## MRS. E. A. BLUE, 81, EXPIRES

Mrs. E. A. Blue, 81, resident of Mentone, died Thursday afternoon, May 21st at 5:20 o'clock at her home. Mrs. Blue, who had been in failing health for several years, suffered a paralytic stroke Thursday morning.

The deceased was born September 1, 1854, in Palestine. She was formerly Emma E. Sarber, daughter of William and Keturah Sarber. She resided in Mentone practically all her life, where she was a member of the Baptist church.

Surviving besides the husband are four children, Mrs. Charles Bruner Kewanee, Ill., Earl Blue of Rock-ill, Charles Blue of Elkhart, Allen Blue of Logansport, six grandchildren, and one half-brother, Orville Sarber of Mentone.

Funeral services were held Saturday, May 23, at 2 p. m. at the Baptist church. Rev. Orville Yeager, assisted by Rev. Dewitt and Rev. Alexander, officiating. Interment was made in the Mentone cemetery.

## Family Reunion

The 18th annual reunion of the Brant family will be held at Centennial Park, Plymouth, Indiana, Sunday, June 14th, 1936.

## PERSONALS

James Mentzer of Marion, Indiana, spent Saturday and Sunday with his family in this place. James is looking well, and from appearances we would say that he is perfectly pleased with his position.

For Sale: Gasoline pressure range. Phone 2½-96. Dale M. Cook.

Mr. and Mrs. Donald Haffley of Fort Wayne, former Mentone residents, visited friends here Saturday.

### Talk in Doubles

Talkie-talkie is the name given the language of the bush negroes in Surinam, Dutch Guiana. One bird there is called the curri-curri; another, the wis-wis. Jaro-jaro is the name of the ankle chain made from the nuts of the muka-muka tree.

## Biggest Steer—3,100 Pounds of Beef

"Big Jim," once owned by the late Will Rogers, is the biggest steer in the world, weighing 3,100 pounds. Rogers raised Jim from a calf, then sold him and gave the proceeds to the Salvation Army. His present owners

will display him at the Texas Centennial Exposition, opening in Dallas June 6, and turn over the admission profits to the Salvation Army's Home for Boys and Girls at Lytton, Cal., long a favorite of Rogers.

## WHERE OLD CLOTHES ARE TORN TO SHREDS

Where do the millions of old suits, women's dresses, stockings, hats, and other articles of attire go each year when they are discarded by their owners?

Many of them, of course, are re-sold by the second-hand clothes shops. But countless garments are too worn and shabby for this fate and are used in other ways.

Cotton and linen garments are the most valuable. These are sold to mills for re-making into cloth, or to fine paper manufacturers.

Artificial silk stockings are separated and, after certain processes, are re-woven into new. Similarly, the felt of old felt hats is used for making new ones. Old suits, after cleaning and disinfecting, are often torn to shreds by machinery and are then re-woven.

Sometimes blankets are made from woolen rags. And the coarse shreds of disintegrated cloth can be used for the manufacture of floccs for upholstery and bedding.—Pearson's Weekly

Poultry medicine at the Co-Op. mill.

### Inca Gold in Lake

Much of the Inca gold thrown into Lake Titicaca during the squeezing of Peru by Pizarro is still there. Quantities of it are "fished" up from time to time.

### Pound-and-a-Half Plane Works

Weighing only one and one-half pounds and equipped to carry sufficient fuel for a two-hour flight, a tiny plane constructed recently in Leningrad, Russia, can carry a load of nine pounds.

### 50,000 Rats Raised for Science

One rodent farm in Essex, England, has a normal "stock" of 50,000 rats and 350,000 mice, most of which will be sold for research work.

### Herbs Supplanted

Western medicinals, mostly from America, are supplanting old-fashioned herbs in China, where they have been in use for centuries.

### Part of Old Bastille

The Pont de la Concorde in Paris used to be part of the old Bastille which was the fury of the mob destroyed July 14, 1789.

## Thirty Eight Years Ago

Thirty-eight years ago Monday Charles Shafer opened a drug store in this village. About the first act that he performed was to sweep off the sidewalk, and early Monday morning of this week, the same Charles Shafer, older in years, but not in pep, celebrated the event by sweeping the sidewalk for about his 6000th time.

The store which Mr. Shafer opened 48 years ago has become one of the oldest and most favorably known business places in Mentone, and today "The Big Drug Store on the corner" owned by Shafer & Goodwin, enjoys a very large volume of business and their store would be a credit to towns double the size of Mentone. Well Shafer, heres hoping that you have to sweep that sidewalk several thousand times more.

## World Output of Gold Is Highest in History

New Haven, Conn.—The world's rate of gold production is now at the highest point in history, according to a report by Dr. Adolph Knopf, professor of geology at Yale university here.

During 1934 the precious metal mined totaled 27,475,000 ounces, he said. That is equivalent to slightly more than \$900,000,000. The low point in gold mining was reached in 1922, he said, adding:

"More than half the annual supply of newly mined gold since that time has come from South Africa, from the world's greatest gold field, the Rand."

## Clock Collection Shows Trends Through History

Boston.—James Conlon, a clock maker for 35 years, has a clock collection that depicts their progress through history.

He has Quaker clocks, grandfather clocks, cable and wooden clocks, ones that tick on monotonously and some that have two-octave chimies.

The Quaker timepiece is called the "coffin clock" because of its construction—a long wooden case with only a simple wooden scroll and a chaste metal ornament on the outside.

Conlon's wooden clocks probably were made in Holland or Germany about the Seventeenth century.

16—Ford Motor Company incorporated, capital \$100,000, 1903.

17—Maxim patents first successful smokeless powder, 1890.

### First Study of Digestion

Digestion was first regarded as a purely mechanical process. The German professor, Sylvius (1614-72), looked upon it as a chemical fermentation of the saliva and pancreatic juice. The Italian scientist, Spallanzani (1729-99), discovered the digestive power of saliva and reaffirmed the solvent property of the gastric juice, showing that it will act outside the body and that it can not only prevent putrefaction, but will inhibit it when once begun. Spallanzani failed, however, to recognize the acid character of the gastric juice, a point which was brought out by the American physiologist, Young, in 1803.

## PERSONALS

The Misses Eunice Reed and Anabel Mentzer returned Thursday night from Dowagiac, Michigan, after spending a few days with the latter's sister Miss Rosalind Mentzer.

Mrs. Rose Bogges and Mr. and Mrs. C. H. Kern and son Jimmy of Mishawaka, Indiana, visited at the Mahlon Mentzer home over the week-end.

George Buchtel made a business trip to South Bend Thursday.

Mrs. Pearl Blue of Chicago is visiting friends in Mentone.

Mr. and Mrs. J. C. Creakbaum of South Bend visited Mr. and Mrs. Murry Thorn and son Bob Sunday, May 17th.

For Sale: I have 17 acres little red clover hay to sell in field. Also 15 acres alfalfa. Chas. Meredith.

Mrs. Stanley Wise of near Fort Wayne has been visiting her parents Mr. and Mrs. Frank Warren.

Mrs. Vivian Snyder and daughters, Vivian, Marjorie and Gladys entertained Mrs. Gela Mollenhour and daughters Eileen and Mary to a six o'clock supper at the Thorn Sandwich Shop.

### Man Often Near Death

#### Recovers as Pets Die

Toronto, Ont.—Canadian medical circles are baffled over the strange bond of life and death which has linked Samuel Green and his pets for the last 26 years. Four times Green has been on the verge of death and each time he has recovered simultaneously with the death of a pet bird or animal. Doctors are at a loss to explain the connection.

In 1911 Green was stricken with a stomach disorder and doctors despaired for his life. Soon after an emergency operation was performed, his pet canary fell dead in its cage and immediately Green began recovering. A few years later he suffered a heart attack and a doctor said he would not live 24 hours. During the same day Green's fox terrier was found dead in the kitchen. Green again recovered.

In 1930 Green was stricken with a strange ailment, which swelled his body, and he lapsed into a coma. His Persian cat died and he began improving. Late last year Green fell victim to another strange ailment and he was unable to eat or drink. Doctors could not diagnose the case and he lapsed into semi-consciousness. Then his collie dog was found outside his bedroom door. When his son told him about the death of his pet, Green asked for a drink of water and rapidly recovered.

Medical men refuse to comment on the strange case, declaring it is beyond the "scope of science."

# THIS GASOLINE DOES 3 JOBS

...all at the ordinary gasoline price

WOULDN'T you gladly pay a premium for the finest gasoline you ever used... plus a patented top-cylinder oil plus an effective carbon-solvent?

That's exactly what Tydol gives you! But you pay no premium for it. Triple-Action Tydol costs not a penny more than one-job, old-type gasolines.

Into every gallon of Tydol is blended a patented top-cylinder oil and carbon-solvent... to prevent sticking valves, reduce carbon, and protect upper-cylinders from wear and tear.

This plus service added to Tydol's hi-test qualities gives you the most powerful long-mileage gasoline ever sold at the regular gas price. Buy Tydol today!

*Triple Action* **TYDOL** *GASOLINE*  
*There's an Engineer in Every Gallon*

## Northern Indiana CoOp. Association, Bulk and Retail Stations, Mentone

### "Half-Man" Plants

One of the plants of South Africa is called "half-man" by Hottentot natives, because a group of them, with long trunks and mop like tops, suggest curious beings looming on the horizon.

### Where Hailstones Are Formed

Hailstones are formed in strong upward currents of air in which rain drops, as they reach the higher and colder altitudes, are frozen and increase in size by the continuous condensation on their surface of moisture carried upward. When they reach a size and weight in which the supporting power of the rising air current is overcome they fall. During their descent more moisture is frozen on their surface.

### Fear

"A man dat's easy scared," said Uncle Eben, "not only hears all de bad news, but imagines twice as much more."

### The Rhine River

Officially, the Rhine river, it is navigable to a point between Le Parc and Pyrmont, although as far as Lyons navigation is almost entirely by flat-bottom boats. From Lyons it is navigable to the sea.

### Wear Few Clothes

Inhabitants of Rapa, southernmost island of Polynesia, wear only loin cloths, although the climate is bitterly cold at times.

### Trucks Carried Into Tibet

Trucks are used in the inaccessible mountain regions of Tibet. They are brought in from America in knocked down form and carried by coolies 3,000 miles often on their backs.

### The Name "Roberta"

The name "Roberta" is the feminine form of Robert, from the Teutonic meaning bright in fame.

### Swans Live Long

Swans are comparatively long-lived birds. Instances are recorded of swans which lived to be one hundred years old in captivity. In a wild state 15 or 20 years would be a fairly high average lifetime.

### Patents Can Be Annulled

Patents can be and have been annulled, especially in cases in which fraud was perpetrated in obtaining them. An interesting sidelight is that the United States Supreme court since 1880 has invalidated 65 per cent of the patents in contested cases brought before it.—Collier's Weekly.

### Dog Has No Tail

The Corgi is an old breed of dog familiar in Wales, but still very much of a novelty in this country. Sometimes called the Welsh Corgi he is noted for one peculiar feature, his very short tail. In this he may be compared to the Manx cat, as both are born with the bob tail.

## Bluebonnet Suit

Eleanor Akers, Texas Centennial Exposition Rangerette, doffs her customary chaps and 10-gallon hat to wear this bathing suit made of bluebonnets, the official state flower. The Exposition, a \$25,000,000 World's Fair, opens in Dallas June 6.

## Pear Trees Planted in

### 1818 Still Bear Fruit

San Rafael, Calif.—Two pear trees, planted more than a century ago by Franciscan fathers, give every indication of bearing a crop this summer. For the last six years the "crop" of the ancient gnarled trees has not exceeded from four to six pears annually.

One of the trees still stands on the spot where it was originally planted in 1818, presumably by Father Vendru Fortuni, a founder of the Mission St. Rafael Archangel. The second one was transplanted from its original orchard site to Boys' park in San Rafael by the Women's Improvement club.

## A Family Town

Gridley, Ky.—There is a possibility that this town's name may be changed to "Kaufmanville." Frank Kaufman recently went into the grocery business, fifth member of his family in business here. The others operate an electric shop, elevator factory, broom factory and second-hand shop.

Actually  
LOOKS LIKE ENAMEL  
WASHES LIKE GLASS  
WEARS LIKE IRON

**EVERY HOME OWNER**  
*Should Know About*

# T.T.O.

**THE AMAZING NEW HOUSE PAINT THAT  
HAS REVOLUTIONIZED PAINTING  
STANDARDS**

**PROVED 46% BETTER BY OFFICIAL TEST**

T.T.O. MEANS THERMOLYZED TUNG OIL. . . and Thermolyzed Tung Oil is the latest development in the paint industry . . . a new "liquid part" for paint. Long ago paint experts recognized the vastly superior waterproofing and preserving qualities of Chinese Tung Oil, but certain natural peculiarities permitted only a small use of it in their products. Even the finest of spar varnishes and marine enamels contained only small per-gallon quantities and Tung Oil was never used in house paint. Now, by their patented Thermolyzing (heat treating) process O'Brien chemists have modified Tung Oil so that it offers an ideal vehicle for varnishes and enamels, and, above all, house paint!

T.T.O. House Paint is one of the most improved products ever offered in the industry's history. It looks like enamel. It washes like glass. It wears like iron. In a severe competitive test made by the nationally known Pittsburgh Testing Laboratory T.T.O. Paint was judged 46% better than the average of seven of the best known, best made house paints in the country. On thousands of homes, in all parts of the land T.T.O. Paint is giving owners more painting satisfaction and painting economy than they ever before thought possible!

**Mentone, Indiana**

## Hot Ice From Water

When boiling water is put under enormous pressure in a laboratory it becomes a queer form of hot ice.

## Permit to Wear Clothes

Natives of Papua have to get permits to wear clothes. A Papuan must first prove that he understands the correct use of clothing, and the need for constant washing to prevent disease, before the permit is issued.

## Great Danes Bred in England

Great Danes were first bred in England. However, from some sources, there is the opinion these giant dogs come down from the Tibetan mastiffs, which in turn, are massive specimens, resembling the Danes bred in England.

## Buttermilk Channel

Buttermilk channel extends north-easterly from the Upper Bay southwest of Governors Island, N. Y., to the East river northeast of Governors Island. It is about 2½ miles in length.

## Control of Oneself

The man who flings away his ambition in a rage, in a temper, is spending the best part of his vital force in the wrong direction. Until a man can control himself, he is not safe; nor do level-headed men consider him perfectly sane.

## Men of Great Ability

Men of great parts are often unfortunate in the management of public business, because they are apt to go out of the common road by the quickness of their imagination.

## Moral Reserves

In every department of life, physical, mental, and moral reserves are of incalculable value. Many people work so hard that they exhaust their physical energies each day. They make it a matter of conscience to wade through just as much work as possible every day, no matter how painfully it is done, not realizing the tremendous value of keeping one's self vigorous, buoyant.

## Still Superstitious

Belief in various forms of superstition flourishes in parts of the South. In Louisiana, Mississippi and Alabama it is said that no less than \$1,000,000 a year is spent for charms, hoodoo bags, love potions and philters.

## Source of Quotation

"Be not the first by whom the new are tried, nor yet the last to lay the old aside" is from Pope's "An Essay on Criticism."

## Ears and Nose Grow

Two parts of the body that normally continue to grow in size as long as one lives are the ears and nose, writes Marcella Hanlin, Chicago, Ill., in Collier's Weekly.

## Yellow and Black Fish

The Moorish Idol or kibikibi, is a fish of but a single species which is found throughout Polynesia, from Japan to Mexico. Yellow and black are the colors of its broadly striped body.

### Voice Around the World Will Open World's Fair

DALLAS, Texas.—A voice around  
the world will open the gates of  
the \$25,000,000 Texas Centennial  
Exposition here June 6.

Spoken into a microphone before  
the main entrance, the voice—pos-  
sibly that of President or Mrs.  
Roosevelt—will travel over radio  
waves to New York, England,  
France, Japan, California and back  
to Dallas, where it will strike an  
electrical device inside the grounds  
and swing the gate open.

The words will require 9 seconds  
for their trip around the world.

#### Flashlight Powder

Flashlight powder is a mixture of  
powdered magnesium with one or more  
compounds rich in oxygen.

### Smart Dog Detective Solves 8 Murder Cases

Berlin.—What is said to be the best  
detective dog in the world belongs to  
the dog section of the Berlin police.

This smart four legged detective,  
named Schimmel, has solved eight mur-  
der cases as well as numerous rob-  
beries, holdups, and other crimes.

The so-called "wonder dog" is eight  
years old and has been a member of  
the Berlin police force since 1923.

In a recent case the dog gave an-  
other proof of his ability and smart-  
ness when eight other dogs from his  
section had failed. It found the body  
of a murdered boy concealed about  
half a meter under ground in a thick-  
ly wooded forest. The child was a  
victim of the boy killer, Seefeld.

This "detective" proved his clever-  
ness to 80 jurists, among whom were  
both foreign and German judges and  
attorneys. The jurists walked over  
a geld to destroy and stamp out all  
trace of scent on the dog's trail. But  
it took Schimmel less than three min-  
utes to find the scent, take the lead  
again, and find the hidden object.

This dog receives the same food  
as all its fellows, except that after  
each gallant performance it receives  
a bag full of Pfefferkuchen, its fa-  
vorite delicacy.

Schimmel's trainer is Paul Boett-  
ger, the chief of the dog detective  
section. Boettger is the oldest police  
dog trainer in the world.

The dog is entirely white, a rare  
color for German shepherds, which  
are usually brown, black, or spotted  
black and white.

### Motor Kills "Dead" Woman Who Fled From Her Coffin

Monesti, Rumania.—Mourners who  
attended the burial of Anna Bochinsky  
were frightened out of their wits when  
the dead woman jumped out of her  
coffin while it was being carried with  
the lid open—as is the custom in Ru-  
mania—from the cemetery chapel to the  
grave.

Not only did Anna jump out of the  
coffin, but she made a desperate run  
toward the road, only to be run over  
and killed by a rushing automobile.

Anna suffered from a heart disease  
and her first death was only apparent.  
She came to life a few minutes before  
being interred and was so frightened  
by the preparations of her burial that  
she ran off—to her death.

#### Art Gallery Is Tomb

New Haven.—The bodies of Col  
John Trumbull, famous Colonial paint-  
er, and his wife, are buried in a vault  
in the basement of the art gallery of  
the Yale Art school. When the new  
building was constructed a few years  
ago, the vault was undisturbed.

#### 4,800 Shots a Minute

London.—Britain's newest fighting  
airplane is a single-seater capable of  
traveling at 260 miles an hour while  
the pilot fires a stream of 4,800 ma-  
chine gun bullets a minute.

Poultry medicine at the Co-Op. mill.

The mill buys wheat, oats, corn.

## APPRECIATION

The Go Forward class of the Meth-  
odist Sunday School royally enter-  
tained the Friendship class last Fri-  
day evening at the lovely home of  
Mrs. Ottilie Walburn on South Broad-  
way.

Every appointment was perfect  
from reception committee to escort-  
ing us home by taxis. The greeting  
by Pearl Lacky was very much ap-  
preciated and brought hearty re-  
sponse from members of the guest  
class.

Forty-one ladies were present. The  
buffet luncheon was all that could be  
desired. Everyone felt that it was a  
good place to be and we sincerely  
hope we will have the pleasure of an-  
other such meeting.

One Who Was There.

#### "Wires" British Name

"Wires" is a British family name de-  
rived from a medieval occupation and  
means a wire-drawer. It is patronymic  
in form.

## Counterfeit Coins

### Traced to Prison

San Jose, Costa Rica.—The po-  
lice have at last found the source  
of the counterfeit nickel coins  
which have flooded the country since  
new coins, minted for Costa Rica  
in the United States were put into  
circulation several months ago. The  
counterfeits have come from Cell  
40 in the National penitentiary.

Jose Angel Solano, occupant of  
the cell, had molds of metal and  
other equipment when investigators  
visited him. He insisted that he  
had manufactured the coins only as  
a means of passing the time more  
quickly, for he had found prison  
life boring.

## PERSONALS

Bob Becknell moved to Warsaw  
last week.

Word comes from Delphi, Indiana,  
that a baby daughter was born last  
week to Mr. and Mrs. Luther Fife,  
formerly of Mentone.

Mr. and Mrs. Charles Personett  
visited their daughter, Mrs. Guilford  
Cook of South Bend, last week-end.

Miss Bernadean Newby visited at  
the George Clark home over the week  
end.

Mr. and Mrs. Raymond Bare have  
moved from the Clark apartments to  
the Mrs. Blanche Carbeiner property.

Miss Elaine Sullivan is returning to  
Chicago with her grandmother, Mrs.  
Pearl Blue.

Miss Ruth Rush visited her par-  
ents, Mr. and Mrs. Ray Rush, over  
the week-end.

#### An Undying Fire

At the isolated Saltergate Inn, on the  
moorland road midway between Pick-  
ering and Whitby, Yorkshire, there is  
a fire which was lighted in stagecoach  
days, more than 100 years ago, and has  
never been extinguished, says a writer  
in Tit-Bits Magazine. Since passen-  
gers by coach arrived at all hours of  
day and night, and always demanded  
a fire, the innkeeper decided it was  
simpler to keep the fire always burn-  
ing, and when railways superseded  
coaches nobody thought of letting the  
fire die out. The fuel is peat from the  
surrounding moors. It is cut and  
stacked in the summer, and is remark-  
able for the length of time it will  
burn without renewal.

The pastern is the lowest section of the dog's leg, below the knee or hock

**D. A. R. Meets**

The Anthony Nigo Chapter of D. A. R. of Mentone met at the home of Mrs. Emma Pontius, Tuesday evening May 26. Mrs. Edna Burns opened the meeting following the ritual service.

Mrs. Zadie Kesler gave an interesting paper on old systems of lighting. Mrs. Dora Taylor gave a short talk on old glass and Mrs. Yoland Riner read a paper on old shawls. Mrs. Edna Burns read a paper on old furniture and Mrs. Mary Boggs gave an interesting history of old coverlets.

Mrs. Edna Burns gave a splendid report of the meeting of the Continental Congress of D. A. R. recently held at Washington, D. C. The reception given the delegates at the White House was of interest to every one. Mrs. Yoland Riner and Mrs. Edna Burns represented the Anthony Nigo chapter at this congress.

There was an interesting display of old glass and old coverlets. Refreshments were served by the hostess, Mrs. Helen Brown.

**Junior M. E.**

The Junior Methodist Episcopal Church of Mentone met at the home of Joe Boggs Saturday afternoon to celebrate the birthdays of Joe Boggs, Mary Beth Shinn, Patty Shinn, Jack K. reher and Mary Louise Becknell.

Twenty-four members and three guests were present. Assignments were made for children's day program, after which Nancy Boggs sang "Kagedy Anne".

Contests and games were enjoyed with prizes being won by Mary Louise Becknell and Catherine Joan Elliott. The house was beautifully decorated with spring flowers and colored toy balloons.

The hostess served ice cream and cake and distributed favors of noise makers and toy balloons.

**Mentone 4-H Club**

The Needle and Pin Club met at the Mentone school house Wednesday May 20th. The meeting was called to order by our president, Iola Tucker. Then our secretary, Jane Warner called the roll and read the minutes of the last meeting.

A Piano selection was played by Miss Shutt. Katherine Eiler gave a demonstration on darning. Mary Alice Moore was enrolled as a new member, which made eight members present and our leader Miss Shutt. Our next meeting will be June 3rd, at the school house. The latter part of the meeting we are going on a hike out to Katherine Eiler's.

# WATCH COSTS!

Low costs mean greater savings

Low costs mean greater pleasure

*The only complete low-priced car is the most economical car to own*

Owners will tell you that the new Chevrolet for 1936 is the most economical of all motor cars.

And, in addition to giving economy without equal, it also gives enjoyment without equal, because it's the only complete low-priced car!

It alone brings you the safer, quicker, smoother stopping-power of New Perfected Hydraulic Brakes, and the maximum overhead protection of a Solid Steel one-piece Turret Top. It alone brings you the unequalled gliding

smoothness of the famous Knee-Action Ride\*. It alone brings you the more healthful comfort of Genuine Fisher No Draft Ventilation—the greater driving comfort of Shockproof Steering\*. And it alone brings you the combined performance and economy advantages of a High-Compression Valve-in-Head Engine—all at Chevrolet's remarkably low prices!

See this car at your Chevrolet dealer's—today!

CHEVROLET MOTOR CO., DETROIT, MICH.

## NOTICE TO ALL EGG SHIPPERS

The Mentone Egg Car will be closed July 4. Eggs will be shipped July 3 instead.

### The Old, Old Saying: "It Pays to Advertise"

In talking with one of the business men in Mentone who is a constant advertiser in the Co-Op. News, we found a very good example of the results obtained through continuous advertising.

Those of you who are regular readers of the Co-Op. News no doubt have noticed that for the past several months it has carried a Chevrolet advertisement. Mr. Wallace who is the local Chevrolet dealer has delivered 31 new passenger cars and trucks and sold 39 used cars since the first of the year. He also has orders for 10 new cars undelivered.

Mr. Wallace is thoroughly convinced that the majority of his success has been obtained through the co-operation of the Co-Op. News and the Northern Indiana Co-Operative Association. His contacts were made through the News and readers of the News who are friends and customers of the Northern Indiana Co-Operative Association.

### Harrison Center Club Meets

The Harrison Center "Stitch and Letter" 4-H club met at the home of Mary and Hope Deaton. Mary Mellott, president, took charge of the business meeting. Wilma Mollenhour secretary, called the roll with members answering with their favorite colors. There were 13 members present and one visitor. Since the leader Miss Shutt, will not be at several of the club meetings this summer, one or two of the home economics women will be present at each meeting. Mrs. Mollenhour and Esther Stump were present this time. An hour of sewing was enjoyed and several games were played. The next meeting will be held June 23 at the home of Beulah and Frances Nettrouer.

## Creighton Brothers Adding to Poultry Farm on Road 30

Creighton Broebers have under construction two laying houses, each thirty by two-hundred and ten feet. The concrete walls are now in and within a few days the framework of these buildings will be erected. This will increase their laying capacity by four thousand birds.

These houses are of the same type as the houses already on that farm. They are of the gable roof construction. A driveway ten feet wide is provided through which a manure spreader is driven for cleaning the buildings. This provides a very convenient manner of caring for these houses.

The buildings are completely insulated. One inch insulation is being used on the roof and one-half inch on the side walls. The Northern Indiana Cooperative Association is furnishing the material.

They are also building a cottage on the banks of the Tippecanoe river to be used as a summer home.

### SPECIAL SALE

On every thing in the furniture store. Come in and see. I. F. Snyder

### NOTICE

Will the parties who have our steel fence post drivers please return them at once to our plant and oblige. Northern Indiana Co-Op. Association.

## DEATH TAKES

### J. E. ESCHBACH

Jesse Eschbach of Warsaw and Fort Wayne died suddenly Friday. Mr. Eschbach, years ago had an office in the Farmers Bank Building in Mentone, where, two days a week he looked after his law practice.

Mr. Eschbach was state representative and speaker of the House for many years. He was later head of the State Board of Accounts. It fell to the lot of Mr. Eschbach to have a peculiar experience. He was at one time boosted for the Governorship of the state and it was generally

spoken at the time that he was too honest to be elected governor. That was a tribute seldom paid to a candidate for high office and because of its singularity we mention it here. Jess served his country well. In all his success he never forgot his old friends. He will be missed.

## Road Material To Be Unloaded Here

Workmen have completed erecting three piers on which to lay an extension of the track on the east side of the mill and lumber shed at the NICA. It is planned to keep a train crew on hand all the time when unloading rock for State Road 25 west of Mentone begins. It is reliably reported that there will be 400 cars of material unloaded. This together with the regular traffic will create a lot of activity for a while.

## Co-Operative Picnic To be Held July 4, At Huffman Lake.

You should tell your friends that the Northern Indiana Co-Operative Association's plant will be closed all day Saturday, July 4. This is due to the fact that annually on July 4 the association holds a picnic for its members and friends. This year it will be held at Huffman Lake, near Atwood.

We are asked by the chairman of the committee in charge to state that plates, cups and coffee will be furnished free. However, to make the picnic a success, well filled baskets of food are expected. Table service should also be brought along. The speaker for the day as well as the program has not yet been settled on, but a good time is assured to all, both young and old.

## Feeder Shop Busy

With the prospect for many chickens this fall, already orders are pouring in to George Buchtel, owner of the Mentone Feeder Shop for his famous chicken feeders. George's feeders are used all over the country and are acknowledged to be high class in every respect.

## New Egg Grading And Poultry Packing Plant For Mentone

Under the management of Cecil Long, for some time past the egg producers of the community have had the opportunity of having their eggs graded before shipping them to New York. This has been done at the local loading shed of the Mentone Egg Producers. To a great degree the venture has been successful.

We are now informed that the firm of Kurtin & Kurtin of New York are contemplating building here at Mentone an egg grading and poultry packing plant. Negotiations are under way it is said, to lease ground in the proximity of both the Winona and Nickle Plate tracks. It has been rumored that a cheese factory would also be built in connection, but we are reliably informed that at the present such a step is not contemplated. However, it is known that there are eight milk trucks hauling milk away from the Mentone area. It is thought that if farmers should become sufficiently interested in having these trucks center at Mentone, a cheese factory would be a success here.

With the poultry industry consuming so much milk products it is certain that a good price could be obtained here for raw milk and semi-solid buttermilk and related products could be bought for comparatively reasonable prices. This project is another evidence that the Mentone area holds opportunities for wide awake enterprises.

### SPECIAL SALE

derness.

**Creighton Brothers  
Win State Honors**

Creight Brothers' pen of White  
Leghorns entered in the Thirteenth  
Oklahoma Egg Laying Contest, Okla-  
homa A. and M. College, Stillwater,  
Oklahoma, led the contest in produc-  
tion for the month of May.

Ten pullets laid a total of 278 eggs  
for the month which averaged twenty-  
five ounces. This same pen was  
the highest Leghorn pen in the con-  
test for the month of March and sec-  
ond for the month of April. In ad-  
dition to scoring high pen for the  
month of May, Creightons' hen No.  
169 was the high individual per-  
former for the month, laying thirty-  
one eggs averaging twenty-six oun-  
ces to the dozen. This same hen was  
also high hen in the contest for the  
months of March and April.

**Graduates at Ohio  
Wesleyan University**

Included among the 255 candidates  
for the B. A. degree at Ohio Wesley-  
an university's 92nd annual com-  
mencement exercises to be held at  
Delaware, O., on Monday morning,  
June 8, was Kathleen Anderson,  
daughter of Dr. and Mrs. Emery  
Anderson of this place.

Graduates this year came from 58  
of Ohio's 88 counties, and from 14  
other states, as well as two foreign  
countries. The latter are China and  
Switzerland. Other states are Color-  
ado, Delaware, Illinois, Kentucky,  
Massachusetts, Michigan, Missouri,  
New Jersey, New York, North Caro-  
lina, Pennsylvania, Tennessee and  
West Virginia.

The speaker this year was Dr.  
Francis J. McConnell, widely known  
New York minister, who is now bish-  
op of the New York City area of the  
Methodist Episcopal church. One of  
the militant ministers of the genera-  
tion. Bishop McConnell was presi-  
dent of the Federal Council of  
Churches from 1928 to 1932. He is an  
Ohio Wesleyan graduate.

# THIS GASOLINE DOES 3 JOBS

... all at the ordinary gasoline price

WOULDN'T you gladly pay a premium for the finest gasoline you ever used ... *plus* a patented top-cylinder oil *plus* an effective carbon-solvent?

That's exactly what Tydol gives you! But you pay no premium for it. Triple-Action Tydol costs not a penny more than one-job, old-type gasolines.

Into every gallon of Tydol is blended a patented top-cylinder oil and carbon-solvent ... to prevent sticking valves, reduce carbon, and protect upper-cylinders from wear and tear.

This *plus* service added to Tydol's hi-test qualities gives you the most powerful long-mileage gasoline ever sold at the regular gas price. Buy Tydol today!

## Northern Indiana CoOp. Association, Bulk and Retail Stations, Mentone

### Summary of World Telephone Statistics January 1, 1935

Since the beginning of the 20th century, the population of the world has increased by approximately 33 per cent. During this period the telephone service, which was less than a quarter of a century old in 1900, has increased over 2100 per cent in extent. A survey of the world's telephones just completed by the American Telephone and Telegraph Company shows that there were 33,539,890 telephones in the world on January 1, 1935, the latest date for which

comparable statistics are available. Thirty-five years ago telephone communication was restricted to comparably short distances. Today it is possible to talk around the world. Telephone subscribers in the United States can be connected with any one of more than 17,000,000 telephones in this country, and any one of some 15,000,000 telephones in foreign lands; in all the American subscriber has access to 93 per cent of the world's telephones.

#### Weather Prophets

The little green tree frogs have a reputation as weather prophets in Germany.

### Death of Mrs. M. Linn

Mrs. Miner Linn, 74, life-long resident of Harrison township, died at 7:30 p. m. Tuesday of last week at her home, five miles northwest of Warsaw. Her death was due to complications of old age and heart trouble.

The deceased was born one mile east of Palestine. She was formerly Eliza Ellen Gochenour.

Surviving are the husband, two sons, Ray, of near Warsaw, and John of Nappanee; one daughter, Esther Jones of five miles west of Warsaw; 16 grandchildren; one half brother,

Jake Baughman of near Warsaw; one sister, Mrs. Dora Merrill of Denver, Colorado.

Funeral services were held Friday afternoon at 1 o'clock at the United Brethren church of Atwood. Interment in the Pleasant View cemetery.

### Ill With Pneumonia

Stanley Boggs has been quite ill for the past several days at his home near this place with pneumonia. We are pleased to note however that he is now on the road to recovery.

### Muscles in Elephant's Trunk

An elephant's trunk contains 50,000 muscles.

## WEDDING

Deamer—Adamson

The country home of Mr. and Mrs. Roy Adamson of near Mentone was the scene of a lovely wedding Sunday afternoon, June 7, at four o'clock when their daughter, Doris, became the bride of George Deamer, Jr., son of Mr. and Mrs. George Deamer of Rochester. The home was beautifully decorated with Mock Orange blossoms, peonies and roses. Rev. Alexander, pastor of the Church of Christ, performed the single ring ceremony in the presence of the immediate families.

Preceding the ceremony, Mrs. Frank Meredith played "At Dawning" and "I Love You Truly." To the tunes of Lohengrin the bridal party proceeded to a flower altar. Miss Virginia Adamson, sister of the bride, was maid of honor. She was dressed in Robin's egg blue crepe and carried a bouquet of pink roses. Little Marylin Alexander followed as flower girl. The bride entering on the arm of her father, wore a floor length gown of white silk muslin and carried white roses. David Deamer, cousin of the groom, was best man.

Following the ceremony a three course luncheon was served. Misses Marjorie Petersen and Lois Busen-burg were waitresses.

Both bride and groom graduated from the Talma High School. Both have attended Manchester College and Indiana University. Mrs. Deamer has been a teacher in the Mentone school. Mr. Deamer is associated with his father in business. Following the reception, they left for Louisville, Ky., where they spent a few days. They will reside in Rochester where they have their home furnished.

Contributed.

## Furnish Hospital Room.

The Lions Club of Mentone, an organization of public spirited business men who have promoted many successful enterprises for the town of Mentone, have unanimously voted to contribute funds to the new hospital erected by Dr. J. R. Baum at Warsaw. The Mentone Lions will pay the expenses of furnishing a complete room in the hospital. The room will be known as the Mentone Lions room. The Lions are the tenth organization to furnish a room in the new hospital which will open soon.

## Scout Camporee to Be Held in Goshen

### Local Scouts Will Attend

Goshen has been selected as the location of the 1936 Camporee of all Boy Scouts in the Pioneer Trails Area. The camp will be in Sanders woods, known as the old golf course, located on Road 2 just south of the High School.

Six hundred scouts and their leaders will camp there from Wednesday, June 17 to Saturday, June 20. They will come from eighteen communities in Elkhart, Kosciusko, and LaGrange Counties. Three hundred tents will be required to shelter the aggregation.

The purpose of the event as stated in the Camporee guide prepared by the Area Scout Office is: (1) to give Scouts and Scouters from all units and communities of the area an opportunity to meet together in Scouting fellowship. (2) to recognize every Scout who has achieved his annual goal of advancing at least one rank, (3) to give Scouts of the area an opportunity to display their skills in scoutcraft and campcraft through practice, competition, exhibition and demonstration, and (4) to demonstrate to the general public the methods, activities, objectives, and values of Scouting.

Establishment of a scoutlike and attractive camp will be the first objective of each troop after arrival. These will be carefully judged and rated by approximately fifty judges.

Within four hours after arrival patrols will report at the Camporee

Headquarters for inspection of attendance, uniforms, scoutcraft advancement and patrol emblems.

Scoutcraft contests will take place on Friday afternoon and Saturday morning.

The campfire program on Friday will be the high spot of the program. In a three ring circus fashion the troops will present ten minute programs simultaneously for a period of an hour and a half. The Annual Grand Court of Honor Ceremony will also be held at this time. All those who have advanced in Scout work during the past year will be recognized.

Two Amateur Programs, at 8:00 p. m. Thursday and at 1:30 p. m. Friday, will be new features this year. All Scouts and groups of Scouts possessing special skills or talents will be given an opportunity to perform in the camp amphitheater.

## EVERY HOME OWNER Should Know About

# T.T.O.

THE AMAZING NEW HOUSE PAINT THAT  
HAS REVOLUTIONIZED PAINTING  
STANDARDS

## PROVED 46% BETTER BY OFFICIAL TEST

T.T.O. MEANS THERMOLYZED TUNG OIL . . . and Thermolyzed Tung Oil is the latest development in the paint industry . . . a new "liquid part" for paint. Long ago paint experts recognized the vastly superior waterproofing and preserving qualities of Chinese Tung Oil, but certain natural peculiarities permitted only a small use of it in their products. Even the finest of spar varnishes and marine enamels contained only small per-gallon quantities and Tung Oil was never used in house paint. Now, by their patented Thermolyzing (heat treating) process O'Brien chemists have modified Tung Oil so that it offers an ideal vehicle for varnishes and enamels, and, above all, house paint!

T.T.O. House Paint is one of the most improved products ever offered in the industry's history. It looks like enamel. It washes like glass. It wears like iron. In a severe competitive test made by the nationally known Pittsburgh Testing Laboratory T.T.O. Paint was judged 46% better than the average of seven of the best known, best made house paints in the country. On thousands of homes, in all parts of the land T.T.O. Paint is giving owners more painting satisfaction and painting economy than they ever before thought possible!

man of the arrangement committee. Health and safety is the first consideration of every Scout camp. In this department Mr. Neff is assisted by Dr. W. B. Page and Carlyls Pickering.

The News is glad to learn that through the activities of the local Scouts in delivering the Co-Op. News for the past several issues they will

be going to camp with some new tents.

### Leonine Verse

Leonine verse was used in the Middle Ages in Latin hymns and in secular verse. It is said to derive its name from Leonius, a canon of the church of St. Victor in Paris. In English any verse which rhymes middle and end is called a Leonine verse.

Drive in to the Co-Op. Service Station and get a fill of that good Veedol lubricating oil and Tydol Gas, and give your motor a lift. Earl and Red will be right there to give your car the works. Ask for a "Little Engineer."

## PERSONALS

## CLUB NEWS

Mrs. Mildred Preisch was a pleasing hostess to the Mentone Bridge Club Thursday afternoon. Four tables of Bridge progressed, with Edna Burns winning first prize and Ottilie Walburn, second.

Those present were Dora Taylor, Edna Burns, Turl Nelson, Fern Carter, Ottilie Walburn, Emma Clutter, Miriam Shinn, Ruby Smith, Lois Fenstermaker, Isabel Johns, Hazel Linn, Goldie Mollenhour, Helen Greulich, Elanore Manwaring, Fay Bunner and the hostess Mildred Preisch.

## PUMPS PAINTED

The pumps at the Tydol filling station have been freshly painted during the past week and new equipment for servicing cars has also been installed. This is fast becoming one of Mentone's best equipped and managed filling stations. The boys are doing fine work here and the NICA realizes that the success of this enterprise is due largely to the efforts of the attendants in that direction.

## "Complete" Truth

"Complete" truth, said H. H. Ho, the sage of Chinatown, "is not always possible. Courtesy may compel the most discerning man to pretend that he is being deceived."

## WEDDING

Report—Miner

A very pretty wedding took place  
at the home of Mr. Allen Blue Thurs-  
day morning when Miss Clara Report  
became the bride of Mr. Wallace Min-  
ner, a grandson of Mr. Blue. The  
wedding took place at 9:00, with Rev.  
Cyrus Miner, father of the bride-  
groom, officiating. Mrs. Miner has  
been an instructor in the Decatur  
school the past winter. During the  
summer they will make their home  
in Bloomington where Mr. Miner will  
attend Indiana University, after  
which they will move to Mishawaka,  
where Mr. Miner will teach this win-  
ter.

### SPECIAL SALE

On every thing in the furniture  
store. Come in and see. I. F. Snyder

### Pepper Valued

In the Middle Ages pepper was  
prized above all spices. The most im-  
portant early English guild was the  
Pepperers Guild. At that time the  
spice was so valuable it frequently  
took the place of money. Soldiers took  
it as part of their bounty. People  
received rewards in pepper, often paid  
their rent in pepper, and when a will  
was read waited in suspense to hear  
how much pepper they had been be-  
queathed.
