## Mentone Egg Show to Open Wednesday

1947 Program Contains Several New Features and Many  
Notables of The Industry.

### THREE DAYS AND NIGHTS OF ENTERTAINMENT

The stage is virtually all set for the opening of the 1947 Mentone Egg Show next Wednesday morning at 10:00 a. m. when the opening session of the egg quality school is called to order by Chairman Joe Clark.

The day's program contains many events and includes such individuals as Allen Barr and Joe Sicer of Purdue; K. L. Goss of the U. S. Department of Agriculture, Miss Janalyce Rous, and many others. Music will be furnished by the Mentone High School for the afternoon session and in the evening Major Petrie and his Sextette will entertain. The evening program will also contain a movie and the egg queen will be selected. Five young ladies are competing in this event, representing the egg cars at Burket, North Manchester, Plymouth, Warsaw and Mentone.

The Thursday program is one complete with many speakers, educators and events and will be a day which all should enjoy.

Friday's eventful day will terminate with the big banquet which starts at seven o'clock in the evening. A fine program has been arranged following the banquet and everyone is invited to be present. The community building can seat only 400 for the banquet and there just aren't enough tickets available to supply the demand. However, the program following the banquet is free and there will be bleacher seats for several hundred spectators. Make it a point to be present even if you cannot be at the banquet.

Wednesday and Thursday noons the Home Economics Clubs of the county are featuring pancake dinners which will be served in the basement of the Methodist church. A special ticket is necessary for admittance to the dinner, but they are free—as long as they last—so see your hatcheryman or egg car manager right away if you do not have a ticket.

The complete egg show program is

### NEWCOMB PERSONNEL GIVEN CITATIONS

On a recent date Myrl J. Wagner, son of Mr. and Mrs. E. E. Wagner, received a special citation from the navy department and a Navy Unit Commendation ribbon to wear on his uniform. The citation came as a result of a group citation for all personnel that served on the destroyer, U. S. S. Newcomb, which operated at Saipan and Tinian, Palau, battle of Surigao Strait, Iwo Jima and Okinawa.

### GRUBBS

Mr. and Mrs. Leslie Grubbs are the parents of a daughter, Beverly Kay, born at 10:32 a. m. Friday at the McDonald hospital in Warsaw. Mrs. Grubbs and baby were brought to their home here Wednesday afternoon in the Johns ambulance.

### BLUE

Mr. and Mrs. Donald Blue of Elkhart, are the parents of a seven pound seven-ounce baby boy born February 26th. The infant has been named Kenneth Lee.

### TUCKER

Mr. and Mrs. Ralph Tucker, of Akron, are the proud parents of an eight-pound son, Thomas Allen, born last Friday at the Woodlawn hospital at Rochester.

### GETS AG. DIPLOMA

Don Allen Baker, son of Mr. and Mrs. Joseph Baker, Friday, received his diploma for the special eight-week agricultural course given at Purdue university. He has already returned to his home west of town.

printed on another page in this issue. Read it over carefully and note the many entertaining and instructive features.

### MOTORISTS SHOWING FINE COOPERATION

Many have commented this week of the fine manner in which most auto and truck drivers have cooperated in the safety program at Mentone. There are some, both local and out of town drivers, who do not observe the normal practices of parking, etc., but in the course of time it is hoped that all will be properly notified and the infractions reduced to a minimum.

Night Marshal Borton and Day Marshal Wagner are making every effort to treat all drivers with the same respect and are attempting to induce motorists to drive and park properly. In almost every instance, warnings are given before charges are filed, but one should not expect this to continue indefinitely. Everyone knows proper traffic rules and regulations and should not be offended if charges are filed against him for disobedience. Improper driving courtesy is the fault of the driver—not the enforcement officials—and a person can blame no one but himself if he gets one of those little pink tickets the boys are passing out. No motorist will be given a ticket if he drives or parks properly.

### BEWARE OF STRAY LIGHT OR TELEPHONE LINES

Wednesday Marshal Wagner called in the telephone repairmen to remove a number of telephone lines that have been down since the sleet storm some time ago. One of the lines, in particular, was over an electric power line and one lady was pretty badly jolted when she touched it. The safety warning is not to touch any loose wires as it may contain too many volts for comfort.

If there are any other lines down in town, it would be well to notify the proper officials so they can be taken care of.

No matter how one works it, there is always one of these little holes to fill on at least one page, and it always seems that one can't find anything that will fit. At least that is the situation here. This is one way of doing it!

### BURKET LAD DIES FROM IN- JURIES RECEIVED IN WRECK

Dale Eugene Richard, 19, son of Mr. and Mrs. Roland Richard, residents on a farm four miles southwest of Silver Lake near the Franklin township consolidate school south of Burket, died at 5 p. m. Saturday at the McDonald hospital in Warsaw.

The former navy veteran succumbed to injuries sustained at 9:30 o'clock Thursday night, when the auto in which he was riding struck a tree near the intersection of Union and North Lake streets, in Warsaw. Howard Shoemaker, 17, driver of the car, and another companion, Dean Parker, 19, suffered cuts and bruises in the accident. Shoemaker is the son of Ted Shoemaker, a mile south and a mile west of Burket. Parker is the son of George Parker, who resides just north of Yellow Creek lake.

The accident took place as Shoemaker attempted to round the sharp Union street curve. Richard, riding in the front seat between the driver and Parker, was thrown forward by the impact of the collision, and his head struck the center bracket on the windshield. He suffered a skull fracture, chest injury, and a cut left hand. He never regained consciousness after being placed in an oxygen tent at the hospital.

Survivors are the parents, Roland and Pauline Richard; two sisters, Netty Lou and Garla Mae, both at home with their parents.

Funeral services were held Tuesday afternoon at two o'clock in the Silver Creek church, two miles east of Rock lake, east of Akron.

### CLUB CALENDAR

Jolly Janes Home Economics Club, Monday evening, March 10, 8 o'clock with Mrs. Bud Paulus.

American Legion Auxiliary Tuesday evening, March 11, 8 o'clock at the school building.

Mentone Reading Club, postponed until Wednesday evening, March 19.

Royal Neighbors, Tuesday evening, March 11, 7:45 with Helen Mollenhour.

#### STATE AGENCY TO SUPPLY SEEDLINGS FOR WALNUT TREES

Normal reforestation in Indiana will be augmented this year by the planting of two million walnut trees, state forester Ralph F. Wilcox said this week.

Mills of the American walnut in-

dustry have supplied a minimum of 100 bushels each to state forest nurseries in 15 midwestern states. Both nuts and seedlings are reasonably priced, Wilcox said, and all your orders should be directed to the Division of Forestry, Indiana Department of Conservation, Indianapolis 9, Indiana.

## Dairy Cattle Auction

As we are dissolving partnership, we will sell our entire herd of high grade milk cows at public auction at the farm located 3 miles south of Mentone, 1 mile east and 1/4 mile south; one-fourth mile south of Sevastopol, or 6 miles north of Akron, on

### MONDAY, MARCH 10

at 1:00 P. M.

This herd is all T. B. and Bang's tested (Bang's tested again ten days before sale and a certificate will be given with each animal), and has been producing grade A milk for the Pure Milk Association.

21 COWS — 7 HEIFERS — 1 BULL

## WARSAW COAL-LIMESTONE CO.

The walnut reforestation program has been intensified because so many of these hardwood trees were used to make gunstocks during the war. The walnut is one of the most valuable trees found in the midwest, and new plantings every year will be necessary to assure a perpetual supply.

Both the state forester and experts of the American Walnut Manufacturers Association urged prospective planters to avoid trying to raise black walnut on poor soils, and they recommended the use of "stratified" nuts instead of year-old seedlings. Seedlings, it was pointed out, do not respond as well in growth as the trees which come up naturally "in place" from the planted nut itself.

Immediate placement of orders is necessary, Wilcox said, for spring planting. Applicants will receive a free

booklet containing details about planting.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

#### Carnauba Wax

Carnauba wax, obtained from a South American tree, sometimes called "the tree of life," is a Brazilian product largely used by the paint, varnish, lacquer and other industries. In addition to its use in polishes and preservative compounds, it is also used in special emulsions, cosmetics, salves, ointments, crayons, lubrication operations and carbon paper. The unusual properties of this wax include a high melting point, non-tacky surface, hardness and compatibility with many chemical compounds.

### D. A. R. MEETS AT BOGGS HOME

The Anthony Nigo chapter of the Daughters of the American Revolution met at the home of Mrs. Stanley Boggs Wednesday of last week.

The business meeting was conducted by Mrs. Eileen Fenstermaker, regent. Mrs. Ray Linn, chairman of the Good Citizenship committee, introduced Miss Nellie Christian, a senior in Mentone high school who was selected as an outstanding citizen in her class. The girls chosen from other schools, who were unable to be present, are: Martha Fox, Atwood; Norma Williamson, Beaver Dam; Josephine Holloway, Burket, and Dorothy Jean La Suer, Claypool. These girls are presented a certificate and a Good Citizenship pin.

Mrs. Robert Molebash very capably sang, "Ah, Sweet Mystery of Life," "All the Things You Are," and "The Old Lamp Lighter." She was accompanied at the piano by Mrs. Dan Urschel.

Mrs. Walter Lackey, assisted by Mrs. Urschel, presented, "Sidelights of our National Anthem." Mrs. Ralph Mason

and Mrs. H. V. Johns were the winners in a contest conducted to determine who could correctly write the most lines of The Star Spangled Banner.

A play, "The Enterprising Oswald," was presented by Mrs. Harold Nelson and Mrs. H. V. Johns.

During the social hour which followed, Mrs. Boggs, assisted by Mrs. Isaac Kern, served delicious refreshments. Guests present were Mrs. Dan Urschel, Mrs. Robert Molebash, Miss Nellie Christian, Miss Rozella Ford, Mrs. Harold Nelson, Mrs. H. V. Johns, Mrs. A. G. Simmons and Mrs. Ralph Mason, regent of Tippecanoe River Chapter, Bourbon.

The next meeting will be held at the home of Mrs. Rex Parker on March 25th. Mrs. Ernest Igo will be the assisting hostess.

Mr. and Mrs. Vere Kelley, of Warsaw, Mr. and Mrs. Clancey McSherry and daughter Elizabeth, Mr. and Mrs. H. V. Nellans, Dale Nellans and Miss Rozella Pahloh, of Kendallville, were Sunday dinner guests of Mr. and Mrs. Francis Kehoe.

## NEWCASTLE TOWNSHIP NEWS

Miss Bonnie Jean Hubbard spent the week end the guest of her parents, Mr. and Mrs. Roy Hubbard of near Tiosa.

James R. Good, of South Bend, spent Sunday here the guest of his parents, Mr. and Mrs. Charles Good.

Glen Minglin, of Rochester, and Mr. Fred D. Barr, of this place, are attending the Williams Oil-O-Matic school at Bloomington, Ill., this week. Both men are employed at the Eller electric store at Rochester.

Mrs. Frank Coplen and son George spent Sunday with her daughter and son-in-law, Mr. and Mrs. Harry Weng-er and family.

John Miller is recovering from a minor operation at the home of his mother, Mrs. Maude Kinsey.

Charles Miller, of Plymouth, spent Sunday here with friends.

Trustee Charley Green attended a trustee meeting at Rochester Monday.

Mr. and Mrs. Herman Haines and son of Disko, were overnight guests of the former's sisters, Misses Alice and Nora Haines.

Mr. and Mrs. Charles Good spent Sunday evening the guests of Mr. and Mrs. Lou Grove.

Miss Ruth Barr, who is confined to the home of her brother and sister-in-law, Mr. and Mrs. Fred D. Barr on account of illness, is somewhat improved at this time.

Mr. and Mrs. Wood Cox and family, of near Leiter's Ford, has moved on the Ed Felser farm, south of this place.

Miss Rosie Good, of South Bend, spent the week end here the guest

of her parents, Mr. and Mrs. Charles J. Good.

Mrs. Cora Bryant was the dinner guest of her daughter, Mrs. Ralph Hatfield.

Mr. and Mrs. Robert A. Calvert and family were Sunday dinner guests of the former's grandmother, Mrs. Cora Waltz of near Rochester.

Mrs. Frank Coplen celebrated her 77th birthday Sunday, March 2. Best wishes.

Mr. and Mrs. Shriver and family of near Akron, have moved into the Dave Swihart apartments. Mrs. Shriver is a teacher in the local grade school.

Mr. and Mrs. Charles (Hap) Emmons and family have moved from the Swihart apartments into their new home here.

Mr. and Mrs. Roy Hubbard, of Tiosa, called on her parents, Mr. and Mrs. Frank Arter Sunday evening.

Mr. and Mrs. Lou Grove and Mrs. Charles Good spent Friday afternoon in Rochester.

Glen Emmons, who has been on the sick list for some time, remains about the same.

Loren Kramer, who is employed by the Fansler Lumber Co., of Rochester, killed a fox near Kewanna while working near there.

Mrs. Jim McGuire, of Hammond, is expected to arrive in the very near future to spend a few days here with friends.

Mr. and Mrs. Ralph Chapman were Sunday dinner guests of Mr. and Mrs. Roy Hubbard.

Mr. and Mrs. Alvin Finney and family of Rochester, were recent guests of his parents, Mr. and Mrs. J. D. Finney.

Miss Helen Finney, of Indianapolis, was the week end guest of her parents, Mr. and Mrs. J. D. Finney.

## IN MEMORIAM

In loving memory of Earl who answered The Master's call two years ago March 8.

Mr. and Mrs. Ray Rush  
and Family.

## Head Space in Jar

"Head space or head room" means the air space left at top of the jar when it is filled for processing, to allow for expansion of the food as it heats.

## Cleaning Hazard

Three hundred women a year lose their lives attempting to clean clothing in gasoline. Don't use inflammable cleaning fluids near a flame or in a closed room.

## Odd Eggs

By curious adaptation, the eggs of one family of birds nesting high in the cliffs in the Faroe islands are shaped like tops. They roll around but seldom off a slightly inclined ledge.

**COUNTRY NEIGHBORS MEET**

The February meeting of the Country Neighbors' Home Economics club was held at the home of Arlene Walters with 23 members and two guests present.

The meeting was opened with the president, Dorothy Herendeen, reading a paper concerning the life of Washington. The Pledge to the flag was given. All joined in singing "America." Uda Maxwell read the history of the song of the month, "Levee Song," and the group sang the song. Roll call and a brief business session followed. A collection was taken to be donated to the Talma hot lunch program. Meeting was closed with all repeating the club collect.

The remainder of the afternoon was spent crocheting and playing bingo.

Refreshments of chicken salad, hot rolls, butter and coffee were served by the hostess and her assistant, Lavera Utter.

The March meeting will be held the 20th with Emma Zollman.

**FAIR ASSOCIATION MAKING MANY IMPROVEMENTS**

Milo Maloy, president and general manager of the Kosciusko County Fair Association, announces that a number of valuable improvements have been made, or are in the process of being accomplished, at the new grounds at Warsaw.

New construction this summer will include a \$10,000 4-H Club stock display building 54 by 204 feet and a bandstand 50 by 80 feet. A black-top road has already been completed run-

ning from the main entrance of the fairgrounds to the lake front arena.

**X-RAY COULDN'T SEE ICE ON HIGHWAY**

A county-wide program of testing all junior and senior high school students for tuberculosis was cancelled Tuesday when a state board of health panel truck was wrecked on state road 25, just east of the Palestine church, damaging X-ray equipment.

Students of Mentone, Burket and Beaver Dam schools were gathered at the Mentone school building where the tests were to be given during the morning. After the testing unit failed to arrive, school officials began checking with the county superintendent and others, but still could not verify rumors of an accident until late in the morning. The visiting students had to be returned to their respective schools.

An X-ray machine, in the hands of some experienced individuals, can look through a guy and tell whether his grandmother ever misbehaved, but the driver of this unit failed to notice a patch of ice on the highway and dumped the 1800 pounds of equipment in the ditch.

Wrecking of the unit postpones indefinitely the tests which all were anxious to have taken.

**WE'LL HAVE TO SPEND OUR MONEY FOR GROCERIES NOW**

It seems just when we find a neat way to throw our money away somebody "butts" in and spoils it. A recent edict by the Prosecuting Attorney and the sheriff's office, with the aid of other county citizens, have decreed that punchboards and pin-ball machines are "out" in our county.

Pin-ball machines all carry definite instructions that they are not for the use of gamblers and that no one under sixteen is allowed to play. However, some of the establishments would gladly furnish a stool for the little squirts too short to reach up to put his nickels in the chromium-plated one-way chute. All of them apparently made money even during the war when "C" cards were so expensive and it's a shame they have to be stored away a couple of weeks right in the "harvest" season.

"Open the door, Richard, I'm out to buy a sack of marbles."

**Reads Heart**

An electric eye device that enables medical science to detect heart disease in its early stages has been developed. Supplementing the cardiograph, it makes possible an accurate picture of heart motions.

"Keep from Between Parked Cars" is the vital safety lesson being dramatized to school children this month in 38,000 classrooms throughout Indiana and Illinois in posters being distributed by the Chicago Motor Club. The illustrations originated in the ranks of school children themselves, the posters being reproductions of prize-winning drawings that they submitted in a nationwide contest. Instruction sheets accompanying the poster aid teachers to adapt the safety lessons effectively to the needs of pupils of all ages in diversified localities.

401 Walnut,  
Springfield, Tennessee.  
March 4, 1947.

Dear Mr. Cullum:

When I lived in Mentone I was nourished by eggs; while in Obion, I was maintained largely by cotton. Now in Springfield it is tobacco, "dark-

## MENTONE REAL ESTATE

We wish to announce that we are now located in our new offices over Clark's Store, Mentone, and invite everyone interested in selling or buying Farm or City Property to call at the office or see either of us personally.

**JOE MEISER & ED STALDINE**

fired" and Burley. This morning I went to a "loose leaf" warehouse where I have a friend working and listened to the auctioneer, of the fashion of "Johnny and Morris" radio fame, auction off thousands of pounds. In about three hours \$45,000 was paid to the farmers who had brought in their money crop. The "dark fired" brings from 40 to 45c a pound. We like Springfield just fine in every way.

Sincerely,  
C. G. VINCENT.

## Public Sale!

As I am quitting farming on account of my wife's health, I will sell at public auction at farm located 7 miles southwest of Warsaw or 3 miles east and 2 miles north of Burket at west end of Yankee Street, on

**THURSDAY, MARCH 13, 1947**

SALE TO START AT 12:30 P. M.

# Egg Producers

**Question:** How long did it take to build up the present egg cars?

**Answer:** It took 30 years of hard work.

**Question:** On what basis was it built up.

A. Shipping to many firms whose competition for the eggs brought the prices up to and above the level of any other mid-west community.

Q. If the cars you ship your eggs through would be discontinued, what would happen to your egg prices?

A. They would drop better than 10c per dozen on a year round average price.

Q. Then what would happen to all your work towards betterings your pedigree, feed, grade, etc.?

A. It would not be worth anything, since the gatherers who would then get the eggs would have you at their mercy and pay for current receipts rather than for graded eggs.

Q. Is there any immediate danger of something like this happening? If so, what can be done about it?

A. Yes. If and when any outfit tries to absorb other phases of activity other than what they are supposed to. For instance, if a N. Y. receiver wishes to become trucker, car manager and shipper all in one, thereby depriving others of their means of livelihood, thus developing a monopoly and singular control over all eggs in their sphere. This can be rectified by shipping your eggs through normal competitive channels and not permitting any one outfit to get a strangle-hold on you.

Q. Does this mean that larger receivers are no good for the average farmer?

A. No. In fact, a larger receiver can distribute your eggs at a lesser cost per unit and is able to pay more for your product.

#### RED CROSS DRIVE BEGAN IN THIS COUNTY MONDAY

The Kosciusko County Chapter of the American Red Cross opened its drive for funds on March 3rd. This year the campaign is under the leadership of Grover Sims of Winona Lake. He is being assisted by Henry Clayton as Fund Publicity Chairman, and the following township chairmen:

Chas. Reeg, Clay; Mrs. Amy Knepper, Etna; Robert Reed, Franklin; Charles Hammer, Harrison; Mrs. Glen Pinkerton, Jefferson; Ed Summe, Lake; Ralph Wrigley, Monroe; Chas. Weldy, Plain; Kermit Creighton, Prairie; Mrs. Homer Ganshorn, Scott; Clarence Tilman, Seward; Mrs. Guy White,

Tippecanoe; Mrs. Helen Nsbaum, Turkey Creek; Royce Fuller, Van Buren; Mrs. T. S. Schuldt, Washington; Mrs. Walter Vance, Jackson, and Mrs. Grover Sims, Winona Lake. Owen Emerick has charge of Warsaw rural and Robert Gast Warsaw city.

The national quota for this year is sixty million dollars and the quota for this county is \$10,620.

Besides the 940 Home Service cases handled by this chapter, we shipped out last month 148 girls' dresses for foreign relief. At the present time we have three First Aid classes being trained by authorized instructors as well as two Nutrition classes and two Home Nursing classes. Last summer we issued between 500 and 600 cer-

tificates for swimming. These classes were also taught by trained Red Cross instructors.

#### WORD FROM AN OLD TIMER AT WABASH

Feb. 25, 1947  
Artley D. Cullum, Editor  
The Northern Indiana Co-Op. News,  
Mentone, Ind.

Dear Sir:

Saw in the paper names of people who were 80 or over. We have taken the paper ever since its existence and have thoroughly enjoyed it and would miss it very much if it didn't come to us. Sam was 81 years old Dec. 26, 1946. He has had a stroke which has caused him to be partially handicapped, a condition that keeps us at home over a year now. We miss going to Mentone for the activities of the place and the Co-Ops.

Sincerely,

Sam and Ida Eby,  
R. R., Wabash, Ind.

#### To Vend Milk

## THE STRANGEST THING

WHIPPOORWILL - ITS SONG GAVE THE BIRD ITS NAME. ONLY RARELY ONE IS SEEN FOR THE REASON THAT IN THE DAY TIME IT SLEEPS ON THE GROUND WHERE IT ALSO MAKES ITS NEST. ITS DULL MOTTLED PLUMAGE BLENDS WITH THE TREE LEAVES, BRUSH AND UNDERGROWTH. AT NIGHT IT SPEEDS THROUGH THE AIR IN SEARCH OF INSECTS. LENGTH 9 1/2 INCHES. SUMMERS IN CANADA AND UNITED STATES. WINTERS IN MEXICO AND CENTRAL AMERICA.

THE ELECTRIC EEL INHABITS RIVERS OF SOUTH AMERICAN COUNTRIES. ONE-FOURTH OF ITS BODY WHICH IS ABOUT FIVE FEET IN LENGTH CONSISTS OF A LARGE NUMBER OF CELLS OF ELECTRICAL PRODUCING ORGANS CAPABLE OF ENOUGH ENERGY TO STUN A MAN.

### COUNTRY NEIGHBORS HOME ECONOMICS CLUB

The February meeting of the Country Neighbors Home Economics Club was held at the home of Mrs. Russell Walters with twenty three members and two guests present.

The meeting was opened with the president, Mrs. Dorothy Herendeen, reading a paper concerning the life of Washington. The pledge to the flag was given. All joined in singing Amer-

ica, and Mrs. Uda Maxwell read the history of the song of the month, "Levee Song", followed with the group singing of that song. Roll call and a brief business session followed.

A collection was taken to be donated to the Talma Hot Lunch program. The meeting was closed with all repeating the club collect.

The remainder of the afternoon was spent in crocheting and playing games. Refreshments were served by the

hostess and her assistant, Mrs. Lavera Utter.

The next meeting will be held March 20, at the home of Mrs. Emma Zolman.

## Uncle Sam Says

Whenever I hear one of my nephews say he has bought United States Savings Bonds, I feel like nudging him and saying: "Nephew, you haven't really bought anything. That may sound strange at first, but the proof is simple. Ordinarily when you buy something you have to spend your money. What you have actually done in acquiring savings bonds is to exchange non-interest bearing notes for interest bearing ones. You have merely converted your money into a different form, a form in which it will start growing in amount. In savings bonds form your money earns \$4 for every \$3 invested in ten years.

U. S. Treasury Department

## Patriotic Quotes

Sweet Land of Liberty of thee I sing

1735

1818

NOISE! You will have noise enough... the regulars are coming!

Paul Revere

It was past midnight when Paul Revere arrived at the home of John Hancock. When a sentry warned him not to make so much noise, the above was the reply.

### BETHLEHEM BAPTIST MISSIONARY CIRCLE

Mrs. Omer Miller pleasantly entertained the Missionary Circle of the Bethlehem Baptist Church in her home Wednesday afternoon.

The meeting was opened by the president, Mrs. Charles Safford with the group singing of "Let a Little Sunshine In."

Mrs. Harley Walburn had charge of the devotionals and she led the group singing of "Tell It Again". Mrs. Harley Warren gave the prayer and roll call was answered with "sunshine readings" by eleven members and three guests, Mrs. Harold Maddux, Mrs. Jesse Burns, and Mrs. Pearl Quick.

Letters were read from the Indian School in Arizona, the Northern Baptist Convention, Dr. Dorothy Gates, missionary in West China, and Evelyn Solomon from Ipin Station, West China.

The following officers were elected at this time to serve for 1947: President, Mrs. Charles Safford, First Vice President, Mrs. Clair Jones; Second Vice President, Mrs. Victor Toby; Secretary-Treasurer and reporter, Mrs. Wendell Duzenbury; assistant, Mrs. Harley Warren; Devotional Leader, Mrs. Harley Walburn; assistant, Mrs. Colfax Highway.

The meeting was dismissed with a prayer by Mrs. Ann Leininger.

## GIRLS! DON'T TRY THIS IF YOU'RE NERVOUS

On 'CERTAIN DAYS' of The Month!

Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and 'dragged out'—at such times? Then do try Lydia E. Pinkham's Vegetable

Compound to relieve such symptoms. It's famous for the purpose! Taken regularly—Pinkham's Compound helps build up resistance against such distress. And that's the kind of product you should buy. Thousands have reported benefit! Worth trying.

Lydia E. Pinkham's VEGETABLE COMPOUND

**Singing Grasshoppers**

Prof. W. H. Pielemeier writes in the Journal of the Acoustical Society of America of a sound detector which responds to notes that human ears cannot hear. With it he made some interesting discoveries about insects. It turned out that at least three species of small meadow grasshoppers produce intense sounds of very high pitch. To sing loudly, yet inaudibly, the male meadow grasshopper has a file under the left wing and a scraper pointing upward at the inner edge of the right wing. To make a sound the insect rubs the scraper on the file.

**Drains Body Heat**

The laws of physics and the comfort of clothes you wear have a very close connection. For instance, heat flows from the warmer to the colder object. If the two objects are separated by a poor heat conductor the flow is slow and the hot object stays hotter longer. But if a good heat conductor separates them the heat flows swiftly and the hot object rapidly becomes cooler. Linen is an excellent heat conductor. Each little fiber drains heat away from the body, like countless tiny syphons draining water out of a goldfish bowl, keeping the skin comfortably cool.

**Busy Section**

With only 2.2 per cent of the nation's land area and about 6.4 per cent of the population, New England turned out more than 9 per cent of total war supplies.

**Delicate Propellers**

Each of the four 32-ton solid manganese bronze propellers of the Queen Elizabeth is so delicately balanced it can be turned by a touch of the hand.

EXPERIENCED AUTO MAN  
RETURNS TO MENTONE

DeWitt "Dude" Gates, brother of Claude Gates and a former Mentone citizen, has returned to Mentone and is now in charge of the greasing department of the Co-Op. Fleet-Wing station in Mentone.

Mr. Gates left Mentone some fifteen years ago and since that time he has been engaged exclusively in the maintenance of automobiles and trucks, with the exception of time spent in technical schools. He spent seven years in the California Douglas plant caring for their fleet of automobiles and trucks and spent four and one-half years as one of the head maintenance men in the Santa Monica police department.

Mr. Gates assures us that he will do everything possible to give the highest type of service possible to all auto and truck owners and invites everyone to come in and get acquainted again after his long visit out Hollywood-way.

### WORD FROM THE FRED SWICKS

San Jose 12, Calif.  
Feb. 24, 1947

The Northern Indiana Co-Op. News,  
Mentone, Indiana.

Dear Editor:

I have been thinking I would write to you, to tell you and our friends that we are fine. The weather is fine; it was 80 degrees today.

Today we planted some garden, such as, radishes, lettuce, spinach and peas. We have new lettuce out of the garden, but the seeds were in the ground all winter, and the lettuce is now ready for use. Many trees are blooming and they are beautiful, and the Acacia trees are wonderful to behold.

If we don't leave here pretty soon, Fred will have to have all new clothes, as it keeps us busy letting out the seams in his clothing, and they won't go much farther, so we are leaving here March 4th, and after two weeks

in Dallas, Texas, we will be "Back Home Again in Indiana."

Best wishes to all our friends,  
Mr. and Mrs. Fred Swick.

Esther and Donabelle Kehoe, of So. Bend, spent the week end with their parents, Mr. and Mrs. Francis Kehoe.

The Woman's Society of Christian Service will meet with Mrs. Don Bunner, Friday evening, Mar. 7. Mrs. Raymond Lash and Mrs. Jack VanGilder will give the lesson. All members are urged to be present.

## HOW TO STUDY THE BIBLE

(Number 5)

In studying the Bible, many people read only a few verses at a time and fail to remember a very important rule: **Study the context** (context means; those sentences which immediately precede and follow the sentence under consideration.)

For example, we can take Ps. 14:1, and see how important it is that we study the context. We might take this text from the passage: "There is no God." An infidel could take this as a text and use it to teach the very opposite from what God intended. The context says: "The fool hath said"—there is no God.

In Acts 16:31, we have a text that is used quite often by religious teachers today. "And they said, believe on the Lord Jesus Christ and thou shalt be saved." This is used to make it appear that all a person has to do is

believe. "Faith only, is a most wholesome doctrine and very full of comfort" is based on this passage and others similar to it. **What is wrong? The context has not been considered!** The context says: "And they spake unto him the word of the Lord, and to all that were in his house. And he took them the same hour of the night, and washed their stripes; and was baptized, he and all his, straightway." This throws a different light on the text, and makes it agree with Christ's words, "He that believeth and is baptized shall be saved; but he that believeth not shall be damned." Faith or belief was the first thing required, but the context shows that baptism was demanded also.

Let us not forget to consider the context when studying, in order to be sure we get the true and real meaning of the Bible.

WELCOME TO THE CHURCH OF CHRIST

#### Harrison Center

Sunday School 9:30.

(News from the National Rifle Ass'n.)

"Federal or state gun registration laws will cure no evils. They will just tend to further hamstring law-abiding sportsmen and increase activity in the gun black market." That's the opinion of C. B. Lister, executive director of the National Rifle Association and noted advisor to legislators on firearms matters.

Mr. Lister, who is perhaps the best informed man on gun legislation in the country, can't go along with the "small, uninformed group of men" who are agitating for more firearms legislation because of the "unprecedented number of guns" we have within our borders today. On the contrary, he believes there are less weapons in private hands at this time than before the war.

To back up his argument, Mr. Lister brings out the following facts: (1) Gun manufacturers during the war stopped making all guns for public sale; (2) During the same period, the government bought up thousands of weapons from private individuals to arm internal security forces; (3) After Dunkirk the British bought thousands

more to re-equip their armed forces after the beach debacle; (4) A good many rifles and pistols that did stay in private hands were written off by ordinary attrition, broken parts, etc.

Mr. Lister readily admits that returning soldiers did get unauthorized weapons into the country, but with the thorough inspections made at embarkation points, the number may not be as large as some authorities indicate.

Then, Mr. Lister asks, "Why all this agitation for gun legislation? From experience we know that criminals won't register their weapons. New York State's Sullivan law is a good example. Its passage did not lower the crime rate in the state to any appreciable extent according to the records. All the "Empire" state succeeded in doing was hamper its law-abiding citizens and take away their constitutional right to carry arms. The law was highly successful only in giving impetus to a handgun black market."

Mr. Lister has followed closely gun legislation for the last twenty-five years, has himself helped write such laws as the Federal Firearms Act and has been consulted on several of the

existing state laws.

Your editor has always maintained that any restrictions placed upon the law-abiding citizen relative to the free use and ownership of firearms is just a means of making life safer for the criminal class. Any half-way mechanic can take a few pieces of junk iron and pipe and construct a "gun" capable of killing a person in one evening's work.

The second article in the Bill of Rights, the fundamental base of our Constitution, states that this right to bear and possess arms shall not be infringed upon.

The atrocious crimes of the past

few months lead one to believe that the use of firearms should be properly taught to every man, woman and child.

**IN MEMORIAM**

In loving memory of our Darling, Ahmy J. Foor, who passed away, one year ago March 6.

Do not ask if we miss her,  
No one else can fill her place,  
Oft we think we hear her footsteps,  
Or see her smiling face.  
Some may think the wound has healed,

But they little know the sorrow that  
is in our hearts concealed.

# PROGRAM

## WEDNESDAY, MARCH 12 — 10:00 A. M.

Quality Egg School, Joe Clark, Chairman. (By ticket only.  
Contact your hatcheryman or egg car manager.)

Instructors: Allen Barr, Purdue; Joe Sicer, Purdue; K.  
L. Goss, U. S. Dept. of Agriculture.

Mr. Barr is Assistant Federal State Supervisor; Mr. Goss is  
Regional Supervisor, Production and Marketing Administration,  
of the Inspection and Grading Division, Chicago, and  
has charge of the egg quality and egg marketing program  
of the U. S. D. A. for eight mid-western states. Mr. Sicer is  
poultry extension specialist at Purdue and for nineteen years  
operated his own poultry farm in Clark county where he  
brooded about 30,000 broilers annually in addition to trap-  
nesting of R. O. P. breeders.

## 12:00 — NOON

Lunch by Kosciusko County Home Economics Clubs. (By  
ticket only. Contact your hatcheryman or egg car manager.)

## Menu:

Little Crow Pancakes.  
Eggs supplied by Everett Long, Mentone Produce Co.  
Bacon  
Staley's Syrup  
Litchfield Creamery Butter  
Coffee and Cream.

## 1:15 P. M.

Home Economics Demonstrations, Janalyce Rouls, Chairman.  
Repeat demonstrations from 1946 Egg Show:

"Jelly Slices," Mrs. Jessie Fisher, Silver Lake.  
"Planked Eggs," Mrs. Carol McSherry and Mrs. Pauline  
Goshert, Burket.

Music—Mentone High School.

Commercial Demonstrator on Preparing Egg Dishes.

Door Prizes Drawn.

## 7:30 P. M.

Forrest Kesler, Chairman.

Major Petrie and His Sextette, a very talented group of en-  
tertainers.

"Formation of An Egg," colored movie.

This was prepared in 1939 for the Seventh World's Poultry Congress,  
and gives the process of egg formation in the living, anesthetized hen.  
Thru ovulations are shown, followed by various steps of passage of  
the egg through the oviduct. At various points in the passage the  
removed oviduct is opened showing the condition of the forming egg.

Selection of Egg Show Queen.

## THURSDAY, MARCH 13 — 10:00 A. M.

Egg Quality School Continued. Cliff Breeden, Chairman.

## 12:00 NOON

Lunch by Kosciusko County Home Economics Clubs. (By  
ticket only. Contact your hatcheryman or egg car manager.)

## 1:15 P. M.

Repeat Demonstrations from 1946 Egg Show:

"Egg Apples," Mrs. Sherman Deaton, Syracuse.

"Noodle Nests," Mrs. Betty Frederick, Leesburg.

Extension Food Specialist of Purdue, demonstrating:

"Roasting a Chicken" and "Carving a Fowl."

Music—Mentone High School.

Door Prizes Drawn.

Packaging, Casing, Shipping, Handling Forum, Joe Clark, chr.  
Joe Kinghorne, assistant to Chief of Poultry Branch, Pro-  
duction and Marketing Adm., U. S. Dept. of Agriculture.

K. L. Goss, U.S.D.A.

Allen Barr, Purdue.

Max Herschberg, of the Northern Indiana Egg Receivers &  
Distributors Association, New York.

## 7:30 P. M.

Russell Shipley, Chairman.

Jack Kurkowski and his Xylophone Band. Sixteen members of  
high school and junior college age who have been highly  
applauded at many of the nearby shows.

Dr. Earl Butz, head of the Purdue Farm Economics Dept.

Joe Gams, "Your Eggs in New York."

## FRIDAY, MARCH 14 — 1:00 P. M.

Forum of Producers, Egg Buyers, Shippers, and Car Managers.  
Joe Clark, chairman.

## 3:30 P. M.

Tour of the Industry. Reception Committee.

## 7:00 P. M. — BANQUET

Charles Manwaring, Chairman

Hobart Creighton, State Representative, Toastmaster

Wayne Guthrie, Indianapolis News Correspondent, will give  
his talk on the "Bikini Atom Bomb Test."

Mr. Guthrie was one of those given an invitation to witness the bomb  
tests at Bikini Atoll, and was one of the few to view both the air blast  
and the underwater test. Audiences who have heard him speak very  
highly of the feature.

Dinner Music — Three Hits and a Miss.

A group of talented musicians who have appeared on many occasions  
in this part of Indiana.

Crowning of 1947 Egg Queen by L. A. "Tiny" Wilhelm,  
supervisor Indiana National Poultry Improvement Plan, of  
Purdue.

'Absolute Power  
Corrupts Absolutely'  
—Lord Acton.

PUBLISHED EVERY WEDNESDAY BY THE NORTHERN INDIANA CO-OPERATIVE ASS'N. OFFICE OF PUBLICATION, WEST MAIN STREET, MENTONE, INDIANA  
Entered as second-class matter November 18, 1936, at the post office at Mentone, Indiana, under the Act of March 3, 1879

Volume 16, Number 39

Mentone, Ind., Mar. 12, 1947

Subscription—\$1.50 Per Year

## 1947 SHOW STARTS OFF IN GOOD SHAPE

The Mentone Egg Show opened on Wednesday with considerable enthusiasm and within a short while it was evident that this year's show was going to be one of the best ever held.

The egg quality school had a total of 88 interested individuals and they remained for the entire session.

The Home Economics ladies were mighty pleased with the large number of exhibits in the egg plate and egg salad displays.

Chairman Fred Beeson, of the egg contest and exhibit, found the entries crowding his exhibit tables. Twice during the day additional exhibit tables had to be built and the day ended with the following entries: Five in class 1, four in class 2; 18 in class 3; ten in class 4; three in class 5; fifty-six in class 6; twenty-nine in class 7; thirty-three in class 8, and eleven in class 9.

The ladies had a good attendance at their noon luncheon of pancakes, eggs, bacon, coffee, etc., and they will undoubtedly have a bigger turnout on Thursday.

There was a full house at the evening program when Major Petrie and his musicians gave a splendid performance.

Thursday's program is even more inviting than the opening day.

### Many Out of Town Guests.

The officials of the Egg Show are mighty pleased this year for the fine interest shown by visitors from a distance. The New York receivers on hand for the opening day far outnumbered those for the entire show last year and late reports are that many more are on their way here.

### LEGION AUXILIARY MEETS

The regular meeting of the Ladies Auxiliary was well attended Tuesday evening at the Legion Home.

After the business meeting plans were made and committees appointed by the president, Nettie Ernsberger for a bingo party that will be held at the City Hall Saturday evening, March 22, starting at 7:30.

There will be many worthwhile prizes and sandwiches, coffee and pop will be sold.

The bingo party will be open to the public. Come and bring your family and friends.

## QUEEN OF MENTONE EGG SHOW

MISS PHYLLIS LATTA

Miss Phyllis Latta, representing the egg shippers of Warsaw, was chosen Wednesday evening as the Queen of the 1947 Egg Show.

Miss Latta was competing with Miss Elaine Youdbulls of Plymouth, Miss Babe Rogers of Mentone, Miss Carolyn Slack of North Manchester and Miss Gloria Jean Woods of Burket. Miss Babe Rogers and Miss Latta

were first chosen by the judges as the two high contenders for the coveted crown, with Miss Latta winning in the final selection.

The queen, surrounded by her four unsuccessful contenders as maids of honor, will be officially crowned at the program Friday evening.

The egg car at Warsaw is managed by Sam Lowman.

### CLUB CALENDAR

Business Men's meeting Monday, March 17, 8 p. m.

The Home Economics Club Wednesday afternoon, March 19 at the home of Mrs. E. C. Ralston.

### MENTONE HASN'T EVER

#### NAMED EGG SHOW QUEEN

Mentone, the host city to the egg show, has never had one of its candidates selected as queen. We came close this year, however,

## "RINGSIDE AT BIKINI" ON FRIDAY EVENING

"Ringside at Bikini" is the title of the address to be given by Wayne Guthrie, city editor of the Indianapolis News, at the Egg Show program on Friday evening. Mr. Guthrie is one of the few reporters that witnessed both the atomic bomb test explosions at Bikini Atoll, and one would expect that he will be able to bring us a picture of the destructive force of the bomb that is more powerful than the human mind can conceive.

There have been many who have heard Mr. Guthrie and all have commented that his address is mighty interesting.

### All Are Invited

The address will be a feature of the Friday evening program following the banquet. There wasn't seating capacity for more than 400 at the banquet tables, but there will be several hundred bleacher seats available for those who want to enjoy the program, and a cordial invitation is extended to everyone to attend. The program is free in every respect.

### PRESENTING PLAY

The Beaver Dam P. T. A. is presenting a play, "Grandpa's Twin Sister," on next Tuesday evening, March 18, at the Beaver Dam school gym, 7:30.

Our Beaver Dam neighbors have earned a fine reputation for themselves whether it's "putting on" plays or suppers, and many will want to see this performance next Tuesday evening.

An advertisement appears elsewhere in this issue.

### DOOR PRIZE WINNERS AT EGG QUALITY SCHOOL

The following won the door prizes at the egg quality school Wednesday: Ed See, Warsaw; Don Baker, Mentone; Mrs. Ralph Lotter, Hamlet; Jay Linderman, R. 6, South Bend; Clarence Cotey, Mentone, and Frank Pfahler, R. 5, Warsaw, won egg baskets and water fountains, while David Rockey, R. 1, Peru; Ralph Wilson, Lakeville, and J. R. Bevelheimer, Mentone, won egg graders.

### NATIONAL RIFLE NEWS

For the first time in ten years, the firearms industry has something new to offer—one brand-new rifle model and two handgun models. In two articles by Stuart Ludlum and Major General Julian S. Hatcher, noted small-arms authorities, the March issue of **THE AMERICAN RIFLEMAN** tells gun lovers all about them.

Stuart Ludlum in his story, "Lock, Stock and barrel," writes about the three riflesmiths who, in a small upstairs shop in New Haven, Connecticut, are manufacturing twelve new Morgan-Johnson small-bore rifles that will be tested on the target ranges of this country next summer. Barrelmaker Eric Johnson, Stockmaker John Crowley and Arms Mechanic Ray Johnson, who has developed an interesting new bolt action with something unusual in trigger mechanisms,

have combined their talents on the new weapon. Ludlum gives you the historical development of the gun and speculates upon the excellent performance you may expect from the rifle when it is finally fired.

General Hatcher writes of the new Smith and Wesson K-22/46 Masterpiece and the Colt Match Target Autoloading pistol in his "New Models of Handgun Favorites." The General has fired both models. He pulls both weapons apart in his article and tells you of their unexcelled performance.

Talking about the S & W new model, he says, "The new gun is a beautiful example of the gunmakers' art. Surprisingly enough, it is really a great improvement over the prewar K-22. 'Surprisingly,' I say, because the old K-22 was itself such a fine gun that it would seem at first glance that it would be most difficult to make any improvements."

## OUTDOOR Notes

By Joe Austell Small

### Whale Eyes

The eyes of a whale are set far back and look in opposite directions. They cannot be moved to look straight ahead or behind. If Mr. Heapbigfish wants to see what's on the horizon, he must stand up in the water and slowly turn around.

### Short Snorts

The national bird of Guatemala is the quetzal. It was chosen because it is a bird of freedom . . . it will die in captivity, retaining the beautiful color of its plumage even after death.

Very young mussels, called glochidia, attach themselves to birds' feet and feathers and thus get a free ride to other waters.

Unlike other members of the deer tribe, both sexes of the Barren Ground

caribou have horns, although the horns of the female are shorter than the male's.

Each common toad is said to be worth at least \$7.50 annually to farmers because of the harmful insects it eats.

\*\*\*\*\*

### Small Statement

Opossums are not very well developed when born. Some idea of their size at this stage is indicated by the fact that an ordinary teaspoon will accommodate a litter of 18 newborn babes with a little room to spare. Those who may doubt the authenticity of this statement, and it has been questioned in the past, might look through some old files of Nature Magazine wherein there appeared just such a picture in its August, 1930 issue, showing a teaspoon containing 18 tiny 'possums.

### Modern Sampson

The flea is so tiny that hundreds of them could be placed on a quarter at one time. Yet they can jump three or four feet in a single leap.

A man, if given the same strength

in proportion to his size, could jump six miles.

The flea can lift one hundred and forty times his own weight. This means that a man, in proportion, could easily lift a ten-ton truck.

The average life of a flea is only six months, yet it can be taught to do all kinds of complicated tricks. Some have been taught to juggle, pull tiny wagons, dance, or even kick a tiny ball.

\*\*\*\*\*

### "Twilight Sleep"

Use of ether had proved so effective in simplifying the work of fin-clipping trout that workers, as an experiment, applied the same practice while stripping eggs from rainbow trout. Almost a million eggs were taken from etherized trout in half the time usually required. In addition, the percentage of "delivered" eggs that "eyed up" nearly doubled.

**TIPPECANOE HOME  
ECONOMICS CLUB MEETS**

The Tippecanoe Home Economics club met in the home of Mrs. Robert Rhodes Wednesday afternoon, March 5, with Mrs. Wilma Spacht, Lulu Ritter and Bertha Moriarty as co-hostesses.

The meeting was under the direction of Mrs. Shirley Apple, president. Verses 97 to 112 of Psalms 119 were read responsively. Hymn study was given by Mrs. Ethel Kannard, "I Belong to the King." Roll call was responded to by "Sayings of Great Men on the Greatest Book." Hostess verse was read by the hostess, "Be careful how you live; you may be the only Bible some people will ever read." History of the English Bible was given by Orpha Phebus. "Glamorous women of the Bible," was given by Dora Goodman. Eva Severns gave, "Living Above the Weather," an article taken from the Christian Advocate. A bible contest

was conducted by Clista Huffman. The meeting closed by all repeating Mrs. Maude Hutchinson won the prize. the Lord's Prayer.

The hostess and her committee served delicious refreshments.

**SIZE IS IMPORTANT!****When You Choose Your Electric  
Water Heater... Be Sure to  
Select One Large Enough!**

It is important to select an Electric Water Heater large enough for all your household needs so that you'll have a plentiful supply of hot water at all times and so that you can buy your electricity at night on the special low electric rate. No home is modern without abundant hot water, instantly available at the turn of a faucet. That is why you need an Electric Water Heater.

CLYDE WARD, Local Representative.

or both, he said.

Metal shortages during the war caused suspension of the two tag requirement from 1943 through last year. Only exceptions to the law are motorcycles, trailers, semi-trailers, house cars, farm tractors and special farm machinery, all of which must display a single plate.

More than 30 percent of 144 statewide traffic fatalities reported during January and February were due to railway crossing tragedies, Col. Robert Rossow, state police superintendent, revealed last Wednesday.

An unusually high incidence of motor vehicle-train accidents claimed 44 lives during the period, moving grade crossing crashes into first place in an accident type breakdown. Collisions of motor vehicles and auto-pedestrian accidents, which normally rank first and second, were responsible for 38 deaths each in the two-month period.

Of the 995 traffic victims in 1946, ★ Save Money—Buy Cooperatively

a total of 120 died in auto-train accidents, a comparison showed. Thirty-two were killed in January and February.

Colonel Rossow blamed the toll in part on the "failure of drivers to appreciate grade crossing hazards."

## IN MEMORIAM

**Mr. and Mrs. Alva Bowser**

In loving memory of our dear father who died two years ago, March 12, 1945, and our loving mother who died eight years ago on April 9, 1939.

The depths of sorrow we cannot tell,  
Of the loss of them we loved so well,  
And while they sleep a peaceful sleep,  
Their memory we shall always keep.

THEIR EIGHT CHILDREN,

Goldie, Edd, Tressa, Hazel, Pearl,  
John, Respan and Buthene.

## FULFILL HIS DREAMS

Children dream of the future — of going to college — of getting their chosen start in life. A savings account here — in the child's name — can help those dreams become a reality. Start it for him — let him add to it. Open that account today.

## FARMERS ARE GETTING CHICK AIR MINDED

—Cox Photo

On February 25, 1947, Stanley Davis, WWII Glider Pilot who now has the Davis Flying Service, Lake Village, Indiana, flew his light Aeronca Champion plane to the Manwaring Leghorn Farm, Mentone, landing on a half-mile landing strip located right on the Manwaring Farms and picked up 1,000 baby chicks for his neighbor, Mr. Russell Gavit.

Mr. Davis later wrote that the weather was rough and snowy going home, but that the chicks traveled comfortably in his warm plane. The chicks arrived with all

alive and well and by the next day there had been but one casualty—one little fellow drowned in a drinker.

While Pilot Davis was visiting with the Manwarings, he learned that Miles Manwaring had also been a glider pilot in the war and that both of them, unknowns to the other, had flown gliders into the Holland invasion. It's a small world today!

The plane that is visible in the Manwaring hanger is a Piper Super Cruiser, owned by the Manwaring Leghorn Farms and operated from the half-mile landing strip constructed last summer.

# FRANCES DIANA LYNCH DIES AT LOGANSFORT

Services for Frances Diana Lynch, 23, Rochester resident, who died at 11:35 a. m. Friday in the Cass county hospital, were held Sunday at 2 p. m. in the Zimmerman Bros. Funeral home at Rochester. Dr. C. T. Howell, Pastor of the First Presbyterian church, officiated and burial was made in the Rochester I. O. O. F. Cemetery.

Miss Lynch, whose home was at 730 Indiana Avenue, Rochester, had been ill for a week. Born February 21, 1924, she was the daughter of Beverly B. and Bessie Driscoll Lynch, and was preceded in death by her father.

Surviving besides the mother are five sisters: Anna, Beverly, Irene and Shirley, of Rochester, and Mrs. Katherine Rupp, of Logansport; one brother, Harold Lynch, of Rochester; Two half sisters, Mrs. Dorothy Hensley, of Indianapolis, and Mrs. Laura Bennett, of Camden, and one half brother, Charles Irvin, of Rochester.

The Lynch family were former residents of Newcastle township.

—Newcastle reporter

## W. S. C. S.

The Woman's Society of Christian Service met in the home of Mrs. Don Bunner on Friday evening, March 7. She was assisted by Mrs. Glen Snider, Mrs. Orville Vandermark, Mrs. Wade Whetstone, Mrs. Roy Salzman and Mrs. Dave Ellsworth.

The business session was conducted by the president, Mrs. Miles Manwaring. The following program was presented: Devotions was given by Mrs. Dora Goodman, her subject being, "Thou Art Our Father." Mrs. Raymond Lash gave a talk on "The man with the wooden plow and his church in India."

Mrs. Jack VanGilder gave a lesson on Indian, her subject being, "Labor and Industry in India."

During the social hour the hostess and her assistants served ice cream and cake.

The society adjourned to meet on April 4 at the home of Mrs. Curtis Nellans.

# FULTON COUNTY MEN ATTEND PURDUE SHORT COURSE

Five men from Fulton county: Don A. Baker, of Mentone; Omer R. Shoemaker, Joseph D. Whittenberger, and Ralph R. Pratt, all of Akron; and Herschel E. Snyder, of Rochester, were among a class of 170 to receive certificates at the annual closing exercises of the Eight-weeks Winter Short Course in agriculture held last Friday morning in Agricultural Hall at Purdue University. Dr. F. L. Hovde, president of Purdue, awarded the certificates and gave a short address.

Shoemaker and Pratt, who received certificates in General Agriculture, also graduated with honor. Baker and Whittenberger also received certificates in General Agriculture, while Snyder received a certificate in Dairy Production.

## Blinded in War

Fifteen hundred American servicemen lost their sight during World War II.

# WARN OAT GROWERS ABOUT NEW BLIGHT

Indiana oat growers should be prepared to adopt control measures for the new Victoria blight disease of oats, Dr. Ralph M. Caldwell, head of the department of botany and plant pathology, Purdue University, warns.

This new disease caused losses in several counties in 1946 and unless steps are taken to prevent the recurrence, it is likely to become a wide spread and serious problem in 1947. Dr. Caldwell declared. The Victoria blight disease occurs on varieties of the Victoria-Richland parentage, such as Tama and Vicland, but does not cause losses to resistant oats as the new Benton and Clinton varieties and older Columbia and Cartier varieties.

The treatment recommended is the use of New Improved Ceresan, which will reduce the danger of losses occurring on oats varieties such as Tama and Vicland. Seed must be treated at least 24 hours before seeding, using the New Improved Ceresan at the rate of one-half ounce to the bushel of seed.

The operator should not inhale the dust as it is poisonous. Therefore, it is better to treat the seed at least two weeks before seeding time, with only one-fourth ounce of the Ceresan. This lesser amount will greatly reduce the chemical dust in the air.

The disease which was recently named "Victoria Blight", is caused by the fungus known as Helminthosporium. It causes damage by destroying oat seedlings shortly after they emerge. It also causes stunting and

lodging of the plant at harvest time. Stems of the infected plants appear black at the nodes and are very easily broken.

Dr. Caldwell urges oat growers to contact their county agricultural agents for detailed information on this new oats disease and how to prevent it.

# SELECT NOW VEGETABLE VARIETIES TO FREEZE

Many homemakers are continually asking for the best varieties of vegetables suitable for freezing according to Miss Lois Oberhelman, extension nutrition specialist, Purdue University.

With an increasing number of families using the home freezer or community lockers for preserving a large portion of vegetables it is important that the best varieties for freezing be selected.

"A favorite variety of vegetable the homemaker may have used for canning may not necessarily be best for freezing," Miss Oberhelman added.

Green beans, peas and sweet corn are the principal vegetables frozen by

homemakers. Suggested varieties of green beans for freezing are Stringless Green Pod, Late Refugee, Full Measure, Round Pod Kidney, Pencil Pod Black Wax and Kentucky Wonder.

Good varieties of peas include Laxtonian, Laxton's Progress, Thomas Laxton, Stratagem, and World's Record.

Varieties of sweet corn suggested for freezing purposes are Golden Cross, Bantam, Country Gentleman and Stowells Evergreen.

Information concerning other vegetables which have proved successful for freezing are found in Extension Bulletin 308, Freezing Farm Foods, and a copy may be secured by writing Home Economics Extension, Purdue University, West Lafayette, Indiana.

Dave Johns and Eddie Creighton were in Indianapolis over the week end where they served as pages in the state legislature. The week previous Martha Creighton and Connie Joe Anglin acted in the same capacity.

THE NORTHERN INDIANA CO-OP. NEWS

NEWCASTLE  
TOWNSHIP NEWS

There were 81 in attendance at the

Talma Methodist church on Sunday, March 9.

Mrs. Glen Niglin, of Rochester, and Fred D. Barr, of this place, have returned to their homes after spending the past week in Bloomington, Ill.,

where they attended the Williams Oil-O-Matic school. Both men are employed at the Eiler electric store in Rochester.

Mr. and Mrs. Dean Meyer, of Rochester, called on Mr. and Mrs. Ralph

Chapman Friday evening.

Mrs. Frank Coplen and Mrs. Bill Coplen and family spent Saturday forenoon in Rochester.

Mr. and Mrs. H. E. Imler, of Logansport, spent the week end here, the guests of Mr. and Mrs. Lou Grove.

Mr. and Mrs. O. C. Montgomery and Lavoy spent Saturday evening in Rochester.

Charley Coplen was removed to the Woodlawn hospital Saturday. Mr. Coplen's condition is reported to be very serious.

Harold Myers, of Purdue, spent the week end here, the guest of his wife and family.

The members of the Talma basketball team went to South Bend Saturday where they attended the basketball tourney.

Mr. and Mrs. Tully Coplen, of Iowa have been called to the bedside of Mr. Coplen's father, Charley Coplen.

On Friday evening, March 14, at 8 p. m., the Junior class of the Talma high school will present two one-act plays.

Mr. and Mrs. Lou Grove entertained at supper Sunday evening the following guests: Mr. and Mrs. H. E. Imler, of Logansport, Mr. and Mrs. Ernest Bryant, of Rochester, and Mr. and Mrs. Verde Brockey.

Mrs. Charles Good spent the week end in Warren, the guest of her mother, Mrs. Odie Trusler.

Mr. and Mrs. Fred D. Barr, Mr. and Mrs. Charles (Hap) Emmons and family and Mr. and Mrs. Frank Arter enjoyed a pot luck supper Saturday evening in the home of Mr. and Mrs. Roy Hubbard, of Tiosa.

Mr. and Mrs. Harry Wenger and family were the Sunday dinner guests of her mother, Mrs. Frank Coplen.

Mr. and Mrs. Lou Grove and Mr. and Mrs. Charles Good attended the basketball game at Richland Center, Monday evening.

Miss Mary Louise Green, who has been on the sick list, is somewhat improved and is able to sit up part time.

Mrs. Mary Jane McIntyre and son, of Plymouth, spent the week end here, the guest of her sister, Mrs. Calvin Green.

Mr. and Mrs. Robert Calvert and family attended the special church services at Fosters Chapel, Sunday evening.

Ronnie and Miss Carol Sue Utter were Sunday dinner guests of Rolland and Roberta Calvert.

Wilburt Utter made a business trip to Indianapolis, Thursday.

Mr. and Mrs. C. M. Walker and son, Lonnie, of Indianapolis, will arrive in the near future to spend some time at their home here.

Miss Ruth Barr is still improving at the home of her brother, Fred D. Barr.

Mrs. Harry Wenger and family called on Mrs. O. C. Montgomery, Sunday forenoon.

**COACH BEVINGTON MAKES HEADLINES IN THE DAILIES**

Coach R. H. Bevington, of Mentone, was the topic of a two column feature article in the Fort Wayne News-Sentinel one day this week. The article was written explaining some of Mr. Bevington's views on how basketball tournament play—and regular games as well—could be improved by classifying the teams according to the size of the school.

Mr. Bevington rightfully claims that the smaller schools are penalized in tournament play in that they lack the necessary reserves to play a number of games in a matter of a day or two without being overcome by fatigue. His plan would permit the schools to

play in their own classes until the final game or two in the state championship tourney.

**MENTONE JUNIORS WIN TOURNNEY HELD HERE**

The Mentone Junior Hi team emerged victorious in the tourney held here on Monday and Tuesday evenings. Mentone defeated Burket and Etna Green triumphed over Atwood Monday evening. Tuesday evening Mentone scored 31 points while Etna Green was gathering in 23. They will play in the semi-finals at Warsaw next week.

Mr. and Mrs. Ronald Phillips and family have moved into the new apartments over Peterson's store.

**NEWCASTLE BETTER HOMES CLUB MET THURSDAY**

The Better Homes club met Thursday in the home of Mrs. Fred King. The meeting was opened by singing, "Believe Me If All Those Endearing Young Charms." The history of the song of the month was given by Mrs. George Fryer. Mrs. Omer Miller offered prayer.

The secretary's report was read and approved and roll call was answered by "Irish Jokes."

Mrs. Victor Tobey gave the lesson

on "Dying Materials for Rug Making" and it was decided to make donations to the Red Cross and the U. S. O.

An auction was a feature of the afternoon. Mrs. Gaston Coplen was the auctioneer.

Delicious refreshments were served sixteen members, three guests, and seven children.

—Newcastle reporter

**WORTHWHILE CLASS PARTY**

The members of the Worthwhile class of the Talma Methodist church

will meet in the church basement on Tuesday evening, March 18, for their regular class social.

The meeting will be in charge of the president, Mrs. Lester White. There will be a short devotional service and a business meeting. All members are urged to be present. The refreshment committee will be: Mrs. Raymond Bowers, Mrs. Wilburt Utter and Mrs. Robert Calvert. The entertainment committee: Thurl Alber and Dale Peterson.

—Newcastle reporter

**AKRON SCHOOL SUFFERS \$1,000 FIRE SUNDAY**

Quick action on the part of the Akron Fire Department saved the Akron high school building from suffering heavy loss in a blaze reported at 6:40 a. m. Sunday.

Con Singpiel discovered the fire which apparently had started in the boiler room and had worked its way to the roof of the building. A hole approximately 30 feet long and 6 feet wide was burned before the firefighters could check the advance of the blaze.

All the windows in the building were either cracked or broken. A fire proof door kept the blaze from spreading from the boiler room to the class rooms. Fire Chief A. H. Caldwell said the cause of the fire was probably defective wiring or a defective flue. The estimated loss of \$1,000 was fully covered by insurance.

—Newcastle reporter

**TALMA METHODIST W. S. C. S.**

The members of the Talma Methodist church met Wednesday afternoon at the home of Mrs. Ann Staldine.

Devotions were given by Mrs. Virginia White, assisted by Mrs. Ann Staldine, Mrs. Eldora Calvert and Mrs. Ota Dick. "The Children and Their Church," was presented by Mrs. Lavon Mikesell. A chapter from the study book was given by Mrs. Olive Wenger. Mrs. White closed the meeting with prayer. There were sixteen members and three guests present.

## METHODIST CHURCH

Mentone, Ind.

Rev. A. G. Simmons, Pastor  
Elizabeth Blue, Church Secretary  
D. L. Bunner, Church Treasurer

Promptness and faithfulness will  
bring success.

Morning Worship, 10:30. Subject:  
"The Garments of Responsibility."  
Junior church at this hour in charge  
of Mrs. Simmons.  
Sunday School 11:00.  
Raymond Lash, Superintendent.  
Classes for all ages.  
Youth Fellowship 6:30.  
The Fourth Quarterly Conference  
will be held Tuesday at 7:30. Dr. Yeomans  
will be in charge.  
Prayer Meeting Thursday 7:30.  
Bring your guests, friends and neighbors  
to all these services where a hearty  
welcome awaits you.

So the Lord has a job for you! Paul  
Laurence Dunbar says it this way:  
"The Lord had a job for me,  
But I had so much to do  
I said, 'You'll have to get someone  
else  
Or wait 'till I get through.'  
I never heard how the Lord made  
out.

He seemed to get along.  
But I feel kind of sneakin' like;  
I knew I'd done Him wrong.  
"One day I needed the Lord  
And needed Him right away!  
But He never answered me at all  
And I could hear Him say  
Deep down in my accusin' heart,  
'I've got too much to do.  
You'll have to get someone else  
or Wait 'till I get through!'  
"Now when the Lord has a job for me  
I never tries to shirk.  
I drops whatever I has in hand  
And does the good Lord's work!  
My affairs can run along  
Or wait 'till I get through.  
'Cause no one else can do a job  
That God's marked out for you!"

TIPPECANOE METHODIST CHURCH  
A. G. Simmons, Minister

Sunday School 10:00.  
Prayer meeting every other Friday  
night.

## HOW TO STUDY THE BIBLE

(Number 6)

"Study to show thyself approved unto God, a workman  
that needeth not to be ashamed, rightly dividing the word  
of truth." II Tim. 2:15.

"Rightly dividing the word of  
truth" is of absolute importance.  
To go indiscriminately to the Old  
and New Testaments for laws  
and ordinances would only con-  
fuse and deceive us.

The law of Moses was given  
to the Jews only—not a Gen-  
tile was present. The law was  
given at a special time, to a  
special people, for a special rea-  
son, and for a limited time—  
not to last beyond the coming  
of the promised seed, which seed  
is Christ (Gal. 3:15). All this is  
true of the ten commandments  
and the whole law of Moses.  
Paul, in Col. 2:14, says: "Blot-  
ting out the handwriting of or-  
dinances that was against us,  
which was contrary to us, and  
took it out of the way, nailing it  
to his cross." If we desired to  
make Jews, we would preach  
Moses and the law as given in

the Old Testament. If we would  
make Christians, we must preach  
Christ and the law of Christ  
as given in the New Testament!

The New Testament natu-  
rally divides into four divisions.

1. The four Gospels picture  
for us a "Savior who is Christ  
the Lord."

2. The book of Acts tells of  
the Church set up by Christ  
through the Apostles. If we  
would learn what to do to be-  
come Christians, we must go to  
Acts.

3. The following 21 books  
were written to Christians and  
Churches. If we would learn how  
to live as Christians, we must  
go to the letters addressed to  
them.

4. The last book is a book of  
prophecy full of "strong meat"  
for the full-grown in Christ.

WELCOME TO THE CHURCH OF CHRIST

Preaching the second and fourth  
Sundays of each month.

All Methodists and others interested  
are urged to be present at all services  
where a hearty welcome awaits you.

### Food Preparation

Of total food consumed in the  
United States, three-fourths is pre-  
pared by housewives in 40 million  
kitchens; one-fourth in restaurants,  
hotels and institutions.

### TIPPECANOE CONGREGATIONAL CHRISTIAN CHURCH

Rev. John K. Arnot, Pastor

Sunday School, 9:30 a. m., Orville  
Eizinger, Superintendent.

Morning worship, 10:30.

You are invited to these services.

★ Today good will may starve to  
death. Keep it alive with customer  
courtesy and careful advertising.

**HEALTH FACTS FROM YOUR  
STATE BOARD OF HEALTH****Fake Remedies**

Drugs, remedies or devices that are claimed by their manufacturers or vendors to have magic properties sure to cure most human ills come upon the market every year. Many of them are valueless; many are definitely harmful.

The exaggerated claims for such products follow a cut and dried formula. They are claimed to be a secret discovery. The discovery, it is said, is based on a new science or a new development in a known science. The discovery will not only cure one ailment; it will cure several. Usually the ailments are those which reputable physicians declare to be incurable. And finally, the medical profession is falsely accused of wanting to get its hands on the discovery and suppress it because if it becomes popularly known it will interfere with its business.

These secret cures may consist of almost anything, a magic salve, colored lights, powders, pills, mechanical devices and what not.

Many people are victimized by the sellers of such products. Thousands of

sufferers from such chronic diseases as diabetes, arthritis, high blood pressure, etc., after having been told by a reputable physician that no certain cure for their ailment exists, become easy victims of quackery. Some of them discontinue authoritatively recommended treatment in favor of these "short cuts to health." Often the result is disastrous.

Bona fide drugs and medicines are tested hundreds of times in laboratories until their worth is proven. When it has been proved that they are of value, they are made available by reputable laboratories to physicians and hospitals as quickly as they can be produced in quantity. Medical products which have stood up under tests in recognized laboratories are the only safe ones. Physicians know what these are and they know how they should be prescribed.

Anyone offered magic cures should consult his physician before buying.

**TWO MINUTES EVERY HOUR**

Two minutes out of every hour may be the difference between life and death.

This was the gist of a warning to

motorists by the state highway commission today which emphasized the dangers from carbon monoxide gas on long trips. The warning advised the motorist to get out of the car at least two minutes an hour to avoid these dangers.

"Carbon monoxide killed 1754 persons in the United States in one year," John Lauer, commission chairman warned, "and it is a particularly dangerous winter driving menace because it is colorless, tasteless and odorless. It has taken an unusually large toll in Indiana during 1947."

The gas seeps into passenger cars and trucks from leaky gaskets and exhaust pipes. Symptoms of the pois-

oning are headache, drowsiness or confusion and the best immediate remedies are fresh air and rest.

The commission listed additional preventatives: (1) check exhaust and heater systems for leaks, (2) keep a window slightly open when driving, (3) never leave the motor running while sleeping or even resting in a standing vehicle, (4) never attempt to start your motor in an unventilated garage.

★ Advertising is the appetizer which brings about a desire to acquire. Use it, keep faith with it and your patrons, and you shall never want for customers.

### TWINS

Mr. and Mrs. Dean Utter, of Athens, are parents of a boy and a girl, born March 6, in the Woodlawn hospital at Rochester. Mr. Utter is a brother to Harold Utter of Mentone, and a former resident of Newcastle Township.

### IN NEW POSITION

Word from Bernice Anderson asks us to change her address to Grand Haven, Michigan from Indianapolis. Her letter states:

"I recently resigned my position as nutritionist with the Indiana State Board of Health to accept a position as nutritionist with the U. S. Public Health Service. After a two weeks training and observation period in Washington, D. C. and Gainesville, Florida I was assigned to the Nutrition unit in Grand Haven, Michigan. This is my permanent assignment."

### SORORITY MEETS

The Beta Epsilon chapter of the Psi Iota Xi sorority was entertained Thursday evening by Mrs. Wayne Nellans, of Mentone. Mrs. Lyman Mollenhour presided over the business session. Plans were made for the inspection which will be held April 17. Mrs. Lloyd Martin, of Goshen, northern province chairman, will be the inspection of-

ficer. Contributions of \$5 each were made to the Society to Aid Crippled Children, to the American Red Cross and to the Salvation Army. During the social hour Mrs. Nellans served delicious refreshments to a guest, Mrs. Harry Baker, of Mt. Morris, Ill., and the following members, Mrs. Glenn Weatherbee, of Argos, Mrs. Ralph Mollenhour, Mrs. M. O. Bryan, Mrs. Harold Utter, Mrs. T. J. Clutter, Mrs. Max Nellans, Mrs. C. J. Riner, Mrs. Earl Anderson, Mrs. Ralph Ward, Mrs. Delford Nelson, Mrs. Devon Hibschan, Mrs. George Yehlick, Mrs. Wilvin Teel, Mrs. Howard Shoemaker and Mrs. Lyman Mollenhour, all of Mentone and vicinity.

### PLEASANT VALLEY COMMUNITY CLUB

The Pleasant Valley Community club met recently in the home of Mrs. Devon Eaton.

The meeting was called to order by the vice president, Mary Harvey, with singing of the song of the month, "The Church's One Foundation." The history was given by Marjorie Duzenbury. Mrs. Dee Berrier then led the group in prayer.

Roll call was answered by "My Hobby," followed by the secretary's report.

During the business session donations of one dollar each were given to the Latin American Fellowship and the Veterans Hospital. Five dollars was donated to the Red Cross and two dollars and fifty cents to the U. S. O. Marjorie Duzenbury then announced the basketball game to be held at the Richland Center gym, the proceeds of which will go to the Talma P. T. A. The club also purchased a large pressure cooker for the school kitchen.

A very interesting talk on "Rug Making" was given by Esther Fens-termaker and Mrs. Peterson. Blanche Elsert read a very interesting article on "Russia," written by John Strohm. Refreshments were served during the social hour to sixteen members, three children and guests, Mrs. Bud Barkman and daughter and Mrs. Orville Rife and son.

### LOCAL HAPPENINGS

W. P. Hentze and Seymour Grau, of the firm of Hentze & Grau of New York City, are spending a couple of weeks in and around Mentone.

Mr. and Mrs. John Lackey and daughter Sue Ann, spent Saturday evening in Etna Green with their daughter and husband, Mr. and Mrs. Beryl Burgh.

Mr. and Mrs. Wilvin Teel and son, Mr. and Mrs. Melvin Teel of Akron, Mr. and Mrs. Hershel Teel and family of Mishawaka, spent Sunday with Mr. and Mrs. L. J. Krieg and grandson.

## Egg Show Was a Huge Success

What has been referred to as "the greatest and most interesting egg show ever held" took place at Mentone last week. There are many comments that could be made, but there is no question but that the entertainment features were certainly fine. The program put on by Jack Kurkowski and his xylophone band Thursday evening was easily the highlight of the show as far as entertainers were concerned. Major Petrie and his group did a fine job, but the rumble and confusion during the banquet Friday evening prevented an accurate appraisal of the work of the Two Hits and a Miss and the colored quartet.

The banquet was a sell-out—as many folks found out when they attempted to secure tickets—even though many of the hard-working committee-men relinquished their tickets to others. It was pleasing, however, to note that so many came to hear the free program even though they could not secure a banquet ticket.

The talk by Wayne Guthrie on the atomic bomb was enlightening—and nerve-racking too, even though the veteran newsmen warned us that he was going to tell only what he saw. (We wonder what it would have been if he had told what he learned, too.)

The success of the 1947 show was the result of extremely hard work by the committees and many of the members of those committees. One cannot mention any particular committee or member, even though some were outstanding in the efforts they put forth.

## CLUB CALENDAR

Legion Auxiliary, Tuesday evening, Mar. 25, at home of Mrs. Bob Reed 8:00 p. m.

D. A. R. Tuesday evening, March 25 at home of Mrs. Rex Parker.

## CHANGE DATE FOR GAME

The basketball game scheduled between the Newcastle Township P. T. A. and the Tippecanoe Township P. T. A. will be played on the evening of March 28, in the Tippecanoe gym. There will be one game between the men; and one game with the ladies playing for the honors.

The bands from the two schools plan on furnishing music.

## MENTONE WINNERS TO SPEAK OVER WOWO

Thursday, March 20th at 1:00, some representatives of the winning Home Economics Clubs at the Mentone Egg Show will appear in a program entitled, "Modern Home Forum."

## TRUSTEES MEET WITH FIRE- MEN AND DISCUSS FIRE TRUCK

A fine meeting was held at the town hall Tuesday night when the matter of rural fire protection was discussed. Invitations were extended to the trustees of the four nearby townships, the members of the advisory board, the Mentone firemen and the members of the town board. All were present except the trustee and advisory board from Franklin township and the trustee of Tippecanoe township, who had previous engagements.

Bud Moon, of the State Fire Marshal's office was also present and gave a few facts relative to rural fire protection.

Indications were that most of those present felt that better protection was needed and another meeting is called for April 14 at which time the trustees and their advisory boards will meet with Fire Chief Arlo Friesner.

## HOME ECONOMICS MEETS

Mrs. E. Coleman Ralston, assisted by Mrs. Leroy Cox, entertained the Home Economics club Wednesday afternoon. President, Mrs. Frank Warren, was in charge. Easter devotions were conducted by Mrs. Silas Hill and the history of the song of the month, "The Churches One Foundation," was read by Mrs. Linus Borton which all joined in singing.

An interesting lesson on "Preparing Foods for Freezing," was presented and demonstrated by one of the leaders, Mrs. Roy Salaman. The Mystery package was won by Mrs. Silas Hill and the auction article was purchased by Mrs. Cloice Paulus.

Birthday and wedding anniversary gifts were presented to Mrs. George Mollenhour, Mrs. Linus Borton and Mrs. Silas Hill. A pink and blue shower for Mrs. Howard Horn was a special feature.

Twenty-two members responded to roll call by naming their favorite flower. Two visitors were present.

## Egg Contest Placings and Sweepstakes Winners

(Reprinted from the Egg Show Special Issue.)

The egg contest in the 1947 show, with Fred Beeson as chairman, enjoyed one of the most complete exhibits in the history of the Mentone Egg Show. Over 170 entries were received in the various classes and competition was keen in almost every class.

**Mrs. Smythe Grand Sweepstakes**  
Mrs. Gertrude Smythe, of Mentone, was the Grand Sweepstakes winner of the 1947 show. In addition to her other placings, she also won the Kurtin & Kurtin rotating trophy for the highest score in the show and the Creighton Bros. rotating trophy for the highest scoring dozen in classes three and four.

## Winner

### Placings by Classes

(In the class competition, selections were made up to and including sixth place while scoring was done on the first three placings only.)

### CLASS I—

First: Elsie Grubbs, R. 5, Warsaw, score 99.1.

Second: Mrs. Earl Chapman (of the Beeson Egg Farm), Etna Green, score 98.6.

Third: M. O. Bryan (of Bryan Poultry Farm), Mentone, score 98.3.

Fourth: Earl Chapman (Beeson Egg Farm), Etna Green.

Fifth: Nelson Poultry Farm, Burket.

**CLASS II—**  
Harold A. Peabody, Palestine, score 98.

Nelson Poultry Farm, Burket, score 97.5.

Third: Merkle Poultry Farm, score 97.2.

Fourth: Merkle Poultry Farm.

### CLASS III—

First: Gertrude Smythe, Mentone, score 99.3.

(In addition to the trophies listed previously, Mrs. Smythe won the sweepstakes in white eggs.)

Second: Charles L. Culp, Warsaw, score 98.8.

Third: Chester Christian, Bourbon, score 98.5.

Fourth: Charles Lieby, Atwood.

Fifth: Mrs. Chester Christian, R. 5, Bourbon.

(Continued on back page)

## LOCAL FACES SHOW UP IN INDIANAPOLIS NEWS

A week or so ago the Sunday colored magazine section of the Indianapolis News carried a feature article of the Akron Jonah Club serving the fish dinner for 1500 at the Huntington Chamber of Commerce.

Naturally, most of the faces were those of the boys we see almost every day in and around Mentone. Not all of the boys got in front of the Camera or there would have been more, but Skinny Higgins and Chancy Mollenhour were given "front" views.

## HOBART CREIGHTON SPEAKS AT LIONS DINNER WEDNESDAY

Hobart Creighton, State Representative and well-known county hatcheryman, was the speaker at the Lions club meeting Wednesday evening and he frank discussion of political angles was appreciated by the large number of Lion members present.

## WANTS TO DONATE \$100.00

Many New York egg merchants were in Mentone for the egg show last week and all of them seemed to thoroughly enjoy their visit here. They expressed themselves as believing that we had a mighty fine show—but wished we had a building sufficiently large to accommodate the affair. One receiver said he'd donate one hundred dollars towards a fund for a new building, and felt that there would be several others from his city that would do as much.

## STREETS BREAK UP BECAUSE OF WEATHER

Last week the weather—temperature or something—was just right for many of the streets and highways to start going to pieces. Many of Mentone's streets, oiled or otherwise, were so soft that many cars and trucks made deep cuts into them. Some of the outlying streets were practically impassable.

The condition, however, wasn't all local. Many of the state and county highways developed many bad breaks and it will take hundreds of dollars to put them back into shape again.

By Joe Austell Small

#### Wolves Afraid of Jeep

The Russians have adapted the Jeep to another new use—wolf chasing. A report from Bakinsky in the Baku area said that a pack of hungry wolves set upon a drove of horses in the Milsky Steppe. A farmer named Dzhafarov turned his jeep off the road and pursued the wolves. They turned and fled, whereupon farmer Dzhafarov rounded up the horses and drove them home ahead of his Jeep.

#### Canned Rabbit

Policeman Harry Jones of Morris, Illinois, with his gun trudged through snow drifts, up hill and down, over

muddy creeks—all in vain. He couldn't find a rabbit. Finally, disgusted, he aimed at a rusty gallon can in a brush pile and pulled the trigger. Inside was a rabbit, neatly dispatched.

#### Feather Ears

Dr. Christian A. Volf, internationally known physicist, a native of Denmark, states that experiments which he has made prove definitely that birds hear through their feathers, especially their tail feathers.

While birds have regular ears, much of their acute sense of hearing, he says, comes through the auditory aid of feathers.

#### Indian Weather Forecast

"See many two crow fly, good weather. See many one crow fly alone, storm come pretty durn soon."

#### Camp Kinks

#### Short Shorts

Snakes possess so many structural features suggesting structural features of birds that many scientists have treated birds and reptiles as a single group—the Sauropsida.

The well-informed sportsman says: "A bevy of quail; flight of doves; brood of grouse; covey of partridges; flock of geese; plump of ducks; stand of plover and wisp of snipe."

To protect the finish of a rifle or shotgun stock from salt air or dampness, give the wood a coat or two of auto wax. Raw linseed oil rubbed into the stock will also exclude dampness and keep the fibre from raising.

The number of points on a buck deer's horns do not denote its age. A five year old buck may have six, eight or more points while some older bucks have only four.

foods can be kept a long time if sunk in a spring or stream in tightly closed mason jars.

To prevent coffee from boiling over on the campfire, lay a green twig across the top of the coffee pail.

Powdered milk and powdered coffee are light to pack and are easily and quickly made in camp.

Holes and rips in tents can be patched quickly with pieces of waterproof adhesive tape.

Lightweight, easy to pack and prepare foods include powdered lemon juice, powdered eggs, tea tablets and powdered soups. Dehydrated vegetables weigh only a fraction of the original product before the water has been removed. Carry flour and sugar in damp-proof bags, then in case of rain or an accident these necessities will not be spoiled.

## 4-H CLUB NEWS

### Poultry Club Outlook Bright

Poultry proved popular with Indiana 4-H Club boys and girls with more than 3500 enrolled in this project last year. Walter C. Kolb, in charge of Poultry projects for Purdue reports. The poultry program includes three divisions: "Baby Chicks," "Laying Flock" and "Breeding Flock".

There still is an opportunity for the 4-H Club poultry member to make money in 1947 by following good management practices, Kolb advises. One good practice would be to buy baby chicks early, preferably the latter part of February or the first two weeks in March. This appears to be a good year to feed pullets well throughout the summer months rather than to let them range. This will insure the pullets coming into egg production during the early fall months of September and October when high egg prices usually prevail. Producers who can hit the early fall market are generally likely to obtain the most favorable egg prices.

Another good practice would be to

follow the "All Pullet Flock System". In this system all old hens are replaced most profitably by pullets because a pullet in her first year of egg production will lay 25 to 40 more eggs than she usually does during her second year. Older hens often are disease carriers. If a good job of culling is also practiced, beginning now and continuing throughout the egg laying season, a high average egg production can be more easily maintained.

As further proof that there is money to be made in the poultry business, 85 record keepers on farm flocks made an average of \$2.09 per hen during the last year ending on September 1, 1946. Kolb points out.

### Other Fine Projects.

Reports coming to the state office indicate that beef and dairy projects will have even more appeal than they did last year. J. C. Ralston, staff member, points out that Dairy Calf Club members have increased steadily in numbers each year. Advance enrollment in these two projects in some counties have shown as much as a 50 percent increase over 1946.

ing 1947 is good advice, according to Mr. Amick, who explains that the garden project offers both boys and girls a chance to grow fine quality vegetables for the table and flowers for the home. During the last year, 5,879 Indiana boys and girls were enrolled in the garden project. With more emphasis placed on rural health, the need for an adequate supply of either fresh or canned fruits and vegetables becomes a decisive "must".

These are only some of the projects County extension agents and club leaders will gladly give details of others in the home economics and agricultural field.

## LETTER ADDRESSED TO BUFFALO

Mentone, Ind.  
3-19-47

Dear M. J. B.:

We enjoyed your letter so much and are sorry that you stressed the "not for publication," as there is some fine wit going to waste.

When I mentioned to your "dad" that we had a letter from you he said: "Did she have a bone to pick?" and when I told him that you had written to voice your appreciation for our "hot" news service, you should have heard him laugh.

Yes, some of the newspaper pages do come out of the press with charred edges but (and I'm sorry to disillusion you) it is due to a gas burner for drying the ink rather than a heroic effort on our part to speed the Co-Op. News to our distant friends. In the face of this disclosure you can see that there is no actual danger to people or government property from the Co-Op. News while enroute to you so we won't need to mail future copies to you in an asbestos envelope.

Do write again, for you can see that we do respect your wishes about not publishing your letter.

Sincerely,

Ruth, Artley, Jo and Jon.

P. S. Jody sends her appreciation for the words to "La Cucaracha."

## U.N. Pays \$1.00 for Headquarters Move

Paying off the moving man, United Nations Assistant Secretary-General Adrian Pelt (right) hands a check for one dollar to James J. O'Neill, president of the Lincoln Warehouse Corp. of New York City. Mr. O'Neill's company moved the U.N.'s equipment from its temporary headquarters at Hunter College in the Bronx, New York, to its present location at Lake Success, N.Y., last summer, after U.N. accepted his offer to do the complete operation for a total cost of only one dolla..

### ARRESTED FOR CORN THEFT

Maurice Paxton, 35, who recently has been living at Bremen, was taken into custody Monday afternoon and lodged in the county jail on charges of grand larceny, involving the alleged theft of 130 bushels of corn belonging to Abraham E. Wertenberger, Warsaw.

Paxton was arrested at Bremen by State Police Detective Clifford Snyder, Bremen Marshal Sloane, State Patrolman Walt Edell and Deputy Sheriff Frank Lucas.

Paxton was charged, in an affidavit signed by Prosecuting Attorney Porter Williamson, with theft of the corn, valued at \$162.68, on Feb. 14th.

Deputy Lucas said that Paxton is alleged to have taken the corn belonging to Wertenberger from the Bybee place in Harrison township while Paxton was staying at his parental home nearby and sold it at a Bourbon elevator.

### Water Rusts Blade

Leaving knives in water to soak will rust the blade, rot the wood and loosen the handle, so keep them out of water as much as possible. Another precaution to take is to keep knives off hot stoves since extreme heat will destroy the temper of the blade.

### LAW VIOLATIONS CAUSE MOST HIGHWAY DEATHS

Drivers violated a law in two out of three of the 839 fatal accidents in Indiana last year, according to a state police study released recently.

The cost: 965 persons killed and \$45,000,000 in economic loss.

Col. Robert Rossow, state police su-

perintendent, accompanied the statistical report with a warning that "highway deaths this year will exceed the 16 per cent increase in 1946 unless drivers accept a personal responsibility for preventing accidents."

Male drivers were involved in 90.5 per cent of crashes last year in which a fatality occurred, as compared with 6.5 per cent female drivers. Six of the

**INTERESTING LETTER  
FROM "THE EGG—"**

Following is a letter which was sent to County Agent Joe Clark in response to the invitation to Betty MacDonald to attend the Mentone Egg Show:

Dear Mr. Clark:  
Your kind invitation to attend your Egg Show and be your queen (my daughters were horrified and said "Do they know how OLD you are?") was forwarded to me by Lippincott. There is nothing that I would like better—I think Indiana is such a beautiful state and I would love to visit your hatcheries and poultry farms—but I'm trying to write another book and to meet Lippincott's deadline and it means that I have to turn down all the things I want to do and force myself to write eight hours a day until the book is finished.

Perhaps when the book is finished you will have another show and invite me. Couldn't you make it the fried chicken and corn on the cob season?

Thank you again for your kindness and courtesy in inviting me.

Sincerely,

Betty MacDonald,  
Vashon Island,  
Vashon, Washington.

Betty MacDonald's book, "The Egg and I," passed the million-copy mark in August of 1946 and is well on its way in its second million.

And from Seattle, Washington the editor received a neatly decorated and hand-drawn cartoon on a postcard from an artist who draws "White Collar Farmer." (He tried to sell us his cartoons a few weeks ago.) His reply said:

"Well, Artley, ol' boy—the White Collar Farmer folks are sorry that you can't take us on—but we were glad

to see the attractive sticker advertising the Egg Show and we hope it was a howling success."

HARDPAN PETE.

**POWDER RIVER ON A RAMPAGE**

"Powder River, let 'er buck," is an expression known throughout the world, but the river by the same name isn't so well known. There are a few locally who have visited the Powder river and know it for what it is—or isn't.

Three hundred and sixty days out of every year you couldn't find enough water in the sandy river to moisten a postage stamp — and then in five minutes time it will be a raging torrent several miles wide.

Radio news reports Wednesday evening state the Yellowstone and Powder rivers, in eastern Montana, are overflowing and flooding the countryside for miles around; stock have been drowned, people marooned and farm homes washed away.

There are some rough-riding cowboys out Powder river way who will trip to ride anything that walks, crawls or gallops, but they wouldn't tackle that stream in a battleship when its kicking up its heels.

NEWS?—PHONE 28

**NEW COLOR SCHEME**

The Co-Op. News editor isn't trying to infringe upon the reputation of the Police Gazette, but there is a possibility that a few of this week's readers will get a paper with one or two pink pages in it. The color is not our selection, but with the newsprint shortage we can't be too particular.

We have over two tons of newsprint on order, but delivery has been delayed because of—they tell us—transportation. In an effort to be prepared we purchased a large supply of the only natural substitute—and the most modest color we could get was pink. Expect anything next week.

Successful operation of electric brooders is dependent upon adequate size in the wires that carry the electricity to the brooder house. Purdue University extension poultrymen remind that the size of the wire needed must be increased as the distance the current to be carried increases. When wires are too small, much of the voltage is lost through resistance. This in turn cuts down on the amount of heat the hover can put forth. If dimming of the light in the brooder house occurs when heat snaps on, this is a signal for checking with your electric company on the size of the wire needed.

C. O. Mollenhour, local conservation leader, spent a couple of days recently at Purdue University where he attended a conference on conservation problems. The meeting had representatives from various branches of the government and many state officials. A more complete synopsis of the meeting will appear in another issue.

### FIXING UP the HOME By Diane Greeter

#### Hints on Painting

MOST amateurs are a little afraid to tackle painting jobs, despite the merit of paint for decoration, cleanliness and protection. Perhaps the first time you tried it ended disastrously and you just gave the whole thing up as something you didn't understand—a task for professionals. My advice: don't give up too quickly; painting is easy if you follow a few simple rules.

First, prepare the surface well. Sandpapering bites tiny ridges into the surface—ridges in which the paint will get a firm hold. Use sandpaper between coats of paint as well as before the first. If you are

using an oil paint, wipe the surface with a rag saturated in turpentine just before painting. If it is lacquer, wipe off with alcohol.

Bleaching stain or dirt out of wood that is to be varnished has always seemed complicated, but it is really an easy job. Make a solution of oxalic acid crystals (from the paint store) and water. After sanding all foreign matter off the surface, put the bleach on with a rag, keeping it wet until the bleach has had a chance to eliminate all the dirt and old color. You must then neutralize the bleach with vinegar and wash with turpentine before painting.

If successive coats of paint have been poorly applied over wood, the result will always be bad. I would suggest that you take the trouble to remove the old paint and start anew. Paint remover can be brushed on, then scrape the old mess off with a paint scraper or putty knife.

#### Walters

Mr. and Mrs. Floyd Walters, of near Rochester, are the parents of a daughter, Margaret Elaine, born Wednesday morning at the Murphy medical center. She weighed seven pounds and 15 ounces.

When a husband talks in his sleep and still gives no secrets away, you might call it a triumph of mind over matter.

"How's your home building coming along?" "Fine," said the man. "I've got a roof over my head, a mortgage over everything, and a spare room for the sheriff."

1st Mrs.: "Were you excited when you first asked your husband for money?"  
2nd Mrs.: "Oh, no. I was calm—and collected."

And if you want to feel calm and collected, come here for your gas, oil, and lubrication. Your car will like it—and so will you.

### TAKEN TO HOSPITAL

Mona Lee Sullivan, daughter of Mr. and Mrs. Harry Sullivan who reside east of Mentone, was taken to the Woodlawn hospital Tuesday suffering with appendicitis. An operation was to have been performed Wednesday morning but no word has yet reached

#### our office.

Mona Lee suffered an attack last week in school and was brought to Dr. Urschel's office. After a couple of days at home she was able to return to school. She was stricken again yesterday in school and was rushed to the hospital in the Johns ambulance.

### BACK IN HOSPITAL

Mrs. John Secrist, who had been a medical patient in the McDonald hospital, was brought to her home here last Wednesday afternoon in the Reed ambulance. About 11:30 the same evening it was necessary to take her back to the hospital. Mrs. Secrist has been suffering with a severe nosebleed. Her condition was reported as improved on Tuesday of this week.

### Brush Teeth Often

Care of the teeth is one of the five major divisions of good grooming, and taking the time to brush and clean your teeth will repay you in comfort and appearance. It is not even necessary to buy tooth-paste or powder—you have one of the best of dentrifiers right in your kitchen cabinet. Many dentists recommend a mixture of 2 parts salt and 3 parts soda. You can use the mixture unflavored, or flavored with a few drops of winter green or peppermint. Often a piece of dental floss is useful in cleaning between the teeth. A small tube obtainable from any drug store will supply your entire family for quite a while.

### Grow Redtop Seed

Illinois produces most of the United States redtop seed crop.

### HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

#### Carbon Monoxide

It's odorless, it's tasteless, it's colorless, but it's also deadly. Carbon monoxide gas gives no warning of death, yet each year it takes its toll of lives.

Vague discomfort and uneasiness, followed by light or severe headache, weakness, dizziness, dimness of vision, nausea and collapse are symptoms of a danger which creeps so stealthily that the victim painlessly loses life. Poisoning occurs when the

gas breathed into the lungs combines chemically with the hemoglobin of red blood corpuscles and prevents the body from obtaining oxygen from the blood. Breathing and pulse are fast at first, then slow if greater quantities of gas are inhaled.

Fresh air may relieve a victim if too much has not been inhaled. A doctor should be called immediately. Pending his arrival, application of the pressure method of artificial respiration may save the life.

Many persons park an automobile and remain inside without turning off the ignition switch. To do so is dangerous as everyone knows. If ever it

becomes necessary, the car windows should be lowered to permit ventilation. Never should an automobile motor be permitted to run while the car is parked in a garage. Motorists would be wise to stop frequently during long trips for a breath of fresh air.

Leaky gas pipes or valves, defective vents, or improperly adjusted furnaces may cause gas poisoning. Whenever gas is burned excessively high, fresh air should be allowed to enter an otherwise poorly ventilated room. It's a good idea to keep an eye on the jets; blasts of air may extinguish the flames and fill the room with poisonous gas.

Rubber tubing and connecting parts do deteriorate, they should be checked frequently. Many accidents are not always due to faulty equipment, but due to carelessness regarding their proper operation.

Don't take a chance with carbon monoxide. Vital statistics at the State Board of Health reveal the fates of

those who do. They show that 42 persons died in Indiana in 1946 of accidental absorption of poisonous gases, 40 in 1945, and 0 in 1944, with most accidents occurring during the winter months.

★ Today good will may starve to death. Keep it alive with customer courtesy and careful advertising.

# TAX AND SPEND

(Editorial in Ft. Wayne News-Sentinel)

The National Small Business Men's Association is among those organizations which have given more than a passing glance to the proposed expenditures included in the Truman budget for fiscal year 1948. It finds the enormous increase in demands from various departments worth talking about.

In the Independent Offices, for example, total expenditures in 1940 amounted to \$3,269,254.403. The proposed expenditures for fiscal year 1948 amount to \$8,814,738.391.

The Department of Commerce spent \$75,116,535 in 1940, and in 1948 it proposes to spend \$260,814,600. The Department of Interior spent \$71,385,280 in 1940, and in 1948 wants to spend \$363,405,098. The Department of Justice spent \$50,813,162 in 1940 but wants \$117,283,863 to spend in 1948. The Department of Labor will spend \$106,242,917 in 1948, if it can get it, whereas in 1940 it spent only \$18,570,698.

The Navy Department wants \$45,106,700,000 for 1948, compared with \$9,441,198,893 spent in 1940. The State Department wants \$611,972,542 to spend in 1948, whereas in 1940 it spent only \$20,829,487. The Treasury Department has also got the fever, asking \$9,141,861,717 for 1948, as against only \$2,125,092,033 which it spent in 1940. The Post Office Department wants \$356,679,250 for 1948, though it only spent \$45,953,822 in 1940.

The total increase for these departments, excluding the army and navy, is \$14,095,982,958 for 1948, over what was spent in 1940.

Why?

Why should Independent Offices need five and one-half billion dollars more in the fiscal year of 1948 than it spent in the last pre-war peacetime year, 1940?

Why should the Treasury Department want seven billion dollars more?

Why should the State Department want nearly \$600,000,000 more in 1948 than it spent in 1940?

What does the Department of Commerce need with nearly \$200,000,000 more? Or the Department of Interior with nearly \$300,000,000 more? Or the Department of Justice with \$66,000,000 more? Or the Department of Labor with nearly \$90,000,000 more?

DeWitt Emery, president of the NSBMA, says pointedly, "If I were on the appropriations committee, I would certainly ask the Postmaster General to tell me in great detail what the Post Office Department intended to do in 1948 which it did not do in 1940 which would justify the American taxpayers spending an additional \$3-10,725,428 on its operations. I'd also want to know why the Interior Department needs an extra \$292,019,818 above 1940."

Certainly, it's time for not only small business men, but big business men, laborers, white collar workers and

everybody else to start asking the same questions.

Here are eight governmental departments—still excluding the Army and Navy—which want 14 billion dollars more for fiscal year 1948 than they spent in 1940. The increase in these eight departments alone is double the entire annual cost of Government, prior to the war.

It should be plain to anyone that there is no justification for such an incredible step-up in expenditures. Some of it may be accounted for by salary increases, but comparatively this would be negligible.

The Labor Department wants six times as much as it had in 1940. It is impossible that they or the others could have legitimate need for that much more money.

Even the Army and Navy would find it impossible, we think, to justify the amount of money which they could spend under the Truman budget. The War Department wants more than seven billion dollars more than it spent in 1940, and the Navy Department wants to spend nearly four billions more.

The brass and gold braid are still several layers deep in the Army and Navy, with 135,000 generals and field

officers drawing pay from the Army, and well over 40,000 Admirals, Commodores, Captains and lesser officers drawing salaries from the Navy. Yet, a recent Army report said that, "If we were plunged into war, we would have neither the force necessary to control emergency situations in critical industrial areas . . . nor sufficient troops to prevent even elemental sabotage . . ."

Nonsense spending in both branches of the armed services continues unabated. The navy has been taking bids for the purchase of 140,000 pieces of table silver, including 68,000 silver plated finger bowls and plates, 23,000 salt and pepper shakers with cut glass linings and 5,000 sugar bowls with fancy mountings. At the same time, the War Assets Administration has been selling as surplus just about the same kind of tableware. The Army is planning to spend \$15,000,000 for narcotics, in spite of the fact that the Army and Navy both have turned over huge amounts of narcotics for sale as surplus.

One cannot escape the feeling that Government spending is like a machine spinning madly out of control, down a steep hill, gaining momentum with every minute. The theory of "Tax

and spend" has gone berserk. There is no limit to what the Washington bureaucracy will ask for, no limit to what it will spend, if it is permitted.

All this is gloomily reminiscent of the drunken profligacy of the mad French aristocracy, before the Revolution. The spenders have descended on America like a plague of locusts, eating out the substance of a once thriving and prosperous land. Such madness led France to disaster and chaos from which it has never recovered.

It can lead America to the same end.

In case any long grass remains an last year's pasture it is better to mow the growth than burn it. Purdue University extension dairymen point to tests that indicate that burning a pasture before the ground thawed reduced the yield of grass nearly 50 per cent the following summer.

## Use Knife Wisely

Never use a knife to cut wire, tin cans, kindling wood, boxes and other hard materials. Nearly all broken knives are the result of using them for heavy work that they aren't intended for.

**THE SERVICE MAN WITH THE GUN**

**is a Friend Indeed!**

● Everyone wants to do his duty in this emergency—and if it includes foregoing the luxury of a new car and driving the old one longer, we'll do it—cheerfully.

Of course it means taking better care of your old car. Change oil regularly for longer engine life. Lubricate the chassis often to protect vital

under-car parts against friction and corrosion.

The service man with the grease gun can help you in many ways to preserve your car's appearance—to get more mileage from tires—to keep your car in safe, economical mechanical condition.

There are many ways we can help you keep your car up to par. No obligation—come in often.

## ANIMAL HEALTH COLUMN...

By R. A. MARRIOTT

Scours is undoubtedly the most common ailment of calves. There are two closely related forms of calf scours that are generally recognized, namely, "common scours" and "white scours". Common scours may occur in calves of all ages but it is more common in animals under six months of age. This form of the disease, however, is seldom the direct cause of death. The continued diarrhea lowers the vitality and resistance of the calf to such an extent that other diseases, particularly pneumonia, develop as a secondary infection and end fatally. Thus, common scours and calf pneumonia are usually closely associated. The most frequent cause of scouring is over-feeding on either whole or skim milk. Scours may also be due to improper sanitation, feeding from unclean pails, dirty milk, sour milk or milk fed at uneven temperatures. Calves that failed to get colostrum milk are most susceptible. White scours, or infectious scours, the more fatal form of calf scours, is an infectious disease accompanied by a characteristic diarrhea affecting calves during the first few days after birth. The germs causing that disease may enter the body

by mouth, through nursing or licking contaminated quarters, through the navel cord, or from contact with other calves.

The first noticeable symptoms are general listlessness, dull eyes, drooping ears, usually rapid breathing, and sometimes increased temperatures. The early symptoms are followed by diarrhea.

Prevention is the most satisfactory treatment. Proper feeding, housing and sanitation are most important. Calving stall should be disinfected and bedded with clean straw or other bedding material. The calf's navel should be disinfected with tincture of iodine as soon after birth as possible. Avoid over-feeding on milk, and the use of unclean pails. Should scours develop, reduce the feed by one-half and correct the original underlying cause. In order to prevent possible spread of disease, remove affected calves from the healthy ones. Exercise care in getting calves back on full feed so they will not suffer another attack. When there is an outbreak of white or infectious scours, Sulfaguanidine can be relied on to quickly and effectively control the infection. It is particularly

useful in making a differential diagnosis between common or infectious scours as Sulfaguanidine is only effective against white or infectious scours, so that when you administer Sulfaguanidine in correct dosage you can expect immediate response. If however the calf has common or nutritional scours Sulfaguanidine will have no effect whatever. Sulfaguanidine is the easiest to use and the safest control for white scours. The complete treatment for a 50 to 100 pound calf is only 8-5 gram Sulfaguanidine oblets that can be purchased for \$1.20.

When first symptoms are noticed give one 5 gram oblet, repeat in 6 to 8 hours, then give every 12 hours for second and third day.

If infectious scours has been a problem in the herd it would probably be best to start protective treatment with Sulfaguanidine in all new born calves shortly after the first colostrum feeding which should take place not less

than two hours after birth. For this protective treatment one - half the above dose is recommended.

Sulfaguanidine oblets are a product of Lederle Laboratories, pioneers in the production of scientifically dependable medicine to the live stock raisers and the veterinary profession. Lederle's reputation for quality gives assurance that any Lederle product properly used can be relied upon.

### Clean Gas Burners

Clogged gas burners increase the amount of fuel needed for heating, thus adding to the fuel bill. You can tell by the color of its flame whether or not a burner needs cleaning. If there is much yellow color, try cleaning the burner with a steel brush after the gas has been turned off.

### Fire Fatalities

While in the past few years there have been a number of catastrophes with exceptionally large loss of life, records show that about four-fifths of the total lives lost in fires were in private dwellings, apartment houses, tenements and rooming houses.

# HOW TO STUDY THE BIBLE

(Number 7)

"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." II Tim. 2:15.

It is dangerous to take one passage of scripture and base our reasoning on it without considering ALL that God has said on the subject. When we have all the divine testimonies on the matter under consideration, then one has no more right to an opinion that goes beyond this testimony than he has to form an opinion that goes against the word of God.

The subject of baptism is much misunderstood. A study of the subject by the above method will give us ALL the Bible teachings on the subject.

Jno. 3:3-5; Acts 22:16; Acts 2:38; and Gal. 3:27, show us that baptism is for the purpose of putting us into the kingdom, for the washing away of sins or the remission of sins and

the putting on of Christ. That those who believe or have their hearts opened to the Lord and repent are fit subjects for baptism, is shown by Acts 5:14; Mk. 16:15-16; Acts 16:30-34; Acts 8:12; Acts 18:8; Acts 2:38.

This baptism requires water, (Acts 10:47; Acts 8:36-38); Much water, (Jno. 3:23); Going to water, (Mk. 1:9); Going down into water, (Acts 8:38); Coming up out of water, (Mk. 1:10; Acts 8:39); Born of water, (Jno. 3:5); The form of a burial, (Col. 2:12) The form of a resurrection, (Rom. 6:4); and bodies washed, (Heb. 10:22).

Surely after we have all the testimony, no one could mistake the purpose and requirements of Bible Baptism.

## WELCOME TO THE CHURCH OF CHRIST

### CARD OF THANKS

I want to thank all who remembered me, while in the hospital, with flowers and cards.

Mrs. John Boganwright

### Passenger Deaths

There are only 17 deaths per 100 million miles of street car, trackless trolley coach and bus travel.

### Tattooing Hogs

A method of tattooing hogs, developed by the bureau of animal industry of the department of agriculture, has many practical uses, especially in connection with marketing, disease control and scientific research. The method is simple, rapid and inexpensive, and appears to cause no material discomfort to the animal.

FROM GERMANY**Bremerhaven, Germany  
March 7, 1947

Dear All,

Arrived here a week ago yesterday and what a place to spend a week! It looks like I'll be here three or four more days because of the weather I guess. They say it's pretty bad out on the ocean now, sure hope to get out of here soon. There must be pretty close to ten thousand men around here waiting to go home. A big boat came in today with a bunch of Rookies on it. I hear it was the Alexandria, sure hope I get to go back on it, I don't like those Victory ships.

I had to pull twenty four hours guard last Sunday and today went down to the docks, had to load box cars with supplies. They have big warehouses full of stuff that they have to get out before this snow starts to melt. They expect about all the bridges in Germany to wash out when it gets started and the spring rains come. I'm sure glad I have them all crossed. They take 500 GI's down at a time, night and day so they should get most of that stuff out soon. They have

everything down there that you can think of. I loaded myself down with candy same as all the other guys

I sure have been eating since I've been over here. If I eat like that when I get home you will probably throw me out Ha! You better have a case of eggs on hand when I get home I can eat about six every morning.

I hope you get the packages I sent. I sent three cameras a lot of pictures and another box of junk, sure hope they all come through ok. I have one camera with me, it's a Retina 3.5 lens 35 MM, it's really a nice little camera.

When I left Kassel I put my bag in a baggage car, when I got off here, it was gone, lost everything I had including my electric razor, a pistol, two watches, flashlight and many other things All the clothes I have is what I have on my back and they won't give me any more here so I'll sure be a crummy mess when I get home so keep the back door unlocked, Ha!

I don't expect to get back home until the last of March so don't look for me any sooner than that and it may be later, don't know how soon I'll get out of here. I'll sure be glad

to get home. I'm really fed up with this army.

Well can't think of much else to say for now so I'll close for now. Tell everybody I said hello and I hope this finds you all ok.

Love to All,  
Jim

### STATE TO RAISE LARGER FISH IN STOCKING TESTS

Prospects of Hoosier fishermen rose a few days ago with announcement by John H. Nigh, Director of the Indiana Department of Conservation, that state fish hatcheries this year will concentrate on production of

"larger fish."

Nigh said hatchery production rates will be sliced in order to produce fish considerably larger than those released in past years.

He said studies by the Division of Fish and Game indicate survival rate of three and four-inchers released by the state very low and the division believes a far greater survival will result from release of larger game and pan fish.

The division will likewise intensify its efforts to stock only where native stocks are low, Nigh said. Overpopulation of lakes and streams has resulted in many cases from improper stocking, he added.

# BIRTHDAY SURPRISE

Miss Patricia Parker, daughter of Mr. and Mrs. Robert Parker of Mentone, was pleasantly surprised Saturday afternoon when a few of her little friends gathered to help her celebrate her seventh birthday. She received many lovely gifts.

Those present were: Donna Lou Eaton, Joyce Anderson, Sue Elaine Shoemaker, Janet King and Betty Ann Parker, all of Mentone. Those who were unable to attend but sent presents were Sue Fenstermaker and Linda Sue Linn.

The afternoon was spent playing games.

Refreshments of ice cream, cake, cookies and candies were served by Mrs. Robert Parker.

Mr. and Mrs. Frank Wise have received word from their son, Leroy, that he expects to receive his discharge at Ft. Dix, N. J. this week and will be visiting home folks soon.

**MRS. EMMA BENTON DIES  
SUNDAY IN MENTONE  
FUNERAL ON TUESDAY**

Mrs. Emma Benton, aged 90, who had lived all of her life in Kosciusko county and in Fulton county, near Mentone, died at 4:30 p. m. Sunday at the home of her niece, Mrs. Ruth Rogers, of Mentone. Death followed an illness of 14 days due to paralysis.

Funeral services were held at 2 p. m. Tuesday at the Johns funeral home in Mentone. Lloyd A. Boyll, minister of the Church of Christ, was in charge and burial was in Sycamore cemetery, five miles southwest of Mentone.

**SUFFERS STROKE**

Mrs. Frank Warren is somewhat improved following a stroke on last Saturday. A daughter, Mrs. Garrison, is caring for Mrs. Warren.

**NAMED SECRETARY**

At a meeting of the Kosciusko County Medical Society held in Warsaw on Tuesday, March 18, Dr. Dan Urschel was elected as secretary-treasurer of the organization. Dr. H. A. P. Leininger, of Warsaw, is president of the society.

**LEGION AUXILIARY**

The regular meeting of the Ladies Auxiliary was held Tuesday evening at the school house.

A very favorable report was given on the benefit party that was held at the town hall last Saturday evening. The Auxiliary members wish to thank all the merchants and general public for their kind support and co-operation.

Cake and coffee were enjoyed by all at the close of the meeting.

The next meeting will be held at the school house Tuesday evening, April 8th at 8 o'clock.

**CLUB CALENDAR**

American Legion, Tuesday evening, April 1.

Lions Club, Wednesday evening, April 2, 7 o'clock.

W. S. C. S., Friday evening, April 4, at home of Mrs. Curt Nellans.

Eastern Star, Monday evening, Mar. 31.

**NOTICE EGG SHIPPERS**

Bring your eggs to the egg car, as usual Saturday. We'll arrange to truck them to the railroad car.  
**CO-OP. EGG SHIPPING DEPT.**

**SISTER DIES AT TERRE HAUTE**

Lloyd Boyll, minister at the Mentone Church of Christ, received word that his sister passed away this morning at Terre Haute. Mr. Boyll and family left Tuesday night to visit his sister, Mrs. Pauline Winters, but did not arrive before her death.

Surviving are two children, her mother and brothers and sisters.

Funeral services will be held Saturday, according to word received at Mentone Wednesday.

**LIBRARY HOURS CHANGED**

Due to the illness of Mrs. Frank Warren, who has been serving as librarian, the library will be open on Tuesday, Thursday and Saturday evenings from 7 to 9 and on Saturday afternoon from 1 to 5.

**RETURN FROM TEXAS**

Mrs. Lide Williamson and Mrs. Flo Borton returned on Tuesday from a visit of several months in Texas. They had made the trip with Mrs. Borton's daughter and husband, Mr. and Mrs. Teel, of Wabash.

While in Texas they were contacted by Mrs. M. Cochran, a former resident of Mentone, who had read of their trip in the Co-Op. News.

They report a nice winter in Texas, but express themselves as happy to be home.

**HIGH WINDS BLOW IN  
PLATE GLASS WINDOWS**

The high winds Monday night blew in three of the large plate glass windows in the Co-Op. Hardware at Mentone. One west end window blew in during the fore part of the evening and workmen immediately went to work boarding up the opening and bracing the other windows. The large truck was driven up in front of the building to protect the glass from the wind, but while the men were inside the building "awaiting developments" two more windows blew in.

The loss was covered by insurance and the glass is being replaced.

**MENTONE EGG QUEEN TO  
BE CROWNED STATE QUEEN**

Miss Phyllis Latta, of Warsaw, who was queen of the 1947 Mentone Egg Show, has been selected to be named State Egg Queen at the premiere to be held for the movie, "The Egg And I," at Indianapolis Saturday, April 5th.

A very elaborate crowning ceremony is being planned and the Mentone vicinity can feel mighty proud of the recognition given us by selecting Miss Latta as state egg queen.

**ROBERT PARSONS TO BE  
AT YOUTH FOR CHRIST**

Robert Parsons, director of WMBI and WDLN, the radio voices of Moody

Bible Institute, Chicago, will be heard at the Tri-County Youth for Christ meeting at the First Baptist Church, according to Rev. E. C. Ralston, pastor. Mr. Parsons will be heard at 8:00 P. M. Saturday (April 5).

Trained in radio while a student at the Institute, Parsons, like many others of the radio staff, returned as a full time worker. He was graduated from the Institute in 1935, and returned to the radio department a year later.

In 1945 he succeeded Wendell P. Loveless, who began as director of the Institute station when WMBI first went on the air in 1926.

Parsons is a veritable jack-of-all trades at WMBI, having at one time

**MRS. LOMA SHERWOOD DIES  
TUESDAY IN HOSPITAL**

Mrs. Loma Sherwood, aged 69, formerly a resident of this vicinity, died at 7 a. m. Tuesday at the McDonald hospital at Warsaw where she had received treatment for the past seven months. Her illness was due to a stroke.

Mrs. Sherwood was born near Beaver Dam December 16, 1877, the daughter of Levi and Mary Smith. She had resided all of her life in the vicinity near Mentone and Bourbon. Her husband, Ora Sherwood, died 35 years ago.

She was a member of the Methodist church.

Surviving relatives include two sons, Paul Sherwood of Warsaw and Russell Sherwood of Argos; two daughters, Mrs. Edith Rittenhouse, of Gary, and Mrs. Katherine Cisco, of Franklin; a sister, Mrs. Eliza Bowen of Burket; eight grandchildren and one great-grandchild.

Funeral services will be held at the Reed funeral home Thursday afternoon, with Rev. S. M. Hill officiating. Burial will be in the Palestine cemetery.

**HAVE YOU LOST A DOG?**

A beautiful thoroughbred shepherd dog was found along the road, Saturday, by Billy Blackburn.

The dog tags carry the number 45019434 and the name "Holly Archie." Can you help locate the owner?

**LEGION BOYS WIN TROPHY**

In our last issue we failed to mention that the Mentone American Legion basketball team has the honor of being county champs this year. They defeated the Warsaw Legion in the final game and were awarded a fine permanent trophy.

or another handled production, music and traffic. In addition, he has served as announcer, devotional speaker, and instrumental and vocal soloist.

Although his duties are now principally administrative, he still appears on a few musical and devotional programs.

## ANIMAL HEALTH COLUMN...

By R. A. MARRIOTT

Infectious enteritis in swine, which is also known as negro and necrotic enteritis, is an inflammation of the intestines occurring chiefly among pigs and feeder hogs. The disease is a very serious infectious swine ailment. In the early stages the disease may be mistaken for hog cholera. The treatment with serum and virus of animals affected with infectious enteritis may result in serious losses. Whenever indications of the disease are present, hog cholera immunization should be deferred until the enteritis has been controlled.

The common symptoms are bloody diarrhea, weakness and loss of appetite. Fever, which present at first, tends to subside with continued diarrhea. The course of the disease varies from a few days to two weeks. The death rate in pigs often reaches 40 to 50%; feeder hogs 10 to 20% and less in mature animals. Sometimes young pigs that do not die immediately appear to improve, but remain permanently unthrifty and fail to gain

normally. Rigid sanitation is an important preventive measure. Isolate sick animals and remove hogs from contaminated quarters. Since the infection is often introduced into a herd by purchased animals, carefully check the condition of the new arrivals and if possible hold them in quarantine for three weeks. On premises that have a past history of negro being present it would be wise to condition the young pigs so as to preclude the possibility of an outbreak. This can be best accomplished by the use of one of the famous sulfa drugs, Lederle's Sulfaguanidine, together with a feeding program in as much as negro most generally gets a start in the suckling pig. The infection is not usually in evidence until the pigs get a little older. As the pigs are weaned they should be conditioned against such later losses by starting them on a mash containing sulfaguanidine Lederle. A feed formula that would serve this purpose could be on this order, and of course

## AGRICULTURAL LIMESTONE

DELIVERED AND SPREAD  
FROM MENTONE

## WARSAW COAL-LIMESTONE CO.

other formulas can be used, this is merely a suggestion: 3 bushels coarse crushed whole oats, 15 gallons milk (whole buttermilk semi solid or skimmed milk, or at least desirable water) 1 1/2 pounds yeast (stockmans or brewers) Mix, let stand over nite. Thoroughly add to the mixture each day before feeding 1/2 pound sulfaguanidine Lederle which should be included in this formula for the first three days. Thereafter for the next week discontinue the drug but maintain the ration. For the next 5 or 6 days gradually replace this ration with the feed which will be fed to the pigs. This conditioning diet, plus sulfaguanidine, will destroy this infection and restore the bowel to a healthy state, so that maximum marketable development can be realized. The above formula will feed from 70 to 80 weaning pigs per day. Sick pigs not eating should be given individual treat-

ment with sulfaguanidine oblets. A minimum of one gram, divided into 3 doses daily may be given to suckling pigs regardless of size or weight.

In case of an outbreak of infectious enteritis in older animals sulfaguanidine is a valuable treatment. The drug can be mixed at the rate of 1/2 pound of sulfaguanidine to 100 pounds of total feed daily. In highly acute conditions of infection a double dose should be given with the first feeding. Sulfaguanidine Lederle has amply demonstrated that it is today the best possible treatment for negro infections. No other drug has proved so highly effective. This is the same drug that has been used extensively by our armed forces in the tropics for the treatment of bacillary dysentery.

Pigs which refuse to eat may be given sulfaguanidine oblet until the appetite improves, at which time treatment may be continued by mixing with the feed.

## PURDUE FARM AND HOME SPECIAL TRAIN VISITS WARSAW

1261 people visit the Purdue Farm and Home Special Train in Warsaw on March 17

Greeted by a small mechanical farmer with an "aching back" from too heavy a load, farmers and homemakers who visit the Purdue Farm and Home Special Train sponsored by the University and the New York Central Railroad, will leave the train with many new labor-saving ideas presented for their benefit through posters, models, and mechanical displays.

Methods for saving a mile of walking and three days of time each year are presented in colorful illuminated pictures and posters in the first exhibit of car number one of the eight-car train. The train has about 480 feet of display space showing ideas designed to make life on the farm more profitable and pleasant.

Directions for planning farmsteads

for efficiency, health, and pleasant living are given in exhibit two with ideas for repairing and remodeling buildings and constructing new ones. A model barn shown "before and after" a remodeling job presents concrete evidence of the advantages gained in careful planning for efficiency from farm buildings.

Progressing to car number two the spectator sees a model farm with a water system installed, water and all, to show one effective farm water system, as set up by the university agricultural engineers.

What looks like a child's dream come true in doll houses gives the homemaker inspiring ideas on remodeling her home in an exhibit showing a model home before any changes are made and a second model which points out valuable improvements. Homemakers will be further interested in the kitchen unit with cabinets and an actual refrigerator.

Leaving the shiny new refrigerator with a backward glance of longing, the farm wives come upon an ingenious device for measuring what height

a work table or sink should be for the comfort of each individual woman.

Ironing the quickest and easiest way is demonstrated to onlooking homemakers in the next exhibit, followed by a display of home economics extension bulletins covering numerous topics. These bulletins can be ordered on the train.

Entering the third car of the "College on Wheels," farmers will pass on but their wives will linger at the first exhibit to watch a demonstration of four effective methods of darning. Then two more model homes meet the eyes of interested visitors—models at which they undoubtedly look carefully. These homes show vividly many of the fire hazards of a farm house which come with electricity and how they best can be eliminated.

Correct piling of lumber catches the visitor's attention at the next stop as a small model lumber pile turns around in a display stressing the preservation and use of home-grown woods.

"Summer wealth and winter health" will interest gardeners at the garden and tile storage exhibit. A busy old owl admonishes, "Be wise—plant a garden, though it's small, have a plenty come next fall."

Leaving car three, the farmers and homemakers next receive an emphatic lecture from famous "Purdue Charlie" who points out with moving lips and unpredictable eyebrows that 2,4-D, a chemical weed killer, offers real help to the farmer.

Colorful poster and glass encased pictures bring home to the farmer the important problem of plant diseases with an emphatic array of unpleasant looking reproductions of various damaging diseases. A revolving container with several of the better oat varieties in it follows, suggesting the farmer get more for his money with high yielding oats.

At the next stop the spectator reads how soil improvement and soil conservation unite for better, more profitable and more enduring agriculture. As the visitors leave this car they will notice as in every other car that they are urged to ask questions of the 21 members of the agricultural extension staff of the university who are on the train.

A young man busy fishing in a farm

pond, and getting lots of bites at that, adds interest to an exhibit on farm ponds and drainage systems. Model drainage systems "before and after" show how to make improvements. A diminutive farmer on his tractor busily plows his field to emphasize the ABC's of soil conservation—plowing under, contour farming, and cover crops—at the next exhibit.

An actual salt feeder for pigs and one for sheep are part of the exhibit on correct salt feeding. Model pigs, one much heavier than his brother, ride up and down to emphasize the value of salt feeding. Hog management is the theme of the first stop on the sixth car, and two bustling farmers move about the hog pens to show the easy and hard ways to feed the hogs. Poultry management in the next exhibit carries out the same idea of the saving, with posters showing how to save the most steps.

Real rats, but stuffed ones, which are prepared at the Smithsonian Institute especially for the Farm and Home Train, are the main attraction of an eye-catching exhibit on rodent control. Momma and Pappa rat go into an improperly kept wood pile and soon a whole family comes out, headed for the corn crib, out to cause trouble for the farmer.

Car number seven is a dairy car. The first exhibit stresses safe handling of the dairy bull, with a small edition of the bull in action to show his ferocity. How to organize for artificial insemination comes next, and a real milking machine at work stresses correct milking methods to save time and get maximum production.

Using DDT in the dairy barn to rid the place of flies is presented in a clever animated pantomime showing the fate of the unhappy flies. An actual size inexpensive home-made hay bale elevator in action stops farmers and homemakers as they enter the last car, and a small model hay bale loader for the field is also part of this exhibit, as are scale models of mow curing hay in the barn.

At the end of the last car all Purdue agricultural bulletins are on display and can be ordered there. W. F. Graham of the university department of exhibits and short courses is in charge of these eight cars of farm and home displays, and over 100 members of the agricultural staffs contributed to the special train. O. B. Price, agricultural representative of the New York Central, has been cooperating in managements for the train.

**U.N. Officials Discuss Trusteeship Plans**

Talking over the program of the newly-formed United Nations Trusteeship Council, U. N. Secretary-General Trygve Lie (center) meets with Victor Hoo (left), Assistant Secretary-General in charge of the Department of Trusteeship, and Ralph Bunche, a Director in the Department. The Trusteeship Council, which deals with non-self-governing territories placed under its supervision, is the fifth and last major organ of the U. N. to be set up under provisions of U. N.'s Charter.

**Basement Steps**

Make the edges of steps easier to see by painting a band of white paint on the edges of the tread. Also, paint the bottom tread solid white. A hand rail is a valuable safety device on any stairs, particularly on cellar stairs, because they are usually steeper.

**Packing Eggs**

Eggs should be packed in standard 15 or 30 dozen egg cases. Cases should be in good condition, have clean, firm fillers and flats and full covers for tops of cases. Do not pack any cracked, thin-shelled or abnormally shaped or badly stained eggs.

# SOIL DRAINAGE AIDED BY ORGANIC MATTER

Depletion of soil organic matter may cause a serious drainage problem, according to Purdue extension agricultural engineers and agronomists. An adequate supply of organic matter will allow the water to move more freely through the soil than where organic matter is short.

It is suggested that in order to maintain or improve drainage in a soil, deep rooted legumes and grasses should be included in the rotation to provide organic matter. The best legumes for this purpose are sweet clover and alfalfa, because of their abundant and deep root growth. Second to these the agronomists would recommend the planting of red clover. In addition to providing better internal drainage, a good supply of organic matter will increase aeration of the soil (a supply of air in the soil) and will improve soil structure.

The agronomists explained that the channels or chains of pores left by decayed roots in the soil also perform an important function in downward movement and storage of water. These roots exist in the soil in an amazing network, the extent depending upon the type and denseness of the vegetation. While the roots are alive, their growing tips force their way through the very small cracks in the soil to form these channels through the more compact layers. In compact soils there

is a lack of these small holes that are found in more fertile, high organic soils.

The benefit of such crops as sweet clover and alfalfa are much greater than in certain other plants because of the extent of their root systems and the size of the openings in the soil resulting from their decay.

## EGG COOLING PIT WORK IS IN BOTH WINTER AND SUMMER

When summer temperatures go up the quality of the eggs from the poultry flock of Orville Beouy, Delaware Co., Indiana, does not go down as

it does on many farms.

An egg pit built under the back porch will keep the eggs laid by Beouy's flock nice and fresh until on their way to the consumer, Prairie Farmer reports in its current issue.

The pit, about five feet square, works equally well in the winter. In fact the year round temperatures in the pit range between 45 and 60 degrees. The pit also houses the water pump for the Beouy house, and condensation from the pipes in the pit keeps the humidity at a proper level to insure the best keeping qualities for the eggs.

In warm weather Beouy makes it a point to gather eggs three times a day or oftener. The eggs are gathered in wire baskets in which they are cooled. Only five or six hours are required to cool eggs in the wire baskets compared to 24 hours needed to cool them properly in an egg case.

Walls, floor and ceiling of the pit are built of concrete. The roof is the floor of the back porch and access to the pit is through an iron monohole cover. Beouy uses a long hook to put the baskets in the pit and remove them.

### War necessity

means that the autos that crowd our highways will be cars that have seen longer service. Parts must be depended upon for longer life before replacement. There is bound to be more "flats," more blowouts as tires are stretched to the last mile.

**This can mean mounting accidents unless extra care is taken.**

Use common sense—drive at moderate speeds—be alert.

Use elbow grease. Keep tires properly inflated. Keep steering mechanism and under-car parts lubricated; watch lighting systems, cooling systems, oil level. Your service station man can be a good neighbor in this emergency.

You'll find Fleet-Wing service men skillful and willing. Let them help you. Come in for frequent check-up and service. It's your duty to "keep your car up to par," and it's our job to help you do it.

## CO-OP. OIL STATION

**HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH****Cancer**

Cancer is reducible from 30 to 50 percent as a cause of death, according to some estimates, if full advantage is taken of the facts already known about the disease. Before full advantage can be taken of our knowledge of cancer, many of the misconceptions and myths surrounding the disease must be swept away.

Cancer is not an incurable disease in its early stages; it is not catching nor due to a germ; it is not a blood

disease, nor is it passed directly from patient to offspring. Many other misconceptions are held such as the belief that cancer is caused by electrical refrigeration, aluminum utensils, improper diet, etc. All are wrong and serve only to add popular confusion and misunderstanding to a problem already difficult enough itself.

Cancer is a disorderly growth of cells within a patient's body. Curable when adequately treated in its early stages, it is always fatal if left untreated. It is at first a local growth that may spread to other organs if not destroyed or removed.

To date, cancer is treated successfully by one or more of the following: surgery, x-rays, and radium. Quacks and charlatans sometimes claim cures by the use of pastes, ointments, medicines and other means. If any methods

other than surgery, x-rays, and radium had value in treatment of cancer, reputable physicians would be using them. No reputable physician will guarantee to cure any disease, much less cancer.

**Draws Water**

Between 700 and 1,000 gallons of water are drawn from the soil every 24 hours by one average birch tree.

**Wash Hairbrush**

Hygienists say that the traditional "forty strokes at bedtime" are practically waste motion unless the hairbrush that is used is thoroughly clean. The brush should be washed in soapy water once a week, rinsed and set in the sun to air and dry.

**R. N. A. MEETING POSTPONED**

turned to their home here after being called to Missouri by the death of relatives.

George and Bill Coplen attended the funeral of their uncle, Charles Coplen, which was held Saturday afternoon in Rochester.

Master Danny Wenger is confined to the home of his parents on account of illness.

Mr. and Mrs. Bill Coplen and son Dave will spend Wednesday in Indianapolis where they will take their son for a check at the Reilly hospital. Dave has been ill with polio.

CHARLES E. COPLEN DIES  
AT WOODLAWN HOSPITAL

Charles E. Coplen, 77, life-long resident of the Talma community, passed away Thursday morning at 4:30 a. m. in the Woodlawn hospital at Rochester. He had been ill for the past five months suffering from complications.

Mr. Coplen followed the occupation of farming and has a host of friends throughout Fulton county. He was active in the affairs of Newcastle township.

The deceased was born on a farm

near Talma on August 14, 1869 and was united in marriage with Amanda Kraft on March 27, 1890. Mrs. Coplen preceded him in death on April 4, of last year.

Surviving are two sons, T. R. Coplen of Sioux City, Iowa, and Herman Coplen, formerly of Rochester.

Funeral services were held in the Zimmerman funeral home in Rochester Saturday afternoon at 2:00 o'clock, with Rev. Frank R. Briggs, of the Rochester Methodist church, in charge. Burial was in the Reister cemetery near Talma.

HEAVY LOSSES IN EGGS  
SHIPPED TO NEW YORK

Did you know that many of the eggs you ship to New York never get there in a condition that permits them to be used? How many dozen are damaged every month, according to your guess?

Breakage and damage to eggs being shipped to New York from this area have been checked very carefully the past several months and the records indicate that the railroad boys are still a little harder on the eggs than the hens.

The railroad companies pay for the damaged eggs so that no direct loss is sustained by any shipper.

The reports just received on the shipments from Mentone during December, January and February give us the following figures:

Cars shipped, 39.  
Cars arriving in good order, 8.  
Cars with damage, 31.  
No. cases shipped, 22,453.  
No cases with damaged eggs, 3,262.  
Dozens eggs damaged, 10,480.

As stated before, the loss is paid by the transportation companies, but we all know that actually the loss is paid by the shipper in higher transportation costs, and anything that can be done to reduce these losses should react favorably on the freight rate.

Much of the loss, we presume, is due to rough handling while in transit, but in some cases, careful packaging by the shipper would help.

We also learned that losses in the Mentone cars are no greater than in the other cars. In fact, some other points have much greater losses.

LETTER FROM THE KNECHTS  
OVER IN CHINA

Lingnan University  
Middle of February

Dear Friends:

A steady patter of rain is coming down outside which reminds us that the winter season will soon end and the rainy season begin. Several of you have asked us to describe a winter here. Canton, which is about the same latitude as Havana and Calcutta, has a colder winter than either of these places; in fact, no other large seacoast tropical city in the world has so cool a winter. Even so, this is not cold in comparison to a winter in mid-west America; there is never snow, although ice may form once every six years or so. The main difference is that few people have stoves or fuel to offset the drop in temperature. The coldest it has been is 45 degrees, but because the air is so damp the cold is very penetrating. Therefore, we wear several extra layers of clothing. The students, who usually wear Western style clothing, at this season don their long, padded shams, and the poor people put on an extra coat, if they own one. Weather is often commented upon as being two coats cold or three coats cold as the case may be. Now, since the winter is almost over, we have finally borrowed from Dr. Oldt a little, old, odd-shaped wood-burning stove, by which we can warm up and dry out.

Oingnan is the third largest of the nine Christian universities in China. About 250 of the school's thousand students are Christian, so, as in Christian colleges, there is room for improvement. The important phase is interesting those in winning their fellow students for Christ, which is the purpose of the fellowship groups inaugurated during the last term by the Christian Work Committee. This committee is composed of six Chinese and two American—one of whom is John—whose purpose it is to stimulate and guide all the Christian activities on the campus. The students in the university are the future leaders of the country, and one of our great tasks as missionaries is to mold Christian leadership. Most of the students belong to the upper class, which compares very well with our middle class in the United States as far as finance and opportunities are concerned. One of the heartbreaking situations is that the vast multitude of the poor and destitute, are all too often taken for granted by the upper classes. Here again is another opportunity for the missionary. The students must be fired with the Spirit that will spur them on to serve their fellow-countrymen. It's amazing how many are majoring in sociology, economics, and education; they are beginning to sense the need and to see that they can do something about it. John often says he gets more preaching done in his sociology class than he could in a weekly service.

We wish we could take you to Can-

ton on a shopping tour with us. To get the full benefit of the trip you must start with the 5-mile bus ride to the city. As we approach the covered waiting shelter, we see that ten to 125 other people have the same plans as we have; we sit down to await the tolling, chugging sound that heralds the arrival of our conveyance up the chucky lane from the main road to the U. It's a sad looking affair, and we know from past experience that the 20 - minute ride on the board seats (if we get a seat) leaves something to be desired. Standing is not much better, for southern Chinese are short people and the roof was built accordingly—much to the sorrow of John's head! While we are being packed in systematically—according to numbers on our tickets—one of the two drivers has been filling the radiator, which process must be repeated at both ends of the route. Finally we start. Ah, the roads of China! When we aren't slowing up for rickshaws, wheelbarrows, buffalo carts, or pedestrians, we wheel along at 30 miles per hour, careening back and forth across the road in a feeble effort to miss the largest holes. To miss one the driver usually guides us through two others, just to keep us interested. In such a situation one must become a philosopher and be thankful that there is a bus and that we have roads as good as this. To the Chinese, buying is one of the joys in their hard lives, so they turn it into a sort of game. Only in the most modern and well-to-do shops are the prices attached to the articles. So, for example, let's pretend we are going to buy some tinned jam from Australia. It's just one step from the sidewalk into the shop; the man behind the counter stares at us as do all the others in the shop. Then I say in bad Cantonese (much to their amazement), "Do you have jam or don't you, huh?" "Have, have," he says and runs to bring it for me to see. If it suits me which very seldom happens on the first try, I say "How much money to buy this?" and brace myself for the answer, for here is where the game begins. He toys with the spoons on the abacus in a feeble attempt to look business-like, but we can practically see the wheels in his head revolving. He looks up, and here it comes, we know. "Four thousand dollars", he says without batting an eye. I know that the regular price of jam is \$2.50 (about 50 cents two years ago), but because we are foreigners, we are thought to be rich. I know my cue and what I am expected to say, and I say it with vehemence. "Ai, yah! so expensive! I can't buy anything that expensive." Then he says, "How much will you give?" which is what he is supposed to say and then he sits back and watches the wheels in my feeble head revolve. "\$1,000." I say and then you should hear him! You see, we must set the price low, for then we can come to a compromise someplace in the middle. We finally

meet around "2800", but since I am going to buy two, I finally tell him we get both for \$5400. It was a game and we both played the rules fairly, and all concerned—including the crowd which has gathered meantime—have a good time. It may have taken 20 minutes, but who is in a hurry?—besides us who have a shopping list as long as my arm.

The currency is the most annoying problem confronting the Chinese and foreigner in China. In the last week the value of the Chinese dollar (called N. C. for "national currency") has been cut in half. In October, one U. S. dollar bought 3,500 N.C.; last week our dollar bought 13,500 N.C. dollars. This is tragic for the common people, for, although their wages do rise, they cannot hope to rise at the same rate as the price of rice. The people are losing confidence in the government, which may lead to panic or even revolution. It's really quite serious.

January 4 the Marine Lynx arrived in Hong Kong, bringing its second group of missionaries. The Rebers, Misses Schell, Ward and Lefever and Charles Ashley were on board, as well as many of our friends from Yale days. Because of his teaching duties, John couldn't leave, so I was dispatched with strict orders to persuade our very good friends, the Jacksons, on their way to Shaowu near Foochow, to return with me for a short visit before going on. Dr. Oldt and Dr. Shoop were the official reception committee, however. It was quite a difference experience being on the receiving end as the big ship docked, and she looked quite the same as she did the last time we saw her. It had been a rough, cold crossing, on a very crowded ship, much more uncomfortable than our trip was. While there, of course, I was able to do a lot of shopping, not only for us, but also for several friends on the campus who had sent requests with me. Hong Kong has its own currency, which is quite stable, varying from \$4.65 to \$4.80 for one U. S. dollar. Incidentally, as a P. S. to this paragraph, the Jacksons did come later to spend four days with us before going on up the coast to their station.

The Evangelicals have done most of their work in Hunan, just as the U. B. church has worked mostly in Kwangtung province. There is a railroad from Canton into Hunan, so, because of this, we were able to meet many of our "new" fellow-workers, as they waited here for transportation into Hunan. We hope to make a trip there next fall to learn more about their program and to become better acquainted with them. Several came over on the first Marine Lynx with us.

Next term promises to be a busy one. In addition to the sociology course he taught last term, John will be teaching a course in Chinese culture for the overseas Chinese students, e. i. students from Singapore, Australia, Siam and the Philippines. We are increasing our language study

to 5 hours a week which is still sadly insufficient, although it's about all we can do with our other duties. We both will be working in Union Theological college also. John is to give another series of lectures in church history as he did last term, which pleases him very much. I have been asked to teach a course in choir music, which is to include a type of the "ten-easy-lesson" course on playing hymns. The wonderful spirit among those students makes it a joy to teach them. The Lingnan library, hearing that I had had experience of a sort in the States, has asked me to classify and catalogue the English books, both the new ones as they arrive from abroad and the old ones that have accumulated during the war years. Imagine the libraries of China, which have had no new books, magazines, periodicals or pamphlets since December, 1941, and you can see in a small way what a great amount of work must be done. And some universities have no libraries.

Perhaps our next general letter will be sent directly from China, if we can find ways and means of doing it. Continue to pray for us. Remember especially the Christian students in the universities all over China.

Sincerely in Him,

Marjorie and John Knecht.

We have that new Sweet Pea—Cuthbertson—Not too late to plant. Clark's.

HARLEY SPENCER DIES AT AGE 59

Harley Orton Spencer, Sr., aged 59, of South Bend, a resident of Mishawaka for 45 years, died of a heart attack upon his arrival at the St. Joseph hospital at Mishawaka at 5:30 p. m. Friday. He had been ill for two days.

Mr. Spencer, an employe of the Dodge Manufacturing Corporation, was born in Marshall County, Indiana on Sept. 16, 1887 and was married to Miss Hattie F. Hoeflinger, Dec. 25, 1913, in Mishawaka. She survives.

Other survivors include his father, R. Melvin Spencer, Mishawaka; a son, Harley O. Spencer, Jr., Chapel Hill, N. C.; a daughter, Mrs. Raymond S. Steele, Mishawaka; a sister, Mrs. Harry Ellsasser of Mishawaka; a brother, Cecil S. Shoemaker, of Akron, and two grandchildren.

Funeral services were held Monday afternoon in the Harry Ellsasser funeral chapel, Mishawaka, at 1:30 p. m. with Rev. Waldemar M. Goffeney, pastor of the Zion Evangelical and Reformed Church, South Bend, officiating. Burial was made in the St. Joseph Valley Memorial Park cemetery, South Bend.

Mr. Spencer was a cousin to O. C. Montgomery of Talma.

—Newcastle Reporter.

Salting Meat

Salt draws out the juice from meat, so should not be added until the meat is ready to be cooked.

## GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS

On 'CERTAIN DAYS' of The Month!

Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and 'dragged out'—at such times? Then do try Lydia E. Pinkham's Vegetable

Compound to relieve such symptoms. It's *amou*s for this purpose! Taken regularly—Pinkham's Compound helps build up resistance against such distress. And that's the kind of product you should buy. Thousands have reported benefit! Worth trying.

**HILL & LEMLER — PHONE 6**

Posters bearing the timely reminder "Be Extra Alert on Rainy Days" are being distributed by the Chicago Motor Club for March posting in 30,000 elementary school classrooms throughout its territory in Indiana and Illinois. Supplementary lesson sheets explain to the children the special traffic hazards of March's rainy weather—poorer visibility for both drivers and the child pedestrians, and the reduced control of cars on wet, slippery pavements.

### Poultry Pasture Profitable

Research proves that poultrymen can save 5 to 15 per cent in their pullet feed by using a good poultry pasture.

### Flameproof Materials

Cotton, pure silk, viscose process rayon, wool and mixtures of these are easily flameproofed with little or no change in feel, draping, appearance or strength. Fire retardant treatments are usually applied after yarns are made into cloth or after the cloth is made into the finished product. Other treatments that have been developed for outside use are generally specified for such materials as canvas and duck.

### Jap Land Area

The area of Japan proper, including the islands of Honshu, Skikoku, Kyushu and Hokkaido, is less than the state of California. The islands cover 147,707 square miles.

### Rats Spread Disease

Veterinarians say that diseases and losses of livestock are more prevalent on farms where rats are present. In making this claim they name such diseases as white scours of calves, mastitis, ringworm, tuberculosis, contagious abortion (bang's disease), coccidiosis and infectious bronchitis of chickens, trichinosis of swine, and other diseases.

### Rats Expensive

Rats cost farmers \$63,000,000 a year. Those figures are the most recent estimate of the Fish and Wild Life service. The rat population in the United States just about equals the number of people, and it is estimated that half of the total rat population is on farms.

**MENTONE REAL ESTATE**  
Joe Meiser and Ed Staldine

MENTONE, INDIANA

Charles M. Hayes, president of the club, stated that this service, in accordance with the Inter-American driving agreement ratified by the United States and seven Latin American countries, includes the issuance of three documents: (1) an international automobile certificate; (2) an International Driving License, and (3) an International Registration marker to fit on the car's license plates. The Chicago Motor Club is offering this service to all motorists, including non-members, Mr. Hayes said.

**INFLUENZA DECLINING**

The number of influenza cases reported to the State Board of Health dropped for the week ending March 15 to 275. The previous week 529 cases had been reported. Perry county topped the list on the most recent report with 62 reported cases. Washington County reported 60 cases and Jennings County 56.

It should be remembered that these are reported cases. Undoubtedly some mild cases have occurred for which patients did not seek medical atten-

tion; hence, no report was made to the State Board of Health.

Slight drops in the number of reported cases of several communicable diseases were noted, drops which probably represent only normal weekly variations.

Disease	Wk. end.3-8	Wk. end.3-15
Scarlet Fever	161	158
Measles	65	39
Whooping Cough	42	27
Diphtheria	15	13

No new cases of ringworm of the scalp—a disease epidemic this year in several areas of Indiana—were reported.

**HOME-MADE TRACTOR DEVICE  
ROLLS BARBED WIRE WITH EASE**

A simple, home-made device for rolling and unrolling barbed wire is in use by R. La Van Clark, Ford Co., Ill., Prairie Farmer reports in its current issue.

The device, which saves time and wear and tear on the hands, permits rapid building and dismantling of temporary fences which Mr. Clark uses in his field rotation programs for soil conservation.

Clark originally made the equip-

ment to roll up old telephone wire along three miles of road near his farm. "Smooth wire is much harder to roll up than barbed wire," he says, "because it does not have the barbs to lock each round of wire to the reel."

With this equipment he rolled the three miles of telephone wire in two hours.

Another spot where Clark finds the equipment saves time is in the corn field after planting is completed. Planter wire is rolled, taken in another field and unrolled while the planter is changing fields.

Prairie Farmer is offering plans for the device in its current issue.

### HEALTH FACTS FROM YOUR STATE BOARD OF HEALTH

#### Short Weight Foods

In many instances housewives themselves can make certain that they obtain full measure and good quality food by careful attention to labels. The Indiana Food, Drug, and Cosmetic Act, administered by the State Board of Health, requires among other things that no food be mislabeled. This means that food packages must contain the quantity as well as the particular ingredients indicated

on the label.

In most cases these two conditions are met. Reputable merchants are as interested in the good will of their customers as the customers are in the selection of their food.

Some stores and markets weigh and prepackage foods formerly sold in bulk, such as beans, potatoes, onions, some fresh vegetables and similar foods. Occasionally they are found to be short of weight. Potatoes have a tendency to lose weight from evaporation and if they have been held in storage any length of time, may shrink appreciably.

It is reasonable to request merchants on occasion to reweigh prepackaged food. Such requests do not necessarily cast suspicion on their motives. Many times merchants are unaware that items fall short. But this simple request will assure that housewives get what they pay for.

#### HEALTH BULLETIN

A total of 529 cases of influenza, 500 of them in Hamilton county, were reported to the State Board of Health for the week ending March 8. The previous week, 138 cases were reported.

This represents considerable increase, but falls far short of reports for similar periods during genuinely epidemic years. The rise in the number of cases is considered fairly normal for this time of year and does not necessarily indicate that the epidemic predicted last autumn will materialize.

Some well qualified observers are convinced that most of the cases observed do not present classical symptoms of influenza. Most of the cases occurring now recover fully in three days.

One hundred sixty-one cases of scarlet fever were reported for the week ending March 8. This represents a rise of 33 over the previous week's report. So far this year 1,113 cases of scarlet fever have been reported.

Ringworm of the scalp, epidemic this year in many areas of Indiana, dropped from 58 new cases reported March 1, 1947 to 4 for the week ending March 8, 1947.

Fifteen new cases of diphtheria were reported for the week ending March 8, 1947, about the average of weekly cases usually reported at this time of year. Physicians and public health authorities maintain that diphtheria can be eradicated by immunization.

#### ENTERTAINS AT BRIDGE

Mrs. Elery Nellans, of near Crystal Lake, was hostess Thursday evening to a social meeting of the Psi Iota Xi sorority. She was assisted by Mrs. DeVon Hibschman. Decorations used throughout the rooms and the appointments were in keeping with Easter season. Bridge was enjoyed in which first prize was won by Mrs. Wilvin Teel and second by Mrs. Maude Snyder. Mrs. Earl Anderson received the door prize. Mrs. William Hudson and Mrs. Byron Nellans were guests. Others present were Mesdames Glen Weatherbee, of Argos; Wayne Nellans, Howard Shoemaker, Ralph Mollenhour, Max Nelans, Harold Utter, George Yehlick, Mott Bryan and Curtis Riner, of Mentone and vicinity.

#### Farm Output Climbs

Wartime gains in farm production stem largely from long-time yield increases. Aggregate yields for the nation's 18 main field crops — making up 95 per cent of all crops — climbed 19 per cent during the war. Total output of field crops rose nearly one-fifth, whereas total acreage in all crops increased only 3 to 4 per cent from prewar.

Rev. John K. Arnot, Pastor

Sunday School, 9:30 a. m., Orville Elzinger, Superintendent.  
Morning worship, 10:30.  
You are invited to these services.

Grow Smaller Tails  
Animals living in cold regions have smaller ears and tails than those dwelling in warm or moderate regions.

## METHODIST CHURCH

Mentone, Ind.

Rev. A. G. Simmons, Pastor  
Elizabeth Blue, Church Secretary  
D. L. Bunner, Church Treasurer

Promptness and faithfulness will bring success.

Morning Worship 10:00. Subject: "The Feast of the Passover".

Junior church at this hour in charge of Mrs. Simmons.

Sunday School 11:00.

Raymond Lash, Superintendent.

Classes for all ages.

Youth Fellowship 6:30.

Prayer Meeting Thursday 7:30.

The W. S. C. S. will meet Friday April 6 at the home of Mrs. Curt Nellans.

This is Palm Sunday, bring your guests, friends and neighbors to all these services where a hearty welcome awaits you. At the close of the Sunday School each person present will be given a piece of Palm Leaf, which is said to come from the Holy Land. Be sure to be there to get your piece.

May this Twelfth Century Prayer be our prayer:

"Thanks be to Thee, my Lord Jesus Christ,

For all the benefits Thou hast given me.

For all the pains and insults Thou hast borne for me.

O most merciful Redeemer, Friend, and brother,

May I know Thee more clearly,

May I love Thee more dearly,

May I follow Thee more nearly."

Amen.

### TIPPECANOE METHODIST CHURCH

A. G. Simmons, Minister

Sunday School 10:00.  
Prayer meeting every other Friday night.

Preaching the second and fourth Sundays of each month.

All Methodists and others interested are urged to be present at all services where a hearty welcome awaits you.

THY WORD IS A LAMP UNTO MY FEET, AND A LIGHT UNTO MY PATH. (Psalm 119:105)

*Wine is a mocker, strong drink is raging: and whosoever is deceived thereby is not wise. (Prov. 20:1)*

### A Saloon Keeper's Statement.

A saloon keeper had some large business cards printed advertising his business as follows:

"Friends and Neighbors: I am grateful for past favors, and having supplied my store with a full line of choice wines and liquors, allow me to inform you that I shall continue to make drunkards, paupers and beggars for the sober, industrious, respectable part of the community to support. My whiskeys will incite riot, robbery and bloodshed.

"They will diminish your comforts, increase your expense and shorten life. I shall confidently recommend them as sure to multiply fatal accidents and incurable diseases.

"They will deprive some of life, others of reason, some of character, and all of peace. They will make fathers fiends, mothers widows, children orphans, all poor. I will train your sons in infidelity, dissipation, ignorance, lewdness and every other vice. I will corrupt the ministers

of religion, obstruct the gospel, defile the church and cause as much temporal and eternal death as I can. I will thus accommodate the public; it may be at the cost of my never-dying soul, but I have a family to support, the business pays, and the public encourages it.

"I have paid my license and the traffic is lawful, and if I don't sell it, somebody else will. I know the Bible says, 'Thou shalt not kill.' No drunkard shall enter the kingdom of heaven, and I do not expect the drunkard-maker to fare any better, but I want an easy living and I resolved to gather the wages of iniquity and fatten on the ruin of my species.

"I shall therefore carry on my business with energy and do my best to diminish the wealth of the nation and endanger the safety of the state. As my business flourishes in proportion to your sensuality and ignorance, I will do my best to prevent moral purity and growth.

"Should you doubt my ability, I refer you to your pawnshops, the poor house, the police courts, the hospitals, the penitentiary, and the gallows, where you will find many of my best customers have gone. A sight of them will convince you that I do what I say. Allow me to inform you that you are fools, and I am an honest saloon keeper."

Signed—J. J. McMurtrey.

**VETERANS TO FILE  
CLAIMS BY APRIL 5**

Burl W. Miller, Chief of the Rehabilitation and Education Division, Indiana Regional Office of the Veterans Administration has stated that approximately 250 veterans in Indiana are being notified of their suspension from government subsistence rolls due to their failure to report their earnings by March 5. Veterans whose claim numbers end in 5 and 6 were required to report to the VA by March 5, their earnings for the past four months. In the letters notifying the veterans of their suspension from the subsistence rolls, veterans were informed of the reasons why they have been dropped and instructions were given as to how they can get their subsistence payments reinstated, Mr. Miller said.

Mr. Miller said that letters are currently being sent to veterans in training or attending school whose claim numbers end in 7 or 8, notifying them that a report of their earnings is due on April 5. Instructions on how to comply with these regulations are contained in a letter to each veteran concerned.

**HOW WAS YOUR TRIP?**

The average motorist spent \$93.65 on his highway vacation travel during 1946, and vacation bound cars contained an average of three persons each. Sixteen days comprised the average vacation and trips averaged 2,567 miles.

In a survey just completed by the Chicago Motor Club and other affiliated American Automobile Association Clubs, it was also found that of the sixteen days spent on vacation, eight and one-half were given over to travel.

As to overnight accommodations, 35 percent of the motorists queried used a combination of hotels and motor court or tourist homes enroute; 26 percent used hotels exclusively, 25 percent chose motor courts, while 14 percent stayed at tourist homes. Nearly half of all the reporting motorists visited one or more of the national and state parks.

**Plenty in U. S.**

While in America we have an average of 3½ acres of arable land per person, the need the world over, for good living, is 2 to 2½ acres per person.

### MENTONE READING CLUB

The Mentone Reading Club members enjoyed an anniversary dinner at the Westminster Hotel, Winona, last Wednesday evening, March 19.

The officers for this year, the incoming officers and the guest speaker were seated at the long table which held a floral centerpiece of daffodils and blue iris and double candelabra with yellow candles at each end. The other members were seated at small round tables, the only decoration being the two yellow candles, and individual place card holders of dolls in white and pastel blue.

Following a delicious chicken dinner the group went to the Rainbow Room.

A vocal duet, "Rustle Of Spring," was then sung by Marilyn Tucker and Winifred Eiler. This was followed by a solo, "Morning," by Marilyn and two solos, "The Green Cathedral" and "Homing," sung by Winifred. Mrs. Maude Snyder was at the piano.

The main feature of the evening was "Godey's Ladies," given by Mrs. J. M. Richer, of South Whitley. Mrs. Richer illustrated a number of characters from Godey's Ladies' books with dolls in colorful costumes from that era in history. Mrs. Richer had made all the dolls and costumes, and the review was very much enjoyed.

A piano solo, "Grieg's Concerto," by Marilyn and a vocal duet, "The Barcarolle," by Winifred and Marilyn, brought the evening to a close.

### COUNTRY NEIGHBORS MEET

Country Neighbors' Home Economics club met Thursday afternoon, March 20, at the home of Emma Zolman. Club creed, Dorothy Busenbarg.

Easter devotions, Arlean Walters. Song of the month, "The Church's One Foundation."

Roll call, a "A Quick Sugarless Dessert."

Secretary's report.

Business, voted to make donations to the Red Cross and U. S. O.

Project lesson, "Making Rugs," by Doris Newton and Lisette Notz.

A social good time followed the program. The hostess and her assistant, Kathryn Teel, served refreshments of perfection salad, nut bread sandwiches, St. Patrick favors and coffee to 22 members and three guests.

Robert Nelson and a fraternity brother of Northwestern University, Evanston, Illinois, have been visiting in Mentone the past week.

Onion sets and certified seed potatoes. Clark's.

### Chicken Meat

Dark meat of chickens is richer in the vitamins riboflavin and thiamin, but the white breast is higher in content of niacin, another vitamin, according to the department of agriculture.

Ferry's Seeds at Clark's.

Dr. and Mrs. David Laird, of North Webster, spent Sunday afternoon with Mrs. Laird's mother, Mrs. Johnson.

Mr. and Mrs. Christie Hassett and son Steven, who have been guests of Mr. and Mrs. Mahlon Jefferies, returned to their home in Two Harbors, Minnesota on Sunday.

### Alfalfa Yield

High yields of alfalfa result from the extensive root system, the volume of soil in which the alfalfa feeds and the long growing period.
