McCLANE-SMYTHE MARRIAGE

The Methodist church of Mentone was the scene of a very impressive ceremony on Sunday June 2nd, at 3:30 p. m. when Miss Gertrude McClane, daughter of Mr. and Mrs. Neil McClane of Mentone became the bride of Harold Smythe Jr. son of Mrs. Josie Smythe of Palestine. A lighted cross shining over the altar banked with palms and spring flowers produced a sacred garden for the ceremony. Preceding the ceremony two piano selections, "Starlight Serenade" and "Liebestraum" were rendered by Mrs. Phillip Blue following which two vocal numbers, "Because" and "I Love You Truly" were presented by Mrs. Wayne Bowser. Rev. S. M. Hill, followed by the bridegroom and Walter Smythe, brother of the bridegroom and acting as best man, entered the sanctuary to the piano accompaniment, "Bells of St. Marys". Thereupon the Bridal March filled the air as Miss Margaret McClane, sister of the bride acting as maid of honor and wearing a white street length dress adorned with a corsage of red roses, took her place at the altar. The bride entered upon the arm of her uncle, Mr. W. H. Sandhan of Toronto, Canada, who gave her in marriage.

The bride was beautifully attired in a powder blue crepe street length dress trimmed with lace of like color; a crown of flowers and blue net encircled her head. She carried a bouquet charmingly arranged of delicate colored sweetpeas and white satin ribbon.

Rev. Hill performed the single ring ceremony after which the "Lord's Prayer" was vocally rendered by Mrs. Bowser. The bridal party receded with the strains of the piano recessional. The reception was held in the church basement where members of the bridal party were served dainty refreshments. An Irish fruit wedding cake, tiered, and topped with a miniature bride and bridegroom was a delicious part of the refreshment. Worthy of note was the fact that the bride's aunt, Mrs. W. H. Sandhan, of Toronto, Canada, had long since prepared this wedding cake for the occasion.

Mrs. McClane, mother of the bride, was attired in blue silk with black accessories and Mrs. Smythe, mother of the groom, wore black jersey with black accessories; each wore a corsage of peach gladiolus. Mr. and Mrs.

LIONS NAME CANDIDATES FOR NEW OFFICERS

The Mentone Lions club met at the school building Wednesday evening for the first meeting in June. The report of the nominating committee was received and the following candidates were named for the election to be held at the next regular meeting, June 19th.

They were:

President, H. V. Johns.
1st vice pres., Ora McKinley.
2nd vice pres., Lee Valentine.
3rd vice pres., Delford Nelson.
Secretary, Merl Linn.
Treasurer, Richard Manwaring.
Lion Tamer, Arlo Friesner.
Tail Twister, Eugene Marshall.
Directors, Leroy Cox, Forrest Kesler, Raymond Cooper, Earl Shinn.

The International by-laws permit further nomination from the membership prior to the election.

NEW CLEANING PLANT TO OPEN SATURDAY

Phillip Blue has completed the construction of his new dry cleaning plant next to the Snyder Appliance Store and announces his official opening for Saturday, June 8th.

The new building was constructed of cement blocks and the front contains plate glass windows. An apartment was built on the second floor.

SARBER-CAIN WEDDING

Miss Betty Cain, only daughter of Mr. and Mrs. Melvin Cain, of Mentone, became the bride of Eugene Sarber, son of Mr. and Mrs. Elmer Sarber, also of this vicinity, in a double-ring ceremony performed at nine o'clock on Saturday morning by Rev. C. G. Yeomans, at his residence in Warsaw.

The bride was attired in a lovely street-length dress of white chiffon with which she wore matching accessories. Her corsage was of pink rose buds.

Immediately following the ceremony Mr. and Mrs. Sarber left on an extended trip through the south. Upon their return they will reside at their newly furnished home west of Mentone.

Smythe left for a short wedding trip after which they will be at home to their many friends of this community.

MEMORIAL DAY SERVICES PRAISED BY MANY

Many have been the remarks of praise concerning the Memorial Day services held at Mentone last Thursday. Many of Mentone's citizens helped in putting on and arranging for the day's program, which is annually sponsored by the Mentone Lions Club.

Edward H. Paine, former International president of Lions clubs, who has appeared in Mentone on a number of occasions, gave a very inspiring address, and our own Dale Kelley was highly complimented for the well-worded and sincere message he delivered at the dedication services.

MRS. CURTIS RINER NEW ATTENDANCE OFFICER

Mrs. Curtis (Pauline) Riner, of near Mentone, was elected as county school attendance officer by the board of township trustees Monday afternoon at the court house at Warsaw.

A former school teacher, Mrs. Riner will begin her one-year term on Aug. 1, when the term of the present officer, Mrs. Bernie Summey, Pierceton, expires.

The election of Mrs. Riner was by a majority vote of the trustees following the regular June meeting of the county board of education. The incumbent was also a candidate.

Mrs. Riner attended school at Manchester college and normal school at Winona Lake, securing a certificate in 1927. She taught for four years in Harrison township.

Mr. and Mrs. Riner operate a farm near Mentone and are well known here. Mrs. Riner is active in community affairs and is a member of the Psi Iota Xi Sorority. Mr. Riner is a member of the Mentone Lions club.

CHILDREN'S DAY PROGRAM AT METHODIST CHURCH

A children's day program will be given at the Mentone Methodist church on Sunday morning at ten o'clock. There will be readings, songs, a short play, entirely in charge of the children.

Everyone welcome and invited.

DAUGHTER BORN

Mr. and Mrs. Dale J. Wallace, of Mentone, are the parents of a daughter, Connie Jo, born at 11:10 a. m. Friday at the McDonald hospital.

BUSINESS MEN MEET

A representative group of Mentone business and professional men gathered at the town hall last Friday evening and discussed the subject of organizing a businessmen's organization of some sort. The topic was discussed from various angles and a number of very important facts were brought to the attention of everyone.

There was little doubt but that everyone present believed that more concerted action was necessary on matters of business, although there were differences of opinion expressed regarding just what would be the best procedure. K. A. Riner, who served as chairman of the group, appointed a committee of five to name temporary officers of the association, or group, and to study the matter more thoroughly. Those named on the committee were: M. O. Mentzer, C. E. Walburn, Raymond Cooper, Ora McKinley and Glen Denton.

Another meeting was scheduled for Thursday evening, June 6th.

MRS. ELMIRA RILEY, 96, DIES AT HOME IN AKRON

Funeral services were held at 2 p. m. Tuesday at the United Brethren church at Yellow Creek Lake, of which she was a member, for Mrs. Elmira Riley, aged 96, who lived in that vicinity for many years. Mrs. Riley died at 10:45 a. m. Sunday at her home in Akron. Death followed an illness of several months due to complications. She was born in Kosciusko county near Yellow Creek lake July 9, 1849, the daughter of Robert and Margaret Reed, and lived in that vicinity until 1914, when she moved from her birthplace to Akron. Her husband, James M. Riley, died in 1909.

Surviving relatives include two daughters, Mrs. Minnie Curtis, of Akron, and Mrs. Jennie Good, of Fort Benton, Montana; two sons, Lloyd Riley, of Akron, and Charles Riley, of Marion; two sisters, Mrs. Lou McClure, of Silver Lake, and Mrs. Ella Connor, of Marion; eight grandchildren, six great-grandchildren and one great-great-grandchild. A son also preceded her in death. Rev. B. F. Cain officiated at the service and was assisted by Rev. R. Fenstermacher. Burial was in Fairview cemetery near the church.

HEART DISEASES

Heart diseases claim more victims each year in the United States than any other single disease. It is estimated that 2,000,000 persons are suffering from some form of heart disease in this country and that from 25 to 45 per cent of those deaths are due to rheumatic heart disease.

Primarily a disease of children and young adults, rheumatic heart disease rarely appears in a person after he has reached the age of 50 years and usually before the age of 30. In children the symptoms are numerous. So-called growing pains, failure to gain weight, unexplained fever, frequent nosebleeds, and heart murmurs may point to the presence of the disease. It attacks slowly and may be accompanied by fever, rapid pulse, pallor, anemia and irregular jerky movements. Although the immediate effect may be slight, the long range effect is that most young persons who contract it become cardiac cripples before the age of fifty.

Not much is known of the causes of rheumatic heart disease. If it is caused by a germ, the exact organism is not known. Since many attacks of rheumatism are preceded by tonsillitis, it is possible that the germ may gain entry through diseased tonsils. Decayed teeth

or diseased gums have also been suggested as possible portals of entry although no proof for such suppositions exists at the present time.

One suffering from rheumatic heart disease should be kept under the supervision of a physician. It is recommended that periodic examinations as frequently as one every six months should be made in order to determine whether or not further changes in the heart have occurred.

—Indiana State Board of Health.

"IGNORANCE IN THE CITY" DESCRIBES LIFE EDITORIAL

"Greed on the Farm", the title of an editorial published recently by Life Magazine, should have been titled, "Ignorance in the City", Arthur Moore, editor of Prairie Farmer writes in the current issue.

Life's accusation based on the failure to meet grain for food promises made to famine-ridden countries by the United States. The Life article charged farmers with holding grain on the farm because they were greedy for profits.

That charge is refuted by figures showing stocks of grain on farms now. "Grain producers sent 2,000,000 more tons of grain away from farms the first quarter of this year than during

the first quarter of the preceding two years," Mr. Moore says.

Life's No. 2 accusation was that grain on the farms was being held to feed livestock beyond the need.

"Value of livestock on farms declined 7% in 1944, according to government figures," Mr. Moore says, "and have been going down steadily since. Farmers responded exactly as the price fixers asked them to." And that," says Mr. Moore, does not constitute "Greed on the farm."

Mr. and Mrs. Donald Tucker and son Raymond of Delavan, Wis., were guests this week of Mr. and Mrs. DeVon Hibschan and daughter Diane. On Tuesday evening Mr. and Mrs. Don Blue of Elkhart, called. Don, Donald and DeVon were in the same outfit while in service.

THE NORTHERN INDIANA CO-OP. NEWS

Published Weekly by the
Northern Indiana Cooperative Association, Mentone, Ind.

ARTLEY D. CULLUM, Editor and Manager.

PRINTED IN THE MODERN PLANT OF THE COUNTRY PRINT SHOP

EDITOR ON VACATION

The editor and family plan to leave soon after the publication of this week's issue for a week's trip into Canada. The Co-Op. News will go on as usual—we hope—and the cooperation of readers and advertisers will be appreciated. News items and advertising for next week's publication should be in the office as early in the week as possible so that the employees won't be covered up with the usual last-minute rush.

We'll try and be back in time to get a fish story or two in the following issue—if the fish aren't too big to fit on one of our pages.

MENTONE HOME EC. TO MEET

Mrs. Frank Warren will be hostess to the Mentone Home Economics club Thursday p. m., June 13, assisted by Mrs. Linus Borton.

Response to roll call: "Where I'd like to go for a trip".

—Club reporter

BIRTHDAY PARTY

Eleven little friends Thursday afternoon gathered at the home of Marilyn Sue Horn to help her celebrate her 5th birthday; also the birthday of her cousin, Jerry Leedy.

After romping and playing for an hour or so, ice cream and cake were enjoyed by all.

Those present were: Sandra, Betty and Jerry Leedy of Warsaw route 1; Dianne, Devon and Linda Kay Davis of Tippecanoe; Judy Sutherland of Chicago; Rebecca Oyler, Janice Davis, Jimmie and Sharon Phillips and Lester and Marilyn Sue Horn.

WAR MOTHERS TO MEET

All mothers of Unit 106, Mothers of World War II, are urged to be present at the meeting at the school house on Wednesday evening, June 12th, at 7:30.

The next district meeting will be held with us at Mentone on July 31. It will be an all day meeting and we will have to plan for it.

LOCAL NEWS

Sunday dinner guests of Mr. and Mrs. Ted Koch and family, and also Mrs. Nancy Martin of Rochester, were: Mr. Clifford Martin of Brockton, Montana, Mr. and Mrs. Dallas Martin and daughter Edith of Argos, Mr. and Mrs. Gerald Martin and family of Plymouth, Mr. and Mrs. Clifford Bolinger and daughter Darlene of Atwood. Clifford Martin and Dallas Martin are leaving for Brockton, Montana Wednesday.

Sunday morning Mrs. Lowell Dee Whetstone received a telegram from her husband, who has served with the navy ten months, that he has received another rating, which makes him Petty Officer, Third Class. He is stationed at Green Cove Springs, Fla.

Mr. and Mrs. Esca Jones and daughter Mary of St. Johns, Ohio, were weekend guests in the E. E. Jones home and attended services at Palestine on Sunday.

Mr. and Mrs. Saeman and daughter left Saturday for their home in New York.

Devon Davis of Tippecanoe, spent three days this week with his cousin, Lester Horn.

Allen Nelson is quite poorly this week again.

Mrs. Ronald Phillips and children attended the show in Warsaw Monday p. m.

Sandra and Betty Leedy spent several days last week with their grandmother, Mrs. Myrtle Davis.

Mr. and Mrs. Louis Igo and son, of Sparks, Nevada, are visiting relatives in that vicinity.

BOYS TO REPAIR DAMAGE

Three youths who appeared before Judge John A. Sloane Monday morning in connection with damage caused at the Syracuse cemetery May 16, drew fines and were directed to repair the damage. They were charged with upsetting tombstones.

**Annual Meeting of The First
Church of Christ, Scientist**

Until all responsible government heads are made to realize that the measure of a nation's true greatness is the spiritual stature of its people rather than its physical resources, there can be no end to the conflict between materially mental forces that precipitated World War II. The Christian Science Board of Directors told the Annual Meeting of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., January 3.

The time has come, the Directors affirmed, when representatives of all social and religious systems are being called upon to give something more convincing than promises, preachments, and paganistic pageantries to sustain the faith of their fellows, and to provide for a lasting peace.

If these systems are to survive, declared the official spokesman of the world-embracing Christian Science movement, they must "furnish proof that the ideals for which they stand can be made of practical use in advancing the cultural, economic and spiritual welfare of the race."

This statement from the Directors was given before thousands of Christian Scientists attending the first peacetime Annual meeting in five years, many of whom came from countries

long shut off from the world by war. They brought with them vital lessons from the troubled years just passed to emphasize the Directors' contention that "the supreme duty of churchmen and statesmen at this crucial hour is to use every means at their command to prevent another world conflict and to bind up the unhealed wounds left by the last one."

"This is no time for them to resort either to subterfuge or aggression as a means of extending the political influence of any church or state," the statement said.

Continuing on these lines, the directors insisted that "there is no room in the church for politics, and in a democratic system of government there is no room in politics for the church. There is, however, always room in politics for the moral sense of religion."

Applying that statement with equal force to national and international affairs, the directors added: "It makes little difference whether it be a conflict between political ideologies and religious dogmas or an open warfare between armed forces; the results are always stultifying."

"If those who are today engaged in the grave task of building a world government for the purpose of establishing permanent and universal peace on earth, fail to turn to God for guidance and fail to make spiritual integrity the very foundational stone in their struc-

tures, they will have labored in vain."

Awareness of the basic national need for divine guidance evoked a profound statement from Benjamin Franklin during the heated Constitutional Convention in Philadelphia, which the Directors cited as still apropos in today's problems. Quoting the familiar Scriptural passage, "Except the Lord build the house, they labour in vain that build it," Franklin added: "I firmly believe this; and I also believe that without His concurring aid we shall succeed in this political building no better than the builders of Babel; we shall be divided by our little, partial local interests. . . . And what is worse, mankind may hereafter from this unfortunate instance despair of establishing governments by human wisdom and leave it to chance, war and conquest."

In the present unsettled economic and political picture, the Christian Scientists' official governing body envisaged conditions fraught with the same evil consequences as in Franklin's day. And they assured the Annual Meeting that "it is just as true now as it was then that without God's guidance and the spiritual support of the church, no government, either national or international, can

successfully cope with these difficulties."

PLACE IN HORSE SHOWS

Janet Rose Reed, daughter of Mr. and Mrs. Robert Reed, won first place in the pony class at the Warsaw horse show Decoration day. She rode "Major."

Janet also placed fourth in the children's three-gaited class riding the same pony and was fifth in the Tennessee walking class riding Lynn Rose.

Jackie Blue, daughter of Mr. and Mrs. Phillip Blue, was third in the pony class, riding her pony, "Ginger."

Sunday the two young ladies rode in the show at Rochester with Janet winning first in the pony class on "Major." She rode in the western stock class but did not place. Jackie Blue rode "Roy," owned by Kathryn Burns, in the western pleasure class but failed to place.

**YOUTH FOR CHRIST
ANOTHER SUCCESS**

The Youth for Christ meeting Saturday in the First Baptist church was another successful meeting. The attendance dropped just below the 500 mark for the first time in several months but the meeting was greatly enjoyed by all. The next meeting will be July 6th at 8:00 p. m. A great Tri-County Y. F. C. banquet is being planned for 500 at the Winona Cafeteria at Winona Lake Saturday, Aug. 31 at 7:00 p. m. Tickets will be on sale Saturday.

ANIMAL HEALTH COLUMN...

By R. A. MARRIOTT

COCCIDIOSIS is the most important and destructive disease encountered in poultry flocks. It is widespread, causing enormous losses in chickens and is apparently becoming more important as a disease of turkeys.

Chickens 2 to 14 weeks of age and turkeys from the time they are three weeks old until they are half-grown should be watched closely for signs of coccidiosis. An abrupt drop in feed consumption generally occurs 24 hours before the appearance of noticeable symptoms of coccidiosis and intermittent feeding of **SULFAGUANIDINE** should be started immediately following such a drop. Prompt control of coccidiosis saves profits.

Modern Method of Controlling Coccidiosis.

CONTROL METHOD

The practical method for the control of coccidiosis is to maintain coccidial infections at a minimum level until natural resistance or immunity is established. This can be accomplished through good management and sanitation. Birds should not be crowded and all dampness in pens or ranges avoided.

However, when coccidiosis appears, fast action is called for. It has been found that prompt administration of **SULFAGUANIDINE** is an efficient way to insure rapid control of this disease. Death losses are cut and the number of stunted and weakened birds reduced. This means birds can be marketed at an earlier age with a saving of feed and other costs. In addition, when **SULFAGUANIDINE** is used, there is no need to change the litter, eliminating cost of new litter and labor required to change it.

SULFAGUANIDINE given in proper dosage in outbreaks of coccidiosis main-

tains coccidial infections at a minimum level—it prevents the development of severe coccidial infections in birds not yet infected with coccidia or in those only mildly infected, even though they continue to run on heavily contaminated premises—until natural resistance or immunity is established.

SULFAGUANIDINE will control all species of coccidia in poultry. Results are outstanding in the control of chronic or intestinal coccidiosis as well as bloody or cecal coccidiosis, even when birds are housed under crowded conditions.

SULFAGUANIDINE is safe to use. Extensive tests have proved that two to three times the recommended dose of this drug may be given chickens without producing toxic effects.

SULFAGUANIDINE is easy to give. It is simply mixed with the feed and fed for 3 or 4 days to control average outbreaks.

DOSAGE AND ADMINISTRATION

For full effectiveness, **SULFAGUANIDINE** should not be administered until birds show signs of coccidiosis. While **SULFAGUANIDINE** could be used strictly as a preventive of coccidiosis, such a method is expensive, since it requires the feeding of **SULFAGUANIDINE** throughout the period of susceptibility. Once feeding was stopped, birds might later develop coccidiosis, because there had been no opportunity for them to acquire immunity. Likewise, when **SULFAGUANIDINE** is fed continuously for 3 or 4 days to a flock where all birds have not had a chance to acquire a mild infection, a second outbreak of coccidiosis may occur. Experiments conducted at the University of Delaware, however, showed that the intermittent feeding of **SULFAGUANIDINE** holds the infection in check and at the same time permits chicks to pick up a natural infection between

feedings.

Cecal Coccidiosis (Bloody or Acute)—Intermittent Method: Three feedings of 1% **SULFAGUANIDINE**-mash mixture are given at 4-day intervals. When first loss from cecal coccidiosis occurs or symptoms are observed, feed 1% **SULFAGUANIDINE**-mash mixture the remainder of that day and all the following day, then use regular feed for 4 days. On the fifth day, feed the birds 1% **SULFAGUANIDINE**-mash. Again use regular feed for 4 days. Give the third one-day feeding of 1% **SULFAGUANIDINE**-mash on the tenth day following first treatment. However, should a sudden drop in feed consumption occur on the third day following either the first or second **SULFAGUANIDINE**-mash feeding, the mash should be fed on the fourth instead of the fifth day.

Continuous Method: When virtually all of the flock is showing noticeable symptoms of coccidiosis, the use of a ¼ to 1% **SULFAGUANIDINE**-mash mixture for 3 days is recommended.

Intestinal Coccidiosis (Chronic)—The flock should be started on intermittent feeding with 1% **SULFAGUANIDINE**-mash as soon as intestinal coccidiosis is diagnosed.

Withhold other feed on days **SULFAGUANIDINE**-mash mixture is fed, but give all of mash birds will eat.

Birds not eating readily may be individually treated with **SULFAGUANIDINE** tablets by giving a quarter of a 0.5 Gm. tablet of **SULFAGUANIDINE**

4 times a day. If tablets are not available, small amounts of the medicated mash be moistened and forcibly fed. Either of these treatments should be continued until birds will eat the medicated mash.

MENTONE MERCHANTS FORM ASSOCIATION

A representative group of Mentone business and professional men met at the town hall Thursday evening and completed the organization of the Mentone Merchants' Association.

The nominating committee announced the following list of candidates for the various offices and all were duly elected by all present. They are:

Chairman, Byron Peterson
Vice chairman, E. W. Igo
Secretary, R. L. Cooper
Treasurer, K. A. Riner
Directors, Leroy E. Cox, Ed Ward, George Clark, E. R. Shinn, Charles L. Manwaring

A membership committee was named as follows:

E. R. Shinn, R. L. Cooper, E. W. Igo and Ora McKinley

It was voted to hold regular meetings on the third Monday evening of the month and the first regular session will be at the town hall on June 17th. All business and professional men are urged to attend.

CESSPOOLS SEEM TO BE GOOD "RACKET" TARGETS

Quite frequently one hears of some man or crew of men, drifting through the country charging exorbitant prices to drain cesspools. Mentone was again visited by one such group recently and an attempt was made to charge \$90 for about three hours work.

Not all firms doing this work use extortion methods, but property owners should get a definite estimate of the cost before anyone ever starts pumping their cesspools. All of them can be rather easily measured as to cubic feet, etc.

STOP MASTITIS!
USE
VETICILLIN
PENICILLIN FOR LIVESTOCK

*Veticillin, veterinary penicillin, is here! It promises to save livestock from many diseases, including some that resist sulfa drug treatment. Already Veticillin is showing remarkable results in controlling Chronic and Acute Mastitis, without irritating udder tissues, lowering milk secretion or changing the looks of the milk.

Veticillin is not toxic.

MENTONE AMERICAN LEGION POST FORMED

Temporary Officers Elected in Forming
Veteran Organization Here
Thursday Night.

Don Ernsberger, veteran of World War I, was elected temporary commander of the new American Legion Post in Mentone at the organization meeting held Thursday night. Robert Reed was elected vice commander; Robert Kinsey, adjutant, and Miles Manwaring, finance officer.

The new post was formed with 39 charter members and 10 transfers, under the direction of Walter T. Spicer, Legion organizer from Indianapolis. Spicer was a marine and a veteran of the fall of Corregidor and the Bataan death march.

The coming week will be devoted to a membership drive, and all in attendance were requested to assist in the campaign. The next meeting will be held on Thursday, June 20th, at eight o'clock at the Mentone high school.

Professional Workers

Professional workers in independent practice earn on the average nearly four times as much as non-professional workers, according to the National Bureau of Economic Research. All professional workers, both salaried and independent, earn two to three times as much as non-professional workers.

Boomed Jenny

P. T. Barnum sponsored a song writing contest as publicity for the first American appearance of Jenny Lind.

Dog Days Named for Star

The period of summer known as dog days was named by the ancients as pertaining to the rising in the sky of the Dog Star, Sirius.

Discovered Coal

The discovery that coal could be used to produce high temperatures was first made by the Chinese in the sixth century.

Population Increases

The population of the earth increases approximately 20 million annually.

Milk Bath

Poppaea Sabina, wife of Nero, emperor of the Romans in 64 A. D., is reported to have paid a sum equal to four cents in American money per quart for asses' milk to bathe in.

News From Veterans' Field

By R. BEVINGTON

(The softball news and statistics is being supplied the Co-Op. News by Raymond Bevington and should be appreciated by every player and fan.—Ed.)

SOFTBALL LEAGUE PLAY

On Monday evening, the Veterans Stadium was officially inaugurated when Burket trounced Igo's Grocery 18 to 5 in the opener and the Mentone Lumber Co. squeezed by Pete's Lunch 13 to 14.

The games took much longer than was anticipated but the coming games will not be all night affairs with absolute starting of the games on time and the calling of games if the seven innings are not completed. The weather was exceedingly chilly but a record crowd turned out anyway. Cars were parked three deep behind the backstop and lined up almost to the foul markers in both left and right field.

Igo's Grocery vs. Burket.

Dave Jamison and Ora Vandermark served as the battery for Burket while Bob Heighway and Melvin Kern served for Igo's. Jamison's speed ball had the opponents baffled most of the game as he struck out 8 men, walked 3 and allowed 9 hits. Bob Heighway started the pitching for Igo's and in the three innings, he was holding his own. He struck out 1 man, allowed 2 hits and walked 2. In the 4th inning Vernon Meredith replaced him and immediately Burket began a blasting that removed him and Dale Tucker took over. Meredith allowed 7 runs, 5 hits and 2 walks while Tucker allowed 6 hits, 3 walks and 11 runs. Igo's committed a total of 13 errors against 4 for Burket.

Don Hoffman smacked the only homer of the game in the 6th inning.

Igo's 0 0 0 2 0 3 0—5 9 13
Burket 0 0 0 7 5 2 4—13 18 4

Mentone Lumber Co. vs. Pete's Lunch

Dave Bowser and Herschel Linn took the battery duty for the Lumber Co. while Frank Molebash and Carl Whetstone went the whole way for Pete's. Molebash allowed 12 hits, 5 walks, 14 runs and struck out 2 batters while Bowser allowed 13 hits, 8 walks, 13 runs and struck out 5 batters. The game started with heavy hitting by both sides. At the end of the first inning 12 runs had been scored and it looked for a minute like the official scorekeeper was going to need an adding machine and two toothpicks to prop his eyes open as the game progressed through the night. The game finally went into the last half of the last inning with the score tied at 13 and 13. Bowser hit a single to left field and advanced to second on a stolen base. Herschel Teel drove a hard liner into right field but an error was committed. The throw into second was wide and Bowser scored.

Lbr. Co. 8 1 0 2 2 0 1 14-12 7
Pete's 4 0 1 0 5 3 0 13-13 6

Highlights of the Games Monday Eve.

Pete McGowan blasting out two homers in four times at bat—Umpire Nelson's emphatic "Steeee rike"—players and spectators looking at their watches—grade children keeping warm by running on the shed tops—(Why didn't I think of that?) The excitement in the 7th inning when time was called to determine if Kern was really out as he ran in front of a man who was fielding the ball. How about it officials? What is the exact ruling?—Vandermark calling the man out in the catcher's position just as the ball is delivered.—Allan Shirey striking out in the 6th inning with the bases loaded—Jack Slabaugh popping up after a three ball and no strike count and ruining a 100% batting average—Lots of cars—Umpires trying to keep enough balls on hand with the large number of foul hits—Players on the bench crowded together to keep warm—Heaters running in cars for the same purpose—Good sportsmanship throughout the game with one exception of an incident at third base—Plenty of new faces—And best of all—no men who have been in service and who have come back to become a part of the community.

The recreational program is having a very definite part in helping the returning veteran forget some of his unpleasant experiences. It is helping him adjust himself to his community by substituting an enjoyable and pleasant atmosphere for unwanted memories. Let's give these boys our support in their league for the things they have done for us.

On Wednesday night the Co-Op's defeated the Stockyard by a score of 16 to 6 while the Lumber Co. overtook Igo's Grocery by a score of 14 to 10.

Co-Op. Vs Stockyards

Boganwright and Forest Dunnuck served as the pitchers for the stockyards with E. Long catching. Boganwright struck out 2 men, allowed 7 hits and 9 runs while his pitching partner struck out one man, allowed 6 hits and 7 runs. Glen Blue and Leon Whetstone formed the battery for the Co-Ops. Blue struck out 4 men, walked 4, allowed 8 hits and 6 runs.

Stockyards 3 0 0 2 0 0 1 6-8 11
Co-Ops 2 5 0 2 5 2 16-13 8

Igo's Grocery vs Lumber Company.

The Lumber Co. is showing that it is going to be one of the top contenders for honors in the league by continuing to win over a team that said "no" from the very start. Igo's scored first and held their one run margin for one inning, then in the second inning their opponents went on a scoring spree that netted them nine runs.

Again Igo's Pulled within a single run of their eventual masters but they were unable to close the gap. P. Horn took over the pitching duties and was relieved by Bowser of the Lumber Co. When he ran into difficulties in the fifth inning, Linn did a good catching job by improving on his errors of the previous game. Horn did not strike out any batters, walked 4 men, allowed 5 hits and 5 runs. Bowser struck out 3 men, walked 2, allowed 4 hits and 4 runs. Bob Heighway and M. Kern took the battery for the Igo Grocery. Heighway struck out 4 men, allowed 3 walks and 10 hits. Tucker replaced him in the last of the 6th allowing no hits and no runs.

Igo's 1 0 0 2 6 0 1 10-9 4
Lbr. Co. 1 9 1 0 4 0 14-10 4

Highlights of Wednesday's Games.

Games starting and ending on time—More cords of wood were sawed Wednesday night than Monday—Forst Dunnuck (an 8th grader) doing a fine job pitching against tough competition—Malcolm Long's two successive homers—Homers by M. Blue, G. Blue and L. Whetstone—All teammates—Looks like Pete McGowan is going to have some competitors—A riot that would have necessitated calling out the State Police was avoided because the score was 7 to 1 at the time the incident happened—It seems that several white collared gentlemen (I should have a quarter for that statement) were meandering around in left field when a hard hit ball by Parker passed among them and went for a home run. The left fielder dodged around them in an attempt to get the ball but to no avail—What happened out there anyway?

Did some of you fellows lose your watch? Long's spectacular one-handed throw on first on a bad throw—Richard Umme's determined expression as he comes to bat—I guess it paid dividends as he hit 3 for 4 and one being a homer. Homers by Linn and F. Neilans—Lots of cars again—Another good crowd—Girls and women yelling as loud as the men—Horns blowing on good plays and home runs—Balls bouncing from car tops—Fellows standing on the sidelines grunting as their favorite batter swings—Spectators peering through the wire netting.

Summer Recreation

Last Sunday the Akron team met the Mentone 7th 8th and 9th grade teams on the local diamond for the third time. Akron had brought along some added strength to make their team look impressive but the local lads sent them down to defeat 16 to 10. F. Vandermark started the mound duties for Mentone. He struck out 6 men, walked 6, allowed no hits and one run. Forrest Dunnuck took over in middle of the 3rd inning and struck out 11 batters, walked 8, allowed 6 hits and 5 runs.

LEAGUE BATTING AVERAGES

Time and space prevents printing the league batting averages in this issue. However, they will be printed from time to time.

Doub of Akron struck out 17 men, walked 14, allowed 6 hits and 10 runs. The Mentone Midgets (3, 4, 5, 6) second team trounced the Akron team for the second time by an impressive 23 to 17 score. Little Bob Holloway struck out 7 batters, allowed 14 hits while walking 4 while his pitching opponent struck out 16, walked 9 and allowed 17 hits.

FAMINE CAUSE OF REVOLTS, BUT NOT AT TIME OF HUNGER

Julian Bentley, WLS news editor, says in the current issue of *Prairie Farmer*, that world famines have been common since history has been recorded, but that the present one is the worst yet.

One of the worst of all was the "skull famine" in India from 1790 to 1792, called that because people died from hunger faster than they could be buried.

A remarkable thing about past famines, Bentley says, is that they have not caused revolts against governments in power at the time of the hunger. But, he says, people are better instructed now and realize that the distribution system, controlled by governments, is the major cause of famine. Hence, revolt is possible and the United States' efforts to feed starving peoples is needed to keep peace in the world.

Mrs. U. R. Oldfather and son Ruskin of Elkhart, spent Decoration Day with her mother, Mrs. E. E. Jones, and husband.

NAMED TO WELFARE BOARD

Mrs. Miles (Mary) Manwaring, has been appointed to a four-year term as member of the county welfare board, succeeding Mrs. Mrs. Yolande Riner, Mentone, who was not a candidate for reappointment when her term expired June 1. Mrs. Manwaring's term will continue until June 1, 1950.

EARL SHIREY, JR., HURT BY BLAST

Earl Shirey, Jr., 13, son of Mr. and Mrs. Earl Shirey, northwest of Palestine, was recovering at the Murphy medical center Monday from a dynamite cap blast Sunday which necessitated amputation of parts of the thumb and two fingers on his left hand.

Shirey's father had used dynamite on his farm a number of years ago and placed the remaining caps in a kettle high up in the barn, warning the boys not to bother them.

One of these caps was exploded by young Shirey in a grove on a neighboring farm owned by Raymond Ross. A brother of the youth, who was in the Shirey barn when the blast occurred, said the report sounded like a shotgun.

Ross, the neighbor, attracted by the noise, found the injured youth, took him home in his automobile and then drove him to the medical center.

From the shattered and pitted left hand, Dr. G. H. Schlemmer removed

the first joint of the thumb and a joint and a half of the next two fingers. The heel of the hand was badly speckled as was the left thigh.

Honorable Discharge

PUBLISHED EVERY WEDNESDAY BY THE NORTHERN INDIANA CO-OPERATIVE ASS'N. OFFICE OF PUBLICATION, WEST MAIN STREET, MENTONE, INDIANA
Entered as second-class matter November 18, 1936, at the post office at Mentone, Indiana, under the Act of March 3, 1879

Volume 15, Number 52

Mentone, Ind., June 12, 1946

Subscription—\$1.50 Per Year

LIGHTNING BURNS BARN

Lightning caused the destruction of a large barn on the Earl Blue farm, which is farmed by Mrs. Blue's brother, Floyd Tucker, three miles south and one mile west of Mentone, about nine o'clock Tuesday night.

Flames from the bolt of lightning quickly spread through the hay-filled structure and Mentone firemen were unable to check them. Barn and contents were totally destroyed.

Included in the loss was about 1000 bushels of corn, 2000 bales of hay and quite a bit of machinery. A good share of the loss was covered by insurance.

W. S. C. S. ENTERTAINED BY MRS. ROY SALMAN

The Woman's Society of Christian Service met at the home of Mrs. Roy Salman Friday evening, June 7.

The meeting was opened by singing the hymn, "Jesus Calls Us". Rev. Simmons led in prayer, the business meeting was conducted by the president, Mrs. Stella Emmons. The secretary's report was given by the secretary, Mrs. Orpha Blue.

Mrs. Ethel Wagned reported they took in \$57 from the dinner served to the trustees.

Devotions were led by Mrs. Bess Manwaring, her subject being, "Perfect Peace Through Personal Evangelism." The song, "Sweet Peace the Gift of God's Love" was then sung.

Mrs. Raymond Lash gave the lesson for the evening, her subject being, "Evangelism, the Strategy of Peace."

Mrs. Mary Goodwin gave a talk on "Crusade for Evangelism Begins in the Home."

Rev. Simmons gave a talk on "Crusade for Evangelism Extends Through the World."

Echoes from one of our own magazines was given by Mrs. Howard Kohr.

Refreshments of cake and ice cream were served by the committee who were: Ethel Snider, Pauline Riner, Beryl Jefferies, Myrtle Whetstone and Georgia Nellans.

There were twenty-eight members present.

TERMS OF SALE SET

Circuit Court Judge John A. Sloane has set the terms for a real estate sale by Abraham Wertenberger, Warsaw, administrator with will annexed in the estate of Mary Tucker, requiring payment of at least one-third cash down and the balance in equal installments at nine and 18 months from the date of sale. Three lots are involved, all approximately two blocks north of state highway 25 in Mentone. Two are located on the west side of Broadway street and one lies across the alley west from the two—on the east side of Tucker street. The total value is set at \$5,000. The Tucker will made provision for the sale. The administrator has filed an inventory valuing personal property at \$13,155.36.

EVANGELIST RE-VISITS MENTONE, ANNOUNCES CONFERENCE

Rev. and Mrs. George T. Stephens, of Wilmington, Delaware, were in Mentone Tuesday afternoon. Mrs. Stephens was the former Dessie May Sellers, whose father owned a drug store in Mentone. Rev. Stephens, who held evangelistic services in a tabernacle at Mentone thirty years ago, announces the Second Annual Sword of the Lord Conference on Evangelism at Winona Lake Conference grounds, on July 7-14, 1946. The conference is sponsored by The Sword of the Lord, an evangelistic weekly.

Rev. Stephens will speak Sunday, July 14. He extends his best wishes to all his old friends of Mentone and vicinity.

ATTEND CONVENTION

Mrs. T. J. Clutter, of Mentone, president of the county organization of federated clubs, and Mrs. Royse Clover, of Piercetown, have returned to their homes after attending a recent state convention held at French Lick. During election of officers, Mrs. George Baum, of Akron, was advanced to first vice-presidency of the organization.

DOCTOR OF LAW

Hobart Creighton, of Warsaw, nationally known egg producer and speaker of the house of representatives, now may be addressed, "Doctor of Law". This degree was conferred upon him Wednesday by his Alma mater, Indiana Central college, at Indianapolis.

FIRE AT TALMA

Residents of Talma were apprehensive Thursday noon as their town appeared doomed to burn from a fire that started in an empty building owned by Charles Green.

The fire was started when the Green building, vacant except for 100 drums of oil and some rolls of roofing, caught fire Thursday from sparks from a brush fire which had been started to dispose of the rubbish.

The oil drums exploded and shingles from the roof of the building flew into the air and alighted on other roofs causing small fires in various spots of the town.

The building, which at one time was a school house and later remodeled into a house, was to be torn down Monday by Mr. Green in order that the materials from it could be used in a service station that he is erecting. His son was aiding him in cleaning off the ground when the fire started.

The Rochester and Mentone fire departments were summoned and they kept surrounding homes and stores from being damaged to any great extent. Both fire companies fought the fire for over two hours. The Green building burned to the ground, causing approximately \$2,000 damage. No casualties were reported.

—Lavoy Montgomery, Newcastle twp. reporter

NEWCASTLE TWP. HOME EC.

The Better Homes Economic Club of Newcastle Township met Thursday afternoon at the home of the Misses Fern and Ruth Petry. The Country Neighbors club were guests. There were thirty-eight members, guests and children present. The program consisted of a moving picture put on by Armour Company, a moving picture taken of the group, and contests.

Mrs. Mary Leininger, Mrs. Don Nichols and Mrs. Gaston Coplen assisted the hostesses in serving refreshments.

TO GIVE RECITAL

Mrs. Maude Snyder will present her music students in a recital in the Methodist Church Friday evening, June 21 at 8 o'clock. The public is invited.

★ Save Money—Buy Cooperatively.

ALUMNI BANQUET POSTPONED UNTIL NEXT YEAR.

Due to the shortage of food and the fact that it is getting quite warm for such a large gathering, it was considered best not to try and hold the alumni banquet any more this year. The Banquet had recently been postponed indefinitely because of the power shortage.

The interest shown, however, warrants an organization of this kind at Mentone, and all concerned are planning on a banquet next spring immediately after school is out.

O. E. S. TO MEET

The next regular meeting of the Order of Eastern Star will be June 17. There is to be a pot luck dinner at 6:30 served by the Star members to their husbands. Please come, bring some food and your husband.

ENTERTAINS PSI IOTA XI

The Psi Iota Xi sorority met at the home of Mrs. Earl Anderson Thursday evening for the regular business meeting. It was voted to sponsor a local boy for the speech and hearing clinic at Indiana University.

The door prize was won by Mrs. Lyman Mollenhour. There were sixteen members present. They were: Miss Genevieve Kraatz, Mesdames Delford Nelson, Max Nellans, Wayne Nellans, Howard Shoemaker, Curtis Riner, Ralph Ward, Mott Bryan, Harold Utter, Lyman Mollenhour, Ralph Dwyer, Glen Weatherbee, T. J. Clutter, Ralph Mollenhour, Earl Anderson and Mrs. Lucille Whetstone.

The next meeting will be at the home of Mrs. Max Nellans.

MRS. O. T. MARTIN ILL

Mrs. O. T. Martin, wife of Rev. Otis T. Martin, now of 817 East Washington street, Greencastle, who formerly resided in this city, is critically ill due to spinal meningitis.

Rev. Martin was pastor of the Mentone Methodist church for several years and also district superintendent of the Warsaw District of the Methodist Church for several years.

Ira Thomas Hatfield, of Northeast, Pennsylvania, is spending his vacation with his grandparents, Mr. and Mrs. Ira Borton.

THE NORTHERN INDIANA CO-OP. NEWS

LESPEDEZA HAY EXCELS

AS FEED FOR STEERS

Lespedeza hay was found in a feeding test at Purdue University the last five months to be more valuable for promoting growth and fattening in yearling steers than mixed red clover-timothy hay. The steers receiving lespedeza hay as the principal dry roughage in a fattening ration made 19 pounds more gain per head for a feeding period of 154 days than those getting the clover-timothy roughage. "This difference in gain was significant and indicated that the extra quality and particularly protein of the lespedeza hay stimulated more rapid and efficient growth," said Dr. W. M. Beeson and P. T. Brown, Department of Animal Husbandry, who are in charge of this research work. In this comparison, both lots of steers received a daily ration of approximately 14.5 pounds of corn and cobmeal, seven pounds of the experimental hays, 8.25 pounds of corn silage with free-access to bone-meal and salt. It should be pointed out that no protein supplement was fed because it was thought that if there was any advantage in lespedeza hay it would probably be in the extra protein that was supplied by this roughage. The steers receiving the clover-timothy

hay made a net profit of \$14.65 per steer while the group fed on lespedeza hay made a larger profit, \$18.45 per steer. Most of this increase in profit was due to the extra weight of the steers at the time of marketing because the groups were appraised in the end of the experiment at a value of \$16.70 and \$16.75 per 100 pounds for the clover-timothy and lespedeza hay groups, respectively. The dressing percentage between the two groups was not significantly different. The values were respectively, 59.53 percent and 60.14 percent. Although there was one more choice carcass in the lespedeza lot, this cannot be attributed to the difference in the rations because the variations between the carcass grades could not be shown to be significant. This suggests that the extra gain on the steers receiving lespedeza hay was primarily in the growth of muscle and bone tissue.

Sugar Act

The Sugar act requires, among other conditions of payment to growers, that all persons employed on a farm in the production, cultivation or harvesting of sugarcane be paid in full by growers at rates not less than those determined to be fair and reasonable by the secretary of agriculture, after public hearing and investigation. The determination also provides that the producer must furnish to the laborers without charge the accessories customarily supplied by him, such as a habitable house, garden plot with facilities for cultivation, pasture for livestock and medical attention. The wage rates in the determination are given in the release.

LEO LINN—RESCUE HERO

James Bishop, 13, of 1702-C W. Louisiana st., was fishing on the creek bank nearby about 8:30 a. m. He told police he saw the man start across the bridge. He noticed him next just a split second before his body struck the water.

Jimmy ran to the top of the bank and saw Thomas Smith, 17, of 1802-F W. Louisiana st. He told him a man had fallen into the creek and Smith ran two blocks to 1026 D in Parkholm and got Leo Linn, 28, a sailor, released from the Navy last October.

Linn ran to the creek and plunged in. He pulled the man to the bank and started giving artificial respiration.

Police arrived about 8:45 a. m. They moved the body to the top of the bank and began to use a resuscitator. The effort continued for 25 minutes before it was decided it was useless.

Police praised Linn's courage in diving into the rain-swollen, swift-flowing creek.

He's a real hero," Sergt. Sam Patterson commented.

Linn said, "the man was still struggling when I got to him. Then he suddenly went limp.

"I grabbed him by the shirt collar and towed him in."

He learned the trick of water rescues and artificial respiration while in the Navy. As a member of the Armed guard gun crew on the S. S. John Gibson he made three trips to Russia through Arctic waters.

The ex-sailor had been working at Chrysler until yesterday when he was laid-off.

—Condensed from the Evansville Press.

MENTONE HOME EC MEETS

Mrs. Frank Warren was hostess to the Home Ec Club Thursday, June 13 and was assisted by Mrs. Linus Borton. The president, Mrs. Frank Warren, opened the meeting after which the lesson on "Why do we study child

care" was presented by the leader, Mrs. Earl Smith.

History of the song of the month was read by Mrs. William Vernet.

Eighteen members responded to roll call by telling where each would like to go for a trip.

Auction sale of three articles was conducted by Mrs. Linus Borton; the articles being purchased by Mrs. Jacob Gross, Mrs. Silas Hill and Mrs. Roy Salman. Mrs. George Mollenhour had charge of a guessing contest with Mrs. John Laird and Mrs. Elvie Jones as winners.

A birthday gift was delivered to Mrs. Raymond Weirick. Each was urged to remember and attend the county picnic at the Warsaw Fair Grounds on June 27.

—Club reporter

Paint Radiators

Painting of radiators to match wall or woodwork not only makes an attractive room, but also adds to radiation of heat if the color is light, according to the bureau of standards. To clean radiators for painting, use turpentine, followed by steel wool to remove dust or flakes of stubborn old paint. Use flat paints on steam radiators, as it is the least likely to peel due to the high temperatures.

School Sanitation

Wash basins did not become part of standard school equipment until the early part of the 19th century, when they were introduced through the efforts of a school teacher, William Andrus Alcott.

SURPRISE MRS. CUNNINGHAM

Several ladies, from the Friendship Class of the Methodist church school spent a very pleasant two hours with the Cunninghams last Sunday afternoon. The occasion was a birthday surprise. Greeting cards, gifts and a beautiful basket of flowers, presented by the school, were graciously received. Her daughter, Mrs. Ray Rush served delicious refreshments. Mrs. Cunningham is 85 years of age, is in good health and an exceptional conversationalist. The callers were: the Mesdames Clark, Shinn, Rynearson,

Kinsey, Ringgenberg, Burket and Mr. Curt Nellans.

The affair was at the Ray Rush Home.

SIXTH GRADERS MEET

A group of sixth grade pupils met at the ball field Friday, June 7th. They had a very enjoyable time playing baseball. The next meeting will be July 5th and all sixth graders are urged to come.

Mr. and Mrs. Frank Francis spent the week end in Indianapolis.

Monday Games

(Pete's Lunch 11—Igo's Grocery 9)

(Burket 13—Co-Op. 9)

Pete's Lunch vs Igo's Grocery

Both teams played on fairly even terms up to the third inning. In the 4th, Igo's started a rally that tallied 5 runs and gave them a 3 run margin. Time was drawing to a close. Pete's Lunch then started a blasting attack in the fifth that netted them 5 runs and gave them a 2 run margin. The games are called after time has expired. Kern bated first for Igo's, hitting a single to left field. Two minutes had elapsed. Heighway hit a hard smash to shortstop position. On a beautiful double play—Pete McGowan to Shirey to Whetstone. Kern and Heighway were both retired to save precious time. Hoffman and Tucker were walked and Kuhn came to bat. Both sides were tense and shouting both encouragement and discouragement to teammates and opponents. With 40 seconds to go, Kuhn grounded out and the sides were retired. Molebash, the winning pitcher, struck out 4, walked 8, allowed 7 hits while his teammate, Hilschman, committed 4 errors. Tucker failed to strike a batter out, walked 2, allowed 9 hits and his teammates committed 6 errors.

Igo's 0 2 2 5 0 - 9-7 6
Pete's Lunch 2 1 2 1 5 - 11-9 4

Burket vs Co-Op

Burket took command from the beginning with Jamison striking out 12 batters, walking 1 and allowing 6 hits with 7 errors being committed. G. Blue struck out 5 batters, walked 3 and allowed 10 hits while 8 costly errors were committed. The errors came at times that were very costly on the run ledger. McSherry and Jamison each connected for homers for Burket while G. Blue, M. Blue and L. Whetstone each blasted one for the Co-Op.

Burket 3 0 4 3 3 0 - 13-10 7
Co-Op 0 0 0 5 1 3 - 9-6 8

Highlights of Monday Night

People enjoying the new bleachers—Vandermark committing his first error—more new faces—more enthusiasm—D. Hoffman bating out the first homer—K. Drudge, his teammate, cracking out two more—children rattling the wire screening—dust flying on close plays at the bases—good officiating—fine determination by G. Blue when pitching, with errors falling here and there like rain—back slapping and genuine enthusiasm as rallies were started when Whetstone, G. Blue and M. Blue each got homers—fans running to the score bench for the official tabulation or sending some child for that purpose—good natured razzing by team players—Pete McGowan up with sumo up in post sq supruys least 7 others—closer games.

As time goes on, the coming league games will provide greater entertain-

ment for the fans. As more games are played, the players will become more versatile and better games will result. The new rectangular scoreboard is now all complete but painting numbers on the metal plates for scoring. It is a very attractive scoreborad as the colors of green and white stand out vividly in the dark depths of center field. Last but not least is the loud speaker system that will be installed. Fans and players will enjoy this as they will be informed of the batters, umpires, individual records of batters as they come to the plate and many other things of interest. Recorded music will be played during lulls to break the monotony. We hope you will enjoy it.

A comment concerning the rules: It is natural for both fans and players to think they are right and to voice their opinion very emphatically on some decisions concerning the rules of the game of softball. I assume the reason for this to be (when the person is wrong) the failure to know the rules because he has not the rules and know them. If this were the case it would ten dto keep every player on his toes at all times and discourage players from getting breaks by taking advantage of the technic-read them or because he bases his decision on baseball rules. In many situations in softball, the decision is exactly opposite of the ruling in baseball. It should be the duty of every manager, umpire and player to read callities of the rules. Judgement of a rule is definitely something else and criticism and arguments from this kind of an opinion often adds excitement, interest and enthusiasm to a game. For example: If your favorite player is called out at first in his attempt to beat out a hit, go ahead and "squawk" or tell the ump he is "crazy". It won't make any difference anyway as his decision os final and his judgment is law. However, don't be over-enthusiastic and throw a pop bottle at him as that strictly "ain't" cricket. If, however, the umpire rules a hit when a batter steps out of his box to hit a slow pitched ball intended to walk the batter, then you have a just cause to protest the decision as it is in the rules that in such a case the batter is out.

In a softball game did you know that:—

1. There are 31 divisions of the rules governing the game;
2. A player isn't always entitled to a base when hit by a pitched ball.
3. There is nothing in the regular rules about a balk.
4. A pitcher can't wet his fingers prior to pitching.
5. A player is out on his third strike even though the catcher drops the ball providing there are no

outs (or one out and a runner is on first.

6. Nothing is said in the rules about "a sidearm pitch".
7. A batter gets his base and all runners are entitled to one base if while the pitcher is on the mound and facing the batter, he drops the ball or bounces it.
8. A pitcher can't take more than 20 seconds to deliver the ball.
9. A team shall forfeit its game if an umpire orders the removal of a player and that player doesn't leave within one minute.
10. A substitute must report to the umpire.

The printing of the softball batting statistics will not appear every week because of the time necessary to set the type. Any player wishing to know his playing statistics may contact me any 24 hours after the last game has been played.

This coming Friday night, the Lions League, ackiwt ofwe(Club Allstars will meet the strong Schrader's Team from Warsaw. This team last year won the Warsaw City League. The local Allstars are chosen by the umpires and yours truly (I failed to get my voice in on this selection) from the players in the Mentone league. The players representing the Lions Allstars are not permanent positions. The playing record of individuals in league games will determine the squad for each Allstar game and unless the player can produce results in his coveted position, he will be replaced by one with a better record. At the present time not enough games have been played to single down the best players and at this writing I am of the opinion that I could choose from the players that are left a team that could defeat the one that will be started Friday night. However, after 5 or 6 league games for each player, the ability distribution will begin to show and the official record will carry more weight in determining members on the All Star Team.

Batting Statistics for Teams to Friday, June 7.

Summer Recreation Program

The Mentone Midgets continued their winning streak Wednesday afternoon by downing a stubborn Warsaw Cub Scout Team 21 to 17. Several of the Mentone boys that have been playing regularly with the team were unable to play. Johnny Davis was the winning pitcher although Bob Vandermark relieved him in the 8th. Donnie Butt hammered out two home runs to score valuable runs when the Midgets were behind. Several boys lost out on their good batting percentage because they failed to get set when the pitcher was ready to deliver the ball. How about it boys?

M M 5 2 1 3 3 2 1 0 4 - 21-18 - 9
W C 3 1 4 0 5 0 1 0 3 - 17-11 - 14

On Tuesday, June 12, the first team of the Mentone Midgets will go to Warsaw to return this game. Let's win that one too, boys. On Friday, June 21, the Mentone Cubs will play the preliminary for the Allstar game that will be played at veterans field. Their opponents for that night will more than likely be the Glead Rangers. This will give many of you fans an opportunity to see these young boys play for the first time, so come out and see how seriously these boys take their softball.

Uncle Sam Says

Atom bombs will soon be exploding over the Pacific Ocean in a naval operation to assure your security. At first glance, there seems little connection between atom bombs bursting over a fleet of ships and your continued investment in United States Savings Bonds. Think a moment, friend. Allotment of a portion of your current income for savings bonds is also an operation to assure family security.

U. S. Treasury Department

Foul Brood

Entomologists from the Connecticut experiment station report that sulphathiazole mixed in sugar water cured foul brood in colonies of bees. Analysis of the honey made by the bees showed a trace of the drug present.

Prevent Spread of Bean Diseases to Save Crops

Blight and anthracnose can be destructive to beans in the garden, causing such severe spotting of the pods as to render the crop worthless. Both thrive in rainy, humid weather. The organisms causing these diseases are carried within the seeds, and cannot be controlled by chemical seed treatments.

Young plants grown from affected seed often show black or brown sunken spots on the cotyledons, or halves of the bean that come up, or on the stem where the first true leaves appear. A white, yellow, or pinkish, sticky ooze may appear on these spots. This contains the disease organisms.

Later, anthracnose can be recognized by blackened dead veins on the underside of the leaves. Blight may show as irregular brownish splotches on leaves, sometimes with yellow or reddish margins.

To control the diseases, prevent spread of the organisms from diseased to healthy plants by wind-driven rain, splashing water, insects, man and other animals. From the time the first leaves appear, plants which exhibit the described symptoms or whose cotyledons and young leaves are misshapen and stunted, should be destroyed. Two or three early-diseased bean plants left in a garden can result in total loss of the crop.

Specialists Prosper

In both medicine and dentistry, specialists receive a considerably larger average income than general practitioners. In consulting engineering, certified public accountancy, and law, firm members receive a larger average income than persons practicing as individuals.

Suggests Increasing Poultry Feed Before Hot Weather

If your layers have produced heavily during the winter, it's Leslie Black's guess that they're lacking in body weight in the spring. And Black, who is extension poultryman at Rutgers university, says that to produce at their maximum in months to come, laying hens should be encouraged to eat a little more before hot weather comes and appetites wane.

"Perhaps this can be brought about merely by increasing the daily scratch grain feeding," he says. "On the other hand, it may mean a small amount of moist mash, preferably at mid-day. Don't overdo moist mash feeding, however, as overfeeding usually results in decreased daily feed consumption. Three to five pounds per 100 birds daily is about right."

"When moist mash is fed, it should contain extra vitamin-rich feeding oil, at the rate of one quart per 1,000 birds daily. If moist mash is not fed, the oil can be mixed with scratch feed, a quart to 25 to 30 pounds of grain. Place this on top of the mash hoppers just prior to the regular night grain feeding."

"With the reappearance of green grass, it will also pay to start clipping greens for the layers," Black reminds poultrymen. "Three to five pounds of fresh clippings per 100 birds daily will prove a welcome addition to the ration and will supply needed vitamins and minerals."

Cooking Fish

Cook fish gently and cook only until tender in order to preserve delicate flavor. Test with a toothpick.

State Department

Before 1924 there was no foreign service of the United States as such; there were distinct and separate diplomatic and consular services. Since that date the two are combined with the personnel sometimes assigned to one branch and sometimes to the other. Classified foreign service officers, exclusive of chiefs of missions, ambassadors and ministers, normally number in excess of 700, and hold both diplomatic and consular commissions.

Personnel for the classified foreign service is selected after passing a three days written examination. This is followed by an oral examination. In one normal year 737 took the written examination, 105 survived to take the oral test, and 33 were eventually placed on the eligible list.

China Leads Tung Oil Output

China is the chief source of tung nuts, which is extracted from tung nuts.

By R. BEVINGTON

Monday Games

(Pete's Lunch 11-Igo's Grocery 9)

(Burket 13—Co-Op. 9)

Pete's Lunch vs Igo's Grocery

Both teams played on fairly even terms up to the third inning. In the 4th, Igo's started a rally that tallied 5 runs and gave them a 3 run margin. Time was drawing to a close. Pete's Lunch then started a blasting attack in the fifth that netted them 5 runs and gave them a 2 run margin. The games are called after time has expired. Kern bated first for Igo's, hitting a single to left field. Two minutes had elapsed. Heighway hit a hard smash to shortstop position. On a beautiful double play—Pete McGowan to Shirey to Whetstone. Kern and Heighway were both retired to save precious time. Hoffman and Tucker were walked and Kuhn came to bat. Both sides were tense and shouting both encouragement and discouragement to teammates and opponents. With 40 seconds to go, Kuhn grounded out and the sides were retired. Molebash, the winning pitcher, struck out 4, walked 8, allowed 7 hits while his teammate, Hirschman, committed 4 errors. Tucker failed to strike a batter out, walked 2, allowed 9 hits and his teammates committed 6 errors.

Igo's 0 2 2 5 0-9-7 6

Pete's Lunch 2 1 2 1 5-11-9 4

Burket vs Co-Op

Burket took command from the beginning with Jamison striking out 12 batters, walking 1 and allowing 6 hits with 7 errors being committed. G. Blue struck out 5 batters, walked 3 and allowed 10 hits while 8 costly errors were committed. The errors came at times that were very costly on the run ledger. McSherry and Jamison each connected for homers for Burket while G. Blue, M. Blue and L. Whetstone each blasted one for the Co-Ops.

Burket 3 0 4 3 3-0-13-10 7

Co-Op 0 0 0 5 1-3-9-6 8

Highlights of Monday Night

People enjoying the new bleachers—Vandermark committing his first error—more new faces—more enthusiasm—D Hoffman banging out the first homer—K Drudge, his teammate, cracking out two more—children rattling the wire screening—dust flying on close plays at the bases—good officiating—fine determination by G. Blue when pitching, with errors falling here and there like rain—back slapping and genuine enthusiasm as rallies were started when Whetstone, G. Blue and M. Blue each got homers—fans running to the score bench for the official tabulation or sending some child for that purpose—good natured razzing by team players—Pete McGowan is quite sure about it, but says surprise least 7 others—closer games.

As time goes on, the coming league games will provide greater entertain-

ment for the fans. As more games are played, the players will become more versatile and better games will result. The new rectangular scoreboard is now all complete but painting numbers on the metal plates for scoring. It is a very attractive scoreboard as the colors of green and white stand out vividly in the dark depths of center field. Last but not least is the loud speaker system that will be installed. Fans and players will enjoy this as they will be informed of the batters, umpires, individual records of batters as they come to the plate and many other things of interest. Recorded music will be played during lulls to break the monotony. We hope you will enjoy it.

A comment concerning the rules: It is natural for both fans and players to think they are right and to voice their opinion very emphatically on some decisions concerning the rules of the game of softball. I assume the reason for this to be (when the person is wrong) the failure to know the rules because he has not the rules and know them. If this were the case it would tend to keep every player on his toes at all times and discourage players from getting breaks by taking advantage of the technicalities of the rules. In many situations in softball, the decision is exactly opposite of the ruling in baseball. It should be the duty of every manager, umpire and player to read the rules. Judgement of a rule is definitely something else and criticism and arguments from this kind of an opinion often adds excitement, interest and enthusiasm to a game. For example: If your favorite player is called out at first in his attempt to beat out a hit, go ahead and "squawk" or tell the ump he is "crazy" it won't make any difference anyway as his decision is final and his judgement is law. However, don't be over-enthusiastic and throw a pop bottle at him as that strictly "ain't" cricket. If, however, the umpire rules a hit when a batter steps out of his box to hit a slow pitched ball intended to walk the batter, then you have a just cause to protest the decision as it is in the rules that in such a case the batter is out.

In a softball game did you know that:—

1. There are 31 divisions of the rules governing the game;
2. A player isn't always entitled to a base when hit by a pitched ball.
3. There is nothing in the regular rules about a balk.
4. A pitcher can't wet his fingers prior to pitching.
5. A player is out on his third strike even though the catcher drops the ball providing there are no

outs (or one out and a runner is on first.

6. Nothing is said in the rules about "a sidearm pitch".

7. A batter gets his base and all runners are entitled to one base if while the pitcher is on the mound and facing the batter, he drops the ball or bounces it.

8. A pitcher can't take more than 20 seconds to deliver the ball.

9. A team shall forfeit its game if an umpire orders the removal of a player and that player doesn't leave within one minute.

10. A substitute must report to the umpire.

The printing of the softball batting statistics will not appear every week because of the time necessary to set the type. Any player wishing to know his playing statistics may contact me any 24 hours after the last game has been played.

This coming Friday night, the Lions League, ackiwt ofwe(Club Allstars will meet the strong Schrader's Team from Warsaw. This team last year won the Warsaw City League. The local Allstars are chosen by the umpires and yours truly (I failed to get my voice in on this selection) from the players in the Mentone league. The players representing the Lions Allstars are not permanent positions. The playing record of individuals in league games will determine the squad for each Allstar game and unless the player can produce results in his coveted position, he will be replaced by one with a better record. At the present time not enough games have been played to single down the best players and at this writing I am of the opinion that I could choose from the players that are left a team that could defeat the one that will be started Friday night. However, after 5 or 6 league games for each player, the ability distribution will begin to show and the official record will carry more weight in determining members on the All Star Team.

Statistics for Teams to Friday, June 7.

Transplanted Vegetables

For hill-grown and transplanted vegetables, mix thoroughly a level tablespoonful of plant food with the soil in the hill before planting. When transplanting, mix one tablespoonful of plant food with soil in bottom of hole, add one inch of soil, and proceed to set out plant. It is well to leave a depression of about one inch around the plant. Fill with water immediately after planting to help settle the soil around the plant's roots as well as to make the plant food available quickly for the plant's use.

ANIMAL HEALTH COLUMN ...

By R. A. MARRIOTT

VETICILLIN

The pioneer work which showed the great clinical value of penicillin was carried out almost entirely in the field of human medicine. The scarcity of the new drug led to it being earmarked for human use. Penicillin was not made available for experimental veterinary use until November, 1944. Even in the short time which has since elapsed, it has become obvious that penicillin has a brilliant future in the field of veterinary medicine. Veticeillin (Sodium salt of penicillin) Lederle will open the field. Veticeillin is immediately soluble in water. It is not injurious to animals and is relatively non-irritating. The effectiveness of veticeillin is not lessened by the presence of puss, milk, blood or other body fluids. This is of special importance in the treatment of mastitis. Pus contains para-amino-benzoyl-acid and other substances which tend to inhibit the action of sulfonamides, but which have no effect on Veticeillin. Veticeillin can be administered in several ways. It can be given intravenously, intramuscularly or subcutaneously, or it may be injected into regions of local infections or into any of the body cavities, or it may be applied locally.

Veticeillin is the best form of treatment for mastitis. Many other forms of treatment have been previously used with indifferent success for this disease. Mastitis means inflammation of the udder from any cause. Acute mastitis (maggot) is so common that it is known to every dairyman. One or more quarters of the udder become reddened, inflamed, tender and swollen. The milk flow is reduced and the milk contains blood and other secretions. Chronic mastitis is very common. Because it is not easily detected, it is far more common than is realized. Chronic mastitis reduces the milk production, and is always apt to "flare up" into the acute form. Mastitis is caused by a bacterial infection of the udder. One of the common infective organisms is *Streptococcus agalactiae*. *Staphylococci* may also cause mastitis. As mastitis progresses, the udder tissue is damaged and loses its ability to secrete milk. Penicillin is highly effective against both streptococci and staphylococci, and is especially destructive of streptococcus agalactiae. Before the advent of penicillin, it was stated by the United States Department of Agriculture that "curative measures are not entirely effective." It has recently been found that veticeillin will clear up mastitis cases even when other measures, such as injections of sulfanilamide in oil have failed. Furthermore, veticeillin is so harmless to the delicate udder tissue that full production of milk quickly returns when mastitis is treated with veticeillin.

Mastitis is treated with Veticeillin as follows: Immediately after milking, veticeillin solution is injected into the infected quarter through the teat canal by means of a sterilized hypodermic syringe and teat tube or canula. The teat and teat opening should first be washed and Duatok Sulfathiazol ointment applied to teat opening. The teat tube should be lubricated with Duatok ointment, and great care should be used to avoid injury when it is inserted. 30 to 50 cc. of Veticeillin solution, 400 units per cc., is then slowly and carefully injected into the udder. The injection should be repeated after five successive milkings.

Veticeillin is especially effective in treating infections of the urinary tract, because it tends to be concentrated in the urine. Local infections such as abscesses and ear infections may be treated with veticeillin.

Veticeillin is packaged in vials containing 100,000 Oxford Units in the form of a dried powder. Also available separately is a vial containing 250 cc. of Sterile Saline Solution for making solutions of veticeillin. To make a sterile solution containing 400 units of veticeillin per cc., proceed as follows:

- (1) Tear the aluminum cap from the veticeillin vial.
- (2) Using a sterile needle and syringe withdraw 20 cc. from the bottle of Sterile Saline Solution and inject it through the stopper into the veticeillin vial. Shake to dissolve the veticeillin.
- (3) Withdraw all the veticeillin solution into the syringe. Inject it into the rest of the solution in the 250 cc. vial. Mix by shaking. This solution contains 400 units of veticeillin per cc.

The syringe and needle should be sterilized in steam or boiling water and not by chemicals. The solution may be kept in the refrigerator for periods of up to 16 days without loss of potency. Solutions which are not used immediately should be placed in the refrigerator at once.

Hindu Diet

Even in normal times the average Hindu diet is 1,750 calories, but this average allows for extremely wide fluctuations in both directions. The 1,750 calorie diet was possible only for those whose diet was 65 to 70 per cent cereals, the remainder, milk, vegetables, etc. However, the average Indian's diet is 80 to 90 per cent cereals. Normally he gets 1,250 to 1,300 calories from cereals and a few more calories from other foods.

Northernmost Railroad

The 900-mile Russian line to Murmansk is the world's northernmost railroad.

Spread Joy

Schiller, the great German poet, lost his health at 30, and during his remaining 15 years jam-packed his life with more intellectual achievement than any other man of his time. Weak, in pain, one lung adhering to his chest wall, no more shoulders than a banana, he worked 14 or more hours a day. His constant companions were his wife Charlotte, and suffering. Yet he wrote, not merely reams of poetry, but happy poetry.

Lamp Shades

It is advisable not to use too many different lamp shade materials in any one room—nor shade shapes—nor colors.

STOP COCCIDIOSIS

with SULFA-GUAN-I-DINE

Prompt treatment with Lederle's SULFAGUANIDINE when first symptoms of coccidiosis appear in your birds assures rapid control of this disease. With Sulfa guanidine treatment, death losses are checked and feed consumption becomes normal within 24 to 48 hours. *Easy to give. Reasonable protection.*

Everyone welcome. Teachers and officers are expected to attend.

An Obligation for Parents

Today the bringing of character and unselfishness into our youth is more important than it has been for years. If ever there was a time when our Sunday Schools had the opportunity to inculcate the youth of the land with the spirit of self-sacrifice and love for one another, that time is today. I therefore feel that not only have the Sunday Schools of the country an unusual opportunity, but parents have an obligation placed upon them to see that our ideals are perpetuated, through our children receiving Sunday School education.—T. Albert Potter, President Elgin National Watch Company.

Wake my spirit, clear my sight.

MENTONE 4-H CLUB

Maxine Haney was hostess recently to the Mentone 4-H club. Miss Janalyce Rouls, county home demonstration agent, was present and gave a lesson on "Judging". In response to roll call each member gave, "a good health habit." Members present were Marjorie Molenhour, Marilyn Tucker, Jeanline Thomas, Alice Davis, Ruth Baker, Barbara Grubbs, Sue Hammer, Dawn Ware, Nancy Ware, Doris Nelson, Wilma Creamer, Mary Esther Creamer, Cloanne Nelson and Eleanor Rush. Doris Nelson will entertain the club at the next meeting.

Dr. Wendell Anderson, of Valparaiso, was the week end guest of his parents, Dr. and Mrs. E. D. Anderson.

Miss Lois Gross spent the week end with Mr. and Mrs. Roy Paterson, in Warsaw. They all accompanied Dale Patterson to Ft. Hayes, Columbus, Ohio, on Sunday evening.

Mr. and Mrs. Herman Myers and daughter of Martell, Ohio, Mr. and Mrs. Donald Boganwright, of Bridgman, Mich., and Mr. and Mrs. Emory Davis were Sunday guests of Mr. and Mrs. Leonard Boganwright.

LATE BLIGHT THREATENS

Late blight, the disease which caused considerable damage to both tomatoes and potatoes in some areas of Indiana last year, again threatens to break out this season. Cliff Breeden, assistant county agent, said today.

Cool wet weather in Southern plant growing states has permitted the development of the disease on young tomato plants being grown there for shipment to Indiana canners and tomato growers. It has already occurred on early potatoes in southern Indiana and may spread from these and other potatoes to the tomato crop and the late potatoes throughout the state according to information received here from Dr. P. W. Samson, Purdue University plant pathologist.

The disease becomes destructive in Indiana only in seasons as cool and as that of 1945. So far, it appears that 1946 may also be a blight year. If normal warm or hot and dry weather can not be predicted for the season, all practical steps must be taken to prevent damage from late blight.

Thorough spraying with either Bordeaux mixture (8-8-100 or 10-10-100) or with a commercial preparation known as Dithane is recommended for control of both of the blight diseases, but particularly for late blight.

Two pounds of a 50 percent wettable DDT should be included in each 100 gallons of either of these sprays for insect control.

Several prepared or ready-mixed dusts, containing about five or six percent of copper are available for those who do not have spraying equipment. When properly used they will give good control of late blight but are not as effective as the sprays.

These dusts should be made up to contain three percent of DDT for insect control, in addition to the copper for disease control.

Further information regarding preventive and control measures may be obtained from the office of the county agricultural agent.

EMERGENCY FEEDING PLAN

A plan of feeding which should help the farmer who is short of corn this summer but expects to have corn for his hogs with the new crop, next fall, is suggested by C. M. Vestal, Purdue University animal husbandryman.

In six experiments at Purdue, four of which were on clover and two on alfalfa pasture, pigs weighing 70 pounds, had a half feed of corn, two pounds daily for each 100 pounds live-weight, and no protein supplement for three months. They were fed this limited corn ration from the last of June until late in September.

Their average daily gain was two-thirds of a pound, which gave them a weight of 130 pounds when put on a full feed of corn and tankage, free choice, at the close of the pasture season in late September. In another five weeks they weighed 218 pounds, having made an average daily gain of

2.38 pounds during the fattening period.

The experiments showed the amount of feed required for 100 pounds of gain during the entire feeding period (June to November) was only 332 pounds of corn and 11.5 pounds of tankage. This amounted to nine bushels of corn and 17.5 pounds of tankage per hog. Only three bushels of this corn were eaten before the last of September. The other six bushels, which could have been new corn were eaten during the five-week fattening period which was necessary to save corn when the hogs were without

pasture.

About one and one-half acres of pasture were required for ten hogs receiving the half feed of corn.

**Thicken Soup**

One of the secrets of good chowders and thick soups is to let the vegetables do the thickening. Potatoes and other vegetables will cook down so that they will thicken the soup themselves, without the addition of flour and fat. If flour is added to thicken a soup, don't use too much and be sure to cook it enough to give it a distinctive flavor. Unless flour is used carefully, the cream soups come out stodgy and tasteless.

4-H DELEGATES AND ALTERNATES

The Warsaw Kiwanis club has selected four 4-H Junior Leaders and four alternates from the county 4-H clubs to attend the Annual State 4-H Junior Leadership Conference June 19-22 to be held at Indiana Central College, Indianapolis.

Rosemary Spangle, Claypool; Virginia Flowers, Warsaw; Leon Tucker, Silver Lake and Lee Norris, Mentone were chosen as delegates. Alternates are Dorothy Creighton, Atwood; Lois Mishler North Manchester; Robert Sittler, Warsaw; and Harold Gay, Ellettsburg. Green Junior leader reports, leadership achievements, projects and judging were considered in the selection of the delegates and alternates.

Texture Important in Person's Pick of Clothes

Texture is one of the factors that many women do not consider; in the selection of their clothes and many times it is the most important consideration for certain individuals.

Texture is related to the "feel" and substance of the fabric—whether it is smooth or rough, hard or soft, filmy or bulky. Texture variations give softness and beauty to colors otherwise difficult to wear, take the gloom from black, the glare from white and often are the most significant quality possessed by any object, whether fabric, wood, metal or any other substance.

Women who have definite feminine characteristics, gentleness of manner, are mild, quiet, often impulsive and warmhearted should select materials which have characteristics of softness, such as soft woolsens and soft crepes that drape nicely, ginghams and chambrays, sheer textures, soft taffetas and failles and similar fabrics without too much weight.

The type of individual who is forceful, has a good deal of drive, strength of character, vitality and who is interested in many activities should choose the more firmly woven fabrics that are pliable and sleek looking or have a smooth surface. Some examples of these are the worsteds, men's wear suitings, twills, tweeds, broadcloths, moires and bengalines. Heavy failles, slipper satins, piques, sharkskins and heavy dress linens can also be worn by this type of woman.

Overflowing Pie

Our grandmothers used to use a strip of cotton cloth moistened in cold water and fastened tight around the plate. This keeps the edge of the pie in place during baking. Some cooks insert a stiff paper funnel in the center of the top crust so that juice may rise in it without overflowing. Juicy fruit pies often run over because the pie maker tries to put too much filling into the pie.

EDITORS FOR A WEEK

The Co-Op. News is being printed this week by Safford, Emmons and Peterson, with the help of Mrs. Lackey, who has worked here before, and our news reporter, Mrs. VanGilder. If the paper isn't quite up to par—well, there's a reason. We expect to have THE EDITOR back on the job next week to start things running smoothly again.

COUNTY TO BENEFIT BY MONEY SPENT ON RURAL REPAIR JOBS

Expenditures totaling more than \$2,056,000 will be made in the next few years by home owners on farms and in small communities of Kosciusko county to improve present electric service and home plumbing.

These outlays will mean additional income to practically every local business and will finance additional wiring, bathroom improvements and new electrical equipment for the county's 7,563 farm and rural homes already served with electricity, according to a study released by the tile council of America.

Introduction of running water, installation of tiled bathrooms and replacement of out-moded plumbing fixtures head the list of most wanted farm home features. D. P. Forst, chairman of the Council's Residential Construction Committee, revealed. One in five families throughout the nation plan bathroom improvements, he said.

Additional wiring is needed in practically every farm home with electricity, according to the study. A huge market likewise exists for milking machines, quick freezing units, electric motors, baby chick brooders and other equipment.

Expenditures in the county are part of a \$86,7762,000 program to be undertaken by Indiana farm and rural home owners in the next five years, the study revealed. An estimated \$2,294,900,000 on similar improvements to present electric service will be spent in the nation during that time.

Cigarette Taxes

Thirty-one states now have cigarette taxes that vary from two to five cents. Seventeen states are listed levying a tax of two cents per package of cigarettes while eight states collect three cents per pack. Florida, Massachusetts and Mississippi collect four cents and Arkansas, Louisiana and Oklahoma collect five cents per pack. In addition to the federal and state taxes, 27 cities are reported levying cigarette taxes of one or two cents per pack.

Soldier Beans

Because of their high quality, high yield, and adaptability to cool weather, soldier beans are grown widely in northern sections. It is one of the best beans for Saturday night baked beans.

LOCAL NEWS

Mr. and Mrs. Ira E. Borton and grandson, Tommy Hatfield, of North East, Pennsylvania, spent Sunday in Huntington with Mr. and Mrs. George Borton and sons, Larry and Lynn.

Mr. and Mrs. Alfred Snyder and daughter, Sally Kay, of Mentone, entertained recently at a fish fry. The guests were: Mrs. Snyder's sister and husband, Mr. and Mrs. Morris Metzger, of Fort Wayne, who were recently married, also Mr. and Mrs. Merl Smith, and Mr. and Mrs. Granville Plew, all of Warsaw.

Mrs. Dale J. Wallace and eight-day old daughter, Connie Jo, were dismissed Saturday from the McDonald Hospital in Warsaw.

We have received word that Pvt. Bobby Herendeen is now stationed at Bldg. 411 A. S. N. 15209232 RA Co. D, A. S. F. T. C. Edgewood Arsenal, Md.

Rev. and Mrs. Ralston took a group of Baptist young people on a cruise on Lake Michigan last Monday.

CARD OF THANKS

I wish to express my deep appreciation for the beautiful flowers, cards and letters received during my illness.

CORRECTION

We don't know where the misinformation came from, but in last week's issue we erroneously stated that Rev. S. M. Hill, of Mentone, had charge of the Memorial service at Tippecanoe. Mrs. John Barrett had charge of the service and Rev. S. M. Hill gave the address.

Hospital Capacity

Both governmental and nongovernmental hospitals showed a slight increase in bed capacity last year, the governmental group reporting 1,356,718 or 78 per cent of all beds, the nongovernmental hospitals 382,226 or 22 per cent. The federal hospitals which expanded rapidly during the war had a net loss of 4,751 beds compared with 1944.

ALL-STAR GAME FRIDAY

The Leedy Electric, one of the best playing teams in the Warsaw league, comes to Mentone Friday evening, June 21, to tangle with the Mentone All-Star boys.

Mentone won its first all-star game a week ago when the Schrader team from Warsaw were battered into second place by the slugging Mentone aggregation.

The teams to play the preliminary game haven't been announced.

FATHERS DAY CELEBRATED

A pot luck dinner was held Fathers Day at the Leonard Boganwright home in honor of Fathers Day and David Harsh's 83rd birthday.

Dinner guests were: Mrs. Cleo Scholl and family, Mrs. Gitta Boganwright, Mrs. Harry Grubbs and children, Mr. and Mrs. Frank Dickey, Mr. and Mrs. Joe Wideman, Mr. and Mrs. Emmet Clark, Mr. and Mrs. Sam Norris and children, Mr. and Mrs. Gordon Edgar, Mr. and Mrs. Paul Kenzie and Mrs. Weldon Scholl.

Afternoon callers were: Mr. and Mrs. Fred Swick, Mr. and Mrs. Emory Davis, Mr. and Mrs. Delbert Senff and family, Miss Elizabeth Nye and Louis Island.

NOTED RADIO PROGRAM LEADER, MAJ. BOWES, DIES

Death Friday claimed one of theater and radio's best-known figures, Maj. Edward Bowes, whose "Amateur Hour" once was rated by listeners as America's favorite radio program.

The genial Irish showman, whose booming "All right! All right!" became a national byword for giving an untalented amateur the go, had planned to celebrate his 72nd birthday on the day of his death.

Before he retired last year, the "Laird of Times Square" was known as the hardest working man in show business. He heard 600 amateur auditions a week. He dictated letters as he shaved. He had a special \$32,000 limousine equipped as an office-on-wheels.

WHETSTONE-SARBER

Mr. and Mrs. Elmer Sarber, of Mentone, announce the marriage of their daughter, Juanita Fay, to Carl Whetstone, son of Mr. and Mrs. Cassel Whetstone also of Mentone. The Rev. Silas Hill read the double-ring ceremony at 9 a. m. Friday. The bride was attired in a black and white linen dress which she wore white accessories. Her corsage was of red and white carnations. When they return from their wedding trip they will reside west of Mentone.

They will leave on a short honeymoon and then return to their newly furnished home.

BETTY JEAN EAST ENGAGED

The engagement of Miss Betty Jean East to Jack Lewallen, son of Mr. and Mrs. Clarence Lewallen, of North Webster, is announced by her parents, Mr. and Mrs. Delbert East, of near Mentone. No date for the wedding has been set. Miss East is a graduate of Mentone high school.

BURKET MAN DIED SATURDAY

Raymond Bowen, aged 42, a resident of Burket, died at 9:30 a. m. Saturday at the Murphy Medical Center. Death, which was due to complications, followed a serious illness of two weeks. He had been in failing health for the past three months.

Mr. Bowen was born in Claypool May 15, 1904, the son of Hugh and Eliza Bowen. He had resided in Silver Lake for a number of years, having moved to Burket eight years ago. He had been employed as a filling station attendant. The deceased was a member of the United Brethren church.

Surviving relatives are his mother, Mrs. Eliza Bowen, and a sister, Mrs. Earl Lowman, both of Burket, and a half-sister, Miss Jennie Leighty, of Warsaw.

Funeral services were held Monday at two p. m. at the Summe funeral home at Silver Lake. Rev. Dwight McClure was in charge of the service and burial was in the Silver Lake cemetery.

JONAH CLUB ENTERTAINS ORPHANS AT McCLURE LAKE

Thirty-four orphans enjoyed the hospitality of the Jonah Club at McClure Lake over Saturday and Sunday.

RECEIVE AWARDS

Patricia Shinn, daughter of Mr. and Mrs. Earl Shinn, and John Shirey, son of Mr. and Mrs. Ed. Shirey of Palestine, were in Warsaw Tuesday evening where they were among those from the Warsaw, Sidney, Claypool, Burket and Mentone schools who were awarded Citizenship awards by the American Legion.

Boy and girl students were selected from each of the schools to receive the awards. Selection was made on a basis of courage, character, service, companionship and scholarship, and being chosen for this award certainly is very complimentary to the individual students.

LIONS CLUB ELECTS OFFICERS FOR 1946-1947 YEAR

The regular annual election of officers for the Mentone Lions club was held at the regular meeting Wednesday evening at the school building. The following list of candidates were elected, to take their positions the first meeting night in July:

President—H. V. Johns.

1st vice president—Ora McKinley.

2nd vice president—Leo Valentine.

3rd vice president—Delford Nelson.

Secretary—Merl Linn.

Treasurer—Richard Manwaring.

Lion Tamer—Arlo Friesner.

Tail Twister—Eugene Marshall.

Directors—Leroy Cox, Forrest Kesler, Raymond Cooper, Earl Shinn.

Sgt. Robert Duglay, who spent three and one-half years in the E.T.O., was an honored guest and gave a very interesting talk of his service there.

Sgt. Duglay is home on a furlough and plans to spend one more year in the service of Uncle Sam.

CHURCH CAMP AT McCLURE LAKE THIS WEEK

A two-weeks church camp, sponsored by the Mentone Baptist church, started this week at McClure Lake.

Madrigals 500 Years Old

The madrigal was known as a musical art form by the middle of the 15th century.

MENTONE LEGION POST MEETS.

The first regular meeting of the newly-formed American Legion Post No. 425, Mentone, was held in the school building Thursday evening of this week. Fifty-five were present when the meeting was called to order by Commander Don Ernsberger at 8 p. m. A beautiful floral offering of patriotic colors was presented to the success of the newly-formed post by the Mothers of World War II. The second vice commander of the Warsaw Post, was present and extended words of encouragement to the new organization.

The minutes were read by Adj. Robert Kinsey and plans for a new Legion home were discussed.

Temporary officers were selected for the following posts: Finance officer, Dale Kelley; service officer, Wilbur Cochran; Chaplain, Paul Bruner; historian, Bob Tucker; sgt. of arms, Earl Shinn; chairman of the athletic committee, Eldred Paulus; membership committee, Mervin Jones.

It was decided to have a fish fry on Friday, July 5th, which will be the next regular meeting. Members are to bring a guest. Cards will be sent to all members.

A membership drive is on. Each member is requested to bring in at least two new members. Prizes are being awarded to the ones bringing in the greatest number of new members.

The Thursday night meeting brought many new members and transfers from other posts. Much enthusiasm was shown throughout the meeting.

The group expressed their thanks and appreciation to Mrs. Wagner, president of the War Mothers club for the flowers.

RETURN FROM CONVENTION

Mrs. Max Nellans and Mrs. Lyman Mollenhour have returned home after attending the Forty-third Convention of Psi Iota Xi Sorority. It was held at the Severin Hotel, Indianapolis, June 14th and 15th.

Of the Northern Province, Beta Epsilon chapter of Mentone was third in per capita spent on charity. The Mentone chapter also drew the picture from the Northern Province. It was a first prize picture from the Hoosier Salon.

The 1947 convention will be held at Muncie Ind., the Mother chapter as hostess. The 1947 Grand President is Mrs. Ruth Ball Harker of Muncie, Ind.

JENNER NOMINATED FOR STATE SENATOR

Indianapolis, June 14.—Indiana's republican state organization, duplicating a convention performance staged only once before in Hoosier politics, rested on its laurels after successfully dictating the 1946 convention nominees.

It was strictly a show of organizational power in the Indianapolis collision, according to United Press, as delegates named a full ticket headed by U. S. Senate-aspirant William E. Jenner, 37-year-old Bedford attorney.

Jenner was the only one of 11 convention-named nominees who was forced into a vote. And, he romped to a 1,995 to 105 victory over red-haired Congressman Charles M. LaFollette, who asked delegates to elect him and make the state G.O.P. the party of liberals.

Machine-like precision of the organization built up by Governor Gates and State Chairman Clark Springer successfully "purged" three incumbents—U. S. Sen. Raymond E. Willis, Supreme

Court Judge Frank N. Richman and Dr. Clement T. Malan, superintendent of public instruction, according to the United Press news reporter.

Uncle Sam Says

None of us will ever celebrate D Day in the spirit of a gay holiday. On the contrary, June 6 is forever enshrined as a day of sacrifice. Two years ago, on the beaches of Normandy, all our hopes for a peaceful, happy future were in the balance of bloody invasion. The best observance you can make of the first peacetime anniversary of D Day is to make sure you are buying as many savings bonds as ever. You backed the attack—now back your own future.

News From Veterans' Field

By R. BEVINGTON

Monday (17) Night Games

Stockyards vs. Burket

The game started there was a general feeling among the fans and players that tonight may be the night for Burket's first defeat. The reason for the optimism was that Jamison, their star pitcher was out of the line up because of a sore arm. Dean O'Neil took over the pitching duties in the 1st inning and a new rookie pitcher, the game had come very far from the beginning and players thought that the game had been a good one. The game was the regular season game, allowing the 1st inning pitcher to pitch a full seven innings. O'Neil was in trouble in the 1st inning, the mound with the bases loaded and no outs. He refused to get excited and his team came to his assistance in the pinch and made possible the recognition of a new pitcher. The pitching record follows for the above game:

Pitcher	S	O	Hits	Runs	Walks
G. Blum	Co-Op	7	2	8	8
D. Goshert	Burket	6	3	7	2
C. G. Blum	Burket	1	1	1	1

Score by innings:
Burket 4 3 0 8 1 0 16-14 4er
S. Y. 0 1 1 0 0 0 1 3-8 9er
Goshert and the Co-Op teams started the second game but the game was rained out after three innings. The game had been allowed to continue and had been a good one. At the end of the playing period the Co-Op was leading by a slim 2 to 1. The game had been allowed to continue up to this period.

Highlights of Monday Night

The game in most of the teams started after the bats and placing the game in a new order. A fine play by Miller and Burket when a hard hit ball was hit in what appeared to be a home run. Miller stopped the ball, making the game a close one. The game was a hard one, particularly on the part of Burket, who was very compact and very little experience. Congratulating to the Burket players for their first game to be played in the time scheduled (22 minutes) and the game to be extended to 22 minutes.

A general incident at the batting. The umpires at home plate, Mack, Nelson, Harry, Ora Vandermark, and E. J. Smith behind the plate as ump. Vandermark's disapproval of a called strike. "Oh No Noooooo Noooooo—Miles Igo breaking a bat completely into two pieces—Good weather. Dark clouds beginning to roll. Intermittent flashes of lightning. Gradually earthward—Wind whipping up dust clouds on the playing field. Thunder rolling in the distance. Light sprinkles of rain—fans getting into coats. Heavier drops of rain—Players and umpires in groups trying to decide whether to continue play-

ing or not—Heavy splatters of rain followed by a regular gully washer—Game called in the last of the 3rd.

The games for Wednesday night of the 12th were rained out. If Mother Nature had not been so temperamental, the Mentone Lumber Company might have squeezed through a win over the Stockyards team. The game had progressed 4½ innings with the lead in the hands of the Lumber Co. when wind and rain prevented the continuing of the game. This game and others that have not been played at the time scheduled will be played at the end of the first round of play. Mentone All Stars vs. Schraders of

Warsaw, Friday, June 14.

The talent chosen from the league players did themselves proud by winning their first scheduled game by the score of 14 to 10. A large crowd was present to witness the possibilities of a strong All Star Mentone team make a bid for a successful season. Dave Jamison took the mound for Mentone with Linn catching. Bowser relieved Jamison in the 6th while Highway took Bowser's position in the 8th. Hively and Moorhead took the starting battery for Warsaw with Stokes quickly replacing Hively in the last of the second when a devastating hitting spree garnered 7 runs for the All Stars. Warsaw looked good in the first inning as they led by one run. However, after the game had progressed several innings, there was no doubt in most minds that the All Stars team was the better of the two. Whetstone started the excitement in the second inning by batting out a homer and driving in McSherry. Jamison then came to bat and duplicated the performance of Whetstone by blasting out another homer. He had to be satisfied with the one run as McGowan had just popped out before him. Not to be outdone, Linn measured one for a circuit in the 6th.

The pitching record follows for each player in the game:

	I	P	S	O	H	R	W
Jamison	M	5	9	10	5	0	
Bowser	M	2	2	2	3	6	
Highway	M	2	1	4	2	1	

Hively	W	2	2	7	7	2	
Stokes	W	6	5	9	7	4	

Score by innings:

Mentone	0	7	1	0	2	1	14-13	7e
Warsaw	1	0	0	1	3	2	10-16	6e

The following schedule will bring all games up to date including the games that have been postponed.

Wednesday, July 19	77:30
Lbr. Co. vs Co-Op	
Pete's Lunch vs Stockyards	9:00
Friday, June 21	
M. Midgets vs Akron Cub scouts	7:30
Lions All Stars vs. Leedy Electric.	
Monday, June 24	

Igo's Grocery vs Stockyards

Wednesday, June 26

Pete's Lunch vs Co-Op.

Mentone Lbr. Co. vs Stockyards

Monday, July 1

Burket vs Pete's Lunch

Co-Op. vs Igo's Grocery

Players of all teams should keep this schedule as it will save time if every player knows exactly when his team plays. The first two teams listed under a given date means they will play the first games.

Team Records to Date

	Won	Lost
Burket	3	0
Lumber Co.	2	0
Pete's Lunch	1	1
Co-Op.	1	1
Stockyards	0	2
Igo's Grocery	0	3

Summer Recreation Program

There has been some misunderstanding by parents and children about who is entitled to take part in this program. Any parent who has a boy that was in the third grade this year or in any grade above the third is eligible to participate. Ordinarily the recreation program takes place at the school house softball diamond beginning at 1:30 on Tuesday and Thursday afternoons. This schedule is not always the same as sometimes the games we play with out of town teams fall on one of these two days and the game is then considered as the afternoon recreation. All of you boys in town that have not taken advantage of this supervised recreation, do so at once as you will have a good time. Parents that have children this age that are not working should encourage their children to take part in this program.

Many boys live in the country that are unable to take advantage of this program. I would appreciate having you boys that live in the country who would be interested in playing softball with other teams under the lights at the Veterans Park, to contact me immediately. Just drop me a postal card telling me what night would be most convenient. If there are enough boys from the country that are interested, this program could be extended to meet your wishes. Don't put it off, if you are interested, drop me a line now. R. H. Bevington, Mentone, Ind.

These games would have to be played on Tuesday and Thursday nights as the other nights of the week are taken up with the games of the regular league.

Due to the large number of boys that are attending the Baptist church camp at Lake McClure, the regular afternoon recreation for this week and next will be cancelled. However, the games that are scheduled for these weeks will be played as scheduled.

For the next two weeks on Wednesday and Thursday afternoons, I shall

be assisting at the Baptist Church camp in teaching swimming and life-saving. I shall try and work this swimming instruction in with the summer recreation in the following way: Any parent that has a child that is 10 years or older and who would like to have that child learn how to swim, please contact me. On the 26 and 27 of this month, I shall take a group of children to the Baptist camp for those afternoons for swimming instruction and bring them back the same afternoon. Classes will start at 2:00 o'clock and will finish at 4:00. The first persons contacting me will be the ones to go as my car is small and I am limited in the number I can take. —Bevington

Hindu Theater

The rules of Hindu drama insist that every play must have a happy ending. Death and deeply tragical incidents are excluded from the drama, and biting, scratching, kissing, eating and sleeping are not ordinarily permitted on the stage, although such rules are occasionally broken by playwrights.

American Seamen

Highest paid able seaman in the world is the American merchant sailor. His base pay of \$1.15 monthly averages three times that of 15 other leading maritime nations. In addition, he receives overtime and other pay sometimes reaching 25 per cent of base pay, plus food and lodging valued at \$175 a month.

Smoking Sensitivity

In an individual sensitive to tobacco, smoking acts like poison and causes heart pain. The tobacco excites the easily injured nerves going to the heart and produces the crushing left breast pain. To overcome this, smoking must be discontinued.

Safe Travel

The elevator is the safest means of power transmission in the world. During 1938 approximately 25 million passengers were carried on elevators in the United States—more than the combined total of those carried on all other public conveyances.

Side-Dress Vegetables

Long-growing crops such as carrots, celery, etc., should be side-dressed at the same rate every three to five weeks. The plant food is distributed one-half on each side of the row, two to three inches away from stems. It is then lightly worked into the soil with a rake or cultivator. Before watering the garden is the best time to feed.

Uncle Sam Says

The raising of the flag is always a wonderful thrill. This statue of the scene on Mount Surabachi which now stands across from the Navy Department in Washington, D. C., our nation's capital, recalls the back-the-attack spirit and your deeds as a wartime bond buyer. My slogan for you today on the first peacetime Flag Day since 1941 is "Now Back Your Future." Continued investment of part of your earnings in savings bonds is consistent with devotion to the flag. Old Glory symbolizes the security which savings bonds assure.

Follow Instructions

Directions on dye packages should be followed carefully when preparing the dye.

To start the dye, dissolve it in hot water; hot water is desirable. Then strain the dissolved dye through a cheesecloth placed in a bowl. Be sure to use the full amount of dye for weight of material. To start the dye with a hot water, add a small amount of water to the material. To start the dye with a sample of the material, add a small amount of water to the material. To start the dye with a sample of the material, add a small amount of water to the material. To start the dye with a sample of the material, add a small amount of water to the material.

ANIMAL HEALTH COLUMN...

By R. A. MARRIOTT

A quote of the Report of Cooperative Brucellosis Control Work in the United States, as presented by Dr. A. W. Miller, Chief, U. S. Bureau Animal Industry, before the forty-eighth annual meeting U. S. Livestock Sanitary Association, Chicago, December, 1944. Augmentations and clarifications of these quotes are given in brackets.

First of all we should stress that strain 19 vaccine is not a panacea for brucellosis. It is not 100 per cent effective in immunizing bovine animals against the disease but it has proved more satisfactory in this respect than previous pure and viable and inactivated with sanitary procedures.

The purity and native viability of both the adjuvanted and commercial vaccine are guaranteed by the rigid requirements of our bureau. To assure a commercial product of proper stability it has recently been found necessary to reduce the expiration date for its use from 6 months to 3 months. If further bureau tests within the three months period show that a vaccine is too low in viability it is immediately ordered withdrawn from the market.

Regarding the safety and stability of Strain 19 Murrel and Manthei when administered from intravenously vaccinating pregnant cows with excessive doses of Strain 19 to produce abortion, and subsequently exposing healthy animals to these aborted fetuses, have failed to produce infection. Many other reports of work of similar nature and probably hundreds of instances in which calves have been vaccinated in pasture herds without

spreading infection to other animals" are cited. "Indications are, therefore, that there is no danger of Strain 19 reverting to an organism of increased virulence or that in its present degree of stability, it can establish disease in vaccinated animals or spread disease to associating animals. So far as we know there is not a single case on record at present in which infection with Strain 19 has occurred through contact with vaccinated animals."

The effectiveness of Strain 19 Brucella Abortus Vaccine is borne out by the following:

"Field trials were begun by the bureau in 1936 in about 260 heavily infected herds in which calves were vaccinated and in which the reacting cows were left to provide exposure. Careful records indicated that only 11 per cent of the vaccinated calves in these herds subsequently aborted as a result of Bang's Disease, determined by the blood test." (Single injection vaccine indicated.)

Comparing the effectiveness of vaccination of adult cows with that of calves, the report states, "Research done by our bureau indicates that it is Haring... presented evidence indicating that vaccination was even more effective in adults than in calves. Why (then) is adult vaccination not advocated under all conditions? The principal reason is that in adult cattle the vaccinal titer tends to persist for indefinite periods, whereas in calves it tends to disappear within 3 to 12 months after vaccination. This persistence of titer (might) interfere with the control program which is based on the agglutination test" (When inter or intra-state commerce are not of essence, the herd owner can practice adult vaccination with the above de-

Dr. Dale A. Rigdon

OPTOMETRIST

"IT'S THE EXAMINATION THAT COUNTS"

OFFICE AT FITCH'S JEWELRY STORE
WARSAW, INDIANA

For Your Convenience — Please Phone 781 for Appointment

gree of success.)

"Haring has mentioned several herds in which Brucellosis has been controlled by whole-herd vaccination with the subsequent vaccination of calves. It appears, therefore, that whole-herd vaccination will have beneficial results in suppressing infection and abortion."

"Specifically, whole-herd vaccination may be recommended as advantageous in incipient infection; in beef herds in which calf production is the chief herd requirement, if done when cows are open or in early pregnancy; in so-called "problem herds;" and in large infected dairy herds in which calves are not raised and in which there is a rapid turnover of animals as a result of milk-production demands. In the last mentioned type of herd, all replacements should be vaccinated. In all herds in which whole-herd vaccination is practiced calfhood vaccination should be continued."

"The average length of time that immunity resulting from vaccination with Strain 19 will persist has not been definitely established. In 260 heavily infected herds the incidence of abortion in vaccinated animals became appreciably lower each year until trials were stopped in their seventh year. In these trials the infected cattle were not removed, and the resistance in the vaccinated animals was undoubtedly augmented by constant contact with the infected animals."

Results of experiments indicate that vaccinal immunity diminishes, as would be expected. The results also indicate the necessity for research in revaccination with minute doses of vaccine at certain intervals following calfhood vaccination."

Regarding the intradermic method of vaccination using a dose of 0.1 or 0.2 cc of strain 19, of the subcutaneous product, preliminary results from the work initiated at the Maryland State Livestock Sanitary Service Laboratories, indicate no advantages over the subcutaneous method, except "That in calves vaccinated intradermically the vaccinal titer disappears a little sooner than in calves vaccinated subcutaneously, but in adult cattle there is no appreciable difference" and "that in lactating cows vaccinated intradermically there was little or no systematic reaction or decrease in milk production."

Evidence... is that Strain 19

causes abortions in some instances, if administered to cows in advance stages (5 to 6 months) of pregnancy."

Reference is made to the optimum age during calfhood for vaccination. "For general purposes, therefore, it is believed that about six months is probably the best age for vaccination of calves."

"Should bull calves be vaccinated? Yes, if a bull calf is to be retained or sold as a herd sire into an infected herd."

"From the work done by our bureau and from the results presented by Haring and the more conservative practitioners it is evident that whole-herd vaccination will, in the great majority of instances, greatly limit abortions from Brucellosis within a year and also inhibit the spread of infection. If the vaccination of calves is continued in a herd of this type the number of reacting animals remaining at the end of a 5-year period should be so low that such herds might then be admitted to the control program."

In summation of this information it might seem that a sane course of recommendation to follow is:

That vaccinated calves be revaccinated following their first freshening; That cows vaccinated as adults be revaccinated following their first freshening period.

Cows are most satisfactorily vaccinated when open; vaccinated during pregnancy the resultant immunity might be disturbed and abortion might ensue.

The vaccine must be kept refrigerated at all times to promote livability and viability and successful performance of the product.

I Helped My Church

I helped my church to live! I was
there! My presence helped. I was one
more. When I joined the church, I
promised to be there. I didn't join the
church to stay away from it. I was
there!

I helped my church! I paid my way.
I did not let others pay my way any
more than I permit them to buy my
hat, feed my children, or pay my
taxes. An ample, competent sum must
be my investment in my church. I
paid my way.

I helped my church! I prayed for
my church! I want every blessing and
grace and health and power for my
church. "For her my prayers ascend."
I pray for her as naturally, as normal-
ly, as I do for my other dearest ones.
I helped my church, for I prayed for
it.

Mr. and Mrs. Willard Zolman, of
Warsaw; Mr. and Mrs. Vern Rush,
of Tippecanoe; Mr. and Mrs. Harvey
Rush and family and Mr. and Mrs.
Harry Rush and family, of Rochester,
spent Sunday with Mr. and Mrs. Wayne
Zolman and son, Jimmy. They cele-
brated Jimmy's seventh birthday.

HOOSIER HEALTH REPORTS

(Indiana State Board of Health)
Old age has been postponed. Since the beginning of the century, man's life expectancy has increased with a resultant shift upward in the average age of the population. Because of increased length of life, medical attention has begun to focus upon those diseases usually associated with advanced age, hence affecting an increasingly greater section of the population.

No real attempt has been made to define old age. It has been assumed in most cases to begin arbitrarily after one has lived a certain number of years. Nothing could be farther from the truth. Individual physical and mental conditions indicate one's age and not the passage of time. The real test of age is the degree to which one is fit.

Physical fitness and the postponement of old age are the result of a sound physical and mental makeup plus care. Men live longer not by accident but by attention to the basic laws of health. Consistent loss of sleep, excessive use of tobacco and stimulants of all types, failure to consume sufficient and proper food, and refusal to exercise are not friendly to health and long life.

Many of the diseases which terminate the lives of older people begin to show themselves long before they become fatal. Periodic check-ups with the family physician throughout life will disclose symptoms usually before irreparable damage is done. Persons in their middle years should be particularly careful. Many, especially men, in their middle years are prone to attempt to live as they did in their youth. They may try to participate in sports which are too strenuous. Exercise is an ally, but it can become an enemy if it is too violent. Old age can be postponed but only on condition.

Mr. and Mrs. Cecil Giffin of Battle Creek, Michigan, were callers at the W. W. Whitestone home Thursday.

You Can Get Quick Relief From Tired Eyes

MAKE THIS SIMPLE TEST TODAY

EYES TIRED? Soothe and refresh them in seconds with two drops of safe, gentle Murine in each eye. You get—

QUICK RELIEF. Instantly your eyes feel refreshed. Murine's scientific blend of 7 ingredients soothes and soothes eyes that are tired from overwork or exposure to sun, wind and dust.

MURINE
FOR YOUR EYES

**Careless Cooking**

Much fat is wasted by careless cooking. Once fat has been scorched, overheated, or allowed to become rancid, it is good for nothing but soap making. In frying, heat should always be carefully watched to prevent wasteful scorching. To keep fat from turning rancid or becoming moldy, keep it dry, cold and covered in a dark place. Keep it in the refrigerator, if possible.

Unusual Orchid

An unusual orchid is the monja blanca (white nun) whose center resembles a nun kneeling in prayer.

Hospital Patients

There were 16,257,402 admissions exclusive of out-patients and newborn infants in U. S. hospitals in 1945. This is equivalent to 12.3 per cent of the total population according to the U. S. census of 1940. Since 1935 the admissions in the hospitals registered by the American Medical association have more than doubled in number. The greatest annual gain occurred in 1943 when an increase of 2,829,088 was reported. The following year showed an increase of 662,150 while the present survey indicates a net gain of 220,554 in comparison with 1944.

Sort Screws

Save one-pound coffee jars for your handy man's work shop. Nail the covers of three or four under an easy-to-reach shelf. Sort out screws, nails, and what have you; file them, by size and kind in the jar; screw the jars with their contents to the covers.

Igloo Myth

Most Eskimos do not live in igloos. In fact, over half the Eskimos in the world have never seen an igloo and only about one-quarter actually use igloos for winter living quarters.

NO TRICKS

SORRY, we cannot promise to pay you unreasonably high prices for your eggs one week, only to be forced to cut the prices promised, the following weeks.

SORRY, we have no nylon hosiery, and no overalls. We are just egg merchants. And, we just don't do business that way.

BUT, we DO promise to pay you the VERY BEST LEGITIMATE PRICES you can get in New York, at ANY TIME.

BACK ON THE JOB—ALMOST.

It has certainly been a struggle the past couple of days trying to talk myself into going to work again—after spending a week in northwestern Ontario fishing and boating on a number of Ontario's two million lakes. The Cullum family arrived home about daybreak Wednesday.

As to the size of the fish—well—few

would believe it anyway, so will definitely state that we didn't have a scale and the yardstick was always in the other pocket or the other boat. I did unhook a Northern that I could still see over his head while his tail was in the bottom of the boat.

Fishing on some of Canada's lakes is usually exciting, but the country contains far more for the vacationist than just pulling in one big fish after another.

er. Moose, deer and other wild animals are frequently seen along the lake shores, and boating on the crystal-clear waters and breathing the clean air of the open country is more than satisfying. It was thrilling to see a cow moose and her little calf about a hundred yards ahead of our boat on a small island. They didn't seem terribly frightened but we failed to find the calf she hid in the brush before she swam away to another nearby island. Many broods of young ducks swam desperately to follow their mothers as they sought refuge in some out-of-the-way portion of the lake. We were disappointed in again not seeing wild bear, but an old trapper's cabin was scratched on three sides by the large claws of bear. The claw marks were well over a person's head.

The entire family took the portage trip back into the fourth lake from the main camp and spent three days "on the rock" far from the travel of everyday citizens. Neither Mrs. Cullum nor the children ever tried casting for fish

before, but all of them caught their share of fish. (Geo. Buchtel had requested that I bring him back a nice Indian squaw, but as I was unsuccessful in supplying this vital need for him, I was careful to see that he didn't meet Mrs. Cullum until her sun-tanned face toned down a bit. He might not recognize her as my companion of some 21 years.)

Roscoe Davis and Harry Kinzie were accepted for the Indiana University speech and hearing clinic which started June 17th. Roscoe Davis left Monday morning and Harry Kinzie plans to go down some time around the first of July. The clinic ends on August 9th.

ALL-STAR GAME FRIDAY

The Lions All Star team will meet the Lakeside Foundry, of Warsaw, at Veterans' Field, Mentone, on Friday night, June 28. This team is rated as one of the best around Warsaw so this should prove to be a good game.

The preliminary will bring together the Mentone Midgets and the Rochester Cub Scouts.

BOY WOUNDED WHILE SHOOTING MARK

Friday morning, Richard Manuel, 17, son of Mr. and Mrs. Arthur Manuel who live between Mentone and Etna Green, was brought into town suffering with a bullet wound in the pelvic region suffered when a gun was accidentally discharged while he and two other lads were shooting mark at the farm home.

The boy had lost considerable blood by the time he had reached Mentone, but after he was taken from the car and placed on a stretcher, a compress was applied and he was then taken to the McDonald hospital by Robert Reed. The bullet was removed the fore part of the week and the lad is improving rapidly.

Definite information regarding just how the accident happened has been difficult to secure.

MARRIED SUNDAY

Mr. and Mrs. Robert Anderson, Mr. and Mrs. Wayne Bowser and Mr. and Mrs. Raymond Lewis attended the wedding of Carl Rush and Miss Mary Thompson on Sunday afternoon in the Methodist church in West Lafayette.

WAGNER-CAINE

Mervin Wagner, son of Mr. and Mrs. E. E. Wagner, of Mentone, and Miss Margaret Caine, daughter of Mr. and Mrs. Willard Caine, of Warsaw, were united in marriage Thursday evening, June 20th at the Methodist parsonage by Rev. Simmons.

George Dickey, of Warsaw, spent a week in Mount Vernon, Ohio.

SPOT LANDING CONTEST AT AIRPORT THURSDAY

Messrs. Tucker and Herendeen, who operate Mentone's flying service at the airport southwest of town, announce that a spot-landing contest will be held at the airport Thursday afternoon, July 4th, starting at about four o'clock.

The boys, too, announce that they have received the agency for Aeronca airplanes and delivered has been promised on their first plane July 3.

Two Cubs and a Porterfield are now in use for the daily taxi, solo and flight-instruction service.

WIDOW GIVEN SILVER STAR OF HEROIC MATE

(The following news story appeared in a recent issue of the South Bend Tribune.)

Warrant Officer William E. Rush has been posthumously awarded the Silver Star medal, which was presented to his widow, Wilma, 1820 East Donald street (South Bend.) Mr. Rush, whose parents, Mr. and Mrs. W. Ray Rush, live in Mentone, Ind., was decorated for gallantry and intrepidity in action with the marine corps at Iwo Jima on Feb. 21, 1945.

According to the citation, "Warrant Officer Rush unhesitatingly risked his life to crawl approximately 50 yards out upon the fireswept airstrip in an effort to locate the Japanese installations. Observing the frequent flash of the enemy's firing mortars, he subsequently directed the full power of his howitzers against the hostile strong point. . . . Later that night when the enemy initiated a savage counterattack, he brought his blanketing artillery fire within 50 yards of our front lines, remaining steadfast at his exposed station in the forward area despite deadly Japanese rifle fire."

GIVEN BRIDAL SHOWER

A bridal shower was given in honor of Mrs. Harold Smythe, Jr., Wednesday evening at the home of Mrs. Raymond Lewis.

Those present were the Mesdames Robert Kinsey, Eldred Paulus, Phillip Blue, Kenneth Romine, Sedrec Utter, Robert Anderson, Robert Whetstone, N. T. McClane, the honored guest, Mrs. Smythe, and the hostesses, Mrs. Wayne Bowser and Mrs. Raymond Lewis.

A very delightful time was had by all.

CLOSED JULY 4

All departments of the Northern Indiana Cooperative Association will be closed on Thursday, July 4th.

Undoubtedly, most all business places in Mentone will be closed in observance of Independence day.

CO-OP. EMPLOYEES ENJOY PICNIC AT DECATUR

Twenty-three employees of the NICA at Mentone, and members of their families and friends, numbering about 60, spent Wednesday at Decatur as guests of the McMillan Feed Company. The day was a very enjoyable one. About 700 people from Indiana, Ohio and Michigan attended the all-day picnic and tour of the McMillan factory.

The day was complete with a continuous round of contests, and events, including horseshoe pitching, softball, athletics contests, novelty contests, etc. Liberal prizes were given in every event and at the noon hour a huge barbecue was enjoyed by everyone. In addition a large tent-covered stand about 30 by 50 feet was on the city picnic grounds with all the free pop and ice cream bars a person could eat or drink. The feed company made sure that everything was free. Sweaters were presented to the players on the winning ball team, etc.

Mr. and Mrs. Robert Sanders, of Mentone, received the prize for being the youngest married couple present and the NICA organization were given the honor of having the second largest representation of any firm.

Several chartered buses made regular trips from the picnic grounds to the feed manufacturing plant.

The day's program was supervised by the secretary of the chamber of commerce and he received many compliments for his splendid work.

PAPER EARLY NEXT WEEK

It has been customary for the Co-Op. News to be completed on Thursday, but due to the fact that next Thursday will be July 4th, the presswork will day will be completed on Wednesday to give our employees a holiday. Your cooperation in submitting advertising and news copy by Wednesday morning will be appreciated.

EDITOR.

EMMETT EUGENE FITTON FUNERAL ON THURSDAY

Emmett Eugene Fitton, aged 24, died at 5:20 a. m. Tuesday at his home in Warsaw. Death followed a serious illness of four days due to asthma. The young man had suffered with asthma following an attack of measles when he was two years of age.

The deceased was born in Burket January 9, 1922, the son of Lloyd and Bertha (Evans) Fitton. He had lived in Warsaw and vicinity all of his life. He was employed by the International Harvester Co., of Fort Wayne, and had previously been an employee of the Jet White stores in Warsaw. He was affiliated with the Eagles' lodge.

Surviving relatives include his parents, Mr. and Mrs. Lloyd Fitton, Warsaw; a brother, Robert, and a sister, Mary Lou, both at home; Mrs. Helen Case, also of Warsaw, is a sister, and the grandparents, Mr. and Mrs. William Evans, Warsaw, and Mr. and Mrs. John Fitton of Burket.

Funeral services were to be held on Thursday afternoon at two o'clock at the Bilby funeral home, Warsaw. Burial in Oakwood cemetery.

STUDENTS PRESENT RECITAL

A group of piano and voice pupils of Mrs. Maude Snyder presented a recital at the Methodist church last Friday evening and the program was reported as being nicely presented and highly entertaining.

Students taking part were: Marilyn Tucker, Winifred Eiler, Violet Friesner, Mitzie Meredith, Patsy Hawley, Leah-nell Lemler, Cara Lynne Fenstermaker, Norma Jean Creakbaum, Shirley Corwin, Martha Warren, Marilyn and Carolyn Lockridge, Mary Louise Bare, Marita Tucker, Carol Eaton, Martha Creighton, Mary Ellen Bryan, Shirley Igo, Mary Louise Summy, Jackie Blue, Barbara Metz, Malcolm Long, Alice Magazine, Virginia Rush and Rowena Haymond.

ROYAL BLUE MARRIED

Royal Blue, son of Mr. and Mrs. Pete Blue, and Miss Ruth Johnston were united in marriage June 15th in Los Angeles, California.

Clark Ernsberger is in the hospital at Rochester for observation and treatment.

YOU SHOULD BE INTERESTED IN GOVERNMENT

Someone may ask, "Why should I be interested in government?" The answer is, "You should be, you're paying for it."

When the American people place the same value on the government dollar as they have on the private dollar, we will have less government and consequently less taxes. When a man buys a pair of shoes or a new hat, he demands quality in both material and workmanship. That same man may not even take the time to vote for officials to run the city hall, the county court

house, or administer the affairs of the state and nation. Yet those same Indiana officials will spend \$120 million a year to run the county and township business and \$170 million to operate the state government.

In addition to the nearly \$300 million that the local and state governments cost, the Indiana taxpayers paid the federal government \$607,449,391 in corporate and individual income tax and \$320,641,509 in inheritance and other federal taxes during 1945.

The per capita cost of government in Indiana during 1945 was \$384.60 for three and one-half million citizens.

LAW VIOLATIONS

Ninety per cent of law violations in America are caused through liquor, asserted Mrs. Camille Kelley, juvenile court judge and domestic relations court jurist of Memphis, Tenn., speaking to nearly 600 persons Monday night in the Rodeheaver music center, formerly the Christian temple, Winona Lake. Although it was 9:25 p. m. before judge Kelley arrived and she spoke until 11:30 p. m., very few of the large audience left before her address was completed. Even at that late hour many persons went to the platform where she was besieged as in a reception.

Judge Kelley laughingly told her audience that she was not more than 15 minutes late because when she was invited she was not informed that Winona Lake is on daylight saving

time. Judge Kelly came here under the auspices of the Anti-Saloon League training school now in session in the Westminster chapel.

COUNTRY NEIGHBORS MEET

The Country Neighbors club met recently in the home of Mrs. Uda Maxwell with Mrs. Mary Beeson as assistant hostess.

The meeting was called to order by the president, Mrs. Mildred Meredith. The song of the month, "Let Me Call You Sweetheart," was sung in unison. Roll call was answered with each naming their favorite flower. The minutes were read and approved. The creed was repeated by all. Business topics were discussed and then all retired to the spacious living room where Mrs. Emma Zolman and Mrs. Kathryn Teel had planned a mock "Tom Brenaman Breakfast in Hollywood," and all wore cleverly made hats. Mr. Bowen, from Armour's, was there taking moving pictures of the group to be shown them at a later date.

There were twenty members, four guests and nine children present.

The July meeting will be held at the home of Mrs. Beulah Cook.

**DEMOCRATIC CONVENTION
NOMINATED TOWNSEND**

Clifford Townsend, former Indiana governor, Tuesday, was nominated as a candidate for United States senator by the Indiana Democratic convention.

The convention, according to press reports, was a rather drab affair compared to some of the conventions in the hey-day of the Indiana democratic machine.

The democratic platform, however, did recognize the fact that the people should have a choice in selecting their political candidates for the state and national offices instead of the steam-roller, subsidized and gangland tactics usually employed.

Richard Manwaring, Dale Kelley and Chet and Wilber Smith returned Sunday afternoon from a week's fishing trip into Canada. Dick managed to garner most of the publicity angles by landing a muskie weighing about 25 pounds.

FIRST FULL LOAD OF LUMBER CARRIED BY CARGO PLANE

History was made on April 4, 1946, when a full load of lumber, weighing approximately 5,000 pounds, was flown by cargo plane from Portland, Oregon to Galveston, Texas, marking the first time that a quantity shipment of this kind was ever made by air. Shipper on this noteworthy occasion was the Long-Bell Lumber Company of Longview, Washington; the receiver was the Maurice Angly Lumber Company of Galveston, Texas, and the carrying agent was the National Skyway Freight Corp., otherwise known as the "Flying Tiger" line because of the fact that the pilots and principals are drawn from the famous "Flying Tiger" forces. Ground and air transportation forces were smoothly coordinated in getting the lumber from the stockpiles of the Northwest to the ultimate consumer of the Texas lumber company.

The lumber shipment was inspired when a retail lumber association, holding a convention in Galveston, needed 3500 board feet of top grade Douglas fir paneling for auctioning purposes. Proceeds of this auction were to be donated for a memorial to Texas lumbermen who had lost their lives in the war.

Since immediate delivery was essential, air transportation was chosen for the principal leg of the journey. The 3500 feet of choice fir lumber was load-

ed onto a modern new truck, recently delivered to the lumber company. The truck rushed the lumber from Long-Bell's retail yards in Longview to the Portland Columbia airport at Portland and directly to the receiving doors of a big C-47 Conestoga cargo plane of National Skyways. Transfer from truck to plane was readily accomplished on a natural level, so that there was no undue lifting or lowering. In a matter of minutes from the time the big truck arrived at the airport, the cargo had been transferred to the extensive hold of the plane.

With Captain H. J. Wall, who used to fly the "Hump," acting as pilot; and Captain Mack McKay, late of the 8th Air Force, acting as co-pilot; the big plane rose into the air and headed by direct air route for Galveston. Not many hours later the big skybird and its cargo had settled onto the landing strips of the Texas airport where a truck of the Maurice Angly Lumber Company delivered the lumber to its final destination. As a result, the lumber which had reposed in a Washington yard one day was in the hands of a Texas customer the next, all thru the use of high-speed air transportation and carefully and efficiently coordinated ground links.

This is a significant example of what may be expected on an ever-increasing scale in the air cargo field in the future.

SAVE SIX FROM LAKE.

Six Kokomo young people owe their lives to Mrs. Oscar Mansfield of Rochester, and her nephew, John L. Harlem, of Wabash, who rescued them on Monday night when their boat capsized in Lake Manitou.

The young people, whose names were not learned, were boating and swimming. A short distance south of the Colonial Hotel the three boys stood upon the side of the boat and dived into the water. When they did this the metal boat filled with water and sank. The three girls screamed for help and Mrs. Mansfield and her nephew were first to reach them. Mr. Harley suc-

ceeded in saving two of the girls, one who couldn't swim and the other a very young girl. The third girl was able to swim and reached the boat safely. —Newcastle Reporter.

Games Wednesday Night, June 19th

MENTONE LUMBER CO. vs CO-OP.

One of the best games of the league so far, was played Wednesday night as the Mentone Lumber Co. eked out a slim 7 to 6 victory over the Co-Op's. The Co-Op team were masters of the game nearly all the way with a three run margin and it appeared that victory "was in the bag." It might have been overconfidence on the Co-Op team that turned the tide or just some good breaks of hitting on the part of the determined Lumber Co. team because in the first of the 6th the Lumber Co. went on a rampage and scored 6 runs to give them a 3 run margin. Despite the fact that the grounds were wet in spots only a total of 4 errors were committed by both sides. Possibly the major reason for victory of the Lumber Co. team was their well organized coaching at the bases. The Co-ops lost several very important runs because of the lack of a coach at third base and which could have won the game. P. Horn (op) and Linn (co) formed the battery for the Lumber Co. Horn struck out 5 batters, allowed 4 walks, 14 hits and his team committed 1 error while Glen Blue, pitching for the Co-ops, allowed 12 hits, 1 walk struck out 3 batters and his teammates committed 3 errors. Win, stone served as catcher. Mentone Lbr Co. 0 0 2 0 0 6 8-12 1 Co-Op 3 0 0 2 0 0 2 7-14 3

PETE'S LUNCH vs STOCKYARDS

One of the biggest surprises of the softball league so far was pulled off Wednesday night when the Stockyards team completely humbled their opponents to win 13 to 8. The score fails to indicate the real game that it was as a total of 13 runs were scored in the last inning frame while up to that time the run margin that the Stockyards held was only 2 precious runs. In the last of the 6th, the Stockyards "teed off" on Molebash and scored 8 runs on 6 hits. In the first of the 7th, Pete's Lunch had two outs when they started a rally that gave their opponents enuf of a scare to bring about the calling of "time" to talk it over for at least three different times. There might have been another reason behind that, other than the fear of getting another trouncing. How about it, Macy? Several additions to the Stockyards team has helped Mosier connected for a homer in the 4th driving in a run that again placed his team in the lead. Duzan hit 3 times out of 4 to help strengthen the batting power of his team. Estel Smith started the pitching for Pete's Lunch and was doing a fine job. He only allowed 5 hits but he found himself in difficulty in allowing 6 walks in the first two innings. Molebash replaced him in the last of the 7th. Smith allowed 5 hits, 6 walks, 5 runs and struck out 2 batters while Molebash allowed 8 hits, 2 walks, 6 runs, struck out no batters and his teammates committed

4 errors. Boganwright gained a pitching victory by allowing 11 hits, 3 walks, 8 runs. He failed to strike out a batter while his teammates were committing 8 errors.

Stockyards 2 1 0 2 0 8 13-11 8E
Pete's Lunch 0 0 1 2 0 0 5 8-11 4E

Corrections on Last Week

Griffis made the double play instead of P. McGowan as recorded in the game with Igo's Grocery and Pete's Lunch. Attention was called to my error of an illegal pitch. A player isn't entitled to his base nor do base runners advance on an illegal pitched ball. The pitch is recorded as a ball and the batter may advance only if it is the fourth called ball.

Highlights of Wednesday Night

The lack of spectators on the bleachers—Few cars parked to watch the game. Explanation: Many thought it would be too wet to play, including "yours truly." I arrived about ten minutes before game time. Thanks to "Macy" Nelson's phone call informing me that the teams were warming up.—Lions Club meeting—The great Louis and Conn fight that so many stayed home for. Did I say great? Pardon me! Thanks to Mr. Griffis for allowing me to share his car radio to hear the "fight." I think more people would have enjoyed a much more thrilling evening if they would have seen these two softball games—Damp spots on the infield, especially at home and third—Sawdust being brought in to fill up the muddy spots—Another swell one-handed catch by Long on first base—a beautiful one-handed jumping catch by Pete McGowan retreating Teel when it looked like a sure Texas leaguer—Runners overrunning third base and being tagged out as they fell down—McKinley pacing up and down the coaching lines calling for a rally and taking some good natured razzing—Duzan making a fine running catch to retire McGowan—A beautiful shoestring catch in right field by Sarber that saved three runs from scoring—Hersberger falling down in stopping a hard hit ground ball and throwing out Teel while on his knees—Some good natured kidding of someone on the Co-Op team about a goat in the stable—A number of double plays in both games—Exceptionally large number of players being forced out at bases because of their inability to get away on the damp ground—The unusual play on a pop up on first base line: Nelson called for it. Boganwright tried to help and ran into Nelson. Nelson juggled it back over his head. Whetstone came out fast from catcher's position and caught it just before it hit the ground in time to make a double play at second. The runner had gone clear to third as it looked like a sure error—The noticeable absence of Slabough from the Lumber Co. team—A nice white chicken wandering around the batters' bench until grabbed. Save me the drumstick.—Two unusually good

games with a large number of fine plays despite the bad grounds condition.

Games Friday Night, June 21st.

Johnny Davis marked up his fourth pitching victory as his teammates gave him good support in his allowance of 5 hits. The boys in their new uniforms were feeling "high" and the excitement bothered their batting eye for the first two innings as they failed to get a hit. In a rousing 6th inning they garnered 5 hits and 8 runs with the crowd getting a big "kick" out of their playing. Donnie Butt raised his batting percentage by benging out three hits in four times to the plate with one being a triple and the other a homer. Adam Blue, the smallest player on the team, finds it difficult to get a bat that isn't bigger than he is, but that didn't stop him from swinging. These boys are buying their suits by selling pop corn and they appreciated the support that you gave them. I want to take this time to thank those parents and friends that helped in the popping of the corn for these boys. Thanks again to the man who came up to me after the game and donated 50c to the suits. These boys have now won 8 straight games without a single defeat and if you fans will come out this coming Friday night to the All Star game, you will see them play the preliminary. They have as their opponents, the Rochester Cub Scouts. I think the Midgets are now ready for some stiffer competition so here it comes. Let's win this one for the fans and keep the slate clean.

LIONS ALL STARS vs.

LEEDY ELECTRIC of WARSAW

For five innings the game moved along very fast with neither side gaining much of an advantage. In the 6th and 7th inning the time bomb must have gone off for the All Stars. They batted completely around in both innings and made 15 circuits on 11 hits. I think I shall be in the market for some new type scoring book for this type of an inning. Linn took a hard hit ball in the 6th inning in deep right field and returned the ball to Hibschild on 1st to complete a nice double play. Linn, Slabough and Glen Blue each smacked out homers to add to the scores. Linn had the distinction of accounting for 4 runs as the bases were loaded as he "teed off." Glen Blue and

LEAGUE STANDINGS

IGO'S GROCERY 17—

STOCKYARDS 3

Igo's Grocery won their first game to share the cellar position with their opponents. Four of Igo's players quit to play in the Akron league and two new members were added. Rush served as catcher for his inauguration and Joe Boggs took over the pitching duties and did a fine piece of tossing.

Igo's 5 0 3 2 2 0 5 17—16 2E

Stockyard. 0 0 0 2 0 1 0 3—8 11E

BURKET 10— LUMBER CO. 8

The big game to decide the first league position was settled with the nod being given to the Burket squad. The game was well contested all the way with frequent interruptions on certain decisions which each team felt to be the way they looked at it. Nellans slapped out a homer in the 5th to give his team another shot of enthusiasm. D. Goshert did a fine job of pitching but had splendid support in the pinchers. Most all pitchers now have Bowser's number as he continues to let the first pitched ball go for what it may. Hats off to Umph Estel Smith for really being emphatic on his decisions. Decisions rendered in that manner gives respect to the ump even though at the time, someone has to disagree. It also prevents loss of time and pres-

tige as an ump who lets himself get rattled or gives in on an argument is in for endless trouble on all further infractions. A large crowd was on hand to see the game and was enjoyed because of the intense rivalry for the coveted top position.

Lightning rods at the Co-Op. Hdwe.

Hopes for universal driver training among high school students soared this year when the Illinois and Indiana state boards approved new plans for the 1946-47 school years.

Recognizing the inability of some school districts to provide the facilities for a course that would employ full time instructors, dual control cars, and a full semester of regular classes, the schools will now have an oppor-

tunity to work out a plan of combined class-work and home training.

Full details of the proposed plan will be forwarded to all school superintendents this fall by the Chicago Motor Club. The club has offered to train the instructors, provide the work sheets for home training that will require the assistance of an adult member of the family and use of the family car, and provide text books at cost.

INDIANA STATE FAIR GIRLS' SCHOOL TO OPEN AUGUST 28

The Indiana State Fair School of Home Economics will hold its twenty-fourth term in the Youth Building on the Indiana State Fairgrounds this year

from August 28 through September 6. Girls with exhibits in the fair will be permitted to stay until September 7th. The fair will run from August 30 thru Sept. 6.

The State Fair school is held each year in order that young women of Indiana may receive practical training in the art of homemaking and receive educational advantages of the fair.

Through co-operation of Indiana colleges and universities, the Indiana Board of Agriculture awards several scholarships to girls coming from the upper third of their high school graduating class who make outstanding records at the state fair school. Girls receiving these scholarships must use them not later than the opening of school in September of the year following the award.

The Indiana Board of Agriculture also offers twelve scholarships, valued at \$15 each, for the 1947 State Fair school, to girls making outstanding records this year.

It will be possible to accommodate three girls from each county. The application must be made by July 1st. Each applicant must receive endorsement of the member of the Indiana Board of Agriculture from her district and applications must be approved by the county agent. Applications must be in by July 1st.

The school is open to any girl between 16 and 22 years of age. However,

girls who have any college training, those married or who have previously attended are not eligible.

Each applicant must be in good health and able to perform the duties required during the school term.

On entering the school a fee of \$15 must be paid to cover cost of food materials and help with other expenses. This fee, plus traveling expenses, must be borne by the organization sending the representative. However, if a girl has no organization as her sponsor, she may have her application approved by the proper authorities and pay her own expenses.

Address all inquiries to Mrs. Clyde

D. Williams, R. R. 2, Box 457, Indianapolis, Ind.

MAKE TOUR OF NEW PLANT

Miles and Charles Manwaring attended the opening of Swift & Co's. new soy bean mill at Frankfort, Ind., last Thursday, as guests of the manager, Mr. Sam Hollett. They participated in a tour of the new plant and attended the dinner in the evening where Dr. F. L. Hovde, president of Purdue University, Gov. Gates and President Holmes of Swift & Co. talked to some 250 friends and guests.

The plant has a daily capacity of 150 tons, with storage capacity of over one million bushels.

ANIMAL HEALTH COLUMN...

By R. A. MARRIOTT

Hog Cholera has always been rated as "Disease Enemy No. 1" of swine. During the last few years however, that infector has had a close runner-up in the disease of enteritis in swine, which disease is probably more generally distributed than its competitor. Too, enteritis is far more subtle in its actions and by far harder to control than is hog cholera. The control agent of the latter is specifically by the use of anti-hog cholera serum and hog cholera virus administered simultaneously. Until recently when the Lederle laboratories released the product, Sulfaguanidine, the control and curative agents of enteritis had been rated somewhat as a "hit and miss" combination of sanitation and biological and medicinal administration.

Infectious enteritis of swine is not caused by a specific organism but by a group of germs. The disease is capable of attacking swine of all ages but it is principally destructive to weanlings up to 150 pound swine.

The disease most generally has its inception in the suckling pig as necrotic enteritis (necro). This infection is so generally distributed and so thoroughly imbedded on the premise where swine have been constantly raised that the udder and teats of the sow coming in contact with this soil infection, provide the medium of entrance of the disease to the nursing pig. The responsible organisms in the majority set up a slow, insidious disease propagation in the large bowel of these infants. Here they slowly produce ulcers.

Occasionally this infection steps up in its activity, denuding the lining of that bowel, hardening and destroying its function to assimilate nutrition. In such case there results a scurvy, unthrifty, runty pig. Pigs of such clinical aspect should be immediately destroyed for they are thereafter ne'er do-wells and a potent source of infection to the rest of the herd. Too, such pigs are an indication that the same infection in generative form most probably exists in other members of the herd.

This part of the disease picture is easily detected and eliminated, but not so in the majority of this infection. The ulcerative process slowly continues without becoming apparent in the appearance and growth of the pigs, until something occurs to convert this latent infection into an acute disease.

There is in the intestinal tract at all times a group of organisms which normally are non-disease producers, but which will under adverse conditions join force with the outside infectors to increase the disease picture. This is the case in necrotic enteritis.

The provocative stimuli to this latent bowel infection may be a sudden change of diet, faulty nutrition, sudden change in weather, from the normal, necessary virus fatigue and in many cases reaction hog cholera immunization. Any of these might disturb or set afire this latent infection whose forces are then joined by the normal intestinal group of organisms provoked into a rampage and the pigs so infected will come down with an acute, destructive form of enteritis which becomes infectious to the rest of the herd or to any other swine which are exposed thereto. Extensive sudden to protracted losses occur in many herds each year made responsible by this group of disease organisms.

The progressive swine raiser of today and most certainly of the future will condition his pigs when weaned to assure against losses by this hidden foe.

When the pigs are weaned he should put them on a conditioning diet, negative in heat producing protein and fortified by vitamin and a specific medication. Not only should his weanlings be so protected, but any pigs which he brings onto his place as purchased from another farmer or through a public sale. These latter he should keep isolated from the rest of his herd during their conditioning period.

Rational dictate should be the method of conditioning such pigs. In that the developing disease is a progressive ulceration in the large bowel, the conditioning must aim at the elimination of this condition.

A diet formula comprising a low protein to cool the feverish bowel, soothe the ulceration and promote healing of the lesions is paramount. With this diet a medication must be given which will destroy the infection and establish the pig on a normal, healthy productive status. A diet and medication of such design is represented in the following formula.

3 bushels whole crushed oats,
15 gallons of buttermilk (semi-solid dairy or powdered)
1 1/2 pounds of yeast (stockman's or brewer's)

Mix thoroughly and let set over night in a temperature protected place to promote yeast action. The following morning just before feeding, there is to be added to this formula 1/2 pound of Sulfaguanidine, thoroughly mixed. This formula should be fed exclusively to the pigs, mixing each batch the night before feeding the following day. The diet should be fed with the Sulfaguanidine incorporated for five days and continued for another ten days without the drug.

The results of such a formula are well founded, i. e., the crushed oats

by the roughage of the hulls loosens the ulcerative processes; the acidity of the buttermilk reduces the activity of the infection; the yeast by its high vitamin B content, promotes healing of the ulcerative lesions; the Sulfaguanidine is specific for the destruction of the infection. By such conditioning the probable infection of these weanling pigs is eliminated.

The amount of this formula as above shown is sufficient for a one day feeding for 65 weanling pigs and proportionately less in accommodation for larger swine. After the term of feeding, this diet should be gradually replaced over the next week by the ration on which the pigs will be maintained. A sudden change from this low to a high protein diet might cause a disastrous protein shock.

In case of a herd of swine showing signs of enteritis, it should immediately be taken off all other feed and maintained exclusively on the above feed formula with the Sulfaguanidine incorporated in amount of 3/4 pound to the formula and kept thereon for a period not to exceed ten to fourteen days.

If the ingredients for this feed formula cannot possibly be obtained it should be approached as closely as possible, in moist form, and using therewith 1/2 pound of Sulfaguanidine to the hundred pounds of feed for the sick pigs taking food voluntarily. Animals clinically sick and failing to take food normally should be given Sulfaguanidine in tablet form, 1.5 gm. to 10 pounds body weight daily divided into two doses, morning and evening, not to exceed 10 to 14 days.

RIFLE SHOT ENTERS WALTER WILSON HOME

Members of the Walter Wilson household heard something enter the kitchen the other day, and although they presumed it to be a rifle shot, couldn't see where it entered the room or where it landed. Closer inspection disclosed a tiny hole in the screen, near a wooden piece of the screen door and they then found the bullet imbedded in the wall. The bullet entered the door about 30 inches from the floor and luckily, the Harold Markley boy, who had been playing on the porch, had stepped away just a few moments before, otherwise the bullet could have killed him.

A similar case happened a few weeks

ago, practically on Main street, when a rifle cracked and soon after the bullet whined past another Mentone citizen a dog whimpered down the alley going as fast as he could. Another member of the "rifleman's" household yelled to ask "if he got him," but the reply wasn't too audible in the ears of the citizen across the street who nearly stopped the slug intended for a hound.

The riflemen involved in the two instances above were seen with their weapons, but there have been other instances recently where folks with rifles have been shooting in any direction, at almost anything for a target, with absolutely no concern or consideration of where the bullet might eventually land or what might be in its path. They handled the guns the same as they did their cap pistols and celluloid guns a few months ago.

It would be better to consider these tragic possibilities now than have to ponder over them some 2-14 years under more confining circumstances.

Mr. and Mrs. Raymond Cooper and son David were Sunday visitors with relatives in Swayzee.

○ ○ ○

Mr. and Mrs. Fred Lemler, who spent the past two weeks sight-seeing and visiting in New Haven, Conn., returned home Sunday evening. Rev. and Mrs. John Knecht, who have been in Yale, returned with them and will spend a short vacation here before going to their appointment as missionaries to China.

You are ever welcome to this house of God

Special music at each service.

Workers Prayer Meeting 9:15 A.M.
Everyone welcome. Teachers and of-ficers are expected to attend.

For Betterment of Mankind

One thing is certain. Had it been possible for the influence of the Sunday School to have reached as boys the men who are responsible for the world of war today, there would have been no war.

If the teaching of Jesus Christ can be firmly implanted in the hearts of young people, their influence as they grow older is always for the betterment of mankind. The Sunday School is the established medium for such instruction. It is estimated that in the United States we have some fifteen million young people who are without religious instruction. The influence of the Sunday School on the lives of these boys and girls if they can be reached, might well prevent another world holocaust, and would certainly do much to establish God's kingdom here in our own nation.

The Sunday School merits the support and approval of every citizen—J. L. Kraft, Chairman of the Board, Kraft-Phenix Cheese Co.

NOTICE TO WAR MOTHERS

World War II Mothers will hold the next regular meeting in the school house July 10th at 8 o'clock. Please come, hear the report of the national convention and plan for the district meeting to be held here July 31.

Mr. and Mrs. Miles Manwaring and Mr. and Mrs. J. W. VanGilder were Saturday evening dinner guests of Dr. and Mrs. D. J. VanGilder in Akron.

Hobart Creighton, who recently received delivery of his new airplane, an Ercoupe, states that he flew from his Ohio farm at Boling Green, to his farm near Atwood, in one hour and seven minutes. This is just another example of how valuable air travel is going to be in any modern and up-to-date business. The question in our mind has always been: How could Hobart handle the various business and public responsibilities he has even if he had a dozen planes?

Mr. and Mrs. Charles Good spent Sunday evening as the guests of Mr. and Mrs. Lou Grove.

Mr. and Mrs. Frank Mikesell, of So. Bend, called on friends here Monday.

TO GATHER STATISTICS IN LUMBER PRODUCTION

Canvass of sawmills in representative counties of Indiana by the United States Forest Service for the purpose of determining 1945 lumber production will begin this month. H. L. Mitchell, Director of the Central States Forest Experiment Station, Columbus, Ohio, will be in charge of the work. Small sawmills will be contacted in about half of the counties and a complete coverage will be made of the larger mills.

The following Indiana counties will be canvassed: Brown, Clark, Daviess, Dearborn, Dubois, Franklin, Greene, Jackson, Lawrence, Morgan, Owen, Perry, Putnam, Ripley, Spencer, Vanderburgh, Warrick, Knox, Clay, Clinton, Delaware, Huntington, Porter, Pulaski, Tipton, Vermillion, White, Kosciusko, Laporte, Steuben and Wabash.

In these sample counties field personnel of the Experiment station will call on all sawmill operators. The enumerators have been appointed special agents of the Bureau of the Census, the agency making the final analysis of production statistics. In-

formation obtained will consist of name and address of mill operators and the volume of lumber and sawn ties produced in 1945.

Data obtained by the special agents is accorded confidential treatment subject to the provisions of the law. Reports are used solely for preparing statistical information and cannot be used for purposes of taxation, regulations, or investigations. All employees engaged in the canvass are under oath for the purpose of protecting the confidential nature of the information.

ROYAL NEIGHBORS

The R. N. A. Camp will hold its next meeting July 2 with a pot luck supper at 6:30 at the home of Mrs. Pearl Smith.

ORACLE

Mr. and Mrs. Jack Emslie, of Winona Lake, were here on business Saturday afternoon.

○ ○ ○

Mrs. C. M. Adams, of Grand Rapids, Michigan, is visiting in the home of Mr. and Mrs. Howard Kohr. She is a sister to Mr. Kohr.

NO TRICKS

SORRY, we cannot promise to pay you unreasonably high prices for your eggs one week, only to be forced to cut the prices promised, the following weeks.

SORRY, we have no nylon hosiery, and no overalls. We are just egg merchants. And, we just don't do business that way.

BUT, we DO promise to pay you the VERY BEST LEGITIMATE PRICES you can get in New York, at ANY TIME.

LOCAL NEWS

Mr. and Mrs. Clyde Bruh visited on Thursday evening with Mr. and Mrs. Ote Darr.

Mary Linda Jones and Paula Jean Jones, of Elkhart, are spending a few weeks with their grandparents, Mr. and Mrs. Vernon Jones.

Don Rush, son of Mr. and Mrs. Ray Rush, had his tonsils removed Wednesday at the McDonald hospital at Warsaw.

Mr. and Mrs. Floyd Blackwell and daughter Josephine and Carol Shirey, of Palestine, spent Sunday at the Wm. Fisher home.

Mr. and Mrs. James Mentzer and son and daughter of Chicago, were week end guests of Mr. and Mrs. M. O. Mentzer and Annabel.

Mr. and Mrs. James Sarber, of Warsaw, are the parents of a daughter, Sara Louise, born June 15 at the McDonald hospital at Warsaw. Mrs. Sarber is the daughter of Mr. and Mrs. David Ellsworth of Mentone. The paternal grandfather is Isaac Sarber, of Port Wayne.

Mr. and Mrs. Goodrich and family of Baltimore, Maryland, are the guests of Mrs. Goodrich's parents, Mr. and Mrs. Alva Shunk.

Mrs. Faye Stewart, of Warsaw, called on friends here on Thursday afternoon. Mrs. Harrison of Atlanta, Ga., formerly Miss Lillian Burket, is visiting her parents, Mr. and Mrs. Marcus Burket.

E. M. Maggert, an old time resident of Mentone some 40 years ago but now of Silver Lake, and Glen Miller, realtor of North Manchester, spent Tuesday in Mentone visiting friends.

Elizabeth P. Borton, Mentone, has been given a divorce from Ralph P. Borton on grounds of cruel and inhuman treatment, with Mrs. Borton receiving custody of two children, Rex and Sue Ann, and with Mr. Borton being directed to pay \$10 weekly for support of the children and fees for Mrs. Borton's attorney.

Mr. and Mrs. Elias Smith were fishing at Crystal Lake Saturday and had a nice catch of bluegills in tow when they neared the boat landing. However, Elias forgot and moved over onto the same side of the boat as the anchor and it upset in the shallow, muddy water. Both managed to rescue themselves and still save the fish in addition to the boat and anchor.

Mr. Isaac Kesler, of west of town, who has been very ill, shows improvement slowly.

Mr. and Mrs. Clarence Brown, who made an extensive trip through the west, spending several weeks in California, returned home Thursday.
