## MENTONE WINS SECTIONAL TITLE

### Decisively Defeat Warsaw In Final Game Saturday Night.

The Mentone high school basketball team, playing the finest brand of basketball they had during the sectional tournament held at Warsaw last week, defeated the strong Warsaw Tigers 55 to 72 to win the sectional title and the right to represent this area in the regional tournament at South Bend Saturday, March 6th. Mentone meets Elkhart—rated second best team in the state by sportswriters—in the first game Saturday afternoon at 1 o'clock. The game will be televised over station WSBT-TV and WRSW AM and FM will broadcast the games directly from the John Adams gym. If Mentone wins the afternoon game they will meet the winner of the South Bend Central-LaPaz game for the regional crown that evening.

Mentone met Larwill in their first sectional game and won 88 to 68. Sidney furnished the boys plenty of action in their second game, and Pierce-ton was determined to upset the Bulldogs in the Saturday afternoon semi-final game. Mentone won both games 67 to 58 and 78 to 68, respectively.

Of the 64 sectional winners Saturday night, only three teams in the state averaged more points per game than Mentone. Mentone's average for four games was 76.3 points. New Albany averaged 87.3. Seymour 78 and Lafayette 80. Two of the above teams, however, played but three games to win.

A record of which the Mentone boys can be proud is that in two tourneys only one player was lost because of personal fouls.

Many Mentone business places are covering their store fronts with appropriate signs to pep up the boys so they might win the regional.

Several hundred people were on the streets of Mentone following the game Saturday night, and a large bonfire was burning as the team came home.

A rather unfortunate circumstance developed when an auto driven by James Scott crashed into two parked autos east of town. Mrs. Inez Wagner and son Dee and a young lady from near Etna Green were injured. The

## MISS GERALDINE LOWRY

Miss Geraldine E. Lowry, 48, Mentone, died at 9 a.m. Tuesday at the home of her sister, Mrs. Harold Utter, Mentone, where she had resided the past several years.

Miss Lowry was born August 28, 1905, in Streator, Ill., the daughter of Russell and Mae (Pointius) Lowry and had resided since 1912 in the Poplar Grove and Argos communities.

Survivors include a brother, Robert R. Lowry, Argos, five sisters, Mrs. Marjorie Amos, Mishawaka, Mrs. Grace Gochenour, Route 3, Argos, Mrs. Mildred Rhodes, Tippecanoe, Mrs. Aleene Adams, Route 2, Akron, Mrs. Utter and several nieces and nephews.

Funeral services will be held at the Grossman funeral home, Argos, at two o'clock Thursday afternoon, with Rev. David Gosser, of Mentone, officiating. Burial will be in the Poplar Grove cemetery, southwest of Argos.

Mrs. Fisher who has been caring for her new grandson and daughter, Mrs. Leslie Grant, has returned to her home in Ontario Canada.

## SHAFFER - SHAFFER

Miss Jeanice Shaffer of Argos became the bride of Max V. Shaffer in a marriage ceremony at 2:30 p.m. Saturday in the Congregational Christian Church. The single-ring service was read by the pastor, Rev. Hubert Clevenger, Jr.

The bride is the daughter of Mr. and Mrs. D. B. Shaffer of Argos and Mr. and Mrs. Noble Shaffer of Tippecanoe are the parents of the bridegroom.

A reception was held for 80 guests at the home of the bride's parents following the wedding.

After a trip through the South, the couple will reside at 812 N. Main St., Mishawaka.

The bride is a graduate of Argos High School and student of Sherwood Music School, Chicago. Her husband is a graduate of the Tippecanoe High School and Brown's Florist School in Cleveland, O., and spent four years in the U. S. Army.

Jody Horn, daughter of Mr. and Mrs. Howard Horn has the chicken pox.

## TO DEDICATE NEW SCHOOL UNIT

### Lawrence Bell to Be Main Speaker at Special Program Wednesday.

Lawrence Bell, president of the Bell Aircraft Corporation of Buffalo, N. Y., who was born in Mentone April 5, 1894, will be the main speaker at the formal dedication services for the new Mentone school unit, to be held here on next Wednesday evening, March 10th. The public is invited to attend the program which is scheduled to begin at 7:30 o'clock. Mrs. Opal Tucker, Mrs. Robert Hoover, Carroll Eller, Walter Kent, Noah Tinkey and Kenneth Riner are on the planning committee.

A complete program for the evening will be found elsewhere in this issue.

## WITHAM

Mr. and Mrs. Curley (Dean) Witham are the parents of a 7lb. 7 oz. son born last Friday at the Murphy Medical Center. The new boy has been named John Arthur. Mother and baby came home on Tuesday.

## CLUB CALENDAR

The Jolly Janes Home Demonstration Club will meet with Mrs. George Mollenhour of Palestine on Monday, March 2, at 8:00 p.m.

Mentone Home Demonstration Club, will meet Thursday, March 11, at 1:30 with Mrs. Masa Nelson.

Merry Molly's Home Demonstration Club, Monday evening, March 8, 7:30 with Mrs. Lamar Leffert.

Due to illness of Bertha Meredith, The Mothers of World War II, Unit 106, have changed their meeting place from her home to the Methodist church, Monday evening, March 8, at 7:30.

The American Legion Auxiliary will meet at Legion home Tuesday evening, March 9 at 8 o'clock.

## COMMUNITY SINGSPIRATION

The Community Singspiration will be held at the Silver Creek Church on Saturday night, March 6, at 7:30 p.m. The speaker for the evening is Paul Hoffman, center on the Manchester College basketball team.

Everyone is invited.

## Walkin' "My Baby" Back Home

(Polaroid One Minute Photo by Art Cullum)

Coach Abe Hoogenboom was doozed for a bit of exercise after his high school basketball team won the sectional tournament at Warsaw last Saturday evening. The above photo shows him carrying that winning basketball along highway 25. Coach Hoogenboom, Max Friesner and Floyd Rule left Warsaw about 1:30 o'clock Monday afternoon and arrived in Mentone about five o'clock. Earl Boggs joined the group at his farm and finished the jaunt with them. Others joined in the walk at various times along the 12-mile route.

## 1954 SECTIONAL CHAMPS

The photo above, loaned us by the Warsaw Times-Union, was taken following the winning of the 1954 Sectional basketball title at the Warsaw Armory Saturday night. From left to right are: Bob Boggs, Bob Holloway, Larry McKinley, Larry Linn, Jon Cul-lum, Coach Abe Hoogenboom, Principal Walter Kent; Larry Boggs, Jerry Tinkey, Clarence Dickey, Charles Ross and Francis Rickel.

1940

## SECTIONAL CHAMPS

Mentone won its last sectional title in 1940, and the picture to the left shows the team. They were:

(Back row) — Carl Whetstone, Dean Shirey and Eldred Paulus.

(Center row) — Dale Kelley, principal; John Tucker (deceased), Richard Mar-warding, Lowell Marcus and Walter Fenstermaker (deceased), coach.

(Front row) — Paul Horn, Wayne Bowser, Eugene Sarber and Bob Miner.

Mentone, we understand, also won the sectional the previous year, and in 1935 and 1931.

#### HARRISON TOWNSHIP FARM BUREAU MEETS

35 members and guests of Harrison Township Farm Bureau met at the Mentone High School Cafeteria, February 26.

Meeting opened by vice chairman Ray Wiltout in absence of chairman, Carl Mahoney.

Speaker, Marion Stackhouse, second district, Fieldman of Farm Bureau who spoke on "Clarification of Farm Bureau Insurances. Public Relations and a group discussion was held with members.

Two solos by Vance Johns and S. & E. leader, Sylvia Stickler, announce next month's committee, Mr. and Mrs. Floyd Blackwell, Mr. and Mrs. Forrest Grubbs, Mr. and Mrs. Hugh Rickle, Mr. and Mrs. James Clark, Mr. and Mrs. William Blackburn.

The next meeting will be March 24.

#### CLOSE AT 12:30 SATURDAY

"Mac" McKinley called the first of the week and stated he was leaving for the State Lumbermen's Convention at Indianapolis Tuesday, and that he also planned to close the Mentone Lumber Company at 12:30 Saturday afternoon so he and his employees could witness the regional basketball tourney at So. Bend.

Co-Op Building Dept.

#### LIONS INVITED

The Akron Lion's Club will hold a banquet in the main dining room of White's Institute, located 15 miles south east of Wabash, Tuesday evening, March 9.

The dinner will be preceded by a tour of the campus.

Supt. Robert Curless will keynote the banquet with a welcome to the Lions and guests. There will be an evening of entertainment, recognizing an institution devoted to the welfare of homeless children.

The guest speaker for the evening will be Mr. Ted Harp, philosopher and humorist and Lion president of Sidney. Mr. Harp will speak on "Citizenship in Action."

The Akron Lion's Club is inviting all area Lion members and wives. Reservations must be completed by March 7 with Irvin McHatten, membership chairman, of Akron.

#### CARD OF THANKS

The family wishes to express their sincere thanks for the cards, beautiful floral offerings, the friends and neighbors for furnishing the dinner, the Friendship club, Mentone Co-op and the many acts of kindness shown during the stay at the hospital and passing of our husband and father.

Mrs. George A. Blackburn  
and family

#### LOCAL NEWS

Mr. and Mrs. Donald Horn and daughter spent Sunday in Elkhart.

Mrs. Mariabel Riewoldt and Mrs. Howard Horn were in Warsaw Tuesday forenoon on business.

Mr. and Mrs. Clarence Horn and family of Rochester, R. 1, were Saturday evening visitors at the home of Mr. and Mrs. Donald Horn.

Juniors and Seniors class play, "Care of Springtime" March 4-5 at Beaver Dam.

**PURDUE ADVISES ON  
REDUCING GARDEN LOSS**

Root, fruit and leaf rot losses in the vegetable garden can be reduced if certain cultural and chemical practices are followed. Here's how a Purdue University plant pathologist, R. W. Samson spells them out.

The place to begin, says Samson, is with the garden soil. A well-drained, well fertilized seedbed will promote vigorous growth, and plants will tend to

outgrow some diseases.

Then chemistry steps in to help the home gardener. Many seedsmen treat garden seeds with chemicals that will aid in warding off seedling blight. If the seed you buy has not received this protection, you can treat the seed with Arasan or Spergon. These two commercial preparations are available from many farm stores, and instructions for their use are printed on the package. These seed treatments are inexpensive and well worth the money, Samson adds.

To control fruit and foliage diseases of potatoes, tomatoes, cucumbers and muskmellons during the growing season, Samson advises laying in a supply of chemicals now. Fungicides containing copper compounds will control most diseases of these vegetables and, if necessary, DDT or rotenone can be combined to control insect pests.

All-purpose combinations of fungicides and insect killers are probably too expensive for use on large acreages, but they are convenient for use in the home garden.

The Purdue plant pathologist recommends using these materials at weekly

intervals. A regular spray or dust schedule is particularly important during periods of wet weather, because many disease organisms are spread by dew or rain.

Mr. and Mrs. Gilbert Griffis and family and Mrs. Judy Trowbridge of

Bourbon spent Sunday with their mother, Mrs. Jennie Ford of Tippecanoe.

Mr. and Mrs. Charles Pittman of Bremen, Mr. and Mrs. Elmer Baset and family of Lake of the Woods were Sunday guests of Mr. and Mrs. Elwin Teel and family.

### NEWCASTLE TOWNSHIP NEWS

A number of sports fans from this community attended the basketball tourney at Winamac over the weekend.

Mrs. Charley Green has returned to her home here after visiting with her son-in-law and daughter, Mr. and Mrs. Robert Kale and family of Plymouth.

The Talma Rod and Gun Club held their monthly meeting at the home of Lavoy Montgomery on Friday evening, February 26. The meeting was in charge of the president, Joe Duzan. There was a business meeting held and following the business meeting refreshments were served. The next meeting will be held on Friday evening, March

19 at 7:30, the place to be announced later.

Mrs. A. J. Blakley who underwent major surgery recently at the Memorial hospital at South Bend is able to sit up part of the time and may be able to be removed this week end to the home of her nephew Lavoy Montgomery.

Mr. Carl A. Dick of South Bend called on his father, Mr. W. A. Dick Sunday afternoon.

Mr. and Mrs. Fred Roe of Akron were the guests of their son-in-law and daughter, Mr. and Mrs. Harry Sriver and family Thursday evening.

Mr. Lavoy Montgomery attended a Red Cross meeting at Rochester Monday evening.

● Today good will may starve to death. Keep it alive with customer courtesy and careful advertising

Folks from the Bureau of Internal Revenue love to see some tangible proof of expense. And in going over a taxpayer's books, no evidence is better than cancelled checks to support a deduction.

That's why you're wise to pay by check. And if you don't, it's just good business to open a checking account before another day goes by. Stop in!

## DO YOU RECOGNIZE THIS SET OF FARM BUILDINGS?

### WHOSE FARM IS THIS?

Can you identify the farm pictured above? This is another of the farm pictures to be printed in the Co-Op. News, and as no one knows whose farm it is, can you help identify it? There's no prize to the first to tell us whose farm it is, but it is interesting to know who will be first in reporting the information to this newspaper.

Call, phone or write us if you believe you know the farm.

The farm pictured in our last issue has been identified as that of Floyd Creamer, about five miles northeast of Mentone. Mr. Creamer has not called for his free picture, but his son was in and identified the place as that of his father and mother.

Those who called and correctly identified the farm were:

Janice Nelson, Betty Griffiths, Roy Rush, Marvin Creamer, Jim Fitzgerald, Ed Smelser, Fred Rush, Mrs. Kenny Boggs, Ed. Severns, O. R. Koser, Reed Riner and Russell Hoffer.

### FERTILIZER HELPS GET WINNING CORN YIELDS

Fertilizer made 100 bushels an acre difference in getting a winning five-acre corn yield in the junior contest this year, says James Brown of Vigo county. He set a new junior yield record with 192.5 bushels, and he credits this accomplishment to the heavy applications of fertilizer.

For his championship corn, Brown plowed under 1400 pounds of 8-8-8 per

acre, and 300 pounds of 32.5 percent nitrogen. Then he put another 200 pounds of 8-8-8 in a row. This cost him about \$68 per acre for fertilizer, he told W. R. Amick, who works with the junior corn program for the 4-H Club department at Purdue University. The program is sponsored by the Purdue agricultural extension service and the Indiana Corn Growers Association.

Brown added that the fertilizer advanced the corn's maturity by 10 to 20 days. The field where he grew corn was clay loam and level. It had been in clover in 1952 and had four tons of manure per acre that year. Brown planted the rows 38 inches apart and the hills six inches apart. He cultivated the field four times, including twice with a rotary hoe.

Making a strong bid for the championship honors, Robert Klinkhamer of Brookston harvested 191.2 bushels of corn per acre to take second place. He grew his reserve champion's yield of

five acres of field that were left in pasture for some 50 years.

He used no more than 300 pounds of fertilizer to the acre, and attributed most of his success to the natural high fertility of the field when it was plowed. Klinkhamer applied 200 pounds of fertilizer per acre in the row with the planter and plowed under 100 pounds of ammonium nitrate.

Winner of the 1952 contest, Denver Lauber of Ripley county, ranked third in 1953 even though he had a 14 bushel higher yield than he had the year before. As methods for corn improvement that he has put into practice he lists "adding more fertilizer, planting a little thicker, and hoping for rain."

Lauber's rotation is corn, soybeans, wheat, and clover. To get his yield in 1953 he plowed under 400 pounds of 10-10-10 fertilizer per acre, and 200 pounds of 20 percent nitrogen. In addition he drilled 200 pounds of 4-16-16 in the row per acre, and broadcast 200 pounds of 50 percent potash per acre.

# SCHOOL NEWS

## Trustees and Principals Meet

On Monday, the principals and trustees of Kosciusko County Schools met at the Mentone School for a luncheon and business meeting. Thirty-four attended. The noon meal was prepared by the school cooks. Following the luncheon a tour of the buildings was conducted by school officials. During the business meeting the school calendar for 1954-55 was considered and adopted.

## No School On Wednesday

Due to the severe blizzard on Wednesday, school was called off. Several of the neighboring schools were unable to hold classes. According to attendance rules, it will be necessary to make up this day. Pupils who had paid for their lunch will be credited a meal for next week.

## Report Cards To Be Distributed

Last Thursday was the end of the first grading period of the second semester. Report cards will be distributed on Thursday. They should be signed and returned to the school promptly.

## Mentone School On The Air

The regular school broadcast will be

heard over WRSW at 7:00 next Monday evening. Pupils and parents are encouraged to listen to these broadcasts regularly.

## Teachers To Attend Fish Fry

A number of Mentone School teachers are planning to attend the Kosciusko County Teachers' fish fry at Silver Lake next Tuesday evening. This is an annual event sponsored by the Warsaw and Kosciusko County teachers. Entertainment this year will feature the play "Our Town" staged by the Fort Wayne Civic Theatre.

Intelligence tests were given to the tenth grade last week.

A new acetylene welding outfit has been purchased for the farm shop.

Mentone elementary teachers have been appointed to serve on the committee to choose new reading books for next year.

## Junior High Defeated at Pierceton

In the first round of the Junior High tourney the local boys lost to Milford by a 56-34 score. The tourney will continue for three more nights at Pierceton.

## DAVID COOPER IMPROVING

David Cooper is much improved at this writing. He returned home from Wright-Patterson hospital on Tuesday, February 23, after being a patient there for 6 days. He is still very weak.

## OPEN ESTATE

The estate of George A. Blackburn, who died February 21, has been admitted for administration in Circuit Court. He left \$15,000 in real estate and \$15,000 in personal property. The court has appointed two sons, George Jr. and Lester, as administrators.

## MRS. WILTROUT ENTERTAINS WOMEN'S SOCIETY

The Palestine W.S.C.S. of the Methodist church met at the home of Mrs. Ray WiltROUT with Mrs. Ada Brown as assisting hostess on Thursday for an all day meeting. At the noon hour a delicious carry-in dinner was served. In the afternoon the president, Mrs. WiltROUT conducted a short business meeting. Mrs. Roy Stickler gave the devotions and Mrs. Ray Eckert gave the lesson which was assisted by Mrs. Albert Tucker, Mrs. Neil Estlick, Mrs. Delbert East, Mrs. Geraldine Perry.

The guests present were Rev. and Mrs. A. Rider and Mrs. Emmett Clark, Mrs. Earl Bruner, Jr. and Danny. Members present were Mrs. Floyd Blackwell, Mrs. Floyd Faurote and children, Mrs. Eldon Horn and Karen, Mrs. Orval Secor and sons, Mrs. Geraldine Perry and Dawn, Mrs. Dale WiltROUT and children, Mrs. George Hipsher, Mrs. Neil Estlick, Mrs. Edison Vandermark, Mrs. Art East, Mrs. Alva Crowl, Mrs. Delbert East, Mrs. Delbert Drude, Mrs. Joe Stickler, Mrs. Earl Bruner, Sr., Mrs. Roy Stickler, Mrs. Ray Eckert, Mrs. Albert Tucker, Mrs. Jesse Jones, and the hostess, Mrs. WiltROUT and Mrs. Brown.

The next meeting will be held March 25 at the home of Mrs. Neil Estlick.

## DR. ANGSTROM GUEST SPEAKER AT KOSCIUSKO COUNTY POULTRY ASSOCIATION

Dr. D. I. Angstrom, director of the Regional Veterinary Diagnostic Laboratory located at Kingston, New York, was the guest speaker at the February meeting of the Kosciusko County Poultry Association, a group of poultrymen in Kosciusko County in Indiana, the "Egg Basket of the Middle West."

Dr. Angstrom discussed his experiences with poultry diseases in the Hudson Valley poultry section of New York State. Sixty-five persons were in attendance.

Dr. Angstrom said that a killed Newcastle vaccine is practically unheard of in his area. He described the bronchitis vaccination program, whereby poultrymen bring a few birds to his lab for infection, and then these birds are turned loose in the owner's flocks.

He explained a new trend whereby growers depopulate the whole farm. When the new batch of pullets begins production, such poultrymen have found that production is superior to past years. In some cases broiler growers raise the replacement stock on a contract basis for the egg farmer.

Coccidiosis is still a major problem in the Hudson Valley area, and Dr. Angstrom discouraged the use of preventative levels of drugs in the feed. Good management is the important thing, while sulfaquinoxaline is ideal for treatment. He pointed out that treatment in the feed was superior to adding the sulfa drug to the water. It is important for the poultryman to know which type of coccidia are present for intelligent treatment.

He pointed out that nutritional deficiencies were of minor importance in the East since commercial feeds are used almost entirely. Dr. Angstrom said that this was different from the Mid-West, where many farmers mix their own home-grown grains.

A management factor resulting in a "disease" was pointed out by the speaker. Many times dehydrated birds are brought into the Laboratory, and each of the cases can be traced back to a lack of water. Generally this occurs at five days of age, when automatic waterers are installed, and when the birds are housed.

## ENTERTAIN BASKETBALLERS

After the high school basketball team returned from practice in the John Adams gym Wednesday evening, Frank and Jerry Smith entertained the players, Coach Hoogenboom and the yell leaders with ice cream and cake. The cakes were decorated with the names of all involved.

## SEE THE TOURNEY AT BAKER'S

Joseph Baker states that he will have a TV set tuned in for the regional tourney games Saturday, and welcomes anyone to come in and witness them.

Mrs. Richard Greulich is somewhat improved after being very ill at her home. Miss Lois Greulich, has been at home the past week to help care for her mother.

### MANY AMERICANS ARE CARRYING TOO MUCH FAT

It seems rather ironical that while half the people of the world have little more than enough to eat Americans are suffering from diseases caused by being overweight. In fact, at a recent meeting of the American Medical Association, more than 50 of the research talks given were about health hazards related to overweight.

As explained in a new booklet prepared by Lois Oberhelman, nutrition specialist at Purdue University, the primary cause of overweight is simply overeating. Many people try to excuse themselves by saying, "But I just don't eat a thing, it's my glands"; or, "It's inherited — all of my family were overweight." Most of the time these are only excuses.

If, however, you think overweight is due to glands, see your doctor at once. He can help you lose weight in spite of glandular trouble. On the other hand, if you think that you "don't eat a thing," try keeping a record of the calories that you eat in a day's time. Count also the nibbles and tastes that you take between meals.

As pointed out in this short, illustrated booklet weight can be reduced by

subtracting calories. To lose one pound a week, cut 500 calories from your diet each day, 1000 calories to lose two pounds. However, do not attempt to lose more than two pounds a week unless you are under a doctor's supervision.

A complete list of the average daily calories needed by various people of different ages is included in this booklet, entitled "Your Weight — Signpost to Health, Energy, Longer Life." There is also a list of foods normally included in the American diet, giving the number of calories of each. For more information on weight control, ask your local county agent. Just ask for the bulletin on "Your Weight."

### STUDY IRRIGATION NEEDS BEFORE WORK IS STARTED

Without a doubt, supplemental irrigation has a place on many farms, but Hoosier farmers are cautioned about hastily buying irrigation equipment for their enterprise.

Donald R. Sisson, Purdue University extension agricultural engineer, says more and more farmers are finding that careful study of their needs plus preliminary planning should precede heavy investments in irrigation equip-

ment.

He says farmers should ask themselves this question, "Do I have enough water to make irrigation feasible?" It takes from six inches to more than a foot of water per year, depending on the crop irrigated and the severity of the drought. Wells, stream and lakes, of course, are the major sources of water for irrigation in Indiana.

Then there's the questions of "How much water should I put on per application?" and "What should be my time interval between applications?" These are queries that must be carefully determined, and their answers depend for the most part on the crop irrigated and the soil conditions.

Many different makes and several types of pumps, power equipment and distribution systems are currently available, reminds Sisson. Undoubtedly, the system used will have to be tailored to fit the requirements of each farm.

"Plan before you buy" seems the wisest advice for the farmer who wants to try irrigation.

Don't forget to order trees from the state nurseries for planting next spring, remind Purdue University foresters. Application blanks are available from your county agent. Trees must be ordered before the tree planting season opens about the middle of March.

**NO CONSISTENCY TO  
PRESENT EXCISE TAXING**

The flat-rate manufacturers' excise tax proposed by the National Association of Manufacturers would remove injustices in the present selective excise system by taxing all manufactured products except foods at a single, moderate rate, Fred Maytag II, President, Maytag Company, Newton, Iowa, and NAM Director for Iowa and Chairman of NAM'S Taxation Committee said today.

Emphasizing that the NAM is not proposing a "new tax," Mr. Maytag said that the American people right now are paying nearly \$10 billion a year in excise taxes. He released a list, com-

piled by the NAM, of some 375 commonly used articles and services now taxed up to 25 per cent.

"Anyone who looks over this list will see immediately that not only do we have excise taxes today, and plenty of them, but that they are an unfair and illogical hodge-podge," he said. "Even tax experts can't keep track of what is taxed, what the rates are, and what is untaxed. Certainly the average citizen doesn't know what he pays in excises."

"Nearly all common home appliances are taxed, at 10 per cent; light bulbs at 20 per cent; telephone calls at 15 to 25 per cent; fountain pens at 15 per cent, and auto parts at 8 per cent. How some of the taxed articles were selected, and how the rates were fixed, is a mystery to most of us."

Mr. Maytag explained that the NAM recommends that all present excises be junked, and replaced by a flat-rate tax on all end products of manufacture except foods. Alcoholic beverages and tobacco would continue to be taxed separately.

The association's proposal, he said, would eliminate excise taxes on all services, including rents, and on all admissions to theatres, concerts and sporting events.

The NAM does not advocate any increase in the present excise tax burden, but simply a single rate, across-the-board tax, to raise approximately the same amount of revenue as the present system yields. A flat rate of a-

## 4-H CLUB CHATTER

By Ruth Snellenberger

Dear 4-H Members and Friends:

As a forerunner to National 4-H Enrollment Week, March 6-14, I should like to inaugurate this weekly letter to you.

Why do I call it 4-H Club Chatter? Well, when I think of sports, such as basketball and softball, I think the "chatter" that goes on among the players keeps up the interest in the game and the morale of the players. Even though a team may be behind in score, if players keep "chatter" going on among them, very often they come through the game as winners.

And so it is with the 4-H Club game. If I can help keep up the "chatter" among you 4-H girls and boys, maybe I can give you some encouraging as well as helpful information from time to time. Maybe too, others reading this may become interested in joining our game.

Do you know how many girls and boys of 4-H club age there are in Kosciusko County? The 1950 census lists

4139. Wouldn't it be wonderful if even half of them were enrolled in 4-H Club work? By 4-H club age is meant that the girl or boy be ten years old any time during the year or older but not have passed her or his 21st birthday during the year.

As to the kind of information I hope to give in this column, it will include clarification of terms and requirements in the various projects. One point that I think of now is that a butter cake does not have to be made with butter! Butter may be used, but also lard, margarine, or the hydrogenated compounds may be used. However, when you use salad oil, girls, then you have a different kind of cake altogether. I'll say a little more about cakes next week.

Right now, I'm interested that the enrollment in 4-H projects in Kosciusko County be "100 MORE IN '54."

Why should girls be in 4-H club work? Because, for one reason if for no other, the work requirements are those which most girls would — or should — be doing at home to help mother and to be helping herself prepare to be a future homemaker. If a girl already does these, then belonging

to a 4-H Club gives her an opportunity to become a better leader and citizen in her community. She has opportunities for ribbons, prizes, and awards, too.

If you have a question about 4-H enrollment ask a 4-H member or leader in your community. If you do not know who these people are, inquire at the County Extension Office in the basement of the Court House.

Will you look for my 4-H Club Chatter next week?

### LOCAL NEWS

Mrs. Earl Meredith is still at the home of her son and family, Mr. and Mrs. Roy Meredith of Akron, where she is recovering from the flu. Sunday callers were Mr. and Mrs. Gerald Clinker of Akron, Mr. and Mrs. Leslie Grant, and Mrs. Gertrude Hill of Mentone.

**WEED KILLERS CAN****SAVE FARMER TIME**

One hundred years ago it took a farmer five hours to produce a bushel of corn. Following World War I, he cut this time to 21 minutes, and today the modern Corn Belt farmer does the same job in four minutes.

A century of progress in growing corn! And it was no accident, for farmers nowadays turn out a bushel in record time because of their scientific "know-how," aided by mechanization, hybrid corn, fertilizer, and the latest discovery to benefit production—chemical weeding.

How to kill weeds in corn by use of chemicals has been known for a relatively short time. In fact, O. C. Lee, Purdue University weed specialist, says 1954 can be considered the tenth anniversary of chemical weeding, for it was just ten years ago that 2, 4-D was

first used to knock out weeds in growing crops.

Since then, spraying with 2, 4-D has become a general farm practice. It's been most practical and economical in fields where smartweed, cocklebur, horseweed, ragweed, morning glory, bindweed, pigweed, Jimson weed and other broadleafed weeds are persistent.

The use of this chemical has also been considered an emergency measure where weeds threaten to ruin the corn crop during periods of wet weather when cultivation is impossible. However, in most cases spraying with 2, 4-D is not recommended for the purpose of replacing ordinary cultivation, but for use where cultivation alone fails to control weeds adequately.

It's estimated that five percent of the corn grown in Indiana, or about 230,000 acres, are sprayed annually with 2, 4-D. Considering an average increase of nine bushels per acre from adequate weed control, Lee figures spraying adds more than two million bushels of corn to the state's annual harvest.

"We shouldn't discount the use of 2, 4-D for controlling weeds in small grain crops, pasture, fence rows and on non-crop land," adds the Purdue specialist.

Altogether, more than two million pounds of 2, 4-D acid are used annually. That's enough chemical to control weeds on an equal number of acres — a sizeable contribution to present-day agriculture.

# CO-OPS HOLD 23RD ANNUAL MEETING MONDAY

The 23rd annual meeting of the stockholders of the Northern Indiana Cooperative Association was held in the new Mentone school gym on Monday afternoon, with 81 voting members present at the opening of the meeting. Thirty-two were represented by proxies and 145 had previously mailed their ballots.

Everett Rathfon, chairman of the board of directors, was chairman of the meeting, and invocation was given by Russell Norris.

The chairman reported that the directors in 1953 attended all regular and one special meeting with the exception of one director who missed one meeting because of illness in the family.

Ed. Ward, manager, gave the financial reports for the year. Sales amounted to \$1,051,354.91, a decrease of about eighty thousand from 1952, but the refundable savings to patrons increased from \$20,616.88 in 1952 to \$22,953.03 in 1953. Patronage refunds were figured on a basis of 1.4 percent in the mill and 1.3 per cent in the oil station. Because of a heavy inventory, a loss was shown in the hardware, building material and metal shop departments.

The financial reports also indicated increases in operating expense that is influencing the net savings. Labor costs were nearly five thousand higher in 1953—\$86,156.33—and the increased value of the property has increased the cost of insurance premiums over seven thousand dollars over that of six or seven years ago.

Elmer Sarber, Andrew Hall and Wilvin Long served as a balloting committee to tabulate the voting for the election of three new directors.

The candidates nominated were: Eldon Horn, Elmer Hoffman, Everett Beeson, Leo Harter, Philip Lash, Freeman Gruenewald, Kyle Gibson, Elmer Dickey, Everett Rathfon, Max Nellans and Fred Beeson. The last three requested their names be taken from the list of candidates.

The first ballot showed:

Horn 118  
Hoffman 127  
Beeson 138  
Harter 45  
Lash 185  
Gruenewald 30  
Gibson 66  
Dickey 59.

A majority was declared as 129, so Beeson and Lash were elected on the first ballot. Elmer Hoffman was elected on the second ballot with 131. Eldon

Horn was next with 98.

Russell Wildman, attorney from Peru, and his secretary, Mrs. Sausaman, were present and Mr. Wildman explained the settlement made with Mr. and Mrs. Raymond Bare. \$9,875.00 was received from the Bares in cash and mortgage and \$5,000.00 was received from the bonding company.

The new board of directors met following the meeting and named Frank Nellans as chairman, Gerald Ballenger as vice chairman, and Leroy Norris as secretary. Maurice Dunnuck was the only other holdover director.

Ed Ward was continued as treasurer and general manager and Julia Nelson remains as assistant treasurer.

## MUST STOP FOR LOADED BUS

Generally speaking, all drivers show the proper safety precautions by stopping while a school bus is loading or unloading children, and the drivers are to be complimented for this fine cooperation. However, the Beaver Dam bus driver has a rather unique situation in that he brings Beaver Dam children to Mentone for music lessons, library calcs, etc., and has one or two local stops with children. Most drivers likely consider the bus not on a regular trip and fail to exercise the usual precautions. The driver is not complaining, but there are times when he is considerably concerned about the safety of his charges when cars drive by while he is loading or unloading.

## PALESTINE NEWS

Mrs. Edison Vandermark

Mr. and Mrs. James Beeson and family called on Mr. and Mrs. Eldon Horn and family Sunday evening.

Mr. and Mrs. Paul Vandermark of Jefferson and Mrs. Edison Vandermark were Sunday dinner guests of Mrs. Vern Powell of near Leesburg.

Mrs. Joe Huffer who has been ill for the past several weeks is slowly improving.

Mrs. Edison Vandermark called on Mrs. Raymond Hudson Monday afternoon.

Mrs. Henry Secor and Mrs. Philip Whetstone went to Warsaw Tuesday afternoon and saw the picture, "The Robe."

Mrs. Inez Wagner who was in an auto accident Saturday evening is still hospitalized at this writing.

Mrs. George Mollenhour and Mrs. Edison Vandermark were Warsaw visitors Saturday afternoon and while there went to see the picture, "The Robe."

Mr. and Mrs. Walter Blackwell of Dowagiac, Michigan spent the weekend with Henry Secor and Floyd Blackwell families.

Those who called at the Isaac Horn home Sunday afternoon and evening were Mr. and Mrs. Owen Horn of Warsaw, Mr. and Mrs. Marion Guy and Mr. and Mrs. Floyd Blackwell.

Mrs. Nora Huffer and Mrs. Ella Stickler of Warsaw were Sunday dinner guests of Mr. and Mrs. Roy Stickler.

Mrs. Phillip Shilling of Chicago is visiting with Mr. and Mrs. Hubert Shilling.

Mr. Alonzo Mahoney is ill at the home of his son, Carl Mahoney.

Mr. and Mrs. Hobart Stiffler of near Burket were Monday evening visitors of Mr. and Mrs. George Mollenhour.

## SALE OF PROPERTY

Pursuant to a court order, to settle the estate of the late Bessie McCutchen the property formerly occupied by her on North Franklin St., in Mentone, will be sold to the highest responsible bidder, at a commissioners private auction, on Saturday, March 13, 1954, at 10:00 a.m., at the Farmers State Bank in Mentone, Ind.

This property has been appraised at \$1,650.00 and sale will be on that basis.

Bids will be received by the undersigned commissioner, at any time up to and during time of sale, with privilege of rebidding until sold.

Terms of sale: At least one half of sale price to be paid on delivery of deed and balance to be secured by mortgage note for one year, at six percent interest.

C. O. EILER, Commissioner  
 M10c

### MENTONE WINS, Continued

fire truck had stopped on a side road near the Harry Sullivan farm and it was planned to assemble the team and drive into town. Larry Boggs and Dennis Anderson had parked their cars on the berm along the highway when the Scott auto was heard to be approaching in the distance. Fire Chief Friesner attempted to slow up the oncoming car with a red flashlight, but when he saw an accident approaching he jumped the ditch and as he hit the fence the car crashed into the Anderson car, forcing it into the Boggs car.

It was at first reported that the fire truck was involved, but such was not the case. The truck was parked on the sideroad, and the two autos were as much off the road as possible without toppling into the side ditch. The highway was clear for the Scott auto to pass without danger, but the snow that was falling made driving difficult.

### SPECIAL BASKETBALL TREAT FOR LOCAL FANS MARCH 12

Arrangements have been made by the Mentone Boy Scouts for two top notch basketball games in the new Mentone gym Friday evening, March 12th. One game will be between Kinney Koncession of Fort Wayne and Bob's Butter-milk Boys, of Rochester. The other will see the Mentone Legion battle it out with the boys of the team of '35.

The Kinney Koncession team is composed of Bob Kinney, Jack Karris, Dike Idelman and Boag Johnson, all former Piston players, and Charlie Shearer and four other former Fort Wayne high school stars. Bob's Butter-milk Boys include Akron Coach McCarter, former Ball State player; Bill Schroer, Talma coach and former Valpo U. player; Carl Sands, Beaver Dam coach; Sid Spencer, Claypool principal and former North Webster coach; Paul

Bussard of Huntington College and assistant coach at Akron; John Nelson, Valpo U; Jim Smith of Leiter's Ford and coach at Grass Creek; Bob Macy, also of New Mexico State U. and Chili coach, and Morris O'dell, of Richland Center. Wayne Smith, Rochester, is the coach.

Tickets are now on sale for these two games—50c for adults and 25c for students. The proceeds are to be used to get some equipment for the new school, and the balance to the Boy Scout troop fund.

### HOWARD UTTER SPEAKS AT LIONS MEETING MARCH 3

Howard Utter, of Akron, was the main speaker at the Lions Club meeting held Wednesday evening. He spoke on the changes that had taken place in America since 1900. He called it "The Big Change."

### READING CLUB

The February meeting of the Menton Reading Club was held at the home of Mrs. Walter Lackey on Wednesday evening, February 24. Mrs. Earl Shinn was assistant hostess.

Following the business meeting, the program committee, composed of Mrs. Wayne Tombaugh and Mrs. Don Van Gilder presented Mr. and Mrs. Irvin Nelson who showed a number of colored slides taken while on their European trip last spring. The Nelsons were in England just shortly before the coronation and a number of their pictures show the preparation for this affair. The pictures taken in Italy were especially beautiful. The exceptionally fine shots, coupled with the enthusiasm of Mr. and Mrs. Nelson made this a very pleasant evening's program.

## SCHOOL DEDICATION HELD HERE WEDNESDAY EVENING

The new Mentone gymnasium floor was well filled and the south bleacher seats were pretty well filled Wednesday evening to hear Lawrence Bell give the dedication address for the new Mentone school addition.

A fine program had been arranged, and the Mentone Merchants paid the costs of broadcasting the address over Radio Station WRSW.

Following prayer by Rev. Gosser, the high school band, under the direction of Willard Snapp, rendered a number of fine selections. Mr. Kent, chairman, introduced a number of guests that were seated on the new auditorium stage. Morrison Rockhill, Warsaw attorney and boyhood chum of Lawrence Bell, introduced the speaker of the evening. Mr. Bell's address was very interesting, and included information about the development of guided missiles, rockets, etc. which his plants have been building. He spoke of his visits to Korea, Japan and Formosa and his planned trip to Europe.

William Taylor represented the D. H. Lessig Engineers in presenting the keys to the new structure to Trustee Opal Tucker. Following the benediction by Rev. Chester Dodson, the visitors inspected the various units of the new school addition.

Prior to the dedication program, a dinner was served in the school cafeteria to about 80 guests. A vote of thanks was extended Mrs. Tucker for the fine dinner.

## IN SAN DIEGO HOSPITAL

Mrs. David Johns is a patient in the Naval hospital at San Diego, Calif. where she is undergoing tests prior to another operation for a circulatory ailment. She has had two previous operations, which were successful, for correction in the lower part of the body.

David, who is with the Navy, has been at sea since last fall. He is expected in port next week.

## CLUB CALENDAR

W.S.C.S. Thursday, March 18, 7:30 at the Methodist Church.

O.E.S. Monday evening, March 15, at the Masonic hall, 7:45. There will be initiation.

## CELEBRATE GOLDEN WEDDING

Mr. and Mrs. Ervin E. Wagner, held open house from 2-5 p.m. Sunday in observance of their golden wedding anniversary, at their home in Mentone.

The couple was married March 13, 1904 at the home of the bride's parents, Mr. and Mrs. G. T. Klenck in Elkhart county. They have resided in Mentone the past 25 years, having lived in Bourbon prior to that time.

Mrs. Wagner is active in the Mothers of World War II organization, is president of the American Legion auxiliary Post 425 and a member of the Women's Society of Christian Service of the Methodist church.

Mr. and Mrs. Wagner are the parents of 13 children, 11 living. They are as follows: Mrs. George (Freda) King, Mrs. Orville (Laura) Vandermark, Ervin Wagner, Jr., and Mervin E., all of Mentone, Mrs. Dorothy Jacks, of Michigan City, Ernest, of Fort Wayne, Myril, of Burket, Ivo, of Young America, Calvin, of Akron, Mrs. Charles (Ruth) Warren, of Elkhart, and Mrs. Robert (Annabelle) Barnhart, of New Haven, 34 grandchildren and 11 great grandchildren. The couple had six sons, one son-in-law, a daughter-in-law, and three grandsons serving in the navy in World War II, and a son and a grandson serving in the U. S. Army in the Korean war.

Congratulations, Mr. and Mrs. Wagner, on this memorable day.

## BUYS NEW TV EQUIPMENT

Joseph Baker this week accepted delivery of a new trailer unit for the installation of new TV towers. The trailer is equipped with a set of levers and winches that will permit the erection of towers well over a hundred feet high.

## SORORITY TO

## SPONSOR PROGRAM

The Psi Iota Xi Sorority is sponsoring a very fine program on Tuesday evening, March 16, at the Methodist Church, at 8:00 p.m.

A talk, "Home Life Of China," will be given by Mrs. Wong, who will appear in full native dress.

The public is invited to attend this interesting program.

## MENTONE LOSES IN FIRST GAME AT THE REGIONAL

The Mentone high school basketball team, after an enviable season of only one scheduled game loss, and county and sectional titles, went down in defeat at the hands of the tall Blue Blazers of Elkhart at the John Adams gym at South Bend Saturday afternoon. The final score was 68 to 47.

Elkhart had been rated as the No. 2 team in the state by sportswriters, and after watching them defeat South Bend Central in the regional championship game in the evening, local fans had a better appreciation of the work of the local boys.

The Mentone boys were not hitting like they had been at times during the season, averaging only a little over 28 percent of their field goal attempts. Elkhart averaged nearly 40 per cent of their shots, mainly because many of their shots were underneath, made possible by a bunch of boys well-trained in the art of intricate plays and fast passing. At the foul line Mentone made 15 of 21 while Elkhart hit 10 of 17.

The Bulldogs played Elkhart on even terms for three of the quarters of the game. They came from behind to lead 14 to 12 at the end of the first quarter, but took a 19-point loss in the second quarter to end up 22 to 39 at the half. The players took time out once during the period to try and orient themselves, but the effort failed. In the third quarter they narrowed the margin to 12 points before Elkhart started picking up again. A second time out by the boys failed to do more than hold the margin. They lost only one point in the third quarter and two in the fourth but were unable to overcome that disastrous second quarter.

Clarence Dickey led the scoring, with Boggs, Tinkey, Cullum and Linn following.

The Mentone boys have received and are entitled to the praise of fans and school chums for the fine showing they made during the 1953-54 season, and their ability will be long remembered by local people.

## NEW TV STATION

It has been reported that a new ultra high TV station at Elkhart will be on the air Monday. The frequency is to be 52.

## MRS. I. B. STANSBURY RITES TUESDAY

Final rites for Mrs. Inez Bell Stansbury, 65, nursing home operator, who died at 10:15 a.m. Saturday at her home were held Tuesday at 2:00 p.m. from the Church of God at Rochester. Rev. Daniel Slaybaugh officiated. Burial was made in I.O.O.F. Cemetery at Rochester. Mrs. Stansbury's death was attributed to a heart attack.

She was born June 7, 1888 in the Mt. Olive community south of Rochester to John and Sebern Carithers. She was married twice. Her second husband, Hudson Stansbury to whom she was wed on Mar. 18, 1918, died Nov. 29, 1938. For the first few years Mrs. Stansbury operated a nursing home at her residence, 1510 Audubon St., Rochester. She was a member of the Talma Methodist Church.

Survivors are six daughter: Mrs. Ralph Liming, Logansport, Mrs. Mabel Miller, Mrs. Harvey Packard, Mrs. John Slaybaugh, and Mrs. Virgil Wagoner all of Rochester and Mrs. Andrew Cooper of Bradenton, Fla. Three sons: George Richardson, Rochester, John Richardson, with the U. S. Army in Maryland and Joe Stansbury, Danville, Ill. Two sisters: Mrs. Walter Inks, South Bend and Mrs. Chester Robbins, Logansport.

Mrs. Stansbury was at one time a resident of the Talma Community before moving to Rochester.

Zimmerman Brothers Funeral Home of Rochester were in charge.

## HARMAN

Pfc. and Mrs. Thomas Harman are the parents of a 7 lb. 11 oz. son born at 3:45 Monday morning at the Woodlawn hospital. The new son has been named Timothy Jon.

Mr. and Mrs. Walter Harman of Etna Green, are the paternal grandparents, and Mr. and Mrs. Arley Cullum are the maternal grandparents.

## FINDS OLD NEWSPAPER

Eba Bayne was in town recently displaying an issue of The Chicago Times, dated Oct. 12, 1888. One of the news articles told of a train wreck in New York in which 55 were killed.

Mr. Bayne found the newspaper as he was tearing out an old window at his place.

## DO YOU RECOGNIZE THIS SET OF FARM BUILDINGS?

### WHOSE FARM IS THIS?

Can you identify the farm pictured above? This is another of the farm pictures to be printed in the Co-Op. News, and as no one knows whose farm it is, can you help identify it? There's no prize to the first to tell us whose farm it is, but it is interesting to know who will be first in reporting the information to this newspaper.

Call, phone or write us if you believe you know the farm.

### FARM OWNERS HAVEN'T CALLED

This is the second week in which the owners of the farms pictured in the Co-Op. News haven't called to get their free mounted photo. Readers identified the farm pictured in our Feb. 24th issue as that of Floyd Creamer, and last week two people stated they believed the farm pictured March 3 was that of Fred Decker. Those who called were Everett Long and Mrs. Roy Koser.

Did they answer correctly?

We trust that before another issue is printed we'll have the official report from the farm owners.

If you recognize this photo, let the Co-Op. News know.

### SHERIFF OFFERS HELP

Sheriff Carl Latta was in town one day last week and offered to send one or two of his deputies to Mentone Saturday to handle our police work while our law officials were attending the regional tourney. Their help wasn't needed, but the offer was a very considerate one.

### MRS. PEARL MILLER DIES SOUTH OF TALMA

Mrs. Pearl Miller, 65, died at 6 a.m. Saturday at her home south of Talma. She has been seriously ill for the past four years.

The Millers had resided in the Talma community for many years. She was born April 30, 1889, in Fulton County to Elmer and Mary Berger Zimmerman. On August 2, 1908 she was married to Omer Miller at Rochester. Mrs. Miller was a member of the Talma Bethlehem Church.

Survivors are the husband at home, and the children: Donald Pendleton; Edward of North Manchester; Harold of Akron; Gerald, Galesburg, Ill.; Leroy, Toledo, Ohio; and Mrs. Mary Leininger, Akron. Also surviving are 18 grandchildren, one great grandchild; two brothers, Walter Zimmerman, Akron; Charles Zimmerman of South Bend and one sister, Mrs. Cora Coplen Gilead.

Funeral services were held Monday at 2 p.m. from the Talma Bethlehem church with Rev. Ericus Foor officiating. Burial was in the Mt. Hope Cemetery at Athens with Moyer-Hauptert Funeral Home in charge.

### LOCAL NEWS

Max Grubbs is home on leave from his Navy duties.

Mr. and Mrs. Miles Manwaring and family spent the weekend in South Bend.

### LOCAL NEWS

Mr. Raymond Bare was called to Detroit this week by John Tracey, vice president of Midwest Transportation Co. in Chicago, to do special work for the company.

Mr. and Mrs. John Brinkman of Gallier, Mich., and Mr. and Mrs. Frank Goltry of South Bend called on Mrs. Alice Goltry and children Sunday afternoon.

Arthur Carbiener of Bremen called at the home of Mr. and Mrs. Earl Carbiener Monday.

### LOCAL GIRL IN ACCIDENT

Funeral services were held in the Bourbon Apostolic Church at 2 o'clock last Friday afternoon for Betty Lou Faulkner, who was fatally injured in a traffic accident near Kokomo late Saturday night, February 27 and who passed away in the St. Joseph hospital, Kokomo, about 7 o'clock Tuesday evening.

Miss Faulkner was riding in a car driven by Norman Munson of Warsaw, and containing five other young people. Norman's sister, Betty Munson, of Warsaw; Elaine Goodman, of Mentone; Loren Munson, of Claypool; Dre-ama Shearer, of Bourbon, and Betty's cousin, Judy Faulkner, also of Bourbon.

The young people had attended an Apostolic church service in Elwood, and were returning home on the Road 81 by-pass near Kokomo when they stopped behind another car at a railroad crossing. While they were stopped, another car came up behind them, striking their car. The three cars were driven together, and the lights were extinguished on the rear car, and Betty Lou and Norman was directing traffic around the tangled cars. A car came from the north and stopped in the opposite traffic lane. Then suddenly another car came from the south and smashed into the stalled cars. Norman jumped clear, but Betty Lou could not move in time, and was crushed between the cars. She suffered very severe internal injuries and fractures. Taken to the Kokomo hospital, she was in critical condition, and passed away Tuesday evening.

Several other people were injured in the smash-up, but none seriously. None of the other young people in the Munson car were badly injured.

### 4-H CLUB CHATTER

By Ruth Snellenberger

Dear 4-H'er,

When I mentioned butter cakes last week, did the question of using mixes come to your mind? May prepared mixes be used to satisfy 4-H baking requirements? The baking standards committee has an answer for that question which I'll quote later. First, however, I should like you to ask yourself: "What should be learned in a baking project?"

In first division baking, the minimum work requirements are four bakings of plain butter cakes and four bakings of plain, whole wheat or any variety of bred muffins or dropped biscuits. These, of course, need to be recorded in the member's record book provided from the county extension office.

Now what might be learned by ten-year-old girls, or boys, in baking cakes. To read a recipe and to know that it is a recipe, not a receipt, that gives the

direction for mixing preparations could be one thing for some to learn. One junior leader reported she learned she needed to teach a little girl how to break an egg correctly. Another junior leader stated she had to explain the meaning of T and of t in a recipe.

Can you think of other things? I can. In fact many of them: How to measure flour, being sure to sift it first, preparing a cake pan, learning that big word "ingredients," etc. I wonder how many have had the experience of getting anxious and of looking into the oven too soon, before the cake was done? What happened? The cake was flat because it fell! Too bad, but I'll bet a lesson was learned.

In order to learn how to bake a very good cake, perhaps more than four cakes should be baked. This looks good in a record book, too . . . to do more than the minimum requirement.

Now back to the question about mixes. Could a person using mixes have an opportunity to learn as much as one who followed the standard method of mixing cakes? No, you'll agree I'm sure.

There's more, the baking standards committee have made this statement in

reference to all divisions of baking: "Members should be encouraged to learn to bake products by the standard method. Prepared cake, biscuit, and yeast roll mixes may be used (and entries made in record book) but not to satisfy the work requirements or to exhibit."

How many of you mothers use mixes? I do, too. I prepare my own (Purdue University developed Master Mix) and just love a quick upsidown cake or waffles in a jiffy. But won't you all agree, measuring and mixing techniques need to be learned? Really there's much more to say about cakes, but that can be a later topic.

The Farm and Home Electric Project, now four or five years old, has been developed so that requirements for girls are easier. If you think you might be interested attend a meeting at the R.E.M.C. building in Warsaw on Monday night, March 15, at 7:30 p.m. There will be two other county meetings for instruction and help to those enrolled in this project. One of the outstanding learning aspects of the electric project, at least in my opinion, is that related to good lighting. A member working at this project certainly would be helping make improvements at home, too. What parents wouldn't appreciate this?

Have you enrolled in a 4-H Club this year? As few as five members can organize a club. One or two mothers can serve as adult leaders with the help of the county extension office to give

### ACE SETS THE PACE

### MERRY MOLLYS

Mrs. Lemar Leffert was hostess Mon., March 8th to the Merry Molly's Home Demonstration Club with Mrs. Herschel McGowen acting as cohostess. Mrs. Al Reynolds, Mrs. Mary Hoover and Miss Reba Pyle were guests.

America the Beautiful was sung and

the pledge to the flag was made. The club creed was repeated.

Mrs. Donald Horn read a poem "The Judas Tree" for meditation.

Mrs. Geva Mellott read an article on Stephen Foster and led in singing one of his songs "Old Black Joe."

Mrs. Gene Sarber, president presided

over the business session. A donation was made to the Red Cross.

Mrs. Sarber introduced Miss Reba Pyle, County Home Demonstration Agent, who gave an interesting lesson on "Planters and House Plants."

Mrs. Donald Horn and Mrs. Gene Sarber were in charge of entertainment. Mrs. Mary Hoover received the door prize.

Mrs. Ed Smelser will be hostess for the April meeting. There will be a seed and bulb exchange also a collection of favorite recipes for the county home demonstration cook book.

### BAPTIST CHURCH NEWS

The annual missionary conference will be held this week-end at the Baptist Church. The opening session will be Thursday, March 11 with Rev. Royer Allman of South America as guest speaker. Friday night Miss Cooper from India will be the speaker, and on Sunday Rev. Carl Anderson of St. Louis will speak at both services. The evening services will begin at 7:30. Everyone is invited to share in the blessing of the conference by attending.

## SCHOOL NEWS

The honor roll for the fourth grading period follows: 12th grade, Mary Ellen Bryan, Dixie Linn, Sherry Shoemaker, Jackie Stidham, Mary VanDeWater, Bob Boggs and Larry Yieter; 11th grade, Connie Doyle, Sheila Fitzgerald, Sue Lackey, Larry Boggs, David Gosser, Albert Henderson, Larry McKinley and Bill Nellans; 10th grade, Orpha Kurtz, Betty Mellott, Janice Nelson, Rita Olson, Sarah Urschel, Sharon Ware, Sandra Witham and Dick Tombaugh; 9th grade, Sue Borton, Dorothy Christian, Carol Dillman, Curtis Binkley, Junior Clappitt, Charles Feldman, and Dale Kindig; 8th grade, Lucy Coplen, Sue Fenstermaker, Julie Kent, Linda Linn, Leroy Markley and Timmy Utter; 7th grade, Beverly Walburn, Don Beeson, Bernard Fitzgerald, Larry Teel, and Terry Tucker.

Attendance for the fourth grading period improved over the previous one. The percent of attendance in the various grades was: 1st, 95.67; Mrs. Van Gilder; 1st, 97.3; Mrs. McKinley; 2nd, 94.28; 3rd, 95.16; 4th, 94.35; 5th, 97.1; 6th, 94.72; 7th, 97.4; 8th, 98.2; 9th, 97.9; 10th, 96.1; 11th, 97.0; 12th, 94.9.

### School Back To Normal

With the end of the basketball season and tourney play, the school returned to a more normal state Monday. It seemed a relief to all not to have the extra phone calls, the photo-

graphers, and excitement of the last week. Mentone's share of the tourney money was \$545.10. From this it will be necessary to pay expenses such as meals and lodging. The balance will be available to purchase necessary equipment for the athletic program. The principal wishes to thank all of the fans who were so patient about regional tickets. It is not an easy job of dispensing over four hundred tickets. It would have been much easier if all four hundred seats had been on the front row.

### Pupils Working For Speech Contest

A number of high school pupils have begun working for the annual speech contest to be held at Warsaw on March 26. Mrs. Dawson has selected casts for the two plays. Several pupils plan to enter the radio announcing, poetry reading, and extemp sections.

### Pupils See Marionette Show

Last Friday morning Mr. and Mrs. Coleman presented their puppet show for the elementary pupils. It was necessary to collect 15c from each pupil to defray the cost of the program. The program cost the school thirty dollars. Twenty-six dollars and seventy cents was collected.

Mrs. Tombaugh was absent on Monday attending a funeral in Indianapolis. Mrs. Johns substituted.

The sophomores are hard at work selling magazines for the Curtis Publishing Company. Profit from this undertaking will go toward their senior

trip.

The boys of the vocational agriculture classes have been making good use of the new farm shop. Several of the boys have brought in items of farm machinery to clean, repair, and paint. The 1954 issue of the school annual,

The Bulldog, went on sale on Monday. Don Rush is subscription manager. Those desiring an annual are paying 75c down and the balance of \$1.00 when the annuals are delivered. This year's annual will include four extra pages about basketball.

## METHODIST CHURCH NEWS

Last Sunday afternoon over a hundred young people of the Warsaw District South-Group Methodist Churches met in Bourbon for the monthly Youth Rally. Rev. Ted Smith and Rev. Jack Stowell, two young ministers from Ohio, spoke concerning their evangelistic mission through Formosa, Japan, Hong Kong, Okinawa, and the Philippines.

Donald Rush and David Gosser of the local church attended. Donald had charge of the recreation. Jackie Stidham, District youth president, attended a rally of the East-Group Methodist Churches.

Rev. and Mrs. Gosser attended the third quarterly Settlement Day Service held on March 3 in the Cromwell Methodist Church. Despite the roads and the weather there was a good attendance on the part of ministers and their wives. The service was an inspiration to the pastors, and they returned to their charges fortified not only in spirit by the addresses given but also in body by the very fine meal the ladies of that church served.

Last Sunday evening was the beginning of a series of Lenten Services. The

topic for this season is The Parables of Jesus. These services will continue each Sunday evening through April 11 and conclude with the Holy-Week Services when the pastor will use the parables of Passion Week.

Mrs. Lloyd Summy has consented to be the director of the Chancel Choir. A general invitation along with specific invitations for additional choir members is extended. Chancel Choir rehearsal is 7:15 each Thursday evening.

The Committee on Nominations for the Official Board and Commissions is in the process of preparing the necessary work for the Fourth Quarterly Conference which will be held on Tuesday evening, April 23. This service will begin with a Potluck supper at six-thirty, continue with an address by Dr. Thurman Morris, the District Superintendent, and conclude with the official business of the conference. The board members and congregation are urged to keep this important date and attend as a Congregation.

## SALE OF PROPERTY

Pursuant to a court order, to settle the estate of the late Bessie McCutchen the property formerly occupied by her on North Franklin St., in Mentone, will be sold to the highest responsible bidder, at a commissioners private auction, on Saturday, March 13, 1954, at 10:00 a.m., at the Farmers State Bank in Mentone, Ind.

This property has been appraised at \$1,650.00 and sale will be on that basis.

Bids will be received by the undersigned commissioner, at any time up to and during time of sale, with privilege of rebidding until sold.

Terms of sale: At least one half of sale price to be paid on delivery of deed and balance to be secured by mortgage note for one year, at six percent interest.

C. O. EHLER, Commissioner M10c

## FILTER QUEEN

## USES NO BAG OR VACUUM

Want a demonstration of a home cleaner that uses neither paper or cloth bag to collect dirt and gritty particles that are swept up from the cleaned surface?

Filter Queen 305 S. Oak St. or call 93F23 or P. O. box 163, Mentone, Ind. asking for a first hand look at what the company calls the cleaner that is years ahead of any vacuum cleaner on the market today.

With a vacuum cleaner that has no bag, either paper or cloth, this problem comes up: As the bag fills with dirt the suction power of the cleaner is choked off, and since most modern electric cleaners remove dirt by suction alone it's easy to see why Filter Queen manufacturers have done away with a bag in their cleaners.

Here's how the Filter Queen works. The dirt filled stream of air taken into the Filter Queen is swirled with hurricane force around the inside of the machine. Heavier dirt particles actually are thrown to the sides and dropped to the bottom by gravity. The tiny particles are filtered from the air stream and also find their way to the bottom of the machines spacious metal container.

How? With the air of the Filter Queen's patented filter cone plus gravity.

Today's Filter Queen removes dirt from furniture, rugs, furnace and machinery...

**BEAVER DAM BETTER DAUGHTERS MEET**

The meeting of the Beaver Dam Better Daughters 4-H Club was called to order on February 15 by the president Laura Adams at the home of Phyllis Ummel. Pledges to the flag were led by Sharon Bowen. The secretary and treasurer's report were read by Sharon Heighway. Roll call answered by your first boy friend's name. Carol Ann Dickey led the group in singing.

Phyllis Ummel. Pledges to the flag were led by Sharon Bowen. The secretary and treasurer's report were read by Sharon Heighway. Roll call answered by your first boy friend's name. Carol Ann Dickey led the group in singing.

Our leader Ruth Heighway gave a talk on the clothing training school and about the point system, also she showed the younger members how to fill out their record books. A special number was given by Carol Ann Dickey, who read two poems. The Health and Safety report was given by Sharon Bowen. Delicious refreshments were served and the meeting then adjourned. Betty Doering, reporter.

**4-H ORGANIZATION MEETING**

The organization meeting for the boys and girls of Newcastle Township was held Friday night, March 5.

Several talks were given on trips made by some members. The talks were given by the leaders and some older members. Then the boys and girls separated for their individual meetings. The officers elected for the girls are as follows: President, Sandra Jameson; vice president, Kay Harvey; secretary, Patsy Hunter, treasurer, Mary Jo Vandermark; reporter, Karen Miller; health and safety, Janice Hoffman, recreation leaders, Catherine Hisey and Linda Barkman. Enrollment cards were distributed and delicious refreshments were served by the leaders.

★ Buy Co-operatively — And Save!

(Isn't this why more people want—and buy—  
Chevrolets than any other car?)

# What you want most Chevrolet gives you first

See how Chevrolet stays ahead of other low-priced cars in all the things that mean the most to you. See how much less Chevrolet costs you—it's the lowest-priced line of them all. Come on in and let us show you how you can have the things you want and be a good many dollars ahead with a new Chevrolet. That's promising a lot, but we welcome the chance to prove it!

**OUT AHEAD** with that bigger, lower look. Only Chevrolet and leading higher-priced cars have Body by Fisher with that big, smooth, low-slung look.

**OUT AHEAD** with zippy, thrifty Powerglide. It's the first and most advanced automatic transmission in the low-price field. Acceleration is instantly responsive and as smooth as silk. Optional on all models at extra cost.

**OUT AHEAD** with the highest-compression overhead valve engines. Chevrolet's great engines have the highest compression ratio of any leading low-priced car.

**OUT AHEAD** with bigger brakes. Chevrolet brakes are largest in the low-price field for smoother, safer stops!

SYMBOL  
OF  
SAVINGS

EMBLEM  
OF  
EXCELLENCE

**OUT AHEAD** with that smooth and solid big-car ride. Chevrolet's the only low-priced car with Unitized Knee-Action—one reason for its finer road-smoothing, road-hugging ride.

**OUT AHEAD** with automatic power controls. Chevrolet is the first low-priced car to bring you all the latest automatic power features and controls as extra-cost options.

## MENTONE MOTORS, INC.

# OBSERVANCE OF NATIONAL 4-H CLUB WEEK

In Kosciusko County, National 4-H Club Week began with a Fabric Clinic Saturday for 4-H Clothing project members and their mother. L. E. Carter, of Carter's Department Store, sponsored the event in the Camel Club rooms using Mrs. Lucille Paxton, from his store, to show samples and give information regarding cotton materials. He secured Simeon Gaines of the Cohama Division of the Cohn-Hall-Marx Company of New York to show samples and to discuss manmade fabrics — nylon, orlon, dacron, and vicara.

Other events of the week which serve to give publicity to 4-H Club work was the County 4-H Council Meeting, Monday afternoon and the County Junior Leader Meeting, Tuesday evening. A training meeting for new 4-H home economics leaders is planned for Thursday afternoon, March 11 in the County Extension Office at Warsaw.

This last meeting shows how Extension Service assists leaders to do their job, states Mrs. Ruth Snellenberger, 4-H Club Agent for Girls' Work in Kosciusko County. Volunteer leaders are used almost exclusively for the 23

4-H Home Economics Clubs now organized in the county, continues Mrs. Snellenberger. Two more clubs have leaders and are ready to organize with the possibility of five additional clubs being organized. A goal of "100 More In '54" has been set for girls enrollment in 4-H work. Last year's total number of girls enrolled was 481.

Anyone interested in the county might contact the 4-H Club members in her community or the adult leader. The following is a list of clubs and club leaders: Atwood 4-H Victory, Mrs. Victor Adams, Mrs. Carroll Eller; Beaver Dam Better Daughters, Mrs. Robert Heighway, Mrs. Leo Adams; Burket Cherrios, Mrs. Robert Goshert, Mrs. George Welch; Claypool Happy Hoosiers, Mrs. Dean Ford; Claypool Country Club; Mrs. Carl Cook; East Wayne American Maidens, Mrs. Raymond Hesser, Mrs. Ed Conaway; Etna Green Good Luck, Mrs. Lester Williamson, Mrs. Harold Gawthrop; Jefferson Happy-Go-Lucky, Mrs. Herman Miller; Leesburg Plain Farmerettes, Mrs. Max Noel, Mrs. Charles Smoker; Mentone Merry 4-H's, Miss Elener Norris, Miss Wilburta Latimer; Mentone Stitch and Stir; Mrs. Herman Olson, Mrs. Monroe

Romine; Milford East Side Merry Maidens, Mrs. R. E. Slabuagh.

Also Milford West Side Merry Maidens, Mrs. Carl Duncan; Monroe Merry Maidens, Mrs. Carl Steiner; North Webster Room 4-U, Mrs. Tommie Warner, Mrs. Howard Wright; Oswego Busy Bee, Mrs. William James; Pierceton Happy 4-H's, Mrs. Fern Moe; Sidney Happy Hustlers, Mrs. Anne Kinsel, Mrs. Glen Freed; Silver Lake Tatapocheon, Mrs. Virgil Freed, Mrs. Gerald Wise; Syracuse, Pollyanna, Mrs. Luther Vance; Warsaw Clever Clovers, Mrs. Ronald Phillips; Warsaw, Four Leaf Clovers, Miss Doris Ann Beigh, Mrs. Lloyd Poor; Warsaw Lake City, Mrs. Giles Hoffer, Mrs. Everett Schooley; West Wayne Lucky Lassies, Mrs. Ed Summers, Mrs. John Collins; Epworth Forest, Mrs. Earl Black and Mrs. Jack Allen.

"KEEP'EM ROLLING"

**I. U. SYMPHONY****BAND AT AKRON**

The Indiana University Symphony Band of 55 musicians will appear in Akron Sunday afternoon, March 14 on its annual spring tour which will include concerts in 13 cities.

The Akron concert will be at 3 p.m. in the Akron high school gymnasium, with the Mothers Study Club sponsoring the event.

Part of the proceeds will go to a nation-wide project of the General Federation of Women's Clubs, the restoration of Independence Hall in Philadelphia.

As a tribute to women's club all over the nation who are taking part in this patriotic project, the band will close its concert with two dedicatory numbers, John Phillip Sousa's "Stars and Stripes Forever" and Luther's "Mighty Fortress."

**SPEECH CLUB TO GIVE TWO PLAYS**

The Speech Club of the Mentone school will present two one act plays on Friday evening, March 19 at 8:00 p.m. at the new school gymnasium.

The plays are "The Great Joanne," and "I Shall Be Waiting." In addition there will be humorous readings, declamations and poems.

The speech club is under the direction of Mrs. Dawson.

Admission is 25c for students and adults. Pre-school children will be admitted free of charge.

**LOCAL NEWS**

Milo Griffis is a patient in the McDonald hospital where he was taken Tuesday morning. He is suffering with asthma and is in an oxygen tent a part of the time.

**READY FOR THE DOWN-HILL TRAIL**

(Polaroid One-Minute photo by Grandpa Cullum)

The fact that one becomes a grandfather doesn't carry with it any proof of unusual ability, but when it happens, some people consider it the proper time to impress the fact indelibly into the minds of the parties involved. It took a moment or two Tuesday morning for your editor to grasp the full meaning of a bit of parcel post presented to him at the post office window. The address label: "Grandpop and Grandma Cullum," left no doubt why we were receiving a walking stick and a pair of old fashioned spectacles.

As there was but one pair of "specks," your editor made a short tour of Mentone's business establishments to try and find another pair so we could both read at once. It seems there's a shortage, as one storekeeper said Vance had been looking for some, too, that day. Now if we can only find who he is, maybe he has found an extra pair by now.

## COOPERS' STORE

# LAW OF SUPPLY-DEMAND NOT NEW TO FARMERS

Lafayette, Ind.—All the recent talk about the rising price of coffee and the "law of supply and demand" was nothing new to Indiana farmers. They have to contend with this "law" the year around.

Then, too, almost every farmer in this state has had experience with adverse weather conditions, such as hail, drought and frost. (Frost gets part of the blame for high coffee prices, too.)

Many successful farmers have studied seasonal marketing trends, trying to learn the best time to sell their products. But the reading material containing this information was not always readily available, nor was it easy to understand if available.

Now, agricultural economists at Purdue University have summarized the seasonal price indexes for the more important agricultural products marketed in Indiana in one small, easy-to-read booklet.

This booklet, Station Bulletin 566, "Seasonal Variations of Indiana Farm Prices," is intended for general use by farmers. The seasonal price indexes included in this booklet are for Indiana; however, they are appropriate for much of the middlewest.

The price indexes were calculated for the four years, November 1946 through October 1950. These were the years between the end of OPA and the price disruptions brought on by the Korean War. Though short, this was a period of relatively free prices, when seasonal forces had an opportunity to register their effects. Each item is illus-

trated with a chart showing the average price for each month of the year. For a free copy, see your local county agent. Just ask for the bulletin on "Indiana Farm Prices."

## PURDUE OFFERS PROOF ON POOR CLOVER SEED

Farmers who buy untested and untagged red clover seed are taking an unnecessary risk, says F. W. Quackenbush, state seed commissioner, Purdue University.

Recent laboratory and field tests at Purdue with 177 red clover seed samples collected by state seed inspectors revealed that many samples of the untagged seed for sale by farmers had excessive amounts of noxious weeds present.

A few of the growth tests plots on the Agronomy Farm near Lafayette showed as high as 90 percent buckhorn

plants after the first cutting. This was found in rows seeded to samples carrying no analysis tags.

Indiana farmers who purchased some of this same unclean clover seed undoubtedly came up with substantial losses in their hay and seed crop in 1953, reminds Quackenbush.

He estimates that the average untagged red clover seed samples tested in 1952 under state inspection contained more than 60 times as many noxious weed seeds as did the tagged lots. Average analyses showed 4,584 noxious weed seeds per pound in the untagged lots compared with only 76 noxious seeds on the average in a pound of the tagged samples.

Buy only tested and tagged seed, and read and evaluate the tag before purchasing, advises the seed commissioner. This is the best insurance against poor quality seed.

Soil Conservation Week, March 28 through April 3, will feature local meetings throughout the state to discuss conservation on Indiana farms. A work shop for new soil conservation supervisors will be held at Purdue University, March 30 and 31. This meeting will provide latest information on administration of soil districts.

Water shortage in many areas recently have brought out the need for better protection of woodlands. Pastured woods allow rapid run-off while untagged woods absorb water, allowing it to flow slowly into the underground water table. Plan to fence your woods this spring and exclude livestock, advise Purdue foresters.

How to build a hotbed or cold frame for starting plants early is described in Purdue University Agricultural Extension Bulletin No. 270. You can get a copy from your County Agricultural Extension Office.

Ready to Serve You Every Day . . .

## SPEECH CLUB TO PRESENT TWO ONE-ACT PLAYS FRIDAY

The Speech Club of the Mentone school will sponsor a one-act play night on Friday, March 19th, at 8:00 p. m. in the school gymnasium. Two one-act plays will be presented. A pantomime play and readings, which students have prepared for the County Speech Festival on March 26th, will also be a part of the evening's entertainment. The admission charge of 25c will apply to all. Children under school age accompanied by adults will be admitted free of charge. There will be an advanced sale of tickets and tickets will also be sold at the door.

"I Shall Be Waiting" is a drama in one act by Florence R. Kahn. In this play we find that Joan Standing has made many sacrifices to keep the fact of her young brother Carl's imprisonment from their invalid mother who is temporarily blind. Dr. Brandt, the mother's physician, aids Joan in her affectionate deception; both realize that the frail mother could not survive the disgrace brought on by her idolized son. Discovery of the truth would imperil her chances for recovery. At regular intervals Jane reads fictitious letters to her mother from South America where she thinks Carl is employed. On the night before Mrs. Standing is to undergo the operation to restore her sight, Carl escapes prison and returns home. This is the situation at the beginning of the play. Our cast includes Jackie Stidham as Joan, Sherry Shoemaker as her invalid mother, David Gosser as her brother, Dick Tomlinbaugh as Dr. Brandt, and Larry McKinley as Peter Jeffrey, a messenger boy.

"The Great Joanne" is a comedy in one act of Dora Mary MacDonald. As the play opens Lucy Burroughs is giving a house party at her home in the country to which the Great Joanne of the stage has been invited. Thornton Miles-Gorman, Lucy's boyfriend, thinks Joanne has been invited just as an inducement to get him there. To make matters worse, he accidentally learns that Joanne cannot come and that they are planning on passing off Lucy's cousin from Iowa as Joanne. So he decides to fool them—and how he succeeds! Joanne turns up unexpectedly and is taken for the cousin. And then the fun — begins.

(Continued on back page)

## CELEBRATE GOLDEN WEDDING

Mr. and Mrs. E. E. Wagner celebrated their golden wedding anniversary Sunday with open house from two until five o'clock in the afternoon.

Over a hundred called at the Wagner home, bringing good wishes, cards and gifts. A number of beautiful floral displays were also in evidence as a gift from friends. Each guest was served with punch and cake.

Mrs. Wagner mentioned that they had 34 grandchildren and 14 great-grandchildren.

## FENSTERMAKER

Mr. and Mrs. Don Fenstermaker, of Hollywood, California, are the parents of a baby girl born March 9. She has been named Katrina Kay.

## STAVEDAHL

Mr. and Mrs. Gene Stavedahl are the parents of a son weighing six pounds seven ounces, born on Tuesday, March 9, at the Woodlawn hospital. The new boy has been named Terry Lee.

## FIND FIRST MUSHROOMS

"Blacky" Wagner reports the finding of two mushrooms on March 13, which are the earliest reported any place around this area.

## NEW PUBLIC TELEPHONE BOOTH BEING INSTALLED

Two workmen for the telephone company uncrated and started installation of a new public telephone booth in front of the telephone office Wednesday. This is the new style reinforced glass structure that is being installed in cities today. The public telephone has been located at the fire station the past few months.

## CLUB CALENDAR

D.A.R. has been postponed from March 23rd to Tuesday, March 30th. The meeting will be at the home of Mrs. Kenneth Riner.

The Talma Rod and Gun Club will hold their regular monthly meeting on Friday evening, March 19th at 7:30 in the Talma high school gym (old).

J.O.Y. Circle Food Sale, Lemler's, Saturday, March 20.

W.S.C.S., Thursday, March 18, 7:30 at the Methodist church.

## LIONS ENTERTAIN BASKETBALL COACH, TEAM, CHEER LEADERS

The Mentone Lions club played host to the 1953-54 basketball team, coach and yell leaders Wednesday evening. After a delicious dinner of roast beef and all the "accessories", Lion President Leroy Norris turned the meeting over to Walter Kent and Wayne Bowser, the committee in charge of the program.

Mr. Kent introduced Coach Abe Hoogenboom who in turn introduced the basketball boys and cheer leaders present. They were: Larry McKinley, Don Rush, Charles Ross, Clarence Dickey, Jerry Tinkey, Larry Boggs, Jon Cullum, Francis Rickel, Robert Boggs, Robert Holloway, Marita Tucker, Janice Nelson and Betty Griffith.

Wayne Bowser then introduced Bill Holford, football coach at Manchester College, who gave a fine talk on athletics. He used each of the letters in the word as a lead for some benefit or attribute of an athletic program. His talk was interspersed with a few humorous anecdotes that fell upon some of the folks present.

Following the address, Leroy Norris made a fine presentation speech to Coach Hoogenboom and then gave him an Elgin wrist watch as a gift from the Lions Club.

## LEGION BEATS "TEAM OF '35"

During the fourth quarter of the basketball game between the Mentone American Legion and the Team of '35, held at the new Mentone gym last Friday night, the Legion boys took a slight lead and came out victorious, 29 to 32. The '35 boys included Herschel Teel, Garth Underhill, Deed Shirey, Leo Linn, Donald Blue and Kay Paulus. Ike Shirey and Johnny Bogan-wright filled out the squad.

In the semi-professional game between Bob's Buttermilk Boys from Rochester and the Kinney Koncession team of Fort Wayne, the regular playing period ended in a 69 tie. In the overtime game, some of the Ft. Wayne boys started blowing the referees' whistles and three technicals in a row—and a sharpshooting foul shooter on the sour-milk team, cooked Kinney's goose slightly overdone. The final score was 74 to 79 in favor of the Rochester boys.

## BROTHER DIES

Heston Dillingham, 66, of Mishawaka, a native of this city, died at 2:35 a. m. Saturday at the St. Joseph Hospital in South Bend where he was admitted Wednesday after suffering a stroke.

The deceased was the son of Mr. and Mrs. David Dillingham. A veteran of World War I and a machinist by trade, he had resided in Mishawaka the past 25 years.

Surviving are his wife, Goldie; three brothers, Lee of Michigan City, Chas. of Plymouth and Raymond of Mentone, and a niece, Mrs. Georgianna Teel, also of Mentone. His sisters, Mrs. Ada Warren, Mrs. Molly Priser and Mrs. Clara Warner, preceded him in death.

Services were held at South Bend at 10:30 a. m. with Rev. William Vogt, of St. Joseph's Catholic Church, Mishawaka, in charge.

Monday afternoon at two p. m. services were held at the Johns funeral home, with Rev. David Gosser officiating.

Graveside military services were conducted by American Legion Post 303, of South Bend. Burial was in the Mentone cemetery.

## ISSUING DEBENTURE BONDS

High inventories today require considerable cash to operate any type of business and the local Cooperative has normally secured this financial assistance from local sources or the Louisville Bank for Cooperatives. Recently the board of directors decided they preferred to make interest payments to local citizens rather than distant lending institutions, and consequently have issued \$25,000 in 4 per cent debenture bonds. The offering was made to present stockholders a few weeks ago and over two-thirds of the issue has been subscribed. Other local people with surplus funds to invest may still secure the bonds, until the issue is fully subscribed.

The bonds bear four per cent interest, with the interest paid annually. They can be cashed or transferred and are of \$25 value each, with a ten-year termination.

Mrs. Earl Meredith returned to her home last Wednesday evening from her sons, Mr. Roy Meredith where she had been recovering from illness.

**NIPSCO TO SPEND**

**49 MILLION**

Northern Indiana Public Service Company will spend \$49,000,000 for expansion and modernization during the next two years, Dean H. Mitchell, president, announced today in the company's annual report to stockholders.

Mr. Mitchell said the expansion program was being undertaken to supply the continually increasing demands of customers and to keep pace with the rapid development of the communities they serve.

The report disclosed that net income in 1953 was \$9,124,701 compared to \$8,471,523 in 1952. Total operating revenues increased from \$58,918,067 in 1952 to \$63,297,020 in 1953.

Operating expenses and taxes were also higher in 1953 according to the report. Last year they totaled \$48,235,406 compared to \$51,803,422 in 1953. The increase was due in part to higher costs of electricity and gas, higher labor costs, increased maintenance costs and higher taxes.

To help finance the huge new construction program the company sold 315,961 shares of common stock early this year. Net proceeds from the sale were added to working capital.

The company estimates that 22½ million dollars will be spent for new construction in 1954 and the remaining 26½ million dollars in 1955.

Stockholders were told the two year program includes \$11,000,000 for an

electric production plant, \$9,000,000 for electric transmission property, \$5,000,000 for electric distribution facilities, \$9,000,000 for service to new electric and gas customers, \$8,000,000 for gas distribution facilities, and \$7,000,000 for buildings, automotive and general equipment.

Property has already been secured for a new 138,000 volt substation at Crown Point.

"New operating headquarters are being planned for LaPorte and Goshen," Mitchell said. "As more natural gas becomes available, home heating and other loads will necessitate extension and expansion of our gas distribution system." A new 8 inch main will be constructed this summer between East Chicago and Logansport is planned.

**LOCAL NEWS**

Mr. and Mrs. Herbert Hamman of Kewanna had supper at the Adam Bowen home Saturday evening.

Sunday visitors at the home of Mr. and Mrs. Adam Bowen were Mr. and Mrs. Steven Dzuba and family of Warsaw.

Just received new stock of grass seed, power-packed for better, faster growth. Denton's Drug Store, Mentone.

Mr. and Mrs. Herschel Teel and family entertained at Sunday dinner, Mr. and Mrs. John Teel and son Gary Wayne and Mr. and Mrs. Verl Halterman, Mrs. Halterman's birthday dinner.

**BEAVER DAM FRANKLINETTES**

The Beaver Dam Franklinites Home Demonstration club met at the home of Lucille Harold on Thursday evening, March 10.

Following group singing of America the Beautiful, meditation was given by Norma Kuhn, also Health and Safety remarks, following the song of the month, "Bendemeers Stream."

The lesson on weight control and a film, "Weight Reduction Through Diet" was given by Sandra Summe.

Thirteen members and two guests answered to roll call, which was, "What I Do When I Do As I Please."

The Kosciusko County Cook Book was discussed and each member is to bring a recipe for it to the April meeting.

It was voted to send a gift to the Red Cross.

Several club pal gifts were received. Door prize went to Edythe Barber. The meeting closed by all repeating the club collect.

Tasty refreshments were served by the hostess with favors in keeping with St. Patrick's day.

**FOOD SALE SATURDAY**

The J. O. Y. Circle will hold a food sale at Lemler's Market 9:00 to 11:00 Saturday, March 20. Chicken and noodles, chop suey and barbecue, cake, pie, rolls, potato salad, baked beans, etc. 1p

ADVERTISE -- IT PAYS!

**METHODIST CHURCH NEWS**

A meeting of the Board of Stewards and the Commission of Membership and Evangelism is called for Sunday evening at eight o'clock, immediately following the Lenten Bible Hour which is from seven until eight.

The women of the church will find an interesting program presented by Mrs. Harold Nelson and Mrs. Joe Boggs at the meeting of the WSOS on March 18. The subject is "Our Spanish Speaking Neighbors."

A brief but important rehearsal of the Chancel Choir is called for Thursday evening at 7:15 preceeding the WSOS Service at 7:45.

# Smidley Hog Houses

THESE houses are so convenient and easy to give your sows and pigs the best of care, that they will pay for themselves many times in the pigs you save.

All Smidley houses are equipped with the wonderfully convenient Smidley roof. Opening wide, it makes it easy to care for sow and pigs. Easy to clean and sanitary, it can be opened wide

to let the sun shine in without draught on pigs.

They are built on oak runners, easy to move. Fir floors, fir or cedar siding, the roof is covered with galvanized steel.

Smidley houses are shipped, knocked-down, painted two coats best outside orange-yellow color. Lifting side and insulite insulation in roofs may be had as extras.

## FEATURES:

1. Galvanized steel covered roof. Sunlight enters the house—sterilizes and dries. Easy to bed, clean and care for litter.
2. Pig rails on sides and back end.
3. Good clear siding and floor—Cedar and Douglas Fir.
4. Four oak runners or skids.
5. Two coats best orange paint.
6. Extra heavy 5" T hinges bolted on full height door.
7. Two door hooks.
8. Cement coated nails used in construction hold house together securely.
9. Roof insulated with one-half inch insulation against summer heat and winter moisture condensation is a wise investment.
10. We have found that a six foot wide house is sufficient for sows up to 600 pounds. The sow is forced to lay lengthwise against sloping sides, which are equipped with pig rails, thus affording maximum protection for the small pigs.

## 4-H CLUB CHATTER

By Ruth Snellenberger

Today I'd like to say a little bit about first division food preparation. But first as an explanation, I'd like to say that I commented about Baking last week and want to discuss Food Preparation this week because these are the two projects that adult leaders have found are easier for the ten-year-old girl to do. Thus it is recommended that the first year club member of that age enroll in one or the other of these projects.

Aren't little girls usually anxious to help mothers in the kitchen? Of course. It is hoped that mothers will give them a chance to help. Sure it takes time to explain lighting or turning on the stove, and so forth. Reading over the recipe for cocoa together, mother and daughter, could be a help before a "mess" occurs in the kitchen.

The 4-H food preparation bulletin for each division gives helpful information, instruction and recipes (you may use other tested recipes if you like). So first the 4-H member should read her bulletin carefully. Yes, it would help

too, if mother would read it. Often, mothers report that they learn much by having their children in 4-H work.

Going back to first division the one requirement to "prepare beverages for the family four times," the question of flavored fruit drinks made with water such as kool ade, arises. Again the consideration of what the girl might learn is brought to our attention. So, the food preparation standards committee came to this decision: Kool ade and prepared fruit juices are acceptable for division I but members should be encouraged to do some of the beverages described in the bulletin.

For those who are not familiar with the complete work requirements of division I, I will quote them here: (1) Prepare desserts for the family six times (at least four different desserts, two of which should be fruit). (2) Prepare beverages for the family four times. Do not include tea or coffee. (3) Set the family table for six meals. Provide suitable centerpieces for the table six times. Plan for a variety. (4) Assist with the dishwashing for the meals in which you prepared the desserts and beverages.

The one thing with which there seems to be most difficulty, at least

in getting recorded in the record book, is that of getting six centerpieces for the table. Why? With enrollments in 4-H Home Economics projects to be completed by May 15 and the County Fair set for August 9-14, the 4-H member has a minimum of approximately 85 days in which to have six centerpieces!

Why have centerpieces? Any family, whether a 4-H family or not, will agree I believe, that the table is more attractive and the meal more pleasant if there is a centerpiece — a small bouquet of flowers, or a bowl of fruit, or a potted plant, or a birthday cake, or similar item. Now, what do you think?

As the girl continues year after year in the 4-H food preparation project the work requirements become more difficult. In division five, she takes complete charge of the family cooking for a two week period. This is a real preparation for being a future homemaker. Older girls take over for more than a two-week period sometimes. As a result they recognize the need for planning meals and for being able to make adjustments if there's a change in family plans.

Also in division five, the 4-H girl may elect the sub-division in which a party is given in addition to taking over family meals for a week. The standard's committee recommends that she discuss her party plans with her adult leader. The reason for this is to help the girl select to do something in which she will be learning. Yes, I'm

sorry to say, some parties have been given serving potato chips and cokes! Sure, I like them too — Who doesn't? But what does a 4-H girl in Food Preparation V learn in preparing those! How about it Food Prep V girls? Let's read our bulletin, get ideas from magazines, and have a real party.

Next week? Guess it's about time to talk about clothing, G'bye.

## TO SHOW FILM

The Burket E.U.B. church will be showing the film "TAMMY" on Saturday, March 20 at 7:30 p.m. This is a 40 minute picture story about an adopted young girl whose parents no longer love GOD. She has an accident but her life is spared to witness for CHRIST in her own home.

The public is invited.

## SCHOOL NEWS

### Several Teachers Ill

Illness has struck several of the members of the Mentone teaching force recently. Mr. Kent was absent on Thursday and Friday with Mr. Gosser as the substitute. On Monday and Tuesday, Mrs. Keever, Mrs. Tombaugh and Mrs. Hoffman were ill. Mrs. Gerard of Bourbon, Mrs. Johns, and Mrs. McKown of Warsaw served as substitutes. There have been a number of pupils absent recently with chicken pox and colds.

### Speech Club to Present Plays

This Friday in the school gymnasium, the members of the speech club under the direction of Mrs. Dawson will present two one act plays and several readings. The program will begin at 7:30. There is a small admission charge to help defray expenses.

### Junior Class Chooses Class Play

A committee of students from the junior class has selected the play which the class will present on Friday, April 9 in the school gym. The three act play entitled "Finders Creepers" is a mystery-comedy. Practice will begin next

week. Mr. Bunnell, junior class sponsor, will coach the play.

### Fourth Grade To Appear On Radio

The next regular program of the Mentone School on WRSW will be presented by the fourth grade on Monday evening at 7:00. The series of program called "Mentone Miniatures" is sponsored by the Farmers' State Bank.

### Class of '50 Makes Gift to School

The Class of 1950 recently contributed a sum of money to the school to be used to purchase a new trophy case for the gymnasium. It is hoped that sufficient space can be secured to permit moving all of the trophies from the present location to the new addition where they would be on display for a greater number of people. Last year Mr. Kent had several of the older trophies replated, some engraved which had never been engraved, and other awards polished up.

### Students Hold Class Tournaments

On Tuesday evening, the first round of the boys tourney was held with the Seniors playing the Juniors and the Freshmen meeting the Sophomores. Winners will play Thursday evening. The girls tourney started on Wednesday noon with the Junior girls play-

# Good - Better - Best

There are many GOOD feeds today — They all contain proteins, vitamins, minerals, carbohydrates and fats — but some perform BETTER than others. How well they perform depends on the company, their nutritionists, their research and facilities. That's why MASTER MIX has grown to the largest builder of concentrates in such a short period of years — They have the tops in all these factors. For the BEST we urge you to follow the MASTER MIX PROGRAM.

## Master Mix Chick Starter Sparks Chick Growth

YOU can put extra spark . . . quick growth, early feathering . . . into your chick feeding program this year. Feed Master Mix Chick Starter or our brand Chick Starter made with Master Mix Chick Concentrate. Both contain Methio-Vite, the exclusive Master Mix formula that produces top results. Methio-Vite helps to put healthy layers in the laying house . . . helps you make a profit.

Check Our Special Chick Starter Offer Today

# Co-Op. Mill

## DO YOU RECOGNIZE THIS SET OF FARM BUILDINGS?

### WHOSE FARM IS THIS?

Can you identify the farm pictured above? This is another of the farm pictures to be printed in the Co-Op. News, and as no one knows whose farm it is, can you help identify it? There's no prize to the first to tell us whose farm it is, but it is interesting to know who will be first in reporting the information to this newspaper.

Call, phone or write us if you believe you know the farm.

The farm pictured in our last issue again proved to be one of those that are difficult to identify. Only two persons called to identify it. They were Richard Whittenberger and Jerry Scott. Both said it was the Talfred Richardson farm, one mile west and a half mile south of the Sycamore church.

Floyd Creamer, whose farm was pictured in our Feb. 24th issue, was in this week and received his free picture. The Creamer farm is about four miles northeast of Mentone and contains about 80 acres. The Creamers have resided on the farm for 14 years and during that time they have built the barn, chicken house and remodeled the house. Both the house and barn were burned in two separate fires at their place.

The Creamers have five children, Herbert of Warsaw, and Wilma, Mary Esther, Duane and Marvin at home.

Hogs and cattle are raised on the farm in addition to general grain farming.

## PALESTINE NEWS

Mrs. Edison Vandermark

The Junior Sunday School class taught by Hubert Shilling enjoyed a roller skating party at Rock Lake Sunday afternoon.

Miss Sue Drudge was on the sick list over Sunday.

Miss Charlyn Faure is recovering from an attack of the measles.

Mrs. Henry Pletcher entertained with a Stanley Party Thursday afternoon.

Mr. and Mrs. Clyde Summy and sons, Paul and Tommy of near Warsaw visited at the Louise Summy and Jim Rose home Saturday.

Mrs. George Mollenhour was a Warsaw visitor Saturday afternoon.

Several from this place attended the dedication services held in the new addition to the Mentone school house Wednesday evening.

Mr. and Mrs. Neil Estlick celebrated their 40th wedding anniversary Thursday evening by their children entertaining them to dinner at Petros in Warsaw. Those present were Mr. and Mrs. Robert Estlick of Columbia City, Mrs. Orval Secor of Warsaw, Mr. and Mrs. Dale Wiltrout and the guests of honor Mr. and Mrs. Neil Estlick.

Sylvester Clark who has been ill for some time submitted to an operation at the McDonald Hospital last Thursday. His condition is satisfactory.

Mr. and Mrs. Floyd Blackwell entertained to dinner Sunday, Mr. and Mrs.

Roy Stickler, Mrs. Ella Stickler and Mrs. Nora Huffer of Warsaw, Mr. and Mrs. Joe Stickler, Mrs. William Fisher and Mrs. Helen Long of Mentone.

Mr. and Mrs. George Keel of Lansing, Mich. were visitors at the Sylvester Clark home Friday.

### LOCAL NEWS

Mr. and Mrs. Frank R. Bybee of Ft. Wayne and Mr. and Mrs. Kurt Kerwood of Muncie were visitors at the John F. Laird home Sunday afternoon.

### HOME DEMONSTRATION CLUB

The Mentone Home Demonstration club met at the home of Mrs. Masa Nelson in Mentone on Thursday p.m., March 11 with Mrs. Howard Horn as the co-hostess. Mrs. Elmer Sarber, vice-president presided over the meeting. There were 17 members, one visitor and one child present.

The subject of the lesson was Safe and Sane weight control and was ably presented by the leader, Mrs. Harry Vernet. Some of the high points emphasized were to consult your doctor before any diet was attempted. To loose weight gradually is the only safe way, rapid weight reduction often causes wrinkles, loss of energy and damage to the heart.

A flannelgraph was used showing the seven basic foods. The health and safety remarks were given by the health leader, Mrs. Harry Sullivan.

Meditation was given by the co-hostess, Mrs. Howard Horn reading from short meditations.

President, Mrs. Oliver Teel then conducted the business and closed the meeting.

The door prize went to Mrs. Oliver Teel, auction articles were purchased by Mrs. Leroy Cox, Mrs. Howard Horn, Mrs. John Laird and Mrs. Gertrude Hill.

Gifts were presented to Mrs. Elmer Sarber and Mrs. Gertrude Hill.

### LOCAL NEWS

John Laird has brought us a pair of really antique gold-rimmed spectacles in their old open end case (having read in last week's Co-op. News that we needed another pair.) He said we might keep said specs for the Mentone Centennial in case they didn't "fit."

## The Role of Politics in Conservation

By JUDGE BYRON C. KENNEDY  
Wabash Circuit Court

Let it be distinctly understood in the beginning that this discussion is wholly free from partisan politics or personalities. The issue I propose to discuss far transcends any partisanship or personalities for the reason that it is vital, not only to the present generation, but because upon the intelligent administration of a program of conservation of our natural resources on both a state and national scale will depend the very life of those who will follow us on this continent.

Of course, the objective we seek must be attained ultimately through political and legislative action, but before this is accomplished, there is a difficult and exacting job to be done by way of education by all those who truly have the cause of real conservation in their hearts and minds.

Every one who hears my voice may know that I am a steadfast partisan insofar as my political beliefs are concerned. There is no one who believes more steadfastly than I in the two party system and all the necessary incidents to make the system work. I would not trade this system or this form of government for any that ever existed in this world.

I am aware, too, that certain implementations are necessary to make the two party system function,—that among these things is the practice of patronage. I have no quarrel whatever with the intelligent and discreet use of the patronage system in certain areas of government because I am acutely aware that the people of this country are not yet sufficiently interested in the diverse and minute problems of government to give the necessary time to it to enable them to effect a "pure democracy." Perhaps our complex mode of living makes it impossible for us to accomplish such an ideal. In any event, it is necessary that large numbers of people in each party assume the responsibility of conducting campaigns, operate election machinery and familiarize the electorate with issues and principles.

Many of these people do these things with only the hope of a reward in the event their party prevails and it is right that they should have some reward in, I repeat, certain areas of the administration of government, but never at the cost of inefficiency or to the detriment of the public welfare. In other words, good politics is good government.

There are certain areas of government, however, in which the question of political patronage should never enter. One of the most important of these is the govern-

ment in instances to a few years ahead and based in many parts on political expediency. I am saying that it can never be different until we shall have eliminated the practice of political patronage from the appointment of important key personnel and stopped the planning of conservation programs on the basis of political expediency.

Oh, yes, we have made some magnificent strides during the past 25 years or more. Our park system is the one outstanding example. That accomplishment, however, can be credited, for the most part, to one strong, dominant man of character, who had a vision and who had such an outstanding personality, such force of character, such drive, that he gained and held the confidence of not only the political parties in power through the years, but of all the people of the state as well—a national figure in his field, a leader of such intrepid character that he was able to give us our start in this field. We have had only one Abraham Lincoln, you know, and perhaps it will be a long time before another Colonel Lieber comes along. We have also made considerable progress in other phases of our conservation program and that is to the everlasting credit of those indomitable Hoosiers, men both inside and out of the Department of Conservation, who have fought with tooth and nail to maintain a good sensible program. All credit goes to these men in the past and present who have given so much, so devotedly, to our wonderful state.

I say to you, however, that what has been accomplished is small compared to what should and must be accomplished in this long range program, when men and women in this important part of our state government are hired on the basis of fitness and qualification for the job, when these persons are given some reasonable security at a decent wage, with the hope of some reward for a job well done. What young man or woman worth his or her salt is willing to gamble the future of their family, their training, their experience, their reputation in a job which may or may not be secure for only four years? A conservation program, by the very nature of things, is a long term proposition. It must look ahead and plan, subject to necessary modifications, ten, 20—yes, 50 years. How can this possibly be done under a system which is likely to turn over the whole personnel each four years?

The logical question then is, what kind of law is necessary to provide this continuity of qualified personnel? Many plans have been suggested in conservation meetings, in the halls of the General Assembly and in the newspapers of the state. Surely the conservation of these natural resources, upon which we are dependent for our very life, are equally as important to us as are many of the precious freedoms guaranteed by the Bill of Rights in our constitution.

It follows then that the statute which will guarantee the important continuity of personnel in the Department of Conservation should be made a part of our basic statutory law. The detailed and

aspects of such a law are extremely important and in themselves so vital as to merit a special discussion and careful study. This study was begun by a number of capable conservationists many months ago. The results of their

#### Bad Neighbors

Feuding, 20th century style, may sometimes climax in the building of a mild "spite fence." But this kind of "war" was not always so cold. For instance, around 600 A.D., the Bedouins of Mohammed's Arabia, divided by hatreds and feuds, did not think it wrong to rob, to plunder, to kill... and wasted their courage and strength on family or tribal feuds, forever at war with each other.

#### More Grazing

Many Alabama farmers have found that sericea fields may be grazed over a longer period if a reseeding winter legume is planted in them in the fall. A mixture of sericea and reseeding crimson clover or Caley peas will furnish grazing from around January 1 to October 1.

is good government.

There are certain areas of government, however, in which the question of political patronage should never enter. One of the most important of these is the government's conservation of our natural resources. Mind you, I do not say that the overall question of policy and program should be removed from political discussion and thus eliminate party responsibility for an overall program. Party responsibility is absolutely essential to the life of our two party system and to our form of government. I do say that the use of political patronage in the administration of a program so vital as the conservation of our natural resources is wholly inimical to the program and should not be tolerated by the people of this state. I say to you that the political party which first recognizes and puts into sincere action and practice this principle will earn the unyielding gratitude of the people of Indiana and of those generations yet unborn.

The natural resources of this state and nation do not belong to any party. They are limited—they are God-given and so precious that without them we die. To waste them needlessly is an unforgivable sin against both God and man.

Through the years men have spent much time to learn about these resources and how to conserve them. Colleges and universities have been and are now training hundreds of men and women the manifold intricacies and mysteries of these wonders of nature and how best they may be preserved. These persons have devoted their lives to the cause of conservation. They are highly educated, highly trained, skilled technicians in the many highly specialized fields that deal in conservation. Many of these people are devoted, sincere individuals who seek only to give mankind the blessings that come from true conservation.

They are Democrats and Republicans, but they are not permitted under our system to work for any appreciable length of time for us, the whole people, in this vital enterprise. We offer no security for such persons, we take of their earnings for political purposes, we dull their initiative, we furnish no incentive and thus our whole program is stunted and many times ineffective. These are evils that must be stopped.

Anyone who has given a moment's thought to the administration of a program of conservation of our natural resources must realize that in order to accomplish anything worthwhile in this program, continuity of program, and therefore continuity of essential personnel, is absolutely necessary. The problems of soil erosion, water levels, geology, forestry, wildlife protection and all the others require the employment of expert, trained, experienced men and women in these fields and a program that has continuity, neither of which is possible when the department is blown apart by every change in the political winds.

You may well ask now—well, do we have any conservation program in Indiana? How have we accomplished anything at all these past 25 years? The answer to the first question is that we do have a program of sorts, uncoordinated, impractical in some spots, small in scope, lacking in coordination adapted only in

will guarantee the important continuity of personnel in the Department of Conservation should be made a part of our basic statutory law. The defects and aspects of such a law are extremely important and in themselves so vital as to merit a special discussion and careful study. This study was begun by a number of capable conservationists many months ago. The results of their study are on paper and for the most part represent the sound thinking and capable judgment of these men and are deserving of careful consideration by all those truly interested in conservation. Some persons who have not understood the full import of this undertaking have been misled. They have not been given the true facts and made to understand the proposition and they are fearful that under such law an autocratic bureaucracy will be established without responsibility to either the government or the people.

No one abhors autocracy or bureaucracy more than I do and I shall always use every ounce of energy I possess to combat and defeat such a proposal. Such a situation need not arise, however. It is not difficult to draft a law which will serve adequately the purpose intended and still contain all the safeguards to prevent the formation of a bureaucratic autocracy. Every governmental bureau, department and officer should be responsible and accountable to a high authority—to the people themselves.

In all of this we should guard against the inadvertent rise of a system, whether it be called "civil service," "merit system," "personnel plan," or by any other name which will be so arbitrary and so entrenched that it is impossible to eliminate incompetents and loafers. I have personally observed some of these systems within which there has developed a "spoils system" much more vicious and destructive than any political patronage. Such a possibility must be avoided at all costs.

How shall we go about this large undertaking?

First and most important—all the separate groups in this state who seek this common objective should co-ordinate their efforts and present a common front. There should be sufficient liaison between these groups that each may have a complete understanding with the others and a confidence and trust in the efforts and motives of the various groups. Any individual who, for selfish or other reason, deliberately attempts to mislead any of these groups, or who would seek to stir up dissension and disunity, should be dismissed from the group. There is enough glory for all and the issue involved is so important and so vital to us all that there is no room for personal ambitions or selfishness.

I beseech with all the sincerity I possess that all people who truly have this cause at heart weld themselves together for a mighty effort of public education to the end that the people of Indiana will rise as one and demand that this program be instituted at once. The program will come only when the people of our state are made aware of its vital necessity and have become so aroused that their elected representatives are impressed with a mandate.

## The Role of Politics in Conservation

By JUDGE BYRON C. KENNEDY  
 Wabash Circuit Court

Let it be distinctly understood in the beginning that this discussion is wholly free from partisan politics or personalities. The issue I propose to discuss far transcends any partisanship or personalities for the reason that it is vital, not only to the present generation, but because upon the intelligent administration of a program of conservation of our natural resources on both a state and national scale will depend the very life of those who will follow us on this continent.

Of course, the objective we seek must be attained ultimately through political and legislative action, but before this is accomplished, there is a difficult and exacting job to be done by way of education by all those who truly have the cause of real conservation in their hearts and minds.

Every one who hears my voice may know that I am a steadfast partisan insofar as my political beliefs are concerned. There is no one who believes more steadfastly than I in the two party system and all the necessary incidents to make the system work. I would not trade this system or this form of government for any that ever existed in this world.

I am aware, too, that certain implementations are necessary to make the two party system function,—that among these things is the practice of patronage. I have no quarrel whatever with the intelligent and discreet use of the patronage system in certain areas of government because I am acutely aware that the people of this country are not yet sufficiently interested in the diverse and minute problems of government to give the necessary time to it to enable them to effect a "pure democracy." Perhaps our complex mode of living makes it impossible for us to accomplish such an ideal. In any event, it is necessary that large numbers of people in each party assume the responsibility of conducting campaigns, operate election machinery and familiarize the electorate with issues and principles.

Many of these people do these things with only the hope of a reward in the event their party prevails and it is right that they should have some reward in, I repeat, certain areas of the administration of government, but never at the cost of inefficiency or to the detriment of the public welfare. In other words, good politics is good government.

There are certain areas of government, however, in which the question of political patronage should never enter. One of the most important of these is the governmental administration of a program of

most instances to a few years ahead and based in many parts on political expediency. I am saying that it can never be different until we shall have eliminated the practice of political patronage from the appointment of important key personnel and stopped the planning of conservation programs on the basis of political expediency.

Oh, yes, we have made some magnificent strides during the past 25 years or more. Our park system is the one outstanding example. That accomplishment, however, can be credited, for the most part, to one strong, dominant man of character, who had a vision and who had such an outstanding personality, such force of character, such drive, that he gained and held the confidence of not only the political parties in power through the years, but of all the people of the state as well—a national figure in his field, a leader of such intrepid character that he was able to give us our start in this field. We have had only one Abraham Lincoln, you know, and perhaps it will be a long time before another Colonel Lieber comes along. We have also made considerable progress in other phases of our conservation program and that is to the everlasting credit of those indomitable Hoosiers, men both inside and out of the Department of Conservation, who have fought with tooth and nail to maintain a good sensible program. All credit goes to these men in the past and present who have given so much, so devotedly, to our wonderful state.

I say to you, however, that what has been accomplished is small compared to what should and must be accomplished in this long range program, when men and women in this important part of our state government are hired on the basis of fitness and qualification for the job, when these persons are given some reasonable security at a decent wage, with the hope of some reward for a job well done. What young man or woman worth his or her salt is willing to gamble the future of their family, their training, their experience, their reputation in a job which may or may not be secure for only four years? A conservation program, by the very nature of things, is a long term proposition. It must look ahead and plan, subject to necessary modifications, ten, 20—yes, 50 years. How can this possibly be done under a system which is likely to turn over the whole personnel each four years?

The logical question then is, what kind of law is necessary to provide this continuity of qualified personnel? Many plans have been suggested in conservation meetings, in the halls of the General Assembly and in the newspapers of the state. Surely the conservation of these natural resources, upon which we are dependent for our very life, are equally as important to us as are many of the precious freedoms guaranteed by the Bill of Rights in our constitution.

It follows then that the statute which will guarantee the important continuity of personnel in the Department of Conservation should be made a part of our basic statutory law. The detailed and technical aspects of such a law are

extremely important and in themselves so vital as to merit a special discussion and careful study. This study was begun by a number of capable conservationists many months ago. The results of their study are on paper and for the most part

### Bad Neighbors

Feuding, 20th century style, may sometimes climax in the building of a mild "spite fence." But this kind of "war" was not always so cold. For instance, around 600 A.D., the Bedouins of Mohammed's Arabia, divided by hatreds and feuds, did not think it wrong to rob, to plunder, to kill... and wasted their courage and strength on family or tribal feuds, forever at war with each other.

### More Grazing

Many Alabama farmers have found that sericea fields may be grazed over a longer period if a reseeded winter legume is planted in them in the fall. A mixture of sericea and reseeded crimson clover or Caley peas will furnish grazing from around January 1 to October 1.

There are certain areas of government, however, in which the question of political patronage should never enter. One of the most important of these is the governmental administration of a program of conservation of our natural resources.

Minutemen, I do not say that the overall question of policy and program should be removed from political discussion and thus eliminate party responsibility for an overall program. Party responsibility is absolutely essential to the life of our two party system and to our form of government. I do say that the use of political patronage in the administration of a program so vital as the conservation of our natural resources is wholly inimical to the program and should not be tolerated by the people of this state. I say to you that the political party which first recognizes and puts into sincere action and practice this principle will earn the undying gratitude of the people of Indiana and of those generations yet unborn.

The natural resources of this state and nation do not belong to any party. They are limited—they are God-given and so precious that without them we die. To waste them needlessly is an unforgivable sin against both God and man.

Through the years men have spent much time to learn about these resources and how to conserve them. Colleges and universities have been and are now training hundreds of men and women the manifold intricacies and mysteries of these wonders of nature and how best they may be preserved. These persons have devoted their lives to the cause of conservation. They are highly educated, highly trained, skilled technicians in the many highly specialized fields that deal in conservation. Many of these people are devoted, sincere individuals who seek only to give mankind the blessings that come from true conservation.

They are Democrats and Republicans, but they are not permitted under our system to work for any appreciable length of time for us, the whole people, in this vital enterprise. We offer no security for such persons, we take of their earnings for political purposes, we dull their initiative, we furnish no incentive and thus our whole program is stunted and many times ineffective. These are evils that must be stopped.

Anyone who has given a moment's thought to the administration of a program of conservation of our natural resources must realize that in order to accomplish anything worthwhile in this program, continuity of program, and therefore continuity of essential personnel, is absolutely necessary. The problems of soil erosion, water levels, geology, forestry, wildlife protection and all the others require the employment of expert, trained, experienced men and women in these fields and a program that has continuity, neither of which is possible when the department is blown apart by every change in the political winds.

You may well ask now—well, do we have any conservation program in Indiana? How have we accomplished anything at all these past 25 years? surge needed by military aircraft in combat, it is said.

Until recently, the use of high performance aviation gasoline materials was restricted by the federal government to use in aviation fuels. The lifting of this restriction permitted Phillips to use di-isopropyl, as well as HF aviation alkylate, in the new automotive gasoline. Phillips also developed and is a leading manufacturer of HF alkylate, an essential component of today's super-octane aviation fuels, the company noted.

Try a tankful of the new Phillips premium gas.

# WE MEANT TO, BUT . . .

(Lions Newsletter)

Little Tony's mother sent him to the nearby grocery store for several items for the evening meal. She admonished him to hurry back as she needed the things immediately. Tony fully meant to obey his mother but . . . On the vacant lot adjoining the grocery store his friends were playing baseball. They shouted for him to join them. He agreed to do so but only for a few minutes, and his good intentions of obeying his mother were momentarily sidetracked. An hour later when his father came looking for him, Tony was regretful and kept saying that he had meant to hurry back, but . . .

How many of our good intentions and hopeful plans go awry just like Tony's? How many times have we too, been compelled to say, "I'm so sorry. I fully meant to, but . . ."

A Lions Club President wrote that as

he was reading his hometown newspaper recently he noticed an account of another service club's activities. He knew the other club was experiencing difficulties on account of a low membership. It surprised and hurt him when he read a list of ten new members added to the other service club's roll as the list contained the names of two of his close friends that he had been intending to invite to join his Lions Club. In fact, a month earlier he had presented their names to the membership committee and the board of directors and gotten them approved. He had meant to invite them to join, but . . . he hadn't.

When the Lions International Convention was held in historical and picturesque Mexico City in 1952, there were many Lions and their wives who casually remarked that they had fully intended to review their earlier high school and college Spanish courses.

They had meant to, but . . .

It may be that some of our failures are due to the pressure of our daily lives. There are so many different things to distract us from our desired or anticipated goals. So varied and complicated are many of our daily activities that we often allow the pressure of events to lead and direct us rather than allowing our good intentions and planned goals to control us.

Oh, the tragedy of those simple words — "We meant to, but . . ." Are you one of those who has said, "I meant to take out more insurance because of the inflationary prices but now fire has destroyed the dwelling." "I meant to visit a sick friend, but now it is too late." "I meant to start a savings account years ago, and now I desperately need the money." "I meant to spend more time with my growing children, but now they are married and gone." A countless number of regrets could be added to the lengthy list of good intentions that never materialized. So many good things we meant to do, but . . .

Certainly the pressure of our daily lives is great, but isn't the successful person the one who resolves to meet

## You Know These Youngsters—

● They're two typical Indiana 4-H's, enrolling now in the 4-H projects in which they plan to participate this year.

By taking part in 4-H Club work covering all phases of home-making and agriculture, more than 75,000 Indiana boys and girls are developing knowledge through experience, as well as qualities of leadership and good citizenship so essential to the future well-being of America.

Enroll in  
4-H Now!

Northern Indiana Public Service Company, like many other industrial leaders, is investing in America by taking an active part in the 4-H program. This company is proud to be one of the sponsors of the 4-H Farm and Home Electric Project in which all of our State's 92 counties were represented last year by some 6,500 boys and girls. Through their work in this project, these Hoosier youngsters are learning ways to get the most out of their powerful ally, electricity, to assure maximum production and profits with minimum time and labor.

NORTHERN INDIANA *Public Service* COMPANY

## FILTER QUEEN

USES NO BAG OR VACUUM

Want a demonstration of a home cleaner that uses neither paper or cloth bag to collect dirt and gritty particles that are swept up from the cleaned surface?

Filter Queen 305 S. Oak St. or call 93F23 or P. O. box 163, Mentone, Ind. asking for a first hand look at what the company calls the cleaner that is years ahead of any vacuum cleaner on the market today.

With a vacuum cleaner that has no bag, either paper or cloth, this problem comes up: As the bag fills with dirt the suction power of the cleaner is choked off, and since most modern electric cleaners remove dirt by suction alone it's easy to see why Filter Queen manufacturers have done away with a bag in their cleaners.

Here's how the Filter Queen works. The dirt filled stream of air taken into the Filter Queen is swirled with hurricane force around the inside of the machine. Heavier dirt particles actually are thrown to the sides and dropped to the bottom by gravity. The tiny particles are filtered from the air stream and also find their way to the bottom of the machine's spacious metal container.

How? With the air of the Filter Queen's patented filter cone plus gravity.

Today's Filter Queen removes dirt from furniture, rugs, furnace and machinery . . .

# MOTHERS OF WORLD WAR II

The Mothers of World War II, unit 106 met at the Mentone Methodist Church Monday evening, March 8. The meeting was called to order by the president Dora Whetstone. The meeting was opened by presenting the flags by color guards and color bearers and pledging allegiance, singing one verse of our national anthem followed with prayer by the chaplain. Two guests were presented by the Sergeant-at-Arms: the state president, Clarice Tyock from Fort Wayne, and the district president, Flossie Alt, from Galveston. There were also guests from Rochester and Akron. Twenty-five members answered roll call. The secretary's report was read and accepted. Communications were read and placed on file. We received a two dollar donation from Clarence Eller. Ethel Whetstone gave a birthday offering. Three of our members paid their unit dues. It was also moved and seconded that Dora Whetstone and Lavera Horn be sent as voting delegates to the state convention at Richmond, March 25, 26, 27, 28. Mother Wagner is alternate for Dora and

Maude Romine is alternate for Lavera. The meeting was closed by giving the mothers creed and singing of God Bless America, prayer by chaplain and retiring the colors. After meeting we honored mother Wagner for her 50th Wedding Anniversary. She was crowned queen by Dora by placing a gold crown on her head. Donna Lou Eaton and Janet Romine sang, "When You Were A Tulip". Marie Coleman gave a reading of how Mrs. Wagner had helped to organize unit 106 in 1943 and how faithful she has been down through the years. Lavera read a poem entitled "Ma's Tools." Shirley Donnalee and Beverly Horn sang "Silver Threads Among the Gold." Rev. Gosser gave a chalk talk and sang "The Anniversary song." Marie gave a monologue. Maude, Marie and Lavera gave a skit about "50th Anniversary." Then we all went down to the dining room where punch, cake, mints and nuts were served to 57. The table was beautifully decorated in White and Gold with a lovely revolving center piece. Mother Wagner received some lovely gifts. All gave her their best wishes.

**"Due To"**  
"Due to" always modifies a noun and not a verb. Therefore, as a rule, no sentence should begin with due to. Do not say, "He succeeded due to his intelligence." Say, "His success was due to his intelligence."

**Pastry Tip**  
Much time can be saved by making up a larger quantity of pastry than you will need at one time. Keep by wrapping well in waxed paper or placing in a covered dish in the refrigerator for a few days.

### U. S. A. 1975

Approximately 265 billion dollars of additional investment money will be needed to provide employment opportunities for the 22,000,000 additional workers who will be joining the nation's work force in the next 22 years, the National Association of Manufacturers said today.

The money will be needed, the NAM explained, for new factories, stores and shops, for machines, tools, materials "and everything else that goes into the making of a job." The Association based its estimate on a study which show-

ed that there is an average investment of about \$12,000 behind each of today's jobs.

The U. S. Census Bureau's official projection of 22,100,000 additional persons expected in the work force by April 1975, was used in arriving at the estimate that some \$265,200,000,000 more must be invested in business and industry to provide the new jobs, the NAM said.

Actually, an even higher investment will be needed, it was added, if there is a further rise in the price level or if the trend toward higher investment per worker continues.

The NAM has found that "a serious question exists as to where the money is coming from." High taxes have caused a shortage of "risk" or "venture" capital in recent years and that as a consequence business and industry have experienced difficulty in financing expansion.

NAM studies have shown that the major cause of the shortage of investment capital is high government spending, which necessitates high taxes. These in turn drain off money that otherwise might be saved and invested. Some progress is now being made in trimming expenditures by the federal government, it was noted, but, it represents "only a beginning" and has not been substantial enough as yet to have any effect in increasing funds available for investment.

The NAM's finding that \$265,000,000-000 and amount nearly equal to the national debt — will be needed to provide 22,000,000 more jobs by 1975 "emphasizes the urgency of removing obstacles to saving and investment."

Job opportunities, business expansion and national prosperity are all dependent on people being able to save money and invest in business enterprises, but they can't save enough money or have incentives to invest it when taxes take so large a part of their earnings.

The NAM has gathered a large amount of data dealing with the nation's potentialities for maintaining an ever-rising standard of living between

now and 1975. By then, it has been conservatively estimated, the population will have increased to 190,000,000 which would mean 30 million more people than today.

PALESTINE BUSY BEES MEET

The Palestine Busy Bees met at the home of Mrs. Freeman Gruenewalt for their March meeting with Mrs. Eldon Horn acting as assistant hostess.

The meeting was called to order by the president. Mrs. Boggs read the meditation and Mrs. Eldon Horn read the song of the month.

Mrs. Gasaway was introduced and she gave a very interesting talk on First Aid and the reasons why we should take a first aid course. She also demonstrated artificial respiration and told of its different uses.

A letter was read by the president from the Red Cross after which it was voted to donate \$5.00 to them.

Delicious refreshments were served to the members and Mrs. Funk, Mrs. Secor and Mrs. Gasaway, our guests.

The next meeting will be April 6 at the home of Mrs. Dale Willtrout.

GIVEN BIRTHDAY DINNER

The home of Curt Nellans was the scene of much festivity on Saturday evening, March 13th when relatives met to celebrate his 75th birthday. A guests carry-in dinner was served to 20 from a table centered with a beautifully decorated birthday cake surrounded by seventy-five candles. Greetings, good wishes and gifts were presented Mr. Nellans as the candles were extinguished.

Those present were Mr. and Mrs. Herschel Nellans, who incidentally were celebrating their forty-fifth wedding anniversary, also Mr. and Mrs. Pat Kehoe, Mr. and Mrs. Clyde Berkeley and daughter, Mr. and Mrs. Frank Nellans and sons, Mr. and Mrs. Wayne Nellans and sons and Hugh Nellans from Chicago. One daughter Velma living in New Jersey and son John in

JOLLY JANES MEET

The Jolly Janes Home Demonstration Club met at the home of Mrs. John Ellsworth on Monday, March 8, at 8:00 p.m. Mrs. Delford Nelson assisted Mrs. Ellsworth as co-hostess.

Mrs. Albert Hatfield conducted the opening services. The club sang the song, "America the Beautiful," and followed by repeating the pledge to the flag in unison. Mrs. Rex Tucker reported on Health and Safety Practices for the month. The lesson program was given by Mrs. Rex. Tucker and Mrs. Delford Nelson. The lesson theme was "Safe and Sane Weight Control." Literature related to the subject was distributed to the members.

The business meeting was conducted by President Esther Markley. A donation of \$2.00 was given to the Red Cross. The club plans a pleasure trip for the

near future. Each club member is requested to bring a copy of her favorite recipe to the April meeting, that we may co-operate with the project of the County Chorus.

Following the business meeting delicious refreshments were served by the hostesses.

LOCAL NEWS

# SPEECH CLUB, Continued

Our cast includes Sarah Urschel as Lucy Burroughs, Mary Ellen Bryan as Sally Young, a friend of Lucy's; Jon Cullum as Jerry Jones, Sally's boyfriend, and Don Rush as Thornton Miles-Gorman, Lucy's boyfriend. The Great Joanne is played by Barbara Long. Jack Smalley plays Ted Grant, an old flame of Joanne's. Rita Olson is Susie, Lucy's country cousin. Betty Griffis is Janie, the maid.

"And the Lamp Went Out" is the pantomime farce. The cast is as follows:

The Reader—Jalaine Smythe  
Evelyn DeVere—Marita Tucker.  
Ralph Grayson—Burdell Blackburn.  
Mrs. DeVere—Mary Dorrell.  
Herbert Vanderslice—Don Rush.

# POLICE ARE ACCOMMODATING

The Cullum auto started for the regional basketball tourney at Lafayette last Saturday, and a few minutes after it had left, others in the household noticed the ignition and gas tank keys were still at home. A call to the Rochester police brought their very accommodating assistance and they soon had the Buick parked along the curb.

After a few more years of driving cars, the younger generation will pay a little more attention to how much gas there is left in the tank.

any sore

that

does not heal

...is the first of the seven commonest danger signals that may mean cancer...but should always mean a visit to your doctor.

The other six danger signals are—1 (above) 2 A lump or thickening, in the breast or elsewhere 3 Unusual bleeding or discharge 4 Any change in a wart or mole 5 Persistent indigestion or difficulty in swallowing 6 Persistent hoarseness or cough 7 Any change in normal bowel habits.

For other facts about cancer that may some day save your life, phone the American Cancer Society office nearest you, or write to "Cancer"—in care of your local Post Office.

American Cancer Society

# THE WHY OF "POLAROID"

Perhaps many of our readers have noticed the by-line, "Polaroid One-Minute Photo" under some of the pictures printed recently in the Co-Op. News. The purpose is purely mercenary. The Polaroid people, makers of the camera, will furnish newspapers a carton of six films for each 12 issues of a periodical containing one or more such by-lines below photos taken by

their cameras.

The Polaroid camera is one that not only takes, but also develops the picture in a matter of one or two minutes. We're not professionals in any sense of the word, but within reason, will be glad to assist in taking any photo you desire for news or advertising purposes.

C. E. Jones, of Botkins, Ohio, was a Mentone visitor over the week end.

For your plants and lawns use Armours Vertigreen, 5 and 10 lb. pkgs. Denton's Drug Store, Mentone.

A birthday supper was held at the home of Mr. and Mrs. Dean Nellans, Jr. Sunday night in honor of their son, sonny Jay Nellans who was seven years old. Those present were Mr. and Mrs. Frank Smith, Mr. and Mrs. Eldred Paulus and Rita Lou from Rochester, Mr. and Mrs. Miles Igo, Burket and Mrs. Glen Clauss.

## JAMES CLARK

James Sylvester Clark, 64, of Palestine, died at 10:30 a.m., Sunday at the McDonald hospital following an operation for chronic ulcers performed 10 days previously. He had been ill for two months.

Born in Marshall county Nov. 5, 1889, the son of James O. and Matilda (Huffman) Clark, Mr. Clark had been a farmer in the Tippecanoe, Mentone and Palestine communities all of his life. He was married to the former Fannie Mae Warren.

Surviving relatives include his wife, six sons, Lowell, Michigan City, Robert, Lansing, Mich., James, Bernard and Richard, of Route 5, Warsaw, and Alden, at home; three daughters, Mrs. George (Bernice) Keel, Lansing, Mich., Mrs. Lyle (Charlotte) Regenos, Warsaw, and Mrs. Forrest (Barbara) Hamman, Oswego; 18 grandchildren, five great-grandchildren; three sisters, Mrs. LeRoy Ludwig, Mrs. Evelyn Nickerson and Mrs. Monroe Gall, all of Elkhart. One daughter preceded him in death.

Funeral services were held at the Palestine Christian church at 2 p.m., Tuesday with Rev. Albert Rider officiating. Burial was in Harrison Center cemetery. The Reed funeral home, of Mentone, was in charge of arrangements.

## CELEBRATES THIRD BIRTHDAY

A birthday party for Johnny Romine's third birthday was given at the Romine home Monday afternoon.

Guests were: Sharon Lewis, Debra Bowser, Marsha Goodman, Ernest Wellborn, Garrie Romine and brother Bobby and Tim.

In the evening his grandparents, Mr. and Mrs. Monroe Romine and daughter Janet, and great grandfather, Melvin Hessong were callers.

## CLUB CALENDAR

Friendly Neighbors Club, April 1, 1:30 p.m. at the home of Marie Deaton. Seed and Bulb exchange. Bring a recipe for County Chorus Cook Book.

D.A.R. will meet with Mrs. Kenneth Riner Tuesday, March 30th at 7:30. Good citizenship girls and their mothers will be guests.

O.E.S. March 29, Masonic Hall, 7:45 p.m. Public installation of officers. Public is invited.

GREAT-GRANDMOTHER TWICE  
IN ONE WEEK

Mr. and Mrs. Robert Riggs of Westfield, Mass. are parents of a daughter Martha born March 16. The grandparents are Mr. and Mrs. Oliver Riggs of Wayland, Mass.

This makes Mrs. Clara Riggs, formerly of Mentone, great grandmother twice in a week, as Mr. and Mrs. Don Fenstermaker of Hollywood, California have a daughter, Kathrina Kay born on March 9.

## WITH THE SICK

Mrs. Richard Greulach shows a little improvement at this time.

BOY SCOUT FUND RAISING  
CAMPAIGN SET

At a meeting of Kosciusko County Scouting executives, held in the offices of Cecil W. Armstrong, who is county chairman, Monday, April 26, was selected as the day for the Annual Dawn-to-Dusk Fund Raising Drive to raise funds to carry on Scouting activities throughout the county.

The scouting movement is enjoying a healthy growth in the county and it was pointed out that funds must be available for administration and to meet the needs of the hundreds of Cubs, Boy Scouts, and Explorer Scouts in the county.

## REVIVAL SERVICES AT FAIRVIEW

Revival Services will start at the Fairview Evangelical United Brethren church March 28 and continue every evening through April 4. Services will start at 7:30 every evening. Mr. Dean Fetterhoff will be bringing the messages. The public is cordially invited to attend these meetings, according to word from their pastor, Carl Thompson.

## JOE BARTIK

Joe M. Bartik, Rochester, died at his home at 1:30 p.m. Thursday. Death was attributed to a heart attack which he suffered Wednesday night.

He was a former resident of the Talmage community before moving to Rochester.

## COUNTY SPEECH FESTIVAL

Boys and girls from the high schools of the county will meet in Warsaw Friday, March 26, to take part in the annual County Speech Festival.

Members of the Student Congress will meet at 9 a.m.

Contests in poetry reading, humorous declamations, dramatic declamations, orations, radio announcing and one act plays will begin at 1 p.m.

The days activities will close with a public program in the evening in the Warsaw High School auditorium.

Come and enjoy the evening.

## TALENT SHOW WEDNESDAY

The Mentone senior class will sponsor a talent show next Wednesday evening, March 31, at 7:30. Six prizes are being offered in the amateur talent contest, and Doug Kehler, impersonator, will be the featured entertainer.

The public is invited and admission will be 50c for children and 75c for adults.

## METHODIST LADIES MEET

The W.S.C.S. of the Mentone Methodist Church met in the church for their March meeting.

Mrs. E. C. McGowen gave as her devotion "Seeds of Love."

Mrs. Dan Urschel presided during the business. The "circles" gave a report on their work. Committees were appointed for the Mother and Daughter Banquet. A \$10.00 gift was given to the student work camps. A letter from our home missionary, Miss Hiteua was read.

Plans for a Lenten Breakfast are being made with Mrs. Frances Sharp as guest speaker.

Mrs. Joe Boggs and Mrs. Harold Nelson, gave the lesson, "Our Spanish American Friends." A display of Spanish scenes, done in chalk by Rev. David Gosser, furnished an impressive background. A fine panel discussion by Mrs. Jack Van Gilder, Mrs. David Gosser, Mrs. Joe Boggs and Mrs. Harold Nelson give a better understanding of our Spanish friends' problems. In conclusion Mrs. Dan Urschel softly played the music while Mrs. Joe Boggs repeated the Lords Prayer in Spanish.

A social hour was held in the dining room where refreshments were served.

\$20,000 LOSS IN FARM  
FIRE SATURDAY EVENING

It has been estimated that a loss of nearly \$20,000 was suffered by H. V. Nellans and Sons Saturday evening when fire completely destroyed a pig brooding house at their farm south of town. The building was 210 feet long and 30 feet wide. Some insurance was carried, but it is reported it wouldn't fully cover the total loss.

The Nellans family operated a chick hatchery for many years, and a few years back pioneered in the pig hatchery business. The building that burned contained 31 brood sows and about 225 young pigs, in addition to two tractors and a power sprayer.

Firemen from Mentone, Akron and Burket responded to the call, but the strong wind and the metal roof prevented the firemen from getting sufficient water into the building to stop its progress. The strong wind made it impossible to open it up without it acting as a giant chimney for the flames. It also prevented the rescue of any of the pigs at the opposite end of the building from the fire.

It hasn't been determined just what started the fire.

ELKHART LOSES IN FINAL  
DAY OF H. S. BASKETBALL

Elkhart, the team that put the brakes on Mentone high school's tournament plans in the regional at South Bend, didn't look so good at the state finals at Indianapolis Saturday. The boys from Muncie eliminated them in the first afternoon game. Even though they ended up in the final four teams out of about 750 in the state that does not necessarily mean they were the fourth best team, but it did indicate the calibre of the team it took to put Mentone on the sidelines for the balance of the season.

Mentone did have a fine season, losing only one game until the regional, but we can always look back and believe that they could have done better, if — but they didn't. This was just another of those big lessons we all must learn in life — that we can go no farther than we prepare for, and it is always too late afterwards.

Again we extend our congratulations to the Mentone boys for a fine year of basketball.

## PALESTINE NEWS

Mrs. Edison Vandermark

Those who called at the Joe Huffer home Sunday afternoon were, Mr. and Mrs. Ethel Kennard of near Tippecanoe, Mrs. Russell Huffer, Mrs. Edison Vandermark and Mrs. Blonde Warner of Warsaw. Mr. and Mrs. Huffer who have been ill for several weeks are slowly improving.

Mr. Sylvester Clark who has been ill for some time passed away at the McDonald Hospital Sunday about 10:30 a.m. His funeral was held at the Palestine Christian Church Tuesday afternoon, Rev. Rider officiating. Burial was in Harrison Center Cemetery.

Mr. and Mrs. Orval Briggs of Columbia City were entertained at the home of Mr. and Mrs. Neil Estlick Saturday evening.

Mrs. Vern Powell of near Leesburg and Mrs. Edison Vandermark were entertained Wednesday at the home of Mr. and Mrs. Joe Rife in Warsaw, with a lovely birthday dinner, honoring Mrs. Vandermark.

Mrs. Orval Secor and sons, Dennis, David and Douglas of Warsaw spent Sunday with the former's parents, Mr.

and Mrs. Neil Estlick.

Mr. Ernest Gerkin of South Bend took supper with the Estlick's Wednesday evening.

Mrs. Edison Vandermark attended the funeral of Roy Bowen which was held in Warsaw, Thursday afternoon.

Mr. and Mrs. Elmer Magner and daughter, Mrs. Otto Subkowski and Gordon of New Haven visited Saturday afternoon with Mr. and Mrs. Henry Fletcher.

Mr. and Mrs. Neil Estlick and Mrs. Orval Secor and sons spent Sunday evening with the formers mother, Mrs. Lura Estlick of Columbia City.

Mrs. Joe Stickler spent Friday and Saturday with her sister Mrs. Deane Goshert of Ft. Wayne.

Mrs. Lois Fenstermaker and daughter Sue of Mentone spent Sunday at the Max Dunlap home.

Mrs. Floyd Blackwell, Mrs. Joe Stickler, Mrs. George Hipsher, Mrs. Ray Eckert, Mrs. Ray Wiltout, Mrs. Neil Estlick and Mrs. Hubert Shilling attended a missionary meeting held at the home of Mrs. Ralph Remy, Thursday afternoon.

Mr. and Mrs. Eldon Horn and daughters, Cheryl and Karen, attended a family dinner, Sunday at the home of

Mr. and Mrs. Vernon Cumberland of Akron.

## FATHER AND SON CAN CONTOUR FARM SLOPES

Thanks to training received in 4-H club soil conservation project work, Junior can help Dad lay out contours on sloping farm land this spring.

R. O. Cole, extension soil conservationist at Purdue university, says that fairly uniform slopes of two percent or greater should either be kept in grass or farmed on the contour. He adds that even though the rotation provides for two or more years of grass, such slopes should be contoured when planted to cultivated crops. This practice helps conserve moisture and prevent erosion, because run-off water is "sloved to a walk" by crop rows that march around the slope rather than up and down.

When Junior and Dad lay out contour lines, they may use a regular surveyor's level or a carpenter's level with a mirror mounted over the bubble. Junior may hold the target rod while Dad sights over the level from a point 50 feet away. Dad motions to Junior to move up or down the slope until both are at points of equal elevation. When

Phone Atwood 2101

LAUREL W.  
CLINGENPEEL

GENERAL CONTRACTOR

Box 12

Atwood, Ind.

A21p

they strike a level, a stake is driven where each stands, then they move forward about 50 feet and repeat the process until a line of stakes is set all the way across the slope.

Farmers not fortunate enough to have a son in 4-H soil conservation project work may call on their soil conservation district farm planner for assistance in laying out contours.

## DO YOU RECOGNIZE THIS SET OF FARM BUILDINGS?

### WHOSE FARM IS THIS?

Can you identify the farm pictured above? This is another of the farm pictures to be printed in the Co-Op. News, and as no one knows whose farm it is, can you help identify it? There's no prize to the first to tell us whose farm it is, but it is interesting to know who will be first in reporting the information to this newspaper.

Call, phone or write us if you believe you know the farm.

The farm pictured in our last issue is owned by Mrs. Roy Smith, of Route 4, Warsaw, and is farmed by Clifford Baker and his mother, Mrs. Clara Baker. The farm is located two miles east and one-half mile south of Mentone.

The farm was owned by "Mugg" Latimer who moved on the place in 1892 and at that time the Nickle Plate railroad came just that far. The household goods were moved in by train. The original farm contained 251 acres which was eventually divided between two children, Mrs. Smith, and Lyndes who received that part south of the railroad.

Mr. and Mrs. Edward Baker moved onto the farm in 1943, but Mr. Baker passed away in 1945. That November Clifford Baker returned from army duty and took over the farming operations.

Decker Farm Pictured March 3.

Dean Decker, of R. R. 5, Warsaw, was in our office this week and received his picture of the Fred Decker farm pictured in our March 3 issue.

The 120 acre farm lies about two and one-fourth miles south of Atwood. The farm was bought by Fred Decker from a Mrs. Stickler in the early '30s. Dean has been doing the farming for several years and his father has been spending the winters in Florida. They work together in the summers. They also farm three other nearby farms. They have about 2,500 laying hens, keep 20 head of milk cattle and do general grain farming.

Mr. and Mrs. Dean Decker have three children, Judy 6, Barbara 5, and Cathy 3.

### CARD OF THANKS

I wish to extend my sincere thanks to everyone who remembered me in any way while I was in the hospital. Your cards and potted plant from the Beaver Dam church will long be remembered.

Lester C. Rogers

### WORD FROM FLORIDA

Fort Lauderdale, Fla.

March 20, 1954

Grandpa, Grandma Cullum and Uncle Jon

Wish you could all be here and enjoy this.

Will have to take a day off and tell you about it when we get home.

Sincerely,  
The Mentzers

Oneco, Florida

March 22, 1954

Dear folks,

How is everything in Mentone? Is it nice and warm? Hope so, as we are heading north this week. Please send our paper to Akron. The sunshine is beautiful, hasn't been too warm, just comfortable with a light coat or sweater. The sights are wonderful. Will be seeing you soon.

Stella and Percy Swick

## ANNUAL COON ROAST

AT THE  
**MENTONE CAFE**  
ON  
**FRIDAY, APRIL 2**

### COUNTRY NEIGHBORS PARTY

The Country Neighbors Home Demonstration Club held their annual party Monday night, March 15th at the home of Mrs. Earl Zent.

When those on the entertainment side arrived at the Zent home they were surprised to find those on the food side already there.

The dining table was beautifully decorated in keeping with St. Patrick's Day. A delicious three course dinner was soon served.

Afterward the entertainment group kept the others guessing as to where the entertainment was to be. To their surprise it was held in the Zent home.

Mrs. Allen Herendeen acted as master of ceremonies. She introduced Mrs. Ruth Davis who gave several vocal numbers throughout the evening, playing her own accompaniment.

A lively time was had by one group who were blindfolded and asked to identify objects by sound, smell and touch. Another group took part in 'I Have A Secret' panel which proved quite amusing.

Mrs. Wilbert Utter won the door prize and a gift of appreciation was given to Mrs. Davis.

Sixteen ladies and two children enjoyed the party.

### OUR SINCERE THANKS

We want to extend our thanks and appreciation to the firemen from Mentone, Burket and Akron for their help Saturday evening. Also to the neighbors and friends who stood ready to assist in any way possible.

H. V. Nellans & Sons.

**METHODIST LADIES TO MEET**

The Mary and Martha Circle of the WSCS is meeting on Thursday evening of this week in the Youth Room at 7:30.

Plans for the annual Easter Breakfast served by the men of the church are in progress. A formal announcement of committees will be made next week.

As in years past, services will be held each night of Holy Week, Monday through Friday, with the observance of The Lord's Supper on Thursday evening. As part of the Lenten Service, the Board of Stewards and the Commission on Membership and Evangelism will make "good will" calls on the members

and friends of the church.

This Sunday evening following the Lenten Bible Hour, the Board of Stewards and Commission on Membership and Evangelism will meet for a briefing session prior to the above referred to "good will" calls.

Members of these committees are: Board of Stewards, Denton Abbey, Mrs. Philip Blue, Mr. Dean Nellans, Jr., Mr. and Mrs. Herman Olson, Mrs. Miles Manwaring, Mr. Eugene Marshall, Mr. Ned Miller, Mr. James Rodibaugh, Mrs. Iris Anderson, Mrs. Albert Hatfield, Mr. Everett Long, Mr. Lyman Mollenhour, Mr. Robert Whetstone, Mr. and Mrs. D. L. Bunner, Mr. and Mrs. Glen Snider, Mrs. Bernice Rush, Mrs. Clayton Goodwin, Mrs. Herschel Teel, and Mr. and Mrs. Frank Smith. Mrs. Frank Smith is chairman of the Board of Stewards and Mrs. Iris Anderson, secretary.

Commission of Membership and Evangelism: Mr. and Mrs. Mott Bryan, Miss Jacqueline Blue, Mr. and Mrs. Robert Hoover, Mr. and Mrs. Ralph Mollenhour, Mr. Charles Manwaring, Mrs. Eugene Sarber, Mr. and Mrs. John Allen Teel, Mr. and Mrs. Raymond Cooper, Mr. Denton Abbey, Mrs. Broda Clark, and the Pastor. Mr. Bryan is Chairman and Miss Blue is secretary.

## 4-H CLUB CHATTER

By Ruth Snellenberger

### Dear 4-H Members and Parents:

The 4-H Clothing project has something valuable for every girl, in my thinking. Why? Because every girl and woman, throughout her lifetime, decides on dress styles she likes, selects accessories she thinks look well together, buys undergarments, chooses colors she enjoys wearing, and so forth. Opportunities to learn to make wiser decisions in these matters are offered through 4-H clothing activities.

Today I'd like to talk about a girl's first dress. This is a requirement of division III. Those adult leaders who attended the last meeting of that group saw some drawing of suggested styles found to be not too difficult for a young girl to make. This first dress should be simple enough to make that the girl does not become discouraged too easily yet it should present new construction details to be challenging so that she learns.

Several recommendations have been made to keep in mind while considering a style to be selected:

1. The pattern should have as few pattern pieces as possible, right and left parts should be alike, and there should be no difficult cutting or sewing problems.
2. A gathered or four-gored skirt rather than one with pleats, a yoke, or many gores.
3. Cap sleeves, cut-on sleeves, or no

sleeves rather than set-in sleeves.

4. Plain lines rather than inset pieces such as belt or yokes.

5. A collar may be used but a neck facing is easier. If a front opening is desired select a pattern having a center front seam in the blouse. With this a variety of necklines is possible.

6. Lower edge of blouse plain when attached to a gathered skirt.

7. A one-piece dress or sack-dress is acceptable for the slender girl.

Most girls will need a side placket using a zipper. Instruction on how to put in a zipper by an easy method is being taught during May to 4-H clothing girls by Miss Reba Pyle, our home demonstration agent. I know you'll all want to take advantage of this opportunity to actually put in a zipper with her instruction and then help to see that you do it correctly. Your adult leader has the information as to when your club is scheduled for this help.

For this first dress, do be sure to select your pattern before you get your material! That was an important point stressed at the Fabric School — your pattern will tell you how much material you need, as well as other notions required, and will suggest suitable mat-

erials that will make up well according to that style.

For this first dress also an all-over figured design or a plain colored material has been found the easiest to work with — stripes and plaids are too hard to match for the beginning dressmaker; materials with an up-and-down or a left-and-right in a design should be avoided.

Some time later I'd like to discuss color in relation to dress selection and accessories.

A reminder to 4-H members who wish to be junior leaders: April 1st is the deadline for enrollment. All cards should be on file in the County Extension Office. Those of you who will be 15 years of age anytime this year are eligible to be junior leaders if this is your third year of club work. If you have already enrolled as an assistant junior leader thinking you had to be 15 on January 1, your card will be changed to read "junior leader."

By the way, if any parents or members would like me to stress or explain any particular aspect of 4-H Club Work, I'd be glad to have your suggestions. Bye now.

Grass silage, an excellent source of carotene, should be included in dairy herd rations, say Purdue University dairymen. Five pounds of grass silage supply as much carotene as 70 lbs. of number 3 hay, 17 lbs. of number 2 hay, or 18 lbs. of corn silage.

You'll undoubtedly have to worry about insect pests in your garden this year, say Purdue University horticulturists. When you buy your seeds, why not lay in a supply of the insecticides necessary to control insect invaders.

# Smidley Hog Houses

THESE houses are so convenient and easy to give your sows and pigs the best of care, that they will pay for themselves many times in the pigs you save.

All Smidley houses are equipped with the wonderfully convenient Smidley roof. Opening wide, it makes it easy to care for sow and pigs. Easy to clean and sanitary, it can be opened wide

to let the sun shine in without draught on pigs.

They are built on oak runners, easy to move. Fir floors, fir or cedar siding, the roof is covered with galvanized steel.

Smidley houses are shipped, knocked-down, painted two coats best outside orange-yellow color. Lifting side and insulite insulation in roofs may be had as extras.

## FEATURES:

1. Galvanized steel covered roof. Sunlight enters the house—sterilizes and dries. Easy to bed, clean and care for litter.
2. Pig rails on sides and back end.
3. Good clear siding and floor—Cedar and Douglas Fir.
4. Four oak runners or skids.
5. Two coats best orange paint.
6. Extra heavy 5" T hinges bolted on full height door.
7. Two door hooks.
8. Cement coated nails used in construction hold house together securely.
9. Roof insulated with one-half inch insulation against summer heat and winter moisture condensation is a wise investment.
10. We have found that a six foot wide house is sufficient for sows up to 600 pounds. The sow is forced to lay lengthwise against sloping sides, which are equipped with pig rails, thus affording maximum protection for the small pigs.

## What we still don't know about cancer —and one of the reasons why

IN THE PAST FEW YEARS, our knowledge of the nature of cancer, and how to treat it, has grown encouragingly. Patients, who would have been considered hopeless cases even five years ago, today are being completely cured. And even those who apply for treatment too late can usually live longer—and less painfully—because of modern palliative treatment.

All the same, there have been defeats as well as victories. We do not know—to take a single example—why so many more men are now dying from cancer of the lung. In 1933—just twenty years ago—lung cancer killed 2,252 men; in 1953, some 18,500. That's a great increase—which even our expanded population, and other known factors, can't possibly account for in full.

Well, why haven't we found

more of the answers to cancer?

Not only because cancer is an immensely complex problem: difficult to diagnose, and difficult to treat; challenging to the best research minds.

All that is true enough. But there is another reason: *we do not have enough money.*

Last year your gifts to the American Cancer Society were more generous than ever before. But they were not enough.

You gave the Society almost twenty millions to fight a disease that—at present death rates—will kill twenty-three million living Americans.

Less than one dollar for each American destined to die from cancer. Much more is needed for research, for education, for service to patients. Won't you please do your part . . . now?

Cancer Man's cruelest enemy strike back—*Give*

## Pigs *START FASTER* on SWIFT'S PIG POWER!

Feeding tests (under farm conditions) proved again and again that pigs fed on Swift's Pig Power grow faster, right from the start—mature more evenly. And, that's why more hog raisers are switching to Swift's Pig Power every day.

Rich in animal and vegetable proteins, and fortified with all the essential vitamins and antibiotics—Swift's Pig Power is truly a "powerful bag of nutrition!"

### FEED 'EM THE SWIFT WAY, ALL THE WAY

There's a complete Swift's Hog Feeding Program tailor-made for your own farm. Swift's Hog Feeds include:

- Swift's Pig Power—for nursing pigs in creep to weaning age
- Swift's Swine concentrate—for fattening period, to balance home-grown grains
- Swift's Sow and Pig Concentrate—during gestation and nursing time

Next time—start your pigs the faster way—start them on Swift's Pig Power then follow through with a Swift Feeding Program tailor-made to your needs.

## PURDUE EGG DAY APRIL 1 AT PURDUE

"Eggs — How to Produce and Sell Them" has been selected as the central theme for this year's Purdue Egg Day, April 1, at Purdue University.

This annual meeting, designed principally for the producer of commercial market eggs, will be held in the Poultry Pavilion at Purdue in the morning, and in Fowler Hall in the afternoon. Purdue Poultrymen say 1954 Egg Day will cover many of the problems currently confronting egg producers with 1,000 layers and more.

Dr. A. R. Winter, Ohio State Poultry specialist will be one of the featured speakers at the meeting. Author of a newly issued publication "Quality Losses in Market Eggs", Dr. Winter will deal with egg cleaning problems in the commercial operation.

Other headline speakers from out-of-state on the day's program are Ralph Shephard, Napoleon, O., egg producer and W. Campbell, Detroit, Mich. Six Hoosier commercial egg producers are scheduled to speak including J. I. Johns, a cage layer operator from Rising Sun. Purdue poultrymen, veterinarians and agricultural economists will also talk at the session.

Buyers of quality eggs in Indiana have distributed more than 8,000 copies of the Egg Day program in the past do not have one, or would like additional information about the meeting, should write to Dr. L. A. Wilhelm, poultry department, Purdue.

Cooperating sponsors of Egg Day are The Indiana State Poultry Association, commercial egg buyers, and the Purdue poultry department.

## NOTICE

The time of year has come  
When you should make a lot of repair  
See the Burket Lumber Co.  
Where you will be treated so fair

Now it's time to build a brooder house  
A hog house or two  
It is time to do a lot of building  
Because the spring days are getting few

Now we have all sorts of lumber, some of every kind  
We can build anything that you might have in mind  
You might need a new gate, a new board fence or two  
We know you need some lumber to fix a hole or two  
You need a new floor in that building so badly bent  
So why not come around so we can sell you our cement

Now we can build a nice new home, or nice tumble down shack  
We got the nails, bolts, staples and even barn door track  
We can put a roof on your building, any color you desire  
We've got the bricks to repair that old chimney, so you won't have a fire

Now if you want some bargain prices  
please don't shop around  
Just come to the Burket Lumber Co.  
and keep both feet on the ground.

**BURKET LUMBER CO.**

## SCHOOL NEWS

### Wanted! Names Of Next Year's First Grade Pupils

In order to send out letters announcing the pre-school health round-up, it is necessary to have the names of all boys and girls who will be six years of age by October 1, 1954 and will enroll in the Mentone School. The following list has been obtained from the pupils:

Steve Lewis, Curtis Creviston, Betty Gillmore, Cindy Ellsworth, Cathy Shinn, Jay Tucker, Ken Romine, Dennis Feldman, Carolyn Warren, Teddy Shoemaker, Elaine Manwaring, Tommy Johnston, Jack Rickel, Sandra Nelson, Clair Taylor, Marilyn Taylor, Mark Gosser, Dawn Perry, Ronnie Ward, Christine Deaton, Carol Jean Rash, and Mary Ann Peterson. Do you know of any others? Please call the school if you do.

### Annual Class Tourney Completed

In the class tourney this year, the Senior boys won for the second straight time, defeating the Sophomore boys last Thursday evening. The Sophomore girls defeated the Freshmen girls to win the girls' division. In the consolation

contests, the junior boys won over the freshmen, and the senior girls defeated the junior girls. At present, the annual "21" tourney is being run off at noon in the gym.

### New Pupil Enrolled

John Vanderhoff from Sedgwick County, Kansas, has enrolled in the fifth grade at Mentone. He makes the fourtieth pupil in that grade. John is the son of Mr. and Mrs. John Vanderhoff who recently moved onto the Dorsey farm.

### Speech Club Makes Over \$40.00

A large crowd turned out for the one act plays staged by the Speech club last Friday evening. Over forty dollars was taken in to be used for the speech club projects. This Friday a number of students will participate in the County speech festival and Student Congress to be held at Warsaw. The evening program will feature an all-county one act play and the best of the afternoon work. The program will be held in the Warsaw auditorium at 7:30. It is free and open to the public.

### First Call For Track

Coach Hoogenboom has issued the first call for track. A number of the boys who starred last year have re-

turned and prospects are bright for a successful season. Mentone will have McKinley, Ward, Tinkey, and Miller in the dashes; Tinkey and Hatfield in the pole vault; Nellans, Dickey and Secrist will run the longer races. Several meets have already been scheduled with the first meet set for April 2.

Mr. Hoogenboom was out of school on Monday with a sore throat. Mr. Farley of Etna Green substituted.

The following attended the State Basketball finals at Indianapolis last Saturday: Mr. Hoogenboom, Mr. Kelley, Bob Boggs, Larry Linn, Jon Cullum, Burdell Blackburn, Jerry Tinkey, Bill Nellans, Melvin Miller, Francis Rickel, Don Rush. Bob Boggs gave a short report on the tourney at a general assembly on Monday.

## POULTRYMEN

EVER STOP TO  
THINK WHAT WOULD  
HAPPEN TO YOUR  
PROFIT PICTURE  
IF YOU . . .

- 1 Had fewer losses** Year after year, leading poultrymen everywhere depend on Honeggers for a clean, palatable starting ration, perfectly blended and fortified for fast feathering, fewer problems and less death losses. It really doesn't cost you any more to feed HONEGGER'S BIG "H" SUPER STARTER.
- 2 Had uniform development** Honeggers' growing ration builds big well-developed frames on your birds . . . on all of them, uniformly! For you get a grower that is farm-tested by people with real poultry know-how when you feed HONEGGER'S BIG "H" GROWER.
- 3 Had highest possible egg production** Here's the most important phase of your poultry program, the time when you get your money back . . . and some to spare! And with Honeggers' Egg Popper you get more eggs at lower feed cost . . . for more profits! Be sure it's HONEGGER EGG POPPER OR 26% SUPPLEMENT.

Big "H" poultry rations are developed and manufactured by the owners and operators of the nation's largest U. S. Certified hatchery. They're the same products that are fed to the 13,500 layers at Honeggers' 400-Acre Practical Test Farm.

**MERRY 4-H Ers MEET**

The regular meeting of the Mentone Merry 4-H Ers was held, March 23 at 7:00 and was called to order by the president, Marilyn Horn.

The secretary read her report for corrections or additions.

Patty Parker led the pledge to the American and 4-H flags.

Dues were paid by 14 members and 2 leaders.

Winners of the poster contest were: First, Pam Hammer and Becky Keirn, second, Janice Davis and Patty Parker; Third, Marilyn Horn and Susie Sul-

livan. We wish to thank Ruth Cullum for judging the posters.

A demonstration on measurements was given by Janice Davis and one on Macaroons was by Susie Sullivan. Songs were sung and refreshments were served by Susie Sullivan and Betty Parker.

Remember to dock and castrate lambs under two weeks of age, remind Purdue University animal husbandry specialists. Then feed them in a creep before they go to pasture. In addition to grain and leafy legume hay, salt and water should be provided.

# New, roomier bodies! New, rugged construction!

## New Chevrolet Trucks... do more work per day... more work per dollar!

**You save extra trips.** That's because of the extra load space you get in the new Advance-Design bodies. New pick-up bodies are deeper, new stake and platform bodies are wider and longer. Also, they're set lower for easier loading.

**You save hours on the road.** Thanks to new high-compression power, you can maintain faster schedules without driving at higher maximum speeds. Increased acceleration and hill-climbing ability let you save time where it counts.

**You save time on deliveries.** With new truck Hydra-Matic trans-

mission, you save time at every delivery stop. And you can forget about clutching and shifting for good! It's optional at extra cost on ½-, ¾- and 1-ton Chevrolet trucks.

**You save on operating costs.** New power saves you money every mile! The "Thriftmaster 235" engine, the "Loadmaster 235" and the "Jobmaster 261" (optional on 2-ton models at extra cost) deliver increased operating economy.

**You save with lower upkeep, too.** Extra chassis strength saves you money on maintenance. There are heavier axle shafts in two-ton

models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

**And your savings start the day you buy.** In fact, they start with the low price you pay and continue over the miles. Chevrolet is America's lowest-priced line of trucks. It's also the truck that has a traditionally higher trade-in value.

**Come in and see all the wonderful new things you get in America's number one truck.** We'll be glad to give you all the money-saving facts.

## COUNTRY NEIGHBORS MEET

Mrs. Wilvin Long was hostess to the Country Neighbors Home Demonstration Club for the March meeting. "America the Beautiful" and "My Wild Irish Rose" was sung.

Devotions were led by Mrs. Roy Maxwell using the 92nd Psalm and a poem "The Coming of Spring".

The health and safety lesson by Mrs. Joe Peterson was "You and Your Weight", as a safe health habit.

Mrs. Wilbert Utter conducted the business giving a report on recently held presidents meeting. "The Pennies for Friendship," collection was taken and the committee on the Red Cross drive

report was completed.

The lesson on "weight control," was completed by Mrs. Wilbert Utter, leaving wishful thinking towards a smaller size.

Refreshments were served by the hostess to 13 members, 3 children and 1 guest.

The April meeting will be held at the home of Mrs. Wilbert Utter.

## LOCAL NEWS

Sunday visitors at the Artley Cullum home were Mr. and Mrs. Harold Wilson and daughters, of Delphi; Mr. and Mrs. Walter Harman and Mrs. Lorraine Sellers of near Etna Green.

Polaroid One-Minute Photo by Co-op. News

**SPEAKS BEFORE LIONS**—Bill Holford, football coach at Manchester College, is shown above as he spoke to the members of the Mentone Lions Club and the High School basketball team last Wednesday evening. Shown are: Raymond Cooper, Everett Long, Curtis Riner, Maynard Johnston, Eugene Marshall, K. A. Riner and Noah Tinkey, in the center row; Walter Kent, Wayne Bowser, Holford, Leroy Norris, Kenneth Romine, Noble Babcock and Bob Jones, in the back row. Bob Holloway, Janice Nelson, Betty Griffiths, Marita Tucker, Heston Creviston, Jon Cullum and Francis Rickel are shown in the foreground.

## MISSED LAST WEEK

One of our news notes which failed to get in the paper last week was that Mr. and Mrs. James Bitting had the misfortune of having all their household goods burn while being moved from Bourbon to Chicago in a moving van. The fire was discovered at Highland, Ind., but practically everything was totally destroyed.

Mrs. Bitting is the daughter of Ruth Davis of Mentone.

Mr. and Mrs. Bitting were formerly employed at the Elcar Coach at Bourbon but were moving to Chicago where the husband has a job at a filling station owned by Ed. Southers, and Mrs. Bitting works as a clerk at the American Angus Breeders Association.

The furniture was insured by the moving firm, which will repay the loss.

## LOCAL NEWS

Elwyn Teel, who was taken to the Murphy Medical Center at Warsaw

Sunday, was taken to the Lutheran hospital at Fort Wayne late Wednesday afternoon, where it is hoped they can determine the cause of his illness.

Wayne Baker spent Monday and Tuesday in South Bend attending a school on colored TV. Wayne says that if some folks have difficulty tuning in our present TV sets with four or five knobs, they'll have a lot of fun with a colored set that uses 25 knobs.

## MRS. M. WALBURN

Mrs. Mary Mabel Walburn, 71, Rochester, died at the Rochester Nursing home Monday at 9:00 a.m. where she has been a patient since last August. She has been in failing health for over a year. Practically all of Mrs. Walburn's life has been spent in the Talma and Rochester vicinity.

Final rites were held Thursday afternoon at 2 p.m. from the Talma Bethlehem Baptist Church. Rev. Ericus Floor of Auburn officiated.

# WOWO TO HONOR KOSCIUSKO FARMERS AND HDA GROUPS

Dean Grady, Syracuse and Lyndas and Wilbur Latimer, Warsaw will be honored at the 15th annual Achievement Award Banquet on March 30th for outstanding achievement in the field of agriculture. Likewise, the county's outstanding home demonstration project "Color is a Decorator Tool" will be recognized. The traditional ceremony will be broadcast over WOWO 7:45 to 9:00 p.m. CST.

Dean Grady, veteran potato grower in Syracuse, Indiana, won the title of

"Indiana Potato King" by producing 593 bu. of No. 1 Sebagoes, per acre. The control of weeds and insects were a contributing factor to winning.

The Latimers will receive recognition as "Gold Medal Lamb" winners. Their success is based upon honesty and integrity, and the production records on their flock. In the Gold Medal Show at the Indiana State Fair they won four Gold Medals and three Silver Medals. Sixteen lambs average 83.4 lbs. each at

4 months.

Kosciusko County's outstanding Home Demonstration project "Color Is A Decorator Tool" was an educational program which taught club members how to plan color schemes for their homes, which would be harmonious, restful and comfortable.

County Agent Paul Jackson will introduce the outstanding farmers and Reba Pyle, Home Demonstration Agent will announce the winning extension

project. Tom Linder, Georgia's commissioner of agriculture will speak.

CLYDE LACKEY DIES OF IN-  
JURIES IN AUTO ACCIDENT

Clyde Lackey, 70, well known Franklin township farmer, died at 12:30 a. m. Saturday in the Murphy Medical Center at Warsaw where he was taken following an auto accident at the Boggs intersection, just west of the Devil's Backbone on Road 25. His wife, Cora, 69, was seriously injured and remains in a critical condition at the same hospital.

The Lackey car, coming from the north, drove in front of a car driven east by Richard Clark, of Mentone. It was reported the Lackey car, proceeding slowly, failed to stop at the intersection with the state road. The front of the Clark car hit the rear part of the Lackey auto broadside, whipped it around to the south side of the highway, headed northeast. The Clark car was stopped on the north berm about 15 or 20 feet from the crossing. Both Mr. and Mrs. Lackey were thrown from the auto, but Mr. Lackey managed to crawl back into the car. It was not believed he was too seriously hurt, but the shock and recent illness was too much for him to endure. Mrs. Lackey received a skull fracture and a crushed chest or ribs.

The Johns ambulance from Mentone took the injured people to the hospital.

Richard Clark was going into Warsaw to get his mother, and he was accompanied by Elaine Smith and Beverly Witham. None of them were injured.

The accident was properly investigated and no charges were filed against either driver.

Mr. Lackey was born in Paulding county, Ohio, July 9, 1883, the son of James M. and Belle (Shull) Lackey, and had resided in Franklin township for 47 years. On Oct. 30, 1904, he was married to Cora V. Martz at Paulding, Ohio. He was a member of the Mentone Methodist church.

Surviving in addition to his wife are three daughters, Mrs. Andrew Konkle, Route 5, Warsaw, Mrs. Paul O. Cook, Route 2, Warsaw, and Mrs. Chester Hoover, Route 5, Warsaw; five sons, James of Route 1, Claypool, John, of Route 4, Warsaw, William, Ontario, California, Robert, Claypool, and Clarence, Route 1, Akron; two brothers, John of Route 2, Warsaw, and Walter of Mentone, and one sister, Mrs. John

## MRS. EMMA MILLER

Mrs. Emma E. Miller, 73, of Etna Green, died at 8:45 p.m. Sunday at the Murphy Medical Center where she had been a patient since suffering a stroke earlier in the day.

Born in Bremen, July 14, 1880, the daughter of Ellis S. and Mary (Losier) Jordan, Mrs. Miller had resided in Etna Green since 1903. She was married in 1916 to S. N. Tilbury and to Al Bell in 1929, both of whom are deceased. June 1, 1947, she married Orrin Miller who survives. She was a member of the Etna Green Evangelical United Brethren church.

Survivors include her husband, three stepchildren, Ned Miller, of Mentone, Herbert Miller, of Elkhart, and Mrs. Eva Waggoner, of Etna Green, and seven step-grandchildren.

Funeral services were held at 2 p.m. Wednesday at the Etna Green EUB church with Rev. F. H. Pflugh, of Etna Green, and Rev. John Schroeder, of Syracuse, officiating. Burial was in the Summit Chapel cemetery.

The Beigh Funeral home of Bourbon was in charge.

## CLUB CALENDAR

Royal Neighbors will meet next Tuesday evening at the home of Snowden Halderman, at 7:30.

The Mentone Home Demonstration club will meet Thursday, April 8, 1:30 p.m. at the country home of Mrs. Raymond Weirick. Be sure to bring your recipe.

## ARREST SOLVES BURGLARIES

The recent arrest of three teen-aged boys has cleared up a number of burglaries in the area, including that of the Cox Motor Sales at Mentone last Dec. 5.

One of the boys was from Etna Green, one from Argos and the other from Bourbon.

Berry, Calaboo, Alberta, Canada.

Funeral services were held at two o'clock Monday afternoon at the Mentone Methodist church with Rev. Fred Hall, pastor of the Palestine Christian church, assisted by Rev. David Gosser, pastor of the Mentone Methodist church officiating. Burial was in the local cemetery.

WINS THIRD PLACE  
IN STATE CONTEST

The essay written by Jon Lee Culum, Mentone high school student for the fifth annual essay contest sponsored by the Governor's Committee for Employment of the Physically Handicapped was selected for third prize, according to an announcement made in Indianapolis Friday by William C. Stalnaker, chairman of the Committee. Chairman Stalnaker said that Jon has been invited to Indianapolis on April 20 to receive his award from Governor George N. Craig at a brief ceremony in his office that afternoon.

As the writer of the essay selected as third best in the state contest, Jon will receive an award of merit and \$30 in cash. Other winners named by the judges, Dr. C. B. Graham, Butler University, Ort L. Walter, Division of Vocational Rehabilitation, and Professor Sibyl Weaver, Indiana Central College, are Charles Meuser, Princeton high school, first, \$100; Helen Price, Broad Ripple high school, Indianapolis, second, \$50; and Jesse Jones, Thomas Carr Howe high school, Indianapolis, and Ida Mary McCutchan, F. J. Rietz high school, Evansville who tied for fourth, \$10 each. Prize money was provided by the AFL, American Legion, American Vets, CIO, DAV, Indiana Manufacturers Ass'n. State Chamber of Commerce, and VFW. Topic for this year's competition was "The Physically Handicapped — Competent, Dependable Workers." The first-place essay,

Ticket Sales: Kay Flenar, Garwin Eaton, Betty Cochran and Sandra Gross.

Stage Manager: Dick Clark, Roger Frantz and Dennis Anderson.

Advertising: Melvin Miller, Francis Rickel and Bill Griffiths.

Properties: Larry Boggs, Joe Hedington, Phil Surface, Duane Eckert and Duane Benson.

Programs: Shirley Walton and Lu Ann Long.

## ARTHUR UPSON

Arthur H. Upson, Winona Lake, died at his home on Wooster road at 11:15 p.m., Sunday. He had been ill for six months.

Mr. Upson was well known in this community, having lived here since 1861. He was born in Dane county, Wis., Sept. 9, 1857, the son of William Henry and Lucy (Eagles) Upson. He married Mildred Young at Albion on Jan. 6, 1923. A retired farmer, he was a member of the Mentone Church of Christ.

Survivors include his wife, two daughters, Miss Lucy Upson, Winona Lake, and Mrs. Harry Miller, Fort Wayne; one son, Harold, San Jose, Calif., five grandchildren, five great-grandchildren, and several nieces and nephews.

Funeral services were conducted at the Bibler funeral home at 2 p.m., Wednesday with Leslie W. Grant, pastor of the Mentone Church of Christ, and Rev. Franklin May, pastor of the Winona Lake Presbyterian church, officiating. Burial was in Oakwood cemetery.

written by the Princeton high school student, Charles Meuser, will represent Indiana in the national contest for top-award essays from other states and territories.

## NEWCASTLE TOWNSHIP NEWS

Mrs. Charley Green spent Wednesday afternoon in Plymouth.

Mr. Robert Kerr of Rochester was a visitor here Wednesday evening.

Mr. Johnny Hatfield and Mr. Ralph Hatfield spent Thursday in Pendleton on business.

Mr. Devon Eaton returned home after a few days in Chicago on business.

Mr. James Zimmerman of Rochester was a business visitor here Friday evening.

Mrs. Claude McKinney of Fort Wayne spent Saturday afternoon here.

Mr. and Mrs. Ancil Jefferies of Macy and Mr. and Mrs. Cecil Shoemaker of Akron were the Sunday afternoon guests of their cousin Mrs. Gertrude Blakley.

Mr. and Mrs. A. E. Walker of Indianapolis called on Lavoy Montgomery Sunday afternoon.

Mr. and Mrs. Sonny Green of Palestine, Mr. and Mrs. Phil Hartung and family and Mr. and Mrs. Robert Kale and family all of Plymouth were the Sunday guests in the home of Mr. and Mrs. Charley Green.

Mr. Carl A. Dick of South Bend was the Sunday guest of his father, Mr. W. A. Dick.

Misses Alice and Nora Haines have returned to their home after visiting in the home of their brother and sister-in-law, Mr. and Mrs. Herman Haines and family of Shirley, Ind.

### TALMA ROD AND GUN CLUB

The members of the Talma Rod and Gun Club met recently at the Talma High School Gym with a very good attendance. The meeting was in charge of the president, Joe Duzan. There were two new members welcomed to the club. They were Walter Thomas and Loren Possey all of Anderson, Ind. The club released two boxes of pheasant which was given to Claude Jameson and Jerry Duzan.

Kermit Biddinger gave a report on the new playground the club will build for the school children. It will be 60'x120' and covered with Asphalt. A report will be given at the April meeting.

Following the business meeting refreshments were served to the members and two guests. Billy Mays and Ray Duzan. The April meeting will be held Friday, April 11th at the High School Gym.

### NEW CASTLE FARM BUREAU

The monthly meeting of the New Castle Township Farm Bureau meeting was held on Wednesday evening, March 24 at 7:30 p.m. in the Talma High School gym.

The president Morris Peterson had charge of the meeting. The meeting opened with community singing with Mrs. Charles Riddle at the piano and prayer by Mrs. John Dawson.

Mrs. Don Nickols read the secretary and treasurer's report and it was approved.

Mr. Robert Kerr of Rochester gave a very interesting talk on Farm Bureau group insurances. Mrs. Oren Conrad the S&E leader gave a short talk about the state convention at Indianapolis last month.

County chairman Charles Riddle told about the monthly meeting of the Producer's Ass'n. which was held Monday evening at Mentone.

The Pet and Hobby club met with Mrs. Walter Safford and Mrs. Clarence Mikesell. Following the meeting refreshments were served to the group.

Mrs. Clarence Mikesell and Mrs. Orval Long were appointed to the entertainment committee and Mrs. Chloris Barkman and Mrs. Don Pfeiffer are on the refreshment committees for the April meeting.

● Today good will may starve to death. Keep it alive with customer courtesy and careful advertising

### NEWCASTLE FARM BUREAU

Social and Educational Ladies of New Castle Township Farm Bureau met Thursday in the home of Mrs. Gertrude Ball, Mrs. Clarence Mikesell, president was in charge.

The meeting was opened by community singing and devotions were in charge of Mrs. Wilvin Long, who read the 20th chapter of Exodus.

A poem, "What You Are," was read by Mrs. Chloris Barkman.

Roll call was answered by each giving an Irish joke. Secretary and treasurer reports were read and approved.

Safety lesson was given by Mrs. Walter Safford. Mrs. Mikesell gave the highlights on the social and educational convention at Indianapolis recently.

Two contests were won by Mrs. Don Pfeiffer and Mrs. Gaston Coplen. Lovely refreshments were served to 24 members and one child and two guests. Mrs. Ball assisted by Mrs. Wilvin Long. The next meeting will be in the home of Mrs. Joe Grass and will be assisted by Mrs. Amos Sanders.

### MONTGOMERY HOME DAMAGED BY FIRE SATURDAY

The Mentone fire truck at 8:15 Saturday morning assisted the Rochester township fire truck in fighting a blaze at the Lavoy Montgomery residence at Talma.

An overheated furnace caused the fire to spread through a wall causing damage between \$500 and \$1,000. There was smoke damage to all of the rooms. The loss is covered by insurance.

### HAMPSHIRE BREEDERS

#### HOLD FINE AUCTION SALE

The Kosciusko County Hampshire Hog Breeders held their ninth annual purebred gilt and boar sale Tuesday of last week at the Warsaw fairgrounds and there was a good crowd and good offerings for the ninety-some head offered by the local breeders.

The boars averaged \$123.00 each and the top priced boar was \$225.00. This animal was consigned by Lester Blackburn. Animals consigned by Elmer Dickey, Leroy Norris and Kenneth Hoover tied for second place at \$140.

The two top gilts were consigned by Mr. Hoover, they brought \$105 and \$102.50 respectively.

## GET YOUR LIST

## OF GRAIN VARIETIES

Each year plant breeders and agronomists at Purdue University summarize and review experimental results to select outstanding small grain varieties for recommendation the following year.

The development of superior new varieties and altered disease and insect hazards makes it necessary to revise recommendations annually to keep abreast with ever-changing problems. These changing conditions often make "old standby" varieties unacceptable and inferior.

A complete listing of small grain varieties is prepared yearly for general distribution to Indiana farmers. Included in this list is a brief description of each recommended variety, giving performance data and other important characteristics or limitations. This year's list is published by Purdue University's Agricultural Experiment Station as Station Circular 400, entitled "Small Grain Varieties for Indiana."

Small grain varieties which have been outstanding in production hazards in a region are called "recommended" varieties. Based on experimental results, these varieties are considered the best varieties available to farmers.

Varieties which have yielded well but are somewhat deficient in one or more other characteristics are listed as "acceptable." Specific characteristics of an acceptable variety may make its production desirable under special local conditions.

Varieties are classed as "unsuitable" if their quality or other characteristics make them objectionable for commercial use or hazardous for production.

For a free copy of Station Circular 400, see your local county agent. Just ask for the latest circular on "Recommended Small Grain Varieties."

## Record \$38,500 Paid for Aberdeen Angus Heifer

CHESTER, N.J.—William G. Mennen (center) of Hideaway Farm, here, pats his new prize heifer, Barbarosa Essar 13—the world's most valuable beef female. Mr. Mennen, president of the famed men's toiletries and baby products firm, recently paid the record price of \$38,500, with fellow New Jersey cattleman, Harold Wetterberg (at Mr. Mennen's left), for the heifer. The prize Aberdeen Angus cow is the granddaughter of Barbara of Rosemere 100, the 1933 International Grand Champion. Barbarosa Essar 13 was recently bred to Prince Sunbeam 249, the 1948 International Champion bull.

The two gentlemen at left are from the M & L Ranch, Burnet, Texas, where the purchase was made.

## TOWNSHIP TRUSTEE'S NOTICE OF SALE OF REAL ESTATE

Notice is hereby given that I will at 1:30 P. M. on the 3rd day of April, 1954, at the Old Gymnasium in the Town of Mentone, Indiana, sell at Public Auction to the highest bidder the following described real estate located in Kosciusko County, State of Indiana, to-wit:

Lots Numbered Forty-nine (49) and Fifty (50)  
in Bowman's Addition to the Town of Mentone.

Said real estate belongs to Harrison Township of Kosciusko County, Indiana.

This includes the old gymnasium and all other improvements located on said real estate. Terms of sale: Cash. An abstract of title will be furnished to the successful bidder. The abstract of title and the premises may be examined prior to the day of sale by arrangement with me.

OPAL M. TUCKER,  
Trustee of Harrison Township,  
Kosciusko County, Indiana.

## ENZYMES, LIGHT DESTROYS

### CAROTENE IN FARMER'S HAY

Agricultural research at Purdue University is concerned, not only with breeding better alfalfa for farmers to feed, but also with trying to find out how to save the feeding value of alfalfa already grown.

Studies by biochemists have shown that farmers are right in believing that bleached hay has lost some of its feeding value. Those who used to stack their hay into cocks immediately after cutting were on the right track because they were able to keep light from getting at so much of it.

Recent research by Dr. S. M. Hauge and his associates in the biochemistry department at Purdue has shown that farmers who get the best feed from their alfalfa must control both the speed of the drying and the amount of light the hay gets. It has been found that loss of vitamin A, known as carotene in alfalfa, can be so severe that hay left in the field may lose 90 percent of its vitamin A in three days, with bright and humid weather.

Enzymes go to work destroying the carotene as soon as the alfalfa is cut. This first major loss caused by the

enzyme action may be 50 percent the first day, and that is the reason for getting the hay dried down to 22 percent moisture as soon as possible.

After the first loss by enzymes, the additional carotene loss, as alfalfa stays in the field, seems to be photochemical, caused by the effects of light. The Purdue men believe that if farmers handle only the problem of drying, then light will continue to work at the carotene until it is almost completely destroyed.

In order to make tests that would give uniform conditions, Hauge took the alfalfa into the laboratory. The alfalfa leaves were ground fine, put in solution, and exposed to conditions similar to those in the field.

These studies showed that the loss of carotene in alfalfa hay was due mainly to enzymes and light.

For the time being, the farmer's best moisture as soon as possible, then hurry bet is to get his hay down to 22 percent it into a mow or stack to get it away from the carotene-destroying effects of sunlight. Meanwhile, the biochemists will continue to look for ways to help the farmer reduce time in the field for alfalfa that has been cut.

Mrs. McIntyre is now home after being in the hospital. She is a sister to Heston Creviston of this place.

Friends may write to Mrs. McIntyre at R. R. 3, Elkhart, Ind.

## THE X-RAY

### By Science Features

The X-ray, a comparatively recent invention, is now one of the most widely used medical tools, both for diagnosing illnesses and for treatment. Discovered almost accidentally by a German physicist, Wilhelm Konrad von Roentgen, in 1895, the X-ray became almost immediately accepted as a tremendous aid to the doctor. Photographs,

showing the inside of the body, allowed the doctor to see the exact location and cause of the disturbance under consideration. Prior to that, it was a hit-or-miss proposition, with the doctor probing and guessing.

An X-ray is the radiation of a certain very short ray of light. When Roentgen discovered these odd rays, he didn't know exactly what they were, so he labelled them "X" rays.

These rays are also employed to treat various diseases. A two million-volt machine has shown promise in the treatment of cancer and the ray has helped to reduce the "blue baby" menace, to name two of the newer uses that have been developed.

There are many different types of machines and methods that have been devised for special purposes. The dentist uses the machine to spot tooth decay; by using certain dyes, a specialist can see what is happening in the body's vital organs and most doctors have a fluoroscope in their office to view the living body.

Roentgen never made anything out of his discovery and died of cancer when he was 78 years old. But, as hundreds of experts continue to work on his principle and devise more effective aids for the doctor, the rest of the world benefits from his invention.

## FUNERAL DIRECTORS

### ENTERTAINED HERE

Mr. and Mrs. H. V. Johns were hosts to the Kosciusko County Funeral Directors Association on Tuesday evening.

Following a delicious dinner served in the school cafeteria by Mrs. Fawley and Mrs. Rans, the group went to the Johns home where a social evening was enjoyed.

Those present were: Mr. and Mrs. Wade Mishler of Milford; Charles Harris of Syracuse; Mr. and Mrs. Chancey C. Tucker, Claypool; Mr. and Mrs. Gerald McHattan, Mr. and Mrs. Paul Landis, Mr. and Mrs. Kenneth Breeding and Louis Bibler, Warsaw; Mr. and Mrs. Ed Summe of Silver Lake, Mr. and Mrs. R. G. Reed and daughter, Janet of Mentone.

Each year collisions between bicycles and motor vehicles causes approximately 600 deaths and 42,000 injuries. Over two-thirds of the deaths and injuries are among children 12 to 14 years of age. Solo for Safety's sake and ride one on a bike, urges the Chicago Motor Club in its monthly poster for April. Instruction sheets highlighting the danger of multiple riders on bicycles are adapted for different age levels and sent to 44,000 elementary school classrooms throughout the Illinois and Indiana territory of the Club.

## Latimers Honored at WOWO Achievement Banquet

The picture above shows the best seven Shropshire sheep shown at the 1953 Indiana State Fair. They were owned and exhibited by Mr. and Mrs. Wilbur Latimer, and a number of friends volunteered to hold the animals as the photo was taken.

Lyndes and Wilbur Latimer were in Fort Wayne Tuesday evening where they were honored at the 15th annual WOWO achievement award banquet held in the Fort Wayne Chamber of Commerce building. The achievement awards are for the nearby counties in the states of Michigan, Indiana and Ohio.

The Latimers were honored because of their achievements in rearing Gold Medal Shropshire sheep. They have been consistent winners in county and state fairs the past several years, and this is the fiftieth anniversary for Lyndes in the rearing of purebred Shropshires. He started in 1904, and in recent years his son, Wilbur, has taken a very active part in the endeavor. Wilbur's daughters, Karen and Wilburta, too, have proven themselves as very capable, they having won many ribbons in county and state competition. In 1952 Karen had the champion 4-H ewe at the Indiana State Fair, and in 1953 Wilburta had the champion and Karen the reserve champion. Wilburta represented the state 4-H at the Indianapolis Rotary banquet in September and also won a ewe lamb for state excellence in her record book.

The brochure given out at the banquet Tuesday evening had this to say of the Latimers:

"Keeping production records since 1923, a line breeding program from 1933 to 1945 and since then only five rams from outside flocks. Top quality roughage, and plenty of winter exercise for ewes (often drive ewes a half mile down a lane in winter to enforce exercise), add up to four Gold and three Silver Medals at the Indiana State Fairs. In 1953 they placed first in all seven classes in which they showed at the State Fair. Also both champions."

Lyndes and Wilbur received a fine framed achievement certificate as evidence of their achievement.

To further glorify the Latimer sheep, a ram they sold to a Michigan stock-

man was state champion at the Michigan State Fair last year.

The only other county person to be honored at the banquet was Dean Grady of Syracuse, in the 400 bushel potato club. Grady produced 593 bushels per acre last year.

### SNOW AND THUNDER

The weather is usually the topic that's mentioned when someone doesn't have anything important to say, and the loud thunder heard during the snowstorm Monday started some of the oldests throwing their memories in reverse and wondering if any of us young guys ever heard of it thundering when it was snowing.

Some said they had—and practically gave the date and the hour—but as far as I'm concerned, I try to let the weather do what it pleases. About the only thunder I've ever heard was someone grumbling out loud because of the turn of events.

### LOCAL NEWS

Mrs. Lizzie Morgan visited Mrs. Byron Linn Sunday afternoon.

Don Ernsberger, who has been confined to the McDonald hospital at Warsaw since he fell on the icy street over two months ago, is hoping to get out of that hard bed pretty soon. Don said Tuesday that it was just 70 days since he went there with a broken right leg. Doctors are still maintaining some traction, but they have been reducing the weights the past few days.

Mr. and Mrs. Fred Floor and family, Miss Julia Nelson, Mr. and Mrs. Paul Nelson and family, Mr. and Mrs. Bruce Nelson and family, Mrs. Jane Harter of Elkhart and Mr. and Mrs. Alfred Nelson of Sidney had a birthday dinner at the home of Mr. and Mrs. Lewis Nelson of Marion Sunday.

Mr. and Mrs. Wayne Hoffman and family of Akron were Friday evening supper guests of Mr. and Mrs. Jack Miller.

### METHODIST CHURCH NEWS

On Wednesday, March 31, the women of the Warsaw District met in the East Mishawaka Methodist Church for a day of quiet prayer. On April 13 the women of the local church will sponsor a Sacrificial Breakfast and observe a quiet hour with Miss Frances Sharp who will present an appropriate book review. All the women of the church are invited to bring their neighbors and friends.

Holy Week Services will begin with the Palm Sunday Worship Hour on April 11 when the Sacrament of Baptism will be observed. Persons desiring to have their children baptised should contact the pastor prior to that date.

Holy Communion will be observed on Thursday evening, April 15, at seven-thirty. Other Holy Week-day services will be held at the same hour.

The annual Sunrise Service followed with the Easter Breakfast will be on April 18 at six o'clock. Breakfast will be served at six-forty-five.

The Easter Worship Service will be at the regular worship hour, nine-thirty A. M.

Chairman, Kenneth Riner, announces the following committees for the Easter Breakfast: Food committee, Jack

VanGilder serving with the chairman; cooking committee, the general chairman, C. O. Mollenhour, Dale Wallace, Philip Blue, Lyman Mollenhour, Allen Herendeen, Miles Manwaring, Lyndes Latimer; table committee, Charles Manwaring, Everett Long, James Rodibaugh, Dick Manwaring, Joe Boggs, Robert Hoover, E. C. McGowan and Ned Miller; clean-up committee, John Boggs, Ned Igo, Dr. Donald VanGilder, Dean Nellans, Jr., Forest Miner, Dr. F. B. Davison, and Rex Tucker. Other men of the church are invited to help. An offering will be taken to defray the expense of the breakfast.

As the conference year is fast drawing to a close, preparations are being made for the fourth quarterly conference which will be held in the local church on Tuesday evening, April 27. A potluck supper will precede the devotional hour and business session. Dr. Morrison will preside.

### POULTRYMEN TO MEET

The Kosciusko County Poultry Association will hold its monthly meeting at the Eskimo Inn at Winona Lake on April 8th, at 6:30 p. m.

Hobart Creighton will be the main speaker of the evening. His subject will be, Recent Impressions of Hawaii.

## THE STORY OF PHILLIPS 66

# Flite-Fuel

## FROM THE SKYWAYS TO THE HIGHWAYS

**FOR MILITARY USE** Phillips originated new super-power aviation fuel components—Di-isopropyl (pronounced di-is-pro-pull) and HF Alkylate. These made possible more powerful, higher anti-knock fuels for combat aircraft.

**RESTRICTED** for use in high performance aviation gasoline, these powerful components have for years been on U. S. Government priority. But now restrictions have been released and Phillips is able to use them in automotive gasoline.

**TODAY**, Di-isopropyl is available to motorists exclusively in a new gasoline called Phillips 66 Flite-Fuel. It gives increased power, greater fuel economy, higher anti-knock quality, freedom from stalling... and it's clean-burning!

**GET PHILLIPS 66 FLITE-FUEL** at any station where you see the orange and black Phillips 66 Shield. Let your car's performance tell the story. You'll discover a new driving experience.

## Couple 57 Years on One Farm; Beard Marks 1892 Election Bet

The above photo was printed in *The Indianapolis News* in 1939. The story, under date of January 13th, The photo was taken at the time of the celebration of the Golden Wedding of Mr. and Mrs. Latimer. The story follows:

Mr. and Mrs. Marion M. Latimer, of Franklin township, today celebrated their fifty-eighth wedding anniversary at their farm home where they have lived fifty-seven years. Mr. Latimer is eighty-two and Mrs. Latimer eighty-one. They acquired the farm of 251 acres when a large part of it was in virgin forest.

Mr. Latimer, who for many years specialized in the raising of purebred livestock; acquired his heavy beard

when he lost a bet on the Harrison-Cleveland election in 1892. He has kept it ever since.

The Latimers have two children, Mrs. W. Leroy Smith, north of Warsaw, and Lyndes living on the same farm in an additional set of buildings. There are three grandchildren, and two great-grandchildren. The Latimer farm is two and a half miles southeast of Mentone, and two miles west of Burket.

## LOCAL NEWS

Mrs. Pearl Mahoney, Mrs. Velma Shaffer and Mrs. Lester Anglin were in Plymouth shopping and also called on Mr. and Mrs. James Shaffer and Mr. and Mrs. Cloyse Shaffer and family.

Mr. and Mrs. Raymond Hudson called on Mrs. Ray Linn Monday afternoon.

Mr. and Mrs. Elmer Fultz of North Manchester called on Mrs. John Landis and Mrs. Velma Shaffer Sunday afternoon.

Mr. and Mrs. Joe Miller and Mr. and Mrs. Jim Miller were Sunday dinner guests of Mr. and Mrs. Jack Miller.

Mrs. Ray Linn called on her mother Mrs. Anna Hudson Sunday afternoon at the Arlington Nursing home in Warsaw and Mrs. Hudson was real good.

There is still time to order trees from the state nurseries for spring planting. Purdue University foresters advise you to plant on that waste land this spring. There's no trouble on supply. Nurseries have more trees on hand than ever before.

Purdue University agricultural engineers say to check your septic tank to see if it needs cleaning. A word of warning — do not use an open flame to look in the tank! If more than 18 or 20 inches of sludge and scum have accumulated, the tank should be cleaned.

## NEW HOPE in the battle against CANCER

THE FIGHT against man's cruellest enemy is far from won. If present rates continue, 23 million living Americans will die of cancer—230,000 this year. And thousands of these will die needlessly—through cancer that could have been cured if treated in time.

ALL THE SAME, there have been victories. Thousands who once would have died are being saved—thanks, in part, to your donations to the American Cancer Society.

AND, LAST YEAR, the Society was able to allocate \$5,000,000 of your donations to research aimed at finding the ultimate cure for all cancer. That's more money than ever before.

MUCH MORE, of course, remains to be done. So please make this year's gift a really generous one!

# YEAST PRODUCTS

While it is generally conceded that adding yeast to many feed formulas has a decidedly beneficial effect it is not always clearly understood just what growth factors are present in the substance. It is definitely recognized, however, that yeast is a fine source of the entire vitamin B complex family, especially riboflavin, niacin, choline, thiamin and biotin.

Of the three kinds — dried yeast, live yeast, and irradiated yeast — dried yeast is considered a better source of thiamin, niacin and biotin than live yeast culture. Irradiated yeast furnishes vitamin D2, not available in the other types.

In dried yeast, a by-product of the brewing or distilling industry, the yeast cells are dead. In live yeast culture, the cells, under suitable growing conditions multiply at an amazing rate. Irradiated yeast is yeast that has been subjected to ultra violet rays.

## Dried Yeast

Early research disclosed that dried yeast was a source of several members of the vitamin B complex family. Later it was discovered that it was a source of all members of the family and had additional growth factors as well.

Experimentation by various agricultural stations shows that hog rations, complete except for a natural carrier of vitamin B complex, become much more efficient with the addition of dried yeast. Dried yeast was first recommended for turkey feeds about 10 years ago.

This nonfermentative product is supplied the feed trade by breweries, distilleries and molasses distilleries manufacturing alcohol. In addition, domestic production in quantity of dried torula yeast assures an ever-increasing supply of dried yeast for feed manufacture.

Torula yeast is derived in a continuous process from tree sugars extracted from wood solids otherwise unused in pulp and paper manufacturing. It has a characteristically pleasant taste and contains an ingredient analysis similar to other dried yeasts.

Aside from a naturally high water soluble vitamin content, dried yeast contain approximately 45 per cent protein, 2.5 per cent fat and 1.0 per cent fiber.

## Live Yeast

Live yeast culture, comparatively speaking, is a newcomer on the market because of manufacturing limitations in the past. It is now being used by many feed men with noticeable results in feeds for poultry and non-ruminants.

It is believed that live yeast stimulates fermentation in the digestive tract, one of the many factors associated with correct and complete digestion.

It is thought that live yeast probably causes production of additional vitamins or growth substances in the animal which especially enhance growth and reproduction. And it is also possible that it stimulates friendly organ-

isms, just as some antibiotics inhibit unfavorable flora.

Adding live yeast culture to fermented feed when all other feed is refused, which has been of some help in controlling coccidiosis.

## Irradiated Yeast

Irradiated yeast, as mentioned previously, supplies vitamin D2, a plant form of vitamin D created by the exposure of yeast to ultra-violet rays, which is fully available as an economical vitamin D source to all four-footed animals — cattle, swine, sheep, dogs and all fur-bearing animals. It is not recommended in poultry feeds because the vitamin D found in fish oils is considered more readily available to poultry.

Irradiated dry yeast is available in potencies of 4, 8, 12, 16 and 64 million U.S.P. units of vitamin D per pound to enable feed manufacturers to utilize the proper percentages of addition to

the production of either small or large quantities at one time.

Manufacturer recommendations call for the use of ¼ to 1½ pounds of irradiated yeast fortification per ton of feed when the low potency products of 4,000,000 P.S.P. units is used.

# Smidley Hog Houses

THESE houses are so convenient and easy to give your sows and pigs the best of care, that they will pay for themselves many times in the pigs you save.

All Smidley houses are equipped with the wonderfully convenient Smidley roof. Opening wide, it makes it easy to care for sow and pigs. Easy to clean and sanitary, it can be opened wide

to let the sun shine in without draught on pigs.

They are built on oak runners, easy to move. Fir floors, fir or cedar siding, the roof is covered with galvanized steel.

Smidley houses are shipped, knocked-down, painted two coats best outside orange-yellow color. Lifting side and insulite insulation in roofs may be had as extras.

## FEATURES:

1. Galvanized steel covered roof. Sunlight enters the house—sterilizes and dries. Easy to bed, clean and care for litter.
2. Pig rails on sides and back end.
3. Good clear siding and floor—Cedar and Douglas Fir.
4. Four oak runners or skids.
5. Two coats best orange paint.
6. Extra heavy 5" T hinges bolted on full height door.
7. Two door hooks.
8. Cement coated nails used in construction hold house together securely.
9. Roof insulated with one-half inch insulation against summer heat and winter moisture condensation is a wise investment.
10. We have found that a six foot wide house is sufficient for sows up to 600 pounds. The sow is forced to lay lengthwise against sloping sides, which are equipped with pig rails, thus affording maximum protection for the small pigs.

## DO YOU RECOGNIZE THIS SET OF FARM BUILDINGS?

### WHOSE FARM IS THIS?

Can you identify the farm pictured above? This is another of the farm pictures to be printed in the Co-Op. News, and as no one knows whose farm it is, can you help identify it? There's no prize to the first to tell us whose farm it is, but it is interesting to know who will be first in reporting the information to this newspaper.

Call, phone or write us if you believe you know the farm.

Everett Welborn, Leroy Cox and Clarence Brown identified the farm pictured in our last issue as that of O. B. Deaton. As yet, Mr. Deaton has not called at the Co-Op. News office to receive his free photo of the farm, or to give us any information regarding place or farm operations.

Talfred Richardson, whose farm was printed in our March 10 issue, called last week to receive his free photo. The farm is located four miles south and two miles west of Mentone, and was the former Ora Handy farm. Mr. Richardson purchased it 12 years ago. The farm contains 80 acres and is operated by Mr. and Mrs. Clifford Richardson. Another son, Fred and family, farms 60 acres that corners the above eighty. The 60-acre patch contains the townsite of the former village of Big Foot, which faded away between 1910 and 1920. Mr. Richardson said one of the buildings torn down last fall was formerly the building in which the Big Foot telephone exchange was located.

Mr. and Mrs. Richardson live in Rochester now while the two boys,

Clifford and Fred, do the farming.

Other children in the family are Billy, 17, who is a senior in the Talma high school; James, who lives east of Rochester; John, of Ft. Lauderdale, Florida, and Katherine Keizer, of So. Bend.

### 4-H CLUB CHATTER

By Ruth Snellenberger

Dear 4-H Members and Friends,

This week information on the types of cotton skirts suitable for the 4-H girl enrolled in division II of the Clothing project is the chief topic.

There are four possible styles. Two are described in the 4-H bulletin distributed to each clothing II project member which is prepared in the State 4-H Club Office. One style has several

rows of elastic thread at the waist which makes it a gathered skirt. A second style described is a four-gored skirt with a band at the waist and a placket at the left side.

A third style not described in the bulletin but acceptable for making for the last several years is a gathered skirt with a band attached at the waist and a placket at the left side.

A fourth and new style approved this year by the county 4-H clothing standards committee is one having the front skirt gathered with a band attached and the back skirt gathered with a  $\frac{3}{4}$ " or 1" elastic run through a casing. What are the directions for making this type skirt?

First, I would like to say that one club leader has made a sample of this type skirt. It will be on display at the 4-H adult leaders meeting in the county extension office on Friday evening, April 2. I sincerely hope an adult lead-

er from every club, or a representative, will be present at this meeting.

The directions for making this skirt are given in the 1954 4-H Home Economics Project Standards and Clarifications. Enough copies have been prepared for each family to have one who has one or more members enrolled in 4-H home economics projects. I urge both 4-H members and parents to read them carefully, preferably together. By the way, these copies are being distributed at the above mentioned adult leader meeting on April 2nd.

Your attention is called to another aspect of division II of the clothing project. That is a change in work requirements. The Clothing standards committee substituted for making the dresser scarf (that means you may not make one to satisfy work requirements!) the making of a plain pillow case. It was thought the learning techniques were similar and that the pillow case was more practical. Directions for making the pillow case and the names of suggested materials are given in the 1954 4-H Home Economics Project Standards and Clarifications. Please note that the girl is required to make and exhibit only one pillow case. But wouldn't you think a girl would want a pair? I would, and I believe the committee hoped, too, that two would be made and then the better one selected to be exhibited.

My, my, there seems to be so much to say about clothing but that will have to wait until another time.

### LOCAL NEWS

# HERE'S AN ANSWER TO EARLY HOG PASTURE

Dwarf Essex rape, either seeded alone or with oats, is the earliest and best spring-seeded pasture for hogs where legumes are not available, say Purdue University Extension Agronomists. Seeded as early in the spring as soil conditions will permit, such pasture should carry about three-fourths as many hogs per acre as alfalfa, and furnish grazing from late May until October.

The use of rape and oats for pasture will save from five to 10 percent of the grain and from 30 to 40 percent of the protein supplement in growing and fattening swine.

Rape is best adapted to well drained, productive soils capable of growing good red clover. On thin, acid soils rape will be disappointing. A good combination is six to eight pecks of oats and three to five lbs. of rape per acre, seeded on a well prepared seedbed. Broadcast rape after the oats are drilled and if the soil is dry, follow with a cultipacker.

Except on the most productive soils, rape and oats should be fertilized for best results. An application of 300 to 500 lbs. of 10-10-10 fertilizer on light colored soils or 4-16-16, 4-16-8 or 5-10-10 on the darker soils, is advisable.

In pasturing rape alone or in the mixture, wait until the rape plants are 8 to 10 inches tall before grazing: If later on the rape and oats are well grazed, add agronomists, you may be successful, like many farmers, in secur-

ing stands of legumes seeded on such pasture.

Rape seeded at the last cultivation of corn, where hogging-off is practiced, furnishes considerable succulent grazing in some seasons and involves small expense. However, remember that rape is not a satisfactory pasture for cattle and sheep, since it may cause bloat or in the case of cows, taint the milk.

## AWAKEN BLUEGRASS WITH NITROGEN

Spring awakening of slumbering bluegrass pastures, overgrazed and drouth damaged, may be hastened and improved for early grazing of livestock if you use nitrogen fertilizers, say Purdue University Extension Agronomists. Applying nitrogen fertilizer to bluegrass or other grass pastures by the time growth starts will provide about two weeks earlier grazing than untreated land, and more than double the spring carrying capacity.

On land well supplied with phosphate and potash or that has been previously fertilized with these minerals, good results will be obtained from the use of nitrogen alone, applied at the rate of about 50 lbs. to the acre. This amount of nitrogen may be applied in 150 lbs., 33 percent ammonium nitrate, or the equivalent in other nitrogen carriers such as ammonium sulfate and calcium cyanamid.

In cases where the land has not been recently fertilized, a complete fertilizer, such as 500 lbs. per acre of 10-10-

10, is recommended.

These nitrogen fertilizers will pay for their use by saving on barn feeding that's made necessary because early spring pastures are not available. If an excess acreage of grass pasture, above early growth needs, is treated, more grazing will be provided than can be profitably utilized.

Of course, it's necessary to keep in mind that nitrogen applied for early spring growth will have very little effect on growth during the hot summer months.

One acre of nitrogen fertilized pasture should take care of two to three cows, or their equivalent of other stock, until other pasture is available. This in no way should curtail the use of phosphate and potash fertilizers, as needed,

## SCHOOL NEWS

### New Pupil Enrolls

Sharon Riebel has enrolled in the sixth grade at Mentone. There are now thirty pupils in this grade. Sharon has been attending school at the Washington School in Fort Wayne. Her parents, Mr. and Mrs. William Riebel recently moved to route 5, Warsaw.

### Mental Tests in Seventh Grade

Mr. Kent recently administered intelligence tests to the thirty-eight seventh grade students. These tests are a part of the school testing program to help students understand their abilities and better acquaint the teachers with the capacity of each pupil. Tests have now been completed in the first, fourth, seventh, and tenth grades for this school year. In April the pupils of the first eight grades will take the Metropolitan Achievement tests to give the teachers an estimate of the pupil's accomplishments in relation to ability.

### No School On Good Friday

The school schedule this year gives the pupils a vacation on Friday, April 16, which is Good Friday. School this year will end on Thursday, May 20, although the pupils will not attend school on that day.

### Sophomores Celebrate Magazine Campaign

On Wednesday evening, the members

of the Sophomore Class and the sponsor, Mrs. Dawson, enjoyed a turkey dinner with all the trimmings to celebrate the close of a successful magazine sales campaign. The class had set the goal at \$1,000.00 and actually sold \$1,008.60. On this amount, profit to the class amounted to about \$350.

### To Attend Globe Trotter Game

Over thirty basketball players will journey to Fort Wayne next Monday night by bus to attend the Globe Trotter All Star basketball game at the Memorial Coliseum. Mr. Hoogenboom has arranged the trip for those interested in attending.

### Speech Students Win Honors

Several of the twenty-six students attending the County Speech Festival at Warsaw last Friday returned with high ratings. Jon Cullum and David Gosser received ratings of superior in poetry reading. Sarah Urschel received excellent in Oratorical declamation. The two one act plays received awards of excellent. Jackie Stidham, Jon Cullum, and Rita Olson were rated excellent in radio announcing.

### NIPSCO DECLARES DIVIDEND

The board of directors of Northern Indiana Public Service Company has declared a dividend of \$1.0625 a share on the 4 1/4 percent cumulative preferred stock, it was announced by Dean H.

# GEAR CROP PROGRAM FOR GREATER PROFITS

A slight change in some phase of your cropping program may do wonders for your farm income, according to Paul R. Robbins, Purdue University agricultural economist. He says some Indiana farmers today are making twice as much money on crops as their neighbors, on essentially the same kind of land.

Why? Crop yields, for one reason. No cropping system is profitable if yields are low, says the economist. Crop selection, for another.

Experiments conducted in various parts of Indiana show that rotations containing corn, beans, and other high profit crops usually are more profitable than rotations with larger proportions of oats and meadow crops.

Robbins points to recent evidence which indicates, that on some level non-erosive land, high yields can be maintained with a rotation of continuous corn, provided heavy applications of commercial fertilizers are used.

In Purdue trials on such land in central Indiana, the first 40 pounds of nitrogen used on continuous corn returned

\$4.76 for every dollar spent on nitrogen (nitrogen figured at 16 cents per pound, corn at \$1.45 a bushel). An additional 40 pounds of nitrogen returned more than \$3.00 for each dollar spent for nitrogen.

This experimental data indicates, says Robbins, that most farmers who grow corn continuously on non-erosive land should use at least 80 pounds of nitrogen per acre, and many of them 100 pounds or more.

As evidence of what high profit rotations can do, this Purdue economist cites the results of rotation trials on central Indiana land. Here, on Brookston and Crosby soils, all rotations had extra nitrogen. Continuous corn returned \$58.92 net per acre, while a four year rotation of corn, beans, wheat and alfalfa returned only \$38.92 an acre above costs.

Farmers who choose to use intensive grain rotations and heavy applications of commercial fertilizers, pay closer attention to cropping practices. Higher production costs force them to do a better job with drainage, plant population, and variety selection.

Other factors influence a farm's crop-

ping program, too. A hog farm must supply clean pasture for farrowing sows; a large operation must grow a variety of crops to distribute labor and power load; and on every farm, government controls may limit acreages of some crops.

In any case, a farmer must keep his cropping program geared for greater profits.

## HIGH MILK PRODUCTION FROM ARTIFICIAL BREEDING

Here's some dairy facts that will interest Hoosier dairymen who have asked in recent years, "What kind of production can I expect from artificially sired cows?"

N. J. Moeller, Purdue University extension dairyman, quoted figures recently released by the U.S.D.A. which show, that since 1939 in Indiana, 586 artificially bred cows, with records, aver-

aged 11,162 pounds of milk and 455 pounds of butterfat annually.

This high production, based on a 305-day, twice-a-day milking schedule, compares very favorably with the average Indiana cow production in 1953 about 5,670 pounds of milk and 238 pounds of fat.

Moeller says the report on artificially sired cows includes all the daughters of 171 bulls used artificially according to Dairy Herd Improvement Association records reported to the U.S.D.A.

The average figures recorded by U.S.D.A. point up the herd improvement possible through the use of desirably proven sires in artificial breeding. Moeller says that artificial breeding today is available to the dairyman in every county in Indiana.

**INSTALLATION OF O.E.S. OFFICERS**

Mr. and Mrs. Lyman Mollenhour were installed as worthy patron and worthy matron of the Mentone Chapter of the Order of the Eastern Star at the installation ceremony held Monday evening at the Masonic Hall.

Mr. Ralph Mollenhour was the installing officer, assisted by Mrs. Edison Tucker, installing marshal; Mrs. Gene Marshall, installing chaplain and Mrs. F. B. Davison installing organist.

Other officers installed were as follows: Mrs. Robert Goshert, assoc. matron; Mr. Robert Goshert, assoc. patron; Mrs. Ralph Mollenhour, secretary; Mrs. Wilbur Latimer, treasurer; Mrs. Jack Van Gilder, chaplain; Mrs. Fred Lemler, marshal; Mrs. Hugh Rickel, assoc. conductress; Mrs. Wayne Bowser, conductress; Mrs. Bob Riewoldt, organ-

ist; Mrs. David Bowser, Adah; Mrs. Robert Hoover, Ruth; Miss Jackie Blue, Esther; Mrs. Mable McDaniels, Martha; Mrs. Virginia Peterson, Electa; Miss Mary Louise Bare, Warden; and Mrs. George Mollenhour, sentinel.

Mrs. Mollenhour was escorted east by her daughter Jo Ann through an arch formed by her officers holding red roses. Her officers then presented her with the roses.

Mr. Mollenhour was also escorted east by his daughter Jo Ann while his daughter Janice played the installing march.

Preceding the installation ceremony Mrs. Fred Lemler closed her year with a returning address and was presented a worthy matrons jewel from the chapter.

A short musical program was then presented by Janet Ann Tucker and David Gosser.

The refreshment committee served the guests in the dining room following the ceremony, from a table covered with lace and decorated with candles, azaleas and african violets.

The next regular meeting will be on April 5th at 7:45 p.m.

**MOBILE X-RAY UNIT TO BE HERE ON APRIL 8**

The mobile X-ray unit of the Kosciusko county tuberculosis association will be at Mentone from two to five o'clock on the afternoon of April 8th. It is to be located at the Farmers State Bank corner and all citizens over 15 years of age are urged to have a free chest X-ray taken as a guard against tuberculosis.

The unit will be at the Burket high school from nine until noon on the same day.

**CORRECTION**

In our story about the Mrs. Leroy Smith farm pictured in a recent issue, we have been given this additional information:

M. M. Latimer moved to the Latimer farm in 1882. The Smith brothers who had been living there, moved to Kansas. The railroad, which came to an end at the Latimer farm two miles west of Burket, left a car set there for a week for the Smiths to load their furniture in it. There was no Mentone at that time. Chicago was the nearest town to the present site of Mentone, being situated about a mile west of here. Mentone was founded in 1892, 10 years after Latimer moved to his farm.

The present building occupied by Ward's Paint and Wallpaper Store in Mentone, was moved here from Chicago.

We're also informed that Fred Swick's old summer kitchen was Allen Blue's drug store at Chicago.
