BAND CONCERT

A large crowd was in Mentone Saturday night to enjoy the Mentone high school band concert. We have reason to believe they will be back again next week, as these youngsters really 'did themselves proud', and received a generous applause from the crowd. This thirty-five piece band, consisting of students of Mentone and Beaver Dam high school, are fast gaining a reputation for real musical ability. They have been playing at public gatherings for the past year and at times are so much in demand at various places on holidays that they are unable to fulfill their appointments. We are indeed proud of 'our' band.

Several members of the band, under the direction of Mr. Walter Bowers, presented several splendid musical numbers at the Memorial day services at the Methodist church Sunday.

Is Well Attended

The presentation of "The Half of My Goods" at the Baptist church Sunday night was very well attended. The cast gave a superb performance that carried a devine message for one and all.

WEDDING

Shipley-Mentzer

Mr. and Mrs. M. O. Mentzer have recieved word of the marriage of their son, James Mentzer of Marion to Miss Mildred Shipley also of Marion. The ceremony was performed Sunday morning, May 30, at Marion immediately after which the couple left for a two weeks tour of the eastern states. Mr. and Mrs. Frank Meredith of Warsaw attended the couple at the ceremony.

BUFFET SUPPER

Donald James Smith entertained the following friends at a buffet supper at his home west of town Sunday night. The Misses Mildred Anderson, Annabel Mentzer, Buelah Kelley, Kathleen Anderson and Vernetta Snyder and Messrs. John Bowman and Robert Anderson.

MARRIED

Bailey-Mollenhour

Miss Jeanette Bailey, daughter of Mrs. William Petro of Warsaw and Mr. Lyman Mollenhour, son of Mr. and Mrs. George Mollenhour of Mentone were united in marriage Saturday morning at 9:30 a.m. at the home of Rev. Doughery in Warsaw. The couple were attended by Mr. and Mrs. James Sarber of Mentone.

Mr. Mollenhour is a graduate of Mentone high school and is employed at Burns' Bakery. Mrs. Mollenhour is a graduate of Warsaw high school and has been employed at the Midway Beauty Shop in Warsaw.

Immediately after the ceremony the couple left for a motor trip of southern Indiana. They will make their home at the home of Mr. and Mrs. George Mollenhour here in town.

NOTICE

There will be a rug cleaning demonstration Wednesday evening at 7:30 o'clock at the Tombaugh Furniture Mart, Mentone. Come without obligation, and bring a friend. You can see how wonderful your old rugs will look after they are cleaned this way. The HILD system is indeed miraculous and is used on your own floors, hence you save the extra cost of taking up and relaying.

4H CLUB

The Tippecanoe Stitches held their third meeting May 27. The Stitches are getting along so splendidly with their work that at their business meeting they came to a conclusion to have their meetings every two weeks and still get their work done in the scheduled time. The members of this 4-H club are: Donna belle Eizinger, Lois Ward, Endora and Eunice Ellis, Nellie Burgess, Donabelle and Esther Kehoe, Wilma Hall, Loretta Swihart, Betty Jean Shafer, Mildred Cormican, Thelma Elkins, Dela Ann Hall and Margaret Ann Ward.

The afternoon as usual was spent in sewing. The club is learning the 4-H song.

Rev. Yeager Honored

At the Indiana General Assembly of Regular Baptist Churches held at Crawfordsville, Ind., Tuesday, Wednesday and Thursday of last week, Rev. R. O. Yeager, our local Baptist minister, was chosen as the director of young people's work in Indiana in connection with the Indiana Association of Missionary Baptist Churches with which the local Baptist organization has recently affiliated.

This position constitutes the contacting of each Baptist minister in Indiana and arranging the State Young People's Convention to be held the last week in August. We, as a community, are proud of the fact that one of our local ministers has been chosen for this task of no small proportions and are confident that Rev. Yeager will carry it out in a most favorable manner.

Funeral Held Here

Funeral services were held Friday afternoon at 1:30 o'clock at the Methodist church for Mrs. Sarah Cox, who was born in Mentone eighty-one years ago. Firestone TIRES

GIVE YOU GREATER PROTECTION AGAINST SKIDDING AND BLOWOUTS

YOUTHFUL QUERIES

Dave Morgan

You know, it's a complicated life, being an adolescent. If it isn't one thing making us feel free as the wind, it's another thing apparently tying us down for life. And so it goes. Likes and dislikes are about as inconstant in their manifestations as a summer breeze is in its direction. At fourteen, we're all so virtuous and high minded, having no patience with the wayward; when we get to be sixteen, we either continue to be personally virtuous with a tolerance for the bad, or we go completely bad with a cynical forbearance for the good. Then at eighteen, we decide we were all wrong in each case, and proceed to search for the right way to be bad and a good way to be good, with ut seeming to be duty-bound to either one.

So, since I have not yet passed the age of twenty, and have not yet been shown a definite distinction between that which is truly right and that which is absolutely wrong, perhaps I shouldn't be expected to know truth in a broad sense of the word. There is one consolation however. There are enough reliable sources of information concerning the fundamental differences between right and wrong that we can get that far anyway. After that we either follow the crowd or adopt some principals of our own. We can go wrong both ways. So what?

We young people are rather amused at one another at times when one of us tries to discuss a subject from a mature angle. Whether it be politics, religion, economy, govern-

ment or life in general, youth usually has an answer. (Gotten from the newspapers) Just ask any of us what we think of Edward Windsor's affair. If we don't give you an answer, we probably don't use that sort of language out loud.

When we see men and women approaching the age of forty and trying to act like sixteen-year-olds, things take on a peculiar color. Why, I had always thought that it would be a privilege to get old and be able to understand some of the mysteries of life, instead of just blundering through as we must be satisfied in doing now. I have been thinking that youth is something to be ashamed of; and that young people are to act grown up whether they are or not. That seems to be the way it happens so I just take it for granted that it is that way. I can't imagine why such a condition exists, unless young people are jealous of an older persons' understanding and the older people envy youths' vitality. Still, the situation may be more or less providential at that. Young people at least are looking forward to growing older, while older people are realizing the advantages of staying mentally young, both young and old profit by it; provided they know the differences between right and wrong. But there's the rub! Oh well, figure it out for yourself.

Dog Develops Ownership

The idea of property and ownership is very deeply rooted in human nature and is even shared with man by many of the lower animals. It is highly developed in the dog, which resents and resists any attempt of a stranger to take property that the dog considers his own or associates with his master.

YOU will know the minute you see this tire why car owners everywhere call it the greatest tire ever made to sell at these low prices. The deeper, wider, flatter non-skid tread made of tough, long wearing rubber will give you protection against dangerous skidding.

But tires cannot be judged on tread alone. Under the tread of Firestone Standard Tires are two extra layers of Gum-Dipped cords. This Firestone patented construction feature binds the tread and cord body into one inseparable unit. Every cotton fiber in every cord in every ply is saturated and coated with pure liquid rubber which counteracts the internal friction and heat that ordinarily destroy tire life. This Firestone patented process of Gum-Dipping gives greater protection against blowouts and is used only in Firestone Tires.

Come in, join the Firestone Save A Life Campaign today by equipping your car with a set of new Firestone Gum-Dipped Tires.

Lights of New York

by L. L. STEVENSON

The theater district these winter nights does not seem the same without the ragamuffins who in the past entertained the passing throngs in various ways. Their specialty was dancing, and the dancers for the most part had exceedingly nimble feet. They were up on the latest as well, and Charleston experts in turn gave place to those who did truckin'. Sometimes there were harmonica or vocal soloists. But they too had to be nimble of foot. Between the gamins and the cops, there was constant warfare. An essential member of the troupe was the lookout and when he gave the signal, the youngsters were gone with the wind. But they never departed, no matter their hurry, without gathering nickels and dimes that had been tossed their way, since those nickels and dimes were the objective of their efforts.

Colorful and picturesque were those youngsters who kept late hours and danced among the bright lights. They were also tough—as tough as case-hardened steel. That is the reason why they no longer congregate about the theaters, before and after the show and between the acts. That is why also that mid-town cops get less exercise. The authorities figured that it would be better for the urchins if they were chased once and for all. So instead of merely making gestures, the police made arrests. Parents were brought into court and made to see why their children should be in their homes and not on Broadway late at night. So now the youngsters who danced and sang have disappeared. So have most of those with tearful faces and soiled newspapers.

Not so amusing, colorful or pathetic were those car watchers who infested the theater district in such numbers that a motorist couldn't find a space that wasn't under their control. Various locations were taken over by gangs who had ousted other gangs and the motorist who failed to tip lived to regret it. In fact, conditions reached such a stage that some of the guide books advised paying a fee rather than suffer damaged car bodies and tires as well as the removal of everything that could be detached. Matters reached a climax when a motorist who tipped only a dime was assaulted. Then the police took a hand and now there are no more car watchers. In their place is an ordinance which forbids them to engage in such business.

Taxicab jockeys have also been eliminated by police activity. The jockeys were boys and men who swung onto the running boards of taxicabs and when they stopped, opened doors and stood by waiting for tips for the alleged service.

The practice was not only annoying but dangerous. Doormen are not forbidden by the new ordinance to perform such services, and thus they get a break on rainy nights. They hustle out and bring up cabs and acquire tips. That cabs would arrive anyway never seems to occur to the time-harried New Yorker.

Public porters are still licensed by The City. They station themselves in various places and pounce on the baggage of travelers. When that happens, the traveler has to pay two tips since the public porter is not allowed in the railroad station, totting in terminals being a red cap monopoly. Public porters, in the past, have acted as steerers for various minor hotels, often talking strangers out of going to places where they had intended with consequent loss to those who yielded.

The return of prosperity has caused the return of the hat grabber. When times were dull a number of establishments dismissed the hat grabber and thus patrons were not required to ransom hats and coats. But they are back now and seemingly are more rapacious than ever. It has been said that the New Yorker pays \$5 for a hat and then expends \$10 buying it back from check rooms. The only solution seems to be going bareheaded and that custom is not what it used to be. Bareheads are not nearly so numerous as in the past.

Youngster Gives Up Pipe for Spinach

Camden, N. J.—Twenty-two-months-old Joseph Noon has given up smoking a corn cob pipe. His new love is spinach and Mrs. Noon, the mother, is just as well satisfied. She says little Joe started smoking when he picked up Grandpa Joe Noon's corn cob pipe while the owner was listening to the radio. "He puffed on it and grew to like it," she declares.

But today since he has switched to spinach little Joe could eat his weight of it if given the chance, according to his parents.

ARGOS MERCHANTS TO MEET BOOSTERS

The Argos Merchants base ball team of Argos will travel to Talma on June 6, where they will meet the strong semi-pro Talma Boosters club. The Boosters are seeking revenge from the visitors Sunday. It will be remembered that last season the two teams met three times on the Talma diamond and out of the three games played, Argos won two. So this season the Boosters are loading up for the Merchants. The manager of the Talma team hasn't announced the batteries for the Boosters yet. This promises to be a real ball game Sunday.

The Boosters are planning to play two other games with Argos sometime this season. Both teams are all set for the game and a large crowd of fans are expected. Time of game is 2:30 CST.

Mail-Carrying Camels in U. S.
In 1854, to make transportation of mails across the Western deserts of this country a "certainty," the Post Office department purchased a number of camels in Egypt and Asia Minor for \$30,000. The stony surfaces on the deserts of Arizona and California injured the soft pads on the feet of the camels. An unsuccessful attempt was made to provide the camels with specially devised leather boots. The idea was finally abandoned.

Memorial to Captain Cook
On Kealakekua Bay, Hawaii island, stands an obelisk commemorating Captain Cook, who was slain near that point by natives. In 1928 a bronze tablet was dedicated in his honor and placed just below the surface of the water to mark the exact spot where he fell.

Detroit's Names

According to Farmer's History of Detroit, the early French colonists applied the name Detroit to the settlements on both sides of the river, calling one North Detroit and the other South Detroit. It has had at least five other names, including Tondotiga, meaning "great village"; Waweatunog, "crooked way"; Teuchsa Grondie, referring to the bend in the river; Karontean, "coast of the straits," and Fort Pontchartrain. The name is the French word for "strait" and refers to the city's location on the strait between the lakes.

American, Turkish Tobacco
Tobacco is native to America. It is not known when it was introduced into Turkey, but there it has lost many of its American characteristics. The plant has a smaller, thinner leaf and a pungent, spicy taste.

THIS PAPER GETS AROUND

While talking to one of our Mentone readers this week we discovered some interesting facts about the Co-Op News. One copy each week is received by a lady living in Mentone; when she has finished reading it she mails it to relatives in Fort Wayne, former Mentone residents. They in turn mail it to their son in Long Beach, California who, in the words of this kind lady, 'drop everything and sit down and read it from cover to cover.'

Well, we're certainly glad these people like our paper and hope they continue to enjoy it as they have in the past. It has always been the policy of the N. I. C. A. to please. Our suggestion to them might be, however, that since the paper is so valuable to them, that they subscribe for it, hence eliminating the loss or damage in handling thereof, and they would receive the current copy many days sooner.

ECONOMICS CLUB

The Tippecanoe Township Home Economics club met at the home of Mrs. Mary Kehoe with Mrs. Elsie Creakbaum and Mrs. Alta Kesler assisting. Twenty-three members answered to 'Little habits I should correct' after which business of various kinds were reported. A committee was appointed to arrange the program for the July reciprocity meeting with the Tippecanoe Progress club. It was voted to cancel our July picnic since this reciprocity meeting will be on the 6th of July and our regular meeting the following day. Our August place of meeting was changed. Mrs. Anna Melser invited us to an all day carry-in dinner meeting at her new home.

Our 4-H club seems to be progressing very favorably and we hope to have a report later, of the trip that our junior leader, Miss Donnabelle Eizinger is enjoying this week at the 4-H camp.

The program followed: 'Correct display of the Flag' by Mrs. Ruby Shafer was very instructive and discussion followed. 'Artistic arrangement of a bouquet' by Mrs. Zelma Sonafank gave instructions that each of us could and should follow. 'Flowers from frost to frost' were not as readily recognized as squashes, onions, etc., would have been. Mrs. Fern Coar won the prize. 'A good club member' by Mrs. Rose Shaw was very well given and each could soon see wherein they might improve.

Since this is bride month and this meeting was given mostly to flowers there followed a 'Floral Wedding' contest with Mrs. Maude Hutchison winning the prize. Mrs. Alta Ritter of the Parkview hospital and Mrs. Virginia Robbins with the new baby were the recipients of the bouquets of the day.

YOUTHFUL QUERIES

Dave Morgan

Then this matter of politics is some thing else. What is it? What's it for? What political policy shall I support? Does it make any difference? Will I be called a radical if I suggest something new?

Maybe I should just support the best man and lay partisanship aside. But who is the best man? Does the best man present the most eloquent oration? Does he have the most pleasant smile? Does he tell the funniest jokes? Has he proven himself a capable official in the past? Complicated mess isn't it?

However, we do know this one thing. It is the duty of every citizen to see that public officials are honestly performing the duties for which they were elected to perform. For such was our democracy founded. Long ago, it was a capital offence to berate an official. Now, the people elect him and he must follow the advice of those who are responsible for his having an office. Of course, we must learn to know that would-be office holders are essentially honest to begin with. Then we can settle down with a peaceful mind after the election.

There are so many phases of politics that can be easily misunderstood by the layman and therefore he is irked to keep safely non-partisan so that he can at least have a level head and a broad mind when discussing politics if he finds it necessary.

And another thing; we may have friends on both sides of the main fence whom we want to keep, and by being able to agree with both sides as well as afford each a reasonable discussion of the subject, we make no enemies and keep our friends in the meantime.

But then there are those to whom it makes no difference, so I suppose that to follow the path to which one is inclined will lead one where one should go; be it good or evil.

The Fiscal Year

The fiscal year is the year between one annual time of settling accounts and another. Our government fiscal year begins July 1 and ends June 30. The fiscal year is always spoken of as being in the calendar year in which it ends. Originally our fiscal year ended September 30, but in 1843 it was changed to June 30 in order to give department heads more time to prepare their reports for the opening of congress in December.

Ordered First English Bible

When congress met in Philadelphia it ordered the printing in 1782 of the first English Bible in the United States.

4H CLUB

The "Work and Chatter" 4-H club met at the school house for their third meeting on June 2. The meeting was called to order by the president, Jane Warner. Juanita Nellans called the roll by everyone giving their favorite flower. After the business meeting some of the girls sewed on their garments. The girls are progressing very nicely and will soon start on their dresses.

Juanita Nellans and Jane Warner have been selected to represent the club at the 4-H Round-Up which will be held at Purdue University at Lafayette, Indiana on July 15, 16, and 17.

After a busy hour of sewing the girls went on a surprise hike out to the home of Mary Esther Smith. A treasure hunt was the featured entertainment of the afternoon. This was concluded on the front porch where ice cream and cookies were served by the hostesses, Mary Esther Smith and Eleanor Wallace.

Our next meeting will be held on Wednesday, June 16 at one-thirty o'clock at the school house.

The "Willing Helpers" 4-H Club met Thursday afternoon June 3, at the school house. The meeting was opened by repeating the 4-H club pledge, which everyone has learned very well. The roll was called with everyone giving their favorite food. There were eleven members present.

Following the business meeting most of the girls spent their time in sewing, while several were figuring costs in baking. The girls are progressing very nicely in their clothing projects. At the last meeting they learned to sew on the sewing machine and several have completed their pan holders. Several other girls have finished hemming towels by hand; so they will start on their dresses next Tuesday afternoon at a special meeting which will be held for the girls taking the clothing projects. The girls who are taking baking will meet Thursday morning at nine o'clock at the school house.

Phyllis Lemler and Mary Beth Shinn planned a treasure hunt and hike. The treasure was a candy bar and gum for everyone. Mary Alice Moore and Genevieve Kraatz were the hostesses and served pop-corn and fudge before everyone started on the hike. Games were played after they returned.

The next regular meeting of the club has been set for Wednesday, July 16.

Workers Make Effort to Save Tree of Antiquity

Brisbane.—Dr. A. D. Herbert, with 200 volunteer workers has undertaken the rejuvenation of the oldest known living thing. It is the famous Marcozima palm on the Tambourine mountain, Queensland, which had been pronounced as 15,000 years old.

Recently it was found that vandals had chopped the palm down. Although the desecration had taken place at least three months previously, the ancient palm still was alive and Dr. Herbert organized his crew for an expedition to the mountain in an effort to save it.

A large hole was dug in the red volcanic soil close to the stump and then the trunk of the tree, possessing three upright sections, was placed in the hole.

Before planting the tree, Dr. Herbert coated the cut end with malachite green as a preventative to underground decay.

Even should the 15,000 year old palm fail to sprout new roots he estimates that the trunk still contains sufficient sago starch to sustain it and keep it alive for 10 or 12 years yet. But Dr. Herbert is convinced that the palm still has a chance to survive.

Boosters vs. Indians

The Talma Boosters base-ball team who holds the title of Fulton county champions, will travel to Laketon, Ind., on Sunday, June 13, for a game with the Indians. The Talma Boosters are hoping this season that they will be able to bring home the scalps of the Laketon Indians. It seems that the Indians are always a bad team for the Boosters but Talma is prepared to give them all they want, and are all set for the game. A large crowd of fans are expected to accompany the Boosters to Laketon Sunday. The game starts at 2:30.

"Jack is a killing chap all right."

"Luckiest" Diamond Bought for \$60,000

London.—A 19-carat diamond, valued at \$60,000, which is said to be the luckiest stone in the world, has been purchased by a group in England.

Unlike the famous Hope diamond of ill-omen, which is a greenish-blue color, the "lucky" diamond is rosy-pink. It is credited with the power of warding off ill-health.

When Azon Barbara, of Paris, bought it 100 years ago, he was suffering from an apparently incurable disease. Immediately after it came into his possession, his health improved, and during the next 28 years of his life, he never had an illness.

Since then it has been handed down from generation to generation, and it has always held the same charm.

A short time ago, the sole survivor of the family sold it.

Missouri Towns' Names Culled From Dictionary

Using names of towns as a standard, Missouri is well equipped for almost everything, a state postal directory shows, according to a Jefferson City, Mo., United Press correspondent.

A "Sentinel" to watch over it, "Speed" and "Swift" at its command, Missouri has little to retard its progress. Even "Success" is within the state.

Trick names are plentiful. For the boaster there's "Bragg City," and for the peace seeker, "Amity."

There is an "Annapolis," but the best that can be done toward West Point is "Cadet," a Washington county hamlet.

The state has a "Bachelor," but no spinsters; a "Day" but no night; a "Bendavis," but no apple; "Joy" but no sorrow, and a "Shamrock," but no St. Patrick. Seventeen other varieties of "saints" are listed.

For the traveler, an extensive tour is provided within the bounds of the state. He may jump from "Mexico" to "California," then to "Delaware." Then he has his choice of the "Klondike," "Louisiana" or "Nevada."

"Alley" was remembered with a "Rat," but "Pocahontas," in Cape Girardeau county, was not given a John Smith. The duke of Wellington may have taken Napoleon into camp, but Lafayette county thought enough of each to name towns after them.

China Dropping Chopsticks

China is casting aside chopsticks for forks. The big Hongkong factory which turned out the wooden implements by the million has gone bankrupt, partly because of the steadily falling demand, partly because the Japanese have been flooding the market with cheaper sticks. In cities the call for forks is growing, while the chopsticks click a last defiance in rural districts.

Harnesses Stream for Power

WEDDING

Lehman-DeWitt

Miss Beulah Mae Lehman, daughter of Mrs. Mae Lehman Gloor of Topeka, Ind., and Lowell DeWitt, 112 West West Street, Sturgis, Mich., son of Rev. and Mrs. E. E. DeWitt of Mentone, Ind., were united in marriage Sunday, June 13, at the Methodist Church at Mentone.

At twelve o'clock, near the conclusion of the morning church service, Miss Eileen Mollenhour of Mentone sang "The Rosary" and "Sweet Mystery of Life," with Mrs. H. G. Tunes, sister of the groom accompanying. Following these solos the majority of those present were surprised by the playing of Lohengrin's Wedding March and the entrance of the bridal party.

Rev. E. E. DeWitt officiated at the double ring ceremony during which a soft musical background was provided by the playing of "I Love You Truly." The bride was gownned in a white satin frock and wore a veil of tulle caught to her head with valley lilies. She carried an arm bouquet of Calla lilies. Her matron of honor was Mrs. L. L. DeWitt of Converse, Ind., and her bridesmaid was Miss Virginia Senour of Bourbon, Ind. Mrs. DeWitt was gownned in green mousseline de soie and carried Talisman roses, and Miss Senour was in pink mousseline de soie and carried Tea roses. Both wore bandeaux matching their frocks. Virginia Rush of Mentone was flower girl. Attendants of the bridegroom were Francis DeWitt, of Danville, Ill., and Leland DeWitt of Converse, Ind., brothers of the groom. LaVoid Lehman, brother of the bride, gave his sister away in age. Mendelssohn's Wedding March was played for the recessional. Following congratulations received at the Methodist parsonage, a wedding dinner was served in the church dining room for about fifty friends and relatives. Those from out of town were Mr. and Mrs. Tecumseh Kilgore and Mr. and Mrs. Stewart Lee of South Bend; Mr. and Mrs. Harvey Bodenhorn of LaPel, Ind.; Mr. and Mrs. Noble Lehman and Mr. LaVoid Lehman of Goshen; Mr. and Mrs. Gus Gloor and family and Mr.

Lehman of Topeka, Ind.; Mr. and Mrs. Walter Senour of Bourbon and Mr. and Mrs. Luther Salmons of Chicago.

Mr. and Mrs. DeWitt left in the afternoon on a wedding trip through the East, the bride traveling in a blue and white ensemble. They will be at home after June 21 at 315 South Clay Street, Sturgis, Mich. Mr. DeWitt is employed with the Sturgis Daily Journal.

Lehman Garage Burns

Fire at the Alonzo Lehman residence, 724 East Fort Wayne St., Warsaw, Friday afternoon, did considerable damage before it was extinguished by the Warsaw Fire Department. Mr. Lehman had just driven into his garage and gone into the house when his wife smelled smoke and looking outside, found the garage in flames. A new Dodge coupe and the garage were damaged almost beyond repair. Defective wiring in the automobile is believed responsible.

Creighton Hens Rank High in Contest

Ten hens owned by Creighton Brothers, Warsaw, have laid 1,909 eggs in 8 months. These hens are entered in the International Egg-Laying contest. The single-combed White Leghorns rank among the ten high pens of the United States in egg production.

Missionary Society

The Missionary Society of the Palestine Christian church held their monthly meeting in the church basement Thursday afternoon, June 10. The day was spent quilting. At the noon hour a delicious cooperative dinner was served.

Following the noon hour, Mrs. Mary Huffer conducted a short business meeting. Mrs. Amanda Huffer was in charge of the devotional service and Marguerite Eiler and Agnes Sirguy gave two very interesting papers of a missionary nature. Music was furnished by Miss Genevieve Horn. Those present were Mary Huffer, Ella Stickler, Marguerite Eiler, Amanda Hoffer, Clara Vorhis, Mrs. Crumina-aker and daughter, Mrs. Vida Horn and daughter Genevieve, Agnes Sirguy and Naomi See.

To All Poultrymen In The Mentone Area

Our community has been extremely fortunate for several years in that neither Fowl Pox nor Infectious Laryngotracheitis has ever visited us. As a result, vaccination against these diseases has not been practiced.

With the concentration of poultry in any district in the United States, we are told that Fowl Pox makes its appearance. Our county is no exception to this fact, for recently Fowl Pox made its appearance in several large flocks and inflicted its usual loss of both hens and eggs.

Protection, in the form of Fowl Pox Vaccine insurance is simple, effective for life, and inexpensive. We are advised that if healthy pullets are vaccinated between the ages of six weeks and three months, no ill effects follow and this seems to be borne out by the fact that over 25,000,000 pullets were vaccinated in the United States in 1936.

Some of our flock owners are already vaccinating their pullets or planning to within the next sixty days. Ask for literature on the disease at the Northern Indiana Co-operative Association elevator.

YOUTHFUL QUERIES

Dave Morgan

The past fifty years, during which American industry has broadened itself so rapidly, have been years during which Americans have been tantalized continually by rapid changes in social and economic standards.

Probably the changes in farm tools and their manufacture are the most interesting to rural people, as these changes have effected them the most directly. For instance the men who made the old types of farm machinery in their blacksmith shops depended upon their abilities as machinists to gain them repute. It usually took a week to make a plow. (Sometimes longer if someone wanted a new yoke for their oxen.) When it was made, it never got more than thirty miles from the shop; unless of course the farmer decided to "go west".

Now, a farm tool manufacturer builds his reputation by the way of advertising agencies, makes plows in an hour by the thousands, ships them all over the world by train and boat, but still doesn't have time to make oxen yokes. Maybe more people want plows. The discouraging part of the whole situation lies in the increased cost. Of course the modern implements are better, but it seems that processes have reversed themselves as far as economics is concerned. They make thousands of implements now, in the time it once took to make one, but instead of decreasing in price, they have increased twice to three and four times. When we get snooty enough to buy hand-made articles now, we pay a price that is about as reasonable as an old cow's attitude toward a field of young corn.

It is quite apparent that mass production factories are yielding enormous salaries for the owners, and that the ones who buy can do nothing but grumble and yearn for the "good old days". This is true in connection with all progressive industries, and whether or not such rapid progress is to prove itself beneficial is as yet a matter of opinion.

Has such a condition made us happier, more comfortable, more secure? Are we getting more from life than our fathers and mothers did? Or are we to believe that America is unconsciously preparing to echo the "fall of Rome"? We often hear people say things like that. They tell us that Americans are becoming less vigilant, lax in their morals, soft in their physiques, weak in their nervous systems. (Especially the part that runs up and down the back-bone.) "Worst of all," they shout, "people are becoming scl.-consous!" As a result of adver-

tisements of B. O. soaps, deodorizers of the mouth, cures for athletes foot, and cleansers of dingy tee-h, no doubt.

Well—let 'em shout. They can stick by their conventional Saturday bath if they enjoy having people edge away from them from Monday on through the week. We belong to an age that is influenced by stronger forces than calamity howlers and it ir-

ks non progressive people to get into the swim with the belief that new methods, customs and conveniences are for our benefit and enjoyment.

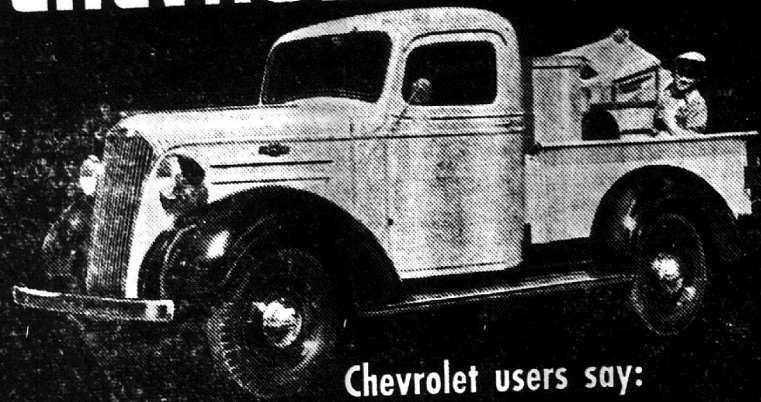

Of course, we are always beset by the wolves wrapped in lamb pelts; but why not? If we had nothing to keep us on our toes, decriers of our modern age would have cause for alarm.

FOR ECONOMICAL TRANSPORTATION

Thousands of Chevrolet users will tell you that the best answer to your transportation needs is—Chevrolet trucks!

Chevrolet trucks have the greatest pulling power in their price range . . . because they have a New High-Compression Valve-in-Head Engine which wrings the last ounce of power out of every gallon of fuel.

Chevrolet trucks are the most economical for all-round duty . . . because they give maximum gas and oil mileage, and will keep on serving over a long period with minimum care and attention.

And Chevrolet trucks are safer, more modern, more durable . . . because they're the only low-priced trucks with Perfected Hydraulic Brakes, New Steelstream Styling, and extra-strong Chevrolet construction throughout.

N. Y. A. Projects Close For Season

Indianapolis, June 15. —More than 3,750 Indiana college students today received their last checks for work on projects sponsored by the National Youth Administration during the past school year, according to Robert S. Rickey, state NYA director.

In thirty-eight colleges in the state, young men and women between the ages of sixteen and twenty-five, who met the requirements of scholarship and financial need, were enabled to defray part of their college expenses by working on projects approved by the faculty of their own school. The average monthly earning per student was \$15, and the total amount expended in the state each month was approximately \$45,000.

At the time of the Ohio valley flood, an additional \$2300 a month was allotted for a four month period for emergency projects on which college students participated in relief and rehabilitation work. Assisting professors with grading, clerical and laboratory work, tutoring, assisting in libraries, and campus beautification work were among the types of projects in operation. Other students aided public agencies in their college community.

Since there is no authorization for NYA assistance for students in summer school, all projects automatically close with the school term. In many instances this NYA work has proved valuable apprentice training. Similar work is expected to be renewed at the beginning of the fall term.

Colleges in which the program operated are: Anderson, Arthur Jordan Conservatory of Music, Ball State Teachers, Butler University, Central Normal, Concordia, DePauw University, Earlham, Evansville, Ft. Wayne Art School, Franklin, Gary, Goshen, Hanover, Huntington, Indiana Central, Indiana Law School, Indiana State Teachers, Indiana University, I. U. Extension, Indianapolis College of Pharmacy, John Herion Art School, Manchester, Marion, N.A.G.U., Notre Dame University, Oakland City, Purdue University, Rose Polytechnic Institute, St. Francis Normal, St. Joseph's, St. Mary's, St. Mary-of-the-Woods, Taylor University, Tri-State, Valparaiso, Vincennes and Wabash.

O. E. S. Memorial

Annual memorial night was observed by Mentone chapter of O. E. S. Monday night, June 7, at 8:00 o'clock. The Masonic Hall was decorated with a profusion of peonies, roses painted daisies and lighted tapers, making a perfect setting for the splendid program, which had been planned by Lois Fenstermaker, W. M.; Isabelle Johns, A. M.; Eileen Mollenhour, Cond.; and Rev. E. E. DeWitt, W. P.

Members who passed away during 1936 were Lydia Zentz, Dr. M. G. Yocum, Sarah Warren, Nellie Ketrow, Cora Fore, Mary Cattell and in 1937, Arnetta Sutherland.

Mrs. Del Meredith, Mrs. Frank Meredith, Mrs. Orpha Blue of the Warsaw chapter; Mrs. Lora Bell Burt from the Nappanee chapter; and Mrs. Jackson from North Manchester were guests at the service and a large percent of Mentone members was present.

During the social hour Mrs. Roy Maxwell, assisted by her able committee served dainty refreshments in keeping with the season. The entire evening was filled with a spirit of reverence and should make a deep and lasting impression upon all present.

SWEDES TO ERECT MONUMENT IN U. S.

To Celebrate Founding of Delaware County.

Stockholm, Sweden. — Sweden is now actively preparing for its share in the American tercentenary celebration of the founding of the first Swedish colony on the banks of the Delaware in 1638. The anniversary will be observed next year, probably in May or June, and a part of the official program here is a plan to send as a gift to America some monument that will probably be erected on The Rocks, a site in what is now the city of Wilmington, where the early pioneers first landed.

Costs of the proposed monument will be met by popular subscription.

Planned by Minuit.

In February, 1637, just three hundred years ago, Peter Minuit, well known as a founder of the New Amsterdam colony, on Manhattan island, came up from Holland to Stockholm to confer with the Chancellor, Axel Oxenstierna, acting regent during the minority of Queen Christina, and laid before the council of state a plan for colonization that led to concrete results. Earlier efforts to found trading companies had failed. Even now there was no popular interest.

The population of a scant million enjoyed religious freedom, and the wave of mercantilism sweeping up from the continent was adding material prosperity to the country, now the recognized military power of Europe following the Thirty Years war. There was no impelling need to emigrate.

Peter Minuit succeeded, and some months later, in November, 1637, he was the leader of the expedition that sailed from Gothenburg in the two Dutch vessels, Kalmar Nyckel and Fogel Grip. This handful of colonists did not reach the Delaware until March of the following year. Fort Kristina was so named by Peter Minuit in honor of the Swedish queen.

Friendly With Indians.

Gradually on both sides of the Delaware there sprang up forts or trading centers with nomenclature distinctly identifying the little groups of Swedes or Finns that came as additions to this colonization venture. The relations with the Indians were friendly.

Gradually the Swedes bought out the Dutch interests and by 1643 the first Swedish Governor, Johan Printz, had arrived. Old Swedes Church, built in 1698, is still standing. In less than two decades, however, the colony had been absorbed by the Dutch and in 1664 it passed into the control of the English. Reinforcements from the mother country had been too slow and uncertain.

It was not until two centuries later that the real emigration from

Sweden to America began. By the time of the 1880's it had reached such proportions that the welfare of the mother country seemed threatened. The early pioneering colonists of 1637 set out from a sparsely settled homeland with a population of only one million. Today there are a million and a half Americans of Swedish ancestry.

4H CLUB

The Tippecanoe Stitchers met Thursday, June 10, at the school house. The meeting as usual began with sewing and cutting out of dresses. The business meeting was called in the gymnasium where Donna-belle Eizinger told of her four enjoyable days at the 4-H camp at Indianapolis. She said that all clubs were expected to have "club discussion" at every meeting, therefore she lead the discussion at this meeting. She used the topic, "Meetings during the winter months". It was discussed from the angle of enlarging the membership and they decided to have a few meetings through the winter as an experiment. The club decided to get 4-H pins also.

After the business session, the club was taught new songs and games which they had played at camp. A reading was given by Lois Ward, a demonstration by Esther Kehoe, and a piano solo by Margaret Ward.

Mentone Welcomes New Doctor

Dr. Dan Urschel M. D. and his family moved from their home in Warsaw to the office and apartment formerly occupied by Dr. Yocum. He formerly had an office in Warsaw and Mentone both, but in the future he will confine his practice to the Mentone vicinity exclusively. We are sure that the town as a whole welcomes such a splendid young man and his family and feel that they will be a definite asset to the community.

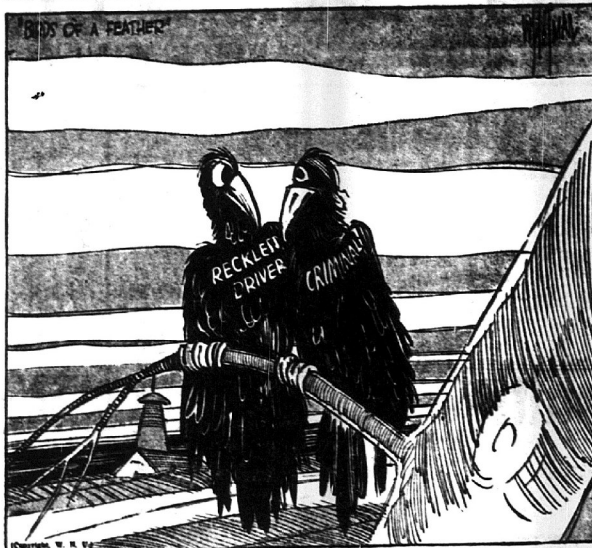

New Window Display

The Timbaugh Furniture Mart have arranged a very pleasing window display. They have built a plywood background about four feet high, finished it and backed it with wall board to give it enough body to stand alone. It conceals the back part of the store from pedestrians and gives a natural roomy effect to their furniture display.

One would do well to observe more closely the various window displays in our little village. Some of them are very tasteful and well worth your notice. Those displays don't just grow, you know, there is much thought, planning and labor behind them. Speak to your merchant about it. You've no idea how much he'll appreciate your comment upon his efforts, for he knows that attractive window displays and constant advertising in the home town newspaper will do wonders to boost sales.

County Churches Meet

The four Christian Churches in the county at Etna Green, Palestine, Warsaw and Milford held their annual meeting at the Milford Christian church Sunday, June 20. There was special music from Palestine and Milford during the morning service and from Warsaw and Etna Green at the afternoon service. The organization was fortunate in securing for the speaker, Prof. Holmes of Drake University who spoke at both morning and afternoon services. There was a bountiful basket dinner at the noon hour served to approximately one hundred and fifty members. The next meeting will be held at the Warsaw Christian church.

4H CLUB

The Tippecanoe Stitchers held their meeting at the school house June 17. After their sewing hour they dismissed to the gym for business. The club is planning a 24 hour picnic at the Tippecanoe River where they expect to learn how to perform domestic activities of a household. The Stitchers enjoyed a three act comedy entitled, The Fatal Quest, presented by four of the members, Audrey Miller, Lois Ward, Donnabelle Eizinger and Margaret Ward. The discussion was lead by Lois Ward and demonstration was given by Elkins. After these the members learned new games and relays. The next meeting will be July 1.

SHOWER

Following the usual Friday night choir practice at the Baptist church last week, the choir and other members of the congregation surprised Rev. Yeager and Miss Lyn Allison Antrobus of Crawfordsville, Ind., with a wedding shower. The local Baptist congregation presented them with a one hundred and five piece set of dishes, one pair of blankets and sheets. There were also several other individual gifts presented. An enjoyable musical program was presented after which the ladies of the church served sandwiches, salad and coffee to the group.

YOUTHFUL QUERIES

Dave Morgan

Among the most ridiculous types of patho-comedios are those happy people who are envious of wealthy, social registerites. Why in the world do people get dreamy-eyed when some socialite announces plans for a large week-end house party? Do they realize the agonies that are gnawing at Mr. Van Something-Or-Other as he goes down the list of prospective guests? "Let's see," he says, "there is Mrs. Jones who has a rich uncle. She might be willing to contribute to the 'Starving Armenian' fund if we treat her right; and Mr. Goldberg must be here. He would feel slighted and might be tempted to fire second-cousin Johnnies' half sister from his office; and yes, his Dutch goiter must be noticed as a mark of distinction. He has been turning his side to everyone since Mrs. O. U. Flirt told him he looked very distinguished with a slight bulge, 'er ----- expance about the belt. Then there is Mrs. O. Bese and her husband. I must not forget to suggest that she has been dieting; the old walrus..... etc. etc. And far far into the night he plans and worries. He wouldn't be doing so if it were not a social obligation which he is expected to execute.

So when somebody suddenly goes in for a formal style of social life, let him go to it. He'll wish he could get out just as suddenly when he has used the wrong word in complimenting Mrs. Igo First's hairdress. Instead of using 'fetching or 'purty' he'll probably use 'swell'. If he'd just add 'head' to 'swell', the matter would be all in a nutshell; with a goose egg on his own head after bouncing on the front steps.

And so it goes. If you tell the truth you wish you hadn't. If you tell a lie, you'd better heed the tone of voice and the words contained in it. It's mighty inconvenient to associate with people who take themselves and others so seriously that neither the former nor the latter gets anything from life except to wait his or her chance to throw a party that will make all others look like chawin' sessions at the corner grocery. But never-the-less, Mrs. I. B. Sic must be questioned as to the state of her health lest she refuse to contribute to the Uplifters Guild; you must trust that Mr. Smythe's silk stocking factory is in good financial condition; and above all else, that wealthy play-boy should be proud of his latest wife. Not that she is any better than the common run of chorus girls, but..... Why? I don't know.

SCIENTISTS GO FAR TO VIEW ECLIPSE

Two Groups, Widely Separated, Watch Unusual Event.

New York.—When one of the most remarkable eclipses in 12 centuries took place recently, it was observed by two different groups of scientists, one in the middle of the Pacific ocean and the other in Peru.

The National Geographic society—United States Navy expedition selected one of the uninhabited Phoenix islands in the mid-Pacific, 180 miles south of the equator as the best spot from which to make its observations. The total eclipse was visible from this point for four minutes, making it the longest total eclipse in 1,200 years.

The Hayden Planetarium Grace expedition of the American Museum of Natural History, in New York, went to Peru, from which country it conducted a number of scientific observations for the three and one half minutes of totality at this point. Not only did these scientists observe the eclipse but they, at the same time, dictated to a dictaphone cylinder a record of their observations. This group also took motion pictures and still photographs.

This solar eclipse was unusual in many respects. It started in the Pacific ocean on June 9, on one side of the International Date Line, and ended in Peru on June 8, on the other side of the International Date line. It swept across a path 8,800 miles long. Scientists were very anxious to observe this solar eclipse because on June 8 the moon would be about as close to the earth as it ever is, and the earth would be about as far from the sun as it ever gets. In addition, the eclipse occurred when the center of the sun, the moon and the earth were in a straight line.

Bank of England to Be Immune Against Bombs

London, England.—Nine hundred men, toiling in secret, are making the new Bank of England an impregnable fortress that will defy fire, flood, burglary and air bombardment.

No workman engaged on the job is allowed to give information concerning the new building, and bank officials have sealed lips.

Behind its stately facades the new bank contains many wonders. Fifty feet below street level are the world's strongest strong-rooms, capable of holding \$750,000,000 in gold bullion. There are fifty underground vaults, each surrounded by a wall of steel and concrete eight feet thick. Dynamite would be useless against them and heavy bomb attacks would not shake them.

Massive steel doors, guarding the entrances to the vaults, are opened and closed by electric power. In the event of invasion or any emer-

gency, it would be possible to flood the vaults.

As a further precaution, the new bank has its own electric power station.

British Marriages Rise While Divorces Decline

London, England.—The popular belief that the marriage and birth rates of Great Britain are falling off and that the population is declining is disproved by the latest statistics issued by the registrar general.

The figures show that there were in 1935, the last period of calculation, more marriages, more babies and fewer divorces.

The marriage rate was 17.2 persons per 1,000 population, compared with 16.9 in 1934 and 15.3 in 1932. There were 598,756 births.

The population of England and Wales is now estimated at 40,645,000. At the 1931 census it was 39,952,337.

The number of decrees nisi made absolute in respect of dissolution or annulment of marriage was 4,069—a decrease of 218 from the high record of 1934.

Scotland Yard Again Is Asking for Women Police

London.—Scotland Yard once more is advertising for women police.

Although applications have been pouring in from all types of women, including university graduates, most of these have been discouraged by the stiff requirements.

A woman candidate for the Metropolitan police force must be a paragon of virtue, intellect and beauty.

The qualities she must possess include a sound heart and lungs, good sight, hearing and speech, fine teeth, clear complexion, free from all physical defects, an alert mind, graces of character and disposition, with emphasis on cleanliness, tolerance and sense of humor, and the ability to wear well any type of clothes from rough country tweed to the most elaborate evening dresses.

Union Builds Home for Widow of Member

Port Arthur, Tex.—One hundred members of the building trades unions, here, wishing to do something for the widow of one of their members recently killed in an accident, each contributed a day's work and constructed a new four-room home for her. The house was completed recently, even to the paint job.

Best Seller 400 Years Ago

Four hundred years ago the most popular book of the age was the "Colloquies" of Erasmus, the great Dutch scholar, who endeavored to make men familiar with the wisdom of the ancients by a collection of 1,451 adages selected from their works. Written in Latin, the universal language of the educated of Europe, the book sold 24,000 copies.

PSI IOTA XI

Early in the evening the group were pleasantly entertained by the Myers Sisters, daughters of Mr. and Mrs. Carl Myers and the McKown sisters of Warsaw in a few tap and acrobatic dancing numbers. They were accompanied at the piano by Mrs. Carl Myers.

Three tables of bridge progressed with Yolanda Riner winning first and Pauline Riner second. Delicious refreshments were served by the hostesses to Artella Teeter, Polly Baum, Jessie Rush, Annabel Mentzer, Maxine Foxvog, Yolanda Riner, Nell Reed, Lena Eaton, Pauline Riner, Lucille Myers, and Emma Clutter. There will be a business meeting at the home of Pauline Riner July 6.

COLLISION

Saturday morning about nine o'clock a Shultz Bread delivery truck collided with a 1936 Oldsmobile coach on west Main Street. The Schultz truck, which makes daily delivery to various stores here in town was headed west and parked wrongly on the left hand side of the street, in front of Fleck's Meat Market. Backing out from the curb, he was struck by the Oldsmobile which was traveling at a high rate of speed within the city limits. The bumper of the Schultz truck was slightly damaged and the right front fender and door of the Oldsmobile were crushed.

Names of Things We Eat

The names of the things we eat have curious derivations. The humble vegetable, parsley, for instance, traveled from Greek to Latin, from Latin to Saxon, and from thence to its present form. It actually has the same origin as the name Peter (a rock), for it grew among the rocks of ancient Rome. Potato is from the Spanish patata, which, in turn, says Pearson's London Weekly Magazine, came from the Haytian batata, a sweet-tasting type of yam. The word sweet goes back to the Sanscrit svad—to taste; and sugar has also come to us from the same ancient language, via Persian, Arabic, Spanish and French. The Sanscrit for sugar was carkara, which first meant "grains of sand."

Sits on Bag of Wool

The woolsack on which the lord chancellor sits in the house of lords is actually a square bag of wool covered with red cloth.

ANNUAL PICNIC Monday, July 5.

Leroy Norris, chairman of the picnic committee, has announced that the Northern Indiana Cooperative Association annual picnic will be held Monday, July 5 at Beechwood Park, Huffman Lake. The afternoon speaker will be Mr. Albert Ferris, State Senator from Milton, Ind., Wayne county. He is a general farmer and has been highly recommended to us. Mr. Cecil Long is in charge of the entertainment, which is guaranteed to be of the best.

The committee has announced that there will be paper plates for every one but ask that you bring your own table silver. There will also be plenty of free ice cream. Don't miss the picnic this year! If it is impossible for you to attend the big basket dinner at the noon hour, come in the afternoon and hear Senator Ferris. We assure you it will be worth your time.

Hurricane Ruins Many Farm Homes

The whole county was shocked Saturday morning with the reports of the severity of the electric, hail, rain and wind storm which had laid waste to numerous farm homes and properties in Scott, Etna and Jefferson townships. Hundreds of cars of curious tourists from adjoining counties and states flocked to the storm area Sunday afternoon, necessitating the employee of state cops to conduct traffic at some of the crossings of the narrow roads. Many roads were blocked by water that still covers the fields and by fallen trees which have not been removed. The tremendous loss cannot be estimated of course. Only by seeing huge trees, scores of them, uprooted and many broken mid way, huge barns and silos lying in splinters, homes picked from their foundations, a church lying in ruins among its pews, hundreds of acres of crops rotting in the mud that still covers them in places—beaten into the earth by the terrific onslaught of rain and hail, can we gain the faintest conception of the tragedy of the

The winners were chosen from a group which took special tests recently given to the highest ranking graduates from each school.

CLUB NEWS

The Ladies Council of the Methodist Episcopal church held their June meeting in the basement of the church Friday evening, June 25. A delicious cooperative luncheon was served at 7:30 o'clock, where the spirit of love and friendship was manifested. The regular business session was conducted by the president, Mrs. Mary Borton, which proved very gratifying.

The service rendered by Miss June Aughinbaugh with her usual talent, as the pianist of the church actuated the entire membership to show their appreciation by presenting her with a lovely gift. The presentation was made by Rev. E. E. DeWitt in his usual pleasing manner. His theme for the evening address was "Friendship". It impressed all present with the importance of the Lord's work, and the need of faithful workers.

The next meeting will be held July 30, at the church.

WEDDING

Antrobus-Yeager

A lovely early summer wedding took place Thursday afternoon, at half after two o'clock at the First Baptist church in Crawfordsville, Ind. when Miss Lyn Allison Antrobus, daughter of Rev. and Mrs. B. E. Antrobus, of that city, became the bride of Rev. R. Orville Yeager of the First Baptist church of Mentone.

The setting for the ceremony was most artistic. Amidst the lovely embankment of palms and ferns were clusters of asters and in the center of the altar was a large basket of white carnations. The lovely effect was enhanced by the glow of the cathedral candles on either side of the altar. Pews for the family were marked with green and white ribbon rosettes.

As the guests gathered in the church, they were shown to their places by Rev. D. Russel Hetsler of Greencastle and Rev. Austin Elmore of Crawfordsville. Preceding the ceremony, Miss Helen Nimtz, of South Bend, a classmate of the bride at De Pauw university, played a program of nuptial music including "O Thou Sublime Sweet Evening Star" and "Liebesraum". Miss Alberta Bechtel sang "I Love You Truly," and Mr. Howard Jarrat sang "Calm as the Night" and "Beloved, It Is Morn."

The young couple plighted their troth to the reading of the single ring ceremony by Rev. B. E. Antrobus, father of the bride, in the presence of a large company of relatives and friends. Mrs. Eston Elmore was matron of honor, Miss Rebecca Shields of Indianapolis and Mrs. Austin Elmore of Crawfordsville, were the other attendants. Rev. Gordon Wray of Crawfordsville, was best man.

As Miss Nimtz struck the first chords of the bridal chorus from Lohengrin, the bridal party entered the church. The minister, the groom, and his best man came from the vesper as the two attendants came down the north aisle followed by the matron of honor. Next came the little flower girl, Mary Jane Chesterson, who scattered rose petals in the path of the bride who was escorted to the altar

PSI IOTA XI

Mrs. Lucille Myers, president of Beta Epsilon chapter of Psi Iota Xi sorority, and Mrs. Emma Clutter have returned to their homes in Mentone from Richmond, Ind., where they attended the thirty-fifth annual convention of Psi Iota Xi sorority. Convention headquarters were in the Richmond-Leland hotel where business sessions were attended by 300 delegates and guests, welcomed by Mrs. Lloyd E. Seter of Bloomington, grand president.

Social sessions included a buffet luncheon, a formal dinner party at

the beautiful Forest Hills country club, a breakfast party and luncheon, interspersing the business sessions. Luncheon was served at the Elks country club.

The Rushville chapter was awarded the achievement cup on the basis of its expenditure of \$63.93 per capita during the past year for charity purposes. Mrs. Thames Schumaker, Richmond, was elected new president of the sorority which will meet in annual convention next year in East Chicago.

The treasurer's report showed Psi Iota Xi spent last year \$26,246.43 for charity in Indiana. The Mentone

chapter is very active in civic and charity work and is the only chapter of this sorority in this county.

YOUTHFUL QUERIES

Dave Morgan

Young people, having graduated from high school, are now beginning to wonder whether or not they really have a chance. Are they absolutely sure that they are headed down the right track? Do they know what is to befall them if they follow their inclinations? Have they recognized themselves as favorable aspirants for their particular fields? I sometimes doubt it. But what's the difference? Since they can't possibly have the remotest idea of their futures except the realization of the fact that they must learn the ground upon which they are to tread if they are to tread confidently and without halting.

It is very distressing for a person to have so many conflicting desires as is the case of so many young people. Some have ears for music, arms for hard work, heads for thorough thinking, patience for the understanding of human evils and perhaps a sharp sense of humor. Now just what field of endeavor shall they enter? Shall it be music, agriculture, business, politics or the theatre? Well, supposing that one of this type has chosen politics. He realizes that in this field he must have a more thorough knowledge of human problems and enters a study of social sciences in college. Should he disregard his musical ability, his physical capacity and other aptitudes? Can he be sure that he can be placed in one of the many separate fields of politics?

You know, it's a pretty tough proposition when it comes to making ones desires reap the benefits that they should. We all know it to be a fact that man-made plans just won't work when they are made to the degree of forecasting the reactions of people. I think that when people confine their plans to generalities and prepare themselves to handle details on the 'spur of the moment', they will find a deeper satisfaction in living. People who do this learn to take life as it is and cease to see it through the magnifying glass of seriousness. They don't suspect life as being a trickster, and they learn that people vary a little after all.

Breaking Treaties a Habit

A striking commentary on the honor and integrity of nations is the fact that, during the past 3,400 years, peace treaties have been broken on an average of one every 22 weeks.—Collier's Weekly.

DUTCH ELM DISEASE IS SERIOUS THREAT

U. S. Asked to Save Trees Worth \$750,000,000.

Washington, D. C.—On completion of the first census of the country's elm trees, the forestry association announced that unless immediate steps are taken by congress to control the spread of the Dutch elm disease destruction is imminent of one billion elms with a monetary value of more than \$750,000,000.

The elm census recently was completed by the federal bureau of entomology and plant quarantine in connection with its studies of the disease. Of the billion trees 25,000,000 shade streets, yards and houses of villages and cities. These, according to the census, have a value of \$662,000,000. The millions of elms growing wild are valued at \$38,000,000.

200,000 Trees Destroyed.

Already, in the tri-state area around New York City, the present infection center, nearly 2,000,000 elms have been destroyed and another 1,000,000 have been marked for destruction. If the disease is allowed to escape from the infected zone and spread over the country, the association contends, efforts to control it will be ineffectual.

The association declared the saving of elms constitutes one of the most urgent conservation problems of the federal government and the nation.

Illinois has 36,149,000 elms. Of these 2,149,000 are shade trees. The value of the state's elms is \$52,321,600. Chicago has 200,000 elms; Evanston, 68,000; Hinsdale, 37,000, and Rockford, 6,000.

Iowa has 9,169,000 elms, of which 669,000 are shade trees, of a total value of \$11,353,560. Indiana has 43,457,000, of which 957,000 are shade trees, of a total value of \$22,091,516. Michigan has 130,491,000 elms, of which 1,691,000 are shade trees, of a total value of \$62,082,738. Wisconsin has 102,113,000 elms, of which 1,363,000 are shade trees, of a total value of \$43,948,282.

Available in Next Five Years.

Control and eventually eradication of the Dutch elm disease virtually is assured, the association stated, if immediate and adequate appropriations are provided by congress with which to continue without field work in the metropolitan New York area. Appropriations needed are placed by the association at \$15,000,000 to be made available through the next five years.

Thereafter, relatively small appropriations will be necessary for another five or ten years to mop up recurring infections and to maintain an unrelaxing, constant guard against new infections. The total cost of saving \$750,000,000 worth of elms will probably not exceed \$30,000,000, it was stated, provided congress takes immediate action in ap-

propriating the necessary funds. Otherwise America's billion elms may not be saved at any cost, the association said.

Although looked upon since the time of the Pilgrims as the country's most cherished tree, not until the present census has the true national character of the elm been known. According to the census, the heavy concentration of elm shade trees is in New England where 3,382,000 were reported, and in the middle Atlantic states with 2,810,000.

Mentone Boys On County Legion Nine

Kosciusko county's American Legion junior baseball team, made up of the nine best players of the various Legion teams of the county, was to have opened their season at Mentone Friday afternoon in a game scheduled with Winamac, Ind. The game had to be postponed however, due to the severe wind and rain storm. The boys plan to play that game Tuesday afternoon, July 13. They will play LaFayette at Mentone Friday afternoon, July 9.

Walter Fenstermaker, Mentone coach, is coach of the county team and Ray Strayer of Claypool is the athletic officer. Mentone has four players on the team; they are Herschel Linn, Dale Wallace, Dean Shirey and Dale Wiltrout. The boys have new suits and are out to make a name for themselves in conflicts with teams from surrounding counties.

Words Have Opposite Meaning

Thousands of the words we use have an entirely opposite meaning to that of the words from which they sprang. Pretty, quite complimentary, comes from the Anglo-Saxon *praetig*, which meant tricky or sly. The adjective nice has a pleasant meaning but it comes from the French, *nice*, meaning foolish or simple, and its real origin is the Latin, *necius*—ignorant, says Pearson's London Weekly.

Etna Green News

Mrs. Anna Hess entertained last Sunday, her daughter Mrs. Birdie Miller and family of South Bend and Mr. Carl Kratzsch and family of Warsaw.

Mr. and Mrs. Donald Poulson have returned from their vacation. They spent a week at International Falls, Minnesota, and they report very fine fishing. Fish stories are always good and Don now has a large supply of them.

Mr. Andrew Hoffer 68, a farmer living a mile and a half north of town, well known and very highly respected, died Wednesday morning following a stroke of paralysis. Mr. Hoffer has been in declining health for several months and his death is a decided loss to this community. The funeral was Saturday and interment was in the Rockhill cemetery.

Mrs. Jacob Hight, wife of our amiable postmaster and his two daughters Betty Lou and Hazel are spending this week in Pittsburg.

The thieves who broke into the township school two weeks ago, and the thieves who stole two valuable dogs from Mr. and Mrs. Ferd Koenig a few days later have not as yet been apprehended.

Citizens have been complaining considerably lately about the boisterous and unnecessary honking of cars and yelling on the streets at midnight and after on Saturday nights. This is becoming intolerable and would not be permitted in any town where there is an efficient police system.

A number of members of the Christian Church attended the all day meeting at Milford last Sunday. Mrs. Mame Engleman and Mrs. L. A. Melick sang a duet on the program.

More for Your Money

Firestone Rubber Plantations in Liberia furnish ever increasing supply of finest quality rubber.

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it because they saw in it more value for their money.

"How does Firestone do it? How can they build so many extra value features into Firestone Standard Tires and yet sell them at such low prices?" The answer is simple—Firestone controls better-quality rubber and cotton supplies at their source, keeps manufacturing costs low by efficient factory methods and sells in such huge volume that distribution costs are held to a minimum.

Make no mistake about this! The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. Its scientifically designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures.

Before you buy ANY tire at ANY price, see today's top tire value—the Firestone Standard Tire. Don't risk your life with thin, worn tires on your Fourth of July trip. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires.

DON'T RISK YOUR LIFE ON THIN WORN TIRES

DO YOU KNOW
THAT last year highway accidents cost the lives of more than 38,000 men, women and children?
THAT a million more were injured?
THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

MOTORING TIPS

Not long ago, a party of tourists narrowly escaped mishap when a battered old car coming toward them on the highway cut across their path into a farm drive. Good brakes on their car, and a wide apron on the road, enabled them to miss it by a hair, and as they backed onto the road again, they remonstrated with its driver, who was just beginning to realize how close to trouble he had been.

"Why in the world didn't you signal that you were going to turn?" one of the party demanded.

"Why, Mister," the other driver answered, "I thought everybody knew I live here."

Whoever remarked that the average car was better than the average driver probably meant that operating technique, as observable on our streets and highways, has not kept pace with the evolution of the motor car itself. Certainly a little heavier stress on the niceties of driving would enable the motoring public to secure a greater measure of the comfort, safety, and general satisfaction that are built into every car today.

In my opinion, that motorist is the most competent who keeps in mind, at all times, the fact that there are others besides him self on the road, and drives in a manner consistent with that realization. The good driver never assumes that others know what he intends to do. He signals

every move—not only his stops and turns, but his intention to pull away from a curb. He is equally careful to give notice, with his horn, when about to pass. Observance of proper signal procedure will automatically do away with one of the most dangerous driving hazards—the sudden, unexpected move.

And if he hopes to qualify among the really topnotch drivers, he will go one step further, and keep his eyes open for the other fellow's signals, so that his own starts, stops and turns may be based on information more reliable than a guess or a "hunch" of what others are about to do.

Macy Merchants To Clash With Boosters

The strong Merchants base ball team of Macy, Indiana, will travel to Talma Sunday, July 4th, where they will meet the strong semi-pro Talma Boosters in what ought to be a really good ball game. The Macy team defeated the Rochester team at Macy Sunday, June 20th by a score of 3-2, so the Boosters will really have to 'dig in'.

The batteries for the Macy Merchants will be Geiger and Geiger and for the Boosters will be Barkman pitching and Don Lyon catching. This will be the first game for Lyon for some time do to illness and an injury sustained several weeks ago. The game will be called at 2:30 p.m.

WEDDING

(Continued from front page)

by Dean McCutchan of DePauw university, who gave her in marriage. During the reading of the marriage vows, the organist played "Blest Be The Tie That Binds".

The bride was beautiful in a white cut chiffon, fashioned Princess style with pearl yoke, long sleeves, and train, and long net veil falling from a ruffled band. She carried a colonial bouquet of bride's roses and valley lilies with shower of green and white ribbon.

The matron of honor wore a gown of pink lace, full skirt, puffed short sleeves trimmed in blue ribbon. In her hair, she wore a cluster of sweetheart roses and carried a bouquet of daisies and blue delphiniums centered with a tea rose.

Mrs. Elmore's dress was orchid dotted swiss, ruffled skirt, high neck and puffed sleeves. Her flowers were yellow roses. Miss Shields wore a dress of aqua organdy, full skirt, short puffed sleeves, and carried sweetheart roses. The little flower girl was dressed in a dainty frock of white net over white satin with valley lilies in her hair. She carried a white basket filled with vari-colored rose petals.

The bride's mother wore a print-chiffon in pastel shades, blue hat and grey accessories, and the groom's gift of a shoulder spray of pink roses. Following the ceremony a reception was held in the lower auditorium at the church which was decorated for the occasion in a profusion of flowers.

The bridal table was centered with a cake topped with a miniature bride and groom, around which were flowers and greenery. Those seated at the table with the bride and groom were Rev. and Mrs. B. E. Antrobus, Dean R. G. McCutchan, Mr. and Mrs. Howard Jarratt, Rev. Gordon Wray, Rev. Russel Hetsler, Rev. Austin Elmore, Mrs. Eston Elmore, Mrs. Austin Elmore, Miss Rebecca Shields, Miss Helen Nintz, Miss Alberta Bechtel and Little Miss Mary Jane Chesterson.

During the reception, Miss Nintz played a medley of songs and while refreshments were being served, the bride and groom sang "You Are My Song of Love" from "Blossom Time." Members of the Kings Daughters Sunday school class served the guests.

The bride was graduated last week from DePauw university music school where she is a member of the Pi Kappa Lambda sorority. She is a talented musician and prominent in church and social activities.

Rev. Yeager attended Wheaton college, Northern Baptist Theological Seminary, DePauw university and Chicago university and is a member of the Men's Hall Association at De-

Pauw. He has been pastor of the First Baptist church here for the past several years. The groom's gift to the bride was a lovely yellow gold wrist watch.

Thursday evening, Rev. and Mrs. Yeager left for a honeymoon trip through southern Indiana and returned to Mentone late Saturday where they will be at home to their many friends at the Baptist parsonage. The bride's going away dress was white silk shantung with bright colored jacket and white accessories.

Those attending from Mentone were Mr. and Mrs. Blanche Darr and two grandchildren, with whom Rev. Yeager has made his home since coming to Mentone a few years ago, Mr. and Mrs. Raymond Weirick and two children, Mr. and Mrs. Fred Lemler and daughter Phyllis, and the Misses Willodean Janke and Betty Ellsworth.

Etna Green Man Dies

Mr. Grant Whitacre died Friday night at 11:45. He had been suffering with heart trouble and dropsy for a long time and his death at this time was not unexpected. Mr. Whitacre was a retired Pennsylvania section foreman and has been on pension for some time.

DEATHS

Welker

Emery Welker, aged 59, was found dead Saturday morning, June 26, at his home near Tiosa. The deceased ended his life with a gun about 8:00 a.m. was the verdict given by the coroner. The body was found by his daughter, Ruth.

He was born in 1878 near Claypool, the son of Frank and Mary Jane Welker, and has spent his entire life in this vicinity, as a farmer.

He is survived by the widow, one daughter, Ruth at home; his father and mother of Claypool and other close relatives and friends.

Funeral services were held Monday afternoon at the Tiosa church, and burial was at Oakwood cemetery, Warsaw.

A resident of Etna Green wrote us, giving a ring-side version of the wind storm Friday afternoon. We wish we had the space to print the entire description but as we have not there are a few of the interesting details. Electric service was destroyed, power night on some of the circuits. Merchants handling ice cream were compelled to rush to county seats for dry ice to save their products. Service stations operating electric pumps were obliged to turn down their customers. Telephone service will be unavailable with the Millwood central for weeks, as miles of lines have been destroyed.
