Lead poisoning affects the whole body, but especially the nervous system and the blood forming tissues.

Centipedes Are Luminous Many centipedes are luminous.

Millionaire Sportsman Builds Two Race Cars

INDIANAPOLIS, Ind.—Not since the days of millionaire Cliff Durant has there been a sportsman making such a determined effort as Joe Thorne to win the 500-mile race this May 30.

Thorne also is a millionaire. He spent nearly \$100,000 last year, it is estimated, in buying and building cars to race on the Indianapolis Motor Speedway. He failed to win, but one of his cars, driven by Jimmy Snyder, set an all-time lap and qualifying record. That satisfied him.

Thorne did not get into the race himself last May. But his was the first entry this year. And he returns to the famous Hoosier track with his racing spurs, gained by coming into the money 'r the Vanderbilt Cup race last July in New York.

Thorne has built two new cars, and redesigned several others for this try. Last May he had seven entered; he'll have fewer and better cars this time.

His Nose Was Gone

"His nose was gone when they picked him up after the wreck", was a statement found in a recent issue of a daily newspaper, in the story of f of a daily newspaper, in the story of an automobile accident. Think of having to go through life thus hor-ribly mutilated. Accident victims can't be choosers when they take a header through the windshield as a result to too much speed or careless driving."

Figures compiled by the Travelers Insurance Company show that if an accident occurs while your car is traveling under 40 miles an hour there is only one chance in 44 that some one will be killed, but if an accident occures while your car is trav eling over 40 miles an hour there is one chance in 19 that some one will be killed.

Here is proof however, that something good has come from the tragedies that occur on our highways every day; Russian physicians have developed the art of preserving the blood of accident victims for use in cases where transfusion is desired. The blood may be used even though it has not been removed from the accident victim until several hours after death. Surgeons have also demonstrated that corneas of the eyes of the dead may be transferred to the eyes of the living if death has not occured more than twenty-four hours before the operation.

In the last fifteen years deaths due to traffic accidents have more than doubled. Drive carefully.

Magazine Club Meets

The Magazine Club was entertained Wednesday evening, April 27, at the home of Mrs. Maude Snyder in Mentone with Mrs. A. W. Stanford as assistant hostess. Mrs. Cora VanGilder club, president, presided over the meeting. Three vocal solos were sung by Miss Freda Sullivan of Rochester, accompanied at the piano by Mrs. Maud Snyder, and on the violin by Prof. Davis. Miss Sullivan's selections were "In The Heart Of The Hills", "I Love A Little Cottage" and "A Perfect Day." State Police Officer Clayton Clutter gave a talk on "Safety." Prof. Davis entertained with three violin solos, "The Holy City," "A Waltz Song" and "Trau-merei and Nocturne". The program was closed by Miss Lena Lower who conducted the English lesson.

NATIONAL TIRE SAFETY WEEK

The automobile tire industry of the nation has taken up the fight for safer highways and better business.

Estimating that there are 59 million tires in use on motor cars in the U.S. which should be replaced this year with more than a half-billion dollars' worth of safe, new tires, the tire division of the Rubber Manufacturers Association announced a mighty cooperative program to reduce highway accidents and to stimulate business

The program will be climaxed by observance of National Tire Safety Week, during the week of May 14-21, with tire makers, distributors, and dealers all supporting it.

Pleas to car owners and drivers to protect themselves, their families, and Manwaring. others on the road with them by replacing their old, smooth tires, will be presented to the motoring public.

"Industry figures indicate that 59 million tires now in use are smooth or will become during 1938" said A. L. Viles, president of the Rubber Manufacturers Association. "Many of these are unsafe. Unless these dangerous tires are replaced, millions of motoriest will be taking needless chances. They will be risking their lives for just a few extra miles.

"This is why tire manufacturers banded together to institute National Tire Safety Week. They wanted to

show motorists everywhere the utter foolishness of trying to obtain those few extra miles. And they wanted to stimulate business by encouraging (sales which would total more than a half-billion dollars, if all old, smooth tires were replaced."

D. A. R. Meets

The Anthony Nigo chapter of the D. A. R. met on Tuesday afternoon, April 26, at the home of Mrs. Isaac Kesler with Mrs. Ed Kesler assisting hostess

During the business meeting the following officers were elected for the ensuing year. Regent, Mrs. Kenneth Riner; Vice Regent, Mrs. Authur Brown; Secretary, Mrs. Ray Linn; Registrar, Mrs. Stanley Boggs; Treasurer, Mrs. Ray Rush; Historian, Miss Rozella Ford; Chaplain, Mrs. Ercie

A book review on "Life of Samuel Adams" was given by Mrs. Dora Taylor. During the social hour the hostess, Mrs. Kesler, served dainty refreshments. Chapter will meet May 21 at the home of Mrs. Ray Linn,

Mr. and Mrs. Arlo Friezner Mr. and Mrs. Wm. Cook.

LITTLE CRIME IS BOTHERING PAPUA

Britain has her own methods of dealing with natives in the small outposts of the empire, and they are not only at times novel but highly economical and effective. For instance, take the case of Pa-pua, in New Guinea. Sir Hubert Murray, who has been lieutenant governor of that territory for a quarter of a century, recently ar-rived in England on furlough, and has been telling something about the place and his system of administration, notes a correspondent in the Montreal Star.

"Crime among the white people is nonexistent," he says, "and rare among the natives." He has abolcrown prosecutors, counsel ished for the defense and juries. He carries out all their duties himself.

"The natives do not resent punishment," Sir Hubert declares. "When I am on inspection patrols they run up to me in a friendly fashion and say: 'Don't you re-member me? You gave me five years in Moresby gaol.''

It may not meet with the approval of idealiists, but Sir Hubert is dealing with a people who do not understand idealism, and, moreover, he is doing his job in a way that has met with the whole-hearted approval of the British government for a long time past. after all, what counts. Which is,

WORLD WOBBLE IS STILL BIG RIDDLE

Old Man Earth is an inco: rigible wobbler! Whether this habit so strains its inside as to cause earthquakes has yet to be determined. But Prof. Hisashi Kimura, director of the Mizusawa Observatory, Ja-pan, who has been awarded the Gold Medal of the Royal Astronomical society, is hopeful of solving the riddle in the next year or two, says Tit-Bits Magazine. For the last 36 years he has been collecting and collating data concerning variations of latitude. Formerly, the earth's axis was always regarded as being parallel to itself, which meant that the angular distance of any spot on the globe from the equator was unalterable. Then a German astronomer discovered variations in Berlin's position.

Six observatories, situated ap proximately on latitude 39 degrees north, were engaged to take regular observations of certain stars. From their researches, Professor Kimura has evolved an intricate map, showing the earth's oscillations, which appear to occur in cycles, one lasting about 430 dcys.

Discovery of Magnetism Discovery of the simple principles of magnetism possessed by magnetite, or loadstone, was made by the Chinese in 1400 B. C., or 3.500 years before magnetism was known in Europe.

Two Minute Sermon

By Thomas Hastwell

WHO PROFITS MOST? In the book of Luke is found the parable of the man, who, as he journeyed down to Jericho, fell among thieves who stripped him of his raiment and wounded him, and departed, and left him for dead. A priest and a Levite came by and passed him, one on one side, and one on the other, and le't him lying in the road. But, as the story goes, a certain Samaritan came where he was and rendered first aid, and took him to the inn where be was cared for. When the Samari ar departed he left money with the inn keeper saying: "Take care of him and whatever thou spendest more, I will repay thee." The parable was told to answer the question, "who is my neighbor?" which was propounded to Jesus by the lawyer; but there are many lessons to be found in the simple, yet dramatic recital. One of the lessons that I have often thought of is the effect of the act upon the good Samaritan. The wounded man, without a doubt, was benefited and grateful for the treatment he received. It was unusual in that day. But what a wonderful experience the incident must have been to the good Samaritan. How he must have thrilled with the thought of the good deed, the charitable deed, the Christian deed he had done. Truly, I be-# lieve he profited greatly from his act. It is just as true today, though in the hurry and rush of things we often overlook it, that the doing of a good deed, a kindly Christian service, often profits the giver more than it does the man who receives it. It is an experiment that is truly worth the 🏶 trying.

How Old Are You inside?

Never mind how many wrinkles Father Time has painted in your face. Never mind how many gray hairs he has put on your head. The important thing isn't how old you are on the outside, but how old you are on the inside. A man's real age is determined by the youthfulness of his spirit! Benjamin Franklin helped write the American Constitution at eighty. Tintoretto painted his famous "Paradise," a canvas 74 by 30 feet, when he was seventy-four. Goethe completed "Faust" at eighty. As long as we are alert and vital in spirit we are not old. As long as we are joyously looking forward and enthusiastically starting new things we are still young. Stay young on the inside and forget your birthdays!-The Silver Lining.

The Term Euphuism

The term Euphuism, denoting a style of writing with excessive figures of speech, was derived from John Lyly's "Euphues" published in 1579

FOUR FORMER WINNERS AT INDIANAPOLIS **RATED HIGHLY TO REPEAT IN BIG RACE**

INDIANAPOLIS, Ind .- Four old standbys will make the crowd sit up and take notice in the 500-mile race. May 30th at the Indianapolis Motor Speedway.

They are all former winners of the big race, one is the present AAA champion and the other three have the National championship. held Their names are: Wilbur Shaw, Louis Meyer, Kelly Petillo and Wild Bill Cummings.

Shaw is an Indianapolis boy, and has the dazzling 1937 victory to credit. He probably will go into the race as a prime favorite to repeat, a feat which never has been performed at Indianapolis.

Mentone Egg Show Well Attended

(Continued from front page)

Among the speakers on the Egg Show program this year was Prof. W. A. Billings, of the Department of Agriculture, University of Minnisota. Prof. Billings gave a very graphic discussion of Lung Diseases, Coccidiosis, and Worms. Sanitation was stressed throughout the discussion and he gave many sane, helpful suggestions to the poultry raisers. His talk was unhampered by technical terms, and was very well received by the audience. Wednesday afternoon Prof. Billings discussed tuberculosis, Fowl Pox, Diptheria and touched briefly upon Range Paralysis. He made the rather startling statement that 33 1-3 % of all poultry sold in our markets are tubercular. Dressed poultry packers are overcoming this hazzard however. They are endeavoring to put on the market a tubercular-free fowl, drawn, dressed under the most sanitary conditions and frozen in a cellophane ,wrapping with the cellophane wrapped giblets enclosed. This fowl is appetising to the sight and will be a boon to housewives when it becomes marketable, inasmuch as it assures her of a delectable, wholesome meal. About Range Paralysis, Prof. Billings had little to say, except to warn poultrymen of the erroneous information that is distributed in poultry bulletins. The disease appears to be hereditary, but no satisfactory progress has been made toward it's cure. Billings was tremendously pleased with the sanitary conditions existing on poultry farms in this section of the state, and surprised at the magnitude of the average flock. The extent of the poultrymen's investment naturally creates the incentative for improvement. Prof. Billings' talks throughout the entire Egg Show were interesting as well as educational and contained a wealth of general, applicable suggestions.

Another speaker on the program was Mr. Truman Heinton, associated in Agricultural Engineering, Purdue Experimental Station, who talked on "Electricity and Its Use on the Poultry Farm." They have discovered through experiments at Purdue, that a deep blue light attracts insects. They have put on the market now an electric burglar alarm which consists of an invisible ray of light that may be projected for the distance of twenty feet into the aperture of an electrical unit. This ray may be extended across any entrance which could be used by thieves and if intercepted at any point the alarm is instantly thrown. Mr. Heinton displayed several different kinds of wa-

ter heaters and discussed their use. Several representatives of the Purdue Poultry Department were present and gave short talks on the Poultry Outlook for 1938. This was followed by a general discussion propagated by the questions and suggestions offered by the poultrymen of this community. County Agent Joe Clark was present throughout the entire Egg Show also, Purina Feed Mills spon-"Where sored moving pictures, Chick Life Begins" and "Eggs". The technicolered pictures of the development of the empryonic chick were very interesting and commanded the undivided attention of the audience.

Music throughout the show was furnished by the Mentone High School Band under the capable direction of Mr. Walter E. Bowers. The three lovely Coffing Sisters of Covington. Ind., were with us again this year and repeated their splendid performance of 1937. These girls presented several very lovely vocal num bers and entertained with a musical trio consisting of two marimbaphones and one xylophone . Devon Swick, winner of the County Declam atory Contest, presented his winning reading, entitled "Ladies Aid of Bingville". Phil Andres, assisted by his daughter performed several tricks of magic, and Leroy the Great, ventrilequist, presented an amusing and expert performance. Mr. Charles Manwaring, as chairman of the program committee, was responsible for all this excellent talent.

The Annual Banquet which is always the greatest drawing cardof the entire Egg Show, was exceptionally well attended this year. The banguet tables, seating approximately 600 were filled to capacity and the bleachers were lined on either side of the hall. Mr. Chester Manwaring, toastmaster, introduced the speaker of the evening, Col. Buyers of La-Fayette. Mr. Glen Camel, pres. of World's Poultry Congress which is to be held in Cleveland this year, was also present.

The Grand Finale of the 1938 Egg Show was the presentation of the awards by Mr. Cecil Long. They were as follows: Class I-lst Frank Merkle, who also won the rotating hatcherymen's trophy; 2nd H. V. Nel lans; 3rd Forrest Kesler.

Class II-1st Frank Merkle.

Class III-1st Margaret Snyder; 2nd K. W. Howard; 3rd Mrs. H. V. Nellans; 4th Mr. Homer Beyers; 5th Max Nellans; 6th Besson Egg Farm; . 7th Besson Egg Farm,

Class IV-1st Mrs. Francis Kehoe, who also won the Creighton Bros., rotating trophy; 2nd Mrs. Homer Blue; 3rd Mrs. Robert Snyder; 4th Frank Merkle; 5th Merl Wolf; 6th J. Wm. Marvel; 7th Ora Horn.

Class V-1st Bearnard Black; 2nd Frank Merkle; 3rd Mrs. Chet Christian: 4th Chester Christian: 5th Helen Black; 6th Mrs. Blanche Beyer; 7th Bert Rush.

Class V1-1st Dale Nellans, who also won the Kurtin & Kurtin Rotating Cup; 2nd Wm. Hudson; 3rd Dale Nellans; 4th Barbara Creighton; 5th Gail Creighton; 6th James Besson; 7th Anna Wolf.

Class VII-1st Donald Baumgartner; 2nd Russel Daring; 3rd Russel Daring.

Class VIII-1st Dale Nellans; 2nd Barbara Creighton; 3rd Eugene Sarber; 4th Maynard Gerring; 5th Barbara Creighton; 6th Dale Beyer; 7th Forrest Meredith.

Class IX-1st Max Wolfetcher; 2nd Junior Taylor; 3rd Wayne Baumgartner. Prize for the largest egg went to Isabel Blackburn; smallest to John Klingle and friekiest to Dean Decker. The eggs were judged by Richard F. Breuckner of Purdue University.

BIRTHS Cole

Mr. and Mrs. Chas Cole of Bourbon are the proud parents of a baby girl born at the Parkview hospital in Ply mouth Saturday night. The infant weighed seven and one quarter pounds and has been named Sandra Kay.

WEDDING

Fenstermaker - Mollenhour A beautiful and impressive spring wedding was solomnized at the home of Mr. and Mrs. C. O. Mollenhour Sunday afternoon, May 8, when their eldest daughter, Miss Eileen, became the bride of Walter Fenstermaker, son of Mr. and Mrs. John Fenstermaker. The home was beautifully

- decorated with spring flowers. A white flower-wreathed arch was placed in one corner of the living room against a background of ferns, Snowballs, white Iris and Valley Lilies. In front of the arch was a
- satin covered kneeling bench. The anister of the stairway down which e bridal party passed, was decked with white Bridal Wreath, and baskets of other spring flowers were placed around the home.
- Preceding the ceremony Mrs. F. C. Olds sang "Ah Sweet Mystery Of Life" and "Beloved It Is Morn", accompanied at the piano by Miss Jean Burns. Miss Burns then played "Spring" by Ed Grieg which was followed by Lohengrin's Wedding March and Mendolson's Bridal March. As the first strains of Lohengrin
- filled the home the two ushers, Guido Shirey and Devon Hibschman, followed by Rev. E. E. DeWitt took their places before the improvised altar. The bridegroom, in, a light grey business suit, and his attendant Le-
- roy Norris, then took their places at the altar. Little Janet Olds dressed in Pink organdie with a blue ribbon sash and a basket of sweet peas appeared at the top of the flower banked stairway and began the descent, followed respectively by the vo bride's maids, sisters of the bride,
- ry Mollenhour in yellow organdie and Bobby Mollenhour in green organdie. Both girls carried Talisman roses. The matron of honor, Mabel Norris, in pink organdie, carried pink rose buds and was followed by the ring bearer, little Barbara Fenstermaker, dressed in peach organdie and carrying a tall calla lily containing the tiny gold circlet. The bride was beautiful in white lace over white satin and a finger-tip veil of silk tulle. She carried white rose buds and was given in marriage by her noon in Chicago.

father, Chauncey Mollenhour. After the bridal party had taken their places Rev. DeWitt began the single ring ceremony, during which Miss Burns softly played "I Love You Truly."

At the close of the ceremony, in commemoration of Mother's Day, the mother of the bride and bridegroom were first to congratulate the couple. Mrs. Fenstermaker was attired in a floral print and Mrs. Mollenhour in navy blue sheer. An informal reception followed and dainty refreshments were served by eight of the bride's former girl scouts. These girls were also responsible for the beau ifully decorated home.

Mrs. Fenstermaker is a graduate of Butler University and has taught in the primary section of our local school for the past five years. She has also been very active in Scout, O. E. S. and Church work in our community. Mr. Fenstermaker attended Indiana University and North Manchester University of which he is a graduate. He is instructor of matha matics and physical culture in Mentone High School and has also been active in Scout work. The couple left for a wedding trip in the south after which they will be at home to their many friends at their newly furnished residence east of Mentone.

Guests at the wedding, other than those previously mentioned were the eight girls, Wyland Bowers, Doris Wiltrout, Marcella White, Frances Tucker, Mary Rush, Lena Rush, Geraldine Nellans and Juanita Nellans: Mrs. Cora VanGilder and Dr. Donald VanGilder; Mr. L. L. Mollenhour; Mr. and Mrs. Dale Flew; Miss Ann Sierk; Mr. and Mrs. John Fenstermaker; Mr. and Mrs. Elmore Fenstermaker; Mr. and Mrs. Herschel Fenstermaker and son Robert; Mr. and Mis. Raymond Hilschman and son; Mrs. E. L. Wistman and daughter Louise of Chicago; Mrs. E. E. De Witt; Mr. and Mrs. F. R. Burns; Mr. and Mrs. Charles Meredith; Mrs. Della Deloise and Mrs. W. B. Fenstermaker both of Chicago.

Mrs. George Myers, Mrs. Lloyd Lucas, Mrs. Cris Gilbertson, and Mrs. Ralph Liggett attended the Cubs-Boston baseball game Friday after-

Remember National Air Mail Week

The Post Office Department at Washington is sponsoring Air Mail Week from May 15th to 21st., inclusive.

This is the 20th anniversary of the establishment of regular air mail service in the United States and it is hoped that our citizens will utilize the Air Mail service very liberally during this week commemorating the event-write at least one letter or greeting to some distant friend or relative.

Air Mail costs only 6 cents postage and if you will use the red, white and blue border envelope which is very attractive and may be obtained from your postmaster, your letter or greeting will surely please the recipient. Ask your postmaster for one of these envelopes and send at least one letter.

The citizens of Mentone should surely patronize the Air Mail liberally during this week. Envelopes are being distributed with printing on them that will be a great boost to this vicinity

If you wish more of these envelopes ask for them at postoffice. Post master Rickel has gone to considerable expense for the making of a special rubber stamp same as above which will be used on all outgoing letters during that week, which together with the Air Mail letters should let the world know that Mentone is the "Egg Basket of the Nation."

Egg car shippers are being given envelopes and we urge every shipper 1 Mr. and Mrs. Roy Adamson Sunday.

to write his New York receiver an Air Mail letter-either a greeting of appreciation or a kick if one is due. If every shipper will do this the egg buyers at New York will realize that the Mentone community is aware of the fact that "Mentone" signifies superlative quality in eggs and the top price is expected.

Subscription Price \$1 Per. Year

The Governor of the state of Indiana has issued a Proclamation urging all citizens to join in making National Air Mail Week a great success by sending as many Air Mail letters as they can. Boost the Air Mail and Boost Mentone.

Work And Chatter 4-H Club Meets

The Work and Chatter 4-H club held its first meeting Wednesday afternoon, May 4 at the home of Mildred and Carol Mahoney near Palestine. The business meeting was called to order by the leader, Miss Rosentrader and the following officers were elected: President, Barbara Creighton; Vice-President, Mildred Mahoney; Secretary, Mary Alice Long; Song Leader, Belva McGowen; Pianist, Betty Miner; Recreational Leader, Mary Mellott; News Reporter Carol Mahoney.

The summer's work was discussed. After the business meeting games and contests were enjoyed by the following members: Hope and Mary Deaton, Mary Mellott, Helen and Letha Walters, Barbara and Josephine Creighton, Alberta and Maxine Murphy, Barbara Hoos, Betty Miner, Mabel Stiver, Belva McGowen, Flossie Mikel, Mildred and Carol Mahoney and the leader, Miss Rosentrader.

The next meeting will be held May 18 a the home of Barbara and Josephine Creighton.

PENNY SUPPER

The Kum-Join-Us class of the Methodist Sunday School is sponsoring a penny supper in the basement of the church Saturday evening, May 14 from five to seven o'clock. You are invited.

Rickenbacker Maintains Auto Racing At Indianapolis is 'Cleanest Sport'

INDIANAPOLIS, Ind.—Auto racing is still "aces high" with America's ace of aces of the World War. Captain Eddie Rickenbacker—he

captain Eddle Rickenbacket—ne still forgets he has a colonelcy—is celebrating his tenth anniversary of being associated with the management of the Indianapolis Motor Speedway.

As president of the organization which sponsors the 500-mile race each year, Captain Rickenbacker ha. had one paramount purpose—"To maintain automobile racing on a plane of clean sport and fair competition." "We have always given the huge

"We have always given the huge crowd at Indianapolis a good show for its money." Ite says. "We have turned every effort toward maintaining the high level of sportsmanship on the part of drivers. And we have adonted every means of assuring them the utmost safety in this laboratory of speed from which have evolved so many improvements that have benefitted the motoring public of America."

Twenty years ago, the President of the speedway was risking his life in the battle to save democracy. He shot down 26 enemy planes, escaped with his life when his plane cracked up at a height of 5,000 feet, and emerged from the World War acclaimed as America's premier aviator.

Since they he has worked unceasingly to make commercial aviation the safe mode of transportation it has become As general manager and dynamic force of Eastern Airlines, he has helped aviation become one of the country's most progressive industries.

It was he, as chairman of the Contest Board of the AAA, who was in-

DEATH TAKES MARY HUNTER

Word has been received here of the death of Mrs. Mary Hunter, widow of former Judge Hunter of Wabash. Judge Hunter was well known in this county. Funeral services were held Thursday afternoon in Wabash. Among the relatives attending the services were Mrs. Haimbaugh of Mentone, Mrs. Lloyd Kesler and Mrs. John Holderman of Warsaw.

PURE MILK ASSOCIATION

ANNOUNCES A LOWER PRICE

Officials of the Pure Milk Association have announced, offective as of May 6, 1938, a reduced price for fluid milk delivered by its producer members.

The premium over condensery is reduced effective May 6, 1938, from 65c to 53c over the average monthly condensery code price for all base milk.

The high peg price of \$1.60 for condensed and the low price of \$1.40 for condensed in the previous agreement has been eliminated.

Therefore, using the new premium

strumental in adopting international rules for the 500-mile race May 30th, and increasing the prize money for the contestants.

"I want this to be the greatest of all 500-mile contests," he said, "it will have closer competition, certainly, and I see a vast improvement for American motors resulting from the new rules."

of 53c over the average monthly condensed price, based on actual condensed price today which is \$1.21, will make a milk price on today's condensery basis of \$1.74 per hundred (46¹2 qts.) for base milk delivered to country plan's, platforms, or loading stations, which is a reduction on the basis of today's market of 31c per hundred.

Based on these figures, it represents a saving to the distributors of about two-thirds of a cent per quart. And, according to press releases and bull tins of individual distributors today, it indicates that the dealers are passing this saving on to ithe consumers through a reduction in the retail price.

Food Prices Lower

The Department of Agriculture estimates that it costs about \$1.00 per week less to feed the average American family of five today than it did ten months ago. Food prices generally have declined about ten per cent since last September and there is every reason to believe that they will remain low for the balance of 1938.

REPLACE YOUR SMOOTH WORN TIRES AND BE SAFE

LAST year highway accidents cost the lives of more than 40,000 men, women and children and nearly a million and a quarter more were injured. More than 52,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires. A recent survey discloses that 59 million tires now in use are, or will become, smooth this year. Do your part to make driving safer. Replace smooth tires on your car. Come in today and equip with Firestone Convoy Tires and save 25%.

FIRESTONE CAN GIVE YOU SUCH A HIGH QUALITY TIRE AT SUCH A NEW LOW PRICE

Because Firestone saves money by controlling and securing rubber and cotton at the source and

by more efficient manufacturing and distribution. These savings make possible more extra values at low prices:

New High Quality— First choice rubber and selected cotton that conforms to Firestone's high standards and rigid specifications.

Long Mileage—Safe, silent tread design made of tough, slow wearing rubber that

assures long mileage. Sturdy bars and rugged notches that give full protection against skidding.

Blowout Protection — Nine extra pounds of rubber are added to every 100 pounds of cord by the Firestone Patented Gum-Dipping process which counteracts internal friction and heat that ordinarily cause blowouts.

Puncture Protection — Firestone's patented construction of two extra layers of Gum-Dipped cords under the tread that protects against punctures.

Come in today. Let us put a set of these large size, rugged, long wearing Firestone Convoy Tires on your car — remember, you save 25%.

Listen to the Voice of Firestone featuring Richard Crooks and Margaret Speaks and the 70-piece Firestone Symphony Orchestra, ander she direction of Alfred Wallenstein, Monday evenings over Nationwide N. Meyer Ranks Top Man Of Indianapolis Race

INDIANAPOLIS, Ind .- Every time Louis Meyer drives in the Indianap-olis motor classic another record goes the boards

In 1936, the calm Californian raced to his third victory in the 500-mile race, repeating his triumphs of 1928 and 1933 It was a feat never paralleled in a quarter century of racing

- Last May. Meyer was shooting for another victory, and the all-time competitive mileage record held by Ralph DePalma. Lou finished fourth in the race won by Wilbur Shaw. But he did not fail in his record attempt. He drove the 500 miles without re-lief, and now the official records
- reveal ne has whirled 4,385 miles in competition at Indianapolis. De-Palma had driven 4 061 miles and stands second on the list

Meyer has built a new car and with it he hopes to gain his fourth checkered flag this May 30 His admirers are argering that he'll do it. though 32 other great drivers say he

Anglin Addresses Lions

Postmaster Charles Anglin of Warsaw, addressed the Mentone Lions Club at their regular meeting Wednesday night, May 4, at the Methodist church. Mr. Anglin used as his subject, "Air Mail" and explained in detail the purposes of National Air Mail week, May 15 to 21, and urged the local group of men to give it their whole-hearted support. More than sixty were present at the meeting.

Postmaster Rickel of Mentone and Mr. C. W. Krathwohl, local printer, have expended a lot of time and energy toward making National Air Mail Week a success in this community. For further information see article on front page.

Rivers Flow Into Oceans Atlantic and Pacific creeks, two streams in Yellowstone National park, flow into each other in such a way at Two Ocean pass that water from each finds its way into both the Atlantic and Pacific oceans

Two Minute Sermon By

Thomas Hastwell

IF WE BUT HAVE FAITH: On Palm Sunday Christ entered Jerusalem a conqueror, hailed as a king. The crowds greeted him with songs and honored him and strewed palms in his pathway. The procession was indeed a regal one. A point we often overlook in our study of this triumphal entry, I think, is that Christ knew at the time that within less than a week he would be crucified, and that many who then sung hozannas would be shouting, "crucify him, crucify him." A short time before he stood on the hills overlooking Jerusalem and wept because of her indifference, because of her blindness, and her inability to see and understand. Before the triumphal entry he had made his decision that he would go all the way to the cross, and though the triumphal entry, with its pagent and splendor, was the sign of an earthly conqueror and king, the real battle had been fought in his heart and the real victory won in his soul. In the very shadow of the cross he had conquered defeat and was prepared to go to his death triumphantly and gloriously.

We need today, in these strenous times, more of this spirit to conquer temporary defeat and the courage to look ahead to the victory tomorrow. Christ still lives undefeated, and we too, can look ahead undefeated by any discouragement or difficulty, or hardship, and emerge vistorious-if we have faith.

IS YOUR CAR REDY FOR SPRING DRIVING?

Now that spring is definitely here, over most of the country, wise motor ists are taking care of the few routine seasonal operations which will do most to assure that result. Ed Hedner, national service and mechanical director for Chevrolet, listed the most important items in a bulletin is ued this week.

Foremost on the list is change of winter oil and transmission and rear end lubricant, from the thin grade used through cold weather to the thicker grade recommended for the make and year of car the owner drives. The importance of this step arises from the fact that engines operate at much higher temperatures in summer, temperatures which tend to break down the thin oils and church on Saturcay. Those present greases which winter driving requires.

lists draining and flushing of the Junior, daughters Betty and Geraldradiator, which will be called on for ine; Sarah Shirey; Blanche East and more exacting service in the months daughter Esta Mae; Edna Jones and just ahead. Removal of scale and daughter Louise; Rosa Hipsher and solid deposits within the radiator daughter Ruth; Louise Summee and The mill buys wheat, oats, corn.

core assures efficient transfer of engine heat to the outside air, and keeps the engine at maximum cooling efficiency.

Battery level should be checked, and terminals and cables cleaned if they have accumulated grease and corrosion during the winter months. The bulletin adds the reminder that the battery should be inspected more frequently in summer than in winter, because warm-weather operation depletes the solution more rapidly than does cold weather driving.

Because cars are operated at a higher average speed in summer, Chevrolet's director advises careful check of their condition, before starting out on those long spring drives.

4-H Clubs Organized

Miss Rosenstrader, Home Economics teacher in the Mentone schools and leader of local 4-H clubs called the first meeting of the Mentone and Harrison Center 4-H clubs last week. The Harrison Center Club met Tuesday afternoon at the home of Carol and Mildred Mahoney near Palestine. The Mentone Club met Wednesday afternoon at the Mentone school house. Their summer work was laid out for them and discussed by Miss Rosenstrader. Judging from the attendance at the first meeting, quite an interest will be shown this year and it looks as though there will be a lot of worth while work completed before the opening of the fall term of school.

HOROSCOPE

MAY 7, 8, 9-You would make a good horticulturest as you have very artistic ideas along this line. You are crafty, obstinate, with much doggedness when it comes to things that pertain to your own interest. Though you can show much affection you are very hard to please. You like Epworth League _____ 6:00 sports of all kinds, are sociable and

MAY 10, 11- The beautiful and artistic appeal to you and you work to make your home beautiful. You read a great deal and get all the information you can on different subjects, as you like to know what is going on in the world about you, giving your opinion on subjects and getting other people's views. You love art, poetry and music. You would make a good florist.

MAY 12, 13, 14-You would make a good lawyer as you have a keen intellect and absorb the things you learn. What people say or think should not bother you-just set your goal and go after it and things will come your way. You are always looking to better your condition though you do not always succeed in doing so. You should learn to stay at one thing and your venture would prove more successful.

ATTEND EXHIBIT AND LECTURE ------

Mrs. Emma Yocum and Mrs. Cora VanGilder were among those who attended the Warsaw-Winona Federa-Preaching services every two weeks, tion of Clubs meeting at the Hays!

Hotel Monday evening. Several of Mr. Leo Ruckle's paintings were on display and his daugter gave a very interesting talk. For her topic she chose "The Impressions of an Artist's Daughter." Several musical selections were presented by Miss Helen Sloan, Mrs. Fred Vanator, and Mrs. Everett Razor.

Mr. Ruckle's paintings were on dis play all last week at the Hays Hotel and were accessible to the public at all times. Members of the Music and Art groups were present at the hotel to receive visitors of the exhibit.

Do You Know That-

A new transparent can made of a plastic material with a tin top and bottom has been placed on the market. It is reported that Germany has ordered 133,000,000 of these cans to conserve the tin supply of that country.

The persons who have one automobile accident usually have a second and often a third. A survey shows that while "accident repeaters" constitute less than 4 per cent of the population this group is responsible for 40 per cent of the country's auto accidents.

You can read a newspaper from the light of the two billion candlepower beacon atop the Falmolive Building, Chicago, at a distance 27 miles away.

Bark-Cloth Making Revived American school children in Hawaii are reviving an ancient Polynesian art, the making of tapa or bark-cloth. It has been practically a lost art in Hawaii, having died out since the Islands were annexed to the United States 38 years ago. With the present popularity of tapa made in Samoa, for golfing vests, hats, bags and wall hangings, interest in its revival in Hawaii has been stimulated, and that revival has begun in the schools, where children are beating the bark of the paper-mulberry tree into cloth.

The Dude Ranches

No two dude ranches are exactly alike. Some are founded on the basis of still active ranches which are conducted as business enterprises in which the raising of livestock and grain crops is the primary business and that of the entertainment of visitors a secondary one. Some are partly one and partly the other; others have been developed from the beginning as guest ranches. Some are in the mountain areas, some on the plains, and others in deserts of the Southwest.

Trees Should Mature

As proof that it pays to wait until trees are mature and of fairly good size before cutting them for timber, forestry experts offer the following statistics: "There is about 19 times as much lumber in a tree with a 26-inch trunk as in a 9-inch tree and the lumber is worth more per foot, bringing the value up to 36 times that of wood from the 9inch tree."

A Gentleman Farmer

Son-Daddy, what do you mean by a gentleman farmer? Daddy-A gentleman farmer, my

son, is one who seldom raises anything but his hat.

He Auto Know

She—I see in the paper that three persons were killed in a feud. He—Those cheap cars are dangerous.

RAMBLING AROUND

Peace is the reward of right thinking.

Faults should not be confessed recklessly.

Experience is a dear teachertoo dear.

Mail Plane Will Land At Syracuse

In honor of National Air Mail Week May 15 to 21, the first airmail plane to pick up mail in Kosciusko county will land at Syracuse's airport on Thursday, May 19. Mail will be

picked up there from all postoffices in Kosciusko county. If you want your letter to go on this plane be sure to get it in the Mentone Postoffice early Thursday morning. Airmail mailed from Mentone should be mailed in the special airmail envelopes that your postmaster has distributed among his patrons, as these envelopes are stamped with a special

chet advertising Mentone as the nter of the greatest egg producing inter in the United States. All mail differences in the United States. All mail reaving the Mentone Postoffice this week will be stamped with a special cancelling stamp purchased by your postmaster for use during National Air Mail Week.

Postmasters of the county have been instructed to deliver their airmail to the Warsaw postoffice on Thursday morning not later than 9:45 a. m. The postoffice at Warsaw will sort and bundle the airmail and

send it to Syracuse where the mail plane will take off at 11:20 a.m.

The department was unable to locate near Warsaw any landing field of sufficient size to accommodate mail planes and hence were forced to choose the Syracuse field.

AGED RESIDENT

Each one of the 20,000 valedictorbians in the high schools in this country, including our lecal valedictorian, Miss Jean Burns, will receive free a years subscription to the Reader's Digest.

With the appearance of the Thomas Jefferson nickel this year, coinage of the Buffalo nickel will cease. Under the law, a design once adopted for a United States coin, must be used for at least twenty-five years.

War is the habit that drains nations of their resources and prevents them, through demoralization and im poverishment, from doing many fine and worthwhile things that they might otherwise accomplish.

It is being predicted that within the next ten years all transport trucks will be powered with Diesel engines which operate at a fraction of the fuel cost of the present type of motors.

One of the earliest predecessors of the lie detector was used by the Chinese. Crime suspects were required to chew a mouthful of rice, then spit it out. If the rice was dry the defendant was supposed to be guilty since it was supposed that a guilty conscience held up the flow of saliva.

When Carrie Jacobs Bond wrote "I Love You Truly" and "Just A Wearyin' For You" they sold very slowly. It was necessary for the author to take the road and go from town to town in the middle west singing and selling her music to her audiences. In this way her songs gradually gained acceptance and in time made money. The author eventually became wealthy from the sale of her songs but lost it all in a music publishing husiness. "A Perfect Day" and "I Love You Truly" have sold over a million copies each. Carrie Jacobs

Bond is the author of over 200 songs. For the past twenty years she has lived in a simple cottage on the top of Grossmont Mountain, near San Dicgo, California. Her income consists of 10yalties from the sale of her

songs. She is 75 years old.

The name Su-Lin, given the little giant panda bear which died recently in the Chicago zoo after swallowing an oak twig, means "a little bit of something precious."

Magazine Club Meets

The Magazine Club met Wednesday evening at the home of Mrs. O. H. Richer, with Mrs. Cora VanGilder as assisting hostess. There was one guest present, Mrs. Elva Hudson. The classical English lesson was conducted by Miss Louise Ireland. The history of Mother's Day was given by Mrs. Robert Kelly. Mrs. G. H. Schlem mer followed with a review of "Forgotten Mother's" by Dr. Paul De-Kriuf. Refreshments were served by the hostesses and club adjourned to meet June 8 for the annual picnic at the Pottenger cottage at Yarnell Point.

It is being predicted that within the next ten years all transport trucks will be powered with Diesel engines which operate at a fraction of the fuel cost of the present type of motors.

One of the earliest predecessors of the lie detector was used by the Chinese. Crime suspects were required to chew a mouthful of rice, then spit it out. If the rice was dry the defendant was supposed to be guilty since it was supposed that a guilty conscience held up the flow of saliva.

When Carrie Jacobs Bond wrote "I Love You Truly" and "Just A Wearyin' For You" they sold very slowly. It was necessary for the author to take the road and go from town to town in the middle west singing and selling her music to her audiences. In

this way her songs gradually gained acceptance and in time made money. The author eventually became wealthy from the sale of her songs but lost it all in a music publishing business. "A Perfect Day" and "I Love You Truly" have sold over a million copies each. Carrie Jacobs

million copies each. Carne sacobs Bond is the author of over 200 songs. For the past twenty years she has lived in a simple cottage on the top of Grossmont Mountain, near San Diego, California. Her income consists of royalties from the sale of her

songs. She is 75 years old.

The name Su-Lin, given the little giant panda bear which died recently in the Chicago zoo after swallowing an oak twig, means "a little bit of something precious."

Magazine Club Meets

The Magazine Club met Wednesday evening at the home of Mrs. O. H. Richer, with Mrs. Cora VanGilder as assisting hostess. There was one guest present, Mrs. Elva Hudson. The classical English lesson was conducted by Miss Louise Ireland. The history of Mother's Day was given by Mrs. Robert Kelly. Mrs. G. H. Schlem mer followed with a review of "Forgotten Mother's" by Dr. Paul De-Kriuf. Refreshments were served by the hostesses and club adjourned to meet June 8 for the annual picnic at the Pottenger cottage at Yarnell Point.

Liquid Floor Wax requires no rubbing, 75c per quart at the Big Drug Store.

MARRIED

Bare - Flenar

Mrs. Alice Flenar, 73, of near Mentone and Mr. Thomas Bare, 79, of near Akron, were quietly united in marriage Tuesday, May 10. The couple will reside on Mr. Bare's farm near Akron.

BIRTHS

Baum

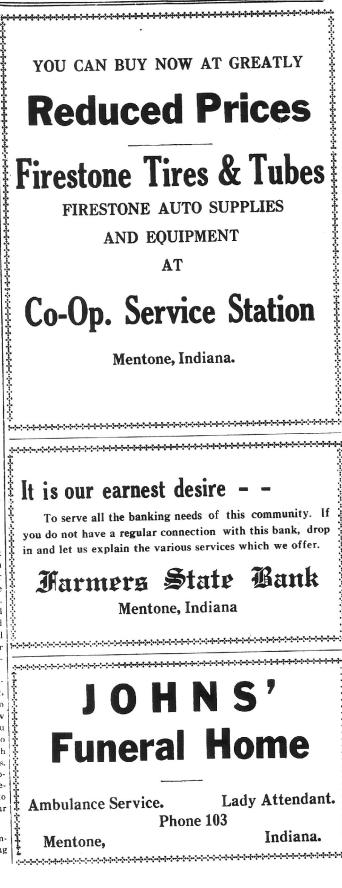

Mr. and Mrs. Cloice Baum of southwest of Warsaw are the proud parents of twin sons born at twelve o'clock noon Wednesday, May 11 at the home of Mrs. Alice Flenar near Mentone. The twins have been named Doyle and Royal. Mother and infants are doing nicely.

HOROSCOPE

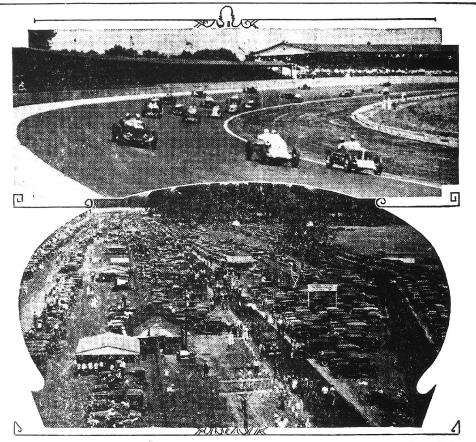

MAY 15, 16, 17 - You take a great deal of pride in your own accomplish ments, especially if they are for your own profit. You sometimes go to the extreme in order to achieve your aim. You possess a cautious, keen, well balanced mind, a strong will and much executive ability and would make a good leader. People ask your advice on important matters and generally follow it.

MAY 18, 19, 20, 21 - Being of a social nature, you enjoy entertaining, and social events of all kinds like to meet at your home for they know they will be royally entertained. You appear to good advantage and like to manage different social affairs wheth er they be church or public affairs. Music and art are your special hobby, although you are fond of amusements and sports. You are loyal to your family but not always to your friends.

SPEED SPECTACLE OF 500-MILE RACE CAN'T BE 'SELLOUT' DESPITE CROWDS

The field coming around a turn as the infield crowd sees it. Below, a portion of the parked cars at the last race.

INDIANAPOLIS, Ind. — It's the hoast of the Indianapolis Motor Speedway that there cannot be a sellout, though the 500-mile race May 30th undoultedly will again attract the largest attendance of any sporting event in America.

The secret behind this, as revealed by T. E. Myers, general manager, is that there are thousands of free parking spaces available in the infield.

"Even with 65,000 spectators seated in the nine grandstands and three infield bleacher stands," he says, "there is a huge surplus of parking space in the infield. Behind the pits along the main straightaway, there are 4,000 parking spaces for cars which are reserved, all the rest are free. On the north and south turns, and along the back stretch there is a mile and a half of free parking space. It is estimated that 75,000 cars could be accommodated in the infield, though there is never anywhere near that number, and figuring four persons to a car 300,000 could see the race from those points."

That would give Indianapolis 365.-000 persons. The attendance last year was nowhere near that figure although the largest crowd in history, and the crowd was easily handled in the 15 motor gates and the 25 foot gates, all of which open **at** six o'clock the morning of the race. By the time the race starts at 10 o'clock, the crowd has been sped through completely.

completely. Those in the infield make Race Day a picnic. They enjoy the prerace ceremonies, the parade, band concert, bomb salutes, and then see the thrilling start. After watching the race until noon, they open their luncheon hampers and enjoy a repast.

By the time the most dely open when By the time the most thrilling sport event in the world is approaching its final stages, the vast crowd is in rare good humor, and enjoying every moment of the speed battle. So Indianapolis has been since 1911, and its crowd story will be written as of old on Decoration Day.

Mr. Conda Walburn suffered a badly sprained ankle and torn ligaments in his leg last week. Xrays were taken and he was confinded to the use of a pair of crutches for the next several days.

NATIONAL TIRE SAFETY WEEK.

Safety on the highway and increased business are the dominant themes in National Tire Safety Week launched this week by tire manufacturers, distributors and dealers throughout the country.

Sponsors of the movement point out the hazards of driving on smooth worn tires and the foolishness of attempting to get the last few miles out of a set of worn tires. In addition, a vast purchasing movement would be created and employment would be accelerated, not only in the tire industry itself, but in the many affiliated and contributing industries.

The 59,000,000 tires which tire men have estimated are due for replacement this year represent a sales total of approximately \$500,000,000, a sum that is one tenth of the \$5,000,-000,000 which President Roosevelt has asked Congress to appropriate to aid business.

The success of National Tire Safety Week has a direct bearing on the welfare of the 125,000 employees of A the tire manufacturers, according to A. L. Viles, president of the Rubber Manufacturers Association, which is sponsoling the campaign. Last year this group received in excess of \$100,000,000 in wages and salaries. In addition, he added, the economic wel fare of countless others employed in related industries would be beneficially affected. In this group he included the 50,000 distributors and dealers and their employers, as well as the owners, managers and employes of the more than 40,000 gasoline filling stations where tires are sold.

Spreading out beyond the tire industry and closely related industries, Mr. Viles pointed out, are the vast numbers employed in furnishing and processing the raw materials such as cotton, crude rubber, paper, wire, coal, oil, paint and lumber.

Plants Used as Narcotics

Two interesting plants used as narcotics or stimulants are the poppy and tobacco. Chinese originated opium smoking and the Indians tobacco smoking. Tea was supposed to prevent dropsy, to overcome rawness, to vanquish superfluous sleep, to purify a person's humor and a hot liver. A Japanese tea room is generally kept bare and simple. One poet describes drinking tea as fol-lows: the first cup moistens the throat, the second relieves loneliness, the third revives memories of books and stimulates him to write new ones, the fourth causes sweating, the fifth completes purification, six summons him to the gods, and the seventh welcomes him into their

Things To Watch For

A combination parachute and life raft designed for aviators who are forced to "bale out" over water.

A fuse which is thrown out of the box by a spring immediately after it has "blown".

An "impact indicator" for golf clubs to tell the player how hard he hit the ball.

A floating perforated rubber bath tub which makes it possible to take a tub bath in an ocean, river or lake.

A bridge table with electric signal system, so that the bidder pushes a button and a light flashes his bid on the table top.

A machine for removing railroad ties which enables one man to do the job in six minutes.

Lower prices on men's Fall suits, with reductions ranging from \$2 to \$4.

Increased demand for low-priced kitchenware.

Increase in employment in the avia tion industry.

The largest pineapple crop on record, although size of the fruit this year will be smaller than usual.

STATE FAIR 4-H PAMPHLETS ARE READY TO MAIL

Every person in the State of Indiana who is planning to show this year in Agriculture or the 4-H Club

- Department should either see his County Agent or write to the Manager, Harry G. Templeton, Room 332, State House, Indianapolis, and secure one of these booklets as soon as possible. These booklets give the rules, regulations and also premiums that are offered.
- The Indiana Board of Agriculture takes great pride in the 4-H Club work at the State Fair and has the record of doing as much for the 4-H Club Boys and Girls in this state as any other State Fair. It is not only a pleasure trip for the boys and girls
- to attend the Fair but an eductional one as well. The Fair this year is to be held from September 3rd to 9th. Following is a list of the amounts

offered in the various Agricultural Departments:

PSI IOTA XI

Members of Psi Iota Xi sorority met at the home of Mrs. Lucille Myers Friday night. Very impressive initiation services were held for one nledge Mrs Louise Long. After the services three tables of bridge progressed with prize for highest score going to Mrs. LeVern Clatter and prize for second highest to Jessie Rush. Refreshments were served by the hostess to the following: Emma Clut,er, Nell Reed, Yolanda Riner, LaVern Clutter, Jessie Rush, Annabel Mentzer, Pauline Riner, Lena Eaton, Helen Hoffer, and Louise Long.

"Who Was David's Mother?" The question, "Who was David's mother?" is often quoted as unanwerable as Sam Llovd's puzzle "How old was Ann?" King David, swerable as Sam who reigned over Israel about 1000 B. C., was the son of Jesse of Bethlehem. He had several brothers and sisters, but the name of his mother is not recorded in the Bible.

The Catskill Mountains New York's Catskill mountains are about the same altitude as the speaking it. Highlands of Scotland.

Needles, Nails Made of Gold Sewing needles and nail heads were often made of gold, by prehistoric South American Indian tribes.

Billy Winn Decked Out In Red for Speed Duel

INDIANAPOLIS, Ind .- You'll be seeing red when you look at Billy Winn in the 500 mile race Decora-Winn tion Day, May 30. "Battling Billy" has decked him-

self and his pit crew out in flaming red attire, and will be easy to follow on his fiery dash around the bricks of the famous Indianapolis Motor Speedway. Winn, Detroit's favorite in the

speed classic, returned to Indianap-olis with the record of being one of the swiftest chauffeurs on the dirt track circuit during the past season. He won the only championship dirt track race—at Syracuse—defeating, among others, Rex Mays, Bill Cum-mings, Mauri Rose and other Indimings, Mauri R anapolis leaders.

He ranks as top driver of the rac-ing team entered by Harry Miller America's premier racing engineer, who has built five cars for the 500 mile race. Winn figured in a specmue race, winn ngured in a spec-tacular incident during the early days of practice this year, when his race car caught fire in a trial spin. Winn coolly braked the car to a dead stop and directed extinguisling of the blaze.

Chinese Widely Spoken

Chinese is the most widely spoken language, and it has been estimated that at least 400,000,000 speak it in its various dialects. English is next, with 200,000.000, followed by Russian, 140.000.000; Hindustani, 100.-000,000; German, 80,000,000; French and Spanish, 70,000,000 each; Japanese, 65.000.009: Portuguese, 60.000,-000; Italian, 50.000.000; Polish, 16,-000.000; Greck, 9,000.6 9; Serbo-Croatian, 8.000.000, and Bohemian, 7,000,000. Although there are about 5,000 languages spoken in the world, no other language has 7,000,000

Eclipses Affect History

Eclipses of the sun have been the cause of historical crises. They stopped a war in 585 B. C., between the Medes and Lydians.

Two Minute Sermon By

Thomas Hastwell

THE POWER OF A VISION: Every accomplishment of men has been preceded by a vision, a vision in which they desired to produce or accomplish. The electric light, the telegraph, the automobile, the airplane, alike are the material results of some man's vision. Without the vision they would not have been possible. It is just as necessary that a man have a vision of Christ if he is going to build that kind of a life, as it is necessary for him to have a vision if he is going to produce an electric light or paint a picture or build a railroad. Without such a vision he flounders aimlessly. His Christian life is without purpose and without plan.

It was such a vision that Peter, James and John had when they went up into the mountain and in a beautiful setting, in the shadow of snow capped Mount Mermon they were permitted a vision of the future glory of the Christ. The memory of this occasion clung with them throughout their earthly ministry. Always before them was the vision inspiring them to greater perfection and greater service. I have seen many whom I felt had no such visions to shape and direct their lives. They floundered aimlessly in their efforts to build a Christian life.

On the other hand I have been privaleged to know many whom I felt had had a vision like unto that of Peter, James and John. It shown in their faces, and radiated from their hearts, and found expression in every act and word. Their lives were strong and purposeful, and a power for good. Like Peter, James and John they had tarried in the shadow of Mount Hermon. They had caught the vision of the Christ.

Weapons Displayed by Museum

Guns, pistols, revolvers, cutlasses, swords, and bayonets, graphic evidences of the increased murderousness of man from pre-Revolutionary days up to the World war, are contained in the notable collection of small firearms on exhibition at the Fort McHenry National museum, Baltimore, Md.

Salmon in Fresh Water Not all salmon spend their lives alternately in fresh and salt water. In Maine, Canada and Norway are landlocked salmon that spend their entire lives in fresh water.

Wide Range in Color

No other tropical hardwood has the wide range of color variants of Philippine mahogany, which 'runs from deep cream to deep, rich brown.

4H CLUB

The Mentone 4-H Club was organized April 15 at the school house.

- The following officers were elected: president, Fern Rans; vice-president, Clara Schooley; secy-treas., Margaret Swick: news reporter, Mary Alice Marquess; recreational leader, Jane Warner; song leader, Patty Myers; assistant song leader, Lillian Barnaby; pianist, Marjorie Long.
- The second 4-H meeting was held May 5 at the school house with twenty-six members present and the leader Miss Rosentrader. Mentonette Merry Makers was the name selected for the club. 4-H material was dis-
- tributed to the girls during the business meeting. Games were played and songs were sung for entertainment. The next meeting will be an all day meeting on May 19 at the school house.

INDUSTRY TO PLAY BIG PART IN STATE FAIR

The Indiana State Fair which will be held from September 3rd to 9th has been held for the past eighty-six years and has devoted most of its into est to Agriculture but in the past few years Industry has helped make this great Exposition the biggest of its kind in the United States.

Last year the Manufacturer's Building was filled to capacity and all space in the Machinery Field was friends in Brazil, Ind., and Terre completely sold. This year space in Haute, Ind.

both the Manufacturer's Building and the Machinery Field is rapidly being Emma Yocum and Mr. Maurice Dudsold.

The Machinery Field is being tiled and levelled, which will make it a fine place to show machinery this year and will again afford the public an opportunity to get some new ideas of the many products manufactured in this state. It is also a fine place for the farmer who intends to buy new machinery, as he will have the opportunity of seeing all the latest models in machinery.

For space in the Manufacturer's Building or Machinery Field, write to the Manager, Harry G. Templeton, Room 332, State House, Indianapolis. The space this year will be at a prem ium so anybody interested had better get in touch with Mr. Templeton at once. This department will be in charge of Mr. F. M. Overstreet, Columbus, Indiana.

NICA.

A group of Mentone citizens routed two newly-married Mentone couples out of their homes late Friday night, perched them atop the antiquated fire engine which was in use in Mentone many years ago, and took them on a wild ride to Warsaw. The fire engine, followed by a procession of cars nearly a mile long created quite a disturbance and attracted a lot of attention from here to Warsaw. The two couples who were feted were Mr. and Mrs. Walter Fenstermaker, Mentone school teachers, and Town Marshal. Frank Warren and his bride of one month.

Poppy Day Facts

Poppy Day is a day observed throughout the United States by wearing poppies in honor of the World War dead. It will be observed this year on May 28, the Saturday before Memorial Day.

The memorial poppy is a replica of the poppies which grew on the battle fields of France and Belgium during the World War. The poppy was chosen as the memorial flower for the World War dead because it grew where they fell, the one touch of beauty in the desolate battle areas.

Memorial poppies are made by disabled World War veterans working in government hospitals and in convalescant workrooms maintained by the American Legion Auxiliary.

Women of the American Legion Auxiliary, working as unpaid volunteers, distribute the poppies throughout the United States. Every penny obtained by the sale of poppies is used to support the work of the American Legion and Auxiliary for the welfare of the disabled veterans, their families and the families of the dead.

Every American who wishes to hon or the war dead and aid the war's living victims should wear a poppy this week-end.

Mr. and Mrs. Charles Cole and daughter Sandra of Bourbon called at the home of Mr. and Mrs. M. O. Mentzer in Mentone Sunday afternoon.

you only chance a nickel but on lum ber you chance a lot of dollars. Buy from the Co-Op's and don't take a chance.

Yes they're here—those pesky flies, stock up on fly spray. One of the best on the market 30c per pint at The Big Drug Store.

New Features Added To 1938 State Fair

State Senator E. Curtis White, president of the Indiana Board of Agriculture, today launched plans to make the 1938 Indiana State Fair, both the greatest exposition in history and 100 per cent educational.

Senator White, a lifelong resident of Indianapolis and long affiliated with the industrial field, operates a Marion county farm. Together they make him exceptionally well qualified to organize the state fair both from a layman as well as exhibitor viewpoint.

Probably the most outstanding feature of the 1938 fair, also one of the finest historical exhibits ever to be presented on Hoosier soil, will be the pagent in celebration of the 150th anniversary of the Northwest Territory. It will be produced by the par ty of 48 men, ox team, Conestoga wagon, pack horses and other colonial equipment that left Ipswich, Mass., Dec. 3, 1937 to re-enact the trek of 150 years ago to the lands beyond the Ohio. The cast will be augmented by a tribe of Blackfoot Indians and early railroad equipment provided by the B. & O. failroad company.

Mr. White annaunced a complete exhibit of fresh meat and frozen vege tables has been arranged for this year for the first time and the Indianapolis Chamber of Commerce is lending 100 per cent early support. Several new improvements to the grounds will greet the 1938 fairgoer although the local grounds long has been looked upon as the finest exposition site in the United States.

The entire horse barn located at the east end of the Coliseum will be given over to draft horses this year and to make this possible a new wing housing 55 box stalls is being added to the Saddle Horse Barn. This will increase the box stall space to 257.

A new addition that will increase art gallery space in the Women's Building is under construction and this will provide additional 4-H Club exhibition space. A modern and permanent stage is being constructed across from the grand stand and a much needed sewer system is being laid.

The fact the Indiana State Fair Grand Circuit meeting will not be in competition with the meeting at Syracuse, N. Y., this year means the best harness horses on the track will be seen in action at the local oval.

Sixty-Foot Waves in Atlantic Giant Atlantic ocean waves are even bigger than is generally thought. The biggest ones are more than 60 feet high and about 1,000 feet from crest to crest.

MENTONE. Motor Inn Garage,

Reaster That Crows Loudest Jud Tunkins says the rooster that just stood off and watched the fight is the one who butts in on the victory and crows the loudest.

Long Wait for Explosion Report An explosion on the sun, loud enough to reach the earth, would not be heard by us until about 15 years afterward.

Common Sense Always Needed One can never have enough of that most uncommon of all sensescommon sense.

Indiana "Hoosler State" Indiana is known as the "Hoosier'' state.

A Tortoise Paradise

Tortoises in India are considered sacred and they are not only protected from harm, but are fed at the expense of the state. At certain locations along the rivers, men are employed to take care of them. They go down to the edge of the water with a bag of food and a pair of scales, with which they weigh the food so that one tortoise will not get more than another.

One One's Own Resources

To be thrown on one's own resources is to be cast in the very lap of fortune; for our faculties undergo a development, and display an energy, of which they were previously unsusceptible.-Franklin.

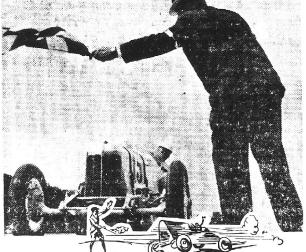

Oldest Gymnastic Organization The Sokol is the oldest gymnastic organization of its kind. It was founded in 1862 by Dr. Miroslav Tyrs, philosopher and author. It is one of the largest gymnastic organizations, having more than 800,-000 members. Czechoslovakia is its home.

Males "Night Owls" A Minnesota scientist has announced that, among most insects, males stay out at night later than females. He discovered this while testing the attraction of farm bugs to various colored lights to get them to swarm against baffle plates at night and drop into poisonous solutions.

Starter Klein gives one of the racers the checkered flag in qualifying for 500-mile race.

INDIANAPOLIS, Ind.—The man who waves the flags for the 500-mile race believes his hands will be busier than ever this Decoration Day.

- Seth Klein is closer to the race cars than any official at the Indianapolis M tor Speedway. Watch him lean far over his platform 26 feet above the track, directly at the starting line. His flags nearly brush the top of the driver's head, vet Klein has the knack of fluttering the banners so they can't be missed by the driver and yet don't distract his attention from the track, or impede his
- view. Klein has been the official starter

Florence Has Many Old Palaces

Florence has many fine old medieval palaces—the Palazzo Vecchio, with its tall tower; the huge bulk of the Palazzo Strozzi; the Bargello, with its fine courtyard—which give the traveler an idea of how the great barons of the Quatrocento lived. The palaces are gloomy and damp.

Three Get to Ocean Via Sewer

While doing repair work in the sewers of Flenburg, Germany, three workmen were trapped when the water rose rapidly after a cloudburst. They desperately swam through the sewers until they finally reached the ocean, where they were rescued, completely exhausted.

Headaches, Dizziness

Headache can result from more than 200 different physical and mental disorders, and dizziness can be brought on by at least 100 different kinds of illnesses, according to a writer in Collier's Weekly.

at Indianapolis for the past 19 races. "The return to one-man cars," he points out, "will mean the drivers will have to receive more warning flags than ever before. The mirrors on the cars will help some, but a driver will know it's official that a car is attempting to pass him when he gets a vivid blue flag. Black means to stop for consultation at the pits. Yellow, drive with caution; white, starting your last lap, and the checkered flag, you are finished."

Klein officiates also at the qualifying speed trials, when he steps out on the track, not more than foufeet from the driver and gives him the various flags.

Asserts Fishes Do Not Hear

Dr. Frederick Bedell, professor emeritus of physics, Cornell university, has added his contribution toward settling the perennial question "do fishes hear?" by declaring emphatically that they do not. He says fish may feel vibrations which communicate something to them, but they do not hear in the accepted sense.

Comedians of Animal World

The only comedians of the animal world are the Australian kookaburras, whose laughter fills the forests with merriment all day. About the size of a crow, the kookaburra has a giant-sized laugh, and is also valued in Australia because it catches mice, insects and snakes.

Most Common Cage Bird

The canary is the most common of the cage birds. It is found wild on the Canary islands, from which it takes its name, and on a number of other islands in that part of the world.

Two Minute Sermon

Thomas Hastwell

THE CHRIST OF THE HUMAN HEART: Between the two countries of Argentina and Chile, near the sum mit of the Cumbre pass, in the Andes mountains, stands a great bronze statue of the Christ. The base of the statue was hewn from the rugged granite of the mountain, and the statue itself was cast from solid bronze obtained by melting cannon. The statue was erected in commemoration of the peaceful settlement of a boundry dispute between the two countries of Chile and Argentina and is known as "The Christ of the Andes." Silent and majestic it stands, a constant reminder to the world and the people of both nations, that, in accordance with the teachings of Christ, these two great nations of South America elected to lay aside their differences and live together in peace and in harmony. As the statue towers above the international highway there is nothing in its solid bronze that would influence the men of these two nations to forget their quarrel. Of itself it is impotent to stay a single hostile hand or calm a single hate. Its power lies in the spirit it represents-the spirit of the Christ.

So it is with men today who have within their hearts that spirit of Christ. In a world filed with wrong, and gre d, and jealousy, and fear, and hatred they are a constant power and influence for good. Even more remarkable than the influence of the Christ of the Andes is the influence of the Christ of the human heart.

SHOWER

Wrs. Walter Fenstermaker was the guest of honor at a shower given at the home of Mrs. Leroy Norris on Thursday afternoon, May 19. During the afternoon the guests hemmed towels which were then given to the honored guest. They also gave her their favorite recipes and much worthwhile advice for a happy married life. Many beautiful gifts were presented to Mrs. Fenstermaker by Mrs. Jay Swick, Mrs. George Deamer, Mrs. Frank D. Meredith, Mrs. Russel Eber, Mrs. John Bowman. Miss Berneice Bowen, Miss Lola Mollenhour, Miss Mary Mollenhour, Miss Frances Clark and the hostess.

Refreshments were served buffet style with spring colors predominating.

THE NORTHERN INDIANA CO-OP. NEWS

Published Every Wednesday by Northern Indiana Co-Operative Association.

JESSIE RUSH, Editor and Mgr.

A girl employed in a local home surprised the household yesterday when she said: "I have worked in four homes in this town the past year and this is the first one in which the people of the town have not been run down and picked to pieces." "Don't you", she asked, "know people here?" That is something to think about. 14 ...

-:-:-Courtesy and good manners cost nothing yet they will open more doors ۴ of opportunity than most any other thing.

Two-thirds of the people in the world do not sleep on beds.

"I left the car at home one day recently," a reader of this paper said yesterday, "and took a long walk into the country. Half of the cars that passed me stopped and wanted to know if I didn't want (a ride. They couldn't seem to understand that I enjoyed walking.

A long walk is a treat now and then. One sees lots of things on a trip of that kind that he doesn't see when he whizzes by in a car. It furnishes quite a different type of relax ation than does a car ride. True, one

arrives home thoroughly weary but it is quite a different type of weariness than that one brings home from a long car ride over miles and miles of country side.

> The driver who thinks Won't drive when he drinks.

If the wife backs the car into a post and dents the fenders all up and the husband shows no anger about it, either the honeymoon has not ended or they have decided who is boss.

There is this to say for the new electric razors-they can't be used to cut corns or linoleum. -:-:--

The firest briar wood from which pipes are made comes from the moun tains of Albania. The briar roots from which the choicest material is secured are from 200 to 400 years old

One Of Life's Little Tragedies

The Jefferson nickel to be issued soon bears on one side of it the profile of Thomas Jefferson, the other side his Monticello Virginia home. The design was selected from 390 designs submitted. It is the work of Felix Schlag, forty-six year old Chicago sculptor who received \$1000 for the design. It is said that had Schlag received the \$1000 sooner it might have saved the life of his twentyeight year old bride of less than a year who died of pneumonia after an illness of twenty-two weeks. Schlag could not afford to send her to a hospital. He worked on his design for the Jefferson nickel during his spare time as he nursed her.

Your friend — Our friend

the painter!

When you buy paint for your home you hope for an excellent result...good-looking, long wearing.

When we sell you paint we hope just as much for the same good things, for you.

The vital link in this chain is the man who puts the paint on . . . the painter. If he does it well, he is your friend, and so is he ours. If he does a bad job, he does us just as much harm as you.

Enjoy His Experience and Skill

When you paint, hire our best friend . . . an experienced, reliable painter. His experience and his honesty are practically positive assurance of a good result every time. Give your home the best ... in paints* ... and painters.** It always saves money!

*The best you can buy are O'BRIEN PAINTS, made with patented. Pre-Shrunk Thermolayed Tung Oil. Ask us to show you why.

**If you desire, we'll be glad to recommend a competent painter with no obligation to you.

ASCENSION DAY OBSERVED

A special Ascention Day program was held at the Methodist church Sunday with 126 Sir Knights and their ladies present. A dinner was given in their honor after which the Templars conducted a special program.

Deity Brahma

The deity Brahma is represented in Hindu art as four-headed and four-armed and riding a swan or goose.

Never Quarrel With Friend

Jud Tunkins says never quarrel with a friend. If you must quarrel, brace your nerve and pick an enemy.

Rosetta Stone Aid to Science The Rosetta stone, discovered in Egypt in 1799, gave a key which resulted in the deciphering of Egyptian hieroglyphics.

Songs of French Canadians

The songs of the French Canadians are those they brought with them from France over three centuries ago.

Weight of a Mouse

A full-size mouse weighs about 30 grams or slightly over an ounce.

The Oneida Community

The Oneida community was a settlement founded at Oneida, Madison county, N. Y., in 1847 by John Humphrey Noyes. There was no formally chosen leader, as it was believed that the most fit would natur-ally control. The distinguishing features of the social life was the system of complex marriage. Marriage was not permanent, but licenses did not prevail, as the marital relations were carefully regulated and the community assumed support of the children. An unusual feature of the life was the plan of mutual criticism. Outside opposition to the system, especially by the churches. led to its abandonment and dissolution in 1879.

The Une that Escaped

The Turks have a proverb which ays: "Every fish that escapes ap-ears larger than it is." Fishermen are the same the world over.

Buddhist Sacred Books

The Buddhist sacred books are written in Pali, India's living tongue from the Seventh through the Seventeenth centuries.

The Horse and Losers

Jud Tunkins says the horse is a patient animal, but not as patient as the losers that keep betting on him.

Chance

Chance never writ a legible book, never built a fair house; never drew a neat picture; never did any of those things, nor ever will; or can it; without absurdity, be supposed to do them, which are yet works very gross and rude, and very easy and feasible, as it were, in comparison to the production of a flower or a tree.-Barrow.
