## WEATHERMAN SCARED HALLOWEENERS OUT

"The best laid plans of mice and men..." etc.

The big Halloween carnival planned for last Friday evening had to be cancelled at the last minute due to very unfavorable weather. There was no snow or lightning but we did have a taste of about everything else the weatherman has to offer. A few square-dancers did manage to get to the hall but most of them left early.

## WHAT OTHER'S SAY—

The T. T. O. NEWS, published by the distributors of O'Brien Paints and circulated among dealers throughout the United States, recently published the following:

Here's Another 100%  
O'Brien Paint Job

This attractive new home is owned by Raymond S. Bare of Mentone, Indiana, and was finished inside and outside with O'Brien's Pre-Shrunk Finishes. It's a 100% O'Brien job and the exceptionally fine results were 100% satisfactory.

The outside of the house was painted with the ever reliable O'Brien T. T. O. House Paint System — one coat Penetrating Priming Oil, one coat T. T. O. White Primer and one coat T. T. O. Paint.

Inside, O'Brien Pen-chrome Dye-coats were used on all the trim, except in the kitchen and bathroom. Pen-chrome Natural Oak Floor Finish was used in finishing the oak floors.

The kitchen and bathroom were decorated with one coat Liquid Velvet Wall Primer and two coats Liquid Lite Non-Yellowing White Enamel.

Earl Nellans and C. D. Meredith did the painting and the Northern Indiana Cooperative Association, O'Brien distributors in Mentone, supplied the paints for the job.

### BASKETBALL SEASON STARTS

Rehearsals are nearing an end. The time for the curtain to rise on Kosciusko county basketball is here. In fact, the stage hands shouted "take her away" Saturday night and eleven of the county's fourteen teams went

into action. Only Etna Green and Beaver Dam did not start November 1, while Warsaw will be about three weeks behind in getting down to public cage play. Fans as well as players will find few changes in the rules for the coming season. Most rule changes were for clarification of certain sections which had resulted in varied interpretation during the past year.

### NEW CHEER LEADERS SELECTED

Tuesday noon, Oct. 28, the annual election for cheer leaders was held. There were two teams participating in the tryout; one made up of Roger Hodges and Genevieve Kraatz, the other, Mary Esther Smith and Kenneth Simcoe. The election was in favor of Hodges and Kraatz.

Voters were the basketball squad, band members, and this year's season ticket buyers.

### GIRL SCOUTS HAVE MASQUERADE

The Girl Scouts of Mentone had a Halloween party Tuesday night, Oct. 28, at 7:00 in the school house. They all came masked. Those present were: Gertrude McClane, Jean, Joan and Martha Elliott, Patty Witham, Mary Beth and Patty Shinn, Phyllis Lemler, Eleen Kercher, Norma Jean Nellans, Joan Ruse, May Jankee, Jane Leininger, Miss Pottenger and Miss Paulus.

Refreshments consisted of popcorn, apples, fudge and cider.

### CROPS

Dig That Dandoline.

Dealers in medicinal herbs are adding dandoline roots to their lists this fall, paying about 25 cents a pull for them.

With importation of many drugs cut greatly, use of dandoline root is forecast, and demand by drug manufacturers in this country is growing. Fall is the time for gathering the roots and they must be dried.

### LUNCH SERVED TO HIGH SCHOOL STUDENTS

The Sophomores of "41" served lunch at noon Wednesday, the first this year. They had a very good attendance. The student report was good.

### FROM THE DIAL

Mr. Gildersleave spent considerable time trying to get in his own home—and keeping Oliver from catching something he didn't already have.

"We the People" had a number of interesting people on their program. For instance, the man who made the high parachute jump told his story. The song hit that has hit the strings of all the orchestras is "I Don't Want to Set the World on Fire."

Lincoln Highway presented two very famous stars on their program and the story of a spoiled girl—trying to win her way into her husband's heart.

The "America, the Free" program—starring the Kingston Band—played a great number of songs, including "I Don't Want to Set the World on Fire."

### MUSIC FIELD

The selective music numbers for the bands have been cut down to five. This music has been selected with greatest care for required contest music. The required number will be selected the week after Thanksgiving.

The band having four of these numbers hopes one of these will be selected.

Director Bowers feels like the band is back on its feet. He is making the plan for our spring concert.

Two new clarinet students have made their appearance before the bands.

## HUNTING SEASON WILL OPEN MONDAY

Open Season on Rabbits, Pheasants  
Quail and Partridges.

An army of a quarter of a million Hoosier sportsmen is ready to move into action next Monday (Nov. 10) when Indiana's hunting season begins, Hugh A. Barnhart, director of the Department of conservation said today.

Monday will be the opening day of the hunting season for rabbits, quail, pheasants and Hungarian partridge throughout Indiana. With every prospect for the best hunting that Hoosiers have enjoyed in many years, a record number of hunters is anticipated on the opening day and during the season. Tuesday, a holiday in observance of Armistice Day, will give additional thousands of sportsmen opportunity to get into the fields.

Attention was called by Mr. Barnhart to the Indiana laws governing hunting, in an appeal for observance of these regulations established for the protection of the sport. Especial emphasis was laid on the fact that all persons must have a hunting license, only exceptions being resident landowners and tenants when hunting on their own land; that permission must be obtained to hunt on the lands of another; that guns and other hunting equipment can be confiscated for violations of the hunting laws.

The open season dates and bag limits include:

### Rabbits

Open season from Nov. 10 to Jan. 10; with a daily bag limit of 10 and a possession limit of 20.

### Quail

Open season from Nov. 10 to Dec. 20; with a daily bag limit of 10 and a possession limit of 30 after three days of lawful hunting.

### Pheasants

Open season from Nov. 10 to Nov. 19, with a daily bag limit of two,

This is the November safety poster, now being distributed among 40,000 classrooms in Illinois and Indiana by the Chicago Motor Club. The second of the year's series, **TEACH YOUR FRIENDS**, its actual size is 17" by 23" and the colors are vivid orange, black and white.

Charles M. Hayes, president of the motor club, says that lesson sheets, designed to assist teachers with safety instruction, are enclosed with each poster. The lesson sheets are separated into three age groups and prepared to appeal to all age levels.

one of which may be a hen pheasant, and a possession limit of four, two of which may be hen pheasants.

### Hungarian Partridge

Open season from Nov. 10 to Dec. 20; with a daily bag limit of 5 and a possession limit of 10 after two days of lawful hunting.

Hunters were reminded that there is no open season in Indiana on ruffed grouse, chukar partridge, wild turkey or doves. Both red and grey fox may be killed at any time throughout the state but the open season for other fur-bearing animals—raccoon, opossum, skunk, mink and muskrat does not open until Nov. 15 and possession of any of these species before that date is evidence of law violation.

### CAR WRECKS AND MIRACULOUS ESCAPES

Two auto wrecks the past week have ended with two badly damaged autos and two scarcely scratched drivers.

Tuesday of last week Dale Beeson left the road north of town and hit a log on the butt end. The car chassis was practically torn loose from the body and the motor pushed back towards the front seat. The driver had one bump above the nose.

Monday night Dick Manwaring left the road at the jog in Highway 19, south of town, and went between two trees or stumps that were too close together to allow the car to get through unscathed. None of the wheels hit the trees, but branches evidently started peeling the body off, starting with the door post at the right side of the wind shield. Fortunately, the driver's seat escaped the swirling mass of powdered glass, bent tin and torn upholstery.

Both accidents, it was reported, occurred when the drivers dozed off, momentarily.

### INDIANAS TO SEE NEW BATTLESHIP LAUNCHED

Indianapolis, Ind., Nov. 10.—U. S. Navy officials drew up final plans here to accommodate a party of 300 Hoosiers who will witness the launching of the U. S. S. INDIANA at Newport News, Virginia, on Friday, Nov. 21.

Headed by Gov. Henry Schricker, the party will leave Indianapolis on Nov. 20 and arrive in Newport News early Friday morning. After a tour of the historic Mariners Museum, the party will proceed to the site of the launching.

Following addresses by Secretary of the Navy Frank Knox, Governor James H. Price of Virginia, and Gov. Schricker, the Navy's newest battleship will slide into the James river at 10:53 A. M. (EST) high tide. The ship will be christened by Mrs. Lewis Robbins, daughter of Governor Schricker.

When the INDIANA drifts to a stop, tugs will take her in charge for her maiden voyage, a half-mile trip to the fitting-out pier. Twenty-three men will be required to man the triggers, valves, drops and jacks which guarantee the ship's launching.

Immediately after the launching ceremonies, the party will tour the Newport News shipyards and then dine at Hotel Chamberlain in Old Point Comfort, Virginia. Luncheon speakers include Secretary of the Navy Knox, Governor Price, Governor Schricker, and several Navy officials.

The luncheon will be followed by a tour of Hampton Roads on the Steamer Virginia from which the Hoosier party will view the scene of the battle between the Monitor and the Merrimac and other historic points of interest. Upon completion of this tour, the party will return to Indianapolis.

Since the first part of the INDIANA'S launching cradle was put into place in July, two thousand men have rushed the ship to a point of near completion and an additional crew is engaged in building the cradle and working out the launching details.

The U. S. S. INDIANA is not Hoosier in name only for seven Indiana cities have contributed materials necessary for the construction of the ship. Noblesville has furnished molders rubber products; Lafayette, alum-

inum shapes; Elkhart, pipe fittings and hardware; Fort Wayne, electrical equipment and flow indicators; South Bend, bearings and respirators; Indianapolis, radio equipment, and East Chicago, valves.

According to the American Council of Shipbuilders, the state of Indiana regularly supplies limestone, coal, cement, oak lumber, alcohol, pumps and electrical motors for ship construction.

## What's This?

All the high school boys were missing from school Tuesday morning. They were all busy running to and from the gym, and scrubbing floors there. They were aided with rock wool and dirt remover. All did a good job, but the seventh grade boys, who sat on the first row of bleachers and served as spectators. The floor was waxed Wednesday with Ed Bowser, the janitor, in charge.

## Around The Dial

Lincoln Highway presented a most delightful program, starring Rita Hayworth. Rita was a dancer, who for a while thought dancing was the most important thing in life until she met "Dick." Dick who later de-

cided to be a foreign correspondent in London, never dreamed that Rita would be with him. Wasn't he the lucky one?

Hit Parade, starring Barry Wood, played the ten most popular numbers of the week; the leader was "I Don't Want to Set the World on Fire." The Kingston band starred in "America the Free," and played many popular pieces. Also featured were marches and the program closed with the beautiful hymn "Sweet Hour of Prayer".

## Our Illustrious Seniors

Miss Flossie Mae Mikel was born three miles south of Etna Green and has lived there all her life. The daughter of Mr. and Mrs. Alex Mikel, she was born March 9, 1924. She has gone to school here all her life, and is taking shorthand and typing, with the hope of getting a job as a secretary after graduation. She is president of the Senior class.

## Cat Saved By Juniors

Last Tuesday afternoon some of the Junior girls were selling class play tickets around town when they became involved in a very confusing mystery. While walking past the Methodist church, several of the girls heard the distressed "meow" of a cat, but there was no cat to be seen. Gertie McClane at once became interested and determined to find it. She looked everywhere but the cry always came from the general direction of "Porky" Jones's car which was parked in front of the parsonage. The girls looked under it and in it, but still no cat. They finally decided that it was under the hood. Gertie declared that they absolutely couldn't leave the poor cat in there to be cut in two when the car was started, so we pulled and pried and looked for a device with which to lift the hood, but in vain. Well, resourceful Gertie ran down the street to the barber shop and explained the situation to the owner. She came back and told them that there was a little red button somewhere which would lift the hood. The rescue party again joined in a futile search. Gerry Clark finally found it in the grill-work on the side. Lifting the hood they saw a small gray kitten running about frantically in search of escape. It had crawled in through the bottom and couldn't find its way out. They

couldn't reach it because it was afraid of them and ran back of the engine. A broom didn't even induce the frightened feline to come out. As it was getting late they decided to leave the cat to some other sympathizers of the Humane Society. The girls were informed later that the cat was rescued by Miles Igo.

## What Goes On At Class Meetings

The Junior class met on the morning of Nov. 5 to decide whether or not they would sell candy, pop, and popcorn. They also wanted to know how many tickets the students failed to sell.

The Freshman Class has been having several meetings lately with reference to the school dinner they are sponsoring.

## Success of Play Celebrated by Feed

The Mentone Junior class presented the play, "Don't Take My Penny," Nov. 4 at eight o'clock at the community building with Mr. and Mrs. Harvey directing. The ushers were six sophomore boys and girls. They were Roger Hodges, Max Tinkey, Jimmy Whetstone, Pat Meyers, Philis Lemler and Barbara Davis. The girls were attired in wine, black and red and white formals. Miss Patricia Meyers sang, "I Don't Want to Set the World on Fire," "Daddy," "I Cried For You" and "Till Reville," between the acts.

After the play the directors, Mr. and Mrs. Harvey, the cast, the ushers, the principal, and the janitor went over to the school building where a supper was served.

The menu consisted of turkey, mashed potatoes and gravy, sweet potatoes, cranberry salad, ice cream, cider and cookies.

## Study to Be Resumed For History Class

The Junior class will not have any excuses any more for not having their history lessons since the play is over. Mr. Smith said he was going to clap twice when it is over, once so we so we can have our history lessons from then on, and secondly because he knew it would have to be good because we put most of our study period for history on it.

## Movie of the Week

The movie, "Sergeant York," deals with the founder of the American Legion and his experiences leading to his great enterprise. This is a coming attraction at the Akron theatre next week.

The program, in charge of the visitors, was very entertaining. It consisted of a ladies quartet singing, "Amaryllis" and "Mighty Lak a Rose;" a paper on "Boys Town" and a humorous sketch in costume — "Who's Oscar?" The program was greatly enjoyed by all.

Walter Martin, of Mentone, now employed as telegrapher at Raber for the Nickel Plate railroad, had an aggravating experience Sunday evening. He has a best girl, as all young men have and took her to the Compton church on the evening in question. The steed was a pony belonging to Frank Gross. It was borrowed for the occasion, and proved to be of a balky and stubborn disposition. Consequently, the trip of 4 miles back to Raber was not particularly enjoyable as the pony had to

## FERTILIZER CONSUMPTION REACHES NEW HIGH.

Washington, D. C.—An all-time record fertilizer consumption was established when farmers used 8,311,000 tons of commercial fertilizer on their land during the past crop year, according to the annual consumption report of The National Fertilizer Association. This is an increase of more than one-half millions tons over prior years.

"Tonnage figures in themselves do not tell a complete story of plantfood consumption in this banner year, since there has been a significant increase in the amount of plantfood contained in a ton of fertilizer," said Charles J. Brand, Executive Secretary and Treasurer of the Association. "This year's tonnage figure was 16 per cent above 1920, but the amount of plantfood contained and used was 64 per cent greater." It seems likely that another tonnage increase is in store for next year. Tag sale figures for the first six months of 1941 are 6 per cent over 1940.

ARTLEY D. CULLUM, Ed. & Mgr.

THE D. A. R.

No doubt many people think the D. A. R. is just another social organization, but a few, by reading of our meetings and some by attending them have learned of some of the good things our organization is doing.

There is the project at Ellis Island, where material is furnished by the D. A. R. and a capable instructor is maintained to show and help the people "make things," who are awaiting admission into the United States. They are also taught Americanism through a manual published by our Society in many different languages.

About this time every year our attention is turned toward the Approved Schools. These are located mostly in the mountains of the middle southern states. These schools have been approved by our National Society.

Two of these schools are entirely supported by the various D. A. R. Chapters. A certain portion of our annual dues is allotted for the support of these schools. Besides this many chapters give money or other contributions.

Some of these schools have an enrollment of as many as 1800 students; while one of them has only 79 enrolled. The enrollment in the 14 schools total 7,945 students. One of these schools draws its enrollment from a radius of 250 miles. It is necessary for a student to live at the school and this takes a great many buildings.

Rug making, both woven and hooked, is taught in some of these schools; others make useful articles from discarded leather. Our chapter has had exhibits of some of the articles of handiwork which the students are taught to make, and are sold to help support the schools.

For the past several years, our local chapter, beside giving financial aid to these schools, has made up boxes of used materials and sent them to these schools before Christmas.

Any discarded clothing even the badly worn can be used in their rug work. Many of the garments are remade and some of them are traded to the inhabitants of the mountains for food which they have grown. They not only need children's clothing but they need clothes for babies,

men and women. The hospitals need worn sheets which they make into bandages.

Some of our friends who know we send the boxes each year, have asked our permission to contribute.

This year we are extending the privilege of contribution to this worthy cause to anyone who wishes to help.

If you have anything you wish to send to the mountain schools, notify me or anyone of the members of the

local chapter, or bring it to my home before the first of December.

Anthony Nigo Chapter, D. A. R.,  
Mrs. Ray Rush,  
Chairman, Approved Schools.

## FOUL WORDS

## NOTHING PERSONAL

By BOB ANDERSON

The Bulldog cage quintet—not a musical group—is still on top of the heap. When the final gun sounded at Akron Friday night there were five bruised, battered and tired boys in the Mentone dressing room. They were out-classed in weight, height and awkwardness but they still won by a score of 22 to 19. It was a nip and tuck affair all the way with neither team leading by more than three or four points at any time. In fact, it was about as hard on the nerves of the spectators as it was on the physiques of the players. The spectators included a greatly excited Miles Igo, who was forced to express his opinions from the bleachers due to a boil on the back of his neck, expended just as much energy as those actually engaged in the combat. The Mentone boys navigated the entire game without a substitution. High point honors were shared by the two centers, Tucker and McKee, with 13 points each.

The Pups (second team) lost a heart-breaker to the Akron seconds when one of the Flyers made a free throw in the last seconds of play to put Akron in the lead 20 to 19. Emery Mosier was high with nine points for the seconds.

## ART THROBS

One of the pictures being done in the Art class here at school is a Chinese Parade by Pat Myers. The colors are wierd and striking. The face of the girl has a shadowy bluish-green look; her headdress is of shiney steel. Chinese buildings and trees form a background making a very interesting picture.

Quite differently contrasted is the picture of a Spanish girl. It is a night scene and the colors are dusky and shadowy. The senorita dances in a dusky black and red gown of old lace. She wears an emerald ear ring. Indistinct musicians and buildings form a background. The picture is brightened by moonlight and hanging lanterns.

## AROUND THE DIAL

"Lux Radio Theatre," presented the love drama, "Hold Back the Dawn." Starring in this picture was Charles Boyer, along with Paulette Goddard, and Susan Hayward. This story was about a man who came to this country by marrying an American woman. Fibber McGee had quite a time entertaining their guests, Edgar Burgen and Charlie McCarthy. They were going to see the premier of the picture which these four gallant starts have made. "Look Who's Laughing." Bob Burns spent so much time talking about his "kin" that he didn't have time to play on his "bazooka." Bob Hope entertained a very handsome actor indeed, Adolph Menjou, the leading man of "Father Takes a Wife." They spent most of their time trying to decide who wore the best clothes. Frances Langford declared that Adolph did, because he didn't knit his own.

Clerk: Madam, isn't it the same with us human beings?

Pryer: I see in the paper that in some out-of-the-way corners of the world the natives still use fish for money.

Fryer: What a sloppy job they must have getting chewing gum from a slot machine.

Sloans: I feel stiff all over.

Arnica: What's the trouble?

### GARBLE! GARBLE!

Turekys, when the Puritans started the blamed thing, were wilder than the hornet that forgot and sat down too hard on his own bayonet, and they had a chance of 364 to 1, which is a good gamble in any game. But the New Deal ruffled up his tail feathers, plowed under one week's feed of corn and doubled his chances backwards.

From Thursday to Thursday is one week end in the middle and the old bird is picked both ways.

From scraps to scraps we give thanks and if a case of democratic indigestion gets too tough we'll try a good old fashioned dose of republican bay-window agony. (Just a pane or two).

There'll be a heavy run on cranberries, pumpkins and sugared spuds and the bromo-seltzer business will come out of hibernation in the medicine chest. Overstuffed shirts with no-bends will burp out the cramps like a peanut wagon whistle with the croup.

With New Year's, Easter, Fourth of July, Hallowe'en, Thanksgiving and Christmas, one can gallop thru the calendar with even strides, but when you stagger into November and find two Thanksgivings, you're getting pretty pie-eyed.

Mind-readers, seers and star-gazers who aim to tell the raw side of the future never mentioned this two-gobbler business.

Mrs. Willard Zolman, it was reported, had her car turn over three times Tuesday forenoon as she lost control while meeting a car. She stepped from the car uninjured.

Mr. and Mrs. Dell Meredith, of Warsaw, were entertained to dinner at the Charles Meredith home Sunday.

Mr. and Mrs. Dell Meredith are leaving for Florida to spend the winter.

Mr. and Mrs. Chas. Meredith and Mr. and Mrs. Lon Lehman of Warsaw, called on friends at North Manchester Saturday afternoon.

Mr. Loe Teel, who has spent the past twenty-four years in northwestern Wisconsin, has returned to Mentone to make his home.

Philip Lash, of Mentone, was one of the fifteen selectees to leave for camp Tuesday from Kosciusko county.

Jackie Julian is getting along very nicely.

## STUDENTS TO PARTICIPATE IN COUNTY MUSICALE

Mr. Revelli, University of Michigan, To Be Guest Conductor

The following Mentone High School band students have been invited to participate in a county music festival to be held in the Warsaw Armory on December 13, at 8:00 p. m. They are Bob Anderson, Barbara Creighton, Lola Tucker, Kate Snider, Betty Miner, Lillian Nettrouer, Waneta Baker, Phyllis Lemler, Robert Nelson, Murray Holt, Geneva Gibson, Forrest Meredith, Jack Dillman, Dean Decker and Pat Myers.

This county band, chosen from all the schools in the county, will be a balanced band of over 150 players. They will be directed by Mr. Revelli who is the director of the University of Michigan band. Mr. Revelli was responsible for the rise of the Hobart High School band a few years ago and from there went to the University of Michigan. The students of the county are fortunate in having such a capable director to handle the band.

## AROUND THE DIAL

Kate Smith presented the Shakespear drama, "Macbeth," on her program Friday night. She ended her program by singing, "God Bless America." Lux Radio Theatre presented "Merton of the Movies," starring Mickey Rooney and Judy Garland. Merton was a boy, who was movie struck and decided to go to Hollywood; how he finally got in the movies made an interesting and gay-hearted story. The first song of the week as is presented on the "Hit Parade" program is "Tonight We Love." "Horace Heidt and his musical Knights presented on the air, the famous movie actress, who has played with the "Lane Sisters" in a number of shows, Gale Page.

Mr. and Mrs. Ira D. Anderson and sons and Miss Mildred Anderson of Evanston, Illinois, Dr. Wendell Anderson of LaPorte and Orren Davis of Indianapolis, spent Thanksgiving with Dr. and Mrs. E. D. Anderson and son, Bob.

## MRS. DAVID HARSH BURIED HERE SUNDAY AFTERNOON

Mrs. David Harsh, aged 76 years, passed away at her home three miles southwest of Mentone at 1:45 last Friday afternoon after an illness of nearly a year of Bright's disease.

Funeral services were held Sunday afternoon with Rev. Fowler, pastor of the Mentone Baptist church, officiating. Interment was in the Mentone cemetery. Tucker funeral home, of Claypool, had charge of the arrangements.

## THE RED CROSS APPEAL

(American Red Cross News Service)

On the night of October 16, the U. S. Destroyers Kearney, proceeding in the North Atlantic off Iceland, was struck by a torpedo. Among the injured was Chief Boatswain's Mate Leonard Frontakowski. His life depended on the immediate arrival of blood plasma for an emergency

transfusion. While another destroyer steamed to the side of the stricken Kearney, carrying a naval surgeon, a plane loaded with blood plasma donated by RedCross volunteers took off from an undesignated Iceland air base.

The dramatic story of how the plane dropped the precious plasma to the Kearney and how it saved the

life of Leonard Frontakowski has been told in the news columns of the nation's press. It is well, however, to stress that the Red Cross was on the job with traditional promptness. The needs of our sailors in their dangerous North Atlantic assignment were anticipated.

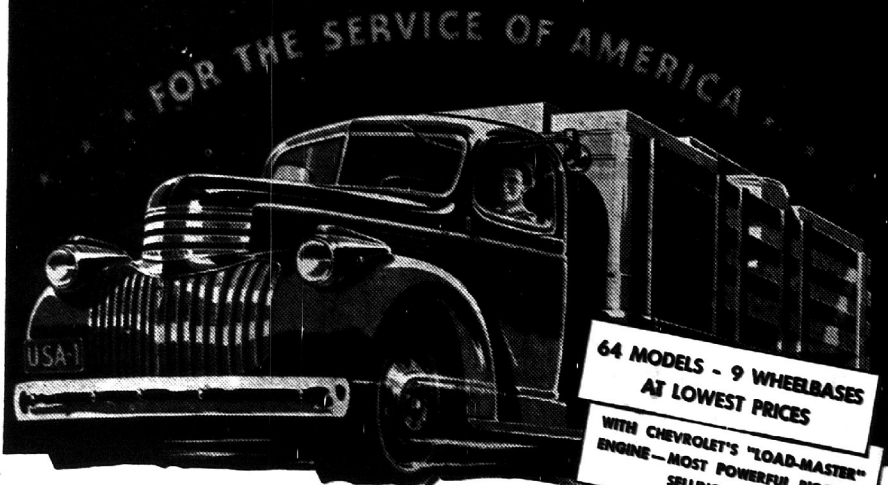

The Red Cross today is appealing to the nation for membership sup-

port. This support is needed so vitally that Red Cross leaders are asking for a membership comparable to that of the first World War when more than 18,000,000 adult Americans expressed their belief in the Red Cross by becoming members.

The Kearney catastrophe illustrated but one of the dramatic ways in which the Red Cross is organizing its forces for the defense of our country. Quietly and with little fanfare, the Red Cross is at work on the home front as well as the military front. Volunteers have undertaken scores of important responsibilities, of which the blood plasma program is but a single phase.

The Red Cross has started the job of helping the Army and Navy strengthen our defenses. Today your support is asked. So vital is this challenge, we cannot afford to neglect it.

"THINK RIGHT"

(By David V. Bush)

Think smiles, and smiles shall be;  
Think doubts, and hopes will flee.  
Think love, and love will grow;  
Think hate, and hate you'll know.  
Think good, and good is here;  
Think vice—its jaws appear.  
Think joy, and joy ne'er ends;  
Think gloom, and dust descends.  
Think faith, and faith's at hand;  
Think ill, it stalks the land.  
Think peace, sublime and sweet,  
And you that peace will meet.  
Think fear, with brooding mind;  
And failure's close behind.

Think not on what has been.

## FOUL WORDS

### NOTHING PERSONAL

By BOB ANDERSON

There are several burned fingers in the ranks of the Mentone basketball players. They got that way pulling a game out of the fire over at Bourbon last Friday night. You could not have received two cents for the Bulldogs' chances at the end of the half, for the boys looked as if they had forgotten to eat their Wheaties for the preceding three mornings. But they awakened in the second half and played a marvelous defense game which held the Comets to one measley point. At the same time the Canines showed a slight touch of offense and scored nine points (five of them on free throws) to win a hard fought battle 20 to 18.

The seconds, suffering from an over dose of rabbit hunting and lack of practice, flopped over and gave up the game to the Bourbon seconds by a score of 9 to 19. The spectators had the hardest job in this game—trying to stay awake.

Etna Green's next and it looks like a grudge fight so be sure and be there.

## THANKSGIVING

Millions of people have already celebrated Thanksgiving but millions more will celebrate Thanksgiving this coming Thursday. I look at Thanksgiving as a starter to get in the right spirit for the holiday of holidays, Christmas. Many people would like to celebrate Thanksgiving on the last Thursday of November because that is the original date. Still other people say that it should be a week sooner in order to leave a longer period of time between Thanksgiving and Christmas. I prefer the last Thursday of November. It was good enough for the pioneers of this country so its good enough for me.

Thanksgiving is a holiday for all people to be thankful. We should be thankful for this fine country that our forefathers made and fought for in order to make this a better place to live.

Editor Eugene Sarber.

## SCHOOL HAPPENINGS

The Senior play committee met in room 10 at 8:25 this morning to pick out the play their class wants to give. Those on the committee are: Lola Tucker, Grace Kaus, Flossie Mittle, Barbara Creighton, Bob Anderson and John Beeson.

On Monday, November 17, enthusiastic shouts could be heard from the Mentone Juniors. Yes, you guessed it. The Junior class rings had come. They are yellow gold with attractive engraving. We wonder, though, how long some of the boys will keep them.

The Juniors are walking around the assembly as dignified as can be. This is credited with their having received their class rings, which were purchased from the Terryberry Company at Grand Rapids.

The Home Economics students of the Seniors and Juniors are designing dresses that they could wear themselves. The purpose for this is if any student wants to take up art designing in materials that would help them.

The students of Mentone High School seemed very happy when Mr. Kelley told them there would be no school Thursday or Friday for a Thanksgiving vacation, but he added that we had to make up Friday. Groans expressed their idea of this.

## AGRICULTURE

Protests against wheat marketing quotas are rapidly resolving themselves into a question of constitutional rights.

Sound reasoning would decree that a farmer has every right to feed any wholesome product to his livestock regardless of whether the animals are consumed at home or mar-

keted through regular channels.

Denial of the right to feed the product of his acres and toil without payment of penalty does not cut the nation's surplus by a single grain. Discrimination against one group, in favor of another, shook fundamental beliefs in right and wrong.

## OUR ILLUSTRIOUS SENIORS—

Miss Barbara Jean Creighton was born September 27, 1924. She is the daughter of Mr. and Mrs. Hobart Creighton and lives on a chicken farm 1½ miles south of Atwood. She has gone to school here since the fourth grade, having attended Atwood school her first three years. She is taking advanced Algebra, English, Civics, Typing, and Short-hand this year, and plays a clarinet in the band. She is also office girl, and intends to take a business course at Indiana University after graduation.

## DREAMS FROM HOME EC-ERS

There are certainly a great many professions in the world. So many that most of us can't make up our minds. But the girls in the Junior and Senior Home Economics class have definitely eliminated one—fashion designing. They have come to the conclusion that there is entirely too much red tape connected. They would rather buy their clothes ready-made, anyhow.

First you draw a doll on paper. Then you draw a dress on it. Next, you draw the doll on cardboard, cut it out, and you are ready to begin. Already the idea has lost a lot of glamour.

You must decide what materials to use and what colors you want. Now when you start cutting and sewing you discover that it is rather hard to fit clothes on a slab of cardboard, but you keep on laboring with your ideal in mind.

After you've finished you decide maybe it was a little fun after all. At least you get a grade out of it.

## JOKES

Gee: What are you cutting that piece out of the paper for?

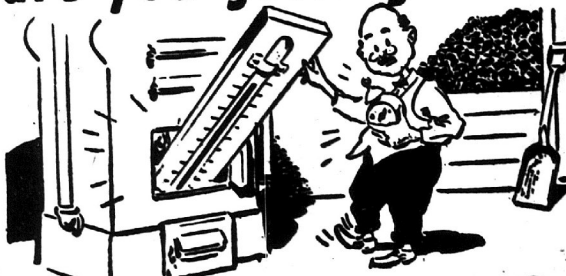

Whiz: It tells about a man who got a divorce because his wife went through his pockets.

Gee: What are you going to do with it?

Whiz: Put it in my pocket!

The mose resourceful farmer we've heard of recently was the one who left his son to run the farm and went away to college himself after the Christmas holidays.

# How much HEAT are you getting??

It's the AMOUNT of heating element you get in a ton of coal that governs its value—not its weight alone. In Great Heart you get more than in ordinary coals. It gives you intense heating power for the coldest days—plus lasting power that can hold a mild-weather fire with drafts closed, up to two days at a time. Its low ash is a labor-saver too, for you get less than a bushel per ton. In fact, you can't buy a better bigamous coal and it's guaranteed to please!

LESS THAN A BUSHEL OF ASH TO A TON!

Mr. and Mrs. Walter Lackey were hosts on Tuesday evening, at a 6:30 o'clock dinner for the members of the Anthony Nigo Chapter of the D. A. R., their husbands, families and several other invited guests.

The entire group sang America, then gave the Pledge of Allegiance to the Flag.

After a gracious welcome to the guests, by the regent, Mr. Ray Rush responded.

The program was very entertaining. It consisted of a coronet solo by Robert Nelson, accompanied by Mrs. Nelson.

The guest speaker of the evening was State Representative Hobart Creighton, who spoke on the subject of the Spirit of Thanksgiving.

Miss Barbara Creighton entertained with a clarinet solo, accompanied by Miss Stookey.

Included among the guests were Mr. and Mrs. Hobart Creighton, daughter Barbara and Miss Stookey, also Mr. and Mrs. Irvin Nelson and son Robert.

A social hour followed and the chapter adjourned to meet on Dec.
