Miss Jessie Rush Weds Max K. Hire

A beautiful and impressive wedding was solemnized at the Christian church in Warsaw at six o'clock Sunday evening, April 28, when Miss Jessie Rush, daughter of Mr. and Mrs. Fred C. Rush, became the bride of Max K. Hire, son of Mr. and Mrs. Isaac E. Hire, of Winona Lake. Spring flowers in pastel shades against a background of ferns, and white tapers in candlebra on either side of the altar made a lovely setting for the ceremony. The chapel was lighted only by the tapers and late afternoon sunlight through the stained glass windows. Dr. Whiteneck, violinist, accompanied by Genita Vanator, played Schubert's "Serenade," and "O Promise Me." As the strains of the wedding march from Wagner's "Lohengrin" filled the sanctuary, the minister, A. V. Hayes, followed by the groom and his attendant, Frank Gilworth, Jr., took their places at the altar. Mrs. Dale Plew, eldest sister of the bride, attended Miss Rush as matron of honor. She wore blue satin and a corsage of small American beauty roses. The bride, who was given in marriage by her father, chose delicate pink sheer with lace, and a corsage of Talesman roses and blue forget-me-nots. Throughout the double-ring ceremony, the duet played softly, "I Love You Truly." The couple repeated their vows in the presence of about one hundred guests.

Following the wedding a reception was held at the home of the bride's parents for members of the immediate families. The couple left Sunday night for a three weeks' wedding trip through the eastern states after which they will be at home in Norfolk, Virginia.

CHARGE IS DISMISSED

The charge of obtaining money under false pretenses, filed against E. E. Hale, of Fort Wayne, was dismissed Saturday morning by Judge John A. Sloane, on motion of Prosecutor Jacob S. Koontz. The charge against his employer, J. Eugene Hunsberger, also of Fort Wayne, was continued. Hunsberger is at liberty under bond of \$200.

The men were arrested on an affidavit signed by George Clark, Mentone store owner, who alleged he gave Hale a note for equipment they failed to deliver. It was brought out at the hearing, that Hale, an employee of the Cool-Ray corporation, had made the sale not knowing that the concern was in financial difficulty, and could not meet its obligations. The note for \$138.50 was sold to the Farmers' Bank at Mentone.

D. A. R. Meets With Mrs. Kesler

The Anthony Nigo chapter of the D. A. R. met at the home of Mrs. Isaac Kesler, Tuesday afternoon, April 23, with Mrs. Ed Kesler as assistant hostess.

During the business meeting, the following officers were re-elected for the ensuing year: Mrs. Arthur Brown, regent; Mrs. Ray Linn, vice-regent; Mrs. Ersie Manwaring, chaplain; Mrs. Walter Lackey, secretary; Mrs. Ray Rush, treasurer; Mrs. Stanley Boggs, registrar; Miss Rozella Ford, historian, and Mrs. Ed Kesler, librarian.

Mrs. F. R. Burns, who had just returned from the D. A. R. National Congress in Washington, D. C., gave a very interesting report of the congress. At that time, Mrs. Burns took her office as state treasurer.

Mr. and Mrs. Russel Carper spent Sunday with Mr. William Lopley, at South Whitley.

at Norfolk, Va., and will enter the optical school at Washington, D. C., January 1st. The couple will make their home in the capitol city after the first of the year.

OBSERVES BIRTHDAY

A party in honor of the fourth birthday of Janet Rose, small daughter of Mr. and Mrs. Robert Reed was given Sunday at the home of her parents. Mr. and Mrs. Robert Hoover and sons, Frankie and Donnie, Mrs. John Davis and Mary Elizabeth, and Don and Betty Lyons were guests.

Psi Iota Xi Sorority Has Regular Meeting

The regular meeting of the Psi Iota Xi sorority was held last Thursday evening at the home of Mrs. Carl Myers, Jr. Mrs. Lyman Mollenhour assisted the hostess.

Egg Show Opens With Record Crowd

Miss Delta Doran, of Burket,
Chosen as Egg Queen.

The 5th annual Mentone Egg show opened last Thursday evening before a record first-night crowd of 700 which packed the local Community Building. A highlight of the evening's program was the choosing of Miss Delta Doran, 21, of Burket, as the 1940 Egg Queen. Miss Doran is music instructor in the Burket school and represented the egg shippers in that community.

Other competing entrants were Miss Marilyn Mowery, of Warsaw, Miss Jeanette Stiver, of Claypool, Miss Georgia Ulmer, of North Manchester, and Miss Gloria Hammer, of Mentone. Walter Krueck, Lee McDuffee and Russell Lehe, all of Fort Wayne, acted as judges. Moving pictures were made of the selection by Mr. Boice, proprietor of the Strand Theater, in Warsaw, the films to later be shown at his theater.

Other features of the opening program were: a concert by the high school band, under the direction of Mr. Walter Bowser; the Erick Sisters, of Culver, who sang several duets, and who also accompanied their brother in two solos; the Miller Brothers, of Sidney, whose singing was well received by the audience; Mr. Kreuck, of Fort Wayne, who presented a movie on the necessity of proper vitamins in poultry feeding; also, a talk on the Indiana fresh egg law by Ernest Anderson, formerly of Mentone, and now sec'y-treas. of the state egg board.

Musical Program Features Thursday Session.

The Thursday evening's program was attended by a crowd of approximately the same size of the one on the previous night. Following the presentation of the American flag by the Mentone Boy Scouts, the Coffing Sisters of Covington, Ind., gave a 20-minute program of marimba music. They were followed with duo comedy singing by the Doran Brothers, of Burket, who were accompanied.

MAN AT WORK

The president of Super-Colossal Pictures entered the office.

"Get out!" he howled at a young man sitting there. "While I'm boss I'll not tolerate any loafing around here."

"I beg your pardon," said the young man, "but I don't work here. I just came in looking for a position."

"Then you're engaged," growled the president.

"Oh, thank you, sir," beamed the young man.

The president pointed to the door again.

"And now get out!" he roared. "You're fired!"

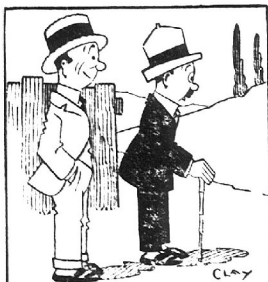

The young man picked up his hat and turned to the president.

"Do you mind," he inquired, "if I ask one question?"

"Well, what is it?"

"Tell me, what kind of a job did I hold before I was fired?"

INTO THE POOL

"I've finished the swimming pool I told you I was building on my place."

"So! With that done, what will you plunge into now?"

Not in His Power

The examination papers were handed round and the students scrutinized them eagerly.

"Any comments?" asked the professor.

"Yes, sir," said one youth, putting on a pained expression. "I certainly don't think I deserve an absolute zero."

"I don't either, Smith," replied the professor, with a merry twinkle in his eye, "but it is the lowest mark I am allowed to give any member of this class."

Returning the Hint

"So you and your neighbor are not on speaking terms?"

"No. My neighbor sent me a can of oil to use on my lawn mower when I started to cut the grass at six o'clock in the morning."

"And what did you do?"

"I sent it back and told him to use it on his wife when she started singing at eleven at night."

Feared the Answer

Unsympathetic Mother - Why didn't you come and ask me first if you wanted to go fishing?

Small Son—Because I wanted to go fishing.

IN THE BUSINESS WORLD

Two biggest mail-order houses report that in spite of a poor start in April, they have at least an even chance of maintaining their record of 17 straight months of "better than previous year" sales. . . . Department store sales are improving after post-Easter slump, in spite of a still-tardy spring. . . . That tardy spring, though, has sustained car-sustained carloadings, mainly because coal has been moving in greater quantity than usual this season, and last week's loadings were 13.1 per cent ahead of the same period of 1939—and the shippers' advisory boards expect the second quarter loadings to top last year's second quarter by 18.1 per cent. . . . DuPont chemical company is now deriving 40 per cent of its total sales from 12 new lines brought out since the depression started in 1929—employing 7,000 more men in making them—and the prices on these lines have been reduced an average of 4 per cent in the last 10 years.

BAND WINS CONTEST IN MUSIC CONTEST

Last Saturday, April 20, the Mentone high school band composed of 34 members under the direction of Walter Bowers, took part in the second district band and orchestra contest. There were 24 class "C" bands, ranging in size from 30 to 70, taking part. Our band placed in second division and thus are eligible for medals for that accomplishment. Warsaw was the only other band in the county that placed as high as second division.

A recording was made of the numbers that the local band played in the contest. The record was played on Monday for the students who were delighted to hear themselves for the first time.

Summer music schedules will start on the week of May 13 and students desiring to take private lessons should see Mr. Bowers soon and secure the time that will fit best into your summer activities. The summer band will meet that week on Tuesday evening and is open to students who have had at least one year of band experience.

AUTOMOBILE CLASSIFIED

AS CHEMICAL FACTORY

Although the automobile is generally classified as a mechanical device, it is to a large extent a chemical factory converting quantities of raw materials into power.

The Chicago Motor club reveals this fact by a set of figures that show the average amount of raw material carried by a medium sized automobile:

Gasoline	108 pounds
Oil	10 pounds
Water	29 pounds
Dilute acid	2 pounds
Grease	5 pounds

Gasoline predominated in the weight chart. One year's supply of this fuel for the nation's motorists has a potential energy greater than the available horsepower in 15 Niagara Falls.

Whoa-Yelling Crow Annoys Plowmen

Loquacious Bird Interferes With Work in Field.

PINEHURST, N. C.—The plowmen wending their homeward way in this section are getting very weary indeed of Hop-Along-Cassidy. The other day one of them remarked that if the durned split-tongued crow didn't watch, he'd be a split-throat crow. And pretty quick, too.

Hopple is a loquacious bird, but his garrulity runs mostly to the one word "whoa." Perched above the road, he shouts it imperiously at every team he sees. Sometimes he even flies along above a mule, indulging in a contest with the exasperated driver, meeting every "gid-dap" with a mule-stopping "whoa!"

Hopple, the pet of John Hanes of Lakeview, was picked up about two years ago, along with his noisy brother. The brother died at a tender age because he ate some glass, but Hopple survived, and about a year ago burst into untutored speech. He can say "come on," "hurry up," "I'm waiting for you, George," and, confides John "a little cussing." But mostly Hopple says "whoa" and he says "whoa" morning, noon and night, and he says "whoa" when there is spring plowing to be done.

The mule-drivers think John Hanes should teach the creature to say "gid-dap."

The junior class of the Mentone high school entertained the seniors at Pokagon state park on Thursday, April 25. The trip was made in one school bus and three cars. At noon a bounteous picnic lunch was served in the large pavilion on the grounds. 48 were in the party.

The day was spent exploring the various trails, in bicycling, riding horseback, in playing softball, and many other ways. In the evening, a weiner roast was enjoyed, after which the party returned to Mentone. All were enthusiastic in their reports of the day.

The party was accompanied by Mr. and Mrs. M. A. Smith, Mr. and Mrs. L. yd C. Miner, and Dale Kelley.

A TALL TALE FROM THE BREEZY SECTION

A reader of this paper received a letter from a relative in western Kansas. Out in that section, according to the letter, the wind blows every day. Some days it blows so hard that it is impossible to work in the field. One ingenious farmer rigged up a wind gauge that the boys might know when to go out into the field to work and when to stay in the house. He hung a log chain on the eave of the barn. When the wind blows the heavy log chain straight out, it is a sign that it is too windy to work.

NAMED AMONG WINNERS IN JUDGING CONTEST

Robert Leiter, of Mentone, was named as one of nine Kosciusko county boys to compete in the district crop-judging contest to be held at Wabash, May 2. Three of the boys are from Leesburg, three from Syracuse and one each from Mentone, Piercetown and Claypool.

The county contest held Monday evening at the Warsaw high school building was won by Jim Eiler of Leesburg with a score of 546 points. Thirty-four boys representing nine vocational departments competed.

Besides Eiler, the following qualified for the district contest: Rex Sausaman, Leesburg, 516; Don Miller, Syracuse, 493; Rex Wildman, Leesburg, 492; Robert Leiter, Mentone, 484; Robert Baumgartner, Syracuse, 484; Raymond Newcomer, of Syracuse, 483; Max Nash, Piercetown, 481; Delbert Price, Claypool, 478.

All through the agricultural mid-
dle west the water level in the soil
is getting lower and lower. Wells and
springs that never fail are going dry.
The condition is brought about by
the fact that man has straightened
streams, drained ponds, cut off tim-
ber and plowed up the sod. To cor-
rect it, man is going to have to re-
store the timber, put more of the
country back into grass and build
large ponds and lakes. There is no
chance for subsoil moisture when it
is drained off too rapidly to allow
it to penetrate the soil. Man cannot
change nature's plan without reaping
the result some place along the line.

Here is a chance for some young

Two Minute Sermon

By
Thomas Hastwell

THE WISE MAN WALKS IN THE
WAY OF THE LORD: Though many
of them were unschooled as we un-
derstand schooling today, there is to
be found in the writings of the pro-
phets of old, Amos and Hosea and
the rest, many beautiful expressions
and profound truths—truths that are
just as alive, just as applicable today
2700 years after they were spoken,
as they were in the days when these
dauntless teachers thundered them at
their unheeding generation. What
more apt expression, beautifully put,
is to be found than is expressed in
the ninth verse of the fourteenth
chapter of Hosea. After telling of
God's boundless and forgiving love,
the prophet sums it up by saying,
"Who is wise, and he shall under-
stand these things? Prudent and he
shall know them? For the ways of
the Lord are right, and the just shall
walk in them, but the transgressors
shall fall therein." There is no truth
the verity of which has been proven
more often than this one, and they
who walk in the ways of the Lord
shall find happiness and content,
and those who transgress them shall
stumble. It was true in the prophet
Hosea's day. It is true today. The
wise man walks in the way of the
Lord.

A WANT AD WILL SELL IT

Results received by small "want-
ed" or "for sale" ads published in
the Co-Op News are surprising to
most people who have not tried this
inexpensive method of selling or
buying small articles around the
home or farm.

These ads cost only 1c a word (25c
minimum), or three insertions for the
price of two and their selling
power makes this cost very small.
So, if you have something that you
wish to sell, or buy, let a want ad
sell it for you. Ads may be brought
to the News office not later than
Saturday forenoon to insure publica-
tion in the following Wednesday's
issue, or will be taken by telephon-
ing 38.

Improvements of Highways Planned

Improvement of twelve hundred miles of state highways, giving employment to approximately ten thousand WPA workmen and resulting in greater motoring safety, is planned by the State Highway Commission, it was announced today by T. A. Dicus, chairman. This state-wide program is to be started as soon as approval can be secured on the general proposal and individual projects.

Preparation of the individual projects by highway engineers has been in progress for the past week. The commission is proposing improvement of road surfaces on 830 miles of state highways, erosion control on an additional 200 miles and inclusion in the new program of WPA projects already in operation on approximately 180 miles of roads. It is estimated that the program will provide more than fifteen million man-hours of employment.

Counters Show Traffic Increase

An average increase of four percent in traffic was noted on the state highway system in Indiana during the first quarter of the year, in spite of a decrease in January, according to the Chicago Motor club.

A total of eighteen automatic counters have been installed within the past few months and are now in operation to record travel in various sections of the Hoosier state. One of those is in operation on state road 13 between U. S. 30 and North Webster.

Mrs. Eva Irvine and son, Wayne, of Leesburg, are spending a few days at the home of Mrs. Irvine's sister, Mrs. Lydia Rynearson.

To Offer Prizes For Appearance Of Lawns, Gardens

Mentone residents and those who live near, or in this vicinity, will be eligible to win a cash prize for the improvement of the general appearance of their lawns or gardens in a contest starting immediately and closing August 1st, decided the committee for Better Mentone Lawns and Gardens, which met at the library last Monday night.

The committee, appointed at a meeting of the local Lions club recently, stressed the fact that the valuation or size of the residence or the premises will have absolutely no bearing on the winning results; that whether the property is worth \$200 or \$10,000, only the neatness, orderly appearance and improvement of the lawn or garden (either flower or vegetable), will be counted.

Worthwhile cash prizes for 1st, 2nd and 3rd place will be awarded by the committee when the contest closes and everyone may enter but Lions club members. The general tidiness of the premises, including nearby alleys, will enter into the judging, as will the planting of flowers, trees, shrubbery, etc. It was pointed out that some of the early flowers and vegetables will be out of season and will have been removed from the garden when the contest closes, but only its upkeep will be noted in that case.

A contest such as this not only develops the personal pride and satisfaction of the property holder but it gives visitors to the community, and those who travel thru, a first good impression that is usually a lasting one. More articles will appear in the Co-Op News on the progress being made, and it is sincerely hoped that all residents will get behind this movement to IMPROVE MENTONE LAWNS AND GARDENS.

Practically all of the motion pictures produced in this country are made in two states, California and New York.

WEATHER, WHETHER OR NOT!

Perhaps it was Mark Twain that said, "Everybody comments on the weather, but nobody seems to do anything about it," or words to that effect?

Last Wednesday, May first, most folks were staying close to the stove and the unseasonable weather that we were having at that time usually entered into the conversation. The more bold would even greet you on the street with "Merry Christmas" or some other remark equally out of place on the first day of May. So, as this article was being written on Thursday, it was still snowing, but the weather forecast has predicted fair and rising temperature, and "that's something."

In The Lions Den—

The Mentone Lions club met in regular session last Thursday evening in the basement of the Methodist church. Forty members and three guests were present.

After a bounteous dinner served by the ladies of the church routine business matters were taken care of and the reports of various committees were heard. A nominating committee to select candidates for the coming year's officers was also appointed.

Judge Sloane, of Warsaw, was the principal speaker of the evening, with "Boosting the Home Community" as his subject.

TO HOLD CLASS PARTY

The Come-Join-Us class of the Methodist church will hold a get-together at the home of Mr. and Mrs. Elmer Sarber on Thursday evening, May 9th. All members are urged to attend.

Joseph Prizer, 80, Dies of Injuries

Joseph Prizer, 80, a life-long resident of the vicinity of Packerton, died at 8:30 p. m. Tuesday at the McDonald hospital at Warsaw, as the result of injuries received last Friday when a team of horses ran away with him.

Mr. Prizer suffered fractured ribs and shock, which, owing to his age, caused complications that resulted in death. The accident occurred on the farm where he had lived since birth, near Packerton.

Surviving are two brothers, Mike, of near Packerton, and Sam, of Marion; a nephew, Ora Prizer, of Warsaw, and a niece, Mrs. Cecil Urue, of Goshen.

Funeral services were held Friday at the Packerton United Brethren church, with Rev. Moyne Landis officiating. Burial was made in the Packerton cemetery.

BASKETBALL TEAM TAKES CANADIAN TRIP

The members of the basketball squad of Mentone high school left Friday morning at 4:00, in three cars on a trip through Canada by the way of Niagara Falls and Buffalo, N. Y. Many places of interest were visited on the way, among which was the Bell airplane factory at Buffalo if permission could be secured. The party returned through Detroit.

Those who made the trip were Dean Shirey, Bud Paulus, Lowell Marquess, Eugene Sarber, Wayne Bowser, Bob Miner, Kenneth Romine, Carl Whetstone, Paul Horn, Frank Molbash and John Tucker, accompanied by coach Walter Fenstermaker, Dale Kelley, Maurice Dudley and Carl Gochenour. They returned to Mentone Sunday evening.

MENTONE WOMAN BUYS PLYMOUTH TOURIST HOME

Mrs. Marie Busenburg, of Mentone, has disposed of her farm in Harrison township and purchased a large home in Plymouth, located on U. S. road 30, on the east side of the town. She plans to open a tourist home and will specialize in Sunday dinners.

When it comes to saving money, any systematic plan will accomplish more and better results than sporadic or spasmodic saving. The best saving plan is the one that calls for a certain per cent of one's income put away each week or each month. Systematic saving helps to create the saving habit and saving is above all else a habit.

In 1939 steel workers employed in American plants received an average of 84 cents an hour for an average work week of 35 hours.

Elmore C. Baker, 75, Taken by Death

Elmore C. Baker, 75, well known resident of Mentone, passed away at his home at 6:30 o'clock Tuesday morning, April 30. His condition had been critical since suffering a stroke of apoplexy three weeks ago.

Mr. Baker was born in West Virginia, November 2, 1865. He came to Indiana and settled in Harrison township when a young man. He had lived in Mentone and vicinity from that time until the time of his death. The deceased had been custodian of the Mentone Baptist church for the past 15 years. Until his recent illness, he had maintained a perfect attendance record throughout his 15 years in the institution's service, never missing a single Sunday's program.

Surviving relatives include the widow, Rose; three sons, Doyle, of Wheaton, Ill.; Dale, of Mentone, and Leonard, of Wabash; three daughters, Mrs. W. W. Shipley, of Warsaw, Annabelle and Ruth at home; three grandchildren; three brothers, Nathan, of Warsaw, William, of West Virginia, Naomi, of Mentone. Four children preceded their father in death.

Funeral services under the direction of the Johns funeral home, Mentone, were held Thursday afternoon at 2 o'clock at the Mentone Baptist church with Rev. V. E. Squibb, of Morocco, Ind., former pastor of the church, officiating. Interment was in the Mentone cemetery.

Psi Iota Xi Holds Election of Officers

The Psi Iota Xi sorority held a business meeting Thursday night at the home of Annabelle Mentzer. Nine members were present.

Officers elected for the coming year were: Louise Long, pres.; Ann Sierk, vice-pres.; Emma Clutter, corresponding secretary; Mary Watson, recording secretary; Marie Nellans, treasurer, and Helen Hoffer, conductress.

Emma Clutter conducted a quiz won by Charlotte Snyder and eminently enjoyed by all present. Refreshments were served by the hostesses.

The sorority party will be held May 16 at the home of Mrs. George Clark.

CHEVROLET REPORTS GAIN IN 1940 SALES

Paced by a new passenger car and truck sales gain of 40.9 per cent over the comparable period last year, Chevrolet sales figures for the second 10 days of April maintained the strong upward trend that has marked the 10-day reports since the introduction of the new models last fall, William E. Holler, general sales manager, announced at Detroit recently.

For the 10-day period ending April 20, Chevrolet dealers sold at retail a total of 35,491 new passenger and commercial cars, a gain of 2,598 units over the figure reported for the preceding period, as well as the 40.9 per cent increase over last year.

Two Minute Sermon

By
Thomas Hastwell

ONLY A CHRISTIAN WORLD CAN BE A WARLESS WORLD: It is a common thing these days when one-half of the world is at war, to hear the folly of war condemned, and the question raised as to why a Christian civilization cannot put a stop the cruel and wasteful folly of war. A Christian civilization could and would make an end of all war in the world. It is because the civilizations of the world are not Christian that we have war in the world today. There are, throughout the country, many different organizations and movements that have as their motivating spirit the outlawing of war. They are all worthy efforts. Their very motive makes them worth while. But the only thing that is ever going to end war on earth is the spirit of Christ in the hearts of men and nations. This alone can stop war. There is no substitute for it, no organization, it matters not how powerful it may become, can of itself put an end to war. Men will continue to experiment and try substitutes, but substitutes will not end war. The freedom from war and the attitude toward war in the world will continue in exact relation to the degree of real Christianity in the world. The first step necessary for a warless world is a Christian world.

Wet Artificial Logs Swell, Burst House

LEWISTON, IDAHO.—A large warehouse was almost hopelessly ruined when 500 tons of artificial logs made of compressed sawdust were accidentally flooded, began to swell and pushed out the sides of the building. Cause of the freak accident was attributed to a faulty sprinkling system.

Bad Men of Today Are Not So Tough

Former Two-Gun Sheriffs Sneer at Gangsters.

CONCONULLY, WASH.—To a pair of chip-jawed sheriffs of the day of the "hoss-hair-trigger" today's gangsters and bad men wouldn't rate a second glance.

"Bad Bills? Humph, they're Sweet Williams," say these two men in whose day the usual historian of a gun duel between the law and the outlaw was the man who was fastest with the gun.

Both ex-Sheriff George Tindall and his successor, Fred Thorp, rate as historians.

Tindall, a native of Oregon, began his career as an officer in 1887 when he was a deputy sheriff and U. S. marshal. In 1902 he became sheriff here and that year was the beginning of the end of horse thieves and cattle rustlers in this territory.

Fred Thorp was his successor and he is the man known all over the Northwest as the sheriff that brought in his man, dead or alive.

When Tindall assumed office the average population of this region was one person per square mile—a situation that made cattle rustling a profitable affair.

A conviction of a charge of cattle thievery was hard to obtain, some old pioneers even alleging that many juries had members that were mixed up in the rustlings.

But 10 months after election, Tindall had changed the complexion somewhat. Teaming with a fighting prosecutor, Tindall brought about conviction and prison terms for 22 men in that time—a record never equalled.

Probably the high point of the sheriff's career was the cattlemen and sheepmen war. It began when Tindall aided in the arrest of one "Wild Bill" Hughes, a reported murderer.

A deputy sheriff was shot the next night, supposedly by a friend of Hughes—and the war was on.

When the war had quieted down, Tindall left office and Thorp became sheriff. He was quiet but of firmer clay than the hardest criminal in the West.

A peace-loving man on the surface, Thorp was known as a man who could—and did—fight it out if

While his career lacked some of the color that filled the term in office of his predecessor, Thorp joins with Tindall in contempt for present day criminals.

Offer to Give Away Sons Brings Father City Job

COLUMBUS, OHIO.—Fred McNeil, a WPA worker who offered to give away two of his five sons because he was not making enough money to feed and clothe them properly, will go to work for the city of Columbus, starting next Tuesday.

The new job, given McNeil after Mayor Floyd F. Green learned of the family's plight, will enable the McNeil family to stay together.

McNeil's new job in the city engineering department will pay him from \$80 to \$100 a month and will offer him a chance for advancement.

Passengers Say Boulder Saved Train in Canyon

PRINCE RUPERT, B. C.—The story of how a huge boulder prevented a derailed train from crashing 300 feet to rocky canyon bottom was told here by passengers of the train who were being brought by boat from Vancouver.

When the train was traveling the White Pass and Yukon route railway, a passenger and baggage car was derailed in the Skagway river canyon, seven miles from Skagway, Alaska. The rock, lying beside the tracks, miraculously held the entire train on the edge of the cliff.

Stocking Saves Her \$80 But Men's Pants Rifled

NEW YORK.—A backstage thief filched the week's wages of every male player in "The Weak Link," a Broadway drama about bank robbers.

But he didn't find the wages of the only woman in the cast, Peggy French, 18 years old.

"I always keep my money, while acting, in the First City bank," she explained.

She pointed at her stocking, with \$80 in bills inside.

She Didn't Feel a Thing
RICHMOND, VA.—Pistol shots rang out in the shopping area early today—and a smartly clad figure fell to the street, a bullet in her abdomen. Police caught the gunmen loitering near a store, but they didn't explain whose stray shot plugged a clothes dummy in the show window.

Brazilians Like Strong Coffee
The Brazilians say "coffee should be as black as coal, strong as Samson and sweet as a woman's heart." Perhaps their sentiment explains the cup of coffee filled more than a half with sugar. Most of the natives drink from 10 to 20 cups a day. Coffee is as important a national drink for the Brazilians as wine is for the French.

HALF-MILLION MEN SELL GAS EACH DAY

Ten million cars, a third of the nation's 400,000 gasoline stations to be supplied with 60 million gallons of motor fuel every 24 hours, according to Charles M. Hayes, president of the Chicago Motor club.

"And to take care of these motorists who call everything from 'fill 'er up' to 'oh, just one, I guess', more than half a million men are kept busy at a million pumps," he said.

Mr. Hayes points out that during this same 24 hours at least an equal amount of gas must be delivered to the underground tanks which supply the pumps. Also, still a third 60 million gallons must be moved from the refineries to replenish the bulk plant's supply, making 180 million gallons actually figure in automotive transportation each day.

Some 22 billion gallons of gasoline are consumed by the nation each year.

Argentinian Will Race 'South American Way'

INDIANAPOLIS, Ind. - An Italian racing car will feel the grip of a fine Argentine hand in the "500." Raul Riganti, idol of South American auto racing fans, will stage his comeback at the Indianapolis Motor Speedway May 30th behind the wheel of an Italian Maserati car bought for him by public subscription in his country.

Riganti raced at Indianapolis in 1923 and 1933, coming here for the first time as a member of the famous Bugatti team headed by the European sportsman, Prince de Cystria.

The Argentinian brings back to Indianapolis the first international entry in seven years. North and South America are watching his effort with interest.

Amos L. Doran Funeral Wednesday

Funeral services for Amos L. Doran, 70, of Flint, Michigan, were held at the Palestine church, Wednesday, May 1, with Rev. Sherrill, of Burket, officiating.

Mr. Doran, who was the father of Mrs. Mars A. Tucker, of near Mentone, died suddenly of a heart attack at the Buick plant in Flint, where he had been employed for 21 years.

The deceased was born near Burket and had lived in the vicinity all of his life except the last 21 years of which he was a resident of Flint. He had at one time operated a hardware business in Burket.

Surviving are one daughter, Mrs. Mars A. Tucker, of near Mentone; three sons, Dale D. Doran and Kenneth R. Doran, both of Flint, and Ralph M. Doran, of Santa Anna, Calif. He also leaves seven grandchildren, one great-grandchild, and a host of relatives and friends who mourn his passing.

Closed Season on Game Fish Began Tuesday Midnight

The closed season on taking all species of game fish with the exception of trout, began in Indiana at midnight Tuesday and possession of any fish of state of the protected species during the closed season is a violation of state fish and game laws, Virgil M. Simmons, commissioner of the Department of Conservation, pointed out today.

From midnight Tuesday until the morning of June 16 when the season re-opens, anglers can not legally take bluegills, red-eared sunfish, crappies, rock bass, silver or yellow bass, large or smallmouth back bass, Kentucky bass, white or striped bass, wall-eye pike, pike or pickerel, or yellow perch. Carp, buffalo, suckers and other species than those named—with the exception of trout—are not classed as game fish or affected by the closed season.

Indiana's open season on the taking of trout, begins May 1 and ends on August 31. The law permits the taking of not to exceed fifteen trout of all species in one day's fishing, and the possession of not to exceed two day's lawful catch. To meet legal requirements, trout must measure seven or more inches in length.

For the past several years suitable Indiana streams have been stocked with brook, brown, rainbow and Lock Leven trout, obtained from federal hatcheries, with the result that there are now scores of miles of fine trout fishing in Indiana. These streams are in the northern part of Indiana, where water temperatures remain low throughout the year, a condition necessary for the existence of trout.

Dale Wallace and family moved to Elkhart last Monday.

Hollywood Stunt Man Drops Stunts in '500'

INDIANAPOLIS, Ind.—Cliff Bergere, ace Hollywood stunt artist, leaves his tricks at home when he comes to drive each year in the 500-mile race at Indianapolis.

Third place money-winner in 1939 on the Indianapolis Motor Speedway, he has driven 4,745 competitive miles in 500-mile races to build up the reputation of being one of the most consistent racers in the business. He has finished in the money seven times.

Bergere goes through strenuous training in road work and gym sessions in preparing for the big race. And his movie stunt work, crashing automobiles, making hazardous jumps from burning buildings and other stunts helps keep him in tip-top condition.

Race experts figure Bergere as a good bet to be well up there when the "500" is run on May 30th. Finishing a race appears to be one of Bergere's best stunts.

In many communities of the state, an annual clean-up week is observed. Property owners haul all tin cans and rubbish to the end of the alley and a truck picks it up and hauls it away free of charge. After the event is observed in a town for two or three years it receives almost one hundred per cent cooperation from the citizens of the town. By concentrating effort on one week a thorough job is done. The property owners are given one week to place their rubbish at the ends of the alleys. On Monday morning of the following week the city trucks begin hauling it away. The plan has proven successful wherever tried. Mentone this year is sponsoring a better lawns and gardens contest which should be even more effective.

Origin of 'Caddy'

The Encyclopedia of Sports says that it was Mary Queen of Scotland who gave the caddies their name. She was educated in France, where cadet (pronounced caddy) means a student. When later in Scotland she referred to the boy who sighted her golf balls as her cadet, the Scots began using this word, spelling it caddy or caddie.

MILDRED BATZ BRIDE
OF ALBERT W. CRAMER

At a lovely spring wedding Saturday, April 27, in the country home of her parents, west of Mentone, Miss Mildred Batz, only daughter of Mr. and Mrs. I. A. Batz, became the bride of Albert W. Cramer, of Angola. The single ring service was read by candlelight before an altar banked with palms and ferns and white snap dragons. The Rev. A. M. Thomas of Rochester officiated.

Mr. and Mrs. Cramer left, after a buffet supper, on a motor trip thru the east. After May 15, they will be at home in Angola.

The bride is a graduate of Rochester high school and of Purdue university. She has been employed by the National Live Stock and Meat Board in Chicago since graduation. The bridegroom is a graduate of Angola high school and of Purdue university where he specialized in mechanical engineering. He is associated with his uncle, Carl Weiss, in the manufacture of machine and automotive parts.

Local 4-H Clubs Open Season's Work

Mentone 4-H Club Holds
Thursday Meeting.

Twenty-four members of the Mentone 4-H club held their first meeting of the summer season at the school building, Thursday afternoon, May 9.

The club, which has for its advisor, Miss Pauline Swick, domestic science teacher in the local school, is organized each year for the purpose of offering to girls between the ages of ten and eighteen, the opportunity to learn the art of cooking and sewing. In addition to this, it affords many wholesome recreational activities, such as games and group singing.

Acting as president, Iola Tucker conducted the business part of the meeting. At this time officers were elected, namely: Helen Long, president; Iola Tucker, vice-president; Georgia Dillingham, secretary and treasurer. A complete program for the season was decided upon. The business portion of the meeting was concluded by a general discussion of plans.

Following the business session, the group enjoyed a short social hour which included singing songs and playing games. The next meeting of the club will be held on Thursday, May 23, at the school building.—Georgia Dillingham.

FELLOW CITIZENS OF MENTONE

Your Town Board at their meeting Tuesday evening, May 7, decided to ask your cooperation in making Mentone a cleaner place in which to live.

Up in is here so, LET'S CLEAN. All trash and cans that now spoil the look of our town should be removed from alleys and other places. Any local trucker can be hired at a reasonable price to dispose of this trash for you. If you have your own truck or trailer, the latter pit east of Mentone is the place to dispose of all trash, such as tin cans, glass, wire, etc. You should not haul garbage of such to this pit.

Let's make MENTONE A CLEANER AND HEALTHIER PLACE IN WHICH TO LIVE! Your cooperation will be greatly appreciated.

Enoch Goshert, 95, Dies at Farm Home

Enoch Goshert, aged 95, lifetime resident of this county, died Friday morning at 5 o'clock at his farm home, route 4, Prairie township, after a week's illness of asthma and heart trouble.

Mr. Goshert was born near Columbus, O., August 24, 1844, the son of John and Katherine Goshert. He had lived all his life in this vicinity, coming to Indiana with his parents when but one year of age. Sixty-seven years ago he was wed to Mollie Phillips, deceased.

Surviving relatives are: foster son, Artie Linn, and foster daughter, Mrs. Ralph Stookey, of near Warsaw; three nieces, Mrs. Belle Bechtol, of Burket; Mrs. H. O. Berkeypile, of Kokomo, and Mrs. Ray Rush, of Mentone; nephew, LeRoy W. Goshert, Burket.

Funeral services were held at the Pleasant View church, three miles northwest of Warsaw, Sunday. Burial was made in the Pleasant View cemetery.

BIKE VS. TRUCK!

A bicycle ridden by a young man tangled with a new laundry truck one day last week in a local alley. According to reports, the bicycle lost the argument as it was completely demolished. The truck, with a dented fender, twisted headlight and numerous scratches, was damaged to the extent of several dollars. The bike rider luckily escaped with minor cuts on both hands and a thorough scare.

However, this is the time of year when children are likely to be roller skating or cycling in the street or on the sidewalk, not realizing the danger, or even tragedy, that a moment of carelessness may bring them. So, if each child and young person will remember that . . . you can't win an argument with an automobile . . . and experience in learning that fact may be a dear teacher . . . perhaps some serious accident will be avoided.

Only 'Papa' Stuck to Petillo When All Turned Against Racer

"My boy, Kelly, he's all right!" That's what his father, Luigi, said when it seemed that the 1935 champion's temperament was turning everyone against him.

INDIANAPOLIS, Ind. — Old Man Tribulation has finished his exacting education of Mr. Kelly Petillo and the doughty little Italian is about ready to ride to racing glory again.

The ex-truck driver who manhandled a bucking, powerful automobile to victory in the 500-mile race at Indianapolis in 1935, has roamed through the valley of despair ever since at the misguided direction of temperament, over-confidence and just plain cockiness. The five years have had a steady influence and Petillo is climbing again toward the peak.

Swaggering about Gasoline Alley

in a manner not generally acceptable to racing men; displaying unbridled wrath toward officials who attempted to enforce strict regulations; impatient with his garage mechanics who deserted him before his temperament, nevertheless when the stocky pilot took to the track none denied that he is as tough a skipper as ever "tooled" the four quarter turns of the famous Hoosier oval.

Kelly always has one staunch friend—whether the wind blows ill or well. That's his proud father, Luigi Petillo. He believes Kelly is the greatest race driver that ever pulled on a crash helmet. And it's rumored that Kelly thinks he is, too.

Cat Ranch Hoax Is Recalled This Week

Some of the older residents in this locality will probably recall around 65 years ago, the famous attempt of an editor to put the town of Lacon, Ill., on the map—and he succeeded. The fun started with a press dispatch released by Willis B. Powell, the editor of the town newspaper, which read something like this:

Glorious Opportunity to Get Rich — We are starting a cat ranch in Lacon with 100,000 cats. Each cat will average 12 kittens a year. The cat skins will sell for 30c each. One hundred men can skin 5,000 cats a day. We figure a daily profit of over \$10,000. NOW WHAT SHALL WE FEED THE CATS? We will start a rat ranch next door with 1,000,000 rats. The rats will breed 12 times faster than the cats. So we will have four rats to feed each day to each cat. NOW, WHAT SHALL WE FEED THE RATS? We will feed the rats the carcasses of the cats after they have been skinned. NOW GET THIS! We feed the rats to the cats and the cats to the rats, and get the cat skins for nothing..

And this small report certainly received attention, for almost every newspaper in the country, from metropolitan dailies to rural weeklies spread the story through their columns. "Cat Farms" were actually started in some places and swindlers sold stock to a gullible public. But

the story really backfired on Lacon, as cats DID begin to arrive there, without the rats, of course, to feed them. When the problem became acute, they were dispatched by a humane organization. The railway express even put an embargo on the shipment of cats to Lacon, but this editor's imagination also proved that P. T. Barnum was right. There IS ONE born any minute and we, the public, are always ready and waiting to fall for a gag of some kind. And we usually do, at least once in our life.

Rex Mays to Shoot at Records in Qualifying at Indianapolis

Bo. McMillan, University of Indiana football mentor and former star of the famous Center College "Praying Colonels," gives Rex Mays some training hints as the racer tunes up at Indianapolis.

INDIANAPOLIS, Ind. — The Speedway record buster wants to make it official this year.

Rex Mays came back to Indianapolis with the unofficial lap record of 131.58 miles an hour, established in practice last year, but on the books the official mark goes to Jimmy Snyder. Snyder drove 130.757 miles an hour in qualifying in 1939 and gets the credit officially.

Mays, better known as the "Glen Dale Ghost," has been a sensation at Indianapolis since he first came here in 1934. He "sat on the pole" in 1935 and 1936 after turning in the top qualifying time. He has outdone that honor in 1940.

Flashy, fearless and colorful, Mays has almost everything to be an Indianapolis champion. All he needs now are the racing breaks.

perhaps that is why the United

larger world powers at peace today.
We do not need a convenient war

Two Minute Sermon

By

Thomas Hastwell

PEACE ON EARTH INEVITABLE:
In the prophecy of Micah appears
the expression "Nations shall beat
their swords into plow shares and
their spears into pruning hooks, na-
tion shall not lift up a sword against
nation, neither shall they learn war
any more." In the light of present
world affairs the fulfillment of the
prophecy does not seem any nearer
today than when it was uttered
more than 2700 years ago. Even so
I do not believe that world condi-
tions today should shake our faith
in the prophecy of Micah. I believe
that the time is coming when there
will be no more war upon earth. I
believe the prophecy of Micah will
one day be fulfilled because I be-
lieve that one day the Kingdom of
God shall come upon the earth.
When the Kingdom of God comes
upon earth, war will disappear, be-
cause war and the Kingdom of God
are incompatible. They cannot both
exist upon the earth at one time.
The coming of the Kingdom of God
on earth may be delayed but its
coming is inevitable. It is inevitable
because it is a part of God's plan,
and no human force can forever re-
sist that plan.

Driving Should Be Fun--

... whether you own a new car, or you're still
driving the "old bus." There's nothing that
takes the kick out of motoring like a car that
is sluggish and wasteful. The most enjoyable
driving months are just ahead—but they won't
be enjoyable for you unless your car is prop-

Racing Millionaire to Drive at Indianapolis

INDIANAPOLIS, Ind.—Joe Thorne, the racing millionaire of the "500," believes in driving with his foot and not with his pocketbook.

Thorne has finished twice in the money at Indianapolis, taking ninth place in the 1938 race and finishing seventh in 1939. Thorne also owned and entered the car with which Jimmy Snyder drove into second place and smashed several race records, as well as the marks for one lap and 10 miles in the qualifying rounds.

Besides his own mount, the lanky sportsman will have at least two other cars in the race May 30th. It's estimated that Thorne has invested half a million dollars building race cars, and is rapidly creeping up on the mark of Cliff Durant, millionaire sportsman of years ago who spent a cool million trying to win the "500."

Two Wives Divide Home

Till In-Law Calls Police

LUBBOCK, TEXAS.—A 29-year-old produce company employee admitted that he maintained two wives in the same household.

G. E. Brown, held on a bigamy charge, was quoted by District Attorney Burton S. Burks as saying he married the first time in 1929 and the second time in 1937.

Brown said he had three children by his first wife and one by the second.

Burks said a sister of the first wife precipitated the investigation.

Local Men Named As Contest Judges

Judges for the essay contests for Kosciusko county high school pupils were named Saturday by Harry Lewallen, county superintendent of schools and chairman of the committee in charge. Essays are to be written on some feature of the county and the winner will be taken on a six-day tour of the state of Indiana.

Selection of the winning manuscript will be made by Dale Kelley, principal of the Mentone school; O. Ray Miner, Warsaw; Hobart Creighton, of near Mentone, poultry raiser and state representative, and Ezra W. Graham, Warsaw attorney. Supt. Lewallen will also serve on the committee.

Similar contests are being sponsored in all the other 91 counties of the state. All essays must be in the hands of Supt. Lewallen by May 15, or must be postmarked not later than midnight on that date.

Essays are to be written on four subjects: Industrial Advantages of the County, Agricultural Advantages of the County, Points of Historical Interest and Recreational Points Attractive to Tourists.

50 Attend Lecture At Local Church

A group of 50 ministers and their wives were guests of Mr. Carl Mote, of Indianapolis, president of the Northern Indiana Telephone Company, at a lecture and chicken dinner Tuesday afternoon and evening, at the Mentone Methodist church. Those attending were from towns along the telephone system.

The main speaker, Miss Gertrude Coogan, student of political science and expert on the monetary systems of the world, gave a very interesting and instructive talk on "How to Keep the United States Out of War." After her talk, an extensive discussion of the current monetary situation developed between the speaker and persons in the group. The dinner was served by the ladies of the church.

Dr. Donald Van Gilder is attending the annual state dental convention at Indianapolis this week.

Mr. and Mrs. Roy Cox moved from the R. C. Greulach property to the Isaac Sarber house last week.

Well-Known Resident Passes Away Sunday

Services for Mrs. Levi Jefferies
Wednesday at 2:00 P. M.

Mrs. Margaret Catherine Jefferies, aged 83, died Sunday morning, May 19, at 7:30, at the home of her daughter, Mrs. I. F. Snyder, in Mentone. Death was due to complications of old age. She had been in ill health since breaking her hip after a fall four years ago.

Mrs. Jeffries was born in Kosciusko county, August 16, 1856, the daughter of Simmeon and Elizabeth Bechtelheimer. Her husband, Levi Jefferies, who had been a well-known undertaker in Mentone for 46 years, preceded her in death six years ago. The deceased was a member of the Mentone Methodist church, the Order of Eastern Star, and was prominent in the civic and social activities of the community.

Surviving relatives include one daughter, Mrs. I. F. Snyder, of Mentone; two grandsons, Sheridan Snyder, of Flint, Mich., and Robert Snyder, of Evansville, Ind., and one sister, Mrs. George Arnsberger, of Mentone.

Funeral services will be conducted Wednesday afternoon at two o'clock, at the Reed funeral home, by Rev. E. E. DeWitt. Interment will be made in the Mentone cemetery.

Injuries Are Fatal To Lyman Dunnuck

Injuries received April 12, proved fatal to Lyman Dunnuck, 75, well-known resident of Palestine. Mr. Dunnuck was struck by an automobile during a blinding snowstorm near his home, Friday, April 12, and had been in a critical condition at the McDonald hospital in Warsaw from that time until his death Saturday evening at 9:00 o'clock.

Funeral services were held at the Palestine Christian church, Tuesday afternoon at 2:00 o'clock (CST) with Rev. Fred Vincent officiating. Burial was made in the Palestine cemetery.

Mrs. Eherenman Rites At Mentone Saturday

Funeral rites for Mrs. Albert Eherenman, who formerly resided four miles west of Mentone, were held at the Mentone Baptist church, Saturday afternoon, May 18, at 2 o'clock, with Rev. Miller, of Fort Wayne, officiating.

Mrs. Eherenman expired Thursday morning at the home of her daughter, Mrs. Bertha Doty, Fort Wayne. Death was due to complications and followed an illness of five months. The deceased had been bedfast since last January. She was nearly 80 years of age.

Surviving relatives beside the daughter are: two sons, Adam, of Laporte; Lloyd, of Plymouth; and a sister, Mrs. Ambruse Eherenman, of South Bend.

A NEW GADGET!

One evening last week, a local service station attendant called our attention to a small gadget which had been given him by a machinist in a neighboring town. This inexpensive device, of which every automobile can use several, will be patented by the maker and stands a good chance to bring him large royalties.

It is small, useful gadgets like this that many times bring enormous wealth to the inventor and inspire others to search for better ways and means to do things. When a product such as this is put on the market, its simpleness makes us all wonder why we didn't think of it first.

STATES' MOTORISTS PAY ONE-THIRD OF REVENUE

Nearly one out of every three dollars collected in revenue by state governments come from the pockets of Mr. Motorist in the form of gasoline taxes and license fees, Charles M. Hayes, president of the Chicago Motor club, pointed out today.

Of the three billion, eight hundred thirty-one million dollars collected by states in 1939, 20.9 per cent represents the tax on motor fuels, he said. More than 362 million dollars, or 9.5 per cent of the revenue came from motor vehicle license fees, making a total of 30.4 per cent of the states' tax income.

The United States' exports in March 1940 were \$344,000,000 which was 30 per cent greater than they were in March 1939.

Band Concerts Start Saturday Evening

The first band concert of the season will be given Saturday evening, May 25, on the street by the Community Band, under the direction of Walter E. Bowers, the weather permitting.

The concerts will continue each Saturday night during the summer months. The feature of the evening will be a cornet duet, "My Buddy," by Kleffman, and played by Iris Blackwell and Belva McGowan. Mr. Bowers has announced that a well-rounded program of band numbers has been arranged to complete the evening's entertainment.

The concerts this year are sponsored by the Mentone merchants, the professional men, and civic-minded individuals. A list of the donors will be published in the Co-Op News at a later date.

IT'S NO MUSH-RUMOR!

Don Paxton, of near Etna Green, was in town Monday evening telling of the results of a week's mushroom hunting. In his car he had the proof to show doubters. While here, he sold several hundred to those who enjoy the delicacy on the table but will readily admit that they just can't find them.

Ralph Ward, the Wagner boys and Rex Witham also report a successful excursion into the woods in search of the edible fungi. They brought back 3½ gallons of mushrooms after a short hunt Tuesday afternoon.

FROG HUNTING IS BANNED DURING MAY

The frog hunter is "on vacation" along with the bass and bluegill fisherman this month, Virgil M. Simmons, commissioner of the Department of Conservation, said today, in calling attention to the Indiana law providing for a closed season on frogs from May 1 to June 10.

Indiana has two open seasons for taking frogs, one extending from April 1 to April 30, and the second starting June 10 and ending Oct. 31. The law does not establish a bag limit or a minimum size for frogs during the open season but penalties are provided for taking frogs out of season.

Dog Owners Must Have 1940 License

With the annual tax still unpaid on many dogs in Mentone and Kosciusko county, authorities in charge of enforcement of the collection of the tax today warned that it may be necessary to file suits against persons who are returned delinquent at the close of the assessing period. Wednesday, May 15, was the deadline for payment of the dog tax. Within five days after that date the law provides that all records pertaining to the collection of dog taxes, including carbon copies of receipts for such taxes as have been paid, must be in the hands of township trustees. The 1937 dog tax law further provides that after 10 days notice has been given persons who have failed to pay their tax, affidavits must be filed against all such delinquents.

The statute also provides that the township trustee shall, before the second day of June, turn over a record of persons owning or harboring untaxed dogs to the prosecuting attorney, who shall bring an action before a justice of the peace or in the circuit court against such persons, and upon conviction a fine of \$5 shall be assessed against the offenders. The 1937 law provides that the

prosecutor's fee be taxed against the dog tax delinquent along with the judgment for the tax and court costs. The cost to persons convicted of being dog tax delinquents would be many times the cost of the tax. Many persons are laboring under the erroneous impression that they are not required to pay the 1940 tax on a dog acquired after March 1 this year. The law requires that anyone acquiring a dog after the close of the annual assessing session shall report it to the township trustee, pay the tax and receive a receipt and a tag to be worn by the dog.

There are about 2,000,000 stamp collectors in the United States and 5,000 dealers who deal exclusively in stamps for collectors.

Child's Amazing Gift of Prophecy Intrigues Science

Tiny Girl Predicted War in Europe and Many Other Events.

NEW YORK.—Prophecies so accurate as to impress scientists are coming these days from the bright lips of Faith Hope Charity Harding, 4½ years old, of Trucksville, Pa., fourth and youngest child of Harry Harding, manufacturer and salesman.

Faith's oracular powers have won the interest of Dr. J. B. Rhine of Duke university in North Carolina, whose experiments in extrasensory perception have attracted international attention. The psychologist has asked for a record of the child's predictions, which include the war in Europe, the Hitler-Stalin pact, and the attack on the duchess of Kent, not to mention the school-house fire in her native Trucksville.

First Prediction.

The child first disclosed her gift when, barely 18 months old, she sat on her mother's lap in the office of Attorney Jercek in Wilkes-Barre and said:

"Mummy, Frank McWiggin is dead."

"I didn't know what Faith was talking about," Mrs. Harding said. "Then I realized she was speaking of a family friend who had drawn up the incorporation papers for my husband's business. She was so insistent that I went to the phone and called Mr. McWiggin's office. They told me he had gone to New York and would be back Saturday."

Next day the Hardings learned that Mr. McWiggin had fallen dead in the Pennsylvania hotel in New York.

Mrs. Harding, prematurely white haired and dressed in simple black, recounted Faith's revelations while the child played about.

"A week before Richard Halliburton left China Faith suddenly warned us that he must not sail on the junk," said Mrs. Harding. "She told us waves would engulf him if he did. It was all Greek to us. We didn't even know who Halliburton was until we read later in the papers that he was missing."

From what her mother says Faith knows even less than her parents about these prophecies. Five minutes after she has uttered them she can't repeat a single word of what she has said. Mrs. Harding, or any one else handy, takes them down. Often they come in the middle of the night.

"I've got so now," said Mrs. Harding, "that when Faith's predictions seem important I have them notarized so that we may check up systematically later."

With, a thin, brown-eyed child with an elfin smile, speaks in a baby voice and declares she has no knowledge of these predictions. When interviewed in New York Faith insisted that when she grew up she wanted to wear a green silk dress and be a magician. Her mother was out of the room.

"I don't think Faith has ever used the word 'magician' before," said Mrs. Harding when she returned and was told of the conversation. Asked what the word meant, Faith shook her head and skipped off.

"She has different phases of consciousness about all this," Mrs. Harding explained. "As a rule the most important prophecies come to her at night. She may be almost awake, in a trance, or just on the borderland. Whoever she speaks through calls herself an entity. Often she uses words I've never heard and usually talks in archaic English."

Evidence Reveals Dog

Trained to Steal Sheep

GRAHAMSTOWN, SOUTH AFRICA.—A specially trained dog was described as the key member of a band of native sheep stealers, when Kalele Gxowa, the leader of the gang and owner of the dog, was sentenced here to six years' imprisonment and eight lashes for stock thefts.

Gxowa's brother-in-law told the court how the sheep stealer had trained a dog to go out at night and catch sheep. Gxowa used a whistle to direct the dog, and also to signal the natives of Grahamstown that he had meat to sell.

Among the witnesses was the eight-year-old daughter of the accused man. She said that her father took her out on his bicycle at times to help catch sheep.

Handcars Used to Steal

Railway Station Safes

MONTREAL.—Not content with stealing the safes from two local stations of the Canadian National Railways, thieves "borrowed" the railway's handcars to transport their loot from the scene of the crime.

Breaking into the station at St. Eustache and Crabtree Mills, the thieves trundled out the strong boxes and transported them down the track aboard handcars to be opened at their leisure. Using hammers and other tools to open the safes, the thieves got \$125 from St. Eustache and \$11 from Crabtree Mills. Both the handcars and the empty vaults were found beside the tracks.

Realistic Dream

The dream of Mrs. Mary Johancovic, Toledo, Ohio, that her son's bed was on fire was so vivid that she awoke panic-stricken and rushed to the boy's room just in time to save him from flames that were enveloping the bed. He had fallen asleep while smoking a cigarette.

TRAFFIC INCREASED ON STATE ROADS IN APRIL

An increase of nearly five per cent in traffic on the state highway system during April in comparison with the same month in 1939 was reported today by T. A. Dicus, chairman of the State Highway Commission.

An average of nearly three thousand vehicles per day during April was shown by the automatic traffic recorders used by the State Highway Commission and the Highway Planning service in checking variations in traffic flow on the state system.

April was the third consecutive month to show an increase in traffic during 1940 over the same months in 1939. In February the average was 8.2 higher, in March 7.6 above March 1939, and April shows a gain of 4.7 per cent over the preceding year. January 1940 was 3.5 per cent under January 1939 in traffic flow as shown by the automatic recorders.

Rex Mays to Pinch Hit For Retired Lou Meyer

INDIANAPOLIS, Ind. — The old master of the Speedway has picked an apt student of speed as his "successor."

Louis Meyer, triple winner of the 500-mile race in 1928, 1933 and 1936, is all through as an active competitor on the roaring road.

But he has named Rex Mays, colorful "Glendale Ghon" of California, to drive his high-powered race car in the big race May 30th on the Indianapolis Motor Speedway.

Mays, while a fast qualifier since 1934 and a pace setter in several races since then, has never finished the 500 miles. This year he is accorded his best chance, for Lou Meyer will pass on to the 27-year-old star all of his sage advice on winning the "500," together with the fastest car on the track last year.

The Mays-Meyer combination will be a tough one to beat.

Two Minute Sermon

By Thomas Hastwell

THESE FAIL TO FIND GOD: In the remarkable prophecy of Isaiah appears the words "Seek ye Jehovah while he may yet be found; call ye upon him while he is near." This verse has come to me often as I have talked with men who have never worked out in their own lives a satisfactory religious experience. They have neglected or refused to face the necessity of such a thing. They have seemed to follow the line of least resistance deliberately, avoiding to face the question of religion in their lives as though it were a thing that time would take care of with no effort on their part. They do not realize it, but they fail to seek Jehovah while he may be found, or to call on him when he is near. The time comes in their lives when they seem to lose the desire to establish a satisfactory religious life or having such a desire do not know how to achieve it. They have created within themselves a condition and an attitude in which God seems no longer near and even difficult for them to find. I know that such men are not content. They realize that they have not solved life's biggest problem by evading it. They would like to correct their error but they do not know how. They realize they have failed to seek God when he might have been found, and to call upon him when he was near.

CHARGES ARE FILED

Charges of public indecency have been filed in circuit court against Oliver Smith, Mentone, who was arrested Saturday night by State Police Officer Clayton Clutter. Smith has been released from the county jail under bond of \$500.

After a recent head-on collision in Minnesota in which two automobiles were involved and eleven persons killed, it was estimated that both cars were traveling at eighty miles an hour at the time of the collision. For once, at least, two fool drivers met on the highway.

Obliging Hen

A hen which prefers a warm kitchen chair to a cold nest saves N. J. Detweiler, Middlefield, Ohio, a shivering trip to the henhouse for his breakfast egg. "Every morning about dawn," says Detweiler, (who insists this is the truth) "this hen scratches on the kitchen door. When I let her in she climbs on a cushioned chair and a few minutes later cackles to announce that she has laid her egg."

A property sold recently in this

We believe that to get full and
exact justice done, that all chicken
thieves should be tried before a jury
of farm women who have had ex-

them as chicks, fighting the rats and
skunks that prey upon the flock. As
a precaution, it might be well for
the judge to explain to such a jury,
before it retired to the jury room,
that the law of the land does not
contemplate the death penalty for
chicken stealing.

YESTERDAY AND TODAY!

Many who brag on the good old
days, the horse and buggy days, for-
get that a part of those times were
the mud roads, no telephones, few
bath tubs, no rural delivery, no ra-
dios, no parcel post, no airplanes, no
automobiles, people with appendic-
itis died, no one swatted flies, there
were no mechanical refrigerators,
and hospitals were few and far be-
tween. When the doctor was wanted,

some one had to go after him and
he had to drive to his case in a horse
and buggy.

However, some of the advantages
of those times, not offsetting the dis-
advantages, were cream at 5 cents a
pint, 6 loaves of bread for a quarter,
the butcher made no charge for liver,
shaves were ten cents, there were
few traffic accidents, few foreclosur-
es, little bank failure, few operations,
no Hitler, no Communists, no dicta-
tors.

Son of Famous Driver Shines at Indianapolis

INDIANAPOLIS, Ind.—You can't keep a good son down! Bill DeVore, son of hard-driving Earl DeVore, who finished second in the 500-mile race at Indianapolis in 1927, has returned again to the famous Hoosier racing oval to prove that statement on May 30.

Earl DeVore perished when the S. S. Vestris sank at sea in 1928. He had taught Bill the rudiments of race driving, and Bill's idol always has been his father. Bill saw his dad compete against DePalma, DePaolo, Lockhart and other driving wizards. "They were all great," he says, "but anytime my dad was out there with them they had at race."

Young DeVore has finished "in the money" for the past three consecutive years at Indianapolis. He started in 33rd position in 1939, and finished in the tenth spot. "My car was wrecked in practice and we had to sweat to get in the race at all," he explained. "I'm going to win yet—just for dad."

Those present were: Evelyn Shilling, Faye Stickler, Esta Mae East, Louise Jones, Cora East, Glea East, Sylvia Stickler, Blanche East, Irene Black, Grace Mahler, Edna Jones, Ada Brown, Louise Summy, Manta Bear, Kate Vandermark, Ruth Howard, Ella Mae and Phil Shilling, Geroline and Betty Jean East, Mary Louise and Paul, Norman Summy, and the hostess, Carrie Wiltout.

Methodist Church Is 100 Years Old

On next Saturday morning at 9:30, there will be a special program at the Methodist church observing the one hundredth anniversary of Methodism in the Mentone Community. There will be special music, a history of the church read, and a sermon by the minister. This service will be the last for the present conference year of thirteen months which closes with all reports made out as of May 31st.

Rev. E. E. DeWitt, the present minister-pastor, came to the Mentone Methodist church on April 1st, 1933. A unanimous and urgent request has been sent by the committee on pastoral relations to the bishop and his cabinet, of the North Indiana Conference, requesting the reappointment of Rev. DeWitt to the Mentone Methodist church for his 8th year. The first session of the said conference will be held at the Warsaw Methodist church on Wednesday evening, June 5. About 700 ministers and lay delegates are expected to be present.

The local merchants have announced that there will be a street show Thursday night, May 30.

Memorial Day

ENGAGEMENT ANNOUNCED

The engagement of Miss Pauline Swick, daughter of Mr. and Mrs. Fred Swick, to Mr. Hale Herd, son of Mr. and Mrs. Roy Herd, of Logansport, was announced to a group of friends at the Dietition Home of the Michael Reece hospital in Chicago, Saturday night, May 25.

The names of Peenie and Hale, written on white ribbon, was found in the center of floral nosegays presented to each guest. Miss Swick is the home economics instructor of the Mentone high school.

Loses Three Fingers

Lawrence Anglin, employee of the Etna Green lumber yard, received first aid treatment at the office of a local physician, after mangling several fingers on his left hand while working on a joiner. He was rushed to the Parkview hospital in Plymouth where it was found necessary to amputate three of the injured fingers.

Wayne Tombaugh was in Fort Wayne Thursday.

Home Economics Club Holds Family Night

Members of the Mentone Home Economics club and husbands assembled at the Mentone high school assembly room Saturday evening, May 25, for the annual Family Night meeting. A bountiful pot-luck supper was enjoyed by all present.

After the repast, the assemblage was called to order by Mrs. Esther Sarber, club president, and joined in singing "America." Members responded to roll call with "Thoughts About Mother." The Misses Jane and Anna Leininger gave a beautiful duet and responded to the encore. Carol Rose Weissert gave two piano solos that were very well presented, and also sang a solo.

Those present then sang a number of old-time favorite songs and adjourned to meet June 13th at the home of Mrs. Mary Borton.

Rev. E. E. DeWitt and Paul Rush attended the Argos Community Father and Son banquet, which was sponsored by the Argos churches. Rev. DeWitt gave the principal address.

Local Couple Observe 60th Anniversary

Mr. and Mrs. David Holloway, of Mentone observed their 60th wedding anniversary Sunday, May 26, at their home here. The couple held open house to their many friends and neighbors Sunday afternoon.

Mrs. Holloway, who is 80 years of age, moved to this county from Pennsylvania when she was 19.

Mr. Holloway was born in Franklin township and has resided here all his life. He was 81 the 6th day of this month.

The couple made their home on a farm until about 15 years ago when injuries sustained in an accident forced Mr. Holloway to retire. They then moved to their present home in Mentone.

The Holloways have one daughter, Mrs. Ray Dillingham, of Mentone, and two sons, Bert, who lives east of Mentone, and Ervin, of Fort Wayne.

There are five grandchildren, Miss Georgia Dillingham and Clayton Holloway, of Mentone, and Wilbur, Merl and James Holloway, of Ft. Wayne.

Three great-grandchildren are Bobby Holloway, of Mentone, and Rozella and Patricia Ann Holloway, of Ft. Wayne.

HOLD WEINER ROAST

A group of nine young ladies from Mentone held a weiner roast at a roadside park on U.S. 30, near Warsaw last Friday evening. All report, an enjoyable evening, an agreeable meal and no burned fingers.

Former Resident Dies at Milford

Funeral services for Mrs. Alida Stockberger, 78, wife of the late Dr. Emanuel Stockberger, who died at her home in Milford at 10:05 p.m., Wednesday, May 22, were held Saturday at 2 p.m. at the Stockberger home with Rev. Walter Krider officiating. She had been ill with paralysis for the past three years.

The deceased, a former resident of Mentone, and of Durham, Kan., had resided for the past 40 years in Milford. She was born in Cromwell on March 12, 1862, daughter of the late George W. and Sarah DeBrular Reed and was one of 13 children. On December 17, 1884, she was wed to Dr. Stockberger. He died on January 25, 1937. She was also a member of the Milford Methodist church.

Surviving is one son, Dr. C. Vernon Stockberger, of Milford. Another son, Roy, died January 17, 1940, at Ridgewood, N. J.

Burial was made in Milford cemetery.

Indian Racer to Drive For Bill White in '500'

INDIANAPOLIS, Ind. — The big White man is putting his chips on the Red this year. Bill White has selected a Cherokee Indian to drive for him in the 500-mile race at Indianapolis May 30th.

Joie (Big Chief) Chitwood is the only Indian in big time competition. He's a rugged individual who starred as halfback on the Haskell University Indian football team in Kansas, and who flashed to attention shattering twenty records on dirt tracks last year.

This marks his first attempt to win glory at Indianapolis, and the chief is ready to whoop it up the minute they fire off the starting bomb.

Two Minute Sermon

By
Thomas Hastwell

GOD IS READY BUT MAN IS NOT: "Why is it, if God can control such things," some one asked in a group in which I was present recently, "does He permit wars and injustice and ruthlessness to exist on this earth? Why doesn't He put an end to war and stop once and for all the suffering that it causes? Why doesn't He bring about now the Kingdom of God upon earth?" The answer to these questions is found, I think, in the fact that while God

controls the physical universe, man is a creature of choice and decides his own actions. Since war is a man-made activity, it can only be stopped by man. The Kingdom of God cannot come upon earth until it first comes in the hearts of men. God has a plan for man and this earth, the goal of which is the creation of the Kingdom of God upon earth, when wrong and wars and suffering shall be no more. God is ready now to bring to completion his plan, but man is not. Until man is ready and willing, the coming of the Kingdom of God on earth will be delayed. It may take hundreds, or thousands, or millions of years for man to acknowledge and accept God's will. However long it is delayed, God's plan will endure. It will not be changed, but it must wait upon the acceptance of man.

Information Booths To Be Established On State Highways

Two information stations to serve tourists coming into Indiana will be constructed on Indiana highways at state borders, T. A. Dicus, chairman of the State Highway Commission, announced recently. One of the booths will be located on U. S. 40, in the western part of the state, and the other in the northern section of Indiana—probably on U. S. 20. Definite locations will be set within a few days.

The stations will be modern in construction and equipped for the accommodation of persons seeking information about Indiana—its roads, state parks, lakes, and points of historical and scenic interest. They will be in charge of competent managers and will be open from early morning until late in the evening each day of the week.

The information booths are being established by the Commissioner in an effort to meet the growing demands of tourists who visit Indiana in increasing numbers each year. The two booths will be operated until late in the fall, when the Commission will decide how many additional stations will be necessary next year, and what changes in operation will be needed.

PROPAGATE WALL-EYE PIKE AT HATCHERIES

Artificial propagation of millions of wall-eye pike eggs is in progress as the Wawasee and Tri-Lakes state fish hatcheries, preparing for the annual restocking of Indiana lakes and streams with this popular game fish, Virgil M. Simmons, commissioner of the Department of Conservation, announced today.

Two hundred quarts of wall-eye eggs were secured this year by the Division of Fish and Game, each quart including approximately one hundred thousand eggs. The eggs are placed in special jars and kept agitated by running water. As the young fish are hatched they are collected in special holding tanks and then transported to lakes and streams previously selected for planting.

Wall-eye pike are among the most popular of the Indiana game fish and are found in most of the lakes and streams throughout the northern part of the state, the Tippecanoe River and tributary streams of the Ohio River.

TWO CHAMPIONS TO MATCH RACING SKILL AS ARCH RIVALS ON HOOSIER SPEEDWAY

Wilbur Shaw, great winner of the 1937 and 1939 500-mile races, will have doughty Kelly Petillo, winner in 1935, as one of his chief rivals May 30th in the Indianapolis Motor Speedway.

INDIANAPOLIS, Ind. — There's a two-man feud flaring in the one-man cars in the 500-mile race this year.

The party of the first part is Kelly Petillo, the doughty California Italian who won in 1935. The party of the second part—and he wants no part of the party of the first part—is colorful Wilbur Shaw, winner of the speed classic in 1937 and 1939.

These two former winners of America's greatest automobile race are raring to "take" each other May 30th in the Indianapolis Motor Speedway. They're both nervy. They're both skilled chauffeurs. And they'll both be ready to run off a natural rivalry on May 30th.

Petillo and Shaw became rivals in 1935, when Wilbur stayed on Petillo's tail for 150 miles and trailed the Italian across the finish line by a scant 40-second margin.

In 1936, Petillo was all set to retire and live on his winnings. He named Doc MacKenzie as his driver and stayed in the pits. But in the last stages of the race with MacKenzie running seventh, behind Shaw, Petillo couldn't resist the temptation to get out and drive again. He called MacKenzie into the pits, drove like fury and finished his car in third place, well ahead of Shaw who wound up seventh.

Shaw had his day in 1937, when

he gave a sensational performance to win by two seconds over Ralph Hepburn. Petillo didn't finish. Shaw was second in the 1938 grind, and Petillo again was out. Petillo's car broke down in the final stages of the 1939 contest, while Shaw again flashed across the line—a two-time winner.

Petillo's burned at his luck—and at Shaw. "Just give me a couple of breaks on May 30th, and I'll trim Shaw just like I did in 1935," he growls. And Wilbur grins back: "Okay, Kelly, keep up with me for the first four hundred and we'll have a race all our own in the final hundred miles."

So watch for that speed duel. These boys really want to race!

JUDGE AND JURY

The most popular man in a western town had got into a difficulty with a disreputable tough who was the terror of the place, and had done him up in a manner eminently satisfactory to the entire community. It was necessary to vindicate the majesty of the law, however, and the offender was brought up for trial on a charge of assault with intent to kill. The jury took the case, and were out about two minutes, when they returned.

"Well," said the old judge in a familiar off-hand way, "what does the jury have to say?"

"May it please the court," responded the foreman, "we, the jury, find the prisoner is not guilty of hitting with the intent to kill, but simply to paralyze, and he done it."

EXCUSABLE

"Why did you refuse to answer that man who asked you how you were going to vote?"

"Because he wasn't looking for information. He was only trying to start an argument."

Easy

A teacher was trying to demonstrate a simple experiment in the generation of steam.

"What have I in my hand?" he asked.

"A tin can," was the answer.

"Is the can an animate or an inanimate object?"

"Inanimate."

"Exactly. Now can any boy tell me how it is possible to generate a surprising amount of speed, and power almost beyond control?"

One little boy raised his hand.

"You may answer, William."

"Tie it to a dog's tail."

Fun Ahead

The portly gentleman strolled up to one of the seats in the park, and, having seated himself comfortably, was soon absorbed in his newspaper. After a while he began to be annoyed by a small boy who persisted in steadily staring at him, and at last he could bear it no longer.

sioner of the Department of Conservation, pointed out recently.

A total of 750,000 ducks and 50,000 geese have been seen by the wardens this spring, indicating that an increasing number of these birds are being enticed to pass through or nest in Indiana. Responsible for the attraction of both ducks and geese to this state are the marshes at the Kankakee and Jasper-Pulaski game preserves, and the large number of artificial lakes which have been built at state parks, game preserves and other properties.

Among the species of ducks reported by the wardens, are: mallard, black duck, blue-winged teal, wood duck, scaup, buffle-head, pin-tail and red-head. The most common geese found are of the Canada species.

SHAW TO SHOOT AT MEYER'S TRIPLE VICTORY IN RENEWAL OF INDIANAPOLIS '500' MAY 30

Wilbur Shaw (inset left) will be aiming for a third triumph at Indianapolis May 30th, the feat having been accomplished by only one driver, the great Lou Meyer (inset right). The thrilling speed classic, start of which is shown offers obstacles, however, and Shaw must be great to duplicate Meyer's triple.

INDIANAPOLIS, Ind. — The defending champion of the "500" will be shooting May 30th at the "unbeatable" achievement of the three-time winner.

Wilbur Shaw, colorful Hoosier speedster, with victories in 1937 and 1939 in the Gasoline Derby on the Indianapolis Motor Speedway, has vowed he will equal the triple triumph of the great Louis Meyer of Huntington Park, California.

Meyer's wins in 1928, 1933 and 1936 stamped him as an "immortal" in Speedway history. He holds this distinction alone. Previous to 1939,

when Shaw repeated, Tommy Milton, the victor in 1921 and 1923, was the only driver outside of Meyer who had taken more than one winning checkered flag at Indianapolis.

Iron Man Lou retired from competition after last year's race, having turned in 5,249 competitive miles in "500" racing before hanging up his goggles. And in quitting Meyer drove one of his greatest races before his car wrecked after a spin with but a few laps to the finish line. He had been leading.

Shaw has taken from Meyer the honor of being the greatest money

winner at Indianapolis, earning \$71,300 in Speedway prizes alone.

Wilbur's fans, while acknowledging the exploit of Meyer in getting the checkered flag three times, are pulling for Shaw to land his "triple" rank along with the retired three-timer.

Thirty-two other fast drivers, however will be whizzing around the two and a half mile speedway determined to be across the finish line ahead of Shaw.

Can Shaw repeat? That question will be answered May 30th before 150,000 cheering race enthusiasts.

When we separate the word "business" into its component letters, b-u-s-i-n-e-s-s, we find that "U" and "I" are in it. In fact, if "U" and "I" were not in "business," it would not be business. Therefore, if business is to remain "business," we must keep "U" and "I" in it. Furthermore, we discover that "U" comes before "I" in business and that the "I" is silent—it is to be seen, not heard. Also the "U" in business has the sound of "I" which indicates that it is an amalgamation of the interest of "U" and "I" and when they are properly amalgamated, business becomes harmonious and altogether profitable.—Exchange.

Racing Blacksmith Set to Hammer Out Victory on Speedway 'Anvil'

Russell Snowberger, Detroit's "racing blacksmith," shown while tuning up for the big race at Indianapolis.

INDIANAPOLIS, Ind.—The smith, a mighty driver is he—

Yessiree! Russell Snowberger, the racing blacksmith, is one of the best in the business of forging winning links in auto racing.

Five times in the money at Indianapolis, Snowberger came back to the famous Hoosier speedway with the honor of having the winning car in the Pike's Peak hill climb in 1939.

He's a veteran, but don't call him old if you value your health. "Snowy" first drove into the money at Indianapolis in 1930, and ten years later he's one of the reliables when it comes to picking a challenger to displace Wilbur Shaw as champion.

He grew strong swinging a hammer on an anvil and he got tough tooling racing cars at high speed around every track in the country.
