GOOD NEWS FOR FARMERS

A leading farm implement manufacturer has announced price reductions ranging from \$150 to \$650 on crawler-type tractors, effective immediately. Other manufacturers, it is believed, will soon meet the price cuts on this type of tractor. While price reductions on their machinery of production is welcomed by farmers at any time, the present case is particularly timely since farmers are faced with the prospect of receiving lower incomes from their crops this year. No price reductions have been announced on wheel-type tractors, which are used by a majority of farmers. However, the strengthened competitive position of crawler-type tractors which will prevail as a result of lower prices, may eventually force similar reductions on the wheel type tractor.

Strange as it seems, liquor production is running ahead of consumption and the nation's stocks are large enough to last for seven years even if not another drop was made.

It is reported by English newspapers that Dr. Sigmund Freud, 82 year old father of psychoanalysis escaped to England from Austria only after friends paid a ransom to the German government of \$50,000.

According to Charles F. Kettering of General Motors - when you were born everybody in the world was older than you. When you were one year old there were two million persons in the United States who were younger than you. When you reach the age of 25, half the people in the world are younger than you. When you are 50 you are older than nine-tenths of your fellow human beings.

Political placards nailed to trees and fence posts might have been effective in the old horse and buggy days when the traveler needed something to divert his mind and attention, but nowadays if one does a proper job of driving, and succeeds in dodging the drivers on the highway who can't do a proper job of driving, he has no time to read placards and make up his mind regarding the relative merits of several candidates.

One exhibitor may win not more than one award in each of the above classes. These prizes will be given in addition to the regular prizes awarded in these classes by the Mentone Lions Club. If you plan to exhibit canned foods this year, be sure they fulfill all the above qualifications so that you may compete for one of the six Kerr prizes.

Two Minute Sermon

By

Thomas Hastwell

SYMBOL OF LIFE & LIBERTY:

The American flag is the symbol of liberty and of freedom. It is the symbol of the right of the ruled to say who shall rule them and with what laws they shall be ruled. It is the symbol of the right of free speech, of a free press, of the right to worship as the individual chooses. These liberties were not secured without struggle and sacrifice and bloodshed. It is the sacrifice and the struggle and the bloodshed that have given to the flag of this nation its meaning, that have made it the symbol of liberty, of tolerance, of free speech, of a free press and equal human rights, that have made it a living symbol of the things Americans hold most dear.

In like manner is the cross a symbol. It is the symbol of the sacrifice of the Christ to redeem a world lost in sin and to open up to erring man the way of approach to his God. When the world realizes that until the death of Christ on the cross there

was no escape for man from his sin, when it realizes that Christ's sacrifice was a voluntary act, born of great and fathomless love for mankind, then will it begin to understand the full meaning of the symbol of the cross, then the cross will cease to be a lifeless object of wood or stone and become a living symbol of life, and freedom from sin, commanding the respect, the honor, and the worship of all mankind everywhere.

Hillside Used as Smokestack

Rather than spoil the natural beauty of the countryside with a tall brick smokestack, engineers building a new state hospital in California bored through a hill and let the smoke emerge from a stack that resembles an old stone watch tower. The stack enters the hillside horizontally and then makes a right angle upward turn. From the top of the hill rises a circular chimney top built of native stone. The boiler plant itself is dressed up in ornate Spanish architectural style. This state hospital for the insane is located on a 1,650-acre tract in the foothills at Camarillo, landscaped to take every possible advantage of the natural beauty of the countryside. Instead of prison-like bars, the windows have non-shatter glass reinforced with steel.—Popular Mechanics Magazine.

May Get Vitamin C in Roses

Scientists of Russia claim they will produce 13,000,000 doses of medicine containing Vitamin C from wild roses this year. Factories in Moscow and Leningrad are expected to turn out 800 tons of the curatives disguised in candy. The medicine is used in the campaign against scurvy, which is one of the serious afflictions of North Russia. Soviet laboratories found other new sources of Vitamin C, an enemy of scurvy. Rushes and pine cones yielded 3,500,000 doses last year, but they have not been popular because of their bitter taste. Professor Schmidt has obtained a synthetic Vitamin C in crystals from the wild commercial scale.

Models Mission in Clay

Using only his hands as tools, the potter of the San Juan Capistrano mission in California has made an exact model in clay of the famous mission buildings. Three months of study and careful work were spent on the model, which was constructed in sections that are moved about easily. The builder, Yreneo Mendoza, learned his trade in Jalisco, Mexico, the birthplace of handmade pottery, and scorns the use of even a potter's wheel.—Popular Mechanics Magazine.

That Is the Trouble

Quink—Do you believe that all money is tainted?

Guppy—Yes. Money in fact is double tainted. 'Tain't your'n and 'tain't mine.—Stray Stories Magazine.

HOROSCOPE

JULY 1, 2—Although not very communicative you are independent and can adapt yourself to most any condition. Your intuitions are very strong and you have a great love for the mysterious. As you have much persistence in your undertakings you are not easily beaten out of your intentions. You can be very quarrelsome and overbearing.

JULY 3—You possess much literary talent, are fond of travel. You are independent, not much of a talker, and at times live in a world of your own. You love to solve the mysterious problems that seem to baffle others.

JULY 4—You are prudent, have much self-control and are very anxious regarding the affairs of those you are interested in. You have the faculty of making friends and keeping them. People know only as much of your private affairs as you want them to, although you are a fluent talker.

JULY 5, 6—While you do not care much for finery, whatever clothes and ornaments you do have will be of the best. You will have many sad experiences in the early years of your life, but do not get discouraged as the end will be worth whatever sacrifices you may make.

JULY 7, 8—You place your aims high but as a rule you are certain to reach them. You are too sensitive, therefore easily offended. You are sympathetic, charitable and generous.

PURE MILK ASSOCIATION

SELECTS NEW GEN. MGR.

The Board of Directors of the Pure Milk Association is pleased to announce the appointment of Arthur H. Lauterbach as General Manager of the organization. He will assume his new duties in Chicago in the near future.

Mr. Lauterbach comes to the Association from Philadelphia, Pa., where he has been manager for the past three years of the Inter-State Milk Producers' Association, the dairy farmers cooperative in the Philadelphia market. He is also, at this time, president of the Northeastern Dairy Conference, a federation of dairy cooperatives, general farm organizations and various state departments that are interested in agriculture.

The Pure Milk Association counts itself fortunate in securing an executive of Mr. Lauterbach's experience in the dairy cooperative field, and knows that the thirty-three counties in the Chicago Milk Shed will benefit under his leadership.

TRIPLE-SAFE
*** TIRES ***
MOST MILES
PER DOLLAR

YOU may never drive your car at the record-breaking speeds made by America's famous race drivers — but isn't it a comforting thought to know that Firestone Gum-Dipped Tires have proved their SAFETY at speeds much higher than you will ever drive? In planning your Fourth of July trip or your summer vacation tour, guard your life and the lives of your family with the only tires made that are Triple-Safe.

By Triple-Safe we mean —

First: Every fiber in every cord of every ply is saturated and coated with liquid rubber by the Firestone patented process of Gum-Dipping which counteracts tire-destroying internal friction and heat. That means protection against blowouts.

Second: They have two extra layers of Gum-Dipped cords under the tread. That means protection against punctures.

Third: They have a scientifically designed tread that stops your car up to 25% quicker. That means protection against skidding.

Only Firestone gives you these patented and exclusive SAFETY features. Join the Firestone Save-A-Life Campaign today by equipping your car with a set of new Firestone Tires — the only tires made that are safety-proved on the speedways for your protection on the highways.

An Open Letter to All Egg Producers!

For many years KURTIN and KURTIN have been and are receiving eggs from this locality and have helped a lot during the last few years to create a steady demand and attractive outlets for all the eggs coming east from this section.

We honestly feel and hope we have earned the friendship and business of all egg producers.

Mr. Ken Dolan, who represented KURTIN and KURTIN here, has left our employment and we therefore announce that—

MR. CLARENCE O. EILER,
Whom You All Know, is Now Representing
Kurtin & Kurtin

He will visit you regularly. We hope that you will show him all courtesy and give him your friendly cooperation.

WE NEED MORE EGGS AT ALL TIMES. If you have not yet shipped to us, please give us your next shipment. Ask MR. C. O. EILER for shipping instruction or any information regarding eggs.

WE ASSURE YOU EACH INDIVIDUAL SHIPMENT WILL RECEIVE OUR SPECIAL ATTENTION ON ARRIVAL WITH PROMPT, SATISFACTORY RETURNS.

Sincerely yours,

Kurtin & Kurtin

VISIT MOODY BIBLE INSTITUTE

A group of Baptist young people accompanied by Rev. and Mrs. H. J. Barnaby motored to Chicago last Tuesday. They visited Moody Bible Institute, attending several classes and visited with the Misses Lova Bush and Annabel Baker who are students of this school. At noon a picnic was enjoyed at Lincoln Park and the afternoon was spent viewing the animal life there. The young people returned to the institute and enjoyed refreshments at the Moody Sweet Shop. In the evening they left the institute and attended services at the famous Pacific Garden Mission.

Those who enjoyed the trip were Rev. and Mrs. H. J. Barnaby, Lillian, Glen, and Barbara Barnaby, Margie Brown, Ruth Baker, Flo Mollenhour, Winifred and Rosella McCutcheon, Katherine Eiler, Jean Manwaring, Betty Mickey, Helen Weirick, Bedilla Belle Weirick, Horace Barnaby, Robert Eiler, Elwin Creviston, Phillip Bush, Robert Blodgett, Paul Barnaby, Carl Zimmerman and Mr. Russel Norris.

Most interesting of the wild mice is the deer mouse. It has a musical voice and often chirps like a bird.

CHARLES VANDERMARK IS VICTIM OF HEART AILMENT

Charles W. Vandermark, 80 years old, passed away at his home near Palestine Tuesday morning after having been in ill health for the past two years. A heart ailment was the cause of his death. The deceased was born January 23, 1858, in Lucern county, Pennsylvania, the son of Simms and Mary Dreisbach. He was married to Sarah C. Vandermark on January 7, 1883. Most of his life was spent on his farm near Palestine. He was a member of the Palestine Methodist Church.

Surviving are the widow, Sarah C. Vandermark, one son, Edison of Palestine and one grandson, Paul.

Funeral services were held Thursday afternoon at the Palestine Christian Church with Rev. Ora Bogue of Burket officiating. Burial was in the Palestine cemetery.

Maoris Cooked With Heated Stones

Maoris cooked their food chiefly by steaming it in ovens lined with heated stones. On North island they used springs, putting the food into nets and lowering it into the naturally hot water. Before missionaries arrived in New Zealand the natives were notorious cannibals. New Zealand is an archipelago, greater in size than the United Kingdom—that is, England, Wales, Scotland and Ireland. There are two main islands. North island is more irregular and deeply indented than South island, which possesses a bold, uniform seaboard.

Windows Once a Luxury

In colonial times windows were considered a luxury. Glass was scarce, expensive and generally of inferior quality. Most of the original early Nineteenth and Eighteenth century glass that has survived the vicissitudes of the years shows bubbles and other irregularities. Nevertheless, these panes were placed in the ranks of luxuries, and a tax on every window in a house was levied.

Early Ohio Auditor Assisted

When the clerical work of the Ohio state auditor's office had grown to such an extent by 1808 that it was felt the auditor could not handle all the bookkeeping by himself an appropriation was made to hire a clerk to assist him.

Name Chloe of Greek Origin

The name Chloe, of Greek origin, means "blooming" or "verdant." It was the summer name of Demeter, the Greek goddess of agriculture and poets have often used it as a name for a shepherdess or rustic maiden. St. Paul mentions a Chloe of Corinthia. Although pretty and melodious, Chloe has never been in common use and no prominent bearers of it have been found in the archives of history.

Interest in Eclipses of Sun

Eclipses of the sun have always interested man, and years ago filled him with terror. When Norway's great St. Olaf died in battle in 1030 a total eclipse followed. Peasants thought surely it was a manifestation of God's wrath.

New York's Fair and Skyline, All in One Picture

NEW YORK—Proximity of the New York World's Fair 1939 to Manhattan is shown in this "location" photograph taken from the Bermuda Clipper "Cavalier" flying above the Government Zone of the exposition. The familiar skyscraper skyline of Manhattan is shown here nine miles away but within fifteen minutes ride by rail.

Note the patterns of buildings, foundations, gardens and thoroughfares emerging in the Central Exhibit Area and the fine finish of landscaping

about the steelwork of the 700 foot Tylon and 200 foot Perisphere and along the broad Constitutional Mall.

Shown, right, are the elevated tracks of the IRT-BMT subway systems and, nearer, the Long Island Railroad tracks crossing the lowered Grand Central Parkway Extension. The pontoon of the plane obscures view of the Triborough Bridge, one of the main approaches to the Fair. The buildings shown are among forty already under construction.

Mes ages Sent by Runners

Incas of Peru could send messages from Quito to Cuzco—more than a thousand miles—in a week by their system of runners, relaying the message along the way.

The Electric Eel

A yard-long electric eel develops 500 volts, which passes down its large electric organs at a speed of about 700 meters a second or at the rate of about 1,800 miles an hour.

Southerners as "Yankees"

At the time of the Revolution, more especially during the War of 1812 when privateersmen, sailing out of Charleston and other southern ports, were particularly successful and feared, they were referred to by the British as the "damned Yankees."

Fleas Live on Others

There are over 100 different kinds of fleas, including rare and common ones, and none of them is able to look out for itself. It must always live on the blood of some bird or animal.

Ducks Hold "Beauty Shows"

Mandarin ducks hold "beauty shows" at which they assemble in the evening and strut their attractions for the gathering, this despite their already being paired.

Brazil was discovered by Petro Alvares Cabral in 1500. He named it Terra de Santa Cruz, or Land of the Holy Cross, and took possession of it in the name of the king of Portugal.

Skyline Drive in Virginia

The elevation of the Skyline drive in Virginia varies from 2,500 feet to 3,800 feet. The highest point is at Skyland, which is ten miles south of Panorama, Va.

Good Citizenship

Good citizenship represents in a practical form the spirit of courage, unselfishness and sympathy consecrated to service in time of peace and war.

Author of "My Maryland"

A bronze tablet giving a history of James Ryder Randall, author of the words to "Maryland, My Maryland," stands in front of the oak tree in Pointe Coupee Parish, La., under which he composed the words.

Roland's Sword

Roland's sword was called Durindana or Durandal. It was fabled to have once belonged to Hector. It had in its hilt a thread from the Virgin Mary's cloak, a tooth of St. Peter, one of St. Denis' hairs and a drop of St. Basil's blood. Roland was the most famous of Charlemagne's paladins.

"Pool of the Pooka"

The "Pool of the Pooka," the haunt of the malicious sprite of Irish fairy tale, is situated in the village of Paulaphuca, near Dublin.

Death Takes

Ada Justine Davis

Ada Justine Davis, 79, wife of William E. Davis, Burket Store owner, passed away at her home in Burket Sunday night about 9:30. Death was due to heart trouble and followed an illness of one month.

The deceased was born May 3, 1859, Kalida, O., the daughter of Lorenzo and Maria Parker. On March 19, 1879 she was married to William E. Davis in Kalida. The couple moved shortly thereafter to Burket, Ind., where they have lived for the past fifty-four years. Mrs. Davis was a member of the Methodist church.

Surviving relatives include the husband, William E. Davis; three sons, Edmund Parker Davis, Brooklyn, New York, George Earl Davis, Pittsburg, Pa., and William G. Davis of Burket; three daughters, Mary Justine Warren and Lena Bessie McGinley, both of Burket, and Ethel Lucille Hatfield Warsaw; ten grandchildren and five great-grandchildren.

Funeral services were held Wednesday morning at ten o'clock at the Davis residence in Burket, with Rev.

O. C. Bogue officiating. Interment was in the Palestine cemetery.

HARRY BURDEN PASSES AWAY

Harry Burden, aged 75, passed away Monday night at the Murphy hospital where he had been taken for treatment that morning. He was a retired carpenter and had lived near Mentone for many years. He had been ill for the past several months.

Surviving are, the widow, Mrs. Elizabeth Burden, one son, John Burden of Warsaw, and one daughter, Mrs. Mae Young of Warsaw, four grandchildren, three sisters and three brothers. Two children preceded him in death several years ago.

Funeral services were held Thursday afternoon at the Johns Funeral home in Mentone with Rev. DeWitt officiating. Interment was in the Mentone cemetery.

Signed Death Warrant; Executed

Ten of the fifty-nine judges who signed the death warrant of Charles I were executed at the restoration in 1660.

PERSONALS

Everett Ellis has been removed to his home west of Warsaw from the Murphy hospital where he underwent a major operation several days ago.

Mrs. Dan Urschel and infant daughter, Sarah Katherine, have been removed from the McDonald hospital to their home in Mentone.

Mrs. Densil Nelson submitted to a major abdominal operation Monday at the McDonald hospital.

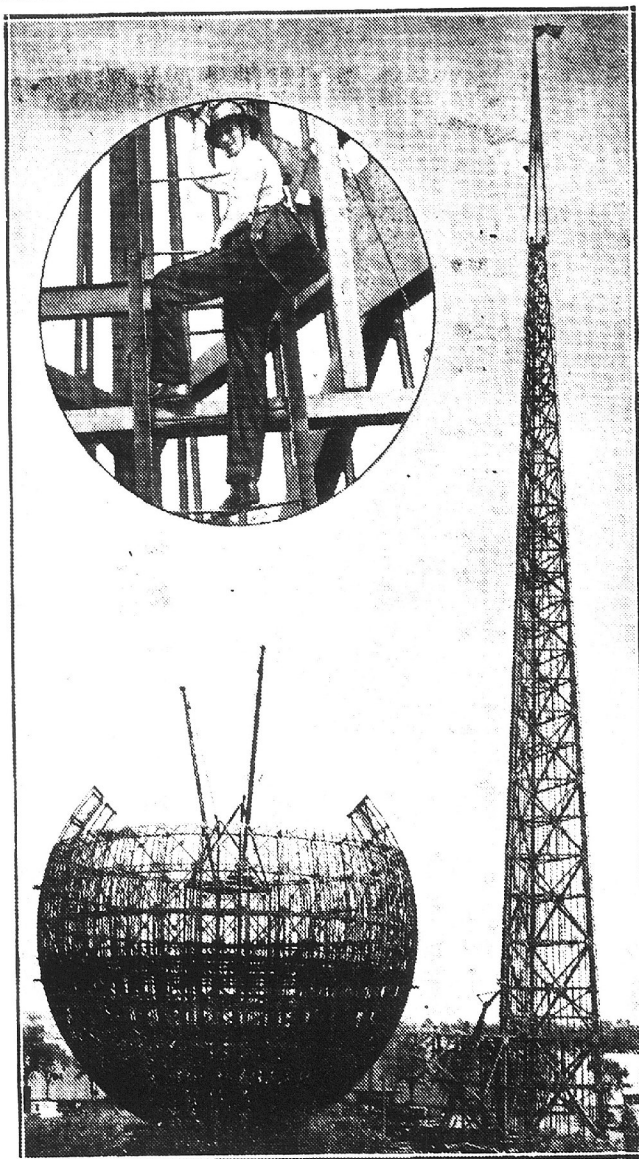

Miss Doris Wiltout enjoyed a vacation from her duties at the Lake City Bank in Warsaw last week.

Mrs. I. E. Hire of Winona Lake and Miss Jessie Rush of Mentone attended the concert given by Mary McCormic at the Winona Auditorium Tuesday night.

Products From Barrel of Oil

A 42-gallon barrel of crude oil will yield more than 18 gallons of gasoline and naphtha, 16 gallons of gas oil and fuel oil, two gallons of kerosene, over a gallon of lubricating oil, and other products besides.

UP THE LADDER TO FAME

NEW YORK—It took Ross McKee of the New York Daily News 35 minutes to climb to the top of the 700 foot Trylon on the grounds of the New York World's Fair 1939. Once up he squeezed out on a 14-inch ledge and took panoramic pictures of the Fair grounds and snapshots of the giant 200 foot Perisphere, the framework for which is nearing completion.

McKee was the first cameraman to accomplish this feat. He followed in the footsteps of steel "birdmen" who had just planted the U. S. flag, marking the finish of the steel frame of the Trylon.

These two structures will be covered with stucco and, as the Theme Center of the Fair, will set the pace for the \$150,000,000 Exposition.

Cats Without Tails

Cats without tails are a popular breed on the Isle of Man. Other unusual characteristics of the felines is the fact that they have larger eyes and longer back legs than the ordinary cat. Their owners claim they resemble rabbits in the way they sit on their haunches. They are more high strung than ordinary house cats and do not readily make friends with strangers. But they are more affectionate when they become acquainted. The cats also disprove a popular theory that the tail is necessary as a means of balancing, because they are just as agile as other species.

"Mountain of the Bird"

Gebet-el-Ter, "the mountain of the bird," in Egypt, has a legendary story attached to it. All the birds of Egypt are believed to assemble there annually and, after selecting one of their number to remain until the next year, they fly away into Africa and only return at the annual convention day to release the bird and set another in its place.

Required No Dog License

Until a few years ago, licenses were not required in England on dogs which were used purely for the purpose of herding cattle. The old law reads in part as follows: "Any dog kept wholly for the care of cattle, if not a greyhound, hound, pointer, setting dog, spaniel, lurcher, or terrier, and any dog under six months old, is exempt from duty."

We always feel sorry for the children of the parents who say: "I had a hard time when I was young. I made up my mind if I ever had any children I would make it easier for them than I had it." Easy times never help any young person. The best builder of character, and self reliance and thrift, and industry and perseverance is hard knocks, disappointments and hard work. The world is no place for the softie, and softies are the product of pampered, sheltered lives."

We are not able to work up much sympathy for an American girl who goes abroad and marries a count or a no-account only to have the venture end in a crack-up. As a rule such title hunters come back home relieved of a good share of their American-made money that has gone to brace up the tottering fortunes of a busted aristocracy. There are a million young men in America better from every standpoint than any count or baron on any foreign soil.

The men who try to do something and fail, are infinitely better than those who try to do nothing and succeed. -Lloyd Jones.

Now YOU CAN BUY A
Firestone
Gum-Dipped Tire
FOR AS LITTLE AS \$7.60

FIRESTONE cuts the cost of Tire Safety just at the time when you need a new set of tires. At this time of the year you should replace tires that are worn and smooth for greatest safety during the summer driving season. Tires may look alike on the outside — but inside they are different. The name FIRESTONE on a tire is your assurance of extra safety and long mileage because only Firestone Tires are built with these patented and exclusive construction features:

Gum-Dipping, the Firestone patented process by which every fiber of every cord in every ply is saturated with liquid rubber, counteracts tire-destroying internal friction and heat which ordinarily cause blowouts. Nine extra pounds of rubber are added to every 100 pounds of cord.

Two Extra Layers of Gum-Dipped cords under the tread, another patented Firestone construction feature, protect against punctures.

Scientifically - Designed Non-Skid Tread made of tough slow-wearing rubber, assures safer stops and longer non-skid mileage.

Now that Firestone gives you all of these safety and economy features at these low prices, you cannot afford to take chances with unsafe tires this summer. Come in today and join the Firestone Save-A-Life Campaign by equipping your car with a set of new Firestone Convoy Tires — the safest tires that money can buy at these low prices.

DEATH TAKES WILLARD EAST

Willard Ellsworth East, 62, well-known resident of Harrison township passed away at his home near Palestine Thursday afternoon at 3:30. Though Mr. East had been in ill health for the past two years due to diabetes and other complications, his death came as a shock to his family and the community where he had his entire life.

Mr. East was born on the farm and died, the son of Jacob and Anne East, who were among the first settlers of the community. He was united in marriage to Blanche Pyle in Warsaw, February 17, 1900. He was a member of the Redman lodge and the Palestine Methodist Episcopal Church.

Surviving relatives are, besides the widow, four daughters, Mrs. Marie Marquess, Mentone; Mrs. Alice Byrer, Warsaw; Mrs. Zorabell Ward, Claypool and Esta Mae, at home. One son, Harold, at home, one brother Art East and one sister, Mrs. Pearl Dorsey, both of near Mentone, also survive.

Funeral services were held at the Palestine Christian church Saturday afternoon at two o'clock. Rev. Ora Bogue officiated and the Redmen held services at the grave. Interment was made in Palestine cemetery.

VISIT WISCONSIN

Mrs. E. E. Jones accompanied her son, Irwin Wissler and family of Fort Wayne to Wisconsin last week where they visited friends and interesting parts of the state. Mrs. Jones returned to her home in Mentone Friday evening.

Just Another Day in New York

NEW YORK—It is a dull day when New York does not have some sort of a parade. Pictured above is scene at 23rd Street and Broadway during Motorcade and Preview of the New York World's Fair 1939. In the background is the tower of the Empire State Building.

All floats in this parade were on wheels. The procession ended in the Fair grounds where half a million people were assembled.

BIRTHS

Hipsher

Mr. and Mrs. John Hibsher of Wabash, Ind., are the proud parents of a baby daughter, born Friday, July 15 at the Wabash hospital. The child weighed nine pounds and has been named Marlene Ann.

Mr. and Mrs. I. E. Hire of Winona Lake and Miss Marietta Sweeney of Columbia City called at the home of Mr. and Mrs. Fred Rush Sunday afternoon.

Dr. J. Frank Norris To Speak Here

Dr. J. Frank Norris will preach morning, afternoon, and evening, July 25th and 26th at the First Baptist Church in Mentone. Two great days. You will never regret hearing this modern Circuit Rider. A preacher who rides circuit between three great congregations 1300 miles apart, in Fort Worth, Texas, Dallas, Texas, and Detroit, Mich.

Widely known as "The Stormy Petrel of The Pulpit" Dr. Norris has the courage to fight the world, communism, and the devil, with the same lusty swings which, aimed at bootleggers, horse racing, and personal immorality, built his big church at Fort Worth.

1300 miles is quite a circuit for a preacher to "ride" even to-day, but Dr. Norris calls on modern technology to enable him to serve these great churches as pastor.

Several assistants, the radio, recorder sermons, and public address systems, the airplane, and fast railroad transport, do for Dr. Norris what the horse and the buck-board did for the old-time circuit rider.

In the three years of his joint pastorate, there has been many accomplishments: added to the Churches 6,193 members, raised \$421,333.62, issued 6,376,500 copies of his paper "The Fundamentalist." Traveled 119,000 miles and built two new buildings costing \$205,000.

Dr. J. Frank Norris is one of the great Gospel preachers of the day, fearless in his denunciation of sin. He believes that the platform of the Church should be to recognize Christ as it's only head; to obey the Holy Spirit as its only administrator; proclaim the Word as its only message, and win lost souls as its only mission.

Everyone is welcome to come and enjoy these two great days of evangelism and Bible Conferences. Dr. Norris will speak almost constantly during the two days.

The theme for this Bible Conference will be: "How to have a revival in, through, and by the local church, with the Word."

Mr. and Mrs. Raymond Bare and daughter spent Sunday in Chicago.

Auto Collision May Take Lives Of Three

The three-car collision that occurred on state highway 15 about six miles south of Warsaw last Wednesday night, endangered the lives of three people. They are Frank Williamson, Claypool telegraph operator, who suffered a broken right leg and internal injuries, Mrs. Williamson, who suffered fractures of her ankle and left hand, and H. R. Trenkle of the Haywood Publishing Co., West LaFayette, Ind., who suffered cuts and bruises and a fractured pelvis. Roy Parsons, driver of the third car was uninjured. The injured were taken to the McDonald hospital in Warsaw where they remain in a serious condition.

Visit Epworth Forest

Twelve members of the Epworth League of the Methodist Church left Merton Saturday noon to spend this week attending the services at Epworth Forest, Lake Webster. The group included Lois Ward, Mary Alice Moore, Fawn Grubbs, Mary Ellen Paxton, Donna Rae Claybaugh, Leota Horn and Mary Beth Shinn, who will stay at DeWitt's cottage, and Jack Shinn, Sam Blue, Eldon Sheets, Bobby Mollenhour and Jean Burns, who will be at Burns' Cottage. The group anticipated a very educational as well as enjoyable week.

Missionary Society

The Woman's Missionary Society of the Palestine Christian Church held their regular monthly meeting in the church basement Thursday afternoon. The day was spent in doing many kinds of sewing.

A cooperative dinner was served at the noon hour after which a short business meeting was conducted by president, Ethel Rush. The Missionary part of the program followed. Amanda Huffer was in charge of devotionals. Josephine Smythe gave a very interesting talk on "Pilot of Pilots", and another talk on "Labor On Wheel" was given by Agnes Sirguy. Ferne Rush gave a discussion of the seventh chapter of the study book. There were twenty-five members and the following guests present: Mrs. W. H. Hagan, Mrs. Coon, Mrs. Altenburg, Mrs. Cory, and Mrs. Ruth Hagan. The next meeting will be held at the church Thursday, August 11.

The "Conscience Fund"

The "conscience fund" is a popular name referring to money received from persons unknown at the Treasury department. It was opened with a contribution of \$5 in 1811. Money received for this fund is not carried on the books of the Treasury department as such, but is listed as miscellaneous receipts. The amounts sent in range from two cents from a person who failed to put a stamp on a letter when mailed, to several thousand dollars from persons who smuggled goods into the United States without paying import duty. Usually the sums sent are small. No special use is made of the money. It simply goes into the general funds of the department.

Wallpaper in Colonial Days

Wallpaper first came into use during Colonial days. These paper wall coverings were of various scenic designs, often tropical, and included many with birds of paradise, peacocks and the tea gardens of the Orient. Wallpaper during this period was made in small sheets and of patterns sometimes showing classic influence. Pictorial papers were also favored, and gave rise to the all-scenic papers so popular during the first half of the Nineteenth century. By the middle of the Nineteenth century mass production in wallpaper brought a general decadence in design.

Speed of Birds

Stopwatch records on the speed of birds reveal the following records: Quail, slightly under 50 miles an hour; crows, 60; carrier pigeon, 74½; songbirds, 20 miles an hour average; humming birds, 40; ducks, 40 to 65 miles an hour average, with some acceleration for hurried flights. Canvasback ducks are credited with 72 miles per hour, the fastest among ducks, with golden-eyes a close second.

Troy weight of 24 grains, the pennyweight, was in early English history the actual weight of a silver penny. At that time it weighed 22½ grains or one two-hundred-and-fortieth part of the Tower pound, the earliest form of the British sterling pound. Until about the Fifteenth century nails were sold in England by the hundred, the price being determined by the size of the nails. Those sold at tenpence a hundred were called tenpenny nails, those at sixpence a hundred were sixpenny nails, etc. The old names survived even after the prices had changed and we used them as standards of length.

Poem "Ben Bolt"

The poem, "Ben Bolt," by Thomas Dunn English, was first published in the New York Mirror on September 2, 1843. It was set to music adapted from an old German melody by Nelson Knapp and sung in a play called "The Battle of Buena Vista." In 1861, George du Maurier used the song in his novel, "Trilby," and it became popular at once.

What's the Answer? By EDWARD FINCH

IN THE days when men fought with swords and had to be prepared to fight at any time they carried their swords with them constantly. When approaching a stranger a man had to extend his right hand empty in order to show that his approach was a friendly one. If the friendly feeling was reciprocated the other man grasped the hand of his acquaintance with his own right hand so that if he should change his mind he would be aware of it before the sword could be grasped. From this custom has come the meaning of our present day handshake; if one man refuses to shake hands with another it is interpreted to mean that there is enmity between them.

PERSONALS

Miss Freda Sullivan of Rochester was a Mentone caller Thursday afternoon.

Mr. and Mrs. George Myers and Mr. James Gill were among those who attended the Democratic convention at Indianapolis last week.

Rev. and Mrs. D. J. Norwood and son David were guests Thursday and Friday at the home of Mr. and Mrs. Fred Rush.

O. A. Heighway of Mentone attended a directors meeting of the Farmers' Mutual Relief Association in Warsaw Tuesday afternoon.

Mr. John Minear was a Mentone business caller Thursday.

Mr. and Mrs. Frank Hawk, Mr. and Mrs. Kenneth Hawk and family and Mr. and Mrs. Fred Spurling and family all of South Bend were guests of Mrs. Lizzie Morgan Sunday.

HOROSCOPE

JULY 16, 17—People come to you for help and advice. You are dictatorial, self-possessed and qualified to attain great poise. You possess a pleasing disposition, like to argue, but sometimes you are cutting and satirical in your answers.

JULY 18, 19—You have some anxious moments caused by a vein of vanity and conceit, but you will master it. When they do not stand in the way of your development, you love dress and gayety. You are an especially kind, loving parent.

JULY 20, 21—You are a good talker, shrewd reasoner and people listen to what you have to say, so it is to you to be fair with others as well as your self. Good clothes appeal to you and you get them whenever you can. Books are your hobby but you sometimes forget to return the ones you borrow.

JULY 22, 23—Being full of life you fit into almost any place. Though you possess a fiery, pugnacious temper you have many true friends as there is no fury or malice in your anger and your good nature soon returns.

ENTERTAIN SUNDAY

Mr. and Mrs. Clair Williamson and Franklin and Stanley Newton, sons of Mrs. Williamson, entertained Sunday in honor of Mr. and Mrs. Claude Sandifur of Los Angeles, Cal. At the noon hour a dinner was served. In the afternoon music, by Mildred Kurtz and Stanley Newton was enjoyed and the remainder of the time was spent socially. Those present were: Mr. and Mrs. Ernest William-

son and son Porter, Mr. and Mrs. Con Williamson and daughter Kathleen, Mr. and Mrs. Fred Kurtz and daughter Mildred and son Kent, Mr. and Mrs. Harold Williamson and daughter Norma, Denzel Nelson and sons Larry and Mikey all of Burket and Mr. and Mrs. Frank Williamson of Claypool.

IN THE WAY HE SHOULD GO

A story came to us recently about a local father and his young son, which brings up a fine point of ethics in child training. The son, who had just passed the age of twelve, had come home from the picture show, to which he had gained admission for ten cents, when the charge for children over twelve should have been twenty-five cents. "How did it happen," the father asked, "that now that you are past twelve years old you were able to get in for a dime when the price is twenty-five cents?" "I did not tell the man I was past twelve years old," the boy replied. "He thinks I am still twelve years old."

The father then said, "well Sonny, after supper you and I'll go back to town and you can go and tell the theatre manager that you had a birthday recently and that you are now past twelve, and should pay a quarter." The boy brought up the usual arguments and objections which the father patiently and carefully answered. It ended by the boy going back to the proprietor of the picture house with fifteen cents.

Trivial? Perhaps. But our guess is that when that boy grows up he will have grounded in his life the thought that there is as much virtue in honesty in little things as there is in big things. A thing that many parents do not realize in training young people is that one can't condone one dishonest act and justify another. The young mind doesn't differentiate. If it is at all right to beat the picture show proprietor it is equally commendable to beat the grocer, the clothing merchant and the bank. The old maxim, "train a child in the way he should go and when he becomes old he will not depart from it," is still true.

Two Minute Sermon

By
Thomas Hastwell

AS FOR ME AND MY HOUSE:—When it came time for Moses to give up the leadership of the children of Israel he chose as his successor Joshua. Joshua possessed no gift of prophecy and no power of oratory. His only military strategy was based upon the humble, yet unfaltering, conviction that God had sent the Israelites from Egypt to Canaan to possess that territory as a fulfillment of the covenant that had been made with Abraham centuries before.

The only thing Joshua feared was the lack of faith of his own people. It was because of this that he called them together, and, after recounting the history of the growth of the nation, and the fulfillment of God's promises to the nation, he said: "Choose ye this day whom ye will serve, but as for me and my house we will serve the Lord."

Whenever the nations and the rulers in the old testament followed God's will, they prospered, and when ever they departed from it, they were punished. I confidentially believe that the only hope of this nation lies in not only Christian leadership, but Christian citizenship as well. In the measure that they are present in our government, that measure will it prosper and go forward, and, in the measure that Christian citizenship and Christian leaders are not present in the government of this nation, in that measure will it grope and stumble.

The promises of God are just as real, just as applicable to this nation today, as they were when they were made to the children of Israel. Their fulfillment will only come when leaders and citizens alike unite in the pledge, "As for me and my house we will serve the Lord."

Names for the Tuna Fish

The fish known as a tuna in the Mediterranean and California is a tunny in the British isles, while in the Atlantic coastal waters of the United States it is a great albacore or horse mackerel.

Producing Culture Pearls

Culture pearls can be produced in all pearl-bearing mollusks, as for instance, Australian and American pearl oysters, the abalone, Pinna and certain fresh-water mussels. No pearls can be raised, however, in the edible oysters, clams, scallops, sea mussels and other mollusks the shells of which have no lustrous nacre. Limy formations occasionally found attached to these shells or inside the tissues have no value.

Ingersoll's Creed

My creed is this: Happiness is the only good. The place to be happy is here. The time to be happy is now. The way to be happy is to help make others so.

State Observes Fast Day

New Hampshire has observed Fast day as an annual holiday since 1681.

PLEASE!

NEW YORK—In the World of Tomorrow, there will be no such harsh, forbidding signs as "Keep off the Grass!" At least the New York World's Fair 1939 has already introduced, on the Fair grounds, signs reading merely "Please." The young lady in the picture, Miss Betty Rafferty, is regarding the sign with genuine pleasure.

"I never liked those signs 'Keep off the Grass.' It is certainly a happy and considerate thought to use the one word 'Please.' Surely the public will both understand the meaning and will appreciate the friendliness of the request."

Making Fruit Swoon

A remarkable refrigerating agent which is 60 degrees colder than the temperature of the North Pole is being used for the transportation of fresh fruit. This material, which is a preparation of carbon dioxide in solid form, resembles in appearance blocks of compressed snow, but since it has a temperature of 144 degrees of frost it has some four times the refrigerating power of ordinary ice. Its uses for the transport of fruit are exceptional in that fruit breathes, and is subjected to a suitable quantity of the gas, "swoons" or falls into a state of suspended animation, until it is again exposed to the air. The complete absence of moisture from the compound enables it to be used in the packing of parcels to be sent by rail or through the post. Its "operative" life is up to three months.

Men Do House Work to Save

Seven men students at Massachusetts State college, Amherst, Mass., are proving that they can have a successful home without a woman's touch, reports the college. In order to cut down their living expenses they have hired a house and do their own buying, wash their own dishes, and keep their house clean. They call themselves the E. E. boys—Everybody Eats.

MUSTARD IN SKINS NEEDED FOR FILMS

To the unromantic cow, cinema fans the world over are indebted for their pleasures. For, as Dr. C. E. K. Mees explained recently when lecturing at the Royal Institution, it is the cow's appetite for mustard which indirectly renders fast films "developable." The gelatine used for photographic negative is extracted from calf skins. This substance relies chiefly for its outstanding quality—super-sensitivity to light—on the mustard oil incorporated in it. Actually, the mustard content may be less than one part in a million, but it is indispensable, states a writer in *Tit-Bits Magazine*. Its effect is to enlarge the silver "blobs" in the film when light is contacted, thus insuring a rapid reaction—the secret of high-speed photography.

Gelatine derived from other animals will not do. That made from rabbit skins, though admirable for many commercial purposes, lacks the essential mustard. The rabbit, being a discerning feeder, chews its grass blade by blade, rejecting any piece that is hot, whereas the cow simply mows grass into its capacious maw, collecting in the process many meadow plants rich in mustard oil.

Tong Wars in Insurance Rank With "Acts of God"

San Francisco's Chinatown is one of the most completely insured areas in the United States, insurance brokers say.

One factor that makes agents eager to grant policies to Chinese is their willingness not only to exempt "acts of God," but also to exempt all damages resulting from tong wars. The two are placed on a basis of equality, at least as far as insurance is concerned, writes a United Press correspondent in the New York Herald-Tribune.

The real reason, however, for the heavy insurance carried in Chinatown lies in the fact that the Chinese are one of the originators of insurance, according to Wentworth S. Wright, broker. The idea of spreading risks originated with them thousands of years ago.

Wright declares the Chinese are particularly honest in their handling of insurance affairs. They comply rigidly with the provisions of an insurance contract and in the settlement of claims. It is seldom a fraudulent claim is ever presented.

Almost every form of insurance is used by the inhabitants of Chinatown. It is not uncommon to find a moderate-sized business covered by accident, health, burglary, automobile, earthquake, fire, elevator, life, owners', landlords' and tenants' public liability policies but also by plate glass, riot and by workmen's compensation risks.

Virtue

Virtue is an affair of judgment as well as of feeling.

Gallic Esteem for Red Tape Is as High as Ever

Those who have read the tales of Courteline's about the curious things that happen in the administration of the affairs of the French state may find an authentic parallel in the story of Prisoner Jean Dupont and Gendarme Marcel Thoret, observes a Paris United Press correspondent.

Gendarme Thoret, who was new to the business, was ordered to take a prisoner from the Sante prison in Paris and conduct him to the city of Brive for questioning by a magistrate. All went well until the questioning was over: when the judge told Thoret: "That's all. You can take your prisoner back now."

"But I can't take him back," the gendarme protested. "He has been transferred from the Sante to your custody. I have his prison record with me to turn over to the warden of the Brive prison."

"The inconvenient point about that," said the judge, "is that Brive hasn't any prison. There is one at Tulle, but I have no reason for making out a warrant for the imprisonment of this man in connection with the affair I've been questioning him about, and his other crimes don't happen to come under my jurisdiction."

63 'Dead' Hearts Revived

Sixty-three human hearts have been made to beat again after being removed from the bodies of persons who have died. The object of these experiments, by Dr. William B. Kountz, of St. Louis, was to learn more about human hearts and how they function, both in health and sickness—information which cannot be obtained by observation of animal or chicken hearts.—Scientific American.

Strange Golf Match

Two men living near Swindon, England, have played golf every week that the weather permitted for the past 14 years. One is a retired farmer seventy-three years old and the other is a postmaster several years younger. There is an understanding between them that the match will continue until one dies or has to quit. The winner gets a silver jug.

Tasks on Railroad Technique

That nature imposes mighty tasks on railroad technique in Switzerland is evident from the fact that for every 100 kilometers of Swiss Federal Railroads tracks there are 5.64 kilometers of tunnels and galleries. In Austria the percentage is only 1.49 kilometers and in Germany it is still less, i. e. 0.42 of a kilometer.

Hair on Man's Face

Shaving tests made at the Mellon institute over a period of years show that the greatest density of hair on a man's face is on the center of the chin, where there are 750 hairs to the square inch. The upper lip is next with 685, the upper cheek 500 and the lower cheek 250.

Dogs' Eyes Covered With Hair

Sheepdogs have both eyes covered with profuse hair. The animal's eyesight is good as any other breed because they literally "look through their hair," as one breeder expressed himself. This breed is known to have less eye trouble than their numerous canine cousins. The body of the Old English Sheepdog closely resembles a bear. The depth of chest and expansive spring of ribs is remarkable. This dog's coat does not cover a number of conformation faults. By pressing down on this dog's back one discovers great flexibility. The hair is dense on front and hind legs, giving the appearance of "leggings."

JESSIE RUSH, Editor and Mgr.

The most complete expression we have heard for some time is the one made by the fellow who said: "There is no such thing as a little garlic."

A reader of this paper was telling us recently how he come to miss the Louts-Schmeling prize fight. He stepped into a drug store just as the preliminary announcements were being made. He discovered after he got inside that there was no cuspidor handy and stepped to the front door to dispose of his chew of tobacco. When he got back to the radio the fight was over.

The quicker death is the gallows. It is a fraction of a second quicker than the electric chair.

As a rule the fellow who has to be called three times in the morning before he gets up is the fellow who breaks the city speed ordinance and jumps every traffic light by a split second.

Some element of justification may be seen in the request of the railroads that employees accept a reduction in pay when it is noted that the income of the railroads of this country for the month of March this year was \$15,000,000. In March last year it was \$69,379,000.

Dr. Urschel tells us that last year more children died of whooping cough than of diphtheria and scarlet fever combined.

One can't belittle religion, and honesty, and sobriety, and morality, and have one's children respect it. Character is not built that way.

Politeness goes far, yet costs nothing.—Smiles.

One of the things that robs the newspaper business of a lot of the pleasure it might otherwise yield is to have the fellow, for whom we have run a long article of little interest to anyone except himself, call up and tell us that we left out a word near the bottom of the third paragraph. No thanks or apparent appreciation for the type that it cost good money to set—just a complaint for the word omitted.

Happiness grows at our own fire-side, and is not to be picked in a strangers garden.—Jerrold.

Roman Theater Tickets

About 60 B. C. the Roman theater tickets were flat bone pieces called tesserae, on each of which was marked: Praecinctio I, II, etc., (this referred to row), Cuneus I, II, etc., (this denoted division and seat number). The divisions were somewhat wedge-shaped, as they were sections of the semi-circle forming the amphitheater. These were often separated by stairways, to make access to the seats easier.

"Boulevard of the Unemployed"

The Promenade des Anglais at Nice, the most fashionable Riviera sea-walk, is facetiously called "the Boulevard of the Unemployed," for here saunter the idle rich of many lands.

Savings Clubs

BANKING institutions in thirty-eight States are now operating New York World's Fair 1939 Savings Clubs, according to a report just made to Grover A. Whalen, President of the Fair Corporation.

The popularity of these clubs arises from the fact that they enable individuals and families easily to finance a trip to the Fair next year through gradual accumulation of the necessary funds instead of by single demand upon financial resources. The slogan of the plan is: "Save Today to See the World of Tomorrow."

Some of the banks which have instituted the World's Fair Savings Clubs are operating them in connection with Christmas and Vacation Clubs, these having for long been in successful existence.

In one of the Southern States, such Fair clubs have been organized in colleges to aid students to set aside part of their allowances to provide means of visiting the Exposition next Spring. Banks are also utilizing the plan to encourage saving by school children.

Attendance at the Fair is expected to reach 60,000,000, according to present estimates.

The famed Italian master of the method of governing by artifice, Macchiavelli, observed that two things are necessary for a political coup—the opportunities and the man.

No Butter From Some Milk

Despite its butterfat content, the milk of several species of domestic mammals, one of which is the camel, cannot be made into butter in any appreciable quantity, says Collier's Weekly, because the fat globules are too small to be separated from the milk.

Added Many Titles

When Edmund Roberts, American diplomat, tried to negotiate a treaty with Cochln China in 1832, he was unable to impress the Oriental authorities with his importance, note a writer in Collier's Weekly, until he added to his name on the letter of introduction, by way of titles, the names of cities, lakes, rivers, mountains and counties in his native state of New Hampshire. Then the treaty was signed.

The Sin Eater

A sin eater is a person hired to eat the sins of one who has just died. The practice used to be common in England. A piece of bread was placed on the breast of the corpse. This the sin eater devoured and, supposedly, with it, the former occupant's sins. The rite has been known as recently as 1893 in Shropshire in England and is followed in parts of Bavaria and the Balkans.

Rat Flea Chief Offender

The rat flea is probably responsible for more human deaths than even the mosquito. The Black Death, which brought England to the verge of ruin in the Fourteenth century, and killed one-fourth of the population of all Europe, and the Great Plague of the 1600's were spread by fleas and the rats which carried them.

Learning to Play Organ

People of ordinary ability must study the organ for years before they learn to play even moderately difficult passages. They must learn to do many things at the same time. Their two hands must play on four different keyboards, and manage "stops"; their feet beat out bass parts on a fifth, or pedal, keyboard, and strike other controls as well.

English Peerage

The British nobility, in descending order, includes king, princes, dukes, marquesses, earls, viscounts, barons. The corresponding feminine titles are queen, princesses, duchesses, marchionesses, countesses, viscountesses, baronesses. Titles below the peerage include baronets and knights (the corresponding feminine title being lady).

Remember Only Today

Finish every day and be done with it. You have done what you could. Some blunders and absurdities no doubt crept in; forget them as soon as you can. Tomorrow is a new day; begin it well and serenely and with too high a spirit to be cumbered with your old nonsense. Today is all that is good and fair is too dear with its hopes and aspirations to waste a moment of the yesterday.—Emerson.

How Leaves Generate Heat

In hot, dry climates the friction of the leaves of trees rubbing against one another in a strong wind has generated sufficient heat, it is believed by some scientists, says Collier's Weekly, to have caused forest fires.

Bankers Meet In Mentone Wednesday

The Kosciusko County Annual Bankers meeting was held Wednesday night in Mentone at the Farmers State Bank. Nineteen representatives of banks at Syracuse, Warsaw, Leesburg, North Webster, Elma Green and Mentone were present. Many matters relative to the banking business were discussed and the following officers were elected: Robert Knepfer, Elma Green, president; Elmore Fenstermaker, Mentone secretary-treasurer. Noble Blocker, Syracuse, retiring president is also a member of the executive committee. Plans were made for the annual Bankers picnic to be held at the South Shore August 11.

Parade Of Stars" At State Fair

The "Parade of Stars," unchallenged leader in its class, and conceded by the press and public to be the finest show ever produced for the outdoor stage will provide night entertainment in front of the grandstand at the Indiana State Fair, Sept. 4th to 9th inclusive.

WLS National Barn Dance radio broadcast show will be staged at the grandstand on opening fair night, Sept. 3rd.

"Parade of Stars," combines features from the movies, radio, circus and musical comedy in a manner that satisfies the quest of the public for the more modern and currently popular forms of entertainment.

The scenic set-up is truly the last word in glamour and impressiveness, according to Levi P. Moore, member of the Indiana Board of Agriculture, in charge of amusements. It is tastefully designed and has startle color effects.

The show features the famous Lambert Dancing Ensemble, Carl Freed's Band, The Cosmopolitan "Mixed" Octette, singers; Daisy, the horse; Avis Lynn, prima donna; The Harmonica Lads, Big Ben, master of ceremonies; Ruth Pryor, premiere Danseuse; Bartlett-Hirst Foursome, dancers and the Martell Trio, dance stylists.

Headline feature of the show is the scene built around the song hit, "Chapel in the Moonlight," when 10 full-toned, brightly colored organs are played by a like number of girls. The Chapel is picturesquely located in the background of the scene and in front of the triple semi-circle setting.

"The King's Horses" is a laughter provoking scene by the Lambert dancers in grotesque 'equine costumes' and in which they give an excellent account of their talents in presenting a number of difficult dance routines.

Several other scenes lead to a finale, "The Parade of Tomorrow" featuring the "Ballet Futuristic" presenting a galaxy of 16 fencing girls, making it by far the greatest outdoor show ever assembled.

Each afternoon an imposing array of circus and hippodrome acts will be presented on the stage in front of the grandstand for the entertainment of Grand Circuit race fans.

I. U. Program At Colonial Hotel

Bo McMillin, Indiana university football coach will speak on an All-Indiana night program at Colonial Hotel, Lake Manitou, Wednesday evening, August 3, at 6:30 p. m. CST, Indiana university alumni, former students, prospective students and friends of the University from Mentone and vicinity were advised today by Charles Manwaring, of Mentone, alumni chairman of Kosciusko county.

With McMillin on the banquet program will be representative alumni of this vicinity. Following the banquet, tables will be cleared away for a program of dancing to music of the two nationally known bands of Jimmy Dorsey and Reggie Childs. Childs will broadcast over N. B. C. at ten p.m.

Tickets are now on sale for the affair in the Mentone area by Dr. D. J. VanGilder, George Clark and Rosalind Mentzer.

A. C. Bradley, manager of Colonial hotel, said negotiations are underway to put the program on the air over N. B. C. coast to coast.

The Mentzer reunion was held at the park in Rochester Sunday.

Vincent's To Visit In Akron, Ohio

Mr. and Mrs. C. G. Vincent will leave Friday morning for Akron, Ohio where Mr. Vincent will preach for the Thayer St. Church of Christ for the ensuing three weeks. They will return to Mentone in time for the all day annual meeting at Sycamore south west of Mentone, August 21.

Mr. Vincent was minister of Thayer St. Church for three years and assisted in building a \$30,000 modern church house. The membership numbers more than 400 and the Vincents have many friends there.

NOT DIPHTHERIA

Dr. Urschel who has been confined to his home for several days due to illness, is afflicted with a severe summer cold and bronchitis, according to Dr. Clutter who is caring for him. He is improving and should be able to resume his practice within the next few days.

Because Dr. Urschel became ill about the same time that a case of diphtheria appeared in the community there has been a false impression that he too has this contagious disease. This is not true.

Two Minute Sermon

By
Thomas Hastwell

EVERY MAN'S INHERITANCE:

In the book of Joshua is found the story of Caleb and Joshua who brought back to Moses at Kadesh-barnea the true report of the land of Canaan. Caleb patiently bided his time for forty years and at the age of 85 came before Joshua with the request that he be permitted to take the country about Hebron that the Lord had promised him as an inheritance. Joshua blessed him and gave him permission, and Caleb and his tribe possessed the land.

I like the lesson that the dauntless Caleb brings. I like his courage, his persistence, and above all his faith that God's promise to him would be fulfilled, if he but kept the faith and did his part. I like to think that God has promised to every man a heritage in this life, a heritage rich in opportunity and blessings, if he will but claim it. The heritage can only be possessed by those who have the courage, the persistence and faith in God and themselves, that, if they but do their part, God will do his part. Caleb's courage, and faith, and patience, and persistence won for him his inheritance in that day, and the same courage, and faith, and patience and persistence will just as surely win for man today the inheritance that God has promised him.

In Justice Court

4.50-20

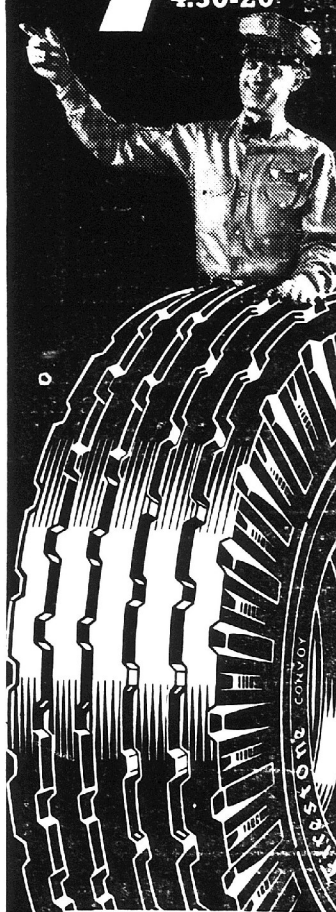

RIGHT now when you use your car more than at any other season of the year — when you want and need greater protection against blowouts, punctures and skidding — Firestone provides this three-way safety at NEW LOW PRICES. Now that it costs so little to make your car TIRE-SAFE car owners everywhere should replace dangerously worn tires with NEW, SAFE Firestone Gum-Dipped Tires, built with these patented and exclusive construction features:

Gum-Dipping, the Firestone patented process by which every fiber of every cord in every ply is saturated with liquid rubber, counteracts tire-destroying internal friction and heat which ordinarily cause blowouts. Nine extra pounds of rubber are added to every 100 pounds of cord.

Two Extra Layers of Gum-Dipped Cords under the tread, another patented Firestone construction feature, protect against punctures.

Scientifically Designed Non-Skid Tread made of tough slow-wearing rubber, assures safer stops and longer non-skid mileage.

With the low first cost, the extra safety and the long mileage of Firestone Convoy tires, you can no longer afford to take chances on unsafe tires. Join the Firestone Save-A-Life Campaign today by equipping your car with a set of new Firestone Convoy Tires — the safest tires that money can buy at these low prices.

HOROSCOPE

JULY 24—Cooking is your specialty, and you are an expert in this line. You go to the extreme in whatever you do, whether it is love or hate, and cannot stand unkindness or neglect on the part of one near and dear to you.

JULY 25—Though close in money matters you are generous and just in a certain way. You are quick tempered, intensely sensitive, but you are kind, loving and sympathetic.

JULY 26—It is impossible for you to do anything in a cheap way, consequently, though you try to invent a way to lower the cost of things you wish to improve, you do not succeed and your inventions are not put to general use. If a woman you are a splendid cook, but do not know the meaning of economy.

JULY 27—You make a most entertaining companion as you are cheerful, bright and attractive in your calmer moods, but you are very fiery excitable and sometimes lose your head. You like to travel.

JULY 28, 29—Your intentions are generally in the right direction and when you insist on your ideas being carried out, it is because you honestly think they are better. You are very affectionate to those you love and courteous to all.

JULY 30—You have much curiosity and are inclined to be somewhat suspicious. You like to travel and make a good traveling companion as you are refined and intelligent. Your love for your family known no bounds.

When a poor man loses his good
name he is poor indeed.

While the head of the Roosevelt
family carries a big club for the
economic royalists, as he terms the
men of wealth, his sons appear to
have no objection to marrying their
daughters.

A flood in Japan recently took 400
lives. It was heralded in the press as
a national disaster. The Fourth of
July celebration toll of lives in this
country this year was 497.

We know better, but there is al-
ways a temptation to stop and pick
up a tired, weary hitchhiker.

The deepest hole ever made by man
in the earth is an oil well in the San
Joaquin Valley of California which
reached the depth of 15,004 feet. The
deepest point at which oil was found
in the well was 13,100 feet. The well
cost \$305,00 to drill. At 11,600 feet
the mud pressure was 9000 pounds
per square inch. Near the bottom of
the hole the weight of the pipe is
over a quarter of a million pounds
and the temperature 270 degrees
Fahrenheit.

Experience is a dear school, but
fools will learn in no other. Benja-
min Franklin.

A bill passed by the late Congress
removed the so-called nuisance tax
from tooth paste, soaps and other
toilet articles, furs, phonograph re-
cords, sporting goods, cameras, chew-
ing gum, watches. The same bill in-
creased the tax on newly manu-
factured liquor from \$2.00 to \$2.25
per gallon.

The population of the United States
increases at the rate of about one
every 36 seconds.

There is no reasoning with blind
ignorance.

A local young man recently fell
for a movie actress. He had about
reached the point of writing in an
effort to secure her address when he
discovered that she was married and
has a couple of children.

SUFFER FROM MONOXIDE GAS

Mrs. Arlo Friezner and her daugh-
ter Violet suffered from the effects
of monoxide gas Monday afternoon
when they were enroute to their
home in Mentone from Defiance,
Ohio, where they had spent the week
end with Mr. and Mrs. Wm. Blue. Mr.
and Mrs. Friezner and two children
and Mr. Lonnie Blue arrived at the
Munson garage in Warsaw shortly
after noon Monday, just as the daugh-
ter fainted. Mrs. Friezner also felt
faint so Dr. Anglin of Warsaw was
summoned. Emergency treatment
was given and they returned to their
homes.

It is believed that a defective line
in the exhaust pipe caused the mo-
noxide gas to creep into the car and
to be inhaled by the victims without
their notice.
