Willis Huffman Dies At Burket

Willis Huffman passed away at his home near Burket early Sunday morning. He had been in ill health for several years. Survivors include the widow and one daughter, Mrs. Geo. Tucker. Another daughter, Mrs. O. B. Deaton preceded him in death a few years ago.

Funeral services were held Tuesday afternoon at the United Brethren church in Burket. Burial was in the local cemetery.

MARRIED

Houck—Rush

Miss Ferne Rush, daughter of Mr. and Mrs. Fred Rush, and George Houck of Warsaw, were quietly united in marriage Saturday afternoon, April 29 at two o'clock. The ceremony was performed by Rev. John Jones, at his residence in Milford, Ind., with Mrs. Jones as the only witness. The bride was attired in a rose and grey ensemble. Following the ceremony the couple was entertained at the home of the bride's sister and brother-in-law, Mr. and Mrs. Dale Plew.

Mr. and Mrs. Houck are graduates of Mishawaka and Mentone high schools, respectively, and the former is now employed by Creighton Brothers. They are making their home on East Market St., Warsaw, Indiana.

BIRTHS

Hively

Mr. and Mrs. Joseph W. Hively of Burket are the parents of a son and one half pound baby daughter, born at their home on the Earl Grey farm Friday, April 28. The child has been named Shirley Jane.

Newell

Mr. and Mrs. Albert Newell are the parents of a baby son born at their home in Mentone Saturday night, April 29. The infant weighed nine and one quarter pounds and has been named Wayne Devon.

Mr. and Mrs. Wallace Craigmile of near Talma have purchased the Reno farm near Talma.

Enthusiastic Poultrymen Attend Egg Show Banquet

The Fourth Annual Mentone Egg Show came to a triumphant close Friday night. Five hundred poultrymen and their families filed into the Community Building for the banquet at 6:30 o'clock. At least two hundred and fifty more arrived later to enjoy the splendid address given by "Chick" Phillips of Chicago.

Tom Warrilow and his accompanist, Al Green led group singing, and after the banquet presented a number of vocal solos and impersonations. Mr. Warrilow, is the Lions Club song leader.

The Mentone high school band gave a splendid concert from 6:00 until 6:30 o'clock. The "Black Hawks", an instrumental quartet and the "Hoosierettes", a vocal trio, all of radio station WOWO entertained during the banquet.

Hobart Creighton, presiding as toastmaster, introduced a number of railroad men who were present, a group from the poultry division of Purdue university, several New York egg buyers, a representative from Prairie Farmer, and several other dignitaries.

Mr. Fred C. Beeson, chairman of the Fourth Annual Egg Show spoke a few words and introduced the various committees whose tireless efforts and cooperation made this Show possible.

"Chick" Phillips, sales manager for Allied Mills, Chicago, who is considered the first man of the poultry industry in the United States, delivered a splendid address to an appreciative audience. An interesting fact about Mr. Phillips' experience in the poultry business is that twenty-five years ago while at Purdue university, he published a book entitled "How To Set A Hen." This book contained all the available information concerning poultry raising at that time, and was quoted from and referred to by eminent poultry authorities. The book is a mute symbol of the progress we have made in the industry in the last twenty-five years.

Wednesday and Thursday nights a large crowd heard poultry authorities speak on subjects of vital interest to the farmers of this community. A lot

of information was given concerning the Worlds Poultry Congress to be held at Cleveland this summer. The Floyd Stevens quartet was unable to be present Wednesday evening as scheduled. Friday night the Semi-Solid Ramblers gave a very entertaining performance and the Doran Brothers were also on the program.

The list of premium winners appears on page 3 of this issue, together with other information concerning this years contest.

Hillbilly Wedding Progressing Rapidly

A HILLBILLY WEDDING will be presented on Tuesday and Wednesday evenings, May 9 and 10 at the Community building. The show is sponsored by Psi Iota Xi sorority and promises to be one of the outstanding comedy treats of the year.

The performance will bring the country people of this entire community together with the businessmen of Mentone on the same stage and in the same show. The old songs will predominate, old friends will be brought together, and new friends will be made. It is an old time barn-dance and show all rolled into one.

The plot of A HILLBILLY WEDDING concerns old Captain Henry of the Showboat Dixie Bell, who is coming home to be married after being away for thirty years. He is met at the levee by all of his friends with their fiddles, accordians, guitars and bass drums but at the last minute his bride.....but that would be telling.

Included in the cast are musicians, singers, dancers, black face comedians and last but by no means least a gorgeous wedding party made up of a host of our most prominent businessmen dressed in silks and satins, laces and frills; lipstick and mascara perfumes and powder puffs, as well as guitars and harmonicas will be much in evidence on the stage on the evenings that A HILLBILLY WEDDING is performed.

The cast is hard at work rehearsing nightly for the biggest show that has been staged locally in years.

To those who purchase tickets in advance, a special price is given. Advance tickets are being sold by all members of Psi Iota Xi sorority and at Mentzer's Store for twenty-five cents each, provided that they are purchased before noon on Tuesday, May 9. After that time and at the door, adult tickets will be thirty-five cents. Children's tickets are 10c in advance and 15c at the door.

Mr. and Mrs. P. A. Williams of Muncie, Ind, were Sunday guests at the home of Dr. and Mrs. Dan L. Urschel. Mrs. Urschel and two children returned to Muncie with them to spend a week.

Two Minute Sermon

By
Thomas Hastwell

A NEW PERSPECTIVE NEEDED:
When Paul left Jerusalem on that memorable journey to Damascus it was with a mind filled with vengeance and persecution against the Christians. He had lived many years among a sect of Jews whose hatred of the Christians was bitter and uncompromising and the atmosphere of whose presence permitted no other view. When Paul was struck down that day and blinded and his strong nature forced to depend upon others, he had time to think, time to think clearly in an atmosphere free from hatred and persecution and to see things in a different light.

So it is today. If we are going to discover the true values of life we have got to get away at times from the atmosphere of rush and hurry and superficial things that crowd our lives and think and get a new perspective as did Paul. It is necessary that we do this. Incidentally there is no better place than the church. Here, away from the pressing things of the workaday world, in an atmosphere of peace and quiet we can think, we can get a new perspective. We can make new resolves to put out of our lives the things that do not belong there and that will destroy our happiness, and, like Paul, set our hearts and faces toward a higher and more worthy plane of living.

A pocket-size device for testing concentrations of explosive gases has been developed.

A British inventor says he has invented a periscope which enables an observer to see in all directions without turning his head.

Egg Marks The Spot, Officer

Patrolman Harold Nickerson of the Detroit Police put his ticket book away when Betty Dane, Wayne University student, explained that her driving with an egg was only part of a sorority initiation stunt. She did it, too, without breaking the egg, by using a Chevrolet, in which vacuum from the motor supplies nearly all the power necessary in shifting gears with the new steering-column shift lever.

'Suwannee River' Facts

Sigmund Spaeth in the Etude says: "Old Folks at Home" is itself an example of the unnatural geography that has at times glorified Dixie, New Hampshire, California, Michigan and other places innumerable. Stephen Foster's original manuscript shows the name of the Pedee river, which obviously invited ridicule. His brother suggested Yazoo, which was even worse. Finally they took out a map of Florida, and a roving finger eventually stopped at the name of Suwannee. 'That's it,' cried Steve, 'that's it exactly,' and so the Suwannee river became immortal."

Nearsightedness

Nearsightedness is due to the eyeball being too long. People are born that way. In some cases it develops during youth and then comes to a standstill. This is simple or stationary myopia. Other cases are progressive up to the twenty-fifth or thirtieth year.

Gave Month's Warning

Particularly in these days it is refreshing to look back upon the ancient Florentines, who, so far from seeking to surprise their enemies, gave them a month's warning before they drew their army up against them, by the continued tolling of a bell, named by them Mortinella.

Cost of World War

The estimated money cost of the World war to the United States government to June 30, 1934, was \$41,765,000,000, as shown by the annual report of the secretary of the treasury for the fiscal year ending June 30, 1934. The treasury has not made any further revision in the estimated cost of the war since that date.

HOROSCOPE

MAY 2, 3—You often bring unhappiness to yourself by imagining you are not appreciated. You are an original thinker and possess much literary talent. You thrive under flattery, but fail to extend any to others. Transgressors come in for your scathing contempt. You are close mouthed and proceed in your own affairs in secrecy. You are often dissatisfied with home conditions.

MAY 4, 5, 6—You delight in assuming an air of mystery by intimating that you know a secret. You have a secret. You have a very vivid imagination, are a good dresser but careless when at home. Your artistic nature loves the beautiful, but you find it difficult to reach your ideals. You are kind and witty but are prone to be always antagonistic. You would make a good confidential secretary.

Fire Destroys Barn On Rush Poultry Farm

Fire of unknown origin destroyed a large barn on the Rush Poultry Farm early Thursday morning. Mr. Rush awakened about 3:30 o'clock and discovered his barn in flames. Upon further investigation he discovered that the garage, one brooder house, and the roof of his dwelling was also burning. Due to the intense heat several window panes had broken. The Burkett fire department was summoned and extinguished the flames on the house roof, as well as the garage and brooder house, before the Mentone fire department arrived. The barn was completely destroyed together with a Plymouth sedan, owned by Mr. Dale D. Plew. No live stock were destroyed, but their aged dog perished in the flames. The barn also contained a quantity of hay and straw, and a half ton

trailer. The loss was estimated at several hundred dollars. All property was covered by insurance.

Card Of Thanks

We wish to express our gratitude to both the Burkett and Mentone fire departments, for the alacrity with which they came to our aid early Thursday morning. Their assistance was greatly appreciated.

Anti-Feminine Tradition Given Trouncing by 500-Mile Champion

INDIANAPOLIS, Ind. — Floyd Roberts, the big nut and bolt man from Van Nuys California, dared the anti-feminine tradition of the track to win last year's 500-mile race at the Indianapolis Motor Speedway.

For years race drivers have shied away from women as far as their business operations were concerned. Women are barred from the garage section at Indianapolis and to drive a woman in a race car, so the drivers held, was certain hard luck of the "double-in-spades" kind.

But a cute little French movie actress, Olympe Bradna, on a per-

sonal appearance tour, stopped in Indianapolis early last April and visited the track the day Lou Moore and Roberts appeared with their Burd Special. Nothing would do but that Olympe should christen the new car. The starlet's press agent quickly produced a bottle of champagne to crack over the front axle. Olympe wired Roberts congratulations when he won the pole position with a speed of 125.681 miles per hour, and wired flowers when he won the competition. Roberts used to pound rivets in an airplane factory in California.

Agriculture Boys Inspect Eggs

Fifty-one members of Agriculture classes from Mentone, Akron, Beaver Dam, Piercetown, Elma Green, Claypool and Warsaw were in Mentone Friday judging the eggs at the Mentone Egg Show and at Swift & Co. buying station. County Agent, Joseph Clark was in charge of the boys' judging.

YOUR HOME SPEAKS FOR YOU

As the little things one does reveal his true nature and character, so do the furnishings of a home reveal the mind of the individual who plans the furnishing. It is a fine art that it well worth study. The best test of a well and properly furnished home, it seems to me, is not how much furniture does it have or how fine and costly it is but does it effect one who comes within it's four walls. Does it create the effect that it is overdone, that every article in the room is conspicuous and is shouting at the others, or does it create in one a sense that everything is necessary and that everything seems to belong there as an inconspicuous part of a perfect whole?

PROFITABLE CROP ROTATION LIES IN CAREFUL PLANNING

CHICAGO.—How to make crop rotation pay farmers more dividends in increased yields per acre and lowered production costs was explained by the Middle West Soil Improvement Committee.

"The key to successful rotation is careful planning," a report says. "If crop rotation had more definite beginnings and endings, farmers generally would do more planning at the start of a three, four or six year cycle, and they would be more likely to take stock of the results."

"In most rotation programs starting this spring corn will be the basic crop, largely because of the amazing production records of 'Hybrid' seed."

"In planning the rotation, the matter of fertilizer will be extremely important. Because of its high yield per acre, corn makes heavy demands on the plant food resources of the soil, particularly nitrogen."

"The only practical alternative to replenish the extra amounts of plant food removed from the soil is to use commercial fertilizer."

Helped Universalism

Hosea Ballou, one of the founders of Universalism, was born in New Hampshire in 1771. He was self-educated and was expelled from his father's church on declaring his belief in the final salvation of all men. He began to preach at 21 and became minister of the Second Universalist church in Boston in which he preached over 10,000 sermons, none of which was written before delivery. He died in 1852.

Rabbits Can Swim

Contrary to general belief, rabbits can and will swim . . . true enough most of them don't like to . . . and with the exception of the swamp rabbit they swim as little as possible . . . when they have to go into the water to elude pursuit, they usually give a tremendous leap to carry them as far out as possible . . . so they won't have to swim any more than is necessary, says the American Wildlife institute.

Grenades in War

Gunpowder filled grenades of wood were invented in the Sixteenth century and in the Seventeenth century special bands of grenadiers were formed for their use. Modern hand grenades were successfully used by the Japanese against Russia in 1904, and various forms, many made from old tins, were introduced at the outbreak of the World war.

Chows Good Sted Dogs

Natives of northern China, born and reared to draw sledges over frozen wastes, the chow's steadfast, purposeful eye is indicative of their inbred ability to keep their gaze on the trail and their minds on the destination ahead. They have an amazing instinct to find their way through a country that is entirely new to them, and if they become separated from their masters in a crowd, they do not become confused as many dogs do, running this way and that, but very calmly and confidently thread their way through the throng until they find the man for whom they are looking.

The Name George

The name George is from the Greek, and means "farmer or husbandman"—literally, "tiller of the soil." Although St. George is England's patron saint that name was uncommon in English before 1700. Since then it has been borne by six British monarchs, and has become one of the most popular names in England and America.

So Says Hi Ho

"Some men," said Hi Ho, the sage of Chinatown, "are so dishonest, that if they were paid for breathing they would choke to death trying to cheat."

Cemetery of Pigeons

Tourists who have seen in Washington the famous carrier pigeon Cher Ami that saved the American Lost Battalion in the war, often visit the little cemetery at Asnieres by Paris where tiny graves honor many more of these winged veterans.

JESSIE RUSH, Editor and Mgr.

Most people say they have no use for the flatterer and back slapper, but the man who neglects to do considerable of both has a hard row to hoe in the world today.

The hardest fight for existence today is being put up by those individuals whose pride won't permit them to accept relief. They have the admiration of the entire community too.

No employer is popular with a lazy and indifferent workman.

It is a strange parent that permits his child to run wild, do as he pleases 98 per cent of the time and expect him to obey him the other 2 per cent of the time. Human nature doesn't work that way. Discipline is not a thing to put on and take off as a coat. It has to be worn all the time or it isn't worn at all.

According to Dr. Townsend of the \$200 a month pension fame, "Frugality ought to be an obsolete word in our vocabulary."

There are still a few old timers left in Mentone who can remember when the ambition of every worth while person used to be to become independent of everyone's help.

The number of children taking piano lessons is on the increase. Because of this a marked increase in piano sales is predicted for 1939.

It is claimed that tea testers, by reason of the fact that they inhale the aromatic fumes of tea, rarely catch cold.

You know, there's very little reason for us to worry about growing old—everyone about us is doing the same thing.

About the most uninteresting person imaginable to talk to is the fellow who has never lost any money on a bet, who has never made a poor investment, and whose judgment has never been in error.

Strange isn't it, how people crowd into the back seats at church, yet, when some cheap trinket is to be given away free at a store they trample each other in an effort to be in the front row.

There are those who are SO very polite to whomever they chance to meet. But put them behind a steering wheel and you'd think they owned the street.

Higher education got a boost last week when a gold fish swallowing contest among college students swept the country. One student established a record by swallowing a cup of water, containing several thousand freshly hatched gold fish. Another swallowed fifty live wriggling minnows. It is significant to note in this connection that no boy whose education ended with the eighth grade was ever heard to indulge in such disgusting practices.

Up-to-date colleges in the future will, no doubt, include among the accomplishments necessary for a student to earn a letter, proficiency in swallowing marine life.

Don't Miss The Big Show Tuesday Night

Advance sale of tickets for the Psi Iota Xi show, A HILLBILLY WEDDING, indicates a full house for the opening performance on Tuesday evening at the Mentone community building.

The curtain is all set to rise on the most hilarious program ever staged locally. New specialty acts have been added daily since rehearsals began. The name of the bride in the cast is still kept a state secret but it is definitely stated that "she" stands 'feet one inch high in her bare

In the play she is known as Liz Zilch and all of her old friends are bound to be on deck for her wedding.

In addition to the bride and groom and all of their hillbilly and barn-dance neighbors, there will be the dignified bridal party. There will be flower "girls", the brides maids, a ring bearer and a train bearer and all the fixin's. We peaked in at rehearsal the other night and lo and behold there was Rev. DeWitt and Dale Kelley, both trying to help each other get into some sort of a iluffy something or other. Over on the other side of the stage was C. O. Eiler who looked like he was rehearsing a toe dance and then we discovered that he was trying to get used to his French high heels. The director was trying to hook up the evening gown of what appeared from the back to be a stunning blonde, but when we looked closer we found it to be none other than Donald James Smith.

There were dozens of other members of the cast there as well but you will see them at the show. At the rehearsal we heard "Comin' and The Mountain" sung as never before, then "Old Grey Bonnet" and "Me Call You Sweetheart" and "Last Round Up." Talk about variety, this show is going to have everything or we miss our guess.

The advance tickets are 25c and you still have time to get yours. Prices at the door will be 35c for adults and 15c for youngsters.

Miss Frances Clark is confined to her home in Mentone by illness.

White City Duplicates Last Year's Winnings

The White City Egg Farm walked off with the same trophies that they won in the 1938 Egg & Chick Show at Purdue university last week. The prizes were Best Market Eggs, Best Breeder's Display, Best Leghorn Chicks. These baby chicks took the Sweepstakes prize also. In addition, White City won first place in a new class that was added this year, namely, Best Four Entries of Chicks.

The four silver cups won by the White City Egg Farm are on display in the window of the Big Drug Store on the corner. The Purdue Egg & Chick show is reputed to be the largest show of its kind in the United States. The 1939 Show was the largest Show ever held at Purdue.

OLDEST MENTONE RESIDENT DIES

Mahala Meredith, aged 92 years, passed away at her home in Mentone at 10 o'clock Wednesday morning. Death was due to a paralytic stroke which she suffered several days previous. Mrs. Meredith was our oldest citizen and had resided here for twenty-five years.

The deceased was born in New-castle township, Fulton county, January 3, 1847, the daughter of Caleb and Elizabeth Montgomery Meredith. In 1866 she was united in marriage to James Meredith, who preceded her in death in 1914. Mrs. Meredith was the last of a family of ten children. She was a member of the Mentone Church of Christ.

Survivors include one son, Silas Meredith of Mentone, two daughters, Miss Stella Meredith of Mentone and Mrs. Ethel Adamson of Talma, five grandchildren, four great grandchildren, and one nephew, Omer Montgomery of Talma.

Funeral services were held Friday afternoon at two o'clock at the Mentone Church of Christ with Rev. C. G. Vincent officiating. Burial was in the Mentone cemetery.

SO. BEND STEEL RANGERS TO PLAY TALMA BOOSTERS

A large crowd of base ball fans are expected to attend the opening of the Boosters base ball season at Talma on Sunday, May 14th at 2:30 o'clock when the strong Steel Rangers will meet the Talma Boosters, the Fulton County Champs. This marks the opening of the season for Talma. The Talma team has fifteen players this season. Ed Creighbaum will be seen in the Talma line-up again this season as well as other new players. It looks as if the Talma team will be one of the strongest teams in this section.

The South Bend Steel Rangers are a very fast team and they expect to give the Booster fans a very fast game. Frank Souther is the Booster's manager.

Two Minute Sermon

By Thomas Hastwell

HEARTS COURAGEOUS: When Paul, brought face to face with the error of his way that day on the Damascus road, turned forthwith to Christ, he revealed, I think, one of the cardinal virtues of his remarkable character—the courage of his convictions. He turned his back upon his associates and sacrificed all the ties of friendship and social contact, dear to every man, and set his face resolutely toward a new life.

What resolution, what challenging courage of conviction. What a lesson and example to many today, who, knowing they are wrong, still lack the courage to cast off the ties that bind them to their old lives, put the past definitely behind them, and set out resolutely on the high road of a new and better life.

Difficult? Of course it is difficult, but the example of Paul is a constant inspiration to those who at such times need a human example to mark the way for better, more purposeful, and more effective living. We need today, more than ever before, men like Paul with the simple courage of their honest convictions and the will to stand by them.

Methodists Welcome Rev. E. E. DeWitt

About seventy-five members of the Methodist church attended a co-operative dinner at the Church basement Tuesday night in honor of the return of their pastor, Rev. E. E. DeWitt. Rev. DeWitt has been placed here for the ensuing year.

The dinner was also a farewell for Mr. and Mrs. Paul H. Smith, who are leaving Mentone and making their home in Wawaka, Ind. Mr. Smith has been called preach at the Wawaka Methodist church.

Mr. Richard Greulich presided as master of ceremonies. Rev. DeWitt expressed his pleasure at having been returned to the Mentone church. The congregation presented a valuable bible to Mr. Smith in appreciation for the work he did here last summer. The Boy Scouts presented him with a flashlight. Mr. Smith has been Scout master for several years. The group spent a very enjoyable social evening together.

HOROSCOPE

MAY 8, 9—Your opinion of yourself is always good and you do possess some splendid traits. You are affectionate, fond of pleasure and publicity but sometimes difficult to please. You are agreeable and polite and are always on the alert for your own interests. You view situations cautiously before making a move and if you err are deeply humiliated.

MAY 10-11—You are a nature lover and enjoy flower culture and gardening. Your greatest handicap is a sarcastic and often irritable nature. You should look for the good in everyone. You have a keen mind and delight in keeping abreast of the times. You love ease, revel in beauty and artistic environments and are an agreeable and interesting talker.

MAY 12, 13, 14—Your alert, analytic mind absorbs learning when you make a part of your life plan. Sensitiveness makes you susceptible to the opinion of others. Forget it. You are fond of travel and while doing this are very observing. You are quick to see the good points of situations and would make good in the legal profession, and have the capacity of a successful teacher.

Fourth "500" Win Aim Of "Flying Dutchman"

INDIANAPOLIS, Ind.—The "Flying Dutchman" is after his fourth win at the Indianapolis Motor Speedway.

Louis Meyer, probably the greatest American race driver—certainly on the record—is again a threat in the annual 500-mile automobile competition here on May 30.

Meyer will be piloting what practically amounts to a new car. It is the same Bowes Special which he built up for last year's race but which he hardly had time to prepare for the event. With a year's more work under the hood it should arrive at the track as one of the most formidable challengers for a slice of the \$100,000 in prize money.

Meyer, one of the most consistent drivers of all times, is also an expert mechanic and prepares his own car for the race—an added advantage.

A local woman who has a son in college was seen taking her goldfish over to the neighbors when she received word that her son was coming home to spend the week-end.

Strange isn't it that there are thousands of instances in which a father and a mother are supporting, feeding, clothing and educating four or five children, but when it comes to four or five children supporting a father or a mother they have to call upon the relief agencies to take the job off their hands.

We always feel like pinning a medal on the person who, when a bit of dubious gossip is related in the group, promptly says: "I don't believe it."

"I never knew how good baked beans and soup could be," a woman reader of the Co-Op News said in this office this morning. "until I heard my radio extolling their merits. I wonder what a man who could talk that way about baked beans and canned soup could do when it came to describing a steak."

It is easy to tell how the present age lives by visiting the city dumping ground. Most of the refuse consists of empty cans and old cars.

Find the man who is the eager purveyor of all the gossip that comes his way and you will find a man about whom considerable gossiping could be legitimately done.

Back yard farming, is said to be on the increase as the result of the shorter week. Some one has estimated that back yard gardens produce in the neighborhood of \$562,500,000 worth of food annually.

We saw a man digging in his garden with a spade yesterday. He did not go about it s though it were a task he dreaded but rather he appeared to enjoy it. He seemed to enjoy each spadeful of the soft, moist, dark earth he turned over as he watched it crumble in its mellowness and watched with interest the various forms of life that scurried from sight and buried themselves in the cool depths of their dark world.

When Tammany, the eight-year-old cat and pet of Tammany Hall, New York became ill of uremic poisoning and died in a hospital, over 1000 telephone calls were received inquir-

ing as to his condition. Adopted by Jimmy Walker, Tammany served under four New York mayors.

Persons who have given the matter considerable study and kept careful records claim that it is not possible to drive an automobile a thousand miles a month for \$30 a month. These figures assume that the car is new and include interest, depreciation, taxes, insurance, gas and oil.

There are two things we can't describe, and know it; one of them is a sunset and the other is the new style in women's hats.

THREE-MAN TEAM AGAINST FIELD PLANNED BY JOE THORNE FOR INDIANAPOLIS "500"

INDIANAPOLIS, Ind.—There will be fireworks on Decoration Day at the Indianapolis Motor Speedway if Joe Thorne, millionaire car owner and driver has his way.

The lanky sportsman, who sent twin cars out to lead the race for 375 miles last year, now has the two "hottest" boys in town on his two

supercharged space eaters.

Jimmy Snyder, the smiling milkman from Chicago will get his old mount and the veteran youngster Rex Mays will be aboard the twin. Thorne himself will drive the comet-car with which Snyder set a new lap record of 130.492 miles per hour in 1937.

Thorne will aim all three cars at the front row and play a fast three-man team against the field, probably sending Snyder out front to set the pace, holding an intermediate position himself and leaving Mays, the California flash, in a third position to enable him to come through to the front in the waning stages of the hot competition.

Things To Watch For

Paper plates with metal edges for baking pies, said to do the job 15 per cent faster than will the time-honored pie tin.

A new artificial bait which looks like a fish swallowing a smaller fish with plenty of hooks for the real fish to bite on.

A combination comb and nail file with the file partially embedded in the back of the comb.

A mail box hooked up with the door bell in such a way that a distinctive signal is given when mail is deposited.

A new seedless pear with only a trace of a core. In color, size and flavor it is said to resemble a Bartlett pear.

A new folding charcoal grill for camping and picnics which has an ash and spark compartment.

Dear Publishers of the Fictitious:

I read with interest the item relative to me in your issue of May 10th. All items published by you are as incorrect as that, then the Mentone public is certainly being deluded.

I am not a subscriber to the Co-Op. I was a subscriber, but when you changed your subscription charges from two bits (25c) U. S. coin to one dozen Kosciusko county hen fruit, I was forced to drop my subscription as my hens positively refused to work and have their labor wasted in that manner.

I receive the Co-Op weekly and weekly, however it surely was an enemy of mine that had this paper sent to me. I am an enemy lower and more vicious than one who would poison a dog. Further they must have money to waste, for I consider 25c spent per year for a paper of this worth as a greater waste than to spend the same for one drink of good whiskey or two bottles of the product that made Milwaukee famous.

Will further state that for several years I have been a patron of the Brinsberger Lumber Co. I presume your item relative to me was formulated from that fact. I never did and do not now enjoy seeing my name in print, however you have my permit to print this over my signature, providing you do so in its entirety.

FORMER MENTONE RESIDENT DIES

Mrs. Alvi Rockhill, aged 68, mother of Atty Morrison Rockhill, passed away at the McDonald hospital in Warsaw at 3:30 o'clock Saturday morning, May 13. Death followed an illness of three weeks duration.

She was born in Harrison township November 29, 1870, the daughter of John Major Morrison and Barbara Morrison. She was a resident of Mentone for many years.

Early in life she was united in marriage to Alvi T. Rockhill, deceased. The couple supervised the Kosciusko County Home for twenty years. She was a member of the Eastern Star Lodge, D. A. R., and at the time of her death, a housekeeper at the McDonald hospital.

Survivors include one son, Morrison Rockhill; one brother, Omer Morrison, and a few other relatives.

Funeral services were held Sunday afternoon at the Warsaw Methodist church of which the deceased was a member. Rev. Frank Dougherty officiated and interment was made in Mentone cemetery.

Mrs. James Turner Injured In Fall

Residents in Mentone were shocked Thursday morning to learn that their friend and neighbor, Tillie Turner, had fallen in her home at 3:30 o'clock Wednesday afternoon, fracturing her hip, and remaining in that uncomfortable position until 8:00 o'clock the next morning. Her plight was discovered by Lewis Blue, son of Mr. and Mrs. Ralph Blue, whom she had engaged to work for her that day. Neighbors were unable to hear her calls for help at the time of the accident.

Dr. Urschel was summoned, and the injured lady was removed in the Reed ambulance to the McDonald hospital in Warsaw.

I wish to thank all my friends who remembered me with cards and greetings on my birthday last Friday. Their thoughtfulness was greatly appreciated.

MR. DAVID HOLLOWAY

HOROSCOPE

MAY 15—You are proud of your personal accomplishments and your main objective seems to be your own benefit. You are prone to a narrow, limited outlook. You have excellent judgment and friends seek your advice. You are a leader in your set and if a woman generally set the fashions. If a man you are a helpful friend and associate.

MAY 16, 17, 18, 19—Your home is popular in your community, you enjoy entertaining and friends and groups like to come there. You resent being pushed aside and often show bitterness. You should learn to take defeat in a cheerful manner. You are venturesome in business but otherwise are prone to be backward.

MAY 20, 21—Music and art would be profitable lines for you to follow. A fiery disposition at times makes you unstable. You are not to be depended upon in friendships but show great loyalty to your home and family. You make decisions deliberately, have a violent temper and quick to notice neglect. Under favorable conditions you are a pleasing and helpful neighbor. A lack of convention often causes you to shock your conservative friends.

SUMMER TONETTE CLASSES TO MEET THURSDAY

The Summer Tonette classes will meet Thursday, May 18, at the Mentone school house at 1:45 and 2:30 o'clock p. m. Students may choose either class for the first meeting. In the future Mr. Bowers will divide the classes properly.

Grade students who have not previously enrolled, may do so at that time.

Two Minute Sermon By

Thomas Hastwell

THE SECRET OF HAPPINESS AND CONTENT: One of the most difficult of all lessons for many to learn is the lesson of complete dependence and trust in God. To many it is not easy to realize and feel that God is interested and does have a concern for mortals and does have a plan for those who entrust their lives to Him—a plan that ultimately works out for their greatest happiness and content.

We are prone to take too short a view of things. We are prone to concern ourselves without stopping to think to what it might lead or what its outcome might be. We fail to see that the fact that we are thwarted in many of our desires is often for our own ultimate best interest and good.

All through the scriptures, in secular history, and even in our own lives we see evidence that thwarted human plans have often turned out for the best and what appeared to be disappointment and defeat was a blessing in disguise. The realization of this, the faith that God has a plan for mortals and the willingness to be used in it is an infallible formula for human happiness.

Gifted Insects

Seven thousand types of insects creep, fly and jump over the country. Tiny as they are, they possess amazing cunning, acute senses and effective natural weapons, which combine to slay their enemies. For instance, the praying mantis has keen hearing that detects victims afar off. The beetle is gifted with a pincer mouth that pierces and crushes.

Lead Throughout Contest Ambition Of Ex-Milkman in Indianapolis "500"

INDIANAPOLIS, Ind. — The ex-milkman plans to go the route in the 500-mile race at the Indianapolis Motor Speedway on May 30.

Jimmy Snyder, the fastest lap man at Indianapolis, who left a milk wagon to drive a racing automobile and operate a Chicago tavern between races, hopes to hold the lead for the entire distance this Decoration Day. Jimmy led the race with an amazing pace of 120 miles per

hour for 375 miles last year but was forced out with supercharger trouble.

In 1937 Snyder not only grabbed the pole position with a fast qualifying speed of 125.287 miles per hour but in the cool of one qualifying evening barrelled about the 2½-mile course at a record-smashing average of 130.492 miles per hour.

He will again drive for Joe Thorne, millionaire car owner and driver.

First Mail System

A Parisian served Paris and her suburbs with mail long before governments went into the post office business. In the year 1653 one M. de Villayer put up boxes in the busiest streets of Paris and ornamental wrappers bearing his coat of arms for sale in stores. All one had to do was to buy a wrapper in a store just like a stamp today, put it loosely around his letter and deposit in one of the marked Villayer boxes. Collections were made twice daily, brought to a central headquarters and then distributed, the wrappers being taken off and used again.

There is a monument in southern France erected to the chrysanthemum by the Toulouse Horticultural society. It is in the form of a pillar and stands in the Toulouse plant garden, surrounded by chrysanthemums.

Quakes Start Miles Down

Most earthquakes originate from 15 to 100 miles below the earth's surface.

Selling Short

To sell short on the stock exchange is to sell securities expecting to repurchase them at a lower price. The seller is "short" as he lacks what he has sold. All sales at the stock exchange are practically spot cash, delivery being required within 24 hours (with rare exceptions), so those short must purchase what they have sold (to deliver next day) or failing to do so must borrow the necessary securities to deliver, which loan they expect ultimately to repay by purchasing securities at a lower price. In other words, it amounts to speculating for a decline in prices.

Destructive Hawks

Hawks that are considered more or less destructive include the goshawk, with a wingspread of 40 to 42 inches; color dark blue or dull brown. The Cooper's hawk, wingspread 27 to 36 inches, color dull brown or blue gray, streaked or barred; the Sharp-shinned hawk, wingspread 20 to 27 inches, color similar to the Cooper's hawk.

Dogwood in Mythology

Greek mythology contains legends of dogwood and tries to explain the reason for the odd type of growth.

Albert Eherenman Struck By Train

Albert Eherenman, aged 86, died in the Holy Family hospital, LaPorte, Ind., Wednesday afternoon at 2:35 o'clock, less than an hour after he had been struck by a fast passenger train at a city street crossing. The accident occurred when the elderly gentlemen stepped from behind a passing engine, directly into the path of the fast train.

Mr. Eherenman was born five miles southwest of Warsaw, in 1853, the son of John and Kathryn Eherenman. He later moved to a farm west of Mentone where he resided for many years. He was united in marriage to Elmera Bybee.

Surviving relatives include the widow, Almera Eherenman of Fort Wayne; three children, Mrs. Bertha Doty of Fort Wayne, Lloyd Eherenman of Plymouth and Adam Eherenman of Laporte, with whom the deceased had made his home for the past year and one half; and one sister, Mrs. Clara Ferguson of Callahan, Cal.

Funeral services were held Friday afternoon at 2:00 o'clock at the Mentone Baptist church, of which the deceased was a member. Rev. Squibb of Morocco, Ind., officiated. Burial was in the Mentone cemetery.

Petillo Rated Bright Hope in Classic Test

INDIANAPOLIS, Ind. — Kelly is hot this year!

That's the word that comes from the famous "ridge route" in sunny California that sets hearts in the Italian colony palpitating and means that Kelly Petillo, colorful little Italian who won the 1935 classic at the Indianapolis Motor Speedway is about ready to give a new motor a terrific beating in preparation for the annual 500-mile race on May 30.

"He drives his car at least 20 miles faster than it will run," the old timers say of Petillo who is the hardest, toughest driver to race at the famous Hoosier oval in many a day.

Asking no quarter and generally getting none, the cocky little Italian fills the stands when he is ready to qualify and is always considered "hot" and ready to win the big event.

He will arrive early with a new motor in his well-tried racing car.

**Nears 50-Year Mark But
Still Seeks "500" Win**

INDIANAPOLIS, Ind. — When prize-fighting got too tough Ira Hall, of the Terre Haute "sheriff aspirants" took up automobile racing and broke everything but his funny bone.

After ten years of competition in the big circuit, Hall, 47 years old but still packing a heavy foot, will be back in the annual 500-mile race at the Indianapolis Motor Speedway on May 30.

Hall used to trade punches with Packy McFarland in the old days but found the going too tough and went in for dirt-track driving at the Indiana fairs. He came to the "big top" at Indianapolis in 1928 and has been a consistent contender ever since although a seventh place in 1932 was his best finish. It was the only time he finished in the money — among the first ten.

However, he is the proud possessor of one of the coveted "sportsmanship awards" obtained in 1928 when his car crashed into the upper wall in the first turn and Hall pinned it to the upper concrete with his back for some 30 minutes to prevent it from rolling down into the fast-moving traffic. He will drive for Carl Magnee and Ted Nowiak.

**TALMA BOOSTERS TO PLAY
SOUTH BEND COLORED GIANTS**

A very important game in the Talma Boosters ball club for the 1939 season schedule will be staged on the Boosters diamond at Talma Sunday, May 21, with the South Bend Colored Giants. The Giants have already won several games this season and are rated as tops in Northern Indiana Semi-Pro teams. Barkman and Creighbaum will take turns on the pitching mound and Lyons will do the catching. The game starts promptly at 2:00 o'clock.

JESSIE RUSH, Editor and Mgr.

The average committee is the world's greatest time waster. It usually requires a committee from three to ten times as long to accomplish a task as it does one person.

A local girl was complaining to a girl friend yesterday that her boy friend did not talk. "Heavens, you don't know how lucky you are", she said to her troubled friend. "Think of me, I have to sit by the hour and listen to my boy friend rave about himself and act as though I was spell bound. If he didn't have the best car in our crowd I wouldn't put up with it a minute. Give me the silent kind any time. I've got a lot of talking to do that it looks like I might never get done."

One of the easiest, quickest and surest ways to make this world a better place in which to live is to clean up your yard, paint the house, quit arguing with your neighbors and quarreling with your wife.

May Robson, the motion picture actress, recently reached her 75th birthday. Though often called upon to play the part of a drunken old woman, Miss Robson never drinks liquor. She is a native of Australia.

A Fortune magazine survey estimates that 25 per cent of American families expect to attend the New York World's Fair this year. It is also estimated that these visitors will spend a total of \$10,000,000,000 or one-fourth of the national debt.

If every individual or nation contemplating rushing into war would first sit down and count the cost—all the cost—there would not be many wars.

On both sides there are always debts to be paid that cannot be measured in material values. Debts that represent perhaps the more serious costs of the war both to victor and vanquished.

We are a material minded people and perhaps it might bring the matter home more clearly if the cost of the war could be pictured in things—material possessions rather than in unbalanced budgets, bankrupted morals and morality, human heart-break and human values.

The cost of war and its preparation, and war budgets that are now

being passed one after the other by this and other countries, would, if they were devoted to constructive and useful things, transform the world for everyone with beauty and culture such as the world has never known before.

We could put a modern hospital equipped with every known facility, and endowed with ample finance in every county in every state in this country. We could build libraries, parks, recreational centers, the like of which we only dream today that would be at the disposal of all. We could wipe out poverty, we could bring knowledge of the intelligent way of living to all of those who now live and die without ever having known it. We could rid our cities of their slums and bring to underprivileged children the just rights and privileges of all American citizens. We could lift a great burden of debt that hangs like a millstone about the neck of this nation.

It is said that the man who designed the emblem of a ball and a tall slim pyramid or cone for the New York World's Fair got his idea from a cue and billiard ball, but to date no one has revealed from what source the idea was received that resulted in the new styles of women's spring hats.

Mosaic of Many Pieces

The mosaic in the Shrine of the Immaculate Conception in Washington, D. C., is made of 35,000 pieces of colored enamel backed by a single slab of Roman travertine marble. Five craftsmen in mosaic spent as many years upon this piece, which was the gift of Pope Benedict and Pope Pius XI. The mosaic left Rome May 17, 1930, and arrived in Washington on June 17, 1930. It was installed almost immediately.

BIRTHS

Fear

Mr. and Mrs. Thurl Fear are the parents of a baby daughter, born at their home Friday night, May 12. The infant weighed seven pounds and has been named Ruth Bell.

Birthday Party

Friends of Mrs. Jane Bruner gathered at her home Sunday in honor of her 84th birthday. A cooperative dinner was enjoyed by Mr. and Mrs. Bartholomew of Waterloo, Mrs. F. of Rochester, Mrs. Lulu Graif of Lafayette, Mr. and Mrs. Hugh of Detroit, Mr. and Mrs. Boice of Hill and son John of South Bend, Mr. and Mrs. Lester Bruner and son of Burket, John Bruner of Covington, Kentucky, Mr. and Mrs. Earl Bruner Sr., and Mr. and Mrs. Earl Bruner Jr. Phyllis Bowser, Mr. and Mrs. Arch Fanks of Silverlake, and Mr. and Mrs. James Timberman of Silver Lake.

Afternoon callers were Mr. and Mrs. David Bruner, and Mrs. Hobart Newell.

Hickory Heavy Wood

Hickory is one of the heaviest of northern common woods, a dry cubic foot weighing 52 1/2 pounds. The earliest American settlers discovered its advantages when shaped into tool handles, advantages of strength and elasticity under strain. Second growth hickory, which means that the tree has emerged from the stump of an older, faster growing tree, is in demand because its fiber is more compact and close-grained. Hickory decays quickly in heat and moisture and warps easily unless carefully seasoned in open air.

Sahara Once Fertile

The vast barren Sahara was once a fertile stretch of green vegetation and only 2,000 years ago was called the "Granary of Rome." Intense cultivation turned it into a desert and the same thing is taking place on the western plains of America. The Sahara is still spreading at an alarming rate.

Two Minute Sermon

By
Thomas Hastwell

TO WHOM SHALL WE GO: One day following one of the occasions on which Christ fed a multitude by the sea shore he sought to use the occasion of feeding the multitude with material food to teach them the necessity of spiritual food and its greater importance. One by one his listeners slipped away from him until there remained but his twelve disciples. Turning to them with what must have been crushing sadness and disappointment Christ said: "Will ye also go away?" Then, as the text puts it, Simon Peter answered him and said: "Lord, to whom shall we go?"

How many times the past six years when human plans and human organizations and human aspirations have been upset have many, as they have seen the fruits of a life time swept away from them, said in their despair and bewilderment, "Lord, to whom shall we go?" This perhaps is the lesson that the depression has taught many—the futility of placing one's faith in material things. When faith is placed in material things, and material things fail, one has nothing, but when faith is placed in God, He never fails, regardless of the depressions or misfortunes that a changing world always brings.

**He'll Take the Gold
But Glory Is His Goal**

INDIANAPOLIS, Ind. — Indianapolis Speedway's 2½-mile racing strip has been a glory trail instead of a road to gold for many drivers in the 500-mile classic and such it is for lanky Joe Thorne. This 24-year-old millionaire from Tucson and New Rochelle is grooming three cars for the May 30th race and plans to pilot one of them himself. Last year he finished ninth, having been flagged after completing 185 of the scheduled 200 laps. Thorne's personal fortune began with the Union Pacific railways in which his grandfather was a power. It was augmented by his father, an astute New York banker. Joe needs Indianapolis Speedway prize money about as much as he needs another left foot but no driver will make a more determined bid for it than this six-foot-three hell driver.

Tiny Eel a Delicacy

In the waters off northeastern Spain the Basque fishermen place oil lamps along the quays to attract the tiny, white, two-inch eel which frequents this corner of the Bay of Biscay. They are able to scoop them up by the thousand. When fried in oil this eel is considered a delicacy.

Salt Superstition

The superstition that it is unlucky to spill salt, like most superstitions, goes back a very long way, when salt was regarded as a symbol of purity, and was placed on the heads of victims destined for sacrifice. It was regarded as a sign of ill-luck to spill the salt from this place. At least, so the legend runs. Nowadays, we avert the evil influence by the speller throwing a pinch of salt over the left shoulder.

THE NORTHERN INDIANA CO-OP. NEWS

Published Every Wednesday by
Northern Indiana Co-Operative
Association.

JESSIE RUSH, Editor and Mgr.

In the old days when people came to town to buy their week's supplies they went to the store, perhaps the only one in town, and purchased a quantity of necessities and staple items. The village merchant carried a small assortment of merchandise, got long profits, and confined his stock to staple items.

With the coming of other stores competition came. With competition came lower prices and a division of the business among several stores. A merchant could no longer sit and wait for business to come, because it had nowhere else to go. He had to encourage it to come to his store by offering a more attractive, modern line, more attractive prices, more modern merchandising methods, and by advertising.

In the old days a customer did not come to a store until he wanted to buy something, but today, through the medium of advertising, customers are sold merchandise before they have seen it, before they enter the store.

Not only this but through the medium of advertising, desire for new and better merchandise is created, and a larger market and volume is possible than was possible before advertising came to be employed in the merchandising field.

Advertising, well written advertising, has become an inseparable part of merchandising today. The public has been trained to buy through the advertisements, and it is through them only that profitable volume can be built. Judicious, well written advertising, backed by good merchandise and modern merchandising, will bring the business to the counters of any store. The business building possibilities of advertising are no longer an experiment. They have been proven many times and the most successful businesses in this country today, without exception, attribute their success to advertising.

The next time you feel like complaining about your taxes, especially the tax on your automobile, just think of the citizen of England who is called upon to lay down a tax of \$185 on a Ford car. A tax like that in this country would make walking popular.

The merchants and businessmen of

a town determine, to a great degree, what kind of a town the town is. If the merchants are behind the times, if they do not keep their stores up to date, if modern merchandising methods are not used and show windows are indifferently trimmed, the town takes on just that air. If on the other hand the town has live, up to date merchants, who take pride in the appearance of their stores, adopt modern merchandising methods and modern business methods, it will be reflected in the whole atmosphere of the town. The merchants and business men of a town can make it the thriving trade center of the territory, or a sleepy, decadent village.

In England the homes that have refrigeration of any kind are rare. Many public places cool their bottled drinks by putting the bottles in cold water. Even beer and ale is drunk warm in most of the public houses.

The Mohawk Carpet Company formerly put out a line of rugs called the Dictator. Due to the objection on the part of the buying public to the name, it was changed to Liberty.

Did you know that 15 of the 31 presidents served in the United States army before becoming president?

Everyone has something interesting and unusual about him if one can but discover it. For instance there is the Kentucky Congressman who says he never learned how to chew tobacco until he was nearly six years old.

HOROSCOPE

MAY 22, 23, 24—You have a tendency to waste your natural talents by scatterbrained carelessness. You are unhappy in an environment of poverty. A false pride makes you unwilling to receive assistance graciously or accept favors most kindly extended. A dual nature, kindly one day and cold and haughty the next, keeps your friends guessing about you. You could excel in music and science by concentration. You are strong in holding always for better things.

MAY 25, 26, 27—One of your great faults is lack of firmness. You have a lot of conceit and self-sufficiency which often gets you into trouble. You are easily led. You readily observe faults in others which you fail to recognize in yourself. You are light hearted and sympathetic and need love, which you must gain by showing yourself loving.

APPENDICTOMY

Mrs. John McSherry of Albany, Ind., underwent an appendectomy at Murphy Hospital Sunday morning.

DID YOU KNOW

Summer will soon be upon us and many a home may be unprepared to resist the swarms of flies that are bred in Mentone. These pests have brought more annoyance and illness to the human race than any other insect with the possible exception of the mosquito.

Flies breed in filth. As a result they drag their hairy legs through all sorts of infected offal which may be transported to the kitchen where their very touch brings contamination. A single specimen has been known to carry on its body as many as six million organisms with about five times as many in its alimentary tract. Thus it is that microbes capable of causing dysentery, colitis, and other types of intestinal disorders may become mixed with our edibles.

As a citizen of Mentone, would you like to see less flies in our town?

ATTENDS GRAND LODGE

Elmore Fenstermaker represented the Mentone F. & A. M. Lodge at Indianapolis Tuesday and Wednesday of last week. Grand Lodge was held at the Masonic Temple.

Card Of Thanks

We wish to express our sincere appreciation for the kindness and sympathy shown by our neighbors and friends in the death of our mother and grandmother.

MR. and MRS. VERN BLUE
MR. and MRS. A. O. MILLER
And JOHN AUSTIN.

Blessings on thee, Little Man,
Barefoot Boy, with cheeks of tan!
With thy turned up pantaloons
And thy merry whistled tunes;
With thy red lips, redder still --
Kissed by strawberries on the hill;
With the sunshine on thy face,
Through thy torn brim's jaunty grace;
From my heart I give thee joy
I was once a barefooted boy!

Of what does the above stanza taken from Whittier's poem remind you? Doesn't it bring back memories of your carefree childhood, of bright, warm summer days in June, of luscious, ripe, red strawberries?

Mother Nature gives most of us a long, long time to enjoy our memories of June days and strawberries. But, alas! such a short time each year to enjoy the delights of the strawberries themselves. But wait! The picture is not so gloomy and hopeless as all this. Old Mother Nature in this particular case has taken a beating.

Scientists, Refrigeration Engineers, Food Experts and others have, through years of experimentation been able, not necessarily to keep our memories fresh of June Days and strawberries, but they have made it possible for us to have fresh, delicious berries every month in the year. Quick freezing was the answer combined with proper storage temperatures.

The Mentone Frozen Locker Co., has the latest most efficient equipment installed by Frigidaire, to perform this miracle for you, that is, to give you a supply of fresh fruits and vegetables the entire year.

It is also possible to have fresh, icy cold, meats through the hot summer months of your own raising and of the quality you wish at a very substantial saving.

DON'T FORGET: When your broilers have grown to the most desirable size, to place some in your locker for consumption the remainder of the year.

FLY BY

WHENEVER Jeff Peters, the en gaging hero in the book of C Henry stories called "The Gent Grafter," went into a new town spread his samples of corn cure, in remover, etc., out in front of him, he always took one precaution. He made note of how soon the next train left.

He had to. Jeff never knew what minute he'd have to fold up his kit and hot-foot it for the station, with policemen and angry customers in close pursuit.

He was that kind of business man. We call them "fly by nights." They still infest our cities and towns, but you never saw one of them advertise or build a lasting success.

The man who advertises for your patronage shows that he has foresight and courage. He wants to establish goodwill and to remain in business, and the best way for him to do these things is to send down roots and advertise so that you may come to him whenever you need what he sells.

Jeff Peters stands for the furtive parasite, hanging around the fringe of respectable society, dashing in and taking whatever he can, giving nothing in return, ready to flee at

any minute, always expecting to have to flee.

The manufacturer or merchant who advertises, however, serves notice that he has become a member of the community and society. He announces that he intends to be your business friend and to warrant your patronage.

And you buy from such a man with perfect assurance that you will always get your money's worth. And you do.

It's possible for you to go into some stores and find merchandise which glib salesmen assure you is "just as good."

The fact that even they use advertised items as the standard of comparison, is proof enough that they recognize the permanent power of the force we call advertising.

You as a consumer get more for your money if, in all your buying, you avoid the Jeff Peterses of business and select whatever you need from the stores of merchants who advertise and who sell advertised goods.

A business organization which wants to get the most for the money sets up standards by which to judge what is offered to it, and in Washington the government has an elaborate Bureau of Standards.

You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing-power, every day of every year.

BOOSTERS TO PLAY

VERHO VAY TEAM

The Booster Base ball nine of Talma will play the Verho Vay base ball team of South Bend on Sunday, June 4th on the Booster's diamond. This is the first time this team has ever play the Boosters. The Verho Vay team is a strong team and a very tough one. If the Boosters expect to continue their winning streak they will really have to play ball.

Talma manager, Frank Souther, announced today that the batteries for the Boosters would be Barkman, who will start the game, and Creighbaum, who will finish. Lyons will catch as usual. There has been a few changes made in the Boosters line-up since last week. The game will be called at 2:30 o'clock.

The next meeting will be at the home of Letha and Helen Walters on Tuesday, June 6.

Two Minute Sermon

By

Thomas Hastwell

LITTLE THINGS THAT MAKE GREAT DIFFERENCES: At a certain point on the American continent the difference of a few inches in the spot where a drop of rain falls determines whether it will find its way into the Pacific ocean or by means of the Mississippi river into the Atlantic ocean. The entire course of a human life is often determined by things that at the time seem to be of little importance. What we do, what we make of our lives, how they turn out, whether they are filled with happiness, content, and worth while accomplishments, or unhappiness, discontent and failure, very often depends upon the little things.

First among these is faith in God, faith that He can, if we will but permit Him, make our lives all that they can and should be. It seems to many a little thing, but like many seemingly little things it means much to a life. The man with faith does not fret and worry his life away. He knows that if he does the best he knows how, that some how, some way, God will take care of the rest. It brings to him a measure of assurance and self-confidence that no human source can ever supply.

It requires some men years of living to discover this, and some never discover it. They go through life depending upon their own fallible resources, and when these fail them, they have no other source to which to turn. Truly, faith, which many think a little thing, is after all the keystone of every efficient and satisfactory life.

HOROSCOPE

MAY 28, 29—You have an abundance of conceit and thrive on flattery and praise which is not always merited. Wealth and people of quality influence you a great deal. You expand under praise and can be always led that way. You have a tendency to bubble over with good spirits and can be a very charming person.

In a Progressive City."

You love good clothes and want the beautiful in your home, spending money with a free hand upon your family and yourself at times, although ordinarily you are close in money matters. You keep your own council and few people ever learn of your mistakes. You are gay and imaginative and fond of public life if you are given a prominent place. You should cultivate universal love.

JUNE 1, 2—You have very marked ability musically, poetically, and possess much originality in everything. You cannot stand disappointment. You are very ambitious but independent. You have literally abilities above the average, your disposition is cheerful and at times you burst into brilliancy. You keep your periods of depression covered from public gaze.

Luxury for Cheetahs

Cheetahs, or hunting leopards, owned by the princes and other wealthy men of India, spend their sleeping and other inactive hours on their own individual beds, which are exactly like those used by the natives, according to Collier's. In the palace of the Maharaja of Kolhapur is a large room that contains the beds of 35 of these animals.

A local grandmother with a keen sense of humor is getting a big kick out of hearing her daughter tell how hard it is for her to manage her children and how stubborn and perverse they sometimes are.

There is no higher standard of living than that which by good management one keeps his wants in line with his ability to pay and develop a measure of content with the things he has.

We were talking to an old timer yesterday who says that as a young man he went through harder times than exist today. "I have seen the time when all we had to eat was corn meal mush and I have eaten a boat load of it in my life and would do it again before I'd ask help from anyone."

We have seen a number of wild young men straighten out and make successful men of themselves, but we do not recall ever having seen a lazy young man ever amount to anything except a lazy old man and a loafer.

There may be a few exceptions, but the chances for success lie with the man who works hard, does his work well, lives within his means and saves a part of his income.

The law frequently makes a mistake when it sends a boy to a correctional school, instead of the boy's father.

It is just as serious a fault, it not more so, to over indulge children as it is to deny them many of the necessities of life. A coddled, spoiled, over indulged child is a reproach to its parents, a pain to the community and a disappointment to everyone.

Most folks don't mind practicing economy as long as they don't have to give up anything to do it.

Scribners magazine, published continuously for 52 years, suspended publication with last months issue. Inadequate income was the reason.

The story is making the rounds, of a local woman who has said that she won't object to any woman who may steal her husband, but if any woman tries to lure away her hired girl she will break her neck.

Memorial Day 1886

Our soldiers left their happy homes,
And tearful bade loved ones adieu;
Not knowing what their fate might be,
Or if again their homes they'd see.

Ah! many who stood on that battle field
Gave up their lives, our flag to shield,
Some fell, who were our country's pride,
Brave boys, who for the union died.

Many a thousand in prison died,
Who left loved homes and fireside;
Died in prison without food or care,
And buried, perhaps, without a prayer.

They are gone, in a noble form
they'll rise,
No more we'll clasp their hands
with pride
Ne'er more see the light of the
sparkling eyes,
Of our Heroes, who for freedom died.

And as these gather here today,
Loved from the thickest of the fray,
And come with slow, and measured tread
To scatter flowers upon their dead.

May God with all his tender care
Bless, and protect them every where;
And may each soldier wear a crown
In that bright world of peace and rest.

These lines were written by Mrs. Benjamin Richardson, sister of Mrs. John Laird Sr., Mansfield, Mass., May 30th, 1886, and was read at Spring Brook cemetery.

Balanced Glands

The importance of properly balanced glands is exemplified by the roxine, a product of the thyroid, which never amounts to more than one 2,500th of an ounce in a human adult, says Collier's. An excess of this hormone may produce an exophthalmic goiter while a deficiency may cause a cystic goiter.

An Indian Superstition

It is an old superstition in India that if a girl permits her hair to curl in ringlets when she is married, she will, in time, lose her husband. So the young Hindu bride usually cuts any unruly ringlets from her head and plasters her hair down flat, in order to insure for herself a happy married life.

Viva Spinsters!

Spinsters have a better chance of surviving ages over 50 than married women and widows, figures issued by the British government actuaries department show. At 60, 901 spinsters were expected to live five years, compared with 899 married women and 889 widows.

Mispickel

Mispickel is the chief ore of arsenic, a compound of iron, arsenic, and sulphur, sometimes called arsenopyrite. The color is silver white to steel gray and it is found massive and as rhombohedral crystals, usually associated with ores of silver, tin, copper and lead.

Poison Should Be Labeled

Every bottle containing poison should be so labeled that it cannot be mistaken at any time. Stick a pin through the cork so it can be identified in the dark.
