MRS. HEZEKIAH TOMBAUGH, 84, DIES AT AKRON FRIDAY

Funeral services for Mrs. Hezekiah Tombaugh, 84, of Akron, were held Monday afternoon at 2 o'clock at the Church of God at Akron. Interment was at Akron.

Mrs. Tombaugh, grandmother to Wayne Tombaugh of Mentone, died Friday noon at her home after a several month's illness of complications. The deceased resided all her life in that vicinity, and was the mother of the late George Tombaugh, Winona railroad company motorman.

Surviving are: a daughter, Miss Goldie Tombaugh, Culver; a son, Jesse, Rochester; four grandsons, Wendell, Rochester; Gerald, near Akron; Wayne, Mentone, and Pvt. Robert Tombaugh, Keesler Field, Biloxi, Miss., and one great-grandson.

CONSERVATION CLUB TO MEET MARCH 11TH

Wednesday evening, March 11th, the members of the Mentone Conservation club will meet at the Mentone cafe.

This is a very important meeting for every hunter, fisher, trapper or conservationist. This will be your opportunity to voice your opinions regarding future laws—laws which will govern you in the future whenever you go fishing or hunting.

PHILIP BLUE, Sec'y.

PRIVATE SERVICES HELD FOR MENTONE GRADE STUDENT

Private services were held at the Plainview cemetery, Macy, Tuesday, for Anna Mae Coffing, 7, daughter of Merritt and Edna Warner Coffing, of near Palestine, who died at the McDonald hospital Saturday evening a few hours after she was admitted. She had been ill about 10 days and was in the second grade at the Mentone school. She was born Jan. 16, 1935, near Macy and lived there until a year ago when the family moved to a farm near Palestine.

Surviving are the parents; two sisters, Maxine and Bonnie; two brothers, Robert and Lonnie, all at home; grandfather, Walter Werner, Plymouth, and a grandmother, Mrs. Viola Coffing, Fulton.

W. S. C. S. TO MEET

The W. S. C. S. of the Mentone Methodist church, will meet at the home of Mrs. Geo. Rans, on Friday, March 6th at two p. m. All cars will stop at Clark's store about 1:30 to take out those desiring to attend who have no means of transportation.

OBITUARY

Elam H. Long, son of Joel and Elizabeth Long, was born June 21, 1864 near Leesburg, Indiana. After 77 years and 8 months he ended his earthly sojourn February 21, 1942. On May 30, 1903 he was united in marriage to Lucinda Anderson Dishner, of Bremen, Indiana. To them were born six sons and two daughters, two sons and one daughter preceding their father in death.

With his wife the following children survive: four sons, Harry, of Michigan City; Cecil, of Bourbon; Paul and Joseph at home; one daughter, Mrs. Esther Myers, of Indianapolis; also, by a former marriage, a son, Raymond, of Elkhart; and a daughter, Mrs. Oral Welsh, of Mentone. With these are: one step-daughter, Mrs. Gilbert Henderson, of Indianapolis; one half-brother, Mr. George Long, of Etna Green; four grandchildren; two great-grandchildren, other relatives and a wide circle of friends.

A number of years ago Mr. Long united with the Harrison Center United Brethren church. He was a loving husband, a kind father, and bore his affliction patiently to the end, when he quietly and peacefully passed into the great beyond. Dearest father, thou hast left us, And our loss we deeply feel; But 'tis God who has bereft us—He can all our sorrows heal. Yet again we hope to meet you When the day of Life has fled, When in Heaven with joy to greet you Where no farewell tears are shed.

CARD OF THANKS

The wife and children of Mr. Long wish to thank the neighbors and friends who so kindly have assisted during the sickness and death of their husband and father. Also for the beautiful floral offerings.

CIVILIAN DEFENSE COUNCIL MAKING COUNTY SURVEY

Last Wednesday morning a meeting of Civilian Defense officials and interested individuals was held in the Harrison township school at Mentone to organize for the drive for soliciting for scrap iron, rags, paper, rubber and other essential needs for the war industries. This was the first of a series of meetings that are being held in every township in the county. Organizers have been appointed and every home in the county is expected to be contacted by or prior to March 9th.

The county campaign includes:

Conserving of all scrap, including iron, rags and paper.

Having a garden on ever farm to provide food for home use.

Capacity production of poultry and eggs.

Producing at least 12% more milk. Getting farm machinery in a good state of repair now.

Buying defense stamps and bonds. Increasing soybean production by at least 51%.

Equipping and training volunteer fire departments for emergencies.

Arranging for farm storage for grains for future food production.

Citizens have the option of contributing their scrap materials to the Red Cross or they can sell them to any firm or agency purchasing such materials. The point is that these idle piles of scrap iron, etc. must be placed into channels where they can be utilized by war industries. If you prefer to give the material to the Red Cross, the organization will arrange to pick it up at your residence next week. The only request is that everything be in shape so they can be quickly and easily handled. Old farm machinery must be sufficiently dismantled for easy loading on the trucks.

Old tin cans and razor blades are not desired at this time.

Dr. and Mrs. T. J. Clutter and Miss Mary Alice Long left Sunday morning for Florida where they expect to remain for about a month. Dr. Clutter has been ill the past few weeks and undoubtedly expects to secure relief in the southern climate.

REV. BURGESS, TIPPECANOE, DIED AT ROCHESTER HOSPITAL

Rev. John Burgess, 55, pastor of the Tippecanoe Methodist Protestant church for the past 11 years, died at one o'clock Thursday morning at the Woodlawn hospital at Rochester, where he had been a patient since the previous Monday night. Death, due to heart trouble, followed an illness of several weeks.

Rev. Burgess was born at Gaston, Ind., August 15, 1886, the son of William and Delilah Burgess. He had been a minister for 25 years and held a pastorate in the Culver circuit before moving to Tippecanoe. On September 7, 1921, he was united in marriage to Lulu Mitchell, who survives. Other survivors are two daughters, Nellie and Evelyn, at home; brother, James Burgess, Muncie; and sister, Mrs. Ray Myers, of Council Bluffs, Iowa.

Funeral services were held at the Methodist church at Tippecanoe on Sunday afternoon at two o'clock. Dr. Yoemans, district superintendent, of Warsaw, assisted by Rev. Ferris of Elwood, and Rev. John Kreig, Van Buren, were in charge. Burial was in the cemetery at Matthews, Ind.

The Johns funeral home, at Mentone, was in charge.

LIONS ENTERTAIN LADIES

The Mentone Lions, their wives, guests and lady friends thoroughly enjoyed themselves Wednesday night at their annual Ladies' Nite program. President E. G. Harrison presided. Lion E. V. Johns led the singing and Mrs. Urschel assisted at the piano.

A varied and highly entertaining program was given. Following the banquet dinner, Mrs. John Cravens, representing the Riley hospital at Indianapolis, gave a very fine and interesting discourse on the hospital and the one for whom it was dedicated—James Whitcomb Riley.

A number of Mentone American Legion members and several guests attended the annual business men's banquet at Warsaw Tuesday evening. Dean Bechtel, of Garret, state Legion defense chairman, gave a very inspiring address.

FOUL WORDS

NOTHING PERSONAL

By BOB ANDERSON

The season of '41-'42 is over for Mentone. It has been a fine season and no one has anything to kick about. The team played the sectional tourney with their usual self control, sportsmanship and tenacity and were able to take it on the chin without a whimper.

In the Bulldog's first game, Coach Harvey substituted freely and the boys, playing ragged ball against a hot Burket squad, found themselves tied at the end of the third quarter. However, the Mentone boys opened up in the last quarter and outscored the Hawks eleven to three to win the game 33 to 25. Tucker, Mentone's high point man of the year, again captured honors with eleven points. Hitting from impossible angles, Walters, the Hawk's hefty center, scored nine points to come in second.

Score by quarters:

Mentone	10	16	22	33
Burket	6	14	22	25

BOX SCORE

Name	FG	FT	P	TP
Igo	2	0	0	4

Totals	10	5	9	25

The Bulldogs couldn't have picked a better way to end the season. The boys, still remembering their eleven point defeat on the Sidney floor earlier in the season, set out for revenge and almost got it. The Mentone five played their best game of the season and if the Wildcats had not had a top notch team, Mentone would have played Warsaw in the finals. The Bulldogs started the scoring but a glance at the score by quarters will show how close the game was and why the fans almost had apoplexy. Miles Igo, making the evening miserable for the Sidney boys and scoring fifteen points, failed (with the score tied and less than a minute to go) to convert a free throw and sent the game into the overtime period with the score standing 37 to 37. Both teams failed to score in the overtime period until only about ten seconds remained when Bryan, who had already scored 17 points, eluded his guard and scored on a sleeper play, giving Sidney a hard-earned 39 to 37 victory.

The Sidney-Mentone game was, as well as being very exciting, filled with several interesting facts. The Mentone team, in fact, was not doped to put up as good a battle against the Wildcats. Stevens of Sidney, who is recognized as one of the best forwards in the county, was held to just five points by the splendid guarding of Sarber. Four boys accounted for a great majority of the 76 points scored. Bryan led with 19, Igo was second with 15, Tucker third with 12 and Frantz rounded out the quartet with 11. Although not a single personal was called in the first 12 minutes of play, by the time the teams started into the overtime period, Mentone had lost Romine on personals and had two more players with three each, while Sidney had four of their starting five with three personals against their records. Sidney truly won the game at the charity stripe, for while Mentone scored two more field goals than their opponents, Sidney cashed in on thirteen out of fifteen free throws to the Bulldog's seven out of fourteen. Thirteen certainly wasn't unlucky for Sidney; they had thirteen field goals, thirteen free throws and thirteen personals charged against them.

HOARD COAL NOW

Following is a portion of a letter from the acting director of the "Office of Solid Fuels Coordination."

"The dislocation of normal business which attend war will affect the fuel supply in many ways. The seriousness of this situation prompts me to solicit your cooperation in an effort to take certain steps now so as to make it less likely that fuel shortages will occur.

"Not only is the war increasing the need for coal, but it will materially affect the ability of coal mining and transportation industries to meet requirements. As the war production program gathers momentum, its effect upon these industries will become more and more pronounced. Shortages of steel, rubber, electrical equipment, and other materials which they must have to maintain operations already are being felt, and will become more acute. The burdens of transportation will grow and the interruptions of ordinary business activities will become more frequent. Although I am not predicting that the Nation will experience a general coal shortage, there is serious reason to believe that there may be times when consumers will find it difficult to get coal—particularly the kinds, qualities, and sizes of coal which they customarily purchase. There may even be instances where, due to temporary local shortages, consumers may not be able to get any coal at the time they want it.

"A study of the information available to the Office of Solid Fuels Coordination convinces me that wise consumers will take immediate steps to use surplus mine and transportation capacity while it is still available to store reserve coal and then keep their bins full for the duration of the war."

It is our Opinion gathered from information coming to us daily that everyone who uses coal should make room for and buy from his dealer, whoever he may be, his 1943 supply of coal as soon as possible and thus be sure of having the coal and also to help in the transportation problem that is most surely ahead.

some \$60,000,000, was being converted for use by the United States Navy. Whether she is a total loss is not yet known. At best, many months and a tremendous expenditure of money, labor and materials will be required to refloat and repair her. And the vast damage was done in a few brief hours.

There is a lesson in this for all America. Few communities possess military assets of great value. But all communities owe it to the country to fight fire to a standstill as a direct aid to the war effort. Throughout the country, even the smallest factories and machine shops are being given arms orders of one kind or another. A plant may make, as an example, only a certain type of screw for a gun—but if that plant is destroyed by fire the assembling of the finished product may be delayed for weeks or months. War production demands the cooperation of all, from the smallest to the largest. Each plant is part of a gigantic chain. If one link, no matter how seemingly minor, is broken, a waste of precious time is the inevitable result.

In times such as these, we cannot leave the control of fire to "the other fellow"—we can't even leave it to the organized fire-fighting groups. We must all help. We can help by doing everything in our power to make our own property safe from fire. And we can help by joining in civil defense organizations which are putting fire prevention high on their list of objectives. Fire is the ever-present ally of this nation's enemies.

ANNOUNCEMENT

The directors of the Mentone Egg Show in their January meeting passed a resolution to suspend the egg show for the duration of the present crisis.

The directors realize the importance of egg and poultry products as food during war times and that the amount of these products must be increased but they feel that there are other ways of meeting the demand than to have a three-day egg show. The show is not going to be dropped permanently and as soon as conditions warrant, it will be continued.

The directors want the sponsors to feel that the community is very much indebted to them for their help in making this egg show a success.

TEN WAYS 4-H'ERS MAY HELP IN 1942 WAR PROGRAM

Ten ways in which Kosciusko County 4-H Club members may contribute to their nation's war program this year were suggested this week by Mr. Catron, associate in the state 4-H Club office at Purdue University, and the twenty vocational agriculture and home economics teachers and local leaders in a meeting in the county Extension office.

They are as follows:

1. Enroll in one or more of these 4-H clubs to produce Foods for Freedom: poultry, pig, dairy and beef calf.
2. Grow a Kosciusko County Victory Garden and contribute to the food supply for our population.
3. Arrange for the surplus vegetables and fruits from the Victory Garden to be canned and stored.
4. Learn first aid.
5. Boys can help with the repair of all farm implements.
6. Girls can aid in remodeling family clothing.
7. Club members can help more with the farm work since a lot of farm labor will probably be working in defense industries.
8. Drive the car carefully and use tires and gasoline economically.
9. If you are old enough, serve as a junior leader for the local 4-H club.

club.

10. Buy the Government defense stamps and bonds with the extra money earned through 4-H club work.

Miss Ruth Parker, Kosciusko county Home Demonstration Agent, states that enrollment is well under way in most communities and seems to be considerably increased with interest running high in the canning and food preparation projects as well as baking and clothing which have always led the county in members enrolled. Joe Clark, Agricultural Agent, says the boys are showing renewed interest in 4-H Club projects this year as reported by the county Vocational Agricultural teachers.

COOPERATION GROWS

John D. Miller, retiring president of the National Council of Farmer Cooperatives, wrote: "May I express the hope and belief that the farm cooperative movement in this country will continue to grow . . . until at last all of the farmers of the United States, like other producing industries, established adequate marketing agencies owned and controlled by themselves."

There is little doubt but what that hope will be realized. Marketing cooperation has proven its case, by service to agriculture through good days and bad. It has earned the respect of the nation.

Vitamins for Victory

EGGS are recognized by the Government as an essential food for the VICTORY program.

It is reported twice as many eggs will be purchased by Government agencies in 1942 as in 1941. Egg drying facilities are being increased ten fold.

Relatively high prices will be paid for eggs this year, with reasonable feed costs.

Up to the minute National Surveys show buying of early chicks not up to expectations, therefore, it is to the advantage of all that chicks be brooded as early as possible. The supply will probably not equal the demand later on.

We want to share in the Nation's all-out victory march, and we can best do so by supplying you with BIG TYPE WHITE LEG-HORN CHICKS that are U. S. APPROVED and PULLORUM CONTROLLED. Our co-operation with the National Poultry Improvement Plan for several years is evidence of the high quality of our chicks. Further evidence is the fact that more than half of our business each year is done with old satisfied customers.

Our CHICKS are backed by 19 years experience of breeding, hatching and management of high producing White Leghorns.

We respectfully invite your inquiry.

Dr. M. G. Yocum has the basement under his office finally completed and it is a cozy arrangement, including furnace and fuel room, bathroom and toilet, skeleton, manikin and dissecting rooms, halls and subterranean passage ways leading

to dark and ghostly apartments, the full extent of which we did not explore on our first visit. Next time we go, we're going to take the preacher with us.

Isaac Dunlap and son Fred, of Warsaw, visited last Sunday at the P. W. Busenberg home.

Lon Blue and family have the sympathy of many friends in their time of sickness when friends could be so much help and are kept away because of scarlet fever in the home.

Five hundred fifty dollars isn't a bad price for one team of work horses, now is it? That's what Wallace Hibschan got in the Mentone market.

40 YEARS AGO

Taken from Tri-County Gazette
Published by C. M. Smith

FEBRUARY 27, 1902

On Wednesday, Feb. 26, Taylor Jefferies, who resides with his son, Benj. A., celebrated his 77th milestone. Those present were Mr. and Mrs. Elliott Manwaring and Mr. and Mrs. Riley Ralston of Mentone; Mr. and Mrs. David Teel and Mrs. Dunlap of Kansas.

Every firm that was burned out in the recent fire, is now reestablished and doing business except the saloon and pool room.

Marian Baker, who is now filling the position of street car conductor in Chicago, came home Tuesday evening to visit his Mentone friends.

Miss Addie Leonard, of Akron, stopped over last Thursday with her sister, Mrs. C. M. Smith, on her way to attend the millinery opening in Chicago.

NUGGETS FOR BEREANS (Acts 17:11)

In the execution of our Lord as recorded in Luke 23, it is stated that two malefactors were LED WITH Him to be put to death. One of these reviled Jesus. The other rebuked the first one and then turned to Jesus and asked to be remembered in the Kingdom.

In the account of the same scene in Matt. 27, no mention is made of malefactors. But it does tell how that after the garments were parted and the accusation placed, THEN were two thieves hanged with Him, one on one side and one on the other. Both these reviled Him.

Now if two malefactors were first placed there, one on either side, then the thieves were placed on either side of the malefactors, making four others to die with the Lord.

This is confirmed by John 19:18 in the Rotherham Version where it reads, "Where Him they crucified; and with Him other two on this side and on that and in the midst Jesus."

The gospel by Mark speaks only of the thieves as does Matthew.

In this connection it is also interesting to know that at Ploubezere, near Lannion, Cotes-du-Nord, Brittany, is a "Calvary" to be seen which was erected centuries ago. There is a large cross in the center with two smaller ones on each side.

This might also explain the use of the five crosses carved in the altar-slab or table of the Roman Catholic Church.

—Oscar M. Baker.

MOTORIST STILL BIGGEST KILLER

Last year, when the need of human energy and natural resources proved more desperately urgent than ever before, the American people proceeded to liquidate more of their number and to demolish more of their mechanical facilities than in any year since the introduction of the motor car, according to a new booklet entitled "The Wreckord" issued by the Travelers Insurance Co.

The booklet is the twelfth in a series issued annually and presents a comprehensive analysis of the facts about accidents in which 40,000 persons were killed and almost a million and a half were injured in 1941. Both totals, it is pointed out, are the highest in the history of the automobile.

There were more than a million accidents during the year involving injury or death and several million others involving property damage only. Probably 1,000 automobiles a week were demolished beyond repair.

**FIRE DESTROYS REGENOS
HOUSE WEDNESDAY**

The Regenos house on North Broadway was almost completely destroyed by fire Wednesday afternoon. The top floors and roof was burned and water damage to the lower part of the house will likely be large. Most of the furniture was removed except upstairs. It was reported that in addition to quite an amount of clothing and bedding upstairs, over a hundred dollars in currency burned. It is believed no insurance was carried.

A lady driving into Mentone from the east saw the house in flames and reported it: "East of the old school house." The fireman got the directions as: The old school east of her house. When the truck turned north east of town the men on the truck saw fire in the northern edge of the town. Needless to say, much time was wasted before they arrived at the fire. In the meantime, however, the chemical truck, following the directions given in a telephone report of the fire, had arrived on the scene and was doing its best to subdue the flames.

The origin of the fire is unknown, but Lloyd Regenos stated that in as much as the fire in the stove had been permitted to nearly die during the warm part of the day, he felt

that possibly electric wiring was at fault. The entire roof was a mass of flames before it was noticed.

Mrs. Edna Carey visited friends in Fort Wayne a few days last week.

Old Hickory Smoked Salt at the Big Drug Store.

Jack Shinn, of Bluffton, spent the week end in Mentone visiting his parents, Mr. and Mrs. Earl Shinn.

Wrights Sugar Cure and Smoked Salt 75c for 10 lb. can. The Big Drug Store.

Mrs. Emma Yocum and Maurice Dudley were in Warsaw Monday evening where they attended the ladies' night program put on by the Shrine at the Hotel Hayes.

Rev. C. C. Collins made a trip to Kendallville Monday afternoon where he gave the funeral address for a minister friend.

Lieut. and Mrs. Don VanGilder arrived early Sunday morning for a short visit with relatives and friends. Lieut. VanGilder, who is in the medical corp, was at Carlisle, Pa., but is to continue on to Texas as he leaves here.

In a short time you will receive in your mail just a few samples of the large stock of Wallpaper we have in stock. The Big Drug Store.

Mr. and Mrs. Artley Cullum and family and Mrs. Myrtle Reed spent Sunday afternoon at the John Hind-baugh home north of Larwill. Mrs. Emma Gardner, mother of Mrs. Reed, returned for a visit in Mentone.

The advent of March should remind you that house cleaning and papering is on hand. Our 1942 stock of Wallpaper has arrived and we know you will be pleased with those colorful effects and beautiful designs shown. The Big Drug Store.

The Tucker Dairy had a new "blitz buggy" on the milk route this week. It's the old horse-and-wagon affair with rubber tired wheels. The tom cat at the Cullum ranch didn't know whether to leave home or not when the new milk chariot drifted into the yard. At least, he never took his eyes from it until it passed out of sight in the next block.

**BOY SCOUT FIRST AID CON-
TEST AT NAPPANEE MARCH 11**

Splints and bandages will receive a heavy workout at Nappanee on Wednesday evening, March 11. The

city is playing host to twelve Boy Scout First Aid teams of the Pioneer Trails Council at the Nappanee community building.

Teams entering the contest include the Stag Patrol of Troop 1 and the Pirate Patrol of Troop 10, both from Elkhart; the Flying Eagle Patrol of Troop 25, Middlebury; the Cobra Patrol and Explorer Patrols of Troop 24, Goshen; the Good Turn Patrol of Troop 26, and the Arrow Patrol of Troop 23, also from Goshen; the Eagle Patrol, Fox Patrol and Jack Rabbit Patrol, all of Troop 4 of Wapakoneta; the Beaver Patrol of Troop 17, Warsaw; and the Tomahawk Patrol of Troop 33, Nappanee.

These teams have passed two successive first aid hurdles by achieving an "A" rating in the troop and in the district first aid meets, thus entitling them to participate in the Council meet.

FORTIETH WEDDING ANNIVERSARY CELEBRATED

Mr. and Mrs. George W. Dickey, west of Warsaw, celebrated their fortieth wedding anniversary on Sunday, March 1, at their home. Refreshments of ice cream and cake were served to Mr. and Mrs. George Dickey, Mr. and Mrs. Otis Dickey and sons, Mr. Charley Dickey and son, Mr. and Mrs. E. C. Bayne and son and Mrs. Rachel Cochran.

RED CROSS REPORTS PRISONERS TREATED WELL

The following reports, from the headquarters of the American Red Cross, which organization is really the only one which has direct and nearly unrestricted representatives in all parts of the world, will bring heartening news to those who have friends or loved ones in Japan as prisoners of war. The articles follow:

Reports received by the American Red Cross through the International Red Cross Committee in Geneva indicate that American prisoners of war and interned civilians are receiving good treatment from the Japanese.

Dr. Fritz Paravicini, International Red Cross delegate in Tokyo, cabled: "Japanese soldier's ration provided to prisoners of war and treatment good—only request, more tobacco and toilet articles."—From release of February 21.

The American Red Cross is prepared to expedite shipments of food and clothing to prisoners of war and non-combatants interned by Japanese government as soon as the "go ahead" signal is received from Japan. Chairman Norman H. Davis announced.

Pending receipt of information from Japan on the completion of effective plans for distribution to prisoners and American civilians interned by the Japanese, the American Red Cross, in conjunction with the Red Cross societies of Great Britain, Canada and Australia, has made tentative arrangements to ship the needed supplies to Japan directly from Australia. — From release of February 19.

THREE OUTDOOR SHOWS SCHEDULED FOR MARCH

The Department of Conservation will have exhibits at three outdoor Sportsmen's shows being held during March, Hugh A. Barnhart, director, announced today.

Most extensive of the exhibits will be presented at the annual Indiana Sportsmen's Show to be held at the state fair grounds, March 21-28. Exhibits of fish, game animals and birds are also planned for the Fort Wayne Sportsmen's Show being held March 26-28, and at the annual Hammond Sportsmen's Show being held March 29 to April 1.

Fish, game and birds for these exhibits will be taken from the display stock held throughout the year at state fish hatcheries and game preserves both for exhibits at these places and for use at the state fair and other events.

CALL CENTRAL WHEN MAKING FIRE CALLS

We have been requested to announce that in case of fire one should call the telephone operator, giving complete details of the location of the fire. She will then summon the fire department. Care should be taken in reporting fires, as in the excitement that usually prevails at such times important details may not be given. Give the name of the occupant of the building and the location of the fire. The firemen may be well acquainted with the town and country but they cannot be expected to always know where a certain house or barn is located.

WINS AWARD IN HAIR STYLIST SHOW

Mrs. Margaret Dagneau, of South Bend and granddaughter of Mrs. George Heckaman of Mentone, was awarded third place in the hair stylist show held in Chicago Tuesday night of last week. Of the 62 contestants, she placed third with her new hair style, "Top Flight." This is the fourth award she has won with her new creations.

"Sell it with a Want Ad!"

RADIO COMMENTATOR APPEARS

The Rotary Club of North Manchester, is sponsoring the personal appearance of Gregor Ziemer of station WLW at the Manchester College Auditorium on Tuesday night, March 31st, at 8:15 p. m. Immediately following his address Mr. Ziemer will broadcast his usual 10:15 p. m. comments from the auditorium. General admission will be 50c and reserved seats 75c. Anyone desiring tickets should contact D. L. Bunner, secretary of the Lions Club, at once.

MARCH "LION" GOT ROUGH

Old Man Winter went on a rampage Sunday evening and by the time he called a halt to his March blitzkrieg almost everyone was holed up or stuck on the highway.

The fall of snow wasn't so great, but high winds drifted the north and south highways shut. Highway snowplows shoved banks of snow higher than a man's head when opening some of the bigger drifts. Many cars and trucks stalled and the Mentone schools were closed two days waiting for safe driving for the school buses. Main highways were coated with ice and many cars and trucks lined U. S. 30 between here and Chicago Sunday night and Monday.

In a short time you will receive in your mail just a few samples of the large stock of Wallpaper we have in stock. The Big Drug Store.

Notice to NICA STOCKHOLDERS

We can place a few shares of common stock of our Association and would be pleased if those who desire to dispose of some stock would list with us the stock they wish to sell as we will in this manner be able to fill the orders we have.

As we will list for sale in the order received do not delay. We do not guarantee to place the stock for we can at this time place only the amount for which we have orders.

Northern Indiana Coop. Ass'n.

FIREFIGHTERS' CLASS AT TOWN HALL MONDAY NITE

W. H. Collison, of Winona Lake, will be in town again Monday night, March 16th, to continue instruction to the volunteer fire department. All members and the prospective members of the auxiliary department are requested to be present.

Citizens should become familiar with the processes of fire fighting and first aid. It may mean the difference between life and death of some member of the family or the loss of their home. The armed forces of the nation is asking for 12,000 doctors in the very near future and this will take the medical men from many of the communities. Also, in case of the dropping of incendiary bombs the home owner will be responsible for extinguishing the fire in his own home. The firemen will be busy controlling the fires in the business or congested areas. Every home should have some fire protective apparatus if nothing more than a small hand pump. Garden hoses are not dependable as most likely enemy agents, bombs, etc. would disrupt electric or water facilities making them useless.

REVIVAL AT TALMA CHRISTIAN CHURCH

Rev. Ed. Henry, of Geneva, Ill., will conduct a revival at the Talma Christian Church March 22 to April 5. Meetings will be held every night at 7:30.

SUFFERS BROKEN ARM

Mrs. Mahlon Jefferies was taken to the McDonald hospital at Warsaw Monday after she suffered a fractured left arm in a fall at her home.

Mrs. Ida Blue, who has been in the McDonald hospital at Warsaw the past two weeks undergoing medical treatment, returned to her home Tuesday evening. She is much improved.

Mr. and Mrs. Fred Lemler spent Sunday in Chicago visiting Mrs. Lemler's sister.

NUGGETS FOR BEREANS

(2 Tim. 3:16)

"God was in Christ reconciling the world unto Himself, NOT IMPUTING their trespasses unto them," (2 Cor. 5:19). How pitifully few believe and realize the truth of this Scripture! But it is true that God does not impute against the ungodly their trespasses. They perish only because they do not believe. (Jno. 16:19).

Many systems of religion teach that sins will even be imputed against the believer, making salvation a matter of works instead of by the grace of God, (Eph. 2:8,9).

Christ died for our sins before we were born. He died for all our sins, past, present, and future. There is one thing and only one thing that man can do that will cause him to perish, and that is to reject the Son of God. "He that hath the Son hath life, and he that hath not the Son of God hath not life," (1 Jno. 5:12). If God does not impute sin against the ungodly, how then could He impute sin against the believer? He cannot! We have an advocate in the person of the Lord Jesus who is seated in the Holy of Holies, after having made a sacrifice once and for all, making intercession for us. He is the one that is able to keep us from falling.

This was the kind of doctrine that the apostle Paul preached. He said that he had proclaimed the whole counsel of God, that he was free from the blood of all men and then further added, "But though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed," (Gal. 1:8).

RULES FOR FIREMEN

Under the heading "An Excellent Way to Kill a Good Fire Department," W. H. Collison of Winona, who is giving instructions to the local firemen, submits the following:

Do not attend any drill sessions or fire school, and if you do, get there late.

Do nothing more than absolutely necessary, but when other firemen

use their abilities to help matters along, howl and squawk that the department is run by a clique.

If you have a suggestion to offer, don't go to the chief; just yell and tell the world.

Get sore at some other member of the department and stay away from fires and meetings.

Be pessimistic about every proposal that will be for the good of the company and the community.

Watch the town board, and point out the error of its ways to everyone who will listen.

Encourage your wife to carry fire department gossip to the neighbors. Show no respect to visitors to your department.

Don't co operate with the local newspaper in giving facts and news of the fire.

Criticise the officers to other firemen.

Let the others do all the work around the station.

Just raise the devil in general.

FARMERS URGED TO CHECK SOYBEAN GERMINATION

Thorough cleaning of soybeans to be used for seed is necessary this spring due to generally poor condition of the 1941 crop, declares K. E. Beeson, Purdue University extension agronomist. Portable and farm seed cleaners, seed house, and elevator equipment should be pressed into service to separate damaged, light weight, small, or broken seed from good heavy soybeans, he states.

Heavy air blasts should eliminate much material useless for seed, which, unless it carries too much weed seed or inert matter, can be sold to oil mills or used for farm feed. If the weak or dead seed is permitted to go through the grain drill, it is wasted and at the same time thins the stand.

High commercial value and high seed costs should encourage Hoosier farmers to participate in a state-wide soybean cleaning campaign this spring, says Beeson. Such cleaning can raise the germination test also, as generally late harvested soybeans are low in both vitality and vigor. An extensive testing program is now under way to locate satisfactory seed.

While cleaning may not dry wet beans, it does aid in reducing moisture content. Late combined beans in many cases are carrying 16 or 18 per cent water, and tests have shown more than 20 per cent in some lots. Soybeans do not lose moisture appreciably during the winter months but dry rapidly during mild spring days with resultant heating in the bin and reduction in germination or even spoilage.

Farmers should know the moisture content of stored soybeans, states Beeson. Tests can be made at local elevators, and if much in excess of 14 per cent, such beans should be watched during warm spring weather. They can be dried now in bin type seed corn driers at 100° F., or in the spring on granary floors in thin layers that are stirred daily. Otherwise, beans found to carry 18 per cent or more water should be sent to processors during the winter, as they are likely to go out of condition on the farm in the spring, and may even become a useless moldy mass.

PROVE VALUE OF DRIED GRAINS WITH SOLUBLES

An experiment conducted by Massachusetts State College to test the nutritive value of distillers' by-products as a supplement to a chick ration produced some interesting and practical information. Reporting in Poultry Science, the experimenters, Shea, Fellers, and Parkhurst, say, "The corn distillers' dried grains with solubles, used in this investigation, constitute an excellent source of riboflavin and thiamin. This feed may be used to replace other more expensive riboflavin sources in a standard chick ration. The protein is of good supplementary quality. This feed may successfully replace substantial amounts of dried skim-milk, soybean oil meal, and fish meal in the standard New England Conference chick ration."

At the same institution, researchers Dickens, Parkhurst and Fellers also reached the following conclusions on the use of corn distillers' dried grains with solubles in the laying ration: "Corn distillers' dried grains with solubles' satisfactorily replaced dried skim-milk, all the dried skim-milk and fish meal, or all the fish meal and part of the meat scraps in the New England Conference laying ration, provided the protein content of the ration remained the same. Egg production, egg weight, body weight, egg quality, and feed efficiency were comparable with all four rations."

The current New England College Conference poultry rations employ corn distillers' grains with solubles

but particularly emphasizes that only a high grade of grains having a high quality as to riboflavin content may be used. Since ordinary distillers' grains will vary from 2 to 15 micrograms per gram in riboflavin content, leading feed mixers and poultrymen are using only the brands of proven quality to be on the safe side. —National Distillers Products Corp.

SOIL CONSERVATION REMINDERS ARE GIVEN

A dozen reminders on conservation goals to help many Indiana farmers decide what they can do to help produce Food for Freedom were given this week by R. O. Cole, extension soil conservationist, Purdue University. The suggestions were:

1. Restrict cultivated crops to slopes under 15 per cent.
2. Practice contour cultivation on all sloping cultivated land.
3. Contour strip crop or terrace all cultivated slopes from three to 15 per cent that are more than 100-150 feet long. On shorter slopes, contour cultivation is sufficient.
4. Use rotations which permit established grass or legumes to remain two or more years.
5. Keep cultivated land covered during the winter months by seeding small grain or special cover crops.
6. Use lime and fertilizer when needed to increase production of all crops, including pasture, and to help provide protective cover of the soil.
7. Provide grass waterways in the low places on cultivated fields to car-

ry concentrated water.

8. Lime, fertilizer, manure, seed and mulch all bare and gullied areas in pasture.

9. Protect the entire farm from fires.

10. Keep all livestock off pastures during winter months and other times when sod is damaged by tramping.

11. Do not "clear cut" the farm woodlots.

12. Keep producing, keep conserving, Democracy is worth preserving.

THIRTEEN WERE MISSING

Thirteen names were called at the Clark store at nine o'clock Saturday night, and each of them would have received a gift of five dollars if they had been present when their names were announced. They were:

GARDENERS ASKED TO PRODUCE OWN FOOD

Economical production of small fruits and vegetables, sufficient for daily use in season and for winter use, should be the goal for every farm and home gardener in Indiana, declares W. B. Ward, Purdue extension gardener.

This does not mean the plowing up of lawns and tennis courts, nor the use of poor run down soils, but the intelligent use of what soil is available for a garden, adds the county Agricultural Agent, Joe Clark.

A well thought out plan, drawn on paper and followed during the planting season, will assure the efficient use of the garden area in allotting so much space for each crop. Long, straight rows, timely plantings of recommended varieties, the judicious use of fertilizer and pest control are important factors, recommends Mrs. J. E. Baer, Oswego, Kosciusko County Home Economics Association Garden Chairman.

The preliminary work for this year's garden may be prepared now. "For years some nations have organized all of their resources for the making of war. It is time that we organize our efforts to win and only through strength and vitality, essentials of good health, can we do our part. Fruit and vegetable products

are the vanguards for our first line of defense," states Ward.

The garden may be planned to include raspberries, grapes, strawberries, currants, and gooseberries for the small fruits; a plantation of rhubarb and asparagus for the perennial vegetables, and enough of the annuals to care for the family needs. Such a garden would require about one-tenth of an acre per person. Three to four years may be needed for the full production of small fruit and the perennial vegetables. With careful planning, an abundance of quality annual vegetables will be produced this year.

Seeds and plants should be ordered as soon as the garden plans are made. Some varieties of vegetables are likely to be hard to get because of limited quantity of seed available, but generally there are enough seeds on hand to meet the needs of the Hoosier gardener this year.

Seeds that have been saved for a year or so should be tested for their germination to prevent a disappointment later should they fail to sprout. Pest control equipment such as a duster or sprayer and other materials for use, should also be included in this year's garden plan.

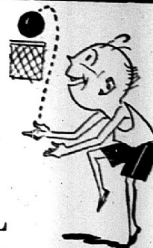

Indiana, a pioneer in the "Live at Home" program, can retain the position of leadership when everyone does his part, which means the home production of fruits and vegetables to meet the family needs, concludes Ward.

In a short time you will receive in your mail just a few samples of the large stock of Wallpaper we have in stock. The Big Drug Store.

FOUL WORDS

NOTHING PERSONAL

By BOB ANDERSON

The season of '41-'42 has come and gone and in this, my last column, I would like to give a few facts on the boys who have made it successful. The first team won fifteen out of their twenty-one starts, scoring 591 points to their opponents' 503. The second team won thirteen out of seventeen and scored 348 points as compared to 243 scored against them. This gives the squad a total of 939 to 746, or a margin of 193 points.

High point honors went to John Tucker with an even 200 points in 21 games or an average of about 9½ points per game. Miles Igo came in a good second with 120 points in 18 games. Free throw honors were taken by Emery Mosier with 26 made out of 37 attempted, or a percentage of .703 which is very good for one taking that number of tries. The squad's free throw totals stand at 227 made out of 514 tried for a percentage of .442.

Even the annual class tourney is a thing of the past and all the Seniors and Juniors are still trying to forget it. The Sophomores, taking the hard way, upset the Juniors on a last minute basket by Junior Fore and then proceeded to upset the highly favored Seniors in the finals.

The scores were as follows:

Monday Night—
Sophomores 19, Juniors 18.
Seniors 24, Freshmen 20.
Tuesday Night—
Eighth Grade 19, Seventh Grade 3.
Juniors 30, Freshmen 7.
Sophomores 22, Seniors 30.

Five Mentone basketball stars are going the way of all high school stars this year. These five Seniors, Wayne Bowser, Paul Horn, Bob Miner, Kenny Romine and John Tucker, deserve much credit for the good basketball records the Bulldogs have set in the last four years. Even with this great loss Mentone will still be a threat in county circles next year (if there is basketball next year) with Igo, Sarber, Smith, Mosier and Whetstone on the squad. Sidney looks best for next year due to the fact that they lose only one man, Stevens, of their top notch team of

this year. Other strong teams in the county will be Etna Green, Warsaw, Pierceton, and as always, Syracuse. And now as the basketball season has ended,

So long.

Mr. C. W. Devers
 Union City
 Indiana

Dear Mr. Devers:

I am sending you herewith a tabulation showing the production of eggs in four houses which we used last winter, to check the results of feeding your Dried Produlac. We fed Dried Produlac in Bldg. #17 entirely replacing the dried milk in our laying mash. I might say that this Dried Produlac was fed 200 lb. to the ton of mash, the same as the milk was fed in the houses #18, 19, and 20.

After keeping the record of production for five months, we find that the birds in house #17 laid 166,303 eggs, compared with those in house #18, laying 166,778, #19 producing 166,101, and house #20 producing 164,296.

While we do not regard these figures as being significant so far as showing the superiority of Produlac Dried mash over milk, we do feel that it adequately and satisfactorily replaced milk in our poultry rations.

This experiment was undertaken after a great deal of hesitancy on my part in recognizing the merits of Dried Produlac. However, after trying it out for five months, keeping an accurate record of production, mortality, and hatchability of building #17 compared with three other buildings which were made up of pullets of the same age and grown under the same conditions, we cannot help but come to the conclusion that Produlac Dried satisfactorily replaces milk in the laying mash.

We fed a certain amount of condensed skim milk and condensed whey to all the birds, which means the birds in houses #17, 18, 19, and 20. This milk and whey were fed in a wet mash which was fed on top of the dry mash in hoppers.

The percentage of hatch in building #17 was 1.7% higher than the average of the hatch in buildings #18, 19, and 20, so we find that in addition to giving satisfactory egg production, we also receive satisfactory hatchability; and, our mortality in buildings #17, 18, 19, and 20, was almost identical.

In view of the present high price of milk, it seems to me that Produlac Dried is certainly a very attractive buy to the commercial poultryman. We do not look upon this substitution merely as a means of saving money, but rather as a more economical way to do a good job of feeding chickens.

You may compile the figures on the enclosed chart in any way you choose, and use any part or all of this letter in any way you please.

Very truly yours,
Robert Creighton

Allen Blue, who has been in the McDonald hospital at Warsaw recuperating from an operation, was removed to his home at Mentone on Wednesday in the Reed ambulance. He is somewhat improved but the operation was rather serious for a person of his age.

RADIO MEN WANTED FOR MARINE CORPS

Specialist duties in the Marine Corps for men with radio training are open now to both amateur and professional radio technicians, according to an announcement by Capt. Ralph E. Boulton, officer in charge of Marine Corps recruiting in Indiana.

Men from 17 to 35 years old who possess the necessary qualifications will be enlisted in the Marine Corps Reserve specifically for radio aircraft detection maintenance work. They will be appointed staff sergeants immediately and will not be required to receive the regular recruit training instruction.

Wrights Sugar Cure and Smoked Salt 75c for 10 lb. can. The Big Drug Store.

A 9-pound son was born to Mr. and Mrs. Everett Ellis, Warsaw rural route, at the Murphy Medical Center Wednesday morning. Geo. Molenhour of Mentone is grandfather of the new arrival.

URGING FORTIFICATION AGAINST CHILD DISEASES

All over the state physicians, parents and civic leaders are rallying to the appeal made by the President on having all children over nine months immunized against diphtheria and vaccinated for smallpox before May 1, states Dr. John W. Ferree, state health commissioner.

In many Hoosier communities, public health authorities, physicians, Red Cross chapters and many civic organizations are co-operating in the nation-wide drive to protect little children from the ravages of diphtheria and smallpox, Dr. Ferree pointed out.

HIGH SCHOOL BAND CONCERT APRIL 14

Guest Conductor to Appear In Spring Concert

Mr. A. R. Jinks, instrumental music supervisor of Wabash High School, will appear with our high school band and direct several numbers in the concert. He was formerly instrumental music supervisor in the Elkhart county schools and in this position as well as in the one he now fills, his bands and instrumental groups have won high honors.

The students are delighted with this opportunity of playing under Mr. Jinks and are working hard to make a good impression. The concert this year will include a great variety of numbers. The heaviest number on the program will be the suite, "Morning, Noon and Night in Vienna" by von Suppe. This number was on the selective list for class B schools and is a masterpiece. Several numbers from the "Hit Parade" will help to enliven the concert for the jitter-bugs! Further details will follow next week.

Make your plans now to attend the Mentone High School—First Division State Band Contest Winner—concert on April 14.

PURDUE PUBLISHES BULLETIN ON IND. SOIL CONSERVATION

An interesting, well illustrated 24-page bulletin entitled, "Soil Conservation in Indiana," has just been published by the Purdue University Agricultural Extension Service.

The publication, written by R. O. Cole, extension soil conservationist of Purdue, takes up a thorough discussion of the problem as it exists in the Hoosier state and prescribes recommended farm practices to be followed in preventing and eliminating the dangers of erosion.

A copy of the new bulletin may be obtained from any Indiana county agricultural agent or by writing to the Purdue University Agricultural Extension Service, Lafayette, Ind.

Mr. and Mrs. Lester Blackburn are the parents of an eight-pound daughter, born at their home March 5. She has been named Linda Lou.

EMERY MOLLENHOUR FOUND DEAD ALONG RAILROAD TRACK

Funeral services for Emery Clinton Mollenhour, aged 59 years and a farmer of near here, who was found dead, lying beside the Nickel Plate railroad tracks, one-half mile west of the Kosciusko-Marshall county line, Saturday night about ten o'clock, were held Tuesday afternoon at two o'clock at the Reed funeral home.

The dead man was found by Don Bunner, station agent here, after a trainman had notified him from Fort Wayne that he had seen a form lying alongside the tracks just west of Mentone as he was inspecting on his train run. Bunner investigated, finding Mollenhour with a cigarette, that had burned out, in his mouth, his unbroken glasses still on. It is surmised that he had lighted the cigarette and then fell near the railroad tracks when he stumbled on the steep grade. He suffered a skull fracture and a broken shoulder.

It is believed he was struck by a train sometime between the hours of 7 and 8, while walking into Mentone from the farm of Ray Ward, where he was employed as a farm hand.

Mollenhour was born in Marshall county on January 30, 1883, son of the late Henry and Mary Ellen Mollenhour. He had resided all his life in and near Tippecanoe and Mentone but had been a carpenter in South Bend for a few years.

Surviving relatives include two brothers, Miner, of near here, and Elza of South Bend, and seven nieces and nephews.

Rev. C. C. Collins officiated and interment was in the Mentone cemetery.

Mr. and Mrs. Lyman Mollenhour are the parents of a six pound, nine ounce baby son born Friday evening at the Murphy Medical Center.

Mrs. Lloyd Sleighter and daughter Zoann and Mrs. Lucinda Jones were in South Bend Friday visiting Mrs. Frank Hawk and Mrs. Catherine Brown. Mrs. Hawk is much improved but Mrs. Brown is not so well. However, she wishes to thank her many friends for the cards and greetings received on her 94th birthday.

MENTONE READING CLUB CELEBRATES 8th ANNIVERSARY

The Mentone Reading Club celebrated its eighth anniversary at the home of Mrs. Irvin Snyder, Tuesday evening, March 10th.

Eighteen members and fourteen guests were very delightfully entertained by five members of the Zereldo Reading Club of Warsaw, who presented a musical program of "Literature and Music Through the Years."

The program was composed of six parts, which were Old English, Shakespearian, Romanic, Victorian, Modern and Bible. A trio composed of Mrs. Anna Mellencamp, Mrs. Marian McBroom and Miss Helen Sloane sang very beautifully. They were accompanied at the piano by Miss Mamie Edgington. Miss Margaret Edgington helped the trio in a quartette number. Miss Sloane and Mrs. Mellencamp also sang some solos.

Two piano solos by Mrs. Irvin Snyder and Mr. Robert Anderson were also enjoyed by the group.

During the social hour refreshments were served by the hostesses, Mrs. Snyder and Mrs. Harold Weissert. They were assisted by Mrs. Furel Burns and Mrs. Stanley Boggs who were on the program committee.

—Reporter.

HUGE DOG SHOW SOON TO OPEN IN CHICAGO

Pedigreed pets of the canine world, representing 109 different breeds, will be on display in Chicago's all-breed purebred dog show, to be held in the International Amphitheatre Saturday and Sunday, March 28 and 29.

It is the second largest indoor dog show in the world. Officials of the show predict that by the time entries are closed on March 23 nearly every state will be represented by exhibits, as well as Canada.

Special exhibits this year will stress the opportunities for service by the dog in the present war effort, in which trained dogs, with their acute senses and intelligence, have a special place in guard duty.

HOME ECONOMICS CLUB MET WITH MRS. BLUE

The Mentone Home Economics club met on Thursday, March 12th with Mrs. Ona Blue. Mrs. Linnie Vernetto was assisting hostess.

Housecleaning hints were given for roll call. The history of the Song of the Month, "America the Beautiful," was given by Ottie Swick. A song was sung by all. The creed and prayer were read. The lesson on "Cakes" was given by Eloise Long.

Mrs. Lucinda Jones was elected as Health leader. A donation was voted for the Salvation Army. Plans were made for a family pot-luck supper at 6:30 on March 27th. The mystery package was won by Myrtle Leiningner. Delicious refreshments were served to 20 members.

The next meeting will be with Pauline Weissert on April 9th with Miss Parker giving the lesson: Salads and Salad Dressings.

—Esther Sarber, Reporter.

SETTLEMENT DAY AND MISSIONARY INSTITUTE HELD

Rev. C. C. Collins, pastor of the Mentone Methodist church, attended the district Settlement Day and Missionary Institute held at the Milford Methodist church last Friday. Rev. A. R. Sanks, of Nappanee, was in charge.

The morning devotional address was given by Rev. Christian Kocher, of New Paris. Dr. Elmer Jones, of the Trinity church at Elkhart, spoke on "The Christian Imperative."

Rev. W. W. Krider, of Milford, who spent fifteen years in Japan as a missionary, gave a very enlightening address on understanding Japan.

The main address in the afternoon was given by Mrs. J. N. Rodeheaver of Winona Lake, president of the Women's Society of Christian Service the North Central District of the Methodist church. Rev. Donald E. Bailey, of East Mishawaka, gave the afternoon devotional. Dr. C. G. Yeomans, district superintendent, of Warsaw, summarized the work accomplished in the district during the past year.

REMEMBER Way Back When—

19 YEARS AGO

Taken from Tri-County Gazette
Published by Claude Taylor

MARCH 15, 1923

Frank Rynearson suffered a stroke of paralysis about 4:30 Monday morning and has been in a serious condition ever since. Mr. Rynearson was in his usual good health Sunday and attended church in the evening. His left side is badly affected, but he is reported to be a little better.

Mentone Boy Scouts won over the Warsaw Boy Scouts last Friday night at Warsaw in a fine overtime contest. An extra 5-minute overtime period was necessary to play off a 12 to 12 tie score. Our local boys were successful in putting the ball thru the basket. Igo was the star for Mentone and made 10 of the 14 points. The lineup was as follows: Vern Gorst, center; Lewis Igo and Elmer Fenstermaker, forwards; Don Bunner and Ed Severns, guards; Boyce Underhill, Ira Anderson, Herschel Fenstermaker and Clayton Clutter, subs.

John, Anna and Odie Blue and Mrs. Rose Boggess visited at the home of Taylor and Dessie Lloyd on Sunday.

Mrs. Henry Brown entertained for Sunday dinner guests Mr. and Mrs. Henry Morgan, Mr. and Mrs. Geo. Mills, Mrs. Mary Sarber and Virginia Goodman. The dinner, being in honor of Mrs. Brown's and Virginia's birthdays.

MARCH 13, 1902

Work has begun this week toward clearing off the burnt district for the purpose of erecting new buildings. Mrs. Rose Boggess is taking the first steps toward building. She expects to have construction on her corner of two rooms 25x80 feet. Dr. Bennett plans to occupy the corner room.

Hollis Bye started Sunday on a visiting and prospecting tour in Iowa. He has been thinking seriously of locating somewhere in the northwest if he should be favorably impressed with the country.

N. A. Clay, of Old Fort, Ohio, visited Mentone friends last Friday and Saturday.

Mr. and Mrs. Geo. Rhoades and two children visited N. L. Yates and family on Tuesday and departed for their home in Candor, N. D. on Wednesday. Mrs. Rhoades was a sister of Mrs. Yates.

Mrs. Maude Gray, of Rochester, and Mr. and Mrs. Frank Blue, of

near Mentone, were guests of Mr. and Mrs. Henry Haimbaugh last Sunday.

Mrs. Sarah Fessler, who has been making an extended visit with her daughter in Columbia City, returned home last Saturday.

SOIL CONSERVATION DISTRICTS IMPORTANT

One of the most important movements aimed at soil conservation districts, thinks R. O. Cole, Purdue University extension soil conservationist.

At the close of 1941, there were 653 districts embracing 382 million acres and located in 38 states. Indiana has 12 of these districts, in the following counties: Knox, Vanderburg, Tippecanoe, Benton, Newton, Grant, Noble, Elkhart, Fulton, Montgomery, Daviess, and Greene, Clay and Owen in one district.

The American farmer can produce enough food and fiber to win the war without injuring the soil, if conservation methods are extensively used, says Dr. H. H. Bennett, chief of the Soil Conservation Service.

He feels that it is not necessary to have another "plow-up," like the one that occurred during World War I. At that time grasslands, forests and hillsides were put under cultivation only to be abandoned later to erosion. The past ten years of conservation farming point the way to get the production that is needed and at the same time protect soil resources.

ADJUST 4-H CLUB PROGRAM FOR WAR

Adjusting the 4-H club program to present conditions caused emphasis to be placed on projects which produce food, according to Miss Ruth Parker, Home Agent, who heads the home economics 4-H clubs in the county, and Joe Clark, county agricultural agent, and leader of the agricultural 4-H club work.

Commenting on the 1942 club year which has gained considerable momentum in communities throughout the county, Mr. Clark said, "We are confident that every 4-H club member and every 4-H club leader will not only work as individuals but also in groups to render maximum efficiency in food for freedom activities and our victory garden program."

Kosciusko county 4-H club members, records for last year show, enlisted early in the "war of production." In 1941, the county 4-H beef calf members raised 47 animals producing more than 37,600 pounds of beef, valued at more than \$4,230.

Other interesting results county 4-H club members already have achieved for their nation through last year's program of work are:

The caring for 106 dairy calves;

the feeding and caring for 178 pigs weighing a total of nearly 35,600 pounds and valued at \$2,393. One hundred twenty-five girls from fifteen clubs and a few boys from Pierceton, baked 1,222 products; the girls enrolled in food preparation prepared 384 meals; the canning club members canned 390 quarts of food.

There was a total of 584 members enrolled in 4-H work in the county and 83.4 percent completed their projects. "I think this percentage of completion is remarkable under the conditions which we have had to work during the past year," Miss Parker declared.

GARDEN CLEAN-UP WILL KILL DISEASE, INSECTS

"The first step toward victory in any war is to lock up or destroy every enemy within our lines. The commanding officers of our armies cannot allow armed enemies to mingle with our soldiers; and neither should you, as commander-in-chief of your Hoosier Victory Garden, allow insect and plant diseases to overwinter and attack your vegetables next season, says Mrs. J. E. Baer, Hoosier Victory Garden Coordinator in Kosciusko county.

No elaborate nor expensive methods need to be taken to destroy these insects and plant disease germs, say Purdue University extension plant disease and entomology specialists. Thousands of the enemies are found in the remnants of last year's garden, or hidden away in the soil, awaiting the call of spring. On old tomato vines are the spores of the leaf stem blight diseases. Cucumber

and melon vines carry the germs of their leaf diseases. Old celery stalks and leaves may carry blight spores, and on dead bean and pea plants there may also be found disease organisms.

On last year's crop remnants are found cabbage worm pupae, aphid eggs, and stalk borers. Under the debris are cutworms, squash bugs, and flea beetles. In addition the soil may be contaminated with grasshopper eggs, hibernating potato beetles, and tomato worms.

These enemies will cause plenty of trouble in the Hoosier Victory Gardens during the season ahead. Gardeners should marshal their forces and destroy them now lest they destroy the gardens. This can be done either by raking and burning the plant residues, or by plowing and spading the gardens so that all debris is covered with at least four to six inches of soil. Remember that a thorough and complete job is essential. The sooner it can be done the better. In addition, the good gardener will plant disease-resistant varieties next spring, and will equip himself with a duster and a supply of insecticides and fungicides. By so doing he will win his private war against the insects and diseases, and at the same time help Uncle Sam to win his war too.

GOOD NUTRITION CALLS FOR GRAIN CEREALS DAILY

Good nutrition calls for whole grain cereals in the daily diet twice a day, reports Miss Lois Oberhelman, extension nutrition specialist, Purdue University. Whole grains supply necessary vitamins and minerals needed for health, satisfy the appetite, and supply energy at low cost.

The homemaker will do well to serve at least one breakfast cereal a day, in addition to whole grain bread at every meal. If money available permits the buying of only a minimum of fruits and vegetables, then at least half of the cereals served should be whole grain rather than refined. If refined cereals are used, be sure they are the enriched ones—those having the needed vitamins and minerals added.

The most familiar whole grain cereals are rolled oats, whole or cracked wheat and unbolted corn meal. These provide the most food value at minimum cost, and may be prepared in great variety of ways to fit into any meal of the day or may be made into main dishes, breads, soups, and desserts.

ALFALFA GIVES COWS GOOD HAY INSURANCE

"Alfalfa, the crop that provides Indiana dairymen 'hay insurance', has proven its dependability as a dairy pasture," G. A. Williams, Purdue University extension dairyman, declared, after completing a study of 400 dairy farms in cooperation with a number of Indiana Dairy Herd Improvement Associations.

"Ten years ago only a few Indiana dairymen were brave enough to risk pasturing alfalfa, but today alfalfa pasture is rapidly on the increase," Williams said the study showed.

"Last June," he added, "104 of the 400 farms studied were using alfalfa pasture, and in September there were 172 of the same 400 following this practice."

"We know many Indiana dairymen, who pasture alfalfa regularly, have never lost a cow from bloat," Williams pointed out.

Some of the practices followed by the farmers, who cooperated in the study, to make pasturing alfalfa successfully are:

1. Use an alfalfa-timothy mixture instead of alfalfa alone.
2. Have the cows "full of feed" when they are first turned in the pasture field.
3. Have plenty of salt and water available to the cows.

Additional information on alfalfa pastures for dairy cows may be obtained from the Purdue dairy department or from the office of the county agricultural agent.

GRADING OF CREAM TO BENEFIT ALL U. S.

AGRICULTURAL EXPERTS SAY: Quality Butter begins with Carefulness

☆☆ Good Butter Will Help Win the War ☆☆

© NCOP

American butter, already rated as the finest in the world, is to have its quality lifted still further. The new federal food act, supported by cream-grading laws in many states and by all elements of the dairy industry from farmer to manufacturer, makes this a certainty.

The new law has given impetus to the grading of cream similar to grades on which most other farm crops are sold. The supporting state statutes are intended to benefit the farmer who complies with their provisions and to penalize the farmer who is producing unfit cream because he will not go to the trouble of taking necessary sanitary precautions which would insure a better quality product.

Cream-grading laws usually provide that if a farmer's cream grades No. 1, it will command a higher price because it can be made into first-grade butter. If cream were

not so graded, the farmer who produced top quality cream would get no more than his careless neighbor who produced an inferior grade. The same laws prevent No. 2 cream from being mixed with No. 1, because when this is done, the quality of the butter made from it is all pulled down and everyone concerned suffers a loss. One can of poor cream can spoil a good many cans of top quality if they are all mixed together.

If the cream is grading under No. 1, it is certain that the farmer submitting it is not observing all the principles of sanitation, quick cooling and frequent marketing. A change in his production or delivery practices will soon furnish the remedy. The farmer's income will be steadied and he who exercises careful production and handling will then reap the rewards of his special attention and industry.

Patriotic Quotes

1756 Sweet land of Liberty of thee I sing 1776

I ONLY regret
that I have but
one life to lose for
my country.

Nathan Hale

Hale, a 21-year-old captain in George Washington's army, uttered this noble sentiment just before he was hanged by the British as a spy on September 22, 1776, during the War of American Independence.

TALMA NEWS

By Mrs. Jeff Stookey

Mrs. Ada Bowman and Rev. and Mrs. Clarence Nida were Sunday dinner guests of Mr. and Mrs. Bill Deamer.

Mrs. Holderman, who lives northeast of Talma on 25, has been very sick with pneumonia for the past two weeks but is much improved at

this time.

Mrs. Verdine Brockey spent the week end with her niece who lives in South Bend.

No school at Talma on Monday and Tuesday on account of the drifted snow.

Ladies of the W. S. C. S. met at the home of Mrs. Ora Horn on Wednesday afternoon. She was assisted by Mrs. Joe Meiser, Sr. and Mrs. Ed. Staldine. Roll call was answered with a favorite verse of scripture. The

lesson was given by Mrs. Charles Shock, Mrs. Hibbs, Mrs. Brockey, Mrs. Main Deamer, Miss Mikesell and Mrs. Wm. Carpenter. A reading was given by Rev. Sutton and followed by the hostess and her assistant serving delicious refreshments.

T.H.E. Club met at the home of Mrs. Robert Calvert on Thursday afternoon. She was assisted by Mrs. Ernest Bryant. Roll call was answered by an Irish joke. The lesson on "Alteration of Patterns and Fitting Dresses," was given by Mrs. Ada Bowman and Mrs. Celia Grove. A paper was given by Mrs. Florence Hibbs. During the social hour there was a handkerchief shower for Mrs. Walter Scott. When the refreshments were served a beautiful white cake with candles and birthday decorations was brought to the dining room and all sang "Happy Birthday" for Mrs. Charles Good. Everyone enjoyed the afternoon.

Mr. Wm. MaHoney still remains in a very critical condition. The hospital attendants report that there has been no change in his condition.

Robert Calvert is at home for a few days due to lack of materials where he is employed at Studebakers at South Bend.

Jan Perkins is quite sick with chicken pox. He is the little son of Mr. and Mrs. Perkins of Talma.

Mrs. William Lardon and daughter, Miss Erma Ryggs, spent Friday afternoon in Mishawaka. They were

accompanied home by Mr. Larden who is employed at Dodge, Inc., at Mishawaka. He came home for the week end. Mr. and Mrs. Larden recently bought the Loren Kramer farm east of Talma.

Billy Pindell and Woodie Cochran of Mishawaka, are spending the week end with Lynn Ryggs.

Mr. and Mrs. Harry Case called at the Jeff Stookey home on Saturday.

VICTORY HITCHED TO THE DRAWBAR
DON'T USE SECOND-RATE OIL!

Government calls for more farm production . . . Army and factory are calling for men.

And thoughtful farmers realize their power equipment has suddenly become fighting machinery which must be kept in fighting trim to get the job done!

That's why the special advantages of 150-Hour Veedol Tractor Oil are "musts" in 1942. Made from pure Bradford-Pennsylvania crude, it has extra toughness and heat-resistance to help your tractor stand the wartime strain.

NOTE: Your farm implement dealer is anxious to help keep your tools in tip-top shape. Don't hesitate to enlist his expert assistance.

How Good is VEEDOL?

ASK POWER-FARMER AUSTIN!

- ★ "Less repairs—more power — cheaper per gallon per hour!" says C. M. Austin of Norman, Oklahoma. "I gladly recommend 150-Hour Veedol to farmers seeking top performance—low operating costs!"

Cuts Costs 5 Ways:

1. Saves fuel by reducing power blow-by.
 2. Saves oil; more hours between refills.
 3. Saves time by avoiding breakdown delays.
 4. Saves repairs through extra heat- and wear-resistance.
 5. Saves tractors; assures long, economical service.
- 150-Hour Veedol Tractor Oil comes in convenient containers from 5-gallon pails to 55-gallon drums. Order today!

MENTONE

News of Mentone and Vicinity

Dr. and Mrs. Urschel were in Chicago last Wednesday and Thursday.

Old Hickory Smoked Salt at the Big Drug Store.

Estella Dille expects to be celebrating her 87th birthday on Friday, March 20th.

Mr. Cal Buss, of Etna Green, who has been ill for some time, is able to be out of bed, but is still confined to his home.

Allen. Blue, who was returned home last week, is getting along satisfactorily at home. Mr. Van Doran, of Burket, is taking care of him.

Mrs. Lydia Ryneerson spent a few days last week in Leesburg, visiting her sister, Mrs. Eva Irvine, and family.

Mrs. Lizzie Morgan has returned to her home after a three months visit with her sister, Mrs. Frank Hawk at South Bend.

Mrs. Ora Eberly, of Boswell, Indiana and a former resident, arrived Sunday evening for a visit with Mrs. C. W. Krathwohl and other friends.

Rev. C. C. Collins spoke on "What Is That In Thy Hand?" during the assembly period at the Beaver Dam High School Monday morning.

Mrs. Dan Holloway, of Etna Green, who has been very seriously ill with pneumonia for the past week, is reported as improving at this time. She is apparently out of danger.

Mr. Don Smalley was very ill with pneumonia the latter part of last week, but responded very promptly to treatment and is much improved at this time.

Jesse D. Grubbs, who has been stationed at Camp Shelby, Miss., has been transferred to Fort Benjamin Harrison where he is attending an officers' school. He visited his father and mother, Mr. and Mrs. P. Grubbs, Wednesday.

The advent of March should remind you that house cleaning and papering is on hand. Our 1942 stock of Wallpaper has arrived and we know you will be pleased with those colorful effects and beautiful designs shown. The Big Drug Store.

R. Franklin Molesbash has enrolled in the United Aircraft Training School at Wichita, Kansas.

Mrs. Rex Fites, of Bourbon RFD, who underwent a major operation at Woodlawn hospital last week, was returned home and is convalescing nicely.

Mrs. Harvey Holderman, of near Tippecanoe, who was ill for several days with pneumonia, is now able to be out of bed a short time each day and is getting along well.

Mrs. Homer Warren underwent a major operation at the Murphy hospital, at Warsaw, on Monday morning. Her condition is satisfactory at this time.

Mrs. Mary Tucker, of Mentone, who was quite ill with a cold last week, is improving at this time and was able to be out of bed part of the time Tuesday to celebrate her 83rd birthday.

Mrs. Rosa Fawley is visiting at the home of her daughter, Mrs. Jess Molesbash, north of town.

Orven A. Heighway was in Mentone Tuesday and while here ordered campaign cards announcing that he is a republican candidate for county commissioner for the southern district. Mr. Heighway is now a member of the county council.

A card from Dr. and Mrs. T. J. Clutter state that they are enjoying the fine weather at New Smyrna, Florida. They are staying within a couple of blocks of the home of Mr. Joshua Garwood. Mr. Garwood, who had his arm broken in an auto accident last fall, still isn't able to do any fishing but the arm is improving all the time.

The names of Floyd Tucker, Noble Babcock, C. L. Ernsberger, Chas. Horn, Floyd Elliott, Marion Baugher, Grover Janke, Bert McGowen, Vernon Jones, L. E. McIntyre, Elmer Sarber, Henry Alspaugh, Anne Richter and Geo. Widener were called at Clark's Store Saturday evening. Each would have received a five dollar gift had they been present.

Tuesday, March 10, Rev. C. C. Collins, in company with Dr. Yeoman of Warsaw and Rev. Glenbur Sutton of Bourbon, drove to Elkhart where

they met with Rev. H. D. Neel and made plans for the Epworth Forest Institute which will begin July 4th. Rev. Sutton is director of boys' activities, Rev. Neel of the girls', and Rev. Collins is dean.

Dr. Urschel wishes us to say that he will be out of his office all day next Saturday, as he is planning to attend the state tournament finals at Indianapolis, with Dale Kelley, Coach Harvey and Miles Igo. Mrs. Tucker and Miss Dorman will be in the office during regular office hours to take care of any emergency work or of supplying any regular medication.

NOTICE REPUBLICANS

Republicans are asked to meet at Beaver Dam Tuesday evening, March 24 at 8:00 o'clock to nominate a trustee and advisory board for the First and Second Districts of Franklin Township.

H. A. MOLLENHOUR.

FORMER MENTONE MERCHANT DIES TUESDAY

William A. Forst, 88, who was affiliated with Will Clark in the operation of a general store at Mentone for a number of years, passed away Tuesday evening at the McDonald hospital after a four-day illness. His death was due to complications developing from injuries sustained in a fall at his farm home, west of Atwood, last Friday. He had been in ill health for the past four years.

The deceased was the son of the late John and Lou Forst. His home had been in North Manchester from 1854 to 1874, then in Atwood, and in Mentone from 1894 to 1925. He had resided in Warsaw with a niece, Mrs. R. R. Hildenbrand, for the past 13 years. He was born in Miami county October 11, 1853. Letitia Wray, his wife, is deceased. They were married in 1878. Mr. Forst was a member of the Atwood Knights of Pythias lodge.

Surviving relatives include: a foster daughter, Mrs. Mabel Andrews, Minneapolis, Minn.; five nieces and nephews, Mrs. Madys Russell, Erie, Pa., Fred Wray of Mishawaka, Roy Wray and Mrs. Mearl Lutes of Atwood, and Mrs. Hildenbrand, Warsaw. One brother, Mac, of Mentone, passed away 20 years ago.

Funeral services will be held Saturday afternoon at 2:30 o'clock, at the Landis funeral home, Warsaw, with Rev. R. C. Plank, Methodist Minister, of Warsaw, officiating. Interment will be at Mentone.

MRS. EYRICK DIES AT MELVIN CAIN HOME

Funeral services were held Sunday afternoon in Monticello for Mrs. E. B. Eyrick, 82, who died Friday morning at the home of Mr. and Mrs. Melvin Cain, of near here.

The deceased was a resident of Monticello until the last three years, having resided with her grandson and family.

Mrs. Chris Cain, of Etna Green, is one of the six surviving children.

Mr. and Mrs. Frank Warren spent Sunday in Fort Wayne visiting.

O. E. S. INSTALLATION AND SOCIAL EVENING

The annual installation of Eastern Star officers for the ensuing year occurred in Masonic Hall March 16th. After the close of the regular business session, guests and members numbering nearly fifty were invited into the main hall to witness the installation ceremony. Mrs. F. R. Burns served as installing officer and Mrs. Floyd Tucker as marshal for the evening. The officers were as follows:

Worthy Matron, Mary Shirey.
Worthy Patron, Raymond Bare.
Associate Matron, Garnet Latimer.
Associate Patron, Maurice Dudley.
Secretary, Cora VanGilder.
Treasurer, Fro Tucker.
Conductress, Golda Mollenhour.
Associate Conductress, Elizabeth

Doran.

Chaplain, Mabel Warren.
Marshal, Edna Burns.
Organist, Ruth Urschel.
Adah, Dorothy Bare.
Ruth, Helen Brown.
Esther, Vera Black.
Martha, Ellener Manwaring.
Electa, Winifred Smith.
Warden, Catherine Francis.
Sentinel, Ellen Stanford.

During the social hour refreshments were served by a very efficient committee of which Golda Mollenhour was chairman.

REVIVAL SERVICES ARE IN PROGRESS

The special Pre-Easter services which began at the Methodist church Sunday, March 22, are being supported by good crowds. Many have expressed their appreciation of the services and say they are finding them helpful. In these critical days the church finds itself and its program becoming increasingly important. It has a contribution to make, both to the community and to your life. But it can only influence you as you permit. Plan to attend these services which will continue every evening except Saturday until Easter.

Mr. and Mrs. Ernest Williamson called at the L. L. Mollenhour home Sunday evening.

GOOD FRIDAY SERVICES

Good Friday services will be held at the Mentone Methodist Church on April 3rd, from 12:00 until 3:00 p. m. The program will be divided into seven parts with various speakers participating. A welcome is extended to all people of the community to attend the entire service or that part which is most convenient. May we recognize Good Friday by attending some Christian religious service.

Program

Period I—Scene: The Garden of Gethsemane, Mt. 26:36-46—12:00 to 12:25 p. m.
Period II—The Betrayal, Mt. 26:47-56—12:25 to 12:50.
Period III—The Courtyard, Mt. 26:69-75—12:50 to 1:15.
Period IV—The Temple, Mt. 27:3-10—1:15 to 1:40.
Period V—The Civil Trial, Mt. 27:1, 2, 11-26—1:40 to 2:05.
Period VI—The Road to Calvary, Luke 23:26-32—2:05 to 2:35.
Period VII—Calvary, Luke 23:33-56—2:30 to 3:00.

MANY BUSINESS PLACES

TO CLOSE GOOD FRIDAY

A brief survey among the business people of town indicates that most of them are favorable to a plan to close April third while Good Friday services are in progress at the Methodist church. The services are from 12:00 to 3:00 and although the nature of some businesses may not permit them closing the entire period, it is presumed they will be closed a portion of the time during the period.

MRS. ARNSBERGER, 80,

SUFFERS BROKEN HIP

Mrs. George Arnsberger, aged 80 years, fell at her home Sunday evening and fractured her hip. She was taken to the McDonald hospital at Warsaw and latest reports were that she was resting comfortably.

Mr. Arnsberger, who is nearly 87 years of age, was walking in the home and seemingly had tripped on a rug. Mrs. Arnsberger, in an effort to catch him, arose from her chair so quickly that she fell, sustaining the fracture.

ANNUAL EASTER EGG HUNT ON SATURDAY, APRIL 4

It has been announced that the annual Easter egg hunt, sponsored by the Mentone Lions club, will be held on Saturday, April 4th. The hunt will start at 1:15 in the afternoon at the gun club grounds. The eggs are to be hidden in the forenoon and it will be a "forbidden area" to the youngsters while this in progress.

We have been advised that the children will gather at the Drug Store corner and then go to the gun club grounds for the hunt. Prizes will be awarded.

A number of other contests will be held downtown after the big egg hunt. Prizes will also be awarded for these events.

All the youngsters are invited and urged to take part in this annual affair.

HARRISON TOWNSHIP LADY DIED MONDAY MORNING

Mrs. Dora Estelle Harmon, 73, wife of Wilson E. Harmon, died at her home Monday morning at 4:30 a. m. following a stroke of paralysis a week previous.

Mrs. Harmon was born in Harrison township on July 26, 1869, the daughter of Mathias Lutes, of this county. On February 16, 52 years ago, she was wed to Wilson Harmon. She was a member of the Pleasant Grove church.

Surviving are: the husband; one daughter, Mrs. Ed. Leedy; three sisters, Mrs. Minnie Snyder, Atwood, Mrs. Maude Vandermark and Mrs. Lillie Fawley, near Palestine.

Funeral services were to be held at the Kelly funeral home, Warsaw, Wednesday afternoon at two o'clock with Rev. R. C. Plank, Methodist minister of Warsaw, officiating. Burial in the Oakwood cemetery.

Mrs. Mahlon Jefferies returned to her home Wednesday after being confined in the McDonald hospital at Warsaw with a broken arm. She fell recently while tightening a rope clotheslines in her basement and fractured her left arm above the elbow.

He had to gain two pounds a week for three and a half months to do it but William Edward Owens of Greensburg finally has reached the minimum weight requirements and he's in the Navy now. Owens weighed only 98 pounds on November 28 when he first tried to enlist and was rejected. Twice more he tried with the same result but he continued to drink all the milk and eat all the good solid food he could hold. He made a fourth attempt this week and passed at 117 pounds, termed sufficient for his 5 feet 3 inch frame. Warned that a lad his size might find the going tough as an apprentice seaman at Great Lakes, he asserted, "I can take it."

Germans may get a second look at Ernest Edgar Mullins, 44, of Bloomington, who has enlisted as a carpenter's mate, first class, for the construction regiment the Navy soon will send "somewhere outside the continental United States." During the first world war Mullins was a gunner's mate, second class, on the old submarine K-1. He'll be a labor foreman in the regiment.

A Navy civil engineer officer will interview applicants for petty officer's ratings in the construction regiment until 4 o'clock this afternoon at the Federal Building in Indianapolis. Supervisors are wanted for electricians, excavators, shop and station mechanics, pipe-fitters, riggers, steelworkers and wharfbuilders, quarry drillers, crusher mechanics, automotive repairmen, blacksmiths and numerous other skilled workmen.

Radio listeners around Roanoke who have heard Bob Wilson broadcast news from station WOWO in Fort Wayne for several years will get a chance to see him Sunday when he broadcasts the civilian's opportunities to give the U. S. Navy strong backing. Now a Chief Boat-swain's Mate in the Navy, Wilson will tell a meeting of young people "Why You Should Be A Navy Booster." Motion pictures of Navy training, recreational activities and war maneuvers will be shown in connection with Chief Wilson's talk. All

young people of Roanoke churches as well as those of two Fort Wayne Christian churches have been invited to attend the meeting.

Citizens in the Vincennes area will get a chance to pay tribute to mothers of Navy men Saturday when Vincennes stages its Navy Booster Day. Active civilian groups are hard at work in cooperation with Navy recruiting and Navy public relations officials on arrangements for a mock air raid, a gigantic parade, and a free Navy Booster rally which is scheduled for eight o'clock that night in the Vincennes high school coliseum.

Vincennes' Navy Booster Day is expected to follow generally the pattern of similar observances which have been termed highly successful in the last two months at Terre Haute, Lafayette, Rensselaer, Portland, Muncie, Richmond and Indianapolis. The Indianapolis parade, held on Feb. 22, attracted a crowd estimated at 100,000.

Kokomo, too, will have its Navy Booster Day which will be held on April 4 in the Haworth gymnasium at 7:30 p. m. Sponsored by the American Legion, the Kokomo meeting will feature the same events as other cities—an air raid, enlistments, a parade and presentation of service cards to mothers. William W. Workman is general program chairman.

The Navy's V-7 procurement office has relaxed its citizenship requirements and applicants may now apply for deck officers' training in midshipman schools who have been citizens of the United States for ten years. Applicants were formerly required to be native born American citizens.

Three brothers volunteered to enlist in the United States Navy on the same day this week and two of them, Carl W. and George A. Stewart, will soon join their step-brother, Ernest Jones, for training as apprentice seamen at the Great Lakes, Ill., Naval Training Station. The third brother was not so fortunate. He was rejected by Navy physical examiners but he didn't stop because of that. He went right over to the Coast Guard recruiting office where physical requirements are not so rigid; so all three boys may be on a ship some day even if it is not the same one. The Stewart brothers live in Indianapolis.

The Great Lakes basketball team finally brought its basketball season to a close last week, ending up with a record of 31 victories against five defeats. Although the team had an

enviable record on the hardwood, Naval officials were more proud of three other accomplishments. Formed to boost the morale of enlisted men, spur recruiting and aid the Navy relief fund, the Great Lakes cagers were winners on these counts too. The sailors played in eleven states, booming enlistments 20 to 45 per cent in the communities where they played. Bill Menke, Huntingburg, and Ernie Andres, Jeffersonville, two former Indiana University stars, were mainstays in the blue-jackets' line-up.

FREE LITERATURE ON U. S. MARINE CORPS

For the convenience of young men who wish information concerning the United States Marine Corps, the state marine headquarters will mail descriptive literature and an application blank to anyone requesting it, according to an announcement by Capt. Ralph E. Boulton, the officer in charge of marine recruiting in Indiana. This service is furnished with no obligation to those receiving it.

Men between 17 and 30 years old are eligible for enlistment in the Marine Corps. In order to qualify for enlistment, applicants must be of good character, have at least one year of high school education and must have no dependents.

Those who wish to receive the Marine Corps literature may request it by writing to the U. S. Marine Corps, 406 Kresge Bldg., Indianapolis, Ind.

REMEMBER Way Back When—

19 YEARS AGO

Taken from Tri-County Gazette
Published by Claude Taylor

MARCH 22, 1923

Last week Vernon Jones moved his family to Mentone having rented the "Man" Mentzer property on South Broadway. Mr. Jones recently purchased an interest in the Burket Grocery, now known as the Star Grocery and Meat Market.

Lloyd Dunlap returned Wednesday morning from a several weeks vacation in Kansas, Ohio and Missouri.

(Head): "Bourbon's New Fire Truck Has Try-Out."

Our neighboring town of Bourbon has, like Mentone, realized the need of a fire truck and now has real fire-fighting equipment. However, the story goes, they had a poor try-out Sunday. We are informed that Sunday afternoon they started to answer an alarm and made their run twice to the wrong place, but finally arrived at the place after a man had put out the fire and after killing a dog on their initial run.

Mr. and Mrs. I. F. Snyder went to Fort Wayne Wednesday and in the evening heard a recital at the Palace Theatre given by the great pianist, Rachmaninoff.

Mr. and Mrs. Lloyd Summe and daughter LaDonna, spent last Thursday in Mentone with Mrs. Summe's parents, Mr. and Mrs. Orlando Meredith.

30 YEARS AGO

MARCH 21, 1912

Abram Baker, aged 91, died yesterday at the home of his son, William, north of town.

Grace Smyth and Dallas Zolman were married at eight o'clock on Thursday evening at the home of the bride's parents, Mr. and Mrs. Julius Smyth in Talma.

There have been a few sugar-making days this week and camps are being opened.

A. C. Manwaring and wife started yesterday for an extended visit with friends in Kansas and Colorado.

Mr. and Mrs. S. A. Guy went to Spiceland to attend the funeral of his cousin and from there to Frankfort to visit friends.

Mrs. Samuel Stuckey and little son, Carl of near Leesburg, spent Monday at the B. M. VanGilder home.

A case of scarlet fever is reported in the Wm. Vernet home, northwest of town.

March 20th is the golden anniversary of the E. N. Bakers. The children plan a home-coming for that day.

40 YEARS AGO

MARCH 20, 1902

The black eye which Marion Heighway wears is something of a joke, but you needn't be afraid to ask him about it. He bought some acid this morning to take the calf's horns off.

Frank E. Dumas and wife of Knox, were the guests of W. F. Clarks over Sunday. Mr. Dumas accompanied Mr. Clark to Chicago Monday and Mrs. Dumas remained with Mrs. Clark for a few days.

John Aughinbaugh, the harness man, is laid up for repairs. A very sore eye has compelled him to remain in a darkened room for a couple of days.

Mrs. D. W. Fasig, who has been making an extended visit in Ohio with her sister, returned Tuesday.

Ben Sell went to Chicago Monday to accept a position with the Western Electric. Scott Pontius takes his place as salesman at the D. W. Lewis store.

MISS MENTZER ENTERTAINS PSI IOTA XI SORORITY

Miss Annabelle Mentzer was hostess at her home Thursday evening to the Psi Iota Xi Sorority. Bridge was enjoyed by the guests.

Those present were Annabelle Mentzer, Pauline Riner, Charlotte Snyder, Anne Morthland, Mildred Bryan, Anne K. Sierk, Lucille Whetstone, Helen Harvey, and the guests Ora Pottenger, Flora Holt, Dorothy Nelson and Marian Swan.

Prizes in bridge were awarded to Pauline Riner and Ora Pottenger.

D. A. R. MEETS AT HOME OF MRS. PONTIUS

The Anthony Nigo Chapter of the Daughters of the American Revolution met on Tuesday evening at the home of Mrs. Emma Pontius, with Mrs. Ernie Manwaring and Miss Lola Mollenhour as assisting hostess.

The chapter's guests were the Good Citizenship girls and their mothers.

The Junior members of the chapter had charge of the program. They presented a humorous play. The characters were Mrs. Eileen Fenstermaker, Mrs. Arthur Brown, Mrs. Max Smith, Mrs. Ernest Igo, Mrs. Albert Tucker and Miss Lola Mollenhour.

The guests included Mrs. Judy and daughter Violet, of Silver Lake, Mrs. Elmer Rathfon, Mrs. Everett Rathfon and Mrs. Albert M. Tucker. During the social hour the hostesses served delicious refreshments.

The chapter adjourned to meet on April 28th with Mrs. Ed Kessler at Warsaw.

YOUNG PEOPLE TO COLLECT WASTE PAPER

Next Saturday, March 28th, the young people of the Methodist church will collect your waste paper. They plan to begin work at 9:30 a. m. and will canvass the town. If you have a large supply please notify them by calling phone number 165, giving your name and stating what hours you will be at home on Saturday.

EASTER SUNRISE SERVICE

Easter Sunrise services will begin at 6:00 o'clock, CWT, on Sunday, April 5th, in the Mentone Methodist church. An inspirational and appropriate program is being planned. Don't forget, plan now to attend.

GARDEN FERTILIZERS

All garden vegetables are benefited by having a liberal amount of fertility in the soil. The fertility should be readily and also slowly available to the plant to care for plant growth requirements throughout the season, according to Joe Clark, the County Agricultural Extension Agent.

Unless there are sufficient mineral elements in the soil, the plants may become dwarfed and full short of full development as well as production. There are several ways of supplying the soil with the essential plant foods and Hoosier gardeners are urged to use whatever is available.

Manure could be applied profitably at the rate of 20 to 40 loads per acre with lesser amounts of the more concentrated kind, such as poultry and sheep manure. Manure should be applied during the later winter and early spring and at least two weeks before plowing. Manure supplies quite a few of the necessary mineral elements as well as organic matter.

If manure is not available, 300 to 500 pounds per acre of -20-20 (phosphate and potash) fertilizer broadcast over the garden just before plowing will be beneficial to any garden soil. When this material is plowed under, the plant food will be in the bottom portion of the seed bed.

Nitrogen may be supplied as a top or sode dressing to the growing plants. Neither seed nor roots of transplants should come in direct contact with the commercial fertilizer.

GARDENERS ARE URGED TO PLANT BY VARIETY

There are at least 35 common vegetables that will grow on most any soil in Indiana. All of these common vegetables are annuals and have from a few to many different varieties available, reports W. B. Ward, extension gardener of Purdue University.

Not all the varieties listed in seed catalogs are recommended for planting, and therefore, it is advisable to consult the county agent if undecided about what is wanted.

Purdue University Agricultural Extension Bulletin No. 238 lists over 100 varieties of vegetables suitable for planting from which any gardener may make a selection of tried and tested strains. It is available at every Indiana county agricultural agent's office.

Some varieties of vegetables are quite resistant to troubles in the soil or to those transmitted by insects or tools. Cabbage yellow disease is perhaps the most serious and only disease resistant varieties should be planted. Sweet corn and watermelons are susceptible to wilt in the soil and when these vegetables are to be planted the wilt resistant varieties are recommended.

New varieties make their appearance each year, many of them suggested for trial only. During the past several years the Decatur, a white seeded stringless pole bean, the Purdue Hybrid Popcorn and the Buttercup squash have undergone severe tests and should find a place in the front rank. The yield, quality and the resistance to dry weather prove that the trials are over for these newer sorts and they are worthy of planting.

NUGGETS FOR BEREANS

The beginning of Babylon is recorded in the 10th chapter of Genesis. It was built by Nimrod the grandson of Ham. This is the place where idolatry was first practiced.

The wife of Nimrod was defiled and called the QUEEN OF HEAVEN (see Jer. 7:18).

The symbol of this worship was a cross and as the worship of the sun was carried to other lands under different names, the use of the cross as a symbol was retained. This was true of Isis in Egypt. It was also common in Asia and Africa.

The use of the cross in the early church began in the time of Constantine whose mother, Helena, invented the use of the cross as a symbol of Christianity. As Constantine had formerly been a worshiper of the sun god, it was easy to retain the symbol. This was about 426 A. D., and it became so firmly established in the church that when the Latin Vulgate version was made in 490, the word CROSS (Latin, CRUX) was used to translate the Greek words STAUROS and XULON. The word STAUROS means a stake or upright piece of timber. XULON usually meant a dead log or piece of timber to be used for firewood or some other purpose. Neither of these words can mean two pieces of timber as the cross is pictured. This word has become so implanted in the traditions of the church that it was retained in the translation authorized by King James of England in 1711.

The words CRUCIFY and CROSS are absolutely out of place in any

description of the death of our Lord. He was executed on a stake, the same as any other criminal of His day.

The judgment of this false religion known as Babylon is foretold in Rev. 17. Who can doubt that the mark of the Beast in Rev. 13 is any other than the ancient symbol of Babylon, the CROSS?

—Oscar M. Baker.

NO MILK SUBSTITUTE SAYS NUTRITIONIST

Milk is the one food of the "protective group" for which there is no substitute, says Miss Lois M. Oberhelman, Purdue University extension nutritionist. Every adult needs at least one pint of milk daily; and every growing child, every pregnant and nursing mother needs at least a quart.

Several Indiana counties are plan-

ning demonstrations on ways of increasing the consumption of milk in family meals. These are to be given by Purdue nutrition specialists and are to include such subjects as the proper care of milk in the home as well as variations for preparing milk dishes in the daily meals. Among the counties studying this project are: Carroll, Jasper, Warrick, Franklin, Hamilton, Henry, Bartholomew, Morgan and Hancock.

Ways in which milk may be used

in family meals include: cream soups, scalloped dishes, creamed vegetables, eggs or meat. Whole grain cereals, such as oatmeal, cornmeal, or cracked wheat cooked in milk, are delicious as well as nourishing.

Other inexpensive nourishing dishes are chowders, which may be made of fish, corn, or a mixture of vegetables, such as cabbage, carrots, peas and celery. To make this for six people, use two cups milk, two medium potatoes, diced; two cups vegetables, one onion, one-half cup bacon or salt pork diced. Fry bacon or salt pork in kettle in which chowder is to be made. Remove—to be added last. Slice onion and brown in fat. Add fish, corn or diced vegetables with just enough water to keep them from burning; when tender, add milk. Season with salt and pepper; add crisp bacon or salt pork and serve.

of the show. Each race will consist of a minimum of four heats and the semi-finals and finals will take place Sunday afternoon.

With

VICTORY HITCHED TO THE DRAWBAR DON'T USE SECOND-RATE OIL!

Government calls for more farm production . . . Army and factory are calling for men.

And thoughtful farmers realize their power equipment has suddenly become fighting machinery which must be kept in fighting trim to get the job done!

That's why the special advantages of 150-Hour Veedol Tractor Oil are "musts" in 1942. Made from pure Bradford-Pennsylvania crude, it has extra toughness and heat-resistance to help your tractor stand the wartime strain.

NOTE: Your farm implement dealer is anxious to help keep your tools in tip-top shape. Don't hesitate to enlist his expert assistance.

How Good is VEEDOL?

ASK POWER-FARMER AUSTIN!

- ★ "Less repairs—more power — cheaper per gallon per hour!" says C. M. Austin of Norman, Oklahoma. "I gladly recommend 150-Hour Veedol to farmers seeking top performance—low operating costs!"

Cuts Costs 5 Ways:

1. Saves fuel by reducing power blow-by.
 2. Saves oil; more hours between refills.
 3. Saves time by avoiding breakdown delays.
 4. Saves repairs through extra heat- and wear-resistance.
 5. Saves tractors; assures long, economical service.
- 150-Hour Veedol Tractor Oil comes in convenient containers from 5-gallon pails to 55-gallon drums. Order today!

PRODULAC DRIED vs. DRIED SKIMMILK

in Poultry Mash and Hog Feed

★ ★ ★

The proof of the pudding is in the eating
Read the following:

<p>MEMBERS' International Baby Chick Association Indiana Poultry Association Ind. R. O. P. Breeders' Association</p>	<p>CREIGHTON BROTHERS BREEDERS OF WHITE LEGHORNS Route 5, WARSAW, INDIANA PHONE ATWOOD 132 July 10, 1941</p>	<p>U. S. Certified and U. S. R. O. P. Chicks and Hatching Eggs</p>
--	---	---

Mr. C. W. Devers
 Union City
 Indiana

Dear Mr. Devers:

I am sending you herewith a tabulation showing the production of eggs in four houses which we used last winter, to check the results of feeding your Dried Produlac. We fed Dried Produlac in Bldg. #17 entirely replacing the dried milk in our laying mash. I might say that this Dried Produlac was fed 200 lb. to the ton of mash, the same as the milk was fed in the houses #18, 19, and 20.

After keeping the record of production for five months, we find that the birds in house #17 laid 166,303 eggs, compared with those in house #18, laying 166,778, #19 producing 166,101, and house #20 producing 164,296.

While we do not regard these figures as being significant so far as showing the superiority of Produlac Dried mash over milk, we do feel that it adequately and satisfactorily replaced milk in our poultry rations.

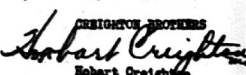

This experiment was undertaken after a great deal of hesitancy on my part in recognizing the merits of Dried Produlac. However, after trying it out for five months, keeping an accurate record of production, mortality, and hatchability of building #17 compared with three other buildings which were made up of pullets of the same age and grown under the same conditions, we cannot help but come to the conclusion that Produlac Dried satisfactorily replaces milk in the laying mash.

We fed a certain amount of condensed skim milk and condensed whey to all the birds, which means the birds in houses #17, 18, 19, and 20. This milk and whey were fed in a wet mash which was fed on top of the dry mash in hoppers.

The percentage of hatch in building #17 was 1.7% higher than the average of the hatch in buildings #18, 19, and 20, so we find that in addition to giving satisfactory egg production, we also receive satisfactory hatchability; and, our mortality in buildings #17, 18, 19, and 20, was almost identical.

In view of the present high price of milk, it seems to me that Produlac Dried is certainly a very attractive buy to the commercial poultryman. We do not look upon this substitution merely as a means of saving money, but rather as a more economical way to do a good job of feeding chickens.

You may compile the figures on the enclosed chart in any way you choose, and use any part or all of this letter in any way you please.

Very truly yours,

 Robert Creighton

WARSAW

News of Mentone and Vicinity

A card from Robert Steller states that he has arrived at Fort Sam Houston, Texas, near San Antonio, and likes it mighty fine there. He has recently been made a corporal and has been doing clerical work in the battalion headquarters. He sent regards to his many friends at Mentone.

The Co-Op. News has received a few of the new 1942 Indiana highway maps through the courtesy of S. C. Hadden, chairman of the State Highway Commission. Anyone desiring one of these maps may secure one at this office as long as the supply lasts.

Mr. and Mrs. Fred Bohner and children, Darlia and Allen and Mrs. Doile D. Bohner of Fort Wayne, were Sunday guest of John and Mrs. Latham.

Mr. and Mrs. John O'Conner and sons Jimmie and John, of Culver, were Sunday guests at the John Latham home Sunday afternoon.

Mrs. Martha Walsh, of North Franklin Street, is better at this writing.

Mrs. David Holloway is recovering from her recent illness. Mrs. Holloway has been making her home with her daughter, Mrs. Ray Dillingham this winter.

Mr. and Mrs. S. L. Snyder, Flint, Michigan, and Mr. and Mrs. Robert E. Snyder of Evansville, Indiana, spent the week end with the gentlemen's parents, Mr. and Mrs. Irvin Snyder.

Mr. and Mrs. J. D. Long and Sylvan attended the golden wedding of Mr. and Mrs. Bruce Lowe, south of Rochester, Sunday afternoon. Mrs. Long and Mrs. Lowe are cousins.

Mrs. Lyman Mollenhour and new daughter, Janice Jeanette, came home from the Murphy Medical Center at Warsaw last Friday.

Mrs. Allie Lyon arrived home on Sunday afternoon after spending some time with her daughter and family, Mr. and Mrs. Fred Evans, at 900 Park Ave., Attica, Ind. A new grandson arrived while Mrs. Lyons was visiting there.

Miss Betty Lyon, student nurse at the City Hospital at Indianapolis, spent the week end in Mentone visiting friends.

Mrs. H. A. Mollenhour has been very sick for a number of days.

Mrs. Virgil Hire and Mrs. Vernon Jones spent Thursday night with Mrs. Nettie Nottingham, who is ill.

Hermie Fear is coming along nicely after his operation a number of weeks ago.

Mr. and Mrs. Vernon Jones took supper at the home of their son, Mr. and Mrs. Mervin Jones, Saturday evening.

Mr. and Mrs. Chester Coplen and family and Mrs. John Coplen spent Sunday with Mr. and Mrs. Byron Burgner and family of Bourbon. Mrs. Coplen remained for a few days visit with her daughter, Mrs. Burgner. Monday evening Mrs. Burgner entertained a number of friends at dinner.

Mr. and Mrs. George Dickey, of Warsaw, called on Frank Dickey of Beaver Dam, Sunday.

Mr. and Mrs. Ralph Mattix, of Claypool enjoyed a visit from Mr. and Mrs. Vernon Jones Sunday.

Miss Wanetta Jones spent the week end with her folks, Mr. and Mrs. Derone Jones. She is employed in Fort Wayne.

A birthday dinner was given Friday noon at the home of Mrs. Blanche Barfell in honor of the birthday anniversary of Mrs. Estella Dille and Mrs. Ward Meredith. Dinner was served to Mrs. Hazel Haas and Miss Jackie Clark, Fort Wayne; Mrs. Edith McFarland, Sevastopol; Mrs. Pearl Harshbarger, Columbia City; Miss Mildred Clark, Spokane, Washington; Mr. and Mrs. Ivan Tucker, Mrs. Dille and Mrs. Meredith, of Mentone.

Mr. and Mrs. Ira Borton visited their daughter, Miss Mary Jane Borton in Fort Wayne Sunday. Miss Borton is a ground instructor in aviation and has classes at Huntington, Marion and Fort Wayne. Mr. and Mrs. George Borton also made the trip with them.

Don Ernsberger started construction on his new home in east Mentone this week. It will be just north of the Raymond Bare home.

A birthday party, in which was incorporated a farewell message, was given for Don Lyons at the R. G. Reed home Saturday evening. A dinner was one of the main features of the evening. In addition to the host and hostess, those present were Mr. and Mrs. Don Lyons of Warsaw, Mr. and Mrs. Robert Hoover of Milford and Miss Betty Lyons of Indianapolis. Don has enlisted in the officers' training school and expects to leave the fore part of April.

C. J. (Red) Paulus left Wednesday morning for Indianapolis where he planned to attend the Sportsman show and visit friends.

METHODIST CHURCH**
Saturday evening, March 28th.
Serving to start at five o'clock.
Everyone invited.

FACES THEFT CHARGE

An affidavit, filed by Oliver C. Teel as manager of the Northern Indiana Cooperative Association at Mentone, charges DeWayne Horn, aged 25, with the theft of a half ton of coal from the local yards at about six a. m. on the morning of March 22. Horn has been ordered to appear before Judge John A. Sloane, at Warsaw, at 9 a. m. Saturday to answer to a charge of petit larceny.

ENLISTMENT DEFERRED

January 3rd of this year Dr. Dan L. Urschel volunteered for service in the Army or Navy. On February 23 he received a letter from the State Director of Medical Assignment, telling that because of the medical situation in Mentone and vicinity he had been given a deferment of six months, but that because of the need for physicians in his age group it was impossible to say at this time

whether this deferment would be extended beyond that period of time.
