

Co-Op. News

The Northern Indiana

Published the 1st and 3rd Wednesdays of Each Month by the Northern Indiana Co-Operative Assn.

Volume 1, No. 23.

Northern Indiana Co-Op. News, January 3, 1934.

STOCKHOLDERS Be On Time

The annu eeting of the Northern i. n.: Co-Operative Association, notice of which appears in left column of this page, will begin promptly at 1:30 o'clock. Dividend checks will be distributed at this meeting and stockholders who have certificates (yellow slips) showing their part of the undistributed net profits should bring those certificates to the meeting.

The plant will close at one o'clock on the day of the meeting to enable the men there who are stockholders to attend the meeting and will reopen immediately following the session.

At this meeting two directors are to be elected one or more amendments considered and some important subjects presented for discussion. Also there is much business to be completed.

Several stockholders from a distance will want to start for home early therefore we must open the meeting on time and that means 1:30 o'clock. Kindly arrange to be in the hall by that time so that full representative group may make all decisions.

ORA F. PEESON President Of the Norther Indiana Co-Operative Association.

Strongest Wood Known

The yate, one of Australia's numerous hard woods, seems to be the strongest known timber, with an average tensile strength of 24,000 pounds to the square inch and a maximum as high as 35,000—about equal to cast and swrought iron.

Promotion of James VI

James VI of Scotland, who became James I of England, was proclaimed king of Great Britain, France and Iretiand in 1004 A. D.

Rome Bars Archeologists

Few towns of republican Rome have been excavated by archeologists, be cause most of these towns stood on favorable sites used by successive inmabitants down to today.

Farmers' Institute

The Harrison-Franklin Township Farmer's Institute will be held at Mentone January 25th and 26th. The program will include instruction by state speakers and local entertainment. There will be an exhibit of farm produce, baked goods and needlework. Premiums will be offer ed on hand made towels, wash cloths, underslips, underwear, pieced quilts and applique quilts. An egg show, sponsored by the Northern Indiana Cooperative Association, will be held in connection with the institute. A full premium list will be published in the next issue of the Co-op. News.

DIVORCE IS GRANTED TO LAKESIDE PARK COUPLE

In the divorce action of Nick Carter against Blanche Carter, Judge Donald Vanderveer, in Kosciusko circuit court, today granted a divorce to the plantiff. The couple resides in Lakeside park.

The plaintiff who was granted the divorce was represented by Attorney William Gray Loehr, of Warsaw, and defendant had attorneys Frank C. Wade of Terre Haute and A. Leckrone to look after her case.

BIRTHS

A baby daughter was welcomed Sunday, Dec. 24 by Mr. and Mrs. Royce Tucker of Etna Green at the McDonald hospital. The new arrival was named Mary Jane.

SLOWLY IMPROVING

Mr. and Mrs. John McGowen who were injured about two weeks ago in an automobile accident on Road 30 are slowly improving at the Emergency hospital.

Flowers and Colors

A single flower never contains all three of the primary colors, it is said. Thus a blue and yellow flower shows no red, a red and yellow flower, no blue.

Desert Animals' Habits

Many desert animals aestivate, or sleep throughout the summer, just as a large number of animals in cold elimates hibernate during the winter.

AGED RESIDENT PASSES AWAY

William Morgan, 75, died Thursday Dec. 28 at his home in Mentone, following a two weeks illness of gallbladder trouble. Mr. Morgan was born in Kosciusko county August 23, 1858, the son of John and Katherine Morgan. For the past 28 years he has made his home in Mentone, and followed the carpenter's trade. His wife, formerly Martha Emmons, to whom he was married 53 years ago preceded him in death a few years ago. The deceased was a member of the Methodist church.

Surviving relatives are one daughter, Mrs. Ora Smith of near Mentone, seven granchildren, two great grandchildren; three sisters, Mrs. William Styles, Warsaw, Mrs. Sarah Cox, Clay pool; Mrs. L. L. Mollenhour, Mentone six brothers, Harry, Alexandria, Ind., George, Oklahoma, Umper, Valpariso, Charles, Warsaw, Tilden, Peru and Hiram, Rochester.

Funeral services were held from the home in Mentone, Saturday after noon at 2 o'clock with Rev. DeWitt of Mentone in charge. Burial was made at the Mentone cemetery.

SNYDERS ENTERTAIN

Mr. and Mrs. Simon Snyder entertained the following guests for Xmas dinner, Mr. and Mrs. Elce Snyder and daughter, Mr. and Mrs. George Snyder all of Argos, Mr. and Mrs. Glen Snyder and daughters of Warsaw and Mr. and Mrs. Travers Chandlers of Fort Wayne.

The occasion was also to celebrate the birthdays of Mrs. Simon Snyder and Mr. George Snyder which are at Christmas time.

NOTICE

We take this opportunity to thank our friends for the business you have given us in the past and during this Xmas season. We want you to come back again. You will be treated right at all times whether you want to buy or not.

Your very truly, L. P. JeFFERIES By I. F. Snyder

The mill buys wheat, oats, corn. Poultry medicine at the Co-Op.mill

Operative Association

You are hereby notified that the regular annual meeting of the stockholders and members of the Northern Indiana Co-Operative Association will be held at one thirty o'clock p. m. on the 15th day of January, 1934, in the Harrison Township High School Building in the Town of Mentone, Kosciusko County, State of Indiana, at which meeting will be received the reports of officers of the business of the association for the year of 1933 and for the purpose of electing such directors as provided for in the by-laws to take the place of the directors whose terms expire and also for the purpose of considering an amendment to the Articles of Incorporation of the association pursuant to a meeting of the board of directors of the Northern Indiana Co-Operative Association which was held on the 6th day of November, 1933, at the office of the Northern Indiana Co-Operative Association at Mentone, Indiana, seven thirty o'clock p. m. at at which meeting a resolution was adopted providing that Article six of the Articles of Incorporation of the Northern Indiana Co-Operative Association be amended to read:

Article 6. The Capital Stock of this corporation shall consist of two thousand (2000) shares of Common Stock of the par value of Twenty-five Dollars (\$25.00) per share. And for the transaction of such other business as may come before the annual meeting of stockholders and members.

It is necessary that a majority of the stockholders and members be present to pass upon the purposed amendment.

It is therefore urged that all stockholders and members attend this meeting.

FORREST L. KESLER, Secretary of the NORTHERN INDIANA CO-OPERATIVE ASSOCIATION

MENTONE NEWS

Mrs. C. W. Shafer spent Tuesday in Warsaw on business.

Harve Poulson, Mentone barber, cigars, tobacco and candy.

Mrs. Wiltrout is visiting at the home of Rev. and Mrs. V. E. Squibb.

Claude Barkman, Mentone, general auto repairing and batteries.

Mr. and Mrs. Oliver Teel moved into the George Smith property last week.

Miss Phyillis Russel of Warsaw spent Thursday night with Mr. and Mrs. I. F. Snyder.

All kinds of auto and tractor repairing. Far and near. Bud Barkt man. Mentone.

Mr. Leroy spent a few days last week in Montana in the interests of Purdue University.

FOR SALE:---1300 Egg Belle City Incubator. New last year. E. E. Cook, Phone 2-106 Akron, Indiana.

Mr. and Mrs. Chester Herendeen and Mrs. Cora VanGilder spent Christmas Day at the Cattel home.

Retha and Keith Dumph of Nappanee, nieces of Mr. Lemler have been visiting at the Lemler home the past week.

Mr. and Mrs. Fred Rush and daughters Jessie and Fern called at the home of Mr. and Mrs. Levi Eaton Christmas night.

Mr. and Mrs. J. E. Rush of Detroit, Michigan spent a short Christmas vacation visiting friends and relatives in this vicinity.

Let us solve your Radio Problems. Standard Parts on hand at all times. Service our motto. The Radio Shop. M. W. Thorne, Mentone, Rynearson building.

Mr. and Mrs. Clyde Taylor of Bourbon and Mrs. Gail Vancuren and daughter Jane of Burket spent Christmas Day with Mr. and Mrs. F. R. Burns.

Farms 2 to 240 acres, homes 4 to 15 rooms, sell or trade. For bargains see Attorney William Gray Loehr, Notary, Warsaw, Indiana. List your property now.

Custom Hatching—Save Money on Baby Chicks. We will Hatch your eggs at 2c per egg if set before March - 10 years experience in incubator. Forrst Kesler. tf.

Mr. I. F. Snyder of the Jefferies Furniture Store will spend several days of the next two weeks at Chicago and Grand Rapids attending the furniture market.

CLASS PARTY

Miss Eileen Mollenhour delightfully entertained the 1930 graduating class of Mentone High School at her home Thursday evening with a very good attendance. The early part of the evening as usual was spent in entering contests.

As we have had two marriages from the class since our last meeting, the president of the class presented each couple with lovely piece of ovenware as a token of remembrance from the class. The class extends the best of wishes and congratulations to Mr. and Mrs. Thomas Witham of Atwood and Mr. and Mrs. Clayton Holloway of Mentone. Dainty refreshments were served by the hostess. Those present were Mr. and Mrs. Thomas Witham, Mr. and Mrs. Clayton Holloway, Mabel Sarber Beulah Kelly, Frances Rush, Naomi Clark, Bernice Bowen, Eileen Mollenhour, Owen Horn, John Mathews, Walter Fenstermaker, Dale Plew, Le-Roy Norris and Walter Barkman.

Temperature of Stars

By measuring the temperature of the stars, the average temperature of 15 is put at 17,600 degrees.

Oak Vats Used 100 Years Dismantling of oak vats which survived 100 years of service in a London brewery has given impetus to the use of wood vessels for use in chemical industry, the textile and leather trades, the film industry and manufacture of fresh juices.

Piece of Chinese Wall in U. S. Part of the famous wall of China is the greatest attraction for tourists in Central park, at Clintonville, Wiss. It is said to be the only piece of the wall in the world outside China, and consists of about three tons of assorted bricks and stones.

U. S. A. Generals

Gens. Ulysses S. Grant. William T. Sherman and Philip H. Sheridan—all Ohio men—were the only men who held the rank of general in the United States army from the time of Washington in the Revolutionary to Pershing in the World war.

India Produces Coffee

While India is chiefly famous for tea, it has 8,000 coffee plantations, with an annual crop of about 34,000.-000 pounds. Practically no Indian coffee comes to the United States, England, France, Germany and Norway being the principal markets.

Habits of Cochineal Insect When the female cochineal insect comes out of the egg it is minute but very active. It has six legs which it uses freely, running over the surface of the cactus until it finds a suitable spot, where it settles down, inserts the sucker with which it draws out the fulces, and for the rest of its life remains fixed firmly to the plant.

WITH THE WITS

Works Overtime "What kind of brain has she got?" • "About a thousand scandal-power."

Wants Triple FFF

"A plano? Kes, sir. A grand plano?" "Grand nothing. Show me a magnificent plano."

Page Mr. Johnson Palooka—Have you heard the last flivver joke?

Goofy-I hope so.

Higher Education

Teacher-"What was the Sherman act?" Smart Pupil-"Marching through Georgia."

Is but Isn't

Caller—Is the lady of the house in? Kate (bitterly)—Ay, she's in, but she's nae leddy.

Ouch!

Wife—I took great pains with that cucumber salad I made you. Hubby—So did I.

Knows Her Creams

"That girl is certainly the picture of health."

• "Yes, she's mighty well painted."

And Not Often

Tommy—Pa, does money talk to you? Pa—Yes, son, but only broken English.

Just One Suggestion

"Was the dinner cooked to please you?"

"Yeh, but you might try to boll down the check."—Kansas City Star.

Doing Well

"How does your wife like your new suburb?"

"Aw right. She can hold her own at bridge."--Louisville-Journal.

Evidence

•Teacher—Samily, what is it you look at after you wash your face to see if it is clean?

Sammy-The towel!

Poplar Most Abundant

• Hardwood in Canada Poplar is the most abundant hardwood in Canada, and its utilization is of economic importance to Canada. Poplar lumber is white in color, light in weight, and, being practically tasteless and odorless, is used to a considerable extent for food containers. Flour barrels and apple barrels are raide from poplar staves, and butter boxes also have been made to some

extent of poplar. In Canada, excelsion is made almost exclusively from poplar. The softness of the wood, the white color, and its lack of distinctive odor, make it suitable for this purpose. Matches of the "kitchen" type are made from this wood. Poplar is also used in the munulature of soda pulp, from which

book, blotting, and other soft, opaque papers are made. This pulp does not require a long-fibered wood like spruce. Popiar is generally known as a perishable wood, difficult to dry; this is, in a sense, true. In the green condition popiar may easily become infected with fungi, with consequent rotting of the wood; this is particularly true of the sapwood. The exercising of certain precautions in the interval between the felling of the tree and the conversion of the log into lumber will prevent infection.

"Craziest Road" Improved

Once known to international motorists as the "craziest highway in the world," the 365-mile stretch between Shanghai and Nanking, China, has been converted into an excellent motor route. On the first run over the new highway, two American automobiles established a new record for the stretch, being the first motor vehicles to travel from Shanghai to Nanking entirely under their own power. Even though the highway was opened formally, soon afterward, it still was under construction at many points when the two cars made their run. Consequently, the cars traveled the narrow streets of Chinese villages where an automobile never before had been seen .--- Popular Mechanics Magazine.

Scotland Gets Old Reliquary

The famous 1,200-year-old Monymusk reliquary is to become a national possession of Scotland, and will be displayed in the National Museum of Antiquities in Edinburgh. It was purchased by the National art-collections fund for \$12,500. Among the contributors was Prime Minister MacDonaid, In ancient times the custodian of the reliquary carried it with the sacred relics of St. Columba before the Scottish armies when they went into battle. It was carried thus on the field of Bannockburn in 1314.

Sure Thing

Father—Jane, is that young Simkins a man of close application to business, do you think? Daughter—Is he? Why, papa, he'd

Uncomplaining

"And you never find fault around the house?"

"What's the use?" rejoined Mr. Meekton. "Henrietta is home hardly enough to notice it if I did."

Correct "Who was the last man to box John L. Sullivan?"

"The undertaker."

Feeding Habits of Bears

The feeding habits of black and grizzly bear differ notably in one respect. The grizzly often stores fish or bides a carcass for future use, a thing that the black hear never does.

Rugs and Wealth

Among the Kazaks of Persia the man's wealth is judged by the number of rugs in his possession.

HIT OR MISS

Mediocrity when exploited is paid millions

Is the world cruel? Not very. Only indifferent.

Love of money "is the root of all prosperity."

Men who make a success, when called on to explain why, generally don't know exactly.

Try to make comfortable the environment you are in. The chances are, you can't escape.

The difficulty is not to get a man to tell what he knows, but to keep him from telling it too often.

If you can't get along with people, it is their selfishness or vanity that is the cause or yours.

Every new invention seems to add one more noise; when what the same world craves is more silence.

Joys of city life are often catalogued; but the chief one is left out -that you are let alone; sometimes, too much so.

One who looks on the brinht side when you want to grieve and grouch is a nuisance; and had better take himself off.

In Europe, you only have to go 15 miles a day to see several towns and scores of odd sights. So what is the use of hitch-hiking?

The mill buys wheat, oats, corn. Poultry medicine at the Co-Op.mill.

Tablet Memorializes Cable A tablet commemorating the laying of the first submarine cable in North America has been unveiled at Charlottetown, P. E. I., according to a bulletin from the Canadian National railways. The cable was laid in Novem-ber 22, 1852, across the strait of Northumberland from Tormentine, N. B., to what is now Borden, P. E. I., says the writer. It consisted of a single strand of copper wire, encased in rubber with an armored covering, the whole thing being a half inch in diameter. The cable was laid by the Anglo-American Cable company, which has been succeeded in Canada by the Canadian National Telegraphs. The original cable has long been discontinued and more modern services substituted.

Irish Schools Are Criticised

Because teachers and pupils in rural schools of the Irish Free State must spend so much time in reviving the Irish language they have no time to take up scientific farming instruction. This, T. Derrig, Free State Minister for Education, told a group of educators meeting in Dublin. The old idea of learning reams of matter in flowery language, which young people rarely understood, and which bore no relation to the facts of life around them. is dying hard, he said. He added this was intended to train memories, but the best memories were found in schools where the poetry and plays were not learned.

Still a Fool

She-I married you to reform you. He-And when I married you I was a fool.

She-In which case I have been entirely unsuccessful in my object.

Strange Procedure

First Fraternity Man-Say, Jim, I wonder if I could borrow the blue necktie of yours? Second Loafer--What's the matter,

couldn't you find it?

The Busy L'fe His Wife-Don't you ever do anything but stand around and loaf? Mr. Neversweat-Oh. yes. Some times I sit down and eat and then I lie down and sleep.

Hoosier Yeastomineral

Incorporated in your poultry feeds, increases the size of your eggs, assists in the hatchibility and holds the egg production over a longer period of time. Dr. E. F. Clore, of Greenwood, Indiana, who uses this Yeastomineral in the feeds for flocks furnishing eggs to his hatchery, advises that the size of the egg and the hatchibility was far superior to the ordinary mill run of eggs produced in his section, where Yeastomineral was NOT used. Yeastomineral contains, Calcium Carbonate, Bone, Potassium Iod-

ide, Charcoal, Iron Oxide, Sulphur, Salt, Wood Ashes and Yeastonnineral. It is a perfectly balanced mineral for poultry feeds.

Northern Indiana Co-operative Ass'n, MENTONE, INDIANA.

Get Profitable Production FROM YOUR FLOCK

Murphy's Vig-O-Ray Egg Laying Mash contains everything your birds need to maintain health and weight and to produce lots of eggs. Vig-O-Ray Mash makes your hens lay because it supplies all the proteins, both animal and vegetable, together with minerals and vitamins that are so absolutely necessary for egg production.

Vig-O-Ray maintains healthy, vigorous flocks that lay day in and day out, month after month with no breakdowns in February or March as so often happens in high producing flocks.

No matter what feed you are using now-you will save money on your feed and make more money out of your poultry and eggs when you feed Murphy's Vig-ORay. It makes your hens pay you a good profit all the year around.

Murphy Products Co., BURLINGTON, WISCONSIN

Glacier Milk

Glacier milk, sometimes called glacier flour, is neither a drink nor a food; it is finely ground rock particles which give some glacial waters a milky appearance.

n's Musi-Beethove

Ludwig von Beethoven was a mas ter. His music reflects his very tragic life. It is not presumptuous to say that Beethoven's life was the most tragic of any of the masters.

Seal Catch Sets Record Establishing a record, the largest take of fur seals from the Pribilof islands herd for 44 years was reported, for the last season, says Popular Mecanics Magazine. The take totaled 54,550 skins, compared with 49,336 last year. When the United States bureau of fisheries took over supervision of the seal herd in 1910, it numbered only 135,000 animals. Since that time, the annual take has increased almost without interruption and at the same time the herd has increased to about 1,300,000 animals. More than 500,000 seals have been killed in the herd since 1910, but since only the surplus three-year-old males are taken, the herd has grown in size. According to the treaty under which the United States government assumed control of

the Pribilof herd, both Japan and Canada are entitled to 15 per cent of the skins taken.

The Rich and the Poor

The man who owns little, but can keep his wishes and needs within his means, is rich. The man who owns much, but feels that he would like to own more, is poor.

Term "By and Large" The term "by and large" is borrowed, according to Webster, from mutical use. A -vessel which sails well "by and large" sails well on the wind or off the wind. In general usage it means in every way, in all respects.

In addition to a "native problem" and racial animosities between Dutch and English people, South Africa has also the so-called "Asiatic problem." Cooked Pearls

Only pearl oysters and certain fresh water mollusks have sufficient irridescence and translucence to produce valuable pearls. Stories of persons finding pearls on common edible oysters which would have been valuable if not spolled by cooking are untrue, according to the United States bureau of fisheries. While it is a fact that cooking would deaden the luster and destroy the color of valuable pearls, the common edible oyster never produces pearls of commercial value.

Watch Your Step

The safe walker does not step out carelessly from behind parked cars or obstructions; does not try to weavehis way through traffic; crosses streets at right angles; uses care in getting on and off vehicles in moving traffic; looks left and then right when crossing a street; obeys traffic signals; does not stand in the street; teaches children not to play in the streets; walks against, instead of with, traffic on open highways, and uses particular precaution at night.

Moles Are Not Blind Moles are not blind, but the eyes of the common garden mole of the eastern United States apparently serve little purpose as organs of sight. They are very small, sunken and almost completely hidden by the fur and skin. Eyes of the western or Townsend mole have not degenerated as far as those of the eastern variety, as they often open wide when the animal is disturbed.

Wild Ass Is Speedy

Wild asses are marvels of speed and endurance according to a represent ative of the American Museum of Natural History, who has frequently hunted and photographed them in the Interior of Asia where they still roam in large herds. He tells of one fullgrown animal which he pursued for more than 20 miles in a motor car before it would acknowledge itself beaten, and which reached a top speed of 40 miles an hour during the chase. Its average speed for most of the distance was approximately 30 miles an hour.

Title of Esquire

The title of Esquire was not recognized until the reign of Richard II, and it was confined to the younger sons of peers and their eldest sons, the eldest sons of barons and knights, and a few others by virtue of the office they held. As a courtesy title it is accorded to barristers, bachelors of law, arts and divinity, consuls, and others.

Many Named Washington

There are 28 cities or towns, 32 counties and one state within the United States bearing the name Washington

Dad Knows Everything "Dad, what's a post-graduate?" "A fellow who emerges from a cor respondence school, I imagine."

WOOLEN STOCKINGS USED FOR HOARDING

The famous French "woolen stocking" has some modern equivalent, as a receptacle for hoarded coins appears to be in as effective popularity as ever, writes the Paris correspondent of the London Dally Telegraph. One of the chief reasons for official hesitation to reissue metal currency has been the fear that it would disappear as soon as it could be obtained.

In planning the new silver coins of 10 and 20 francs the precedution was taken to make them of very low intrinsic value. The silver in the 10franc piece is worth no more than a franc and a half, and that in the 20franc coin is only double that value.

Nevertheless, the hoarding of the coins has begun. Most people realize that such a proceeding is quite stupid, but the habit of laying aside a stock of ringing coins dies hard in France, especially in the country districts. It is feared that even the nickel pieces of five francs, when they are issued, will also find their way into the peasants' "stocking," although they are really worth only a quarter of a franc.

But the greatest problem of the kind is concerned with the issue of gold coins, and it is likely that a long time will elapse before these see the light again.

The Banque de France has a stock of £648,000,000 of gold available for colling. The owner of banknotos can insist on payment in gold, but, as the bank's stock of the metal consists of ingots worth £1,720 each, this is the smallest unit available. There is therefore practically no demand on the part of the general public.

FRENCH HORSEWOMEN NOW RIDE ASTRIDE

Women have gained another victory over tradition. They are to be allowed to ride astride in certain events at horse shows, the fashionable events of Paris and strongly hedred by tradition, writes the Paris correspondent of the London Dally Telegraph.

Hitherto it has been a strict rule that all women competitors should ride side-saddle, although a majority of them who cultivate the equestrian art in the Bois de Boulegne have ridden astride for years.

The governing committee of the horse shows has, however, maintained its conservative attitude by ruling that the break with tradition will only be tolerated in a limited number of events. The reason for the decision to permit such a change at all is that for the events in question there were not sufficient entries.

Riding astride was introduced into Paris by English women. The first French women who appeared in the Bois in riding breeches were jeered at and some of them even pelted with stones.

A little later Parisians were won over to the idea when they were forced to admire the skill with which certain English women managed their horses.

Princess Elizabeth Joins in Dance

When the king and queen visited the famous Highland games in Braemar, Scotland, for the first time in four years, Princess Elizabeth accompanied them. It was her first view of the games. As the carriage, drawn by two cream horses, arrived at the scarlet-draped pavilion, 25,000 Highlanders cheered the royal visitors. A minute later 200 tall, brawny men, the clansmen of the district, all in the most correct of clan dress, stepped into the The king and queen watched Pine. with great interest the highland reels, they saw heavyweights hurl each other to the ground in the Cumberland wrestling contests, and heard the bagpine competition. While the picturesque Highlanders danced the fling, Princess Elizabeth, unable to restrain her high spirits, jumped up into the royal pavilion and began to do the steps also.

Snails Put to Work

Hard upon the story of new duties of late years laid upon the pearl-making oysters of Japan, comes a report from Jamaica describing a delicate job hitherto accomplished by the tedious labor of human hands, but now trusted to the good offices of a multude of snails. The work assigned the snails, according to the Knoxville Journal, is that of keeping the trunks and limbs of trees in the citrous orchards free of the fungus moss, which injures them and retards their growth. The snails, it seems, are experts in the matter of dining often and well on this fungus moss, but not injuring the leaves of the trees they thus keep clean, to the relief of the human workers, whose task they now perform.

G-ld in Water Produces Heat

When exposed to water, gold gradnally produces heat. This fact has been determined by Prof. Frederick Parry and Elliott P. Barrett, of Columbia university. A piece of massive rold exposed to water vapor at room temperature gradually give off heat for seven hours. The investigators said heat would be generated in definitely by the gold, but in gradually decreasing amounts. By weighing they found that the gold absorbed water, but they do not believe this fact alone explains the phenomenon.—l'opular Mechanics Magazine.

The Family Quilt

When a family preserves records of its history, it is generally done in the family Bible or album, says the Boston Post. But a woman in Sussex, Wis, hit upon a strange family record. She made a quilt of transparent silk. Under the silk pleces she sewed old records, letters and family mementos. The records can be read through the silk and are well preserved.

A Man of Experience

Nexdore—Why are you lugging home that bouquet of flowers? Naybor—Just playing safe. My wife

kissed me this morning, so I think it must be her birthday or our wedding anniversary.

The mill buys wheat, oats, corn.

On Tuesday evening, December 19, the Home Economics Club met in the school house. Before the meeting was called to order many began painting their toys which they had made. As the roll call was given, each member gave an etiquette rule, A few of the etiquette rules given were: Never soak toast in cocoa. never blow food to cool it, in introductions mention the woman's name first in presenting a man, and when eating soup, dip opposite you and always use the side of your spoon. Letha Yantiss gave a report on introductions. A committee consisting of Mary Whetstone, Mary Rush and Thelma Beeson was appointed for the purpose of selecting a name and motto for our club. Donnabelle Mellott volunteered to report at the next meeting, on the origin of Home Economics. We are planning to have candy sales in the near future. We also agreed to invite other girls, other than those who belong to the Home Economics Classes, to join our club. Later in the evening we were surprised when Mary Rush told us to sit down by the tables, as refreshsments were to be served. Sandwiches and hot cocoa were served. Alchough rainy weather had prevented many from coming, we had a wonderful time.

Home Economics News

PSI IOTA XI

Miss Kathryn Nelsón and Mrs. Robert Reed delightfully entertained the members of the Psi Iota Xi Sorority at a party which was held at the latters home on Friday Night, December 29. Pledge service was held for Misses Eileen Mollenhour, Mabel Sarber and Mesdames Kenneth Riner and Arthur Brown.

Mrs. Walter Lackey was a guest of the sorority and gave a very beautiful and impressive reading—"The Other Wise Man" by Henry Van Dyke. She was accompanied at the piano by Miss Frances Clark.

The remainder of the evening was spent in playing bridge. Prizes were awarded to Mrs. Emory Huffer and Miss Eileen Mollenhour. Dainty refreshments in keeping with the holiday season were served.

Those present were: Misses Thais Greulach, Bernice Bowen, Frances Clark, Eunice Reed, Kathleen Anderson, Mildred Anderson, Annabel,

Rosalind and Margaret Mentzer, Eileen Mollenhour and Mabel Sarber. and Mesdames Kenneth Riner, Waler Lackey, Arthur Brown, Curtis Riner, Emory Huffer, Devon Eaton and George Myers.

Caesar's Victory in Egypt

Caesar conquered Egypt from Queen Cleopatra and made it a Roman province in 30 B. C.

Raleigh's Burial

In the chancel of St. Margaret's, Westminstor, near by the altar, lies the headless body of Sir Walter Raleigh. His execution on October 29, 1618, took place close at hand in Old Palace Yard. After the head had been shown at the four concres of the sceffold, it was placed in a leather bag, over which Sir Walter's gown was thrown, and was borne away by years of her wildowhood Lady Raleigh preserved this sad memento mori in her keeping.

Concrete Traced to 1600 B. C.

Concrete, which has come into such tremendous use in this country, dates its origin far back into antiquity. Buildings constructed as long ago as 1600 B. C. are still standing. The Babylonians, Greeks, Egyptians and Romans used the material extensively.

More Trees Needed

About two-thirds of the states have to buy the major part of their lumber supply from outside their own borders. Portuguese Racial Elements The Portuguese people exhibit many s racial elements. The earliest known

racial elements. The earliest known ancestors are the Iberians. The peasants of Portugal are related to the Asturian Spaniards. Jewish and Arable blood is found in the central districts and African in the south.

Squirrels Controlled

Naturalists say that when any specles of squirrels becomes too abundant the situation is controlled naturaliy in one of several ways. For example, the natural encules of that specles may migrate into the area because of the abundance of the food supply. If that does not occur, disease, which is always present, may become epidemic. The food required by the specles may become depleted, which condition may weaken or kill enough specimens to restore a balance.

Snakes Praised as Rat Catchers

One fox or pine snake is worth a dozen traps for capturing mice and rats, according to the president of the University of Michigan, for this snake seeks these undesirable rodents in their nests and eats the entire brood at once.

Chinese Value Jade

For 4,000 years the Chinese have regarded jade as an infallible charm and 'ar more precious than gold, silver or diamonds. They hold pieces of it in their hands for good luck when disuasing important matters.

Stockholders Meeting

The third annual meeting of the stockholders of the Northern Indiana Co-Operative Association was held January 15 in the cafeteria room of the Mentone School building. The meeting was called to order by the president Ora Beeson promptly at 1:30 p. m. with 136 of the 169 stockholders answering roll call. Immediately following was the treasurers report. The sales 1931 were \$59697.72, for 1932 \$80090.18 and for 1933 were \$112765.54.

A report was given by Hobart Creighton on the proposed amendment to the by laws. A vote through roll call was taken and the amendant was passed.

Several points were brought to the flour and settled to the satisfaction of all present.

Dr. E. D. Anderson and Raymond Lash were the two directors elected for the three ensuing years.

After the election, distribution of the dividends was made by the treasurer.

In the evening the Directors elected the following officers for the year: Hobart Creighton, President; Raymond Lash, Vice President: Forest Kesler, Secretary; Dr. Emery Anderson, Treasurer.

Psi lota Xi Milk Project

• The children selected from the first six grades of Mentone Public Schools have been receiving a pint of milk a day for eight weeks. Eighteen children were put on the list at the beginning of the project. Milk s been discontinued for six of mese children because they have ome up to normal weight. Great interest has been shown in the Home economics classes and among the the children themselves in the increase in weight. All of the children are greatly interested in gaining and each girl is quite eager for "her"

child to gain. The sorority has appreciated the Interest manifested in the community in its project. It is expensive to carry on, but we have felt that it is was so worth-while it could hardly be stopped. The Sodales Club is month of January. We greatly ap- tone,

shown. The milk is given at 1:45 every school day. Any visitors who would like to see the children are welcome to come to the school-house and ob serve them. The milk is given by two Home Economics girls in the Food laboratory.

LaCosse-Busenburg

A deightful wedding dinner was served Sunday evening of January 14, 1934, in honor of Mr. and Mrs. Kenneth LaCosse. Mrs. LaCosse was formerly Miss Beulah Busenburg, the oldest daughter of Mr. and Mrs. Fred Busenburg of Mentone, Indiana.

Mrs. LaCosse was a graduate of Talma High School in 1930. Soon following her graduation she moved to South Bend, Indiana where she attended South Bend College of Commerce. After completing her college education she worked in town and re mained there marrying Mr. LaCosse on September 16, 1933 at St. Paul's Memorial Church by Kev. Selle.

Mr. and Mrs. LaCosse will continue to live in South Bend where he is a manager of Western Union Telegraph Company at Notre Dame, Indiana.

It is needless to say the dinner party was both a pleasant surprise and a grand success and was enjoyed by: Mr. and Mrs. Kenneth LaCosse; Mrs. Amanda Busenburg, Mrs. Marie Busenburg, Mr. and Mrs. Oliver Severns, Mr. and Mrs. R. J. Severns and family, Mr. and Mrs. Edward Severns and daughter, Mr. and Mrs. Maynard Shuman, The Misse Bernice Kesler, Virginia Dodd Florence Clemens, Messrs. Norman Weise, Adrain Doran, Raymond Fensiermaker and sisters, Julia Anne and Rosella Busenburg.

BIRTHS

Mr. and Mis. N. R. Teeter of Keokuk, lowa are the proud parents of a seven pound son, born Dec. 24. Mrs. Teeter was formerly Miss Attella Kesler of Mentone.

Mr. and Mrs. Gerald Fretz of Fort Wayne are the proud parents of a son. The new arrival was named Lyle Garland. Mrs. Fretz was financing the project during the formerly Miss Amelia Johns of Men-

CLASS PARTY The young peoples class of the Palestine Christian Church was delightfully entertained by the Rush sisters at their home Wednesday evening. After the business meeting evenings entertainmens was started with a shopping tour which proved very interesting only some needed more arms than they had. Jokes and games succeeded each other throughout the evening and resulted in son having black faces and some having red faces. Light refreshments were served by the hostesses. The next meeting is to be held at the home of Miss Naomi Clark in February. Those present were: Scott Horn, Harold Smythe, Margurite Huffer, Elden Horn, Geneva Horn, Mr. and Mrs. Carl Mahoney and family, Gail Morrison, George Houck, Miles Morri son, Owen Horn, Richard Morrison. Naomi Clark, Walter Barkman, Dale Plew, Frances Rush, Jessie Rush and Fern Rush.

Girl Scout News

Court of awards! Its looming nearer and nearer. It is a great event in the tife of a Girl Scout! Keep the date of February 10 open if you are interested in the antics of Scouts for it is a meeting open to all. On this occasion we will be awarded our second class and merit badges for which we have worked hard and really earned. The notebooks and other material which we have made in order to get our badges will be on exhibit at the school house. Also Miss Mertle Foxford, the Fort Wayne directors of Girl Scouts will be a guest of honor.

Now about uniforms! We have received our material and they are all cut out and some are made. We will wear our uniforms at the Court of Awards. Won't we feel big!

Thursday January 25, the Girl Scouts will appear in a body at the Farmers Institut.e We will appear in uniform and will give a little program.

Willodean Janke received her Tenderfoot Pin Thursday January 11 and was made a member of the Girl Scouts.

The mill buys wheat, oats, corn.

SURPRISE PARTY

The friends and neighbors had a birthday surprise on Mrs. Alva Crevi ston Thursday evening January 11. A pot luck supper was served in cafeteria style. The evening was spent in music, songs, recitations, story telling and playing games. All enjoyed themselves and left at a late hour. Those present were Mr. and Mrs. Eiler and family, Mr. and Mis. Howard and family, Mr. and Mrs. Loher and family, Mr. and Mrs. Shuman and family, Miss Margurite Huffer, Mr. and Mrs. Nottingham and family, Mr. and Mrs. George McIntyre and family, Mr. and Mrs. Harve McIntyre and Charles Eaton.

Pointers on the Sales Tax

All out of state sales receipts are exempt from state income tax, and stock and surplus certificates in Northern Indiana Co-Operative Association are exempt from property and intangible taxes.

GONE FOR A FEW DAYS

Dr. E. Anderson desires to announce that he will be away from his office attending the state Veternary Meeting at Indianapolis, Jan. 16, 17 and 18.

Typography

Typography, producing as it does the books, newspapers, and magazine accounts for the bulk of comm printing, and likewise it has been found to be the cheap and practical method of getting out the greater part of the world's stamps. Processes differ with the various stamp printers as a result of their experience, but on the whole typographed stamps are uniform and generally carefully executed.

Germany's Only Gold Mine

The little town of Reichenstein, on the Silesian-Czech frontier, which has only 2.500 inhabitants, is renowned for sion of Germany's only goid It : DOS mine. 'The mine's yield of the pre-Riech metal is 18 pounds a month. enstein gold used to be famous. In the Sixteenth century the amount worked from the Reichenstein mines was over 20,000 ducats. The great Fugger family owned 145 shafts in the steenth century and many royal rings were made from the gold.

Maya Civilization The Maya civilization in Mexico and Central America began in 500 B. C.

Scilly Isles' Climate Mild

Flowers bloom throughout the year on the Scilly Isles, which lie off the extreme southwest coast of England.

Speed of Gales A fresh gule may have a speed of 47 to 54 miles an hour, while a whole gale has a speed of 55 to 63 miles an hour,

Barter Old Practice

During the early years of the last century a scarcity of money in Ohlo led people to do business by barter; merchants accepted pelts, beeswax and the like in exchange for goods, Northern Indiana Co-Op. News, January 17, 1934.

Cosmetologists Attend

Meeting at South Bend

Several members of the county association of the Cosmetologists and Hairdressers society attended the state convention which was held Monday and Tuesday, January 8 and 9 at the Oliver hotel in South Bend.

A featured demonstration of the meeting was the "Radio Halo" permanent wave machine. In this process after the hair has been prepared to receive the wave the heat is conveyed to the hair in the same manner as sound waves are carried. In this manner there is no contact between the machine and the hair. One other point in the same line was the interesting demonstration of the Thermique Heatless Permanent Wave machine. In this process the heat is conveyed through tiny wires connected to the curlers.

Memlers of the local group were: Mrs. Golda Babcock of Mentone, Mrs. Glendora Davis, Mrs. Fay Stewart, Mrs. Beryl Young, Miss Jeanette Baily, Mr. and Mrs. A. W. Tripp and Dale Tripp of Warsaw and Beulah Cook of Akron.

TO TEACH CHILDREN HOW TO USE PHONE

On the principle that the schoolboy of today is the business man of tomorrow the British post office and the board of education are co-operating on a project for the instruction of school children in the use of the telephone.

Most persons believe that children as soon as they can toddle learn how to unhook the receiver and lisp a few words into it. A questionnaire recently sent out to firms whose business, in large measure, depends on the capable use of the telephone, convinced the post office by the answers received that the mysteries of the instrument had not yet been mastered, even by those who daily use it. So the post office got in contact with the board of education and found the latter responsive.

A large number of telephone systems is being manufactured by the post office which will lend them to schools throughout England.

The telephones, which are of standard design, are housed in compact portable cabinets, in which the working of the apparatus is clearly shown. All the components of the instruments are labeled, and instruction cards and circuit diagrams are attached to the cabinets.

Thus when the pupil lifts the receiver he sees the contact being made, while the dialing of a figure illuminates a mirror showing the operation of the selectors.

Gramophone records demonstrating the various "buzx" signals, such as "number engaged" or "number unobtainable," and giving explanatory talks will also be supplied by the post office,

HOME OF BANNER MASH

There are over a thousand farmers in this and from surrounding communities for the past year to patronize this Mill. All of them are satisfied in knowing they get full value for money spent with this Association.

Today more than any time in our history the farmer must be most economical in purchasing Feed's, Coal and Building Material.

Come in today and let us help you with your Feeding, Heating and Building problems.

For your convencience we list a number of items carried in our warehouse others too numerous to mention.

Mentone Officers Are Installed

The annual installation of officers of the Order of the Eastern Star was held Tuesday evening, Jan. 2, at the Mentone Masonic hall. The following officers were installed by past worthy matron, Myrtle Sarber, and assisted by marshal Dessie Lloyd:

Worthy matron, Wanda Davison; wor thy patron, Taylor Lloyd; associate matron, Fro Tucker; associate patron, L. D. Jefferies; secretary, Cora Van-Gilder; treasurer, Lide Williamson; conductress, Rosalind Mentzer; associate conductress, Ethel Nellans; mar-

 Shal, Dessie Lloyd; chaplin, Faye Bunner; pianist, Vera Black; Adah, Eva Ehernman; Ruth, Ruth Goshert; Esther, Annabel Mentzer; Martha, Lois Fenstermaker; Electa, Lide Sanders;
 warder, Ruth Champer, and sentinel, Ellen Standford.

After the chapter closed members and visitors were escorted to the dining room, where an oyster supper was served. Guests from Warsaw and Plymouth attended the meeting.

First Balloon Trip in U. S. The first balloon voyage in the United States was made by Blanchard of France in George Washington's prestence in Philadelphia, January 9, 1793.

MENTONE TEACHER IS ON ALUMNI GROUP

Northern Indiana Co-Op. News, January 17, 1934.

Miss Eunice Reed, Mentone, teacher in the Angola schools, has been honored by Defiance College, Defiance, O., of which she is alumnus, by appointment to the "Defiance 400." This is a group of four hundred prominent Defiance alumni and friends designated to serve as advisers of the college administrative committee and officially represents the college in their home communi ties.

Miss Reed is a member of the local Psi Iota Xi sorority.

Escape Expert Explains

Easy Exits From Jail Clement Bredelle, a specialist in the art of escaping from prison, delivered in a Paris court a little lecture on his methods. The judge, writes the Paris correspondent of the London Daily Telegraph, mentioned that Bredelle had made a number of very clever escapes and suggested that he must possess a secret. Bredelle replied that there was no

Bredelie replied that there was no secret at all. Whenever he found himself in jail he made a point of establishing a reputation as a model prisoner and winning the maximum of good conduct marks. Experience had taught him that he was soon less closely watched than the other prisoners.

At one jail, for instance, he was employed as a carter and often went out by himself. One day he simply abandoned his cart and walked away. His latest escape was from Poissy prison. He had behaved so well that he gained the complete confidence of the governor, who made him his valet. One day he tried on a suit of the governor's clothes and found that they fitted him well. Borrowing also the governor's overcoat and hat and taking from a drawer £10 and the keys of the jail he walked out by the governor's private door. Warders saluted him as he passed.

He was sentenced to three years' imprisonment for theft. Later he will face another trial for prison breaking.

Fear Guards Gold Mob Seeks

While a man of ninety-three looks on helplessly, villagers of Mazaretche-vo, Bulgaria, feverishly search for a hidden treasure. Neglecting their homes and fields, they have dug pits and trenches in the vicinity of where the aged man believes the gold to be. Some will be ruined if they do not find it, but the nonagenarian believes that a "spell" guards the gold, and he fears to reveal the exact spot where the treasure lies. The rush was started when he told how, when watching his father's flock 84 years ago, he found a jar filled with gold coins. He carried it home, and fell ill that night. Believing that a magic spell guarded the treasure, his parents took it back to the place where it had been found and buried it deep. Fear kept the son from telling the story until recently.

Get Profitable Production FROM YOUR FLOCK

Murphy's Vig-O-Ray Egg Laying Mash contains everything your birds need to maintain health and weight and to produce lots of eggs. Vig-O-Ray Mash makes your hens lay because it supplies all the proteins, both animal and vegetable, together with minerals and vitamins that are so absolutely necessary for egg production.

Vig-O-Ray maintains healthy, vigorous flocks that lay day in and day out, month after month with no breakdowns in February or March as so often happens in high producing flocks.

No matter what feed you are using now—you will save money on your feed and make more money out of your poultry and eggs when you feed Murphy's Vig-ORay. It makes your hens pay you a good profit all the year around.

JUNIOR CLASS NEWS

The Juniors decided to have a class party. The plans were made, the date set and everything was fine until they began changing the date. Now the date has been changed a number of times and we still don't know where we are.

A girl was asked if anything funny ever happened in Home Economics. "No" was the answer. "Doesn't anyone ever put the wrong ingredients into the food?" We don't cook," was the reply. "Well, doesn't anyone ever sew the wrong seam?" "We don't sew." It finally turned out that that they were studying how to make home work easier. We would all join if they could show us how to do away with home work.

An effective way to kill potato bugs is to get two blocks of wood. Lay the bug on one block and hit it with the other block.

We may try a new experiment. It has been said that we should wrap apples and sweet potatoes in cellophane so that they would keep better.

Mervel Smith told us that Lincoln was once asked how long a man legs should be. Lincoln answered, "Well, I reckon they should be long enough to reach from his body to the ground.

Organize Farm Debt Adjustment Committee

The County Farm Debt Adjustment Committee recently appointed by Governor McNutt for Kosciusko County, held an organization meeting at the courthouse, Warsaw, Wedneeday, January 10.

The following officers were elected: Chairman, Jacob Kern; Vice Chairman, Roy Caldwell; Secretary, Sherman Deaton and Thomas Fitzgerald, of Mentone, and Ferd Walters, of Silver Lake, complete the personnel of the committee. The function of such committee in the Governor's letter of appointment, part of which is as follows:

"It is our thought that such committee will serve as a material assistance to both debtor and creditor in an effort to arrive at a friendly, sensible and fair solution of the debt problems, and that such efforts will tend to conciliate many problems; of the type which have heretofore resulted in unnecessary foreclosurers. It is likewise hoped and expected that these voluntary committees will serve in the future as a basis of desloping harmony between controverting interests in various localities of the State."

The local committee, in order to avoid any misunderstanding as to its duties, wishes to make public the following statement concerning its work

(a) Any debtor or creditor seeking a readjustment in the debt relationship, one with the other, may ask this committee to investigate and make recommendations to either or both parties for the purpose of effecting a satisfactory solution of any existing difficulties.

(b) Application blanks will be furnished to either the debtor or cred itor seeking adjustment. These blanks supplied by members of the committee may be used to request the aid of the committee.

(c) This committee has nothing to do with the actual refinancing of farm loans under the Federal Farm Relief legislative program. Such relief should be sought through the Federal Land Bank of Louisville, of which Mr. John Boon, of Warsaw is the local representative.

In commenting on the proposed work of the committee, Mr. McNutt stated that obviously if the local committee is to accomplish its purpose, debtors and creditors who desire to submit their problems to the committee should recognze that conciliation is the keynote and that the recommendation of the committee is for the guidance of both parties in their efforts to reach a friendly and mutually satisfactory settlement of their problems.

The next regular meeting of this committee will be on Wednesday af-

ternoon, January 17, at 1:00 o'clock, in the office of the Emergency Agricultural Assistant at the courthouse. Thereafter the regular meetings will be held on the third Wednesday of each month.

SAGE SAYINGS

New ideas are often found in old books.

Illness comes in haste and goes at leisure.

A wild oats crop is the least worth harvesting.

Trying to understand the university a career.

Currency instability and mental instability are close allied.

Good government is the product of a well informed citizenship.

Power is not shown by hitting hard or often, but by hitting straight.

An ox is caught by his horns, but a man is caught by his own tongue.

It's easy to talk philosophically if the other fellow is paying the bill.

Every slap the world gives a heady young man teaches him a lesson.

A great deal of life is duty, but few believe that—and then get into a jam.

Some people are afraid to use good manners for fear of spoiling them.

Probably most people think that you are as foolish as you think they are.

If one has good sense, he will be glad some nights that there is no place to go.

What to do when you have accumulated a whole barrel of picture postcards?

The things that come to those who wait are seldom what they started waiting for.

Some are called on to face with equanimity their own conviction that there is no immortality.

Isn't it true in some cases that a man who is "almost" your friend is so because that's all you will let him be?

So far as running their own governmental affairs are concerned, most European peoples are still inexperienced.

Squaring of a Circle

The squaring of a circle is attempted in the Rhind Papyrus, 2000 B. C., the oldest known mathematical book, by Ahmes, an Egyptian priest. Since that time this famous problem has been studied by Archimedes, 200 B. C.; Huygens, 1654; Newton, Liebnitz, and many others.

Indiana established a Hatchery in conjuction with its feed business last year, under the personal supervision of Dr. Clore. Dr. Clore is very careful in selecting his flocks, and these flocks must have quality, be free from disease, fed a perfectly balanced ration, and incubated right twenty

Mineral Feed Company, Greenwood. Indiana, attention of Dr. E. E. Clore, and he will be glad to furnish you chicks

HOOSIER MINERAL FEED COMPANY

CREIGHTON BRO'S, Breeders of Hanson Strain White Leghorns.

We take this opportunity to greet our old friends, and remind them that our chick season is just around the corner.

Every year some of our old friends wait until the last minute to order their chicks, and then in spite of all we can do they have to wait for sometime to get them. It is only a good business proposition to order chicks early and protect yourself.

It has always been our policy to give the customer his money's worth and to stand squarely behind everything we sell. It has always been our practice to spend more money on flock improvement than printer's ink. We don't print any high price catalogs, nor do we spend a lot of money on magazine advertising. We do however put a lot of money in an honest endeavor to improve the quality of the chicks we sell. It is universally recognized that the trapnest is the only way to select the good individuals in a flock as a means of flock improvement. All great and well known strains have been developed by means of the trapnest. Our farm without a doubt traps more birds than any other farm in the state. The male birds that we are using this year are all from trapnested hens that laid over 200 eggs in trapnests during their pullet year. In addition to number of eggs the average weight of the egg from each bird must be 24 ounces or more and the body weight of the bird over four pounds. These are the requirements for R. O. P. approval. It is only from R. O. P. approved hens that we save our cockerels. All of our cockerels we are using to sire your chicks this spring are sired by 300 egg or better double pedigreed cockerels.

We know our work has not been in vain. We have improved the production of our own flock materially. Our income per hen is greater than it was before. Our customers are making more money. Our birds have the "urge to lay." They lay right through the fall when eggs are high. Many flocks of January and February hatched pullets of last year have not been below fifty per cent production since they started laying last summer. They have made their owners a lot of money. You don't have to wait for late chicks now to avoid a moult in the fall.

Our contest birds have proven their superiorty. Last month in the International Egg Laying contest at East Lansing, Michigan our ten hen pen laid 234 eggs, being nosed out of first Leghorn pen for the month by one egg.

We assure you we have appreciated your patronage in the past and look forward with pleasure to the coming season.

Farmer's Institute.

All Eggs Produced within trading radius of Northern Indiana Co-Operative Association Feed Mill will be welcome as entries in this show.

MORE THAN \$20.00 IN PRIZES

Are donated by the Northern Indiana Co-Operative Association Feed Mill. The exhibits will be limited to two entries for each family.

RULES

Eggs must be entered in contest at Farmers Institute by 4, P. M. Thursday.

Each dozen eggs entered entitles party entering them to 25c membership in the Farmers Institute.

You may pay your institute dues with a dozen eggs and in addition have opportunity to win some of the 10 Prizes on eggs.

All eggs will be judged by competent Egg Judge and Standards score card will be used in judging.

Select the eggs for your entry with the following points in niew. Size-20 points, eggs not too small or too large 24 to 30 uz. per doz. desired.

Uniformity of size-10 points, eggs all same size.

Shape-5 points, eggs not too long, not too round and not too pointed.

Uniformity of shape-10 points, eggs all the same shape.

Color-10 points, eggs all same color.

Uniformity of color-10 points, eggs not too light and not too dark. Shell texture-25 points, eggs not to have shells porous, shell ridges. shell wrinkles or shells with weak tips.

Conditions of shell-10 points, egg shell to show no bloom (washed) no stain, no cracks and not to be dirty.

The Northern Indiana Co-Operative Association asks all the farmers in this community to select one or two dozen white or brown eggs with the above points in mind, and enter them in this egg show.

We are happy to offer the prizes listed below to the winners in this egg show.

Prizes to be Given

WHITE EGGS

FIRST PRIZE—Two-hundred pounds Chick Starter. SECOND PRIZE—One-hundred pounds Laying Mash. THIRD PRIZE—Pound can Black Leaf "40". FOURTH PRIZE—Five gallon Fountain. FIFTH PRIZE—Fork.

BROWN EGGS

FIRST PRIZE—Gallon House Paint. SECOND PRIZE—Bag Alfalfa Leaf Meal. THIRD PRIZE—Five gallon Fountain. FOURTH PRIZE—Bag Reef Brand Oyster Shell. FIFTH PRIZE—Egg Scales.

Get your eggs there, then attend the institute and egg show and see the best display of eggs ever shown in this territory.
