Wedding Anniversary

Mr. and Mrs. Fred Swick were delightfully entertained at a surprise party given in honor of their fortieth wedding anniversary at the home of Mr. and Mrs. H. V. Johns on Sunday. At noon a three course dinner was served. The center piece for the table was a large wedding cake and other table appointments were in keeping with the Ruby Wedding Anniversary. A beautiful floor lamp was presented to Mr. and Mrs. Fred Swick by their children.

Those present were Mr. and Mrs. Adrian Little of Huntington, Ind., Miss Pauline Swick of LaFayette, Ind., Mr. and Mrs. Earl Smalley and son Jack, Mr. and Mrs. H. V. Johns and son David, Miss Margaret Swick and the guests of honor, Mr. and Mrs. Fred Swick.

NOTICE.

Babes Beauty Shop has moved from their location on North Broadway to East Main St., over Swift & Co. They occupy the front apartment on the second floor and their telephone number is 168 as before.

COPY OF ULSTER COUNTY GAZETTE DISPLAYED HERE

Mr. Arlo Friezner brought to the Co-Op News office last week a copy of the famous number of the Ulster County (N. Y.) Gazette. This particular issue of the paper which was so much in demand a few years ago, was printed on the day following the death of George Washington, first president of the United States and "father of our country". It contains the obituary, description of the funeral and funeral procession, the speech delivered by the speaker of the house concerning the tragedy and many other interesting articles.

The paper is the property of Mrs. Emma Cook of Mentone and has been in her family for years. From all appearances it is an original and not one of the counterfeit copies that were circulated a few years ago. The paper appears to be brittle from age and is almost illegible in places. The Gazette was placed on exhibition at the county fair.

THE NORTHERN INDIANA CO-OP. NEWS

Published Every Wednesday by
Northern Indiana Co-Operative
Association.

JESSIE RUSH, Editor and Mgr.

The report of the recent national nudist convention did not include a roster of the delegates but our guess is that most of them were not true members of the cult but taxpayers who had lost their shirts and were seeking sanctuary.

We don't know that anyone ever tried to find out which straw was responsible for breaking the camels back, but we have a feeling that one of these days we are going to see the tax that broke the taxpayer's back.

A large percent of the laws are necessary because so many people can't control themselves or manage their own business.

We live in a world whose interests, because of modern communication and modern transportation and modern need too closely related to permit one considerable portion of it to be engaged in a devastating war, and the rest to maintain a policy of isolation and strict neutrality.

Civilization has not changed war except to make it possible on a bigger scale.

Nowadays soldiers are mowed down in wholesale fashion by machine guns and poison gas. Even savages were less cruel to their captives than is gas, civilization's most potent enemy.

We are being forced to the conclusion that there is no such thing as saving our own skins, while the rest of the world crushes in ruin. Whether we like the idea or not we are going to have to take our share of world responsibility. Turning our back upon facts, or burying our head in the sand, is not going to solve the problem or dispose of it.

The question no longer is whether or not Sherman really said that war is hell. The question is, did Sherman in his effort to define war, make his remarks strong enough.

Some day when the tax burden becomes so heavy that it becomes actually oppressive, we as a nation are going to give some thought to the stupidity of an intelligent people permitting conditions to exist that make for larger penitentiaries and larger asylums all of which cost vast sums of money to maintain and much of which could be saved the already

over-burdened taxpayer if a little common sense were used.

Some day we are going to wake up to the nameless folly of permitting the unfit to marry and bring forth their kind as public charges. We are going to make impossible the reproduction of the known criminally minded to become a burden upon society. We have not reached that point yet because we choose to view the subject with weak sentimentality rather than through the clear vision of common sense. We can dodge and evade the issue all we choose, but that will not settle it. The nation that adopts the obviously sensible course in the matter will emerge from the heap the superior nation.

It is as much an art or achievement to wisely spend money as it is to earn it. Some people persist in working like horses to earn their money, and spending it like donkeys.

Andrew Mellon, Andrew Carnegie and John D. Rockefeller died leaving large fortunes, but there was a time in the lives of each one when, if he had lived with the same disregard of thrift that many a twenty dollar a week employee does today, he would never have been known for his success. Incidentally, John D. made his first dollar at the age of seven, raising turkeys.

The most unhappy person in any small town, is the woman who has social aspirations, but whom the local four hundred has not yet accepted into full membership.

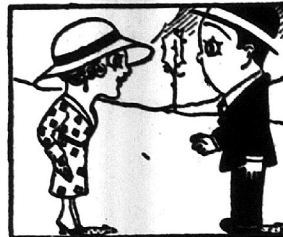

Did you know that it is against the law to set a mule on fire in the state of Maine?

There was one injury from traffic accidents every 24 seconds last year and in spite of our present safety measures the rate is going to be higher this year. Yet we still persist in driving through the streets of our little metropolis at a break-neck speed with an utter disregard for the little white signs at the city limits. Traffic accidents last year averaged \$43 per family.

However, motorists are not wholly to blame. A study of accidents last year in which there was a fatality and which involved a pedestrian showed that the pedestrian was at fault 55.2 per cent of the time. So remember to walk carefully as well as drive carefully. With all due respect to Mr. Reed and Mr. Johns—a funeral procession isn't a pleasant thing to see.

Advice to the lovelorn: The only two who can live as cheaply as one are the flea and the dog.

WIFE WANTED

She—What do you mean by following me around for hours?
He—I-er-er—thought you were my wife.
She—Well, I'm not.
He—Er—will—y' be?

UNLESS

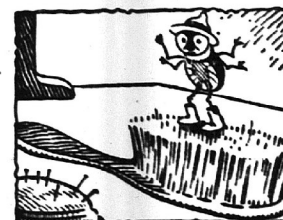

"Say, is there any danger in this business?"
"No, not unless you get shot."

NOT TODAY'S KIND

Professor—What did Columbus prove by standing an egg on end?
Student—That eggs in his day were cheap enough to be handled carelessly.

Describes a Cow

The cow is a female quadruped with an alto voice and a countenance in which there is no guile. She collaborates with a pump in the production of a liquid called milk, provides the filler for hash, and at last is skinned by those she has benefited, as mortals commonly are.—Sheffield Producers.

87 SPEED RECORDS BROKEN TO MAKE TIRES SAFER FOR YOU

Never Before Have
Tires Been Put to
Such Gruelling
Torture

AT SPEEDS as high as 180 miles an hour — with the hot, coarse, abrasive salt grinding, tearing, scorching his tires — Ab Jenkins' special racer, weighing nearly three tons, pounded over the Bonneville Salt Beds at such terrific speed that it caused the surface to break up. Before the end of the run the track was so pitted and rough that it was almost impossible to hold the car on its course. Yet Jenkins set 87 new World, International and American speed records on Firestone Tires.

Building tires capable of establishing such records is made possible only because of patented Firestone manufacturing processes. These exclusive features enable Firestone to provide car owners with tires that are *extra safe*.

For the greatest protection of yourself and your family equip your car with Firestone TRIPLE-SAFE Tires. By TRIPLE-SAFE we mean—

- 1 **PROTECTION AGAINST SKIDDING**—The scientific tread design gives longer non-skid mileage and stops your car up to 25% quicker.
- 2 **PROTECTION AGAINST BLOWOUTS**—Firestone Tires run up to 28 degrees cooler because every fiber of every cord in every ply is saturated with liquid rubber by the Firestone patented Gum-Dipping process. This counteracts the internal friction and heat that ordinarily cause blowouts.
- 3 **PROTECTION AGAINST PUNCTURES**—Two extra layers of Gum-Dipped cords under the tread add strength to the tire and give extra protection against punctures.

Now is the time to make your car tire-safe for fall and winter driving. Join the Firestone **SAVE A LIFE** Campaign today by equipping your car with a set of new **FIRESTONE TRIPLE-SAFE Tires** — the safest tires that money can buy!

YOU CANNOT AFFORD TO DRIVE WITHOUT FIRESTONE TRIPLE-SAFE TIRES

Last year highway accidents cost the lives of more than 38,000 men, women and children and a million more were injured!

More than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires!

Left is a section cut from a new Firestone tire. Note the thick, non-skid protection against skidding, blowouts and punctures. Come in and see a demonstration.

Tucker

Mr. and Mrs. Dearl Tucker are the proud parents of a baby daughter, born to them Wednesday evening, September 29, at 7:00. The infant, born at the home of Mr. and Mrs. Albert Tucker, weighed seven and one quarter pounds and has been named Marieta Kay.

Enters College

Miss Louise Paulus has entered Pestalozzi Froebel teachers college at Chicago, Illinois. Her parents, Mr. and Mrs. Cloice Paulus accompanied her to Chicago and spent the week-end with their son, Kay, who has a position with Hot Point and is also attending night school there.

Celebrates Birthday

Mrs. David Harsh and her daughter, Mrs. L. A. Boganwright spent Thursday with the formers sister, Mrs. Louisa Nichols near Rochester. Mrs. Nichols celebrated her 90th birthday anniversary that day. She has been confined to a wheel chair for the past twelve years but otherwise is in fairly good health.

Your Horoscope

OCTOBER 3, 4—You are sympathetic, far sighted, avoid extravagance and have the ability of making your abilities pay. Having a knowledge of what you are talking about you are a very interesting talker. You are a good trader and always fair in your dealings. You are honest, shrewd careful and conscientious in money matters, want all you earn and want to pay all you owe.

OCTOBER 5, 6, 7—People born on these dates possess a very artistic nature, are exact and precise in every line, and are able to work out any detail of artistic design. You take pride in your work and are master of your trade. You are well informed on other matters outside your trade or occupation.

OCTOBER 8, 9, 10—Although you are always ready to listen to any advice, you seldom take any of it. You have much originality, are very painstaking and thorough. People have faith in your judgement and integrity.

HAIL THE QUEEN

Long live the Queen! Miss Mary Mellott, a prominent member of the Junior class, has been elected as Mentone's Beauty Queen, to reign during the Warsaw Fair. Miss Mellott, along with queens from other schools in the county, will ride on a richly decorated float in the school parade Friday at 10:30 a.m. Other competitors were Miss Lucile Lightfoot and Mary Ellen Myers both of the Senior class. We wish Miss Mellott all the luck in the world and hope that all of Mentone will cheer hard.

DRAMATICS CLASS PROGRESS

The members of the Senior Dramatics class are rapidly gaining in their technique of the understanding of better plays. They are keeping scrap books in which they keep pictures that could be used as stage settings, of costumes of all periods, facial make-up and expression, famous stage and screen personalities. In a few weeks they will be taking up acting of short plays and will learn to adapt themselves to portray different characters and thoughts. They will be practicing several short plays and in due time will have their knowledge of dramatical work.

JUNIOR HISTORY-ART CLASS

In the Junior History class Tuesday Marjorie Long got a response from the group in her usual manner. A discussion of Wolfe inspired Mr. Mervil Smith to draw a picture of the gentlemen on the blackboard. When the masterpiece was completed Marjorie exclaimed, "Heh, heh, looks like the Rock of Gibraltar." This makes us wonder when people will begin to appreciate fine art.

FRESHMEN ELECT OFFICERS

The Freshman Class officers for the coming year are as follows: President, Iris Blackwell; vice president,

Belva McGowen; secretary, Helen Long; treasurer, Eleanor Wallace, with Miss Langell, as sponsor.

In their English class they were required to write in ink, 5 lines of an article from their books, on white paper and hand it in to the teacher, Mr. Paul Smith. The pupils voted to see whose handwriting was best. The three best samples according to the class votes were: Iris Blackwell, first; Juanita Nellans, second; Mildred Mahoney, third.

The Seventh grade have been ciphering and they find this ancient and educational game very exciting. Their teacher Mr. Fenstermaker is letting them cipher today. The captains are Wilfred Deaton and Jean Elliott. Wilfred's team won by two points. Better luck next time Jean.

MENTONE DEFEATS

BURKET AND SIDNEY

Last Friday evening the Mentone baseball team played Burket on the home diamond. The game was fast and all players played hard. The final score was Mentone 8 and Burket 3. Mentone had 7 hits, 8 runs, and 3 errors and Burket had 4 hits, 3 runs, and 21 errors.

Tuesday evening our team met the Sidney baseball team at Sidney. Three of Mentone's boys, Shirey, Wiltout, and Secor, made home runs in this game. Mentone made 16 hits, 20 runs and 1 error. Sidney made 8 hits, 8 runs, and 8 errors. The final score was Mentone 20 and Sidney 8.

AN OLD CANDLESTICK

TELLS ITS STORY

I am an old Puritan candlestick, whittled from fragrant pine. I first decorated the top of a Puritan fireplace. How joyously I watched the making of candles each fall, for I knew that with an abundance of candles I would never be empty. How oft I listened to the Indian War Cry, and shuddered for fear of being reduced to ashes.

And then the terrible day when the Redcoats came marching in! How proud I was of General Washington and his undying efforts for freedom. "Give me liberty or give me death," was now the motto of every man, woman, child, and candlestick.

Now the fever for moving westward took the colony, and in a covered wagon I made the journey to Ohio. The journey was long and tiresome, but I was constantly cheered by the

prospect of sitting on a new fireplace, lighting a new home in a new country, more fertile and prosperous than the last. How glad I was when the Journey ended and I again decorated a fireplace.

Soon I again saw boys marching off to war. How proud I was when president Lincoln made a speech in our little town, and I had the honor of lighting the table from which he ate his supper.

Time came and went, generation after generation passed on, and I drifted from place to place. At last I was sold to an antique dealer. Many wearisome years I spent in a show window because no one thought I was an antique at all, and decidedly not worth five dollars. From this window I once again saw boys march off to war, and again saw them return.

At last the silver lining of my cloud appeared. I now grace the home of a beautiful, wealthy lady. I am no longer needed for light, as electricity has taken my place. I again have the honor of sitting on a fireplace, but this one does not supply heat. How odd it seems, but I am content and I plan to spend my last days in leisure. "A Freshman Theme"

L. M. RASMUSSEN HERE, OCTOBER 6

Lester M. Rasmussen and party, noted evangelists, will present a program at the Baptist church Wednesday night, October 6, that we know none of you will want to miss. Rev. Rasmussen is not a stranger here; he is a personal friend of our local Baptist minister, Rev. R. O. Yeager and several people from this place heard and enjoyed his program at Akron, Ind., some time ago.

Eight different instruments will be used by the Rasmussen evangelists during this service. Namely, the Electric Vibra-Harp, Musical Saw, Piano, Ukulele, Glassophone, Auto-Harp, Piano Accordion and Xylorimba. Besides these, a variety of vocal numbers will have an attractive part in the program, all weaving together the great events which transpired in the life of Christ. The Glassophone played by Mrs. Rasmussen is a most unusual instrument made of glass tumblers each containing a different quantity of water.

Old favorites as well as a number of newer gospel songs will be included in this service. There is no admission charge and a free will offering will be taken. Come and bring your friends to the Mentone First Baptist church Wednesday, October 6, at 7:30 p. m.

Largest Fresh-Water Island

Manitoulin is reputedly the largest fresh-water island in the world, having an area of more than 1,000 square miles and enclosing more than 100 fresh lakes. Despite its size, Manitoulin did not attract settlers until a comparatively short time ago. It lies at the north end of Lake Huron.

Much Brass in French Horn

There's seven feet, four inches of brass tube twisted into the French horn. And it isn't French; it was invented in Italy. Musicians call this instrument a cross between a trumpet and a primitive animal horn. It is one of the most costly (and also one of the most difficult to play) wind instruments in an orchestra.

Universal—General

Universal denotes all without exception, general denotes the majority or nearly all, says a writer in London Tit-Bits Magazine. Excessive greed is universally condemned; a mean man is generally greedy. Love is a universal emotion. Superstition is general among people living in places untouched by civilization.

Scottish Lassie Seeks

Turk Navy Appointment

A Scottish lassie is greatly disappointed because she has been refused admission to the Turkish navy, reports the Montreal Star. She is Jean Ironsides, nineteen years old, of New Deer, Aberdeenshire. Last year the Turkish authorities decided to give women a chance to join the navy and a course of training is now being given.

Miss Ironsides read of this and sent an application to the Turkish authorities. It was turned down because she has not been trained in a Turkish school.

"I am terribly upset by the news because I did so want to be a sailor," said the strapping miss. "I have lived in this little village all my life. We are 16 miles from the sea, with very little opportunity to visit the coast, and my only experience of the sea was when I went on a steamer trip from Aberdeen. But I know several sailors, and their tales of faraway lands and exciting adventures in romantic countries thrilled me, and as quite a little girl I used to listen to them for hours."

440,000,000 Books in Record

One of the most remarkable books published by the British and Foreign Bible society is being reissued. Entitled "The Gospel in Many Tongues," it gives specimens of 605 languages in which the society has published some portion of the Scriptures. Doctor Kilgour, the editorial superintendent, remarks that philologists will find in the specimens material for comparison of cognate or diverse forms of speech; but to the Bible society they stand for nearly 440,000,000 books, distributed all over the world during the last 128 years.

Salvage at Scapa Flow

Nearly all the German ships which were sunk by their crews at Scapa Flow after their surrender to the British have been salvaged and their metal parts disposed of. Some of the steel was used for rails; some went to motor car manufacturers. The steel in the armor plate and the big guns went to tool makers, ship builders and engine makers. Some of it even went back to Germany. Reports from abroad state that nothing was thrown away.

Two Minute Sermon

By

Thomas Hastwell

THE FINAL ANSWER—Not long ago I visited a church. During the service the minister asked that the members of the church remain for a few minutes after the close of the morning service to organize for some necessary part of the church program. I was shocked and surprised to see fully three-fourths of the congregation leave at the close of the service and ignore completely the request and the opportunity to serve their church.

The incident impressed me and, I think, furnished an answer to the oft asked question as to why the churches are not making the gains in membership that they should and the financial headway that the cause merits. The incident, I think, could be duplicated in many of the congregations of this country, and the condition that brought it about, was in no wise confined to this one congregation.

The conclusion is that the reason churches do not make more headway both in financial and numerical strength, is that the membership for the most part is indifferent and thoughtless and does not have the program of the church at heart. The conclusion may sound harsh, but I am unable to find any other answer that squares with normal human action and normal human conduct. I do not feel that it requires any exhaustive survey to determine the reason for the lack of progress of the church. The action of this one congregation, which to a large degree is typical, furnishes the answer. Pursuing the matter still further, it comes down to the individual church members. There the responsibility rests, and all the surveys, and all the finely drawn out analysis that may be made of the problem, can arrive at no other conclusion. This is the final answer.

Japanese Women in Literature

In all periods of Japanese literature the work of women has been notable. It is said that the "Kojiki" and "Nihongi" were produced under the patronage of empresses. In the Eleventh century a woman produced the first novel, a prose epic of real life. To the same century belongs the "Makura no Zoshi" ("Pillow Sketches"), a realistic picture of social life in Kyoto of that time.

Man Can Learn From His Dog

The curious part of dog and human relationship is that the human being invariably learns something from his dog—the degree of knowledge according to the intelligence of the person.

Miss Marjorie Snyder Becomes Bride Sunday

An impressive fall wedding was solemnized at the Methodist Church of Culver, Ind. at three o'clock Sunday afternoon, October 10, when Miss Marjorie Snyder, daughter of Mrs. Vivian Snyder of Mentone became the bride of Mr. Wayne Buchanan, son of Mr. and Mrs. Murry Buchanan of Hebron, Ind. Rev. Richard Pengilly of the Methodist Church of Culver officiated at the single ring ceremony. He is a very close friend of both of the young people.

Miss Babe Snyder, sister of the bride acted as bridesmaid and Mr. Jack VanGilder as best man.

The bride chose for her wedding a three piece Autumn Tint suit with black accessories. Miss Babe Snyder was attired in a suit of steel grey with which she wore matching accessories.

After a short wedding trip Mr. and Mrs. Buchanan will be at home at Hebron, Ind.

Mrs. Buchanan, daughter of Mrs. Vivian Snyder graduated from Argos High school and for the past three years has assisted her sister in the Beauty Shop.

Mr. Buchanan is a graduate of Hebron high school as well as Purdue university. He is employed with his father as milk distributor.

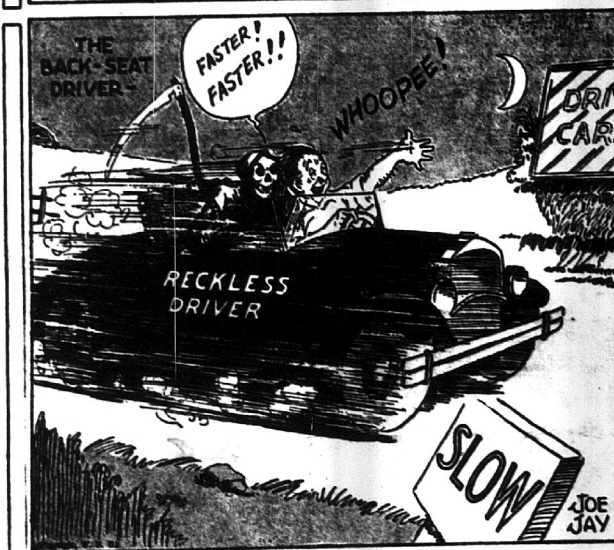

Other guests at the wedding were Mrs. Vivian Snyder and daughter Gladys of Mentone, Mr. and Mrs. Alpheus Snyder of Argos, Mr. and Mrs. Murry Buchanan, Mr. and Mrs. Glen Buchanan of Hebron, Ind., and Mr. Keith Chenoweth of Bourbon.

Rally Day A Success

The Rally Day of last Sunday was a decided success, the attendance being 46 more than one year ago. These special Rally Services are to continue until Sunday, October 14 when Bishop Edgar Blake, General Superintendent of the North Indiana Conference will be the guest preacher at the morning worship.

On next Sunday the Merger service at 9:30. Epworth League at 6:00 and evening worship at 7:00. All are invited. E. E. DeWitt, Minister.

Along the Concrete

The above is a familiar picture to all of us. We see them every day tearing along Main street, around corners and into filling stations without the slightest warning. We have all been guilty of one or more of these offences, which is probably the reason nothing has been done about the situation. We know that 15,000 pedestrians were killed last year by being run down by automobiles, yet we scarcely heed the children who play in our streets and often dart out across the highway with never a thought for the danger they are encountering. One child has already been knocked unconscious by a truck.

Whether or not they have a right on the public highway is a moot question. The fact still remains that they are there and must be protected.

Sooner or later we are going to wake up to the fact that these small speed limit signs put up by the state at the city limits are not sufficient to curb the speeding traffic. If necessary we will build a sign so high and so broad and so thick and so white and so startling that motorists WOULD read and heed the warning. It could even be placed in the center of the street for the first few weeks, so that traffic would have to slow down to drive around it. Something must be done.

Poultry Exposition

The annual Midwest Poultry Exposition will be held Friday through Tuesday, October 15-19 at the International Amphitheatre, Halsted at 43rd St., Chicago, Illinois. There will be something doing every minute. WLS Barn Dance and Homemakers hour will be featured daily. Other radio stars will be present in person. Several Cafeterias and restaurants will be provided in the Exposition Hall. There will be free parking space on the exposition grounds for 4,000 cars; police guards day and night.

The exposition will depict in its various separate divisions the whole cycle of the industry, from the egg through hatching, brooding and rearing and through the various complex paths of distribution to the palate of the consumer.

There will be a Breeder's display with a booth, background sign and a pen for five birds. There will also be an Egg Show and a Baby Chick Show.

For the producer, the chance to mingle with the successful leaders of his branch of the industry; to compare experiences, find the answer to the many questions coming up everywhere in the production process; answers that can be found only in the experience of others, perhaps far from his neighborhood. He will find spread out in exhibit form the latest and soundest results in the science of feeding, in equipment, in disease prevention, in management methods; equipment, methods, supplies and services in actual use. He can learn how to save money and how to earn money. Don't forget the date, October 15-19.

Dr. and Mrs. Wilber Shortridge of Gary were guests of Dr. Urschel's on Sunday afternoon. Dr. Shortridge was a classmate of Dr. Wendel Anderson at Indiana University, and was on the staff of Henry Ford Hospital with Dr. Urschel.

Mr. and Mrs. James Mentzer of Marion, Ind., and Miss Rosalind Mentzer of Dowagiac, Mich., were guests at the home of their parents, Mr. and Mrs. M. O. Mentzer Sunday.

Pressure at the center of the earth is computed at about 22,000 tons a square inch.

Made Himself Immune to Poisons
Formerly in medicine the word mithridate signified a compound electuary, used as an antidote or a preservative against poison. The word is derived from King Mithridates VI of Pontus, who is said to have made himself immune to poisons by accustoming himself to taking them.

Thirsty Trees

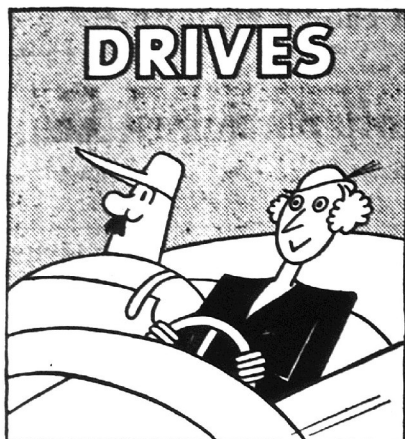

German scientists cite the ash as one of the thirstiest trees, says London Tit-Bits Magazine. On a hot day it will imbibe no fewer than 85 quarts of water from the soil. Its closest rival, the elm, stops drinking after 66 quarts. Another avid forest drinker, the birch, quaffs 60 quarts every 24 hours during a warm spell. Evergreens, in contrast, thrive on far smaller allowances. No matter how grilling the day, a spruce tree retains both its normal coolness and vigor if it can absorb a mere 13 quarts; a pine sucks up only nine quarts; while the average fir tree, whose dread of drought is correspondingly slight, finds seven quarts ample.

After being told by his school teacher that nothing was impossible and that perseverance would solve most of our problems, a Mentone school boy is said to have asked, "I wonder if it would put toothpaste back into the tube?"

"If the Indians had passed strict immigration laws they would still be in possession of this country, and that should be a lesson to us," a reader of this paper said the other day.

We saw a statement some place that 98 per cent of the thinking in this world is done by 2 per cent of the people. There are times when we have our doubts that the number who really think runs that high.

If people had stopped to think there wouldn't have been 37,800 persons killed in traffic accidents last year.

John Lewis is bidding for the farmers vote. Mr. Lewis should go out among the farmers and visit with them and find out what they think about the things he is trying to do. Farmers are used to work. They are used to long hours and very often small financial returns. They have little sympathy for the sit down strike. Farmers like to see everyone do well and receive as much of the good things of life as possible but have little sympathy for strikes and disturbances while the country is still on its back from the effects of the worst depression it has ever seen.

It is better to live in a two room house with little furniture and keep the bills paid, than it is to live in the big house on the hill and have every thing and be head over heels in debt; herein lies the secret of household management.

When one becomes dissatisfied with his surroundings the best remedy is to take a trip and visit other places. See how others live and under what conditions they live. The visit to be effective should settle the matter and result in satisfaction as to one's lot or a definite decision to change it.

A local man prides himself on his ability to make good gravy. The other evening in a group, he had the opportunity of a life time—a good gravy makers life time. The members of the group got to talking about

their knowledge of cooking and the dishes they could fix in the absence of the wife or other members of the family who could cook. One member of the party announced that he excelled as a gravy maker and he proceeded to tell that after he took the steak from the pan he poured in a half cup of water and there was his gravy. The expert gravy maker then opened up upon a dissertation of the fine arts of gravy making. He went down the line of clear gravies, brown gravies and cream gravies until he had the crowd spell bound. He described a certain cream gravy in language such as one might use in describing the famous Taj Mahal of India. The water gravy exponent changed the subject to one of the economic situation in China.

Did you know that there are almost as many Norwegians in the United States as there are in Norway?

It takes a pretty broad-minded person to see the error and wrong in ruthless price cutting. Most people think its all right for a price cutter to cut prices on things they have to buy, but all wrong when he beats down the price on things they have to sell.

In attempting to describe a certain very inefficient housekeeper a local woman was overheard to say: "Her house is the only place I was ever in that I could track dirt from the inside to the out of doors."

Peoples of India

India has more than 45 races, speaking 200 different languages. The origin of the first inhabitants of India is lost in antiquity, and invasions of foreign peoples began so early that little of a definite nature is known of them. It is thought that the Dravidian tribes of the central region are probably the nearest in origin to the early race. The most persistent invaders were the Aryans from central Asia, who brought their own language and religion and became overlords in later centuries. In the foothills of the Himalayas are Mongoloid peoples, akin to the yellow race, and in the extreme south are Malays, of the brown race.

The highest point to which a human being can ascend without involving danger to life is 16,500 feet. Do Not Climb Over 16,500 Feet

Strength of Men and Women
Only 54 per cent of women's weight is strength, while men's strength is 87 per cent of weight. Furthermore, women's muscles do not react as quickly as men's; their lung capacity is smaller; the number of red corpuscles fewer; their legs shorter. Women's greater endurance can't compensate for these physical disadvantages.

"Ventriloquism" From Latin
The word "ventriloquism" comes from Latin "venter" meaning belly, and "loqui," to speak. Thus it was long thought that control of the stomach muscles was necessary to "throw" one's voice. But it is known that the real secret is in controlling one's breath.

MARION SMITH WINS IN COUNTY JUDGING CONTEST

In the live stock judging, held Saturday forenoon at the Kosciusko County Fair, Mentone showed up very well by winning first and fourth places. Representing our school were Marion Smith, Lloyd Grass, and Wayne Baumgartner.

The boys judged five different kinds of livestock. Altogether there were twenty-three boys competing. The first five winners were: first, Marion Smith, Mentone; second, Almer Hibschnan, Syracuse; third, Lawrence Ulmer, Etna Green; fourth, Lloyd Grass, Mentone; and fifth, Edgar Teeter, Warsaw. As a reward these five will get a free trip to the live stock show at Chicago in December.

AGRICULTURE NOTES

The Seniors and Juniors are taking a course in Farm Management, which is very practical and requires real study. We are using a Farm Management text and workbook. The workbook contains many things which will also be very useful after we are out of school. A few of these are: laws that pertain to line fences, laws regulating the weeds along the roadside fences, rules and regulations of the State livestock board in handling animals infected with contagious diseases, and many useful things on the subjects of taxation and farm insurance.

The Freshman and Sophomore course this year is called "Productive Soils." At the present time they are studying the different types of soils and what they contain. They are learning to analyze the soil and some have brought samples from their farms, so as to see what the soils lack and what fertilizers are needed.

The Seventh grade has been studying the selection of seed corn, planting of wheat, and material on the

culture of small grains and corn.

A few weeks ago the high school agriculture classes went out to Man-waring's White City Egg Farm to practice field selection of seed corn; it was Improved Reeds Yellow Dent corn. The corn selected was then brought in and put in racks to dry. Later in the year this corn is to be used in judging and testing for the selection of seed.

DON'T BE ALARMED

If you happen by chance to see a Senior waving his arms in the air or stealing upon you with a knife don't be alarmed. It is only a dramatic student under Paul Smith. The latest we hear of this class is quite interesting. They are putting on pantomimic expressions which is acting ideas without speech. We hope that some of our ambitious Seniors will not be seen strolling in the moonlight on roofs.

EXPRESSING OUR OPINIONS

The Sophomore English class have been studying "Expressing Our Opinions." They have been somewhat frightened over the story of the "Lady or the Tiger." They seem to be very much puzzled over which came out to meet the brave young man, the lady or the tiger.

PERSIMMONS

We hear that the Seventh grade are now on a diet of persimmons. To explain, Mr. Mervil Smith told them that anyone who wished could take a bite. Tuesday a member of the class brought one of these persimmons to school. Several of the Seventh grade proceeded to taste of the much discussed fruit. They found that a diet of this fruit might prove to be quite unsatisfactory.

ADVANCED ADVANCED

A group of the Senior girls decided to form an advanced advanced Home Economics class. Miss Langell, the instructor in charge, is permitting them to prepare the foods that they think would prove most useful to them. During the past few weeks they have been making jelly and canning foods. They seem to be enjoying this class very much and they hope to earn more about foods.

VICTORIOUS

The Mentone baseball team is still continuing with the correct idea, that of becoming county champion. On

October 1, Mentone won over Silver Lake 13-7. Mentone made 12 hits, 13 runs, and 6 errors. Silver Lake made 6 hits, 7 runs, and 7 errors.

This victory gave Mentone a perfect record for this season and made them champions of the southern half of our county. The final championship game of the county will be played between Mentone and Milford, who won the position of being champion of the northern half. The game is scheduled for Saturday, October 9 at Leesburg. The time is 1:30 o'clock. The result and final score of this game is found on the outside page of this issue.

TO THE SENIORS

Rock-a-bye Seniors, on the tree tops,
As long as you study, your grades
Will not drop,
But if you stop digging, your Standards will fall,
Down will come Seniors, diploma
And all.

EXCELLING MERVIL'S JOKES

A farmer went to church the first time and when he got there he found a lady occupying his appointed seat. Having some trouble with his stiff collar and being somewhat embarrassed, he walked up to her and said, "Marden me padam, but this pie is occupied, may I sew you to another sheet?"

PHILOSOPHY

An ounce of gold can be spun to great lengths; an ounce of kindness to greater length.

It is tranquil people who accomplish much.

A man's true wealth is the good he does in the world.

The truly useful knowledge is Mastery. Mastery does not come by listening while someone else explains, it is the reward for effort.

REPORT CARD BLUES

Twas the day of report cards
And in every class

Not a creature was stirring;

Not even a lass

Pulled out her compact

To powder her nose,

But things sure weren't

In a state of repose.

Worried I scotched

Way down in my seat

I was all a tingle

From my head to my feet,

"Here Robert, Here Mary"

I heard the teacher call.

I was so scared

That I thought I would bawl

If I had just gotten

My lesson each night

I wouldn't have had

This terrible fright.

4-H NOTES

A 4-H party will be held in the Cafeteria room of the school house, October 15, 1937. The 4-H girls met Friday and elected officers for the coming year. They are as follows: President, Mary Mellott; Vice President, Iola Tucker; Secretary, Mary Marquess; Treasurer, Clara Schooley.

The officers of the boys 4-H club are as follows: President, Everett Mikel; Vice President, Joe Long; Secretary and Treas., James Beeson. The boys are also invited to the party given by the girls.

The committee for entertainment includes Mary Deaton, Juanita Nellans, Orval Secor, and Dale Wiltout.

The committee for refreshments includes Mary Alice Long, Jane Warner, Paul Vandermark, and Everett Beeson.

UNWELCOME TESTS

The Freshman have two tests scheduled for this week. Mr. Paul Smith got sympathetic Thursday and postponed the English test until the following day, but to the sad regret of the Freshman he gave the test a larger expansion and did they study. They are now worried for fear that Mr. Fenstermaker will not hold his own and post-poned their Algebra test. We wish them all the luck but we have a test once in a while also which sometimes we wish had been post-poned.

Two Minute Sermon

By
Thomas Hastwell

IN THE ABUNDANCE OF THY RICHES: The book of Deuteronomy is made up largely of addresses by Moses to the Jewish people, made in the latter years of his life. He realized his ministry, as their leader, was about at an end, that soon they would cross the border into Canaan. Not only was this the culmination of this great leader's forty years labors as he led his people from bondage in Egypt to Canaan, and moulded of a race of slaves a strong disciplined, God-fearing nation, but it was the culmination of God's plan for his chosen people.

It is natural that Moses would be most anxious that the people for whom he had labored so long as a leader should take with them into their new national life the commands of God. This is exemplified in one of his addresses when he says: "Beware lest thou forget Jehovah thy God, lest when thou hast eaten and art full, and hast built goodly houses and thy herds and thy flocks and thy silver and thy gold is multiplied, thou forget Jehovah thy God."

What more applicable thing could be said even today: Beware, lest in the abundance of thy riches and earthly possessions thou forget God. Truly there is as much need of this appeal to mankind and world over to day, as there was when Moses uttered it over two thousand years ago on the borders of Canaan: Beware, lest in the abundance of thy riches thou forget God.

Origination of the Airedale

Legend says the airedale originated in the valleys (dales) of the Ayr river, Scotland. Hence the name. Actually, English poachers, seeking to evade forest wardens, created the breed. They crossed the otterhound with various terriers to obtain a courageous hunting dog that seldom barked.

Along the Concrete

Here is a scene we don't see quite so often as the scene illustrated last week. Not, however, because they are not prevalent, but because the ambulance and the wrecker have reached the scene ahead of us and gathered up the gory pieces.

With cold weather and subsequent bad and treacherous roads just around the corner every precaution must be taken to protect our citizens and especially the school children from the onslaught of careless drivers who race through town every day without a perceptible lessening of speed.

On the other hand, the school child

ren and those under school age must do their part too. In the first place, don't make the street your playground! Had it not been for the quick thinking of a truck driver coupled with the expert manipulation of a huge stock truck at least one of the little tikes who were playing "catch" in the street Saturday would have been critically if not fatally injured. It was fortunate that the left lane was void of cars at the time or a wreck would have been inevitable.

Remember that October, November and December are the months in which traffic accidents reach their peak. Let's do our part to cut that peak down to a mere mound.

Two Minute Sermon

By

KNOWING GOD AS A FATHER:
In the days when Moses set up the Tabernacle in the Wilderness and gave to the children of Israel the religion of Jehovah, the ceremonies and the ritual all revealed God as a far away diety, unapproachable, except through sacrifice and pompous ritual and obeisance, a God who must constantly be appeased and bribed if one were to avoid the consequences of his wrath.

When Christ came to the earth he brought with him a new idea of the relationship between God and man. Instead of the old Jewish Jehovah he preached the sonship of God and man. Instead of a wrathful, avenging God, alert to destroy man, He told of a God who was a father to mankind, a God to whom man might go as he would go to an earthly father, and take into his confidence, and, to whom he might pour out his secret soul.

I've often thought, as I have talked with men, that many of them today have as their concept of God, the old Jehovah God, the far away, aloof, wrathful diety of old. They have never come into the relationship with their God that Christ would have them come. They have never learned to look upon God as a father, wise, just, merciful. They have missed the most heartening, consoling and helpful part of their whole religion.

Some kind soul has discovered another word to be used in the place of "delicious" in describing the refreshments served at a social function. The new word is "choice". When a society reporter has two or three items to write up, in which the hostess served refreshments, she can now introduce some variety into her column. Instead of a monotonous succession of delicious refreshments, variety can be afforded by the introduction from time to time of the sprightly word "choice" refreshments. All society reporters feeling the need of the change will hail with acclaim this latest discovery.

Parrots have been known to have a vocabulary of over 200 words.

If two men were engaged in a heated argument and a third stepped up and slipped into the hand of one of them a knife with which he killed his adversary, the act would be vigorously condemned, yet this is exactly what is done when this country, or any other country, ships munitions of war to another nation. The argument that if we did not supply them some one else would is about as foolish as it would be if the same argument were used in the case of the two men.

They did it when we were in school as well as when you were in school and they still do it, that is, make the cheap pencil tablets out of paper that has the same texture as the oatmeal wall paper so popular a few years ago. It is difficult to write on and more difficult to read. With all the improvements that have been made in other things in the past forty years it appears strange that no improvement has been made in the school writing tablet.

Contrary to the popular conception that a red cloth will infuriate a gentleman cow, it is now known that a bull cannot distinguish one color from another. It is the movement of the cloth, not the color that enrages the animal.

Our feeling that the human race is becoming more intelligent receives a severe jolt every time we pass a pedestrian on the highway at night dressed in dark clothing walking with his back to the approaching traffic. Everyone knows that under such conditions it is most difficult

for a car driver to see a traveler in the road, especially when the lights of an approaching car are in his eyes. It is a most foolhardy act. Everyone walking on the highway at night should face the approaching traffic and, if wearing dark clothing should carry a white handkerchief or a flashlight in his hand.

An object in possession seldom retains the same charm that it did in pursuit. - Pliny the younger.

"How you have aged", is the first thought that runs through the minds of two persons who have not seen each other for a number of years. Strange we do not feel that we have changed much but that our friend has grown grayer or heavier or thinner as the case may be. If we would but stop to think we would know that he is thinking the same things of us.

The most effective way to dispose of an objectionable would-be leader in the nation, state, community or social organization is to give him all the rope he will take. If he lacks leadership and real merit he will soon hang himself, and thus effectually dispose of himself.

The fact that one marriage out of six results in divorce indicates that there is a need for training for marriage and home making. This, the most important venture in our whole scheme of living, is usually gone into without any previous knowledge or training. The wonder is that the ratio of failures is not higher.

In conjunction with this there should be a course in every school on child psychology and the rearing and training of children. Many parents undertake the responsibility of rearing a family of boys and girls to take their place in a most complex civilization without any knowledge of how to go about it. It is an injustice to the child. With even elementary training in child psychology and child rearing many mistakes that are most costly to the child could be avoided. The child always pays not only for its own mistakes that it makes as it grows up, but for the mistakes of the parents also.

SENIORS ALMOST ILL

The Seniors are suffering from the effects of laughter. In Civics class when Martin Ernsberger gave a description of a defective person the students laughed until they were almost unable to hold their chairs while Mer vil Smith became so effected that on leaving the room we thought perhaps we had better call an ambulance.

They had another spell of laughter when on entering Dramatics class Dean Bowen flipped Frank Smith's suspenders and the two boys were seen by Paul Smith. (He always has his eyes open.) Paul called them to the front of the room and told the class we were going to have a pantomime, which was the subject being discussed. We didn't know we had such a small boy in our class until Frank, the school teacher gave our little boy Dean a spanking.

POSTURE

As we all know, posture is one of the greatest things we should cultivate to the very extent. Good posture is the best position of the body parts in relation to one another.

I think that school students should be constantly drilled on the subject of posture and its effects on the body. You have heard many people say, "I have not cultivated my posture to the greatest extent and it hasn't hurt me yet." But did you ever stop to consider what hard labor you are causing your body's organs to perform. It may not show as yet in your life but later you may suffer for this unkindly act placed upon yourself.

It is much easier for a young person to learn correct posture because their bodies have not yet completely formed all habits of bad posture. Therefore I think that everyone should be taught and helped all that is possible in gaining more knowledge about posture and forming a habit of using this knowledge to the best advantage.

4-H PARTY A SUCCESS

A 4-H club party consisted of the boy's and girls 4-H clubs within the last several years was held at the school house October 13. There were sixty-four present including our leaders Miss Langell and Mr. Harrison. Two members of our high school faculty were also present, Mr. Bowers and Mr. Fenstermaker.

We were honored to have Mr. Clark, our county agent, to give a short discussion on club work in the future. Everyone reported a very enjoyable time and we hope to continue having social gatherings of this manner.

LET'S DEBATE

A very interesting debate has been carried on this week. The subject was, All Boys Should Do Housework. Both the Freshmen and the Sophomores have been debating on this subject. The affirmative side received the honor of being the winner.

Mr. Paul Smith has received a challenge from a teacher at North Manchester. The challenge states that he wished to have Mr. Smith's beginning debaters debate against his beginners. This has aroused quite a lot of excitement among the beginners this week.

A MISUNDERSTANDING

A misunderstanding between Mr. Paul Smith and Mildred Mahoney took place this week in their English class. Mr. Smith had just given them a test and instructed them to trade papers for grading.

Mildred: How did you say to trade papers?

Mr. Smith: Did you say, how to grade them?

Mildred: I said, how did you say to trade papers?

Mr. Smith: Did you say number eight? (Mildred shook her head no.) I guess you'll have to repeat it.

Mildred: How did you say to trade papers?

Mr. Smith: Oh, it doesn't make any difference.

MENTONE DEFEATS MILFORD 8-5 IN CHAMPIONSHIP GAME

Last Tuesday afternoon Mentone defeated Milford, 8 to 5, in a clean and lively game, to win the championship of Kosciusko County. The game was played on the Leesburg diamond, so as to give both teams an equal start. The teams were well balanced; Milford showed superior individual strength, out hitting Mentone 14 to 10 But due to Mentone's heads-up ball and fine team work they were able to hold down Milford's scoring quite effectively. On several occasions Mentone outfielders by quick throws were able to catch Milford runners off second and third.

Milford started off fast with two runs in the first, one in the second, and one in the third. But Mentone scored five in the second to gain the lead and then added two in the fifth, and one in the seventh. The umpires were Glen Hatfield of Warsaw, and Court Slabaugh of Syracuse.

The play by play description follows: First inning, Milford: A Bayne walked and stole second on the next pitch. On the second pitch Jones scored Bayne with a double, but was out himself trying to reach third. R. Bayne doubled. Bryan fled out to left field and Bryan took third. Kaiser singled, scoring Bayne. Dewart struck out to retire the side. 2 runs, 2 hits, 1 error.

Secore struck out. Shirey singled. Linn and Wilttrout imitated Secore. No runs, 1 hit.

Second inning, Milford: Orn was safe at first on an error. Traster singled and Tusing fanned out. Then A. Bayne singled, scoring Orn. Jones walked to fill the bases. R. Bayne hit to Wallace and Traster was forced at the plate. Bryan grounded out, Secor to Bayne. 1 run, 2 hits, 2 error.

Tucker and Bayne both singled. Kercher struck out. Wallace singled to fill the bases. Eiler walked, forcing in Tucker with Mentone's first

run. Secore singled, scoring Dayne and Wallace. Errors by the catcher and the first baseman let Eiler and Secor score. Shirey grounded out, short to first. Linn fled out to short. 5 runs, 4 hits, 3 errors.

Third inning: Bryan grounded out. Kaiser doubled. Dewert struck out for the second time. Orn singled to score Kaiser, but was thrown out at second. 1 run, 1 hit.

Wilttrout also failed to connect for the second time. Tucker reached first on an error: Bayne walked. Kercher fled out to center field. Wallace grounded out, leaving both men stranded.

Fourth inning: Traster singled. Tusing singled. A. Bayne reached first on a fielder's choice, Traster being forced at third. Jones fled out to Bob Tucker, who made a nice catch and throw to hold Tusing at second. R. Bayne struck out. No runs, 2 hits. Eiler walked. Secore fled out. Shirey and Linn grounded out.

Bryan walked to start the fifth. Kaiser singled and Bryan was caught at third. Dewart fled out to center field. Orn struck out. No runs, 1 hit.

Wilttrout drove out a hard hit to left center and stopped at third. It was the best hit of the game. Tucker walked. Bayne struck out. Kercher fled out to the pitcher and Tucker was out at second. 1 hit.

Sixth inning: Traster grounded out to Bayne unassisted. Tusing grounded to Shirey. Wallace grounded out. Eiler singled. Secor struck out. Shirey was safe on an error. Linn singled, scoring Eiler and Shirey. 2 runs, 2 hits and 1 error.

Seventh inning: Jones and Bayne singled; Jones scored, but R. Bayne was caught at second. Kaiser fled out to left field. Dewart struck out. 1 run, 3 hits. Mentone: Tucker grounded out. Bayne fled out to center field Kercher hit a triple and went home on an over throw to 3rd. Wallace singled. Eiler walked. Secore grounded out. 1 run, 2 hits, 1 error.

Eighth: Orn grounded out to pitcher. Traster was out at first. Tusing fanned out. 0 runs, 0 hits.

Shirey was safe on an error. Linn fled out. Wilttrout was hit by a pitched ball. Tucker walked to fill the bases. Bayne fanned out. 1 error.

Ninth: Bayne singled and was out at second trying to stretch it into a double. Jones grounded out to pitcher. Bayne singled. Bryan grounded out. Mentone: Wilttrout to Bayne to end the game. 0 runs, 2 hits, and 0 errors.

Meaning of Name "Alabama"
The name "Alabama" actually means "thicket cutters" or "medicine gatherers," since it is apparently derived from the Choctaw words "alba," meaning vegetation, and "amo," meaning to cut or gather.

HOROSCOPE

OCTOBER 18, 19 - You have no patience with opposition or interference with your work, or attempted dictation. You are ambitious, desirous of place and honor, and have a gift of eloquence. You love your home and family above everything else.

OCTOBER 20, 21 - You are willing to assume all the responsibility whether you succeed or fail in your undertakings, doing all the directing, and do not care for the opinion of others unless what you believe rests on proof, and you like to prove things for yourself.

OCTOBER 22, 23 - You make a success of all your undertakings. You have a great deal of endurance, although nervous and excitable, and are likely to go to extremes. You are an eloquent, fluent talker, full of fun and wit.

Grass Snake Is Gentle

The slender green, or grass snake, which grows to a length of perhaps one and one-half feet, is the gentlest of serpents and should never be killed, asserts a writer in the Detroit News. It's more sensible to jump on a chair at sight of a mouse than to shrink from one of these harmless creatures. Its teeth are too tiny to make a scratch on your thumb and a grasshopper makes it a big meal.

Geese Have Long Life

Geese are supposed to be relatively long-lived. Where they are kept for the production of feathers it is said a goose will give a fair yield of feathers for 10 to 12 years or longer. History tells of an instance where geese have lived for 100 years or more.

Northern Indiana Co-Op. News, October 27, 1937.

Subscription Price \$1 Per. Year

YES, IT'S TRUE

We are offering you the Co-Op News at an incredibly low cost to you. All of you farmers would gladly sell a dozen eggs for a years subscription to the home-town newspaper that has served you so well and so long. For more than five years we have published the Co-Op. News, starting from scratch and bringing it up through its various stages until now we offer you an eight-page weekly that gives you what you can get from no other publication, home-town news. The city papers that come into your home, as well as the radio, keep you posted on the news of the world; the public library and magazines that you take supply your fiction and brilliant and illustrated treatises on various interesting topics of the day. But all of these lack the homely touch—all of these fail to keep you in touch with the people you have known all your life and whom your father and mother and possibly your grandfather and grandmother before you, knew and loved. Though the afore mentioned publications are experts in their field—they can never take the place of the home town weekly. They each have their duty to perform and each serves entirely different purposes.

O. E. S. POT LUCK

The regular meeting of the Mentone chapter O. E. S. was held Monday night at the Mason's hall. A pot-luck supper at 6:30 was the main feature of the evening.

After the regular business session a committee consisting of Mrs. E. E. DeWitt, Maurice Dudley, Edna Burns and Eileen Mollenhour were responsible for an entertaining program of music, stunts and contests, the latter creating a lot of merriment.

Guests were Iva Marie Stookey, an Associate Matron of Leesburg Chapter O.E.S. and Mrs. Charlotte Holloway of Fort Wayne. Many local members were present who do not regularly attend meetings and the evening was a most enjoyable one.

WE WANT EGGS!

Beginning November 1,

The Northern Indiana Co-Operative
Association Will

Pay You \$1.00 per Doz.

For good fresh eggs, either white or brown,
the same to be used for one year's subscrip-
tion to THE CO-OP. NEWS!

FOR TEN DAYS

Starting November 1st, and continuing for the next ten days, this offer holds good. All eggs will be taken care of at Clark's Store, Hill & Lemler's Grocery or the Mentzer Company. Bring your eggs in to these merchants; they in turn will write out a receipt for you and the Co-Op News will be yours for the next year. The drivers of the grocery trucks, Mr. Albert Tucker and Mr. Lewis Foor will take your subscription for you too. If your hens are not laying at this time, any of these merchants will be glad to sell you a dozen eggs at regular price which you can return to them for your subscription.

You can readily see that this offer includes people in town also, who do not raise chickens. Your grocer will gladly sell you a dozen eggs at the regular price; then you can return the eggs to him and he will write out your subscription for you. This also includes those of you who have already come in and renewed your subscription. All you have to do is bring in a dozen eggs and we will extend your subscription one year. This plan is three-fold inasmuch as it benefits you, your merchant, and your newspaper.

Only residents of Kosciusko, Fulton and Marshall counties have access to this offer. Outside of these, the cash subscription price of \$1.00 per year will be charged. This low cost does not even pay the cost of mailing, wrapping and handling, but we must have a paid-up subscription list to present to our advertisers.

Remember, this offer by which you can get your paper with this minimum of cost to you, lasts only for a few days, beginning Monday, November 1st. So don't delay—see your grocer today!

Miss Willodean Janke and girl friend of Michigan City spent the week-end at the home of the formers parents in Mentone.

Mr. and Mrs. Harold Weissert and daughter Carol Rose spent several days last week at the home of Mrs. Weissert's brother, Mr. and Mrs. Ernest Mast of near Plymouth.

HIGH SCHOOL NEWS ITEMS

THE PURPOSE OF OUR PAGE

We have several purposes for publishing our page in the paper. We would like for you to bear these in mind as you read it. First, we believe our patrons are interested in what we do. Second, we are trying to present suggestions to our own student body that will help improve it; we realize that we are not perfect. Third, we are trying to learn something about the time, material, and effort that it takes to publish a paper. To do this, each class is completely editing the whole page for one week. This week it has been prepared by one section of the Junior class. Finally, may we point out that we are just beginners? We are very apt to make mistakes; if we do, please overlook them. Also, we will appreciate any suggestions our friends may have to offer for the improvements of this page. Geraldine Nellans, Editor.

A BOUQUET FOR SCHOOL PAGE

The following paragraph is quoted from a letter received from Justin Long, who is a freshman at Purdue this year.

"I read the school news with much interest. I think that the school page staff is to be congratulated. I am particularly interested in the theme that appeared in the October 6 issue. In my estimation it was much better than a theme written by a student here at the university which was printed in 'Scrivener', Purdue literary magazine. I may be prejudiced in favor of the Mentone school news, but all the same I enjoy it, and would like to see more like the 'Freshman Theme'."

AN "A" STUDENT

Just what do we mean when we refer to a person as an "A" student? Too often we consider only his monthly report, but that is not all that should be included; in fact that is only a minor characteristic.

A number one student is considerate of others. Perhaps he has studied his lesson, but that does not justify him in keeping others from studying theirs. Not meaning that he should sit in deep concentration all the time, but there is a time for humor, and this time is not while others are trying to study.

One does not have to be active in school sports to be an "A" student, since in many schools sports are not available for girls and girls have an equal opportunity with boys for this honor. On the other hand a boy to whom athletics is offered may feel that the time needed would be used to a better advantage in some other field. While if the student is an athlete he must show good sportsmanship in every play.

The clothing and person of an "A" student is cleanliness itself.

"Why can't we chew gum during school hours?" is the students cry. Perhaps we can see no harm in chewing gum, but it is a rule and a number one student is eager to observe all rules.

An "A" student is always respectful and polite to teachers and classmates as well as members of their own family.

In connection with this subject all high school students were asked to list the five characteristics which they felt were the most outstanding, or in other words, those which every A-1 student would have. The results proved very interesting. Forty-five different qualities were listed. Some of them by as many as forty different students; others only once. In conclusion we shall list the first twenty and the number of times they were mentioned. After you have finished reading them why not check yourself? How many of them do you possess?

LEWIS BLUE WINNER

In the first year Latin class, Mr. Kelley offered a prize to the person who could say the declension of *latus* in the first and second declensions, in the shortest length of time. Lewis Blue said it in eleven seconds and Betty Janke followed by a mere two seconds more. Lewis is anxiously awaiting his prize.

TROPHY AWARDED

Mentone high school has been awarded a large trophy for winning the County championship in baseball. The trophy was presented by the Harter's Sporting Goods Store of Goshen, Indiana. It is now on display at the Drug store where it may be seen until Wednesday, October 27. After that it will be placed in the trophy display at the schoolhouse.

HOPE DEATON PLACED 4th

Hope Deaton, a freshman, placed fourth at the sectional judging contest held at Fort Wayne, October 16. The girls participating in this contest judged baking.

She won this placing among a group of eighteen girls, who were first prize winners in their own counties.

She also won a trip with four others to the National Live Stock show at Chicago in December. The four others are as follows; Marion Smith, Lloyd Grass, Mary Deaton and Juanita Nellans.

SEASON TICKETS

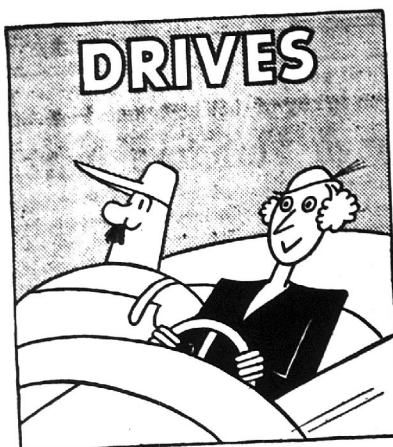

The basket-ball season tickets are now being sold by the basket-ball players and the members of the band. The price for adults is one dollar and a quarter. The price for students is seventy-five cents. This is an increase of twenty-five cents over last year. The extra money will be used by the band for uniforms. By buying a season ticket, an adult can save one dollar and a student sixty cents.

EXPLANATION

The school news did not get into this office until Saturday morning. By that time we were a little cramped for space, hence many good articles had to be omitted.

JESSIE RUSH, Editor and Mgr.

"One of the finest eulogiums I ever heard pronounced over a good man who had gone to his reward," a reader of this paper said the other day, "was pronounced by a pallbearer after a funeral here recently. We were returning from the cemetery in the car. No one had said anything for some time when one of the party said: 'Well, we buried a MAN today'."

If it is true that the very streets of heaven are paved with gold the fellows who spend all their lives hoarding up a few hundred dollars worth of the stuff are going to get a shock when they see the thing for which they spent their lives on earth, used as paving material.

What merits a greater reward after this life than the rearing of boys and girls into honest god-fearing citizens?

There is nothing that the world can give that affords a parent so much genuine pleasure as a son or daughter who grows up to be an obedient, earnest, worthwhile young person, and there is nothing that can bring a parent quite so much genuine grief and disappointment as to have a son or daughter grow up and fail to have these worthwhile qualities.

"I have a neighbor," a local man was overheard to say last week, "who I gave credit for being unusually industrious because he gets up every morning, summer and winter, at five o'clock. I discovered the other day that he does not get up because he wants to, but he can't sleep after five o'clock, and becomes nervous and has to get up. He spends his time from then on wishing he could sleep like his neighbors do."

A large percent of individual failures in life are due to lack of thrift and the ability for self discipline. The young man who cannot save a part of his wages when he is getting a few dollars a week will not save when he is earning ten times as much and the man who cannot save a part of his wages under our present scheme of living lacks the essential element of success.

The reason many cannot save is that they lack the power of self denial. They want everything they see, and if they have the money or can get credit, buy it. They go through

life with the hounds of want always at their heels because they refuse to deny a weakness and manage their lives.

A recent survey of the unemployed of the country showed that the majority of them were either unskilled, or had but slight training in any skilled labor.

This condition is due to the fact that in the past young men have been unwilling to serve an apprenticeship in a trade because the wages paid during the training period were less than they could receive running an elevator in a department store or driving a truck.

A wise young man should know that a trade that can be learned in two weeks will never offer much stability, or pay very good wages for the reason that such a workman is too easily replaced, and he has too much competition, from the fact that many like him choose the trade that offers the largest immediate returns and is the easiest learned. The old German custom of every young man learning a trade has never been improved upon.

Most people would succeed in small things if they were not troubled with great ambitions. - Longfellow.

We can't have an infected finger that is sending its poisoned virus into the system, and have a healthy body, and we can't have one section of the world living in poverty, want and ignorance, and have a healthy world.

As we have told you before, Mrs. Roosevelt recently confided in her column "My Day" that she is always nervous the first of every month until her bills are paid. It is a pity more people do not possess similar virtues.

However, it is a good thing that Mrs. Roosevelt isn't in charge of the federal government just now. She would be in a constant state of trepidation.

All of us have at some time felt like Publius Syrus when he said, "I have often regretted my speech, never my silence."

Recently an article was printed to the effect that fifty-seven thousand Democrats in a recent mayoralty election in New York City who wrote in the name of Fiorello H. LaGuardia for mayor, spelled the name 155 different ways. A reader of this paper, of uncompromising Republican faith, has asked us to check up on the item. He questions that the literacy of the opposition party runs that high.

Red Cross Replaces Farm Family Losses

The Red Cross gave agricultural rehabilitation to 10,116 farm families following the severe eastern floods of last winter. Types of aid included feed, seed, livestock, farm tools and machinery and other items essential to agricultural productivity. More than \$599,000 was expended by the organization to meet these requirements.

In addition to occupational assistance, rural families hard hit by the flood waters were rescued, clothed, fed and sheltered by the Red Cross. Where it was necessary the Red Cross repaired and rebuilt out-buildings, barns and other structures. Medical and nursing care were provided and homes refurnished.

Red Cross agricultural rehabilitation benefited nearly three times as many families as received all other types of Red Cross occupational rehabilitation combined.

Labor's advocacy of the Red Cross program is attested by recent statements from William Green, president of the American Federation of Labor and John L. Lewis, president of the United Mine Workers of America.

"Red Cross aims and purposes are highly commendable and deserving of the support of all classes of people," said Mr. Green.

"The activities and service of the American Red Cross satisfy a great need of the people, and I strongly urge that it receive the unqualified support of all during its annual Roll Call for members," Mr. Lewis said.

Thieves Rob Mentone Business Houses

Two thieves visited our little village Friday night, October 22 and broke into three business places some time around midnight. The business houses who suffered losses were Northern Indiana Co-Operative Association, Ernsberger Lumber Company and the Standard Oil Company Bulk Plant. The feed department of the N. I. C. A. was broken into and one Canteen Candy Vending machine, one peanut machine, one gum machine and all their contents were torn from the wall and broken. Another peanut machine was broken into, making the total loss approximately \$7.00.

At the Ernsberger Lumber Company the thieves entered the north door and cut their way into the inside door that led to the office. Several valuable tools were taken from the tool case and some pennies that happened to be in a small drawer were also taken. The monetary loss was very small.

The Standard Oil Company suffered the greatest loss. Mr. W. A. Warner, agent, reported sixty gallons of gasoline and twenty gallons of kerosene taken from the bulk plant in the south part of town.

Sheriff Yeager was in Mentone Saturday morning investigating the thefts. It is the popular belief here that there is some connection between these petty thefts and those of Sidney which occurred early Wednesday morning of last week. No important clues have been discovered but authorities are still working on the case.

WEDDING

Bradway-Lane

The marriage of Miss Marjorie Bradway of Kokomo, only daughter of Mrs. Henry W. Bradway of Mentone, to Mr. Victor Lane of Richmond, Ind., son of Mr. Ira Lane of Kokomo, was solemnized Sunday morning at 8:30 o'clock at the parsonage of the M. E. Church in LaFontaine, Ind. by Rev. Donald E. Bailey, pastor.

The single ring ceremony was performed before an improvised altar banked with baskets of yellow chrysanthemums. The couple was attended by the bride's mother and Mr. Wayne E. Tolle of Kokomo. Rev. Bailey and Mr. Tolle are boyhood friends of the groom.

The bride wore a street length dress of green crepe with black accessories. Her flowers were a shoulder length corsage of Johanna Hill roses. Mrs. Bradway wore brown crepe with matching accessories and a shoulder corsage of rust colored roses and pomponiums.

At noon the bridal couple were entertained at dinner at the home of the bride's grandfather, Mr. Allen Jefferies in Mentone. The table was beautifully decorated with a two tier wedding cake surrounded by white chrysanthemums and rose buds in pastel shades. The places were marked by name cards in the bridal motif.

Mrs. Lane, formerly of this place, is a graduate of Kokomo High School and has been employed for some time at Sweet's Book Store in Kokomo. Mr. Lane is a graduate of Kokomo High School and is employed with the Electro-Lux Cleaner Company in Richmond where the couple will make their home in the near future.

1938 Chevrolet On Display Saturday

The show room of the Motor Inn Garage, Chevrolet agents here, displayed to the public two of the new 1938 Chevrolets Saturday. Mr. Wallace has already delivered his first Chevrolet this season to Mr. James Bradway of Atwood. It was a storm gray DeLuxe Town Sedan that was displayed on the floor. Wallace has taken orders for three more.

Farmers of the community showed great interest in the added trunk space in the new cars. With the spare tire laid flat against the back of the compartment and the shelf that was in all 1937 models removed, there is ample space for one cream can, two one hundred pound sacks of feed and one egg case with room to spare.

The 1938 Chevrolet is the roomiest

ever built. The rear seat is a full two inches wider, and luxury is evident in every detail. Come in and see the only low-priced car in which you can be assured that passengers can relax in quiet, comfort and safety.
