Heart Attack Fatal To William Boggs, 81

William Archer Boggs, 81, died at the home of his son Stanley Boggs near Mentone. Death came suddenly at 7:30 a. m. due to heart attack. Mr. Boggs had not been in poor health.

The deceased was born in Wayne township, the son of William Bowen Boggs and had spent most of his life in Indiana. He wife preceded him in death June 16, 1934.

Survivors include the following children: Stanley, with whom he made his home, Birch of Fort Wayne Dale of Goshen, Walter of Minneapolis, Harry near Warsaw, and Mrs. Cuda Forrest of Los Angeles, Calif.

The funeral arrangements have not been made at this time.

Guest Conductor To Appear With High School Band

On Friday night, March 22, at 8:00 the annual school Musicales will be presented in the Community Building. Mr. Kraning, who was formerly director of the Marching and Concert bands at Manchester College while a student there, will direct several numbers. Mr. Kraning's band and ensembles have won wide acclaim and the students of our local band consider it a real treat to have this opportunity to play under his direction.

The band has been increased to thirty-two members and the improved instrumentation adds greatly to the general tonal effects that can now be obtained. Three new instruments of major interest are the bassoon, played by Lillian Nettrouer; the oboe, played by Malcolm Long; and the flute, played by Carol Weissert.

Another attraction this year will be the Tonnette Bands. There are two groups. One is composed of students from the 3rd and 4th grades and the other from the 4th, 5th, and 6th grades. Each of these groups will play several numbers.

This year the High School Chorus is composed of both boys and girls. The chorus will sing two well known numbers, "I Dream of Jeannie" and

Looking for More Trees to Tap

"Grandfather's Clock."

Several soloists who will compete on March 30 in the district contest at Berne, Indiana will appear. Among them will be our contest winners of last year—Barbara Creighton, clarinet, and Forest Miner, baritone. The Saxophone Quartette, a new organization for the school will also play several numbers. Jack Dillman, bass, will play his contest solo, and Iris Elackwell and Belva McGowen will do some trumpeting on "My Buddy" a cornet duet.

There will be no admission charge for this concert and the public is cordially invited to attend. A free will offering will be taken.

Next week the entire program will be published.

CHAMELEON DIES

The second graders of Mentone school went into mourning last week when their pet chameleon died. The little fellow had been under the care of Nurse Sally Myers since an enthusiastic admirer broke its tail a few weeks ago, but her heroic efforts were to no avail.

Complications, resulting from the shedding of his skin was the direct cause of his untimely demise.

Promotion Talk Given At Mentone

Nearly 50 of Mentone's business men, live stock and egg producers attended a promotion meeting Friday night in the recreation room of the Mentone Methodist church.

The meeting was held in connection with the Greater Mentone community project which was inaugurated the first week in January of this year for the purpose of advertising the present industries of that community and attracting new industries to the town.

Victor Lane, who is employed by the project as director of the program, introduced the speaker of the evening, J. H. Albershardt, of Indianapolis, director of the Indiana division of state publicity.

Mr. Albershardt told the story of how the division of publicity was created as the result of a need to prevent business interests from removing to other states already having nation-wide publicity programs of several years' standing, and to publicize the many advantages of Indiana, which, he said, are known

to be superior to those of any other state in the union.

He related many interesting facts about the industry and agriculture of the state, citing more than a score of businesses in which our state leads in both investment and volume of production.

The present program being carried on by this department was described and its relationship to the individual communities shown. He brought out the fact that any and all efforts put forth by an intelligent publicity program by the state would eventually benefit every section of the state because increased industrial activity in one sector creates added demands for foodstuffs and other common commodities produced within the state.

Albershardt's talk was well received by those in attendance and the several ideas he offered as additional avenues of action by the project were greatly appreciated by all.

Much favorable publicity has already been given the project in the newspapers. Stories about the Mentone egg show to be held on April 24, 25, and 26 will appear soon in a number of farm magazines with national circulation.

Mrs. T. J. Clutter Entertains Sorority

Mrs. T. J. Clutter was a charming hostess to members of Beta Epsilon chapter of Psi Iota Xi sorority Thursday night. Fourteen members attended the business meeting, presided over by the president, Mrs. Curtis Riner. At the close of the meeting Mrs. Cecil Long conducted a Quiz relative to the founding, purpose, responsibilities, and by-laws of the sorority, as set forth in the Constitution.

A surprise wedding shower was given Miss Jessie Rush, who will become the bride of Max K. Hire of San Diego, California early next month. During the social hour Mrs. Clutter served choice refreshments to the following guests: Anne Sierk, Nell Reed, Charlotte Snyder, Mary Watson, Lucille Myers, Louise Long, Marie Nellans, Helen Hoffer, Geraldine Clark, Jeanette Mollenhour, Anna LeL Mentzer, Pauline Riner, and the guest of honor, Jessie Rush.

Dr. and Mrs. Robert Blue and son of Midland, Mich., have gone to Pittsburg, California. Where Dr. Blue will be employed for the next four months. Pittsburg is located near Berkeley, Calif.

Attend Beauty Convention

Mrs. Lyman Mollenhour and Miss Elizabeth Doran attended a Beauticians Convention at the Sherman Hotel in Chicago Tuesday and Thursday of last week.

REMOVED TO HOME

Mrs. Vern Baer was removed to her home in Tippecanoe from the Parkview hospital in Plymouth Friday.

Reader's Digest Recognizes Home Ec. County Choruses

The current issue of Reader's Digest carries an article concerning the rapid growth and uniqueness of the Home Economics Club Women's Choruses, an extension service of Purdue university. These choruses are made up of members of Purdue Home Economics clubs and meet at regular intervals to sing 'just for the fun of it'. They employ their own directors and their music as well as their method has gained national recognition.

Home Economic Choruses are the result of the efforts put forth by Albert Stewart, a Hoosier boy, who sang his way through Purdue university. After graduation the university put him at the head of a new department devoted to music. Today, due to his enthusiastic efforts, choruses have been organized in eighty-four of Indiana's ninety-two counties. Two Mentone women, Mrs. Claude Barkman, and Mrs. Cloise Paulus are members of the Kosciusko county chorus, whose music ranges from Bach and Brahms to folk songs and spirituals.

An auditorium is under construction at LaFayette, where at intervals throughout the year these choruses can met for a unified 'sing.'

FINDS WEATHER BALLOON

A weather recording instrument, the second found in this vicinity recently, came down on the Harry Eaton farm near Beaver Dam Lake last week. The balloon had been released by the U. S. Weather Bureau station at Baltimore, Maryland. It was found by Emmett Eaton, who will return it to the station and receive a reward.

The radio meteorograph ascends by means of a balloon, and records temperature of air, humidity and other data. It has a small broadcasting device which conveys the message to the station. Full instructions for returning the device to the Weather Bureau are secured to the apparatus so that when atmospheric conditions bring it to the ground, it can safely be returned.

A similar weather recording device was found and returned to its station by M. Roy Rush about six months ago.

REMOVED TO HOME FRIDAY

Mrs. Mase Nelson, who was a medical patient at the Woodlawn hospital last week was removed to her home near Burket Friday.

MOVE TO MENTONE

Mr. and Mrs. Ernest Igo of Bourbon have purchased the Tucker Grocery Building on South Franklin St. At present the Igo family are living at the A. L. Tucker home.

FARM TOPICS

STRIP CROPPING IS FARM ASSET

Steep Land Is Benefited by Contour Plantings.

By W. D. LEE

Erosion control and improvement of soil fertility are both accomplished by contour strips on steep farm land. And there is the third advantage from strip cropping in that it affords protection to terraces.

Many farmers in the erosion control demonstration areas, directed by the soil conservation service, are using strip-cropping to advantage.

On slopes where the fall is not very great, it is a common practice to have two strips in row crops and a third strip in a close-growing crop, alternating in this order all the way down the hill. But on steeper slopes, where the erosion problem is greater, it is advisable to increase the proportion of close-growing crops by sowing down every other strip.

The use of legumes in close growing strips enables a farmer to gradually improve the fertility of all fields, and at the same time protect them against erosion. Some farmers report a 20 to 25 per cent increase in crop yields since they first adopted the practice of strip-cropping.

By retarding and spreading runoff water, the strips of close-growing crops at intervals down the slope keep silt out of the flow lines of terraces and prevent them from overtopping. This is especially noticeable during heavy rains.

Usual Pasture Methods

Favor Horse Parasites

Parasites attacking horses and mules are favored by the usual methods of pasturing live stock on farms, according to Dr. Benjamin Schwartz of the U. S. bureau of animal industry.

Common methods of pasturing and the habits of horses are particularly favorable to the serious parasitic roundworms or strongyles, a group which also includes the hookworm as a parasite on humans. Parasite attacks lead to a weakness and poor condition and waste of feed and may disable or kill horses and mules if the damage is not checked. Timely medicinal treatment is a desirable aid.

Once an animal is attacked by these roundworms, the natural tendency is for the infestation to increase and to spread to other horses and mules. The eggs of these internal parasites are scattered in the manure where they hatch. They

are long-lived and persistent and can exist for months on the moist grasses in pastures where horses graze. Thus the animals take in parasites to renew and aggravate the cycle of infection.

For horse-breeding establishments where the high value of the stock warrants the expense, Doctor Schwartz points out the effectiveness of a relatively new heat treatment. Under this plan the manure is collected and placed in large insulated boxes where the natural heat, sometimes aided by steam pipes, raises the manure to a temperature that will kill eggs and larvae of the worms.

Hammer Mill Is Used

For Cleaning Seeds

By slowing the speed of a hammer mill, a grain grinder used on farms, soil conservation service workers have a convenient tool for cleaning the seeds of many of the trees, shrubs, and vines used in conservation programs. With it they have cleaned dry-shelled fruits such as locust, catalpa, and rebud, and fleshy fruits such as plums, grapes, hawthorns, apples, and berries.

To prevent injury to the seed, the hammer mill is operated slowly, often at only 400 revolutions a minute. With dry fruits the mill cracks the shells, but not the seed. The seed can then be cleaned with a fanning mill. With the fleshy fruits, the hammer mill smashes the pulp and a stream of water floats it away, leaving the seed on the screens of the mill.

The usual nursery method of separating seeds from pulpy fruits has been to ferment the fruits until the seeds either float to the surface or drop to the bottom of the tank. Experiments show that the fermentation process often injures the seeds so that they do not germinate freely. The hammer mill method of cleaning is not only cheaper, but with intelligent management of the mill to avoid injury to the seeds, it results in better-quality seed with a higher rate of germination.

Tear Gas Is Used

In War on Pests

Agricultural science is now making constructive use of tear gas, a weapon developed in the World war of 1914-18.

The gas is chloropicrin, a heavy, oily, colorless liquid which vaporizes readily. Applied to the soil with a device which operates like a hypodermic needle, it kills disease-causing fungi, insects and nematodes.

It is effective for the sterilization of seed beds. Extensive field use is limited only by its relatively high cost.

TO GIVE MUSICALES

The ladies of the Harrison Center Home Economics Club will sponsor a musicale at the Community Building in Mentone Saturday night, March 16 at 8:00 p. m. Included on the program will be a group of eleven radio and stage stars. Tickets are now on sale.

Girl Out on Tour for

43 Weeks Finds 43 Jobs

COLUMBIA, S. C.—After a 35,000-mile trek, Miss Lyra Ferguson of Reeds, Mo., is still looking for a job. She found plenty of jobs all right, but she wants more. In 43 weeks she found 43 jobs, each one in a representative industry of a different state. But she quits each one after a few days laboring.

The reason—she's writing a book. Miss Ferguson, who drives her own car, said she didn't depend on her jobs for expenses. She said she saved money for six years before starting the jaunt, and she has enough to see her through the remaining five states.

Among the things she has tried are milking cows, cooking, working on a dude ranch, washing greens and working in a cannery. In South Carolina she sought a job in the textile industry.

Melons Do Not Deceive

New Mechanical Taster

MINNEAPOLIS, MINN.—When it comes to sample-tasting muskmelons the tongue takes a back seat to a mechanical "taster" devised by two University of Minnesota horticulturists.

T. M. Currence and R. Larson of the horticulture department report building a small, tube-like apparatus which is a faster and more accurate melon sampler than the tongue.

The process is simple. A drop of melon juice is placed on a small plate and light passing through it reflects to show the exact sugar content or sweetness of the melon.

The "refractometer" is twice as rapid as the old method of personal tasting, Currence said.

Use 'Poison on the Cob'

For Jack Rabbit Plague

MITCHELL, S. D.—Federal forestry officials will employ "poison on the cob" as a weapon in combating the jack rabbit menace in North and South Dakota shelterbelt areas this winter.

The United States biological survey has ordered 2,000 bushels of poisoned corn for distribution in the young forests. The ears, treated with strychnine, are tied to stalks driven into the ground.

Jack rabbits, with an appetite for stripplings, damage thousands of young trees each winter.

Trapping Goes Streamlined

CORVALIS, MONT.—Ben McNeff has streamlined the pioneer job of trapping wild animals. He sallies forth in a radio and electrically equipped trailer and enjoys all the comforts of modern life while waiting for the martens, weasels, coyotes and badgers to step into his traps.

Atlanta Street Car Fare

Street car lines in Atlanta are planning a reduced non-rush-hour round-trip fare.

Card Of Thanks

Words cannot express the appreciation and thanks we wish to extend to the Mentone fire department and friends and neighbors who so faithfully assisted in every way during the recent fire which destroyed our home.

MR. and MRS. PETE BLUE and children.

DRIVES WARSAW R. F. D. 4

Allen Herendeen was the substitute driver for Ford Hardman, on route 4 out of Warsaw last week. Incidentally this is the longest route in the county. Herendeen is Hardman's regular sub driver.

SEE MOVIE MARATHON

Mrs. Sherman Bybee, Mrs. Carl Weirick and Mrs. Noble Oyler were in South End Tuesday of last week where they saw "Gone With The Wind."

ENTERED AT RILEY

Danny Hall, three-year-old son of Mr. and Mrs. Dan Hall of west of Mentone was taken to the Riley Memorial hospital in Indianapolis Friday morning for special treatment. The child has been suffering from a heart ailment and has been in ill health for several months. Mr. and Mrs. Hall reside on the Samuel Kelley farm.

EMMONS FAMILY MOVES

Mr. and Mrs. John Emmons and family have moved from a farm near Mentone to a farm on R. F. D. 3 near Warsaw.

LEAVES MENTONE

Mrs. Tillie Turner is now making her home with Mr. and Mrs. Turner Boggs at their new home near Mentone.

AT WOODLAWN

Mrs. Masa Nelson was taken to the Woodlawn hospital Monday night for medical observation.

SAMUEL BOGGS ILL

Samuel Boggs, was taken to a Fort Wayne hospital last week where he remains in a very serious condition.

Early Day Mexican Police

In the early days of Mexico there were few police. Each home traditionally was its own fortress. Today iron-barred windows everywhere remind Mexicans of those times.

Stranded Columbus' Voyages

During one of his voyages to America, Columbus was stranded for 12 months on the north coast of the island of Jamaica.

Mrs. Samuel Eiler died that week.

Bert G. Blodgett and Miss Amy L. Bradway were married at the bride's home in Mentone.

Mahlon Mentzer embarked in the hardwood lumber business.

HOROSCOPE

MARCH 11, 12—You are attractive and alert, good in application and have much business ability. Possess generally of good humor you can become disagreeably irritated. Your good humor is communicative and your jolly laughter creates a fine atmosphere for those about you. You are quite frequently worked by others and gain nothing in return. But you are not resentful even if you are somewhat impractical. You are good natured and a fine companion on pleasure trips.

MARCH 13, 14, 15—You like always to have something to occupy your time and are mentally and physically alert. You do not make any special demands on the attention of your friends of whom you always have an abundance. These friends are loyal adherents of yours. You are not of a self assertive nature, therefore your friends try to see that you get your just deserts.

MARCH 16, 17, 18—You have a yen for the accurate keeping of accounts and expenditures. You have a very happy nature and generally do more than you are paid for. You believe if you do your very best things will turn out O. K. and they usually do. Your dominant nature does not inspire the confidence of your associates. Gratefulness for kindness shown you is a chief characteristic.

Two Minute Sermon

By

Thomas Hastwell

ONE OR FIVE TALENT MEN:—In the parable of the talents we are told that to one man was given five talents, to another two, and to another one; to every man according to his ability. The parable then proceeds to tell of the use to which each one put his talents and the reward he received. This parable is one that every individual can take unto himself. Because of it every person can be assured that God has given to him some measure of talent. It may be that he has received five talents, or two talents or perhaps but one talent. Whatever measure of talent has been given an individual the parable makes clear that God is not going to judge him by the amount he accumulates, be it much or little. He is going to judge him in proportion as he has used the talent he has been given. The one talent man may be entitled, in the eyes of God, to more

praise and more approval than the five talent man. God will not measure by what one has but by what he has done with what he has been given.

It is a comforting thought to those of us who feel that we are among the one talent people and that because of it God isn't going to overlook our sincerity and our effort.

FOR MOTORISTS

Motorists are going to spend about 38 million dollars more for gasoline this year than last, according to Charles M. Hayes, president of the Chicago Motor club. Including taxes, the average price of motor fuel throughout the nation on January 1, 1940 was 18.95 cents per gallon, as compared to 18.76 cents on January 1, 1939 and 18.93 cents on December 1, 1939, he said.

-oOo-

If breaks are set tightly while the car is being washed there is much less chance of the brake lining becoming wet enough to affect braking efficiency.

-oOo-

If you are kept busy paying for new headlight globes, have your mechanic check the battery terminals of your car. Loose or corroded terminals frequently cause bulbs to burn out rapidly.

Soybean Poultry Ration

An increased use of soybean oilmeal in poultry rations has taken place during the past few years. A protein supplement made up of soybean oilmeal has been found to promote growth in chicks.

Pulp Magazines

A pulp magazine is a magazine printed on inexpensive, rough paper containing a high proportion of wood pulp.

Accommodating Judge

Justice of the Peace Ward Rush accommodated Frank Clark of Tulare, Calif., when Clark came into justice court with the request, "Put me in, judge; I want to sober up." The judge gave Clark a 10-day sentence for intoxication.

Principal Virtues

According to the "Analects of Confucius," the principal virtues were love, which is the root of all others; justice, reverence, wisdom, sincerity and filial piety.

Marriage License Laws

Fifteen states have marriage license laws compelling applicants to produce medical certificates.

English Child Labor

In England 111 years ago a bill to limit labor of children to 12 hours a day in cotton mills brought this protest: "The bill actually encourages vice—it establishes idleness by act of parliament."

CHOOSE DESSERT TO FIT MAKEUP OF MEAL

(See Recipes Below)

What Shall I Serve for Dessert?

To most of us "something sweet" served at the close of a meal is as important as the main dish itself. For dessert, men undoubtedly have a penchant for such substantial item as pie, ice cream and chocolate cake; but they seem to like the homey, less spectacular desserts almost as much. Baked apples, old-fashioned apple dumplings, rice pudding and fresh fruit desserts are masculine favorites and they're simple enough to suit the youngsters of the family, too. You'll find suggestions and recipes for the desserts that father likes, in my cook book, "Feeding Father."

When you choose a dessert, consider first the meal as a whole—is it substantial or light? If it's a hearty, heavy meal, choose a light dessert, because appetites are likely to be pretty well satisfied by the time the dessert course appears. On the other hand, if the meal has been light, a hearty, satisfying sweet course is in order.

Choose your dessert, too, to fit the general make-up of the meal. Don't forget that contrast is important. If you've had a fruit salad, avoid serving a fruit dessert; if Spanish rice or macaroni made up the main dish of the meal don't serve a starchy sweet.

And speaking of desserts: when your facilities for entertaining are limited, why not plan a "dessert party"? Invite your guests to skip their dessert at home, and have it

with you. Dessert, with a beverage, is all you serve—and you serve it before the bridge playing or other entertainment begins.

Fruit Macaroon Dessert.

(Serves 6)

- 3 cups canned fruit
- $\frac{3}{4}$ cup flour
- $\frac{3}{4}$ cup sugar
- 1 teaspoon baking powder
- $\frac{1}{2}$ teaspoon salt
- 1 egg

Pour fruit and juice into shallow pan about 6 by 10 by 2 inches in size. Sift together the flour, sugar, baking powder and salt. Add unbeaten egg and mix well. Spread this mixture (which will be very crumbly) over the fruit and bake in a moderately hot oven (375 degrees) for about 30 minutes.

Chocolate Fig Pudding.

(Serves 6)

- $3\frac{1}{2}$ cups soft bread crumbs
- $1\frac{1}{2}$ teaspoons baking powder
- $\frac{1}{4}$ teaspoon salt
- $\frac{3}{4}$ cup white sugar
- $\frac{3}{4}$ cup brown sugar
- $\frac{1}{2}$ cup milk
- 2 eggs (beaten)
- 3 squares unsweetened chocolate (melted)
- $\frac{1}{2}$ pound dried figs
- $\frac{3}{4}$ cup suet

Combine crumbs, baking powder, salt and sugar. Add milk and eggs. Blend in the melted chocolate. Wash figs, remove stems and put figs and

If you're planning a party for St. Patrick's day, be sure to watch for Eleanor Howe's column next week. You'll find here several practical menus for that Irish holiday, recipes tested in Eleanor Howe's own kitchen, and suggestions for table decorations, too.

suet through food chopper. Add to other ingredients and mix well. Pour into a well greased casserole, cover and bake in a slow oven (250 degrees) for $2\frac{1}{2}$ hours. Serve hot with a custard sauce or whipped cream.

Orange Torte.

(Serves 6)

- $\frac{1}{2}$ cup butter
- $\frac{3}{4}$ cup granulated sugar
- 1 egg (separated)
- $1\frac{1}{4}$ cups general purpose flour
- 1 teaspoon baking powder
- $\frac{1}{4}$ teaspoon salt
- $\frac{1}{2}$ teaspoon soda
- $\frac{1}{2}$ cup buttermilk
- $\frac{1}{2}$ cup dates (cut fine)
- $\frac{1}{2}$ cup nut meats (cut fine)
- 1 teaspoon lemon extract
- 1 orange

Cream butter thoroughly; then add $\frac{1}{2}$ cup sugar while beating constantly. Blend well and add beaten egg yolk. Mix and sift together the flour, baking powder, salt, and soda. Add alternately with the buttermilk, beginning and ending with the flour mixture. Add dates and nuts,

lemon extract and orange pulp, reserving orange juice carefully. Fold in the beaten egg white. Place in small angel food or torte pan (well greased). Bake in a moderate oven (350 degrees) for approximately 35 to 40 minutes. After removing from oven allow cake to stand undisturbed in the pan for 10 minutes. Then pour over it, by teaspoonsful, the orange juice in which the remaining $\frac{1}{4}$ cup sugar has been dissolved. Serve with whipped cream if desired.

Lemon Sauce.

- 1 cup sugar
- grated rind and juice of 1 lemon
- 2 egg yolks
- 2 tablespoons cornstarch
- 1 cup boiling water
- $\frac{1}{8}$ teaspoon salt

Add grated rind and juice of the lemon to the sugar. Beat egg yolks until light. Moisten cornstarch with a little cold water and add to the beaten egg yolks. Mix thoroughly with lemon and sugar mixture. Place in double boiler, add boiling water and salt and cook, stirring constantly, until thickened. Serve hot.

Red Raspberry Snow Balls

(Makes 6 Snow Balls)

- $\frac{1}{4}$ cup butter
- $\frac{1}{2}$ cup sugar
- 1 cup general purpose flour
- 1 teaspoon baking powder

- $\frac{1}{4}$ teaspoon salt
- $\frac{1}{4}$ cup milk
- 2 egg whites (beaten)

Cream the butter. Add sugar and beat well. Mix and sift flour, baking powder, and salt. Add alternately with the milk and then fold in the beaten egg whites. Steam in small buttered molds for 30 to 35 minutes. Serve with red raspberry sauce.

Apple Dumplings.

- 2 cups flour
- 3 teaspoons baking powder
- $\frac{1}{2}$ teaspoon salt
- $\frac{1}{4}$ cup shortening
- $\frac{1}{2}$ cup milk
- $\frac{1}{4}$ cup orange juice
- 6 tart apples (medium size)
- $\frac{1}{2}$ cup sugar
- nutmeg
- cinnamon
- butter

Mix and sift dry ingredients and cut in shortening; add liquid. Roll dough to quarter-inch thickness and cut in 4-inch squares. Pare and core apples. Place one apple in center of each square and fill center of apples with a mixture of sugar, cinnamon and nutmeg. Dot with butter and pinch the four corners of the dough together. Prick with a fork and bake in a moderate oven (350 degrees) for 30 to 40 minutes. Serve with lemon sauce.

Have You Ordered Your Copy of "Feeding Father"?

You'll find in this clever cook book—by Eleanor Howe, not only tested recipes for father's favorite desserts, but recipes for the other foods he likes, as well. There are "masculine menus," too—dinners planned especially for father—and hints on how to cook the foods he likes. Send 10 cents in coin to "Feeding Father," care of Eleanor Howe, 919 North Michigan Ave., Chicago, Illinois. You'll get your copy of "Feeding Father," by return mail. (Released by Western Newspaper Union.)

Chinese Shampoos

For many centuries before the West intruded upon the East, Chinese women used hair shampoos, to achieve the sleek glossiness that is the principal pride of their coiffures. Some of these shampoos were made of crushed mulberry leaves, rose and jasmine perfumed oils and "pao hua tzu"—pine tree shavings—the latter used for their resinous content and balsamic odor.

Light Distribution

From 15 to 25 per cent more current is required for good distribution of light in a room that has dark rather than light woodwork, it is said.

Plymouth Milk Shortage

In the Plymouth colony, the governor required each incoming boat to bring one cow for each five colonists. Reason: A severe milk shortage.

THE NORTHERN INDIANA CO-OP. NEWS

Published Every Wednesday by
Northern Indiana Co-Operative
Association.

JESSIE RUSH, Editor and Mgr.

No race can prosper until it learns that there is as much dignity in tilling the field, as in writing a poem.—Booker T. Washington.

A minister in a sermon on safety suggested a list of hymns that a car driver might appropriately sing. While driving at 25 miles an hour he suggests that the motorist sing "I'm But A Stranger Here. Heaven Is My Home"; at 45 miles, "Nearer My God to Thee"; at 55 miles, "I'm Nearing the Port and Will Soon be at Home" at 65 miles "When the Roll is Called Up Yonder I'll Be There," and at 75 miles, "Lord, I'm Coming Home."

They're necessary at times, but one never feels well dressed wearing a pair of galoshes.

Out in the middle west for years bounties have been paid by the counties on coyote scalps because it was claimed coyotes killed a few chickens and an occasional sheep. Now the country is overrun with rabbits, which have become a greater menace than the coyotes were. Every once in a while Dame Nature, it seems, has a way of showing that she more or less knows her business.

A bad combination in any crowd is a sixty year old tongue and a twelve year old mind.

Editors have different ideas about what constitutes good newspaper copy, but without any exception that we have ever noted, they are all opposed to amateur poetry. Amateur poetry is neither news, nor poetry.

H. G. Wells takes a crack at England, his own country, in his latest book, "The New World Order." In it he states that the reason for England's war against Germany is the British ruling classes fear of losing wealth and power. They fear, according to Wells, a day of reckoning with their "long bamboozled lower classes." Sometimes we think that

the reputation Wells has gained from his writings has caused him to lose his sense of proportion. Our guess is that if Germany should conquer England not only the rich of England would be taken for a cleaning, but the "long bamboozled lower classes" would be still further bamboozled. It might be just as well for Wells to remember that if such a thing did happen, he would have to muzzle his writing. It is obviously to his interest to do what he can to see that the "ruling classes" of England do not lose their wealth to Germany.

A school teacher friend of ours tells of three feminine teachers who visited New York last summer. Up at Rockefeller Center they dropped in after the show for a bottle of Coca-Cola. They got the shock of their young lives when the check presented by the waiter called for \$3 cover charge and a bill for \$2.70 for three Coca-Colas. Figuring the price of cokes at fifteen cents the young ladies charged to "atmosphere" on their expense account \$5.55.

I sneezed a sneeze into the air,
It fell to earth I know not where:
But hard and cold were the looks
of those
In whose vicinity I snoze.

Blackouts Would Increase Fatalities 1000 Per Cent

If the United States were subject to black-outs, for one reason or another, traffic fatalities throughout the country would total some 400,000 per year instead of the approximate 32,600 killed in automobile accidents last year.

Despite the fact that only one-third of the total traffic moves at night, nearly two-thirds of the accidents occur between dusk and dawn. If motorists were compelled to drive in total darkness, the present volume of traffic persisting, deaths would increase about 1,000 per cent immediately.

Mentone Loses To Garrett

Mentone's fighting Bulldogs made a brilliant showing in the Regional Tourney at Auburn Saturday, but were eliminated in the finals Saturday night by the Garret team.

They won an easy victory over Pleasant Mills in the afternoon. The final score was 38 to 25. With high hopes for victory Saturday night, the Bulldogs entered the finals. They put up a terrific fight throughout the first quarter, but wilted under the onslaught of their opponets in the next three quarters, to go down to a 35-25 defeat.

Dean Shirey was high point man of the tilt with a total of 10 points. Shirey was also chosen forward on the all-regional team.

Royal Neighbors Meet

The Royal Neighbor Camp met at the country home of Mrs. Fleta Emmons last week. After a bountious pot luck, bingo was played. The prizes were old garments, and then a style show was given. Prizes for high scores in the bingo games went to Mabel Warren, Lydia Rynearson and Mae Borton.

There were eleven members present and guests, Mrs. Ray Middleton and daughter, Mrs. Harry Frymire of Akron and Violet Friezner of Mentone. The next meeting will be at the home of Mrs. Mable Warren, April 2.

BIRTHS

Silveus

Mr. and Mrs. Joe Silveus are the parents of a four and one half pound baby daughter, born Wednesday, March 6 at the McDonald hospital. Mrs. Silveus and Baby Mona Diane, were removed to their home in Mentone Monday.

Halderman

A six and one half pound baby daughter was born to Mr. and Mrs. Nicholas Halderman of Etna Green, early Monday morning, March 11.

Carter's Car Returned

Sheriff Burton B. Foulke notified Mr. and Mrs. C. G. Carter about 9:00 o'clock Saturday night, that their car, which was stolen from their home last Friday, had been found parked on the streets of Warsaw. The car has been returned to the Carters, unharmed.

Third Century Medicine

Photographing Paint Odors

One of the more novel experiments attracting the interests of scientists is the photographing of paint odors. Although it is not a universally accepted fact, it is generally believed that the odors disperse from drying paint and other alomatic substances are due to the emanation of material particles. Accordingly, one scientist has conceived the ingenious method of suspending odiferous substances over a clean mercury surface on which has been spread a thin layer of talc. This talc is gradually pushed away from the center as the redolence impinges upon the surface, and a design is formed which appears to be characteristic of each individual odor. The design is then photographed.

Model Village

An almost perfectly proportioned model village has been constructed in Reading, Pa. The village, built with uncanny precision and attention to life like details, is the result of more than 25 years labor by one man, Laurence Gieringer, who built it as a hobby. It is complete with tiny streets, railroad, electric lights, trees, gardens and people. A choir and organ can even be heard inside the tiny church, the stained glass windows of which are ablaze with light and color. The houses, averaging about two feet wide, are built for the most part of actual building materials—even to the miniature asphalt shingles on their roofs.

Glycerine Repairs Glass Scratches

Disfiguring scratches on a glass table-top, if they are not too deep, can usually be removed without difficulty by a paste of glycerine, water and iron oxide. Dip a hard felt pad in the paste and rub briskly back and forth over the scratched surface until the markings have disappeared. This procedure is especially adapted to removing shallow scratches. Deep gougings, however, require more specialized treatment. Many polishing materials used in mechanical methods utilize glycerine as an essential ingredient.

Civil War Poet

During the second year of the Civil war the wounding of his brother in the battle of Fredericksburg led Walt Whitman to volunteer as an army nurse and he served until the close of the war, in Washington and Virginia. The literary results of his experiences were "Drum Taps" and "Memorandah During the War," made up of letters written to the New York Times. His letters to his mother during the war were posthumously printed in 1898 under the title of "The Wound Dresser."

Egyptians Painted Furniture

Paint-covered furniture—as was as mummy cases—have endured for over 5,000 years in Egyptian tombs and are still in good condition. Oftentimes, wall paintings have likewise endured the passage of time whereas wood and stone that were not painted have disintegrated.

Blood Clot Fatal To Mrs. D. J. Norwood

Florence Norwood, wife of Rev. D. J. Norwood, died at the McDonald hospital in Warsaw Saturday night at 10:00 o'clock. Mrs. Norwood fell on the ice in Milford Saturday, while taking a book to a friend. She was taken to the McDonald hospital with a broken leg. Death was due to a blood clot resulting from the injury. She was born in Lagrange, December 14, 1910, the daughter of Mr. and Mrs. John Weingart. On September 3, 1933, she was married to Darrel Norwood, who with one son, David, 4, survives. The deceased had many friends in the Palestine vicinity where Rev. Norwood held a pastorate for two years.

Survivors beside the husband and son, are her parents, Mr. and Mrs. John Weingart of Elkhart, one brother Paul of Elkhart, one sister Elsie Gerber of Bristol.

Short funeral services were held at the Milford Christian Church at 1:30 Tuesday afternoon, after which the body was taken to Elkhart where services were conducted at 3:15. Burial was in Rice cemetery in Elkhart.

Death Takes Warsaw Physician

Dr. W. B. Sider, Warsaw physician died at his home in Warsaw Sunday, March 17, at the age of 64. Dr. Sider had been in ill health for some time and recently had given up his practice of medicine.

He was born in New Carlisle, Ind., and attended Indiana university Medical School. He had practiced in Union Mills, Millersburg and for the past 25 years in Warsaw. He was president of the Warsaw Building & Loan Ass'n., Vice President of the First National Bank and was affiliated with the Rotary Club, Masonic Lodge, and Warsaw Investment Co.

Survivors include the widow, one son, Lawrence, two grandchildren and an eighty-two-year old mother, Mrs. Mary Siders.

Funeral services were held at the Methodist Church, of which he was a member, at 1:30 o'clock Tuesday. Interment was at Oakwood.

Move Along, Get Going

Dr. Radcliff Dies In Bourbon, Friday

Dr. Floyd E. Radcliff, prominent physician, died at his home in Bourbon Friday at 11:45 a. m. Death was due to a heart disease and followed an illness of five days duration.

Dr. Radcliff was born in Pierceton, the son of E. M. and Mary Radcliff. On December 24, 1899 he was married to Lela Knox, who survives.

The deceased had been a resident of Bourbon for 36 years. He was active in the Masonic lodge, Eastern Star, Lions club and was a member of the County, State and American Medical societies.

Surviving relatives include the widow; an uncle, C. O. Radcliff of Pierceton; two aunts, Mrs. Zelda McDonald of Pierceton, and Martha Anderson of Larwill; two cousins, Fred Norris of South Whitley, and Ralph Ferry of Columbia City.

Funeral services were held at two o'clock Monday afternoon at the Radcliff home in Bourbon. Rev. Fred Champion of the Bourbon Methodist church was in charge. Interment was in Hillcrest cemetery in Pierceton.

Inspection Of Local Psi Iota Xi Chapter

Mrs. Richard Reichart of Frankfurt, Ind., northern province chairman of Psi Iota Xi sorority, was a guest of Beta Epsilon chapter at a six o'clock dinner at the Hayes Hotel in Warsaw Friday night. A three course dinner was served to the following: Pauline Riner, Lucille Myer, Jeanette Mollenhour, Emma Clutter, Jessie Rush, Marie Nellans, Anne K. Sierk, Mary Watson, Helen Hoffer, Geraldine Clark, Annabel Mentzer, Charlotte Snyder, Louise Long and the guest of honor, Mrs. Reichart.

After the dinner Mrs. Reichart conducted the annual inspection of the chapter, and reports of the past year's achievements were given. After the inspection they adjourned to the Centennial Theatre where they spent the remainder of the evening.

Easter Services

Special Easter services are being planned by the Mentone Methodist Church for both morning and evening. The evening program will include a special sacred Easter Cantata.

Children To Participate In Easter Egg Hunt

The Mentone Lions Club will sponsor an Easter Egg hunt and egg rolling contest next Saturday for all the children of the community, it was announced today by Lion Dale Kelley, general chairman of the committees in charge of the event.

300 prizes are being prepared for the occasion by the club. Every child who participates in the hunt is promised a prize regardless of his or her luck in finding the hidden eggs.

Each colored egg which will be secreted in the vicinity chosen for the hunt will bear a number denoting which prize the finder is entitled to receive. There will be one golden egg which will bring its discoverer a very special prize.

Mentone Boy Scouts will patrol the grounds selected for the hunt to insure the safety and welfare of every child who comes to try his luck as a treasure hunter.

The children are invited to come to the Big Drug Store corner promptly at two o'clock Saturday afternoon. They will be conducted to the scene of the hunt in a group.

All the children in the community under high school age are welcome to join in the hunt and rolling contest.

Services Held For Calvin O. Ketrow

Funeral services for Calvin O. Ketrow, Warsaw Justice of the Peace, and former Mentone resident, were held Sunday at 2:30 o'clock at the Landis funeral home in Warsaw. Another short service was held at the Spring Creek church, two miles east of Sidney, immediately following the Warsaw service. Rev. George Pontius officiated. Burial was in Spring Creek cemetery.

Mr. and Mrs. Merl Boyer and daughter Betie of Warsaw called on Mrs. Boyer's father, H. C. Thompson Sunday afternoon.

Mrs. Cora VanGilder was confined to her home by illness Saturday.

There was a lot of publicity about the Pan-American Exposition. The front and back pages of that edition were filled with plans, and a diagram of the grounds at Buffalo, New York.

Miss Elsie Gordon and Schuyler Jacobs were united in marriage at the Taylor Jefferies home.

Cora Belle, thirteen-year-old daughter of Samuel Eiler, died that week, only eight days after the death of her mother.

Henry M. Copp of Washington, D. C. was trying to find John N. Eaton, who served in Co. F, 20th Ind. Infantry during the Civil War.

A new Dunkard church was being rapidly erected at Tippecanoe.

TO PEDESTRIANS

There's a peculiar quirk in human nature which makes most of us sympathize with the underdog. Psychologists tell us it's because we recent their not having a chance.

But there's one underdog who is rapidly becoming the center of public disapproval rather than pity. That's the pedestrian who deliberately violates a law and takes his chances in traffic, only to be killed or injured as a result of his folly.

The Chicago Motor Club points out that nearly 70 per cent of the traffic accidents last year involving pedestrian deaths and injuries last were definitely the fault of the walker. He committed such errors as crossing against traffic signals, between intersections, cutting across corners diagonally and dodging out from between parked cars.

Motorists were blamed for these tragedies. Yet in many instances they were without fault. As the motor club points out, when pedestrians dart suddenly into the path of a car it is usually impossible to stop or swerve in time to avert a tragedy.

Consequently, in these cases, the underdog has played his role because of his own doing.

TALMA CHRISTIAN CHURCH ANNOUNCEMENT

A gospel team of six students with the help of some of the Professors of the Grace Theological Seminary of Winoona Lake, Ind., will conduct a two weeks revival service at the Talma Christian Church, beginning Sunday, March 17.

Rev. E. D. Umbaugh will be in charge of the meetings. There will be special music at each service. There will be two song leaders and two pianists throughout the two weeks. You are welcome.

Fred D. Lemler sustained a painful injury to his ankle when he fell on the icy pavement Wednesday morning.

Household Tip

Corner shields pushed into corners of stairs and floors make cleaning easier.

London's Rotten Row

Rotten Row is a fashionable bridge path in Hyde park, London, extending for 1½ miles from Hyde Park corner to Kensington gate, along the south side of the Serpentine. The name is supposed to be derived from Route de Roi, or King's Drive. The king is the only person who may drive on it in a carriage, although the public may use it for horseback riding.

Island of 'If'

"If" is a rocky island in the Gulf of Marseilles, crowned by a castle, the Chateau d'If, which was used as a state prison. Here were confined Mirabeau and the duke of Orleans (Philippe Egalite) and others. Dumas in his "Count of Monte Cristo" imprisons his hero in the chateau.

Jail for Sale

The 79-year-old jail at Bowling Green, Ky., "together with all fixtures and equipment thereto attached," has been offered for sale by the fiscal court. The rub is that the buyer will have to take the jail away, as the court has sold the lot on which the old structure stands.

Stars Visible to Eye

The number of stars that can be seen by a person of average eyesight is only about 7,000. The number visible through the telescope has been estimated by J. E. Gore at 70,000,000 and by Professor Newcomb and Young at 100,000,000.

Food Chopper Sharpening

To sharpen your food chopper when the knives become black and dull, run a piece of sand soap through the chopper. It brightens and sharpens the knives so they cut like new. Wash thoroughly in hot water afterward to remove the grit.

Stockholm's Park Systems

Stockholm has 26 parks, where 100,000 tulip and hyacinth bulbs are planted annually, in addition to 66,000 dahlias, phlox and other summer plants, 1,500 azaleas and 300 rhododendrons.

Rome's World Exposition

Corresponding to the trylon and perisphere of New York's World's fair, the theme center of Rome's world exposition in 1942 is to be a mammoth arch 325 feet high, with a span of 756 feet, made entirely of Italian aluminum.

Mineral Wool

The term "mineral wool" is a generic one covering a variety of similar products differentiated chiefly by the raw materials which are their sources.

Early Glass Bottles

The art of making glass bottles was known to the Romans as early as the year 79.

MODERN TREND TO MORE WINDOWS PUTS STRESS ON QUALITY

A radial bay of casement windows so popular today.

An angle bay popular for breakfast rooms.

A multiple bank of double hung windows, often used at the end of the living room.

Windows and More Windows Is Trend in New Homes Today

No matter how you look at windows you're going to see more and more of them in new homes. Light, airy rooms mean just one thing—more windows—and that is definitely the trend in home construction today.

And the more windows you have in your new home, the more you've got to watch quality construction in the windows you buy. Windows can add much to the enjoyment of your new home if they're good windows, and if they're poor ones, they'll add plenty of headaches.

Window "Pains" Gone

Rattling, sticking, leaking windows are a thing of the past with the complete factory fitted window units as manufactured today. Maybe that is why architects and contractors the country over are favoring more windows because, at last, the "pain" has been taken out of them.

New Features

Such features as inside double glazing screens that are removed from the inside, condensation controls, and hinges that allow both sides of the glass to be washed from the inside are part of modern casement windows today. Similar improvements have been made in the popular double hung windows. Double action weatherstrip, noiseless pulleys, and flat weights that allow for narrow modern lines are a few of the outstanding innovations.

PUTTY FAILURE OFTEN DUE TO POOR APPLICATION

When you see the putty cracking away from your windows in big chunks, don't be too quick about blaming it on the putty. The chances are

the putty failure is due to the way the putty is put on. Like so many other things there is a right and a wrong way to apply putty. The right way takes a little more time and material, which is the reason you do not find it on windows that are made to sell at a price.

In one sketch, we show you the ordinary way that putty is applied to

windows. This method is quick and cheap, but it is usually temporary because swelling of the wood from the inside causes the putty to crack off.

In the other sketch is shown the proper way to apply putty. It is known as "bedding." Notice here the layer of putty on all sides of the glass. It actually is resting in a "bed" of putty.

Wood and glass do not come in contact with each other. Notice also the putty groove which anchors the putty.

School Children's Utopia
Utopia for school children is the town of Calexico, Calif., situated on the International boundary, where American national and state holidays are observed along with the various Mexican civil and religious celebrations.

Water Powered Clock
In the Villa Borghese, Rome's largest municipal park, there is a clock operated entirely by water power. The water drops from a fountain and is caught in a series of descending cups to provide mechanical energy.

Lights of New York

by L. L. STEVENSON

Bands of hoodlums in their early teens roam the streets of the upper East Side and, except for deadly weapons, commit stickups with all the finish of veteran gangsters. The victims of these adolescent criminals are not grownups. They are other youngsters. Many a little boy or girl, sent to the store by a mother, returns home without money and sometimes with a bruised face and torn clothes. Boys and girls on roller skates are tripped and their skates stolen. Many a youngster who starts out with a bicycle comes home and weeps a tale of theft. A boy whose birthday present was a sled, undertook to defend his property and was beaten until he had to let go the rope. Victims are loath to tell their parents what happened to them. They are still more averse to making identifications. Fear of reprisals of course is what keeps them silent.

Motorists are also victims of these juvenile gangs. Spare tires, no matter how carefully locked, disappear. Hub caps are taken either in a spirit of vandalism or to be sold as junk. Locked cars are not safe. Door handles are broken off or windows smashed and interiors looted. In other sections of the city, news stands are often left unattended, customers depositing their pennies on counters or on piles of papers. That doesn't hold true on the East side up in the Nineties. There all news stands are so arranged the interiors cannot be reached from the sidewalk. Owners make it a point to be on hand all through business hours. If they go away, without leaving someone on watch, on return they are apt to find their stocks have vanished.

Boys and girls playing in Central park are not infrequent victims of youthful bandits. Money, bicycles, skates, articles of clothing and even candy are taken. There are police in the park of course. But the park covers a large area and the police cannot be everywhere. Also the gangs have lookouts ready to cry, "Jiggers" at the sight of a bluecoat or anyone who looks like an officer. On a recent sunny afternoon, a middle-aged man went to sleep on a bench. Witnesses said they saw no one near him except some boys who seemed to be playing. Yet when he awakened, he not only found his pockets empty but his glasses gone.

The greater number of these juvenile criminals, according to a friend who is a social worker, come from homes of bitterest poverty. Having nothing themselves, they show no hesitancy in taking from those who have. The only remedy, she holds, is abolition of tenements and raising the living standards. So believing she refused to make a report to the police when her 10-year-

old not only was held up but was beaten. And to think of the future of these youngsters is not pleasant.

Familiar characters in the Times Square sector still remain. For instance, Broadway Rose who has been about for years. Then there is that diminutive chewing gum peddler with cheeks that remind me of rambo apples, who appears at various theaters during intermissions both at matinees and at night. The blind accordion player still traverses the Fifties and the blind couple with the saxophones are seen nightly. The legless man with the little cart pulled by a white dog seems to be missing. Possibly he has gone to Florida.

Many New Yorkers sport low or distinctive license numbers on their automobiles again this year. In the past, this has been a courtesy service on the part of the motor vehicles commission. It may be different in the future, however. At present a charge of \$5 for such swank in 1941 is under consideration. It is believed the fee will decrease the demand. My belief is that it will make it all the greater. But even should that prove true, the state won't lose. (Bel Syndicate—WNU Service.)

Leipzig Fair to Be Held On Its Regular Schedule

LEIPZIG.—The Leipzig Trade fair will be held on its regular schedule from March 3 to 8 inclusive. The spring fair will be the 1933rd session of the historic market which has been held without interruption for more than 700 years.

Jackals in Streets

CAPETOWN, S. A.—Dearth of food in the surrounding country has driven jackals into Bronkhorstspuit. They hide in the long grass during the day and roam the streets at night.

In 1914 Rail Wreck, He Reads Up on It

RENO, NEV.—On Christmas day, 1914, Ernest C. Bennett was in a train wreck at Imlay, Nev., but traffic was quickly restored and Bennett went on to his destination without knowing exactly what happened. Recently he gratified a long-standing curiosity, went to a newspaper office here, and looked up the story of the wreck in the files. Now he knows what occurred.

Child Development

When a child has made a mistake, it is often desirable for the adult to ignore it and to direct him to better behavior, say child development specialists.

Sewing Machine Trouble

A misplaced needle, a wrong threading, or a faulty tension may cause a sewing machine to balk.

PERSONALS

Mrs. Merl Tucker visited relatives in Elkhart last week.

Mrs. Wanda Swick called Monday at the Paul Cumberland home.

Mr. and Mrs. Charles Shipley and son Harold spent Thursday in Indianapolis.

The Young Peoples class of Beaver Dam Sunday School met Friday evening, March 15, with their teacher, Mrs. Frankie Spittler.

Ernest, small son of Mr. and Mrs. Robert Heihway, is slowly improving from a two weeks illness.

Mr. and Mrs. Alvie Clunker spent Monday evening with Mr. and Mrs. Earl Meredith.

John Shriver and son Garlen called at the Orven Heighway home Monday.

Mr. and Mrs. Orville Swick visited the Paul Cumberland home Monday evening.

Mr. and Mrs. Earl Meredith called on Mrs. Claude Barkman and Mrs. Allen Dille in Mentone Monday afternoon.

Sam Burch has returned to his home Friday from Idaho where he has been employed.

Mr. and Mrs. E. E. Wagner and family entertained at a six o'clock dinner Monday evening the following guests: Mr. Ernest Wagner, Miss Betty Carey, Mr. Clair Miller, Mr. Edward Miller of Fort Wayne and Mr. and Mrs. Ivo Wagner of Mentone.

Mr. and Mrs. Charles Black entertained the two older classes of the Sunday School at their home Monday evening. The April meeting will be with Mr. and Mrs. Dale Cook.

Miss Ruth Wagner visited at the Elma Brown home Thursday evening the guest of Miss Doris Brown.

Mrs. Lloyd Miner, Mrs. Charles Vandermark and Mrs. Mosier were Mentone business callers Thursday afternoon.

Mrs. Byron Nellans and Mrs. Geo. Clark made a business trip to Warsaw Thursday morning.

Miss Mary Alice Long, daughter of Mr. and Mrs. George Long, is employed at the Joe Clark home in Warsaw.

Mrs. Arvilla Tucker made a business trip to South Bend Friday.

Mr. S. M. Hill is confined to his home in Twelve Mile by illness.

Mr. and Mrs. Mahlon Mentzer, Mrs. Rose Boggess and Miss Annabel Mentzer visited Mrs. James Mentzer and infant daughter Mary Ann at a Marion hospital Thursday. Mrs. Boggess remained in Marion.

Don Robert Hoover spent last week with his grandmother, Mrs. Allie Lyon.

Mr. and Mrs. Robert Hoover of Milford were Saturday guests at the home of Mrs. Allie Lyon.

Tom Bowler of Plymouth was a Mentone business caller Saturday morning.

SPECIAL SHOWING AND SALE OF NEW SPRING COATS & SUITS

For one day only, Tuesday, March 26, Mr. D. R. Shanaman, New York Stylist, will be in our store with his selection of new coats and suits for ladies. When you see these coats and suits you will guess their price to be several dollars higher than they are priced.

It will mean many dollars to you to get your pick of this large assortment while it is complete.

Do not miss seeing this large selection as it will be here for one day only, Tuesday, March 26, and when the stylist leaves he will take his merchandise with him.

CLARK'S STORE

DATE IS SET

County Agent Joseph Clark has announced that a beef cattle tour will be held in Kosciusko county on Wednesday, March 20. P. T. Brown, beef specialist from Purdue university, will be the speaker on the tour, which will include stops at several farms in the county.

ORTORICAL CONTEST

The date for the county oratorical contest has been set for Friday, April 5. The county contest is being held at Leesburg this year. Local entrants will conduct their elimination contest at an early date, which has not yet been announced.

Shower For Newly-Weds

Wednesday night a belling and kitchen shower were given Mr. and Mrs. Pete Mellott of near Elna Green. Over seventy guests were present and enjoyed the evening with the newly-weds. The young couple received many lovely gifts and refreshments were served to all.

CALVIN O. KETROW EXPIRES IN WARSAW

Calvin O. Ketrow, former Mentone Variety Store proprietor, succumbed Thursday afternoon, March 14, at 5:25 o'clock. Death occurred at his home on South Union St., Warsaw. He had suffered a paralytic stroke on Monday afternoon.

The deceased presided as Justice of the Peace in Warsaw for several years before his death. At one time he served two terms as trustee of Monroe township. He was a respected citizen of Mentone where he operated a five and dime variety store in the Northern Indiana Telephone building. The Ketrows left Mentone in 1933.

Surviving relatives include one son, Earl Ketrow of Fort Wayne, one grandson, Earl Jr., employee of the Warsaw post office, and a sister in Mishawaka. His wife preceded him in death a few years ago.

BIRTHDAY PARTY

Jimmy Sarber celebrated his third birthday at his home in Mentone Friday night. Guests present included his grandparents, Mr. and Mrs. Dave Ellsworth, Mr. and Mrs. John Ellsworth, Mr. and Mrs. Dean Flory, Miss Leota Ellsworth, and the host and hostess, Mr. and Mrs. James Sarber.

AN EASTER NEST

Grade 5, with the help of Miss Templin have built a huge Easter nest in the middle show case in the basement. The nest contains seven dozen beautifully decorated eggs, which have been produced in "Mentone The Egg-City."

ENTERED AT RILEY MEMORIAL HOSPITAL

James Roger Williamson, seven-month-old son of Mr. and Mrs. Lester Williamson of near Etna Green, was taken to the Riley Memorial hospital in Indianapolis Thursday night.

PURCHASES IGO FARM

Mr. Charles Petry has purchased the farm known as the Omer Igo farm near Sevastapol. Mr. Petry has sold his farm where he and his family have lived for the past twenty-six years, to Mr. Jones of Bourbon.

Mr. and Mrs. Willis Eagle, who lived in the Petry tenant house, will move near Burket and work for Curtis Riner.

SUSTAINS SCALP WOUND

The small son of Mr. and Mrs. Frank Meredith sustained a scalp wound in a fall in the Drug Store Monday night.

HOME IS QUARANTINED

The John Norman home at LaPaz is under a diphtheria quarantine. Mrs. Norman, sister of Mrs. Earl Shinn of Mentone, is the victim of the disease.

REMAINS ILL

Miles Kesler, remains at the home of his parents, where he has been confined by illness for a number of days. Dean Flory is filling his place in the Co-Op Feed Department.

RETURNS FROM SANITARIUM

Frank Meredith has returned to his home near Mentone after being confined to the sanitarium at Rockville, for a number of days.

Source of Shakespeare's Play

North's translation of Plutarch's "Lives" was Shakespeare's textbook of ancient history and furnished the raw material for the drama, "Julius Caesar."

U. S. Mineral Springs

It is estimated that there are not less than 10,900 mineral springs in the United States of which nearly 1,000 produce waters in commercial quantities.

Psychological Painting

The city of London succeeded in reducing by more than one-third the number of suicides from Blackfriar bridge by painting the gloomy old structure a gay, bright green.

One-State Railroad

The longest railroad operated entirely within one state is the International-Great Northern railroad, which is located entirely within Texas and is 1,154.51 miles long.

First Recorded Tornado

Tornadoes are generally considered a phenomenon of nature peculiar to our West and South, but the first storm of that type on record occurred at New Haven, Conn., on June 10, 1682, about 2:30 p. m.

Pain Cure?

According to the American Magazine, Dr. O. C. Osborn of Kalamazoo, Mich., has struck upon a novel idea for quieting his young patients. He keeps a hive of bees in his office window to make the youngsters forget about their pains.

Coal Tar By-Products

High-boiling coal tar products, once wasted, now are a source of coumarone resins, millions of pounds of which are used yearly in printing inks, floor tile binders and chewing gum.

Manufacture of Rock Wool

Rock wool is made from natural rock or from different combinations of natural minerals.

Attic Game Room

A cluttered attic may be cleaned, simply painted and furnished to make a popular family game room.

TRUTH about ADVERTISING

By CHARLES B. ROTH

MONTAIGNE'S 'GREAT REGISTER'

IF EVERYTHING else that gifted writer, Michael Equem de Montaigne, wrote were to disappear, the world would still be indebted to him for his ideas on what he called his "great register."

Montaigne was a Frenchman who lived and wrote 400 years ago. Now admired excessively by a few readers, he's almost forgotten by the world at large. But every time you read an advertisement in your newspaper, you do homage to his memory.

For it was his idea that people, who want to buy, need some place where they can get information about the products which others have to sell. In Montaigne's time the buyer had to look for the seller, the seller had to look for the buyer.

Montaigne proposed a register to be posted where all might see. Here the owners of things they wanted to sell would list them. Here also those who had needs would list those needs. Buyer and seller would thus be brought together.

It was a good idea. It still is a good idea. Every time, indeed, you look over the "ads" in your newspaper you express your approval of the idea.

Sellers tell you what they have.

Charles Roth

You save time and money because you compare what one seller offers with what another offers. You judge which is the better value.

Norman Angell, the English writer, wished that someone had advertised more in England when he set out to buy a horse scraper for some farming operations he had on hand.

He scanned the advertisements. No scrapers. He wrote a few manufacturers he knew. No scrapers. Later he came to America and in Chicago discovered, through an advertisement, of a horse scraper for sale. He looked into the matter—and found it was made within 20 miles of his English farm.

That you have a "great register" coming to you regularly, with the day's best opportunities to buy the things you need, is one of the beatitudes of living in America and in these modern times.

You do not, like Mr. Angell, have to fret and worry and search for what you need. You merely open the pages of the newspaper, and, lo, there right in front of you, you find a world of useful things from all over the world.

The more you rely upon the "great register" of modern life to help you in your buying, the more you get from every penny you spend. The best values, the best merchandise, the best prices—they comprise the contents of that useful, indispensable modern version of Montaigne's sound idea.

© Charles B. Roth.

ACCIDENT ODDITIES

A motorist who filled his radiator with what he thought was anti-freeze saved from last year is now in the market for a new car. When he started his car the unidentified mixture exploded!

-oOo-

When giving details of an accident in which he had injured a pedestrian, a befuddled driver said: "When I ran into the man he admitted it was his fault," he babbled. "He said he had been knocked over before!"

-oOo-

And—hold on to your chair—a motorist driving on a rural road skidded on a patch of ice, crashed into a fence and overturned, disrupted a nest of rabbits who, in their confusion, scurried into the open window of the car over the shaken motorist who later died of blood-poisoning caused by their claws scratching his face!

White Heat of Iron

Iron comes to a white heat at around 2,700 degrees Fahrenheit.

Fatback Plentiful

The fatback or menhaden is caught in greater numbers than any other fish off the East coast. In a good season as many as 750,000,000 will be taken, more than 150,000,000 off the coast of North Carolina. Occasionally schools pack an inlet so thick that boats cannot be navigated through them. Some years ago 11,000,000 menhaden, driven onto the beach by bluefish, were picked up at Beaufort, N. C., in one day.

Exploding Shrapnel

The name shrapnel is applied to the explosive shells used in field guns. It is named for its inventor, Henry Shrapnel of the British army. In 1803 his shot case or shell was recommended for adoption into the service and in the following year was first employed at Surinam. Shrapnel also improved the construction of howitzers and mortars and invented the brass tangent slide. In 1837 he was promoted to be lieutenant general.

Havana Settlement

Havana stood as a city fully 100 years before the first houses were built in what was to become New York.

FARM TOPICS

FARM PLANNING PAYS DIVIDENDS

Definite Schedule Saves Soil and Equipment.

By M. L. MOSHER

Farm plans have the same importance to the farmer as an architect's plans and specifications to a building contractor.

Because of the farmer's knowledge of his farm and its productivity, he is in a better position to do his own planning than anyone else. A farmer who makes his own plan will understand it, appreciate it and enjoy putting it into operation.

Five distinct steps in farm planning present themselves from the standpoint of the farm management specialist. First is the making of an inventory of the physical resources of the farm; second, setting up a long-time land-use plan as a goal towards which to work; third, fitting the live stock program to the needs of the farm; fourth, planning the marketing program and estimating expenses, and fifth, outlining the transition from the present plan to the new plan.

Any plan is not likely to be perfect in all its details, but if it provides for some improvement over the present plan or over no plan, it will be worth while. The revision of the plan may be necessary from time to time because of new solutions to old problems, changing conditions and emergencies.

Twenty years experience in studying farm accounts in the department of agricultural economics at the University of Illinois is the basis for this treatment of the farm plan.

High-Quality Eggs Bring Good Prices

Consumers who want high quality graded eggs are willing to pay more for them when they have assurance that the eggs really are of high quality, say egg-marketing specialists of the agricultural marketing service.

While the relatively higher prices charged for better eggs might be expected to discourage consumption, just the opposite has been true in states where egg grading programs have been followed.

According to the egg-marketing specialists, consumers of the better grades of eggs appreciate two features of a well-conducted grade-marketing system. They are assured of the superior quality of the

better grades, and of the quality that comes with the purchase of a product properly handled from the time it was graded to the time it reaches them.

Simple Erosion Controls

Will Check Small Gullies

For small gullies—those less than three feet deep—comparatively simple erosion controls are recommended. Large gullies and those with extensive drainage areas usually can be stabilized only by using a combination of protective measures.

The first step in gully control is to keep as much runoff as possible out of the gully channel. For this purpose, retarding water draining into the gully is often enough, but in some cases a diversion ditch just above the head of the gully may be necessary.

Once the retention or diversion measures have been applied, control of the gully becomes much simpler. To protect the channel from further scouring, use adapted vegetation—grasses, vines, trees, and shrubs wherever possible. Structural devices are recommended only to help establishment of vegetation or to provide permanent protection at points that cannot be protected in any other way.

Agricultural News

Soil conservationists, after repeated tests, are continuing to find that plain, old-fashioned grass sod is one of the best anti-erosion measures.

An 1100 pound cow, giving the equivalent of 40 pounds of 4 per cent milk per day, can eat roughage so that she'll need not over eight to ten pounds of grain per day.

One of the most talked-of practices in poultry management in recent years is that of out-of-season hatching. Many poultrymen now hatch chicks in fall, winter, and spring.

Ten million young men and women between the ages of 16 and 24 now live on farms or in small villages. Two million farm boys and girls migrated to cities in the decade 1920-29.

A cow will eat almost anything. Out in California they are making cull oranges into silage and feeding this to their cows. Out in Washington they feed cull apples to cattle, while in the East, some dairymen feed them fish meal and meat scraps for protein.

SMART MONEY

**THE NORTHERN INDIANA
CO-OP. NEWS**

Published Every Wednesday by
Northern Indiana Co-Operative
Association.

JESSIE RUSH, Editor and Mgr.

Probably there's no industry about whose "saturation point" the man-in-the-street worries so much as the automobile industry. Yet it keeps rolling along near the front of the whole business parade.

Scientists often have speculated on what would be the value of a fine automobile, kept for years under a protective glass case, and then presented for sale in competition with modern automobiles.

One answer was furnished several weeks ago when an unusual 1924 car, not kept under glass but so maintained that its buyer says it is as good as the day it was built for \$1685, went to the highest bidder for only \$40.

Nothing happened to change the value of this car except the march of time and the progress of research. Though the 1924 model was a pride of its day—and still is in perfect condition—modern cars selling for a third to a half of its original price can run rings around it.

Although the engine is approximately the same size as engines used today, this sixteen year old model has far less pick-up, can't climb hills as well, and lacks today's economy.

The 1924 car does not have four wheel brakes, balloon tires or safety glass. Its new owner will have to replace its fan belt five or six times as often as he would the fan belt of a car today. Many other repairs are on a comparable basis. The car has no air cleaner, no oil filter, no automatic choke, no crankcase ventilating system, no fuel pump, no shock absorbers, nor a number of other devices which motor research has contributed since 1924.

The new owner, a fire chief in a Chicago suburb, bought the car from a neighbor who paid \$1685 for it in 1924, drove it home, then fell ill. Kept at all times in a garage, the car has been thoroughly protected from the elements. When sold, it had been driven only 4.5 miles.

Though races and nations cling to their own customs, philosophy and basic habits, an American product—the automobile—is steadily working its way into their social patterns.

In China, where the motor car is regarded as a valued and useful possession, paper replicas of automobiles are carried in rich men's funeral processions—so that the deceased may have a car in Heaven!

At every important funeral, repro-

ductions of worldly goods to supply the man's wants in the other world are piled together and burned. When the spirit goes to the Western Heavens, he takes possession of the goods, according to Chinese beliefs.

The pilgrimage to Mecca, a sacred journey which faithful Mohammedans hope to make once in a lifetime, is becoming easier because of the latest contribution to motor transportation, the station wagon.

Due to their reliability, American cars are widely favored abroad. In one instance recently in Egypt a car of American make was caught in a dust storm while traversing the Alexandria-Cairo road. So severe was the storm that the front and side of the car were sandblasted clean of paint and chromium plating, the under chassis was scoured down to the metal, and the windshield acquired a close resemblance to frosted glass. Yet the car continued to run, carrying the occupants safely to Alexandria.

General Motors is expected to announce soon enlarged plans for aviation, to the extent of building complete planes of its own design. Won't be long before some presidential slogan will be "an airplane in every hanger."

Things To Watch For

A single soda-straw, instead of a pair, in those little-tissue-paper tubes you get with your chocolate soda—but the single sippe is twice the capacity of the conventional one, which has been 'regulation' for a long, long time.

A new yeast, combining the quick action of the moist kind with the storage convenience of the dry variety—it's dry and granular, and useful for home baking.

Lipstick in the form of a lip brush, operated as simply as a fountain pen.

Stockings of nylon, to go on sale May 15.

Venetian blinds for automobiles, to fit almost any car.

ILL AT HER HOME

Mrs. M. F. Todd has been confined to her home by illness for several days. Her mother, Mrs. Theobald of Chicago, is caring for her.

SCHOOL CLOSED WEDNESDAY

Mentone School was closed Wednesday of last week, due to the icy pavement, which made the transportation of school children to and from school too hazardous.

Farm Families Are Thriftiest

Conclusion of Department Of Agriculture After Extensive Survey.

WASHINGTON.—A house-to-house survey of more than 1,000,000 farm, village and city families under department of agriculture direction reveals some interesting differences—and similarities—in living habits.

Some of the old comparisons, gathered from thousands of pages of reports covering every section of the country, every income strata of society and all races, include:

Farm families are the best-fed population group in the country. Village families are the poorest-fed. City families fall between the two in the proportion having an adequate diet.

Farm families on an average consume 60 per cent more milk, 15 per cent more butter and 25 per cent more leafy, green and yellow vegetables than small-city families.

Farmers have larger families. Forty-two per cent of the farm families have five or more members, compared with 26 per cent of city families. Farmers, on the average, are younger. Thirty-six per cent of persons living on farms are under 15 years, while in the city the percentage is only 26 per cent.

Live Within Income.

Farmers are more thrifty; they tend to live more within their income. In the principal farming areas, farmers within an annual income, including home-grown food, of \$1,000 to \$1,249 a year, saved an average of \$26. City families at that level were "in the red." When the income rose to \$4,000 to \$4,999, farmers saved \$2,182 and city families \$1,183.

Fewer than half the farmers had electricity, while 98 per cent of city and village dwellers had it. The percentage of farmers having electricity ranged from 8 per cent in Mississippi to 95 per cent in California.

In automobile ownership, however, farm families were ahead—94 per cent to 70. Three fourths of the automobiles bought by farmers were from the used-car market, while only half the city purchases were in that market.

Daily newspaper circulation varied widely in different sections of the country.

Telephones and Radio.

Telephones were installed by 52 per cent of the farm families and 60 per cent of those in small cities in the north-central region. In the Southeast the figures dropped to 5 per cent for native white farmers and 49 per cent for city families.

The number of radios on farms varied in about the same proportion as electricity. In the north-central region 24 per cent of the farms had running water, while 94 per cent of

the city homes enjoyed that convenience.

City families spent more to "keep up appearance." Their clothing bills were a third larger and they spent an average of twice as much for beauty treatments, toilet articles and preparations and in barber shops. Another item was the frequency with which city families purchased new automobiles.

Family's Mail Service

Covers Over 125 Years

YAKIMA, WASH.—For more than a century and quarter, the Throssell family, now of Yakima, has shared with the postoffice department the slogan: "The mail must go through."

In 1805 A. B. Throssell worked for the Hudson Bay company carrying mail by boat from Manitoba, Canada, to Fort Vancouver.

The next member of the Throssell family to join the postal force was Thomas, who rode the pony express between Salt Lake City and Portland. Harry Throssell was third. He operated a rural route out of Yakima, driving over roads that were little better than trails.

Today two other members of the family deliver the mail. Harry Throssell Jr. pounds the pavement at Yakima, and a brother, Wilbur, is a member of the postoffice money order staff.

BURKET ITEMS

Miss Jean Newcomb, daughter of Mr. and Mrs. Paul Newcomb was taken to the McDonald hospital Saturday night, where she submitted to an operation for removal of appendix.

The Seward Township Home Economics Club spent Thursday afternoon at the Hardy Songer home. Refreshments in keeping with St. Patrick's day were served to about thirty members.

Miss Esther Fisher is now employed at a restaurant in Akron.

The ladies aid of the Burket M. E. Church will meet Wednesday afternoon at the home of Mrs. L. W. Goshert.

BIRTHS

Kelley

Mr. and Mrs. Clifford Kelley of Mishawaka, are the parents of a baby son, born Tuesday, March 12th. The infant weighed seven pounds and one ounce, and has been named Larry Dean. Mr. and Mrs. Lon Walters of Mentone and Mrs. Mandy Kelley of Tippecanoe are grandparents of the new arrival.

Persia's Woolen Carpets

The manufacture of woolen carpets was introduced into France from Persia about 1589.

PERSONALS

Mrs. Edyth L. Tunes of Pendleton is spending this week with her parents, Rev. and Mrs. E. E. DeWitt.

Try Shinn's Special Sausage.

Miss Lucille Lightfoot of Fort Wayne spent the week-end in Mentone with her parents, Mr. and Mrs. Lester Lightfoot.

Mr. and Mrs. John Bowman of South Bend were guests of Mrs. Rosa Kelley Saturday.

For Sale: Oats, germination test 97 per cent. Also one belt male hog. Mahlon Jefferies, R. F. D., Warsaw.

Miss Anne K. Sierk spent the week end with her mother, Mrs. Kathryn Sierk near Nappanee.

Try Shinn's Special Sausage.

Mr. and Mrs. Earl Davis entertained the following guests at their home Sunday: Mr. and Mrs. Roy Smith and family, Mr. and Mrs. Russell Walters and son Floyd, Mr. and Mrs. H. C. Clymer.

Mr. and Mrs. Lon Walters spent Sunday in Mishawaka with Mr. and Mrs. Clifford Kelley.

WANTED: Custom plowing and discing. Have new outfit, guarantee good work, and prompt service. Meiser Brothers, Phone 7171 Mentone, or write Rochester, Ind.

Mr. and Mrs. George Clark and sons Billy and Dickie visited Mr. and Mrs. Harry Groshanes in Niles, Mich., Sunday.

Try Shinn's Special Sausage.

Mrs. Eva Irvine and son Wayne of Leesburg, Mr. and Mrs. Clell Irvine of North Manchester and Mr. and Mrs. Robert Irvine of Warsaw, spent Sunday with the formers sister, Mrs. Lydia Ryneason.

Card Of Thanks

We wish to thank our neighbors and friends who were so kind and thoughtful during the illness and death of our husband and father.

MRS. HORACE RECKEL
MRS. CECIL CLOUSE
CARL E. RICKEL

Increased Life Span

Since the turn of the century the average life span of the white boy baby has increased 12½ years.

Rome's Population

Rome today has the largest population—1,315,000—it has had in its 2,700-year history.

GOOD FRIDAY

In cooperation with many of other churches of Kosciusko County the Mentone Methodist Church have a special period of Worship from twelve to three o'clock as follows: The Cross will be lighted at 12:00 o'clock and to 1:30 a period for Bible reading, meditation and Silent Worship. Beginning promptly at 1:30 the reading of the Bible story of the "Good Friday" events along with solo's and hymns of worship. All are invited to come who may desire to join in this service. School students desiring to come will be given credit cards which will be accepted by Principal Kelley accounting for the students absence from school. Those desiring to Worship during this period are invited to come or leave at any time suiting their convenience.

E. E. DEWITT, Minister

Things To Watch For

A new receiver in the fast-blooming television business, showing a picture 5 by 6½ inches and selling for \$149.50—the biggest home sets, showing an 8 by 10 image, have been cut from around \$600 to \$395.

A completely transparent and flexible pickle bag, with the pick swimming in their own brine.

Porch and lawn furniture made of woven, transparent plastic, in the wicker fashion, but even more impervious to weather than wicker ever was.

Sunglasses of polaroid, ground to specifications just like regular eyeglasses, so that folks who wear glasses anyway won't have to wear two pairs when dodging the sun.

Ice-cream in a factory-sealed package that can be opened by giving a yank on a string imbedded around the waist of the fibre container.

War-inspired names on your lipstick, such as Navy Red, Censored Red, Night Red, and Bombshell Red.

Begin Evening Services

Rev. Walter H. Miekley of the Palestine Christian Church, announces that beginning Sunday, March 24, there will be evening services at the Church and every Sunday evening thereafter. Services will begin at 7:30 o'clock and Young People's meeting will be at 6:45.

The message for the next weeks will be a series of prophetic messages entitled, "Gods News Behind The News."

Japanese 'Gobang'

Gobang is a Japanese table game, akin to checkers, which was invented by the Emperor Jao in 2350 B. C.

Dr. L. C. Lund To Practice In Argos

Dr. Leonard C. Lund, who for the past nine months has been associated with Dr. Dan L. Urschel in the Mentone Clinic, has announced that he will leave the clinic to start a practice of his own in Argos, Ind. His resignation will go into effect, Monday, April 1.

READING CLUB WILL MEET WEDNESDAY NIGHT

The Mentone Reading Club meeting which was postponed two weeks ago, will be held Wednesday night, March 27, at the home of Mrs. F. R. Burns. This will be their anniversary meeting, and a special program been planned.

In The Lions Den—

Forty members of the Mentone Lions club met in regular session at the Methodist church Wednesday night to listen to a special Easter service conducted by their president, Rev. E. E. DeWitt.

After the dinner hour new Lion member Estel Smith received his membership pin and official welcome to the club by Lion F. R. Burns, past president of the club.

It was announced by President De Witt that a number of special guests are expected to attend the next regular meeting from Rolling Prairie, Ind., to help celebrate the occasion of a zone meeting.

Vere Kelley is chairman in charge of the entertainment for that evening which will be given by members of the club. The nature of the entertainment is as yet held secret by Mr. Kelly, who expects to present his program as a surprise feature to the other members.

Dale Kelley, principal of the schools, announced that Rev. Lanahan, state chaplain of Lions International has been engaged to deliver the commencement address at the graduation exercises of the Mentone high school on the evening of Friday, April 19. Rev. Lanahan is considered a very able speaker and it is thought fortunate that his services have been obtained.

April First Pranks

vices have been obtained.

Following the business meeting, members of the club assembled in the church sanctuary where they heard Rev. DeWitt deliver a special Easter sermon entitled "Ten Reasons Why I Believe In The Resurrection."

Special music before the sermon was furnished by Jack Dillman, who played a solo number on the bass horn, and by Miss Rowena Lackey, who presented a violin solo. They were accompanied on the piano by Mrs. LeRoy Cox.

VINCENT TO SPEAK AT LINTON, IND.

On Sunday, March 31, Rev. C. G. Vincent will conduct services at Linton, Ind., former home of the Vincents. They will also visit friends in Louisville, returning to Mentone Sunday, April 7.

SUSTAINS BROKEN RIB

Allen Nelson, 84 year old Mentone resident fell from a ladder propped against a tree on his property in Mentone Tuesday. One rib was fractured. Mr. Nelson has been confined to his home with the injury but is improving now.

VISITS PARENTS

Miss Jean Burns, and Miss Hilda Lease, students at Indiana university, visited the formers parents, Mr. and Mrs. F. R. Burns in Mentone over the week-end. The girls are both members of the university Fife, Drum, & Bugle Corp. They participated in a Lenton Concert Friday night under the direction of Dean Robert Sanders, at the Men's gymnasium at Bloomington. Mr. and Mrs. F. R. Burns attended the concert.

JASPER BAER AT McDONALD

Jasper Baer of Tippecanoe submitted to a major operation at the Parkview hospital in Plymouth Saturday morning.

MRS. EATON AT PARKVIEW

Mrs. Charles Eaton was taken to the Parkview hospital in Plymouth Friday night where she submitted to a major operation. Her condition is satisfactory at this time.

Mr. and Mrs. Byron Nellans were Friday evening guests at the home of Mr. and Mrs. J. M. Preisch.

Mentone Eggs Go To President

Committees in charge of the 1940 Mentone Egg Show shipped a case of eggs to the White House in Washington on Wednesday of last week bearing Easter greetings to the President and a notice of the approaching egg show.

The special case, with greetings painted on one side by Dobbs Miller, was placed aboard the one o'clock passenger train on the Nickel Plate line.

Moving pictures were made of the preparation and shipping of the case by the management of the Strand theatre in Warsaw and will be shown for one week at that theatre beginning Friday, March 29.

Still pictures made of the shipment of the case have been released through a photo syndicate for national publication.

The case was autographed by many of the egg producers in the Mentone community.

SUFFERS BACK INJURY IN AUTO ACCIDENT

Mrs. Lyde Williamson sustained a painful back injury Sunday afternoon in an auto accident near Claypool. Mrs. Williamson and her brother and niece were returning from Florida to their homes in this vicinity when their car left the road near Claypool. Mrs. Williamson has been confined to her home in Mentone since the accident.

TO THE MOTORIST

It's amusing to watch an apparently endless number of circus clowns climb out of an automobile, but it's best to avoid this practice for safety's sake when driving, according to the Chicago Motor club safety and traffic department.

Overloading a car causes many accidents for two reasons, the motor club points out: crowded conditions in the front seat frequently hampers the driver's movements and 'piling up' both the front and back seat cuts down his vision.

How Many GOOD Cows Are You Milking on Your Farm?

Statistics indicate that GOOD milk cows are a profitable investment, producing a steady weekly income for those who properly feed and care for them, and that poor producing cows are a liability.

Why not test your cows and determine if you have any that are not profitable and endeavor to improve and enlarge your herd by replacing with more cows that have a high producing record?

Our community is especially adapted to dairying, with a type of soil which produces alfalfa abundantly and blue grass with a very high protein content.

We are desirous of having the income of the farmers in our community increased and will be interested in discussing and assisting you with your plans to improve your dairy herds.

We are also interested in assisting and encouraging the boys and girls in a dairy calf program.

Cats were protected by law in Wales in the year 948.

Know Name of Noah's Wife?

University Professor Found 103 in Hunt Through 2,000 Volumes.

COLUMBUS.—If you know the name of Mrs. Noah, wife of the Biblical ark builder, you're one step ahead of Dr. Francis T. Utley of the Ohio State university department of English.

Dr. Utley has gone through more than 2,000 dusty old volumes and traveled through European museums trying to get the facts on Mrs. Noah.

He has discovered 103 of her names. They range from Amzara to Waliya and Abbatissa to Mama, but Dr. Utley doesn't know which one is correct.

Mrs. Noah came to his attention when he was writing his doctoral thesis. He became interested and made her a sort of hobby. Dr. Utley spent last summer exploring the British museum and the Finland folklore archives at Helsingfors for more legends about Mrs. Noah. There are hundreds of them which he has traced to all ages and peoples.

Stories about the Noahs are to be found in Russian, Hebrew and Rumanian folk tales, Ethiopic Apocryphal writing in the First century A. D., all of the Baltic countries and among many of the northern countries.

Eva to Russians.

The Greeks called her Beersheba, Pandora Pyrrha and others. The Hebrews, Venus and perhaps Marie. In a Seventeenth century English treatise she is Cybele. To the Russians and Rumanians she was Eva.

In other folklore she was known as Regina Sacrorum, Princeps Vestalium, Set, Ge, Arezia, Emzara, Noamzara and Nahabalogunja.

Dr. Utley said one of the explanations for Mrs. Noah's many names was that many magicians and primitive "crystal-gazers" just selected a name which they could conjure with.

Some of the old Baltic and Russian tales about the "launching" of the ark state that Mrs. Noah did not care for the rest of the human cargo and refused to get aboard.

"Cursed one, come on," Noah is supposed to have retorted.

The devil was present and assumed that Noah meant him, so he took his place on the ark. Then the devil left the ark through a hole which he bored.

Legend of the Snake.

Noah didn't know how to fill the hole and asked the animals to aid him. The snake volunteered to plug the hole with its tail, provided Noah would promise him the blood of one man a day when the boat docked. Noah was forced to consent.

After the 40 days and nights of rain the water went down and the snake came to collect for his work. Noah, worried, consulted the Angel Gabriel, who advised him to burn the snake in a fire. Noah did so and scattered the snake's ashes in the four winds.

"The end of that story," said Dr. Utley, "is that the snake became lice and fleas and other biting insects. And today they feed on the blood of man to continue collecting Noah's old promise."

Another variation of the story is that the dog plugged the hole with his nose—and that's why dogs have cold noses.

Still another version is that the dog began to suffocate and called to Mrs. Noah for help. She put her bent elbow into the hole—and that's why women have cold elbows.

Daily 20-Mile Hike Is

'Good Exercise' at 75

MASSILON, OHIO. — To Niles Smith, who is 75 years old, a 20-mile hike each day is "good exercise."

A liking for window-shopping is the reason for Smith's daily jaunts. He lives almost exactly half-way between the downtown sections of Massillon and Canton, on the Lincoln highway. Since he has difficulty in deciding which city to visit, he often compromises and looks at the shops in both.

Streetcars, Smith explains, are not for him. "If you have any regard for your health," he says, "you'll walk."

The secret of healthful walking, according to Smith, is to swing your arms. "Exercise every muscle in your body," he advises, "and you'll drive out all the poisons in your body and probably live happily ever after."

Pastor Offers Songs for

Fast Drivers to Sing

MANITOU SPRINGS, COLO.—The motorist with any "regard for his future abode" should sing hymns as the speedometer climbs upward, the Rev. L. C. Miller said in a safety sermon at the Mennonite church. His selections at different speeds:

At 25 miles per hour, "I'm but a Stranger Here, Heaven Is My Home."

At 45 miles, "Nearer My God to Thee."

At 55 miles, "I'm Nearing the Port and Will Soon Be at Home."

At 65 miles, "When the Roll Is Called Up Yonder I'll Be There."

At 75 miles, "Lord, I'm Coming Home."

'Double Talk'

"Double talk" is said to be the invention of Clifford Nazarro of Hollywood.

Janizary Music

Janizary music is a term applied to music produced by a combination of shrill wood-wind and brass instruments, various kinds of drums and triangles.

MISERY LOVES COMPANY

He got out of bed at two a. m. He threw a dressing gown over his pajamas and galloped down two flights of stairs to the landlord's flat.

He rapped sharply. No answer. He knocked again, and again. Finally the door opened. A sleepy-eyed landlord stuck his head out.

"Well," he demanded. "What do you want?"

The other took a deep breath.

"I just want to inform you," he said, "that I won't be able to pay the rent this month."

"Is that why you woke me in the middle of the night?" the landlord howled. "Couldn't you tell me that in the morning?"

The other nodded.

"Certainly," he admitted. "But why should I worry alone?"

OH!

"John, how is the car running?"
"Not so good, Sis! There was a little miss in it last night."
"Yes! I found her gloves and handkerchief."

Missouri Hospitality

A few of the boys in Kansas City were showing a Texas rancher the city. "What do you think of our stock yards?" they asked of him.

"Oh, they're all right, but we have branding corrals in Texas that are bigger," he said.

That night they put some snapping turtles in his bed. He turned back the cover and said: "What are those?"

"Missouri bed bugs," they said.

He looked at them a moment and then said, "So they are. Young ones, aren't they?"

Supply and Demand

A party of American tourists in a bus were being driven among the mountains of Switzerland.

"Say, where did those large rocks come from?" asked the man next to the driver.

The glaciers brought them down," replied the driver.

"But where are the glaciers?" was the next question.

"They've gone back to get more rocks," was the weary reply.

Seventh Day Sabbath

The Seventh Day Adventists of serve as the Sabbath the period from sunset Friday to sunset Saturday.

MAN'S MASTER PATTERN

Every writer on success and achievement will tell you that before a man can succeed in anything he must have a well defined goal, a definite ambition. He must not only keep this goal constantly before him, but he must dedicate every energy that he has toward its attainment. He must keep it actively in mind always. Everything that he thinks and does must be directed toward its accomplishment.

The building of a Christian life is no different than building success in any other line. To build a Christian life one must keep before him the principles of a Christian life as outlined in the teachings of Christ. It is no more possible to aimlessly drift into a Christian life than it is possible to drift into the profession of a lawyer, a surgeon or an artist. A truly Christian life is just as much the result of plan and purpose and directed effort as is the attainment of perfection in any vocation of life. Christ is the goal, the pattern. A life attains its highest perfection only in the degree it approaches this pattern.

Amazon's Navigable Waterway

The Amazon is navigable for ocean steamers over a distance of 2,300 miles, and 486 miles farther for smaller vessels. The river system affords navigable waterways of 27,000 miles.

DEATH TAKES

MRS. EDWARD BAXTER

Mrs. Edward Baxter, aged 69, resident of Mentone for the past fifteen years, died at her home here Tuesday afternoon at 3:30 o'clock. Death was due to apoplexy. Mrs. Baxter had been ill only one week, though an operation she underwent many years ago had impaired her health.

The deceased was born on a farm three miles northeast of Mentone, the daughter of William and Sarah Fisher, pioneers of Kosciusko county. After her marriage to Edward Baxter, a building contractor, she lived in Indianapolis and Cincinnati, later moving to Mentone when her husband retired.

Survivors include the husband; one brother, Riley Fisher of Palestine; two nephews, Fremont Fisher of Churubusco and I. D. Fisher of Palestine.

Funeral services were held Thursday afternoon at 2 o'clock at John's Funeral home, Mentone, with Rev. E. E. DeWitt officiating. Burial was in Palestine cemetery.

HOME ECONOMICS CLUB MEETS

Mrs. Claude Barkman, assisted by Mrs. John Laird entertained the Mentone Home Economics club at the Barkman home last week. Thirteen members and two guests were present. A general discussion of one-dish meals for house-cleaning days constituted the program for the day.

Mrs. Will Vernet will be hostess at the next meeting, April 11.

MAJOR OPERATION

Mr. Forest Lutes submitted to a major operation at the Murphy hospital in Warsaw Thursday night.

BIRTHS

McIntyre

Mr. and Mrs. Devon McIntyre of Tippecanoe are the parents of a baby son, born on St. Patrick's Day, Sunday, March 17, at the Murphy Hospital in Warsaw. The infant weighed seven pounds, twelve ounces and has been named Donald.

Cochran

Mr. and Mrs. Adam Cochran announce the birth of a baby daughter, whom they have named Ruth Mae. The child was born at their home north of Mentone Monday, March 18, and weighed eight pounds.

Ware

Sharlene Fae, weighing seven and one half pounds, was born to Mr. and Mrs. Sam Ware at their home near Mentone Monday, March 18. Mother and daughter are doing nicely.

BURKET HAWKS

FETED TUESDAY

Members of the Burket basketball team were guests of honor Tuesday evening at a banquet given by Burket's Parent-Teachers' association at their gymnasium. Speaker for the evening was Ralph O. Nusbaum of Warsaw.

Coach Hardy Songer presented awards to worthy players. Sweater awards were presented to Jack Newcomb, Donald Yarian and Gerald Bucher, all seniors. Letters went to John Eaton, Carl Ehnman, Lamoine Parker, Tom Higgins, Hubert Rickel, Nelson Holloway, Gerald Kesler and Junior Fuller.

Annabel Rickel, vivacious Burket cheer leader, was also presented with a letter.

The basketball players, their coach, and special guests were seated at the speakers table, tastefully decorated for the occasion. Minature basketball players in purple and gold, marked each place. Louis H. Breeding served as toastmaster. Short talks were made by Coach Songer, Earl Sarber, township trustee, and principal Dewey Dudgeon. Mr. Nusbaum of Warsaw was the main speaker of the evening.

Following the dinner a short business meeting was conducted by P.T.A. president, Mrs. Eva Ehnman.

Music for the occasion was furnished by the Burket high school band, who played three selections, "Victory March", "Fortuna" and "Queen City."

The program closed with two numbers, "You Have To Be A Basketball Hero" and "Linda Lou," by the Burket girls' trio. The meeting was adjourned by Mrs. Ehnman.

A basketball game between the seniors and the candidates for next year's team was staged after the gym had been cleared of chairs and tables.

PERSONALS

HOROSCOPE

MARCH 27, 28, 29—You are not much on finesse. You would rather get things done in a hurry and leave the skillful part to others. You are musically inclined and enjoy good poetry. You are fond of home life where you are calm and long suffering. Your children are fond of you. You are fond of travel and want to see the things and places you hear and read about. In your work you are accurate, have a fine intellect and are honest and faithful.

MARCH 30, 31, APRIL 1—You believe your own opinions far superior to those of others. A nervous disposition gains for you the reputation of being a crank. Your good disposition makes people like you and you have lots of friends. You would make a good designer or excell as a milliner where fine work and creative skill are necessary. You are dissatisfied with your own work and change it from time to time refusing to see the real merit in it.

VACATIONERS RETURN

Mrs. Lyde Williamson of Mentone Mr. Bert Rickel of Burket and Miss Icel Rickel of Claypool, have returned to their homes after spending the past two and one half months in New Smyrna, Florida and other points of interest in southern states.

Two Minute Sermon

Thomas Hastwell

A GROWN UP RELIGION: I was talking recently to a young woman, a college graduate, on the matter of practical religion. "I have had quite a time," she said, making my religion practical, or rather adjusting my life so that my life and my religion could be in harmony. I grew up in the church and Sunday school and when I went away to college I flattered myself that I knew what religion was and that I had a religion suited to my needs. I soon found out I did not. The religion of my Santa Clause days somehow wouldn't serve me then. I had to readjust myself. I am happy to say that I have succeeded in accomplishing this. My religion is now a practical, usable thing, a thing that I can work by and live by. I have reached the point where I feel that if I place myself in a way to know God's will he will direct me in all my ways. It has brought me a faith, and confidence, and a peace that I have never known before. I have a grown up religion.

The young woman has solved the problem that every person must solve if their religion is going to mean what it can and should mean to them. They must acquire a grown up religion.

FARM TOPICS

GOOD DAIRY COW PAYS ITS 'BOARD'

High Producing Animals Prove More Profitable.

By ELMER J. MEADOWS

One dairy cow that produces 545 pounds of butterfat a year will return as much money above feed cost as two cows that produce 350 pounds, or more than 13 cows that average 152 pounds of butterfat annually. That's what experiments at the Colorado State college indicate, says Elmer J. Meadows.

One 545-pound cow will return \$108 above feed cost during a year, according to figures Meadows has compiled from actual experience. This figure is based on butterfat selling at 40 cents a pound.

Two cows each producing 350 pounds of butterfat a year will return only \$4 a year more above the feed cost than the 545-pound cow and will cost \$168 to feed, compared to \$110, the feed cost of the large producer. Thirteen 152-pound cows will return \$101.40 above feed cost during a year, and it will cost \$689 to feed them.

If the extra labor required to milk and care for 13 cows producing 152 pounds of butterfat each compared to 2 producing 350 pounds each, is figured, it would further emphasize the necessity of keeping and breeding only cows with the ability to produce large amounts of milk and butterfat.

And so the question evolves—"Why not take a few cows that produce at least 350 pounds of fat a year rather than a whole cornfield of the 152-pound group that produces only about 20 pounds less than the average dairy cow in the United States?"

Skim Milk Is Used In Making of 'Wool'

It has long been a wonder to many that when a black cow ate green grass it gave yellow milk, but it's even more of a wonder nowadays when a chemist takes the skim milk and makes wool out of it. The chemists extract the casein, soften it in water, and dissolve the resultant compound in a solution of caustic alkali. It becomes a thick, sticky mass.

After working into the proper consistency by aging and adding other liquids the mixture is forced through a spinneret, hardened, and it is ready to be spun.

The cost of the finished product

will be about 50 cents a pound when put on a commercial basis. It may be used in preparing garments for persons allergic to natural wool and for other uses in which natural products have been undesirable.

Population Is Shifting From Cities to Farms

It has been apparent for some time that the population trend is away from the cities and toward the farm. Now the fact seems to be officially proved by the advance try-out in the 1940 federal census. Two counties in Indiana were selected by the government for the preliminary count. The first figures have been released, showing that while St. Joseph county has gained somewhat in its rural areas, the two principal cities, South Bend and Mishawaka, have decreased by a few thousand. The difference was slighter in the case of Marshall county and its county seat, Plymouth. The town gained a little, but the county gained more. These are only two small straws, of course, but they show which way the wind is blowing and the fact is significant after a long period when the "drift to the cities" was regarded as a serious social problem.

Farm Notes

In blocking a gate against hogs, swinging the foot back and forth is more effective in keeping the animals back than waving the arms.

Corn and sorghum silage may both be successfully fed to sheep, but the quality must be good. Moldy or spoiled silage will often cause colic, scours and other digestive ailments.

Whitewashing the walls in poultry houses where artificial light is being used will aid much in spreading the light over the roosts, as well as on the floor and feed hoppers.

Bots in horses may be controlled by washing the horse's legs with a 2 per cent cresol solution when the weather is freezing, and having the veterinarian give carbon disulphide capsules a month later.

The place to fight a gully is at the top of the slope. Ever notice how a gully forms at the foot of the slope and eats its way upward? Ever try to "doctor" a gully at the foot of the slope by filling it with trash or a brush dam? It washes out with each hard rain.

Largest War Vessel

The largest war vessel in the world is the British battle cruiser Hood which has a length of 860 feet and a beam of 105 feet.

Time Payments in Mexico

Discontinuance of time-payment plans almost stopped the purchase of refrigerators and radios in Mexico.

Washing Varnished Woodwork

If you will add a tablespoon of soda to a pail of hot water when washing painted or varnished woodwork or walls, no soap will be needed.

Fitting Tribute

Tombstone Dealer (after several futile suggestions)—How would just a simple "Gone Home" do for an inscription?

The Widow—I guess that will be all right. It was always the last place he ever thought of going.

GREAT APPETITE

"Lunch time! Let's eat up the street."

"Are you as hungry as that?"

Immaterial

The deacon of a colored church invited the parson home for a Sunday dinner. During the meal the parson said: "Brudder, dis is mighty good chicken. May I ax yo' where you got dis fowl?"

The Deacon: "Dat am an immaterial question; when yo' preaches a good sermon, I don't ax yo' where yo' gits it."

Sure Sign

The boy friend dropped around at his girl's house. As he ran up the steps, he met her little brother.

"Hi, Bill."

"Hi," said the brat.

"Is your sister expecting me?"

"Yeah."

"How do you know?"

"She's gone out!"

Popular Speech

Hotfoot—Old Borely, the after-dinner speaker, seems to have made a tremendous hit. I never heard an audience clap so much. What did he say?

Coldfoot—He said to them that he would not go on until they quieted down.

Honest Boy

Mr. Brown—You're a very honest boy, but it was a \$10 bill I dropped—not 10 ones.

Johnnie—I know, mister, but the last time I found a \$10 bill, the man didn't have any change.

Turn-About Business

Nil—Hey, Bill!

Bill—Yes; what is it?

Nil—The doctor's out there with a tire that needs fixing.

Bill—Diagnose the case as flatulency of the perimeter and charge him \$5.

PERSONALS

Miss Louise Jones was a Thursday evening guest of Miss Lena Rush at her home in Warsaw.

Mr. and Mrs. Paul Cumberland and son and Mrs. Eiler spent Monday evening with Mr. and Mrs. Walter Cumberland.

Miss Louise Jones was a Friday evening dinner guest at the home of Mr. and Mrs. Max Smith.

Lloyd Haldeman and daughter Delores and Mrs. Mary Harsh of Akron were in Logansport Tuesday.

The Home Economics Club will meet Wednesday afternoon, March 27th, at the home of Mrs. Dorothy Miller, Mrs. Bookie Cook is the assistant hostess.

Al Black, who has been confined to his home by illness for so many months is feeling better than he has for several months.

EASTER PARTY

An Easter Party was enjoyed by Grade 5 Friday afternoon. The children had an Easter egg hunt and played several egg relays. Each child was given a chocolate egg with his name written on it.

Cleaning Brass Ornaments

Clean your brass and copper ornaments with turpentine, and they'll stay bright much longer.

Latest Divorce Remedy

A spanking machine for use on couples who seek divorces over "trivialities" was suggested recently by Superior Judge Oscar F. Nelson of Chicago, Ill. Nelson voiced the suggestion after Mrs. Mary Yon, 23 years old, appeared before him and sought a divorce from her 24-year-old husband, Edward, on cruelty and desertion charges. She said they quarreled every other day, that Edward frequently threatened to leave home and that he finally "left for good." "We ought to spank people like you who seek divorces over trivialities," Nelson told the couple. "We ought to have a spanking machine right in the court chamber."

Loyal to the Sea

A loyal navy wife at Redding, Calif., thought it would be fine to have red and green running lights on her automobile, so had one headlight red and the other green. A highway patrolman warned her such lights might be fine on the high seas but that they are distinctly taboo on California highways.

Irish Moss

Carrageen, a sea weed used in making jellies for invalids, takes its name from the town of that name near Waterford, Ireland. It is also known as Irish moss.

JESSIE RUSH, Editor and Mgr.

Mrs. Roosevelt sounds a new note in the question of whether wives and debutantes who do not actually need the money should be filling jobs in times like these. Mrs. Roosevelt puts it on a new plane when she approves jobs for such women but declares that an obligation goes with the job. Earnings of such women who don't need the salaries they receive should be spent, she says to create work for others.

This "Confucius say" business bids fair to outdo the May West crop of stories and the "Knock, Knock" that for considerable time held sway.

An interesting survey was recently made by a committee of students in a Western Kansas high school on the smoking and drinking habits of high school students in this particular school. It was found that of the 90 boys in school 61 per cent were non-smokers, 22 per cent were occasional smokers and 17 per cent were habitual users of tobacco. The tabulation on the users of alcohol showed that 91 per cent were occasional drinkers and there were no habitual users of alcohol.

About all the economics the average individual needs to know to get along reasonably well is to spend a little less than he makes and put his savings in a safe place where he can't spend them.

The practice of the postoffice department of using numerous new issues of stamps peeps up business for stamp collector, Robert Anderson. It also should prove profitable to the postoffice department since several hundred thousand dollars worth of each issue is purchased by stamp collectors. Such stamps are never used to pay postage hence the postoffice department is not called upon to render any service for them.

The short skirts show up the twisted stocking seams and runners and pep up the hosiery business.

Because the devil is too busy to be everywhere, he made naggers.

Those who thought that David Selznick had made a bad guess when he bought the story "Gone With The Wind," have another idea since the release of the picture. The time spent since securing the story was, it now appears, profitably spent in

writing the play and perfecting the details.

"The kind of doctor I want," a local man who has been ill told us yesterday, "is one who don't tell me I should have my teeth pulled."

One can always tell when a man buys fresh side pork at the butcher shop that he was raised on the farm. Town folks seldom buy fresh side. Some farm folk would rather have fresh side than T-bone.

The quality of self initiative is a most delicate plant, and one of the easiest destroyed. It is tragic how a little help sometimes ever after renders the individual incapable of helping himself. It seems to take the very vital quality of self initiative away from some men.

As empty vessels make the loudest sound, so they that have least wit are the greatest babblers.—Plato.

Did you know the American Boy Scout Handbook ranks as the second fastest selling book in America. The Bible holds first place.

A Los Angeles eccentric was arrested for passing out his money in a crowd. Probably the poor fellow is suffering from an hallucination which leads him to think he is the head of some federal agency.

BIRTHS

Parker

Mr. and Mrs. Robert Parker are the parents of a six pound baby daughter, born at their home south of Warsaw Saturday morning, March 16. The infant has been named Patricia Darlene. Grandparents of the new arrival are Mrs. Jessie Parker and Mr. and Mrs. William Schooley.

Birthday Surprise

A birthday surprise was held Monday evening at the home of Mrs. Doris Coplen in Burket, in honor of the birthday of Mrs. Merdena Richhart. A handkerchief shower was given and bunco was enjoyed throughout the evening, with Miss Harriet Husted high scorer.

Those present were Mrs. Vera Songer, Mrs. Anna Williamson, Mrs. Catherine Francis, Mrs. Ocie Newcomb, Mrs. Georgia Cochran, Mrs. Eva Eherenman, Mrs. Zelma Summe, Mrs. Gladys Davis, and the Misses Harriet Husted, Zeta Sands, Goldie Taylor, Mary Davis, Wanda Summe, Norma Williamson and little Martha Jo Coplen.

Latest Fad in Paris Is Patriotic Jewelry

PARIS.—Slogan brooches and "patriotic jewelry" are the rage of Paris.

"Not one inch," words pronounced by M. Daladier in an early wartime speech, has been produced on clips and brooches.

They also appear with other Franco-British slogans embroidered in wools or beads on dresses.

Find Indians Lived In Kansas in 3 Eras

Shown in Excavations Made
By Smithsonian Man.

WASHINGTON.—Three types of primitive men lived on the western Kansas plains in three different prehistoric eras, according to Dr. Waldo R. Wedel, who conducted excavations in the region for the Smithsonian institution last summer.

Evidence of three successive occupancies of the plains area was found in stratified layers.

Scattered on the surface, uncovered by recent dust storms, and in two pithouses, Dr. Wedel found relics of the so-called Upper Republican culture—arrowheads and pottery dating from the late prehistoric period. The Indians who left them apparently were ancestors of the Pawnees present in the country when the first Spaniards arrived.

Beneath this was found a layer of barren soil overlying artifacts of the so-called Woodland culture, similar to cultures of some prehistoric Indian tribes east of the Mississippi.

Beneath the Woodland level was another strip of barren soil about a foot thick overlying a layer of soil interspersed with fire-cracked stones and charred and broken animal bones—apparently the remains of some primitive kitchen. Careful search revealed no artifacts. The primitive race had left no arrowheads nor fragments of pottery. There were no bits of charred corn indicating a partial vegetable diet and a settled agricultural life.

Dr. Wedel went to Kansas primarily to investigate a Pueblo ruin. There is some historical support for the story that, following the Spanish conquest of New Mexico, a small band of these Indians fled to Kansas and set up a Pueblo settlement. Dr. Wedel found traces of the seven-room pueblo which the Indians erected in the plains country.

New Warbler Discovered In West Virginia Woods

PITTSBURGH.—A new bird, a warbler, has been discovered by a Wheeling, W. Va., school teacher, according to the publication, The Cardinal, printed by the Audubon Society of Sewickley Valley.

Closely resembling the parula

warbler, the bird was found by Karl W. Haller along with J. Lloyd Poland in the woods near Martinsburg, Berkeley county, W. Va.

Haller said he caught the warbler, believing it to be a parula, but then he discovered "it could be neither a parula or a yellow-throated warbler, although its appearance to some extent suggested both species." Later he caught a female.

The bird is gully gray with a lemon yellow throat and breast. Haller said he would name the bird "Sutton's Warbler," in honor of Dr. George M. Sutton of Bethany, W. Va., and Cornell university.

British Military Orders Control of Photography

LONDON.—A wide range of things of which photographs must not be taken, or sketches or plans made, without a permit, is mentioned in a British war office order.

They include any fortification, battery, listening post, searchlight, or other work of defense, any aerodrome or seaplane station, any assembly of the king's forces, any buildings occupied by troops, arsenals, factories or stores for munitions, wireless, telegraph, telephone, signal or cable stations, docks, harbors, shipbuildings, or loading piers.

The ban also applies to war vessels complete or under construction, to vessels or vehicles engaged in transport of personnel or supplies, aircraft or the wreckage of aircraft.

Mayor Writes Letters To Each New Resident

WILLOUGHBY, OHIO.—Mayor C. B. Todd believes in making all newcomers to Willoughby feel they are welcome.

Every time a new family moves to town, the mayor writes them a personal note, telling them he's glad they have come, and giving them pertinent information about his town.

Examples of the mayor's information:

The schedule for garbage and rubbish collections; location and facilities of Daniels Memorial park; municipal parking-ground sites behind the Terminals building; a list of village-owned public utilities, of telephone numbers for police and firemen.

Special Suit 45 Years Old

LAWRENCE, MASS.—Each year on his birthday, Edgar L. Silver, 85, "dolls up" to call on his friends. He wears a 45-year-old blue suit, and a 60-year-old top hat.

Hot Foot Hindoos

Nearly 100 Hindoos, including one woman, walked across a large pit of red hot embers at the Sri Mariamman temple in Singapore recently, watched by a number of Europeans and 4,000 Hindoos. So great was the heat from the pit that the men raking it with 10-foot poles were constantly cooled with buckets of water.

PERSONALS

Miss Rosalind Mentzer of Dowagiac, Mich., and Miss Margaret Mentzer of Bloomington, Ind., spent the week-end with their parents, Mr. and Mrs. M. O. Mentzer in Mentone.

Mr. and Mrs. Peter Blue were Sunday dinner guests at the home of Mr. and Mrs. Carl Mahoney.

Easter guests at the home of Mr. and Mrs. George Clark included: Mr. and Mrs. Harry Groshans and son Donald of Niles, Mich., Mr. Earl McBride of Kewanna, Ind., Mr. W. S. McBride of Chicago.

Mr. and Mrs. M. O. Mentzer and daughters Annabel, Rosalind and Margaret spent Easter Sunday in Marion, Ind., with Mr. and Mrs. James Mentzer and family.

Mr. and Mrs. Leland DeWitt of Converse, Ind., spent Sunday with Rev. and Mrs. E. E. DeWitt.

Mr. and Mrs. Cristy Hasset and Mr. and Mrs. William Austin of Proctor, Minn., spent several days last week at the T. J. Clutter home. Friday night the group was entertained at the home of Mr. and Mrs. Mahlon Jefferies.

Things To Watch For

A new X-ray machine, to be used for locating sharp objects embedded in auto tires, or discovering breaks in the tire walls—it's intended as standard equipment for service station.

A variation of the time honored lollipop is a "malticle," or frozen chocolate malted milk on a stick.

A super-silent alarm wrist watch—instead of ringing, a little knocker gently but insistently taps you on the wrist, through a hole in the back of the case.

Triple-decked bunks in sleeping cars—the Pullman company is building a couple of experimental low-cost sleepers with this feature, to allow a considerable reduction in the surcharge for sleeping accommodations, since they can sleep 45 instead of 36.

Shoestrings Repair

When the metal tops come off your shoestrings, dip the tips in hot paraffin and twist the ends.

BURKET ITEMS

Mr. and Mrs. Chester Davis and Eleanor called at the home of Mrs. Hannah Cook in Claypool Sunday. Mrs. Cook suffered a stroke of paralysis recently.

Mr. John Fisher of Warsaw and Miss Lucille Fisher of Warsaw spent Easter Sunday in Hartford City with Mr. and Mrs. Kenneth Fisher.

Miss LaDonna Summee of Chicago is spending the Easter vacation with her parents, Mr. and Mrs. Lloyd Summee.

More than one hundred forty Burket Alumni attended their annual banquet Saturday night. Those attending from a distance were Mr. and Mrs. Peter Blue of Chicago, Mr. Harold Bunch of Logansport, Ind., and Mr. and Mrs. John McSherry of Albany, Ind.

Mrs. Wilbur McSherry and son Jr. visited Mr. Cochran who is a patient at the Veterans Hospital in Hines, Ill., Sunday.

The Otterbein Guild girls enjoyed a lovely sunrise service at Fairview Church Sunday morning. Miss W. E. Sands, president of the Guild, served an Easter Breakfast after the service.

Mr. and Mrs. Peter Blue and family of Chicago were week-end guests at the home of Mr. and Mrs. Vere Kelley.

Mr. and Mrs. John McSherry of Albany, Ind., visited Mr. and Mrs. Fred McSherry and Daughter Mary Sunday.

Harold Bunch was a week-end guest at the home of Mr. and Mrs. Oscar Johnson.

Miss Jean Newcomb was removed to her home in Burket Sunday from the McDonald hospital where she had been a patient for one week.

Miss Esther Kelley and Harold Doran, Manchester college students, are visiting their parents, Mr. and Mrs. Vere Kelley and Mr. and Mrs. Virgil Doran.

Mr. and Mrs. Jacob Smith, Mr. and Mrs. William Smith of Peru, and Mr. and Mrs. Fred Arnold of Gosha were entertained Sunday at the home of Mr. and Mrs. Harold Williamson.

Railroad Motor Trucks

Today railroads use 63,800 motor trucks in intercity haulage, terminal transfer and store delivery service, according to a recent statement by the Automobile Manufacturers association. In 1925 they used but 900.
