 100,000 population during the past 10 years. Leaving out the age factor, this means you have approximately one chance in 16,666 of contracting the disease.

14. What are the chances of my child having polio?

For those under 20 years of age and based upon rates of some of Indiana's worst polio years, the chances are approximately:

- 1 in 1,000 of contracting polio
- 1 in 1,500 of contracting paralytic polio.
- 1 in 3,000 of having permanent paralysis
- 1 in 10,000 of dying of polio.

15. What are the possibilities for recovery in poliomyelitis?

In an average group of 100 cases it has been found that:

- 50 will recover completely
- 25-30 will show slight after-effects.

16. What is the death rate in polio?

It varies from 5-20 per cent. The greater the number of non-paralytic and abortive cases reported, the lower the death rate. The greater the number of bulbar cases, where the virus attacks the stem of the brain, threatening the cells that control breathing and circulation, the higher the death rate.

17. What can I do as a parent to reduce the chances of my child's contracting polio?

Make sure your child avoids excessive fatigue and chilling.

Encourage good personal hygiene, including handwashing with soap and water before handling food or drink.

Protect your child from unnecessary contacts with persons other than their usual associates.

Put your child to bed immediately if fever, sorethroat, upset stomach or headache appear and call your family physician at once.

18. Should children be allowed to go to camp?

Yes, providing the supervisors fol-

low the suggestions made above. However, children from epidemic areas should remain at home until high incidence subsides.

19. Should my child be allowed to go swimming?

There is no objection to swimming in non-epidemic areas provided the pool, lake or creek is free of pollution. Avoidance of fatigue and chilling is important. Crowding should be minimized.

In epidemic areas, children under 18 should be discouraged from swimming.

20. Should children be permitted to travel?

There is no objection to travel provided physical exhaustion due to long trips is avoided. It is undesirable to take a child into an area of high polio incidence.

21. What about picnics, reunions and other public gatherings?

Talk it over with your local health officer. He knows fully the situation in your community; he is aware of the problem in the entire state thru his relationship with the State Board of Health; and his medical training and experience will qualify him to answer your questions in the light of present knowledge concerning poliomyelitis. He also merits your full support and cooperation in his efforts to do everything possible to protect you and the other people of the community and state.

22. Since so little is known of polio, what should local communities do to prepare themselves for situations in the future?

Plan for year around full-time public health programs. Improve community sanitation. Don't wait for a crisis to take action for community health measures.

Strive for sound health education programs to keep well informed in polio and all other health problems. The press and radio merit commendation for their splendid efforts in presenting factual and objective information on the polio situation in Indiana this year.

A 16 page leaflet "Preserve Your Posts With Penta" is available from the Agricultural Extension Service at Purdue University. Penta is a new chemical wood preserve which lengthens the life of some non-durable, and often little-used, species of wood, making them valuable as fence posts. Copies of the leaflet may also be secured from county agent offices.

Friendly Bear

A black bear has been making periodic visits to the town of Courdersport, Pa., an Allegheny mountain community. It strolls through side streets, but does no damage and is not molested because of a Pennsylvania law protecting bears.

LOCAL NEWS

Miss Sue Ellen Houck, of Winona Lake, spent the past week with her grandparents, Mr. and Mrs. Fred Rush.

Rev. John Knecht has returned to his home here after two months spent on the west coast on a missionary speaking tour.

Week end guests at the Artley Cullum home were Mr. and Mrs. Kenneth Pickett and daughter Nancy Sue, of Fort Wayne.

Mr. and Mrs. P. A. Williams, of Muncie, parents of Mrs. Dan Urschel, were week end guests of the Urschels last week.

On Tuesday Mr. and Mrs. Devon Jones, Mr. and Mrs. Ivan Jones, Rudolph Jones, and Mrs. Rhoda Jones went to Mount Vernon, Ohio where they were called by the death of their cousin, Rudolph Jones.

Mr. and Mrs. Harold Linn and daughter Jennie Lou, and Byron Linn attended the Railroad Fair in Chicago last Sunday.

Mr. and Mrs. Artley Cullum and son Jon and Wreatha McFarren went to the Friendship Gardens last Saturday evening where they enjoyed a program by the Chicago Women's Piano Symphony, under the direction of Antoinette Rich.

Mr. and Mrs. Chester Manwaring, Mrs. Charles Shaffer, Miss Nina Clay and Miles Manwaring returned Thursday from a three-weeks vacation trip into Colorado, Wyoming and Yellowstone National Park. While in Wyoming they contacted Howard Snyder, head game warden in the Jackson Hole area (brother of Mentone's Alfred Snyder) who arranged a fishing trip into the Wind River mountains. The last few thousand feet (up) was made with the aid of pack horses and mules, and they report the fishing for Eastern Brook trout as wonderful. (Miles isn't sure whether the cow ever jumped over the moon or not, but

does know that some of them roam quite a ways up the mountains.) The ladies: Mrs. Manwaring, Mrs. Shaffer, Miss Clay, of Mentone, and Mrs. Loa Manwaring and Mrs. Linden Blue, of Denver, enjoyed themselves at a lodge at Battle Mountain while the men, including James and Stanley Blue, also of Denver, were fishing.

session which is conducted by Dr. B. B. Shake, district superintendent, of Warsaw, will be preceded by a pot-luck supper and program. This is a Family Night Fellowship Service. Mrs. Rhoda Jones spent Monday in Warsaw.

Come in and see us about getting a genuine North Star Blanket as a gift with a Coleman Heater through the month of August. Baker & Brown Jewelry and Appliance Store, Mentone.

The Mentone Methodist church will hold its First Quarterly Conference tonight at 6:30. The brief business

MENTONE MURMURS

by
DAVID and SALLEY GOSSER

MURMURS found a Dr. Van Fleet rose blooming this August weather. It isn't "the last rose of summer" but the first rose of August, and although the wind is blowing across the oats stubble, there is the promise of more roses, for the full bloom is surrounded by a cluster of pink buds. This has been an unusually good year. Like the crickets, we glibly mention it, but are we fully aware of it?

Speaking of crickets, the late summer insects are tuning their instruments for The Autumn Symphony. Already the wind blowing across the corn fields plucks nostalgic melodies of swiftly fleeting summer days—too swiftly fleeting for the school-bound youngsters who must crowd the last of the vacation activities into the two remaining weeks of free time.

Last Wednesday evening Murmurs was impressed by an impromptu organ recital given by Mr. Lowell White, "Ken's" father, who for an hour and a half played request numbers and familiar melodies on the Hammond organ at the Methodist church.

While we are on the subject of music, a comment is in order concerning the Mentone Band. The release of numerous balloons during the playing of "I'm Forever Blowing Bubbles," attracted considerable attention, and was favorably received by the scrambling children who were the recipients of the balloons. Adult spectators and listeners were highly amused and entertained. It gave a gay and colorful atmosphere to the program of fam-

iliar airs which reminded Murmurs of a night in Central Park in New York City when the strains of the Goldman Band made him homesick.

Let us give the bend a bigger hand this Saturday night when the final program is presented. We are sure that the community appreciates the effort it takes to prepare and present these fine concerts, but like so many other interests, we are prone to let the other fellow shop the appreciation which it is our pleasure to demonstrate. Gratitude is contagious. It is like a smile. When a few people start applauding or smiling it is always easier for others to catch on to the idea, and they smile and applaud until the very fringes of an audience are participating. Let each of us believe it is his or her duty to be of the few who start the applause. With this kind of spirit, we can cope with any problem in our community, and no obstacles is too great to overcome.

MURMURS is concerned about the impression Mentone makes on the casual visitor and the people who just drive through town without even stopping. These Sunday mornings of vacation time are not moments when our Main Street makes its best appearance, for there is paper littered the length of our business section, the main thoroughfare of OUR TOWN. We believe that a few well placed containers for trash and a "KEEP OUR TOWN CLEAN" drive with some publicity and advertising will remedy the situation.

Come in and see us about getting a genuine North Star Blanket as a gift with a Coleman Heater through the month of August. Baker & Brown, Jewelry and Appliance Store, Mentone.

TRUSTEE LISTS TEACHERS FOR BEAVER DAM SCHOOL

(A linotype is used to set type for our newspaper, and as the name implies, each line is cast in one solid piece of lead or type metal. Frequently as these lines emerge from the linotype, one falls into a position other than where it belongs. This happened last week and listed some of the Beaver Dam teachers teaching the wrong subjects. The corrected article should

read:)

The complete school staff is as follows: Leonard Freed, Principal and Commerce; Fred Haney, English and Agriculture; Glendon Umbaugh Mathematics and Science; Joe Harvey Coach and History; Eleanor Malo, English, girls Physical Education, and Library Science; Mrs. Kissinger Home Economics and Music.

In the grades: Dean Van Tilbury 5th and 6th grades; Mrs. Van Tilbury 3rd and 4th grades.

FIRE EXTINGUISHERS

I wish to announce that I am able to secure any type home, business or auto fire extinguisher you may need.

There is no question but that most homes and offices have too little fire protection. See me and I will be pleased to discuss this important matter with you.

ACCIDENT VICTIM DIES.

Earl Warren Boyer, 55 yardmaster for the New York Central Railroad at Elkhart, died Sunday at the Elkhart General hospital where he was taken from the McDonald hospital last Friday.

Mr. Boyer was injured Aug. 6 when his auto and one driven by Jack Blue of Mentone, collided on a bridge near Etna Green.

CANCEL AMATEUR CONTEST

The amateur contest, scheduled for Saturday evening, Aug. 20th, has been cancelled because there were not a sufficient number of entrants to make a full evening's program. The committee in charge extends thanks and appreciation to those who did enter.

NAMED ACTING POSTMASTER

Kenneth E. Romine has received confirmation of his appointment as acting postmaster at Mentone, and is scheduled to take full charge August 31st. He is now acclimating himself to the routine of the Mentone office.

BISHOP VISITS HERE

Bishop John C. Broomfield of the Methodist church, visited briefly on Saturday with Dr. and Mrs. Dan Urschel. Bishop Broomfield was formerly head of the Methodist Protestant Church, one of the groups which united to form the present Methodist organization. Dr. and Mrs. Urschel were active members of the Methodist Protestant Church, and have been acquainted with Bishop Broomfield for many years. At the present time, he is at Windsor Lake making a series of talks.

MENTONE YOUTH IN TRAINING MANEUVER

Robert Richard Riewoldt, F. A., U. S. N., son of Mr. and Mrs. R. H. Riewoldt, of Mentone, is taking part in the most extensive amphibious training operation of its kind ever staged by the navy.

Riewoldt's ship, the Bexar, is participating in the attack phase of the operation during which conditions of actual warfare are being simulated off Little Creek and Pendleton, Virginia.

ROYAL NEIGHBORS MEET

The Royal Neighbors held their August meeting on Aug. 5 at the home of Snowden Halterman. Oracle Clara Parker was in charge.

After the business meeting, delicious refreshments were served by the hostess and her assistant, Mary Teel.

The next meeting will be on Sept. 6, at the home of Helen Mollenhour.

4-H CLUB NEWS.

A picnic held by the Franklin '49ers 4-H club at the Warsaw City Park on Monday evening was enjoyed by 14 members and six guests. After the picnic Iris Jones, club president, called the business meeting to order. Plans for our club achievement day were discussed. Achievement Day is Friday, Aug. 19, at 7:00 p. m. at the home of our leader, Emma Jones. Following the business meeting we were shown through the studios of radio station WRSW. This was of much interest to the club. The guests present were: Mrs. Chester Coplen, Mrs. Chester Ballenger and daughter Melody Jo. Miss Beatrice Dorell and sister Sandra and Diane Kay Ballenger.

ELLEN'S REPORT, reported.

FRIENDLY NEIGHBORS HOME ECONOMICS CLUB

The Friendly Neighbors Home Economics Club met on August 12 at the home of Mrs. Dick Manwaring, with Mrs. Mildred Coplen as assistant hostess.

Meditation was given by Fern Beson. The lesson on upholstering was given by Maud Romine.

Roll call was answered by "My Most Interesting Vacation." Auction went to Bernice Ballenger, Mildred Fawley and Mildred Greulack.

Emma Jones gave a talk on 4-H girls.

The next meeting will be on Sept. 8 at the home of Edith Teel.

Lack of space prevents us printing all the news we have for this issue.

Mr. and Mrs. Fred Lemler and daughter Leahnell have returned to their home here after a vacation trip which took them to Sidney, Montana, where they visited with Fred's sister and husband, Mr. and Mrs. Clifford Martin. Fred did quite a bit of flying while out there, as most of the ranchers have their own private planes.

DOCTOR ON VACATION

Dr. and Mrs. Dan Urschel and son Charles left Wednesday for northern Minnesota, on the doctor's annual hay fever vacation. They will be joined by daughter Sarah in northern Wisconsin, where she is in camp, and their address will be General Delivery, Grand Marais, Minn.

During the time Dr. Urschel is away, there will be someone in the office on a part-time basis, so that case histories and other similar information can be obtained. There will be no doctor in the office at any time, but Dr. Urschel has referred his patients to Dr. Leasure, Dr. Herendeen, Dr. Richer, and other physicians of the surrounding communities.

Dr. Urschel will be back in the office on Monday, September 19th.

BUY PROPERTY

Mr. and Mrs. Bob Sanders have purchased the former Flo Borton property in the south part of town, and plan on moving there some time in September. Mr. and Mrs. George King and family now reside there.

Dale Kelley, Jack Fawley, Herschel Linn and Chet Smith left for the Lionel Green camp at Crow Lake, Ontario, last Sunday for a week's fishing trip. Ronnie Green, who has been a guest of Mr. Kelley, returned home with them.

P. T. A. NEWS

The promotion of the education and welfare of children and youth is a common bond which unites all peoples, regardless of race, or creed, or language. More than two and one-quarter millions of people in the United States, recognizing the inspiration and the strength of an organized cooperative endeavor, are members of the National Congress of Parents and Teachers and of its 49 state branches, through local parent-teacher associations.

The advantages of belonging to this nation-wide group may be summarized as follows:

A congress parent-teacher association adds to its own strength that of great numbers of other groups united in a common purpose, giving a strength that is not attained by groups working singly.

A congress parent-teacher association profits by the knowledge and experience of parent-teacher leaders in other units in the development of its program for the promotion of the welfare and education of children and youth.

A congress parent-teacher association is provided with basic procedures and methods which have proved sound and effective over a period of many years in many associations.

A congress parent-teacher association shares in the power of united effort in forwarding new projects and undertakings as needs arise.

A congress parent-teacher association offers an opportunity for the united efforts of parents and teachers in any community to be added to the efforts of those in other communities working for the common good.

A congress parent-teacher association receives the benefit of the cooperation of the state and national organizations with state and national agencies having similar objectives.

For membership see Mrs. Conda Walburn or Mrs. Harold Markley. Membership dues are 50c for one school term.

Watch for details of a P. T.-A. membership drive contest between the first six grades and one between the upper six grades.

Growing turkey broilers to supply fried turkey as a kind of glorified fried chicken is coming forward as a promising poultry speciality. The breeding of the Beltsville White and Jersey Buff Turkeys is helping the turkey broiler outlook. Turkey broilers take a pound less feed to produce a pound of turkey meat at broiler age than do chicken broilers, according to information from the department of agriculture at Purdue University.

GROUND COBS GOOD FEED

Corn cobs, long considered a waste product, now have a future as roughage for steers. During the past winter

Purdue University animal husbandry men fed a balanced ration containing ground cobs as the principal roughage which produced 100 pounds of gain at a cost of only \$22.75 as compared with a cost of \$35.31 for the same weight produced on a ration of clover-timothy hay, bone meal and salt.

In the trial study, 48 head of steer calves were wintered successfully for 168 days using corn cobs as the only or principal source of roughage. Dr. W. M. Beeson, animal nutritionist, who directed the study explained that cobs have a feeding value which approaches the value of hay. However, the energy of the cobs cannot be utilized by cattle unless they are fortified by certain nutrients, which with the help of bacteria and other microorganisms in the digestive process, change the cobs into a usable form.

Consequently, the Purdue men balanced the rations in a number of different ways. A daily ration which gave good results was ground corn cobs, 16 pounds; soybean oil meal, 2.5 pounds; molasses, 1.0 pound; bonemeal and iodized salt, free choice; and a small amount of cod liver oil. The cane molasses was diluted with equal parts of water and poured over the cob mixture at time of feeding. The molasses added to the palatability of the ration. Steers on this ration gained an average of one pound per animal daily. However, the steers given one to two pounds of alfalfa meal per head daily gained about one-fourth of a pound more a day and increased the cost only about 25 cents per 100 pounds gain.

A comparison was made between ground corn and corn-and-cob meal. There was no significant difference in the growth rate of steers receiving four pounds of ground shelled corn as compared to the group fed four

pounds of corn and cob meal daily. All of the steers had free access to mixed clover-timothy hay and corn cobs. The Purdue men stressed that all three lots wintered on corn cobs remained healthy, had glossy hair coats and showed no outward sign of malnutrition. They were not fat but were in good growing condition and were in better flesh than the cattle wintered on hay.

NOTICE TO TAXPAYERS OF TAX LEVIES

IN THE MATTER OF DETERMINING THE TAX RATES FOR CERTAIN PURPOSES BY THE LIBRARY BOARD OF MENTONE, KOSCIUSKO COUNTY, INDIANA. BEFORE THE LIBRARY BOARD.

Notice is hereby given the taxpayers of Mentone, and Franklin and Harrison townships, Kosciusko County, Indiana, that the proper legal officers of said municipalities, at their regular meeting place, on the 30th day of August, 1949, will consider the following budget:

BUDGET CLASSIFICATION

1 Services Personal	\$1,556.00	5 Current Charges	412.00
2 Services Contractual	432.00	6 Current Obligations	2,141.00
3 Supplies	200.00	7 Properties	4,741.00
4 Material	8 Debt Payment

Total Estimate 4,741.00

(Complete detail of budget estimate may be seen in office of Library)

ESTIMATE OF LIBRARY FUND TO BE RAISED FUNDS REQUIRED FOR EXPENSES TO

	Library Fund
DECEMBER 31st OF INCOMING YEAR:	
1. Total Budget Estimate for incoming year	\$4,741.00
2. Necessary expenditures to be made from appropriations un-	
expended July 31st of present year.	2,537.50
3. Additional appropriations necessary to be made August 1st to	
December 31st of present year
4. Outstanding temporary loans to be paid before December 31st of	
present year—not included in lines 2 or 3
5. Total Funds Required (Add lines 1, 2, 3 and 4)	\$7,278.50

FUNDS ON HAND AND TO BE RECEIVED FROM SOURCES OTHER THAN PROPOSED TAX LEVY:

6. Actual Balance, July 31st of present year	1,629.13
7. Taxes to be collected, present year (December settlement)	2,152.54
8. Miscellaneous Revenue to be received August 1st of present	
year to December 31st of incoming year (Schedule on file in	
office of Library Board):	
a. Special Taxes (see Schedule)
b. Fees and all other revenues (see Schedule)	45.00
9. Total Funds (add lines 6, 7, 8a and 8b)	3,826.67
10. NET AMOUNT TO BE RAISED FOR EXPENSES TO DECEMBER	
31st OF INCOMING YEAR (Deduct line 9 from 5)	3,451.83
11. Operating Balance (Not in excess of expense January 1st to	
June 30, less Miscellaneous Revenue for same period)	1,883.50
12. AMOUNT TO BE RAISED BY TAX LEVY (Add lines 10 and 11).	\$5,335.33

PROPOSED LEVIES

Net Taxable Property			\$5,948,183.00

HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

Vaccination against childhood diseases should be a part of a child's preparation for school when entering for the first time this September, according to Dr. Robert E. Jewett, director, Division of Maternal and Child Health, Indiana State Board of Health.

"The child going to school for the first time enters a new world," Dr. Jewett pointed out. "His contacts have been limited to members of his own household, playmates and neighbors. At school he will come in contact with new children and new situations so protection against such childhood diseases as diphtheria, whooping cough and smallpox is needed.

"Because of sunshine, play, green vegetables and other factors, most communicable diseases are at low ebb during the summer but when colder weather arrives, protection against childhood diseases is needed.

"If a check-up has not been made for the past month or two, the pre-school

child should be taken to the family physician or to a summer round-up for a complete physical examination. Those vaccinated in infancy should be reimmunized," Dr. Jewett said. Not only is immunization important, but the child needs to have his hearing, vision, tonsils and teeth checked. It has been found that many children doing poor school work are not slow mentally but are handicapped by impaired vision, hearing or breathing."

NOTICE TO TAXPAYERS OF ADDITIONAL APPROPRIATIONS

Notice is hereby given the taxpayers of Mentone, Kosciusko County, Indiana, that the proper legal officers of said municipality at their regular meeting place at 7:30 o'clock P. M., on the 6 day of September, 1949, will consider the following additional appropriations which said officers consider necessary to meet the extraordinary emergency existing at this time.

For Construction of Streets, 2375.00

Taxpayers appearing at such meeting shall have a right to be heard thereon. The additional appropriation as finally made will be automatically referred to the State Board of Tax Commissioners, which Board will hold a further hearing within fifteen days at the County Auditor's office of Kosciusko County, Indiana, or at such other place as may be designated. At such hearing, taxpayers objecting to any of such additional appropriations may be heard and interested taxpayers may inquire of the County Auditor when and where such hearing will be held.

and CHILDREN

ELEVEN DIED LAST YEAR

The Indiana Department of Conservation is vitally interested not only in the conservation of the natural resources of the State of Indiana but in the conservation of human lives at the open season for hunting approaches.

The word conservation, according to several dictionaries consulted is construed to be the act of conserving.

Thus, the Department of Conservation hopes that all sportsmen will be considerate while pursuing a favorite sport and that they will not only be careful for their own personal safety but will attempt to conserve the lives of other hunters who may be hunting in a nearby cornfield or in a spot where they may not be plainly visible.

Records in the office of Henry P. Cottingham, Director of the Division of Fish and Game reveal that eleven hunters paid with their lives in hunting accidents which may or may not have been avertable in 1948 and early in 1949.

Twelve other persons suffered serious injuries and in several instances loss of limbs, arms, feet or fingers in freak hunting accidents and accidents due to carelessness which might have been averted.

It might be well to heed a bit of advice offered by the Sporting Arms and Ammunition Manufacturers Institute in the interest of keeping shooting a safe sport.

This organization offers what it terms the Ten Commandments of Safety in which it believes:

- 1 That every hunter should treat every gun with the respect due a loaded gun.
- 2 That every hunter should carry only empty guns, taken down or

with the action open, into an automobile, camp or home.

- 3 That every hunter should be sure the barrel and action of the gun are clear of obstruction.
- 4 That every hunter should always carry the gun so that the direction of the muzzle can be controlled even if the hunter stumbles.
- 5 That every hunter should be sure of his target before pulling the trigger.
- 6 That no hunter should ever point a gun at anything he does not want to shoot.
- 7 That no hunter should ever leave a gun unattended unless he has unloaded it.
- 8 That no hunter should ever climb a tree or fence with a loaded gun.
- 9 That no hunter should ever fire at a flat, hard surface or the surface of the water.
- 10 That every hunter should leave the JUG at home as gunpowder and alcohol do not mix.

The Conservation Education Division of the Department, under the directorship of Hal Farr and his staff are planning an intensive safety campaign along these lines with placards and thousands of copies of the Ten Commandments of Safety to be distributed. Conservation Officers throughout the state also will participate.

LET'S ALL GET HOME ALIVE

ACHIEVEMENT AWARDS MADE

Awards were presented at the Local Achievement Day Program held at the Atwood M. E. Church August 10th.

Awards in Clothing 1 were Lois Smith 2nd; Clothing 2, Sue Hammer 2nd; Clothing 3, Roberta Sparrow 1st; Verla Belle Christenberry 2nd, Marilyn Lutes 2nd, Jane Christenberry 3rd; Clothing 4, Ruth Elaine Baker 1st, June Gieseke 2nd, Sally Williams 3rd; Clothing 5, Tomaline Witham 1st.

HOW TO GET HELP**WHEN POLIO STRIKES**

At the first sign of illness, call your own doctor. If he suspects polio he will report the case to the local Health Department and arrange for hospitalization or home care, as indicated. The National Foundation does not select physicians or hospitals. This is a family matter. If you have no family physician, call your City or County Medical Society, your board of Health or the nearest hospital.

If your doctor says it is polio and requires hospitalization, the local Chapter of the National Foundation will help arrange for transportation to a treatment center. As soon as the patient goes to the hospital—or if your doctor advises the patient can be treated at home—get in touch with your chapter of the National Foundation to arrange for any needed assistance.

Your Chapter will get in touch with you as soon as it learns of the case through your physician, the hospital or the Health Department. However, late reporting or a heavy hospital load may delay this Chapter contact. If you do not hear promptly, telephone or visit your Chapter representative. You can ease your own worries sooner by making the approach yourself.

The Chapter representative will notify the hospital that is arranging with you for full or partial payment of expenses for medical care. Adults are as eligible for help as are children. Discuss with your Chapter how much of the full bill the Chapter will pay.

March of Dimes funds are used to help the medically indigent—but this is NOT the same as "indigent." It includes families of moderate income, who cannot meet the high costs of modern care of this expensive disease. The help is a gift—not a loan. While families that can pay are expected to do so, no family is expected to impoverish itself to meet medical expense for polio.

Even if you can assume full costs for initial hospitalization, it is a good idea to see your Chapter. If yours should

be a patient who is severely affected—and this cannot be determined in the first few days—you may need help later on. Bills incurred in the weeks before your Chapter assumes financial responsibility cannot be paid months afterward, but the Chapter will step in at whatever time you really need help. Have a frank, friendly talk with your Chapter representative at the beginning.

Chapters pay for hospitalization, professional services including nursing and physical therapy, transportation to and from hospitals, convalescent centers and clinics, treatment after hospitalization and appliances such as wheelchairs, braces, etc., as needed. There are no hard and fast rules. Each case is decided upon individual medical and financial needs. Assistance is given regardless of age, race, creed or color. More than 110,000 polio patients were directly assisted in full or in part up to the end of 1948.

In addition, your Chapter can put you in touch with proper sources for nursing and physical therapy at home, can refer you to rehabilitation and vocational training agencies, will provide literature designed to foster better understanding of infantile paralysis—so you will know what to expect and how to help your polio patient back to a useful life.

These services are made possible by the March of Dimes each January.

See Future Husbands

English girls once believed that on the night of January 20, they would see their future husband in a dream. World Book encyclopedia relates that they would induce such nocturnal visitations by fasting all day, and then eating a heavily salted egg before retiring.

PSI IOTA XI MEET

Beta Epsilon chapter of Psi Iota Xi met at the home of Mrs. Harold Utter. Mrs. Earl Anderson presided during the business meeting. The new Psi Ote cook books were distributed, and regular business transacted.

It was suggested that we support the fly control program of the Mentone Fire Department, so we donated \$25.00 for this work.

The following report on the traveling speech and hearing clinic was given:

The clinic is a division of the state department of Special Education and the Indiana University Dept. of Adult Education, and is support financially by Psi Iota Xi. The clinic has traveled to 12 different cities in Indiana this summer and tries to reach the worst handicapped persons in each of these areas. Three speech pathologists and one clinical psychologist administer examinations to the handicapped persons, and following this, instruct his parents and teachers in methods of re-education of the individual.

Beta Epsilon chapter had the privilege of taking seven handicapped children to the clinic. These were contacted from all over Kosciusko county and included two from Silver Lake and one each from Burket, Milford,

Warsaw, Etna Green and Mentone. Each child was accompanied by his parent or his teacher. The chapter furnished transportation to the clinic. All the services of the clinic are free. Mrs. Earl Anderson and Mrs. Harold Utter accompanied the group to Logansport.

When you trade at home, your Dollars are still working for you.

MRS. HAROLD HENDERSON BURIED IN MICHIGAN

Funeral services were held Sunday in Constantine, Mich., for Mrs. Harold Henderson, 64, who died Wednesday at Burbank, California. Mrs. Henderson was the former Miss Chloe Shirley, of Mentone. She moved to California a year ago from Michigan with her husband, a former resident of Warsaw.

Surviving are the husband; one son and daughter-in-law, Mr. and Mrs. Richard Henderson, and other relatives in this county.

GERARD—GROSS

The marriage of Miss Rebecca Caroline Ellen Gerard, daughter of Mrs. Jesse Gerard and the late Mr. Gerard, of Bourbon, and Richard Lewis Gross, son of Mr. and Mrs. Howard Gross, of Mentone, was solemnized at six p. m. Sunday, August 7.

The altar of the First Methodist church in Bourbon was flanked with palms, baskets of white gladioli and ferns for the double-ring, candlelight ceremony. The altar was accented by two white doves and an open Bible on white satin. White gladioli with white satin bows marked the pews down the aisle. The Rev. Garfield Steedman officiated.

A program of nuptial music was played by Miss Elizabeth Snider, of South Bend, and just before the ceremony the bride's mother sang, "At Dawning," and "I Love You Truly." During the ceremony "O Promise Me" was played as was "My Task" with chimes during the prayer. Following the prayer, with the bride and bridegroom kneeling, Mrs. Marion Miller, of Bremen, cousin of the bride, sang, "The Lord's Prayer." As the guests were leaving the church, "Just A Song At Twilight" was played, with the chimes amplified.

The charming bride wore a gown of sheer white merquissette and chantilly lace over white satin outlined by lace softening the fitted bodice and sleeve. The lace, caught up at intervals with ting satin bows, was repeated on the full skirt and train. The lace trimmed finger-tip veil was of illusion, the bonnet fashioned of illusion with rows of ruffled lace, with a dainty cluster of ~~of ruffled orange blossoms on either~~ side. She carried an orchid on a white Bible. The bride entered the church on the arm of the bridegroom.

Mrs. Junior Gross, of Warsaw, wife of the best man, was matron of honor wearing a gown of yellow satin and marquissette. She wore matching silk mitts and hat trimmed with a huge back bow, and carried an assimilated basket of yellow pompoes.

Similar ensembles were worn by the bridesmaids, Miss Sue Ann Burt, of Bourbon, in orchid, and Miss Ernestine Barron, of Mishawaka, in aquamarine blue. Both bridesmaids wore matching silk mitts and large picture hats of horsehair braid and carried baskets similar to the matron of honor's in pink and aquamarine blue pompoes.

The flower girl, Rosemary Burt, wore a gown of white net over taffeta.

Cousins of the bride, Robert Gerard of Mishawaka, Allen Gerard of Bourbon, Robert McQueen of Inwood, and William McQueen of Plymouth, served as ushers along with Loren Dean Gross, of Mentone, brother of the bridegroom and Donald Smythe, of Mentone.

Following the wedding relatives and close friends were received in the bride's home and garden. The house

was beautifully decorated with pink and white gladioli in special arrangement. Wedding cake, punch, mints and nuts were served from the dining room by Mrs. Robert Gerard of Mishawaka, and the Misses Pauline Patterson, Carol Becknell, Jean Lea and Rose Ann Beigh of Bourbon. Assisting hostesses were Mrs. Fred Gerard and Mrs. Lester Boring of Bourbon, Mrs. Huston McQueen of Rochester and Mrs. Thomas McQueen of Plymouth. For her wedding trip to Niagara Falls the bride chose a white gaberdine suit with navy blue accessories and a white orchid.

ATTENDS LEGION AUXILIARY CONVENTION

Mrs. E. E. Wagner was the delegate from American Legion Auxiliary Post 425 to the 30th annual convention of the American Legion Auxiliary held at Indianapolis on Thursday and Friday of last week. The convention was held at the Robert Park Church and was attended by 736 voting delegates and that many more visitors.

Governor Schricker gave the address of welcome, and a luncheon at the Antler hotel was enjoyed by all. While in Indianapolis Mrs. Wagner visited at the national headquarters of Mothers of World War II. She also spent the night with Mrs. Elsie York, whose son was on Okinawa with Marvin Wagner.

MENTONE 4-H CLUB MEETS

The Mentone 4-H meeting was held at the school house Monday, Aug. 15. We are having our tour of the different projects of the 4-H members Friday. We talked about the rules and regulations of the fair.

The tour will start at the home of Jerry Tinkey at 8:30 a. m.

CARD OF THANKS

Through your paper I wish to thank my friends for their cards, gifts, calls and courtesies shown me during my recent illness.

STANLEY S. BOGGS.

Mr. and Mrs. Bert Holloway and Mr. and Mrs. Clayton Holloway and family returned Saturday from a two-thousand mile trip through Kentucky, Tennessee, North Carolina, Georgia, Washington, D. C., Pennsylvania and other places of interest. They reported a mighty interesting tour.

Come in and see us about getting a genuine North Star Blanket as a gift with a Coleman Heater through the month of August. Baker & Brown Jewelry and Appliance Store, Mentone.

ACHIEVEMENT PROGRAM

The Achievement Day program of the Franklin '49ers 4-H Club was held Fri. evening at the home of our leader, Mrs. Alden Jones; Dona Coplen opened the program by leading the group in the pledge to the American flag and the 4-H pledge. Velma Coplen read the club creed followed by the club song led by Beverly Teel. Doris Creakbaum had roll call and read the minutes. Sandra Ballinger sang "Wedding Day" followed by the Teel sisters singing "My Happiness." Mary Dorell and Diane Creakbaum favored us with a clever action song "Prairie Pete and Pretty Sally." Elener Norris then gave a demonstration "Pears Partyfied but Practical." followed by Iris Jones demonstration "Tuna Sandwich Pilling." Iris Jones presented Wreatha Ballinger, our assistant leader, a gift in appreciation for the use of her home for this year's club meetings. The program was closed by Sandra Ballinger and the Teel sisters singing, "Cruising Down the River."

The judges, Mrs. Ida Moore and Mrs. John Lackey, of Palestine, placed the exhibits as follows:

Clothing I—Beverly Teel, 1st; Carol Teel and Sandra Ballinger, 2nd.

Clothing II—Dona and Velma Coplen, 1st; Norene Bibler and Mary Dorell, 2nd; Ruth Golden, 3rd.

Clothing III—Elener Norris, 1st.

Clothing IV—Lois Ummel, 3rd.

Clothing V—Pat Ballinger, 1st.

Food Preparation I—Elener Norris, Donna Coplen, and Carol Teel, 1st.

Food Preparation II—Lois Ummel, 2nd.

Food Preparation III—Lois Ummel, 3rd.

Food Preparation V—Iris Jones, and Pat Ballinger, 1st.

Baking I—Beverly Teel 2nd.

Baking II—Diane Coplen, 2nd.

Baking III—Elener Norris, 1st; Mary Dorell 2nd.

Baking V—Iris Jones, 2nd.

Room Improvement—Pat Ballinger, 2nd; Doris Coplen, 3rd.

Canning II—Elener Norris, 1st.

Mrs. Phelps, the county 4-H leader, gave instructions on exhibiting at the fair. Sandra Ballinger, Iris Jones, Pat Ballinger, and Elener Norris served refreshments to 13 guests, 14 club members, and 2 club leaders.

Elener Norris, Club reporter.

ROLAND FERVERDA NEW
PRINCIPAL AT MENTONE

The Mentone Schools will open Friday, September 2nd, at 8:25 Central Standard Time.

Roland Ferverda is replacing Dale Kelley as principal. After 35 years of very satisfactory service, nineteen of which were as principal of the Mentone Schools, Mr. Kelley asked to be relieved of the administrative responsibilities. He is being asked to continue as a teacher in the school system.

Mr. Ferverda has had fifteen years of teaching experience, seven of which he served as principal of the Beaver Dam Schools.

A list of the Mentone teachers and their courses is as follows:

Dale Kelley, English, physics, mathematics; Ralph Hoffman, English, Latin, social studies; Tressie Hoffman, home economics, mathematics, health; Roland Ferverda, English, social studies; Mary Blickenstaff, music, band, physical education; Glen D. Law, Commerce, Social studies; Lorin A. Burt, physical education, mathematics; Philip Lash, vocational agriculture science.

June Aughinbaugh, grade 6; J. Arthur Witham, grade 5; Trella Tombaugh, grade 4; Pauline B. Buck, grade 3; Wreatha McFarren, grade 2; Eileen Pentemaker, grade 1.

The bus drivers for this school year are:

Lonnie Webb, Lloyd Lowman, Ervin Wagner, James Whetstone, Albert Tucker, Albert Orcutt, and Victor Adams. A new Chevrolet truck and a new bus body was purchased only last week and will be ready for use soon.

It is planned to finished with school enrollment Friday morning by 10:30 standard time. Following dismissal Mrs. Blickenstaff is assembling the band for marching practice. She is taking her band to the state fair on Wednesday when marching bands will be featured.

EDITOR GONE

Mr. and Mrs. Artley Cullum of the Country Print Shop, and their children, Jody and Jon, left Sunday for a couple of weeks vacation in Northern Wisconsin. Jon is a hay fever and asthma sufferer and the family takes its vacation during the hay fever season.

SOFTBALL SEASON CLOSING
WITH SEVERAL BIG GAMES
SCHEDULED ON LOCAL SOIL

Those in charge of softball play in Mentone are promising treats to the local fans for the closing games on the Mentone diamond. The Mentone Merchants have a couple of good games coming up.

One of the outstanding games of the season involved the Merchants at Logansport Tuesday night in a 1 to 1 tie game against the Logansport RBM team. The game went 12 innings and was called because of the late hour. Mentone's run came in the second inning when Hersh Linn swatted a home run in his first time at the plate.

Brockey, Mentone pitcher, went all 12 innings, and was "willing to finish 'er up." He allowed three hits.

There will be a return game of these two teams, although not to play off the tie, on the local diamond at a date to be announced soon.

On this Friday night the American Legion Post 30 team of South Bend, which played here the Fourth of July, will play here against the Merchants.

On Saturday night, following the band concert, the Rochester Moose come here for a return game, having met the local boys earlier in a hard ball game. Stouter will pitch for the Moose, and Eddie Creakbaum, who struck him out three times in the first game, will be in the Mentone line-up.

Next Wednesday night the Warsaw AA plays here.

TRACTOR BURNED

The rural fire truck and tanker from Mentone made a run to the Artie Miller home in Tippecanoe township early Wednesday afternoon where a tractor had caught afire and it appeared the barn might be endangered. The machine was considerably damaged, with three tires burned off and other damage. Firemen said Mr. Miller had filled the fuel tank of the tractor with the motor running.

CLUB CALENDAR

J. O. Y. Circle—2:00 p. m. at the Methodist church, Thursday, September 1. Notice change of day for this month only.

MENTONE MERRYMAKERS
HAVE ACHIEVEMENT DAY

The annual Achievement Day of the Mentone Merrymakers 4-H club was held Tuesday afternoon. The program opened with group singing of "America," and the pledges to the 4-H flag and American flag.

Other numbers on the program were: piano solos, Merita Tucker, Martha Creighton, Janet Ann Tucker; piano duet, Janet Romine and Betty Griffiths; accordion solo, June Romine; song, Shirley and Donna Horn; song, Beverly Tinkey and Ann Creighton; recitation, Madeline Anderson.

The program was followed by a dress revue. Refreshments were served by the Mentone Home Economics Club.

Prizes were awarded by the Harrison Center Home Economics Club. Mrs. Maynard Summe and Mrs. Omer Drudge acted as judges of the projects.

Prizes were awarded as follows:

Sewing I: blue ribbons, Betty Griffiths, Ann Creighton, Beverly Tinkey; red ribbons, June Romine, Janet Romine, Merita Tucker.

Clothing IV: Elaine Dunnuck 1st; Martha Creighton, 2nd.

Baking I: June Romine, 1st; Ann Creighton, Madeline Anderson, Merita Tucker, 2nd; Shirley Horn and Donna Horn, 3rd.

Baking V: Elaine Dunnuck, 1st; Edna Quier, 2nd; Martha Fitzgerald, 3rd. Prizes for complete record books: Elaine Dunnuck, Ann Creighton, 1st; Beverly Tinkey, Martha Creighton, 2nd; Edna Quier, Betty Griffiths, 3rd.

EGG RECEIVERS BEGINNING
SERIES OF ADVERTISEMENTS

The first of what is to be series of advertisements of an educational and "good-will" nature is being published by the Co-Op News for the Northern Indiana Egg Receivers & Distributors Association of New York City, a group of egg buyers there who receive the millions of eggs shipped each year from this locality.

The first ad calls attention to the bonds which a number of the receivers have now furnished to insure prompt payment and fair dealing to egg shippers, which practice was asked last year by a group of shippers representing local egg producers.

TALMA CHRISTIAN CHURCH USING A SUNDAY SCHOOL BUS

The people of the Talma Christian Church have purchased a Bus to be used in bringing people to Sunday School.

The Bus is not restricted to children only, but adults are also welcome to ride on it to the Christian Church.

Mr. La Verne Ladson, a former Tippecanoe school bus driver, is the operator of the Sunday school Bus; thus, with such an experienced driver, parents have assurance of safety for their children. Mr. Herbert Kubley, and Mr. Harold Swihart have volunteered as substitute drivers.

Those desiring to ride to Sunday school, can call the Pastor, Rev William E. Howard, Rochester 712X—or, Mr. Charles Stavedahl, Rochester 1209W.

Renewable Resource

Forests, unlike any other natural resource, are renewable, replaceable and, with proper management, everlasting. Like any other crop, trees must be harvested when mature or they deteriorate and lose their youthfulness.

SAFE and SANE EGG MARKETING

Dear Egg Shipper:

A number of substantial New York egg merchants are now BONDED — for your *additional* protection. You may obtain a photostatic copy of his bond from your dealer.

Bonds, however, are not the complete answer to SAFE and SANE egg marketing. Bonds are not all-inclusive. It is impossible to put into any bond the honesty, reliability and business methods of an individual.

But, you can best protect your own interests by shipping ONLY to the reliable, well established firms, who you know through your past experience, will give you full value for your eggs, pay promptly and be glad to accept your shipments when in good order.

SANE MARKETING IS SAFE MARKETING

It does not mean using indiscriminately any shipping tag offered by some unscrupulous pretender, nor necessarily shipping to the highest bidder. Relying on fancy promises of unwarranted high prices and excessive premiums may lead to an eventual insolvency and a loss to you

SANE MARKETING IS SAFE MARKETING

We, the reputable receivers of Indiana eggs, pride ourselves in having contributed much, through the many years, to the present prosperity and well-being of the Hoosier poultrymen and in building the "egg basket" of the Middle-west.

You may rest assured that we will continue to guard zealously our mutual interests.

We need your eggs — you need our market and our money.

"GOOD GOODS"

BALBO RYE SAVES HAY

Many Indiana farmers who have
suffered hay losses, such as damage
from wet weather, can conserve the
short supply by growing winter rye for
late fall and early spring pasture, say
Purdue University extension agronom-
ists. Rye, seeded by early September,
will give from two to six weeks fall
grazing, depending on weather and
fertility conditions. An equal amount
of early spring pasture will also be
available before other pasture crops
can be grazed.

Balbo rye is the preferred variety,
since it starts earlier, grows faster both
in the fall and spring than common
rye, and does not give the rye taint
to milk in grazing which is so trouble-
some when pasturing common rye.
Balbo rye produces about the same
grain yields as other rye but is earlier
maturing. A moderate supply of certi-
fied Balbo rye seed is available this
year and county agents have lists of
sources.

Balbo rye should be seeded in early
August or as soon as a seed bed can
be prepared. To hasten the growth of
early pasture and provide greater pas-
ture production, rye should be well
fertilized with complete fertilizer at
rates of 200 to 400 pounds per acre
depending on fertility conditions. On
rather thin land, fertilizer high in
nitrogen such as 8-8-8 or under better
soil conditions, 4-16-8 or 3-12-12 is re-
commended. One acre of fertilized
rye will carry as much livestock as two
to three acres of unfertilized rye and
do much to relieve hay shortage. Ferti-
lized Balbo rye is palatable to all clas-
ses of livestock and is especially good
for brood sows and young pigs.

Rye should be drilled at the rate of
one and one-half bushels per acre.
In southern Indiana a mixture of one
bushel of rye and 12 pounds of domes-
tic rye grass per acre will add to and
extend the spring grazing. The heavy
root system supports livestock on wet
soil better than rye alone. Rye grass
adds little to the expense of seeding
over rye alone and will do much better
than rye on poorly drained land.

MORE NEW OIL WELLS

Oil activity proved profitable in at
least 11 Hoosier counties during July,
according to Elmer L. Hoehn, director
of the Oil and Gas Division of the
Indiana Department of Conservation.

Although 126 wells were drilled, only
55 were put on production by operators
in the state, and the majority of these
producing wells were located in Gibson,
Pike and Posey counties. Other coun-

ties represented included Huntington,
Jay, Knox, Miami, Sullivan, Vander-
burgh, Vigo and Wabash.

The 55 wells "brought home" during
July, gave the state a total of 290 com-
pleted, producing wells since January
of this year Mr. Hoehn said.

One new pool was discovered in Gib-
son county, and it has been named
the Wheatonville pool. The discovery
well was started May 28th, and com-
pleted in June. The total depth of the
well was 2,122 feet, and it was located
in the McCloskey Limestone formation.
Initial production of the well was 92
barrels in 24 hours time.

Sixty permits were issued to oil
operator for pool drilling in Indiana,
while 64 wildcat operators also re-
ceived permits to drill for oil, during
July.

MENTONE, INDIANA — Phone 18-F12

BIRTHDAY PARTY

At the country home of Mr. and Mrs. Abe Whetstone, Sunday, August 21, occurred the celebration of a number of birthdays which fall in August. Those honored were: Edith Rose, Romona Goodman, Marie Whetstone, Dulcie Flitter, Zeph Hoffer, Charles Blackford and Abe Whetstone. The combined age of the group was 352 years.

After the bountiful chicken dinner and all that went with it; which was served in the dining room, the afternoon was spent in visiting and taking pictures.

Those present were, Mr. and Mrs. Whetstone of Pierceton, Indiana; Mr. Thurl Whetstone and daughter, Joan of Harvey, Ill.; Mr. and Mrs. Tom and Mrs. Ben Blue; Mr. and Mrs. Rhesa Johnston and Mr. and Mrs. Walter Powel of Warsaw, Indiana; Mr. and Mrs. Harry Cole and niece, Linda Whetstone of Claypool; Mr. and Mrs. Charles Blackford and daughter, Bette and Helen Blackford of Tippecanoe, Indiana; Mr. and Mrs. Garrie Rose, Mr. and Mrs. Marshall Goodman and daughters, Romona and Elaine, Dr. and Mrs. T. J. Clutter, Mr. and Mrs. Casel Whetstone and daughter, Jeneva of Mentone; Mr. and Mrs. George Flitter of Valparaiso, Indiana; Mr. and Mrs. Zeph Hoffer, Mr. and Mrs. Bert Holloway of near Mentone; Master Mikie Hartzell of Bourbon and the host

and hostess, Mr. and Mrs. Abe Whetstone, Mr. and Mrs. Herschel Anderick and son and wife of South Bend were afternoon callers.

DOUBLE VISION ORDER OF DAY

Double vision will be a common ailment in the Hoosier capital Labor Day week-end. The International Twins Association is convening in Indianapolis.

The seventeen-year-old organization, founded by Edward M. Clink at Silver Lake, expects to attract between three and four hundred sets of twins for a two-day celebration starting with a meeting in the Claypool hotel Saturday, a dance Saturday night, and winding up with a twin parade and contest for cups at Riverside Amusement Park Sunday afternoon.

Co-presidents of the association are Clarence and Raymond Wentink, Chicago twins who admit they couldn't win any prizes, even if eligible, "because we don't look too much alike."

Although a predominately mid-western organization, the association, with feminine twins outnumbering the males, usually draws entries into the annual contest from distant parts of the nation. Fourteen prizes will be awarded on a variety of counts, the first of which is the set which is most identi-

cal. Beauty, poise, age groups and other factors will be the basis for other selections.

The Wentink twins explained that the judging and parade was arranged with Riverside Amusement Park because "last year we held it in a city park in Omaha, Nebraska and when it was over the entire crowd got in buses and rode across town to an amusement park. We decided we might as well have them on the grounds."

OUR BAND AT STATE FAIR

Closing date for the High School Band Contest to be held Wednesday at the Indiana State Fair is August 28.

The dates of the Indiana State Fair are Sept. 1 thru 9. The Band Contest will be held at 10:00 a. m. Central Standard time on the mile race track in front of the Grandstand on Wednesday, September 7.

Twenty-four high school bands from over the state signified their intentions of competing for the 425 in cash prizes.

Six places will be awarded. The breakdown on the awards are First, \$125; Second, \$100; Third, \$75; Fourth, \$60; Fifth, \$40; and Sixth, \$25.

Judging will be on a basis of general appearance, marching performance, music and general performance and entertainment. Bands will have to maneuver on the march. They will not be allowed to stop in front of the Grandstand to perform.

Cities represented by the high school bands are South Bend, Lapel, Reelsville, Mentone, Rising Sun, Waveland, Lapaz, Monticello, Gary, Kewanna, Johnson County, Lebanon, Yorktown, Redkey, Alexandria, Bippus, Andrews, Dugger, Oaktown, Odon, and Bunker Hill.

The ever popular Farmers' Day parade will be held Thursday, September 8, during the Indiana State Fair. The dates of the Fair are September 1 thru 9.

Floats, bands, and hobbies will make up the content of the parade to be presented on the mile track in front of the Grandstand. \$1,000 has been put up for the prizes.

PARENT-TEACHER NEWS

(Contributed)

The influence of the National Congress is broadened through its cooperative relationships with governmental agencies and national organizations in the fields of education, recreation, health, and social service.

The National Congress of Parents and Teachers believes that the following goals must be reached if every child is to have an opportunity to live a full life, satisfying to himself and useful to his community.

1. Good Homes: A good home is the basic unit of value in our social structure.

2. Sound Health: The power of the nation depends upon the health of its citizens.

3. Safety: Children need an environment free from physical hazards.

4. Equalized Educational Opportunity: The public school is an indispensable training ground for good citizenship and should provide for every child an opportunity to develop to the maximum of his capacity.

5. Conservation of Human Values and Natural Resources: The conservation of individual freedom, individual rights, and individual dignity has become increasingly important. Tolerance can be fostered at home and in school only through an earnest, zealous effort to appreciate the contributions of all social and racial groups and

thereby achieve the common human culture envisioned in a democracy. Every child should be taught to have (1) a regard for this country's rich natural endowments, upon which depends our national life, culture, and existence, and (2) a general knowledge of how these resources may be best conserved and ever strengthened.

6. Vocational Adjustment: For the individual, successful vocational adjustment means satisfaction and independence, and for society, increased stability and production.

7. Constructive Leisure-Time Activities: The wholesome development of children and youth is dependent in large measure upon the constructive use of leisure time.

8. Civic Responsibility: The privilege of American citizenship demands acceptance of its responsibilities.

9. Active Spiritual Faith: Religion has a fundamental place in our American tradition as a basic factor in personal and social behavior. Every child has a right to religious faith.

Four-Point Program

The Four-Point Program of the National Congress of Parents and Teachers covers four areas selected for major parent-teacher emphasis during the present administration. Each of the four points of this program has its origin in the Objects of the organization, and together they span the larger part of parent-teacher work. The specific areas and the action projects for

each are as follows:

1. School Education: Urge legislation for soundly financed schools; Rally support for higher salaries for teachers; raise the prestige of the teaching profession; link the interests of home and school.

2. Health: Evaluate community resources; help recruit qualified professional personnel; promote the health program in general; meet community needs.

3. World Understanding: Cultivate a friendly feeling toward other peoples and other nations; encourage people of different national origins to participate in community affairs; build public opinion to sustain world understanding; develop a world community outlook through education.

4. Parent and Family Life Education: Develop effective leadership; expand the parent education program; urge school officials to emphasize the need for parent, home, and family life education for both boys and girls; stimulate interest in all devices and techniques that can be used in parent, home, and family life education.

Annual Ring of Trees

A new ring of wood is added to the outside of a tree each year. This is called an annual ring and the variation in the rate of growth of the cells gives us the spring wood and summer wood so frequently referred to in determining the quality of lumber.

HARRISON HUSTLERS

ENJOY TOUR FRIDAY

The Harrison Hustlers 4-H club held its annual tour on Friday August 19. With Philip Lash, adult leader, they visited the following places: Jerry Tinkey, beef calves; Larry Yelter, beef calves; Eddie Creighton, pigs; Forst and Kenneth Dunnuck, pigs; Charles Beeson, chickens; Dave Wayne, and Jim Romine, pigs and beef calves; Royal and Doyle Baum, pigs; Don Rush, garden; Lester Horn, pig; Burdell Blackburn, pig and beef calf; Floyd and Lloyd Thomas, corn and pig; Merlyn Holt, pigs; other members on the tour were: Duane Eckert, Robert and Larry Myers.

Charles Beeson and Melvin Miller gave a demonstration on how to fit a chicken for exhibit.

The group had lunch at the Mentone school house. Before continuing the tour we had a ball game. At the end of the tour Merlyn Holt served refreshments.

The guests who attended the tour were: Noah Tinkey, Lester Blackburn, Kirk Holt, Bob Creighton, Irvin Ferverda, Roland Ferverda, principal, and Bill Johnson, assistant county agent.

FINAL BAND CONCERT

The final band concert of the summer season will be held on the street here Saturday evening, when the Etna Green high school band will present a program. The Days of '49 feature, also held on Saturday nights, will be continued, however.

The band concerts proved quite popular this summer and brought back memories of the days when the week wasn't complete without taking your best girl to the band concert, rounding the evening off in a heck of a big way with a bag of pop corn and a stroll up and down the street.

NEW BROILER CHICK HATCHERY NOW OPERATING

Nellans Poultry Farm, south of town announce that they are now hatching broiler chicks. Formerly breeders of White Leghorns. Nellans have changed to heavy breeds and believe they are the only hatchery in the mid-west hatching only broiler chicks; all eggs being produced on their own farm. Advertisement in this issue.

Preparing Green Peas

Time is an important factor with peas. Peas lose their flavor very quickly when the sugar changes into starch. Whether you cook, can or freeze them, pick and shell them quickly and hurry them to the range, freezer or jar. To prepare them for the table, simmer the freshly-picked and shelled peas only until they are tender. This takes from 10 to 20 minutes depending on the size and maturity of the peas. Season and serve as soon as possible. Peas are one vegetable that can be served with almost any main course—beef, lamb, pork, ham, chicken, fish or eggs.

LOCAL NEWS

Robert, K. Kinsey is having a few weeks vacation at the home of his grandparents, E. H. Kinseys. In a few weeks, he enters Columbia University in New York City for his Master's degree.

Mrs. C. L. Ernsberger of Mentone has returned home from Woodlawn hospital at Rochester, where she underwent medical treatment for several days.

Mr. and Mrs. Myron D. Kimberly and their son, Mr. and Mrs. Frank Kimberly and son, Manford Kimberly from Haviland and Greensburg, Kansas, visited from Friday evening until Sunday morning at the home of Mr. and Mrs. John F. Laird and then attended the Laird-Braddock family reunion at the Joe F. Laird home in Fremont, Indiana on Sunday.

How Indians Got Here

American Indians came to this continent from Asia. The World Book encyclopedia reports that during the Ice Age a strip of land formed a bridge over which Asiatics made their way into Alaska. These travels moved south around the ice sheets and went as far as South America.

Freight Car Standardization

Working parts of freight cars—wheels, frames and springs to support the body, couplers, draft gear and brakes—have been so standardized as to enable repairs to be made regardless of the distance from the owner's headquarters.

MRS. ANNA STUMP

Funeral services for Mrs. Anna (Cable) Stump, aged 81, were held Tuesday afternoon at Warsaw.

Mrs. Stump, who resided five miles west of Warsaw on the Crystal lake road, died at 11 p. m. Saturday at the Murphy Medical Center. Death was due to complications following a hip fracture nine weeks ago. The deceased was born south of Dewart lake, February 1, 1868, the daughter of George and Mary Madden Cable. She was a lifetime resident of Kosciusko county, and for the past 31 years had resided west of Warsaw. Her husband, Samuel Stump, preceded her in death in 1940.

Surviving relatives include one daughter, Esther Knepp, at home; a stepdaughter, Mrs. Carrie Line, of Syracuse, and a sister, Mrs. Maude Tom, of Dewart Lake.

SISTER DIES

Word was received here this week of the death at San Diego, California, of Mrs. Lawrence Seats, who was formerly Daisy Hoskins of this community, and who will be remembered by the older residents as having operated a millinery shop here a number of years ago. Her death occurred last Thursday evening and burial was made there Saturday.

Mrs. Seats went from here to California a number of years ago. The husband survives, with two sisters, Mrs. Lillie Jones of Mentone and Mrs. Rudolph Jones of Burket.

USE CAUTION ON DRIVING

Readin', 'ritin', and 'rithmatic time is here again for the nation's youngsters.

School has either started—or is about to—everywhere, and once again we must increase our vigilance while driving. This was the warning issued in the September campaign for child safety in traffic in cooperation with the Indiana Traffic Safety Commission.

School time takes the child away from the mother's apron strings for a few hours a day and during part of that time he is a potential traffic accident victim unless we adults protect him.

Emphasis on child safety is particularly appropriate in September, according to the Parent Teacher's Association, because at no other time of the year are so many very young children exposed for the first time to the dangers of our streets. In spite of careful teaching by their parents of correct pedestrian habits, children are still immature in their thinking, and warnings have very little meaning to them.

We can't over-estimate the importance of conscientious traffic training on the part of parents, but we shouldn't forget that the responsibility for child

safety will always lie heavier on the shoulders of the motorist than the parents.

In connection with its project, the Parent Teacher's Association, reminded all drivers that in 1948 about 2,400 children between the ages of 5 to 14 were killed in motor vehicle accidents.

Many of these deaths happened because motorists forgot to expect the unexpected while driving near schools, playgrounds, and residential districts. When a child's life is at stake we can't afford the luxury of laxness.

CARD OF THANKS

I wish to thank my friends and neighbors for their kindness in remembering me while I was in the hospital, with flowers, cards, letters and prayers. It was most graciously appreciated. I am now at home and will be shut in for some time so I certainly would enjoy a visit from all of you.

Mrs. C. L. Ernsberger.

BUYS MALE HOG

Loren Tridle bought the herd boar, Kosciusko Ace, of Ed Severns. It weighed 970 lbs. Ace was in good condition but if fattened could have been made to weigh many more pounds. This was the boar which went undefeated last fall at the Warsaw, Akron and Bourbon fairs. He is Sire to

many of Ed's boars and gilts which will be in his sale on September 13. Also he has boars and gilts from two young sires, one of which will be shown at the State Fair.

Mrs. Rus Eckert who has been the guests of her grandparents, Mr. and Mrs. C. M. Walker for some time has gone to Indianapolis where she will be employed.

Mrs. Ola Flesland of Minneapolis, Minn. is the guest of her sister Miss Ruth Barr for a few days.

Misses Shirley and Audrey Riffle were the Sunday guests of Miss Roberta Calvert.

Mrs. Jess Miller and son, Jimmy Lee have gone to Rochester for an extended visit with her mother, Mrs. Inez Stansbury.

Mrs. Harry Wenger who underwent surgery at the Woodlawn hospital sometime ago is able to be out and around.

Mr. and Mrs. Jim Good of Elkhart spent Sunday here as the guests of his parents, Mr. and Mrs. Charles Good.

Mr. Joe Good and Mr. Mickey Eaton spent Monday in Michigan.

Mr. Harry Srivier is enjoying a weeks vacation from his duties at the Hatfield Grocery store.

Mr. and Mrs. Charles Green spent week end in Covington, Ky., and also visited the Mammoth Cave.

Mr. and Mrs. Robert Calvert and family spent Sunday as the guests of his father, Mr. Forest Calvert and Mrs. Calvert of near Rochester.

Mr. and Mrs. O. C. Montgomery and Lavoy spent Thursday evening as the guests of Mr. and Mrs. A. J. Blakley at Lake Manitou.

Miss Jean Ann Surguy has returned to the home of her parents, Mr. and Mrs. Rollie Surguy in Warsaw after spending a few days here with her grandparents, Mr. and Mrs. Roy Hubbard.

Mr. and Mrs. Ralph Leon Bolling of Muncie have moved into Robert Tippy's home. Mr. Bolling is the new basketball coach at the Talma High School this season.

Mr. and Mrs. Earl Chapman of Mentone called on old friends here Sunday forenoon. Mr. and Mrs. Chapman owned a general store here before moving to Mentone.

Mrs. William Middleton of Argos was the guest of her mother, Mrs. Jane Hubbard Thursday.

SPIKE JONES' ORCHESTRA WILL BE AT FAIR

Spike Jones and his Musical Depreciation Crowd will "strike gold" in the huge Coliseum at the Indiana State Fairgrounds when he appears at the opening show at the Indiana State Fair.

Spike will appear at the Indiana State Fair Sept. 1, 2, 3, and 4. He will not have to dig in the dirt for gold this time but will be presented a Gold Record of his rendition of his very popular tune, "All I Want For Christmas is My Two Front Teeth."

The platter will be presented to Spike at the opening performance of his appearance at the Indiana State Fairgrounds.

Making the presentation for RCA Victor will be Robert MacCrae, Merchandising manager of RCA Record Division, Camden, New Jersey and Larry Kanaga, general sales merchandising manager of RCA Victor also of Camden, N. J.

W. L. Brewer, sales manager for the Associated Distributors of Indianapolis,

will represent the local RCA Victor record distributors at the presentation.

Spike Jones and his boys are to give performances Thursday night, opening day of the Fair and repeat again Friday and Saturday nights and again on Sunday afternoon.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

CONSERVATION AT STATE FAIR

Visitors to the 93rd annual Indiana State Fair will find both entertainment and education at the most popular free exhibit in the Fairgrounds—yes, we mean the display provided by the Indiana Department of Conservation!

Located in the heart of the Fairgrounds, the department exhibit will contain 48 big aquariums holding nearly every species of game and pan fish indigenous to Indiana waters. Among these will be the largemouth and smallmouth bass, bluegill, crappie, red-ear and several members of the catfish family. Nearby, a series of cages will house ringneck pheasants, quail, ducks, geese and owls. Red and gray fox will also be on parade, as will the ever-popular raccoon, beaver, coyote, bobcat and other animals and birds native (or at one time native) to Indiana.

Parks, forestry and the oil and gas divisions will also be represented in interesting and informative displays.

Last year the daily attendance at the Conservation exhibit ran between 50,000 and 60,000 persons. Don't miss

it this year. A special booth will be set up by **OUTDOOR INDIANA**, the official publication of the Agriculture and Conservation departments, for the purpose of assisting fair visitors. Literature on most every phase of conservation will be distributed from that booth and there, too, interested persons may sign up to receive the magazine each month free of charge.

WATER LEVELS DROP AGAIN

Following the usual seasonal trend, ground water levels in Indiana generally declined during the past month, Charles H. Bechert, director of the Water Resources Division, announced.

Mr. Bechert made his statements through a regular monthly report issued by his division of the Indiana Department of Conservation.

The majority of wells showing rises in water levels were affected by pumping or other local conditions, Bechert pointed out. Of the 159 wells for which showed a net rise and four wells revealed no net change.

Rainfall during the latter part of July brought an end to a long dry, hot period, and boosted precipitation figures slightly above normal for the Weather Bureau records, there was a month. At Marion, according to U. S. total of 3.5 inches of rainfall, or 49 inch above normal. Meanwhile, Indianapolis had 3.88 inches of rainfall, or .54 inch above normal and at Shoals there was 3.43 inches, or .50 inch above normal.

Runoff from Indiana streams averaged near 140 per cent of normal for July with the average runoff for the East Fork of White River at Shoals recorded at 1,881 second-feet or, 121 per cent of normal. The average runoff for the Mississinewa river at Marion was 279 second-feet, or 164 per cent of normal.

Calling all outdoorsmen

By JIM MITCHELL

Everytime I run across a new set of figures on how much outdoorsmen spend I can't help but be amazed at the size of the business of fishing and hunting in dollars.

The newest figures available show that sportsmen who hunted and fished in 1948 spent \$10,000,000 more than the combined expenditures for bowling, golf, skiing and motor boating. Statistics show that fisherman topped the list with \$1,350,000,000; hunters dug down in their pockets to the tune of \$750,000,000.

And \$3,000,000 was spent in 1948 by sportsmen for tooters and squawkers for calling birds and animals into gun range.

The above figures are a lot of dol-

lars; hunting and fishing is really big business.

Funny thing, too, you seldom hear a sportsman complaining about what it costs him to enjoy the sport. Most outdoorsmen feel that it is a buck well spent anytime he can go fishing or hunting.

I haven't seen any figures lately on what each pheasant or quail or duck or fish costs when an outdoorsman figures his overall expenses against the annual bag. Zut it's plenty high.

Once a few years ago I decided to keep a record of what I spent for a year and then divided the expenditure into the number of fish and game animals I killed or caught. It would have been a lot cheaper to buy fancy steaks at the butcher shop for three meals a day, I discovered. But the enjoyment you get from being outdoors with gun or rod can't be measured in dollars as can steaks at the corner grocery.

Create First Turbocar

Two young engineers, Richard Barr and Geoffrey White, are making road trials of the revolutionary invention, the world's first gas-turbine auto engine. The engine, which was shown for the first time at the British industries fair, now is installed in a specially-built saloon chassis. It is being driven along Britain's roads in order to test the fuel that may change the entire auto industry. Their turbocar, which it is hoped to have in mass production by 1950, gives a performance like a gasoline-driven car of 160 b.h.p. and will have a speed range from one-half to 105 m.p.h. It will run on diesel oil, without vibration or exhaust fumes with no radiator, no clutch and no gearbox.

MENTONE MURMURS

by DAVID and SALLEY GOSSER

MAIN STREET had a respectable appearance on Sunday morning. Here and there were tell-tale evidences of human efforts to clean our streets of the Saturday night debris. Although cleanliness is no substitute for godliness, Francis Bacon and John Wesley said. "Cleanliness is indeed next to godliness."

Murmurs, like many of you readers, are busy with summer canning. Indeed, the aroma of boiling kettles filled with spiced cucumber slices and pickles have a "nose-talgic" effect upon us. We remember the days of home-made jams and jellies, spiced peaches, boiled-down-cider apple butter, open kettle methods of canning beans, vegetables for soup, dried corn, threshing dinners where chicken and home-cured ham were for popularity, and pumpkin pies were

deliciously dusted with nutmeg. These days are not gone, however, and we would not want them to return even if they had, for there are great advantages to the newer methods of canning.

Pressure cookers have replaced the open kettle methods and there is an "out of garden" taste to the quick frozen foods we place in our lockers. Murmurs find the aroma of spices issuing from many kitchens these days, and the sweet nectar scent of grapes is held within the juices and jellies stored away for winter consumption. There is joy in the harvesting of these summer crops, and there is a possibility that we put off the thanksgiving spirit too long before evidencing it through worship.

Post cards coming to murmurs tell of vacationers visiting the show places of the continent, Cathedrals and churches in New York and Canada, the National Monuments and buildings in Washington, D. C., vast forest expanses of both East and West, lake sides and sea shores, and all these in comparative peace and security. Until we have traveled, we cannot fully appreciate the greatness of our nation in a physical sense; but the true greatness of this and every other nation, as of this community, depends upon the character of its people. With them communities and nations rise and fall. You are the destiny of America.

CHALK TALKS FOR CHRIST: Murmurs was impressed with the work of W. Karl Steele who presented his "A Stranger At The Door" on Sunday evening at Winona. With deft fingers, chalk, and black lighting, the head of the Art Department of Wheaton College impressively sketched his subject to a background of vocal and violin music. It was a worship experience which few people have realized was possible through that medium of Art.

MENTONE HOME ECONOMICS CLUB

Twenty-five members and six guests attended the annual picnic of the Mentone home economics club held at Mrs. John Laird's home recently. Club president, Mrs. Roy Cox, was in charge of the business meeting, and Mrs. Clem Teel read a poem for the meditation. After Mrs. Howard Horn read the history of "Juanita," the song of the month, the group joined in singing it. Members answered the roll call by giving sewing hints. Plans were made for the Mentone Egg show. Mrs. Roy

Salman was winner of the mystery package. Auction articles were purchased by Mrs. Harry Vernet, Mrs. Claude Gates, Mrs. William Vernet, Mrs. Macy Nelson, Mrs. Cox, Mrs. Raymond Weirick, and Mrs. Gertrude Hill. Gifts from cheerio pals were received by Mrs. Roy Terry, Mrs. Harry Sullivan and Mrs. Nelson. The next meeting will be September 15 at the home of Mrs. Elmer Sarber.

**HOOSIER STATE FLYWAY
SEASON IS LENGTHENED**

Improved conditions of waterfowl as revealed by winter inventory and the reasonably favorable situation on the bulk of nesting grounds have made it possible for the United States Fish and Wildlife service to allow an increase of ten days in the length of the season shooting of such game, according to J. A. Krug, Secretary of the Interior.

Regulations governing migratory waterfowl were amended following a series of public waterfowl meetings recently held throughout the country. The general public as well as conservation officials seemingly preferred to have a longer hunting season rather than an increase in the bag limit, it is revealed by Albert M. Day, Director of the Fish and Wildlife Service.

In the Mississippi flyway the waterfowl season is increased from 30 consecutive days, or two periods of 12 days each, to 40 consecutive days, or two periods of 16 days each. States of

the Mississippi flyway, which included Indiana, all elected to have continuous season which is from November 4 until December 13 in the Hoosier state. Last year Indiana sportsmen hunted waterfowl from October 29 until November 27.

Daily shooting hours are the same as last year, from one half hour before sunrise to one hour before sunset.

Indiana daily bag possession limits have been listed as follows:

Ducks: 4 a day and 8 in possession.

Geese: Due to increase in Canada geese, the limit for this species has been increased in the Atlantic flyway states from 1 to 2 birds a day or in possession. This now makes a uniform limit of 2 birds for this species in all flyways. Included in this limit can be either 2 Canada geese (or its subspecies) or 2 white-fronted geese. In addition the hunter can have 3 blue geese a day or in possession. In the Mississippi flyway states the daily bag and possession limit for geese will be four (same as 1948) of which 2 may be Canada geese, or 2 white fronted geese, or one each of these species.

Coots: The bag limit for coots has been reduced from 15 to 10 birds a day in the Mississippi flyway states because of a reduction in the supply of birds normally frequenting these flyways. Possession limits are the same as the daily bag limits. In all flyways not more than 15 in the aggregate of rails, other than sora and gallinules.

Woodcock: In the Mississippi flyway states the daily bag limit is 4 with a possession limit of 8.

Magnesium for Lawn Mowers

Lightweight, sturdy grasscutters parts are made from magnesium, the world's lightest structural metal. Magnesium sand castings are three times stronger and 75 per cent lighter than the same parts fabricated of other materials. Because magnesium sections can be made thicker without a weight penalty, magnesium parts are sturdy and can resist more handling abuse than can many other materials used in this application.

SOFTBALL TOURNEY STARTS NEXT WEEK

Plans are nearing completion for an invitational softball tourney to be held at Veteran's Park, Beginning next Monday night, August 29th. Fourteen teams have sent entries and the calibre of teams entered assures local fans that they will see a lot of good softball. Below are some of the teams entered as we go to press:

Mike's Service Station, North Manchester; Burket All-Stars; Bryan's Chicks; Utter and Tridle; Mentone Merchants; Silver Lake All-Stars; Warsaw American Legion; Warsaw Moose; Hunter and Walton, Claypool; Akron All-Stars; Zimmer Manufacturing Co., Warsaw; Bremen Cafe.

An attractive trophy will be given to the tourney winner. Time did not permit the Schedule to be drawn before we go to press. The complete schedule will be announced at Friday

night's Merchant game. This tourney together with the games of the Merchants publicized elsewhere in this week's issue will complete activities of this softball season.

COMPLETE DDT SPRAYING

Members of the Mentone fire department the latter part of last week completed the second spraying of the entire town with a DDT solution, in hope of killing flies and lessening the chance of their spreading of polio and other disease germs. Although it is not definitely known, medical circles believe perhaps flies have something to do with the spread of polio.

Thanks is due from the community to the firemen for their work, and to those who furnished equipment, namely, the Teel orchard, who furnished a power sprayer, and the Mollenhour Lumber & Mfg. Co., who furnished a tractor.

The project was made possible, also by the Psi Iota Xi sorority, which furnished the major portion of the necessary funds.

NEW DAUGHTER

Mr. and Mrs. Elwin Teel are parents of a baby girl, born Saturday at the Woodlawn hospital in Rochester.

MARRIAGE LICENSE

Glenn L. Harford, 23, molder, of Etna Green, son of James F. Harford, of Lakeview, Ind., and Mary Frances Zentz, 21, telephone operator, of Burket, daughter of Mr. and Mrs. Elman R. Zentz of Etna Green, were issued a marriage license last week.

FIRE DEPARTMENT TO CRACK DOWN ON WILD DRIVING

Last Friday night the fire department was called to Burket where a house was burning. The fire siren sounded and within a few seconds the streets were completely jammed with cars. Cars were going east on Main street three abreast at high speed. They were pulling out on Main street and cutting in ahead of firemen's cars making it extremely difficult and hazardous for firemen to follow the fire truck.

It seems that some people think that when the fire siren howls it is a signal for them to start their wild and reckless driving, but it is just the reverse. The siren's howl is a signal for the streets to be cleared and stay cleared until the fire truck and firemen's cars have had plenty of time to be on their way.

There are sixteen men on your fire department and every time the alarm sounds these men are in danger from the time they leave the fire station until they return. The public can reduce this danger very much if they will only give the firemen enough consideration to clear the streets when the siren sounds. In the very near future practically all firemen's cars will carry identification and will be easily distinguished from other cars. If the practice of endangering lives of firemen and hindering them from getting to the fire is not stopped we intend to have the violators prosecuted. We hope this will not be necessary but we certainly do not intend to go on risking our lives just to be good fellows if the public does not wish to cooperate. Any fireman has the same authority as your county sheriff while going to, or at, a fire.

Parents, please see that your children stay in the clear with their bikes, also.

On several occasions before we have had articles in the paper asking the public to cooperate. If this warning is not heeded this time we are going to act before someone gets killed.

MENTONE FIRE DEPARTMENT

LOGANSPOUT HERE FRIDAY

The Logansport RBM team, which played the Mentone Merchants to a 1 to 1 tie last week at Logansport, will oppose the Merchants on the Mentone field this Friday evening.

FUNERAL SERVICES HERE FOR SIMON SNYDER SUNDAY

Funeral services for Simon Snyder, aged and long-time Mentone resident who succumbed last Thursday morning, were held Sunday afternoon at the Johns Funeral Home, Lloyd Boyll officiating. Burial was made in Walnut cemetery, west of Tippecanoe.

Mr. Snyder was born near Bremen May 15, 1871, and was 78 at death. He had been in poor health several years, but death was due to sudden heart attack. He was the son of Henry and Caroline Huff Snyder and for 35 years lived on a farm four miles northwest of here, moving to Mentone about a year ago. On November 16, 1898 he married Dove Horn, who died in 1907. On March 11, 1915 he married Estella Horn. She survives; also a son, Glen Snyder of near Warsaw; a daughter, Mrs. Ethel Chandler of Fort Wayne; five brothers, George, Ben and Ellsworth, all of Argos, Drew of Corpus Christi, Texas, and James of Holtville, California; a sister, Mrs. Minnie Zaner of Argos; two grandchildren; one great grandchild.

SUNDAY TOURNAMENT

In the first game of the invitational softball tourney which started here on Monday evening, Bryan Chicks defeated the Silver Lake All-Stars, 2 to 1. Stouter pitched for the Chicks and 14 year old Tom Summe for Silver Lake.

In the second game Monday, Mentone Merchants eliminated Heckman Bindery of North Manchester, 5 to 1. Eleven teams are entered in the tourney. Tuesday night's games were rained out, and will be played on Monday night, September 5. Other tourney play will proceed as scheduled.

Teams entered included, besides the four mentioned: Akron All-Stars, Burket All-Stars, Bremen Cafe, Mike's Service Station, North Manchester; Hunter-Walton; Zimmer, Utter-Tridle.

NEW LIBRARY HOURS

The library will be closed on Labor Day.

Beginning September 6, the Library will be open Monday through Friday from 11:45 A. M. to 4:45 P. M.; Saturday 1 P. M. to 5 P. M., and 7 P. M. to 9 P. M.

ASBURY COLLEGE QUARTET AT METHODIST CHURCH

The King's Herald's the Asbury College quartet of Wilmington, Kentucky will present a program of sacred music on Sunday morning, September 4 at ten o'clock. The young men are preparing themselves for life-time Christian Service in the mission field and at home. They have been attending the Bible Conference at Winona this summer, and their appearances have been before large audiences and small.

The members of the quartet: Harold French born in Shanghai, China of Missionary parents; J. W. Kraus of Virginia, Bob King of Michigan, and Dick McClain of Ohio. The King's Herald's have a repertoire of over thirty numbers which has been necessitated by recordings and their numerous appearances not only in churches across the country but in Veterans Hospitals also. The public is cordially invited to hear them, and no special offering is asked for their benefit.

FIRE DAMAGE AT BURKET

Considerable damage, especially to the rear of the house, was caused by fire and water at the W. O. Coyle residence in Burket last Friday night. The Burket fire department ran out of water, and Mentone and Claypool trucks were summoned, and soon got the fire under control.

TWO RETIRING HERE AFTER 15 YEARS IN POSTAL SERVICE

Retirement because of the age limit brought a complete turn-over in the personnel of the Mentone post office starting Thursday of this week, Lloyd Rickel, who has been postmaster here for the past 15 years, and his able assistant, Mrs. Orpha Blue, turning the office over to Kenneth Romine, who recently received his appointment as acting postmaster. He will be assisted Mrs. Tommy (Mary Anne) Stanford, as substitute clerk, and as she has been employed in the office during the past several years, there will not be a complete "change of faces" in the office.

Both "Rick" and "Orpha" will be missed from their place behind the postage window.

CLUB CALENDAR

Psi Iota Xi Sorority business meeting, Thursday, September 1, at home of Mrs. Kathleen Camplejohn.

COUNTY'S POULTRY INDUSTRY ADVERTISED AT STATE FAIR

Kosciusko county's poultry industry, one of the major producers of farm income, is being advertised and publicized at the Indiana State Fair, starting tomorrow—Thursday—at Indianapolis, through joint efforts of the county's fourteen hatcheries, and the county council of Home Economics Clubs.

Financed by the poultry men, with the actual display at the fair handled by the Economics Club committee, headed by Mrs. Fred Decker, the project consists of a display, including live baby chicks and distribution of several thousand attractive pamphlets printed in color, and containing many facts and the history of the poultry industry in the county.

Kosciusko county thus is receiving considerable state-wide—as well as into neighboring states—through this project and will receive more in a similar campaign which the county dairy association will stage at the International dairy show at Indianapolis in October, to advertise that industry.

LOCAL CAR STOLEN: USED IN ESCAPE BY ROBBERS

An automobile belonging to Leslie Grubbs of north of Mentone was stolen Saturday night and later found, considerably damaged, as part of a series of events that seemed to point the trail of two or three men who started an evening of robberies in Peru. At last report the bandits had not been captured.

Three men, after a \$650 robbery at Peru Saturday night, apparently went to Bourbon, and were surprised in a robbery there. Fleeing on foot, they stole a car at Bourbon, traded it for Grubb's car at Tippecanoe, but were seen driving north on road 19, and a chase started. Near Westville the men abandoned the Grubbs care and again escaped on foot.

NEW DAUGHTER

Mr. and Mrs. George Pond of Dearborn, Michigan, are parents of a daughter born there Monday. Mrs. Pond is the former Jane Warner, a daughter of Mr. and Mrs. Win Warner of Silver Lake and formerly of Mentone.

VETERANS SLOW FILING BONUS APPLICATION

Indiana veterans are going to run into a last-minute jam filing their Indiana World War II Bonus applications if the present slow rate of filing continues, Clinton Green, Director of the Indiana Department of Veterans' Affairs, announced today.

Today only 41,238 applications for the bonus have been filed, with over 4,100 of these coming from veterans living outside the state at the present time.

"Most veterans organizations, Red Cross chapters and county service officers made preparations last month to take care of the expected rush to file applications," Green stated. "Many of them hired extra help or secured volunteer assistance to be ready to aid veterans in filing for the bonus. However, to date veterans have not taken advantage of this assistance in many communities and these organizations are planning to reduce their staffs unless business picks up."

"With over a year to file claims, these organizations offering free as-

sistance to the veteran would have been able to handle all the applicants without too much waiting on the part of the veteran," Green stated. However, if the veteran waits too long, he'll find himself standing in line trying to get assistance."

MENTONE P. T. A. NEWS

(Contributed)

There seems to be a question as to who is eligible to become a member of the P. T. A.

1. Any civic-minded taxpayer, Whether or not you are a parent.
2. Parents and teachers who have children that are not of school age.
3. Parents and teachers whose children have finished their schooling.

To sum it up; any taxpayer who is interested in child welfare and the improvement of the community may become a P. T. A. member.

The P. T. A. needs you whether you are a mother—a father—a teacher—or any other civic-minded adult.

P. T. A. membership is always open. If you have not joined, plan to do so now. Our first meeting will be at the school house, September 28th, at 7:30 P. M.

For membership see Mrs. Conda Walburn or Mrs. Harold Martley.

Of the 304,537,562 bushels of corn from the 1948 crop under farm storage loans, Indiana farmers have 10,873,629 bushels in such loans, according to a recent report of the Production and Marketing Administration of the United States Department of Agriculture. Their share under purchase agreements was 5,995,270 bushels. The total number of bushels under purchase agreement in the country was 85,941,291 bushels as of July 1, 1949.

APPLES NEED COLD STORAGE

Apples deteriorate in quality very rapidly after harvest unless they are held at a low temperature and high relative humidity. This is one way of saying refrigeration is a "must."

Clarence E. Baker, horticulturist at Purdue University, says apples held at a high temperature for even a short time after picking have a much shorter "life" than if the temperature is reduced quickly to near the freezing point of water and the fruit held constantly at that temperature.

Storages in Indiana which depend upon air or ground temperatures are unsatisfactory for keeping apples in good condition. Temperatures cannot be kept low when they are most needed.

Grower owned and operated storages are proving successful in Indiana. The trend in marketing practices toward more selling of the fruit at the orchard or through a roadside retail market has made it desirable for the orchardist to have some storage facilities of his own.

Exodus from Farms

People will continue to move from the farms into town in future years, predicts the U. S. department of agriculture. With better machinery, crops and livestock, it takes fewer farmers to do more farming.

INTERNATIONAL DAIRY SHOW AT STATE FAIR

Thirty-two Hoosier counties listed among those meeting their advance-sale ticket quotas allotted them for the first International Dairy Exposition to be at the Indiana state fairgrounds October 8 through 15.

Oscar A. Swank, executive general manager of the "World's Fair of the Dairy Industry," said the total allotted to the counties reporting their quota met is more than 56,000, which is almost one-third of the total of 175,000 allotted for the advance-sale drive.

Mr. Swank also announced that a total of 4,300 copies of the directory and rules and premium lists for the International Dairy Exhibition have been mailed to all purebred dairy cattle producers of Indiana, surrounding states and Canada.

This publication of the directory of

rules and premium lists contains the greatest amount of premiums ever offered to dairy cattle exhibitors (more than \$60,000) and for "International" ribbons.

Mr. Swank pointed out that the officially recommended classes of the Purebred Cattle Association will be followed with the addition of a milking derby for each breed. A copy of the directory and rules and premium lists, together with an entry blank, will be mailed upon request by writing to Mr. Swank, International Dairy Exposition, 130 East Washington street here.

Nearly one-half million persons from the United State and Canada are expected for the eight-day showing of the world's best dairy cattle.

DEFERRED GRAZING**STOPS BEEF YIELD**

By using highly productive permanent bluegrass pastures to capacity during the spring months of this year an increase of 52 pounds of beef was produced per acre as compared with the amount obtained by similar pastures rotation grazed, throughout the first half of the season on the Miller-Purdue farm, according to a progress report recently released.

Dr. G. O. Mott, Purdue University pasture specialist, explained that by stocking pastures heavily during the cool months when bluegrass is making its peak growth, a greater beef production per acre can be obtained. The disadvantage of the system is that other feed has to be provided during the summer months, particularly during the latter part of July, August, and through the early part of September. The compared pastures were fertilized annually with 300 pounds of 0-20-10

analysis and 60 pounds of nitrogen, the nitrogen furnished by 200 pounds of ammonium nitrate per acre.

Deferred summer grazing of the pasture produced 297 pounds of beef per acre over a 56 day period, as compared to the rotation grazed pasture (84 day period) which produced 245 pounds of beef per acre.

Somewhat better results from rotation grazing were experienced from the permanent birdsfoot-bluegrass pasture on which 251 pounds of beef were produced over the 84 day interval. Birdsfoot trefoil appears to have some of the characteristics long needed in a legume for permanent Indiana pastures, being a deep-rooted perennial. This birdsfoot trefoil pasture produced 75 per cent more beef per acre than did bluegrass alone, the latter producing only 143 pounds of beef per acre. Both pastures were given the same fertilizer treatment.

Many factors influence the gains of animals, such as moisture conditions, heat and humidity. Dr. Mott said not the least of these was the ability of the manager to estimate the carrying capacity of the pasture.

FARMERS URGED TO ORDER 1950 FERTILIZER NEEDS

The slow movement of fertilizer to Indiana farms makes it doubtful that all farmers who expect to use fertilizer on fall grains will be able to get their requirements, according to Dr. F. W. Quackenbush, head of the department of agricultural chemistry at the Purdue University Experiment Station.

During the war immediately following the war, farmers learned that they must order and accept their fertilizer early in order to be sure of having it when needed. There seems to be a prevailing impression at present that they can wait until seeding time to procure their fertilizer requirements. The limited storage space in fertilizer plants makes it necessary to clear out some of the fertilizer on hand so that Manufacturing can continue in an orderly manner.

Farmers who expect to use fertilizer on their fall grains should take immediate steps to get the fertilizer delivered to their farms.

NEWS — PHONE 38

Grain fed to dairy cows on farms of Indiana dairy reporters amounts to slightly more than four pounds daily from June through September. For the remainder of the year, it varies from 5.3 to 7.2 pounds. These amounts are mid-way between the amounts listed for the other states in the north central region, according to G. A. Williams extension dairyman at Purdue University.

TEACH SCHOOL CHILD

TRAFFIC SAFETY WAYS

"Teach your child safety as you would good manners."

This was the plea of the Parent Teacher's Association's September traffic safety drive. In cooperation with the National Safety Council, the Association has taken as its theme this month "Child Safety."

"Up to a certain age," it was said, "the child really knows very little about what is expected of him in traffic. But, by school age, if he is still ignorant of safety rules, the parents are criminally negligent in his training."

The Parent Teacher's Association points out that about 3,800 children under the age of 14 are killed annually in traffic accidents. This means that out of every three children killed in accidents each year, one is a traffic victim.

For his own sake the child must be taught safety, but even then the motorist must also realize that a child is a creature of whims and prepare for the forgetfulness and carelessness of immaturity.

The Parent Teacher's Association outlines the following tips for parents:

1. Do not allow your children to play in the street under any circumstances.
2. Insist that he cross the street only at intersections when no cars are coming.
3. Do not allow him to ride a bicycle in traffic until he has demonstrated to your satisfaction that he has the necessary skill.
4. Impress upon him the fact that bicycle riding is subject to the same rules of safety and courtesy that actual driving is.
5. Confine his play with tricycles, skates, scooters, and wagons to the sidewalk—and well away from alleys and driveways.

If parents will emphasize these points they will materially reduce the possibility that they may someday suffer the heartbreak of seeing their child killed or maimed in the streets.

Automobile Scrappage

Scrappage of motor vehicles in the 23-year period, 1925 through 1947, averages nearly two million units a year, R. L. Polk and Co. reports. However, the scrappage rate in recent years has been greatly reduced. The total in the 22 years was 43,646,088 units consisting of 37,972,954 passenger cars and 5,674,134 trucks.

NORTH WEBSTER MILL, COUNTY LANDMARK, DESTROYED BY FIRE

The North Webster mill, located a mile south of the town of North Webster, on the edge of Webster Lake, was destroyed by fire, for the third time, last Thursday night and Friday morning. Firemen from North Webster, Syracuse and Pierceton fought the flames for hours, to no avail.

The mill was owned by Mike Long and three sons, of Wilmot, who took over the business in 1944. The mill was originally built in 1895 and at one time was operated by a woman, Mrs. Edith O'Donnell of North Webster.

Meat Production

Meat production this year is expected to total about 21 billion pounds, 10 per cent less than last year and the smallest output since 1941. The percentage decrease is not expected to vary greatly among the four types of meat. Beef supplies probably will be down most and veal supplies least. The decrease in total meat output from last year will be most marked in the last quarter when the decrease in the 1948 spring pig crop will be reflected in hog marketings.

Gothic Architecture

Just prior to the invention of printing, Gothic architecture was sweeping Europe. The feudal system of the period was typified by the walled city which served to protect the inhabitants from foreign invaders. It was these very walls that gave rise to the Gothic churches. Space within the walled town was at a premium. No longer was it possible to build horizontally as was common in Romanesque architecture. Now the churches had to be built more vertically which caused them to assume their typical cramped appearance.

Damage to Hides

Mange, ringworm, and other skin diseases of leather-producing animals cause millions of dollars in losses to the American people. Tanners have to put more work on skins that are parasitized or otherwise damaged, which increases production costs as much as 20 per cent. In some cases, the damage is so extensive that the hides are practically useless. Better management practices on farms, so as to avoid costly injuries, along with the skilled use of insecticides to rout livestock parasites would go far in cutting down these losses.

BIG SCHOOL ENROLLMENT IN THE MIDWEST STATES

In a front page, back-to-school article in the September 3 *Prairie Farmer*, field editor Maynard Bertsch includes reports of the high total of children that will soon be walking or riding buses to their classes this fall.

Illinois Superintendent of Public Instruction Vernon L. Nickell estimates 1,150,000 elementary and high school students, plus a large number of kindergarten pupils. Indiana Superintendent Deane Walker estimates 700,000. Michigan Superintendent Lee M. Thurston gives a total of 997,000, including the kindergarteners. And in Wisconsin, Superintendent G. E. Walker says there will be 495,000.

The *Prairie Farmer* story points out the many additional opportunities given rural youngsters in schools these days, including courses in home economics, vocational agriculture, farm shop, and physical education, and in addition to academic work. "Bodies as well as minds are trained, better preparing our young folks to take their station in life."

An unusual type of school program that's nevertheless eagerly accepted by both students and educators is the

one in Merrill, Wisconsin, school system.

The school owns a 740 acre forest, 600 acres of which were given by a high school alumnus; William T. Evjue of Madison, as a memorial to his father, Nels P. Evjue, pioneer woodsman and lumber scaler.

Classes of boys and girls are taken directly to the forest for practical application of their studies.

They plant trees, label and mark flowers and other plants, help in the business management of the forest by selling wood, learn how to measure the amount of lumber in the trees, etc. The forest thus serves as a practical laboratory for geometry, biology, business management and other courses.

The youngsters learn conservation at first hand. Over half of the 800 pupils in the Merrill high school belong to the school's forestry club, and many are making forestry and other phases of conservation their life's work.

Clyde Johnson, wife and son Gail, and Mrs. Joe Johnson spent Sunday in Peru.

ETNA GREEN SCHOOL OPENS SEPTEMBER 6

Chester R. Jontz, trustee of Etna township, announced Tuesday that enrollment day at Etna Green school would be Friday at 9:30 a. m. Regular classes will start on Tuesday, Sept. 6, and the serving of hot lunches will also begin on that day.

On Wednesday, Sept. 7, the Etna Green high school band will compete in a contest at the state fair in Indianapolis.

The list of instructors, headed by Principal Millard Taylor, follows:

Mrs. Lawrence Koppin, first grade; Magdalene Taylor, second and third grades; Marcella Harshner, fourth and fifth grades; Gladys Shirey, fifth and sixth grades; Joseph Scherrer, industrial arts and mathematics; Kathleen Cauffman, home economics and physical training; Charles Reece, social studies and science; Giles Hoffer, social studies, English, physical training and athletic coach; Maryellen Metheny, commerce and English; Ethel Smith, mathematics and Latin; Maribelle Rieboldt, music and arts; Millard R. Taylor, principal and agriculture.

MAKES MOW DRIER OUT OF HAY BALES

When trying to figure out a way to install a hay drying system in his barn loft, John Abbott of DuPage county, Illinois, didn't see why he should make a big cash outlay for lumber.

So, according to an article in the current *Prairie Farmer*, he used his head to figure out a way to make a complete duct drying system using hay bales. He made both the main duct and 10 laterals, leading to it from the bales, using only 2x4's for supports. Chopped hay was then put in on top of the bale duct system and a 5 h.p. fan installed at the end of the main duct.

In ten days time Abbott had 30 tons of well cured and top quality hay—this wouldn't have been possible otherwise because of the damp weather at haying time.

Mrs. Leslie Laird and son Joe of Richmond, Indiana, spent Wednesday with her mother, Mrs. Joe Johnson.

These people who send postcards from their vacation spots, telling what a swell time they're having! A card to the print shop employees this week from the Cullum family at Hayward, Wisconsin, shows a doggoned nice bunch of black bass. And it came on Wednesday, the day we work like everything to get the Co-Op News out!

TO PATROL LAKES

Kenneth M. Kunkle, state conservation director, has announced a plan to name 1,500 state motorboat operators as deputy conservation officers in a move to check reckless boating on Indiana lakes.

Many complaints and petitions against reckless boating, lodged with the governor's office, caused officials to adopt the deputy plan since policing of the lakes by the 88-man conservation force is impossible. At least three deputies would be assigned to patrol 500 of the more important lakes. Half of the state's navigable lakes do not have enough traffic to make patrolling necessary, it was said.

Deputies would be nominated by conservation clubs, cottage owner's associations and boating organizations. The deputies will receive schooling on police and court procedure.

MENTONE LUMBER CO.

"Courtesy First"

MENTONE,

INDIANA

The 1949 waterfowl hunting regulations have been officially on the federal books now for a month, so I thought I'd ask a question. What do you think of the new gunning code?

I've talked to a hundred or so gunners since the season was set and at least 90 per cent of the boys seem thankful for the extra days of hunting. The others 10 per cent, as usual, are griping about not getting more shooting days and a larger bag limit.

Frankly, I think the federal boys were quite liberal in upping the length of the season. And I know that many hunters appreciate the longer gunning period even if the bag limit is the same as last year. In fact, at public waterfowl meetings prior to setting the seasons, more persons voiced opinions in favor of a longer season and the same bag limit. That probably somewhat influenced the regulations.

There are some rather interesting sidelights on the new regulations. For instance, most states have elected to have a continuous season rather than

a split one. Of course, by selecting a split season the number of gunning days is cut.

Of the 17 states in the Atlantic fly way, only five have established split seasons. None of the 14 states in the Mississippi fly way went for the split deal. Four out of 10 states in the Central fly way found a split season the best, and three out of seven states selected a split season in the Pacific fly way.

If you happen to be loaded with folding money, it would be possible to gun for waterfowl over a period of approximately six months. You could open the season in Alaska in September (even September 1 in one Alaskan zone) and follow through Canada and the States to Puerto Rico where the waterfowl season remains open until February 12.

But regardless of where you hunt or when, lets be good sportsmen by taking only the shots that are within range and cut down the tremendous loss of cripples.

Soil building properties of manure are put to the most efficient use when the manure is spread on the ground that is to be plowed soon, Purdue University agronomists advise. Late summer and early fall are ideal times for hauling manure on sod that is to be plowed for corn. Manure also contributes to erosion control and slows down depletion of soil elements.

LABOR DAY SAFETY

The last week end holiday of the summer is at hand, and Supt. Arthur M. Thurston, of the Indiana State Police, takes note of the expected heavy Labor Day travel by warning motorists to drive with common sense, extra care and courtesy over the four-day vacation period. Last year, 18 persons were killed in Indiana traffic smashups, and 470 others were hurt. A total of 841 accidents were reported in the holiday period a year ago, with the faster speeds in the rural districts accounting, in part, for a higher death and injury toll.

This week end State Police troopers, city police and sheriff's officers will be on the job to guard against bad driving, but the greatest preventative effort must come from the drivers themselves, Supt. Thurston points out.

Travelers are advised not to leave their safety-mindedness at home. State Police records show that last year's Labor Day toll included men, women and children who were involved in boating, swimming and flying mishaps, or who suffered the ill effects of over-exertion, over-exposure to the sun, and falls.

We urge acceptance of Supt. Thurston's suggestion that pleasure seekers prevent tragedy by practicing safety this Labor Day.

ANNOUNCE PLANS FOR MUCK CROP SHOW

As Indiana's potato and onion harvests roll into market, growers are seeking the titles of onion and potato champions. They are asking that their fields be officially checked to qualify in the 400 bushel potato and 1,000

bushel onion club contests. Winners of the titles will be announced at the annual Northern Indiana Muck Crop Show to be held Oct. 31 to Nov. 4 at Bremen, according to Roscoe Fraser, extension horticulturist at Purdue University.

The Bremen Kiwanis Club will sponsor the event in cooperation with the Northern Indiana Muck Crop Growers Association and department of horticulture at Purdue.

Principal features of the show announced by the committee include the vegetable judging, grading and identification contest and the muck crop demonstrations to be held Thursday, Nov. 3.

MENTONE MURMURS

by
DAVID and SALLEY GOSSER

Murmurs found that it wasn't all fair weather at the FAIR on Tuesday evening of this week, and although it was FAIR weather that swept across Winona Lake several Mentonites were fouled in the flying tent ropes and bellowing canvas, but we have learned that this is the usual thing during Fair Week and all attenders take the weather philosophically.

PETUNIAS line the Tucker-Riewaolt drive and beautify the approach to our community. The colors set off the white houses like the sun-tinted edges of white clouds at sunrise and sunset.

FAIR-bound drivers notice the progress on the Charles Manwaring estate East of town. The landscaping project is under way, and visitors now must use the drive or park out on the "black-top."

Abby's Acre is momentarily at a stand-still while the Abbys are vacationing at their homes in Pennsylvania.

MURMURS was impressed by the fine sportsmanship and friendliness that existed for the duration of the Baptist-Methodist soft-ball game last Friday evening. The reaction and response of the members of both churches involved is a credit to our community and should be encouraged. The spirit of harmony and goodwill which many of our service-men found ex-

isting among the men of a variety of faiths and beliefs can be the spirit that motivates the life of the Mentone Community. As we learn to work and play together, we learn that we are able to live together.

LOCAL NEWS

George Fawley of Warsaw called on his cousin, Mrs. Adam Bowen last Thursday.

Anna Hudson was in town Wednesday for the first time since her recent illness.

Mrs. Mary Bidelman, well known in this locality, is ill at her home in Sevastopol, and will probably be confined to bed for several weeks. She will welcome visits from her friends.

Mrs. Gladys Bullock of Bakersfield, California, Mrs. Ruth Emerick and daughter Sandra of Warsaw, spent Wednesday at the home of their cousin, Mrs. Adam Bowen.

On last Sunday Rev. and Mrs. E. E. De Witt entertained the following noon dinner guests: Mr. and Mrs. Fred Huffman of Lapel, Indiana; Miss Mable Crosson, a nurse from the Government hospital at Ft. Harrison; Dr. and Mrs. Lantz Russiaville, and Dr. and Mrs. Brookie of Flora. Afternoon visitors were Mr. and Mrs. Fred James and Mr. and Mrs. Carl Schrader of Larwill. Evening visitors were Rev. and Mrs. Paul Smith and family of Columbus, Wisconsin who are vacationing in the Mentone community.

MRS. B. V. WAGONER DIED AT HER HOME

Mrs. Blanche Viola Wagoner 64, passed away at her home in Newcastle Township at 4:15 A. M. Wednesday. She has been ill since November.

Born March 17, 1885 in Rochester, she has lived in Fulton County since 1911. On Feb. 9, 1911 she was married to Harry Wagoner in Fostoria, Ohio. Her parents were Frank and Emma Alspach Black.

A member of the Talma Christian Church, she is survived by the husband; one son, Dale of Rochester and a daughter, Mrs. Ruth Benard of Cleveland, Ohio; a sister, Ethel Snapp of Rochester; and five grandchildren.

The Funeral service was held Friday afternoon in Zimmerman Bros. Funeral home in Rochester at 2:00 P. M.

The Rev. Ernest Treber of Argos officiated and burial was made in the I. O. O. F. Cemetery at Rochester.

**HEALTH FACTS FROM YOUR
STATE BOARD OF HEALTH**

A revised issue of the book "Prenatal Care" is now available from the Division of Health and Physical Education, Indiana State Board of Health, according to an announcement made today by Robert Yoho, director of the Division.

This edition has been completely rewritten by the Children's Bureau of the Federal Security Agency. The book, prepared for parents, has been popular not only in Indiana but throughout the country with more than 9 million copies distributed since the booklet was first published in 1913.

In previous editions, the term, prenatal care, referred to the care an expectant mother receives during the period before the birth of the baby. The latest bulletin covers a wider range including medical supervision from early pregnancy through the birth of the baby and for several weeks after.

Pamphlets on other phases of maternal and child health, disease pre-

vention and control, dental health, dairy products, gerontology and chronic diseases, health and physical education, nutrition, venereal diseases, and other aspects of public health are available by request from the Division of Health and Physical Education and the branch offices of the State Board of Health.

Copied from Circus

Barnum and Bailey's circus created a sensation on its European tour in the 1880's. According to World Book encyclopedia, the German kaiser was so impressed with the efficiency of the traveling show that he ordered the German army to adopt the circus method of traveling and feeding.

For the Seamstress

Never pull out too long a basting thread, but rather cut between the stitches and pull the basting thread out in short lengths. In this way large thread holes in the material will be avoided, and, in the case of sheer materials, the possibility of pulling the fabric threads will also be eliminated.

SLOGANS FOR SAFETY

To help promote a public consciousness concerning the importance of highway traffic safety over the Labor Day Holidays, when it is estimated that approximately 33 million cars will be on American highways—the largest number in our history, WLS is asking its listeners to send in original Safety-Grams in verse or prose.

For the fifty Safty-Grams selected for use on the air in connection with the holidays, one dollar each will be awarded the writers.

FAMILY LIFE FEATURED

Family life in the home of a radio promotion man is the subject of an article in the October Pageant magazine. The family described is that of John C. Drake, Director of Promotion and Publicity at WLS, Chicago, who has used a "family board of directors" to handle all problems of discipline and family relationships for the past four years.

KEHOE-MAROZSAN NUPTIALS

Mr. and Mrs. Francis Kehoe of R. 2, Bourbon, have announced the marriage of their daughter, Donnabelle, to John M. Marozsan, son of Mr. and Mrs. John Marozsan of South Bend. The double ring ceremony, performed by the Rev. Finnigan, took place August 20 at 10:00 a.m. in the Chapel at Notre Dame, before members of the immediate families.

The charming bride chose a street length, two piece gown of aqua satin, a tan and cocoa brown hat with an ostrich plume and light tan accessories. She wore a corsage of white Kilmas. Her only attendant, Miss Delores Lemanski, wore a two piece dress of light brown satin with dark brown accessories and a corsage of yellow Kilmas.

The bridegroom was attended by his brother, Steve Marozsan.

For her daughter's wedding, Mrs. Kehoe wore a rose crepe dress with corsage of white carnation. Mrs. Marozsan was in a blue printed, silk, and white caratons.

A reception was held that evening at the home of the bride's parents for seventy-five guests. The home was beautifully decorated with bouquets of gladiolus.

Following the reception the young couple left on a weeks trip to Algonquin, Illinois. For the trip the bride chose a tan dress with matching accessories and a purple orchid corsage.

The bride is a graduate of Tippecanoe High School with the class of '45 and has been employed as tele-

phone operator at the I. B. M. Corporation in South Bend. The bridegroom graduated in '43 in South Bend and the honeymoon they will reside in served 3½ years in the army. After Indianapolis where he will attend John Herron Art Institute.

MRS. LONG HOSTESS TO COUNTRY NEIGHBORS

The Country Neighbors Home Economics Club met at the home of Mrs. Wilvin Long Thursday afternoon. For devotions Mrs. Henry Konneck read the 23rd Psalm. The songs, "Juanita" and "Comin' Through the Rye" were sung. Roll call was answered by My Favorite Radio Program.

A business meeting was held. Mystery gifts were received. Mrs. George Craig conducted the auction.

Mrs. Roy Maxwell and Mrs. Russell Walters entertained with clever contests. The guests were Mrs. Keith Barts, Sue Utter and Joan Long.

Long and her assistant, Mrs. Wayne Refreshments were served by Mrs. Shunk.

Mrs. Carl Zolman will be hostess at the next meeting.

FAWLEY-ADKEN

The marriage of Howard Fawley, 20, graduate of the Mentone school and son of Mr. and Mrs. Milo Fawley of south of Mentone, and Miss Peggy Adken, 18, of Etna Green, occurred Sunday at Etna Green.
