**MENTONE  
WELCOMES  
YOU!**

Published Every Wednesday by the Northern Indiana Co-Operative Ass'n. Office of Publication, West Main Street, Mentone, Ind.  
Entered as second-class matter November 18, 1936, at the post office at Mentone, Indiana, under the Act of March 3, 1879.

**Volume 13, Number 29****Northern Indiana Co-Op. News, January 5, 1944****Subscription — \$1.50 Per Year****FINE LIONS MEETING****WEDNESDAY EVENING**

One of the most interesting features of the Lions club meeting on Wednesday evening was the talk given by Merl Harrold. The youth gave a very comprehensive talk on his experiences in World War II, starting with his pre-Pearl Harbor induction to the time he was given an honorable discharge upon his release from government hospitals where he was recovering from wounds received in an air battle.

Cpl. Harrold started his army career as a truck driver, eventually transferred to the Air Corps, going through primary training as a pilot. His pilot training ceased when it was declared his eyes weren't good enough for this service. He was assigned to a heavy bomber group as an aerial gunner and then attached to a ferry command, transporting planes to Africa, Hawaii and other unstated points in the world. While awaiting the transports to return them to the United States each time they were sent on various bombing missions such as the famous Krupp Arms Works, Rommell in the Kasarine Pass, occupied France and positions in the South Pacific. One of their bombers gave out on a return mission and all baled out into the channel. A patrol boat rescued them and the next time they had to abandon ship over occupied France. Ten days—or nights—they traveled before reaching the Mediterranean and a PT boat to take them back to their base in Africa.

Twenty-five bombing missions—the Air Corps' way of stating the cost of a furlough in the "States"—had been completed and the crew spent 14 days with home folks before ferrying another plane across. They were on patrol duty off the pacific coast when their plane left the scheduled route and ran into two Jap warships and a submarine. The lone plane attacked in skip-bombing style and put four bombs in the side of one ship and set the other afire. All but one motor of their plane was dead from enemy shell-fire, the pilot

**NELSON—MOORE**

In an impressive candlelight singlering ceremony performed Tuesday, December 28, at 4 p.m., in the Methodist church by the Rev. Hugh McGlasson, Miss Genavee Moore, daughter of Fulton County Recorder and Mrs. Lee Moore, Rochester, became the bride of Harold D. Nelson, son of Mr. and Mrs. Masa Nelson, of Burket. The church chancel was decorated with pine boughs and lighted with tall candelabra. The bride's attendant was Mrs. Franklin Nelson, sister-in-law of the bride-

lay slumped over the controls, the bombardier lay still and the radio operator and his set were scattered on the floor. The co-pilot took over and with all bombs gone, every gunner was given a chance to pour lead into the enemy targets. In this final run Cpl. Harrold had his gun blown from his hands and suffered a wound in his hand. His leg, too, didn't seem to work right but he never knew until several days later that his knee cap had been shot away. He buckled on a parachute and a few seconds after he dropped through the bomb bay door at the command of the co-pilot, he saw the ship burst into flames as it hit a mountain side. In the darkness of the night he drifted the 8,000 feet to the snow covered ground of the state of Washington. In the zero weather he managed to crawl to a road and fortunately was picked up by a passing motorist. All the other members of the crew who escaped the Jap bullets perished in the crash of the plane.

During his stay in various hospitals he saw many greusome sights—boys with no arms, no feet, no hands, no eyes, faces and stomachs blown or shot away — all horrifying living memorials of the awfulness of war.

The narrative was seasoned with the concepts of military secrecy and was related in a sincere yet unboastful manner. He, as most other boys who have been through actual combat, has a decided urge to get back into the scrap and hurry it to completion.

groom and Mr. Nelson was best man. The bride is a teacher in the Akron school and will continue her teaching. Mr. Nelson is a representative of the Martin Feed Mills of New Paris. They are at one in Akron.

## **\$25,000 BLAZE RAZES CHURCH NEAR HERE**

Loss of approximately \$25,000 was entailed in the destruction by fire of the Dunkard Church, southwest of Mentone, according to an estimate made today by the pastor, the Rev. C.C. Cripe. The loss is covered by insurance and the edifice will be replaced, the Rev. Mr. Cripe said.

An overheated furnace was believed responsible for the fire, which had gained much headway when discovered. A caretaker had kindled a fire in the furnace and had gone home to change clothes. The structure, which was remodeled one year ago, was in flames when he returned.

Members of the congregation will meet for services in a school building until a new building can be erected.

**NEW COUNCIL ORGANIZES**

The first meeting of the newly elected town officials occurred last Tuesday evening. Elmore Fenstermaker is clerk-treasurer. Fred Lemler was named president of the board with Cloice Paulus and Artley Culum the other two trustees.

The officials took their oath of office at the city hall at noon New Years day. At the short business session which followed Frank Warren was appointed marshal; Wm. Cook, night marshal, and Arlo Freisner, fire chief. The appointments were for the year 1944.

Council meetings will be held on the first Tuesday evening of each month at the city hall.

Raymond Bare made his solo flight at the Rochester airport Sunday afternoon. Ray has been taking flying instruction for several weeks and was capable of making his first flight alone within the minimum of eight hours of dual instruction.

**JURIES DRAWN**

Grand and petit juries for the January term of court were drawn Monday by County Clerk Orvel E. Phillips, under supervision of Rolla A. Anglin and Charles S. Ramsey, jury commissioners. Members of the grand jury chosen were: Fenton B. Davison, Mentone; John Norris, route 3, Warsaw; Ralph Ligget, Jackson township; Bert A. Smiley, Etna Green; Scott Swanson, Warsaw; and O. A. Heighway, Franklin township. Petit jurors chosen were: Anna B. Bishop, Leesburg; Harvey D. Boggs, Prairie township; Bertha Hamman, North Webster, Asa Dirck, Claypool; William Nyce, Syracuse; Robert D. Kuhn, Warsaw; Ralph Neff, Milford; Earl Gross, Piercetown; Russell Bradway, Harrison township; Gordon H. Johnson, Syracuse; Ralph Parker, Tippecanoe township; and Lester Culbertson, Piercetown.

**\$33,800 LAND SALE APPROVED**

Sale of two tracts of real estate for a total of \$33,800 by Vere Kelley and Lewis Erwin, executors of the estate of Eliza Ann Guy, has been approved in circuit court and the deeds approved and delivered. Eighty acres went to John Monroe and Maude F. Romine for \$6,600—one-third cash and the balance for notes secured by mortgage. A tract of 213 acres was sold to Orien B. Deaton for \$27,200 cash. The executors have also been authorized to sell personal property of the estate, including certain farm implements and an individual one-half interest in livestock, grain, hay and other items, at public auction.

**CARD OF THANKS**

I am taking this way of thanking the neighbors and friends for gifts and cards and especially those I missed by a very ill spell at the merriest time of year. I ask in my prayers many happy, prosperous years for you all.

## SALE OF AUTO LICENSE PLATES TO START JAN. 15

The sale of auto license plates and the various types of driving licenses will start on January 15, according to a statement made by Rue J. Alexander, Secretary of State, and Commissioner of the Bureau of Motor Vehicles.

The customary printed applications for plates will be mailed early in January to registrants of record in 1943. Mr. Alexander pointed out that, owing to the difficulty in obtaining material for supplies, there may be a slight delay in mailing these applications, and requested motorists to wait till they receive their applications before purchasing plates, even though it may be late in January.

Motorists are reminded by Mr. Alexander that 1943 plates and driving licenses expire February 29, 1944 but he urges motorists to obtain their plates and licenses as early as possible after January 15, in order to avoid the last minute rush the latter part of February.

Mr. Alexander emphasized the provisions of the law which require that each applicant for license plate or any form of driving license must show a receipt for his 1943 personal property and poll taxes, or a statement from the county treasurer that such taxes have been paid or a statement from the county assessor that he is not assessable in his county of residence. Forms for these statements will be mailed with the plate applications. They may be obtained, also, at any auto license branch or at the Bureau in the State House.

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

# Hard Coal Situation

We are in receipt of the following communication from one of our suppliers:

"The Solid Fuels Administration for War at Washington has placed an embargo against Anthracite shipments west of the western line of Pennsylvania.

"This federal regulation provides for the following exception:—

"The restrictions of this Regulation shall apply only to Anthracite shipped for use by a consumer for space heating, domestic hot water or domestic cooking, and this Regulation shall not be applicable to and shall not in any wise be deemed to restrict shipments of Anthracite to — any person for use in poultry brooders or hatcheries, provided, however, THAT THE BUYER WHEN PLACING HIS ORDER SHALL CERTIFY IN WRITING THAT THE ANTHRACITE COVERED BY SUCH ORDER IS TO BE USED ONLY — in poultry brooders or hatcheries, as the case may be."

We shall accordingly restrict our sales on any anthracite (hard coal) secured by us under this order to the uses designated by the federal regulation. If poultry raisers will be reasonable and keep only a supply on hand such as will take care of current needs it may be that we will be able to secure enough coal to see our regular customers through the brooding season. We can, of course, make no promises. But the above information is of such importance as to be brought to the attention of our customers.

### THROW OUT THE ANCHOR

The hard coal situation is hard to understand. Of course, judging from the past, it is difficult to understand many of the Washington-born rules and regulations—they seldom are conceived in logic. Like the orphan, "I wonder."

There may be a reason with merit for conserving the consumption of anthracite coal, but the restriction method employed would be sufficient evidence of insanity to send any human being to solitary confinement.

The original announcement by Solid Fuels Administrator Ickes was that it was needed in the furnaces in the east, and then climaxed it with a "blast" at Mr. McNut for herding some of his coal miners to the west coast and then letting the aircraft industry get them. As far as I'm concerned, I'd rather he and McNut would settle their arguments in the good old American way and not compel a couple of million of disinterested Americans, working day and night to help win a war, to live in homes devoid of any heat.

Oil burning furnace owners last year were advised to convert to coal so they could have the oil in the east—this year we're compelled, by unofficial edict, to go without coal. A re-

duction of shipments to all areas on a percentage basis would have been accepted, but if the people of Indiana, Illinois and Ohio accept this edict without a whisper of complaint in official quarters, then none of us need ever utter one word about dictatorship. We've not only accepted it but helped pave the way.

The "embargo" is to be until April first but it may as well be until October. We hope winter will be pretty well spent by April anyway.

The embargo makes it difficult for the coal dealers, too. After all, it is their responsibility as dealers to see that the needs of their customers are met under any and all circumstances. Their patronage in nor-

mal times is directly dependent upon how well they served in times of stress.

There are many homes that have absolutely no other means

of securing heat than from hard coal (base burner) stoves. They cannot use any other fuel except possibly a mixture with coke. Stoves are rationed and almost impossible to secure and soft coal, also, isn't easily obtained. Wood is plentiful—yet try and find any that can be purchased that is dry enough to burn—if you did have a stove.

With the hog situation looking rather dismal, the egg market completely shot, and no way of keeping the home warm for the wife and kiddies, it looks as if it's about time for the rest of us to move to Washington.

### FOXES ARE GETTING SMARTER

The wary foxes Saturday seemed to have learned more from the hunt the week previous than did the hunters. They shot three Christmas day but only got one New Years. Seven or eight, we were told, escaped the dragnet of determined hunters and took off for parts unknown.

(Don't say anything about it, but I rather expected what would happen. The first day only a few of the hunters brought guns, but it seemed to the others that it would be more fun doing a little shooting, too. The next hunt about everyone had a gun, and when they all got lined up, they were so scared of the other fellow that a squadron of B-17's would have had room to get through. We're going to chew Red Man scrap the next trip and then get so close together we can drown the little cusses.)

SALT LAKE CITY.—Kentucky has its colonels and Nebraska has its admirals, but the Fifth Airbase group stationed at near-by Fort Douglas sees a lot of the air corps' own reserve major general.

Furthermore, Maj. Gen. Teddy is more than just an ordinary dog. He has a citation presented by Assistant Secretary of War Louis Johnson and is equipped with everything he requires to be a first-class mascot for the Seventh bombardment squadron.

Teddy has his own personal parachute and blanket, on which is stamped the air corps insignia. In preparation for the high post he holds, Teddy boasts nearly 700 flying hours—more than many pilots.

A stocky, reddish brown animal, Teddy is a cross between a chow and a fox terrier. He's technically owned by Sgt. Philip Carroll, aerial engineer in headquarters squadron, but he really belongs to the whole outfit.

Among Teddy's accomplishments is included a flight across the country in 18 hours 20 minutes.

The second occurred when Kleyla's car and one driven by Mrs. Graham crashed at an intersection. Kleyla's machine overturned four times, but none in the two cars was injured.

"My personal interest in the Sunday school has many roots which go deep into the life of my family.

My husband's grandfather, the Reverend John Owen of England, was one of the originators of the Sunday-School idea, on whose pioneer work the entire institution was built.

My fathers' lifelong interest in the Sunday-School culminated in his Bible class in Royal Palm Park, Miami, Florida, attended every Sunday by an audience of several thousand people.

My personal service in the Sunday-school began with the teaching of the Primary class in my girlhood.

I was superintendent of that department at the age of sixteen and ever since that time have felt a close personal interest in the service rendered by the Sunday-School to the upbuilding of the church and the strengthening of the moral forces of the community."—Ruth Bryan Owen, Former member of the House of Representatives.

## DONALD BLUE WRITES

November 29, 1943.

Dear George,

I guess I had better give an account of myself as I haven't written you for some time now. I have been feeling pretty well considering everything.

I have been busier than I ever was at any time in my life and have been putting in some pretty long hours. It seems this climate isn't designed for the old hustle and hurry you or me for that matter is used to. I am in charge of the department I work in now and am carrying a load of responsibility. Yes, George you might say I'm back in the store business as I handle and order all parts for our planes. I know that very few people realize just how much work it takes to keep them in the air and our unit has the reputation of being one of the most efficient in the theatre. That I think accounts for our delayed stay out here but when and

if we do get to come back we can say and feel that we have given to the cause our very best. It gives me a great feeling of satisfaction looking at it from that angle and am sure when I get home I'll be able to see it that way.

I went to see a show tonight and as a matter of fact, it was the first in two weeks. We did have our own projector and had our own pictures for a while but the thing broke down and had to have some major repairs made on it and we have never been able to get the necessary parts to fix it. I guess that that picture machine brought more morale to our sqdn. than any other thing cause that was the only thing the guys had to look forward to at nights. I had a major part in getting the projector for our sqdn. and even used to operate at times. However, we had a man in our outfit that used to be an operator in civilian life.

George the guys I bunk with here which there are three of us in all,

one from N.Y. City and one from Wadsworth, Ohio and me I'm happy and proud to say from good old Mentone, Ind. I think it was the Sept. 6th. issue of Life magazine that it carried an article on Creighton Bro's poultry farm and did I ever have to show and let the guys understand that their farm was only five miles from my home. One boy who sleeps next to us is from San Jose Calif. and he boasts of being quite a poultry man, so I had to let him see that I come from a notable poultry raising center.

Say George I don't know what you would think of the idea but I have several rolls of film and I'm going to get a good shot of our sqdn. score board which I'm very proud of and feel sure it would be quite interesting to put in the home town paper. We have over a hundred and thirty enemy craft to our credit and the names of the pilots who have gave their lives are all on the board. I've noticed that other fellows have

had this same picture in their local paper therefore I see no harm in putting it in ours. I expect you wonder why I have never made any attempt to be a pilot. Several of the officers have asked me to give it a try and our Dr. told me to but George that is a thing for the individual alone to decide. I assure you that it takes more than just the ability to fly and I'm glad that I've found that out as I don't think I possess the right kind of material. I've seen so many young boys that were pilots that would have been much better off to the service and to themselves to have been doing the same kind of work I'm doing cause they are the kind that don't come back. You've either got it or you haven't.

George I see that it is time for the lights to go out so will close for now and hope this finds you all well and happy and the best of luck to you and your business. You're a grand guy to take such an interest in all the fella's.

Your friend, DON BLUE.

## JOHN O'BLENIS SUCCUMBS

John O'Blenis, 75, formerly of Mentone, died Sunday morning at his home at Walton, Ind., after a three-weeks illness with heart trouble.

He was born at Rochester on November 26, 1868. Mentone, Denver, Ind., and Walton, Ind. had been his residences during his lifetime. Mr. O'Blenis was a retired blacksmith.

Surviving relatives include two daughters, Elsie and Margaret O'Blenis, of Walton; and two sons, Harold, of Walton and Guy, of Logansport.

Funeral services will be held at 1 p. m. Tuesday at the Walton Methodist church, and burial will be in Mentone cemetery.

The Wolf funeral home, Walton, is in charge of arrangements.

### COOKS CHAPEL W. S. C. S.

W. S. C. S. of Cooks Chapel met Thursday afternoon with Mrs. Maudie Lackey. Mrs. Ruth Cook led devotions, after which election of officers was held. Those taking new offices were: Mrs. Ruby Gillespie, president; Mrs. Rose Cook, vice president; Miss Etta Cook, secretary; Mrs. Tressie Wagner, treasurer; Mrs. Ida Ellis, secretary of literature; Mrs. Lackey, secretary of supplies; Mrs. Ernie Parks, secretary of the missionary lessons. Refreshments were served to ten members. Mrs. Gillespie is hostess in January.

## INDIANA GROSS INCOME

### DUE JANUARY 31

Gilbert K. Hewit, director of the Indiana gross income tax division, has reminded Hoosiers that Jan. 31 is the deadline for filing 1943 Indiana gross income tax returns.

Penalties for delinquency range from 10 to 50 per cent of the tax due, plus interest at the rate of 1 per cent a month from the date the tax was due.

Eight different return forms are provided for reporting state gross income of different types of taxpayers. Form 1A is for use by individuals. Remittances may be made by check, money order or draft.

## COCK PHEASANT GOES TO TOWN

Many are the unusual events that show up at various times. I've heard of fish jumping in a fisherman's boat, and the like, but I've never heard of a cock pheasant coming to town, flopping on the grocer's door and then dashing to the meat counter—until last Friday.

For some inexplicable reason, a seemingly perfectly healthy cock pheasant came up main street, stopped before Clark's grocery store and then proceeded to "knock" for admittance. When someone on the inside opened the door Mr. Pheasant headed down the aisle and disappeared in the aft part of the store. He was located a few minutes later, neatly parked, or hidden, on the lower shelf of the shoe department.

Mr. Clark and Elmore Fenstermaker, neither having much confidence in the leniency of the game warden, took the bird to the cemetery and turned him loose.

## SOIL MANAGEMENT AND FARM MACHINERY SCHOOL

Plans have been completed for the Soil Management and Farm Machinery School to be held January 21 at the Warsaw high school auditorium for farmers of Kosciusko county, according to county agent Joe Clark.

George Enfield and Russell Shipman of the Agronomy and Agricultural Engineering Departments of Purdue University will be present with information on fertilization practices and machinery operation under war time conditions. Problems to be discussed will include, making the best use of the available fertilizers, operation of tillage equipment to handle soybean straw and corn stalks, methods of fertilizer application and operation of fertilizer distributing and planting equipment.

Since fertilizer and machinery are two very important items in the production of food county agent Joe Clark urges every farmer of Kosciusko county to plan to attend this meeting.

## NAVY REPORTS THAMES NORRIS KILLED IN ACTION

An article in the Warsaw Times states:

Thames (Freddie) Norris, 19, Warsaw navyman, formerly reported "missing in action," was reported as "killed in action" in a telegram from the Navy department, received by his parents, Mr. and Mrs. Everett Norris, 1107 East Clark street. The telegram was delivered at 10 p. m. Friday and stated that Norris was killed in action, in the performance of duty, and is buried in Allied territory outside the continental limits of the United States.

"Freddie," a Warsaw high school football star, was a machinist's-mate, second-class (MM 2-c), and was reported "missing" in a telegram received by his parents on November 19. He would have been 20 on Feb. 6, 1944.

(He is a grandson of Mrs. George Norris of Mentone.)

## SCOUT LEADERS MEET

Girl Scout leaders met Tuesday evening of last week at the home of Miss Marilyn Amos, Warsaw, with president, Mrs. Tay Hess presiding. Plans for a potluck supper, to be held February 1, at the senior high school, a joint dinner of the leaders' association and Warsaw-Winona Lake Girl Scout Council, were completed. Committee for the affair is composed of Mrs. Ellen Keifer, Mrs. Guy Rinebolt and the Misses Martha Louise Bartol and Isobel Rarick. Miss Irene Dome reported on "Model Brownie Fly-up," and there was group singing. Miss Bartol led a discussion on "Troop Problems."

Refreshments were served to Mesdames Tay Hess, Ellen Keifer and the Misses Isobel Rarick, Martha Bartol, Irene Dome, Gloria Broughton, of Warsaw, and Mrs. Artley Cullum and Miss Louise Paulus of Mentone.

Dean Nellans, Jr., son of Mr. and Mrs. Dean Nellans, is at St. Mary's College, Winona, Minn., a member of the Navy V-12 class.

## CHINESE ARMY CAPTAINS AT METHODIST CHURCH SUNDAY

Captain Choa Yung Wei and Captain T. S. Kwei, both of the Chinese army, will be guests of the Mentone Methodist church next Sunday at the morning worship service at 10:00.

Captains Choa Yung Wei and T. S. Kwei are representatives of the Chinese government and are studying the American methods of production at the Studebaker plants of So. Bend, Ind., for their country. China is an ally of the United States in the present war with Japan.

Captain Wei speaks English and will speak at the morning service. Both are adherents of the Christian faith.

Mr. Wayne Tombaugh, of Mentone, who has made the acquaintance of these two gentlemen, is entertaining them in his home, and introducing them to the community.

The story they will tell to the children and adults will be very interesting especially since our nations are engaged in a common conflict.

The special offering which will be taken will be applied to China Relief. They cannot receive compensation for their own service, but may represent their nation's cause. Come to hear them.

## READING CLUB MEETS AT HOME OF MRS. CLUTTER

The Mentone Reading Club attended, in a group, the meeting held at the Mentone Methodist church Tuesday evening, January 11, of a demonstration of the Sister Kenny method of the treatment of infantile paralysis.

The members of the club then met at the home of Mrs. T. J. Clutter.

Mrs. C. O. Mollenhour, president of the club, conducted a short business meeting.

The hostess, assisted by Mrs. Fred Lemler and Mrs. Walter Lackey, served dainty refreshments.

The club will meet in February at the home of Mrs. H. V. Johns.

Captain and Mrs. Dewey Baker visited friends in Mentone Monday.

## NUGGETS FOR BEREANS

No. 90.

"IN THE BEGINNING . . . ."

Gen. 1:1; John 1:1.

Here are the same words in two different places. At first glance one would naturally think that they were about one and the same period of time. But are they?

In the first one we have something about the beginning of the heavens and earth. It is about the beginning of the present creation as we know it and experience it. There is no word here about anything beyond or before the creation. We have no hint about how long God existed before this time or where. The story in Genesis is only about the coming into existence of this earth and its order.

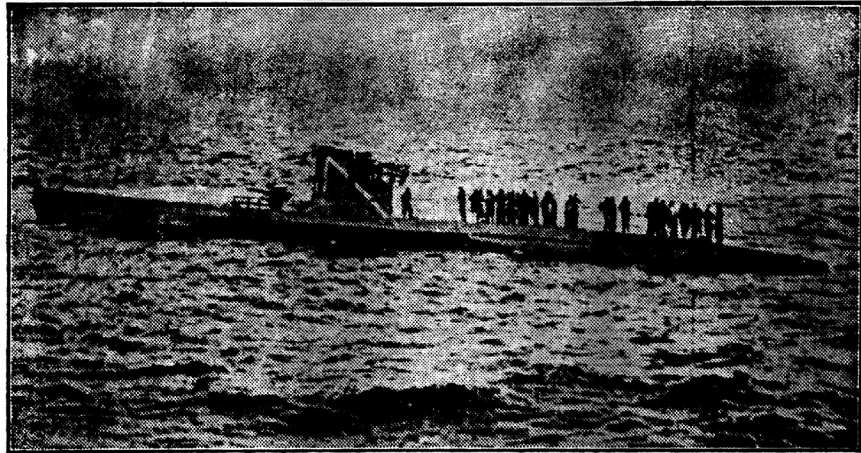

But in the gospel of John we have a different idea presented. Here the BEGINNING is in reference to the beginning of God, not the earth. It is emphasized that Christ was from that beginning, was with God, and was God. That certainly must go back much farther than the BEGINNING spoken of in Genesis.

That our Lord existed long before the creation is very definitely proven from the first chapter of John, for there is nothing that has an existence that was made without his hand. A careful study of the first

chapter of Genesis will reveal the three persons at work, each in His appointed phase or revelation. These aspects of God may be beyond our finite minds, but it only adds to the glory of God and His Christ when we realize that there may be some difference in time when we read the two accounts of "In the beginning".

—Oscar M. Baker.

"We wear white at night" is the subject of the January poster in the series "We work for Victory too," being distributed to more than 38,000 classrooms in the Illinois and Indiana territory of the Chicago Motor club.

More than a million school children in this territory are urged to observe all traffic rules in an effort to reduce accidents, which not only are unnecessary and tragic but which divert time of doctors and nurses, and hospital space needed for the war emergency.

Instruction sheets accompanying the poster help teachers use the safety lessons to best advantage for various groups, such as pupils of different ages and grades and in rural and municipal areas.

# Hard Coal Situation

We are in receipt of the following communication from one of our suppliers:

"The Solid Fuels Administration for War at Washington has placed an embargo against Anthracite shipments west of the western line of Pennsylvania.

"This federal regulation provides for the following exception:—

"The restrictions of this Regulation shall apply only to Anthracite shipped for use by a consumer for space heating, domestic hot water or domestic cooking, and this Regulation shall not be applicable to and shall not in any wise be deemed to restrict shipments of Anthracite to — any person for use in poultry brooders or hatcheries, provided, however, THAT THE BUYER WHEN PLACING HIS ORDER SHALL CERTIFY IN WRITING THAT THE ANTHRACITE COVERED BY SUCH ORDER IS TO BE USED ONLY — in poultry brooders or hatcheries, as the case may be."

We shall accordingly restrict our sales on any anthracite (hard coal) secured by us under this order to the uses designated by the federal regulation. If poultry raisers will be reasonable and keep only a supply on hand such as will take care of current needs it may be that we will be able to secure enough coal to see our regular customers through the brooding season. We can, of course, make no promises. But the above information is of such importance as to be brought to the attention of our customers.

## SCHOOL NEWS

The Mentone Bulldogs won their seventh game of the season as they took a bitterly contested 36-35 victory from the Akron Flyers. It was the second time this season the two had met, Akron winning the first time on their own floor.

Mentone got off to a fast start and lead 13 to 6 at the end of the first quarter. The second quarter both teams hit consistently and Mentone led 25 to 14. The final half Akron outplayed the Bulldogs and had pulled within five points at the close of the third quarter. As the fourth quarter got underway, Akron came with a rush tying the score and then went into a two-point lead, the score then being 33-31. With four minutes to go Junior Fore scored from underneath to tie the game at 33. Both teams then scored and also made a foul shot to give Mentone a 3-point lead. Akron scored a record later to narrow the margin to one point. For the remaining minute of play both teams fought hard for possession of the ball with the Bulldogs finally holding it until the gun went off. Mosier and Boggs each scored 10 points for Mentone while Utter collected the same for Akron.

The second team played its best

game of the season, defeating the Akron seconds 43-13. Dick Filarsky and Royal Blue led Mentone with 13 and 11 points.

This week Mentone travels to Pierceton to battle the Cubs who have won 12 games without a defeat. Mentone will try to stop their high-scoring ability which has given them a 51 point per game average this season.

The county tournament, which will be held January 21 and 22, gave Milford as Mentone's first opponent after the drawings last week. A complete schedule of the tournament will appear next week.

### Debauch of the Young By Clinton N. Howard

Famine and pestilence have never been able to destroy nations. Terrible as is this scourge of war, no nation has perished as a result of war. Many believed that Germany was down and out at the end of World War I. She came back in 20 years more powerful than ever. France is down, but not out, and if her light ever goes out it will not be extinguished by German arms. Poland will live again!

Nations like Rome, "mistress of the world," die of moral cancer, as did the civilizations of ancient history. And that disease is eating at the heart of America today as never before. Nothing has been more startling and fraught with gerater consequence to our "freedom" than the recent facts disclosed by J. Edgar Hoover, head of the F.B.I., as of Nov. 18, on the crime front and his revelations of juvenile delinquency. They should be repeated again and again until the entire nation realizes that

we are in danger of becoming a nation of criminals within the next generation.

Let Mr. Hoover tell his own story. He says: "Frankly, the heart-breaking thing about the juvenile crime situation today is the fact that we know it is just a forerunner of a more serious crime situation as these youthful violators grow older. The present situation cannot be charged entirely to wartime laxity and a last fling philosophy of life. That may be the case with the older violators, but when mere children turn to crime, there is a more sinister reason.

"This condition did not come on us overnight. It is deep rooted and does not forecast a very bright picture for the future. Something has happened to the moral stamina of America when the conventions and principles of honesty and common decency are regarded as old fogy and antique. There are certain fundamentals in life that are essential. . . .

"Our country's future rests in the hands of the youth of today. In order that they may be prepared to carry that great responsibility, it is the sacred duty of every mother and father, and as a matter of fact, of all adults, to prepare them for it. We must give them every advantage and aid and example within our power to develop within this youth the fundamentals of honesty and integrity in dealing with their fellows. We must instill in them the principles of freedom and liberty and patriotism to carry on the ideals of the founders of this great republic. Our democracy has been established—whether it stands or falls depends upon those who follow us. If they are not prepared by us, it is we who will have failed."

### Alcohol and Crime

In other words, what this country is suffering from is adult delinquency. If we are to keep youth out of the

## FOURTH WAR LOAN DRIVE STARTED TUESDAY

The Fourth War Loan Drive officially opened Tuesday and will continue for the balance of January and all of February. This community's share of the \$1,318,700.00 county quota is \$125,000.00. This amount is divided as follows: Harrison township, \$56,500; Franklin township, \$42,000, and Mentone, \$26,500.

An organization meeting was held at the school house Monday evening and plans were made for the canvass of the area. K. A. Riner is local chairman, with Raymond Lash and Lloyd Miner as co-chairmen in the townships of Franklin and Harrison, respectively. Elmore Fenstermaker is chairman in Mentone.

The solicitors are:

### THINK IT OVER

How about doing a little cold turkey thinking after you lay aside this newspaper tonight?

You've got a good job. The chances are there is someone else in your family, perhaps two or three, working. Your son or your brother—may be away at war.

This war must end sometime. Your whole family, your neighbors, are praying it ends soon and those fighting boys of yours will come home safely.

But will you be ready for whatever happens when peace comes? Will you have something laid away? We're all hoping there'll be jobs aplenty, jobs which mean making something for somebody's happiness and not for somebody's sorrow. That's where your War Bonds come into the picture. Sure, Americans own billions of dollars of War Bonds now; and before this 4th War Loan ends they will have put away billions more. But how about you? You're the one that counts. The bigger the pile of War Bonds you have when peace comes, the bigger chance you'll have to slip right into the post-war world you're dreaming about tonight.

So "Let's All Back the Attack."

THE EDITOR.

## FARMER ENDS LIFE WITH GUN

Charles Lester Davis, aged 63 years and 10 months, took his life early Sunday morning at his home five miles southwest of Warsaw.

Mr. Davis had been in ill health for several years. His wife found him in the corn crib where he had gone to fire the fatal shot.

Surviving are the wife, the former Myrtle Bemenderfer; three sons, Earl of Tippecanoe, Harry of Camp Hood, Texas, and Emory of the navy; two daughters, Mrs. Howard (Pearl) Horn of Mentone, Mrs. Earl (Orpha) Leedy of Warsaw; three brothers, Vorhis and Clyde of Akron, Ross of Mentone; two sisters, Mrs. Etta Wilhoit of Akron and Mrs. Amy Lamar of New York City.

Funeral services were held Wednesday at 1:30 p. m. at the Davis residence, with Daniel Slabaugh of Akron officiating. Burial was in the Odd Fellows cemetery at Akron.

Harry and Emory Davis arrived in time to attend the funeral of their father.

## MRS. HARRY WITHAM TO BE BURIED SATURDAY

Mrs. Harry Witham, aged 71 years and a resident of the Harrison Center community for many years, died at 4 a. m. Thursday at the Murphy medical center where she had been confined with peritonitis which developed following an operation.

The deceased was born near Milford on September 5, 1872, the daughter of the late David and Jane Blough. She had resided her entire life in this county and for the past 40 years had lived at Harrison Center, near Mentone. She was married to Davis Gibson in 1899, who preceded her in death by 20 years. Surviving is Harry Witham, whom she later married. She was a member of the Harrison Center U. B. Church.

Surviving relatives other than the husband named above include: four sons, Homer Gibson of South Bend, David Gibson of Mishawaka, Kyle Gibson of Warsaw route 5 and Merl Gibson of Fort Bliss, Tex.; three stepsons, Thomas Witham of Atwood, Arthur Witham of Mentone, Richard Witham of North Manchester; three step-daughters, Mrs. Ethel Carter of Indianapolis, Mrs. Mary Teel of Mentone and Mrs. Edith Haney of Elma Green.

The Johns funeral home, in charge of arrangements, announces that the funeral service will be held at two o'clock Saturday afternoon at the Harrison Center U. B. Church, Rev. R. C. Smith officiating. Burial will be at the Salem cemetery near Leesburg. Friends may call at the Witham home after three o'clock Friday afternoon.

## GROSS INCOME TAX AID

Vere Kelley, manager of the Warsaw auto license branch in the Elks' Arcade, has announced that his office will remain open from 7 to 9 o'clock on Tuesday and Thursday nights of next week to assist factory workers and others unable to appear during regular business hours in making state gross income tax reports.

## SCHOOL NEWS

I their final game before the county tournament Mentone was defeated by the Piercetons Cubs, 45-33. The game was much better than the score indicates because Mentone trailed by only 6 points in the final minute. Makemson, Cub forward, scored 3 times in the final minute to raise the margin to 12 points. Piercetons got off to a fast start and held a 13-5 first quarter lead. Mentone then outscored the Cubs by one point in the second quarter and at the halftime the score stood 17-10 for Piercetons. Again in the third period Piercetons got hot and raised the count to 31-22. The Bulldogs then decided they weren't going to let the score go like that and on three baskets and a foul shot, narrowed the count to 31-27. From then on both teams matched each other point by point until the Cubs finally got a six-point lead. In the final minute they raised it to 12 points. The game was rough with 15 fouls being called on each team. Huntly scored 14 points to lead the winners while Boggs with 12 points led the losers. Mentone showed a lot of fight under the basket with Fore, Tinkey and Mosier getting more than their share of rebounds while Whetstone held the Piercetons fast break down by intercepting their long passes.

Mentone lost the services of Ned Igo for the tournament when he suffered a broken nose early in the first quarter.

The Seconds won their tenth game of the season as they defeated the Piercetons seconds 18-12. Rex Witham and Don Shilling each scored six points for Mentone.

## WAR LOAN

Concessions for the county high school basketball tourney, which will be held at the Warsaw Armory on Jan. 21 and 22, have been sold to the Claypool high school.

It was announced that season tickets for adults would be \$1.50 and for school students, \$1.25. The student tickets must be purchased at the schools before the tournament. Single admissions will be 40 cents, including tax.

Each of the 14 county teams will be permitted to use 10 players on their squads.

It will be noted from the tournament schedule that with but one exception (the game between Mentone and Milford) all the first-game pairings are neighboring schools.

# TIME FOR ACTION

Conditions as regards egg cases have finally become critical and the egg shipping public should be made aware of the facts.

Wooden egg cases are not available except at the local factory. They are doing all they can but shortage of suitable material and labor makes it out of the question for them to supply all that are needed in the community.

The paper shortage is acute and the War Production Board will not permit container manufacturers to use materials for making egg cases. All manufacturers are in the same boat.

Every local dealer in egg cases is going to the limit in trying to get enough cases to supply the farmers. But every way they turn they encounter a "stone wall."

Producers of eggs will not be able to get sufficient cases for some time.

This is an area where cases are absolutely necessary if poultrymen are to market their eggs. The time has come when all egg case suppliers need help. It is time for action.

We suggest that EVERY producer of eggs IMMEDIATELY WRITE OR WIRE his Congressman, his Senator and the War Production Board and demand that materials be made immediately available for egg cases.

The wheel that squeaks the loudest gets the most grease. The situation is critical! Do it today!

This message is given you in the interest of all suppliers of egg cases to farmers. If they can get cases the farmers will get cases. This is a situation in which food must be kept flowing into the channels of FREEDOM.

#### LINUS BORTON CAR STOLEN FRIDAY NIGHT

The auto belonging to Linus Borton was stolen from its parking place on Main street Friday night. The car was stopped at Elkhart two or three hours later when it was apparent to highway patrolmen that the driver was under the influence of liquor. A case of beer, with six bottles empty, was found in the car after Maurice Paxton, 32, of Mentone, and Virgil Reynolds, 36, were arrested. Drunkometer tests were reportedly given Reynolds who was found to be far beyond the intoxication stage. The two men had been observed drinking and loitering at Mentone that evening. They wasted no time in getting into the car and driving away when Night Officer Cook left to attend to other matters of duty.

The two men were returned to the county jail.

### CHURCH OF CHRIST

Mentone, Ind.

Clyde C. Sloan, Minister.

We extend to you a warm invitation to attend the services of the church of Christ. During such perilous times as the world is now experiencing we should not forget God. It is important that you attend the spiritual and uplifting services of His church. When you have attended the services of the church on Lord's day it not only prepares you for the things which lie ahead, but you can look back over a week that was well spent. We must place a value on salvation before it is of any consequence to us.

The following is the church schedule of services:

### FIRST BAPTIST CHURCH

Mentone, Ind.

You are ever welcome to this house of God

B. S. Pearsall, Pres., B. S. Pearsall Butter Co., says: "I am free to say that I believe the strongest influence and factor in the world, even above its finances, political power, educational institutions, is the American protestant church and that the Sunday school as it exists today, even tho faulty, and of brief sessions and using sometimes crude and illy prepared material, is the greatest strength and agency of the church. It is its inspiration, its field of work, its hope and has made its growth and great

success from the Sunday school.

"I believe it is the greatest influence among employees in business, has the most lasting effect on social life. It is the greatest cure of trouble and difficulty in families and is the joy, life and the promise of our children in youth, and young people."

Great men value the Sunday school—Do you? Bring your children Sunday. Classes for all ages.

### NUGGETS FOR BEREANS

No. 91

"WHERE ART THOU?" (Gen. 3:9).

"WHERE IS HE . . .?" (Matt. 2:2).

The first of the above questions is the first question in the Old Testament. (The rhetorical question of Gen. 3:1 is really a statement).

"Where art thou?" were the words spoken by a grieved Father to His son, Adam. It is the voice of God seeking the sinner. And so yet today

the voice of God is still seeking each and every one with the same question, "Where art thou?" Adam answered the voice. Many now do not listen to the voice. They pretend not to hear it. Not so with Adam. He answered and confessed his guilt. Then his loving Father made provision for his every need and was merciful unto him, even to the promise of release of the curse by the Seed of woman Who would put to naught the work of the evil one.

"Where is He . . .?" is the cry of the sinner seeking the Christ. It is sad, but true, that few seek Him. He is the One Who is seeking. He is ever seeking lost sheep. They seldom seek Him. But this question, "Where is He . . .?" is the first question of the New Testament.

The order is the right one for these two questions. In John's Gospel Jesus makes it plain to His disciples that they did not choose Him, but that He chose them. In the epistle to the Ephesians Paul emphasizes the same thing when he says that we were chosen in Christ. It is a sad commentary on man when the Word says that "None seek after righteousness."

If you are not a justified believer, I would emphasize the fact that God is speaking, "Where art thou?" Are you interested enough to ask "Where is He . . .?"

### VISIT TELEPHONE EXCHANGES

Tuesday afternoon, Mrs. Ethel Whetstone, Mrs. Pauline Borton and daughter Sue, and Miss Georgia Dillingham, all of the Mentone telephone office; Mrs. Verna Montel and Mrs. Genevieve Durhamiller of the Atwood exchange, and Mrs. Katherine Dinkledein, telephone operator at Bourbon, were the guests of Mr. W. J. Smith, secretary of the Northern Indiana Telephone company on a very interesting tour and inspection trip to several of the exchanges of the company. They visited the exchanges at Bourbon, Akron and Burket, the automatic office at Laketon and the main office at North Manchester. They found it especially interesting to meet the other operators and to inspect the large and intricate switchboard in the main office at North Manchester.

The Pennsylvania Railroad company has filed an answer in circuit court to the complaint for damages of Gifita Boganwright, administratrix of the estate of Lawrence E. Boganwright, setting out that the plaintiff's husband, a horse-dealer, of near Mentone, who was killed in a truck-train crash a mile east of Etna Green on May 9, 1941, was negligent. The railroad asks a judgment in its favor. The administratrix, in her suit, asks judgment for damages of \$1,450.

The bodies of Guy R. Barr, 53, and his wife, Mary C. Barr, 51, were returned to Rochester Thursday from Lebanon, where both had been taken after they were killed the night

before when their car collided with a parked semi-trailer truck.

## MRS. C. E. TURNER DIES AT HOME IN WARSAW

Mrs. C. E. (Sally) Turner, 70, died at 7:30 a. m. Thursday at the Turner home, 1116 East Center street, after an illness of the past several months. Death was due to complications.

She was born in Churubusco, Whitley county, on June 30, 1874, the daughter of the late Abraham and Catherine Gordon, and, as a child, resided there. C. E. Turner and Sally Gordon were married at Mentone in 1916, later moved from Mentone to Fort Wayne, and for the past 20 summers had operated Turner's cafeteria at Winona Lake. The Turners were wed 50 years last March 21. She was a member of the Warsaw Methodist church, and Eastern Star of Mentone.

Surviving relatives include: the husband; one daughter, Mrs. James Case, Sr., of Warsaw; one son, Gordon Turner of Fort Wayne; six grandchildren; three great-grandchildren; numerous nieces and nephews; one brother, Charles Edward Gordon, of Fort Wayne; two sisters, Mrs. Ed Nestle and Mrs. Jesse Rowland, of Churubusco.

Funeral services will be held at the Landis funeral home at 2 p. m. Sunday, Rev. R. C. Plank, Warsaw Methodist pastor, officiating. Burial will be in Eel River cemetery at Churubusco.—Warsaw Daily Times.

## COMPLETE ACCOUNTING COURSE

Eight people have received certificates from the Indiana university school of business for successful completion of the war-training course in fundamentals of industrial accounting conducted in Warsaw during the past 15 weeks under the Engineering, Science and Management War Training Program of United States Office of Education.

The classes, which was a beginning course in accounting assuming no knowledge of accounting or bookkeeping, was taught by E. W. Kelley, Dalton Foundries, Inc.

Sherman Bybee and Nellie B. Reed were those from Mentone who were awarded certificates.

## SETH H. FLENAR, 37, PASSES AWAY SUNDAY

Seth H. Flenar, 37, died Sunday at 10 p. m. at his home two miles east of mentone, after a six months' illness with carcinoma. He had been bedfast for the last three months.

Mr. Flenar, who was employed at Power King Tool corporation, in Warsaw, was born in Fulton county, on December 31, 1906, the son of Wesley and Alice Flenar. He had lived in and around Mentone all his life, and by trade was a baker. On November 17, 1926, he was wed to Mildred Robbins. The deceased was a member of the Mentone Baptist church and the Mentone high school graduating class of 1924.

Surviving relatives include: the widow; six children, Doris, Robert, Larry, Donald, Kay and Max; mother, Mrs. Alice Flenar, of near Warsaw; two brothers, Charles, of near Warsaw, and Merl, of near Argos; four sisters, Mrs. Charles Tucker, of near Burket, Mrs. Cloyce Baum, of Warsaw, route 5, Mrs. Walter Rager, of Akron and Mrs. George Keefer, of Marion, O. One son, Jerry, died in 1930.

Funeral services were held at 2 p. m. Wednesday at the Mentone Baptist church, Rev. E. Coleman Ralston and Rev. Silas hill officiating. Burial was made in Palestine cemetery.

The Johns funeral home, Mentone, was in charge of the services.

Loren Bickel, 74, of Warsaw, was treated at the Murphy medical center Sunday evening for cuts on his wrists and throat. The aged man, who had been living alone in a former grocery store building owned by his son-in-law, A. G. Engle, said he had been despondent, according to police. Mr. Bickel had lived on his farm near Burket until recently.

Mrs. Naoma Baker, who recently underwent a major operation at the Murphy Medical Center at Warsaw, was brought to the home of her daughter, Mrs. Thomas Witham, of near Atwood Sunday.

## To the People of this Community

### YOU ARE IMPORTANT

There is no such thing as a "little" investment in the Fourth War Loan.

Your \$25 or \$50 or \$100 Extra War Bond may not have great importance in your mind in making up a 5½ billion dollar total for individuals.

But multiply yourself by 130,000,000 and then you see in real perspective how truly great each citizen becomes in massing national strength against the Nazis and the Japs.

Capt. Maurice Witherspoon, Navy chaplain aboard the Carrier Wasp when she sank, tells of a rescued wounded sailor, who, as he regained consciousness, asked: "Did I do my best?"

That's the only question you, too, have to ask yourself when you decide the extent of your personal participation in the Fourth War Loan.

There undoubtedly will be large single purchases of War Bonds in this community, but yours—if it is "your best" will deserve equally the red, white and blue shield you are privileged to display in the window of your home.

So "Let's All Back the Attack."

HOME ECONOMICS CLUB MET  
WITH MRS. ADA MEREDITH

The Mentone Home Economics club met on Thursday, Jan. 20th, with Mrs. Ada Meredith. Mrs. Helen Mollenhour was assisting hostess.

The Creed was repeated and the club prayer sung.

Outlook for 1944 was given by the president, Linnie Anderson. Roll call was "A New Years Resolution."

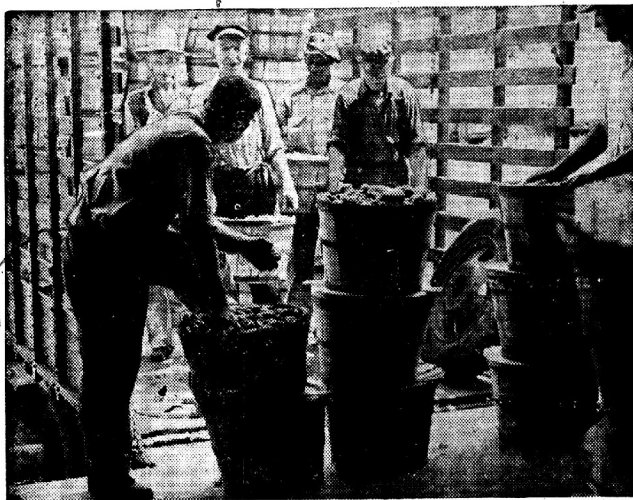

The lesson baking of bread and

rolls was given by Eloise Long and Blanche Paulus.

The secretary's report was read and the business meeting followed.

Refreshments were served to 20 members and five guests, Mrs. Vivian Snyder, Mrs. Burl Jefferies, Mrs. Mildred Meredith, Mrs. Marcella White and Mrs. Clyde Sloan and four children.

The February meeting will be with Nora Teel.

High Prices, Heavy Yield and Low  
Output Cost Recommend Pickle Crop

High quality pickles are needed for the armed forces and bring the grower top prices.

BY supplementing their grain, fat and fiber crops with an acre or two of pickles, farmers can help meet requests for a bigger 1944 pickle crop to meet military and civilian demands, according to a statement made public by the National Pickle Packers Association.

Because of low production costs, heavy yield and the highest contract price in history, "that extra acre" planted to pickles can do its share toward contributing to the war effort and at the same time provide some welcome revenue for the farmer.

Pickles are classed by the government as essential food. Proof of the importance of pickles as part of the day-to-day diet lies in the fact that draft deferment units are allowed on an acreage basis.

Advantages of pickles as a cash crop are many, the Association declares. Prevailing prices are the highest in history. The properly tended field, picked every day during the height of the season, will yield handsome crop dividends. Certain highly successful growers have

realized record incomes as high as \$400 to \$500 per acre. The average is lower, but careful growers are certain of high per-acre income.

Another value is that pickles are an excellent "in-between" crop. They begin to yield approximately six weeks after planting. The revenue provides the farmer with a carry-over of cash when he needs it most.

No extra labor is needed. In fact, the work can be done by children in their 'teens. The cost of seed is nominal. No machinery or war-scarce implements are needed. Work of cultivating and harvesting can be done at odd hours. Transportation of the crop offers no problems, either, for only short hauls are required to the packer's receiving station.

Grown from scientifically developed seed, the modern pickle crop is a vast improvement over its predecessors of 10 or 20 years ago, giving the farmer more quantity, better quality and therefore higher valued stock.

## SCHOOL NEWS

By defeating Milford 54-38 in the final game of the county tournament, the Pierceton Cubs won their second championship in a row. Milford had won over Warsaw and Pierceton had defeated Silver Lake in the semi-final round of play. High point of the tournament were the 36 points John Tom, Milford forward collected in the Milford-Warsaw game. This broke all county scoring records.

Mentone dropped from the running in the first game as the Milford Trojans defeated them 36-32. Mentone should have won the game as they led 29-25 in the last five minutes of play, but Milford rallied and scored eleven points to Mentone's three. The Bulldogs got off to a fast start and lead 10-8 at the first quarter. They collected two quick baskets and were leading 14-8 midway through the second quarter. Then the Trojans came up fast and the score stood 15-15 at half time. The Bulldogs again lead at the end of the third quarter 26-25. The final quarter saw Mentone lose both Boggs and Fore on fouls. Milford scored their winning basket in the last two minutes of play as Wolferman scored from underneath. This broke a 32-32 tie and Shuder scored a few seconds later to send the Trojans into the second round of play.

"Fritz" Wolferman led the Trojans as he dropped 14 points through the hoop. Emery Mosier and Jim Whetstone each scored 10 points for the Bulldogs.

Mentone hopes to get back on the victory trail as they meet Tippecanoe on Friday night at Tippecanoe.

## A President is Born

HE is so small and helpless. So dependent on you for his life and well-being. And yet you are able to look at him and say—

"Someday he may be President."

Put it down as foolish sentiment. Put it down as parental pride. But where else in the world could you envision for your child the possibility of his attaining, one day, the highest office in the land?

Maybe your child won't make it. But one child, very much like him, will. One child out of the three million babies born this year—or the next—or the year after.

Whether or not he attains this high position is not so important. What matters is that here, in America, he is born

with that opportunity. He is born in the stubborn tradition of free men—men who felt that in government, the wisdom of the many is preferable to the ambition of the few. He is born in a tradition of self-reliance—where he may succeed or fail, win or lose, rise or fall, according to his own efforts.

Because of that, you will train him to think for himself, to fight his own battles, to make his own way.

You will teach him that responsibility is inseparable from freedom. And that if he joins with other men in an enterprise he should demand the same responsibility and freedom for his business that marks his birthright as an individual.

Someday he may hear, as you have heard, voices that say, "Surrender your opportunity for the certainty that you shall always have bread"—as if man lived by bread alone. As if the country were better served by limiting all to mediocrity—instead of assuring to all, under law, an equal chance to rise by their own efforts, conscious of their obligations to others.

What that son of yours learns at your knee will decide whether or not he will ever have to bend his knee before dictation and tyranny.

And because of what you teach him, he too may one day look with that same foolish pride on his own son to say, "Someday he may be President—"

### FIRST BAPTIST CHURCH

Mentone, Ind.

You are ever welcome to this house of God

Mr. V. O'Shea, professor of Education, University of Wisconsin, says: "I wish every boy and girl might have training in a good Sunday school. I cannot think that boys and girls can be adequately prepared for life if their religious training is omitted. The training which is cared for by the Sunday school is for the most part shut out of our secular schools, at least all public schools."

Our American civilization has been built on religious training and I think it would be disastrous if the rising generations should not have an opportunity to receive the training which a good Sunday school can and does give young people."

"MY HOUSE SHALL BE CALLED THE HOUSE OF PRAYER." Matt. 21:13.

The temple in Jerusalem has been considered the house of God. When it had first been built by Solomon, it was filled with the glory of God as evidenced by the cloud and the Shekinah light which filled the Holy of Holies.

Jesus was saddened by the sight of this holy temple being made a

place of merchandise. Its original purpose seemed to have been forgotten by those in charge. They had set up their own program of religion. They had not forgotten to look out for their own gain in so doing.

Jesus could not feel at home in such atmosphere. He drove out those that bought and sold and charged them with making the house of God a den of thieves.

The warning went unheeded. As soon as Jesus had gone they went back to their business. They also went about seeing how that they might destroy Jesus. They had no place for Him in their temple. They had no place for Him in their lives. The day was coming when He would strive with them no longer. Their temple was to be destroyed and God would give them up to their enemies.

That is why Jesus changed it from MY HOUSE to YOUR HOUSE when He pronounced their fate in Matt. 23:28, "BEHOLD, YOUR HOUSE IS LEFT UNTO YOU DESOLATE."

### D. A. R.'s ENTERTAINED

Mrs. Max Smith, assisted by Mrs. Orpha Blue, entertained the members of the Daughters of the American Revolution Tuesday evening at her home on West Harrison Street.

During the business session conducted by the regent, Mrs. Rush, a decision was made for each member to donate \$1.00 for the blood plasma fund.

Mrs. Pearl Lackey gave a most interesting paper on "Working Dogs of the World," and Mrs. Edna Carey gave a short description of the D. A. R. work being done on Ellis Island.

Miss Elma Cattell was a guest.

During the social hour delicious refreshments were served.

Chapter adjourned to meet Feb. 22 with Mrs. James Gill, Mrs. Edna Carey assisting.

County commissioners Russel Phillips, Ray Ferverda and Orven Heighway and Steve Laughlin, county highway superintendent, went to Purdue university Monday to attend the annual state road school. The school was scheduled for the first three days of the week.

### Sweating Chimney Cure

A sweating chimney is caused in most cases by lack of sufficient draft to carry out the heated gases quickly. If they remain in the chimney, they condense resulting in a sweat that runs down the pipe of the chimney. Lengthening the chimney will usually give more draft or it may be necessary to make an opening at the bottom that may be opened or closed as needed to admit enough air to provide sufficient draft.

## Beware Coughs from common colds That Hang On

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

### Promotes Barn Safety

Barns and various other types of outbuildings normally have dark interiors which render users liable to accidents and may encourage disease germs. Painting the interiors of such structures white will greatly increase visibility and, if artificial lights are used, will greatly increase their effectiveness by light reflection, especially if white paint is used. At the same time germ life, which may be a threat to livestock as well as to humans, will be discouraged to an important degree.
