The Northern Indiana Co-Op. News

Published the 1st and 3rd Wednesdays of Each Month by the Northern Indiana Co-Operative Assn.

Volume 2.

Northern Indiana Co-Op. News, January 2, 1935.

Number 22

When Good Men Stick Together

By Charles Fred Beeson

The story of the Northern Indiana Co-operative Association is that of a successful co-operative of poultrymen, by poultrymen, for poultrymen. Here's the record:

1931—Gross sales and custom work
\$59,697.72.

1932—Gross sales and custom work
\$80,090.18.

1933—Gross sales and custom work
\$112,000.00

About five years ago the poultrymen around Mentone sought means of buying their feed and poultry supplies by the carload. To this end they created the Northern Indiana Improvement Association. They then established formulas and carloads of feed were ordered and so timed that they arrived at Mentone on Saturdays, enabling the member poultrymen to purchase their feed on the same day they shipped their eggs to New York in the Mentone egg car. The success of this association encouraged the group in the idea that their purpose would be better served if they created co-operative ass'n. to build a mill where any feed could be compounded, where any formula could be mixed, where the many ingredients needed could be stored.

All of the patrons of the Northern Indiana Improvement Ass'n. were solicited to buy stock in the Northern Indiana Co-operative Association, which was to build and operate a farmer owned co-operative. The patrons supported the movement and the new co-operative was organized under the Farm Marketing Act, and capitalized at \$15,000—600 shares at \$25.00 par value. This in November 1933, during the depth of the depression. About 150 shares were sold to farmers and poultrymen who had faith in their ability to manage the Co-operative skillfully to continue successfully, to earn profits, and enlarge the scope of their usefulness.

The paid-up capital available was \$3,500. There were carpenters and laborers who were willing to take their pay in stock. Buy them and

The Mentone Co-Operative Plant, Showing the New Lumber and Fencing Storage House to the Right. The Warehouse is at the Left, the Coal Bunkers and Railroad Switch are in the Rear.

NOTICE TO THE STOCKHOLDERS Of The Northern Ind. Co-operative Ass'n.

You are hereby notified that the regular annual meeting of the stockholders and members of the Northern Indiana Co-operative Association will be held at one thirty o'clock P. M. on the twenty first, 21, day of January 1935 in the Harrison Township High School Building in Mentone, Indiana.

Reports of officers and the business of the association for the year of 1934 will be given.

Two directors shall be elected as provided by the by-laws of the association to fill the vacancies made at this time by the expiration of the terms of Director Nellans and Kesler.

Payment of interest on stock will be made at this time to those present.

Please make it a point to be present at this meeting.

FOREST KESLER, Secretary,
Northern Indiana Co-operative Ass'n.

the other members a mill was built. Modern machinery and mill equipment was purchased to handle the equivalent of a carload of feed a day this was financed. They adopted the trade-name "Banner Mash."

After the first year of operation the volume of business and the increase in the number of customers demanded expansion of their services and additional lines of merchandise. A shed was built, a ten-ton scale and an electric hoist were bought and

concrete coal bunkers erected. Still further expansion in 1933 compelled the purchase of a larger corn cracker and corn sheller, additions to the warehouse and coal bunkers and the building of an entirely new structure for the storage of lumber, fencing, builders' hardware, paints, etc. In three years of operation an original investment of \$3,500 has been increased to a net worth, at a minimum, of \$33,000.00.

In the meantime 8% has been paid

on the stock and in 1933 there was also a patronage dividend which amounted to 17.5% of the volume of the members' purchase. The co-operative has acquired a newspaper which circulates in a radius of twenty miles. Bear in mind all of this has been done during the depression.

The Northern Indiana Co-operative Association sponsors an annual egg show. Eggs are important to its members. They are working on new marketing plans for the sale of their eggs which may result in developments of wide interest to the industry. A new grading and candling machine is being tested. Some of the members are working on plans for the co-operative packing and marketing of their eggs. There are already two cars of high grade white shelled Indiana eggs leaving Mentone for New York each week.

The mill employs six men full time and several others on part time. The Northern Indiana Co-operative Ass'n. has been recapitalized at \$50,000—2,000 shares at \$25.00 each.

Should you find it necessary to go easy on your Baby Chick outlay this year make reservation now for custom hatching with us for only 24¢ per egg. We can also help you find good hatching eggs. Forrest Kesler.

MARRIED

Mollenhour-Miller

The marriage of Miss Helen Miller, daughter of Mr. and Mrs. Emmett Miller of Warsaw, and George Mollenhour, of Mentone, took place at 1:30 p. m. Christmas day at the home of the bridegroom's sister and brother-in-law, Mr. and Mrs. Virgil Nelson of South Bend. The nuptial vows were read by Rev. W.J. Dauner of the Evangelical church of South Bend. The bride was attired in blue transparent velvet and the accessories to her costume were in black. A wedding dinner was served after the ceremony. Mr. Mollenhour is engaged in the lumber business in Mentone. The couple will make their home at 112 North Franklin street in Mentone after the holidays.

The mill buys wheat, oats, corn.

J. A. BONEWITZ 96, EXPIRES

Leg Fracture Is Fatal to Aged Resident of Mentone.

John A. Bonewitz, 96, the oldest resident of Mentone, expired Thursday morning about 2 o'clock at the county infirmary. Death was probably due to a fall suffered about two weeks ago at the infirmary, which caused a fractured leg.

Mr. Bonewitz, who was a Civil war veteran, had resided in Mentone for the past 24 years and had been taken to the infirmary about two weeks ago. He formerly resided at North Manchester. He was employed at various times in his life at farming, with the interurban and railroad company, and had been employed by the city of Mentone. Mr. Bonewitz was very well known in this vicinity. His wife formerly Lydia A. Newman, and one daughter had preceded him in death. One son, Lawrence Bonewitz, of Wild Rose, N. D. is among the surviving relatives.

The body was taken to the George Bender funeral home in North Manchester.

PSI IOTA XI

Mrs. Pauline Riner and Mrs. Lena Eaton were hostesses to the Psi Iota Xi Sorority at the home of the home of the former on Friday evening Dec. 28. Four tables of bridge progressed during the evening. Prizes were won by Miss Margaret Mentzer, Mrs. Joyce Bunner and Mrs. Artella Teter. Lovely refreshments were served at the close of the games with appointments in keeping with the holiday season.

Members present were Misses Mildred and Kathleen Anderson, Bernice Bowen, Frances Clark, Thais Greulich, Annabel, Rosalind and Margaret Mentzer, Kathryn Nelson, Mrs. Helen Huffer, Mrs. Elizabeth Myers, Mrs. Lucile Myers, Mrs. Artella Teter and Mrs. Yolanda Riner. Mrs. Joyce Bunner of Fort Wayne was a guest.

WEDDING

Blue Heckeman

William Blue of Defiance, Ohio son of Mrs. Emma Cook and Miss Lucille Heckeman of Fort Wayne daughter of Mr. and Mrs. George Heckeman were united in marriage Dec. 24 at South Bend by Rev. Cox. After spending Christmas with the grooms mother in Mentone the newly weds returned to Defiance where they will make their home at 209 Wayne Ave.

Mrs. Blue is a graduate of the Mentone High School and has been

employed at Woolworths Store in Fort Wayne. Mr. Blue is a graduate of Mentone High School and is employed at the Radio Factory in Defiance.

The Northern Indiana Co-operative Association

THE FARMERS MILL OF SERVICE AND QUALITY

On with A New Year of Prosperity and Happiness to all the Northern Indiana Co-operative's Customers and Friends.

Start The New Year right and make our Mill, Feed, Coal, Lumber, Building Material and Farm Equipment department's your headquarters for all your Farm needs.

Quality, Service and low prices have always been the Aim of this Association to all who have made their purchases here in the past year and will continue to do so thru the coming years.

Watch all our Ads in this paper that they may be of service to you at all times.

The Association will again sponsor the Egg Show at the Mentone Community Building to be given in Connection with the Farmers Institute.

You are invited to show Eggs Produced on your farm.

Make this Egg Show your show by bringing in your Eggs either White or Brown. It will be worth your time.

Cash Prizes will be given this year.

Are you one of them who will receive a cash Prize?

Qualifications to enter this Egg Show will be given you in the Next Issue of this Paper.

We are depending on you Mr. & Mrs. Farmer to make this Egg Show one of most outstanding Features of the Farmers Institute this Year.

REDWOOD

For Better Farm Structures

Farm Uses for Redwood

NATURALLY DURABLE CALIFORNIA
REDWOOD needs no chemical treatment to assure long life in service. It may be cut, framed or bored without lessening its resistance to decay.

Make your First Cost Last by using lasting REDWOOD for exterior and interior finish in your Farm House, Barns, Milk Houses, Garage, Implement Shed, Poultry Houses, Brooders, Hog Houses, Cribs and Granaries, Hay and Shelter Sheds and for all Outhouses, Farm Building Equipment and Barn Yard Accessories.

Artificial treatment to prolong the life is not necessary with Redwood, because Redwood is endowed by Nature with a natural preservative that penetrates every fibre and eliminates the possibility of interior decay and rot.

Painting is not necessary to preserve this wonderful wood, but strange to say, paint lasts longer on California Redwood.

"Use Redwood—It Lasts"

"Sequoia Brand" Redwood is Manufactured by the Mills of the
Redwood Sales Company, San Francisco, Calif.

F. W. Daily, Elkhart, Ind., Sales Agent Northern Indiana

**You Can Obtain "Sequoia Brand" Redwood Lumber from the
Northern Indiana Co-Operative Association, Mentone, Indiana.**

COMPTROLLER COMMENDS INSTITUTE OF BANKING

WASHINGTON, D. C. The American Institute of Banking, said to be the most successful project of its kind in the field of applied adult education has performed a valuable function in training bank clerks for "sound public service as well as personal success," J. F. T. O'Connor, Comptroller of the Currency of the United States, said here in a recent radio address. The Institute is a section of the American Bankers Association.

"While imparting useful knowledge, it has improved the morale of banking personnel and has stimulated in its members an intelligent interest in national and international monetary problems," Mr. O'Connor said. "Its courses cover a wide field in banking. Among the subjects, one finds Bank Organization and Operation, Commercial Law, Negotiable Instruments Law and Economics, in the Pre-Standard Division, followed by such subjects as Money and Banking, Credit Management, Financial Statement Analysis and Bank Management, in the Standard Division.

"Each and every subject is one which is necessary to a knowledge of banking. However, the Institute does not stop here, but encourages graduate study in Corporation Finance, Trust Service, Farm Credit Administration and Real

estate Forecasting. Again it emphasizes in special courses the importance of the less technical but highly beneficial study of Constructive Customer Relations, Banking Fundamentals and Public Speaking. No comment is necessary on these courses: their value is at once apparent."

BOOKLET ON FARM CREDIT

A booklet has been published by the Agricultural Commission, American Bankers Association, on "Factors Affecting Farm Credit," for the purpose of furthering on a national scale the taking of farm inventories and the making of credit statements as sponsored by the Commission in cooperation with the state colleges of agriculture and the U. S. Department of Agriculture. The goal is better relationships between farmers and their banks.

The booklet is devoted to the types of loans generally required by farmers, the need for farm credit, how it can be obtained, when it is safe to borrow, what principles to follow to establish credit in advance of needs, and how both the lender and borrower are interested in sound, productive farm credit.

Camomile Lawns Popular

Camomile lawns were popular in the Sixteenth, Seventeenth and Eighteenth centuries because they remained a vivid green even in the hottest weather.

Dry Ice Actor's Accessory

Motion pictures of winter scenes may be made realistic by a device that makes the actors' breath visible, just as it would be at low temperature. The device resembles false teeth. It enables the actors to keep dry ice in their mouths without harmful results. The warm breath causes the dry ice to give off vapor not unlike that produced by persons breathing in cold weather. The device does not interfere with speech.—Popular Mechanics Magazine.

Records Whitewashed

When John Vacko, headman of Lhots, Czechoslovakia, returned home he found that the walls of his room had been whitewashed by his wife, so he beat her. John told the judge the local council meets in the room and to save paper he had written the minutes of the meetings on the walls. His wife's act caused the council the loss of an entire year's records. Vacko was given a week's suspended sentence for wife-beating.

A Large Order

"Now," said the college man to his dad at the football game, "you'll see more excitement for two dollars than you ever saw before."
"I don't know," replied the old gent, "that's what I paid for my marriage license."—Kansas City Star.

PLAYS FOR HIS BROTHER IN OTHER HEMISPHERE

A radio telephone connection half way around the world enabled W. Pritchard, the town clerk of Merthyr Tydfil, in Wales, to sing a hymn the other day to the piano accompaniment arranged by his brother, Thomas, who was located in Grafton, New South Wales. While Thomas Pritchard played the piano at his home in Grafton, his brother heard the accompaniment over the telephone in Wales.

Three Judges of Hades

According to Greek mythology the Three Judges of Hades were as follows: Minos, who inspected those arriving and determined their place of abode; Rhadamanthus, who presided over Tartarus, the abode of the wicked, and Aeacus, who presided over Elysium, the abode of the blessed.

Each Hair Tiny Tube

Each hair is really a tiny tube covered with infinitesimal scales. Some hair contains more coloring matter; in other cases, the scales are harder or more numerous. All these factors play their part in settling the hair problem—to curl or not to curl.

Indian Towns in 1775

Historians say Cherokee Indians had 64 populous towns as early as 1775.

Acts Like Nude Lunatic to Keep an Engagement

Budapest.—In Nagykanizsa, a suburb of Budapest, lives a man whose sense of social obligations caused him to disregard the proprieties and resort to extreme, not to say illegal, means to keep his appointments.

Nagykanizsa experienced some very hot weather recently and one of its residents—the man in question—sat at home sweltering and thinking to himself of the delights of a cooling dip in the water. Resistance, none too strong to begin with, finally gave way and he repaired to a little stream on the border of the town and reveled in a long, delightful swim.

Remembering finally that he had an engagement at home, he came out of the water at dusk to find that his clothing had been stolen. There was nobody he could send for help and the engagement was, he considered, imperative.

That was why residents of Nagykanizsa were startled by weird cries and the sight of a naked man crawling in the fields beside the road. Of course, thought the townspeople, a lunatic is at large, so they called an ambulance.

The "lunatic" was overpowered, wrapped in a blanket and placed in the ambulance. Then, in a perfectly sane manner, he explained to the physician that he simply had to get home and the method he adopted was the only one he could think of on the spur of the moment. He was late for his appointment.

Racketeer Sells Cinders as Topsoil for Gardens

Washington.—The wife of a Washington attorney, being an enthusiastic gardener, recently was victimized by a salesman "working his way through college."

A young man, presentable in appearance, arrived on the woman's doorstep with a handful of rich loam. Pointing to a truck out front loaded with sacks, he claimed he was securing funds for his college course by selling topsoil to gardeners. The lawyer's wife purchased four sacks.

She was quite dismayed, however when preparing later to fix up her gardens with the "excellent flower food," to find the sacks contained nothing but an assortment of common, everyday cinders.

Card Mailed 22 Years Ago Finally Arrives

Wabash, Ind.—Ray Howard received a postal card from a friend in Kansas City that was 22 years in transit. It said the friend had arrived in Kansas City that day and was leaving soon. He mailed it August 16, 1912. On September 25, 1934, it was mailed out of Kalamazoo to Wabash. The original address was Wabash. Where the post card has been for 22 years is a mystery, which postal authorities are unable to explain.

The mill buys wheat, oats, corn.

—White House Photo
Captain Alan Innes-Taylor in charge of the dogs with the Byrd Expedition shown aboard ship with two of his favorite huskies.

Dogs Again Prove Vital Factor in Polar Venture

**Stamina of Byrd's Huskies Is
Valuable Lesson to
Dog Owners**

"Go ahead, Little America, take it away! Let's hear those huskies howl!" Up from the bottom of the world comes the answering voice of the Byrd Antarctic Expedition to the opening accompaniment of lusty canine throats. And millions of ears are tuned to radio instruments as another Polar broadcast gets under way.

The sound of those dogs is a vivid reminder of the vital part such animals play on so momentous an undertaking as this two year venture upon the frozen wastes around the earth's southern axis. Men's lives depend upon the huskies as they work under terrific strain hauling the heavy sledges loaded with food and other supplies for the exploring parties that blaze new trails into that unknown blizzard swept country with its devastating low temperatures and challenging topography.

Fully aware of the importance of the dogs, Admiral Byrd took 150 of these huskies with his Expedition. His voice is often heard in the broadcasts praising the stamina and fighting heart of the dog teams. Directly in charge of the animals is Captain Innes-Taylor who also reports regularly on their fine condition. The dogs are holding up well, he says, showing plenty of staying power. New litters of puppies are being born and raised most successfully in that rigorous climate.

The food those dogs eat has been a most influential factor in keeping

them strong and vigorous under such extreme circumstances. For, as every dog owner knows, feeding is the key to success in guarding the health and well being of man's most faithful companion. No matter how few or how many dogs a person owns, full satisfaction in taking care of the animal is possible only with proper and intelligent feeding.

"It was this fact which guided the Byrd Expedition in their selection of a feed to take along for the huskies," says A. H. Leonard, well known authority on the care and feeding of dogs. "A complete all-in-one feed was finally chosen which was known by experiment and feeding tests through many canine generations to contain everything a dog needs for satisfying all requirements for healthy growth, dependable reproduction and fully sustained body weight and condition in the mature animal. This food, developed by a prominent dog food concern, was known to have been successfully fed as an exclusive ration over a period of years to many breeds of dogs, with a minimum of care and maximum of safety. Its keeping qualities, which require no artificial preservative conditions, and the convenience with which it pours right from the bag without waste were two other features that made this ration the choice of the Byrd Expedition," Leonard says. "Obviously a food which could stand up so well and keep dogs fit and fine in the rigors of the Antarctic region should be more than sufficient for any dog in the average American home or kennel. It's fortunate that the official Byrd Expedition dog food is available to all dog owners."

"More interesting information about the Byrd Expedition and the care of the dog can be obtained without obligation," says Leonard, "by writing to Purina Mills, Educational Division, St. Louis, Mo., and asking for the latest folder of news and views of the Byrd Expedition."

FURNITURE MEN OFF TO MARKET AT HUGE MART

for Store Here to Attend
Exhibition at Chicago and
See Latest Styles

When the home furnishings fashions for 1935 make their debut at the industry's great national market at the American Furniture Mart, Chicago, among those on hand for the event will be a merchant from Mentone.

The big furniture show opens Jan. 7 for two weeks. Yesterday I. F. Snyder Furniture Store announced that its buyer will be among the 6,000 or so Furniture men, from all parts of the country, who will attend the exhibition. Those making the trip to Chicago will include: I. F. Snyder.

"We find that the cost of being represented at the national show is repaid to us by the better values we are able to obtain by being present at the opening.

Mr. I. F. Snyder said. Most manufacturers are planning to show at the market

Unusually attractive designs and exceptional values are anticipated this season, it was explained, because furniture men expect thousands of customers to be wholly or partially refreshed during 1935 as a result of the federal housing act and the attention now being paid to housing generally. People will not be content with furniture ten or fifteen years old, or older, in homes that have been otherwise brought up to date, it is argued. The industry is looking forward to its best season since the '20s.

High-lights of the market displays, according to word received by Mr. I. F. Snyder from the Furniture Mart, include:

A larger selection than ever of new fabrics for modern upholstered furniture.

Lamps scientifically designed to meet the requirements of the "Better Light—Better Sight" campaign.

A general improvement of the hardware used on furniture of all types.

As the Furniture Mart is closed to the public, consumers will get their first glimpse of the new styles when the furniture appears on the floor of the I. F. Snyder Furniture Store.

hypocrisy

"Hypocrisy often makes a great show of happiness," said Hi Ho, the sage of Chinatown, "in the hope of luring sincerity to sharing its discomforts."

The mill buys wheat, oats, corn.

Big Eagle Revealed as Baby Pig Thief

Danbury, N. H.—Arthur Hollenbeck's baby pigs were being stolen, and so he decided to sit up all night and watch for the culprit.

He was astonished to see the thief swoop out of the sky. It was a giant American eagle, followed by six eaglets. The eagle grabbed a pig and flew away, with the eaglets close behind.

SPAIN MOURNS SIX BULLFIGHT DEATHS

Large Number of Matadors Injured Also Noted.

Madrid, Spain.—Six deaths directly attributable to bullfights have made the present season one of the most tragic in years.

The recent passing of Ignacio Sanchez Mejias marked the most important bullfight death since that of Jose lito Gomez, one of the greatest matadors of all time.

The other victims of the bullring were Candido Roig, a spectator who was killed in Coruna by a flying sword; Pablo Sanchez, an amateur, who was gored by a bull in the Madrid ring; Juanito Jimenez, twenty-one-year-old bullfighter, who died of wounds received in a Valencia fight; Anselmo Machado, bullfighter, victim of a goring received in the Castro ring; Joaquin Asuncion, amateur, killed in a village square bullfight at Silla.

The list of matadors seriously injured in the ring so far this season is a lengthy one. It includes Nicanor Villalta, Maravilla, Rosenberg Lopez, Andres Meridas, Alfredo Corrochano, Carnicerito of Mexico, Enrique Torres, Ricardo Torres of Mexico, and Vicente Barrera. All except Lopez, Merida, and Enrique Torres have recovered completely.

Domingo Ortega, ace of the younger fighters, was injured in an automobile accident while en route from Coruna to Madrid to attend the funeral of a brother. Ortega's cousin, Commander Francisco Caballero, was killed in the accident.

Sanchez Mejias, who substituted for Ortega at a bullfight in Manzanarez because the latter's injuries prevented his appearance, died of a goring received during the fight there.

Thirty amateurs were injured in the village of Gor when they jumped into the ring constructed in the village square and attempted to perform passes with a huge bull.

Father of Electricity

Queen Elizabeth's physician, Gilbert, made experiments with magnetism and electricity, and has been called the father of modern electricity.

First to Locate New Star

The first astronomer to observe a new star so far as is known, was Hipparchus, of the Second century. B. C.

Glaciers of Alaska

Figures of the Alaska geological survey indicate that glaciers of the territory when at their maximum spread covered approximately 255,000 square miles.

Lived in Himalayas

Discoveries reveal that man lived in and on the borders of the Himalaya mountains in the Stone age while North America was still covered with ice.

Oldest Theater

What is said to be the oldest theater was discovered on the island of Crete. It antedates by at least 1,500 years the theater of Dionysius in Athens, constructed in 340 B. C.

When Lungs May Freeze

Old sourdoughs of Alaska and other parts of the Northwest say that over exertion is liable to cause the lungs to freeze if the temperature is colder than 40 degrees below zero.

Use for Reindeer Skin

The reindeer skin makes a fine type of leather, suitable for gloves, riding breeches and purses. The hair is long and can be used for the making of mattresses.

Blindness Not Compensated

The popular belief that blindness is compensated for by increased acuteness of the other senses is not upheld by tests.

OBITUARY

Mary Ann Jefferies daughter of George and Sarah Engle was born in Ohio Nov. 20 1857 and departed this life Dec. 16, 1934 at the age of 77 years 26 days at the old home place near Mentone where she went to house keeping. She was united in marriage to Ruel Jefferies in 1878.

At the age of a young lady she was converted and lived a good moral life ever after as a mother and in her relations to others. To this union were born five children, one son presiding her in death but only two months, Pierce Jefferies at home, Flossie Coplen and Maude Clark of near Akron and Alice Borton of Mentone.

She also leaves 11 grandchildren and 8 great grandchildren and two brothers, Jacob Engle of Beaver Dam and David Engle of Dutchtown, one sister Katherine Jefferies of Sevastopol.

The Lord said, "Come, your work is well done."

A Billion

The United States and France call 1,000,000,000 a billion. In most other countries that is a milliard, while they give the name billion to what we call a trillion—1,000,000,000,000.

Of The Northern Ind. Co-operative Ass'n.

You are hereby notified that the regular annual meeting of the stockholders and members of the Northern Indiana Co-operative Association will be held at one thirty o'clock P. M. on the twenty first, 21, day of January 1935 in the Harrison Township High School Building in Mentone, Indiana.

Reports of officers and the business of the association for the year of 1934 will be given.

Two directors shall be elected as provided by the by-laws of the association to fill the vacancies made at this time by the expiration of the terms of Director Nellans and Kesler.

Payment of interest on stock will be made at this time to those present.

Please make it a point to be present at this meeting.

FOREST KESLER, Secretary,
Northern Indiana Co-operative Ass'n.

OBITUARY

Sarah Jane Cochran, the daughter of Daniel and Elizabeth Whetstone Emerick was born Sept. 1861 in Rolling Prairie, Indiana. Departed this life Dec. 26, 1934 at the home of her son, Fred Cochran in Niles Michigan.

On Nov. 8th, 1882 she was united in marriage to George Calvin Widmeyer. To this union one daughter was born who is Mrs. Ira E. Borton of Mentone Indiana. He departed this life on Nov. 28th, 1883.

On Sept. 25th, 1893 she was again married to Grant Cochran of Burket, Indiana. To this union two sons were born. He departed this life Oct. 12th, 1900.

She is survived by one daughter, one son, four grandchildren, seven great grandchildren, one sister, Mrs. Lovina Burkett of DeWitt Arkansas and one brother David Emrich of Burlett, Indiana. She was converted when a young girl and kept the christian faith.

The funeral was held at the Price E. Kiger funeral home in Niles and conducted by Rev. Keene. The body was laid to rest in the Palestine cemetery.

Girl Scout News

By Amos Skeeta

On the Saturday, evening preceding Christmas, we Scouts participated in the program sponsored by the Lion's Club for the entertainment of the children in this community. Our husky voices rose lustily above the biting wind in our efforts to spread good cheer with our carols. We sang valiently on the carols but to our surprise our voices rose even higher on the popular "Santa Claus is Coming to Town". Santa Claus did not forget the Scouts, though on this cold evening for he invited us up to Dr. Yocum's office where we sang carols and received a reward in the form of a very delectable treat.

We Scouts are very proud of our leaders in their trim uniforms for now since Santa's arrival, not only our leader but also our lieutenant have uniforms. Miss Eileen Mollenhour expressed her thanks to the troop for the token of their appreciation.

We are at present learning how to dance our way through life! What jolly times we are having watching each other go through the various motions. Grab your pardner! Take her by the arm! Then away we go

with a run, a hop and a skip. Then around we whirl and away we go again. The folk dance we are working on at present is the "Black Nag". Mrs. Mentzer plays the accompaniment for us, and in our great enthusiasm over the intricate steps we began applauding the moment the music stopped. This was a good joke on us but never-the-less we weren't daunted because we remain as enthused as ever over these folk dances. In fact we are so pleased with the success of this first one that we are going to learn more and get our "Dancers" badge. Please let me tell you some of the manners of the dances we are going to learn. They are: Roughly Toughy, Gathering Peacocks, "Galooped", "Brighton Camp," and "Nancy's Fancy". Aren't those darling names? They are from the English Folk Dance Group. Imagine our revered ancestors dancing the "Roughly Toughy"! Wouldn't you have loved to see them with their long skirts and the men with their knee breeches and long coat tails tripping through those steps?

Reading Club Meets

Mrs. Emma Clutter was a pleasing hostess to the Mentone R. C. at its regular meeting Jan. 9. Twelve members and three guests were present. "My Favorite Heroine" was the response to roll call. Mrs. Artella Teter very ably gave a sketch of the life of Edith Cavil. Mrs. Fern Carter gave an interesting paper on the life of Maude Royden and numerous articles of current interest were pleasingly given by Mrs. Flossie Greulach. Mrs. Weissert is to report at our next meeting what the club might do to beautify our surroundings. An interesting article on, "What Shall We Do With Our Nations Youth", was read by Mrs. Boggs. Discussion followed, delicious refreshments were served by the hostess. Club adjourned to meet Feb. 13 with Mrs. Ottie Walburn.

Rediscovered by French

The French rediscovered the vast area of which Missouri is now a part, after the earlier Spanish explorations proved not to be permanent.

MENTONE EGG SHOW

Sponsored by the
Northern Indiana Co-Operative Association

In connection with
**Farmers Institute of Franklin and Harrison Townships
AND THE VOCATIONAL DEPARTMENT OF**

Mentone and Beaver Dam Schools

To be held at the Community Building, Mentone, Ind., January 23rd and 24th 1935

OBJECT

Our object in holding this show is to encourage the production of more and better eggs; to give an instructive exhibition of the best methods of scoring and grading eggs, both as to the exterior and interior qualities; to create a greater interest among our children in one of the major industries of our community—the poultry industry.

PRIZES

Cash prizes will be given to those receiving the highest scores and ribbons as sweepstakes of each division. After placings have been made a complete list of winners will be published in the Co-op News and in poultry and farm journals. The funds for the prizes are furnished by the Northern Indiana Co-operative Association.

CLASSES

Exhibits shall be divided into three classes with reference to exhibitors.

These classes are:

Class I. Farmers and commercial poultrymen

a. White eggs

b. Brown eggs

First Premium white eggs, \$2.00, second \$1.00; first premium brown eggs \$2.00, second \$1.00.

All eggs entered in this class to be produced by the exhibitor and shall become the property of the Institute and will be accepted as payment of dues.

Class II. High School Class

Open to all High School Students

a. White eggs

b. Brown eggs

First Premium \$1.25, second premium \$1.00, third premium \$0.75, fourth premium \$0.50. These premiums apply to both white and brown eggs.

Class III.

Open to all seventh and eighth grade pupils

a. White eggs

b. Brown eggs

First premium \$1.25, second premium \$1.00, third premium 75c, fourth premium 50c. These premiums apply to both classes.

Pupils of the High School and Grade Classes may select their eggs wherever they choose. These eggs shall remain the property of the student and need not be contributed to the institute.

No entrance fee or other fee will be charged to any exhibitor of any class.

Entries for the exhibition may be made from 9:30 A. M. to 1 P. M. Wednesday, January 23rd.

JUDGING

All judging will be done by score cards. The following score cards will be used for class I, II, and III.

CLASS I		Allowed	CLASS II and III	
Size	-----	25	Points	Cuts
Shape	-----	3	20—Size	-----

			Disqualifications	-----
TOTALS	-----	100	100 Totals	-----

Students of Mentone schools will assist a committee in arranging and caring for exhibits.

OUR COMMUNITY

Mentone is recognized as the largest poultry center of the middle west for the production of fine eggs as to size and quality. We who live here many advantages over poultrymen in other communities. No product of the farms of this community has done more to lift the standard of living among our people than poultry products.

We urge all producers to compete and make this a worth while event.

ADS. WILL TELL BANKERS' STORY

**American Bankers Association
President Announces Move
to Stimulate Newspaper
Advertising**

NEW YORK.—Plans for stimulating wider use of informative newspaper advertising by banks in promoting public understanding and confidence in regard to existing banking conditions and methods have been announced by R. S. Hecht, President of the American Bankers Association, as a part of his organization's activities in aid of business recovery.

A general groundwork was prepared through a nationwide survey of advertising by banks relative to their willingness to extend justifiable loans to industry and trade. This, he said, revealed that a large number in all parts of the country are pursuing aggressive policies along this line and encouraging their customers to develop forward-looking business plans. "It is our aim to aid in fostering this constructive attitude wherever possible," he said.

The Theme of New Advertising

The association's Advertising Department, under the direct supervision of the general executive officers, has prepared, at the headquarters in New York City, an informative advertising series for the use of member banks in the association to aid them in developing in their own communities better general public understanding regarding banking, Mr. Hecht said.

"The underlying theme of this advertising is that sound banking is based on helpful human relations and that it has a unity of interest with the people of its community which binds them together with a common purpose," he said.

"We are confident that if a clear understanding of this is brought home to the people in all our banking communities, it will go far in restoring the public confidence which good banking deserves. A bank in which people deservedly believe is doubly safe. It is to the public interest for the people to have confidence in their banks.

The Place of Advertising

"We feel that bank advertising has a special public duty to perform in this connection under existing conditions. The copy which will be supplied in the service we have developed will not only aid the individual bank in promoting the use of its own facilities but is also aimed to bring about with the aid of newspaper advertising a clearer public viewpoint regarding the essential part it occupies in the life of its community."

Mr. Hecht emphasized in regard to the new advertising facilities being offered to the members of the association that they are not a profit making venture and that there is no intention to disturb existing advertising arrangements, the idea being that these insti-

tutional services shall supplement rather than replace present plans, or that they will give assistance to member banks now lacking satisfactory arrangements.

Valuable Louse

The cochineal louse is once more in high favor in the Canary Islands, we are told by a writer in Atlantis, Berlin. At Las Palmas in these islands the prosperity of the village is based on this louse, which was imported from Mexico about a century ago. Its cultivation resulted in a scarlet dye that was exported in large quantities. When artificial aniline scarlet was invented, it was much cheaper to produce than the cochineal, which was almost completely replaced by the new dyestuffs. Many plantations were abandoned, but a few planters held to theirs believing that one day a need for their dye would come back. When a harmless coloring for rouge and lipstick was sought some one remembered the old cochineal louse and now those who kept their stock and plantations in the Canaries are reaping a reward, as the cochineal is extensively used in the cosmetic industry and is restoring prosperity to Las Palmas.

Persian Women's Dress

Persian women still favor the short, fluffy ballet dress of the West for house wear, because of the favorable impression made on the shah, Nasreddin, when he visited the Paris opera more than 60 years ago.

OPERATORS SUMMON HELP AS FLAMES THREATEN TOWN

When fire, fanned by a strong wind, broke out in the business section of Town Creek, Ala., not long ago, threatening to demolish every structure in the little community, two women stuck to their posts of duty at the telephone switchboard and carried on the service.

While the smoke poured into the operating room, causing their eyes to smart and making breathing decidedly uncomfortable, Mrs. Bertis McBroom worked at the switchboard while Miss Ella Nunn, senior operator, removed the company's books and records. Mrs. McBroom placed calls to all nearby towns for help and also called every subscriber in Town Creek and gave warning of the conflagration.

The sweeping flames finally enveloped the telephone building. Within a short time the roof was on fire, but Mrs. McBroom was still at her switchboard, placing calls for help, when her husband rushed into the doomed building, picked her up out of the operating chair and carried her to safety. Just after she left the building, the roof caved in. As a result of the efforts of the two operators, the blaze was confined to 12 business structures, which were destroyed.

OBITUARY

Bessie Seona daughter of James and Ida Worsham was born Feb. 14 1884 in Marshall County near Tippecanoe. Departed life at the age of 50 years, 10 mo., 27 days. Her early life was spent on the farm, attending the rural schools. Later moved with her parents to Tippecanoe. She was united in marriage to Elery Spencer in the year 1900 Jan. 9. To this union were born two daughters, Ruth Helen and Opal Faye. Opal Fay preceding her mother in death eleven years ago.

She was a resident of Valparaiso for a number of years. Moving from there to Warsaw became acquainted with Thomas Akins and were married Jan. 26 1928. Mr. Akins is an employee of the Dalton Foundry and have made their home in Warsaw ever since. She was a kind and loving mother and a good help-mate to her husband. Bessie was always kind and congenial. Always willing and ready to help others in need. She leaves to mourn her passing. Her husband, one daughter, Mrs. John O'Conner, Claypool, her father and mother, Mr. and Mrs. James Worsham Tippecanoe, one sister Mrs. Roy Parson, Plymouth three brothers, Alfred J. Worsham, of Bourbon, Emanuel of Tippecanoe, Thomas F. Detroit, Michigan and a host of relatives and friends left to mourn her departure.

A Dearest one from us is gone
Her voice we loved is stilled
The place is vacant in our home
Which never can be filled.
You hail with delight the friendship
of others
You revel in love of the sweetheart
you've won
Yet where do you find a friendship
like Mother's
Unbroken till death calls
And life's work is done.

CARD OF THANKS

The family wishes to express their thanks to the relatives and friends for their floral offerings. Also the kindness and assistance during the sickness and death of their beloved mother and daughter.

Giant Alphabet

The Egyptians used 1,700 characters in their hieroglyphic writing.

The Musk Ox

The scientific name of the musk ox—ovibos—means sheep-cow, and the musk ox combines many traits of both species of animal.

Lake Depths Have Changed

Himalayan lakes have fluctuated 15 to 20 feet in depth through minor climatic changes in the last century.

CLUB MEETING

The Mentone Home Economics Club will hold its first meeting of the year at the home of Mrs. Blanche Paulus on Thursday afternoon, January 17.

The new officers will be in charge and the year books and programs for 1935 distributed. All interested persons are welcome. Respond to roll call with Christmas quotations.

Some much needed improvements have been made in the room occupied by the Mentone Library. Added space has been made at the back, the walls and ceiling redecorated and other conveniences are in process of construction.

OBITUARY

James H. Blue, son of Peter and Elizabeth Johnson Blue, was born April 29, 1871 and died Nov. 4, 1934 at the age of 63 yrs., 6 mo., and 5 days. He was united in marriage to Ida M. Brewer, June 13, 1891.

To this union were born six children, two daughters Celia Gay, and Firl E. who preceded him in death Peter Blue who resides in Mentone, Lea L. of near Mentone, Thomas J. at home and Philip Wayne of Mentone. He was born on the farm at which he resides at the time of his death.

He was a loving father, a devoted husband and a kind and generous neighbor and was always ready to land a helping hand to those in need.

He had been in failing health for over two years but endured his suffering with patience and silence. He was a member of the Mentone Baptist Church.

The surviving relatives are a loving wife, four sons and ten grandchildren all of whom he was very fond of. Two brothers Alonzo Blue of Mentone, Benjamin J. of LaOtti, Indiana and a sister Mrs. Etta Halterman of Mentone, besides a host of other relatives and friends.

I cannot say, and I will not say
That he is dead, he is just away
With a cheery smile, and a wave of
the hand

He has wandered into an unknown
land

And left us dreaming how very fair
It needs must be since he lingers
there

Think of him still as the same, I say
He is not dead, He is just away.

CARD OF THANKS

We wish to express our deepest heartfelt thanks to Friends and Neighbors who assisted in every way during the illness and death of our dear husband and father.

Ida Blue and Family.
