DEATH TAKES MARY NORMAN

Expires At Her Home Near
Mentone After Long
Illness

Mary Emely Norman, 77, expired Saturday at her home one mile west of Mentone. Death was due to apoplexy and followed an illness of the past four weeks. Mrs. Norman had been in failing health for the past four years.

The decedent was born in Miami county, but resided for the last 33 years near Mentone. She was married to John Norman, who is among the surviving relatives. To this union were born two daughters, one preceding her in death, and the other, Mary, at home.

Funeral services were held Tuesday afternoon at 2:30 o'clock at the M. E. church at Mentone. Rev. De Witt officiating. Burial in the Mentone cemetery.

PICNIC JULY 4

Don't make your plans for the 4th of July until you have seen the all-star program that is being prepared by the committee. Delightful entertainment, interesting and instructive speeches and good eats are yours when you spend the day with these co-operative people. Those who have attended our picnic in previous years will know that it was a day well spent, and long to be remembered. Come, and make this the most eventful day of the year.

Real Neighbors

On Thursday May 30th, friends and neighbors of John Zent met at his home near Palestine to help him with his planting. The men finished his plowing harrowed the ground and planting his corn. Mr. Zent's failing years have made farm work go rather slow this spring. Mrs. Zent has been confined to her bed for the past month with an infected ankle.

A smoking hot dinner was prepared by the farmers wives at the noon hour. Those taking part in the work

FINISH IN 500 MILE RACE

Here is how the first 10 drivers in the 500 mile automobile race at the Indianapolis Speedway finished together with their time and speed averages.

Driver	Time	Ave. M.P.H.
1. Kelley Petillo, Los Angeles	4:42:22.71	106.240
2. Wilbur Shaw, Indianapolis	4:43:02.73	105.990
3. William Cummins, Indianapolis	4:46:22.48	104.758
4. Floyd Roberts, Los Angeles	4:50:37.05	103.228
5. Ralph Hepburn, Los Angeles	4:50:45.73	103.177
6. William Canton, Detroit	4:56:37.07	101.400
7. Chet Gardner, Los Angeles	4:56:39.02	101.129
8. Deacon Litz, Duboise, Pa.	4:57:18.22	100.907
9. George MacKenzie, Eddington, Pa.	4:58:13.01	100.589
10. Chet Miller, Detroit	4:58:35.16	100.474

Just what breed of an automobile Petillo drove was hard to determine. It was a mongrel, composed from parts of old airplanes and broken down tractors, figuratively held together with baling wire, log chain and pieces of rope. The story of Petillo's sacrifice and those of his wife and father is an interesting and unusual one. Petillo is a born mechanic and machinist. For a living he drove a truck over the treacherous Ridge route between Bakerfield and Los Angeles. With made over stock cars, Petillo began racing on dirt tracks, and his big chance came last fall when he won a road race at Minesfield. From his "take" he put aside \$2000 to build his Indianapolis car.

And the story continues—deprivations of all kinds, searching through the wreckage of old mono. planes, tractor etc., until finally his "Indianapolis Kitty" was complete. Ill luck pursued him almost to the hour of the race. He worked on his car until 4:00 a. m. on the day of the race.

were: James Longacre, Bill Gross, Verl Taylor, Fred Surguy, Edward Severns, Fred Rush, Mont Loher and Milo Howard. The radiant smile that wreathed the face of their friend and neighbor, amply paid the neighbors for their kindness.

PSI IOTA XI

The members of Beta Epsilon Chapter of Psi Iota Xi were entertained at a party honoring Mrs. Leroy Norris, a recent bride, at the home of Miss Eileen Mollenhour who was assisted by Miss Bernice Bowen. The evening was spent playing bridge. The prize for high score was awarded to Miss Frances Clark and Miss Annabel Menzer received second.

Following the bridge game, the guest of honor was presented with a lovely bridal bouquet of pink and white bearing a card with "the shower for which no umbrella was needed, was all for her" written upon it.

The tables were very cleverly decorated with little pink and white arches bearing wedding bells under

which stood a tiny bride and groom and bridesmaids, each one of which bore a place-card. The bride received many lovely gifts.

4H Club of Mentone

The 4H club of Mentone has opened. Our eighteen members are busy trying to improve their all around abilities and make better use of time.

We are organized into a group bearing the name of Busy Bee. Our head we presented to Mary Rush, and vice president to Marcella Leininger. We are depending upon Juanita Nellans to bring back the notes from the previous meetings in the order of minutes.

The first year sewing class are rapidly making use of their time and ability. With the help of Rosalind Mentze, our leader and Eloise Kesler junior leader, they have completed a hand made towel, and are now beginning on a pan holder.

The students of the higher grade sewing are doing equally well. After business and work we have pleasure. Songs and games seem to give the most enjoyment.

D. A. R. Has Regular Meeting

Tuesday evening, May 28, the Anthony Nigo chapter of the D.A.R. of Mentone met with Miss Rosella Ford. The meeting opened with the pledge of allegiance to the American flag. Reports were given of the district meeting held at Marion, May 3, by Mrs. Kenneth Riner and Mrs. F. R. Burns. The chapter voted to accept the invitation of the Tippecanoe river chapter to attend a luncheon meeting June 11 at Bourbon with the state regent, Miss Bonnie Farwell, and the past national president-general, Mrs. Crankshaw, of Fort Wayne, as guests. The Mary Pencose Wayne chapter has been invited to this meeting. The officers were re-elected as follows: Mrs. F. R. Burns, regent; Mrs. Kenneth Riner, Vice-regent; Mrs. Dean Nellans, secretary; Mrs. Stanley Boggs, register; Mrs. G. C. Taylor corresponding secretary. Mrs. Lydia Sanders read greetings from president-general of the D. A. R., Florence Hagenbecker. "The Women of the Mayflower" was given by Mrs. G. C. Taylor. A very interesting paper on "An Old-Fashioned Garden" was read by Mrs. Cloice Paulus Pauline Swick, Jean Manwaring and Evelyn Smith were special guests at this meeting. They were selected to represent the Mentone high school in the citizenship contest by the members of their class. Mrs. Stanley Boggs explained the nature of the contest, sponsored by the D.A.R. organization, and suggested by Ruth Bryan Owen. She explained that this honor was due them because of their school record and their interest in community service. She presented to each of the girls a D. A. R. citizenship manual as a gift from the Anthony Nigo chapter. Delicious refreshments were served by the hostess. Mrs. Charles Shafer, Mrs. Chester Manwaring, Mrs. Fred Swick, and Mrs. Irvin Snider were guests at this meeting.

Home Economics News

Mrs. Fred Lemler was hostess to
the Home Economics Club for the
May meeting. Attendance was not so
good as usual because of house
cleaning and various reasons.

The leader told their of their last
meeting at Warsaw and assisted
the hostess in serving the food, con-
sisting of lentil croquettes, golden
west salad and cocoa rolls; made up
according to the receipts received
there.

Mrs. Alexander and Mrs. Paulus
had charge of the stunts, a cackling
or crowing contest, cake naming and
correct arrangement of the disar-
ranged letters in the names of the
club members. Prizes were won by
Helen Weirick, Grace Wessiert and
Leona Eber.

The club voted unanimously to
sponsor the 4H Club in the commu-
nity and to request the continuance
of vocational Home Economics in the
Mentone Schools.

The next meeting will be with Mrs.
John Laird on June 20.

OBITUARY

Mrs. Catherine Jefferies

Mrs. Catherine Jefferies, 75 years,
11 months, 17 days, passed away at
11:45 o'clock Friday at her home
three and a half miles southeast of
Mentone. Death was due to compli-
cations and followed an illness of
three weeks duration.

The deceased was born in Ohio the
daughter of George and Sarah Engle.
She came to Indiana when eight
years old, with her parents and loca-
ted in Franklin township, where she
grew up. Mrs. Jefferies has lived
near Mentone her entire lifetime.
Her husband, David Jefferies prece-
eded her in death three years ago.
Mrs. Jefferies was a member of the
Baptist Church at Mentone.

Survivors are five daughters, Mrs.
Emma Smith and Mrs. Sarah Jenkins,
of Claypool, Mrs. Mary Dawson, Mish-
awaka, Mrs. Rose Woods, Burket, and
Della Smith, Akron. Two sons, Isaac
Jefferies, Mentone and Otto Jefferies
Claypool, two brothers, David Engle,
Warsaw, and Jake Engle, Beaver
Dam and a number of grandchildren
and great grandchildren.

The funeral services were held at
2:00 o'clock Sunday afternoon at the
Baptist Church in Mentone, with the
Rev. Yeager, pastor of the church,
conducting the service. Burial was
in the Mentone cemetery.

OBITUARY

William C. Black

William C. Black of Portland, Ore-
gon, passed away Monday evening,
May 15, after having completed his
days work. His death at fifteen
minutes after five p. m. was caused
by a heart attack.

Mr. Black was raised in Mentone
and lived here several years after his
marriage to Miss Della Lewis. He
leaves his wife and one son, Lewis
and one grandson of Portland, Ore-
gon, his mother, Mrs. R. L. Rush,
one sister Edith, of Marion, Indiana,
one brother Irvin of Niles, Ohio, and
many other relatives and friends to
mourn his departure. He is a cousin
of Mrs. Pontius of Mentone.

TRENDS FAVORABLE IN STATE BANKING

Recent Figures Indicate Large Increases in Deposits and Invested Funds

Improvement in the condition of state banks in almost every respect during 1934 is shown by statistics recently assembled. Robert M. Hanes, President Wachovia Bank and Trust Company, Winston-Salem, North Carolina, points out in an article in "Banking" published by the American Bankers Association. The figures of which this statement is based were gathered by the Committee on State Bank Research of the association from reports furnished by state bank supervisors throughout the country.

"Ever since 1921 the number of state banks has been declining," Mr. Hanes says. "Between 1931 and 1934 the decline was rapid. Figures for December 31, 1934, showed that the downward trend has not yet ended, but the decline last year was the smallest in twelve years."

There are now, he says, about ten thousand state banks, which term includes all state chartered institutions with the exception of mutual savings banks. The article continues:

"Even more significant was the ending of the decline of deposits in state banks which had been going on since the collapse of the stock market boom in 1929. In recent years for which figures are available the drop has been particularly abrupt. Total deposits in state banks declined from \$20,395,762,000 on December 31, 1931, to \$15,424,823,000 on December 31, 1933. The record for 1934 shows a recovery to \$17,508,766,000 at the year-end."

Significance of Increased Deposits

"It is particularly gratifying to note the expansion of deposits, since it was their decline which made necessary the liquidation of investments, the calling of loans, and all the other phenomena which go under the name of 'deflation' and have brought banks so much criticism in recent years. It is now plain that this was due to efforts of the banks to place themselves in the possession of enough liquid assets to meet the growing demands of depositors for the return of a part of the money which had been placed on deposit."

"That this is true is borne out by the movement of invested funds of state banks, which has paralleled that of deposits. These invested funds (loans and discounts plus investments) for state banks, dropped from \$20,291,320,000, at the end of 1931, to \$14,915,773,000 at the end of 1933. By December 31, 1934, however, they had recovered to \$15,769,510,000. All of this gain is accounted for by the increase in investments during 1934, the expansion amounting to approximately \$1,300,000,000."

"As for loans and discounts, they registered a slight drop again in 1934, but the rate of decline was much smaller

than in previous years, which in itself is progress. Whereas the drop in loans and discounts amounted to approximately \$3,300,000,000 in 1932, and to approximately \$1,300,000,000 in 1933, it was less than \$500,000,000 in 1934."

"In another respect the balance sheet figures for December 31, 1934, were especially impressive. Bills payable and rediscounts of the state banks, which at the end of 1932 had reached a depression high of \$669,709,000, had dropped by the close of last year to the low figure of \$82,101,000. One must search the records as far back as 1917 to find bills payable and rediscounts of state banks at a lower figure. Moreover, it is reasonable to expect a further reduction of such borrowings during the current year."

CLINCHER

A miserly man was approached by a friend who did his best to persuade him to dress more in accordance with his station in life. "I'm surprised," said the friend, "that you should allow yourself to become shabby."

"But I'm not shabby," said the miser. "Oh, but you are," said his friend. "Remember your father. He was always neatly dressed. His clothes were always well tailored and of the best material."

"Why!" shouted the other, triumphantly, "these clothes I'm wearing were father's!"—*Tit-Bits Magazine.*

ON OCEAN WAVES

Hubby—You're carrying altogether too much sail.

Wifey—Why should that worry you?

Hubby—Because I have to raise the wind.

What Some Lack

The physician was giving an informal talk on physiology. "Also," he remarked, "it has recently been found that the human body contains sulphur."

"Sulphur!" exclaimed the girl in the blue-and-white blazer. "And how much sulphur is there, then, in a girl's body?"

"Oh, the amount varies," said the doctor.

"Ah!" returned the girl. "And is that why some of us make better matches than others?"

Town on a Glacier

The town of Wainwright, Alaska, stands on what scientists declare is a glacier that has stopped moving. The ice is covered with about two feet of soil. Every householder may have a refrigerator simply by digging down through the soil covering the ice. That the ice has been there thousands of years is proved by the fact that bodies of mammoths, a pre-historic elephant-like animal, have been found still in a perfect state of preservation. For ten weeks every summer the sun is constantly visible at Wainwright and for ten weeks every winter it is dark the full 24 hours.

Animals' Weapons

The giraffe attacks his enemy, when necessary, by clubbing him soundly with his head, which, one might imagine, would hurt the giraffe nearly as much as his enemy. The elephant stamps and crushes his enemies to death with his mighty forefeet. The llama bites and spits and kicks in a primitive sort of fashion, and the ostrich, too, fights with its feet. So does the kangaroo.

Tongue Tells Condition

Except in cases of the blue-tongued specimens, the tongue of the healthy dog is soft, moist and pinkish in hue, as are also the other mucous membranes of the mouth. A dark red tongue indicates inflammation of membranes of the digestive tract. When brown in color, the inflammation is greater.

Three Types of Hair

The structure of human hair is three-fold: Short and crisp, generally termed "woolly," always jet black in color; straight, lank, long and coarse, and black almost without exception; wavy and curly or smooth and silky, mainly fair, with black, brown, red or tow varieties. The first is the hair of all the black races except the Australians and the aborigines of India. The second is the hair of the yellow races, while the third is that of Europeans. The Australian, Papuan and Dravidian types exhibit a variety of hair intermediate between one and two, which may be called "frizzy."

Earliest Knockers

The earliest knockers were the door pulls, a few of which can still be seen on old houses in the East. These were succeeded by the hammer type and later on, by representations of animal heads and human figures.

Norway Not So Cold

Because the northern part of Norway tips into the Arctic circle the erroneous impression prevails that it is a cold country. Instead, it has milder climate than any other country in the same latitude.

"The Forgotten Man"

The expression "the Forgotten Man" was used by Byrd. Earlier it was used in a poem called "The Common Lot." In 1883 William Graham Sumner, professor at Yale university, described the forgotten man.

• MAYBE THESE SINK IN

Cupid has absolutely no intellectual equipment.

People generally have quit trying to observe "weeks."

A strong man is one who realizes how weak other men are.

The only thing some people will share with you is trouble.

The art of life is the most distinguished and rarest of all the arts.

Don't be "the peepul" and let demagogues take you in.

Philosophy has never touched the mass of men except through religion.

Dogs fight without apparent reason—like men.

There are 22,000 different kinds of taxes in this country.

How little sympathy a man gets in a lovers' quarrel.

We all lack courage in throwing away junk that we call souvenirs.

If there were artificial caviar, hundreds wouldn't know the difference.

One way of getting rich is to settle down and lazily let business pile up around you.

Silence doesn't always mean that your adversary in argument has given in.

Don't hold so many ideals that they pester you when you just want to vegetate.

People who can make a return visit to the old home town looking prosperous generally do.

Your friend doesn't need to have any trait but simple manliness to hold your regard.

In every town there are a few family names so queer that strangers think they ain't so.

One might be so cautious as to never get married, so that one couldn't be divorced.

Death by Electric Shock

The present rate of death in the United States due to electric shock is one per 100,000 inhabitants per year. This rate is increasing and the increase is the most noticeable in the number of deaths caused by low voltage currents. In an address before the New York Electrical society, Dr. W. B. Kouwenhoven, of Johns Hopkins university, pointed out the effects of electric shocks on the human body. He emphasized the fact that in most accidents of this kind death is only apparent and artificial respiration should be continued until actual death is evidenced by rigor mortis. Death by electric shock is caused in many different ways, Doctor Kouwenhoven said, but the heart and the respiratory center are the most susceptible to injury. Currents of only one-tenth of an ampere can cause death by disturbing the coordination of the heart muscles and causing circulation to cease. Injuries to the spinal cord, the brain, and the nerves also cause many deaths.—Pathfinder Magazine.

Eocene Fossils in Death Valley

Predictions of noted scientists that no fossils would ever be found in Death Valley are refuted by the discovery there of practically all of the skull of a Titanotherium, belonging pre-

sumably to the eocene or oligocene period. The momentous discovery was made by members of the staff of Death Valley National monument. A short time later a party of scientists from the California Institute of Technology unearthed another skull of the same type of mammal. Never before has the skull of a Titanotherium been found west of the Rockies, and but once previously have any fossils of this family of mammals been discovered in that region.

A New Calling

"Sums done for three halfpence a time," is the notice that has been put up in the window of a shop situated opposite a school in Zagreb, near Belgrade. The proprietor does a roaring trade. Every evening students deliver their mathematical homework, and every morning on their way to school they call for it—correct in every detail.—Montreal Herald.

Town Run by Women

Oak Park, Ga., claims the distinction of being the only town in the United States run entirely by women. A complete petticoat ticket was elected without opposition at the recent municipal election. The women named a ticket because the men officeholders had not done the things women thought necessary.

Among the Immortals

Young Composer—So you think my composition will be played after Beethoven, Mozart, Tchaikowsky and Rachmaninoff are forgotten?

Critic—Yes, but not until then.—Pathfinder Magazine.

Other Duties

Young Bride—Henry, tell me that you think only of me.

Henry—It's this way—now and then I have to think of the furnace.—Pathfinder Magazine.

Camera Smallest in World

The smallest camera in the world, recently exhibited in London, is about the size of a man's thumbnail, and a watchmaker's jewel was used as a lens.

Often the Trouble

"Do you think that candidate put enough fire into his speech?"

"Oh, yes. The trouble was, he didn't put enough of his speech into the fire."

Made 'Em Wozy

He—Did the candidate electrify his audience?

She—No; he only gassed it.—Answers Magazine.

Chance for Many Farmers

If all the land in the world were divided equally among the population each person would have 18 acres.—Tit-Bits Magazine.

Jud Tankins Knows

Jud Tankins says finery ain't helpful in an emergency. You can't make a silk purse out of a sow's ear, but neither can you make a pork chop out of a fancy card case.

Missionary Meeting

One of the most enjoyable sessions of the year of the W. F. M. S. of the Methodist Church was held at the home of Mrs. Don Bunner with thirty-eight members and guests present.

Mrs. Guy, president, presided in a very efficient way. Mrs. Irvin led the devotions, and much credit is to be given Mrs. Pearl Lackey for the success of the program.

A playlet was given demonstrating the customs and needs of Japan which was very impressive.

Those taking part were Mrs. Pearl Lackey, Mrs. S. A. Guy, Mrs. Broda Clark, Mrs. Rosa Kinsey, Mrs. Chester Manwaring and Jackie and Eileen Kercher.

Misses Jean Burns, Lena Rush and Rowena Lackey gave a pantomime in connection with the playlet "A Japanese Tea Party".

The Society accepted an invitation to Bourbon for the June meeting.

The hostess served delicious refreshments assisted by Mrs. Shafer, Mrs. Manwaring, Mrs. George Clark and Jean Manwaring.

WEDDING

Dewitt—Tunes

Sunday, June 2, following the Ascension Day services at the M. E. Church, Miss Edith Lynette Dewitt, daughter of Rev. and Mrs. E. E. Dewitt, was united in marriage to Mr. Horace Tunes.

The wedding came as a surprise to the entire congregation.

Miss Cynthia Sack, a student in the Mishawaka school, sang the "Rosary" accompanied by Miss Mildred Meyer also of Mishawaka.

Then the tones of the wedding

march came to the attentive ears of the congregation. The usher, Mr. Lowell Dewitt, marched down the aisle of the Church followed by Mr. Francis Dewitt, the best man. Both are brothers of the bride.

Mrs. Hazel Haley, the groom's sister and also the matron of honor, came down the other aisle followed by Miss Zoe Hoard, the bridesmaid, and little Gloria Sack, a former pupil of Miss DeWitt's and the flower girl.

The groom, Mr. Tunes, and best man Mr. Dewitt, brother of bride walked down the aisle and the bride entered upon the arm of her eldest brother, Mr. Leland Dewitt.

Leland Dewitt gave the bride away and the couple knelt before the bride's father, who solemnized the services.

The bride wore a stunning white chiffon gown with a long white veil gathered with a rope of lilies of the valley and roses. She carried a beautiful bouquet White Calla lilies and ferns.

After the couple were united the bridal party left the Church led by Ruth Sack, who scattered rose petals before the bride and groom.

The reception was held on the lawn. Following the reception Mr. and Mrs. Tunes left for Chicago.

Mr. and Mrs. Tunes will be at home June 10, to their friends in Pendleton where Mr. Tunes is employed in the Post Office. Mrs. Tunes was a teacher in the Mishawaka schools during the past year.

Mr. and Mrs. Irvin Snyder and Mr. and Mrs. Howard Kohr spent the week end in Grand Rapids, Michigan. Mr. and Mrs. Snyder visited their son, Sheridan and wife, and Mr. and Mrs. Kohr visited Mr. and Mrs. C. N. Adams.

Girl Scout News

Amos Sheets

Busy bees? No, busy Scouts! The month of May is the Scouts jinks! May is the Soldier's month and we certainly do not begrudge them our service.

First came Poppy Day. The one day in the year to help the unlucky Legionnaires! "Who can sell the most poppies?" What a scramble for sales! It's too bad every one can not win but in that case there would be no glory in the struggle.

"May I sell you a poppy? It is for a very worthy cause." Please buy a poppy from me. Just think how much help your poppy would bring to some soldier boy." Such sales talk you never before heard.

"Here comes the winning team in our local contest! None other than the Misses Jean Burns and Mary Ellen Myers."

On Wednesday afternoon the Scout troop gathered at the school-house to make wreathes for the Soldiers graves. "There I beat you making that one!" "Hey, bring me some ever green, please!" "Where's the shears?" But believe it or not the wreathes were made and really turned out in good condition in spite of all the fun and up-roar.

One two three four! One two three four! There they come! The band led the parade and was followed by the Girl and Boy Scouts in uniform. They in turn were followed by the Lion's Club and others.

"We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that the nation might live." The wreathes were quietly placed by the Scouts upon the ground above our honored dead.

Home Nurse badges are gradually coming to rest upon the sleeves of many Scouts and more Dancers badgers are in the process of being won.

"Tis said to be poor taste to speak of weather. Never-the-less me-thinks this is grand hiking weather and I hereby forecast a number of sunny days to make Scout hearts gay as they take to the 'wide open spaces!'"

Co-Op. Picnic July 4th.

Knight Templars Visit Mentone

The Knight's Templar Lodge of Warsaw attended the M. E. Church in a body Sunday, June 2. The Templars were received with their wives at the Masonic lodge in Mentone, where they donned full dress uniforms.

The subject of Rev. Dewitt's sermon for the morning was "The As-

cension".

Miss Eileen Mollenhour sang a solo and Miss Francis Clark accompanied her.

After the Church services the Templar's witnessed the marriage of Miss Edith Dewitt to Mr. Horace Tunes.

Following the wedding and the reception the Knights Templars, their wives, and the wedding guests adjourned to the school house where they were served dinner by the Ladies Aid.

MENTONE NEWS

Co-Op. Picnic July 4th.

Mr. and Mrs. Joseph Baker made a business trip to Elkhart Friday May 31.

Miss Bernadine Newby visited with Mr. and Mrs. George Clark over the week end.

Mr. and Mrs. Hugh Kesler spent last week-end with Mr. and Mrs. Lloyd Teel.

Mrs. Miller of Rochester is caring for Mrs. Jefferies who is getting along nicely.

Mr. and Mrs. Lloyd Dunlap of Fort Wayne visited friends here over Decoration.

Mr. and Mrs. D. A. Bunner visited their son, Don Adrain and family of Fort Wayne.

Mr. Hardy Songer and family have moved into the Tucker property on South Morgan Street.

Miss Elsie Lohr, a nurse in the Riley Hospital at Indianapolis, spent Saturday and Sunday in Mentone.

Fern Rush spent Memorial Day and the remainder of the week with her sister Mrs. Dale Plew of Warsaw.

Mr. and Mrs. George Robbins and Mr. and Mrs. Herbert Stamates, visited A. E. Brown Thursday, May 30.

A very interesting Children's Day program was presented at the Beaver Dam United Brethren Church, Sunday.

Miss Charlotte Vandermark of Buttle Creek, Michigan, is staying with her mother, Mrs. Vade Vandermark.

Mr. and Mrs. Charles Madeford and Mr. Frank Madeford of Akron went on a trip through Pennsylvania last week.

The Librarian and trustees of the Mentone Public Library attended a library meeting in Plymouth, Tuesday, June 4.

Mr. and Mrs. Worthington and Mrs. Abbott of Indianapolis visited in Mentone last week. Mrs. Abbott was a former resident.

SUN'S RAYS ON FOOD "PEPS UP" ANIMALS

Experiments recently carried out in Cleveland, Ohio, go to prove that animals derive their energy by the re-radiation of the sun's rays on the food they eat. Dr. George Crile placed brain tissue in a flask and in total darkness a faint greenish glow was seen, which grew even brighter when the bottle was shaken. By the use of very delicate instruments it was proved that these radiations are produced in different wave lengths, and the addition of certain drugs increased or decreased the luminescence. Dr. Crile, who has studied from a scientific standpoint the behavior of thousands of animals, says that the thyroid and adrenal glands differ in size, according to the needs of their owners. Thus, lions and tigers possess large glands, which give them the energy they need so often at a moment's notice, but these glands are much smaller in alligators and crocodiles, whose habits are mostly slow and sluggish. It has been established that the thyroid glands in the case of man are larger than the adrenal glands in animals because there is a much greater need for sustained energy over long periods.—Tit-Bits Magazine.

Rabbit Hair 1,500 Years Old

Hairs from clothing worn by people inhabiting the Southwest more than 15 centuries ago were recently identified as those of rabbits by a biologist of the bureau of biological survey, co-operating with the Museum of Northern Arizona at Flagstaff. The hairs, for the most part in a good state of preservation, were obtained from a "Basket Maker II" burial cave in north-eastern Arizona by the 1934 Rainbow Bridge-Monument Valley expedition. The biologist reports that they differ little from those of the present-day cottontail.

Bull "Thrusters" Man

During a bullfight at Corunna, Spain, recently, a spectator was killed by a sword, hurled by the bull. The bull-fighter was ready to slay the animal when it quickly twisted its head, caught the sword between its horns and sent the weapon spinning through the air. The speeding blade struck the spectator in the breast, and he died on the way to the hospital.

Pictorial Signs Used

So that travelers from all parts of the world may understand, pictorial signs have been erected at Parkston Quay, Harwich, England, a telegraph pole indicating the telegraph office, a trunk the baggage room and a big question mark the information clerk.

Who Wants to Be a Villain?

"What's the difference between a drama and a melodrama?"
"Well, in a drama the heroine merely throws a villain over. In a melodrama she throws him over a cliff."—Stray Stories Magazine.

The mill buys wheat, oats, corn.

Sow Has 385 Pigs

Worcestershire, England, claims to have the world's greatest porcine mother in a sow which produced 385 youngsters in 11 years, 65 being born in three litters in one year.

Farm Lands Reclaimed

Much new agricultural land is being reclaimed by the draining of lakes and marshes in La Camargue, the delta of the Rhone, which has an area of about 300 square miles in France.

No Rehearsal Required

Head Nurse—They tell me that undertaker can sing anything at sight.
Foot Nurse—Yes, he never has to rehearse.

Have a Carol

Customer—I suppose I can sit here till I starve!
Walter—No, sir—we close at ten o'clock.—Tit-Bits Magazine.

Cutting and Slashing

"Why are you reducing?"
"Oh, to cut down expenses."—Answers Magazine.

BALMY BREEZES

Grocery bills are small if there are no men in the family.
More lasting than all else is shame.
A fool and his money attract nobody worth having.

All subscribe to the Golden Rule; but there are chiselers of that, too.

A pessimist seldom knows he is one.
Marriage is not a failure if too much is not expected of it.

A bachelor of arts is wedded to his art.

Every man has some weakness and he doesn't want it harped on.

If you must attract attention, walk the streets wearing a mask.

A stitch in the side taken in time saves nine.

We have never liked the spider, although it has been our whole-hearted ally against the flies.

If you hear enough Beethoven, you will be musically cultured—provided you like the classic.

No one can imagine what a sardine would taste like if it were not packed in oil.

Fingers were made before forks; and does everybody know how to use fingers?

It takes thirteen muscles to make a smile. Is that why so many smiles are unlucky?

Commonplace thoughts can often be clothed in words that give them new beauty.

An "interpretative dance" is frequently just gymnastics and ungraceful at that.

The schoolboy thinks that the sun sets in the west and hurries to the east to be in time to rise in the morning.

People who laugh the loudest at the troubles of some one else are the same people who cry the hardest at their own misfortunes.

Men with high-blood pressure make the world go round; and they don't much mind the blood pressure.

Nothing New to Them

To the ancient Egyptian of about 4,000 years ago our modern civilization could teach nothing either in design or in execution, so far, at least, as the artistic crafts which minister to the love of beauty and luxury are concerned.

Said to Be True

The Pangans of Mayala are the only tribe on earth that has no use for money. When a Pangan is prevailed on to take a job, he will accept no financial reward but is content with a little rice and tobacco. If he receives more than his day's rations, he runs away, being suspicious of generosity.

The Big Demand of Truck Buyers Today is for Economy

IT PAYS 3 WAYS TO BUY CHEVROLETS

1½-Ton Stake (157-inch wheelbase)

Today, when every wise buyer of trucks is particularly interested in getting dependable transportation at lowest cost, the money-saving advantages of Chevrolet Trucks have a particularly strong appeal. Truck buyer after truck buyer is discovering that *it pays three ways to buy Chevrolets*. And truck buyer after truck buyer is deciding to take advantage of the big savings which Chevrolet offers. You, too, will get better haulage service at lower cost by buying a Chevrolet Truck because of these triple economies:

1. Chevrolet Trucks sell at the world's lowest prices.

2. They use less gasoline and oil because they are powered by six-cylinder valve-in-head engines.

3. They give longer, more dependable service because of the *extra quality* which Chevrolet builds into every part of its products.

Visit your nearest Chevrolet dealer—*this week*. Have a thorough demonstration of the right Chevrolet Truck for your haulage needs. Buy a Chevrolet and get better truck performance at the world's lowest prices!

Baptist Wimpy Party

At the invitation of the Baptist Young People's Union of the local Baptist Church, sixty-seven young men and women attended a dinner in the basement of the church on the evening of May 14th. The bill of fare consisted chiefly of that favorite delicacy of Mr. Wimpy, well known comic strip character and the sentiment of the banquet seemed to be I'll gladly pay you sometime for an other hamburger right now."

The toast mistress, Miss Anna Baker, president of the local B.Y.U. introduced as after dinner speaker Miss Betty Lyons, of the executive committee who outlined the program for the summer, Miss Kathryn Eiler, also of the executive committee, the Rev. Dwight S. Dodson pastor of the Burnettsville Baptist Church who was the guest speaker, Mrs. Dwight S. Dodson and Rev. R. O. Yeager, pastor of the local church.

At eight o'clock the young people adjourned to the auditorium for a brief musical program. Rev. Dodson spoke on the subject "All Things But Loss". The message was a very scholarly and heart felt appeal for complete christian consecration. At the close of the message a consecration invitation was extended to which many responded. Representatives from Harrison Center and Palestine were special guests.

Co-Op. Picnic July 4th.

4H CLUB

Good, Better, Best
We'll never let it rest,
Until the Good is Better,
And the better is the Best.

The Loyal Workers 4H Club ended their song period and started their working period with this inspiring cheer. The girls then gathered into small groups and soon the country home of Mary Mellot, one of the members, became a busy place for learning and teaching sewing. The girls were cutting, some basting others fitting garments.

The girls in the cooking and canning departments were doing research work in various text-books.

Work was all laid aside at three o'clock and the program committee, consisting of Winifred Mollenhour, Dortha Decker, and Barbara Creighton, invited the group out-of-doors, where several games such as, "Three Deep" and "Partridge Pat" were enjoyed.

The meeting closed at four o'clock with plans having been made for the group to meet with Doris Mathews on Tuesday, June 4.

INDIANA STATE FAIR
CLUB BOOKLETS READY
TO MAIL.

Any 4-H Club Boy or Girl in Indiana who is interested in showing at the Indiana State Fair in the various 4-H Club Departments, is entitled to a club booklet and may secure same by writing to Z. M. Smith, State Supervisor of Agricultural Education, Purdue University, Lafayette, Ind., or to Dick Heller, Manager of the Indiana State Fair, Room 332, State House, Indianapolis.

The Indiana Board of Agriculture takes great pride in boosting as much as possible all 4-H Club work at the State Fair and has the record of doing as much for 4-H Club boys and girls in this State as any of the State Fairs. Any 4-H Club boy or girl who enters an exhibit at the Fair will not only have a pleasant trip but an educational one as well. The Fair will be held from August 31st to September 6th.

New Library Schedule

The Library Board deeply regrets the necessity for curtailing library services, but owing to the shortage of funds, finds it impossible to do otherwise. However, if users of the library will note the change in hours and make the most of the opportunities offered, perhaps no real hardship will be experienced by the reading public.

A return to the regular schedule is anticipated for September 1st.

Present library hours as follows:

Tuesday—1:30 to 5:00, P. M.

Thursday—1:30 to 5:00, and 7:00 to 9:00.

Saturday—1:30 to 5:00, and 7:00 to 9:00.

RECEPTION

A lovely reception was held in the basement of the M. E. Church Thursday, June 13 in honor of Rev. and Mrs. Dewitt and Mr. and Mrs. O. T. Martin and children, Martin and Junior Mr. Martin is the new district superintendent.

July 4th Picnic

The Northern Indiana Cooperative Association Picnic will be held on July 4th at Yellow Creek Lake Camp Grounds, Known as the "Saints Grounds" on the South Bank of Yellow Creek Lake.

The Grounds are 5 miles south and 4 miles east of Mentone. All Stockholders, customers and friends are invited.

All families will bring baskets, boxes or pans of food which will be spread on long tables and all eat together. The Association will supply Ice Cream and Coffee, with cream and sugar for same.

Each family should bring their own table service. Plenty of entertainment will be provided such as music, readings and contests in which all can enter.

We are planning sack race for boys, balloon race for girls, sack busting race for ladies a lively contest for all men, a contest that looks childish but takes some pull, we will tell you the details later. Prizes will be offered in each and every contest.

During the afternoon there will be a worth while talk by a speaker who knows how to tell us the things we need to hear. (Don't Miss This.)

Come to this picnic, bring the family and have your neighbors come in full force. Let's all take part, forget your troubles, the past ones are gone, the future ones may not arrive, let's all be Kids again for a day.

PICNIC COMMITTEE—

Roy Rush, Program

Harold Weissert, Athletic Events

J. W. Swick, Host for the day

Mrs. Forrest Kesler, Hostess for the day

Death Of Charles Burt

Charles J. Burt, 50, died Thursday evening about 4:30 o'clock at his home four and one-half miles west of Warsaw.

Mr. Burt had resided for several years in the home where he died. He was an employee of the Atwood Electric Company and a member of the Masonic lodge.

He is survived by the widow Mrs. Carrie Burt, two brothers William Burt and George Burt, and one sister of Chicago.

Lake City, Warsaw Lodge No. 73, F. and A. M., will meet at the Temple at one o'clock Sunday, for the purpose of attending in a body the funeral of Brother Charles Burt. Funeral services were held at Atwood Brethren church. Burial at Stony Point cemetery.

**The Psi Iota Xi's
Elected Officers**

At the June meeting of the Psi Iota Xi Sorority, Mrs. George Myers was elected president for the coming year Vice president, Eileen Mollenhour; recording secretary, Mrs. Roy Norris; corresponding secretary, Annabel Mentzer; treasure, Mrs. Carl Myers Jr., and conductress, Mrs. Arthur Brown.

The annual convention of the sorority is being held the 19th and 20th of this month in Bloomington, Indiana. Mrs. Carl Myers Jr., and Mrs. George Myers were elected delegates from this chapter.

Mrs. William Chinworth a member of this sorority, of Warsaw is also attending the convention.

The mill buys wheat, oats, corn.

**Beaver Dam Farmers
Have Soil Tested**

More than twenty farmers have taken advantage of the Beaver Dam Vocational departments complete soil testing equipment and have had their soil analyzed in order to determine proper fertilizers for the growth of their crops. Soils respond differently and require different treatments. Crops require different treatments as well and therefore a complete soil test is essential.

The Beaver Dam soil testing equipment is complete for plants and soil, testing for nitrogen, phosphorous, potash, and acidity. Tests are made and recommendations are given by Nelson Cook vocational teacher at Beaver Dam.

Mentone Boy Honored

Mr. Donald J. VanGilder, son of Mrs. Cora VanGilder, received the degree of Doctor of Dental Surgery, Monday, June 17, at Bloomington. Mr. VanGilder graduated from the Indiana University Dental School with the highest honors and has lead his class during the entire four years with his excellent work.

Mr. VanGilder has accepted the invitation to return to serve an internship at the I. U. Dental Department for the coming year.

Habits of Baldpate Duck

The baldpate duck, also known as the American Widgeon, feeds mostly on vegetables, says the American Nature association. It has been found from Alaska to Central America. It builds its nest of grass and down in a marsh, and lays six to twelve eggs. It is of moderate size with much white below and on the wings.

We Use Most Sulphur

The United States is the world's largest consumer of sulphur, using it in making such things as paper, fertilizers, explosives, rubber, paints and chemicals.

Wild Animals in Switzerland

Among the animals found in Switzerland are bears, wolves, chamois, goats, boars, stags, badgers, foxes, hares, otters, squirrels, birds of prey of large dimensions, and snipe, heathcock, cuckoo, blackbird and woodpecker.

Mr. Harry Beazel of Indianapolis spent last week end with Mr. and Mrs. I. F. Snyder.

Garth Underhill returned Monday after spending the past week in Huntington where he had his tonsils removed.

Mr. and Mrs. Paul Deafenbaugh spent Saturday and Sunday as the guests of Mr. and Mrs. William Bloom of Claypool.

Mrs. Jefferson Regenos of Yellow Creek Lake and Mrs. Charles Rickel, visited with Mrs. Lydia Williamson Monday.

Mrs. Sara Rowland and Miss Edith Rowland of Lake Odessa, Michigan, were the guests of Mr. and Mrs. John Weissert last week.

Mrs. Cynthia Deamer of Talma spent several days last week with Mrs. Broda Clark. She had her tonsils removed at Dr. Taylors office.

For Rent:—Sheep pasture. Running water and shade. Three miles east of Mentone on road 25. Phone 1½ on 17 Burket. Burt Rush.

Mrs. Rose Morrison is spending a few days at the home of Mr. and Mrs. Dale Morrison of near Wabash. Mrs. Dale Morrison is recovering from a tonsil operation.

Hysterical Man Knocked Out by Woman Air Ace

New York.—Miss Annette Gipson, woman flyer and promoter of air races, landed a monoplane at Roosevelt field, New York, after fighting off a student flyer who became hysterical and "froze" to one of the dual controls at 2,000 feet.

After a few maneuvers Miss Gipson attempted to nose her plane to earth when the young passenger who was sitting beside her at the controls, held the control stick and refused to permit Miss Gipson to push it forward for the dive.

She struggled for a moment, then noticed that her companion was hysterical. Fearing that a struggle might prove fatal to both of them, Miss Gipson grabbed a metal fire extinguisher and struck the man on his head.

He toppled forward. As he straightened up, Miss Gipson reached to strike again. This time he parried the blow and the extinguisher struck Miss Gipson on her nose. The man then collapsed.

Miss Gipson brought the plane down and helped the young man from the plane. He was semi-conscious but soon revived.

Marrying Justice Gets

New Job as Beer Taster

Fresno, Calif.—George Washington Smith, former Fresno champion "marrying justice," had added a new distinction—that of having "the world's softest job."

Smith, together with several other elderly men, was selected by a San Francisco brewer to test his product and to compare it with preprohibition brew.

All Smith had to do was to sit around a San Francisco hotel, eat plenty of meals—and drink plenty of beer.

Russian Gives Birth to

Child With Three Legs

Moscow.—A peasant in the village of Sebez on the Latvian frontier gave birth to a child with three legs.

Ten days after the child, a girl, had been born, the mother noticed a peculiar swelling near the base of the infant's spinal column. She took it to the local hospital where surgeons found that it was a miniature leg. The joints could bend and the leg was ordinary in every way except that the big toe was inverted.

The mother's other children are normal.

The Traveler's Tree

The Traveler's tree is a remarkable tree of Madagascar and Reunion, with a straight stem reaching 30 feet in height and bearing at the top a number of large long-stalked leaves which spread vertically like a fan. The leaf has a large sheath at the base in which water collects in such quantity as to yield a copious supply, hence the popular name. The plant is known botanically as *Ravenala madagascariensis*.

Sabbath School Society Grows

In 1785 a Sabbath School society was organized in England and in ten years its membership had grown to 65,000.

Gag Rule

Gag rule refers to the practice in legislative bodies of limiting or suppressing debate on matters which come before the assembly for decision or action.

Worship Goddesses

Hinduism, which has 250,000,000 followers, or one eighth of the world's entire population, is the only living religion which worships goddesses as well as gods. In fact, they probably far outnumber the gods, as more than 80 per cent of the people in southern India worship local village deities, nearly all of which are feminine.—D. B. Mobedji, Bombay, India, in Collier's Weekly.

Britain's Largest Dome

The largest dome in the British empire is that of the Musta church, known as the Rotunda, in Malta. It has a diameter of 118 feet, which is six feet more than that of the dome of St. Paul's Cathedral.

Statutory Law, Common Law

Statutory law is a law which depends upon a statute for its authority. In distinction from this, common law is the unwritten law which receives its binding force from immemorial usage and universal acceptance.

Romantic Castle

The castle at Adana, to the north-east of Tarsus, in southern Turkey, dates back to 782 and was built by Haroun Al Raschid, of "Arabian Nights" fame. The magnificent stone bridge in this town was built in the time of Justinian.

French streams for branches.

Equal Rights in Russia

In Russia, women must struggle for life on exactly the same footing as men. Half the work in the vast industrial plants is done by women—in the machine shops, the motor car and tractor factories, the mines. Women build the military tanks, the airplanes, the artillery and the locomotives.

Know Not of War

Despite the fact that war dominates the pages of history and is still today one of the chief topics of the press of the world, there are existing races of people, such as the Eskimos, who never have indulged in warfare and who know nothing about it.—Collier's Weekly.

The Ross Kidnaping

The Ross kidnaping, while not the first case in this country, is one of the most noted. Charles Brewster Ross, four years old, was stolen on July 1, 1874, from the sidewalk near his home in Germantown, Pa. The ransom demanded was \$20,000 but this was never paid nor was the boy ever recovered.

"Calling of the Sea"

The "calling of the sea" is an old English term for a ground-swell. When this occurs on a still night the sound is sometimes heard for miles inland. Inhabitants of seaside towns looked on it as a summons by death. Tennyson refers to this phenomenon again in "Crossing the Bar," and One Clear Call for Me.

Many Languages Spoken

Approximately 3,420 languages are spoken in the world.

U. S. "SPY" COUPLE FREED BY FRANCE; HELPED NAB AIDS

Twelve Confederates Are Given Jail Sentences on Switzes' Testimony.

Paris.—Two Americans, Mr. and Mrs. Robert Gordon Switz of East Orange, N. J., were freed after Franco's most sensational spy trial in recent history, but their testimony sent twelve confederates to prison or exile.

Worn out by twenty-eight months in jail, the Switzes were released under article 10 of the espionage act, which provides liberty for those giving information useful to the state, even though convicted of spying.

Mme. Bercowitz, Mme. Lacoste, Mr. and Mrs. Douchan Narandzich, Vatroslaw Relch and Moise Salman were acquitted. Salman's wife, an interpreter at the ministry of marine, was sentenced to three years in prison and fined 3,000 francs.

Mme. Mermet and Mme. Salman each gave birth to babies, whose walls punctuated the trial.

Plenty of Money.

The Switzes, after the trial, appeared to have plenty of money. Switz is a graduate of Princeton and a capable pilot. Mrs. Switz was graduated from Vassar.

Switz said:

"I am happy that everything has ended just as it has. I was disgusted with the cheap politics and war maneuvers of the Soviets and the mercenary attitude of the spies with whom we associated."

Other sentences imposed by Judge Benon were:

Benjamin Bercowitz, Rumanian, paymaster for the spies; five years' imprisonment, five years' exile, 3,000 francs fine.

Colonel Dumoulin, retired army officer, five years' imprisonment, five years' exile, 3,000 francs.

Jean Aubry, French engineer, four years' imprisonment, 2,000 francs. His wife, two years' imprisonment, 500 francs.

Riva Davidovici, woman dentist, two years' imprisonment, 1,000 francs.

Woman "Brains."

Marie Mermet, school teacher, three years, 3,000 francs.

Louis Martin, government interpreter, five years' imprisonment, five years' exile. He was convicted of "indiscretions" only.

Lydia Stahl, a Russian, former student of Columbia university, regarded as the "brains" of the ring, was sentenced to five years and fined 3,000 francs.

Switz' extreme nervousness at the last sessions of the trial have been ascribed partly to the knowledge that by breaking down and revealing his gang's activities he had lost the affection of his more iron-willed wife, who became known as hard-boiled Marjorie to the French police.

The mill buys wheat, oats, corn.

North Carolina Tract to Be Wild Fowl Refuge

Washington.—An executive order recently set aside a 50,000-acre tract of land as the Lake Mattamuskeet Wildlife refuge in Hyde county, North Carolina, for restoration of waterfowl under the bureau of biological survey program.

Drainage operations were started on the lake, a shallow body of water 12 miles long and seven miles wide, several years ago. They proved unsuccessful, however, and the new program will restore to waterfowl one of the best resting and feeding areas on the Atlantic coast.

The government is purchasing the lake bed with funds provided by the FERA "or the retirement of submarginal lands. It is expected that the lake will restore itself naturally.

Fire Chief "Operates" on Hen Neck With Penknife

Painesville, Ohio.—Fire Chief Lee J. Elliott turned "surgeon" when he performed a successful operation on a chicken's neck.

Elliott had asked his wife for needle and thread. Curious, she followed him to the chicken house. There Elliott caught a sick young hen, tied her feet, then deftly with his pocket knife split her throat. Carefully he removed a small wad of straw that had lodged in the crop, then sewed the wound shut.

Just as the chief finished, a fire call sent him scurrying. The hen clucked contentment and walked off.

Stopped Three Times for Stealing Own Car

Lawrence, Mass.—Samuel Goldstein proudly showed the new automobile he had just purchased to some friends, then went into a restaurant for lunch. The friends, playing a practical joke, pushed the car around a corner from the restaurant. When Goldstein emerged to find the machine gone he reported the "theft" to police. He later found it, but en route home to Arlington he was stopped three times for stealing his own automobile.

Avenging Bees Routed by Artist With Bomb

Youngstown, Ohio.—When a bee insisted on buzzing around in his studio several days ago, Ralph Ellis, commercial artist took a swat at it. A moment later a whole swarm descended upon him. But Ellis showed those bees a thing or two. He cleared out the studio with a stench bomb.

Ohio, the Buckeye State

The buckeye tree was very abundant in early Ohio, getting its name from the resemblance of its nut or fruit to the eye of a buck. At the first court conducted by the Ohio settlers at Marietta in 1788, the leader of the judges' parade was a very tall man, Colonel Sproat, who so impressed a group of Indians that they shouted "Hetuck," meaning "Big Buckeye."

YEAST FOAM EGG MASH

Made by N. I. Co-Op. Ass'n. will put your Birds in fine condition to produce MORE EGGS, HEAVIER EGGS, BETTER IN EVERY WAY.

Eggs produced on Animal-Poultry Yeast Foam Mash Feeds are being sold as Yeast Foam Health Eggs. They are a thicker, heavier egg and go much farther in baking than ordinary eggs.

These yeast feeds build and maintain the vitality of the birds which means better results, better health all down the line. Try them and be convinced.

MENTONE NEWS

Mrs. Howard Kohr spent the latter part of last week with her parents, Mr. and Mrs. J. M. Tilman of North Manchester. Mr. Tilman has been ill.

Mr. and Mrs. S. L. Snyder of Grand Rapids, Michigan visited with their parents, Mr. and Mrs. Irvin Snyder and grandmother, Mrs. L. P. Jefferies over the week end.

The W. F. M. S. of the Mthdoist Church will be the guests of the Bourbon Society, Friday, June 21. All the members that want to go will find transportation at Clark's Store.

Anyone wanting Peony roots for fall planting, please come now and select varieties while they are in bloom. Mrs. J. M. Weissert, 408 North Tucker Street, Mentone, Ind.

Miss Mildred Anderson is at the St. Luke's Hospital in Chicago for special treatment. She has been transferred from Tacoma, Wis., where she taught last winter to Waupeton, North Dakota.

Mrs. Cora VanGilder son Jack and Miss Ida Weimer attended the graduation exercises at Indiana University, Monday p. m. in which Donald J. VanGilder received the degree of Doctor of Dental Surgery.

The Mentone Home Economics Club will hold its June meeting at the country home of Mrs. John Laird. Members please bring one dish of food for the pot luck dinner and their own table service. The date, Thursday, June 20th.

Trappers Along Bayous

The bayou sections of Louisiana support many fur trappers.

Pine Trees in U. S.

Of the 80 species of pine trees definitely identified, 39 grow in the United States.

First Silver Spoons

The first silver spoons made in the colonies are owned by the Essex institute in Salem, Mass.

Give and Take

"Good advice," said Uncle Eben, "needs team work. One man must be smart enough to give it and another must have sense enough to take it."

Skating in 1665

In 1665, when the River Thames was frozen over at London, the residents of that city went in for skating with great enthusiasm. English gentlemen of the Nineteenth century went skating arrayed in frock coats and top hats.

Lime, Oil and Blood

Lime mixed with turtle oil or whale blood formed the cement with which the fortifications of St. George's, Bermuda, were once made. After 300 years they are still standing in good condition.

TEST OF NEW BALL

Alex Ednie, pro at Shelter Rock Country club, Long Island, recently drove a spun latex ball through a phone book almost an inch thick, containing more than 300 pages. Standing the book on end without support 4 feet in front of the tee, Ednie sent the ball through with such force that it carried and rolled 100 yards beyond. Traveling at the rate of approximately 114 miles an hour, the ball was averaging 167 feet a second when it hit the book. The drive, declared impossible by golfer and nongolfer alike, was made to test the new spun latex golf ball, a United States rubber product. Made of materials never before used in golf ball construction, the new ball is notable for its power and distance. These qualities are acquired primarily from a high-power winding of thread spun direct from liquid latex, the natural milk of the rubber tree.

Family Seeks Name

Arena, Wis.—The Alton Brander family of Arena tried to decide on a name beginning with "F" for a newborn son to continue an alphabetical sequence. Brander name is Alton; a son is named Beryl; a daughter, Carol; another son, Donald, and Mrs. Brander's name is Edna.

Collects Pennies 35 Years

Stevens Point, Wis.—William Dugan has collected pennies for the past 35 years. He has at least one penny for every year between 1856 and 1935.

Climate Alters Shape of Nose

Human noses change shape to fit the climate, scientists were recently told. Long nostrils are needed to pre-heat cold air.

Diaz Cross Treasured

Possibly the greatest treasure in Cape Town's museum is the remnants of the iron cross which was set up by Bartholomew Diaz, when in the year 1486, he landed at Luderitz on his memorable voyage to and round the Cape of Good Hope.

FRANCES RUSH PLEW, Secretary

Goes to Jail So His Wife May Have Aid

Salem, Mass.—Because he wished his wife to collect welfare aid of \$1.50 a day for herself and four children, Charles R. Ingraham asked and received from Judge George B. Sears a term of one month in the house of correction. Sears, appearing in District court on non-support charges, told the Judge:

"I have been unable to get work of any kind, your honor, and I feel my wife and children will be better off if I am sent to jail and they are put on the welfare list."

PITCHES DENTIST THROUGH WINDOW

Burly Patient, Taking Gas, Goes
Haywire.

New York.—A Washington Heights dentist was thrown out of the window of his operating room by his patient while he was engaged in extracting a molar from the left side of the jaw and was busy administering gas. Fortunately, the window was on the first floor, and the dentist was not seriously hurt.

The dentist is Dr. Alvin B. Leavitt, sixty years old, with an office at 144 Audubon avenue on the ground floor of a house between One Hundred and Seventy-second and One Hundred and Seventy-third streets. The patient was Albert Callahan, thirty, of Washington Heights. Mr. Callahan is six feet tall and weighs some 175 pounds.

The patient, a burly individual in fine condition, threw the dentist out of the window with his right hand and the gas machine out with his left, and then leaped through the window himself.

When all three were outside, the patient went after the dentist and tried to throttle him. He was subdued by several astonished citizens.

A few minutes later the patient was back in the operating chair. A policeman and an ambulance surgeon were holding him down, and the dentist, without the use of gas, removed the troublesome tooth from the left side of the jaw.

The patient then went home to resume what most of the time is a normal existence.

Navajo Indian Jewelry

The Navajo Indians make their jewelry from melted Mexican pesos.

4H CLUB

The Loyal Workers 4H club met Tuesday, June 4th, at the home of Doris Mathews. Twenty-four members and a guest were present.

During the working period, Winifred Mollenhour and Doris Mathews gave a table setting demonstration. Many details were called to our attention, such as making sure that the edge of the knife is turned toward the edge of the plate, placing the open edge of the napkin toward the edge of the table and the plate using a suitable centerpiece, which is small, loosely arranged, and having delicate or no odor. Also many other factors which add to the attractiveness of the table, were discussed.

A miniature judging contest was staged over the first years girls towels. This feature of the meeting was especially interesting as it was the first experience of this kind for most of the girls.

Soon after the close of the working period, the girls trooped to the lawn for a play period. A balloon race was attempted but that "big bad

wind" blew one of the balloons into a rose bush and Pop! How can you have a balloon race with no balloons? Other games were played, however, which required no balloons.

The meeting closed with plans to meet at the home of Mary Beth Deaton on Tuesday June 25.

Columbus Read a Book

The great idea which changed the map of the world—Columbus' idea of sailing west for India—came to him out of books.

Preparing to Rest

"Some time," said Uncle Eben, "when de boss looks particularly busy, he's only resting for a few minutes to git several things off'n his mind so's he kin loaf foh de rest of de day."

Jews in Germany in 321

A well organized Jewish community existed in Cologne, Germany, in the year 321. They were engaged in agriculture, trade and industry.

Islands of Bahamas

There are 300 islands in the Bahamas—many of them without inhabitants. This group is often called "The Treasure Islands" or "The Fragrant Islands."

Had Hieroglyphic Books

The ancient Mayas had hieroglyphic books on history, medicine, astronomy, divination and other subjects.

Dandelion Leaves

Dandelion leaves contain more protein, fat, carbohydrates, iron and ash than do the leaves of other "greens" but tests fail to show them a better source of vitamins.

Punishment for Crimes

Crimes vary greatly in kind and penalty throughout the world. England imposes a 20-year sentence for carrying a revolver without a permit. India gives 25 years for killing a cow and China inflicts the death penalty for chopping down a camphor tree.—Collier's Weekly.

"Gadgets"

You will not find the word "gadget" in many dictionaries; perhaps for the reason that most dictionary compilers consider the word to be slang. Yet, the word "gadget" is well known to everyone, and is used in every-day language in connection with some article that has a practical use, and, usually, can be bought at a low price, one that is of a mechanical nature and is supposed to do something that is more difficult without it.

Porto Rico as Mainland

Geological evidence in a survey shows that Porto Rico was once part of the mainland.

Formaldehyde in Canned Sea Foods

Formaldehyde, prohibited as a preservative in most countries, may occur naturally in undetermined amounts in canned sea foods. It is reported by Norwegian research workers.

Plant Refreshes Thirsty

The old oaken bucket has its counterpart in a plant which grows in barren stretches of Madagascar. Call it the "traveler's tree," the plant tains water in its large sheathing bases. It has refreshed many a thirsty wanderer.

Hickory

Hickory is a tree of wide range and was formerly found in every state east of the Mississippi and in several on the western side of the river. Now, after hundreds of years of use and abuse, about 80 per cent is obtained from 10 of the principal producing states. There are more than 30 species of this wood, made up of true hickories and pecan hickories, but only about five or six are known commercially.
